10. The Governor's Opening Speech :—The Speaker reported that the House had this day attended the Governor in the Legislative Council Chamber, when His Excellency was pleased to deliver an Opening Speech to both Houses of Parliament, of which, for greater accuracy, he had obtained a copy, which he then read to the House, as follows :—

HONORABLE GENTLEMEN OF THE LEGISLATIVE COUNCIL,
AND GENTLEMEN OF THE LEGISLATIVE ASSEMBLY,—

1. The period having arrived which is admitted to be the most convenient for transacting the public business, I have called you together for the discharge of the important duties with which you are intrusted.

2. It affords me great satisfaction again to meet you in Parliament, and to have the opportunity of recurring to your assistance and advice.

3. The Marriage of His Royal Highness the Prince of Wales with the Princess Alexandra of Denmark, which was solemnized in St. George's Chapel, Windsor, on the 10th March last, must be regarded as an alliance of deep interest to all classes of Her Majesty's subjects. The general enthusiasm with which this auspicious event was commemorated throughout the Colony, is a gratifying proof of the loyalty which pervades the community, and of their dutiful attachment to Her Majesty and the Royal Family.

4. When Parliament was prorogued in December last, serious apprehensions were entertained regarding a drought; but, through the goodness of Divine Providence in the early part of the year, the dry weather which had for some months afflicted the Colony was broken up by seasonable rains. In consequence of the failure in the crops, and the distress thereby occasioned to large numbers of industrious families, it was considered necessary to make advances of seed wheat and oats to small farmers in several districts. The favourable change which has taken place will, I trust, enable these parties to repay the advances made to them, and to continue in the homes from which they would otherwise have been driven.

5. Urgent representations have been made from time to time as to the necessity for holding Circuit Courts in the more remote districts. The subject is one deserving of anxious consideration, and I recommend it to your earliest attention.

6. The operation of the District Courts has been eminently successful, so far as their jurisdiction extends. A Bill will be submitted to you for supplying some omissions which have been found to exist in the provisions of the Act under which they were established.

7. The incorporation of Municipalities is proceeding steadily, and in nearly all the more populous localities they are now established. Independently of the great local advantages of these Institutions, and their value in creating a spirit of self-reliance, it is hoped that, at no distant period, the labours of the Central Government will be lessened, and the burdens of the General Revenue lightened, by their further adoption.

8. I am glad to be enabled to state that various public works, for which the liberality of Parliament has provided, have been completed, or are progressing satisfactorily. Among the more important of these are the Telegraph and Railway extensions. The former now embraces within its circuit nearly every considerable centre of population, and places them in communication with the Metropolis, with each other, and with the Colonies of South Australia, Victoria, and Queensland, affording at the same time a net revenue, over working expenses, sufficient to pay the interest on the debt created for its construction, and to make provision for renewal and repairs. The working lines of Railways have now reached the several points to which contracts were taken by Messrs. Peto, Brassey, and Co. In addition to the facilities thus afforded for the speedy and safe transmission of passengers and goods to and from the interior, there is reason to believe that, under judicious management, the burden of the railway debt may be considerably alleviated by the results of working these lines. Contracts have also been entered into for about one hundred miles of the extensions authorized during the last Session of Parliament, and fresh tenders are being called for as fast as the necessary preparations will permit.

GENTLEMEN

GENTLEMEN OF THE LEGISLATIVE ASSEMBLY,—

9. The Estimates for the ensuing year will be laid before you on an early day. An Additional Estimate for the year 1862, and a Supplementary Estimate for the year 1863, will also be submitted.

10. I have much pleasure in informing you that, notwithstanding some unfavourable circumstances, the Revenue from the Customs for the past year exceeded the sum realized during the year preceding. The estimated amount for the present year will also, I hope, be nearly if not quite realized. The reduction in the Gold duty, as well as the falling off in the yield from the Gold Fields, will cause a deficiency in the Revenue hitherto derived from those sources, and it seems probable that the Land Revenue will fall short of the amount expected. Full and accurate information upon these heads will be given at the earliest possible period.

11. The Debentures of this Colony realize, in the English and Colonial Markets, higher rates than at any former period.

HONORABLE GENTLEMEN OF THE LEGISLATIVE COUNCIL,
AND GENTLEMEN OF THE LEGISLATIVE ASSEMBLY,—

12. The proceedings of the Representatives of the various Australian Colonies, who assembled in Melbourne in March and April last, to consider the question of a Uniform Tariff, will be laid before you, as well as the Correspondence which has since passed between the Governments of New South Wales and Victoria, on the subject of the Border Customs Duties.

13. Her Majesty's Government has promptly complied with an application, which I made in behalf of the Colony, for a Man-of-War to be stationed in the Harbour as a Block-ship. The Despatch of His Grace the Duke of Newcastle upon the subject will be communicated to you, and you will be invited to express your views in reference to the proposals of the Imperial authorities.

14. Additional correspondence, which has taken place with the Agent of the Colony, respecting the establishment of a fortnightly Postal Service by way of Panama, will also be laid before you. In the event of Parliament still desiring the establishment of this service, the Act 22 Vic., No. 15, will require to be amended.

15. The labours of the Commissioners for the adequate representation of this Colony at the Exhibition of the Industry of all Nations, held last year in London, having now terminated, I have much gratification in recording the high sense which I entertain of their zealous and disinterested exertions, which have resulted in placing the Colony in a high position amongst the competing industries of the World.

16. Measures calculated to effect social and legal improvements, some of which have already been before Parliament, will be brought under your consideration as the state of the public business will permit.

17. I pray that the Divine favour may be vouchsafed to you in all your deliberations, and lead you to the adoption of measures conducive to the welfare and happiness of the people of New South Wales.

Mr. Cunneen then moved, and Mr. Burdekin seconded the motion,—

(1.) That a Select Committee be appointed to prepare an Address in reply to the Speech delivered by His Excellency the Governor-in-Chief on opening this Session of the Parliament of New South Wales.

(2.) That such Committee consist of the following members, viz. :—Mr. Cunneen, Mr. Burdekin, Mr. Caldwell, Mr. Darvall, Mr. Gordon, Mr. Hart, Mr. Lackey, and Mr. Robertson.

Question put and passed.

And the Committee retired to prepare the Address.

And Mr. Cunneen having brought up the Address prepared by the Committee, the same was read by the Clerk, by direction of the Speaker, as follows:—

“ *To His Excellency the Right Honorable SIR JOHN YOUNG, Baronet, Knight
“ Commander of the Most Honorable Order of the Bath, Knight Grand Cross
“ of the Most Distinguished Order of St. Michael and St. George, Captain
“ General and Governor-in-Chief of the Colony of New South Wales, and Vice-
“ Admiral of the same.*

“ MAY IT PLEASE YOUR EXCELLENCY,—

“ We, Her Majesty's loyal and dutiful Subjects, the Members of the
“ Legislative Assembly of New South Wales, in Parliament assembled, desire to
“ express to Your Excellency our affection and loyalty to the Person and Govern-
“ ment of our Most Gracious Sovereign; and to offer our respectful thanks for
“ Your Excellency's Speech.

“ 1. We cordially agree with your Excellency that the Marriage of His
“ Royal Highness the Prince of Wales with the Princess Alexandra of Denmark
“ must be regarded as an alliance of deep interest to all classes of Her Majesty's
“ subjects, and that the general enthusiasm with which this auspicious event was
“ commemorated throughout the Colony is a gratifying proof of the loyalty which
“ pervades the community, and of their dutiful attachment to Her Majesty and
“ the Royal Family.

" 2. We are grateful to Divine Providence, through whose goodness the drought, which for some months afflicted the Colony, has been broken up by seasonable rains; and we trust that the favorable change which has taken place will prevent the distress and ruin which would otherwise have been occasioned to a large number of industrious families.

" 3. We agree with Your Excellency that the subject of making provision for holding Circuit Courts, in the more remote Districts of the Colony, is deserving of early attention. We are also glad to hear that the operation of the District Courts has been beneficial and we shall be prepared to give our best consideration to the Bill for amending the Act under which they were established, in order to secure their more complete efficiency.

" 4. It affords us much satisfaction to be informed that the Incorporation of Municipalities is proceeding steadily, and we believe that their further adoption will be attended with beneficial results to the Colony.

" 5. We are glad to learn that the construction of Telegraph lines and Railways is progressing.

" 6. We shall be prepared to give our best consideration to the Estimates of the Public Expenditure when submitted to us. We hope that the anticipated deficiency, in some sources of the Public Revenue, will only be temporary, and will not, to any serious extent, affect the general condition of the Finances. We hear with satisfaction that the Debentures of the Colony now realize higher rates than at any former period.

" 7. The documents with reference to the question of a uniform Tariff and the Customs Duties shall receive our best consideration.

" 8. The prompt compliance of Her Majesty's Government with the application which Your Excellency made, on behalf of the Colony, for a Man-of-War, to be stationed in the Harbour as a Block-ship, merits our grateful acknowledgment. Our earliest attention shall be given to the proposals contained in the Correspondence on that subject.

" 9. The additional Correspondence respecting a Fortnightly Postal Service by way of Panama, shall also receive our best consideration.

" 10. We join with your Excellency in acknowledging the zealous exertions of the Commissioners of New South Wales in the recent representation of this Colony in the Exhibition of the Industry of all Nations by which the Colony was placed in so high a position amongst its competitors.

" 11. We will give our best consideration to such measures as may be brought before us to effect social and legal improvements, and we unite with your Excellency in the expression of a desire that the Divine favour may be vouchsafed to us in all our deliberations, and lead us to the adoption of measures conducive to the welfare and happiness of the people of New South Wales."

Mr. Cunneen then moved, and Mr. Burdekin seconded the Motion,—That the Address, in reply to the Governor-in-Chief's Opening Speech, as read by the Clerk, be now adopted by this House.

Debate ensued.

Question put and passed.

VOTES AND PROCEEDINGS

OF THE

LEGISLATIVE ASSEMBLY.

FRIDAY, 26 JUNE, 1863.

1. The House met pursuant to adjournment; The Speaker took the Chair.
 Vacant Seat:—(*Question of Privilege—Correction of Error*):—The Speaker, referring to the Resolution of the House, arrived at on the motion of Mr. W. Forster, and inserted as Entry 4 in the Votes and Proceedings of Wednesday last, declaring the Seat of Clark Irving, Esquire, to be vacant, drew the attention of the House to the fact that, in that Resolution the Electorate for which Mr. Irving had served was erroneously described as "Clarence River," instead of "The Clarence."—
 Mr. W. Forster moved, That the Seat of Clark Irving, Esquire, held by him as Member for the Electoral District of The Clarence, hath become, and is now, vacant, by reason of Clark Irving, Esquire, having absented himself from this House during an entire Session, without permission of the Assembly, entered upon its Journals.
 Question put and passed.
2. Questions from Notice Paper for to-day:—
 - (1.) Expense of Government Advertisements in Newspapers:—Mr. Lucas asked the Colonial Treasurer, pursuant to Notice No. 1,—When the Return for the last six months relative to the expense of advertising Public Business in the various Newspapers throughout the Colony, which was ordered on the 7th of October last, will be laid on the Table of this House?
 Mr. Smart answered:—In answer to the Honorable Member's question, I beg to inform the House that I hope to be able to lay the Return on the Table of the House on Tuesday or Wednesday next.
 - (2.) Police:—Mr. Sadleir asked the Colonial Secretary, pursuant to Notice No. 2,—Is it the intention of the Government to amend the present Police Act, and to re-organize the Police Force, this Session?
 Mr. Cowper answered:—I beg to state I do not consider that the necessity for an amendment of the Police Act has yet been proved; but should further information and experience, after due consideration, shew that the system requires modification, or that the regulations are faulty, the Government will adopt such steps as may seem necessary to secure the efficient working of the Police.
 - (3.) Prison Management:—Mr. Sadleir asked the Colonial Secretary, pursuant to Notice No. 3,—Is it the intention of the Government, this Session, to introduce a comprehensive system of Prison Management, with a view to the reformation as well as the punishment of the Criminal?
 Mr. Cowper answered:—I hope to be in a position to make a proposal to the House during this Session upon the important subject referred to in the Honorable Members question. Considerable improvements have been introduced as regards the management of our prisons and penal establishments during the last three years; but antecedent to any comprehensive system of prison management must be the erection of suitable buildings, and one of the first questions to be decided is as to the best site for this purpose. This subject, involving as it does—in taking a wide view of the whole question—many collateral considerations, would, I am inclined to think, be a proper matter for inquiry by a Select Committee. In determining this question, the site of the buildings for a Juvenile Reformatory could be determined, and perhaps also the site for suitable buildings for the Asylum for the Destitute, Infirm, and Aged. The best mode of collecting proper information

mation by which to determine this, would be an inquiry by a Select Committee, for which I shall be prepared to move on an early day. Not only has the management of gaols been much improved, but the prison accommodation has been increased, and some progress made in the classification of criminals, since the Select Committee sat to investigate the subject in the year 1861.

(4.) Bridges over River Hunter :—Mr. Dangar asked the Secretary for Public Works, pursuant to Notice No. 4,—

(1.) If it is true that a contract has been entered into for the erection of a Bridge over the River Hunter, at Pitnaecree, without the consent of Parliament or money voted for its erection?

(2.) What is the sum agreed upon for its erection, and has the contract been signed?

(3.) Do the Government intend to erect a Bridge over the Hunter at the Falls, or any place in West Maitland, for the money voted, and when?

(4.) By whose authority has the sum of money voted for the erection of the Pitnaecree Bridge been transferred?

Mr. Arnold answered :—Mr. Speaker, a Contract has been made for the erection of an Iron Bridge over the Hunter River at Pitnaecree, for the sum of £8,233. A sum of £6,000 was voted in 1862, for a Bridge over the Hunter at West Maitland; but it has been found that more than double that amount would be required for a suitable Bridge at the site first intended, which is distant about two miles from Pitnaecree, where a peculiarly eligible site has been found. Under these circumstances, and considering the importance of providing an uninterrupted communication with the Railway Junction Station on the Pitnaecree Road, the Executive Council have authorized the expenditure of the £6,000 voted at Pitnaecree, and the anticipation of the balance required, for which a vote will be proposed to the House. Parliament will also be invited to sanction the erection of a Bridge at the Falls, for which plans have been already prepared.

(5.) Juvenile Reformatories :—Mr. Lucas asked the Colonial Secretary, pursuant to Notice No. 5,—What steps, if any, have been taken towards the establishment of Juvenile Reformatories, for which £20,000 was voted the Sessions before last?

Mr. Cowper answered :—My reply to this question has been somewhat anticipated in the answer given to a former one put to me by the Honorable Member for the Hunter. Having failed in my attempts to obtain any Government premises, or to purchase suitable buildings already erected, and feeling the difficulty and responsibility of choosing such a site as would meet with the general concurrence of the House, I am disposed to consider the first step should be to obtain the sanction of the Assembly to a site where buildings upon a well considered plan shall be built. The amount voted would clearly not be sufficient, and a Select Committee would be able to ascertain and report upon these points. Wherever this and other similar buildings are placed, several hundred acres of good land should be available—and this is a matter of serious consideration. The Vote was obtained hastily under an impression that suitable premises could be immediately obtained by purchase.

(6.) Renewal of Pastoral Leases and Licenses :—Mr. Lord asked the Secretary for Lands, pursuant to Notice No. 6,—Whether, in the Leases or License to be granted to the Pastoral Tenants of the Crown under the present Land Act, after the year 1866, the right of renewal is included?

Mr. Robertson answered :—The question of the Honorable Member appears to me to travel beyond the limits usually assigned to Parliamentary questions, inasmuch as the answer to it involves matter of opinion as to what would be the action of the Government under the present Land Act in 1866. The term of renewal of old leases, as well as the term of leases for new lands, appears to me, however, so far as a matter of right is concerned, under the Crown Lands Occupation Act of 1861, to depend on whether or not the holder of the run makes such improvements as will increase the pastoral capability of the run by one half; in that case the renewal, I presume, can be for ten years, otherwise for five years only. No great cause of fear as to further renewals of leases I apprehend need exist, seeing that under the Crown Lands Alienation Act of 1861, no future leases will prevent immediate sale of land, either conditionally or otherwise, therefore the only change likely to be necessary at the expiration of the leases would seem to be a re-adjustment of the rentals to the altered value of the holdings.

(Mr. W. Forster withdrew the Question standing in his name, No. 7.)

(7.) Queensland Debt Act :—Mr. W. Forster asked the Colonial Treasurer, pursuant to Notice No. 8,—What steps have been taken by the Government towards carrying out the "Queensland Debt Act of 1862"?

Mr. Cowper answered :—That question I may be allowed to answer, as my honorable friend the Colonial Treasurer has so recently come into office. Since the Act upon this subject was passed by this Parliament, the Queensland Parliament has not been in Session except for a brief period, but I have been in private, or rather semi-official, communication with the Colonial Secretary of Queensland upon the subject. I suggested that, as a primary step, the Parliament of Queensland should be invited to introduce a clause similar to the 10th clause in our Act—Honorable Members will remember that that has reference to the claim of holders of Debentures upon both Governments—the Queensland Act omitted that clause. The recent dissolution of Parliament in that Colony has, probably, prevented the Government there from bringing the subject forward; but I shall, without delay, make

make an official application upon that subject. From what I understand to be the feeling of the Government and Parliament there, there does not seem to be much prospect of the introduction of such a clause, and I anticipate that the matter will eventually have to be referred to the Imperial Government for decision.

(8.) Curator of Museum:—Mr. W. Forster asked the Colonial Secretary, pursuant to notice No. 9,—What steps have been taken by the Government towards filling the vacancy of the Office of Curator of the Museum?

Mr. Cowper answered:—No steps have been taken by the Government to fill the office. It has not been considered that any great inconvenience would arise from temporary delay, as the duties to be performed cannot be very large or important until the additions to the building are completed. I also have it under consideration to submit a Bill to amend the Act of Incorporation to determine the question of the right of appointment.

(*Mr. Dangar withdrew the Questions standing in his name Nos. 10 and 11.*)

3. Papers:—Mr. Cowper laid upon the Table the undermentioned Papers:—

(1.) Further Return to Address in reference to "Classification of the Expenditure of Public Money," adopted by this House, on motion of Mr. Dickson, on 7 February, 1860.

(2.) Return to Address in reference to "Magistrates Superseded," adopted by this House, on motion of Mr. W. Forster, on 18 December, 1862.

Ordered to be printed.

4. Payments made out of Public Funds without authority of Parliament:—Mr. Martin moved, pursuant to notice,—

(1.) That a Select Committee of this House be appointed to inquire into, and report upon, all instances, during the last three years, in which payments have been made out of the Public Funds of this Colony without the authority of Parliament, with liberty to send for persons and papers.

(2.) That such Committee consist of the following Members:—Mr. Cowper, Mr. Wilson, Mr. Piddington, Mr. W. Forster, Mr. Samuel, Mr. Eagar, Mr. Macleay, Mr. Harpur, Mr. Dalley, and the Mover.

Debate ensued.

And Mr. Sadleir requiring that the said Committee be appointed by Ballot,—

Question,—That a Select Committee of this House be appointed to inquire into, and report upon, all instances, during the last three years, in which payments have been made out of the Public Funds of this Colony without the authority of Parliament, with liberty to send for persons and papers,—put and passed.

5. Petition of Thomas Charles Bentley:—Mr. Dalglish moved, pursuant to notice, That the Evidence taken and Documents produced before the Select Committee, to whom was referred the Petition of T. C. Bentley, presented to this House on Friday, 24th October, 1862, together with the Progress Report agreed to by that Committee, be laid upon the Table of this House.

No. 5.

VOTES AND PROCEEDINGS

OF THE

LEGISLATIVE ASSEMBLY.

TUESDAY, 30 JUNE, 1863.

1. The House met pursuant to adjournment; The Speaker took the Chair.

Questions on Notice Paper for to-day:—

(*Mr. Darvall withdrew the Question standing in his name, No. 1.*)

- (1.) Drainage Bill:—Mr. Close asked the Secretary for Lands, pursuant to Notice No. 2,—Whether it is his intention to introduce a Bill for the promotion of Drainage this Session?

Mr. Robertson answered:—In reply to my Honorable friend, I say, it is the intention of the Government to introduce a Bill of this character this Session.

(*Mr. Close withdrew the Question standing in his name, No. 3.*)

(*Mr. W. Forster withdrew the Question standing in his name, No. 4.*)

(*Mr. Leary withdrew the Questions standing in his name, Nos. 5 and 6.*)

- (2.) Enclosure and Ornamentation of Vacant City Lands:—Dr. Lang asked the Secretary for Lands, pursuant to Notice No. 7,—Whether it is the intention of Government, during the present Session of Parliament, to take the requisite steps for the enclosure, planting, and ornamentation of those portions of ground within the City—as, for example, Church Hill and the vicinity of the Flag Staff—that are still the property of the Crown, and an eye-sore to the public in their actual state?

Mr. Robertson answered:—In reply to my Honorable and Reverend friend, I would say, that it is the intention of the Government to take the opinion of the Parliament on the advisability of an estimate—and that seems to me the more satisfactory way—of the cost of carrying out certain works in the City of Sydney. I have in my hand (*producing the same*) a plan of the improvements intended. They extend over six plots of land including those mentioned by my Honorable and Reverend friend and a seventh, that of Wynyard Square, will be added. I can only say that I believe this will involve an expenditure of some £7,000 or £8,000. It is not in contemplation to do all this in one year, but to place £2,000 on the Estimates of next year towards the carrying out of these improvements.

- (3.) Immigration from United Kingdom:—Dr. Lang asked the Colonial Secretary, pursuant to Notice No. 8,—Whether it is the intention of Government, during the present Session of Parliament, to take advantage of the present peculiarly favourable crisis in the Mother Country, by initiating the requisite measures for ensuring an extensive Immigration of a superior character from the United Kingdom to this Colony?

Mr. Robertson answered:—In reply to the Honorable and Reverend Member, I may state that there is a provision on the Estimates for the purposes of Immigration, which will be submitted to the House for its approbation.

- (4.) Road from Scone to Denison Gold Fields:—Mr. Dangar asked the Secretary for Lands, pursuant to Notice No. 9:—

(1.) If the road from Scone to the Denison Gold Fields has been surveyed and marked as promised in December, 1862?

(2.) Has Mr. Collett been paid the sum of £211, expended without any authority on an undefined line of road from Scone to the Denison Gold Field?

(3.) Has the whole of the special grant of £400 been expended on the line of road from Scone to the Denison; and, by whom?

(4.) Has the contract accepted, been advertised, for the expenditure of the £400 specially granted; and, if so, who was the contractor or contractors?

(5.)

(5.) Who superintended the work on this undefined line of road?

Mr. Robertson answered:—In reply to my Honorable friend, I would say, in answer to the first question, that the survey of the road from Scone to the Denison Gold Fields has not yet been received; the Surveyor to whom it was committed having been detained in the Armidale District waiting his successor, who was unavoidably detained in his district, completing some surveys partially executed. He was desired, on the 9th instant, to expedite his survey, and is probably now engaged thereon.

(2.) With regard to the second Question, I would say no amount has been paid to Mr. Collett on account of this road, but the sum of £239 18s. 4d. was paid to other parties for work done on the line under the supervision of Messrs. Collett and White. Although this expense was irregularly incurred, without authority of the Government, yet after much delay, inquiry, and objection, a certificate having been furnished by the Police Magistrate and the Road Superintendent that the works performed had been judiciously and economically carried out, and that they would, under any circumstances, have been required, it was considered expedient to pay the amount.

(3.) The whole of the grant has not yet been expended; besides the expense alluded to no farther amount has been paid. £160 2s. 9d. yet remains.

(4.) Tenders were called for by advertisement in the local papers; that of Mr. W. C. Clements has been accepted.

(5.) Instructions were given to Mr. Superintendent Johnstone to carry out the necessary works on the road from Scone to the Denison Gold Fields.

(5.) Bye-road Overseer, Merriwa:—Mr. Dangar asked the Secretary for Lands, pursuant to Notice No. 10;—

(1.) The name of the person who is acting as bye-road overseer in the Merriwa District?

(2.) If the Secretary for Lands is aware that this overseer has driven cattle to pound, and assisted in branding cattle for a Magistrate and land proprietor of the said District?

Mr. Robertson answered:—

(1.) J.—I think his name is James—Ainsworth is the road overseer at Merriwa, under Mr. Road Superintendent Johnstone.

(2.) I have no information whatever as to the impounding of cattle, I have never heard of it before.

2. Deputy Speaker's Commission to Administer the Oath:—The Speaker reported that he had received a Commission under the Seal of the Colony, dated 27th June, 1863, and signed by His Excellency the Governor, Sir John Young, empowering Robert Wisdom, Esquire, Chairman of Committees of the Legislative Assembly, in the absence of the Speaker, to administer to Members the Oath or Affirmation of Allegiance required by Law,—of which the following is a copy:—

 - (2.) That the present Police system is both expensive and unsuitable, and that in the construction of a Police Force, a Semi-Military Police, as at present established, is only calculated as a substitution for a Military Force acting in cases of popular outbreak, wherefore, the House is of opinion, That the present staff of officers of Inspectors, Sub-Inspectors, Superintendents, &c., had better be abolished; Police Magistrates presiding in Police Districts, and co-operating with each other, being substituted; the number of subordinate officers and constables be increased, if necessary; and that the equipment of the Police be of the most simple character, fit for bush service.
 - (3.) That the centralization of the Police Force, under an Inspector General of Police, not only fetters the freedom of action of the Police, but is viewed with distrust, therefore, the office be abolished, and the Colonial Secretary, as directly responsible to this House, be chargeable with the Police arrangements.
 - (4.) That the said Resolutions be presented, in the way of Address, to His Excellency the Governor, praying, from the urgent necessity of the case, a Bill may be introduced into Parliament, this Session, so as to carry out the principles of these Resolutions.

No. 6.

VOTES AND PROCEEDINGS

OF THE

LEGISLATIVE ASSEMBLY.

WEDNESDAY, 1 JULY, 1863.

1. The House met pursuant to adjournment; The Speaker took the Chair.

Questions on Notice Paper for to-day:—

- (1.) Bridge over Bank-street, East Maitland:—Mr. Darvall asked the Secretary for Public Works, pursuant to Notice No. 1,—Whether it is the intention of the Government to place upon the Estimates any and what sum of money for building a Bridge over Bank-street, East Maitland, or for otherwise relieving East Maitland from the periodical floods which are caused by the railway embankment across that street?

Mr. Arnold answered:—The former vote having lapsed, it is not the intention of the Government to place a sum upon the Estimates.

- (2.) Railway Extension to Morpeth:—Mr. Close asked the Secretary for Public Works, pursuant to Notice No. 2:—

(1.) When is it the intention of the Government to finish the extension to Morpeth of the Great Northern Line?

(2.) To what point will such extension reach?

(3.) Whether the Government is aware that, owing to the non-completion of the fencing along the line aforesaid, public safety is endangered?

(4.) When will any preparation be made to provide Platforms, Passenger and Goods Stations, at Morpeth and the Junction at East Maitland?

(5.) When will the £10,000, voted last year by Parliament for Wharves and Coal Shoots at Morpeth, be expended?

Mr. Arnold answered:—I beg to inform the Honorable Member that it is the intention of the Government to finish the extension to Morpeth as soon as the money has been voted for the purpose; the money now available not being sufficient to complete the extension to the point intended by the Government.

(2.) The point intended is beyond the wharves of the two Steam Companies, on land liberally offered to the Government by Mr. Close, at Morpeth.

(3.) The Government is aware that safeties of all kinds, public and private, are continually endangered from a great variety of causes, one of which may possibly be the non-completion of this fencing, but I am not aware of any peculiar danger. Nothing has been stated to the Government. Accidents may happen in a variety of ways.

(4.) Preparations are now making to provide platforms, passenger and goods stations, at Morpeth and the Junction at East Maitland.

(5.) The £10,000, voted last year for wharves and coal shoots, will be expended as soon as it is determined to what point the extension of the Great Northern line to Morpeth shall reach. If the House agree with me in opinion that this extension should be carried to the point to which I have alluded, then the money will be expended in the construction of coal shoots at that spot, which is particularly favourable to the purpose.

(Mr. W. Forster withdrew the Question standing in his name, No. 3.)

(Mr. Samuel not asking the Question standing in his name, No. 4, it dropped.)

- (3.) Facilities for discharging Ballast in Newcastle Harbour:—Mr. Tighe asked the Secretary for Public Works, pursuant to Notice, No. 5:—

(1.) Whether the Government is aware that, in consequence of inadequate provision for discharging ballast at the Government Ballast Wharves in the Harbour of Newcastle, vessels of large tonnage have been recently subjected to several days vexatious detention at that Port?

(2.)

(2.) Is it the intention of the Government to make such arrangements as will enable masters of vessels requiring deep water to discharge ballast at Newcastle, with greater dispatch than is at present afforded?

Mr. Arnold answered:—No representations have been made to the Government of inadequate provision for discharging ballast at the Government Ballast Wharves at Newcastle; and no such representation having been made, the consideration which perhaps would otherwise have been given to the subject, has not been given; but from the inquiries I have been able to make since I saw the notice of this question, I am inclined to believe that greater facilities are afforded at Newcastle for this purpose than at any other port in this Colony, or in any of the Colonies.

(4.) Harbour Defences for Port Hunter:—Mr. Tighe asked the Colonial Secretary, pursuant to Notice, No. 6:—Whether it is the intention of the Government, during the present Session, to propose any means for providing Port Hunter with suitable Harbour Defences, for protecting that Port and District from Foreign attack?

Mr. Arnold answered:—This question probably will be better answered by myself, than by my Honorable friend. There is an intention, I believe, upon the part of the House, to consider the question of Defences generally, but the Government have not at present determined upon putting any sum upon the Estimates, for the construction of Forts suitable for repelling attack at the City of Newcastle.

(5.) Modifications of Road Supervision:—Mr. Dangar asked the Secretary for Lands, pursuant to Notice, No. 7:—

(1.) If it is the intention of the Government to abolish the Minor Road Superintendents and Road Overseers for 1864, with a view of reverting to the late system of Trustees, in expending Bye-Road Grants from the Public Revenue?

(2.) Do the Government intend, during the next year, to combine the Superintendents of Main and Minor Roads, and place the Roads of the Colony under one head or department?

Mr. Robertson answered:—

(1.) In reply to the Honorable Member, I would say to his first question, that I know of no intention of the Government of the kind intimated.

(2.) In regard to the second question, I would say that I have been for a long time anxious, as far as possible, to remove the management of these roads from the Department of Lands, for unquestionably—theoretically at any rate—they properly belong to the Works Department. However, there are difficulties in working this out, and about a month or five weeks ago the Deputy Surveyor General on the part of the Department of Lands, and the Commissioner of Roads on behalf of the Department of Works, were appointed to prepare a report and to make a recommendation as to the best management, for the future, of these roads. That report has not yet reached the Government; but it is now in course of preparation, and I hope the end of it will be to take, at any rate, the greater portion of these roads, if not all of them, from the Lands Department.

(6.) Contractors for Singleton Bridge:—Mr. Dangar asked the Secretary for Public Works, pursuant to Notice, No. 8:—

(1.) If it is true, that two Contractors have failed, with their Bondsmen, to build the Singleton Bridge, as per contract?

(2.) Were the Bondsmen solvent, and have their penalties been enforced for any breaches in their contracts?

(3.) What time is allowed to the present Contractors to complete the Bridge at Singleton?

Mr. Arnold answered:—Perhaps I shall best answer the Honorable Member's question, by giving him the history of this contract in a very few words. The contract was taken for the erection of this bridge by a contractor of the name of Heritage, and his contract was guaranteed by the usual Bonds. He did fail, after the completion of a good deal of work; he did fail to carry on the work satisfactorily to the Government, and his contract has been cancelled, but another contractor has offered to take the contract (and to substitute other bondsmen for those that had been previously taken) at the same prices, on precisely the same terms as before, and, as we believe that the change will be an advantageous one in every way for the Government, that offer has been accepted, and is now being carried out.

(2.) Under these circumstances, the Honorable Member will see it was unnecessary to attempt to enforce the penalties, and therefore it is a matter of no moment whether the bondsmen were solvent or not.

(3.) The time for the completion of the Bridge under the new contract, will be extended to October, 1864.

(7.) Lynch Law near Burrangong:—Captain Moriarty asked the Colonial Secretary, pursuant to Notice No. 9:—Whether he has received any Report from the Inspector General of Police of the commencement of Lynch Law in the vicinity of Burrangong?

Mr. Cowper answered:—I beg to state that I have not received any report. I have applied to the Inspector General of Police, and he states to me that he has no information whatever upon the subject.

2. Paper:—Mr. Cowper laid upon the Table, Despatch from the Duke of Newcastle, dated 20 March, 1862, (with Enclosure), respecting Naval Property.
Ordered to be printed.

3. Motion Withdrawn:—Mr. Smart withdrew the Motion standing in his name No. 1 on the Notice Paper of Government Business for to-day.

4. Seamen's Laws Amendment Bill :—
 - (1.) Mr. Smart moved, pursuant to notice, for leave to bring in a Bill to amend the Laws relating to Seamen.
Question put and passed.
 - (2.) Mr. Smart having *presented* this Bill, Bill, intituled "*A Bill to amend the Laws relating to Seamen,*" read a first time.
Ordered to be printed, and read a second time this day week.
5. Motion Withdrawn :—Mr. Smart withdrew the Motion standing in his name, No. 3 on the Notice Paper of Government Business for to-day.

VOTES AND PROCEEDINGS

OF THE

LEGISLATIVE ASSEMBLY.

THURSDAY, 2 JULY, 1863.

1. The House met pursuant to adjournment; The Speaker took the Chair.

Questions on Notice Paper for to-day :—

- (1.) Realization of Sale of Building Materials by Mr. A. Allan:—Mr. Dalgleish asked the Secretary for Public Works, pursuant to Notice No. 4:—

(1.) What sum was realized from the Sale of Building Materials of Brick and Weatherboard Cottages, on the Site for the Proposed Public Library in Elizabeth-street, sold by A. Allan, the Government Auctioneer, on the 18th February, 1863?

(2.) To what fund has the money so obtained been carried?

Mr. Arnold answered :—

(1.) I beg to inform the Honorable Member, that I understand from inquiries I have made this morning, that the sum realised from the sale of the building materials alluded to was about £50—it was £55, but I am not quite sure whether that was the gross or the nett amount, I think the gross.

(2.) As to the fund to which that sum was carried, I understand the Honorable Member's question to ask whether the money has ever been paid, and I understand it has not.

- (2.) Realization of Sale of Police Horses by Mr. A. Allan:—Mr. Dalgleish asked the Colonial Secretary, pursuant to Notice No. 5 :—

(1.) What was the sum realized by the Sale of Horses, unsuitable for the Police, sold by Andrew Allan, Government Auctioneer, on the 12th January, 1863?

(2.) To what fund was the sum, obtained by such sale, carried?

(3.) Is Andrew Allan still the Government Auctioneer?

Mr. Cowper answered :—I have ascertained that the sum realized by the sale of Horses unsuitable for the Police, sold by Andrew Allan, on the 12th January, 1863, was £64 15s. There is not, I understand, any such appointment as Government Auctioneer. Messrs. Hills and Allan sold some condemned Police Horses on behalf of the Government. The parties dissolved partnership on the 20th February, Mr. Hills undertaking to pay all liabilities. He has not yet paid in the proceeds of the sale to the Government; but the matter is in the hands of the Crown Solicitor for recovery from Mr. Hills. I believe Mr. Allan has since sold Government property by auction.

- (3.) Metal used by Contractor for High-street, West Maitland :—Mr. Dangar asked the Secretary for Public Works, pursuant to Notice No. 6,—Are the Government aware that the so-called Metal used by the Contractor for the High-street, West Maitland Contract, is of an inferior quality and not suitable?

Mr. Arnold answered :—I hardly know how to answer this question, because the Honorable Member alludes to "so-called metal used by the Contractor for the "High-street, West Maitland, contract." Now, no "so-called metal" has been used. The fact is, that a contract has been entered into for the supplying and spreading of metal on the spot indicated by the Honorable Member's question, but no part of that contract has been at present carried out; but in order to provide for the present traffic during the extraordinarily wet weather that has lately taken place, and has reduced this road in many parts to mud holes, the only stone that was available at the time was procured at a proportionate expense, and was used for the mending of this road as a temporary expedient; but the material that was used was not "so-called metal," it was so-called ballast so far as the department was concerned; it may be so-called metal so far as the Honorable Member is concerned.

(4.)

(4.) Bye-road Overseer, Merriwa.—Mr. Dangar asked the Secretary for Lands, pursuant to Notice No. 7,—When Mr. Ainsworth was appointed Bye-road Overseer, and what duty he has performed since his appointment?

Mr. Robertson answered:—Mr. Ainsworth was appointed on the 15th March, 1862. He has performed the duty of a Road Overseer under Mr. Johnstone the Road Superintendent.

(5.) Trade of Morpeth, pending proposed Railway Extension:—Mr. Close asked the Secretary for Public Works, pursuant to Notice, No. 8,—Whether, during the interval between the present time and that when the Assembly is likely to take into consideration the propriety of extending the line of Railway through Morpeth, due preparation will be made to meet the wants, and expedite the present trade of Morpeth?

Mr. Arnold answered:—It is the intention of the Government to work the Morpeth Line of Railway as far as the Queen's Wharf as soon as the line is sufficiently completed to that point, and without waiting for the voting of money for its further extension.

(6.) Mr. Justice Cary—Administration of Justice:—Mr. Samuel asked the Colonial Secretary, pursuant to Notice, No. 9:—

(1.) Whether it has come to the knowledge of the Government that on the 16th day of June, the day fixed for holding the Court of Quarter Sessions at Wellington, Mr. Justice Cary was not present, and that consequently no Court was held, although the Crown Prosecutor, jurors, and numerous witnesses were in attendance?

(2.) If so, have the Government taken, or do they intend to take, any steps to prevent a recurrence of the delay in the administration of justice, and expense and loss of time to jurors and witnesses, occasioned by the conduct of Mr. Justice Cary in not being present at the time appointed for holding the Court?

Mr. Cowper answered:—I beg to state that the Government was informed, by telegram from Wellington, on the 16th June, to this effect, by the Crown Prosecutor:—“Judge Cary not arrived, being detained by floods. Police Magistrate the only Magistrate of the District now present, he has, in certain cases, “double power. If Judge does not arrive to-day, how are the Quarter Sessions “to be adjourned until to-morrow.” The Attorney General replied:—“The 4th “section of 16 Victoria, No. 36, must be acted upon. The Police Magistrate “has no power in this matter as two Magistrates. If not adjourned as above, “the Quarter Sessions must lapse.” This matter was reported to me by the Attorney General, and I directed “If Judge Cary does not offer some explanation for his absence quickly, he should be called upon to give it.” I now read a letter from Judge Cary, addressed to the Attorney General:—“Wellington, “June 17th, 1863. I have the honor to inform you that I reached Molong on my “way from Forbes to Wellington, on Friday afternoon, the 12th instant—In “ordinary weather, that is the best route—It was fine until I arrived at Molong, “but through the whole of Friday night the rain fell very heavily, and continued “to fall at intervals during the following days. From Saturday to Monday the “creeks could not be passed with safety, and on Friday, when I started from “Molong, I was informed by those well acquainted with the roads that Bell “River, for miles from Wellington, would be still impassable. I, therefore, “had to come by Stony Creek, a distance of fifty miles, which, from the bad state “of the roads, could not be accomplished in one day. I reached this place a “few minutes after one this day, and hoped to find the business of the “Court adjourned in expectation of my arrival; but the want of a second “Magistrate prevented that course being taken. Mr. Gore and Mr. Leo left “Forbes a day later than I did, and so were prevented by the fall of rain from “attempting the shorter route through Molong.” It will thus appear from Judge Cary's explanation that his delay arose from causes beyond his control.

Interruption.

2. Member Sworn:—James Buchanan, Esquire, having taken the Oath and Subscribed the Roll, took his Seat as Member for the Electoral District of Gold Fields North.

3. Questions on Notice Paper for to-day resumed:—

(7.) Extension of Southern Railway beyond Goulburn:—Captain Moriarty asked the Secretary for Lands, pursuant to Notice No. 10,—Whether there is any foundation for the declaration attributed to him in the Goulburn newspapers—“that the Southern Members were not favorable to the extension of the Southern “Railroad beyond Goulburn”?

Mr. Robertson answered:—I really do not feel myself answerable for what the newspapers have said, nor do I know whether I have ever read those alluded to. But I say this, as a matter of courtesy to the Honorable gentleman, who, I believe, has put the question in good faith, that I never attributed to the Southern Members any objection to the continuation of the Railway beyond Goulburn. I may have said that certain Southern Members did vote against the Railway going further at that time, but I have never said they were of opinion it ought not to go farther.

(8.) Pilotage Act:—Mr. Hannell asked the Colonial Treasurer, pursuant to Notice No. 11,—Whether it is the intention of the Government, during the present Session, to introduce a Bill to amend the present Pilotage Act?

Mr. Smart answered:—It is the intention of the Government to introduce a Bill during this Session.

(9.) Reclamation of Woolloomooloo Bay:—Mr. Leary asked the Secretary for Public Works, pursuant to Notice, No. 1:—Whether the Government intend to place a sum of money on the Estimates for the reclamation of Woolloomooloo Bay?

Mr. Arnold answered:—This is not a matter properly belonging to my Department, and I can only say that there is not a sum, within my knowledge, placed upon the Estimates of my Department, for this purpose.

(Mr. Leary withdrew the Question standing in his name, No. 2.)

(10.) Land near Haslam's Creek, purchased for a Cemetery:—Mr. Lucas asked the Secretary for Lands, pursuant to Notice, No. 3:—When the Land "near Haslam's Creek," purchased by the Government for a Cemetery, will be opened for the burial of the dead?

Mr. Robertson answered:—In reply to the Honorable Member, I may say that the land will be fenced, divided, and ready for handing over to the proper authorities, in about six weeks from this time. I should not like to mislead my Honorable friend, by causing him to suppose that I thereby assert that the land will be open for the burial of the dead. There are a number of preparations which the Minister for Lands and the Government have nothing to do with in the matter; but we shall be able to hand it over to the proper authorities within the time I have named.

- (1.) Civil Service Superannuation Bill :—Mr. Leary asked the Colonial Secretary, pursuant to Notice No. 1,—Do the Government intend to introduce, this Session, a Superannuation Act in connection with the Civil Service?

Mr. Cowper answered :—It is my intention to introduce a measure such as that to which the Honorable Gentleman alludes, but I have been waiting to ascertain how far the Civil Service Act passed in Melbourne might or might not be adopted. VOTES AND PROCEEDINGS

OF THE

LEGISLATIVE ASSEMBLY.

TUESDAY, 7 JULY, 1863.

I. The House met pursuant to adjournment; The Speaker took the Chair.

Questions on Notice Paper for to-day:—

(1.) Bushranging:—Mr. Holroyd asked the Colonial Secretary pursuant to Notice No. 1,—If it be his intention to introduce, during the present Session, any measure to arrest the progress of Bushranging?

Mr. Cowper answered:—If I understand the Question to allude to a law upon the subject, it is not the intention of the Government to introduce any law. The subject I dare say will be fully discussed this evening, when the motion of the Honorable Member for the Lower Hunter, with reference to the Police Force, is before the House, and I shall then have an opportunity of explaining more fully the views of the Government than I can do at the present moment.

(2.) Parish Road Act Amendment Bill:—Mr. Holroyd asked the Secretary for Lands, pursuant to Notice No. 2,—If it be his intention to introduce a Bill, during the present Session, to amend the 4 Vic., No. 12, commonly called the Parish Road Act; and, if so, when he will be prepared to lay the Bill upon the Table of this House?

Mr. Robertson answered:—It is the intention of Government to bring in a Bill of this kind this Session, but I regret that I cannot tell my Honorable friend when we shall lay it upon the Table of the House. I am very anxious to deal with this question. I was very desirous of bringing in a Bill last Session, but I think the House may rely upon Government bringing it in this Session.

(*Mr. Dalgleish withdrew the Questions standing in his name, Nos. 3 and 4.*)

(3.) Boundaries of Town of Morpeth:—Mr. Close asked the Colonial Secretary, pursuant to Notice No. 5,—Have the Government any objection to lay upon the Table of the House, copies of all Correspondence between any persons and the Government having reference to the boundaries of the Town of Morpeth, together with Mr. Surveyor Maitland's report on the same subject?

Mr. Robertson answered:—In reply to the Question of the Honorable Member, I am not aware of any objection to lay these Papers before the House, if it is the wish of the House to have them, but we are not informed that the House has any desire in the matter.

(4.) Site of Queen's Wharf, Morpeth:—Mr. Close asked the Secretary for Lands, pursuant to Notice No. 6,—Have the Government ever received a formal conveyance of the land granted as a site for the Queen's Wharf, Morpeth; and if so, are the boundaries of the land so granted clearly defined in such conveyance?

Mr. Robertson answered:—I expected to have had a complete answer to this question from the Crown Solicitor to-day; all I now know about it is, that Mr. Close has made a conveyance, but the exact boundaries I have not got. I thought I should have received them by this time. I do not know why the Crown Solicitor has not furnished them.

(5.) Road from Manly Beach to Pitt Water:—Mr. Driver asked the Secretary for Lands, pursuant to Notice No. 7:—

(1.) Is it true that a large portion of the road recently proclaimed, leading from Manly Beach to Pitt Water, has been left in an unfinished state, and is now almost impassable?

(2.) Has any authority been given by the Government for closing the old line of road?

(3.)

(3.) Will any immediate steps be taken by the Government to put that portion of the above road leading through Tea Tree Swamp, in passable condition?

Mr. Robertson answered:—In reply to the second question, I would say that no proceeding of Government has been taken that would have the effect of closing this line of road. In regard to the first and third, I would read from the report of the Superintendent of the road: "I am not aware," he says, "that any portion of the road in question is impassable; a road party has been at work in the vicinity for the past two months, and a second party is now being despatched to this particular road."

Contingent Notice of Motion;—

1. MR. HOLR to move, (on the Motion being made for the second reading of the Public Education Bill)—
 - (1.) That the Bill before this House, "to promote Elementary Education," is not, in the opinion of this House, suitable to the requirements of this Colony.
 - (2.) That the education of the people is a matter of such vital importance to the well-being of the community, as to render it expedient to place the same, and the moneys voted by Parliament for the purpose, under the control of a responsible Minister of the Crown, and not under that of a Board as in the Bill before the House, or of Boards as at present.
 - (3.) That, in order to ensure the highest proficiency amongst the teachers, to stimulate them to maintain the most efficient schools, and to encourage them to procure and retain the largest number of scholars, it is expedient to remunerate them by fees, fixed by scale, according to the number of scholars, and the instruction imparted to each.
 - (4.) That all schools in which the teachers receive fees from the Government shall be considered as public schools, and no applicant shall be refused admission as a pupil on account of the religious persuasion of either parent.
 - (5.) That Inspectors be appointed by His Excellency the Governor, with the advice of the Executive Council, whose duties shall be to enquire into the general management of the public schools, examine the scholars on secular subjects; and, in order to fix the rate of fee to which the teacher is entitled, decide on the class to which each scholar belongs; and shall make a full report of the examination of each school to the Secretary for Public Education, which reports shall be at once laid before both Houses of Parliament, if sitting, or within seven days after the meeting thereof.
 - (6.) That every person who may have obtained a degree at one of the European or American Colleges, or who, after examination by the Inspectors, may be found competent to teach, as well as every teacher on the staff of either the Denominational or the National Institutions, shall be entitled to a license from the Secretary for Public Instruction, to teach where he pleases, and receive fees as aforesaid.
 - (7.) That in case a licensed teacher be guilty of a misdemeanour, or of conduct unbecoming a gentleman, it shall be lawful for the Secretary for Public Education to suspend or cancel the license of such teacher without prejudice to any criminal or civil proceedings that may be instituted against him, and from that date, or until his suspension be annulled, no further fees for teaching will be allowed to him out of the Public Treasury; but so long as the teaching of a schoolmaster be consistent with the laws of God, of this Country, and of good morals, it shall not be lawful to interfere with him on account of his religious principles, or religious teaching—the parents themselves being the sole judges of what kind of religious instruction they conceive to be best suited to secure the temporal and spiritual welfare of their children.
 - (8.) That no limit be placed in the number of teachers to be licensed (provided only they be competent), more especially as the mere licensing of teachers will be no expense to the Government, since a teacher without scholars would receive no fees.
 - (9.) That an Address be presented to the Governor, praying that His Excellency will be pleased to cause a Bill to be prepared embodying, the above resolutions, and laid before the House at an early opportunity.

Mr. Smart answered:—In answer to the Honorable Member, I beg to inform him that the proceeds of unclaimed Pound Sales were advertised in the *Government Gazette*, on the 9th January last, and have been payable on application since that date.

- (3.) Claims to Compensation for Water Frontage, Woolloomooloo Bay:—Mr. Leary asked the Secretary for Lands, pursuant to Notice No. 3,—What steps are the Government taking with a view to the adjustment of claims to parties claiming compensation for water frontage to Woolloomooloo Bay?

Mr. Robertson answered:—In reply to my Honorable friend, I would say that, I think, if he looks into the Woolloomooloo Bay Reclamation Act, he will see that the Government cannot take action towards the compensating these parties till the land is reclaimed. The Government have done no damage to these persons' interests up to this time. No doubt when the land is filled in,—or when something is done which will damage their rights,—they will have a claim; but, as their cases arise, they have only to apply for compensation, and the Government will,—immediately, on ascertaining the rights of the parties to the land, and on making a thorough survey of the land,—a thorough survey including the distribution of any land that the parties may be permitted to reclaim on their own account,—cause the appraisement to go on.

- (4.) John Jauncey:—Mr. Leary asked the Secretary for Lands, pursuant to Notice No. 4,—When do the Government intend to pay John Jauncey, for land purchased at Bega by the Government?

Mr. Robertson answered:—The money will be paid as soon as the Conveyance to the Crown is completed.

The Speaker said, That, not doubting the authority, he thought the course proposed would not be a safe precedent as regarded so important a motion, which, if negatived, would be fatal to the Bill. He suggested that the Honorable Member should rather, with the concurrence of the House (the Orders of the Day having been proceeded with), postpone the Motion to a future day.
Whereupon, Mr. Garrett, with the concurrence of the House, on behalf of Mr. Samuel, postponed the motion until Tuesday next.

13. Vacancy of Seat:—Mr. Driver proceeding to ask the concurrence of the House in a postponement until Tuesday next, of the Motion standing in his name, No. 7 on the Notice Paper of Other Business for to-day,—

Contingent Notice of Motion;—

1. MR. HOLT to move, (on the Motion being made for the second reading of the Public Education Bill)—
 - (1.) That the Bill before this House, "to promote Elementary Education," is not, in the opinion of this House, suitable to the requirements of this Colony.
 - (2.) That the education of the people is a matter of such vital importance to the well-being of the community, as to render it expedient to place the same, and the moneys voted by Parliament for the purpose, under the control of a responsible Minister of the Crown, and not under that of a Board as in the Bill before the House, or of Boards as at present.
 - (3.) That, in order to ensure the highest proficiency amongst the teachers, to stimulate them to maintain the most efficient schools, and to encourage them to procure and retain the largest number of scholars, it is expedient to remunerate them by fees, fixed by scale, according to the number of scholars, and the instruction imparted to each.
 - (4.) That all schools in which the teachers receive fees from the Government shall be considered as public schools, and no applicant shall be refused admission as a pupil on account of the religious persuasion of either parent.
 - (5.) That Inspectors be appointed by His Excellency the Governor, with the advice of the Executive Council, whose duties shall be to enquire into the general management of the public schools, examine the scholars on secular subjects; and, in order to fix the rate of fee to which the teacher is entitled, decide on the class to which each scholar belongs; and shall make a full report of the examination of each school to the Secretary for Public Education, which reports shall be at once laid before both Houses of Parliament, if sitting, or within seven days after the meeting thereof.
 - (6.) That every person who may have obtained a degree at one of the European or American Colleges, or who, after examination by the Inspectors, may be found competent to teach, as well as every teacher on the staff of either the Denominational or the National Institutions, shall be entitled to a license from the Secretary for Public Instruction, to teach where he pleases, and receive fees as aforesaid.
 - (7.) That in case a licensed teacher be guilty of a misdemeanour, or of conduct unbecoming a gentleman, it shall be lawful for the Secretary for Public Education to suspend or cancel the license of such teacher without prejudice to any criminal or civil proceedings that may be instituted against him, and from that date, or until his suspension be annulled, no further fees for teaching will be allowed to him out of the Public Treasury; but so long as the teaching of a schoolmaster be consistent with the laws of God, of this Country, and of good morals, it shall not be lawful to interfere with him on account of his religious principles, or religious teaching—the parents themselves being the sole judges of what kind of religious instruction they conceive to be best suited to secure the temporal and spiritual welfare of their children.
 - (8.) That no limit be placed in the number of teachers to be licensed (provided only they be competent), more especially as the mere licensing of teachers will be no expense to the Government, since a teacher without scholars would receive no fees.
 - (9.) That an Address be presented to the Governor, praying that His Excellency will be pleased to cause a Bill to be prepared embodying, the above resolutions, and laid before the House at an early opportunity.

OF THE

LEGISLATIVE ASSEMBLY.

FRIDAY, 10 JULY, 1863.

1. The House met pursuant to adjournment; The Speaker took the Chair.

Questions on Notice Paper for to-day:—

(1.) Court House, Picton:—Mr. Morrice asked the Secretary for Public Works, pursuant to Notice No. 1,—If it is the intention of the Government to place a sum of money on the Estimates for the erection of a Court House at Picton?

Mr. Cowper answered:—I beg to state that the subject to which the Honorable Gentleman alludes has been repeatedly under the consideration of the Government; but, considering that there is a Court House at Camden, and another at Campbelltown, it has not been thought desirable that the Country should be put to the expense of erecting a Court House at Picton.

(Mr. Driver not asking the Question standing in his name No. 2, it dropped.)

(2.) Purchase of Building and Books of Australian Subscription Library for Free Library:—Dr. Lang asked the Colonial Secretary, pursuant to Notice No. 3,—Whether it is the intention of the Government to submit to the House, during the present Session of Parliament, any proposal for the purchase of the building and books of the Australian Subscription Library, with a view to the formation of a nucleus for the establishment of a Free Library, as also to provide temporary accommodation for such an Institution?

Mr. Cowper answered:—I beg to state that, since a proposal to this effect was submitted to Parliament in a former Session, the subject has not been again brought under the consideration of Government; and in the present state of matters I am not disposed to entertain a proposition, if made, in the face of the Resolution of this House against it.

2. Motion Withdrawn:—Mr. W. Forster withdrew the Motion standing in his name, No. 3 on the Notice Paper for to-day.
3. Insecurity of Life and Property at Burrangong:—Mr. Wilson presented a Petition from certain Traders, Miners, and others, residing on the Burrangong Gold Fields, representing the insecurity of life and property in their district, in consequence of the depredations of a gang of Bushrangers; and praying that such measures may be devised as will restore confidence in the Laws, repress crime, and afford protection to life and property.
And the same having been read at length by the Clerk, by direction of the Speaker,—
Petition received.
4. Robert Stewart:—Mr. Mate presented a Petition from Robert Stewart, setting forth his claim to certain land near Broken Bay, alleged to have been promised to his late father, by Governor Macquarie, but now withheld from Petitioner; and praying such enquiry into his case, as may be deemed necessary for the ends of Justice.
Petition received.

5.

5. Church and School Lands Declaratory Bill:—Mr. Wilson moved, "That" this Bill be now read a second time.

Mr. Cowper moved, That the Question be amended by omitting all the words after the word "That," with a view to inserting in their place the words,—“in the opinion of this House, the Church and School Estates ought to be sold at the earliest possible period that they can be conveniently disposed of, and the proceeds thereof appropriated for the purposes of Religion and the Education of youth in the Colony, in terms of the Grant made by the Crown to the Trustees of Clergy and School Lands in New South Wales.”

 (2.) That the present Police system is both expensive and unsuitable; and that, in the construction of a Police Force, a Semi-Military Police, as at present established, is only calculated as a substitution for a Military Force acting in cases of popular outbreak;—wherefore, the House is of opinion, That the present staff of officers of Inspectors, Sub-Inspectors, Superintendents, &c., had better be abolished—Police Magistrates presiding in Police Districts, and co-operating with each other, being substituted; that the number of subordinate officers and constables be increased, if necessary; and that the equipment of the Police be of the most simple character, fit for bush service.
 (3.) WEDNESDAY, JULY 15.

Contingent Notice of Motion;—

1. MR. HOIT to move, (*on the Motion being made for the second reading of the Public Education Bill*)—
 (1.) That the Bill before this House, "to promote Elementary Education," is not, in the opinion of this House, suitable to the requirements of this Colony.
 (2.) That the education of the people is a matter of such vital importance to the well-being of the community, as to render it expedient to place the same, and the moneys voted by Parliament for the purpose, under the control of a responsible Minister of the Crown, and not under that of a Board as in the Bill before the House, or of Boards as at present.
 (3.) That, in order to ensure the highest proficiency amongst the teachers, to stimulate them to maintain the most efficient schools, and to encourage them to procure and retain the largest number of scholars, it is expedient to remunerate them by fees, fixed by scale, according to the number of scholars, and the instruction imparted to each.
 (4.) That all schools in which the teachers receive fees from the Government shall be considered as public schools, and no applicant shall be refused admission as a pupil on account of the religious persuasion of either parent.

(5.)

(5.) That Inspectors be appointed by His Excellency the Governor, with the advice of the Executive Council, whose duties shall be to enquire into the general management of the public schools, examine the scholars on secular subjects; and, in order to fix the rate of fee to which the teacher is entitled, decide on the class to which each scholar belongs; and shall make a full report of the examination of each school to the Secretary for Public Education, which reports shall be at once laid before both Houses of Parliament, if sitting, or within seven days after the meeting thereof.

(6.) That every person who may have obtained a degree at one of the European or American Colleges, or who, after examination by the Inspectors, may be found competent to teach, as well as every teacher on the staff of either the Denominational or the National Institutions, shall be entitled to a license from the Secretary for Public Instruction, to teach where he pleases, and receive fees as aforesaid.

(7.) That in case a licensed teacher be guilty of a misdemeanour, or of conduct unbecoming a gentleman, it shall be lawful for the Secretary for Public Education to suspend or cancel the license of such teacher without prejudice to any criminal or civil proceedings that may be instituted against him, and from that date, or until his suspension be annulled, no further fees for teaching will be allowed to him out of the Public Treasury; but so long as the teaching of a schoolmaster be consistent with the laws of God, of this Country, and of good morals, it shall not be lawful to interfere with him on account of his religious principles, or religious teaching—the parents themselves being the sole judges of what kind of religious instruction they conceive to be best suited to secure the temporal and spiritual welfare of their children.

(8.) That no limit be placed in the number of teachers to be licensed (provided only they be competent), more especially as the mere licensing of teachers will be no expense to the Government, since a teacher without scholars would receive no fees.

(9.) That an Address be presented to the Governor, praying that His Excellency will be pleased to cause a Bill to be prepared embodying the above resolutions, and laid before the House at an early opportunity.

VOTES AND PROCEEDINGS

OF THE

LEGISLATIVE ASSEMBLY.

TUESDAY, 14 JULY, 1863.

1. The House met pursuant to adjournment; The Speaker took the Chair.

Questions on Notice Paper for to-day :—

(*Mr. Dalgleish withdrew the Questions standing in his name, Nos. 1, 2, and 3.*)

- (1.) Securities given by Public Servants :—Mr. Holroyd asked the Colonial Treasurer, pursuant to Notice No. 4,—When he will lay upon the Table of this House the remainder of the Return of all persons in the Government Service who have been required to give Security with sureties, stating the Office held by each person respectively, the date of each appointment, the amount of sureties in each case, the names of the sureties, and when the sureties, in each case, were entered into, and of those who have not yet completed their Bonds; the Return having been ordered to be laid upon the Table of this House on the 29th of August, 1862?

Mr. Smart answered :—I beg to inform the Honorable Member, that, as soon as the Questions are answered, I am going to lay upon the Table of the House, Papers that I believe will complete the Returns asked for by him.

(*Mr. Terry withdrew the Question standing in his name, No. 5.*)

- (2.) River Murray Customs Duties :—Mr. Morris asked the Colonial Treasurer, pursuant to Notice No. 6,—Whether he will state to the House, the amount of all Customs Duties collected on goods passing from South Australia, by way of the River Murray, which have been paid annually to the Colonies of New South Wales and Victoria respectively, since the passing of the Act, 21 Vic. No. 2?

Mr. Smart answered :—In reply to the Honorable Member's Question, I beg to state that I am prepared to give all the information this Government can give him, that is, the amount of money received by the Government of New South Wales, which I believe to be equal to that received by the Government of Victoria. During the year 1859, the Sydney Government received £2,032 18s. 7d., and an additional sum of £283 13s. 9d.; in 1860, £2,173 15s. 7d.; in 1861, £3,880 9s.; and in 1862, £2,381 18s. 10d.

- (3.) Bridge Across Tenterfield Creek :—Mr. Gordon asked the Secretary for Lands, pursuant to Notice No. 7,—Is it the intention of the Government to construct a Bridge across the Tenterfield Creek; and what steps have been taken during the last eight months to ascertain the proper site?

Mr. Robertson answered :—I would say, with reference to this Bridge at Tenterfield, that the question stands in rather a peculiar position. The money was put upon the Estimates originally, without a proper calculation of the cost of the work, at the instance of the late Member for the District, Mr. Meston, and it was at that time said to be on a road of some importance. However, Parliament voted the money, and it was determined by the Government, on a report of the local Surveyor, to erect this bridge at Manners-street. Subsequently a petition, signed by a very large number of Inhabitants, objected to the erection of the bridge at Manners-street; a large number recommended that the bridge should be erected at Molesworth-street. Mr. McLean, the late Surveyor General, being then about to visit that neighbourhood, I directed him to examine into the matter; that gentleman recommended Molesworth-street. A large Public Meeting of the Inhabitants then discussed this question, and denounced Molesworth-street. The result is this, that there are two parties in the town nearly equally balanced—one in favour of Molesworth-street, and the other in favour of Manners-street—I think there is a majority of only one, and sometimes that majority is on one side and sometimes on the other. I have received deputations from each party, and I find that the Manners-street gentlemen say, "Rather than it shall be at Molesworth-street, we will have no bridge at all;" while the Molesworth-street gentlemen say,

"Rather

“ Rather than it shall be at Manners-street, we will have no bridge at all;” and the end of it is, that they have no bridge at all. If the Parliament had been acquainted with all the particulars of the case at the time the money was voted, I doubt whether the money would have been voted at all; and I greatly doubt whether a bridge is desirable there until there is some prospect of the Inhabitants of the District agreeing upon some reasonable course. I think it is very likely Government will take no further action. What we have done in the last eight months is this: finding that the department of Lands, through its officers, differed as to the proper site, we requested the Works department to let one of their officers examine into the matter, thinking we should be able to come to some conclusion; and I have had a reply from the Works department, saying that they have no officer in the neighbourhood to whom they would desire to entrust such a duty.

- (4.) Issue of Copies of Private Acts to Members of Assembly:—Mr. Terry asked the Colonial Secretary, pursuant to Notice No. 8,—If it is the intention of the Government to issue to the Members of this House, a copy of the Private Acts of the Colony, uniform with the Public Acts already supplied?

Contingent Notice of Motion:—

1. MR. HOLT *to move*, (on the Motion being made for the second reading of the Public Education Bill)—
- (1.) That the Bill before this House, "to promote Elementary Education," is not, in the opinion of this House, suitable to the requirements of this Colony.
- (2.) That the education of the people is a matter of such vital importance to the well-being of the community, as to render it expedient to place the same, and the moneys voted by Parliament for the purpose, under the control of a responsible Minister of the Crown, and not under that of a Board as in the Bill before the House, or of Boards as at present.

(3.) That, in order to ensure the highest proficiency amongst the teachers, to stimulate them to maintain the most efficient schools, and to encourage them to procure and retain the largest number of scholars, it is expedient to remunerate them by fees, fixed by scale, according to the number of scholars, and the instruction imparted to each.

(4.) That all schools in which the teachers receive fees from the Government shall be considered as public schools, and no applicant shall be refused admission as a pupil on account of the religious persuasion of either parent.

(5.) That Inspectors be appointed by His Excellency the Governor, with the advice of the Executive Council, whose duties shall be to enquire into the general management of the public schools, examine the scholars on secular subjects; and, in order to fix the rate of fee to which the teacher is entitled, decide on the class to which each scholar belongs; and shall make a full report of the examination of each school to the Secretary for Public Education, which reports shall be at once laid before both Houses of Parliament, if sitting, or within seven days after the meeting thereof.

(6.) That every person who may have obtained a degree at one of the European or American Colleges, or who, after examination by the Inspectors, may be found competent to teach, as well as every teacher on the staff of either the Denominational or the National Institutions, shall be entitled to a license from the Secretary for Public Instruction, to teach where he pleases, and receive fees as aforesaid.

(7.) That in case a licensed teacher be guilty of a misdemeanour, or of conduct unbecoming a gentleman, it shall be lawful for the Secretary for Public Education to suspend or cancel the license of such teacher without prejudice to any criminal or civil proceedings that may be instituted against him, and from that date, or until his suspension be annulled, no further fees for teaching will be allowed to him out of the Public Treasury; but so long as the teaching of a schoolmaster be consistent with the laws of God, of this Country, and of good morals, it shall not be lawful to interfere with him on account of his religious principles, or religious teaching—the parents themselves being the sole judges of what kind of religious instruction they conceive to be best suited to secure the temporal and spiritual welfare of their children.

(8.) That no limit be placed in the number of teachers to be licensed (provided only they be competent), more especially as the mere licensing of teachers will be no expense to the Government, since a teacher without scholars would receive no fees.

(9.) That an Address be presented to the Governor, praying that His Excellency will be pleased to cause a Bill to be prepared embodying the above resolutions, and laid before the House at an early opportunity.

 - (3.) That the centralization of the Police Force, under an Inspector General of Police, not only fetters the freedom of action of the Police, but is viewed with distrust;—therefore, that the office be abolished, and the Colonial Secretary, as directly responsible to this House, be chargeable with the Police arrangements.
 - (4.) That the said Resolutions be presented, in the way of Address, to His Excellency the Governor, praying that, from the urgent necessity of the case, a Bill may be introduced into Parliament, this Session, so as to carry out the principles of these Resolutions.

No. 14.

VOTES AND PROCEEDINGS

OF THE

LEGISLATIVE ASSEMBLY.

WEDNESDAY, 15 JULY, 1863.

1. The House met pursuant to adjournment; The Speaker took the Chair.

Questions on Notice Paper for to-day:—

- (1.) Locomotive Engines for Windsor Railway:—Mr. Dalgleish asked the Secretary for Public Works, pursuant to Notice No. 1:—

(1.) Have the Locomotive Engines for the Windsor Line of Railway been ordered?

(2.) Were advertisements calling for Tenders to supply those Engines inserted in the *Government Gazette* and in Colonial Newspapers; if so, on what date?

(3.) Who prepared the indent for those Engines?

(4.) Were Orders transmitted to the Colonial Agent, or other person in Great Britain, to call for public competition by tender for the manufacture of those Engines in Great Britain?

(5.) Was the expenditure of money for the purchase of those Engines authorized by Vote of Parliament; if so, what Vote?

Mr. Arnold answered:—

(1.) I beg to inform the Honorable Member, in reply to his first question, that the Locomotive Engines for the Windsor Line of Railway have been ordered from England.

(2.) Advertisements, calling for tenders, to supply these Engines, were not inserted in the *Government Gazette* or the Colonial Newspapers. The reason for not calling for tenders for these Engines in the ordinary way was, in the first place, that this was a peculiar kind of Engine, and it was thought desirable to send to the maker of the Engines which we had seen in use here, and which, upon consultation with the Engineers for the Government, were believed to be most suitable for the purpose intended. We therefore thought it most desirable to order them direct from the maker. Another reason was, that tenders had, in accordance with a resolution of this House, been called for, for the construction of other Engines, and no suitable offers had been made to the Government by Colonial manufacturers—indeed, I think I may say, that no offers at all from manufacturers had been made, so far as my recollection serves me.

(3.) In reply to the third question, I may inform the Honorable Member, that the Engineer for carrying out the works prepared an indent for these Engines.

(4.) The directions sent home in regard to these Engines to the Colonial Agent, were to obtain them direct from the makers.

(5.) It was intended at the time the matter was before Parliament to work the Railway by horse power, and the amount asked was intended to cover the purchase of horses; but it having been subsequently determined to apply this locomotive power, I presumed that the vote would be applicable to that purpose, supposing the substitution of steam locomotive power for horse power to be justifiable, but I am not able—the works not having made sufficient progress—to inform the Honorable Member precisely, whether the amount voted will be sufficient to cover the whole cost of the works together with the rolling stock and locomotive power—I am inclined to believe it will not.

- (2.) Breakwaters at Clarence River and Moruya:—Mr. Dalgleish asked the Secretary for Public Works, pursuant to Notice No. 2:—

(1.) What sum of money has been expended on the Breakwater at the Clarence River Heads?

(2.) How often has the Engineer for Harbours and Rivers visited the works in progress there, and the date of such visits?

(3.) What sum of money has been expended on the Breakwater at Moruya?

(4.)

- (4.) Have the works been carried out in accordance with original plans?
- (5.) What portion of the projected work has been left undone?
- (6.) Are there any grounds of dispute between the Government and the Contractor?
- (7.) Has the Government Officer, appointed to certify to quantity of stone weighed, certified for the quantities claimed to be paid for by the Contractor?
- (8.) How often has the Engineer for Harbours and Rivers visited the works in progress there, and the date of such visits?
- (9.) What was the original Estimate for the work as per plan?
- (10.) Has the original Estimate been exceeded; if so, how much?

Mr. Arnold answered:—

- (1.) I beg, in reply to the Honorable Member's first question, to state that the sum already expended on the vote for the Clarence River Breakwater is £5,528 12s. 7d.
 - (2.) The Engineer-in-Chief for Harbours and Rivers, has, during the course of the last month, visited this work, and is at present in that neighbourhood visiting this work and other works which require his presence there at this time.
 - (3.) The sum already paid upon the works of the Breakwater at Moruya to the present time is £7,801 19s. 6d.
 - (4.) This work has been carried out in accordance with the original plan.
 - (5.) The portion of the work which has not yet been completed is the intended Breakwater on the northern side of the entrance to the Moruya River.
 - (6.) There are grounds of dispute between the Government and the Contractor, and an Action at Law is now pending between the Government and the Contractor, for the recovery of the amount alleged by the Government to have been overpaid on the certificates of the officer who had been appointed immediately to certify to the quantities of material removed from the quarry into this work. These certificates, we have reason to believe, have been falsely and collusively given by this person, who is now no longer in the Government employment.
 - (7.) The Engineer for Harbours and Rivers has himself visited this work I think only once. It was his intention to have visited the work some time previously, but the press of other engagements at that time rendered it impossible that he could accomplish his wish.
 - (8.) The original Estimate for this work was £9,000, that is to say, for the whole work, only a portion of which, however, has been at present completed, so that the amount already paid has not equalled the amount which was originally voted.
- (3.) Alleged Irregularities in the Public Works Office:—Mr. Dalgleish asked the Secretary for Public Works, pursuant to Notice, No. 3:—
- (1.) If he is aware that charges of drinking Spirits to excess, and fighting, or challenging their fellow Draftsmen to fight, in the Public Works Office, and in office hours, have been laid before Mr. Whitton, the Engineer for Railways?
 - (2.) Were the Officers called upon to disprove the charge; and, have they done so?
 - (3.) Are the Officers in question still in the Government service?

Mr. Arnold answered:—

- (1.) I was not aware that the Honorable Member intended to ask this question to-day, as in the copy of the Votes I received this day, this question was not upon the list, but I think I can answer the Honorable Member notwithstanding:—I am aware that some charges have been made, as against some of the officers in question, by another or other officers, in the same department; but this appears to have originated out of squabbles, which did not seem to the Engineer-in-Chief of sufficient importance to cause him to bring the matter under my notice at the time, and I was not aware of it until I inquired in consequence of this Question of the Honorable Member.
- (2.) I have now ascertained that there have been some charges of this kind made, and the officers in question were called upon to give any explanations that they desired upon the subject.
- (3.) One of the officers in question is only temporarily employed in the preparation of tracings, and I believe that his employment in the office is likely shortly to cease; but I am not at present advised that the conduct of any of the officers was such as to have caused their dismissal from the Public Service.

- (4.) Export Duty on Gold:—Mr. Wilson asked the Colonial Treasurer, pursuant to Notice No. 4:—

- (1.) Are the Finances of the Colony in such a state as to warrant any further reduction of the Export Duty on Gold?
- (2.) If so, is it intended by the Government to propose such reduction during the present Session?

Mr. Smart answered:—In answer to the Honorable Member, I beg to inform him that it is not the intention of the Government to propose any reduction in the Export Duty on Gold this Session.

- (5.) Proceeds of Church and School Lands:—Mr. W. Forster asked the Colonial Secretary, pursuant to Notice No. 5:—

- (1.) Is it the intention of the Government to introduce, during the present Session, a Bill to appropriate the proceeds of the Church and School Lands in the form of a special Fund for purposes of Religion and Education, in terms of the resolution moved by the Chief Secretary on Friday, the 10th instant, by way of amendment on the second reading of the Church and School Lands Declaratory Bill?

(2.)

(2.) If so, when will such Bill be introduced?

(3.) Is it intended that the Appropriation for Religious Purposes shall be represented by the smallest coin of the realm,—or, in other words, merely nominal?

Mr. Cowper answered:—In reply to the Honorable Member, I beg to state that the Government will not be in a position to arrive at any determination as to the course to be pursued upon this question until the House has decided the fate of Dr. Wilson's Bill for declaring the Church and School Estates Waste Lands of the Crown.

(6.) Railroad from Muswellbrook to Mudgee:—Mr. Terry asked the Secretary for Public Works, pursuant to Notice No. 6:—

(1.) If it is the intention of the Government to place a sum of money on the Estimates for a Railroad from Muswellbrook to Mudgee?

(2.) If the survey for the line is completed?

(3.) And will the Government have any objection to place the plans, levels, and sections, &c., on the Table of the House?

Mr. Arnold answered:—I beg to inform the Honorable Member, that a sum of money will be found upon the Estimates for the purpose of a Railway towards the north-western interior with the view of taking it to Mudgee. The survey of this line is not yet finished, but I hope before the subject comes under the consideration of the House that the survey will be sufficiently complete to enable the House to form an opinion as to the advisability of this work. The Government, provided the House determine upon the commencement of this work, will take the ordinary course prescribed by the Railway Act in reference to it, by laying upon the Table the plans, sections, and books of reference.

(7.) Argyle-street Bonded Warehouse:—Mr. Eagar asked the Colonial Treasurer, pursuant to Notice No. 7:—

(1.) Was it by the Colonial Treasurer's authority that the Argyle-street Bonded Warehouse was closed to the Public on Tuesday, the 14th instant?

(2.) Will the Colonial Treasurer state the reason for the Bond being so closed?

(3.) Why notice of any contemplated closing of said Bond was not issued on the previous day, so as to prevent inconvenience to the Mercantile Public?

Mr. Smart answered:—In reply to the Honorable Member I beg to inform him that the Bond was not closed by authority upon the day alluded to. In consequence of the death of Mrs. Evans, the wife of the lessee, Mr. Evans sent the Collector of Customs notice of his intention the evening before, and all the Custom House Agents received a similar notice. No delivery orders for that bond were tendered that day, and no complaint whatever has reached the Collector of any inconvenience arising from the closing. On inquiry of the Agents, they all inform him that none of their constituents have made any such complaint. Of course, the Collector might have objected to the closing, but he did not think it decent under the circumstances to interpose. In addition to the above-mentioned notice to the Collector and the Custom House Agents, Mr. Evans advertised the closing in the daily papers.

(8.) Steamship "Pluto":—Dr. Lang asked the Colonial Treasurer, pursuant to Notice, No. 8,—Whether the Steamship "Pluto" had more than one boat on board when she left this Port, and, if not, whether such provision was sufficient for the safety of those on board in the event of disaster to the Steamer, or in accordance with the Act in such cases made and provided?

Mr. Smart answered:—In answer to the Honorable and Reverend Member, I beg to inform him that I have been unable to get any official information, as the vessel was not brought under the provisions of the Immigration Act; but I understand from Mr. Cuthbert, the builder of the "Pluto," that she had a fine boat, capable of carrying twenty-five, while she had only ten souls on board when she left the port.

(Mr. Driver withdrew the Questions standing in his name, Nos. 9 and 10.)

2. Papers:—Mr. Robertson laid upon the Table, the undermentioned Papers:—

12. Insecurity of Life and Property—Inefficiency of present Police Force :—Mr. Sadleir moved, pursuant to notice,—
- (1.) "That" the present insecurity both of life and property, more especially in the South and Western Districts of the Colony, is such as to require the immediate consideration of this House.
 - (2.) That the present Police system is both expensive and unsuitable; and that, in the construction of a Police Force, a Semi-Military Police, as at present established, is only calculated as a substitution for a Military Force acting in cases of popular outbreak;—wherefore, the House is of opinion, That the present staff of officers of Inspectors, Sub-Inspectors, Superintendents, &c., had better be abolished—Police Magistrates presiding in Police Districts, and co-operating with each other, being substituted; that the number of subordinate officers and constables be increased, if necessary; and that the equipment of the Police be of the most simple character, fit for bush service.
 - (3.) That the centralization of the Police Force, under an Inspector General of Police, not only fetters the freedom of action of the Police, but is viewed with distrust;—therefore, that the office be abolished, and the Colonial Secretary, as directly responsible to this House, be chargeable with the Police arrangements.
- (4.)

(4.) That the said Resolutions be presented, in the way of Address, to His Excellency the Governor, praying that, from the urgent necessity of the case, a Bill may be introduced into Parliament, this Session, so as to carry out the principles of these Resolutions.

WEDNESDAY, JULY 22.

Contingent Notice of Motion:—

1. MR. HOLT to move, (on the Motion being made for the second reading of the Public Education Bill)—
 (1.) That the Bill before this House, "to promote Elementary Education," is not, in the opinion of this House, suitable to the requirements of this Colony.
 (2.) That the education of the people is a matter of such vital importance to the well-being of the community, as to render it expedient to place the same, and the moneys voted by Parliament for the purpose, under the control of a responsible Minister of the Crown, and not under that of a Board as in the Bill before the House, or of Boards as at present.
 (3.) That, in order to ensure the highest proficiency amongst the teachers, to stimulate them to maintain the most efficient schools, and to encourage them to procure and retain the largest number of scholars, it is expedient to remunerate them by fees, fixed by scale, according to the number of scholars, and the instruction imparted to each.

(4.)

(4.) That all schools in which the teachers receive fees from the Government shall be considered as public schools, and no applicant shall be refused admission as a pupil on account of the religious persuasion of either parent.

(5.) That Inspectors be appointed by His Excellency the Governor, with the advice of the Executive Council, whose duties shall be to enquire into the general management of the public schools, examine the scholars on secular subjects; and, in order to fix the rate of fee to which the teacher is entitled, decide on the class to which each scholar belongs; and shall make a full report of the examination of each school to the Secretary for Public Education, which reports shall be at once laid before both Houses of Parliament, if sitting, or within seven days after the meeting thereof.

(6.) That every person who may have obtained a degree at one of the European or American Colleges, or who, after examination by the Inspectors, may be found competent to teach, as well as every teacher on the staff of either the Denominational or the National Institutions, shall be entitled to a license from the Secretary for Public Instruction, to teach where he pleases, and receive fees as aforesaid.

(7.) That in case a licensed teacher be guilty of a misdemeanour, or of conduct unbecoming a gentleman, it shall be lawful for the Secretary for Public Education to suspend or cancel the license of such teacher without prejudice to any criminal or civil proceedings that may be instituted against him, and from that date, or until his suspension be annulled, no further fees for teaching will be allowed to him out of the Public Treasury; but so long as the teaching of a schoolmaster be consistent with the laws of God, of this Country, and of good morals, it shall not be lawful to interfere with him on account of his religious principles, or religious teaching—the parents themselves being the sole judges of what kind of religious instruction they conceive to be best suited to secure the temporal and spiritual welfare of their children.

(8.) That no limit be placed in the number of teachers to be licensed (provided only they be competent), more especially as the mere licensing of teachers will be no expense to the Government, since a teacher without scholars would receive no fees.

(9.) That an Address be presented to the Governor, praying that His Excellency will be pleased to cause a Bill to be prepared embodying the above resolutions, and laid before the House at an early opportunity.

VOTES AND PROCEEDINGS
OF THE
LEGISLATIVE ASSEMBLY.

THURSDAY, 16 JULY, 1863.

1. The House met pursuant to adjournment; The Speaker took the Chair.

Questions on Notice Paper for to-day :—

- (1.) Telegraph and Post Office, Murrurundi :—Mr. Dangar asked the Secretary for Public Works, pursuant to Notice No. 1,—

(1.) If a new contract has been accepted for the completion of the Telegraph and Post Office, Murrurundi, through the failure or refusal of Mr. Barlow, and his Bondsmen, to complete their contract?

(2.) What date was Barlow's contract signed, and how long was he allowed to complete the building?

(3.) When will the building be ready for the use of the Telegraph and Post Departments?

Mr. Arnold answered :—

(1.) I beg to inform the Honorable Member, that a contract is already in existence for the completion of the Telegraph and Post Office at Murrurundi, with the Mr. Barlow named in this Question.

(2.) The date of the signing of Mr. Barlow's contract was the 29th September of last year, and six months was the time allowed for its completion. Some delay however arose, after the signing of this contract, in procuring the site; and the time involved in this delay will have to be allowed to the contractor.

(3.) The time having been exceeded when the contract ought to have been completed it is impossible to tell the Honorable Member, with any exactness, when it will be completed; because in consequence of the breach of contract some proceedings are now being taken against the contractor.

- (2.) Border Duties, &c. New South Wales and Queensland :—Mr. W. Forster asked the Colonial Treasurer, pursuant to Notice, No. 2,—What is the nature of the arrangements with reference to Border Duties and other collateral questions understood to have been made by the Government of this Colony with that of Queensland?

Mr. Smart answered :—In reply to the Honorable Member's question, I beg to inform him that the proposed arrangements are not quite completed; when they are, the papers shall be laid upon the Table of the House.

- (3.) Mr. Henry Connell :—Mr. W. Forster asked the Colonial Secretary, pursuant to Notice No. 3,—

(1.) Has the removal of Mr. Henry Connell from his office of Chief Clerk at the Central Police Office, Sydney, been determined on by the Government in consequence of the Report of the Select Committee on the management of the said office, laid upon the Table of this House on 12th December, 1862?

(2.) Otherwise, under what circumstances has Mr. Connell been so removed?

Mr. Cowper answered :—I beg to state that Mr. Connell has been removed from the Central Police Office in fulfilment of a pledge I made to the Select Committee to which the Honorable Member has alluded. I carried out that arrangement with as little inconvenience as possible to Mr. Connell, but after what passed in that Committee, I felt the Public Service would be benefited by that arrangement.

- (4.) Abattoirs :—Mr. Cunneen asked the Colonial Treasurer, pursuant to Notice No. 4,—Is it the intention of the Government, when they again let the Abattoirs, to let them in one lot to one person, or separately?

Mr. Smart answered :—In reply to the Honorable Member's question, I beg to inform him, that no objection would have been made by the Government to let any

any of the Abattoirs separately, had any application been made. As I consider the Establishment has hitherto been unsatisfactorily conducted, it is the intention of the Government, so soon as arrangements can be completed, to submit the whole (including the bridge) to lease for a term of years by tender.

(*Mr. Burns not asking the Question standing in his name, No. 5, it dropped.*)

- (5.) Telegraphic Communication with Carcoar:—Mr. Dalley asked the Secretary for Public Works, pursuant to Notice No. 6,—
- (1.) What is the nearest Telegraph Station to the Town of Carcoar?
 - (2.) Is it the intention of the Government to connect the Town of Carcoar with the present system of Telegraphic communication; if so, when?
- Mr. Arnold answered:—
- (1.) I believe that the Station of Bathurst, about 35 miles distant from Carcoar, is the nearest Telegraphic Station to that Town.
 - (2.) The Government have had some communication with some of the principal Inhabitants of Carcoar with regard to the erection of a Station at the Town, and they have been informed, that the Government are willing to connect them with Bathurst upon their complying with the usual conditions of guarantee.

8. Insecurity of Life and Property—Inefficiency of present Police Force:—The Adjourned Debate on the motion of Mr. Sadler:—
- (1.) “That” the present insecurity both of life and property, more especially in the South and Western Districts of the Colony, is such as to require the immediate consideration of this House.
 - (2.) That the present Police system is both expensive and unsuitable; and that, in the construction of a Police Force, a Semi-Military Police, as at present established, is only calculated as a substitution for a Military Force acting in cases of popular outbreak;—wherefore, the House is of opinion, That the present staff of Officers, of Inspectors, Sub-Inspectors, Superintendents, &c., had better be abolished—Police Magistrates presiding in Police Districts, and co-operating with each other, being substituted; that the number of subordinate officers and constables be increased, if necessary; and that the equipment of the Police be of the most simple character, fit for bush service.
 - (3.) That the centralization of the Police Force, under an Inspector General of Police, not only fetters the freedom of action of the Police, but is viewed with distrust;—therefore, that the office be abolished, and the Colonial Secretary, as directly responsible to this House, be chargeable with the Police arrangements.
 - (4.) That the said Resolutions be presented, in the way of Address, to His Excellency the Governor, praying that, from the urgent necessity of the case, a Bill may be introduced into Parliament, this Session, so as to carry out the principles

"principles of these Resolutions"—Upon which Mr. Cowper had moved, by way of Amendment, That all the words after the word "That" at the beginning of Section (1) be omitted, with a view to inserting in their place the words,—“ a Select Committee be appointed to inquire into the working of the Police Act of 1862, and to report if any and what amendment of that Act is necessary ; and whether any alterations should be made in the system now in operation for managing the Police of the Colony.

(2.) That such Committee consist of Mr. Sadleir, Mr. W. Forster, Mr. Wilson, Dr. Lang, Mr. Egan, Mr. Dalgleish, Mr. Morris, Mr. Piddington, Mr. Lucas, and the Mover,—resumed and continued.

And the House continuing to sit until after Midnight ;—

FRIDAY, 17 JULY, 1863, A.M.

Question,—That the words proposed to be omitted stand part of the Question,—put and negatived.

Question put,—That the words proposed to be inserted in the place of the words omitted, be there inserted.

The House divided,

And Mr. Martin and Mr. Holroyd taking their places with the Noes,—Mr. Arnold claimed to have their Votes reckoned with the Ayes, on the ground that after the Speaker had declared that the Noes had it, those Honorable Members had called "Divide."—

WEDNESDAY, JULY 22.

Contingent Notice of Motion;—

1. MR. HOLT to move, (*on the Motion being made for the second reading of the Public Education Bill*)—
 (1.) That the Bill before this House, "to promote Elementary Education," is not, in the opinion of this House, suitable to the requirements of this Colony.
 (2.) That the education of the people is a matter of such vital importance to the well-being of the community, as to render it expedient to place the same, and the moneys voted by Parliament for the purpose, under the control of a responsible Minister of the Crown, and not under that of a Board as in the Bill before the House, or of Boards as at present.
 (3.) That, in order to ensure the highest proficiency amongst the teachers, to stimulate them to maintain the most efficient schools, and to encourage them to procure and retain the largest number of scholars, it is expedient to remunerate them by fees, fixed by scale, according to the number of scholars, and the instruction imparted to each.
 (4.) That all schools in which the teachers receive fees from the Government shall be considered as public schools, and no applicant shall be refused admission as a pupil on account of the religious persuasion of either parent.
 (5.) That Inspectors be appointed by His Excellency the Governor, with the advice of the Executive Council, whose duties shall be to enquire into the general management of the public schools, examine the scholars on secular subjects; and, in order to fix the rate of fee to which the teacher is entitled, decide on the class to which each scholar belongs; and shall make a full report of the examination of each school to the Secretary for Public Education, which reports shall be at once laid before both Houses of Parliament, if sitting, or within seven days after the meeting thereof.
 (6.) That every person who may have obtained a degree at one of the European or American Colleges, or who, after examination by the Inspectors, may be found competent to teach, as well as every teacher on the staff of either the Denominational or the National Institutions, shall be entitled to a license from the Secretary for Public Instruction, to teach where he pleases, and receive fees as aforesaid.

(7.)

(7.) That in case a licensed teacher be guilty of a misdemeanour, or of conduct unbecoming a gentleman, it shall be lawful for the Secretary for Public Education to suspend or cancel the license of such teacher without prejudice to any criminal or civil proceedings that may be instituted against him, and from that date, or until his suspension be annulled, no further fees for teaching will be allowed to him out of the Public Treasury; but so long as the teaching of a schoolmaster be consistent with the laws of God, of this Country, and of good morals, it shall not be lawful to interfere with him on account of his religious principles, or religious teaching—the parents themselves being the sole judges of what kind of religious instruction they conceive to be best suited to secure the temporal and spiritual welfare of their children.

(8.) That no limit be placed in the number of teachers to be licensed (provided only they be competent), more especially as the mere licensing of teachers will be no expense to the Government, since a teacher without scholars would receive no fees.

(9.) That an Address be presented to the Governor, praying that His Excellency will be pleased to cause a Bill to be prepared embodying the above resolutions, and laid before the House at an early opportunity.

VOTES AND PROCEEDINGS

OF THE

LEGISLATIVE ASSEMBLY.

FRIDAY, 17 JULY, 1863.

- I. The House met pursuant to adjournment; The Speaker took the Chair.

Questions on Notice Paper for to-day :—

- (1.) Expenditure on Subordinate Roads, Central Cumberland :—Mr. Macpherson asked the Secretary for Lands, pursuant to Notice No. 1 :—

(1.) What portion of the Vote for Subordinate Roads, which was appropriated last Session to be expended on the Western and Southern Roads during 1863, has been expended, or placed to the credit of Local Trustees for that purpose, in the Electoral District of Central Cumberland?

(2.) On which of the Roads in the Electoral District of Central Cumberland has any, and what, expenditure been made, or authorized to be made, by Local Trustees during the present year?

Mr. Robertson answered :—I am afraid it will scarcely be within my power to give such an answer to this question as I can desire. The roads, I may inform the Honorable Member, are not laid out having any relation to the electorates; but that when a sum of money is granted to a particular road, that road may extend into one or more electorates; therefore I shall not be able to give so perfect a statement of the matter as I desire. However, I am having the papers prepared, and they require a great deal of labour to prepare them, so as to contain all the information asked for, and I hope to be able to give the Honorable Member the information on Tuesday next.

- (2.) Post and Telegraph Office, Tamworth :—Mr. Burdekin asked the Secretary for Public Works, pursuant to Notice No. 2,—When Tenders will be called for the Post and Telegraph Office, Tamworth?

Mr. Arnold answered :—I beg to inform the Honorable Member, that tenders will be called for, for the Post and Telegraph Office at Tamworth, as soon as the Government are in possession of the site, the conveyance of which is now in course of preparation.

- (3.) Patents or Improvements :—Mr. Hart asked the Colonial Secretary, pursuant to Notice No. 3,—When will the Returns relative to Patents and Inventions, ordered by this House in the Session of 1861 and 1862, be laid upon the Table?

Mr. Cowper answered :—I am not prepared with a full and complete answer to the Honorable Member's question. Some portions of the Returns are completed, but it appears, either with reference to the lithographic, or some of the more elaborate part of the work, that they are not in a state to lay before the House. However, I will make further inquiry, and will communicate to the Honorable Member, as soon as possible, when the Returns will be completed.

- (4.) Bridge over Cabramatta Creek :—Mr. Macpherson asked the Secretary for Lands, pursuant to Notice No. 6,—When the Government means to repair or renew the Bridge over the Cabramatta Creek, (on the road leading from Liverpool to the Orphan School), which was washed away by the floods in January last? Mr. Robertson answered :—In reply to the Honorable Member, I would say that tenders for the construction of a new bridge in this locality have been called for, and the Road Superintendent has been instructed to enter upon the other necessary works.

- (5.) Withdrawal from Sale of certain Lands at Namoi River :—Mr. Burns asked the Secretary for Lands, pursuant to Notice No. 7,—Whether instructions have been given for the withdrawal from sale of the allotments numbered 8, 9, and 10, at Boggabry, Namoi River, upon which Mr. Mark Turner has erected a public house, under

under the erroneous impression that they comprised his purchases from the Government in the same Township; and, if so, in what mode it is proposed to deal with Mr. Turner's case?

Mr. Robertson answered:—In reply to the Honorable Member, I would say that it is rather a peculiar case of Mr. Mark Turners. He bought a measured allotment at Boggabry, upon which he proposed to erect his house, but he erected his house upon another allotment. So soon as I was aware of this fact, I caused the land to be withdrawn from sale. Now, I think my Honorable friend is asking too much, when he asks me to say in what way it is proposed to deal with this case. Mr. Mark Turner has made a mistake, but I will endeavour to do justice to him in the matter.

- (6.) Repair of the Great Southern Road, near Bankstown:—Mr. Macpherson asked the Secretary for Public Works, pursuant to Notice No. 8,—Whether it is the intention of the Government to take any immediate steps for the repair of that portion of the Great Southern Road, being between Bankstown and the junction of the Dogtrap Road, which is at present all but impassable?

Mr. Arnold answered:—I beg to inform the Honorable Member that, in my opinion, the road is not all but impassable, and indeed is not more impassable than the whole of the road was when it was taken from the hands of the trustees by the Government. The mode in which the money applicable to this road has been spent, has been by making and macadamising portions of the roads as we have gone on; as the Honorable Member is aware, the larger portion of the road has been completed in that way. No funds are therefore available for the temporary repairs of the road, and until a further sum has been voted, no money will be applicable to the completion of this road in the way in which the other portion of the road has been completed; but it is intended to repair the road as far as funds are available.

- (7.) Wallis' Creek Railway Embankment:—Mr. Burns asked the Secretary for Public Works, pursuant to Notice No. 9,—When the Papers relative to Wallis' Creek Railway Embankment, ordered by the House on the 11th October, 1861, will be laid upon the Table?

Mr. Arnold answered:—The difficulty which has stood in the way of the production of these papers sooner, has been, that it has been a matter which has been in course of agitation during a great number of years, and has involved the copying of very lengthy documents. But, beyond this, some portions of the documents cannot be found, and the delay has been principally caused by the search for these documents. I have, however, given directions, as there seems no reasonable probability of their being found shortly, to prepare copies of all the documents that we have in our possession, and they shall be laid upon the Table of the House at once.

- (8.) Compensation for Buildings at Forbes pulled down to check fire:—Mr. Driver asked the Colonial Secretary, pursuant to Notice No. 4,—

(1.) Have any claims for compensation been made to the Government in respect of certain properties at Forbes, which properties were pulled down by the Police to arrest the progress of the great fire in February last?

(2.) Is it intended to make any compensation?

(3.) What is the cause of the delay in making such compensation?

Mr. Cowper answered:—Only one such claim has been made to Government, and that has not been before me any great length of time. The claim is of a novel complexion. I am not aware that the Government has in any instance made such compensation, and I have, therefore, been obliged to refer the matter to the Attorney General, and if I find the Government is liable, and that the property is not covered by insurance, it appears to me that it is one of those cases in which compensation should be made.

- (9.) Carriers' Licenses:—Mr. Driver asked the Colonial Secretary, pursuant to Notice No. 5,—Do the Government intend to introduce, during the present Session of Parliament, any measure for the regulation and licensing of Carriers?

Mr. Cowper answered:—I cannot say it is the intention of the Government to introduce such a measure, but the Honorable Member has placed in my hands the copy of a Petition about to be presented to this House, praying that a law should be passed to provide a remedy for certain matters therein complained of. Upon principle, I have been opposed to a Licensed Carriers' Act. Such a measure was proposed in this House in a former Session and was rejected; but I think, persons who enter into engagements as Carriers ought to be compelled to fulfil those engagements, and not allowed to trifle with the property and interests of others in the way they appear to do at present.

2. Martin Gardiner:—Mr. Dalgleish presented a Petition from Martin Gardiner, of Sydney, Civil Engineer, detailing certain grievances which he alleges he has sustained in connection with the Railway Department, and praying inquiry into the circumstances of his case.

Petition received, and afterwards read at length by the Clerk, by direction of the Speaker.

3. Presbyterian College Bill:—Exchange of Land, Scots Church, Jamison Street, Legalizing Bill—(*Point of Order*):—Dr. Lang, proceeding to *present* these Bills (for the introduction of which leave was granted on the 14th instant), asked exemption in each case from the payment of Twenty-five Pounds, required by the 65th Standing Order to precede the first reading, on the ground that this condition had been complied with last Session, when the Bills had proceeded so far as to be placed on the Paper for second reading, and were at the stage discharged, not
in

in consequence of any fault of his, but of the approaching close of the Session. The Honorable Member further stated, that the Bills now presented were not identical with those originally introduced, but contained the Amendments made by the Select Committee of the last Session.

The Speaker said, that under the circumstances, the proper course appeared to be, a reference to the Standing Orders Committee, with a view to considering the propriety of dispensing with the 65th Standing Order in these cases; and suggested that the Honorable Member should give notice of a Motion for effecting that object.

Whereupon Dr. Lang gave notice accordingly.

4. Paper:—Mr. Cowper laid upon the Table, Consolidated Standing Rules (dated 4 July, 1863) for the Regulation of the Supreme Court in Equity, accompanied by a Letter from Sir Alfred Stephen (Chief Justice), dated 9 July, transmitting them to the Colonial Secretary.
Ordered to be printed.
5. Waratah Coal Company's Incorporation Bill:—Mr. Samuel, as Chairman, brought up the Report from, and laid upon the Table the Minutes of Proceedings of, and Evidence taken before, the Select Committee to whom this Bill was referred on the 14th instant.
Ordered to be printed.
Whereupon Mr. Samuel moved, That the second reading of this Bill stand an Order of the Day for Friday next.
Question put and passed.
6. Support of Ministers of Religion:—The Adjourned Debate, on the motion of Mr. Macleay, "That this House will, on Friday next, resolve itself into a Committee of the Whole, to consider of an Address to the Governor, praying that His Excellency will be pleased to cause to be placed on the Estimates for 1864, a sum not exceeding £25,000, for the support of Ministers of the English and Roman Catholic Churches, or of Presbyterian, Wesleyan, or other denominations, where the members are in sufficient number, at the rate of £300 to each Clergyman, at the following places:—Deniliquin, Wentworth, Hay, Albury, Tumut, Gundagai, Wagga Wagga, Lambing Flat, Lachlan Gold Fields, Condobolin, Bulligal, Molong, Orange, Wellington, Dubbo, Fort Bourke, Walgett, Coonabarabran, Coonamble, Warialda, Moree, M'Intyre District, Wee Waa, Narrabri, Rylstone, Turon, Gunnedah, Murrurundi, Hargraves, Louisa Creek, Carroll, Nundle, Bundarra, Bingera, Tenterfield, Dundee, Glen Innes, Wellingrove, Eden, Bombala, Kiandra, Nimmitabel, the Gulf Diggings, Shoalhaven, Ulladulla, Araluen, and Binda."—Upon which Mr. Love had moved the Previous Question,—resumed and continued.

(Interruption)

WEDNESDAY, JULY 22.

Contingent Notice of Motion;—

1. MR. HOLT to move, (*on the Motion being made for the second reading of the Public Education Bill*)—
 - (1.) That the Bill before this House, "to promote Elementary Education," is not, in the opinion of this House, suitable to the requirements of this Colony.
 - (2.) That the education of the people is a matter of such vital importance to the well-being of the community, as to render it expedient to place the same, and the moneys voted by Parliament for the purpose, under the control of a responsible Minister of the Crown, and not under that of a Board, as in the Bill before the House, or of Boards, as at present.
 - (3.) That, in order to ensure the highest proficiency amongst the teachers, to stimulate them to maintain the most efficient schools, and to encourage them to procure and retain the largest number of scholars, it is expedient to remunerate them by fees, fixed by scale, according to the number of scholars, and the instruction imparted to each.
 - (4.) That all schools in which the teachers receive fees from the Government shall be considered as public schools, and no applicant shall be refused admission as a pupil on account of the religious persuasion of either parent.
 - (5.) That Inspectors be appointed by His Excellency the Governor, with the advice of the Executive Council, whose duties shall be to enquire into the general management of the public schools, examine the scholars on secular subjects; and, in order to fix the rate of fee to which the teacher is entitled, decide on the class to which each scholar belongs; and shall make a full report of the examination of each school to the Secretary for Public Education, which reports shall be at once laid before both Houses of Parliament, if sitting, or within seven days after the meeting thereof.

(6.)

(6.) That every person who may have obtained a degree at one of the European or American Colleges, or who, after examination by the Inspectors, may be found competent to teach, as well as every teacher on the staff of either the Denominational or the National Institutions, shall be entitled to a license from the Secretary for Public Instruction, to teach where he pleases, and receive fees as aforesaid.

(7.) That in case a licensed teacher be guilty of a misdemeanour, or of conduct unbecoming a gentleman, it shall be lawful for the Secretary for Public Education to suspend or cancel the license of such teacher without prejudice to any criminal or civil proceedings that may be instituted against him, and from that date, or until his suspension be annulled, no further fees for teaching will be allowed to him out of the Public Treasury; but so long as the teaching of a schoolmaster be consistent with the laws of God, of this Country, and of good morals, it shall not be lawful to interfere with him on account of his religious principles, or religious teaching—the parents themselves being the sole judges of what kind of religious instruction they conceive to be best suited to secure the temporal and spiritual welfare of their children.

(8.) That no limit be placed in the number of teachers to be licensed (provided only they be competent), more especially as the mere licensing of teachers will be no expense to the Government, since a teacher without scholars would receive no fees.

(9.) That an Address be presented to the Governor, praying that His Excellency will be pleased to cause a Bill to be prepared embodying the above resolutions, and laid before the House at an early opportunity.

VOTES AND PROCEEDINGS

OF THE

LEGISLATIVE ASSEMBLY.

TUESDAY, 21 JULY, 1863.

1. The House met pursuant to adjournment; The Speaker took the Chair.

Questions on Notice Paper for to-day :—

- (1.) Proposed Bridge across the Macquarie River at Dubbo :—

Mr. Lord asked the Secretary for Public Works, pursuant to Notice No. 1,—
When Tenders will be called for the construction of the Bridge across the
Macquarie River at Dubbo?

Mr. Arnold answered :—The tenders will be called for this Bridge as soon as the
detailed working drawings have been completed, and these will not be completed
until certain borings, which are necessary on the spot, have been made. The
boring rods are now in course of transit to this place from other places where they
have also been found necessary.

- (2.) Quirindi and Corrobubala Line of Road :—Mr. Dangar asked the Secretary for
Lands, pursuant to Notice No. 2,—

(1.) When Tenders will be invited for the Expenditure of the £500 voted for
the Quirindi and Corrobubala Line of Road, for 1863?

(2.) Has Mr. Johnstone, the Superintendent of Minor Roads, recently inspected
this Line of Road, and has he reported on the work done on this line during
this year for the £500 voted for 1862?

Mr. Robertson answered :—

(1.) In reply to the Honorable Member, I would say, that Mr. Superintendent
Johnstone was instructed, on the 10th March last, to call for tenders for necessary
works during the present year, but as it did not appear that he had done so, he
was asked to explain the reason why, on the 8th instant. He has not yet replied.

(2.) In regard to the second question, I would say, I presume that Mr. Johnstone
inspected this line of road in May last, seeing that he certified to the due per-
formance, by the contractor, of the works completed in that month, under the
contract for 1862.

- (3.) East Maitland Pasturage Reserve :—Mr. Darvall asked the Secretary for Lands,
pursuant to Notice No. 4,—If the proposed grant of the East Maitland Pasturage
Reserve is in accordance with the Report of the Select Committee of 1860; and
if there is any objection to laying on the Table of this House a copy of the
intended grant?

Mr. Robertson answered :—In reply to the question of the Honorable and
learned Member, I would say, that the deed will set forth that the land is dedi-
cated for public health, recreation, enjoyment, and convenience, as a park,
reserving to the Crown, all mines of coal or other minerals therein, with full
power, right, and authority to the Crown, and to all persons to whom leases or
licenses may be granted, to enter upon the said lands, to search for, mine, and
dig, and take away, all coals, or other minerals; and to use any portion or por-
tions of the said lands, not exceeding in the whole a limited number of acres, for
the erection of buildings and mining works; and that the said land is granted
subject to the reservations contained in deeds of grant of land other than town
or suburban lands. The law provides that the intended appropriation shall be
laid before Parliament, which will be done in the course of the week. A copy of
the deed will also be submitted.

- (4.) Duties of Minor Road Superintendent in the County of Cumberland :—
Mr. Dangar asked the Secretary for Lands, pursuant to Notice No. 5,—

(1.) What duties has Mr. Keele to perform, in the County of Cumberland, as
Minor Road Superintendent, and is he a resident in Sydney or its suburbs?

(2.)

- (2.) How many Overseers or Superintendents has Mr. Keele under him ?
 (3.) What sum per year is Mr. Keele allowed as salary, with travelling expenses ?
 (4.) Is it true that Mr. Keele has expended, on minor roads, a large sum of money, without any authority from the Government ; if so, what amount ?

Mr. Robertson answered :—

(1.) In reply to the Honorable Member, I would say to his first question, that the duties of Mr. Keele are general supervision of the works in progress on the minor roads in the County of Cumberland, and those within a radius of about sixty miles, extending also southward to Moruya and Botalli. His head quarters are necessarily at Sydney.

(2.) With regard to the second question, I would say that he has recently received the assistance of an overseer properly so called. Mr. Keele has nineteen parties of men employed on the following roads :—Newtown Road *via* Enmore and Undercliff Bridge to George's River ; St. Leonard's and Pennant Hills, first half ; Manly Cove and Pitt Water ; St. Leonard's and Pennant Hills, second half ; Parramatta to Bedlam Ferry ; Pitt Town to Wiseman's Ferry ; Blacktown Road to Windsor Road ; Main Western Road to Bengelly Road ; Main Western Road near Parramatta *via* Smithfield towards Cabramatta ; Menangle to Picton ; Menangle to Main Southern Road at foot of Razorback ; Kiama Municipality *via* Broughton Village to Nowra ; Nowra Municipality *via* Ulladulla to Bateman's Bay, first half ; the second half of the same Road ; Nowra Municipality *via* Sassafras Range to Braidwood ; Appin *via* Broughton's Pass to Woollongong and Bulli Roads ; Windsor Road to Pitt Town Punt ; Main Southern Road towards Burragorang. Each of these parties has a foremost man paid by the day for his labor, 12s. per day, and responsible for the work of the men under him, otherwise a working overseer.

(3.) With regard to the third question, Mr. Keele's salary is the same as other minor road superintendents, £350 per annum, and allowance in lieu of travelling expenses, £150, being that authorized by Parliament.

(4.) In reply to the fourth question, I would say, that during 1862, when Mr. Keele was Superintendent of the Northern Minor Roads, at which time he had upwards of 700 miles of roads under his charge, including the road from Armidale to Glen Innes, 60 miles ; from Glen Innes to Tenterfield, 58 miles ; from Armidale *via* Walcha to Port Macquarie, 130 miles ; from Armidale to Kempsey, 82 miles ; from Armidale to Grafton, 135 miles ; from Grafton to Tenterfield, 115 miles ; from Grafton to Casino, 65 miles ; and from Lawrence to the Grafton and Tenterfield Road, near Tabulam, 70 miles—making a total of 715 miles ; and that when the sum of £24,000 was voted on the Supplementary Estimates for 1862 for Minor Roads, &c., Mr. Keele entered into contracts which required £2,937 12s. 11d., for the roads alluded to, more than the sum allotted. The whole of this money was not, however, expended before authority was given. The contracts were permitted to be carried out, the amount not being considered more than the fair share for the works in question, of the £24,000 alluded to.

- (5.) Sydney District Court Accommodation :—Mr. Hart asked the Secretary for Public Works, pursuant to Notice No. 3,—Is it the intention of the Government to provide a suitable Building for the accommodation of the Judges and Suitors of the District Court, Sydney ; and if so, when will it be commenced ?

Mr. Arnold answered :—In reply to the Honorable Member's question, I beg to inform him, that it is the intention of the Government, in accordance with a vote of the House, to provide suitable accommodation for the Judges and Suitors of the District Court, Sydney. I may remind him, that a sum of money was voted—I think two years ago—for this purpose, and since then the matter has been very frequently under the deliberation of the Government, and several plans have been determined upon, which, from subsequent circumstances, have been abandoned. In the first place it was intended and determined to provide accommodation in what had formerly been used as Immigration Barracks ; but it having been since found necessary to use the whole of that building for other purposes, that intention has had to be relinquished. Provision was then intended to be made by the purchase of the Library buildings for this purpose ; that intention was interfered with by the decision of the House, and since then a proposal has been made to the House to expend a large sum of money in providing suitable accommodation for the whole of the law business of the Colony ; that proposal has also been refused by the House. As a reason why more immediate action has not been taken in providing accommodation for the District Court, after it was found these two other proposals could not be carried out, it was thought desirable to ascertain whether the House would agree to this large plan for the Law Courts, of which the District Court would have formed a part. When it was ascertained that the House rejected this plan, it became necessary to deliberate further upon the question, and the Government thought it would be desirable, as far as possible, that the District Court should form part of an ulterior work of a larger character for the whole of the Law Courts of the Colony, and directions have been given to the Colonial Architect with this intention. The most suitable site for this purpose in possession of the Government, is a site which is now partly occupied by the Colonial Architect's Department, and it was intended to provide for the Colonial Architect in another range of buildings for the Works Department generally ; but it has since been found that the amount which was voted to erect the

the

the buildings for the Works Department is not nearly sufficient for that purpose, and an additional sum of money is on the Estimates for that object. If the House approve of it,—if the sum be voted,—the two works will be simultaneously carried on. In the meantime, I quite admit the great inconvenience that does arise from the present building, but it is in regard to this as it is in regard to a great many of the other provisions for carrying on the Government business, that the present buildings are quite insufficient for the magnitude of the business to be transacted in them, and it is quite impossible to rent suitable buildings. The same difficulty is felt with regard to the Post Office; the same difficulty is felt with Public Works' and various other Departments where the buildings are insufficient, where temporary accommodation cannot be procured, and where delay is necessary in order that the authority of Parliament may be obtained.

NOTICES OF QUESTIONS AND MOTIONS, AND ORDERS OF THE DAY.

WEDNESDAY, JULY 22.

QUESTION:—

1. MR. RUSDEN to ask THE COLONIAL SECRETARY,—If it is the intention of the Government to establish District Courts at Gunnedah or Narrabri on the Namoi River, and Warialda in the Gwydir District; if so, when?

Contingent Notice of Motion;—

1. MR. HOLT to move, (on the Motion being made for the second reading of the Public Education Bill)—

(1.) That the Bill before this House, “to promote Elementary Education,” is not, in the opinion of this House, suitable to the requirements of this Colony.

(2.) That the education of the people is a matter of such vital importance to the well-being of the community, as to render it expedient to place the same, and the moneys voted by Parliament for the purpose, under the control of a responsible Minister of the Crown, and not under that of a Board, as in the Bill before the House, or of Boards, as at present.

(3.) That, in order to ensure the highest proficiency amongst the teachers, to stimulate them to maintain the most efficient schools, and to encourage them to procure and retain the largest number of scholars, it is expedient to remunerate them by fees, fixed by scale, according to the number of scholars, and the instruction imparted to each.

(4.) That all schools in which the teachers receive fees from the Government shall be considered as public schools, and no applicant shall be refused admission as a pupil on account of the religious persuasion of either parent.

(5.)

(5.) That Inspectors be appointed by His Excellency the Governor, with the advice of the Executive Council, whose duties shall be to enquire into the general management of the public schools, examine the scholars on secular subjects; and, in order to fix the rate of fee to which the teacher is entitled, decide on the class to which each scholar belongs; and shall make a full report of the examination of each school to the Secretary for Public Education, which reports shall be at once laid before both Houses of Parliament, if sitting, or within seven days after the meeting thereof.

(6.) That every person who may have obtained a degree at one of the European or American Colleges, or who, after examination by the Inspectors, may be found competent to teach, as well as every teacher on the staff of either the Denominational or the National Institutions, shall be entitled to a license from the Secretary for Public Instruction, to teach where he pleases, and receive fees as aforesaid.

(7.) That in case a licensed teacher be guilty of a misdemeanour, or of conduct unbecoming a gentleman, it shall be lawful for the Secretary for Public Education to suspend or cancel the license of such teacher without prejudice to any criminal or civil proceedings that may be instituted against him, and from that date, or until his suspension be annulled, no further fees for teaching will be allowed to him out of the Public Treasury; but so long as the teaching of a schoolmaster be consistent with the laws of God, of this Country, and of good morals, it shall not be lawful to interfere with him on account of his religious principles, or religious teaching—the parents themselves being the sole judges of what kind of religious instruction they conceive to be best suited to secure the temporal and spiritual welfare of their children.

(8.) That no limit be placed in the number of teachers to be licensed (provided only they be competent), more especially as the mere licensing of teachers will be no expense to the Government, since a teacher without scholars would receive no fees.

(9.) That an Address be presented to the Governor, praying that His Excellency will be pleased to cause a Bill to be prepared embodying the above resolutions, and laid before the House at an early opportunity.

" (8.) That no limit be placed in the number of teachers to be licensed (provided only they be competent), more especially as the mere licensing of teachers will be no expense to the Government, since a teacher without scholars would receive no fees.

VOTES AND PROCEEDINGS

OF THE

LEGISLATIVE ASSEMBLY.

THURSDAY, 23 JULY, 1863.

1. The House met pursuant to adjournment; The Speaker took the Chair.

Questions on Notice Paper for to-day :—

- (1.) Old Road from Bathurst to Sofala :—Mr. Suttor asked the Secretary for Lands, pursuant to Notice No. 1,—If it is the intention of the Government to have the old line of road from Bathurst to Sofala, *via* Peel and Wyagdon, repaired and kept in order, for which the Inhabitants of those Districts have petitioned the Government?

Mr. Robertson answered :—In reply to my Honorable friend, I would say, that a sum of £56 has been appropriated for the portion of the Line in question between Bathurst and Peel, and Mr. Road Superintendent Hill, has been requested to undertake the charge of repairs. Provision will be made on the Schedule for 1864, for the remainder of the Road between Peel and Sofala.

- (2.) Amendment of Marriage Act :—Dr. Lang asked the Colonial Secretary, pursuant to Notice No. 2,—Whether it is the intention of the Government, during the present Session of Parliament, to bring in a Bill to amend the Schedules appended to the Marriage Act of the Colony?

Mr. Cowper answered :—I find, upon reference to the Registrar-General, that it is his opinion, that some amendment of the law in reference to the points to which the Honorable and Reverend Gentleman alludes is necessary. I have, therefore, instructed him to prepare a Draft Bill, in order that I may determine as to the propriety of introducing it; and I hope to bring in a Bill for the consideration of Parliament during the present Session.

- (3.) Stipend to Bishop of Sydney during absence from the Colony :—Mr. W. Forster asked the Colonial Secretary, pursuant to Notice, No. 3,—

(1.) Is it intended by the Government to continue the payment of a Stipend to the Bishop of Sydney, during his absence from the Colony, in contravention of the 3rd section of the "Grants for Public Worship Prohibition Act"?

(2.) If so, from what fund, and under what authority?

Mr. Cowper answered :—

(1.) I beg to state, in reply to the Honorable Gentleman's question, that it is intended by the Government to continue to pay the stipend to the Bishop of Sydney during his absence from the Colony, but I do not admit that it is in contravention of any law.

(2.) With reference to the fund from which the Bishop's salary is derived, £1,500 is paid from the Consolidated Revenue, Schedule C, and £500 from the Bishop-thorpe Estate.

- (4.) Elective Legislative Council Bill :—Mr. Piddington asked the Colonial Secretary, pursuant to Notice No. 4,—

(1.) On what early day—according to promise—will the Bill for the construction of the Legislative Council on an Elective basis be introduced?

(2.) Will such Bill be originated in the Legislative Council, or in the Legislative Assembly?

Mr. Cowper answered :—Considering that there is a notice of motion of peculiar significance given by the Honorable and learned Member for Orange, which motion is to come under discussion on the 31st July next, I think it would be hardly respectful to the House, or to the Honorable and learned Member who has given that notice, to state what course the Government will take in this important matter until that question is disposed of.

(5.)

(5.) Immigration Regulations :—Mr. Rotton asked the Secretary for Lands, pursuant to Notice No. 5,—Has he any objection to lay the last Immigration Regulations on the Table of the House, without formal Notice of Motion for the Papers?

Mr. Robertson answered :—In reply to the Honorable Member, I would say, that I am under the impression that they are already before the House. If they are not, I will bring them to-morrow.

(6.) Mr. Keele—Minor Roads :—Mr. Dangar asked the Secretary for Lands, pursuant to Notice No. 6,—

(1.) Why Mr. Keele, the Superintendent of Minor Roads for the County of Cumberland and other places, has not instructions to let the work, by tender, or public competition?

(2.) Why is it necessary to employ nineteen Road Overseers for the County of Cumberland at twelve shillings per day?

(3.) Do the Government believe any saving accrues from adopting the day system for labour on the Minor Roads; and why is the contract system abolished for the County of Cumberland Minor Roads?

Mr. Robertson answered :—

(1.) In reply to the Honorable Member's Question, I would say, that Mr. Keele, in common with all other Superintendents of Minor Roads, has instructions, as a rule, to perform all works of importance by contract, with permission, however, to dispense with contracts in lesser works. The nature and objects of these instructions will be explained by a Memorandum which I will presently read.

(2.) With regard to the second Question, I would say, that the reason why there are nineteen working Road Overseers for the County of Cumberland, is, that there are that number of parties at work in that County.

(3.) In reply to the third Question, I would say that it is believed there is considerable advantage in the employment of day labour on small works. The contract system is not abolished in the County of Cumberland. It may be of some interest to the House to learn the plan on which these Minor Roads are now being managed, and I will therefore read a Minute of the late Surveyor-General, Mr. McLean, approved by myself, as to their management. This Minute, I may say, was written by Mr. McLean after his visit to the Northern Roads some twelve months ago, and forms the basis of instructions to Mr. Keele as well as to all other minor road Superintendents in the Colony, and therefore the answer, which is given in the case of Mr. Keele, will be an answer in all similar cases. Mr. McLean says :—

“ I found on visiting the Roads that two processes of formation and repair were
“ in practice, and that, although much useful work had undoubtedly been done on
“ these roads, both processes were open to objection. The first process referred to
“ is the carrying out of works by contract under specifications which are so
“ general in their character, that is, so indefinite, that an opening is afforded for loss
“ to the public, and although such loss may be much obviated by the refusal of the
“ Superintendent to pay for work not done in accordance with the interpreta-
“ tions of the Specification, the contractor could, in many instances, be able to do
“ only so much work as would leave him a margin of profit. *Although open to this*
“ *objection*, this part of the system has hitherto worked satisfactorily, and I would
“ not propose any change in it, excepting a direction to the Superintendents to
“ make the contract Specifications as precise as may be practicable in each case.

“ The other practice referred to is the system which is termed maintenance, and
“ which consists in giving a contract as so much per mile to keep a certain portion
“ of road in order for each year. The indefiniteness of these contracts is neces-
“ sarily such that the contractor can always leave himself some profit, and may
“ almost, at discretion, in fine weather, increase that profit to half the whole
“ amount, while, in wet seasons, it is impossible to force him to expend even the
“ whole amount allowed him upon the road.

“ The great saving of labour in road making, which may be effected by making
“ small repairs, such as filling up wheel ruts, or steep hills and sidelings, diverting
“ water, cleaning out water channels, &c., immediately on such sources of injury
“ to the roads arising, and before rainy weather may magnify them, perhaps
“ tenfold, renders a system of maintenance by a travelling party most essential;
“ and, looking to the obvious evils of the contract maintenance, I am induced to
“ recommend the system of maintenance by a paid party with a *working* Overseer.
“ Such party to be ordinarily of the strength suggested, but to be liable to be
“ increased to four or five in all, on occasions.

“ I believe it will be desirable to give the Superintendents the power to appoint
“ and dismiss the Overseers and men, and the Overseers power to suspend the
“ men in the absence of the Superintendent, as by giving such powers only could
“ diligent work be ensured.

“ Although it would be necessary that the Superintendent should have power to
“ divert one such party, as occasion might require, from one road to another, it
“ would be desirable to let each party have a specific road as is suggested, as the
“ public using the road would thus form a check on the application to their
“ duties of the Overseer and party.

“ The Overseers should of course be men capable of directing a large number of
“ hands on special works when necessary, either in working by day labour or
“ by contracts for cuttings by measurements.

“ The present Overseers, who, while well paid, are neither efficient substitutes for
“ the Superintendents, as not possessing his authority, and not removing the
“ necessity

"necessity for his personal inspection, are not, I conceive, a desirable class of officers, and I would suggest that no addition be made to this class, and that those now appointed should gradually be otherwise provided for.

"The distribution of the Roads has my concurrence, but it embraces a Road not yet provided for in Schedule, viz., that by Newton Boyd, from Glen Innes to Grafton.

"The maintenance party might, while the proposed system is under trial, be paid out of the funds provided in Schedule for each road.

"For the present it may be desirable to make the experiment, the success of which must mainly depend on the possibility of obtaining the services of efficient working overseers on the roads; and indeed, from the difficulty that will be experienced in finding such men, the system could only be gradually adopted, and by adopting it first on one series of roads persons might commence as labourers, with the hope of being promoted, when qualified, to the position of overseer on some other road."

About twelve months ago instructions in accordance with this Minute were given to all the Minor Road Superintendents, and the system has, more or less, been carried into effect throughout all these Districts; and, I believe, with satisfaction to the public in each particular District. Of course it is, as Mr. McLean suggests, a mere matter of trial, and we shall see what will be the result;—I believe it will be satisfactory.

(7.) Expenditure of Subordinate Road Vote in Central Cumberland:—Mr. Macpherson asked the Secretary for Lands, pursuant to Notice No. 7,—

(1.) What portion of the Vote for Subordinate Roads, which was appropriated last Session to be expended on the Western and Southern Roads during 1863, has been expended, or placed to the credit of Local Trustees for that purpose in the District of Central Cumberland, distinguishing the expenditure by authority of the Minor Road Overseer, and by that of Local Road Trustees?

(2.) On which of the Roads in the Electoral District of Central Cumberland has any, and what expenditure been made, or authorized to be made, by Local Trustees during the present year?

Mr. Robertson answered:—I am afraid I shall not be able to quite meet the views of the Honorable Member; however, I will give him all the information in my power. The following is a statement of those roads which are in charge of Trustees in the County of Cumberland, shewing also the amounts applicable to the repair of each. I have no means of knowing precisely how much of the money is actually expended, the money being in the hands of Trustees. From Parramatta to Castle Hill, 10 miles, the amount allotted to it, £250; Parramatta to Windsor, 19 miles, £550; Main Western Road near Prospect, to Richmond, 19 miles, £90; Main Western Road near Parramatta, to Main Southern Road, 6 miles, £90; Main Southern Road to Campbelltown, 10 miles, £250. These are the roads in charge of Trustees. There are also other roads in the County of Cumberland upon which money has been authorized, and which is being expended by the Superintendent of Minor Roads;—From Parramatta to Bedlam Ferry, 9 miles, £135; Parramatta and Bedlam Ferry Road to Pennant Hills Wharf, 1 mile, £15; Parramatta and Bedlam Ferry Road, at Ryde, to Parramatta River, 1 mile, £15; Parramatta and Bedlam Ferry Road to Gladesville Wharf, 1 mile, £25; Ryde to Field of Mars Common, 2 miles, £30; Pennant Hills Road to Parramatta and Bedlam Ferry Road, 3 miles, £45; Castle Hill, towards Wiseman's Ferry, 13 miles, £130; Broken Back Bridge to Pennant Hills, 4 miles, £28; Main Western Road, near Parramatta, through Domain, and by Old Windsor Road to Windsor Road, 9 miles, £90; Blacktown Road to Windsor Road, 6 miles, £42; Main Western Road, near Parramatta, *via* Smithfield, toward Cabramatta, 10 miles, £100; Main South Road, near Irishtown, to George's River Road, 3 miles, £21; Main South Road to Salt Pan Creek, 6 miles, £60; Main South Road, near Lansdowne Bridge, to Penrith and Bringelly Road, 15 miles, £105; Liverpool to Orphan School Road, 3 miles, £21. These are the moneys applicable to those roads which are in charge of the Minor Road Superintendent. Up to the end of last month there was expended of this money on the road from Parramatta to Bedlam Ferry, £60 18s. 5d.; Parramatta and Bedlam Ferry Road to Gladesville Wharf, £4 11s. 6d.; and on the main Western Road, near Parramatta, *via* Smithfield, towards Cabramatta, £29 7s. 11d. Irrespective of the sums of money mentioned as actually paid, work has been performed on most of the roads alluded to during the present month, but as the returns are only sent in monthly they have not yet reached me.

7. Public Education Bill :—The Debate on the Motion of Mr. Cowper,—That this Bill be now read a second time,—upon which Mr. Holt had moved, by way of amendment, the omission of all the words after the word "That" with a view to inserting in their place the following words, viz. :—
- "the Bill before this House, 'to promote Elementary Education, is not, in the opinion of this House, suitable to the requirements of this Colony.
- "(2.) That the education of the people is a matter of such vital importance to the well-being of the community, as to render it expedient to place the same, and the moneys voted by Parliament for the purpose, under the control of a responsible Minister of the Crown, and not under that of a Board, as in the Bill before the House, or of Boards, as at present.
- "(3.) That, in order to ensure the highest proficiency amongst the teachers, to stimulate them to maintain the most efficient schools, and to encourage them to procure and retain the largest number of scholars, it is expedient to remunerate them by fees, fixed by scale, according to the number of scholars, and the instruction imparted to each.

- "(7.) That in case a licensed teacher be guilty of a misdemeanour, or of conduct unbecoming a gentleman, it shall be lawful for the Secretary for Public Education to suspend or cancel the license of such teacher without prejudice to any criminal or civil proceedings that may be instituted against him, and from that date, or until his suspension be annulled, no further fees for teaching will be allowed to him out of the Public Treasury ; but so long as the teaching of a schoolmaster be consistent with the laws of God, of this Country, and of good morals, it shall not be lawful to interfere with him on account of his religious principles, or religious teaching—the parents themselves being the sole judges of what kind of religious instruction they conceive to be best suited to secure the temporal and spiritual welfare of their children.
- "(8.) That no limit be placed in the number of teachers to be licensed (provided only they be competent), more especially as the mere licensing of teachers will be no expense to the Government, since a teacher without scholars would receive no fees.
- "(9.) That an Address be presented to the Governor, praying that His Excellency will be pleased to cause a Bill to be prepared embodying the above resolutions, and laid before the House at an early opportunity,"—resumed and continued.

No. 20.

VOTES AND PROCEEDINGS

OF THE

LEGISLATIVE ASSEMBLY.

FRIDAY, 24 JULY, 1863.

1. The House met pursuant to adjournment; The Speaker took the Chair.

Questions on Notice Paper for to-day :—

(1.) Benevolent Asylum, Sydney, and Country Hospitals,—Pastoral Interests Contribution Bill :—Mr. Burns asked the Colonial Secretary, pursuant to Notice No 1,—

(1.) Whether he is aware that the authorities of the Benevolent Asylum have in some cases declined, on the ground of inadequacy of means, or insufficiency of accommodation, to sanction the admission to that Institution of infirm and destitute persons, recommended by the Committee of the Maitland Hospital?

(2.) Under what regulations admissions are made?

(3.) If the Government contributions to country hospitals will be increased, to enable them to maintain persons of this class?

(4.) Whether, in the event of the unclaimed poundages being in future appropriated as proposed in the Pastoral Interests Bill, the Government contemplate giving compensation for the serious losses which the Hospitals will thereby sustain?

Mr. Cowper answered :—

(1.) Although at one time, I believe, the Board did decline to receive some patients on the ground of insufficiency of accommodation, that is no longer a reason why persons, who are otherwise eligible, should not be admitted, and I believe all objection on that ground is now removed, as another house has been rented at Liverpool.

(2.) The Government have given instructions for the admission of such patients, but as the Honorable Gentleman has put the Question, I think I ought not to answer it without making some explanation, and it is this; that the managers of the Country Hospitals—and Maitland is one of them—seemed to think that they could give orders for the admission of patients without making application, or giving such information as the Board required. I find that some particulars, such as age, infirmity, occupation, &c., of the parties are generally required, and that an application should be made, and not an order given, for their admission. It appears the Country Hospitals seem to think they can send all paupers from their District into Sydney, and sometimes the objection is made that they are proper objects for the Hospital rather than for the Benevolent Asylum. The Bye-Laws, in reference to the subject, are the following:—“No. 27—“Persons eligible for admission to the Institution shall be those only, who, in the opinion of the Board, are infirm and destitute. No. 28—Except in cases of great urgency, no person shall be admitted as an inmate of the Institution otherwise than at a meeting of the Board. No. 29—Recommendations for admission must be from those to whom the applicants are personally known, and who, from such personal knowledge, can certify conscientiously to their bodily infirmity and actual destitution.” Some time ago there was considerable difficulty with reference to these applications, but I believe these matters are now better understood, and that applications are made in the proper form, and generally attended to.

(3.) I find that Maitland receives £600 from the Government, in aid of its Hospital, and that, I think, is a contribution not to be despised.

(4.) With regard to the fourth Question, I may say, that the Pastoral Interests Bill has not yet passed; when it has passed, it will be time enough to take that matter into consideration.

(2.)

- (2.) New Court House, Singleton:—Mr. Harpur asked the Secretary for Public Works, pursuant to Notice No. 2,—When the erection of the new Court House at Singleton, for which a sum of money was voted last Session, will be commenced by the Government; and the reason why it has been so long delayed?
Mr. Arnold answered:—The Honorable Member is wrong in supposing that any special vote was taken last Session for this purpose; but it was the intention of the Government to erect a Court House at Singleton out of the general vote which was assented to by the House. The reason why so long a delay has occurred, has been, that Singleton is a private Township, and Government have no land for the purpose of building a Court House. In consequence of this, tenders were called for for land suitable for the site of such a building, and since these tenders were received, they have been referred to the proper Officer for report, but no report has at present been received.
- (3.) Bridge at Nundle:—Mr. Burdekin asked the Secretary for Lands, pursuant to Notice No. 3,—What steps have been taken for the erection of a Bridge over the Peel River at Nundle?
Mr. Robertson answered:—Plans and Specifications have been prepared.
- (4.) Great Southern Railway:—
(1.) Contract No. 2:—Mr. Morrice asked the Secretary for Public Works, pursuant to Notice No. 4:—
(1.) Are the Government aware that the works on Contract No. 2, Great Southern Railway, have been at a standstill for the last seven months?
(2.) What steps do the Government intend to take, and when?
Mr. Arnold answered:—
(1.) The Government are unfortunately aware that the works on Contract No. 2, Great Southern Railway, have been suspended for some time.
(2.) The steps rendered necessary in consequence of this suspension have already been taken; the steps, of course, being to substitute for a defaulting contractor others, we trust, of a more reliable character.
- (2.) Contract No. 3:—Mr. Morrice asked the Secretary for Public Works, pursuant to Notice, No. 5:—
(1.) What time is Mr. Randle allowed, from present date, for the completion of Contract No. 3, Great Southern Railway?
(2.) Has he sufficient plant and men on the work to complete the Contract in the time?
(3.) What penalty will be enforced if the Contract is not carried out in the stated time?
(4.) Has Mr. Randle been written to respecting the progress made?
Mr. Arnold answered:—
(1.) The term allowed for the completion of Mr. Randle's Contract No. 3, expires on the 7th July, 1864.
(2.) In answer to the second Question, I would say, that the plant and men upon the work at the present time are not sufficient to enable Mr. Randle to complete the contract within his term. At the same time, I may observe, that that does not at all prove that Mr. Randle may not increase his plant and men sufficiently to enable him to complete the contract within the specified period; and this, Mr. Randle says, it is his intention to do.
(3.) The penalty for non-completion of the contract is £5,000. That is the penalty named in Mr. Randle's bond.
(4.) Mr. Randle has been written to, not so much respecting the progress made, as respecting the want of progress made.
- (5.) Roads—Singleton and Fall Brook, &c.:—Mr. Dangar asked the Secretary for Lands, pursuant to Notice No. 6:—
(1.) When the road from Singleton to Goorengola Creek and Fall Brook, will be proclaimed and opened to the Public, the survey of this road having been completed in May, 1860.
(2.) When will final answers be given to the Petitions and Letters, sent to the Secretary for Lands, on the subject of the Goorengola line of road from Singleton to Fall Brook?
Mr. Robertson answered:—
(1.) If the Road referred to is that leading from Goorengola to Singleton, it is delayed in consequence of the injury that would be inflicted upon the holders of certain enclosed lands through which it passes. It has not been considered to be a road of sufficient importance to be fenced at the public expense, and it would be obviously improper to open the grounds without fencing off the road. If the road intended is that leading from Goorengola to Camberwell, it will provide access to the main road to many of the parties interested in the above, and is considered of sufficient importance to warrant its being fenced through enclosed land, where no road was previously reserved, at the public expense.
(2.) The matter is under consideration, and I shall be able to determine what Government will do in the course of a few days.
(*Mr. Dalgleish not asking the Question standing in his name, No. 7, it dropped.*)
- (6.) Roads, Shoalhaven District:—Mr. Dalgleish asked the Secretary for Lands, pursuant to Notice No. 8:—
(1.) When will the Road from Bomadary Ferry to Nowra, recently proclaimed, and partly fenced, be opened; have the Bench received instructions not to open the said Road?
(2.)

(2.) What is the amount of money appropriated for Roads in the Shoalhaven Police District; what number of Inspectors or Overseers have received Appointments in the said District; their salaries and names?

Mr. Robertson answered:—

(1.) In reply to the first of these Questions, I desire to say, that the opening of the road from Bomadery to Nowra has been delayed through a question as to the legality of carrying it through Mr. Hyam's garden. It has been recommended by Mr. District Surveyor Trynam, that that portion should not be opened till the expiry of Mr. Hyam's lease in 1866 or 1867. Instructions have been given to stay the fencing, pending this decision, when it will be proceeded with. The Road, as intended, passes through a garden, which is under lease to Mr. Hyam. The law prevents our going through this garden without the consent of the owner. The proprietor is willing, the tenant is unwilling, and therefore it is thought desirable to let the road go round in the mean time, till the tenant's lease is up, and in that way to get over the difficulty.

(2.) With regard to the second Question as to the amount of money appropriated for roads in the Police District of Shoalhaven, for 1863, I would say, that from Broughton Creek to the Kangaroo Ground there has been £63; from Nowra Municipality, *via* Ulladulla, to Bateman's Bay, £504; from the Nowra and Ulladulla Road, at Tomerong, to Jervis Bay, £49; from the Nowra Municipality to Greenwell Point, £130; from Nowra, *via* Sassafras Range, to Braidwood, £245; and from Brown's Mountain to Bomadery Ferry, £60. Four working Overseers are employed on the roads in question, namely, Messrs. A. Campbell, E. Ryan, A. McKenzie, and J. Clarke.

VOTES AND PROCEEDINGS

OF THE

LEGISLATIVE ASSEMBLY.

TUESDAY, 28 JULY, 1863.

1. The House met pursuant to adjournment; The Speaker took the Chair.

Questions on Notice Paper for to-day:—

- (1.) Payments to Clergymen and Schoolmasters from Church and School Lands Revenue:—Mr. Dalgleish asked the Colonial Secretary, pursuant to Notice No. 1,—

(1.) The date on which the first payment was authorized or made to any Clergyman from the Church and School Lands Revenue; the amount so paid, and the names and Denominations of Religion of the recipients?

(2.) The date on which the first payment was authorized or made to any Schoolmasters from the Church and School Lands Revenue; the amount so paid, and the names and Denominations of Religion of the recipients?

Mr. Cowper answered:—

(1.) In reply to the Honorable gentleman, I would state, that the date on which the first payment was authorized to be made to any Clergyman from the Church and School Lands Revenue, was the 4th October, 1852; that on 30th November, 1854, the sum of £4 3s. 4d. was paid to the Rev. C. P. N. Wilton, as Church of England Chaplain to the Stockade, at Newcastle; and £2 1s. 8d. to the Rev. G. K. Rusden, the Rev. Thomas Sharpe, and the Rev. H. H. Bobart, of the Church of England; and to the Rev. J. T. Lynch, and the Rev. Jerome Keating, of the Church of Rome; all as Chaplains of Gaols.

(2.) In reply to the second Question: In the year 1834, the Church and School Estates Revenues were first paid into the Colonial Treasury; previous to which, there were no accounts of disbursements in the Audit Office. In the year 1851, the accumulated balances up to 1849, were paid over in the proportion of five-sevenths to the Public Worship Fund in gross, and the remaining two-sevenths were paid over in 1851 and 1852 to the Denominational and National Schools in equal proportions; the proportion for the Denominational School being distributed to the four Denominations in the same manner as the Public Worship Fund was distributed at that period, namely, according to the Census of 1841.

- (2.) Mr. Road Superintendent Keele:—Mr. Dangar asked the Secretary for Lands, pursuant to Notice No. 2,—Has Mr. Keele, the Minor Road Superintendent for the County of Cumberland, more authority than other Road Superintendents, and does he advertise Road Contracts in the *Government Gazette* and local newspapers before letting the work.

Mr. Robertson answered:—In reply to the Honorable Member, I would say, that Mr. Keele has no more authority than other Road Superintendents. When Road Contracts are called for within Mr. Keele's District, tenders are invited by notice in the *Government Gazette* and the daily journals. It is believed that there are no local newspapers in the County of Cumberland. Contracts for the following works were called for by advertisement in the *Government Gazette*, and both daily papers, viz.:—28th May, 1863, Road from Old Botany Road to La Perouse's Monument; 17th June, Bridge over Mount Hunter Creek; 17th June, Bridge over Cabramatta Creek; 17th June, New Road to Wiseman's Ferry; 17th June, Repairs to Wharf at same place.

No. 22.

VOTES AND PROCEEDINGS
OF THE
LEGISLATIVE ASSEMBLY.

WEDNESDAY, 29 JULY, 1863.

1. The House met pursuant to adjournment; The Speaker took the Chair.

Questions on Notice Paper for to-day :—

- (1.) Payment of Stipends to Absent Ministers of Religion :—Mr. W. Forster asked the Colonial Secretary, pursuant to Notice No. 1 :—

(1.) Is it the intention of the Government to continue the payment of stipends to other Ministers of Religion, during their absence from the Colony, as well as to the Bishop of Sydney ?

(2.) If so, from what fund, and by what authority ?

Mr. Cowper answered :—I beg to state, it is the intention of Government to give Stipends to Clergymen who may obtain leave of absence for a time ; and I believe I am right in stating, there is nothing in law to prevent the payment of Salaries to those Clergymen who may obtain leave of absence under the regulations of the Government, and during which time they will be paid such proportions of their Stipends as the regulations of Government fix.

- (2.) Account in Detail of Appropriation of Police Reward and Superannuation Funds :—Mr. Dalgleish asked the Colonial Secretary, pursuant to Notice No. 2 :—

(1.) Whose duty is it to cause to be laid upon the Table of this House, an Account in detail of the Appropriation of the Police Reward Fund and Superannuation Fund, in accordance with the Act 16th Vict., No. 25, sec. 31 ?

(2.) Has such Account been laid upon the Table of this House ; if so, when ?

Mr. Cowper answered :—

(1.) I hope my reply will clear me from the charge of either want of knowledge of the law, or of neglect of having complied with it. The Act the Honorable Member quotes relates to Foreign Seamen, and, in no respect, to the subject brought under the consideration of the House.

(2.) Accounts in detail, in accordance with the 25th Victoria, No. 16, not the 16th Victoria, No. 25, sec. 31, of the funds referred to, included in the Abstracts of the Public Accounts, were laid upon the Table of the House, on the 23rd of last month ; I hold them in my hand, and beg to refer the Honorable Member to pages 83 and 85 of that Return.

- (3.) Commons :—Mr. Dangar asked the Secretary for Lands, pursuant to Notice No. 3, —When Trustees will be appointed for the various Commons dedicated, and Deeds of Grant issued, as required by law ?

Mr. Robertson answered :—In reply to the Honorable Member, I would suggest to him that I am afraid he misconceives the intention of the law. As I understand him, he seems under the impression that the Government have the appointment of the Trustees of Commons ; such is not the case. I may add, in order to give the Honorable Member the information I imagine he desires, that instructions were some time back given, that all Commons within Municipalities should be handed over to such Municipalities, in accordance with the law. Also, I would convey to the Honorable Member, that the law provides, that Commons, not within Municipalities, shall only be handed over to Trustees after their election by the Commoners. Arrangements are now in progress to carry out such elections.

(4.)

- (4.) Registry of Wrecks, &c. :—Mr. Stewart asked the Colonial Treasurer, pursuant to Notice No. 4,—Have the Government taken any steps to establish a Registry of Wrecks and Loss of Life which take place on the coast, in accordance with a Resolution of this House, of 16th December last?
Mr. Smart answered :—In answer to the Honorable Member's Question, I beg to inform him, that a Register has been kept since the 1st of January, 1863, according to a form that has been distributed at all the sea-ports, where all Wrecks that are known to have occurred are recorded.
- (5.) Pilotage and Harbour Dues, at Twofold Bay :—Mr. Stewart asked the Colonial Treasurer, pursuant to Notice No. 5,—What amount of Pilotage and Harbour Dues were collected at Twofold Bay, during the year 1862?
Mr. Smart answered :—I beg, in answer to the Honorable Member's Question, to state, that £63 15s. have been received from Pilotage for the year 1862. Nothing has been received from Harbour Dues by the Government.
- (6.) Tender of Mr. Charles Fowler for Railway Locomotives :—Mr. Dalgleish asked the Secretary for Public Works, pursuant to Notice No. 6,—If a letter from Mr. Williams, on the subject of the Tender of Mr. Chas. Fowler for the supply of eighteen Locomotives, has been omitted from the papers laid upon the Table of this House?
Mr. Arnold answered :—I beg to inform the Honorable Member, that I find a letter from Mr. Williams has been omitted from this Return. There is no objection to lay the letter upon the Table of the House.
2. Motion Withdrawn :—Mr. Morris withdrew the Motion standing in his name, No. 2 on the Notice Paper of Other Business for to-day.
3. Public Education Bill :—Mr. Smart presented a Petition from certain Members of the Church of England, holding the position of Members of Local Boards for the Management of Schools in various Parishes, adverse to this Bill,—
And the same having been read at length by the Clerk, by direction of the Speaker,—
Petition received.

Bill then withdrawn, on motion of Mr. Smart.

No. 23.

VOTES AND PROCEEDINGS
OF THE
LEGISLATIVE ASSEMBLY.

THURSDAY, 30 JULY, 1863.

1. The House met pursuant to adjournment; The Speaker took the Chair.

Questions on Notice Paper for to-day:—

- (1.) Road from Gunning to Burrowa:—Dr. Lang asked the Secretary for Lands, pursuant to Notice No. 1,—When will the Government be prepared to carry out the proposed Repairs on the Minor Road from Gunning to Burrowa?

Mr. Robertson answered:—In reply to my Honorable and Reverend friend, I would say, that the expenditure of the money granted for repairs of this road is delayed until the course which it will ultimately take has been determined by survey. The field work has been completed, and plans may be expected daily.

- (2.) Supreme and District Court Sittings at Bathurst:—Mr. Driver asked the Colonial Secretary, pursuant to Notice No. 2,—

(1.) Are the Government aware that, with only one Court House in the Town of Bathurst, Judge Cary has fixed the 14th day of September next, for holding the District Court there, at which time the Sittings of the Supreme Court, for the trial of causes, will be held?

(2.) Will any steps be taken by the Government to alter the date of the September Sittings of the said District Court?

Mr. Cowper answered:—It is not impossible that the Sittings of the Supreme Court may be closed by the 14th September next; if so, no inconvenience will arise. I will take care that communication shall be made to Mr. Justice Cary, if any inconvenience should arise, that steps may be taken by him to adjourn his Court.

- (3.) Mr. Road Superintendent Keele:—Mr. Daugar asked the Secretary for Lands, pursuant to Notice No. 3,—

(1.) The number of Men each Road Overseer has to Superintend, and watch, under the directions of Mr. Superintendent Keele, and his assistants?

(2.) Where the Overseers are stationed, and the names of those appointed, and the Districts for the nineteen Working Overseers?

Mr. Robertson answered:—In reply to the Honorable Member, I would say that I have ascertained this morning that Mr. Keele is now examining the road from Manly Beach to Lake Macquarie by way of Pitt Water, a road which is considered to be of some importance, and very desirable to be thrown open;—thus I have not had an opportunity of ascertaining from that gentleman the information required by the Honorable Member, but I believe he will be in town to-morrow or the day after, and I shall then be able to answer the Question if the Honorable Member will ask it to-morrow or on Tuesday next.

(Mr. Stewart withdrew the Question standing in his name, No. 4.)

- (4.) Criminal Statistics—Charge Sheets:—Mr. Dalgleish asked the Colonial Secretary, pursuant to Notice No. 5,—If there are not daily and weekly Charge Sheets made out at every Police Station in the Colony, and forwarded to the Central Police Office, where they were available, to furnish the materials of the Criminal Statistics laid upon the Table of this House by the Colonial Secretary?

Mr. Cowper answered:—I have been informed that, as soon as practicable after the introduction of the New Police system, printed Charge Books were supplied to be kept at each Lock-up in the Colony, to contain the name and other particulars respecting every prisoner arrested; a copy of the entries each week being transcribed upon the Daily Report furnished to each Superintendent, and by

by him transmitted to the Inspector General. Such returns were not available to furnish the materials for the statistics referred to, as it was not possible to bring the books into general use for some months after the new system commenced (1st March, 1862) the date from which the Return of Apprehensions, &c. commenced; and further, even from the date the Lock-up Returns are perfect, it would occupy several months close attention to prepare statistics therefrom, and they only give the result of the cases before Petty Sessions.

MR. SPEAKER,—

That, in the opinion of this House, it is expedient and desirable, that the name of this Colony of “New South Wales” having been originally given to it from mere accident and caprice, and being neither historical nor appropriate, should now be changed, and a name at once historical, distinctive, and appropriate, substituted in its stead.
 - (2.) That the only name that would fulfil these conditions, and that deserves at the same time so honourable a commemoration, is that of the illustrious discoverer of this Country, Captain Cook; in honour and in grateful remembrance of whose eminent and distinguished services to humanity, and to Australia in particular, it is the opinion of this House, that this Colony should henceforth be designated “Cookslaud.”
 - (3.) That the recent change of the name of a neighbouring Australian Colony from “Van Diemen’s Land” to “Tasmania,” in honour of the illustrious discoverer of that Country, Abel Jansen Tasman, after it had borne the name he had himself originally given it for upwards of 200 years, affords a suitable precedent both for the proposed change itself, and for the name which it is proposed to honour.

VOTES AND PROCEEDINGS
OF THE
LEGISLATIVE ASSEMBLY.

TUESDAY, 4 AUGUST, 1863.

1. The House met pursuant to adjournment; The Speaker took the Chair.

Questions on Notice Paper for to-day :—

- (1.) Mr. Road Superintendent Keele :—Mr. Harpur, on behalf of Mr. Dangar, asked the Secretary for Lands, pursuant to Notice No. 1,—

(1.) The number of Men each Road Overseer has to superintend, and watch, under the directions of Mr. Superintendent Keele, and his assistants?

(2.) Where the Overseers are stationed, and the names of those appointed, and the Districts for the nineteen Working Overseers?

(3.) What roads are placed under the management of Mr. Keele; the amount of money allowed for each road so placed; also the amount expended on each road up to the 25th July.

Mr. Robertson answered :—Mr. Keele has but one Overseer to assist him in the management of the working parties under his charge. There were nineteen of these working parties, thirteen of which consisted of three men; four of four men; one of six men; and one of eight men; including in each case the working overseer. I may take this opportunity of saying that, on a question being put by the same Honorable Member, a little time ago, I spoke of all these overseers as being in the County of Cumberland; some of these parties are outside that County, but the error arose from the Superintendents being called the Superintendents of Minor Roads in the County of Cumberland. The roads on which the parties I have referred to are employed, are,—the road from Newtown *via* Enmore and Undercliff Bridge to George's River;—that is the road on which this party is now employed;—the additional roads which they will have to take charge of will be Newtown Road, near the Church, to Botany Road, and the same by Unwin's Bridge to Undercliff Road. Another road is Rocky Point Road to George's River Road; another from St. Leonard's to Pennant Hills (first half); Manly Cove to Pitt Water; St. Leonard's to Pennant Hills (second half); Parramatta to Bedlam Ferry; Pitt Town to Wiseman's Ferry; Black Town Road to Windsor Road; Main Western Road, near Penrith, to Bringelly; from Main Western Road, near Parramatta, *via* Smithfield towards Cabramatta; Menangle to Picton; Menangle to Main Southern Road, at foot of Razorback; Appin *via* Rixon's Pass to Wollongong and Bulli Road; Appin *via* Broughton's Pass and Mount Keira to Wollongong and Kiama Road; Nowra Municipality to Greenwell Point; Nowra and Ulladulla Road, at Tomcrang, to Jervis Bay; Nowra Municipality *via* Ulladulla to Bateman's Bay; Main Southern Road, at Camden, towards Burragorang; Nowra Municipality *via* Sassafras Range to Braidwood. The Honorable Member also asks of me to say what amount of money has been expended on each road up to the 25th of July. The accounts are made up only to the end of each month, and, therefore, I am not in a position to give the information.

- (2.) Mr. Martin Gardiner :—Mr. Dalgleish asked the Secretary for Public Works, pursuant to Notice No. 2,—If he will cause to be laid upon the Table of this House, copies of the following documents :—

(1.) Letter from Martin Gardiner, dated from Melbourne, 22nd May, 1860.

(2.) Letter from Martin Gardiner to Engineer-in-Chief, dated 11th December, 1860, and the Engineer-in-Chief's reply, 14th December, 1860.

(3.) Minute Papers relating to, and preceding the appointment of Martin Gardiner, "to carry out certain Surveys on the Line of Road from Bowenfells to Mudgee."

(4.)

(4.) Minutes and Correspondence relating to the Survey and laying out of the Road over Cherry Tree Hill, by Mr. Gardiner.

(5.) All Correspondence between Martin Gardiner and the late Commissioner for Roads, Mr. Collett.

Mr. Arnold answered :—I beg to inform the Honorable Member, that I shall not feel justified in procuring copies and laying upon the Table of the House documents that I have no reason to suppose will be of general interest to the House, without an express order to that effect, but I am not aware of any objection to their production. In the absence of the Engineer-in-Chief, I am unable to speak more precisely.

(3.) Schoolmaster at Cockatoo Island :—Mr. Hart asked the Colonial Secretary, pursuant to Notice No. 3,—

(1.) What are the hours assigned to the Schoolmaster at Cockatoo Island for the performance of his duties ?

(2.) Has any Time Table been established for his guidance ?

(3.) Who has the superintendence of the School ?

Mr. Cowper answered :—

(1.) The hours are from 9 a.m. to 1 p.m., and from 2 to 3 p.m., daily. On Saturdays from 9 a.m. to 1 p.m. only.

(2.) In reply to the second Question, I beg to say that there is not what is technically a Time Table, but there is a record of attendance and progress kept.

(3.) The Schoolmaster is under the Superintendent of the Island.

(4.) Reservations upon Runs in Tumut District :—Mr. Rusden asked the Secretary for Lands, pursuant to Notice No. 4,—When the Returns moved for by the Honorable Member for East Sydney, Mr. Forster, having reference to the Gocup and Gadura Runs, on the 22nd July, 1862, will be laid on the Table of the House ?

Mr. Robertson answered :—I believe the Returns will be ready in the course of a week.

(5.) Suppression and Punishment of Drunkenness :—Mr. Rotton asked the Colonial Secretary, pursuant to Notice No. 5,—Has he any intention of bringing in any measure during the present Session for the suppression and punishment of the offence of drunkenness ?

Mr. Cowper answered :—I beg to state that, in the Bill which is now before the other branch of the Legislature, intituled, "A Bill for Amending and Consolidating the Criminal Law," there will be a clause introduced specially dealing with this offence.

(6.) Scab in Sheep Act :—Mr. Gordon asked the Secretary for Lands, pursuant to Notice No. 6,—

(1.) How many sheep have been destroyed under the "Scab Act" since the 20th November, 1862 ?

(2.) In what localities ?

(3.) Has compensation been given, in all instances, to the owners of these sheep ?

(4.) What sum of money is at the credit of the "Scab in Sheep Act Fund" ?

(5.) Is it the intention of the Government to introduce a new Scab Act shortly ; if so, when ?

Mr. Robertson answered :—I think, by reading the following Return, I shall answer all the Questions of my Honorable friend excepting one, and that Question I will answer separately. The number of sheep destroyed, the locality, and the compensation paid, stand thus :—2,909 were destroyed at Colypen Station, £581 16s. (this compensation is paid, or is yet to be paid, under a schedule setting out the particulars) ; 802 at Appletree Flat, £160 8s. ; 200 at Middle Island, £40 ; 11,986, Mooki Station, £2,397 4s. ; 2,105, Liverpool Plains, £421 ; 1,851, Bald Hills, £370 4s. ; 1,819, Cathabri Station, £364 ; 2,400, Miller's Creek, £480 ; 600, Bevigella East, £120 ; 308, Lemon Grove, £61 12s. ; 266, Warkworth, £53 4s. ; 1,400, Parramatta, £280 ; 220, Doctor's Creek, £44 ; 2,626, Arrowfield and Sadleir's Creek, £43. This last sum is for the cost of destruction, under Schedule E of 24th Vict., No. 9. The balance to the credit of the fund is £1,102 18s. 7d. It is the intention of the Government to bring in a Scab Act, and I have no doubt I shall be able to shew it to my Honorable friend to-morrow. I believe the House is already aware, that in consequence of some change in the practice as to the introduction of Money Bills, there has been a difficulty in bringing in this Bill. A question has arisen in the way I have referred to, and we are not even now in a position to determine the kind of Message it will be proper for the Government to send down with this Bill. It seems now, for the first time, that a Message must come down from the Governor with this Bill, and that is the reason of the delay.

(2.)

- (2.) That the only name that would fulfil these conditions, and that deserves at the same time so honourable a commemoration, is that of the illustrious discoverer of this Country, Captain Cook; in honour and in grateful remembrance of whose eminent and distinguished services to humanity, and to Australia in particular, it is the opinion of this House, that this Colony should henceforth be designated "Cook'sland."

That the recent change of the name of a neighbouring Australian Colony from "Van Diemen's Land" to "Tasmania," in honour of the illustrious discoverer of that Country, Abel Jansen Tasman, after it had borne the name he had himself originally given it for upwards of 200 years, affords a suitable precedent both for the proposed change itself, and for the name which it is proposed to honour.

VOTES AND PROCEEDINGS

OF THE

LEGISLATIVE ASSEMBLY.

WEDNESDAY, 5 AUGUST, 1863.

1. The House met pursuant to adjournment; The Speaker took the Chair.

Questions on Notice Paper for to-day:—

- (1.) Railway Statistics:—Mr. Alexander asked the Secretary for Public Works, pursuant to Notice No. 1,—

- (1.) The number of miles opened for Traffic on the Southern Railway?
- (2.) The number of miles opened for Traffic on the Northern Railway?
- (3.) The number of miles opened for Traffic on the Western Railway?
- (4.) The number of miles Contracted for on the Southern, Northern and Western Lines of Railway?
- (5.) What progress has been made in the Southern, Northern and Western Lines of Railway?
- (6.) What is the cost per mile of the Southern, Northern and Western Lines of Railway?
- (7.) What are the dates when Contract for Railway from Parramatta to Liverpool was accepted, and when was the Line opened?
- (8.) What are the dates when Contract for Railway from Liverpool to Campbelltown was accepted, and when was that Line opened?
- (9.) What are the dates when Contracts for Railway from Campbelltown to Picton was accepted, and when was that Line opened?
- (10.) Was the Contract time for these extensions exceeded; if so, how much?
- (11.) Has the Contract No. 2, from Picton, that was surrendered by Shuttleworth and Wallace, accepted by Larkin and Wakeford, been confirmed; if so, what time has elapsed since the offer was made by Larkin and Wakeford?
- (12.) Does the Secretary for Public Works purpose to carry out his promise made to the Deputation that waited on him on the 4th June, 1862; "that within fifteen months Tenders would be called for, for the Line of Railway to Goulburn"?

Mr. Arnold answered:—

- (1.) The number of miles opened upon the Southern Railway, that is to say, from Sydney to Picton, is 53.
- (2.) The number of miles opened for traffic on the Northern Railway, that is to say, from Newcastle to Singleton, is 49.
- (3.) The number of miles opened for traffic on the Western Railway, that is to say, from Sydney to Penrith, is 34.
- (4.) The number of miles of new Railway extension contracted for to the south, is 88, and 7 chains. The number contracted for to the north, 15, and 37 chains, and to the west, 38, and 8 chains.
- (5.) I hardly understand the Honorable Member's fifth Question, for it appears to me to be answered by the answers to the other Questions, unless he means the progress that has been made in the new contracts. The progress that has been made upon the extensions under the new contracts will perhaps be best indicated by the amounts expended upon certificates, up to those last received a month ago. These amounts were—for works towards the South, £27,433; towards the West, £24,471; and towards the North £2,514.

(6.)

(6.) The cost per mile of the Southern Railway to Picton has been £25,910. The cost per mile to Singleton has been £16,071. The cost per mile to Penrith—that is to say, from the Parramatta Junction, has been £15,191.

(7.) The date of the contract from Parramatta to Liverpool was the 12th November, 1855, and the line was opened on the 1st September, 1856.

(8.) The date of the contract for the Railway from Liverpool to Campbelltown was the 30th June, 1857, and a subsequent contract for another portion of the work was made on the 1st October, 1857. That line was opened on the 17th May, 1858.

(9.) The date of the contract for the Railway from Campbelltown to Picton was the 15th April, 1859, and that line was opened on the 1st July, 1863.

(10.) The contract time for the line from Parramatta to Liverpool was not exceeded, the contractor having been Mr. Randle. The contract time for the completion of the line from Liverpool to Campbelltown was exceeded by forty-seven days; that was also completed by Mr. Randle. The contract time for the completion of the line from Campbelltown to Picton was exceeded by thirty months; that was one of the contracts of Messrs. Peto and Company.

(11.) The contract for No. 2, from Picton, has been transferred to Messrs. Larkin and Wakeford. The first offer made by Larkin and Wakeford, was dated 4th March last, but in consequence of several difficulties intervening, the terms of assignment were not finally agreed upon until the 20th June.

(12.) With regard to the twelfth Question, I may tell the Honorable gentleman, generally, that I intend to carry out all the promises I make to everyone, but I do not admit that I made any such promise as that suggested in this Question. I find from a report of the meeting that took place between the deputation and myself, on the occasion in question, that I am said to have informed this deputation that, acting under the order of the House, I should feel myself obliged to carry on the different extensions as nearly simultaneously as possible, and the Honorable gentleman will perceive that, if I have deviated from the strict letter of this intention, it has been in favor of the Southern Line.

- (2.) Members of Parliament employed by the Government:—Mr. Rotton asked the Colonial Secretary, pursuant to Notice No. 2,—When the “Return shewing the Names of all Members of Parliament who have in any way been employed by the Government or its officers, the Nature of the Employment, and the Amount of Remuneration paid for such Services, during the present Parliament,” ordered by this House on the 21st October last, will be laid upon the Table?

Mr. Cowper answered:—I beg to lay upon the Table of the House, the Return in answer to an Address of the Legislative Assembly, dated 21st October last, alluded to by the Honorable Member.

- (3.) National and Colonial Emigration Society:—Mr. Rotton asked the Secretary for Lands, pursuant to Notice No. 3,—

(1.) Is he aware whether His Excellency the Governor has received any Communication from the Duke of Newcastle, with reference to the formation and objects of the National and Colonial Emigration Society?

(2.) If so, is there any objection to furnish this House with a copy of such Communication, and His Excellency's answer thereto?

(3.) Has the Government had any Correspondence with the Committee of the Society referred to?

(4.) If so, is there any objection to furnish this House with a copy of such Correspondence?

Mr. Robertson answered:—

(1.) In reply to the first and third questions of my Honourable friend, I would say, that there has been a Circular Despatch from the Duke of Newcastle on the subject referred to, and there has, also, been some Correspondence with the Society.

(2.) In regard to the second question, I would say, that the Government have no objection, provided the House desire it.

(3.) With regard to the fourth question, I would make the same reply as to the second.

2. Paper:—Mr. Cowper laid upon the Table Return to Address, in reference to “Members of Parliament employed by the Government,” adopted by the Legislative Assembly, on motion of Mr. Rotton, on 21 October, 1862. (*Being the Return mentioned in Mr. Cowper's Answer to Question (2) above.*)

No. 28.

VOTES AND PROCEEDINGS

OF THE

LEGISLATIVE ASSEMBLY.

FRIDAY, 7 AUGUST, 1863.

1. The House met pursuant to adjournment; The Speaker took the Chair.

Questions on Notice Paper for to-day:—

- (1.) Superannuation Bill:—Mr. Buchanan asked the Colonial Secretary, pursuant to Notice No. 2,—If the Government intend introducing, this Session, a Superannuation Bill; and if so, when?

Mr. Cowper answered:—I beg to say, that it is the intention of the Government to bring in either a Civil Service, or a Superannuation Bill during the present Session. I stated that on a former occasion, and I am now busy preparing a Bill, with such modifications and alterations as may seem desirable from the operation of the Civil Service Act in Victoria, and I shall, at the earliest possible moment, submit it to Parliament.

- (2.) Tramway between Tenterfield and Grafton:—Mr. Laycock asked the Secretary for Public Works, pursuant to Notice No. 5,—Do the Government intend to construct a Tramway between Tenterfield and Grafton; if so, when is it likely to be commenced?

Mr. Arnold answered:—The Honorable Member must be aware that, until the House has given its assent to a work of this kind, it is not in the power of the Government to proceed in the matter. A proposition was made to the House to vote a sum of money for the construction of a Line of Railway between Tenterfield and Grafton, but that proposal was refused by the House. A survey of the Line will probably be commenced as soon as other surveys of a more pressing character have been made.

- (3.) Telegraphic Wire between Grafton and Clarence River Heads:—Mr. Laycock asked the Secretary for Public Works, pursuant to Notice No. 6,—Do the Government intend to erect a Telegraphic Wire from Grafton to the Clarence River Heads; if not, do the Government intend to have the Road, lately surveyed between Grafton and the Clarence Heads, stumped and cleared?

Mr. Arnold answered:—There is no present intention on the part of the Government, to erect a Telegraphic Wire from Grafton to the Clarence River Heads. The second part of the Question is a matter connected with the Lands Department; having made application to the Department of Lands, I am informed there is no provision for this work.

(5.)

- (5.) Right of Free Selectors to Impound:—Mr. Laycock asked the Secretary for Lands, pursuant to Notice No. 4,—Whether Free Selectors have the right to Impound?
Mr. Robertson answered:—This, I think, is a Question more proper for any Free Selector interested in it to ask his Solicitor, but my own opinion—if that is of any value to him—is, that he has.
(*Mr. Walker not asking the Question standing in his name, No. 3, it dropped.*)
2. Public Education Bill:—The undermentioned Petitions, praying for the introduction of certain provisions into the said Bill, were presented by the Members respectively named:—

 - (2.) To make and completely finish, within three years from the time of signing the Contract, a single Line of Railway to Bathurst and Mudjee, from the extension beyond Penrith, for which Contracts have been taken; to find everything except Land; uphold and keep the same in repair for a period of one year after completion.
 - (3.) To make and completely finish, within five years from the time of signing the Contract, a single line of Railway from either Goulburn or Bathurst (whichever may after survey be found most eligible) to such place on the River Murray as will unite the Lines of Railway in this Colony with those of Victoria; to find everything except Land; uphold and keep the same in repair for a period of one year after completion.
 - (4.) To make and completely finish, within four years from the time of signing the Contract, a single Line of Railway from Singleton to Murrurundi; to find everything except Land, and uphold and keep the same in repair for a period of one year after completion.

No. 30.

VOTES AND PROCEEDINGS

OF THE

LEGISLATIVE ASSEMBLY.

WEDNESDAY, 12 AUGUST, 1863.

1. The House met pursuant to adjournment; The Speaker took the Chair.

Questions on Notice Paper for to-day :—

(1.) Road from Bathurst to the Lime Kilns :—Mr. Driver asked the Secretary for Lands, pursuant to Notice No. 1,—

(1.) Has any Road from the Town of Bathurst, leading through George's Plains and Church and School Lands to the Lime Kilns, been duly proclaimed by the Government; if so, when was the Proclamation published in the *Government Gazette*?

(2.) Was any person appointed by the Government to survey the said Road after such Proclamation?

(3.) Was any report made thereon; if so, what was the nature thereof?

(4.) Is it intended to open the said Road; if so, when?

Mr. Robertson answered :—I am afraid this mode of putting questions of this kind must necessarily lead to inconvenience. All the information the Honorable Member has asked for, or nearly all of it, is within the reach of the Honorable Member in the Parliamentary Papers and the *Government Gazette*, and really I can assure the House and the Honorable Member, that it takes up a great portion of the time of the Department of which I have the honour to be the head to prepare these answers. What with calls at the Office of Honorable Members, and of gentlemen not in Parliament, and the preparation of answers to these questions, I really find it difficult to carry on the business of the Office. However I shall endeavour to answer the Questions proposed.

(1.) In answer to the first Question, I will say, that the road was proclaimed by a *Gazette* Notice, dated 16th February last.

(2.) To the second, that no second survey has been made since the original one, which is the one in which that road was proclaimed.

(3.) No further report has been made—the necessity of the road being undoubted.

(4.) The opening of the road depends upon the legality of passing, within the distance prescribed by law, of a house erected by Mr. Smith since the survey was made. This question is under consideration of the Crown Law Officers.

(2.) Bench of Magistrates, Liverpool :—Mr. Sadleir asked the Colonial Secretary, pursuant to Notice No. 3.—Whether he has received a Memorial from several of the Inhabitants of Liverpool and the neighbourhood, expressive of their confidence in the Bench of Magistrates of that Police District, and whether he would place the same upon the Table of this House?

Mr. Cowper answered :—I have such a document, and have no objection to lay it on the Table of the House.

(3.) The Queen v. Whittaker (Administration of Justice) :—Mr. Martin asked the Colonial Secretary, pursuant to Notice No. 4.—When the Returns ordered by this House, so far back as the 2nd December last, in reference to Whittaker's case, are to be laid on the Table?

Mr.

Mr. Cowper answered:—I am sorry to be obliged to inform the House that these papers have been mislaid in my Office. I had them in my possession a short time ago, and as soon as they can be found they shall be laid upon the Table of the House. I am only sorry they should have been mislaid.

- (4.) Right of Magistrates at Young to exclude the Public from Police Courts:—
Mr. Martin asked the Colonial Secretary, pursuant to Notice No. 5,—Whether he has any objection to lay on the Table of the House a Copy of the opinion of the late Attorney General, Mr. Hargrave, as to the right of the Magistrates at Young to exclude the public from the Police Courts?

Mr. Cowper answered:—There is no objection. I shall be happy to lay them upon the Table of the House to-morrow, or next day.

- (5.) Alignment of Streets of Orange:—Mr. Martin asked the Secretary for Lands, pursuant to Notice No. 6,—Whether the Government have taken any and what steps towards the Alignment of the Streets in the Town of Orange, and when it is intended to complete such Alignment?

Mr. Robertson answered:—In reply to the Honorable Member, I would say, that the Surveyor now employed in the Alignment survey of Bathurst, will be despatched to Orange to perform the same duty in that Town. He will be occupied some time longer at Bathurst. I cannot exactly say when this surveyor will go there, but so soon as he has finished the Alignment at Bathurst, he will go to Orange.

- (6.) Clarence Breakwater:—Mr. Laycock asked the Secretary for Public Works, pursuant to Notice No. 8,—

- (1.) How many Engineers are employed at the Clarence Breakwater?
- (2.) The nature of the employment, and the amount of remuneration paid for such services?
- (3.) Whether such an expenditure of the Public Money is absolutely necessary?
- (4.) Whether one efficient Engineer would not be ample?
- (5.) Whether one of the Engineers is in receipt of an extra salary, as Post Master?

Mr. Arnold answered:—

(1.) In reply to the first Question of the Honorable Member, I beg to state, that there are two Officers employed at the Clarence Breakwater.

(2.) One gentleman, Mr. Barron, is employed as Resident Engineer, occasionally being detached for other duties in this neighbourhood. The second Officer is employed as Weighing Clerk, for the purpose of weighing stones that are deposited in the Breakwater. The amount of remuneration paid to the Resident Engineer is £550 a year, as voted by the House. The pay of the Weighing Clerk is £3 a week. It is paid out of the Vote.

(3.) This expenditure is represented by the Engineer-in-Chief as absolutely necessary. Of course that reply is an answer to the fourth Question, that one Officer will not be sufficient.

(4.) The gentleman who is employed as Weighing Clerk I find, on inquiry, has been appointed Postmaster, in which capacity I presume that his duties are not very arduous, judging from his salary, which is £12 a year.

- (7.) Protection of Life and Property from Floods—Inhabitants of Grafton:—

Mr. Laycock asked the Colonial Secretary, pursuant to Notice No. 9,—

(1.) Are the Government prepared to take strenuous measures to guard against injuries to life and property by floods?

(2.) If so, will they be prepared to hand over a portion of the money voted for contingencies, to the people of Grafton, for protection of life and property from flood?

Mr. Cowper answered:—

(1.) I would beg to state, in reply to the Honorable gentleman's Question, that in reply to an application made in July last to the Government, for some relief to families represented to be in distress in consequence of losses from the late calamitous floods, the Government did then appropriate the sum of £17 15s. 9d., for the immediate relief of these persons. The rule of Government is not, as the Honorable Member says, "to take strenuous measures to guard against injuries to life and property by floods," for I presume that is beyond our power, but when any persons are in absolute want, either from floods or any other cause, to see that those individuals do not starve, and the expenditure absolutely necessary is certified by the Magistrate, and is paid as a Police Contingency.

(2.) It would hardly be right to hand over any public money to what is called "the people of Grafton," or to the people of any other District, to do with it as they might please. We look to the Magistrates of a District as the only authority upon which we can rely. Trusting to them, the Government have never refused, upon their representations, what has been absolutely necessary to relieve those who have been suffering distress from floods.

- (8.) Conflicting Claim to Water Races:—Mr. Rusden asked the Secretary for Lands, pursuant to Notice No. 2,—

(1.) Was an Appeal Case, concerning a conflicting claim to Water Races, decided on the 30th of September, 1862, in favour of Mr. W. Thompson, of Meorendee, by the Chief Gold Commissioner, Mr. Harold McLean, and Messrs. Donald Campbell, and John Morgan?

(2.) Was this decision reversed by Mr. Sub-Commissioner Sibthorpe?

(3.) Has a further appeal, applied for under the Gold Fields Act, by Mr. W. Thompson, been refused him?

Mr.

Mr. Robertson answered:—I can only say, in reply to the Honorable Member, that the whole thing seems to me to be so thoroughly impossible that a Sub-Commissioner can over-ride the decision of his Chief, that I cannot imagine that the circumstances as stated can have occurred. However, I have not been able to learn that we have any correspondence in the Lands Office upon the matter. Mr. Fitzpatrick assures me that he knows nothing of it. He Telegraphed to Mr. McLean to know whether there had been anything of the kind, and has not been able to get any answer. As soon as I have an answer upon the matter, I will put the Honorable Member in possession of it.

(Mr. Faucett not asking the Question standing in his name No. 7, it dropped.)

2. Papers:—Mr. Cowper laid upon the Table the undermentioned Papers:—
 - (1.) Memorial from certain Inhabitants of Liverpool and the Vicinity thereof, addressed to the Honorable the Colonial Secretary, and dated 24 July, 1863, relative to the Magistrates of Liverpool and District. (*Being the Document referred to in the Question and Answer recorded in Entry (2) above.*)

Mr. Robertson moved, That the Question be amended by omitting all the words after the word “That,” with a view to the insertion in their place of the words “the Bill be re-committed for the re-consideration of Clause 8.”

Question,—That the words proposed to be omitted stand part of the Question,—put and negatived.

Motion made by Mr. Hart, and Question put,—That the proposed Amendment be amended by converting the word “Clause” into “Clauses,” and inserting thereafter the figure and word “3 and.”

 - (2.) That the recent change of the name of a neighbouring Australian Colony from "Van Diemen's Land" to "Tasmania," in honour of the illustrious discoverer of that Country, Abel Jansen Tasman, after it had borne the name he had himself originally given it for upwards of 200 years, affords a suitable precedent both for the proposed change itself, and for the name which it is proposed to honour.

No. 31.

VOTES AND PROCEEDINGS

OF THE

LEGISLATIVE ASSEMBLY.

THURSDAY, 13 AUGUST, 1863.

1. The House met pursuant to adjournment; The Speaker took the Chair.

Questions on Notice Paper for to-day :—

- (1.) Mr. Charles Dean :—Mr. Gray asked the Secretary for Lands, pursuant to Notice No. 1,—If it be still the determination of the Government to refuse a Deed to Mr. Charles Dean, of Lismore, Richmond River, for an Allotment of Land, purchased by him at a Government Land Sale, held at Casino, on the 22nd of April, 1853?

Mr. Robertson answered :—It is not in the power of the Government to grant a Deed for this Land to Mr. Dean, because the Government has already, in 1859, granted a Deed to Mr. Wilson. The allotment was offered to sale, through an oversight, in 1858, not in 1853. An order was given to withdraw the lot from sale as it contained valuable improvements made by Mr. Wilson, who had therefore, under the Queen's Orders in Council, the pre-emptive right to the land. Through delay arising from floods this order did not arrive in time, and the lot was knocked down to Mr. Dean. The mistake was immediately explained to him, and his money—the upset price—was offered to be refunded, but he declined to receive it. The Deeds for the land have long since issued to Mr. Wilson.

- (2.) Returns relative to Scab in Sheep :—Mr. W. Forster asked the Secretary for Lands, pursuant to Notice No. 2,—When will the Documents, relative to Scab in Sheep, ordered by the House, on 7th July, of the present year, be laid upon the Table?

Mr. Robertson answered :—I have a Memorandum, prepared by the Under-Secretary for Lands, who says, "Next week;" I hope they will then be ready.

No. 33.

VOTES AND PROCEEDINGS
OF THE
LEGISLATIVE ASSEMBLY.

TUESDAY, 18 AUGUST, 1863.

1. The House met pursuant to adjournment; The Speaker took the Chair.

Questions on Notice Paper for to-day:—

- (1.) Railway Statistics:—Mr. Alexander asked the Secretary for Public Works, pursuant to Notice No. 1,—

(1.) The total Cost per mile, including Bridges, on the Great Northern Railway Line?

(2.) The total Cost per mile, from Sydney to the Parramatta Junction?

(3.) The total Cost per mile, from Parramatta Junction to Penrith?

(4.) The total Cost per mile, from Parramatta Junction to Picton?

Mr. Arnold answered:—The Honorable Member's Question does not appear to me to be quite as distinct as I would have liked it, because I am not quite sure whether the Honorable Member wishes to include, in the cost per mile, all the incidental expenses, such as compensation for land, rolling stock, proportion of trial surveys, machinery, workshops, &c.

(1.) The total cost per mile, including bridges, cost of compensation for land, rolling stock, proportion of trial surveys, salaries, additions, machinery, workshops, &c., is, upon the Northern line—that is to say, from Newcastle to Singleton—£16,071, as I informed the Honorable Member a short time ago.

(2.) The total Expenditure, calculated in a similar way, from Sydney to Parramatta Junction, is £45,773.

(3.) The total Cost on the extension from Parramatta Junction to Penrith, has been £15,191 per mile.

(4.) And the total Cost from Parramatta Junction to Picton, has been £18,509 per mile.

I have taken the amounts, which I now give the Honorable Member, up to the time when I last answered these Questions. Since then there has been, of course, a trifling Expenditure, but this would amount to a mere fraction per mile.

 - (1.) That this House is of opinion that Messrs Peto and Co., or some such eminent Railway Contractors, should be requested to prepare an Estimate and submit a Tender to the Government for constructing certain Railways in New South Wales, in accordance with the following conditions:—
 - (1.) To make and completely finish, within three years from the time of signing the Contract, a single line of Railway to Goulburn from the termination of the present extension, for which Contracts have been taken; to find everything except Land; uphold and keep the same in repair for a period of one year after completion.
 - (2.) To make and completely finish, within three years from the time of signing the Contract, a single Line of Railway to Bathurst and Mudgee, from the extension beyond Penrith, for which Contracts have been taken; to find everything except Land; uphold and keep the same in repair for a period of one year after completion.
 - (3.) To make and completely finish, within five years from the time of signing the Contract, a single line of Railway from either Goulburn or Bathurst (whichever may after survey be found most eligible) to such place on the River Murray as will unite the Lines of Railway in this Colony with those of Victoria; to find everything except Land; uphold and keep the same in repair for a period of one year after completion.
 - (4.) To make and completely finish, within four years from the time of signing the Contract, a single Line of Railway from Singleton to Murrurundi; to find everything except Land, and uphold and keep the same in repair for a period of one year after completion.

(5.)

(5.) That the Government furnish Messrs. Peto and Co., or other Contractors invited to Tender, with a Copy of such Surveys or Plans and Sections, as far as they have been made for the above Lines, or that may be useful in preparing such Tender.

(6.) That "finding every thing" shall include the Engineering, Surveying, preparing all Plans, Sections, Drawings, setting out the Works, Rails, Chairs, Spikes, Bolts, Fish Plates, Sleepers, Ballast, Bridges, Culverts, Fencing, Level Crossings with Gates where required, suitable Stations with Platforms, Road Approaches, and everything else that may be required to complete a single Line of Railway to render it fit for Traffic.

(8.) That in the event of Messrs. Peto and Co., or other Contractors, acceding to this request, and causing trial levels and sections to be made, to enable them to prepare an Estimate and Tender, they shall, should their tender not be accepted, be paid the cost of such trial levels, surveys, and sections, which shall then become the property of the Government, and one-half the amount of such other reasonable expenses that may be incurred by them.

(2.) That this House is further of opinion, that for the purpose of paying off such loans as may be hereafter raised, Two per Cent. upon such amount shall be every year taken from the Consolidated Revenue and invested either in the purchase of Debentures or other securities, and the interest and compound interest accruing from such securities shall be annually invested in the like manner.

2. DR. LANG to move,—

(1.) That, in the opinion of this House, it is expedient and desirable, that the name of this Colony of "New South Wales" having been originally given to it from mere accident and caprice, and being neither historical nor appropriate, should now be changed, and a name at once historical, distinctive, and appropriate, substituted in its stead.

(2.) That the only name that would fulfil these conditions, and that deserves at the same time so honourable a commemoration, is that of the illustrious discoverer of this Country, Captain Cook; in honour and in grateful remembrance of whose eminent and distinguished services to humanity, and to Australia in particular, it is the opinion of this House, that this Colony should henceforth be designated "Cook'sland."

(3.) That the recent change of the name of a neighbouring Australian Colony from "Van Diemen's Land" to "Tasmania," in honour of the illustrious discoverer of that Country, Abel Jansen Tasman, after it had borne the name he had himself originally given it for upwards of 200 years, affords a suitable precedent both for the proposed change itself, and for the name which it is proposed to honour.

3. MR. ALEXANDER to move, That this House will, on Friday next, resolve itself into a Committee of the Whole, to consider of an Address to the Governor, praying that His Excellency will be pleased to cause to be placed on the Supplementary Estimates for the present Year, a sum not exceeding £2,500, for the purpose of compensating H. VOTES AND PROCEEDINGS

OF THE

LEGISLATIVE ASSEMBLY.

WEDNESDAY, 19 AUGUST, 1863.

1. The House met pursuant to adjournment; The Speaker took the Chair.

Question on Notice Paper for to-day:—

- (1.) Conflicting Claim to Water Races:—Mr. Rusden asked the Secretary [for Lands, pursuant to Notice No. 1,—

(1.) Was an Appeal Case, concerning a conflicting claim to Water Races, decided on the 30th of September, 1862, in favour of Mr. W. Thompson, of Meorendee, by the Chief Gold Commissioner, Mr. Harold M'Lean, and Messrs. Donald Campbell, and John Morgan?

(2.) Was this decision reversed by Mr. Sub-Commissioner Sibthorpe?

(3.) Has a further appeal, applied for under the Gold Fields Act, by Mr. W. Thompson, been refused him?

Mr. Robertson answered:—

(1.) In reply to the first Question of the Honorable Member, I would say, Yes.

(2.) In reply to the second, No.

(3.) In reply to the third, Yes.

The following are the circumstances of the case, and, by stating them, I shall, perhaps, make it more clear to the House and to the Honorable Member. I hold in my hand a Telegram received from the Chief Commissioner of the Western Gold Fields, and he says, "A decision, by Sub-Commissioner Sibthorpe, against Thompson of Meorendee, was, on the 30th September, reversed by Appeal Court, consisting of myself, (that is Mr. M'Lean,) and Messrs. Campbell and Morgan. Mr. Sibthorpe did not interfere with decision of Appeal Court. It was set aside on 25th November, by Supreme Court, by reason of non-qualification of Chairman. Mr. Sibthorpe's decision consequently held good. On the 6th March Thompson applied to me to stay the operation of Mr. Sibthorpe's decision. I informed him, that I had no power to do so, in consequence of a technical difficulty as to my qualification. No second notice of appeal was given by Thompson."

" (3.) That the foregoing Resolutions be embodied in an Address, and presented to His Excellency the Governor,"—resumed.
Mr. Eager moved, That the Question be amended by omitting all the words after the first word ' *That*,' with a view to inserting in their place the words " this House is of opinion that the Management of the Police of this Colony, under the new System established in connexion with the ' Police Regulation Act of 1862,' has not been such as to secure protection to life and property, or to afford satisfaction to this House and to the Public."

 - (1.) That this House is of opinion that Messrs Peto and Co., or some such eminent Railway Contractors, should be requested to prepare an Estimate and submit a Tender to the Government for constructing certain Railways in New South Wales, in accordance with the following conditions:—
 - (1.) To make and completely finish, within three years from the time of signing the Contract, a single line of Railway to Goulburn from the termination of the present extension, for which Contracts have been taken; to find everything except Land; uphold and keep the same in repair for a period of one year after completion.
 - (2.) To make and completely finish, within three years from the time of signing the Contract, a single Line of Railway to Bathurst and Mudgee, from the extension beyond Penrith, for which Contracts have been taken; to find everything except Land; uphold and keep the same in repair for a period of one year after completion.
 - (3.) To make and completely finish, within five years from the time of signing the Contract, a single line of Railway from either Goulburn or Bathurst (whichever may after survey be found most eligible) to such place on the River Murray as will unite the Lines of Railway in this Colony with those of Victoria; to find everything except Land; uphold and keep the same in repair for a period of one year after completion.
 - (4.) To make and completely finish, within four years from the time of signing the Contract, a single Line of Railway from Singleton to Murrumbidgee; to find everything except Land, and uphold and keep the same in repair for a period of one year after completion.

(5.)

(5.) That the Government furnish Messrs. Peto and Co., or other Contractors invited to Tender, with a Copy of such Surveys or Plans and Sections, as far as they have been made for the above Lines, or that may be useful in preparing such Tender.

(6.) That "finding every thing" shall include the Engineering, Surveying, preparing all Plans, Sections, Drawings, setting out the Works, Rails, Chairs, Spikes, Bolts, Fish Plates, Sleepers, Ballast, Bridges, Culverts, Fencing, Level Crossings with Gates where required, suitable Stations with Platforms, Road Approaches, and everything else that may be required to complete a single Line of Railway to render it fit for Traffic.

(2.) That this House is further of opinion, that for the purpose of paying off such loans as may be hereafter raised, Two per Cent. upon such amount shall be every year taken from the Consolidated Revenue and invested either in the purchase of Debentures or other securities, and the interest and compound interest accruing from such securities shall be annually invested in the like manner.

2. DR. LANG to move,—

(1.) That, in the opinion of this House, it is expedient and desirable, that the name of this Colony of "New South Wales" having been originally given to it from mere accident and caprice, and being neither historical nor appropriate, should now be changed, and a name at once historical, distinctive, and appropriate, substituted in its stead.

(2.) That the only name that would fulfil these conditions, and that deserves at the same time so honourable a commemoration, is that of the illustrious discoverer of this Country, Captain Cook; in honour and in grateful remembrance of whose eminent and distinguished services to humanity, and to Australia in particular, it is the opinion of this House, that this Colony should henceforth be designated "Cooksland."

(3.) That the recent change of the name of a neighbouring Australian Colony from "Van Diemen's Land" to "Tasmania," in honour of the illustrious discoverer of that Country, Abel Jansen Tasman, after it had borne the name he had himself originally given it for upwards of 200 years, affords a suitable precedent both for the proposed change itself, and for the name which it is proposed to honour.

3. MR. ALEXANDER to move, That this House will, on Friday next, resolve itself into a Committee of the Whole, to consider of an Address to the Governor, praying that His Excellency will be pleased to cause to be placed on the Supplementary Estimates for the present Year, a sum not exceeding £2,500, for the purpose of compensating H. To make and completely finish, within three years from the time of signing the Contract, a single line of Railway to Goulburn from the termination of the present extension, for which Contracts have been taken ; to find everything except Land ; uphold and keep the same in repair for a period of one year after completion.
 - (2.)  - (3.) To make and completely finish, within five years from the time of signing the Contract, a single line of Railway from either Goulburn or Bathurst (whichever may after survey be found most eligible) to such place on the River Murray as will unite the Lines of Railway in this Colony with those of Victoria ; to find everything except Land ; uphold and keep the same in repair for a period of one year after completion.

2. DR. LANG to move,—

(1.) That, in the opinion of this House, it is expedient and desirable, that the name of this Colony of "New South Wales" having been originally given to it from mere accident and caprice, and being neither historical nor appropriate, should now be changed, and a name at once historical, distinctive, and appropriate, substituted in its stead.

(2.) That the only name that would fulfil these conditions, and that deserves at the same time so honourable a commemoration, is that of the illustrious discoverer of this Country, Captain Cook; in honour and in grateful remembrance of whose eminent and distinguished services to humanity, and to Australia in particular, it is the opinion of this House, that this Colony should henceforth be designated "Cooksland."

(3.) That the recent change of the name of a neighbouring Australian Colony from "Van Diemen's Land" to "Tasmania," in honour of the illustrious discoverer of that Country, Abel Jansen Tasman, after it had borne the name he had himself originally given it for upwards of 200 years, affords a suitable precedent both for the proposed change itself, and for the name which it is proposed to honour.

3. MR. ALEXANDER to move, That this House will, on Friday next, resolve itself into a Committee of the Whole, to consider of an Address to the Governor, praying that His Excellency will be pleased to cause to be placed on the Supplementary Estimates for the present Year, a sum not exceeding £2,500, for the purpose of compensating H. OTHER BUSINESS—NOTICES OF MOTION :—

1. MR. SAMUEL to move,—

(1.) That this House is of opinion that Messrs Peto and Co., or some such eminent Railway Contractors, should be requested to prepare an Estimate and submit a Tender to the Government for constructing certain Railways in New South Wales, in accordance with the following conditions :—

(1.) To make and completely finish, within three years from the time of signing the Contract, a single line of Railway to Goulburn from the termination of the present extension, for which Contracts have been taken ; to find everything except Land ; uphold and keep the same in repair for a period of one year after completion.

(2.) To make and completely finish, within three years from the time of signing the Contract, a single Line of Railway to Bathurst and Mudgee, from the extension beyond Penrith, for which Contracts have been taken ; to find everything except Land ; uphold and keep the same in repair for a period of one year after completion.

(3.) To make and completely finish, within five years from the time of signing the Contract, a single line of Railway from either Goulburn or Bathurst (whichever may after survey be found most eligible) to such place on the River Murray as will unite the Lines of Railway in this Colony with those of Victoria ; to find everything except Land ; uphold and keep the same in repair for a period of one year after completion.

(4.) To make and completely finish, within four years from the time of signing the Contract, a single Line of Railway from Singleton to Murrurundi ; to find everything except Land, and uphold and keep the same in repair for a period of one year after completion.

(5.) That the Government furnish Messrs. Peto and Co., or other Contractors invited to Tender, with a Copy of such Surveys or Plans and Sections, as far as they have been made for the above Lines, or that may be useful in preparing such Tender.

(6.) That "finding every thing" shall include the Engineering, Surveying, preparing all Plans, Sections, Drawings, setting out the Works, Rails, Chairs, Spikes, Bolts, Fish Plates, Sleepers, Ballast, Bridges, Culverts, Fencing, Level Crossings with Gates where required, suitable Stations with Platforms, Road Approaches, and everything else that may be required to complete a single Line of Railway to render it fit for Traffic.

(7.) That the Contractors shall receive payment in New South Wales Government Debentures, bearing interest at the rate of £5 per centum per annum, and terminable in thirty years.

(8.) That in the event of Messrs. Peto and Co., or other Contractors, acceding to this request, and causing trial levels and sections to be made, to enable them to prepare an Estimate and Tender, they shall, should their tender not be accepted, be paid the cost of such trial levels, surveys, and sections, which shall then become the property of the Government, and one-half the amount of such other reasonable expenses that may be incurred by them.

(2.) That this House is further of opinion, that for the purpose of paying off such loans as may be hereafter raised, Two per Cent. upon such amount shall be every year taken from the Consolidated Revenue and invested either in the purchase of Debentures or other securities, and the interest and compound interest accruing from such securities shall be annually invested in the like manner.

2. DR. LANG to move,—

(1.) That, in the opinion of this House, it is expedient and desirable, that the name of this Colony of "New South Wales" having been originally given to it from mere accident and caprice, and being neither historical nor appropriate, should now be changed, and a name at once historical, distinctive, and appropriate, substituted in its stead.

(2.) That the only name that would fulfil these conditions, and that deserves at the same time so honourable a commemoration, is that of the illustrious discoverer of this Country, Captain Cook ; in honour and in grateful remembrance of whose eminent and distinguished services to humanity, and to Australia in particular, it is the opinion of this House, that this Colony should henceforth be designated "Cooksland."

(3.) That the recent change of the name of a neighbouring Australian Colony from "Van Diemen's Land" to "Tasmania," in honour of the illustrious discoverer of that Country, Abel Jansen Tasman, after it had borne the name he had himself originally given it for upwards of 200 years, affords a suitable precedent both for the proposed change itself, and for the name which it is proposed to honour.

3. MR. ALEXANDER to move, That this House will, on Friday next, resolve itself into a Committee of the Whole, to consider of an Address to the Governor, praying that His Excellency will be pleased to cause to be placed on the Supplementary Estimates for the present Year, a sum not exceeding £2,500, for the purpose of compensating H. H. Browne, Esq., on the abolition of his appointment as Agent for Immigration.

2. MR. W. FORSTER to move, (*Amendment on the Motion for adoption of the Report of the Committee of the Whole House on the Bill to promote Elementary Education*) That the House shall, on Wednesday next, resolve itself into a Committee of the Whole, to consider of an Address to the Governor, praying that His Excellency will, with as little delay as possible, take such steps as may be necessary to introduce, in lieu of the Bill now before the House, a Bill, embodying in substance the following propositions, namely,—
- (1.) The existing Boards of Education shall be abolished, and all the laws relating thereto repealed.
 - (2.) All Property vested in the Board of National Education shall revert to the Government.
 - (3.) Local Trusts for the use of Denominational Schools shall not be interfered with, and any public property at present held or administered for the use of such Schools shall be vested in the Local Trustees, or if there be no such Trustees, then in such Trustees as may be appointed for the purpose by the Government.
 - (4.) Schools under such Act as may be passed shall be divided into Public and Assisted.
 - (5.) In every Public School the instruction shall be secular, except as hereinafter provided, and the admission free to all children whatsoever.
 - (6.) The Government shall, from time to time, appoint five persons to be a Board of Education, of whom any three shall form a quorum.
 - (7.) The Board shall prescribe the course of secular instruction, and, by systematic examination at regular periods, determine the fitness of candidates for the office of Teacher or Inspector, and grant certificates for either office, and perform any other duties delegated by the Government within the Act.
 - (8.) The Board may, nevertheless, without special examination, grant such certificate to any Teacher of a National or Denominational School under the existing system, who shall have continued in that capacity for five years without animadversion.
 - (9.) Teachers of Public, and Inspectors of Public and Assisted Schools, shall be appointed by the Government; but no person shall be so appointed without certificate.
 - (10.) Every Teacher of a Public School shall be entitled to an equal minimum rate of salary, subject, nevertheless, to be supplemented annually, in proportion to the average number of pupils taught, and the standard of efficiency maintained, in such School, as determined by inspection.
 - (11.) The Government may establish a Public School on public lands, in any part of the Colony, on recommendation of the Board, or on petition of fifty householders, resident within three miles of the intended site of such School.
 - (12.) In every Public School, any of the pupils may be visited and instructed, at stated hours, by any Religious Teacher sanctioned by the parents or guardians of such pupils, and approved of by the Board.
 - (13.) Every Teacher of an Assisted School shall hold a Certificate under the Act, and shall be thereby entitled annually to be remunerated by the Government, in proportion to the average number of pupils taught, and the standard of secular instruction maintained, in such School, as determined by inspection.
 - (14.) The Government may make Regulations, strictly within the Act, for carrying it into effect.

- (7.) That the Contractors shall receive payment in New South Wales Government Debentures, bearing interest at the rate of £5 per centum per annum, and terminable in thirty years.
- (8.) That in the event of Messrs. Peto and Co., or other Contractors, acceding to this request, and causing trial levels and sections to be made, to enable them to prepare an Estimate and Tender, they shall, should their tender not be accepted, be paid the cost of such trial levels, surveys, and sections, which shall then become the property of the Government, and one-half the amount of such other reasonable expenses that may be incurred by them.
- (2.) That this House is further of opinion, that for the purpose of paying off such loans as may be hereafter raised, Two per Cent. upon such amount shall be every year taken from the Consolidated Revenue and invested either in the purchase of Debentures or other securities, and the interest and compound interest accruing from such securities shall be annually invested in the like manner.
2. DR. LANG to move,—
- (1.) That, in the opinion of this House, it is expedient and desirable, that the name of this Colony of "New South Wales" having been originally given to it from mere accident and caprice, and being neither historical nor appropriate, should now be changed, and a name at once historical, distinctive, and appropriate, substituted in its stead.
- (2.) That the only name that would fulfil these conditions, and that deserves at the same time so honourable a commemoration, is that of the illustrious discoverer of this Country, Captain Cook ; in honour and in grateful remembrance of whose eminent and distinguished services to humanity, and to Australia in particular, it is the opinion of this House, that this Colony should henceforth be designated "Cooksland."
- (3.) That the recent change of the name of a neighbouring Australian Colony from "Van Diemen's Land" to "Tasmania," in honour of the illustrious discoverer of that Country, Abel Jansen Tasman, after it had borne the name he had himself originally given it for upwards of 200 years, affords a suitable precedent both for the proposed change itself, and for the name which it is proposed to honour.
3. MR. ALEXANDER to move, That this House will, on Friday next, resolve itself into a Committee of the Whole, to consider of an Address to the Governor, praying that His Excellency will be pleased to cause to be placed on the Supplementary Estimates for the present Year, a sum not exceeding £2,500, for the purpose of compensating H. H. Browne, Esq., on the abolition of his appointment as Agent for Immigration.
4. MR. DANGAR to move, That in the opinion of this House, the application by the Government of £6,000, voted in 1862, for a Bridge over the Hunter at West Maitland, to the erection of a Bridge at Pitnacree, is an unconstitutional interference with the appropriation of said sum of £6,000, as directed by the Vote of this House.

New South Wales.

No. 38.

VOTES AND PROCEEDINGS

OF THE

LEGISLATIVE ASSEMBLY.

WEDNESDAY, 26 AUGUST, 1863.

1. The House met pursuant to adjournment; The Speaker took the Chair.

Questions on Notice Paper for to-day:—

- (1.) Church and School Estates:—Mr. Macpherson asked the Colonial Secretary, pursuant to Notice No. 1,—

(1.) Whether it is the intention of the Government to introduce a Bill to legalize the appropriation of the proceeds of the Church and School Estates (in terms of a Resolution of this House of 25 July, a.m.) to the purposes of Religion, and the Education of Youth in the Colony, in terms of the Grant to the Trustees of Clergy and School Lands in New South Wales, such proceeds to be divided rateably among the different Religious Denominations; and if so, when?

(2.) Whether it is the intention of the Government to appropriate the proceeds, or any portion of the proceeds of the Church and School Estates, until an Act of Parliament shall have been passed to authorize the same; and if so, to what purposes?

(3.) What course has hitherto been pursued, and what course will for the future be pursued, with reference to portions of the Church and School Estate on which Gold Fields have been, or may be, established; have such Lands been treated, or will they for the future be treated as Crown, or as *quasi* Private Lands?

Mr. Cowper answered:—

(1.) I beg to state, in reply to the first Question of the Honorable Gentleman, that when the state of the public business will permit, it is the intention of the Government to introduce a Bill for dealing with the Church and School Estates.

(2.) In reply to Question (2), I would state, that if by proceeds the Honorable Member means proceeds of sales of Church and School Estates, it is not the intention of Government to appropriate them pending legislation. With reference to the way in which proceeds of sales have been dealt with, I may quote from a Minute of the Executive Council:—"The amount to be invested in Government Debentures, and the interest to be divided annually for the purposes of the Trust, in the same way as the rents of the land have been heretofore distributed."

(3.) In reply to the third Question, I would state, that the course which has been pursued, and which will for the future be pursued, with reference to portions of those Estates on which Gold Fields have been or may be established, has been and will be, to receive the proceeds from those lands, and to carry them to the account of the Church and School Estates Revenue. They will be treated, as they have been treated, as Estates under that Trust.

- (2.) Clerk of Petty Sessions at Molong:—Mr. Dangar asked the Colonial Secretary, pursuant to Notice No. 2,—

(1.) How long the Clerk of Petty Sessions for Molong (Mr. Davies) has been absent from his District, and in Sydney; and who performs his Bench duties?

(2.)

(2.) Does not Mr. Davies' health or eyesight, unfit him for a Clerk of Petty Sessions; and is he not incompetent, from old age, to perform the duties of Clerk of Petty Sessions?

Mr. Cowper answered:—Mr. Davies obtained one month's leave of absence in consequence of disease of the eyes, and reported himself in Sydney in February, 1863. In order to enable him to get further medical aid, his leave was renewed—a substitute for performing his duties being provided. He has lately been endeavouring to effect an exchange to Sydney, that he may be nearer to professional attendance, but he will immediately resume his duties, which, I am not aware, he is unable to perform. If it should prove to be so, he will of course be called upon to resign.

2. Pawnbrokers Bill:—Mr. Eagar presented a Petition from certain Pawnbrokers of Sydney, against the further consideration of this Bill, until the evidence taken before the Select Committee of last Session, on a similar Bill, be laid upon the Table of the House and printed.
And the said Petition, having been read at length by the Clerk, by direction of the Speaker, was received.
3. Presbyterian College Bill:—Dr. Lang presented a Petition from certain Presbyterians of Forbes, on the Lachlan Diggings, in favour of the passing of this Bill.
Petition received.
4. Drainage of Lands on the Hunter:—Mr. Burns presented a Petition from William Purves, as Convener of a certain Public Meeting of the Inhabitants of Maitland and surrounding District, praying that a Bill may be passed without delay to secure united action in the Drainage of the low lands of the Hunter River District.
Petition received.
5. Paper:—Mr. Cowper laid upon the Table, Return (in part) to Address, in reference to "Magistrates Attendances," adopted by this House, on motion of Mr. Driver, on 8th July, 1862.
Ordered to be printed.
6. Motion Withdrawn:—Mr. Gray withdrew the Motion standing in his name, No. 7 on the Notice Paper for to-day.

Petition received.
10. Motions Withdrawn:—Dr. Lang withdrew the Motions standing in his name, Nos. 9, 11, and 12, on the Notice Paper for to-day.
11. Insecurity of Life and Property in Country Districts—Appointment of Magistrates—Administration of Justice:—Order of the Day for the Resumption of the Adjourned Debate on the Motion of Mr. Martin,—
" (1.) 'That' in the opinion of this House, the alarming state of insecurity for life and property which has so long prevailed throughout the Country Districts, is in a high degree discreditable to Her Majesty's Ministers in this Colony.
" (2.) That the conduct of Her Majesty's Ministers in this Colony, in the appointments to the Magistracy, and generally in connexion with the Administration of Justice, has been such as to call for the strong condemnation of this House.
" (3.) That the foregoing Resolutions be embodied in an Address, and presented to His Excellency the Governor,"—upon which Mr. Eagar had moved, by way of amendment, That all the words after the first word 'That,' be omitted, with a view to inserting in their place the words "this House is of opinion that the management of the Police of this Colony, under the new System established in connexion with the 'Police Regulation Act of 1862,' has not been such as to secure protection to life and property, or to afford satisfaction to this House and to the Public,"—

TUESDAY, SEPTEMBER 8.

OTHER BUSINESS—NOTICES OF MOTION:—

1. MR. SAMUEL to move,—

(1.) That this House is of opinion that Messrs Peto and Co., or some such eminent Railway Contractors, should be requested to prepare an Estimate and submit a Tender to the Government for constructing certain Railways in New South Wales, in accordance with the following conditions:—

(1.) To make and completely finish, within three years from the time of signing the Contract, a single line of Railway to Goulburn from the termination of the present extension, for which Contracts have been taken; to find everything except Land; uphold and keep the same in repair for a period of one year after completion.

(2.) To make and completely finish, within three years from the time of signing the Contract, a single Line of Railway to Bathurst and Mudgee, from the extension beyond Penrith, for which Contracts have been taken; to find everything except Land; uphold and keep the same in repair for a period of one year after completion.

(3.) To make and completely finish, within five years from the time of signing the Contract, a single line of Railway from either Goulburn or Bathurst (whichever may after survey be found most eligible) to such place on the River Murray as will unite the Lines of Railway in this Colony with those of Victoria; to find everything except Land; uphold and keep the same in repair for a period of one year after completion.

(4.) To make and completely finish, within four years from the time of signing the Contract, a single Line of Railway from Singleton to Murrurundi; to find everything except Land, and uphold and keep the same in repair for a period of one year after completion.

(5.) That the Government furnish Messrs. Peto and Co., or other Contractors invited to Tender, with a Copy of such Surveys or Plans and Sections, as far as they have been made for the above Lines, or that may be useful in preparing such Tender.

(6.) That "finding every thing" shall include the Engineering, Surveying, preparing all Plans, Sections, Drawings, setting out the Works, Rails, Chairs, Spikes, Bolts, Fish Plates, Sleepers, Ballast, Bridges, Culverts, Fencing, Level Crossings with Gates where required, suitable Stations with Platforms, Road Approaches, and everything else that may be required to complete a single Line of Railway to render it fit for Traffic.

(7.) That the Contractors shall receive payment in New South Wales Government Debentures, bearing interest at the rate of £5 per centum per annum, and terminable in thirty years.

(8.) That in the event of Messrs. Peto and Co., or other Contractors, acceding to this request, and causing trial levels and sections to be made, to enable them to prepare an Estimate and Tender, they shall, should their tender not be accepted, be paid the cost of such trial levels, surveys, and sections, which shall then become the property of the Government, and one-half the amount of such other reasonable expenses that may be incurred by them.

(2.) That this House is further of opinion, that for the purpose of paying off such loans as may be hereafter raised, Two per Cent. upon such amount shall be every year taken from the Consolidated Revenue and invested either in the purchase of Debentures or other securities, and the interest and compound interest accruing from such securities shall be annually invested in the like manner.

2. DR. LANG to move,—

(1.) That, in the opinion of this House, it is expedient and desirable, that the name of this Colony of "New South Wales" having been originally given to it from mere accident and caprice, and being neither historical nor appropriate, should now be changed, and a name at once historical, distinctive, and appropriate, substituted in its stead.

(2.) That the only name that would fulfil these conditions, and that deserves at the same time so honourable a commemoration, is that of the illustrious discoverer of this Country, Captain Cook; in honour and in grateful remembrance of whose eminent and distinguished services to humanity, and to Australia in particular, it is the opinion of this House, that this Colony should henceforth be designated "Cook'sland."

(3.) That the recent change of the name of a neighbouring Australian Colony from "Van Diemen's Land" to "Tasmania," in honour of the illustrious discoverer of that Country, Abel Jansen Tasman, after it had borne the name he had himself originally given it for upwards of 200 years, affords a suitable precedent both for the proposed change itself, and for the name which it is proposed to honour.

3. MR. ALEXANDER to move, That this House will, on Friday next, resolve itself into a Committee of the Whole, to consider of an Address to the Governor, praying that His Excellency will be pleased to cause to be placed on the Supplementary Estimates for the present Year, a sum not exceeding £2,500, for the purpose of compensating H. H. Browne, Esq., on the abolition of his appointment as Agent for Immigration.

4. MR. DANGAR to move, That in the opinion of this House, the application by the Government of £6,000, voted in 1862, for a Bridge over the Hunter at West Maitland, to the erection of a Bridge at Pitnacree, is an unconstitutional interference with the appropriation of said sum of £6,000, as directed by the Vote of this House.
5. MR. W. FORSTER to move, That an Address be presented to the Governor, praying that His Excellency will be pleased to cause to be laid upon the Table of this House, a Return of all cases, since the beginning of Responsible Government, in which any person or persons, whether jointly or severally, have petitioned or in any way applied for leave to sue the Government of this Colony in any Court of Law, specifying in each case, the party or parties so petitioning or applying, the date of the petition or application, the grounds of claim, the decision of the Government thereon, the reasons for refusal in each case where such petition or application was refused, and the result and cost of proceedings in each case where the Government consented to be sued.

TUESDAY, SEPTEMBER 15.

No. 39.

VOTES AND PROCEEDINGS
OF THE
LEGISLATIVE ASSEMBLY.

THURSDAY, 27 AUGUST, 1863.

1. The House met pursuant to adjournment; The Speaker took the Chair.

Questions on Notice Paper for to-day :—

- (1.) Locomotive Engines, and Contractors, for Public Railways :—Mr. Eagar asked the Secretary for Public Works, pursuant to Notice No. 1,—

(1.) What is the estimated net cost, as calculated by Mr. Whitton, of the eighteen Locomotive Engines, ordered through Mr. Edward Hamilton, as Agent for the New South Wales Government, on or about the 21st May last ?

(2.) When will the Return, in relation to Railway Contractors, in terms of Motion of the 4th instant, be laid upon the Table of this House ?

Mr. Arnold answered :—

(1.) I beg to inform the Honorable Member, that the estimated net cost of the Locomotive Engines lately ordered from England is as follows :—for the Passenger Engines, £2,900 ; for the Goods Engines, £3,000.

(2.) I have made inquiries with regard to the Returns alluded to in the second Question, and I have received this :—“The Return alluded to can be got ready in a few days, but in such case other pressing matters will have to stand over, and it will be impossible to furnish the Returns in a reasonable time unless other clerical assistance is obtained.” We have pressure from other sides, for instance from the Auditor General, to which it is important we should give attention.

- (2.) Bridges, Bogibri and Namoi :—Mr. Dangar asked the Secretary for Lands, pursuant to Notice No. 2,—

(1.) Why the Sum of £100, voted in 1858, for a Bridge over Cox's Crossing Place, near Bogibri, Government Township, was not expended ?

(2.) Why the Sum of £100, voted in 1858, for the Crossing Place on the north side of the Namoi River, was not expended ?

(3.) Will the Government place on the Supplementary Estimates, this Session, a sufficient Sum of Money to build a Bridge over Cox's Creek, at Bogibri Township ?

Mr. Robertson answered :—

(1.) For the information of the Honorable Member, I would say that the sum of £100 was not voted, but was appropriated, on the 10th March, 1859, from the General Road Vote for 1858, for a Bridge across Cox's Creek, and was entrusted for expenditure to Messrs. A. Loder, J.P., D. Grover, and E. H. Lloyd, J.P., but the credit not having been operated on within the usual limit has been written off in the books of the Audit Office.

(2.) With regard to the second Question, I would say, that a credit for the sum of £100 was in like manner opened on the 1st March, 1859, for this purpose (from the General Road Vote for 1858), in favour of Messrs. E. H. Lloyd, Andrew Doyle, J.P., and P. Guinn, but no expenditure having been made, the account has been written off.

(3.) The District Surveyor will take an early opportunity of ascertaining the necessity for, and probable cost of, the proposed work ; and, as the Honorable Member is aware, it would then come from the General Vote, and there would be no occasion to ask the Parliament by estimate to vote the money.

- (3.) Alleged Irregularities in the Public Works Office :—Mr. Dalgleish asked the Secretary for Public Works,—When the Evidence taken before Mr. Whitton and Mr. Moodie, on the Disorganized State of the Public Works, will be laid upon the Table of this House ?

Mr.

Mr. Arnold answered :—In consequence of certain charges made by the Honorable Member in his place in this House, an inquiry has been directed by me into the conduct of certain officers in the Railway Department. That inquiry can scarcely, at present, be said to be complete, but when it is, and the determination of the Executive Council has been had in regard to it, I suppose there will be no objection to produce any papers we may have upon the subject, if they are asked for by the House in the usual way. At present there is no report upon the subject.

2. Member of Legislative Assembly as Witness :—The Speaker reported that the following Message had been received yesterday from the Legislative Council :—

MR. SPEAKER,—

The Legislative Council having appointed a Select Committee "to consider whether additional Light-houses are necessary on the Coast of New Holland," and that Committee being desirous to examine Merion Marshall Moriarty, Esquire, a Member of the Legislative Assembly, in reference thereto, requests that the Legislative Assembly will give leave to its said Member to attend and be examined by the said Committee, on such day and days as shall be arranged between him and the said Committee.

Legislative Council Chamber,

Whereupon, Mr. Cowper moved, That the following Message be carried to the Legislative Council :—

MR. PRESIDENT,—

Question put and passed.

Ordered to be printed.

4. Motion for Adjournment :—Mr. Dalglish moved, That this House do now adjourn. Question put and negatived.

5. Insecurity of Life and Property in Country Districts—Appointment of Magistrates—Administration of Justice :—The Adjourned Debate, on the Motion of Mr. Martin,—

"(1.) 'That' in the opinion of this House, the alarming state of insecurity for life and property which has so long prevailed throughout the Country Districts, is in a high degree discreditable to Her Majesty's Ministers in this Colony.

"(2.) That the conduct of Her Majesty's Ministers in this Colony, in the appointments to the Magistracy, and generally in connexion with the Administration of Justice, has been such as to call for the strong condemnation of this House.

"(3.) That the foregoing Resolutions be embodied in an Address, and presented to His Excellency the Governor,"—upon which Mr. Eagar had moved, by way of amendment, That all the words after the first word 'That,' be omitted, with a view to inserting in their place the words "this House is of opinion that the management of the Police of this Colony, under the new System established in connexion with the 'Police Regulation Act of 1862,' has not been such as to secure protection to life and property, or to afford satisfaction to this House and to the Public,"—resumed and continued.

Question put,—That the words proposed to be omitted stand part of the Question. The House divided.

 (1.) To make and completely finish, within three years from the time of signing the Contract, a single line of Railway to Goulburn from the termination of the present extension, for which Contracts have been taken; to find everything except Land; uphold and keep the same in repair for a period of one year after completion.
 (2.) To make and completely finish, within three years from the time of signing the Contract, a single Line of Railway to Bathurst and Mudgee, from the extension beyond Penrith, for which Contracts have been taken; to find everything except Land; uphold and keep the same in repair for a period of one year after completion.
 (3.) To make and completely finish, within five years from the time of signing the Contract, a single line of Railway from either Goulburn or Bathurst (whichever may after survey be found most eligible) to such place on the River Murray as will unite the Lines of Railway in this Colony with those of Victoria; to find everything except Land; uphold and keep the same in repair for a period of one year after completion.
 (4.) To make and completely finish, within four years from the time of signing the Contract, a single Line of Railway from Singleton to Murrumbidgee; to find everything except Land, and uphold and keep the same in repair for a period of one year after completion.
 (5.) That the Government furnish Messrs. Peto and Co., or other Contractors invited to Tender, with a Copy of such Surveys or Plans and Sections, as far as they have been made for the above Lines, or that may be useful in preparing such Tender.
 (6.) That "finding every thing" shall include the Engineering, Surveying, preparing all Plans, Sections, Drawings, setting out the Works, Rails, Chairs, Spikes, Bolts, Fish Plates, Sleepers, Ballast, Bridges, Culverts, Fencing, Level Crossings with Gates where required, suitable Stations with Platforms, Road Approaches, and everything else that may be required to complete a single Line of Railway to render it fit for Traffic.

 (8.) That in the event of Messrs. Peto and Co., or other Contractors, acceding to this request, and causing trial levels and sections to be made, to enable them to prepare an Estimate and Tender, they shall, should their tender not be accepted, be paid the cost of such trial levels, surveys, and sections, which shall then become the property of the Government, and one-half the amount of such other reasonable expenses that may be incurred by them.
 (2.) That this House is further of opinion, that for the purpose of paying off such loans as may be hereafter raised, Two per Cent. upon such amount shall be every year taken from the Consolidated Revenue and invested either in the purchase of Debentures or other securities, and the interest and compound interest accruing from such securities shall be annually invested in the like manner.
2. DR. LANG to move:—
 (1.) That, in the opinion of this House, it is expedient and desirable, that the name of this Colony of "New South Wales" having been originally given to it from mere accident and caprice, and being neither historical nor appropriate, should now be changed, and a name at once historical, distinctive, and appropriate, substituted in its stead.
 (2.) That the only name that would fulfil these conditions, and that deserves at the same time so honourable a commemoration, is that of the illustrious discoverer of this Country, Captain Cook; in honour and in grateful remembrance of whose eminent and distinguished services to humanity, and to Australia in particular, it is the opinion of this House, that this Colony should henceforth be designated "Cook'sland."
 (3.) That the recent change of the name of a neighbouring Australian Colony from "Van Diemen's Land" to "Tasmania," in honour of the illustrious discoverer of that Country, Abel Jansen Tasman, after it had borne the name he had himself originally given it for upwards of 200 years, affords a suitable precedent both for the proposed change itself, and for the name which it is proposed to honour.

ALEXANDER to move, That this House will, on Friday next, resolve itself into a Committee of the Whole, to consider of an Address to the Governor, praying that His Excellency will be pleased to cause to be placed on the Supplementary Estimates for the present Year, a sum not exceeding £2,500, for the purpose of compensating H. H. BROWN, Esq., on the abolition of his appointment as Agent for Immigration.
4. MR. DANGAN to move, That in the opinion of this House, the application by the Government of £6,000, voted in 1862, for a Bridge over the Hunter at West Maitland, to the erection of a Bridge at Pitnacree, is an unconstitutional interference with the appropriation of said sum of £6,000, as directed by the Vote of this House.
5. MR. W. FORSTER to move, That an Address be presented to the Governor, praying that His Excellency will be pleased to cause to be laid upon the Table of this House, a Return of all cases, since the beginning of Responsible Government, in which any person or persons, whether jointly or severally, have petitioned or in any way applied for leave to sue the Government of this Colony in any Court of Law, specifying in each case, the party or parties so petitioning or applying, the date of the petition or application, the grounds of claim, the decision of the Government thereon, the reasons for refusal in each case where such petition or application was refused, and the result and cost of proceedings in each case where the Government consented to be sued.

 - (1.) To make and completely finish, within three years from the time of signing the Contract, a single line of Railway to Goulburn from the termination of the present extension, for which Contracts have been taken; to find everything except Land; uphold and keep the same in repair for a period of one year after completion.
 - (2.) To make and completely finish, within three years from the time of signing the Contract, a single Line of Railway to Bathurst and Mudgee, from the extension beyond Penrith, for which Contracts have been taken; to find everything except Land; uphold and keep the same in repair for a period of one year after completion.
 - (3.) To make and completely finish, within five years from the time of signing the Contract, a single line of Railway from either Goulburn or Bathurst (whichever may after survey be found most eligible) to such place on the River Murray as will unite the Lines of Railway in this Colony with those of Victoria; to find everything except Land; uphold and keep the same in repair for a period of one year after completion.
 - (4.) To make and completely finish, within four years from the time of signing the Contract, a single Line of Railway from Singleton to Murrurundi; to find everything except Land, and uphold and keep the same in repair for a period of one year after completion.
 - (5.) That the Government furnish Messrs. Peto and Co., or other Contractors invited to Tender, with a Copy of such Surveys or Plans and Sections, as far as they have been made for the above Lines, or that may be useful in preparing such Tender.
 - (6.) That "finding every thing" shall include the Engineering, Surveying, preparing all Plans, Sections, Drawings, setting out the Works, Rails, Chairs, Spikes, Bolts, Fish Plates, Sleepers, Ballast, Bridges, Culverts, Fencing, Level Crossings with Gates where required, suitable Stations with Platforms, Road Approaches, and everything else that may be required to complete a single Line of Railway to render it fit for Traffic.
 - (7.) That the Contractors shall receive payment in New South Wales Government Debentures, bearing interest at the rate of £5 per centum per annum, and terminable in thirty years.
 - (8.) That in the event of Messrs. Peto and Co., or other Contractors, acceding to this request, and causing trial levels and sections to be made, to enable them to prepare an Estimate and Tender, they shall, should their tender not be accepted, be paid the cost of such trial levels, surveys, and sections, which shall then become the property of the Government, and one-half the amount of such other reasonable expenses that may be incurred by them.
 - (2.) That this House is further of opinion, that for the purpose of paying off such loans as may be hereafter raised, Two per Cent. upon such amount shall be every year taken from the Consolidated Revenue and invested either in the purchase of Debentures or other securities, and the interest and compound interest accruing from such securities shall be annually invested in the like manner.
2. Dr. LANG to move,—
 - (1.) That, in the opinion of this House, it is expedient and desirable, that the name of this Colony of "New South Wales" having been originally given to it from mere accident and caprice, and being neither historical nor appropriate, should now be changed, and a name at once historical, distinctive, and appropriate, substituted in its stead.
 - (2.) That the only name that would fulfil these conditions, and that deserves at the same time so honourable a commemoration, is that of the illustrious discoverer of this Country, Captain Cook; in honour and in grateful remembrance of whose eminent and distinguished services to humanity, and to Australia in particular, it is the opinion of this House, that this Colony should henceforth be designated "Cook'sland."
 - (3.) That the recent change of the name of a neighbouring Australian Colony from "Van Diemen's Land" to "Tasmania," in honour of the illustrious discoverer of that Country, Abel Jansen Tasman, after it had borne the name he had himself originally given it for upwards of 200 years, affords a suitable precedent both for the proposed change itself, and for the name which it is proposed to honour.

ALEXANDER to move, That this House will, on Friday next, resolve itself into a Committee of the Whole, to consider of an Address to the Governor, praying that His Excellency will be pleased to cause to be placed on the Supplementary Estimates for the present Year, a sum not exceeding £2,500, for the purpose of compensating H. H. Browne, Esq., on the abolition of his appointment as Agent for Immigration.
4. MR. DANGAR to move, That in the opinion of this House, the application by the Government of £6,000, voted in 1862, for a Bridge over the Hunter at West Maitland, to the erection of a Bridge at Pitnacree, is an unconstitutional interference with the appropriation of said sum of £6,000, as directed by the Vote of this House.
5. MR. W. FORSTER to move, That an Address be presented to the Governor, praying that His Excellency will be pleased to cause to be laid upon the Table of this House, a Return of all cases, since the beginning of Responsible Government, in which any person or persons, whether jointly or severally, have petitioned or in any way applied for leave to sue the Government of this Colony in any Court of Law, specifying in each case, the party or parties so petitioning or applying, the date of the petition or application, the grounds of claim, the decision of the Government thereon, the reasons for refusal in each case where such petition or application was refused, and the result and cost of proceedings in each case where the Government consented to be sued.

2. DR. LANG to move,—

(1.) That, in the opinion of this House, it is expedient and desirable, that the name of this Colony of "New South Wales" having been originally given to it from mere accident and caprice, and being neither historical nor appropriate, should now be changed, and a name at once historical, distinctive, and appropriate, substituted in its stead.

(2.) That the only name that would fulfil these conditions, and that deserves at the same time so honourable a commemoration, is that of the illustrious discoverer of this Country, Captain Cook; in honour and in grateful remembrance of whose eminent and distinguished services to humanity, and to Australia in particular, it is the opinion of this House, that this Colony should henceforth be designated "Cook'sland."

(3.) That the recent change of the name of a neighbouring Australian Colony from "Van Diemen's Land" to "Tasmania," in honour of the illustrious discoverer of that Country, Abel Jansen Tasman, after it had borne the name he had himself originally given it for upwards of 200 years, affords a suitable precedent both for the proposed change itself, and for the name which it is proposed to honour.

H. Browne, Esq., on the abolition of his appointment as Agent for Immigration.

4. MR. DANGAR to move, That in the opinion of this House, the application by the Government of £6,000, voted in 1862, for a Bridge over the Hunter at West Maitland, to the erection of a Bridge at Pitnacree, is an unconstitutional interference with the appropriation of said sum of £6,000, as directed by the Vote of this House.

5. MR. W. FORSTER to move, That an Address be presented to the Governor, praying that His Excellency will be pleased to cause to be laid upon the Table of this House, a Return of all cases, since the beginning of Responsible Government, in which any person or persons, whether jointly or severally, have petitioned or in any way applied for leave to sue the Government of this Colony in any Court of Law, specifying in each case, the party or parties so petitioning or applying, the date of the petition or application, the grounds of claim, the decision of the Government thereon, the reasons for refusal in each case where such petition or application was refused, and the result and cost of proceedings in each case where the Government consented to be sued.

4. Riverine District :—Mr. Morris presented a Petition from the Inhabitants of the Pastoral Districts and others interested in that part of the Colony of New South Wales known as the "Riverine District," representing that, in consequence of the great distance of the District from the Central Government, and its vast extent, they labour under many inconveniences, as set forth in their Petition; suggesting, therefore, the establishment of their District as a distinct one, with defined boundaries, on the same footing as Port Phillip before separation; and praying as follows :—

"That the Riverine province may be defined by the following metes and bounds, viz. :—On the north, commencing at a point where the Culgoa River intersects the Queensland boundary, by a line forming the southern boundary of Queensland, and running due west to the South Australian boundary; on the west by a line at right angles to the last mentioned line, being the 141st degree of longitude, and forming the eastern boundary of South Australia, to its intersection with the Murray River; on the south by the Murray River; and on the east commencing at a point on the Murray River a few miles east of Howlong, at or about 146 degrees 40 minutes east longitude, by a line to the junction of Houlahan's Creek with the Murrumbidgee River; thence by Houlahan's Creek to a point on that creek, and then by a line to the nearest point on the Narraburra Creek; thence by the Narraburra Creek and Cowal Lake to the junction of Bullock Creek and the Bogan River; thence by that river to its confluence with the Darling River; thence by the Culgoa River to the commencing point on the Queensland boundary; and that the same be proclaimed a district of New South Wales.

"That a Government Superintendent may reside at Deniliquin.

"That a branch of the Supreme Court, with Judge, officers, and all its appendages may be established at Deniliquin.

"That a Registrar's Office may be established at Deniliquin.

"That a branch Land and Survey Office, and Commissioner of Crown Lands Office, and all other public offices may be opened there also.

"That immediate and efficient steps may be taken for canalizing and clearing the Darling, and clearing the Murrumbidgee and Murray Rivers, (precedence being given to the clearance and canalizing the Darling,) and for erecting necessary public offices and other improvements.

"That after providing for the support of local Government and judicial institutions, &c., and the payment of the fair quota of the cost of the postal service, and of the expense of the general government, and of the interest on the colonial debt, the balance of the revenue of the Riverine province, may be expended therein upon public works, under the supervision of local boards.

"That the Riverine province may be divided into ten electoral districts, each returning one member to the Legislative Assembly.

"That in lieu of a pre-emptive lease of an area thrice that of the land conditionally bought, the conditional purchaser may be granted an indefeasible lease for fourteen years, with an absolute pre-emptive right over an area of twice that conditionally bought; but that the land purchased by the conditional purchaser, and held by such pre-emptive lease, shall be securely fenced within two years from the date of such selection; and that until such fencing be made and completed, no power of impounding off such land by such purchaser shall exist or be allowed.

"That the leases to which holders of runs are entitled under the Crown Lands Occupation Act of 1861, may be made renewable leases at the expiration of the term granted by said Act, and that the rent payable during such renewed term may be fixed by appraisement, to be made periodically by arbitration until the lands are required for sale or for any other public purpose; and that the power of making reserves within which free selection, as it is now known, will apply, should be continued undisturbed, provided that all such reserves so made shall be submitted to Parliament within one month, if the same be in session, if not in session, within one month of the assembling of your Honorable House; and that no permissive occupation may be allowed until the sanction of Parliament be obtained; and that such sanction may not be given until three months

" after

“ after the matter has been brought under the notice of Parliament, and three months’ notice has been given to the lessee or lessees on whose run or runs the proposed reserves are to be made.

“ That upon reserves made upon any of the said runs becoming conditionally occupied by free selection, or otherwise alienated, the lessee of such runs shall receive compensation, by appraisalment of its market value as pasture, for the loss of the portions so occupied, from an assurance fund to be raised by general assessment on all station holders, on the same plan as the Scab Assessment is raised.”

2. MR. MARTIN to move, (as an Amendment on the Question, "That the Speaker do now leave the Chair," for going into Committee of Supply, on the occasion next after the Discussion on the Colonial Treasurer's Financial Statement,) the following Resolutions, *seriatim* :—

- (1.) That the Minute of the Executive Council of the 27th May last, authorizing the appropriation of the sum of £6,000, voted by the Legislature for the Construction of a Bridge over the Hunter River at West Maitland, to the erection of an iron Bridge over the said River at Pitnaerree; and also authorizing the expenditure of a further sum of £3,000 to meet the extra expense attending the said works, indicates an intention on the part of the Government to violate the Constitution, and to invade the undoubted Rights of Parliament, in a manner which calls for the condemnation of this House.
- (2.) That the expenditure of £1,722 9s. 3d. in making an advance to the defendants in the case of *Berry v. Graham and Another*, without the authority of Parliament, was wholly unjustifiable, and is deserving of the censure of this House.
- (3.) That the Minute of the Executive Council of the 20th January last, authorizing the expenditure of £11,000 for the Completion of the Masonry and Roofing-in of the Australian Museum, without any previous Parliamentary sanction, was a proceeding which calls for the condemnation of this House.
- (4.) QUESTIONS:—

1. MR. 2. MR. EGAN to ask THE SECRETARY FOR LANDS,—
 - (1.) Whether Aliens, on their completing the purchase of Land, will receive grants from the Crown of the fee simple, in the same manner as though they had been naturalized?
 - (2.) Have the Government had the opinion of the Law Officers of the Crown on that subject; and if so, what opinion has been given?

3. MR. DANGAR *to ask* THE SECRETARY FOR LANDS,—
- (1.) The number of Sheep infected with the Scab, as reported by the various Inspectors of Sheep, since the 1st January to 31st August last throughout the Colony; naming the number in each District, and the name of each Inspector?
 - (2.) The number of Sheep destroyed under the present Scab Act, and the amount of compensation paid to the owners of Scabbed Sheep to the 31st August?
 - (3.) The amount now due by Claimants, for Sheep destroyed under the present Scab Acts?

OTHER BUSINESS—NOTICES OF MOTION:—

1. MR. SAMUEL *to move*,—
- (1.) That this House is of opinion that Messrs Peto and Co., or some such eminent Railway Contractors, should be requested to prepare an Estimate and submit a Tender to the Government for constructing certain Railways in New South Wales, in accordance with the following conditions:—
 - (1.) To make and completely finish, within three years from the time of signing the Contract, a single line of Railway to Goulburn from the termination of the present extension, for which Contracts have been taken; to find everything except Land; uphold and keep the same in repair for a period of one year after completion.
 - (2.) To make and completely finish, within three years from the time of signing the Contract, a single Line of Railway to Bathurst and Mudgee, from the extension beyond Penrith, for which Contracts have been taken; to find everything except Land; uphold and keep the same in repair for a period of one year after completion.
 - (3.) To make and completely finish, within five years from the time of signing the Contract, a single line of Railway from either Goulburn or Bathurst (whichever may after survey be found most eligible) to such place on the River Murray as will unite the Lines of Railway in this Colony with those of Victoria; to find everything except Land; uphold and keep the same in repair for a period of one year after completion.
 - (4.) To make and completely finish, within four years from the time of signing the Contract, a single Line of Railway from Singleton to Murrurundi; to find everything except Land, and uphold and keep the same in repair for a period of one year after completion.
 - (5.) That the Government furnish Messrs. Peto and Co., or other Contractors invited to Tender, with a Copy of such Surveys or Plans and Sections, as far as they have been made for the above Lines, or that may be useful in preparing such Tender.
 - (6.) That "finding every thing" shall include the Engineering, Surveying, preparing all Plans, Sections, Drawings, setting out the Works, Rails, Chairs, Spikes, Bolts, Fish Plates, Sleepers, Ballast, Bridges, Culverts, Fencing, Level Crossings with Gates where required, suitable Stations with Platforms, Road Approaches, and everything else that may be required to complete a single Line of Railway to render it fit for Traffic.
 - (7.) That the Contractors shall receive payment in New South Wales Government Debentures, bearing interest at the rate of £5 per centum per annum, and terminable in thirty years.
 - (8.) That in the event of Messrs. Peto and Co., or other Contractors, acceding to this request, and causing trial levels and sections to be made, to enable them to prepare an Estimate and Tender, they shall, should their tender not be accepted, be paid the cost of such trial levels, surveys, and sections, which shall then become the property of the Government, and one-half the amount of such other reasonable expenses that may be incurred by them.
 - (2.) That this House is further of opinion, that for the purpose of paying off such loans as may be hereafter raised, Two per Cent. upon such amount shall be every year taken from the Consolidated Revenue and invested either in the purchase of Debentures or other securities, and the interest and compound interest accruing from such securities shall be annually invested in the like manner.
2. DR. LANG *to move*,—
- (1.) That, in the opinion of this House, it is expedient and desirable, that the name of this Colony of "New South Wales" having been originally given to it from mere accident and caprice, and being neither historical nor appropriate, should now be changed, and a name at once historical, distinctive, and appropriate, substituted in its stead.
 - (2.) That the only name that would fulfil these conditions, and that deserves at the same time so honourable a commemoration, is that of the illustrious discoverer of this Country, Captain Cook; in honour and in grateful remembrance of whose eminent and distinguished services to humanity, and to Australia in particular, it is the opinion of this House, that this Colony should henceforth be designated "Cooksland."
 - (3.) That the recent change of the name of a neighbouring Australian Colony from "Van Diemen's Land" to "Tasmania," in honour of the illustrious discoverer of that Country, Abel Jansen Tasman, after it had borne the name he had himself originally given it for upwards of 200 years, affords a suitable precedent both for the proposed change itself, and for the name which it is proposed to honour.

No. 44.

VOTES AND PROCEEDINGS
OF THE
LEGISLATIVE ASSEMBLY.

FRIDAY, 4 SEPTEMBER, 1863.

1. The House met pursuant to adjournment; The Speaker took the Chair.
Questions on Notice Paper for to-day :—
(Mr. Burdekin not asking the Question standing in his name, No. 1, it dropped.)
(Mr. Raper withdrew the Question standing in his name, No. 2.)
(1.) Mr. Commissioner McFarland :—Mr. Eagar asked the Colonial Secretary, pursuant to Notice No. 3,—Whether the Government intend to take any, and if any, what action, in reference to the Petition of 106 Merchants and others, presented to the Assembly on the 21st July last, complaining of the “assumptive acts of Mr. Commissioner McFarland,” and praying for certain changes in the present Insolvent Law, and in the mode of administering the same?
Mr. Cowper answered :—I beg to state to the Honorable Member, that a Bill is in progress, and has already passed through Committee in this House, which provides a remedy for the most pressing inconvenience complained of in the Petition referred to; and further amendments are under consideration.
(2.) Sydney Common :—Mr. Eagar asked the Secretary for Lands, pursuant to Notice No. 4,—If he will be good enough to state in what way the Government propose to deal with the Sydney Common, in relation to the persons for whose benefit it is understood to have been granted?
Mr. Robertson answered :—It will be scarcely possible for me to give such an answer as it seems to me would be necessary to meet the Question of the Honorable Member. A Bill will be brought in for the purpose. The Land was granted many years ago to the City of Sydney, and at that time there was no such thing as a City Corporation. I think it would be an improper course for the Government to assume the right to grant this land to the Corporation without the authority of Parliament. The land was granted as a Pasturage Reserve, and it will be necessary to have legal authority for converting it to other purposes for the benefit of the City. All these provisions will be found in a Bill for the purpose. I do not know that I can give any more specific answer.

 And Mr. Cowper having produced the *Government Gazette*, and the *Sydney Morning Herald*, the *Empire*, and the *Maitland Mercury*, newspapers, containing notices, for four consecutive weeks, in the months of July and August last, of the intention to apply for such Bill.

 The Chairman reported progress, and obtained leave to sit again at a later hour this day.
8. Postponement :—The Order of the Day for the consideration in Committee of the Metropolitan Corporation Bill postponed, on motion of Mr. Cowper, until Tuesday next.
9. Commercial Banking Company's Act Amendment Bill, on motion of Mr. Cowper, read a third time and passed.

OTHER BUSINESS—NOTICES OF MOTION:—

1. MR. SAMUEL *to move*,—
 (1.) That this House is of opinion that Messrs Peto and Co., or some such eminent Railway Contractors, should be requested to prepare an Estimate and submit a Tender to the Government for constructing certain Railways in New South Wales, in accordance with the following conditions:—
 (1.) To make and completely finish, within three years from the time of signing the Contract, a single line of Railway to Goulburn from the termination of the present extension, for which Contracts have been taken; to find everything except Land; uphold and keep the same in repair for a period of one year after completion.
 (2.) To make and completely finish, within three years from the time of signing the Contract, a single Line of Railway to Bathurst and Mudgee, from the extension beyond Penrith, for which Contracts have been taken; to find everything except Land; uphold and keep the same in repair for a period of one year after completion.
 (3.) To make and completely finish, within five years from the time of signing the Contract, a single line of Railway from either Goulburn or Bathurst (whichever may after survey be found most eligible) to such place on the River Murray as will unite the Lines of Railway in this Colony with those of Victoria; to find everything except Land; uphold and keep the same in repair for a period of one year after completion.
 (4.) To make and completely finish, within four years from the time of signing the Contract, a single Line of Railway from Singleton to Murrurundi; to find everything except Land, and uphold and keep the same in repair for a period of one year after completion.
 (5.) That the Government furnish Messrs. Peto and Co., or other Contractors invited to Tender, with a Copy of such Surveys or Plans and Sections, as far as they have been made for the above Lines, or that may be useful in preparing such Tender.
 (6.) That "finding every thing" shall include the Engineering, Surveying, preparing all Plans, Sections, Drawings, setting out the Works, Rails, Chairs, Spikes, Bolts, Fish Plates, Sleepers, Ballast, Bridges, Culverts, Fencing, Level Crossings with Gates where required, suitable Stations with Platforms, Road Approaches, and everything else that may be required to complete a single Line of Railway to render it fit for Traffic.
 (7.) That the Contractors shall receive payment in New South Wales Government Debentures, bearing interest at the rate of £5 per centum per annum, and terminable in thirty years.
 (8.) That in the event of Messrs. Peto and Co., or other Contractors, acceding to this request, and causing trial levels and sections to be made, to enable them to prepare an Estimate and Tender, they shall, should their tender not be accepted, be paid the cost of such trial levels, surveys, and sections, which shall then become the property of the Government, and one-half the amount of such other reasonable expenses that may be incurred by them.
 (2.) That this House is further of opinion, that for the purpose of paying off such loans as may be hereafter raised, Two per Cent. upon such amount shall be every year taken from the Consolidated Revenue and invested either in the purchase of Debentures or other securities, and the interest and compound interest accruing from such securities shall be annually invested in the like manner.
2. DR. LANG *to move*,—
 (1.) That, in the opinion of this House, it is expedient and desirable, that the name of this Colony of "New South Wales" having been originally given to it from mere accident and caprice, and being neither historical nor appropriate, should now be changed, and a name at once historical, distinctive, and appropriate, substituted in its stead.

- (2.) That the only name that would fulfil these conditions, and that deserves at the same time so honourable a commemoration, is that of the illustrious discoverer of this Country, Captain Cook; in honour and in grateful remembrance of whose eminent and distinguished services to humanity, and to Australia in particular, it is the opinion of this House, that this Colony should henceforth be designated "Cook'sland."
- (3.) That the recent change of the name of a neighbouring Australian Colony from "Van Diemen's Land" to "Tasmania," in honour of the illustrious discoverer of that Country, Abel Jansen Tasman, after it had borne the name he had himself originally given it for upwards of 200 years, affords a suitable precedent both for the proposed change itself, and for the name which it is proposed to honour.

 4. MR. DANGAR to move, That in the opinion of this House, the application by the Government of £6,000, voted in 1862, for a Bridge over the Hunter at West Maitland, to the erection of a Bridge at Pitnacree, is an unconstitutional interference with the appropriation of said sum of £6,000, as directed by the Vote of this House.
 5. MR. W. FORSTER to move, That an Address be presented to the Governor, praying that His Excellency will be pleased to cause to be laid upon the Table of this House, a Return of all cases, since the beginning of Responsible Government, in which any person or persons, whether jointly or severally, have petitioned or in any way applied for leave to sue the Government of this Colony in any Court of Law, specifying in each case, the party or parties so petitioning or applying, the date of the petition or application, the grounds of claim, the decision of the Government thereon, the reasons for refusal in each case where such petition or application was refused, and the result and cost of proceedings in each case where the Government consented to be sued.

VOTES AND PROCEEDINGS
OF THE
LEGISLATIVE ASSEMBLY.

TUESDAY, 8 SEPTEMBER, 1863.

1. The House met pursuant to adjournment; The Speaker took the Chair.

Questions on Notice Paper for to-day:—

- (1.) Coffins:—Mr. Lucas asked the Secretary for Public Works, pursuant to Notice No. 5,—

(1.) Whether he has received a letter, dated the 24th of March, 1862, from Mr. Jordon Sparks, calling his attention to the manner of supplying Coffins to several Public Establishments?

(2.) If so, has the letter been answered?

(3.) Have Tenders been called for the supply of these Articles, in accordance with a Resolution of this House, to the effect that Tenders should be called for all Supplies required by the Government?

(4.) If not, will the Honorable Member inform the House of the cause why Tenders have not been called for these Articles?

Mr. Cowper answered:—I find that a letter from Mr. Sparkes was addressed to my Honorable colleague, the Minister for Works, dated 24th March, 1862, on the subject of supplying Coffins to several public establishments, that upon that document there is a Minute by the Colonial Architect, to whom it appears to have been referred, to this effect,—“My Department has nothing whatever to do with the supply of Coffins, and I have no knowledge of the arrangements under which they are obtained at Parramatta. As a matter of convenience, the contracts for Coffins for Sydney and Tarban Creek have for some years been included in the annual advertisement for Tenders for Public Works, &c., but neither requisition nor account for them pass through my office.” Upon which the Minister for Works made another memorandum,—“The subject alluded to in this letter seems worthy of consideration, and it would perhaps be desirable to call for tenders in all cases where the public institutions require such a supply. Perhaps the Chief Secretary will consider the subject, and express his views thereon.” This document then seems to have been referred to my office, and upon it the Under Secretary says,—“It would be convenient, where there are Government establishments in places in which contracts could be obtained, to provide for Coffins in that way. This used to be a matter attached to the Architect’s department, and the rates being notified, the articles could be procured and the accounts passed by the Department requiring them.” Nothing, however, seems to have been done in my Department subsequently, but I find, on the 15th December last, a communication was addressed by the Under Secretary for Public Works, to the Department of the Colonial Secretary, to this effect:—“I am directed, by the Secretary for Public Works, to inform you, that the tender of Mr. James Curtis, for the supply of Coffins for the Colonial Service, Sydney, &c.,
“for

“for the year 1863, has been accepted, and that as the votes for those services have been taken under the Honorable the Chief Secretary’s Department, Mr. Curtis has been referred to you for further information on the subject of his contract.” I find, upon inquiry from Dr. Greenup, this day, that this contract has not been construed to extend to Parramatta, and that, for several years past, a person of the name of Willis has been in the habit of supplying these coffins. Inquiry shall be made into this matter, and if any abuse is found to exist it shall be remedied.

(2.) Compensation for certain Lands resumed for a Parish Road :—Mr. Harpur asked the Secretary for Lands, pursuant to Notice No. 7,—When Compensation will be made to Messrs. Becke, Noble, Drake, and Brown, of the District of Patricks Plains, for portions of Land taken from them severally, by the Government, for the purpose of forming the parish road from Coorangalar to Camberwell? Mr. Robertson answered :—In reply to the Question of my Honorable friend, I would say, that in the cases alluded to, no compensation for the land taken can be recommended. The deeds contain the usual right of way.

(3.) Lands Free-Selected by Individuals and afterwards granted to the Twofold Bay Company :—Mr. Egan asked the Secretary for Lands, pursuant to Notice No. 1,—Whether the Government have determined on the course they intend to pursue respecting the Lands selected under the Crown Lands Alienation Act of 1861, by Frank Bellor, Thomas Matthews, John Marshal Black, and Charles Leonard Jagers,—the said Lands, since their selection, having been granted to the Twofold Bay Company, under Pre-emptive Right, without official notice to the selectors from the Government, until some time after they had made improvements?

Mr. Robertson answered :—In reply to the Honorable Member, I would say, that no final decision has been arrived at with regard to the claims of the parties alluded to, but the claim of the Twofold Bay Pastoral Association was finally decided in their favour prior to the applications alluded to for Conditional Purchases, and Messrs. Bellor, Matthews, and Black were informed either directly, or through their Agents, so far back as March, 1862, that their applications interfered with this Pre-emptive Right of the Twofold Bay Pastoral Association, based on their application made on the 15th August, 1859. Their deposits have been, or will be, refunded to them. In the case of Jagers, the report of the District Surveyor, Mr. Gordon, has still to be received.

(4.) Grants to Aliens :—Mr. Egan asked the Secretary for Lands, pursuant to Notice No. 2,—

(1.) Whether Aliens, on their completing the purchase of Land, will receive grants from the Crown of the fee simple, in the same manner as though they had been naturalized?

(2.) Have the Government had the opinion of the Law Officers of the Crown on that subject; and if so, what opinion has been given?

Mr. Robertson answered :—

(1.) In reply to the Honorable Member, I would say to his first Question, that applications are not received from persons known to be Aliens. Land Agents have been instructed not to receive applications from such persons. Should purchases be made by persons who prove to be Aliens, their naturalization must precede the issue of Deeds of Grant, but their possession of the land is not disturbed.

(2.) With regard to the second Question, I would say yes; the Crown Law Officers’ opinion has been received to the effect that Aliens should not be allowed to purchase until naturalized.

(5.) Scab Statistics :—Mr. Dangar asked the Secretary for Lands, pursuant to Notice No. 3,—

(1.) The number of Sheep infected with the Scab, as reported by the various Inspectors of Sheep, since the 1st January to 31st August last throughout the Colony; naming the number in each District, and the name of each Inspector?

(2.) The number of Sheep destroyed under the present Scab Act, and the amount of compensation paid to the owners of Scabbed Sheep to the 31st August?

(3.) The amount now due to Claimants, for Sheep destroyed under the present Scab Acts?

Mr. Robertson answered :—

(1.) In regard to the first Question of the Honorable Member, I would say, the Government have no means of ascertaining the number of Sheep affected by Scab in each District. The Government have not attempted to obtain information of that kind, because of the opinion they entertained that such information would be erroneous.

(2.) With regard to the number of Sheep that have been destroyed, they amount to 37,272, which includes 137 lambs. The compensation already paid amounts to £5,498 12s.

(3.) The amount at present due to Claimants, but for which the Auditor General reports there are no funds under the Act, amounts to £1,444 6s.

New South Wales.

No. 47.

VOTES AND PROCEEDINGS

OF THE

LEGISLATIVE ASSEMBLY.

THURSDAY, 10 SEPTEMBER, 1863.

1. The House met pursuant to adjournment; The Speaker took the Chair.

Questions on Notice Paper for to-day :—

- (1.) Free Selections previous to 1st January, 1862 :—Mr. Lucas asked the Secretary for Lands, pursuant to Notice No. 1,—How many acres of land were Free-Selected previous to the 1st of January, 1862?

Mr. Robertson answered :—In reply to the Honorable Member, I would say, that by reference to the 13th Section of the Crown Lands Alienation Act, 25th Victoria, No. 1, he will see that no land whatever could have been conditionally purchased previously to the 1st January, 1862.

(*Mr. Flett withdrew the Question standing in his name, No. 2.*)

- (2.) "Chief" Inspector of Sheep :—Mr. Dangar asked the Secretary for Lands, pursuant to Notice No. 3,—

(1.) Where does the Chief Inspector of Sheep reside; or where are his Head Quarters?

(2.) What amount of Salary, with Travelling Expenses, does he receive per year?

(3.) Will the Government have any objection to lay on the Table of the House all Correspondence for the last two months, between the Chief Scab Inspector of Sheep and the Secretary for Lands?

Mr. Robertson answered :—

(1.) In reply to the Honorable Member, I would say, that there is no such office known to this Government as Chief Inspector of Sheep. The Honorable Member probably alludes to Mr. S. B. Walker, the Scab Inspector, of Sydney, who has been appointed an Inspector to act and report for the District of Sydney. Mr. Walker resides in Sydney, but travels frequently in the performance of his duty. He goes to Penrith, Richmond, and to considerable distances even beyond Richmond when desired to do so.

(2.) His salary is £250 per annum, and he receives a fixed allowance for travelling expenses of £150 per annum.

(3.) With regard to the third Question, I would say, there will be no objection, if it is the desire of the House, but already the Honorable Member for Sydney East, Mr. W. Forster, has moved for Papers of this kind. The Correspondence is about fifteen inches thick, and the copying them is no joke. I wish the Honorable Member would intimate the letters he wishes to have produced, for I would like to close up the matter, otherwise we shall never be able to prepare the Return asked for by Mr. Forster. Every day there is an increase in this correspondence. If we could close it up to some particular day, we might afterwards supply any letter which an Honorable Member might specify.

(3.)

(3.) Mr. Wilshire, Inspector of Police, at Parramatta:—Mr. Dangar asked the Colonial Secretary, pursuant to Notice No. 4,—Is it true that Mr. Wilshire, the Inspector of Police, stationed at Parramatta, resigned his appointment, when ordered to proceed to the South Districts, to assist in the Capture of Bushrangers?

Mr. Cowper answered:—It is true that Mr. Wilshire has resigned his appointment as Inspector of Police. In his letter to me, he stated that he did so for various reasons. His resignation has been accepted.

2. Cardiff Coal Company's Incorporation Bill:—Mr. Garrett, as Chairman, brought up the Report from, and laid upon the Table the Minutes of Proceedings of, and of Evidence taken before, the Select Committee, for whose consideration and Report this Bill was referred on 4th September, 1863.

Ordered to be printed.

Whereupon, Mr. Garrett moved, That the second reading of this Bill stand an Order of the Day for to-morrow week.

Question put and passed.

3. Committee of Elections and Qualifications:—

(1.) Privilege:—Mr. Piddington, as Chairman, brought up the Report from, and laid upon the Table the Minutes of Proceedings of, and of Evidence taken before, the Committee of Elections and Qualifications, to whom it was referred on the 13th August, to inquire as to whether or not certain Honorable Members are disqualified from holding Seats in the Legislative Assembly under the circumstances set forth in the Order of reference—together with Appendix.

And the said Report having been read at length by the Clerk, by direction of the Speaker, as follows:—

" The Committee of Elections and Qualifications, duly appointed on the 25th June, 1863, under the provisions of the ' Electoral Act of 1858,' to whom
" was referred on the 13th August, 1863, a Question of Privilege as follows:—
" ' That ' The Return shewing the names of all Members of Parliament who
" ' have in any way been employed by the Government or its Officers, the
" ' nature of the employment, and the amount of remuneration paid for such
" ' services during the present Parliament,' laid upon the Table of the House
" ' and ordered to be printed on the 5th August instant, be referred to the
" ' Committee of Elections and Qualifications, with instructions to inquire
" ' into the circumstances relating to the employment of the Members of this
" ' House therein named, and to report specially, whether or not they, or any
" ' of them, have, by the acceptance of an office of emolument, committed a
" ' breach of the Constitution Act, and thereby rendered their seats liable to
" ' be declared vacant,'—have considered the cases of the several Members
" mentioned in the said Return, and have agreed to the following
" Resolutions, which they beg to Report to your Honorable House, viz. :—

" 1. That, in the opinion of this Committee, Mr. Robert Henry Mariner Forster,
" during the present Parliament, accepted an office of profit from the
" Crown, and thereby rendered his seat liable to be declared vacant.

" 2. That, in the opinion of this Committee, Mr. Arthur Todd Holbrod, during
" the present Parliament, did not accept any office of profit from the Crown
" whereby his seat is liable to be declared vacant.

" 3. That, in the opinion of this Committee, Mr. Richard Driver, during the
" present Parliament, did not accept any office of profit from the Crown
" whereby his seat is liable to be declared void.

" 4. That, in the opinion of this Committee, Mr. William Love did not accept
" any office of emolument during the present Parliament; but that on the
" 1st day of August, 1860, he accepted the office of Postmaster at Redfern,
" being an office of profit under the Crown, and continued to hold such
" office at the time of his election, and until the 18th day of November,
" 1861, and has therefore rendered himself liable to have his seat declared
" void as being unqualified at the time of such election.

" 5. That, in reporting the resolutions of this Committee to the House, it be
" also reported that the Committee believe that no objection was, or has
" been, taken to Mr. Love's election on the ground that he was dis-
" qualified.

" Your Committee find that Mr. W. B. Dalley was not a Member of the
" House at the time of his *employment* by the Government, and that Mr. W. C.
" Windeyer has ceased to be a Member of the Legislative Assembly.

" Your Committee is strongly impressed with a sense of the danger to
" the independence and purity of the Legislative Assembly, which may arise from
" the practice of selecting Members of Parliament, even for temporary employ-
" ment under the Government.

" Your Committee is unanimously of opinion that the practice alluded to
" ought no longer to be continued in any department of the Public Service."

" W. R. PIDDINGTON,
Chairman.

" Committee Room, No. 2,
" Legislative Assembly,
" Sydney, 10 September, 1863."

Ordered,

Ordered, on motion of Mr. Piddington (after Debate), That the Report, together with the accompanying Documents, be printed.

(2.) Adjournment of Committee :—Mr. Piddington then moved, That the Committee of Elections and Qualifications have leave to adjourn their sittings *sine die*, the matter referred to them having been disposed of.

Question put and passed.

4. Colonial Sugar Refining Company's Bill :—Mr. Samuel presented a Petition from Edward Knox, of Sydney, in the Colony of New South Wales, Esquire, Chairman of the Board of Directors of "The Colonial Sugar Refining Company," praying for leave to introduce a Bill to enable the said Company to sue and be sued in the name of such Company, and to vest the Property of the Company in the Trustees, for the time being, of such Company,—

And Mr. Samuel having produced the *Government Gazette*, and the *Sydney Morning Herald* and *Empire* newspapers, containing notices for four consecutive weeks in the month of August last, of the intention to apply for such Bill,—
Petition received.

5. Ways and Means—Postponement of Government Orders of the Day :—Mr. Smart moved, "That" the Speaker do now leave the Chair, and the House resolve itself into a Committee of Ways and Means.

Debate ensued.

And Mr. Smart asking the leave of the House to withdraw his motion,—

And the same being objected to by Mr. Rotton,—

Mr. Cowper moved, That the Question be amended by omitting all the words after the word "That," with a view to inserting in their place the words, "the Government Orders of the Day be postponed until after the Other Business has been disposed of."

Debate ensued.

Question put, That the words proposed to be omitted stand part of the Question.

10. Ways and Means :—On motion of Mr. Smart, the Speaker left the Chair, and the House resolved itself into a Committee of the Whole, further to consider of Ways and Means.

The Chairman obtained leave to sit again so soon as a *Point of Order*, which had arisen in the Committee, should be determined in the House, viz. :—

A proposed Resolution being under consideration in the Committee, the object of which was to make good, out of the Consolidated Revenue Fund, a specific sum of money to meet the Supply already granted to Her Majesty for the Service of the year 1864;—the Honorable Member for West Sydney, Mr. Eagar, had proposed, by way of amendment thereto, the following Resolutions :—

“(1.) That the Financial condition of the Country, as shewn by the Estimates of “the Ways and Means for the year 1864, is unsatisfactory, and demands the “withdrawal from the present Ministry of the confidence of this House.
“(2.) That an Address be presented to His Excellency the Governor, embodying “the foregoing Resolution.

The Chairman had declined to receive the proposed Amendment, on the ground of its irrelevancy to the Question before the Committee, and quoted May, 4th Edition, pages 530 and 531, in support of his argument.

The Speaker expressed his agreement with the Chairman, in the opinion stated by him that an Amendment in Committee of Ways and Means must be strictly relevant to the Resolution proposed; but considered so much of the proposed Amendment as declared the Financial state of the Country to be unsatisfactory to be relevant to a motion which proposed to make good a Supply by granting a sum from the Consolidated Revenue Fund, as the adequacy of that fund to meet the demands upon it must depend on the Financial state of the Country. The latter portion of the proposed Amendment the Speaker considered inadmissible, as by its form arrogating to the Committee the functions of the House.

The Speaker then left the Chair, and the Committee resumed.

The Chairman reported progress, and obtained leave to sit again on Wednesday next.

The House adjourned, on motion of Mr. Cowper, at seventeen minutes after Eleven o'clock, until To-morrow, at Three o'clock.

JOHN HAY,
Speaker.

(11.)

(11.) That the expenditure by the Government, out of the moneys annually voted for the repairs, alterations, and additions to public buildings generally, of the sum of £251 8s. 2d., in erecting and fitting up a cow-house in the grounds at Government House, was a misappropriation of public money, which calls for the condemnation of this House.

No. 49.

VOTES AND PROCEEDINGS
OF THE
LEGISLATIVE ASSEMBLY.

TUESDAY, 15 SEPTEMBER, 1863.

1. The House met pursuant to adjournment; The Speaker took the Chair.

Questions on Notice Paper for to-day :—

(1.) Blacktown, Windsor, and Richmond Railway:—Mr. Dalgleish asked the Secretary for Public Works, pursuant to Notice No. 1,—

(1.) What sum of money has been expended on the Blacktown, Windsor, and Richmond Railway?

(2.) What sum of money has been expended on the Purchase of Rails for the above Railway?

(3.) Why have the Light Rails, ordered and imported for the above-mentioned Railway, not been used in its construction; and what Rails are now to be used?

(4.) What do the Government purpose doing with the Light Rails imported for the above Railway?

(5.) What agreement have the Government made with Mr. Weaver for the construction of the above-mentioned Railway?

(6.) What sum of money has been paid, and what sum is now due to Mr. Weaver, for his services on this Line of Railway?

Mr. Arnold answered:—

(1.) I beg to inform the Honorable Member, in reply to his first Question, that the amount already paid for work done upon the Windsor and Richmond Railway, up to the 31st August last, exclusive of the cost of Rails, was £15,952 0s. 8d.

(2.) The amount paid for 55lbs. Rails, the Rails intended to be used, is £13,834 8s., but there are some small additional charges, which have not yet been paid.

(3.) The reason why the Rails originally ordered for this work were not used has been, that it was thought better to use a heavier description of Rails. The history of this matter is not exactly what might be inferred from the Honorable Member's Question. There was a light description of Rail ordered in the first instance, but immediately after that Rail was ordered—I think by the next Mail, or very shortly afterwards—it was thought advisable to alter the weight and to have a heavier Rail, but the first order was not countermanded, because at that time we required a supply of Rails as plant for carrying on various Public Works, and it was thought that the Rail that had been ordered for the Windsor and Richmond Railway would be most suitable for that purpose. Therefore it was not imported for the Windsor and Richmond Railway; the light rail was imported for various Public Works, although it was originally ordered for the Windsor and Richmond Railway.

(4.) The fourth Question I have already answered, by saying, that the light Rails which were originally ordered for the Windsor and Richmond Railway were imported for the purpose of carrying on various contracts, for which purpose they will be used.

(5.) As to the agreement made by the Government with Mr. Weaver for the superintendence of this Railway, upon a former occasion I stated the terms. They are, generally, the payment of 5 per cent. upon the amount actually expended within the estimated sum of £3,000 per mile. There is also the power of terminating the agreement at any time, if the Government desire to do so; and a condition

condition of a bonus of 10 per cent., on the satisfactory completion of the work, on all sums saved;—but this will probably have no operation, as it is most likely there will be no saving, and that Mr. Weaver will continue to superintend the work till its termination.

(6.) The amount already paid to Mr. Weaver has been £2,250, and according to a statement which has been sent in, I find there is a balance now due to that Gentleman, up to this time, of £170.

(2.) Works on Railway between Morpeth and Maitland:—Mr. Close asked the Secretary for Public Works, pursuant to Notice No. 2,—

(1.) Whether the Government is aware that all the works of the Contractor tending to the completion of the Line of Railway between Morpeth and Maitland are suspended?

(2.) Whether, under these circumstances, immediate provision will be made by the Government to complete the Line with as little delay as possible, and render it available for the trade of the Hunter River District?

Mr. Arnold answered:—

(1.) I beg to inform the Honorable Member, that the Government are aware that the Works on the Morpeth Line are suspended, and, in fact, that the Contractor has become insolvent.

(2.) Immediate steps were taken, upon the Government being made aware of this state of circumstances, to annul the contract, and to carry out the work in the most expeditious manner; but in order to do this it was necessary to consult the Crown Law Officers as to the proper mode of carrying out the intention of the Government, and the delay that has occurred has arisen in consequence of the inability to obtain the advice that is required.

(3.) Alpacas:—Mr. Wilson asked the Secretary for Lands, pursuant to Notice No. 3,—Has the Government any objection to lay a Return on the Table of this House, shewing the present state and numbers of the Alpacas?

Mr. Robertson answered:—Perhaps it will be satisfactory to the Honorable Gentleman and to the House, if I read a letter I have just received, dated 14th of this month, from Mr. Arthur Ledger, the gentleman now in charge of the Alpacas. VOTES AND PROCEEDINGS
OF THE
LEGISLATIVE ASSEMBLY.

WEDNESDAY, 16 SEPTEMBER, 1863.

1. The House met pursuant to adjournment; The Speaker took the Chair.

Questions on Notice Paper for to-day :—

- (1.) Gross Amount already paid on the Supplementary Estimate for 1863 :—
Mr. Sadleir asked the Colonial Treasurer, pursuant to Notice No. 1,—What is the gross Amount already paid on the Supplementary Estimate for 1863, including £10,000 for the National and Denominational Schools, and £13,300 for Seed Oats and Wheat ?

Mr. Smart answered :—I am very sorry to inform the Honorable Member I cannot give him any information, and to prepare it would involve a considerable amount of time and labour.

(*Mr. Holt not putting the Question standing in his name, No. 2, it dropped.*)

- (2.) Work Unpaid for on the Morpeth Railway :—Mr. Close asked the Secretary for Public Works, pursuant to Notice No. 3,—Whether any Work done on the Morpeth Railway is unpaid for; and whether the Government will be able to protect the unpaid Workmen, by distributing, in payment of their wages, any sum due to the Contractor ?

Mr. Arnold answered :—I beg to inform the Honorable Member, in reply to his Question, that the Sum paid, for Work done for the Morpeth Railway, to the Contractor, Mr. Martindale, is less than the amount of the work which has been completed by about £200, I think—between £200 and £300; but I cannot say that this amount would be available to pay Mr. Martindale's Workmen, of whom we know nothing at all. The Government in no way interfere with the contractors and either their sub-contractors or their workmen, on whatever terms they engage them. Nor is this the only case in which it has been represented to the Government that contractors have failed to pay their workmen, but still the Government have refused to interfere in any way with those arrangements. At the same time, I may say, that an arrangement has been attempted for enabling the Contractor, under the surety of approved persons, to go on with this work, and so complete his arrangements with his Workmen. If that arrangement is perfected, these Workmen (who certainly have every reason to complain) may be enabled to obtain payment; and it is in order that this may be the case that we have entertained the proposition at all;—but whether it will be completed I cannot inform the Honorable Member at present.

2. Privilege—Seat of Mr. Robert Henry Mariner Forster :—Mr. Rotton claiming precedence for his Motion on the ground of *Privilege*, moved, pursuant to notice standing in his name, No. 3 on the Notice Paper of Other Business for to-day, That, the Committee of Elections and Qualifications having reported,—

“ That, in the opinion of this Committee, Mr. Robert Henry Mariner Forster, “ during the present Parliament, accepted an office of profit from the Crown, and “ thereby rendered his seat liable to be declared vacant,”—

the seat of the said Mr. Robert Henry Mariner Forster be declared, and is now vacant, by reason of “ his acceptance of such office.”

And Mr. R. Forster being heard in his place, in explanation, withdrew.
Debate ensued.

Mr.

Mr. W. Forster moved, That the Question be amended by omitting the words, "his acceptance of such office," with the view of inserting in their place the words, "the Committee having so reported."

Contingent

Contingent Notices of Motion :—

1. MR. MARTIN to move, (as an Amendment on the Question, "That the Speaker do now leave the Chair," for going into Committee of Supply, on the occasion next after the Discussion on the Colonial Treasurer's Financial Statement,) the following Resolutions, *seriatim* :—
 - (1.) That the Minute of the Executive Council of the 27th May last, authorizing the appropriation of the sum of £6,000, voted by the Legislature for the Construction of a Bridge over the Hunter River at West Maitland, to the erection of an iron Bridge over the said River at Pitnaecree; and also authorizing the expenditure of a further sum of £3,000 to meet the extra expense attending the said works, indicates an intention on the part of the Government to violate the Constitution, and to invade the undoubted Rights of Parliament, in a manner which calls for the condemnation of this House.
 - (2.) That the expenditure of £1,722 9s. 3d. in making an advance to the defendants in the case of *Berry v. Graham and Another*, without the authority of Parliament, was wholly unjustifiable, and is deserving of the censure of this House.
 - (3.) That the Minute of the Executive Council of the 20th January last, authorizing the expenditure of £11,000 for the Completion of the Masonry and Roofing-in of the Australian Museum, without any previous Parliamentary sanction, was a proceeding which calls for the condemnation of this House.
 - (4.) That inasmuch as Parliament continued in Session for six weeks after the passing of the Real Property Act of 1862, it was the duty of the Government to provide in the Annual Appropriation Act for the present year, for the payment of the Salaries to the various Officers to be appointed under such Act, and that the payment to such officers of their salaries hitherto, without any Parliamentary sanction, is, under the circumstances, an act deserving of the censure and condemnation of this House.
 - (5.) That the expenditure by the Government, out of the moneys annually voted for repairs, alterations, and additions to public buildings generally, of the sum of £346 8s. 2d., in constructing a Terrace Wall in the grounds in front of Government House, was a misappropriation of public money, which calls for the condemnation of this House.
 - (6.) That the expenditure by the Government, out of the moneys annually voted for repairs, alterations, and additions to public buildings generally, of the sum of £90 1s. 5d., in constructing a basin and fountain in the grounds in front of Government House, was a misappropriation of public money, which calls for the condemnation of this House.
 - (7.) That the expenditure by the Government, out of the moneys annually voted for repairs, alterations, and additions to public buildings generally, of the sum of £228 2s. 4d., in constructing a verandah in front of Government House, was a misappropriation of public money, which calls for the condemnation of this House.
 - (8.) That the expenditure by the Government, out of the moneys annually voted for the repairs, alterations, and additions to public buildings generally, of the sum of £341 8s. 5d., in constructing a new private entrance at the west front of the grounds at Government House, was a misappropriation of public money, which calls for the condemnation of this House.

That the expenditure by the Government out of the moneys annually voted for the repairs, alterations, and additions to public buildings generally, of the sum of £382 4s. 1d., in fitting up a kitchen, scullery, and still room, at Government House, was a misappropriation of public money, which calls for the condemnation of this House.
 - (10.) That the expenditure by the Government out of the moneys annually voted for the repairs, alterations, and additions to public buildings generally, of the sum of £131 0s. 2d., in constructing a new larder, and wire netting for the same, at Government House, was a misappropriation of public money, which calls for the condemnation of this House.
 - (11.) That the expenditure by the Government, out of the moneys annually voted for the repairs, alterations, and additions to public buildings generally, of the sum of £251 8s. 2d., in erecting and fitting up a cow-house in the grounds at Government House, was a misappropriation of public money, which calls for the condemnation of this House.
 - (12.) VOTES AND PROCEEDINGS

OF THE

LEGISLATIVE ASSEMBLY.

FRIDAY, 18 SEPTEMBER, 1863.

1. The House met pursuant to adjournment; The Speaker took the Chair.

Questions on Notice Paper for to-day :—

- (1.) Promotion of and Reward to Sub-Inspector Stephenson :—Mr. Samuel asked the Colonial Secretary, pursuant to Notice No. 1,—

(1.) What amount of Additional Pay Sub-Inspector Stephenson receives by his late promotion ?

(2.) What Reward has he become entitled to by reason of his courageous and gallant capture of the Bushranger Lowry ?

Mr. Cowper answered :—

(1.) I beg to state, that by his promotion, Sub-Inspector Stephenson's pay has been raised from 9s. 6d. per diem (which is £173 7s. 6d. per annum), to £200 per annum.

(2.) In reply to the second Question, I beg to state, that there is some difficulty in answering this Question decidedly. £100 Reward was offered by Government for the re-apprehension of Lowry for mail robbery, and a large private Reward has been offered by the Bank for the apprehension of the men who robbed the Mudgee mail. The Government Reward will be distributed between Stephenson and his colleagues. The Bank will deal with their Reward as they think right.

- (2.) Management of Alpacas—Mr. Charles Ledger :—Mr. Dangar asked the Secretary for Lands, pursuant to Notice No. 2,—

(1.) Have the Government dismissed or suspended Mr. Charles Ledger, as Superintendent of the flock of Alpacas; and if so, for what misconduct—or has he resigned his appointment; if so, when ?

(2.) Do the Government intend to pay Mr. Charles Ledger any arrears of Salary, from the date of his giving up charge of the Alpacas to Mr. A. Ledger ?

(3.) If not, will the Government allow a Committee to inquire into the Claims of Mr. Charles Ledger, for Salary due since the date of his suspension and management of the Alpacas ?

Mr. Robertson answered :—

(1.) In answer to the first Question of the Honorable Member, I would say, that, many months ago, in consequence of certain complaints made by the Victorian Government, on the conduct of Mr. Charles Ledger, in regard to certain money transactions of a public nature in that Colony, Mr. Charles Ledger was suspended from his position as Superintendent of Alpacas in this Colony. Much correspondence took place between the Governments of Victoria and New South Wales upon this matter, and after months of the most careful consideration the Government could give to the question, they were unable to arrive at any other conclusion than that Mr. Ledger's conduct, with regard to these pecuniary matters, was unsatisfactory. Besides that, the management of the Alpacas by Mr. Ledger, was admitted by himself to be disastrous. The Government, therefore, thought it their duty to take such steps as would rid themselves of Mr. Ledger and his services; but desirous, always bearing in mind the peculiar position of

Mr.

Mr. Ledger—always bearing in mind the great sacrifices which it is believed he has made for the introduction of these animals—always bearing in mind his peculiar position with regard to them—to avoid taking any course that would be unnecessarily injurious to Mr. Ledger—a communication was made to him that his resignation, offered many months before, would be accepted. Mr. Ledger, in a letter, refused to consider that the Government could fairly fall back upon the offer of resignation I have alluded to. No doubt Mr. Ledger was entitled to take that position; but the Government was also entitled to take its own course, and seeing that Mr. Ledger had thus substantially refused to allow his resignation to have effect, on behalf of public interests, for the reasons mentioned, it has been considered necessary to remove Mr. Ledger from the public service.

(2.) With regard to the payment of Mr. Ledger, although it has been usual with the Government not to pay an officer from the time of his suspension if that suspension results in dismissal, it has been thought, that under the peculiar circumstances of Mr. Ledger's case, that that course may be departed from in his instance, and that we may fairly—considering all the specialities of his case—give him his payment, notwithstanding that his suspension resulted in his removal from office.

(3.) In reply to the Honorable Gentleman's third Question, whether the Government will allow a Committee to inquire into the claims of Mr. Charles Ledger, I am sure I need not say to the Honorable Member, that that is a matter over which the Government has no control. The right to make an inquiry of this kind, is in this Assembly, or this Parliament. The Government has no control, but if I may be allowed to offer any opinion, it is that it would be desirable that the House should inquire into the claims and peculiar position of this gentleman. I am willing to admit that his whole case is peculiar; but, under the rules of the service, I am sorry to say the Government has not been able to take a course more beneficial to Mr. Ledger than the one I have indicated they are likely to follow. If a Committee would take a different view of the matter, I can only say it would be very satisfactory to me, and I do not conceive that necessarily injustice will arise even if Mr. Ledger should have greater consideration than the Government has been able to give him, because no rules of the Government are without exception, and I think it will be admitted by any gentleman who goes into the case of Mr. Ledger, that his is a peculiar one.
