D. WEST, GOVERNMENT PRINTER, NEW SOUTH WALES—1981

The first part of the report deals with the general situation of the country. It is noted that the weather has been very dry and hot, and that the crops are suffering. The government has taken steps to provide relief to the people, and it is hoped that these measures will be successful.

The second part of the report deals with the financial situation. It is noted that the government has a large deficit, and that it is necessary to raise more money. It is suggested that the government should increase taxes, and that it should also borrow money from abroad.

The third part of the report deals with the political situation. It is noted that there is a great deal of unrest in the country, and that the government is having difficulty in maintaining order. It is suggested that the government should take steps to improve the situation, and that it should also hold elections as soon as possible.

The report concludes with a summary of the main points. It is noted that the country is in a very difficult situation, and that it is necessary to take immediate action. It is hoped that the government will be able to do this, and that the people will be able to overcome their difficulties.

The report is signed by the Secretary of the Board of Directors. It is dated the 1st day of January, 1915.
