(10.) In the months of February and August in each year, the Mayor shall lay before the Council, for its adoption, the Treasurer's account for the previous half-year, duly audited; but should any Auditor not attend for the purpose of auditing the accounts when required by the Council to do so, or refuse to certify to the correctness of the account, unless he can prove to the satisfaction of the Council that the account is incorrect, he shall pay a fine of not less than one pound nor more than five pounds, to be recovered in a summary way before any two Justices of the Peace, the said fine to be carried to the credit of the municipal funds.

(11.) The first business at every monthly meeting of the Council shall be the reading, confirmation, and signing of the minutes of the last preceding meeting; and no discussion (except as to whether they are correct), shall be permitted on such minutes.

Second.—Correspondence to be read and orders made thereon, if expedient.

Third.—Petitions (if any) to be read and dealt with.

Fourth.—Reports from Committees and minutes from the Mayor (if any) to be presented, and orders made thereon.

Fifth.—Questions as to any matters under the jurisdiction or within the official cognizance of the Council to be put and replied to, and statements as to any facts, matters or circumstances requiring attention by the Council, or any of the Committees or officers, to be made.

Sixth.—Motions of which notice has been given to be dealt with in the order in which they stand on the business paper.

Seventh.—Orders of the day to be disposed of as they stand on the business paper.

It shall, however, be competent for the Council, by a resolution, and without any formal suspension of this section, to direct any particular motion or matter of business to stand over and have precedence at a future meeting.

3.—Special meetings.

At special general meetings of the Council, the business shall be conducted in the same manner as at any ordinary meeting; the minutes shall be read and signed, and then the special matter entered on.

4.—*Business paper.*

Shall be made up for every ordinary meeting of the Council, special or otherwise, at least twenty-four hours before the time appointed for the meeting. The Council Clerk shall state briefly but clearly the nature of the business proposed to be transacted at such meeting: Provided always that at each such special meeting no other business than that for which it has been specially convened shall be dealt with.

5.—*The business paper to be a record.*

On every business paper, prepared as aforesaid, the Mayor or Chairman shall make a note in writing, stating the order in which the business shall be taken; and such entry shall be a record, which shall not be withdrawn or altered without consent of the Council.

6.—*Motions how to be moved.*

Except by leave of the Council, motions shall be moved in the order in which they stand on the business paper; and if not so moved or postponed, shall be struck from the paper, and be considered to have lapsed.

7.—*Absence of Mover.*

No motion of which notice has been given shall be proceeded with in the absence of the Alderman in whose name it stands, except by a written proxy for that purpose, produced by some other Alderman.

8.—*Motions and amendments how carried.*

No motion or amendment of a motion, or any subsequent amendment, shall be discussed, unless and until such motion amendment, or subsequent amendment shall have been seconded, nor until the same shall have been reduced into writing; nor shall any second or subsequent amendment be taken into consideration until the previous amendment or amendments shall have been disposed of.

9.—*If amended question carried, a further amendment may be moved thereon.*

If any amendment is carried, the question as amended shall become itself the question before the Council, and any further amendment upon such question then ceases.

10.—*As to further amendments.*

Any member of the Council who shall move an amendment upon an original question, or an original question as amended, may vary the terms of the same, in order to give it consistency, but not so as to alter the meaning thereof, so that no more than one question shall be before the Council at one time.

11.—*Motions for adjournment.*

No discussion shall be permitted on any motion for adjournment of the Council, and if upon the question being put the same is negatived, the subject then under consideration, or the next in order on the business paper, may be proceeded with, and shall be discussed or disposed of before any subsequent motion for adjournment shall be received.

12.—*Orders of the day.*

The orders of the day shall consist of any matter, other than motions on notice, which the Council shall at any previous meeting thereof have directed to be taken into consideration, or which the Mayor shall have directed to be entered on the business paper for consideration.

13.—*How they are to be dealt with.*

The Alderman who has the charge of, or who has previously moved in reference to the particular business to which any such order of the day relates, shall be the party called upon to move the same: Provided that the Mayor may, as to any order of the day entered by his direction, arrange with and call upon any Alderman to move the same.

14.—*Petitions to be respectfully worded.*

Every Alderman presenting a petition must acquaint himself with the contents thereof, and must ascertain that it does not contain language disrespectful to the Council, and, in presenting it, must state the nature and prayer of it; and such petition shall only be received as that of the parties signing the same.

15.—*How petitions are to be dealt with.*

No motion other than for the reception of a petition shall, unless as hereinafter provided, be permissible on the presentation of a petition, except that the same be referred to a Committee, or that its consideration stand an order of the day for some future meeting: Provided however that, if any Alderman shall have given due notice of a motion in reference to the subject of any petition, or such subject shall have been made an order of the day, and such petition be presented before such motion or order of the day be called on, such order of the day or motion (if otherwise unobjectionable) shall be considered first.

16.—*Correspondence.*

The Mayor shall have the same duty in reference to letters addressed to the Council, before directing the same to be read, as by section 14 of these By-laws is imposed upon Aldermen presenting petitions. If not read, to be returned to the writer, and reported to the Council. The Mayor shall direct as to the order in which all correspondence shall be read, and no letter addressed to the Council or any of its officers shall be presented or read by any Alderman. If the Mayor be absent, and shall not have examined any such letters, or have given any such directions as aforesaid, then the duties imposed by this section shall devolve upon the presiding Alderman.

17.—*Section 15 to apply to letters.*

Section 15 of these By-laws shall be considered as fully applicable to letters addressed to the Council, or any of its officers, as to petitions.

18.—*Reports from Committees.*

Every report from a Committee shall be in writing, and signed by the Chairman of such Committee, or in his absence by some other member of the same.

19.—*Mayor's minutes.*

The Mayor shall have the right of directing the attention of the Council to any matter or subject within its jurisdiction or official cognizance, by a minute in writing signed by him.

20.—*How reports, &c., are to be dealt with.*

No motion shall, unless as hereinafter provided, be permissible on the presentation of a report from a Committee, or a minute from the Mayor, except that the same be received, or that it be received, and that its consideration stand an order of the day for some future meeting: Provided that, if any Alderman shall have given due notice in reference to any such report or a minute, or if the consideration of such report or minute shall have been entered among the orders of the day, such order of the day or such motion, if otherwise unobjectionable, may be moved and considered in due course. And whenever any such report or minute embodies any recommendation which cannot legally be carried out without due notice, and it is desirable that such report or minute should be ordered upon during the meeting of the Council at which such report or minute is presented, it shall be the duty of the Chairman or member of such Committee signing such report, or of the Mayor, as the case may be, to give or transmit to the Council Clerk such a notice of motion, requisition, or direction as aforesaid, as will enable the Council Clerk to make the necessary entry on the business paper, and to give such due notice.

21.—*Questions and statements.*

No question or statement shall be allowed to be put or made which is inconsistent with good order, or is not in strict accordance with the requirements of section 1 No. 5 of these By-laws; and the same must be put categorically, without argument or statement of fact, and when a statement is made it must be without argument.

22.—*Notice to be given.*

Sufficient notice of every question must be given to the person who is expected to reply thereto, to allow for the consideration of such reply, and if necessary for a reference to other persons or to documents.

23.—*Answer not compulsory.*

It shall not be compulsory upon the Mayor or upon any Alderman so questioned as aforesaid, to answer the question so put to him. And no discussion shall be permitted as to any such question or as to any reply or refusal to reply thereto, or as to any such statement, at the time when such question is put, or such reply or refusal to reply is given, or such statement is made: Provided, however, that nothing herein contained shall prevent the taking of any objection as to any such question or statement being out of order, or shall prevent the discussion, after due notice, as hereinafter provided, of any matters properly arising out of or relating to any such question or reply, or refusal to reply, or any such statement as aforesaid.

24.—*Mode of addressing the Council.*

Every Alderman who shall make or second any motion, or shall take any part in any debate or discussion, or shall put or reply to any question, or shall make any statement, or shall in any other way or for any other purpose address observations to the Council, shall, while so doing, stand up in his customary place, unless he shall be prevented from so doing by reason of some bodily infirmity, and shall address himself to the Mayor or other Chairman then presiding: Provided that in case of a question, such question may, by permission of such Mayor or Chairman, be put directly to the Mayor or officer to be questioned, and may be replied to in like manner. But in every such case, the question so put, and the answer thereto, shall be subject to every legal objection on the ground of disorder or irrelevancy; and all members of the Council shall on

all occasions when in such Council address and speak of each other by their official designations, as Mayor, Chairman, or Alderman, as the case may be. And no Alderman shall be interrupted while thus speaking, unless for the purpose of calling him to order as after provided.

25.—*Limitation as to number of speakers, &c.*

Every mover of an original question shall have a right of general reply to all observations which may have been made in reference to such motion, and to any amendments moved thereon, as well as a right to speak upon every such amendment. Every Alderman, other than the mover of such original motion, shall have a right to speak once upon such motion and on every amendment thereon. No Alderman shall speak oftener than once upon any question other than a question of order, unless when misrepresented or misunderstood, in which case he shall be permitted to explain, without adding any further observations than may be necessary for the purposes of such explanation.

26.—*Mover and seconder.*

An Alderman who has moved any motion or amendment shall be considered to have spoken thereon; but an Alderman who shall have seconded any such motion or amendment without any further observation than that he seconded the same, shall be at liberty to speak on such motion or amendment; but he must not digress from the subject under discussion, nor make personal reflections on, nor impute improper motives, to any other Alderman.

27.—*Adjournment of Debate.*

A debate may be adjourned to a later hour of the day, or to any other day specified; and the Alderman upon whose motion such debate shall have been so adjourned shall be entitled to precedence on the resumption of the same.

28.—*Mayor to decide as to pre-audience or order.*

If two or more Aldermen rise to speak at the same time, the Mayor or Chairman shall decide which of such Aldermen shall be first heard, and upon all disputed points of order his decision shall be final.

29.—*Mayor may address the Council.*

The Mayor shall have the same right as any other Alderman to speak upon every subject or amendment.

30.—*Mayor may call Member to order, decide points of order, or reject them.*

The Mayor or Chairman may, without the interposition of any other member of the Council, call any Alderman to order, whenever, in the opinion of such Mayor, there shall be a necessity for so doing. And when called upon to decide points of order or practice, he shall state the provision, rule, or practice which he deems applicable to the case, without discussing or commenting upon the same; and whenever it shall be decided that any motion, amendment, or other matter before the Council is out of order, the same shall be rejected.

31.—*How questions to be put.*

The Mayor or Chairman shall put to the Council all questions on which it shall be necessary that a vote be taken, and shall declare the sense of the Council thereon.

Any Alderman may call for a division, and the vote shall be taken by a show of hands, and the names and votes of the Aldermen present when a division is called for who shall not vote on such division, not being disabled by law from so voting, shall be liable for every such offence to a penalty of not less than five shillings nor more than two pounds.

33.—*Rules applicable to business in Committees.*

Sections 6, 12, 13, 14 and 15 of this Part of these By-laws shall be taken to apply to the business in Committee of the whole Council, except that it shall not be necessary that any motion or amendment in Committee shall be seconded.

34.—*How call of the Council to be made.*

A call of the Council may be ordered by any resolution of which due notice shall have been given for the consideration of any notice or matter of business before such Council. And no motion, the effect of which if carried, would be to rescind any resolution, order, or decision of the Council, shall be entered on the business paper, unless a call of the Council has been duly made and granted for such purpose.

35.—*Mode of proceeding.*

The call shall be made immediately before the motion or business, for which such call has been ordered, shall be moved or considered. The Council Clerk shall call all the names of all the members in alphabetical order, and if any members are

absent a record shall be made of such absence; but if leave of absence to any such member shall have been previously granted, or if such an excuse in writing shall have been received by the Mayor or Council Clerk as the majority of the Council then present shall consider satisfactory, such absent member shall stand excused, and a record shall be made of such excuse, and of the reasons for the same.

STANDING AND SPECIAL COMMITTEES.

36.—*Standing Committees.*

Besides such Special Committees as may from time to time be found necessary, there shall be two Standing Committees of the Council, each consisting of not less than three members, namely:—"A Finance Committee" and "An Improvement Committee."

Any person removing any such book, paper, or record from the Council Chambers without leave from the Mayor, in writing, first had and obtained, shall be subject to a penalty of not less than ten shillings nor more than ten pounds; and nothing herein contained shall be held to effect the further liability of any person who shall have removed such book, paper, or record, and shall not have returned the same, to prosecution for stealing such book, paper, or record, or to an action at law for detention of the same, as the circumstances of the case may warrant.

49.—*Penalty for defacing or destroying records.*

ALEX. STUART.

BY-LAWS of the Municipal District of Ballina, made under the Municipalities Act of 1867, and the Nuisances Prevention Act, 1875, respectively.

Duties of the Mayor.

1. If at any meeting of the Council duly held, the Mayor shall be absent at the expiration of fifteen minutes after the time appointed for holding the meeting, the Aldermen present shall forthwith choose one of themselves to preside.

2. All questions duly proposed shall be put by the Mayor or presiding Alderman, and the sense of the Council thereon shall be declared by him.

3. Every such question shall be put first in the affirmative and then in the negative, and this may be done as often as the Mayor or presiding Alderman shall deem necessary for enabling him to determine which side has the majority.

4. If two or more members rise to speak at the same time, the Mayor or presiding Alderman shall decide which of them is entitled to pre-audience.

5. The Mayor or presiding Alderman shall preserve order; his decision on disputed points of order shall be final, unless exception shall be taken thereto by any Alderman, in which case the Mayor or presiding Alderman shall submit the same to the Council for its decision.

Order of Business.

6. The business of each ordinary meeting of the Council shall be transacted in the following manner, viz. :—

1. The reading and the confirmation of the minutes of the previous meeting.
2. The reading of official correspondence.

10. Except in Committee, no member shall speak more than once on the same question, unless in explanation when misrepresented or misunderstood: Provided, however, that the mover of any question shall be allowed the liberty of reply; and provided further, that every member shall be at liberty to speak once on any amendment, as well as on the original motion; but the right of reply shall not extend to the mover of an amendment.

21. When a motion has been proposed and seconded it shall be the property of the Council, and shall not be withdrawn without the consent of the Council.

22. Any number of amendments may be proposed on a motion before the Council; and when more than one amendment is moved and seconded, the question shall first be put on the last amendment and then on to the one next to the last, and so on in the inverse order in which they are moved: Provided, however, that when such motion or amendment shall relate to the fixing of salaries, rates, or other matters of finance, the lowest sum shall be put first, then the next lowest, and so on to the highest.

Amendments may be moved.

14. When a motion in Council shall have been made and seconded any Alderman shall be at liberty to move an amendment thereon, but no such amendment shall be discussed unless and until it be seconded.

Motions and amendments to be in writing.

15. No motion or amendment shall be discussed until it shall have been reduced into writing.

Only one amendment at a time.

16. No second or subsequent amendment shall be taken into consideration until the previous amendment or amendments shall have been disposed of.

Amended question—further amendment may be moved thereon.

17. If any amendment be carried, the question as amended thereby shall become itself the question before the Council, whereupon any further amendment upon such question may be moved.

How subsequent amendments may be moved.

18. If any amendment, either upon an original question or upon any question amended as aforesaid, shall be negatived, then a further amendment may be moved to the question to which such first-mentioned amendment was moved, and so on: provided that not more than one question and one proposed amendment thereof shall be before the Council at any one time.

Motions for adjournment.

19. No discussion shall be permitted on any motion for adjournment of the Council; and if, upon the question being put on any such motion, the same be negatived, the subject then under consideration, or the next in order on the business paper, or any other on such paper that may be allowed precedence, shall be discussed before any subsequent motion for adjournment shall be receivable.

Requisitions from Aldermen—how to be dealt with.

20. Every requisition by an Alderman that any particular matter of business be brought before the Council shall be regarded and treated as a notice of motion by such Alderman, that such business be taken into consideration by the Council, and he shall be called upon in due order to move that such business be so considered, or to make any other motion which he may think fit in reference thereto which shall be consistent with the notice of such business and with good order. And if such Alderman be absent, or, if being present and so called upon, he shall make no such motion, then it shall be open for any other Alderman to make such motion. And when any such motion shall have been made it shall be dealt with in precisely the same manner as if notice thereof had been given, subject, however, to any objection which may exist as to its not being in accordance with the notice actually given of such business or with good order. And if no motion shall be made in reference to such business, the entry relating thereto shall be struck from the business paper.

*Orders of the Day.**Of what orders of the day shall consist.*

21. The orders of the day shall consist of any matters other than motions on notice which the Council shall at a previous meeting thereof have directed to be taken into consideration, or which the Mayor or any Committee of the Council shall have directed to be entered on the business paper for consideration.

How they are to be dealt with.

22. Section 20 of this Part of these By-laws shall be considered applicable to orders of the day; and the Alderman who has the usual charge of, or who has previously moved in reference to the particular business to which any such order of the day relates, shall be the person called upon to move; provided that as to any order of the day entered as aforesaid by direction of the Mayor or Chairman, such Mayor may arrange with any Alderman to move, and may in such case call upon the Alderman with whom he has so arranged.

*Petitions.**Petitions to be respectfully worded.*

23. It shall be incumbent on every Alderman presenting a petition to acquaint himself with the contents thereof, and to ascertain that it does not contain language disrespectful to the Council. The nature and prayer of every such petition shall be stated to the Council by the Alderman presenting the same.

Petitions—how received.

24. All petitions shall be received only as the petitions of the parties signing the same.

How petitions are to be dealt with.

25. No motion shall, unless as hereinafter provided be permissible on the presentation of a petition except that the same be received or that it be received and referred to one of the permanent Committees hereinafter mentioned, or that it be received and that its consideration stand an order of the day for some future meeting: Provided however that if any Alderman shall have given due notice of a motion in reference to any petition, and such petition shall have been presented before such Alderman shall have been called upon to move such motion, the said motion shall if otherwise unobjectionable be considered in order.

Correspondence.

Duties of Mayor as to Correspondence.

26. The Mayor shall have the same duty in reference to letters addressed to the Council before directing the same to be read as by section 25 of this Part of these By-laws is imposed upon Aldermen presenting petitions. The Mayor shall direct as to the order in which all correspondence shall be read, and no letter addressed to the Council shall be presented or read by any Aldermen. If the Mayor be absent, and shall not have examined any such letters addressed to the Council or have given any such directions as aforesaid, then the duties imposed by this section shall devolve upon the presiding Alderman.

Section 25 to apply to letters.

27. Section 25 of this Part of these By-laws shall be considered as fully applicable to letters addressed to the Council as to petitions.

Letters sent not to be discussed, but every letter may be subject of motion.

28. No discussion shall be permitted in reference to any letters which have been written and sent by the Mayor or by any officer of the Council, and copies of which may be read to such Council: Provided, however, that any notice of motion consistent with good order may be entertained with reference to any such letters whether read or not, or with reference to any letters addressed to the Council which the Mayor or presiding Alderman may not have ordered to be read as aforesaid.

Reports from Committees and Minutes from the Mayor.

Form of report.

29. All reports from Committees shall be written on foolscap paper, with a margin of at least one-fourth of the width of such paper, and shall be signed by the Chairman of such Committee, or in his absence by some other member of the same.

Mayor's minute.

30. The Mayor shall have the right of directing the attention of the Council to any matter or subject within its jurisdiction or official cognizance, by a minute in writing. Every such minute shall be written upon paper of the same kind and with the same margin as a report from a Committee, and shall be signed by such Mayor.

How reports, &c., are to be dealt with; duties of Chairman, &c., in certain cases.

31. No motion shall (unless as hereinafter provided) be permissible on the presentation of a report from a Committee or a minute from the Mayor, except that the same be received, or that it be received and that its consideration stand an order of the day for some future meeting: Provided, however, that if any Alderman shall have given due notice in reference to any such report or minute, or if an order for the consideration of such report or minute shall have been entered among the orders of the day, such motion or order may, if otherwise unobjectionable, be moved or considered in due course. And whenever any such report or minute embodies any recommendation which cannot legally be carried out without any due notice, and it is nevertheless desirable that such report or minute shall be definitely ordered upon during the meeting of the Council at which such report or minute is presented, it shall be the duty of the Chairman or member of such Committee signing such report, or of such Mayor, as the case may be, to give or transmit to the Council Clerk such a notice of motion, requisition, or direction, as aforesaid as will enable such Council Clerk to make the necessary entry on the business paper and to give such due notice.

Questions and statements.

Limitations as to questions and statements.

32. No question or statement shall be allowed to be put or made which is inconsistent with good order, or is not in strict accordance with the requirements of section 3 of this Part of these By-laws.

Notice to be given.

33. Sufficient notice of every question shall be given to the person who is expected to reply thereto to allow for the consideration of such reply, and if necessary for a reference to other persons or to documents.

Answer not compulsory.

34. It shall not be compulsory upon any person questioned as aforesaid to answer the question so put to him.

Questions to be put without argument, &c.

35. Every such question must be put categorically, without any argument or statement of fact.

Similar provision as to statements.

36. Every such statement must be made without argument.

No discussion on questions, &c. Rights of objection and of subsequent motion reserved.

37. No discussion shall be permitted as to any such question, or as to any reply or refusal to reply thereto, or as to any such statement, at the time when such question is put or such reply or refusal to reply is given or such statement is made: Provided, however, that nothing herein contained shall prevent the taking of any objection as to any such question or statement being out of order, or shall prevent the discussion, after due notice as hereinbefore provided, of any matters properly arising out of or relating to any such question or reply or refusal to reply, or any such statement as aforesaid.

Order of debate.

Mode of addressing the Council, &c.

38. Every Alderman who shall make or second any motion, or shall propose or second any amendment, or shall take any part in any debate or discussion, or shall put or reply to any question, or shall make any statement, or shall in any other way or for any other purpose, address observations to the Council, shall, while so doing, stand up in his customary place (unless he shall be prevented from so doing by reason of some bodily infirmity), and shall address himself to the Mayor or other Chairman then presiding: Provided that in the case of a question, such question may by permission of such Mayor or Chairman be put directly to the Alderman or officer to be questioned, and may be replied to in like manner; but in every such case the question so put and the answer thereto shall be subject to every legal objection on the ground of disorder or irrelevancy. And all members of the Council shall on all occasions when in such Council, address and speak of each other by their official designations, as Mayor, Chairman, or Alderman, as the case may be.

Speaker not to be interrupted if in order.

39. No Alderman shall be interrupted while thus speaking, unless for the purpose of calling him to order as hereinafter provided; and any Alderman using, whilst in the Council, any offensive or insulting language, the same to be written down, and on being asked to do so, withdrawn; and if any Alderman shall refuse to withdraw such language and apologize, he shall be deemed guilty of misconduct, and be liable to a fine of not less than twenty shillings nor more than five pounds.

Limitation as to number of speeches, &c.

40. Every mover of an original motion shall have a right of general reply to all observations which may have been made in reference to such motion, and to any amendments moved thereon, as well as a right to speak upon every such amendment. Every Alderman other than the mover of such original motion shall have a right to speak once upon such motion and on every amendment thereon. No Alderman shall speak oftener than once upon any question other than a question of order, unless when misrepresented or misunderstood, in which case he shall be permitted to explain without adding any further observations than may be necessary for the purposes of such explanation.

Mover and seconder.

41. An Alderman who has moved any motion or amendment shall be considered to have spoken thereon; but an Alderman who shall have seconded any such motion or amendment without any further observation than that he seconded the same shall be at liberty to speak on such motion or amendment.

Speaker not to digress, &c.

42. No Alderman shall digress from the subject under discussion, or shall make personal reflections on or impute improper motives to any other Alderman.

Adjournment of debate.

43. A debate may be adjourned to a later hour of the day, or to any other day specified; and the Alderman upon whose motion such debate shall have been so adjourned shall be entitled to pre-audience on the resumption of the same.

Mayor to decide as to pre-audience.

44. If two or more Aldermen rise to speak at the same time, the Mayor or Chairman shall decide which of such Aldermen shall be first heard.

Alderman may require questions to be stated, &c., under certain restrictions.

45. Any Alderman may request the question or matter under discussion to be read or stated for his information, or may require the production of any records of the Council bearing upon such question or matter which are readily accessible: Provided, however, that no such request or requisition shall be so made as to interrupt any other Alderman when speaking, or materially to interrupt the discussion; also, that if any such request or requisition shall appear to the Mayor or Chairman not to have been made *bona fide*, it shall not be complied with.

Mayor or Chairman not to move or second motion, &c., but may address Council thereon.

46. The Mayor or Chairman shall not move or second any motion or amendment, or put any question, as provided for by section 4 of this Part of these By-laws, except as is further provided for by the section 38 of the same; but such Mayor or Chairman shall have the same right as any other Alderman to speak once upon every such subject or amendment. The Mayor or Chairman shall rise when so speaking (unless prevented by some bodily infirmity from so doing), but shall be considered as still presiding.

Questions of Order.

Mayor or Chairman to decide points of order.

47. The Mayor or Chairman shall preserve order, and his decision on disputed points of order or practice shall be final, except in so far as the same may be questioned as in the manner hereinafter provided.

Acts of disorder.

48. Every member of the Council who shall commit a breach of any section of this Part of these By-laws, or who shall move or attempt to move any motion or amendment embodying any matter as to which the Council has no legal jurisdiction, or who shall in any other way raise or attempt to raise any question, or shall address or attempt to address the Council upon any subject which the said Council has no legal right to entertain or to discuss, or who shall use any other language which according to the common usage of gentlemen would be held disorderly, or who shall say or do anything calculated to bring the Council into contempt, shall be out of order.

Mayor, &c., may call member to order.

49. The Mayor or Chairman may, without the interposition of any other member of the Council, call any Alderman to order, whenever in the opinion of such Mayor or Chairman there shall be a necessity for so doing.

Any member may raise question of order.

50. Every member of the Council shall have the right of calling the attention of the Mayor or Chairman to any motion, amendment, statement, argument, or observation moved, used, or made by any other member, which such first-named member may consider out of order.

Mode of proceeding thereon.

51. A member called to order shall withdraw while the question of order is being discussed and decided upon, unless specially permitted to offer an explanation, retraction, or apology; but on obtaining such special permission, such member may explain, retract, or apologize for the matter or remark alleged to have been out of order. And if such explanation, retraction, or apology be deemed satisfactory, no further discussion on the question of order shall be permitted. If any member on being called to order shall ask such permission to explain, retract, or apologize as aforesaid, the Mayor or Chairman may, of his own authority, grant or refuse such permission as he may think fit, unless any member shall require the sense of the Council to be taken on this question. In such case it shall be the duty of the Mayor or Chairman to take the sense of the Council at once, and without discussion, as to whether such permission shall be granted. And when any such explanation, retraction, or apology, shall have been made or offered by permission of the Mayor or Chairman, the latter shall in like manner decide, or if required so to do, shall take the sense of the Council as to whether such explanation, retraction, or apology is considered sufficient. If such permission be refused, or if such explanation, retraction, or apology be considered insufficient, the question of order shall be considered and decided before any further business is proceeded with. Provided that if such Mayor or Chairman shall have decided the question of order before any member shall have required the sense of the Council to be taken in reference thereto, such question of order shall not be reopened; and provided further that nothing herein contained shall be held to affect the right of such Mayor or Chairman to decide finally as hereinbefore provided upon any such point of order after the same shall have been discussed.

Decision of points of order.

52. The Mayor or Chairman, when called upon to decide points of order or practice, shall state the provision, rule, or practice which he shall deem applicable to the case, without discussing or commenting upon the same.

Motions out of order to be rejected. Members to explain, retract, or apologize, &c.

53. Whenever it shall have been decided as aforesaid that any motion, amendment, or other matter before the Council is out of order, the same shall be rejected; and whenever anything said or done in Council by any Alderman shall be similarly decided to be out of order, such Alderman shall be called upon by the Mayor or Chairman to make such explanation, retraction, or apology, as the case may require.

Penalties for persisting in disorderly conduct.

54. Any member of the Council who shall have been called to order, and who, after having been twice directed to withdraw as aforesaid, shall refuse to do so, or who shall persist in any line of conduct or argument, or of observations which shall have been decided as aforesaid to be disorderly, or who shall refuse to make such explanation, retraction, or apology as aforesaid when required so to do, or who shall be guilty of any other act of disorder as defined in section 48 of this Part of these By-laws, and shall refuse to make such explanation, retraction, or apology as a majority of the Aldermen then present shall consider satisfactory, shall be liable on conviction for the first offence to a penalty of not less than ten shillings nor more than five pounds; and on a second conviction for the like offence, he shall be liable to a penalty of not less than one pound nor more than ten pounds; and on the third conviction, and for every further conviction for the like offence, he shall be liable to a penalty of not less than two pounds nor more than twenty pounds.

Power of Council as to laying down general rules, &c.

55. Any Alderman who is dissatisfied with the decision of the Mayor or Chairman on any such question of order or of practice may, by motion on notice, respectfully worded, invite the Council to lay down a different rule or principle for the determination of any similar questions of order or practice which may thereafter arise. Any rule or principle thus laid down shall be binding upon all parties unless and until it be rescinded, but shall have no retroactive operation: Provided, however, that nothing herein contained shall be held to bind any Mayor or Chairman to put any motion to the Council which, in his opinion, is contrary to law.

Mode of voting.

How questions are to be put.

56. The Mayor or Chairman shall put to the Council all questions on which it shall be necessary that a vote be taken, and shall declare the sense of such Council thereon; and he shall be at liberty to put any such question as often as may be necessary to enable him to form and declare his opinion as to the opinion of the majority.

Divisions.—Penalty for refusing to vote.

57. Any Alderman shall be at liberty to call for a division; in such case the question shall be put first in the affirmative and then in the negative; and the Aldermen shall vote by a show of hands, and the names and votes of the Aldermen present, when a division is called for, shall be recorded. Any Alderman who shall be present when a division is called for, and shall not vote on such division (not being disabled by law from so voting) shall be liable for every such offence to a penalty of not less than ten shillings nor more than five pounds.

Protests.

Mode of protesting.—Protest to be recorded, but may, under certain circumstances, be expunged.

58. Every member of the Council (the Mayor included) may protest against any resolution or vote by the Council; notice in writing of the intention so to protest must, however, be given at the meeting when such resolution is passed or such vote is arrived at, and the protest itself must be handed or sent to the Council Clerk not later than seven days after such notice. The Council Clerk shall enter every such protest in the Minute Book; but, if in the opinion of the Council, it be inconsistent with the truth, or disrespectfully worded, it may (by resolution on notice) be ordered to be expunged. In such case the expunction shall be made by drawing a perpendicular line with the pen through the entry of such protest, with reference in the margin to the resolution ordering such expunction.

Committees of the whole Council.

Rules applicable to business in Committee.

59. The following sections of this Part of these By-laws shall (except as herein excepted) be taken to apply to the conduct of business in Committee of the Whole Council, namely—sections 14 (except that it shall not be necessary that any motion or amendment in Committee shall be seconded), 15, 16, 17, 18, 38, 39, 42, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 56, and 57.

Disorderly conduct in Committee.—Refusal to vote.

60. Whenever any member of the Council shall, while the Council is in Committee of the Whole, be considered guilty of an offence against good order within the meaning of section 54 of these By-laws, it shall be competent to any Alderman to move that the Council resume its sitting and that such matter be reported; and if such motion be carried such matter shall be reported accordingly, and an entry of such report shall be made in the Minute-book; and whenever any Alderman shall have failed to vote on any occasion in Committee of the whole Council, as required by section 56 of this Part of these By-laws, the facts shall be reported to the Council, and such report on such facts shall be duly recorded in the Minute-book: Provided that in the

case of an Alderman failing to vote as aforesaid, no special motion that the Council resume its sitting shall be necessary, but it shall be the duty of the Chairman of such Committee of the Whole, in making his report of the proceedings in such Committee, whenever such report may be made, to include in such report a statement of such failure to vote as aforesaid, and of the question as to which such Alderman has so failed to vote.

Decisions in Committee on points of order may be reported.

61. Whenever a decision upon any question of order shall have been given by the Chairman of a Committee of the Whole Council under the provision of section 47 of this Part of these By-laws, any Alderman may move that such decision be embodied in the report to the Council of the proceedings in such Committee; and if such motion be carried, such decision shall be so embodied in such report whenever the same shall be made.

How progress may be reported, &c.

62. Any Alderman may at any time during the sitting of a Committee of the whole Council move that the Chairman report progress (or no progress, as the case may be), and that leave be asked to sit again at a later period of the same day, or on any further day, or that no leave be asked to sit again; and if any such motion be carried the Council shall resume its sittings, and a report shall be made accordingly; but no discussion shall be permitted on any such motion, and if the same be negatived the subject then under consideration shall be discussed before another such motion shall be receivable.

Reports of proceedings in Committee.—Want of quorum in Committee.

63. All reports of proceedings in Committee of the Whole Council shall be made to the Council *viva voce* by the Chairman of such Committee; and a report of such proceedings shall be made in every case, except when it shall be found on counting the number of members during the sitting of any such Committee that there is not a quorum present. In the latter case the sitting of the Council shall be resumed without any motion for that purpose, and the proceedings in Committee shall be considered to have lapsed: Provided that in making of any such report as aforesaid, it shall not be necessary to report any such proceedings *in extenso*, but only to state the result, general effect, or substance of such proceedings.

How reports are to be dealt with.

64. All such reports of proceedings in Committee of the whole Council shall be recorded in the Minute-book, but, except as hereinafter mentioned, no such report shall be considered as adopted by the Council, nor shall any such application as aforesaid for leave to sit again be considered to have been granted by such Council until a motion shall have been made and passed for such adoption or for the granting of such leave. And every such motion for the adoption of a report or for the granting of leave as aforesaid and the order of debate on such motion shall be subject to all the same rules as other motions in Council and the order of debate on such other motions: Provided however that where a report shall have been made under section 59 of this Part of these By-laws of disorderly conduct in Committee, under section 57 of this Part of these By-laws, of failure to vote on division, or of any decision in Committee upon any question of order, such report shall, so far as it relates to such facts, be regarded and recorded as a statement thereof, and to that extent shall not, unless for the correction of a manifest error, be interfered with upon any pretext whatever.

Calls of the Council.

How call may be ordered.

65. A call of the Council may be ordered by any resolution of which due notice shall have been given, for the consideration of any motion or matter of business before such Council.

Such call compulsory in certain cases.

66. There shall without any special order to that effect be a call of the Council for the consideration of every motion which may be made under section 55 of this Part of these By-laws, and of every motion for the rescission of any resolution, order, or decision of such Council.

Mode of proceeding.

67. The call shall be made immediately before the motion or business for which such call has been ordered or is required to be made by the last preceding section shall be moved or considered. Such call shall be made as follows:—The Council Clerk shall call the names of all the members in their alphabetical order; each member present shall answer to his name as so called, and if any members are absent a record shall be made of such absence; but if leave of absence to any such member shall have previously been granted, or if such an excuse in writing shall have been forwarded to the Mayor or Council Clerk as a majority of the Council then present shall consider satisfactory, such absent member shall stand excused, and a record shall be made of such excuse and of the reasons for the same.

Penalty for absence without legal excuse.—Further call when question adjourned.

68. Any member of the Council who, having had notice of such call of the Council, shall not answer to his name as aforesaid, or who being absent shall not be legally excused as aforesaid, or who if absent and not so excused shall fail to show that by reason of extreme illness or any other sufficient cause he has been unable to send an excuse in writing as aforesaid, or who having answered to his name as aforesaid shall not be present when a vote is taken on the motion or business as to which such call has been made as aforesaid, shall for every such offence be liable to a penalty of not less than five shillings nor more than one pound: Provided that if the consideration of every such motion or matter of business be adjourned to a future day, there shall be a further call on the resumption of such consideration, and the provisions herein as to penalties for absence shall have reference to such further call. And if there shall be more than one adjournment, this proviso shall be taken to extend to the resumption of the consideration of such motion or matter of business after every such adjournment.

Standing and Special Committees.

Standing Committees.

69. There shall be three Standing Committees, namely, a By-law Committee, a Committee for Works, and a Finance Committee. These Committees shall be reappointed every year at the first meeting of the Council which shall be holden after the election of Mayor.

70. Each Standing Committee shall consist of three members.

Mode of re-appointing Standing Committees.

71. The re-appointment of the three standing Committees may, on resolution of the Council, be made by ballot. In such case a list or lists of the members shall be handed to each then present, who shall mark against the name of each such member the title of the Committee to which, in his opinion, such member ought to belong; and the Mayor or Chairman shall thereupon examine such lists so marked, and shall declare the result, and if there shall be an equal number of votes for the appointment of any two or more members to any one of such Committees, such Mayor or Chairman shall decide which of such members shall be appointed.

By-law Committee.

72. The By-law Committee shall prepare for the consideration of the Council drafts of all such By-laws as may be required for the good government of the Borough. They shall also watch over the administration of the By-laws and of any statute of which the operation has been or may be extended to the Borough; and shall take such steps as may be necessary for the prevention or punishment of offences against such By-laws or Statutes, and for the preservation of public health, order, and decency.

Committee for Works.

73. The Committee for Works shall have the general direction of all works ordered or sanctioned by the Council and the general inspection of all streets, roads, ways, bridges, public reserves, and other public places under the care and management of the Council. They shall also inquire and report from time to time as to such improvements or repairs as they may think necessary, or as they may be directed by resolution of the Council, to inquire and report upon.

Finance Committee.

74. The Finance Committee shall examine and check all accounts, and shall watch generally over the collection and expenditure of municipal revenues. They shall inquire and report from time to time as to all matters which they may consider to affect, or to be likely to affect, the finances of the Borough; and as to such matters or subjects of the like nature as they may be directed by resolution of the Council to inquire and report upon.

Special Committees.

75. Special Committees may consist of any number of members, and may be appointed for the performance of any duty which may be lawfully entrusted to a Committee, and for which, in the opinion of the Council, a special Committee ought to be appointed. And no Standing Committee shall interfere with the performance of any duty which may for the time being have been entrusted to any such Special Committee. The appointment of every such Special Committee shall be made by resolution, after due notice, and it shall be incumbent on the mover of such resolution to embody therein a statement of the duties proposed to be entrusted to such Special Committee. The mover of any such resolution may name therein such members as in his opinion ought to constitute such Committee, or he may propose that such Committee consist of a certain number of members to be appointed by ballot; and in the latter case, or if an amendment to the effect that such Special Committee be appointed by ballot be carried, each member then present shall receive a list of all the members of the Council, from which list he shall strike out all names but those of the persons of whom

in his opinion, such Special Committee ought to be composed; and the Mayor or Chairman shall examine such list, and shall declare the result. And in the event of its becoming necessary, through an equality of votes, to decide as to which of two or more Aldermen shall serve on such Committee, such Mayor or Chairman shall so decide.

Chairman of Committee.

76. Every Committee of which the Mayor shall not be a member shall elect a permanent Chairman of such Committee within seven days after their appointment.

Term of service in Committee.

77. Appointments to the By-law Committee, the Committee of Works, and the Finance Committee, shall be for the whole municipal year. The Chairman of these three Committees, as appointed to or removed from the Chairmanship of the same, shall be thereby, and without any further order, regarded as having been appointed to or removed from the Committee for General Purposes. The appointment of every Special Committee shall be considered to endure until the duties for which such Committee has been appointed shall have been fully performed: Provided, however, that nothing herein contained shall be held to affect in any way the right of such Committee to remove any Chairman of such Committee, or to appoint another such Chairman in his stead, or to militate against the general provisions as to Committees in sections 109 and 110 of the Municipalities Act of 1867; and that so much of this By-law as relates to the appointment, powers, and duties of Committees shall be read and interpreted in connection with such last-mentioned general provisions.

Committee-meeting, how called.

78. The Council Clerk shall call a meeting of any Committee when requested so to do by the Chairman or any two members of such Committee.

Records of transactions in Committee.

79. The Chairman of each Standing Committee shall make or cause to be made in a book to be kept by him for that purpose memoranda of all the transactions of such Committee, which book he shall, on ceasing to be such Chairman, hand over to his successor.

Expenditure.

Except in urgent matters, cost of all work to be estimated before undertaken.

80. With the exception of urgent matters hereinafter specially provided for, no work affecting the funds of the Borough shall be undertaken until the probable expense thereof shall have first been ascertained by the Council.

Urgent matters and necessary current expenses. Expenses authorized to be reported.—Outlay to be in accordance with orders of the Council.

81. For urgent matters and for necessary current expenses during the intervals which may elapse between the meetings of the Council, outlays to the following extent may be incurred:—

1. By order of the Committee for Works, or of the Mayor and one Member of such Committee, for repairs or emergent works to the extent of £5.
2. By order of the Mayor, for necessary current expenses, to the extent of £2.
3. By order of the Mayor and any two Aldermen, or without the Mayor, of any four Aldermen, for any urgent purpose, to the extent of £5.

Provided that in every case a detailed report in writing of every such outlay shall be laid before the Council at its next meeting; such report to be signed by the Chairman of the Committee of Works, or the Mayor, or the Mayor and Aldermen, or the Aldermen without the Mayor, as the case may be, by whom such outlay shall have been authorized; also, that such outlay shall only be permissible in reference to matters coming strictly within the jurisdiction or functions of the Council; and that no outlay involving a disobedience or evasion of any order or resolution of such Council shall on any pretence be thus authorized.

All claims to be examined and reported upon by Finance Committee.

82. All accounts and demands of money against or from the Council shall be examined and reported on by the Finance Committee before any order shall be made for payment of such accounts or demands.

Certificate required with each claim.—Salaries and wages to be payable on Mayor's order.—Certificates to be attached to reports.

83. No payment shall be ordered unless there shall be a certificate or memorandum from the Committee, from the Mayor, or from the Officer of the Council to whom the direction or guardianship of such expenditure properly belongs showing that the demand is a legitimate one, and has been duly authorized or inquired into. It shall be the imperative duty of the Finance Committee to see that this requirement is fulfilled, or to report specially as to the reasons of its non-fulfilment before recommending payment: Provided also that in cases of special expenditure under section 80 of this

MUNICIPAL DISTRICT OF HAMILTON.—BY-LAWS.

BY-LAWS made by the Council of the Municipal District of Hamilton, for carrying into effect the provisions of the "Nuisances Prevention Act, 1875."

1. All closets, earth-closets, privies, cesspools, and cesspits, within the Municipal District of Hamilton, shall be constructed and kept so as not to be a nuisance or injurious to health, and so that there shall be no overflow or soakage therefrom; in no case where practicable shall a cesspit or cesspool be situated within twenty-five feet from any dwelling, or thirty feet from any well.

2. There shall not be formed, dug, or excavated, any earth below the surface for the purpose of making any cesspit, cesspool, or other opening for the receptacle of night-soil, unless by and with the permission of the said Council; all closets made or constructed after this By-law becoming law shall be made or fitted with a moveable receptacle or pan, and such as are usually known as earth-closets, unless the consent of the said Council be given to construct other than an earth-closet.

3. No cesspit, cesspool, or other receptacle for night-soil shall be of greater depth than five feet, four feet six inches in length, and three feet six inches in width, nine inch brick-work set in cement, and cemented inside, so that no soakage can escape therefrom, and that the contents thereof may be readily removed.

4. owner or owners of or occupants of any premises shall pay or be liable to pay the said Council, for emptying and cleansing, or causing to be emptied or cleansed, their cesspools, cesspits, privies, or earth-closets aforesaid, and the said Council may recover such charges as have been fixed by the said Council duly assembled by resolution or otherwise.

6. When any existing closet, cesspool, cesspit, or similar appliance of any kind shall in the opinion of the said Council, or their duly appointed officer or officers, be injurious to public health, or be or become a nuisance or opposed to common decency, the owner or owners thereof shall upon receiving seven (7) days notice from the said Council, or from their duly appointed officer for that purpose, make such alterations as may be ordered by the said Council or by such officer within the time prescribed by such notice; any owner or occupier neglecting or refusing to comply with the terms of such notice, the said Council shall and may have the required alterations carried out at the costs and expenses of the said owner or occupier thereof; and in the case of neglect or refusal to pay such expense after demand, the same shall and may be recovered in the manner provided by section No. 14 of the "Nuisances Prevention Act, 1875."

7. Any owner or owners of existing closets or soilpits, may be required to alter and improve them in such manner as may be deemed necessary by the said Council, in order to bring them into conformity in all respects with these By-laws, on notice being given by the said Council or by their duly appointed officer for that purpose to that effect; owners or occupiers failing to make such alterations or improvements, within one month after the receipt of such notice, shall be liable to a penalty of not less than one pound nor exceeding the sum of three pounds for each and every week or portion of a week during which they shall fail to comply with the terms of the notice aforesaid.

8. The said Council may from time to time, by regulation or regulations, appoint depôts within the said Municipal District wherein the contents of the closets, cesspools, cesspits, and other offensive matter shall be deposited, and may use, or cause to be used, such disinfectants as may appear necessary so that the existing matter shall not be a nuisance or injurious to health: Provided also, that nothing herein contained shall prevent the said Council from making arrangements to deposit night-soil and other manures on private lands, or disposing of

such by sale or otherwise, in accordance with the general provisions of these By-laws; but no person shall be allowed to deposit night-soil, sewerage, or other offensive matter on private lands within the said Municipality without the consent of the Council or their duly appointed officer.

9. 11. The occupier of every house, building, or tenement, within the said Municipal District, shall cause every cesspit, cesspool, or privy therein, to be emptied and cleansed from time to time, as soon as any portion of the contents of such shall have so accumulated therein as to be within a distance of six inches from the top of such receptacle or cesspit, or sooner on complaint being made and notice given by the said Council's duly appointed officer for the removal of such night-soil: Provided that the contents of any cesspool, cesspit, or closet pan shall not be removed or discharged therefrom except by some nightman or nightmen duly authorized or licensed as such by the aforesaid Council, and only between the hours of 10 o'clock p.m. and 5 o'clock a.m. No cesspool, cesspit, or privy shall have connected therewith or attached thereto, any pipe or other appliances capable of being used for the purpose of discharging or removing the contents of such cesspool, cesspit, or privy, upon or under the surface of any adjoining ground, or into any drain or sewer, or into any other place or places whatsoever: Any person or persons wilfully violating this part of the By-laws in any respect, shall be liable to and forfeit and pay a penalty of not less than ten shillings nor more than ten pounds.

12. The occupier of every house, building, or other tenement on or in which the privy or closet belonging thereto shall not be provided with a cesspit, shall at all times cause to be kept in such privy or closet a supply of dry powdered earth, ashes, charcoal, lime, or some other material efficient and sufficient for deodorizing the night-soil deposited therein, and shall cause all such night-soil which may be deposited therein in any box, pan, bucket, or other receptacle in such privy or closet, to be immediately, on the deposit thereof, covered with a quantity of dry powdered earth, or such other deodorizing material as aforesaid, sufficient to thoroughly and effectively deodorize the contents of such bucket, pan, or other receptacle.

13. Licensed nightmen for the removal of night-soil shall, under the direction of the Inspector of Nuisances, for the time being, or their officer or officers appointed by the said Council, make a trench on the depôts fixed upon by the said Council for the purpose of depositing therein all night-soil that shall from

time to time be taken thereto, and the whole of such night-soil shall, as deposited, be covered with earth and disinfectants so as to prevent any nuisance to arise therefrom, and any nightman or other person who shall deposit night-soil either on the appointed depôt, or any other land within the said Municipal District without covering or otherwise deodorizing the same, shall be liable to a penalty of not less than ten shillings nor more than ten pounds.

14. Every cesspool, cesspit, or earth-closet shall be in such a position that the same may be emptied without the contents thereof being carried through any part of any dwelling-house; and any person or persons having or building any cesspool or cesspit contrary to this part of the By-laws shall be liable to a penalty of not less than ten shillings nor more than five pounds.

15. Any person or persons desirous of substituting earth or pan closets for or in lieu of any existing cesspit, cesspool, or privy, shall be at liberty so to do on giving notice to the Inspector of Nuisances or other duly appointed officer, who shall, under his hand, give permission in writing for such substitution; no existing cesspit, cesspool, or other receptacle shall be covered over, filled up, or otherwise abandoned without the consent in writing of the Inspector of Nuisances.

16. Any person or persons who intend to construct any privy or closet shall give notice in writing to the Inspector of Nuisances for the time being of their intention so to do, and the said Inspector shall, within forty-eight (48) hours, inspect the premises on which such is intended to be constructed, and if in accordance with these By-laws and the Nuisances Prevention Act shall give the necessary permission for the construction of such closet, any person constructing a closet or other receptacle for the deposit of night soil without giving such notice and receiving such permission shall, upon conviction, be liable to a penalty of not less than ten shillings nor more than ten pounds.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

MR. DONNELLY, ROAD SUPERINTENDENT.

(COMPLAINTS AGAINST.)

Ordered by the Legislative Assembly to be printed, 16 November, 1883.

RETURN to an *Order* of the Honorable the Legislative Assembly of New South Wales, dated the 23rd October, 1883, That there be laid upon the Table of this House,—

“Copies of all complaints made against Mr. Road-Superintendent Donnelly, relating to his management of roads in the Armidale District.”

(Mr. Proctor.)

W. C. Proctor, Esq., M.P., to The Commissioner for Roads.

Sir,

Pitt-street, Sydney, 8 October, 1883.

I have the honor to enclose copy report from J. Lynch, with reference to Mr. Road-Superintendent Donnelly.

I have, &c.,

W. C. PROCTOR.

Acknowledged, 11/10/83.

Previous papers, W.B.—9/10/83.

Mr. J. Lynch to W. C. Proctor, Esq., M.P.

Sir,

Ellonora Gold-mine, 6 September, 1883.

I beg to state that, according to my promise to you, I will now send my answer to Mr. Hill's report.

In the first place he has made no report on the charges I preferred against Mr. Donnelly, Road Superintendent. The only one he refers to in any way is that Mr. Donnelly gave too much task-work in remote parts of his district. I will now let you know the remote. Stevens, from 1880 to March, 1881, had piecework on the Grafton Road—that is, from Armidale to St. Helen's Bridge—task-work, to the amount of £700, and Sheridan's, 1 mile from Uralla, had task-work to the amount of £400; Joseph Winne, on the Grafton Road, £350, without tender. As regards my travelling to you and reporting Mr. Donnelly, Mr. Hill, in his report, says that it would be ruinous to the service to keep me on. I will now let you see for yourself the class of men he keeps: J. Long was fined for threatening language to M'Lean, the late Road Superintendent, £2 10s., in the Uralla Police Court, and tried for badgering, and Mr. Donnelly has him in his employ now; Charles Ryan, 48 hours, in the Glen Innes lock-up, for drunkenness, and still Mr. Donnelly kept on the roads till he was taken for the murder of a woman at Glen Innes; and I am quite justified in reporting Mr. Donnelly. I am quite prepared that he goes about drinking with contractors, and takes presents from maintenance men.

I will not say any more, hoping that you will cause, in your place in the House, an inquiry to be made.

I am, &c.,

J. LYNCH.

The

The Assistant Engineer for Roads to The Commissioner for Roads.

Charges laid against Mr. Donnelly, Road Superintendent, by J. Lynch.

Sydney, 16 June, 1883.

WHEN in Armidale I made inquiry amongst various classes and creeds of the inhabitants, the result being, in my opinion, to exonerate Mr. Donnelly from any charge of favouring any particular creed. One or two people did remark that it was strange so many of his employés were Irishmen, but, as I explained to them, Mr. Donnelly's district is not singular therein, as from my experience of the Roads Department for twenty-three years I know that about nine-tenths of the road labour is done by Irishmen, who appear to possess a greater aptitude for the work, the English pick and shovel man or navy seldom remaining long at it if railway work is at all procurable. The men employed appeared to me all strong, serviceable, hard-working men, with the exception of one J. Long, employed near Ben Lomond, who is getting rather old, but has been many years a maintenance man, and is one of those men whose knowledge of his duty, and where to put in the stitch in time, makes him of more value than many younger men.

The originator of the charges against Mr. Donnelly—one of his own maintenance men—has, in an underhand manner, by means of letters with factitious signatures during a period of two or three years, been systematically attacking him in the most dastardly and malicious manner. Comparison of the various letters, both as to handwriting and tone, leave no doubt of their authorship, and a statement made by him to Mr. Moore to the effect that any one wishing for any work under Mr. Donnelly must approach him through Archdeacon O'Connor, harping still on the same theme, completely identifies him. Such insubordinate conduct, setting aside its malignity, would be ruinous in any service, and I have instructed Mr. Donnelly to discharge this man at once. I may mention that great indignation was expressed by several at the imputations cast on Mr. Donnelly, and particularly by Mr. Bray, C.P.S., who has been associated with him in the opening of tenders. Mr. Donnelly has at times, with your approval, let some rather large extensions, on account of the contractor being on the spot with his party and equipment, in a remote part of the district where, if fresh tenders for remaining work required had been called, great delay and increased cost would have been involved. Under the circumstances, however, I have told Mr. Donnelly for his own sake to be chary in his recommendation of extensions in future.

F. WELLS,

Assistant Engineer for Roads.

I append his list of maintenance men, with their lengths, pay, and time of service.

Under Secretary, with reference to Mr. Proctor's letter.—W.B., 19/6/83. Under Secretary, B.C. Submitted. Mr. Proctor might be informed.—J.R., 22/6/83. Send copy of this report to Mr. Proctor, M.P.—F.A.W., 23/6/83. Roads, B.C., 26/6/83. Approved.—J.R. W. C. Proctor, Esq., M.P., 26/6/83.

W. C. Proctor, Esq., M.P., to The Secretary for Public Works.

Sir,

Pitt-street, Sydney, 20 June, 1883.

I have the honor to enclose a letter from Mr. Lynch referring to an inquiry alleged to have been made in reference to the conduct of Mr. Donnelly, Road Superintendent at Armidale. I may add I have received unsatisfactory communications from other quarters upon the same subject, but as Lynch was the person who made the charges he should have an opportunity of substantiating them. I am personally not aware that any inquiry has been made, and, though I forwarded the complaints, I never yet received any intimation as to the time or place of holding an inquiry. Besides Mr. Lynch there are several others, I believe, whose evidence would be interesting, and who are willing to give evidence. If an investigation has taken place I trust that it has been one of the fullest that the circumstances of the case would permit in justice to Mr. Donnelly and the public.

I have, &c.,

W. C. PROCTOR.

[Enclosure.]

Mr. J. Lynch to W. C. Proctor, Esq., M.P.

Dear Sir,

Armidale, June, 1883.

Since writing you some time past a Mr. Wells was sent up by the Government to inspect and report on matters generally about the roads in this district. After Mr. Wells left Mr. Donnelly came out and discharged me without any notice whatever. I do not care about being discharged. I have made statements through you to the Government relative to the way in which Mr. Donnelly has acted in this district, and I am particularly anxious that I may not be branded as a liar. I want fair play, and that I must have at any price. I am now in a position to prove every word that I have stated, and can give the same on oath. Mr. Wells never called upon me, nor have I been asked any questions. What I want you to do for me is to insist on an inquiry, and if I do not prove every word I have said I will content myself to be branded as a liar, and unfit to hold a position of any kind.

I can prove that Mr. Donnelly permitted Regan, contractor, to lay metal on a road at the Commissioner's Water, at the same time refusing to allow Cook, contractor, to lay same quality of metal on the same road. Cook and others are prepared to expose this matter when called upon to do so.

I have, &c.,

J. LYNCH.

This is a matter that should be looked into at once. Will the Engineer-in-Chief for Roads cause the whole case to be looked into, and furnish me with a report as early as possible, and inform Mr. Proctor, M.P., of action taken.—F.A.W., 21/6/83.

Memo. from Mr. Road-Superintendent Donnelly to Assistant Engineer for Roads.

As directed, I forward you a list of all of the maintenance men employed in the Armidale Road District. You will observe that the Glen Innes Road absorbs a large proportion of the entire number, two of whom employed a few days only. I forgot to enter their names, and I cannot just at the moment call them to recollection. Several changes have taken place lately, especially upon the Glen Innes Road; several new men were sent there also who, upon arrival, refused to work, and at once left.

S. A. DONNELLY, 6/6/83.

S. A. DONNELLY,
6/6/83.

Mr. Road-Superintendent Donnelly to The Commissioner for Roads.

In reply to the allegations of J. Lynch and W. Williams in respect to my official actions sent by them to Mr. Proctor, M.P., and by him forwarded to the Hon. Minister for Public Works. Official Nos., Works, 83-4,005—25/5. Official Nos., Roads, 83-4,360—29/5.

Sir,

Armidale, 30 May, 1883, 11 p.m.

I have just received the above, and at once reply to it, after my long report of yesterday upon the same subject, in reply to the letter sent through Mr. Fergusson, M.P., signed Simons, Burke, Morris, but evidently written by Lynch. I do not think you wish me to again go over the same ground, and as I am not directed to report at length I shall refrain from doing so unless requested. I may state, Lynch is the man whom I suspected, and I can only repeat my previous statement to the effect that if you think there is any reason to believe that I have acted in any manner unbecoming a public officer I trust you will at once institute an inquiry into the same.

I am, &c.,

S. A. DONNELLY.

P.S.—As a matter of course I must discharge Lynch, as it would be most unbecoming and subversive of all discipline for the present relations to continue.—S.A.D.

Mr. Wells, Armidale.—W.B., 1/6/83. Report herewith.—F.W., 16/6/83.

W. C. Proctor, Esq., M.P., to The Secretary for Public Works.

Sir,

Pitt-street, Sydney, 22 May, 1883.

I have the honor to forward herewith complaints against the conduct of Mr. Donnelly, Road Superintendent, Armidale. In addition to these, verbal complaints have been made—

1st. On account of the prominent part taken by Mr. Donnelly in reference to the Redmond Mission in Armidale.

2nd. The undue preference given to his co-religionists in employment on the road, and leniency and favoritism to the same persons in road contracts. I need hardly say I have little personal knowledge of these matters, and only forward these reports that an inquiry may be made into the different charges if deemed necessary; personally I am loath even to do this much, only that if the charges are true the interests of the public may be affected unless the causes of complaint are removed.

I have, &c.,

W. C. PROCTOR.

Ackgd., 25/5/83. Roads.—J.R., 25/5/83, B.C. Mr. Donnelly.—W.B., 26/5/83.

Mr.

Mr. J. Lynch to W. C. Proctor, Esq., M.P.

Sir,

Four-mile Creek, Grafton Road, 8 April, 1883.

Last week I had a conversation with you *re* Mr. Donnelly, the Road Superintendent here, and the way that he spends the public money. After I came back from Sydney from information I received I went and seen for myself a road just passed, outside of Armidale, on the Glen Innes road; it ought to have 8 inches thick of metal; I can swear on oath that the road will not average 6 inches of metal—Stevens' Contract. I can point out any amount of similar jobs, for instance, giving a man £1 4s., chains for work that was not worth 12s.; I pointed it out to many workmen and they said it could be done for less. I know him to put on a man on the maintenance that Mr. Joe. Moses, Cobb's agent, discharged as an invalid, and he now has 10s. a day. I have seen Mr. Donnelly drinking with contractors. I know his history in Bathurst; he was removed from there for favouring. I know him and his wife are wholly wrapped up in the priests. I can inform you that if my name is brought before Mr. Bennett I will be discharged from Government work. Sooner than see Messrs. Tanns & Co. trample liberty and fair play I would sooner beg for my wife and family. I would like to know if he has a right to have a servant, a maintenance man, to work every Saturday, and who pays him? He gets full time on the pay-sheet.

I have, &c.,
J. LYNCH.

The following sums is as near as I can make out that he gave in task-work to

Joseph Winne, 1882	£400
Lane	300
Per Sheridan	525
Regan	245

Regan had contract on the Grafton Road for maintenance, metal blue of the best quality, and he put on rotten quartz instead; the under Super., Wright, condemned it and Donnelly passed it. I will send you down the stone if you wish it; I can get any amount of witnesses who saw it go on the road.

Mr. W. Williams to W. C. Proctor, Esq., M.P.

Sir,

Armidale.

I would like to know if you as Member of this place is going to allow the Road Superintendent to ride rough-shod over the parties not in the ring? You are accused of keeping him in the district as he was going to be removed by Mr. Bennett only for you; if you only had been a local man you would hear more of his doings; we will hold a meeting and see if Mr. Copeland will not move in the matter. All the men under Donnelly is Papists to a man, and no other need apply.

W. WILLIAMS,
J. & L.

Mr. J. Lynch to W. C. Proctor, Esq., M.P.

Sir,

Four-Mile, Grafton Road, 16/5/83.

I received your letter of 11th. If what you now state to the Commissioner of Roads is not sufficient I can lay sufficient charges against Mr. Donnelly to get him removed from here and discharged the Government employment. The only thing I require of you is to let me know if you wish to go into the affair, the way I will resign. I will go to Sydney with the charges and present them if you like. This is not first time Donnelly has been reported to the Commissioner. Hoping you will succeed,

I remain, &c.,
J. LYNCH.

Messrs. Simons, Morris, and Burke to W. Fergusson, Esq., M.P.

Sir,

Glen Innes, 13 May, 1883.

I would wish to inform you the hard struggle we carriers has to get a living for our wives and children, with the bad state of the road between here and Armidale. The Road Super. pays too much time looking after Redmond and drinking with contractors to look after the road. There is a piece of road lately made outside of Armidale on this road, and it is in some parts hardly covered with stone, as the maintenance man told me Donnelly lets the contractor slum his work. There is a great cry here about the road, but a good many the contractors and the Super. want shifting. There is men on the road trying to mend it, and they are more fit for a hospital. Hoping you will do something for us,

We remain, &c.,
JOHN SIMONS.
WALTER MORRIS.
JOHN BURKE.

Memo. for Commissioner.

I drove over the road mentioned within, and can say I never rode over worse roads in my life. They have been shamefully neglected, when a little money might have kept them in repair. From the top of the pinch to Ben Lomond, and from Ben Lomond to top of cutting, is not safe to travel in day-time, let alone at night. I would suggest that enough men be put on to get all the macadamized road at once. The coach and teams cannot get off the metal roads; so these require immediate attention.—W. J. FERGUSSON, 23/5/83.

Mr. Donnelly, for immediate report.—W.C.B., 23/5/83. Herewith.—S. A. DONNELLY, 29/5/83.

Mr.

Mr. Road-Superintendent Donnelly to The Commissioner for Roads.

In reply to the strictures on him contained in the document signed John Simons, Walter Morris, and John Burke, dated Glen Innes, May 13, addressed to Mr. Fergusson, M.L.A., and by him forwarded to the Commissioner for Roads; official No., 83/4,247, 25/5.

Sir,

Armidale, 29 May, 1883.

As your telegram of 18th instant directed me to visit and report upon the road hence to Glen Innes, my report thereon may be taken in connection with my reply to the document referred to above.

I went over my portion of the road in question on 23rd and 24th instant. Part of the same—from Springmount gate, north of the Pinch, to Walch's, Ben Lomond—were a good deal cut up, the reasons for which I have already reported on, viz., the prolonged and unprecedentedly severe weather for the time of the year, together with the enormously increased traffic of a heavily-borne character which has been developed since the opening of the railway, to which may be added the late period of this year at which the annual supplies became available.

I would point out that in a severe season like the present it is exceedingly difficult to get road-work done here, especially now when the railway works within a few miles offer better wages and more attractive inducements to pick and shovel workmen.

Previous to my last visit, engagements (including maintenance wages to the ordinary staff of five men to end of year) to within £136 14s. of the unappropriated balance of the vote for the road had been entered into. During my recent visit further works to an extent of £128 10s. were let on the ground, as directed by telegram, thus making provision, as far as funds would allow, for the worst places. Therefore only £8 4s. (eight pounds four shillings) remain unappropriated. But besides this, five extra men have been temporarily employed during the past two or three weeks whose services must be retained for some weeks longer; they are doubled with the permanent men; their wages will be a liability of (say) £150 more. Thus the vote is practically exceeded. Either I or Swanson, whom I reported last month I had appointed temporary assistant, go over this road weekly, and nothing within our means shall be left undone to restore to good order; but unless the *weather improves soon, or more money is forthcoming*, it will be impossible to restore it to the excellent state it had been brought to at the commencement of the winter of 1882.

But it is not my part alone of the road that is bad. A mail-driver and many carriers state the worst part is north of my jurisdiction. It is no satisfaction to me to state this; I merely draw attention to the fact in view of the animus of Simons, Morris, and Burke's letter being directed to me above. If their complaints were genuine why do they omit my *confreere* of Glen Innes, whose length, assuming they wrote from that place (as the writer of their letter apparently desires to indicate), would be freshest in their minds, and its troubles and difficulties the most recent to them? Even Mr. Ferguson points out that north of Ben Lomond is very bad. However, I have no hesitation in stating that while the charges made against me therein are gross lies the signatures attached are forgeries. I know no persons of the names J. Simons, W. Morris, or J. Burke, either carriers or drivers. None such are known to the representatives of the whole of the forwarding agents here, viz., Wright, Heaton, & Co., Potts & Co., or Piggot & Co., to the clerks at the railway goods-shed, the local produce dealers, to such carriers as I have asked, to police, or others. I would ask you to refer to the undermentioned letters, and observe is not the handwriting the same, viz.:—*J. M'Manus*: official Nos., 81/11,192, 29/10/81. *R. Sley* to Hon. Minister for Works; official Nos., Department Public Works—81/6,679, Roads—81/4,950, 5/11/81. *L. M'Intyre*: official No., 82/396-6/2. *L. (or J.) M'Intyre* to Hon. Secretary for Public Works; official Nos., Public Works—82/773-8/2; Roads—82/447-10/2. I believe I know the writer. I have already stated the condition of the road, and that I have spared no pains to keep it in order. If, however, you think there is any foundation for the reflections upon me contained in the letter referred to I shall feel particularly obliged if you send some officer to inquire into the same.

I am, &c.,

S. A. DONNELLY.

Mr. Flynn,—Look up the letters in question.—W.B., 21/6/83. I now forward all the papers to Mr. Wells for report.—W.B., 1/6/83. Mr. Wells, Armidale,—Report herewith.—F.W., 16/6/83.

Mr. Road-Superintendent Donnelly to The Commissioner for Roads.

In reply to the allegations of L. (or J.) M'Intyre to the Hon. Secretary for Public Works; official No., Works Office, 82/773, 8/2; official No., Roads Office, 82/447, 10/2.

THE writer in this instance follows a similar course of procedure to that pursued by him on a former occasion—first write to the Commissioner for Roads, then to the Hon. Minister for Works, the only difference being that in his former letter to the Commissioner his signature is *J. M'Manus*, while in that to the Minister it is *R. Sley*. In the present case the letter to the Commissioner is signed *L. M'Intyre*, while in that to the Minister—the one immediately referred to—*J. (or L.) M'Intyre* is appended. I am not acquainted with persons of these names (if such exist), and I believe the whole of the signatures are false.

I have already reported to the Commissioner for Roads in respect to the culverts. [See *previous papers*, 82/396-6/2.] I assume I am not called upon to reply to the remainder of the statements contained in this or the other letter referred to. If, however, the Minister or the Commissioner thinks there is the slightest grounds for the allegations made by the writer I trust a full and searching inquiry into my conduct will be at once initiated.

S. A. DONNELLY,

14/2/82.

I add several letters, under different names, all to the same effect. I do not think any notice should be taken until an authentic accusation is made.—W.B., 17/2/82. 82,463 herewith. Under Secretary, B.C. Previous papers.—W.B., 16/2/82. Inform accordingly.—J.R., 26/4/82. J. M'Intyre, 26/4/82. Roads.—J.R., B.C., 26/4/82.

Mr.

Mr. J. M'Intyre to The Secretary for Public Works.

Sir,

I beg leave to inform you how work is let in this district: Three months ago there was tenders called for a first-class culvert on the Grafton Road; it says in the specification two months; it is three months now, and the man that got it only started to go there yesterday. Is this fair play for others that would have to do it in two months, and the said contractor, J. Wynne, get along with it piece-work to the extent for £200 without tender in the very same road and alongside the first-class culvert? Would it not be better for the contractors here to be allowed to live, and let it to successful tender, and not these that are in with priests? There is not a contractor here but is half his time drinking with the Superintendent. Hoping you will see to it,

Armidale.

I have, &c.,

J. M'INTYRE.

Roads for report.—J.R., B.C., 9/2/82. Mr. Donnelly.—W.B., 9/2/82. See paper attached.—
S. A. DONNELLY, 14/2/82.

Mr. Road-Superintendent Donnelly to The Commissioner for Roads.

In reply to the allegations of L. M'Intyre; official No. 82/396, 6/2.

ON 11th November tenders having been publicly invited for several works, those of Joseph Wynne for two tasks on Grafton Road were, with your approval, accepted; one was within 8 miles of Armidale, the other at Guy Fawkes, 50 miles away; the value of the two works was £334 8s. 10d., and as usual in such small works so far apart, unless where very urgent, he was allowed to complete the first before beginning the second. Presently some of the small culverts on the "Cedar Log" and "Snowy" cuttings had become almost dangerous, and I arranged with Wynne for their reconstruction, for a broken culvert at these places would cause a stoppage of traffic.

I do not think that I am called upon to reply to the remainder of the statements contained in this letter. The letter signed "J. M'Manus," to the Commissioner for Roads (official No., 81/11,192-20/10), also that of "R. Sley," to the Hon. Minister for Works (No. in Works Department, 81/6,677; No. in Roads Department, 81/4,950-5/11), and the present one, are clearly written by the same hand, and I believe the signatures in every case are false. If, however, the writer can be found, I shall be most happy to afford him an opportunity of proving his statements in another place.

I have, &c.,

S. A. DONNELLY.

Re-submit with letters referred to when letter sent from Works and sent Mr. Donnelly yesterday is received.—W.B., 10/2/82. Records, 10/2/82. All papers herewith, 10/2/82.

Mr. J. M'Intyre to The Commissioner for Roads.

Sir,

Armidale, 3.

Some three months you had tenders called for a first-class culvert on the Grafton Road; the specification says two months, now it is three months, and the contractor has not started. Is this fair for any man that tenders according to the specification, and also for the Super. to give on the same road £200 in piece-work for other culverts alongside the first-class that was tendered for? I think that you as a gentleman at the head ought to look after the way work is done here; a stranger has no chance unless he is in with the priest. How is a stranger to know that he may let work stand over for three months as in this case, he, the Super. here, done the very same in Bathurst, and you had him removed for the very same offence, playing into the hands of the Roman Catholics. The man is going wrong in his head; he is in the hands of the priests, and he does as they direct him. Hoping you will see into the affair as tendering is no use under the way that things are carried out here under the present Superintendent.

J. M'INTYRE.

Mr. Donnelly for report as to the culverts in question.—W.B., 6/2/82. Mr. Donnelly, B.C.
See paper herewith.—S. A. DONNELLY, 8/2/82.

Mr. R. Sley to The Secretary for Public Works.

Sir,

Armidale, 25.

I beg to draw your attention to the way that the public money is expended here; it is let by task to a chosen few; fully half the money voted for the district, and does not give a chance to any one outside the ring to tender, and yet Donnelly says that he gets tenders 20 per cent. below his estimates. I would like for you to see to one contractor here, always tenders and always high; and still gets task-work amounting to £400 per annum. I thought it better to bring it under your notice before getting the Member to move in the matter; you will find half the money is let by task. Hoping you will see to it,—

Yours, &c.,

R. SLEY.

Roads.—J.R., B.C., 3/11/81. Mr. Flynn stop letter sent to Mr. Donnelly on this and re-submit.—W.B., 4/11/81. Paper now herewith, 14/11/81. I think Mr. Donnelly's explanation on paper herewith should suffice; it appears to me that both letters are from the same source.—Under-Sec., B.C. W.B., 15/11/81. P.W.O., 16/11/81. Inform.—J.R., 18/11/81. R. SLEY, 19/11/81. Roads, B.C., 19-21/11/81. Mr. Donnelly to see.—W.B., 21/11/81.—J.R. MR. DONNELLY.—B.C. Seen. I know no person named "Sley," and feel assured that while both letters are from the same source both signatures are factitious.—S. A. DONNELLY, 29/11/81.

Mr. J. M'Manus to The Commissioner for Roads.

Sir,

23 November, 1881.

I beg to draw your attention to the way that Mr. Donnelly is letting work here. If it is right I leave to you for to see he lets half and the best part of the Grafton Road by task, and the other by tender. Would it not be better to let the whole of it by tender; but then his favourite would be out of

of work or have to tender for the work. Half the money is let by task that is voted for this district, and does not give a change to a stranger. Hoping you will stop it before we get our Member to move in the matter,—

Yours, &c.,
J. M'MANUS.

Mr. Donnelly.—W.B., 29/10/81.

Only two tasks, amounting probably to £100, have been let privately on the Grafton Road during the current year, while tenders for nearly £1,200 worth of work have been advertised for in three consecutive issues of three different newspapers published and circulating in the district. I let no work privately except such as are very urgent, or occasionally small works requiring special knowledge in the executant; but all such works amount to but a very small proportion of the annual vote; hence the writer's statements are grossly untrue. I have no knowledge of him, and although some hundreds of tenders advertised for in the newspapers have passed through my hand during the current year yet I have not seen his name attached to any. It is strange the men who do tender do not thus complain. The man, to whom the work on the Grafton Road referred to above was let is the lowest tenderer for two (2) of the advertised works, also, if it were permissible I would like to be able to exercise a little more discretion in the choice of contractors, for in the advent of the Railway works there always comes, as well as the honest hardworking man, a swarm of worthless idlers whose only aim in getting the contracts is to get credit from a storekeeper, scamp the work, or decamp without paying their workmen, as it is not unfrequently done, one of whom no doubt the veracious Mr. J. M'Manus is.—S. A. DONNELLY, 2 Nov., 1881.

The Commissioner. Writer gives no address so letter cannot be answered; if Mr. Donnelly suggests that any new man is not likely to do work I will approve of his being passed over.—W.B., 4/11/81.

Noted for future action.—S. A. DONNELLY, 10/11/81.

No. 2.

The Under Secretary for Mines to The Under Secretary for Lands.

Sir,

Department of Mines, Sydney, 30 September, 1881.

With reference to the matter of the extension of High-street, St. Leonards, through the properties of E. Lord and P. Hayes, to the waters of Port Jackson, at the point between Careening Cove and Neutral Bay, the usual reservation of 100 feet from high-water-mark is contained in the deeds of the grants of the land that would be affected should such street be carried out; and as it appears that applications have been made for the purchase of the rescission of that reserve, I am directed by the Secretary for Mines to ask that such applications be not granted until the question of compensation for the land required for such extension has been settled.

I have, &c.,

HARRIE WOOD,

Under Secretary.

Minutes on No. 2.

Mr. Peyton,—J.M., per H.P., 10/10/81. Mr. M'Guinn,—A list of the applications by Mr. Lord is enclosed; they should probably be referred to Engineer-in-Chief, &c., and Surveyor-General, for further report in connection with his letter, before submitting for the approval of the Secretary for Lands.—S.L.P., 12/10/81. For approval.—F.H.W., 15/10/81.

By the Under Secretary for Lands:—The Engineer-in-Chief and Surveyor-General.—C.O., B.C., 19/10/81.

Mr. Stopps,—For any necessary remarks. You will probably remember that I proposed to do what is herein requested, but you directed me to deal with the enclosed applications independently of the road question.—S. L. PEYTON.

When I stated that the applications referred to might be advanced a stage or two, it was not then proposed to open High-street to the water's edge, but to deal with the Whaling Road under a special Bill; but when the Mining Department undertook to extend High-street and to compensate Mr. Lord for loss of land, attention was drawn by this Branch to the fact that applications from Mr. Lord were in the office to purchase the rescission of water frontage reserve, and also the right to reclaim, and the Mines have taken action by requesting that such applications may not be granted at present.—A.J.S.

Mr. Peyton,—In view of this letter I caused the action on the applications mentioned to be stayed; but Mr. Stopps' directions to deal with them independently of the road was without qualification; and it might perhaps be pointed out that it was proposed to recommend a compliance with applications S.P. 76/46 for the rescission of the 100 feet reservation, and S.P. 76/47 for permission to reclaim the only one which could have affected the road in such a way as not to interfere with it.—S.L.P.

Memorandum by Surveyor-General and Engineer-in-Chief for Harbours and Rivers.

Edward Lord, applying for the rescission of 100 feet reservation fronting his property at Careening Cove, parish of Willoughby, county of Cumberland.

THERE does not appear to be any objection to applicant being permitted to purchase that portion of the reserve of 100 feet in the original grant, which fronts his property at Careening Cove, and which is included within the following boundaries, viz. :—

Commencing on the original high-water-mark of Careening Cove, at the south-west corner of applicant's property, and bounded thence on the south-west by the south-western boundary of the said property bearing north-westerly about 134 feet; thence on the north by a line parallel to and distant 100 feet from high-water-mark, bearing in a direct line easterly about 213 feet to its intersection with the south-western boundary of High-street; thence on the north-east by a line parallel to the south-western boundary of applicant's property, bearing south-easterly about 101 feet to the high-water-mark aforesaid, and thence on the south by that high-water-mark bearing westerly to the point of commencement.

Tracings herewith, marked A and B, one of which (marked A) should probably be forwarded to applicant.

Letter of the Under-Secretary for Mines, *re* extension of High-street, St. Leonards, through the properties of Messrs. Lord and Hayes, parish of Willoughby, county of Cumberland.

No application by Mr. Hayes has been referred to us for report.

Special purchase applications, Nos. 48 and 49, of 1876, by Mr. Lord, have been withdrawn, and our recommendations on Mr. Lord's applications, S.P. 76-46 and 76-47, have been so framed as not to interfere with the extension of High-street, St. Leonards, as will be seen on reference to the enclosed tracing marked "C,"* which might be forwarded to the Under-Secretary for Mines, who should probably be asked if, in view of these facts, there is any objection to a compliance with the two applications last referred to. * Not with papers.

				Will proceed with this immediately after completion of plan of boundary road on eastern side of A. Thrupp's 700 acres. These instructions are marked "very urgent" by the Surveyor-General, as Mr. John Rae states that Mr. Wright is anxious to proceed to a close with the matter. Will probably be commenced on the 1st October, and completed by the 15th.

NOTE.—It will be seen that the three instructions that are being urged by Ministers, or the Municipal Council, would be completed by Mr. Surveyor Perdriau by the end of October, and the work would be reliable. The employment of two new surveyors would hasten the work to completion, but I would not guarantee its correctness, unless they are men of known experience and accustomed to work in connection with the Trigonometrical Survey.

Referring to your letter of the 11th instant, on the subject of Mr. Edward Lord's application to purchase the rescission of reservation of certain land at Careening Cove, I have the honor to inform you that Mr. District Surveyor Woolrych, to whom this matter was referred on 29th June last, has reported that he is at present unable to carry out this survey at once, as he has so many previous instructions in hand, and only a limited staff to act on them.

I have, &c.,

Memorandum.

From District-Surveyor Woolrych to Mr. Surveyor R. B. Mackenzie.

Mr. Surveyor Mackenzie is requested to communicate with Mr. Surveyor Perdriau (Mimosa, Ben Boyd Road, St. Leonards) respecting the measurements which are required in connection with Mr. E. Lord's application for rescission of water frontage at North Shore, the instructions for which Mr. Perdriau has been directed to transfer to Mr. Mackenzie. This matter is being urged by the Minister, who would have it attended to at once; therefore the surveys at Waterloo, on which Mr. Mackenzie is now employed, must be temporarily set aside.

If Mr. Mackenzie has not had experience in the kind of survey required he is cautioned against hurrying over the work on account of its urgency, as no allowance is made by the Department for errors committed or imperfect work done by a surveyor, on the plea that it was being urged and therefore done in haste.

Special purchase application, No. 76-46 of 31st March, 1876.

Sir,

Bondi, 10 October, 1883.

In compliance with your instructions, No. 260 of 27th June, 1883, issued to Mr. District-Surveyor, I have the honor to transmit herewith the plan and field notes of a portion of land in the parish of Willoughby, county of Cumberland, applied for under the 12th clause of the Crown Lands Alienation Act of 1861, by Edward Lord.

Mr. Surveyor Perdriau gave me Mr. Bullock's values to Δ Trigonometrical Station No. 235, from Timeball, he not having yet computed down to this point, and from this station my own are carried.

The mean high-water-mark is the same now in this particular locality as it originally was at the time of the grant, and has been determined accurately by data supplied me by Mr. H. C. Russell, Government Astronomer. Date of survey, 2nd October, 1883.

I have, &c.,

Petition by Residents of East St. Leonards.

Sir,

North Shore, 15 October, 1883.

We, the undersigned residents of East St. Leonards and its neighbourhood, have heard with feelings of surprise that the Government contemplate selling to Mr. Edward Lord the reserve at the eastern side of his property, situated at Careening Cove, and bounded on the south by Careening Cove, and on the north by Whaling Road, and on the west by a stone wall, the present dividing boundary of Lord's property.

And knowing that the alienation of such a valuable public reserve will be detrimental to the privileges of recreation we at present enjoy from the same, we respectfully urge it upon your consideration that, for the Government to sell this reserve, upon any terms that will place it in the hands of a private individual, deprives us as residents and the public generally of a recreation spot, the advantage of which is felt and appreciated by all, and will close to us a valuable water frontage and the public advantages we derive from such approach to and use of same.

Actuated only for the public good and by no selfish motives we thus petition you, feeling assured that the urgency of your petition must receive due consideration at your hands favourable to the wish of same; and your petitioners will remain and ever pray.

EDWARD M. CLARK, Moorlands, High-street.

JOSEPH HIPWOOD, High-street.

JAMES COCK, High-street.

JAS. S. THOMSON, High-street.

No. 22.

Mr. B. O. Holtermann, M.P., to The Secretary for Lands.

Sir,

Sydney, 4 December, 1883.

By request of some thirty responsible inhabitants of St. Leonards Electorate, and with reference to a petition handed to you opposing the sale of a small reserve on North Shore by the Crown to Mr. Edward Lord, I hereby beg to bring under your notice that the North Shore has hardly any water frontage for public use. On Blue's Point, we may say, there is a pretty fair landing-place, but all round Lavender Bay is none accessible by carts, &c. On Milson's Point only one very steep street, 66 feet wide, and one or two more, but in no way sufficient. In a few years' time, when our North Shores, I hope, be transferred into wharves and the city north, when all and every single foot will be wanted for access to the water, I hope, for the benefit of our electorate, you will not comply with Mr. Lord's request, and preserve this reserve for the St. Leonards Electorate.

Yours, &c.,

B. O. HOLTERMANN.

WHALING ROAD, NORTH SHORE.

REPORT.

THE SELECT COMMITTEE of the Legislative Assembly, appointed on the 6th May, 1884,—“with power to send for persons, papers, and plans, to inquire into and report upon the opening of *Whaling Road at North Shore, from Alfred-street to the waters of Port Jackson,*”—have agreed to the following Report:—

1. Your Committee having examined the witnesses named in the List* (whose *See List, p. 5. evidence will be found appended hereto), find as follows:—

- (1.) That in about the year 1830, Mr. James Larmer, Licensed Surveyor, acting under instructions from Mr. Surveyor-General Mitchell, surveyed and marked out at North Shore a road one chain wide, which road divided two sets of allotments granted for the purpose of encouraging the Whaling industry, and was known as the Whaling Road.
- (2.) That the allotments referred to have since been sold by the original grantees to various purchasers, and have been subdivided by different surveyors and resold. In some of these measurements the road has been absorbed, and is now held by the purchasers of the allotments under the subdivisions.
- (3.) That the original allotments are now shown to exceed in area the quantity of land granted by more than would suffice to restore the road.

2. Your Committee, in view of the foregoing facts, are of opinion that the road known as the Whaling Road should be at once dedicated and proclaimed by the Government as a public thoroughfare.

MINUTES OF EVIDENCE

TAKEN BEFORE

THE SELECT COMMITTEE

ON

WHALING ROAD, NORTH SHORE.

THURSDAY, 26 JUNE, 1884.

Present:—

MR. HARRIS,

MR. HOLTERMANN,

MR. WITHERS.

B. O. HOLTERMANN, Esq., IN THE CHAIR.

Arthur J. Stopps, Esq., called in and examined on oath:—

1. *Chairman.*] What position do you fill in the Survey Department? I act for the Surveyor-General in all matters connected with the survey and proclamation of roads, and the surveying and aligning of streets. A. J. Stopps,
Esq.
2. In connection with the matter which this Committee has been appointed to inquire into, I believe you have a plan on which Whaling Road is shown, a road near Milson's Point? Yes, the plan which I produce is the plan of the original survey of the allotments through which a road runs, and which has subsequently been known as Whaling Road. 26 June, 1884.
3. What is the date of that plan? 1830.
4. What is the width of the road as shown by the plan? It is intended to be a chain wide.
5. That road runs right down to the water's edge? Yes.
6. Some of the allotments as originally surveyed have been since partly subdivided? No doubt they have been very much subdivided and altered.
7. Have you any plan made subsequent to the one you have just produced? Not showing the subdivision of the land. I have had a tracing made of the original plan, which I thought might be useful to the Committee. (*Tracing handed in. See Separate Appendix.*)
8. *Mr. Withers.*] Mr. Kemmis was the owner of the point at that time? Yes, Kemmis and Brown on one side, and John Lamb on the other.
9. *Chairman.*] In reference to Whaling Road, can you give the Committee any evidence as to when it was first obstructed—have you any knowledge of the matter? The first time the matter of the obstruction came before the Surveyor-General was when an application was made by the Borough Council of St. Leonards to have the road surveyed for the purposes of the proclamation of the alignment, in order to give it its proper width of carriage and foot ways, and to mark out the ground permanently.
10. Will you kindly give us the date of the preliminary notification? The preliminary notification of Whaling Road was made, with other streets, on the 5th August, 1870.
11. We have amongst the papers a preliminary notice at the Police Office, of date July, 1870? The Gazette notice was published on the 5th August, 1870; the folio is 1639. The object of that notification under the Parish Roads Act, viz., 4 William IV, No. 11, is to call for any objections from residents or persons interested in the road, in order that they may be lodged and considered before the road is thoroughly established. Although it was presumed to be a road, that course was taken in order to make people who are in the neighbourhood of the road aware of what the Crown is doing. The aligning of a road is done under 2 Victoria, No. 2, the Towns Police Act, which is the only Act resorted to for the establishing of the widths of carriage and foot ways. Under it the police can prosecute persons for trespass or what not. Unless the road has been proclaimed under that Act, the police or Borough Council cannot take action against any one for trespass. The Act gives the police power to interfere in cases of obstruction in towns that are not in municipalities.

- A. J. Stopps, Esq. 12. *Mr. Withers.*] That refers to the street as it is shown on the tracing you handed in? No, but to that shown on the plan of survey by Mr. Armstrong as the road originally dedicated in the subdivision of the Crown estate.
- 26 June, 1884. 13. It refers to the road shown as going down to the water's edge? Yes.
14. *Chairman.*] On what date was Whaling Road proclaimed a Government road, or what has for some years past been known as Whaling Road, and which was to be 66 feet wide? It was only proclaimed under the action taken under the plan of survey by Mr. Armstrong, which I have produced, and that shows a road 40 feet wide.
15. But that refers to only one portion of it? That is the portion which I understand is more particularly under the notice of this Committee. There is a Schedule in connection with the plan which gives the width at 40 feet. It was dedicated as a road 1 chain wide at the sale of the Crown estate.
16. In regard to the dispute which has arisen among the parties interested, what knowledge have you as to their right and title to close the road? When the road was preliminarily notified, calling for objections, objections were elicited from Mr. Loxton and Mr. Younger, on the ground that the street was an intrusion upon their properties. An investigation was made, and it was considered that the road did intrude upon their properties—that in reality there was no land for a road.
17. *Mr. Withers.*] About what date did that take place? The end of the year 1870—immediately after the proclamation of the preliminary notification. The objections were elicited by the proclamation of the road in 1870.
18. The objections as to the encroachments were made to the Government through your Department? The objections were lodged with the Executive Council, and forwarded to our Department by the Executive Council.
19. And the Department declared that the road encroached? No, we came to the conclusion that there was no land for a road; the matter had been investigated, and we came to that conclusion. I have with me a *précis* of the case which I made at the time, and which was submitted to the Crown Law Officers for opinion in the matter. The fact is this: the surveyor, in measuring the allotments, measured them up to a central line, with the intention of reserving a road along that central line, but in the descriptions, although various allotments were described as being bounded by a road, the lengths of lines and areas did not admit of the existence of a road; the road was absorbed, in fact, by the allotments on both sides.
20. In the descriptions the road is mentioned? Yes, it is mentioned in the descriptions of the allotments on both sides.
21. *Chairman.*] It is only on one side the allotments overlap the road? On both sides.
22. Presuming the road did exist, the allotments encroach not only upon the road but upon each other? No, they were measured up to a central line. There has been a re-survey, and there is no question that there is no encroachment at all. The owners have only the areas allotted them; that is to say, there is not a sufficient discrepancy to admit of anything like a road.
23. Is it a 66 feet road all the way down? Yes.
24. Then there would be an encroachment of 33 feet on each side? Yes.
25. Has the land been re-surveyed since? Yes. Since the land was measured for sale by Mr. Larmer, the matter was thoroughly investigated in 1869 by Mr. Armstrong, when he surveyed the road for proclamation, and an additional report was obtained from Mr. Deering in 1870. I believe the Committee have Mr. Armstrong's and Mr. Deering's reports on the subject.
26. *Mr. Withers.*] The land was originally sold by the Government? Yes.
27. And the road was to be given by the Government? Yes. One would get over the impression that there is a road by assuming (what the Department accepts as a fact) that a line down the middle of the peninsula is a common boundary to the allotments on both sides of it, and that the road only exists on paper—that, in point of fact, the area of the land as described in each person's grant would absorb all the available land there; the road would appear to have been just thrown in as the description of a boundary, as there is no corresponding ground to represent the road.
28. Has it absorbed the road accurately, or has it given considerably more than the road, or just exactly the road? Allowing for slight inaccuracies which sometimes occur in old surveys, we may say that the alienated lands have absorbed it entirely and not generally in excess to any appreciable extent. With an irregular boundary like the rocky and broken frontage to the harbour there is sure to be some slight difference in the measurements, and any surveyor would differ from another surveyor in his measurements; but in this case there would not be such a difference as would at all approximate to an area sufficient for a road.
29. *Chairman.*] Mr. Armstrong is still of opinion that there should be a road, and I think he recommended it in his report to the Government? I think that was the substance of his report; but I think there can be no doubt that there is no land for a road there. Acting upon that impression, we did not confirm the road laid out by the surveyor, Mr. Armstrong.
30. But what was the reason of all the different subdivisions being described as being bounded by a road? They were all governed by the original description. No doubt the deeds from the Crown gave the allotments a road, but no road exists on the ground. The owners are entitled to certain areas and certain lengths of boundaries, taking them to a road, but when you come to measure their allotments to the lines given in their deeds, there is no land left for a road at all.
31. *Mr. Withers.*] Have you copies of the correspondence and the conditions of sale—in the conditions of sale of most properties, the words "more or less" are used? No doubt they were used in this instance, but I have not got the papers that would afford that information.
32. Have you had any similar case previous to this coming under your observation—that is, a case where there is an imaginary road existing only on paper? I do not recollect any. There can be no question at all that the omission was entirely a mistake of the surveyor in writing his descriptions; he simply omitted to reserve the road—to deduct from the lengths of line the width of the road.
33. According to the plan, it was drawn out in 1830, but have there not since that date been subdivisions taken from this identical land, subdivisions made by another surveyor a few years after the land was first laid out? Not by the Crown.
34. I think it was by a Government surveyor, who there and then marked out a road a chain wide? I am not aware of anything of the kind having been done. I do not see what he would have to mark, as all the land was alienated.
35. Yes, but some of the subdivisions were marked out by another surveyor? That would be a private subdivision, and would not come under the notice of the Crown.

36. But when a surveyor makes a subdivision of any property, he must first of all find out the real boundary lines of the land he has to subdivide, and in this case the surveyor who subdivided the land must have gone by the original grant or the specifications of areas and points? Yes.
37. Do you recollect whether, amongst your papers, you have any report by Mr. Surveyor Larmer? No; he was the original surveyor of the allotments—by his survey the land was sold.
38. *Mr. Withers.*] Was Mr. Loxton the first purchaser of the land on the Point? No; Mr. Lamb, I think was the owner of land that was first purchased from the Crown by Thomas Barker.
39. Did Mr. Lamb absorb the road in the way Mr. Loxton has done? Yes.
40. *Chairman.*] The information we have obtained from you tends to prove that, by the area of land measured from the water's edge, there was merely a central line to which the various properties were to extend, and that there was no road at all? No road at all; the surveyor omitted to provide the necessary width of road.
41. And you do not recollect any similar case coming under your observation? I do not.
42. Do you know any other portion of land which would encroach on a road in a similar manner to this case? I hardly know of any similar case; of course each case has to be judged on its merits—they vary slightly.
43. But suppose I have bought (say) 5 acres of land bounded by a road, and I afterwards find that I have not the proper area of ground without encroaching on the road, and the Government tells me to take the road to make up the deficiency—is there any instance of the kind on record? I think not; any person buying land with certain boundaries to a road will have a claim against the Crown if, after purchase, he finds it is not bounded by that road.
44. But it seems in the present instance that the area of the road is given up to the owners of the land on either side to make up their quantity of land? In one way it seems so, but in another way it does not; the Crown has simply alienated the land which might have been a road, and thrown it into the area of allotments. The Government has not said, "You can take up the road, and so make good any deficiency in your areas." The Government has simply described land up to a certain line, and given each purchaser a deed up to that line. The mistake is in the descriptions of the land for sale. It was clearly an oversight on the surveyor's part in not deducting the width of the designed road from the side lines of the allotments, and so provide an area for the road by diminishing the area of the allotments.
45. Do you not agree with me to a certain extent, that it was an oversight on the part of the Government to grant a road and not take steps to preserve it? I do not see that the Crown could possibly be aware that there was no land to represent the road shown on the plan of the allotments, and referred to in the deeds, until the fact was brought under notice.
46. *Mr. Withers.*] When sending a surveyor out to survey property, is it not usual to give him written instructions? Yes; the surveyor generally submits a design. In the present instance the surveyor submitted a design.
47. Is a rough draft of that available? Yes.
48. You think there is no question but that the surveyor had instructions to leave that road? No; I do not think the instructions specifically referred to a road, but he was instructed to survey in accordance with the design he had submitted for the subdivision of the Point, and that design provided for a road.
49. The course of procedure would, I presume, be this—that the rough draft would be submitted and approved, and then the survey would be made in accordance with that design? Yes, the plan of subdivision indicates it.
50. That plan is lodged, and is supposed to show the land indicated by it? Yes.
51. Then these people would simply not have a road to the land? They would not have the road.
52. Then it would be a question of compensation to them for the loss of the road? It would resolve itself into that, so far as I can see. If you go into the case any further, I do not think it will give you any different view to that.
53. Some of the owners have set their fences back half a chain—when that was done was it done individually? I do not think any attempt has been made to open the road through the land in question.
54. It goes right down to Mr. Loxton's property—all the people higher up have set back? There is no question that up to a certain point the road exists.
55. How is it that some people set back and others did not? The difficulty does not arise at all until we come to the western boundary of the Whaling allotments—it is only in regard to the Whaling allotments that the discrepancy exists.
56. Is there any correspondence that was carried on by persons who opposed Mr. Loxton building there? I am not aware of any.

Mr. Thomas Henry Simpson called in and examined on oath:—

57. *Chairman.*] Where do you reside? In High-street, North Shore.
58. How long have you been residing there? About six and a half years—since I built a house.
59. Did you purchase land at that time or previously? No, that is about the time I purchased the property.
60. From whom did you purchase it? Messrs. Richardson & Wrench, who were agents for Mr. Lamb, who was the owner of the property I think at the time.
61. *Mr. Withers.*] What property do you refer to? My land is in High-street.
62. *Chairman.*] At the time you bought the land, did you buy it with any description, showing that you had a road on either side of the allotment? My deed gives me a road. The starting-point is in High-street, and by reference to my deed I see that my land extends back to a Government road.
63. Does the deed mention the width of the road? No, it does not—it merely says, "to a Government road."
64. Can you say whether at any time anybody has asked you about the road, or do you know anything about the road having been fenced off illegally? Do you mean previous to my purchases?
65. No, subsequently? It has been spoken of in conversation—there have been different rumours about.
66. Had you any official notice of any road having been illegally fenced in? No.
67. Have you ever made application to have the road opened? No.
68. Do you wish to have the road opened? My frontage is to High-street. My deed gives me the right to land of a depth of 210 feet. I do not wish to be absurd about the matter; I wish to have the right that I possess.

Mr. T. H.
Simpson.
26 June, 1884.

- Mr. T. H. Simpson. 69. But I ask you if it is your wish that the road should be opened? If practicable I should wish it to be opened, most decidedly, because with the depth of land I have it would give me another frontage.
- 26 June, 1884. 70. *Mr. Withers.*] Do you think it practicable to open the road? The owners have met to consider the matter, and the majority decided that the Government could not open the road without very great expense.
71. What do you consider a great expense—a couple of thousand pounds? If the parties who own the land actually own that part which is believed to be intended for a road, they would require a very large amount of compensation if they gave up sufficient to make the road.
72. *Chairman.*] What is your opinion with regard to making a road there—would it be a wonderfully great deal of trouble? From personal experience I cannot give you much idea.
73. Are there not roads at North Shore at the present time with quite as steep a gradient as this road would be if it were opened? I should think so.
74. Several of them? I should think so.
75. Then it would not be impracticable to make a good road there, and it would be a convenience to all parties? Certainly it would not be impracticable.
76. Have you any knowledge of any of the parties interested, such as Mr. Loxton or Mr. Farrell, receiving notice that they were building on a road? No, I never heard of any notice having been given to them.
77. In reality the first intimation I think you had of there being a road there at all was when you purchased your land? I believe Messrs. Richardson & Wrench at the time of sale showed a large plan on which there was a road marked at the back.
78. That is seven years ago? About that time.
79. With that object you bought the land? Certainly; I have 210 feet in depth, sufficient for two frontages.
80. And the road being marked on the plan induced you to give a higher price for the land? Decidedly.
81. Have you taken any steps whatever towards having the road opened? I have joined with others in petitioning the Government asking them to open the road, on two or three occasions.
82. *Mr. Harris.*] Had you any knowledge of the locality previous to your going to live there? Not much; I have only been in the Colony about seven years; previous to purchasing I went to look at the land.
83. *Mr. Withers.*] Presuming the road could be made accessible to the water, either by steps such as you may see about North Shore or the city, or by a steep gradient, such as other streets on the North Shore have, would it be a public benefit to have it made—would it be a great advantage to people—would it convenience people boating or yachting? You mean would it be any convenience to people living in the neighbourhood?
84. Yes? Most decidedly it would; it would be a wide street, whereas the other is a mere lane.
85. You have no doubt that the opening of the road would benefit the public generally? Most decidedly it would.
86. Do you think the gradient would be much steeper than that going to the main road? If you cut away the hill it would go pretty level all the way to the water, except on the site where there has been a quarry.
87. In describing the depth of your land, does it take you to the centre of the road? I cannot tell you; that is just the question, where is the road.
88. Presuming the road is run right through, would you get the depth of land described in your deed? That is a question to be decided.
89. But would it take in any of your land? A surveyor would have to say that.
90. *Chairman.*] At present you hold only the area actually granted in your deed? That is all.
91. *Mr. Withers.*] What is the size of your land? It has a frontage of 50 feet, and a depth of 210 feet.
92. Would you have your land exclusively, presuming the road ran through? I cannot tell if the line (of the road) would strike my land.
93. *Chairman.*] Have you had only your complement of land as described in your deeds? That is all.
94. Then the road must be outside your land? Decidedly, according to the deed.

Edward J. H. Knapp, Esq., was called in and (having made solemn declaration) examined:—

- E. J. H. Knapp, Esq. 95. *Chairman.*] What occupation do you follow? That of land surveyor.
- 26 June, 1884. 96. You are aware of the object for which this Committee was appointed? Yes.
97. You have given the Committee a copy of the original survey of the Whaling allotments? Yes.*
98. Do you know anything of the locality in question? I had to make surveys of some of the Whaling allotments in 1858.
99. At the time you made that survey were you aware that there was a chain-wide road? I was.
100. And you made your surveys accordingly? I did.
101. And that was in the year 1858? Yes.
102. At the time you were measuring the land, did any one inform you there was not a road, or dispute your measuring a road? No one.
103. Have you had any occasion to measure any ground there since 1858? I have.
104. About what year? Somewhere about 1863, I think it was, I made some surveys for the purposes of reclamation, in connection with applications for reclamation.
105. At the time you were surveying you found no difficulty as to there being a road—not at any time? No, I have not. In the first place, all these grants are mentioned as being described by roads. I have copied a few of them that run down to the Point, in order that the Committee may see them. All the areas are described as being “more or less.” I have made copies from the registers, and given the numbers in the Surveyor-General’s Department, so that if necessary the Committee may refer to them.
106. From what you have seen of the plans and the knowledge you have acquired by making surveys of the place, do you think the Government gave away the road that was originally marked? The Government did not give away the road. Some of the grants contain larger areas than are mentioned in the deeds.

* Revised:—I have given the Committee a reference to the original survey (Cat. No. 2,699, Surveyor General’s Office) by Larmer.

deeds. For instance, there is M'Laren's grant, which is given as 4 acres 1 rood 20 perches, but which actually contains 4 acres 1 rood 30 perches; so that it is evident that a part of the road has been included within the boundaries of the grant.*

107. Do you know of any similar case? Kemmis and Brown's grant was surveyed many years ago by my father. I made another survey for Mr. Fanning in 1858.

108. Did your survey of Kemmis and Brown's land show that there was any encroachment there? I cannot give you the area of their land.

109. Have you the area of William Brown's? Yes; originally it was 3 acres 2 roods 35 perches.†

110. And what was it when you measured it? It seems to be about the same area. M'Laren's grant encroaches.

111. That is the very identical spot where the encroachment comes in? Mr. Larmer's plan shows a road running down to the water's edge.

112. From the water's edge upwards, I think, the road is open to Loxton's boundary? Yes.

113. Loxton purchased some land from M'Laren, and has the road in his land? Yes, he has.

114. According to your survey he has the road? There is a surplus of 1 rood 30 perches on Loxton's land. There is no doubt that Mr. Surveyor Larmer left the road. If he had merely left a centre line, the grants opposite each other would have had that line common to both; but if you refer to the descriptions you will find that the grants are of different lengths—you will see the angles have been altered considerably, whereas if a line had run down the centre there would have been five or six chains in one grant and five or six in another.

115. But in regard to the road, when you were measuring there had you any intimation from any one that there was no road? No.

116. When you were measuring for a road did any one ever disturb you? No; I did not measure it off—not measure it off specially as a road, but treated it as a road in my surveys.

TUESDAY, 8 JULY, 1884.

Present:—

MR. CHAPMAN,

MR. HARRIS,

MR. WITHERS.

B. O. HOLTERMANN, ESQ., IN THE CHAIR.

E. J. H. Knapp, Esq., recalled and examined:—

117. *Chairman.*] When you were previously examined by this Committee, I think you stated, with regard to the measurement of Mr. Loxton's portion of land, that that gentleman had something like half an acre more than he is entitled to? Not exactly half an acre. I see by the transcript of my evidence that I said he had a surplus of 1 acre 30 perches. That is a mistake; it should have been 1 rood 30 perches. I should like to explain a little more fully. The original grant to How was 3 acres 3 roods 30 perches; but I find from the survey made by my father that How actually had in his possession 4 acres 1 rood 20 perches. That was the grant he ought to have had, but in addition to that he had 22 perches of the adjoining ground enclosed.

118. That is shown by the extra strip on the plan? Yes; the boundaries on the plan are according to Mr. Larmer's survey. Having this other 22 perches enclosed gave him an excess again. That, strictly speaking, belongs to Brown's grant; but he has had it in possession sufficiently long to claim it by right of possession.

119. But does not the original grant give him really but 3 acres 3 roods 30 perches? Yes, that is all that he is entitled to. But if we take the strip of the road frontage, as shown on the plan, then he has a surplus of 1 rood 2 perches—that is, after taking off sufficient land for the road.

120. What is the width? It averages about 40 links; that shows there is an excess of area of ground. In Weller's grant it is given by the plan as 4 acres; I find, however, that they have 7 acres 1 rood 18 perches. They would have more if they could get up to where they claim. In reference to Brown's grant, I find I made a slight mistake in my evidence when I said it seemed to be about the area stated. I find that in place of its being 3 acres 2 roods 35 perches, Brown's grant No. 6 has actually got 4 acres 0 roods 18 perches; they have that amount in possession, and that is independent of the 22 roods outside, that properly belongs to Brown's grant.

121. The portion would still have had an excess of area if the road had been opened? Yes; they have actually got 4 acres 0 roods 18 perches, exclusive of the 22 perches above mentioned, in possession. It is the surplus portion of the original grant that is now claimed by Mr. Loxton.

122. It is about the only portion your father measured? He measured three portions. I cannot speak positively of any of the others. There are some portions on the other side of the road which were measured by my father some years ago, but I am not in a position to speak positively of them. The portions I have particularly referred to were measured by myself and my father, and I can speak of them with more certainty.

123. *Mr. Withers.*] Did the excess in the descriptions of the different owners back on to the road on each side—are they the owners of the properties you are describing? Mr. Loxton is, I believe, the person who is opposing the opening of the road. I should explain that the different portions are not exactly in the shape as described by the grants—they have an excess of area. Surveys were sometimes in those days rather loosely made.

124. The parties on each side of the road would have their proper area if the road is opened up? I cannot speak positively of the portions on the other side—I am only certain with regard to the three portions

* NOTE (on revision):—I may explain that Mr. Loxton has in possession 4 acres 2 roods 2 perches, but of this 22 perches properly belong to Brown's grant. Mr. Loxton has in possession (included in the 4 acres 2 roods 2 perches) part of the road. The correct line of the road was, in 1863, marked by my late father, for Mr. Loxton, see plan. Deducting the 22 perches will bring the area to 4 acres 1 rood 20 perches.

† NOTE (on revision):—I had not computed the area when this question was put to me. I have since done so, and find that if the 22 perches in Loxton's possession were included, the total area of Brown's grant as enclosed would be 4 acres 1 rood 0 perches; deducting the 22 perches, there is an area of 4 acres 0 roods 18 perches in the possession of Brown's representatives.

E. J. H.
Knapp, Esq.
8 July, 1884.

portions I have mentioned. If a sufficient quantity of land was taken from Mr. Loxton to form the road, he would still have more than the area described in his grant. It is an undeniable fact that Mr. Larmer, the original surveyor, left the road. He appears to have made two surveys, one in 1830 and the other in 1834. I have a plan showing the land between Careening Cove and Neutral Harbour, and by it I find that portions 3, 4, 5, 6, and 7 were measured on May 24th and 25th, 1831.

125. Are you aware of any of these purchasers on the other side of the road, whose area comes near about that which was allotted to them, absorbing the centre of the road—would many of these properties absorb the centre of the road to give them their proper area? I cannot speak from personal knowledge. All that I know is that the portions on one side of the road have an excess of area, even without absorbing the road.

126. *Chairman.*] I asked you on a previous occasion, I think, whether, when you were measuring the land, any person disputed that there was a road? I never heard it disputed by anybody.

127. *Mr. Withers.*] Right down to the water's edge? Yes, right down to the water's edge. It was open, too, right down to the water's edge.

128. Was that one block sold in two portions—the part that now obstructs the road—was it sold to one person or two? There are several owners. It was not sold to one person—it was sold to Mr. Kemmis and Mr. Brown.

129. Where does Loxton's boundary come to? Along the road from the Point. It was open when I made the survey in 1858.

130. Mr. Loxton is the only obstructionist? He appears to me to be the only obstructionist. I have not been over the ground for years.

131. And Mr. Loxton has his area even without the road? Yes; the plan on the table shows the line marked out by my father as Loxton's proper line, though he had in his possession considerably over.

132. *Chairman.*] When was that? In 1863, when my father made his survey; Mr. Loxton had made application for the right to purchase 100 feet reservation; independent surveys were made by my father and myself.

133. *Mr. Withers.*] How many acres has Mr. Loxton in his possession? Originally his grant was 3 acres 3 roods 30 perches; but he has got 4 acres 1 rood 20 perches, and 22 perches besides which really does not belong to him, making in all 4 acres 2 roods 2 perches; then when we come to take a strip off for the road, it still leaves him about 1 rood 2 perches in excess of his grant.

134. High-street runs parallel with Whaling Road, I think, and is 30 feet wide? I think it does.

135. You do not know of your own knowledge that the road is blocked? It is some time since I was there; when measuring in 1858 I observed there was an obstruction.

Mr. Edward Joseph Rubie called in and examined on oath:—

Mr. E. J.
Rubie.
8 July, 1884.

136. *Chairman.*] You are Manager of the St. Joseph's Building Society, whose office is in Elizabeth-street? Yes.

137. The Committee desire some information with regard to a piece of land belonging to Mr. Meyer, over which I understand the St. Joseph's Building Society has a mortgage—have you the deeds of the land with you? Yes. [*The deeds of conveyance from Parbury to Meyer, and describing certain land bounded by a Government road, were handed to the Committee for examination.*]

138. So far as you know, with regard to the land in question, when your Society undertook to extend a mortgage over Mr. Meyer's property, it was on the understanding that it was bounded by a Government road 66 feet wide? Yes. Speaking from memory, I am not sure about the width of the road, but there was a road.*

139. Your Society advanced the money on the understanding that there was a full width of road? Yes, we were under the impression that the portion now enclosed within a fence was a public road.

140. What is termed in the deeds Whaling Road? Yes.†

141. And this property was described as facing a road—an open, full road? Yes, that was our impression.

142. It was not a blind street? No.

143. You are of opinion that your Society would not have given Meyer the advance if the Society had not been under the impression that the land faced the road? No; that is positive.

144. So that for the very reason that this road is enclosed—rightfully or wrongfully has to be proved—you are of opinion that the property over which the Society holds a mortgage is depreciated in value? Yes.

145. Of your own knowledge you had no idea that the road was closed? No; the deeds state that the road is there, and 66 feet wide.

146. *Mr. Withers.*] You would send a surveyor before effecting a mortgage? Yes, generally we do; but in this instance we had taken it over from another Society, under the impression that the road was there.

147. *Chairman.*] When was the fact of the road being closed first brought under your notice? I think it was nearly twelve months after the mortgage had been effected.

148. How long have you held a mortgage over Meyer's property? About three years, I think.

149. You took no active steps to have the road opened—you left that for Meyer to do? Yes, we considered our security sufficient.

150. You gave notice to Mr. Meyer that, the road being closed, depreciated his property in value? Yes.

151. *Mr. Withers.*] Have you seen the property? Yes.

152. Do you consider that if the road was continued to the waters of Port Jackson it would be a public benefit? I think it would. I think the best portion of Meyer's property is destroyed through the road being closed.

153. Have you any idea as to the practicability of making a road? I was never down it. When the Society first lent on Meyer's property we were not aware that the road was closed. If the road was open the property would be much more valuable, and the road would be a public benefit. I have seen the original map,‡ made some thirty years ago, and it shows the road open to the harbour, near Careening Cove.

Mr.

* NOTE (on revision):—On reading the description again in the deeds, it says a Government road 1 chain wide.

† Revised:—In the deeds it says, to a Government road one chain wide, the allotments being described as the Whaling allotments.

‡ NOTE (on revision):—A map—I did not say the original.

Mr. G. H. Thorne called in and examined on oath :—

Mr. G. H.
Thorne.
8 July, 1884.

154. *Chairman.*] Where do you live? In Bank-street, North Shore.
155. You are a stonemason? Yes.
156. How long have you lived on the North Shore? A little over twenty-seven years.
157. How long is it since you knew anything with regard to Whaling Road? About twenty-one years.
158. At that time I believe you were working on the road? Yes.
159. Quarrying stone for Mr. Loxton? Yes.
160. The stone was wanted to build his house? Yes, to build his house that is standing there now.
161. At the time you were quarrying this stone, did anybody interfere with your doing so? Yes, the Government Ranger, a gentleman named Dean, stopped us; he said we were quarrying on a road.
162. Did he tell you that it was a Government road? Yes, he said it was a Government road; and he also informed Mr. Loxton, in my presence, that it was a Government road.
163. At that time Mr. Loxton had only just started building? We were quarrying the stone for the foundations of his house.
164. And Mr. Dean told Mr. Loxton in your presence that it was a Government road that you were quarrying on? Yes, he came to stop us.
165. Was there at any time during those years a fence? Yes, there was a fence along the northern side of the road leading somewhere; I cannot exactly spot it now, but know that it ran from the portion which Mr. Loxton owned, and I think at that time he had taken in some property which is now in possession of the Gas-works Company; he was informed that he had encroached upon that property, and he went back on his own boundary line.
166. But that would not interfere with the road? No, I do not know that it would. It would be over on the eastern side of his property; but the fence that went from that portion went east and west, and that was the northern boundary fence, at that time, of the street, and the boundary line of what was supposed to be his property; at the same time, when he went to build his house the fence ran over close to the corner; but whether he shifted his fence for the purpose of erecting his house there I cannot say, but I remember taking down the old ramshackle fence; he took down a portion of the fence and removed it into the street, some 18 or 20 feet from where it originally stood.
167. At the time you were quarrying there it was then an open road? It was then an open road from point to point.
168. From the water's edge to Alfred-street? As far as Water-street I can remember it; whether it went down to the water's edge I cannot say.
169. But it was open, and went from point to point? Yes.
170. The chief encroachment you remember was where Mr. Loxton took up an old fence and removed it 18 or 20 feet into the street? Yes; I cannot say exactly the distance.
171. And that is about twenty years ago? That is about twenty years ago.
172. Have you any recollection of Mr. Loxton putting a fence across the road? I remember his building a stone wall afterwards at the southern side of the street in the same direction, east and west.
173. Did he continue this fence across the street? He continued it to his present boundary, that is now. It goes near to where Meyer's terrace is built.
174. He made a fence right across the road on to that boundary line of his at the lower end of the street? Yes, I think something like the whole width of the street, except, it may be, about 3 feet. I believe there is a little bit of a passage belonging to the road outside his boundary fence.
175. And where you saw this fence going up was on the eastern boundary of his portion of the street? The southern boundary; the street runs east and west.
176. That fence naturally runs along the road—but now I am talking about a cross fence—Are you aware of anything being done with that cross fence, near Meyer's property? Some ten years ago, it may be, he made some improvement upon his own property, and he put up another portion of wall going north and south, and that would block the end of the street right in. He took in some more property, and at the same time encroached upon another man's property—I think it was called Whaling's property. Whaling at the time took the matter in hand and made him pull the fence down and carry it back to his own alignment, but he put the fence across the street.
177. But what you know in reference to the matter is, that you were first of all stopped by the Government Ranger from quarrying because it was a Government road, and then in your presence the Ranger informed Mr. Loxton that it was a public road? He did.
178. That was prior to Mr. Loxton building his house and putting up a fence? Yes, that was before he pulled down the first portion of the old fence.
179. *Mr. Chapman.*] When the Government Ranger, Mr. Dean, gave Mr. Loxton notice that he was quarrying on a public street, did Mr. Loxton desist? He gave him notice.
180. Did Mr. Loxton stop the quarrying then? He had to stop, by order of the Ranger.
181. You did not quarry there any more? Not for three or four days afterwards.
182. But did you quarry any more in the same place after the Ranger stopped you? Yes; that was after, as I supposed at the time, Mr. Loxton had communication with the authorities. Then we were allowed to go on quarrying again in the same place.
183. *Mr. Withers.*] You were under the impression that Mr. Loxton had obtained permission to quarry on the road? Yes.
184. You knew that you were still on the road? Yes.
185. The stone was being got for Mr. Loxton's house? Yes.
186. Did you sell the stone? No; we were employed by the builders of Mr. Loxton's house, Messrs. M'Creddie Brothers. It was Mr. Robert M'Creddie who was chief of the firm then. It is the same firm as the present M'Creddie Brothers.
187. Do you think they would know anything about the matter? I do not think they would, because it was Mr. Robert M'Creddie who had most to do with it.
188. That is twenty odd years ago? A little over twenty years.
189. Was the place used afterwards as a public quarry? No.
190. Did any one else get stone there afterwards? Never afterwards, because he took in the property; when he moved the fence he took in where the quarry was; people could not get stone there, because he had fenced it in.

- Mr. G. H. Thorne.
8 July, 1884.
191. The Government Ranger never troubled you afterwards? He never troubled us afterwards. I heard Mr. M'Credie say we were to go on quarrying stone for Mr. Loxton's house, as Mr. Loxton had made arrangements with some gentlemen belonging to the Council to get the stone.
192. It left you under the impression that the land was Loxton's? I never thought the land belonged to him from the time the Government Ranger stopped us. I knew the Government Ranger quite well.
193. You know the place very well? I live there, and go backwards and forwards nearly every day.
194. Do you think it would be a great public service to have the road carried through? It would.
195. Do you think it would be impracticable to make a road there—would the gradient be too steep for a horse? I do not know whether the road runs down to the water or not; but I know that from Water-street—from the end of Whaling Road, that abuts up to Water-street; then there is a narrow lane running towards the water.
196. Presuming that Whaling Road were formed—that Loxton were not in the way—do you think the road would be too steep to be of much service? No, it would be a beautiful road, and it would benefit those property-holders who have not got a back entrance from High-street; it would benefit all others who have got property there, as well as the general public.
197. It would be a good outlet for the water to St. Leonards? Yes; there is no doubt, if the street had gone right through it would have gone to the water's edge, where there is a small wharf, known as Hayes's Wharf.
198. *Chairman.*] At present there is only one road that runs parallel with Whaling Road, and that is called High-street; but High-street is only about 30 feet wide, and a crooked street? Yes.
199. And there is a distance of 500 or 600 feet between High-street and Whaling Road? I know there is a great distance, but I cannot say exactly what it is.
200. If Whaling Road were opened it would be a good road? Yes; High-street was only supposed to be a lane, because the other was a wide street, 50 feet wide, I think. The property that was sold should have been sold as fronting Whaling Road; but that road being blocked by Mr. Loxton, the land was cut up and a frontage was made to High-street.
201. *Mr. Harris.*] You told the Committee just now that Mr. Dean, the Government Ranger, told Mr. Loxton that he was quarrying on a Government road: do you recollect what reply Mr. Loxton made? No, I do not.
202. Did he say it was a Government road? He said it was when he went first to quarry there; he said it was a Government road, but that we could quarry there.
203. To whom did he say that? To us, when we started quarrying. It was after we had been there some eight or ten days that the Ranger came and stopped us. He told us to knock off and not quarry any more, as it was a Government road. I was foreman of the quarry, and I said to the Ranger that he had better speak to Mr. Loxton, as we were only employed by the contractor of the building, and then we should know what to do, because we did not feel willing to stop by the Ranger's order at first, but he forced us to stop; it was about three days before we quarried any more.
204. *Chairman.*] Did Mr. Loxton tell you to go on, or Mr. M'Credie? Mr. Loxton told Mr. M'Credie in our presence that we could go on quarrying there, to get stone for the building.
205. What is Mr. Loxton—is he a surveyor? The Mr. Loxton that now has possession of the property is a surveyor.
206. How long has he had possession? Since his father died; it may be five years.
207. *Mr. Withers.*] Was old Mr. Loxton a surveyor? No; he was a storekeeper at Muswellbrook.

Mr. George von Meyer called in and examined on oath:—

- Mr. G. von Meyer.
8 July, 1884.
208. *Chairman.*] Where do you reside? At North Shore; I have resided there for the last twenty-seven years.
209. Somewhere near your present property, where you are living now? Yes.
210. When did you buy that property? In 1877.
211. At the time you bought it, you were under the impression that it was bounded by Whaling Road? Yes.
212. Whaling Road was supposed to run from point to point, from the water's edge to Alfred-street? Yes.
213. When you purchased, were you informed by the auctioneers that the land was bounded by Whaling Road? I was.
214. And on the strength of that information you obtained an advance or mortgage from a Building Society? Yes.
215. You assured the Society that it was an open road? Yes; that was what I was told—that I could knock the wall down; that it was a proclaimed road.
216. At the time you bought it, the obstruction caused by the fence was there? Yes.
217. Since you bought the land, have you given notice to Mr. Loxton or anybody concerning the obstruction? Yes, several times. About six months after I bought the land I gave Mr. Loxton notice to remove the obstruction; and about the same time a petition was sent in to the Minister for Lands, then Mr. Driver, asking the Government to open the road. He commenced proceedings with the view of having the road opened, when unfortunately he had to go out of office in consequence of a change of Government. Mr. Baker became Minister, and he undertook to open the road; but no sooner had steps been commenced than he had to go out of office. At last Dr. Renwick came into office as Minister for Mines. We had somewhere about twelve depositions to various Ministers on the subject. When Mr. Farnell was in office as Premier, he pledged his word of honor that he would have the road opened; only he would have the Land Bill through first. He said to me on one occasion, "Go to Mr. Oliver, the Government Draftsman, and ask him if he has finished that Bill for the Whaling Road." I thought Mr. Farnell might be making a fool of me, but I went up and saw Mr. Oliver. Mr. Oliver said—"Mr. Meyer, it is to be finished to-morrow; it will go to-morrow to the Minister for Lands." About a week after that I went to Mr. Farnell, and he said, "Here is the bill drafted; but let the Land Bill through, and I guarantee that in a fortnight after that Bill is through the Whaling Road shall be opened—you shall have the road." But nothing has been done since towards opening the road.
218. As I understand you, you first of all took steps to give Mr. Loxton notice, and otherwise took steps to have the road opened, and you made several applications to Mr. Farnell to take steps to open the road? Yes.

219. And he promised that it should be opened? Ycs.
220. And he showed you the Bill that had been drawn up for the purpose of opening the road? Yes.
221. Did you at any time receive a letter from Mr. Farnell in reference to this road? I did, but unfortunately I have lost it.
222. Do you recollect the purport of the letter? I should not like to say what its purport was, as I cannot produce it.
223. You cannot produce it? No, I cannot.
224. *Mr. Withers.*] Was it a copied letter? I do not think it was; it was a private letter from Mr. Farnell to me.
225. In regard to your application to Mr. Farnell, have you not taken other steps besides those you have referred to—did you not engage Mr. Levien? Yes; Mr. Farnell told Mr. Levien in the porch of the House of Parliament, at half-past 10 o'clock one night—I was waiting with Mr. Levien to see Mr. Farnell—Mr. Farnell came towards the porch, and Mr. Levien said “Here is Mr. Farnell now,” and then he asked him what had been done with regard to Whaling Road. “Well,” said Mr. Farnell, “why does not Meyer summon the Government—they will have to do it.” Mr. Levien actually went to take a summons out, and I had to pay for it, but the writ was never served. The recommendation of the Government—I think it was this Government—was that we should not serve the writ. I cannot say what it was, but at all events Mr. Levien never served the writ. That was last March twelvemonth, if I mistake not. But the summons was taken out and paid for.
226. When you informed Mr. Loxton that it was a Government road, what answer did he give you, at any time? He said it could be got, but there would be great difficulty; that if the Government went the right way about it they could get it.
227. You had many conversations with Mr. Loxton about it? Yes; he told me that he had written letters to the Government about it—that they might have 40 feet, but were to leave his house undemolished. The verandah and kitchen of the house stands on the road.
228. Have you had any conversation about the matter with any other of the landowners there? Yes, with the people at the gasworks; they said they wanted the Government to remove the obstruction from the road. I have spoken to Mr. Watt, the Government Analyst; he told me on several occasions—“Mr. Meyer, whatever you do in the case I am satisfied with; and whatever the Government do, whether they open it or close it, I am satisfied to give up my portion.”
229. Is it your opinion that the road is only taken in by Mr. Loxton on his side of the Whaling Road, or do you think there is any encroachment on the other side? There is an encroachment on my side, my property encroaches about 6 inches*.
230. *Chairman.*] Do you believe that the top line of your property is the lower boundary of the Whaling Road? Yes, I can prove it.
231. So that the whole of the encroachments would be on the upper line of the hill? Yes; there is only about 6 inches of encroachment belonging to me.
232. You consider that through the road not being open your property is greatly depreciated in value? I am sorry to say that I have lost within the last three years over £3,000.
233. Is it not partly through the Whaling Road not being open that the St. Joseph's Building Society, after they found you could not succeed, pushed you pretty hard? They did.
234. To a certain extent nearly ruined you? Yes.
235. Have they not taken possession of the property there for that very reason? Yes.
236. Are they not at present collecting the rents instead of your collecting them yourself? They are.
237. But have they not allowed you, through this case being referred to this Committee for inquiry, a little longer time, to see if you can pull yourself round? They have.
238. *Mr. Withers.*] Do you think that the opening of the road would be a public benefit? The greatest benefit ever known. The road goes straight through right to the water, and the best landing could be made there. Most of the inhabitants of the borough of East St. Leonards would find it a great boon, as if the road were made they would be able to go straight down to the Point.
239. When you bought the property you reckoned that you would have the benefit of the road? Yes.

Mr. G. von
Meyer.
8 July, 1884.

THURSDAY, 18 SEPTEMBER, 1884.

Present:—

MR. GEORGE CAMPBELL, | MR. SYDNEY SMITH.

B. O. HOLTERMANN, ESQ., IN THE CHAIR.

John Frederick Loxton, Esq., called in and examined:—

240. *Chairman.*] You are living at Milson's Point, North Shore, I believe? No, on the point between J. F. Loxton, Neutral Bay and Careening Cove, St. Leonards East. Esq.
241. How long have you been living there? Do you mean altogether, because I have been away^e up country at different times? 18 Sept., 1884.
242. Yes? Off and on I have been living there for over twenty years, as near as I can recollect.
243. At the time you first went to live there, some twenty years ago, had you any information in reference to a road being there, near to your property, a road that went under the name of the Whaling Road, which was 66 feet wide? Yes, I believed there was a road existing at that time—it was not called Whaling Road then; but there was supposed to be a road 66 feet wide.
244. You received no information that that road would be on your ground? No.
245. Have you had your ground remeasured since you were living on it? Parts of it have been measured from time to time; we had a survey made when we built in the first instance, but we have not had one made since.
246. How long is it since the survey was made? About twenty-one years ago.
247. Regarding the land of which you are at present in occupation, of course you are only aware that it is exactly the portion that is described in your deeds? Yes. 248.

* Revised:—I don't think so. My property does not encroach on the Whaling Road at all, but Mr. Loxton's wall encroaches on my property about 6 inches.

- J. F. Loxton, Esq.
18 Sept., 1884.
248. At the time that you or your father commenced to build a house there, were you informed by anybody that you were taking stones from the main road? Oh no; we got authority from the Government to take stone from the main road.
249. But stone was taken from a certain part—never mind whether it was a road or not—did any person called the Forest Ranger object to the stone being taken because it was a road? Never that I heard of.
250. But you have had on several occasions, I believe, information that there was a public road on which you had encroached? No, I do not think we ever had.
251. Not from the Corporation or otherwise? Never to my knowledge; I never heard my father speak about it.
252. Whilst you were living there, although you knew there was a road 66 feet wide, you never took any steps to find out on which side of your ground the road was? Yes; when we measured the land we found out where the road ought to be.
253. You have measured the land then? I have measured it from time to time.
254. To see that you had the full area as described in your deeds? Yes; the area of our ground is in excess of what is described in our deeds. That nearly always is the case with old grants. We purchased the right of reservation up to 100 feet of high-water-mark, and 50 feet from high-water-mark into deep water—that is the beach as well.
255. But previous to your purchasing this 100 feet extra and 50 feet into deep water, had you then the whole block measured? Yes, we had it measured, and then made the application immediately afterwards.
256. But what I mean is this: when you measured the block was it then in excess of the area described in your deeds? I cannot say; I think not; we went by lengths—not by area.
257. You just followed up the measurements of the lines? Yes, we just ran the old lengths up.
258. So far as I am informed, you own the land on the other side of the road too? Yes.
259. But at present, you say, there is no road? Yes.
260. You say that you believe there was a road on one side of your ground, taking the big house as a fixed point, but you never troubled about the road, that is still in your ground? Yes.*
261. There was supposed to be a road? Yes, but at the time I bought a part of the adjoining subdivision the deficiency was found out; but the question has never been settled up to this moment.
262. The ground has never been remeasured in its full extent, but space for the street actually exists? No; a thorough survey has never been made; a compilation has been made from different surveys; if a comprehensive survey was made the true points would no doubt be fixed.
263. So far as you know of your own knowledge, you never had any notice from anybody, from any stranger or other person, that you were encroaching on a road? Not that I am aware of; all that I know is that when we built the house we knew we could not take stone from the ground (the supposed road and alleged Government land between our grant and J. B. Weller's), and we made application for, and obtained permission to take building stone from the road, or what we believed to be a road, but which we now believe to be part of Thomas Barker's ground.
264. But the Committee has been informed that a party who was taking stone from the road, or what was supposed to be a road, had their proceedings stayed by the Forest Ranger; and so far as I have understood from former evidence, permission was afterwards obtained to quarry the stone, and that the stone used in building your present residence was quarried from the road or street? It is the first I have heard of it; I am not aware that there was ever a Ranger over there; I have never heard my father speak of it.
265. At any rate you are not aware, by any other measurements, that you hold more ground than your deeds give you a right to? No.
266. Neither one side of the road nor the other? You are alluding to my property and my mother's estate?
267. Yes; neither you nor your mother hold more ground than your deeds prescribe? No.
268. Then under those circumstances there is no road? There is no road; the only thing is, I do not own all the ground on the other side of the road down to the creek—there are other people in High-street, between me and the creek. I have run the chain across when I was a youngster, and then I first ascertained that the road did not exist on the other side.
269. But is it not rather a strange thing that there is a road open on both sides, or rather at the ends? There is not any road open at the other end.
270. It is open up to what you may call your stone fence—I do not know when you erected it? The wall has been up a very long time—it is a very old wall.
271. Was it put up within your recollection? Yes; it has been up about twenty years; there was at first a split fence there, then the wall was put up by my father.
272. Has there not been some fencing done lately on some other person's ground? Dean has fenced some new ground fronting the present proclaimed road, High-street.
273. Have you fenced any ground yourself during the last five years? No; †the boundaries of the lower properties have been fenced up to my property, right to the line of my mother's fence.
274. Would your mother know anything in reference to this matter? I do not think so—not more than I know; she might speak more clearly as to dates. In reference to the question about there being a road at both ends, there is no road at the other end of the street, as far as I am aware of.
275. But we have been there, and could see the pegs? Yes, but you have no evidence to show which grants that bounds.‡
276. But we have a gentleman who is going to give evidence, the man who originally surveyed the land, Mr. Larmer—he told me personally the other day in town that he believed he could measure nearly as well now as he did then, because he took such particular notice when he was making the survey—he said he left a 66-feet wide road? He would have a hard job to find it now.
277. In his own mind he is quite positive that he left a road 66 feet wide? He ought to have done so, no doubt; he was paid to do so.

278.

* NOTE (on revision):—The answer in this instance refers only to the former part of the question, the answer to the latter is No. Vide preceding question and answer.—J.F.L.

† NOTE (on revision):—In answering this question in the negative, I was referring to the main property (my mother's estate); as regards my own property, on the south-west side of supposed road, I have fenced five lots within the term stated.—J.F.L.

‡ NOTE (on revision):—This answer refers to a line of my old post-holes; any pegs seen must have been those of a private subdivision of very recent date.—J.F.L.

278. You have no recollection of the Corporation having served you with a notice, nor of the Forest Ranger J. F. Loxton, having stopped your father from taking stone from the road? There was no Corporation there at the time, and I have no recollection of there being a Forest Ranger. J. F. Loxton,
Esq.
18 Sept., 1884.
279. *Mr. Smith.*] I understand you to say that the area of your ground is in excess of what your deed shows? I cannot say for certain, but there is an excess of area in nearly all the old grants; in those days they seldom traversed the frontages; the old surveys were very rarely made to traverse the water frontage at all; they take from a certain starting-point, and go on to say "down to the waters of Port Jackson, and bounded by those waters to the point of commencement." They often used to merely sketch the frontage, and often used to grant double the area originally intended.
280. *Chairman.*] Your grant, as shown on the plan, contains 3 acres 3 roods, 30 perches? Yes.
281. But it actually contains 4 acres 1 rood 30 perches? I cannot remember; it is very likely; I have never had it computed; nearly all old grants, as I have said, have an excess of area.
282. The Committee has examined a Mr. Stopps—he was asked if he had measured the ground, and he said yes; he was then asked if the area was in excess of that described in the deed, and he said no; he was then asked if the ground was not bounded by a road and whether there was not sufficient land left for the road, and he said no; we asked him if he knew of any other instance of a road being surveyed without sufficient land being left for it, and he said he never knew of a similar case? You would be at a loss as to which side of the property to take the road from; if you took it from me I should ask for compensation.

Mr. John James Slade called in and examined:—

283. *Chairman.*] You reside at Milson's Point, I believe? I did, but I do not live there now. Mr. J. J.
Slade.
18 Sept., 1884.
284. How long is it since you were a resident of North Shore? Do you mean since I was first a resident there?
285. Yes? It is about fifteen years ago; but I had a knowledge of the place before that time.
286. Over what period of time does your knowledge extend? About twenty-two years.
287. At that time had you any land of your own there? No.
288. Were you at that time aware of any supposed road being there, or that portion in regard to which there is now a dispute? No, I was not aware of it at the time.
289. Did you ever receive any information regarding the matter from the Corporation or otherwise? No. Are you alluding now to twenty-two years ago?
290. Yes, or any time since then, say fifteen years ago? I cannot say that I did; I had no special interest in that part of North Shore at the time.
291. Have you ever been informed, or do you know whether Mr. Loxton, when he was building there, was stopped from quarrying stone on a supposed road? No.
292. Of course you are not aware that Mr. Loxton was informed by anybody that he was building on a road? No.
293. From your own knowledge you do not know whether this road has been opened since you went there? I do not know of my own knowledge that it has not been opened.
294. Can you give us any idea when the stone fence was placed across the road? I cannot.
295. Was it across the road when you were living on the North Shore? I think it was, but I am not certain.
296. Are you aware of any other fencing having been placed there within the last fifteen years—across what may be said to be a supposed road? I know that a fence has been put up between the Gas Company's premises and Mrs. Loxton's ground.
297. And that goes across the supposed road? Yes.
298. Then, speaking truly, you know very little of this Whaling Road? Very little, except from my having purchased land abutting on the road.
299. How many years is that ago? About seven and a half years ago; it was in July, 1877.
300. At the time you purchased the piece of land you speak of, did you believe it to be bounded by a road? Yes; the deed so expressed it.
301. What width of road? I think the deed said a Government road, without expressing the width.
302. And this Government road, according to what you believed at that time, was on Loxton's side of your property? Yes.
303. And, as we may term it, was part of Loxton's property and not of your own? Yes; my property did not abut on Loxton's; it abutted on what is known as Younger's property.
304. It would form the same line of street? Yes.
305. At the time of purchasing your ground you believed the road was closed in by Mr. Younger? Yes.
306. And that you only had your original ground? Yes.
307. Have you had your ground re-surveyed since purchasing it? Yes.
308. Did you find the re-survey show any excess of area, or was it exactly in accordance with the area shown by the deed? It was exactly in accordance with the description in the deed. There was a slight variation, but not to any extent—it was practically the same.
309. Of course, from that you would conclude that the road was on the other side of your ground? Yes.
310. You have never received any intimation from any one that you closed in the road? No.
311. When was it you first heard or had any idea that there was a supposed road, and that it had been encroached on by Mr. Loxton? I cannot recollect whether it was before or after I purchased my ground, but I think it was before—I am pretty well sure it was before.
312. By what source did the information reach you? I cannot say; I think it was just current observation.
313. Not from any Corporation or otherwise? No.
314. *Mr. Smith.*] I understand that you own portion of lot No. 3 marked on the plan which has been submitted to this Committee? Yes.
315. Is there any road described in your deed? I do not think there is.*
316. Is there any mention made of the road? Yes, there is mention made of the road.
317. Will you kindly inform the Committee on what side of your own land this road is supposed to be?
On

* NOTE (on revision):—I intended to add after "I do not think there is" the words "but I am speaking from memory."—J.J.S.

- Mr. J. J. Slade. On the north side. Certainly the deed implies that there is a road on the north side. I had a frontage to a private road, and then my deed gives me a frontage to a Government road; it describes certain lines, giving me a frontage to a Government road—that is, to the best of my recollection.
- 18 Sept., 1884. 318. Have you ever made use of any road there? At present the land is unenclosed from Mr. Loxton's*, and almost any one can have free access to it. The land has not been fenced across to the road—it is still open, but on the understanding that the parties who own property on the north side claim to have right up to my boundary.
319. Is it blocked at what they call the Point? The Government have proclaimed a new road down there—a continuation of the private road.
320. *Chairman.*] Which runs into the supposed Whaling Road? Yes; I do not know whether it runs into the Whaling Road, or whether it leaves Whaling Road to the north again—that is a point that can only be decided by surveyors.

Mr. Joseph Hipwood called in and examined:—

- Mr. J. Hipwood. 321. *Chairman.*] You live in High-street, North Shore, I believe? Yes.
322. How long have you been living there? About twelve years.
323. You purchased some land in High-street, did you not? Yes.
- 18 Sept., 1884. 324. When did you purchase it? Three or four years ago.
325. Is the land you purchased supposed to be bounded by the road? It is bounded by a lane at the back, and the lane is bounded by a road.
326. Since you have been living at North Shore, have you been aware at any time that steps were being taken by the Corporation or otherwise, by petition, to have this Whaling Road opened up? There was a petition sent in to the Government some time ago.
327. How long since? A few months ago I think it is.
328. Was no action taken previously? Not that I am aware of.
329. Are you directly aware that Mr. Loxton had at any time an intimation that he had closed in a public road? Not to my own knowledge—only from hearsay.
330. Have you ever seen any plans or old deeds describing anything with reference to Whaling Road? Yes, I can show you the abstract of title of my land. (*Abstract shown to the Committee.*) That is an abstract of title from Mrs. Fisher to me.
331. It refers to a Government road 1 chain wide—I suppose that is Whaling Road? Yes.
332. *Mr. Smith.*] There is a road shown in your deed on the allotment you point out, but there is no outlet through it? No.
333. Although there is a road shown at the back of your allotment, there is no way of getting out—you are fenced in on both sides? Yes.
334. The fences must therefore be on the road? Yes, they are on the road.
335. Whose fences are they? Fell's and Loxton's. The Government re-surveyed the other day up to a line of road. Mr. Hayes has applied to purchase the water frontage.
336. Then in Mr. Hayes' grant I presume Whaling Road will be shown, or it will be shown in his deed? It must be, I should think, because the Government have surveyed and taken a road through that way.
337. *Chairman.*] The Government actually bought land that was their own? I cannot say.
338. How long have you been living at North Shore? About twelve years.
339. Had you any knowledge of North Shore previous to going to live there? No.
340. At the time you went to live there was this fence crossing the road? I do not know; the first time I saw it was about six years ago.
341. Your deed shows fairly that your land is bounded by a 66-foot road? Yes.

WEDNESDAY, 22 OCTOBER, 1884.

Present:—

MR. WITHERS, | MR. ABIGAIL.

B. O. HOLTERMANN, ESQ., IN THE CHAIR.

Mr. James Larmer called in and examined:—

- Mr. J. Larmer. 342. *Chairman.*] You live at Braidwood? Yes.
343. You know for what purpose you have been called here? Yes.
- 22 Oct., 1884. 344. I believe it was some forty years ago that you measured a certain portion of land called Whaling Road, on the North Shore? I think it is longer ago than that. I marked out the allotments in 1830, which is more than fifty years ago.
345. At the time you measured this Whaling Road, and as it is shown by your plan and sketches, it had a width of 66 feet or 1 chain? Yes.
346. You are quite positive that at the time you measured that land you left sufficient ground for the road? Quite. I have a distinct recollection of marking out that road according to Surveyor-General Mitchell's instructions.
347. You are quite positive that all the landowners on either side of that road had their full quantity of land according to their descriptions as you then had them given to you before their grants? Yes, quite so.
348. You were over that land yesterday? Yes.
349. There were three surveyors' marks, of which you are pretty well positive that one was well marked? I am positive of that.
350. The broad-arrow you saw there being your mark, shows, as you pointed out yesterday, that there is a surveyor's mark? Yes. I had better explain that these broad-arrows are on the eastern side, not on the western side, of this road.
- 351.

*NOTE (on revision):—I intended to say, "The land is unenclosed from the Gas Company's land," &c.—J. J. S.

351. You could not remember the old fence being there then? Nothing at all was on the land when I surveyed it—no improvements.
352. Neither do you remember any wall being there at that time? No.
353. So, actually speaking, as far as you know, when you measured that land, it was unimproved, and you left the road a full chain wide? I do; I have a distinct recollection of that.
354. *Mr. Withers.*] I suppose it was thought at that time that that road would be necessary and useful in getting to the waters of Port Jackson? It was. As my instructions were to mark both sides it was necessary to have it between the allotments.
355. It was in a rough state then, I suppose? Yes, covered with scrub and brush.
356. Do you think it would be any advantage to the public generally to have that road open to the water? It would.
357. In view of the improvements which have been carried on for the last fifty years, do you think it would be a great advantage to the suburb there to have that access to the waters of the port? Yes, a very great advantage. When I saw the new houses built there with a wall across the road I was surprised to see it allowed to remain.
358. The land is not too precipitous to allow a reasonable gradient for a road? No; half a dozen men in a month could make it passable. There are one or two large lumps of rock which might be easily removed, and the material would pay for the removal. That is the only obstacle on the road.
359. I suppose you view it now as a matter of astonishment that that thoroughfare should be stopped? Yes, I was surprised to find it stopped.
360. It would be a great boon to the public generally to have a road to deep water there? Yes. If the road were passable to the water it would improve the properties there very much.
361. And be a general outlet for boating parties and persons generally wishing to get to the deep water? Yes. I have heard that Mr. Farnell said that I did not mark the western side of the road, but I do not know what induced him to say so. I do not know why he should make a statement of that kind when he knew nothing of it.
362. I suppose you are not in possession of any information that you could give us affording any reason for blocking up the road? Not the slightest.
363. And you cannot account for it? No.
364. *Chairman.*] Do you mean to say that these lumps of rock you speak of as being easily removable could be used to make a good thoroughfare there in a month's time by half a dozen men? I think so; and I say I think it would pay the men to remove them.
365. *Mr. Withers.*] It is difficult, you imagine, how any persons could justify their action in blocking up that road? Yes. I am astonished that these obstructions should be allowed to remain there so long. Before I came down to Sydney I expected to find the road formed and a wharf there.
366. *Mr. Abigail.*] Under whose authority did you proceed to survey and lay out the road? Under the Surveyor-General's authority—then Major Mitchell.
367. Did you send in your reports and plans? I did.
368. Setting forth that there were no encroachments? There was no appearance of any encroachments then.
369. *Chairman.*] Have you been called upon at any time in reference to this road since you first measured it? No.
370. It has not even been referred to as far as you are concerned? No, I am quite certain about that. Parties have spoken to me about the encroachment made some years ago.
371. But not officially? No.
372. *Mr. Abigail.*] Were your instructions to lay out the road for public purposes? Yes. I may explain that Surveyor-General Mitchell instructed me to mark out these allotments for whalers only fifty years ago, when it was thought they would be occupied by whalers, on each side of the road.
373. Was that road made to give them a means of access down to the point? Yes; to give them an outlet from the Point.
374. You think that there are materials now there than can be used to level the road? I think so. The rocks should be removed and broken up; they would be required to form the road.
375. *Mr. Withers.*] It was understood that it was quite accessible and that a practicable road could be formed when you had your instructions? Quite so.
376. *Mr. Abigail.*] You saw it yesterday and still think so? Yes.
377. *Mr. Withers.*] It was never intended to fence it off? The Government never intended to relinquish any part of the road.

Mr.
J. Larmer.
22 Oct., 1884.

Mr. Arthur James Stopps, further examined:—

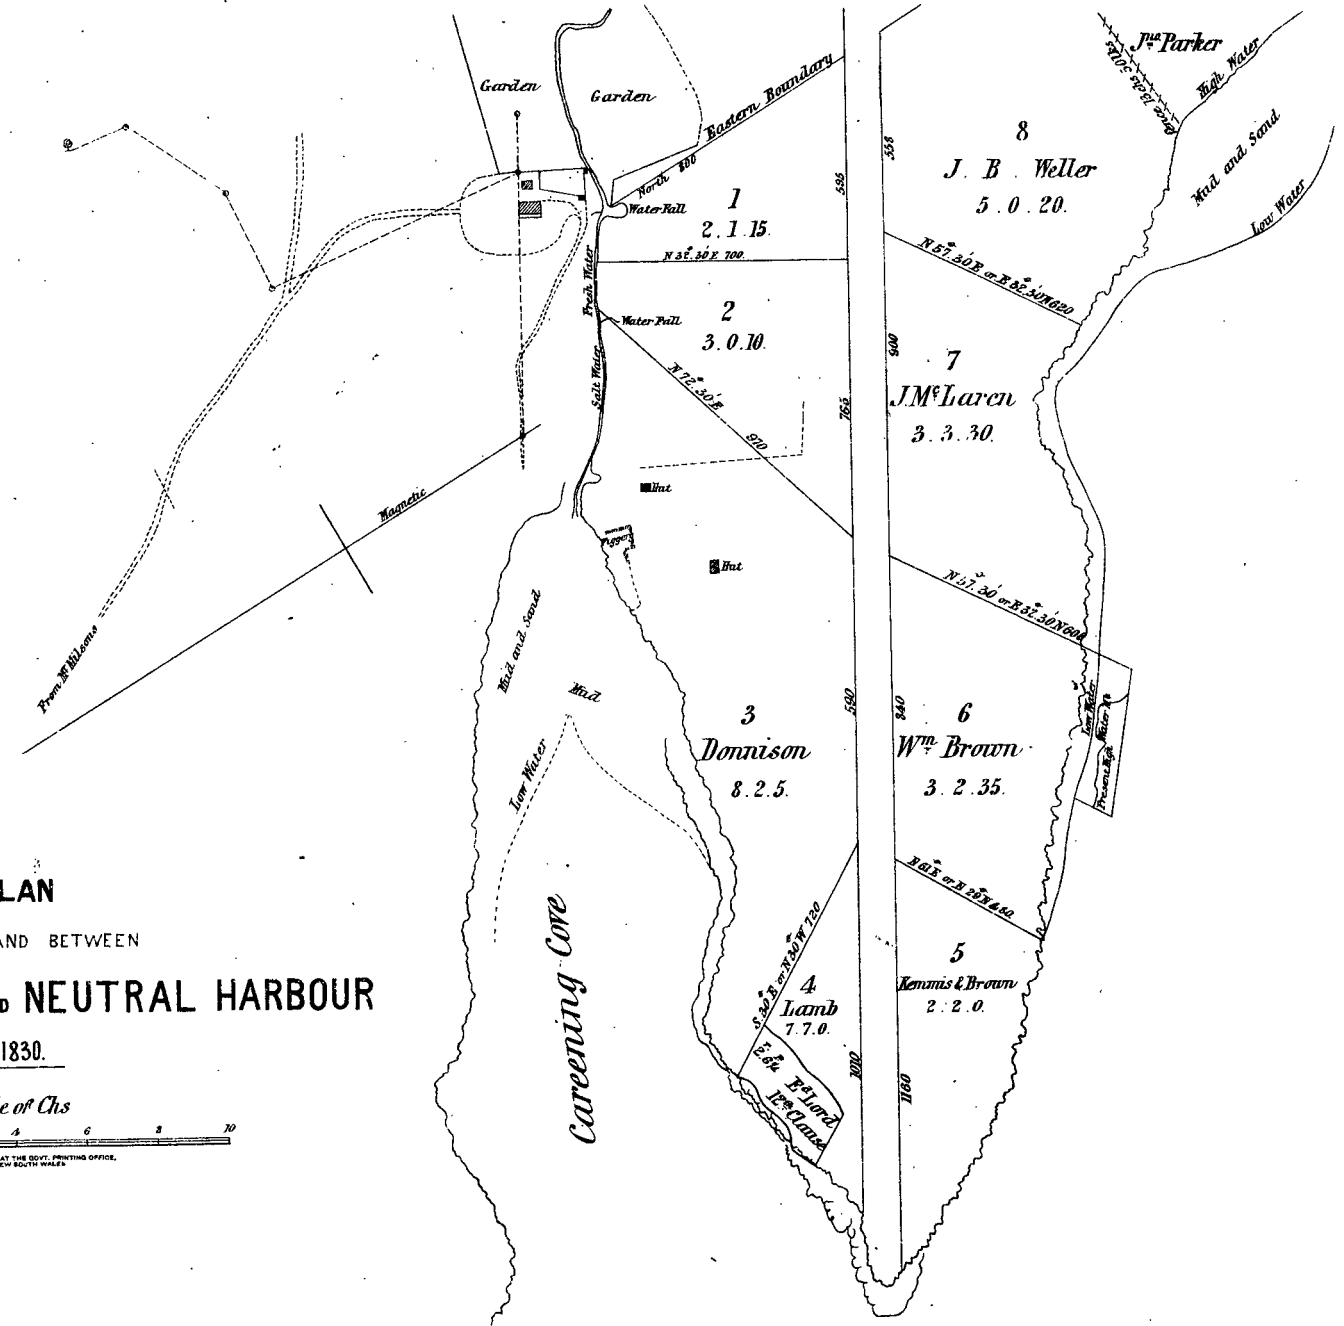

378. *Chairman.*] I believe, as far as I am informed, that you have of late had a surveyor over at the North Shore to do some more surveying near the Point;—is that a fact? I believe so.
379. You have no direct information on the subject? I know that a surveyor has been at work there, but he was not instructed by me. He was measuring the reserve to the water, on the application of Mr. Patrick Hayes.
380. Are you aware that Mr. Hayes claims what we term the Whaling Road or held it heretofore? No.
381. Are you aware that this surveyor, whoever he was, put Mr. Hayes back to the original boundary on the north side of the road on what is supposed to be the Whaling Road? No, I am not aware of it.
382. Since you last gave evidence before this Committee you have had no other survey? No, not with regard to the road.
383. I think the plan on the table we showed you when you were last before the Committee? Yes; it purports to be the original plan. I got it copied by Mr. Nobbs.
384. It was not with the Parliamentary papers? It is one with which I supplied you, and it purports to be the original plan of the survey.
385. You have no other information than that we have heard, except that as to Mr. Loxon. Does he hold any greater extent of land than his right to the grant prescribes? Not any considerable extent; there might be discrepancies in his lines, but to no appreciable extent.
386. There is not a difference of half an acre in his area? I could not say.
387. Are you aware that any of the other areas are greater in extent than the area stated in the original grant? I have no additional information since the time I was before examined.

Mr.
A. J. Stopps.
22 Oct., 1884.

- Mr. A. J. Stopps. 388. *Mr. Abigail.*] Have you any certain knowledge that the areas held, excepting the road, give the full quantity as set forth in the deeds without encroachment on the road? I should think not.
- 22 Oct., 1884. 389. You think that if they take their full areas they would have to get the road? If they take their areas it would be a virtual absorption of the road.
390. *Mr. Withers.*] You have not been over the land? No.
391. Then you are scarcely in a position to know the areas? I only go by the surveyors' reports who have investigated the matter. My information is exclusively in that way, not from personal knowledge.
392. *Mr. Abigail.*] Do you know from the documents before you or in your possession that this road was actually surveyed by the authority of the Government in 1830 by Mr. Larmer? But the land was subdivided at that time.
393. Was not the road actually surveyed as set forth in the plan produced by you before any grants were made along the sides of it? I am not aware of it.
394. This plan you submit bears upon the face of it grants dated 1840, 1845, 1834, 1837? Yes.
395. These grants about on what is marked as Whaling Road? Yes.
396. Do you know if any grants were made earlier than these dates set forth on the plan? No, not of that subdivision.
397. But you have no record of this road having been surveyed by authority of Surveyor-General Mitchell, by Mr. Larmer, in 1830? I am not aware of any; but that would have no binding effect. The fact of a road having been measured would not have the effect of a dedication. You might be under the misapprehension that a survey would dedicate the road.
398. The authority was to lay out the road for public purposes? That might be the case; but when the subdivision took place the portion intended to be left as a road might be alienated.
399. *Mr. Withers.*] They have dedicated some of the road? If there is a road in existence.
400. How is it that part of the road is blocked? Probably different surveyors made surveys at different times. No doubt the road exists.
401. Was that public land? Yes.
402. Was not that road dealt with so as to go right through to the water? I think not. No doubt the intention was that the road should come to the water. I endeavoured to show when I was last examined that the intention was to leave land along there for a road, but the road was absorbed.
403. *Mr. Abigail.*] Have you among the documents the report of Surveyor Larmer, sent in to Surveyor-General Mitchell, with regard to this road? No.
404. We have evidence that he did send in his report? If there is such a report, and you require it, no doubt we could get it. We can search for it and find whether there is such a report in existence. The intention was, no doubt, to leave the road. If you make a requisition for the papers we will search for them should you think it would assist the case at all.
405. You can give no direct information from your own knowledge as to what are the present areas of those holding grants on the sides of this road? No, I could not say.

LEGISLATIVE ASSEMBLY.
NEW SOUTH WALES.

WHALING ROAD, NORTH SHORE.

(PETITION IN FAVOUR OF OPENING—RESIDENTS OF ST. LEONARDS.)

Received by the Legislative Assembly, 5 June, 1884.

The Honorable the Speaker and Members of the Legislative Assembly of New South Wales.

THIS PETITION PRAYETH:—

That your honorable body will take into consideration the urgency as well as the advisability of opening that portion of the Whaling Road situated in this electorate, and referred to by one of your Members and a representative of the electorate, B. O. Holtermann, Esquire, on the 6th day of May instant, and upon the subject of which your Honorable House has appointed a Select Committee, and for the reasons here set forth:—

1st. That this road was proclaimed and gazetted in the years 1831-2-4 from Alfred-street to the waters of Port Jackson; and

2nd. That the said road was again proclaimed and gazetted in the year 1870, and against such proclamation objections, of which your Petitioners are not officially aware, were lodged; and

3rd. That the said road was finally proclaimed, gazetted, and aligned on the seventh day of July, 1873, set forth as follows:—From Alfred-street South to the western boundary of the whaling allotments, sixty (60) feet in width; and from the western boundary of the whaling allotments to the waters of Port Jackson, forty (40) feet in width; and

4th. That at the time of such proclamation in 1873 all fences enclosing such road or other obstacles were removed, except the fences of one Thomas Loxton, which still remain, with such additional obstructions which your Petitioners here set forth:—

5th. That in 1877 the North Shore Gas Company built upon the said road, and still further obstructed free access by fencing the same; and

6th. That in the present year one Henry Deane has still further obstructed the said road by fencing the eastern portion of same; and

Lastly. That as that portion of the said Whaling Road set forth in the said proclamation of the seventh day of July, 1873, from Alfred-street South to the western boundary of the whaling allotments, sixty (60) feet in width, has been used and open for general traffic, as well as improved to the said limit by the Municipality in which it is situated, your Petitioners pray that the portion set forth in proclamation of the same day, and extending from the said western boundary of the whaling allotments to the waters of Port Jackson, and forty (40) feet in width, may be used in a similar manner, and in support of this Petition urge:—

That the said road was duly proclaimed, aligned, and gazetted a public road at the periods therein set forth; and being not only one of the oldest roads in this portion of our electorate, but also the means of access to the waters of Port Jackson and Neutral Bay for a large population, we pray that your Honorable House will cause, as expediently and lawfully as it may be within your province as a representative body, to have removed the illegal obstructions that prevent such free access, and that may be in contravention of any Acts or regulations sanctioned and confirmed by the Governor and Executive Council of the Colony of New South Wales.

And your Petitioners, in duty bound, will ever pray.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

ROAD FROM RIVERSTONE TO BLACKTOWN ROAD.

(REPORT OF LOCAL OFFICER.)

Ordered by the Legislative Assembly to be printed, 13 August, 1884.

REPORT on the state of Road from Blacktown Road via Riverstone to Box Hill at Red Hill, and of Blacktown Road at Clydesdale.

Sir,

Roads Office, Windsor, 4 August, 1884.

Last year a cutting was made on the Red Hill, about $1\frac{1}{2}$ mile from Riverstone, in the direction of the Blacktown Road, so as to avoid a nasty short pinch. This hill was always a bad place in wet weather, and it required forming and gravelling in the same way as other parts of the road have been done. The vote of last year did not permit of more than the forming being done, but as soon as this year's money became available tenders were invited for the completion of the work, and Mr. N. Sheridan's tender accepted. Owing, however, to his being occupied with a heavy cutting at Sackville Hill, this work was not actually put in hand until the beginning of the present month. The roadway was very much cut up by the heavy traffic during the wet weather, owing to the want of gravel, but as soon as Sheridan's contract is completed, which will be shortly, the roadway in this place will be excellent. It will not be necessary to make any provision on the Additional Estimates, as this year's vote will be sufficient to complete the work. This road is in very fair order in other places. It is one of the principal approaches to the Riverstone Station, and the chief traffic on it consists of wood carts going to the railway. The traffic from Windsor, Richmond, and Pitt Town is not affected by the temporary bad state of the Red Hill.

With regard to the cutting on the Blacktown Road at Clydesdale the facts are as follows:— About two years ago the Trustees came to me and asked me to make a survey, so as to cut down the hill, and at the same time fill up a large watercourse which had been washed out at the side of the road. I made the survey accordingly, and when the work was finished I drew the attention of the Trustees to the fact that the formation would require to be gravelled as soon as possible.

The Commissioner for Roads.

LEGISLATIVE ASSEMBLY.
NEW SOUTH WALES.

MR. HUGH POLSON.
(PETITION OF.)

Received by the Legislative Assembly, 27 May, 1884.

To the Honorable the Speaker and the Members of the Legislative Assembly of New South Wales.

The humble Petition of Hugh Polson, of Croydon, near Sydney, in the Colony of New South Wales, freeholder,—

RESPECTFULLY SHOWETH :—

That your Petitioner is the owner of an estate known as “Kerri,” on Oxley Island, on the Manning River.

That a road has been made by the Government of this Colony, from the south channel of the Manning River to the interior of Oxley Island, and such road has been made and taken across the creek which forms the western boundary of “Kerri,” and thence through the Kerri estate, passing within 27 feet of the principal dwelling-house on the said estate, and through the garden attached to the said dwelling-house, severing also your Petitioner’s said estate, and rendering utterly useless and valueless that portion of your Petitioner’s property which lies between the said road and creek.

That by the opening and making of the said road your Petitioner’s property has been greatly lessened ; and depreciated in value, and notwithstanding many applications, your Petitioner has failed to obtain from the Government of the Colony any compensation therefor.

Your Petitioner therefore humbly prays that your Honorable House will grant to your Petitioner such relief in the premises as to your Honorable House shall seem meet.

And your Petitioner, as in duty bound, will ever pray.

Dated this 24th day of May, A.D. 1884.

H. POLSON.

PYRMONT BRIDGE.

No. 1.

The Under Secretary for Finance and Trade to The Principal Under Secretary.

Sir,

The Treasury, New South Wales, Sydney, 4 February, 1881.

I have the honor, by direction of the Colonial Treasurer, to inquire whether the Pyrmont Bridge Company deposited, in accordance with clause 51 of the Act of Incorporation, in the office of the Colonial Secretary, a return showing the cost of the bridge at the foot of Market-street; and if so, the amount?

As this information is required to enable Mr. Watson to reply to a question to be asked in the House on Tuesday next, I am to request the favour of an early reply.

I have, &c.,
G. EAGAR.

The return referred to does not appear to have reached Record room.—J.J.T., 5/2/81. Inform, 5/2/81. U.S. Treasury, 7 February, '81.

Deputation *re* retaining of Pyrmont Bridge.

Sir,

10/5/81.

At a large and influential meeting of the citizens of Sydney, held on Thursday evening, May 5th, in the Public Hall, Harris-street, Pyrmont, in reference to the retaining of Pyrmont Bridge, a deputation was appointed to wait on you and express the views of that meeting. Kindly forward to me when you will be prepared to receive deputation, and oblige

Yours, &c.,

I have nothing further to add to the statements contained in my minute of 17th instant, a copy of which is attached hereto.—E.O.M., B.C., 25/5/81. The Under Secretary, Public Works. No. 3.

The Engineer-in-Chief for Harbours and Rivers to The Under Secretary for Public Works.

Department of Public Works, Harbours and Rivers Branch, Sydney, 17 May, 1881.

Respecting Pyrmont Bridge.

PROVISION having been made on the Estimates for increasing the amount of wharf accommodation at Darling Harbour, by extending the wharf down to the Pyrmont Bridge, I think the time has arrived for widening the opening in the Pyrmont Bridge so as to admit of the passage of larger vessels than is now possible.

On a former occasion I invited the attention of Mr. Secretary Lackey to the subject, and suggested that negotiations should be opened with the Pyrmont Bridge Company for the purpose of getting them to widen the opening, or obtaining their permission for the Government to do so.

The Company, however, refused to entertain either proposal, but offered to sell the bridge (so far as I remember) to the Government, on the terms provided for under their Act of Incorporation (see Pyrmont Bridge Company's Act, 19 Vic., clause 51).

By this Act the Government is empowered to take over the bridge on payment of the cost, with 10 per cent. added.

The cost of the bridge was, I believe, about £32,000, and 10 per cent. added would bring the amount which the Company is entitled to demand up to £35,200.

I believe the traffic is now considerable, and is paying nearly 10 per cent. on the cost; but it must be borne in mind that the bridge is now old, and has reached the full term that timber structures of the kind are expected to last. A considerable annual outlay for repairs must therefore be anticipated from this time forth, which should be considered in estimating the present value of the bridge.

Extract from "Sydney Morning Herald," dated 28 May, 1881.

PYRMONT BRIDGE.

YESTERDAY, a deputation, consisting of Mr. A. Cameron, M.L.A., Mr. D. O'Connor, M.L.A., Mr. F. Abigail, M.L.A., Mr. F. Martin, M.L.A., Alderman Palmer, and a number of gentlemen who are residents and landowners of Pymont, had an interview with the Hon. Minister for Works in reference to the proposed removal of the Pymont Bridge. The deputation was introduced by Mr. Cameron, who, with Messrs. O'Connor and Abigail, explained that the object of the deputation was to protest against the removal of the Pymont Bridge, on the ground that it would occasion serious inconvenience to the inhabitants of Pymont, Petersham, Balmain, Leichhardt, &c. They suggested that any impediment the bridge might cause to navigation could be removed by carrying out the original design and making the swing bridge much larger, so as to admit the passage through the bridge of vessels of the largest size. They stated that they had been appointed as a deputation by a very large public meeting recently held, at which resolutions were unanimously agreed to protesting against the removal of the bridge.

Mr. Lackey said it was not necessary for him to detain the deputation any further; he could allay any apprehensions by saying at once that the Government did not intend to remove the bridge. It was the case that they were making large and comprehensive alterations on the western side of Darling Harbour, and with regard to the bridge also; but they had come to the conclusion to do it without removing the bridge. The Government proposed to resume the bridge, and, according to the powers they had under the Bridge Act, they would enlarge the opening so that vessels of any size can go through. They intended to make the western side a wharf, and take the railway down that side. They would make the opening suitable for the passage through of any vessels, whether export or otherwise, and he thought the arrangements they intended to carry out would meet the convenience of the residents of the localities concerned.

No. 6.

F. Abigail, Esq., M.P., to The Secretary for Public Works.

Sir,

Sydney, 18 June, 1881.

I take the liberty of directing your attention to an advertisement in to-day's *Herald* from the Pymont Bridge Company calling for tenders to repair the bridge. It occurs to me that, as the Government purposes resuming the bridge and making alterations to it, that delay in carrying out the plan will lead to public inconvenience and loss. I trust it will not be thought forward in me recommending that the Government take action which will prevent money being laid out on the bridge without Government supervision. This means that the Government should at once resume the bridge as per the Act of incorporation of the Company, and I feel sure such a step will meet with general public approval.

I remain, &c.,

F. ABIGAIL.

Harbours and Rivers, B.C., 27/6/81.—J.R.

Whatever the action of the Government may be in regard to resuming the bridge, I apprehend the Company will demand payment according to the terms of their Act, which is, I believe, 10 per cent. over and above the actual cost of the bridge. If we are to pay at this rate for it, I do not see that we should be bettering our position by taking any steps to prevent the Company from effecting any necessary repairs to the structure.—E.O.M., 8/7/81.

B.C., Under-Secretary Public Works. P.W.O., 11/7/81. This resumption is required to be made at once. The Company, I presume, will not make any repairs pending the decision of the Government.—J.L., 22/7/81. Harbours and Rivers, B.C., 23/7/81.—J.R.

The resumption of the bridge at once having been determined upon, the Under Secretary will, I suppose, in the first place prepare the necessary notice for the approval of the Executive, and then the Crown Law Officers will take or advise the necessary steps under the Company's Act to complete the resumption.—E.O.M., 25/7/81. B.C., Under-Secretary Public Works. P.W.O., 26/7/81. Will the Crown Solicitor please prepare the requisite proclamation.—B.C., 26/7/81.—G.H. (for U.S.)

The Crown Solicitor to The Under Secretary for Public Works.

Resumption of Pymont Bridge.

Sir,

Crown Solicitor's Office, Sydney, 2 August, 1881.

I have the honor to return the papers sent to me as instructions to prepare a form of notice of taking of the Pymont Bridge, and to forward a draft which I have prepared accordingly.

This should be signed by the Governor in duplicate, one copy being served upon the Secretary of the Company, and the other retained.

The Pymont Bridge Act appears to provide for the purchase of the Pymont Bridge, and a bridge or viaduct at Blackwattle Swamp. I think the viaduct at Blackwattle Swamp was purchased by the Government from the Company some time since; if it was not purchased, the papers had better be returned to me, in order that I may take the opinion of the Attorney-General as to whether the Government *can compel* the Company to *sell one* of the bridges. I am inclined to think that if the Government claim to purchase under the section enabling them to do so, irrespective of any agreement with the Company, *both bridges* will have to be taken.

Of course if the bridge or viaduct at Blackwattle Swamp has been already conveyed to the Government no difficulty will arise upon this head.

I have, &c.,

JOHN WILLIAMS,

Crown Solicitor.

All the Company's roads and works, except the Pymont Bridge, have been purchased by the Government.—E.O.M., 9/8/81. The authority of the Executive Council should now be obtained for the purchase of this bridge, under the terms of the Company's Act.—E. O. MORTARTY, 24/8/81. B.C., The Under Secretary Public Works. P.W.O., 26/8/81 Appd.—J.L., 26/8/81.

His Excellency the Right Honorable Sir Augustus William Frederick Spencer Loftus (commonly called Lord Augustus Loftus), Knight Grand Cross of the most Honorable Order of the Bath, a Member of Her Majesty's Most Honorable Privy Council, Governor and Commander-in-Chief of the Colony of New South Wales and its Dependencies.

To the Pymont Bridge Company, Sydney.

I, THE Governor aforesaid, with the advice of the Executive Council of the said Colony, under and in pursuance of the power given to me in this behalf by the 51st section of the Act passed in the nineteenth year of the reign of Her Majesty Queen Victoria, intituled "An Act to incorporate the Pymont Bridge Company," and for other purposes therein mentioned, hereby give you notice that at the expiration of three calendar months from the service of this notice upon you I claim to purchase, in the name and on behalf of Her Majesty, the Pymont Bridge, extending across Darling Harbour in Port Jackson, in the said Colony, from the Market Wharf in the City of Sydney, to Union-street, Pymont, in the said city, and its appurtenances, upon the payment to you of a sum equal to the whole sum expended in erecting and completing the said bridge and its appurtenances, together with a premium thereon of 10 per cent.

In witness whereof I have hereunto set my hand and caused the Great Seal of the Colony to be hereunto affixed, at Government House, Sydney, this day of A.D. 1881.

No. 9.

The Engineer-in-Chief for Harbours and Rivers to The Crown Solicitor.

Pymont Bridge resumption.

I WOULD venture to suggest, for the consideration of the Crown Solicitor, that it might be advisable to modify the notice of resumption in so far as to omit the reference to the roads and approaches.

As the notice stands, it proposes to pay to the Company "a sum equal to the whole sum expended in erecting and completing the said bridge and its appurtenances and the roads and approaches thereto, together with a premium thereof of 10 per cent.;" but as the roads and approaches, which cost the Company some £28,000, were purchased by the Government for £10,000, under the form of the notice as it stands, it appears as if we should now have to pay the Company 10 per cent. on the £28,000, or £62,000 in all, instead of 10 per cent. on the mere cost of the Pymont Bridge, which was about £34,000.

I believe it is the intention of the Company, in fixing the amount they will now demand for the bridge, not to confine themselves to the mere cost of the bridge, but to put it at the whole cost of the bridges, roads, &c., merely deducting the £10,000 which the Government paid for the roads and the two small bridges and causeway at Blackwattle Swamp.

E.O.M., 10/8/81.

I have altered the notice accordingly.—JOHN WILLIAMS, 20 August, 1881.

Mr. R. A. A. Morehead to His Excellency the Governor and Council.

My Lord and Gentlemen, Pymont Bridge Company's Offices, 10 November, 1881.
On behalf of the Pymont Bridge Company, I have the honor to acknowledge the receipt of a notice from your Excellency, with the advice of your Executive Council, claiming to purchase from the Company, at the expiration of three calendar months from the service of the said notice, in the name and on behalf of Her Majesty, the Pymont Bridge extending across Darling Harbour, in Port Jackson, from the Market Wharf, in the city of Sydney, to Union-street, Pymont, in the said city, and its appurtenances, upon the payment of a sum equal to the whole sum expended in erecting and completing the said bridge and its appurtenances, together with a premium thereon of 10 per cent. ; and in reply, I have the honor to intimate that the Company cannot receive the said notice as sufficient or within the meaning of the 51st section of the Company's Act of Incorporation, the said clause only authorizing the purchase of the entire works of the Company, upon payment to the said Company of a sum equal to the whole sum expended in erecting and completing the said bridges and their appurtenances and the roads and approaches thereto, together with a premium thereon of 10 per cent.

I have, &c.,
R. A. A. MOREHEAD,
Chairman.

The Secretary for Public Works.—H.P., 12/11/81. The Under Secretary for Public Works, B.C., 14/11/81.—C.W. Harbours and Rivers, B.C., 15/11/81.—J.R.

I do not feel that I should be warranted in undertaking to interpret the clauses of the Company's Act under which Government claims the right to resume the bridge. This part of the question should be referred to the Crown Law Officers.

I would point out however that, with reference to the final paragraph of Mr. Morehead's letter, "the roads, approaches, and appurtenances" have been already purchased by the Government, the bridge being the only part of the Company's property which now remains to be purchased.

I am aware that no premium such as that referred to in the Act was paid on those roads, approaches, and appurtenances, which were in fact purchased by the Government for a considerably less sum than they cost the Company; and it is further a fact within my knowledge—for I was for many years a shareholder—that for a considerable period the Company paid no dividend.—E. O. MORIARTY, 21/11/81.

F. Abigail, Esq., M.P., to The Secretary for Public Works

Dear Sir,

Legislative Assembly, 14 November, 1881.

In a conversation with Mr. Watson last Friday about the Pymont Bridge he told me the Government had decided to resume the bridge, and stated it rested with you to carry out the necessary arrangements. Feeling the great inconvenience of the present system to both the shipping and business interests of the city, I am very desirous of learning when the arrangements will be completed, so that the Government may place the bridge in charge of men who will not harass the people having to use it. I shall therefore feel obliged if you will be good enough to inform me how the matter stands, and you will oblige—

Your obedient servant,
F. ABIGAIL.

The Hon. J. Smith, M.L.C., to The Secretary for Public Works.

My dear Mr. Rae,

Australian Club, 3 December, 1881.

If you would kindly look into the Pyrmont Bridge affair with attention, I am sure you would be struck with the injustice of the Government proposal. A property which returned nothing for many years has now become profitable; but before the shareholders have secured a reasonable interest on their outlay, it is to be taken from them, without any compensation (or at best the merest trifle) beyond the bare original price of £5 per share, for the 10 per cent. added will be required to pay off debentures. The Government does not usually treat property-holders in that way. The money-producing power of the property, or its existing value as an investment, is taken into account, and compensation awarded accordingly, at least I believe that has been the rule of the Government. Now the last dividend on our £5 shares was $12\frac{1}{2}$ per cent. per annum, and the market price (before the Government proposal was heard of) was £7 $\frac{1}{2}$ to £8; I heard of a sale as high as £9. The next dividend will probably be at the rate of £15 per cent. It is simple confiscation to take this property and give the shareholders £5 per share.

The answer to all this may possibly be—the law allows this spoliation, and therefore it will be done. Assuming for a moment that the law allows it, the law does not make such a transaction necessary, and it is unworthy of a Government who are in the habit of treating such cases liberally to take advantage of the letter of the law; but we do not admit that the law allows it. The 51st clause of the Company's Act gives to the Government the right to buy the bridges, roads, and appurtenances, on paying the whole original cost with 10 per cent. added; but the Company have already made a voluntary sale of part of the property to the Government for an amount very much under cost, certainly less than half, and there is nothing but one bridge remaining. Now, if the Company vitiated their right under the 51st clause, so equally did the Government vitiate their right to obtain the remainder at cost price. It would be an absurdity to suppose otherwise; we did not diminish the money-producing power of our property by selling part, we in fact materially increased it, for the Government became bound to maintain the approaches to our bridge in good order, and so we were released from that burden.

It seems clear that the former sale of part of the property (a sale which in no way diminished the value of the property) does not deprive the Company of its right to a return of the whole original cost plus 10 per cent. (less £10,000 already paid) or else, by reason of that sale, the 51st clause becomes entirely inoperative.

A settlement on the basis of the whole original cost would give us less than the market value of the shares as they stood before the intentions of the Government were known, and would considerably reduce the income of a shareholder after re-investing in any reasonably safe security.

The interpretation we put on the 51st clause may be different from that of the Crown Law Advisers, and the Supreme Court may have to decide between us; but why should we be forced to go to law? Is our contention unreasonable?

Might we not expect to get the full market value of our shares with an additional bonus as a solution for being deprived of property rapidly increasing its returns? But we are prepared to carry out the 51st clause and take much less than that.

I am stating the case to you on my own part, and without consultation with my fellow Directors, in the hope that you will look into it and help to have the matter brought to an amicable conclusion; and although this letter must be treated as private and un-official, as not committing the Directors, I should yet like you to show it to the Minister, as it may possibly put the case in a somewhat different light to that in which he may have hitherto viewed it.

Believe me, &c.,

J. SMITH.

P.S.—It is quite a mistake to suppose that the bridge is worn out; we lately had it carefully examined by a competent person, and were advised that a moderate outlay would put it in first-rate condition and make it good for many years.

Place with other papers. I have looked into this, and think the claim set up untenable.—J.R., 3/1/82.

No. 17.

The Crown Solicitor to The Under Secretary for Public Works.

Sir,

Crown Solicitor's Office, Sydney, 14 December, 1881.

Referring to the notification given to the Pymont Bridge Company, and to the intimation received from Mr. Morehead that the Company claim to be paid for the road approaches to the Pymont Bridge, as well as for the bridge, I have the honor to state that I find that, by the indenture of date 14th January, 1873, made between "The Pymont Bridge Company," of the one part, and Her Majesty the Queen of the other part, in consideration of £10,000, then paid by Her Majesty the Queen to the Company, the Company sold, assigned, and set over unto Her Majesty—"All and singular the roads, bridge, causeway, viaduct, and other works belonging to the Pymont Bridge Company, which are situated between the southern side of Union-street, Pymont, to the termination of the Pymont Bridge Company's Road, on the Parramatta road, at Camperdown aforesaid, as shown in the plan endorsed upon the release."

The plan endorsed upon the release shows the roads conveyed as commencing at the junction of the road with Union-street, near to Murray-street. I do not know whether Union-street is claimed as having been constructed by the Pymont Bridge Company, but if not, the Government appear to have already paid for all the Company's property, excepting the bridge across Darling Harbour, in which case the notification given by the Government of the intention to purchase the bridge across Darling Harbour is correct, and Mr. Morehead's objection thereto is not in accordance with the facts of the case.

It may be as well to remind Mr. Morehead to refer to the minutes of the meeting of the Directors of the Pymont Bridge Company, held at the office of the Company on 13th October, 1870.

F. Abigail, Esq., M.P., to The Secretary for Public Works.

Dear Sir,

259, George-street, 10 February, 1882.

I write to ask if you have decided when the Government will take charge of the Pymont Bridge; and if so, to request that I may be informed of the date.

I have on several occasions pointed out to you the immense inconvenience being felt by thousands who use the Bridge; and George-street West being closed, and from all appearance likely to remain so for months, I urge speedy action on that ground, as it will open an avenue for the large traffic to Balmain, Petersham, Leichhardt, Forest Lodge, and other parts about.

While on this subject, I may say I hope and expect that the poll-tax on one portion of the citizens crossing the bridge on foot of a penny each way every time you go through will be removed, and if a charge is made for vehicles it will be the same as others, one amount to clear you for the day. Personally I am opposed to a system of tolls, believing a wheel-tax would be much more equitable, and I hope the Government will soon see their way clear to make the change.

Awaiting the favour of a reply,—

F. Abigail, Esq., M.P., to The Secretary for Public Works.

Dear Sir,

George-street, Sydney, 1 March, 1882.

I have thought it best, after our conversation of this morning, to submit my views in writing about the tolls now existing on the Pymont Bridge, and to ask you to induce the Cabinet to settle that question when fixing the time for the Government to resume the bridge. It appears to me, considering that Pymont is a portion of the city of Sydney, to charge a tax for foot-passengers, and that every time they traverse the bridge each way, is very much behind the times. It is a poll-tax for visiting a portion of the city, and one which I think should be discontinued. Then we have the question of tolls for vehicles. Well, I would place them on the same footing as other tolls about the suburbs, viz., pay one toll to clear you all day, as at Newtown and Parramatta Road, Camperdown, not as at present on the bridge, where you are required to pay each way, and every time you cross in a day; for instance, if a man drives across twenty times and back in one day it would cost him one pound (£1) for tolls.

This is, in my opinion, opposed to that spirit of justice said to exist in connection with tolls throughout the Colony; and as an instance in England, I may mention that all the bridges over the Thames—and there are many—are all free to both foot-passengers and vehicles.

I trust, therefore, that the Cabinet will see the necessity to decide at once to take the bridge, in the interests of the commerce of the port having to use it, and, in the interests of thousands using the bridge, to make it free to them.

I will thank you to submit this suggestion and forward me the decision, and oblige,—

Yours, &c.,

FRANCIS ABIGAIL.

Dear Sir,

Sydney, 8 March, 1882.

At the request of a large number of the citizens, I again trouble you with the question: Is the time fixed for the Government to take possession of Pymont Bridge? My apology for thus writing is the annoyance and frequent delays caused to hundreds who are using the bridge, by the Company's appurtenances.

I have had this week to use my influence to prevent public meetings being called about it. Nearly six months has passed since the Government gave three months' notice, and I do think some decided action might now be taken. Hoping to receive an early favourable reply,—

I am, &c.,

The Crown Solicitor to The Under Secretary for Public Works.

Sir,

Crown Solicitor's Office, Sydney, 18 March, 1882.

I have the honor to return herewith the papers relating to the taking by the Government of the Pymont Bridge, and to state that I have submitted the matter to Mr. Attorney-General, a copy of whose advising I forward with the papers.

As it appears that the action of the Government in purchasing from the Company the road from Union-street to the Parramatta Road is commented upon by the Chairman of the Company, I also forward a copy of a case submitted by me to Mr. Solicitor-General Innes, and of his advising thereon before the purchase was completed, to be kept with the papers.

You will notice that Mr. Attorney-General advises that it is necessary that the Company shall be called upon to state the cost of the bridge before proceedings can be taken against the Company to compel a settlement of the matter.

I also return herewith Mr. Abigail's letter to the Minister of date of 8th March last.

I have, &c.,

JOHN WILLIAMS,

Crown Solicitor.

The Company should be asked, in accordance with the last paragraph of the Attorney-General's opinion, to furnish detailed account, &c., 20/3/82. Chairman of Company, 21/3/82. End of month.

[Enclosures.]

THE PYRMONT BRIDGE COMPANY.

UNDER the Pymont Bridge Company's Act the Government have power to purchase works upon paying their costs with 10 per cent. added.

Some years ago the Government purchased from the Company the road constructed by the Company, extending from Union-street to Parramatta Road, including the Blackwattle Swamp Bridge, for the sum of £10,000, which was duly paid, the Company assigning the roads and Blackwattle Swamp Bridge to the Government.

The opinion of Sir George Innes, then Solicitor-General, upon this arrangement was taken; a copy of the case submitted and his advising thereon is left herewith.

The only property left in the Company's possession was the bridge across Darling Harbour from Sydney to Pymont, and this the Government have given the Company notice they require to purchase.

The Company however claim that they are entitled to be paid the whole costs of the construction of the bridge from Sydney to Pymont, and of the road extending to the Parramatta Road, including the Blackwattle Swamp Bridge, crediting the Government with the £10,000 paid for that bridge and road.

The Government, however, desire to pay for the construction of the Pymont Bridge alone, contending that by the purchase of the road and Blackwattle Swamp Bridge, that portion of the Company's property was entirely taken out of the calculation as to the costs of the Company's works for which the Government have to pay upon the resumption of the Pymont Bridge.

The reasons advanced by the Company in support of their claim are fully set out in a letter of date 28th December, 1881, from the Chairman of the Company to the Minister for Works, which will be found with the papers left herewith.

The Minister for Works wishes to be advised as to the steps now to be taken to compel the Company to transfer the Pymont Bridge to the Government.

Will Mr. Attorney-General please advise.

Opinion.

As I understand this case, the Government have already paid the Pymont Bridge Company for all the works connected with the bridge with the exception of the bridge itself, at a price agreed upon between the Government and the Company. The only part of the works remaining in the possession of the Company is the bridge across the Darling Harbour, and it seems to me that the Company is now entitled to be paid the costs of the construction of this bridge, together with a premium thereon of 10 per cent., and to that alone I therefore advise that Mr. Morehead's claim made on behalf of the Company be not recognized.

The Department of Works should as soon as possible call upon the Company to file in the office of the Colonial Secretary, as provided by section 51 of the Company's Act, a true and faithful account in detail of all costs and expenses occasioned by or incidental to the erection of the bridge in question.

Should the Company decline or neglect to do this, the Crown Solicitor will be instructed to take the necessary steps to enforce a compliance with the Act.

ROBERT WISDOM, A.G.

17/3/82.

THE

THE PYRMONT BRIDGE COMPANY.

THE Government have agreed to purchase the road running from Union-street, Pyrmont, to the Parramatta Road at Camperdown, for the sum of £10,000.

Under section 51 of the Company's Act the Company are empowered, when a general meeting of the Company has authorized the same, to sell and dispose of the bridges, roads, and appurtenances to Her Majesty.

Will this be sufficient to authorize a sale of a portion of the roads, bridges, &c., or must the sale be of the whole of the Company's property?

In the present case a portion only is sold, the road not being the whole of the Company's property.

A draft deed has been prepared, of which the Company's solicitors, Messrs. Allen, Bowden, & Allen, approve. Such draft is herewith submitted for perusal on behalf of Her Majesty.

Will Mr. Solicitor-General please advise hereon, and peruse and settle draft.

I do not see anything in the Act, nor am I aware of any special circumstances in this particular transaction, which should prevent the general rule (*omne majus continet in se minus*) from applying to this case. The Act, then, giving the Company power to sell to the Crown the whole of their property held or acquired under the Act, and not having expressly excluded a power to sell a part thereof, in my opinion, authorizes a sale of a portion. I have perused and settled the draft.

F. Abigail, Esq., M.P., to The Engineer-in-Chief for Harbours and Rivers.

Dear Sir,

Sydney, 13 May, 1882.

At Mr. Lackey's request I yesterday saw the Crown Solicitor, to ascertain how the matter of the Pymont Bridge was getting on.

Mr. Williams told me he could do nothing until he received from you the information he applied to you for, as this is a business that is causing inconvenience to hundreds who have to use the bridge, by the want of attention on the part of the Company, and delay of the Government in taking over the bridge aggravates the evil. I have therefore to request you to be good enough to supply the information required at an early date. I have chosen this mode in preference to writing to Mr. Lackey on the question.

I remain, &c.,
F. ABIGAIL.

No. 41.

The Engineer-in-Chief for Harbours and Rivers to F. Abigail, Esq., M.P.

My dear Sir,

Sydney, 19 May, 1882.

I regret, owing to absence from Sydney and subsequent indisposition, I was not able to answer your memo. of the 13th instant respecting Pymont Bridge as early as I could have wished.

The matter is at present in my hands for the purpose of analyzing the bridge accounts; and as they are very voluminous and complicated, and have been but a short time in my possession, I have not been able to complete the task. The work is, however, in hand, and shall be finished as quickly as possible.

Yours, &c.,
E. O. MORIARTY.

No. 42.

The Engineer-in-Chief for Harbours and Rivers to The Secretary, Pymont Bridge Co.

Dear Sir,

Sydney, 13 June, 1882.

Would you kindly inform me at your convenience what date the Pymont Bridge was opened to traffic, and oblige,—

Yours very truly,
E. O. MORIARTY,
(J. BARLING).

Dear Sir,

Pymont Bridge Office, 14 June, 1882.

The Pymont Bridge was opened March 17th, 1857, St. Patrick's Day, free. Tolls commenced to be collected on the 18th.

I remain, &c.,
WILLIAM MALBON,
Secretary.

Mr. Conley,—Please let me have the statement as quickly as possible.—J.B., 17/6/82.

No. 43.

Memo. from Engineer-in-Chief for Harbours and Rivers to Under Secretary for Public Works.

PYRMONT BRIDGE COMPANY'S ACCOUNT.

I HAVE had very considerable difficulty in analyzing this account, and cannot complete it without further information, especially with regard to the dates of the services which the items in the account represent.

In almost every case the date of payment only is given; in some cases also the information is so meagre that I cannot, from the present statement, make out to what particular part of the whole some of the expenditure belongs. I applied to the Secretary of the Company for these particulars; by him I

was

was referred to the Chairman of the Board, and by the Chairman I was requested to communicate with the Board in writing. I suggest that that body be written to, with the sanction of the Minister, and asked that they authorize their secretary to supply to the officer I may send, from their books, what further information is needed by me to complete my report.

17/7/82.

E. O. MORIARTY.

P.S.—Perhaps I should state again why I need this information. I assume I have been asked to report on the cost of the bridge as distinct from the road, and unless I am in a position to separate the road expenditure from the bridge I cannot do so; the former has already been paid by the Government.—E.O.M., 17/7/82.

Approved.—J.L., 20/7/82. Harbours and Rivers, B.C., 20/7/82.—J.R. Noted. The Company should now be written to.—E.O.M., 22/7/82. B.C., Under Secretary Public Works. Write accordingly.—J.R., 24/7/82. Chairman, 24/7/82. Harbours and Rivers, B.C., 24/7/82.—J.R.

No. 44.

The Under Secretary for Public Works to The Chairman, Pymont Bridge Company.

Sir, Department of Public Works, Sydney, 24 July, 1882.
Referring to the correspondence on the subject of the resumption of the Pymont Bridge, I am directed to request that you will be pleased to instruct the Secretary to your Company to supply to the officer from the office of the Engineer-in-Chief for Harbours and Rivers, such details of information respecting the accounts submitted or to be submitted, relating to the cost of the bridge, &c., as may be required.
I have, &c.,

The Under Secretary for Public Works to The Crown Solicitor.

Pymont Bridge.—Mr. Lackey wishes to learn from the Crown Solicitor whether the Government can take possession of the bridge at once, without waiting for the settlement of the price to be paid?
J.R., B.C., 31/7/82.

Received, 1st August, '82.—J.W.

No. 46.

The Crown Solicitor to The Under Secretary for Public Works.

Sir, Crown Solicitor's Office, Sydney, 2 August, 1882.
I have the honor to return herewith your memo. of date 31st, in which you state the Minister wishes to be advised whether he can take possession of the Pymont Bridge at once, and in reply to state that I do not think he can do so.

The Pymont Bridge Act provides that the Government, on behalf of Her Majesty, &c., &c., may purchase the bridge, upon giving three months' notice in writing, and upon payment to the Company of a sum equal to the whole sum expended in erecting the bridge and approaches, and that upon the completion of the sale the right of the Company to demand and take tolls, &c., shall cease.

I think it is clear from this that the Government cannot take possession until the purchase has been completed. At present the purchase is delayed waiting for report as to the amount which the Company can legally claim. The papers relating to this matter were forwarded to you on 28th April last.

I have, &c.,

JOHN WILLIAMS,
Crown Solicitor.

No. 47.

No. 47.

Mr. R. A. A. Morehead to The Under Secretary for Public Works.

Sir, Pymont Bridge Company's Offices, Sydney, 5 August, 1882.

I laid your letter of the 24th July before the Directors of the Pymont Bridge Company at their last Board meeting.

The Board cannot give any such general directions to their Secretary as you desire. Full accounts have been filed in detail, as required by the Company's Act, and all necessary information has been afforded to the Government.

If you will point out any errors or omissions, or state definitely any other information you want, your communication shall have the attention of the Board.

I have, &c.,
R. A. A. MOREHEAD,
Chairman.

Harbours and Rivers, B.C.—J.R., 5/8/82. Inform Mr. Abigail of the opinion of the Crown Solicitor. F. Abigail, Esq., M.P., 7/8/82.

I cannot without the information asked give an accurate statement of the cost of the bridge, but as nearly as I can come at the truth, giving a liberal proportion of the contingent expenses to the bridge the account will stand thus:—

	£	s.	d.
Cost of the bridge proper	31,522	7	4
Proportion of contingent expenses, &c.	6,000	0	0
	<u>37,522</u>	<u>7</u>	<u>4</u>
Add 10 per cent.	3,752	4	8
	<u>£41,274</u>	<u>12</u>	<u>0</u>

or say £41,300 in all.

By another method of computation the amount to be charged against the bridge is arrived at as follows, *i.e.* as nearly as I can make it out from the imperfect data before me, viz:—

	£	s.	d.
Cost of bridge	31,522	7	4
Roads, Glebe Island and Camperdown	23,983	9	4
Contingent expenses	11,291	18	7
			<u>£66,797 15 3</u>
<i>Less.</i>			
Roads as above	23,983	9	4
Half cost of contingencies chargeable to roads	5,645	19	3
			<u>29,629 8 7</u>
Cost of bridge			37,168 6 8
10% added			3,716 16 8
			<u>£40,885 3 4</u>

or (say) £41,000 total compensation for bridge.

By the Company's statement they would seem to have paid on account of the whole of the works, £75,830 6s. Taking into account therefore the £10,000 already paid for roads, and the larger amount of those two calculations, viz. for £41,300 for the bridge, the result would be arrived at showing total loss to the Company of £24,530.—E. O. MORIARTY, 11/8/82. P.W.O., 11/8/82.

B.C., Under Secretary P. Works. Let this amount be offered.—J.L., 17/8/82. Crown Solicitor is requested to make offer.—J.R. B.C., 17/8/82. Recd. 20th Aug., '82.—J.W.

No. 48.

The Under Secretary for Public Works to F. Abigail, Esq., M.P.

Sir, Department of Public Works, Sydney, 7 August, 1882.

Referring to your personal representation and to previous correspondence on the subject of the resumption for the use of the public of the Pymont Bridge, I am directed to enclose, for your information, a copy of the opinion of the Crown Solicitor on this subject.

I have, &c.,
JOHN RAE.

No. 49.

F. Abigail, Esq., M.P., to The Secretary for Public Works.

Sir, George-street, 10 August, 1882.

As the Crown Solicitor's opinion is against the Government taking immediate possession of the Pymont Bridge and leaving the matter of payment for after consideration, I can only request that you will cause the matter to be pushed on with all speed. The Company having refused the request of the Government to see their books for the purpose of comparing the various items set forth in their large claim, it is for your officers to go through the said account and judge what properly belongs to the bridge and its approaches, allowing the Company the benefits of any doubts when the amount is fixed, which, I believe, will be August 11 (to-morrow).
Mr.

Mr. Williams will, I am sure, lose no time in completing the matter according to law, and so get the bridge and relieve thousands of people from the injustice they are now suffering. By complying with the above you will oblige,—
Yours truly,
F. ABIGAIL.

Acknowledged, 11/8. Harbours and Rivers, B.C., 11/8/82.—J.R. I reported on this matter on the 10th instant—(see 82,3783).—E. O. MORIARTY, 17/8/82. B.C., Under Secretary, Public Works. P.W.O., 21/8/82. To what effect is Mr. Abigail to be informed? He has already been informed, I think.—J.R., 23/8/82.

No. 50.

The Crown Solicitor to The Under Secretary for Public Works.

Sir, Crown Solicitor's Office, Sydney, 19 August, 1882.

I have the honor to return herewith the papers relating to the Pymont Bridge which were received by me from your Department this morning, and to state that, in compliance with your minute of date 17th August instant, I have written to the Chairman of the Pymont Bridge Company offering payment of the sum of £41,300.

It is probable that the Company will require to be furnished with particulars of the way in which the sum offered to be paid is made up, and it is desirable, therefore, that you should have a detailed statement setting out the items which make up the amount offered to the Company prepared, and I return the papers for this purpose. Possibly the better way of preparing this statement will be to take the items as shown in the account forwarded to the Colonial Secretary, and which the Company required shall be paid to them, and point out specifically which of the items shall be allowed and which objected to, setting out the grounds of objection.

I have, &c.,

JOHN WILLIAMS,
Crown Solicitor.

Harbours and Rivers, B.C., 21/8/82.—J.R. I have pointed out that I cannot, from the account before me, with any accuracy divide the road and bridge expenditure. In the event of the Company objecting to our figures, I would suggest that they be asked to separate the expenditure, showing what items in their account belong respectively to the bridge and the road. I cannot do this with any hope of substantiating my statement as against the evidence they would be able to bring against it from their books, to which I have been refused access.—E. O. MORIARTY. B.C., Under Secretary, Public Works. Urgent.—P.W.O., 28/8/82. Crown Solicitor, B.C., 30/8/82.—J.R. Received, 31 August, '82.—J.W.

Sir, Colonial Secretary's Office, Sydney, 4 September, 1882.

I am directed by the Colonial Secretary to transmit to you herewith a copy of an order of the Legislative Assembly for certain information respecting Pymont Bridge, and to request that you will bring the same under the notice of the Secretary for Public Works.

I have, &c.,

CRITCHETT WALKER.

Harbours and Rivers, B.C., 7/9/82.—J.R. As already suggested by me, I think we should delay putting the papers on the Table till the action herein is complete; the case is now before the Crown Solicitor.—E.O.M., 7/9/82. B.C., Under Secretary Public Works. Returned to the Crown Solicitor. How does the matter now stand?—J.R., B.C., 9/1/83. Crown Solicitor. Further re purchase of the Pymont Bridge that an offer of £41,300 has been made. B.C., Crown Solicitor, 30 August, 1882. Will the Crown Solicitor kindly return the papers in this case.—B.C., 5/1/83, J.R. Received, 5/1/83.—H.H.O.

F. Abigail, Esq., M.P., to The Secretary for Public Works.

Dear Sir, 589, George-street, 5 September, 1882.

I am desirous of learning if the amount recommended by Mr. Moriarty as a fair sum to be paid to the Pymont Bridge Company has been tendered to the Chairman, and if not will it be done early. Your reply will oblige
Yours, &c.,
F. ABIGAIL.

Crown Solicitor, for previous papers.—G.R., B.C., 6/9/82.

Mr. Abigail may be informed that on the 19th August I wrote to the Chairman of the Pymont Bridge Company, offering to pay £41,300, and that on the 2nd September inst. I received a reply declining to accept same. Instructions have therefore been given to Counsel to prepare the necessary information in equity, calling upon the Company to complete the purchase by the Government of the bridge.

The Under Secretary for Public Works to F. Abigail, Esq., M.P.

Sir,

Department of Public Works, Sydney, 12 September, 1882.

Referring to your letter of the 5th instant, inquiring whether the offer made to the Pymont Bridge Company for the purchase of their bridge had been accepted, I am directed to inform you that the Crown Solicitor on the 19th ultimo wrote to the Company, tendering the sum of £41,300 as the consideration, and on the 2nd instant he received a reply declining to accept the amount as offered. Instructions have therefore been given to the Crown Law Officers to prepare the necessary information in equity, calling upon the Company to complete the purchase by the Government of the Bridge.

I have, &c.,

JOHN RAE.

No. 14.—VOTES AND PROCEEDINGS OF THE LEGISLATIVE ASSEMBLY.

Wednesday, 13 September, 1882.

(3.) Pymont Bridge :—Mr. Abigail asked the Secretary for Public Works,—

(1.) Are the legal difficulties said to cause the delay in the taking over by the Government of the Pymont Bridge due to Government Officials, the Crown Law Officers, or the Pymont Bridge Company's Board of Management?

(2.) Have the Company sent in full particulars of their claim, and is the Minister satisfied as to the justice of such claim; if not, what steps does he propose taking to settle the question speedily, in the interests of the public.

Mr. Lackey answered,—The Crown Solicitor, on the 19th ultimo, wrote to the Chairman of the Pymont Bridge Company offering to pay £41,300 for the bridge. On the 2nd instant Mr. Williams received a reply from the Company declining to accept the offer. Instructions have therefore been given to Counsel to prepare the necessary information in equity, calling upon the Company to complete the purchase by the Government of the bridge. I may further add, that the Company have sent in particulars of the cost of the roads and bridge; but as the Government have purchased the former, it is contended that the latter has now only to be paid for, but the account in question does not accurately distinguish the cost of one from the other.

May be returned to Crown Solicitor to put with other papers.—B.C. 15 Sept., 1882.

The Under Secretary for Public Works to F. Abigail, Esq., M.P.

Sir,

Department of Public Works, Sydney, 6 November, 1882.

Referring to the paragraph in your letter of the 20th October on the subject of the resumption of the Pymont Bridge for the use of the public, I am directed to inform you it appears from a communication which has been received from the Crown Solicitor that an information has been filed by the Attorney-General in the Supreme Court, upon which the Company have entered an appearance to defend the claim made by the Government.

The Crown Solicitor to The Under Secretary for Public Works.

Sir,

Crown Solicitor's Office, 8 January, 1883.

I do myself the honor to return herewith your B.C. communication of the 5th instant, and as requested to forward herewith the papers relating to the purchase of the Pymont Bridge.

I have, &c.,

JOHN WILLIAMS,

Crown Solicitor.

No. 56.

F. Abigail, Esq., M.P., to The Secretary for Public Works.

Dear Sir,

589 and 591, George-street, Sydney, 10 January, 1883.

I take the earliest opportunity of drawing your attention to the matter of the Pymont Bridge, with the view of urging immediate action to complete the resumption of the Pymont Bridge by the Government, so that the people in the Pymont portion of the city may be relieved of the unjust burden of tolls which now have to be paid by foot-passengers and those travelling in vehicles.

It is twelve months on 8th of this month since the late Minister for Works gave the three months' notice, as required by the Company's articles of association, that at the expiration of the time specified, viz., the 8th day of January, 1882, the Government would resume the bridge in the public interest.

This has not been done. I am aware Mr. Williams, Crown Solicitor, thinks it cannot be done except with the Company's consent. Failing the obtaining of this it will be necessary to file a bill in equity; but I differ in this, and think that if you will refer to the articles you will agree with me that the Government, having arrived at what they considered the fair value, they take the bridge tendering the amount; should the Company refuse to accept it at a fair value, they can then proceed as others have done against the Government for what they consider they are justly entitled to, and let the Jury decide between the two parties.

I ask your early attention to this matter, and remain

Yours respectfully,

FRANCIS ABIGAIL.

Sir,

Department of Public Works, Sydney, 18 January, 1883.

Referring to your letter of the 10th instant, respecting the delay in the purchase of the Pymont Bridge, I am directed to inform you that the Company having refused the offer made by the Government the matter has been taken into the Supreme Court, and the case has been set down for trial on the termination of the vacation.

3. PYRMONT BRIDGE (*Formal Motion*):—Mr. Abigail moved, pursuant to Notice, That there be laid upon the Table of this House copies of all minutes, letters, papers, or other documents, having reference to the resumption by the Government of the Pymont Bridge.
Question put and passed.

The Crown Solicitor,—How does this matter now stand?—J.R., B.C., 9/1/83.

The defendants' statement of defence was filed herein on the 15th December last. The replication on behalf of the Attorney-General has been prepared and filed, and the case will be set down for hearing on the termination of the vacation.

Will the Under Secretary for Works return the original papers when no longer required by him, as they will be wanted to be used in the suit.—JOHN WILLIAMS.

The Under Secretary for Works, B.C., 16/1/83. Submitted. This matter is now in the hands of the Crown Solicitor, B.C., 16/1/83. Papers herewith. Inform in terms of the report of the Crown Solicitor.—J.B., 17/1/83. F. Abigail, Esq., M.P., 18/1/83. See answer to question, 18/1/83.

I would beg to suggest that this letter be forwarded to Mr. Williams, and that Mr. Abigail be replied to in terms of Mr. Williams' memo. of the 16th instant.—E.O.M., 18/1/83. B.C., Under Secretary Public Works.

Legislative Assembly, Thursday, 18 January, 1883.

- (8.) Pymont Bridge:—*Mr. Garrard*, for Mr. Abigail, asked the Secretary for Public Works,—Will he say what is the cause of the delay in completing the resumption of the Pymont Bridge, notice having been given to the Company on 8th October, 1881, and which expired on the 8th January, 1882, over twelve months ago, and the said Bridge is still in the hands of the Company?

Mr. Stuart answered,—The Company having refused to accept the offer of the Government for the purchase of the bridge, it became necessary to institute proceedings in the Supreme Court. The papers are still in the hands of the Crown Law Officers, and the case is set down for trial immediately after the present vacation.

Mr. R. A. A. Morehead to The Secretary for Public Works.

Sir,

Office of the Pymont Bridge Company, Sydney, 22 January, 1883.

With reference to what passed in the Assembly on Thursday, the 18th instant, on the subject of relations between the Government and this Company as to the proposed purchase of the Pymont Bridge, I do myself the honor to request that you will look into the papers relating thereto, stated to be in the hands of the Crown Law Officers. These papers or such of them as then existed were asked for some time since in the Assembly, but I understand have not yet been laid on the Table. I would state, however, that it was most satisfactory to myself and my co-Directors to have the prospect of the whole case being brought under view of Parliament.

On behalf of the Company I now desire and respectfully request that the entire case may come under your consideration, feeling assured that there is no warrant whatever for the imputation that the Company has sought to obtain anything in excess of what it is strictly entitled to.

I have, &c.,

R. A. A. MOREHEAD,
Chairman.

Inform Mr. Morehead that as the case is now before the Law Court, and set down for hearing on 5th proximo, no further steps can be taken at present.—H.C., 7/2/83. R. A. A. Morehead, Esq., 7/2/83. Put with other papers.—J.R. Crown Solicitor, B.C., 8/2/83.

The Crown Solicitor to The Under Secretary for Public Works.

[Urgent.]

Sir,

Crown Solicitor's Office, Sydney, 11 April, 1883.

I have the honor to return herewith the papers relating to the Pymont Bridge Company's claim, including the original account of the expenditure of the Company, filed in the Colonial Secretary's office.

As I understand Mr. Stuart intends to examine the account, I would suggest that a copy of it be made for that purpose, as *it is undesirable* that any memoranda shall be made upon the original account.

Expenses in connection with the purchase of Pymont Bridge and improvements of Roads—£70,000.

THE papers in this case cannot at present be obtained, as they are now being used in connection with the suit pending in the Supreme Court in reference to this matter.

The Government have offered the Company the sum of £41,300 for the bridge, which, so far as the accounts furnished by the Company show, appears to have been the cost of the bridge, plus the 10 per cent. secured to them by the Act. This the Company have refused to accept, contending they have a right to the whole cost of the works, including the Blackwattle Bridge and road, with the 10 per cent. added, less the £10,000 already paid for the latter.

The Company set down the whole cost of the works at £75,830 6s.

£50,000 voted, 12/4/83. Mr. Moriarty to note, and return for transmission to Crown Solicitor.—

Subject: Pymont Bridge Negotiations.

Colonial Secretary's Office, Sydney, 4 June, 1883.

THE claim made in respect of this bridge, if taken over by the Government, is founded on the cost thereof having been £75,830 6s., as per enclosed copy of account, furnished by the Bridge Company.

The Government, on the report of the Engineer-in-Chief for Harbours and Rivers, have offered a sum based at £41,300 only being the cost.

The matter is now in my hands with the view of endeavouring to come to an amicable settlement; and as it will help me very much I will feel obliged by the Engineer-in-Chief making on the accompanying the items he had in view when he gave the sum which has been taken as the basis of the Government offer.

Harbours and Rivers, with reference to previous papers. Urgent.—W.F. (for U.S.), B.C., 14/6/83.

In re purchase of Pymont Bridge.

I MADE up the account in four divisions, as follows, viz. :—

1. Items which belonged to the bridge proper (see list No. 1)...	£31,524	13	4
2 and 3. Items which referred to the roads, the Glebe Island Road and Camperdown Road; these amounts were of course omitted (see list Nos. 2 and 3) ...			
4. Items which were properly divisible between the bridge and the roads; these amounted to £11,281 18s. 1d. (see list No. 4); I accordingly allowed to the bridge ...	6,000	0	0

10 per cent. added ...	£37,524	13	4
	3,752	9	4
	£41,277	2	8

Say cost of bridge ...	£41,300	0	0
------------------------	---------	---	---

Of course this is a very rough statement; but not having access to the Company's books, which was in fact denied, I was obliged to make the nearest approximate I could, resulting in the sum of £41,300, as above.

On further examination of the account I find that there are three amounts for interest on debentures not included in my estimate, viz. :—

1860—January...	£1,231	0	0
„ —September ...	695	10	0
1862—December ...	1,106	0	0

half of which, with 10 per cent. added, I think, should also be allowed; although it should be remembered that the bridge was opened on the 17th March, 1857, and was thereafter producing revenue.

F. Abigail, Esq., M.P., to The Secretary for Public Works.

Dear Sir,

18 December, 1883.

I am pleased to be able to tell you I was present and heard the unanimous decision of the Full Court given against the Pymont Bridge Company with costs.

I ask that the Government will expedite the taking of the bridge; or, should any further delay be sought by the Company appealing to the Privy Council, I trust proper steps may be taken to have a receiver appointed to take the moneys received during the time, for it must be patent to any one that, although they may have no grounds to appeal on, if they can go on receiving ten or twelve thousand pounds per annum, any delay must be a profit to them after paying all the costs. Upon grounds of public justice and fair play, I ask that proper steps be taken as early as possible for the Government acquiring the bridge.

With reference to applying for the appointment of a receiver, I some days since had a conference with *Alexander Gordon*, Esq., Q.C., as to this matter, and he suggested that, as the application for leave to appeal had only been granted in Chambers and would have to be confirmed by the Full Court, and as the appointment of a receiver could not be said in this case to be such a matter of emergency as to require

its

its being dealt with in vacation, any application for a receiver should not be made until the application for leave to appeal had been confirmed by the Court.

ANNANDALE BRIDGE OVER JOHNSTONE'S CREEK.

No. 1.

F. J. Gibbes, Esq., M.P., to The Under Secretary for Public Works.

Sir,

Newtown, 7 July, 1883.

I have the honor to draw your attention to the bridge or culvert at the intersection of the Parramatta Road with Johnstone's Creek, and to the necessity of widening such bridge, in the interests of public convenience and safety.

The Parramatta Road, at the point in question, is now narrowed to something less than 40 feet, so that while the only provision for foot-passengers traffic is a single course of stone, from 18 inches to 2 feet wide, jutting from the lower part of either parapet into the roadway, the roadway itself is so strictured that on one side the interval between the tram-line and the pathway is only about 12 feet, and on the other about 10 feet. I therefore respectfully request that the bridge in question be so widened as to make available for traffic the whole breadth of this the main road of the Colony.

I have, &c.,

F. J. GIBBES.

Acknowledged, 9/7/83. Commissioner for Roads for report.—F.A.W., 9/7/83. B.C. accordingly.—J.R., 10/7/83. Mr. Dyson, 10/7/83.

The bridge here referred to will require to be reconstructed at an early date. It has a 12-foot opening; foundations and abutments up to springing wing walls and voussoirs built of stone, which has already given way in many places; centre part of the arch is brickwork. To reconstruct this bridge with good masonry, and increase the width of roadway over it to a chain wide, will cost, at a low estimate, £600.—E.D.D., 12/7/83.

The reconstruction of this bridge on a wider scale has been necessitated by the tramway, as also the widening of the cutting. I think cost should be borne by that Department.—W.C.B., 12/7/83. Under Secretary. B.C. Submitted.—J.R., 13/7/83. Commissioner for Railways for report as to position of his Department with this work.—F.A.W., 13/7/83. B.C., 13/7/83. J.R., 83/3,780.

I have the honor, by direction of the Mayor, to request that you will be pleased to name a day on which you will be prepared to receive a deputation appointed to wait upon you on the subject of widening the Annandale Bridge, over which the tram-line has recently been constructed, on the main Western Road running through this Borough.

W. PIDCOCK.

Friday next.—F.A.W., 14/7/83. 12/13. Inform. 14/7/83. Council Clerk, Camperdown. Perhaps the matter should be referred to the Commissioner for Railways, as the tram crossing this bridge is stated as the cause of the proposed widening.—J.R., B.C., 14/7/83. Mr. Cowdery. B.C. Urgent.

Mr. Hyndman for immediate report. Also, give width of bridge, &c. This paper must be returned on Thursday morning certain.—G.C., 17/7/83. Inspector Waring's report herewith.—R.H. (*per* H.J.M.), 19/7/83. The Tramway Engineer.

The bridge referred to is 43 feet wide inside parapet walls; a footpath 2 feet wide has been formed on each side; the actual width of roadway for wheel-traffic is 39 feet; the distance from rail to footpath on each side of tram-line is 12 feet. The width of road between fences on north side of culvert is 63 feet 9 inches, with a 7-foot footpath on west side of road; and that on south side 100 feet, with a 12-foot footpath. The present terminus of tram-line is 12 chains 31 links south of this bridge.—G.C., 19/7/83.

Government Tramway—Leichhardt Line.

Sir,

19 July, 1883.

Yesterday when examining the 10-foot culvert, called Annandale Bridge, I found this culvert requires some repairs; there is a sandstone rock foundation, almost to the surface, for the walls to this culvert, but on the south side the wall in some places has not been bedded on the rock, the consequence is the water has got under the bottom course of stone and washed the earth from under, leaving the stones hanging, and in two cases the stones have dropped down. The culvert is roughly constructed throughout.

W. H. WARING.

Will Mr. Cowdery please instruct me as to this matter, this culvert is certainly in a bad state, it is under control of the Roads Department, I believe.—R.J.H., 23/7/83. The Tramway Engineer. The bridge referred to is under the control of the Roads Department, our tram line to Leichhardt crosses over this bridge. Will Commissioner please say if the repairs are to be carried out by this Department.—G.C., 25/7/83. Forward to Commissioner for Roads, B.C., 2/8/83. Roads.—J.R., B.C., 2/8/83. Minister's Reply to Deputation.

Re Widening Annandale Bridge.

A DEPUTATION, introduced by Messrs. Mitchell, Abigail, and Garrard, Ms.P., waited upon me to-day and urged the necessity for widening the Annandale Bridge (Parramatta Road). It was stated that at the present time owing to the tram going across this bridge the roadway was not sufficiently wide for the traffic that went over it.

I informed the deputation that from reports received I found the bridge was 43 feet wide, 2 feet on each side was taken up by pathways leaving 39 feet for wheel traffic. The distance from the tram-rail to the footpath on each side was 12 feet.

I was informed by Mr. Bennett that the bridge required re-building, and he recommended that a sum should be provided to build a new bridge, but he added that as the alteration was rendered necessary through the construction of the tramway, he thought part of the cost should be charged to the Tramways Vote, but the Commissioner for Railways demurred.

It was estimated that £600 or £700 would be required for the work, and if it were decided to rebuild the bridge nothing could be done till the money was voted by Parliament; if necessary, the money would be placed on the next Estimates.

Mr. Abigail stated that he did not think it was necessary the bridge should be rebuilt, as the present structure could be extended at little cost.

I promised to have a further report made in the whole matter, and shall be glad if Mr. Bennett will give the subject attention.

F. A. W., 20/7/83.

Mr. Pritchard at the same time complained of the bad state of the Parramatta road, and alleged that it was never laid properly.

Roads.—J.R., B.C., 23/7/83. Re-submit, with Mr. Dyson's report. He will be here to-morrow.

Repair of Bridge at Camperdown.

A DEPUTATION, consisting of Mr. Thompson (Mayor of Camperdown), Mr. Pritchard (Mayor of Leichhardt), and several Aldermen of the first-named Municipality, were introduced yesterday by Messrs. Mitchell, Garrard, and Abigail, Ms.P., to the Minister for Works, to request that the bridge on the Parramatta Road at Camperdown should be widened and placed in a proper state of repair.

Mr. Wright said that the report of the officer was that a new bridge was required, which would cost about £600, and it would be necessary to place that sum on the Estimates and obtain the sanction of Parliament.

Mr. Abigail pointed out that the re-construction of the bridge was not necessary, and a comparatively small sum only was required to widen the structure and place it in repair.

Mr. Pritchard called attention to the state of the Parramatta Road, which was a Government road. The effect of the tramway being laid down was to place the road on each side in a worse condition than it was before; the road had not been made properly for the last twenty or thirty years. If the whole of the road was laid with tar metal there would be no dust, and the road would be a convenience to the public.

Mr. Wright promised to inquire into the matter.

Extract from *Daily Telegraph*, 21st July, 1883.

Camperdown Bridge.

A DEPUTATION, consisting of Messrs. Pritchard (Mayor of Leichhardt), Thompson (Mayor of Camperdown), Aldermen Sparkes, Borchers, and M'Grath, together with Messrs. Garrard and Abigail, Ms.P., was introduced by Mr. Mitchell, M.P., to the Minister for Works, for the purpose of asking that the Camperdown Bridge, just beyond the old toll-bar on the Parramatta Road, be widened. The deputation pointed out that the tram-line took up 12 feet of the bridge, which was only about 30 feet wide altogether, and that it was absolutely necessary that the bridge should be widened to the full width of the road, in order to meet the requirements of the traffic.

Mr. Wright quoted from a report by Mr. Bennett, which stated that the bridge was in a dilapidated condition, and recommended that a portion of it should be re-constructed. He would get a further report on the subject, and if it were necessary to re-construct the bridge he would place a sum on the Estimates for the purpose.

Mr. Bennett's minute:—The widening of the bridge will not be satisfactory. The faces are of stone, and to my own knowledge all cracked; the inner part of the arch is of brickwork of the Macquarie era, so that I am disposed to concur with Mr. Dyson that the best and cheapest way will be to construct a new bridge. I would again point out that until the tramway was laid no one ever thought of widening this bridge. If works of this sort are not charged to the tramways the accounts will not show a correct dividend.—W.C.B., 26/7/83. Under Secretary, B.C.

Submitted.—J.R., 27/7/83.

Mr. Wright's minute:—Commissioner for Railways.—It appears to me that cost of this work should be divided between Roads and Tramway Departments.—F.A.W., 30/7/83.

Roads, B.C., 31/7/83, to note and return. Inform Mr. Gibbes. F. J. Gibbes, Esq., M.P., 1/8/83. Railways.—J.R., B.C., 2/8/83. Seen.—W.C.B., 6/8/83.

Mr.

Mr. Goodchap's minute:—I have only to say that if all the old bridges are to be renewed—this one it seems is too dilapidated to be widened—out of Tramway funds, because the Tramways are run over them, the Tramways will not only not show a correct dividend but no dividend at all. The demand for a wider bridge on the ground that the Tramway runs over it is an untenable one; the Tram cars do not stop on the bridge or hold it for any appreciable time—if it was stable enough and wide enough for the traffic before the Tram-line was laid it is wide enough now. The Trams have reduced the vehicular traffic considerably, and the time occupied by them in using this bridge is not more than five minutes out of the twenty-four hours. There seems to be an unhealthy mania for largesse out of the Tramway votes. Corporate bodies, Government officials, and private individuals seem to be alike determined to make them minister to their wants. The Act says that we are to keep the road in repair for 18 inches outside the rails, and I fail to see how the funds can legally be availed of for widening or rebuilding bridges, or as demanded by the Municipal authorities, metalling the streets through which the Tramways run from gutter to gutter.—C.A.G., 10/8/83.

P.W.O., 15/8/83. For Mr. Bennett's further report.—F.A.W., 14/8/83. Roads.—J.R., B.C., 15/8/83.

I have nothing to add to what I have already stated; the remarks of the Commissioner for Railways as to Tramway votes apply with even greater force to the Road votes. At the University cutting we have been called on to pay for land and expend £1,500 in widening and footway which was never asked for until the Tramway was made or proposed. A slight widening of the bridge in question can be made by taking off the parapet and putting a timber railing as on other bridges. This will cost (say) £90, that is £45 for the Tramway Department.—W.C.B., 16/8/83. Under Secretary, B.C.

No. 7.

Mr. H. Miller to The Commissioner for Roads.

Report on Culvert at the west side of Camperdown Toll-bar, M. W. Road.

Sir,

Sydney, 26 July, 1883.

In accordance with your verbal instructions I examined the culvert on the west side of Camperdown Toll-bar to-day, the culvert is of stone; a portion of the arch and the parapet walls are of brick with stone facings and coping. The stone work in the culvert is sound and in fair condition, being a little water-worn in places, and the whole of it should be pointed with cement, including the bricks in the arch; three of the largest stones in the facings of the parapet walls are a little out of plumb, caused by settlement, these should be put back to their places; the wall on the south side has a little crack in it, but of no great importance; a little pointing has recently been done to the walls at the inlet and outlet of culvert, but this should be done thoroughly throughout and done at once, and then it will last for years.

H. MILLER.

Mr. Dyson ought not to give a wrong report on a matter of this sort. Will Mr. Wells examine this?—W.C.B., 28/7/83. Particularly underneath.—J. N. DYSON, B.C.

I have examined the structure and find it much in the same condition described by Mr. Miller. The face walls and ring of the arch are, with the exception of a little failure in foundation of former, in tolerable condition, the wing walls and parapet have failed rather more, if pointed however will last some years; the parapet and heavy coping course should be taken down and a neat ordnance or iron fence substituted, materially lightening the pressure on face and wing walls, and giving 5 feet more width to the bridge; the bridge is not worth widening by more important addition.—F. WELLS, 18/8/83.

Re Bridge, Parramatta Road, Leichhardt Line, near Nelson-street.

From shoulder to shoulder this bridge is about 1 chain, and in the narrow portion a little over $\frac{1}{2}$ chain wide, as *per* tracing in this office. Trams do not stop or cross on this bridge. The time occupied in crossing is not more than five seconds per tram. This bridge is not in use by the tram for more than five minutes each day.—J.W.T. (*pro* Supt.), 10/8/83.

Mr. Wright answered,—The work in question will be undertaken within a month.

Mr. Bennett's minute:—Mr. Dyson to alter specification, omitting rendering of arch and other modifications suggested by me, and ask Brodie to modify price accordingly. I will then submit to Minister for acceptance.—W.C.B., 3/4/84.

I consider his offer reasonable, and recommend his tender be accepted.—E.D.D., 4/4/84.

The Council Clerk, Camperdown, to The Secretary for Public Works.

Sir,

Municipal Council Chambers, Camperdown, 8 May, 1884.

I have the honor, by direction of His Worship the Mayor, to request that you will be pleased to inform me on what date you will be prepared to receive a deputation from this and adjoining Boroughs in reference to the state and condition of the Annandale Bridge over Johnstone's Creek, Main Western Road, and to certain alterations thereon now being proceeded with.

I have, &c.,
WM. PIDCOCK,
Council Clerk.

Mr. Rae will arrange.—F.A.W., 9/5/84. Friday, 16th May, at 11.—J.R., 9/5/84. Inform Council Clerk, Camperdown, 9/5/84. Roads.—J.R., B.C., 10/5/84. Mr. Bennett's minute:—Inform Mr. Dyson, and re-submit papers. Tell him to state cost incurred, and amount required.—W.C.B., 10/5/84. Mr. Dyson instructed, 12/5/84.

Minute by The Commissioner for Roads *re* Bridge.

THE alterations to this bridge were approved of a month ago and are now completed, making the bridge 7 feet wider—in all 42 feet 6 inches, or 14 feet between the railing and each side of tram-line. I think this bridge will meet all requirements. At present alterations have cost £80, for under-pinning, removing, and re-building parapet walls, pointing the masonry and brickwork, and putting up new ordnance fence.

To build on to culvert 20 feet at either end would cost £750; the more economical course would be to build inside present culvert an opening 6 feet 9 inches wide, and continue same above and below. It would afford ample waterway and cost £600, but it is considered that the work executed should suffice.

If urgently required, a cheap wooden waterway might be added outside railing.

The Secretary for Public Works reply to Deputation.

Department of Public Works, Sydney, 16 May, 1884.

Deputation *re* Bridge.—Municipal Council of Camperdown, &c., 11 o'clock. Report herewith.

A DEPUTATION, consisting of Messrs. Mitchell, Gibbes, Abigail, and Hammond, Ms.P., Messrs. J. Young (Leichhardt), Hughes (Petersham), and Sparks (Camperdown), waited upon me to-day in connection with the bridge over Johnstone's Creek, Annandale, Parramatta Road. It was stated that, although a promise was given that the bridge should be widened, the work had not in reality been done. All that had been effected was to take the original pathways and utilise them for the roadway. It was said that although the structure of the bridge was good it was still too narrow for the requirements of the vehicular traffic, and a request was made that it should be further widened. Attention was also drawn to the necessity for some secure railings being placed on sides of bridge so as to avoid the possibility of accident.

I informed the deputation that I made no promise to the previous deputation beyond that I would cause inquiry to be made. This had been done, and, as a result, the widening of the bridge for vehicular traffic had been determined upon. I found there was now 14 feet between the railings and tramway, which seemed to me quite sufficient for all ordinary traffic purposes, seeing that the bridge was no length. I had previously stated that it was Mr. Bennett's opinion that it would be better to pull down present one and build a fresh bridge than to go to any great expense in extending the old one. I would make no promise in the matter, but would, when possible, visit the place with Mr. Bennett, and see if anything required to be done.

Roads.—J.R., B.C., 19/5/84.

Mr. Bennett's minute:—The Minister inspected, and ordered wires to be put in to prevent children falling through.—W.C.B., 30/5/84. Under Secretary, B.C.—P.W.O., 2/6/84. Submitted for approval.—J.R., 4/6/84. Approved.

LEGISLATIVE ASSEMBLY.
NEW SOUTH WALES.

NORTH SHORE STEAM FERRY SERVICE.

(PETITION IN FAVOUR OF GOVERNMENT SCHEME—MAYOR OF ST. LEONARDS.)

Received by the Legislative Assembly, 24 April, 1884.

To the Honorable the Speaker and the Legislative Assembly of New South Wales, in Parliament assembled.

The Petition of residents of the North Shore, in Public Meeting assembled,—

HUMBLY SHOWETH:—

That your Petitioners, relying upon the fact that your Honorable House having considered the question of transit by steam ferries between Circular Quay and the North Shore, and having voted £40,000 (forty thousand pounds) for carrying out such means of transit, was sufficient guarantee that the wants under which your Petitioners suffer would be alleviated, and they therefore desire to explain to your Honorable House that on the question being again submitted on a motion made by a private Member they deemed the question was so far settled as to render action on their part unnecessary.

That the growth and importance of the suburb of St. Leonards of late years has not been kept pace with by the private Company now running passenger and transit boats between the points named, and that your Petitioners have to suffer from inadequate provision made for meeting so enormous a traffic.

That they are of opinion that the proposals of the Government for the establishment of a service for carrying over passengers and wheel traffic will considerably relieve the wants of your Petitioners, and that capital so expended will return to the State a fair interest, besides bringing into operation a large area for the natural growth of the city and suburbs.

Your Petitioners therefore humbly pray that your Honorable House will take into consideration the advisability of rescinding the resolution of the House which debar the Government from expending the sum of forty thousand pounds in the establishment of the ferry service described, so that the original vote may be expended as previously agreed to by your Honorable House.

And your Petitioners, as in duty bound, will ever pray.

A. B. ARMSTRONG,
Mayor of St. Leonards, and Chairman of Public Meeting
held at School of Arts, St. Leonards, on 17th March, 1884.
