Assembly, Legislative: Rulings, Observations and Opinions of the Chair (*continued*):ACTING-SPEAKERS AND TEMPORARY CHAIRMEN OF COMMITTEES (*continued*):

If a member wandered from the scope of the bill, he would be asked to resume his seat, 15674.

As Temporary Chairman of Committees:

If a member had canvassed a ruling he would be out of order, 5572.

Debate: A member had exhausted his time for speaking, 5540, 15221.

Interjections, Interruptions and Disorder: Interjections are disorderly, 5535, 5554.

If a member wished to contribute to the debate, the Chair would give him the call later, 5535.

There were far too many interjections, 15220.

There was too much audible conversation in the Chamber, 5574, 10185.

Members wishing to hold private conversations should leave the Chamber and converse outside, 10185.

A member is entitled to be heard in silence, 3900.

It is disorderly for members to call "Chair" while the Chairman is giving a direction to the Committee, 5574.

The following members were called to order: Mr Causley, 5562; Mr Cruickshank, 5561; Mr Petersen, 5582; Mr Pickard, 981, 10223; Mr Singleton, 10223; Mr Whelan, 10820; Mr Yabsley, 10820.

Points of Order: No point of order was involved, 3906, 5570, 5572, 5574.

If a member wishes to speak to a point of order he should do so and not read the entire contents of a bill to the Committee, 3613.

A Minister is entitled to reply to what a member has said in debate, but not under the guise of taking a point of order, 3900.

Procedure: An amendment to delete a complete clause or schedule of a bill is out of order. Voting against the schedule would have the same effect as the proposed amendment, 2789, 3897.

A member who takes exception to a remark may ask for it to be withdrawn but it is not competent for another member to do so, 5574.

A member should refer to a Minister in the correct manner, 5555.

Assembly, Legislative: Rulings, Observations and Opinions of the Chair (*continued*):ACTING-SPEAKERS AND TEMPORARY CHAIRMEN OF COMMITTEES (*continued*):

In Committee a member is not entitled to make an address to the reply in the second reading debate, 10820, 10822.

A member should return to the scope of the bill, 10222.

In Committee a Minister must confine his remarks to the Estimates being considered by the Committee. However, he may reply to issues raised by members who spoke on those Estimates, 5570.

When speaking to a clause a member should not engage in a second reading debate or reply to matters raised in that debate. The remarks should be confined to the clause before the Committee, 11075.

B. C. WILDE, Esq.: Appointment, 45.

As Acting-Speaker:

Debate: A member had exhausted the time allowed for speaking, 11631, 11632, 11634.

Documents: A member may read extracts from a book but it is not in order for him to read lengthy extracts from a publication. A member is bound to make a speech using his own words though he is entitled to use copious notes, but he is not in order if he reads lengthy extracts from publications, 1241.

Statements quoted from a newspaper article should be related to the debate, 8786.

It is the responsibility of a member who quotes from a newspaper article to vouch for the accuracy of the statements quoted, 8786.

Interruptions and Disorder: Interjections are disorderly, 891, 8786.

The member who had the call was quite capable of delivering her speech without any assistance from members on her side of the Chamber, 891.

There was far too much audible conversation in the Chamber, 15677.

The Chair called members on both sides of the House to order and informed them that they would be given the opportunity to participate in the debate if they sought the call, 890.

Interruptions, Interruptions and Disorder:

There was far too much audible conversation in the Chamber, 15655.

Members wishing to indulge in conversation should leave the Chamber, 15655.

Relevance: Remarks must be relevant to the question before the Chair, 2779.

R. C. A. WOTTON, Esq.: Appointment, 45.

CHAIRMAN OF COMMITTEES (J. R. FACE, Esq.):

Appropriation Bill: In Committee the only considerations that are relevant are those related to recurrent and non-recurrent expenditure, 15233.

Though the measure was concerned with recurrent expenditure, or its lack, the Chair would allow the introduction of material that pertained to management and to policy, but only by way of passing reference, 15206, 15211, 15231, 15237, 15238, 15243.

Bills: The Chair could not accept an amendment to the short title. Such an amendment is permissible only if the substance of the bill is changed by amendments to subsequent clauses, in which case the amendment to the short title would be dealt with on recommittal, 6597, 9880.

A member may move an amendment to a clause if he so desires. The fact that adoption of the clause may have a consequential effect on a subsequent schedule is beside the point, 9891.

Chair: A member should address his remarks to the Chair, 4483, 4650, 4652, 9879, 10208.

19th February, 1986, to 22nd February, 1988

Assembly, Legislative: Rulings, Observations and Opinions of the Chair *(continued)*:CHAIRMAN OF COMMITTEES (J. R. FACE, Esq.) *(continued)*:

A member should not treat the Chair with contempt, 7723.

A member should not canvass a ruling of the Chair, 7431.

If a member did not desist from interjecting and canvassing the Chair's rulings by utterances, he would have her removed, 15244.

Debate: A member had exhausted his time for speaking, 5255, 5770, 7960, 10169, 15207, 15388.

Members should be careful to avoid tedious repetition, 4673, 6597, 7724.

Divisions: Any member has a right to call for a division, 15245.

When successive divisions are taken and there is no intervening debate after the first division, or the intervening debate after the first division is limited in nature and the Chairman of Committees considers that sufficient time has elapsed after the division bells have rung, he may order the doors to be locked and the vote taken, 3126.

When the Chair had put the question a division had not been called for. In future when he put the question Opposition members should make their intentions clear, 10204.

Interjections, Interruptions and Disorder: Interjections are disorderly, 4672, 7960.

A member should desist from replying to interjections, 4483.

The Chair was satisfied that a member had been disorderly, 6601.

There was far too much audible conversation in the Chamber, 2640, 5242.

A general exhortation to order applies to all members disorderly at the time, 5257.

Members leaving the Chamber should do so in an orderly manner, 5241.

The Chair reminded members of the public seated in the gallery that they were not at the theatre and informed them that if there were a recurrence of their behaviour he would have no hesitation in removing everyone from the gallery, 4660.

If there were any further outbursts from the gallery the Chair would have those in the gallery removed, 9880.

Members on both sides of the House were equally as guilty of creating a disturbance, 9879.

A member was trifling with the Committee, 15378.

Assembly, Legislative: Rulings, Observations and Opinions of the Chair *(continued)*:CHAIRMAN OF COMMITTEES (J. R. FACE, Esq.) *(continued)*:

A member was asked to sit down, 7723, 9885, 9888, 15238.

The Chair named a member as guilty of disorderly conduct, 3126; And reported the matter to the House, 3127, 7433.

A member who had been called to order was told that if he persisted with his outbursts the Chair would have him removed from the Chamber, 10204.

The Chair had called order three times. A number of members were close to being removed from the Chamber, 15381.

A member who had been called to order was warned that he had been called to order for the last time, 9880.

The following members were called to order: Mr Akister, 4660; Mr Amery, 13011; Mr Baird, 15379; Mr Beck, 5543, 15387; Mr Beckroge, 4672; Mr Caterson, 2770, 3123; Mr Causley, 4483; Mrs Crosio, 7958; Mr Griener, 5765; Mr Jeffery, 15386; Miss Machin, 15243; Mr McIlwaine, 4671, 5259, 15210; Dr Metherell, 9880; Mr Phillips, 5771; Mr Singleton, 5732, 10204, 10205, 15211, 15371; Mr Whelan, 15382; Mr Yabsley, 6598, 6601, 9880, 11619, 11637.

A member was warned, 15233.

Motion: To set the record straight, with the consent of the Committee, a member was permitted to amend a motion, 16317.

Offensive and Objectionable Remarks, Imputations and Aspersions: The following expressions were required to be withdrawn: "Honky solicitors", 4673; "Chicken", 6600.

Personal Explanation: A member who is unhappy about something said in debate should use the forms of the House to make a personal explanation at the appropriate time, 15244.

Points of Order: A member should come quickly to his point of order, 9891.

No point of order was involved, 4673, 6820, 10207, 13011, 15211, 15379, 15382.

A point of order was upheld, 9884, 9885.

A point of order was disallowed, 10216.

A member may not make a personal explanation under the guise of taking a point of order, 15232.

Points of order cannot be used to support debate, 15210.

There had been too much trifling with the House with ill-founded points of order, 15233.

Assembly, Legislative: Rulings, Observations and Opinions of the Chair (*continued*):

CHAIRMAN OF COMMITTEES (J. R. FACE, Esq.) (*continued*):

Procedure: There is no requirement that a Minister be at the table. A Minister's presence is required only for the purpose of moving motions, as when a member is to be removed from the Chamber, 7719.

A member was reflecting on another member by making reference to whether that member should be in the precincts, 4643.

Relevance: Remarks must be relevant to the question before the Chair, 3123, 4484, 4643, 4649, 4650, 4657, 4673, 4767, 4795, 5243, 5246, 5249, 5525, 6227, 6228, 6597, 7431, 7958, 7959, 7960, 9885, 9888, 9889, 15202, 15206, 15208, 15210, 15382, 15383; though passing reference may be made to other matters, 6227, 7958, 15202, 15206, 15208, 15210.

Discussions on the Estimates should be confined to specific and detailed items, allocations of expenditure and administrative matters, 15375, 15387.

The Chair proposed to be more firm in requiring members to keep within the ambit of the clause, 10168.

The Chair was allowing a Minister some latitude only because several members of the Opposition had digressed and dealt with extraneous matters, 7723.

The Minister was making only passing reference to matters to which the Chair had ruled a member should not refer, 15379.

Members should know what can or cannot be said in debate, 15385.

If a member failed to keep her remarks relevant to the clause being debated she would be asked to resume her seat, 9885.

DEPUTY-SPEAKER (J. R. FACE, Esq.):

Address in Reply: The Address in Reply debate cannot be used as a personal attack on another member, 1071.

Imputations, allegations of improper conduct, charges, or innuendos against another member may be made only upon a substantive motion framed for the purpose. The motion for the adoption of the Address in Reply should not be used for such purpose, 1072.

The Chair gave a comprehensive ruling on the guidelines for this debate, 365.

Appropriation Bill: In the second reading debate the general financial structure of the State is open for consideration. Members should deal generally with the finances of the State and Government revenue policy.

Assembly, Legislative: Rulings, Observations and Opinions of the Chair (*continued*):

DEPUTY-SPEAKER, MR (J. R. FACE, Esq.) (*continued*):

No detailed reference should be made to administrative acts, nor should discussion be entered upon in respect of particular items included in the departmental estimates, 5213.

Matters involving detail and administration should be left to the Committee stage of the bill, when the Estimates are considered in detail, 5213, 5220.

Chair: A member should address the Chair, 357, 8686, 13826.

If the Chair had to call members to order again they would be removed from the House. Members should not make fun of the Chair, 1394.

A member should not reflect on the Chair, 15770.

Members on both sides of the House were trifling with the Chair, 14067.

If a member disregarded the ruling of the Chair, the Chair would have no hesitation in asking him to resume his seat, 15775, 15780.

Debate: To enable the Chair to ensure that members are given the time allotted by the standing orders Opposition members should say after they are given the call that they are leading for their party. If they fail to do so, the Chair must assume that they are not leading, 2601.

A member may not debate a matter that is the subject of a question upon notice but if the member sought to proceed in general terms the Chair would permit him to continue, 8943.

A member had exhausted his time for speaking, 210, 357, 705, 714, 958, 1084, 1397, 3892, 4058, 5090, 6114, 8259, 8929, 9012, 9202, 10067, 10070, 10765, 10963, 14174, 14640, 14645, 16109, 16110, 16111.

A member's remarks were approaching tedious repetition, 9097.

A member should not introduce new material in reply but should only rebut or clarify what has been said in debate, 15335, 15336.

Divisions: The Opposition Whip was too late to call for a division. The question was decided on the voices, 6222.

Documents: A member who was leading in the debate for the Opposition was allowed to read from copious notes, 6828.

The Chair asked a Minister to identify the source from which he was quoting, 14029.

19th February, 1986, to 22nd February, 1988

Assembly, Legislative: Rulings, Observations and Opinions of the Chair (*continued*):DEPUTY-SPEAKER, MR (J. R. FACE, Esq.) (*continued*):

Grievance Debate: Matters raised during the debate do not have to be of recent occurrence. However, members should restrict their remarks to matters of real concern. If the grievance is in respect of occurrences in the member's electorate, his remarks should be limited to them, 2206.

The grievance debate may be reasonably wide-ranging. It was in order for a Minister to refer to a matter raised in the adjournment debate on an earlier occasion, 6429.

Hansard: A member who wished to have information incorporated into *Hansard* would have to seek leave to do so, 10493.

When a member seeks to have material incorporated in *Hansard*, as it is usually of a statistical nature the member should make it available for perusal prior to seeking its incorporation, 10492.

Interjections, Interruptions and Disorder: Interjections are disorderly, 363, 366, 1118, 7068, 8686, 9697, 16109, 17040, 17486.

A member is entitled to be heard in silence, 7068.

There were far too many interjections, 1113.

If there were not so many interjections the member would complete his contribution to the debate in a shorter time, 17486.

There was far too much audible conversation in the Chamber, Members who wished to converse aloud should do so outside the Chamber, 2036, 3893, 8987, 16614.

A member who had made a contribution to the debate should not interject, 487, 1726, 6826, 15645, 15648.

A member was close to being suspended from the House, 9697.

It is disorderly for members to read newspapers in the House, 6986.

The Chair reminded members that if their conduct was so disorderly as to require their removal from the House at this late stage of the session it would impose great hardship upon them, as the House would shortly adjourn for some time, 7761.

If a member did not desist from interjecting the Chair would have him removed, 9114.

As debate on the bill would be long and protracted, if members interjected and were disorderly the Chair would not hesitate to remove them, 9841.

Assembly, Legislative: Rulings, Observations and Opinions of the Chair (*continued*):DEPUTY-SPEAKER, MR (J. R. FACE, Esq.) (*continued*):

A member who had been called to order twice was warned that if he continued to conduct himself in the way he had been he would spend the rest of the session outside the Chamber, 13675.

A member was warned that he was getting close to being removed from the House, 16119.

A member was trifling with the House, 14470.

A member was asked to resume his seat, 15780.

The following members were called to order: Mr Akister, 13185; Mr Armstrong, 2029; Mr Baird, 15615, 16117, 16118; Mr Beck, 1075; Mr Beckroge, 4321, 7070; Mr Catterson, 478, 15812, 17534; Mr J.A. Clough, 1251, 17210; Mr Greiner, 16356; Mr Hunter, 15843; Mr Jeffery, 2370, 2372, 2604, 7006, 7009, 10489, 10491, 14461; Mr Kerr, 8683; Miss Machin, 10964; Mr McIlwaine, 8682, 10047, 13994, 15844; Dr Metherell, 10964, 16977; Mr T. J. Moore, 16357; Mr Peacocke, 2370; Mr Phillips, 1264; Mr Pickard, 212, 2219, 8266, 8686, 8935, 9202, 10964, 14176, 16978; Mr Rozzoli, 11443; Mr Schipp, 14307; Mr Singleton, 3888; Mr Webster, 9696; Mr Wilde, 11683; Mr Yabsley, 358, 958, 1718, 2013, 9841, 9867, 13675, 14088, 14308; Mr Yeomans, 8544, 8545, 10961.

If the Chair had to call members to order again they would be removed from the House, 1394.

A member who had been called to order was reminded that if he continued to interject he may be required to leave the Chamber, 2029, 7009.

A member who had been called to order was reminded of the Chair's two previous general exhortations to order, 9868.

Motions: It being fifteen minutes after four o'clock p.m., the debate was interrupted. Pursuant to Standing Order 123A, the motion lapsed, 4060.

Offensive and Objectionable Remarks, Imputations and Aspersions: The following expressions were required to be withdrawn: "One can tell the Liberals by their tumescent right arms held in a fascist salute", 2604. "You have no principles when it comes to aborigines. You do not have a sense of guilt. Your party is the party of the grazier class. You are the people who

DEPUTY-SPEAKER, MR (J. R. FACE, Esq.) (*continued*):

raped their daughters; you are the people who bugged their sons, who put their wives into servility", 2604. "The member is a liar", 14091.

A member was required to withdraw words that he attributed to another member but that the other member said he had never used, 9092.

If a member is offended by a word used by another member it is for the offended member to ask that it be withdrawn, 7953.

When a member has been required to withdraw offensive expressions the Chair is not in a position to ask the member to apologize, 2605.

Points of Order: No point of order is involved in a misstatement, and a misrepresentation is not a basis for taking a point of order, 1114.

A member should come quickly to the point of order, 3888, 17040.

No point of order was involved, 365, 1071, 1396, 2635, 2787, 3610, 6051, 6073, 6082, 6414, 7951, 9026, 9198, 9207, 9699, 10491, 10765, 13183, 14067, 15505, 15617, 15770, 15844, 16104, 16118, 17486.

Points of order upheld, 2370, 4362, 4767, 6058, 11077, 15624.

Points of order disallowed, 4359, 6429, 9025, 9029.

Too many frivolous points of order were being taken, 16118.

Procedure: The Chair ruled that bills were cognate, 17041.

A Minister had sought and been granted leave to introduce one bill and had then sought leave to introduce that bill and its cognate bills. A point of order was taken that the motion for leave to bring in the main bill should be withdrawn before proceeding with the cognate bills. The Chair said that it was an obvious mistake on the part of the Minister who was re-introducing the bills and that he should be allowed to proceed, 2750.

A member who wishes to raise matters that reflect on another member should do so by way of a substantive motion, 7949, 7950, 9092, 9677, 14067, 14624.

The standing orders do not provide for the Chair to call any particular member from any side of the House at any particular time, 17535.

Assembly, Legislative: Rulings, Observations and Opinions of the Chair (*continued*):

DEPUTY-SPEAKER, MR (J. R. FACE, Esq.) (*continued*):

Only the member who has the call may seek an extension of time, 9095, 9116.

A member who had spoken to a motion under consideration cannot move the closure, 1569.

As the question, That the question be now put, had been put and passed, the Minister had a right of reply, 6222.

There is no requirement that a Minister be in the chair at the table of the House. The only reason a Minister is in attendance in the House is so that he can move a motion to have a member removed for disorderly conduct, 5057, 5058.

Debate of any statutory instrument, whether subject to affirmative or negative procedure, is confined to the contents of the instrument, and discussion of alternative methods of achieving the desired effect is not in order, 15769, 15771, 15783.

Ministers, whether in the Legislative Assembly or in the Legislative Council, should be referred to by title, or as "the Minister in another place", 7006.

The Chair informed members that a member was about to make his maiden speech and should be afforded the usual courtesies, 9688.

When Opposition members rise to speak in a debate they should indicate whether they are leading for their parties, 5892, 13025, 13068.

Relevance: Remarks must be relevant to the question before the Chair, 1257, 1395, 1476, 2370, 2371, 2372, 2598, 2605, 3142, 3441, 3500, 3609, 3888, 4627, 4630, 5893, 5895, 6079, 6585, 7742, 7752, 7952, 8251, 8457, 8553, 9094, 9095, 9206, 9833, 10048, 11080, 11081, 11861, 11862, 12497, 14067, 14069, 14343, 14465, 14957, 15087, 15335, 15613, 15615, 15646, 15778, 16101, 16350, 16534, 16535; and only passing reference may be made to other matters, 2372, 8251, 14343, 14465, 14957, 16101, 16534, 16535.

The Chair had stated that members would be permitted to make passing reference to matters not squarely within the scope of the bill but it was unfortunate that some members had sought to use that liberty as an opportunity to introduce broader issues into the debate, 15613.

The Chair drew the attention of a member to the scope of the bill, 17486.

19th February, 1986, to 22nd February, 1988

Assembly, Legislative: Rulings, Observations and Opinions of the Chair (continued):

DEPUTY-SPEAKER, MR (J. R. FACE, Esq.) (continued):

On several occasions a member had been reminded of the need to keep his remarks relevant to the bill. The Chair gave a member a last warning in that respect, 15617, 15624.

When the question before the Chair was whether an ordinance should be disallowed a member must confine his remarks to why it should be disallowed, 15817.

The Chair had been tolerant because the emotions of those with strong views on the matter were aroused. A member's remarks were outside the ambit of the bill, 5894, 6061, 11080.

If a member did not keep his remarks within the terms of the bill, he would be asked to resume his seat, 5894.

If a member continued to flout the Chair's ruling on relevance the Chair would have no hesitation in asking him to resume his seat, 14934, 15615.

As a member had continued to defy the Chair's ruling on relevance he was asked to resume his seat, 15617.

Sub Judice Rule: Passing reference only may be made to cases before courts, 4362, 6585.

The *sub judice* rule applies in respect of matters that are identical with those that are in issue before the judicial tribunal. The Chair was satisfied that the matter was before a judicial tribunal and ruled it out of order, 5089.

It would be unfair and unjust to an accused if a member were to seek to deal with the rights and wrongs of a specific case, though he may highlight problems in having a matter brought on for trial, 10058.

A statement by anyone involved in an impending trial or investigation should not be read to the House as it could have a detrimental effect on the outcome, 16979.

When a judgment in any court case remains to be delivered the *sub judice* rule may be contravened if a statement made in the House impinges upon the matter awaiting judgment, 16105.

The Chair drew attention to a ruling of a former Speaker that the matters concerning the procedural aspects of a legal tribunal which could not be construed as affecting its decision may be referred to, but it would be out of order to refer to the evidence or facts, 16112.

Assembly, Legislative: Rulings, Observations and Opinions of the Chair (continued):

DEPUTY-SPEAKER, MR (J. R. FACE, Esq.) (continued):

The Chair reminded a member of the *sub judice* rule, 16104.

When the application of the *sub judice* rule arises debate may be allowed to proceed until it becomes clear that the member is speaking of a specific matter that is before the court. A member was asked to desist from referring to a specific matter because on the information available to the Chair it was before a court, 15647.

SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY):

Adjournment: Adjournment debate procedure, 380, 8233.

A member was in order in raising information he had received after speaking in the Address-in-Reply debate, 519.

During the currency of the Address-in-Reply debate the subject-matter of an adjournment debate must be strictly local in nature, with fairly narrow implications and highly unlikely to be raised by any other member during the Address-in-Reply debate, 377, 515, 517; but if a member could demonstrate how a matter related to his electorate the Chair would allow him to continue, 380.

A member may not raise a matter on the motion for the adjournment of the House when a question upon notice on the same subject has been asked and answered, 2406.

A member addressing the House on the adjournment may raise one specific matter and deal with it in any manner he likes, subject to the normal rules of debate and *sub judice*. As the member was turning to a third matter the Chair asked him to conclude on that point, 1134.

As a Minister had replied to a matter raised in the adjournment debate it would be out of order for another Minister to reply to the same matter, 7796.

Although the standing orders do not prevent a member attacking a federal Member of Parliament, a member should not use the adjournment debate for that purpose, 7197. Matters raised by members in the adjournment debate must be of interest or concern to their electorates or of general community interest, 7199.

In speaking in an adjournment debate, a member may raise any one matter of interest to his electorate in particular or to the State in general, 7489.

Volumes 189-200

Assembly, Legislative: Rulings, Observations and Opinions of the Chair (*continued*):

SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY) (*continued*):

Under the sessional orders no quorum can be called during the adjournment debate, 8190. Once five members have spoken in the adjournment debate, even though they do not exhaust their full time, and the Minister replies but does not use up his entitlement of fifteen minutes, the House will be adjourned without the question being put, 8194.

The adjournment debate must not be used to reflect upon or attack any Member of Parliament. Such matter must be done by way of substantive motion, 6121.

If a member wishes to make allegations against a member on leave of absence he should do so by way of substantive motion and not seek to use the adjournment debate for that purpose, 5790.

Adjournment (S.O.49): A motion for the adjournment of the House under Standing Order 49 will not be entertained unless the matter sought to be debated is of sufficient importance that it affects the State generally as a whole and is not just of local interest. The motion was ruled out of order, 9646.

Assembly, Legislative: The proceedings of the House were being filmed, 1540, 3697.

The Chair had no intention at this stage of introducing television into the Chamber, 303.

The Chair had taken action to ensure that, so far as possible, there was no repetition of the incident in which a person gained access to the Chamber, 927.

Resignation of Mr Peter McHugh, Second Clerk Assistant, 13209.

Chair: Members should address their remarks to the Chair, 1696, 2326, 4867, 5013, 6213, 6377, 6724, 9712, 10818, 14444, 14456. If a member did not do so he would be asked to resume his seat, 5013.

It appeared that a member was reflecting on the Chair, 6378.

Members should at all times take the utmost care not to reflect on the Chair, 10716, 15750.

If a member reflected on the Chair, he would be named and would be out of the House for two days, 5883, 9050.

A member was reflecting on the Chair, 2529, 10306, 12175, 16260, 16700, 16724.

A member had made a serious reflection on the Chair, 1815.

Assembly, Legislative: Rulings, Observations and Opinions of the Chair (*continued*):

SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY) (*continued*):

A member had reflected on the Chair by saying that the Chair had not called another member to order, 824.

The Chair would have no hesitation in removing members who showed disrespect for the Chair, 9646, 12179.

A member should not move between the person addressing the Chair and the Chair, 7198, 11068.

When the Chair rises a member must resume his seat, 16067.

A member who is dissatisfied with the actions of the Chair is at liberty to follow the normal procedures and have the Speaker censured or to take any other actions covered by the standing orders, 699.

A member was not allowed to make an address to the House that reflected on the Chair, 1968.

Though the Chair had noticed a member turn aside and leave after the Chair had given a ruling, because of the member's short time in the House the Chair was willing to give him the benefit of the doubt, 825.

The Chair did not believe that a member meant any offence to the Chair or to the Chamber by leaving the Chamber and smoking a cigarette outside the Chamber. However, the Chair asked that in future the member shut the door so that he could not be observed by other members, 1344.

It was apparent that there was total disregard for the Chair and that persons sitting in the public gallery would be most concerned about the conduct of members, 1344.

The Chair regarded the actions of a member as most disrespectful to him. If the member offended again he would be removed from the House, 1546.

A member should not argue with the Chair, 16686.

A member who had been named was not giving an explanation of his conduct. The Chair warned him that he would be named again if he continued to treat the Chair in the manner he had been, 15178.

Mr Speaker was sure that a member meant no disrespect to the Chair, 15807.

The Chair accepted that a member was not canvassing his ruling, 14017.

The Chair will deal with members who are disrespectful to the Chair, 2540.

19th February, 1986, to 22nd February, 1988

nbly, Legislative: Rulings, Observations and Opinions of the Chair *(continued):*KER, MR (THE HON. LAWRENCE BORTHWICK KELLY) *(continued):*

A member should be more careful in selecting the language he used when addressing the Chair, 3039.

The Chair did not intend to allow a member to stare at him and make comments to him. If the member wished to speak to a point of order, he should seek the call, 1341.

The standing orders provide forms for dissent against the rulings or actions of the Chair, 46.

The Chair must accept a member's word, 519.

It is not for the Chair to determine whether matters are true or untrue. Every member, when he addresses the House, is expected to be telling the truth, 2317.

It was clear that a member was defying the Chair's ruling. If it continued, the Chair would be compelled to ask the member to resume his seat, 6723.

There are three courses a member may pursue when he has a difference with the Chair or considers he is receiving unfair treatment from the Chair. The first is to see the Speaker in his chamber and discuss with him the grievance in a forthright manner. The second is to use the standing orders and forms of the House to move a motion to correct any action of the Chair. The third is to go to the press and make a statement, knowing full well that the Speaker cannot enter into the controversy through the news media. The Chair trusted that in future members would use the forms and practices of the Chamber to air grievances with the Chair instead of engaging in the contemptible action of going to the press and making a statement, 4586.

Condolences: Frank Outen Jensen Purdue, a former member of the Legislative Assembly, 45.

James Chalmers, a former member of the Legislative Assembly, 6196.

Debate: Members should not be too ready to allow their dignity to be offended by remarks of other members in the thrust and parry of debate, 2174, 4469, 9863.

A member would be interfering with the right of free speech in the House if the Chair were to intervene to prevent general reference to matters, 5271.

A member was warned that if he continued to offend against the standing order dealing with tedious repetition he would be asked to resume his seat, 4803, 6837.

Assembly, Legislative: Rulings, Observations and Opinions of the Chair *(continued):*SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY) *(continued):*

It is against the spirit of a second reading debate for a member to go through a bill clause by clause or schedule by schedule. The member should confine his remarks to the generality of the measures in the bill, 7449, 11870, 16360, 17236.

It is out of order for a member to continue a debate, or refer to a debate, already concluded, 6375, 15787, 15788.

As the matter the member was discussing did not arise from an earlier debate, and as it did not seek to continue that debate, the member was in order, 15215.

It would be improper for a Minister in her reply to deal with remarks that were made outside the House, 6224.

In reply a member should not introduce new material, 836, 5369, 6224, 13005, 14036, 15337, 15822, 16716.

It was most improper for a member to seek guidance when the question before the Chair was, That this bill be now read a second time, 9825.

Every member speaking in the House is expected to speak the truth, 9283.

A member who has spoken to a question may again be briefly heard to explain himself in regard to some material part of his speech, but shall not introduce any new material, 10816.

If a member could not be brief and to the point the Chair would ask him to resume his seat, 10818.

The Chair had listened sufficiently to a member to realize that if he allowed him to continue the member would be making a further contribution to the debate, 10819.

A member should come quickly to the point he wished to raise on the third reading of bills, otherwise the Chair would ask him to resume his seat. The member was trifling with the House and being tediously repetitive, 10824.

It being fifteen minutes after 4 o'clock p.m. the debate was interrupted pursuant to Standing Order 122A, 2222, 4915, 14647.

It being fifteen minutes after 4 o'clock p.m. the debate was interrupted. Pursuant to Standing Order 123A the motion lapsed, 1400, 1737, 4510, 5401, 5926, 9209, 14183, 15507.

It being 10 o'clock p.m., pursuant to sessional orders the debate was interrupted, 10375.

Assembly, Legislative: Rulings, Observations and Opinions of the Chair (*continued*):SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY) (*continued*):

A member had exhausted his time for speaking, 376, 378, 490, 502, 507, 517, 571, 588, 622, 684, 758, 759, 760; 761, 762, 882, 988, 991, 992, 1097, 1131, 1223, 1381, 1455, 1505, 1506, 1507, 1617, 1731, 1893, 2009, 2093, 2095, 2196, 2537, 2662, 2664, 2666, 2807, 2808, 3431, 3437, 3465, 3529, 3531, 3626, 3747, 3782, 3787, 3788, 3910, 3911, 3914, 4218, 4219, 4222, 4386, 4457, 4680, 4682, 4683, 4750, 4823, 4825, 4826, 4912, 5090, 5229, 5240, 5270, 5271, 5353, 5511, 5604, 6243, 6292, 6295, 6379, 6608, 6717, 6773, 6839, 6842, 6845, 6940, 7078, 7082, 7157, 7200, 7326, 7489, 7490, 7493, 7645, 7792, 7984, 7986, 8185, 8188, 8191, 8224, 8381, 8385, 8410, 8435, 8437, 8664, 8665, 8810, 8812, 8907, 8926, 9001, 9004, 9005, 9090, 9124, 9172, 9309, 9314, 9317, 9325, 9329, 9477, 9716, 9849, 10174, 10342, 10344, 10509, 10712, 10799, 10928, 11094, 11095, 11098, 11236, 11439, 11588, 12168, 12216, 12218, 12693, 12991, 13626, 13633, 13792, 14014, 14163, 14323, 14351, 14355, 14749, 14816, 15180, 15213, 15214, 15216, 15217, 15350, 15353, 15398, 15504, 15635, 15639, 15788, 15789, 15791, 15818, 15903, 15906, 15943, 15945, 16067, 16265, 16559, 16561, 16562, 16565, 16700, 16707, 17240, 17242, 17244, 17247, 17525, 17562.

Divisions: The Standing Orders apply to divisions just as they do in the House, 14617, 6712, 9876, 12963, 15829, 17472.

A member who wished to remain in the House and vote should remain quiet, 17472.

Order must prevail during divisions, 17472; any other time, 5886.

A division was called off and the queue put again, 3896.

A division was called off. As a member already risen to speak on an amendment when the gag was applied, the queue having been put on that amendment member was seen to have spoken to the question, 13838.

A member who said "The noes have it" was not called for a division, 7428, 13170.

Documents: A member is permitted to refer to the words of another person so long as it indicates that they come from a document that has been provided to him, 15105.

A member should not read long passages from a document as to do so would not permit people who are not members of the House to participate in debate, 15104.

19th February, 1986, to 22nd February, 1988

Assembly, Legislative: Rulings, Observations and Opinions of the Chair *(continued)*:SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY) *(continued)*:

A member may quote from a newspaper, so long as he does not read long extracts from the article, 3721, 6378, 8788.

It is not in order to read articles from newspapers, letters or journals emanating from persons outside the House when referring to or commenting on anything said by a member in the House, nor should portion of a speech made in the same session be read from newspapers or other documents, 8789, 11865.

It is repugnant to the spirit of debate to use lengthy articles, especially editorials, from newspapers, for it gives those papers and persons a right of audience in the House. It is in order for members to make reference to newspapers and editorials, 1342, 6241, 11353.

A member should make only brief reference to newspaper articles and use his own words to set out the facts, 11353.

A member who quotes from newspaper reports is not required to vouch for their accuracy so long as he accepts responsibility for them. The member must not quote at length from editorials and articles, 8790.

The Chair must accept a statement by a member that the document to which he was referring was displayed throughout his electorate. The member was therefore in order in referring to it, 2003.

A member who intends to quote from a letter should tell the House the name of the person who wrote it, 10803.

A member who reads from a letter should inform the House of the source of the letter and vouch for its accuracy. He may make only passing reference to it, 14457.

A member quoting from a letter must indicate by whom it was signed and the address from which it was sent, though the Chair may consider allowing some reference to the matter contained in correspondence if the member addressing the House is not willing to read the name and address but is willing to make it available to the Minister, 11275.

When quoting from letters or documents it is sufficient for a member to give the name and address of the originator of the document and from where the document arose, 15104.

Assembly, Legislative: Rulings, Observations and Opinions of the Chair *(continued)*:SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY) *(continued)*:

A member who is unable to comply with the Chair's ruling on quoting correspondence will be asked to discontinue reading the letters, 15791.

The ruling with regard to members quoting correspondence is specific. They must state the address on the letter and the name of the person signing it. If a member does not have that information he will not be permitted to read letters. In any event, reference to letters must be brief, 15790.

A Minister may quote from private documents. Public documents are available to all members and should not be read, 16699.

It will be competent for a member who claims that the statements contained in a letter are improper to deny he wrote the letter, 11065.

It is disorderly for members to read newspapers in the Chamber, but to pass an extract from a newspaper from one member to another would not be disorderly unless it was disturbing the conduct of the House, 7157.

A Minister may refer to press statements by any person dealing with a matter within his portfolio, 5518.

It is not necessary for a Minister to table letters from departmental heads, or official documents that he has quoted, 6024.

Members may not lay papers on the table but they may make them available to other members by placing them on the table of the House, 6295, 15108.

When a member quotes from a document it is assumed that the information that the member is putting before the House has been researched by him or that he is satisfied it is accurate, 13144, 13146.

Members should address the House in their own words. If they wish to read from documents they may do so, but they should be brief and should incorporate it in their own composition, 13150.

SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY) (*continued*):

Government Printing Office Industrial Dispute, 8421.

Grievance Debate: Subject to the normal rules of debate including the *sub judice* rule and rules relating to the anticipation and duplication of debate, members may make contributions on any matter or matters that they wish, provided that they are separate matters from those already raised in the debate, 6517.

A member may raise a matter of concern to him and his electorate or a community problem and the responsible Minister is entitled to reply, 6439.

The grievance debate must not be used to reflect upon or attack any member of Parliament. Such matter must be done by way of substantive motion, 6121.

Members may not use grievance debates to raise matters that another member has raised and that would have the effect of continuing the debate beyond the day upon which grievances are noted, 4910.

A member speaking in the grievance debate is permitted to discuss one matter of local or general interest and may deal with the subject in any manner he thinks fit, subject to the normal rules of debate. If it were intended that the debate become a debate on a particular department, that would be completely out of order, 6441.

It is not the intention or spirit of the grievance debate for members to have a debate about a particular department. A member who sought to have a debate about the Department of Youth and Community Services was ruled out of order, 6446.

A member was ruled out of order on the ground that he intended to discuss a former employee of the Parliament, a matter that came under the direct control of the Speaker, 4908.

Hansard: So that a member's speech can be recorded in *Hansard* members should give him their silent attention, 510, 512, 14317, 15814.

Assembly, Legislative: Rulings, Observations and Opinions of the Chair (*continued*):

SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY) (*continued*):

It was difficult for the Hansard reporter to hear the Minister addressing the Chair, 7477.

Hansard was having difficulty recording proceedings, 510, 512, 7156, 9160, 915814, 17279; though the Minister speaking loudly, because of the constant interjections from both sides of the House, 7156.

The Chair asked members on both sides of the House to desist from interjecting so that Hansard would have an opportunity to record what the member was saying, 1015814. Hansard was having difficulty recording a member was saying. The Chair asked members to contain their interjections: loud laughter, 17471.

Interjections, Interruptions and Disciplinary Proceedings: Interjections are disorderly, 158, 181, 440, 510, 512, 571, 572, 686, 821, 101205, 1209, 1466, 1735, 1736, 1824, 1966, 1988, 2186, 2327, 2395, 2738, 3428, 3429, 3621, 3744, 3838, 4005, 44607, 4744, 4746, 4749, 4754, 4862, 5189, 5345, 5786, 6029, 6274, 6365, 6946, 7330, 7775, 7785, 7973, 8383, 8424, 8486, 8508, 8623, 8640, 8768, 8819, 8840, 9087, 9147, 9167, 9273, 99406, 9537, 9860, 10298, 10446, 1010715, 10722, 10791, 11052, 11678, 112391, 12392, 12966, 13651, 13921, 14005, 14453, 14474, 14592, 14732, 145110, 15310, 15455, 15458, 15492, 155601, 15753, 15797, 15798, 15822, 1616586, 16690, 16699, 16700, 16702, 17471.

There were far too many interjections, 11236, 13640, 16718.

Members should desist from interjecting to allow a member to conclude his address, 7486, 16126.

The Chair directed the attention of a member who had been called to order to Star Chamber Order 166 which provides that a member must not disturb a member addressing the House. If the member continued to do so he would be dealt with for being disorderly, 16508.

Members on the Opposition benches should cease interjecting, 10918.

Had members of the Opposition ceased interjecting doubtless the Minister would have concluded his answer much sooner, 8623, 8901, 9818.

19th February, 1986, to 22nd February, 1988

Assembly, Legislative: Rulings, Observations and Opinions of the Chair *(continued)*:SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY) *(continued)*:

Members should not interject. If they wished to speak in the debate they should seek the call, 3744, 11323.

If members wanted to be in the House to vote on the motion they had best desist from interjecting, 71, 16723.

Members of the Opposition were warned that the House would be deprived of their company for the rest of the day if they continued to interject, 574.

A Minister should not interject. If he sought the call the Chair would give it to him, 10798.

A Minister should not interject but should use the right of reply to answer remarks made by a member, 6837, 8798, 8840, 9856, 14056.

A Minister should allow a member to complete his remarks on a point of order to enable the Chair to rule on it, 10817.

If a member wishes to ask a question he should seek the call rather than attempt to do so by interjection, 15600.

A member should not ask a question and then continually interject. He should allow the answer to be given without interruption, 14732.

The Chair prevailed on members on both sides of the House to cease interjecting and restore some decorum to the Chamber, 6369, 15455.

A member who persists in interjecting will be called to order but members should not be too readily upset by interjections, for they come from both sides of the House, 824.

Members should ignore interjections, 8486, 16129.

Members should not answer interjections or engage in exchanges across the Chamber, 1988.

The Chair warned a member that, as he had interjected incessantly on every matter spoken to by each Minister during question time, the Chair may have to deal with him under Standing Order 166, 8340.

Members who continued to interrupt may be removed from the Chamber, 686, 3118, 9860, 12392.

The House would become a farce if points of order were allowed on interjections, 3848.

As it was normal practice for members to base substantial portions of their speeches on answering interjections it was difficult for the Chair to decide between valid

interjections to which a member would wish to reply and interjections that are of nuisance value, 16722.

Members on the Government benches should cease distracting a member from making her response to a Minister's comments, 16718.

The Chair warned members on the Opposition benches that if they continued their disorderly behaviour they would be suspended from the House, 9273, 9873, 12949.

If a member did not desist from misbehaving the Chair would name him and he could be removed from the Chamber, 16723.

It is disorderly for members to read newspapers in the Chamber, but to pass an extract from a newspaper from one member to another would not be disorderly unless it was disturbing the conduct of the House, 7157.

A member was warned that if he continued to conduct himself in the way he had been the Chair would have no hesitation in naming him, 11069.

There was far too much noise emanating from both sides of the Chamber, 15815.

A member is entitled to be heard in silence, 65, 158, 514, 818, 1735, 1736, 1966, 1985, 2002, 2186, 2192, 2327, 3039, 3722, 3758, 4012, 5185, 6274, 7330, 8486, 8840, 9560, 9713, 10792, 11871, 11963, 11983, 12279, 12654, 12672, 12966, 13139, 13631, 13651, 14006, 14062, 14077, 14083, 14294, 14350, 14443, 15103, 15456, 15458, 15482, 15638, 15685, 15793, 15797, 15824, 15904, 16262, 16696, 16697, 16700, 17470; and to complete his remarks without interruption, 3621.

While a Minister is addressing the House on a very serious motion moved against him members should contain themselves and listen to the Minister in silence, 9152.

Members should reduce the level of audible conversation, 55, 72, 511, 516, 518, 534, 842, 843, 937, 1052, 1058, 1347, 1436, 1450, 1678, 1695, 1857, 1863, 1872, 1968, 2019, 2085, 2171, 2190, 2638, 2656, 3042, 3424, 3513, 3567, 3713, 3722, 4306, 4597, 4599, 4618, 4635, 4867, 5506, 5509, 6204, 6207, 6362, 6699, 6706, 6711, 6947, 7142, 7153, 7461, 7477, 7650, 7761, 7904, 8152, 8162, 8229, 8503, 8647, 8774, 8899, 9144, 9149, 9160, 9265, 9395, 9407, 9540, 9636,

The Chair asked Opposition members on the front benches to desist from audible conversation, 10452.

If the level of audible conversation was not reduced the Chair would be forced to name some members, 2190.

The Chair was concerned about the cacophony from the Opposition benches at every remark made by the Minister. If it continued he would need to remove some members to restore decorum, 9811.

No member shall converse aloud, disrupt or disturb a member addressing the House, whether speaking to a bill or any other matter, 688, 689, 1053, 4451, 7056, 13797, 14609.

The Chair would observe closely whether a member's conversation was disrupting the Premier's answer to a question without notice, 689.

If members converse aloud and they are called to order a second time they will be removed for disorderly conduct, 6365.

Members who wish to converse aloud should leave the Chamber, 1436, 1544, 2172, 2190, 2656, 4599, 4618, 6594, 7056, 7904, 7961, 7980, 9297, 9442, 10023, 10311, 13928, 14289, 14317, 14896, 15055, 16063.

Members leaving the Chamber should do so as quietly as possible, 59, 7461, 8633, 9297, 13925, 15634, 15810, 15821.

Members should not conduct conversations as they leave the Chamber, 15457.

It is disorderly for members to break into raucous laughter at every sentence a Minister speaks, 14731.

Loud laughter may be deemed disorderly. Members should refrain from interjecting, 7786.

Members on both sides of the House should desist from loud and raucous laughter 6374.

The Chair asked members on the Government benches to allow the Leader of the Opposition to address the House in silence. The same courtesy should be

extended to the Minister when he spoke, 10009.

A member should address the Chair. Though the Minister may have been conversing he was not speaking so loudly as to interrupt the member addressing the House, 9712.

A member who is noisy and disturbs the member addressing the House and is called to order a second time will be dealt with as being disorderly, 6716.

The practice of the House allows the leaders of both sides, the leaders of business and the whips, to proceed through the Chamber to speak to their members, but it was rude for the Leader of the Opposition, who had just addressed the House, to walk a few steps along the front of the Opposition benches and turn his back on a Minister addressing the Chair, 15175.

The Chair accepted the explanation of the Opposition whip that he, together with the leader of business for the Opposition and the member who led on a motion, were discussing whether a division should be sought. The Chair asked members on both sides of the House to observe decorum when another member was addressing the House, 14035.

The Leader of the Opposition is entitled to move along the Opposition benches to talk to members, as is the Whip and as are Ministers, but it is not in order for him to engage in discussions and, while walking back to his place, direct comments to the member addressing the Chair. The Leader of the Opposition was called to order, 928.

A member who wishes to participate in the debate should not interject but should seek the call, 13921, 15492.

As a member would have the right to reply to what had been said during the debate he should save his comments until then, 3429, 15110, 16128.

A member who had a right of reply but who had been called to order should refrain from interjecting, otherwise she would not be in the Chamber to make the reply, 16710.

If a member had wished to participate in the debate he should have done so when he was provided with the opportunity earlier, 16586.

A member is not allowed a second opportunity to contribute to a debate, 16699.

19th February, 1986, to 22nd February, 1988

Assembly, Legislative: Rulings, Observations and Opinions of the Chair (*continued*):SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY) (*continued*):

A member should not make a speech on interjections but should confine his remarks to replying to the contribution to the debate made by the Minister, 15798.

A member who is on the list to speak should wait his turn to speak and not interject, 15963.

Any member who wishes to speak in the debate will receive the call when he seeks it, 821.

A member who had contributed to the debate should remain quiet while another member was addressing the House, 9013, 9318, 9718, 12169, 13004.

A member who wished to participate in the debate or to ask a question should seek the call, 348, 1862, 11969, 13041.

A member who proposed to speak in the debate should not interject but should reply to what had been said when he had an opportunity to speak, 844, 1970, 1998, 10791.

A member who wished to participate in the debate should have sought the call. He cannot do so by way of interjection, 17476.

The Chair asked a member to resume his seat, 1815, 9533, 9872, 11831, 15757, 15805.

The Chair had recorded a number of calls to order against the names of some members of the Opposition. A number of them were getting close to the tally where the House would be without their services for the rest of the day, 15603.

The Chair warned members that during question time a number of them had scored some points. If they did not contain themselves during the Minister's address, they may not be in the House to vote on the question, 16708.

If Opposition members were passing a sheet of paper among themselves and laughing, in an endeavour to distract the Minister from answering a question, the Chair would deal with those members as being disorderly and name them, 5348.

A member was warned that if, having been ordered to be removed from the House he used words such as, "That's ridiculous", the Chair would have no hesitation in naming him and he would be out of the House for two days, 690.

Assembly, Legislative: Rulings, Observations and Opinions of the Chair (*continued*):SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY) (*continued*):

In normal circumstances, having called a member to order on three occasions, and when having been called to order again the member spoke back to the Chair, the Chair would have no hesitation in naming the member, but he did not propose to take any action on this occasion. If the member repeated the action the Chair would name him, 2733.

A member who had been called to order was warned that if he were called to order again it would result in his removal from the Chamber, 9055.

If members were called to order more than three times they would be removed from the House for the rest of the day, 12623.

A member should not pass between the member addressing the Chair and the Chair, 7198, 11068.

Hansard was having difficulty recording the proceedings, 510, 512, 2085, 7156, 7477.

Members should be silent and allow Hansard to record the proceedings, 13081.

The Chair stated that members on the Opposition benches were conducting a concerted campaign of ignoring his rulings. He drew to the attention of members a letter written by a year six schoolgirl that had been published in the *Sydney Morning Herald* under the heading "M.P.'s in action", 929.

A member who had asked a question should listen to the answer, 5345, 5712, 7327.

Members of the Opposition were warned that it was their last call to order, 1204.

The Chair warned members of the Opposition that several of them were close to being removed from the Chamber for the rest of the day and that if they were not careful they would be named and would be out not only for the remainder of the day but also for the next sitting day, 6365.

If members continued to conduct themselves in the way they had been the Chair would have to remove a number of them. The Chair had assumed that the honourable member for Hawkesbury had interjected and apologized to him for calling him to order, 6214.

The Chair would have no hesitation in naming a member who had addressed the Clerk and made remarks to the member addressing the Chair, 4459.

Assembly, Legislative: Rulings, Observations and Opinions of the Chair *(continued)*:SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY) *(continued)*:

A member guilty of talking aloud or disturbing the member addressing the House is guilty of misconduct, if called to order a second time. A number of members were close to being removed from the House, 3725.

A member who was trifling with the House was warned that that was being disorderly, 1693, 2173, 7781, 12393.

If a member trifled with the House the Chair would have no hesitation in suspending him for the remainder of the evening, 9872.

A member was trifling with the House, 14596, 15596, 16723, 17182.

A member who was trifling with the House was called to order, 13642.

Though he may pass papers across the table for the perusal of members it is most disrespectful of a member to throw papers across the Table. The Chair asked him to desist, 16067.

Members should be silent and allow a member to make her personal explanation, so that she may more quickly resume her seat, 16519.

If a member persisted with the practice of taking points of order that were frivolous and captious the Chair would treat him as being disorderly, 16506.

If the Leader of the Opposition continued to make comments throughout question time the Chair would ask the Serjeant-at-Arms to remove him, 17179.

The Chair warned members that a number of them were on the verge of being removed from the Chamber, 682.

As the Chair had made a call to order three times on the next occasion a member may have to be removed from the House, to make Opposition members realize that the Chair meant business, 3423.

It is not incumbent on the Chair to call a member to order by name. An exhortation to order is addressed to all members who are disorderly at the time. If members who had been noted as having been called to order twice offended again, the House would be without their services, 1549, 1552.

A general exhortation to order applies to all members who are disorderly at the time, 682, 4013, 4870, 5356, 6032, 8628, 9056, 9059, 15177.

Assembly, Legislative: Rulings, Observations and Opinions of the Chair *(continued)*,SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY) *(continued)*:

A call or exhortation to order applies to every member who is disorderly at the time. The Chair warned members that several of them had had calls recorded against them. Unless they desisted from interrupting they would not be in the Chamber much longer, 1517.

As the Chair had already given two general exhortations to order a member who was called to order again would be removed from the House, 4870.

The Chair informed those members who had been called to order several times that they should be required to call them to order again it was likely that they would be removed from the House for the remainder of the day, 8436.

Having been called to order a member was warned that the next time he was called to order he would be removed from the Chamber, 2174.

Having been called to order a member was warned that the Chair intended to apply Standing Order 166 quite firmly, 437.

As the application of Standing Order 39 would be of little penalty at this late hour of the sitting the Chair may have to apply Standing Order 387, which would mean that the House would be without some member for the rest of this sitting and all the next day, 378, 518, 1135, 7775, 7785, 8413, 12279, 15682.

The Chair warned a member who had been ordered to be removed that if he did not go the Chair would name him and he may not be back in the House until the start of the next session, 12962.

The Chair ruled a member out of order and said that if he continued the Chair would have no hesitation in asking the Serjeant-at-Arms to remove him, 14441.

The Chair would name a member if he refused to leave the Chamber and that could result in his suspension for two days, no one, 14598.

A member who refused to leave the Chamber with the Serjeant-at-Arms was warned that if he did not take the direction of the Chair the Chair would have no alternative but to name him and he would be suspended from the services of the House for the rest of the sitting and all the next sitting day, 9873.

If a member who had been named did not allow the Serjeant-at-Arms to escort him from the Chamber the Chair would name

him and he would then be excluded from the Chamber for the rest of the day and the next sitting day, 4451.

The Chairman of Committees had named a member as guilty of disorderly conduct and reported the matter to the House. A motion was moved that the member be suspended from the service of the House. The member suggested that he had been named for claiming the right to call a division. The matter was resolved by the member who had been named indicating that he was no longer offended by the remarks of the Chairman of Committees and by the motion being rescinded, 7434.

No time limit is laid down as to when a member removed from the Chamber should leave the precincts, 6213.

The Chair did not intend to tolerate any longer the conduct of members. Several members had been named and any member who was disorderly would be removed, 1338.

The following members were called to order by name: Mr Akister, 3027, 3120, 3758, 4148, 4660, 5016, 5186, 6363, 8622, 8775, 9397, 12944, 13916, 15454, 16978; Mr Amery, 2327, 3041, 5914, 8843, 16159; Mr Anderson, 1344, 7897, 16719; Mr Aquilina, 6368; Mr Armstrong, 65, 1688, 1871, 4310, 4312, 4595, 4819, 5185, 5508, 5713, 5877, 5878, 6030, 6205, 6375, 6524, 6525, 7148, 7650, 8224, 8228, 8779, 9055, 9171, 9640, 9645, 10719, 10818, 11058, 11231, 11238, 11437, 11589, 11621, 12944, 14035, 14280, 14286, 14600, 15057, 15105, 15748, 15177, 15905, 16063, 16698, 17483; Mr Baird, 440, 683, 838, 845, 1338, 1683, 3120, 4753, 4863, 5187, 5341, 5343, 5882, 5890, 6030, 6068, 6205, 6206, 6208, 6363, 8162, 8226, 8425, 8504, 8908, 8963, 9271, 9311, 9537, 9538, 9644, 9818, 10722, 10926, 11052, 11437, 11974, 12169, 13637, 13789, 13928, 14283, 14600, 14739, 15454; Mr Beck, 66, 67, 1061, 1863, 4617, 5510, 8162, 10141; Mr Beckroge, 3127, 4600, 6526, 8972, 16129, 16718; Mr J.D. The Chair called Mr Greiner to order and warned him that, as he had been called to order three times, if he wished to remain in the Chamber he should cease interjecting, 13641.

The following members were named: Mr J.A. Clough, 9410; Dr Metherell, 1814; Mr T.J. Moore, 12962; Mr Pickard, 15178; Mr Webster, 9876.

The following members were removed from the Chamber: Mr Baird, 14739; Mr J.A. Clough, 9411; Mr Cruickshank, 1967; Mr Greiner, 6378; Mr Kerr, 9059; Mr Longley, 9273; Dr Metherell, 1816, 4451, 9056, 14598; Mr T.J. Judiciary: It is in order for members to make some reflections on judges so long as they do not undermine the judicial system and do not in any way criticize judges personally, 16539. It is not proper to raise a matter affecting a judge unless a substantive motion is moved, 3716.

Members are entitled to criticize the decisions of judges but must not in any way undermine those decisions by reflecting upon judges or their positions, 8511.

The conduct and actions of a judge may be criticized only by a specific and distinct substantive motion naming the judge and

stating the charge or complaint against him, 8512, 8513.

Legislative Assembly: Chamber extensions, 13616.

Election of Raymond Francis Chappell, 13534.

A member who had raised an issue concerning electorate offices should discuss what is essentially a domestic matter with the Speaker before taking up the time of the House, 5793.

Electorate offices come under the control of the Speaker. If a member were endeavouring to attack the Department of Public Works because of delay in the performance of the work, without first asking for the assistance of the Speaker, he would be wasting the time of the House, 5792.

Televising of proceedings, 17462.

Legislative Council: Joint sitting to elect a member of the Legislative Council, 13910, 13934, 13935, 13991.

Ministerial Statement: It is common when no other matter is before the Chair for Ministers to seek to clarify a matter. If in the course of doing so the Minister seeks to make a ministerial statement, he should extend to the Opposition the courtesy of intimating that that is his wish, 14070.

Nothing in the Minister's reply to a question indicated that it was a ministerial statement, 1548.

The length of the answer to a question has no bearing on whether it is a ministerial statement. A ministerial statement is a statement of policy, 1545.

As the Minister had not given any statement of policy he was not making a ministerial statement, 4869.

The Chair would listen to the Minister's answer and determine then whether it fell within the ambit of a ministerial statement, 8627.

When a Minister elaborates or expands an earlier ministerial statement the Leader of the Opposition will be given similar time to reply, 7158.

If a Minister said that he was taking certain action and referred to actions that the Premier was instituting it would fall fairly clearly within the lines of policy. Therefore,

Assembly, Legislative: Rulings, Observations and Opinions of the Chair (*continued*):

SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY) (*continued*):

it could be interpreted as a ministerial statement, 14071.

The Chair was willing to accede to a point of order taken by a member that in the absence of the Leader of the Opposition or the Deputy Leader of the Opposition he should be given the right to reply to what a Minister had said. The Chair ruled that the statement made by the Minister was not a ministerial statement, 14072.

Motions: The expression that a member was derelict in his duty cannot be taken as a matter that should be raised by way of a substantive motion, 15217.

As a member had confirmed that an error had been made in a motion the Chair directed that the notice of motion be amended, 15064, 15065.

A motion should not contain unbecoming expressions or arguments or be of excessive length, 1444.

A motion was in order, 1968, 8421, 9283; though it contained the word "dangerous", 9181.

A Minister has a choice on how he replies to what has been said in opposition to a motion, 6531.

A member who wishes to make an attack on another member should do so by way of substantive motion, 4022, 4685, 5790, 13077, 14006, 15217.

A member was entitled to make passing reference to the integrity of another member but if he intended to do more than that, it should be by way of substantive motion, 6728.

A Minister was getting close to reflecting on a member. If the Minister wished to attack a member she should do so by way of a substantive motion so that the member's defence could be put, 11066.

A motion for the suspension of standing orders was ruled out of order on the ground that, as proposed, it would not result in a clear decision of the House, 8343.

A member who was speaking to a motion for the suspension of standing orders was trifling with the House and avoiding the ruling that he must not address himself to the substantive motion, 819.

A member should give only sufficient evidence to support his motion, 13152.

Assembly, Legislative: Rulings, Observations and Opinions of the Chair (*continued*):

SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY) (*continued*):

The motion, that a member be not further heard, was irrelevant as the member had already resumed his seat, 13839.

As it appeared that a Minister had completed his answer to a question, a motion that the Minister be not further heard was out of order, 15456.

It is out of order for a member to anticipate debate on the Budget, 14017.

If a member speaking on a motion continued to quote matters contained in the Budget, it could be ruled that he was debating the Budget, 14016.

Notices of Motion: There being no objection, a member was granted leave to amend a notice of motion, 8333.

By leave, a member withdrew a notice of motion which proposed dissent from a ruling. The Chair stated that following a discussion in his chambers with the member he proposed to refer to the Standing Orders and Procedure Committee the essence of the matter upon which the member had proposed to move, 8332.

The Chair deferred ruling on a point of order that a notice of motion infringed the sub judice rule, 8349.

No provision is made in the standing orders for a member to make a statement about the withdrawal of a notice of motion, 12176, 12177.

Offensive and Objectionable Remarks, Imputations and Aspersions: No member shall use offensive or unbecoming words in reference to any member of either House of Parliament or make imputations of improper motive or personal reflections on the member, 16512.

Members should not be too readily offended by what is stated in the thrust and parry of debate, 2174, 3135, 4469, 5359, 5882, 7423.

In the thrust and parry of debate members use expressions that could be considered unparliamentary. If a member objects, he is entitled to raise that objection in the House, 15316.

Members should not let their dignity be offended in the thrust and parry of debate. If members on both sides of the House were becoming so thin skinned they should leave the Chamber, 16698.

As the Minister had chosen to answer charges made against him by way of a personal explanation it would not be in order for the

19th February, 1986, to 22nd February, 1988

Assembly, Legislative: Rulings, Observations and Opinions of the Chair (continued):

SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY) (continued):

Chair to ask a member to withdraw those remarks. However, the member may wish to do so. The remarks were not unparliamentary or offensive but were normal expressions used in the House in the thrust and parry of debate, 11111.

If a member does not agree that what was said by another member is a statement of fact, it is open to the member to make a personal explanation, 11064, 13077.

A member who is offended by a remark made by another member may ask for a withdrawal, 5369, 13077.

A reference made to any group of members is not offensive unless a member can show that it was offensive to him individually, 2319, 6212, 6724.

A member may ask for withdrawal of a remark, but cannot ask for an apology, 2542, 5881.

The Chair did not accept that the remarks made by a member were offensive, 6243.

An offensive remark must be withdrawn without qualification, 3718, 5881. A member who refuses a direction by the Chair to withdraw an offensive remark will be named, 9292.

A member may not ask for withdrawal of a general remark on the ground that he takes offence at it, 7982.

The withdrawal of an expression such as hypocrisy is not warranted when it is used in the sense of a person's quoting something hypocritically, 17244.

A member who had implied that another member was lying to the House was required to withdraw the remark, 1813.

The following words and expressions were required to be withdrawn: "Larrikinism", 380; "It is a lie; you are a liar", 740; "His henchman, the honourable member for Bligh, has quite a record of involvement in racism", 2173; "equally culpable", 2325; "It is unusual for him to be alive", 2542; "left-wing commo", 3110; "In fact, as the Minister for Local Government was good enough to tell a dinner in Lismore the other night, they have already picked a successor, and he is only sitting a few seats down from the Minister", 5870; "The head of the racketeers", 5875; "He is a shonkie business rep", 5881; "Delinquent", "Juvenile", 6369; "Cur", 6723; "FAI was making donations to campaign funds", 7151; "Vomit", 7980;

Assembly, Legislative: Rulings, Observations and Opinions of the Chair (continued):

SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY) (continued):

"Doctored", 9053; "If I were to look around the Chamber for a cattle duffer I would pick the honourable member for Clarence", 9055; "You are a swine", 9291; "You are going to gag me, are you not, you coward", 9291; "His leader is having a crack at the kids' hospital", 9537; "You are the most outstanding criminal in the State", 10021; "Stop lying", 11824; "You are lying", 12179; "Go back to Balmain", 13171. "Received donations from a corrupt government", 13950; "You lied", 14907; "This clown over here", 14918; "And, why is the Government so gutless?", 15749; "Hypocrite", 15819; "The Premier's mate Mr X", 15902; "He is spending too much time in Balmain", 16065; "Nazi Party, which the Leader of the Opposition runs with", 16073; "You are a hypocrite", 16508.

The following expression was not required to be withdrawn: "You are a cattle dog", 16698.

Parliament: Parliament House Gardens, 4859.

Parliament House Security, 927, 8140, 8218.
Parliamentary Dining Room Photographs, 15305.

Research Assistants for Members, 4757.

Pecuniary Interests of Members: No member who has a direct pecuniary interest in a question is allowed to vote on it; but, in order to operate as a disqualification, the interest must be immediate and personal, and not merely of a general or remote character, 16724.

For a Minister to show that a member had a personal and particular interest in a matter he would have to show that she would benefit from the motion being resolved in the affirmative, 16724.

Personal Explanation: A member who feels that he has been offended by a remark made by another member may make a personal explanation, 16567.

If a member is upset by remarks and feels that his integrity has been impugned the appropriate method of dealing with the matter is to make a personal explanation, 2318.

The practice is for personal explanations to be made when no question is before the House. As it was a matter of urgency that

Assembly, Legislative: Rulings, Observations and Opinions of the Chair *(continued)*:SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY) *(continued)*:

the Minister should make a personal explanation, leave was granted, 11111.

No leave of the House is necessary in order to make a personal explanation. Sessional orders provide that any member wishing to make a personal explanation may seek the leave of the Chair, 9704, 11068.

In making a personal explanation a member must show how his integrity has been reflected upon or how his position as a Member of Parliament has been affected, 2540, 9409.

A member, in exculpating himself, is not allowed to inculcate anybody else, 2540.

When making a personal explanation a member must not debate the issue. He may explain how he has been reflected upon and how his character has been impugned, but his remarks must be brief, 2737, 3848, 4316, 6037, 6038, 9408, 12179.

A member was straying well away from the subject-matter of his personal explanation, 10471.

In making a personal explanation as to how his integrity has been impugned a member cannot read extracts from telegrams or other documents that have no relevance to the claims made by other members, 2540.

As it was clear that a question related to matters which seriously reflected on a member, if they were untrue he had a right to explain them, 12953.

A member is entitled to make an explanation about the manner in which her integrity or position as a member of Parliament has been reflected upon. She cannot debate matters raised in debate, but she may refer to them only in so far as they impugn her integrity, 16517, 16518.

When making a personal explanation a member is not entitled to defend her family or any other member of the public. If a member who had been given the opportunity to make a personal explanation did not do so she would be asked to resume her seat, 16519.

When making a personal explanation a member is not entitled to debate what a Minister said in answer to a question, 16519, 16520.

A member may not, under the guise of making a personal explanation, deny statements made earlier by another member. If a Minister had imputed any

Assembly, Legislative: Rulings, Observations and Opinions of the Chair *(continued)*:SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY) *(continued)*:

improper motives to her, she may deal with that. She may explain how statements made by the Minister have interfered with her position as a member, 16520.

As a member was debating the question, it was out of order, 4316, 10472.

As a member was being repetitive the Chair proposed to continue with the business before the House, 6038.

A member was out of order in that what she said did not come within the ambit of a personal explanation, 3848.

No personal explanations were necessary, 9454.

Points of Order: A member who wished to take a point of order should await an appropriate opportunity to do so, 13703.

When speaking to a point of order a member's remarks must be relevant to matters raised earlier in the debate, 1365.

A member may not participate in debate while taking a point of order, 15846, 1606, 16069.

A member should come quickly to his point of order, 1974, 5516, 6033, 8622, 879, 9050, 9329, 14070, 16700. A member should not attack another member and the guise of taking a point of order, 1342.

It is for the Chair to ask a member what his point of order is, not the Opposition, 15.

The Chair, not another member, will decide whether a member's remarks are on a point of order, 16512.

A member is not entitled to make a personal explanation to the House under the guise of taking a point of order, 13823.

By way of taking a point of order a member may be making a personal explanation. If the member chose to do so, he might make a personal explanation at the appropriate time, 16753.

To uphold the point of order would inhibit debate, 14441.

The House would become a farce if points of order were allowed on interjections, 384.

A member may not take a point of order on behalf of another member, 4469.

A member who took a point of order was trifling with the House, 3120, 6377, 778, 8155, 8424, 9055, 9172, 9276, 1045, 11069, 12626, 16257.

A member had taken a frivolous point of order, 5510.

19th February, 1986, to 22nd February, 1988

Assembly, Legislative: Rulings, Observations and Opinions of the Chair (*continued*):SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY) (*continued*):

A member was being grossly disorderly in taking a trifling point of order, 11065.

The Chair deferred ruling on a point of order that a notice of motion infringed the sub judice rule, 8349.

A point of order taken by a Minister was disallowed on the ground that the Minister could use his right of reply to correct the information given by a member, 11867.

Points of order upheld, or upheld in part: 819, 2400, 3454, 3465, 4311, 5042, 6369, 6375, 6719, 6722, 7783, 8635, 10460, 13157, 13169, 14014, 14065, 14077, 14936, 15337, 15612, 15822, 16716, 17224.

Points of order not involved: 439, 516, 1200, 1339, 1693, 1813, 1862, 1962, 1974, 1977, 1994, 2317, 2318, 2400, 2528, 2529, 2531, 2532, 2541, 2728, 2729, 3027, 3113, 3115, 3120, 3135, 3566, 3579, 3712, 3724, 3837, 3844, 4013, 4016, 4019, 4150, 4307, 4452, 4468, 4474, 4598, 4616, 4866, 4867, 4868, 5028, 5181, 5184, 5355, 5357, 5358, 5359, 5370, 5509, 5510, 5718, 5790, 5890, 6033, 6122, 6208, 6210, 6212, 6221, 6259, 6292, 6362, 6378, 6709, 6724, 6725, 6837, 6988, 7421, 7423, 7442, 7443, 7456, 7648, 7782, 7786, 7794, 7913, 7975, 7980, 7981, 7982, 8155, 8160, 8505, 8515, 8628, 8774, 8775, 8777, 8791, 8901, 8905, 8906, 8970, 9049, 9050, 9061, 9169, 9172, 9276, 9291, 9329, 9398, 9402, 9542, 9569, 9715, 9818, 9863, 9872, 9877, 10012, 10014, 10017, 10021, 10028, 10141, 10306, 10315, 10450, 10452, 10462, 11067, 11068, 11970, 12394, 12396, 12626, 12743, 12950, 12961, 13076, 13077, 13138, 13146, 13632, 13642, 13703, 13823, 14000, 14012, 14018, 14096, 14137, 14277, 14279, 14283, 14441, 14596, 14597, 14598, 14729, 14907, 14920, 15067, 15068, 15216, 15217, 15451, 15455, 15596, 15598, 15628, 15629, 15631, 15635, 15636, 15680, 15684, 15754, 15785, 15797, 15801, 15803, 15805, 15911, 16065, 16067, 16068, 16069, 16257, 16258, 16506, 16503, 16515, 16567, 16689, 16698, 16699, 16700, 16722, 16725, 16756, 16947, 17181, 17182, 17243, 17244, 17289, 17473, 17483.

Points of order disallowed: 155, 163, 8505, 9274.

Private Members' Statements: Members speaking on the adjournment, and that now applies to the noting of private members' statements, are permitted to discuss any one matter of local or general interest and may

Assembly, Legislative: Rulings, Observations and Opinions of the Chair (*continued*):SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY) (*continued*):

deal with the subject in such manner as they think fit, subject only to the normal rules of debate, including the sub judice rule and the rules relating to participation and duplication of debate, 16997, 17247.

A member was in order, as a former Speaker had established that a member, when speaking to the adjournment, could raise a matter relating to his electorate, or a general matter affecting the State, particularly a matter that may not be raised by the local member, 15634.

The Chair accepted a member's statement that the matters that he proposed were not the same as matters dealt with in the debate already, 17526.

In this debate a member is entitled to refer to a Minister's reply to a question, but he should do so briefly, 15788.

The fact that a question is on the *Questions and Answers* paper need not necessarily inhibit debate on the matter, 16993.

Though a member may not speak to petitions he may speak to a particular subject matter, 14319.

Though the matter raised by a member was a matter over which the House would have no control, the Chair permitted the member to continue her remarks. The Chair proposed to give further consideration to the rules governing private members' statements, 11098.

Private members' statements are not to be used to attack another member or a Minister. A member who wishes to attack a Minister should do so by way of a substantive motion, 12691, 12990.

Privilege: Before submitting a substantive motion a member should, in a statement limited to ten minutes, establish a prima facie case of breach of privilege to the satisfaction of the Speaker, 698.

A prima facie case of privilege had been established, 5594.

A motion was in order, 9283.

It would be trifling with the business of the House if a member were permitted to speak on privilege for ten minutes when what he was alluding to could not be considered a matter of privilege, 699, 5723.

The Chair did not intend to rule on a point of order about privilege at that stage but asked members to grant the indulgence of allowing the member to continue. At the

Assembly, Legislative: Rulings, Observations and Opinions of the Chair *(continued)*:

SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY) *(continued)*:

conclusion of the member's address the Chair would rule on whether he had established his case, 9281.

The Chair was not satisfied that a breach of privilege had occurred, 3704, 5890.

A member had established a prima facie case, 5361.

Subpoenas issued to members, 7141, 7324.

Confidentiality of communications between member and constituent, 8954.

Trial of *Regina v. Jackson and Ors*, 3701.

Members should not reflect on private citizens unless they are satisfied that it is in the public interest to do so, 12158.

The Chair asked that all sections of the news media accede to the request by a Minister to avoid publication of a document or of the name contained in it, 13706.

A member may lay a document on the Table for the benefit of other members but may not table it, 15108.

Advice of Theo Simos, Q.C., on the judgments of Mr Justice Roden and Judge Loveday, 13786.

Report by Clerk, 13616.

It is a matter for the Minister to decide whether he wants to make available private communications between himself and the Commissioner of Police, 14071.

Procedure: The Chair proposed to provide consistency of procedure from the beginning of the session and avoid unnecessary confusion for members by applying the spirit of certain sessional orders not yet agreed to by the House, 52.

The forms of the House must be complied with at all times. The Chair cannot depart from those procedures, 9825.

In future the Chair intended, so far as possible, to keep to the list of speakers provided, 10819.

Under the sessional orders no quorum can be called during the adjournment debate, 8190.

In future the Chair proposed to strike out notices of motions and questions upon notice in the name of former members or deceased members, 1874.

It is not for a member to determine whether a point of order is before the House; that is the responsibility of the Chair, 10715.

The Leader of the Opposition is not entitled to make a statement about a report if no statement was made when the report was tabled, 3711.

Assembly, Legislative: Rulings, Observations and Opinions of the Chair *(continued)*:

SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY) *(continued)*:

A member who had been named should give an explanation of his conduct, not address remarks to a bill, 9875.

A member should exercise decorum when referring to the Deputy-Speaker, 5352.

Members should endeavour to uphold the dignity of the House by referring to each other by their electorates or their official positions in the House, 15062, 14442, 15750, 16260.

Members should refer to other members using their correct titles, 4311, 4385, 8782, 13051.

The question whether a bill was urgent would be considered separately from the bringing up of the bill, 9820.

A matter of possible contempt should be dealt with by way of substantive motion, 10716.

A member who disputes what another member says is entitled to take part in the debate and give that information to the House, 9569.

It is incumbent upon a member not to attack people outside the House unnecessarily, but if he has reason to do so he must accept responsibility for doing so, 4187.

A member may not reflect on another member other than by way of a substantive motion, 14936.

A Minister had meant no disrespect to the House in the manner he had tabled papers, 14728.

The normal process of debate allows a member to reply to remarks of a member who has already addressed the House, 820.

The House decides whether standing orders should be suspended, 4596.

A motion for the suspension of standing orders was ruled out of order on the basis that the member wished to debate a matter that had passed through the House, 8151.

Members who proposed to move the suspension of standing orders should provide sufficient copies of the motion so that the Clerks did not have to leave the Table to obtain copies for the Chair and others, 6949.

In moving the suspension of standing orders a member must demonstrate to the House why it is urgent that the business of the House should be set aside to deal with the motion. He cannot deal with the substantive motion in detail. He should only submit

19th February, 1986, to 22nd February, 1988

Assembly, Legislative: Rulings, Observations and Opinions of the Chair *(continued)*:SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY) *(continued)*:

why standing orders should be suspended, 3428.

If a member starts to deal with the substantive motion the Chair will rule him out of order, 818.

When the Chair has directed members to give reasons why standing orders should be suspended it was because reasons had not been given. A member who had moved for the suspension of standing orders does not necessarily have to speak in support of the motion, 817.

As the Leader of the Opposition had used his position to move for the suspension of standing orders it was not in order for him to use his position now to ask the Premier questions. If the Leader of the Opposition later sought the call to speak in the motion for the suspension of standing orders he may get it, 8771.

As there was no consent, a member's time was not extended, 5355.

Before a matter is resolved, if it appears that other members may have misrepresented what was said, a member may explain what he intended. As the matter had been resolved, no point would be served by a member making an explanation under Standing Order 139, though he was entitled to make a personal explanation, 2539.

When making an explanation under Standing Order 139 a member is not entitled to introduce new matter, 2401.

The practice has been for the Chair to give the call to the member who first catches his eye. On this occasion the precipitate action of a member in seeking the call did catch the Chair's eye, but he did not intend to call him, 14896.

The practice of the House has been that after a point of order has been discussed a member may not join the debate on a point of order before the Chair has ruled on the first point of order, 14441.

A member should not direct remarks at members and suggest that they are doing things that they are not, 14901.

A member should not make threatening suggestions, 15634.

The Chair, not members of the Opposition, will introduce a Minister who is about to answer a question, 14134.

Assembly, Legislative: Rulings, Observations and Opinions of the Chair *(continued)*:SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY) *(continued)*:

The Chair accepted the Attorney General's opinion that bills were cognate and put them to the House as one question, 17047.

Debate on any statutory instrument, whether subject to affirmative or negative procedure, is confined to the contents of the instrument but any discussion of alternative methods of achieving its objective is not in order, 15795.

It is quite acceptable for members to use the length of the Table to address the House, 15911, 16066.

If a member wished to speak to a motion he should have sought the call and addressed the motion when the Chair was putting the question. However, the Chair was willing to allow him to continue, 16947.

The way a member makes a statement in the House is a matter for that member but in exculpating himself from an assertion made the member may not inculcate other members, 16067.

Though a member had moved that the debate on a bill be adjourned, as the House had agreed earlier to a motion declaring the bill urgent, the debate would proceed, 13800.

When a complicated question is proposed the House may order such question to be divided. A complicated question can, however, be divided only if each part is capable of standing on its own, 14038.

When addressing the House on the third reading of a bill a member must confine his remarks to the contents and general principles of the bill, 10824.

The Chair gave a comprehensive ruling on questions without notice and the tabling of papers, 3159.

The practice has been for the member speaking on behalf of the Leader of the Liberal Party to be recognized as leading in the debate for the Liberal Party and for a member nominated by the Leader of the National Party to lead for that party. Until the House decides to do otherwise that practice will continue, 12485.

Questions Without Notice: The Chair gave a comprehensive ruling on questions without notice and the tabling of papers, 3159.

One of the purposes of questions is to seek action by the Government, 14277.

Assembly, Legislative: Rulings, Observations and Opinions of the Chair *(continued)*:

SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY) *(continued)*:

Questions should relate to public affairs, and matters for which the Minister is officially responsible. As the purpose of a question is to obtain information, or press for action, it should be framed in concise and definite terms and not contain preamble or comment, 15601.

Questions to Ministers must relate to matters of public interest or matters coming within their portfolio. They must not relate to the Minister's private affairs, 16686.

Questions asked must be in the public interest. The Chair was sure that a question and the answer were in the public interest, 15750.

In answering a question irreparable harm may be done to a member of the public who has no say in the House. It is different when a member mentions the name of a person in a question when endeavouring to obtain information or press for action about a matter over which a Minister has control. In asking questions that seek information and press for action the public interest must always prevail and be the overriding consideration in a House of Parliament where freedom of speech prevails, 16513.

If a question is based on a newspaper report a member will be asked to vouch for its accuracy, 16515.

Nothing in the standing orders prevents any member asking any other member a question at question time, be he a Minister or a private member, 2528, 2531, 8970; but a member is not entitled to ask questions of another member who is making a second reading speech, 7162.

Though there are standard forms for asking questions the Chair did not intend to apply the rule as rigidly as it is applied in the House of Commons, 4752.

A question was ruled out of order on the ground that though it is competent for a member to ask any private member a question about a matter of which that private member may have given notice or placed on the business paper, a member is not permitted to ask whether a private member intends to take any action to bring the matter before the House; that is for the House to decide, 3038.

As the second part of a question sought information the Chair was willing to permit the private member who had been asked a

SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY) *(continued)*:

question to reply to that part of the question only, 3039.

It has been the practice to exercise no control over the way Ministers reply to questions 157, 158, 4868.

The Chair has no control over the length of an answer to a question or its contents provided that the answer is relevant to the question asked, 1548.

The standing orders do not govern the length of a Minister's answer to a question. The only requirement is that the answer be relevant to the question asked, 7149.

No point of order can be taken on the way a Minister answers a question, 5889.

It is quite in order for a Minister to bring material into the House in anticipation of questions, 14283.

A Minister's answer must be relevant to the question asked, 14282, 14441.

Because of the considerable noise in the Chamber at the time a member asked a question the Chair had been unable to hear the whole question but was satisfied that the answer was relevant to the question asked 14598.

A Minister was straying from the question 14599.

A Minister had departed from answering a question and was reflecting on a member 6368.

A Minister was asked to round off the reply to a question, 159.

A Minister should return to the question and conclude his answer, 15456.

The answer should be relevant to the question asked, 6368, 7902, 8971, 8973, 9637; but the reply must be succinct and must not provoke debate, 8971, 8973; otherwise the member would be asked to resume his seat, 9163.

Though a Minister had been allowed to respond to an interjection, his reply must otherwise be relevant to the question asked, 8902.

When replying to a question without notice a Minister should be careful not to give a policy statement that could be interpreted as a ministerial statement, 844.

The purpose of question time is to allow members to seek information or to press Ministers to take action. If a member asked what the Government's projects were for the next four years it clearly called for a

statement of policy by the Minister and the Leader of the Opposition would be entitled to reply, 6370.

A Minister's comments were entering the realm of a ministerial statement, 10453.

The length of an answer to a question has no bearing on whether it is a ministerial statement. A ministerial statement is a statement of policy, 1545.

Nothing in the Minister's reply to a question indicated that it was a ministerial statement, 1548.

The Chair cannot control the length of a Minister's answer to a question. However, the Minister had dwelt on some aspects of administrative policy, which he should not do, 5516.

A question was allowed, 6371, 6704, 7649, 8623, 8970, 12396.

A question was disallowed, 3565, 6371, 6702, 14730, 15910.

A question was allowed but the Chair drew attention to the number of aspects to it, 11051. Though a question was prolix, it was allowed, 8896.

A question was too prolix, 7337.

A question was ruled out of order on the ground that the answer would promote debate on a statement made by the Premier, 3041.

A question was ruled out of order on the ground that the information sought was available in a printed document, 8629.

As a question came within the portfolio of a Minister it was allowed, 16687.

There was no point in a member asking a question if he knew the answer, 14280.

The standing orders make no provision for the asking of supplementary questions, 160.

A question was supplementary to a matter already raised by another member, 17179.

Register of Disclosures by Members: Mr Speaker laid upon the Table a copy of the Register of Disclosures by Members of the Legislative Assembly as at 30 June, 1987, 14276.

Relevance: Remarks must be relevant to the question before the Chair, 156, 367, 1695, 1730, 2077, 2078, 2184, 2312, 2355, 2393, 2395, 3454, 3465, 3727, 4142, 4386, 4685, 5042, 5046, 5353, 5364, 5817, 5869, 6224, 6276, 6376, 7059, 7185, 7783, 8371, 8635, 9462, 9582, 9637, 10829, 11678, 11866, 12251, 12483, 12484, 12490, 12497, 12730,

Assembly, Legislative: Rulings, Observations and Opinions of the Chair *(continued)*:SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY) *(continued)*:

12732, 12739, 12742, 12966, 13016, 13040, 13076, 13139, 13157, 13691, 14015, 14077, 14080, 14309, 14439, 14962, 15611, 15612, 15686, 15803, 15807, 15808, 15812, 15814, 15817, 15818, 15825, 15846, 15990, 16260, 16359, 16538, 16545, 17172, 17236, 17501, 17502; but a member is entitled to make passing reference to other matters, 6063, 6066, 9715, 16538, 16545.

A member should not stray too far from the question before the Chair, 10804.

A member should link up the matters to which he was referring with the question before the Chair, 5883, 6063, 6066, 12732, 12739, 12742.

As the Acting-Speaker had been liberal in the latitude he had given to members who spoke in the debate earlier, members should show tolerance to the member addressing the House, 1486.

In a second reading debate a member may address himself to a wide range of generalities provided his remarks are within the order of leave given for the introduction of the bill being debated, 2181.

If a member did not keep within the terms of the bill he would be asked to resume his seat, 10830, 12239, 13017, 13018, 13088, 15611.

If a member can show that his comments are relevant to the bill he will be allowed to continue. Nevertheless, the member must be brief and link his comments with the bill, 9463.

A member was in order in replying to remarks made by other members, 2079, 2314, 9299, 10020.

A member should not continue speaking derogatorily about another member. He should return to the substance of the matter he was raising, 15217.

In his reply a member was entitled to defend his own name and to show how the integrity of another member might be put in question, 5882.

A Minister was in order in making reference to reasons why by-elections occur, 11063.

Though a Minister is entitled to reply to matters that have been raised in the debate he should not introduce new material, 10813, 10814, 13078, 15630, 15631.

As a member had mentioned a matter not contained in the motion, the Minister may make some reference to that matter, but it should not be at great length, 10461.

Volumes 189-200

Assembly, Legislative: Rulings, Observations and Opinions of the Chair (*continued*):

SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY) (*continued*):

When speaking in a debate on a motion a member should not debate the Budget but should confine his remarks to the motion, 14016.

In replying to a motion a member is not entitled to introduce new matter and should reply to matters raised during the debate, 14475.

A member who had moved a motion was entitled to reply to a Minister's contribution to the debate but may not dwell at length on extraneous matters under the guise of replying. He may make only passing reference to such matters, 15793.

A member was warned that if he continued in the same vein the Chair would draw the attention of the House to his tedious repetition and ask him to resume his seat, 15825.

If a member did not return to the matter he had raised he would be asked to resume his seat, 15635.

A member was trifling with the House. If he continued in that vein the Chair would rule that his remarks were irrelevant and ask him to resume his seat, 14065.

If a member's remarks were not relevant to the question before the Chair he would be asked to resume his seat, 15814.

Seasonal Felicitations, 7982, 7991, 17562.

Senate Vacancy, 8143, 8163, 8170, 8186.

Special Adjournment: In the past it has been accepted that a member may make remarks about a former member during the debate on the special adjournment of the House, 3757.

Sub Judice Rule: If reference to a matter before the courts could prejudice the fair trial of a person charged with an offence a member should desist from referring to the case, 6835.

The onus of showing that a matter is *sub judice* falls heavily on the person taking the point of order, 8905, 13148.

To substantiate a claim that a matter appears to be *sub judice* a member must satisfy the House that the matter is before a court, 6292.

Merely to mention that a matter is before a court would not be sufficient to prejudice a fair trial, 5046.

It is important that at no time should the Chair interfere with an address to the House, unless the Chair is concerned that a

Assembly, Legislative: Rulings, Observations and Opinions of the Chair (*continued*):

SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY) (*continued*):

member's remarks will prejudice the rights of people involved in a matter when it is before the court, 5351.

It will be a very sad day for the Parliament when the *sub judice* rule is applied before a member comes to the point he wishes to raise, 5352.

A member who intended to speak about an alleged murder must be careful not to infringe the *sub judice* rule, 517.

The Chair deferred ruling on a point of order that a notice of motion infringed the *sub judice* rule, 8349.

Until the House decided otherwise, the Chair proposed to rule that the *sub judice* rule does not apply to the preliminary examination of complaints by the Judicial Commission, 8421.

A member who asserts that a matter is *sub judice* must satisfy the Chair that it is *sub judice*, 13999.

Suspension of Standing Orders: Procedure on motions for suspension of standing orders, 14126.

When speaking to motions for the suspension of standing orders members must follow the normal rules of debate, 15067.

The same rules apply to a procedural motion for the suspension of standing orders as previously applied to a motion that sought to raise a matter of urgency. Apart from relevance those rules do not apply to members in reply, 16069.

In moving that standing orders be suspended to enable the House to deal with a matter the Leader of the Opposition should give sufficient facts to satisfy members that the business of the House should be suspended, 6376.

When speaking to a motion for the suspension of standing orders a member should not ask a series of questions but should state why the business of the House should be set aside so that the matter could be dealt with, 5183.

When endeavouring to satisfy the House that standing orders should be suspended a member may give reasons to show why the matter is of sufficient importance as to warrant the suspension of the business of the House to deal with it but should not deal with the substantive motion, 4456, 6719.

19th February, 1986, to 22nd February, 1988

Assembly, Legislative: Rulings, Observations and Opinions of the Chair (*continued*):SPEAKER, MR (THE HON. LAWRENCE BORTHWICK KELLY) (*continued*):

As the Premier had said that the Government would agree to the suspension of standing orders there was little point in the Leader of the National Party delaying the House while he proceeded to prove that standing orders should be suspended, 1436.

If a member moving the suspension of standing orders is not to be the same as the member moving the substantive motion, the motion for suspension should include the name of the member who is to move the substantive motion, otherwise the same member will be obliged to move both motions, 1958.

The standing orders make no provision in regard to the reply to a motion for the suspension of standing orders. However, many rulings held that the reply to a debate must be in accordance with the rules of debate, 14014.

If a Minister wishes to speak for ten minutes on the motion for the suspension of standing orders, that is his prerogative, 17463.

As the Government had agreed to the suspension of standing orders no point would be served in a member taking ten minutes to establish a case for the suspension, 14898.

When moving the motion for the suspension of standing orders, the opportunity was given to a Minister to address himself to the motion for ten minutes. Not having taken the opportunity, he does not have a second chance, 16948.

A motion for the suspension of standing orders was ruled out of order because it anticipated debate that would take place in the near future, notice of which had already been given, 936.

A member is entitled to be heard with a little more decorum, 1272.

A member is entitled to the normal courtesies of the House, 10117.

A member who proposed to speak in the debate should reserve his comments until that time, 4983.

A Minister who has been asked a question is entitled to answer it with some degree of dignity from the House, 1943, 12565, 13303.

It was obvious that the Minister was experiencing considerable difficulty in trying to make herself heard over the numerous interjections from both sides of the House, 9502.

A member who had asked a question should cease interjecting, 10414.

A Minister should be allowed to complete her answer, 9505.

A member needed no assistance in making his speech, 8711.

A Minister needed no help in answering a question, 4096; and he may answer it in whatever manner he desires, 4108.

Motions: Though Standing Rules or Orders of the House may be suspended on motion made in accordance with twenty-four hours' notice given, and, in cases of necessity, may be suspended on motion made without notice and without objection, as the Leader of the House had taken objection, the motion lapsed, 2133.

Though objection was taken that a member had spoken earlier on the same question during a second reading debate, the member was in order in endeavouring to speak to a motion of which he had given contingent notice, or which had been moved on his behalf by another member, 5657.

Notice of Motion: Consequent upon Government business taking precedence of General business the President directed that a notice of motion be removed from the notice paper, 10077.

Offensive and Objectionable Remarks, Imputations and Aspersions: In a comprehensive ruling the Chair held that allegations of a personal nature against members may be made only upon a direct and substantive motion, 9587.

A member is required to withdraw remarks that another member deems to be offensive, 8758.

A member should withdraw improper imputations made against another member, 16856.

- A member is entitled to defend himself in a personal explanation but not to defend others, 382.
- A personal explanation should allow the member concerned to explain a matter reflecting on the honour, character or integrity of that member, or to explain any matter which reflects upon the member in a personal way. It should not be used to explain matters on behalf of any other person. The matter which is the subject of the personal explanation should not be amplified or debated. Provocative or disputative language should not be used, 521.

(continued):

- A point of order did not rest well with Standing Order 81, 3322.
- A member who took a point of order was trifling with the House, 8758.
- No further advantage would be gained by either side pursuing the point, 3662.
- Procedure*: A member speaking to an Order of the Day should restrict her contribution to the terms of the motion, not the substantive matter, 8875, 8876, 8877.

- A member who wished to correct some points made by the member speaking could not do so at that stage, 10426.

- A member's remark was highly irregular at that stage, 13096.
- Though a member had given notice of a motion under Standing Order 264, as objection had been taken, the item could not proceed, 16377.
- When speaking to a motion that an item of business be brought forward on a certain date the substantive motion must not be discussed, 15887, 15889.

19th February, 1986, to 22nd February, 1988

Council, Legislative: Rulings, Observations and Opinions of the Chair (continued):PRESIDENT (THE HON. JOHN RICHARD JOHNSON)
(continued):

When debating a motion that Government business shall take precedence of general business a member may not debate a substantive motion, 16385.

Questions Without Notice: A question should seek information, not give it, 421, 4966, 4967, 4968, 5132, 5978, 6157, 8742, 10561, 16222.

When asking a question it is not within the province of a member to give information other than to make the question intelligible, 10646.

A member who was asking a question was giving far too much information, 5132, 15157.

It would be more appropriate for the question to be placed on the notice paper, 15157.

A member should quickly draw her question to a conclusion, 14564.

The Minister should confine his answer to the parameters of the question, 17119.

A question was disallowed on the ground that it did not come within the jurisdiction of the Minister, 16656.

A member is entitled to ask a question but should not seek an opinion, 4967.

A member should ask a question, not make a speech on the matter, 4965.

Comprehensive ruling by the Chair on the form of questions, 5094.

A question about the Budget Papers was ruled out of order because the Budget was before the lower House, 5842.

As it would not be reasonable to expect the Minister to carry with him the details sought in a question, it might be better asked upon notice, 421.

It is not within the competence of the Minister for Agriculture to answer a question on foreign policy, 4727.

As a member had sought detailed information which would not be readily available to a Minister representing another Minister, the question should be placed on the notice paper, 5843.

A question was allowed, 6657.

A question was ruled out of order, 13309.

As nothing in the standing orders permits supplementary questions, members should frame their questions in total so that they get a complete answer, 801.

Council, Legislative: Rulings, Observations and Opinions of the Chair (continued):PRESIDENT (THE HON. JOHN RICHARD JOHNSON)
(continued):

Members should read prior statements by the Chair on the form that questions should take, 13426.

It was within the province of members to take a point of order on an earlier question if they thought it was invalid, 13426.

A member was trifling with the Chair. The member should read the standing order that sets out the form that questions should take, 13431.

Questions arising from a Ministerial Statement are frequently raised and replies given by the Minister, but when question time is to be called on later, members may ask questions then, 1764.

Quorum: As a quorum was present, the question of who was present in the House was not relevant, 5635.

Relevance: Remarks should be relevant to the question before the House, 148, 1772, 2131, 3315, 3273, 3274, 5289, 6129, 6312, 8884, 11211, 11215, 11219, 12081, 12303, 12304, 12305, 12308, 13371, 13372, 13850, 16192, 16388, 16394, 16396, 17159.

A member's remarks were relevant to the bill being debated, 7537.

A member was straying far from the bill, 7538.

A member speaking to an Order of the Day should restrict her contribution to the terms of the motion, not the substantive matter, 8875, 8876, 8877.

A member was in order in speaking to an amendment to a motion, 8878.

Seasonal Felicitations, 8115, 17453.

Senate Vacancy: Election of Senator, 8120, 8121, 8124, 8125.

Sessional Orders, Adjournment (Standing Order 13), 15163.

Special Adjournment: To break with precedent that has been used by all parties since time immemorial and to rule that Standing Order 56 precluded the Minister from moving a special adjournment motion without previous notice would be to make members look ridiculous, 13898.

Standing Orders Committee: The President intended to convene a meeting after consultation with the Leader of the House and the Leader of the Opposition, 16037.

State Library: 5451, 5983.

Sub Judice Rule: The *sub judice* rule was not being breached in any way, 9934.

PRESIDENT (THE HON. JOHN RICHARD JOHNSON)
(*continued*):

A member who gave the Chair an assurance that no writs had been issued or served in a matter was allowed to proceed, 13356.
Suspension of Standing Orders: As an objection had been taken to the motion for the suspension of standing orders the matter ceased, 3825.
