Question put and passed.

Bill read a first time.

13. THE GOVERNOR'S OPENING SPEECH.—Mr Speaker reported that the House had this day attended the Governor in the Legislative Council Chamber, when His Excellency was pleased to deliver an Opening Speech to both Houses of Parliament. For greater accuracy, he had obtained a copy, which he laid upon the Table of the House, and ordered that it be recorded in the *Votes and Proceedings*, as follows:

HONOURABLE MEMBERS OF THE LEGISLATIVE COUNCIL, AND
MEMBERS OF THE LEGISLATIVE ASSEMBLY—

We are assembled here today to open the Third Session of the Forty-Second Parliament of New South Wales.

You have been called together to consider the Government's legislative and financial proposals, and to deal with other matters of importance to the citizens of this State.

Honourable Members will be aware of the visit to be made to this State early next year by Her Majesty the Queen and His Royal Highness, the Duke of Edinburgh. It is fitting that this visit is to be made in the year in which we celebrate the 200th anniversary of the discovery of the east coast of Australia by Captain James Cook.

Since the beginning of the last Session, the death has occurred of the Honourable Lawrence Edward Schofield, a Member of the Legislative Council, and Mr James Brunton Simpson, a Member of the Legislative Assembly and a former Minister. During their participation in public life these Members rendered devoted and unselfish service and their passing is a loss to this Parliament and to the community as a whole.

I also share with the Honourable Members their sorrow at learning of the recent death of a former Member of the Legislative Assembly and Premier of New South Wales, the Honourable Alexander Mair. Mr Mair was a Member from 1932 to 1946 and, in addition to other Ministerial Offices he held during this period, served with distinction as Premier from 1939 to 1941, the first years of World War II.

The past financial year was one of strong economic growth and development for New South Wales and for the Nation generally.

Drought conditions continued to affect the southeast corner of the State and the Cobar district for most of the year and, more recently, some areas in the northern part of the State have been affected. However, good seasonal conditions were experienced in most of the State and there was a substantial increase in rural output with record crops of wheat and rice.

6 August, 1969

Given reasonable seasonal conditions in the coming year there are good prospects for further rural growth.

Despite the buoyant conditions in the economy, however, the Government ended the year with a deficit, due mainly to very substantial increases in wage costs. Further increases are likely in the present financial year and these will add to the already difficult budgetary problems confronting the Government in providing, from within the limited resources available to the State, the essential public services required by the community.

The Maritime Services Board continues to make good progress with the works scheduled for completion during the first half of its ten year port development programme. The Darling Harbour South Reconstruction Scheme has been completed and work will now proceed on the modernization of Darling Harbour North.

The second container terminal at Balmain is expected to be commissioned towards the end of this year.

The Board is also proceeding with the necessary planning and investigations to give effect to the Government's decision to develop the northern foreshores of Botany Bay as a port and industrial complex.

At Newcastle the reconstruction of the western side of the Carrington Basin is planned for completion by mid-1970.

The Government is also undertaking a major expansion of the port facilities at Port Kembla.

Every effort continues to be made by the Metropolitan Water, Sewerage and Drainage Board, within the limits of available funds and resources, to expand water and sewerage services and during the year an all time record of 630 miles of water and sewerage mains were laid.

The \$34 million 120 inch second pipeline from Warragamba Dam to Prospect Reservoir has been virtually completed and work is now concentrated on the outlet works at Prospect.

Work will commence in the current year on the construction of a tunnel to link the Avon and Nepean Dams as part of the Board's \$117 million scheme for development of the Shoalhaven River Catchment.

Construction of country water supply and sewerage projects also continues at an accelerated rate.

The demand for electricity continues to rise and the Electricity Commission is providing new plant to meet the increase. The Wallerawang Power Station is being extended so as to treble its output. The Commission's Liddell power project is proceeding on schedule.

During the year the Grain Elevators Board was able to extend its bulk handling capacity by 30 million bushels to 162 million bushels, and thereby cope with last season's record intake of grain. The Board anticipates having available an additional 20 million bushels storage in the 1969-70 season, when it will be required to handle an estimated carry-over of 100 million bushels in addition to the new season's harvest.

The finding of market outlets for the greatly increased quantities of wheat now being produced is becoming a serious national problem, and negotiations are in train between Commonwealth and State authorities and representatives of the wheat industry to devise means whereby the threat to the price structure of over-accumulated stocks might be averted.

The new Homebush Stock Saleyards are operating very satisfactorily. Plans are in hand for the construction of a new farm produce market and associated commercial complex at Flemington which will be one of the most modern and best equipped of its type in the world.

The past year has seen major advances in the implementation of the Government's programme of water, soil and forest conservation works. Two major dams—Blowering on the Tumut River and Pindari on the Severn River—were brought into operation.

Work on the \$45 million Copeton Dam project on the Gwydir River is proceeding. Contracts have been let for three other dams—at Carcoar on the Belubula River, Lostock on the Paterson River, and Toonumbar on the Richmond River system, which are programmed to be operating in 1970-71.

The Government's programme for expansion in softwood afforestation is progressing and a further 21,800 acres will be planted during the current planting year.

6 August, 1969

The acquisition and dedication of land for nature conservation is given high priority by my Government and further additions are proposed to the system of National Parks, State Parks, Nature Reserves, and Historic Sites which already totals more than two and a quarter million acres.

Almost \$15½ million have been spent or committed by the Government in the past four years in assisting 425 industries to establish or expand in country centres. Funds made available to the Country Industries Assistance Fund last financial year were increased substantially to encourage the expansion of manufacturing and processing in country areas.

The strong overseas interest in investment in New South Wales is reflected in the increasing number of inquiries referred from this State's offices in London, New York, and Tokyo.

Following the successful New South Wales Engineering Trade Mission to South East Asia in 1968 it was decided that the mounting of State trade and investment missions, jointly sponsored by the Government and the State's leading manufacturing, commercial, and export groups, should become a regular feature of the State's promotional efforts.

Major industrial projects now pending or under construction within the State include the \$154 million extensions to steel production facilities at Port Kembla, a \$35 million aluminium smelter at Kurri Kurri, a \$36 million fertiliser plant at Newcastle, and a \$15 million wood chip venture at Eden.

Improvements in the Main Roads system of the State continued during the year. Another six-mile section of the Sydney-Newcastle Expressway was opened to traffic last December and a new bridge over the Hawkesbury River to link the completed sections of the Expressway is being planned for early commencement.

Tenders are being called for the construction of the first stage of the Western Distributor from the Sydney Harbour Bridge to Day Street, near Erskine Street, and early commencement of the road tunnel and associated roadworks to relieve traffic conditions in King's Cross is proposed.

Country State Highways are being progressively reconstructed and provided with a bitumen surface. The work on the Silver City Highway between Wentworth and Broken Hill, a distance of 165 miles, was recently completed.

Major bridges at Wentworth, Murwillumbah, and Deniliquin were also completed recently and others at Dubbo, Raymond Terrace, Bulahdelah, and Forbes will be completed this year.

Work is progressing at a most satisfactory rate on the Eastern Suburbs Railway and construction of the twin tunnels under King's Cross is now well advanced.

The new standard gauge trans-continental rail service, joining Sydney and Perth via Broken Hill, is expected to be in operation early next year and will bring a new era to interstate rail travel.

Delivery of 232 new single-deck buses for the Government's omnibus fleet will be completed in the near future and contracts have been let for the supply of an additional 200 single and 200 double-deck buses.

Replacement of the older vessels in the Government's ferry fleet will continue and the introduction of hovercraft services will be encouraged.

As a road safety measure, the results of the system of "Breathalyser" test have been most heartening since its introduction last December and a significant drop in the number of accidents, fatalities, and injuries has been evident in those areas in which the scheme is in use. The scheme will be extended over the whole of the State as equipment becomes available.

My Government continues to pursue vigorously its policy of law reform.

The first positive step by any Government in the Commonwealth towards a more scientific approach to the problem of crime prevention has also been taken in this State by the appointment of an Advisory Committee to consider the establishment of a Bureau of Crime Statistics and Research.

Work on the first new prison to be built in New South Wales for more than 50 years has been commenced at Cessnock where a \$2 million contract has been let for the construction of a modern prison complex.

Implementation of the Government's policy of increasing the strength of the Police Force is proceeding satisfactorily.

Particular attention is being given by my Ministers to requirements in education.

6 August, 1969

Approximately 768,000 students are currently enrolled in Departmental schools, compared with 747,205 at the census date last year, and the provision of adequate finance for educational purposes is placing an increasing strain on the State's resources.

However, new and improved facilities are being provided as rapidly as funds permit. Plans have been prepared for the early commencement of 64 high school projects and 263 primary school projects at a combined estimated cost of \$44 million. New Teachers' Colleges are under construction at Lindfield, Goulburn, and Shortland.

For technical education, 5 major projects are in progress, while a further 16 works are being planned for early construction at a total cost of \$12.6 million.

A progressive programme is well under way in all phases of education and will be pursued vigorously to the fullest extent possible with the resources available to the Government.

Work is under way on the construction of a new Government Office Block in Hunter Street, while in the country Government Offices have been completed at Goulburn and a new block is under construction at Grafton.

In addition to its normal home building programme, the Housing Commission is placing emphasis on the provision of housing in country and other centres where decentralized and major industries are being established or extended. Special attention will be given to the requirements of the Wollongong district to meet needs arising from major development proposals in the area.

Extension of the slum clearance and re-development programme at Waterloo is proposed and a major multi-unit housing project which will provide 430 dwelling units is to be undertaken by the Commission at Malabar.

To meet the continuing strong demand for homesites, high priority continues to be given to the subdivision of Crown land for building blocks. During the past year, 1,744 home sites were made available and further large scale subdivisions are in progress in the Metropolitan area and various country centres.

A progressive programme for the encouragement of tourism is being implemented. A branch office of the New South Wales Government Tourist Bureau will be opened in Adelaide in the near future and new Tourist Information Centres will open shortly at Albury and Tweed Heads.

Steady progress has been made in general health services during the past year and the occupation in November next of the new 300 bed Marsden Hospital at Parramatta will represent a milestone in the care of the intellectually handicapped.

An \$8 million contract has been let for the construction of a multi-storey Ward and Theatre Block at the Prince of Wales Hospital. This will be linked to a \$3 million Admission and Polyclinic Block just completed, to form one of the largest complexes of new hospital buildings in New South Wales.

In the field of child welfare, further emphasis has been placed on the provision of improved facilities. A major institution, designed in accordance with the most modern concepts in the training of delinquent youths, commenced operations at Kurri Kurri during the year. Provision for residential care for intellectually handicapped wards of the State has been made at Katoomba.

Mineral production in New South Wales continues to rise and in 1968 the total value amounted to approximately \$299 million, exceeding by nearly \$23 million the output value in 1967. However, revenue from mineral royalties again showed a substantial decrease for the year due to lower metal prices.

The Budget for 1969-70 will shortly be placed before you and you will be asked to provide for the public services of the State. VOTES AND PROCEEDINGS

OF THE

LEGISLATIVE ASSEMBLY

THIRD SESSION OF THE FORTY-SECOND PARLIAMENT

WEDNESDAY, 26 NOVEMBER, 1969

The House met pursuant to adjournment. Mr Speaker took the Chair.

Mr Speaker offered the Prayer.

1. PETITIONS.—

(1) **TEACHER STATUS.**—Mr Bannon presented a Petition from certain members of the New South Wales Teachers' Federation representing that over 16,500 teachers at present in the service of the New South Wales Department of Education have undergone the required course of recognised professional training available and are recognised as fully trained; that as from the introduction of three-year trained teachers to the teaching service in 1970, 1971 and 1972 the 16,500 two-year trained teachers will be professionally disadvantaged, both in status and salary; that the Public Service Board's proposals for the conversion of existing two-year trained teachers to three-year trained status are completely unacceptable to the teachers of this State; and praying that the Legislative Assembly will take the necessary steps to ensure that with the introduction of three-year trained teachers to the teaching service, all two-year trained certificated teachers be automatically and immediately granted three-year trained status. Certificated two-year trained teachers possessing 3/9ths of a degree or its approximation be granted three-year status immediately.

Petition received.

(2) **QUARRYING AT BASS POINT, SHELLHARBOUR.**—Mr Petersen presented a Petition from certain residents of the Illawarra region of New South Wales representing that Bass Point, Shellharbour, is an unspoiled headland and a sanctuary and breeding ground for numerous species of native water birds; that permission for Imperial Chemical Industries of Australia and New Zealand to quarry basalt in the area will create public nuisances, destroy the natural beauty of the area, lead to pollution of the foreshores and the destruction of breeding grounds of native birds; and praying that the Legislative Assembly will take action to have permission granted for Imperial Chemical Industries of Australia and New Zealand to quarry basalt at Bass Point withdrawn and for the zoning of the area to be restored to the classification of rural.

Petition received.

3. URGENCY—NURSING CONDITIONS.—Mr K. J. Stewart moved, That it is a matter of urgent necessity that this House should forthwith consider the following Motion, viz.: That in the opinion of this House because of the continuing and growing crisis in nursing in this State, the Government should act immediately to provide wage justice, improved working conditions and training procedures in order to attract young girls into the profession and to induce trained nurses to return to it.

Further, because of this serious situation, the Government should intervene at once in the matter of the log of claims presented by the Nurses Association of New South Wales to the Industrial Committee of the Hospitals Commission of New South Wales and agree to rates of pay, as an interim measure, comparable and relative to those received by females employed in commercial and industrial undertakings.

The Speaker said that in his view any discussion upon the Motion would inevitably impinge upon the matters before the Industrial Commission. Therefore, he was bound to rule so as to prevent a mischief which the *sub judice* rule was intended to obviate. Accordingly, he ruled the Motion out of order.

VOTES AND PROCEEDINGS
OF THE
LEGISLATIVE ASSEMBLY

THIRD SESSION OF THE FORTY-SECOND PARLIAMENT

WEDNESDAY, 11 MARCH, 1970

The House met pursuant to adjournment. Mr Speaker took the Chair.

Mr Speaker offered the Prayer.

1. LAND DEVELOPMENT CONTRIBUTION MANAGEMENT BILL.—The following Message from His Excellency the Governor was delivered by Mr Morton, and read by Mr Speaker:

A. R. CUTLER,
Governor.

Message No. 93.

In accordance with the provisions contained in the 46th section of the Constitution Act, 1902, the Governor recommends for the consideration of the Legislative Assembly the expediency of making provision to meet the requisite expenses in connection with a Bill to make provision relating to the levy, assessment and collection of a contribution in relation to the development of certain land within the Sydney region; to amend the Local Government Act, 1919, and certain other Acts; and for purposes connected therewith.

*Government House,
Sydney, 9 March, 1970.*

2. PRIVILEGE RAISED IN COMMITTEE.—Adverting to Thursday last when he ruled that a matter of privilege occurring in Committee could not be dealt with in the House unless formally reported to it from the Committee, The Speaker said that he had found that his ruling was in accordance with the long standing practice of the House of Commons, as reported in *May*: The House of Commons will not consider a matter of privilege arising in Committee unless the Committee formally reports the matter to the House.

A close examination had revealed that on the infrequent occasions during the past 50 years when a matter of privilege had arisen in a Committee, the Chairman had always declined to consider the matter and had always indicated that questions of privilege must be raised in the House. Following such an intimation by the Chairman of Committees, the Legislative Assembly had come to regard the initial notice of a point of privilege taken in Committee, as being reported tacitly by the Chairman when he made the Committee's formal report to the House at a later stage.

After close consideration, he had come to the conclusion that this practice was preferable to the more formal and strict procedure followed in the House of Commons.

11 March, 1970

The two basic principles involved were: First, that the Committee does not possess the authority to adjudicate upon matters of privilege, and secondly, the House may not take notice of matters not formally reported to it.

The Speaker further stated that these somewhat conflicting principles would, in his opinion, be best resolved in normal circumstances by adopting the practice that a contempt which takes place in Committee must immediately, briefly, and without debate, be brought to the attention of the Chairman, and then following the Chairman's usual report to the House, the matter may be raised before The Speaker by any Honourable Member feeling aggrieved. Accordingly, unless the House otherwise resolve, that would be the practice to be followed in the future.

Rulings given by the then Chairmen in 1908 and 1909—Hansard, volume 31, Second Series, page 2200 and volume 34, Second Series, page 1308—should be regarded as having been rendered obsolete by subsequent practice.

The Speaker recalled that as far as the matter giving rise to this present problem was concerned, he had ruled that it was a matter of order and not of privilege.

3. NOTICES OF MOTIONS AND QUESTIONS.—Mr Speaker called on Notices of Motions and Questions.

Point of Order: Mr McCaw submitted that as a petition for the winding up of Bonus Benefit Insurances Pty Limited was listed for hearing on Monday, 14 September, 1970, the matter was *sub judice*.

(3) AIR POLLUTION FROM CORRIMAL COKE WORKS.—Mr L. B. Kelly presented a Petition from certain citizens of Corrimal, Bellambi and Towradgi representing that there have been frequent emissions of smoke, odorous fumes and fly ash from pushing and quenching operations at the Corrimal Coke Works, owned by Bellambi Coal Company Limited; that air pollution and resultant fall-out caused by operations at these coke works constitutes a serious health hazard to residents and school children; and that the installation of control equipment at the Company's two other coke works, namely, Federal Coke Works and Mount Pleasant Coke Works, before Corrimal Coke Works, is unsatisfactory to the residents of the area; and praying that the Legislative Assembly will take the necessary steps to ensure installation of the necessary pollution control equipment at the Corrimal Coke Works without further delay.
