10. **THE GOVERNOR'S OPENING SPEECH.**—Mr Speaker reported that the House had this day attended the Governor in the Legislative Council Chamber, when His Excellency had been pleased to deliver an Opening Speech to both Houses of Parliament. For greater accuracy, he had obtained a copy, which he laid upon the Table of the House, and ordered that it be recorded in the *Votes and Proceedings*, as follows:

HONOURABLE MEMBERS OF PARLIAMENT HERE ASSEMBLED—

You have been called together to consider the Government's legislative and financial proposals for the Third Session of the Forty-Seventh Parliament of New South Wales.

The chief work of this Session will be the consideration of the Government's financial proposals. These proposals have been framed against the background of a sharp deterioration in Australia's national economy. As Australia's principal industrial, manufacturing and commercial State, New South Wales cannot but be affected by the serious downturn in national economic activity.

Adding to the problems of the national economic decline, the drought is now in its fortieth month and now affects nearly three-quarters of rural New South Wales. As a result, real net value of rural production in New South Wales is estimated to decline by forty per cent in 1982–83.

The impact of these factors together with the strong surge in wages on the State's finances has been compounded by a range of decisions by the present Federal Government, in particular the setting of interest rates at historically high levels and a massive change in Commonwealth funding to the States, at a cost to New South Wales of not less than one thousand million dollars annually.

Notwithstanding this combination of adverse factors without recent precedent, New South Wales retains great underlying strengths, in the richness of its resources, the diversity of its industry and the skills of its people. As a result of the investment and development policies followed for the past six

17 August, 1982

years, New South Wales will be in a stronger position than any other Australian State to achieve full recovery, as soon as there is a change in national economic policies to promote rather than retard growth. My advisers have consistently urged such a change of policy upon the Federal Government.

Beyond the primary responsibility of all Governments, the resolution of Australia's present problems will call for co-operation and the exercise of responsibility, restraint and common sense of the highest order, on the part of all sections of the community.

My advisers will continue to pursue these objectives:

The creation of jobs and the reduction of unemployment.

The diversification and growth of the State's industrial base.

The maintenance of a high standard of community and public services, with the emphasis on providing them in the areas of greatest need.

The lowest practicable level of State taxes and charges, consistent with the proper discharge of the Government's inescapable responsibilities, the needs and welfare of the whole community and the additional burdens imposed by the policies of the present Federal Government.

HONOURABLE MEMBERS—

Major changes are to be made to the State's financial administration to provide a more accountable public service and a more efficient and effective public sector.

The reforms include programme budgeting so as to improve the costing of government activities, the establishment of a Capital Works Unit and a widening of the powers of the Public Accounts Committee, as recommended by the Joint Parliamentary Committee.

The objective is to improve the presentation of financial information to the Government, the Parliament and the public and to improve further the Government's decision-making processes.

The Government will be introducing legislation to combat tax avoidance especially in the stamp duties field. Inspectorial staff charged with the responsibility of preventing tax avoidance will be increased.

Despite the national economic downturn, major projects in New South Wales involving the private and public sector totalling some \$24 billion are still either underway or proposed.

As part of the Government's programme for the orderly and progressive development of the State's coal fields, more than 45 new coal mining projects are under consideration. The capital investment is estimated at \$2.4 billion and will directly create over 6 000 jobs in mine and associated industries.

The recent release of 5 new coal tender areas is expected to yield about 15 million tonnes of coal a year.

Petroleum and gas exploration continues at a very high level. Most of the prospective areas of the State are now held under exploration licence, including an off-shore permit. Exploration expenditure proposals for 1982 are extremely encouraging and providing there is a recovery from the recent oil market "down turn", exploration activity in New South Wales for 1982-83 should be at its highest level.

The Government will continue to give the strongest possible encouragement to the State's development and energy needs.

My advisers are determined to take all necessary steps to ensure that the economic benefits of its massive electricity development programme are realised.

The unprecedented combination of factors which threatened to disrupt the State's power supplies at the beginning of the year called for the most vigorous response on the part of the Government.

The measures taken, together with the co-operation of the public and industry, have averted serious disruption so far this winter; but there can be no relaxation of effort until the security and capacity of the New South Wales power system is placed beyond all doubt.

The first 660 megawatt generating unit at Eraring Power Station has been commissioned. The remaining three units are to be progressively commissioned between now and 1984.

Work on the Bayswater and Mount Piper Power Stations is continuing, though some re-arrangement in commissioning dates will be necessary due to lower demand forecasts. When completed the two stations will add a further 3 960 megawatts to the State's generating system.

17 August, 1982

Conservation remains central to the Government's energy policies. Established programmes to encourage the more efficient use of all forms of energy will be strengthened.

The re-constitution of both the Energy Authority and the Electricity Commission will ensure the greatest possible efficiency of energy use in this State.

With the completion of the accelerated electricity generation programme, New South Wales will have, beyond question, Australia's best power system, fully equipped to meet the needs of industry and domestic consumers, at charges at least as favourable as any other State.

Under legislation enacted last year, the integration of existing gas undertakings in the Hunter Valley will enable the extension of natural gas to that area.

Following the completion of the Sydney to Newcastle gas and oil pipelines, supply of natural gas is now available to major industries in Gosford and Wyong.

Extensions of supply to Wagga, Cootamundra and Queanbeyan have now been completed. Supply to Young is expected this year and examination is proceeding in respect of supply to other major rural centres.

The Government is working closely with industry in proposals for the drainage of methane gas from the southern coal seams.

Port facilities are being developed to keep pace with projected shipping needs.

At Port Botany, the six berth container terminal complex is now fully operational. Planning is well advanced on a new and advanced crude oil discharge facility.

Work is proceeding to schedule on the deepening of the harbour at Newcastle and the construction of a third major coal loader through the private sector.

At Port Kembla, Stage 1 of the new coal loader, and the new multi-purpose berth, are scheduled for completion later this year.

My advisers view with considerable satisfaction the vastly improved coal loading performance in New South Wales, particularly through the Port of Newcastle in recent months.

The Government's extensive programme of country water supply and sewerage is continuing. In the Upper Hunter area, water supply and sewerage works estimated to cost \$75 million are to be given priority.

Major dams are under construction near Batemans Bay and Murwillumbah. The Glennies Creek and Windamere dams are proceeding steadily.

Stage 2 of the Power House Museum at Ultimo will proceed this year.

The restoration of the Mint Building as an historical museum is completed and the adjoining Hyde Park Barracks is due for completion this year. Elizabeth Farm at Parramatta, containing the oldest building in Australia, is being converted for use as a museum.

The Government's second five-year programme to upgrade the rail, bus and ferry operation is underway although some slowdown in activity may be necessary.

Major work will continue on the Gosford-Newcastle and Waterfall-Port Kembla rail electrification projects.

To meet freight demands, 20 diesel-electric locomotives and 150 coal wagons will become available this coming year. More new locomotives and freight wagons are on order.

The Government's acquisition programme for double-deck cars for suburban and inter-urban services is proceeding.

Two new Manly ferries are due for delivery by the end of the financial year and a new hydrofoil is to be ordered.

Delivery is expected of 90 Mercedes-Benz buses during the coming year.

The Government is pursuing its programme of improvements to bus/rail and bus/ferry interchange facilities.

Specially constructed vehicles have been registered as taxi-cabs for the transport of disabled persons.

17 August, 1982

Special attention will continue to be given to the road accident problem, with emphasis on the problems of drink-driving. The Government looks forward to receiving the findings of the Joint Parliamentary Standing Committee on Road Safety.

Major road projects include the Sydney–Newcastle Freeway, the deviation of the Hume Highway at Tumblong, the Parramatta By-Pass near Toongabbie, and the Western Freeway from Concord to Mays Hill. Sections of the Western Freeway from Concord to Silverwater and from Church Street to Mays Hill are to be opened to traffic later in the year.

In country areas, highway deviations are greatly improving traffic conditions in busy shopping and commercial centres. New bridges are being built at many sites.

The Government continues to give the highest possible priority to housing needs.

The New South Wales housing industry, which had recovered strongly in the years 1977 to 1981, has been drastically affected by the massive reduction in Commonwealth funding for welfare housing and record high interest rates.

This year \$33 million will be made available for a First Mortgage Loans Scheme to provide more than 700 homes for families at low interest rates.

An additional \$20 million will be made available to the Housing Commission to enable 600 more homes to be built for needy families.

The State Supplementary Housing Loans Scheme will continue to provide second mortgage loans for low to middle income families.

Trustee status has been granted to major permanent building societies. This will augment the flow of investment funds to assist homeseekers to acquire homes.

To encourage additional housing stock in urban areas, a programme for co-ordinated land releases is being developed to meet future needs.

Development of residential land by the Land Commission is continuing. Crown land lots to be released this year are expected to be over 2 500.

Last financial year, the Commonwealth abandoned the hospital cost sharing agreement. This has deprived New South Wales of an estimated \$180 million this year for the funding of public hospitals. This, together with the change in the trends in Sydney's population growth, has made absolutely imperative a major re-allocation of funds and re-organization of resources for public health services. The only alternative would be a catastrophic decline in the level of all hospital and health services, in both the inner and outer regions of Sydney.

New hospital facilities are planned to open this year at Mt Druitt, Liverpool, Camden, Nepean and Westmead.

The major services, ward and theatre block at Royal Prince Alfred Hospital, Camperdown, is expected to be completed later in the financial year at an estimated cost in excess of \$80 million.

Maternity services in the Western Region will be considerably strengthened with the expansion of neonatal intensive care facilities at Westmead Hospital.

Medical research units from Sydney University, Sydney Hospital and the Royal Prince Alfred Hospital will be incorporated to form Australia's only specialized cancer research institute.

Additional services for the developmentally disabled will be provided in the Eastern Suburbs of Sydney and the Illawarra Region.

Geriatric and rehabilitation services will be expanded in country areas.

The Government has continued to give high priority to overcoming disadvantage in education.

Special attention is being given to the needs of handicapped students. Some 78 additional teacher positions have been provided.

Community languages are now being taught in 41 primary schools.

In according a high priority to Aboriginal education, the Government is taking affirmative action by continuing to give absolute preference to Aborigines for the award of teacher education scholarships and in employment as teachers.

Although the general decline in pupil enrolments has continued, population movements have resulted in new schools being needed in new areas of residential growth.

17 August, 1982

The Government is constantly reviewing the courses and teaching facilities throughout the Technical and Further Education (TAFE) system in view of the changing demands of industry.

Enrolments are expected to reach a record in excess of 315 000 by the end of the year, with vocational courses increasing considerably.

In view of the substantial growth in enrolments for trade and technical courses, a major inner city college is planned at St Peters.

My Government remains deeply committed to the advancement of the rural sector of the New South Wales economy and the enhancement of the quality of life of the country people of New South Wales, who make so important a contribution to the welfare and prosperity of the whole State.

Despite the severity of the drought, to which I drew attention at the beginning of this Speech, the contribution of the rural sector to the strength of the State's economy and its trade remains of fundamental importance.

The Government will continue to provide assistance in the Drought Aid Programme to the fullest possible extent of its financial resources.

Excellent progress is being made in the Brucellosis Eradication Programme. State-wide provisional eradication should be achieved early next year, well ahead of schedule.

New and improved standards for poultry and meat processing have been introduced.

A new standard for milk based on protein content is proposed, to ensure quality maintenance.

The success of the Government's decentralization programme is demonstrated by the strong demand for Government loan assistance to new and expanding country industries.

To meet the demand for this valuable aid to the creation of employment opportunities, means of utilizing external funding to a greater extent through Government loan guarantees will be considered.

Project developments are becoming more regionally dispersed, with tourist and commercial construction playing a major role.

Development within the designated growth areas of Albury-Wodonga, Bathurst-Orange, and Macarthur will continue.

The Government continues to proceed with its objective of achieving balanced overall development of the Hunter Region.

The special assistance schemes designed to encourage job creation in Wollongong and the Western Sydney Regions will continue to be supported.

The Government's new Community Welfare legislation has enabled significant new initiatives to be taken in the fields of community welfare and social development. The provisions of the new Act are expected to be implemented by the end of the year.

Steps are being taken to ensure that child care and other facilities are provided in new land release areas.

A modern remand and assessment centre for children and young people at Glebe will be completed later in the year at a cost of some \$7 million.

Twenty-four hour family crisis units have been established at Newcastle and Wollongong.

The problems of people who are disadvantaged, homeless or need emergency accommodation are continuing to receive special attention.

The Government has fully funded a new insurance scheme for injured and deceased volunteer bush fire fighters.

Educational programmes have been initiated to assist Aborigines and people of ethnic minority in overcoming discrimination in the workplace.

During the current Session my Government will institute legislative reforms to alleviate the legal position of victims of domestic violence.

My Government will continue to give top priority to action needed to preserve jobs. The Government is concerned that demands for wage increases be moderated so that employment opportunities are not reduced.

The Government has taken special steps to encourage apprenticeship training and some 18 000 young men and women have been recruited in each of the past two years. Some 56 500 apprentices are expected to be in training by the end of the year.

Despite economic difficulties, it is necessary that industry continue to train our young people in the skills which will be required in future years.

The Government is committed to extending employment and training opportunities for women wishing to re-enter the workforce.

Job opportunities for women have been expanded in the Hunter Region as a result of the Government's Equal Opportunity Programme.

The Government is continuing to promote equal opportunity for persons of non-English speaking backgrounds.

My Government intends to legislate to achieve a restructuring of the health and safety regulations. The Government is determined to achieve a reduction in the accident rate and reduce the risk of injury to health as a result of processes or the use of materials and substances in the performance of work.

My Government will be legislating to replace the Workers' Compensation Commission with a State Compensation Board and a Compensation Court.

My Government will continue to ensure that its plans for balanced overall development will be complemented by positive action for the protection of the environment.

The Hunter Regional Plan, the result of many years of research, is the first comprehensive document produced in New South Wales for the management of resources.

In the Rocks area, a major commercial development is being negotiated which will incorporate unique energy saving devices, including solar collectors. A residential development, including a 500 vehicle car parking station, is also proposed.

In keeping with the Government's programme to develop its national parks, Botany Bay Headland National Park will be further extended. When fully established the Park will extend over 36 kilometres of coastline and contain one of the finest single collections of Australia's natural assets and historic landmarks.

The Sydney Harbour National Park is to be expanded by the addition of the 27 hectare Quarantine Station.

The planned Tomarce National Park will comprise about 27 kilometres of coastline north of Newcastle.

The tourist industry, which employs some 87 000 people, is of major importance to the economy of the State.

The proposed \$60 million tourist resort complex at Kingscliff on the far north coast will stimulate employment opportunities in the region.

The Government has entered negotiations aimed at developing a major tourist centre between Yamba and Angourie on the north coast.

Through the new Department of Leisure, Sport and Tourism there will be a new approach to the marketing of tourism.

Construction work will begin this year on an international standard indoor sports centre at Homebush Bay.

Proposals have been invited to develop Markets 1 and 2 in the Haymarket area to incorporate a convention centre for some 3 500 people.

Proposals have been called for the development of land in Bridge Street in the City which incorporates part of the site of the State's first Government House. This development will involve the preservation of several historic terrace buildings fronting Phillip and Young Streets.

The Sydney Entertainment Centre, which is being sponsored by my Government, will open next year.

The Government of New South Wales will continue to encourage and support the arts, especially in regional areas and disadvantaged areas.

My advisers believe that temporary economic difficulties in no way justify curtailment of support for the arts, but rather, provide a test of the maturity and confidence of our society.

Funds will be provided this financial year for the Sydney Theatre Company's new accommodation at Walsh Bay.

A Festival on the theme "Women and the Arts" will be held in October.

The re-opening of Bathurst Gaol has assisted in providing much needed accommodation within the Corrective Services system.

Parklea Gaol, to be commissioned next year, will be the first maximum security prison built in New South Wales in nearly a century.

Planning is proceeding on a fully integrated prison complex for all categories of women prisoners.

17 August, 1982

The Government will maintain its drive against drug trafficking. In addition to the Commonwealth/State Joint Task Force on Drug Trafficking, a joint Commonwealth/State Task Force has been established to examine wharf security.

The Government has established a Ministry of Police and Emergency Services to provide for the more effective co-ordination of effort and to facilitate overall planning and development.

Action will continue to implement the recommendations of the Commission of Inquiry into Police Administration.

The recommendations of the Final Report of Review of New South Wales Government Administration are currently being examined by the Government.

The Government will pursue its policy of decentralizing public sector office accommodation from the City to selected suburban locations. By the end of this year 80 staff from the Department of Co-operative Societies will be transferred to Parramatta and a further 500 Public Servants from other Departments will transfer to Parramatta during 1983. The Government State Office Block at Parramatta, which is being built by the Government Insurance Office, is expected to be completed in 1984 when the transfer of a further 1 000 Public Servants will commence.

The Government is implementing decisions flowing from the recommendations of the Review of Government Functions.

My Government, in consultation with the Commonwealth and other States, will take further steps to abolish the residual constitutional links with the British Government, so as to give constitutional and legal recognition to the independence of the Australian Federation and its constituent States including appeals to the Privy Council from State Supreme Courts on State matters.

The Government will also move for the establishment of a Joint Select Committee on Parliamentary Privilege to review and report upon whether any changes are desirable in respect of the law and practice of parliamentary privilege in this State.

Following extensive discussions with Aboriginal communities, my Government will introduce legislation for land rights to Aborigines in New South Wales and providing for the transfer of title over Aboriginal reserves to the local communities.

MEMBERS OF THE LEGISLATIVE ASSEMBLY—

In accordance with your constitutional role as the House of Parliament to which the elected Government is wholly and solely responsible, a Consolidated Fund, seeking the necessary appropriations for the State's recurrent and capital expenditures in 1982-83, will shortly be placed before you. The establishment of a single fund, "the Consolidated Fund", to replace the Consolidated Revenue Fund and the General Loan Account is in line with reforms to the State's financial system already announced by the Government.

HONOURABLE MEMBERS OF PARLIAMENT—

A comprehensive programme of legislation will be submitted by the Ministers for your consideration during the Session. In addition to the Bills I have mentioned, other legislative proposals will include:

- Amendments to the Anti-Discrimination Act.
- Amendment of the Long Service Leave Act.
- Amendment of the Motor Traffic Act.
- Creation of a Department of Health.
- The Restructuring of the Housing Commission.
- Improving procedures for removal and disposal of abandoned motor vehicles.
- Amendment of the Cattle Compensation Act.
- Amendment of the Education Commission Act relating to the employment of Aboriginal teachers.
- Amendment of the Coal Mining Act.
- Implementation of recommendations of Law Reform Commission on Powers of Attorney.

17 August, 1982

Amendment of the Grain Handling Act.
 Transfer of prisoners between jurisdictions within Australia.
 Greater controls over private hospitals, nursing homes and hostels.
 Optional early retirement for employees in the Coal Industry.

HONOURABLE MEMBERS—

I commend for your consideration the wide-ranging and constructive programme of legislation I have outlined.

Despite the likelihood of the most serious economic difficulties in fifty years, my Government is determined to press ahead with the reforms submitted to the electors of New South Wales less than a year ago and for which it received their very clear support. These progressive measures are necessary to ensure a more equitable and just society.

These are times which call for hard decisions by all Governments and Parliaments throughout Australia. There have been few Parliaments in the history of this, Australia's oldest legislature, which have faced more difficult and challenging times, and upon whose deliberations and performance of its responsibilities, the welfare of the people of New South Wales so heavily depended.

I now leave you to carry out the important duties entrusted to you by the people of New South Wales.

Mr J. H. Murray moved, and Mr Debus seconded the motion, That the has addressed to both Houses of Parliament on opening this Session of the following Address in Reply to the Speech which His Excellency the Governor Parliament of New South Wales be now adopted by this House:

To His Excellency Air Marshal Sir JAMES ANTHONY ROWLAND, Knight Commander of the Most Excellent Order of the British Empire, upon whom have been conferred the decorations of the Distinguished Flying Cross and the Air Force Cross, Knight of Grace of the Most Venerable Order of St John of Jerusalem, Governor of the State of New South Wales in the Commonwealth of Australia.

MAY IT PLEASE YOUR EXCELLENCY,—

We, Her Majesty's loyal and dutiful subjects, the Members of the Legislative Assembly of New South Wales, in Parliament assembled, desire to express our thanks for Your Excellency's Speech, and to affirm our sincere allegiance to Her Most Gracious Majesty.

2. We beg to assure Your Excellency that our earnest consideration will be given to the measures to be submitted to us, that we will faithfully carry out the important duties entrusted to us by the people of New South Wales, and that the necessary provision for the Public Services will be made in due course.

Mr Cameron moved, That this debate be now adjourned.

Question put and passed.

Ordered, That the resumption of the debate stand an Order of the Day for To-morrow.

6. QUESTIONS.

7. ADJOURNMENT UNDER STANDING ORDER 49.—Mr Speaker stated that he had received from the Honourable Member for Barwon, Mr Murray, a Notice, under the 49th Standing Order, that he desired to move the adjournment of the House to discuss a specific matter of recent occurrence and of sufficient public importance to warrant urgent consideration, viz.: "Community unrest at Moree."

Mr Murray moved, That this House do now adjourn.

And the motion for the adjournment of the House being supported by five other Honourable Members—

Point of Order:

The Attorney-General submitted that to debate the subject matter of the motion, reference eventually would have to be made to some of the events which occurred at Moree last Thursday, and that persons had now been charged in respect of those events. The Honourable Member for Northcott submitted that Parliament, as the highest Tribunal in New South Wales, should be able to discuss any matter and was supported in this view by the Honourable Member for Murray. The Speaker said that his opinion, and that expressed by previous occupants of the Chair, was that wherever damage may be occasioned by reason of a matter being debated, the Chair should intercede.

As those matters which the Deputy-Leader of the National Party might bring out in debate could be part of the Crown case against the accused and may also be referred to by the defence, Mr Speaker said that he had no alternative but to rule the motion out of order.

8. STAMP DUTIES (FURTHER AMENDMENT) BILL.—On motion of Mr Booth, the Order of the Day for the second reading of this Bill was discharged.

Ordered, That the Bill be withdrawn.

9. ADJOURNMENT UNDER STANDING ORDER 49:

- (1) Mr Speaker stated that he had received from the honourable member for Gordon, Mr Moore, a Notice, under the 49th Standing Order, that he desired to move the adjournment of the House to discuss a specific matter of recent occurrence and of sufficient public importance to warrant urgent consideration, viz.: "The announcement of the closure of the Penrith Legal Centre."

Mr Moore moved, That this House do now adjourn.

And the motion for the adjournment of the House being supported by five other Honourable Members—

Point of Order: The Attorney-General submitted that the motion did not fulfil the requirements of S.O. 49, in particular those concerning the administrative responsibilities of Ministers of the Crown; the probability of it being brought before the House in a reasonable time by other means; and whether the matter was specific, of recent occurrence and of sufficient public importance to warrant urgent consideration.

The Speaker said that he did not consider the motion was out of order on the first two premises. The question he had to consider was whether the motion was of sufficient public importance to warrant the House setting aside, all other business to debate it. The Chair must also be satisfied that the matter was of overriding urgency to the whole State and not merely of regional urgency. Having regard to this, and to earlier decisions in similar cases, he ruled the motion out of order.

- (2) Question put—That a second motion for the adjournment of the House be now entertained.

The House divided.

10. **DISSENT FROM MR SPEAKER'S RULING.**—Mr Murray moved, pursuant to Notice, That this House dissents from the ruling of Mr Speaker given on 9 November, 1982, when he ruled that a motion under Standing Order 49 moved by the Deputy-Leader of the National Party to discuss community unrest at Moree was out of order as debate thereon would infringe the *sub judice* rule.

And Mr Walker proceeding to take a Point of Order—

Mr Moore moved, That the honourable member for Georges River, Mr Walker, be not further heard.

Question put.

The Speaker said that it had been previously ruled that it was not competent to move "That a member be not further heard" upon a member speaking to a point of order. He intended to follow that ruling and thereupon called the division off.

Debate ensued.

Question put.

11. ADJOURNMENT UNDER STANDING ORDER 49.—Mr Speaker stated that he had received from the Honourable Member for Lane Cove, Mr Dowd, a Notice, under the 49th Standing Order, that he desired to move the adjournment of the House to discuss a specific matter of recent occurrence and of sufficient public importance to warrant urgent consideration, viz.: The dismissal of Marrickville Municipal Council and the effect of this on the proposal to amalgamate the thirteen metropolitan councils under investigation by the Local Government Boundaries Commission.

Mr Dowd moved, That this House do now adjourn.

And the motion for the adjournment of the House being supported by five other Honourable Members—

Point of Order: Mr Walker drew attention to the provisions of Standing Order 49 and in particular to the necessity for the matter to be specific, of recent occurrence and of sufficient public importance to warrant urgent consideration. He contended that the motion contained two separate matters and therefore was not specific; that the dismissal had taken place more than one month ago; and that it was not of sufficient public importance to warrant the business of the House being set aside.

The Speaker said that the matter had been raised at the first opportunity but was one of concern to a region only and not of State-wide public importance.

He therefore ruled the motion out of order.

5. ADJOURNMENT UNDER STANDING ORDER 49.—Mr Speaker stated that he had received from the Honourable Member for Davidson, Dr Metherell, a Notice, under the 49th Standing Order, that he desired to move the adjournment of the House to discuss a specific matter of recent occurrence and of sufficient public importance to warrant urgent consideration, viz.: "The ban today by the Merchant Services Guild on the new \$8.5 million ferry, *Freshwater*."

Dr Metherell moved, That this House do now adjourn.

And the motion for the adjournment of the House being supported by five other Honourable Members—

Point of Order: It was submitted that the matter raised was not one of urgent public importance, was of a local nature only and, in point of fact, the ban on the new ferry *Freshwater* had had little effect on the ferry services to and from Manly.

Mr Speaker said he was of the opinion that the matter did not fall within the terms of Standing Order 49 as it was not of sufficient importance to warrant the adjournment of the House to enable it to be discussed. He ruled the motion out of order.
