## SUBMARINE TELEGRAPHIC COMMUNICATION WITH THE UNITED KINGDOM.

(*The following proposed Resolutions and Conditions were submitted to the Committee on Wednesday, December 14, and agreed to be considered seriatim.*)

1. That this House is of opinion that the Government of this Colony should be authorised to grant a subsidy not exceeding "£9,625" per annum, for a term not exceeding "fifty" years, to any Company, of the stability of which satisfactory assurance shall be given, to induce such Company to construct and maintain a Submarine Telegraphic Line, by way of Torres Straits, from Moreton Bay to East Java, upon the following conditions, that is to say:—
  - (1.) That the Government of Victoria shall make arrangements with such Company, by subsidy or otherwise, for the residue, over and above the annual subsidy of this Colony, necessary for the carrying out of the work.
  - (2.) That the period within which the first call of the subscribed capital of the Company shall be made, shall be limited to twelve calendar months from the date of the concurrence of the Colony of Victoria in the preceding condition.
  - (3.) That the whole work shall be completed and in effective operation within two years from the date of the first call of the subscribed capital of the Company, subject however, to such extension of the time, to meet possible contingencies, as may hereafter be agreed upon.
  - (4.) That the proposed subsidy shall commence from the date of the first call.
  - (5.) That the payment of the said subsidy shall further be conditional on the maintenance of the Line in effective working order.
  - (6.) That no tariff of charges shall be established without the concurrence of this Colony.
  - (7.) That in the event of any dividend of the Company exceeding the rate of 12 per cent. per annum, so much of the subsidy as will reduce such dividend to the rate of 12 per cent. shall not be payable by the Government of this Colony.

2. That steps be taken without delay to communicate with, and settle the proportionate contributions of the other Colonies in aid of the respective contributions of New South Wales and Victoria.

To His Excellency SIR WILLIAM THOMAS DENISON, Knight Commander of the Most Honorable Order of the Bath, Governor General in and over all Her Majesty's Colonies of New South Wales, Tasmania, Victoria, South Australia, and Western Australia, and Captain General and Governor-in-Chief of the Territory of New South Wales and its Dependencies, and Vice Admiral of the same, &c., &c., &c.

The Petition of the undersigned Electors of the Electoral District of New England,—

SHEWETH:—

1st.—That your Petitioners, in accordance with the 77th section of the Electoral Law Amendment Act, 1858, 22 Victoria, No. 20, have paid into one of the banks regulated by law the sum of one hundred pounds sterling, to the credit of the Speaker of the Legislative Assembly of New South Wales, in relation to this Petition.

2nd.

2nd.—That this Petition, in conformity with the 78th section of the said Act, has annexed to it a bank deposit receipt for the sum of one hundred pounds sterling so deposited, and does contain a recital of the fact and particulars of such deposit.

3rd.—That on the thirtieth day of June, in the year of our Lord one thousand eight hundred and fifty-nine, on the polling day for the return of a Member for the Electorate of New England to serve in the Legislative Assembly for the Colony of New South Wales, Mr. James Hart, of Sydney, was one Candidate, Mr. Thomas George Rusden, of New England, was another, and Mr. John Eames, was a third.

4th.—That the Returning Officer for the said Electorate did, on the day of the declaration of the Poll for the said Electorate, declare the numbers polled for the respective Candidates aforesaid to be as follows, viz :—

For Mr. James Hart .....	313
„ Mr T. G. Rusden .....	311
„ Mr. J. Eames .....	4

and declared the said James Hart to be duly elected as Member for the said Electorate.

5th.—That your Petitioners are informed, and do believe, that four persons have already been fully committed for trial at the ensuing Quarter Sessions, at Armidale, for impersonating Electors at the said Election; and that the evidence given against four of the impersonators, shews that they voted for the said James Hart.

6th.—That your Petitioners are informed, that four of these impersonations appear by the copies of the Electoral Roll, made use of by the Returning and Presiding Officers, to have been double votes.

7th.—That your Petitioners therefore pray, that the return of a Member to serve in the Legislative Assembly of New South Wales, for the Electorate of New England, may be amended in favour of the Candidate who did actually receive the greatest number of *bona fide* votes; or that the Election be declared null and void; or that such steps be taken as the circumstances of the case may be found to demand.

And your Petitioners will ever pray.

3. Counsel for Petitioners, having had his attention called by the Committee to the circumstance that there was no signature to the Petition on the sheet on which it was written, addressed the Committee on this point.
4. The Sitting Member then addressed the Committee.
5. Counsel for Petitioners having replied—strangers withdrew.
6. On motion of Mr. Jones, it was resolved,—  
That the Petition in this case not being subscribed by any person, either Elector or Candidate, as required by the Electoral Act of 1858, the Committee of Elections and Qualifications cannot deal with that Petition on its merits.
7. On motion of Mr. Jones, it was then resolved,—  
That the foregoing Resolution be reported to the House forthwith, and that the Chairman of the Committee give notice of motion for Tuesday next, to rescind the Resolution of the House, by which the Petition in this case was referred to the Committee of Elections and Qualifications.
8. Strangers having been re-admitted, the parties to the Petition were informed of the decision of the Committee.

Mr. Hargrave,

Present for the Parties:—

The Sitting Member.

In attendance upon the Committee:—  
The 2nd Clerk Assistant.

1. The Clerk, by direction of the Chairman, read so much of the Minutes of the Proceedings of the Committee, at its meeting on the 14th instant, as refer to this case.
2. The Clerk, by direction of the Chairman, then read the Petition in this case, as follows:—

To His Excellency SIR WILLIAM THOMAS DENISON, Knight Commander of the Most Honorable Order of the Bath, Governor General in and over all Her Majesty's Colonies of New South Wales, Tasmania, Victoria, South Australia, and Western Australia, and Captain General and Governor-in-Chief of the Territory of New South Wales and its Dependencies, and Vice-Admiral of the same, &c., &c., &c.

The humble Petition of Charles Kemp, of Sydney, in the said Colony of New South Wales, Esquire,—

SHEWETH:—

That at the last General Election of Members of the Legislative Assembly for the said Colony, Henry Parkes, of Sydney aforesaid, Esquire, and your Petitioner, together with the Honorable Charles Cowper, Esquire, John Black, Esquire, the Honorable James Martin, Esquire, and other persons, were respectively Candidates to be elected Members of the said Legislative Assembly, for the Electoral District of East Sydney.

That the nomination for the said Election for the said District of East Sydney, duly took place on the seventh day of June now last past, when your Petitioner was duly proposed as a Member to be elected for the said Electoral District, to serve in the said  
Legislative

\* The Minutes here omitted refer to another case before the Committee.

Legislative Assembly, as a Member thereof, and the said Henry Parkes, Charles Cowper, John Black, James Martin, and other Candidates were also proposed as Members to be elected for the said Electoral District, to serve in the said Legislative Assembly, as Members thereof.

That before and at the time of the said nomination, your Petitioner was and from thence continually hath been and now is, a person competent to be elected a Member of the said Legislative Assembly, and to sit and vote therein, and as a Member thereof, and was and is in no way disqualified from being so elected, or sitting, or voting therein, and as a Member thereof.

That before and at the time of the said nomination, the said Henry Parkes was, and from thence continually hath been, and now is, a person incompetent to be elected a Member of the said Legislative Assembly, or to sit or vote therein, by reason of the fact, that, before and at the time of the said nomination, the said Henry Parkes had become, and was, and hath ever since been, and now is, an Insolvent debtor within the meaning of the laws in force within the said Colony relating to Insolvent debtors, the Estate of the said Henry Parkes having, before the said nomination, been duly placed under sequestration; according to law, and having ever since remained under such sequestration, and no certificate of discharge to him having ever been allowed, the said Henry Parkes having, therefore, been at the time of the said nomination, and having ever since remained, and now being, an uncertificated Insolvent.

That at the said Election for the said Electoral District the greatest number of votes was given for the said Charles Cowper; the next greatest number of votes in favor of the said John Black; the next greatest number of votes in favor of the said Henry Parkes; the next greatest number of votes in favor of the said James Martin; and the next greatest number of votes in favor of your Petitioner.

That the fact of the said Henry Parkes being so incapable of and disqualified from being elected a Member of the said Assembly, at the said Election, for the reasons hereinbefore mentioned, was known to all the Electors of the said Electoral District of East Sydney, before and at the aforesaid nomination, and at the time of voting at and during the whole period of the said Election.

That the fact of the said Henry Parkes being so incapable of and disqualified from being elected a Member of the said Legislative Assembly at the said Election, for the reasons hereinbefore mentioned, was generally notorious in the said Electoral District, and to and among the Electors thereof, before and at the aforesaid nomination, and at the time of voting at and during the whole period of the said Election.

That under the circumstances herein mentioned all the votes given in favor of the said Henry Parkes, at the said Election, were lost and thrown away.

That under the facts and circumstances herein mentioned the Returning Officer at the said Election for the said Electoral District ought not to have returned that the said Henry Parkes was elected thereat as a Member of the said Legislative Assembly for the said Electoral District, but ought to have returned that your Petitioner was elected thereat as a Member of the said Legislative Assembly for the said Electoral District.

That, nevertheless, the said Returning Officer has omitted to return that your Petitioner was elected at the said Election as such Member as aforesaid, but has returned that the said Charles Cowper, John Black, Henry Parkes, and James Martin were elected at the said Election, as Members of the said Legislative Assembly for the said Electoral District; whereas your Petitioner submits that the said Returning Officer ought to have returned that the said Charles Cowper, John Black, James Martin, and your Petitioner were duly elected at the said Election, as Members of the said Legislative Assembly for the said Electoral District.

That the said Election of the said Henry Parkes was and is an undue Election, and utterly void.

That the said return is an erroneous, invalid, and undue return, and your Petitioner disputes the same, and complains thereof in so far as the same certifies that the said Henry Parkes was duly elected as such Member as aforesaid, and inasmuch as it does not certify that your Petitioner was duly elected as such Member as aforesaid.

That your Petitioner claims to be a Member of the said Legislative Assembly for said Electoral District, and that he ought to have been returned as elected, as such Member, at the said Election, for the said Electoral District. Your Petitioner therefore humbly prays that your Excellency will proceed in the premises, according to law, and cause this, your Petitioner's petition and complaint to be laid before the said Legislative Assembly, in manner by law required, and your Petitioner will ever pray, &c.

CHARLES KEMP.

Sydney, 30th July, 1859.

3. The Petitioner having, in reply to a question from the Chairman, stated that Mr. Robert Johnson would conduct the case on his behalf, a question arose in the Committee as to the right of a Solicitor to appear before them as an Advocate, and Mr. Johnson having quoted precedents from the Records of this Legislature, of Solicitors appearing both in support and in opposition to Election Petitions, the objection was waived.

4. The Sitting Member handed in the following objection in the nature of a Demurrer, to the entertainment of the Petition by the Committee :—

KEMP v. PARKES.

To the Honorable

The Committee of Elections and Qualifications.

The undersigned, being the Sitting Member of the Legislative Assembly for the Electoral District of East Sydney, against whose Return a Petition has been presented by Charles Kemp, Esquire, respectively states that the said Petition cannot be considered by your Committee, and shows the following causes of Demurrer to the said Petition :—

1. That the Petition refers to a state of facts and circumstances which existed immediately preceding and on the ninth day of June last past, when the election for the Electoral District of East Sydney took place, and when there was no Legislative Assembly in existence in this Colony; and that there is no such law, as the Petition erroneously implies, applicable to that state of facts and circumstances.
2. That at the time referred to, and in the state of facts and circumstances then existing, the undersigned was competent to be elected a Member of the Legislative Assembly then to be elected according to law, and was in fact duly elected by a majority of votes over the Petitioner according to law, and was returned by the Returning Officer as a duly elected Member for the Electoral District of East Sydney according to law, and that the averments in these several particulars, are untrue.
3. That the law affecting Members of the Legislative Assembly in cases of Insolvency, (18 and 19 Vic. 54, sec. 26) is necessarily limited in its application to a state of facts and circumstances when a Legislative Assembly is in existence, and can only be put in force by the Legislative Assembly in Session.

Sydney, 20 September, 1859.

HENRY PARKES.

5. The Solicitor for the Petitioner took exception to this objection, upon the ground that it involved the entire issue to be tried under the Petition.
6. Strangers having been ordered to withdraw, and having withdrawn accordingly, the Committee deliberated.
7. Strangers having been re-admitted, the parties were informed that the Committee had overruled the preliminary objection of the Sitting Member; and the Solicitor for Petitioner was requested, with a view to save time, to confine his arguments to the Question,—Supposing the facts averred in the Petition proved, what would be the legal effect of that proof.
8. The Solicitor for Petitioner accordingly addressed the Committee upon that point.
9. The Sitting Member then addressed the Committee, admitting the facts alleged in the Petition, commencing at the words "at the time of the said nomination," in the 4th paragraph down to the end of paragraph 5.
10. The Solicitor for Petitioner having replied,—  
The Committee adjourned until to-morrow, at 11:30 A.M.

Richard O'Connor, Esquire, Clerk of the Legislative Assembly, having been sworn, stated :—

I produce a letter addressed by Mr. Parkes to the Speaker, and received by the Speaker on the 19th September. It is written by Mr. Parkes to the Speaker, in pursuance, apparently, of some requirement of the 79th section of the Electoral Act of 1858. There appears to be nothing directed in that Act as to what the Speaker is to do with letters addressed to him; but he considered as the letter had been addressed to him, he should have it laid before the Committee, and let them deal with it as they pleased.

SIR,

If I correctly understand the 79th section of the Electoral Act of 1858, it is necessary that the Sitting Member to whom any Election Petition relates should give notice to the Speaker, within four weeks after the presentation of such Petition, to be admitted as a party to oppose it.

I therefore beg to give you notice that I intend to oppose the Petition of Mr. Charles Kemp against my return as one of the Members for the Electoral District of East Sydney.

## ELECTIONS AND QUALIFICATIONS.

THE Committee of Elections and Qualifications duly appointed on the 2nd September, 1859, under the provisions of the Electoral Act of 1858, to whom was referred on the 23rd day of the same month a Petition from Thomas A. Perry, complaining of the Election and Return of James Hart, Esquire, as Member for the Electoral District of New England; and praying that the return may be amended in favor of the Candidate who did actually receive the greatest number of *bonâ fide* votes, or that the election be declared null and void, or that such steps be taken as the circumstances of the case may be found to demand, have agreed to the following Report:—

Your Committee, having heard the Evidence offered by the Petitioner in proof of the allegations contained in his Petition, deemed it necessary, in order to ascertain which Candidate did actually receive the greatest number of *bonâ fide* votes at the late Election for New England, to examine the ballot papers. In the course of their examination they rejected the following ballot papers for the reasons assigned,—

*One* received at Uralla,—for Hart and Eames, because of two names being left in while there was only one Member to be returned.

*Two* received at Bundarra,—one for Rusden because it was without the initials of the Presiding Officer,—and one for Rusden and Eames, because of two names being left in.

*One* received at Hernani, for Rusden and Eames, because of two names being left in.

And *One* received at Walcha, for Rusden, because it was without the initials of the Presiding Officer.

And they admitted as good votes for Hart two ballot papers received at Armidale, which had been improperly rejected, as informal, by the Presiding Officer. They found further that the Presiding Officer at  
Hernani

Hernani had returned two votes as received at that place for Eames, while, in the ballot papers sent in by him, there were no votes given for Eames.

Your Committee therefore declare the following to be the actual number of good votes respectively polled for each of the Candidates at the late Election for New England, according to the ballot papers transmitted to the Clerk of the Assembly, viz. :—

POLLING PLACES.	HART.	RUSDEN.	EAMES.
Armidale . . . . .	134	119	0
Bendemcer . . . . .	2	25	0
Bundarra . . . . .	24	15	0
Falconer . . . . .	2	38	0
Hernani . . . . .	1	13	0
Uralla . . . . .	127	32	1
Walcha . . . . .	24	65	1
	314	307	2

But, as the evidence offered by the Petitioner has satisfied your Committee that four votes registered at Armidale, in the names, respectively, of William Martin Stephenson, Stephen Burke, John Walsh, and James Johnson, were impersonations, and were polled for Hart, your Committee have struck off that number from the votes polled for Hart, which will leave the final result of the poll, as thus corrected, as follows :—

For Hart . . . . .	310
For Rusden . . . . .	307
For Eames . . . . .	2

Your Committee therefore find that Mr. Hart, the Sitting Member, has been duly elected and returned as the Member for the Electoral District of New England.

Your Committee make no award as to costs.

Sydney, 9 December, 1859.*

Chairman.

Solicitor for Petitioner—Mr. Teale.  
The Sitting Member.

In attendance upon the Committee:—

The 2nd Clerk Assistant.

1. The Clerk, by direction of the Chairman, read the Petition in this case, as follows:—

“To His Excellency SIR WILLIAM THOMAS DENISON, Knight Commander of  
“the Most Honorable Order of the Bath, Governor General in and over  
“all Her Majesty’s Colonies of New South Wales, Tasmania, Victoria,  
“South Australia, and Western Australia, and Captain General and  
“Governor-in-Chief of the Territory of New South Wales and its Dependencies,  
“and Vice-Admiral of the same, &c., &c., &c.

“The Petition of the undersigned, an Elector of the Electoral District of New England,—

“SHEWETH:—

“1st. That your Petitioner, in accordance with the 77th section of the  
“Electoral Law Amendment Act, 1858, 22 Victoria, No. 20, has paid into one of the  
“Banks regulated by law, the sum of one hundred pounds sterling to the credit of the  
“Speaker of the Legislative Assembly of New South Wales in relation to this Petition.

“2nd. That this Petition, in conformity with the 78th section of the said Act, has  
“annexed to it a Bank Deposit Receipt for the sum of one hundred pounds sterling so  
“deposited, and does contain a recital of the fact and particulars of such deposit.

“3rd. That, on the thirtieth day of June, in the year of our Lord one thousand eight  
“hundred and fifty nine, on the Polling Day for the return of a Member for the Electorate  
“of New England, to serve in the Legislative Assembly for the Colony of New South Wales,

“4th. That the Returning Officer did, on the day of the declaration of the Poll for

“be as follows, viz:—

“For Mr. James Hart .....	313
“   „ Mr. T. G. Rusden.....	311
“   „ Mr. J. Eames .....	4

“and declared the said James Hart to be duly elected as Member for the said Electorate.

“5th. That your Petitioner is informed, and believes, that four persons have  
“already been fully committed for trial at the ensuing Quarter Sessions at Armidale, for  
“impersonating Electors at the said Election, and that the evidence given against four  
“of the impersonators shews that they voted for the said James Hart.

“6th. That your Petitioner is informed that four of these impersonations appear  
“by the copies of the Electoral Roll made use of by the Returning and Presiding Officers  
“to have been double votes.

“7th. That your Petitioner therefore prays that the return of a Member to serve in  
“the Legislative Assembly of New South Wales, for the Electorate of New England, may  
“be amended in favor of the candidate who did actually receive the greatest amount of *bonâ*  
“*fide* votes, or that the Election be declared null and void, or that such steps be taken as  
“the circumstances of the case may be found to demand.

“8th. That your Petitioner is an Elector for the Electoral District of New England,  
“and voted at the last Election.

“And your Petitioner will ever pray, &c.

“THOMAS A. PERRY.”

2. Richard O’Connor, Esq., Clerk of the Legislative Assembly, having been sworn, and  
having produced the Writ certifying the Return of the Sitting Member, was then  
examined. Appendix A.

3. The Sitting Member took a preliminary objection to the Petition, viz.:—that it had not  
been presented within the time prescribed by the Act;—arguing that the period,  
within which Petitions must be presented, is to be calculated from the date of the  
actual Return of the Writ, and not from that on which it is made returnable.

4.

4. The Solicitor for Petitioner then addressed himself to the objection raised by the Sitting Member.
  5. Strangers having withdrawn, the Committee deliberated.
  7. Strangers having been re-admitted, the parties were informed by the Chairman that the Committee over-ruled the objection.
  8. The Solicitor for Petitioner having stated that he proposed to make good his case by proving the allegations contained in the fifth section of the Petition, and having handed in a List of Witnesses whom he should require to call for that purpose, the Chairman was authorized to sign the necessary subpoenas for such Witnesses.
- The Committee then adjourned until Tuesday next, at 11:30 A.M.

2. Richard O'Connor, Esquire, Clerk of the Legislative Assembly, having been sworn, produced two sealed packages,—one purporting to contain "Voting Papers for the Electoral District of New England,"—and the other "Electioneering Papers, New England;" having first endorsed upon them, respectively, a Certificate that they had been transmitted to him in due course by the Returning Officer of the Electoral District to which they relate.
3. The Petitioner, Thomas Augustus Perry, having been then sworn and examined, handed in the copy of the Electoral Roll used by him, as Presiding Officer, at Bendemeer, at this Election.
4. The Sitting Member objecting to a question put to this witness by Mr. Teale, with a view to elicit whether the document now handed in by him, which purports to be the Roll "for the Electoral District of Armidale," is actually the Roll for the Electoral District of New England; strangers were ordered to withdraw, and having withdrawn accordingly, Committee deliberated.
5. The Clerk, by direction of the Chairman, having opened the packages produced by Mr. O'Connor; one was found to contain the voting papers tendered,—and the other, the Declarations made by the Scrutineers, the written statements of the Presiding Officers of the numbers of the votes counted for each candidate,—and the certified copies of the Roll used, at this Election;—these latter also purporting to be the Roll for "the Electoral District of Armidale."
6. Strangers having been re-admitted, the Chairman, referring to the apparent defect in the copies of the Rolls transmitted to the Clerk of the Assembly, and also in that produced by the Petitioner, informed the Solicitor for Petitioner that the Committee required the Evidence of the Returning Officer, either in person or by affidavit, to prove that the Roll, of which these are copies, is actually the Roll for the Electoral District of New England, and was used as such at this Election; but that, in the meantime, they would take the Evidence of any witnesses in attendance on matters not affected by the point raised in the objection which was made to the Question put to the Witness, which point the Committee for the present reserved.

(1.) That, a careful scrutiny of the Balloting Papers having been had by the Committee, the following be rejected for the reasons assigned,—

*One* received at Uralla, for Hart and Eames, because of two names being left in, while there was only one Member to be returned.

*Two* received at Bundarra, one for Rusden, because it was without the initials of the Presiding Officer; and one for Rusden and Eames, because of two names being left in.

*One* received at Hernani, for Rusden and Eames, because of two names being left in.

And *one* received at Walcha, for Rusden, because it was without the initials of the Presiding Officer.

(2.) That two Papers, which were improperly rejected by the Presiding Officer at Armidale, be received by the Committee, and counted as good votes in favor of Hart.

(3.) That the Return made by the Presiding Officer at Hernani was in error, in so far as it included two votes for Eames, which the Committee do not find among the Ballot Papers sent in by such Returning Officer.

(4.) That the Evidence adduced in support of the Petition, has proved that four votes registered at Armidale, in favor of Hart, in the names respectively, of William Martin Stephenson, Stephen Burke, John Walsh, and James Johnson, were impersonations, and that that number be struck off from the votes polled for Hart.

(5.) That, in view of the circumstances detailed in the preceding Resolutions, the final result of the Poll be amended, as follows:—

For Hart ... ..	310
„ Rusden... ..	307
„ Eames ... ..	2

and that the Sitting Member, James Hart, Esq., be declared to have been duly elected and returned.

(6.) That the conclusions at which the Committee have arrived, be embodied in a Report, to be presented by the Chairman to the House.

3. The Chairman, having brought up a Report, framed in accordance with Resolution No. 6, the same was adopted by the Committee as their Report in the matter of this Petition.

4. The Clerk was directed to notify to the Parties that the Committee would meet to-morrow to decide the question of costs raised by the Solicitor for the Petitioner. The Committee then adjourned until to-morrow, at 12 o'clock, noon.

**COMMITTEE**

OF

**ELECTIONS AND QUALIFICATIONS.**

---

WEDNESDAY, 28 SEPTEMBER, 1859.

**Present:—**

Mr. Hargrave,	Mr. McArthur,
Mr. Hay,	Mr. Plunkett,
Mr. Jones,	Mr. Scott.

A. W. Scott, Esq., in the Chair.

(*New England Election.*)

Mr. Teale appeared for the Petitioner.

Mr. Hart (the sitting Member) appeared in person.

Richard O'Connor, Esq., having been sworn, was examined:—

1. *By the Chairman:* You are Clerk of the Legislative Assembly? I am.
2. Do you produce the Writ for the return of a Member for New England? I produce a Writ certifying the return of James Hart, Esq., as Member for the Electoral District of New England. (*The witness handed in the same.*)
3. *By Mr. Jones:* Who certified to the return? It is certified by the Returning Officer—Job Cheesbrough.
4. He certifies that who is elected? James Hart, Esq.
5. What is the date on which that Writ is made returnable? On the "30th July proximo." It bears date the 11th day of May.
6. Does it bear upon the face any date shewing when the Writ was actually returned? Generally, in fact I may say invariably, I observe a date upon the Writ, but generally there are prefixed to the date the initials of the Governor in the case of a general election, but here I see simply the 7th July, without initials.
7. *By Mr. Hay:* Is there any means of ascertaining the date of the actual return of the Writ except what may be indicated by the figures just mentioned? No means whatever, except the figures on the Writ.
8. It is not published in the *Government Gazette*? Although the circumstance of certain Writs having been returned has been published in the *Gazette* up to this time, the actual date of the receipt of the Writ has not been mentioned. There is in fact a notice in the *Government Gazette*, under date the 12th of July, stating that the Governor had received certain Writs, and this among them.
9. *By Mr. Plunkett:* That you only know from the *Gazette*? Yes.
10. Could you refer to it? I had occasion for some other matter of my business to look over the *Gazette*, and saw this notice; but this does not form a record at all, there is nothing in the Act which indicates the necessity for any such publication, and it is not considered necessary to keep it as a record; in fact looking at the date upon the Writ, supposing it to be the true date of the receipt of the Writ, the notification in the *Gazette* would not be the true date.
11. *By Mr. Hargrave:* This date, 30th July proximo—is that date gazetted at any time? Yes, there is a broad sheet published, in which all the Writs for the general election are published together, and the whole particulars are seen in this broad sheet.
12. *By Mr. Jones:* Which is in the nature of a Proclamation? In the nature of a Proclamation to make all the public acquainted with every arrangement made for the election.
13. *By Mr. Hart:* Will you look upon the *Gazette* now produced, (*Handing witness the Government Gazette of the 12th July*) and say whether it appears from that *Gazette*, that at the date of the publication thereof, the Writ now produced had been returned to the Governor? This amounts exactly to what I have stated, it is an intimation that the Governor had received the Writ, but no intimation of the time at which it was received.
14. What is the date of the *Gazette*? The date of the notice is the 12th July, and the date of the *Gazette* is the 12th July also.
15. Then it appears by that *Gazette*, that on the 12th July the Governor had received the return? That the Writ was then in the hands of the Governor.

16. What are the words of the notice? (*The witness read the same.*)
17. *By Mr. Plunkett*: Do you know how the practice of putting this notification in the *Gazette* has grown up, as there is nothing in the Electoral Act about it? There were a number of practices in connection with the old system, by which a multiplication of business was brought about very unnecessarily. We have been constantly in receipt of intimation of assent to Bills which did not pertain to our business, letters in fact for almost every Bill; it is part of the old system, but it is not required by the law. When I saw it first in operation, and when Writs were returned to the Speaker certifying the return of Members to fill vacancies during the course of a Session, I, myself, suggested to the Speaker, that as it was not necessary by law to do this, to do it might hereafter raise difficulties as to the Election itself; whereas if it were not done there could be no difficulty.
18. It is a remnant of old usage, and not required by the present law? Certainly in no part of the law is it suggested or required, but I recognise in it part and parcel of a system which heaped a number of letters upon the department unnecessarily.
19. *By Mr. Hargrave*: The broad sheet corresponded with the Writs as issued and returned? It contained every particular, and was open to the knowledge of the people of the Country.

20. *By the Chairman*: You are Clerk of the Legislative Assembly? I am.
21. Have you received from the Returning Officer of the Electoral District of New England the balloting papers, as required by the 56th section of the Electoral Act? I have received from the Returning Officer two parcels; I see that I have marked them, as "received 7th July, 1859"; one of these parcels—they are both addressed to me—is endorsed "voting papers for the Electoral District of New England"; then below that is—"for James Hart, 313," in figures and in words; "for Thomas George Rusden, 311," in figures and in words; "for John Eames, 4," in figures and in words; and it is dated at "Armidale, New England, 2 July, 1859"; and signed "Job W. Cheesbrough, Returning Officer." The other parcel is endorsed as containing "electioneering papers, New England"; in the corner it is dated 2 July, 1859; and signed "Job W. Cheesbrough, Returning Officer."
22. Will you certify on these packages that they have been transmitted to you in due course by the Returning Officer of New England? I will if you will allow me to take them away. I have a form of certificate and would like to adhere to it; it is the one I have put on individual papers.
23. Will you take them away and put your certificate upon the papers? I will. (*The witness withdrew taking with him the packets, after a short time the witness returned producing the said packets.*)
24. Do you now put in these packets with the required certificate? I put in these packets with this certificate, upon the first "I certify that this packet, endorsed as 'voting papers for the Electoral District of New England,' was transmitted to me in due course by the Returning Officer of the Electoral District to which it relates," with my signature; upon the other, "I certify that this packet endorsed as 'electioneering papers, New England,' was transmitted to me in due course by the Returning Officer of the Electoral Districts to which it relates," also with my signature.

26. What is your occupation? A squatter.
27. Will you look at that list (*handing a paper to witness*)—what is that document you hold in your hand? A copy of the Electoral Roll used by me as the Presiding Officer at Bendemeer.
28. What does it profess to be? "List of persons qualified to vote in the election of Members of the Legislative Assembly, in the year 1859-60, for the Electoral District of New England."

29. You were Presiding-Officer at the late Election for New England? Yes.
30. Where did you act? At Bendemeer.
31. Is that the copy of the Electoral Roll used by you on that occasion? Yes.
32. Is that the Electoral Roll for the Electoral District of New England?  
*Mr. Hart* objected to the question.  
*Mr. Teale* argued in support of the question.  
*Mr. Hart* replied.  
 Strangers were ordered to withdraw.  
 The Committee deliberated.  
 The parties were again called in.  
 Objection sustained.
33. You are, I believe, an elector for the Electoral District of New England? I am.
34. Did you vote at the last election?—
35. Where? At Bendemeer.
36. When was that? 30th June, 1859.
37. Will you look at that Roll (*the witness referred to the Roll*)—are you the Thomas Augustus Perry described in the Electoral Roll for Armidale, 925? Yes.
38. Did you sign the Petition to the Governor General? I did.
39. Is that your signature (*handing the Petition before the Committee to the witness*)? Yes.
40. What is that document? This is a Petition to the Governor against the election of *Mr. Hart*, requesting him either to cancel the election or to take such other steps as he may deem fit.
41. *By Mr. Hart*: Do you know anything personally of the facts set forth in this Petition, upon which you pray the election may be set aside? No, I know nothing personally; I have witnesses to bring forward.
42. I believe you took rather an active part in the last election against me? I do not feel myself bound to answer that question.
43. If you will be kind enough to listen to what I read you will change your opinion. The latter part of the 73rd clause of the Electoral Act is as follows:—"And if any person "summoned by the Committee"— I am not summoned.
44. You are at present in the hands of the Committee as a witness—"shall disobey such "summons, or shall refuse or neglect to produce any papers, records, or other documentary "evidence relating to or affecting the matter under investigation, which shall have been sent "for by the said Committee, or shall refuse to submit himself to examination, or shall give "false evidence, or prevaricate, or otherwise misconduct himself in giving or refusing to give "evidence, he shall be deemed guilty of a misdemeanour and be liable accordingly." Now, I ask you, if you did not take a very active part in the last election against me? I appeal to the Chairman whether I am bound to answer the question.  
*Mr. Hart* argued in support of the question.  
*Mr. Teale* objected.  
*Mr. Hart* replied.  
 Strangers were ordered to withdraw.  
 After a short time the parties were again called in.  
*The Chairman* stated that the Committee had decided that *Mr. Hart* was entitled to put the question.
45. I now repeat the question:—I believe you took a very active part against me in the late election? I did.
46. You acted as Returning Officer? No; I acted as Presiding Officer.
47. At Bendemeer? Yes.
48. Did you use your influence at the last election in inducing persons not to vote for me? I did not, beyond asking them to vote for *Mr. Rusden*.
49. Can you say how many persons voted at Bendemeer, either from the list you have used or from memory? No; I cannot speak of the exact number; the ballot papers will shew that.
50. *By the Chairman*: The return you sent in to the Returning Officer will shew the number of voters? Yes.
51. That is the letter you addressed to the Returning Officer on the occasion of the late election for New England? (*Handing a paper to Witness.*) Yes.
52. What do you therein certify? I transmitted to him twenty-five voting papers, taken at the poll at Bendemeer, in favor of Thomas George Rusden, as representative of the District of New England; and two votes in favor of James Hart.
53. *By Mr. Hart*: Then there were twenty-five votes recorded at Bendemeer for *Mr. Rusden*, and two for me? Yes.
54. Can you state out of those twenty-five persons who voted for *Mr. Rusden*, how many could not read or write—or whether there were any? I cannot state how many; there were one or two—there may have been more.
55. Did you mark on the Roll that was used by you the persons who could not read or write? No.
56. Did you make any mark? No.
57. *By Mr. Hay*: No particular mark? No.
58. *By the Chairman*: You ticked off their names as you did the others? Yes.
59. *By Mr. Hart*: Can you refresh your memory of the persons who voted, by looking over your Roll, as to the persons who could and who could not write at Bendemeer? I dare say I could remember some of them. (*The Witness referred to the Roll.*) Darby Curry, 209, could neither read nor write; William Dorrington, 300, could neither read nor write. Thomas Saunders, 1073, could neither read nor write; Thomas Toole, 1128, I believe he could

- could read, but he could not understand the ballot paper, and he asked me to scratch out the name—that is all that I am aware of.
60. Did you, at the request of these persons, erase the names of the candidates for whom they did not wish to vote? I did.
61. Was any one present when you did so? Two scrutineers were present.
62. Did they see you erase the names? I cannot tell whether they saw me, they were sitting one at each end of the table, and I in the centre; I should think most likely they did see me.
63. Did these persons signify to you that they could not read or write, before you erased the names from their ballot papers? I believe so; at all events they requested me to do it.
64. Was there a proper ballot box, and balloting compartments at Bendemeer? Yes.
65. Can you say whether any persons voted at Bendemeer for Mr. Rusden who had not a right to vote there? No, I believe not. For Mr. Rusden? I beg pardon—no, I cannot say that they did.
66. *By Mr. Hay*: Did any person vote whose name was not on the Roll? No.
67. *By Mr. Hart*: Do you know of any person whose name is here having twice voted at Bendemeer? No; they did not vote twice, I know.
68. Do you know whether any of the persons ticked off in this list either before or after voting at Bendemeer, voted at any other place? I am not aware.
69. Have they told you so? No.
70. Previously to your appointment as Presiding Officer, had you any conversation with Mr. Cheesbrough, the Returning Officer, on the subject? On what subject?
71. On the subject of your appointment, or of the election? I was appointed as a matter of course, having been Presiding Officer before.
72. That is not an answer to the question I put? I do not clearly understand your question.
73. I ask you whether, previous to your appointment as Presiding Officer at Bendemeer, you had any conversation with Mr. Cheesbrough? No, except his asking me if I would accept it, as I had done the previous year, and I said "Yes." That was the only conversation I had.
74. Did you apply to him to appoint you? No.
75. No. 706, I see James Moore described as a resident at Armidale—freehold, Armidale—are you aware whether he voted at Armidale or not? I am not aware. Is it a James Moore ticked off by me?
76. Yes? I am aware he never did.
77. *By the Chairman*: How are you aware? Because he never left the township.
78. He did not leave Bendemeer during the polling hours? No.
79. *By Mr. Plunkett*: What is the distance between the two places? About 42 miles. There is a nearer polling-place than that, at Walcha.
80. What distance is that from Bendemeer? About 27 miles.
81. *By Mr. Hart*: I believe you are one of the persons who exerted yourselves to get the late petition signed by a number of electors of New England against my return? Yes.
82. It was taken round the district by you? No, it was not.
83. By your directions? Copies of it were sent to some of my friends, and they collected some signatures. I collected all in the immediate neighbourhood of my place—at least I collected most of them. The only two persons who voted there for you signed it.
84. I believe you are the only Magistrate residing in that neighbourhood? No; there are two others belonging to my Bench.
85. *By Mr. Plunkett*: You say the men who voted for Mr. Hart signed this petition? Yes.
86. How do you know they voted for Mr. Hart? I merely heard them say so.
87. You heard it from themselves? Yes. The way I know how one of them voted was that he wrote his name in pencil to one of the ballot papers.

100. Do you know how the witness spells his name? I cannot tell. (*The witness referred to a paper.*)
101. *By Mr. Hart:* What are you looking at? I am looking at the Electoral Roll.
102. *By Mr. Teale:* Is that the Electoral Roll you used on the occasion of acting as a scrutineer? It is.
103. Look at that roll, No. 267?  
*Mr. Hart* objected.  
*Mr. Teale* would not press the question.
104. Do you know another person who calls himself John Connall? Yes.
105. Did either of those parties vote, or come to the polling booth where you acted as scrutineer on the 30th of June last? Yes.
106. Which of them? A man calling himself John Connall, then residing at Armidale.
107. How long have you known that man? About three months previous to the election.
108. What took place in the polling booth at Armidale on the 30th June? He came in and voted by ballot, and, calling himself John Connall, obtained a ticket from the polling clerk—received a ballot paper.
109. *By Mr. Jones:* Whom do you mean—you say “he” came in? The man calling himself John Connall.
110. Residing at Armidale? Then residing at Armidale.
111. *By Mr. Teale:* When a voter comes into the booth he has to furnish the Returning Officer with a number? Yes.
112. Did he furnish the Returning Officer with a number on this occasion? Yes.
113. What number did he furnish? (*The witness referred to the Electoral Roll.*)
114. *By Mr. Hart:* Can you speak without reference to the Roll? I think I had better refer, for I made a mark opposite his name when he voted—and I might be mistaken—he voted as 267, John Connall, Ingalba.
115. *By Mr. Teale:* Did the Returning Officer say anything to him? Nothing.
116. Did he ask his name? He asked his name in the usual way.
117. What did he say? John Connall.
118. Were any other questions put? No.
119. Did the person whom you know as John Connall, of Ingalba, vote at Armidale that day? He did not.
120. You were there all the day? Yes.
121. Never left the booth? No.
122. *By Mr. Hart:* I believe there are two John Connall's on the Electoral Roll, are there not? If you will allow me to look — (*The witness referred.*)
123. One appears as No. 262 John Connal, of Ingalba? Yes; and 267 John Connall, Ingalba.
124. There is a slight difference in the names—No. 262 is spelt with one *l*, is it not? Yes.
125. And the other spelt with two *l*'s? Yes.
126. Do you know the place called Ingalba? Yes.
127. Is it a town or a station? A squatting station.
128. Do you know the extent of that station? Not exactly; it is a very large establishment, or has been. I cannot tell the extent.
129. Do you know whether there are a number of sawyers who are engaged in splitting wood upon that station? I am not aware.
130. There may be for all you know? There may be.
131. Do you know any person else who voted under the name of John Connall that day? Not in Armidale.
132. The person you have now spoken of was the only person who voted at Armidale on that day? The only person.
133. Have you ever seen this person write his name? Which person do you allude to?
134. Connall? John Connall that voted at Armidale, or John Connall of Ingalba?
135. Of Armidale? I never did.
136. Is it not quite possible that, although he resided at Armidale at the time of the election, that he was qualified to vote by virtue of residence at Ingalba? I cannot say.
137. Are you prepared to swear—and, you must recollect, you are on your oath—are you prepared to swear under which number this person voted? Yes.
138. Is there any circumstance which brings it to your memory further than your list? I made a mark opposite each voter as he came into Court and recorded his vote. I put a private mark opposite his name, and by that mark I am prepared to swear it was 267.
139. *By the Chairman:* When you say “his name,” you mean Mr. Connall, of Armidale? The person who calls himself Mr. Connall, of Armidale.
140. *By Mr. Plunkett:* Do you say that you are personally acquainted with this man of Armidale? By sight, I know him—by seeing him working in the town as a laboring man.
141. Did you know him at the time? For three months previous to the election. I had seen him frequently, nearly every day, previous to the 30th of June; I never knew him before.
142. *By Mr. Hart:* Did it not happen that some persons went into the booth with numbers which they obtained from the clerk, who were afterwards rejected? I am not aware.

143. Did not the Returning Officer put certain questions to the electors? When requested by the scrutineers or candidates.
144. Is it not the fact that after these questions were put by the Returning Officer, if he were not satisfied with the answers, that the voters returned by the door by which they had entered? Some parties got in, endeavoring to record their votes, but I am not aware that they got tickets from the poll clerk.
145. Mr. Embling, I believe, was the clerk? Yes.
146. Before electors entered the booth did they not get a ticket from him? He was inside the polling booth, at the door.
147. I want to know whether, before electors went before the Returning Officer to record their votes, they did not receive tickets from Mr. Embling? Yes. They came to the polling clerk, and if their names could not be found on the lists they were rejected; I am not aware of any receiving a ticket—
148. Do you mean to say that they passed the clerk at the door, and went to the Returning Officer without obtaining a ticket? In one or two cases they did; they found their way in.
149. I speak generally of the persons who went into the booth—did they not before they went in get a ticket? They did.
150. What was done after they got that ticket—what did they do with the ticket? They gave it to the Returning Officer.
151. What did he do with it? He asked their names.
152. Did he not call out the number? Yes.
153. Was it not from that circumstance you ticked off the names on the list? Yes; the number the Returning Officer received he called out, and from that I ticked the number off.
154. After that number was called out and the Returning Officer put the questions, some of the voters were rejected? Not that I am aware of.
155. I understood you to say so just now? I said some of them came to the Returning Officer without receiving any ticket.
156. I am speaking generally of the course adopted by the Returning Officer to insure correctness in the mode of voting? The Returning Officer gave no balloting papers, except where the parties were furnished with a ticket from the poll clerk.
157. I ask you again, did it not happen that some of the voters after they went to the Returning Officer were rejected, and had to leave by the door whence they entered? In one or two cases, but the reason was that they were not supplied with tickets by the poll clerk.
158. Then, in case they got a ticket from the polling clerk, they afterwards went to the Returning Officer? Yes—I do not say these parties did.
159. If the answers given to the Returning Officer were not satisfactory, what took place? I am not aware that anything happened in that way; every elector answered satisfactorily to the Returning Officer.
160. I am speaking of those who did not give satisfactory answers? I do not know of any—
161. Do you mean to swear that no one was rejected by the Returning Officer? I mean to say that none after being furnished with a ticket was rejected by the Returning Officer.
162. But you have already stated that the Returning Officer would not furnish a ballot paper to any one unless he got a ticket? I say that still.
163. Was not that ticket given for the mere purpose of facilitating the business of the election, of enabling the Returning Officer to turn to the list to see who the elector was? Yes.
164. Well then, after that ticket was given, did not the Returning Officer reject several persons? Not that I am aware of.
165. Did he reject any, either before or after? I am not aware; there were questions put, but the parties answered them satisfactorily to him, and he then gave them papers, and they voted accordingly.
166. Was not the tent arranged with two doors, one by which persons should return who did not answer the Returning Officer satisfactorily, and another, a back door, by which they should leave in case they voted? Yes.
167. Now I ask you whether it is the fact that no elector returned by the way whence he entered? Yes; I stated before that some of the people did not receive a ticket from the poll clerk, and on that account they were rejected.
168. After you ticked off your list you heard the Returning Officer call out the number? Before I ticked it off; he called out the number, and I ticked it off. The ticket was given for the guidance of the Returning Officer, and when he turned to the list we did the same, and ticked off the name.
169. Is it not the fact that some parties whose numbers were called out, and whose names were ticked off on the list, did not vote at all? Yes, there were five instances of that kind.
170. Will you swear that this was not one of them? If I understand your question right, you mean to say, will I swear there were persons names ticked off the list who did not vote at all—there were persons charged with personating, is not that what you mean?
171. I am asking you whether it was not the fact that after the names were ticked off on the list the parties claiming to vote were rejected and did not vote? Not that I am aware of.
172. Do you know what question the Returning Officer put to this person Connall? He did not question him at all beyond asking him his name in the usual way.
173. I ask what question he put to him? "Are you the man described as No. 267 on the "Electoral Roll as John Connall," or words to that effect.
174. I believe you have been already examined before the Bench of Magistrates on this case? I have.

175. Did you not on that occasion say the Returning Officer asked the defendant "What is your name?" and he said "John Connall," and that no other question was put? Yes, and I say the same thing still; the only question asked was in the usual way; I am not prepared to swear to the exact words.
176. What was done after he answered that question? He received a ballot paper, and retired to the ballot room; he afterwards came out and placed the paper in the ballot box.
177. *By Mr. Jones*: How do you know who this person voted for if he retired to the ballot room and marked his paper there, and then afterwards put the paper into the ballot box himself? I do not.
178. You cannot say then whether John Connall of Armidale voted for Mr. Hart, Mr. Rusden, or Mr. Eames? I cannot say.
179. Do you know whether this John Connall, whom you know as of Armidale, did at any time reside at Ingalba? I am not aware.
180. You cannot positively inform the Committee that he had not a residence at Ingalba? I cannot.
181. *By Mr. Teale*: Do you know John Connall of Ingalba? I do.
182. He did not vote at Armidale on the 30th of June? He did not.
183. 267 is the number that the man who voted at Armidale gave the Returning Officer? 267.
184. Was anybody allowed to vote who did not give a number? No person.
185. To whom were these numbers handed? To the Returning Officer.
186. What did he do with them? Handed them over to the scrutineers. After ticking it off on his own list he handed it over to the scrutineers, and called out aloud the number.
187. *By Mr. Hay*: Might not the man whom you know at Ingalba as John Connall have been registered as 262? He may have been—I cannot say.
188. The man whom you heard give this vote at Armidale, for aught you know, may have been qualified at the time this list was made up as resident at Ingalba? He may have been. I knew him about three months previous to the election at Armidale.
189. He may have been the man who appears as No. 262 on the list? He may have been.
190. Are you aware whether the man you know as John Connall of Ingalba voted at all? He did not at Armidale.
191. *By Mr. Hart*: What is the nearest polling-place to Ingalba? Walcha.
192. *By Mr. Teale*: Have you seen John Connall since? Yes.
193. Did he tell you? (*Mr. Hart objected to the question.*)
194. *By the Chairman*: I think you distinctly stated that this John Connall voted for Mr. Hart? No, he voted by ballot; but I saw him wearing Mr. Hart's colors.
195. You cannot say whether this John Connall of Armidale had a right to vote for that electorate or not? I cannot say.
196. Are there two John Connall's at Ingalba? Not that I am aware—only one.
197. *By Mr. Jones*: I suppose you mean to say you are not prepared to say there are not two, but that you only know one? Yes, I only know one.
198. Do you know whether John Connall of Ingalba spells his name with one or with two *I*'s? No.
199. *By the Chairman*: Did you object to John Connall of Armidale voting? I did not.
200. Seeing that his qualification was Ingalba in the Electoral Roll? I did not.  
[*Mr. Teale stated that he should now proceed with the case of William Martin Stephenson, No. 1029.*]
201. *By Mr. Teale*: Do you know a person of the name of William Martin Stephenson? I do.
202. Where does he reside? At Walcha.
203. How long have you known him? Fifteen or sixteen years.
204. Do you know a person of the name of John Stephenson? I do.
205. How long have you known him? About five years.
206. Where did he reside at the time of the election? At Armidale.
207. On the 30th June, at the last election, did you see John Stephenson? I did.
208. Where? At the polling booth.
209. Did he come in bringing a number? He did.
210. What number did he bring? 1029.
211. Did you ask the Returning Officer to do anything that day in reference to that person? I did.
212. What did you ask him to do? To challenge him—to put the questions to him.
213. Did he put the questions to him? He did.
214. What was his answer? He said his name was William Martin Stephenson, of Boroolong.
215. Did he give you all the particulars? Yes.
216. Did you caution the defendant? I did.
217. What did you say? I told him not to be a fool—to mind what he was doing.
218. Did he make any reply? He did—he told me to mind my own business.
219. What were the questions the Returning Officer put to him? "Are you the party described on the Electoral Roll No. 1029, as William Martin Stephenson?"
220. And he replied? "I am."
221. Did you hear the Returning Officer ask him any further question? He told the Returning Officer he was unable to read or write.
222. What did the Returning Officer do upon that? He asked whom he voted for.
223. What did he say? He said, loud enough to be heard all over the room, "for Hart."
224. Upon that, what did the Returning Officer do? He struck out the other two names.
225. What names did he strike out? Mr. Rusden's and Mr. Eames'.
226. What name did he leave in? James Hart.

227. What was done with the paper then? It was put into the ballot box by the Returning Officer.
228. How far were you off at the time? About a yard.
229. Were you sitting at the same table as the Returning Officer? At the same table.
230. Did you make any remark on the Electoral Roll you were using that day? I did.
231. You marked off this person as having voted? Yes.
232. You say you have known William Martin Stephenson for fifteen or sixteen years, and that he resides at Walcha? At present he resides at Walcha.
233. Did he at the time of the election? Yes.
234. Did you see him in the polling booth on the 30th June? I did not.
235. Did he vote there that day? He did not.
236. Was it possible for him to have voted there without your seeing him? It was not.
237. *By Mr. Hart:* The answers given by this person to the Returning Officer—whatever his name was—appeared to the Returning Officer to be satisfactory? Yes.
238. Can you say how the surname of the gentleman who resides at Walcha is spelt—whether it is spelt Stephenson? I cannot say how he spells his name.
239. You have known him fourteen or fifteen years, you say—have you never seen him write his name, or any document with his name appended to it? I have no recollection of it.
240. Were you present at the Police Office when this person, whom you say personated Mr. William Martin Stephenson, was committed for trial? Yes.
241. Did you not, on that occasion, hear Mr. William Martin Stephenson say his name was not spelt as in the Electoral List? I was outside the Court as a witness in the case; I did not hear his evidence.
242. Have you had any conversation with him? On several occasions I have.
243. Lately, with reference to this election? Not lately.

280. Will you just state the reason that makes you positive in that statement? I was very anxious to see that he did do so, and in all cases where electors could not read or write and requested the Returning Officer to strike out the names, I made it my business to see what names were struck out. 422. According to that list it does not appear to have been a double vote? According to that list, but I know nothing of Dr. West's list.
423. *By Mr. Plunkett*: Did you, in former cases of impersonation, mark the names on your list? John Connall voted by ballot, and was not objected to by me, therefore, I made no note whatever. 500. You say that this person, the aborigine, has not resided at Terrible Vale? I have never known him to reside there.
501. Has he been so constantly under your notice that he could not have resided there and acquired a qualification? He has not been constantly under my notice, but I have only known him to live at two places since he left his mother,—at Dr. Morris' and Mr. Allingham's.
502. Is there not a likeness between Yellow Jemmy and Mr. Allingham? Not the least; no more than there is between you and me.
503. *By Mr. Jones*: Is there as much? Not so much as regards color.
504. What did he give his name there? James Johnson; he is under committal as Yellow Jemmy *alias* James Johnson.

505. *By Mr. Jones*: He gave his name as James Johnson? Yes.
506. *By the Chairman*: What age was he when you first knew him? About the height of this table when first I knew him, five or six years back.
507. *By Mr. Hart*: In point of fact is not Yellow Jemmy's name James Johnson? I did not hear it till the polling day.
508. Is he a Christian, does he ever go to a place of worship? I never saw him.
509. Have you an opportunity of seeing him, do you ever go to a place of worship yourself? I go to a place of worship, but I never saw him there, I visit only one place.
510. Is Yellow Jemmy an intelligent person? He is a very good black horse breaker, I do not know anything of his intelligence.
511. These horse breakers and horse jockeys are generally pretty sharp? He is a very good horse breaker.
512. Can you say whether there is any difference in the ages of these two persons? Yes, a great deal, twenty years difference.
513. Can you swear that Yellow Jemmy is not named James Johnson? I swear I never heard him so called.
514. *By Mr. Jones*: He is not supposed to be a son of James Johnson, of Terrible Vale? I do not know, and I do not suppose he knows himself who is the father.
515. *By Mr. Hay*: Do you know who is the reputed father? No, but I did know his mother, she was a black woman.
516. *By Mr. Close*: Did you caution him in the same way as you cautioned the rest? Yes.
517. What answer did he give you? He said his name was James Johnson, of Terrible Vale, and gave me no answer when I cautioned him.
518. *By the Chairman*: Was he examined before the Bench? He was under committal as Yellow Jemmy *alias* James Johnson.
519. *By Mr. Jones*: He gave his name as James Johnson? Yes.
520. What age was he when first you knew him? About the height of this table when I first knew him, five or six years back.
521. What do you presume his age to have been when you first knew him? About eleven or twelve years old.
522. *By Mr. Close*: You are quite positive he could not be of age? I would not take upon myself positively to swear he was not of age, but from my own knowledge I do not think he could have been.
523. *By Mr. Hart*: Do you know the persons on the list, Nos. 532. and 533—William Hutchinson and Gilbert Hutchinson? Yes.
524. Can you say whether either of these voted at Armidale at the last election? Both voted.
525. For whom did they vote—could they read or write? They voted by ballot.
526. Did they tell you for whom they voted subsequently? They did.
527. For whom did they vote? Am I obliged to answer the question?
528. Yes? They told me they voted for Mr. Rusden.
529. Was not one of these persons personated by a man named Atcheson? The parties I refer to are father and son.
530. I ask you whether a person named Atcheson voted in the name of one of these persons? I do not recollect; there are William and Gilbert Hutchinson; sometimes they are called Atcheson, and sometimes Atcheson, but they are the same parties; they live at Kelly's Plains; they are farmers; the names are mis-spelt on the Roll; it ought to be Atcheson instead of Hutchinson; they gave their names and claimed to vote, and their claim was admitted by the Returning Officer, the scrutineers knowing they were the parties referred to. There was another case:
531. Who was the other party? M'Golrick; his name is on the list as M'Gobick, No. 707.
532. Did he vote by ballot? He did not; that man was unable to read and write.
533. For whom did he vote? For Mr. Hart; he was allowed to pass on knowing he was the party referred to.
534. How do you know he voted for me? I heard him request the Returning Officer to strike out the other names.
535. Is it from recollection you speak, or have you any list to speak from? I have perfect recollection.
536. Atchesons voted under the name of Hutchinson? They were allowed to do so, in the same way as M'Golrick was.
537. Are there any other irregularities you could detail to the Committee, or are these the only irregularities? They were not thought irregular; it was only a misprint.
538. Are you aware that any persons who were not entitled to vote were in point of fact allowed to record their vote for Mr. Rusden? No.
539. Do you swear that? Yes. I do not know that any person recorded his vote for Rusden who was not entitled to do so.
540. You know nothing of the proceedings at Walcha? No.
541. Have you heard of any cases there? No. I have been to Walcha on several occasions since the election, but I never heard of any.
542. Did the Returning Officer, Mr. Cheesbrough, take any part in the election by inducing persons to vote? Only as Returning Officer.
543. Did you hear him declare before the election his determination as to who he would vote for? No. I heard both parties after the election give him great praise for the manner in which he had conducted it.
544. I believe he and Mr. Rusden stopped at the same hotel? Yes; I suppose he did.

545. Do not you know that he did stop at the same hotel where Mr. Rusden's Committee sat? Yes.

546. Did he produce these lists to you and Mr. Rusden for the purpose of setting aside the election when the polling was over? He never produced a list to me; I had a list of my own.

## APPENDIX E.

TUESDAY, 18 OCTOBER, 1859.

Present:—

Mr. Close,  
Mr. Hay,  
Mr. Jones,

Mr. McArthur,  
Mr. Plunkett,  
Mr. Scott.

A. W. Scott, Esq., in the Chair.

Mr. Teale appeared on behalf of the Petitioners.

Mr. Hart (the Sitting Member) on his own behalf.

Job Webster Cheesbrough, Esq. called in, and having been sworn, was examined:—

547. *By Mr. Teale*: Where do you reside? At Tenterden, Armidale, in the District of New England.

548. You were the Returning Officer the last election for the Electoral District of New England? Yes.

549. What is that? (*Handing a printed paper to the Witness.*) The Electoral Roll for the Electoral District of New England.

550. From whom did you receive that and the other papers? From the Government Printer.

551. What does it purport, on the face of it, to be? "Armidale Electoral District.—List of persons qualified to vote in the Election of Members of the Legislative Assembly, in the year 1859–60, for the Electoral District of Armidale."

552. Is there such an Electorate? I do not know —

553. Did you make use of that list at the last election for the Electorate of New England? I did.

554. Armidale is a portion of the Electoral District of New England? It is.

555. Was there any other Roll used at the last election but that? None that I am aware of but this and the copies of it.

556. Had you anything to do with the preparing of the lists? No.

557. They were furnished to you by the Government? A written Roll was furnished to me by the Bench of Magistrates and the Clerk of Petty Sessions, and I sent that down to the Government Printer to be printed, with an order for a certain number of copies, which were sent up to me.

558. And he sent it back printed for the Electoral District of Armidale? He sent it back printed as you see it.

559. Will you look at that list—you ticked off, I believe, all the names that were given to you of persons who voted at the last election? I believe I did.

560. To the best of your knowledge you believe you did? I did not tick off any that did not vote.

561. When was the election? The 10th of July; no, the 30th June was the polling day.

562. On the 30th of June, did you tick off the names of all the persons who voted in your booth? I cannot say that; it is impossible for me to say that—I intended to do so.

563. And you believe you did? I believe I did.

564. Will you turn to No. 83—Have you got it? I have.

565. What is the name? Stephen Burke.

566. Will you read the whole of it? Stephen Burke,—residence, Rocky River,—nature of qualification, residence.

567. Did a person vote in the name of Stephen Burke on the 30th June last? Yes.

568. You do not know, I presume, for whom he voted? I do not, of course.

569. Turn to 267—Will you read that? 267, John Connall, Ingalba, residence.

570. Did a person vote in the name of John Connall, Ingalba, at the last election? He did.

571. Turn to 589—Will you read that out? 589, James Johnson; residence, Terrible Vale; qualification, residence.

572. Did a person representing that name vote at the last election? He did.

573. *By the Chairman*: Voted where, at Armidale? Yes.

574. *By Mr. Plunkett*: You presided there yourself? Yes.

575. *By Mr. Teale*: 1029—Will you read that out? William Martin Stephenson; residence, Armidale; qualification, residence; where situate or how arising, Boroolong.

576. Did a person vote at Armidale in that name? He did.

577. 1164—Will you read that? 1164, John Walsh, Mihi Creek; residence, Mihi Creek.

578. Did a person vote in the name of John Walsh? Yes.

579. Are you able to say for whom any of these parties voted? No.

580. You cannot say from memory whether they could read or write? No, I made no memorandum beyond ticking them off.

581.

581. *By Mr. Hart*: I understand you to say in the course of your examination, that you received a list of the electors of New England from the Bench of Magistrates? Yes.
582. That was after they had had their revision, I presume? Yes.
583. What did you do with that list? I sent it through the Colonial Secretary to the printer.
584. Can you say that the document you hold in your hand is a copy of that list? Yes.
585. How can you? Because I had a copy myself to compare with it.
586. Where is it? At home.
587. You compared it? I did, a great portion, sufficient to say this is a copy of the list.
588. Have you compared the whole of it? I have not.
589. Did any one read it over, you holding the copy in your hand? No, I held the manuscript copy, which I compared with the printed copy in several places, and did not see any errors.
590. How did it occur that you had a manuscript copy? I made one for my own convenience; in the event of one being lost I should have to furnish the other.
591. Are you prepared to swear that this is a copy of the list sent down? To the best of my belief it is.
592. As you have not taken the precaution to examine the whole of it, how can you give evidence upon the whole of it? Having examined part, and taking it for granted that the Government Printer would scarcely make such gross omissions as your question implies.
593. That is the ground of your answering in the affirmative? Yes.
594. Were you one of the magistrates who revised that list? No.
595. You say you do not know whether there is such an Electoral District as Armidale? No.
596. Did you tick off the whole of the electors who voted at the last election? It is impossible for me to say.
597. Can you state whether the questions that are mentioned in the Act were put by you to the five electors you have just spoken of? I cannot.
598. Did you tick their names off as they gave their tickets to you from the poll clerk, or the person stationed at the door, or did you tick their names off after they had voted? I ticked the name off at the moment I handed the ticket to him. I ascertained that he was the person he represented himself to be—I ticked the name off and handed to him the paper.
599. Were any electors rejected who received these tickets, and requested to retire by the door whence they had entered? Not that I am aware of; not if they had received tickets, certainly.
600. Will you be good enough to state to the Committee the process that was adopted to insure regularity at the election? I will do so. The poll clerk was stationed near the door, and I myself was sitting at the table with the scrutineers of the various candidates. The voter on coming in gave his name to the poll clerk, who ascertained that he was the person who answered the description as per list, when he handed a ticket with a number to him; he then came forward to me, giving me a ticket with a number; I referred to the list, and found the number—"your name?" I said, he gave me a name corresponding with the number on the list, and I then gave him a balloting paper; he then went into the private compartment with his balloting paper, came out, and put into the ballot-box.
601. At what period were questions put or requested to be put by the scrutineers? At what period of the day?
602. At what precise period after the elector entered the polling booth was it that the scrutineers requested the questions contained in the Act to be put? Before I gave the ballot paper, I think. As soon as I received the number I mentioned the name and the scrutineers referred to their lists. Several times one or other of the scrutineers would ask me to put certain questions, which I did. If the man answered the questions satisfactorily he was allowed a balloting paper, and the thing proceeded.
603. After an elector received a ticket from the poll clerk—not a balloting paper, but after he received a ticket from the poll clerk—and presented himself to you, you ticked his name off on your list? Yes.
604. *By Mr. Plunkett*: Do you mean before any objections were made? If no objections were made he got his paper at once.
605. *By Mr. Hart*: I believe the questions contained in the Act were put to several of the electors? They were.
606. Did any of the electors enter the polling booth in an intoxicated state? I cannot say; none of them interfered with my duty or business, and I did not notice it.
607. Were there not two modes of entrance and exit? One mode on entrance, and one of exit. One door for entrance, and one for exit.
608. Was it not arranged that electors who voted passed out at the back of the polling booth, and those who were rejected returned by the door whence they entered? They were turned back, they never came before me—they only came to the precincts of the polling booth; if they did not satisfy the clerk they did not come near me.
609. Do you mean to say that the poll clerk took it upon himself to prevent their entrance? No, I do not mean to say that; but if a person could not satisfy the poll clerk—the poll clerk said he could not find the name on the list, and if it could not be found, the man went out the way he came in.
610. Then some persons presented themselves to the poll clerk claiming to vote who were sent back? Yes.
611. *By Mr. Plunkett*: Because they were not on the list? They were not on the list.
612. *By Mr. Hart*: Did any of these persons present themselves to you? I am not aware. None of them passed my table at all events—none of them got a balloting paper; they returned the way they came.

613. How many places were there in the District at which votes were taken? If you will be kind enough to mention them, I will tax my memory with them.
614. I want the information from you? If you would give me any document; I have a bad memory, and I might omit a place.
615. Mention what you do know? Armidale, Falconer, Walcha, Bendemeer, Uralla, Bundarra; I do not remember any more at present.
616. Ernani? Ernani, was another.
617. Who was the Presiding Officer at Uralla? John Boucher West.
618. Do you know whether he took an active part in the election against me or not? I do not; I did not inquire about it.
619. Did you not observe him present on the day of nomination? Yes.
620. On that occasion, in order to insure a correct statement of the voices of the people, I believe you caused my supporters to go to the right, and Mr. Rusden's to go the left? Yes.
621. Now did you not observe Dr. West among Mr. Rusden's supporters when that division took place? I cannot say—possibly I might—it is very possible.
622. Was it not observable by you on that day that he took a very active part in the demonstrations on the part of Mr. Rusden? Most decidedly not; I never heard him speak.
623. Of course no one spoke but the proposers and seconders? Most decidedly not; I did not see any demonstration.
624. Had you any conversation with him about the election previous to the election taking place? That is another question; I am not called upon to state what private conversation I had with my friends; Dr. West is an old friend of mine of twenty-four years standing.
625. I am not asking you for your private conversation, but as to your conversation with reference to the election? I do remember I had some conversation with reference to the election.
626. Did he express any opinion as to the propriety of electing Mr. Rusden in place of me? Not to me.
627. I believe Mr. Perry was the Returning Officer at Bendemeer? No, he was not.
628. Who was? I do not know; there was not a Returning Officer there.
629. The Presiding Officer? Yes.
630. *By the Chairman*: Who was the Presiding Officer? Thomas Augustus Perry.
631. *By Mr. Hart*: Do you know whether he did not take an active part to secure the return of Mr. Rusden? I do not know it.
632. Have you had any conversation with him lately? No, not lately, I have not seen him.
633. Have you been in communication with him since the election? I received a letter from him last week, telling me I was subpoenaed, that I had better come down immediately, that he had presented a petition.
634. Who was the Presiding Officer at Falconer? William Shepherd.
635. What is he? A farmer in that neighborhood.
636. Is he one of Mr. Rusden's supporters? You had better ask himself.
637. Speak as to your own knowledge? I do not know; I never ask a man whom he supports; no Returning Officer should, I conceive—
638. Who was the Presiding Officer at Ernani? Edward Hargrave.
639. What is he? A sheep holder; brother to the late member for New England, Richard Hargrave.
640. At Bendemeer who was the Presiding Officer? Edward George Clarke.
641. What is he? He owns land, has got a garden, has some sheep, and a megæthon.
642. He is a squatter, I believe? I do not know the term.
643. Do you swear that you do not know the term? It is not a legal term at all.
644. Do you swear that you do not know the meaning of the term squatter? I know many terms I do not wish to use; I wish to use good English, and I believe squatter is not a good English word as applied.
645. Did you, previous to the election, declare to anyone as to whom you would vote for in the event of the votes being equal? I did; I told yourself.
646. For whom? I told you I would not send you in, when you were giving me a nobbler of brandy and water at Mrs. Mullens'.
647. That is not at all an unusual circumstance? No.
648. *By Mr. Plunkett*: The nobbler was not a bribe? No.
649. *By Mr. Hart*: I believe it is not the first we had had together? No.
650. *By Mr. Teale*: You say that Mr. Hart treated you to a nobbler of brandy and water? I went in to see Mr. Hart, and asked him to give me a nobbler of brandy and water, and one for my friend, and he kindly did so.
651. *By Mr. Plunkett*: That is not to be considered as a bribe? Decidedly not. Mr. Hart would not attempt me to bribe, and I would not go to him for a bribe if I wanted one.
652. *By the Chairman*: How was the original Electoral Roll headed by the Clerk of Petty Session before it was sent to the printer? The list was headed in this manner.
653. Did it not strike you that it would have been better to have put in the words New England than Armidale? It was no duty of mine. I performed my duty by sending it to the printer; it was revised with this heading, and I had no power to alter anything; it was then too late to alter anything to go to Armidale, and to submit the matter to the Bench of Magistrates there. The printer at Armidale refused to print it, and it had to be sent off to the Government Printer in a great hurry, or I should not have been in time.
654. How long have you resided at Armidale, or near Armidale? Near six years.
655. Do you know personally either Stephen Burke, John Connall, James Johnson, William Martin Stephenson, or John Walsh? I do not know them.
656. Not personally? No.

657. Do you know these other persons who voted in their names at Armidale? I do not.
658. You do not know "Yellow Jemmy"? I do not. I am not often in Armidale; I seldom take notice of people unless I feel interested in their appearance.
659. Who was the Presiding or Returning Officer at Armidale? I was.
660. This John Connall, who personated another John Connall—there are two of that name, 262 and 267—voted at Armidale? John Connall voted before me at Armidale, but whether he was the real John Connall or a fictitious one I cannot say—267 voted before me at Armidale.
661. You could not say whether he was the proper one or a fictitious one? No; certainly not.
662. Do you know Ingalba? I do not.
663. Can you say where a person residing at or near Ingalba would naturally vote? At Walcha, I should say.
664. Who was the Presiding Officer there? David Bell.
665. *By Mr. Hay*: Separate lists I suppose were sent in from each of the Clerks of Petty Sessions in the district? No, they are all sent in by the Clerk of Petty Sessions at Armidale. Under this new Act a collector is employed to collect the names, and the Clerk of Petty Sessions, after revision by the Bench of Magistrates, sends the list to me, and it is my duty to have them printed without delay.
666. Is there any portion of the Electoral District of New England in any other Police District than the Police District of Armidale? I think not.
667. You think the Police District of Armidale and the Electoral District of New England, under this Act are identical? I think pretty nearly; I do not think there is any Clerk of Petty Sessions in the Electoral District, besides the one at Armidale. There are two or three places I believe for holding Courts, but they are not completed.
668. You only received one list? Yes.
669. It was sent in by the Clerk of Petty Sessions at Armidale? Yes, of Armidale.
670. That list was headed as the printed list is headed? Yes.
671. I suppose you have consulted the Act in relation to the duties incumbent upon you as Returning Officer? Yes, I think so.
672. I think in the 26th section it specifies, that the "Returning Officer shall cause a general alphabetical Roll of the electors of the whole Electoral District numbered in regular arithmetical progression, to be fairly transcribed or printed with as little delay as possible from the lists so delivered to him." That seems to go upon the supposition that there shall be more than one list? There may be more than one in some districts, because there may be more than one collector; an Electoral District may embrace two or three Courts of Petty Sessions. In Armidale, there is but one Clerk of Petty Sessions; there are two or three outside places where they try cases, but there is no Clerk of Petty Sessions.
673. Having therefore only one list sent to you, you did not think it necessary to cause any other list to be made out? Certainly not, except the one I kept for myself, for my own amusement.
674. You made a copy for yourself? Yes.
675. Otherwise you did not alter the list? I did not alter the list at all.
676. What did you send to the Government Printer? The list as drawn by the collector, and revised by the Magistrates, and sent to me by the Clerk of Petty Sessions.
677. You sent that identical list? I sent that identical list.
678. You considered that doing so you were sufficiently complying with the requirements of the Act, which directed that you should "cause a general alphabetical Roll of the electors of the whole Electoral District numbered in regular arithmetical progression, to be fairly transcribed or printed with as little delay as possible"? I considered that my proper course.
679. In fact you were causing that general alphabetical Roll of the electors to be printed through the Government Printer? Yes.
680. If you had taken notice of it would you not have altered the heading, so as to make it correspond with the name of the Electoral District? Certainly not. If I had had time to have ridden into Armidale, which is a distance of thirty-five miles from Tenterden, to have laid it before the Bench of Magistrates, I might have done so; but there was no time to lose, the printer at Armidale having refused to print it, and I had to send it in a hurry to the Government Printer.
681. If Walcha had happened to be a Police District, would you then, on receiving two different lists, one for the Police District of Armidale, and one for the Police District of Walcha, have caused a list to be made out from those two lists? Yes. I had to do that under the old Act.
682. You would then have made a new heading? Yes.
683. Although it happens that there is only one Police District, the Police District of Armidale, in the Electoral District of New England, it is still the Electoral District of New England? I am the Returning Officer for New England; the writ was for New England, and all the business was done for the Electorate of New England, and not for the Electoral District of Armidale.
684. It is your duty, I take it, to cause the Electoral Roll for the Electoral District of New England to be made, and not the duty of the Clerk of Petty Sessions, or of the Magistrates of Armidale? It is the duty of the Clerk of Petty Sessions to provide and appoint a collector to collect the names, and it is his duty to make out the Roll; it is the duty of the Clerk of Petty Sessions, after the revision of the Roll by the Bench, to send it to me, and then it is my duty to have it written out in alphabetical order; but I do not think it is my duty to make any alterations in it.

685. You would have had to alter the headings if there had been two lists sent into you? Yes; because they would then have been severally headed Wellingrove, Kempsey, Macleay River, Walcha, and so forth; and I should have had to compile one from these several lists, and on the heading I should have stated that the list was compiled from so and so, and was faithful and true.

686. That is the view you took of your duty? Yes.

687. And in consequence you sent down that list to the Government Printer, to be printed as a complete Electoral Roll for the District of New England? Yes.

688. You did not get back the copy you sent down? No; it is in the Government Printing Office, I believe.

689. The printed copy you used, and the certified copies you sent to the different Presiding Officers, were, in your mind, general alphabetical Rolls of the electors for the Electoral District of New England, which you caused to be printed in accordance with the Act? To the best of my belief the printed Roll is a true copy of the original document.

690. And was the Roll you caused to be printed as the Electoral Roll for the Electoral District of New England? Just so.

691. Did you tick off the names of the parties who voted, at the time when you gave them the ballot papers? I had better point out how I did the matter. I had the papers and the Roll beside me. A man came in, number so-and-so,—“Your name is so-and-so?” “Yes.” I took a voting paper, put his name on it, and ticked off the list.

692. Before you gave the ballot paper did you put the question? Yes.

693. Before you gave the ballot paper? Yes.

694. Were any questions put after? They might have been had I been put in motion after I should have put the question.

695. Did you tick off any voter, who, in point of fact, did not receive a ballot paper? Certainly not.

696. Did any voter, who received a ballot paper, return without having the opportunity of putting the paper in the ballot box? No; every paper that went out of my hand was put in the ballot box.

697. *By Mr. Jones:* Have you reason to believe that the boundaries of the Police District of Armidale and the boundaries of the Electoral District of New England, are one and the same? I cannot say; I believe they are pretty nearly so.

698. Are you aware whether, within the Electoral District of New England, there is any other Court that sits besides that at Armidale? There are two or three Courts which occasionally sit. There is Bendemeer and Walcha; these have been held within the memory of man. There is Bundarra, but there is no Clerk of Petty Sessions within the Police District, except at Armidale.

699. *By Mr. Hart:* Is there not a Clerk of Petty Sessions at Uralla? I believe there is a sort of Sub-Commissioner there.

700. *By Mr. Jones:* Are any of these places where Courts are sometimes held—separate Police Districts? No.

701. These are all comprised within the Police District of New England? Yes; the Chief Constable of Armidale has the control of the whole Police. About Uralla, I do not know; it is a gold field.

702. Your opinion is that there is no other Clerk of Petty Sessions within the Electoral District than the Clerk at Armidale? That is my impression.

703. Are you satisfied that that Roll used for the Electoral District of New England is, in fact, the Electoral Roll for the Electoral District of New England? I am satisfied it is, for I know many of these names are the names of persons in the Electorate of New England. I find my own name in it, and I am an elector for New England.

704. You are satisfied that although it is described as the Electoral Roll for Armidale, it is, in fact, the Electoral Roll for New England? Such is my conviction.

705. And it was so used by you? Yes.

706. By you and your Presiding Officers? By every one.

707. *By Mr. Teale:* Was the manuscript you sent down certified by the Justices in any way or shape? It was signed at the back by the Presiding Justice, Mr. Buchanan, and I think it was signed at the bottom of every sheet.

708. *By Mr. Hay:* You did not receive that sheet back from the Government Printing Office? I did not.

709. *By the Chairman:* Every one that was distributed or sold did you add this certificate to (*referring to the certificate on copies before the Committee*)? I did not; but I furnished each of the Presiding Officers with two copies, one certified and the other not; and the Presiding Officers certified the copies they used.

710. *By Mr. Plunkett:* Was it the identical list you got from the Clerk of Petty Sessions at Armidale that you sent down? Yes.

711. Did you not consider it your duty, under the 26th section, to cause a general alphabetical Roll to be made out yourself? Not when I got that last made out in that way.

712. Suppose there had happened to be Clerks of Petty Sessions at Walcha, Bendemeer, and the other places you have named, different sets must have come in? Then I must have done it.

713. What security have you that the lists from the other places came into the clerk at Armidale, and that he transcribed them all? I have no security; I do not think that falls within my province; I merely use the list as sent in by the clerk.

714. Do you not think it appears by the 26th section, that the Returning Officer, when he has all the lists before him, should in the words of the Act “Cause a general alphabetical Roll of the electors of the whole Electoral District numbered in regular arithmetical  
“ progression,

"progression, to be fairly transcribed or printed with as little delay as possible"? This is what I caused to be done. (*Pointing to the printed list.*)

715. Can you say that, although this is headed the Electoral District of Armidale, it comprises the whole of the electors within the Electorate of New England? I find the names of those whom I know to be electors of New England.

716. Have you any certainty at all, that all the lists have come in from wherever there were Courts of Petty Sessions, and that the lists have been taken down by the collectors correctly within these boundaries (*reading the boundaries as described in the Electoral Act*)? I know nothing about that; I merely know that the list sent to me by the Clerk of Petty Sessions at Armidale, was by me caused to be printed.

717. You rely entirely upon the Clerk of Petty Sessions? It is no business of mine; I will tell you the course of proceedings:—The Bench appoint a collector, who is bound under a heavy penalty to make a correct list, and he afterwards makes affidavit that he has done so.

718. That is, the different collectors do so? Yes, if they are employed; but only one was employed in our district.

719. For the whole district? For the whole district. The collector presents a copy of the list, he keeps one copy for himself, and furnishes another to the Magistrates, who revise it, and send it to me. I am particularly anxious not to meddle with electioneering matters in any way beyond what my duties require.

720. Did it not strike you that there was no Electoral District of Armidale? Yes, of course it did.

721. Do you recollect any cases where objections were made after the voters passed the clerk and came to you—do you remember its being suggested that any person who had come in had personated another? No, they did not suggest it to me; I was asked on several occasions to put the question. There was one man especially that I remember —

722. Do you know Burke or Buck? No; the only one that impressed himself upon my mind was this one—Thomas M'Gobick, Armidale. That man came in and gave his name; I could not find him, but he said his name was on the list. I remembered his face as having voted at previous elections. He seemed rather excited, and I said, "Your name is not here." He said, "It ought to be there." I ordered the constable to remove him, when some one suggested to take his number; I did so; it was 607. His name is Thomas Golrick, and I put the question to him "Are you the person who appears in No. 607 of the Electoral List as Thomas M'Gobick?" He said "I am."

723. Do you recollect putting the question to the men you have mentioned, Nos. 83, 267, and so on? I do not. I put the question to anyone when asked by either of the scrutineers, but I made no memorandum of it at the time.

724. You do not recollect hearing it suggested by either of the scrutineers that a person was coming in to personate? I did hear something of that sort; I did hear one of the scrutineers talking about it.

725. Who was that? I think it was Mr. Denton.

726. Do you remember the particular case? I do not. He said, "That person is personating." I said, "Mr. Denton, you have no business to speak to me"; for I know that if you shew the slightest favor you do not give satisfaction.

727. That person voted? Yes; he answered some question—Mr. Denton asked me to put certain questions, which I did. Mr. Denton made the remark that the person was personating, and I said, "Be kind enough to reserve your remarks; do not speak to me; all that you have to do is to ask me to put questions; I cannot allow you to have any further conversation with me."

728. *By the Chairman*: Do you know, personally, Yellow Jemmy? I do not remember him.

729. Do you remember his vote being challenged? I do not; I took no memorandum, and did not try to tax my memory.

730. *By Mr. Hart*: Is not there a Court of Petty Sessions at Bendemeer? I believe so; I have mentioned Bendemeer.

731. One also at Walcha? One also at Walcha.

732. One at Uralla? I do not know; I believe there is a Gold Field Petty Session—something of that—at Uralla.

733. Is not Mr. Buchanan the Police Magistrate there? I am aware he is the Gold Commissioner.

734. Does he not act as Police Magistrate? I do not know; he is the Gold Commissioner, and has a Sub-Commissioner who has been acting as clerk.

735. The Gold Field of Uralla is within the Electoral District of New England? Yes.

736. Can you say whether the Court of Revision for revising the Electoral Lists for the last election of New England were held by the Justices in Petty Sessions, were held at their usual places of meeting? I cannot say.

737. You cannot say whether the Courts of Revision were held at the different Courts of Petty Sessions? I cannot say.

738. You cannot say whether there is a Clerk of Petty Sessions, or an Acting Clerk of Petty Sessions, for the District of Uralla? I cannot say of my own knowledge—I never was there.

739. Have you never seen the official notices in the *Gazette* signed Henry ———, Clerk of Petty Sessions? No, I never get the *Gazette*.

740. Did you never receive any list supposing there to be a Clerk of Petty Sessions at Uralla—did you receive any list from him revised by the Magistrates in Petty Sessions at that place? No.

741. The only list you received was the one that was prepared by the Bench at Armidale? Yes.

742. *By the Chairman*: Will you look at this supplement to the *Government Gazette* which I hand to you (*handing the same to the witness*)—will you state at what date that was issued? The 25th of November, 1858.

743. Will you look what it purports to be? It purports to be an alteration of the Police Districts as then proclaimed, to assimilate it as far as practicable with the boundaries established by the Electoral Act—it is dated 23rd November, 1858.

744. Will you look at the Police District of Armidale while I read from the Act the boundaries of the Electoral District of New England, and see whether it corresponds with what I read word for word? (*The Chairman read the boundaries as described in the Electoral Act, the witness meanwhile referring to the Government Gazette.*) It is quite correct.

## APPENDIX F.

Mr. John Connal called in, and having been sworn, was examined:—

745. *By Mr. Teale*: What are you? A grazier.

746. Where do you reside? At Ingalba.

749. Where did you vote? At Walcha.

750. Is there any other person of the name of John Connal residing at Ingalba but yourself? None.

752. Can you say under what number you voted at the last election? I could not swear to the number; it was pointed out, to the best of my belief, at Armidale.

753. What is Ingalba? A station.

754. Of what size? I could not tell you the size; I never saw the boundaries; it is not an extensive station.

755. Do you know everyone living there? Yes.

756. How many persons reside on the station? Do you mean parties employed on the station?

757. Or otherwise employed or living on the station? There might be a dozen employed on the station.

758. You are quite sure there is no other person of the name of John Connal residing there? Quite sure.

759. And that you voted at Walcha? I voted at Walcha.

765. *By Mr. Hart*: You have been already examined upon this matter before the Bench of Magistrates at Armidale? Yes.

766. Did you give the same account then as you have done now? To the best of my belief I did.

767. You have never been, I understood you to say, to the extreme boundaries of a portion of your run? No.

768. Are there not sawyers or splitters very often on runs, particularly in that district? There are sawyers and splitters, I dare say, on the neighboring runs, but not near me.

769. How do you know that if you have not been to the boundaries? I think I should have heard, if they had been there, people could not come on your run without your knowledge. When I say I have not been to the boundaries I mean that I do not exactly know the line, but I have been over the whole run.

770. You do not know the boundaries of the place? I only know one boundary.

771. You do not spell your name with two *n*'s? Yes, with two *n*'s, but with only one *l*.

772. You cannot say under which number you voted at Walcha? No, I could not swear.

773. Do you know the person who voted at Armidale? No; never saw him till that day in Court.

774. You do not know, in point of fact, that his name is John Connal? No.

775. When the lists were being made out did the collector call upon you? Yes.

776. Did you give him the list of names? I gave him all the information I could, if I recollect right.

777. Did you give him a list of names? I cannot recollect now; I think I did.

778. Which he adopted? I think so.

779. Is that the usual way of collecting names in the district? I cannot say; it is the first time I gave mine at all events.

780. Can you say that the person who voted at Armidale was not entitled to vote? No, I do not know anything about his being entitled to vote.

781. *By Mr. Teale*: Did you give the collector two names, John Connal? No.

782. *By Mr. Hay*: The station does not belong to you? No, to my father-in-law, Mr. Scott.

783. Were you managing the station? Yes.

784. When you say you do not know the boundaries of the run, do you mean to say that you do not know all the country contained in it? I know all the country, but I do not know the marked line defining the boundaries, it was not shewn to me, that is why I cannot state positively.

785. I suppose you know what it does not include? Yes, pretty well; I could not run the line to define the boundaries.
786. *By Mr. Jones*: You know about where it should be? Yes.
787. *By Mr. Hay*: You do not think you could be more than a mile mistaken as to any part of the boundaries? No.
788. You know, in point of fact, that there was no John Connal residing upon that run at the time of the election except yourself? I am quite certain of it.
789. *By the Chairman*: Did you see John Connal at Armidale, before the Bench of Magistrates, when you were there? I saw him there for the first time.
790. If he stated that he voted for a residence at Ingalba he stated inaccurately? Yes.

797. Did any person who was hired during that time bear the name of John Connal? None.
798. If there were any sawyers, or people of that kind, there would you necessarily know all their names? Yes.
799. Did you look at the list that was posted up at the Police Office? I recollect at the time I was voting the Returning Officer mentioned that there were two John Connal's; I looked at the names, and said "The proper one is this spelt with one l," but I do not remember which number I voted under.
800. You were aware that there were two? I saw the names on the paper.
801. Had you any doubt that it was your own name? I could not tell, I looked at the spelling of the two names, and said this was correct.
802. Was this when you were before the Justices? No, at the polling at Walcha.
803. *By Mr. Jones*: I suppose the Presiding Officer called upon you "Do you vote as No. "so and so," although you do not remember the number? He said, "There are two John "Connal's." "Well," I said, "this is the correct one," and I voted according to the correct one, but I do not know which he marked.
804. *By Mr. Plunkett*: Were you so satisfied that it was your name which was put down that you thought it a matter of indifference whether you voted under one number or the other? I did not think it was my place to fix the number, but the Returning Officer's.
805. If the clerk gave you 267 instead of 262, and you were asked the question if you were the person you would say that you were? I would if I knew the number, but I do not remember the number.
806. You voted as John Connal not as John Connall, so that you voted under the number where the name was spelt correctly? Yes.

829. No, you cannot read, and therefore you could not read the list? No.

958. *By the Chairman:* With respect to Yellow Jemmy you used the words—"I think I heard him give his name as James Johnson, of Terrible Vale." I think you used the words—"I believe," or "I think"? I believe he did; I think I may say I am positive.
959. Can you say positively whether he gave his name as James Johnson, of Terrible Vale? It is my firm belief; I have no hesitation about it, but it is some time ago.

972. But you do not recollect seeing him put the ballot paper in the box? No, I do not.

1004. You have likewise stated that Samuel Buck or Burke gave his name as Stephen Burke of the Rocky River? Yes.
1005. To whom did he give that fictitious name? To the scrutineer, Mr. William Denton.
1006. Did he also give it in your presence to the Returning Officer? Yes; the Returning Officer was present. They were all very close together, and he could not have repeated it to one without the others hearing.

1016. Are you sure he voted—did you see him hand the polling paper to the Returning Officer? Yes, I am positive, because it now comes to my recollection that he stopped a very long while in the little room allotted to them to go into to fill up the paper. I wished to know what he was doing so long, and I went in, and he then came out and put the paper into the box.
1017. And after handing that paper to the Returning Officer, he retired at the door out of which persons who had voted went out? Yes.

1028. What of him? His name was wrongly spelt. I believe he came in twice, and the third time he was allowed to vote.
1029. Where was the right spelling of this name found? I had nothing to do with the making out of the Roll.
1030. *By Mr. Plunkett*: Were all the other persons entitled to be on the Roll from being in the district—the persons who personated? I cannot say.
1031. I understand you to say that you were acquainted with Buck, Connal, and Stephenson? Yes; whether they were qualified to be on the Electoral Roll I cannot say.

1033. With the exception of Yellow Jemmy? Yes, they were more than twenty-one.
1034. If you had the making out of the list, would you have put all the names on the list? I think so.

1186. You stated in the first part of your evidence that it came, accompanied by a letter? There was some correspondence with the Colonial Secretary with respect to the Roll. Some estimate had been given by a printer in the neighborhood, and it had been referred to the Government Printer for his report. 1195. Was he the only person regularly authorised by you individually to act for you? There were a number of persons present at a table, and when it was discussed what it was necessary to do at the election, it was suggested that an authority in writing from me would be required to enable parties to act as scrutineers, and I wrote these out, and I think gave them to Mr. Forster.
1196. Who was in fact authorised to fill them up? He or those persons who acted as my Committee were authorised to fill them up.
1197. In point of fact those persons whose names were filled in are to be recognised as your scrutineers? Yes, certainly; and I am quite willing to take the responsibility of anything they have done.
1198. You are not quite sure whether it was Mr. Forster or your Committee generally? No, I am not certain upon that point.

### APPENDIX M.

Thomas George Rusden, Esq., called in, and having been sworn, was examined:—

1199. *By Mr. Teale*: Do you recollect the 30th June last? Yes.
1200. That was the day on which the election for the Electorate of New England took place? That was the polling day.
1201. You were a candidate at that election? I was.
1202. Who were the other candidates? James Hart and John Eames.
1203. Were you present at the declaration of the poll? I was.
1204. Do you recollect the numbers that were given? The numbers given by the Returning Officer, were—for James Hart, 313; Thomas George Rusden, 311; and John Eames, 4.
1205. Mr. Hart was declared duly elected? Mr. Hart was declared elected.
1206. Were you present at any of the polling-places on the 30th June? I was present in the polling booth or ballot room in Armidale.
1207. Do you recollect a person of the name of Yellow Jemmy? Yes, I recollect a boy called Yellow Jemmy coming in to vote.
1208. Will you be kind enough to state to the Committee what took place on that occasion? I knew Yellow Jemmy before I saw him in the polling booth.
1209. How long had you known him? I do not exactly know—four or five years, I think. He was a little boy when I first knew him, and when he came into the booth I remembered him. He came forward, and when the Returning Officer asked him if he could read, he said "Vote for Hart," and the Returning Officer recorded his vote accordingly.
1210. Did the Returning Officer fill the voting paper for him? The Returning Officer himself recorded his vote—I saw him do it.
1211. That is to say, he filled up the paper, and put it into the box? He did it openly—before our faces.
1212. In whose name did he vote? James Johnson.
1213. Where of? Terrible.
1214. Terrible Vale? Yes.
1215. Did he tell the Returning Officer that he was James Johnson, of Terrible Vale? I requested the Returning Officer to put the questions to him, and the Returning Officer did so, and he said "Yes."
1216. Did the Returning Officer read to him, in putting the question, the words in the Act—"Are you the person whose name appears as So-and-So for the Electoral District of such a place"—did he give the name, or any name? The Returning Officer, I think, read the questions always; I requested him to put the question to him, and I think he read it directly from the Electoral Roll.
1217. *By the Chairman*: From the Electoral Act? No, it would not be from the Electoral Act, but from the letter of instructions, in which the questions are printed.
1218. Do you know James Johnson, of Terrible Vale? Yes.
1219. You are quite sure that Yellow Jemmy is not that person? Yes. James Johnson is an Irishman of about twenty-eight years of age; this Yellow Jemmy is about sixteen years of age—four years ago he was eighteen inches shorter than he is now.
1220. *By Mr. Hart*: You were the informer on the prosecution of this Yellow Jemmy for impersonation? I do not exactly understand you.
1221. Were you not the informer in a certain prosecution instituted against this Yellow Jemmy, at Armidale? I do not think I was the informer; I laid the information.
1222. You laid the information? Yes.
1223. Upon that information a prosecution was founded? Yellow Jemmy was prosecuted at Armidale, on my information.
1224. You do not like the name of informer? I have no objection to it.
1225. Do you know the surname of this person whom you call Yellow Jemmy? I do not think he has a surname.

1226. Will you undertake to say he is not called James Johnson? I know he goes by the name of Yellow Jemmy.
1227. Can you say whether he was under the impression that he was entitled to vote or not when —? I cannot say what his impression may have been.
1228. You say the Returning Officer did not put the question to him from the Act of Council? The Returning Officer put the question, but the question he had before him I am not prepared to swear to what it was; I believe the letter of instruction contained the question according to the Act.
1229. Was not this the account you gave to the bench when examined on a former occasion:— At the time the Returning Officer asked the defendant if he was the James Johnson, 589, as described on the Electoral Roll;—was not that the account you gave on a former occasion? Yes; and that is what I say now.
1230. Did Johnson say that his residence was at Terrible Vale? The question was put directly, all in one piece. He was not asked first whether his name was Johnson, and then, whether he lived at Terrible Vale, but the question was put and he said "Yes" in answer to it.
1231. You have laid informations in other cases besides this of Johnson for impersonation? There were five cases of impersonation occurred before my face; I was acquainted with the men; I had seen them before, and the Committee of Elections requested me to lay an information, and I did against these five whom I saw impersonating other parties.
1232. You did not lay informations against your own supporters? I believe there were no impersonators on our side.
1233. Will you swear there were none? I cannot swear.
1234. *By Mr. Phunkett*: Can you say you believe there were none? I believe there were none. I would not own a party that was capable of impersonating.
1235. *By Mr. Hart*: Have you heard of any cases occurring at Walcha? Not that I know of. I dare say there were some impersonated against me at Walcha, but I am not aware of it.
1236. Have you heard of any who impersonated in your favor? None at all.
1237. You do not believe there were any? I should not think it likely at all.
1238. *By the Chairman*: You heard the Returning Officer ask the usual questions of Yellow Jemmy; would you remember the question if I read it from the Electoral Act? I believe he read it from some printed document that he had before his face; I believe it was his letter of instructions.
1239. The question simply is—"Are you the same person whose name appears as A.B. in "the Roll in force in this Electorate"? I believe that is it.
1240. You heard the Returning Officer ask whether he was James Johnson, of Terrible Vale, number So-and-So; what was Yellow Jemmy's reply to that? He said "Yes."
1241. Did you caution Yellow Jemmy about voting? The Returning Officer would not allow either me or any of the scrutineers to speak to the people coming to vote; he objected to it.
1242. That was in the polling booth? Yes.
1243. Did you see Yellow Jemmy receive his voting paper from the Returning Officer? No; the Returning Officer, himself, recorded the vote for Yellow Jemmy.
1244. *By Mr. Jones*: First having asked him whether he could read? Yes; he asked him—"Can you read?" and Yellow Jemmy said—"Vote for Hart," as if he had been instructed, no doubt.
1245. *By the Chairman*: Did you see the Returning Officer strike out the names of yourself and of Mr. Eames? Yes.
1246. And saw him leave Mr. Hart's name distinctly? Yes; I saw him leave in Mr. Hart's name, and put the ticket into the ballot box.
1247. *By Mr. Hart*: Have you been at Terrible Vale? Very often.
1248. How long since? I think about two years.
1249. Do you know whether there is a Court of Petty Sessions at Uralla? Some people think there is, but I do not think there is. There is a Court of Petty Sessions; I do not know the proper name of the place, but it is four miles from Uralla.
1250. Do you not know that the gold field is comprised within the district of Uralla—that that is the Government name for the locality—is there not a Court held at the Commissioner's camp? Yes, but the Commissioner's camp is four miles from Uralla.
1251. That is, the town of Uralla? Yes.
1252. But is not the Commissioner's camp situated in Uralla? I do not know, it might be.
1253. Is there a Clerk of Petty Sessions there? I think not.
1254. Do you not know Mr. Henry Row Rose? I think he is a Commissioner now; I do not know whether he is a clerk or not.
1255. Have you not seen some notices signed by him as Clerk of Petty Sessions? I might have some time ago.
1256. *By Mr. Teale*: Do you know John Connal, of Ingalba? Yes, I have known him nearly twenty years.
1257. Did any body vote in his name at the late election of the 30th June? Yes.
1258. At Armidale? Yes.
1259. Who was that? He was a man I had seen before, and I had heard himself say that his name was John Connor. He was asked by the Magistrate what his name was, and he said John O'Connor, or John Connor.
1260. Did the Returning Officer put any questions to him? The Returning Officer put the same questions to him—he read them to him at the request of my scrutineer. My scrutineer pointed him out to me, and said he had no vote. I looked at the man, and knowing John Connal, of Ingalba, I saw this man was not he.

1261. What did this man give as his description? The question was asked him, was he the John Connal described on the Electoral Roll as 267, and he said "Yes."
1262. Who did he vote for? I do not know, the Returning Officer did not record his vote—the man recorded it himself, so I cannot tell.
1263. He was able to write? I do not know, but he took the paper away, and came back and put it in the box himself; I saw him do it.
1264. You are sure he is not the same person as John Connal, of Ingalba? He is not the same person.
1265. Are there two persons of the name of John Connal, of Ingalba? Ingalba is a station, and John Connal is the proprietor.
1266. Did you at any time see the original manuscript list of voters for the electors of New England? I saw the collector's list, it was produced in evidence.
1267. On the occasion of this case appearing before the Magistrates? On the occasion of John Connor being before the Magistrates.
1268. You are quite sure that John Connor or John O'Connor is not John Connal, of Ingalba? Yes.
1269. *By Mr. Hart*: When were you at Ingalba last? About three years ago.
1270. Will you undertake to say that there may not have been several John Connal's there, since you were there? Of course, there cannot be.
1271. Will you undertake to say there are not——? Ingalba belongs to John Connal.
1272. Might there not be twenty John Connal's there for all you know? I would not believe it, because I heard John Connal swear there was not.
1273. Then you only speak from hearsay? No, it was on oath.
1274. Did you not say when you were before the Bench there might be five hundred John Connal's of Ingalba without my personal knowledge? No, I never said those words at all. You know the way evidence is taken down before a Bench, the lawyer put words into a witness' mouth, and then they are put down as his, without his making use of them at all. That was the question that was put to me.
1275. Did you not answer that in the affirmative? Of course.
1276. You do not know for whom this man voted? No.
1277. For all you know you may have had the benefit of his vote? Not likely.
1278. *By the Chairman*: Was your scrutineer in the booth at the time John Connal gave his vote? My scrutineer was there, and I requested him to take particular notice of this man so that we should know him again.
1279. Could the scrutineer know how this man absolutely voted, had he any better means of knowing it than you had? I should think not.
1280. *By Mr. Plunkett*: I suppose he went into the room to fill up the paper? Yes; there was a piece of calico, and he went behind that into a small place, and brought the paper out with him. He was very frightened because he saw us taking notice and making remarks, and he was a long time before he put his paper in the box, his hand shook very much.
1281. *By Mr. Teale*: Did he retire by the door appropriated to persons who had voted? Yes.
1282. *By Mr. Plunkett*: Is he one of the persons committed? Yes.
1283. Connor is his real name? I think John Connor is his real name.
1284. N o r i s it? Yes; but then I only go by what I heard them say.
1285. *By Mr. Teale*: Did he, before the committing Magistrate, say his name was John Connor? He was remanded on one occasion, and when he was called up by some accident or other he was asked "What is your name?" and he said John Connor or John O'Connor.
1286. *By the Chairman*: Is John Connor or John O'Connor committed by the Magistrates for impersonation? John Connor is committed.
1287. *By Mr. Teale*: Do you know William Martin Stephenson? Yes.
1288. Do you also know a person named John Stephenson? Yes.
1289. Do you know that John Stephenson has also been committed? John Stephenson is committed.
1290. Did you see John Stephenson, the person who has been committed, in the polling booth on the 30th June? I saw John Stephenson come to the booth, and his vote was objected to; he said he did not care, he would give his name as William Martin Stephenson; the Returning Officer asked him if he could read, and he said he would vote for Hart, and the Returning Officer recorded his vote.
1291. Did the Returning Officer ask the question? Yes, he did, at the request of myself and the scrutineers.
1292. What did he say his name was? William Martin Stephenson.
1293. Did he give any residence? No, he was asked if he was that number.
1294. Do you recollect the number? I have got my list—(*The Witness referred,*) 1029.
1295. He voted you say for Mr Hart? For Mr. Hart—the Returning Officer recorded his vote for him.
1296. Could he read or write? He said he could not.
1297. The Returning Officer filled up the voting paper for him? Yes, the Returning Officer struck out the other names.
1298. Did you see him do that? Yes.
1299. Which door did he go out of? The door behind, where all those parties went out who had voted.
1300. How long have you known William Martin Stephenson? I think about six or seven years—but I forget—I do not know how long.
1301. How do you know this man's name is John Stephenson? The District Court opened shortly after the polling took place, and I saw there was a case of Stephenson against a Chinaman;

- Chinaman; I wanted to see which Stephenson it was, so I went to the Court, and there I saw this man on his oath, and he swore his name was John Stephenson.
1302. That was between the election and the committal by the Magistrate? I think it was before the committal—I am almost sure it was before the committal.
1303. *By Mr. Hart*: Can you say of your own knowledge that the person who voted was not named William—may he not have assumed that name? I heard him swear his name was John.
1304. At the time of polling, had you any knowledge that William was not his name, of your own knowledge? Yes, because I knew William Martin Stephenson, and I knew that was not him.
1305. May his name not have been William too? I cannot answer such a question as that—I cannot swear whether it was or was not.
1306. You were not present at his christening? No, I was not.
1307. He may have assumed the name? He did assume the name—
1308. As more euphonious than John. When he was asked what his name was in the polling booth both by yourself and by your scrutineer, did he not then state his name was William Martin? Yes, my scrutineer said, “Now John, you know that I know you—don’t get yourself into trouble.” “I don’t care,” he said “my name is William Martin Stephenson.”
1309. Do you know how long he has resided in the District—this person whom you call John Stephenson? Do you mean the District of Armidale?
1310. Yes; has he resided there the last twelve months? I think he is an old hand; I have known him a long time.
1311. He is qualified to be an elector by residence, is he not? I do not know whether he is or not.
1312. If he has resided upwards of six months in the District is he not entitled to vote? Yes, if he is on the Roll.
1313. He may be entitled without being on the Roll? I would not take his vote then.
1314. *By the Chairman*: Your scrutineer positively cautioned him not to vote, as he might get into trouble? Yes.
1315. You heard him reply “I don’t care, my name is William Martin Stephenson, and I will vote for Hart”? In reply to the Returning Officer he said he would vote for Mr. Hart.
1316. You say that the Returning Officer scratched out your own name and Mr. Eames’, and left in Mr. Hart’s? Yes; I saw the Returning Officer do that, and record his vote in the ballot box.
1317. You are quite sure that the man who voted was John Stephenson, and not William Martin Stephenson, whose name is on the Roll? Yes; they are not a bit alike.
1318. *By Mr. Teale*: Do you know a person of the name of Stephen Burke? I do not know Stephen Burke; I believe I have seen him.
1319. Do you know Samuel Buck? Yes, I know Samuel Buck.
1320. Did he come to the polling booth at Armidale on the 30th June last? Samuel Buck came to the polling booth or ballot room three different times for the purpose of voting on the 30th of June. The first time he came he said his name was Samuel Buck. The Returning Officer told him he had no vote, and he was sent out again by the same door by which he entered. Some time after that two or three people brought him to the door, and pushed him in, and when we spoke to him he said his name was Samuel Buck. He was then asked—Is your name Stephen Burke? He said, “No, Samuel Buck”; and he was turned out the same road again.
1321. Then he came in the third time? He was pushed in the third time, and his piece of paper was given to him. This piece of paper was given by the poll clerk with the other person’s name on, I suppose, and then after stammering and stuttering a good deal, he said his name was Stephen Burke, and that he could not read and write.
1322. Was the Returning Officer requested to ask him the question? Yes; my scrutineer and myself, for this man was forced in a third time.
1323. Did the scrutineer ask him the question, or the Returning Officer? The Returning Officer asked him if he was according to the number here, No. 83. He asked him if he was Stephen Burke No. 83 on the Electoral Roll.
1324. What did he say? He said, “Yes.”
1325. He said, distinctly, his name was Stephen Burke? Yes, he made use of the words Stephen Burke.
1326. In reply to the Returning Officer? Yes.
1327. Did he say he could not read and write? He said he could not read.
1328. Who did he vote for? He said he voted for Hart.
1329. Did the Returning Officer strike out any names? Yes.
1330. Did you see him do it? Yes; he struck out the names of Rusden and Eames, and put the paper in the ballot box.
1331. Which way did Samuel Buck go out? He went out by the back door, the same way that all went out after they had voted. This Samuel Buck is stupid; not a clever sort of man; he will hire with you without asking you to pay his wages.
1332. He is one of the parties committed to trial by the Armidale Bench for impersonation? Yes. I believe he is now in Armidale lock-up; he could not get bail.
1333. *By Mr. Hart*: Did you make any mark at the time of this person recording his vote, or do you speak from memory? I speak from both. I did keep an account of every one who impersonated.
1334. Did you mark this person off as having voted? Yes.

1335. Are you certain upon that point? Yes; I have got that mark here. (*Referring to his Electoral List.*)
1336. Did the Returning Officer put the question to the electors in an under-tone as to how they would vote, or did he ask them openly? The Returning Officer on some occasions got up, leaned over to the witness, and said, "Do not tell anybody else, but tell me." Many of the men repudiated the ballot, and said "I want none of that—I vote for So-and-So;" but the Returning Officer always offered to go away with them.
1337. Did he do so in every instance? I believe in every instance.
1338. Then when he retired with those electors who could not read, he struck out the names himself? When he retired I could not say what he did, only when I saw him.
1339. Did he retire for the avowed purpose of striking out the names? He did sometimes, but not in any of these instances in which the evidence is taken now.
1340. In the cases you have spoken of you have seen for whom the parties recorded their votes, except Connal? And in a good many other cases that have not been mentioned.
1341. But there were some instances where the electors could not read or write, and the Returning Officer retired with them and struck out the names, not in the presence of the scrutineers? I do not know what the Returning Officer did when he went away.
1342. State what took place, and perhaps the Committee will judge for themselves what he did—describe what he did with respect to these voters? In what instances?
1343. When he retired? I cannot say what he did.
1344. What took place—did the Returning Officer lean over to the elector and ask for whom he wished to vote? Sometimes he said "Tell me, but do not tell any one else." Sometimes the electors did whisper to him.
1345. Then you cannot say in whose favor these persons voted? No, I cannot say.
1346. I believe the Returning Officer declared himself a supporter of yours previously to the election? No, I do not think he ever did.
1347. Did he not stop at the same hotel as you? Yes.
1348. Where your Committee was held? I do not exactly know where my Committee was held.
1349. Was it not held at Scholes' New England Hotel? I believe not; I do not know.
1350. Refresh your memory? I do not know who were my Committee. Mr. Scholes was the secretary to my Committee after the election, but I know nothing about it before.
1351. Can you undertake to say whether Dr. West, one of the Presiding Officers, was not also one of your supporters? Dr. West is a gentleman; I should think he would vote for me.
1352. Only gentlemen voted for you? Yes, I hope so.
1353. Did he not communicate with you, and suggest means by which your election should be secured? Who?
1354. Dr. West? I really could not say that he did. I had very little time to consult with any of the parties up there.
1355. What! between the day of nomination and of the polling? I was very little in Armidale; I left Armidale, I believe, the next morning.
1356. On the day of nomination do you recollect Dr. West ranging himself among your supporters when the Returning Officer requested the electors to divide? I could not say. I dare say he did. I do not know. The only thing I particularly remarked was seeing one of your supporters taking six children over to count.
1357. However, it was on that occasion, with the six children, the electors, and others, it was declared that the show of hands was in my favor? Yes, it was in your favor, at the show of hands, I think, by five.
1358. Have you the list of the persons who signed the petition first presented to this Council? Yes, 474.
1359. Have you it with you? Yes. This is a private document—it is my property. I have no objection, myself, to giving it to you, but I do not think I should be justified in doing it without the permission of the solicitor. It is a private document—perhaps the petitioners would not wish me to publish their names. (*The witness produced the printed Electoral Roll.*) That is the only document I have got of that nature. There were some copies kept like that. Every man who gave a genuine signature, his name was ticked off that list.
1360. You decline to produce it—do you produce it or do you not? Decidedly not.
1361. *By Mr. Teale*: Do you know of your own knowledge where the Returning Officer stops when he is in Armidale? I have known Mr. Cheesbrough to be in Armidale, and I have known him to be at Scholes'.
1362. Is that one of the principal inns in the place? Yes, it is one of the best inns in the place.
1363. Do you know whether he is in the habit of stopping there whenever he goes to Armidale? I have not known him stop at any other place for two years.
1364. *By the Chairman*: I think you said Samuel Buck told the Returning Officer he could not read or write? Yes; he said he could not read.
1365. Was this Samuel Buck drunk at all that day? Well, I thought he was not sober, but I have seen the man since, and he is not a very bright man, so that I might have been deceived.
1366. You had known Samuel Buck some time? Yes. I knew his face when I saw him.
1367. You say he is stupid, do you mean that he is imbecile? He is not very bright; he goes and hires with people to fetch wood and water, and I believe will hire for nothing.
1368. This man I think you state was pushed into the polling booth three different times? The second and third times he was pushed in, the first time he was in before I saw him.
1369. Do you know the names of any of those parties who pushed him in the third time? Yes.

1370. Have you any objection to give their names? No; there were three parties—William Hipgrave, Walter Craigie, and Solomon Cohen.
1371. Did you hear them tell Samuel Buck how he ought to vote? I was inside, and could not tell what they said to him, but I could see what they did; I was inside the booth, and there was a tremendous noise outside; eleven times the Returning Officer threatened to adjourn the polling on account of the riotous conduct of these parties.
1372. You heard nobody tell Samuel Buck how he ought to vote on this particular occasion? No, I cannot say I actually heard them say; I was too far off.
1373. *By Mr. Hay*: Were these parties who you say pushed him in supporters of yourself or of Mr. Hart? Supporters of Mr. Hart; one of them struck me the same day, while the poll was going on.
1374. Who is Solomon Cohen? He is gazetted as a Magistrate I believe now.
1375. *By Mr. McArthur*: Do you mean to say that the Returning Officer in every instance retired with persons who could not read, or that it was only in a few cases? In some cases, but he always said in this way "Do not tell anybody else, but tell me—whisper—or come "with me;" sometimes the parties whispered, sometimes they went away.
1376. To another room or apartment? Yes, behind the calico.
1377. *By Mr. Hay*: Sometimes they spoke out? They would not go with him, but would say "None of that work; I am not ashamed of my vote; I will vote for So-and-So." Some said they would vote for Hart, some for me.
1378. *By Mr. Plunkett*: You seem to think Samuel Buck was a sort of simpleton? It would not be right to say he is altogether an idiot; he is a simpleton.
1379. Has he been prosecuted? Yes; I believe he is now in Armidale lock-up.
1380. Did it occur to you at all that it would be better to prosecute these people who pushed him in so often than to prosecute him? This prosecution was undertaken at the request of my Committee, and I suggested that those persons who compelled this impersonation should be prosecuted, and not the men themselves. The Committee said I was the party to do it; and it is so; the Act is so worded, that either the Attorney General or the defeated candidate must prosecute.
1381. But impersonation is absolutely a misdemeanor? It was simply for that reason, or I should have laid the whole of the informations in the same way.
1382. You are aware, I dare say, that any two persons who conspire to do an illegal act can be prosecuted for conspiracy, and if any two of those parties conspired to get this person to personate another, that is a misdemeanor—they are guilty of conspiracy. If that be the case would it not have been better to have prosecuted those persons than a person of weak mind, as you represent Samuel Buck to be? If you refer to the 62nd section of the Electoral Act you will see that it must be on the complaint of the Attorney General, or of any registered elector. It so happens that my name was not on the Electoral Roll.
1383. *By Mr. Black*: Do I understand you to say that one of the persons who assisted in pushing Samuel Buck into the polling booth was a Magistrate? He has been gazetted subsequently; he was not a Magistrate at the time.
1384. *By Mr. McArthur*: I suppose you had no means of knowing whether this man would vote for you or for Mr. Hart? No, except that I knew they were not my supporters who were pushing him in.
1385. *By Mr. Teale*: Do you know whether the persons you mentioned just now—Hipgrave, Craigie, and Cohen—were on Mr. Hart's Committee or not? They were the chief supporters of Mr. Hart, and were very busy all that polling day; they were on the advertised Committee at all events.
1386. *By Mr. Hart*: I request you will give us a full account of the scene which you say took place when these three persons pushed this person into the polling booth. I request you will be very cautious in your evidence. State what occurred, where you were and where they were? I was in the booth and they were outside.
1387. Who? Samuel Buck, William Hipgrave, Walter Craigie, and Solomon Cohen; they had their arms round his shoulders, and were pulling him along—that was on the third occasion.
1388. Pulling him along? Yes.
1389. In what direction? Into the booth.
1390. Did they push him in to the booth? He did come in.
1391. Do you swear that they pushed him in? I swear what I say, that they had their hands on his shoulders, and were bringing him along.
1392. Did they push him in? They came to the door and gave him a paper to go to the poll clerk.
1393. You have already sworn that they pushed him in; I ask you do you adhere to that statement, or do you not? I say what I have said, that they had their hands on his shoulders—
1394. Did they push him in or not? I say plump and plain they did; I saw them do it; they had their hands on his shoulders, and he did come into the booth.
1395. They pushed him in? I do not know what force they used.
1396. Come now, do you adhere to the statement you have made, or do you not, that they did push him in? I do not know what force they used but they had their hands upon his shoulders and he did come in.
1397. Did they push him in or not, that is a simple question; and I do not want any fencing? I have told you plump and plain—they brought him to the door and he did come in.
1398. Did they push him in? I tell you they had their arms on his shoulder—
1399. Did they push him in? They brought him to the door—

1400. Did they push him in ; give me a direct answer, yes or no ? I have given you an answer. Mr. T. G. Rusden.
1401. Did they push him in ? Don't I say plump and plain they did.
1402. In what part of the polling booth were you ? At that time I was standing in front of 25 Oct., 1859. the Returning Officer ; I was watching them because I saw them pull this man about before.
1403. In front of the Returning Officer ? Yes.
1404. Where did the Returning Officer sit ? He sat at the table.
1405. What was it—a side table ? In the polling booth.
1406. What part of it ? The left-hand side of the door.
1407. Was the door in the centre or on one side ? It was to the side of the room.
1408. The entrance to the room was at the side of the room ? Yes, it must have been at the side of the room.
1409. I do not ask where it must have been, I ask where it was ? Well, it was facing the street.
1410. How was the table situated with reference to that door ; was it directly in front ? No ; a little to the left of the door as you came in.
1411. Could the Returning Officer see what passed outside, from the position where he was ? Not so well as I could, because I was in front of the door.
1412. You were not the Returning Officer ; I ask you, could he see— ? He was not in front of the door ; I was.
1413. Have you not already stated you were in front of the Returning Officer ? Yes ; I was in about the middle of the room.
1414. Were you in front of the table ? Yes ; and the Returning Officer sat on the other side of the table with his back to the wall.
1415. What distance was it from the table to the door ? About as far as from here to the window.
1416. How far is that ? I dare say sixteen feet ; I do not know ; I did not measure it.
1417. Was the door kept open or shut ? The door was kept open because people were always coming in.
1418. Were there many persons around the door ? Sometimes a great crowd at the door
1419. Were there any constables or police there ? I believe two constables were all.
1420. Was the chief constable there ? The chief constable was in the polling booth.
1421. Do you know the names of the constables who were stationed at the door ? One constable was named Callaghan.
1422. You were asked who Mr. Solomon Cohen was ? A supporter of yours.
1423. What business does he carry on in Armidale ? He is a storekeeper, I believe.
1424. Does he not keep one of the largest stores in Armidale ? I have never been in it since he kept it.
1425. Is he not connected with one of the largest mercantile houses in Sydney ? I do not know his business.
1426. Is he not connected with the firm of David Cohen and Company ? I believe he is a relative.
1427. I believe he lately prosecuted you under the Vagrant Act ? Yes ; that was an electioneering dodge.
1428. What was the charge laid against you ? For using obscene language in the street ; but the evidence given before the Magistrate by him flatly contradicted the information.
1429. Did you not raise the objection that the information was improperly laid—that it was not laid under an Act of Council ? No, I insisted upon the Magistrates hearing the case, for I intended to prosecute him for perjury, but they would not hear the case.
1430. Did you apply to have the case heard ? I did, and they refused.
1431. You said that Mr. Cohen's evidence contradicted his information ? Yes, and one was as true as the other.
1432. When you say these three persons pushed Buck into the booth, were there no other persons about the booth who could see what took place as well as yourself ? Yes, a great many.
1433. *By Mr. Teale* : Do you know Owen Walsh ? Yes.
1434. Did he come to the polling booth on the 30th June ? Yes, I saw Owen Walsh come in.
1435. Do you recollect what name he gave on that occasion ? He said his name was John Walsh.
1436. Where of ? He answered to the number.
1437. Give us the number ? 1164.
1438. Give us the whole of it ? The Returning Officer was requested to put the question to him, and he did ; he asked was he John Walsh, 1164, so described in the Electoral Roll ; he said, " Yes " ; the Returning Officer asked him, could he read ; he said " Yes," and took the paper, which he put into the box.
1439. Do you recollect whether he said John Walsh of Mihi Creek ? That is not the way the question is put ; it is—" Are you the John Walsh, number 1164, so described in the " Electoral Roll now in force," and he said " Yes."
1440. Do you know John Walsh of Mihi Creek ? Yes, I have seen him, but not since polling day.
1441. How long have you known him before ? I do not know.
1442. Did the person you know as John Walsh vote at Armidale ? No.
1443. What has become of Owen Walsh ? Owen Walsh appeared before the Court on summons ; the cases were not all heard at once, some were remanded, and he absconded ; a warrant has been issued, but he has not been taken ; at least as far as I know he has not been taken.

Mr. T. G.  
Rusden.  
25 Oct., 1859.

1444. *By Mr. Hart*: There were two Walsh's on the Electoral Roll—two of the name of John Walsh? Yes, I know, I think, three Walsh's or Welsh's.
1445. You do not know for whom Owen Walsh voted? No; he said he could read, and took the paper himself.
1446. He may have voted for you? That is not at all probable.
1447. Is it not possible? No, I should think not.
1448. Not possible, why? Because he was along with your supporters, and not along with mine.
1449. Is it not a peculiar advantage of the ballot that a person may be among your supporters and yet vote against you? I do not think it any advantage for a man to vote against me.
1450. Is not that the law, that a man may be on your Committee, and professedly your supporter, and when he goes to the poll he may vote against you? He might do it, but I would not give him permission.
1451. You would have no power to prevent him in the polling booth? You asked me if he *might not* do it—I would not permit him.
1452. *By the Chairman*: You cannot say how Walsh voted on this occasion? No; I did not see what he did with his paper; he took it away, and put it in the box.
1453. Could your scrutineer see how he voted? No, I should think not.

WEDNESDAY, 30 NOVEMBER, 1859.

Present:—

Mr. Close,	Mr. McArthur,
Mr. Hay,	Mr. Plunkett,
Mr. Jones,	Mr. Scott.

A. W. Scott, Esquire, in the Chair.

Mr. Teale appeared on behalf of the Petitioner.

Mr. Hart (Sitting Member) on his own behalf.

Mr. W.  
Craigie.  
30 Nov., 1859.

Mr. Walter Craigie was called in, and having been sworn was examined:—

1454. *By Mr. Hart*: Where do you reside, and what are you? At Armidale; I am a newspaper proprietor.
1455. Do you recollect the last election that took place for New England? I do.
1456. When did the polling take place? To the best of my recollection on the 30th June last.
1457. Where were you on the 30th June? At Armidale, a considerable portion of the day, in front of the polling booth.
1458. Did you see Mr. Rusden there? I did; I saw Mr. Rusden repeatedly.
1459. Where was he during the principal portion of the time? Sometimes he was in the polling booth, at other times he was standing in the door, at other times he was outside.
1460. Do you know anything of a person named Buck voting, or attempting to vote, on that day? I saw Samuel Buck that day, but I never saw him attempt to vote.
1461. Did you know Buck before the 30th June? I did not; I never saw him to my knowledge before.
1462. Do you recollect speaking to him on that day? To the best of my knowledge I said nothing to Buck that day, although I saw him.
1463. If any person has sworn that you pulled Buck along to the polling booth for the purpose of causing him to vote, is that true, or is it false? It is thoroughly false.
1464. Did you, either by yourself or with others, put your arms round his shoulders and pull him along towards the polling booth? I did not.
1465. Did you use any influence whatever to induce him to personate any elector, or to vote for me? I did not.
1466. Did you see Mr. Hipgrave and Mr. Cohen pulling him along, or pushing him into the polling booth? I did not.
1467. Did you, directly or indirectly, do anything to induce this man, or any other man, to commit a breach of the electoral law on that day? I did not.
1468. Were you inside the polling booth yourself? I was in once to give my vote; I was also in before the business began; those were the only times during the whole day on which I entered the booth.
1469. I presume you saw where the Returning Officer's table was placed? Yes, on the left side after you entered the door, near the centre of the room.
1470. Could the Returning Officer, from where he was seated, see what was taking place outside, in front of the polling booth? He might at times, but generally I think not; there were either one or two constables at the door, so far as I could observe, during the whole of the polling hours, and being there of course it would interfere with his seeing what passed outside.
1471. *By Mr. Hay*: From the position of the table relatively to that of the door he might have seen outside if no one had been standing in his way? He might have done so, but I think imperfectly, because in addition to the policeman being there, at the time I went in—of course I do not know whether it was so afterwards or before, but at the time I went in—the poll clerk was standing between the door and the Returning Officer.

1472.

1472. *By Mr. Hart*: Supposing Mr. Rusden were standing in front of the Returning Officer could he see what was going on outside? He might at times, but not regularly, I think.
1473. *By Mr. McArthur*: It was possible for him to see, I suppose, if no person were filling up the doorway? If the door were clear he could see what was going on outside the door.
1474. *By Mr. Close*: Was the poll clerk regularly stationed between the door and the Returning Officer? I can only speak to what I saw when I went in to give my vote.
1475. Was there any table there? I am not certain whether the poll clerk was at a table or a desk.
1476. It is usual for the poll clerk to have a table, from which he gives the tickets to the electors? I did not pay particular attention; I went in to record my own vote.
1477. *By Mr. Plunkett*: Was he sitting or standing? At the moment I speak of he was standing.
1478. Had he a seat? I did not observe at the moment whether he had or not; my attention was directed to the Returning Officer.
1479. *By Mr. Hart*: Was there generally a crowd about the door? There was generally, during the day, a crowd.
1480. Did Mr. Rusden see you shortly after the close of the poll, or when did he see you? I am not certain whether Mr. Rusden saw me then, but on the night of the following day he saw me; I was in the street, and a person caught me by the elbow —
1481. Did he, the first time he saw you, or at any time afterwards, charge you with committing this offence? The first time that I recollect seeing Mr. Rusden after the polling he spoke to me on friendly terms, and also offered me £1,000 if I would detach myself from the "Armidale Express", and start a paper on my own account.
1482. Did he charge you with having been guilty of any misconduct during that election? I do not recollect his charging me with anything; he apologised for any harsh terms he might have used in the course of the election. I returned the compliment, and said I had no malice or ill-will, but that I had opposed him on political grounds alone, and that I would do so at any future election at which he might be a candidate. I wish to add, that he repeated more than once that he would guarantee me £1,000 to start another paper if I were willing to accept the offer.
1483. That was notwithstanding this flagrant conduct of yours which, he says, you committed? I committed no flagrant conduct.
1484. *By Mr. Plunkett*: You refused this £1,000? I did; I refused the offer. The poll day, to the best of my recollection, was Thursday, and this was Friday evening.
1485. *By Mr. Hart*: Where did this conversation take place? At Mr. Scholes', New England Hotel, Armidale.
1486. That was where Mr. Rusden's Committee met? That was where it was said they met, and I believe it was.
1487. May I ask why you went there? Because Mr. Rusden requested me to go with him.
1488. Then you firmly deny that you were any party to inducing this Buck or any other person to impersonate any other elector? I do.
1489. You did not lay your hand on him? I did not lay my hand on Buck during the whole day.
1490. *By Mr. Close*: Nor speak to him? To the best of my recollection I did not speak to him—I saw him once, but I do not recollect having seen him after that.
1491. *By Mr. Teale*: There was a great riot that day, was there not, all day long? I did not see a great riot.
1492. They were very noisy? There was a great deal of excitement.
1493. There was a great noise, and always a large crowd round the door? Not always, but generally.
1494. Did not the Returning Officer repeatedly threaten to adjourn the election on account of the noise? He did.
1495. How many times? I do not recollect.
1496. Did he threaten to do so eleven times? I cannot swear whether it was eleven or a hundred times.
1497. But he did threaten to adjourn the election on account of the riot? He did, and he did the same thing at the nomination.
1498. Do you know a person of the name of Hipgrave? Yes.
1499. He is your partner, is he not, or was he not? He is my partner at present.
1500. Were you with him on that day? Part of the day—nearly all of the day.
1501. There was a good deal of jostling in the crowd, and knocking about? There was a good deal of jostling—sometimes a person was knocked accidentally against another person.
1502. Did you see a man's shirt torn off that day? I did not.
1503. Or his coat? I did not.
1504. Did you see it split from top to bottom, or split at all? I do not recollect having seen a split coat on any man's back that day.
1505. Did you see a coat or any other portion of a man's garment split at all? Some persons came there with their garments torn, in the first instance.
1506. Do you know whether your partner, Hipgrave, tore the coat or shirt off a man's back? I do not, and I never heard he did either.
1507. Do you know a man of the name of Patrick Tierney? Yes.
1508. Did you see him that day? I did.
1509. Did you see him driven up in a gig to the polling booth by anybody? I recollect seeing him at the door of the polling booth, but I do not recollect in what manner he came there.
1510. Was he accompanied by Mr. Cohen? I cannot say, because if I cannot recollect how he arrived, I cannot say in whose company he was.

Mr. W.  
Craigie.

30 Nov., 1859.

- Mr. W. Craigie.  
30 Nov., 1859.
1511. Do you recollect in what state he was? In my opinion he was half drunk.
1512. Was he able to stand without assistance? He was able to walk.
1513. Was he pushed into the booth by anyone? I cannot swear whether he was or not—I did not see anyone push him in.
1514. Did anyone help him into the polling booth? I cannot say. I did not—I cannot say whether others did.
1515. Were you one of Mr. Hart's Committee? Yes.
1516. You were a staunch supporter of Mr. Hart? I supported Mr. Hart more because I opposed Mr. Rusden than on any other ———
1517. I do not want your reasons—you did support Mr. Hart and worked for him? In opposition to Mr. Rusden, that was my motive—to keep out Mr. Rusden I voted for Mr. Hart, and supported him.
1518. You are quite positive you did not pull or push Buck into the booth that day? I am perfectly positive on the subject. I swear positively, and if a hundred persons swore the reverse I would still state what I do now.
1519. Is Mr. Hipgrave in Sydney? I cannot swear that he is not in Sydney; but I think he is in Armidale still.
1520. Did you see him push Buck into the booth? I did not.
1521. Or lay his hand upon him in any way or shape? I did not. The only time I saw Buck, Mr. Hipgrave was not with him.
1522. Mr. Hipgrave is a staunch supporter of Mr. Hart? He told me he was a staunch opponent of Mr. Rusden.
1523. Did he exert himself before and at the election on the behalf of Mr. Hart? He told me he would exert himself in opposition to Mr. Rusden.
1524. Did he exert himself before and at the election on behalf of Mr. Hart? He exerted himself strongly in opposition to Mr. Rusden.
1525. *By Mr. Hay*: Perhaps he was a supporter of Mr. Eames? I do not know a person of the name of John Eames.
1526. *By Mr. Teale*: Was not this name made use of as an electioneering dodge for the purpose of keeping out Mr. Rusden? I had nothing to do with it. I believe his name was nominated by a man when he was half drunk—a man named Turnbull, to the best of my belief.
1527. You believe there is no such person as Eames? I never knew a John Eames; I knew a James Eames.
1528. It was done as an electioneering dodge for the purpose of getting some of Mr. Rusden's votes away from him? I do not think so—I think it was merely a drunken dodge.
1529. By one of Mr. Hart's supporters? By a person who pretended to be a supporter of Mr. Hart. I do not know who he really supported.
1530. You saw Turnbull on the polling day? I am not quite positive that I saw him on the polling day; I am quite certain that I saw him on the nomination day.
1531. He was very drunk? He was half drunk, that was my opinion.
1532. Did you see him attempt to strike anybody? (*Mr. Hart objected to the Question.*)
1533. *By Mr. Hart*: You have been asked as to whether the Returning Officer did not threaten to adjourn the election—is not the Returning Officer a person of considerable tact—do you not believe that that was done rather with a view of inducing quiet than with an actual intention of adjourning the election? I do.
1534. Did he not make the same statement on the nomination day? Yes, I have heard him make the same statement formerly with a view of inducing quiet.
1535. As the nomination has been referred to, can you state by whom I was proposed and seconded; was it by Mr. Rusden's supporters, or by my own? You were proposed and seconded by persons who purposed to oppose you and to support Mr. Rusden.
1536. With what view was that ———?
1537. *By Mr. Hay*: What sort of dodge was that? A most discreditable dodge, for the purpose of precipitating the proceedings, that is of bringing them on more quickly.
1538. *By Mr. Hart*: Was it not with the view of preventing my supporters making speeches in my favor? That was my impression.
1539. *By Mr. Close*: How did this take place; were not the persons who were to have proposed and seconded Mr. Hart on the spot? They were, but there was a hesitation in coming forward; Mr. Hart's supporters wished to have Mr. Rusden nominated first, and the other party wished the reverse.
1540. Did not Mr. Hart's supporters object to this mode of procedure? Yes.
1541. With what effect? It was then too late.
1542. *By Mr. Hart*: Did not I object to the Returning Officer allowing that course to be pursued? You did.
1543. Do you recollect the observation of the Returning Officer? I cannot give the exact words, but the purport of it was unfavorable to your opinion.
1544. Did he not say he would not allow any one to dictate his duty to him, or words to that effect? Yes.
1545. *By Mr. Teale*: Was not Mr. Hart the first candidate in the field by a very long time? I cannot swear. Mr. Rusden may have been privately in the field before.
1546. Do you know whether it was advertised in your newspaper? It was not my paper at the time.
1547. You were engaged on the staff—you recollect a great deal about this—surely you remember whether Mr. Hart or Mr. Rusden were the first to advertise? I think Mr. Hart was publicly in the field before Mr. Rusden.
1548. And consequently ought to have been proposed first? It is usual, I believe.

1549. *By Mr. Hart*: Mr. Rusden had been member for the District before? He had been returned as member for the District before.

1550. Can Mr. Hipgrave, on account of his business, conveniently leave Armidale while you are absent? He cannot.

Mr. W.  
Craigie.

30 Nov., 1859.

1551. Would it not involve the stoppage of the newspaper? While I was absent it would positively.

1552. Otherwise, can you say whether he would have been in attendance to-day? He stated positively to me that if he could have left without the paper stopping he would have come down with me to give evidence to-day.

1553. *By Mr. Ptunkett*: What were you doing in front of the booth on the day of election? I wish to state my reasons; one of my reasons was this:—Several parties called at the office, and stated that they were not acquainted with the mode of voting by ballot, and I said that, as Mr. Hart would be absent, I would be in front of the booth with a list, in order to give the opponents of Mr. Rusden a fair chance of recording their votes against him.

1554. Did you take up your post there, and remain there the whole of the day? Sometimes I was there, sometimes I was away; but I was there most part of the day.

1555. Parties who were going to vote communicated with you outside the booth? Yes; parties came to me to ask if their names were on the list.

1556. Were you sitting at a table? I was standing in the crowd with a list in my hand.

1557. How near to the door? Sometimes near the door, sometimes thirty or forty yards away, and sometimes I left the scene altogether.

1558. Were you more frequently near the door than away from it? To the best of my recollection I was generally fourteen or fifteen yards from the door—sometimes I was pushed several yards.

1559. *By Mr. Teale*: There were two poll clerks engaged—one inside and one out? I only saw one.

1560. Was there not one who assisted the Returning Officer? That was the only one I saw.

1561. Was there not one outside to state the number of the voters? The numbers were obtained from the poll clerk inside.

1562. *By the Chairman*: Did you act as one of the assistant scrutineers, or as one of the Committee for Mr. Hart? I acted as one of the Committee.

1563. *By Mr. Hay*: Did any one take charge of the business for Mr. Rusden, which you seem to have undertaken for Mr. Hart? I was there merely as one of several who had lists, and who were anxious to give the voters every opportunity of ascertaining whether their names were on the list—to save the time of the Returning Officer and of the poll clerk inside.

1564. You were one of several in the neighborhood of the polling booth giving this information? Yes. Many persons, until they came there, were quite unaware whether they had votes or not.

1565. Did any persons seem to be performing similar functions for Mr. Rusden? There were several persons acting for Mr. Rusden—acting energetically for Mr. Rusden.

1566. With lists? I am not quite certain whether they had lists. I made no objection to lend my list to a party who said he should support Mr. Rusden, that he might see whether his name was on the list or not. I gave the information to any person who said he was going to vote for Mr. Rusden.

1567. Were there parties on either side who were actively engaged in inducing voters to come up to the poll? Yes.

1568. Was there any handling of the voters at all? I saw some handling of voters in this way:—Sometimes the crowd was very dense, and when a man came out of a gig or carriage, or came up to the place, one or two men would take him by the arm and push him through the crowd.

1569. They might do that? I did not see any pushing into the door.

1570. Did you yourself give any assistance to any person getting out of a gig or carriage—to get through the crowd? Yes, I did.

1571. You have said you did not see this man Buck go into the polling booth at all? I never saw him go in.

1572. You did not assist him in any way? No.

1573. *By Mr. Ptunkett*: Were you asked about his name, and did you refer to your list? I wish to state the circumstances under which I saw Buck. To the best of my recollection, for I had not a watch, a little before eleven, either Mr. Cohen or a person standing with him called out to me—I was standing a few yards distant—whether the name of Samuel Buck was on the list. I said, "No, but there is Stephen Burke."

1574. *By Mr. Hay*: The names sound much alike, one might be mistaken for the other? Yes. I was standing a few yards from the door, and looked towards Mr. Cohen whom I saw speaking to a low-sized man, and heard the latter say, "That is not my name, my name is 'Buck.'" I called out, "Do not vote, you have no right to vote as your name is not here," or words to that effect. I heard Mr. Cohen then say, "You have no right to vote," and the man walked away in the direction of Beardy-street.

1575. *By Mr. Jones*: Away from the Court House? Yes; he moved away from the Court House at right angles, and I never observed him afterwards.

1576. In fact, all the steps you took were rather to prevent the man voting? Yes, I called out to him not to vote, because he had no right to vote. I knew perfectly well when I saw the man that he was not Stephen Burke, as Burke was once a subscriber to our paper, and I had had business with him; and although I might not now be able to recognize him, I knew him to be a man of bigger frame, and a much more intelligent man than Buck; I never could have mistaken one man for the other.

Mr. W.  
Craigie.

30 Nov., 1859.

1577. *By Mr. Plunkett*: You did not observe the same man go into the booth more than once and come out again? I never saw him go into the booth at all.

1578. When did you ascertain that he had actually voted? I never knew that he voted; I never saw him go into the booth.

1579. Did you hear that he had voted? I heard that Stephen Burke had been personated, but I had no idea that he had been personated by this person; I had no idea by whom he had been personated. There was a man there very like Buck in appearance, and I thought at a later period of the day he was Buck; but when I examined his countenance particularly I found he was a man named Duberry, residing at Tilbuster, one of Mr. Maister's shepherds.

1580. *By Mr. Hay*: I suppose it would be somewhat difficult for a person looking out from the polling booth, and seeing you engaged in the way you have stated, in assisting people from their vehicles to the polling booth, to say what was the degree of influence you had physically upon those individuals? I should say it would be very difficult.

1581. A person who was looking at you from a distance might suppose you were pulling a person to the booth, when you were assisting him in this way? One thing I recollect—that I was frequently pushed from one end of the crowd to the other; and to prevent myself from falling, I may have put my hands in that way against the shoulders or breast of another.

1582. *By the Chairman*: And the person against whom you thus pressed your hands may have been Buck? I never saw him after the time I have referred to.

1583. *By Mr. Hay*: You acknowledge that you assisted persons from gigs or carriages to pass through the crowd to the polling booth—it would be difficult for anyone looking on to say what degree of influence you used, and such a person might suppose you were pulling the party? Yes, while in reality I was merely making way for him through the crowd.

1584. It is impossible for a bystander to judge, in such a case, what degree of force is used? It is difficult indeed.

1585. *By Mr. McArthur*: If you appeared to be pulling any party, you were merely attempting to get him along with you through the crowd? Yes, not in the way of intimidation; I merely assisted parties to get to the door; I never pushed a man within the door; in fact, the constables, when there was any kind of pressure, put their sticks against the door, so that no person should enter against their wish. I never saw less than one constable, and he was stationed outside the door.

Solomon Cohen, Esq., J.P., called in, and having been sworn was examined:—

S. Cohen,  
Esq., J.P.

30 Nov., 1859.

1586. *By Mr. Hart*: Where do you reside? At Armidale.

1587. Do you recollect the last election for New England? Yes.

1588. Do you remember when that took place? On the 30th June.

1589. Were you at Armidale on that day? Yes.

1590. Did you take any part in that election? I did.

1591. Did you see Mr. Rusden there? I did.

1592. Was he inside or outside of the polling booth? He was inside and outside—all over the place, as far as I can judge—he was here, there, and everywhere. If my memory serves my right, he went away sometimes altogether from the booth; I am not positive, but I think he went away from the booth.

1593. In Mr. Rusden's evidence given before this Committee, he has sworn that yourself, Mr. William Hipgrave, and Mr. Walter Craigie threw your arms around a man named Samuel Buck, and either pushed him into or pulled him to the door of the polling booth—is that statement correct or not? Thoroughly incorrect, positively.

1594. Did you yourself, either directly or indirectly, push or influence the man Samuel Buck to vote for me? I did not; I never asked the man to vote. If I am allowed to do anything more than answer the question, I could make a remark upon that. (*The Chairman intimated that the witness might do so.*) I recollect the man Samuel Buck coming up near the polling booth with a man I knew of the name of Macfarlane; Mr. Craigie was standing there with a roll in his hand, and I asked Macfarlane if he was a voter—he said, "No." I said, "Who is that?" He said, "His name is Samuel Buck, I do not think he has got a vote." I was talking at the time to some other persons, and I said to Mr. Craigie, who was standing at some distance from me, "Will you look over the list?" because these ignorant people sometimes do not know whether they are on the list or not. I said, "Will you look over the list, and see if a man of the name of Samuel Buck has a vote?" He said, "No, he has not, there is a man named Stephen Burke, but not Samuel Buck." I then said to the man near me, "You have not got a vote." He said, "No, I thought not." That is all I know of the man in any shape or form till the booth was closed, and then I went down to where the people principally went—which was at Molloy's,—where he was making a great disturbance because his name was not on the list; and he said, it ought to have been; he was in a great fury because he was not a voter.

1595. Was he complaining that he had not been allowed to vote? Of course he was; saying that he had not voted. At that time when I was him there in the evening he was intoxicated or partly so; he said he had not voted and was much annoyed that he was not on the list.

1596. *By Mr. Jones*: Was this after the poll was closed? A few minutes after the poll had closed.

1597. *By Mr. Hart*: You asked Mr. Craigie if Samuel Burke was on the Roll, and he said "No, but there is a Stephen Burke"? No, one of them was not Burke, but Buck—they were not both Burke's. The man he said was on the list was Stephen Buck, I fancy; at any rate it was not the man's name we were speaking of at the time, who was standing there.

1598.

1598. Did you observe any man like this Buck? There is a man in Armidale—I do not know his name—who has a strong resemblance to Buck.

1599. Does he live at Tilbuster? Yes, I think he is one of Mr. Maister's men; I am not positive—I think he comes from that quarter.

1600. Did you give this Buck any paper, to enable him to go into the booth? I did not.

1601. Did you see Mr. Hipgrave or Mr. Craigie give him a paper? I did not see either of them do so.

1602. Did you see either of them place their hands on his shoulders? I did not.

1603. And you deny that you pushed him into the booth? I deny that I ever touched him in any shape or form.

1604. Did you see either of them do so? I did not, neither do I believe they did.

1605. *By Mr. Teale:* You were a strong partizan of Mr. Hart's at the last election? I was.

1606. A member of his Committee? I do not know that I was; I am not aware that I ever saw my name in print as one of his Committee.

1607. You worked for him? Yes.

1608. You have lately been appointed a Magistrate, have you not? I have.

1609. Do you know who recommended you to Government for the appointment? (*Mr. Hart objected to the question.*)

1610. Did Mr. Hart recommend that you should be put in the Commission of the Peace? He did not; Mr. Robertson, the late Minister of Public Works, without any inquiry, was the individual who asked me if I would act. It has been reported that Mr. Hart has done a great deal that he has not; Mr. Hart was aware that the circumstance had been spoken of; but Mr. Robertson was the first person who mentioned it to me.

1611. There was a good deal of jostling, rioting, and noise outside this booth on the day of the election, was there not? I do not understand what you mean exactly; there was no more than what there is at an election generally.

1612. There was a great deal of noise, was there not? No more than there is generally at elections.

1613. There was a great deal of noise, and a great crowd about the booth—I do not mean that there was an absolute riot? Pretty fair; there might have been a hundred people or more about.

1614. Is it not probable that in such a crowd a person may have been pushed about? Very probably a great many would be pushed about in a crowd at an election.

1615. Is it not probable you might have been pushed about yourself? I think it is very probable. I was among the mob, and may have been hustled about myself.

1616. Is it not probable you may have pushed some other persons about? If I had done it intentionally I should remember it; but if I had done it unintentionally I should not know.

1617. Is it not very probable you may have pushed some one? I cannot answer the question the way you put it.

1618. I say is it not very possible and very probable that you, while you were in the crowd and the crowd pushed against you, pushed against some one else? I have done that in George-street when I have been pushed against.

1619. Is it not very probable that instead of being in George-street you may have been very near the door of the polling booth when you pushed against some one? Well, I could not say; I could not say whether they pushed against me or I against them. The greater chance was that I was pushed about than that I pushed others.

1620. I wish to know whether it was not possible or probable you may have pushed accidentally against some one? I may have done so.

1621. Is it not possible or probable you may have pushed Samuel Buck? I could almost swear positively, neither by accident nor anything else did I see Samuel Buck at the polling booth after I mentioned his name to Mr. Craigie. I think I could swear I did not see him till I saw him at Molloy's, after the polling booth was closed.

1622. Did you not take some one up to the booth in a gig? Yes, I did.

1623. Who was it? A man of the name of Geldard, a tailor.

1624. Anyone else? I cannot recollect. I think one or two, or three; if you would mention the name I might say.

1625. Patrick Tierney? Positively not. Patrick Tierney did not vote; his name is not on the list.

1626. Do you know Patrick Tierney? I do.

1627. What business is he? I believe a boot and shoemaker. I do not know whether it is Patrick Tierney. I have not got it so *pat* as that.

1628. Was he very drunk that day? I cannot say.

1629. Did you see anybody tear his clothes that day? I did not; if so I do not remember.

1630. Did you see his blue shirt torn in the crowd? I did not.

1631. Do you remember whether Tierney went in to the booth to vote? I cannot say.

1632. You cannot say whether he went in to the booth to vote? I think he did early in the morning and he said he had not a vote; that his name was not on the list though it should have been,—and some of his sons.

1633. Did the constable tell you to go out of the balloting room when Tierney was there? I will swear I was not in the room.

1634. Did you not treat Patrick Tierney that day? (*Mr. Hart objected to the question.*) I did not treat Tierney or any other man that day.

1635. Of course then you will answer this question the same way; I will only ask you one more question;—Did you not say when you found Tierney's name was not on the list you had lost all your brandy for nothing? I swear positively I did not say so. I will take the book in my hand and swear positively again.

Esq., J.P.

30 Nov., 1859.

1636. *By Mr. Hart*: If you pushed anyone in accidentally is it possible you could have thrown your arm round anyone and pulled him along by accident? A loving man might —

1637. Now, now? Well I do not know how I can answer such an absurd question. There is no possibility at all about it, for I am positive I never touched the man.

1638. Did you give him a paper to go to the polling booth? I did not.

1639. *By the Chairman*: When you were speaking to Buck at the time you mentioned, how far from the entrance of the booth were both of you standing? As near as I could possibly tell you; the booth is peculiarly situated; it is almost necessary to describe it before you could judge. No person inside could see us.

1640. How far were you from the entrance to the booth? I suppose Mr. Craigie and Mr. Hipgrave might be seven or eight yards from the front of the booth, and I might have been four or five yards from Craigie, and the man may have been one yard from me.

1641. Were you nearer the booth than Mr. Craigie? I was not; Mr. Craigie was the nearest.

1642. Then you would be about eleven yards from the booth? I should think quite that from the door of the booth—considerably farther than the length of this room—double the length of it.

1643. *By Mr. Hart*: When Mr. Robertson spoke to you about your being put into the Commission of the Peace, was it before or after the election? Long before the election. I should think two or three months. When I was in Sydney I then told you of it after Mr. Robertson had spoken of it.

## SEAT CLAIMED BY JAMES HOSKINS, ESQUIRE.

## R E P O R T .

THE SELECT COMMITTEE of the Legislative Assembly, appointed on the 13th instant, "to inquire into, and report upon, the facts and allegations contained in the Petition of James Hoskins, Esquire,"—have agreed to the following Report:—

Your Committee, in pursuing the inquiry confided to them by your Honorable House, have taken the evidence of Mr. Hoskins, and of Mr. Elyard, the Under Secretary in the Colonial Secretary's Office, from which the following appear to be the material facts of the case.

In the issue of the Writs for the late General Election, a Writ was duly issued for the election of a Member for the Electoral District of the Gold Fields North, directed to William Cleghorn, Esquire, the duly appointed Returning Officer. In pursuance of this Writ a meeting of electors, for the nomination of candidates, was regularly held, when three candidates—Mr. Hoskins, Mr. Macnamara, and Mr. Hargraves—were nominated. The Poll was directed to be taken on the 6th of July, at five different Polling-places, one being Canoona, on the Fitz Roy River, and at all of these places, excepting Canoona, the Poll appears to have been regularly taken. At Canoona a Presiding Officer was appointed, who in due form accepted the appointment; and this gentleman was supplied with the necessary papers and instructions for the performance of his duties, but up to the present time no communication of the result has been made by him, either to the Returning Officer or to the Government, nor is it known whether any Poll was taken at that place or not.

This delay has not resulted from the remoteness of the Polling-places from each other, as the means of communication were sufficient for the Returns to have been all made, and the Writ duly returned, before the 30th of July, the date originally appointed.

On the 12th of August, the Government addressed a letter to Mr. Cleghorn, inquiring the reason that the Writ had not been returned, and urging him to return the same without delay, to enable His Excellency the Governor General to proclaim the election valid, as provided by the 58th section of the Electoral Act. In the early part of September, letters were received from Mr. Cleghorn, in reply, informing the Government that no Return had been sent in from Canoona, for which he was waiting, and that he could not account for the delay. On the 14th of September, the day after the receipt of the last of these communications, the Government addressed both the Bench of Magistrates at Rockhampton, (the nearest Bench to Canoona) and the Government Resident at Port Curtis, requesting them to inquire into the cause of the delay, and to urge the completion of the necessary Returns from Canoona, but no replies have yet been received from either of those places; other correspondence passed between the Government and different parties interested in the matter, which, however, does not appear to your Committee to have any material bearing on the objects of their inquiry.

A letter from Mr. Cleghorn, forwarded to the Government by the Chairman of a Meeting of the Electors of the Rocky River, gives the gross result of the Poll, at all the Polling-places, except Canoona, as follows:—

Hoskins.....	122	votes.
Macnamara .....	90	„
Hargraves.....	5	„

It is stated that, supposing a Poll was taken at Canoona, all the electors resident there at the time of the Election could not have recorded a sufficient number of votes to change the majority.

Under these circumstances, your Committee recommend that Mr. Cleghorn, the Returning Officer, be communicated with as early as possible, and instructed to return the Writ with the name of the person endorsed thereon who was elected for the Gold Fields North, according to the Returns transmitted to such Returning Officer, and that the said Returning Officer be further instructed to forward to the Clerk of the Assembly the voting papers transmitted to him, in accordance with the 56th section of the Electoral Act.

Your Committee also recommend that the time for presenting Petitions against the validity of the Return of the person whose name may be endorsed on the Writ by the said Returning Officer, be held to date from the day of the Return of the Writ endorsed as directed in the foregoing recommendation.

It appears to your Committee that, to obviate the occurrence of similar inconvenience in future, it would be an advisable course if the Speaker, within a limited period after the meeting of a new Parliament, were to report to the House any case where the Writ has not been regularly returned, in order that steps may be taken, without delay, to afford redress.

Your Committee regret that the attention of the Returning Officer was not directed at an earlier stage of this case to the decision of the Committee of Elections and Qualifications in the Election for Moreton, Wide Bay, Burnett and Maranoa, in the Session of 1858.

PROCEEDINGS OF THE COMMITTEE.

FRIDAY, 14 OCTOBER, 1859.

MEMBERS PRESENT :—

Mr. Parkes,		Mr. Jones,
Mr. Wilson,		Mr. Scott,
Mr. Black,		Mr. Wisdom,
Mr. Plunkett,		Mr. Arnold,
	Mr. Hay.	

H. Parkes, Esquire, called to the Chair.

(1.) The Clerk, by direction of the Chairman, read the Petition of James Hoskins, Esquire, as follows :—

To the Honorable the Legislative Assembly of New South Wales, in Parliament assembled.

The humble Petition of James Hoskins, of the City of Sydney, in the Colony of New South Wales, Esquire,—

Sheweth :—

That in the month of May last, His Excellency the Governor General was pleased to cause Writs to be issued, addressed to the Returning Officers of the several Electoral Districts throughout this Colony, for a General Election of Members to serve in the Legislative Assembly.

That one of such Writs was addressed to William Cleghorn, Esquire, the duly appointed Returning Officer for the Electoral Districts of the Gold Fields North.

That Petitioner was a Candidate to serve as a Member of the Legislative Assembly for the said District.

That Polling-places were appointed for taking the Poll at such Election, and, amongst others, "Canoona," was by His Excellency appointed one of the places for taking such Poll, and was amongst others publicly notified as such.

That, conformably to the provisions of the Electoral Act, the Returning Officer of the Gold Fields North (having himself to preside at another Polling-place) appointed another individual as presiding Officer for the Polling-place at Canoona aforesaid.

That at the Election which took place for the said Electoral District on the 6th of July last, Petitioner polled a large number of votes at the several Polling-places.

That notwithstanding such Election having taken place, and the fact of Petitioner having been returned by a large majority of the voters, the Returning Officer of the Electorate of the Gold Fields North, whose duty it was to have returned to His Excellency the Governor General the Writ, with the name of the person elected for the said Electoral District endorsed thereon, has failed in making any such return.

That inquiry having been made of the said Returning Officer why the said Writ had not been returned in accordance with the requirements of the Act, he assigned as the cause, that the gentleman whom he had appointed to act as Presiding Officer at "Canoona" had not delivered, or transmitted to him, the requisite returns of the state of the Poll at Canoona; and, consequently, that the said Returning Officer, in the absence of these necessary documents, was not in a position to endorse and return the said Writ to His Excellency.

That Petitioner claims to have been duly elected a Member of the Legislative Assembly for the Gold Fields North, and that his name should have been endorsed by the Returning Officer on the said Writ, as the person duly elected as a Member for the said Electoral District.

That by reason of the premises, your Petitioner has been prevented from taking, and has not taken, his Seat in the said Legislative Assembly as a Member of the said Electoral District.

That Petitioner having polled a large majority of the Electors' votes, now submits that, even had all the Electors of Canoona been adverse to his Election, their numbers being so inconsiderable, it could not have affected Petitioner's Election as a Member for the Gold Fields North.

Petitioner, in conclusion, trusts that the negligence of the Presiding Officer at "Canoona," in the discharge of his most important duty, may not be deemed to have vitiated the Election of Petitioner to the Seat in the Legislative Assembly, for which he was a Candidate, and to which the majority of the Electors of the Gold Fields North had returned him; and under all the above circumstances of the case, your Petitioner humbly prays that it will be declared that Petitioner was duly elected, and ought to have been returned, as a Member of the Legislative Assembly for the Electoral District of the Gold Fields North, or that your Honorable House will be pleased to adopt, or cause to be adopted, such means for removing the obstacle of there being no return to the said Writ as may be deemed expedient.

And Petitioner, as in duty bound, will ever pray.

Dated at Sydney, this 12th day of October, 1859.

JAMES HOSKINS.

The Committee having reassembled,—

## MINUTES OF EVIDENCE

TAKEN BEFORE

THE SELECT COMMITTEE

ON THE

SEAT CLAIMED BY JAMES HOSKINS, ESQ.

FRIDAY, 14 OCTOBER, 1859.

Present:—

MR. PARKES,  
MR. JONES,  
MR. WILSON,MR. BLACK,  
MR. SCOTT,  
MR. WISDOM,

MR. ARNOLD.

HENRY PARKES, ESQUIRE, IN THE CHAIR.

James Hoskins, Esquire, called in and examined:—

1. *By the Chairman*: Mr. Hoskins, you are the petitioner? I am.
2. That is your petition which was presented yesterday? It is.
3. About what time did you become a candidate for the Northern Gold Fields? On the 13th of June.
4. Were there any other candidates? Yes; Mr. Macnamara, of Sydney, and Mr. Hargraves.
5. Did these gentlemen go to the poll? I beg to remark that Mr. Hargraves' candidature was withdrawn previous to the polling-day; Mr. Macnamara's was withdrawn about six days before the polling-day; but in consequence of the difficulty of communication with the other Gold Fields the inhabitants were not aware that these candidates had withdrawn.
6. The votes were recorded? Yes.
7. Which candidate had the majority of votes—of the whole of them? I had.
8. Do you recollect what numbers were polled? 122 for myself, 90 for Mr. Macnamara, and 5 for Mr. Hargraves.
9. *By Mr. Wisdom*: Is that at all the polling-places? Yes, except at Canoona.
10. *By the Chairman*: It is the gross poll? Yes.
11. How many polling-places were there? Five.
12. Five in all? Yes.
13. And this was the gross poll at how many? There were two polling-places at Timbarra; this is the gross poll at four Gold Fields, and five polling-places.
14. And did any return come in from the fifth? No; none has been received.
15. What was the day fixed for the declaration of the poll? I am not aware that there was any day specified for the declaration of the poll; the writs were returnable on the 30th July.
16. Did anything take place after the polling-day—did the Returning Officer convene any meeting, or communicate in any way with the electors? He communicated with the Government and the Presiding Officer at Canoona, but not with the electors officially.
17. Did the Returning Officer ever convene any meeting, and make any public announcement? No.
18. And there has never been any public announcement to the present time? No.
19. Did you communicate with the Returning Officer as to why no declaration was made? I did.
20. About what time did you make that communication? I made repeated applications.

James  
Hoskins, Esq.  
14 Oct., 1859.

- James Hoskins, Esq. 21. Do you recollect about what time you made the first? I believe the first application was made somewhere about the middle of July.
- 14 Oct., 1859. 22. What was the answer you received? That no return had been received from Canoona.
23. And was that assigned as the reason for not declaring the result of the election? Yes, that was assigned as the reason.
24. But you said just now that the Returning Officer communicated with the gentleman acting for Canoona, or who was appointed to act, and also with the Government? Yes.
25. What did he state to you with respect to these communications? The Government wrote to the Returning Officer on or about the 20th August, asking the reason that no return had been forwarded and requesting him to forward it as soon as possible.
26. You saw that letter? I did; but I have forgotten the date. The Returning Officer wrote to the Government and explained the reason that the return had not been forwarded was, in consequence of not having received the returns from Canoona, but he expected to receive the return by the "Eagle" steamer, and then he would forward it.
27. This was about the middle of August, you said? Yes; sometime in the middle of August.
28. Or sometime in August? About the middle of August.
29. Did anything take place between the Government and the Returning Officer subsequently? When the Returning Officer found that he had received no return by the "Eagle" steamer, he communicated with the Presiding Officer, at Canoona—I think that communication was dated about the 5th or 6th August—requesting him to forward the return as speedily as possible. The Returning Officer wrote to the Government on the 30th August stating he had received no returns from Canoona; he feared the return had been mislaid, and requesting to know what steps he was to take in the matter.
30. Again? Yes; on the 30th August he forwarded a letter, dated the 30th August, explaining that he had received no return from Canoona; he feared the return had been mislaid, and asked what he was to do.
31. That was the 30th August? Yes.
32. Did you see a copy of that letter? I am not positive; I believe I did. I have seen several letters. He received a reply from the Government, dated the 14th September, and they stated that they had communicated with the Government resident at Port Curtis, and also with the Bench of Magistrates, asking them to make an investigation, and if the return had not been forwarded, to forward it immediately, by the first convenience.
33. Is that all you know of the communication between the Returning Officer and the Government? That is all I know, Sir.
34. What was the chief polling-place? The Rocky River was the central polling-place.
35. Is there not some name given to the township? No.
36. *By Mr. Wisdom*: What was the name of the place of nomination? The Rocky River, Mount Walsh Gully.
37. What means of communication is there between that place and Canoona? I believe there is an overland post, but letters have generally been forwarded to Sydney, and from there sent by sea route. The declaration of the Presiding Officer at Canoona, and the declaration of the poll-clerk at Canoona, were forwarded in error to the Returning Officer at the Rocky River—it should have been forwarded to the Government—and that was sent by the overland route, and was seven weeks in the transit.
38. *By Mr. Black*: Canoona is on the Fitzroy River, is it not? Yes.
39. *By the Chairman*: Were you present at all the three polling-places? No.
40. Are you aware that the election was conducted in a regular and legal manner at all these places? I have not heard anything to the contrary.
41. You have reason to believe it was not? Yes; the returns were forwarded, I believe, regularly from all the polling-places with the exception of Canoona, and also the balloting papers.
42. Do you consider that your constituents feel greatly aggrieved by the delay which has taken place? They do. They had a public meeting on the Rocky River; we also had a communication from Timbarra, requesting that the miners of the Rocky River (being the central polling-place) should petition the Government; and they memorialised the Speaker in error—the petition should have been forwarded to the Colonial Secretary.
43. *By Mr. Jones*: Have you had any communication with the Returning Officer since the 14th September—what was the latest date of communication with the Returning Officer? I left the Rocky River some two weeks since; previous to my leaving I was speaking to the Returning Officer about the matter.
44. And what statement did he then make to you with respect to the return of the writ? He said he was waiting for information from the Government as to how he should act, and for the return from Canoona.
45. That was the only impediment to his return? That was the only impediment.
46. *By the Chairman*: You left the Rocky River about a fortnight ago? Yes.
47. Did you wait from the time of the polling until then, expecting the formal declaration of the poll to be made? Yes.
48. The whole of that time? I waited with considerable inconvenience and expense for nearly two months.
49. *By Mr. Jones*: That was the sole cause of your not going down and taking your seat when Parliament first opened? Yes.
50. You waited, knowing that the writ was still in the hands of the Returning Officer on account of his not receiving the return from Canoona? Yes. I would venture to remark that I was speaking to Mr. Walsh, the Member for the Leichhardt District, and he told me that on the 6th July he did not think there were twenty-five miners there, or not more.

51. *By Mr. Black*: At Canoona? At Canoona.
52. What is the name of the Returning Officer? The Returning Officer's name is Mr. <sup>James Hoskins, Esq.</sup> William Cleghorn. 14 Oct., 1859.
53. Where does he usually reside? He resides on the Rocky River.
54. *By Mr. Jones*: What are the names of the polling-places? The polling-places are Uralla, Bingara, The Hanging Rock of Nundle, Timbarra (two polling-places), and Canoona.
55. *By Mr. Black*: What is the name of the Presiding Officer at Canoona? I was given to understand that his name was Mr. Gaden; I cannot speak positively.
56. *By Mr. Scott*: At Canoona were there any votes tendered, do you know? I cannot say; I know nothing about Canoona.
57. You cannot say whether any votes were taken there by the Deputy Returning Officer, or any votes tendered? I cannot.
58. You cannot say even if there was a Deputy Returning Officer there of any kind? Oh, yes.
59. Did he attend? I know the Presiding Officer was appointed.
60. But did he attend the polling-places? I cannot say.
61. I think you said, Mr. Hoskins, there were about twenty-five miners there? So I was given to understand.
62. But could not other miners and people entitled to vote—could not they have attended there? No; the qualification for a voter in a mining electorate is, that he must have been mining six months in that electorate.
63. Yes, but it is a large electorate; it does not mean that he should reside at Canoona six months—could any other voters from other places have voted there had the Presiding Officer attended? It is five or six hundred miles from any other polling-place.
64. But they might have been travelling, or fifty things—I presume they could vote there? There is nothing to prevent them that I am aware of.
65. *By Mr. Jones*: Except the difficulty of getting there? Except that difficulty.
66. *By Mr. Scott*: I think you stated that there was no opposition? Both the gentlemen withdrew from the candidature previous to the polling day; but in consequence of the difficulty of communicating with other Gold Fields there was a contest on the other Gold Fields.
67. There were three candidates originally? There were.
68. *By Mr. Jones*: And there were votes actually recorded for three candidates? Yes.
69. *By Mr. Wisdom*: Was there a contest at the Rocky River? There was one vote for Mr. Macnamara.
70. And none for Mr. Hargraves? No.
71. *By Mr. Plunkett*: Did you ascertain how the votes stood at the different places? Yes.
72. How many voters are there altogether in that locality? Oh, I suppose there are three or four thousand miners in the electorate, but they are scattered over a great extent of country.
73. But they are entitled to vote? Yes.
74. Three or four thousand electors? Yes.
75. And only two hundred and something voted? Yes.
76. *By Mr. Jones*: You said some time ago that there were 122 for you, 90 for Mr. Macnamara, and 5 for Mr. Hargraves? Yes.
77. From whom did you obtain this information? From the Returning Officer.
78. Mr. Cleghorn? Yes; and the Government have that information.
79. From Mr. Cleghorn? Yes.
80. *By Mr. Plunkett*: Did you get any information at all about the voting at Canoona? No.
81. From anybody? No.
82. Did you write to anybody? The Returning Officer wrote to the Presiding Officer, asking him to forward the return immediately—that was about the fifth or sixth of August; but no return has been received—no news has been received of any kind.
83. Is it known whether this Presiding Officer at Canoona is there still? I cannot say.
84. Has he left the place, or does he still remain in it? We have had no communication.
85. What is he—is he a magistrate? I believe he is a magistrate.
86. *By Mr. Black*: Do you know whether any proceeding whatever took place at Canoona in connection with the object of electing a representative? I know that a Presiding Officer and a polling-clerk were appointed—that is all I know.
87. These are the only steps? The only steps.
88. *By Mr. Plunkett*: Do you know whether they acted? I do not.
89. *By Dr. Wilson*: Was it a generally understood thing at the Rocky River that the other two candidates had withdrawn? It was.
90. And by that you account for the small number of votes which were recorded? Yes.
91. *By the Chairman*: You are aware that a Despatch has been received from the Secretary of State proclaiming the separation of the Northern Districts? I have been given to understand so.
92. Are you aware that the boundary line of Queensland would cut off this polling-place at Canoona from the rest of the Northern Gold Fields? I am quite sure of it. I would venture to remark that the Returning Officer wrote to the Commissioner at Canoona asking him to appoint an intelligent person as Presiding Officer; and also took the trouble to get 150 balloting papers printed in Armidale, so that there might be no delay. He dispatched that letter on the 18th or 19th June; they would arrive in Sydney about the 23rd or 24th June. The steamer left Sydney on the 27th. He asked the Gold Commissioner to acknowledge the receipt of this letter and papers, but no acknowledgment has been received.
93. *By Mr. Black*: Was it by the Government or by the Returning Officer that the Presiding Officer at Canoona was appointed? By the Gold Commissioner at Canoona. The Returning Officer wrote to the Gold Commissioner on or about May 25th, acquainting him with

- James Hoskins, Esq. with the fact that he was appointed, and asking him to appoint some intelligent person to act as Presiding Officer. He received a reply on or about the 19th June or 25th June, acquainting him with the fact that he had appointed a Mr. Gaden to act as Presiding Officer. That is all the information with the exception of the declaration of the Presiding Officer.
- 14 Oct., 1859. 94. Mr. Gaden never appears on the scene of action by warrant or deed? I know nothing at all about him.
95. Who is the Gold Commissioner? Mr. Hay.
96. Did he communicate with anybody? Yes; he communicated with the Returning Officer acquainting him with the fact that he had appointed a Presiding Officer; but he has made no communication since, although he was requested to acknowledge the receipt of the letter acquainting him with the fact that the election was contested, and also 150 balloting papers; but he has not acknowledged the receipt.
97. *By Mr. Wisdom*: Was that the last letter sent to Mr. Gaden? That was sent to the Gold Commissioner.
98. Has there been a letter sent to him since? Not from the Returning Officer to the Gold Commissioner.
99. *By Mr. Black*: There is no means of knowing whether this supposed Presiding Officer at Canoona ever received any communication on the subject? There is no means of knowing whether he received any communication from the Returning Officer. Since the poll, or since the day the poll should have taken place, there has been no news received.
100. No means of knowing whether he received any communication whatever from any quarter? Yes; his declaration was forwarded by the overland route to the Returning Officer.
101. Therefore he had accepted the office? Yes. It was known that he had accepted the office, and also that the poll-clerk was appointed.
102. Is there any other point in the inquiry on which you wish to make any statement? Not that I am aware of. I can only say that possibly the Returning Officer may have acted in ignorance of his duties in not having forwarded the return; but he considered that he ought not to forward it until the returns were complete. He communicated with the Government, and asked them what he was to do in the matter; and they wrote back, and told him they had communicated with the Presiding Officer, the Bench of Magistrates, or the Government Resident, and that although the return had not been forwarded within the prescribed time, it would not vitiate the election.
103. *By the Chairman*: You, personally, as a matter of course, feel much aggrieved at being kept out of your seat, and at not having the privilege of exercising your voice on the many questions before the House? Yes, and so do the electors. A memorial was forwarded to the Speaker by the electors (it should have been forwarded to the Colonial Secretary) complaining of the delay.
104. You are aware that was handed over to the Colonial Secretary? I am aware a reply was received from the Colonial Secretary. I wish the Committee to bear this fact in mind, that a letter was forwarded from the Returning Officer to the Government, acquainting them with the fact that he had not received any returns; he feared they had been miscarried, and he wished to know what to do.
105. *By Mr. Jones*: That was on the 30th August? Yes; and there being no answer a public meeting of the electors was called, and they memorialised the Speaker in error. No answer was received from the Colonial Secretary's Office until the 14th September, there being eleven or twelve days intermission; and I see, in reply to a question in the House, that the Colonial Secretary stated that the Solicitor General had written to the Presiding Officer, at Canoona, and also to the Government Resident, a letter dated 21st September. No communication was forwarded between the 2nd and 3rd September, and the 21st September.
106. *By Mr. Plunkett*: What space of time must elapse before the letter can arrive here by post? From the Rocky River?
107. Yes? About three days.
108. *By Mr. Jones*: You may say on the average, I think, five days, unless it was dispatched immediately it was posted? We will say five days. I know it was dispatched on the days named. I would venture to remark that there were several sailing vessels trading to Rockhampton at the time, in addition to the steamer, and two vessels have arrived from Rockhampton since I have been in Sydney.
109. *By the Chairman*: Then this delay in no way necessarily arises from the remoteness of Canoona? I should say not.
110. There have been sufficient means of communication for the returns from Canoona to have been made before the day appointed for the return of the writ? Yes.
111. So that it does not arise, I presume, from the unwieldliness of the electorate? No. When you bear this fact in mind, that the Returning Officer wrote at least to the Gold Commissioner of Canoona, and acquainted him with the fact that the election was contested. The letter was forwarded on the 16th or 17th June; it arrived in Sydney on the 22nd or 23rd June, and the steamer left on the 27th June, so that it would possibly arrive at Rockhampton on the 3rd or 4th July. The polling-day was the 6th, and there was ample time to have received an answer by the 30th July, when the writs were returnable.
112. *By Mr. Scott*: The writs were returnable by the 30th July? Yes, Sir.

William Elyard, Esq., called in and examined:—

113. *By the Chairman*: You are Under Secretary in the Colonial Secretary's Office? Yes.
114. Sometime in May writs were issued for the election of a new Legislative Assembly? Yes; on the 11th May, 1859.
115. At that time was a writ issued for the election of a Member for the Gold Fields North? Yes; a writ was issued for the Electoral District of the Gold Fields North, bearing the same date.
116. The same steps were taken in this case as in all other cases for the General Election? The mode of election for the Gold Fields differs in some respects, and the instructions to the Returning Officers were so far varied as to suit the circumstances; otherwise the steps taken were the same.
117. But even in that variation the same course was taken as for the other Gold Field Electorates? Yes.
118. Was the writ ever returned for that electorate? No writ has yet been returned for the Electoral District of the Gold Fields North.
119. What was the date fixed by the Government for the return of the writ? The 30th July, 1859.
120. When no writ was returned did the Government take any steps in the matter? On the 12th August a letter was written to Mr. Cleghorn, the Returning Officer for the Gold Fields North, requesting him to state whether all the returns from the several polling-places had been received; and, if so, that he would forward the writ to the Colonial Secretary's Office, if possible, before the 30th instant. That was done with the view of obtaining it before the time fixed for the meeting of Parliament.
121. Parliament was summoned on —? For the 30th of August. If the writ had been received as desired the return would have been declared valid by a Proclamation of the Governor General, with the advice of the Executive Council, in the usual way, and there would then have been no difficulty in the matter.
122. What reply did you get to that communication? I do not see any reply to that particular letter, but there is one paper.
123. Do you know whether any reply was received? There are other letters, which I was going to mention. There is one letter, received on the 23rd of August, which I have not with me, and cannot therefore state its purport. It could not, however, I think, be in answer to the one of the 12th; but on the 6th September another letter was received on the subject, and in that the Returning Officer reports, that up to the date of it (30th August) no returns from Canoona had come to hand.
124. Did the Government communicate again with Mr. Cleghorn on the subject? Yes, a letter was written on the 14th of September—a further letter (dated 3rd September) having been received on the 13th. In this letter he stated:—"I regret having to report that I am yet unable to account for the delay of the returns from Canoona." Letters were also written to the Government Resident at Gladstone, and to the Bench at Rockhampton, on the subject.
125. What was the purport of the letters to Mr. Cleghorn, and to the Government Resident at Gladstone, and to the Bench of Magistrates at Canoona? A copy of Mr. Cleghorn's letter was sent to the Government Resident, and to the Bench at Rockhampton, with a request that they would make inquiry on the subject and report the result, and that they would also suggest to the Presiding Officer that (if he had not already done so) he should forward, without delay, the statement to be sent to the Returning Officer, according to the provisions of the Electoral Act. Letters were addressed both to Gladstone and Rockhampton, in order that the authorities at either might be aware of the state of the matter, and avail themselves of any opportunity there might be of making the suggestion pointed out.
126. *By Mr. Jones*: What was the date? The 14th September, the day after the receipt of the letter from Mr. Cleghorn just mentioned.
127. What was the nature of the letter to Mr. Cleghorn? It apprised him of what had been written to the Government Resident at Port Curtis, and to the Bench of Magistrates at Rockhampton, and also drew his attention to the 52nd clause of the Electoral Act, which provides for a duplicate statement of the votes being furnished by the Returning Officer.
128. *By Mr. Jones*: Has the Returning Officer at any time furnished to the Government a statement of the number of votes which he has actually received? I proposed to continue a statement of the correspondence. On the 13th September a letter was received from the Clerk of the Legislative Assembly, Mr. O'Connor, enclosing a petition from the miners—electors of the Rocky River—representing that no return had been made of the polling at Canoona. This memorial was sent to the Speaker, under the impression, perhaps, that he was the proper party to address. On this communication reference was made the next day to the Law Officers by a minute of the Colonial Secretary, as follows:—"Will the Law Officers suggest what course should be taken?"
129. *By the Chairman*: That was on the 14th September? Yes; this letter alluded to was received on the 13th.
130. *By Mr. Jones*: Did the Law Officers report upon it? The Solicitor General advised personally on the subject, and further letters were, in consequence, written on the 21st to the Government Resident and the Bench at Rockhampton.
131. *By the Chairman*: That is, they were written in consequence of the Solicitor General's advice? Yes; I was present and made a minute on which the letters were written.
132. *By Mr. Jones*: Will you read the letters? The letter to the Bench is as follows:—"With reference to my letter of the 14th instant on the subject of the statement which the Presiding Officer at Canoona should have forwarded, in duplicate, to the Returning Officer of the Gold Fields North, in accordance with the 52nd Section of the Electoral Act, I am  
" now

W. Elyard,  
Esq.

14 Oct., 1859.

- W. Elyard, Esq.  
 14 Oct., 1859. "now directed, by the Colonial Secretary, to transmit to you a copy of a memorial from the miners—electors of the Rocky River—complaining of the delay of the Presiding Officer, at Canoona, in furnishing the statement alluded to; and to request that you will point out to the Presiding Officer that, if not already done, he should immediately forward this return, and, in order to prevent inconvenience by the non-receipt of the original and duplicate, that it is advisable that he should transmit, by the earliest opportunity, another statement prepared in the same way as the others." There is a provision in the present Electoral Act, which was not, I believe, in the former one, seemingly to guard against inconvenience arising from the loss or delay in the receipt of returns, requiring the Presiding Officer to forward the statement of the polling in duplicate.
133. *By Mr. Jones*: And shall, by the next possible opportunity thereafter, also transmit a duplicate of such statement, signed and countersigned as aforesaid? Yes; and, as the Presiding Officer might have sent a duplicate, it was pointed out that, to prevent further delay, he should forward an additional statement on which the Returning Officer could make the return. A letter to the same effect was also written to the Government Resident.
134. *By the Chairman*: Were there any other letters? A letter written to Mr. Kyle, Chairman of the Committee of Miners at Rocky River, in reply to their memorial.
135. *By Mr. Jones*: What is the date? The 21st September; and it apprises him of the steps taken with a view to expedite the forwarding of the required return.
136. Was there any letter of that date to Mr. Cleghorn? No; a letter had been written to him on the 14th.
137. That was to Mr. Kyle—to the petitioners? Yes.
138. A mere statement of what had been done? Yes.
139. Did the communication from Mr. Cleghorn, giving the result of the poll, follow next in the order of correspondence? There is a letter from Mr. Cleghorn, dated the 7th September, addressed to Mr. Kyle, which accompanied the memorial received by the Speaker, and forwarded to the Colonial Secretary on the 13th, stating that the number of votes polled for Mr. Hoskins was 122; for Mr. Macnamara, 90; and, for Mr. Hargraves, 5.
140. Would you state what took place next—have you received any answer from the Bench of Magistrates at Rockhampton? No further communication on the subject has been received.
141. You have received no communication whatever from the Bench at Rockhampton? Not from any place.
142. Not from Gladstone? No.
143. Do you know what has been the cause of no communication having been received from either of these places—it cannot be the want of means of communication? I do not know the cause of the original delay, and there may not have been time since the letters were sent for the necessary inquiry and reports. I believe it is about a week's voyage, and I think the steamer left on the 22nd.
144. Has the Government since the 21st September communicated with Mr. Cleghorn? Not since the letter written to him on the 14th.
145. *By the Chairman*: On the 14th I mean? Not since. It seemed desirable to ascertain the result of the inquiry, and of the suggestions made in the letters to the Bench at Rockhampton and the Government Resident. If attended to, the information which the Returning Officer required would be sent direct to him, and the first intimation which the Colonial Secretary would receive would most likely be by the return of the writ. At the same time it may be expected that there will be replies both from the Government Resident at Port Curtis and from the Bench at Rockhampton.
146. The Government, then, have never directed the Returning Officer, Mr. Cleghorn, to return the writ without waiting for the information from Canoona? No. The provision already referred to, which is made in the Electoral Act, for a duplicate statement to be furnished by Presiding Officers, seemed to indicate the course to be first taken, and as likely to bring the matter to a satisfactory conclusion, as on the receipt of the writ, and the issue of a Proclamation declaring the election valid, notwithstanding the delay in the return of the writ, nothing more would have been required.
147. Has any letter been addressed to Mr. Cleghorn within the last day or two, since the matter has been formally brought before the Legislative Assembly? No further letter has been written.
148. No step has been taken up to the present time? No further step.
149. There is nothing else you desire to communicate to the Committee to bring out the whole facts of the case? No, excepting that I am aware that the Government have been anxiously expecting the return of the writ by the Returning Officer, because he might receive the information from Canoona by some other means than by the steamer by way of Sydney, although probably it will be sent in this way. I may perhaps also mention that his attention was drawn to the possible difficulty of communicating with distant places in the electorate, in a letter dated the 18th June, when it was suggested that, if necessary, special messengers should be employed.
150. This was before the election took place? Before the election.
151. This letter I presume, was a copy of one addressed to the Returning Officers of all the Gold Fields Electorates? I am not sure that it was, as there were peculiar difficulties in connection with the Electoral District of the Gold Fields North, arising from the remote situation of Canoona.
152. At all events it was written to meet the peculiar difficulties of the new electorate? Yes, a similar communication was made to the Returning Officer for the Southern Gold Fields Electorate.

 REPORT.
 

---

THE STANDING ORDERS COMMITTEE, to whom was referred on the 30th November last, an Instruction to search for precedents and to Report to your Honorable House what they should find to be the practice of Parliament in the case of two Bills, substantially the same in their objects, pending at one and the same time, have agreed to the following Report,—

Your Committee, after diligent search in the several British Standard Parliamentary Works on the shelves of the Library, have failed to discover any direct and explicit rule touching the question referred to them; but they find the whole tendency of the precedents and practice given in these works to be against the pendency, at one and the same time, of any two Bills introduced by the same Member for substantially the same objects.

On the other hand, they find it to be consistent with the practice of Parliament to entertain, at one and the same time, two or more Bills, introduced by different Members, to effect the same object by dissimilar means.

But, as they also find that when there is question of identity between any two Bills the House itself will decide, so, they carefully avoid interfering, in this respect, with the functions of your Honorable House, and abstain from expressing any opinion in reference to the identity, in matter or argument, of the Bills out of which the question referred to them arose.

Original Question put and passed ;—

Whereupon the Speaker left the Chair, and the House resolved itself into a Committee of the whole accordingly.

The Chairman having reported progress, and obtained leave to sit again so soon as a point of Order which had arisen in the Committee shall have been decided by the House,—then stated that an Item in the Supplementary Estimate for 1859 being under consideration, an Honorable Member had moved that the Item be postponed, and another Honorable Member, calling attention to the rule laid down at page 531 in the new edition of May that a motion for postponing a vote in Committee of Supply cannot be entertained, and desiring his opinion upon the applicability of that rule to the proceedings of similar Committees of this House, he had expressed an opinion in favor of maintaining the previous practice in Committees of this House, which permitted of the postponement of Items, which, though considered in part, had not been amended, upon which it was resolved that the point of Order be submitted to the House for its opinion,—

And the Speaker stating that if it were insisted upon, he apprehended the First Standing Order would bind the House to the adoption of the practice of Parliament, so far as it can be applied,—

And a Debate arising thereupon,—

Mr. Murray moved, That the applicability of the new Rules of Parliament, in reference to Proceedings in Committee of Supply, be referred for consideration and report to the Standing Orders Committee.

Your Committee having considered the said new Rules, and being of opinion that it would be expedient to apply them to Proceedings in the Assembly's Committees of Supply, beg now to recommend to your Honorable House the adoption of the following Rules founded thereon:—

(1.) "That when a Motion is made, in Committee of Supply, to omit or reduce any item of a vote, a question shall be proposed from the Chair for omitting or reducing such item accordingly; and Members shall speak to such question only, until it has been disposed of."

(2.) "That when several Motions are offered, they shall be taken in the order in which the items to which they relate appear in the printed Estimates."

(3.) "That after a question has been proposed from the Chair for omitting or reducing any item, no motion shall be made, or debate allowed upon any preceding item."

(6.) "That it shall be held to be in order, at any time during the discussion of an Estimate or Item in an Estimate which has not been previously amended, to move the postponement of such Estimate or Item, provided such postponement be until the whole of the Estimates or Supplementary Estimate for the year for which the proposed Vote is intended to be taken shall have been disposed of."

(7.) "That the foregoing Resolutions stand as a Sessional Order of this House for the present Session."

## LIBRARY ARRANGEMENTS.

## REPORT.

THE LIBRARY COMMITTEE of the Legislative Assembly, appointed on the 1st September last, have agreed to the following Report:—

Your Committee beg to report to your Honorable House that the present Library Arrangements being found insufficient for the accommodation of Members, and the safe keeping of the Books, your Committee deemed it expedient to request a Conference with the Library Committee of the Legislative Council, in order that the subject might be fully considered.

This request having been acceded to, a Conference was accordingly held in the Committee Room No. 2 of the Legislative Council, on the 25th May instant, the result of which was that the following Resolution was agreed to by the Library Committees of the respective Houses:—

The present Library arrangements being insufficient for the accommodation of Members, and the safe keeping of the Books, this Committee is of opinion,—

- (1.) That a general Parliamentary Library should be established for the use of Members of both Houses.
- (2.) That the Apartment now used as a Refreshment Room would afford sufficient accommodation for this purpose.
- (3.) That the Rooms now used as Libraries should be kept up as Reading Rooms for the respective Houses, and be furnished, in addition to Newspapers and Periodicals, with the Standard Works of reference for Parliamentary purposes.
- (4.) That a convenient Refreshment Room might be easily constructed during the ensuing Recess.

And your Committee would now recommend the Adoption of the said Resolution by your Honorable House.

## INTERCHANGE OF PUBLIC DOCUMENTS.

(CORRESPONDENCE RESPECTING.)

*Ordered by the Legislative Assembly to be Printed, 9 February, 1860.**Sydney, 5 February.*

MY DEAR SIR,

I send you the enclosed correspondence, which I think it would be well for you to look over when you have time, relating to various applications which I made to the Speaker of the House of Commons, the Speaker of the Legislative Assembly of Canada, and the Minister for the United States, for an interchange of public documents. I believe (indeed I know) that some of those applications were attended with success; others very probably require further correspondence to give effect to the object intended. I of course do not wish the papers enclosed back again; they had better remain in the archives of the Assembly.

Ever yours, &amp;c.,

C. NICHOLSON.

THE HONORABLE

T. A. MURRAY, ESQ.,

Speaker of the Legislative Assembly  
of New South Wales.

[Enclosures referred to.]

No. 1.

Dear Sir,

I feel much indebted to you for having prepared the way for my calling on Mr. May, whom I found most obliging and communicative. I am quite familiar with his "Practice of Parliament," which I was under the necessity of constantly referring to for a period of ten years, when Speaker of the Legislative Council; and of which I think I have now considerable portions almost by heart.

The Speaker of the House of Assembly in Sydney is very desirous to possess copies of the Sessional Papers of the House of Commons, and has written to me to request that I would make personal application for them—this I have done, in a letter which I have addressed to you officially.

If not trespassing unduly on your attention, I should be glad to ask for an occasional admission to the debates of the House during the ensuing Session.

Dear Sir Charles,

I sent you the Rules and Orders of the House of Commons on Friday, and I now forward the Standing Orders of the House of Lords, which I applied for at the same time but have only just received.

From the inquiries I have made I entertain no doubt that the Speaker will have much pleasure in directing the Sessional Papers of the House of Commons to be transmitted to New South Wales, if you will make an application to him.

The sudden meeting of Parliament will give you further opportunities of witnessing our proceedings, and if I can ever be of service to you it will give me particular pleasure.

Yours, &amp;c.,

My dear Sir,

Pray accept my best acknowledgments for your obliging attention in forwarding me the several copies of the Standing Orders of the House of Commons, and also, those of the House of Lords. I shall forward them by the next Mail to Sydney per "Northam," where they will be found useful in the conduct of Parliamentary business. It is indeed quite impossible—and I speak with an amount of confidence which no one possesses in the same degree with myself on this subject—to over-estimate the advantages which have resulted from the employment of the "Practice of Parliament" in our Colonial Legislature. With the assistance only of the crude and ill-assorted publications of Hatsell or Dwaris, I know not how we should have got on in initiating our Legislative forms in the Colony. To your work, therefore, I do not hesitate to say we have been indebted for all the precision and regularity that may have marked our Parliamentary proceedings.

It is a source of gratification to me in noticing the proceedings of the House of Commons, to find that we were more implicit observers of parliamentary forms and laws than even the parent Assembly itself, with whom they were originated, and from whom they have been derived by us.

I shall avail myself of the hint you kindly allow me, and make official application on behalf of the Colony for the Sessional Papers of the House of Commons.

Sir,

I beg to take the liberty of prefacing the observations I am about to make, by stating that I have filled in New South Wales the analogous post to that which you now occupy in Canada, for a period of ten years; and that, during my tenure of office, there was a frequent expression of a desire on the part of the members of the Legislature to obtain an interchange of Official and Parliamentary Papers between the two Colonies of New South Wales and Canada. There are many objects to which the attention of both Colonies is alike directed—such as those of education, municipalities, railways, lands, and public works—on which the Colonists of New South Wales would be glad to have the more matured experience of their fellow subjects in Canada. It is also probable that some of our Official Papers on the same subjects would be found not destitute of interest in your Colony. The remoteness of the two dependencies from each other seems to constitute the only bar calculated to impede the interchange of such documents. I have, however, recently received in a communication from my successor in the office of Speaker of the House of Assembly, Sir D. Cooper, a pressing request that I should endeavor to effect arrangements for the reciprocal supply of Parliamentary Papers between Canada and New South Wales; and I therefore with that view now address you, suggesting, 1st—That if the proposal meet with acceptance, the Clerk of your Parliament should be directed henceforth to forward to the care of the Colonial Agent, Mr. Barnard, in London, by whom they will be forwarded to New South Wales, a regular series of all your Parliamentary Papers, including Reports of Select Committees, and copies of all Local Ordinances. Upon receiving your direction, as to when or through what channel you would wish them forwarded, I will undertake that copies of all our public reports, journals, and Acts shall be forwarded to you. Should the proposal now made meet your approval, I should be glad if it could be acted on at once; and I will, the moment I receive your reply, communicate with the Speaker of the Legislative Assembly of New South Wales, and arrange for the regular and systematic transmission of all our Parliamentary Papers to your Agents here.

A circumstance subordinate to that of the utility that will ensue from such a proposed interchange of public documents, but yet of importance, ought, I think, not to be overlooked in a correspondence, such as that now suggested. It will bring two of the most important dependencies of the British Empire to compare their respective conditions—their separate and combined relations to the Parent State, and lead to the establishment of a closer sympathy and brotherhood between those who, however divided by distance from each other,

have

have many traits and feelings in common whilst all are alike bound by the same ties of loyalty to the Parent State.

As I do not contemplate leaving Europe for some months, an opportunity will be afforded me of receiving your reply, and completing the necessary arrangements as above suggested, should they meet with your acquiescence and approval.

Sir,

In a recent communication from Sydney, the Speaker of the Legislative Assembly of New South Wales conveyed to me the expression of his anxiety, and that of the Members of the Colonial Legislature, to be furnished with copies of the Sessional Papers of the House of Commons; and desired that I would make an official application, on their behalf, for the supply of those documents. I therefore now do myself the honor respectfully to communicate the above request; and desire to add, that should you see no impediment towards a compliance with the proposal now submitted, a great favor will be conferred, in authorizing the issue of the papers above referred to, on the Legislature as well as on the people of New South Wales.

I am desired by the Speaker to acknowledge the receipt of your letter, containing an application for House of Commons Papers for the Legislative Assembly of New South Wales (Sydney), and to state that he has ordered the same to be delivered on your demand. He has added a few books bearing on the subject of our proceedings and precedents, as well as the Indexes to the Journals, &c., and directed me to give you any explanation on the subject you may require.

The order has been forwarded to Mr. Hansard Thos. Parker, 11, Drury Lane, Printer to the House of Commons; and if you would communicate your wishes, as to delivery of books, to him, he will give every facility to your orders, by the Speaker's direction.

December, 1857.

Sir,

A communication has been addressed to me from the Honorable the Speaker of the Legislative Assembly of New South Wales, who now fills an office, the duties of which I discharged for a period of upwards of 10 years, expressive of the desire that is felt by the Members of the Legislature to procure the Sessional Papers of the Congress of the United States of America. In justification of such a proposal I may advert to the very extensive and daily increasing commercial relations that exist between the Colony of New South Wales and the United States, especially that portion of the territory of the latter, bounded by the Eastern Pacific. The Australian Colonies, in many of their material aspects and wants, bear no remote resemblance to America, and we believe, that in the construction of railways, bridges, and public works, as well as in many matters of legislation, we might derive many useful lessons and hints from the more matured experience of the States of the American Union. As, on the other hand, the Acts and Proceedings of the Government and Legislature of New South Wales may be deemed of interest to the citizens of the United States, it is proposed that there should be an interchange of all public documents, and that we should forward to the public library of Congress the Votes, Proceedings, and Ordinances of the Parliament of New South Wales, through such agent as may be appointed to receive them. Should the proposal meet with your favorable consideration I will at once communicate with the Speaker of the Legislative Assembly, at Sydney, and obtain the series of Parliamentary papers for the purpose of forwarding them to you, with the understanding that they are to be supplied continuously henceforth, as the authorised agent of Congress may direct.

Mr.

Mr. Moran, the Assistant Secretary of Legation, kindly undertook to convey personally to you the substance of this communication. I do not know whether I have not been guilty of some impropriety in addressing you directly on such a subject, and whether I ought not to have applied to the Chief Consul of the United States. If I have committed any mistake I must beg you to excuse it. As some apology for the present application I may mention that I had the honor of being introduced to you at the Vice Chancellor's, at Oxford, last June, when with yourself, I enjoyed the distinction of receiving the honorary degree of D.C.L. from the University.

My Dear Sir,

Your letter of the 28th ultimo, on the subject of an interchange of Executive and Legislative documents between the United States and New South Wales, has received my prompt attention; and I hope in a short time to be authorised to enter with you into the details of an arrangement for carrying that object into execution.

I have written to Washington, and may have a reply in the course of a month. As such an application of the books may require the assent of Congress, it is possible that somewhat longer delay may occur.

Sir,

In compliance with the request conveyed by your letter to me, I have placed myself in communication with the Right Honorable the Speaker of the House of Commons, the Speaker of the House of Assembly of Canada, and the Minister of the United States of America; copies of the correspondence with each of whom I now herein enclose.

I think the thanks of the Legislative Assembly are due to the Speaker of the House of Commons, for the prompt and liberal way in which he met the application made to him. I have called on Messrs. Hansard, and arranged with them as to the transmission of the first collection, as well as the subsequent supplies of the documents that are to be sent to us. I find that the first parcel we are to receive will be very voluminous, and will weigh nearly one ton. It will embrace a collection of all documents printed since 1800 which it is considered may be of any interest or use to the Colony. In the selection of these Mr. Erskine May has taken a great deal of trouble, and is in an equal measure with the Speaker entitled to your acknowledgments.

As a temporary arrangement, Mr. Richardson, the bookseller, will receive and forward the first, as well as all subsequent issues of Parliamentary Papers directed to us. Should I be successful in the application made to Canada and the United States Government, I shall direct the several papers to be forwarded through the same agency; requesting Mr. Barnard to deliver to Mr. Richardson the papers as he receives them from the Canadian Province. I have of course made this as a merely provisional arrangement with Mr. B. subject to confirmation by yourself on behalf of the Legislative Assembly.

I may venture to remark, that the proper and satisfactory management of even ordinary matters of this sort shews the great necessity that exists for the Colony having in London an active and efficient agent.

Sir Daniel Cooper, Kt.,  
Speaker of the Legislative Assembly  
of New South Wales.

*Colonial Secretary's Office,  
Sydney, 10 January, 1860.*

SIR,

I am directed to inform you, that His Excellency the Governor General, with the advice of the Executive Council, has been pleased to make the following appointments, viz. :—

1. Mr. Charles Tompson to be Clerk of the Legislative Assembly, *vice* O'Connor.
2. Mr. F. Eldershaw to be Clerk Assistant to the Assembly, *vice* Tompson.
3. Mr. Oliver F. Kelly to be Clerk of Records, *vice* Clapin.

These appointments will bear date from the 1st instant.

THE SPEAKER to THE COLONIAL SECRETARY.

*Sydney, 12 January, 1860.*

SIR,

I have the honor to acknowledge the receipt of your letter of the 10th instant, informing me of the changes that have taken place in my Department, viz. :—

- Mr. Tompson to be Clerk ;  
Mr. F. Eldershaw to be Clerk Assistant ;  
Mr. F. O. Kelly to be Clerk of Records.

I feel much astonished that the usual respect should not have been shewn to me, as Speaker, by consulting with me in some way respecting the two latter appointments.

I considered it my duty to resist both Mr. Donaldson and Mr. Cowper, in the exercise of a power to make appointments in this Department, without first having the recommendation of the Speaker ; and I now again enter upon my protest against those appointments being made, not only without my recommendation, but without the slightest consultation with me.

I made a distinct arrangement with Mr. Cowper, that the practice was to be, in all cases when vacancies occurred, that the Speaker should recommend, and that the Government, unless good reasons could be assigned for the contrary course, should appoint upon his recommendation ; and that this practice has been followed up to the present time.

I do not approve of the appointment of Mr. Eldershaw, who is in no way acquainted with the duties he will have to perform, especially in Committees of "Supply" and "Ways and Means."

I consider that Mr. Bernays was the most fit and proper person to succeed Mr. Tompson, as he has now had several years experience as 2nd Clerk Assistant, and I have never had one complaint against him from his superiors, but, on the contrary, he has performed his duties well and efficiently, and he has been partly trained to qualify him for promotion. I therefore consider that he has not been justly and properly treated in being passed over in order to promote those who are not superior to him in natural ability, and are inferior in Parliamentary experience. If ability, experience, and faithful services are to be overlooked, it is quite impossible to expect efficiency in this Department.

APPOINTMENTS IN DEPARTMENT OF LEGISLATIVE ASSEMBLY. 3

I trust you will also consider it is not treating Mr. Eldershaw with fairness to thrust him into his present position against my wish, and immediately over a party who must naturally consider himself unjustly treated. Instead of promoting harmony it will lead to antagonism, jealousy, and discord, and greatly injure the efficiency of this Department. I have, therefore, to request, that you will again bring the matter of these appointments under the consideration of the Government, as I think you will see the evident impropriety of any antagonism existing between a Speaker and a Government, if such can by possibility be avoided, which I think would be the case were the practice agreed upon between Mr. Cowper and myself fully carried out.

THE HONORABLE  
THE COLONIAL SECRETARY.

I have, &c.,  
DANIEL COOPER,  
Speaker.

No. 3.

THE COLONIAL SECRETARY to THE SPEAKER.

*Colonial Secretary's Office,  
Sydney, 17 January, 1860.*

SIR,

I have the honor to acknowledge the receipt of your letter of the 12th instant, respecting certain appointments recently made in the Department of the Legislative Assembly.

2. You remark that you considered it your duty to resist both Mr. Donaldson and Mr. Cowper in their assumption of the power to make appointments in the Department of the Legislative Assembly, without first having the recommendation of the Speaker, and you state that you now again enter your protest against the appointments lately made without your recommendation, or consultation with you. You further advert to the undesirability of any antagonism existing between the Speaker and the Government on such a subject.

3. I must express my regret that, in addressing the Chief Secretary, you should have adopted a tone and language which appear to be warranted neither by your position nor by the circumstances of the case. The authority under which the Executive Government assumed the right to make the appointments in question is derived from the 37th section of the Constitution Act, 18 and 19 Victoria, cap. 54. It is the duty of the Government not to surrender their legal and constitutional rights, for the due exercise of which they are responsible to Parliament only, to the dictation or control of any officer, either of the Assembly or of the Executive Government.

4. I readily admit the propriety of consulting Heads of Departments in making appointments, and of allowing considerable weight to their opinions and representations; but I deny that any close analogy exists, in principle or in practice, between the Speaker of the Assembly and the various Heads of Departments.

The Speaker does not constantly, and in person, exercise supervision over the officers of the House, as the Heads of Departments do over those subordinate to them. The House is not the Speaker's office; he does not, and, in general, is not expected to, attend daily to transact public business there. During recesses and adjournments he is often absent; and, as his tenure of office expires with the House, the Department often exists for months without any Speaker at all. The Clerk of the Assembly is, therefore, more properly the Head of the Department, so far as any such analogy as that before referred to exists.

5. In the present case you were not, I was informed, in Sydney. I sent, however, for Mr. O'Connor, and although I did not act entirely upon, I was to some extent guided by, his suggestions.

I certainly intended no discourtesy to yourself, and I know of no reason why any antagonism should arise between the Speaker and the Government. I should regret anything of the sort; but, in all cases of disagreement between public officers, it seems to me that the blame cannot fairly rest upon those who merely assert their unquestionable rights, but upon those who assume powers not warranted by law, and who endeavor to dictate where they have no more than the right to advise.

THE HONORABLE  
THE SPEAKER OF THE  
LEGISLATIVE ASSEMBLY.

I have, &c.,  
WILLIAM FORSTER.

SIR,

I am directed by the Colonial Secretary to inform you, that His Excellency the Governor General, with the advice of the Executive Council, has been pleased to appoint Mr. John Connery to be Clerk of Select Committees of the Legislative Assembly, in the room of Mr. Kelly, promoted; and Mr. S. Jones to be Clerk of the Printing Branch in the Department of the Legislative Assembly, *vice* Connery.

2. As the duties of the office of Clerk of Select Committees are of a peculiar nature, and it may be desirable that some short time should be afforded to test Mr. Connery's qualifications, these appointments are to be considered as provisionally made, but to be confirmed should Mr. Connery be found fully equal to the office.

THE HONORABLE

THE SPEAKER OF THE

LEGISLATIVE ASSEMBLY.

## No. 5.

THE SPEAKER to THE COLONIAL SECRETARY.

*Sydney, 18 January, 1860.*

SIR,

I am duly in receipt of your letter of the 17th instant, in reply to mine, respecting certain appointments lately made in my Department, without reference to me as the Head of that Department.

In regretting that I should have adopted a tone and language which appear to be warranted neither by my position nor by the circumstances of the case, and stating that you acted under the authority of the 37th Section of the Constitution Act, and, further, that it is the duty of the Government not to surrender their legal and constitutional rights, &c., you entirely evade the question in dispute between us.

I stated in my last letter that an arrangement had been made in 1856, between myself as Speaker, and Mr. Cowper on the part of the Government, as to the way in which appointments were to be made in future; and that arrangement has been carried out in its integrity ever since. Had you applied to me, as I maintain in ordinary courtesy you were bound to do, I could have informed you of the arrangement. Mr. O'Connor could also have given you the information, for I gave it to him, in writing, at the time; and I also mentioned it in Committee of the whole in Supply, on 27 November, 1856. By acting, therefore, in the way you did, you not only shewed want of courtesy, but you committed a direct breach of faith; and I am therefore justified in adopting a tone and temper which under ordinary circumstances I should not do.

On reference to the British Parliamentary Papers, I find that when Sir Denis Le Marchant was appointed Clerk to the House of Commons, it was distinctly arranged that he should give up the right of appointing the Clerks at the Table; and that in future the appointment of the Clerks should be considered as vesting in the Crown, and be made by the First Lord of the Treasury, *on the recommendation* of the Speaker.

An Act of Parliament (19-20 Vict., c. 1) was passed to carry out this arrangement; and a Minute, dated March 14, 1856, was passed by the Lords of the Treasury, that it might be clearly understood that, in making the appointments of Clerk Assistant and 2nd Clerk Assistant, the First Lord of the Treasury, acting on behalf of the Crown, will take the recommendation of the Speaker of the House of Commons for the time being.

The arrangement that I made with Mr. Cowper was exactly like the above, and in all respects similar to the one now in dispute between us.

You

You state that you acknowledge the propriety of consulting the Heads of Departments in making appointments; but you deny that any close analogy exists, in principle or practice, between the Speaker of the Assembly and the various Heads of Departments; asserting as follows:—The Speaker does not constantly and in person exercise supervision over the officers of the House as the Heads of Departments. The House is not the Speaker's office; he does not in general, and is not expected to, attend daily to transact public business there. During recesses and adjournments he is often absent; and, as his tenure of office expires with the House, the Department often exists for months without any Speaker at all.

I flatly deny that there is any strength in these inconsiderate statements. Since I have been Speaker, I have constantly exercised the same personal control, and in the same way as any other Head of a Department. I constantly use my apartments at the Assembly, and all the business that I have connected with the House I transact in those apartments, and in no other place. I often, during a recess or adjournment, attend daily, especially when I am living out of town; and my private residence in town is so close to the Assembly, I am almost as easily reached as if I were living in the apartments provided for me by the House; and I very seldom go out of town, and then only for short intervals and distances, with one exception only. During the times when there has been a dissolution of the House I have been consulted by the Clerk of the House and also by the Ministry, on matters connected with the business of the Assembly. In making the above statements, therefore, you will see that you have acted on false information.

You go on further to say, that (in consequence of the above false premises) therefore the Clerk is more properly the Head of the Department.

In this you are entirely mistaken, for the Clerk of the House had his salary raised to £800 a year, entirely for the reason that it was necessary to place him on the same footing as an *Under Secretary*. He is the *permanent* officer, whilst the Speaker is the *shifting* one.

He attends to all details, but does not originate or presume to do any important matter without the sanction of the Speaker.

The Speaker has always been communicated with in all matters by the Government as the Head of the Department, and the same hand that brought your letter to which I am now replying brought me one from you addressed to me as the Head of the Department, announcing the promotion of one of the Clerks. What use, therefore, is there in arguing that I am not the Head of the Department, when, by your own act, you *demonstrate* that I am the Head of the Department.

Your excuse that I was not in Sydney is of little or no effect, for during my absence I was not out of the County of Cumberland, and could have been communicated with and an answer received from me in twenty-four hours.

If you consulted Mr. O'Connor I feel quite sure that you did not only "not entirely," but that you did not follow his advice "at all," as far as the appointments are concerned, and the passing over of Mr. Bernays.

You state that you do not see any reason why there should be any antagonism between the Speaker and the Government, and that you should regret any thing of the sort; that no discourtesy was intended, and that no blame can rest upon you, as you only asserted your unquestionable right, and therefore all the blame rests with me.

I am quite willing to give you every credit for good intentions, and, as far I am *personally* concerned, would take your word as intended; but as Speaker I must say that great want of courtesy has been displayed in your acts, and what you have done is sure to breed antagonism between me and the Government. It is a most dangerous thing for the Government to interfere with the officers of the Assembly, who ought to be kept free and distinct from any Government influence or favor. Where they do interfere gross corruption and irregularities, dangerous to the liberties of the House and the Colony, are sure to ensue; and I cannot quote a better case to shew why the evil should be avoided than your present actings.

You have left the impression that an act of injustice has been done to Mr. Bernays, and that a great act of favoritism has been shewn towards Mr. Calvert; and all your protestations to the contrary will not do away with that impression.

The

## 6 APPOINTMENTS IN DEPARTMENT OF LEGISLATIVE ASSEMBLY.

The Speaker, with the assistance of the Clerks, has constantly to keep a watchful eye that the Government of the day should not in any way encroach upon the liberties of the House; and since I have been Speaker I have, on several occasions, had to restrain, or warn, Governments in proceedings which had a tendency, either from inadvertence or eagerness, to do things by short cuts for party or political expediency; and in these cases the officers of the House do and have run great risks in advising the Speaker, and it is only when they feel themselves free from Government influences that they can *afford* to do their duty as freely as they ought to do. If a clerk, on the contrary, be promoted by favoritism, he merely becomes a creature of the party so promoting him.

If I have written warmly I have not done so with any intention of giving you personal offence, but with an anxious desire to protect the rights and the privileges which pertain to my office, and to the House; and my only desire is to stop what I consider the commencement of a dangerous and uncalled for change of practice with respect to the appointments and control of the officers of this Department—for, be it borne in mind that the right of recommendation which I claim as Speaker, in conformity with the Home practice and the Colonial practice hitherto, does not in any degree (if looked upon in a right spirit) infringe upon the prerogative of the Executive to *appoint*.

SIR,

In transmitting to you a letter addressed to me by Mr. John Connery, deprecatory of the provisional nature of his appointment to the office of Clerk of Select Committees in this Department (as communicated to me by your letter of yesterday), I beg to recommend the same to the favorable consideration of the Government, and to request that, unless you be aware of any positive objection, you will allow the appointment to stand in the usual understood test of fitness, without the express condition mentioned in the second paragraph of your letter—as by his acts he should stand or fall, and it would always be in the power of the Government to supersede in his case, as in every other, should experience prove incompetency for the office.

Sir,

Having been informed by the Clerk of the Legislative Assembly that you had received a letter from the Colonial Secretary appointing me Clerk of Select Committees, *vice* Kelly promoted, but intimating that the appointment is to be considered provisional till such time as I shall have proved myself competent to fulfil the duties assigned to me, I beg leave, most respectfully, to express to you my surprise that a doubt as to my ability or competency for that office should have been entertained, inasmuch as, since the period of my entering this Department, I am not aware that I have given cause for dissatisfaction or doubt of my capacity.

I beg, moreover, to state, that my appointment being only provisional, I shall suffer under the reflection that I am merely upon trial in my new office, and that I shall be subject to imputations of incompetency challenged by this unusual form of appointment, and that such a state of things could not but prove to me unsatisfactory, distasteful, and annoying.

If any course lies open for remedying this form of appointment, I should esteem it a favor if you would allow it to receive your immediate consideration.

The Speaker.

*Sydney, 18 January, 1860.*

SIR,

I have the honor to acknowledge receipt of your letter of yesterday's date, informing me of the provisional appointment of Mr. John Connery to the office of Clerk of Select Committees, and Mr. S. Jones to the office of Clerk of the Printing Branch in this Department.

I am also informed by the Clerk that a precisely similar letter has been addressed to him; and I believe this is the first time the course has been adopted of notifying to the Clerk as well as to the Head of this Department, an appointment to a subordinate office therein.

I am unwilling to believe that any disrespect is intended to either myself or my office, and therefore have to request to know why the Government have adopted this course on the present occasion; and, as the Head of this Department, I protest against any communication such as the one sent to Mr. Tompson, being sent to any one but myself.

At the same time, as you have omitted to state from what date the appointments in question are to bear date, I beg that you will be so good as to cause this deficiency to be supplied.

I have, &c.,

THE HONORABLE  
THE COLONIAL SECRETARY.

DANIEL COOPER,  
Speaker.

*Colonial Secretary's Office,*

*Sydney, 24 January, 1860.*

SIR,

I have had the honor to receive your letter of the 18th instant, in which you enclose a letter addressed to you by Mr. John Connery, deprecatory of the provisional nature of his appointment to the office of Clerk of Select Committees in the Department of the Legislative Assembly, and requesting that, unless there is any positive objection, the appointments may be allowed to stand on the usual understood test of fitness, without the express condition now annexed to it.

2. It appears to me that, in your remarks on this case, you have misapprehended the meaning of a provisional appointment. You say correctly yourself, that it would always be in the power of the Government to supersede in his (Mr. Connery's) case, as in every other, should experience prove him incompetent for the office. It is obvious, therefore, that no extra power is assumed in appointing any officer provisionally; which simply amounts to a warning to the officer so appointed, that the Government, having doubts of his fitness for a particular office, may possibly feel themselves called upon to modify the arrangement, if the Public Service should render it necessary, or the Speaker call attention to the circumstance.

3. The nature of these appointments cannot, therefore, be revised, but must be considered as provisional; and I think it proper to add, that the letter from Mr. Connery, which you have forwarded, has not tended to improve my opinion of his qualifications for the office. If he declines it on this condition, another gentleman will be appointed to replace him forthwith.

I have, &c.,

THE SPEAKER OF THE  
LEGISLATIVE ASSEMBLY.

SIR,

I have the honor to acknowledge the receipt of your letter of the 18th instant, requesting to be apprised of the date which the provisional appointments of Mr. Connery and Mr. Jones in the Department of the Legislative Assembly are to bear; and also remarking, with reference to the intimation made to you of these appointments, that you have been informed that a communication to the same effect was made to the Clerk of the Assembly, which, however, you add, you are unwilling to believe was intended to convey any disrespect either to yourself or your office.

2. Such appointments as those referred to are now usually notified in the *Government Gazette*, but having been provisional only, and in consequence not, at present, inserted in the *Gazette*, a communication was made to the Clerk simply for information, and to facilitate business, in case there should be anything requiring the services of the Clerk of Committees preparatory to the meeting of the Assembly; and no disrespect whatever was intended either to yourself or your office. But the Government will, of course, exercise their own discretion in deciding to whom their communications should be addressed.

3. The appointments will bear date from the time of the officers assuming their duties.

In anticipation of the changes likely to take place in the Department of the Legislature consequent on the retirement of Mr. Macpherson, I have the honor respectfully to request that my claim to promotion, on the grounds of meritorious conduct and long service, may not be overlooked.

I beg to state that I entered the public service in the year 1850 as a Clerk in the Crown Lands Department; that on the 24th August, 1853, I was appointed to the old Legislative Council, and that since the advent of Responsible Government, in 1856, I have discharged the duties of Clerk of Records in this Department in a manner which has met with the entire approbation of the Clerk of the House.

Clerk of Records.

In any promotions which may take place in the Parliamentary Offices, on the retirement of Mr. Macpherson from the office of Clerk of the Council, whereby a vacancy may arise on the permanent staff of either of them, I, as the senior of the extra clerks employed in these offices, do myself the honor to request that due consideration may be given to the claim to succeed such vacancy given to me by my present position therein.

In support of this my application I would beg to refer to a letter from the Clerk of the Legislative Council, No. 59-7, of date 12 April, 1859, written by direction of the Honorable the President; and also to the Honorable the President's Letter, No. 59-1, of date 30 April, 1859.

SIR,

Understanding that there will be a vacancy in the Parliamentary staff, consequent on the resignation of the Clerk of the Legislative Council, I beg to offer myself as a Candidate to fill such vacancy.

I am now Superintendent of this Office, and have been in the Department for more than sixteen years, consequently I have a general knowledge of the working of the Parliamentary Offices.

Respectfully requesting your perusal of the enclosed testimonials,

MR. HENRY GALE to THE COLONIAL SECRETARY.

*Legislative Council Offices,  
Sydney, 3 January, 1860.*

SIR,

In view of any promotions in the Departments of the Legislative Council and Legislative Assembly, consequent on the retirement of William Macpherson, Esquire, I have the honor to prefer a request for such advancement as may offer.

I received my present appointment of third Clerk in the Office of the Legislative Council on the 1st July, 1858, following eleven months' service as an extra Clerk, and I believe, from opportunities afforded me of experience in the several duties of the Department, that I am justified in aspiring to a higher position.

I may be permitted to refer to the Session of 1858-9, during which the then first Clerk being an invalid I performed his duty as Clerk of Select Committees.

I may also state, that on the occasion of a vacancy in this Office in April last, I was favored with recommendations for promotion by the Honorable the President and the Clerk of the Legislative Council, in letter No. 59-7, dated 12 April, 1859.

I have, &amp;c.,

HENRY GALE:

THE HONORABLE

THE COLONIAL SECRETARY.

## No. 6.

*MEMORANDUM of the circumstances under which Mr. Lewis A. Bernays (now Second Clerk Assistant of the Legislative Assembly) is led to consider that he has reasonable expectations of the office of Clerk Assistant of the Legislative Assembly, when vacated by the present holder, Mr. Charles Tompson.*

In May, 1856, Mr. Macpherson and Mr. O'Connor (upon their appointments to the offices respectively of Clerk of the Legislative Council and Clerk of the Legislative Assembly) were directed by the then Executive Council to recommend in what way the staff of the old Legislative Council could be best distributed, with a due regard to the qualifications, merits, and claims of the officers, between the two new Departments. It is a reasonable assumption that the Government intended to adopt any plan of distribution proposed to them in obedience to their own invitation.

The letter, containing the recommendations made in obedience to this instruction, contains the following paragraphs with reference to myself. Under the head "Legislative Council Clerk Assistant":—"We may say that if Mr. Tompson be appointed First Clerk Assistant to the Assembly, Mr. Bernays, in our opinion, from intelligence and education,  
" would

“ would be the most eligible of the other officers for the office of Clerk Assistant to the Council, or for that of 2nd Clerk Assistant to the Assembly, should Mr. Tompson be appointed to the office of Clerk Assistant to the Council.”

And under the head “ Legislative Assembly 2nd Clerk Assistant ”—“ If Mr. Tompson be appointed Clerk Assistant to the Council, we think Mr. Bernays’ education and intelligence would render him very eligible for this office ; but if Mr. Tompson be appointed First Clerk Assistant to the Assembly, we think, as we have before said, Mr. Bernays would be very eligible as Clerk Assistant to the Council.”

This recommendation was not adopted, Mr. Tompson and myself being both appointed to the Legislative Assembly ; but as this was the only exception of importance made, and as I had the advantage over Mr. Eldershaw (who was appointed Clerk Assistant of the Legislative Council) of three years’ service as a clerk in the Office of the old Legislative Council, I cannot but believe that this exception was made either in error, or from a misconception of the intentions of Messrs. Macpherson and O’Connor.

As I received some promotion, although not what was intended for me, I did not consider that it would be in good taste at that time to endeavor to disturb the arrangement.

I am given to understand, however, that Mr. Eldershaw now makes a claim, upon the ground that it is the only direction in which he can look for promotion, to fill Mr. Tompson’s place in the event of its becoming vacant ; and I feel compelled—lest what I believe to have been an error in my original appointment should be now perpetuated to my serious detriment—therefore to submit, for the consideration of the Government, that Mr. Eldershaw’s view of the course of promotion to which (I presume *ceteris paribus*) he is entitled cannot upon this occasion be acted upon without injustice to myself.

Doubtless, however, all such reasons will be considered by the Government as of secondary importance to that of qualification for the duties of the office. I venture therefore to submit, that from the circumstances of my having, through nearly five Sessions, been constantly at Mr. Tompson’s elbow in the House, from my having performed his duties, not only in Committee on Bills, but of Supply, on various occasions, completely to the satisfaction both of the Chairman and himself, and from my having been his constant assistant in his official duties out of the House, I must of necessity be better qualified for the office than Mr. Eldershaw, who would enter upon its duties entirely without experience of the financial business of the House, and, unless the practice of the Council in Committee on Bills is similar in all respects to that of the Assembly, with probably less experience even upon that point than I could bring to bear.

It has ever, throughout the whole period of my tenancy of my present office, been to me an object of reasonable ambition, in anticipation of a vacancy occurring, to qualify myself to fill Mr. Tompson’s place ; and I believe that, with the exception of the facility which can only be acquired by actual and constant practice of its duties, I have succeeded in my object. To lose it now, when the long-wished-for occasion at last presents itself, would be disheartening indeed.

Under these circumstances, above detailed, I venture to express an earnest hope that the Government will see fit to confer upon me the office in question, in the event of its becoming vacant.

SIR,

Referring to my memorandum, now before the Government, upon the subject of the vacancy likely to occur in the Office of Clerk Assistant of the Legislative Assembly, I beg now to abandon the position I have hitherto maintained in regard to Mr. Eldershaw’s interest in that office—the unanimous opinion of all with whom I have spoken upon the subject appearing to be that by this course I shall only be doing justice to that gentleman.

I beg, therefore, most respectfully to state, that I shall now consider that the Government will have treated me with the consideration which my claims merit, in the event of my promotion to the office which Mr. Eldershaw at present holds.

SIR,

Vacancies being likely to occur in the offices of Clerk Assistant to the Legislative Council and Clerk Assistant to the Assembly, I applied in the usual course for promotion.

I understand, however, that the Government do not intend to bestow either office upon me; but that, in the one instance at least, it is their intention to promote over my head a gentleman who is now and has always been my junior.

In proof that I possess the necessary qualifications for either office, I fearlessly refer to my superior officers.

I beg, therefore, most respectfully to appeal to the Government to reverse a decision which not only deprives me of present promotion, but leaves me without hope for the future.

In submitting this application, I beg respectfully to inform you that I am at present a Clerk in the Legislative Assembly, wherein for upwards of four years past I have performed the duties as Clerk in charge of Papers for the Table and distribution; and, as I believe I have on all occasions endeavored to discharge the duties devolving on me to the satisfaction of my superior officers, I humbly trust the promotion I now seek will meet with the approbation of the Executive.

I beg to state that I have been in the Government service for the last seven years, part of which time I was employed in the Colonial Secretary's Office, and the remainder in this Department, where I now hold the position next in seniority to the one for which I apply.

MR. J. A. SCARR to COLONIAL SECRETARY.

*Legislative Council Office,  
Sydney, 24 December, 1859.*

SIR,

Understanding that the recent resignation of Mr. Macpherson may possibly lead to the advancement of Mr. Eldershaw, I do myself the honor to lay before you this my application for the office of Clerk Assistant of the Legislative Council, in the event of a vacancy therein; and I believe I am fully justified in doing so by my length of service, and the character I have borne during more than twelve years in the department. My qualifications for the office are probably no greater than those of any man of ordinary observation, who has taken some notice of Parliamentary forms, though not immediately connected with them by duty.

But the circumstances I represent below will probably be held to entitle me at least to a favorable hearing.

I joined this department originally as a Clerk in the office of the old Council in 1847; and at the beginning of the following year was placed under Mr. Palmer to learn the art of shorthand writing, with a view to my being employed in the Select Committees of the House.

Had I, however, remained in the office department, I should probably be holding at this moment the very office for which I am now applying, and be in a position, under similar circumstances to the present, to seek further advancement.

But having stepped aside, as it were, from the ordinary line of promotion, and having avoided afterwards making any application for a seat at the Table of either House when the New Constitution was brought into operation—because I thought that the prospects of the shorthand writers would be improved as well as those of others by the change, while my remaining in my present position would be to the advantage of the Parliamentary service in the absence (at that time at least) of a sufficient number of competent shorthand writers—I now find myself likely to be outstripped in the race of advancement by gentlemen younger in the service than myself, with whom, however, I should, if possible, wish to avoid placing myself in competition.

My expectations of advancement in a pecuniary sense have been considerably disappointed, looking to the future by the recent alterations made in the shorthand writing department here, by which practically a considerable reduction has been made in the profits of the only office to which I have to look for promotion in my own line. But, nevertheless, I should have no desire to press this application, if circumstances and the time were favorable to my chances of obtaining an addition to the salary of my present office, which, for reasons which would be out of place here, I think might fairly be increased at a proper opportunity. That opportunity not presenting itself, I am under the necessity, with due regard to my own interest, to look beyond the profession I have hitherto followed, and which, for every other reason, I should wish to continue to follow. I therefore make this application, which I have thought it better to put in writing, though I shall be happy to answer any personal inquiry you may wish to make.

I am, &c.,

JOHN A. SCARR.

*Ordered by the Legislative Assembly to be Printed, 27 April, 1860.*

To the Honorable the Legislative Assembly of New South Wales, in Parliament assembled.

The humble Petition of the extra Messengers attached to the Legislative Assembly,—

RESPECTFULLY SHEWETH :—

That your Petitioners are employed from 8½ o'clock in the morning until the rising of the House at uncertain hours of the night, with pay at the rate of only six shillings per day, which your Petitioners most respectfully beg to state to this Honorable House is not sufficient to enable your Petitioners to support a family, and appear in decent attire before this Honorable House.

And your Petitioners further most respectfully state that, on the prorogation of this Honorable House, they will be discharged without any compensation for their long attendance after hours.

Your Petitioners pray this Honorable House will be pleased to take their case into your humane consideration, and grant them such relief in the premises as to this Honorable House shall seem meet.

And your Petitioners, as in duty bound, will ever pray, &c., &c., &c.

**EDWARD CHALTON MADGWICK.**

(PETITION OF.)

*Ordered by the Legislative Assembly to be Printed, 16 December, 1859.*

The Petition of Edward Chalton Madgwick, of Maitland, to the Honorable the Legislative Assembly of New South Wales, in Parliament assembled,—

HUMBLY SHEWETH :—

That, on the information of one Thomas Holmes, your Petitioner was prosecuted by the Honorable the Attorney-General of New South Wales, on a charge of Perjury, before His Honor Mr. Justice Milford and a jury of twelve persons, at the Circuit Court held in Maitland in March last, of which charge your Petitioner was acquitted; and, as it subsequently appeared, with the entire concurrence in opinion of His Honor the Judge before whom the charge was heard.

That immediately after your Petitioner's acquittal he was congratulated by his friends in various forms on the result of the trial, and began to enjoy their confidence and esteem as before the charge was preferred against him.

That during the time these and other favorable prospects for your Petitioner's welfare were proceeding, a motion was made in your Honorable House for a Vote of Censure on the Attorney General, on the ground, as it was alleged, that your Petitioner's acquittal was owing to the inability of the Crown Prosecutor to perform his duties, inferring thereby that your Petitioner was guilty of the crime charged against him, and that the interests of justice had thereby suffered. That such motion was referred to a Select Committee of your Honorable House, before whom a large amount of evidence was taken touching the integrity and honor of your Petitioner, in your Petitioner's absence, and thereby your Petitioner has seriously and grievously injured in his name and general welfare, without any just or reasonable cause.

That it was alleged in your Honorable House that an article in a Maitland newspaper, and other reports, afforded good grounds for the interference of your Honorable House, whereas your Petitioner is credibly informed that that article was written by and published at the request of a servant of the Government, who had been professionally retained by the informant Holmes, and that, otherwise, your Petitioner is assured the reports alleged, if any, were circulated by interested and designing individuals.

Your Petitioner respectfully submits to your Honorable House, that the interests of justice are as much involved in the protection of those declared by the law of the land to be "not guilty," as in the punishment of those who may be guilty of violating the law; and that any official act impugning the innocence of, or calculated to render infamous, any person whom a jury has unanimously declared not guilty, is illegal and unconstitutional, and calculated to jeopardise the liberty of the subject.

Your

Your Petitioner also respectfully submits, that any inquiry of this nature conducted by or under the immediate sanction of the Legislature has equal or more influence on the public mind than a trial in a judicial form, and must necessarily affect the individual concerned in a proportionate degree. Hence your Petitioner submits, that the inquiry by the Committee, on the authority of your Honorable House, placed your Petitioner in the unlawful position of being tried a second time for one alleged offence (with the disadvantage of not being able to speak in my own behalf), contrary to the spirit and practice of our free and constitutional Government, and forms a precedent by which any individual, no matter how honorable, after being lawfully acquitted by a jury of his country, may be persecuted and wrongfully injured during the whole of a subsequent life, and be made to appear a felon at large in the midst of his fellow men for which no reparation can be commensurate, for where the press can reach the felon tale is told.

Your Petitioner is prepared to acknowledge that it is possible for the really guilty often to escape by the assistance of able counsel, but respectfully submits that when, as in this case, the witnesses for the Crown grossly contradicted each other, and wherein *every witness* who gave evidence for the prosecution on the point at issue was proved to have sworn falsely, it demands the strongest effort of the most prejudiced and perverted mind to believe the accused to be guilty, or the accusers to be innocent.

Your Petitioner, in conclusion, submits that in consequence of the proceedings hereinbefore referred to he has been harshly and unjustly treated, and seriously injured in his name and general welfare, and prays that your Honorable House will take the premises into your serious consideration, and grant to your Petitioner such redress as to your Honorable House shall seem right and just.

And your Petitioner, as in duty bound, will ever pray, &c.

EDWARD C. MADGWICK.

*EXTRACTS from Despatch No. 140, dated 8 September, 1856, from His Excellency the Governor General to the Right Honorable the Secretary of State for the Colonies, relative to the appointment, &c., of Members of the Executive Council.*

“ The first point to which I wish to direct your attention is the Constitution of the Executive Council.

“ It is stated in the Commission, that ‘ the Executive Council shall consist of such persons as the Governor shall by instruments to be passed under the Great Seal of our said Colony, in Our name and on Our behalf, from time to time nominate and appoint to be Members of the said Executive Council, all of which persons shall hold their places in the said Council during Our will and pleasure.’ Further on the Commission states that the Governor has power ‘ to suspend from the exercise of his office, upon sufficient grounds to him appearing, any person exercising any office or place under or by virtue of any Commission or Warrant granted, or which may be granted, by Us or in Our name.’ From this it would seem that the Governor, although he has power to nominate such persons as to him may seem expedient to be Members of the Executive Council, has no power to remove such persons ; all that he can do is to suspend them pending a reference to the Secretary of State.

“ As, however, it is obviously incompetent to the Secretary of State to replace gentlemen whose tenure of office is contingent upon the approval of their conduct by a majority of the Legislature, I have been compelled to retain as nominal Members of the Executive Council, the gentlemen belonging to the Ministry which has retired, placing them thus in a position in some measure analagous to that of Privy Councillors at home ; while those gentlemen only who form a part of the existing Ministry are summoned to the usual meetings of the Council.

“ There is nothing however in my Commission or Instructions which authorises me to select, from among the gentlemen holding Commissions as Members of the Executive Council, such as I may choose to consider best qualified to advise me on any given occasion ; on the contrary, the Executive Council is alluded to as an integral body, composed of Members all of which have, by implication at all events, equal rights and privileges, and an equal claim to be consulted. It is true that no practical inconvenience has as yet arisen from the course which I have been compelled to adopt ; but we are still in the infancy of our experience in the working of Responsible Government, and I am disposed to think that it would be advisable to confer upon the Governor, concurrently with the power of appointing to seats in the Executive Council, that of withdrawing such appointments, when new political combinations render it undesirable for him to have recourse to the advice of the Members connected with a former Administration. All risk of collision between the Members of the outgoing and the incoming Ministry would thus be avoided, and all ground of claim on the part of Members, not specially invited to the usual sittings of the Council, of a right to attend such meetings and to give their advice to the Governor would be taken away.

“ It may be said why not appoint these gentlemen to seats in the Council in virtue of the offices they hold ? This, however, would not have been possible hitherto, as the Members of Council have been called upon to discuss the form and constitution of the Government, and their existence as officers of the Government has necessarily been subsequent to their appointment as Members of Council. Hereafter, too, circumstances may occur which may render it advisable to appoint to seats in the Council, gentlemen who hold no specific office under Government. The simplest plan, therefore, of removing the difficulty arising from the undefined tenure of office by Members of the Executive Council, would be that above suggested, namely, to give to the Governor the power of removal, as he already has that of appointment.

“ W. DENISON.”

No. 3.

GOVERNOR GENERAL to SECRETARY OF STATE FOR THE COLONIES.

(No. 149.)

Sydney, 25 September, 1856.

SIR,

The change in the relation between the Governor and the Members of the Executive Council, consequent upon the adoption of the system of "Responsible Government," has called for a change in the mode of conducting the business in the Executive Council.

2. Under the previous system of Government, the permanency of the Members of the Executive Council, and the well understood relation between them and the Governor, did away with the necessity of any written rules for the regulation of the proceedings of the Council; but now that changes take place frequently, I have found it desirable to establish some general regulations for the guidance of Members of Council.

3. I forward herewith the copy of a memorandum, in which I called the attention of the Members of the Executive Council to the various matters as to which it was desirable to establish some definite rules for their guidance; and the accompanying extract from the Minutes of the Proceedings of the Council will explain the course which the Council propose to adopt for the transaction of the business of the Government for the future. My object in bringing the subject before the Council was to establish some fixed relation between the Governor and the Ministers to whom the administration of the Government may be intrusted, in order that all chance of future difference of opinion as to their relative powers and responsibilities might be avoided.

4. The first clauses of the Minutes of the Proceedings refer to the mode of conducting the business of the Government, and to the responsibilities of the different Members of the Ministry. To these it is unnecessary that I should allude, further than to state that they embody my views as to the relation which is from henceforward to exist between the Governor and the Ministers whom he may appoint.

5. The last clauses refer to certain modifications in the instructions under which I am now called upon to act.

6. I have in my Despatch, No. 140, dated 8th instant, called your attention to this particular subject, but I wish to point out to you that the Members of the Executive Council are of opinion that the position of the gentlemen who may have been once nominated as advisers of the Governor should be assimilated to that of Members of the Privy Council in England, and that they should retain the designation of "Honorable" by which the Members of the Executive Council are distinguished, though upon a change of Ministry they should not be considered as entitled to act as advisers of the Governor, unless specially summoned. In the Despatch above alluded to, I have expressed a different opinion, and have asked for power to enable me to recal the Commissions given to the Members of the Executive Council.

7. It is necessary that the status of the ex-Members of the Executive Council should be determined, either by the adoption of the course pointed out in my Despatch, or by a recognition of their right to a position such as that alluded to in the Minutes. I do not myself attach much importance to the decision which may be come to on this subject. On the one hand, looking to the frequent changes which may very likely take place in the *personnel* of the Administration, there is the risk of the title of Honorable becoming too common and too indiscriminate to be a distinction; on the other hand there may, perhaps, be some awkwardness in calling upon the outgoing Ministry to resign their Commissions. Upon the whole, however, I am inclined to think that the course proposed in my Despatch will be the least objectionable.

I have, &c.,  
W. DENISON.

MINUTE.

27. August, 1856.

THE changes in the Constitution of the Government, and in the relations between the Governor and the public officers who now form the Executive Council, must necessarily cause alterations in the mode of transacting the public business, to which it is desirable that the attention of the Council should be directed.

Several causes, to which it is unnecessary that I should allude, have hitherto prevented the initiation of these changes; but as the sanction of the Legislature has now been obtained to the administrative arrangements proposed by the Government, there appears to be no reason why immediate steps should not be taken to arrange and methodize the forms of procedure, with relation, at all events, to all that portion of the business of the Government in which the direct action of the Governor is required, either to approve or confirm, or to submit for the consideration of the Executive Council.

Before, however, I proceed to consider the mode of procedure which it will be desirable to adopt, it may be as well that I should explain shortly the view which I take of the change which has been made in the functions and responsibility of the Governor, partly by the New Constitutional Act, but more especially by the Instructions which have been issued for his guidance under that Act. My wish is to elicit the opinions of the Members of Council on this subject, for the purpose of establishing, in concert with them, such a clear and definite understanding as to the relations which should henceforward exist between the Governor and the officers who are responsible for the mode in which the business of the Government is conducted, as will be an effectual guarantee against the risk of future differences of opinion, either as to the extent of the prerogative of the Crown vested in the Governor as Her Majesty's representative, or as to the privileges of the Legislature—of whose views the Ministers may be considered the exponents. Under the former Constitution, the responsibility of the Government was centered in the Governor. He was, it is true, assisted by an Executive Council composed of the principal officers of the Government; but these officers, though responsible to the Crown for the due performance of their duties as heads of different departments, were not held answerable, either individually or collectively, for the result of the advice which they might give to the Governor, upon whom only the responsibility rested of adopting or refusing such advice, and of the consequences resulting from such adoption or refusal.

Under the present Constitution and Instructions, the Government is to be conducted as heretofore, by the Governor and an Executive Council; but while the Governor is responsible to the Queen that the Government is conducted in accordance with the Instructions issued for his guidance, the Members of Council have now vested in them, in conjunction with the Governor, the responsibility which formerly vested solely with the latter, of determining the general policy of the Government, as exhibited in the measures submitted to the Legislature, as well as that of superintending and controlling the functions of the different departments of the Executive. The responsibility, however, of the Members of the Executive Council is to the Legislature; and their relation to the Governor, as Members of such Council, is that of exponents of the opinions and wishes of the Parliament of the Colony. The responsibility of the Governor is to the Queen; and while he has, under his Commission, the power of summoning such persons as to him may seem expedient, as Members of the Executive Council, the practical limit placed to his discretion in this matter is—that (as stated above) such persons should be the exponents of the views of the Legislature, which, in its turn, is assumed to represent the opinion of the whole community. Now it is essential to the good government of the country that these two responsibilities should never be allowed to clash; and the best guarantee against such an event is the existence of the most entire confidence between the Governor and his advisers. While, therefore, all the ordinary details of the current business of the Colony will be conducted by the Members of the Executive Council (each of whom will have charge of several departments), all matters which have reference to the general policy of the Government will be brought before the Executive Council, in order that the sanction of the Government may be obtained to the principle upon which it is proposed to act.

It is with regard to the mode in which this is to be done, and with a view to the regular and methodical performance of business, that the following arrangements are proposed:—

1. The Executive Council will meet on a particular day in each week, and at a particular hour. On this day all the Members will be present, unless some special or peculiar circumstances should prevent their attendance.
2. The matters which will be submitted for consideration, from whatever department of the Government they may emanate, should first be forwarded to the Governor, who, after having perused any memorandum explanatory of the reasons which have induced the officer of the Government to submit the subject to the Council, will, if he see no reason to object, forward the papers to the Clerk of the Executive Council, notifying his approval; and, on the day previous to the meeting of the Council, a memorandum of the subject for consideration will be sent round to the different Members, who will thus be prepared for any discussion which may take place. The perfect acquaintance with the subjects to be brought forward is a matter of some importance; for every Member who may wish to offer an opinion upon any particular question will thus have an opportunity of looking into all the papers connected with the subject, and, if not satisfied with the amount of information so obtained, will,

will, of course, recommend that further inquiries should be made, and the time of the Council will not be wasted in discussing the details of a subject which is not ripe for decision.

By the Constitution Act, all appointments are directed to be made by the Governor and Executive Council. It is desirable that some system should be adopted by which, while the recommendation of the officer of the Government who is to be held responsible for the due performance of their duties by the employées of the department under his control, should be an essential preliminary to the appointment to any office; yet the responsibility of the appointment should rest, as it was intended to do, upon the Government as a whole; all recommendations for appointments to vacant offices should, therefore, emanate from the Minister who is responsible for the particular department in which the vacancy may have occurred, and, as a general rule, the opinion of the head of the department should be required in all cases of *promotion*.

It would, perhaps, be as well to establish a rule, that although regular promotion in each department is recognised as generally expedient, yet seniority will not be allowed to compensate for want of activity, energy, or steady attention to official duties. The adoption of these general rules will not, of course, be considered as prohibiting the discussion in Council of matters of pressing and immediate importance, the documents relating to which may not have been circulated for the information of Members. In such a case, however, each Member of Council should have a special notice sent to him, so that he may not come to Council altogether unprepared, or ignorant of the subject he is called upon to discuss. With reference to the ordinary and routine business of the Government, a great change must necessarily take place in the mode of conducting it.

Hitherto all sorts of papers have been submitted to the Governor for his formal approval; many of these are mere matters of ordinary routine which, for the future, should be settled at once by the Minister who may have charge of the department from which the document emanates. Others again, such as warrants upon the Treasury, applications for remissions of punishment, deeds for signature, &c., &c., are matters which, while they require the action of the Governor individually, should be submitted in proper course through the Ministers—these then will be sent forward daily for approval.

For convenience sake, it would be as well that all papers requiring the Governor's signature should be sent forward by each Minister in a box when the office closes, they would be returned in the morning when the offices open, and no delay will thus take place in the routine of business. The adoption of this rule will not, of course, prevent the transmission of any papers requiring immediate despatch—these can, of course, be forwarded at any time.

[Enclosure 2 in No. 3.]

*EXTRACT of Proceedings of the Executive Council, on the 22nd September, 1856, with respect to Departmental Arrangements.*

“ REFERRING to the proceedings on the 15th instant, the Council resume the consideration  
“ of the Memorandum prepared by His Excellency the Governor General, as to the mode of  
“ conducting the public business of the Colony under the altered form of Government; and  
“ having deliberated thereon at some length, they record their opinion that the Ministerial  
“ action of the Responsible Advisers of the Crown in this Colony, with reference to all  
“ public questions, whether disposed of on their individual responsibility, or upon the advice  
“ of the Executive Council, should be regulated by the following principles:—

“ 1. Each Minister or Secretary should have a certain portion of the Executive  
“ authority placed in his immediate charge, and over all the officers and departments to be  
“ for that purpose placed under him he should be the responsible head, receiving and  
“ answering all communications connected with any of the matters connected with such  
“ departments in which their immediate heads might not be empowered to deal, and generally  
“ controlling and directing them.

“ 2. All matters connected with any of such departments should be determined by  
“ the Minister having charge of them, and through him only in his individual capacity  
“ should the recommendation come to the head of the Executive, as to the disposal of any  
“ matters in such departments.

“ 3. Such matters as require by law the concurrence of the Executive Council should  
“ nevertheless be arranged, in the first instance, by the Minister to whom those departments  
“ belong, and in most cases the concurrence of his colleagues might be assumed before sub-  
“ mission for formal approval in Council; but in cases of magnitude, or cases involving new  
“ or important principles of policy, the Ministers should themselves meet and decide upon  
“ the course of action before tendering any advice to the Governor, the substance of the  
“ recommendations being embodied in a Minute, and submitted, to be by him laid before the  
“ Council.

“ 4. All matters requiring by statute the concurrence of the Executive Council must  
“ of course be submitted to His Excellency in Council, but matters requiring such concur-  
“ rence might, and generally ought to be, determined by His Excellency on the advice of  
“ the individual Minister interested; the formal approval of the Council following, where  
“ required by Royal Instructions, as a matter of course.

“ 5. In cases of importance, which do not by statute require the concurrence of the  
“ Council, nothing ought to be done except after previous deliberation amongst the Ministers,  
“ and approval by His Excellency in Council.

“6.

" 6. All appointments, including promotions, ought to be recommended by each Minister in his own department, and submitted by him to His Excellency.

" 7. The appointment cannot issue until the formal approval of the Council has been obtained, and with reference to all employments of importance it would be better that the Minister should consider the matter in concert with his colleagues before he pledges himself to any specific appointment.

" 8. The first Minister, being more immediately responsible for the general policy of the Government, will probably be in more constant communication with the Governor than his colleagues, and will be regarded by His Excellency on all occasions as representing the entire Ministry, and speaking for them.

" 9. How far he may discuss with the Governor matters under the control of his colleagues, will be arranged or tacitly understood between him and them; but between the Governor and himself all statements made, and opinions expressed, by him respecting any part of the public policy of the country, ought to be taken as the policy of the whole Executive. \* \* \* \* \*

" 10. His Excellency should be further advised to ask for power to deal with His Executive Councillors, as Privy Councillors are dealt with in England, to summon for the purpose of business those only who may form the Cabinet for the time being, allowing those who have once held the office of Executive Councillors to continue to hold it as an honorary distinction, in the same way as the office of Privy Councillor is held in England.

" 11. For the present it would be convenient, for the despatch of business, that the Executive should meet every Monday, at twelve o'clock, other meetings being held at shorter intervals in the event of any special exigency arising.

" MICL. FITZPATRICK,  
" Clerk of the Council."

*PROCEEDINGS of the Executive Council, on the 6th October, 1856, with respect to the regularity of the Council's proceedings.*

MINUTE No. 56-53.

HIS Excellency the Governor General invites the attention of the Council to a question which seems to affect in some degree the regularity of the Council's proceedings. In His Excellency's Commission Her Majesty declares it to be Her pleasure that there shall be an Executive Council for New South Wales, and that the said Council shall consist of such persons as the Governor, by instruments to be passed under the Great Seal of the Colony, in Her Majesty's name and on Her Majesty's behalf, from time to time may nominate and appoint to be Members of the said Council, all which persons shall hold their places in the said Council during Her Majesty's pleasure; whilst by the ninth clause of the Governor's Instructions under the Royal Sign Manual, it is declared to be Her Majesty's pleasure that the said Council shall not proceed to the dispatch of business unless duly summoned by the Governor's authority.

2. The Members of the two preceding Governments formed under the Constitution Act, who were duly appointed Members of the Executive Council, did not resign their seats in the Council when they ceased to belong to the Government; and following the analogy offered in the case of Her Majesty's Privy Council, those Members only of the Executive Council who were Members of the Government for the time being were summoned to its deliberations.

3. The question now raised is, whether the Council has been duly summoned, some of its Members having been omitted from the summons.

4. The Council deem this point of sufficient importance to demand a reference to the Law Officers for a legal opinion thereon, and they advise accordingly.

MICL. FITZPATRICK,  
Clerk of the Council.

## No. 5.

*OPINION of the Solicitor General on the question raised in the Minute of 6 October, 1856.*

The Royal Instructions recite the necessity for the appointment of an Executive Council to *advise* the Governor General in the administration of the Government of the Colony, and command the creation of such a Council, the Members of which are to hold office during the Queen's pleasure. They are therefore appointed and removable by the Queen's mandate, like Privy Councillors in England, and for the same purposes, and they are not to be in any sense a Cabinet Council. The 9th clause declares that this Council shall not proceed to the dispatch of business unless duly summoned by the authority of the Governor General, and in the presence of the Governor General or a presiding Member, and the proceedings are to be recorded to insure responsibility and facilitate an impeachment if necessary. In expounding these Instructions regard must be had to the obvious constitutional objects in view, and the usage as to summoning the Members of the Privy Council, that is, to secure responsibility and to prevent any consultation or action independently of the Governor General's summons to advise him. These advisers are not limited in number, and must not meet or act in concert unless duly summoned, that is, summoned by the Governor General. As they are to be responsible for their advice, and as the Ministry for the time being are more immediately responsible for the consequences of that advice, the Governor General cannot reasonably ask counsel from those who differ from the Ministers, and they on the other hand would decline to be the responsible Ministry of a Governor General whose acts might be at variance with their opinions. The Governor General need not summon the Executive Council at all unless he likes, and can, I think, remove at pleasure any person from that office; and it seems to me, therefore, that he may, under the prescribed conditions, summon such Members of the Executive Council to advise him as he may think desirable. The Governor General may act in opposition to the advice of the Council, or in some cases without seeking that advice; but the intention seems to be to interpose a responsible body so as to relieve the Governor General as much as possible from direct responsibility. The Council is a Council of Advisers, created by the Governor General, removable by him; and he may determine who shall be summoned, as well as who shall be appointed or removed. This being my opinion, I think that the Governor General must be left to use his own discretion, and that no terms should be imposed by any Ministry.

Solicitor General.

*EXTRACT from the proceedings of the Executive Council, with respect to the regularity of their proceedings.*

MINUTE No. 56-54.

*" Dated 13 October, 1856.*

" REFERRING to the proceedings on the 6th instant, with respect to the regularity of the Council's proceedings by reason of the full number of the Council not having been summoned, His Excellency the Governor General lays before the Council a report from the Honorable the Solicitor General, in which he states at some length his opinion upon this and collateral points.

" The Honorable the Attorney General in his place also offers his opinion, which on the main question at issue, is in concurrence with the Solicitor General's, to the effect that it is legally competent to the Governor General to summon such Members of the Council to advise him as he may think fit.

" 2. Under these circumstances there is no longer any reason to question the regularity of the Council's proceedings.

*EXTRACT from the proceedings of the Executive Council, with respect to the regularity of their proceedings.*

MINUTE No. 57-46.

*" Dated 5 October, 1857.*

" THEIR Excellencies the Administrators of the Government in the next place invite the attention of the Council to a question which has been raised as to the regularity of their proceedings, under the following circumstances :—

" In Her Majesty's Warrant, addressed to the Governor General, under date the 8th day of September, 1855, it is enjoined that there shall be an Executive Council for New South Wales, and that the said Council shall consist of such persons as the Governor, by instruments to be passed under the Great Seal of the Colony in Her Majesty's name, and on Her Majesty's behalf, from time to time may nominate and appoint to be Members of the said Council during Her Majesty's pleasure; and by the 9th clause of the Governor's Instructions under the Royal Sign Manual, it is declared to be Her Majesty's pleasure that the said Council shall not proceed to the dispatch of business, unless duly summoned by the Governor's authority.

" In this Colony the Members of the different Administrations, since the introduction of Responsible Government, have continued to hold office of Executive Councillors, but following what was understood to be the practice of Her Majesty's Privy Council, those Members of the Council only have been summoned to attend its deliberations who were Members of the existing Government; and it, therefore, becomes a question whether the provision of the Constitution Act relating to the powers and duties of the Executive Council and also Her Majesty's injunction as to the constitution and summoning of the Council have been practically complied with.

" This question appears to have been raised in October of last year by a previous Administration, the Law Officers of which gave an opinion in the affirmative.

" 2. The Council now advise that the question be formally referred for the opinion of the present Crown Law Officers.

" EDWARD C. MEREWETHER,  
" Clerk of the Council."

NOTE.—It does not appear that the further opinion of the Law Officers herein alluded to was furnished.

" SIR,

" I have to acknowledge your Despatch, No. 140, of the 8th September last, bringing under my consideration some of the provisions of your Commission and Instructions, with reference to their bearing on the system of Government now established in New South Wales.

" 2. With regard to the constitution of the Executive Council, you ask for a distinct power of removing its Members to be conferred on the Governor: I am aware of no serious objection to such a provision, but it is unusual. In the North American Colonies, in which Responsible Government has been for some time in force, the Members of the Executive Council all hold their office on the understanding that they will resign when they have lost the confidence of the Legislature, and whenever any change of Ministry takes place the whole Executive Council is liable to change. I am not aware that any difficulty has hitherto arisen in carrying this system into execution.

EXTRACT of a Despatch from the Secretary of State to the Governor General, dated (No. 38.)

Downing-street,  
25 March, 1857.

SIR,

I have to acknowledge your Despatch, No. 149, of 25th of September last, forwarding a memorandum from yourself, and Extract from Minutes of your Council, explanatory of the course to be adopted in future for the transaction of the Executive business of the Government.

The arrangements appear to be well calculated for their purposes, but I do not observe that any question is raised upon them for my decision.

\* \* \* \* \*

On the more important question raised by the 10th paragraph, and noticed in your Despatch, I would also refer to the statement conveyed in that Despatch, that the practice of the American Colonies is that outgoing Ministers should resign their seats as Members of the Executive Council. It appears to me that a body analagous to the Privy Council in England, and liable to be summoned on special occasions, is not required in Colonial institutions, in which comparative simplicity should prevail.

But as concerns the question of permitting the retiring Members of the Executive Council to retain the designation of 'Honorable,' it is one on which uniformity of practice cannot be said as yet to prevail in the North American Colonies. In some it is retained by all Members; in others, by a select number only. That selection may be in one of two modes; either by the Governor's signifying to the Crown, on the occasion of a retirement, whether or not he thinks the dignity ought to be retained, in consideration of length or distinction of service; another, by permitting those who have filled, as councillors, certain important offices to retain it, and not the others. I am inclined to think the second mode is preferable to the first, and perhaps preferable also to the rule of indiscriminate retention, which may tend to make the distinction too common. But it is not a subject on which Her Majesty's Government would wish to impose any rule; and, as the practice adopted at Sydney may perhaps become a precedent elsewhere, I should wish you to consider the question before reporting to me finally upon it.

I have, &c.,  
H. LABOUCHERE."

No. 10.

GOVERNOR GENERAL to SECRETARY OF STATE FOR THE COLONIES.

(No. 118.)

Sydney, 28 August, 1857.

SIR,

I have the honor to acknowledge the receipt of your Despatch, No. 38, dated 25th March, 1857, in which, after commenting upon certain proposals contained in my Despatch, No. 149, dated 25th September, 1856, you remark with reference to the question raised by the 7th paragraph of that Despatch, that as the practice adopted in Sydney may perhaps become a precedent elsewhere, you would wish me to consider the question before finally reporting upon it.

2. The substance of my former recommendation was, that the Governor should be invested with the power of removing gentlemen from their seats as Members of the Executive Council, as well as with that of appointing them; and twelve months' experience of the working of Responsible Government, has only served to confirm the opinion which I before expressed. I do not think it at all desirable that the Members of an outgoing should, as such, retain their status as Members of the Executive Council, or to be entitled to the prefix of Honorable to their names.

3. At the same time, however, I think that it would be desirable that the Governor should have power to retain upon the list of Members of the Executive Council any individual of an outgoing Ministry who, from his character and standing in the Colony, may be entitled

to

to such a mark of distinction, upon the clear understanding, of course, that this will not entitle such person to claim a right to be summoned to, or assist in the deliberations of, the Council; that, in point of fact, the distinction should be honorary only. This mark of honorable appreciation would be but sparingly bestowed; but, from that very circumstance, it would be more appreciated, and it would operate to induce the better educated and more wealthy settlers to interest themselves more than they at present do in the political business of the country.

4. The natural tendency in this Colony is, and I think must continue to be for many years, towards the accumulation of landed property in the hands of, comparatively speaking, a few individuals, rather than towards that sub-division into small properties, which prevails in the American Colonies and in South Australia. It is therefore very desirable that every legitimate inducement should be held out to the large landed proprietors to take their proper place in the Legislature, which ought not to be filled principally with those whose stake in the Colony is so trifling as to make it a matter of indifference to them what the effect may be produced by legislation upon the great and leading interests of the country. Such being my view, I think the simplest mode of carrying it out will be that which I have before stated, namely, to give the Governor the power of removal from, as well as of appointments to, seats in the Executive Council.

5. In your Despatch you draw a distinction between the retention of the seat, and that of the title of Honorable, which has been recognised as an indication of the position attained by the holder; and after mentioning the varieties of practice which prevails in different Colonies, you say that you are inclined to think, if any selection be made of the Members of the Executive Council for such a mark of distinction, that which permits the holders of certain important offices to retain the designation of Honorable is the best.

6. Looking, however, to the peculiar circumstances of these Colonies, and to the social position of many of those who may, in the various changes which are likely to take place, attain to the positions selected as those to the holders of which the title of Honorable should attach, I cannot think that such a course would be desirable. The other alternative mentioned in your Despatch, namely, that the Governor should signify to the Crown on the occasion of a retirement, whether or not he thinks such dignity should be retained in consideration of length or distinction of service, open up in fact, a very important question upon which I am not at present prepared to give an opinion, namely, as to the principle upon which titles or marks of honor should be conferred by the Crown upon its Colonial subjects, and the character of such marks of distinction. It appears to me that it would be beneath the dignity of the Crown to interfere directly in the determination of the question, whether an individual should or should not continue to be addressed as the "Honorable." The distinction, which is shared by all the Members of the Council as by those of the Executive, is hardly great enough to warrant a formal application to Her Majesty; but the retention of the position of a Member of the Executive Council, not only involves the retention of the title, but also of place and precedency, and may be a very legitimate and effective object of ambition. For this reason, I adhere to the opinion which I expressed in my former Despatch, and which I have reiterated in this, that the simplest and most effective course which can be adopted will be to give to the Governor power to remove as well as to appoint the Members of the Executive Council, with the understanding, of course, that he is only to summon for the dispatch of the ordinary business of the Government such gentlemen as may belong to the Ministry actually in office.

I have, &c.,  
W. DENISON.

11 February, 1858.

SIR,

I have to acknowledge your Despatch, No. 118, of the 28th August last, in continuation of your former remarks on the question of the Governor's power for the removal or suspension of Executive Councillors.

I

I am satisfied by the arguments which you adduce, and I moreover find (of which I was not aware when I last addressed you) that the power to remove is now possessed by North American Governors under the responsible system. A supplementary Instruction to this effect will, therefore, be prepared and sent you without delay.

With the remaining suggestions of your Despatch I am not fully prepared to deal in the manner which you appear to desire.

I remain of opinion that to retain public servants in the Executive Council merely as Honorary Members, and on account of distinguished services, would probably produce considerable inconvenience. I do not think that the analogy of the British Privy Council is applicable to the institutions of a Colony at the outset of its political existence, which should, as far as possible, be simple and practical. I do not understand from your Despatch whether it is your proposal that in selecting these Honorary Members you should, or should not, be guided by your Responsible Advisers. I see considerable difficulties likely to attend either course.

If you acted on your own sole authority, subjects of difference between yourself and your Advisers would be likely to arise out of the selection. If by that of your Advisers, then, even with the best intentions on their part, the honors thus conferred would inevitably become mere party distinctions in the public mind, and would be valued accordingly.

I think these observations apply with much less force to the mere retention of the title "Honorable" (with precedency next to existing Councillors), which I should consider the preferable course, notwithstanding the objections alleged by yourself; but I remain of opinion that this title would be better appropriated to the ex-holders of particular offices, than bestowed at the discretion of the Governor or of his Advisers.

If, however, you should consider that the Executive Council would be strengthened by the occasional association in it of non-official Members, holding no political offices, with the actual holders of office (not as mere honorary, but as acting Members), I should see no objection to this course; the retention of such persons in the Council being, of course, made to depend upon their power of acting usefully along with the Ministry for the time being.

Such are the general views which I continue to entertain on the questions submitted to me, but I wish you distinctly to understand, that I am neither anxious to impose these views on you for your guidance, nor to press in any manner on yourself and other Australian Governors the maintenance of uniformity of system in the several Colonies. Different social circumstances, and a different tone of popular feeling, may naturally produce divergencies of practice in the conduct of public business in those Colonies, while so long as the general system of Responsible Government continues to prevail, these can only be of minor importance; but what I consider essential is, that the measures you may ultimately adopt, as to the construction of the Council and as to the grant of rank and precedence for public services, shall be fixed by yourself in concurrence with your Responsible Advisers; when this has been done, it will be time to consider the merely formal steps which may be necessary on the part of the Crown to carry those measures into execution.

I have, &c.,

H. LABOUCHERE.

### No. 12.

GOVERNOR GENERAL to SECRETARY OF STATE FOR THE COLONIES.

(No. 153.)

*Sydney, 22 October, 1858.*

SIR,

I received a Despatch from Mr. Labouchere, No. 12, dated 11th February, 1858, in reply to mine, No. 118, dated 28th August, 1857, on the subject of the position and status of gentlemen who may have occupied seats in the Executive Council.

In that Despatch Mr. Labouchere says, "I am satisfied by the arguments which you adduce, and I moreover find (of which I was not aware when I addressed you) that the power to remove is now possessed by the North American Governors, under the responsible system. A supplementary Instruction to this effect will, therefore, be prepared and sent without delay."

This

This Instruction I have not yet received; and I am in the anomalous position of being obliged to recognise several gentlemen as "The Honorable," who have no connection with the existing Government, but who, not having resigned their seats in the Executive Council, are entitled to the mark of distinction attached to such a position.

Mr. Labouchere, in the latter part of the Despatch above alluded to, objects to a proposal made by me, that the Governor should have the power to retain upon the list of Members of the Executive Council any individual who, from his character and standing in the Colony, might be entitled to such a mark of distinction. I am aware that some inconveniences might attach to such a proceeding, and I do not, therefore, wish to press the adoption of my suggestion.

My object was to be able to confer some distinction upon men whose position in society would seem to entitle them to some honorable designation. To attach this, however, to the holders of certain offices would, under the present state of things, be in no way desirable; and until some definite scheme can be proposed by which titles of honor and distinction can be systematically conferred by Her Majesty upon Her Colonial subjects, matters had better be allowed to remain in their present state, where distinction is given only to those who are actual holders of office.

## ADMINISTRATION OF THE GOVERNMENT OF NEW SOUTH WALES.

(DESPATCH RELATIVE TO.)

Presented to both Houses of Parliament, by Command.

THE SECRETARY OF STATE FOR THE COLONIES to THE GOVERNOR GENERAL.  
(No. 46.)

Downing-street,  
18 May, 1859.

SIR,

I have to acknowledge the receipt of your Despatch, marked "Confidential," of the 10th of July last.

As the several arrangements which have been either tried or projected for providing for the Administration of the Government of New South Wales upon the Governor's death, or during his absence, are more or less liable to objections which I see no means of overcoming, I have arrived at the conclusion that it will be most expedient, for the present at least, to vest the conduct of the Government, when vacated by either of the contingencies above-mentioned, in the Senior Military Officer, for the time being, commanding Her Majesty's Troops in the Colony.

I accordingly now transmit to you a Dormant Commission, under the Royal Sign Manual, to that effect; and you will take care that this Instrument be deposited in proper custody.

I have, &amp;c.,

(in the absence of Sir E. B. Lytton.)

GOVERNOR

SIR W. T. DENISON, K. C. B.,

(L.S.) VICTORIA R.

VICTORIA, by the Grace of God, of the United Kingdom of Great Britain and Ireland,  
Queen, Defender of the Faith.

To the SENIOR MILITARY OFFICER for the time being Commanding Our Land Forces  
in Our Colony of New South Wales,

WHEREAS We did by Our Commission under the Great Seal of Our United Kingdom of Great Britain and Ireland, bearing date at Westminster the eighth day of September, one thousand eight hundred and fifty-five, in the nineteenth year of Our Reign, constituting and appointing Our trusty and well-beloved Sir William Thomas Denison, Knight, now Knight Commander of Our Most Honorable Order of the Bath, Lieutenant Colonel in the Royal Engineers, to be Captain General and Governor-in-Chief in and over Our said Colony of New South Wales, Provide and declare Our pleasure, that in case of the death or absence out of Our said Colony of the said Sir William Thomas Denison, all and every the powers and authorities by Our said Commission to him granted should be, and the same were thereby vested in such person as might be appointed by Warrant under Our Sign Manual to be Our Lieutenant Governor of Our said Colony, or in such person or persons as might by Us be appointed in like manner to administer the Government of Our said Colony in such contingency, or in the event of there being no person or persons within Our said Colony so commissioned and appointed by Us as aforesaid, We did further provide and declare Our pleasure, that in any such contingency all the powers and authorities by Our said Commission granted to the said Sir William Thomas Denison should be, and the same were thereby granted to the Colonial Secretary of Our said Colony for the time being, and that such Lieutenant Governor, or such person or persons as aforesaid, or such Colonial Secretary, as the case might be, should exercise all and every the powers and authorities in Our said Commission contained, until Our further pleasure should be signified: And whereas We did by our Warrant under Our Sign Manual, bearing date at Osborne House, the twenty-third day of May, one thousand eight hundred and fifty-seven, in the twentieth year of Our Reign, nominate and appoint the Officer for the time being next in seniority to the Officer for the time being actually Commanding Our Land Forces in all Our Colonies of Australia, the President for the time being of the Legislative Council of Our said Colony of New South Wales, and the Colonial Secretary for the time being of Our said Colony, or any two of the said persons, to be Administrators of the Government of Our said Colony, in case of the death or absence of the said Sir William Thomas Denison out of Our said Colony: Now, know you, that We have thought fit to revoke and determine Our said Warrant, and the same is hereby revoked and determined accordingly. And whereas We have judged it expedient that the Administration of the Government of Our said Colony should, in case of the death or absence out of Our said Colony of the said Sir William Thomas Denison, be for the present vested in you, the Senior Military Officer for the time being Commanding Our Land Forces in Our said Colony: Now, therefore, We do hereby authorise and require that in the event of the death of the said Sir William Thomas Denison, or during his absence out of Our said Colony, you do, until Our further pleasure be signified, administer the Government of Our said Colony under the style and title of Administrator of the Government thereof, and that you do execute and perform all and singular the powers and directions contained in Our said recited Commission to the said Sir William Thomas Denison, and all such further orders and instructions as he and you may hereafter receive from Us. And We do hereby command all and singular Our Officers, Ministers, and loving subjects in Our said Colony, and all others whom it may concern, to take due notice hereof, and to give their ready obedience to you accordingly as Administrator of the Government of Our said Colony of New South Wales.

Although none of the above-named places are public townships, they are each and all the centres of a considerable population, and I am of opinion that the public convenience would be consulted by having those places duly proclaimed.

NEW SOUTH WALES.

THOMAS GEORGE RUSDEN, ESQ.

(PETITION OF.)

*Ordered by the Legislative Assembly to be Printed, 2 February, 1860.*

To the Honorable the Legislative Assembly of New South Wales, in Parliament assembled.

The Petition of Thomas George Rusden,—

HUMBLY SHEWETH :—

That at the late General Election Mr. Hart was returned for the District of New England by a majority of two.

That a Petition was in due form presented against this Return, and was referred to the Election Committee of your Honorable House.

That the Election for New England took place on the thirtieth of June last, and your Election Committee have had this matter under their consideration till the ninth of December, one thousand eight hundred and fifty-nine, when they agreed upon their Report, which was first published on the twentieth day of December, one thousand eight hundred and fifty-nine.

That the Return petitioned against was as follows :—

Hart, 313 ; Rusden, 311 ; Eames, 4.

And that your Committee report, page 6,—“ That four votes registered at Armidale were “ impersonations, and were polled for Hart,” and “ your Committee have struck off that “ number from the votes polled for Hart,” which will leave the final result of the Poll as follows :—

For Hart.....	309
For Rusden .....	311
For Eames .....	4

That on the twenty-fifth of October your Committee did refuse to allow one of the principals—the other Candidate, your Petitioner—to be present in the Court being then held by your Committee, but that there is no entry of this refusal in their Minutes and Proceedings.

That Mr. Teale, Solicitor for your Petitioner against the return of Mr. Hart, did, on the twenty-fifth day of October, one thousand eight hundred and fifty-nine, close the case for the Petitioner, and that on that day your Committee did authorize the Clerk to furnish printed copies of the evidence taken in the matter of the Petition in which the defence had not been commenced.

That on the next day on which your Committee did any business, namely, on the thirtieth November, one thousand eight hundred and fifty-nine, the defence was commenced; two witnesses were sworn, and the opposition to the Petition against the return of Mr. Hart was concluded.

On the second day of December, one thousand eight hundred and fifty-nine, your Petitioner, who was an agent for the parties to the Petition against the return of Mr. Hart, duly appointed under a written authority, attended on your Committee with Mr. Teale, the Petitioner's Solicitor, who addressed your Committee in reply to the defence, and they were informed that the Clerk would convey to them the decision of your Committee after three o'clock that day; and the Court then held by your Committee was then closed.

On the sixth day of December, one thousand eight hundred and fifty-nine, your Committee was again waited upon for the decision; but they sat with closed doors, and no decision was given on that day.

On the eighth day of December, one thousand eight hundred and fifty-nine, Mr. Teale and your Petitioner again waited on the Committee, who sat with closed doors.

On the ninth day of December, one thousand eight hundred and fifty-nine, Mr. Teale and your Petitioner again waited on the Committee, and were informed that, upon evidence taken in their absence, four votes had been struck off from your Petitioner's return; one from Mr. Hart's; and that two new votes had been given to Mr. Hart by your Committee, making the return—

Hart..... 310	} instead of	{	Hart..... 309
Rusden..... 307			Rusden..... 311
Eames ..... 2			Eames ..... 4

It would appear from the Report of your Committee, page 11, that not only did your Committee proceed to break the seals, and to inspect the ballot papers when the Court was closed, and in the absence of Mr. Teale and your Petitioner; but that they delegated this power to others, and that, from the second of December till twelve o'clock on Tuesday, the sixth of that month, these papers were altogether out of the control of your Committee, and were handled by persons in the absence of the parties principally concerned.

That, supposing the Report of the Election Committee of your Honorable House, as to the present state of these ballot papers to be correct, it is evident that they have been tampered with and altered. For instance—there were not two good votes for Hart rejected by the Returning Officer at Armidale: this can be substantiated by the evidence of five witnesses. The Presiding Officer at Hernani, Edward Hargrave, did not send in a false return by returning two votes for Eames at that place; but counted one vote for Eames because his name was left on one ballot paper for Rusden, which vote your Committee have now struck off from Rusden's return, and Edward Hargrave counted one vote for Eames because his name was left on one ballot paper for Hart, which vote your Committee have not struck off from Hart's return, so that it would appear this ballot paper must have been altered by making a pencil mark through the name of Eames.

It would appear from the Report of your Committee that two of the Presiding Officers, E. G. Clerk at the Bundarra, and David Bell at Walcha, together with all the scrutineers at these places, had grossly neglected their duty, and had returned two votes not bearing the initials of the Presiding Officers; and it is clear, and capable of proof, that some of these ballot papers have been altered—it may be that the two ballot papers have been abstracted, and others put in their place, of course without the initials of the Presiding Officers—or it may very well be that these initials have been rubbed off or erased from these papers. The Solicitor and the other Candidate, never having seen these papers, were precluded from any chance of detecting unfair play, which possibly these ballot papers, if properly inspected, now might shew positive evidence.

This Petition further shews:—That on the evidence taken in open Court, according to the Report of your Committee, the Return petitioned against would still remain, Hart, 309; Rusden, 311; Eames, 4. If those votes bearing two names, or having Eames' name left on, are struck off, it would remain according to your Committee's Report—Hart, 308; Rusden, 309; Eames, 2; but Eames' name has been struck through with pencil on the ballot paper

paper returned for Hart from Hernani; and therefore the return would be—Hart, 307; Rusden, 309; Eames, 2; and, further, that the two ballot papers struck off by your Committee because non-initialled, ought not to have been so struck off, because they were in reality, and in good conscience, good votes for Rusden, and intended as such; and they had already passed the ordeal or scrutiny they were by law liable to be subjected to on any such account; and there is no evidence whatever either that these two papers do not now bear on the face of them the proper initials, or that the said initials have not been scraped off or obliterated in some manner.

That the Petitioner against the return of Mr. Hart has completely proved and gained his case in every point, and has been put to a great expense for witnesses, and by protracted delays; and that it can be clearly proved that some ballot papers have been altered; that none of them have been produced in open Court, or seen by the Petitioner, or any of his agents; that they have been out of the control and jurisdiction of the tribunal appointed by your Honorable House to try all election petitions in open Court.

Your Petitioner, therefore, prays that your Honorable House will allow a strict scrutiny of these ballot papers to take place, at which your Petitioner may be present, and may carefully examine them; or that your Honorable House will take such steps as may best afford speedy justice upon the premises.

And your Petitioner, as in duty bound, will ever pray, &c.

To the Honorable the Legislative Assembly in Parliament assembled.

The Petition of the undersigned Inhabitants of the District of New England,—

HUMBLY SHEWETH :—

That your Petitioners have seen the Petition of Thomas George Rusden, concerning the late New England Election, which has been received and which has been printed by your Honorable House.

That your Petitioners have heard that various reports have been circulated impugning the honesty and the propriety of the conduct of the Returning Officer at the late New England Election.

That your Petitioners believe that the conduct of the Returning Officer, Mr. Cheesbrough, gave such universal satisfaction that the most energetic of Mr. Hart's supporters forcibly seized upon him and carried him into public-houses, whilst the supporters of Mr. Hart drank his health with all the honors.

That your Petitioners, therefore, pray that your Honorable House will take the above-named Petition of Thomas George Rusden into your consideration, and that your Honorable House will afford an opportunity of refuting the slanders that have been circulated against Mr. Cheesbrough, the Returning Officer at the late New England Election.

And your Petitioners, as in duty bound, will ever pray.

*Tumut, 11 May, 1860.*

Sir,

I have the honor to inform you that I attended this day at the place of nomination, Tumut, for the purpose of declaring the state of the Poll for the Electorate of the Tumut, but was unable to do so in consequence of receiving a letter from the Presiding Officer of the Adelong, as follows:—

*Adelong, 10 May.*

Sir,

In consequence of not having received any Electoral Roll of the present or past year I have been unable to take the state of the Poll; you will, therefore, take such steps as you may deem necessary to remedy the evil.

Yours, &amp;c.,

T. B. CARNE.

J. A. Broughton, Esq.,

Returning Officer for the Electorate of Tumut.

I applied to the Government Printer to furnish me and the Presiding Officers at Gundagai and Adelong with the necessary printed forms of the Electoral Roll and Ballot Papers, but did not receive any, in consequence, I suppose, of the floods having delayed the Mails.

I beg that you will inform me what steps I am to take.

SIR,

I am directed by the Colonial Secretary to inform you that a report has been received at this office from the Returning Officer for the Electoral District of the Tumut, that, in consequence of not having received copies of the Electoral Rolls and Ballot Papers, the Poll has not been taken at Adelong, and to request, therefore, that you will state when application was made to you for these rolls and papers, the date on which they were forwarded, and to whom addressed.

SIR,

The Honorable the Speaker of the Legislative Assembly has transmitted to this office a letter addressed to him by you on the 11th instant, communicating the circumstances under which you were unable to declare the state of the Poll at the proper time and place under the Writ for the Election of a Member for the Electorate of the Tumut.

2. It is stated that you were unable to declare the state of the Poll in consequence of the Presiding Officer at Adelong not having taken the Poll at that place, owing to his not receiving copies of the Electoral Roll and Ballot Papers for which you had applied to the Government Printer.

3. Inquiry having been made of the Government Printer, it appears that he has duly forwarded the papers required; and I am directed by the Colonial Secretary to point out to you that the Presiding Officer at Adelong should be instructed to take the Poll at that place with as little delay as possible, as the delay in doing so will not render the Election void, provided that its validity, notwithstanding such delay, is declared by the Governor General and Executive Council, under the provisions for the purpose in the 58th section of the Electoral Act of 1858.

You will observe that a certified copy of the Electoral Roll should be furnished to the Presiding Officer, and public notice should be given in the district of the day on which the Poll is to be taken.

You will be pleased to report to this Office the steps which you may take in pursuance of this letter in order that a Proclamation may be issued in accordance with the section of the Act before-mentioned.

I have, &c.,  
W. ELYARD.

The Attorney General having been personally consulted by the Colonial Secretary, stated his opinion that the course suggested in the above letter was legal, and strictly in accordance with the Electoral Act.

SIR,

I am directed by the Colonial Secretary to acknowledge the receipt of your letter of this date, enclosing one from the Returning Officer of the Tumut Electorate, detailing certain circumstances under which he was unable to declare the state of the Poll at the proper time and place under the Writ for the Election of a Member for that District.

2. It is represented that the Poll at Adelong was not taken in consequence of the Presiding Officer not having been furnished with a copy of the Electoral Roll, for which the Returning Officer had made application to the Government Printer.

3. Inquiry having been made of the Government Printer, it appears that the Electoral Rolls have been printed and forwarded, and the Colonial Secretary has therefore pointed out to the Returning Officer that he should still take the Poll at Adelong, as the Election may be declared valid under the 58th section of the Electoral Act, notwithstanding the delay in his doing so.

In acknowledging the receipt of your reply of this date to my letter, enclosing the communication from the Returning Officer for the Tumut,—

I do myself the honor to draw your attention to the fact, deducible from Mr. Broughton's letter, that while there are *three* polling-places in the Tumut Electorate, viz., Tumut, Gundagai South, and Adelong, the last-mentioned is the only one for which the Electoral Roll and Ballot Papers appear to have been deficient; and to remark that if Tumut and Gundagai South were supplied from a source independent of the Government Printer, it seems strange that Adelong was not also supplied from the same source.

I have the honor to acknowledge the receipt of your letters of 17th and 18th instant, which reached me to-day, and in answer to the former I beg to state, that in accordance with your instructions, I have given public notice that the Poll will be taken at Adelong on the first day of June next. I have also addressed the Presiding Officer on the subject, and furnished him with a copy of the Electoral Roll.

In reply to the letter of the 18th instant, I have the honor to state I had Voting Papers printed at Adelong, and that I furnished the Presiding Officer at Gundagai with my own revised list of the Roll, and used myself, at the polling-place, Tumut, the copy retained by the Clerk of Petty Sessions for the use of the Bench. These were the only copies that had been made, and up to the last hour I anticipated the arrival of the missing mails, which might have put the Presiding Officer at Adelong in possession of the Electoral Roll.

REGISTRAR GENERAL'S REPORT

TO THE HONORABLE CHARLES COWPER, ESQUIRE,

COLONIAL SECRETARY,

&c., &c., &c.

---

*Registrar General's Office,  
Sydney, 29 August, 1859.*

SIR,

In presenting to you the new "Statistical Register" of New South Wales for the year 1858, I purpose prefacing the volume with a few remarks, to illustrate the more prominent and important of the Tabular Statements contained in it.

In the first place, it may be desirable that I should explain shortly the reasons which induced me to propose, and the Government to sanction, the changes, which will be apparent to every one whose business or whose curiosity may have led them to look into former "Blue Books," both in the form of the volume itself and many of its contents.

2. The great bulk which the volume for some years past had attained (varying from 850 to 1,020 pages of matter, partly printed and partly in manuscript), rendered it impossible, except at great expense, to do more than prepare two copies for transmission to the Secretary of State, and one copy to be kept of record in the Colony, after lying during the Session on the Table of the Legislature. It had been the practice to prepare a smaller volume of condensed Tables, under the head of "Statistics," for general circulation in the Colony. Upon assuming the duty of collecting and compiling the Returns for the past year, I was invited to make suggestions for reducing the "Blue Book" to such reasonable limits as would bring it within the compass of the printing press; and it occurred to me that it would be desirable at the same time to amalgamate the two publications into one volume, under a new title; propositions to accomplish these objects were accordingly made to, and approved by, the Government; and the result is now submitted in the shape of a neatly printed volume of 191 pages. Much extraneous and comparatively useless matter has been eliminated,—many of the Tables have been condensed, and others amalgamated,—whilst in some few instances the information has been conveyed in a more full and, I trust, a more satisfactory form than hitherto.

Inconvenience in the style of the old "Blue Book."

Amalgamation of the Blue Book and Statistics.

Tables capable of further improvement.

3. Although greatly modified and, I hope, improved, it is by no means to be supposed that the volume is considered perfect—there is still room for the pruning-knife. The Tabular Statements are, in many instances, capable of further improvement, and as familiarity with the work and experience go on increasing, it may be hoped that the information collected will be conveyed in a more compendious, and, perhaps, more simple form than I have been able to accomplish on the present occasion.

Difficulties arising from present mode of collection.

The great difficulty lies in the collection of the information so as to ensure that perfect accuracy which alone imparts value to Statistics; but on this subject I have already addressed you in a separate letter, and I trust that the great importance to which statistical science has attained, as illustrative of the condition and progress of society, in its bearing upon legislation more particularly, and the deep interest with which statistical information regarding the Australian Colonies is looked for, not only in the Mother Country, but over the whole Continent of Europe, will lead to a higher recognition of its value than it has hitherto been thought worthy of in this Colony.

#### ESTABLISHMENTS.

“Civil.”  
Pages 21 to 56.

4. I will now proceed to notice such of the Tables as may seem to require comment or explanation for their elucidation. The Civil Establishments occupy 36 pages, irrespective of the Index of Names, which was added afterwards, by desire of The Right Honorable the Secretary of State. The frequent inquiries made at the Colonial Office by the friends of persons employed in the public service seemed to render this addition desirable. The Return embraces the names of all officers in the public service, from His Excellency the Governor General to Clerks of Petty Sessions. By the suppression of six columns of superfluous information the Return has been reduced to one-half its former dimensions.

“Ecclesiastical.”  
Pages 57 to 65.

5. The Ecclesiastical Return, in its present nominal shape, is one of questionable utility, and might probably be dispensed with on a future occasion. Like the Return previously mentioned, it has been reduced one-half in bulk by the suppression of useless matter. Some of the Denominations, the Wesleyan Methodist particularly, have been backward in furnishing the necessary information; and I may here state that one chief cause of the repugnance of the Clergy to furnishing the information arose from the inquisitorial nature of one of the inquiries; I allude to the amount of fees received during the year,—a question with which the State has properly no concern, and which has been considered by the Clergy generally, as a most offensive interference with their private emoluments. I did not hesitate to forego this inquiry.

#### EDUCATION.

Pages 68 to 69.

6. Under the head of “Education” the most noticeable feature is the addition of 103 Schools to those in operation the year before. Of this number 11 are Denominational, viz.,—7 Church of England, and 4 Roman Catholic. The National Board have, by the addition of a number of non-vested Schools, added 38 to their number, whilst of private Schools there would

would seem to be an addition of no less than 54. As regards the number of Scholars the increase will be found as follows, viz. :—

	4,003
Less decrease*	3
	4,000
Add, 1857 ...	29,236
Total, 1858 ...	33,236

The Denominational Schools average 76 children; the National 78. The Denominational system cost the State at the rate of £1 2s. 7½d. per head; the National at the rate of £2 16s. 9½d. The amount of voluntary contributions per head was about 4s. under the Denominational, and about 6s. under the National system.

Comparison between National and Denominational Schools.

The detailed Return introduced into former "Blue Books" has been withdrawn, the information being supplied in the annual reports laid before Parliament, and therefore considered unnecessary of repetition in this publication. The children of educable age,—by which I mean the usual age within which parents send their children to School,—say from 5 to 12 years,—may be estimated at 48,000. The children educating are 33,236; say that 1,236 only of these are over 12 years of age, we shall have 32,000 to deduct from 48,000, which leaves the large number of 16,000 to the chances of home education, or of no education at all, which I fear, in most cases, is nearer the truth.

My efforts to collect returns of Sunday Schools completely failed, no records were to be obtained that could furnish information of a useful or reliable character; but I hope to be able to collect Statistics for a future occasion that will throw light upon this interesting and important means of instruction.

"Sunday Schools."

## MONETARY.

7. Under the head of Exchanges, Moneys, &c., will be found some interesting Returns, shewing the amount of Coin and Bullion in the Colony; the amount of paper currency in circulation; the amount of Deposits, &c., in the Savings' Banks; and the quantity and value of Gold received at the Mint and exported from the Colony. The Decennial Return of Coin and Bullion in the Colony, at page 74, shews an increase on the previous year of £394,837 12s. 5d., whilst the paper currency in circulation was £81,728 less at the end of 1858 than it was at the end of

of 1857; and taking the average of the year, the amount of notes in circulation was less by £48,802 than it was the year before. The rate of interest paid by the Banks to depositors, ranged as high as 6 per cent. on deposits for 12 months, which is a remarkable feature in the history of Banking in this Colony, whilst the rates of Discount ruled, on the average, higher than they had done for several years past, reaching as high as 9 per cent. on Bills having over 125 days currency.

Savings'  
Bank.

8. The rate of Interest allowed to Depositors by the Savings' Bank was 5 per cent., and the Interest on Moneys lent on Mortgage was 7 per cent.; but, in consequence of the high rates of Interest offered for fixed deposits by some of the large Banking Institutions, the Trustees restricted the loans upon Mortgage within narrower limits than usual. The following Table may be instructive, as illustrative of the working of this interesting Institution, and of the fluctuations in the savings of the industrial population:—

### GOLD.

Gold.

9. The Returns of Gold received by Escort, from the different Gold Fields of the Colony, and exported (*Vide* page 77), will be found to possess much interest.

The quantity received by Escort does not, however, comprise the total production of the Colony, some being sent by Post and some by private hands.

The Return at foot,\* of Gold received for Coinage at the Mint, during the year, shews an excess of 20,443 ozs., of the value of £76,105, known to be the produce of our own Gold Fields, over and above what was received by Escort, to which, if we add 13,973 ozs. on which duty on Export was paid at the Customs during the year, we shall obtain 286,798 ozs.

as

as the total produce of the Gold Fields of the Colony, and if we estimate this quantity at the Mint value, namely, £3 17s. per oz., it will give us £1,104,175 as the value of the Gold produce for the year 1858.

The total value of the Coin and Bullion exported was £407,521 <sup>Export of Gold.</sup> in excess of the Export of the previous year. The difference in the value of the Exports over the Mint receipts, for the year, was £177,647. This may be accounted for,—partly by the exportation of English sovereigns; partly by the export to Melbourne, of Sydney sovereigns, at the beginning of the year, in return for Bullion imported to the Mint at the close of 1857; and partly, by the exportation to China, of Gold brought down by the Chinese diggers, which would only appear in the Customs' Returns of Exports.

10. It would hardly be proper in this cursory review of the Gold <sup>Reputed Gold discovery in the Fitz Roy River, and its effects.</sup> Returns, to pass over entirely, without notice, the disappointment occasioned to the thousands who, by exaggerated rumours of the discovery of rich auriferous deposits on the River Fitz Roy, were tempted to leave their occupations, and desert their families in search of fortunes. The sudden repute, and as sudden failure, of the Canoona Gold Diggings, form too remarkable a feature in the history of this year to be soon forgotten; but although the disappointment and distress occasioned by their failure were great, they have not been altogether barren of good results. The Port of Rockhampton has been established, and a very rich district on our extreme northern frontier, which, under ordinary circumstances might have attracted little attention for some years to come, except as an outlet for pastoral enterprise, has been opened up. The existence of rich gold deposits on the western slopes of the ranges between Port Curtis and Broad Sound, is still believed in by many people who have had the opportunity of examining the auriferous indications with which the country abounds.

### MANUFACTURES.

11. The Returns of Manufactories, &c., with the exception of <sup>Pages 79 to 82.</sup> refined sugars, shew a satisfactory increase on the Returns of the previous year, but present no striking features worthy of special notice.

The slaughter of sheep and cattle for tallow, is happily shewn, at <sup>Tallow.</sup> page 83, to be reduced within very insignificant limits, and, looking to the decrease exhibited in the Live Stock Return, at page 111, will probably very soon disappear from amongst the Statistics altogether. It has been chiefly confined to what may now be termed "Queensland," and is still the readiest, if not the only available means, of realising a return from the large herds of cattle depasturing in the Northern Districts.

### MINING.

12. The produce of the Coal Mines of the Colony is for the first <sup>Coal. Page 84.</sup> time given in print, in the detailed form in which it will be found at page 84. Irrespective of the first half-year's produce of the Mine at Raymond Terrace, which could not be ascertained, there is an increase of nearly 16,000 tons on the production of the year before. The Australian Agricultural Company seem to have pursued their operations with great activity

## STATISTICAL REGISTER, 1858—REPORT.

activity and success, having exceeded their produce of the previous year by 25,862 tons,\* whilst owing to the temporary suspension of their operations, the Newcastle Coal and Copper Company have produced about 20,000 tons less.

The increased production of the Wollongong Mines is a very noticeable feature in the Return. In 1857, it was 6,200 tons,—in 1858, it was 16,218 tons. The †Hexham Mine has made a very successful development, whilst that at ‡Maitland has fallen off.

Rapid  
development  
of the Coal  
Trade.

13. The decennial Return which follows that just noticed, exhibits a rapid development of this important branch of industry, during the past six years. In 1852, the produce of the Coal Mines was 67,404 tons,—in 1858, the produce was 216,397 tons.

As an article of inter-colonial trade, coal forms no inconsiderable item. During the year under review the Custom House Returns shew an export of 113,527 tons, of the value of £88,956, viz. :—

To Victoria.....	71,096	tons.
„ South Australia ...	10,493	„
„ Tasmania .....	14,301	„
„ New Zealand .....	5,598	„

In 1852 the export was .....	24,794	tons.

„ 1854 .....	59,297	„
„ 1855 .....	61,484	„
„ 1856 .....	84,086	„
„ 1857 .....	96,457	„
„ 1858 .....	113,527	„

the progress of our coal mining operations and of our export trade in coal, is thus shewn to be highly satisfactory, and affords reasonable grounds of confidence—that when our Gold Fields are exhausted, we have a rich inheritance only waiting for development.

Copper and  
Iron.

14. With regard to Ores of Copper and Iron, Mining operations seem to be at a stand still, except in the Orange District, where, however, no great activity seems latterly to have prevailed, but cheap labor and facility of transport only are wanted to develop the rich mineral resources with which the Colony abounds.

LAND.

\* The produce of the A. A. Company's Mines at Newcastle, during the three years 1856 to 1858, was 249,799 tons.

† 1857.....	40	tons.

‡ 1857.....	26,038	tons.

LAND.

15. The Return of Land Sales shows an increase of £30,300 on the previous year, but did not reach the amount realised in 1854, 1855, or 1856. Land Sales. Page 85 to 87.

It seems that a total quantity of 169,214 acres was alienated at an average rate of £1 9s. 4½d. per acre;—of this quantity 60,434 acres, or nearly one-third, were taken under the pre-emptive right at the minimum price of 20s.

I have arranged the old established counties by themselves, under the head of "Settled," and the new counties under the head of Pastoral Districts, in order to shew the large development the urban interests are making in localities which a few years ago resounded only to the bleating of sheep or the lowing of cattle.

It will be perceived that the Town and Suburban Lands sold in the Pastoral Districts exceeded those sold in the old Settled Districts of the Colony by 1,094 lots, or 1,680 acres. I think this fact goes to prove that pastoral occupation is not antagonistic to the permanent settlement of the country.

16. In connexion with the Returns last noticed will be found a Return of Mortgages on Land, to which is appended for the first time a Return of Mortgages discharged, but these present no features calling for special notice. Mortgages, &c., Page 88.

The Return of Liens on Wool which follows shews a large reduction in the number of Liens, and a decrease in the amount secured, compared with either of the three previous years, which may be assumed to betoken the thriving condition of the great pastoral interest of the Colony, whilst the increase in the Mortgages on Live Stock, to the extent of £312,944 on the year before, betokens increased activity in the sale and transfer of pastoral properties. The discharges of Mortgages on Live Stock will be found to amount to over one-third the sum lent. Liens on Wool, &c.

POSTAL.

17. If the Post Office Returns afford any certain evidence of the advancement or retrogression of a Country, I think the figures exhibited at page 89 afford unmistakeable symptoms of internal improvement and development; but as postal matters are now made the subject of an annual Report from the Postmaster General, I shall pass on to the notice of what follows. Page 89.

CRIME.

18. The Criminal Returns will be found to occupy pages 90 to 95. They are published at greater length than has hitherto been the practice. Tables of Commitments for Trial, both in the Supreme Court and Courts of Quarter Sessions, have been introduced for the first time. The public are thus furnished with the means of comparing the amount of crime to the population in this and other countries, which the Returns of convictions alone never could enable them to do. A minute analysis of the facts Criminal Returns. Pages 90 to 95.

facts set forth in these Tables is beyond the scope of this Report—they would furnish matter for a volume;—I must content myself with noticing one or two leading features. At page 92, the two lower Tables exhibit the number of Commitments for Trial, and the number of Convictions at the Criminal Sessions of the Supreme Court. It will be seen, on comparison, that there were,—

Commitments and Convictions in Supreme Court.

For Felonies .....	Commitments...	234	Convictions...	119
Offences against the person...	„	62	„	35
Offences against property ...	„	125	„	61
Miscellaneous Felonies .....	„	47	„	23
Misdemeanors .....	„	53	„	33
Capital Offences .....	„	33	„	9

Thus we learn that excluding Capital offences, rather more than one-half the commitments for trial for serious offences, were brought home to the parties, whilst of capital offences less than one-third were prosecuted to conviction.

Commitments &c. at Quarter Sessions.

19. Turning next to the Commitments and Convictions in the Courts of Quarter Sessions, at pages 93, 94, we find out of 382 commitments for felonies, there were 181 convictions; and out of 111 misdemeanors, there were 82 convictions; taking the two classes of offences together, the convictions obtained in the Courts of Quarter Sessions form a rather larger proportion to the commitments than was obtained at the Criminal Sessions of the Supreme Court.

Decrease of Crime.

The Decennial Return of the number of convictions in the two Courts, although slightly in excess of 1857, manifests a considerable decrease on any one of the eight previous years; and if the number of convictions could be taken as any indication of the decrease of crime, this fact would furnish no mean subject of gratification. We are not to suppose that the Laws were more laxly administered during the last two years, than they were during the previous eight, nor that the vigilance of the police was relaxed; on this hypothesis therefore it might be assumed that as regards serious offences, the moral character of the community has been progressive with its material advancement. Unfortunately in no country much less in this, is the number of convictions to be taken as a fair test of the moral state of a nation, and we are precluded by the absence of proper data from making comparisons with former years as to the comparative degree of crime which the present Returns exhibit; I must therefore content myself with comparing the number of commitments in New South Wales in 1858, with those of the only two earlier periods of the Colony's history, which I have been able to discover.

Comparison of commitments with those of earlier periods.

20. In 1833, with a population of 60,861, of which 24,543 were Bond, there were 727 commitments for trial for serious offences, that is, for felonies and misdemeanors; out of these I find there were 135 convictions in the Supreme Court, and 110 in the Courts of Quarter Sessions. The commitments being 1 in 83 in proportion to the population, and the convictions 1 in 248. In 1836 again I find the commitments were as 1 in 72 of the population, but the convictions are not stated, there being no Returns from the Courts of Quarter Sessions either for that or the two following

following years. In this year, the free persons were not quite as 2 to 1 to the Bond.

In 1858, with a population of say 325,000, (for the purpose of comparison) we find 813 commitments, that is about 1 in 400 in proportion to the population, and 415 convictions, that is not quite 1 in 800 of the population. So far therefore as these facts go, we have cause for rejoicing, but it is to be regretted that the Criminal Records of the Colony do not furnish data for the proper elucidation of this interesting inquiry, so that we might compare the gradual diminution of crime with the disappearance of the convict element from amongst us.

21. Referring to the Criminal Statistics of Great Britain and Ireland, the following Table will shew the proportion of commitments and convictions to the population in each division of the Mother Country, as compared with New South Wales. Taking the mean of three years, 1854 to 1856, the proportion of commitments in Great Britain and Ireland to the population was 1·32, and the convictions 0·92 per 1,000. In New South Wales, in the year 1858, the proportion of commitments was 2·37, and of convictions 1·21 per 1,000. The mean proportion of convictions to commitments was in Great Britain and Ireland 69·7 per cent.; in New South Wales 51·0 per cent. (*Vide* Table below.)

The Statistics of neighbouring colonies do not afford data for comparison with these results, and I regret that from insufficient data, the inquiry cannot be carried further on the present occasion.

## INSOLVENCIES.

22. As bearing upon the material condition of the population, I Page 96. have introduced a Table of Insolvencies during the year.

The amount of Assets actually realized cannot be given, and therefore the amount of deficiency is merely that shewn in the Insolvents' own statements. The deficiency will probably be nearer half a million than a quarter of a million sterling as stated. It is a matter of regret that

returns

returns for previous years could not be obtained, as they would tend to illustrate the commercial fluctuation and state of trade in the Colony at different periods of its history.

### METEOROLOGY.

Page 98.

23. The Meteorological Tables will have interest, as bearing upon the vital statistics and health of the population, and as serving to illustrate the climatic phenomena of the Colony, at different seasons and in various localities, as compared with each other and with other countries.

### AGRICULTURE.

Defective nature of information owing to mode of collection.

Comparison with previous year.

24. I come now to the returns of Agriculture. As possessing great interest, they are published at greater length than hitherto; each Police District or portion of a Police District comprising a County or Pastoral District being separately given. Great pains have been taken to render the information as perfect as possible, but under the present mode of collection perfect reliance is not to be placed upon it; all that can be said is that as a standard of comparison with former years it may be taken as a fair approximation to the truth, and I trust that the important interests involved in the question of agricultural production in this Colony will induce the Legislature to make some better provision for the collection of accurate data than I have at present at my command. The Decennial Table, page 108, shows an increase of no less than 32,930 acres under crop, as compared with the preceding year. Of this quantity the increase in

Tobacco.

25. It is somewhat remarkable that an article of production like Tobacco, of which there is so large a consumption, protected against foreign competition by an import duty of 2s. per pound, and for the growth of which much of the soil of this country is admirably adapted, should exhibit so fitful and declining a cultivation. In 1851 there were 731 acres in crop, with a produce of 12,530 cwt.; in 1854 there were only 8 acres

\* In order to explain the discrepancy between the "Total No. of Acres in Crop," in the Summary Table, page 107, and the Decennial Table, page 108, it may be proper here to state, that in accordance with former practice the acreage in "Green Food," in "Gardens and Orchards," and in the column headed "All other Crops," amounting in 1858 together to 5,852 acres, has been omitted in the Decennial Table. I am not aware of the reasons for the omission, and it attracted my notice too late to be remedied on the present occasion. My calculations are based on the figures in the Decennial Return, but it is those only contained in the proportional Table of acreage under cultivation (paragraph 31) which are affected, and that not very materially.

acres under crop, with a produce of 260 cwt.; whilst in 1858 there were 56½ acres under crop, with a produce of 715 cwt. This fluctuation in the cultivation of Tobacco shews that it is not always a remunerative crop, and that a protective duty is not an infallible stimulant to native industry.

26. In the case of Vines, on the other hand, it is satisfactory to notice a steady increase in the breadth of land planted, although the manufacture of wine shews great fluctuation, the produce being nearly 50 per cent. less last year than the year before. The following Table will illustrate the progress and fluctuation above noticed during the last five years, viz. :—

Vineyards and Wine.

To assume from these figures that the mean produce of wine during the five years was at the rate of 83 gallons per acre, would be a very unfair deduction; because allowance has to be made in the first place for the immaturity of a very considerable proportion of the acreage under culture; and in the next place for the breadth of vineyard planted for table use, of which no part of the produce is manufactured into wine, together, perhaps, forming nearly one-half the total acreage.

27. In the absence of more full and accurate data, it is impossible to estimate the value of the return per acre, from the cultivation of the grape.

Obstacles to reliable calculations as regards the produce of vines.

This is unfortunate, since there is no more interesting or important branch of Colonial industry, whether considered in a commercial point of view, or in its bearing upon the cause of temperance.

In the Settled Districts there appear to be—

The unproductive is therefore a little over one-fifth of the total acreage planted with vines; but to what extent of vineyard the manufacture of wine is confined the returns do not shew.

The average produce of wine per acre from the Camden Vineyard during the last 18 years, making no allowance for experiments, which

materially diminished the production, has been from 450 to 500 gallons. The average produce of the vineyards of France, which cover about 5,000,000 acres, is estimated at 195 gallons per acre; some Departments producing as low as 50 to 70 gallons per acre, whilst others produce from 400 to 700 gallons. Up to the present time the wine growers of New South Wales have had little encouragement to seek out foreign markets. Indeed, the production has been barely sufficient to meet the Home demand. Some of the Australian wines have, however, obtained an European celebrity, and there is every reason to hope that the cultivation of the grape will form one of the most important and profitable occupations in the country.

Wheat.

28. As so much interest attaches to the question of the production of food, and of our means of supplying the demands of our own population, I feel that I should not dismiss the Returns of Agriculture without entering somewhat into the facts exhibited in the Tables, and attempting to educe from them information that will prove both useful and interesting to the community.

Breadth of land sown and produce compared with 1857.

We have seen that the breadth of land sown in wheat exceed by 5,554 acres that sown in 1857, and the produce is stated at 1,565,532 bushels, being 276,488 bushels in excess of the same year. This is so far satisfactory, but from the results of no single year is it safe to deduce facts that affect so materially the interests of the Colonists. I shall take the quinquennial period, embracing the years 1854 to 1858, and I would direct your attention to the accompanying Table, showing 1stly—The imports of wheat and Flour, the estimated value, and the quantity and rate per head of the population in each of the five years; 2ndly—The Colonial produce of wheat in bushels, the average price per bushel, and the number of bushels, and rate per head; 3rdly—The export of wheat and flour, the estimated value, and the quantity and rate per head.

\* Omitting 268 packages, weight unknown.

Deductions from the table alluded to in the last paragraph.

29. In 1853 the crop of wheat was above the average, being stated at 1,384,541 bushels, or 18½ bushels per acre. The import of flour and bread was also very large, being over 12,540 tons, and the export very small, being only 1,250 tons. The stock of bread-stuffs at the end of 1853 was therefore larger than was required to supply the consumption, and the result is manifested in the larger exports and reduced imports of

of 1854, with which year the Table commences. I shall forbear any lengthy remarks in explanation of the results set before you—the figures will speak for themselves. The average of the five years shews that there was imported, of Wheat, Flour, and Bread, at the rate of £1 5s. 3d. per head of the population, and that the Colonial produce was at the rate of £2 12s. 2d., together £3 17s. 5d. It shews that we exported at the rate of 5s. 5d. per head, which leaves exactly £3 12s. as the rate of consumption of bread-stuffs per head of the population; and it shews that, deducting the value of the Exports, we have expended, on an average, about £300,000 per annum in foreign Corn and Flour, exclusive of Rice and other Grain.

30. The values placed upon Imports and Exports not being *declared* values, but arbitrarily fixed by the Corn and Flour dealers, the data upon which these calculations are based may, perhaps, admit of question; I therefore place before you another Table, shewing the *quantities* imported, produced in the Colony, and exported, for every 100 of the population. For the purposes of this Table, and for greater simplification, I have reduced the Wheat into Flour, at the rate of 45 bushels per ton.

Calculations based upon the Customs values of Imports and Exports by no means reliable.

45 bushels of Wheat to the ton of Flour (2,000 lbs.)

\* Wheat for seed is included in this quantity.

You will observe a wide range in the net quantity for consumption in proportion to the population in each of the 5 years, fluctuating as it does from 6 tons to 18—from 18 to 21—and from 21 to 14; during 1858, the stock seems to have been regulated by the demand, which manifests an indisposition on the part of importers to speculate beyond what was necessary for the supply of the current wants of the community. It is possible that the immense importation of rice may have had some influence upon transactions in wheat—upwards of 31,300 tons were imported during 1858, a quantity far in excess of the requirements of the European or Chinese population.

31. In further elucidation of the Agricultural Statistics, the following Tables will be found interesting; the first gives the proportion of acreage under the principal crops during the last 5 years, and the second, the produce per acre. The latter Table deserves careful attention. It has no unimportant bearing upon the prospects of a large and valuable section of the community who are engaged in, or purpose engaging in,

Quinquennial averages of acreage, and crop of wheat, maize, &c.

Agricultural

Agricultural pursuits. It being seen by the first Table that nearly one-half the land under cultivation, taking the mean of five years, has been sown in wheat, it becomes of importance to shew what has been the average production, so that we may come at the Return to be expected from this description of crop, and compare the results with those of the adjoining Colonies.

We see that the yield has ranged from  $12\frac{1}{2}$  to  $16\frac{1}{2}$  bushels in the five years, the average being a trifle over 15 bushels per acre. The price of wheat ranged from 7s. 4d. up to 16s. 5d. per bushel; the average being 11s. 4d. per bushel. This gives an annual produce of £8 10s. per acre.

But, as this was a period of comparatively high prices, it may be desirable to carry our inquiry further back through a decennial period.

Decennial calculation of wheat produce

From the year 1849 to 1853 the price of wheat ranged between 4s. and 8s. 6d. per bushel; the average of the five years being not quite 6s. per bushel; if, therefore, we take the mean of the ten years, we shall find that the average value of wheat was 8s. 7d. per bushel, which gives £6 8s. 9d. as the average annual return per acre; out of this has to come the cost of seed wheat, and of transport to market, &c., before we can arrive at the remuneration an agriculturist may expect to derive for his labor.

Comparison of wheat produce with other Colonies. Victoria.

32. I do not think it necessary to enter into similar calculations with regard to other descriptions of crop; the figures will speak for themselves and will afford any interested inquirer the means of deducing his own conclusions. It may, however, be interesting to shew the relative produce of wheat per acre in the Australian Colonies. The average of the Colony of Victoria for the three years 1855 to 1857, was estimated at 23 bushels per acre, but in 1858 it was only 20·7 bushels, owing to the severity

severity of the hot winds; this is five to six bushels in excess of the average of this Colony.

In South Australia, the average crop is estimated somewhat below that of New South Wales. The following summary of wheat averages for 1858, shews a mean of 15 bushels per acre, viz. :—

	Acres.
Exceeding 25 bushels per acre and not exceeding 30...	804
Exceeding 20 bushels and not exceeding 25 .....	3,533
Exceeding 15 and not exceeding 20 .....	21,365
Exceeding 10 and not exceeding 15 .....	63,244
Exceeding 5 and not exceeding 10.....	80,175
Under 5 bushels per acre.....	17,909
Total.....	187,030

It is a very remarkable fact, highly illustrative of the spirit of steady industry and perseverance which characterises the inhabitants of that province, that with a lower average produce than any of the other Colonies, she should far outstrip them all in her agricultural resources and enterprise. In proportion to her population, she has more than double the number of acres under cultivation than either New South Wales or Victoria; and, in the year 1856, she exported over 22,000 tons of flour, of the value of nearly half a million sterling, the produce of her own industry.

In Tasmania, the average produce of the years 1857 and 1858 was not quite 19 bushels to the acre; thus, we see that whilst our average produce slightly exceeds that of South Australia, it ranges from 4 to 8 bushels below that of Victoria and Tasmania. When, by Railway extension, facilities of transport are offered to our best wheat growing districts, it is probable we shall find our average produce increased to not very much below that of our Southern neighbours.

33. The maize crop holds a much more important position in the Agricultural Statistics of this Colony, than in any other of the Australian Group, more than 21 per cent of the land cultivated being under this description of crop, and the average produce being over 30 bushels to the acre. The cultivation of the Sorghum Saccharatum, and Imphee, is commending itself to our agriculturists. As a green crop it is stated to be most prolific, and valuable for its fattening qualities; unfortunately, the Returns of this year afford no means of ascertaining the extent to which the cultivation has attained.

LIVE STOCK.

34. No less interesting than the Returns of Agriculture, are those of Live Stock, as perhaps to a greater degree are we dependent for the means of living upon the increase of our flocks and herds, than upon the produce of our cereal crops. How then do we stand in this respect? the decennial Return at page 111 exhibits a decrease of 38,060 cattle, 557,400 sheep, and 16,323 pigs, and this in the face of a largely increasing population of our own, and of a largely increasing demand for the

the supply of meat for the sister Colony of Victoria. I cannot help looking upon this decrease as a question of very serious concernment. We know that within the last 5 years there has been an extraordinary development of pastoral enterprise to the northward, and yet we find at the end of 1858, a decrease of over half a million in the number of sheep in the Colony at the end of 1854.

Obstacles in the way of securing accuracy in the collection of the Returns.

No Returns furnished from the Molong District.

35. As of the Agricultural Returns, so of the Returns of Live Stock, the mode of collection is far from satisfactory; great efforts have been made to render them as accurate as possible; they have been carefully compared with those of the year before, and wherever a decrease or discrepancy appeared, they were returned for explanation or correction. One very serious obstacle to the accurate collection of these Returns is to be found in the feeling of distrust as to the purposes to which the information may be applied. Many proprietors are under the impression that it is wanted for purposes of taxation, and others look upon the inquiry as impertinent. It is most important that the apprehensions of the one class should be allayed, and the ignorance of the other enlightened, but it is doubtful whether the accomplishment of these ends can be secured by the means at present employed. From the District of Molong, no Returns at all were to be obtained, and the Returns of the former year afford no satisfactory means of arriving with accuracy at the amount of stock depastured in that district, although they sufficiently prove that the decrease shewn to exist could not be converted into an increase, even had the Returns from Molong been accurately rendered. I consider it better, therefore, to proceed on the data we are in possession of than to add any imaginary figures of my own to supply the deficiency. The districts in which the Stock has decreased most, are those lying to the West and North; and, in answer to my inquiries, it is stated that the decrease is attributable to losses from drought in some districts, from rain in others, and from a drainage for the Victorian Markets in nearly all. The extent to which this latter cause has operated, will be shewn in a subsequent Return (see page 166), where it is seen that the export of stock of which account was taken, amounted to 469,689 sheep, and 130,384 cattle, and it is probable that stock may have crossed the Murray at places where no account was taken at all.

Live Stock in New South Wales and Victoria united.

36. We will now see how the matter stands, if we unite the Returns of the sister Colony with our own.

In 1857 the Returns shew—

55,683	614,637	4,766,022	43,032

By

By these figures it appears that, with the exception of pigs, there is an increase in the Live Stock depasturing in the United Colonies; but it is an increase utterly inadequate to supply the wants of the community for food. The importance, therefore, of paying attention not only to the breeding but to the fattening of stock, is made amply apparent, and cannot fail to attract notice.

37. The export of Sheep and Cattle from New South Wales to Victoria, in 1857, was set down in the Statistics of Victoria at—Cattle, 102,062; Sheep, 435,226. These figures are not checked by any reckoning on our own side; and a note appended to the return, to the effect that the stock imported "*viâ* Belvoir," during the first three quarters of the year, was not included, shews that it would be unsafe to make any calculations upon them. It is probable that Victoria must look to New South Wales, to supply the deficiency of animal food which the demands of her rapidly increasing population may create; and therefore it behoves us to look to the causes of the decrease in our Live Stock, and to make provision, by more careful breeding and management, to meet not only our own wants, but the growing demands of the sister Colony also.

### POPULATION.

38. The gross population is estimated at 342,062. The Table shews an increase by Births over Deaths, of 7,919; and by Immigration over Emigration, of 25,123, making a total of 33,042, or 10.69 per cent. on the population of the previous year. Of this number 12,004 were Chinese, three-fourths of whom have probably found their way to the Gold Fields of Victoria. This however is a conjectural estimate, as there are no means of ascertaining with accuracy the movement of the population across the River Murray, whether to or from Victoria or South Australia.

and Immigra-  
tion.  
Page 112.

39. The operation of the Act for the Registration of Births, Deaths, and Marriages, has been most successful. The natural increase of the population by Births is by this means accurately recorded, and its sanitary condition and decrease by Deaths clearly established. The facts collected will every year become more interesting, and take their rank amongst the most valuable archives of the Colony. The results of the year's registration are as follows, viz.:—Marriages, 2,992; Births, 13,802; Deaths, 5,883. The detailed Tables published annually render further notice in this Report unnecessary.

Births and  
Deaths.

40. There is one feature in the Immigration Returns worthy of special notice—it is the extraordinary expansion of the voluntary system. You will observe, that whilst 6,916 men, women, and children, were deported at the public expense, no less than 17,823, exclusive of Chinese, came out at their own expense, or at the expense of their friends. This is a striking and gratifying fact. It shews more than anything the beneficial operation of the Remittance Regulations, and the prosperity of the working classes—that they are by their industry enabled, by means of those regulations, to send Home money for the introduction of their friends

friends and relatives. It is proper, however, to add that the excitement caused by the reported Gold discovery on the Fitz Roy River, contributed largely to swell up the numbers.

### IMPORTS AND EXPORTS.

Customs Returns.  
Pages 117 to 162.  
Their value and interest.

41. The Customs Returns occupy a large space in the Volume. They possess great interest, as illustrating the commercial progress of the Colony, and shewing the relative proportion that our Imports bear to our Exports, not only in each year, but in a succession of years. Statistics of Commerce are not only useful and interesting to ourselves, but to every Nation with which we have relations. They shew us the wisdom of our fiscal legislation, as it is only by their means that we can judge of its results. They illustrate the development of our commercial relations with the other Colonies, with the Mother Country, and with Foreign States. They shew us the propriety of the withdrawal or of the enactment of Legislative restrictions upon commercial competition and enterprise, and the effect that either one or the other has upon the course of trade; and if it is allowed that Commerce promotes the advancement of civilization, by facilitating communication between the inhabitants of the different countries of the World, by shewing them how habitually dependent they are on each other for the production and supply of commodities essential to subsistence, to comfort, and to enjoyment, it will be admitted that a periodical investigation into the commercial progress of a country is not one of the least important duties of every enlightened Government.

Statistics of Customs requiring greater care in their preparation.

42. It is to be regretted that returns of so great value, when carefully prepared, should have been kept in the loose, perfunctory, and immethodical manner which has hitherto characterized the Statistics of the Customs Department. Their value is very seriously impaired from another cause, which may not be so easy of rectification. I allude to the stated values of the different articles imported and exported. These values are arbitrarily fixed by the Custom House Agent or Merchant's Clerk, and often without any regard to the real value of the articles and commodities; indeed, were any declaration of their value enforced by law, it is likely that it would be often made without care, and must sometimes, even with great care, be liable to error. It is clear, that under this practice, the *quantities* imported and exported must form the basis for comparison, in preference to the *values*, and in what few remarks I may have to offer on the most prominent features of these returns, I will endeavour to present them in this light. By the use of quinquennial averages, perhaps a nearer approximation to the truth may be obtained than by any separate calculations, and the Decennial Tables which follow the detailed Statements of Imports and Exports, afford a ready means of arriving at the results, so far as the more important articles of Commerce are concerned.

Excess of Imports over Exports.

43. Turning first to the Table at page 117, which is intended to exhibit a general view of the results of our Import and Export trade, the principal features worthy of note, are first,—the excess of Imports from the United Kingdom over our Exports, to the extent of over two millions and

and a-half sterling; second,—the excess of Exports over Imports, (seaward), to the Australian Colonies and New Zealand, to the extent of over one million and a-half; and third,—the excess of our Imports from Foreign Countries over our Exports, to the extent of nearly three-quarters of a million. The general total shews a balance of £1,873,089 against the stated value of the Exports of the year.

It is to be regretted, with reference to the Table of Imports from the Australian Colonies, that the Customs returns do not afford the means of distinguishing each Colony separately, the whole being grouped together under one head. This defect will be remedied by improved arrangements in the method of keeping the records of the present year.

44. The detailed statement of Exports, pages 134 to 150, affords the means wanting in the other. A careful analysis produces the following results, viz. :—

	Colonial.	British, &c.	Totals.
To Victoria .....	£1,024,488	£821,211	£1,845,699
To South Australia .	19,699	4,469	24,168
To Tasmania .....	52,079	46,497	98,576
Totals .....	<u>1,096,266</u>	<u>872,177</u>	<u>1,968,443*</u>

Australian Colonies not separately distinguished.

Exports to the other Australian Colonies separately arrived at.

We thus find that of our own produce we exported to the neighbouring Colonies to the extent of over a million sterling, and of British and Foreign goods to the extent of nearly nine hundred thousand, together very close upon two millions; with the exception of £122,000, the whole of this large trade was carried on with the sister Colony of Victoria.

Perhaps it may be interesting to shew some of the chief items which make up this large Export trade with Victoria. They are as follows, viz. :—

	£
Apparel, Boots, Drapery, &c. ....	97,875
Flour, Grain, and Potatoes .....	85,571
Green Fruits .....	33,725
Butter and Candles .....	36,527
Coals .....	52,693
Gold .....	1,241,419
Hardware, Iron, and Lead .....	22,813
Sugar and Molasses .....	103,049
Tea .....	20,189
Timber .....	22,622
Tobacco .....	16,861
Wine, Spirits, and Beer .....	26,046

It is very much to be regretted that, owing to the defect before mentioned in the Import Returns, we cannot arrive at the balance of trade with each Colony separately. That the aggregate Exports to the Australian Colonies exceeded the Imports from them by more than a million and a-quarter, is satisfactory to know, and we must therewith be content.

45.

\* There is a slight discrepancy between these figures and those in the Table at page 117, for which I am unable to account, amounting to £227.

Deductions from preceding Table. First period (1849 to 1853).

Now what do we gather from these figures? We learn in the first place, that during the five years from 1849 to 1853, we imported goods to the value of nearly twelve millions and a-half sterling, and that we exported goods approaching to the value of thirteen millions and a-half, which leaves a balance of nearly a million in favor of Exports, than which nothing can be more satisfactory. I speak in round numbers for perspicuity's sake—

Second period (1854 to 1858).

the figures we are dealing with being very large. Now let us look at the following five years (1854 to 1859), and we shall see the reverse of the picture. It appears that we imported to the stated value of nearly twenty-nine millions sterling, and that we exported to the value of only eighteen millions and a-half, which leaves an excess of Imports over Exports to the value of ten millions and a-half sterling.

Results of Gold discovery, in the increased Import Trade of second quinquennial period.

46. Secondly, we see the extraordinary results of the discovery of Gold, as they are exemplified in the Imports of the two quinquennial periods. We find that during the latter period the Imports from Great Britain were doubled; from the British Colonies they were quadrupled; from the South Sea Islands, &c., they were doubled; from the United States they were nearly quintupled; and from other Foreign Countries they were trebled. Nothing can so plainly demonstrate the advance in wealth which this Colony has made in the last five years, as the results brought out in the figures before us. Whether wealth so easily and rapidly obtained has been as lavishly expended, or whether these enormous importations evidence a wholesome state of our commercial relations with Great Britain and other countries which contribute to swell up the Total, are questions which would require deeper investigation to determine, but which it is not the purpose of this Report to discuss.

Increase of Export Trade (1854 to 1858).

47. Thirdly, we see in the last five years, an increase in the total value of our Exports to the extent of more than five millions sterling over the Exports of the first quinquennial period.

The

The shipments to Great Britain shew a remarkable falling off, to the value of nearly a million and a half. Whether this is satisfactorily accounted for by the opening of the navigation of the River Murray, by which much of our produce is diverted for shipment at Adelaide, and by the shorter distance and greater facilities offered for the transit of wool and other productions of our southern districts, *viâ* Melbourne, for shipment, must be left to the individual judgment of those who are interested in the question.

Falling off in shipments to Great Britain, and reasons for same.

48. We see in the next column the extraordinary development of our inter-colonial trade, in the increase of shipments to the extent of nearly five millions and three-quarters sterling, to which we may add another quarter of a million for the increase in the South Sea trade; together nine millions or thereabouts; that is to say, our Export Trade with the British Colonies and Islands in the South Seas has trebled itself in the last five years. To the United States a large decrease is observable in the value of the shipments during the latter quinquennial period, viz., from £192,977 to £46,192, whilst to other Foreign States there has been an expansion of our Export Trade from £98,902 in the first period, to £811,491 in the last, which is more particularly noticeable in the last three years of the period. Taking the first period, we find the mean of the five years gives—Imports, 11s. 7d.; Exports, 12s. 7d. per head of the population; and taking the second period, we find the mean of the five years to give—Imports, 19s. 8d.; Exports, 12s. 7d. per head of the population.

49. I am reminded by the quantity of matter still remaining to be noticed, that to enter into a minute analysis of all the Tables connected with the Trade of the Colony, would lead me to transgress the proper limits of a cursory Report of this kind. The small Decennial Returns of Imports and Exports, pages 152 to 156, are continued from former Statistics; they were designed to illustrate, not the entire trade of the Colony but only that in which Foreign is brought into competition with Home produce, for it appears that the Export Returns have been confined to articles or commodities,\* *the produce of the Colony*, that is, to the quantity raised by ourselves, and exported after supplying our own consumption. I give this explanation, as owing to a defect in the heading the public have been misled into striking a balance between the Imports and Exports of grain, butter, and cheese, &c., as they appear in these Tables, as though they expressed the total trade in each commodity; whereas, so far as I have gone through them, the Import Tables give the total imports of the class, whilst the Export Tables, as I have said, are confined to Colonial produce, and do not extend to re-exports of any kind. Beneath each Table will be found a note expressing the estimated value of the total Export, both Colonial and Foreign.

Remarks explanatory of Decennial Tables of Imports and Exports.

50. There is one of these Tables only to which I think it necessary to refer, and that is to the Export of Wool—the most important of the productive resources of this Colony. It is a coincidence not unworthy of note, that the staple product of England during the two first centuries after the Conquest was Wool. Her commerce during that period was almost

Wool. Page 154.

\* The Tables referred to include grain and flour, butter and cheese, live stock, salt provisions, hides, and leather, wool and tallow, timber, coal, oil, and gold.

almost confined to the exportation of this great staple commodity, “upon which, more than any other,” says a great English Historian,\* “in its raw or manufactured state her wealth has been founded.” If there are any figures upon which perfect reliance may be placed, it is upon those which express the annual Export of Wool; and, therefore, looking to the quantities rather than to the values we are afforded a very accurate view of the progress we have made in the production of this great staple commodity.

The following Table presents in quinquennial periods the number of Sheep in each year, and the number of pounds of Wool exported, with the estimated value, which may be left out of the calculation as of no value.

Improvement in sheep evidenced by increased production of Wool.

51. In glancing over these figures the eye at once detects the improvement that has taken place in the breeding of sheep, as exemplified in the increased production of Wool. Without descending to fractional calculations it is seen that the average clip of the first five years was under 2lbs. per sheep, whilst the average of the second quinquennial period is considerably over 2lbs. per sheep, and if we take into the calculation, as we may very properly do, the increased Export of Wool, *viâ* Melbourne and Adelaide, the produce of *New South Wales* flocks, which the proximity and comparative cheapness of transit to those ports have diverted from Sydney, we may, I think, safely calculate the average clip at two pounds and a-quarter to two pounds and a-half of Wool per sheep per annum. I am unable to account for the apparent decrease in the shipments of Wool in 1852. There is no corresponding decrease in the flocks, and, therefore, it must have arisen either from the difficulty of getting the clip down to the ports of shipment—yet, if this were the case, we should observe evidence of it in the increased shipments of the following year, which we do not—or it must arise from a serious falling off in the clip, the effect of a bad season. A similar falling off appears in the Exports of last year as compared with 1857,† which can only be accounted for as previously suggested, *viz.*, by the diversion of large quantities by way of the Rivers Darling and Murray to Adelaide; to the increased shipments *viâ* Melbourne; and, perhaps, in some degree to a deficiency in the clip.

Decrease in 1852 difficult to account for.

Decrease in 1857 accounted for.

			Allowance for decrease of Sheep, 557,400 at 2½ lbs. per head	1,393,500 "
			Total Deficiency	2,096,866 "

52. Looking to the Returns of Live Stock in Victoria, and to the shipment of Wool from Melbourne in 1857, I find the number of sheep stated at 4,641,548, and the Export of Wool at 17,176,920 lbs. Our own Statistics shew 8,139,162 sheep, and an Export of 17,044,201 lbs. A comparison of these figures affords reasonable grounds for supposing not that the clip of Wool in Victoria is nearly double that of New South Wales, but that the causes to which I have attributed the decrease in the Sydney shipments are the right ones, namely, the diversion to other ports of the produce of our Southern Districts for shipment to Europe. The sheep farmers would do well to look into the causes of last year's deficiency, and see if they can detect any other cause than that assigned above, for, if I am wrong, the question is serious, as it involves a loss of not less than £350,000 to the community.

Live Stock compared with shipments of Wool at Sydney and Melbourne respectively.

Necessity for further inquiry into the decrease in the Export of 1858.

53. There is one other point to which I wish to direct attention, before passing on to other subjects of inquiry—I allude to the development of our Export Trade in Wool with the Continent of Europe. Previous to the year 1857, the Statistics of Customs do not distinguish the quantities nor the country to which exported. The values only are given under the general head of "Foreign States." It is only since the year 1855, that any direct trade worthy of notice seems to have sprung up with the Continental States. In 1856, the value of the shipments is stated at £71,764. In 1857 we exported to Holland 362,600 lbs., of the stated value of £27,305, and in 1858 we exported to

which, at 1s. 9d. per lb., would give £99,861.

### SHIPPING.

54. As in some degree corroborative, or corrective of the Returns of Imports and Exports, the Returns of Shipping Inwards and Outwards are worthy of passing notice, and for the purpose of comparison I will take them in the quinquennial form adopted in the former case.

Deductions  
from preced-  
ing Table.

55. These figures, in the main, bear out the deductions drawn from the Returns of Imports and Exports. You will observe a proportional increase in the last over the first five years in the Shipping Inwards from Great Britain, from the British Colonies, and from Foreign States, but not from the South Seas or United States, for which I shall by-and-by try to account.

You will further observe, with regard to the Shipping Outwards, that whilst a decrease of nearly a million and a half in value was exhibited in the Exports to Great Britain during the last quinquennial period, there is an increase in the Shipping Outwards of over 11,000 tons. The cause of this discrepancy is obvious. The Imports (as has been previously shewn) having exceeded the Exports from Great Britain by more than double, a large number of ships were unable to obtain homeward cargoes, and cleared out in ballast, as may be seen by reference to the Tables at pages 159 and 160.

Development  
of Colonial  
Trade.

56. The development of our commercial relations with the Colonies is equally exemplified in the Shipping Returns as we have seen it in the Returns of Imports and Exports, the tonnage employed being nearly trebled in the last five years, whilst with Foreign States the tonnage employed has been doubled.

for decrease in  
outward trade

Seas and Uni-  
ted States.  
Decline in the

57. The decrease observable in the outward tonnage employed in the trade with the South Seas and the United States is clearly owing to a falling off in the Whale Fishery; this will at once be seen by a reference to the return of Fisheries, at page 162, which exhibits a decrease of 3,329 tuns of oil, of the stated value of £76,577, during the last, as compared with the first quinquennial period.

### OVERLAND TRAFFIC.

59. The Returns of the Overland Traffic between this Colony and <sup>With Victoria.</sup> Victoria *viâ* Albury, are given for the first time. The Tables will be found in detail, at pages 163 to 166.

The total Exports are valued at £574,550  
against Imports 349,951

Balance in favor of Exports ... £224,599

These figures refer only to the Goods and Live Stock crossing the River Murray at Belvoir and Albury; they have been taken from the Customs Returns of Victoria, and they are all, I have succeeded in collecting, to illustrate the overland trade between the two Colonies.

60. The Imports and Exports of Live Stock from and to Victoria, <sup>Trade in Live Stock, Victoria.</sup> at other crossing places than Albury and Belvoir, are not given in the detailed Statements, but will be found in the smaller Tables, page 166. You will there see that we sent over the Murray to Victoria, at the places named, viz. :—

Horses.	Cattle.	Sheep.	Pigs.	
5,953	128,851	439,185	2,037	Exports.
577	6,122	7,850	.....	Imports.
<u>5,376</u>	<u>122,729</u>	<u>431,335</u>	<u>2,037</u>	Net Exports.

If we value the Horses at £20 per head, they will produce £107,520  
the Cattle at £6            ,,   ...   ...   ...   736,374  
the Sheep at 15s.         ,,   ...   ...   ...   323,501  
and the Pigs at 40s.       ,,   ...   ...   ...   4,074

we thus arrive at            ...   ...   ...   1,171,469

and if we calculate the Live Stock sent to South  
Australia at the same rates, we shall find a  
further sum of...   ...   ...   ...   ...   48,316

making a total of            ...   ...   ...   £1,219,785

South Aus-  
tralia.

on the Export of Stock during the year. It is quite possible that Stock has crossed the Borders at places where no records have been kept, and considering the great extent of our frontier, and the want of proper officers

officers to collect the information, it is more than probable that a considerable number has escaped detection.

Trade with  
Adelaide *via*  
the Murray  
and Darling.

61. As regards the trade with Adelaide *via* the Murray and Darling, I have had no means of collecting information. That there have been large supplies obtained *via* these rivers for the stations on their banks, and that a considerable quantity of Wool has gone down by the same route, is a matter of notoriety.

The opening up of water communication within the Territory of New South Wales, to the extent of over 2,000 miles, by way of the Murray and Murrumbidgee, and to the extent of over 1,000 miles up the courses of the Edward and Darling Rivers, forms one of the most notable features in her history, and is pregnant with the most important results. The whole valley of the Darling, from Fort Bourke downwards, is now partially occupied with stock, and we may look for a large development of our pastoral resources from the facilities of communication that the navigation of this river promises to afford.

### PUBLIC WORKS.

Pages 167 to  
175.

62. The Returns of Public Works, Local Revenues, Roads Trusts, Defences, &c., require few remarks for their elucidation.

The first of these Returns has been classified under distinct heads, such as Railways, Roads, Bridges, Harbours, Buildings, &c., for more easy reference.

Return of  
Public Works  
very defective

This Return is prepared upon the same plan as formerly; but it is defective, inasmuch as it does not shew the actual expenditure during the year. It is, moreover, capable of improvement in other respects, but I have found it impossible to introduce the necessary amendments on the present occasion from insufficiency of data.

It appears by the Auditor General's Statement, that there was expended on "Loans Account" for Sewerage and Water Works connected with the City of Sydney, a sum of ... .. £73,988

Railways ... .. \*137,484

Miscellaneous Works ... .. 98,502

£309,974

And on account of "Consolidated Revenue,"—

On Public Works and Bridges ... .. £43,452

Roads and Bridges ... .. 76,024

£119,476

Making a Total of ... .. £429,450

expended during the year.

Local Rev-  
enues.

Under the head of "Local Revenues" are included Statements of Receipts and Disbursements of the Municipality of Sydney, the City Sewerage and Water Funds being separately distinguished—together with a Return of Receipts and Disbursements of the several Roads Trusts in the

Roads Trusts.

The Returns of Military Expenditure, Imperial and Colonial, and of our means of Defence (page 175), do not seem to call for any special notice at the present time.

Military Expenditure, &c. Page 174.

The total charge on the Colony for Military Services is put down at .....	£29,888	3	6
Naval .....	3,040	12	11
Together.....	£32,928	16	5

But in this charge is included—

“ Railway Survey” .....	£3,447	14	5
“ Mint,” Pay and Allowances .....	2,281	18	1
Governor General’s Orderlies, and Military Guard, Cockatoo .....	386	9	1
	£6,116	1	7

A sum that it seems hardly fair to charge under the head of “ Military” Expenditure.

REVENUE AND EXPENDITURE.

63. It is unnecessary that I should advert at any length to the Returns of Revenue and Expenditure, they are condensed from the annual Statements of the Auditor General, presented to Parliament. In order to avoid swelling this Report to an inconvenient size, the causes of increase or decrease are appended as notes to the comparative statements.

It will be seen that the ordinary Revenue of 1858, exceeded that of the previous year by £211,424, viz. :—

Increase in ordinary Revenue.

1857 .....	£1,156,965
1858 .....	1,368,389

In the Comparative Statement the principal increase will be found under the head of—

Customs .....	£24,193
Gold and Mint Receipts .....	21,041
Land Revenue .....	128,589
Railways, Tolls, and Electric Telegraph .....	57,095

The increase in the Customs Revenue is 4.53 per cent, whilst the increase in the estimated population is 10.69 per cent. But deducting 17,000, or 5.5 per cent., from the increase of population for Chinese left the Colony, and for infants not consumers of dutiable commodities, the comparison will stand thus, viz. :—

Comparative increase of Customs Revenue and population.

	Per Cent.
Estimated Increase of Population .....	10.69
less Chinese and Infants.....	5.5
	5.64
Increase in Customs Revenue...	4.53
	1.11*

The

\* No alteration having been made in the Tariff, the effect of the depression amongst the industrial population is here plainly discernible, as we have seen it equally evidenced in the reduced deposits in the Savings Bank. There are no surer indications of the prosperity or otherwise of the laboring classes than those which are exhibited in the diminished or increased consumption of dutiable commodities, and by the rate of deposits in the Savings Bank.

Increase  
in Land  
Revenue.

The increase in the Land Revenue is particularly noticeable; it has been derived chiefly from increase in—

Land Sales .....	£30,300
In Rents .....	9,192
And from the operation of the new Assessment on Runs Act (22 Vic- toria, No. 17) .....	87,858

I believe that that the large sum of £55,339 which appears as increase under the head of "Railway Tolls," is assignable, not to largely increased receipts over the previous year, but to a change in the mode of rendering the accounts.

Causes of  
Decrease.

The principal decrease is observable on the duty on—

Colonial Spirits .....	£12,522
And Assessment on Stock, owing to the expiry of the Act (20th Victoria, 39) .....	30,911

Financial  
Prosperity.

64. The Consolidated Revenue Fund on the 31st December, 1858, shews a balance to credit of £233,550 against £55,888 to credit at the end of 1857. This must be taken as satisfactory evidence of the financial prosperity of the Colony.

It appears that under the provisions of the new Assessment on Runs Act a sum of £87,858 was raised during the year, and that by the expiry of the old Assessment on Stock Act there was a decrease of £30,911. By this change there accrues to the Consolidated Revenue a gain of £56,947.

Proceeds of  
Debentures  
brought to  
credit of Re-  
venue in 1857  
as compared  
with 1858.

Amongst the miscellaneous receipts in the Comparative Statement will be noticed the large sums placed to the credit of the Revenue in 1857 from the sale of Debentures, amounting in the whole to £345,055, whilst in the following year a total sum of £76,776, including £40,600 Treasury Bills, only was brought to credit from this source. I merely notice this to account for the large balance which the general totals at the foot of the statement shew against the increase already noticed, but which cannot be taken into account as ordinary Revenue.

Expenditure.  
Pages 188 to  
189.

65. With regard to the Expenditure of the year, the Comparative Statement shews an increase of £28,034 on that of the year before, viz. :—

1857.....	£1,543,328	14	4
1858.....	1,571,363	0	6

Causes of  
increase.

The causes of increase, or of decrease, are given as notes to the Statement, and of the increase just noticed the following form the chief items, viz. :—

* Civil Establishments.....	£18,567
Police.....	49,671
Railways .....	51,467
Public Works, Roads, &c. ....	29,322
Surveys .....	16,329
Drawbacks .....	11,887
Miscellaneous .....	8,266

The

The chief items of decrease are found in the—

Causes of decrease.

Naval and Military Allowances .....	£13,296
Interest on Loans .....	31,390
Debentures paid off .....	5,800
Immigration .....	49,571
Loan Services .....	77,562

### PUBLIC DEBT.

66. The state of the Public Debt will be found fully set forth in Pages 190 and 191. the Auditor General's Statement, which closes the volume.

It appears, that, on the 1st January, 1858, the

Debt amounted to .....	£2,306,150
that we paid off during the year .....	50,000
	2,256,150
Leaving .....	2,256,150
that we incurred a new Debt of .....	540,940
	2,797,090

which leaves a total Debt, on 31st December, 1858, of £2,797,090

### CONCLUSION.

67. Although this Report has extended beyond the limits originally contemplated, the subjects suggested for consideration are far from exhausted; I leave them, however, for the individual study of those who may wish to pursue the inquiry. Statistics important as a guide to Legislation. Statistics when carefully collected and collated are replete with interest and utility. As with the merchant so with a nation, a periodical investigation into the state of the national ledger is not only interesting, but essential to the right understanding of the state and progress of the public interests, and, I trust, that the insight which this cursory review has afforded us, into the condition of our national resources, will be productive of this advantage at least, that we shall no longer look upon the social facts collected as a barren array of figures, put together without order, meaning, or utility, but that it will lead to a more careful study of them, and by this means direct us in our endeavors to promote the public good.

68. That there is much room for improvement I am free to admit, and I trust, for the mutual benefit of these Colonies, that with the hearty Co-operation of Victoria and other Colonies in the work of Statistical uniformity very essential. co-operation of the Registrar General of Victoria, of which I am assured, we may be able to produce a better systematization of those great social facts which in the aggregate form the truest, if not the only reliable evidence of the physical, moral, and industrial progress of a country.

69. Negotiations are already on foot for an uniform enumeration of Simultaneous Census of the Australian Colonies. the people in the whole of the Australian Colonies, to correspond with the period of the great Decennial Census of Great Britain and Ireland; and I trust the other Colonies, and also New Zealand, will cordially unite with Mr. Archer and myself in this important work, by means of which a multitude of prejudices may be dissipated, and the federal interests of the whole Australian Group may be very materially promoted.

Statistical  
view of the  
Colony from  
1821 to 1858.

70. In order to place before you a complete view of the Colony's progress from the earliest period to which the official records extend, I append a Table exhibiting at one glance the progressive development of the most important of her resources. It embraces a period of thirty-seven years, commencing with the year 1821; and it may safely be affirmed, that if any person at that day had ventured to predict the extraordinary advance in wealth and population of which the Table exhibits such convincing proof, and of which the short history of the sister Colony of Victoria (the offspring of this development) forms a still more remarkable illustration, he would have been looked upon as a dreamer or a lunatic; but if we read the history aright, we shall hope for the future by what we know of the past; and not confining our views to the exigencies of the day, or to the restricted wants of our comparatively small community, but extending them into the future, we shall endeavor to minister to the advancement of the national industry, the elevation of the national character, and to the promotion of the federative union and prosperity of the Anglo-Australian people. Adam Smith says, that plenty of good land, and liberty to manage their own affairs in their own way, are the chief elements of Colonial prosperity. If he is right, Australia ought surely in her onward progress to exhibit a development, that even the history of the western world will not be able to outvie.

With refer-  
ence to the  
earlier pre-  
paration of  
the Statistics,  
and the obsta-  
cles thereto.

71. Having been desired to try whether the annual Statistics could not be prepared at an earlier period of the year than had been customary, it is right that I should say a word or two on this head: I see only one reason against their being ready by the middle of the year at latest, but the obstacles are beyond my control; I allude to the difficulties and delays which are experienced in getting in the Returns, and to the subsequent references and correspondence relating to them. If these obstructions were overcome, the compilation might certainly be expedited by two months. With reference to the present occasion, it must not be forgotten, that on the transference of the duty to my hands the services of the Chief Statistical Clerk were dispensed with, and that the volume has been prepared with one clerk, at a cost of £230, in the place of two clerks at a cost of £780, being a saving of £550, exclusive of the printing.

I have the honor to be,

Sir,

Your most obedient Servant,

CHRIS. ROLLESTON,

Registrar General.

The adopted mean Temperature is the mean of the Maximum, Minimum, 9 A.M. and 9 P.M., results.								
The mean height of Barometer is the mean of the 9 A.M., 3 P.M., and 9 P.M. results.								
The mean pressure of vapour is deduced from the readings of the wet and dry bulb Thermometers at 9 A.M., 3 P.M., and 9 P.M.								
The resultant direction of the wind is obtained as follows:— The direction and force are registered three times a day, the force being represented by numbers, according to the Observer's judgment, from 0 to 6; the resultant force and direction are then determined on the principle of the resolution of mechanical forces.

The Decrease is chiefly in the sub-head of Preparation and Enrolment of Title Deeds.

{ Increase—The Southern and Northern Lines were extended, in 1858, to Campbelltown and Maitland respectively.

{ Opened as far as Parramatta on 29 Jan., 1858; Campbelltown, 17 May, 1858; Albury, 29 Oct., 1858.

{ The Act authorising an Assessment on Stock expired on 31st Dec., 1857; the amount collected in 1858 was merely arrears of 1857.

The sums received under these heads of Revenue are necessarily fluctuating in amount. In the present instance more than half the increase in Reimbursements arises from accrued interest on Debentures at time of issue.

Brought forward .. .. .	1,135,303 5 0	.....	1,337,372 0 8	246,141 8 0	44,672 12 4	Increase caused by the continued prosperity of the country during this and previous years, enabling the working classes to send home for their friends, and those thus brought extending to others the assistance afforded to themselves.  The Act of Parliament 25 Vic. No. 4, imposing increased rates on the Shipping, came into force on the 21st July, 1858.  These Dues for improving the Navigation of the Hunter River were first collected 1st Jan., 1858, by virtue of 19 Victoria, No. 35, and 20 Victoria, No. 12.  The proceeds of penalties imposed being the main support of this Fund, the Receipts must necessarily be fluctuating.  Fluctuations in the numbers in the Police Force.  The Assessments received in 1858 are merely arrears of 1857, the Act, 19 Vict., No. 27, having expired on 31 Dec., 1857.  Debentures are issued according to the exigencies of the service for which Loans have been authorised to be raised.  Treasury Bills issued for the first time 1st March, 1858, to be current for one year only.  Stated by the Agent to arise from sums due, not paid within the year.
