Cooper Scholarship, No. II, for Classics—E. M. Mitchell, G. W. Waddell, *æq.*Barker Scholarship, No. II, and Horner Exhibition for Mathematics—D. G. Stewart and T. P. Strickland *æq.* (The Scholarship was awarded to D. G. Stewart, T. P. Strickland being the holder of two other Scholarships.)

Lithgow Scholarship for Modern Languages—T. P. Strickland.

Freemason's Scholarship—T. P. Strickland.

## (b) Awarded at the First Year Examination in Arts.

Cooper Scholarship, No. III, for Classics—N. de H. Rowland.

George Allen Scholarship for Mathematics—W. F. J. Burfitt.

Levey Scholarship for Chemistry and Physics—J. P. Wood.

## (b) Awarded at the Second Year Examination in Arts.

Cooper Scholarship, No. I, for Classics—A. H. Garnsey.

Barker Scholarship, No. I, for Mathematics—A. B. Davies.

## (c) Awarded at the B.A. Examination.

John Frazer Scholarship for History—G. C. Henderson.

## (d) Awarded at the Intermediate Examination in the Faculty of Law.

Wigram Allen Scholarship for general proficiency—J. B. Holme.

## (e) Awarded at the First Year Examination in the Faculty of Medicine.

Renwick Scholarship for general proficiency—G. P. Dixon.

## (f) Awarded at the Second Professional Examination in the Faculty of Medicine.

John Harris Scholarship for general proficiency—R. G. Craig.

## (g) Awarded at the Second Year Examination in the Faculty of Science.

Deas-Thomson Scholarship for Geology—J. A. Watt, M. A.

## (h) Third Year in the Faculty of Science.

Deas-Thomson Scholarship for Chemistry and Physics (Special award), J. H. D. Brearley.

## (j) Awarded at the First Year Examination in the Department of Engineering.

Levey Scholarship for Chemistry and Physics—J. P. Wood.

(k) Scholarship given by Her Majesty's Commissioners of the Exhibition of 1851 to a graduate distinguished in Science, for the prosecution of study and research in any branch of Science, with a view of developing the manufactures and industries of his country—Awarded to W. H. Ledger, B.A., who has elected to study Engineering at Cornell University, Ithaca, N.Y., U.S.A.

## 11. The following awards were made for Prize Compositions:—

Wentworth Medal for graduates for an English Essay—subject: "In all other departments of human activity there is progressive development, but not in Poetry and the Fine Arts."—J. H. Smairl, B.A., *prox. acc.* F. V. Pratt, B.A.

University Prize for English Verse—subject: "Siberia."—John Le Gay Breerton.

## 12. The following students were placed in the first class in honors at the annual examinations, other than the final examinations for degrees:—

*Faculty of Arts.*

First Year Examination—Latin—E. C. Hall, D. J. Nelson, and Eleanor M. Whitfeld, *æq.*; N. de H. Rowland, D. St. C. Hunt. Greek—E. C. Hall, N. de H. Rowland. French—D. J. Nelson, Eleanor M. Whitfeld. Mathematics—W. F. J. Burfitt, E. S. Simpson (engineering), E. C. Hall.

Second Year Examination—Latin—C. N. Mell, A. H. Garnsey, D. S. Edwards. Greek—A. H. Garnsey, D. S. Edwards. English—J. Le G. Brereton, J. K. Byrne. History—E. Dash, D. Cowan, J. Finney. French—J. Stonham. German—C. N. Mell. Mathematics—A. B. Davies, E. C. Andrews. Geology—J. A. Watt (science), E. C. Andrews.

*Faculty of Medicine.*

First Year Examination—Inorganic Chemistry—G. P. Dixon.

Second Year Examination—Organic Chemistry—J. C. Halliday.

*Department of Engineering.*

First Year Examination—Mining School Department—Chemistry—E. S. Simpson. Civil Engineering—Chemistry—J. P. Wood. Physics—J. P. Wood, W. J. Doak. Applied Mechanics—W. J. Doak, E. S. Simpson. Geometrical and Mechanical Engineering—R. F. Arnott.

Second Year Examination—Surveying and Drawing—H. P. Seale, N. F. White.

## 13. Special Annual Prizes were awarded as follows:—

Smith Prize for Physics—Eleanor M. Whitfeld. University Prize for Physiography—Eleanor M. Whitfeld and A. Thompson, *æq.* Professor MacCallum's Prizes for English Essays—First Year, Russell Kidd and Eleanor M. Whitfeld, *æq.*; Second Year, John Le Gay Brereton; Third Year, Annie A. Kennedy. Norbert Quirk Prize for Mathematics (Second Year)—A. B. Davies. Professor Anderson's Prizes for Logic and Mental Philosophy—Second Year, D. Cowan; Third Year, G. C. Henderson. Professor David's Prize for Geology (Second Year)—E. C. Andrews. Professor Haswell's Prize for Botany—J. Macpherson. Professor Haswell's Prize for Zoology—G. P. Dixon. Professor Wilson's Prize for General and Descriptive Anatomy (junior)—G. P. Dixon. Professor Wilson's Prize for Regional and Surgical Anatomy—R. G. Craig. Dr. Wilkinson's Prize for Pathology—R. G. Craig. Slade Prize for Chemistry (Class Examination)—E. S. Simpson. Slade Prize for Practical Chemistry—J. T. Dixon. Smith Prize for Physics—W. J. Doak.

14. The following Bursaries, each consisting of a payment to the student of £50 per annum, or in the case of a half-bursary, of £25 per annum for three years, together with exemption from the payment of lecture fees in non-professional schools, were awarded:—

Maurice Alexander Bursary.  
 Levey and Alexander Bursary.  
 John Ewan Frazer Bursary.  
 William Charles Wentworth Bursary, No. 2.  
 Burdekin Bursary (one-half).  
 Hunter Baillie Bursary, No. 1 (one-half).  
 James Aitken Bursary.  
 Walker Bursary, No. 1.  
 Walker Bursary, No. 2.  
 Walker Bursary, No. 5 (one-half).  
 Struth Exhibition.

In addition to 17 State bursaries, and 27 holders of University bursaries, 16 students who had shown their inability to defray the expenses of University education, were permitted to attend lectures without the payment of fees. One hundred and twenty-one students of the State training schools for male and female teachers were also permitted to attend on a reduced scale, as arranged with the Minister of Public Instruction, and provided by Parliament.

15. The following courses of lectures, under the University extension scheme, were delivered during the year:—

Lent Term.—Croydon—Subject: "Work and Wages." Lecturer, Professor Scott, M.A.; number of students attending, 43; number who passed concluding examination, 4. Woollahra—Subject: "Physiography." Lecturer, Professor David, B.A.; number of students attending, 29; number who passed concluding examination, 1.

Trinity Term.—Y.M.C.A., Sydney—Subject: "Founders of the Roman Empire." Lecturer, Miss Macdonald, M.A.; number of students attending, 22; number who passed concluding examination, 2. Railway Institute, Sydney.—Subject: "Mineralogy." Lecturers, Professor David, and Mr. J. Macpherson, B.A.; number of students attending, 14; number who passed concluding examination, 3. Bourke.—Subject: "Victorian Literature." Lecturer, Mr. H. D. Roberts; number of students attending, 53; number who passed, 1. Brisbane—Subject: "Elements of Natural Science." Lecturer, Mr. W. A. Hargreaves; number of students attending, 140; number who passed concluding examination, 6. Brisbane—Subject: "Constitutional History." Lecturer, Mr. E. J. Sydes; number of students attending, 69; number who passed concluding examination, 1.

Michaelmas Term.—Bathurst—Subject: "Physiography of Australia." Lecturer, Mr. W. J. Clunies Ross, B.Sc.; number of students attending, 29; number who passed concluding examination, 7. Randwick—Subject: "Geology." Lecturer, Rev. J. Campbell, M.A.; number of students attending, 50; number who passed concluding examination, 7. Ipswich—Subject: "Elements of Natural Science." Lecturer, Mr. W. A. Hargreaves; number of students attending, 65; number who passed concluding examination, 4.

The numbers of lectures and of places for their delivery were much below what the Senate desired; but the very limited funds at its disposal for paid lecturers or for expenses did not permit of further extension.

16. The Senior and Junior Public Examinations were held in the month of September in Sydney, and at the following local centres:—Albury, Araluen, Armidale, Ballina, Bathurst, Bega, Bellingen, Bowral, Braidwood, Brisbane, Broken Hill, Bundanoon, Bungendore, Camden, Canowindra, Carcoar, Casino, Condobolin, Cooma, Deniliquin, Dubbo, Emmaville, Euston, Glen Innes, Goulburn, Grafton, Grenfell, Greta, Gunning, Hay, Hill End, Hillston, Hunter's Hill, Inverell, Ipswich, Junee, Katoomba, West Kempsey, Kiama, Kurrajong Heights, Lismore, Lithgow, West Maitland, Maryborough, Molong, Moruya, Mount Victoria, Mudgee, Murrumburrah, Newcastle, Nowra, Orange, Parramatta, Penrith, Picton, Plattsburg, Queanbeyan, Richmond, Rockhampton, Rylstone, Scone, Singleton, Sunny Corner, Tamworth, Temora, Tenterfield, Toowoomba, Townsville, Tumut, Ulmarra, Wagga Wagga, Warwick, Wattle Flat, Wellington, Windsor, Wingham, Wollongong, Yass, and Young.

For the Senior Examination 176 candidates presented themselves, and 127 passed. For the Junior Examination 1,853 candidates presented themselves, and 920 passed. The requirement for a pass in the Junior Examination was raised from three subjects as in previous years to four, the subjects being not all in the same group.

17. The prizes for General Proficiency in these Examinations were awarded as follows:—

*Seniors.*

John West Medal and Graham Prize Medal, for General Proficiency—

Hubert Edwin Whitfeld, Sydney Grammar School.

University Prize of £20, for General Proficiency amongst male candidates—

Hubert Edwin Whitfeld, Sydney Grammar School.

John Fairfax Prize of £20, for General Proficiency amongst female candidates—

Olive Crouch, Brisbane Girl's Grammar School.

*Juniors.*

University Prize of £10, for General Proficiency amongst male candidates—

Richard Clive Teece, Sydney Grammar School.

Fairfax Prize of £10, for General Proficiency amongst female candidates—

Elizabeth Jane Read, Girl's Public High School, Sydney.

A complete analysis of the Examinations will be found in the "Manual of Public Examinations," which accompanies this report.

18. Four examinations of candidates for the Civil Service were held during the year. At these 190 candidates presented themselves, and 45 were successful.

19. Three Law Examinations, similar and equal to that prescribed for Matriculation, for candidates for articles of clerkship with attorneys were held. At these 52 candidates presented themselves, and 32 were successful.

20. During the year the Senate held 21 regular meetings, 1 adjourned meeting, and 2 special meetings, in addition to two meetings of the Conjoint Board—consisting of the Senate of the University and the Board of Directors of the Prince Alfred Hospital—and the Annual Commemoration.

The attendances of the various Fellows at the meetings of the Senate were as follows:—

|  |    |
|--|----|
| Manning, the Hon. Sir William M., Chancellor ... ..          | 27 |
| Backhouse, His Honor Judge, M.A., Vice-Chancellor ... ..     | 27 |
| *Barton, the Hon. E., M.A., M.L.A. ... ..                    | 1  |
| Butler, Professor, B.A. ... ..                               | 14 |
| Cobbett, Professor, M.A., D.C.L. ... ..                      | 21 |
| *Faucett, the Hon. Peter, B.A. ... ..                        | 11 |
| Jones, P. Sydney, M.D. ... ..                                | 23 |
| Liversidge, Professor, M.A., F.R.S. ... ..                   | 20 |
| *MacLaurin, the Hon. H. N., M.A., M.D., LL.D., M.L.C. ... .. | 7  |
| Manning, the Hon. C. J., M.A. ... ..                         | 8  |
| *†O'Connor, the Hon. R. E., M.A., M.L.C. ... ..              | 3  |
| *Oliver, Alexander, M.A. ... ..                              | 1  |
| *Renwick, the Hon. A., B.A., M.D., M.L.C. ... ..             | 0  |
| Rogers, F. E., M.A., LL.B., Q.C. ... ..                      | 14 |
| Russell, H. C., B.A., F.R.S., C.M.G. ... ..                  | 23 |
| Scott, Professor, M.A. ... ..                                | 20 |
| Stephen, C. B., M.A., ... ..                                 | 15 |
| Stuart, Professor Anderson, M.A. ... ..                      | 27 |
| *Teece, Richard, F.I.A. ... ..                               | 4  |
| Windeyer, the Hon. Sir William, M.A., LL.D. ... ..           | 13 |

\* Absent on leave.

† Re-elected February 4, 1893.

Twenty-three meetings of Sub-committees of the Senate for Finance, By-laws, &c., were held during the year, the attendance of members being as follows:—The Chancellor 21, the Vice-Chancellor 21, Mr. R. Teece 1, Mr. H. C. Russell 5, Mr. Justice Manning 2, Professor Liversidge 2, Professor Stuart 2.

21. In the month of February the Hon. Richard Edward O'Connor, M.A., M.L.C., was re-elected a Fellow of the Senate, his seat having lapsed in the latter part of the year 1892 through his absence from the meetings on account of his official duties as a Minister of the Crown.

22. The triennial election to the office of Chancellor took place in the month of May, and resulted in the unanimous re-election of the Hon. Sir William Montagu Manning, K.C.M.G., LL.D. This is the sixth term of three years for which Sir William M. Manning has been elected to the office of Chancellor, his first election to the office having been made in 1878.

23. The annual election to the office of Vice-Chancellor, held in the month of April, resulted in the reappointment of His Honor Judge Backhouse, M.A.

24. Leave of absence from the meetings of the Senate was granted as follows:—

To the Hon. Edmund Barton, M.A., for different periods, amounting altogether to three months, in consequence of his official duties as a Minister of the Crown, and his absence from the colony during a visit to Canada.

To Mr. Alexander Oliver, President of the Land Court, for different periods, amounting altogether to six months, in consequence of his absence from Sydney on official duties.

To the Hon. Dr. Renwick for a further period of six months, in consequence of his continued absence from the Colony as Commissioner of the New South Wales Commission for the Chicago Exposition.

To Mr. Richard Teece, F.I.A., for a period of six months, in consequence of his absence from the Colony on a visit to America and Great Britain.

25. During Lent Term, in consequence of the severe illness of Mr. A. W. Jose, who had been appointed to deliver the ordinary courses of lectures upon English during the absence, on leave, of Professor MacCallum, Mr. A. B. Piddington, B.A., Evening Lecturer in English, was appointed to act in his place.

26. In the month of February a communication was received from the Agent-General for New South Wales notifying the appointment of Mr. W. F. Smeeth, M.A., B.E., F.G.S., A.R.S.M., to the office of Demonstrator in Geology. The appointment was made by the Agent-General and Professor Judd of the Royal College of Science, South Kensington, under the authority of the Senate. Mr. Smeeth entered upon his duties in the month of March.

27. Leave of absence from his duties for a period of six months, was granted to Mr. R. Scot Skirving, M.B., Ch.M., Lecturer on Clinical Medicine, to enable him to visit Europe. During his absence his duties were performed by Mr. James Graham, M.D., Ch.M.

28. In the month of February Mr. Robert Dick, M.B., Ch.M., was appointed to the office of Demonstrator in Anatomy, in the room of Mr. John Morton, M.B., Ch.M., who vacated the office.

29. In the month of May, Mr. S. T. Knaggs, M.D., resigned the office of Lecturer in Clinical Surgery. The vacancy was filled by the subsequent appointment of Mr. G. E. Twynam, M.R.C.S., and Mr. G. T. Hankins, M.R.C.S., to act jointly as Lecturers in that subject.

30. In consequence of the illness of Mr. E. M. Moors, M.A., Assistant Lecturer in Mathematics, Mr. A. Newbery, M.A., and Mr. G. Fleuri, B.Sc., were appointed to Lecture on Mathematics during the latter part of Michaelmas Term.

31. In the month of March, Mr. L. F. M. Armstrong, B.A., LL.B., was re-elected to the office of Curator of the Nicholson Museum for a period of one year. Mr. Armstrong has undertaken to perform the duties of the office during the year 1894 without emolument.

32. A valuable addition to the Nicholson collection of Egyptian antiquities has been made by the purchase of a number of casts of objects of great interest in the British Museum and the Museum of the Egyptian Government at Gizeh. These objects were selected by Sir Charles Nicholson and Dr. Budge of the British Museum, and they will no doubt prove of great interest to students of Egyptology.

33. At the Annual Commemoration, which was held on the 8th of April, a statue of the late John Henry Challis, Esq., executed in Sicilian marble by Signor Simonetti, was unveiled by Lady Manning. The statue of the University's great benefactor stands in the Great Hall opposite to that of its founder, William Charles Wentworth.

34. On several occasions the Professor of Physics has brought under the notice of the Senate the necessity for enlarged accommodation in his Department, inasmuch as the numbers of students in Theoretical and Practical Physics have already outgrown the lecture room and laboratory accommodation provided in the building which was erected in 1887; but the Senate having no funds at its disposal has been unable to accede to the Professor's demand. It is, however, certain that in the near future additional accommodation will require to be provided for this Department as well as for the Department of Biology, which up to the present has been located in buildings of a temporary character.

35. School of Mines.—Progress has been made with the new building for the School of Mines, for which a sufficient provision has been made by the Government out of the unexpended vote of £10,000 under the Department of Mines for the establishment of a School of Mines. The curriculum of study in this Department is now in a complete condition through the provisions made by the Senate from the Challis Fund for a Lecturer in Metallurgy and Demonstrator in Assaying, and a Demonstrator in Geology and Petrology, and from the Fee Fund for a Lecturer in Mining, at a total cost of £950 per annum. The appointment of these officers was necessary to supplement the instruction already given in the University in the Departments of Chemistry, Physics, Geology, Mineralogy, Engineering, Mathematics, in order to provide a full curriculum in Mining. Several students had been attending the lectures in the preliminary part of the course with a view of completing the curriculum immediately upon the establishment of these additional lectureships, and several more have commenced their studies in this Department. Arrangements have been made with the Government under which students who have attended lectures and passed the examinations in the Technical College in the subjects of the Mining curriculum, may be allowed credit for such lectures or examinations or portions of them as are considered equivalent to the corresponding portions of the University courses, and applications have already been received from students who desire to take advantage of this concession.

36. The term of appointment of the Hon. Sir William Windeyer and Mr. C. B. Stephen, M.A., as *ex-officio* members of the Women's College Council, having expired, those gentlemen were reappointed by the Senate in the month of July for a further period of two years.

37. The By-law constituting the University Extension Board has been amended in such a way as to provide for its enlargement from time to time up to a fixed limit, with a view of giving powers to the Board to include in its members any person who may show himself specially interested in the work of University Extension, and who may be likely to assist in its deliberation. No change is proposed in the status of the Board as far as it at present consists of four members of the Senate, four members of the Teaching Staff, and four others who may or may not be members of the University, but the Board may nominate other persons for appointment as members up to the number of six.

The following twelve members were elected for the year 1893–1894 at the Senate's meeting in December:—

Members of the Senate—

The Vice-Chancellor (His Honor Judge Backhouse, M.A.).

Dr. P. Sydney Jones.

Mr. R. Teece, F.I.A.

The Hon. Sir William Windeyer, M.A., LL.D.

Members of the Teaching Staff—

Professor Anderson, M.A.

Professor David, B.A.

Professor Scott, M.A.

Professor Wood, B.A.

Unofficial Members—

Mr. G. Boyce Allen, B.A.

Mr. Goodere.

Dr. W. P. Cullen, M.A.

Mr. A. W. Jose.

The Senate has also appointed Mr. A. W. Jose to act as Secretary of the Board for the year 1894, and to deliver three courses of University Extension Lectures during the year.

It is anticipated that under the organisation of a permanent Secretary who will visit different parts of the Colony, and certain new regulations under which the courses of lectures will be made partially self-supporting, the operations of the Board will be considerably extended, but it is a matter for regret that the Senate is unable to devote to the purposes of University Extension only a small portion of the Evening Lectures Vote, which is almost wholly required for the purposes of the ordinary Evening Lectures.

38. In the latter end of April last, the Senate of the University learnt to its great regret that in consequence of the condition of the public finances of the Colony and the necessity for reducing the public expenditure, certain Parliamentary votes hitherto made for the general endowment of the University would be reduced, and that the accustomed special appropriations for apparatus would be withdrawn, and accordingly the appropriations by Parliament for 1893 were reduced by £900 per annum on the endowment and the whole provisions for apparatus. The withdrawal of the sum of £900 from the general endowment for the year caused great inconvenience, but the Senate made immediate retrenchments so as to bring the expenditure of the University as nearly as possible within its income for the year. The withdrawal was especially inconvenient by reason of the Senate having immediately before created additional appointments to the extent of £950 per annum, without reference to the Government, for Mineralogy, Metallurgy, and Mining, in order to complete the curriculum in the School of Mines. The withdrawal of the votes for scientific apparatus has considerably crippled the Scientific Departments of the University, which had to be temporarily and insufficiently maintained during the year by means of a comparatively small allowance from the University funds.

39. The Senate was also informed in April, 1893, that a further amount would be withdrawn from the additional endowment for 1894, and it has directed its attention to the ways in which much further reduction, if made by Parliament, could be met with as little diminution of the University's efficiency as might be possible.

40. At the request of the Department of Public Instruction of Queensland, the University undertook the conduct of the Annual Examinations for Exhibitions to Universities granted by the Government of that Colony, and also an Examination of Teachers of the highest class in the State schools of the Colony.

41. The University also conducted, in the month of December, at the request of Major-General Hutton, an Examination of Candidates for Military Cadetships in the Colony. The question of providing a complete curriculum of instruction in the Colony for Military Cadets has been treated in correspondence between Major-General Hutton and the University; and the Senate has expressed its readiness to contribute to the scheme to the utmost of its ability as regards the subjects already taught in the University.

42. In the month of October, a communication was received from the Rev. J. E. Moulton, the President of the Wesleyan Conference, in reference to the previous correspondence which had taken place upon the subject of the proposed establishment on the University grounds of an Affiliated College connected with the Wesleyan Methodist body, stating that on account of the financial depression the Conference had been unable to obtain the anticipated donations for the erection of the proposed College, and requesting the Senate to extend its offer of a site on the University Grounds for a further period of two years, on the understanding that all the necessary conditions for the establishment of an Affiliated College be complied with within that time. This request, after due consideration, was acceded to by the Senate.

43. In consequence of representations which have been made to it, the Senate has determined that from and after the year 1895, the Junior Public Examination, which has hitherto been held concurrently with the Senior Public Examination in the month of September, shall be held in the month of June, and the Senior Public Examination in the month of November. The latter examination will be amalgamated with that which has hitherto been held in March for the award of scholarships and honors at the Matriculation Examination. Some objections having been raised to the holding of examinations in June, on the score of cold, the Senate passed a special resolution instructing the Board for conducting the Public Examinations to take all possible precautions to provide against inconvenience from that source.

44. In response to an application made by the Senate in the year 1892, the authorities of the Royal College of Physicians and the Royal College of Surgeons of England have decided to place graduates of the University of Sydney upon the same footing as graduates of the Universities of the United Kingdom in regard to admission to the final examinations for the L.R.C.P. and M.R.C.S. of the respective Colleges.

45. The following resolution was adopted by the Senate in the month of October:—"That all students of the University who shall during their course have received Bursaries, Exhibitions, Scholarships, or Fellowships, and Exemptions from Fees, be invited to make returns to the University when their circumstances in life shall permit, for the purpose of conferring like benefits on future students, and that the names of students who make such return be published in the University calendar."

46. The amendments and additions to the University By-laws made during the year, will be found in an Appendix to this Report.

47. The Committee of Management of the Macleay Museum report that the catalogues of the Reptiles, Fishes, and Crustaceans have been completed, and that the Entomological collection, comprising nearly 2,000,000 of specimens of all orders, have been rearranged. The catalogues and collections are open for the use of students of Natural History and members of the Linnæan Society.

48. A new Testing Machine, the cost of which was provided by special Parliamentary vote for Apparatus and Fittings for the new Engineering Laboratory, has been built for the University by Messrs. Joshua Buckton and Co., of Leeds, in accordance with the specifications of Professor Warren, under the superintendence of Professor Kennedy, lately Professor of Engineering in the University College, London. It has now arrived in the Colony, and is being set up in the Engineering Buildings.

49. A revised catalogue of the books in the University Library was completed and issued during the year. The Library now contains about 38,000 volumes, the number having been almost doubled in the past ten years; chiefly by means of grants for the purchase of books from the interest of the Fisher Fund, in addition to numerous donations. Additional accommodation is urgently required in this department both for books and for readers.

50. The following benefactions were received during the year :—

- (a) A large number of valuable books on Natural History from the late Dr. George Bennett.
- (b) Her Majesty's Commissioners for the Exhibition of 1851 placed at the disposal of the Senate the nomination to a Scholarship of £150 per annum for two years. The Scholarship was to be awarded to a student of three years standing in the Faculty of Science, to enable him to prosecute his studies and research as with a view of developing the industries and manufactures of his own country. It was awarded to Mr. W. H. Ledger, Bachelor of Engineering (medallist), who has proceeded to Cornell University to continue his studies in Engineering.
- (c) A valuable collection of books, consisting of sets of Magazines and Reviews from Mr. George Boyce Allen, B.A.
- (d) By the death of Mrs. Dalton, widow of the late Edwin Dalton, Esq., of Sydney, a bequest of about £8,000 has fallen in to the University, for the foundation of Scholarships in memory of the late Rev. Dr. Woolley, and in the departments of study which he specially favoured. The estate, which is subject to an annuity of £75, is at present held in England, but arrangements have been made for its transfer to the University, Sir Saul Samuel and Mr. G. P. Slade having been appointed to act as attorneys for the University in receiving the estate and carrying out all necessary transactions for its transfer and realisation when necessary.
- (e) Professor Scott has promised to the University to surrender a sum of £200 out of his emoluments towards meeting the deficiency in the University's finances for the year 1894, which is expected to be caused by the further withdrawal of Government endowment.
- (f) A donation from the Imperial Government of 213 volumes of Public Records of great value in the Department of History.

51. The annual statements of receipts and expenditure, duly certified by the Auditor, Mr. J. C. Dibbs, and also a statement showing the conditions of the various foundations of the University at the 31st of December, are appended to this report.

H. E. BARFF,  
Registrar.

## APPENDIX 1.

(NEW AND AMENDED BY-LAWS.)

New and Amended By-laws adopted by the Senate at meetings held on the 1st and 15th May, 1893.

*To stand in lieu of section 8, chapter II.*

8. If any Fellow shall, without leave from the Senate, be absent from the aforesaid meetings for six consecutive calendar months, his Fellowship shall, *ipso facto*, become vacant; provided that, in computing the said six consecutive months, the month of January shall not be taken into account.

*To stand in lieu of section 2, chapter IX.*

2. The Chairman of the Professorial Board shall be elected at its first meeting in each year, such election to be by ballot, if required by any member. The Chairman of every other Board shall be the Dean of the Faculty with which it is connected.

*To stand in lieu of section 3, chapter IX.*

3. Every meeting of any Board or Faculty shall be convened by written notice from the Registrar, by direction of, and on a day named by, the Chancellor, Vice-Chancellor, or Chairman; and on the requisition of any two members addressed to the Registrar, a meeting shall be convened in like manner. At any meeting of the Professorial Board five shall form a quorum, and at any other meeting three shall form a quorum, unless otherwise provided. In case of an equality of votes, that of the presiding Chairman included, such Chairman shall have a casting vote.

*To stand in lieu of section 5, chapter XI.*

5. Each Professor and Lecturer shall keep a daily record or class roll of the lectures delivered by him, showing the number and names of the students present at each lecture. These class rolls shall be laid on the Table at the end of each Term.

*To stand in lieu of section 5, chapter XII.*

5. Undergraduates who have passed the yearly examinations may, at the discretion of the Dean, and upon application, receive certificates to that effect, signed by the Dean of the Faculty in which they are pursuing their studies, and by the Registrar.

*To stand in lieu of section 2, chapter XIV.*

2. No Scholarship shall be awarded except to such candidates as exhibit a degree of proficiency which shall be satisfactory to the Examiners. Scholars shall be required to proceed with their studies in the respective Faculties in which their Scholarships are awarded.

*To stand in lieu of section 5, chapter XVII.*

5. At least three written class examinations shall be held during each long course of instruction, and at least two such examinations during each short course. Students shall not absent themselves from these examinations except upon a medical certificate, and at the end of each course a report of the result, signed by the responsible teacher, shall be presented to the Senate by the Dean. Students who fail to pass the class examinations may, at the discretion of the Board of Examiners, be refused admission to the annual examination.

*To stand in lieu of section 7, chapter XVII.*

7. Candidates for a Degree in Medicine shall, before admission to the Medical School, produce evidence of having graduated in Arts or in Science, or of having attended the lectures of the First Year of the Arts Course, and passed the First Year Examination in Arts, or of having passed the Senior Public Examination, or an examination equivalent to the Senior Public Examination in the following subjects, viz.:—Latin, one of the three languages—Greek, French, German—and in three of the sections in group III of the subjects for which senior candidates may enter, viz., Arithmetic, Algebra, Geometry, Trigonometry, Elementary Surveying and Astronomy, Mechanics, Applied Mechanics.

*To stand in lieu of section 12, chapter XVIII.*

12. The annual examinations shall be conducted, in the first instance, by means of printed papers, practical exercises, and reference to specimens when necessary, and at the termination of such examinations each candidate shall undergo a *viva voce* examination, if the examiners think fit. At least one written Class Examination shall be held during each term of the first two years, except in the Mathematical subjects. Students shall not absent themselves from these examinations except upon a medical certificate. Students who fail to pass the Class Examinations may, at the discretion of the Board of Examiners, be refused admission to the annual examination.

*To stand in lieu of section 18, chapter XVIII.*

18. Candidates for the Degree of Bachelor of Engineering must produce evidence of having graduated in Arts or in Science, or of having attended the lectures of the First Year of the Arts Course, and passed the First Year Examination in Arts, or of having passed the Senior Public Examination, or an examination equivalent to the Senior Public Examination, in the following subjects, viz.:—Latin, one of the three languages—Greek, French, German—and in four of the sections in Group III of the subjects for which senior candidates may enter, viz., Arithmetic, Algebra, Geometry, Trigonometry, Elementary Surveying and Astronomy, Mechanics, Applied Mechanics, and shall during the first year attend the courses of instruction upon and pass the examinations in the following subjects:—

1. Chemistry, Inorganic (with two terms laboratory practice).
2. Descriptive Geometry and Drawing.
3. Mathematics.
4. Applied Mechanics (with laboratory practice).
5. Physics (with one term's laboratory practice).
6. Physical Geography and Geology.

Provided the students shall only be required to attend the lectures upon, and to pass the annual examination in, such portions of the Mathematical course of the first year as they have not already passed at the above-mentioned examinations. Provided also that students of the Technical Branch of the Department of Public Instruction, whose certificates of attendance and examination in that branch are accepted by the Senate as an equivalent to a portion of the curriculum prescribed for candidates for the degree of Bachelor of Mining Engineering, shall be considered to have passed the Entrance Examination if they satisfy the Examiners in the following subjects, viz.:—In two of the four languages—Latin, Greek, French, German—and in four of the sections in Group III of the subjects for which senior candidates may enter, viz., Arithmetic, Algebra, Geometry, Trigonometry, Elementary Surveying and Astronomy, Mechanics, Applied Mechanics.

*To stand in lieu of section 7, chapter XXIII.*

7. The Professors and Assistant Professors not engaged in tuition except publicly within the University, together with such other persons as the Senate may from time to time appoint, shall form a Board for conducting the Public Examinations, and of this Board the Chairman shall be elected at its first meeting in the year.

*To stand in lieu of section 1, chapter II.*

1. The Senate shall meet on the first Monday in every month, or on the nearest convenient day should such first Monday be a public holiday, and may adjourn from time to time to conclude any unfinished business.

*To stand in lieu of section 3, chapter IX.*

3. For these purposes the Professorial Board shall make such rules as it may think fit, provided that these rules be not repugnant to any existing by-law; and shall have power to impose any penalties in accordance with Academic usage on any student for breach of such rules, or misconduct of any kind. All public teachers in the University shall be authorised to inflict a fine for breach of discipline not exceeding £2, provided that every public teacher who inflicts any such fine shall immediately report the circumstances in writing to the Professorial Board.

*To stand in lieu of section 3, chapter XII.*

3. Students who fail to pass or neglect to attend their annual examinations in any subject or subjects, may be required by their respective Faculties, upon the report of the Examiners, to attend again the lectures on such subject or subjects before again presenting themselves for examination.

*Chapter XII, section 8, to be repealed.**To stand in lieu of section 22, chapter XV.*

22. The candidate for honours who shall have most distinguished himself at the B.A. Examination in Classics, Mathematics, or Logic and Mental Philosophy, shall, if he possess sufficient merit, receive a bronze medal.

*To stand in lieu of section 26, chapter XV.*

26. Candidates for the Degree of M.A. shall elect to be examined in one or more of the following branches of knowledge:—

1. Classical Philology and History.
2. Mathematics and Natural Philosophy.
3. Logic, Moral, Mental, and Political Philosophy.
4. Modern Literature and Language.
5. Modern History.

The Candidate most distinguished in each Branch at the examination shall, if he possess sufficient merit, receive a bronze medal.

*To stand in lieu of section 16, chapter XVI.*

16. The Candidates who distinguish themselves most highly at the Degree Examinations respectively shall, if of sufficient merit, receive a bronze medal.

*To stand in lieu of section 7, chapter XVI.*

7. Students who have not acquitted themselves satisfactorily in such Class Examinations or Exercises (including attendance at Court) as may be prescribed by the Faculty of Law, may be refused admission to these Examinations.

*To stand in lieu of section 8, chapter XVII.*

8. Candidates for the Degrees of Bachelor of Medicine and Master of Surgery shall attend the following courses of instruction, and present the following certificates:—

- I. In the First Year—Inorganic Chemistry and Practical Chemistry. Physics and Practical Physics. Biology and Practical Biology.
- II. In the Second Year—  
During Lent and Trinity Terms—Descriptive Anatomy (Junior Course). Physiology (Junior Course).  
During Trinity and Michaelmas Terms—Practical Physiology (Histology and Experimental Physiology).  
During Michaelmas Term—Organic Chemistry. Descriptive Anatomy (Senior Course).
- III. In the Third Year—  
During Lent Term—Practical Physiology (Physiological Practical Chemistry).  
During Lent and Trinity Terms—Materia Medica and Therapeutics. Regional Anatomy.  
During Michaelmas Term—Physiology (Senior Course).
- IV. In the Fourth Year—  
During Lent and Trinity Terms—Pathology. Surgery. Operative Surgery and Surgical Anatomy—a course of twenty-five (25) hours' instruction. Clinical Surgery. Tutorial Surgery.  
During Michaelmas Term—Medical Jurisprudence and Public Health. Practical Pathology. Clinical Surgery. Tutorial Medicine.
- V. In the Fifth Year—  
During Lent and Trinity Terms—Medicine. Midwifery and Gynæcology.  
During Michaelmas Term—Applied Logic. Psychological Medicine, including Clinical instruction, and at least twelve systematic lectures. Ophthalmic Medicine and Surgery, including Clinical instruction, and at least twelve systematic lectures.

Provided that the Courses of Instruction in Medical Jurisprudence, Public Health, Ophthalmic Medicine and Surgery, and Psychological Medicine may be taken by the student in either the fourth or fifth year of study, as may from time to time be provided by the teaching regulations of the University.

Before admission to the Final Examination, candidates shall also be required to present the following certificates at least ten clear days before the date of the examination:—

1. Of Hospital Practice during the Fourth and Fifth years.
2. Of attendance on Practical Pharmacy, or a certificate showing that the student has been engaged for at least three months, by apprenticeship or otherwise, in compounding and dispensing drugs in the laboratory of a hospital or dispensary, or of a Licentiate of the London or Dublin Society of Apothecaries or Pharmaceutical Chemist approved by the Faculty of Medicine.
3. Of having acted during at last three months as a Dresser in the Out-patients' Department, during at least six months as a Dresser in the Surgical Wards, and during at least six months as a Clinical Clerk in the Medical Wards of a recognised hospital.
4. Of attendance on Post-mortem Examinations during at least one Term during the Fourth or Fifth Year of the curriculum.
5. Of attendance on at least twelve cases of Practical Midwifery.
6. Of proficiency in Vaccination, signed by a legally qualified Medical Practitioner.
7. Of proficiency in the administration of Anæsthetics.

*To stand in lieu of section 9, chapter XVII.*

9. For the Degrees of Bachelor of Medicine and Master of Surgery, there shall be five examinations, viz., one at the end of each year of study :—

The examination at the end of the First Year shall include Inorganic Chemistry, Physics, Biology.

The examination at the end of the Second Year shall include Organic Chemistry, and an Intermediate Examination in Anatomy and Physiology.

The examination at the end of the Third Year shall include the entire subjects of Anatomy, Physiology, and *Materia Medica* and Therapeutics.

Before admission to the Third Examination, candidates shall be required to present certificates of having dissected during at least six Terms, and of having completed the dissection of every part of the body at least once.

The examination at the end of the Fourth Year shall include Pathology, Medical Jurisprudence and Public Health, and Operative Surgery and Surgical Anatomy.

The examination at the end of the Fifth Year shall include Medicine, Clinical Medicine, Surgery, Clinical Surgery, Midwifery, Psychological Medicine, Ophthalmic Medicine and Surgery, and Applied Logic.

Provided that the examinations in Medical Jurisprudence and Public Health, and Ophthalmic Medicine and Surgery, shall form a part of either the Fourth Year or the Fifth Year Examination, according as the student has attended the course in any of those subjects in his Fourth or Fifth Year of study.

*To stand in lieu of section 13, chapter XVII.*

13. Honors at graduation shall depend upon the proficiency shown in the examinations, in accordance with regulations adopted by the Senate from time to time, and the candidate who shall have been most distinguished shall receive a bronze medal, provided that he shall have obtained First Class Honors.

*To stand in lieu of section 19, chapter XVII.*

19. The candidate who shall at this examination most distinguish himself shall, if of sufficient merit, receive a bronze medal.

*To stand in lieu of section 8, chapter XVIII.*

8. The candidate who shall at this examination most distinguish himself shall, if of sufficient merit, receive a bronze medal.

*To stand in lieu of section 16, chapter XVIII.*

16. The candidate who shall at this examination most distinguish himself shall, if of sufficient merit, receive a bronze medal.

*To stand in lieu of section 20, chapter XVIII.*

20. Candidates for the Degree of Bachelor of Engineering in Civil and Mechanical Engineering shall, during the Third Year, attend the courses of instruction upon, and pass the examinations in, the following subjects :—

1. Drawing and Design.
2. Materials and Structures (with Laboratory practice).
3. Mathematics.
4. Surveying.

And one of the following :—

- A. Civil Engineering and Architecture.
- B. Mechanical Engineering and Machine Construction.

Every candidate is required to prepare and submit to the Board of Examiners an original set of working drawings and specifications for machinery or works.

Provided that the course of lectures and examination in the subject of Architecture may be taken either in the Second Year or in the Third Year, as may from time to time be provided by the teaching regulations of the University.

*To stand in lieu of section 28, chapter XVIII.*

28. The candidate who shall most distinguish himself in the honor division of the third annual examination shall, if of sufficient merit, receive a bronze medal.

*To stand in lieu of section 36, chapter XVIII.*

36. The candidate who shall most distinguish himself in the examination for the degree of Master of Engineering shall, if of sufficient merit, receive a bronze medal.

*To stand in lieu of section 1, chapter XXVII.*

1. The general supervision of the financial affairs of the University shall, subject to the direction and control of the Senate, be entrusted to a Finance Committee, consisting of the Chancellor and four selected Fellows of the Senate, of which number three shall constitute a quorum.

Students proceeding to the Degree of B.Sc., who have passed the Second Year examination, and who have thereat been placed in the first class in honors in one subject, and in the first or second class in honors in another subject, may elect to attend lectures in practical work during their Third Year in one only of those subjects in which they have been so placed in the honors list, and if they obtain first or second class honors at the B.Sc. examination they shall be held to have passed that examination.

## APPENDIX 2.

RECEIPTS and EXPENDITURE on account of the University of Sydney for year ending 31st December, 1893.

## NEW SOUTH WALES.

## UNIVERSITY OF SYDNEY.

(NEW AND AMENDED BY-LAWS.)

Presented to Parliament, pursuant to Act 14 Vic. No. 31, sec. 21.

## UNIVERSITY OF SYDNEY.

NEW AND AMENDED BY-LAWS ADOPTED BY THE SENATE AT A MEETING HELD ON THE 5TH OF MARCH, 1894.

*To stand in lieu of Section 18 of Chapter XV (112).*

18. The fee for the Degree of B.A. shall be three pounds. No candidate shall be admitted to the Examination unless he have previously paid this fee to the Registrar. If a candidate fail to pass the examination, the fee shall not be returned to him. For any re-examination for the same Degree he shall pay a fee of two pounds.

*To stand in lieu of sub-section 3 of Section 8 of Chapter XVII (p. 118).*

3. In the Third Year:—

During Lent Term—

Practical Physiology (Physiological Practical Chemistry).

During Lent and Trinity Terms—

Materia Medica and Therapeutics (75 lectures).

Regional Anatomy.

During Michaelmas Term—

Physiology (Senior Course).

*To stand in lieu of sub-section v of Section 8 of Chapter XVII (p. 119).*

v. In the Fifth Year:—

During Lent and Trinity Terms—

Medicine.

Midwifery (50 lectures).

Gynæcology (25 lectures).

During Michaelmas Term—

Applied Logic.

Psychological Medicine, including Clinical instruction, and at least twelve systematic lectures.

Ophthalmic Medicine and Surgery, including Clinical instruction, and at least twelve systematic lectures.

*To stand in lieu of Section 11 of Chapter XVIII (p. 124).*

11. The fee for the Degree of B.Sc. shall be three pounds. No candidate shall be admitted to the Examination unless he have previously paid this fee to the Registrar. If a candidate fail to pass the examination, the fee shall not be returned to him. For any re-examination for the same Degree he shall pay a fee of two pounds.

*To stand in lieu of Section 1 of Chapter XXV (p. 134).*

## UNIVERSITY EXTENSION.

1. There shall be a Board consisting of not more than eighteen members, of whom four at least shall be members of the Senate, and four at least shall be members of the Teaching Staff, and not less than two shall be persons not being members of the Senate or of the Teaching Staff. The Board shall be appointed annually by the Senate at its monthly meeting in December, and shall be held to be duly constituted upon the appointment of twelve persons to be members thereof; and the Senate may fill vacancies and appoint additional members from time to time, if it shall think fit, during the year, but so that the total number of members of the Board shall not exceed eighteen at any time.

Membership of the Board shall continue from the time of appointment until the next annual appointment of the Board, when all memberships shall lapse, but all retiring members shall be eligible for re-election.

H. E. BARFF,  
Registrar.

(L.S.)

ALF. P. BACKHOUSE,  
Vice-Chancellor.

Laid before the Executive Council, on the 18th day of April, 1894.—ALEX. C. BUDGE, Clerk of the Council.

NEW SOUTH WALES.

**SYDNEY FREE PUBLIC LIBRARY.**

(REPORT FROM TRUSTEES FOR 1893.)

Presented to Parliament by Command.

The Trustees of the Free Public Library to The Minister of Public Instruction.

Sir,

Sydney, 14 March, 1894.

I have the honor to transmit to you the Report of the Trustees of the Free Public Library for 1893, being the Twenty-third Annual Report.

2. On 31st August Mr. Robert Cooper Walker, Principal Librarian and Secretary to the Board, retired under the provisions of the Civil Service Act of 1884, after having held office for twenty-four years, and at a meeting held on 13th September the following resolution, concurred in by every member of the Board, was passed:—"The Trustees of the Free Public Library desire to record their sense of the great loss sustained by the Institution through the retirement of Mr. Robert Cooper Walker from the office of Principal Librarian, held by him with great credit to himself for the last twenty-four years, during which period the Library has grown under his fostering care from comparative insignificance to the high position which it has attained. And they cordially wish him the prolonged enjoyment of the leisure which he has earned by his continuous and intelligent industry in the performance of the duties appertaining to his office." Mr. Henry Charles Lennox Anderson, M.A., having been appointed as Mr. Walker's successor, took charge of the Library on 1st September.

3. On 7th October Mr. Walker was gazetted as a Trustee of the Library.

4. On 30th November Mr. David Weir, Registrar for Country Libraries, retired under the provisions of the Civil Service Act of 1884, after thirteen years' faithful service. By rearrangement of the duties of some of the staff, with the view of retrenchment, a saving of £157 per annum has been effected.

5. During the year 4,143 volumes have been added to the general collection, raising the total number to 101,340. The number transferred, worn out, or lost, and deducted from the stock, was—Reference Library, 5; Lending Branch, 138. Details of the classification are given in Appendix A.

6. Appendix B shows the number of visits to have been 216,089, being an increase of 18,834 over the previous year. The Reference Library was open for 358 days, and the Lending Branch for 343, including Sundays.

7. The applications for boxes of books issued to Country Libraries and Schools of Art are steadily increasing, and it has therefore been found necessary to equip three new boxes, making a total of sixty-six now available for distribution. During the year, 136 boxes, containing 10,612 volumes, were thus lent to seventy-four Country Libraries. Full details are given in Appendix E.

8. In Appendix C will be found details of the classes of books borrowed from the Lending Branch, showing for each class—(a) the number of volumes available, (b) the number issued, (c) the daily average of volumes issued. The number of tickets issued was 5,310, against 5,202 for the previous year, and the number of volumes borrowed 75,869, against 70,649 for 1892.

9.

9. In Appendix D some figures are given to show to what extent and in what direction the public avail themselves of the resources of the Library on Sundays.

10. Appendix G contains a list of donations, comprising 1,061 volumes and pamphlets of the value of £230; ninety-six, of the value of £65, have also been received under the Copyright Act.

11. In consequence of the crowded state of the Reading Rooms it has been found advisable to remove all newspapers and illustrated periodicals from No. 2 Reading Room, and to fit up and set apart the Northern Gallery of the Lending Branch as a Newspaper Room, where all the newspapers published in New South Wales, the leading daily and weekly papers of the other Australasian Colonies, and a few of the most popular British and American illustrated papers, will be made available for the general public. It is hoped that by this means readers of periodicals will be attracted from the Reference Library, and more room will be available for students.

12. The late Principal Librarian closed his official career with the issue of a fitting memorial in the shape of an Australasian Bibliography, a quarto volume of 1,255 pages, compiled in three parts—I, A Complete List of Authors, &c., with full title; II, Authors of Books relating to Australasia, arranged by Colonies; III, A Complete Classified Subject and Title Catalogue, with a General Index to the subjects. This Catalogue of nearly 8,000 Australasian books and pamphlets has been brought down to the year 1888 (the centennial year of the Colony) since which time 5,000 more have been received, and will be included in a Supplementary Catalogue as soon as the other heavy work of the small cataloguing staff will permit.

13. The General Subject and Author Catalogue of all the books in the Library up to the end of 1887 is now in type, and will make a volume of about 800 pages, and will probably be issued before the close of the present year. In the meanwhile a Supplementary Catalogue for each of the last six years will be prepared and issued as early as possible. The work of classifying the general Catalogue for 1887 has also been carried on, together with the main Catalogue, and Classes A, B, and C, with complete indexes, are now available.

14. The Librarian of the Lending Branch—Mr. Cullen—has kept the Catalogue of that branch well up to date, the Supplement for 1893 being now ready for issue.

15. I am gratified to be able to report that the staff of the Library perform their duties zealously and efficiently, and that the juniors show praiseworthy diligence in studying, with the view of making themselves fit for higher duties.

I have, &c.,

JAMES NORTON,  
President.

#### APPENDIX A.

NUMBER of VOLUMES in the FREE PUBLIC LIBRARY on the 31st December, 1893.

| Synopsis of Classification.                                | Reference Department. |        | Lending Branch. |        | For Country Libraries. |        | Total.  |

## Report to The Minister of Public Instruction.

In presenting their Report for the past year the Trustees have to draw especial attention to the important addition made to the Gallery of Edouard Detaille's fine work, "Vive l'Empereur," which has been a great source of attraction to visitors.

The purchases in 1893 comprised three oil paintings, five water-colour drawings, one plaqu  and one etching. There were several additional presentations, amongst which may be specially mentioned a marble statue, "Cometh up as a Flower," by Shakespeare Wood, the gift of Mr. Edward Ross Fairfax.

The attendance of visitors during the year numbered 303,130, viz., on 305 week days 185,704, on 53 Sundays 117,426, being an increase of 53,021 over the attendance in 1892, and considerably in excess of that of any previous year, testifying to the continued and growing interest taken in the National collection.

During the year twenty additional applicants were admitted to study in the Gallery.

The interior of the Gallery has undergone complete renovation, and considerable improvement has been effected in the lighting arrangements. The approaches to the Gallery which were previously almost impassable after heavy rain have been put into thorough order.

The Trustees once again venture to express a hope that with a return of prosperity to the Colony a commencement may be made towards the extension and completion of the building.

E. DU FAUR,  
President.

LIST of Works purchased by the Trustees during the year 1893, at a cost of £3,618 :—

OIL PAINTINGS.

*French*.—"Vive l'Empereur," by Edouard Detaille.

*Australian*.—"As in the Days of Old," by F. P. Mahony. "Fires on" Lapstone Tunnel, by Arthur Streeton.

WATER-COLOR DRAWINGS.

*Australian*.—"The Broken Hill Silver Mines," by J. S. Distin. "Cradling in Golden Gully," by A. J. Fischer. "Mount Victoria," by E. B. Boulton. "Entrance to Port Stephens," by W. Lister Lister. "Terrigal Headland," by J. R. Ashton.

PLAQUE.

"Native Flora," by Louis Bilton, from the Doulton Factory.

BLACK AND WHITE.

"Napoleon, 1806, Battle of Jena" (engraving), by Jules Jacquet, after Meissonnier.

LIST of Presentations to the Gallery during the year 1893 :—

"Cometh up as a Flower" (marble statue), by Shakespeare Wood. Presented by Edward Ross Fairfax.

"Capertee Valley" (water-color drawing), by Jas. A. C. Willis. Presented by the Artist.

Six early Water-color Drawings, by Conrad Martens. Presented by Jas. R. Fairfax.

"Summer Rain" (proof etching), by M. Morris, after Vicat Cole. Presented by E. L. Montefiore.

Portrait Duke of Buckingham and Chandos (engraving) after painting by the Duchess of Buckingham. Presented by the Artist.

"Charles the First Demanding the Five Impeached Members" (heliotype), after J. S. Copley. Presented by the Publisher, Walter Rowlands, Boston.

Medallion Portrait, Duke of Wellington (wedgewood). Presented by Captain Rossi.

Medallion Portrait, Napoleon (porcelain). Presented by E. L. Montefiore.

1894.

NEW SOUTH WALES.

# NAUTICAL SCHOOL-SHIP ‘ SOBRAON.’

(REGULATIONS.)

Presented to Parliament pursuant to Act 30 Vic. No. 2, sec. 3.

Department of Public Instruction,  
Sydney, 18th May, 1894.

## REGULATIONS FOR THE NAUTICAL SCHOOL-SHIP “ SOBRAON.”

HIS Excellency the Governor, with the advice of the Executive Council, has been pleased to approve of the following Regulations for the management of the Nautical School-ship “ Sobraon,” in accordance with section 3 of the Industrial Schools Act of 1866, 30 Victoriae No. 2.

F. B. SUTTON.

### PART I.—DUTIES OF OFFICERS.

#### COMMANDER AND SUPERINTENDENT.

1. The Superintendent will have entire charge of the Institution, and be held responsible for all property belonging to the Government. He will inspect every part of the ship daily, and ascertain that the whole is under efficient management and control.

2. He will be held responsible for the proper discharge of all the duties to be performed by all the Officers and Petty Officers of the Institution; and he will be guided from time to time by such instructions as he may receive from the Minister of Public Instruction. He will arrange all details for carrying out the general routine.

3. He will see that the boys are properly instructed by the Schoolmasters and other Instructors; that they are taught habits of cleanliness, industry, and diligence; that they are properly and systematically drilled; and he will be expected to do everything in his power to encourage moral and honourable conduct amongst the boys.

4. He will see that the food is good and sufficient; that it is properly cooked and served with regularity and order, and he will have power to reject any provisions supplied by the Contractor, which, in his opinion, are not sufficiently good in quality or description; and to purchase suitable provisions in their stead at the Contractor's expense.

5. He will see that the boys are treated with kindness, combined with strict discipline, and he will check all harsh conduct on the part of Officers. He will arrange that a suitable system of recreation, including outings, lectures, and entertainments, is provided.

6. He will be responsible that books are kept for recording the name of every boy admitted into the Institution, with such particulars respecting age, religion, parentage, and antecedents as can be ascertained; for recording how the boys are disposed of on leaving the Institution; and for recording the conduct at service of those who are apprenticed. He will also keep a Journal, in which he will enter a short statement daily of the proceedings on board.

7. He will furnish a weekly report to the Minister, describing briefly the conduct of the boys, the conduct of the Staff, and the work done. In the event of sickness of a serious character, or of death occurring, a special report is to be made.

8. The Superintendent shall have power to hire and to discharge any of the Petty Officers not appointed by Executive authority.

9. All complaints made by Officers, Instructors, or Inmates, must be carefully looked into by the Superintendent, in order that any abuses or infringement of the Regulations may be checked or rectified.

10. In any serious case requiring the Minister's interference, it will be the duty of the Superintendent to furnish a report upon the facts of the case, and to submit a suitable recommendation.

11. The Superintendent may suspend any Officer for neglect of duty, or for improper conduct, pending the Minister's decision.

12. He will endeavour as far as possible to maintain supervision over the ship's apprentices, and will encourage them to correspond with him. He will cause the apprentices to be visited by some person on his behalf, at least once yearly, and he will himself visit as many boys as practicable, at such times as the duties of the ship may allow. He will take care that no application for an apprentice is submitted for the Minister's approval unless it is recommended by two well-known gentlemen (one of whom should be a clergyman or a magistrate) resident in the district to which it is proposed to apprentice the boy, who will undertake to visit the apprentice occasionally at his master's residence, and to report if the agreement is being carried out in a satisfactory manner, and if the boy is well treated. Where he may consider an apprentice is being improperly treated, the Superintendent will have power to remove him without notice.

13. He will encourage as much as possible communication between ex-apprentices and himself, and will keep a book, to be called the "After Career Book," in which he will record any particulars he may learn from time to time concerning them.

14. He will furnish yearly, for the information of the Minister, a General Report upon the Institution, compiled to the 30th April, which shall give particulars as to the expenditure, conduct of inmates and apprentices, and the work of the Institution generally during the preceding twelve months.

#### LIEUTENANT.

15. The Lieutenant will see that the orders of the Superintendent are faithfully and promptly carried out. He will carefully visit and inspect every part of the ship at least twice daily; be present at all musters; and will inspect the various messes at meal times, taking care that the provisions are fairly apportioned and properly cooked. Any dereliction of duty on the part of any subordinate officer must be at once reported to the Superintendent.

16. In the absence of the Superintendent he will take charge of the ship, and become responsible for the efficient control of the Institution.

#### VISITING SURGEON.

17. The Visiting Surgeon will visit the ship at least twice weekly, at such times as may be convenient to the Institution; or oftener if required. He will also attend at any time when he may be sent for by the Superintendent, or by his *locum tenens*.

18. He will keep a Medical Journal at the Institution, in which he will record all cases of sickness, disease, or death, with any particulars he may consider necessary. He will address all reports and suggestions concerning the boys or affairs of the ship to the Superintendent only, and will furnish that Officer with a brief report in writing concerning the nature and presumed cause of every case of sickness which may occur. He will advise the Superintendent when he considers that the friends of any patient seriously ill should be communicated with. When requested by the Superintendent he will carefully inspect any boy under punishment, or liable to punishment, and will advise the Superintendent respecting his examination.

19. He will see every boy admitted, and carefully inquire into the state of his health, recording the result of such examination in the Medical Journal. Every boy admitted shall be strictly isolated until examined by the Visiting Surgeon, and declared free from contagious or infectious disease. He will treat all cases of sickness on the part of the ship's Staff on board, when requested to do so by the Superintendent; and will furnish a report as to the mental or physical capacity of any Officer, or regarding his condition of health when required. When medical comforts are ordered, it will be necessary for him to enter in a book the name of the individual for whom they are required, with the quantities of the articles to be supplied; and he will also have to certify to the correctness of the same on the voucher for the Colonial Treasurer. Once in every month, on a day to be arranged so as not to interfere with the routine, he will carefully inspect every boy on board, and will furnish a brief report to the Superintendent as to the result of such examination.

#### SECOND OFFICER.

20. The Second Officer will primarily be responsible for the cleanliness and good order of everything below the Upper Deck. He will see to the care of the sick, and carry out the instructions for their treatment.

21. He will supervise the fitting out of new comers with clothing, bedding, and other necessaries; will award sleeping billets and places in messes, and will see that every boy answers to his name at the various musters.

22. He will be responsible that every boy is properly washed, and he will carefully examine every boy twice weekly, and report to the Superintendent any marks, bruises, or skin disease which he may find on any boy's body.

23. In the absence of the Lieutenant he will act as Chief Executive.

CHIEF

## CHIEF SCHOOLMASTER.

24. The hours for School Instruction will be from 9 to 11:40 a.m., and from 1 to 3:45 p.m., excepting when General Drill is engaged in. The Chief Schoolmaster will be responsible for the cleanliness and good order of the school-room, utensils, books, and all appurtenances, and should have everything ready for commencing teaching punctually at 9 a.m.

25. The Chief Schoolmaster will receive the boys from the Commanding Officer at school hours, and will thereafter be in charge of the school division, which he will drill and march into school according to the method pursued in the ordinary public schools. He will see that all boys are perfectly clean, and will send back those who are not so. The Roll will then be called, and a written report sent to the Superintendent specifying those absent without leave. At the close of daily lessons, the boys must be formed up and marched to the Upper Deck, and there handed over to the Commanding Officer.

26. He will have charge of the Library, Recreation Hall, and all books, games, periodicals in connection therewith; and he or the Second Schoolmaster will attend nightly to supervise the boys who may use these places of recreation. He will encourage the boys to take an interest in reading, in wholesome games, and will be expected to take a leading part in the recreation portion of the routine.

27. In the absence of the Lieutenant and Second Officer he will become Chief Executive, responsible for the carrying out of the Superintendent's orders; and he and the two Officers named must not be absent from duty at the same time.

28. He will carry out the school routine as regards the subjects to be taught, according to the ordinary public school system with such modifications as may be necessary to meet the peculiar requirements of the Institution. Singing, school drill, and drawing shall be included in the course of instruction. He will specially instruct new arrivals how to address Officers, deliver messages, &c., in a respectful manner.

29. He will take part in the general routine when desired to do so by the Superintendent.

## SECOND SCHOOLMASTER.

30. The Second Schoolmaster will generally assist the Chief Schoolmaster, and will take part in the general routine as desired by the Superintendent.

## CLERK AND EMERGENCY OFFICER.

31. The Clerk will perform the clerical work of the Institution, will be responsible for the keeping, accurately written up, of all books, and for the custody of stores. He will only issue stores on requisition, signed by the Officer requiring articles, and endorsed by the Superintendent. He will attend when provisions are received, and will see that only articles of good quality and proper weight are accepted.

32. He will take part in the general routine as desired by the Superintendent.

## CARPENTER AND EMERGENCY OFFICER.

33. The Carpenter will work at his own trade; will instruct such boys as may be told off to him; will sound the well night and morning; will examine all boats' bolts, shackles, gratings, all locks, mooring gear, and other articles weekly, and will furnish a report in writing respecting the same, so that no accident may occur through worn-out or defective material; he will keep watch; and will take part in the general routine as desired by the Superintendent.

## BOATSWAIN AND DRILL MASTER.

34. The Boatswain will instruct the boys in drill, paying particular attention to the physical drill instruction as laid down in the Army Regulations. He will keep boys busily employed, and will be responsible that no idling or misconduct occurs on the upper deck.

35. He will be responsible for the cleanliness and good order of the arms of the ship, including the guns and all appurtenances. He will keep an accurate account of the rounds fired, and will be responsible for the firing of such guns without injury to life or property.

36. He will see that the Seamen in charge of tops overhaul all gear at weekly intervals, and he will himself personally examine all gear, boats' falls, life lines, &c., at least once monthly, and oftener if he thinks necessary, so that no accident may occur through worn-out or defective materials. A written report must be furnished concerning his examination.

37. He will take part in the general routine as desired by the Superintendent.

## FIRST ASSISTANT BOATSWAIN AND GYMNASTIC INSTRUCTOR.

38. The First Assistant Boatswain will assist generally; will supervise lamp trimming; perform duties of barber; instruct in gymnastics, and take part in the general routine as desired by the Superintendent.

## SECOND ASSISTANT BOATSWAIN.

39. The Second Assistant Boatswain will generally assist; will specially drill awkward squads and boys in punishment classes; and will take part in general routine as desired by the Superintendent.

## CHIEF SEAMAN INSTRUCTOR.

40. The Chief Seaman Instructor will specially attend to punishment class and new boys, will take up duties of any Officer away; and will assist in routine generally as desired by the Superintendent.

## SEAMEN.

41. Seamen will be responsible for the cleanliness of boys in their respective divisions; and will see that the lads' clothing, caps, lanyards, handkerchiefs, bedding, and other articles are kept in good order. They will be held responsible for the good order of the gear of their respective tops, boats, &c., and will see that boys entrusted to them work quietly and orderly.

42. They will carefully examine the boys of their divisions at 8:40 daily, and report to the Inspecting Officer.

43. They will drill the boys; keep night watch in turn; and will be responsible for the security and good order of the boys during their respective watches. A report is to be made of whatever may occur during the night watches.

44. They will attend all musters, and be responsible that their divisions are all present; and take part in the general routine as desired by the Superintendent. On Sundays and holidays when the boys are not at work, they will keep watch in turns over the fore-castle, latrines, and alley ways, so as to ensure good conduct and cleanliness.

#### BANDMASTER AND EMERGENCY OFFICER.

45. The Bandmaster will instruct such boys as may be told off for band purposes; will be responsible that their clothing, band instruments, music, &c., are kept safely and in good order; will train specially selected lads as a choir; and will be responsible for the security and good conduct of all boys entrusted to his care. He will provide musical recreation for the boys generally in the evenings, and will teach specially selected lads part and solo singing, the playing of wind, reed, and stringed instruments, and will feel himself generally called upon to supervise the boys at play times.

46. He will keep a list of all instruments and the date of their purchase, and he will take part in the general routine as desired by the Superintendent.

#### LAUNDRY-MAN AND STOKER.

47. The Laundry-man will be responsible for the cleanliness and good order of the laundry, baths, latrines, closets, and passages adjacent; he will instruct such boys as may be told off to him in laundry work; and he will see that all clothing, &c., entrusted to him are properly washed.

48. He will supervise the steam arrangements; and will see that the boiler, water supply, &c., are kept in good order. He will see that no loitering occurs in his department of the ship; and he will take part in the general routine as desired by the Superintendent.

#### COOKS AND STEWARD.

49. The Cooks and Steward will be held responsible for the cooking and preparation of all meals, and for the cleanliness and good condition of the galley and its appliances. They will at all times be clean and neat in their attire, and will carefully instruct such boys as may be told off for the various duties; in cooking; in serving meals; in cleaning utensils; and such other domestic work as may have to be performed.

50. The Steward will have the care of the various Officers' mess utensils, and will supervise the boys appointed for cleaning the various cabins and offices. He will attend when provisions are delivered by the Contractor, and will draw the Receiving Officer's attention to any article which may not appear to be of good quality.

51. He will issue small stores, milk, bread, &c., to the boys' messes in the proper proportions, and he will attend at every meal partaken of by the boys.

52. The Cooks and Steward generally must not allow unauthorised persons to enter the galley and pantries, and they will be responsible for the security and good conduct of the boys entrusted to their care. They will take part in the general routine as desired by the Superintendent.

### PART 2.—GENERAL RULES.

#### RELIGIOUS INSTRUCTION.

53. The Clergymen of different religious denominations may attend the Institution to give religious instruction to the boys belonging to their respective denominations, at such times as may be arranged with the Superintendent.

54. When practicable the boys will be landed on Sundays and marched to their respective places of worship. When from any reason this is not practicable, religious instruction shall take place on board from 10.30 to 12, according to the Protestant and Roman Catholic denominations, under the supervision of the ship's Officers, as required by the Superintendent. Every Sunday from 2.30 to 4 p.m., Sunday School will be conducted by the ship's Officers when no clergymen attend.

55. Officers sent in charge of church parties to a place of worship will remain with them, and not leave them until their return to the ship.

56. At 9 o'clock divisions in the mornings every person on board (excepting those especially excused by the Superintendent) will attend with the boys at prayers. After the last muster in the evening every boy shall attend evening prayers, under the supervision of the ship's Officers.

57. Lay teachers may be admitted to assist the Clergymen in imparting religious instruction, with the consent of and by arrangement with the Superintendent. All honorary Officers will conform to the Rules of the Institution.

#### VISITORS.

58. The parents, brothers, and sisters only, of boys who have been over two months aboard, will be permitted to visit the lads twice yearly, on production of an order to be obtained at the Department of Public Instruction, unless there are special reasons rendering such visits undesirable.

59. Such visits will take place on the first Thursday in the months of January and July, between the hours of 1 and 3.30. Nothing must be brought on board or given to the boys without the consent of the Superintendent.

60. Ladies and gentlemen desirous of inspecting the ship must first procure orders to visit at the Department of Public Instruction, and they will thereupon be admitted on Mondays and Thursdays only, between the hours of 9 a.m. and 12; and 1 p.m. and 3. Persons on business will be admitted without orders on any day but Sundays or holidays, between 9 a.m. and 12; and 1 p.m. and 3.

61. Visitors will be received by the Lieutenant, or by the next Officer in rank in his absence, who will conduct the visitors over the Institution, and furnish information respecting its general operations. The Lieutenant will courteously invite all visitors to enter their names in a book to be kept for such purpose, together with such remarks as they may think proper to make.

62. Friends of Officers will be admitted by permission of the Superintendent, who will also have a discretionary power to admit visitors not provided with orders when he may deem it advisable to do so.

ROUTINE

## ROUTINE OF DUTIES.

63. On Mondays, Tuesdays, Wednesdays, Thursdays, and Fridays routine will be carried out during the summer months according to the following Time-table:—

| Morning.  | Afternoon.   |
|---|--|
| 5 Turn out; lash up hammocks; muster.   | 12:50 Fall in; complaints to be inquired into by the Commander.  |
| 5:20 Drill.   | 1 Divisions and muster; 1 watch school; 1 watch drill; work and general routine.   |
| 5:40 Wash all decks; 1 watch to wash.   | 3:50 Dismiss school and drill; muster.   |
| 7:15 Breakfast.   | 4 Shift into working suits; clean up decks; hoist boats; recreation.   |
| 7:40 1 Watch to wash; clean boats, brasswork, &c.   | 5 Tea; recreation.   |
| 8:40 Fall in for inspection; Officers of divisions to carefully see their respective divisions clean and properly dressed.        | 5:50 Fall in; muster. Library and Recreation Hall open for boys of first 5 classes; band, singing, and other amusements; punishment classes to work. |
| 8:45 Second Officer to inspect all boys.  | 7:30 Muster; prayers; turn in hammocks.  |
| 9 Divisions; Commander's inspection; prayers; 1 watch to school after general drill; 1 watch drill, and general routine and work. | 8 Last post. All locks, &c., to be examined, and report to be made to Superintendent.  |
| 11:40 Dismiss school and drills; prepare for dinner.  |  |
| 12 Dinner; recreation.  |  |

64. On Saturdays there will be no school, and the forenoon will be spent in thoroughly cleaning ship, boats, island grounds, &c. The afternoon will be devoted to recreation, and when practicable the boys will be landed or taken on excursions about the harbour.

65. On Sundays the routine will be as on Mondays up to 9 a.m., at which time Lieutenant's inspection will take place. At 9:15 a.m. muster will be called in the presence of the Superintendent, who will afterwards closely inspect every boy, and who will visit every part of the ship and the shore grounds. At 10:30 the boys will be landed for church, the lads remaining aboard attending religious instruction under the supervision of the Officers. At 1:15, dinner. At 2:30, Sunday School. At 4, muster, and thereafter as on other evenings.

66. In winter the boys will turn out at 5:30, and after muster and stowing hammocks, will then have breakfast prior to work, the early morning drill being omitted.

67. When Religious Instructors attend during the week, the boys to be instructed will temporarily leave school and other classes. Boys to be mustered according to their religions every Saturday morning by the Lieutenant.

## SCHOOL.

68. The Chief Schoolmaster will prepare a Time-table, and keep it constantly posted in the school-room. He will keep quarterly programmes of intended school work; a daily register of all lessons given in school; and such other lists or books as may be required.

## SWIMMING.

69. Swimming will be systematically taught under the personal direction of the Lieutenant, and every boy will be placed in one of five classes according to his proficiency. A weekly report shall be made to the Superintendent concerning the progress made. During the winter months the classes will be discontinued.

## CLASSIFICATION AS TO CONDUCT.

70. Every new boy will be taken before the Superintendent on admission, and will be placed in the upper or lower divisions of No. 7 Class, according to the record furnished of his character ashore. Every new comer will, as soon as he is discharged by the Visiting Surgeon from the Isolation Ward, be carefully instructed by the Officer of his division in the routine, the duties to be performed, the necessity for good behaviour, respect for authority, cleanliness, and truthfulness. His Officer will take him to the Class List, whereon the name of every boy appears classified according to his conduct and trustworthiness, the best conducted lads being in Class 1 and the worst conducted being in the lower division of Class 7. It will be explained to him that every boy can rise to the higher classes by obtaining good marks from his Officers. A certain number of marks gained by industry and good conduct will raise any boy in rank in the Institution. Bad conduct and idleness will cause him to be reduced, and deprive him of the privileges he has earned; with, however, the power of re-earning good marks, and regaining his position by subsequent good conduct. Every boy should bear in mind that the many privileges of the ship are accessible to him, and can be earned by simply behaving in a proper manner, and so gaining the respect of the Officers.

71. Boys in the first four classes will rank as Boy Petty Officers, will be employed in various posts of authority, and will be placed in command of other boys of lower classes. They will wear distinctive badges on the right arm, according to their ratings, will form messes apart from the others, will receive monthly pay, and will enjoy various privileges.

72. Boys in lower division of Class 4 will wear a star on the right arm, and will be rated as Captains of Messes. In this capacity they will each preside at meal times over a mess consisting of fourteen boys, will be responsible for the security and cleanliness of all mess utensils, and for the good conduct of the boys forming the mess. They will see that each boy uses his knife and fork in a proper way, and any complaint respecting the food is to be made by them when the meals are being inspected by the Lieutenant. They will be paid a small sum monthly, and efficient performance of their duties will entitle them to speedy promotion to a higher class.

73. Boys in Class 5 will be entitled to all the privileges set forth in the Class List as belonging to that class, and will be eligible for membership of the Athletic, Cricket, Swimming, and other clubs, besides having admission to the Library, Recreation Hall, and general amusements.

74. Boys in Class 6 will be allowed the privileges set forth in the Class List, including extra articles of provisions.

75. No. 7 Class will be kept apart from the others, and will always be under special supervision. Every encouragement must constantly be held out to them to behave well; and the Officers entrusted with the duty of awarding marks must give extra and careful attention to the conduct of these lads, so as to enable the Superintendent to arrive at a correct estimate of each boy's character and disposition; in order that No. 7 boys may not be allowed to associate with the others, by being placed out of that class, until a fair stage of reformation has been attained.

#### PUNISHMENT.

76. Officers should extend the greatest consideration to the boys, and a benevolent and sympathetic warning will often meet the case in an instance of petty misdoing. When anything else is deemed necessary a written charge against the offender must be handed to the Lieutenant at 11.45 a.m., who will inquire into the complaint. If he considers that a *prima facie* case has been made out, he will send the written complaint on to the Superintendent, who will investigate the charge in the presence of the complainant and of the boy charged; and, if the charge is proved, the Superintendent will award such punishment as he may consider necessary.

77. Punishments shall consist in reduction of class, mast-heading, confinement in punishment-room and cells, and corporal chastisement with a cane. The last-named form of punishment should be resorted to as little as possible; and when six strokes and upwards are inflicted, the offence and the amount of punishment are to be recorded in the Punishment Book.

78. No Officer is permitted to strike any of the lads without authority. The Superintendent is alone responsible for the awarding of punishment, and he will authorize such Officers as he may deem fit to inflict corporal punishment—provided that no Officer reporting a boy shall administer the punishment in that particular case.

79. All complaints respecting boys, the affairs of the ship or the Institution generally, must be made in writing, and must be addressed to the Superintendent only. Officers or other persons should make such complaints within twenty-four hours of the occurrences forming the grounds thereof; and Officers not doing so within the time named will be deemed to have been guilty of a breach of discipline; and will be dealt with under clause 8.

#### CABINS.

80. Every Member of the Staff will be responsible for the cleanliness and good order of his cabin. Where more than one use the same apartment the highest in rank will bear the responsibility. The Lieutenant will examine all cabins every Saturday, and furnish a report on their condition to the Superintendent. The Superintendent will inspect every cabin and mess-room once quarterly.

#### MESS-ROOMS.

81. The responsibility for keeping the various Mess-rooms and the utensils therein clean and in good order will rest with the highest Officer in rank using such places. The Lieutenant will examine all mess-rooms every Saturday and furnish a report on their condition to the Superintendent.

#### LIGHTS.

82. All lights are to be cut at 10 o'clock in the various cabins unless leave is obtained from the Superintendent.

#### OFFICERS' RESPONSIBILITIES.

83. The boys are not to be left without active supervision by night or by day. No Officer or member of the crew on watch may leave his watch at any time without being relieved formally, excepting in cases of special emergency when he will be directed by the Commanding Officer.

84. The person keeping watch or having charge of any part of the ship will be responsible for the security and good conduct of the boys in his charge. It is obvious that a careful supervision must prevent misconduct in all but exceptional circumstances.

85. At 8 p.m. the Lieutenant will satisfy himself that all boys are present and properly in their hammocks; that perfect silence prevails; and that the night watchmen are at their posts, instructed as to any special orders, and having in their possession whatever keys may be requisite. He should also see that all locks are in good order, authorized lights burning, boats secure, and sick boys cared for. He is then to report to the Superintendent.

86. The persons keeping the night watches are to be specially vigilant. They are to mark detector clocks at the various stations every quarter of an hour; to keep a log on the slate of anything unusual occurring; to see that watch boys are relieved every hour; and that no misconduct occurs. The upper deck watchman will keep authorized lamps burning brightly; will warn off all boats; will allow no one to leave or to come on the ship without authority; will attend to the sick; and will visit boys under punishment. In the event of fire, vessel breaking adrift, or other emergency, he will at once call the Superintendent. He will occasionally communicate with the watchman below.

87. The watchman on the berthing deck will keep constantly moving about, and will keep authorized lights brightly burning. He will keep a log on the slate of any unusual occurrence; and in any emergency he will at once communicate with the Superintendent. These Officers must not leave their watch without being formally relieved, unless on emergencies by the Superintendent's direction.

88. No Member of the Staff may convey messages from or to the boys and persons ashore; and nothing must be purchased for or given to the boys without the Superintendent's permission.

89. In an Institution such as the "Sobraon," the most perfect discipline must prevail, in order to promote the comfort of all on board, and to aid the work of reformation. Every Member of the Staff must therefore set an example of cheerful obedience; of respect for authority; and of cleanliness both in person and in conversation. Courteousness of demeanour must be insisted on both to superiors and to inferiors; and the boys must be treated with kindness and with firmness. Disobedience, ascertained unsuitableness, negligence, drunkenness, perfunctory performance of duties, or insubordination will render the offender liable to dismissal.

90. All persons connected with the institution will appear on duty clean and neat in costume. Where uniforms are provided they will be worn according to instructions.

91. Persons joining will be considered as on probation for the first six months, during which time they will only rank as temporary Members of the Staff, enjoying ordinary night leave but no public holidays. Such persons will provide uniforms at their own cost.

92. Every member of the Staff will hold himself available for special duty when requested by the Superintendent in consequence of sickness occurring, or by reason of any emergency; and every Officer will be considered as in the position of an Instructor.

#### LEAVE OF ABSENCE.

93. Officers who come under the provisions of the Civil Service Act will be entitled to leave as therein provided. Other Members of the Staff will be allowed leave of absence not exceeding fourteen days annually according to length of service as approved by the Minister on the 4th May, 1889, special cases being excepted.

94. In addition, the Members of the Staff entitled, will be allowed the various public holidays or days in lieu thereof as may be convenient to the ship, and any person entitled to such holidays may, with the Superintendent's permission, allow such last-named holidays to accumulate to an extent not exceeding ten days in addition to other leave; and he may then enjoy such leave, provided that no inconvenience is likely to arise in connection with the duties of the Institution.

95. The Superintendent may allow such of the Officers and others to go ashore on night leave from 4:30 p.m. to 8:30 next morning as he pleases, provided that sufficient persons are retained on board to properly carry out the duties. This leave is not to be considered as a right but only as a privilege, all Members of the Staff, being provided with board and lodging on the ship.

96. Apart from the leave before mentioned the Superintendent may grant leave not exceeding forty-eight hours to any Member of the Staff, and such leave shall be recorded in the Daily Journal.

97. All persons absenting themselves from duty without leave will have to furnish a written statement of their reasons for so doing. In cases of illness a medical certificate must be furnished within twenty-four hours of absence from duty, and further medical certificates must be furnished every fourth day thereafter, in explanation of continued absence. Officers are entitled to free medical attendance by the Visiting Surgeon, and to medicines, &c., free of cost, provided that they remain on the vessel for treatment.

#### SPECIAL NOTICE.

98. Every Member of the Staff must be given a copy of these Regulations, and must sign an acknowledgment that he has received a copy. Ignorance of any regulation will not be accepted as an excuse for non-compliance therewith. If any contingency should arise for which the Regulations do not provide, the Superintendent may deal with it as he may deem advisable. In addition to what is specified in the Regulations, all are expected to cheerfully perform any work required of them for the welfare of the boys and the Institution, and to show an example of willing obedience in executing their various duties.

99. All the rules and regulations laid down for the efficient management of the Institution must necessarily be enforced, but in carrying out the work connected therewith the Officers and others employed should never forget that their own personal influence, rightly used, might be made very effective to awaken in the boys a right sense of duty, and thus secure from them a cheerful and willing obedience, which otherwise would not be obtained. The Officers and others employed must carefully avoid all expressions or modes of treatment calculated to awaken in the boys resentful feelings.

100. Duties performed in strict accordance with the letter of regulations but in a perfunctory manner only, without genuine manifestations of earnest sympathy with the boys in their position, and of a heartfelt desire to promote their present and future happiness and improvement cannot but fail to realise the objects for the accomplishment of which the Institution is intended. The Staff should fully realise and constantly bear in mind that to be really effective in such work as the management and training of these boys they must necessarily have their hearts in the work, and that their duties should to a large extent be carried on as a labour of love, and not as one of official routine merely. Officers and boys are expected to feel a proper pride in their ship, and to merit encouragement by showing zeal, activity, and a cheerful spirit in the performance of their several duties.

#### PRECEDENCE AND RANK.

101. The various Members of the Staff will rank as follows:—

- |                 |   |   |
|-----------------|---|---|
| Officers.       | } | 1. Commander and Superintendent.                              |
|                 |   | 2. Lieutenant.  |
|                 |   | *3. Visiting Surgeon. (Duties confined to medical work only.) |
|                 |   | 4. Second Officer.  |
|                 |   | 5. Chief Schoolmaster.  |
|                 |   | *6. Clerk and Emergency Officer.                              |
|                 |   | 7. Second Schoolmaster.                                       |
| Instructors.    | } | *8. Carpenter and Emergency Officer.                          |
|                 |   | 9. Boatswain and Drill Master.                                |
|                 |   | *10. Bandmaster and Emergency Officer.                        |
|                 |   | 11. First Assistant Boatswain and Gymnastic Instructor.       |
|                 |   | 12. Second do. and Drill Master.                              |
| Sub-Instructors | } | 13. Chief Seaman Instructor.                                  |
|                 |   | *14. Laundryman and Stoker.                                   |
|                 |   | 15. Seamen according to seniority.                            |

\*16. Cooks and Stewards do not rank in routine, being engaged for special duties.

Officers marked \* having special duties apart from the general routine, only take up the allotted precedence when performing general duty at the Superintendent's direction. All Officers must obey their superiors in rank, and when two or more Officers are carrying out work the senior will assume control.

## MUNICIPALITIES.

(BOROUGH OF MUDGEES—BY-LAW.)

Presented to Parliament, pursuant to Act 31 Vic. No. 12, sec. 153.

Chief Secretary's Office,  
Sydney, 11th January, 1894.

### MUDGEES MUNICIPALITY.—BY-LAW.

THE following By-law, made by the Council of the Borough of Mudgees under the "Municipalities Act of 1867," having been confirmed by His Excellency the Governor, with the advice of the Executive Council, is published in accordance with the requirements of the above-cited Act.

GEORGE R. DIBBS.

#### BOROUGH OF MUDGEES.

BY-LAW made by the Council of the Borough of Mudgees under the "Municipalities Act of 1867."

##### No. 31 of Part 4.—Trees or shrubs overhanging footpaths.

IF the owner or occupier of any land situated on the side of any street or road in this Borough shall permit any tree or shrub kept for ornament or otherwise to overhang any footpath or footway of any such street, he shall, on demand being made by the Council in writing, cut, lop, or cause to be lopped, all such trees or shrubs to the height of eight feet at least; and if the owner or occupier shall fail to do so within the time specified in the said notice, the said Council, by their servants or labourers, may cut, lop, or cause to be lopped, all such overhanging trees or shrubs, and remove all such lopped branches of the said trees or shrubs without being deemed a trespasser; and in case any person or persons shall resist the Council or their servants in the due execution of the powers given in this behalf, they shall forfeit and pay a penalty as provided for by section 140 of the "Municipalities Act of 1867."

Made and passed by the Council of the Borough of Mudgees, this twelfth day of July, one thousand eight hundred and ninety-three.

(L.S.) CHAS. D. MEARES,  
Mayor.

THOMAS J. LOVEJOY,  
Council Clerk.

## NEW SOUTH WALES.

**MUNICIPALITIES.**

(BOROUGH OF NORTH SYDNEY.—BY-LAWS.)

**Presented to Parliament, pursuant to Act 31 Vic. No. 12, sec. 158.**Chief Secretary's Office,  
Sydney, 21st December, 1893.

## NORTH SYDNEY MUNICIPALITY.—BY-LAWS.

The following By-laws, made by the Council of the Borough of North Sydney, under the "Municipalities Act of 1867," having been confirmed by His Excellency the Governor, with the advice of the Executive Council, are published in accordance with the requirements of the above-cited Act.

GEORGE R. DIBBS.

## BOROUGH OF NORTH SYDNEY BY-LAWS.

BY-LAWS for regulating the proceedings of the Council of the Borough of North Sydney and the duties of the officers and servants of such Council; for preserving order at the meetings of the Council; for determining the times and modes for collecting and enforcing the payments of rates and other money due for penalties or other charges; for preventing and extinguishing fires; for suppressing nuisances, and houses of ill-fame; for preventing or regulating and licensing exhibitions held or kept for hire or profit, bowling alleys, and other places of amusement; compelling owners and residents to keep their premises free from offensive or unwholesome matters, opening and naming new public roads, ways, and parks; aligning and cleansing roads and streets; regulating the supply and distribution of water, sewerage, and drainage; preserving trees and shrubs; regulating free libraries; preventing or regulating the bathing or washing the person in any public water near a public thoroughfare or place; preserving public decency; providing for the health of the Municipality, and against the spreading of contagious or infectious diseases; restraining noisome and offensive trades; and generally maintaining the good rule and government of the said Borough, made under the provisions of the "Municipalities Act of 1867."

## PART I.

*Proceedings of the Council and Committees.—Preservation of order at Council Meetings.—Duties of officers and servants, &c.*

By-laws repealed.

1. All existing By-laws of the Borough of North Sydney published in the Government Gazette from time to time prior to the adoption of the following, shall be and are hereby repealed.

*Meetings of the Council.*

Ordinary meetings of the Council.

2. The Council shall meet for the despatch of business at the hour of 4 o'clock p.m. on every alternate Tuesday unless

such day shall happen to be a public holiday. In the latter case the meeting shall be held on such other day as the Mayor may appoint.

Election of Chairman in the absence of Mayor.—Adjournment for want of quorum.

3. If at any meeting of the Council the Mayor be absent at the expiration of fifteen minutes after the time appointed for holding such meeting, the Aldermen then present shall proceed to elect from among themselves a Chairman for such meeting. Whenever there shall be an adjournment of any such meeting for the want of a quorum, the names of the members present shall be taken down and recorded in the Minute-book.

*Order of Business.*

Business of ordinary meetings.

4. The following shall be the order of business at all meetings of the Council other than special meetings.

1. The minutes of the last preceding meeting to be read, corrected if erroneous, and verified by the signature of the Mayor or other Chairman. No discussion to be permitted on such minutes, except as to whether they are correct.
2. Petitions (if any) to be presented and dealt with.
3. Correspondence to be read, and if necessary, ordered upon.
4. Reports from the Committees and minutes from the Mayor (if any) to be presented and ordered upon.
5. Questions as to any matters under the jurisdiction or within the official cognisance of the Council to be put and replied to; and statements as to any facts, matters, or circumstances requiring attention by the Council or any of the Committees or officers to be made.
6. Consideration of Tenders.
7. Matters which have been specially ordered to be placed on the business paper by the Mayor.
8. Motions of which notice has been given to be dealt with in the order in which they stand on the business paper.
9. Orders of the day to be disposed of as they stand on the business paper.

Business may be dealt with out of regular order.

5. Provided that it shall be competent for the Council at any time, by resolution, without notice, to entertain any particular motion, or to deal with any particular matter of business, out of its regular order on the business paper without any formal suspension of this section; also, and in like manner, to direct that any particular motion or matter of business shall have precedence at a further meeting.

Business at special meetings.

6. At special meetings of the Council the business, after the minutes shall have been read and verified, which shall be done in the same manner as at an ordinary meeting, shall be taken in such an order as the Mayor or the Alderman at whose instance such special meeting shall have been called may have directed.

Business paper for ordinary meeting,—how prepared.

7. The business paper for every meeting of the Council, other than a special meeting, shall be made up by the Council Clerk, or other person acting as his substitute, not less than forty-eight nor more than seventy-two hours before the day appointed for such meeting. He shall enter on such business paper a copy or the substance of every notice of motion and of every requisition or order as to business proposed to be transacted at such meeting which he shall have received, or shall have been required or directed so to enter, in due course of law, and as hereinafter provided. Every such entry shall be made subject to the provision of section 4 of this "Part" of these By-laws in the same order as such notice, requisition, or direction shall have been received.

Business paper for special meeting.

8. The business paper for each special meeting shall contain only such matters as shall have been specially ordered to be entered thereon by the Mayor or Aldermen calling such meeting.

Summons to members.

9. The summons to members of the Council for every meeting thereof shall be prepared from the business paper for such meeting, and shall embody the substance of such business paper, and shall be forwarded to the known address of each Alderman (in due time), according to law.

How business paper is to be disposed of.

10. The business paper for each meeting of the Council shall at such meeting be laid before the Mayor or Chairman, who shall make a note upon such business paper of the mode in which each matter entered thereon has been dealt with; and such business paper so noted shall be a record of the Council.

Notices of motion, &c., to be numbered as received and preserved until matter disposed of, unless withdrawn before business paper made up.

11. All notices of motion, and all requisitions from Aldermen, and directions from Mayor as to the entry of any particular matters of business for the consideration of the Council at its then next or any future meeting, shall be numbered by the Council Clerk as they are received; and each such notice, requisition, and direction shall be preserved by such Clerk until after the matter to which it relates shall have been disposed of and the record in the Minute-book of the manner in which such matter has been so disposed of shall have been duly verified, as required by section 4 of this "Part" of these By-laws: Provided, however, that the person giving or forwarding any such notice of motion, requisition, or direction to the Council Clerk shall be at liberty to withdraw the same at any time, before the making up of the business paper.

After business paper made up, all notices, &c., to be the property of the Council.

12. After the business paper shall have been made up as aforesaid, all the said notices of motions, requisitions, and directions, as to which entries have been made thereon, shall be the property of the Council, and shall not be withdrawn, altered, or amended without leave having been first obtained from the Council for such withdrawal, alteration, or amendment.

*Motions and Amendments.*

Motions, how to be moved.

13. Except by leave of the Council, motions shall be moved in the order in which they stand on the business paper, and if not so moved or postponed shall be struck from such business paper, and be considered to have lapsed.

Absence of proposed Mover.

14. No motion of which notice shall have been entered on the business paper shall, except as hereinafter provided, be proceeded with in the absence of the Alderman by whom such notice shall have been given, unless by some other Alderman producing a written authority for that purpose from such first-named Alderman.

Motion to be seconded.

15. No motion in Council shall be discussed unless and until it be seconded.

Amendments may be moved.

16. When a motion in Council shall have been made and seconded, any Alderman shall be at liberty to move an amendment thereon, but no such amendment shall be discussed unless and until it be seconded.

Motions and amendments to be in writing.

17. No motion or amendment shall be discussed until it shall have been reduced into writing by the mover or Council Clerk.

Only one amendment at a time.

18. No second or subsequent amendment shall be taken into consideration until the previous amendment or amendments have been disposed of.

Amended Question—further amendment may be moved thereon.

19. If an amendment be carried, the question as amended thereby shall become itself the question before the Council, whereupon any further amendment upon such question may be moved.

How subsequent amendments may be moved.

20. If any amendment, either upon an original question or upon any question amended as aforesaid, shall be negatived, then further amendment may be moved to the question to which such first-mentioned amendment was moved, and so on: Provided that not more than one question and one proposed amendment thereof shall be before the Council at any one time.

Motions for adjournment.

21. No discussion shall be permitted on any motion for adjournment of the Council; and if, upon the question being put on any such motion, the same be negatived, the subject then under consideration, or the next in order on the business paper, or any other on such paper that may be allowed precedence, shall be discussed before any subsequent motion for adjournment shall be receivable.

Requisitions from Aldermen—how to be dealt with.

22. Every requisition by an Alderman, that any particular matter of business be brought before the Council, shall be regarded and treated as a notice of motion by such Alderman that such business be taken into consideration by the Council. And he shall be called upon in due order to move that such business be so considered, or to make any other motion which he may think fit in reference thereto, which shall be consistent with the notice of such business and with good order. And if such Alderman be absent, or, if being present and so called upon, he shall make no such motion, then it shall be open to any other Alderman to make such motion. And when any such motion shall have been made, it shall be dealt with in precisely the same manner as if notice thereof had been given, subject, however, to any objection which may exist as to its not being in accordance with the notice actually given of such business or with good order; and if no notice shall be made in reference to such business, the entry relating thereto shall be struck from the business paper.

*Orders of the Day.*

Of what Orders of the Day shall consist.

23. The orders of the day shall consist of any matters other than motions on notice, which the Council shall at a previous meeting thereof have directed to be taken into consideration, or any Committee of the Council shall have directed to be entered on the business paper for consideration.

How they are to be dealt with.

24. Section 22 of this "Part" of these By-laws shall be considered applicable to orders of the day. And the Alderman who has the usual charge of, or who has previously moved in reference to, the particular business to which any such order of the day relates, shall be the person called upon to move.

*Petitions.*

Petitions to be respectfully worded.

25. It shall be incumbent on every Alderman presenting a petition to acquaint himself with the contents thereof, and to ascertain that it does not contain language disrespectful to the Council. The nature and prayer of every such petition shall be stated to the Council by the Alderman presenting the same.

Petitions—how received.

26. All petitions shall be received only as the petitions of the parties signing the same, who must be ratepayers or residents of the Borough of North Sydney, and must set forth their addresses.

How Petitions are to be dealt with.

27. No motion shall, unless as hereinafter provided, be permissible on the presentation of a petition, except that the same be received, or that it be received and referred to one of the permanent Committees hereinafter mentioned, or to some special Committee appointed to consider and report on the same, or that it be received, and that its consideration stand an

order of the day for some future meeting: Provided, however, that if any Alderman shall have given due notice of a motion in reference to any petition, and such petition shall have been presented before such Alderman shall have been called upon to move such motion, the said motion shall, if otherwise unobjectionable, be considered in order.

#### *Correspondence.*

Duties of Mayor as to correspondence.

28. The Mayor shall have the same duty in reference to letters addressed to the Council before directing the same to be read, as by section 25 of this "Part" of these By-laws is imposed upon Aldermen presenting petitions; the Mayor or Correspondence Committee shall direct as to the order in which all correspondence shall be read, and no letter addressed to the Council shall be presented or read by any Alderman. If the Mayor be absent, and he or the Correspondence Committee shall not have examined any such letters addressed to the Council, or have given any such directions as aforesaid, then the duties imposed by this section shall devolve upon the presiding Alderman.

Section 27 to apply to letters.

29. Section 27 of this "Part" of these By-laws shall be considered as fully applicable to letters addressed to the Council as to petitions.

Letters sent not to be discussed, but every letter may be subject to motion

30. No discussion shall be permitted in reference to any letters which have been written and sent by the Mayor or by any officer of the Council, and copies of which may be read to such Council: Provided, however, that any notice of motion, consistent with good order, may be entertained with reference to any such letters, whether read or not, or with reference to any letters addressed to the Council, which the Mayor or presiding Alderman may not have ordered to be read as aforesaid.

#### *Reports from Committees and minutes from the Mayor.*

Form of report.

31. All reports from Committees shall be written on foolscap paper with a margin of at least one-fourth of the width of such paper, and shall be signed by the Chairman of such Committee, or, in his absence, by some other member of same.

Mayor's minute.

32. The Mayor shall have the right of directing the attention of the Council to any matter or subject within its jurisdiction or official cognisance, by a minute in writing. Every such minute shall be written upon paper of any kind, and with the same margin as a report from a Committee and shall be signed by such Mayor.

How reports, &c., are to be dealt with.—Duties of Chairman, &c., in certain cases.

33. No motion shall (unless as hereinafter provided) be permissible on the presentation of a report from a Committee or a minute from the Mayor, except that the same be received, or that it be received and that its consideration stand an order of the day for some future meeting: Provided, however, that if any Alderman shall have given due notice in reference to any such report or minute, or if any order for the consideration of such report or minute shall have been entered among the orders of the day, such motion or order may, if otherwise unobjectionable, be moved or considered in due course. And whenever any such report or minute embodies any recommendation which cannot legally be carried out without any due notice, and it is nevertheless desirable that such report or minute shall be definitely ordered upon during the meeting of the Council at which such report or minute is presented, it shall be the duty of the Chairman or member of such Committee signing such report, or of such Mayor, as the case may be, to give or transmit to the Council Clerk such a notice of motion, requisition, or direction as aforesaid as will enable such Council Clerk to make the necessary entry on the business paper, and to give such due notice.

Report of Finance Committee on payment of accounts.

34. The adoption of the report of the Finance Committee on the payment of accounts shall take precedence of every other report.

#### *Question and Statements.*

Limitations as to questions and statements.

35. No question or statement shall be allowed to be put or made which is inconsistent with good order, or is not in strict accordance with the requirements of section 4 of this "Part" of these By-laws.

Notice to be given.

36. Four clear days' notice of every question shall be given to the person who is expected to reply thereto, to allow for the consideration of such reply, and, if necessary, for a reference to other persons or to documents: Provided, however, that nothing herein contained shall prevent any question being put and answered without notice, by the permission of the Mayor and Council.

Answer not compulsory.

37. It shall not be compulsory upon any person questioned as aforesaid to answer the question so put to him.

Questions to be put without argument, &c.

38. Every such question must be put categorically without any argument or statement of fact.

Similar provision as to statements.

39. Every such statement must be made without argument.

No discussion on questions, &c.—Rights of objection and of subsequent motion reserved.

40. No discussion shall be permitted as to any such question, or as to any reply or refusal to reply thereto, or as to any such statement, at the time when such question is put, or such reply or refusal to reply is given, or such statement is made: Provided, however, that nothing herein contained shall prevent the taking of any objection as to any such question or statement being out of order, or shall prevent the discussion, after due notice, as hereinbefore provided, of any matters properly arising out of or relating to any such question, or reply, or refusal to reply, or any such statement as aforesaid.

#### *Order of Debate.*

Mode of addressing the Council, &c.

41. Every Alderman who shall make or second any motion, or shall propose or second any amendment, or shall take any part in any debate or discussion, or shall put or reply to any question, or shall make any statement, or shall in any other way or for any other purpose address observations to the Council, shall, while so doing, stand up in his customary place (unless he shall be prevented from so doing by reason of some bodily infirmity), and shall address himself to the Mayor or other Chairman then presiding: Provided that in the case of a question, such question may, by permission of such Mayor or Chairman, be put directly to the Alderman or officer to be questioned, and may be replied to in like manner; but in every such case in question so put and the answer thereto shall be subject to every legal objection, on the ground of disorder or irrelevancy. And all members of the Council, shall, on all occasions, when in such Council, address and speak of each other by their official designations, as Mayor, Chairman, or Alderman, as the case may be.

Speaker not to be interrupted if in order.

42. No Alderman shall be interrupted while thus speaking, unless for the purpose of calling him to order, as hereinafter provided.

Limitation as to the number of speeches, &c.

43. Every mover of an original motion shall have a right of general reply to all observations which may have been made in reference to such motion, and to any amendments moved thereon, as well as a right to speak upon every such amendment. Every Alderman, other than mover of such original motion, shall have a right to speak once upon such motion and on every amendment thereon. No Alderman shall speak upon any question other than a question of order, unless when misrepresented or misunderstood, in which case he shall be permitted to explain, without adding any further observation than may be necessary for the purpose of such explanation.

Mover and seconder.

44. An Alderman who has moved any motion or amendment shall be considered to have spoken thereon; but an Alderman who shall have seconded any such motion or amendment without any further observation than that he seconded the same, shall be at liberty to speak on such motion or amendment.

Limited time of speaking on motion or amendment.

45. No Mayor, Chairman, or Alderman shall speak upon any motion or amendment for a longer time than ten minutes, except by permission of the Council.

Speaker not to digress, &c.

46. No Alderman shall digress from the subject under discussion, or shall make personal reflections on, or impute improper motives to, any other Alderman.

Adjournment of debate.

47. A debate may be adjourned to a later hour of the day, or to any other day specified; and the Alderman upon whose motion such debate shall have been so adjourned shall be entitled to pre-audience on the resumption of the same.

Mayor to decide as to pre-audience.

48. If two or more Aldermen rise to speak at the same time the Mayor or Chairman shall decide which of such Aldermen shall be first heard.

Alderman may require questions to be stated, &c., under certain restrictions.

49. Any Alderman may request the question or matter under discussion to be read or stated for his information, or may require the production of any records of the Council bearing upon such question or matter which are readily accessible: Provided, however, that no such request or requisition shall be so made as to interrupt the discussion. Also, that if any such request or requisition shall appear to the Mayor or Chairman not to have been made bona fide, it shall not be complied with.

Mayor or Chairman not to move or second motion, &c., but may address Council thereon.

50. The Mayor or Chairman shall not move or second any motion or amendment, nor put any question, as provided for by section 4 of this "Part" of these By-laws, except as is further provided for by section 41 of the same. But such Mayor or Chairman shall have the same right as any other Alderman to speak once upon every such subject or amendment. The Mayor or Chairman shall rise when so speaking (unless prevented by some bodily infirmity from so doing), but shall be considered as still presiding.

#### Question of Order.

Mayor or Chairman to decide points of order.

51. The Mayor or Chairman shall preserve order, and his decision on disputed points of order or practice shall be final, except in so far as the same may be questioned as in the manner hereinafter provided.

#### Acts of disorder.

52. Every member of the Council who shall commit a breach of any section of this "Part" of these By-laws, or who shall move or attempt to move any motion or amendment embodying any matter as to which the Council has no legal jurisdiction, or who shall in any other way raise or attempt to raise any question, or shall address or attempt to address the Council upon any subject which the said Council has no legal right to entertain or discuss, or who shall use any other language which, according to the common usage of gentlemen, would be held disorderly, or who shall say or do anything calculated to bring the Council into contempt, shall be out of order.

Mayor, &c., may call Member to order.

53. The Mayor or Chairman may, without the interposition of any other member of the Council, call any Alderman to order whenever, in the opinion of such Mayor or Chairman, there shall be a necessity for so doing.

Any Member may raise question of order.

54. Every member of the Council shall have the right of calling the attention of the Mayor or the Chairman to any motion, amendment, statement, argument, or observation moved, used, or made by any other member which such first-named member may consider out of order.

#### Mode of proceeding thereon.

55. A member called to order shall withdraw while the question of order is being discussed and decided upon, unless specially permitted to offer an explanation, retraction, or apology; but, on obtaining such special permission such member may explain, retract, or apologise for the matter or remark alleged to have been out of order. And if such explanation, retraction, or apology be deemed satisfactory; no further discussion on the question of order shall be permitted. If any member, on being called to order, shall ask such permission to explain, retract, or apologise as aforesaid, the Mayor or Chairman may, of his own authority, grant or refuse such permission, as he may think fit, unless any member shall require the sense of the Council to be taken on this question. In such case it shall be the duty of the Mayor or Chairman to take the sense of the Council at once, and without discussion, as to whether such permission shall be granted. And when any such explanation, retraction or apology shall have been made or offered by permission of the Mayor or Chairman, the latter shall in like manner decide, or, if required so to do, shall take the sense of the Council as to whether such explanation, retraction, or apology is considered sufficient. If such permission be refused, or if such explanation, retraction, or apology be considered insufficient, the question of order shall be considered and decided before any further business is proceeded with: Provided that if such Mayor or Chairman shall have decided the question of order before any member shall have required the sense of the Council to be taken in reference thereto, such question of order shall not be re-opened: And provided further that nothing herein contained shall be held to affect the right of such Mayor or Chairman to decide finally, as hereinbefore provided, upon any such point of order, after the same shall have been discussed.

#### Decision of points of order.

56. The Mayor or Chairman, when called upon to decide points of order or practice, shall state the provision, rule, or practice which he shall deem applicable to the case, without discussing or commenting upon the same.

Motion out of order to be rejected.—Members to explain, retract, or apologise, &c.

57. Whenever it shall have been decided as aforesaid, that any motion, amendment, or other matter before the Council is out of order, the same shall be rejected; and whenever anything said or done in Council by any Alderman shall be similarly decided to be out of order, such Alderman shall be called upon by the Mayor or Chairman to make such explanation, retraction, or apology, as the case may require.

#### Penalties for persisting in disorderly conduct.

58. Any member of the Council who shall have been called to order, and who, after having been twice directed to withdraw as aforesaid, shall refuse to do so, or who shall persist in any line of conduct, or argument, or of observations which shall have been decided as aforesaid to be disorderly, or who shall refuse to make such explanation, retraction, or apology as aforesaid, when so required so to do, or who shall be guilty of any other act of disorder, as defined in section 52 of this "Part" of these By-laws, and shall refuse to make such explanation, retraction, or apology as a majority of the Aldermen then present shall consider satisfactory, shall be liable, on conviction for the first offence, to a penalty of not less than ten shillings nor more than five pounds; and on second conviction for the like offence he shall be liable to a penalty of not less than one pound nor more than ten pounds; and on the third conviction and for every further conviction for the like offence he shall be liable to a penalty of not less than two pounds nor more than twenty pounds.

#### Power of Council as to laying down rules, &c.

59. Any Alderman who is dissatisfied with the decision of the Mayor or Chairman on any such question of order or of practice, may, by motion on notice, respectfully worded, invite the Council to lay down a different rule or principle for the determination of any similar questions of order or of practice which may thereafter arise. Any rule or principle thus laid down shall be binding on all parties, unless and until it be rescinded, but shall have no retrospective operation: Provided, however, that nothing herein contained shall be held to bind any Mayor or Chairman to put any motion to the Council which, in his opinion, is contrary to law.

#### Mode of voting.

How questions are to be put.

60. The Mayor or Chairman shall put to the Council all questions on which it shall be necessary that a vote be taken, and shall declare the sense of such Council thereon; and he shall be at liberty to put any such question as often as may be necessary to enable him to form and declare his opinion as to the opinion of the majority.

#### Divisions—Penalty for refusing to vote.

61. Any Alderman shall be at liberty to call for a division; in such case the question shall be put first in the affirmative and then in the negative; and the Aldermen shall vote by show of hands, and the names and votes of the Aldermen present shall be recorded. Any Alderman who shall be present when a division is called for, and shall not vote on such division, not being disabled by law from so voting, shall be liable for every such offence to a penalty of not less than ten shillings nor more than five pounds.

#### Protests.

Mode of protesting—Protest to be recorded, but may, under certain circumstances, be expunged.

62. Every member of the Council (the Mayor included) may protest against any resolution or vote by the Council; notice of the intention so to protest must, however, be given at the meeting when such resolution is passed, or such vote is arrived at, and the protest itself must be handed or sent to the Council Clerk not later than seven days after such notice. The Council Clerk shall enter every such protest in the Minute-book; but if, in the opinion of the Council, it be inconsistent with the truth, or disrespectfully worded, it may (by resolution on notice) be ordered to be expunged. In such case the expunction shall be made by drawing a perpendicular line with the pen through the entry of such protest, with reference in the margin to the resolution ordering such expunction.

#### Rules applicable to business in Committee.

63. The following sections of this "Part" of these By-laws shall (except as is herein excepted) be taken to apply to the conduct of business in Committee of the whole Council, namely—sections 13, 14, 15 (except that it shall not be necessary that any motion or amendment in Committee shall be seconded) 16, 17, 18, 19, 40, 41, 42, 43, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 59, and 60.

#### Disorderly conduct in Committees.—Refusal to vote.

64. Whenever any member of the Council shall, while the Council is in Committee of the Whole, be considered guilty of an offence against good order within the meaning of section 52 of this "Part" of these By-laws, it shall be competent to any Alderman to move that the Council resume its sitting,

and that such matter be reported; and if such motion be carried, such matter shall be reported accordingly, and an entry of such report shall be made in the Minute book; and whenever any Alderman shall have failed to vote on any occasion in Committee of the whole Council, as required by section 61 of this "Part" of these By-laws, the facts shall be reported to the Council, and such report on such facts shall be duly recorded in the Minute-book: Provided that in the case of an Alderman failing to vote as aforesaid, no special motion that the Council resume its sitting shall be necessary, but it shall be the duty of the Chairman of such Committee of the Whole, in making his report of the proceedings in such Committee, whenever such report may be made, to include in such report a statement of such failure to vote as aforesaid, and of the question as to which such Alderman has so failed to vote.

Decisions in Committee on Points of Order may be reported.

65. Whenever a decision upon any question of order shall have been given by the Chairman of a Committee of the whole Council, under the provisions of section 51 of this "Part" of these By-laws, any Alderman may move that such decision may be embodied in the report to the Council of the proceedings in such Committee; and if such motion be carried, such decision shall be so embodied in such report, whenever the same shall be made.

How progress may be reported, &c.

66. Any Alderman may at any time during the sitting of a Committee of the whole Council move that the Chairman report progress (or no progress, as the case may be), and that leave be asked to sit again at a later period of the same day, or on any future day; or that no leave be asked to sit again; and if any such motion be carried, the Council shall resume its sittings, and a report shall be made accordingly; but no discussion shall be permitted on any such motion, and if the same be negatived, the subject then under consideration shall be discussed before another such motion shall be receivable.

Reports of proceedings in Committee.—Want of quorum in Committee.

67. All reports of proceedings in Committee of the whole Council shall be made to the Council *viva voce* by the Chairman of such Committee; and a report of such proceedings shall be made in every case, except when it shall be found on counting the number of members during the sittings of any such Committee, that there is not a quorum present. In the latter case the sitting of the Council shall be resumed without any motion for that purpose, and the proceedings in the Committee shall have been considered to have lapsed: Provided that in making any such report as aforesaid it shall not be necessary to report any such proceedings in extenso, but only to state the result, general effect, or substance of such proceeding.

How reports are to be dealt with.

68. All such reports of proceedings in Committee of the whole Council shall be recorded in the Minute-book; but except as hereinafter mentioned, no such report shall be considered as adopted by the Council, nor shall any such application as aforesaid for leave to sit again be considered to have been granted by such Council until a motion shall have been made and passed for such adoption or for the granting of such leave. And every such motion for the adoption of a report or for the granting of leave as aforesaid and the order of debate on such motion shall be subject to all the same rules as the motions in the Council and the order of debate on such motions: Provided, however, that where a report shall have been made under section 64 of this "Part" of these By-laws of disorderly conduct in Committee, or under section 61 of this "Part" of these By-laws, of failure to vote on division, or of any decision in Committee upon any question of order, such report shall, so far as it relates to such facts, be regarded and recorded as a statement thereof; and to that extent shall not, unless for the correction of a manifest error, be interfered with upon any pretext whatever.

#### *Calls of the Council.*

How Call may be ordered.

69. A call of the Council may be ordered by any resolution of which due notice shall have been given for the consideration of any motion or matter of business before such Council.

Mode of proceeding.—Such call compulsory in certain cases.

70. There shall, without any special order to that effect, be a call of the Council for the consideration of every motion which may be made under section 59 of this "Part" of these By-laws, and of every motion for the rescission of any resolution, order, or decision of such Council.

Mode of Proceeding.

71. The call shall be made immediately before the motion or business for which such call has been ordered, or is required to be made by the last preceding section, shall be moved or considered. Such call shall be made as follow:—The Council Clerk shall call the names of all members in their alphabetical order; each member present shall answer to his name as so called; and if any members are absent a record shall be made of such absence; but if leave of absence to any such member shall have previously been granted, or if such an excuse in

writing shall have been forwarded to the Mayor or Council Clerk, as a majority of the Council then present shall consider satisfactory, such absent member shall stand excused, and a record shall be made of such excuse and of the reasons for the same.

Penalty for absence without legal excuse.—Further call when question adjourned.

72. Any member of the Council who, having had notice of such call of the Council, shall not answer to his name as aforesaid, or who being absent, shall not be legally excused as aforesaid, or who, if absent and not so excused, shall fail to show that by reason of extreme illness, or any other sufficient cause he has been unable to send an excuse in writing as aforesaid, or who, having answered to his name as aforesaid, shall not be present when a vote is taken on the motion or business as to which such call has been made as aforesaid, shall for every such offence be liable to a penalty of not less than ten shillings nor more than five pounds: Provided that if the consideration of every such motion or matter of business, be adjourned to a future day, there shall be a further call on the resumption of such consideration; and the provisions herein as to penalties for absence shall have reference to such further call. And if there shall be more than one adjournment this proviso shall be taken to extend to the resumption of the consideration of such motion or matter of business after every such adjournment.

#### *Standing and Special Committees.*

Standing Committees.

73. There shall be three standing Committees, namely, a Committee for Works, a Finance Committee, and a Committee for General Purposes. These Committees shall consist of the whole Council, six to form a quorum.

Committee for Works.

74. The Committee for Works shall have the general direction of all works ordered or sanctioned by the Council, and the general inspection of all streets, roads, ways, sewers, lighting, wharves, and bridges, under the care and management of the Council, with the exception of any reserves set apart or dedicated by the Government and Executive Council for recreation or other public purposes. They shall also inquire and report from time to time as to such improvements or repairs as they may think necessary, or as they may be directed by resolution of the Council to inquire and report upon.

Finance Committee.

75. The Finance Committee shall examine and check all accounts and shall watch generally over the collection and expenditure of the Municipal revenues. They shall inquire and report from time to time as to all matters which they may consider to affect, or to be likely to affect, the finances of the Borough, and as to such matters or subjects of the like nature as they may be directed by resolution of the Council to inquire and report upon.

Committee for General Purposes.

76. The Committee for General Purposes shall take cognizance of every matter, subject, or question within the jurisdiction of the Council not coming within the province of one or other of the before-mentioned standing Committees and shall from time to time inquire into and report upon any subject, matter, or question, as they may think necessary, or as they may be directed by resolution of the Council to inquire into and report upon.

Special Committee.

77. Special Committees may consist of any number of members, and may be appointed for the performance of any duty which may be lawfully entrusted to a Committee, and for which, in the opinion of the Council, a special Committee ought to be appointed. And no standing Committee shall interfere with the performance of any duty which may for the time being have been entrusted to any such special Committee. The appointment of every such special Committee shall be made by resolution of the Council; and it shall be incumbent on the mover of such resolution to embody therein a statement of the duties proposed to be entrusted to such special Committee. The mover of any such resolution may name therein such members as, in his opinion, ought to constitute such Committee, or he may propose that such Committee consist of a certain number of members to be appointed by ballot; and in the latter case, or if an amendment to the effect that such special Committee be appointed by ballot be carried, each member then present shall receive a list of all the members of the Council, from which he shall strike out all names but those of the persons of whom, in his opinion, such special Committee ought to be composed; and the Mayor or Chairman shall examine such list, and shall declare the result. And in the event of its becoming necessary, through an equality of votes to decide as to which of two or more Aldermen shall serve on such Committee, such Mayor or Chairman shall so decide.

Chairman of Committees.

78. Every Committee, in the absence of the Mayor, shall elect a Chairman for the time being.

*Term of service in Committee.*

79. The appointment of every special Committee shall be considered to endure until the duties for which such Committee have been appointed shall have been fully performed: Provided, however, that nothing herein contained shall be held to militate against the general provisions as to Committees in sections 109 and 110 of the Municipalities Act of 1867.

*Committee Meeting—how called.*

80. The Council Clerk shall call a meeting of any Committee when requested so to do by the Chairman or any two members of such Committee.

*Records of transactions in Committee.*

81. The Chairman of each standing Committee shall make, or cause to be made, in a book to be kept by him for that purpose, memoranda of all the transactions of such Committee.

*Expenditure.**Cases of emergency and necessary current expenses.*

82. In cases of emergency, the Mayor may authorise the expenditure of any sum not exceeding twenty pounds on necessary work, and such expenditure shall be reported to the Council at the next meeting; and the Mayor may order the payment of wages of officers, servants, and labourers employed at rates fixed by the Council.

All claims to be examined and reported upon by Finance Committee.

83. All accounts and demands of money against or from the Council, shall be examined and reported on by the Finance Committee before any order shall be made for payment of such accounts or demands.

Certificate required with each claim.—Salaries and wages to be payable on Mayor's Order.—Certificates to be attached to report.

84. No payment shall be ordered unless there shall be a certificate memorandum from the Committee, Mayor, or officer of the Council to whom the direction or guardianship of such expenditure properly belongs showing that the demand is a legitimate one, and has been duly authorised or inquired into. It shall be the imperative duty of the Finance Committee to see that this requirement is fulfilled, or to report specially as to the reason for its non-fulfilment, before recommending payment: Provided, however, that such special report as last herein mentioned may be embodied with the report by which payment of the amount in question is recommended: Provided also, that in cases of special expenditure under section 86 of this "Part" of these By-laws, the report directed by that section to be laid before the Council shall, if the outlay shall have been lawfully incurred, be deemed a sufficient certificate.

Completion of works to be reported by the Works Committee before payment is authorised.

85. No works undertaken by the Council shall be deemed to have been completed, and no order shall be made for payment in full of the same, except upon a report or certificate to that effect from the Works Committee.

*Common Seal and Records of the Council.**How books of account are to be kept and inspected.*

86. The Treasurer shall keep such books of account and such records, statements, and memoranda of receipts and expenditure, in such manner and form as the Council may from time to time direct. It shall be the duty of the Finance Committee to inspect all such books of accounts, records, statements, and memoranda from time to time, to ascertain that the same are properly kept, and to report at once to the Council any act of neglect, or appearance of inefficiency which they may have discovered in the keeping of the same; also, to report to the Council from time to time any changes which such Committee may think advisable in the mode of keeping the accounts.

*Common seal and press how secured.—Care of same.*

87. The common seal and the press to which the same is attached shall be secured by a cover or box, which, except when such seal and press are in use, shall be kept locked. There shall be duplicate keys to the lock of this cover or box, of which keys one shall be kept by the Mayor and the other by the Council Clerk. Such common seal and press shall be in the custody and the care of the Council Clerk.

*When and how common seal to be used.*

88. The common seal shall not be attached to any document without an express order of the Council. In every case when such common seal has been ordered to be attached to any document, such document shall also be signed by the Mayor or, in case of the absence or illness of such Mayor, by two Aldermen, and countersigned by the Council Clerk.

*Records of the Council defined.—Provisions for proper keeping of the same.*

89. The Minute-book letter book, and all rate and assessment books, books of account, records, statements, and memoranda of receipts and expenditure, electoral rolls, and other records relating to elections, business papers, reports from Committees, minutes from the Mayor, petitions, letters on municipal business, addressed to the Council or to the Mayor, or to any

officer or servant of the Council, orders, reports, returns, and memoranda, relating to municipal business, drawings, maps, plans, contracts, specifications, agreements, and all other books and papers connected with the business of the Council, shall be deemed records of the Council. All such records, other than the Minute book and other books, and other than electoral rolls and other records relating to elections, shall be numbered and filed in due order, and shall be duly registered by the Council Clerk in a book to be kept by him for that purpose. Upon the face of every document thus registered, to which there is any reference in the Minute-book, there shall be a note of the page wherein it is so referred to. And when any order has been made by the Council or a report has been brought up by any Committee thereof in reference to any document so registered as aforesaid, a note of such order or report shall be made upon such document. It shall be the duty of the By-law Committee to inspect the records from time to time to ascertain that the same are properly kept as aforesaid, and to report at once to the Council any act of neglect or appearance of inefficiency which they may discover in the keeping of such records.

*Impression of seal not to be taken, &c., without leave of Council.—Penalties.*

90. No member or officer of the Council shall be at liberty to take any impression of the corporate seal, or to show, lay open, or expose any of the books or records of the Council to any person other than a member of the same, without leave from such Council, except as otherwise provided by law. Any member or officer of the Council who shall be guilty of a breach of this section shall be liable on conviction for the first offence to a penalty of not less than five shillings nor more than two pounds; for a second offence to a penalty of not less than one pound nor more than ten pounds; and for the third and every subsequent offence to a penalty of not less than five pounds nor more than twenty-five pounds.

Records not to be removed, &c.—Penalties.—Exceptional circumstances.—Receipt to be given in every case before document received.—Proviso as to use of records as matter of evidence.

91. Any person removing any such book or other record of the Council as aforesaid from the Council Chamber, or the place where, by direction of the Council such book or other record is usually kept, without leave for such removal having been first obtained from such Council, or without other lawful cause for such removal, as hereinafter provided, shall for every such offence be liable to a penalty of not less than ten shillings nor more than ten pounds. And nothing herein contained shall be held to affect the further liability of any person who shall have removed such book or other record as aforesaid, and shall not have returned the same, to prosecution for stealing such book or record, or to an action at law for detention of the same, as the circumstances of the case may warrant: Provided that leave for temporary removal of a book or other record may be granted to the Council Clerk or other officer by the Mayor in order that such clerk or other officer may post up entries, prepare returns, or perform any other duty which it may be necessary that he should perform; also, that the Mayor or Chairman of Committees, or any Alderman acting for any such Chairman, may temporarily remove any record necessary for the preparation of a minute or a report, or for the purpose of any prosecution at suit at law by, against, or at the instance of the Council; but in all such cases such Council Clerk, Mayor, Chairman, or Alderman, as the case may be, shall give a receipt under his hand for every document so removed, and every such receipt shall be carefully preserved among the records until the book or other record to which it refers shall have been returned, when such receipt shall be destroyed: And provided also that the Mayor, Council Clerk, or other officer of the Council, who may be subpoenaed to produce any book or other record of the Council in a court of law, shall have the right to remove such book or other record for the purpose of obeying such summons, but shall return such book or record as speedily as may be, and shall before removing the same leave at the Council Chambers a receipt for such book or other record as aforesaid; and every such person so temporarily removing any book or other record of the Council as aforesaid, shall be legally responsible for the safe keeping and return of the same.

*Penalty for defacing and destroying records.*

92. Any person destroying, defacing, or altering any record of the Council, shall for every such offence be liable to a penalty of not less than five pounds nor more than fifty pounds. But nothing herein contained shall affect the further liability of any person who shall alter or tamper with such books or records to such criminal prosecution as the circumstances of the case may warrant.

*Officers and Servants.**Notice to candidates in certain cases.*

93. No appointment to any permanent office at the disposal of the Council, to which a salary or allowance of fifty pounds per annum, or a salary or allowance exceeding that amount is attached, shall be made until public notice shall have been given, as hereinafter provided, inviting applications from qualified candidates for the same; the salary or allowance attached to such office shall in every case be fixed before such notice is given, and shall be stated in such notice.

#### Mode of appointment.

94. Every such appointment shall be made in such mode as may at the time be determined on, whenever there is more than one candidate for such permanent office.

#### Exceptional cases.

95. Nothing herein contained shall be held to prevent the appointment by the Council, without advertisement, of any salaried officer or servant of the Corporation to any other permanent office or employment at the disposal of the Council to which no further salary is attached, or to prevent the appointment in like manner of any such officer or servant to any other office or employment of which the duties require only occasional attention, and are to be paid by allowances proportionate to the extent of such duties; or to prevent any similar appointment or employment by the Mayor or by any Committee or officer of the Council under the authority of any By-laws; or to prevent the employment as may be from time to time found necessary, and as may be ordered by the Council, of any workmen or labourers on the public works of the Borough.

#### Bonds for good conduct.

96. All bonds given by officers or servants of the Council for the faithful performance of their duties shall be deposited with the Council Clerk or the Bankers of the Corporation as the Council may order; and no officer or servant of the Council shall be received as surety for any other such officer or servant.

#### Duties of Council Clerk.

97. The Council Clerk, in addition to the duties which by the Municipalities Act of 1867, or by the present or any other By-laws thereunder he may be required to perform, shall be the Clerk of all Revision Courts held in the Borough under the provisions of the said Municipalities Act. He shall also, under the direction of the Mayor, conduct all correspondence which may be necessary on the part of the Council; he shall likewise have charge of all the records of such Council, except such books or documents as may by order of the Council (as hereinafter provided) be entrusted to any other officer, and shall be responsible for the safe keeping of such records. He shall generally assist the Mayor in carrying out the orders of the Council and the duties of such Mayor.

#### Duties of Treasurer, &c.

98. The Treasurer shall have charge of such books of accounts and other records of the Council as are mentioned in section 90 of these By-laws, and shall be responsible for the safe keeping of the same; any other officer of the Council may have any other records thereof committed to his charge by an order of the Council and in such case shall be responsible for the safe keeping of such records.

#### Duties of other Officers and Servants.

99. The duties of all officers and servants of the Corporation shall be defined by such regulations as may from time to time, and in accordance with law, be made as follows, viz.:—As to the duties of the Council Clerk other than those under section 97 of this "Part" of these By-laws, and his assistants (if any), by the Mayor or Council. As to duties of the Treasurer and of all collectors of rates, bailiffs, bailiff's assistants, and other officers and servants employed in and about the collection of revenue, whose superintendence is not hereinafter specially entrusted to any other Committee, by the Finance Committee. As to all surveyors, architects, clerks of works, overseers, inspectors of water supply, or sewerage or drainage, other officers and servants employed in and about the public works of the Borough, and in the supply of water therefor, or the sewerage or drainage thereof, whose superintendence is not herein specially entrusted to any other Committee, by the Committee of Works. As to the attorney for the Corporation, Inspector of Nuisances, and other officers and servants employed in and about the carrying out and enforcement of general provisions of the Municipalities Act of 1867, and of any other statute of which the operation has been extended to the Borough, and of the By-laws for the general good government of such Borough, whose superintendence is not herein specially entrusted to any other Committee; and as to managers, overseers, workmen, and other officers and servants employed in or about any public reserves and other public places under the care and management of the Council; and as to librarians, managers of public institutions under the charge of the Council, and all other officers and servants employed in or about any matter over which the Council has control, and whose superintendence is not herein specially entrusted to any other Committee or to the Mayor, by the Committee for general purposes: Provided that all such regulations shall be in writing and shall be in all cases laid before the Council at the first meeting thereof, which shall be holden after the making of any such regulations and shall be in strict accordance with any such orders or directions as may have been at any time given by such Council touching the matters to which any such regulations may have reference.

#### Special powers of Mayor

100. The Mayor shall exercise a general supervision over all officers and servants of the Corporation, and may order the preparation of any such return or statement, or the giving of any such explanation or information by any such officer or servant as he may think necessary, unless such return or statement shall have been already prepared, or such explanation or information already given, and such return, statement, explanation or information is so on record as hereinbefore provided, or unless the Council shall have expressly forbidden or dispensed with the preparation of such return or statement or the giving of such explanation or information. All such returns or statements as aforesaid shall be in writing, and shall be recorded. All such explanations or informations may, except as hereinafter provided, be either rendered viva voce or put into writing, as the Mayor may direct.

#### How complaints against Officers be dealt with.

101. All complaints against officers or servants of Corporation must be in writing, and must in every case be signed by the person or persons complaining; and no notice whatever shall be taken of any complaint which is not in writing, or is anonymous. All such complaints may be addressed to the Mayor, who, immediately upon the receipt of any such complaint, and without laying the case before the Council, shall have power to investigate the same. And if any such complaint be made to the Council or to any member or officer thereof, it shall be referred to and investigated by the Mayor.

#### Miscellaneous.

##### No leave of absence.

102. No leave of absence shall be granted to the Mayor or to any Alderman, otherwise than by a resolution of the Council, adopted after due notice.

##### Motions for rescission of previous orders, &c.

103. Whenever a motion for the rescission of any order, resolution, or vote of the Council shall have been negatived no other motion to the same effect shall be permissible until a period of three months shall have elapsed from the time of negativing such first-mentioned motion: Provided that nothing herein contained shall be held to prohibit the reconsideration and amendment of any proposed By-law which may have been submitted to the Governor for confirmation, and may have been remitted to the Council with suggested amendments of the same, or the passage, after the notice as hereinbefore provided, and in due course of law, of any By-law for the repeal or amendment, of any other By-law.

##### Lapsed Business.

104. Whenever the consideration of any motion or matter of business shall have been interrupted by reason of a quorum not having been present, the resumption of such consideration may be ordered by resolution of the Council, after due notice; and such consideration shall in such case be resumed at the point where it was so interrupted as aforesaid.

##### Suits and proceedings for penalties, &c.

105. Such suit or information for the enforcement of penalties for or in respect of any breach of the Municipalities Act of 1867, or for any By-law made thereunder, or of any statute, the operation of which may have been extended to the Borough, as may have been directed by the Council, or by the Mayor, to be commenced or laid, shall be so commenced or laid as follows, namely:—When against a member of the Council or an Auditor or any officer of the Corporation, by the Council Clerk, unless such Council Clerk shall be the officer to be proceeded against, and in such case by any other officer named by the Council for that purpose; when against any other person, by the officer to whom the carrying out of the statutory provision or By-law imposing the penalty sought to be enforced has been entrusted, and if there shall be no such officer, then by any such officer or person as shall be appointed for that purpose by the Council, or the By-law Committee, or the Mayor, as the case may be, on directing such suit or information as aforesaid; and no such suit shall be brought or information laid as aforesaid against any member of the Council or Auditor, except by order of such Council; nor shall any similar proceedings be taken against any officer of the Council, except on the order of such Council, or of the Mayor, nor against any other person except upon the order of the Council or of the Mayor. And no such suit shall be directed to be brought nor shall any such information be directed to be laid as aforesaid, except on an express resolution of the Council, in any case where the bringing of such suit or the laying of such information will be adverse to any previous direction by such Council, or where, on the trial or hearing of any such suit or information, the same shall have been dismissed on the merits: Provided that in any such case the conduct or prosecution of any such suit or information may, on the order of the Council, be entrusted to an attorney.

##### Mode of calling for Tenders.

106. Whenever it is decided that any work shall be executed or any materials supplied by contract, tenders for the execution of such work or the supply of such material shall be called for by public notice, as hereinafter provided.

**Drafts of intended By-laws.**

107. A draft of every intended By-law shall lie in the office of the Council for at least seven days before such draft shall be taken into consideration by such Council, and shall be open to the inspection of any ratepayer who may desire to inspect the same; and public notice shall be given as hereinafter provided that such draft is so lying for inspection.

**How notices are to be published.**

108. In all cases where public notice is or shall be required to be given by any By-law of any appointment, resolution, act, order, or regulation, done, made, or passed, or proposed to be made, done, or passed by the Council, or by any Committee thereof, or by the Mayor or any officer of the said Council, such notice shall be given and published by posting the same on or near the outer door of the Council Chambers for the space of seven days, and by advertising the same twice in some newspaper circulating in the Borough.

**Persons obstructing officers of the Council.**

109. Any person or persons who shall obstruct any officer of the said Council while in the performance of his duty, or who shall interfere with any officer of the said Council doing or performing, or going to perform, or returning from the performance of any duty or act under these By-laws, by using any threats, offensive language, hindrance, or insulting language, towards the said officer, on any street, road or other place within the said Borough, shall forfeit and pay for every such offence a penalty not exceeding twenty pounds.

**Mode of proceeding—cases not provided for**

110. In all cases not herein provided for, resort shall be had to the rules, forms, and usages of the Legislative Assembly of New South Wales, so far as the same are applicable to the proceedings of the Council.

**Power to suspend, temporarily, certain portions of this Part of these By-laws.**

111. Any such section or sections of this "Part" of these By-laws, or any portion or portions of such section or sections as are not hereinafter excepted, may be suspended by resolution on notice at any meeting of the Council: Provided that there shall be a distinct statement in every such resolution, and in the notice of the motion whereon the same shall have been adopted, of the purpose for which such suspension is required, and that for every separate matter or business as to which such suspension is so required there shall be a separate resolution as aforesaid; And provided also that the following sections hereof shall never be suspended, nor shall any of them nor any portion of any such sections be suspended on any pretence whatever, namely:—Sections 6, 7, 8, 9, 10, 21, 22, 23, 24, 26, 27, 28, 29, 30, 31, 32, 33, 36, 40, 41, 44, 45, 47, 50, 51, 52, 53, 54, 56, 57, 58, 59, 60, 61, 62, 63, 64, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 84, 85 to 94 inclusive, 98, 101, 102, 103, 104, 105, 107, 108, 109, 110, 112, and 113.

**PART II.****Collection and Enforcement of rates.****Times and modes of Collection.**

Rates under sec. 164 of the 31st Vic. No. 12, how to be collected.

1. All rates levied or imposed by the Council under the provisions of section 164 of the Municipalities Act of 1867, and for the purposes mentioned in the said section, shall be collected by Annual or half-yearly instalments, as the Council shall from time to time direct, and shall be due and payable on and after such days as the Council shall by resolution appoint at the time of making or imposing such rates.

**Special rates.**

2. All rates levied or imposed by the Council under sections 165, 166, and 167 of the said Municipalities Act of 1867, and for the purposes mentioned in the said sections, or under the provisions of any of the said sections, or for any of the purposes mentioned therein, shall be collected in such manner, and shall be held to be due and payable, on and after such day or days as the Council may by resolution at the time of making or imposing such rates, or any of them have appointed.

**Office hours.**

3. All rates shall be paid at the Council Chambers during the hours appointed by the Council by resolution from time to time for that purpose.

**Defaulters.**

4. Every person not paying his or her rates as aforesaid, within thirty days after the day so appointed as aforesaid for payment thereof, shall be deemed a defaulter, and it shall be the duty of the Treasurer to furnish the Mayor with a list of the names of all persons so in default.

**Mayor to enforce payment.**

5. It shall be the duty of the Mayor to issue distress warrants against all such persons so in default as aforesaid, and to cause such warrants to be enforced, or to cause such defaulters to be sued for the amount of such rates in a Court of competent jurisdiction.

**Enforcement by distress.****Bailiff.**

6. A bailiff shall when found necessary, be appointed by the Mayor.

**Bailiff's sureties.**

7. The Bailiff shall find two sureties to the satisfaction of the Mayor, to the extent of twenty-five pounds each, for the faithful performance of his duty.

**Duty of Bailiff.**

8. It shall be the duty of the Bailiff to make all levies by distress, for the recovery of rates, in the manner hereinafter provided.

**Warrant of distress.**

9. All levies and distresses shall be made under warrant in the form of Schedule A hereto, under the hand of the Mayor or any Alderman who may for the time being duly authorise to perform the duties of that office.

**Distress and sale, &c.**

10. If the sum for which any such distress shall have been made, shall not be paid with costs as hereinafter provided, on or before the expiration of five days, the Bailiff shall sell the goods so distrained, or a sufficient portion thereof, by public auction, either on the premises or at such other place within the said Borough, as the Bailiff may think proper to remove them to for such purpose; and shall pay over the surplus (if any) that may remain, after deducting the amount of the sum distrained for and costs as hereinafter provided, to the owner of the goods so sold, on demand of such surplus by such owner.

**Inventory.**

11. At the time of making a distress, the Bailiff shall make out a written inventory in the form of Schedule B hereto, which inventory shall be delivered to the occupant of the land, or premises, or the owner of the goods so distrained, or to some person on his or her behalf resident at the place where the distress shall be made, and in case there shall be no person at such place with whom such inventory can be left as aforesaid, then such inventory shall be posted on some conspicuous part of the land or premises on which the distress is made; and the Bailiff shall give a copy of the inventory to the ratepayer on demand at any time within one month after making such distress.

**Goods may be impounded.**

12. The Bailiff, on making a distress as aforesaid, may impound or otherwise secure the goods or chattels so distrained of what nature or kind soever in such place or places, or in such part of the land or premises chargeable with rates as shall be most fit and convenient for this purpose; and it shall be lawful for any person whosoever, after the expiration of five days as hereinbefore mentioned, to come and go to and from such place or part of the said land or premises where such goods or chattels shall be impounded and secured as aforesaid, in order to view and buy, and in order to carry off and remove the same, on account of the purchaser thereof.

**Owner to direct order of sale.**

13. The owner of any goods or chattels so distrained upon may, at his or her option, direct and specify the order in which they shall be successively sold; and the said goods or chattels shall in such case be put up for sale according to such direction.

**Proceeds of distress.**

14. The Bailiff shall hand over to the Treasurer all proceeds of every such distress within forty-eight hours after having received the same.

**Costs.**

15. There shall be payable to the Bailiff for the use of the Council for every levy and distress made under these By-laws, the costs and charges in the Schedule hereunto annexed marked C.

**SCHEDULE A.****Warrant of Distress.**

I, **Mayor** of the Borough of \_\_\_\_\_, do hereby authorise you **the Bailiff** of the said Municipality, to distrain the goods and chattels in the dwelling-house (or in and upon the land and premises) of \_\_\_\_\_, situate at \_\_\_\_\_, for \_\_\_\_\_, being the amount of rates due to said Borough to the \_\_\_\_\_ day of \_\_\_\_\_ for the said dwelling-house (or land or premises, as the case may be) and to proceed thereon for the recovery of the said rates according to law.

Dated this \_\_\_\_\_ day of \_\_\_\_\_ 189 \_\_\_\_\_

Mayor.

**SCHEDULE B.**

*Inventory.*

I have this day, in virtue of the warrant under the hand of the Mayor of the Borough of \_\_\_\_\_, dated \_\_\_\_\_, distrained the following goods and chattels in the dwelling-house (or in and upon the land and premises) of \_\_\_\_\_, situate at \_\_\_\_\_, within the said Borough, for \_\_\_\_\_, being the amount of rates due to said Borough, to the \_\_\_\_\_ day of \_\_\_\_\_

Dated this \_\_\_\_\_ day of \_\_\_\_\_ 189 .

**SCHEDULE C.**

*Costs.*

|  | s. | d. |
|--|----|----|
| For every warrant of distress .....  | 2  | 0  |
| For serving every warrant and making levy where there is not more than £20 .....     | 2  | 0  |
| Above that sum, in addition for every £1 .....                                       | 0  | 1  |
| For making and furnishing copy of inventory .....                                    | 2  | 0  |
| For man in possession, each day, or part of a day ....                               | 5  | 0  |
| For sale, commission, and delivery of goods, per pound on proceeds of the sale ..... | 1  | 0  |

**PART III.**

*Preventing and Extinguishing Fires.*

*Fire or combustible materials, &c.*

1. Every person who shall place, or knowingly permit to be placed, in any house, yard, workshop, out-offices, or other premises, fire, gunpowder, or combustible or inflammable materials of any kind, in such a manner as to endanger contiguous buildings, shall on conviction for every such offence forfeit and pay a penalty of not more than five pounds; and shall forthwith remove such fire, gunpowder, or combustible or inflammable materials; and every such person who shall suffer any such fire, gunpowder, or combustible or inflammable materials to remain as aforesaid for forty-eight hours after any such conviction shall be deemed guilty of a further offence against this By-law.

*Setting fire to matter without notice.*

2. Any person who shall wilfully set fire to any inflammable matter whatever in the open air, within five yards of any dwelling-house or other building, or boundary or dividing fence within the said Borough, without having giving notice in writing to the occupiers of the lands, or premises adjoining the lands or premises upon which such matter shall be, of his intention so to do, or shall wilfully set fire to such inflammable matter as aforesaid, between the hours of six in the afternoon of any day, and six in the morning of the following day, shall for every such offence forfeit a sum not exceeding five pounds, nor less than one pound.

*Fireworks.*

3. Every person who shall discharge firearms, light any bonfire, tar barrel or firework upon or within 20 feet of any public or private street, or any public place shall forfeit a sum not exceeding five pounds.

*Negligently suffering chimneys to be on fire.*

4. If any chimney accidentally catch or be on fire, the person occupying or using the premises in which such chimney is situated shall forfeit a sum not exceeding forty shillings: Provided always that such forfeiture shall not be incurred if such person prove to the satisfaction of the Stipendiary Magistrate before whom the case is heard that such fire was in no wise owing to the omission or carelessness whether with respect to cleansing such chimney or otherwise of himself or his servant.

*Burning shavings, &c., in the streets.*

5. Any person who shall burn any shavings, rubbish, or any other matter or thing, in any road, street, lane, or public place, within the said Borough, shall for every such offence, forfeit and pay a sum not exceeding forty shillings nor less than five shillings.

**PART IV.**

*Streets and Public Places—Public health and decency, &c.*

*New roads to be reported upon.*

1. No new public or intended public road, street, lane, way, park, reserve, or other place proposed to be dedicated to the public shall be taken under the charge and management of the Council until after such road, street, lane, way, park, reserve, or other place as aforesaid, shall have been formed by the proprietor or proprietors to the reasonable satisfaction of the Committee for Works or some officer of the Council duly authorised in that behalf, or until the said road, street, lane, way, park, reserve, or other place as aforesaid, shall have been duly examined by the Committee for Works or such duly authorised officer as aforesaid, and reported upon to the Council by such Committee or duly authorised officer as aforesaid.

*Plan of proposed new roads, &c., to be deposited.*

2. Whenever any proprietor or proprietors of land within the Borough shall open any road, street lane, or way, or lay out any park, reserve, or other place for public use or recreation through or upon such land, and shall be desirous that the Council shall undertake the care and management of such road, street, lane, way, park, reserve, or other place, he, she, or they, shall furnish the Council with a plan or plans signed by himself, herself, or themselves, showing clearly the position and extent of such road, street, lane, way, park, reserve, or other place as aforesaid.

*Dedication of new road, &c.*

3. If the Council shall determine to take charge of any such road, street, lane, way, park, reserve, or other place as aforesaid, the plan or plans, so signed as aforesaid, shall be preserved as a record or records of the Council, and the proprietor or proprietors aforesaid shall execute such further instrument dedicating such road, street, lane, way, park, reserve, or other place to public use or recreation as aforesaid, as may be considered necessary by the Council; and such further instrument of dedication shall also be preserved as a record of the Council.

*Road and streets and encroachments thereon, &c.*

4. The Committee for Works, or the Surveyor of the Borough, or other officer or person duly authorised by the Council in that behalf, shall be the proper officer for marking out, and shall fix, mark, and lay out the levels of all public roads, streets, lanes, ways, and thoroughfares, and the carriage and foot ways thereof, which now are or shall hereafter be under or subject to the control, construction, care or management of the Council. In marking out such roads, streets, lanes, ways, and thoroughfares, recourse shall be had when practicable to the plans under which the land, with frontage to the road, street, lane, way, or thoroughfare in question, shall have been sold or let. And it shall be the duty of such Committee for Works or Surveyor or other officer or person as aforesaid, to place or cause to be erected posts at the corners or intersections of such streets, roads, lanes, and thoroughfares whenever the same may be deemed necessary or desirable by the Council, so as to give a width of 42 feet for the carriage-way and 12 feet for the footway on each side, where the road, street, lane, way, or thoroughfare shall be 66 feet wide and in proportion, and in the discretion of the Council in any such road, street, lane, way, or thoroughfare, or other public place of other width than 66 feet: Provided that there shall be no change of level in any such public road, street, lane, thoroughfare, or public place until the same shall have been submitted to and adopted by the Council as hereinafter provided: Provided further, that this By-law shall be read subject in all respects to "The Width of Streets and Lanes Act of 1881."

*Change of street levels.*

5. Whenever it may be deemed necessary to alter the level of any such public road, street, lane, way, or thoroughfare as aforesaid, the Committee for Works shall cause a plan and section showing the proposed cuttings, to be exhibited at the Council Chamber for thirty days, for the information and inspection of ratepayers, and shall notify by advertisement in some newspaper circulating in the Borough that such plan is so open to inspection. At a subsequent meeting of the Council the said plan and section shall, if adopted, be signed by the Mayor or Chairman, and the proposer and seconder of the motion for such adoption, and countersigned by the Council Clerk. And such plan and section so signed and countersigned shall be a record of the Council.

*Footway or pathway, when flagged or asphalted, not to be interfered with without permission.*

6. Whenever the footway or pathway in front of any house or ground along any road, street, private street, or lane within the Borough has been flagged or asphalted by the Council, the same, and the asphalt or flagging thereon, shall not be removed, taken up or otherwise interfered with by any person whomsoever without the permission of the Mayor or Committee for Works first being had and obtained. And every person removing, taking up or otherwise interfering with such footway or pathway, or the flagging or asphalt thereon, without first obtaining the permission of the Mayor so to do, and every person wilfully or maliciously injuring or destroying such footway or pathway or the asphalt or flagging thereon, shall on conviction forfeit and pay for every such offence any sum not exceeding ten pounds and not less than five shillings.

*Erection of house, &c.*

7. Every person intending to erect or put up any fence, house, shop, or other erection or building, in upon or near to any road, street, lane, passage, thoroughfare, place, or premises within the Borough shall, either by himself or by his contractor, serve or caused to be served seven days' notice in writing on the Mayor or Council Clerk or other duly authorised officer before commencing the same, stating his intention, and describing the proposed situation of the proposed fence, house, shop, or other erection or building; and every owner of every such fence, house, shop, or other erection or building who shall by himself or his contractor commence to put up, or erect any such fence, house, shop, or other erection or building without having first giving such notice as aforesaid shall be liable to forfeit and pay for every such offence any sum not exceeding forty shillings nor less than five shillings.

**Opening for footpaths and fee for permission.**

8. Any person desirous of opening any street, roadway, lane, or footpath within this Borough, for the purpose of laying service-pipes for water or drain-pipes, or for any other purpose whatsoever, shall before doing so give notice to the Council Clerk, at his office, and receive from him a permit for same, and pay therefore a fee of two shillings and six pence. In every case where the footpath has been laid the full width thereof with asphalt or other paving, an extra fee of two shillings and six pence must be paid. Any person failing to comply with any of the provisions of this By-law shall upon conviction forfeit and pay a sum not exceeding forty shillings nor less than five shillings, in addition to the fees herein imposed.

**Pipes, gutters, &c.**

9. It shall not be lawful for any person to carry by means of pipes, gutters, or other contrivances, any rain-water from the roof of his or her premises or house upon any footways of the road, street, lane, or public place within the Borough; any owner or occupier of any such house or premises who shall neglect or refuse to remedy or to remove any such pipes, gutters, or contrivances when required so to do by any officer of the said Council shall, on conviction, forfeit and pay any sum not exceeding twenty shillings nor less than five shillings: Provided that the owner or occupier of any such premises or house may convey any such rain-water by means of pipes laid under the surface of any such footways into the gutter adjoining the same and subject to the approval of the Committee for Works or some officer of the Council duly authorised in that behalf.

**Drains for the discharge of surface water from lands**

10. Every owner or occupier of land in, adjoining to, or near any street, if such land shall be so situated that surface or storm water from or upon the same shall overflow or shall tend naturally, if not otherwise discharged, to overflow any footway of such street, shall within seven days after the service of notice by the Council for the purpose, construct and lay from such point being near to the footway, as shall be specified in such notice and described by plan appended, a covered drain, subject to the approval of the Council when inspected by the officers appointed; and in default of compliance with such notice within the time specified, such owner or occupier shall be liable to a penalty not less than one pound and not exceeding five pounds. And if within seven days of such conviction, the owner or occupier shall still have failed to comply with such notice, he shall be liable to a penalty of not less than one pound and not exceeding five pounds; and for every additional seven days' default, such owner or occupier shall be liable to forfeit not less than five pounds and not more than twenty pounds, or in case of default to comply with such notice for space of seven days it shall be lawful for the Council to execute the said work at the expense and charge of such owner or occupier.

**No balcony, &c., to project.**

11. With regard to buildings, hereafter to be built or rebuilt, it shall not be lawful for any verandah, portico, or balcony to project beyond the building line of any street, road, lane, or thoroughfare, except with the consent of the Council first obtained nor shall any balcony or any other external projection as aforesaid, which may hereafter be added to any existing building be allowed to project as aforesaid, a penalty not exceeding two pounds nor less than one pound, except with the consent of the Council first obtained: Provided that no such awning, verandah, portico, or balcony shall be permitted to be erected in any street, road, or thoroughfare, less than thirty feet wide: Provided also that any person desiring to erect any such structure shall first submit a plan for the approval of the Council.

**Encroachments must be removed on notice.**

12. The Surveyor or other officer or person duly authorised by the Council on that behalf may at any time, on the order of the Council, and upon due notice of thirty days, direct the removal of any building, fence, or other obstruction or encroachment in and upon any road, street, lane, passage, thoroughfare, or public place, under the charge of the Council. Notice shall, in this case, be served either personally, or at the usual or last known place of abode of the person to whom such obstruction or encroachment in structure belongs, or who has erected the same, or caused it to be erected.

**Council may remove encroachments.**

13. In any case where, after service of notice for the removal of any obstruction or encroachment as aforesaid, the person causing the same shall not remove it within a reasonable time, it shall be lawful for the Council to direct the removal of the same, under the superintendence of its Overseer of Works or other proper officer duly appointed in that behalf, and at the cost of the person so offending. Provided that the expense thereby incurred shall in no case exceed the sum of ten pounds, or at the Council's option to proceed against the offender for the breach of this By-law, the penalty for the first offence not to exceed twenty-five pounds nor to be less than one pound; and in case of the second and every successive offence the penalty on conviction not to be less than two pounds nor more than twenty-five pounds.

**Or may proceed by action.**

14. In every case where the obstruction or encroachment cannot be removed unless at a greater cost than ten pounds, it shall be open to the Council, either to direct such removal and to pay all the costs thereof above ten pounds from the funds of the Council, or to proceed by action for trespass against the person causing such obstruction or encroachment.

**To apply also to obstruction by digging, &c.**

15. The foregoing provision shall be equally applicable to all obstructions by digging or excavations; and any person who shall wilfully obstruct or interfere with the Overseer of Works or other officer of the Council as aforesaid, or any person acting for or under him, or either of them, in the exercise of any of the duties or powers by these By-laws imposed or cast on the said Overseer of Works or other such officer as aforesaid, shall on conviction forfeit and pay a penalty of not less than two pounds nor more than twenty pounds.

**Hoards or fences to be erected.**

16. Every person intending to build or take down any building within the limits of the Borough, or to cause the same to be so done, or to alter or repair the outward part of any such building, or to cause the same to be done where any street, road, passage, thoroughfare, or public place, or any part thereof will be obstructed or rendered inconvenient by means of such work, shall, before beginning the same, cause sufficient hoards or fences to be put up in order to separate the building where such works are being carried on from the street with a convenient platform and handrail, if there be room enough to leave as a footway for passengers outside of such hoard or fence, and shall continue such hoard or fence, with such platform and handrail as aforesaid standing in good condition, to the satisfaction of the Overseer of Works or other officer of the Council of the Borough duly appointed in that behalf during such time as the public safety or convenience requires, and shall in all cases in which it is necessary, in order to prevent accidents, place lights on each side of the said hoards or fences and keep the same burning from sunset to sunrise, and every such person who shall fail to put up such fence, or hoard, or platform with such handrail as aforesaid or to continue the same respectively standing in such good condition as aforesaid during the period of such building or taking down, or who shall not, while the said hoard or fence is standing, place lights on each side of the said hoards or fences, and keep the same burning from sunset to sunrise, or who shall not remove the same when directed by the Overseer of Works or such other officer of the Council of the Borough within a reasonable time afterwards as aforesaid, shall for every such offence be liable to a penalty not exceeding forty shillings for every day such default is continued.

**No turf, gravel, &c., to be removed from streets without permission.**

17. Any person who shall form, dig, or open any drain or sewer, or remove or cause to be removed, any turf, clay, sand, soil, gravel, stone, or other material, in or from any part of the carriage or foot-way of any street, road, lane, or other public place within the said Borough, without leave first had and obtained from the Council, or who shall wantonly break up or otherwise damage such carriage or foot-way, shall on conviction forfeit and pay for every such offence any sum not exceeding five pounds nor less than one pound.

**Holes to be enclosed.**

18. Any person or persons who shall dig or make, or cause to be dug or made, any hole, or leave or cause to be left any hole adjoining or near to any street, road, lane, passage, thoroughfare, or public place within the said Borough, for the purpose of making any vault or vaults, or the foundation or foundations of any house or other building, or for any other purpose whatsoever, or shall erect or pull down any building, and shall not forthwith enclose the same and keep the same enclosed in good and sufficient manner, to the satisfaction of the Committee for Works or Foreman of Works of the said Borough, or shall keep or cause to be kept up and continued any such enclosure for any time which shall be longer than shall be absolutely necessary in the opinion of the said Committee, and shall not place lights on each side of the said enclosure, and keep the same constantly burning from sunset to sunrise during the continuance of such enclosure, shall forfeit and pay for every such refusal or neglect any sum not being less than forty shillings nor exceeding ten pounds.

**Open spaces and steps adjoining the footways to be enclosed under a penalty.**

19. Every owner or occupier of any land, house, building, or premises within the said Borough, having any entrance area, garden, or other open space, or any vacant building lot, watch-hole, quarry, excavation, or opening in the ground adjoining or near to any footway of any street, road, lane, passage, thoroughfare, or public place in such Borough, or within six feet of any such footway, shall protect and guard the same by good and sufficient fence to the satisfaction of the Council, so as to prevent danger to persons passing and repassing; and every such owner or occupier of any such house, building, premises, or land, having any steps adjoining the footway of any such street or public place, shall in like manner protect and guard the same by fences, rails, or other

enclosures, so as to prevent the like danger to persons passing and repassing; and on failure thereof, every such owner or occupier shall, as often as he shall be convicted for any such offence, forfeit and pay any sum not being less than forty shillings nor more than five pounds. And every such owner or occupier as aforesaid who shall fail to erect such rails, fences, or other enclosures as aforesaid, within seven days after any such conviction as aforesaid, shall be deemed guilty of a further offence against this By-law.

*Temporary stoppage of traffic for repairs, &c.*

20. The Mayor, or any officer or person acting under the authority of the Mayor, may at any time cause the traffic of any street, lane, or thoroughfare, or any portion thereof, to be stopped for the purpose of repairing the same or for any other necessary purpose; and any person or persons offending against this By-law, either by travelling on such street, lane, or thoroughfare, or by removing or destroying any obstruction that may be placed thereon for the purpose of suspending the traffic, shall forfeit and pay a penalty of any sum not exceeding five pounds for every such offence.

*Slop, night-soil, &c., to be conveyed away only at certain hours.*

21. Any person or persons who shall drive, or cause to be driven, any cart or other carriage with night-soil or ammoniacal liquor therein, through or in any street, road, lane, passage, thoroughfare, or public place within the said Borough (except between such hours as the Council shall from time to time determine, or shall fill any cart or other carriage so as to turn over or cast any night-soil, ammoniacal matter, slop, mire, or channel dirt or filth, in or upon any such street, road, lane, passage, thoroughfare, or public place, or shall deposit night-soil, ammoniacal liquor, or other offensive matter nearer to any street, road, or dwelling-house than shall be directed by the said Council, or by the Inspector of Nuisances; or shall remove night-soil or other offensive matter otherwise than in properly covered and watertight carts or other vehicles; or shall cause any vehicle used for this purpose to stand on any premises nearer to any such road, passage, thoroughfare, public place, or dwelling-house than shall be directed by the said Council or the said Inspector of Nuisances, shall for every such offence forfeit and pay a sum not exceeding five pounds; and in case the person so offending shall not be known to the said Council or Inspector, then the owner of such cart or carriage in which such night-soil or other offensive matter shall be put or placed, and also the employer of the person so offending, shall be liable to and forfeit and pay such penalty as aforesaid.

*Lights to carriages, &c.*

22. The driver of any carriage, buggy, waggon, wain, cart, dray, bicycle, tricycle, or other wheeled vehicle, when driving the same in or upon any street, road, lane, passage, thoroughfare, or public place within the Borough, between the hours of sunset and sunrise, shall provide such carriage, buggy, waggon, wain, cart, dray, bicycle, tricycle, or other wheeled vehicle with a lamp on the right side of the same, and shall keep such lamp lighted; and any person offending against the provisions of this By-law shall, for every offence, forfeit and pay a penalty of any sum not exceeding five pounds, nor less than five shillings.

*Loitering in the streets, &c.*

23. Any person loitering or standing on the footway or carriage-way of any road, street, lane, or other public place within the said Borough, so neglecting or refusing, without reasonable cause or excuse, to move on after having been requested so to do by any constable or other police officer, or any officer duly authorised by the Council of the said Borough in that behalf, shall, on conviction, forfeit any sum not exceeding ten pounds nor less than five shillings.

*Blasting rock.*

*No rock to be blasted without notice to the Council Clerk.*

24. Any person or persons who shall be desirous of blasting any rock within one hundred yards of any street, road, lane, passage, thoroughfare, or public place or dwelling-house, in the Borough, shall give notice in writing twenty-four hours previously to the Council Clerk, who shall appoint a time when the same may take place, and give such directions as he may deem necessary for the public safety, and if any person or persons shall blast, or cause to be blasted, any rock within the limits aforesaid, without giving such notice, or shall not conform to the directions given to him or them by the said Council Clerk, he, she, or they shall on conviction forfeit and pay for every such offence any sum not less than five pounds nor more than twenty pounds.

*Public property.*

*Injuring or extinguishing lamps.*

25. Any person who shall wantonly or maliciously break or injure any lamp or lamp-post, or extinguish any lamp set up for public convenience in the said Borough, shall, over and above the necessary expense of repairing the injury committed, be liable to forfeit and pay for every such offence any sum not less than one pound nor more than five pounds.

*As to damaging buildings.*

26. Any person who shall damage any public building, gate, wall, parapet, fence, sluice bridge, culvert, sewer, watercourse, or other public property within the Borough, shall pay the costs of repairing the same; and, if such damage be wilfully done, shall be liable to forfeit and pay a sum not exceeding twenty pounds nor less than five pounds.

*Affixing placards on walls, &c.*

27. If any person or persons shall paste, or cause to be pasted, or otherwise affix any placard or other paper, or chalk or paint, upon any wall, house, fence, culvert, kerbstone, pathway, hand-rail, or other property of the Council, or in any other manner deface the same, without authority of the Council, he or they shall be liable to forfeit and pay for every such separate offence a sum not exceeding five pounds nor less than one pound.

*Damaging trees.*

28. Any person who shall wilfully, and without the authority of the Council, cut, break, bark, root up, or otherwise destroy or damage the whole or any part of any tree, sapling, shrub, or underwood growing in or upon any street, road, lane, passage, thoroughfare, or public place under the management of the Council, shall be liable to forfeit any sum not exceeding ten pounds nor less than one pound.

*Obstructing public pathways.*

29. If the owner or occupier of any land situate on the side of any street, road, lane, thoroughfare, or other public place within the Borough, shall permit any shrub or plant, kept for ornament or otherwise, to overhang any footpath, footway, or carriage-way on the side of any such street, road, lane, passage, thoroughfare, or other public place so as to obstruct the passage thereof, and shall not, on demand made by the Council or their Inspector, Overseer, or other officer duly authorised in that behalf, cut or cause to be cut, or lop or cause to be lopped, all such trees, shrubs, or plants, to the height of eight feet at the least, the Council and their servants, labourers, and workmen may cut, lop, or cause to be cut or lopped, all such overhanging trees, plants, and shrubs, and may remove or burn, or cause to be removed or burnt, any portion of such trees so cut and lopped, without being deemed a trespasser or trespassers; and in case any person or persons shall resist or in any manner forcibly oppose the said Council or their servants, labourers, or workmen in the due execution of the powers given in this behalf by virtue of the Municipalities Act of 1867, every such person so offending shall, on conviction for every such offence, be liable to forfeit and pay any sum not exceeding ten pounds.

*Dead animals—mode of removal.*

30. If any animal shall die in any part of the Borough and the owner of such animal, or the occupier of the place, if private property, where such animal shall have died, shall not cause such animal to be immediately destroyed by fire, or so effectually removed and disposed of that no nuisance can possibly result therefrom in any part of the said Borough, he shall for every such offence forfeit and pay any sum not exceeding fifty pounds nor less than two pounds.

*Power of Inspector as to dead animals on private premises.*

31. The Inspector of Nuisances, or any other officer appointed by the Council of the Borough, may, at any hour in the day-time, enter upon any premises or place within the said Borough where any animal has died, and require the owner or occupier of such premises or place immediately to destroy such animal, by fire, and, if necessary, to remove the same for that purpose, as such Inspector of Nuisances or other officer appointed by the Council shall direct, or otherwise forthwith effectually to remove and dispose of the same as aforesaid, in default of which it shall be lawful for any one or more of such officers to cause such animal to be removed for that purpose, and every owner or occupier of such premises or place failing neglecting, or refusing to comply with such requisition shall forfeit and pay any sum not exceeding thirty pounds nor less than three pounds.

*Dead animals in certain cases to be removed at cost of Municipality.*

32. If any animal shall die in any public street or place within the Borough it shall be immediately removed by the Inspector of Nuisances or other officer appointed by the said Council, and destroyed in the manner aforesaid, at the cost of the owner.

*Complaints respecting dirty premises.*

33. Upon the complaint of any householder that the house, premises, yards, closets, or drains of the neighbouring or adjoining premises are a nuisance or offensive, the Inspector of Nuisances or any other officer appointed by the said Council shall make an inspection of the premises complained of, and the Inspector of Nuisances or other officer appointed by the Council as aforesaid have full power, without any other authority than this By-law, to go upon such premises for the aforesaid purpose; and any person who shall personally, or by any person in his employment or under his control, suffer any waste or stagnant water, or any muck, filth, soil, or other offensive matter to remain and be in any cellar or place within any dwelling-house or premises within the said Borough, or shall in like manner suffer the contents of any water-closet, privy, or cesspool to overflow or soak therefrom, shall for every such offence forfeit and pay a sum not exceeding five pounds nor less than one pound.

## PART V.

*Noisome and offensive trades.*

Complaint—Inquire and report—Order of Council thereon—Notice to discontinue, &c.—Penalty.

1. Upon the complaint in writing by any householder that any noisome or offensive trade is being so followed, conducted, or carried on in the vicinity of his or her residence or property as to injure his or her health, or the health of his or her family, or to otherwise annoy, injure, or be a nuisance to such householder and to his or her family, the Inspector of Nuisances, or any other person or persons appointed by the Council, shall make an inspection of the premises where such trade is alleged to be so conducted, followed, or carried on as aforesaid, and of the premises or property of the complainant, and shall inquire into the grounds for such complaint, and shall report thereon to the said Council. And if the said Council shall, on the consideration of such report, or after any such further inquiry as may be deemed necessary, be of opinion that the said complaint is well founded, and that any manufacture, trade, calling, or operation so complained of and so being conducted, followed, or carried on as aforesaid is a "noisome or offensive trade" within the meaning of these By-laws, notice shall be given to the person or persons conducting, following, or carrying on such trade to cease and discontinue the same within such reasonable time, not being less than thirty days nor more than sixty days, as the said Council may direct, or so to conduct, follow, or carry on his, her, or their manufacture, trade, calling, or operation, as that within such reasonable time as aforesaid, the same shall wholly and permanently cease to be noisome and offensive within the meaning of these By-laws, either to the said complainant or to any other resident within the said Borough. And if such trade shall not be discontinued as aforesaid, or shall not be so conducted as that it shall wholly cease to be noisome and offensive as aforesaid, within the time named in such notice as aforesaid, any person conducting, following, or carrying on such trade as aforesaid, shall for the first offence, forfeit and pay a sum not less than forty shillings nor more than five pounds; for a second offence a sum of not less than five pounds nor more than twenty-five pounds; and for the third and every subsequent offence a sum not less than ten pounds nor more than fifty pounds.

*Public health.*

Houses to be purified on certificate of two medical practitioners.

2. If, upon the certificate of any duly qualified medical practitioner, it appears to the Council that any house, or part thereof, or the premises occupied in connection therewith, within the limits of the Borough, is in such a filthy or unwholesome condition that the health of any person is or may be liable to be affected or endangered thereby, and that the whitewashing, cleansing, purifying, or fumigating of any house or part thereof, or the premises occupied in connection therewith would tend to prevent or check infectious or contagious disease, the said Council shall give notice, in writing, to the owner or occupier of such house or part thereof, or the premises occupied in connection therewith, to whitewash, cleanse, purify, or fumigate the same, as the case may require; and if the person to whom notice is so given shall fail to comply therewith within the time specified in the said notice, he or she shall be liable to a penalty of not less than forty shillings nor more than ten pounds: Provided that each day during which such house shall, after such notice as aforesaid, remain uncleansed or unfumigated, shall be a separate offence: Provided also that no such penalties shall collectively amount to any greater sum than fifty pounds.

Sale or letting of infected premises or goods.

3. If any person shall sell, let, or cause to be sold or let any dwelling-house, or part thereof, or premises occupied in connection therewith in the said Borough, which then is, or shall have been within thirty days prior to the date of such sale or letting, occupied by any person suffering from any infectious or contagious disease, without giving due notice thereof to the person or persons purchasing, renting, or hiring any such house or premises, the person so selling, letting, or causing to be sold or let, shall be liable to a penalty not exceeding fifty pounds nor less than ten pounds. And any person who shall sell, let, or cause to be sold or let in the said Borough any article of furniture, bedding, household or personal effects, knowing the same to have been within three months prior to the date of such sale or letting used by any person or persons suffering from any infectious or contagious disease, shall forfeit and pay a sum not exceeding fifty pounds nor less than ten pounds.

Exposing infected articles.

4. Any person who shall expose or cause to be exposed in any road, street, public place, or unenclosed land adjacent to any dwelling, road, street, or public place, any article whatsoever, knowing the same to have been in the use or occupation of any person suffering from any infectious or contagious disease within thirty days prior to the date of such exposure as aforesaid, shall forfeit and pay a sum not exceeding fifty pounds nor less than ten pounds.

Rubbish or offensive matter, &c.

5. No kind of rubbish or offensive matter shall be thrown upon any public or private property within the Borough without permission first obtained from the Municipal Council and the owner or owners of such property. Persons found guilty of a breach of this By-law shall forfeit and pay for every such offence a sum not exceeding two pounds nor less than ten shillings.

No noisome or offensive trades to be carried on to the injury of any inhabitants.

6. No person shall carry on any noisome or offensive trade within the said Borough, so as to injure or be a nuisance as hereinafter stated to the inhabitants thereof.

Definition of "noisome and offensive trades."

7. Any manufacture, trade, calling, or operation, in the conducting, following, or carrying on of which, or in consequence of, or in connection wherewith, or from the premises where the same is conducted, followed, or carried on, any gas, vapour, effluvia, liquid, or any large quantities of smoke shall be evolved or discharged, which gas, vapour, effluvia, liquid, or smoke shall be calculated to injure animal or vegetable life, or in any other way to injure or be a nuisance to the inhabitants of the said Borough shall be considered a "noisome and offensive trade" within the meaning of these By-laws.

Mode of proceeding when "noisome and offensive trade" is about to be commenced—Penalty.

8. The like proceedings shall be taken as aforesaid whenever there shall be a complaint as aforesaid that any manufacture, trade, calling or operation is about to be commenced or entered upon which is likely to prove noisome and offensive within the meaning of these By-laws, save and except the notice to be given as aforesaid shall be given to the person or persons about to commence or enter upon such manufacture, trade, calling, or operation, and shall require him, her, or them, not to commence or enter upon the same or to take such measures as shall effectually and permanently prevent the same from becoming noisome or offensive within the meaning of these By-laws, to any resident within the Borough. And any person who shall in any such case commence, enter upon, or continue any such manufacture, trade, calling or operation so that the same shall be in any way noisome and offensive within the meaning of these By-laws shall for every such offence forfeit and pay a sum not less than ten pounds nor more than fifty pounds.

Service of notice.—Liabilities.

9. Service of any such notice as aforesaid upon the occupier or owner of any premises or land wherein or whereon any such manufacture, trade, calling, or operation is being conducted, followed, or carried on, or is about to be commenced or entered upon, or at the last known place of abode of such occupier or owner, or upon any person on the said premises, or land, shall be a good and sufficient service of such notice for all the purposes of these By-laws. And every person who shall be actually engaged in superintending, directing, or managing, or who shall be in any other way actually engaged or employed in any such manufacture, trade, calling, or operation as aforesaid, shall be liable to be regarded and treated as a person conducting, following or carrying on such manufacture, trade, calling, or operation within the meaning and for all the purposes of these By-laws.

## PART VI.

*Public exhibitions, &c.*

Exhibitions, &c., to be licensed.

1. No exhibition, other than exhibitions licensed by the Colonial Secretary under the provisions of the Act 14th Victoria No. 23, or exhibitions of a temporary character hereinafter specially provided for, shall be held or kept for hire or profit within the Borough, nor shall any bowling-alley, dancing saloon, or other place of public amusement other than a place licensed as aforesaid, or a place for temporary amusement hereinafter specially provided for, be used, as such for hire or profit, within the Borough, unless and until the same shall be duly registered as hereinafter prescribed.

Temporary license by Mayor.—Penalty for exhibiting, &c., without license.

2. It shall be lawful for the Mayor, by writing under his hand and without charge, to permit any such exhibition as aforesaid (other than the exhibition requiring to be licensed by the Colonial Secretary, under the said Act), and which shall not be held or kept for more than one week, and in like manner to allow any place within the Borough to be used for purposes of public amusement other than entertainments requiring to be licensed as aforesaid for not more than one week: Provided that it shall be incumbent upon such Mayor to inquire strictly as to the nature of such proposed exhibition or amusement before granting such permission, and to refuse such permission if it shall appear that such proposed exhibition or amusement is of such a nature as to require to be licensed by the Colonial Secretary as aforesaid, or if there shall be reasonable cause for believing that such exhibition or amusement will be likely to entail any violation of public decency, to endanger the

public peace, or to be a nuisance to any inhabitant of the Borough. Every person holding or keeping any such exhibition, or using any place within the Borough for public amusement as aforesaid, or causing or permitting such place to be used, without such permission of such Mayor, shall forfeit and pay a sum not less than five shillings nor more than forty shillings for every day that such exhibition shall be so held or kept, or such place shall be held for public amusement as aforesaid.

Public buildings, &c., to be registered.

3. Every occupier of any building or ground in which any exhibition is held or kept, or any public amusement conducted as aforesaid, shall in each year register at the office of the Council such building or ground, together with the situation and description thereof, and of the exhibition proposed to be held or kept, or the public amusement proposed to be conducted as aforesaid, in or upon such building or ground, and the name of such occupier. And every person who causes, and every occupier of any such building or land who permits, any such exhibition to be held or kept, or any public amusement to be conducted for a longer period than one week, in or on any such building or land not being registered for the purpose, or without such certificate of registration as hereinafter mentioned having been obtained for the same, shall forfeit for every such offence any sum not less than one pound nor more than twenty pounds.

Certificates of registration, &c.

4. The Council, upon the written application of any such occupier as aforesaid stating the particulars aforesaid, and if, upon inspection by the proper officer, the building or land shall have been found to be secure and proper for the purpose stated, and if the proposed exhibition or amusement shall not be such as to require a license from the Colonial Secretary as aforesaid, and shall not be thought likely to entail any violation of public decency, or to endanger the public peace, or to be a nuisance to any of the inhabitants of the said Borough, the said Council shall cause the aforesaid premises to be registered in a registry book to be kept for that purpose, and shall thereupon grant to the applicant a certificate of such registration of such premises. And the said Council may at any time, and for any of the causes hereafter mentioned, suspend for a stated period the effect of or cause of any such registration, and shall forthwith give notice of such suspensions or cancellation to the occupier of the registered building or land; and during such suspension, or after such cancellation, such premises shall be deemed to be unregistered in respect of the purpose mentioned in the certificate of registration, and such certificate shall be of no force or virtue.

Inspection.

5. The proper officer of the Council duly authorised in that behalf may at all reasonable times enter into or upon and inspect any such registered building or land.

No exhibition, &c., on Sundays, &c.

6. No such exhibition or place of public amusement as aforesaid shall be held or kept open or used for the purposes of such public amusements on Sunday, Christmas Day, or Good Friday; and every person offending against this By-law in this behalf, shall on conviction forfeit and pay a sum not exceeding five pounds nor less than two pounds for every such offence.

Registration fee.—Time for which registration shall be in force.

7. For every such registration as aforesaid the occupier of the building or land so registered shall pay to the Council Clerk, for the benefit of the said Borough, a fee of one pound; and every such registration, whenever the same may be made, shall be in force until the thirty first day of December then next ensuing, and no longer.

Certificate of registration to operate as license for exhibition, &c., named therein and no other.

8. The certificate of registration aforesaid shall be regarded as a license from the Council for the holding or keeping of the exhibition, or for carrying on the public amusements therein mentioned, but for none other. Any occupier of such building or land who shall hold or keep therein or thereon any exhibition, or shall use any such building or land for any public amusements other than such exhibition or amusements mentioned in such certificate or license, shall for every such offence forfeit and pay any sum not less than ten shillings nor more than ten pounds.

Unlawful games and exhibitions.

9. No license shall be granted as aforesaid to or for any building or land wherein or whereupon any game with dice, or other games of chance for money, or any bull-baiting, dog-fighting, cock-fighting, or other exhibitions or amusements opposed to public morality, or involving cruelty to animals, or likely to cause any breach of the peace, are proposed to be had or carried on; and the occupier of any building or land so

registered as aforesaid, who shall permit any such game of chance or exhibition or amusement, as are in the section before mentioned, to be had, held, or carried on in or upon such building, shall for every such offence forfeit and pay a sum of not less than ten shillings nor more than ten pounds.

Suspension or revocation of license.—Notice to be given, and licensee to be allowed to show cause.

10. The effect of any such registration as aforesaid may be suspended, or such registration may be cancelled as the Council shall think fit, for any of the following causes, namely:—Whenever the occupier of the registered building or land, or the manager of any such exhibition or amusement as aforesaid, held, kept, conducted, or carried on in or upon such building or ground shall have been twice convicted of offences against these By-laws within a period of twelve months, or whenever it shall be shown to the satisfaction of the said Council that the superintendent, director, or manager, or other person in charge of any such exhibition or amusement is a confirmed drunkard, or that such exhibition or amusement is being conducted in such a manner as to violate public decency, to endanger the public peace, or become a nuisance to any inhabitant of the Borough: Provided that before any such suspension or cancellation as aforesaid, the occupier of such registered building or land shall have notice of the fact the said Council is about to consider whether there shall be any such suspension or cancellation, and of the causes of this proceeding, and shall be allowed to show cause against such suspension or cancellation before the same shall be ordered.

Construction of term "occupier."—Change in occupancy.—False statement.

11. Any person who shall superintend, direct, or manage, or shall be otherwise in charge of such exhibition or public amusement as aforesaid in or upon any such building or land as aforesaid; or who shall reside in or upon any such building or land wherein or whereupon any such exhibition or public amusement shall be held, kept, or carried on, or who, being the owner, lessee, or tenant of any such building or land, shall permit the same to be used for the purposes of such exhibition or public amusement, shall be deemed the occupier, of such building or land for all the purposes of these By-laws. And the said By-laws shall be held to be as applicable in every case to any number of such occupiers as to any single occupier, and every such occupier whose name shall have been so registered as aforesaid shall be deemed and taken to be, and continue to be, such occupier for all these purposes of these By-laws: Provided that in the event of any change in the occupancy of any such building or ground as aforesaid it shall be competent for the parties concerned to notify the same, by writing under their hands, to the Council Clerk, who shall lay such notification before the Council at its next meeting; and if after such inquiry as such Council may deem necessary, there shall seem to be no valid objection to such change of occupancy, a corresponding entry shall be made in the registry aforesaid, and a new certificate shall be issued, which shall be in force until the next ensuing 31st day of December, and no longer. And for every such new certificate a fee of five shillings shall be paid to the Treasurer for the benefit of the said Borough. And any person who shall make any false statement in any such application or notice as aforesaid as to any of the facts or particulars required by these By-laws to be stated in such application or notice, shall for every such offence forfeit and pay any sum not less than one pound nor more than twenty pounds.

## PART VII.

### Water Supply.

Polluting water, reservoirs, &c.

1. Whosoever shall bathe in any stream, reservoir, conduit, aqueduct or other waterworks belonging to or under the management or control of the Council, or shall wash, cleanse, throw or cause to enter therein, any animal, whether alive or dead, or any rubbish, filth, stuff, or anything of any kind whatsoever, or shall cause or permit, or suffer to be run or to be brought therein the water of any sink, sewer, drain, engine, or boiler or other filthy unwholesome or improper water, or shall wash any clothes at any public fountain or pump, or in or at any such stream, reservoir, conduit, aqueduct or other waterworks as aforesaid, or shall do anything whatsoever whereby any water or waterworks belonging to the said Council, or under their management or control, shall be fouled, obstructed, or damaged, shall for the first offence be liable to forfeit and pay any sum not exceeding five pounds, for a second offence any sum not less than ten shillings nor more than five pounds, and for the third and every subsequent offence any sum not less than one pound nor more than twenty pounds.

Willful waste of water.

2. Whosoever being supplied with water by the Council from any waterworks, fountain, reservoir, or stand-pipe of or belonging to or under the control or management of the said Council, or having access to any such waterworks, fountain, or reservoir for the taking of water therefrom, shall wilfully

or negligently suffer any water to run to waste from any pipe, pump, or conduit from or by which he shall be so supplied, or to which he shall have such access, shall forfeit and pay for the first offence any sum not exceeding five pounds, for a second offence any sum not less than one pound nor more than twenty pounds, and for a third and every subsequent offence any sum not less than five pounds nor more than forty pounds.

#### Damming up water without consent

3. Whosoever shall, without the consent in writing of the Council, construct or place any dam or embankment, or allow any accumulation of drift or silt to accumulate in or across any river, creek, or natural watercourse shall forfeit and pay any sum not less than one pound nor more than twenty pounds, and shall remove such dam or embankment within a reasonable time after such conviction, or shall forfeit and pay any sum not less than five pounds nor more than fifty pounds. And if after such second conviction such person shall fail to remove such dam or embankment within a further reasonable time he shall forfeit and pay a sum not less than twenty pounds nor more than fifty pounds, and if within a reasonable time after the third or any further conviction he shall still fail to remove such dam or embankment he shall for every such offence forfeit and pay a sum of fifty pounds.

#### Diverting water from reservoirs of Council in certain cases

4. In any case in which the Council shall have the exclusive right of collecting for the supply of any reservoir or waterworks belonging to the said Council, or under their management or control, the storm water having fallen on any adjoining ground, whosoever shall, by any means whatsoever divert any such water from the course of its natural flow so that the same shall tend to flow elsewhere than to such reservoir or waterworks or some watercourse leading thereto or shall flow to the same respectively in a foul state shall forfeit and pay for the first offence any sum not less than one pound nor more than twenty pounds, for a second offence any sum not less than two pounds nor more than thirty pounds, and for a third and every subsequent offence any sum not less than five pounds nor more than fifty pounds.

### PART VIII.

#### *Sewerage and drainage.*

No private sewers to be made to communicate with the public sewers without notice.

1. It shall not be lawful for any person without notice to the Council or otherwise than according to such plans and directions as such Council may make or give, to make or branch any private drain or sewer into any of the public drains, sewers, or channels, or into any drain or sewer communicating therewith; and in case any person or persons shall make or branch any private drain or sewer into any of the said public drains or sewers, or into any drain or sewer communicating or to communicate therewith, without such notice or otherwise than as aforesaid, every person so offending shall for every such offence forfeit and pay any sum not exceeding five pounds.

Proprietors of private sewers, &c., to repair and cleanse same

2. All drains or sewers communicating with any public drain or sewer shall from time to time be repaired and cleansed under the inspection and direction of the Council, at the costs and charges of the occupiers of the houses, buildings, lands, and premises to which the said private sewers or drains shall respectively belong; and in case any person shall neglect to repair and cleanse, or cause any such private drain or sewer to be repaired and cleansed, according to the direction of the said Council, he shall forfeit and pay for every such offence any sum not exceeding five pounds.

#### Natural watercourses

3. Any person who shall close or intercept any natural watercourse, by building or otherwise, shall provide another outlet for the surface water with pipes or sewers of a size and in a manner to be approved by the Council, and any person failing to comply with the provisions of this By-law shall forfeit and pay a sum not exceeding fifty pounds nor less than five pounds.

BY LAWS made under the Municipalities Act of 1867, the better to enable the Municipal Council of the Borough of North Sydney to regulate, control, and manage the public wharf at Blue's Point, to provide for the leasing of portions of the said wharf and the tolls to be collected in respect thereof. It is hereby ordered by the Municipal Council of the Borough of North Sydney:—

#### Division of wharf into sections

1. The wharf shall be divided into two sections, with a road 30 feet wide running north and south, the entire length of the wharf between the two sections. Section No. 1 shall consist of the water frontage, and section No. 2 shall consist of that portion of the wharf at the back of and fronting the road before mentioned.

#### Subdivision of sections.

2. Section No. 1 shall be divided into two lots. Lot No. 1 shall consist of 100 feet frontage at the northern end of the wharf, and lot No. 2 shall consist of all the residue of the section. Section No. 2 shall be divided into four lots; lots 1, 2, and 3 shall each have a frontage of 33 feet to the road hereinbefore mentioned, and lot No. 4 shall consist of the residue of the section, lot 1 commencing at the southern end of the wharf.

#### Uses of such subdivisions.

3. Lot 1, section 1, shall be reserved and appropriated for and to the use of licensed watermen and the owners of fly-boats, for the purpose of landing or taking off passengers, and the landing or taking off vehicles, horses, carts, drays, &c. Lot No. 2, section 1, shall be reserved and appropriated for the loading and unloading of colonial produce and general merchandise. Lots 1, 2, and 3, section 2, shall be reserved and appropriated to the storage of coals, coke, wood, or other merchandise, and lot 4 section 2, shall be reserved for the use of the Council.

#### Leasing of portions

4. The Council may lease any one or more of the lots for a period of one or more years by tender, open to public competition, and upon the following conditions:—

#### Fees and tolls.

5. The wharfinger shall be entitled to demand and receive the fees and tolls set out in Schedule A hereto from all persons using any portion of lot 2, section 1, of the said wharf.

#### Charge for goods detained on the wharf

6. All articles landed at or upon any portion of lot 2, section 1, of the said wharf shall be removed therefrom within forty-eight hours after being landed, and any articles or materials remaining upon the said wharf for a longer period than the said forty-eight hours, the owner of such articles or materials shall pay a charge in respect of same as set out in Schedule B hereto, for every forty-eight hours, or part of forty-eight hours, beyond the time allowed for their removal, in addition to the charges set out in Schedule A hereto.

#### Appointment of wharfinger or wharfingers.

7. The Council may, from time to time, as it shall deem advisable, appoint a wharfinger or wharfingers to control and manage the wharf, and may at any time suspend or remove such wharfinger or wharfingers, and such wharfinger or wharfingers shall have power to, and he or they are hereby authorised and required to keep good order upon the wharf and every part thereof, and to remove all disorderly persons therefrom and to deliver such person or persons into the custody of any constable.

#### Road to be kept clear

8. No person shall place, suffer, or permit to be placed, or remain upon the road hereinbefore mentioned, any coals, coke, wood, merchandise, or any goods whatsoever, and no horse, dray, cart, or other vehicle shall obstruct the said road, or remain thereon longer than may be necessary to pass or repass to or from any of the respective lots.

#### Vessels not to make fast to wharf, &c.

9. No ship, or steamboat, or other vessel shall be allowed to make fast to or remain alongside except while loading or unloading cargo, or landing or taking off passengers, and no owner or master of such ship, steamboat, or other vessel shall suffer or allow any such vessel to remain alongside the wharf longer than may be necessary to load or unload cargo, or to land or take off passengers.

#### Against improper use of wharf, &c.

10. Any master or other person in charge of any ship, steamboat, or other vessel, or any other person who shall by improper use, carelessness, or negligence cause any damage to the wharf shall upon demand pay the costs of such damages, and if such damage shall be done wilfully or maliciously then any such master or other person so offending shall pay, in addition to such costs, a penalty of not more than five pounds and not less than one pound.

#### Regulations as to carts, drays, vehicles, &c.

11. No dray, cart, or other vehicle drawn by one or more horses or other animals, shall be allowed to remain on the wharf longer than may be necessary for loading or unloading, or taking up or setting down passengers, and all such drays, carts, or other vehicles, when so loading or unloading or taking up and setting down passengers, shall be placed between parallel lines bearing north and south, and no such vehicle, horse, or other animals, or any saddle horse or saddle horses shall at any time be left upon the wharf or entrance thereto unless in charge of a person competent to manage the same.

Goods not to be left on wharf.

12. No goods, merchandise, produce, butcher's meat, or live stock, for shipment, shall be allowed on the wharf until a vessel is ready to receive the same, and all goods, merchandise, produce, butcher's meat, or live stock, landed from any vessel, shall be so placed as not to interfere with the general use of the wharf, and shall in all cases be immediately removed therefrom by the owner, or in default by the Council, and all expenses attending such removal by the Council shall become a charge upon the goods so removed.

Penalties.

13. Every person who shall commit any breach of or offend any section or part of this By-law shall, for every such breach or offence, forfeit and pay any sum not exceeding five pounds, to be recovered by summary jurisdiction, before any two Justices of the Peace.

General conditions.

1. The lots proposed to be leased for a period not exceeding three years shall be advertised in the "Sydney Morning Herald," and by notice posted in conspicuous positions on the wharf and Council Chambers.
2. The highest tenderer shall be the lessee, provided he himself and the sureties offered are approved of by the Council.
3. The lessee or lessees, and his or their sureties (of whom there shall be two) shall enter into a bond equal to double the amount of one year's rent, as a security for the regular payment of the rent agreed upon, and for the due observance of all the conditions herein contained.
4. The rent to be paid quarterly in advance to the Treasurer.
5. The Council reserves to itself the right of resuming any portions of the lots for any alterations or repairs that may be found necessary, allowing a proportionate amount in the rent during the time occupied in such repairs or alterations in the same ratio as the part resumed bears to the whole.
6. The lessee to keep the lots in good repair during tenancy, reasonable wear and tear only excepted.
7. The lessee of any of the lots shall not assign or sub-let, except with the consent in writing of the Council.

Special conditions.

1. Lot No. 1, section 1. The lessee to run a steamboat for the accommodation of passengers, and horses, and carts, or other vehicles to and from Sydney. The steamer for horses and carts or other vehicles is to run daily throughout the year, at regular intervals of not exceeding one hour, commencing not later than 7 a.m. until 6 p.m. each day, except in case of accident: And provided further that the lessee shall not be bound to run on Sundays. The steamer for passengers is to run daily throughout the year, at regular intervals; the last boat to leave Sydney at midnight, Sundays excepted (last boat on Sundays to leave Sydney at 10 p.m.). Fares not to exceed three pence for each adult passenger. Fares for horses and vehicles not to exceed—for every horse not drawing, six pence; for every cart or other vehicle drawn by one horse, one shilling; and for every additional horse, six pence extra. In the event of the lessee or any of his servants being found guilty of any gross misconduct, the Council may cancel the lease at any time without further notice than proof of such misconduct, to be determined by any two Justices in Court of Petty Sessions.
2. Lot 2, section 1, can only be used for the purposes set forth in the foregoing By-laws, and the rules as to keeping clear of the road, &c., &c., must be strictly observed. The lessee will be entitled to collect the dues according to the scales, as shown in Schedules A and B hereto, but in no case will be allowed to charge anything in excess of such scales of charges. The lessee shall not allow goods or material to be stored, or remain on the wharf for any period exceeding fourteen days after being landed or deposited on the wharf for shipment.
3. Lots Nos. 1, 2, and 3, section 2, will be fenced in by the Council, and the lessees will be required to keep the whole of their appliances within the enclosures, and conform to the By-laws in all other respects.

SCHEDULE A.

A Scale of dues to be paid for goods landed at or shipped from the public wharf at Blue's Point:—

|  | s. | d.              |
|--|----|-----------------|
| Wool, per bale                                       | 0  | 6               |
| Sheet bark, per dozen or less quantity               | 1  | 0               |
| Tanners' bark, per ton                               | 1  | 0               |
| Beef, mutton, or pork, per cask                      | 0  | 6               |
| Beef, per carcase, or less quantity                  | 0  | 6               |
| Mutton or pork, per carcase, or less quantity        | 0  | 3               |
| Bricks, per 1,000                                    | 2  | 6               |
| Tiles or slates, per 1,000                           | 1  | 6               |
| Brooms, per dozen                                    | 0  | 3               |
| Cheese, butter, and lard, per cwt., or less quantity | 0  | 3               |
| Grain, per bushel                                    | 0  | 0 $\frac{1}{2}$ |
| Sawn timber, and timber in logs, per 1,000 feet      | 1  | 6               |
| Flour, per ton                                       | 1  | 0               |
| Hides, each  | 0  | 1               |
| Laths and shingles, per 1,000                        | 0  | 6               |
| Pigs, each   | 0  | 3               |
| Sheep, each  | 0  | 2               |

## MUNICIPALITIES.

(BOROUGH OF RANDWICK.—BY-LAWS.)

Presented to Parliament, pursuant to Act 31 Vic. No. 12, sec. 158.

Chief Secretary's Office,  
Sydney, 12th December, 1893.

## RANDWICK MUNICIPALITY.—BY-LAWS.

THE following By-laws, made by the Council of the Borough of Randwick under the "Municipalities Act of 1867," having been confirmed by His Excellency the Governor, with the advice of the Executive Council, are published in accordance with the requirements of the above-cited Act.

GEORGE R. DIBBS.

BY-LAWS for the establishment of a Toll-bar in King-street, and the collection of Tolls thereat; passed by the Municipal Council of Randwick on 30th May, 1893.

WHEREAS it has been deemed expedient by the Municipal Council of Randwick to place a Toll-gate in King-street, for the purpose of collecting tolls. They, the said Municipal Council, have agreed to the following By-laws for establishing and regulating the same, for the scale of tolls to be levied, and for the collection of the said tolls:—

1st. That a gate be erected in King-street.  
2nd. That the following scale of tolls be levied on every vehicle or animal passing through the said gate, the said animal or vehicle being allowed to pass or re-pass on the same day without further toll being demanded:—

|   | s. | d. |
|---|----|----|
| For every sheep, lamb, pig, or goat .....   | 0  | 0½ |
| For every ox or head of neat cattle .....   | 0  | 2  |
| For every horse, mare, gelding, ass, mule, or colt .....  | 0  | 2  |
| For every cart, dray, gig, chaise, or other such vehicle with two wheels, drawn by one horse or other animal ...                    | 0  | 6  |
| For every additional horse or other animal drawing such cart, dray, gig, chaise, or other such vehicle with two wheels .....        | 0  | 3  |
| For every wain, waggon, coach, chariot, or other such carriage with four wheels, drawn by two horses or other animals .....         | 1  | 0  |
| For every additional horse or other animal drawing such wain, waggon, coach, chariot, or other such carriage with four wheels ..... | 0  | 3  |
| For every coach, chariot, chaise, or other carriage with four wheels, drawn by one horse or other animal .....                      | 0  | 9  |

3rd. For every empty cart, dray, gig, chaise, or other vehicle tied or secured to any other carriage, the same toll as if drawn by one horse, and every four-wheeled carriage the same rate as if drawn by two horses; but if such have goods conveyed in them other than the harness, they shall pay double toll.

4th. The Council shall collect the tolls at such toll-gate in any manner they shall deem expedient, or, if necessary, shall appoint such officers as shall be necessary for carrying these By-laws into effect, and so assign reasonable salaries or other remuneration to such officers; and the same shall be paid out of any sum of money which shall be collected or levied under these By-laws.

Passed by the Municipal Council of the Borough of Randwick.

CECIL W. E. BEDFORD, Council Clerk.

(L.S.)

HENRY F. FRANCIS,

Mayor.

The corporate seal of the Borough of Randwick is hereby attached, this 31st day of May, 1893.

CECIL W. E. BEDFORD, Witness.

**MUNICIPALITIES.**

(MUNICIPAL DISTRICT OF BALRANALD—BY-LAWS.)

Presented to Parliament, pursuant to Act 31 Vic. No. 12, sec. 153.

Chief Secretary's Office,  
Sydney, 11th January, 1894.**BALRANALD MUNICIPALITY.—BY-LAWS.**

THE following By-laws, made by the Council of the Municipal District of Balranald under the "Municipalities Act of 1867," having been confirmed by His Excellency the Governor, with the advice of the Executive Council, are published in accordance with the requirements of the above-cited Act.

GEORGE R. DIBBS.

BY-LAWS of the Municipal District of Balranald, made under and for carrying into effect the provisions of the "Municipalities Act of 1867."

THAT portions 1, 2, and 3 of the By-law No. 47 of the By-laws of this Municipality relating to the duties of the By-law Committee, the Committee for Works, and the Finance Committee, be and are hereby repealed.

The By-law Committee shall prepare, for the consideration of the Council, drafts of all such By-laws as may be required for the good government of the Municipality. They shall also watch over the administration of the By-laws and of any Statute of which the operation has been or may be extended to the Municipality, and shall take such steps as may be necessary for the prevention or punishment of offences against such By-laws or Statutes, and for the preservation of public order and decency. All reports shall be written in a book kept for that purpose.

The Committee for Works shall have the general direction of all works ordered or sanctioned by the Council, and the general inspection of all streets, roads, ways, bridges, engines, machinery, public reserves, and other public places under the care and management of the Council. They shall also inquire and report

from time to time as to such improvements or repairs as they may be directed by resolution of the Council to inquire and report upon. They shall also initial all accounts contracted under their care and supervision, and shall write all their reports in a book kept for that purpose.

The Finance Committee shall examine and check all accounts, and shall watch generally over the collection and expenditure of the Municipal revenues. They shall inquire and report from time to time as to all matters which they may consider to affect or to be likely to affect the finances of the Municipality, and as to such matters or subjects of the like nature as they may be directed by resolution of the Council to inquire and report upon. All such reports shall be written in a book kept for that purpose.

Made and passed at a duly convened meeting of the Balranald Municipal Council held on 18th September, 1893.

(L.S.) JOHN G. MENON,  
Mayor.

Corporate seal attached, in the presence of,—  
FRED. HABBEN,  
Council Clerk.

## NEW SOUTH WALES.

**MUNICIPALITIES.**

(MUNICIPAL DISTRICT OF MUSWELLBROOK—BY-LAWS.)

Presented to Parliament, pursuant to Act 31 Vic. No. 12, sec. 153.

Chief Secretary's Office,  
Sydney, 11th January, 1894.**MUSWELLBROOK MUNICIPALITY.—BY-LAWS.**

THE following By-laws, made by the Council of the Municipal District of Muswellbrook under the "Municipalities Act of 1867," and the "Muswellbrook Cattle Sale Yards Act of 1886," having been respectively confirmed and approved by His Excellency the Governor, with the advice of the Executive Council, are published in accordance with the requirements of the above-cited Acts.

GEORGE R. DIBBS.

**MUSWELLBROOK MUNICIPAL MARKET REGULATIONS.**

1. The Market shall be called the Muswellbrook Municipal Market, and shall comprise the reserve known as the Market Reserve, Market and William Streets, and such portions of any buildings erected thereon as may from time to time be allotted for that purpose.

2. The Market shall be open every day during the year from six o'clock in the morning to six o'clock in the evening, excepting Sundays, Christmas Day, and Good Friday.

3. The Council shall appoint a Clerk of the Market, who shall have charge of the Market under the supervision of the Council, and shall see that all By-laws made by the Council in reference to such Market are enforced.

4. The Clerk of the Market shall preserve order and regularity in such Market, and may remove therefrom any person infringing any of the By-laws or misconducting himself or herself in any way whatsoever.

5. There shall be paid to the Clerk of the Market, in respect of any goods sold therein, a sum equal to one per centum on the gross proceeds of the sale by way of dues, and the seller shall pay all dues demandable in respect of any goods sold to the Clerk of the Market on the day of sale.

6. No person shall expose for sale in the Market any bad or unwholesome articles; and any person bringing any such articles into the Market shall, upon being requested so to do by the Clerk of the Market, remove the same forthwith, otherwise the same may be seized and destroyed by the Clerk of the Market, and the cost of such seizures and destructions recovered in addition to the penalty for the breach of this By-law.

7. No person shall bring or leave any offensive matter, dirt, or rubbish upon the Market premises.

8. All goods remaining upon the Market premises more than three days shall be charged storage, if housed, at the rate of (1s.) one shilling, and if in the open, 6d., for every cwt. or part thereof per day; and all moneys due for storage shall be paid to the Clerk before the removal of the goods.

9. All animals brought into the Market premises shall be kept under proper control.

10. Every person who shall be guilty of any offence against any of the foregoing By-laws shall be liable to a penalty not exceeding forty shillings.

Passed by the Council of the Municipality of Muswellbrook, on the 25th October, A.D. 1893.

The Corporate seal of the Municipality was affixed hereto, this 25th day of October, 1893.

(L.S.) EDWARD BOWMAN,  
S. J. DOWELL, Mayor.  
Council Clerk.

**BY-LAWS.**

To regulate the interment of the dead in the existing and future Cemeteries within the Municipality of Muswellbrook.

1. That no interments shall take place within the Municipality, except between the hours of six in the morning and six in the evening.

2. That all graves shall be of the full depth of 6 feet.

3. That not more than one adult shall be interred in each grave.

4. That each grave shall be at least 1 foot laterally apart from any other grave.

5. That no body shall be interred within the distance of 15 feet from any public building, place of public worship, school-room, dwelling-house, public pathway, road, or place whatsoever within the Municipal District: Provided always that the aforesaid restriction shall not apply to any land within any Cemetery acquired by any person or persons for the purpose of interring their dead therein before these By-laws shall take effect.

6. That any person committing a breach of any of these By-laws shall be liable to a penalty of not more than twenty pounds (£20).

Passed by the Council of the Municipality of Muswellbrook, on the 25th day of October, A.D. 1893.

The corporate seal of the Municipality was affixed hereto, this 25th day of October, A.D. 1893.

(L.S.) EDWARD BOWMAN,  
S. J. DOWELL, Mayor.  
Council Clerk.

## AMENDED BY-LAW

For the maintenance, regulation, and management of the Muswellbrook Municipal Cattle Sale-yards.

That By-law No. 11, made and passed under the provisions of the Muswellbrook Cattle Sale Yards Act of 1886, be amended as follows :—

1st. By inserting the word halfpenny in lieu of the words one farthing after the words "for every sheep, lamb, or goat, the sum of (in line nine)."

2nd. By the insertion of the words one penny in lieu of the words three pence after the words "and for every pig the sum of" (in line ten).

Passed and adopted by the Council of the Municipality of Muswellbrook, on the 27th September, A.D. 1893.

The corporate seal of the Municipality was affixed hereto, this 27th day of September, A.D. 1893.

(L.S.) EDWARD BOWMAN,  
Mayor.

S. J. DOWELL,  
Council Clerk.

11. The following fees and charges shall be paid and taken for all cattle brought to the said Cattle Sale-yards or yarded in or brought to any other Sale-yards or premises within the Municipality of Muswellbrook for sale, that is to say :—

For every horse, mare, gelding, foal, ass, or mule, the sum of one shilling; for every bull, cow, ox, heifer, steer, or calf in fat stock, the sum of sixpence; for every bull, cow, ox, heifer, steer, or calf in store stock, the sum of two pence; for every sheep, lamb, or goat, the sum of one halfpenny; and for every pig, the sum of one penny.

Provided that one half of the fees actually charged shall be refunded in cases where the stock is not sold; and if any person shall obtain such refund by wilfully making any false or incorrect statement, he shall, without reference to any other liability, forfeit and pay a penalty not exceeding five pounds nor less than ten shillings.

Passed and adopted by the Council of the Municipality of Muswellbrook, on the 27th day of September, A.D. 1893.

The corporate seal of the Municipality was affixed hereto, this 27th day of September, A.D. 1893.

(L.S.) EDWARD BOWMAN,  
Mayor.

S. J. DOWELL,  
Council Clerk.

1894.

## NEW SOUTH WALES.

**MUNICIPALITIES.**

(MUNICIPAL DISTRICT OF CABRAMATTA AND CANLEY VALE.—BY-LAWS.)

**Presented to Parliament, pursuant to Act 31 Vic. No. 12, sec. 153.**Chief Secretary's Office,  
Sydney, 11th January, 1894.

## CABRAMATTA AND CANLEY VALE MUNICIPALITY.—BY-LAWS.

THE following By-laws, made by the Council of the Municipal District of Cabramatta and Canley Vale, under the "Municipalities Act of 1867," having been confirmed by His Excellency the Governor, with the advice of the Executive Council, are published in accordance with the requirements of the above-cited Act.

GEORGE R. DIBBS.

## BY-LAWS of the Municipality of Cabramatta and Canley Vale.

## PART I.

## Ordinary meetings.

1. Ordinary meetings of the Council shall be held on such days that may be appointed by resolution, to commence at 8 o'clock p.m. When the day so fixed is a public holiday, the meeting shall stand over until the next legal day.

## Chairmanship.

2. Should the Mayor be absent a quarter of an hour after the time for commencing any meeting, a temporary Chairman shall be elected from the Aldermen present.

## Quorum.

3. In the event of a quorum not being present within half an hour after the time for commencement, the names of the Aldermen present shall be entered on the minutes and the meeting then lapse.

## Order of business.

4. The following shall be the order of business at ordinary meetings:—

1. Minutes of previous meeting to be read, corrected if erroneous, confirmed by motion, and verified by the signature of the Mayor or Chairman.
2. Correspondence to be read or laid before the Council, and dealt with.
3. Petitions to be presented and dealt with.
4. Reports from Committees, and minutes from the Mayor or officers, to be read and dealt with.
5. Questions upon matters concerning the Council to be put and replied to, and statements of facts or circumstances requiring attention from the Council to be made.
6. Motions of which notice has been given, in the order appearing on the business paper.
7. Orders of the day in like manner.

Provided that the Council may by special resolution deal with any item of business out of its regular order, and may also direct that any motion or business shall have precedence at a future meeting.

## Special meetings.

5. At special meetings after the reading of the minutes, the business shall be taken in such order as the Mayor or Alderman at whose instance the meeting has been called may direct.

## Minutes.

6. No discussion of the minutes shall be allowed except on the point of accuracy.

## Correspondence.

7. The Mayor or Chairman shall direct the order in which correspondence is laid before the Council and decide as to letters being read in full or epitomised: Provided that at the request of an Alderman any letter or portion thereof shall be fully read. And no letter shall be read by any Alderman except at the Chairman's request or with the concurrence of the Council.

## Answers to questions.

8. The Mayor may decline to give answers to questions unless he shall have had twenty-four hours' notice.

## Writing out motions.

9. All motions and amendments shall be in writing and signed by the mover.

## Discussion.

10. No motion or amendment shall be discussed until it has been proposed and seconded.

## Amendments.

11. No second amendment shall be taken into consideration until the first amendment has been disposed of. Any amendment that may displace the original motion shall then become the motion and be subject to further amendment.

## Limitation of speaking.

12. No Alderman shall speak longer than ten minutes on any motion or amendment without consent of the Council. Movers of original motions only shall have the right of reply to objections, but in such reply shall not introduce new matter. Aldermen may speak but once upon a motion or amendment, unless by way of explanation and with permission of the Chairman.

## Motions by absentees.

13. Notices of motion in the name of absent Aldermen shall not be gone on with except by some other member of the Council under written authority.

## Dividing and submitting motions.

14. The Mayor or Chairman may direct that a complicated motion or amendment shall be divided before being put to the vote. Voting shall be by show of hands, the amendment, if any, being first submitted. Motions and amendments may be put as often as the Chairman deems necessary to enable him to declare the result.

## Refusing to vote.

15. A division of the Council may be called for by any Alderman. In such cases the names and votes shall be recorded in the minutes. Any Alderman present at a division and refusing to vote shall be liable to a penalty of not more than one pound.

## Formal procedure.

16. Aldermen when speaking shall stand up (unless suffering from illness, infirmity, or disablement), and they shall address and speak of each other according to their official designations, as Mayor, Chairman, or Alderman, as the case may be.

## Pre-audience and interruption.

17. If two or more Aldermen claim to speak at the same time, the Mayor or Chairman shall decide who shall first be heard. No Alderman shall be interrupted while speaking, unless on a point of order.

## Digression and imputation.

18. No Alderman shall digress from the subject under discussion, nor impute improper motives to any other member of the Council.

## Keeping order.

19. The Mayor or Chairman shall preserve order, and his decision upon disputed points of order or practice shall be final in that particular case. He may call any Alderman to order whenever in his opinion there is a necessity for so doing. When requested by any member of the Council to decide points of order or practice, he shall state the rule or provision applicable to the case, and there shall be no discussion of the same. Any Alderman dissatisfied with this decision may, by notice of motion, invite the Council to agree to a different rule or principle, and any rule or principle thus determined upon shall be binding until it be rescinded. Any Alderman, either in Council or Committee, who shall have been called to order by the Chairman, persisting in any line of conduct or speech which shall have been declared disorderly, who refuses to make such apology or explanation as the majority of the Aldermen may consider satisfactory, shall be liable to a penalty of not more than five pounds.

## Protests.

20. Aldermen may protest against any motion passed at a Council meeting, and such protest shall be recorded in the minutes. The protest must be handed in at the same meeting and be in writing.

## Lapsed business.

21. Motions or business interrupted by the absence of a quorum shall be resumed at the point of interruption at the next ordinary meeting.

## Reports.

22. Reports from Committees, except simple progress reports, shall be in writing, and bear the signature of the Chairman. On presentation of such reports the only motions permissible shall be for the reception of the report, or that it be received and made an order of the day for that or for some future meeting, except motions with respect thereto of which due notice shall have been given.

## Mayoral powers.

23. The Mayor may direct the attention of the Council to any matter or subject which he may deem deserving of consideration, either orally or by written minute. He shall exercise a general supervision over all officers and servants of the Council, and may direct the preparation of any return or statement, or the giving of any explanation by officers or servants, as he may consider necessary.

## Motions involving expenditure.

24. All motions directly entailing expenditure shall include an estimate of the probable expense.

## Calls of Council.

25. A call of the Council may be ordered by motion on notice for the consideration of any matter or business, and it shall be made as follows, immediately before the said business is entered upon:—The Mayor, or Council Clerk, shall call out the names of the Aldermen in alphabetical order, and each Alderman shall answer to his name. A record shall be made of those members of the Council who are absent (except upon

leave of absence previously granted), and unless they furnish what a majority of the Aldermen may consider satisfactory reasons for not being present, they shall be liable to a penalty of not more than two pounds. And any Alderman present who may refuse to vote when required to do so by the Chairman, shall be liable to a like penalty.

## Standing Committees.

26. There shall be four or more Standing Committees, including the Works Committee, Finance Committee, Lighting Committee, and By-laws Committee, the members of which shall be appointed yearly at the first meeting of the Council held after the election of Mayor. Vacancies shall be filled up as they arise, by motions in Council.

## Special Committees.

27. Special Committees may be appointed as deemed necessary for any matter or business not falling within the province of a Standing Committee. Proposers of motions for appointing such committees shall be required to name the Aldermen whom they may think it well to appoint, and also to specify the duties to be undertaken.

## Chairman of Committees.

28. Every Committee other than those of which the Mayor may be a member, shall elect a permanent Chairman at their first meeting.

## Calling Committee Meetings.

29. The Council Clerk shall call meetings of Committees at the request of the Chairman, or any two other members thereof.

## Records of Committee.

30. The Chairman of each committee shall cause permanent records of the transactions of such Committee to be kept, and shall hand over such records to his successor.

## Duties of Standing Committees.

31. The business to be entrusted to Standing Committees shall be as follows:—

## Works Committee.

This Committee shall have the general management of all works ordered by the Council, and the inspection of all streets, roads, ways, bridges, buildings, erections, reserves, and public places under the care of the Council. They shall inquire into and report upon repairs, improvements, and extensions, as they may think necessary, or as they may be directed by motions in the Council.

## Finance Committee.

This Committee shall examine and check all accounts, and shall maintain supervision over the collection and expenditure of the funds of the Council. They shall examine into and report on all matters affecting the finances, and on all subjects of like nature which may be referred to them.

## Lighting Committee.

This Committee shall be entrusted with the consideration of matters relating to the lighting of the Municipal District, and such other like subject as may be referred to them.

## By-laws Committee.

This Committee shall prepare all drafts of By-laws. They shall inspect records to ascertain if the By-laws are observed, and when necessary, report to the Council upon the same. They shall also report upon any other matter referred to them.

## Committee of the Whole.

32. By motion the Council may resolve itself into Committee of the Whole, and all proceedings in such Committee shall be recorded in the ordinary minute book. No person other than Aldermen and officers of the Council shall be present, except by consent of a majority of the Aldermen.

## Conduct of Committee business.

33. The By-laws for regulating the conduct of business at ordinary meetings of the Council shall apply to Committee meetings except as regards standing up to speak and speaking more than once upon a motion.

## Limitation of expenditure.

34. With the exception of emergent matters, no work affecting the funds of the Council shall be undertaken until the probable cost thereof has been ascertained.

## Emergencies.

35. For emergent matters and for necessary current expenses, outlays to the following extent may be incurred.

1. By order of the Works Committee or of the Mayor and two Aldermen, or in the absence of the Mayor, of any four Aldermen, for repairs or emergent works, in one place to the extent of five pounds.
2. By order of the Mayor for necessary current expenses, to the extent of three pounds.

Provided that a report in writing of such outlay, signed by the Mayor or Aldermen at whose instance it was incurred, be laid before the Council at its next meeting. Such outlays shall

only be permissible in reference to matters coming strictly within the functions or jurisdiction of the Council, and no outlay involving a disobedience to or evasion of any prior order or motion of the Council shall, on any pretence, be thus made.

Claims and demands

36. All monetary claims and demands against the Council shall be examined and reported on by the Finance Committee before being passed for payment.

Seal.

37. The Municipal District seal shall be in the custody of the Council Clerk, and shall not be attached to any document except in compliance with a motion made in Council. Documents to which the seal is affixed shall be signed by the Mayor and the Council Clerk, or, in the absence of the Mayor, by two of the Aldermen.

Records.

38. The Minute-book, letter book, all rate and assessment books, books of account, reports, records, statements, memoranda of receipts and expenditure, electoral rolls, records relating to elections, business papers, minutes, petitions, letters on municipal business addressed to the Council, the Mayor, or officers of the Council, orders, returns, drawings, maps, plans, contracts, specifications, agreements, and all other books and papers connected with the business of the Council, shall be deemed to be records of the Council. Any person removing any book or record of the Council from the Council Chambers without leave shall for every such offence be liable to a penalty of not more than ten pounds.

Defacing or destroying records.

39. Any person destroying, defacing, or without due authority altering any record of the Council, shall for every such offence be liable to a penalty of not more than fifty pounds nor less than five pounds.

Bonds of officers.

40. Bonds of officers of the Council shall be deposited as the Council may from time to time direct. No Alderman or officer of the Council shall be accepted as surety for any official.

Complaints.

41. Complaints made against officers or servants of the Council must be in writing, and must bear the signatures of the person or persons complaining. On receipt of any such complaint the Mayor shall have power to investigate the same, but must report thereon at the next meeting of the Council. In cases where a charge may be made which he may deem to be sufficiently serious, he shall have power to suspend the officer or servant implicated until the Council shall have dealt with the charge.

Leave of absence.

42. Leave of absence for the Mayor or any Alderman shall only be granted by motion in the Council after due notice.

Matters of usage.

43. In matters not herein provided for the rules and practices of the New South Wales Parliament shall be followed as far as they are found to be applicable to the proceedings of the Council.

PART II.

Rates.

1. All rates imposed by the Council shall be payable within such time after service of notice as may by motion be appointed at the Council Chambers for the time being, during recognised office hours.

Damaged premises.

2. In the event of partial or entire destruction of rated premises by fire or accident, the Council shall have power to remit an equitable proportion of the unpaid rates.

Defaulters.

3. Every half-year at least the Council Clerk shall furnish the Council with a list of persons in arrears with their rates.

Legal proceedings.

4. Proceedings for the recovery of rates shall be by action of debt in any Court of competent jurisdiction.

PART III.

1. Every occupant who shall knowingly permit any explosive or inflammable matter to remain on his or her premises in such a position or state as to endanger contiguous buildings or properties, shall be liable to a penalty of not more than five pounds, and on conviction of such an offence shall cause such explosive or inflammable matter to be removed within forty-eight hours, or be deemed guilty of a further offence under this By-law.

Inflammable fences, &c.

2. Any person who shall erect or permit the erection of any fence of brush or bushes or like inflammable material, or place or allowed to be placed a stack or heap of hay, straw, rubbish, or like substance, so as to endanger contiguous buildings or properties, shall be liable to a penalty of not more than five pounds, and upon conviction of such an offence shall, within forty-eight hours, remove all such materials or substances or be deemed guilty of a further offence under this By-law.

Bonfires or fireworks.

3. Every person who shall light a bonfire or discharge any fireworks in such manner as to endanger any building, or shall discharge any firearm upon or within sixty yards of any right-of-way or public place, shall be liable to a penalty of not more than five pounds.

Firing chimneys.

4. Every person who shall wilfully set, or cause to be set on fire, any chimney-flue, (smoke-vent, or stove-pipe, shall be liable to a penalty of not more than five pounds.

PART IV.

New roads, &c.

1. No new right-of-way, park, or other place proposed to be dedicated to the public, shall be taken under the care or management of the Council until after such right-of-way or public place shall have been formed to the reasonable satisfaction of the Committee of Works; and the Council shall not be bound to take charge of or spend money upon, or vote money for, any new street that is not 66 feet wide, and that does not connect at each end with another street or right-of-way.

Plans and dedications.

2. If the Council determine to take charge of any new right-of-way or place, the plan or plans of the same shall be preserved as records of the Council, and the proprietor or proprietors shall execute such dedicatory instruments as may be considered necessary by the Council.

Street levels.

3. The Works Committee or officer appointed by the Council in that behalf, shall be the authority for marking out, and shall fix, mark, and lay out the levels of all public rights-of-way, and the carriage and foot ways thereof, which now are or shall hereafter be under the control of the Council. And in marking out such public rights-of-way recourse shall be had, when practicable, to the plans under which the land with frontages to such rights-of-way shall have been sold or let: Provided that there shall be no change of level as aforesaid until the same shall have been submitted to and approved by the Council; and provided further, that this By-law shall be read subject in all respects to "The Width of Streets and Lanes Act of 1881." Whenever it may be deemed necessary to alter the levels of any right-of-way the Council shall cause to be exhibited at the Council Chambers for fourteen day, a plan and section showing the proposed cuttings for the information of all concerned, and shall notify by advertisement in some newspaper circulating in the Municipal District that such plan is open for inspection. And after such plan and section has been formally adopted by the Council, it shall be signed by the Mayor or Chairman and countersigned by the Council Clerk, and shall then become a record.

Street names.

4. The Council shall have power to alter the name of any right-of-way, and as soon thereafter as may be convenient shall cause a notification thereof to be advertised in some newspaper circulating in the Municipal District. The Council may also cause to be marked upon any convenient house the name of the street or place in which it is situated.

Encroachments.

5. Whenever any right-of-way has been marked out in the manner hereinbefore provided, no structure shall (except as hereinafter permitted) be allowed to project over or encroach on any part thereof; nor shall any structure be erected upon or excavation made in or under such thoroughfare, unless with the consent, in writing, of the Council. Every person offending against this By-law shall be liable to a penalty of not more than five pounds.

Disturbing footways.

6. Whenever the footway in any right-of-way has been flagged or asphalted, its surface shall not be broken or interfered with, except by permission of the Mayor. Every person offending against this By-law, or guilty of wilfully or maliciously injuring the paving or asphaltting on such footway, shall be liable to a penalty of not more than five pounds.

Street protection.

7. Every person about to erect or to take down any building, or to alter or repair the outward part of any building, or causing the same to be done, whereby any portion of a right-of-way may be obstructed, before beginning the same shall cause sufficient hoards or fences to be erected and white-washed

to separate the site of the building from the right-of-way; and shall also cause to be erected a convenient covered platform outside the hoard or fence for the protection of foot-passengers, and shall maintain such hoard or fence and platform in good condition, to the satisfaction of the Council, during such time as they may be needed for public protection and convenience; the said platform to be at least seven feet in height and one-third of the width of the footway, and to be provided with a handrail, and sufficiently lighted from sunset to sunrise. Persons failing to carry out the provisions of this By-law shall be liable to a penalty of not more than five pounds.

Overhanging trees, &c.

8. If the owner or occupier of any land abutting on a right-of-way permit a tree, shrub, or plant to overhang the footway, and on demand of the Council or one of their authorised officers, shall refuse to cut or lop such tree, shrub, or plant to the height of eight feet at least, the Council by their servants may cut or lop the same without being deemed trespassers.

Stoppage or traffic.

9. The Council shall have power to cause the traffic of any right-of-way, or any portion thereof, to be stopped, to admit of repairs or for any necessary purpose; and any person removing or interfering with any obstruction erected for stopping such traffic, shall be liable to a penalty of not more than five pounds.

Interfering with streets.

10. Any person who shall form or open any drain, or remove or cause to be removed any turf, sand, or stone, or other material from a right-of-way or other public place without the consent of the Council, in writing, or who shall wantonly break up or otherwise damage the surface of any right-of-way or public place, shall be liable to a penalty of not more than five pounds.

Holes and excavations.

11. Any person who shall leave or cause to be left any hole or excavation upon or adjoining a right-of-way without a good or sufficient enclosure for public protection, shall be liable to a penalty of not more than five pounds.

Obstructions.

12. Any person who shall cause or allow any obstruction to be placed or remain on any portion of a right-of-way or public place without consent of the Council, in writing, and without keeping the same properly lighted from sunset to sunrise, shall be liable to a penalty of not more than five pounds.

Street damage.

13. Any person who shall wilfully or negligently injure or cause to be injured any kerbstone or gutter, shall be liable to a penalty of not more than five pounds, and shall also bear the expense of repairing the injury.

Injuring trees, &c.

14. Any person who shall wilfully injure or cause to be injured any tree, plant, or herbage growing in or upon any park, right-of-way, or public place under control of the Council, shall be liable to a penalty of not more than five pounds.

Indecency.

15. Any person who shall in any right-of-way or public place expose to view or distribute any placard, handbill, document, or thing, of an indecent character, shall be liable to a penalty of not more than two pounds.

PART V.

Dead animals.

1. If an animal die in the Municipal District, and the owner or person in charge thereof shall not, as soon as notified of the same by an officer of the Council, burn or otherwise dispose of the carcase so that no nuisance can result therefrom, he shall be liable to a penalty of not more than five pounds. And if the owner or person in charge of any animal lying dead neglect to remove the same, or shall not be known or discoverable at the time, the Council may cause the carcase to be removed and destroyed, and recover the expenses thereby incurred from such owner or person in charge by action at law.

Keeping swine.

2. No swine shall be kept in any house, building, yard, garden, or place within one hundred feet of any right-of-way, public place, or dwelling, under a penalty of not more than two pounds.

Clean premises.

3. The occupier of any land or premises on which there shall be any stable, cow-yard, cattle-shed, or pig-sty, shall cause the said premises to be kept in such a state as not to be a nuisance or injurious to health, under a penalty of not more than five pounds.

Power to inspect.

4. The Inspector of Nuisances or any other authorised officer of the Council shall have power, on any legal day between the hours of ten in the morning and four in the evening, to enter and inspect any house or premises which he has reason to believe are in an offensive or insanitary state, or which may have been reported to him by any householder as being in such a state: Provided that in every case he shall at the next meeting of the Council make a report of such visit and inspection. Any person refusing admittance, or hindering or obstructing an officer in the discharge of this duty, to be liable to a penalty of not more than five pounds.

Innoxious deposits

5. It is hereby provided that nothing in these By-laws shall be construed to prevent the use, as manure, in or upon any land or garden, of the contents of any earth-closet, privy, or other like convenience, or of blood, offal, soil, ashes, or other matter, when such contents or matter are deposited and used in a properly deodorised state, and so as not to cause a nuisance, or be offensive, or be a menace to health, either at the time of deposit or subsequently.

The foregoing By-laws were duly made and passed by the Municipal Council of the Municipal District of Cabramatta and Canley Vale, this twenty-seventh day of April, one thousand eight hundred and ninety-three.

The Seal of the Cabramatta and Canley Vale Municipal District was hereto affixed this 27th day of April, 1893.

H. R. JONES, Council Clerk. (l.s.) H. F. LATHAM, Mayor.

(BOROUGH OF WEST MAITLAND.—BY-LAWS.)

**Presented to Parliament, pursuant to Act 31 Vic. No. 12, sec 158.**

Chief Secretary's Office, Sydney, 25th January, 1894.

**WEST MAITLAND MUNICIPALITY.—BY-LAWS.**

THE following By-laws, made by the Council of the Borough of West Maitland under the "Municipalities Act of 1867," having been confirmed by His Excellency the Governor, with the advice of the Executive Council, are published in accordance with the requirements of the above-cited Act.

GEORGE R. DIBBS.

**BY-LAWS for Regulating and Licensing Hansom Cabs and Buggies plying for hire within the Borough of West Maitland.**

THE Council of the Borough of West Maitland do, by virtue of the power and authority vested in such Council by the "Municipalities Act of 1867," hereby make the following By-laws for the position of Public Stands for Hansom Cabs and Buggies plying for hire within the said Borough of West Maitland:—

High-street, extending from Little Hunter-street to the premises occupied by Mr. Newman as a cooperage, and to be a Stand for four cabs.

High-street, from the entrance to Bruce's-lane to the east boundary of the Adelphi premises, and to be a Stand for four cabs.

Elgin-street, in front of the premises known as the Hustings on the eastern side of Elgin-street, and to be a Stand for two cabs only.

Made and passed by the Borough Council of West Maitland, this eighth day of December, one thousand eight hundred and ninety-three.

**MUNICIPALITIES.**

(BOROUGH OF WEST MAITLAND.—BY-LAWS.)

Presented to Parliament, pursuant to Act 31 Vic. No. 12, sec. 158.Chief Secretary's Office,  
Sydney, 12th April, 1894.

## WEST MAITLAND MUNICIPALITY.—BY-LAWS.

THE following By-laws, made by the Council of the Borough of West Maitland under the "Municipalities Act of 1867," having been confirmed by His Excellency the Governor, with the advice of the Executive Council, are published in accordance with the requirements of the above-cited Act.

GEORGE R. DIBBS.

THE Council of the Borough of West Maitland do, by virtue of the power and authority vested in such Council by the Municipalities Act of 1867, hereby repeal By-law No. 7, for regulating and licensing omnibuses, waggonettes, cars, and hackney carriages plying for hire within the Borough of West Maitland, made and passed by the said Borough Council on the thirtieth day of March, 1886, and published in the Government Gazette of fifteenth of July, 1886, No. 391, folio 4712; also, By-law No. 8, for regulating and licensing hansom cabs and buggies plying for hire within the Borough of West Maitland, made and passed by the said Borough Council on the thirtieth day of March, 1886, and published in the Government Gazette of fifteenth July, 1886, No. 391, folio 4714; and By-law No. 1, for licensing the drivers and conductors of omnibuses, waggonettes, cars, and hackney carriages, and the drivers of hansom cabs and buggies plying for hire within the Borough of West Maitland, made and passed by the said Borough Council on the thirtieth day of December, 1887, and published in the Government Gazette of thirty-first December, 1888, No. 801, folio 9198, and make the following By-laws in the place and instead of such repealed By-laws:—

By-law No. 1. For every license for every such omnibus, waggonette, car, hackney carriage, hansom cab, and buggy plying for hire within the Borough of West Maitland, and for

every renewal thereof, there shall be paid to the said Borough Council the sum of one pound annually, if the license be granted on or after the first day of January and on or before the thirty-first day of March in every year; and if after that date, then the following proportions: If on or before the thirtieth day of June, the sum of fifteen shillings; if on or before the thirtieth day of September, the sum of ten shillings; and if after that date, the sum of five shillings.

By-law No. 2. The license of every driver of every omnibus, waggonette, car, hackney carriage, hansom cab, and buggy so plying for hire within the said Borough shall be granted quarterly, at a charge of one shilling and three pence for each such license. Such license shall not be transferable, and shall terminate at the end of the quarter for which it was issued, namely, upon the last day of March, June, September, or December, as the case may be.

Made and passed by the Borough Council of West Maitland, this twelfth day of January, 1894.

(L.S.) H. CROTHERS,  
Mayor.

THOMAS HUGHES,  
Council Clerk.

(MUNICIPAL DISTRICT OF DENILIQVIN.—ADDITIONAL BY-LAW.)

Presented to Parliament, pursuant to Act 31 Vic. No. 12, sec. 153.Chief Secretary's Office,  
Sydney, 5th March, 1894.**DENILIQVIN MUNICIPALITY.—ADDITIONAL BY-LAW.**

THE following additional By-law, made by the Council of the Municipal District of Deniliquin under the "Municipalities Act of 1867," having been confirmed by His Excellency the Governor, with the advice of the Executive Council, is published in accordance with the requirements of the above-cited Act.

GEORGE R. DIBBS.

**MUNICIPAL DISTRICT OF DENILIQVIN.**

By a resolution passed by the Municipal Council of Deniliquin, at a meeting held on the 13th day of November, 1893, the following additional By-law, made under the provisions of the "Municipalities Act of 1867," was ordered to be inserted in Part 4 of the said Municipal Council's By-laws:—

**PART 4.**

No. 22. No cart, waggon, dray, omnibus, car, carriage, or other vehicle drawn by horse or horses, bullock or bullocks, whose load shall exceed 8 tons, will be permitted to cross any culvert, bridge, or box drain made by or under the custody and care of the Council of the Municipal District of Deniliquin; and no engine or other vehicle drawn by horses or bullocks, or propelled by any other power, whose total weight shall exceed 11 tons, will in like manner be permitted to cross any culvert, bridge, or box drain made by or in the custody and care of the said Council. And any person in charge of such cart, waggon, dray, omnibus, car, carriage, engine, or any other vehicle drawn by horse or horses, bullock or bullocks, or propelled by any other power, offending against any of the foregoing provisions, shall, upon conviction, forfeit and pay for every such offence a sum not exceeding £5 nor less than £1 over and above the damage caused thereby.

Made and passed by the Municipal Council of Deniliquin, this thirteenth day of November, 1893.

Sydney, 19th April, 1894.**HURSTVILLE MUNICIPALITY.—BY-LAWS.**

THE following By-laws, made by the Council of the Municipal District of Hurstville under the "Municipalities Act of 1867," having been confirmed by His Excellency the Governor, with the advice of the Executive Council, are published in accordance with the requirements of the above-cited Act.

GEORGE R. DIBBS.

*Lights on vehicles.*

Every person whilst driving, leading, or riding upon any cart, carriage, wain, waggon, buggy, or other vehicle whatsoever drawn by any horse, ass, mule, or other animal through any part of the Municipality, between the hours of sunset and sunrise, shall carry a lighted lamp affixed in a conspicuous place on the off side of such cart, wain, waggon, buggy, or other vehicle, under a penalty of five shillings for the first offence, and for every subsequent offence not less than ten shillings nor exceeding ten pounds.

*Lights on bicycles, &c.*

Any person who shall ride upon any bicycle, tricycle, or velocipede through any road, street, or lane within the said Municipality, between the hours of sunset and sunrise, shall carry a light in front of such bicycle, tricycle, or velocipede, under a penalty of five shillings for the first offence, for the second offence a sum not exceeding five pounds, and for a third and every subsequent offence a sum not exceeding ten pounds nor less than one pound for each such offence.

Made and passed by the Municipal Council of the Municipal District of Hurstville, this seventh day of December, one thousand eight hundred and ninety-three.

(L.S.) J. G. GRIFFIN,  
Mayor.GEO. LEEDER,  
Council Clerk.

**MUNICIPALITIES.**

(BOROUGH OF WAGGA WAGGA.—BY-LAWS.)

Presented to Parliament, pursuant to Act 31 Vic. No. 12, sec. 153.Chief Secretary's Office,  
Sydney, 3rd May, 1894.

## WAGGA WAGGA MUNICIPALITY.—BY-LAWS.

THE following By-laws, made by the Council of the Borough of Wagga Wagga under the "Municipalities Act of 1867," having been confirmed by His Excellency the Governor, with the advice of the Executive Council, are published in accordance with the requirements of the above-cited Act.

GEORGE R. DIBBS.

## WAGGA WAGGA MUNICIPALITY.—BY-LAWS.

391. Any person offending against any of the By-laws of the Borough of Wagga Wagga for which no other penalty is provided by such By-laws shall forfeit and pay for each offence a penalty not exceeding five pounds.

392. No person, unless duly authorised in that behalf by the Council of the Borough of Wagga Wagga, shall remove or alter the position of any seat, structure, or other thing placed in any of the reserves or parks under the control of the Council of the said Borough. Any person offending against this By-law shall, for each offence, forfeit and pay any sum not exceeding ten pounds and not less than one pound.

The above By-laws were passed and adopted by resolutions at meetings of the Council of the Borough of Wagga Wagga, held at the Council Chambers, at Wagga Wagga, on the 20th November, 1893, and 14th December, 1893, respectively; and under the authority of resolutions of the said Council the Common Seal was authorised to be set hereto.

Dated this 19th day of March A.D. 1894.

GEO. SMITHIES,  
Council Clerk.(L.S.) JOHN J. M'GRATH,  
Mayor.

**MUNICIPALITIES.**

(BOROUGH OF KIAMA—BY-LAWS.)

Presented to Parliament, pursuant to Act 31 Vic. No. 12, sec. 153.

Chief Secretary's Office,  
Sydney, 6th June, 1894.**KIAMA MUNICIPAL BY-LAWS.**

THE following By-laws, made by the Council of the Borough of Kiama under the "Municipalities Act of 1867," having been confirmed by His Excellency the Governor, with the advice of the Executive Council, are published in accordance with the requirements of the above-cited Act.

GEORGE R. DIBBS.

**BOROUGH OF KIAMA.**

THE following By-law in regard to Public Baths shall be substituted for and read as By-law sixty (60) of Part IV of the general code of By-laws for the abovenamed Borough of Kiama:—

I. Any person who shall, except in proper costume, bathe in the public baths situate on the reserves dedicated for public baths within the said Borough, shall on conviction forfeit and pay a sum not less than five shillings nor more than ten shillings.

II. Whosoever shall deposit any excrement, night-soil, urine, slops, or filth into or upon the said public baths or reserves, or suffer such excrement, night-soil, urine, slops, or filth to run in to or be brought therein, shall for each such offence on conviction forfeit and pay a sum not less than ten shillings nor more than twenty shillings.

III. Whosoever shall wash, cleanse, throw, or cause to be thrown into the said public baths any animal, whether dead or alive or shall do anything whatever towards the defilement of the water, save lawfully and orderly bathing therein, shall on conviction for every such offence forfeit and pay a sum not less than one pound sterling nor more than five pounds sterling.

Made and passed by the Municipal Council of the said Borough of Kiama, this 15th day of March, 1894.

(L.S.) M. N. HINDMARSH,  
Mayor.JOHN HOLBROOK,  
Council Clerk.

**MUNICIPALITIES.**

(MUNICIPAL DISTRICT OF ADAMSTOWN.—BY-LAW.)

Presented to Parliament, pursuant to Act 31 Vic. No. 12, sec. 153.Chief Secretary's Office,  
Sydney, 6th June, 1894.

## ADAMSTOWN MUNICIPALITY.—BY-LAW.

THE following By-law, made by the Council of the Municipal District of Adamstown under the "Municipalities Act of 1867," having been confirmed by His Excellency the Governor, [with the advice of the Executive Council, is published in accordance with the requirements of the above-cited Act.

GEORGE R. DIBBS.

THE Council of the Municipal District of Adamstown do, by virtue of the power and authority vested in such Council by the "Municipalities Act of 1867," hereby repeal By-law No. 1 of Part 1, for determining the time for holding the ordinary meeting of the said Council, made and passed by the said Municipal Council on the 15th September, 1887, and published in the Government Gazette of 8th February, 1888. No. 91, and make the following By-law in the place and instead of such repealed By-law:—

By-law No. 1. The Council shall meet for the despatch of business at the hour of 7 p.m. every alternate Wednesday, unless such day shall happen to be a public holiday. In the latter case, the meeting shall be held on such other day as the Mayor may appoint.

Made and passed by the Council of the Municipal District of Adamstown, this nineteenth day of April, 1894.

(L.S.) JOHN THWAITES,  
Mayor.WILLIAM BROWN,  
Council Clerk.

1894.

NEW SOUTH WALES.

## DEPARTMENT OF LANDS.

(FOURTEENTH ANNUAL REPORT.)

Printed in accordance with Resolutions of both Houses of Parliament.

To The Hon. Henry Copeland, Esq., M.P., Secretary for Lands.

Sir,

Department of Lands, Sydney, 28 April, 1894.

I have the honor to submit, for your information, the Fourteenth Annual Report of the Department, dealing with the business of the year 1893.

Upon a perusal of the Report it will be apparent that under some of the principal heads there has been a marked shrinkage in the transactions which come under this Department. Without seeking to account for the whole of the causes which may have contributed to this, there is no doubt that the sudden demand for land which arose under the special circumstances of a few years back, has to some extent exhausted itself, while the prospect of new legislation and of fresh areas being thrown open has probably induced many persons to keep themselves for the present in reserve; but apart from this the condition of financial pressure through which the Colony has been passing must unquestionably be accepted as a potent factor in the result.

The fact, however, is not to be overlooked that the reduction in the number of new applications for land leaves the previously accumulated work of the Department still to be met, and that whatever one year's addition to it may be, it nevertheless represents an increase, the mere making of an application being only the initial stage of a case which, during the whole life of a purchase or lease, is continually coming before the Department. At the same time the lessening of the abnormal pressure which had been cast upon the Department just as the staff had been remodelled and reduced has lent itself to economical arrangements which otherwise would not have been practicable.

*New Legislation.*

The year 1893 witnessed the introduction of the Crown Lands Purchases and Leases Validation Act (57 Vic. No. 9), which, however, was not assented to until the 4th March, 1894, and the passing into law of the Labour Settlements Act, 56 Vic. No. 34.

The Act, 57 Vic. No. 9, validated several titles to land (comprising forty-six conditional purchases under the Repealed Acts; eighty-three conditional purchases under the Acts at present in force; and six miscellaneous cases), the defects in which were specifically mentioned in schedules appended to the Act; and at the same time set at rest about 280 conditional purchases, and about thirty conditional leases, the invalidity of which had become manifest by the decisions of the Supreme Court in the cases of England and Baird, Baldwin, and Balfe respectively. The judgment in the case of England and Baird was that an original conditional purchase could not be made by two or more persons; in Balfe's case, it was decided that a conditional purchase of land within a special area in the Eastern Division could not form the basis of an application for a conditional lease of ordinary Crown lands

lands outside the special area; while, in Baldwin's case, it was held that a conditional purchase made under section 22 of the Crown Lands Alienation Act of 1861 was not an original purchase within the meaning of section 42 of the Crown Lands Act of 1884. The interests of the persons affected by those decisions were protected by section 6 of the Act referred to.

The Labour Settlements Act of 1893, 56 Vic. No. 34, provides for vacant Crown lands being made available, by notice in the *Gazette*, for the purpose of labour settlements, and for the management of such settlements by Boards of Control. Each Board is to consist of not less than eight and not more than sixteen persons, to whom the lands may be leased for a term not exceeding twenty-eight years, with a right of renewal for a further term not exceeding the same maximum period. The rent (which is determined by the Minister after appraisalment by the Local Land Board) does not commence until after the expiration of four years from the date of the approval of the lease.

One of the first duties required of a Board is the enrolment, as members of the settlement, of a certain number of such persons as are defined by regulations under the Act as eligible for the purpose. Upon the completion of the work of enrolment, in a manner satisfactory to the Minister, a certain sum may be paid—by way of a loan—to the Board, who are held as Trustees of the money; and this sum, with interest at 4 per centum, has to be ultimately repaid by annual instalments of 8 per centum of the total amount advanced. Like the rent, the first repayment is not required until after the expiration of four years from the commencement of the lease. The amount of the loan is determined by the condition in life of the persons accepted as members of the settlement—not being in excess of £25 for each member who is the head of a family dependent upon him; £20 for each married person without a dependent family; and £15 for an unmarried person.

The Board is empowered to establish any trade or industry, and to dispose of and apportion the proceeds therefrom amongst the members of the settlement after making provision for the cost of their maintenance; to sublet the land vested in it to any enrolled member at a rent and upon terms and conditions to be approved by the Minister; and to make regulations relating to the work to be done and its apportionment among the members; the collection and application of moneys, and the cleanliness, good order, and government of the settlement, &c.

The Governor is empowered to make, and has already made, regulations prescribing the class of persons to be enrolled in a labour settlement, and the priorities in which their applications are to be considered; the accounts to be kept by Boards of control of moneys received and expended by them; the duties of Boards as defined in the Act; and such other matters as may be found necessary or desirable for the purposes of the Act.

On page 8 of this Report an account will be found of the labour settlements which have so far been initiated.

#### *Judicial Decisions.*

The following cases came, some before the Supreme Court and one before the Privy Council; and brought about the settlement of several important questions under the Land Acts.

The lessees of the Roto leasehold area, which came within a district proclaimed as rabbit-infested, applied to the Minister, under the Rabbit Act of 1890, for his approval of the erection of a rabbit fence which they proposed to place on the divisional line of that leasehold area and the Marooba resumed area, which latter had ceased to be held under occupation license. To this application a reply was returned that as the land within the Marooba resumed area was not reserved from lease or license, the Crown was not prepared to incur any expense in making the boundaries rabbit-proof until such time as the land had been offered under one of the various forms of tenure provided by the Crown Lands Act. Notwithstanding this, the fence was erected and application made to the Minister for £121 10s. 5d., representing its half cost. The Minister, however, refused the claim, on the ground that his consent to the erection of the fence had been withheld. An application was then made for a rule *nisi* calling upon the Minister to show cause why a mandamus should

should not be issued, ordering him to consider the application for his approval of the erection of the fence; but the Supreme Court decided that, inasmuch as his approval was not obtained before the fence was erected, he could not be compelled to pay the contribution sought for. (*Ex parte* the New Zealand Loan and Mercantile Agency Co.) N.S.W.L.R., vol. xiv, p. 96.

In *re* Taylor—The Land Board at Narrabri held an inquiry on the 11th January, 1890, into the question whether Taylor had carried out the condition of residence in connection with a conditional purchase which he had applied for on the 25th March, 1886. At that inquiry the Board expressed no decision, but directed that the case should await the receipt of Taylor's final declaration. However, at a second inquiry, held on the 17th May, 1892, the Board found that the condition of residence had not been complied with, and recommended forfeiture of the conditional purchase. Taylor appealed to the Land Appeal Court against this finding on the ground that it was against evidence and the weight of evidence. His appeal was sustained. The President of the Land Appeal Court, in giving the Court's decision, said, "In this case, while feeling some doubt as to the appellant's compliance with the residence conditions, yet having regard to the circumstances disclosed by the first inquiry of the Board, and the lapse of time during which he appears to have had every reason to believe that the Board was not dissatisfied with his residence, the Court considered that it would be extremely hard at this late date (nearly seven years after taking up the land) to deprive him of it." The Minister thereupon lodged a notice requiring the Land Appeal Court to state a case for the Supreme Court in connection with the following questions:—

1. Whether the residence disclosed by the depositions was residence within the meaning of section 32 of the "Crown Lands Act of 1884."
2. Whether the course adopted by the Land Court upon the appeal was a hearing and determining of such appeal within the meaning of subsection 3 of section 8 of the "Crown Lands Act of 1889."
3. Whether the decision of the Land Court upon the said appeal was in accordance with the general principles of law governing the said Court as a Court of Appeal.

The Land Court refused to state a case, being of opinion that no question of law had arisen. Application was then made, at the instance of the Minister, for a rule *nisi* for a mandamus, directing the Land Court to do so. The Supreme Court, however, refused the rule, holding that the question before the Land Court had not been one of law but of fact. N.S.W.L.R., vol. xiv, p. 285.

In *ex parte* Higgins—The question was whether the Land Board had power in certain circumstances to award costs. The circumstances were these:—One Richard Cook lodged a complaint under subsection v of section 14 of the "Crown Lands Act of 1884," that Mrs. E. F. Higgins was not fulfilling the conditions attached to a conditional purchase she held. The complaint came before the Land Board, but Mrs. Higgins was not present, and her solicitor applied for an adjournment. The Board granted the application, but ordered Mrs. Higgins to pay £10 costs to the complainant. The Supreme Court held that the Board had no power to make the order for costs, as by the subsection referred they were empowered to award costs only in the case of a final adjudication. (Weekly notes, vol. ix, p. 186.)

In *re* Mackay—On the 20th October, 1890, one Hassall, being the holder of a mineral license marked out and took possession of certain land, which, three days afterwards, one Eldridge applied for under conditional purchase and conditional lease. The Land Board at Cooma dealt with Eldridge's applications, and came to the conclusion that Hassall had applied for the land under mineral license merely to prevent it from being conditionally purchased, and referred the case to the Land Appeal Court. That Court directed that, if the Board was satisfied the land was not *bona fide* applied for and occupied for mining purposes, Eldridge's applications should (in the absence of any other objection) be confirmed. Accordingly the applications were confirmed, and subsequently Hassall gave notice of abandonment of his prospecting area, which was declared cancelled on the 9th February, 1892.

So

So far as Hassall and Eldridge were concerned the case was at an end. On the 7th April, 1892, however, a third person (one Mackay) intervened by applying for a conditional purchase of part of Eldridge's conditional lease. The Land Board disallowed Mackay's application, and Mackay then appealed to the Land Appeal Court. That Court having dismissed the appeal a reference was, at Mackay's instance, made to the Supreme Court, the questions being whether it was competent for him by his subsequent application to question the validity of Eldridge's conditional lease, and whether Hassall's occupation of the land under the circumstances stated in the case prevented the Local Land Board from validly confirming Eldridge's application for a conditional lease. Both questions were answered by the Supreme Court in the negative. (Weekly notes, vol. x, p. 47.)

In *re McCrae* and another—The question in this case was whether the holder of a conditional purchase within a special area in the Central Division could obtain a conditional lease of land lying outside the special area. The Supreme Court held that he could. The law applying to the Eastern and Central Division in this respect therefore differs, the Supreme Court having held (in *re Balfe*, N.S.W.L.R., vol. XIII, p. 124) that the holder of a special area conditional purchase in the Eastern Division was not entitled to apply for a conditional lease. (N.S.W.L.R., vol. XIV, p. 443.)

In *re W. E. Abbott*.—In this case W. E. Abbott was the holder in fee simple of 40 acres acquired in 1871, other than by conditional purchase. Before the passing of the Crown Lands Act of 1884, he had under the provisions of section 22 of the Crown Lands Alienation Act of 1861, by virtue of his freehold made on the 27th November, 1873, a conditional purchase of 40 acres, and subsequently he made under the same Act four other conditional purchases, each of 40 acres, which together with the freehold amounted to 240 acres. The land is situated in the Eastern Division. On the 17th March, 1892, he applied for an additional conditional purchase of 150 acres, and by virtue of this conditional purchase for a conditional lease of 440 acres. His applications were refused by the Land Board (following the decision of the Supreme Court in *re Baldwin*, N.S.W.L.R. vol. XII, p. 128), on the ground that he was not the holder of a conditional purchase within the meaning of section 42 of the Act of 1884. An appeal to the Land Appeal Court was dismissed, but a case stated for the Supreme Court on the following points:—

1. Whether Abbott's conditional purchase of the 27th November, 1873, constituted him the holder of an original conditional purchase within the meaning of section 42 of the Act of 1884.
2. Whether section 2 of the Act of 1884 when enacting that "all rights accrued and obligations incurred or imposed under or by virtue of any of the said repealed enactments shall, subject to any express provisions of this Act in relation thereto remain unaffected by such repeal," preserved to Abbott the right to make additional conditional purchases of adjoining Crown lands to the full area of 640 acres allowed by the repealed Acts, less the area of the freehold portion before mentioned.
3. Whether Abbott, supposing him to have been entitled to the conditional purchase of the 17th March, 1892, was entitled in virtue of such additional conditional purchase to the conditional lease applied for by him on the same day.

The Supreme Court held that the question in the case was whether the right of selection which existed before the passing of the Act of 1884, in the then holders of land in fee simple was preserved to them by any provision of the Act of 1884. On a consideration of section 2 (b), the Chief Justice and Innes, J., were of opinion that such right was not such a "right accrued" as was preserved by that subsection, and that there is a marked distinction between the right to make an application for land, and a right which has accrued to possess that land. Their Honors were further of opinion whatever might be the true construction of the words "rights accrued," that section 3 of the Act of 1884 was a complete answer to the appellant's contention, and that inasmuch as the holder of lands in fee simple granted from the Crown could make no application for an additional conditional purchase under the "Crown Lands Act of 1884," the only application open to him was one under the former Act.

Act, and no such application could be entertained unless it had been lodged with the proper officer before the 1st January, 1885. Windeyer, J., dissented from the majority of the Court, holding that section 2 (b) preserved to the appellant the right to make additional conditional purchases to complete his full holding of 640 acres. (N.S.W.L.R., vol. xiv, p. 484.)

In *re* R. Barbour.—This was an appeal to the Privy Council from a decision of the Supreme Court. The main facts were these. Henry Ricketson made application under the Repealed Acts to purchase by virtue of improvements land lying within certain reserves from sale, the improvements upon which were shown to have been made prior to July, 1876. On the 14th December, 1889, notice of the revocation of the reserves was published in the *Gazette*, and this revocation would take effect on the 14th January, or the 13th February, 1890, according as the time for its so taking effect was thirty or sixty days from the date of notice. (On the question when revocation took effect the Privy Council inclined to the opinion—though apparently their attention had not been drawn to section 39 of the Crown Lands Act of 1889—that it matured on the expiration of thirty not sixty days.) On the 20th February, 1890, *i.e.*, after the revocation took effect, R. Barbour made an application for a Conditional Purchase, and an application for a Conditional Lease, including the land previously applied for by Ricketson. Ricketson's application had come before the Governor-in-Council and was approved on the 4th February, 1890, and notice of this approval was published in the *Gazette* of the 25th of the same month. Assuming that sixty days should expire after notice in the *Gazette* before the revocation took effect, Ricketson's application therefore was approved before the revocation had matured. Barbour's applications on coming before the Land Board were refused on the ground that the land was not Crown land but had been contracted to be granted in fee simple to Ricketson.

The Land Appeal Court, on appeal by Barbour, while thinking that the land was not open to be contracted to be granted in fee simple to Ricketson until the revocation of the reserve had taken place, held that the contract to sell was (under the Supreme Court decision in *Lord v. Clyne*) not the Governor-in-Council's approval but the notification in the *Gazette* of that approval; and that as Barbour had applied before this latter date, the land when he applied was Crown land not lawfully contracted to be granted in fee simple.

At the instance of Ricketson a case was stated for the Supreme Court, but that Court decided against him, holding that his application to purchase should have been made not during the existence of the reserves, but when the land was available for sale, and that the Governor had not the power on the 4th February, 1890, to enter into a contract to sell. Upon appeal to the Privy Council the Supreme Court judgment was reversed. Their Lordships' interpretation of the decision in *Lord v. Clyne* (contrary to that of the Land Appeal Court) was that the notice in the *Gazette* was evidence of a contract, not that the notice was itself a contract. They were, moreover, unable to concur in the view of the Supreme Court that an application to purchase (by virtue of improvements) reserved land made before the revocation was complete and the land had become open for sale, was a nullity. They said that no doubt an application to purchase reserved land made before the reservation is at an end, is of itself of no force or effect; but this is equally true of an application made after the reservation is at an end, which is of itself no more effectual than the other. Either of them is of equal validity, as the initiation of a transaction which can only be completed if the Governor, with the advice of his Council, determines to sell by appraisal. Their Lordships thought that Ricketson's application was valid though made pending the reservation, that the transaction could be validly completed by the Governor as soon as the statutory period after revocation of the reservation expired, and that the case would have to be decided in Ricketson's favour whether the statutory period was thirty or sixty days. (Weekly notes, vol. x, p. 3.)

The case of *Griffith v. Coggan*, which came before the Chief Judge in Equity on the 9th October, 1893, was one in which Griffith had transferred to Coggan a conditional purchase of 640 acres and a conditional lease of 1,920 acres. The question (which was decided against Griffith) was whether he had, as he claimed, made the transfer by way of mortgage only, or whether, as Coggan represented, the transfer

was

was an absolute sale. The document received in this Department made it appear as the latter, as stamp duty had been paid, and the consideration money stated as £300. The case is of interest merely on account of some observations made by Mr. Justice Owen as to the expediency of having different forms of transfer—a suggestion which opens up a wide question as to how far this Department should go in the matter of registration and inquiry into the nature of transfers, and which upon being referred by this Department to the Attorney-General, in view of Mr. Justice Owen's remarks, was reported to require new legislation to properly carry it out.

*Rabbit Branch.*

When the report for the year 1892 was submitted the work of rendering rabbit-proof the fence along the western side of the railway line extending from Narromine in the west to Corowa in the south was well advanced, 118 miles of the netting having actually been erected. Since that time all the contracts entered into have been satisfactorily executed, and a barrier fence starting at Barrington, on the Queensland border, and terminating at Corowa, on the River Murray, has now been completed 407 miles of wire-netting having been used in connection with this work, of which 289 miles were erected during last year.

Considerable pains have been taken to collect information regarding the work done by Crown tenants in the erection of wire-netting fences on the boundaries of their holdings. And I take the opportunity here of expressing my acknowledgments to the several banking and financial institutions and lessees, who, in response to requests from this Department, have supplied information relative to the extent and position of fences, regarding which the Department had no precise knowledge. As is well known, work of this description has been largely resorted to with the object of confining rabbits within limited areas, thereby rendering them less difficult to deal with. It is thought that the map already issued, showing the location of these fences, has served a useful purpose, and from the later edition which is appended to this report it will be seen that about 14,500 miles of rabbit-proof fencing have been erected in the Colony.

Applications have been made from time to time that additional tracts should be proclaimed rabbit infested in accordance with the 12th section of the Act, in order that the fencing provisions of the Act might become applicable to all holdings situated within these tracts; but while on one side it is urged that the adoption of such a course would lead to the erection of many more lines of fencing which would act as a check to the spread of the pest, it is urged on the other that the expense incident to work of this character would result greatly to the disadvantage of small holders who might be compelled to contribute to the cost.

The question is a difficult one, and as the policy of the Department has hitherto been to refrain from action which might be considered as unnecessarily hampering the Crown tenants, more particularly small holders, the result is that the limit of infested country (which is delineated on the appended map) has not been extended since the issue of the Proclamation in 1892.

The wire-netting fence, 346 miles in length, following the boundary between this Colony and South Australia has been found to have fully answered the purposes for which it was erected. In September last an officer was despatched to make an inspection of this fence, the result of his visit going to show that on the whole this western barrier was in an excellent state of preservation. In a few places repairs were found to be necessary and at once executed, the expense being shared by the Department and the owners of the holdings adjoining the fence.

The wire-netting fence on the northern boundary of New South Wales, the object of which was to check the influx of rabbits into Queensland, was erected by and at the sole expense of, and its care and maintenance devolve upon the Government of that Colony. The owners of holdings in New South Wales which adjoin the fence have, in enclosing their properties, thus been saved considerable expense by the fact that the work along one boundary has been carried out free of cost to them.

The supervision of the Eastern Barrier fence, which follows the railway line, has been undertaken by the Railway Commissioners, and it is found that this system works advantageously. The number of officials available are able to report defects in the fence as they occur, and these are remedied with the least possible delay by the railway employees, the expense being charged to this Department.

Although

Although the offer of a reward for making known a scheme that would result in the extermination of the rabbit pest has long since been withdrawn, the Department continues to receive letters from persons in various parts of the world, who profess to be in possession of information calculated to bring about the desired result; but, in all cases, the information disclosed is sufficient to show that the method proposed is either one, the merits of which are already known, or that it is quite unsuited to this country, where rabbits are spread over enormous areas and exist under conditions and circumstances differing from those which prevail elsewhere.

Under the 41st section of the Act any person desiring to keep live rabbits in a cage or similar enclosure, must obtain the permission of the Minister so to do, and during last year this authority was granted in two instances, but under special circumstances. On the 27th March, 1893, Hugh Dunlop was granted a license to keep 100 live rabbits in order to assist him in demonstrating the efficacy of a process by which it was hoped to bring about the extermination of the pest, and on the 2nd of June, J. M'Garvie Smith was granted authority to keep twenty live rabbits at Denison-street, Woollahra, the object being to assist in conducting certain bacteriological investigations. It may be mentioned that in each case the concurrence of the Board of Health was obtained before deciding to grant the licenses, and suitable conditions imposed.

In accordance with the powers conferred under the 31st section of the Act, steps have been taken to declare the iguana, the native cat, the tiger cat, the ferret, the mongoose, and the stoat, to be natural enemies to the rabbit, and in addition, to prohibit the destruction of any such animals without a special permit in that behalf. Upon the strength of representations made, a permit such as that referred to (subject to suitable conditions and for a period of twelve months) has been issued to Dr. N. A. Cobb, pathologist to the Department of Agriculture, who is pursuing a course of investigations regarding the parasites of stock.

*Animals Infectious Diseases Act.*

During the past year the provisions of the Act 51 Victoria No. 30 (which is intended to provide against the communication of infectious diseases to animals) were availed of in four instances only, two licenses having been issued under the 6th section, which permits the introduction and keeping of noxious and infectious microbes, and two under the 7th section, which authorises the inoculation of wild or domestic animals with such microbes.

Particulars regarding the licenses so issued will be found in the subjoined Schedules:—

SCHEDULE of Licenses under the 6th section of the "Animals Infectious Diseases Act," issued during the year 1893:—

| Name.               | Nature of License.   | Period.             |                   |
|---------------------|--|---------------------|-------------------|
|                     |  | From                | To                |
| J. A. Gunn ...      | To introduce and keep at Yalgogrin South, Pasteur's "Vaccine de Paris."  | 1893.<br>1 March... | 1894.<br>1 March. |
| Dr. W. H. Goode ... | To introduce and keep at Medical School of Sydney University the bacillus of anthrax, typhoid fever, leprosy, syphilis, tuberculosis, tetanus, and diphtheria. | 1 May ...           | 1 May.            |

SCHEDULE of Licenses under the 7th section of the "Animals Infectious Diseases Act," issued during the year 1893:—

| Name.                | Nature of License.   | Period.             |                   |
|----------------------|--|---------------------|-------------------|
|                      |  | From                | To                |
| J. A. Gunn ...       | To inoculate sheep on Yalgogrin South with Pasteur's "Vaccine de Paris."               | 1893.<br>1 March... | 1894.<br>1 March. |
| J. M'Garvie Smith... | To inoculate rabbits with micro-organisms of typhoid fever, anthrax, and tuberculosis. | 2 June ...          | 2 June.           |

Rodd Island, which for a long time has been used as a site for the cultivation of the vaccine of anthrax and black-leg, and for experiments in regard to pleuropneumonia, has again been taken possession of by this Department, the recent occupants of the island, the representatives of Mons. Pasteur, having been served with notice to vacate on the 31st of December last.

The island will not in future be available for occupation for similar purposes, and steps will now be taken to remove or demolish certain of the buildings situated thereon, and after a thorough disinfection to hand the island over to the care of Trustees, to be used as a place of public recreation in conformity with the Minister's expressed intention.

#### *Labour Settlements.*

The Labour Settlements Act having been assented to on the 13th June, 1893, steps were at once taken to obtain reports from the Chairmen of Local Land Boards and the District Surveyors as to the most suitable areas of land that might be made available for the purposes contemplated by the Act.

Upon the receipt of this information, sites thought to be well calculated to assist in successfully developing the new scheme were selected, and the professional services of Mr. Fred. Turner, F.R.H.S., secured to inspect and report upon them. His investigations embraced areas of land situated at Bungendore, Pitt Town, Bega, Campbelltown, Wilberforce, Randwick, Ourimbah, Bishop's Bridge, Awaba, Morrissett, Topi Topi, and a reserve in the parish of Tuncurry. Upon the strength of his recommendations, action was taken on the 19th July, 1893, to make available for lease, for the purposes of labour settlements, 1,360 acres of land, county of Auckland, parish of Meringo, Land District of Bega, and about 2,100 acres of land in the parish of Pitt Town, county of Cumberland, Land District of Windsor. On the 21st of July about 1,900 acres, parish of Wilberforce, county of Cook, Land District of Windsor, and on the 26th of the same month about 1,350 acres, in the parish of Wamboin, county of Murray, Land District of Queanbeyan, were made available for a similar purpose. In view, however, of the fact that sufficient was thought to have been done in the way of giving practical effect to what was to some extent an experiment, and that the land was required for other purposes, it was decided to cancel the labour settlement area of the 1,350 acres in the parish of Wamboin, which was accordingly done, by notice in the *Government Gazette* of the 14th October, 1893. A further decision was arrived at that no more areas should be set apart, pending an amendment of the existing Act.

*Pitt Town Settlement.*—Action was taken in the direction of appointing, for the Pitt Town Labour Settlement, the Board of Control contemplated by subsection (1) of section 2 of the Act, and on the 27th of June a notice appeared appointing the Rev. T. Roseby, LL.D. (Congregational minister), the Very Rev. P. Slattery (Dean, R.C. Church), the Rev. George Walters (Unitarian minister), Messrs. Benjamin Backhouse (architect), Joseph Creer (superintendent, Labour Bureau), H. Rooke Jones, Hugh H. Lusk (barrister-at-law), Randolph Nott, Stephen Sullivan, and John C. Watson (president of the Trades and Labour Council). This Board speedily entered upon its duties, and drafted a comprehensive code of regulations for the settlement, which were approved of by the Governor in Council, and published in the *Government Gazette* on the 21st July. Steps were taken to enrol the requisite number of members, and out of upwards of 600 applicants 100 were selected, comprising 85 married men, 4 widowers, and 11 single men, who, together with the married women, 241 children, and 4 aged relatives of certain of the members, made a total of 430 individuals. They were despatched to the settlement during the months of August and September. Monetary assistance to the extent of £2,330 was asked for, and paid to the credit of the Board during 1893. It is due to the gentlemen entrusted with the management of this settlement to state that they have spared neither time nor trouble in their efforts to achieve a success, and it has to be remembered that the members enrolled were in every case persons in indigent circumstances, and a large majority of them had had no previous experience in agricultural pursuits, which would otherwise, no doubt, have lessened their own difficulties, and at the same time those of the Board.

Tents

Tents having been lent by the Government, the settlers were at once started upon the necessary initial work of clearing the land and making roads prior to erecting huts. At the close of the year it was found upon inspection that the improvements consisted of ninety-six huts, a smithy and piggery, 60 chains of drains, ten dams, 4 miles of fencing, a well, 4 acres of garden, 27 acres cleared and partly cultivated, and 36 acres partly cleared. These were estimated at £1,440, exclusive of the value of the horses, cattle, tools, vehicles, and various implements which are stated to have cost £630.

Notwithstanding the preliminary difficulties incident to a settlement of this description, the Board of Control is apparently hopeful of ultimate success.

*Bega Settlement.*—On the 17th of July certain officers of the Department were appointed a Board, merely for the purpose of enrolling members for the labour settlement proposed to be established at Bega. The work of enrolment having been speedily completed the Board was dissolved, and on the 28th of that month the actual Board of the settlement was appointed, comprising local residents and a proportion of the settlers themselves, viz.:—

|                           |                                 |
|---------------------------|---------------------------------|
| The Rev. Donald McLennan, | } Local residents.              |
| Messrs. Frederick Bland,  |                                 |
| George Henry Kerrison,    |                                 |
| Henry O. T. Cowdery,      |                                 |
| Henry Underhill,          |                                 |
| William Rixon,            |                                 |
| James Galloway,           | } Members of Labour Settlement. |
| Richard Green, and        |                                 |
| William Howes.            |                                 |

Mr. Howes was not appointed till the 25th August.

Of the 26 members enrolled, only 20 joined the venture, notwithstanding repeated assurances of their intention to do so, and on the 19th of July a proportion of these, with their families, in all about 70 persons, left Sydney for Bega. The cost of conveyance was paid by the Department, which also supplied twenty bell tents, to be used pending the construction of more substantial habitations. Under the provisions of the 6th section of the Act the sum of £500 was made available by way of a loan. This sum was soon made use of by the Board in the purchase of necessaries, of food, clothing, and tools, the last-mentioned of which were required to assist in the construction of a number of log huts, which at the present time it is understood are rapidly approaching completion. The Board has been assisted to some extent by a revenue amounting to about £6 per week, received as fees for the agistment of stock depasturing upon the area.

*Wilberforce Settlement.*—The official Board before referred to was also entrusted with the task of enrolling members for the settlement at Wilberforce. This settlement was started under conditions different from those of Pitt Town and Bega, being of the character contemplated in sub-section (B) of Regulation No. 1. It is conducted on the co-operative principle, the number of members being limited to 40, who were required to expend £800 (£20 each) for purposes of the settlement before applying for a loan from the Crown.

The preliminary work of enrolling members for the settlement was attended with considerable difficulty, owing to delay on the part of the applicants, some of whom were unprepared with the necessary deposit money, and it was not until early in the month of October that this work reached completion, although some of the members enrolled were at work upon the land in the beginning of August. Forty-five applicants were enrolled, 7 of whom, however, had subsequently to be disenrolled, leaving 38 members to proceed to the settlement. Of these, 22 were

married and 16 unmarried, and together with the married women and 69 children, made a total of 129. After completion of the enrolment the Board was dissolved, and a new Board of Control appointed, for the management of the settlement consisting of certain well-known residents of Wilberforce, with the proportion of the enrolled members provided for by the Regulations. This Board, which still retains office, was appointed on the 13th October last, and consists of the following gentlemen:—

|                                   |   |                               |
|-----------------------------------|---|-------------------------------|
| Messrs. Bernard Conlon, J.P.,     | } | Local residents.              |
| George Nicholls,                  |   |                               |
| Stephen John Dunstan, sen., J.P., |   |                               |
| George S. Greenwell,              |   |                               |
| L. H. Simpson,                    |   |                               |
| John Ross,                        |   |                               |
| Henry Becroft,                    | } | Members of Labour Settlement. |
| William Moreland,                 |   |                               |
| William McMillan,                 |   |                               |
| Alfred Gilbert,                   |   |                               |
| Charles Rhodes,                   |   |                               |
| John Lines.                       |   |                               |

An inspection of the area was made by an officer of this Department with the object of ascertaining the nature and value of the improvements effected, when it was found that a store 70 x 15, built with sawn slabs and shingled roof, and several huts and sheds, used for various purposes, had been erected; 56 acres had been grubbed and cleared, a part of it ploughed, and some under cultivation; 8 miles of fencing had also been erected; the value of such improvements being estimated at £750, while the stock, tools, &c., forming part of the possessions of the community were valued at £150; so that it is evident good work has been done.

On the 9th February of the current year a sum of £400, and on the 26th of the same month a further sum of £400 (£800 in all), was advanced by the Crown for this Settlement.

#### *Transfer of Branch Offices to Main Building.*

Upon the completion of the new building, several branches of this Department which had been located in buildings in the city rented by the Government were transferred to headquarters. Apart from the special convenience of this arrangement, it resulted in a saving of £1,475 annually. Part of the new building is occupied by officers of the Treasury and part by the Architect's Branch of the Department of Public Instruction.

#### *Land Appeal Court.*

During the year 1893 the Court heard and disposed of 415 cases, comprising 241 appeals, 108 references, and 66 motions. Of these cases 246 were heard and disposed of in Sydney, the remainder being dealt with in the country. The Court held sittings in Sydney on 11 different occasions, and in the country as follows:—At Wagga Wagga, Hay, Dubbo, and Tamworth, each twice; at Bathurst, Cooma, Bourke, Armidale, and Grafton, each once.

#### *Expenditure, 1893.*

In connection with the expenditure for 1893, it is gratifying to report that the figures show a decrease as compared with those of 1892, of £49,311, and with those of the year 1886 (the year just prior to the reorganization of the Department) of no less an amount than £194,342. Included in the figures for 1893 are expenses totalling £39,040, which, for purposes of comparison, might reasonably be

be excluded—such, for instance, as the expenditure in connection with the acquisition of lands for, and the improvement and maintenance of, public parks and recreation reserves, and also with minor roads, the affairs of which were in prior years administered by the Department of Mines and Agriculture; the Labour Settlements Act of 1893; the Land Appeal Court, which came into operation under the provisions of the Land Act of 1889; the Rabbit Act of 1890; the erection of Land Board offices at Moree; and gratuities to officials whose services were dispensed with, and abatements to others retired under the provisions of the Civil Service Act when the Department was reorganized as previously referred to.

With regard to salaries, it may be stated that while the expenditure amounted in 1886 to £261,201, in the year 1893 it fell to £177,665, thus showing a substantial reduction in the period of £83,536, due mainly to the Departmental inquiries originated by Mr. Secretary Copeland in 1886 and carried out in 1887 and 1889. Taking 1893 with 1892 there is a decrease in the outgoings to the extent of £9,097, out of which the sum of £7,100 is represented by the general reduction made by the Parliament of 10 per cent. on all salaries of Civil Servants in receipt of amounts over £200. A rigid economy has been exercised in framing the Estimates of the Department, and a close scrutiny kept on all matters involving expenditure.

A comparison of the figures under each head of service is shown on Schedule II, and it will be seen that a decrease has been almost general. Of the few items showing an increase, two are for special services not dealt with in 1892, viz., Labour Settlements, £3,010 15s. 7d., and £1,351 2s. towards the erection of a Local Land Board Office at Moree, paid from Loan Votes.

The expenditure in 1893 for the services of the year only was £332,231. The estimated amount of unpaid claims on the 31st December was £30,000, so that the total for the year will probably reach the sum of £362,231. Included in these figures is £9,000 for postages and stamp duties, £2,500 for advertising, and £800 for survey fees paid from Special Accounts at the Treasury—in all, £12,300, and being deducted leaves £349,931 as representing the probable expenditure from the Votes of the Department for the Services of 1893.

The Votes passed and proposed for the year amount to £397,873 2s. 9d., therefore it is probable that about £47,942, representing the saving under various heads, will ultimately be written off.

With reference to the salaries of Crown Land Agents and assistants, it may be mentioned that 30 were paid wholly by this Department, 41 were paid jointly by this Department and the Departments of Justice and Mines, while 27 were paid wholly by the latter. Where dual offices are held, an economical arrangement has been found practicable, based on the extent of the combined duties which vary between the different Departments.

The number of accounts registered in the Account Branch during the year was 12,745, necessitating 21,709 separate payments.

Schedules I to IX inclusive show the Expenditure for all Services during 1890, Comparative Statement of the Expenditure in 1892 and 1893 respectively, Salaries paid in the year 1893, Revenue and Receipts for 1893, Number of Persons employed at the several Local Land Board Offices on the 31st December, 1893, calculated at the annual rate of pay, Number of Officers employed in the District Survey Offices, and Aggregate Annual Amount of Salaries of each Staff on the 31st December, 1893, Travelling Expenses and Fees paid in connection with Local Land Board Meetings during 1893, the Strength of the Staff and the Annual Salaries paid on the 31st December, 1892 and 1893 respectively, Expenses of the Land Appeal Court for the year 1893, and Sums voted in the Estimates-in-Chief, and proposed to be voted in the Supplementary Estimates for 1893.

*Auction*

*Auction Sales.*

Of town lands 6,959 lots, comprising 2,786 acres 1 rood  $21\frac{5}{8}$  perches, were offered, of which 2,238 lots were sold, comprising 912 acres 1 rood  $9\frac{1}{2}$  perches. The total price realised was £28,062 19s. 11d., or an average of £30 15s. 2d. per acre.

With regard to suburban lands, £20,391 1s. 3d.—an average of £6 2s. per acre—was realised for 3,342 acres 2 roods 7 perches. The total area offered was 14,302 acres 3 roods and  $1\frac{3}{4}$  perches, the number of lots sold compared with those submitted being 861 and 2,650 respectively.

Of country lands 3,805 portions, representing an area of 376,650 acres  $28\frac{1}{4}$  perches, were offered; and 1,019 portions, comprising 91,963 acres 3 roods  $18\frac{3}{4}$  perches, were disposed of for £174,922 4s. 8d., an average price of £1 18s.  $0\frac{1}{2}$ d. per acre.

The total area (including town, suburban, and country lands) offered for sale was 393,739 acres 1 rood  $11\frac{5}{8}$  perches; and the total area sold was 96,218 acres 2 roods  $35\frac{1}{4}$  perches, the total price realised being £223,376 5s. 10d.

The following Schedule admits of a ready comparison between the transactions under this head for the years 1892 and 1893:—

|               | Year. | No. of lots offered. | Area offered. |    |                 | No. of lots sold. | Area sold. |    |                 | Amount realised. |    |    | Average price per acre. |    |    |
|---------------|-------|----------------------|---------------|----|-----------------|-------------------|------------|----|-----------------|------------------|----|----|-------------------------|----|----|
|               |       |                      | a.            | r. | p.              |                   | a.         | r. | p.              | £                | s. | d. | £                       | s. | d. |
| Town .....    | 1892  | 3,488                | 1,427         | 0  | $24\frac{5}{8}$ | 1,467             | 590        | 1  | $4\frac{1}{8}$  | 149,526          | 19 | 11 | 253                     | 6  | 4  |
|               | 1893  | 6,959                | 2,786         | 1  | $21\frac{5}{8}$ | 2,238             | 912        | 1  | $9\frac{1}{2}$  | 28,062           | 19 | 11 | 30                      | 15 | 2  |
| Suburban ...  | 1892  | 1,422                | 6,446         | 0  | $20\frac{1}{4}$ | 608               | 2,328      | 0  | $32\frac{1}{2}$ | 13,162           | 8  | 0  | 5                       | 13 | 1  |
|               | 1893  | 2,650                | 14,302        | 3  | $1\frac{3}{4}$  | 861               | 3,342      | 2  | 7               | 20,391           | 1  | 3  | 6                       | 2  | 0  |
| Country ..... | 1892  | 2,893                | 260,535       | 0  | $2\frac{1}{2}$  | 896               | 80,062     | 0  | $8\frac{1}{4}$  | 148,028          | 19 | 3  | 1                       | 17 | 0  |
|               | 1893  | 3,805                | 376,650       | 0  | $28\frac{1}{4}$ | 1,019             | 91,963     | 3  | $18\frac{3}{4}$ | 174,922          | 4  | 8  | 1                       | 18 | 0  |

From the foregoing Schedule it will be seen that during 1893 the average price per acre for suburban and country lands was higher than the price realised during the previous years, while a conspicuous difference in favour of 1892 exhibits itself in connection with town lands. This latter fact is, however (at least in part), explained by the sale during 1892 of the old Central Police Court site (containing 1 rood  $29\frac{1}{2}$  perches) for the sum of £124,000. Eliminating this special item, the average of town lands for 1892 was £43 5s.  $6\frac{1}{2}$ d. per acre.

The situation and full particulars of lands sold by auction will be found in Schedules XXXVI and XXXVII.

During the year 39 lots, representing 168 acres 1 rood  $8\frac{1}{2}$  perches, were forfeited on account of non-payment of the balance of purchase money within the prescribed time. The amount of deposit thus forfeited to the Crown was £580

£580 5s. 11d. The sum of £2,622 11s., which represented the value of improvements added to the upset price of certain portions, was authorised for refund to persons whose claim to consideration had been admitted by the Crown; and various sums (amounting to £1,350 9s.) which had been paid in excess were authorised for refund. Schedules XXXVIII and XXXIX.

*Conditional Purchases.*

From the subjoined Schedule (which contains the figures for each year since 1885, inclusive) it will be seen that the number of applications for conditional purchases has, since 1890, been diminishing. This is probably attributable to the best lands being gradually absorbed, as well as to causes which have been referred to elsewhere in this Report. The year 1893 shows a total of 3,393, for an area of 533,805 acres 2 roods 4 perches, against 4,396 during 1892 for an area of 816,399 acres 1 rood 19 perches. The applications made during 1893 comprised 1,932 for original conditional purchases, 1,398 for additional conditional purchases, and 63 for non-residential conditional purchases. (Schedules X, XI and XII.) Taken according to divisions, the applications were thus divided—2,445 for 257,671 acres 0 rood 7 perches in the Eastern; 943 for 272,294 acres 1 rood 37 perches in the Central, and 5 for 3,840 acres in the Western.

\* Within special areas. † Referred to in the other columns.

Of the applications made during 1893, 1,639 were confirmed, for 252,134 acres 1 rood 6 perches, and 476 were disallowed; but taking into account applications made prior to 1893, the applications disposed of amounted to 4,329—3,471 having been confirmed, for 595,291 acres 1 rood 35 perches, and 858 disallowed. Schedule XIV. These were made up as follows:—

|  |     | a.    | r.             | p.      |                     |
|--|-----|-------|----------------|---------|---------------------|
| Made during 1893                               | ... | 1,639 | confirmed, for | 252,134 | 1 6—476 disallowed. |
| Made between 1 Dec., 1889,<br>and 1 Jan., 1893 | ... | 1,832 | "              | 343,157 | 0 29—375 "          |
| Made prior to 1 Dec., 1889                     | ... | Nil   | .....          | —       | 7 "                 |
|  |     | 3,471 | "              | 595,291 | 1 35—858 "          |

On the 31st December, 1893, there were 168,140 conditional purchase current, representing an area of 22,556,612 acres 1 rood 9 perches. Schedule XXVI. The

The following (729) conditional purchases were notified as forfeited as against 799 during 1892:—

| No. | Area.  |       | Reason of Forfeiture.  |
|-----|--------|-------|--|
| 179 | a.     | r. p. | Non-payment of balance, interest, or instalment of purchase money.<br>Non-fulfilment of conditions.<br>Non-payment for Crown improvements. |
| 527 | 16,342 | 3 38  |  |
| 23  | 62,192 | 1 37  |  |
| 729 | 2,032  | 1 0   |  |
|     | 80,567 | 2 35  |  |

These forfeitures included 141 conditional purchases under the repealed Acts, and 588 conditional purchases under the Acts at present in force (Schedules XX to XXII). In connection with this matter mention may be made of the fact that during the year forfeiture was in 834 cases waived by the Minister under the provisions of the Crown Lands Act Amendment Act of 1891; and upon the representations by the parties interested of financial pressure, the Minister relieved the holders of 780 conditional purchases of the immediate liability of forfeiture, by allowing the postponement to a later period of the year of payment of interest or instalment money amounting to between £6,000 and £7,000, which had become due in connection with 136,571 acres.

During the year 1,164 certificates of conformity were issued in connection with conditional purchases under the repealed Acts, Schedule XVII, 5,263, and in connection with purchases under the Acts at present in force.\*

Under the provisions of section 138 of the Crown Lands Act of 1884, 17 conditional purchases (containing in the aggregate 1,974 acres) were validated. (Schedule XXIII.)

Notices of transfer to the number of 8,300 were received, and, including some received before 1893, 8,324 were dealt with. The number so dealt with referred to 16,981 conditional purchases, but excluding conditional purchases transferred more than once the number would be reduced to 12,581. Apparently only a small proportion represented absolute sales, stamp duty having been paid on only 2,893 of the 8,324 transfers disposed of. The amount of stamp duty was £5,140 5s. (Schedules XVIII and XIX.)

Schedule XCVIII contain particulars of work carried out by Conditional Purchase Inspectors, from which it will be seen that 19,157 instructions were issued to these officers, and that they furnished 17,229 reports.

In Schedule CVII will be found particulars of resumptions made from conditional purchases and conditional leases since December, 1885, on account of the land being auriferous.

#### *Special Areas.*

During 1893 392 special areas, comprising 185,402 acres, were proclaimed. (*Vide* Schedule XCV.) These included 229 special areas of 125,075 acres of country land, and 163 special areas of 60,327 acres of land within population or suburban areas.

Full information respecting special areas from the beginning of 1885 to the end of 1893 will be found in Schedules XV and XVI. These Schedules show the amount of special area land selected and unselected in each Land District, distinguishing between country lands and lands within suburban or population areas. The total results have been:—

|                              |     |         |       |                 |         |       |
|------------------------------|-----|---------|-------|-----------------|---------|-------|
| Suburban or population areas | ... | a.      | r. p. | selected out of | a.      | r. p. |
| Country lands                | ... | 69,100  | 1 22  | "               | 120,116 | 2 38  |
|                              | ... | 661,226 | 3 15  | "               | 967,587 | 3 21  |

The total deposit paid was £147,795, the price of the land being £1,463,414 2s. 9d. The area forfeited was 10,852 acres 2 roods 8 perches. This area represented 111 conditional purchases, the value of the land being £23,361 1s. 8d.

#### Improvement Purchases.

The demand for the purchase of land on gold-fields by virtue of improvements (under Sec. 46, Act of 1884) shows a marked decrease during recent years. During 1893 only 153 applications were made as against 318 during 1892, which year itself compares very unfavourably with 1891, when 1,062 applications were put forward. The increase or diminution of applications of this character, however, necessarily depends on the amount of activity in mining centres, and the stagnation at Broken Hill and elsewhere necessarily goes largely to explain the fact to which attention has been drawn. (Schedule XL.)

During the year under review 319 applications under the section referred to and 6 made under the repealed Acts (325 in all) were disposed of, 201 having been approved and 124 refused. (Schedules XL and XLI.) The applications to purchase which lapsed during the year amounted to 156. The land sold was as follows :—

|                                     | No. of Lots. | Class of Land. | Area. |                    | Price. |       |
|-------------------------------------|--------------|----------------|-------|--------------------|--------|-------|
|                                     |              |                | a.    | r. p.              | £      | s. d. |
| Under Sec. 46, Act 1884 ... ..      | 79           | Town ...       | 18    | 3 29               | 1,352  | 10 0  |
| " " " " " " " " " " " "             | 76           | Suburban       | 62    | 0 18 $\frac{5}{8}$ | 1,017  | 18 0  |
| " " " " " " " " " " " "<br>of 1875. | 6            | Country        | 2,311 | 0 0                | 3,160  | 0 0   |
|                                     | 161          | .....          | 2,392 | 0 7 $\frac{5}{8}$  | 5,530  | 8 0   |

156 applications (made before 1893) lapsed. (Schedule XL.)

*Special Purchases.*

Ninety-nine applications for Special purchases were made during the year—1, under section 63 of the Crown Lands Act of 1884, for rescission of reservation of water frontage; 29, under section 64 of that Act, for permission to reclaim and purchase land; 26, under section 66 of the Act, for small isolated areas, &c.; and 43, under section 67, for permission to close and purchase unnecessary roads. (Schedule XLII.)

Under the provisions of those sections, section 42 of the Crown Lands Act of 1889, and sections 10 and 12 of the Crown Lands Alienation Act of 1861, a total area of 524 acres 3 roods  $14\frac{1}{10}$  perches was alienated for £8,052 4s. 3d. (Schedule XLIII.) The following being a summary of the transactions:—

|                      | Area sold. |    |                  | Purchase money. |    |    |
|----------------------|------------|----|------------------|-----------------|----|----|
|                      | a.         | r. | p.               | £               | s. | d. |
| Section 63, Act 1884 | 5          | 1  | $21\frac{1}{2}$  | 752             | 12 | 2  |

| " 42, " 1889         | 291        | 2  | $26\frac{3}{4}$  | Nil.            |    |    |
| " 10, " 1861         | 1          | 1  | 13               | 23              | 11 | 0  |
| " 12, " "            | 1          | 0  | 8                | 161             | 7  | 0  |
|                      | 524        | 3  | $14\frac{1}{10}$ | 8,052           | 4  | 3  |

*Volunteer Land Order Applications.*

No applications under volunteer land orders were received; but of those received prior to 1893 5 were refused and 7 satisfied by the grant of 350 acres, *i.e.*, the prescribed maximum (50 acres) for each. (Schedule XLIV.)

*Annual Leases.*

At the close of 1893, 7,936 leases of this character were in existence, representing an area of 5,207,222 acres 3 roods 19 perches, and an annual rent of £38,205 4s. 2d.; 891, comprising an area of 1,738,559 acres, and representing an annual rent of £4,825, lapsed through non-payment of rent, and 29 were cancelled. The latter contained an area of 16,306 acres 1 rood 20 perches, for which an annual rent of £132 3s. 9d. had been paid. (Schedules LXXXVI and LXXXVII.)

The leases in existence include the following:—

| Division. | Number. | Area.     |      | Rent.  |    |    |
|-----------|---------|-----------|------|--------|----|----|
|           |         | a.        | r.   | £      | s. | d. |
| Eastern   | 7,214   | 4,610,350 | 1 24 | 31,898 | 13 | 5  |
| Central   | 689     | 564,698   | 1 35 | 6,000  | 12 | 5  |
| Western   | 33      | 32,174    | 0 0  | 305    | 18 | 4  |
|           | 7,936   | 5,207,222 | 3 19 | 38,205 | 4  | 2  |

These figures show an increase over those for 1892, at the close of which year 6,926 leases were current, the total area and rent being respectively 4,589,729 acres and £33,627 9s. 7d.

As

As compared with 1892, the number of applications made during 1893 for annual leases, under the provisions of section 33 of the Crown Lands Act of 1889, show a slight decrease; (Schedule LXXXIV) but a somewhat larger area was leased by auction during 1893, the figures being set side by side in the appended Schedule for the purpose of comparison:—

| Year. | Applications made. | Area applied for.         | Area leased by auction. |
|-------|--------------------|---------------------------|-------------------------|
| 1892  | 2,578              | a. r. p.<br>1,768,807 0 0 | a. r. p.<br>3,357 2 0   |
| 1893  | 2,130              | 1,390,212 1 13            | 10,709 0 0              |

Taking account of applications made, not only during the year under review, but during previous years as well, 2,680 were disposed of—723 were disallowed or withdrawn, and in satisfaction of, 1,957 leases were granted. The area leased was 1,275,544 acres 16 perches, at a rental of £9,230 8s. per annum. (Schedules LXXXV to LXXXVIII inclusive.)

#### Conditional Leases.

As explained in previous reports, an increase or decrease in the number of conditional purchase applications must necessarily be followed by an increase or decrease in the number of applications for land under conditional lease, hence it follows (as exhibited in the subjoined Schedule) that the year 1893 compares unfavourably with any of its predecessors. (Schedule XXVII.)

| Year. | Number. | Area.                       | Deposits.             |
|-------|---------|-----------------------------|-----------------------|
| 1885  | 3,816   | a. r. p.<br>2,547,045 0 15* | £ s. d.<br>21,225 7 6 |
| 1886  | 2,500   | 1,207,953 0 8               | 10,066 5 6            |
| 1887  | 2,228   | 1,242,380 0 0               | 10,353 3 4            |
| 1888  | 2,623   | 1,424,753 1 25              | 11,872 18 11          |
| 1889  | 3,470   | 1,569,949 3 30              | 13,082 18 4           |
| 1890  | 5,466   | 3,056,774 2 26              | 25,489 7 2            |
| 1891  | 3,952   | 2,177,810 0 15              | 18,140 17 10          |
| 1892  | 2,692   | 1,171,971 1 18              | 9,769 5 1             |
| 1893  | 1,800   | 715,611 0 34                | 5,943 8 4             |

\* This includes 1,994 applications; area, 1,198,617 acres 30 perches, made under the 54th clause of the Act of 1884.

During the year 2,502 applications were dealt with, made up with as follows:—

|  |       |     |         |                    |                          |                 |
|--|-------|-----|---------|--------------------|--------------------------|-----------------|
| Made during 1893                               | ...   | ... | ...     | 643 confirmed, for | a. r. p.<br>242,612 1 30 | 291 disallowed. |
| Made between 1 Dec., 1889, and 1 Jan., 1893... | 1,322 | „   | 573,782 | 3 30               | 243                      | „               |
| Made prior to 1 Dec., 1889                     | ...   | ... | 2       | „                  | 216 3 0                  | 1               |
|  |       |     | 1,967   | „                  | 816,612 0 20             | 535             |

The number of leases actually gazetted as approved was 2,965. The total number of gazetted leases in existence on 31st December, 1893, was 12,986. These comprised an area of 11,726,661 acres 0 roods 17 perches, and represented an annual rent of £143,067 18s. 6d. If added to these are leases applied for, the applications relating to which have been made under the Act of 1889, and have not been (though some may in future be) disallowed, the number becomes increased to 21,772, the area to 12,707,423 acres 0 roods 36 perches, and the annual rent to £151,240 18s. 11d. (Schedule XXIX.)

During the year 515 leases were gazetted as forfeited. These covered an area of 190,244 acres, and meant a loss of rental to the extent of £2,284 13s. 9d. (Schedule XXXI.)

No fewer than 2,486 cases were submitted to the Minister for consideration as to whether he would accept the Land Board's appraisements of rent, or refer them to the Land Appeal Court, under the provisions of section 6 of the Act of 1889. Only 48, however, were referred during the year under the section mentioned. (Schedules XXXII and XXXIII.)

The

The re-appraisements under the 29th section of the Act of 1889 (which offered lessees the privilege of having their rents redetermined) were brought to a completion during the year. Twenty-seven cases were concluded, resulting in 8 reductions, 14 increases, and 5 concurrences with the rate previously charged. Details of these are given in Schedules XXXIV and XXXV.

During the year 2,045 transfers were dealt with, relating to 1,490 leases, containing an aggregate area of 1,041,729 $\frac{1}{4}$  acres. (Schedule XXX.)

*Pastoral Leases.*

On the 31st December, 1893, 1,035 pastoral leases were in existence, 2 of which are in the Eastern Division, the term of lease, on account of lateness of division of the pastoral holdings, not having yet expired. (Schedule XLV.) The following table exhibits the figures in a convenient form:—

| No. of Leases. | Division of Colony. | Area.      | Rent.   |    |    |
|----------------|---------------------|------------|---------|----|----|
|                |                     | Acres.     | £       | s. | d. |
| 2              | Eastern ... ..      | 67,635     | 281     | 16 | 3  |
| 720            | Central ... ..      | 18,630,605 | 199,685 | 14 | 3  |
| 313            | Western ... ..      | 39,459,505 | 180,427 | 13 | 8  |
| 1,035          | .....               | 58,157,745 | 380,395 | 4  | 2  |

In connection with these leases the re-appraisements of rent under section 29 of the Act of 1889 were brought to completion, 15 (4 Central and 11 Western Division cases) having remained over for disposal. These resulted in the Crown obtaining the benefit in connection with 3 Central Division and 6 Western Division leases, and the lessees obtaining the benefit in connection with 1 Central Division lease and 3 Western Division leases. In connection with 2 leases in the latter division neither the Crown nor the lessees obtained any advantage. (Schedules XLIX and L.)

Five leases were forfeited, of which 2 were situated in the Central and 3 in the Western Division. (Schedule LXIV.) One application was made for the subdivision of a lease in the Central Division (Schedule LIII), and 101 leases in that division and 37 in the Western Division were transferred.

An aggregate area of 28,767 acres was withdrawn from 53 pastoral leases, and a refund of £789 14s. 10d. granted in consequence. (Schedule XLVIII.)

A matter of special interest in connection with pastoral leases is that of the extension of leases in the Central Division. Up to the close of 1893 578 applications, under section 43 of the Crown Lands Act of 1889, were made. These had reference to 8 leases in the Bourke Land Board District, 154 in the Dubbo Board District, 105 in the Forbes Board District, 77 in the Hay Board District, 74 in the Moree Board District, 58 in the Tamworth Board District, and 102 in the Wagga Board District. Two of the applications were invalid through having been lodged after the time prescribed by law, on 1 no deposit had been paid, and 1 was withdrawn. In 136 cases the lessees did not apply, and the period during which they might have done so has expired. Under the present law, therefore, these leases will expire during the year 1895. The number of leases and area represented by them are:—3 in the Bourke Board District, comprising 26,530 acres; 31 in the Dubbo Board District, comprising 324,218 acres; 29 in the Forbes Board District, comprising 252,333 acres; 6 in the Hay Board District, comprising 55,557 acres; 15 in the Moree Board District,

District, comprising 468,153 acres; 27 in the Tamworth Board District, comprising 414,452 acres; and 25 in the Wagga Board District, comprising 163,317 acres. (Schedules LX, LXI, and LXII.) The following table presents the figures in a comparative shape:—

| Board District.    | No. of Leases applied to be extended. | No. of Leases not applied to be extended. | No. of informal applications. |
|--------------------|---------------------------------------|---|-------------------------------|
| Bourke ... ..      | 8                                     | 3   | .....                         |
| Dubbo ... ..       | 154                                   | 31  | 1                             |
| Forbes ... ..      | 105                                   | 29  | 1                             |
| Hay ... ..         | 77                                    | 6   | 1                             |
| Moree ... ..       | 74                                    | 15  | .....                         |
| Tamworth ... ..    | 58                                    | 27  | .....                         |
| Wagga Wagga ... .. | 102                                   | 25  | 1                             |

Various questions of a more or less difficult character have during the progress of the Boards' investigations been raised on minor points; but a description of these would hardly be of sufficient general interest here, apart from the fact that at least some of the questions may be regarded as still open. From returns to hand the Boards have dealt with 352 cases, leaving the remainder to be considered by them; but only in a few cases have the Boards' findings and recommendations been announced in open Court.\*

#### *Occupation Licenses.*

An area of 40,485,742 acres was held under occupation license during 1893, returning an annual rent of £128,335 9s. 7d. The licenses were 1,501 in number, and of these 686 referred to 8,619,639 acres in the Eastern, 593 referred to 7,313,536 acres in the Central, and 222 referred to 24,552,567 acres in the Western Division of the Colony. (Schedule XLVII.) The appended Schedule contains the figures for 1892 and 1893:—

| On 31st December, 1892.              |       |            |             | On 31st December, 1893.              |       |            |             |
|--------------------------------------|-------|------------|-------------|--------------------------------------|-------|------------|-------------|
| Division.                            | No.   | Area.      | Rent.       | Division.                            | No.   | Area.      | Rent.       |
|                                      |       | Acres.     | £ s. d.     |                                      |       | Acres.     | £ s. d.     |
| Eastern (preferential licenses)..... | 411   | 5,448,489  | 33,506 11 8 | Eastern (preferential licenses)..... | 368   | 4,685,777  | 26,125 7 11 |
| Eastern (ordinary licenses).....     | 318   | 3,782,473  | 14,869 10 0 | Eastern (ordinary licenses).....     | 318   | 3,933,862  | 13,510 5 4  |
| Central .....                        | 606   | 8,150,937  | 44,050 9 10 | Central .....                        | 593   | 7,313,536  | 38,865 9 11 |
| Western .....                        | 228   | 25,679,908 | 52,806 14 7 | Western .....                        | 222   | 24,552,567 | 49,834 6 5  |
| Total .....                          | 1,563 | 43,061,807 | 145,233 6 1 | Total .....                          | 1,501 | 40,485,742 | 128,335 9 7 |

Attempts were made, but with very limited success, to place under occupation vacant tracts in each of the three Divisions, the great bulk of the land being in the Eastern Division. Some of the lands were submitted on three different occasions, and were tried at auction and offered to tender. Out of 323 licenses thus offered, comprising a total area of 6,082,845 acres, only 43, comprising a total area of 921,582 acres, were taken up. (Schedule LIX.)

The occupation licenses not renewed were 83 (48 of which were preferential licenses) in the Eastern Division, 14 in the Central Division, and 9 in the Western Division. (Schedule LXIV.)

Transfers were made in 147 cases. (Schedule LIV.)

The re-appraisements under the provisions of section 29 of the Crown Lands Act of 1889 were completed, the remnant consisting of 18 licenses in the Central and 19 in the Western Divisions. In addition to these the license fees of 5 preferential licenses in the Eastern Division were determined. The Central Division cases resulted

resulted in 6 reductions, 9 increases, and in 3 cases no alteration. In the Western Division the result was 13 reductions, 3 increases, and 2 cases in which the original rate underwent no alteration. (Schedules LI, LII, and LXIII.)

*Surrenders and Exchanges.*

Applications for the exchange of land in the Central and Western Divisions, under section 46 of the Act of 1889, to the number of 247 came forward for consideration. Some of these were made during 1893, some previously.

An area of 730,004 acres was offered for surrender, but a fair proportion of the cases had not been finally disposed of at the close of the year, only 18 having reached the stage of acceptance by the Governor in Council. (Schedule LXVI.) The following summary shows the action taken:—

|  | No. | Area.          |
|--|-----|----------------|
| Applications for consideration ... ..          | 247 | 730,004 acres. |
| "    accepted ... ..                           | 18  | 64,799 "       |
| "    refused ... ..                            | 45  | 98,665 "       |
| "    withdrawn ... ..                          | 12  | 36,483 "       |
| Partially dealt with or in process of exchange | 173 | 530,057 "      |

Apart from these there were several applications for exchange relating to land formerly within leasehold areas in the Eastern Division, but the applications were defeated by the expiry of the pastoral leases before action was concluded. These cases are in abeyance in anticipation of legislation which may authorise their completion. (Schedule LXV).

*Homestead Leases.*

At the close of 1893, 1,130 homestead leases were in existence, comprising 9,690,340½ acres, and representing an annual revenue of £67,211 2s. 1d. (Schedule LXX.)

The larger number of these, 736, were situated in the Bourke Board District (in the Land Districts of Bourke, Brewarrina, Cobar, Wilcannia, and Willyama); then followed the Hay Board District (with the Land Districts of Balranald, Hay, Hillston, and Wentworth), in which were 271 leases, the remaining 123 being in the Land District of Walgett and the Board District of Moree.

The number of applications received during 1893 is slightly below the number made during 1892, the figures being, for 1892, 176 applications for 1,214,447 acres; and for 1893, 135 applications for 870,044 acres. (Schedule LXVII.)

The subjoined Schedule contains particulars of applications made since the year 1885 inclusive:—

| Year. | No. of Applications. | Area applied for. | Deposits.   |
|-------|----------------------|-------------------|-------------|
|       |                      | Acres.            | £ s. d.     |
| 1885  | 391                  | 3,823,235         | 15,880 2 11 |
| 1886  | 121                  | 1,141,963         | 4,758 3 7   |
| 1887  | 128                  | 1,198,286         | 4,992 17 2  |
| 1888  | 141                  | 1,332,691         | 5,511 15 7  |
| 1889  | 238                  | 2,187,837         | 9,113 19 9  |
| 1890  | 310                  | 2,620,959         | 10,920 13 3 |
| 1891  | 191                  | 1,515,629         | 6,278 2 1   |
| 1892  | 176                  | 1,214,447         | 5,648 16 6  |
| 1893  | 135                  | 870,044           | 3,582 10 4  |

During the year 26 of the applications made in 1893 were satisfied, and 19 refused; but including applications made previously 149 leases were granted and 61 refused or the applications withdrawn. The leases granted represented 1,078,287 acres, and an annual rent of £5,359 11s. 1d. (Schedules LXVII, LXVIII, and LXIX.)

One hundred and seventy-nine transfers were dealt with and 117 awaited disposal; 17 applications came forward for the refund of the value of improvements, and the same number dealt with. (Schedules LXXII and LXXIII.)

As in the case of pastoral leases, occupation licenses, &c., the year under review saw the conclusion of the re-appraisements under section 29 of the Act of 1889. A balance of 24 had remained over from previous years, and except in 3 instances (in which the rent was reduced), the benefit resulting from the re-determination of rent fell in all these cases to the Crown. (Schedule LXXIV.)

### *Special Leases.*

On the 31st December, 1893, an area of 13,428 acres 1 rood  $26\frac{1}{4}$  perches was held under special leases, from which area (which was divided into 558 leases) an annual rent of £12,140 17s. 6d. was derived. Included in these, however, were 90 leases, containing an aggregate area of 927 acres 0 roods  $21\frac{3}{4}$  perches, and representing an annual rent of £1,632 17s. 6d., which expired by effluxion of time at the close of the year. The forfeiture of 48 leases (not included in the foregoing figures) took place, for which (the area being 1,737 acres 0 roods  $18\frac{1}{2}$  perches) an annual rent of £694 9s. had been paid. (Schedules LXXVI to LXXVIII.)

The number of applications made during 1893 shows a slight increase over the number made during 1892. During last year they reached 264, as against 232 for 1892. Altogether, 490 applications came forward for action, of which 251 were finally dealt with by the refusal, withdrawal, &c., of 124, and the granting of 127 for 1,929 acres 1 rood  $7\frac{3}{4}$  perches at an annual rent of £2,149 9s.

Leases of this character are granted under sections 89 and 90 of the Crown Lands Act of 1884 for miscellaneous purposes, such as the following:—

#### Under section 89 of the Act of 1884—

Floating docks, jetties, piers, and wharfs below high-water mark.

#### Under section 90 of the Act of 1884—

|                                    |  |                                     |
|------------------------------------|--|-------------------------------------|
| Accommodation house.               | Guano (to obtain).                             | Skin-drying and packing.            |
| Accommodation paddock.             | Inn.   | Slaughter-houses.                   |
| Bakery.                            | Irrigation.                                    | Smelting works.                     |
| Ballast (to obtain).               | Landing-places.                                | Smithy.                             |
| Bathing places.                    | Lime-kilns.                                    | Stables and accommodation paddocks. |
| Boats (building and repairing).    | Limestone (to obtain).                         | Store.                              |
| Boiling-down works.                | Loam (to obtain).                              | Sugar-cane growing.                 |
| Brick earth (to obtain).           | Machinery (erection of).                       | Storage purposes.                   |
| Brick-kiln.                        | Mail stations in sparsely populated districts. | Tanks.                              |
| Bridges.                           | Pipe-line.                                     | Tanneries.                          |
| Dams.                              | Punt-houses.                                   | Tobacco growing.                    |
| Drainage.                          | Quarries.                                      | Vegetable garden.                   |
| Eucalyptus (cultivation of).       | Railway station and depôt.                     | Village settlement.                 |
| Explosives (sites for storage of). | Recreation.                                    | Wattle growing.                     |
| Factory.                           | Sawmills.                                      | Well.                               |
| Ferries.                           | Sericulture.                                   | Wharfs (above high-water mark).     |
| Fisheries.                         | Shells (to obtain).                            | Woolwashing establishments.         |
| Freezing works.                    | Ships (building or repairing).                 | Working mineral springs.            |
| Gravel (to obtain).                |  |                                     |

#### Under section 92 of the Act of 1884—

Irrigation works and tramway purposes.

### *Artesian Well Leases.*

During 1893 an area of 51,200 acres was reserved for leases of this character—30,720 acres being situated in the Bourke and 20,480 in the Wilcannia District. (Schedule LXXXVIII). No leases have yet been granted.

### *Scrub Leases.*

Of these leases 24 were current, representing an area of 158,641 acres, and an annual rent of £208. Eleven applications for the lease of 62,040 acres were made during the year, which brought up the number outstanding from 1892 to 24. These referred to an area of 168,472 $\frac{1}{2}$  acres. In satisfaction of 8 of these applications, an area of 55,204 acres was leased for £68 9s. 5d. Six applications were refused or withdrawn, leaving 10 still to be dealt with. (Schedule LXXIX.)

*Leases*

*Leases of Inferior Lands.*

Eleven applications for leases of inferior lands under the provisions of section 37 of the Crown Lands Act of 1889 were made, one was withdrawn, and action has been suspended in respect of the remainder, as the provisions of the present law do not meet the requirements of the cases. The following leases were in existence (Schedule LXXX):—

| Land District.         | No. | Area.   | Rent. |    |    |
|------------------------|-----|---------|-------|----|----|
|                        |     | Acres.  | £     | s. | d. |
| Bombala ... ..         | 7   | 134,019 | 171   | 0  | 0  |
| Hillston, North ... .. | 1   | 45,450  | 17    | 15 | 0  |
| Narrandera ... ..      | 1   | 59,285  | 46    | 0  | 0  |
| Nowra ... ..           | 1   | 4,000   | 16    | 13 | 4  |
| Warialda ... ..        | 1   | 7,600   | 2     | 10 | 0  |
| Wentworth ... ..       | 1   | 141,000 | 27    | 10 | 0  |
| Wilcannia ... ..       | 1   | 64,000  | 26    | 0  | 0  |
|                        | 13  | 455,354 | 307   | 8  | 4  |

*Residential Leases.*

The applications for leases of this character (which are open to the holders of miner's rights or mineral licenses in connection with land within gold and mineral fields) place 1893 in advantageous comparison with 1892, as, during 1893, the number of leases applied for was 100, as against 70 during the preceding year. (Schedule LXXXI.)

At the close of 1892, 68 applications had not been finally dealt with, so that 168 came forward for action during the year under review.

Action on 72 of these was completed, 37 having been withdrawn or refused, and 35 leases having been granted in connection with an area of 327 acres 2 roods, at an annual rent of £54 10s.

Nine leases were forfeited during the year, representing an area of 60 acres and 18 perches, and an annual rent of £22 0s. 10d.; but at the close of 1893 91 leases were current. The area held under lease was 853 acres 3 roods 35 perches, the annual rent being £159 1s. 6d.

*Snow Leases.*

Section 36 of the Crown Lands Act of 1889 provides for a seven years lease, with a right of a three years extension, of Crown Lands (not already under Pastoral or Conditional Lease) which may be usually covered with snow for a part of each year, and unfit for continuous use or occupation. On the 31st December, 1893, 27 of such leases were held, comprising the following:—

| District.         | Number. | Area.   | Rent. |    |    |
|-------------------|---------|---------|-------|----|----|
|                   |         | Acres.  | £     | s. | d. |
| Cooma ... ..      | 19      | 68,200  | 976   | 11 | 0  |
| Tumbarumba ... .. | 4       | 18,750  | 115   | 2  | 11 |
| Tumut ... ..      | 4       | 28,150  | 58    | 13 | 0  |
|                   | 27      | 115,100 | 1,150 | 6  | 11 |

One application for lease was made during the year, but was refused.

One lease (in the Cooma District) of 1,950 acres was notified as forfeited; the annual rent of it was £71.

*Dedications,*

*Dedications, Reserves, and Resumptions.*

Full and detailed information will be found of :—

Lands dedicated for religious and public purposes in Schedule XCIV.

Reserves from sale notified in Schedule XC.

Do            revoked in Schedule XCI.

Reserves from lease and license notified in Schedule XCII.

Do            do            revoked in Schedule XCIII.

Lands resumed under section 105 Act of 1884, and section 41 Act of 1889 in Schedule LXXXIX.

From these Schedules it will be seen that 1,219,809 acres (represented by 1,572 reserves) were reserved from sale, while on the other hand, 2,009 reserves from sale containing 2,291,125 acres were revoked.

Two hundred and ninety-three reserves from lease or license containing 435,405 acres were notified, and 369 reserves of this description containing 807,532 acres were cancelled.

An area of 5,832 acres 3 roods  $20\frac{7}{10}$  perches was dedicated—four dedications of a total area of 5 acres 3 roods 8 perches having been made for religious purposes, and 168 dedications of a total area of 5,827 acres 0 roods  $12\frac{7}{10}$  perches for the various purposes enumerated in Schedule XCIV. The four dedications for religious purposes were made in pursuance of promises made prior to the resolution of the Legislative Assembly of 11th May, 1880, against dedications of this character.

Under the provisions of section 105 of the Crown Lands Act of 1884 and 41 of the Crown Lands Act of 1889, 6,947 acres 3 roods  $9\frac{1}{2}$  perches of dedicated land were resumed.

*Deeds of Grant.*

Schedule CIII contains particulars of deeds of grant issued during 1893. The total area to which they referred contained 252,279 acres 2 roods  $9\frac{1}{2}$  perches.

*Cases of Trespass on Crown Lands.*

The details with respect to trespasses on Crown Lands reported during the year, and the action taken thereon in connection therewith, are set out in Schedule XCVI. The cases, taken with 345 undisposed of, on the 31st December, 1893, amounted to 869. Of these, 534 were dealt with, leaving 335 outstanding at the close of the year.

*Application for permission to Ringbark.*

During 1893 78 applications for permission to ringbark, over an area of 383,979 acres 1 rood, held under lease or license, were received, the fees lodged being £529. Of these 28, comprising an area of 86,689 acres 1 rood, were allowed and 1 disallowed, but including applications made prior to 1st January, 1893, 74 applications, representing an area of 248,108 acres 1 rood were granted and 6 disallowed. (Schedule XCIX.)

*Cases dealt with by Land Boards.*

The cases under consideration by the various Local Land Boards during 1893 numbered 30,910, of which 2,830 were adjourned. The sum of the days occupied by the several Boards amounted to  $1,449\frac{1}{2}$ , as against 1,731 in 1892, during which year 35,316 cases were dealt with, 2,567 of which were adjourned. (Schedule XCVII.)

*Correspondence.*

The correspondence received at the Head Office during the year totalled 114,189; and 22,266 manuscript letters, 109,774 printed letters, 876 schedules, 16,756 parcels, 1,738 telegrams, and 124 circulars were despatched. Details will be found in Schedules C, CI.

During 1893 138,122 letters were received at, and 136,639 letters, parcels, &c., despatched from, the several Local Land Board Offices. (Schedule CII.)

Newcastle

*Newcastle Pasturage Reserve.*

The following Return shows up to 31st December, 1893, the state of Applications to Purchase under the Newcastle Pasturage Reserve Act.

| Total number of applications received. | Number of applications in which sale has been gazetted or disallowed. |              | Total area of applications gazetted for sale. | Total amount of purchase money of same. | Applications declared forfeited for non-receipt of instalment money. |                 | Applications in which purchase money has been paid in full. |                 | Applications now current. |                 | Number of applications now current under Original and Amendment Act. |                |
|--|---|--------------|---|---|--|-----------------|---|-----------------|---------------------------|-----------------|--|----------------|
|  | Sale gazetted.  | Dis-allowed. |   |   | No.  | Purchase money. | No.   | Purchase money. | No.                       | Purchase money. | Original Act.  | Amendment Act. |
| 1,169                                  | 964   | 213          | a. r. p. 226 1 17½                            | £ 61,314                                | No. 59   | £ s. 3,620 2    | No. 202   | £ s. 13,758 19  | No. 703                   | £ 43,935        | 149  | 554            |

*Cost of Survey.*

Schedules CV and CVI contain full particulars on this subject. The following are some of the leading figures :—

RETURN showing areas measured by Salaried and Licensed Surveyors in the year 1893 in New South Wales.

|                         | Conditional Purchases. | Conditional Leases. | Homestead Leases. | Totals for 1893 (All Surveys). |
|-------------------------|------------------------|---------------------|-------------------|--------------------------------|
| Area ... ..             | 299,778 acres.         | 554,025 acres.      | 798,916 acres.    | 2,114,993 acres.               |
| Cost ... ..             | £15,359 6s. 2d.        | £15,274 11s. 1d.    | £3,429 19s. 10d.  | £55,354 14s. 5d.               |
| Average per acre ... .. | 1s. 0½d.               | 6½d.                | 1¾d.              | 6¼d.                           |

The report of the Chief Surveyor and Director of Trigonometrical Survey is appended hereto. A subject of special interest in that report is dealt with in Appendix C, in which a comparison is instituted of the relative accuracy of a large number of Geodetic Surveys carried out in different parts of Europe, showing that the primary triangulation of this Colony is probably as accurate as any similar survey elsewhere.

WM. HOUSTON,  
Under Secretary for Lands.

SCHEDULE I.

(Min. 94-3,082)

EXPENDITURE for all Services during 1893.

## SCHEDULE XXIV.

(C.S. 94-6,423 Dep.)

RETURN for the year 1893 showing the Number and Area of Mineral Conditional Purchases validated under 50 Vic. No. 21.

Nil.

SCHEDULE XXV.

(Min. 94-3,839.)

RETURN showing the increase and decrease of Areas of Conditional Purchases applied for under the Crown Lands Act of 1884; also the amount of Deposit and Survey Fees called for and refunded from the 1st January, 1885, to 31st December, 1893, and also the Conditional Purchases under the Repealed Acts declared void, increased and decreased in area during the year 1893.

Table with 14 columns: Land Board and Land District, Area increased, Extra deposits called for, Extra survey fees called for, Area decreased, Deposits refunded, Survey fees refunded, Increased during 1893, Decreased during 1893, Declared void during 1893. Sub-headers for 1884 and 1861 acts are provided. Rows list various districts like Armidale, Bourke, Cooma, Dubbo, etc., with their respective area and fee data.

## SCHEDULE XXV—continued.

## Report of the Chief Surveyor to The Under Secretary for Lands.

Sir, Department of Lands, Survey Office, Sydney, 14 February, 1894.

I do myself the honor of submitting the Annual Report of the services performed in this Office during the year 1893.

The number of permanent field officers employed was fifty-one, who were classified as follows:— Staff. Fourteen district surveyors, eleven first-class surveyors, three second-class, fifteen third-class, and eight fourth-class.

Mr. J. L. Tritton, who since 1st August, 1890, had filled the position of District Surveyor at Hay, Death. was accidentally killed at Burwood on the 19th November, 1893. Through his death this Department has lost the services of a capable officer, and the State a deservedly esteemed public servant, whose experience in business was very valuable. The vacancy thus caused on the staff of district surveyors was filled by the appointment of Mr. W. G. Walker, the senior officer on the list of first-class surveyors.

Mr. F. W. Hawkins, fourth-class surveyor on the permanent staff, resigned his position on the 1st February, 1893. Resignation.

Messrs. J. F. Truscott, H. F. Hall, and S. A. Steane, surveyors, who had been temporarily employed on salary, were promoted to vacancies on the fourth-class of the permanent field staff. Promotions.

At beginning of the year twelve surveyors were employed temporarily on salary; of these, one resigned, two were retired from the service, and three were transferred to the permanent staff, thus leaving only six surveyors under this class of engagement at the present time, of whom three are employed on detail survey for sewerage. Surveyors temporarily on salary.

Of the junior licensed surveyors, eleven were employed as assistant surveyors, and were attached to the parties of salaried officers; there were two resignations from this class. Assistant surveyors.

Ninety-eight licensed surveyors were employed on contract surveys. Licensed surveyors on contract.

There were six meetings of the Board appointed for renewal of license to practice under the Real Property Act, and inclusive of new licenses (eleven) the total number issued was 126, in respect of which the authorised fee of £1 1s. each was paid. Licenses under the Real Property Act.

In conformity with the usual practice, eleven applications for certificates of title under the Real Property Act were inquired into in this office; in four of the cases it was found necessary to have an examination of the surveys, and in several cases extensive investigations were incurred. Investigations for Registrar-General.

There were five inspections and reports upon surveys which were made in connection with first applications for the special license under the Real Property Act. Inspections for Real Property licenses.

## BOARD OF EXAMINERS FOR LICENSE TO SURVEY.

Meetings of the Board for examination of candidates for license to survey Crown Lands were held in January and September.

In January the Board consisted of the following members, appointed on behalf of the Government, viz., Messrs. J. W. Allworth, Acting Chief Surveyor (Chairman); E. MacFarlane, District Surveyor; and T. F. Furber, Licensed Surveyor and Chief Computer of the Trigonometrical Survey of the Colony; together with Messrs. G. H. Knibbs and D. M. Maitland, President and Vice-President respectively of the Institution of Surveyors, who acted as representatives of that Institution. The resolutions of the Conference of Surveyors, held at Melbourne 31st October, 1892, were considered and entirely endorsed by the Board, and speedy action thereon recommended; and it was decided, with a view to bringing some of the Conference proposals into effect at once, that future examinations be held at the times proposed, and that the regulations for examination framed by the Conference be adopted here as far as practicable.

Twenty candidates presented themselves for examination, of whom nine passed, viz. :—

|                            |                           |
|----------------------------|---------------------------|
| Messrs. Arthur John Wicks, | Messrs. Eugene Kenny,     |
| Sydney Edwin Smith,        | James Walker Johnston,    |
| John Miller,               | Gerald Vincent Doyle, and |
| Thomas Kennedy, junior,    | Herbert Fleming.          |
| Robert Henry Foy,          |                           |

In September another examination was held, the Board consisting of Messrs. J. W. Allworth, District Surveyor (Chairman); E. Ebsworth, Staff Surveyor; and T. F. Furber, acting on behalf of the Government; together with Messrs. Knibbs and Maitland, who, as before, represented the Institution of Surveyors.

Sixteen candidates presented themselves for examination, of whom five passed, viz. :—

|                         |  |
|-------------------------|--|
| Messrs. George Roberts, | Messrs. Charles Albert Litchfield, and |
| Philip William Rygate,  | Charles Moncrieff Goodyear.            |
| Kelsie Irving Allen,    |  |

It may be noted that the immense quantity of current business connected with settlement of the country, to be transacted in this Department, has prevented comprehensive action being taken on the recommendations of the Intercolonial Survey Conference held at Melbourne in 1892, but in one matter of special interest to this Department and of wide importance to the public, the Minister has initiated proceedings by causing the preparation of a Land Surveyors' Bill on the lines indicated in the report of the Conference, and he has intimated his intention of laying same before Parliament. Intercolonial Survey Conference.

During the year several outlying branches have been removed to this building, viz., the lithographic drawing and printing branch, trigonometrical computing and instruments branch, and the Metropolitan District Survey Branch. This concentration of the various branch offices affords much convenience, and will tend to economical administration. Branch offices concentrated.

## TRIGONOMETRICAL SURVEY OF THE COLONY.

In the month of March the Minister decided to retrench as far as possible the expenditure of this Department, and with that view he directed the reduction of the Trigonometrical Survey Staff, which has been carried into effect by transferring the service of Mr. Surveyor Richmond to the general staff, and by retiring Mr. Surveyor Gordon and disbanding the two piling parties under Mr. Taylor and Mr. Lockhart,

Lockhart, licensed surveyor, respectively; thus field operation is now restricted to the Surveyor-in-charge, Mr. Brooks, F.R.A.S., F.R.G.S., and one piling party, under Mr. Healy. Mr. Brooks has been engaged on the triangulation southward of Sydney, which city is now geodetically connected with Melbourne.

During the year 1894 there will be ample scope for his service in completing the triangulation in the eastern counties fronting the ocean southward of Sydney, and also he may be able to proceed with the main series of triangles which have been projected northward. A condensed statement of the past year's work is contained in an interesting report by Mr. Brooks, dated 27th January, 1894. [*Vide Appendix A.*]

Of course, it is very much to be regretted that the financial exigencies of the Colony demanded such a sacrifice, viz., in retarding an important undertaking which is essential to the construction of accurate maps, and is the only reliable means of ensuring precision in survey operations, and thus needful to determination of boundaries of alienated lands, and their reinstatement when the marking of same may have become effaced. It is to be hoped that a return of the prosperity, which for so many years favoured this country, may soon enable this important work to proceed again with an adequate staff to keep pace with modern requirements in this direction; for in all civilised countries the necessity for such a basis for topographical maps has been recognised, such maps being necessary for economical administration of Government in many respects. As an instance in point, it may be mentioned that on comparison with the Colony map now in use, the trigonometrical survey discloses a discrepancy of some 8 miles in the southern boundary.

Touching the comparative accuracy of our trigonometrical survey, the Chief Computer has prepared a statement showing its relative value in that respect to like work in other countries, and it is gratifying to find that the survey stands in a satisfactory position. [*Appendix C.*]

The Board of reference for dealing with questions arising in connection with the trigonometrical survey met once during the year, and it was decided that the absolute zenith distance shall be determined of at least two stations from each principal station, and the surveyor-in-charge was advised accordingly.

The compilation of a register of trigonometrical stations, which has been a very tedious undertaking, has advanced far towards completion, and it is hoped that in the course of next month it may be ready for publication. When finished it is intended that the register shall be duly kept up to date, and additional particulars published at convenient periods.

#### TRIGONOMETRICAL COMPUTING BRANCH.

Field-books of angle observations at the following stations have been received, namely:—Hudson's Peak, Umaralla, Tumanang, Lowden, Woolowlar, and Twynam, on the south meridian series and adjacent thereto; Jellore, Ginginenbullen, Nundialla, St. Paul, Wooragee, Mare's Range, Barry, Ballanya, Wingecarribee, and Saddleback, in the counties of Camden and Argyle; Richardson, Seaham, Ebsworth, Nerong, Yacaaba, Douglas, and Euther, in the Hunter River District and immediately northward thereof. All the observations have been examined and the results duly recorded.

Computation of the south meridian series has been carried on as far as the data to hand would permit, and provisional values of latitude, longitude, and azimuth of the main stations have been calculated. These may, however, be slightly modified by the more rigorous computation which it is proposed to make on completion of the field work of this series of triangles, which, as mentioned in last year's report, may be expected to afford information of the greatest interest in determination of the figure of the earth. A map, illustrative of this series, and showing the connection between the Victorian triangulation and Sydney Observatory, with the positions of the two base lines, is hereto appended.

The triangulation of the county of Camden, as far as it has proceeded, has been computed, and co-ordinates of stations are now available for the use of surveyors and others.

In consequence of the suspension of field operations immediately north of the Hunter District, and as it may be some little time before that work is resumed, the opportunity has been taken to revise the provisional computations of the triangulation of that part of the country, which had been proceeding as the angle books came to hand. The resulting values may be considered as sufficiently precise for most practical purposes, but further computation will be necessary upon observation at the important stations—Sugarloaf, Brokenback, and Tyraman.

The astronomical observations for latitude and azimuth at stations Wambrook, Numbla, Substitute, and Bukalong have been reduced, and the results recorded in the usual manner. Additional notes of observations for azimuth at station Bukalong were received, as well as those for azimuth and latitude at station Hudson's Peak, and all the necessary calculations have been made in connection therewith.

A copy of the co-ordinates of, and bearings between, trigonometrical stations has been prepared for publication.

#### INSTRUMENTS.

The stock of valuable surveying and scientific instruments was carefully removed from the late office in Pitt-street to a commodious and suitable room in this building, and has met with due attention in the way of inspection and occasional repairs.

A tacheometer interchangeable with a theodolite, which was sent on trial by Messrs. Troughton and Simms, of London, is still outstanding with the surveyor to whom it was entrusted for use, and whose report may be daily expected; it is hoped that this instrument may be successfully applied in diminishing the great labour in survey operations over rugged country, and it is expected that an important improvement may be devised in the apparatus therewith connected.

An order has been sent to London for one dozen Chesterman's steel bands to be used as standards for comparison therewith of surveyors' working measures.

Another lot of arithmometers, which had been in use for many years, and were more or less unserviceable, has been sent to Messrs. Layton, of London, to be fitted with Tate's improved gearing, which has been proved in this Department to be very effective.

A few items of surplus stock have been disposed of to surveyors, at valuations arrived at in the usual manner and severally approved.

An instrument named "the Comparator," designed by the late Surveyor-General, has, under the supervision of the Government Astronomer, been completed at small cost; it is intended to facilitate the transfer of measure from the standard bar to a steel tape or other means of recording length, and it is found to operate in a satisfactory manner.

It

It is proper for me here to report that through stress of business of urgent importance it has been impossible for me, during the past year, to inspect the stock with a view to separating those instruments which might be removed elsewhere to places where they might perhaps be more conveniently accessible for purposes for which they may be required, but I may state that no inconvenience has been caused by their custody being retained here up to the present time.

#### CORRESPONDENCE AND RECORD BRANCH.

A statement of the papers dealt with in this branch during the year is given hereunder:—

|   |     |     |     |        |
|---|-----|-----|-----|--------|
| Papers received from other branches               | ... | ... | ... | 18,439 |
| Papers, plans, tracings, &c., received by post    | ... | ... | ... | 3,241  |
| Instructions issued to surveyors                  | ... | ... | ... | 1,573  |
| Memoranda sent to surveyors                       | ..  | ... | ... | 9,833  |
| Letters written and despatched                    | ... | ... | ... | 764    |
| Lithographs, tracings and plans sent to surveyors | ... | ... | ... | 2,106  |
| Minutes written to the Under Secretary            | ... | ... | ... | 815    |
| Decisions by the Minister noted                   | ... | ... | ... | 570    |
| Telegrams despatched...                           | ... | ... | ... | 152    |

The number of clerks employed in this branch is the same as the previous year, viz., four, one of whom, however, has at times been engaged assisting in other branches.

All leave granted to officers in the Survey Branch is recorded in this branch.

#### DETAIL SURVEY.

During the past year steady progress has been made with the Detail Survey for Sewerage of the City of Sydney and suburbs, and also of the City of Newcastle and environs.

Seven surveyors have been engaged on the work.

It is satisfactory to note that the survey of Newcastle, which was commenced in May, 1893, and Newcastle. on which three surveyors are employed, is being carried out at a lower cost than has been the case on any work of a similar character hitherto; whether estimated on the ordinary tenement or on the area basis. The whole of the area east of Darby-street, comprising the most populous part of the city, much of which is extremely awkward for survey operations, has been completed, at the very low rate of 10s. 6d. per tenement, or £2 8s. 9d. per acre.

A standard traverse survey covering the Municipalities of Newcastle, Merewether, Adamstown, Newcastle  
Environs. and Hamilton, comprising in length  $15\frac{1}{2}$  miles, has been completed, and notwithstanding that extra time was necessarily expended in putting in permanent marks at the main stations of this survey, the cost compares favourably with other similar work. The field work of the standard survey embracing Wickham and Carrington has also been completed. The levelling for the fixation of bench marks through Newcastle is partly done.

Marks of a permanent character, designed by myself, and consisting of cast-iron conical plugs set in concrete and protected by iron covers set flush with surface of the carriage-way or pathway, have been placed at all the principal stations of the standard surveys, and will in the future form valuable points of connection for all other surveys in the vicinity, as their co-ordinates are carefully determined with reference to the triangulation, and they will also be available as bench marks for levelling operations.

The new work of the detail survey in the neighbourhood of Sydney being now entirely confined to Sydney  
Environs. the sparsely settled suburbs, where the holdings chiefly consist of large residences in ornamental grounds, it might reasonably be expected that the cost on the tenement basis would be higher than last year, but owing to the example of the low rate of cost of the Newcastle survey and special efforts made by the surveyors engaged on the work generally, the cost of new work per tenement for 1893 has been 16s. 7d., as compared with 16s. 9d. for 1892; 15s. 6d. for 1891; 15s. 11d. for 1890; 15s. 8d. for 1889; 11s. 6d. for 1888; 17s. for 1887—during which year I took charge—and 23s. 8d. for 1886.

Estimated on the area basis the new work of Sydney and suburbs has cost 11s. 11d. per acre; but including Newcastle and revision work the cost has been £1 1s. 8d. per acre.

In consequence of extensive alterations and new buildings erected since the survey of the city and its nearest suburbs, many of the earlier lithographs issued are out of date for the purposes of the sewerage service, consequently revisional surveys of large areas have been carried out during 1893, and efforts have been made to keep the plans and tracings of the more recent work up to date, so that the lithographs supplied to the Metropolitan Board should be fully abreast of their present requirements. On this class of work there is a reduction of cost in 1893, as it has been 16s. 1d. per tenement as against 25s. 10d. in 1892. This difference is, however, chiefly to be accounted for by the fact that as several sheets in Redfern, Waterloo, and Paddington were almost covered with new buildings, their revision was executed much more rapidly, and consequently more cheaply than those done in 1892. The alterations and additions, exclusive of new tenements fixed, was 6,300 against 6,208 in 1892, and 3,294 in 1891.

As may be inferred from the fact that the cost per tenement is lower than in 1892, while the cost per acre is somewhat higher, a larger number of tenements has been surveyed, distributed over a smaller area than in 1892. The year's new surveys cover an area of 1,975 acres as against 2,401 acres in 1892, while the revision work has embraced 649 acres against 453 acres in 1892; 104 sheets of new work, showing 2,068 tenements, have been received, in addition to which the surveys for second editions of 47 sheets, with 1,722 new tenements, and revisional surveys, prior to publication, of 96 sheets, with 574 new tenements, have also been completed.

The number of tenements fixed has been—new work, 2,068; in surveys for second editions, 1,722; and in revision prior to publication, 574; making a total of 4,364 against 3,946 for 1892.

The

The positions of many details incidental to the surveys, which cannot be enumerated under the ordinary heading of holdings or tenements, have been determined during the year, among which may be mentioned the new Railway Stations at Eveleigh, Macdonaldtown, and Petersham; new Central Police Court, Liverpool-street; Railway Station and Yards at Newcastle; Court-house, Lunatic Asylum, Church of England Cathedral, &c., at the same town. In connection also with the survey, the fixation of about  $3\frac{1}{4}$  miles of coast,  $3\frac{1}{4}$  miles of water-courses, 1 mile of wharves,  $\frac{3}{4}$  of a mile of the Parramatta River, 7 miles of railways,  $1\frac{1}{2}$  miles of tramways, and 47 miles of streets has been effected.

In order that the revisional surveys might be carried out with as little delay as possible, a number of the original standard survey marks in Sydney and Redfern have been refixed and remarked.

Levelling operations in Parramatta necessary for the fixation of fifty-three bench marks have been completed.

The distribution of the detail survey is shown in the following tabular statement which does not include revisional surveys:—

| New Surveys.       |                |        | Surveys for Second Edition. |                |        |
|--------------------|----------------|--------|-----------------------------|----------------|--------|
| Municipalities.    | No. of Sheets. | Area.  | Municipalities.             | No. of Sheets. | Area.  |
|                    |                | acres. |                             |                | acres. |
| Ashfield .....     | 1              | 20     | Glebe .....                 | 4              | 62     |
| Newcastle .....    | 16             | 279    | Paddington.....             | 11             | 139    |
| North Botany ..... | 8              | 153    | Redfern .....               | 9              | 114    |
| Parramatta.....    | 25             | 478    | Sydney .....                | 15             | 203    |
| Petersham .....    | 1              | 25     | Waterloo.....               | 6              | 109    |
| Randwick .....     | 14             | 347    | Woollahra .....             | 2              | 22     |
| Strathfield .....  | 25             | 508    |                             |                |        |
| Woollahra .....    | 14             | 165    |                             |                |        |
|                    | 104            | 1,975  |                             | 47             | 649    |

In addition to the surveys proper to this Branch some others have been effected by its officers, as they could be carried out by them with special economy. Amongst them may be mentioned the survey of the proposed boundaries of the Agricultural Society's land at Moore Park; refixation of trigonometrical stations in the neighbourhood of Newcastle; connections between certain trigonometrical stations, viz., Y<sup>14</sup>, X<sup>22</sup>, T<sup>22</sup>, and W<sup>15</sup>; survey of old Court-house site, Newcastle, and resurvey of allotment 63, Newcastle; check survey at Enfield, for Real Property Office; supervision of clearing and fencing of Thirlmere Cemetery, &c.

The *personnel* of the drafting staff has remained unaltered during the year.

Altogether 136 plans or sheets of Detail Survey have been plotted and drawn; extra particulars have been placed on 58 plans, of which second editions have to be published; and further information has been drawn on 140 plans, so as to bring them up to date prior to publication.

With regard to the preparation of tracings, 124 have been made and 81 examined. Forty-one tracings, comprising 20 for first edition and 21 for second, have been forwarded to the Lithographic Branch. Ninety-three sheets, comprising 67 first and 26 second editions, were published, making a total of 572 now published.

The information in the Branch continues to be largely used by the public, especially by surveyors in private practice, for the purposes of the Real Property Act, as 574 plans and 330 field-books have been referred to throughout the year, the number of plans used by other branches of the Department being 164, while the surveyors engaged on revisional and other surveys have made reference to 466 field-books already in the Branch.

I forward herewith a tabular statement showing the comparative cost of Detail Surveys from 1886 to 1893 inclusive; and also a list of the surveyors employed in 1893, with their respective salaries, and a statement of the services performed by them during the year. Three maps are also annexed, showing in blue tint the area surveyed for water supply and sewerage purposes during 1893, and in red tint the area surveyed prior to that year. (See Appendices.)

TABLE showing comparative amount and cost of Detail Surveys from 1886 to 1893.

|   | 1886.   | 1887.     | 1888.        | 1889.         | 1890.         | 1891.        | 1892.        | 1893.     |

## Surveyors employed during 1893 on Detail Survey under Mr. D. M. Maitland.

| Name.               | Office or rank in Service.           | Salary. | Duties on which engaged.   | Remarks.                                 |
|---------------------|--------------------------------------|---------|--|--|
| H. F. Madsen .....  | First Surveyor, Detail Survey Staff. | £ 335   | Detail survey—North Botany, 8 sheets; re-survey for second edition—3 sheets in Redfern, 4 in Waterloo, and 8 in Sydney; survey of additional particulars on 1 sheet in Newtown, 1 in Alexandria, and 10 in Macdonaldtown; survey of proposed boundaries of Agricultural Society's Ground at Moore Park and details within the ground; procuring information necessary for the completion of the plans of several sheets in Sydney, Manly, Waterloo, Leichhardt, and Randwick.  |  |
| S. Mills .....      | Surveyor, Detail Survey Staff.       | 313     | Detail survey—Newcastle, 1 sheet; re-survey for second edition of 2 sheets in Sydney, 2 in Waterloo, 6 in Redfern, and 4 in the Glebe; survey of additional particulars on 1 sheet in Sydney and 2 in Redfern; standard traverse survey for Newcastle, Merewether, Adamstown, and Hamilton; refixing trigonometrical stations, Newcastle District; survey of old courthouse site, Newcastle; re-survey of allotment 63, Newcastle; levelling at Newcastle for fixation of bench marks; check survey at Enfield under Real Property Act; refixing standard survey stations, Sydney and Redfern. | Now employed on Newcastle detail survey. |
| W. M. Thomas .....  | do                                   | 313     | Detail survey—Parramatta, 25 sheets; Strathfield, 25 sheets; connection survey between Concord alignments and trigonometrical station Y14; survey of part of Parramatta River; levelling and fixation of 53 bench marks, Parramatta.   |  |
| T. G. Wilson .....  | do                                   | 313     | Detail survey—Woollahra, 14 sheets; re-survey for second edition of 11 sheets in Paddington and 2 in Woollahra; survey of additional particulars on 1 sheet in Paddington.   |  |
| H. Shute .....      | Temporary salaried..                 | 290     | Detail survey—Ashfield, 1 sheet; Petersham, 1 sheet; re-survey for second edition, 2 sheets in Sydney; survey of additional particulars on 51 sheets in Ashfield, 3 in Petersham, and 1 in Leichhardt.   |  |
| T. B. U. Sloman ... | do                                   | 290     | Detail survey—14 sheets in Randwick and 7 in Newcastle; survey of additional particulars on 5 sheets in Randwick.  | Now employed on Newcastle detail survey. |
| D. C. White .....   | do                                   | 290     | Detail survey—8 sheets in Newcastle; re-survey for second edition of 3 sheets in Sydney; survey of additional particulars on 11 sheets in Marrickville, 5 in Leichhardt, 3 in Manly, and 1 in Paddington.  | do.                                      |

## DRAFTING BRANCHES.

Business during the year 1893 has progressed steadily, and it is satisfactory to be able to report that, in addition to there being in most instances a greater amount than usual performed, the Branches generally are closer up to date with their work than they have been for some years past.

Some interruption was caused through removal of the outlying Branches into the new building, and re-arranging all the Drafting Branches on the second floor. Some time was necessarily occupied, especially in connection with the removal and re-erection of the heavy machinery and plant of the Lithographic Printing Branch; but it is already evident that the present convenient arrangement of the Branches permits of the work of the Department being proceeded with in a more efficient and economical manner than has hitherto been possible.

Advantage has been taken of the allotment of more suitable rooms for the storage of sale maps to thoroughly revise the stock in hand and destroy all obsolete editions; and when the Under Secretary's directions in regard to the displaying of maps in the sales-room have been complied with, it will be found that the convenience of intending purchasers and persons desirous of inspecting maps has been studied.

During the year a pamphlet has been compiled and published from material supplied by the District Survey Offices giving full particulars of the different special areas open to selection throughout the Colony.

A system has also been inaugurated of charting upon the Head Office maps in pencil all new conditional purchases, conditional leases, and homestead leases as applied for directly after they have been noted upon District Survey Office maps, instead of waiting until after survey and confirmation. The Head Office maps are thus kept practically up to date, instead of being, as formerly, some six months behind date.

The new measurements requiring to be charted have fallen off considerably in comparison with late years, but the miscellaneous and auction cases dealt with are in excess of previous years.

The returns of maps compiled and published are very satisfactory, increases appearing under every head, particularly in regard to parishes, counties, towns, and auction-sale plans, the past year being the best since 1887.

No greater difficulty is now experienced by the printers in preparing zinc plates for the draftsmen, and subsequently printing therefrom, than in the case of lithographic stones; and during the year a new class of zinc plate, known as the Hull Patent Litho. Zinc Plate, has been brought under our notice, and is now being tried, which is alleged to be much cheaper than the ordinary plate, and quite as effective.

As the new Colony map is nearing completion the matter of reproduction had to be taken into consideration, and it has been decided to defer the engraving of the new map, which would be a costly undertaking, until financial conditions are more favourable, and for the present to publish it in the least expensive manner possible, viz., by photo-lithographing the compilation itself, in order to obtain the basis of an eight-mile-to-an-inch edition, and lithographing another edition for ordinary use on the reduced scale of sixteen miles to an inch.

It should be mentioned that some assistance was rendered to the Head Office for various periods during the year by the transfer of several draftsmen who had to come to Sydney for a term through ill-health. One of the stone polishers had to be dismissed through misconduct.

Detailed reports follow showing the work performed in each of the Branches, and maps are attached showing Land Districts and Land Board Districts, progress of the new Colony map compilation, and rabbit-proof fences so far as known to the Department.

#### MISCELLANEOUS CHARTING BRANCH.

Cases under section 46 of the Crown Lands Act of 1889 for the surrender and exchange of land have been more numerous than during previous years—the numbers being 279 for 1892, and 454 for 1893. These represent applications in different stages, many of them being received in the branch several times for adjustment, or the working out of alternative schemes suggested either by the Minister or the lessees. Altogether 458 cases of this class were dealt with during the year.

The arrears which had accumulated in former years in connection with the notation on plans and office maps of confirmations of conditional purchases and conditional leases, and the gazetted consecutive numbers of the latter, have now been completely disposed of.

During the months of June, July, and August special efforts were put forth to cope with the auction work. So great was the pressure for a time that it was only by increasing the number of draftsmen usually employed on the work fourfold that it could be satisfactorily met, which necessarily caused interruption to other business.

The area scheduled for auction during 1893 was 411,221 acres as against 327,934 acres for 1892.

With regard to the charting of new surveys on office maps, the year 1892 showed a considerable decrease as compared with 1891, and 1893 shows a further falling off in this respect. The numbers for the three years referred to are: 1891, 11,300 plans; 1892, 8,837; and 1893, 6,323. As surveys for alienation are to a large extent governed by the demand for land, the reason for decrease over the period referred to will be apparent.

The cost of charting by contract in 1893 amounted to £392 15s. 3d.

Several cases, involving more than usual labour, were dealt with in the branch during the year. Among these might be mentioned the establishment of Land Offices at Barmedman, Nyngan, and Warren, with the necessary readjustment of the adjoining Land Districts; the modification of Walcha and four of the adjacent Land Districts; the alterations in the boundaries of the Land Districts of Balranald South, Hay, Deniliquin, and Corowa, and the notification of travelling stock reserves under the Public Watering Places Act as reserves from occupation under the Mining Act.

The following comparative statement shows in brief the amount of work performed during the years 1892 and 1893:—

|  | 1892.          | 1893.          |
|--|----------------|----------------|
| Miscellaneous papers in branch on 31st December...     | 617            | 446            |
| Auction...   | 175            | 88             |
| Cases dealt with during the year, inclusive of auction | 11,307         | 11,626         |
| Cases dealt with during the year, exclusive of auction | 8,276          | 8,807          |
| Confirmations noted                                    | 9,100          | 6,700          |
| Consecutive numbers of conditional leases noted        | 16,000         | 2,900          |
| Plans and tracings charted                             | 8,837          | 6,323          |
| Area scheduled for auction during the year             | 327,934 acres. | 411,221 acres. |

#### COMPILING BRANCH.

*Miscellaneous Division*:—This division is charged with the compilation and drawing of town, county, colony, and miscellaneous maps, and the charting of feature surveys, connection surveys, and railway surveys.

Sixteen new town maps have been compiled and drawn, and five maps charted up for new editions, in addition to which ten maps drawn by surveyors have been revised for publication.

Five new county maps have been completed, viz., Cumberland, Clarke, Gordon, Vernon, and Kilfera, and the standard maps of Northumberland, Rous, Westmoreland, and Cook have been charted up for new editions.

The new colony map compilation is now well advanced (*vide* explanatory sketch map). [*Appendix.*]

Ninety plans of feature surveys and connections comprising 776 miles of survey have been charted. Three proclaimed railway lines, nine trial lines, and three private lines have also been charted.

A map of the Tamworth Land Board District has been completed. A number of miscellaneous maps have also been prepared for the Railway Commissioners, Military authorities, Public Works Committee, American Consul, and others.

Two draftsmen have been continuously employed on the revision of the Trigonometrical Register, and charting stations and connections on office maps.

*Parish Map Division*.—This division is engaged upon the compilation of parish maps for publication, and the charting up of standard parish maps for new editions.

The total number of maps dealt with is considerably in excess of the previous year's work, as may be seen from the following statement:—

|                                      | 1892. | 1893. |
|--------------------------------------|-------|-------|
| Parish maps compiled...              | 210   | 238   |
| Parish maps prepared for new edition | 107   | 112   |
|                                      | <hr/> | <hr/> |
|                                      | 317   | 350   |

The standard parish maps now number 2,500.

In explanation of the small increase in the number of standard parish maps prepared for new editions, it should be pointed out that hitherto, owing to the large number of maps requiring recompilation, no steps have been taken to publish new editions of maps so long as any copies of the old editions remained in stock. It is obvious, however, that owing to extensive alienations many of the maps could with advantage be republished; and it is proposed during the current year to devote some attention to this matter, giving preference to those maps which the District Surveyors may report to be most urgently required.

During

During 1893, 3,049 heliographs were printed, as compared with 2,330 in the previous year.\* The cost per copy in 1893 was, however, only 1s., as against 1s. 8d. per copy in 1892.

The names of county, parish, town, and miscellaneous maps published during the year may be found under the head of Lithographic Branch.

#### LITHOGRAPHIC BRANCH.

The number of publications issued by this Branch shows a considerable increase on that of 1892, with the exception of the maps prepared for the use of other Departments of the Government.

The advantages arising from the issue of more frequent editions of the most important classes of maps of counties, towns, and parishes admit of a smaller number of copies being printed in each case.

The large increase in the number of lithographs specially prepared for posting in public places throughout the country, for auction sale and special area selection purposes, has demanded prompt attention to produce them for use at least one month prior to the date of sale or selection. It may be noted that the requisite style of work on these plans being of a bold character, elaborate finish has been avoided in order to produce them at a minimum cost.

The following returns in tabular form show the details of lithographic operations for the year, embracing compilations prepared at the head office of county, town, parish, and miscellaneous maps, together with work for other departments, official forms, &c., for departmental use, and of original plans drawn by surveyors in the field for reproduction.

The removal from the branch offices in Pitt-street to the head office will undoubtedly facilitate business and tend to assure a greater degree of economy than has been hitherto attainable.

For public convenience and purposes of official record all lithographs are respectively thus classified:—1. Counties; 2. Towns; 3. Parishes; 4. Auction Sale Plans; 5. Miscellaneous; 6. Other Departments; and 7. Official Forms.

##### 1. Counties.

County lithographs show measured areas, roads, reserves, features, and all other information which is capable of delineation on a scale of 2 miles to an inch. They are published at 5s. per copy. Copies are also printed on a reduced scale of 8 miles to an inch, which are used for office purposes only.

Nineteen county maps were completed during the year, comprising 3,300 copies.

|           |          |          |            |
|-----------|----------|----------|------------|
| Argyle    | Clarke*  | Fitzroy* | Raleigh*   |
| Argyle*   | Cook     | Kennedy  | Vernon     |
| Clarence  | Farnell  | Manara   | Vernon*    |
| Clarence* | Farnell* | Manara*  | Yancowinna |
| Clarke    | Fitzroy  | Raleigh  |            |

Of these maps, those indicated by the asterisk are on the scale of 8 miles to an inch.

##### 2. Towns.

Town lithographs show the general design, measured lands, and names of purchasers, reserves and dedications within town and suburban limits. They are usually photo-lithographed from compilations prepared at this office, or from the surveyors' original plans, to the scales of 4 or 8 chains to an inch, and sold at 1s. per copy.

Forty-nine town maps were completed during the year, comprising 5,950 copies.

|             |                   |                  |               |
|-------------|-------------------|------------------|---------------|
| Aberdeen    | Dalmorton         | Longbottom       | Southgate     |
| Adaminaby   | Florida           | Maroota          | Springbrook   |
| Adelong     | Ganmain           | Menindie         | Stockton      |
| Alnwick     | Glen Innes        | Moatfield        | Temora        |
| Barham      | Gosford           | Mudgee           | The Pinnacles |
| Bear Hill   | Goulburn          | Munyabla         | Tuena         |
| Bellbrook   | Grenfell          | Murwillumbah     | Tuncurry      |
| Booyong     | Helensburgh, West | Nelligen         | Wellingrove   |
| Brasfort    | Jembaicumbene     | Nuntherungie     | Wingham       |
| Buraja      | Kerr              | Peak Hill        | Wollombi      |
| Collie      | Kiandra           | Seaham           | Wondalga      |
| Cootamundry | Kincumber         | Seaham (reprint) | Yalwal        |
| Cowra       |                   |                  |               |

##### 3. Parishes.

Parish maps are compiled to a scale of 20 chains to an inch, for office use, and then, with few exceptions, reduced to 40-chain scale, for publication and scale at 1s. per copy.

Three hundred and forty-nine parishes were completed during the year, comprising 29,921 copies.

|              |              |             |              |             |                  |
|--------------|--------------|-------------|--------------|-------------|------------------|
| 12 in county | Argyle       | 7 in county | Cumberland   | 2 in county | King             |
| 13           | " Ashburnham | 1           | " Dampier    | 18          | " Leichhardt     |

| 5            | " Cooper     | 7           | " Inglis     | 8           | " Wynyard        |
| 1            | " Courallie  | 6           | " Kennedy    | 1           | " Yancowinna.    |

#### 4. Auction Sale Plans.

Lithographs of all lands measured for auction are printed for use at auction sales.

Three hundred and thirty-one auction sale plans were completed during the year, comprising 23,334 printed copies.

#### 5. Miscellaneous.

In this class during the year the work done comprises 80 sheets of the detail survey of the City of Sydney and Suburbs; map of New South Wales, showing rabbit-proof fences; 8 diagrams, illustrating surveyors' pocket-book; maps for Annual Report of Department of Lands; map of New South Wales, showing all divisions for purposes of the Crown Lands Acts; map of New South Wales, showing stock routes, tanks, wells, &c.; maps showing snow leases; and maps of the Land Board Districts of Armidale and Grafton.

One hundred and eleven miscellaneous maps were completed during the year, comprising 17,045 copies.

#### 6. Other Departments.

Maps, plans, and diagrams have been printed for the Departments of Chief Secretary, Mines, Agriculture, Government Statistician, Treasurer, and the Railway Commissioners, comprising principally map of National Park, railway maps, showing railway systems of Australia and coaching routes of New South Wales; geological map of New South Wales; dairying map of New South Wales; sheets of orchid drawings; diagrams to illustrate "Seven Colonies of Australasia," and map of New South Wales to illustrate Year Book of Imperial Institute.

Thirty-six maps, plans, and diagrams were completed during the year, comprising 68,120 copies.

#### 7. Official Forms.

These forms comprise circulars, decisions, forms, and memoranda required for use at head-quarters and at country offices.

One hundred and twenty-seven official forms were completed during the year, comprising 67,525 printed copies.

#### COMPARATIVE SUMMARY FOR 1892 AND 1893.

| Map, Plan, or Document.  | 1892.                 |                        | 1893.                 |                        |

| Totals.....              | 824                   | 191,954                | 1,022                 | 215,195                |

A greater degree of economy is attained by the employment of contract draftsmen on certain classes of miscellaneous work, *e.g.*, the plans of the detail survey of the City of Sydney and Suburbs, which are usually drawn on zinc by private persons or firms outside the office and the copies printed here.

Contracts for printing work have now been discontinued, the excellent printing machinery now in use being capable of reproducing the work required for all purposes.

Contractors for lithographic drawing work received the sum of £787 16s. during the year.

#### ROADS BRANCH.

The Roads Branch deals with applications for survey and opening of roads through alienated and leased Crown lands; and, after survey has been carried out, examines the plans, prepares schedules, and takes other necessary action towards the opening, or the resumption of lands for such roads, under the Roads Act 4 William IV No. XI, or the Crown Lands Act 53 Victoria No. 21, section 42; and after confirmation deals with the Land Boards' appraisements and the charting of the roads on the office maps, &c. This branch also deals with applications for survey and alignment of streets, examines the plans after survey, and prepares the cases to conform with the provisions of the 128th section of the Municipality Act 31 Victoria No. 12. Applications for the purchase of unnecessary roads under the Crown Lands Act 48 Victoria No. 18, section 67, meet with preliminary consideration in this branch; and it deals with applications for permission to erect public gates under Act 39 Victoria No. 10, and with various other matters having reference to roads and streets, &c.

The number of applications for survey of roads and streets received during the year was 295; the number of surveyors' reports received (exclusive of reports transmitting plans of surveys), 477; the number of road plans received 362, showing 1,064 miles of road surveys, and the number of alignment plans 31, showing 193 streets as marked for alignment of carriage and foot ways; 42 applications for public gates and 63 applications for purchase of unnecessary roads were received and dealt with; and 351 objections and claims with regard to road and street surveys were considered; also numerous letters and applications which were sent in asking for information, &c., with regard to road and street matters had to be answered.

There were 7,096 papers registered in this branch during the year, which, together with 531 papers relating to roads registered in other branches, make a total of 7,627 papers received and dealt with, being 214 more than in 1892.

## OCCUPATION DRAFTING BRANCH.

There have been no changes either in the character of the work or in the personnel of the staff of sufficient importance to call for any special comment.

The work of indexing and cataloguing the old field-books has been proceeded with, and the contents of upwards of 4,000 books have been ascertained and duly noted in a condensed form for the purpose of indexing.

The interest tables mentioned in the report for 1892 were further supplemented by tables designed more particularly to assist Crown Land Agents in determining the balance due at any given time to complete the payment for a conditional purchase. These tables were finally checked in this branch during the year, and have now been printed and issued for general use.

The usual schedule showing the withdrawals, &c., from pastoral holdings were received from the district offices. In 1,141 instances alterations had taken place in the areas available for lease or license, necessitating adjustments of rents and license fees.

The areas of occupation licenses being now adjusted to June of each year instead of the preceding December, overpayments in advance for the succeeding years are in a great measure avoided.

The work of condensing reports received from district surveyors regarding sites suitable for the formation of labour settlements, and dealing with letters from the general public containing similar suggestions, was undertaken in this branch.

One hundred and five miles of pastoral holding boundaries have been surveyed at a cost of £388, of which the sum of £105 was collected from the lessees; also, a sum of £170 was recovered from the pastoral lessees for the survey of 170 miles of pastoral holding boundaries common to homestead leases, and £3 2s. 6d. on account of a survey of 3 miles 10 chains made by a salaried surveyor. In addition to these surveys, 49½ miles were measured at a cost of £129 6s. 9d., and the whole of this amount was paid by the lessees.

Plans of 121 abandoned resumed and leasehold areas were prepared and forwarded to the district surveyors for report as to the best means of disposal, and the necessary action consequent upon the nature of the report has been taken.

The necessary steps are being taken to chart up to date a new edition of the map showing rabbit-proof fences.

The following Schedule shows the principal items of business dealt with during the year:—

|  |        |       |
|--|--------|-------|
| Survey cases under section 143, Act of 1884, and section 52, Act of 1889               | ...    | 39    |
| County maps charted with pastoral holdings   | ... .. | 8     |
| Parish maps charted with pastoral holdings   | ... .. | 277   |
| Homestead leases charted and noted   | ... .. | 496   |
| Surveys of pastoral holdings charted   | ... .. | 40    |
| Tracings and lithographs prepared  | ... .. | 264   |
| Refund schedules dealt with  | ... .. | 1,141 |
| Questions as to leasehold and resumed areas replied to                                 | ... .. | 972   |
| Abandoned holdings prepared for disposal at auction or otherwise                       | ... .. | 121   |
| Field-books indexed and catalogued   | ... .. | 2,903 |
| Rabbit-proof fencing charted on map from inspectors' reports and other sources (miles) | ... .. | 1,750 |
| Inferior leases charted  | ... .. | 16    |
| Snow leases charted  | ... .. | 54    |

## MISCELLANEOUS CONTRACT BRANCH.

The number of drawings prepared is not quite so large as the number prepared in 1892. There has also been a slight decrease in the number of applications dealt with.

One of the officers on salary compiled three parish maps and a map of part of the travelling stock route from Walgett to Uarbry. Another was a considerable time engaged in dealing with matters in connection with the survey of travelling stock reserves in Moree Land District.

Of the drawings issued from the Branch, 1,237 were prepared by draftsmen in receipt of salary.

During the year every care was taken to satisfy applications as quickly as possible, and at the end of December there were no applications on hand except a few that had been received during the last week of the year.

## MAP SALES BRANCH.

The number of maps received and issued during 1893 was considerably greater than during 1892. Cash sales, exclusive of the returns from the new city and environs map, were about the same as during 1892.

A considerable amount of work was involved in the removal and rearrangement of the maps and presses, and destruction of surplus and useless stock.

Lithographs received for the years 1892 and 1893 from the Printing Branch as follows:—

| Description.                        | Number. |       | Copies. |        | Value.     |           |
|-------------------------------------|---------|-------|---------|--------|------------|-----------|
|                                     | 1892.   | 1893. | 1892.   | 1893.  | 1892.      | 1893.     |
|                                     |         |       |         |        | £ s. d.    | £ s. d.   |

## PLAN-MOUNTING BRANCH.

The return of this branch shows that 14,813 pieces of work were performed during the year, the decrease being attributable to the plan-mounter's absence through ill-health. All current work has, however, been disposed of.

E. TWYNAM,  
Chief Surveyor.

## APPENDIX A.

The Surveyor in Charge of Field Operations, Trigonometrical Survey, to The Chief Surveyor.

Sir,

27 January, 1894.

I have the honor to report that during the year 1893 the junction between the trigonometrical surveys of the colonies of New South Wales and Victoria was completed by observations made with the 18-inch Troughton and Simms' altazimuth, at Hudson's Peak, Umeralla, Tumanang, Lowden, and Twynam, and there now exists a complete chain of triangles joining the Sydney and Melbourne Observatories. The relative positions of these Observatories have been determined by astronomical observations, and the trigonometrical work so far as it is completed establishes a geodetic connection, the terminals differing by about four degrees in latitude and six degrees in longitude. It will be a matter of considerable scientific interest to ascertain how far the astronomical is corroborated by the geodetic determination; and this interest will be much enhanced when the trigonometrical survey is extended to the northern boundary of the Colony, and thence by the Queensland trigonometrical survey, now completed, to Brisbane.

Astronomical observations for azimuth were made at Hudson's Peak and Umeralla, and for latitude only at Hudson's Peak, Umeralla, and Tumanang. As in previous years, stars for this purpose were selected and programmes prepared in camp.

Observations were made at Umeralla, Tumanang, Lowden, Woolowolar, Twynam, and Towrang for use in the triangulation of the counties of St. Vincent, Dampier, and Auckland; and it is proposed to complete this part of the trigonometrical survey before proceeding with the extension northerly from the Hunter River District. Connection surveys were made at Hudson's Peak, Tumanang, and Lowden; and reserves were marked out at Tumanang, Lowden, Woolowolar, Twynam, and Towrang.

The height of the plug at Hudson's Peak above high water spring tides at Sydney has been determined by running a line of levels (to and fro) between that station and the 34 B.M. on the trial survey for a railway line from Cooma to Bombala.

The total number of horizontal angles measured with the 18-inch altazimuth during the year is 2,926, and in addition to these 445 vertical observations were made, representing a total of 15,075 micrometer or microscope readings.

Mr. J. Richmond was employed on triangulation of the secondary series in the Hunter River District, and completed observations with the 10-inch theodolite at Seaham, and then moved camp successively to Ebsworth, Nerong, Yacaaba, Douglass, and Euther, finishing at the last station on the 16th of October, after which date his services were transferred to the general establishment. He measured 2,624 horizontal and 1,334 vertical angles, representing a total of 10,540 micrometer readings. About  $3\frac{1}{4}$  miles of a connection survey was made at Yacaaba.

Mr. R. C. Gordon was employed in counties Camden, Argyle, and Westmoreland. He completed observations with the 10-inch theodolite at St. Paul's, Wooragee, Mares Range, Barry, Ballanya, Winge-carribee, and Saddleback, by the 16th of May, when he was retired in connection with retrenchment of this branch of the public service. He traversed 144 chains, connecting Ballanya with adjoining portions. He observed 1,446 horizontal and 598 vertical angles, with the 10-inch theodolite, representing a total of 5,534 micrometer readings.

Of the piling overseers—Mr. Taylor was transferred to another position on the 18th of February; and Mr. Licensed-Surveyor Lockhart's employment ceased on the 22nd June; whilst Mr. Healy was employed during the whole of the year. Thirty-one stations were prepared for observing (involving a clearing of 330 acres in the aggregate) in counties Auckland, Beresford, Dampier, St. Vincent, Wellesley, and Wallace. Mr. Lockhart made connection surveys at eleven stations (about 4 miles of traverse), and sketches were forwarded to District Survey Offices for preparation of plans.

Further details of progress during the year 1893 will be found in my quarterly statements.

I have, &c.,

J. BROOKS,

Surveyor in Charge of Field Operations.

## APPENDIX C.

Sir,

Trigonometrical Branch, Sydney, 11 August, 1893.

Having for some time past engaged myself in an examination of the methods of geodetic survey in other parts of the world and the results arrived at, I have been enabled to obtain comparisons of the relative accuracy of a large number of such surveys, principally those of Europe. Thanks to some very valuable information lately sent to me by Dr. Helmert, the Director of the Central Bureau of the International Geodetic Association, this work has been much facilitated, and being now in a somewhat complete form, I have thought that it may not be without interest to you to see how the primary triangulations of other countries compare for accuracy of results with that carried out in this Colony.

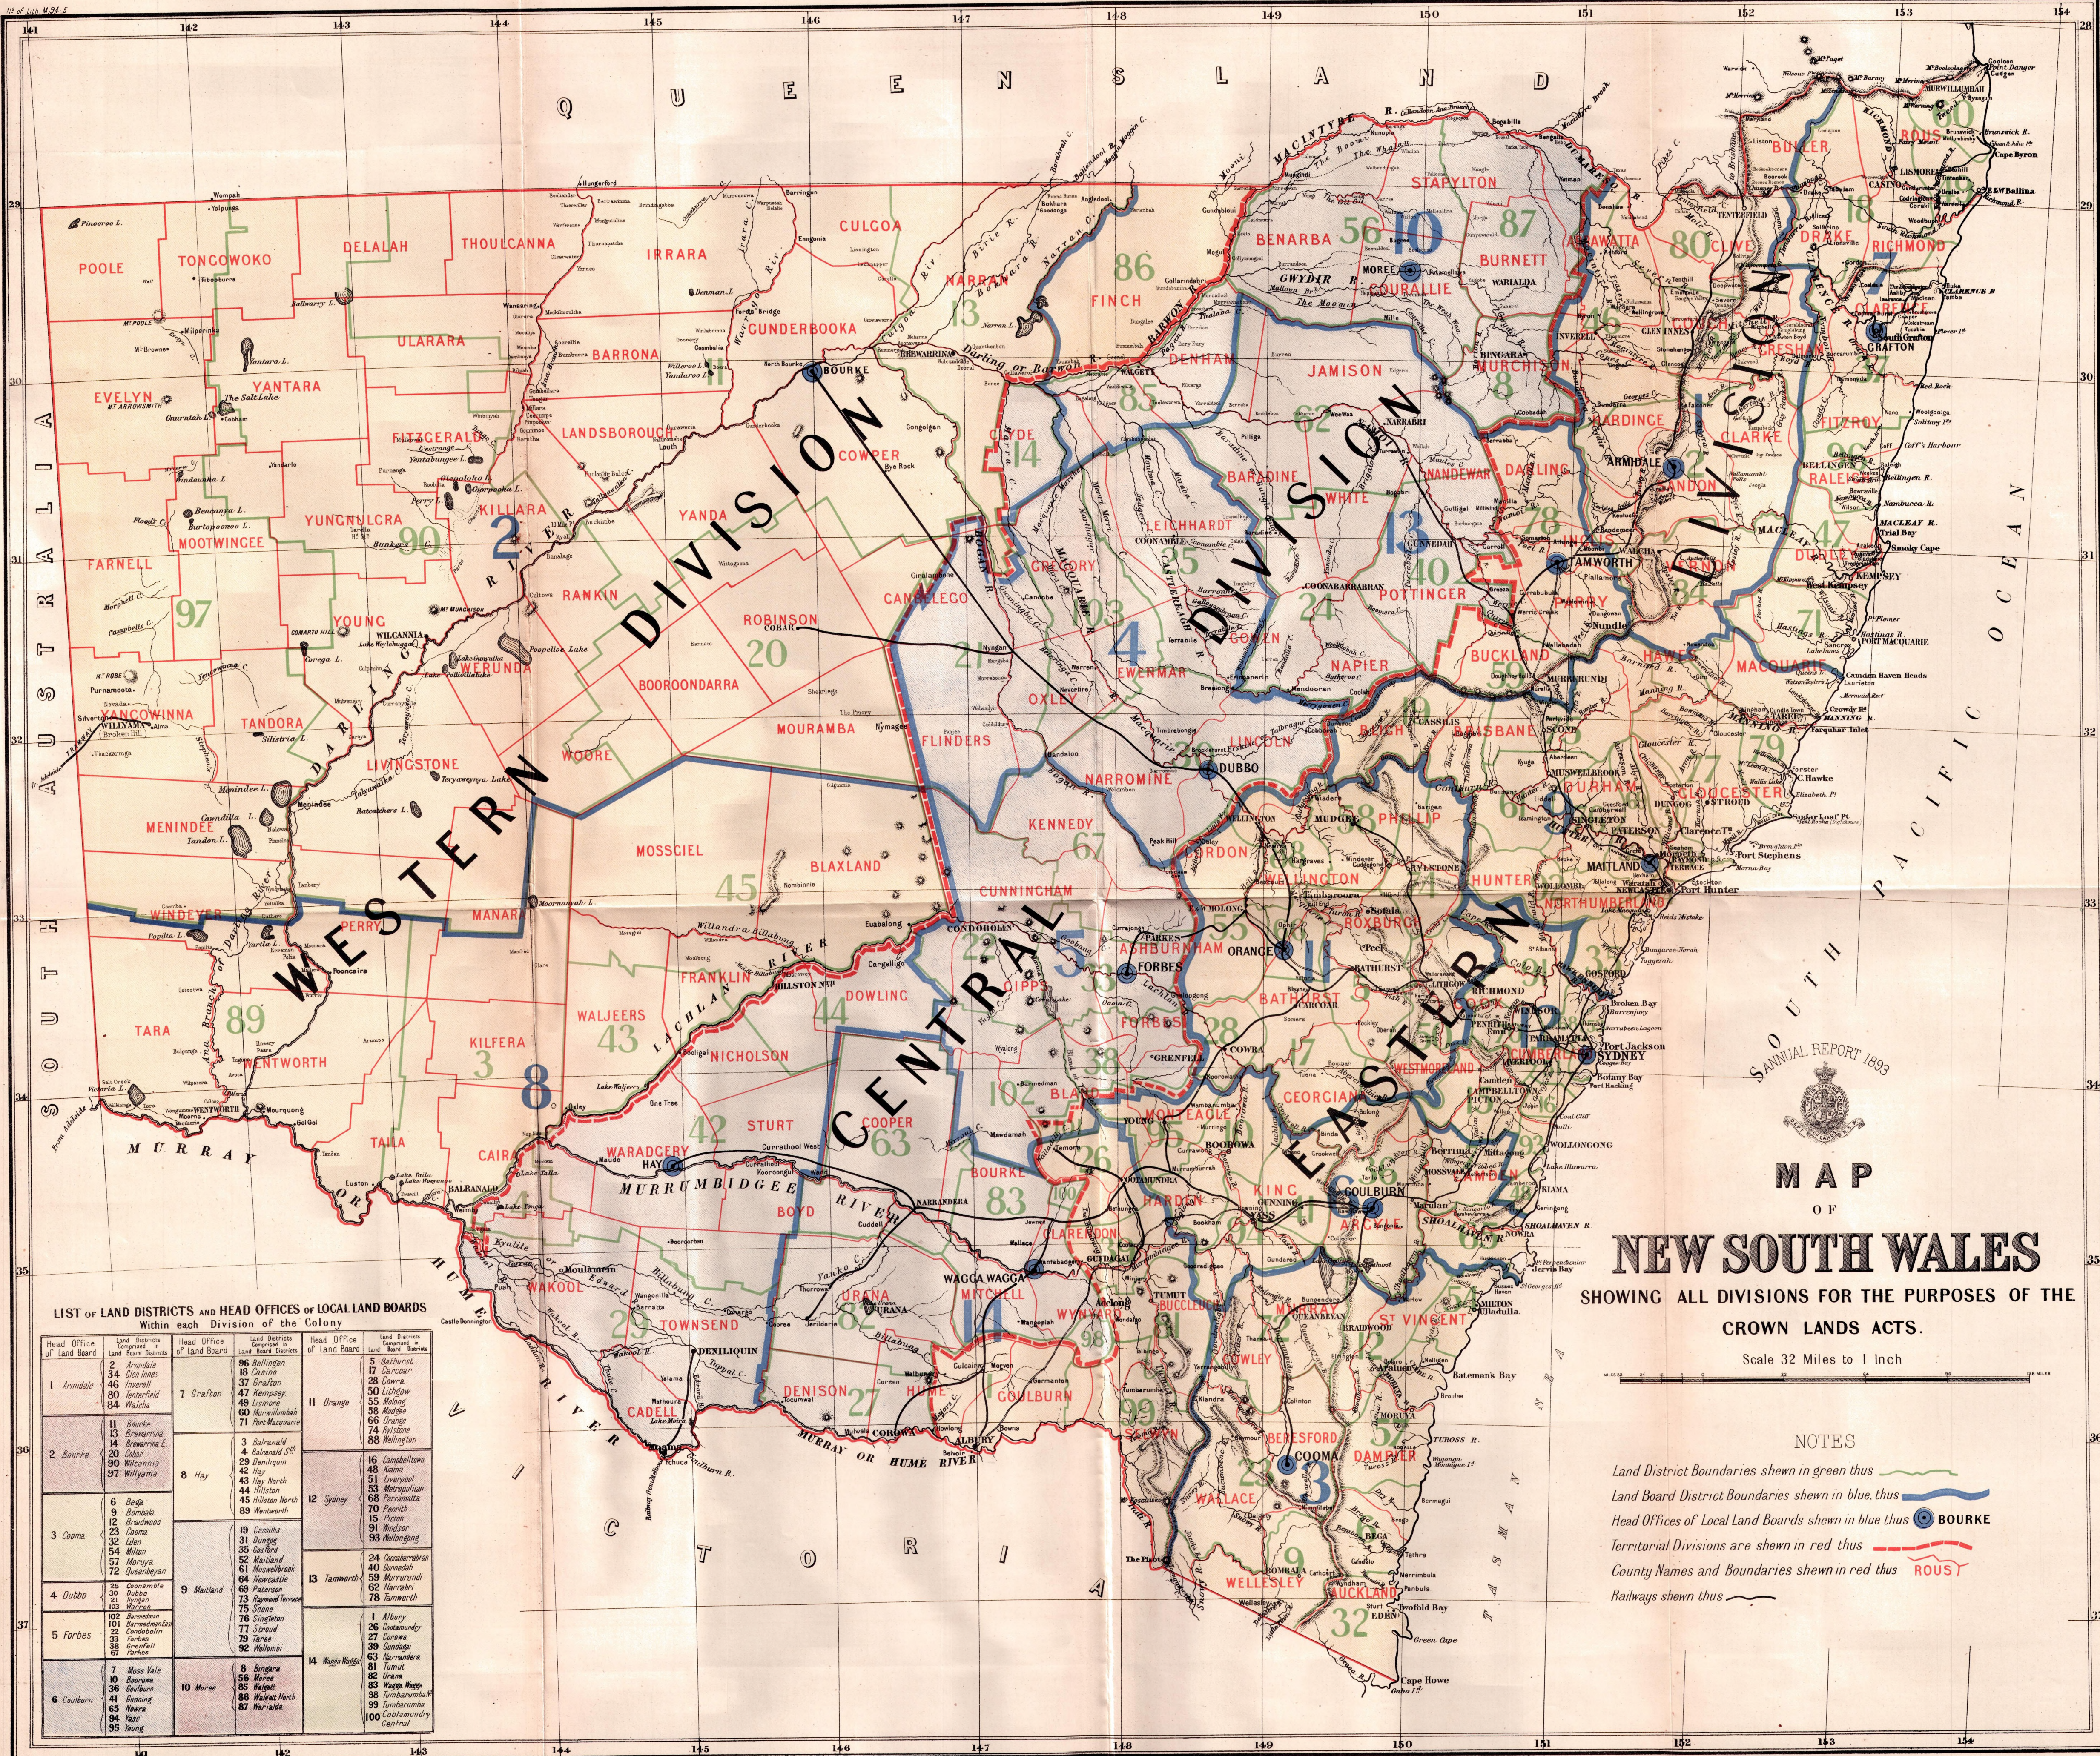

I have therefore tabulated the information at my command, and below give the results for each of the European States. I have not yet at hand all the data regarding the surveys of India and the United States, so that the results for those two countries are not given.

As a means of comparison, I have adhered to the criterion now generally used, viz., General Ferrero's "*m*," which may be taken as representing, with close approximation, the mean probable error (as deduced from the closing errors of the various triangles of each system) of the angles used in the survey. This quantity is computed by the formula,—

$$m = \left( \frac{\sum \Delta^2}{3n} \right)^{\frac{1}{2}}$$

in which  $\Delta$  is the closing error of the triangles and  $n$  the number of triangles dealt with.

The

| Switzerland 1854–68, 40 "  | ... | + 0·856 |
| Wurtemberg 1878–88, 3 "  | ... | + 0·720 |

For New South Wales, as deduced from the 95 primary triangles already observed,

$$m = \pm \cdot 469,$$

while that value would be reduced to  $\pm \cdot 386$  by the omission of four triangles, in which the error is abnormally great, and which would be rejected by Pierce's Criterion.

The above figures speak for themselves in showing that our work is probably equal to that done in any part of the world.

It should be added that the figures for the European surveys have been carried down only to the year 1888, but that over the greater part of the continent the work is still proceeding, as not only is it recognised that it is desirable to extend our knowledge of the earth's figure, and the peculiar formation of its crust in its various parts, affecting as this does so many practical questions of our present day civilisation; but it is also recognised that only by covering a country with a triangulation net can accurate delineation of the lands be economically effected. That these views are generally accepted may be gathered from the fact that no less than twenty-four Governments contribute annually to the conduct of the work of the International Geodetic Association, and that in these are included not only almost all the great powers of both the old world and the new, but also some so far removed from the centre of operations as Chili, Mexico, and Japan.

I have, &c.,  
T. F. FURBER,  
Chief Computer.

The Chief Surveyor.

LEGISLATIVE ASSEMBLY.  
NEW SOUTH WALES.

---

CROWN LANDS PURCHASES AND LEASES VALIDATION BILL.

(MESSAGE No. 6.)

---

*Ordered by the Legislative Assembly to be printed, 18 January, 1894.*

---

R. W. DUFF,  
*Governor.*

*Message No. 6.*

In accordance with the provisions contained in the 54th section of the Constitution Act, the Governor recommends for the consideration of the Legislative Assembly the expediency of making provision to meet the requisite expenses in connection with a Bill to legalise certain Conditional Purchases and Conditional Leases and Auction and other purchases of Crown lands, and to validate certain Crown grants in connection therewith; to confer special powers of reference to the Local Land Board and the Land Appeal Court where necessary; to permit the reversal of forfeiture of certain Conditional Purchases and Conditional Leases; to authorise the sale of certain Crown lands and the issue of Crown grants therefor; and to authorise the granting of certain Crown land by way of compensation.

*Government House,  
Sydney, 17th January, 1894.*

1894.

LEGISLATIVE ASSEMBLY.  
NEW SOUTH WALES.

CONDITIONAL PURCHASE OF JOHN DAVIS, AT YASS.

(PAPERS RESPECTING THE ABSOLUTE REVERSAL OF THE FORFEITURE OF.)

*Ordered by the Legislative Assembly to be printed, 17 May, 1894.*

PAPERS respecting the absolute reversal of the forfeiture of Conditional Purchase of John Davis, at Yass, under subsection 5 of section 3, 55 Vic. No. 1.

Decision of Local Land Board.

New South Wales, } Crown Lands Act of 1884—(Part II, section 14, subsection 4).  
to wit. }

WHEREAS on the 6th day of August, 1891, it became a matter for investigation before us whether the conditions had been complied with respecting conditional purchase No. 85-31, Yass, by John Davis, confirmed 17th March, 1887; and having taken evidence of the Inspector, and inquired into the said matter, we decided to recommend that the conditional purchase should be forfeited.

Given under our hands, at Yass, in the Colony of New South Wales, this 6th day of August, 1891,—

A. O. MORIARTY, Chairman.  
JOHN W. GRAY, Member.

*George Harrison*, of Yass, Inspector of Conditional Purchases, being duly sworn, saith:—On the 12th September, 1889, I inspected conditional purchase No. 85-31, of 40 acres, being portion 247, parish of Derringullen; there were about 20 acres of saplings cut down which I valued at £2 10s.; about 5 acres of timber cut down and burnt off, £5; the clearing was surrounded by a brush fence; I did not see the selector; his family were residing on the conditional lease; there was no fencing on the east, south, or west boundaries.

Sworn by George Harrison at Yass, this }  
6th August, 1891, before us,— }

A. O. MORIARTY, Chairman.  
JOHN W. GRAY, Member.

G. HARRISON.

No fencing erected. Conditional purchase 85-31, Yass, and the associated conditional lease are submitted for forfeiture.—A.S. W.H.C. (*pro* Under Secretary), 13/10/91. Forfeiture approved.—J.N.B., 14/10/91. Applicant and Chairman as to intended forfeiture.—J.R.Y., 6/11/91.

Yass—Original conditional purchase 85-31, 40 acres, forfeited 6th January, 1892; John Davis. On 6th August, 1891, the Board held an inquiry, and decided to recommend the forfeiture of the conditional purchase.

This recommendation was approved by Mr. Secretary Brunner, and notified as above stated.

The selector was not present at this inquiry. The Inspector, in his evidence, says: "I did not see the selector; his family were residing on the conditional lease; there was no fencing on the east, south, or west boundaries."

From this it would appear that the forfeiture was recommended on account of non-fulfilment of the fencing conditions, as the report as to residence seems satisfactory.

Mr. Colls, M.P., now presents a letter from Mr. R. L. Hall, asking for reconsideration of the case, and as it appears on the surface to be a particularly hard case, it is submitted whether the land embraced by the holding may be reserved pending a further report from the Board.

A.S., 2/2/92.

It is submitted whether, under section 3, subsection V, the forfeiture of the conditional purchase and conditional lease may be provisionally reversed, pending a further inquiry, and to admit of the claimant bringing forward what evidence he can as to his fulfilment of the conditions of residence, and as to his reasons for not carrying out the fencing condition.—W.H.C., 8/2/92. Submitted for approval of the course proposed by above memo.—W.H., 8/2/92. Approved.—H.C., 8/2/92.

### Decision of Local Land Board.

New South Wales, } Crown Lands Act of 1884—(Part II, section 14, subsection 4).  
to wit. }

WHEREAS on the 8th day of March, 1892, it became a matter for investigation before us whether the conditions had been complied with respecting conditional purchase No. 85-31 Yass, by John Davis, confirmed 17th March, 1887. Forfeited 6th January, 1892. Forfeiture provisionally reversed 12th February, 1892. Matter referred for further inquiry, and having taken evidence and inquired into the said matter, we can only find on the evidence brought before us, that the condition as to fencing was not carried out, nor did the applicant apply to substitute improvements, he applied for an extension of time to fence which was granted, but he did not fence within the extended time, nor has he fenced now.

No grounds has been made to appear on which we can recommend remission of forfeiture.

Given under our hands at Yass, this 8th March, 1892,—

A. O. MORIARTY, Chairman.  
JOHN W. GRAY, Member.

*John Davis*, of Limestone Creek, farmer, being duly sworn, saith :—I made an application in January, 1890, for exemption from fencing ; in March 17th, the same year, I came in to make my declaration as to residence ; I did not do so, because my application had not come before the Board, nor has it yet ; I could then have made my declaration as to residence, but I was advised not to do so ; I have since made my final declaration, stating that improvements, exclusive of fencing and residence, have been completed, my five years are not up till the 17th of this month ; I have a witness here who filled in my application for exemption of fencing.

*By Chairman* : I am not quite certain about the date I made this application ; I am quite sure it was an application to substitute improvements for fencing ; I made the application at the end of the three years ; I saw it put into the Post Office ; I am quite sure it was at the end of the three years ; Thomas Welsh wrote it for me ; I signed it myself ; I cannot say whether the application shown me is it or not ; I made no application before ; I am quite sure I never made any application for extension of time to fence ; I am quite confident that I never got an extension of time to fence ; I never authorised any one to make an application for extension of time to fence ; the application that I made was read to me before I saw it put into the Post Office ; I could not say for certain what year it was I made this application, but I think it was in 1890 ; I had employed no other person about filling up my application ; Mr. Nash, the surveyor, filled in my application for the conditional purchase (*Application, No. 88-6,072, read*) ; I never heard of that before ; that was not the application that I saw posted ; I get my letters regularly, and letters addressed to Limestone Creek, Bowning, would reach me ; I have got notices about my conditional purchase from the Board ; my land was not fenced.

Sworn by John Davis, at Yass, this }  
8th March, 1892, before us,— }

A. O. MORIARTY, Chairman.  
JOHN W. GRAY, Member.

his  
JOHN x DAVIS.  
mark.

Witness: ZOUCH MORIARTY.

*Thomas Walsh*, of North Yass, land agent, being duly sworn, saith :—I recollect making an application in January, 1890, for John Davis, for a selection on Limestone ; it was for 40 acres, with the usual conditions ; I wrote to the Minister for Lands about it ; there was some dispute about it ; I wrote, explaining that he had fulfilled all the conditions of the Act, and was entitled to the land by law ; I did not write anything else that I recollect ; I am quite sure when I wrote this it was in Yass ; I do not recollect the year ; the application shown me (L.B. 88-6,072) is the application I wrote ; he knew that I wrote it for him ; by his request, I did it ; he knew what was in it ; I read it to him ; I see it is dated in December, 1888.

Sworn by Thomas Walsh, at Yass, this }  
8th March, 1892, before us,— }

A. O. MORIARTY, Chairman.  
JOHN W. GRAY, Member.

THOS. WALSH.

Yass—Original Conditional Purchase 85-31, forfeited 6th January, 1892, John Davis.

THE facts of this case are fully stated on 92-2,758 Dep.

The forfeiture was provisionally reversed on 18th February last, and the case was referred to the Board "for a further inquiry to admit of the claimant bringing forward what evidence he can as to fulfilment of the condition of residence and as to his reason for not carrying out the fencing condition."

The

The matter came before the Land Board, at Yass, on 8th March last, when the selector and one Thomas Walsh were examined. The evidence taken refers almost entirely to the question as to whether an application for permission to substitute improvements in lieu of fencing had been lodged, and though the selector swears such application was lodged, there appears to be no doubt that he is not stating a fact, and that the only application lodged was that for extension of time, which was filled in by Thomas Walsh.

No evidence as to the fulfilment of the residence condition was tendered, and the Board is still silent on that point, though from the reports there seems to be no doubt that the residence has been satisfactory.

The Board, in conclusion, find that no ground has been made to appear on which remission of forfeiture can be recommended.

This conditional purchase having been notified as forfeited under sub-section V of section 3 of the Act of 1891 (55 Victoria No. 1) the Minister cannot, in the face of the adverse report or recommendation of the Board, reverse the forfeiture absolutely without recording in writing his reason for so doing, and laying upon the Table of the Legislative Council and Assembly a copy of his decision, together with such reasons as aforesaid.

In the event of the Minister declining to take action in opposition to the Board's recommendation, the provisional reversal of forfeiture already approved of should be revoked.

In conclusion, it may be stated that according to the Inspector's reports there are improvements to the value of 10s. per acre on the land, and granting that the condition of residence is satisfactory, cases of a similar nature in which forfeiture has been incurred (but not notified) have been passed by the forfeiture being waved.

A.S., 12/5/92.

Submitted. In the event of forfeiture being insisted upon, it is submitted that early notice may be forwarded to the selector, and advice given that he should lodge a fresh application for a conditional purchase and a conditional lease if he still desires to acquire the land.—W. H. C., 23/5/92. F.H.W., 23/5/92.

The case might be returned to the Board to carry out in full the inquiry contemplated by the reference of the 8th February last (92-2,758 C.S.). In view, however, of the Inspector's reports and evidence, there is little doubt that the conditional purchaser has *bona fide* made the land his home. It is clear that the fencing condition has not been fulfilled, but there is evidence that improvements to the value of 10s. per acre have been made, so that if the conditional purchaser had not failed to lodge an application to substitute improvements for fencing the question of forfeiture would not have arisen. It is now for consideration whether forfeiture (which has been declared) shall be reversed, subject to the provisions of Act 55 Victoria No. 1, and, notwithstanding the adverse report of the Board, or whether it shall be confirmed, with a view to the conditional purchaser again selecting the land.—W.H., 25/5/92.

The provisional reversal of forfeiture may continue for twelve months, so as to give the conditional purchaser a further opportunity of completing his fencing. At the end of twelve months the case must be brought up for final decision as to whether forfeiture shall be reversed or the provisional reversal shall be revoked.—H.C., 26/5/92.

#### Decision of Local Land Board.

New South Wales, } Crown Lands Act of 1884—(Part II, section 14, subsection 4).  
to wit. }

WHEREAS on the 10th day of October, 1893, it became a matter for investigation before us, under section 20, as to the fulfilment of the conditions on conditional purchase, No. 85-31, Yass, of 40 acres, parish of Derringullen, county of King, confirmed on the 17th March, 1887, to John Davis, and having taken evidence and inquired into the said matter, we can only find that the condition as to fencing has not been fulfilled as required by law, nor has the conditional purchaser taken advantage of the extended period of twelve months allowed him under the Minister's minute, dated the 26th May, 1892, as to the provisional revocation of the forfeiture.

Given under our hands, at Yass, in the Colony of New South Wales, this 10th day of October, 1893,—

A. O. MORIARTY, Chairman.  
JOHN W. GRAY, }  
H. J. CHISHOLM, } Members.

THIS deponent, *George Harrison*, of Yass, in the Colony of New South Wales, Inspector of Conditional Purchases, being duly sworn; saith as follows:—On 31st December, 1892, I inspected conditional purchase, 85-31, being portion 247, parish of Derringullen, confirmed 17th March, 1887, to John Davis; selector resides with his wife and family on the conditional lease, portion 253; there were 3 chains stud fence on south boundary; there is no fence on the east boundary; I again inspected it on 17th March, 1893; there were 3 chains on south boundary as before, and 19 chains of posts erected for wire on the south boundary, and 15½ chains of posts erected on the west boundary, but no wire in them; there was a stud fence on the north boundary of the conditional lease; there were 34 chains of stud fence bounding the road through the portion not being a boundary road, 13¾ chains brush on the east boundary; this is not such a fence as the regulations require; the west boundary of the lease is not fenced, it is bounded by a road fenced; on the opposite side the fence belongs to other people; the eastern boundary is not fenced, but there is a fence on the opposite side of the creek which belongs to another holder; this applies also to the conditional purchase.

Sworn before us, at Yass, this }  
8th September, 1893,— }

G. HARRISON.

A. O. MORIARTY, Chairman.  
H. J. CHISHOLM, Member.

THIS deponent, *George Harrison*, of Yass, in the Colony of New South Wales, Inspector of Conditional Purchases, being duly sworn, saith as follows:—On 9th September I inspected conditional purchase 85-31, being portion 247, parish Derringullen; confirmed to John Davis on 17th March, 1887; I found no additional fencing erected since my previous inspection in December last; the conditional purchase and

and conditional lease being exactly in same state as I then found them ; there is only brush fencing on the creek, but not such as required by law ; and on the south and west boundaries some posts had been erected, but not wired ; on the same day I also examined the lease ; that was in the same state as when I last inspected it, viz., brush fence on portion of east boundary and stud fence on northern boundary.

Sworn before us, at Yass, this }

10th October, 1893. }

A. O. MORIARTY, Chairman.

JOHN W. GRAY, } Members.

H. J. CHISHOLM, }

G. HARRISON.

Yass—C.P. 85-31, 40 acres ; forfeited, 6th January, 1892 ; forfeiture provisionally reversed 12th February, 1892—John Davis.

THE facts in this case are fully stated in the *précis* 92-11,463 Dep., on which, on the 26th May, 1892, the Minister decided that the provisional reversal of forfeiture should continue for twelve months to give the conditional purchaser a further opportunity of completing the fencing, and that at the end of that time the case should be brought up for final decision as to whether forfeiture shall be reversed, or the provisional reversal revoked.

On the 10th instant the Board held an inquiry, under section 20, and found that the condition as to fencing had not been fulfilled, as required by law, nor had the conditional purchaser taken advantage of the extended period of twelve months allowed him, under the Minister's decision of 26th May, 1892.

According to the Inspector's evidence at date of his last inspection, 9th September last, there were 3 chains of stud fencing on the south boundary, and also about 15½ chains of posts erected for wire, but not wired. On the west boundary posts have also been erected, but not wired.

The north boundary of the associated conditional lease No. 6,567, portion 253, is fenced with a stud fence. The road running through the portions is fenced with a stud fence. About 13¾ chains of the east boundary of the conditional lease is fenced with a brush fence, not such a fence as the regulations require.

The west boundary of the conditional lease is not fenced, but there is a fence on the opposite side of the road ; and the east boundaries of the conditional purchase and conditional lease are not fenced, but there is a fence on the opposite side of the creek.

There is no doubt that the condition of fencing has not been carried out (even within the extended time granted by the Minister) strictly in accordance with the law, but a considerable amount of fencing has been done, and the holding practically enclosed except on the south, where the wire, at date of inspection, was not put in the posts.

The selector still resides with his wife and family on the conditional lease, and, including the value of fencing, the land is fully improved to 10s. per acre.

The question for consideration now is, whether the provisional reversal of forfeiture is to be made absolute. If this be decided in the affirmative it would appear to be necessary, in view of sub-section v, of section 3, of the Act of 1891 (55 Victoria No. 1), and the decision of the Board given on 8th March, 1892, C.S. 92-9,009 Dep., for the Minister to record in writing his reason for deciding contrary to the Board's recommendation, and to lay upon the Table of the Legislative Council and Legislative Assembly a copy of his decision, together with such reasons as aforesaid.

A.S., 31/10/93.

In view of the Minister's decision of the 26th May, 1892, the case is resubmitted for final decision. It will be seen that, although the selector with his wife and family reside upon the land, the fencing condition has not been carried out—W.H.C., 27/11/93.

Submitted.—W.H., 28/11/93.

It appears from the papers that this selector is very poor, and has a large family of motherless children, which I am loth to have expelled from their home, and inasmuch as the value of the improvements are up to the necessary amount, I see no other course than to condone the non-completion of the fencing condition, and make the reversal of forfeiture absolute. Papers may be prepared in terms of Act for both Chambers, and I will lay them on the Table.—H.C., 12/12/93.

1894.

## LEGISLATIVE ASSEMBLY.

## NEW SOUTH WALES.

MESSRS. CLARK AND ROWLEY'S LEASE OF CROWN  
LAND AT BUNNERONG, RANDWICK.

(RETURN RESPECTING.)

*Ordered by the Legislative Assembly to be printed, 10 May, 1894.*

RETURN to an *Order* made by the Honorable the Legislative Assembly of New South Wales, dated 4th April, 1894, That there be laid upon the Table of this House,—

“Copies of all applications for lease, and other documents relating to  
“Messrs. Clark and Rowley's lease of Crown land at Bunnerong,  
“Randwick, for recreation purposes.”

(Mr. Copeland.)

**MESSRS. CLARK AND ROWLEY'S LEASE OF CROWN LAND AT  
BUNNERONG, RANDWICK.**

No. 1.

G. B. Rowley, Esq., to The Local Land Board, Sydney.

Application for Special Lease.

Crown Lands Act of 1884—(Part IV., Sections 89, 90, or 92).

I HEREBY apply for a special lease for recreation grounds, &c., purposes, of the land hereunder described, and for which I am willing to pay an annual rental of £100. Enclosed is a receipt showing that the sum of £10 has been paid to the Colonial Treasurer as a deposit towards cost of survey and report.

Dated at Sydney this 25th day of August, 1888.

G. B. ROWLEY,  
4, Hunter-street.

Description.

Metropolitan Land District, county of Cumberland, parish of Alexandria, 60 acres : Commencing at the intersection of southern boundary of High-street with the Bunnerong Road ; thence by a line east to the north-west corner of the pound ; thence by the boundaries of the pound reserve south and east to the western boundary of the public park ; thence by that boundary south to the northern boundary of Barker-street ; thence by that boundary west to the Bunnerong Road ; thence by that road north-westerly to point of commencement.

[Enclosure.]

THE sum of £10 was received and placed to suspense account this day on within application.  
The Treasury, 25th August, 1888.

P. J. HOLDSWORTH.

The Metropolitan District Surveyor for report.—C.W.T., for Chairman, 29/8/88. Report No. 2,424 of this date to Chairman, Local Land Board.—JOHN W. DEERING, 6th September, 1888.

No. 2.

G. B. Rowley, Esq., to The Chairman, Local Land Board, Sydney.

Sir, United Chambers, George and Hunter Streets, Sydney, 25 August, 1888.

In referènce to my application of even date, for the lease of 60 acres of land at Randwick, I have the honor to point out to you, in support of my application, that the land is now lying waste and bringing in no revenue to the Crown ; that if the lease is granted to me I am prepared to spend some thousands of pounds in turning a desert into a park ; to form cricket, archery, and bowling grounds, pleasure gardens, and places of amusement for the people ; and in every way give the residents of the surrounding locality a beautiful pleasure ground, second to none in Sydney.

I have, &c.,  
G. B. ROWLEY.

No. 3.

G. B. Rowley, Esq., to The Under Secretary for Lands.

Sir, United Chambers, 2, Hunter-street, Sydney, 3 September, 1888.

In reference to my letter of 25th ultimo, to the Chairman of the Local Land Board, Sydney, making application for certain land, near Randwick, for recreation purposes, I am aware that under the 90th section of the Crown Lands Act of 1884, "recreation" is not a purpose within the meaning of the Act, and I have the honor to request that you may be pleased to advise, as provided for in said section, the inclusion of same by the Governor-in-Council.

In support of my request, I may mention, that the proposal of mine to turn a barren waste of land into a beautiful park will be to a great extent advantageous to the inhabitants of the surrounding localities, and the public at large, thus affording pleasure to thousands.

I may also point out that, in the event of my application being favourably dealt with by your Department, I am prepared to pay a fair rental, and guarantee to effect large and permanent improvements to the value of some thousands of pounds.

I would further beg to point out that an affair of this kind would, to a certain extent, relieve the Government from being called upon to expend money for a similar object to the benefit of the district, which they are likely to be called upon at any time to do by the local residents.

I enclose tracing of the land in question, which, in its present state, is entirely useless, and bringing in no revenue to the Crown.

My proposal is to level and clear the land, planting and beautifying same, also to form "cricket," archery, football, lawn tennis grounds, tea gardens, pavillions, &c., &c.

I have, &c.,  
G. B. ROWLEY.

I see no objection to recreation being declared a purpose under the 90th section. The application herein referred to will, of course, be dealt with after due consideration.—C.O., 5/11/88. This can be reconsidered when the application is dealt with.—J.N.B., 13/9/88. Send to the Board with reference to the application referred to.—C.O., 14/9/88. The Chairman, Metropolitan Land Board.—R.H.D., (for the U.S.), B.C., Lands, 14 September, 1888.

## No. 4.

The Metropolitan and Coast District Surveyor to The Chairman Local Land Board, Sydney.

G. B. Rowley, applying for lease of 60 acres of land adjoining the Randwick Racecourse, for the purposes of public recreation and pleasure grounds, parish of Alexandria, county of Cumberland.—No. 2,424, 6 September, 1888.

1. The 60 acres applied for is unreserved Crown land, adjoining the Randwick Racecourse.
2. The purpose, however, is not one for which a lease can be recommended under section 90, Crown Lands Act of 1884.
3. Moreover, the remaining Crown land near Sydney is very limited, and very valuable. The area now under consideration may yet be required for some Government or public purpose, and thus save a considerable outlay for purchase or resumption.
4. I cannot recommend that the application be entertained.

JOHN W. DEERING,  
Metropolitan and Coast District Surveyor.

Notice of meeting, 1/10/81, to applicant, and informed that under this report application must apparently be declined as the purpose for which a lease is sought is not a purpose under the Act.—13/9/88

## No. 5.

G. B. Rowley, Esq., to The Chairman Local Land Board, Sydney.

Sir, United Chambers, 2, Hunter-street, Sydney, 27 September, 1888.

With reference to my special lease application, noted in the margin, which comes before you for consideration on Monday next, 1st proximo, I have the honor to request that you will be pleased to allow of a postponement of the case, as, being confined to my room by a bad foot, I will be unable to attend.

I enclose, herewith, my medical attendant's certificate as to my inability to move out at present, and as I am very anxious to personally attend the Court when my case is being considered, I respectfully request that you will favourably consider this application and allow of a postponement.

I have, &c.,  
G. B. ROWLEY  
(Per J. K. CLARK).

Exhibited before meeting of Local Land Board, at Sydney, 1/10/88.—T. WARRE HARRIOTT, Chairman.

[Enclosure.]

THIS is to certify that Mr. George B. Rowley is suffering from a large ulcer of the foot, and is unable to leave the house, and therefore cannot attend the Land Court on the 1st October, 1888.  
Parramatta, 28 September, 1888.

G. W. PHILLIPS., M.R.C.S., &c.

## No. 6.

## Decision of Local Land Board.

Crown Lands Act of 1884—(Part II, Section 14, Sub-section 4).

New South Wales, }  
to wit. }

WHEREAS on the second day of October, 1888, it became a matter for investigation before us whether the application by George B. Rowley for an area of 60 acres at Randwick for special lease for public recreation grounds, &c., should be granted (section 90, Crown Lands Act of 1884); and having inquired into the said matter, we find that consideration of the case might be adjourned at request of applicant to a date to be named by the Chairman. Date fixed for 26th November, when medical certificate was handed in by representative (Mr. J. K. Clark), and consideration again postponed at request of applicant.

Metropolitan  
special lease  
No. 88-28.

Given under our hands, at O'Connell-street, at Sydney, in the Colony of New South Wales, this 26th day of November, 1888.

T. WARRE HARRIOTT, Chairman.  
FREDERICK A. FRANKLIN, }  
HENRY EAGAR, } Members.

[Enclosure.]

I HEREBY certify that Mr. G. B. Rowley has been under my medical care suffering from blood poisoning, with erysipelas, and that he will be unfit to attend Court on Monday next.

30, Alberto-terrace, Darlinghurst, 22 November, 1888.

B. SIMMONS, M.D., M.R.C.S., L.S.A.

Exhibited before meeting of Local Land Board, at Sydney, on 26th November, 1888, and case postponed according to request preferred.

No. 7.  
Decision of Local Land Board.

Crown Lands Act of 1884—(Part II, Section 14, Sub-section 4.)

New South Wales, }  
to wit. }

Section 90,  
special lease  
88-28, 60 acres;  
recreation  
ground, Rand-  
wick; parish  
Alexandria;  
George B.  
Rowley.

WHEREAS, on the 4th day of February, 1889, it became a matter for investigation before us whether an application for a special lease made by George B. Rowley, on 25th August, 1888, and particularised in the margin should be granted, and having inquired into the said matter, we recommend that a lease be not granted, as the purpose for which it is required is not one for which a lease can be granted under the provisions of the Land Act.

Given under our hands, at O'Connell-street, Sydney, in the Colony of New South Wales, this 4th day of February, 1889.

T. WARRE HARRIOTT, Chairman.  
FREDERICK A. FRANKLIN, } Members.  
HENRY EAGAR. }

The question as to whether "recreation" is to be notified a purpose within the meaning of section 90 is now submitted, in accordance with the decision of Mr. Secretary Bruncker on papers 88-10,914 Misc. enclosed.—S.F., 14/2/89. I think "recreation" might be notified a purpose within the meaning of section 90 of the Land Act of 1884.—W.J.L., 19/2/89. "Recreation" notified a purpose under section 90 of the Crown Lands Act of 1884, *vide Gazette*, 29 March, 1889. See Occ. 89-3,712.

No. 8.

The Metropolitan and Coast District Surveyor to The Chairman, Local Land Board,  
Sydney.

Metropolitan.

G. B. ROWLEY, applying for lease of 60 acres of land adjoining the Randwick Racecourse, for "recreation purposes, &c." parish of Alexandria, county of Cumberland. No. 562, 23rd February, 1889.

*Vide also my pre-  
vious report No.  
2,424 of 6th Sep-  
tember, 1888, on  
special lease  
88-28.*

1. The 60 acres applied for is unreserved Crown land, adjoining and to the south of the Randwick Racecourse.

2. Assuming that "recreation purposes" has been declared to be a purpose under section 90, Crown Lands Act of 1884, I am of opinion that the control of this land should not pass from the Crown. The area of Crown land remaining near the metropolis is now very limited and very valuable; and the land under consideration may be required for some Government or public purpose, and thus save a considerable outlay for purchase or resumption.

3. The applicant offers an annual rental of £100, but this is not commensurate with the value of the land, which is worth £500 per acre at least. This price for 60 acres gives a total value of 30,000, which sum, at a ground rent of 4 per cent., is a rental of £1,200 per annum.

4. I cannot recommend, in the public interest, that this application be entertained.

5. There are no costs in this case.

JOHN W. DEERING,  
Metropolitan and Coast District Surveyor.

No. 9.

Gazette Notice.

New South Wales, } Proclamation by His Excellency the Right Honorable Charles Robert, BARON  
to wit. } CARRINGTON, a Member of Her Majesty's Most Honorable Privy Council, Knight  
(L.S.) } Grand Cross of the Most Distinguished Order of Saint Michael and Saint George,  
CARRINGTON, Governor and Commander-in-Chief of the Colony of New South Wales and its  
Governor. Dependencies.

IN pursuance of the provisions of the Crown Lands Act of 1884, I, Charles Robert, Baron Carrington, the Governor aforesaid, with the advice of the Executive Council, do hereby approve of the under-mentioned being declared a purpose within the meaning of the 90th section of the said Act, *viz.* :—

RECREATION.

Given under my Hand and Seal, at Government House, Sydney, this twenty-third day of March, in the year of our Lord one thousand eight hundred and eighty-nine, and in the fifty-second year of Her Majesty's Reign.

By His Excellency's Command,  
JAMES N. BRUNKER.

GOD SAVE THE QUEEN!

No. 10.

The Chairman, Local Land Board, Sydney, to The Under Secretary for Lands.

Sir,

Local Land Board Office, Sydney, 1 April, 1889.

89-7, for 60 acres  
at Randwick,  
parish Alexan-  
dria, dated 7th  
February, 1889.

I have the honor to remit to you an application made to the Metropolitan Local Land Board, in accordance with Regulation 161, by G. B. Rowley for a special lease for "recreation purposes," without bringing such application before the Board, in accordance with the terms of your circular (S9-13) of 22nd March last, since it appears that "recreation" has not yet been proclaimed a purpose for which a lease under section 90 may be granted.

I have, &c.,

T. WARRE HARRIOTT,  
Chairman.

Withdrawn, as "recreation" was gazetted a "purpose" under section 90, on 29th March, 1889.

[Enclosure.]

## [Enclosure.]

## Application for Special Lease.

Crown Lands Act of 1884—(Part IV, Sections 89, 90, or 92).

I HEREBY apply for a special lease for recreation purposes, &c., of the land hereunder described, and for which I am willing to pay an annual rental of £100. Enclosed is a receipt showing that the sum of £10 has been paid to the Colonial Treasurer as a deposit towards cost of survey and report.

Dated at Sydney this seventh day of February, 1889.

To the Local Land Board at Sydney.

G. B. ROWLEY,  
20, Barrack-street.

## Description.

Metropolitan Land District, county of Cumberland, parish of Alexandria, 60 acres, at Randwick: Commencing at the intersection of the southern boundary of High-street with the Bunnerong Road; thence by a line east to the north-west corner of the Pound; thence by the boundaries of the pound reserve south and east to the western boundary of the public park; thence by that boundary south to the northern boundary of Barker-street; thence by that boundary west to the Bunnerong Road; thence by that road north-westerly, to the point of commencement.

The sum of £10 was received and placed to Suspense Account this day on within application.—P. J. HOLDSWORTH (*pro* Treasurer). The Treasury, 7th February, 1889. The Metropolitan District Surveyor for report.—C.W.L. (for Chairman), 11/2/89. The Under Secretary, without inquiry by the Board, as directed by circular 89-13 of 22/3/89.—T. WARRE HARRIOTT, Chairman, 1/4/89.

Mr. Rowley made a previous application similar to this; and in connection therewith the Secretary for Lands has approved of "recreation" being declared a purpose for which a lease may be granted under section 90. Papers, Occ. 89-2,803. Land Board, 89-723. I do not recommend that this application be granted, on the grounds stated in my previous report, No. 2,424, of 6th September, 1888.—JOHN W. DEERING, Metropolitan District Surveyor, B.C., 20th February, 1889. The Chairman, Land Board Office, Sydney.

*Vide* now separate report No. 562 of this date.—J. W. DEERING, 23rd February, 1889.

## Suspense Account, New South Wales.

The Treasury, 25 August, 1888.

RECEIVED from G. B. Rowley the sum of £10 for deposit on application for special lease for recreation grounds, &c., parish Alexandria, county Cumberland. Awaiting disposal of application.

£10.

P. J. HOLDSWORTH,  
(*pro* Treasurer).

## No. 11.

## Decision of Local Land Board.

Crown Lands Act of 1884—(Part II, Section 14, Sub-section 4).

New South Wales, }  
to wit. }

WHEREAS on the 9th day of April, 1889, it became a matter for investigation before us whether an area of 60 acres, at Randwick, should be granted to George B. Rowley as a special lease for recreation purposes, under section 90 of the Crown Lands Act of 1884, and having taken evidence and inquired into the said matter, we recommend a lease to be granted for the purpose of providing recreation for the public, of the area described (60 acres), for a term of fifteen years at a rental of £200 a year for the first five years, of £400 for the next five years, and of £500 for the remaining five years, under conditions:—

1. That the applicant give a guarantee satisfactory to the Minister that he will expend £2,000 on the ground in furtherance of the purpose during the first term of five years.
2. That no excavations be made without approval of the Minister, or some officer deputed by him.
3. That sub-letting for any other purpose, harbouring improper characters, or conviction of illegal traffic in liquor upon the ground, shall involve forfeiture of lease.
4. That at expiration of five or ten years, lessee shall be at liberty to surrender his lease.
5. That should the land be resumed during currency of lease no compensation shall be paid for any improvements beyond actual cost, less a sum for deterioration.

Given under our hands, at Sydney, in the Colony of New South Wales, this 9th day of April, 1889.

T. WARRE HARRIOTT, Chairman.  
HENRY EAGAR, Member.

Submitted.—E.L., 11/4/89. F.H.W. W.H., 18/4/89. Refused.—J.N.B., 26/4/89.

## [Enclosures.]

This deponent, *George Brenton Rowley*, of 20, Barrack-street, Sydney, wine and spirit merchant, being duly sworn, maketh oath and saith as follows:—I applied for 60 acres on the Bunnerong Road for the purpose of recreation for the public; I propose to provide a place for public recreation, and not for personal purposes, and to clear and level the ground, and fence it with a substantial iron fence, 10 feet high; to lay out a cricket and football ground, running track, bowling green, and other similar sports; I hand in rough tracing of proposed improvements; I have offered £100 per annum rental in my application, but I am prepared to give £200 per annum if a lease of fifteen years be granted to me; I propose to pay £100 for the first three or five years, and £200 for the next five years, and £300 for the next; it would take some time before any return could be got from it; I expect it will be five years before I can get it in order; I will guarantee to spend £2,000 in improvements during the first five years; the total proposed outlay during fifteen years I estimate to be £10,000, and that the improvements become the property of the Crown at termination of the lease.

Sworn by GEORGE B. ROWLEY, at Sydney, }  
this 9th day of April, 1889,— }

T. WARRE HARRIOTT, Chairman.  
HENRY EAGAR, Member.

G. B. ROWLEY.

This

This deponent, *John William Deering*, of Sydney, Metropolitan District Surveyor, being duly sworn, maketh oath and saith as follows:—I know the 60 acres applied for, adjoining the Randwick Racecourse; it is unreserved Crown land, within the Sydney population boundary; it is competent for the Crown to sell or lease this land under the Act; the area of Crown land remaining near the metropolis is now very limited and very valuable, and this land may be required for some Government or public purpose and thus save a considerable outlay for purchase or resumption; the value of the land is at least £500 per acre in its present state; this price gives a total value of £30,000; at a ground rent of 4 per cent. would give a rent of £1,200 per annum; but apart from the question of rental I cannot recommend the lease to be granted.

*By Mr. Rowley*:—I know that the Kensington Estate of 1,000 acres was sold recently for £300 an acre; it is nearer Sydney than the land applied for; I consider that that sale supports my valuation of this land; there is another piece of land adjoining this on the south, viz., 40 acres, Crown lands, which would be available if the lease were granted, and south of that there are Church and School lands.

Sworn by JOHN WILLIAM DEERING at Sydney, }  
this 9th of April, 1889. }

JOHN W. DEERING.

## No. 12.

### G. B. Rowley, Esq., to The Under Secretary for Lands.

Sir,

Sydney, 8 May, 1889.

In reference to the lease of land applied for by me on the Bunnerong Road, I have the honor to lay before you a few reasons why, in my opinion, it would be advisable for the Government to grant the same to me for the term and on the conditions recommended by the Local Land Board.

- (1.) The improvements I propose to make and the money I expect to lay out (£10,000) will not only make the ground very valuable at the end of the lease, but will greatly increase the value of the adjoining Crown and Church and School lands.
- (2.) That the land at present is a useless sandhill and a barren wilderness, which will, at no expense to the Crown, be converted into a beautiful pleasure ground, giving enjoyment and pleasure to the residents of the district, and thereby saving the Government from being called upon at a future date to grant and prepare such a ground for recreation purposes.

The land is at present unsaleable, not only from its barren appearance but from its inaccessibility from the centres of population, and I am quite sure that if it was put into the market now it would not bring £200 per acre; and, in support of this statement I may state (with all due deference to Mr. Surveyor Deering's valuation of £500 per acre) that the Kensington Estate, situate in a much better position, nearer to Sydney and Waterloo, was sold some short time back for £300 per acre, and it is a grave question with the buyers at the present time as to whether they will complete the purchase or let it drop.

I might also point out that this lease has been recommended by the responsible officers of the Department, viz., the Local Land Board, who went carefully into the evidence for and against; also, that even if the lease is granted to me the land is in no way tied up, as the Crown reserve the right to cancel the lease at any time during its currency.

With regard to the rent I offered at the time I made my application, £100 a year, the Board recommended a much higher one of £200 for first five years, £400 for second five years, £500 the third five years; and I beg to submit that if the Board's recommendation is carried out I will be called upon to pay every penny the land is worth, taking into consideration the large outlay that will be necessary, and the fact that it will take five years at least to put the place in order.

As you are aware, the land has been lying idle since the founding of the Colony. Up to the time of my application it had no value; and I submit that if it has any special value, the fact of my applying for it has given it that value; and, on those grounds, I should be held to have the first claim to it, and to be dealt liberally with in the matter.

By granting me this lease the Crown will be encouraging private enterprise. They will be getting a good rental for barren, unproductive land, and be acting up to the principle of the Land Act, and in accordance with the voice of the people, which is, "Lease the Crown lands; do not sell them."

I have, &c.,

G. B. ROWLEY.

Submitted.—E.L., 13/5/89. For Cabinet.—J.N.B., 13/5/89.

The lease may be granted subject to the conditions recommended by the Local Land Board. The rent to be at the rate of £400 per annum for the first five years, £600 per annum for the second term of five years, and £800 per annum for the third term of five years. The lessee to have the privilege of surrendering this lease at the end of the first period without any consideration, but not to be released from the first clause of the Board's recommendation, which provides for a satisfactory and approved guarantee that he will, within five years from the date of the lease being granted, expend not less than the sum of £2,000 on the land in improvements—J.N.B., 14/11/89.

G. B. Rowley informed, 14/11/89.

## No. 13.

### The Under Secretary for Lands to G. B. Rowley, Esq.

Sir,

Department of Lands, Sydney, 14 November, 1889.

Referring to your application for special lease of 60 acres of Crown lands at Randwick for recreation purposes, I have the honor to inform you that the Minister for Lands has been pleased to approve of a lease of the land being granted under the following terms and conditions:—

1. That the terms of lease shall be fifteen years, and the rent at the rate of £400 per annum for the first five years, £600 per annum for the second term of five years, and £800 per annum for the third term of five years.
2. That you will give a guarantee satisfactory to the Minister that you will expend £2,000 on the ground in furtherance of the purpose of the lease during the first term of five years.
3. That no excavations be made without approval of the Minister or some officer deputed by him.

4.

4. That sub-letting for any other purpose, harbouring improper characters, or conviction of illegal traffic in liquor upon the ground, shall involve forfeiture of the lease.
5. That at the expiration of the first term of five years you shall have the privilege of surrendering the lease, but shall not thereby be released from the condition embodied in the second clause hereof.
6. That should the land be resumed during the currency of the lease no compensation shall be paid for any improvements beyond the actual cost, less a sum for deterioration.

Be good enough to advise me at your earliest convenience whether you are willing to accept the lease on these terms.

I have, &c.,  
WILLIAM HOUSTON,  
Under Secretary.

#### No. 14.

G. B. Rowley, Esq., to The Under Secretary for Lands.

Sir,

20 Barrack-street, Sydney, 15 November, 1889.

With reference to my application for a special lease of 60 acres at Randwick for recreation purposes, and to your letter in reply thereto, I have now the honor to inform you that I am willing to accept a lease on the terms and conditions set forth therein, and respectfully ask that a lease may be issued at the earliest possible date.

I would also respectfully request that the lease should commence from 1st January next, and that you will allow me to take immediate possession of the land.

I have, &c.,  
G. B. ROWLEY.

Submitted.—E.L., 15/11/89.  
informed, 19/11/89.

Submission approved.—J.N.B., 19/11/89.

G. B. Rowley

#### No. 15.

Minute of the Executive Council.

Lease for a Special Purpose—483.

Department of Lands, Sydney, 19 November, 1889.

It is recommended to His Excellency the Governor and the Executive Council that a lease of 60 acres of land at Randwick, parish of Alexandria, county of Cumberland, be granted to Mr. G. B. Rowley for the purpose of recreation from 1st January, 1890, to 31st December, 1904, at a rental of £400 per annum for the first five years, £600 per annum for the second term of five years, and £800 per annum for the third term of five years, under the provisions of the 90th clause of the Crown Lands Act of 1884.

The lease not to confer any right to purchase the land in virtue of improvements or otherwise.

The lessee to expend, during the first term of five years, £2,000 on the ground in furtherance of the purpose of the lease.

No excavations to be made without approval of the Minister for Lands or some officer deputed by him.

The lessee to have the privilege of surrendering his lease at the end of the first period of five years without any consideration, but not to be thereby released from the beforementioned condition, which provides for the expenditure of not less than £2,000 (two thousand pounds) on the land in improvements.

Subletting for any other purpose, harbouring improper characters, or conviction of illegal traffic in liquor upon the ground to involve forfeiture of the lease.

Should the land be resumed during the currency of the lease no compensation shall be paid for any improvements beyond the actual cost, less a sum for deterioration.

JAMES N. BRUNKER.

The Executive Council advise that the special lease hereing recommended be approved.—ALEXANDER C. BUDGE, Clerk of the Council. Min., 89/62, 19/11/89. Confirmed, 26/11/89. Approved.—CARRINGTON, 19/11/89. Rent for 1890 called for and Treasury advised, 4th December, 1889. Gazetted, 3rd January, 1890.

#### No. 16.

The Under Secretary for Lands to G. B. Rowley, Esq.

Special Lease.

Sir,

Department of Lands, Sydney, 4 December, 1889.

Referring to your application for permission to lease a portion of Crown lands at Randwick, parish of Alexandria, county of Cumberland, for recreation purposes, I have the honor to request that you will pay to the Colonial Treasurer the sum of £400, being rent from 1st January, 1890, to 31st December next. On notice of receipt of this amount authority to occupy the land will issue in due course.

The charges against your deposit and survey of £10 are nil, and the balance will be applied towards payment of rent now called for.

The sum of £390 therefore remains due, and if not paid within one month from this date, your application will be deemed to have lapsed.

I have, &c.,  
WILLIAM HOUSTON,  
(per F.H.W.)

Deposit and survey fee, £10; balance available towards payment of rent, £10; amount of rent called for, £400; balance of deposit available (as above), £10; amount still to be paid, £390.

Terms

Terms of lease: From 1st January, 1890, to 31st December, 1904; rent, £400 per annum for the first five years, £600 per annum for the second five years, and £800 per annum for the last five years; area, 60 acres.

(1) The lease will not confer any right to purchase the land; (2) the lessee to expend during the first term of five years £2,000 on the ground in furtherance of the purpose of the lease; (3) no excavations to be made without the approval of the Minister for Lands or some officer deputed by him; (4) the lessee to have the privilege of surrendering his lease at the end of the first period of five years without any consideration, but not to be thereby released from the before-mentioned condition, which provides for the expenditure of not less than £2,000 on the land in improvements; (5) subletting for any other purpose, harbouring improper characters, or a conviction of illegal traffic in liquors upon the ground to involve forfeiture of the lease; (6) should the land be resumed during the currency of the lease no compensation shall be paid for any improvements beyond the actual cost, less a sum for deterioration.

No. 17.

The Under Secretary for Lands to The Under Secretary for Finance and Trade.

Special Lease.

Sir,

Department of Lands, Sydney, 4 December, 1889.

I have the honor to inform you that it is proposed to grant a special lease of sixty (60) acres of land for recreation purposes at Randwick, parish of Alexandria, county Cumberland, to Mr. G. B. Rowley, at a rental of £400 per annum for the first five years, £600 per annum for the second term of five years, and £800 per annum for the third term of five years.

Mr. Rowley has, therefore, been directed to pay into your hands the sum of £400 for rent, from the 1st January, 1890, to the 31st December next, and having been informed that upon such payment a lease will be granted to him, I have to request that I may be favoured with a report immediately upon that sum being credited to revenue.

There are no charges against the deposit of £10 placed in Suspense Account by him on 25th August, 1888, but the amounts may be applied towards payment of rent now called for.

I have, &c.,

F. H. WILSON,

(For the Under Secretary).

Term of lease:—From 1st January, 1890, to 31st December, 1904.

## Report from the Metropolitan District Surveyor to The Chairman, Local Land Board, Sydney.

[L.B., Special Lease, 89-50.]

GEORGE BRENTON ROWLEY.—Application for special lease for recreation, about 50 acres, adjoining his lease of 60 acres, recently granted for a similar purpose, Bunnerong Road, parish of Alexandria, county Cumberland. No. 267, 5th February, 1890.

1. The area now applied for is only separated by Barker-street from the 60 acres recently leased to applicant (papers Occ. 89-14,706).

2. On the accompanying lithograph I have indicated by pink edging the 60 acres leased, and by Appendix C. pink colour the 50 acres now applied for.

3. The land is not surveyed, and is unreserved Crown land, within the Sydney population boundary, and within a mile of the city boundary.

4. Not being aware of the circumstances surrounding this application, which is not of an ordinary character, I am unable to make a recommendation in this case.

J. W. DEERING,  
Metropolitan District Surveyor.

## No. 24.

## Decision of Local Land Board.

Crown Lands Act of 1884—(Part II, Section 14, Sub-section 4).

New South Wales, }  
to wit. }Metropolitan  
special lease,  
88-50, Section 90,  
27th December,  
1889.

WHEREAS on the fifteenth day of April, 1890, it became a matter for investigation before us, namely, the application by George B. Rowley for a special lease of about 50 acres, for recreation purposes, Bunnerong Road, parish Alexandria, as per margin; and having inquired into the said matter, we find that in the absence of any explanation of the particular purpose for which this land is to be used, we adjourn the consideration of this application.

Given under our hands, at the Steamship Owners' Association Rooms, at 7 O'Connell-street, Sydney, in the Colony of New South Wales, this 15th day of April, 1890.

T. WARRE HARRIOTT, Chairman.  
HENRY EAGAR, Member.

Will the District Surveyor please attach a tracing showing the land proposed to be set apart for a rifle range?—J.P.M. (for U.S.), 26/7/90. Nothing definite has as yet been done respecting the area for rifle range. It is, however, a part of the Church and School Lands, and will scarcely affect this proposed lease to Rowley, but which lease I do not recommend.—J. W. DEERING, 30 July, 1890. The Under Secretary for Lands.

## No. 25.

## Decision of Local Land Board.

Crown Lands Act of 1884—(Part II, Section 14, Sub-section 4).

New South Wales, }  
to wit. }Metropolitan  
special lease  
89-50, section 90,  
27th Dec., 1889.

WHEREAS on the twenty-third day of June, 1890, it became a matter for investigation before us, namely, the application of George B. Rowley for a special lease of about 50 acres for recreation purposes, Bunnerong Road, parish Alexandria, as per margin; and having inquired into the said matter, we recommend that this application be declined and the deposit refunded. The purpose is indefinite, the site very valuable, and applicant has not attended to offer any explanation.

NOTE.—If a lease be granted for the purpose named, we are of opinion that some special form of "recreation" should be named, and a lease submitted to auction at an upset rental of £200 a year.

Given under our hands, at the Steamship Owners' Association Rooms, at 7, O'Connell-street, Sydney, in the Colony of New South Wales, this 23rd day of June, 1890.

T. WARRE HARRIOTT, Chairman.  
FREDERICK A. FRANKLIN, }  
HENRY EAGAR, } Members.

No appeal  
lodged.

The Under Secretary for Lands.

The recommendation of the Land Board is submitted for consideration. If the suggestion of the Board to offer a lease at auction is adopted, it is submitted that it be on the same lines as that now held by Mr. Rowley in the immediate vicinity (see Occ. 89-14,706 herewith). A difficulty which presented itself is that the manner of recreation to which the successful bidder might desire to devote the land may not meet with the approval of the Minister after the lease was sold. Submitted. Special.—J.P.M., 4/8/90.

It will be sufficient to refuse the application and refund the deposit.—R.H.D., 5/8/90. Submitted.—F.H.W., 6/8/90. W.H., 7/8/90. Refused.—J.N.B., 8/8/90. G. B. Rowley, Treasury, Chairman (Sydney), and Cumberland Ranger advised, 15th August, 1890.—J.P.M.

## The Under Secretary for Lands to G. B. Rowley, Esq.

Authority to Occupy.

Sir,

Department of Lands, Sydney, 22 July, 1890.

The Under Secretary for Finance and Trade having reported the payment of £400 as rent from 1st January, 1890, to 31st December, 1890, for a special lease of 60 acres of land, a description of which is herewith, granted to you for the purpose of a recreation ground, I have the honor to inform you that you are entitled to the use and occupation of that land during the term for which the lease has been granted, upon payment of rent and fulfilment of conditions endorsed hereon, failing which your right to occupy the land will cease.

I have, &amp;c.,

WILLIAM HOUSTON,  
Under Secretary  
(per R.H.D.)  
CONDITIONS.

Tracing, and  
Gazette notice of  
3rd January,  
1890, herewith.Term of Lease:—  
From 1st Jan.,  
1890, to 31st Dec.,  
1904. Annual  
rent, £400 for the  
first five years,  
£600 for the  
second term of  
five years, and  
£800 for the  
third term of  
five years.

## CONDITIONS.

The lease does not confer any right to purchase the land in virtue of improvements or otherwise.

The rent for each year must be paid in advance, on or before the 31st December of the year preceding, otherwise penalties for late payment will be incurred, and the lease will be liable to forfeiture. *Vide* section 96 of the Crown Lands Act of 1884.

The lease will not confer any right to purchase the land. The lessee to expend during the first term of five years £2,000 on the ground, in furtherance of the purpose of the lease. No excavations to be made without the approval of the Minister for Lands or some officer deputed by him. The lessee to have the privilege of surrendering his lease at the end of the first period of five years without any consideration, but not to be thereby released from the beforementioned condition, which provides for the expenditure of not less than £2,000 on the land in improvements. Sub-letting for any other purpose, harbouring improper characters, or a conviction of illegal traffic in liquors upon the ground to involve forfeiture of the lease. Should the land be resumed during the currency of the lease no compensation shall be paid for any improvements beyond the actual cost, less a sum for deterioration.

## DESCRIPTION.

County of Cumberland, parish of Alexandria, 60 acres: Commencing on the southern side of High-street, at the north-west corner of an area of 2 roods reserved from sale for pound site; and bounded on the north by the southern side of that street bearing westerly to the north-eastern side of Bunnerong Road; on the south-west by that road bearing south-easterly to the north side of Barker-street; on the south by that street bearing easterly to the western boundary of 25 acres dedicated on the 29th April, 1884, for public park purposes; on the east by part of that boundary bearing northerly to the south-east corner of the aforesaid portion of 2 roods reserved for pound site; again on the north by the southern boundary of that site bearing westerly to its south-west corner; again on the east by the western boundary of that site bearing northerly, to the point of commencement.

## The Cumberland Ranger to The Under Secretary for Lands.

M.L. 90/1285

Sir, Petersham, 25 August, 1890.  
Referring to your circular letter numbered as per margin, intimating that Mr. George Rowley's application for a special lease of 50 acres for recreation purposes at Bunnerong Road, parish of Alexandria, county of Cumberland, has been declined, I have the honor to report that I visited the locality on the 20th instant, and find that there is no illegal occupation of the Crown land in question.

I have, &amp;c.,

JAMES M'KEOWN,  
Cumberland Ranger.

Upon inquiry at Treasury it has been ascertained that rent on special lease 89/7 Metropolitan has not been paid for 1891. See papers, 89/13,810 Occupation, in reference to existing lease.—J.P.M., 25/3/91. R.H.D., 25/3.

Mr. Rowley's attention may be directed to the fact that no rent has been paid for current year.—W.H., 25/3/91. Approved.—J.N.B., 25/3/91. Mr. Rowley informed, 31/3/91.

## No. 33.

## The Under Secretary for Lands to G. B. Rowley, Esq.

Sir, Department of Lands, Sydney, 31 March, 1891.  
I have the honor, by direction of the Secretary for Lands, to invite your attention to the fact that no rent has been paid for the current year on your special lease No. 89/7 of 60 acres at Randwick for recreation purposes.

I have, &amp;c.,

WILLIAM HOUSTON,  
Under Secretary  
(per R.H.D.)

## No. 34.

## The Under Secretary for Finance and Trade to The Under Secretary for Lands.

## Special Lease.

Sir, The Treasury, New South Wales, 1 July, 1891.  
Referring to my letter of 11th April last, I have the honor to inform you that the sum of £440 was paid into this office on the 13th ultimo, being rent and fine during year 1891 of the special lease mentioned in the margin.

I have, &amp;c.,

W. NEWCOMBE  
(For the Under Secretary).

Lessee, G. B. Rowley. Lease of 60 acres for recreation grounds at Randwick.

## No. 35.

## G. B. Rowley, Esq., to The Under Secretary for Lands.

Sir, 20, Barrack-street, Sydney, 8 July, 1891.  
With reference to the payment by me on 30th ultimo of £440 (including £40 fine), rent for current year of special lease No. 483, Randwick, I have the honor to urge your clemency in connection therewith, and to respectfully request that you will be pleased to allow a refund of the £40 fine in question.

As you are no doubt well aware, attention was first drawn to this land by my application for it as a special lease, and, in view of the enormous expense it will entail in converting this from the scrubby waste which it is at present, I trust you will favourably consider my request, and authorise the refund asked for.

I have, &amp;c.,

G. B. ROWLEY.

Submitted for special consideration, whether the reason here advanced is sufficient to warrant a remission of the fine, £40. The rent, £400, should have been paid on or before the 31st December last; it was paid on the 1st instant.—R.H.D., 10/7/91.

Six months overdue.—F.H.W., 13/7/91. Submitted.—W.H., 13/7/91. The reason offered is no excuse for delay in payment of rent. It applies more to a reduction in rent than to a justification for remission of fine.—J.N.B., 13/7/91. G. B. Rowley informed, 14/7/91.

## No. 36.

## The Under Secretary for Lands to G. B. Rowley, Esq.

Sir, Department of Lands, Sydney, 14 July, 1891.  
In reply to your letter of the 8th instant, applying for a remission of the fine incurred through the late payment of the current year's rent on your special lease for recreation purchases at Randwick, on the ground of the enormous expense it will entail to convert the land to your use, I have the honor, by direction of the Secretary for Lands, to inform you that the reason offered is no excuse for delay in payment of rent, therefore your request cannot be complied with.

I have, &amp;c.,

WILLIAM HOUSTON,  
Under Secretary  
(Per R.H.D.)

No. 37.

## No. 37.

Extract from *Sydney Morning Herald*, 28 October, 1891.

TENDERS invited for fencing new racecourse at Randwick for the Rosehill Racecourse Company (Limited). Tenders close at noon, on Monday, November 2, Bell's Chambers.

129, Pitt-street, Sydney.

C. A. OWEN,  
DAVID RAMSAY, JUNIOR, } Engineers.

Mr. G. B. Rowley (who is the Secretary of the Rosehill Racecourse Company) applied for a special lease of 60 acres at Randwick, on the Bunnerong Road, adjoining the Randwick Racecourse and Park, for the purpose of providing recreation for the public. In his evidence before the Land Board, Mr. Rowley stated (*vide* 89-5,181) that he proposed "to lay out a cricket and football ground, running-track, bowling green, and other similar sports," and also furnished a rough tracing showing the manner in which he intended to allot the ground. The lease was granted for recreation purposes as so specified. In this day's *Herald*, however, there appears an advertisement inviting tenders for "*fencing new racecourse at Randwick, for the Rosehill Racecourse Company.*" Inquiry has been made at the Church and Schools Estate Office, and it is found that no lease has been granted out of those estates near Randwick for any such purpose, and it therefore appears to be more than probable that the proposed racecourse is intended to be laid out on Rowley's special lease. To establish a racecourse on the land would render the lease liable to forfeiture under the last paragraph of the 90th clause of the Crown Lands Act of 1884, as thereby "the land comprised in such lease" would "not be used and occupied *bonâ-fide* for the purpose for which it was made." It is, therefore, submitted that Mr. Rowley be so informed, and the Cumberland Ranger instructed to furnish a report without delay as to what is now being done with the land, and also further reports at intervals of not more than three months on the same subject.—F.H.W., 28/10/91.

Submitted that the course above suggested be approved.—W.H., 28/10/91. Upon consulting with the Minister it is thought advisable to take no action in this matter at present.—W.H., 14/5/92. End of year.—J.P.M., 16/5/92. Rent paid for 1893. End of year.—M.L., 14/8/93.

Legislative Assembly, Friday, 1 April, 1892.

*Question.*

2. CROWN LANDS NEAR RANDWICK RACECOURSE, LEASED BY MR. G. B. ROWLEY.—MR. STEVENSON (*for* MR. M'FARLANE) *asked* THE SECRETARY FOR LANDS,—
- (1.) What amount of rent is in arrear for Crown lands near Randwick Racecourse, leased by Mr. G. B. Rowley?
  - (2.) Has any arrangement been made for payment of same?

*Answer.*

MR. LYNE answered,—Nothing.

## No. 39.

## Question and Answer.

Legislative Assembly, Tuesday, 23 January, 1894.

*Question.*

8. LEASE OF CROWN LANDS NEAR RANDWICK RACECOURSE.—MR. MOLESWORTH (*for* MR. CARRUTHERS) *asked* THE SECRETARY FOR LANDS,—
- (1.) Was any portion of the Crown lands near the Randwick Racecourse, or at Bunnerong, leased to Messrs. Clark and Rowley?
  - (2.) If so, for what term, at what rent, or for what purpose?
  - (3.) Is he aware that portion of the land has been converted into a racecourse, and is being used weekly for pony racing?
  - (4.) Was it made known to the Department that the land was to be put to use as a racecourse?
  - (5.) Does the lease permit of such use of the land?

*Answer.*

- SIR GEORGE DIBBS answered,—
- (1.) Yes; 60 acres were leased to Mr. G. B. Rowley.
  - (2.) For fifteen years, from 1st January, 1890, for recreation purposes, at a rental of £400 per annum for the first five years, £600 per annum for the second term of five years, and £800 per annum for the remainder of the lease.
  - (3.) I have heard so.
  - (4.) No.
  - (5.) The lease was granted for the purpose of providing recreation for the public.

## No. 40.

## The Secretary for the Associated Clubs to The Minister for Lands.

Sir,

Garling's Chambers, Pitt-street, Sydney, 7 March, 1894.

I am instructed by the proprietors of Warwick Farm, Moorefield, and Canterbury Park Race Clubs, to bring under your notice the great injury which has been and is being done to them by the leasing to Messrs. Clark and Rowley of certain lands at Kensington, near the Randwick Racecourse.

This land, I understand, was leased for recreation purposes, but it has been converted into a racecourse, and is being used every week for pony racing, in opposition to the said proprietary clubs. My committee respectfully submit that the granting by the Minister for Lands of a lease for recreation purposes could never have been intended to include racing, either for ponies or horses.

The racing of ponies and horses is an established business, and as a proof of that I would call the Minister's attention to the fact that there are a large number of proprietary racecourses in and around the county of Cumberland, not to say anything about the adjoining Colonies.

My committee have directed me to respectfully request the Minister for Lands to call upon the lessees to comply with the conditions of their lease, and use the said land for recreation purposes only, as they understand that land leased for recreation purposes could never be held to include racecourses.

I need scarcely point out to the Minister for Lands that if a lease could be legally granted for racing purposes, they are sure that the Minister never would have granted it, as it would be a material interference with the rights and vested interests of the proprietors of racecourses, who have spent tens of thousands of pounds in purchasing land, making racecourses and erecting buildings, &c., thereon, but on the contrary, the Minister, no doubt in such a case, would submit the said land to public auction, in which case the proprietors of racecourses and the general public would have had an opportunity of bidding for the land in question.

I have, &amp;c.,

E. A. WILSON,

Secretary for the Associated Clubs.

Complaint by the Secretary of the Associated Racing Clubs to the effect that the special lease standing in the name of the late G. B. Rowley is being used as a racecourse and not for "recreation"—the specific purpose of the lease. As horse-racing is a world-wide source of recreation the writer's objection has no force. Besides paying a very heavy rental, £400 per annum, the lessee has had to spend £2,000 on the land under the conditions of the lease. Including this outlay the average rental for fifteen years is £733 per annum—an amount that could not be paid if a restrictive reading is given to the term "recreation." The Chief Clerk drew attention to the facts of the case in October, 1891, and steps might have been then taken if it were thought that the lessee was misusing the land. There has been no public complaint against the lease, and rent for 1894 has been paid. Submitted for consideration.—J.P.M., 9/3/94.

Submitted specially.—R.H.D., 10/3/94. F.H.W., 12/3/94. Submitted.—W.H., 12/3/94. No action appears necessary.—H.C., 19/3/94. E. A. Wilson, Secretary Associated Clubs, informed, 21/3/94.

## No. 41.

## The Under Secretary for Lands to The Secretary of the Associated Racing Clubs.

Sir,

Department of Lands, Sydney, 21 March, 1894.

I have the honor to acknowledge receipt of your letter of the 7th instant, protesting against the special lease of Messrs. Clark and Rowley of certain lands at Kensington, near the Randwick Racecourse, and I am to inform you that the Secretary for Lands considers that there is no apparent cause, at present, to warrant an interference with the existence of the lease.

I have, &amp;c.,

WILLIAM HOUSTON,

Under Secretary

LEGISLATIVE ASSEMBLY.  
NEW SOUTH WALES.

CROWN LANDS.  
(RETURN RESPECTING SPECIAL AREAS.)

*Ordered by the Legislative Assembly to be printed, 5 June, 1894.*

RETURN to an *Order* made by the Honorable the Legislative Assembly of New South Wales, dated 21st March, 1894, That there be laid upon the Table of this House, a Return showing,—

- “(1.) All special areas dealt with by the Minister for Lands since the present Government came into office.  
“(2.) What special areas have been proclaimed with the prices recommended by the District Surveyor, and the prices fixed by the Minister in each case.  
“(3.) What reductions have been made by the present Minister on the former prices of special areas.  
“(4.) What increases have been made by the present Minister on the former prices of special areas.”

*(Mr. Crick, for Mr. Wall.)*

RETURN of all special areas dealt with by the Minister for Lands since the present Government came into office, viz., from 1st November, 1891, to 28th April, 1894, with the prices recommended by District Surveyor, and the prices fixed by the Minister in each case.

1894.

EXTRACTS FROM THE VOTES AND PROCEEDINGS OF THE  
LEGISLATIVE ASSEMBLY.

VOTES No. 31. TUESDAY, 3 APRIL, 1894.

5. HOMESTEAD PROTECTION BILL:—The Order of the Day having been read,—Mr. Speaker left the Chair, and the House resolved itself into a Committee of the Whole for the further consideration of the Bill.
- Mr. Speaker resumed the Chair; and the Chairman reported the Bill with an amendment.
- Mr. Donald moved (*with the concurrence of the House*), “That” the report be now adopted.
- Mr. O’Sullivan moved, That the Question be amended by the omission of all the words after the word “That,” with a view to the insertion in their place of the words “the Bill be referred to a Select Committee, with power to send for persons and papers, for consideration and report.
- “(2.) That such Committee consist of Mr. Copeland, Mr. Donald, Mr. Edden, Mr. Carruthers, Mr. McCourt, Mr. G. D. Clark, Mr. Walker, Mr. Rae, Mr. Traill, and the Mover.”
- Question,—That the words proposed to be omitted stand part of the Question,—put and negatived.
- Question,—That the words proposed to be inserted in place of the words omitted be so inserted,—put and passed.
- Question as amended,—
- (1.) That the Bill be referred to a Select Committee, with power to send for persons and papers, for consideration and report.
- (2.) That such Committee consist of Mr. Copeland, Mr. Donald, Mr. Edden, Mr. Carruthers, Mr. McCourt, Mr. G. D. Clark, Mr. Walker, Mr. Rae, Mr. Traill, and the Mover,—
- Put and passed.

VOTES No. 38. WEDNESDAY, 18 APRIL, 1894.

8. HOMESTEAD PROTECTION BILL:—Mr. O’Sullivan, as Chairman, brought up the Report from, and laid upon the Table the Minutes of Proceedings of, and Evidence taken before, the Select Committee for whose consideration and report this Bill was referred on 3rd April, 1894, together with Appendix and a copy of the Bill as amended and agreed to by the Committee.
- Ordered to be printed.

**HOMESTEAD PROTECTION BILL.**

---

**REPORT.**

---

THE SELECT COMMITTEE of the Legislative Assembly, for whose consideration and report was referred on the 3rd April, 1894, the "*Homestead Protection Bill*," beg to report to your Honorable House:—

That they have examined the following witnesses in connection with the Bill:—Mr. George Colquhoun, Crown Solicitor; Mr. George Miller, General Manager of the Bank of New South Wales; Mr. John Leo Watkins, Parliamentary Draftsman; Colonel Bell, United States Consul; Mr. Chas. Pinhey, Registrar-General; Mr. W. H. Capper, Clerk in Charge of Conditional Sales Division, Lands Department; and Mr. W. H. Traill, M.P.

From the evidence adduced it appears that homestead exemption laws prevail in thirty-nine out of the forty-four States of the United States of North America, as well as in the Dominion of Canada, and that they have operated beneficially. Though the fundamental laws of the United States and Canada are practically the same as those of Great Britain and Australia no conflict appears to have arisen between them and the homestead protection laws. In some of the States the homestead exemption laws are embodied in the constitutions, in others they are provided for by statutory enactments. The amount protected varies. In certain cases it is only 300 dollars worth, while in the newer States, like California, Texas, Arizona, and Colorado, the exemptions go as high as 5,000 dollars, or £1,000. In some States the homestead has to be registered, in others the right cannot even be waived, and the husband cannot mortgage away the homestead right from his family. In some of the States there is also a personal property exemption, which goes as high as 1,000 dollars.

The Crown Solicitor held that the Bill as submitted applied to freeholds only, and did not conflict with the Crown Lands Acts. He also held that the inclusion of conditional purchases and conditional leases, "subject to all the conditions of the Crown Lands Acts being fulfilled," would enlarge the scope of the Bill, and the alteration could be made without interfering with the Crown Lands Acts. The Crown Solicitor also testified that the provision appointing a land agent to do duties under the homestead protection law would in no way conflict with the Crown Lands Acts. Under the law the same protection should be given in case of divorce as is given in the case of an intestacy.

Mr. George Miller, general manager of the Bank of New South Wales, held that the borrowing powers of the owners of homesteads would be restricted by the passage of the law; but also said that such restrictions would be decidedly better for the owner and his family.

Mr.

Mr. John Leo Watkins, the Parliamentary Draftsman, suggested a number of amendments in the Bill, which will be found as an Appendix. In order to prevent fraud by embodying more than the amount protected in the property he suggested, among other amendments, that the homestead might be sold and £100, deposited by the seller prior to the sale, should be devoted to the purchase of another homestead for the family.

Mr. W. H. Capper said that the Bill would not create a title against the Crown if the conditions of the Lands Acts are observed, because the Minister holds the power of forfeiture for any breach of the law. He also stated that 241,736 conditional purchases had been registered at the Lands Department up to the end of last year, and his impression was that the majority of these had been transferred to Banks and other financial institutions. He handed in a return for 1893 bearing out this statement, and a copy of this document will be found on page 11 of the evidence.

The Registrar-General confirms the statement made by Mr. Capper with regard to the number of transfers of conditional purchases, stating that, judging from the registrations in his office, some 150,000 selections had been transferred to Banks and various financial institutions, though an inconsiderable proportion of these had been from time to time returned to the original holders. The witness also held that the proposed homestead protection law would not conflict in any way with any of the registration Acts in operation, and from that standpoint he saw no reason why the Bill should not pass.

Mr. W. H. Traill, M.P., said the proposed legislation appeared to him likely to be beneficial to the country, and he thought Mr. Donald's measure could be so amended as to embody the salient features of the American laws.

In view of the foregoing evidence, your Committee now beg to lay before your Honorable House the Bill as amended by them.

E. W. O'SULLIVAN,  
Chairman.

*No. 1 Committee Room,  
Sydney, 18 April, 1894.*

1894.

## PROCEEDINGS OF THE COMMITTEE.

WEDNESDAY, 4 APRIL, 1894.

MEMBERS PRESENT :—

Mr. Edden, | Mr. Donald,  
Mr. O'Sullivan.

Mr. O'Sullivan called to the Chair.

Entry from Votes and Proceedings appointing the Committee read by the Clerk.

Printed copies of the Bill referred before the Committee.

Committee deliberated.

Ordered,—That the Crown Solicitor, the Parliamentary Draftsman, George Miller, General Manager, Bank of New South Wales, and the Registrar-General be summoned to give evidence next meeting; and Francis Adams, General Manager, Australian Joint Stock Bank, be summoned, and the Consul for the United States be requested, to attend on Tuesday next.

[Adjourned till To-morrow at *Half-past Ten* o'clock.]

THURSDAY, 5 APRIL, 1894.

MEMBERS PRESENT :—

Mr. O'Sullivan in the Chair.

Mr. Donald, | Mr. McCourt.

George Colquhoun (*Crown Solicitor*) called in, sworn, and examined.

Witness withdrew.

George Miller (*General Manager, Bank of New South Wales*) called in, sworn, and examined.

Witness withdrew.

John Leo Watkins (*Chief Parliamentary Draftsman*) called in, sworn, and examined.

Witness withdrew.

[Adjourned till Tuesday next, at *Half-past Ten* o'clock.]

TUESDAY, 10 APRIL, 1894.

MEMBERS PRESENT :—

Mr. O'Sullivan in the Chair.

Mr. G. D. Clark, | Mr. Donald,  
Mr. Traill.

George Colquhoun called in and further examined.

Witness withdrew.

George W. Bell (*Consul for the United States of America*) called in, made a solemn affirmation, and examined.

Witness withdrew.

William Henry Capper (*Clerk in charge of Conditional Sales Division, Lands Department*) called in, sworn, and examined.

Witness withdrew.

[Adjourned till To-morrow, at *Half-past Ten* o'clock.]

WEDNESDAY, 11 APRIL, 1894.

MEMBERS PRESENT :—

Mr. O'Sullivan in the Chair.

Mr. G. D. Clark, | Mr. Donald,  
Mr. Traill.

John Leo Watkins called in and further examined.

Witness handed in Schedule showing proposed amendments in the Bill. [*Vide Appendix.*]

Witness withdrew.

Charles Pinhey (*Registrar-General*) called in, sworn, and examined.

Witness withdrew.

William Henry Traill, Esq., M.P. (*a member of the Committee*), sworn and examined in his place. Committee deliberated.[Adjourned till Tuesday next, at *Half-past Ten* o'clock.]

TUESDAY,

TUESDAY, 17 APRIL, 1894.

MEMBERS PRESENT:—

Mr. O'Sullivan in the Chair.

Mr. G. D. Clark,  
Mr. McCourt,

Mr. Donald,  
Mr. Rae.

Committee deliberated as to their Report.

[Adjourned till To-morrow, at *Half-past Ten* o'clock.]

WEDNESDAY, 18 APRIL, 1894.

MEMBERS PRESENT:—

Mr. O'Sullivan in the Chair.

Mr. G. D. Clark,  
Mr. Edden,

Mr. Donald,  
Mr. Rae.

Bill considered.

Preamble postponed.

Clause 1 read, amended\*, and agreed to.

Clause 2 read, amended\*, and agreed to.

Clause 3 read, amended\*, and agreed to.

Clause 4 read and omitted.

Clause 5 read,—Question put, "That the clause as read stand as clause 5 of the Bill."

The Committee divided.

Ayes.

Mr. Donald,  
Mr. Rae,

No.

Mr. Edden.

And so it was resolved in the affirmative.

Clause 6 read, amended\*, and agreed to.

Clause 7 read and agreed to.

Clause 8 read, amended,\* and agreed to.

Clause 9 read and agreed to.

New clause, to stand as clause 4, read and agreed to.

Schedules A, B, C, and D read, amended,\* and agreed to.

Preamble read and agreed to.

Title read and agreed to.

Chairman submitted Draft Report.

Same read, amended, and agreed to.

Chairman to report the Bill, with amendments, to the House.

#### SCHEDULE OF AMENDMENTS.

1894.

LEGISLATIVE ASSEMBLY.  
NEW SOUTH WALES.

MINUTES OF EVIDENCE

TAKEN BEFORE

THE SELECT COMMITTEE

ON THE

HOMESTEAD PROTECTION BILL.

THURSDAY, 5 APRIL, 1894.

Present:—

MR. O'SULLIVAN, | MR. McCOURT,  
MR. DONALD.

E. W. O'SULLIVAN, Esq., IN THE CHAIR.

George Colquhoun, Esq., Crown Solicitor, called in, sworn, and examined:—

1. *Chairman.*] We should like to have your opinion upon the Protection of Homesteads Bill. As you are aware, it is similar to a law which prevails in certain States of America—in Illinois among others. The mover of the Bill, Mr. Donald, is desirous of having a somewhat similar enactment applied here. We should like to have your opinion, as Crown Solicitor, and from a legal point of view, as to whether such a law can be applied here, and whether it would affect the land law or any other laws in existence. We should like to have a statement from you first? I only had this Bill placed before me yesterday afternoon. I took an opportunity of going through it in the course of the evening after I got home, not knowing exactly what it was that I should be called upon to give an opinion upon. I only read the Bill through generally. Upon reading the Bill, I find it is limited in its operation to persons being owners of estates for life or estates in fee-simple. An estate for life, of course, is a freehold estate. In thinking that it perhaps might have some relation to the Crown Lands Act, I did consider whether it had any effect on that Act, or, on the other hand, whether the Crown Lands Act would affect the two estates which are provided for in the first clause, and I came to the conclusion that this is a provision for estates outside the operation of the Crown Lands Act, for this reason, that no one can get an estate for life in a conditional purchase, nor does anyone have an estate in fee in a conditional purchase, until the whole amount of the purchase money is paid to the Government and the grant is issued to the conditional purchaser or his representatives; and when that estate in fee-simple is finally created by such grant, the owner of that estate may thereout create an estate for life in favour of somebody else. Therefore, in my opinion, the Crown Lands Act has no operation upon these two particular estates until the issue of that deed of grant. When that deed of grant is issued, or when any person having at the present time an estate for life or in fee is provided for, then if this Bill comes into operation it takes effect by virtue of such title and not by virtue of any provision in the Crown Lands Act.

2. I understand from your evidence, then, that you hold that this law is one to be applied to freehold estates only? Yes.

3. And that being so, it cannot conflict in any way with the Crown Lands Act which applies to conditional purchases, conditional leases, homestead leases, and holdings of that kind? Yes.

4. Therefore, so far as that point is concerned, we may take it that there can be no conflict with the Crown Lands Act? In my opinion there will be no conflict with regard to the Crown Lands Act.

5. Are there any means by which this law could be applied to conditional purchases or conditional leases under the Crown Lands Act? That, I think, could only take place by an amendment of the Crown Lands Act itself. I think so. I think it would necessitate an amending Act grafted upon the Crown Lands Act. Of course, I should not like to give an off-hand opinion as to what effect the whole operation the

G.  
Colquhoun,  
Esq.  
5 April, 1894.

Crown Lands Act might have upon such a provision with regard to conditional purchases. The point would have to be very carefully considered.

6. *Mr. Donald.*] An amendment was agreed to in the Assembly including within the operation of the Bill conditional purchases and conditional leases used as homesteads, but reserving to the Crown the right to recover any money that may be due upon them, subject, in fact, to all the conditions of the Crown Lands Act. If an amendment of that kind were inserted in the Bill do you think it would be out of order? That would be more a question for the Speaker.

7. *Mr. McCourt.*] What Mr. Donald means is this: Could not this clause be amended so as to include conditional purchases without interfering with the Crown Lands Act, in this way—to insert after the word “fee” the words “a conditional purchase or a conditional lease subject to all the conditions of the Crown Lands Act being fulfilled.” If the words “subject to all the conditions of the Crown Lands Act being fulfilled” were inserted, would not the clause cover conditional purchases and in no way interfere with the working of the Crown Lands Act. You know that a conditional purchase is looked upon as a man’s freehold subject to compliance with the conditions? It is a conditional estate in fee-simple.

8. Do you think the first clause could be amended in the way I suggest without in any way interfering with the provisions of the Crown Lands Act. The operation of the clause would then be subject to the carrying out of those conditions; if they were not carried out the homestead could not be registered? I should have thought that the proper mode, as far as regards the Crown Lands Act, would have been to have done it by way of amendment of the Crown Lands Act. That would be my own impression; but with all the reservations which are mentioned, taking care to adhere to the reservations contained in the Crown Lands Act and to maintain the rights of the Government under that Act, I do not see, at the present moment, how the insertion of those words would cause any conflict between the working of this Bill and the working of the Crown Lands Act.

9. Provided that the provisions of the Crown Lands Act were safeguarded? Yes; though I consider the preferable mode would have been to amend the Crown Lands Act.

10. You know that a conditional purchase, even in their earliest stages, before the five years residence has been put in, is looked upon as a man’s freehold? Yes; it is looked upon as a *quasi* freehold, and regarded by the public as such.

11. And you know there are very large numbers of conditional purchases in this country? Great numbers.

12. And if they were excluded from its operation the Bill would only partially meet what it is intended to meet in regard to the protection of homesteads? Undoubtedly.

13. You think that such a provision as I have indicated, including conditional purchases and preserving the whole of the reservations under the Crown Lands Act, could be made without interfering with the working of the Crown Lands Act, and that it would enlarge the scope of the Bill? It would clearly enlarge the scope of the Bill, and, in my opinion, it would carry out the object of the Bill to a greater extent, whereas the exclusion of conditional purchases would limit the operations of the Bill.

14. And only make it a partial Bill? Yes.

15. *Chairman.*] Do you think it is possible for this Bill to embody a provision by which only the £400 will be secured. For example, a man’s estate might be of the value of £4,000. It would be unfair to his creditors to secure the whole lot if the homestead were worth £4,000. The intention of the Bill is to secure only a homestead worth £400; but in the case of one worth £4,000 the Bill, I presume, is only intended to apply to the first £400? In regard to the question of valuation, I considered last night whether or not the applicant’s valuation alone would be sufficient, and it struck me, in view of the great protection proposed to be afforded by clause 4, that the declaration of the claimant as to value should be corroborated or substantiated by some independent evidence, and that without such corroboration a very large door might be opened to a fraudulent use of the Act.

16. *Mr. McCourt.*] One of the objections urged against the Bill is in regard to this £400. It is contended that a man may register his homestead to-day as worth only £400, but that as time goes on he may erect houses and other improvements upon it, making it worth, perhaps, £20,000, and by having that improved homestead protected thus defraud his creditors. I might have an allotment in the town worth to-day only £400, and I might apply the money of my creditors to building houses on that protected area, and thus defraud my creditors? I think that the protection when it is once given to this homestead area—validly given—will have the effect of protecting the owner of that homestead area in respect of all improvements he may thereafter erect upon it, and which may be attached to the freehold.

17. Could we insert a provision in the Bill preventing him from fraudulently improving his property by expending money in that direction when he was not in a solvent condition. The objection is that he might borrow money fraudulently from another man and spend it on this protected area. We want to make the Bill perfect, and we want to meet this objection by saying, “We will prevent him from expending money on that area unless he has honestly and fairly come by that money?” That can be met by saying that the homestead area shall not be protected to any greater extent than the value of £400, and the insertion of a proviso in some proper part of the Bill to that effect.

18. *Mr. Donald.*] Did you read subsection 2, of clause 3. It is there provided that the homestead must be a *bonâ fide* residence? The subsection says—

If at any time after registration the applicant and his wife or husband (as the case may be) and their family cease, for a continuous period of three months, to occupy the homestead as his or their *bonâ fide* residence, the registration shall thereupon be void, and the homestead shall be taken out of the protection of this Act.

If they abandoned it for three months—absolutely abandoned it as their residence—then good-bye to the protection of this Act.

19. With regard to clause 4—do you think it would be an amendment upon any Act in connection with deeds or wills? The probable operation of clause 5 puzzled me considerably, for this reason: You take away from the owner of the homestead right the power to make any provision by deed or will, because you go on to say that on the death of that registered owner the homestead shall “go and descend to the persons who would be entitled, and as if the registered owner had died intestate.” It appears to me to be contradictory, in the first instance, to the general principle well known in English law, that a man can do as he likes with his own—that he might give it away to two children out of the lot. That is the first objection. Then the clause takes away any right he has to dispose of this homestead right by will, but it lets in the right to deal with it by an administrator, as in the case of intestacy. That dealing with it by an administrator in the case of intestacy would enable the administrator to make an application to the

Court

Court for an order to sell this property that comes to him as administrator, and which the Court under the Probate Act would grant. The clause does not provide how the estate is to be dealt with when there is this intestacy, and, therefore, it must go in the ordinary way in the case of an administration of an intestate estate.

G.  
Colquhoun,  
Esq.  
5 April, 1894.

20. Then you think as this clause stands at present it will not secure the estate to the use of the widow and children until the latter come of age? Certainly not.

21. That is the intention of the Bill? If that is the intention, I think the Bill ought to be altered specifically in that respect.

22. *Chairman.*] The Homestead Protection law of Illinois distinctly provides that it may apply to freehold or lease. The words are "land and buildings thereon owned or rightly possessed, by lease or otherwise, and occupied by him or her as a residence." I presume that this law would apply also to leaseholds in New South Wales? No, not as it stands at the present moment. A leasehold is not an estate for life.

23. Then it will require very material alteration there? Yes; if it is desired to apply it to leaseholds the word "leaseholds" must be mentioned.

24. The Homestead Protection law of Illinois also provides, "In case of a divorce the Court granting the divorce may dispose of the homestead estate according to the equities of the case." I presume that that ought also to be provided for here? In America there must be some law which gives the Divorce Court power to deal with estates, but in this country there is no such power.

Mr. George Miller called in, sworn, and examined:—

25. *Chairman.*] What are you? General Manager of the Bank of New South Wales.

Mr. G. Miller.  
5 April, 1894.

26. The object of the Bill before this Committee is to protect a homestead up to the extent of £400. The evidence we should like from you is whether that would militate materially against men receiving advances on their property. Suppose, for example, a freehold farmer had a property worth £1,000 or £2,000, and he wanted an advance, would the fact that the first £400 of that was secured against seizure or sale militate against that man being able to borrow money to carry on his operations? In my opinion, he would not be able to borrow to anything like the extent he would be able to do if the house were included in the property.

27. Will you give us a reason for that? Most investors like the premises attached, and all the property to be compact, and to have the security on the premises. That is my experience.

28. This property, you observe, would only be secured up to the value of £400. Say the property was worth £2,000, as many of these selections are? But the inconvenience of the matter comes in. Where you are working an area of land, it is much more convenient to have the residence attached to the holding. A buyer would prefer that.

29. For the mere purpose of working the estate it would be much more convenient for him to have the residence and outbuildings attached than to be without them? Yes.

30. And you think that fact would militate against advances? I am afraid the owner would find it a great inconvenience if he wished to go into the market to borrow.

31. So that it would not be a loan of £400 that would be taken into account, but also that the property would be to a certain extent depreciated? The property secured would not be complete.

32. You are aware that these homestead protection laws prevail in Canada and Illinois, and other American States? I am not aware of that.

33. We have the statutes of Canada and the statutes of Illinois here which show clearly that they do, and they appear to be worked there to the satisfaction of the people, and I suppose also to the satisfaction of the financial institutions. Is it not possible that some proper understanding may be arrived at by which the same law could be worked here? I am afraid that it would be an impediment to the borrower.

34. You think that the habits and associations of the people here might be different to those in America? I think so.

35. *Mr. Donald.*] Second mortgages are given on property, are they not? Occasionally.

36. Where a person or an institution advances money on a second mortgage his claim comes after that of the person who advanced on the first mortgage? Yes.

37. If a property were worth £1,000, and £400 was secured to the owner, would a Bank have any hesitation in advancing money up to what they considered was a certain proportion of the value of the rest of the security? Do you mean would the Bank take a second mortgage?

38. It would not be a second mortgage; the owner would be secured to the extent of £400, whatever the property might be worth above that amount. Would the Bank advance him money on the rest of the value? There is no doubt the advance would be much smaller on account of the buildings not being included.

39. But the buildings must be included unless the property can be divided. This provides for the homestead? But they cannot mortgage that under this Bill.

40. The house itself may be worth £1,000, but we only want to secure it to the owner to the extent of £400? I can only repeat the first reply I gave—that in my opinion it would militate against anything like a reasonable advance being obtained on such properties.

41. But in the case of small holdings, where the house would not be worth over £400, no advance would be made at all? I do not say that, but it would be a much smaller advance.

42. Do you think it would be better for the holders of small properties if they were not able to borrow on the property, for the purpose of securing the property for themselves and their family? I think on the whole they would be working on better lines if they did not require to borrow.

43. Do you think that when once a man has a home secured for himself and his family it is a good thing that his borrowing powers so far as that property is concerned should be restricted? Decidedly, better for himself.

44. And for the family? And the family.

45. *Mr. McCourt.*] The objection to the Bill in regard to security for advances to which you have referred would only apply to the owner of the property, nobody else would be injured? No.

46. The owner when registering the homestead would know that he would depreciate his borrowing powers in respect to the rest of his property? Yes, he should realise that.

47. Therefore no one else would be injured in any way; and if the house or land was fairly worth (say) £1,000,

Mr. G. Miller. £1,000, he would be able to get the ordinary percentage of a loan upon that just as if his homestead was not registered, suppose it was worth £1,000? Yes, but it would be worth much less in my opinion; his borrowing powers would be considerably lessened.

5 April, 1894.

48. But he would know that when he registered? Yes.

49. Supposing a man had a property and he registered the homestead, and suppose the portion outside the homestead would bring £1,000 in the market, would he not be able to get the ordinary percentage of a loan upon that, without reference to his homestead, supposing it was worth £1,000? I do not think he would get quite such a percentage as he otherwise would. I think lenders would have it in their minds that it would be a great hindrance to have another occupier.

50. You have read the Bill? Yes.

51. Do you think it would open up another avenue by which a man could defraud his creditors? I do.

52. Do you not think the Bill could be safeguarded in that respect? It would require to be in my opinion.

53. Do you not think it could be? I think it possible.

54. Is it not a fact that at the present time a man can make his property over to his wife and defraud his creditors. That is the law now, is it not? If a man is determined to defraud his creditors he can pretty well achieve his object under any law.

55. Therefore this Bill would not help him very much? No.

Mr. John Leo Watkins called in, sworn, and examined:—

Mr. J. L.

Watkins.

5 April, 1894.

56. *Chairman.*] What position do you occupy? I am senior Parliamentary draftsman.

57. I understand you drafted the Homestead Protection Bill? Yes.

58. Certain objections have been raised in the Legislative Assembly against the Bill and we are here to inquire into the matter to see if we can devise other clauses and provisions to meet the objections. One objection amongst others was that the Bill conflicts with the Land Act, but we have since had the opinion of the Crown Solicitor that it does not. An objection has also been raised that a man by giving a false valuation of his property might really have within his homestead right £4,000 instead of £400, and there are numerous other objections to which we shall refer as we proceed. First, I should like to ask you if you are acquainted with the homestead protection laws of Canada and the State of Illinois? Mr. Donald gave me a copy of the Canadian Act which was the basis of this Bill. That is the only Act that I knew of.

59. The homestead protection law of Illinois applies to "land and buildings owned or rightly possessed, by lease or otherwise, and occupied by him or her as a residence." We desire to know if you could make this Bill apply to leaseholds as well as freeholds? I do not see any insuperable objection to its being applied to leaseholds. Of course it would only be applied to the extent of the interest of the lessee. The right of the landlord to distrain for rent and to enter into possession in default of the payment of rent would have to be preserved. In other words the protection must only apply to the interest of the lessee.

60. That being so, it is quite possible to make this law apply to conditional purchases, conditional leases, homestead leases, and other leases under the Land Act? I should say so, subject to an examination of the provisions of the Land Acts. I should not like to say so absolutely without first looking at the Land Acts.

61. *Mr. McCourt.*] But it would be possible, subject to the fulfilment of the conditions of the lease? Yes, preserving the right of the lessor, which in that case would be the Government.

62. *Chairman.*] Provided the lessee complied with all the conditions of the Land Act, it would be quite possible to apply this homestead protection law to him? I think so.

63. *Mr. McCourt.*] One of the objections to the Bill, in its present shape, is that it would afford an avenue for a man by which he could defraud his creditors. Do you think any amendment, which you could frame would obviate that objection? Of course the object of the Bill is to protect certain land against creditors. Where a man had a safe asylum like that to which he could retire, he would be encouraged by that fact to enter upon speculations.

64. But that would be only incidentally? An incidental consequence.

65. What I mean is this: An objection has been raised that a man might register his homestead, consisting of say a small house and an acre of land in the town worth at the present time only £400. As time went on he might borrow money from people outside and expend that money upon buildings on the land, and the land being protected under this law his creditors would be defrauded. Could you not frame an amendment to safeguard the operation of the Bill in that respect? I should think the machinery for effectively enforcing that would be rather cumbersome. I cannot think of any machinery at present except that of a periodical valuation.

66. Will you think the matter over and endeavour to frame an amendment to minimise that objection? Yes.

67. You know the object of the Bill is to insure a home for a man's wife and children? Yes.

68. Do you think the Bill, as framed by you, would thoroughly and honestly carry out that object? I do not think the Bill is by any means complete. It is a very difficult subject and would require a long time to frame a satisfactory measure.

69. You had not sufficient time? No; the subject is not thoroughly gone into. It is a tentative measure rather.

70. But you could frame a Bill to carry out that object—that is to say, to insure a homestead worth £400 to a man's wife and family against his creditors? You can carry out anything by Act of Parliament. It would be a difficult task to do it. I do not say it could not be done.

71. *Mr. Donald.*] In regard to improvements placed on the land in the shape of houses, do you not consider subsection 2 of clause 3 is a sufficient safeguard? No; that does not prevent a man from improving his house to any extent—putting all his money in the house and taking it out of his business.

72. Do you think a clause could be inserted providing that in case the homestead should become of greater value than £400 it might be sold by the creditors, if it could be divided, and the sum of £400 secured to the man and his family? That could be done. It would be necessary to recast subsections (b) and (c) of clause 4, and to provide that the homestead could be seized under a writ of execution, or would vest in an assignee in Bankruptcy, subject to the setting apart of a sum of not more than £400 for the benefit of the man and his wife and family. The provision would require redrafting, that is all.

TUESDAY,

TUESDAY, 10 APRIL, 1894.

Present:—

MR. G. D. CLARK,

MR. DONALD,

MR. TRAILL.

E. W. O'SULLIVAN, ESQ., IN THE CHAIR.

George Colquhoun, Esq., recalled and further examined:—

73. *Chairman.*] Since the last meeting of the Committee you have had more time to consider this measure, and I understand that you have made a comparison between the Bill and the Canadian and Illinois laws bearing on the same subject. Will you now give us the benefit of your inquiries? I have looked at the Canadian and Illinois Acts generally, but to make an analysis of the difference between those Acts and this Bill would have taken far more time than I was able to give to the task, considering the new duties upon which I have just entered. I find there is a difference in some respects with regard to the mode of distributing the property after the death of the owner. Clause 5 of the Bill provides that upon the death of the registered owner the property shall be considered as under an intestacy generally, whether there is a will or not. In the Canadian Act it is provided that if the husband dies intestate "his widow may retain either her life estate in the homestead, or the share of her husband's property which descends to her by the law of the territories relating thereto, but not both." In the event of the husband dying testate, "his widow may take that share of her husband's estate to which she is entitled by descent, or the property devised to her, or her life estate in the homestead, but not more than one of them." It is then provided that if she elects to take by descent or by devise she shall notify the registrar in the form prescribed by the Act. Under the Bill as proposed, if the case were treated as one of intestacy, the property would have to be divided according to the terms of our Probate Acts. Under the 26th Vic. No. 20 all real estate is treated as falling upon the personal representatives, and is to be divided amongst the personal representatives, instead of going to the heir-at-law. It is the same as if it were personal property, except that the widow is not entitled to a greater interest than her right of dower, nor a husband to a greater interest than his right as tenant with courtesy—that is, in the event of there being issue capable of inheriting.

G.  
Colquhoun,  
Esq.  
10 April, 1894.

74. Do you think it possible to adapt this Bill so as to meet circumstances like those provided for in the Canadian Act? I think this Bill would have to be altered considerably if you were to adopt the Canadian idea. I think it would alter the framework of this Bill very much.

75. What are the other points of difference? With reference to the question of dividing the property where there is intestacy, very considerable difficulty might arise in this way. We will assume that a man has a homestead protected to the extent of £400, and that it is in nice working order. He dies and leaves no widow, but two or three small children. The administration would be granted as a rule to the next of kin of full age—of course the children could not take out administration—and then some difficulty might arise as to that administrator carrying on the farm for the benefit of the children. He would be carrying on a trade or business, and would become personally liable for all obligations he undertook in connection with that trade or business. So that if it were intended—and such would be the legal operation of the Bill—that the farm or other business should continue until the children came of age, and were able to receive their respective shares, and give a proper discharge to the administrator, then during the whole of that period there would be considerable difficulty and risk on the part of the administrator.

76. What amendment would you suggest to meet that difficulty? I can hardly tell how that would be met. At the present time—take, for instance, a conditional purchase—where a person dies intestate administration is taken out, and a certificate is then given that that administrator is entitled to hold the conditional purchase. If it is found necessary for the benefit of the family to sell the property application is made to the Court, and an order for the sale is granted. The property is then sold and divided by the administrator in due course of administration, which would mean, if the administrator did his duty properly, that he would invest the shares of those who were minors, and appropriate the income arising therefrom towards the education of the children, or something of that kind, giving them their proportion of capital when they came of age.

77. The laws of Canada being practically the same as our own, could we not abandon this clause and adopt the section in the Canadian Act? I think, as I said just now, that to introduce some of the Canadian provisions into this Bill might necessitate the re-modelling of the Bill; because, as far as my experience goes, it is a very awkward thing to dove-tail one particular section out of an Act based upon certain principles into another Act based upon somewhat similar principles, but differently conceived in its operation. So that if it should be desired to make this Bill more in accordance with the Canadian Act, it would have to be carefully considered by the gentleman who drafted it.

78. Are there any points in connection with the law of the state of Illinois that you would recommend to the Committee? No; I do not think there is any very great difference. I thought a good deal over section 5 of the Illinois Act, which says—

In the case of a divorce the Court granting the divorce may dispose of the estate according to the equities of the case. In view of the intention in this Bill to preserve to the registered owner, whether such owner be a man or a woman, a certain free interest in the property, I am inclined to think that the same protection should be given in the case of divorce that would be given, say, in the case of an intestacy. I do not mean to say exactly the same, but that some provision of that kind might be made, otherwise you might have a wife turned away completely and all her children interfered with on the ground of divorce. That is the reason, I suppose, for the provision in the Illinois Act, where the question is left to the Court. I think some provision of that kind might fairly be introduced into this Bill, as our divorce laws do not touch the question.

79. *Mr. Donald.*] Do you not think the difficulty in connection with an estate descending to children who are minors would be met by clause 6 of the Bill which provides that with the approval of a Police or Stipendiary Magistrate, or two Justices, the registration may be cancelled. The clause is as follows:—

(1) A registered owner may, with the consent in writing of his wife or husband in the form of Schedule C, and, when he has children living, with the approval in writing of a Police or Stipendiary Magistrate or two Justices in the form of Schedule D, but not otherwise, apply to cancel the registration of a homestead by lodging with the land agent a document in the form of Schedule B.

Undoubtedly.

G.  
Colquhoun,  
Esq.  
10 April, 1894.

Undoubtedly. If the registration were cancelled in accordance with the form prescribed the estate would not be tied up, but otherwise it would go in the ordinary course of administration.

80. Under clause 6, if the father and mother were both dead, it would be for a Police or Stipendiary Magistrate to decide whether the estate should be carried on for the benefit of the children, or whether it should be realised and vested in trustees? No; I do not think he would have the slightest voice in deciding whether or not the estate should be carried on. The clause only gives him power upon application to give consent to the registration being withdrawn.

81. Before he would give consent to the estate being withdrawn from registration, he would have to decide whether or not it could be properly carried on? Certainly, in his own mind; but assuming that the Police or Stipendiary Magistrate gives his consent to the cancellation of the registration, in what position is the estate? It is in the hands of the administrator, who will deal with it entirely outside of the provisions of this Bill.

82. He may deal with it according to other Acts? Yes.

83. *Mr. Traill.*] Reverting to the question of divorce, I will put into your hands a summary of the American Statute Law, and ask you whether a clause to this effect would do what you are suggesting—

The Court in rendering decree may assign the homestead to the innocent party, either absolutely or for a limited period, according to the facts of the case, and in consonance with the law of homesteads. If the wife obtained the divorce for fault of the husband, the homestead is decreed to her and the minor children as if he were dead.

That is a sample of the laws in the United States on this subject, and is quoted from the law of the Dakota State? That quotation says "according to the facts of the case, and in consonance with the law of homesteads"; so that in Dakota the Judge would be governed in dealing with the application in divorce by what was the law of homesteads. It does not appear to be a general power enabling the Judge to do as he likes, but he has to be governed by the law of homesteads in the particular State.

84. In assigning the property the Judge cannot get away from the fact that it is still a homestead? Quite so; but in Illinois they seem to leave the matter to the discretion of the Judge altogether, for the Act says that he may dispose of the homestead estate "according to the equities of the case."

85. The Dakota law is more strict in the direction of preserving the homestead? Yes; I think the provision in the Californian Act is the better one.

86. If the Illinois system were adopted, would it not be possible for the Court to allot the value of the homestead to the lawyers of the respective parties? I do not know that they would have any equities in the case.

87. Here are certain claims set up by lawyers conducting a divorce case. Under that very general wording in the Illinois statute, it would be possible for the Court to say, "Here are equities set up. These persons have claims against both parties interested in the homestead." Would it not be possible then to allot the value of the homestead to them, and direct that it should be disposed of? It is a very broad power, no doubt. The Californian law is to this effect—

If a homestead has been selected from the community property, it may be assigned to the innocent party either absolutely or for a limited period, or it may be divided or sold, and the proceeds divided; if it has been selected from the separate property of either, it will be assigned to the former owner of such property, subject to the power of the Court to assign it for a limited period to the innocent party.

There seems to me to be a little more finality about that than in the case of the Illinois law.

88. *Chairman.*] Have you any other observations to make? Clause 8 of the Bill—the Interpretation clause—says:—

"Document of title" includes a certificate of title under the Real Property Act, and the deposit receipt of a land agent under any Act regulating the alienation of Crown lands.

One of these homesteads may be taken out of a large freehold property held under the old law, and not under the Real Property Act, and to which the document of title here referred to would not apply.

89. Which old law? Suppose a man has a freehold property of 400 acres which he has never brought under the Real Property Act, that would not be covered by the definition here given of "Document of title."

90. *Mr. Donald.*] Would it meet the difficulty if the words "Title deeds of the property" were inserted after the word "includes"? Yes.

91. *Mr. Traill.*] This being a definition, and seeing that "Document of title" includes certain things, would that necessarily exclude anything else? Yes; upon the old principle which applies very well here—*expressio unius exclusio est alterius*—the mention of one thing is the exclusion of another. Then, with regard to the definition of the word "homestead," I think that what is meant is that the protected property should be a property in one block, and I should be inclined to suggest that the words "in one block" should be inserted after the words "with it," so that the clause would read "Homestead means a place of residence, and the land occupied with it in one block, not exceeding 100 acres."

92. Would not the "land occupied with it" mean in one block—a homestead cannot be in two pieces? I think it would be better to insert the words to prevent any doubt upon the point.

93. *Chairman.*] With reference to the definition of the words "land agent," would that, in your opinion, imply that the land agent was to be under the Land Acts of the country? I think myself that the definition of a land agent under the Bill should be limited to a proper, recognised, and authorised land agent under the Crown Lands Act. I do not think it should be permitted to introduce the very general meaning of a gentleman who follows the occupation of a land agent.

94. *Mr. Donald.*] The intention is that it shall mean a land agent under the control of the Secretary for Lands? Yes; appointed under the Crown Lands Act.

95. *Chairman.*] In your opinion, would the provision in the Bill in reference to a land agent conflict with the Crown Lands Act? No; but the Bill would impose further duties upon the land agent under the Crown Lands Act. He would be called upon to perform duties for purposes not under the control of the Land Act. For instance, I referred just now to a property of 400 acres held under the old system, before the Real Property Act came into operation, and before conditional purchases came into existence. We do not have any land agent interfering with us with respect to all that. Take an old grant of 1,000 acres made fifty years ago—no land agent has any control over that. Therefore, if you were to carve a homestead out of that property of 1,000 acres, and bring it within the provisions of this Bill, you would be extending the duties of the land agent under the Crown Lands Act, by imposing upon him something which the Crown Lands Act never contemplated.

## ON THE HOMESTEAD PROTECTION BILL.

96. Had we not better have a distinct provision in this Bill creating him a land agent under this law as well as under the Crown Lands Act? I think it would be quite right that the registration intended to be provided by this Bill should be committed to the care and control of a land agent under the Crown Lands Act, and I think it should be specifically stated here that the Crown lands agents should be the parties to have control of the matter. I should be inclined to emphasise that principle by introducing a special clause to that effect, and then defining what the land agent is.

97. By doing that should we be amending the Land Act? As to whether it would be within the order of leave would be a question for the Speaker.

98. But is there not a remote possibility that such a provision would conflict with the Land Act? I do not think so. You are going to introduce an amendment applying the provisions of the Bill to conditional leases. I do not think this would be an amendment of the Land Act. It would only be imposing an additional duty upon the land agent.

99. *Mr. Donald.*] Which may be done by regulation? Yes. Additional duties are frequently imposed upon clerks of petty sessions under different Acts which were never contemplated when the Act first authorised the appointment of clerks of petty sessions. I do not think the provision indicated would be an amendment of the Land Act. It does not touch it in principle in any way.

100. *Chairman.*] Is there any other point you desire to lay before the Committee? No; I do not know that there is. I looked at these words "alienated or charged" and I underscored them; but I do not know that it is necessary for me to say anything on that point.

101. Then, with the adoption of the recommendations you have made to-day, and those you made when you were here last week, you think the Bill can be made a workable measure, and can be worked in conjunction with the existing laws of the country? I think this Bill can be made a workable measure, and my own opinion is that a Bill of this kind, embodying the principle that it does, is a valuable measure, inasmuch as it may tend to settle a class of people upon our lands who will be of immense advantage to this country. That is my impression.

102. *Mr. Traill.*] Would there be any difficulty in so altering this Bill as to include, under the exemption granted by it, the appurtenances of the homestead—appurtenances necessary for the working of the homestead, whether they be domestic or agricultural? The word "appurtenances" has a big meaning with regard to real property. Do you mean such part of the personal estate of the registered homestead proprietor as may be necessary for the due working of the property?

103. That is what I mean—chattel property. Would your remarks just made as to the beneficial operation of a Bill of this character cover such an amendment as would include (say) working stock. I will put it in this way:—A man in the country has, say, 50 or 100 acres of less value than £400; that land if it is swept clear of his carts, his horses, his cows, and his other appliances is absolutely valueless to him, and he would only starve upon it? It was that idea that led me to look at the words "alienated or charged," and in looking over those three words I noticed that they would have application only to the homestead proper, and that there was nothing in the Bill to prevent any registered owner from mortgaging his crops under the Liens on Crops Act, or from obtaining an advance upon his cattle, his horses, his cows, his ploughs, his drays, or any other of his farming implements. All those things could be taken in execution, because the protection under this Bill would not apply to them.

104. As far as it goes it does not apply to them? No.

105. *Chairman.*] Have you noticed in reading over the Canadian and Illinois statutes that they make provision for these appurtenances? I do not see that they do.

106. *Mr. Traill.*] The introduction of a provision of that kind would in no way vitiate the working of such a Bill as this or create any further difficulties;—it is just as competent and as reasonably possible to protect the work and appurtenances on a homestead as it is to protect the actual landed estate? Yes. Of course it would open, as far as personal property is concerned, a considerable amount of difficulty as to the identity of the articles and matters of that kind.

107. *Mr. Donald.*] Is it your opinion, as a legal gentleman of considerable experience, that it would be better for the holders of small properties if they could not alienate or charge their properties? I think it would be a good thing that they should be prevented from alienating or charging the homestead proper, but I do not think that they should be restricted from doing what they like with the working implements, otherwise the working of the homestead might be stopped altogether, whereas a little timely aid might help them to get over difficulties of drought, or floods, or things of that kind. The homestead proper, I think, should be preserved.

George W. Bell, Esq., called in, and examined upon his affirmation:—

108. *Chairman.*] What position do you occupy? I am the United States Consul in Sydney.

109. I believe that you are also by profession a lawyer? I was a lawyer by profession, but I quitted the practice over fourteen years ago. I am now a literary man by profession.

110. Your experience, both as a lawyer and a literary man, has no doubt given you many opportunities of watching what are called the Homestead Protection Laws in the various States of the American Union? We call them "Exemption" laws in all our States. Yes, I have had much experience throughout the States, and have some knowledge of the laws of most of the States on that subject. I think I am a member of the Bar of six States.

111. We should like the benefit of your opinion with regard to the operation of these laws, and as to any imperfections that may have come under your notice? They are very varied in our States. I think none of them are perfect, or approach perfection; but I think they are all beneficial. We have homestead exemption laws in thirty-nine of our forty-four States. Five States have no exemption laws. These laws vary very much in the different States. One of our greatest States—Pennsylvania—has an exemption of but 300 dollars worth; while the States of California, Texas, Arizona, and Colorado have exemptions as high as 5,000 dollars, or £1,000. In some of the States the homestead has to be registered, or recorded, as it is termed there, before it is exempt. In other States they cannot even waive the homestead short of absolute alienation, *i.e.*, the husband cannot mortgage away the homestead right from his family. In nearly all of the States, in addition to a real estate exemption, there are personal property exemptions, which go as high in some States as 1,000 dollars. In several of our agricultural States sufficient stock or appliances are also exempt. In some of the States it is not necessary for the homestead to be recorded; the owner can claim at the very last moment, and I think in a few of our States unless it is claimed it is  
not

G.  
Colquhoun,  
Esq.  
10 April, 1894.

G. W. Bell,  
Esq.  
10 April, 1894.

G. W. Bell, Esq.  
10 April, 1894.

not exempt; there must be a demand made. In other States the homestead has to be recorded, and such record is notice to the world of the fact. But in some of the States—and if my memory serves me right it is the case in Illinois—if a man owned 40 acres of land; and it was known that he needed for the cultivation of that land two horses, a plough, and a waggon, those things would be exempt, because it would be considered that without them he would be unable to support his family. If he has no real estate, and depends upon those things for his living, they are exempt. The lawyer's library is exempt, the woman's sewing machine is exempt, the carpenter's tools are exempt, and, I think, regardless of cost, unless it would be an unreasonable amount, and that would be a matter of evidence before a Judge. In Illinois—at any rate, many years ago, when I was practising there—the homesteads had to be recorded, the exemption being to the extent of 1,000 dollars in value, regardless of area. In Iowa I have a friend who held for many years a homestead worth more than 50,000 dollars, and in Iowa the exemption is 40 acres, regardless of value, so that the exemption laws vary very much in the different States. I think in some of our States they go as high as 400 acres in area.

112. *Mr. Traill.*] The matter, I presume, is generally of such popular acceptability in the United States—of such universal practice—that it is a matter of common knowledge to any intelligent, educated citizen of a State? Yes; to any educated person in the locality in which he lives. A few years ago I was a member of a Committee which had to draft a platform, and we had a very extensive discussion on the subject. I think I wrote an article or two with regard to it, and that investigation gave me a little broader knowledge than I would otherwise have of the law in the different States.

113. The knowledge of the law, I presume, is sufficiently extended in any locality to prevent any possibility of fraud being perpetrated through this homestead business—that is to say, no man giving credit will be unaware that a homestead is likely to be or is absolutely protected by the laws of the State? The matter is of such common knowledge that almost every man must take cognisance of it. It is the same as in regard to the ownership of land—if it is on record that is notice to all the world, and every intelligent man is supposed to have knowledge of it. If you lived upon a 40-acre farm (say) in Illinois, a man, before giving you credit, would think how much the farm was worth, and whether or not it would sell for more than the exemption. And the same in the case of personal property. A man would consider whether you had more than would be exempt under the law. You could hear these questions discussed. A man would say, "Out of a certain property you can only recover so much." It is very rare that anyone is deceived about credit, or loses anything in consequence of this law. I think it is pretty well accepted now that it simply enables men to pay their debts and to make a living.

114. *Chairman.*] Lenders of money would thoroughly understand before making any advance that this exemption existed, and would only lend accordingly? Yes. We have a terrible lot of sharks in America, and we have a number of money-loaners who have been trying for years to evade all these laws; but by recent decisions, I think a good many of these homestead laws in the States are like our passes on the railroads. In our country a man taking a pass on a railroad is supposed to waive any claim for damages in case of accident, yet the courts have decided that if he meets with an accident, owing to the negligence of the employees of the railroad company, he can recover damages. And so with our homestead exemption; it is an acknowledged thing. Great efforts were made by money-lenders, and there was much agitation in the case of the earlier laws, but they failed in their opposition to them. In sixteen of our States the people have constitutional homestead exemptions.

115. Which court decides—the Federal court or the State court? In our States the Federal court only deals with cases involving the interests of the United States, or regarding laws of the United States. The matter is dealt with in the first instance by what we call our District court, and finally then by our Supreme court. The Federal court has nothing to do with it.

116. *Mr. Traill.*] Are you aware whether there are any States in which the exemption of homesteads is a fundamental law, and requires no registration at all? Yes. I think in sixteen States it is recognised by the constitution.

117. And the common knowledge of the fact would be just as much protection for lenders and tradespeople and others, as is the common knowledge here that a squattage may be mortgaged? Yes.

118. If a person here, for instance, were asked for a loan of money upon a squattage, the first step he would take would be to see whether there was a lien against it? Yes.

119. But in this case, where there is a fundamental right, he would know there was a protection over the property, and would not have to inquire at all? Yes.

120. It is possible that a fundamental law, making a homestead protected up to a certain figure without any record, might actually be a safer law for the protection of the public than the particular law? I would presume so. We have a great reverence for the constitution, the fundamental compact, and I think it will be found that most of the States that have constitutional exemptions are newer States, so that any constitutional amendment now of the exemption laws would require constitutional convention, and our States very rarely have constitutional conventions. Illinois has only had three. A question was referred to during the examination of the last witness with regard to the disposal of the property in the homestead, should the head of the home die or become divorced. I think in nearly all our States, if the parent should die, the property is exempt all the same, and goes to the heirs under the probate law. In case of divorce, the Judge in nearly all the States has absolute power to decide on the equities of the case, and usually it is the practice to give the home to the parent who has the custody of the children. I think that has now almost uniformly become the case. There is a difference, however, in those States where community property laws prevail. We have peculiar laws in some of our States in regard to community property. In my State of Washington, for instance, if you had 100,000 dollars, and married a woman to-morrow, the property would remain yours, and you could sell it without her being required to sign the deeds or anything of that kind. On the other hand, if she had property and you had not, that would not be your property. It is not regarded as "community property." If you acquire property the day after you are married, then within ninety days your wife must file her claim that it is "community property," and then she must sign a deed. There is some such law in California. The homestead is usually regarded as community property, and when the law is taken advantage of, when a homestead is recorded, it becomes community property whether it belongs to the husband or to the wife. That record makes it community property. But in several of our States property is not community property unless it is acquired during coverture.

121. *Chairman.*] You have been supplied with a copy of the Bill? I have read the Bill, and it struck me

me favourably. I should incline to recommend as an addition the exemption of all personal property necessary for carrying on the industry, and especially the necessities for an agricultural home. We regard that as very necessary in America. In nearly every State there is an exemption in the case of personal property, to enable people to earn a living.

G. W. Bell,  
Esq.  
10 April, 1894.

122. *Mr. Donald.*] In some of the States the exemption of personal property is provided for in another Act? Yes. We have personal property exemptions in the case of persons who never owned a home. In some of the States the home protected includes the necessities for carrying on the home. They are included in the Act. I think in Illinois they consist of a pair of horses, or a yoke of oxen—Illinois was one of the earliest States that adopted the homestead law—a cow, two pigs, six months' provisions, and the necessary wearing apparel for the family.

123. In your opinion would an Act of this sort be the means of settling people upon the land? In my opinion it would be the means of keeping them on the land when they were settled and enabling them to make an independent living.

124. *Mr. Traill.*] From your observation and experience in America, is it a fact that the people living under the operation of these laws appreciate them or depreciate them? I think they regard them as very wise. They keep extending them right along. There are only five of our States that do not have them in some form. There are a great many people who never give them a thought, because they never have occasion to make use of them.

125. Those are the people who neither appreciate them nor depreciate them? Yes; they comprise the large class who accept these laws as a matter of course, and neither like nor dislike them.

126. Do you think that a proposal to obliterate these laws from the Statute Book would raise opposition in the States? Such a proposal would not be listened to. I do not think any man could be induced to suggest such a thing before a legislative body. These laws are universally accepted, and have become part of our institutions, and part of the "common law" as it were.

127. *Chairman.*] Can you remember the five States that have not adopted these exemption laws? Connecticut, Rhode Island, Maryland, and Delaware are amongst them, but my recollection is somewhat indistinct as to the other. I remember making the point once in a written argument that there were five of the smaller and older States.

128. Small in size and with crowded communities? Yes; they are densely populated communities.

129. Do you think that fact has any bearing upon the absence of these laws in those older States? No; I think in most of those States fewer of the people own real estate, and reforms are more difficult. I do not know exactly why they have not had homestead laws, but it is a fact that the newer States have the most liberal exemptions, and are most liberal with the industrial classes. All the higher exemptions are in the Western States—the new States.

130. In the older States you have mentioned, is the land largely owned by few proprietors? They are old States, the people more conservative, and they contain a large manufacturing population.

131. Maryland originally was a proprietary estate? Yes.

132. Do you think that the fact that they are owned largely by a few proprietors has any bearing on the subject? No; I do not say that. Our older communities, as a rule, are less progressive; they adopt new ideas more slowly. Besides, a few men get so firm a control that they do not care to legislate for the others. In the newer States it is the active industrial classes who use the power through the ballot of legislation, and the legislation is for the class with whom the legislators are brought in contact. It is pretty hard to introduce a new law or any innovation in an old State, and especially in any of those which we regard as our "Puritan" States. On the other hand, there is less difficulty in the adoption of reforms in a new State settled by men from all parts. The smaller exemptions are in the old States. Pennsylvania, one of our great States, has an exemption, as before remarked, of only 300 dollars, while in the Western States the exemption is as high as 5,000 dollars. The classes who need these laws have not so much influence in legislation in those older States. I think I would be safe in asserting that the industrial classes have less influence in legislative affairs in the States where they have no exemption laws. In those States they regard these things as innovations.

133. We should like to hear any further remarks you would care to make on this subject? I do not feel competent to make suggestions, as I know so little about your laws, though I was educated in the common law of England, and have become much interested in your country.

134. Fundamentally, the laws of the United States are practically the same as those of Great Britain? Practically the same. We read the English laws in our courts, and follow English precedents. In most of our States, the constitution of the United States, the common law of England, the constitution of such State, the decisions of the Supreme Courts of the State, and the legislative enactments, are the "laws of the land."

135. *Mr. Traill.*] The common law of England, I suppose, antecedent to the Independence? No; we read your books to-day in our courts. One of our popular books on agencies was written by Evans, with whom I crossed the ocean not long ago. It has quite a circulation in America. All our States, I think, except that of Louisiana, where they have the French law, or the "Code Napoleon," have adopted the common law of England.

136. *Chairman.*] Though the courts of America are largely influenced by the British common law, you do not find any insuperable objections under the British common law to the working of this Homesteads Protection Law? No. I think the States that adhere most rigidly to the common law of England have as liberal exemption laws as the States which have what they call the Code practice. We adhere, in some of our States, to the practice of the common law. I was educated under the common law, but some of the States have substituted the Code practice, because it is less exacting and less rigid and more convenient in regard to pleadings. But we have not yet thrown away the common law of England.

137. Is there any other point to which you would like to refer? Some reference was made during the examination of the last witness to the duties to be performed by the land agent under this Bill, and I would like to point out that very often the duties of a particular office are enlarged as new conditions arise. This is the case in the United States of America. Where new duties are created we attach those duties to the particular department with which they are connected.

138. And that enlargement of the duties of an existing officer in no way vitiates or conflicts with the laws which that officer previously carried out? Not at all. It is simply made a part of his department, and enlarges his jurisdiction without in any way changing the character of his office. In America we

G. W. Bell, Esq.  
10 April, 1894.

have held the position that every step of progress necessitates a departure from the established rules. Whenever the sacredness of old institutions is pleaded we answer that "progress necessitates new departures," and in this way we have enlarged the powers of officers and created new duties without changing, vitiating, or in any degree weakening the law creating the office and defining its scope.

Mr. William Henry Capper called in, sworn, and examined:—

Mr. W. H. Capper.  
10 April, 1894.

139. *Chairman.*] What are you? Clerk in charge of the conditional sales division in the Department of Lands.

140. A copy of the Homestead Protection Bill was forwarded to the Under Secretary for Lands, and I presume you have had an opportunity of looking over it? The Bill has been read and considered by the Under Secretary, and he pointed out to me two matters to which he would have drawn the attention of the Committee had he been able to be present. In the first place, the limit of area mentioned is 400 acres. 141. No, the limit is £400 worth of property? With regard to certificates of title there is, of course, no certificate of title in connection with a conditional purchase or conditional lease in the ordinary sense. What the Department accepts as that term is a title under the Real Property Act.

142-3. It was suggested this morning by the Crown Solicitor that the words "title deeds to the property" should be included in the clause. Would that get over the objection? There are no deeds in connection with a conditional purchase till after balance of purchase money has been paid; there is, however, a certificate of conformity. But in the case of a conditional lease there is no document at all. There is a deposit receipt for the money paid upon lodgment of the application, and there is a certificate of confirmation, but there is no certificate as to the conditions having been fulfilled, but there is a certificate of conformity in the case of a conditional purchase.

144. *Mr. Traill.*] As this Bill stands at present, does it seem to you to create a title—an abiding title—in an uncertificated conditional lease which the land laws at present do not give; that is to say, a title against the Minister and all comers? I think not. In fact, I do not see how it can, because the Minister has the power of forfeiture for any breach of the law at any time under the Land Laws. This Bill, I take it, will only apply to land to which the holder can show a good title.

145. *Chairman.*] The operation of the Bill will be made subject to the conditions of the Land Act;—would not that get over the objection? Yes; if you made it subject to the land laws, I presume that it would.

146. Then, in that case, a conditional lease could be provided for as well as a conditional purchase? Yes. Of course, it is possible to prepare documents in regard to conditional leases which would probably satisfy any person or company who wished to advance money. At present the land laws provide for the transfer of the conditional purchase and the conditional lease combined—that is, it is impossible to transfer a conditional lease apart from a conditional purchase.

147. There are no conditional leases without conditional purchases? No; but although you can transfer conditional purchases apart, you cannot transfer any dependent conditional leases apart from its basal conditional purchase. A conditional lease attached to a certain conditional purchase must go with its basal conditional purchase, when it is transferred.

148. Would not a clause making the Bill subject to the provisions of the Land Act meet that point also? Yes; I presume that it would.

149. *Mr. Donald.*] In dealing with this Bill we have not to consider conditional leases apart from conditional purchases, because the homestead is not built on the conditional lease? A selector can build his homestead anywhere on the holding, because a conditional lease is capable of conversion into a conditional purchase at any time during its currency. I take it that a conditional purchaser would not build on his conditional lease unless he intended ultimately to convert it. If the Local Land Board finds a man resident on his conditional lease, it does not render the holding forfeitable.

150. Have you brought the information mentioned in the summons as to the number of selections transferred from the original holders to the Banks? No; the information referred to has never been compiled. But a return has been prepared for the year 1862. During that year there were 4,562 conditional purchases made, and at the present time 326 of those stand in the names of Banks. But a great number of the 4,562 conditional purchases have been declared forfeited, void, or lapsed, and a certain proportion, of course, has been converted into freeholds. The bald number of 326 only refers to conditional purchases which stand in the names of Banks, pure and simple. It has no reference whatever to other financial institutions or to individuals. The return, to my mind, is a very bald one, and conveys little information to the Committee in its present shape.

151. Is that the only return the Department can supply on this subject? A return could be prepared, but it would mean suspending the ordinary business of the branch for at least three days. To ascertain the number of conditional purchases made during the year 1862, and now standing in the name of the Banks, took one clerk two hours to prepare. The information for the whole period from the year 1862 up to the end of last year could be prepared, but to do so would dislocate the working of the office to a great extent, and it is a question whether you would feel justified in asking the Under Secretary to have it prepared.

152. The information you have given only refers to one year—1862? Yes.

153. That would be almost the first year after selection was introduced? Yes.

154. That would be of little use to us as a guide to show the enormous number of selections that have been transferred to the Banks? To prepare that information it would take three days during office hours, and that would be a very serious matter for the Department.

155. Three days for the whole of the conditional purchase staff? No; I refer to the conditional purchase branch, consisting of twelve clerks. If it was done by overtime, I daresay the cost would be over £30. There were 241,736 conditional purchases registered up to the end of last year—that is, from the 1st January, 1862, to the 31st December, 1893.

156. Can you give us anything like an approximation of the number of selections that have been transferred to Banks and other financial institutions? My impression is that the majority have been. That of course is only my opinion, without having had any return prepared.

157. Why has a record not been kept up to date? We have the record, but it changes every day. This return that I prepared on the 6th has probably been altered now, because last year we had over 8,000 transfers.

158. But are these facts never published in the yearly report of the Lands Department? Yes. In the report for last year there is a return with regard to the transfers, in which the following information is given:

W. H.  
Capper, Esq.  
10 April, 1894.

RETURN showing the number of transfers of conditional purchases received from 1st January to 31st December, 1893, and the number dealt with, inclusive of those on hand, during that period.

|  |              |
|--|--------------|
| Number of transfers received .....   | 8,300        |
| "    "    intimated to Treasury .....  | 8,324        |
| "    "    conditional purchases thereby transferred* .....   | 16,981       |
| "    "    "    actually transferred.....   | 12,581       |
| "    "    transfers upon which stamp duty was paid .....   | 2,893        |
| Amount of stamp duty paid thereon :  |              |
| Paid through Lands Department .....  | £4,204 9s. } |
| Paid prior to lodgment .....   | £935 16s. }  |
|  | £5,140 5s.   |
| Number of transfers registered in Registrar-General's Office .....   | 8,114        |
| "    "    in Registrar-General's Office awaiting registration.....   | 209          |
| "    "    Crown Solicitor's certificates received .....  | 411          |
| "    "    notices despatched informing parties, Crown Land Agents, and Chairmen of Local Land Boards of registration of transfers. | 12,010       |

\* Includes conditional purchases transferred more than once during the year.

This system of preparing annual reports was introduced in the year 1880.

159. The figures you have just read only refer to last year? Yes.

160. There always seems to be some obstacle to getting this information—I do not say from your Department, but from other Departments—the Government Statistician's Department, for instance, and that of the Registrar-General;—is there any reason for keeping back this information? None whatever. If you are prepared to say that the Department is justified in stopping the ordinary work of one branch for three days, or in authorising the expenditure of £30, so that the work might be done after office hours, the information can be furnished by next week.

161. Does your Department recognise mortgages? No; not in any way, and it has never done so.

162. Are you aware from experience that conditional purchases are transferred by way of mortgage? Yes, I am; because we get a great number of transfers, attached to which are declarations which disclose the fact that they are by way of mortgage. These declarations are attached for the information of the Stamps Commissioner, who exempts them from stamp duty.

163. In giving the statement you did just now as to the probable number of transfers to the Banks and other financial institutions, you were speaking merely as a matter of opinion? That is all; because, as I said before, statistics on the subject have not been prepared by the Department.

WEDNESDAY, 11 APRIL, 1894.

Present:—

MR. G. D. CLARK, | MR. DONALD,  
                          |  
                          | MR. TRAILL.

E. W. O'SULLIVAN, ESQ., IN THE CHAIR.

Mr. John Leo Watkins recalled and further examined:—

164. *Chairman.*] Since the last meeting of the Committee you have had an opportunity to consider the objections which have been raised to the clauses of this Bill? Yes.

Mr. J. L.  
Watkins.  
11 April, 1894.

165. Will you be so kind as to state the results of your consideration? The main objection which I think I heard was that it would enable people to commit frauds by taking their money out of their business and putting it in buildings and improvements on a homestead. Although a homestead is limited in extent to 100 acres, and the value at the time of registration is limited to £400, still a man upon 100 acres of good land may put on thousands of pounds worth of improvements, and under the Bill as it is drawn he could not be touched in respect of those improvements by his creditors either through execution on a judgment or by bankruptcy proceedings. The way in which I think that difficulty might be got over would be to leave the homesteads to be seized and sold under execution or under proceedings in bankruptcy, but to make it a condition precedent to any sale that the persons selling shall deposit £400 in court to the credit of the persons interested in the homestead, that money to be taken out by application of the registered owner to a judge in chambers and used in the purchase of another homestead to be registered under the Bill.

166. That homestead to be of the value of £400? It, of course, would be of the value of £400, because it would be purchased for that sum. I was also asked with reference to the extension of the Bill to leasehold interests. I do not see at present any insuperable objection to that being done, and I have prepared rough amendments which will indicate what changes will be necessary in the Bill as drafted. The question is a very difficult one to deal with. The Bill crosses so many Acts and principles, and involves such novelty in procedure, that the amendments before finally being submitted to the House should, I think, be most carefully considered. The provisions of the Bankruptcy Act, Crown Lands Acts, Acts dealing with execution on judgments, and perhaps some other Acts, will have to be considered, and the Bill framed so as to become a workable measure in view of the present state of the law.

167. Have you any other points to bring out? Those are the only points to which I directed my attention.

168. Will you give the Committee the benefit of your opinion as to the duration of the registration? I think that the most practical way would be to limit the duration of the registration to the life of the registered owner. That is not expressly provided for in the Bill. If that is adopted as a matter of policy I think it ought to clearly appear.

169. How would you provide for that? By adding to clause 1 this sub-clause:—"The registration shall lapse on the death of the registered owner."

170. Will you now proceed to state the amendments which you would suggest? The amendments I have drafted in sub-clause (1), of clause 1 provide for the registration of an estate in the homestead, and fix the maximum value as the value of the fee simple of the homestead. That is a matter of policy. I fix it here

for

Mr. J. L.  
Watkins.  
11 April, 1894.

for the sake of definiteness as the fee-simple of the homestead. If a man has a leasehold the fee of the property must not be worth more than £400. Sub-clause (II) is amended for the same purposes. I have drafted a new sub-clause (III). As I mentioned just now, clauses 2 and 3 are amended for the same purposes. Clause 4 I have re-drafted. Sub-clause (a) will stand as sub-clause (I), and will read as follows :—

A homestead, while registered under this Act, shall not be alienated or charged by the registered owner, or his wife or husband.

In the Bill I provide that an estate in a homestead shall be registered.

171. Will not that necessitate a change in the title of the Bill? No; I think the title covers that, because it is all subsidiary to the protection of homesteads. The Bill has passed the second reading. The new sub-clause (II) reads as follows :—

If a registered estate in a homestead be seized under a writ of execution or under any proceedings of a Court of law or equity, against the registered owner or his wife, or husband, or personal representative in respect of a debt or other liability incurred during the registration by the registered owner or his wife, or husband, the said estate shall not be sold unless the sum of £400 be first paid into the Supreme Court.

These sub-clauses were drawn without reference to any books, so that they will probably require some alteration. Sub-clause (III) reads as follows :—

If, during the registration of an estate, an order in Bankruptcy be made against the registered owner or his wife, or husband, the act of bankruptcy on which the order was made, having been committed during the registration aforesaid, the registered estate shall not be sold under any proceedings taken under the order in Bankruptcy unless the sum of £400 be first paid into the Supreme Court.

Sub-clause (IV) reads as follows :—

Moneys paid into Court under this section may be applied, with the approval of the Supreme Court, in the purchase of a homestead for the registered owner of the estate sold, or his wife or husband, to be registered under this Act. The approval of the Court may be granted by a Judge in Chambers on the application of the registered owner of the estate which has been sold, or his wife or husband; and the money may be paid out subject to such terms and conditions as to the judge may seem fit.

172. *Mr. G. D. Clark.*] Does not the use of the word "may" leave it an open matter? It leaves it optional to the Court. You never say that the Court shall do a thing. You presume that the Court will do the proper thing. It acts judicially. The remaining clauses contain simply consequential amendments. In clause 8 I have amended the interpretation of "document of title" so as to include "any lease from the Crown." The Schedules are amended by adding a description of the estate of the registered owner.

173. *Mr. Traill.*] Presuming that the interpretation of "document of title" were made to apply to leases, would the Bill, if passed, operate so as to create a holding title or claim against the Crown for improvements when there was no right of compensation for improvements attached to the land upon which such improvements were placed? In the first place an Act does not bind the Crown unless the Crown is mentioned. In the second place the Bill simply gives a limited protection to the owner of a homestead against sale under process of law. The right of the Crown to improvements depends upon a statute which is not touched by the Bill, and I do not see anything in the Bill to affect the right of the Crown to insist upon the forfeiture or to enforce any rights which are given to it by any other law.

174. *Mr. Donald.*] As regards registration for the life of the owner, have you considered what effect the alteration would have upon the family in the event of the creditors seizing the homestead upon the death of the owner? I have. Sub-clause (II) of clause 4, as drafted by me, provides against a sale under proceedings against the personal representative of the owner or his wife or husband in respect of debts incurred during the registration. That, I think, would protect the homestead from being seized in respect of debts incurred by the registered owner during his lifetime. I do not think that the protection can be carried any further.

175. Suppose that an owner is in debt before his estate is registered, the provisions of the proposed clause would allow his creditors to seize it immediately upon his death, and by so doing deprive the family of the homestead? Yes. I did not think it was the policy of the Bill to interfere with creditors existing before the registration. I did not think it was the policy of the Bill to enable a man by registration to prevent his creditors from recovering their debts. It only applies to creditors who have notice of the registration—to people who lend money to a registered owner, knowing of the registration. When a man dies his estate goes to his wife and children, who may be young or old, and if the children are grown up they may say, "We have a right to have this estate sold, and the proceeds divided amongst us." If the widow marries again we tie this thing up for eternity.

176. *Mr. G. D. Clark.*] You are aware that some of the Homestead Protection Acts provide for continuance? I have not refreshed my memory lately, but my recollection is that they do.

177. *Mr. Donald.*] Do you not think it would be in the interests of a man's family to secure the property during the life of his widow or the minority of his children? I do not think that a woman who has a homestead left to her should go into debt; in fact, by registration you prevent her from going into debt. But there is another view to be considered. Instead of the husband, the wife may register, and when she dies is the registration to be continued during the life of the husband and the minority of the children? I have not considered that point much. A practical difficulty, it seems to me, would be in whose name is the registration to be after the death of the registered owner. When a man dies and leaves a widow there must be a re-registration, or else nobody would know who is the registered owner. The creditors must know who are protected by the Bill. That is why I have made it necessary that the register should contain the name of the wife or husband.

178. If the widow marries again is there to be a fresh registration? There must be a fresh name on the register in order to give notice to the creditors. All these matters I mention as giving rise to the necessity for more consideration of the details of the measure.

179. *Chairman.*] Will you supply the Committee with a schedule of the amendments which you have made in your copy of the Bill? I will. [*Vide Appendix.*]

Mr. Charles Pinhey, Registrar-General, called in, sworn, and examined:—

180. *Chairman.*] You hold the position of Registrar-General? I do.
181. Can you supply the Committee with some information with regard to the number of selections that have been transferred to Banks and other financial institutions since the Land Act of 1861 came into operation? The registrations have only really commenced to be made regularly in the office since the passage of the Act 42 Victoria No. 16, in 1879. Judging from the registrations since that date, I would say, as a rough approximation, that some 150,000 selections have been transferred to Banks and various financial institutions, although an inconsiderable proportion of these have from time to time returned to the original holders.
182. Can you give any detailed information regarding the transfers? I am not in a position to afford any detailed information.
183. Why not? I understand that it means the number and the area of the selections that are in the hands of financial institutions on transfer. This would require the collation of all the information with regard to the transfers from 1879 to the present date; following each property in every phase through which it may have passed, by transfer, re-transfer, re-lease, or other operation.
184. Therefore, it is not possible for you, with the machinery at your command, to supply the information? Neither now nor within a reasonable time.
185. *Mr. Traill.*] The proposition in the Bill is that Land Agents should record the registrations;—have you any officers distributed throughout the country who would act as deputy-registrars? None whatever.
186. *Mr. Donald.*] Does the transfer in the case of a selection mean only the necessary operation to secure the land? Transfers, whether by mortgage or by absolute conveyance, are treated by us as conveyances. That is so provided under the law.
187. Do you know if a very large proportion of these selections are permanently owned by the Banks—that is to say, that they did not again become the property of the original selectors? Conditional purchases are different from other properties. Conditional purchases not being in fee-simple, are simply continuing interests, chargeable with certain instalments or interest. Until the grant in fee-simple is issued they simply remain continuing interests upon transfer, conveyance, or release, according to what is registered; but whether they will permanently remain in the hands of the Banks is impossible for us to say. It may be said that comparatively few of the conditional purchases which have been transferred have become fee-simple. Therefore, they stand in our books as transfers in the hands of these financial institutions.
188. Do you know if any considerable proportion have been sold by the Banks for the purpose of realising the money which has been advanced to the selectors? There are not many which have been so closed.
189. In the transaction of public business, do you think it would be a good thing if the owners of small holdings were prevented from mortgaging or encumbering them? I think it would be a disability to place them under. Ultimate good may perhaps be looked for by theorists; but practically, and at once, it would be a disability that a man, having what may be regarded as a liquid asset, shall only operate upon it according to a strict and emphatic law, and shall not be at liberty to exercise his own discretion as regards the using of his estate to raise money when he may be in hard straits.
190. *Chairman.*] Is there not another side to the picture by which this man may be prevented from recklessly risking his money in a wild rush for speculation? Yes; an admirable provision, in my opinion, if it were accompanied by something which permitted reasonable use.
191. You are aware that in the United States, in thirty-nine out of forty-four States, this very homestead law is in operation? I have heard so.
192. And the operation has had most beneficial results? I can readily understand that; and if the condition precedent were demanded, that by his own volition he places himself in that position, then I should consider it an excellent provision.
193. *Mr. Donald.*] If you will refer to clause 4 you will see that the Bill simply applies to homesteads which are registered by the voluntary act of the owner? It is an admirable provision under the conditions which are contained in clause 4.
194. *Chairman.*] You have had an opportunity to read the Bill? Yes.
195. Will the provisions of the Bill conflict in any way with the real property law which you administer, or with any other law? With none of the Registration Acts which are in operation.
196. You therefore can see no reason why it should not be passed, so far as the existing laws affecting registration are concerned? I see no reason.

William Henry Traill, Esq., M.P., sworn and examined:—

197. *Chairman.*] You are a member of the Legislative Assembly, and a journalist by profession? Yes.
198. You have given some attention to homestead protection legislation in the United States and elsewhere? Yes.
199. Will you give the Committee the benefit of your experience in connection with this question in the form of a statement? Several years ago the matter first came under my attention, but I cannot remember how. It appeared to me to be a class of legislation which would be beneficial to this country. I set to work then to find out all I could about the question, with the result that I put together a number of clauses to form the basis of a Bill, which I intended to introduce into the legislature on the first opportunity. These clauses I placed in the hands of the Parliamentary Draftsman, Mr. Oliver, and I have here his draft of a Bill from those clauses, modified to suit various legal objections and exigencies which occurred to him in the course of several interviews and discussions which I had with him on the subject of my draft. I found, however, upon reading through the Bill as re-modelled by Mr. Oliver, that the involvements were so great that the actual benefits were whittled away to such an extent that it did not seem to me worth while to introduce the Bill in that form at all, and although I contemplated again drafting a Bill embodying what appeared to be essential in its legal provisions with my own original ideas, a dissolution of Parliament took place about that time, and early in this Parliament, Mr. Donald gave notice of his intention to introduce a measure, and not caring to cross his bows, I offered him every assistance I could. I may say that in the course of my investigations I found that this principle had a very wide application indeed in the United States.

Mr.  
C. Pinhey.  
11 April, 1894.

W. H. Traill,  
Esq., M.P.  
14 April, 1894.

W. H. Traill,  
Esq., M.P.  
11 April, 1894.

200. In Stimson's Digest of American Statute law, which may be seen in the Parliamentary Library, I find that "the constitutions of sixteen States have provisions concerning the homestead exemption." Has not that number been very materially increased of late years? I cannot say that, because the material at my disposal is not sufficiently wide. We have not a sufficient number of the statutes of particular States for a man to follow out the principle beyond sixteen States. In investigating this question I found that the protection was given, not only to the house,—to the mere domicile as it were— but in most cases also to the appurtenances. For instance,—

In Louisiana, of every head of a family, or person having a mother or father, or person or persons dependent on him for support, there is exempt the homestead, *bona fide* owned by the debtor, and occupied by him, consisting of lands, buildings, and appurtenances, whether rural or urban; also one work-horse, one waggon, one yoke of oxen, two cows and calves, twenty-five head of hogs, or 1,000 lb. of bacon or its equivalent in pork, and on a farm the necessary corn and fodder for a year, and farming implements to the value of 2,000 dollars; if the homestead exceed 2,000 dollars in value, the beneficiary is entitled to that amount in case a sale of the homestead under legal process realise more than that sum; but no husband is entitled to a homestead whose wife was and is in the actual enjoyment of property to the value of 2,000 dollars.

That quotation is made with a view to show that it is a practice to protect a man not only in the bare house and ground around the house, but also in the means of utilising the house and ground.

201. You are aware that in Louisiana, British law does not prevail, but simply the "Code Napoleon"? I am not aware that the "Code Napoleon" only prevails there, though I know that the State was bought from Napoleon by the United States.

202. May you not say that the "Code Napoleon" largely prevails there? I do not know that that is really essential to the consideration. This would not be a part of the "Code Napoleon," because it is a recent law. It does not matter what law it displaces or supplements—whether it be British law or French law, and the "Code Napoleon," we admit, I think, is in many respects superior to any British law. I think I can furnish from the draft of my Bill, and the redraft by Mr. Oliver, clauses which will meet the case, for instance, of insolvency, which are lacking in the Bill which has been drafted by Mr. Donald. In the Bill I drafted there is a provision which I think ought to be included in the present Bill, namely, that it shall not operate as a protection against claims for wages for labour executed upon the homestead. There is also a limitation of value and a provision in case of the insolvency of a holder of a homestead, that the homestead may be sold if it exceeds the limitation of value, and only the excess be available to the creditors; that if it be necessary to make a sale the protected amount is still protected under the homestead law, and can be utilised on another homestead. These seem to me to be useful provisions which may, with advantage, be embodied in this Bill. I find that it is almost universal under the American laws that the protection of homestead shall extend beyond the life of the father of a family registered, that it shall be extended to the widow. Pretty generally the protection extends until the youngest child comes of age. That seems to me to be a pretty fair provision. I may mention that in only two of the sixteen States, according to this digest, is there any requirement of record at all, that is to say of registration. I infer that in the other States, as I know is the case in Illinois, registration is unnecessary. It is considered to be a primary right, an almost innate right of a man, based no doubt on the assumption that the right of liberty and breathing and so forth is of no avail, so long as a man has not whereon to place the sole of his foot. Generally, however, the homestead is not protected in the States as against any obligation or debt contracted for the purchase of the property, or in some cases pre-existing liabilities.

203. You have read the Bill which has been introduced by Mr. Donald, and debated in the Legislative Assembly? Yes.

204. Do you consider that it could be amended in such a way as to embody the salient features of the American enactments? I think so, most undoubtedly. I may amplify my reply by saying that I think Mr. Donald, by aiming at a little and only one thing, has met pretty well the difficulty with which I was struggling in my own mind at the dissolution of the last Parliament.

205. *Mr. G. D. Clark.*] Is it your opinion that provision should be made in this Bill to protect pre-existing liabilities? Undoubtedly; and I made such provision in my own draft. A man had to clear his current accounts before he could register according to my proposal, but everything was exempt if a person did not choose to come in within two years after registration. That was coupled with conditions as to advertising. It provided for ample publicity being given so that creditors could prevent any improper registration. I do not advise too much complication in the provisions of the Bill.

## HOMESTEAD PROTECTION BILL.

### APPENDIX.

[Amendment proposed by Mr. J. L. Watkins, Chief Parliamentary Draftsman, handed in before the Select Committee on 17 April, 1894.]

- Section 1, subsection (i), line 5. *Omit "for an" insert "of any"*
- Section 1, subsection (i), line 6. *Omit "for his life or in fee of" insert "in"*
- Section 1, subsection (i), line 9. *Omit "of the homestead" insert "of his said estate"*
- Section 1, subsection (i), line 12. *Omit "its value" insert "the value of the fee-simple of the homestead"*
- Section 1, subsection (ii), line 13. *Omit "the"*
- Section 1, subsection (ii), line 14. *Before "or" omit "owner"; after "then" omit "the"; after "registered" omit "owner of a" insert "in respect of any estate in a"*
- Section 1, subsection (ii), line 16. *After "of" insert "any estate in"*
- New subsection to be added after section 1, subsection (ii) :—
- (iii) The registration shall lapse on the death of the registered owner.
- Section 2, line 18. *After "the" and before "homestead" insert "estate in the"*
- Section 3, subsection (i), line 7. *Omit "of a homestead"*
- Section 3, subsection (ii), line 12. *After "the" and before "homestead" insert "registered estate in the"*
- Section 4. *Omit the whole section and insert :—*
- (i) A homestead while registered under this Act shall not be alienated or charged by the registered owner, or his wife or husband.
  - (ii) If a registered estate in a homestead be seized under a writ of execution, or under any proceedings of a Court of law or equity, against the registered owner or his wife, or husband, or personal representative in respect of a debt or other liability incurred during the registration by the registered owner or his wife or husband, the said estate shall not be sold unless the sum of four hundred pounds be first paid into the Supreme Court.
  - (iii) If during the registration of an estate an order in bankruptcy be made against the registered owner or his wife or husband, the act of bankruptcy on which the order was made having been committed during the registration aforesaid, the registered estate shall not be sold under any proceedings taken under the order in bankruptcy unless the sum of four hundred pounds be first paid into the Supreme Court.
  - (iv) Moneys paid into Court under this section may be applied, with the approval of the Supreme Court, in the purchase of a homestead for the registered owner of the estate sold or his wife or husband to be registered under this Act. The approval of the Court may be granted by a Judge in Chambers on the application of the registered owner of the estate which has been sold or his wife or husband : and the money may be paid out subject to such terms and conditions as to the Judge may seem fit.
- Section 6, subsection (i), line 34. *Omit "of a homestead"*
- Section 6, subsection (ii), line 40. *After "the" and before "homestead" insert "registered estate in the"*
- Section 8, line 48. *After "Lands" insert "and any lease from the Crown"*
- Section 8, line 57. *After "of" insert "any estate in"*
- Schedule A, line 6. *After "Act" insert "my estate in"*
- Schedule A, line 12. *After "perches" insert "Description of estate [State whether an estate in fee or for life or years, and in the latter case the date of the termination of the lease and the name and description of the lessor, whether a homestead or other lease under the Lands Acts]"*
- Schedule B, line 19. *After "the" and before "homestead" insert "estate in the"*
- Schedule B, line 25. *After "perches" insert "Description of estate" [State the particulars in Schedule A.]*
- Schedule C, line 30. *After "owner of" insert "an estate in"*
- Schedule C, lines 31 and 32. *Omit "homestead" insert "estate"*
- Schedule D, line 39. *After "of the" and before "homestead described" insert "estate in the"*

NEW SOUTH WALES.

## CROWN LANDS ACTS OF 1884 AND 1889.

(ADDITIONAL REGULATION (No. 3 A) RELATING TO REMOVAL OF TIMBER.)

Presented to Parliament pursuant to Acts 48 Vic. No. 18 and 53 Vic. No. 21.

Department of Mines and Agriculture,  
Sydney, 12th January, 1894.

## TIMBER, STATE FOREST, AND QUARRY REGULATIONS.

*Additional Regulation in terms of the Crown Lands Act of 1884 (48 Vic. No. 18) and the Crown Lands Act, 1889 (53 Vic. No. 21).*

His Excellency the Governor, with the advice of the Executive Council, has been pleased to approve of the following Regulation as an additional Timber, State Forest, and Quarry Regulation, in terms of the Crown Lands Act, 1884 (48 Vic. No. 18), and the Crown Lands Act, 1889 (53 Vic. No. 21), and to be read as Regulation No. 3A.

T. M. SLATTERY.

## REGULATION NO. 3A.

Licenses to cut and remove timber for fuel only from Crown Lands may be obtained on application to a Land Agent, Clerk of Petty Sessions, or other officer duly authorised by the Minister in that behalf. The fee for such licenses shall be 2s. 6d. per current month, or 5s. per quarter, or 20s. per annum.

1894.

NEW SOUTH WALES.

**CROWN LANDS ACTS OF 1884 AND 1889.**

(ADDITIONAL REGULATION (No. 4A) RELATING TO REMOVAL OF TIMBER.)

*Presented to Parliament pursuant to Acts 48 Vic. No. 18 and 53 Vic. No. 21.*

Department of Mines and Agriculture, Sydney, 12 January, 1894.

**ADDITIONAL TIMBER, STATE FOREST, AND QUARRY REGULATIONS.****ADDITIONAL** Regulation in terms of the Crown Lands Act of 1884 (48 Vic. No. 18), and section 3, and the Schedule of the Crown Lands Act, 1889 (53 Vic. No. 21).His Excellency the Governor, with the advice of the Executive Council, has been pleased to approve of the following Regulation as an additional Timber, State Forest, and Quarry Regulation, in terms of the Crown Lands Act, 1884 (48 Vic. No. 18), and section 3, and the Second Schedule of the Crown Lands Act, 1889 (53 Vic. No. 21), and to be read as Regulation No. 4A.  
[93-18,999.]

T. M. SLATTERY.

**REGULATION No. 4A.**

A conditional lessee may, subject to the Timber Regulations 2, 3, and 4, cut and remove timber from his leased land if not within a State Forest or Timber Reserve, and the holder of a Timber License may, with the consent of the lessee, cut and remove timber from a conditional lease, subject to Regulations 2, 3, and 4.

1894.

## NEW SOUTH WALES.

## CROWN LANDS ACTS OF 1884 AND 1889.

(CANCELLATION AND SUBSTITUTION OF REGULATION No. 59, RELATING TO REMOVAL OF TIMBER.)

Presented to Parliament pursuant to Acts 48 Vic. No. 18 and 53 Vic. No. 21.

Department of Mines and Agriculture, Sydney, 12 January, 1894.

## TIMBER, STATE FOREST, AND QUARRY REGULATIONS.

CANCELLATION of Regulation No. 59 of Timber, State Forest, and Quarry Regulations, and substitution of the accompanying Regulation in lieu thereof.

His Excellency the Governor, with the advice of the Executive Council, has, in order to provide for the imposition of a minimum penalty for the infringement of the Timber, State Forest, and Quarry Regulations made under the provisions of the Crown Lands Act of 1884 and the Crown Lands Act of 1889, and published in the *Government Gazette* of the 2nd December, 1889, approved of Regulation No. 59 of such Regulations being cancelled and of the Regulation hereunder mentioned being substituted in lieu thereof.

[94-199.]

T. M. SLATTERY.

## REGULATION No. 59.

Any person disobeying, infringing, or violating the provisions or conditions of these Regulations, or the conditions of any license, permit, or certificate thereunder held by him, will be liable to a fine of not less than 20s. nor exceeding £5 for the first offence, not less than £5 nor exceeding £10 for the second offence, and not less than £10 nor exceeding £20 for the third, exclusive of the value of any timber or material destroyed.

## NEW SOUTH WALES.

**CROWN LANDS ACTS OF 1884 AND 1889.**

(REGULATIONS Nos. 246 AND 247, SUBSTITUTED FOR THOSE AT PRESENT IN FORCE BEARING THE SAME NUMBERS UNDER.)

Presented to Parliament pursuant to Acts 48 Vic. No. 18 and 53 Vic. No. 21.

Department of Lands, Sydney, 5th January, 1894.

His Excellency the Governor, with the advice of the Executive Council, has been pleased to approve of the following Regulations, Nos. 246 and 247, being substituted for those at present in force bearing the same numbers under the Crown Lands Acts.

[Ml. 94-76.]

HENRY COPELAND.

246. Any person desirous of ringbarking trees on Crown Lands held by him under lease or license may apply on Form 58. The application shall be addressed to the Land Agent, and be accompanied by a sketch of the locality, and by a fee of £2 for an area not exceeding 1,920 acres, £3 for an area not exceeding 5,120 acres, £4 for an area not exceeding 10,240 acres, and £5 for any area in excess of 10,240 acres held under pastoral lease or occupation license. No person shall be entitled to refund of any such fee, except in any case where the application is allowed to be wholly withdrawn, and no expense is incurred.

247. No application or permission shall be necessary to ringbark on lands held under conditional lease unless included within a reserve, or to destroy any scrub described as noxious by any surveyor, inspector, or appraiser, who may have visited the land, or to destroy any of the following scrubs:—Mallee, Yarran, Warrya, Pine, Belar, Bull Oak, Brigalow, Flooded Box or Coolabah, Turpentine-bush, Briar, Blackthorn, Needle-bush, Sifting-bush, Budtha or Rosewood, Dogwood, Ti-tree, Black Wattle or Green Wattle. For the purposes of these Regulations scrub shall include any tree or shrub of the foregoing classes having a diameter less than 12 inches, or a circumference less than 36 inches 4 feet from the ground.

1870  
1871  
1872  
1873

1880

1894.

NEW SOUTH WALES.

## CROWN LANDS ACTS OF 1884 AND 1889.

(REGULATION NO. 245 SUBSTITUTED FOR THAT AT PRESENT IN FORCE BEARING THE SAME NUMBER, UNDER.)

Presented to Parliament, pursuant to Acts 48 Vic. No. 18 and 53 Vic. No. 21.

Department of Lands,  
Sydney, 19th December, 1893.

His Excellency the Governor, with the advice of the Executive Council, has been pleased to approve of the following Regulation No. 245 being substituted for that at present in force bearing the same number under the Crown Lands Acts.

[Ml. 93-12,724.]

HENRY COPELAND.

## REGULATION No. 245.

Any person claiming to be entitled under section 111 of the Act of 1884 to a road of access may make a written application therefor to the Chairman, accompanied by a deposit of £5 to cover the costs of survey or of dealing with the application, and shall with his application submit a rough sketch of the locality and of the proposed road. The Chairman may order any report from the District Surveyor or otherwise which he may deem necessary, and the Board shall thereafter proceed to deal with the matter in open Court.

1894.

NEW SOUTH WALES.

## CROWN LANDS ACTS OF 1884 AND 1889.

(ADDITIONAL REGULATION No. 286, UNDER.)

Presented to Parliament pursuant to Acts 48 Vic. No. 18 and 53 Vic. No. 21.

Department of Lands, Sydney, 1 December, 1893.

His Excellency the Governor, with the advice of the Executive Council, has been pleased to approve of the following additional Regulation No. 286, under the Crown Lands Acts.

[Ml. 93-12,094.]

HENRY COPELAND.

## REGULATION No. 286.

On any application being made for a road to be opened for public use the Minister shall require a deposit of not less than £2 to be paid by the applicants into the Treasury before any inquiry into the application shall be authorised, and such deposit shall be retained unless in the opinion of the Minister the application was made *bonâ fide* in the public interest, and on sufficiently reasonable grounds.

## CROWN LANDS ACTS OF 1884 AND 1889.

(REGULATION NO. 106 SUBSTITUTED FOR THAT AT PRESENT IN FORCE BEARING THE SAME NUMBER UNDER THE CROWN LANDS ACTS.)

---

Presented to Parliament, pursuant to Acts 48 Vic. No. 18 and 53 Vic. No. 21.

Department of Lands, Sydney, 9 March, 1894.

His Excellency the Governor, with the advice of the Executive Council, has been pleased to approve of the following Regulation, No. 106, being substituted for that at present in force bearing the same number, under the Crown Lands Acts.

[Ml. 94-2,384]

HENRY COPELAND.

---

106. Every application for an occupation license of lands of which the applicant's pastoral lease is about to expire, shall be in Form 35, and shall be sent by registered letter, or delivered to the Under Secretary, together with a provisional license fee at the rate required by section 33 of the Act of 1889, calculated from the date of expiration of the pastoral lease to the 31st December of the same year. If the pastoral lease be in the Central Division, and the lessee has not applied for an extension thereof, the application for an occupation license as aforesaid shall be lodged not less than six months before the expiration of the lease. If an extension of the lease has been applied for and has not been granted, the application for an occupation license shall be lodged within three months from the publication of the report of the Board; if the application for extension has been withdrawn, the application for an occupation license shall be made at the same time as the notice of withdrawal.

1894.

---

## CROWN LANDS ACTS OF 1884 AND 1889.

(REGULATIONS Nos. 24 AND 27 SUBSTITUTED FOR THOSE AT PRESENT IN FORCE BEARING THE SAME NUMBERS UNDER THE CROWN LANDS ACTS.)

---

Presented to Parliament, pursuant to Acts 48 Vic. No. 18 and 53 Vic. No. 21.

---

Department of Lands, Sydney, 30 March, 1894.

His Excellency the Governor, with the advice of the Executive Council, has been pleased to approve of the following Regulations (Nos. 24 and 27) being substituted for those at present in force bearing the same numbers under the Crown Lands Acts.

[Ml. 94-2,865]

HENRY COPELAND.

24. Any notice to be given by the Board, or by the Chairman thereof (or by an officer authorised by the Chairman in that behalf), shall be in print or writing, or in print and writing, and may either be served personally upon the person to whom notice is intended to be given; or be left at such person's usual or last-known place of abode or of business, or be sent by post addressed to such person at any such place. If several persons have joined in lodging a caveat or complaint, notice to one of such persons shall be sufficient, and not more than one of them shall have a right to be heard before the Board in support of such caveat or complaint.

27. Not less than fourteen days' notice of the day appointed for any proceeding before the Board shall, as far as possible and except as hereinafter provided, be given by the Chairman (or an officer authorised by him in that behalf) to the applicant, caveator, complainant, or other person or persons known to be concerned; and whenever "the prescribed notice" or "due notice" is referred to in the existing Acts or in these Regulations, fourteen days' notice shall, whenever possible, be given.

---

## NEW SOUTH WALES.

## CROWN LANDS.

(DEDICATION OF CERTAIN LANDS UNDER ACT 48 VIC. No. 18, SEC. 105, AND ACT 53 VIC. No. 21, SEC. 41.)

Presented to Parliament, pursuant to Acts 48 Vic. No. 18, sec. 105, and 53 Vic. No. 21, sec. 41.

Department of Lands,  
Sydney, 16th January, 1894.PROPOSED RESUMPTION OF TOWN HALL SITE  
AT LAMBTON, AND RE-DEDICATION FOR  
MECHANICS' INSTITUTE AND TOWN HALL  
SITES.

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the Town Hall site at Lambton, area 1 rood 30½ perches, dedicated 15th January, 1892, and hereunder described, with a view to the dedication of 35¼ perches thereof for site for Mechanics' Institute, and to the re-dedication for Town Hall site of the remainder.

[Ms. 94-103 Ind.]

HENRY COPELAND.

## DESCRIPTIONS.

## Town Hall site proposed to be resumed.

County of Northumberland, parish of Newcastle, containing an area of 1 rood 30½ perches: Commencing on the south side of De Vitre Road, at the north-east corner of portion 855 of 35¼ perches; and bounded thence on the west by the east boundary of that portion bearing south 2 minutes 30 seconds west 2 chains 75½ links to the north side of Elder Road; thence on the south by that side of that road bearing south 89 degrees 48 minutes east 1 chain 60 links to the south-west corner of portion 857 of 39¼ perches; thence on the east by the west boundary of that portion bearing north 2 minutes 30 seconds east 2 chains 76½ links to the south side of De Vitre Road aforesaid; and thence on the north by that side of that road bearing north 89 degrees 57 minutes 30 seconds west 1 chain 60 links, to the point of commencement,—to include portion 856, as shown on plan catalogued N. 1,949-2,111.

## Mechanics' Institute site proposed to be dedicated.

County of Northumberland, parish of Newcastle, containing an area of 35¼ perches: Commencing on the south side of De Vitre Road, at the north-west corner of portion 857 of 39¼ perches; and bounded thence on the east by the west boundary of that portion bearing south 2 minutes 30 seconds west 2 chains 76½ links to the north side of Elder Road; thence on the south by that side of that road bearing north 89 degrees 43 minutes west 80 links to the south-east corner of portion 856 of 35¼ perches; thence on the west by the east boundary of that portion bearing north 2 minutes 30 seconds east 2 chains 76 links to the south side of De Vitre Road aforesaid; thence by

that side of that road bearing south 89 degrees 57 minutes 30 seconds east 80 links, to the point of commencement,—being portion 330, as shown on plan catalogued N. 3,310-2,111.

## Town Hall site proposed to be dedicated.

County of Northumberland, parish of Newcastle, containing an area of 35¼ perches: Commencing on the south side of De Vitre Road, at the north-east corner of portion 855 of 35¼ perches; and bounded thence on the west by the east boundary of that portion bearing south 2 minutes 30 seconds west 2 chains 75½ links to the north side of Elder Road; thence on the south by that side of that road bearing south 89 degrees 48 minutes east 80 links to the south-west corner of portion 330 of 35¼ perches; thence on the east by the west boundary of that portion bearing north 2 minutes 30 seconds east 2 chains 76 links to the south side of De Vitre Road aforesaid; and thence on the north by that side of that road bearing north 89 degrees 57 minutes 30 seconds west 80 links, to the point of commencement,—being portion 856, as shown on plan catalogued N. 1,949-2,111.

Department of Lands,  
Sydney, 16th January, 1894.PROPOSED RESUMPTION OF PERMANENT  
COMMON AT OPHIR.

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, and the 41st section of the Crown Lands Act of 1889, it is proposed to revoke the dedication of the Permanent Common at Ophir, area 640 acres, dedicated 6th December, 1867, and hereunder described, with a view to the land being let on annual lease.

## EASTERN DIVISION.

## LAND DISTRICT OF ORANGE.

County of Wellington, parish of Lewis, on Lewis Ponds Creek, containing 640 acres: Commencing on Lewis Ponds Creek; and bounded thence on the north by a line forming the easterly prolongation of the north boundary of Hughes and Hosking's 1,040 acres bearing west to the north-east corner of that 1,040 acres; on the west by part of the east boundary of that 1,040 acres bearing south 80 chains; on the south by a line bearing east to Lewis Ponds Creek; and on the east by that creek downwards, to the point of commencement.

Department of Lands,  
Sydney, 16th January, 1894.

**PROPOSED RESUMPTION OF GENERAL CEMETERY  
AT MUDGEES.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884 and the 41st section of the Crown Lands Act of 1889, it is proposed to revoke the dedication of the General Cemetery at Mudgee, area 7 acres 2 roods, dedicated 19th May, 1868, and hereunder described, with a view to sale or other appropriation under the Crown Lands Acts.

[Ms. 93-5,437 Ind.]

HENRY COPELAND.

**DESCRIPTION.**

County of Wellington, parish of Mudgee, area 7 acres 2 roods: Commencing at a point 1 chain north from the north-west corner of portion 69 of 5 acres; and bounded thence on the west by the east side of a road 1 chain wide along the east boundary of portion 67 of 5 acres and its north prolongation, being a line bearing north 13 chains; thence on the north-east by a line bearing south 39 degrees 50 minutes east 7 chains 80 links; thence on part of the east by a line bearing south 88 links; thence again on the east by a line bearing east 57 links; thence again on the north by a line bearing east 57 links; thence again on the east by a line bearing south 57 links; thence again on the north by a line bearing east 1 chain 86 links; thence again on the east by a line bearing south 1 chain 56 links; thence again on the north by a line bearing east 1 chain; thence again on the east by a line bearing south 72 links; thence again on the north by a line bearing east 2 chains 7½ links; thence again on the east by a line bearing south 2 chains 72 links to the north side of a road 1 chain wide along the north boundaries of portions 70, 71, and 69; and thence on the south by that side of that road, being a line bearing west 11 chains 7½ links, to the point of commencement,—as shown on plan catalogued C. 992-730.

Department of Lands,  
Sydney, 16th January, 1894.

**PROPOSED RESUMPTION OF GENERAL CEMETERY  
AT KINGSGATE (RED RANGE), AND DEDICATION  
FOR THE SAME PURPOSE IN LIEU.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the General Cemetery at Kingsgate (Red Range), area 12 acres 1 rood 23 perches, dedicated 19th March, 1892, and hereunder described, with a view to its being restored to village reserve 584, and to the dedication in lieu for General Cemetery of 3 acres 1 rood 28 perches in the same locality.

[Ms. 93-5,486 Ind.]

HENRY COPELAND.

**DESCRIPTIONS.**

Area proposed to be resumed.

County of Gough, parish of Rusden, containing an area of 12 acres 1 rood 28 perches: Commencing at a point bearing north 45 degrees west, and distant 2 chains  $82\frac{2}{10}$  links from the south-east corner of reserve for plantation; and bounded thence by a line bearing west 13 chains; thence by a line bearing north 9 chains  $1\frac{1}{2}$  links; thence by a line bearing north 79 degrees 6 minutes east 9 chains  $51\frac{2}{10}$  links and north 69 degrees 26 minutes east 3 chains  $90\frac{2}{10}$  links; and thence by a line bearing south 12 chains  $18\frac{1}{2}$  links, to the point of commencement; but exclusive of a road 1 chain wide,—shown on plan catalogued Ms. 213 Ae.

Area proposed to be dedicated.

County of Gough, parish of Rusden, containing an area of 3 acres 1 rood 28 perches. The Crown Lands within the following boundaries: Commencing at a point bearing south 20 degrees 17 minutes east 8 chains 65.6 links from the north-east corner of portion 115; and bounded thence by a line east 8 chains; thence by a line south 4 chains 28.6 links; thence by a line west 8 chains; and thence by a line north 4 chains 28.6 links, to the point of commencement; being allotments 1 to 7 inclusive and the road 1 chain wide between those allotments,—as shown on plan catalogued Ms. 489 Ae.

Department of Lands,  
Sydney, 16th January, 1894.

**PROPOSED RESUMPTION OF GENERAL CEMETERY  
AT WALLIS LAKE (FORSTER) AND DEDICATION  
FOR THE SAME PURPOSE IN LIEU.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the General Cemetery at Wallis Lake, near Forster, area 4 acres, dedicated 22nd March, 1878, and hereunder described, with a view to sale or other appropriation under the Crown Lands Acts, and to the dedication in lieu for General Cemetery at Forster of 6 acres 3 roods 26½ perches in the same locality.

[Ms. 93-5,488 Ind.]

HENRY COPELAND.

**DESCRIPTIONS.**

Area proposed to be resumed.

County of Gloucester, parish of Forster, containing an area of 4 acres: Commencing on the north-east side of the road from Forster to Bullah Delah, at a point bearing south 73 degrees east, and distant 11 chains 90 links from the south-east corner of portion 67 of 40 acres, exclusive of road; and bounded thence on the north-west by a line bearing north 40 degrees east 4 chains; thence on the north-east by a line bearing south 50 degrees east 10 chains; thence on the south-east by a line bearing south 40 degrees west 4 chains to the north-west side of the road from Forster to Bullah Delah before mentioned; and thence on the south-west by that side of that road bearing north 50 degrees west 10 chains, to the point of commencement,—as shown on plan catalogued C. 553-1,984.

Area proposed to be dedicated.

County of Gloucester, parish of Forster, suburban lands of village of Forster, containing an area of 6 acres 3 roods 26½ perches. The Crown Lands within the following boundaries: Commencing on the north side of a road 1 chain 50 links wide, at a point bearing north and distant 1 chain 50 links from the north-east corner of portion 2, section 15, of the suburban lands; and bounded thence on the south by that side of that road bearing west 12 chains  $57\frac{2}{10}$  links; thence on the west by the east side of Divide-street, bearing north 5 chains  $50\frac{2}{10}$  links; thence on the north by a line bearing east 12 chains  $58\frac{2}{10}$  links; and thence on the east by the west side of a road 1 chain 50 links wide bearing south 9 minutes west 5 chains  $50\frac{2}{10}$  links, to the point of commencement,—as shown on plan catalogued Ms. 539 Md.

Department of Lands,  
Sydney, 16th January, 1894.

**PROPOSED RESUMPTION OF PUBLIC SCHOOL  
SITE AT LANDALE.**

It is hereby notified, for public information, that, in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the Public School site at Landale, area 12 acres, viz., portion 85, parish of Thurgoon, county of Townsend, dedicated 14th October, 1881, and hereunder described, with a view to sale thereof by auction.

[Ms. 94-104 Ind.]

HENRY COPELAND.

**DESCRIPTION.**

County of Townsend, parish of Thurgoon, area 2 acres, portion 85: Commencing on the northern side of a road 1 chain wide, at the south-eastern corner of portion 15 of 130 acres; and bounded thence on the south by that road bearing east 4 chains and 50 links; on the east by a western boundary of portion 86 of 20 acres bearing north 4 chains and 50 links; on the north by a southern boundary of that portion bearing west 4 chains and 50 links; and on the west by part of the eastern boundary of portion 15 aforesaid bearing south 4 chains and 50 links, to the point of commencement,—as shown on plan catalogued P. 708-1,978.

1894.

## NEW SOUTH WALES.

## CROWN LANDS.

(DEDICATION OF CERTAIN LANDS UNDER ACT 48 VIC. No. 18, SEC. 105, AND ACT 53 VIC. No. 21, SEC. 41.)

Presented to Parliament, pursuant to Acts 48 Vic. No. 18, sec. 105, and 53 Vic. No. 21, sec. 41.

Department of Lands,  
Sydney, 30th January, 1894.PROPOSED RESUMPTION OF RESERVE FOR  
ACCESS TO WATER, CAMPING, AND OTHER  
PUBLIC PURPOSES AT ADELONG CREEK.

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the land at Adelong Creek, area 141 acres 3 roods 25 perches, viz., portions 28 and 29, parish of Bangus, county of Wynyard, dedicated 23rd September, 1881, for access to water, camping, and other public purposes, and hereunder described, with a view to the reservation thereof for travelling stock and camping.

[Ms. 93-10,349 Dep.]

HENRY COPELAND.

## DESCRIPTION.

County of Wynyard, parish of Bangus, Adelong Run, area 141 acres 3 roods 25 perches: Commencing on the left bank of Adelong Creek, at the northern corner of portion 32; and bounded thence on the south-east by the north-west boundary of that portion being a line bearing south 50 degrees 18 minutes west 52 chains to the north-eastern side of the road from Adelong to Adelong Crossing; thence on the south-west by that side of that road, being lines bearing north 39 degrees 30 minutes west 16 chains, and north 29 degrees 20 minutes west 16 chains and 27 links, to the southern corner of portion 27, Robert Luff's 52 acres; thence on the north-west by the south-east boundary of that portion, being a line bearing north 50 degrees east 36 chains, to the left bank of Adelong Creek aforesaid; and thence by that creek upwards, to the point of commencement,—being portions 28 and 29, as shown on plan catalogued M. 293-1,834.

Department of Lands,  
Sydney, 30th January, 1894.PROPOSED RESUMPTION OF RECREATION GROUND  
AND RACECOURSE AT MOREE, AND DEDICA-  
TION FOR RACECOURSE IN LIEU.

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, and the 41st section of the Crown Lands Act of 1889, it is proposed to revoke the dedication of the land

at Moree, area 84 acres and 15 perches, viz., portions 21, 22, 25, 180, 186, and 187, parish of Moree, county of Courallie, dedicated 30th November, 1877, for public recreation and racecourse, and hereunder described, with a view to sale or other appropriation under the Crown Lands Acts, and to the dedication in lieu for racecourse of portion 206 of 75 acres 3 roods, in the same locality.

[Ms. 94-81 Ind.]

HENRY COPELAND.

## DESCRIPTIONS.

## Area proposed to be resumed.

County of Courallie, parish of Moree, area 84 acres 0 roods 15 perches, comprising portions 21, 22, 25, 180, 186, and 187: Commencing at a point bearing north 81 degrees 13 minutes east and distant 1 chain and 50 links from the south-eastern corner of portion 89 of 4 acres; and bounded thence on the south by a line bearing north 81 degrees 13 minutes east 29 chains and 36 links; on the east by a road 1 chain wide bearing west 81 degrees 13 minutes north 30 chains and 1 link; on the north by a line bearing south 81 degrees 13 minutes west 27 chains and 36 links; and on the west by lines bearing east 81 degrees 13 minutes south 20 chains 1 link, thence south 81 degrees 13 minutes west 2 chains; and thence by a road 1 chain and 50 links wide bearing east 81 degrees 13 minutes south 10 chains, to the point of commencement,—shown on plan catalogued C. 434-1,880.

## Racecourse proposed to be dedicated.

County of Courallie, parish of Moree, containing an area of 75 acres 3 roods: Commencing at the south-east corner of portion 142, being a peg bearing north 72 degrees 30 minutes east and distant 96 links from a gum-tree marked 142-206; and bounded thence by the south boundary of portion 142 aforesaid bearing south 89 degrees 59 minutes west 33 chains 3½ links to Greenbah Creek; thence by lines bearing respectively south 19 degrees 54 minutes east 7 chains 89½ links, south 33 degrees 30 minutes west 4 chains 25½ links, south 1 degree 26 minutes east 3 chains 73 links, south 18 degrees 22 minutes east 3 chains 77·7 links, south 41 degrees 4 minutes east 4 chains 32·7 links, south 70 degrees 24 minutes east 12 chains 27·3 links, and north 83 degrees 20 minutes 30 seconds east 17 chains 12 links to the west side of a 1-chain road; and thence by that side of that road bearing north 23 chains 68½ links, to the point of commencement,—to include measured portion 206 of 75 acres 3 roods, as shown on plan catalogued C. 1,550-1880.

Department of Lands,  
Sydney, 30th January, 1894.

**PROPOSED RESUMPTION OF RACECOURSE AND  
RECREATION GROUND AT COWRA.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, and the 41st section of the Crown Lands Act of 1889, it is proposed to revoke the dedication of the land at Cowra, area 200 acres, viz., portion 64, parish of Morongla, county of Forbes, dedicated 17th October, 1876, for racecourse and public recreation, and hereunder described, with a view to the declaration thereof as a special area.

[Ms. 93-11,115 Dep.]

\_\_\_\_\_ HENRY COPELAND.

**DESCRIPTION.**

County of Forbes, parish of Morongla, portion 64, area 200 acres: Commencing on the north boundary of portion 72, at the south-east corner of portion 91; and bounded thence on the south by part of the north boundary of portion 72 aforesaid east 36 chains 15 links to its north-east corner; thence on the south-east by a line bearing north 21 degrees east 47 chains 91 links; thence on the north by a line bearing west 53 chains 30 links to the east boundary of portion 81; and thence on the west by part of that east boundary and the east boundary of portion 91 aforesaid, being a line bearing south 44 chains 81 links, to the point of commencement,—as shown on plan catalogued F. 346-1,787.

Department of Lands,  
Sydney, 30th January, 1894.

**PROPOSED RESUMPTION OF RACECOURSE AND  
RECREATION GROUND AT EAST MAITLAND,  
AND RE-DEDICATION FOR RACECOURSE.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the land at East Maitland, area 130 acres, dedicated 16th July, 1863, for racecourse and public recreation, and hereunder described, with a view to the rededication thereof for racecourse.

[Ms. 94-345 Dep.]

\_\_\_\_\_ HENRY COPELAND.

**DESCRIPTION.**

County of Northumberland, parish of Maitland, at East Maitland, area 130 acres: Commencing on the eastern side of Sinclair-street at a point bearing east 85 degrees south and distant 42 chains from the south-western corner of Close's 2,050 acres; and bounded thence on the west by that street bearing south 30 chains and 20 links; on the south-west by Raymond Terrace Road 1 chain 25 links wide bearing south 79 degrees east 6 chains, south 75 degrees east 6 chains, and thence south 67 degrees 30 minutes east 6 chains; on the south-east by a line bearing north 68 degrees 30 minutes east 26 chains and 20 links; on the east by a line bearing north 25 chains 60 links; and on the north by a line bearing west 41 chains and 60 links, to the point of commencement,—as shown on plan catalogued M. 65-790.

1894.

## NEW SOUTH WALES.

## CROWN LANDS.

(DEDICATION OF CERTAIN LANDS UNDER ACT 48 VIC. No. 18, SEC. 105, AND ACT 53 VIC. No. 21, SEC. 41.)

Presented to Parliament, pursuant to Acts 48 Vic. No. 18, sec. 105, and 53 Vic. No. 21, sec. 41.

Department of Lands,  
Sydney, 20th February, 1894.PROPOSED RESUMPTION OF PUBLIC SCHOOL  
SITE AT JERILDERIE.

IT is hereby notified, for public information, that, in accordance with the provisions of the 105th section of the Crown Lands Act of 1884 and the 41st section of the Crown Lands Act of 1889, it is proposed to revoke the dedication of the Public School site at Jerilderie, area 2 acres, viz., allotments 1, 2, 9, and 10, of section 13, dedicated 15th August, 1871, and hereunder described, with a view to sale thereof by auction.

[Ms. 94-705 Ind.] HENRY COPELAND.

## DESCRIPTION.

County of Urana, parish of Jerilderie South, village of Jerilderie, area 2 acres, allotments 1, 2, 9, and 10, of section 13: Commencing at the north-western corner of the section; and bounded thence on the north by Coreen-street easterly 4 chains; on the east by a line forming partly the western boundaries of allotments 3 and 8 southerly at right angles to Coreen-street, in all 5 chains and 30 links to Nowranie-street; on the south by that street westerly parallel with Coreen-street 4 chains to Wood-street; and on the west by that street northerly 5 chains and 30 links, to the point of commencement,—as shown on plan catalogued P. 130-1,978, exclusively of a lane 30 links wide dividing allotments 1 and 2 from allotments 9 and 10 passing through this land, the area of which has been deducted from the total area.

Department of Lands,  
Sydney, 20th February, 1894.PROPOSED RESUMPTION AND REDEDICATION OF  
GENERAL CEMETERY AT URALLA.

IT is hereby notified, for public information, that, in accordance with the provisions of the 105th section of the Crown Lands Act of 1884 and the 41st section of the Crown Lands Act of 1889, it is proposed to revoke the dedication of the General Cemetery at Uralla, area 8 acres 1 rood 8 perches, dedicated 24th October, 1882, and hereunder described, with a view to the rededication of that area for the same purpose, and to the redistribution of the various allotments.

[Ms. 94-704 Ind.] HENRY COPELAND.

## DESCRIPTIONS.

## Area proposed to be resumed.

County of Sandon, parish of Uralla, containing an area of 8 acres 1 rood 8 perches: Commencing on the northern side of a road 1 chain wide, at a point distant 1 chain north from the north-western corner of portion No. 30 of 48 acres; and bounded thence on the south by part of that side of that road dividing it from that portion bearing east 8 chains; thence on

the east by a line bearing north 10 chains 38 links; thence on the north by a line bearing west 8 chains; and thence on the west by a line bearing south 10 chains and 38 links, to the point of commencement,—as shown on plan catalogued C. 678-1,984.

## Area proposed to be dedicated.

County of Sandon, parish of Uralla, containing an area of 8 acres 1 rood 8 perches: Commencing at a point on the northern side of a road 1 chain wide bearing north, and distant 1 chain from the north-west corner of portion No. 30 of 48 acres; and bounded thence on the south by a line bearing south 89 degrees 54 minutes east 7 chains 99½ links; thence on the east by a line bearing north 10 minutes east 10 chains 37·8 links; thence on the north by a line bearing north 89 degrees 49 minutes 30 seconds west 8 chains 2½ links; and thence on the west by a line bearing south 10 chains 38·8 links, to the point of commencement,—as shown on plan catalogued Ms. 499 Ae.

Department of Lands,  
Sydney, 21st February, 1894.PROPOSED RESUMPTION OF RESERVE FOR  
DEFENCE PURPOSES AT LA PEROUSE AND  
RE-DEDICATION OF PARTS THEREOF FOR  
DEFENCE AND ELECTRIC TELEGRAPH PUR-  
POSES.

IT is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the land at La Perouse, Botany Bay, area 22 acres, dedicated 17th July, 1883, for defence purposes, and hereunder described, with a view to the dedication of 5 acres 1 rood 4 perches thereof for electric telegraph purposes, the reservation of 3 roods 27 perches and 23 perches for access, and the re-dedication of the remainder, about 17 acres, for defence.

[Ms. 94-1,152 Dep.] HENRY COPELAND.

## DESCRIPTIONS.

## Area proposed to be resumed.

County of Cumberland, parish of Botany, about 22 acres, at La Perouse Point, Botany Bay: Commencing on the foreshore of Botany Bay, at a point on the rocks marked broad-arrow over DB, and bearing south 62 degrees 9 minutes east and distant 7 chains 24½ links from the western end of the southern boundary of 2 acres appropriated for a Public School; and bounded thence on the north-east by a line, the south-western boundary of that land and its north-westerly continuation in all bearing north 62 degrees 9 minutes west 15 chains and 62½ links to the foreshore of Botany Bay; and on the north-west, south-west, and south-east by that foreshore south-westerly, south-easterly, and thence north-easterly, to the point of commencement.

Area proposed to be dedicated for electric telegraph purposes.

County of Cumberland, parish of Botany, at La Perouse Point, Botany Bay, area 5 acres 1 rood 4 perches: Commencing at the western extremity of the southern boundary of 2 acres, dedicated 21st October, 1882, for a Public School; and bounded thence by lines bearing south 62 degrees 46 minutes east  $54\frac{3}{10}$  links, south 61 degrees 57 minutes west 6 chains 71 links, south 29 degrees 57 minutes west 2 chains 85 links, and north 56 degrees 12 minutes west 8 chains  $72\frac{3}{5}$  links to high-water mark of Botany Bay, and by that high-water mark generally north-easterly to a point bearing north 62 degrees 46 minutes west from the point of commencement; and thence by a line bearing south 62 degrees 46 minutes east about 8 chains 73 links, to the point of commencement,—exclusive of reserves for access to La Perouse Monument and the tomb of Father Le Reveur, as surveyed and shown on plan catalogued Ms. 866 Sy.

Area proposed to be dedicated for defence.

County of Cumberland, parish of Botany, at La Perouse Point, Botany Bay, area about 17 acres: Commencing at the most easterly corner of the area to be dedicated as a site for electric telegraph purposes; and bounded thence by lines bearing south 61 degrees 57 minutes west 6 chains 71 links, south 29 degrees 57 minutes west 2 chains 85 links; and thence north 56 degrees 12 minutes west to the waters of Botany Bay; and on the north-west, south-west, and south-east, by those waters bearing south-westerly, south-easterly, and north-easterly, to a point bearing south 62 degrees 46 minutes east from a point on the rocks marked broad-arrow over DE; and thence by a line bearing north 62 degrees 46 minutes west, to the point of commencement,—as surveyed and partly shown on plans catalogued C. 6-2,063 Roll and Ms. 866 Sy.

1894.

## NEW SOUTH WALES.

## CROWN LANDS.

(DEDICATION OF CERTAIN LANDS, IN ACCORDANCE WITH THE PROVISIONS OF THE 105TH SECTION OF THE ACT 48 VICTORIA No. 18.)

Presented to Parliament, pursuant to Act 48 Vic. No. 18, sec. 105.

Department of Lands, Sydney, 20 March, 1894.

## PROPOSED RESUMPTION OF PUBLIC SCHOOL SITE AT PEAT'S FERRY ROAD.

It is hereby notified, for public information, that, in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the Public School site at Peat's Ferry Road, area 2 acres, viz., portion 31, parish of South Colah, county of Cumberland, dedicated 10th February, 1885, and hereunder described, with a view to sale by auction or other appropriation under the Crown Lands Acts.

[Ms. 94-1,134 Ind.]

HENRY COPELAND.

## DESCRIPTION.

County of Cumberland, parish of South Colah, 2 acres, portion 31: Commencing on the south-eastern side of the road from Sydney to Peat's Ferry, at the north-western corner of portion 30 of 3 acres 3 roods 31 perches; and bounded thence on the north-west by that road dividing it partly from part of portion 15 of 66 acres 18 perches bearing north 30 degrees 42 minutes east 5 chains 47 $\frac{3}{10}$  links; and thence north 73 degrees 50 minutes east 2 chains 77 $\frac{3}{10}$  links; on the east by part of the western boundary of portion 13 of 22 acres 2 roods 4 perches bearing south 22 minutes west 5 chains 46 links; and on the south by the northern boundary of portion 30 aforesaid bearing south 89 degrees 44 minutes west 5 chains 43 links, to the point of commencement,—as shown on plan P, 1,279-1,978.

1894.

## NEW SOUTH WALES.

## CROWN LANDS.

(DEDICATION OF CERTAIN LANDS UNDER ACT 48 VIC. No. 18, SEC. 105.)

Presented to Parliament, pursuant to Act 48 Vic. No. 18, sec. 105.

Department of Lands,  
Sydney, 8th May, 1894.PROPOSED RESUMPTION OF PUBLIC SCHOOL SITE  
AT BURGANBIGIL AND RE-DEDICATION FOR  
MECHANICS' INSTITUTE AND PUBLIC SCHOOL  
SITES.

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the Public School site at Burganbigil, area 2 acres, viz., portion 70, parish of Mundiwa, county of Townsend, dedicated 24th October, 1882, and hereunder described, with a view to the dedication of 2 roods thereof for site for Mechanics' Institute, and to the rededication of the remainder, 1 acre 2 roods, for Public School site.

[Ms. 94-1,809 Ind.]

HENRY COPELAND.

## DESCRIPTIONS.

## Area proposed to be resumed.

County of Townsend, parish of Mundiwa, area 2 acres, portion 70: Commencing on the south-western side of a road 1 chain wide, at a north-eastern corner of portion 71 of 20 acres; and bounded thence on the north-east by that road bearing south 59 degrees 44 minutes east 3 chains and 77 links; on the east by a road 1 chain wide dividing it from part of portion 15 of 215 acres 3 roods bearing southerly 5 chains and 19 links; on the south by a line dividing it from portion 71 aforesaid bearing west 3 chains and 25 links; and on the west by an eastern boundary of that portion bearing north 7 chains and 9 links, to the point of commencement,—as shown on plan catalogued P. 854-1,978.

## Mechanics' Institute site proposed to be dedicated.

County of Townsend, parish of Mundiwa, containing an area of 2 roods: Commencing on the west side of a road 1 chain wide at the north extremity of the easternmost boundary of portion 71 of 20 acres (reserve No. 2,959, notified 29th May, 1882, for Public School paddock); and bounded thence on the south by part of a north boundary of that portion bearing west 92 links; thence on the west by the east boundary of portion 70 of 1 acre 2 roods bearing north 7 minutes east 5 chains and 71½ links to the south-western side of a road 1 chain wide; thence on the north-east by part of that side of that road bearing south 59 degrees 48 minutes east 1 chain 6½ links to the west side of the 1-chain road first above mentioned; and

thence on the east by part of that side of that road bearing south 7 minutes west 5 chains and 18 links, to the point of commencement,—to include measured portion 74, as shown on plan catalogued T. 3,863-1 803.

## Public School site proposed to be dedicated.

County of Townsend, parish of Mundiwa, area 1 acre 2 roods: Commencing on the south-western side of a road 1 chain wide, at the north-west corner of portion 74 of 2 roods; and bounded thence on the east by the west boundary of that portion bearing south 7 minutes west 5 chains 71½ links; thence on the south by part of a north boundary of portion 71 bearing west 2 chains 33 links to the extremity of that boundary; thence by an east boundary of the portion bearing north 7 chains and 9 links to the south-western side of the road first above mentioned; and thence on the north-east by part of that road bearing south 59 degrees 44 minutes east 2 chains 70½ links, to the point of commencement,—to include portion 70, as shown on plan catalogued P. 854-1,978.

Department of Lands,  
Sydney, 8th May, 1894.PROPOSED RESUMPTION OF PUBLIC SCHOOL SITE  
AT COPPABELLA.

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the Public School site at Coppabella, area 2 acres and 36 perches, viz., portion 201, parish of Coppabella, county of Harden, dedicated 20th August, 1886, and hereunder described, with a view to portion thereof being set apart for roadway, and to the sale or other appropriation under the Crown Lands Acts of the remainder.

[Ms. 94-1,812 Ind.]

HENRY COPELAND.

## DESCRIPTION.

County of Harden, parish of Coppabella, containing an area of 2 acres 36 perches: Commencing on the right bank of Reedy Creek, at the southern end of the western boundary line of portion 202 of 8 acres; and bounded thence on the east by that boundary line bearing north 4 chains 22 links; on the north by a line bearing west 5 chains 27½ links to Reedy Creek; and thence on the west and south by that creek upwards, to the point of commencement,—being portion 201, as shown on plan catalogued P. 1,550-1,978.

Department of Lands,  
Sydney, 8th May, 1894.

**PROPOSED RESUMPTION OF SHOW GROUND AT WILCANNIA, AND DEDICATION FOR THE SAME PURPOSE IN LIEU.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the Show Ground at Wilcannia, area 20 acres, viz., portion 84, parish of Wilcannia, county of Young, dedicated 19th September, 1884, and hereunder described, with a view to sale or other appropriation under the Crown Lands Acts, and to the dedication in lieu for Show Ground of portion 88 of 14½ acres, in the same locality.  
[Ms. 94-1,811 Ind.]

HENRY COPELAND.

**DESCRIPTIONS.**

**Area proposed to be resumed.**

County of Young, parish of Wilcannia, suburbs of Wilcannia, 20 acres, portion 84: Commencing on the north-eastern side of a road 1 chain 50 links wide, at a point bearing north 37 degrees east; and distant 1 chain 50 links from the northern corner of portion 83 of 10 acres (recreation reserve); and bounded thence on the south-west by that road dividing it from that portion bearing south 53 degrees east 10 chains; on the south by a line bearing easterly 2 chains 62½ links; on the south-east by a line bearing north 37 degrees east 15 chains and 13½ links; on the north-east by a line bearing north 53 degrees west 12 chains and 9½ links; and on the north-west by a line bearing south 37 degrees west 16 chains and 71½ links, to the point of commencement,—as shown on plan catalogued W. 12-1,937.

**Show Ground proposed to be dedicated.**

County of Young, parish of Wilcannia, suburbs of Wilcannia, area 14 acres 2 roods: Commencing on the south-eastern side of Bonney-street, town of Wilcannia, at a point bearing south 53 degrees east and distant 2 chains from the easternmost corner of section 6; and bounded thence on the north-east by a line bearing south 53 degrees east 19 chains to a north-western boundary of reserve 5,356 for a police paddock, notified 11th February, 1888; on the south-east by part of that boundary of that reserve bearing south 42 degrees 43 minutes west 3 chains 24 links; on the south-west by lines forming the north-eastern sides of a road 1 chain 50 links wide bearing respectively north 88 degrees 18 minutes west 10 chains and north 53 degrees west 10 chains 52 links to the south-eastern side of Bonney-street aforesaid; and on the north-west by part of that side of that street bearing north 37 degrees east, to the point of commencement,—as shown on plan catalogued Y. 186-1,991.

Department of Lands,  
Sydney, 8th May, 1894.

**PROPOSED RESUMPTION OF PERMANENT COMMON AT RYLSTONE, AND RE-DEDICATION FOR SHOW GROUND AND PERMANENT COMMON.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884 it is proposed to revoke the dedication of the Permanent Common at Rylstone, area 130 acres, dedicated 5th May, 1865, and hereunder described, with a view to the dedication of 5 acres 2 roods 5 perches thereof for Show Ground, and to the rededication of the remainder, 124 acres 1 rood 35 perches, for Permanent Common.

[Ms. 94-1,810 Ind.]

HENRY COPELAND.

**DESCRIPTIONS.**

**Area proposed to be resumed.**

County of Roxburgh, parish of Rylstone, town of Rylstone, containing an area of 130 acres: Commencing at the intersection of the south side of Cudgegong-street with the left bank of the Cudgegong River; and bounded thence by that left bank of that river downwards to the north-east corner of John Tindale's 714 acres, portion 4, parish of Wells; thence on the west by part of the east boundary of that portion south to a point due west of the south-west corner of allotment 14 of section 1; thence on the south by a line east to a point on the west side of Carwell-street 1 chain west of the south-west corner of allotment 14 of section 1 aforesaid; thence on the east by that side of that street north to the south-east corner of the site for public pound; thence by the south, west, and north sides of that pound site, being lines bearing west 316½ links, north 316 links, and east 316½ links to the west side of Carwell-street aforesaid; thence again on the east by that side of that street north to the south side of Cudgegong-street aforesaid; and thence on the north by that side of that street west, to the point of commencement,—as shown on plan catalogued R. 1-1 219 Roll.

**Show Ground proposed to be dedicated.**

County of Roxburgh, parish of Rylstone, town of Rylstone containing an area of 5 acres 2 roods 5 perches: Commencing on the west side of Carwell-street, at the north-east corner of the site for public pound; and bounded thence on the south by the north boundary of that pound site and its prolongation, being a line bearing west 801⅙ links; thence on the south-west, north-west, and north by lines bearing north 15 degrees 19 minutes west 337⅓ links, north 33 degrees 56 minutes east 436½ links, and east 646⅗ links to the west side of Carwell-street aforesaid; and thence on the east by that side of that street bearing south 687⅙ links, to the point of commencement,—being portion 145, as shown on plan catalogued R. 2,003-1,496.

**Permanent Common proposed to be dedicated.**

County of Roxburgh, parish of Rylstone, town of Rylstone, containing an area of about 124 acres 1 rood 35 perches: Commencing at the intersection of the south side of Cudgegong-street, with the left bank of the Cudgegong River; and bounded thence by that left bank of that river downwards to the north-east corner of John Tindale's 714 acres, portion 4, parish of Wells; thence on the west by part of the east boundary of that portion south to a point due west of the south-west corner of allotment 14 of section 1; thence on the south by a line east to a point on the west side of Carwell-street 1 chain west of the aforesaid south-west corner of allotment 14 of section 1; thence on the east by that side of that street north to the south-east corner of the site for public pound; thence by the south and west boundaries of that pound site being lines bearing west 316½ links and north 316 links to the south boundary of portion 145; thence by part of that south boundary of that portion west to its south-west corner, and by its south-west, north-west, and north boundaries north 15 degrees 19 minutes west 337⅓ links, north 33 degrees 56 minutes east 436½ links, and east 646⅗ links to the west side of Carwell-street aforesaid; thence again on the east by that side of that street north to the south side of Cudgegong-street aforesaid; and thence on the north by that side of that street west, to the point of commencement.

Department of Lands,  
Sydney, 8th May, 1894.

**PROPOSED RESUMPTION OF PERMANENT COMMON AT ORANGE, AND REDEDICATION OF PART THEREOF FOR THE SAME PURPOSE.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the permanent common at Orange, area 508 acres, dedicated 2nd October, 1866, and hereunder described, with a view to the reservation of parts thereof for site for hospital for the insane and for public recreation and access, and to the rededication, exclusive of reservoir site, of the remainder, 278 acres, for permanent common.

[Ms. 94-1,450 Ind.]

HENRY COPELAND.

**DESCRIPTIONS.**

**Permanent Common proposed to be resumed.**

County of Bathurst, parish of Orange, area 508 acres: Commencing on the north boundary of George Watson's 711 acres, portion 67, parish of Benere, at the south-east corner of portion 39, parish of Orange; and bounded thence on the south by part of the north boundary of that portion bearing easterly to the left bank of Gosling Creek; thence on the south-east by that left bank of that creek downwards to a point due east of the north-east corner of portion 45; thence on the north by a line west to that corner; and thence on the west by a line, in part forming the east boundaries of portions 45, 31, and 39 aforesaid, south to the point of commencement.

**Permanent Common proposed to be dedicated.**

County of Bathurst, parish of Orange, 278 acres, portion 2-PC: Commencing on the north boundary of George Watson's 711 acres, portion 67, parish of Benere, at the south-east corner of portion 39; and bounded thence on the south by part of that north boundary of that portion, bearing north 89 degrees east 21 chains 55½ links to the left bank of Gosling Creek; thence on the south-east by that bank of that creek downwards to the western side of the road from Carcoar to Orange; thence again on the south-east and east by that side of that road, being lines bearing north 11 degrees 17 minutes east 3 chains 55 links, north 15 degrees 57 minutes east 3 chains 30 links, north 9 degrees 42 minutes east 3 chains 97 links, north 20 degrees 44 minutes east 18 chains 59½ links, north 11 degrees 31 minutes west 11 chains 48 links, north 7 degrees 35 minutes east 6 chains 78½ links, and north 25 degrees east 20 chains 13½ links; thence on the north by a line west 47 chains 30½ links to the north-east corner of portion 45; and thence on the west by a line in part forming the east boundaries of portions 45, 31, and 39 aforesaid south 80 chains 89 links, to the point of commencement,—as shown on plan catalogued Ms. 254 Oe.

Department of Lands,  
Sydney, 8th May, 1894.

**PROPOSED RESUMPTION OF EXTENSION TO PERMANENT COMMON AT TAMWORTH AND REDEDICATION OF PARTS THEREOF FOR GENERAL CEMETERY AND EXTENSION TO PERMANENT COMMON.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the land at Tamworth, area 1,450 acres, dedicated 16th November, 1886, for extension to Permanent Common and hereunder described, with a view to the dedication of 13 acres 3 roods 24 perches thereof for General Cemetery, the reservation of 33 acres 1 rood 16 perches for plantation and cemetery extension, and the rededication, exclusive of road, of the remainder 1,393½ acres, for extension to permanent common.

[Ms. 94-1,808 Ind.]

HENRY COPELAND.

**DESCRIPTIONS.**

**Area proposed to be resumed.**

County of Inglis, parish of Tamworth, containing an area of about 1,450 acres: Commencing at the north-east corner of the permanent common at Tamworth, as dedicated 22nd October, 1866; and bounded thence on part of the south by the north boundary of that common bearing west 140 chains 55 links; thence on part of the east by part of the west boundary of the permanent common aforesaid bearing south to the north-east corner of portion 67; again on the south by a line partly forming the north boundaries of that portion and portions 68 and 69 bearing west to the east boundary of portion 71; thence on part of the west by part of the east boundary of that portion north to its north-east corner; on the remainder of the south by a line partly forming the north boundaries of the last-named portion and portions 72, 73, 74, and 75, bearing west to the east boundary of George Jenkins' 612 acres; on the remainder of the west by part of the east boundary of that land north to its north-east corner; thence by a line bearing north 89 degrees 45 minutes east 72 chains and 73 links to the south-west corner of portion 59, parish of Woolomol; thence by the south boundary of that portion to its south-east corner; thence by a line bearing north 89 degrees 43 minutes east 54 chains and 32 links to the south-west corner of portion 68, parish of Woolomol; thence by the south boundaries of that portion and portion 67, in the same parish, and their prolongation due east, in all 72 chains and 20 links, to a post marked broad-arrow over PC over 1880; thence on the east by a line south to the point of commencement.

**General Cemetery proposed to be dedicated.**

Parish of Tamworth, county of Inglis, area 13 acres 3 roods 24 perches: Commencing at a point bearing south 13 degrees 32 minutes west, and distant 23 chains 48 links from the south-east corner of portion 59, Joshua Dowe's 35 acres 3 roods; and bounded thence on the east by a line bearing south 11 chains 79 links; on the south by a line bearing west 11 chains 79 links; on the west by a line bearing north 11 chains 79 links; and on the north by a line bearing east 11 chains 79 links, to the point of commencement,—as shown on plan catalogued Ms. 111 Th.

**Area proposed to be dedicated for extension to Permanent Common.**

County of Inglis, parish of Tamworth, containing an area of about 1,393½ acres: Commencing at the north-east corner of the permanent common at Tamworth, dedicated 2nd October, 1866; and bounded thence on part of the south by the north boundary of that common bearing west 140 chains 55 links; thence on part of the east by part of the west boundary of the permanent common aforesaid bearing south to the north-east corner of portion 67; again on the south by a line partly forming the north boundaries of that portion and portions 68 and 69 bearing west to the east boundary of portion 71; thence on part of the west by part of the east boundary of that portion north to its north-east corner; on the remainder of the south by a line partly forming the north boundaries of the last-named portion and portions 72, 73, 74, and 75, bearing west to the east boundary of George Jenkins' 612 acres; on the remainder of the west by part of the east boundary of that land north to its north-east corner; thence by a line bearing north 89 degrees 45 minutes east 72 chains and 73 links to the south-west corner of portion 59, parish of Woolomol; thence by the south boundary of that portion to its south-east corner; thence by a line bearing north 89 degrees 43 minutes east 54 chains and 32 links to the south-west corner of portion 68, parish of Woolomol; thence by the south boundaries of

that portion and portion 67, in the same parish, and their prolongation due east, in all 72 chains and 20 links, to a post marked broad-arrow over PC over 1880; thence on the east by a line south to the point of commencement, but exclusive of the area of 13 acres 3 roods 24 perches for General Cemetery, and of an area of 33 acres 1 rood 16 perches for plantation and extension to cemetery,—as shown on plan catalogued Ms. 111 Th.; also, of the area within the road 150 links wide from Moree Creek to Tamworth, passing along the east boundary of the reserve for plantation and extension.

Department of Lands,  
Sydney, 8th May, 1894.

**PROPOSED RESUMPTION OF PERMANENT COMMON AT BEGA AND REDEDICATION FOR GENERAL CEMETERY AND PERMANENT COMMON.**

It is hereby notified, for public information, that in accordance with the provisions of the 105th section of the Crown Lands Act of 1884, it is proposed to revoke the dedication of the permanent common at Bega, area 506½ acres, dedicated 19th May, 1868, and hereunder described, with a view to the dedication of 14 acres thereof for General Cemetery, and to the rededication, exclusive of hospital site and roads, of the remainder, 468½ acres, for permanent common.

[Ms. 94-2,617 Dep.]

HENRY COPELAND.

**DESCRIPTIONS.**

**Area proposed to be resumed.**

County of Auckland, parish of Bega, area 506 acres 2 roods: Commencing on the eastern side of a road 1 chain wide, at a point bearing east and distant 1 chain from the south-east corner of portion 59; and bounded thence by a line bearing north, forming the east side of the road aforesaid, the west side of which forms the east boundaries of portions 59, 58, 57, and 56, to a point east from and 1 chain distant from the north-east corner of the portion last named; thence by the south side of a 1-chain road, the north side of which forms the south boundary of portion 67, bearing east to the south-western side of a 1-chain road, the north-eastern side of which forms the south-western boundaries of portions 35, 34, 33, 32, 31, and part of the south-western boundary of portion 30; thence by that side of that road bearing south-easterly to meet the intersection of the north side of a 1-chain road, the south side of which forms the north boundaries of portions 101, 100, 99, and 166; thence by that side of that road bearing west, to the point of commencement.

**General Cemetery proposed to be dedicated.**

County of Auckland, parish of Bega, area 14 acres: Commencing at a point on the north side of a 1-chain road bearing north 61 degrees 35 minutes west and distant 2 chains 10 links from the north-east corner of portion 100; and bounded thence by a line bearing north 42 degrees 38 minutes east 2 chains 79½ links; thence by a line bearing north 55 degrees 54 minutes east 10 chains 8½ links to the south-western side of a road 1 chain wide; thence by part of that side of that road bearing north 31 degrees 44 minutes west 8 chains 35 links; thence by a line bearing west 9 chains 12 links; thence by a line bearing south 14 chains 81 links to the north side of the 1-chain road first aforementioned; and thence by part of that side of that road bearing east 3 chains 16½ links, to the point of commencement,—as shown on plan catalogued Ms. 356-Ca.

**Permanent Common proposed to be dedicated.**

County of Auckland, parish of Bega, containing an area of 468 acres 2 roods: Commencing on the eastern side of a road 1 chain wide, at a point bearing east from the south-east corner of portion 59; and bounded thence by a line bearing north forming the east side of the road aforesaid, the west side of which forms the east boundaries of portions 59, 58, 57, and 56, to a point east from the north-east corner of the portion last named; thence by the south side of a 1-chain road, the north side of which forms the south boundary of portion 67, bearing east to the south-western side of a 1-chain road, the north-eastern side of which forms the south-western boundaries of portions 35, 34, 33, 32, 31, and part of the south-western boundary of portion 30; thence by that side of that road bearing south-easterly to meet the intersection of the north side of a 1-chain road, the south side of which forms the north boundaries of portions 101, 100, 99, and 166; thence by that side of that road bearing west, to the point of commencement. But exclusive of portions 188 and 105, dedicated for purpose of hospital site and extension, and of the area of 14 acres measured as a site for General Cemetery and plantation,—as shown on plans catalogued respectively A. 2,306-2,098, A. 1,550-2,098, and Ms. 356 Ca.; also, of the road passing along the south-eastern boundary of the Cemetery and of the road from Merimbula to Bega passing along the south-western boundary of the hospital site.

1894.

# ANNUAL REPORT.

To the Honorable Thomas M. Slattery, Esq., M.P., Minister for Mines and  
Agriculture, &c.

Sir,

I have the honor to submit to you the following report upon the working of the Department under your control during the year 1893, having regard, however, chiefly to the progress of mining and the results obtained during the year.

STATEMENT of the Number of Papers registered and Letters despatched by the several Branches  
of the Department of Mines and Agriculture.

|   | Papers Registered. |                  | Letters Written. |                  |
|---|--------------------|------------------|------------------|------------------|
|   | 1892.              | 1893.            | 1892.            | 1893.            |

\* Exclusive of applications to lease. † Returns and circulars not registered this year. ‡ Exclusive of caretaker's reports. § This number is exclusive of *Gazette* and seed applications. || This number includes partly printed advices and particulars of seeds and publications despatched. ¶ Exclusive of printed forms, circulars, and telegrams, and Executive minutes.

The depression which was referred to in my report for 1892 I regret to say has continued throughout the year 1893. Advantage has been taken of this fact to clear off arrears and to get the work into such shape as shall enable the staff to cope with any accession of work that may be cast upon it by reason of any revival of mining enterprise, or the passage of new legislation.

During the year the mining division of this Department was deprived of the valuable services of the Assistant Under Secretary, Mr. G. E. Herring, in consequence of the need for retrenchment, and of the Chief Draftsman, Mr. W. S. Campbell, who was transferred to the position of Chief Clerk in the Department of Agriculture and Forests. Both of these gentlemen were connected with the Mining Department since its establishment. The services of Mr. Geological Surveyor Anderson were also dispensed with for the same reason.

It affords me great pleasure to acknowledge the zeal and ability with which the heads of branches and the officers under them have performed their duties, and the ready assistance they at all times afford me.

To Mr. David McCulloch I am specially indebted for the valuable assistance he has given me in the compilation of this report.

With respect to the acquisition of lands for mining purposes:—

The number of applications made to lease Crown lands for mining purposes during 1893, was 869, or 199 less than the number made during 1892. Of these 869 applications to lease made during last year, 603 were for auriferous land, comprising an area of 3,587 acres 1 rood 14 perches, and 266 were for mineral land, comprising an area of 13,908 acres 2 roods 36½ perches.

The number of applications dealt with in 1893 was 828—a decrease of 584 as compared with 1892. Every effort has been made to deal speedily with such applications.

Of the 828 applications dealt with, 517 were for gold-mining leases, embracing an area of 3,233 acres 2 roods 26½ perches, and 281 were for mineral leases, comprising 15,593 acres 2 roods 3 perches.

The area of auriferous land applied for in 1893 was less by 399 acres 1 rood 23 perches than the previous year, and the area of mineral land applied for during the same period was less by 9,966 acres 2 roods 31½ perches.

LAND applied for to be leased during 1893, and minerals to be mined :—

|                                     |       |       |                                   | 17,496 | 0 10½ |

The above table shows a decrease of over 10,000 acres on the land applied for in 1892, which occurs principally in coal, gold, silver, silver and lead and tin, but there is a slight increase in opal, diamonds, and several other minerals. The reduction in the area of land taken up for coal is no doubt due to the depression in the coal trade, and the low price of silver has had the effect of reducing the demand for land containing deposits of silver and lead. The decrease in the area of auriferous land taken up in 1893 may be to some extent due to the general depression, but it is probably to some extent attributable to the increased demand for permits to search for gold on alienated lands

AREA held under application to lease on 31st December, 1893.—

| Ochre .....                         | 20    | 0 0   |                                   |       |       |
|                                     |       |       |                                   | 6,571 | 0 16½ |

The area held under application to lease on the 31st December, 1893, as shown by the foregoing table was 6,571 acres 16½ perches, as compared with 12,160 acres 2 roods 37 perches so held on the same date 1892, a decrease of 5,589 acres 2 roods 20½ perches. This is, of course, due to the reduced number of applications to lease made during the year.

| Total .. . . . . .                           | 30,157           | 1  | 25  | 47,461                                 | 3  | 35½ | 2,361                             | 1  | 33 | 79,980 | 3  | 13½ |

The above table shows a considerable decrease on the previous year, and is due principally to the cancellation of a large number of leases, either for the non-observance of the labour conditions or for non-payment of rent, a few being either surrendered, or abandoned. The total number so cancelled was 1,633 embracing an area of 52,202 acres 1 rood 18 perches, of which 608 were gold-mining leases covering an area of 4,252 acres 3 rood 39 perches, the balance being mineral leases comprising an area of 47,949 acres 1 rood 19 perches. The total number of leases cancelled in 1892, was 1,690 covering an area of 92,156 acres 3 roods 2½ perches.

The number of application received for permits or authorities under sections 27 and 28 of the Mining Act to mine on, or under reserves during last year was 219, an increase of 38 as compared with the number received during 1892. The number of permits dealt with in 1893, was 186, as compared with 224 in 1892, a decrease of 38. The area of land embraced by the permits and authorities granted in 1893, is less by 36,303 acres 0 roods 36½ perches than the area so granted in 1892. The principal decrease being in coal, and coal and shale, the decrease in the coal being 8,063 acres, and in coal and shale 28,255 acres.

Table showing area of reserved land comprised in permits and authorities granted during the year 1893, and the minerals to be mined thereunder:—

|                             |        |   |    |
|-----------------------------|--------|---|----|
| Coal .. . . . . .           | 1,941  | 1 | 4  |
| Coal and shale .. . . . . . | 13,661 | 2 | 0  |
| Shale .. . . . . .          | 1,280  | 0 | 0  |

|                                | 19,455 | 2 | 0  |

Table

Table showing areas comprised in authorities (secs. 27 and 28) which were in force on 31st December, 1893:—

|                         | a.     | r. | p. |
|-------------------------|--------|----|----|
| Coal .....              | 18,565 | 0  | 6  |
| Coal and shale.....     | 1,293  | 3  | 0  |
| Shale.....              | 8      | 2  | 32 |
| Limestone.....          | 10     | 0  | 0  |
| Tin .....               | 144    | 0  | 14 |
| Copper .....            | 58     | 2  | 18 |
| Copper and cobalt ..... | 4      | 0  | 28 |
| Antimony .....          | 57     | 1  | 15 |
| Gold .....              | 98     | 0  | 14 |
|                         | <hr/>  |    |    |
|                         | 20,239 | 3  | 7  |

The foregoing tables comprise all lands occupied for mining purposes other than alienated land, and Crown lands held under miners' right or mineral licenses. The area comprised in these exceptions is considerable, but the exact area is not known.

The following information has reference to the search for, or the removal of, minerals from alienated lands:—

The number of applications for permits under section 45 of the Crown Lands Act of 1884 to dig and search for gold received during 1893 was 278, as compared with 194 received in 1892, an increase of 84, and the number dealt with in 1893 was 259, as compared with 148, the number dealt with in 1892, an increase of 111. The total number of permits in force on the 31st December, 1893, was 151, an increase of 12 in the number in force on the 31st December, 1892.

The number of applications for authorities under the Mining Act of 1839 to dig and search for gold or other minerals received during 1893 was 422, being an increase of 213 on the number received in 1892. The number dealt with was 412, an increase of 206 on the previous year. The number of permits in force on the 31st December, 1893, was 169, as compared with 96, the number in force on the 31st December, 1892.

The number of applications for permits under section 7 of the Crown Lands Act of 1884 to win and remove gold and minerals reserved under the Crown grants of private lands received during 1893 was 189, an increase of 95 on the previous year. The number of such applications dealt with in 1893 was 132, an increase of 76 on 1892. The number in force on 31st December, 1893, was 224, and the number in force on the 31st December of the previous year was 185, an increase of 39.

The royalty received from alienated land during 1893 was £3,544 10s., and from Crown lands £14,463, an increase of £1,204 on the royalty received in 1892 from alienated lands, and of £6,759 13s. on the royalty from Crown lands, as compared with the previous year.

#### PROSPECTING BOARD.

During the year 1893 the Prospecting Board visited, amongst others, the following places:—

|               |                     |               |                |
|---------------|---------------------|---------------|----------------|
| Adelong       | Boro                | Denison Town  | Mandurama      |
| Albury        | Bowling Alley Point | Drake         | Markdale       |

1,004

The results obtained from the disbursement of the Vote during the past year have, on the whole, been satisfactory, so far as the number of discoveries made is concerned, but it is open to doubt whether the

the country receives the full benefit of these discoveries, inasmuch as, from various causes, the development of deposits is not in all cases prosecuted. This may possibly be due in some measure to the financial depression, which has rendered difficult the securing of the necessary capital. The experience of the past year in regard to subsidising parties sent out in search of new fields has been no less unsatisfactory than that of previous years.

The following extracts are taken from reports on the work of parties who are in receipt of aid from the 1893 Prospecting Vote :—

1. The Warden's clerk at Dalmorton reports that the Tower Hill Gold-mining Co. have struck the reef in their long tunnel, and free gold can plainly be seen in some of the stone. A lot of prospecting work has been done by this Company.

2. Carver and party, on Hawkins Hill, Hill End, struck a vein about 14 inches wide, which is estimated to carry from  $1\frac{1}{2}$  to 2 oz. of gold per ton. This is considered payable, and later reports say that the prospects are improving.

3. W. J. Blunt and party were aided to prospect a site situated at Cell's Creek, about 60 miles easterly from Walcha. The Warden at Kempsey, reporting on their operations, states that the party are now on a big lode showing free gold all through the stone and that steps are being taken to have a battery erected at once. This site is in comparatively new country.

4. R. Stoddart and party, at Copeland, received aid to sink a shaft on their claim at Cobark, about 14 miles from Copeland. At 46 feet the party were successful in striking the reef, which proved to be unusually rich, the stone being thickly studded with gold. This is a very important discovery, and has tended to liven up mining matters in this district considerably, which for some time past has been in a languishing condition.

5. John Bolhorn and party were aided to put in a tunnel at Quartz Ridge, 15 miles from Hill End, and at about 400 feet struck a large reef loaded with mundic, and carrying fine gold. This is a very promising reef, and the party propose having a bulk test of the stone made in Sydney.

6. Thomas Dwyer and party, Mount Carrington, Drake (so the Warden's clerk at Drake reports), made a rich discovery of gold at the Great Northern Mine. While engaged cutting a drain to direct the water from the shaft the party struck some large blocks of stone which proved to be of extraordinary richness, some of the specimens being about one-fourth gold. The party have been in receipt of prospecting aid for some time, and were making preparatory arrangements to resume sinking when the discovery was made.

7. Oxenbridge and party have been receiving aid for some considerable time to test certain alluvial ground at Tia, about 17 miles from Walcha, and after putting in about 400 feet of tunnelling, they have succeeded in striking good gold, with splendid prospects. The present wash-dirt is stated to carry on an average  $1\frac{1}{2}$  oz. per load, occasionally showing some very pretty nuggets. The wash-dirt at this place is overlapped with basalt, and is supposed to be a continuation of the lead formerly worked at Nuggetty Gully, Nowendoc. The old river-bed can be traced in that direction from Tia for over 12 miles.

8. Aubery, Fox, and party were aided to further test the Hong Kong lease at Mount McDonald, and the Warden's bailiff reports that a parcel of 23 tons of stone yielded 106 oz. of gold.

9. John Weinhold, in receipt of aid to prospect a piece of ground near the township of Trunkey, struck a very rich leader in the 20-ft. drive which is estimated to go about 100 oz. per ton. In the drive at the 40-ft. level the party struck a vein averaging about 2 feet thick, and estimated to yield from 2 to 4 oz. per ton.

10. Henry Fitch and party received aid during the early part of the year to further prospect their mine, known as the Young O'Brien, near Grenfell. Their shaft was continued to a depth of 175 feet, when a new make of stone was met with, quite distinct from the old blocks of stone above, and which showed very fair gold. The party opened out at this level, and drove 71 feet north and 29 feet south along the reef. The reef has now been proved to be  $4\frac{1}{2}$  feet thick, and has every indication of being more persistent than most other veins in the locality. A crushing of 218 tons of stone from the 171-ft. level yielded 162 oz. 5 dwt. of gold, the result of nine weeks' work. The two previous crushings from the drive were 95 oz. from 126 tons, and 99 oz. from 147 tons. These returns are highly satisfactory, and have given quite an impetus to reefing in the Grenfell district.

11. Warden Wotton reports that Sutton and party, who were receiving aid to test their claim near Hill End, have struck a splendid reef about 15 inches thick, and 400 lb. weight of the stone taken from the cap of the reef yielded 30 oz. of gold.

12. Maloney and party were aided to put in a tunnel into the Red Hill at King's Plains, and were successful in striking a very nice sandy rubble wash, about  $2\frac{1}{2}$  feet thick, which prospects about 3 dwt. to the load. Its width has been proved to be about 180 feet, and is expected to pay well when the party get into full work.

13. Heinz Hooper and party have been in receipt of aid for some time back to thoroughly prove the Township Hill at Kiandra for alluvial gold, and have at last struck a very promising wash, yielding fully 1 dwt. of gold to the load, which is considered very satisfactory. Their tunnel is over 500 feet into the hill.

14. R. McPherson and party, working the Drysdale Mine at Mount Billagoe, near Cobar, write to the Department as under :—"No further prospecting assistance is required for our Perseverance Claim at Mount Billagoe, as we have struck good payable gold." This discovery has led to the vigorous resumption of prospecting operations on this field, a large number of men being now on the ground. A crushing from this claim of 125 tons yielded the magnificent return of 1,297 oz. of smelted gold, and silver at the rate of 5 oz. per ton.

15. Penhall and party, whose claim is at the Old Billagoe, about  $2\frac{1}{2}$  miles north of the Drysdale Mine, are also obtaining payable gold. This mine was aided out of the 1892 Vote.

16. M. Lynch and party, Tichborne, received aid about the end of the year to test a piece of entirely new ground, situated about 4 miles from Parkes, on the Forbes Road. They bottomed at a depth of 93 feet on nice dry wash, about 1 foot thick, which yielded 42 dwt. from 7 loads of dirt. The width of the wash has been proved at this point to be 16 feet, and is comparatively dry. The party have named it "Slee's Lead," in honor of Mr. Slee, the Chief Inspector of Mines, who, as a member of the Board, inspected the site and recommended the aid in this case.

17. E. Lawlor and party received aid about the middle of 1892 to sink a shaft at Forest Reefs on church and school lands. After about fifteen months' work the party have been successful in striking the wash at a depth of 170 feet, which is proved to be 72 feet wide, averaging 12 inches in thickness, and yielding  $\frac{1}{2}$  oz. of gold to the load. This party hold an area of 25 acres, and it is expected this discovery will shortly lead to the employment of a large number of men.

18. Chesher, Sully, and party were aided during the year to sink a shaft on the South Lead, near Forbes, and have succeeded in bottoming at a depth of 210 feet on very good prospects. It is believed this lead can be traced for miles, and although the water is somewhat troublesome, it is hoped that before long employment will be found for a large number of men in the locality.

19. Thomas Elliott and party were also aided to test their gold lease at Chambigne, about 17 miles from Grafton, by driving from the bottom of their 60-foot shaft. At a point 63 feet from the bottom of the shaft the reef was struck, which was highly charged with mineral and very promising in appearance. Its value has been tested by a bulk sample being treated in Sydney, which yielded 3 oz. per ton. Reef, 15 inches wide.

20. J. G. Mylecharane and party received aid during the year to further test their claim on the London Reef at Boney's Rock, in the Canowindra District. After sinking 250 feet they commenced to drive at the 250-ft. level, and from this drive raised 10 tons 7 cwt. of quartz, which returned 63 oz. 3 dwt. of gold.

21. Alexander Barnett has been in receipt of aid for some time to continue prospecting operations on Finch's Bald Hill, near Stuart Town. After putting in a tunnel a distance of 600 feet they struck payable wash, 3½ feet in thickness, which continues to thicken and prospect better as they go in. The ground is perfectly dry, and this discovery has been the means of starting several other tunnels along the hill in search of the same lead. It is considered that a large area of ground will be opened up in consequence, and provide much-needed employment to a large number of men in the district.

22. Alfred Luttrell received aid for his claim near the New Chum Hill, Kiandra, and the Warden reports that he has struck wash-dirt 9 feet in depth, averaging 2 grains to the dish. As the wash is at a very shallow level, he proposes to work it by sluicing.

23. Dalton and party were granted a small sum to cut a granite bar for the purpose of draining a swamp at Little Snowball Creek, in the Braidwood district. By this means the creek was made workable, and a considerable quantity of nuggetty gold has been got. The last nugget got weighed over 19 oz.

24. Marshall Bros., Specimen Gully, Hill End, have been in receipt of aid for some considerable time to continue operations in the above-named gully, and their perseverance has at last been crowned with success, having struck a vein 6 inches thick, estimated to yield 100 oz. per ton, with a prospect of its thickening as it goes down. In cross-cutting from another shaft, they also struck a mullocky vein, which shows payable gold.

25. The Baker's Creek No. 1 Extended Syndicate, Hillgrove, were aided to further test their mine, and were successful in striking Smith's reef, and the big reef worked by the Baker's Creek Co., both carrying gold. This will probably lead to the employment of a large number of men.

Mr. James Taylor, Government Metallurgist, has rendered valuable service to the Board in supervising the treatment of bulk samples, and advising as to the best methods of dealing with ores from different localities.

A parcel of 5 tons from the New Hargraves Company's mine was sent to Melbourne to be treated by the Otis process. This parcel was from a very large dyke met with in driving, but the returns from the stone did not come up to expectations.

#### GEOLOGICAL SURVEY.

The Government Geologist proceeded to Bowling Alley Point and Nundle on the 5th February, and made an examination of the belt of serpentine which traverses this country, and of the deposit of chromite which occurs in it, with the object of advising upon the question of specially reserving the land for mining for chrome iron ore.

On the 24th of the same month he visited Burradoo, and made an examination of a supposed diamondiferous drift in the parish of Mittagong, near Doudle's Folly Creek. Three small diamonds were said to have been found in the preliminary prospecting of this drift, but, although an expensive diamond-washing plant had been erected prior to Mr. Pittman's visit, and a considerable quantity of drift was treated, no more diamonds were discovered, and the work was ultimately abandoned. Mr. Pittman also visited the quartz-pebble drift, known as Southey's diamond-mine, and situated about 7 miles south-east of Mittagong. This drift somewhat resembles in character the diamondiferous drift of Bingara. It is stated that more than twenty small diamonds have been found in Southey's mine at different times, and it also contains fine gold, zircons, &c. A shaft was sunk some years ago to a considerable depth, and the spoil heap shows that it passed for some distance through a volcanic breccia. The shaft being full of water, no examination of the mode of occurrence of this rock could be made, and, with the object of throwing light upon the question as to whether there is any analogy between this deposit and that at the celebrated Kimberley mines of South Africa, a sum of money was granted out of the Prospecting Vote to aid the sinking of another shaft. The applicants for the aid, however, failed to take up the money, and in due course it lapsed.

In March, Professor David and Mr. Pittman made a joint examination of the Devonian rocks, in the neighbourhood of Rydal, with the object of settling a disputed question as to whether the fossil plant, *Lepidodendron Australe* does, or does not occur in rocks of greater age than the lower carboniferous. They proved that it does occur, associated with the marine fossils of the Devonian rocks. The question is of importance in connection with the classification of the geological formations. On the 20th March, Mr. Pittman inspected, and subsequently reported upon a galena lode, known as "Meyer's Reef," near Tarrago. He subsequently inspected the auriferous reefs at Scrubby Rush (between Woodstock and Mount M'Donald), where several applications had been made for aid out of the Prospecting Vote.

On the 6th June he visited Bowning, and advised as to the reservation from sale for mining purposes of a considerable area within Bogalara run.

In July he visited the Sugar-loaf reef, near Newbridge, and reported upon a number of applications for aid from the Prospecting Vote.

On the 23rd September, he inspected the Pitt Town settlement, and reported upon the question of the probability of artesian water being obtained there by boring.

In October, he inspected the Wellington temporary common, and reported upon a proposal to alienate a part of it. He also visited the Mitchell's Creek Mine, and inspected the working of the M'Arthur Forest process, which is in operation there upon a large heap of tailings. Owing to the presence in the tailings of a certain amount of copper, it is doubtful whether this process is the most suitable one that could be adopted, for not only is a considerable proportion of the cyanide of potassium wasted in dissolving

dissolving the copper, but the dissolved copper is subsequently deposited on the zinc shavings, and retards the action of the latter in precipitating the gold. Moreover the precipitated gold is found to be mixed with a large proportion of copper, with which, in the final smelting, it forms an alloy.

He, subsequently, inspected some land at Lewis' Ponds, which it was proposed to alienate.

During the greater part of November he, in company with Mr. Boulton, was engaged in travelling over a considerable area of the western district. He reported upon proposals for putting down bores for artesian water at Tarrion, near Brewarrina, and at the Quarry Reserve, near Bourke, and also reported upon a supposed auriferous deposit on Fort Bourke run. The deposit, however, proved to be worthless. During this trip he acquired much valuable information in regard to the cretaceous water-bearing basin, besides making several corrections on the geological map of the Colony.

He subsequently visited Gulgong, and conferred with the District Surveyor in regard to a proposed curtailment of the Common.

In December he inspected the newly discovered auriferous reefs north-east of Narrandera, and reported upon the question of the resumption of the conditional purchase in the parish of Fennel, upon which they are situated. He subsequently inspected the outcrop of a coal seam at Burragorang, and reported as to the advisability of prospecting it by boring with the diamond-drill. The seam is 5 feet 10 inches thick at its outcrop, and appears to consist of coal of good quality, with one half-inch band.

During the progress of the No. 2 Cremorne bore, which was put down under the supervision of the Superintendent of Diamond Drills, the Government Geologist made a detailed geological section of the strata passed through, and as the coal-seam was struck during his absence from Sydney, Professor David was good enough to examine the last 30 feet of the core.

During the first six months of the year Mr. Geological-Surveyor Wm. Anderson continued the detailed survey (begun the previous year) of the valley of the Shoalhaven River. His work was performed very satisfactorily, but on account of the financial depression, it became necessary to reduce the staff, and on the 30th June his services were dispensed with.

Mr. Geological-Surveyor J. E. Carne, F.G.S., has been absent nearly the whole of the year, having left Sydney on the 23rd January for Chicago, where he had charge of the New South Wales mineral exhibits at the World's Fair. The arrangement of these exhibits has met with general commendation, and reflects great credit upon Mr. Carne's care and industry. Mr. Carne visited a number of mines and smelting works in America. It is of interest to note that in some of the large silver smelting works he found that the coke used contained a much higher percentage of ash than the coke manufactured in this Colony, besides being of much lower density. He was informed that better results (from an economical point of view) were obtained, taking into consideration the difference in price between the American coke and the best imported.

Mr. Geological-Surveyor G. A. Stonier, F.G.S., has done a considerable amount of travelling during the year, having been engaged for the most part in investigating applications for aid out of the Prospecting Vote, and in examining areas of land within gold-fields, and reporting as to any objections to their alienation, &c.

Mr. Geological-Surveyor J. B. Jaquet, A.R.S.M., F.G.S., has devoted part of his time to the preparation of his report upon the geology of the Broken Hill lode, and also to the plans and sections illustrating it. The monograph is now in the press, and will probably be found to be well worth the time and labour which has been bestowed upon it.

Mr. Jaquet also made a careful examination of the Mount Allen Mine in connection with the question of paying compensation to the New Mount Hope Copper-mining Company on account of the resumption of their M.C.P., on which the Mount Allen Mine occurs. He also reported upon a silver lead lode at Balconon, near Queanbeyan; the gold and silver bearing lode, at Back Creek near Rockley; the alluvial gold deposits at Neville, near Carcoar, and the recently discovered auriferous deposits in Marsden's paddock, near Blayney.

Towards the end of the year Mr. Jaquet proceeded to Braidwood to take up the work which had been interrupted by the retirement of Mr. Anderson, and he is now engaged in mapping the auriferous drifts of the Shoalhaven. In a recent report by Mr. H. G. M'Kinney, M.I.C.E., to the Minister for Works, the practicability of bringing a supply of water sufficient to work these drifts by hydraulic sluicing is favourably spoken of, and it is hoped that the work now being performed by Mr. Jaquet will, in connection with that already foreshadowed by the officers of the Works Department, result in the providing of employment for a number of miners.

The recently appointed Curator of the Geological Museum, Mr. G. W. Card, A.R.S.M., F.G.S., has performed the duties of his office very satisfactorily, and has been of considerable assistance in the microscopical examination of rocks.

As a part of the necessary scheme of retrenchment, the building formerly occupied as a geological museum has been transferred into offices for a part of the Agricultural staff, and the mineral collection has been removed to the building in the Domain, lately used as the Technological Museum. This building is not altogether suitable for the display of the final collection now placed in it, and it is hoped that the arrangement will be only a temporary one.

A large amount of work has been done in the laboratory by and under the supervision of Mr. J. C. Mingaye, F.C.S. A total of 3,015 samples were received for analysis and assay during the year, and included in these were analyses of artesian and well waters, complete analyses of rocks, soils, fireclays, coals, &c., besides assays for various metals.

The Palæontologist, Mr. R. Etheridge, junior, has been engaged at the Australian Museum during the greater part of the year, in accordance with the request of the Trustees, and on account of the absence on sick leave of Dr. Ramsay, the Curator. Nevertheless, he has managed, with the assistance of Mr. Dun, to keep the current work of this Department fairly well up to date.

The management of the caves has been well looked after by the Superintendent, Mr. W. S. Leigh. On the 20th February, the keeper of the Jenolan Caves, Mr. J. Wilson, discovered another large and distinct branch of the Imperial Cave. The new cave is in point of beauty and interest equal to anything yet found. It has been reported upon by Mr. Leigh, who, in company with Messrs. Etheridge and Barber, has also during the year explored a number of caves in the Coolaman limestone, about 20 miles north-east of Kiandra.

During the year a new edition of the geological map of the Colony, embodying all geological work up to date, has been issued under the superintendence of the Government Geologist. Owing to the excellence of the colouring and lithographing the new map is considered to be a considerable improvement on anything of the sort previously issued by the Department. The printing was done in the lithographic branch of the Lands Department. The map has been awarded a medal at the Chicago Exhibition.

#### MINING SURVEYS, &c.

The number of mining surveys made during last year was 600; of these 386 were gold leases, 87 mineral leases, 32 mining permits, and 95 mining tenements; 559 were made by salaried, and the balance by non-salaried surveyors. The number of salaried surveyors employed was 5; and one—Mr. Edward Thomas—was also engaged for a considerable time in surveying the workings in various collieries in the Newcastle district; and the necessity for this work is shown by the serious discrepancies between the colliery plans and those prepared by Mr. Thomas. The number of applications awaiting survey on the 31st December was 45 gold leases, 7 mineral leases, 4 mining permits, and 9 mining tenements; total, 65, against 85 at the end of 1892.

#### *Charting.*

The total number of lease cases dealt with during the year was 752, as against 1,241 during the previous year, but as only 4 draftsmen were employed upon this class of work during 1893, the result is, I think, satisfactory. The number of 27th and 28th section applications dealt with was 208.

There has been a considerable increase in the number of applications for permits to search and to remove minerals and gold; and in connection with this work I wish to record the loss sustained by the Branch by the death of Mr. E. P. Mayes, who was a diligent and efficient officer and one highly esteemed by his comrades. Since May last this work has been entrusted to Mr. W. S. Gray, by whom it is being very satisfactorily performed. The number of applications under this section dealt with during the year was 719.

The work of charting up mining maps for the use of wardens, district surveyors, and mining surveyors has become very heavy indeed—662 having been completed and issued during the year, as against 543 in 1892. It is being performed by Mr. Oom, and, as it will continue to increase in accordance with the completion of new mining maps by the compiling draftsmen, it promises very soon to become greater than he can cope with unassisted.

The notation of plans is a valuable and responsible work, and is being very satisfactorily performed by Mr. James, who, during the year, has noted 5,387 plans, in addition to doing other miscellaneous work.

Owing to the small number of applications to lease which are coming in only four draftsmen are regularly engaged on charting; but a great deal of valuable miscellaneous work—the results of which may

may not be apparent to the general public—is being performed by the other draftsmen. In addition to what has already been specified I may mention that performed by Mr. Lee, which consists in charting proclaimed gold-fields and reserves, preparing descriptions, &c., and necessitates very close attention.

The branch generally is in a thoroughly efficient condition, all the officers appearing anxious to do their work well and quickly, and while an influx of leasing cases can be met promptly, there is enough work of a miscellaneous nature to keep every one fully employed.

*Compilations.*

Efforts are being made to expedite as much as possible the issue of new mining maps, as besides being of the greatest assistance to the public, they obviate the necessity for obtaining the maps in use by the Lands Department—a proceeding which often causes delay; and Mr. Bishop, the head of the compiling room, renders valuable assistance in this direction.

During the year 28 compilations, embracing 64 parishes or parts of parishes, have been put into office use, as against 29 compilations, embracing 47 parishes or parts of parishes, put into use during the previous year. Twenty-eight compilations were examined and completed, 29 compilations, embracing 67 parishes, were published, and 7 remained on hand in various stages.

Eighty-eight proofs of parish and town maps were received from the Lands Department, 87 were revised for mining work and returned, and 52 were adopted as mining maps and put into office use.

During the year an alteration, which is found to work well, was made in the system of compilation by placing maps, constructed by the staff draftsmen and laid down in outline only, in the hands of contract draftsmen specially qualified for the work, to write up and complete.

Herewith is a list of new maps published during 1893, and also a complete list of mining maps in use to date.

List of New Maps published during 1893.

| Parish or part of.     | County.                  | Parish or part of.              | County.                 |
