THE TROFFS PASTORAL HOLDING, IN THE CENTRAL DIVISION.

No. 1.

The Accountant, Australasian Mortgage and Agency Company (Limited), to The Under Secretary for Lands.

(Ms. Ls. 96-11,984.)

Sir,

The Australasian Mortgage and Agency Company (Limited),

Sydney, 24 October, 1896.

Herewith I enclose two applications for scrub leases within the leasehold area of The Troffs pastoral holding, and have paid to the Treasury the usual deposits and provisional survey fee. As regards the latter, I would point out that all the boundaries, with the exception of two small portions (leases Nos. 16 and 17, inferior lands), have been surveyed, and, therefore, in accordance with your advice, I have paid provisional survey fee with respect to the boundary of these portions only, seeing that the usual £2 per mile is not required with respect to the balance of the land.

I trust that these applications may receive prompt consideration.

I have, &c.,

B. ALLEN, Accountant.

For the Australasian Mortgage and Agency Company (Limited).

Who are the present lessees of the Troffs? The Australasian Mortgage and Agency Company (Limited).—R.H.D., 27/10/96. Proceed with.—R.H.D., 28/10/96.

Any action being taken, so far as you are aware, as to withdrawal from the Troffs leasehold area under section 3, Crown Lands Act, 1895? If so, are these areas affected?—H.A. (for J.B.M.), 30/10/96. Mr. McMinn.

The District Surveyor at Forbes recommends withdrawal from the leasehold area of the Troffs under the provisions of section 3, Act of 1895.—A.B.M. (*pro* E.F.), 30/10/96. Mr. McGuane.

The two scrub leases applied for embrace the whole of the leasehold area of the Troffs, and would, therefore, affect any withdrawal under section 3.—A.B.M., 30/10/96. Mr. McGuane.

[Enclosure.]

A.

Form 66.—Crown Lands Acts.

Application for a Scrub Lease, No. 96-6, Parkes.

4, O'Connell-street, Sydney.

IN pursuance of the "Crown Lands Act of 1889," we, the Australasian Mortgage and Agency Company, Limited, hereby apply for a scrub lease of the Crown lands hereunder described. I have lodged with the Colonial Treasurer the sum of £16 5s., and a receipt therefor is at the foot hereof.

Signed this 23rd day of October, 1896.

For the Australasian Mortgage and Agency Company (Limited).

HERBERT CUNNINGHAM,
Manager.

Description of the land applied for.

Parishes of Gillenbine, Plevna, Salisbury, Redcliffe, and Gobondry, counties of Cunningham and Kennedy, Land District of Parkes, in the Central Division, 37,228 acres, commencing in the position shown on accompanying tracing by red edging.

To the Under Secretary for Lands, Sydney.

RECEIVED, in connection with the above application, a deposit of £10, and a provisional survey fee of £6 5s., all the boundaries, excepting the portions on northern boundary (inferior lands), being measured.

The Treasury, New South Wales.

J. C. WALFORD,
(*pro* Treasurer).

B.

Form 66.—Crown Lands Acts.

Application for a Scrub Lease.

40, O'Connell, Sydney.

IN pursuance of the "Crown Lands Act of 1889," we, the Australasian Mortgage and Agency Company (Limited), hereby apply for a scrub lease of the Crown lands hereunder described. I have lodged with the Colonial Treasurer the sum of £10, and a receipt therefor is at the foot hereof.

Signed this 23rd day of October, 1896, for the Australasian Mortgage and Agency Company (Limited).

HERBERT CUNNINGHAM.

Description of the land applied for.

Parishes of Sebastopol, Gillenbine, and Trundle, county of Cunningham, Land District of Parkes, in the Central Division, 27,200 acres, commencing in the position shown on accompanying tracing by red edging.
The Under Secretary for Lands, Sydney.

RECEIVED, in connection with the above application, a deposit of £10, all boundaries being surveyed.

The Treasury, New South Wales.

J. S. WALFORD,
(*pro* Treasurer).

No. 2.

3

No. 2.

Office Memorandum.

Scrub Lease Applications.—Australasian Mortgage and Agency Company (Limited).

(Ms. Ls. 96-11,984.)

Miscellaneous Leases Branch, 2 November, 1896.

THE Company has lodged application for scrub leases of 27,200 acres and 37,228 acres respectively within the leasehold area of The Troffs pastoral holding, of which the Company is the pastoral lessee—in fact, the areas comprise the whole of that leasehold area.

With each application a deposit of £10 has been lodged, but no survey fee has been lodged with the application for the smaller area, and one of only £6 5s. on that for the larger area.

The Company explains that in the first case all the boundaries have been surveyed, and in the latter all the boundaries, excepting two small portions, have been measured.

Regulation 202, Crown Lands Act, provides that any application for a scrub lease of lands not already notified as scrub lands shall be accompanied by a receipt showing that a provisional survey fee at the rate of £2 per lineal mile of the estimated length of boundaries and a sum of £10 has been deposited with the Colonial Treasurer.

It is, however, to be noticed that the District Surveyor at Forbes has recommended withdrawal from The Troffs leasehold area, under the provisions of section 3 of the Crown Lands Act of 1895; and it is therefore submitted that no action should be taken on these applications pending the settlement of that matter.

J. P. McGUANNE.

What stage is the application in for withdrawal under section 3 of the Act of 1895?—R.H.D., 2/11/96.

Occupation Branch.—The District Surveyor at Forbes reports, *vide* Occupation 96-10,325:—“There is a large amount of settlement around The Troffs leasehold area, counties of Kennedy and Cunningham, and I think the withdrawal of the southern part of that holding for grazing and agricultural farms of about 2,560 acres each would be advisable.” The question of withdrawing land from this and other leasehold areas in the Forbes Land Board District will be submitted in the course of a few days.—A.B.M., 3/11/96.

As the Local Land Board is required, by section 3 of Act of 1893, to report on the question of withdrawal of part of a leasehold under that section, and as by Mr. McMinn's memo. of this day, it is apparent that stage has not been yet reached, there seems no reason why these applications (2) for scrub leases may not be sent in to the Chairman in the usual way. If the Board is called on to report as to a withdrawal under section 3, it will then be aware of these applications for scrub leases.—R. H. DE Low, in charge of Division, 3/11/96.

For approval.—F. H. WILSON, Chief Clerk, 5/11/96. The whole matter had better be dealt with together. There is no harm in sending the applications on for preliminary action.—H. CURRY, Acting Under Secretary, 5/11/96. Approved.—J.H.C., 6/11/96. Ms. Ls., 96-12,426. The Chairman, L.L.B., Forbes—J.P.M., (for A.U.S.), B.C., 10/11/96. Referred to the District Surveyor.—F.S.W., for Chairman, 12/11/96.

No. 3.

Office Memorandum

Scrub Leases 96-6 and 96-7.

(Ms. Ls. 96-12,426 ; L.B. 96-5,664.)

2 February, 1897.

ACTION is being taken on L.B. 96-6,076 (Occ. 96-11,732) for the withdrawal of the southern half of The Troffs leasehold area, and, if approved, the whole of the land embraced by scrub lease 96-7 will be absorbed.

In order to deal with the scrub lease, a further inspection will be necessary to ascertain the present condition of the country and the nature and value of existing improvements; consequently, it would appear desirable to delay action thereon until the question of withdrawal has been disposed of.

These papers are forwarded in connection with L.B. 96-6,076 above referred to.

ARTHUR SHARP,
District Surveyor.

The Chairman, Local Land Board.—Instructions to Mr. Roberts to report.—A.S., 27/2/97.

No. 4.

Office Memorandum.

Scrub Leases 96-6 and 96-7.—Troffs Pastoral Holding.

REPORT from the District Surveyor, Forbes, to Mr. Surveyor R. J. A. Roberts.

(Ms. Ls. 96-12,426 ; L.B. 97-443.)

27 February, 1897.

Two applications have been lodged by the lessees of the above holding, which, together, embrace the whole of the leasehold area (the dividing line between them being the road from Gobondry towards Bogan Gate); but the Board has recently recommended withdrawal for settlement of the part to the south and east of the blue line on accompanying helio.; consequently no action as regards scrub lease need be taken on that area.

Mr.

Mr. Roberts will be good enough, however, to furnish a full report on the part to the north and west of the blue line, giving the character of the country, its present condition as regards scrub, grazing capacity, as at present, and, after scrubbing and ringbarking have been effected, approximate cost of scrubbing and ringbarking, nature and value of improvements at present existing, and any other information likely to be of use to the Board in dealing with the case.

Mr. Roberts will also be good enough to report whether, in his opinion, the whole or any part of the land might be let as a scrub lease, and if so, the term and rental per acre he would recommend.

ARTHUR SHARP,
District Surveyor.

Replied to by my letter of the 26th April, 97-33.—R. J. A. ROBERTS.

No. 5.

Mr. Surveyor Roberts to The District Surveyor, Forbes.

Exhibit "A."

Proposed Scrub Leases.

Surveyor Roberts to the District Surveyor, reporting on part of the leasehold area of The Troffs pastoral holding, applied for as scrub lease by the lessees; counties of Cunningham and Kennedy, and Land District of Parkes.
(No. 97-33.)

Sir,

Forbes, 26 April, 1897.

In compliance with your instructions of the 27th February, 1897, No. 19, I have made a further inspection of the northern half of the above-mentioned leasehold area, as shown on the accompanying helio., marked "A," which also shows the general character of the country and the improvements thereon.

2. I first inspected this leasehold area in March, 1895, and when there again early in this month I observed a marked increase in the growth of box seedlings in many places where ringbarking has been done, and I have no doubt the whole area would suffer in like manner, as this class of country is liable to the growth of noxious scrubs. In the unimproved parts, the scrub was in much the same condition.

3. The northern half referred to contains an area of about 32,000 acres, according to the dividing line recently recommended by the Board, and of this area about one-fourth, situated chiefly in the north-east corner, may be classed as inferior lands, though most of this is capable of great improvements. It consists of rocky sandstone ridges, timbered with ironbark, currawong, mallee and dense scrub of all kinds; also of stony and gravelly undulation, timbered with box, pine, oak, budda, dogwood, and scrub of pine, hopbush, wattle, and sifting-bush. There are also patches of belar within the inferior area, but there are good strips of country.

4. The remaining three-fourths consist of undulating and nearly level country, timbered chiefly with box, pine, and oak, intermixed with yarran, budda, and dogwood. I have shown on the helio. by a broken line the approximate limit of the bimbie box forest which is situated south-east of this line. It is mostly open forest country, with a few patches of pine scrub and yarran; but, where ringbarked, box seedlings and young pine are coming up very thickly in places. North-west of the broken line it is mostly goborrah box forest, and is covered with a scrub of pine, wattle, hopbush, oak, budda, dogwood and sifting-bush, and box seedlings where ringbarking has been done. There are also patches of belar in this area.

5. The soil in the inferior portions is of a sandy nature near the ridges, and of a yellowish clayey nature of shallow depths in the lower slopes. Elsewhere the soil is of a red loamy nature, particularly along the watercourses, and a great part of this land is suitable for cultivation.

6. The average carrying capacity of the land applied for as a scrub lease in its present partially improved state is about one sheep to 4 or 5 acres, but is, in my opinion, capable of improvement to the extent of carrying one sheep to $1\frac{1}{2}$ acre on the natural grasses in ordinary seasons.

7. The cost of ringing and scrubbing the whole area, including the grubbing out of the box seedlings, would be about 2s. per acre, and a periodical expenditure afterwards of 3d. or 6d. per acre in keeping down the scrubs, which are sure to keep on growing for many years.

8. This leasehold area having been recently divided, and the southern half withdrawn for the purposes of settlement, the lessees will now receive a lease for an extended term of about six and a half years for the northern portion, which, I would remind the Board, is the worst half. Taking into consideration the expenditure necessary in improving and maintaining this class of country and keeping down the noxious animals, and the fact that several years must elapse before it is brought to its highest grazing capacity, it is my opinion that even the extended term referred to is not a sufficient inducement to the lessees to expend large sums of money in improving the land when they would only begin to derive a full benefit from such improvements about the time the lease would expire. It is, therefore, reasonable to suppose that at the end of the pastoral lease little would have been done to improve the condition of the country. For these reasons, I consider it would not be against the public interests to grant a scrub lease of the area applied for, for a term of fourteen years, at a rental of 1d. per acre, which should enable the country to be profitably occupied, making an allowance as a sinking fund to compensate for the surrender of certain improvements at the end of the term. If this be done, with conditions of improvement attached, the land, when it reverts to the Crown, will be in a fit state for smaller settlement.

9. The following trees and shrubs should not be destroyed:—The best of the ironbark, box and pine suitable for splitting or sawing, wilga, currajong, berrigan or rosewood, warrior-bush, currant-bush, cherry-bush, emu bush, and quondong; the mallee and golden wattle to be destroyed at the option of the lessees. The latter, which is a troublesome scrub to eradicate, should not, I think, be touched, as it only grows as a rule in small patches and does not interfere much with the growth of grass.

10. The destruction of noxious animals should be included in the conditions, also a provision for any roads that may be required in the future.

11. The improvements in which the Crown has a prospective interest are as follow :—

	£	s.	d.
Substantial woolshed	350	0	0
New drafting-yards	20	0	0
Two huts (shearers')	30	0	0
About 3½ miles seven-wire fence on boundary between The Troffs and T. Franks' C.P. and C.L., at £20 per mile; half value	11	5	0
About 155 chains of new six-wire fence between F. W. Gibson's C.L. and The Troffs, at £25 per mile; half value, say	24	0	0
About 1½ mile six-wire fence, on south side of road Gobondry to Trundle, at £18 per mile	27	0	0
About 9,000 acres of old ringbarking at an average of 9d., say	340	0	0
About 3,000 acres of new ringbarking at 7d., say	87	0	0
Horse plain tank (three excavations) about 2,000 yards at 8d., say	67	0	0
Dam and tank near Gibson's, about 1,000 yards; but as a dam it is worth more, say	60	0	0
Cooper's tank, about 2,500 yards at 8d., say	83	0	0
Tank near gate on Dacungle track, 2,200 yards at 8d., say	73	0	0
Small tank near stock route, 900 yards at 8d., say	30	0	0
Tank in paddock near homestead, 2,200 yards at 8d., say	73	0	0
Woolshed tank and dam, about 4,000 yards in tank, but worth more as a dam, say	140	0	0
Total value	£1,450	5	0

One hut at the woolshed and a new five-wire fence near Cooper's tank, parish of Plevna, have been erected under permission from the Board, and have, therefore, not been included in the above schedule; also some miles of old paddock and boundary fencing have been omitted, as the fencing is in such a state as to be almost valueless, and about the time the improvements become the property of the Crown it will be of no value.

12. The inspection was completed on the 6th instant, and the time occupied was one and half day in the field and one and half in the office. The previous inspection in March, 1895, has saved some time in this case.

I have, &c.,

R. J. A. ROBERTS.

In view of this report, it is recommended that a scrub lease be granted of about 32,200 acres, as indicated by blue edging on enclosed helio. marked "A," for a term of fourteen years, from 1st January, 1898, at an annual rental of 1d. per acre, up till 31st December, 1903 (the approximate date on which the extended term of the pastoral lease will expire), and afterwards at an increased rental equal to 4 per cent. interest on the then value of the Crown improvements, in addition to the 1d. per acre. The conditions might be somewhat as follow :—All timber and scrub (other than the kinds hereafter specified) to be destroyed within five years from granting of lease, at the rate of not less than one-fifth each year, and to be commenced within three months from execution of the lease. The land to be afterwards kept clear of suckers and undergrowth during the remainder of the term. The land to be enclosed within ten years, either separately or as one of a group of holdings, with a rabbit-proof fence, and the necessary steps taken to suppress and destroy rabbits, as though the land were in a declared rabbit-infested district. The following timbers should not be interfered with, viz., straight box, ironbark, and white or Lachlan pine, 6 inches or over in diameter; also pine saplings, unless growing denser than fifty to the acre, in which case they should be judiciously thinned out, so as to leave about that number; also all wilga, currajong, and berrigan, further than to lop the branches off, if required, for feeding stock. The following scrubs being edible should not be destroyed, viz., warrior, currant, cherry, emu, and quondong, and the destruction of mallee, currawong, and golden wattle should be at the lessee's option. The usual conditions as regards resumption for roads or other public purposes should be inserted in the lease. The costs incurred in District Survey Office up to date are as follows :—Mr. Roberts' inspection and report, £7 10s.; office hours, including my own (say), £1; making a total of £8 10s.—ARTHUR SHARP, District Surveyor, 19/5/97. No. 183. The Chairman, Local Land Board.

No. 6.

Mr. Thomas Looney, Hon. Sec., Bullock Creek Farmers' Association, to Thomas Brown, Esq., M.P.

Dear Sir,

Glenmore, 30 May, 1897.

I am instructed by my Committee to inform you that The Troffs and Bruie Plains scrub leases are to be dealt with on the 4th of June by the Local Land Board, and to ask you to be kind enough to remind the Honorable Minister of our former objection against these leases being granted.

Yours, &c.,

THOMAS LOONEY,
Hon. Sec., Bullock Creek Farmers' Association.

Presented by Thomas Brown, 1/6/97. Mr. Brown, M.P., may be informed that, upon receipt of the Board's report, the objections will be considered.—J. P. MCGUANNE, Ms. Ls. Beh., 2/6/97. Urgent.—This is practically replied to by letter to Mr. Brown, of yesterday's date (Occ. 97-5,351), with

with which this should be placed.—R.H.D., 2/6/97. Forwarded to the Chairman, Local Land Board, Forbes, in connection with the scrub lease application referred to herein.—J.P.M. (for the U.S.), B.C., 2/5/97. Mr. Davies. Place with the case.—R.McD., 4/6/97.

[Enclosure.]

Sir,

Trundle, 31 May, 1897.

The Trundle Progress Committee are aware that the lessees of Troffs, Bruie Plains, Coradgery, and other leaseholds are applying to have their leaseholds converted into scrub leases.

We have written to the Minister for Lands protesting against the granting of such leases, as it is detrimental to intending settlers and to the Colony generally. Replies state that the matter is under notice and will receive early consideration.

We are sending Mr. G. C. Little to represent us at the meeting of Land Board this week. This gentleman is well acquainted with the country on Troffs, Coradgery, and Bruie Plains, and will point out to the Board our reasons for protesting against the granting of scrub leases.

I have, &c.,

D. MOLONEY,

The Chairman, Local Land Board, at Parkes.

Hon. Secretary, Trundle Progress Committee.

No. 7.

Decision of Local Land Board, Parkes.

Crown Lands Act of 1884—(Part II, Section 14, Subsection 4).

Decision of Local Land Board.

New South Wales, } Application for Scrub Lease on The Troffs Pastoral Holding.
to wit. }

WHEREAS on the 1st, 2nd, and 12th day of June, 1897, it became a matter for investigation before us to consider two applications, dated 23rd October, 1896, for scrub leases Nos. 96-6 and 96-7, Parkes, within "The Troffs" pastoral holding, No. 218, Central Division, by the Australasian Mortgage and Agency Company (Limited), and having taken evidence and inquired into the said matter we report in reference to application No. 96-6 that it would be expedient in the public interest to grant to the pastoral lessee a scrub lease containing about 32,000 acres of that part of the leasehold area of "The Troffs" pastoral holding within the blue bands shown on the accompanying plan marked "A." This leasehold area has recently been recommended by this Board for subdivision under the provisions of section 3 of the Crown Lands Act of 1895 with a view of making an area of about 32,000 acres (being the part of the south and east of the dividing line shown on the aforesaid plan) immediately available for settlement. The effect will be to give an added period to the term of lease for the northern half, and it is this portion of the holding which is the subject of the application now under inquiry. The salient points adduced from the evidence are as follow:—

- (a) That the country at the present time is more or less overgrown with scrub, suckers, and seedlings.
- (b) That the scrub, suckers, and seedlings are increasing, and if left untouched during the extended term of the pastoral lease, will overrun the country to such a degree as to discourage settlement when the land becomes available for selection, and it will also considerably reduce the value of the land.
- (c) That Mr. George Hutton, representing the firm of Hutton Brothers, the present pastoral lessees (subject to mortgage), has sworn that they could not afford to improve the lands effectually under the present tenure.
- (d) That wallabies are increasing to an alarming extent in this part of the country, 8,000 scalps from 60,000 acres having been received within the past two months; and that the only way to cope with the pest is by wire-netting and clearing the country of scrub.
- (e) That the present selectors in this locality have not been successful, and several of them are anxious to sell out.

Mr. George Charles Little, representing the Trundle Progress Committee and the Bullock Creek Farmers' Association, appeared, and opposed the granting of the scrub lease. The grounds of objections are as follow:—

- (a) That the larger portion of the land, being suitable for agriculture, is required for settlement.
- (b) That the granting of a scrub lease would prejudice the prospects of railway extension, which is now being urged by the settlers of Trundle, Bullock Creek, &c.
- (c) That the value of the present holdings would be increased by further settlement in the locality.

We have carefully considered these objections, and find, as regards the first objection (a), that very large areas of country are about to be made available for settlement in the locality, and that further large areas will be thrown open within a comparatively short time.

Mr. Little's estimate of the values of the land applied for as a scrub lease indicates, in the clearest possible manner, that the present condition of the country is not favourably suited for settlement. He states there are 20,000 acres of agricultural land, worth from 5s. to 7s. an acre; 5,000 acres suitable for grazing, worth something less; and 7,000 acres of valueless country.

In reference to objection (b), we have no knowledge of any proposal in regard to railway extension in this locality, but consider that a provision to meet this contingency could be inserted in the lease.

As regards objection (c), we are of opinion that it is not sufficient to weigh against the advantages which future settlers would reap in getting the land thoroughly improved.

We, therefore, recommend that a scrub lease be granted for the term of the pastoral lease, with, if it be practicable, the promise of an extension, as provided by subsection (vi) of section 26 of the Crown Lands Act of 1895, making a total term of fourteen years, under the general provisions and the following special conditions, viz.:—(1) That the following trees shall not be interfered with, viz., all straight box and ironbark, and all white or Lachlan pine of a greater diameter than 6 inches at 3 feet from the ground; also all young white or Lachlan pine of over 7 inches in diameter at 3 feet from the ground, except where growing within 20 feet of each other; also all wilga, berrigan, and currajong, except to "whip" or lop the branches for stock-feeding purposes. (2) That all trees not specified or exempted in the previous paragraph be destroyed by ringbarking or otherwise, excepting fire-belts 2 chains wide along the boundaries of the lease, and 2½ chains on each side of the road from Trundle to The Bogan, and in such other positions as the

Forest

Forest Department may subsequently indicate. (3) That all non-edible scrubs be thoroughly destroyed, and that quandong, broom, cherry, warriah, emu-bush, and currant-bush scrubs shall not be destroyed (other than for stock-feeding purposes in time of drought), except by direction of the Minister. This latter provision is necessary to prevent the country being overrun even with edible scrub, and thus, possibly, frustrating to a great extent the ultimate object of the scrub lease; also that mallee, currawong, blue or golden wattle, and dogwood scrubs be destroyed at the option of the lessee. These scrubs are non-spreading, and their eradication can only be effected at a prohibitive cost. (4) That the lessees shall, within six months from the date of the scrub lease, begin to clear the land, and shall, within two years afterwards, clear not less than two-fifths of the whole area, and shall, during each succeeding year, clear not less than one additional fifth until the whole area be cleared. The lessee shall also, during the whole term of the lease, keep such land free from suckers and undergrowth. (5) That any land required in connection with mining, or for any other public purpose, may be withdrawn from the lease without compensation except for improvements which may be effected under special permission, or for the lessees' interest in the value for the unexpired term of the lease of the improvements effected in terms of the scrub lease. (6) That in the event of it being decided to construct a railway within 10 miles of any part of the subject land, the Minister shall have the power to cancel the whole or portion of the scrub lease without compensation excepting for improvements, which may be effected under special permission and for the lessees' interest, for the value of the improvements effected in terms of the scrub lease. (7) That within five years from date of lease the land be enclosed with rabbit-proof fencing, and that effective steps be taken to destroy wallabies, rabbits, and all noxious animals. (8) That the rent of the scrub lease be at the rate of £2 per section per annum for the land, but after the expiration of the lease, as it may be extended under section 3 of the Act of 1895, an additional rental be charged at the rate of 4 per centum per annum on the sum of £1,450 (being the estimated value of improvements accruing to the Crown under section 43 of Act of 1889), less 5 per centum per annum for depreciation of value from the present date to the date of expiration of the added term of the pastoral lease. (9) That all improvements be maintained in good order and condition. (10) That claim in ownership on tenant right may be made only in respect of improvements for which consent has already been given, or for improvements for which consent may be specially given hereafter.

Given under our hands, at the Court-house at Parkes, this 12th June, 1897,—

ROBERT M'DONALD, Chairman.

M. COLEMAN, Member.

ROBERT S. HOWARD, Member.

With reference to the application 96-7 for scrub lease of the southern portion of the leasehold area, we recommend that the application be not granted, in view of the withdrawal under section 3 of Act of 1895 previously referred to.

ROBERT M'DONALD, Chairman.

M. COLEMAN, Member.

ROBERT S. HOWARD, Member.

Noted.—A.S., 25/6/97. Costs in Board Office, 10s. 6d.; at Board, £5 5s.—£5 15s. 6d.; previous costs, L.B. 97-1870, £8 10s.; total, £14 5s. 6d.—ROBERT M'DONALD, Chairman, Local Land Board (*per* T.W.W.), 19 January, 1898.

[Enclosure.]

Mr. Cheeseman, for applicant; Mr. Roberts (surveyor), for the Crown.

Robert James Arthur Roberts, of Forbes, on oath, states:—I am a staff surveyor for the Land Board District of Forbes. I inspected "The Troffs" pastoral holding in connection with an application for a scrub lease thereon. The report upon this inspection I have now read (Exhibit A), accompanied by an illustrative heliograph (part Exhibit A).

By Mr. Cheeseman: I recommended fourteen years as an extended tenure of the scrub lease. One year longer would not be objected to by the Crown, as far as I am aware. Nearly all the surrounding country is alienated, and the land in question is nearly about the same class of country as that taken up; some of it is rougher. I believe all the old selectors are still living there, except, perhaps, one or two. The land in question is about 5 or 6 to 16 or 17 miles from Trundle. Bogan Gate is the nearest railway—about 20 miles to 32 or 33 miles away. About 32,000 acres is about to be made available for settlement on this leasehold. I cannot say if it has yet been notified. There are "Burrawong" and Bruui Plains, also about to be made open. Burrawong has been notified, and it is proposed to withdraw 9,000 acres from "Bruui Plains." About 60,000 acres are to be thrown open on Burrawong altogether, there being about 43,000 acres that will be made available on the north side of the railway line. If the lessees of The Troffs do nothing towards improving their land during the next six and a half years, the seedlings will grow very much in the already rung country. It takes five or six years for ringbarked timber to mature for burning off—that is, where the undergrowth has been kept in check. It would be an advantage to an incoming tenant to have country with dead timber. I cannot say if it would pay to clear green country in this locality. It would cost £2 an acre to do it, and when the timber is dead 10s. an acre.

By Mr. Cheeseman: I stated in my report that the northern part of the run, as applied for now under scrub lease, is the worse part. If the northern part were left untouched for the six and a half years left of the pastoral lease it would require more capital for an incoming tenant who then went on to it than if he went on to the southern half recommended to be withdrawn for settlement already. If the scrub lease be granted on the northern half, and the lessee improves it for the fourteen years of the scrub lease, the incoming tenant would require less capital to go on to this land than he would to go on to the southern part just now.

ROBT. McDONALD, Chairman.

M. COLEMAN, Member.

ROBT. S. HOWARD, Member.

R. J. A. ROBERTS.

George Hutton, of The Troffs, on oath states:—*To Mr. Cheeseman*: I am one of the owners of The Troffs pastoral holding. I have heard the evidence of Surveyor Roberts and think his description of the land very accurate all round. Some of the country that Mr. Roberts did not see this last time has got very thick with scrub. If the country be left untouched for the next six and half years it would not be fit for settlement. It would not pay us to improve the land for the present tenure of it, viz., six and a half years. It would not pay at any price. I consider the land would require an expenditure of 3s. an acre at first to ringbark and scrub, and about 4d. an acre per year afterwards. I could not say how long it would have to be gone over. I have a paddock that has been scrubbed twice and burnt once during six years and there is still scrub on it. The soil on the land applied for is very poor in places. A great part in the north-east is quite unfit for cultivation, also the mountain and ridges through the area. The country in the south-east is open but there is no deposit of soil. With decent seasons and prices and an extended term of fourteen or fifteen years we may pull through, but the prices would have to be better than have ruled during the past few years. The northern half is very much

much worse than the south as to the soil, and if both were thoroughly improved the south part would carry twice as much as the other. I know the selections taken up in this locality, a great many being on one resumed area. I know one taken up by Cusack. It was reckoned the best in the district, being the second one taken up. It was open myall country. Cusack sold it to Mr. Foy at 8s. 9d. per acre after all conditions had been fulfilled. It was offered at public auction in Parkes and sold privately afterwards. It had been offered to me among others three years previously for 10s. an acre cash, or 12s. terms. As far as I know, I believe all the selectors in the locality are involved except those that have means from outside. I know McKeown's had a large area which was sold about twelve months ago, to the west. This is 10 miles from the Bogan Gate. Berry's block, adjoining the land resumed from the southern part of the run, has also been recently sold. I think all these selectors are now poorer than when they came there. For grazing they want larger areas than 2,560 acres, but for farming they want smaller ones. Most of the selectors are cultivating now. If the Board recommended the scrub lease I would like a term of twenty years, which would not be out of the way.

By Board: We could not afford to improve the land unless we get an extended term. The "golden wattle" is very difficult to get rid of. There is very little mallee on the land, and hardly worth considering. I have always been careful to protect the edible scrubs. There are a few rabbits on the land, but wallabies are swarming the place and are becoming a serious menace to grazing pursuits. I, as Receiver under the Noxious Animals Act, have received 8,000 scalps of wallabies off about 60,000 acres since 1st April last. The only way of coping with them is by wire netting and scrub clearing. Mr. Close, another Receiver, said he had received 6,000 scalps this quarter, most of which came from out my way. We are paying 2½d. per acre for the whole leashold area. We have an interest in the improvements on the area applied for for six and a half years. I consider 5 per cent. would be about the average deterioration of the improvements per year. I do not anticipate having to spend 4d. an acre per annum for scrubbing for the whole of the twenty years. I think it would be for about five or six years after the first expense of 3s. an acre. We intend to expend this 3s. per acre at once, or at the shortest possible time; in fact we must do it after having lost the 32,000 acres by withdrawal.

By Mr. Roberts: After the land in question was improved to its best position, I think it would carry a sheep to 1½ acre. At present it would carry a sheep to 3¼ acres, and then only in a very good season.

By Board: It would take five years to get the land really into working order, and then the 4d. per acre expenditure per annum would commence. I will operate at once on the whole area as far as it is possible. The rabbit-proof fencing also would be up in five years. It would be in our interest to maintain the Crown improvements as far as possible.

GEORGE HUTTON.

ROBERT McDONALD, Chairman.
M. COLEMAN, Member.
ROBT. S. HOWARD, Member.

Herbert Stinge Harwood, of Parkes, land agent, on oath states:—*To Mr. Cheeseman:* I inspected "The Troffs," applied for under scrub lease, on the 5th, 8th, and 10th January last. I have heard Mr. Roberts' evidence, and have seen the plan of the land. I think his description a correct one. I have known the country twenty-two years. There has been a lot of undergrowth sprung up on the rung country, chiefly box and young pine. I went over the southern part of the run at the same time and consider it much better in quality and more suitable for agriculture. Only patches of the north part are suitable for farming. It is chiefly grazing, and I class it as fair grazing land. About 8,000 acres north of the travelling stock reserve would be fit for farming in scattered blocks. The balance would be no use except in large areas, and could only be worked in large areas. I know McKeown's selections, which are closer to Bogan Gate. One of their blocks of 2,000 odd acres was recently sold at 12s. 6d. an acre. I effected the sale. I know McKeown's were hard working people, and did a lot of outside work, but after the sale of the property their credit was a very small amount. I know Little's selections adjoining. They are heavily mortgaged. I know to my own knowledge. I do not think the bulk of the selectors have made anything out of their land, owing to their small areas and want of capital. I consider it would be to the interest of the Crown to grant the lessees an extended term of lease, in view of his intention of improving the lands. If the country were left for six and a half years untouched it would go back, but if improved now, as proposed, at the end of fourteen or fifteen years it would be worth three or four times as much. I saw tracks and traces of wallabies over the area, and traces of a great number of rabbits on the adjoining country. I noticed also some on the land in question. I have had a large amount of station and grazing experience—over twenty years—besides farming. As a practical man I consider the lessee would not be justified in spending any money in improving the land for the present term of his lease. I think twenty years would be a fair term.

By Board: I have heard Mr. Roberts' evidence about the area to be made, and already available for settlement on the locality, and I consider the areas are quite sufficient for the demand.

By Mr. Roberts: I think a fourteen years' tenure would pay the lessee, but would leave no margin. I think the land applied for would carry a sheep to 1½ or 1¾ acre when well improved; at present a sheep to 4 or 5 acres in ordinary seasons. To bring the land up to the former capacity, it would take 1s. an acre to ring, 1s. 10d. to scrub, and 6d. a year for six years to keep the scrub down; 2s. 10d. would be the first cost. To bring the country up to carrying a sheep to 1½ or 1¾ acre would take four or five years.

H. S. HARWOOD.

Sworn before us at Parkes, }
this 1st June, 1897,— }

ROBERT McDONALD, Chairman.
M. COLEMAN, Member.
ROBT. S. HOWARD, Member.

George Hutton, recalled: I have made estimates of probable cost of wire-netting the land, and taking into account that I can make some use of existing fence, it would average £60 a mile. A new rabbit-proof fence would cost £80 a mile. The netting would be 3 feet 6 inches out of the ground and 6 inches under. This height I consider is absolutely necessary, and is justified to make it as secure as possible.

By Mr. Roberts: I mean the whole netting would be 42 inches, viz., 3 feet out and 6 inches in the ground.

GEORGE HUTTON.

ROBT. S. HOWARD, Member.

Nicholas Augustus Read, of Forbes, stock and station agent, on oath states:—*To Mr. Cheeseman:* I made an inspection of the land applied for as a scrub lease now in question. When I saw it the land was heavily scrubby and very bare of grass. This was early in February last. I consider the land is suitable for grazing purposes, after a large expenditure of money. To ringbark and scrub at first would cost, I think, 3s. 6d. an acre, and there would be an expenditure of 6d. an acre afterwards to keep the box seedlings down. This would be necessary for eight or ten years. At present time I think fully 6 acres would be required for a sheep—I mean as it is improved at present and in average seasons. After being fully improved it would carry a sheep to 2 acres. It is not capable of heavy improvement, being lightly grassed. It is country that should be thrown open in large areas. I think, in order to get a return for the money expended, as the lessees propose, that twenty years' term would be a fair one. They would then get some return as well as interest back on the money. I have had twenty years' experience in grazing and pastoral pursuits.

By Mr. Roberts: A term of fourteen years I consider would not pay the lessees in ordinary seasons. It would not pay the lessees at all.

By Board: I consider 10,000 acres of this class of country in its present state would be necessary for one man to hold as it is now improved. The improvement of the land as proposed would more than double the "settlement capability" of the country.

By Mr. Cheeseman: If neglected for the next six and a half years it would go further back, judging by the way it has deteriorated during the past two years. I would not take it at a gift the way it is now.

By

By Mr. Roberts: It would take three years to bring the land to its highest grazing capacity--that is, one sheep to 2 acres.

ROBERT McDONALD, Chairman.
M. COLEMAN, Member.
ROBT. S. HOWARD, Member.

*George Charles Little, of Trundle, on oath states:—*I am a farmer at Trundle, and have been deputed by the Trundle Progress Committee to object to the granting of a scrub lease on The Troffs pastoral holding. I see the plan, marked Exhibit A. I object because the principal portion of the land is suitable for agriculture, and would be readily selected as homestead selections up to 1,280 acres, and in settlement leases up to areas of 5,000 acres for grazing purposes. There is a part in the north-east corner that could be opened as a settlement lease of 5,000 acres. The rest could be made available for homestead selection. If the scrub lease were granted it would be an injustice to the present holder of adjoining areas, who, when they contracted to pay £1 an acre for their selections, looked forward to the surrounding country being settled upon at the expiration of the lease. My objection is in the interests of present selectors directly. Scrub leases will also form a harbour for vermin. We, selectors, kill 1,200 or 1,500 wallabies annually on our places. We are applying for a railway through the land from Bogan Gate north-westerly to Bolbodney, and any scrub leases granted *en route* would lessen our chances of railway communication. There is no personal difference between the pastoral lessees and the selectors. The objection is in the public good.

By Mr. Cheeseman: The Progress Committee consists of about twenty members. I will not swear there are twenty paid up. The meeting that appointed me consisted of six members. I can swear there are more than six paid up committee-men. I have seen more than this number pay their money. Their names are, Simmonds brothers (2), Michael Kearin, Thomas Carey, C. Francis, T. Looney. I will swear to these, but no more. These are besides the six present at the meeting that appointed me, who were, A. McKeown, S. Gilchrist, Denis Maloney, Francis Gibson, R. Pilling, and myself. I hold no office myself. I know most of the selections in the district. McKeown, Gilchrist, and Maloney are not selectors. Looney and Kearin are selectors, and come to Trundle to do business. I have no knowledge of any of the selectors' financial positions. I have 2,400 acres myself, selected in 1889. I had then moderate capital, and I rung and scrubbed almost the whole of it. It is all rung, but 600 or 700 acres are not scrubbed, and would be a harbour for vermin. Some of the selectors do let the scrub grow, and leave harbours for rabbits. I have not made a good living off the land, and have not been able to pay my instalments. Nearly all the selectors are in the same position, and are not able to keep the scrub down. A considerable amount of capital would be required to keep scrub down on 2,560 acres. I know the conditions of a scrub lease. I know a scrub lessee has to keep the vermin down, but I know they cannot do it; but I do think smaller holders would be able to cope with them. I have not had experience in keeping down scrub on large areas. The idea of objecting to scrub leases is not a recent one, being about six months old. I formed one of a deputation to the Minister for Lands. A man named McNerney was present, but was not one of the appointees. My committee did not object to two improvement leases on the back of The Troffs, which were granted for twenty-eight years to McNerney. I cannot say the areas. I know Crowley, a selector, who also got an improvement lease, but the country would hardly be taken as a gift. People, generally, were not afraid of selector going for improvement leases, as the country was too bad. McNerney's lease is not superior to Bruin Plains country. I have seen it since it has been scrubbed. I saw it two months ago, and it was then a harbour for vermin. We took no action with regard to McNerney not keeping the scrub down. We cannot force the law. If the scrub lease be not granted it may possibly be four years before The Troffs would be open. I know now it would be six and a half years. If the country is left alone for this term it will be more of a harbour for vermin than now. I think it would pay us selectors better to wire-net our boundaries and wait for the six and a half years than to let the lessee improve the leases now, and make us wait for fourteen or fifteen years before it is open. The fact of scrub leases being granted depreciates the value of our holdings in the locality. If The Troffs lease were scrubbed and cleaned up during the next three years it would not pay us to wait for the fourteen years, as proposed under the scrub lease, nor would it appreciate our holdings; but it would improve the value of our holdings if a number of new settlers came there in place of one man. Mr. Kennedy, the Government Engineer, told me about the proposed railway to Trundle, but only as to the engineering difficulties. Hr. Harpur has yet to report on the proposal. The proposed railway would open up over 1,000,000 acres of land on each side of the line. I did not prepare these statistics. The character of the land after passing Burra Burra woolshed is ridgy, and then comes some good land. Down by Jimble Plains and Woodlands to the Bolbodney selectors it is pretty nearly all good land. I will accept your statement that most of this country was once open as settlement leases in large areas, and since taken up as improvement leases, except one; but people will not rush away "out back" for land while there is so much closer in. If The Troffs were open, I do not intend securing any of it. I suppose Mr. Hutton is as willing to improve the land as anybody else. It is to his interest to do so. The land would be full of dense scrub if not touched for six and a half years, for the better the ground the better the scrub grows. If allowed to remain neglected, it would cost 2s. 6d. an acre to ring and scrub the whole area. I could not say if I would take a contract at this price without specially inspecting it for the purpose. I have never yet known 2s. 6d. an acre paid for ringing and scrubbing. I know of a half dozen contracts taken on land as bad as this, but not at 2s. 6d. an acre. A rental of 2½d. per acre is a big rent for The Troffs, but at this rental I should imagine it would not pay the lessees to pay 3s. an acre on improvements for a term of six and a half years, but it would at a lower rental. Assuming all reports are favourable, I should think the railway would be through to Bullock Creek in two years time.

By Board: I should think that north of the railway line, and in the locality of Trundle, there would be 50,000 acres to be made available for selection. The Progress Committee would have objected just as strongly if they knew that 32,000 acres were withdrawn already from The Troffs, and I think the Committee knew the conditions of a scrub lease.

By Mr. Cheeseman: I heard none of the Committee say so, nor any of them say they knew of the withdrawal of 32,000 acres from The Troffs; I believe they knew.

By Mr. Roberts: I know the land in question (and now applied for) is in its natural state. Thoroughly improved it would carry a sheep to the acre. It would take not more than three years to effect this. I cannot say what it would cost to bring it into this condition, but it would be more than £5,000 on the whole area of 32,000 acres. I heard that Mr. Hutton said he would not spend any money if he did not get the scrub lease. If so, the green country would not deteriorate but the rung country would. It would still take three years after the expiration of the pastoral lease to get the country up to carrying a sheep to the acre. It would pay selectors better to take up improved country than green country. Considering that the country is left untouched for six and a half years, and that it would take three years beyond that time to properly improve the land, I think that it would not be desirable to grant a scrub lease for even four years longer, making the tenure from to-day of fourteen years. Our objections to scrub leases were purely on general principles in reference to Murrumbogie and Carlisle. I do not think 200,000 acres would be sufficient for the demand for settlement for the next ten years. The 1,000 would-be selectors I refer to would come from other parts of the Colony. They could of course apply for land elsewhere in the Colony.

By Mr. Cheeseman: I make a guess as to the approximate number of intending selectors.

By Board: After country has been rung and scrubbed there is a constant expenditure required to keep the scrub down. One paddock I know of cost 1s. 6d. per acre the first year after, 7d. the next, and 2d. an acre the next. 7,000 acres of the subject land are useless, 5,000 are good grazing, and 20,000 acres of good agricultural land. The agricultural land at present I value at more than 5s. to 7s. an acre under present conditions; the grazing something less; the 7,000 acres is practically valueless. We would not object to a scrub lease of these 7,000 acres being granted.

GEORGE CHARLES LITTLE.

* The word "not" has here been inadvertently omitted, and not discovered until after the Court had closed.—E. L. DAVIES, Dep. Clerk.

George Hutton recalled :—*By Mr Cheeseman* : I have heard Mr. Little say that we were in the average of carrying 30,000 sheep on The Troffs. I produce a list showing the returns to the Stock Board in 1891, 1892, 1893, 1894, and 1895. (Exhibit C.) On the northern half we never carried more than 6,000 sheep on the average. This would be for the land now under inquiry. I have let this part on two occasions in very good seasons, but stipulating that no more than 6,000 sheep should be run on it. On one occasion a person did put more than 6,000 and lost nearly the whole of them. My estimate given yesterday for ringing and scrubbing was based on the prices obtaining in the Sebastopol country, and got some done on the part already withdrawn for 2s. 3d. an acre by Chinamen in 1890 and 1891, and they made about 15s. a week out of it.

By Mr. Little : It was on the northern part of the part under consideration that I ran the sheep.

George Charles Little, recalled on former oath :—*By Board* : I have heard Surveyor Roberts' description of the land read over in open court, and I think it is a very accurate one. I am not married. I do not think it is a good policy generally for the Crown to give all the land away without making provision for posterity. When I said I knew that 1,000 applicants would probably be here to select, I was not thinking of the fact that one man could make any number of applications for different blocks.

By Mr. Cheeseman : I believe several Trundle selectors are now desirous of selling out.

Office Memorandum.

The Troffs Scrub Lease Applications 96-6 and 96-7, Parkes, on the Leaschold Area.

(Ms. Ls. 97-7,425.)

Ms. Ls. Branch, 12 July, 1900.

It has been decided to withdraw half the leasehold area, under section 3 of the Crown Lands Act of 1895—*vide Gazette*, 28j4j97.

The Board, after considering the Bullock Creek and Trundle Farmers' Association protest against granting scrub leases within the triangle, Parkes, Condobolin, Nyngan, recommends granting a scrub lease of the remaining half, viz, the northern portion of the leasehold area (32,000 acres) for the term of the pastoral lease, with an extension under subsection (vi), section 26, Crown Lands Act of 1895, to fourteen years, at a rental of £2 per section.

The following is a comparison between the conditions recommended by the Board, and those already approved of in connection with scrub leases within the "triangle."

Land Board's recommendation.

a. Within the triangle, Parkes, Condobolin, Nyngan, 32,000 acres.

Conditions to be applied to scrub or Improvement Leases.

Conditions to be applied to leases, either scrub or improvement, of lands, either leasehold or resumed areas, situated—

(a) Between the Murumbidgee and the Lachlan Rivers; and

(b) Within a triangle formed of lines drawn from Parkes to Condobolin, from Condobolin to Nyngan, and from Nyngan to Parkes, or within the immediate vicinity of these lines.

1. Fourteen years.

1. The term of the lease will be fourteen years.

Land

Land Board's recommendation.

Conditions to be applied to Scrub or Improvement Leases.

2. In the event of it being decided to construct a railway within 10 miles of any part of the subject land, the Minister shall have the power to cancel the whole or portion of the scrub lease without compensation, excepting for improvements which may be effected under special permission, and for the lessee's interest for the unexpired term of the lease in the value of the improvements effected in terms of the scrub lease.
 3. Tenant right in improvements, for which consent has already been given, or for which consent may be specially given hereafter.
 4. Rent £2 per section per annum, but after the expiration of the pastoral lease an additional rental at the rate of 4 per cent. per annum on £1,450 value of Crown improvements, less 5 per cent. per annum for depreciation of value from the present date to date of expiration of the added term of pastoral lease.
 5. All straight box, ironbark, and white pine more than 6 inches in diameter 3 feet from the ground, also all young white pine, 4 inches diameter 3 feet from ground, except where growing within 20 feet of each other; also wilga, berrigan, and currajong, except for feeding stock.
 6. All other timber to be destroyed excepting fire belts 2 chains wide along the boundaries of the lease and 2½ chains on each side of the road from Trundle to The Bogan and in such other positions as the Forest Department may subsequently indicate.
 7. All scrubs (except edible scrubs) to be destroyed; quandong, broom, cherry, warriah, emu-bush, and currant-bush not to be destroyed except by direction of the Minister; mallee, currawong, blue or golden wattle, and dogwood, at option of lessee.
 8. Clearing—Lessee shall within six months from date of scrub lease begin to clear the land, and shall within two years afterwards clear not less than two-fifths of the whole area, and shall during each succeeding year clear not less than one-fifth additional until the whole area be cleared. The land to be kept free from suckers and undergrowth during whole term of lease.
 9. Land required for mining may be withdrawn without compensation except for permitted improvements.
 10. The land to be enclosed with a rabbit-proof fence within the first five years of the lease, and that effective steps be taken to destroy wallabies, rabbits, and all noxious animals.
 11. All improvements be maintained in good order and condition.
2. In the event of a railway being constructed through the land, or through any part of the land, or within 20 miles of any part of the land in a direct or straight line, within ten years from the date of commencement of the lease, the Crown shall have the right to resume for settlement any part of the land leased up to one-half thereof by giving not less than four months notice to that effect in the *Government Gazette*; and no compensation shall be paid for the exercise of the right of resumption, but there shall be a *pro rata* reduction of the annual rent.
 3. The right of resumption reserved to the Crown in the preceding condition shall continue for two years after the railway line shall have been opened for traffic.
 4. The right of resumption reserved to the Crown shall not be exercised during the first three years from the commencement of the lease; but in the event of a railway being constructed as mentioned in No. 2 hereof within the first three years of the lease, the right of resumption reserved in these conditions shall continue for the next succeeding two years.
 5. In the event of the right of resumption reserved under these conditions being exercised during the first seven years of the lease, and for the maximum area, viz., one-half the area leased, the lease of the remaining half shall be extended for seven years and *pro rata* if a less area be taken. If the right of resumption is exercised during the second period of seven years of the lease, the extension of the lease of the residue of the area shall be *pro rata* for the area resumed and the unexpired period of the lease at date of resumption.
 6. The lessee shall not have tenant right in scrubbing, clearing, ringbarking, and suckering; but shall have tenant right as the same is defined in the Crown Lands Act of 1895, in tanks, fences, and buildings.
 7. The right is reserved to the Secretary for Lands to say in and on what part of the land leased the clearing, scrubbing, suckering, or ringbarking shall be carried out during the first three years from the commencement of the lease.

J. P. MCGUANNE.

Proposed scrub lease of about 32,000 acres of The Troffs Leasehold Area.

(Ms. Ls. 97-8,480.)

Mis. Ls. Branch, 26 July, 1897.

MR. CUNNINGHAM and Mr. Kiddie (A.M. & A. Co.) and Mr. Hutton, of The Troffs, saw the Minister about this matter on Tuesday, the 13th instant, on the subject of tenure.

The Australian Mortgage and Agency Company, as lessees, now signify the acceptance of a scrub lease of the unresumed portion of the leasehold area in three equal blocks, the tenure to be as follows:—The north-east blocks, ten years; the north, fourteen years; and the southern, twenty-one years, as offered by the Minister at the interview of the 13th instant, and shown on paper marked BX.

Submitted.

"X.A." The Troffs, Leasehold Area.—As to granting a Scrub Lease of part (about 32,000 acres).
15 July, 1897.

Mr. H. CUNNINGHAM and Mr. Kiddle (A.M. & A. Co.) and Mr. Hutton, mortgagor, saw the Minister about this on Tuesday, the 13th inst., on the subject of tenure.

The paper herewith, marked BX, was put before the Minister, who drew the pencil diagram thereon, and offered them tenures of ten, fourteen, and twenty-one years, as per figures thereon, with right of resumption.

They may be asked if they will accept a scrub lease on the above tenure, and on the terms set out on paper AX, herewith submitted.

R. H. DE LOW,
In charge of Division.

By letter of the 20th July, 1897, Ms. 97-8,480 Ls., the offer has been accepted.—R. H.D., 27/7/97.

No. 12.

Petition from Residents of Trundle and surrounding Districts.

Petition to the Honorable the Minister for Lands.

THIS petition of the undersigned residents of Trundle and surrounding districts,—

HUMBLY SHOWETH :—

That your petitioners view with alarm the recent decision of the Local Land Board at Parkes, in recommending a scrub lease on The Troffs pastoral holding, and thereby strongly protest against the same on the following grounds, viz :—

1st. That the land referred to, with the exception of about 5,000 acres, is all first-class agricultural land, and well adapted for closer settlement, being within 21 miles of the Bogan Gate railway station, and with a probability of the line being extended to run right through the said land.

2nd. That the bulk of evidence given before the Land Board was misleading, inasmuch that the cost of ringing and scrubbing was sworn to at from 3s. to 3s. 6d. per acre and 1s. per year for the following five years; and the most of your petitioners having had from eight to twelve years practical experience of the district, are quite assured that the work could be done for, at most, one half of that amount; and this is borne out by the offer from a contractor to ringbark, cut all scrub, and grub all seedlings on the holding for 1s. 6d. per acre.

3rd. That the land referred to is superior to that held by selectors on the resumed area, as, in the division of the runs under the 1884 Act, the lines were so drawn as to secure to the lessees the best of the land; and that this is the land now proposed to be granted as a scrub lease.

4th. That the strong demand for land in the district is shown by the fact that all available has been taken up for some years past under greater disadvantages than at present exist, and if these lands were thrown open they would be readily taken up.

5th. That the proposed railway from Bogan Gate to Bullock Creek would run through the centre of this land, which, if locked up, would debar that extension.

6th. That the conditions of the lease, as recommended by the Board, are that the lessees are not compelled to wire-net or destroy vermin for five years, and may not destroy the following scrubs:—Currawong, mallee, broom, wattle, dogwood, bastard dogwood, currant, emu, warrior, quondong, or cherry bushes, which constitute the principal scrubs on the land.

7th. That under these conditions the land would still remain unimproved, and be a menace to the adjoining settlers by being a harbour for all kinds of vermin, as shown by the fact that during the last six months more than 20,000 wallabies have been destroyed by adjoining selectors.

8th. That when the present settlers took up land and contracted to pay £1 per acre for it, they naturally expected that these lands would be made available for closer settlement on the termination of the present leases, and any further extension would be an injustice to them; and your petitioners trust that, for the foregoing reasons, this matter will receive your earnest consideration.

And your petitioners, as in duty bound, will ever pray, &c., &c.

Office Memorandum.

Protest against Scrub Lease on the Troff's Leasehold Area.

(Ms. Ls. 97-10,615.)

Ms. Ls. Branch, 7 September, 1897.

THE enclosed petition from residents of Trundle protests against a scrub lease being granted on The Troffs mainly on the following grounds:—

- (1.) That with the exception of about 5,000 acres the land is first-class agricultural land, and the proposed railway line from Bogan Gate to Bullock Creek will probably run through the land.
- (2.) That the cost of clearing will not be as much as the evidence discloses.
- (3.) That all the available land in the district has been taken up for some years past, and if The Troffs were thrown open the land would be readily selected.

It has been decided, after consideration of petitions forwarded per Mr. Brown, M.L.A., from several Farmers' Associations in the locality, to grant a scrub lease as recommended by the Board on application 96-6, Parkes, but the land is to be subdivided into three blocks; the tenure of Block A is to be ten years, Block B fourteen years, Block C twenty-one years.

This land is shown by blue edging on the enclosed helio

Scrub lease application 96-7, Parkes, is for the land on the south and south-east of the proposed scrub lease, and as this land was withdrawn under section 3, Act 1895, on 17th August, 1897, the above-mentioned application should be refused; the deposit, £10, may be disposed of after the survey of scrub lease, 96-6, Parkes.

Submitted that the previous decision to grant a scrub lease be adhered to, the petitioners to be fully informed that ample provision has been made for closer settlement as desired by them.

The District Surveyor should perhaps be asked to subdivide the land in accordance with sketch on paper marked BX, in order that the lease when gazetted may show and recite the several portions to be resumed.

J. P. McGUANNE.

R. H. De Low, in charge Lease Division.—F.H.W. For approval.—W. HOUSTON, Under Secretary, 9/9/97. Approved.—J.H.C., 10/9/97. T. Brown, M.P., informed, 15/9/97. The District Surveyor, Forbes.—W.C.F. (*pro* U.S.), B.C., 15/9/97. To L.-S. Witts.—E.N.W. (*pro* D.S.), 22/9/97.

No. 14.

The Under Secretary for Lands to Thomas Brown, Esq., M.P.

Sir,

Department of Lands, Sydney, 15 September, 1897.

With reference to the petition signed by Messrs. W. F. Snelling, Edward Morris, William King, Alexander McKeown, and other residents of Trundle and that district, presented by you to this Department on the 1st instant, protesting against the granting of a scrub lease on the leasehold area of "The Troffs" pastoral holding as recommended by the Local Land Board, I am directed by the Secretary for Lands to inform you that, after full consideration of the whole matter, it has been decided to accept the Board's recommendation, and grant a scrub lease of part of the leasehold area in question, viz., for an area of 32,000 acres, divided into three blocks, with tenures of ten, fourteen, and twenty-one years respectively, thus leaving ample provision on the holding to meet present requirements for closer settlement.

I have, &c.,

WM. HOUSTON,
Under Secretary.

No. 15.

The District Surveyor, Forbes, to Mr. Licensed-Surveyor Witts.

Scrub Lease No. 96-6, Parkes, County of Kennedy.

MEMORANDUM from the District Surveyor, Forbes, to E. J. Witts, Esq., Licensed Surveyor.

22 September, 1897.

MR. Licensed-Surveyor Witts is requested to measure the lines shown in red on accompanying helio, the object being to divide scrub lease 96-6 into three parts as nearly equal as practicable. The line AB to be adopted as 70 chains, and BC as 97 chains. Connections required from D to E and F to G, and comparisons of meridian at E and F. Corner trees at B C D and F only to be marked broad-arrow over Sc. L. over A C, broad-arrow over Sc. L. over A B, broad-arrow over Sc. L. over A B, and broad-arrow over Sc. L. over B C, respectively. As so much surrounding information has to be made use of, the areas will be computed in this office. No permanent marks are required. Payment will be allowed at scale rates, with local increase added.

ARTHUR SHARP,
District Surveyor.

Replied to by my letter of 20th October, 1897.—E. J. WITTS, L.S.

15

No. 16.

Mr. Licensed-Surveyor Witts to The District Surveyor, Forbes.

(No. 97-35.)

Scrub Lease.

Sir,

20 October, 1897.

I have the honor to transmit herewith plan showing lines dividing scrub lease 96-6 on The Troffs pastoral holding, counties of Cunningham and Kennedy, into three approximately equal areas.

This survey was completed by me on 1st October, in accordance with your instructions, No. 97-34, dated 22nd September, to self.

In addition to the comparison of meridian directed, I compared on portion 5, parish Salisbury.

As directed in the instruction, the areas have been left for computation in the office.

In lines of more than 1½ mile in length, reference trees have been marked.

Much of the country traversed is of a very rough and scrubby nature.

I have, &c.,

E. J. WITTS, L.S.

Subdivision of the proposed scrub lease on Troffs pastoral holding having now been effected as directed on Misc. Ls. 97-11,079, the papers are returned for further necessary action. It is assumed from the sketch on paper marked "BX" that it was intended to divide the scrub lease into three parts as nearly equal as practicable, and design was prepared accordingly. It is found, however, that owing to inaccuracies in the parish maps, the areas come out 9,570, 10,928, and 10,536 acres, respectively; which I presume is near enough for the purpose required, and as near as could be obtained, except at largely increased cost of survey. The amount of new lines is 12 miles 1.88 chains, and the total cost of survey, including connections, corners, comparisons of meridian, and district increase, is £34 5s. 11d. Apparently, as it is intended to grant the lease, the cost of action other than survey is not required.—ARTHUR SHARP, District Surveyor, 8/3/98, No. 196. The Under Secretary for Lands.

Please prepare description of the three different blocks.—W.C.F., Ms. Ls. Branch, 11/3/98. Mr. McMin. Descriptions herewith.—A.B.M., 5/4/98. Mr. McGuanne.

No. 17.

Thomas Brown, Esq., M.P., to The Under Secretary for Lands.

(Ms. Ls. Bch., 97-13,905.)

Sir,

Sydney, 9 November, 1897.

With reference to applications for conversion of pastoral leases into scrub leases, or the granting of scrub leases at termination of said pastoral leases, as the following holdings in the Central Division—Blowclear West, Coradgery, Bruie Plains, Curra, Wallen Billen, Mungery, Derribong, Tyrie, Middle Fields, Tarrabong, Orange Plains, Woodlands, Jumble Plains (Blocks A and B), Melrose (Block D), Burra Burra, Melrose Plains, Gobondry, The Troffs, Murrumbogie, Carlisle, and Burrawang,—will you kindly furnish me with the following particulars:—

1. The names of said holding on which application for scrub leases have been received, and the areas embraced in these applications;
2. The holdings and areas in which applications have been refused;
3. The holdings and areas in which a decision has not yet been arrived at; and
4. The holdings and areas in which applications have been approved; also the terms and conditions attached to each approved application.

Yours, &c.,

THOMAS BROWN.

Please prepare the information in schedule.—J.P.M., 18/11/97. Mr. Freeman. Information prepared.—W.C.F., 26/11/97.

Mr. Brown, M.L.A., desires to be supplied with certain information respecting scrub leases on the pastoral holdings mentioned in his letter. Mr. Brown may perhaps be supplied with the information, as per enclosure marked X, and informed that the leases will also be subject to the ordinary conditions attached to scrub leases, which provide for clearing, scrubbing, and ringbarking the land; the preservation of mining and travelling stock rights; the destruction of rabbits and noxious animals.—J. P. MCGUANNE, M.L. Branch, 29/11/97. Special.

R. H. DELOW, in charge Leases Division, 1/12/97.
Clerk, 2/12/97. W.H. Approved.—J.H.C., 3/12/97.
7/12/97. Put away

For approval.—F. H. WILSON, Chief
Thos. Brown, M.L.A., with schedule,

No. 18.

Mr. Thomas Looney to Thomas Brown, Esq., M.P.

Dear Sir,

Bullock Creek South, 9 March, 1898.

I am in receipt of an official letter, 97-13,905, Misc. Leases, forwarded by you, setting out particulars respecting conditions attached to certain scrub leases proposed to be granted in this district.

In these conditions, it is noted by my Association that the rights of resumption for settlement purposes is reserved in the event of railway construction, excepting in the case of The Troffs holding, in which no such terms are mentioned.

According to our representative at Local Land Board inquiry, the Board recommended that special powers of resumption in the event of railway construction should be retained by the Minister with respect to The Troffs scrub leases. My Association would like to know whether the Board made any recommendation of this character, and, if so, whether the Minister is embodying same as a condition of these leases.

I am to point out that my Association is of opinion that, in view of the construction of a railway through this district, and the suitability of these lands for agricultural purposes, it is highly desirable, if the leases be granted, that powers of resumption for the purpose indicated be retained, and if not provided for, as would seem from official letter now noted, I am to ask that you use your best endeavours to have this condition attached to these leases, in common with the others proposed to be issued in the suggested line of the Bogan Gate-Bullock Creek railway proposal.

I have, &c.,

THOMAS LOONEY,

Hon. Secretary.

No. 19.

Minute Paper for the Executive Council.

Department of Lands, Sydney, 28 June, 1898.

IT is recommended to His Excellency the Governor and the Executive Council that the undermentioned plants on proposed scrub lease No. 55, of about 31,034 acres, within the boundaries of the leasehold area of "The Troffs" pastoral holding No. 218, Central Division, be declared "scrub" within the meaning of the 4th section of the Crown Lands Act of 1889, so far as the land referred to is concerned:—Box, budda, gooma, hop-bush, ironbark, kangaroo-bush, oak, pine, wattle, sifting-bush and yarran.

J. H. CARRUTHERS.

The Executive Council approve of the course herein recommended.—A. C. BUDGE, Clerk of the Council. Minute 98-29, 28/6/98. Confirmed 5/7/98. Approved.—HAMPDEN, 28/6/98. Proclamation of scrub lands declared, *Lease Gazette*, 23/7/22. Manager A. M. & A. Company (Limited), with *Gazette* slip and Form 67, 18/8/98.

PROCLAMATION.

NEW SOUTH WALES, } By His Excellency The Right Honourable HENRY ROBERT, VISCOUNT HAMPDEN,
to wit. } Governor and Commander-in-Chief of the Colony of New South Wales and its
(L.S.) } Dependencies.
HAMPDEN, Governor.

IN pursuance of the provisions of the Crown Lands Act of 1889, I, HENRY ROBERT, VISCOUNT HAMPDEN, Governor of the Colony of New South Wales aforesaid, with the advice of the Executive Council, do hereby declare all box, budda, gooma, hopbush, ironbark, kangaroo-bush, oak, pine, wattle, sifting-bush, and yarran, to be "scrub," within the meaning of the 4th section of the said Act, on proposed scrub lease containing about 31,034 acres, in the parishes of Gobondery, Redcliffe, Salisbury, Gillenbine, Plevna, and Sebastopol, counties of Cunningham and Kennedy, declared to be "scrub lands" in *Government Gazette* of this date, and being part of the leasehold area of The Troffs pastoral holding No. 218, Central Division.
[Ms. Ls. 98-3,646]

Given under my Hand and Seal, at Government House, Sydney, this sixth day of July, in the year of our Lord one thousand eight hundred and ninety-eight, and in the sixty-second year of Her Majesty's Reign.

By His Excellency's Command,
J. H. CARRUTHERS.

GOD SAVE THE QUEEN!

Department

Department of Lands, Sydney, 23 July, 1898.

DECLARATION OF SCRUB LANDS.

NOTICE is hereby given that, in pursuance of the provisions of the 35th section of the Crown Lands Act of 1889, the land hereunder described is hereby declared to be scrub lands.

J. H. CARRUTHERS,
Secretary for Lands.

CENTRAL DIVISION, LAND DISTRICT OF PARKES.

Within the leasehold area of The Troffs pastoral holding No. 218, notified 11th July, 1885.

Counties of Kennedy and Cunningham, parishes of Gobondery, Redcliffe, Salisbury, Gillenbine, and Plevna, containing an area of 31,034 acres. The Crown lands within the boundaries of Blocks A, B, and C,—as shown on plan catalogued Scrub Lease 2, Forbes, in the Department of Lands.
[Ms. Ls. 98-3,646]

No. 21.

Gazette Notice.

Department of Lands, Sydney, 23 July, 1898.

NOTICE OF APPROVAL OF A SCRUB LEASE.

It is hereby notified, for public information, that, in accordance with the provisions of the Crown Lands Acts, and Regulations thereunder, a scrub lease of the land set out in the annexed schedule has been granted for the term and under the conditions hereinafter mentioned:—

1. The area leased is divided into three blocks, viz., A, B, and C, as delineated on plan Sc. L. 2 Fs., catalogued and recorded in the Department of Lands, Sydney, containing respectively 10,536, 10,928, and 9,570 acres.

2. The term of the lease shall be from 23rd July, 1898, to the 10th January, 1903. Provided that an extension of the term may be granted, so that the term of each block shall be as follows:—A, from 23rd July, 1898, to 22nd July, 1908; B, from 23rd July, 1898, to 22nd July, 1912; C, from 23rd July, 1898, to 22nd July, 1919; and the lease is granted subject to all the provisions of the Crown Lands Acts and Regulations applicable thereto; and the term "lease" in this and the following conditions shall include "any extension of the lease."

3. Should the term of the lease be extended, an additional rental will be charged at the rate of 2½ per cent. per annum from the 10th July, 1900, on £1,377 10s., being the value that it is estimated that the improvements accruing to the Crown under section 43 of the Crown Lands Act of 1889 will have at that date.

4. The lessee shall destroy all scrub (except edible scrub, which shall include quandong, broom, cherry, emu-bush, warriah, and currant-bush); mallee, currawang, blue or golden wattle, and dogwood may be destroyed at the option of the lessee.

5. The lessee shall preserve sound box, ironbark, and white pine timber of more than 6 inches in diameter at 3 feet from the ground; also all wilga, berrigan, and currajong, except to lop or whip the branches for stock-feeding purposes; and shall not cut or destroy timber useful for fencing or building purposes, or cut or remove timber for sale or otherwise than for the lessee's own use. Lachlan or white pine between 4 and 6 inches in diameter, measured at 3 feet from the ground, shall be thinned out by the lessee to distances of 20 feet apart wherever growing, leaving the straightest and best saplings.

The lessee shall destroy all other timber, including suckers, by ringbarking or otherwise, excepting fire-belts 2 chains in width along the boundaries of the lease and on each side of the road from Trundle to the Bogan, and in such other positions as may be subsequently indicated.

7. The lessee shall begin to clear the land within three months after the commencement of the lease. During the first year he shall clear one-fifth of the total area of the land under lease, and during each of the succeeding four years one-fifth of the total area, so that the whole area shall be cleared during the first five years of the lease. After any part of the land has been cleared, such part shall be kept cleared during the term and any extension of the term of the lease. The right is reserved to the Secretary for Lands to say in and on what part of the land leased the clearing, scrubbing, suckering, and ringbarking shall be carried out during the first three years from the commencement of the lease if the same is extended.

9. The lessee shall, during each year of the term of the lease, and any extension thereof, take effective steps to destroy rabbits, wallabies, and other noxious animals, and shall, within five years from the commencement of the lease, if the same is extended, enclose the land with a rabbit-proof fence.

9. In the event of it being decided to construct a railway within 10 miles of any part of the subject land, the right is reserved to the Governor to resume the whole or a portion of the scrub lease by giving not less than four months' notice to that effect in the *Government Gazette*, and no compensation will be paid for the exercise of the right of resumption. Provided that upon the resumption of any land as aforesaid a reduction of the annual rent will be made proportionate to the area taken.

10. The lease is granted subject to the condition that the Governor may withdraw any land required for mining purposes or for any public purpose without compensation, except for improvements effected under special permission.

11. The lease is granted conditionally on all rights of road, of camping, and of travelling stock being retained.

12. The lease shall be deemed to be a lease for pastoral purposes, and as such to be subject to the operation of the Mining Act of 1874 and all Acts amending or extending the same.

13. Upon such resumption as aforesaid, or upon the expiration of the lease by effluxion of time, the lessee shall have tenant right, as defined in the Crown Lands Act of 1895, in the portion so resumed or the whole of the land leased as the case may be, in such improvements as may be effected with the consent of the Chairman of the Land Board or the Minister, but shall not have tenant right in scrubbing, clearing, ringbarking, or suckering.

14. The annual rent shall be paid yearly in advance, and if not so paid, and in the event of any condition not being fulfilled, the lease will be liable to forfeiture.

15. The lessee shall maintain all improvements in good order and condition during the term of the lease and of any extension thereof.

16. In the event of forfeiture of the lease for non-compliance with any of the conditions, all improvements effected by the lessee shall become the property of the Crown without compensation.

17. The rent for the first year of the lease must be paid within one month from this date.

No. 22.

The Under Secretary for Lands to The Australasian Mortgage and Agency Company (Limited).

Scrub Lease, No. 55, Land District of Parkes.

Sir,

Department of Lands, Sydney, 18 August, 1898.

I have the honor to invite your attention to the notification in the *Government Gazette* of the 23rd ultimo of the approval of the granting of, to the Australasian Mortgage and Agency Company (Limited), a scrub lease of about 31,034 acres, divided into three blocks, A, B, and C, of 10,536 acres, 10,928 acres, and 9,570 acres respectively, situated within the leasehold area of "The Troffs" pastoral holding, No. 218, Central Division, for the term 23rd July, 1898 to the 10th January, 1903, at a rental of £96 19s. 8d. per annum, with a provision that an extension of the term may be granted so that the term of each block shall be as follows:—A, from 23rd July, 1898, to 22nd July, 1908; B, from 23rd July, 1898, to 22nd July, 1912; C, from 23rd July, 1898, to 22nd July, 1919.

The first year's rent should be paid into the Colonial Treasury on or before the 23rd instant, and for succeeding years on or before the 23rd July in each year in advance. The amount lodged as deposit and survey fee at time of application, will be adjusted when survey of the land has been effected.

Box, budda, gooma, hophbush, ironbark, kangaroo-bush, oak, pine, wattle, sifting-bush, and yarran have been declared "scrub" in connection with the lease, and special attention is directed to the condition of clearing in respect thereof.

Any application for an extension of term of the lease should be made on Form 67.

Sir,

Department of Lands, Sydney, 30 December, 1898.

I have the honor to invite your attention to the notification in the *Government Gazette* of the 21st instant extending the term of the three areas or blocks—A, B, and C—comprising the scrub lease noted in the margin, as follows, viz.:—Block A of 10,536 acres, from 11th January, 1903, to 22nd July, 1908; Block B of 10,928 acres, from 11th January, 1903, to 22nd July, 1912; Block C of 9,570 acres, from 11th January, 1903, to 22nd July, 1919, subject to the payment, from 11th July, 1900, of an additional rental at the rate of 2½ per cent. on the value of improvements accruing to the Crown on that date, which value has been appraised at £1,377 10s.

I have, &c.,

WM. HOUSTON,
Under Secretary.

No. 28.

Office Memorandum.

(Occ. 98-12,783.) Scrub Lease No. 55.—The Troffs Leasehold Area.—As to Survey.

IN connection with the above-mentioned scrub lease, all the necessary survey has been carried out at a cost of £34 5s. 11d., towards which £6 5s. has been contributed by the lessee, together with two deposits, each of £10, making in all £26 5s. 10d.

Will the District Surveyor be good enough to forward a statement of all costs incurred in the District Survey Office in dealing with this case? C. E. RENNIE,
The District Surveyor at Forbes. For the Under Secretary.

The costs incurred locally are as follows:—Mr. Surveyor Roberts' report, and other D.S.O. action up to 19th May, 1897 (*vide* L.B. 97-1870), £8 10s.; Mr. Roberts' attendance at Board meeting, £3; cost in Board Office (*vide* L.B. 97-2,779), £5 15s. 6d.; cost of survey, £34 5s. 11d.; examination of plan and final action in D.S.O., £3 10s. 6d.—making a total of £55 1s. 11d.—ARTHUR SHARP, District Surveyor, 19/1/99. The Under Secretary for Lands. No. 60.

No. 29.

Office Memorandum.

Scrub Lease No. 55.—The Troffs Leasehold Area.

(Occ. 99-406.)

23 January, 1899.

THE above mentioned scrub lease has been surveyed at a cost of £34 5s. 11d., and the Land Board and District Survey Office expenses amount to £20 16s.—making, in all, £55 1s. 11d.

To meet this amount a sum of £26 5s. is available, viz., £10 on application (96-7, Parkes), which was refused but deposit not authorised to be refunded, and £10 deposit on subject application, and £6 5s. provisional survey fee.

Submitted that the sum of £26 5s. be applied in part payment of cost of survey and expenses incurred in dealing with this application, and that the lessee be called upon to pay the balance, viz., £28 16s. 11d. E. C. LANDERS.

R. H. DE LOW, in charge Lease Division, 24/1/99. For approval.—F. H. WILSON, Chief Clerk, 25/1/99. W.H. Approved.—J.H.C., 30/1/99. Lessees and Treasury informed, 3/2/92. £28 16s. 11d., amount called for by letter of the 3rd February, 1899, paid—*vide* Occ. 99-1,782. Mr. McMinn,—Please have a description prepared of the scrub lease herein referred to, to be inserted in the Crown lease about to be issued in this case.—E.C.L., 21/4/99. The description used in the declaration of scrub lands will, it is thought, be sufficient for the scrub leases.—A.B.M., 24/4/99. Mr. Landers. Formal lease of scrub lease No. 55 issued 5th July, 1899—*vide* Occ. 99-6,678, Book No. 1, Fol. No. 1, scrub leases. These papers may now be forwarded to the Board for report as to fulfilment of conditions.—E. C. LANDERS, 14/7/99. For approval.—F. H. WILSON, Chief Clerk, 15/7/99. Approved.—J.H.Y., 17/7/99. The Chairman, Forbes.—E.C.L. (for U.S.), B.C., 17/7/99.

No. 30.

Mr. Inspector Gaden to The Chairman, Local Land Board, Forbes.

"The Troffs," Scrub Lease No. 55.

Sir,

Forbes, 27 January, 1899.

Re instructions 14th October, 1898-613, scrub lease 55, applied for by Australasian Mortgage and Agency Company, area 31,034, parishes Gobondry, Redcliffe, Salisbury, &c., counties Cunningham and Kennedy, Land District Parkes,—I furnish the following, from my inspection 9th January, 1899:—

About two-thirds of this area has been ringbarked from the south end, which is now all more or less bad with suckers and seedlings, and a party of Chinamen are now operating on them. The stock route is in its natural state, also the land north of the ridges. I have, &c.,

ROBERT W. GADEN.

This inspection was made 9th January, 1899. About two-thirds of the area had been ringbarked, and a party of Chinese now operating on the suckers and seedlings. The lessees should scrub not less than one-fifth of the area during each of the first five years of the lease. The Inspector does not mention whether

whether noxious animals are being destroyed. He should report on this when he next visits the land. May be referred again at the end of the first year of the lease for a comprehensive report on the work done since the lease was granted.—T. W. WARD, 31/1/99.

Approved.—R. McD., Chairman, 31/1/99. Clerk-in-charge. Inspector Evans—Instruction No. 99-110, issued 7/8/99.

No. 31.

The Under Secretary for Lands to The Manager, Australasian Mortgage and Agency Company (Limited).

Scrub Lease No. 55, "The Troffs" Leasehold Area.—The Australasian Mortgage and Agency Company (Limited).

Sir,

Department of Lands, Sydney, 3 February, 1899.

I have the honor to inform you that survey of the land comprising the scrub lease noted in the margin has now been effected, and the costs incurred, including Land Board and District Survey Office expenses, amount to £55 ls. 11d.

99-1,004
Occ.

To meet the amount, the following sums are available, viz., £16 5s. deposit and provisional survey fee, and £10 paid as deposit in connection with your refused scrub-lease application No. 96-7, Parkes, and it has been approved to apply these sums as part payment. The difference, £28 16s. 11d., you are requested to be good enough to pay into the Colonial Treasury as early as possible.

I have, &c.,

WM. HOUSTON,

Under Secretary,

(per R.H.D.)

No. 32.

The Chairman, Local Land Board, Forbes, to Mr. Inspector Witts.

Local Land Board Office, Forbes, 2 January, 1900.

Mr. Inspector E. J. Witts is instructed to visit and report on the scrub lease specified hereunder, as to compliance with conditions *re* noxious animals, &c.—see *Gazette* slip No. 55—under section , applied for on the by the Australasian Mortgage and Agency Company (Limited); portion No. ; area, 31,034 acres; parishes Gobondry, Redcliffe, Salisbury, &c.; counties of Cunningham and Kennedy; Land District of Parkes. Gazetted on the 23rd July, 1898. Tracing herewith, also gazetted conditions.

Other special conditions.—See conditions 5 and 7.

Schedule of Conditional Purchases, Conditional Leases, or Homestead Leases, &c., of same series; Homestead Leases and Scrub Leases.

Class of Holding.	Application No.	Date.	Area.
Scrub Lease.	55	23rd July.	About 31,034 acres.
The Troffs Leasehold Area.			

T. W. WARD (for Chairman).

Report by my letter of this date.—E. J. WITTS, 13/1/1900.

No. 33.

Mr. Inspector Witts to The Chairman, Local Land Board, Forbes.

REPORT by Inspector E. J. Witts, on the Troffs scrub lease, No. 55, applied for by The Australasian Mortgage and Agency Company, on the 23rd July, 1898, gazetted 23rd July, 1898; area, 31,034 acres; parishes of Gobondry, Redcliffe, Salisbury, &c.; counties of Cunningham and Kennedy; Land District of Parkes; date of inspection, 9th January; instruction No. 60, of 2nd January, 1900.

Sir,

13 January, 1900.

I have the honor to report that I personally inspected the herein-described scrub lease.

From the circumstances stated below, I am of opinion that all the conditions of the lease had not quite been complied with up to the time of my visit of inspection.

At the date of inspection the land had been improved as per schedule on adjoining page.

The area ringed and scrubbed under this lease is about 5,000 acres. The proportionate area up to 23rd July, 1899, is 6,200 acres. No work is going on at present time. The work is being well done, except that some small buddas have been cut down instead of ringbarking them. Yarran trees in large clumps have been left; these are gradually dying off.

The area done lies between the Bogan-road and Fifield-road.

I have, &c.,

E. J. WITTS,

Temporary Inspector.

Inspector reports 5,000 acres scrubbed and ringbarked, which is 1,200 acres short of that required to 23rd July, 1899. The second year will expire on 23rd July, 1900, by which time a total of 12,400 acres should be operated on. Perhaps the case should be referred to Head Office for notations and directions as to action.—A. J. VILES, Clerk-in-charge, 31/1/1900. The Chairman.

Referred accordingly, but I would advise that if the full area for the first two years be completed within the time, the deficiency for the first year be overlooked. The drought is probably the cause of the work being at a standstill, and I believe there has recently been a change in the management of this property. Perhaps the lessee should be advised of the facts.—ROBERT McDONALD, Chairman, 2/2/1900.

Scrub Lease 55, The Troffs Leasehold Area.—This lease was gazetted 23rd July, 1898, one of the conditions being that 6,200 acres should be ringbarked during the first year. The inspector reports that 5,000 acres were scrubbed and ringbarked, which is 1,200 acres short of that required to 23rd July, 1899.

The

The Chairman, in forwarding the papers, advises that if the full area for the first two years is completed within the time, the deficiency for the first year be overlooked; the drought is probably the cause of the work being at a standstill and he (the Chairman) believes there has recently been a change in the management of this property; he suggests that the lessees should be advised of the facts. Submitted the Chairman's recommendation be approved.—J. GREEN, 15/2/1900.

R. H. DE LOW (for U. S.), 15/2/1900. Approved,—T.H.H., 16/2/1900. The Chairman, Forbes,—J.G. (for A. U.S.), B.C., 26/2/1900. For Inspector.—A.J.V., May, 1900. Clerk-in-charge, 1/3/1900. The Manager, A.M. and A. Co. (Limited), 21/2/1900. Registration noted, 26/2/1900.

No. 34.

The Under Secretary for Lands to The Manager, Australasian Mortgage and Agency Company (Limited).

Scrub Lease 55.—The Troffs Leasehold Area.

Sir,

Department of Lands, Sydney, 21 February, 1900.

1900-1,163, Occ.

Referring to the scrub lease noted in the margin, I have the honor to inform you that the reports received show that the area ringbarked during the first year of the lease, ending 23rd July, 1899, is 1,200 acres short of that required; and the Secretary for Lands has approved that if the full area for the first two years is completed within the time, the deficiency for the first year will be overlooked.

I have, &c.,

H. CURRY,
Acting Under-Secretary,
(per R.H.D.)

No. 35.

Office Memorandum.

(L.B. 1900—206.)

The Troffs Scrub Lease No. 55.—The Australasian Mortgage and Agency Co. (Limited).

13 March, 1900.

HAS the District Surveyor any suggestion to make as to the area which should be operated upon?

ROBERT McDONALD,

Chairman

I consider that Block A, which is about the most scrubby portion of the lease and has the shortest tenure (ten years), should be operated upon first, or at any rate that it should be gone over once during the first three years. Block C, upon which the work at present done is situated, is the most open part of the lease and the tenure is the longest (twenty-one years).—ARTHUR SHARP, District Surveyor, 13/3/1900. The Chairman.

The recommendation of the District Surveyor is submitted.—ROBERT McDONALD, Chairman, 14/3/1900. The Under Secretary for Lands.

No. 36.

The Acting Manager, Australasian Mortgage and Agency Company (Limited), to The Under Secretary for Lands.

Re Scrub Lease 55, The Troffs Leasehold Area.

The Australasian Mortgage and Agency Company (Limited),

Sir,

Bridge and Loftus Streets, Sydney, 20 March, 1900.

Referring to your letter of 21st ultimo regarding carrying out of the improvements upon the scrub lease noted above, I have the honor to point out that we hear it is most likely that a railway will be made through the land in question, in which case the Department has the right to resume the whole or any portion of the lease without compensation. As the above railway is, we understand, almost certain to be made, the Company is naturally very reluctant to go to the expense of completing improvements until it ascertains what its position will be, as it cannot surely be expected that the Company will spend considerable sums in improvements on the land, which will be taken from it immediately the clearing conditions have been completed, nor could the Department in fairness ask the Company to spend money on land which would immediately after such expenditure be resumed without compensation to us for such expenditure.

I have the honor to ask that the matter may be looked into, and some guarantee given the Company that the power of resumption before mentioned will not be acted upon; and in this case the Company is quite agreeable to proceed with the carrying out of the conditions.

I trust the foregoing will at once appeal to the Department as an absolutely reasonable request, and await with interest your reply.

I have, &c.,

B. ALLEN,

Acting Manager

Scrub Lease No. 55, The Troffs Leasehold Area.—The abovementioned scrub lease was gazetted as approved on the 23rd July, 1898. The area leased is divided into three blocks, A, B, and C, containing respectively 10,536, 10,928, and 9,570 acres, the respective terms of the lease being ten years for Block A, fourteen years for Block B, and twenty-one years for Block C. Condition No. 7, attached to this lease, provided that the lessee shall, during the first year of the lease, clear one-fifth of the total area of the land under lease, which would mean about 6,200 acres. The lease was inspected on the 9th January last, when it was found that 5,000 acres was ringed and scrubbed, which is 1,200 acres short of that required to be dealt with by the 23rd July, 1899. It was, however, approved that if the full area for the first two years be cleared within the prescribed time, that the deficiency for the first year be overlooked. (*Vide* Occ. 1900-1,163.) The District Surveyor considers that Block A, which is about the most scrubby portion of the lease and has the shortest tenure (ten years), should be operated upon first, or at any rate that it should be gone over once during the first three years. Block C, upon which the work at present done is situated, is the most open part of the lease, and the tenure is the longest (twenty-one years). The recommendation

recommendation of the District Surveyor is submitted by the Chairman. Condition No. 7, attached to this lease, provides that the right is reserved to the Secretary for Lands to say in and on what part of the land leased, the clearing, scrubbing, suckering, and ring-barking shall be carried out during the first three years from the commencement of the lease, if the same is extended. The extension of lease of the scrub lease, herein referred to, was notified in the *Government Gazette* of the 21st December, 1898. Submitted for special consideration.—E. C. LANDERS, 20/3/00.

Submitted, that in accordance with the right reserved to the Secretary for Lands in Act 7 of the conditions of the lease, the lessees be called upon to clear and operate on Block A within the three years from the 23rd July, 1898, as recommended by the District Surveyor.—R. H. DE LOW, in charge Lease Division, 21/3/00.

F. H. WILSON, Chief Clerk, 22/3/00. Submitted for approval.—H. CURRY, Under Secretary, 23/3/00. Approved.—T.H.H., 23 March, 1900. The A.M. and A. Company (Limited) informed.—19/4/00.

No. 37.

Office Memorandum.

Scrub Lease No. 55—The Troffs Leasehold Area.

29 March, 1900.

THE above-mentioned scrub lease was gazetted as approved on the 23rd July, 1898, and the area under lease was divided into three blocks—A, B, and C—containing respectively 10,536, 10,928, and 9,570 acres, and the respective terms of lease being ten years for Block A, fourteen years for Block B, and twenty-one years for Block C.

It was approved on Occ. 1,900–2,776 that the lessee be called upon to clear and operate on Block A within the three years from the 23rd July, 1898.

Condition No. 9 attached to this lease is as follows:—

“In the event of its being decided to construct a railway within 10 miles of any part of the subject land, the right is reserved to the Governor to resume the whole or a portion of the scrub lease by giving not less than four months' notice to that effect in the *Government Gazette*, and no compensation will be paid for the exercise of the right of resumption. Provided that upon the resumption of any land as aforesaid a reduction of the annual rent will be made proportionate to the area taken.”

The lessees now state that the railway referred to in Condition No. 9 is almost certain to be made, and they ask that some guarantee be given that the power of resumption contained in Condition No. 9 will not be acted upon.

E. C. LANDERS.

Submitted, the request be not entertained. The Board, in its report of the 12th June, 1897, Ms. Ls. 97–7,425, recommended the condition of resumption; and the request not to act on it, and for the Crown to give a guarantee it will not act on it, is somewhat unique, because, if for no other reason, it could be asked—If it were not to be operative, why was it inserted? The lessees seem desirous of taking the benefits of the lease but not the burdens.—R. H. DE LOW, in charge of Lease Division, 31/3/1900.

F. H. WILSON, Chief Clerk, 2/4/1900. The request should, it is submitted, be refused.—H. CURRY, Under Secretary, 3/4/1900. Approved.—T.H.H., 9/4/1900. The Manager, the Australasian Mortgage and Agency Company (Limited), informed, 19/4/1900.

No. 38.

The Under Secretary for Lands to The Manager, Australasian Mortgage and Agency Company (Limited).

Scrub Lease No. 55, The Troffs Leasehold Area.—The Australasian Mortgage and Agency Company (Limited).

Sir,

Department of Lands, Sydney, 19 April, 1900.

Referring to the scrub lease noted in the margin, one of the conditions of which (Article 7) provides that the right is reserved to the Secretary for Lands to say in and on what part of the leased land the clearing, scrubbing, suckering, and ring-barking shall be carried out during the first three years from the commencement of the lease (23rd July, 1898),—I am directed by Mr. Secretary Hassall to inform you that, in accordance with that condition, “Block A” has been selected as the part of the leased land to be operated upon, and to notify you that it is upon that block the work of clearing, scrubbing, suckering, and ring-barking must be performed during the first three years ending 22nd July, 1901.

Occ. 1900–2,776.

H. CURRY,

Under Secretary

(per F.H.W.)

No. 40.

No. 40.

The Acting Manager, Australasian Mortgage and Agency Company (Limited), to
The Under Secretary for Lands.

Troff's Scrub Lease.

The Australasian Mortgage and Agency Company, Limited,

Sir,

Bridge and Loftus Streets, Sydney, 3 May, 1900.

Referring to the Department's letters of the 19th April, per particulars above, and my conversation of this afternoon with the Under Secretary, I have the honor to ask that the Department give the Company compensation for the improvements in the event of the land being resumed for railway purposes, and that such compensation be granted before we give up possession. Our request for the compensation being granted before the land is taken from us is in view of the difficulty experienced in several cases by the Company when selectors have made use of the existing law to take away the lands from our leases with the improvements thereon. In several cases, although awards have been given in the Company's favour for the value of the improvements, we have not recovered payment for same, though put to great expense in proving our claims, and endeavouring to collect them. In some cases the selectors abandoned their holdings, after not only having use of our improvements, but frequently having destroyed them. Even then the land does not fall back into the lease, but is put through process of granting to selectors again with a like result, when the new selector of course wishes the improvements valued at their then depreciated worth.

The Company makes this application for compensation, on the ground that it is equitably entitled to same, feeling that it cannot fairly be contended that the Company should part with the improvements immediately its expenditure is completed without such compensation, and I trust that the Department on looking into the matter will take the same view.

I have, &c.,

B. ALLEN,

Acting Manager for the Australasian Mortgage and Agency Co. (Ltd.)

No. 41.

Office Memorandum.

Scrub Lease No. 55, "The Troffs" Leasehold Area.—The Australasian Mortgage and Agency Company
(Limited). 15 May, 1900.

THE abovementioned scrub lease, which contains an area of 31,034 acres, was gazetted as approved on the 23rd July, 1898.

Condition No. 9 attached to this lease is as follows:—"In the event of its being decided to construct a railway within 10 miles of any part of the subject land, the right is reserved to the Governor to resume the whole or a portion of the scrub lease by giving not less than four months' notice to that effect in the *Government Gazette*, and no compensation will be paid for the exercise of the right of resumption. Provided that upon the resumption of any land as aforesaid, a reduction of the annual rent will be made proportionate to the area taken."

The lessees, in their letter of the 20th March last (Occ. 1900-2,642), stated that the railway referred to in Condition No. 9, above referred to, is almost certain to be made, and they asked that some guarantee be given that the power of resumption contained in Condition No. 9 would not be acted upon; but this request was refused, and the lessees were so informed on the 19th ultimo, *vide* Occ. 1900-3,371.

The Acting Manager of the Company, in his letter of the 3rd instant (Occ. 1900-4,402), referring to our letter of the 19th ultimo, and his conversation with the Under Secretary on the 3rd instant, now asks that the Department give the Company compensation for the improvements in the event of the land being resumed for railway purposes; and that such compensation be granted before they give up possession. Their request for the compensation being granted before the land is taken from them is on account of the difficulty experienced by the Company in recovering the value of the improvements from the selectors, who, in some cases, abandoned their holdings after not only having made use of the improvements, but frequently having destroyed them, and even then the land does not fall back into the lease, but is put through process of granting to selectors again with a like result, when the new selector, of course, wishes the improvements valued at their then depreciated worth.

Condition No. 13 attached to this lease is as follows:—"13. Upon such resumption as aforesaid, or upon expiration of the lease by effluxion of time, the lessee shall have tenant right, as defined in the Crown Lands Act of 1895, in the portion so resumed, or the whole of the land leased, as the case may be, in such improvements as may be effected with the consent of the Chairman of the Land Board or the Minister; but shall not have tenant right in scrubbing, clearing, ringbarking, or suckering."

Submitted for special consideration.

E. C. LANDERS.

R. H. DE LOW, 16/5/1900. F.H.W. Submitted, that the Land Board be asked to report on the request.—H. CURRY, 17/5/1900. Approved.—T.H.H., 18/5/1900. The Chairman of the Local Land Board, Forbes.—E.L. (*pro* N.W.), B.C., 28/5/1900. For the information of the District Surveyor. The District Surveyor.—A. J. VILES. (*pro* Chairman), 29/5/1900.

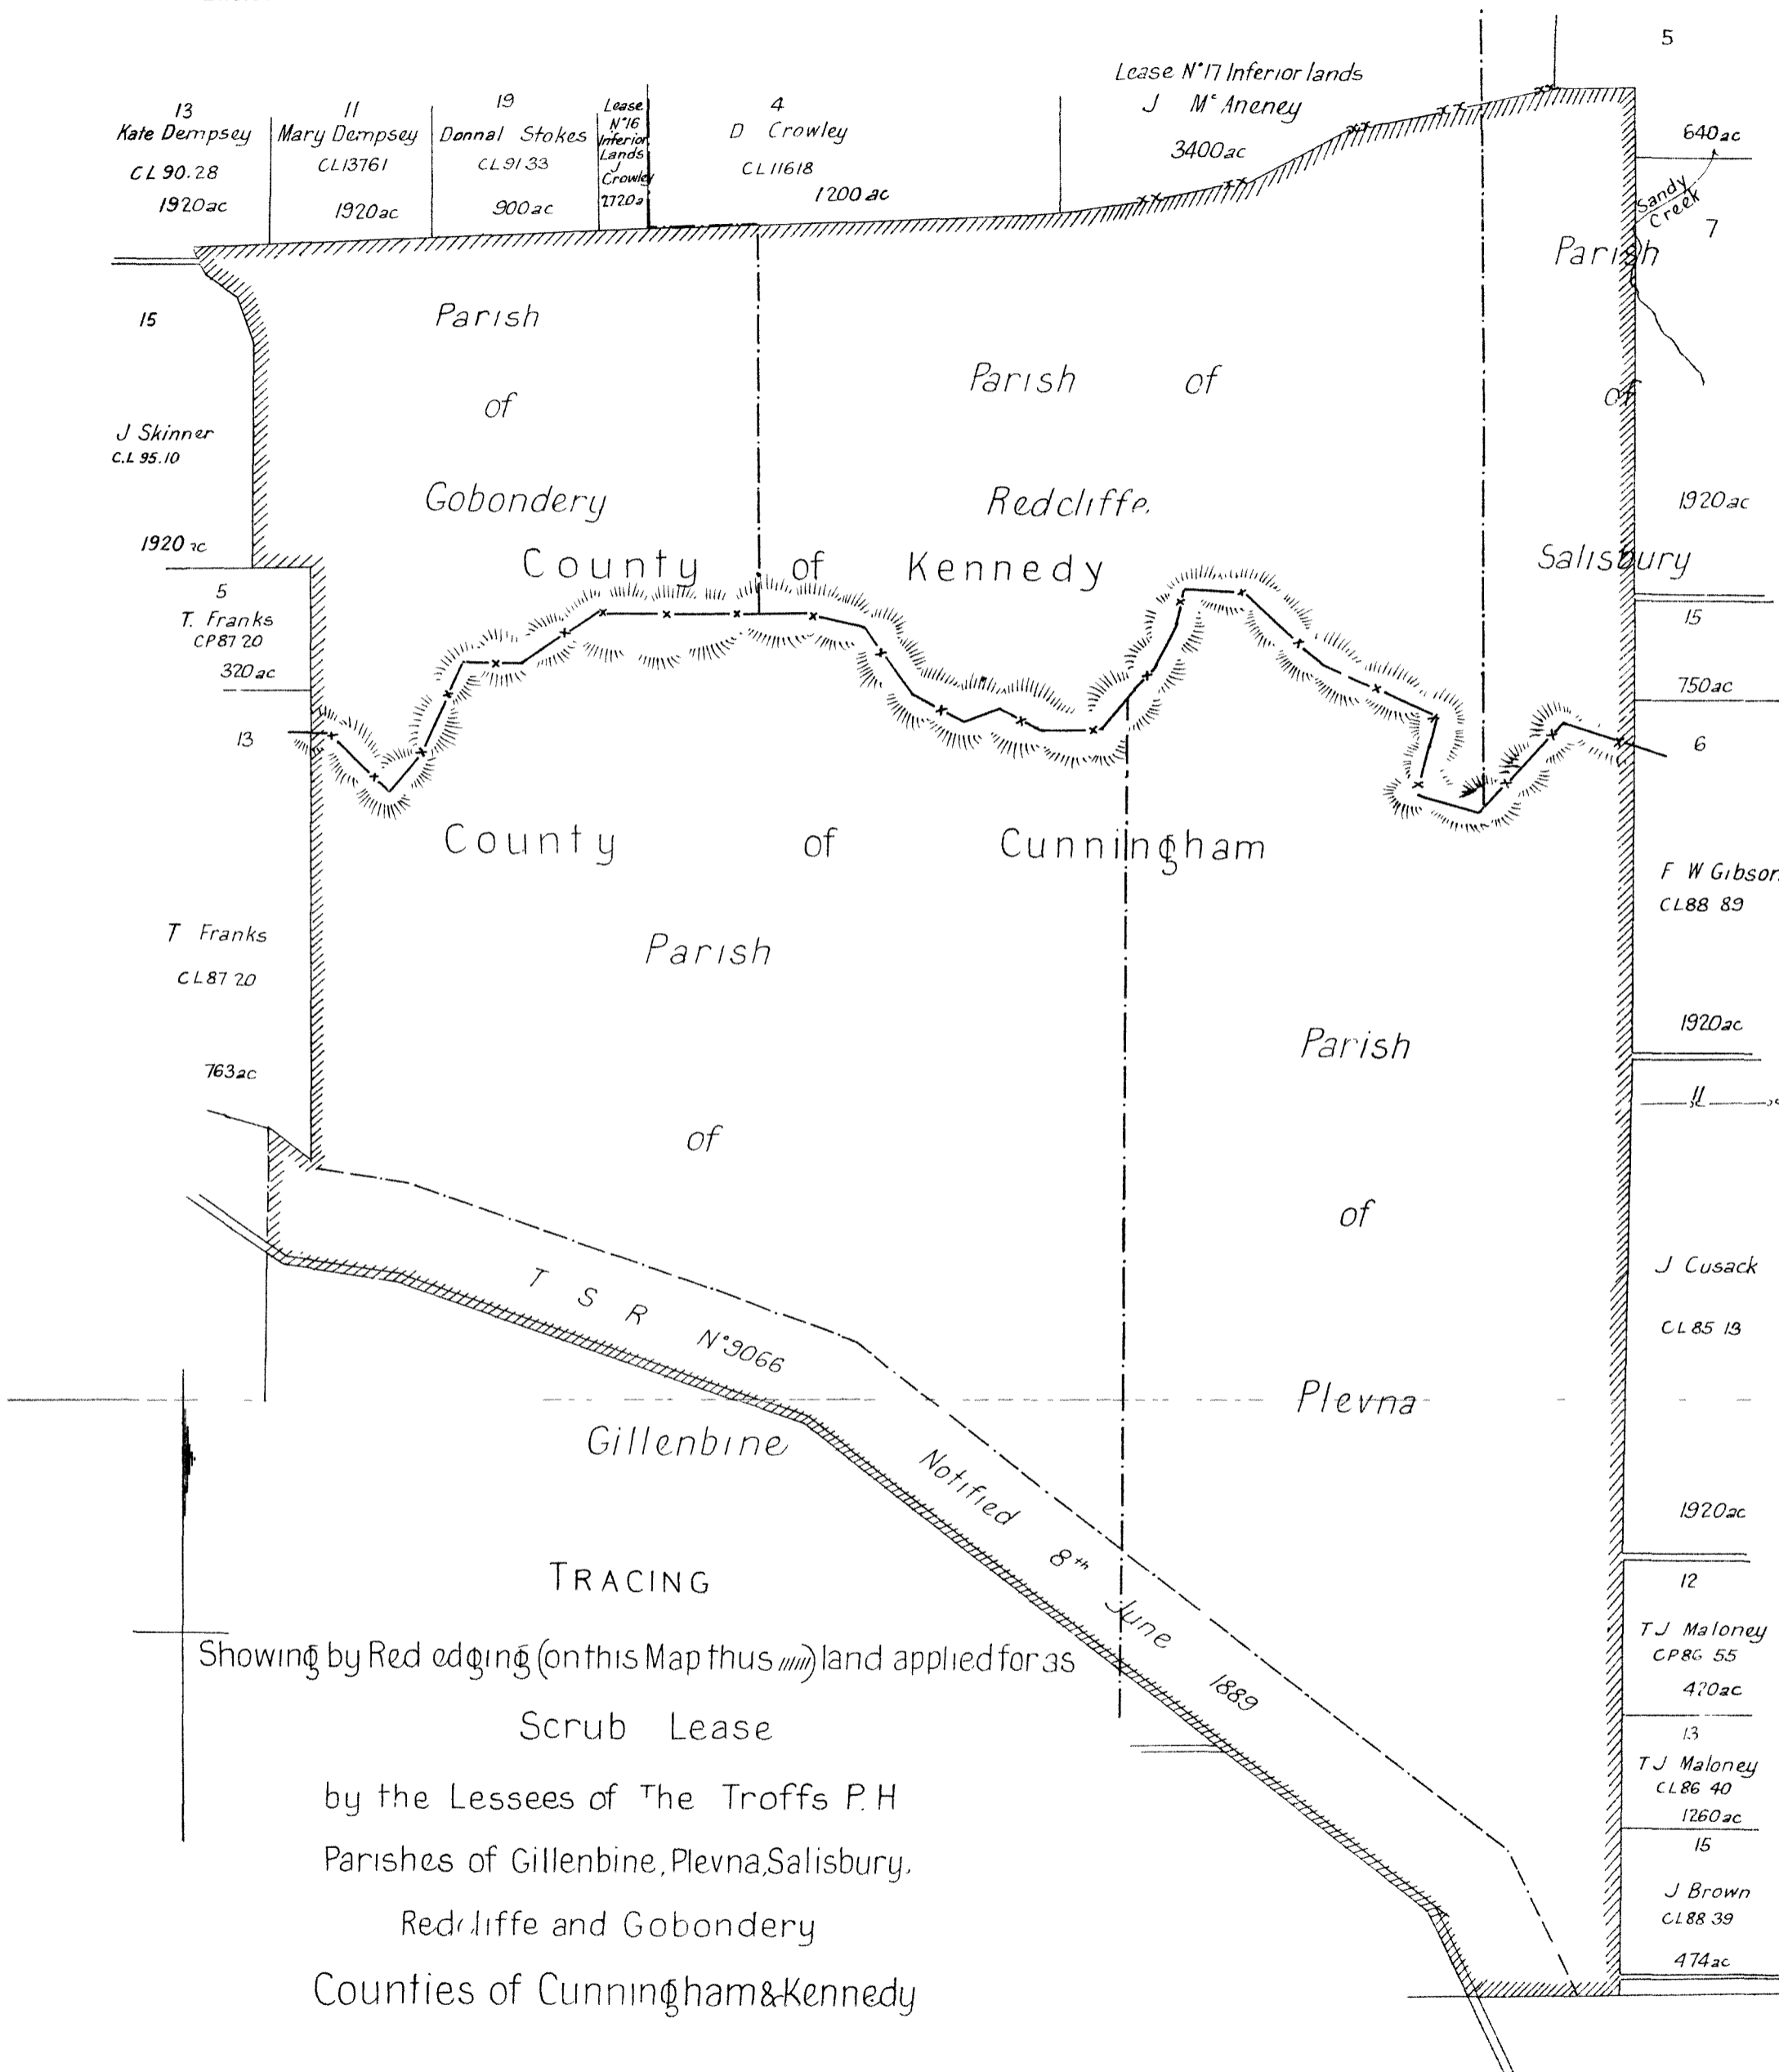

Noted. I am of opinion that, rather than comply with the lessees' request, it would be better to allow them to surrender the scrub lease on 10th January, 1903 (the date to which the pastoral lease was extended under section 3), relieving them in the meantime of the obligation of effecting any further improvements, and allowing them tenant right in all improvements so far effected, except those, of course, surrendered to the Crown under section 43 of the Act of 1889. The granting of the request for compensation would involve the Department in almost certain loss, as the Crown would not be able to recover from the selectors the same value that would be awarded to the lessees; and, in any case, once the improvements passed out of the lessees' possession, they would rapidly deteriorate unless the land was at once selected. If the railway line from Bogan Gate to Bullock Creek be constructed, the whole of this scrub lease will be eagerly taken up under homestead selection or settlement lease if made available.—ARTHUR SHARP, District Surveyor, 31st May, 1900. The Chairman.

The Chairman, Wilcannia.—A. J. VILES, Clerk-in-Charge, 31/5/1900. This case may be set down for next Parkes Board Meeting, for inquiry in open Court.—ROBERT McDONALD, Chairman, 19th June, 1900. The Clerk-in-Charge.

THE TROFFS PASTORAL HOLDING, IN THE CENTRAL DIVISION.

No. 1.

Thomas Brown, Esq., M.P., to The Under Secretary for Lands.

Sir,

Parliament House, Sydney, 15 September, 1897.

With reference to an application by the lessees of The Troffs holding in the Parkes Land District, to convert some 32,000 acres of their pastoral lease into a scrub lease, and which is now engaging the attention of your Department, I am requested to bring under your notice the case of an adjacent selector named Daniel Crowley, and to ask that, in the event of a decision being given in favour of this application, that you will cause it to be so modified as to enable you to meet the claims of this selector for consideration.

Mr. Crowley's case is that, when taking up land in this district, he was compelled to be satisfied with a remnant of some 1,600 acres of inferior land. As soon as this portion of The Troffs resumed area became available under the 1884 Land Act, it was acquired in full area conditional-purchase and conditional-lease blocks, with the exception of this 1,600 acres remnant. Not being able to find any other land available at that time to suit him, Mr. Crowley lodged an application for this block, and has been in occupation ever since. Mr. Crowley acquired and held this land with the expectation that when the pastoral lease under the 1884 Act expired he would be able to make his holding up to a full area. The further extension of lease under the 1889 Act deferred that expectation for a further period, and now, if this land is converted into a scrub lease, as applied for, Mr. Crowley will be debarred increasing his holding so long as such scrub lease obtains.

In view of the fact that this selector is a *bona fide* settler; that he acquired the land under a reasonable expectation that within a given time (since extended by an Amending I and Act) he would have an opportunity of increasing his holding; that he has stuck to the land despite the fact that it does not come within the definition of a sufficient area to support a family,—on his behalf I beg to make application that, in dealing with the application to convert these lands into scrub leases, that a sufficient area of land adjacent to Crowley's holding be excluded from said scrub lease as will enable him to make up his holding into a sufficient area at expiration of the present pastoral lease.

Trusting this matter may have your early and favourable consideration.

Yours, &c.,

THOMAS BROWN.

Mr. Brown, M.L.A., desires that Daniel Crowley, a selector, may be allowed to complete his full area under conditional purchase and conditional lease. Having selected a remnant of 1,600 acres of inferior land on the resumed area of The Troffs holding, and not being able to obtain any other land, he has been occupying this area ever since, expecting to be able to make up his holding to the full area on the expiration of the pastoral lease of The Troffs, which was extended under the Act of 1889. It has been decided to grant a scrub lease of half the leasehold area, and to design the balance for settlement; the latter will not become available until after the 10th July, 1900. The District Surveyor may be asked to report on the request, and Mr. Brown so informed.—H. J. AYLWARD, Ms. Ls. Branch, 24/9/97.

R. H. DE Low, in charge of Lease Divisions, 25/9/97. For approval.—F. H. WILSON, Chief Clerk, 27/9/97. W.H. Approved.—J.H.C., 29/9/97. Thos. Brown, M.L.A., informed, 30/9/97. The District Surveyor, Forbes.—J.P.M. (for the U.S.), B.C., 30/9/97.

No. 2.

District Surveyor Sharp to The Under Secretary for Lands.

Sir,

District Survey Office, Forbes, 6 October, 1897.

Crowley's present holding is indicated by red tint on enclosed lithograph of parish of Redcliffe, and the land he wishes to acquire is shown by blue tint.

The statement that Crowley when settling in the district was compelled to be satisfied with a remnant of 1,600 acres of inferior land is absolutely incorrect, as on the day that he and James Crowley selected, the whole parish of Redcliffe, except portions 15 and 16 (375 and 1,125 acres respectively) was available, as well as fully 5,000 acres adjoining in the parish of Gobondry, and several thousand acres in other parishes, all within The Troffs resumed area. He therefore had ample choice, being, in fact, one of the first, instead of the last, to select on that holding.

The land desired is within that part of The Troffs scrub lease for which the Minister has promised a term of fourteen years, the line dividing this from the ten-years portion being approximately as shown on lithograph. These dividing lines have now been marked on the grounds, but plan is not yet to hand.

I have seen the lessee, who objects strongly to the proposal, for the reason that the best water on the holding, since withdrawal under section 3 has been effected, is in the tanks shown approximately on lithograph, which would either come within the blue tinted area or just on the boundary thereof. He also points out that, apart from the scrub lease, he would have a tenure of between five and six years longer for the pastoral lease.

As the scrub-lease matter was thoroughly advertised, I do not think, at this late period, that Crowley's request should be entertained. He had ample opportunity to state his case when the matter was before the Board, but did not do so, and I recommend the application be refused.

The

3

The Bullock Creek Farmers' Association, of which, I believe, Crowley is a member, has written to the Department, requesting that the withdrawn portion of The Troffs be subdivided into farms not exceeding 1,280 acres; and if that area is sufficient there, then 1,600 acres where Crowley is should also be ample to make a living off.

ARTHUR SHARP,
District Surveyor.

D. Crowley desires to be allowed, to select his full area on that portion of The Troffs leasehold area now being dealt with as a scrub lease. The land desired by Crowley is shown by blue tint on the attached lithograph, and is within the block for which the Minister has promised a term of fourteen years, and contains water improvements effected by the pastoral lessee, who objects strongly to the proposal, for the reason that the best water on the holding, since withdrawal under section 3 has been effected, is in the tanks shown approximately on the lithograph. The District Surveyor points out that the statement that Crowley when settling in the district was compelled to be satisfied with a remnant of 1,600 acres of inferior land is absolutely incorrect, as, on the day that he and James Crowley selected, the whole parish of Redcliffe, except portions 15 and 16 (375 and 1,125 acres respectively), was available, as well as about 5,000 acres in the adjoining parish. He therefore had ample choice, being one of the first to select on The Troffs resumed area. Submitted, in view of the District Surveyor's report, that the request may be refused.—J. P. MCGUANNE, Ms. Ls. Branch, 13/10/97.

Crowley may be informed that the land he desires is part of the leasehold area, which will not expire till July, 1900; and he may be informed, in terms of the District Surveyor's report, as to the area available when he applied in 1889.—R. H. DE LOW, in charge of Lease Division, 14/10/97. For approval.—F. H. WILSON, Chief Clerk, 15/10/97. W.H., 15/10/97. Approved.—J.H.C., 18/10/97. Mr. Brown, M.P.—M.S., 20/10/97.

No. 3.

Mr. Daniel Crowley to The District Surveyor.

Sir,

Trundle, 13 October, 1897.

I have applied some time ago (through Mr. Brown, M.L.A.) for to be allowed to make my holding to a full area, and received a letter from that gentleman stating the matter was sent on to you to report on. What land I hold at present adjoins The Troffs (that has been under consideration) *re* scrub lease, and is now granted.

If you have not already sent in your report, I would humbly beg of you to report favourably in my case, as I have not enough to live by, and as you know I have no other chance as all the land adjoining is taken up. A selector adjoining a squatter has a hard matter to live, with pests of every kind; and if I should get the land I would wire-net it all round and also scrub it.

There is no improvement on the land whatever asked for, and I consider I would be wronged if deprived of it, as my case is very strong in this matter.

By fully considering my case you will greatly oblige,

DANIEL CROWLEY,
Trundle, Parish of Redcliffe, County Kennedy.

Please inform the writer that I have furnished my report to the Under Secretary for Lands, by whom he will be advised as soon as a decision has been arrived at.—A.S., 18/10/97. The Chairman. D. Crowley informed, 19/10/97. Forwarded to the Under Secretary for Lands in connection with my report of 6th instant, 97/708, Papers Ms. Ls., 97/11,558, to which I have nothing to add.—ARTHUR SHARP, District Surveyor, 18/10/97. The Under Secretary.

No. 4.

The Under Secretary for Lands to Thomas Brown, Esq., M.P.

Sir,

Department of Lands, Sydney, 20 October, 1897.

Adverting to your letter of the 15th ultimo, urging that in dealing with The Troffs scrub-lease application, provision might be made to enable Mr. Daniel Crowley to extend his selection, I have the honor, by direction of the Secretary for Lands, to inform you that the additional area desired by Mr. Crowley forms part of the leasehold area of The Troffs holding, the lease of which will not expire till July, 1900.

With regard to the statement that Mr. Crowley was compelled, when taking up the land, to be satisfied with a remnant of 1,600 acres of inferior land, it has been ascertained that on the day Messrs. D. and J. Crowley selected, the whole of the parish of Redcliffe, with the exception of portions 15 and 16, of 375 and 1,125 acres respectively, as well as fully 5,000 acres adjoining in the parish of Gobondry, and several thousand acres in other parishes, all within The Troffs resumed area, was available.

I have, &c.,

WM. HOUSTON,
Under Secretary.
(per R.H.P.)

No. 5.

No. 5.

Mr. Daniel Crowley to Thomas Brown, Esq., M.P.

Dear Sir,

Parliament House, 2 November, 1897.

In reply to the Under Secretary for Lands, 97/12,432, Ms. Ls., I beg to explain that my brother, Mr. James Crowley, with his family, determined to settle here. The district being in a wild state, I was, of course, anxious to settle close to him. I was aware of these other lands being open for selection, and they were either inferior, too heavily timbered, or else too far away from my brother's land, so I naturally took into consideration that I would be able to make up my complement in good land when The Troffs leasehold area fell in for selection; but when it did, the Department gave them a further extension of five years, and for this further I have been waiting to secure the balance of my block. I trust the Hon. Minister will be good enough to make the necessary conditions for me to get it. I am aware other lands were available in different places, but in those selecting days we were allowed to choose our own blocks as there was no survey. As can be seen by the map, both east and west of my land is inferior land, and has been rented as "inferior lease" by the Department, at a normal rent—the west to James Crowley, and the east to Mr. J. MacAnaney.

I have, &c.,

DANIEL CROWLEY.

Presented by Thomas Brown, 10/11/97. Acknowledged, 15/11/97.

Mr. Brown, M.L.A., was informed that the land desired by Crowley forms part of the leasehold area of The Troffs which will not expire till July, 1900. Mr. Crowley again urges that provision may be made whereby he may select his full area, and points out that the land on the east and west of his land is held under inferior land leases, Nos. 16 and 17. In view of the District Surveyor's report of the 6th October last, to the effect that the land desired by Crowley contains water improvements recently effected by the pastoral lessee, it is submitted that the previous decision be adhered to, and Mr. Crowley informed accordingly.—J. P. MCGUANNE, Ms. Ls. Branch, 18/11/97.

Rent for year ending 11th June, 1898, not paid on inferior land lease No. 17, which adjoins D. Crowley's conditional lease on the east; please see lithograph. Inferior land lease No. 16 stands good to 11th June, 1898.—W.C.F., 26/11/97.

No. 6.

Thomas Brown, Esq., M.P., to The Under Secretary for Lands.

Sir,

Bigenbong, 21 March, 1898.

Respecting an application made by me on behalf of Mr. J. Crowley, of Trundle, I am now in receipt of a letter from the Under Secretary, No. 98,552, 15/2/98, asking me to see you on this matter on the following Wednesday. I regret that my absence from Sydney has rendered this impossible, and as I am only now in receipt of this letter, I could not communicate with you at an earlier date. If you can hold the case over until my return I will be glad, and will do myself the honour to wait on you. I expect to be in Sydney in about a week from this date.

In case you may have to deal with the matter at an earlier date, I will take the liberty of saying here, that I believe Crowley is entitled to some consideration at the hands of your Department, and I would suggest that provision be made to give him that consideration. I know that he cannot make an additional conditional purchase until termination of the pastoral lease, but provision should be made in connection with the proposed extended scrub lease under the 1895 Act, that will enable the area of this selection to be made up by additional conditional purchase as desired at the termination of the pastoral lease.

Yours, &c.,

THOMAS BROWN.

I may point out that trial survey of a line of railway from Bogan Gate to Bullock Creek, passing within a mile or so of this land, has been approved and is now being carried out; and if this line be constructed, as there is every likelihood of, there is no doubt that the area already held by Crowley will be ample to maintain a home upon.—ARTHUR SHARP, District Surveyor, 16 June, 1898. The Under Secretary for Lands.

No 7.

Memorandum.

25 July, 1898.

Mr. D. CROWLEY holds 1,600 acres by conditional purchase and conditional lease, but states that it is inferior land, and there was no other land available in the locality when he took it up in 1889. He was, therefore, compelled to abide by it, in the hope of obtaining a full area on the expiry of the leasehold area of The Troffs holding. He states that his present area is not sufficient to make a living off.

He now finds that it has been decided to grant a scrub lease of half the leasehold area, and to design the balance for settlement when the lease expires on the 10th July, 1900.

A withdrawal from this leasehold area, under section 3, to allow of the lessee making application for scrub lease was approved, and the withdrawal took effect in January, 1898.

Mr. Crowley, therefore, wishes that this area for scrub lease may be so modified to allow of him obtaining his full area; but the lessee objects to this, on the ground that he has valuable water improvements on that area which would be set apart for Crowley.

On the 6th October, 1897, the District Surveyor reported that the statement by Crowley that there was no other land available at the time of his application is incorrect, as there were thousands of acres in the same parish, and adjoining parish, available for selection, and Crowley was the first to select. As to the smallness of the area to make a living off, the District Surveyor points out that the Bullock Creek Farmers' Association, of which it is believed Crowley is a member, has written to the Department requesting that the withdrawn portion of The Troffs leasehold area be subdivided into farms not exceeding 1,280 acres.

It would, therefore, seem that Crowley has ample land in 1,600 acres.

Crowley's

Crowley's land is within a mile of a railway line which is likely to be constructed between Bogan Gate and Bullock Creek.

On the 18th October, 1897, the Minister approved that Crowley be informed that the land he desires is part of the leasehold area, which will not expire till July, 1900, and also of the land available in 1889, according to the District Surveyor's report.

On the 15th February, 1898, a letter was written from the Alienation Branch to Mr. Brown, M.P., asking him to call on Mr. Capper about the matter.

Mr. Brown, M.P., wrote on 21st March, 1898, that he would call in about a week's time. The scrub lease was gazetted 23rd instant. Submitted that Mr. T. Brown be informed that his request in Crowley's behalf cannot now be complied with.

W. H. STUART,
Acting in charge of Miscellaneous Branch.

R. H. DE LOW, in charge of Lease Division, 25/7/98. For approval.—F. H. WILSON, Chief Clerk, 26/7/98. W.H., 28/7/98. Approved.—J.H.C., 29 July, 1898. T. Brown, M.P., informed (Ms.), 3 August, 1898. The District Surveyor, Forbes, to note and return.—W.H.S., B.C.Lands, 4/8/98. Noted and returned.—ARTHUR SHARP, District Surveyor, 6 August, 1898. The Under Secretary for Lands.

No. 8.

The Under Secretary for Lands, to Thomas Brown, Esq., M.P.

Sir, Department of Lands, Sydney, 3 August, 1898.

Referring to your letter on behalf of Mr. D. Crowley, asking that he be allowed to increase his holding out of an area set apart for scrub lease on the leasehold area of The Troffs pastoral holding, I have the honour to inform you, by direction of the Secretary for Lands, that the request cannot now be complied with, as the scrub lease referred to has been approved and gazetted.

I have, &c.,

WILLIAM HOUSTON,
Under Secretary.

No. 9.

Thomas Brown, Esq., M.P., to the Under Secretary for Lands.

Sir, Parliament House, Sydney, 2 September, 1898.

I am handing you herewith for your consideration, a letter from Mr. Daniel Crowley, of "Moirs," near Trundle, respecting his application to be permitted to make up his holding under the 11th section of the 1895 Land Act.

Personally, I think this case is entitled to the consideration asked for, as my previous representations will show. I think provision should be made to meet this case on the lines I have already indicated, namely, by excising from the proposed scrub-lease area, the land required to make up the area of this holding, which would become available for that purpose at the termination of the existing pastoral lease. In this way the selector's claims could be fairly met, and no injustice done to other interests.

With reference to the official reports to which Mr. Crowley takes exception, I can only suppose that the reports have emanated from different officers. If Mr. Crowley's holding is of a character to be a "sufficient area" in itself, then applications to convert the adjacent lands—Troffs holding—into scrub leases should not be entertained. If, on the other hand, said applications are valid, then selectors' claims for consideration are established by that fact; and the issue for the Minister to decide is whether the selector or the pastoral lessee shall have the preference. I am satisfied the selector's application may be allowed without entailing any real hardship on the lessee; on the contrary, however, if not allowed, then a very great hardship will be entailed upon the selector.

May I ask the reconsideration of Mr. Crowley's case, with a view of a more favourable treatment of his application than your last letter indicates.

Yours, &c.,
THOMAS BROWN.

Acknowledged. The case was fully gone into on 98-5,153 Misc. Departmental, and the application was refused by the Minister on the 29th July last. Mr. Brown's letter is submitted, but, apparently, nothing can be done in the matter of increasing Crowley's holding. The District Surveyor's report shows that Crowley had ample choice, being one of the first selectors on The Troff's holding; so that, if the 1,600 acres taken up by him consist of inferior land, that is purely owing to his own want of judgment; and his contention that he had to be satisfied with a remnant of inferior land falls to the ground, as, at the time he selected, there was, according to the District Surveyor's report, the whole of the parish of Redcliffe (except two portions of 375 and 1,125 acres) available, besides 5,000 acres adjoining in the parish of Gobondry, and several thousand acres in other parishes, all within The Troff's resumed area. It is submitted that these facts be pointed out to Mr. Brown, M.P., and that he be informed that Crowley's request for an additional area cannot be acceded to, as the land is included in a scrub lease gazetted on the 23rd July last.—J. E. O'DWYER, in charge of Misc. Branch, 8 September, 1898.

R. H. DE LOW, in charge of Lease Division, 9 September, 1898. For approval.—F. H. WILSON, Chief Clerk, 12/9/98. W.H., 12 September. Approved—J.H.C., 13 September, 1898. Mr. Brown, M.P., informed (Ms.), 14/9/98. The District Surveyor, Forbes, for his information. W.H.S., for the Under Secretary, B.C., Lands, 15/9/98. Noted and returned—ARTHUR SHARP, District Surveyor, 16 September, 1898. The Under Secretary for Lands.

Enclosure.

Mr. Daniel Crowley to Thomas Brown, Esq., M.P.

Sir,

"Moirs," Trundle, 15 August, 1898.
 I beg to draw your attention *re* my wanting to extend my holding on The Troffs leasehold area. The report of the District Surveyor was, I think, altogether unfair. That gentleman, reporting on The Troffs leasehold area, when it was being recommended as a scrub lease, "that it was very inferior land—not worth one half-penny per acre," now reports my land adjoining as very rich, good land, and only a six-wire fence between. I am paying 2d. per acre for my land adjoining, and I hope that the necessary arrangements for me to make my holding a full block will be made.

Yours, &c.,
 DANIEL CROWLEY.

No. 10.

The Under Secretary for Lands, to Thomas Brown, Esq., M.P.

Sir,

Department of Lands, 14 September, 1898.

Referring to the letter of the 15th ultimo, forwarded by you from Mr. Daniel Crowley, of "Moirs," Trundle, again asking that he be afforded an opportunity of extending his holding by taking up additional land out of the area on The Troffs pastoral holding, which has been set apart for a scrub lease, I am directed by the Secretary for Lands to inform you that at the time Mr. Crowley selected the land held by him the whole of the parish of Redcliffe (except two portions of 375 and 1,125 acres) was available, besides 5,000 acres adjoining, in the parish of Gobondry, and several thousand acres in other parishes, all within The Troffs resumed area, and, therefore, Mr. Crowley's contention that he had to be satisfied with a remnant of inferior land is untenable.

I am to add that, as the land in question is included in a scrub lease gazetted on the 23rd July last, Mr. Crowley's request cannot be complied with.

Yours, &c.
 WM. HOUSTON,
 Under Secretary,
 (per F.H.W.)

[One Plan.]

No. 1.

Messrs. Harison, Jones, and Devlin to The Under Secretary for Lands.

Sir,

Sydney, 4 May, 1898.

We enclose herewith papers received by us from Mr. A. B. Hope, Manna, Wamboyne, near Forbes, in connection with his application for scrub lease, particulars of which are given on the tracing annexed, and in respect to which we have this morning lodged with the Treasury the sum of £42—as per their receipt at foot of application form.

Yours, &c.

HARRISON, JONES, AND DEVLIN, (LIMITED).
(G. R. JONES, Managing Director.)

Will Mr. Landers please state whether the applicant is the holder of a pastoral lease?—W.C.F., Miscellaneous Lease Branch, 6/5/98.

Messrs. Robert Hope, Thomas Culbertson Hope, Arthur Hope, and George Hope are the registered licensees of the preferential occupation license of Moonbi or Bogandillon, No. 542, Central Division; Arthur Hope does not appear to be the holder of a pastoral lease.—J.G., 13/5/98. Mr. McGuanne.

Will Mr. Hay please state whether any objections exist to granting a scrub lease of the land applied for, which forms part of forest reserve No. 21,907?—W.C.F., Miscellaneous Lease Branch, Forest Branch.

Forester Postlethwaite for report as to any objections, and, if unobjectionable, to suggest conditions; and also to state whether in his opinion any special supervision will be necessary.—R. D. HAY (for the Under Secretary for Lands). The Chairman, Local Land Board, Forbes, B.C., 25/5/98.

Forwarded for report accordingly.—ROBERT McDONALD (*per* G.J.P.), Chairman, Local Land Board. Local Land Board Office, Forbes, 28th May, 1898. Mr. Forester Postlethwaite.

[Enclosure.]

Form 66, Crown Lands Acts.

Application for a Scrub Lease.

In pursuance of the "Crown Lands Act of 1889," I, Arthur Bobart Hope, hereby apply for a scrub lease of the Crown lands hereunder described. I have lodged with the Colonial Treasurer the sum of £ , and a receipt therefor is at the foot hereof.

I am of the age of over 21 years.

Signed this day of February, 1898.

A. B. HOPE,
Bogandillon, Forbes.

Description of the land applied for.

Parishes of Manna, Nerang Cowal, and Bena, county of Gipps, Land District of Condobolin, in the Central Division, about 2,300 acres. Commencing in the position shown on the accompanying tracing by red edging. To the Under Secretary for Lands, Sydney.

RECEIVED, in connection with the above application, a deposit of £10, and a provisional survey fee of £32.
The Treasury, New South Wales, 4th May, 1898.

J. WALFORD,
(*Pro* Treasurer).

No. 2.

Mr. Inspector and Forester Postlethwaite to The Chairman, Local Land Board,
Forbes.

Sir,

Grenfell, 2 July, 1898.

According to your instructions, B.C., 25/5/98, with reference to the granting of a scrub lease of about 2,500 acres to Mr. A. B. Hope, of Bogandillon, parishes of Manna, Nerang Cowal, and Bena, county of Gipps, I have the honor to inform you that I see no objection to such a course being taken. On the contrary, I am of opinion that if the useless timber and scrub be destroyed, it will greatly benefit the good timber remaining.

With

3

With reference to that portion of forest reserve 21,907, I would recommend supervision, and the following conditions :—

- 1st. Crooked and useless box, gum, and ironbark trees and saplings to be destroyed ; also all scrub and undergrowth.
- 2nd. Pine above 6 inches in diameter to be left intact, and that from 2 inches to 6 inches at 3 feet from the ground, to be thinned out to 10 feet apart.
- 3rd. The Department to be given at least three months' notice before operations commence, and not more than ten men to be employed at one time, so that the officer in charge can properly supervise the work.

I may mention that objections are raised by applicants to the stacking and burning off of scrub, which they say doubles the expense of the work.

I have, &c.,
JOHN G. POSTLETHWAITE,
Conditional Purchase Inspector and Forester.

Forwarded.—ROBERT McDONALD, Chairman, Local Land Board (*per* T.W.W.), 5/7/98. The Under Secretary for Lands. Mr. Hay, Forest Branch.—J.G., 12/7/98. I think the conditions suggested by the Forester are suitable, and that special supervision and stacking and burning of debris and thinning should be enforced.—R. D. HAY, 15/7/89.

No. 3.

Office Memorandum.

Application for a Scrub Lease on the late leasehold area of Moonbi or Bogandillon Pastoral Holding, No. 542A, Central Division, Arthur Bobart Hope.

Department of Lands, 19 July, 1898.

ENCLOSED is an application for a scrub lease of about 2,300 acres on the late leasehold area of the above-mentioned pastoral holding.

The land is situated about 25 miles south-east of Condobolin and 40 miles west of Forbes, and between the Lachlan and Murrumbidgee Rivers.

The present area of the late leasehold area above referred to is 24,666 acres, and is held under preferential occupation license by R. Hope, T. C. Hope, A. Hope, and G. Hope, at the rate of £2 18s. 8d. per section of 640 acres = £113 1s. 1d. per annum.

The Forest Branch state that there is no objection to granting a scrub lease of the land embraced in forest reserve 21,907, subject to the conditions recommended by Mr. Forester Postlethwaite on Occ. 98-5,845.

The applicant has lodged a deposit of £10, and a provisional survey fee of £32.

Submitted that the papers be forwarded to the Board for report.

E. C. LANDERS.

R. H. De Low (for U.S.), 20/7/98. Approved.—J.H.C., 21/7/98. The Chairman, Forbes.—E.L. (for U.S.), B.C., 22/7/98. The District Surveyor for report, &c.—T. W. WARD, Clerk-in-charge, 26/7/98. Instructions to Licensed Surveyor, Maitland, for report.—A.S., 8/8/98.

No. 4.

The District Surveyor, Forbes, to Mr. Licensed-Surveyor Maitland.

Memorandum from The District Surveyor, Forbes, to Mr. Licensed-Surveyor A. Maitland.

8 August, 1898.

AN application having been made by A. B. Hope for a scrub lease of the part of travelling stock reserve 17,085, indicated by red edging on the accompanying heliograph, Mr. Licensed-Surveyor Maitland is requested to report as to the character of the country, nature, value, and ownership of improvements (if any), and whether there is any objection, in the public interest, to granting a scrub lease of this land.

If the application is recommended to be granted, Mr. Maitland will be so good as to suggest term and fair annual rental for the land, and to state to what extent it is being used by travelling stock.

Payment will be at daily rates.

ARTHUR SHARP,
District Surveyor.

No. 5.

Mr. Licensed-Surveyor Maitland to The District Surveyor, Forbes.

Exhibit "AA."—R. McD., Chairman, 19 June, 1899.

Memorandum.—Mr. Licensed-Surveyor Adam Maitland to the District Surveyor at Forbes.

14 September, 1898.

APPLICATION by A. B. Hope for a scrub lease of part of travelling stock reserve 17,085, notified 14th January, 1893, county of Gipps, Condobolin Land District, to me for inspection and report, under instructions No. 98-29, dated 8th August.

1. In compliance with the instructions quoted above, I have inspected that part of travelling stock reserve 17,085, within the Moonbi or Bogandillon pastoral holding, No. 542, and have indicated upon the accompanying heliograph the limits of the different classes of country, as nearly as the necessary information could be gained from an inspection.

For plan see tracing X—No. 57.

2. The area in question, about 2,370 acres, is situated about 35 miles from Condobolin, and about 45 miles from Forbes, and, with the exception of about 50 acres of low, stony ridge at south-western corner, consists of almost level land, chiefly pine and box country, with patches of open boree (about 300 acres) and dense belar (about 250 acres).

3. About 1,300 acres of the northern portion is embraced by forest reserve No. 21,907, notified 22nd November, 1894. The soil on the pine timbered land within the forest reserve is red sandy loam with clay sub-soil. Southward of the reserve the soil becomes clayey and stiffer in character, and the pine gradually gives place to yarran and white box, with undergrowth of buddah and warriah-bush. The soil on the boree and belar land is crab-hole, stiff black and red clay.

5. There is not any natural water, save a temporary supply in gilgai holes. The ground is suitable for tanks. The average annual rainfall is about 20 inches.

6. Touching cost of improvements, I estimate the first cost of ringbarking and scrubbing over the whole area would be about 1s. 6d. an acre. A second expenditure of 6d. per acre would be necessary at the expiration of about three years from completion of first operation, and subsequent cost of keeping land free from suckers and scrub may be estimated at 1½d. per acre.

7. I estimate the carrying capacity of the land, in its present condition and during average seasons, at 4 acres to a sheep, and the improved capability at 1½ acres per sheep.

8. Assuming 1s. per sheep to be a fair yearly agistment rate, the grazing rental value of the land would be 4d. per acre. Rabbits are numerous, and wild dogs are destructive and troublesome, and general traffic, including passage of travelling stock, from end to end of the area, sensibly lessens the value of the land to a pastoral tenant. To what extent these drawbacks to profitable occupation are to be considered as affecting rental value is a debatable matter. Travelling stock reserve 17,085 is now but little used by travelling stock.

9. There are no improvements upon the land, save the run boundary fencing at either end (old drop fencing on eastern boundary and rabbit-proof fencing on southern boundary) and upon the boundaries common to portions 1 and 2, parish of Bena.

10. The pine timber upon forest reserve 21,907 should not be interfered with, save, perhaps, to cull out superfluous and worthless timber. This reservation is readily accessible, being traversed by a main thoroughfare, and inasmuch as much indiscriminate cutting is carried out upon such convenient and remote reserves, it does not appear advisable to thin out the trees to suitable distances apart, as regards growth, until circumstances warrant sufficient supervision over the standing timber.

11. It appears very inadvisable to separate by way of lease the high, dry land embraced by the travelling stock reserve from the adjoining low-lying flooded area covered by Cowal Lake. The high ground affords a refuge in time of flood, and the different classes of country can be most conveniently and profitably occupied together. A refuge reserve, No. 6, has been provided at the northern end of the lake; but I do not think that the available area of high ground is at all commensurate with the extent of flooded country. The improvement and development of the land applied for under scrub lease conditions would, no doubt, be of public benefit, but I cannot advise any action tending towards a separate lease, and am of opinion that the application should be refused.

12. The land was inspected on the 2nd instant, and this service, together with travelling, occupied one day; preparation of report, heliograph, &c., and office work, occupied a day.

A. MAITLAND.

No. 6.

Office Memorandum.

Proposed Scrub Lease, Moonbi or Bogandillon Pastoral Holding, county Gipps, parishes Bena, Nerang Cowal, and Manna.—Part of travelling stock reserve 17,085 and forest reserve 21,907.

Local Land Board Office, Forbes, 25 October, 1898.

An application by Arthur Bobart Hope for a scrub lease, in the form shown by red edging on attached plan, will be considered by the Land Board at Condobolin on a date to be fixed.

Objections, if any, may be lodged with the Chairman, at Forbes, by Saturday, 12th November, 1898.

ROBERT McDONALD.

Chairman, Local Land Board
(per T.W.W.)

No. 7.

Office Memorandum.

Exhibit "B."—R. McD., Chairman, 29/11/98.

Proposed Scrub Lease, Moonbi or Bogandillon Pastoral Holding, applied for by Arthur Bobart Hope.

Department of Lands, District Survey Office, Forbes, 25 October, 1898.

For the reasons given by Mr. Licensed Surveyor Maitland, it appears to be undesirable to grant a scrub lease of the land to the south of the line "A B," on plan marked "X," but the remainder, as indicated by red hatching, and embracing about 790 acres, might, in my opinion, be granted for a term of twenty-one years, at a rental of ¾d. per acre per annum (£2 per section), and subject to the following conditions:—

1st. Straight box and white or Lachlan pine trees, 6 inches or over in diameter at 3 feet from the ground, not to be interfered with. White or Lachlan pine, 2 inches or over in diameter at 3 feet from the ground, to be left at intervals of 20 feet apart where growing; the best or most promising saplings to be selected for preservation; also wilga, currajong, and berrigan or rosewood, except to whip or lop the branches for stock-feeding purposes.

2nd. That a firebelt, 2 chains wide, shall be left untouched round each boundary of the lease.

3rd. That all trees and saplings, not exempted in the foregoing paragraphs, shall be destroyed by ringbarking or otherwise, and all non-edible scrubs be thoroughly eradicated; that quondong, cherry, emu, currant, currawong, and warriah-bush shall not be destroyed (except for stock-feeding purposes); blue or golden wattle to be destroyed, or otherwise, at the lessee's option.

4th. That the lessee shall, within three months from the date of granting the scrub lease, commence to operate on the land as previously prescribed, and shall, within one year from that date, treat not less than one-half of the whole area, and shall during the next year treat the remaining half, in accordance with conditions 1 to 3. Land once operated upon to be afterwards kept clear of suckers and undergrowth during the remainder of the lease.

5th.

5th. That if fire be used for the destruction of the thinnings, sufficient precautions must be taken to prevent damage to the standing trees.

6th. That all persons duly authorised shall have full power to enter upon the land at any time during the currency of the lease for the purpose of cutting and removing timber without interference by the lessee.

7th. That stock travelling, pursuant to the provisions of the Diseases in Sheep Act (41 Victoria 19), or any Act amending the same, shall have the right to depasture on any part of the proposed scrub lease.

8th. That within three months of the granting of the scrub lease steps be taken towards destroying the rabbits, wallabies, and other noxious animals on the land as though it were within a declared rabbit-infested district.

9th. That any land required for mining or any other public purpose may be withdrawn from the lease without compensation, except for the lessee's interest in the improvements on the land so withdrawn.

The conditions suggested for thinning out the timber are very much less stringent than those advocated by the Forest Branch, which, in my opinion, are not adapted to cases in which the work is undertaken by individuals, inasmuch as there would be little or no return in the way of grass for the expenditure incurred.

The costs incurred in this office to date are as follow:—Mr. Maitland's inspection and report, £5 5s.; in District Survey Office, including my own time, £1 5s.; total, £6 10s.

ARTHUR SHARP,
District Surveyor.

Notice and heliograph exhibited at Forbes, 25/10/98. Notice and heliograph to Crown Land Agent, Condobolin, 25/10/98. Advertisement to *Lachlander*, 25/10/98; published, 29/10/98. Advertisement to Government Printer, 25/10/98; published, 29/10/98. Letter to Under Secretary for Mines, 25/10/98, as to travelling stock reserve. No. 8.

Mr. Inspector Postlethwaite to The Chairman, Local Land Board, Forbes.

Sir, Condobolin, 5 November, 1898.

With reference to your instructions of the 25th October last, I have the honor to inform you that I am well acquainted with the country referred to, and that on the 3rd instant I went through the whole length *en route* from Lake Cowal to Condobolin, thus refreshing my memory.

The timber on the area of 2,300 acres, parishes of Bena, Nerang Cowal, and Manna, county of Gipps, about half of which is on forest reserve 21,907, consists of pine, box, gum, belah, and wilga, most of the west being heavily timbered; that on the east and part of the south open country, with patches of timber and scrub.

I see no objection to the granting of the lease; on the contrary, I consider that if the timber be judiciously thinned, it would be of benefit to the growth of the timber remaining, and in the interest of forest conservancy.

I venture to suggest that the following conditions be imposed on the lessee:—

All straight pine to be thinned out to 8 feet apart, but that none over 3 inches in diameter at 3 feet from the ground be interfered with.

All box or gum suitable for splitting or fencing to be preserved, and no wilga or warriah-bush to be destroyed.

The whole work to be done under Government supervision.

I have, &c.,
JOHN G. POSTLETHWAITE.

Caption to Deposition of Witnesses.

New South Wales, }
to wit. }

The examination of Adam Maitland, of Condobolin, in the Colony of New South Wales, licensed surveyor; and Arthur Bobart Hope, of Bogandillon, in the said Colony.

WHEREAS it hath come before the Board, whether the application for a scrub lease of Crown lands in the parishes of Manna, Nerang Cowal, and Bena, county of Gipps, Land District of Condobolin, by Arthur Bobart Hope, should be recommended or otherwise; and it hath been found necessary to investigate the said matter on oath, the depositions of the several witnesses are appended hereto.

Condobolin Court, 29 November, 1898.

Mr. Cheeseman (agent) for Applicant.

Mr. Sharp (District Surveyor) for Crown.

[Enclosure.]

THIS deponent, being duly sworn, maketh oath and saith as follows:—*To Mr. Sharp*: My name is Adam Maitland; I am a licensed surveyor, in the Land District of Condobolin; I inspected the land in question on 2nd September last, and prepared a report [*Exhibit A, and plan marked Exhibit X*], which I now produce; there would be no objection to granting a scrub lease of the land shown by red hatching on plan X; I did not go into the Lake Cowal, but there are patches of gum and box seedlings along the lake; I do not think a flood would kill them, as the water would be too shallow where they are growing.

To Mr. Cheeseman: If the applicant obtains a lease of the part of the lake within the Moonbi holding, there would be no objection to the granting of the lease in question; I think the part within the lake should be improved and kept in order.

Sworn before us, at the Court-house, Condobolin, }
this 29th November, 1898,—

A. MAITLAND.

ROBERT McDONALD, Chairman.
THOMAS F. MOONEY, } Members.
D. H. TASKER, }

This

This deponent, being duly sworn, maketh oath and saith as follows:—*To Mr. Cheeseman*: My name is Arthur Bobart Hope; I made the application for the scrub lease in question; I have heard the surveyor's evidence as to granting a scrub lease of the southern part of the area applied for and including the part within the lake; I would have included the latter part if I thought of it; I have known the lake since 1879, which is now very thickly timbered; when first I knew it it was comparatively open country; it is yearly deteriorating; the water that at times comes into the lake does not kill the timber; I now wish to amend my application to include the part of the lake within Moonbi holding; the whole of this is covered more or less with seedlings and saplings and other timber.

Sworn before us at the Court-house, Condobolin,
this 29th November, 1898,—

A. B. HOPE.

Decision of Local Land Board, Condobolin.

Crown Lands Act of 1884—(Part II, Section 14, Sub-section 4).

Decision of Local Land Board.

New South Wales, }
to wit. } Arthur Bobart Hope.

WHEREAS on the 29th day of November, 1898, it became a matter for investigation before us as to an application, No. 98-6, by Arthur Bobart Hope, for a scrub lease of part of travelling stock reserve 17,085, parishes of Bena, Nerang Cowal, and Manna, county of Gipps; and having taken evidence and inquired into the said matter, we adjourn the case to a future Board meeting, at the request of applicant, and with the concurrence of the District Surveyor. It is stated that an amended application will be made, which it is expected will remove the objections stated by Mr. Licensed-Surveyor Maitland in regard to the area at present applied for.

Given under our hands, at the Court-house, at Condobolin, this 29th day of November, 1898,—

ROBERT McDONALD, Chairman.
THOMAS F. MOONEY, } Members.
D. H. TASKER, }

No. 11.

Messrs. Harrison, Jones, and Devlin to The Under Secretary for Lands.

Dear Sir, Sydney, 5 December, 1898.

At the request of Mr. A. B. Hope, Manna, Wamboyne, near Forbes, we beg to hand you, enclosed herewith, documents in connection with an amended application for scrub lease being made by him, accompanying which is our cheque for £18 to cover the balance of survey fee.

Mr. Hope, writing us on the matter, mentions that the application has the approval of the District Surveyor.

Yours &c.,
HARRISON, JONES, AND DEVLIN (LIMITED).
(G. R. JONES, Managing Director.)

Cheque £18, herewith.—F.B.S., J.R., 7th December, 1898.

The sum of £18 was credited this day as a supplementary provisional fee in connection with the attached amended application for a scrub lease.—S.C. (for U.S.) The Under Secretary for Lands, B.C., Treasury, 8th December, 1898.

[Enclosure.]

Sir,

I have the honor to transmit herewith an application by Mr. A. B. Hope for a scrub lease of about 12,000 acres of land in the parishes of Nerang Cowal and Bena, county of Gipps, Land District of Condobolin. Mr. Hope wishes this application to be substituted for one made by him dated February, 1898, and numbered 98-6, as it embraces the same land as that application, in addition to other lands adjoining. The deposit and provisional survey fee having already been paid with application No. 98-6, an additional sum of £18 to cover balance of survey fee required for the amended application has been paid to the Colonial Treasurer.

I beg respectfully to request that this application may be referred to the Local Land Board at Forbes for report.

The Under Secretary for Lands, Sydney.

I have &c.,
F. T. CHEESEMAN.

Form 66.—Crown Lands Acts.

Application for a Scrub Lease.

IN pursuance of the "Crown Lands Act of 1889," I, Arthur Bobart Hope, hereby apply for a scrub lease of the Crown lands hereunder described. I have lodged with the Colonial Treasurer the sum of £18, and a receipt therefor is at the foot hereof.

I am of the age of over 21 years.
Signed this 29th day of November, 1898.

A. B. HOPE,
Manna, Wamboyne, via Forbes.

Description of the Land applied for.

Parishes of Nerang Cowal and Bena, county of Gipps, Land District of Condobolin, in the Central Division, about 12,000 acres, in the position shown by red edging on accompanying lithograph, and embracing the resumed area of Moonbi or Bogandillon pastoral holding shown thereon.

NOTE.—The deposit and provisional survey fee in connection with application No. 98-6 by me having already been paid, as this application is in substitution for that one I am paying an additional survey fee only.—A.B.H.
To the Under Secretary for Lands, Sydney.

RECEIVED, in connection with the above application, a supplementary provisional survey fee of £18.
The Treasury, New South Wales, 8th December, 1898.

S. R. CORKILL
(Pro Treasurer).

Office Memorandum.

Amended Application for a Scrub Lease on the Resumed Area of Moonbi or Bogandillon
Pastoral Holding, No. 542, Central Division.

Department of Lands, 13 December, 1898.

ENCLOSED is an amended application by Arthur Bobart Hope for a scrub lease of about 12,000 acres, situated within the above-mentioned resumed area, together with a receipt for £18 as additional provisional survey fee.

The original application for an area of about 2,300 acres on the resumed area herein referred to was forwarded to the Board for report on the 25th of July last—*vide* Occ. 98-6,680.

Submitted that this amended application be referred to the Board to be dealt with on its merits.
E. C. LANDERS.

R. H. DE Low (for U.S.), 14/12/98. Approved.—J.H.C., 16/12/98. Mr. A. B. Hope, care of Messrs. Harrison, Jones, and Devlin, Limited, Sydney, informed by printed form of reference to Board, 19/12/98. The Chairman, Forbes.—E.L., (for U.S.), B.C., 19/12/98. The District Surveyor for report, and two helios for exhibition and one for Stock Inspector.—T. W. WARD (*pro* Chairman), 28/12/98. Instructions to Licensed Surveyor Maitland for report.—A.S., 19/1/99. Inspector Postlethwaite asked as to any objections as regards forestry, and to report any special conditions.—C.T.H., 25/5/99.

The Lachlander and Condobolin District Recorder.

“Justice to All.”—Friday, January 20, 1899.—Proposed Scrub Lease, Bogandillon Pastoral Holding, County Gipps, Parishes Manna, Nerang Cowal, and Bena, about 12,000 acres—Arthur B. Hope.

Local Land Board Office, Forbes, 14 January, 1899.

PLANS illustrating the application are exhibited at the Crown Lands Office, Forbes and Condobolin, and objections should be lodged with the Chairman at Forbes not later than 8th February, 1899.

ROBERT McDONALD,
Chairman, Local Land Board.

Local Land Board, Wednesday, 21st June, 1899. (Before the Chairman, R. McDonald, Esq., and W. Brooke and J. C. Sharpe, Esquires).—Arthur B. Hope, application for scrub lease of about 12,000 acres at Moonbi and Bogandillon holdings.—Declarations were tendered on behalf of Messrs. Geo. Dunn, Hedley Woods, and Henry Barnes, stating that they would select the land if made available for settlement lease, but were unable to remain in town from Monday to give evidence. After hearing evidence, the Board stated that they were inclined to consider the application favourably, but before giving a decision asked for reports from the Department of Works as to whether there would be any objections to granting a lease for ten or fifteen years, relating to the growth of scrub, subject to special condition that the lease may be wholly or partly cancelled if the land should be required in connection with any scheme for drainage of Lake Cowal, or any public scheme in connection with irrigation, drainage, or water conservation. The case was then postponed.

Condobolin.—Scrub Lease, No. 98-25, Arthur B. Hope, Manna, Wamboyne, Forbes. Moonbi or Bogandillon. Advertisement to *Gazette*, 14/1/99; published, 25/1/99, folio 700. Advertisement to *Lachlander*, 14/1/99; published, 20/1/99. Notice exhibited at Forbes, 14/1/99. Notice and helio to Crown Lands Agent, Condobolin, 14/1/99. Helio to Stock Inspector, 14/1/99. *Gazette* slip to Postmaster, Bena, for public information, 23/1/99. Court at Condobolin, 8th June, 1899; notice, 15/5/99. To A. B. Hope.

No. 14.

The District Surveyor, Forbes, to Mr. Licensed-Surveyor Maitland.

19 January, 1899.

In connection with his report 98-44 of 14th September last, Mr. Licensed-Surveyor Maitland is informed that an application has been received from A. B. Hope for a scrub lease of the area (about 12,500 acres) indicated by red edging on accompanying heliograph, and he is requested to furnish a report as to the character of the country, nature, value, and ownership of improvements (if any), and whether there is any objection in the public interest to granting a scrub lease of this land, either wholly or in part.

If the application is recommended to be granted, Mr. Maitland will be so good as to suggest terms and fair annual rental for the land, taking into account the fact that travelling stock would have a right to depasture over the whole of travelling stock reserve 17,085, that forest reserve 21,907 would be subject to specially stringent conditions as regards thinning out the timber, and that no tenant right would be allowed in ringing and scrubbing improvements.

The scrub lease, if granted, should apparently include the part of travelling stock reserve and reserve for refuge in time of flood No. 6, within Warroo pastoral holding.

ARTHUR SHARP,
District Surveyor.

Report herewith, under letter No. 99-26. The character of the country differs widely from that usually leased under improvement conditions, and the case appears to be an exceptional one. My letter, No. 98-44 of 19th September, deals fully with reserves 17,085 and 21,907, and should accompany the present report.—A. MAITLAND, 8th April, 1899.

No. 15.

Office Memorandum.

Application by Mr. Arthur Bobart Hope, for a Scrub Lease of about 12,000 acres, on the Resumed Area of Moonbi or Bogandillon Pastoral Holding, No. 542, Central Division.

12 February, 1899.

THE above-mentioned application came before the Local Land Board at Forbes, on the 21st June, 1899, and after taking evidence and inquiring into the matter the Board stated that they were disposed to consider this application favourably excepting as regards the portion of land shown by black hatching; but before giving their decision they wish to be furnished with a report by the Department of Public Works as to whether there should be any objection to granting a lease of the subject land for a period of from ten to fifteen years under conditions relating to growth of scrub, and subject to the special condition that the lease may be wholly or partly cancelled if the land should be required in connection with any scheme for the drainage of Lake Cowal or any other public scheme in connection with irrigation, drainage, or water conservation. The Board also wished to be informed whether there was any objection, from the same points of view, to the alienation of the area within the limits of the flooded land (known as Nerang Cowal) or to the leasing of the land for a period of twenty-eight years (but without a condition of resumption) as settlement leases. The papers were therefore referred to the Works Department for that purpose—*vide* Occ. 99-6,417.

The Works Department reported that there was no objection to granting a lease of the land in question for fifteen years—*vide* Occ. 99-8,075.

This case came before the Local Land Board at Forbes again on the 25th September last, and after taking further evidence and inquiry into the matter, and considering the protests lodged against the granting of the scrub lease (Occ. 99-8,122, 8,123, and 8,516), the Board recommend that the application for scrub lease be refused, and that the whole of the deposit lodged by the applicant be refunded to him, and that the land be subdivided in blocks of from 3,000 to 4,000 acres, with one block of 1,560 acres, as shown by black etching on plan [*Exhibit E*], with a view to being offered as improvement leases by public auction or tender under the conditions proposed by the District Surveyor in his report [*Exhibit B*], in so far as they will apply, with the further condition of resumption in connection with any public scheme for irrigation, drainage, or conservation of water; the term of the leases to be fifteen years. The upset rental to be determined after subdivision—*vide* Occ. 99-11,696.

The applicant lodged an appeal against the Board's decision on the several grounds as set out on back of notice of appeal (L.B. 99-7,178).

The Land Appeal Court sustain the appeal, and recommend the Minister to grant the applicant a scrub lease of about 11,240 acres, as shown by red etching on plan marked [*Exhibit E*], the area of 1,560 acres shown by black etching being excluded from the area originally applied for—*vide* Occ. 99-13,603.

The finding or recommendation of the Land Appeal Court is not binding on the Minister, and as the Local Land Board has not recommended that the land applied for as a scrub lease be declared "scrub land," it is not practicable to grant a scrub lease of it.

Submitted for special consideration.

E. C. LANDERS.

Since writing the above a further protest has been presented by Mr. Holman, M.P., against the granting of the scrub lease—*vide* Occ. 99-13,815 herewith.—E.L., 12/2/99. Special.

Submitted. It will perhaps be best to adopt the Board's report to refuse the application for a scrub lease, and thus leave the way open for future consideration of the question of the best means of disposal of the land. As the Board has not recommended the land be declared scrub land, it seems, at present, there is no other course open.—R. H. DE LOW, in charge of Lease Division, 14/2/99.

For approval.—F. H. WILSON, Chief Clerk, 15/2/99.

No. 16.

Mr. Licensed-Surveyor Maitland to The District Surveyor, Forbes.

Exhibit "A."—R. McDonald, Chairman, 19 June, 1899.

Application by Arthur Bobart Hope for a Scrub Lease of about 12,500 acres, parishes of Manna, Nerang Cowal, and Bena, County of Gipps, Condobolin Land District. To me for report, under instructions dated 19th January, 1899.

8 April, 1899.

IN compliance with the instructions quoted above, I have made an inspection of part of the Manna or Bogandillon pastoral holding, No. 542, applied for, under scrub lease conditions, by Arthur Bobart Hope, and have indicated upon the accompanying heliograph the limits of the different classes of country as nearly as the necessary information can be gathered from an inspection. The open forest and thickly timbered country within the lake area, generally merge almost imperceptibly together, and therefore it would be extremely difficult to pourtray with great accuracy the varying density of the timber.

The land in question is situated about 45 miles and 35 miles from the towns of Forbes and Condobolin, respectively, and comprises about 12,500 acres, covered by the following reserves from sale, *viz.*, travelling stock and reserve for refuge in time of flood No. 6, reserve 14,941, water reserve 2,566 travelling stock reserve 17,085, and forest reserve 21,907. A description and report in connection with the two reserves last mentioned has been already furnished by my letter, No. 44, dated 19th September, 1898, and the matter now to be considered is the advisability or otherwise of granting a lease under improvement conditions of the area embraced by water reserve No. 2,566, *viz.*, part of Cowal Lake.

This area, about 8,300 acres, consists of level, low-lying, swampy land, subject to inundation, but available for grazing occupation about five years out of six. The land has been flooded three times within the

the last eighteen years, and after flooding the water takes about a year to drain off and dry up. The land gradually becomes available for stock as the water recedes, but for a considerable time after flooding the greater part of the land produces nothing but weeds.

About sixteen years ago this part of Lake Cowal was all very open country, scattered gum-trees here and there, and a light fringe of box timber around the lake edge. At the present time the 8,300 acres are made up approximately as follows:—2,600 acres very open forest, 3,400 acres fairly open forest with patches of thickly timbered land, and 2,300 acres of dense timber, mostly small trees and saplings. The timber is chiefly stunted gum of no value, patches of box seedlings and saplings, and occasional belars occur near to the banks of the lake.

It is obvious that the land is gradually becoming covered thickly with worthless timber, and that the pastoral value—*i.e.*, the grazing capacity—is steadily decreasing. I am of opinion that an unchecked timber growth would render the lake area comparatively valueless in about ten years' time. The labour and cost of improving the land will increase with delay.

The first operation of ringbarking would cost about 8d. per acre. Subsequent expenditure necessary to keep down suckers and seedlings depends upon the aftergrowth, and I am unable to furnish any information based upon treatment of similar country. I observed that recently ringbarked gum timber, within Lake Cowal, on Warroo holding, was thickly overgrown with suckers.

I estimate the carrying capability of the land, when available, at 3 acres per sheep, and the improved capacity at 1½ acre per sheep. Assuming 1s. as a fair yearly agistment rate per sheep, and deducting a sixth for probable flooded period, the annual rental value of the land would be 3½d. per acre.

The area embraced by travelling stock reserve and reserve for refuge in time of flood No. 6, bounded on the east by portions 48 and 59, parish of Moora Moora (the western boundary lines of these portions and of conditional lease 281 are substantially fenced and form part of the recognised eastern boundary of Manna holding), contains about 1,700 acres, made up as follows:—About 100 acres steep, rocky hill (conglomerate formation); about 1,300 acres low ridges, sloping and level land, red loamy sandy soil, thickly timbered with box, pine, yarran, and bull oak, with patchy scrub of pine, wattle, and buddah; about 50 acres thickly timbered with belar; and about 250 acres open dead boree and plain country. Estimated natural grazing capacity, 4 acres to a sheep.

The pine timber upon this reserve should not be interfered with, save to cull out worthless trees. All other timber, save sound, straight box-trees, might be destroyed, and the scrub and undergrowth cleared away.

Reserve 14,941 consists of plain and open dead boree country, stiff, clayey, crabhole soil, and covers about 200 acres. Estimated carrying capacity 1½ acre per sheep.

It is obvious that under present conditions of tenure the value of the lake area as a State asset is steadily decreasing, and also that the whole area applied for as a scrub lease is being worked and used under great disadvantages, owing to absence of subdivision fences and sufficient water improvements. In view of these circumstances, it appears advisable and necessary to take such action as will at least prevent the gradual depreciation of part of the public estate, and I would suggest two courses, *viz.*, that the application for a scrub lease over the whole area be granted, or that the land be divided into two about equal portions by a line from north to south, and offered under settlement lease conditions.

Viewing the character of the country, and in consideration of the fact that the greater portion of the high dry land adjoining the lake is reserved for preservation of timber, and therefore cannot be thoroughly improved for grazing use, and is infested with rabbits, and that travelling stock have the right to depasture over the whole of travelling stock reserve 17,085, I am in favour of the former proposition, and have to recommend that a scrub lease over the whole area be granted for a term of nine years at an annual rental of 3d. per acre, subject to the following conditions:—

The first operation of scrubbing and ringbarking to be completed within twelve months from date of commencement of lease, unless floods occur, when an extension of time may be granted; and the land to be kept clear of suckers, box and gum seedlings, scrub, and Bathurst burr, until termination of lease.

The timber and undergrowth upon forest reserve No. 6, and forest reserve 21,907, to be thinned and otherwise dealt with, according to directions from Forestry Department.

Reasonable action as regards destruction of rabbits to be taken.

Breach of conditions may entail cancellation of lease, and forfeiture of all improvements effected on the land.

No tenant right to be allowed in ringbarking and scrubbing improvements, save in case of resumption.

Tenant right to be allowed in all other improvements necessary to the beneficial occupation and use of the land.

If required for settlement or any other public purpose, the whole area, or any portion of it, may be resumed from lease after the expiration of three years from commencement of lease, the lessee to receive not less than twelve months notice of the resumption of any area exceeding 6,000 acres.

Six months, notice of resumption of any area exceeding 1,000 acres and less than 6,000 acres, and three months notice of the resumption of any area exceeding 100 acres and less than 1,000 acres.

Areas aggregating 100 acres may be resumed without notice. In event of resumption taking place, the lessee to receive compensation for ringbarking and scrubbing improvements according to the proportion between expired and unexpired periods of lease—*i.e.*, if half lease has expired, the lessee to be entitled to half value; if three-fourths have expired, to one-fourth value.

There are no improvements upon the area save the fencing upon exterior boundaries. The old deadwood fence on eastern boundary within the lake, A to B, is insecure and worthless, and a harbour for rabbits.

The water supply is afforded by tanks upon the adjoining alienated lands.

The exterior boundaries of the proposed lease should follow the broken red lines outside red edging.

The inspection of the land was carried out on 4th instant and occupied a day, and preparation of heliograph, report, &c., occupied a day in office.

Heliograph and instructions herewith.

The annual rainfall is about 20 inches.

A. MAITLAND.

No. 17.

The Chairman, Local Land Board, Forbes, to Mr. Inspector Postlethwaite.

Local Land Board Office, Forbes, 25 May, 1899.

AN application for a scrub lease on the resumed area of Moonbi or Bogandillon pastoral holding, No. 542, Central Division, parish of Nerang Cowal, county of Gipps, Land District of Forbes, has been lodged. You are requested to report objections, if any, to portion of such lease shown on sketch being granted in the interests of forestry.

See sketch on back hereof showing the land referred to, which is in reserve—travelling stock and refuge from flood reserve No. 6.

ROBERT McDONALD,
Chairman.
(per T.W.W.)

You will probably be able to report on this application without a special visit. Please state any special conditions you think should be imposed. The case will probably be heard at the Board meeting, commencing 6th June, 1899.

The District Surveyor, Forbes, to The Chairman, Local Land Board, Forbes.

Exhibit "B."—R. McDonald, Chairman, 19 June, 1899.

Office Memorandum.—Proposed Scrub Lease, Moonbi or Bogandillon Pastoral Holding, applied for by Arthur Bobart Hope.

District Survey Office, Forbes, 29 May, 1899.

SINCE receipt of Mr. Licensed-Surveyor Maitland's report, of 8th ultimo, I have personally inspected a large proportion of the area applied for, and I am of opinion that the best use to which the land can be put, for the next ten years at any rate, would be to lease it under improvement conditions. Although I recognise that there may be a difficulty in declaring the greater part of the lake country to be scrub lands, still I think the wording of the 35th section of the Act of 1899 is sufficiently elastic to admit of it being so declared; and I therefore recommend that the area shown by red etching on plan marked "E," containing about 12,800 acres, be granted as a scrub lease to the applicant for a term of ten years, at an annual rental of 1½d. per acre (£½ per section), and subject to the conditions hereafter mentioned.

I do not think it would be desirable to encourage settlement lessees to take up this land, for the reason that a person having no other country near would probably have to sacrifice his stock every time the lake filled, as the small amount of high ground on each holding would be wholly insufficient to carry the stock for long, especially as in one case travelling stock would have the right to run all over it, and in the other case the land, being a timber reserve, could only be very partially improved.

I quite concur in Mr. Maitland's recommendation as regards including in the proposed scrub lease the small portions of Warroo resumed area.

The conditions which I would recommend to be attached to the scrub lease are as follows:—

1st. That the following trees shall not be interfered with: Straight box and gum trees, 8 inches or over in diameter, and pine-trees 6 inches or over in diameter, at 3 feet from the ground (except on forest reserves 6 and 21,907). Pine-trees between 3 and 6 inches in diameter, unless growing within 20 feet of each other, in which case the best or most promising saplings are to be selected for preservation. On forest reserves 6 and 21,907, the distance to be left between the saplings to be 8 feet instead of 20 feet, also all boree, currajong, wilga, and berrigan or rosewood, except to whip or lop the branches for stock-feeding purposes.

2nd. That firebelts 2 chains wide be left on each side of the main track from Marsden to Condouplin, round each boundary of forest reserve No. 6, and east and west and north and south, at intervals of about 1½ mile through the lease; also, at the lessee's option, 1 chain wide round each boundary of the lease, also small clumps, for shade purposes, at intervals of about a mile apart.

3rd. That all trees and saplings not exempted in the foregoing paragraphs shall be destroyed by ringbarking or otherwise, and all non-edible scrubs thoroughly eradicated; that quandong, cherry, cmu, currant, currawong, and warriah-bushes shall not be destroyed, except for stock-feeding purposes.

4th. That the lessee shall commence to operate on the land as previously prescribed, and shall, within one year from that date, treat not less than one-fourth of the area, and shall, during each succeeding year, treat not less than an additional one-fourth, until the whole area shall have been ringbarked and scrubbed, in accordance with conditions 1 to 3. Land once operated upon to be afterwards kept clear of suckers, seedlings, and undergrowth during the remainder of the term.

5th. That within three months from the granting of the scrub lease, steps be taken towards destroying the rabbits, wallabies, and other noxious animals on the land, and that all reasonable means be subsequently adopted for eradicating these animals.

6th. That any land required for mining, or other public purpose, may be withdrawn at any time, without compensation other than for the lessee's interest in the improvements for the unexpired portion of the lease.

7th. That should the land be required for settlement purposes, the Minister shall have power to resume up to one-half the area of the scrub lease, but such power shall not be exercised during the first six years of the lease; and as compensation for a withdrawal under this condition the lease of the remaining half shall be proportionately extended, but such extended term shall not exceed four years from the termination of the first term of ten years.

8th. Except as provided in condition No. 6, the lessee shall not have tenant right in ringbarking or scrubbing improvements, but shall have tenant right in all other improvements which may be effected with the permission of the Minister or Chairman of the Board.

The costs incurred to date are as follows:—As particularised on L.B. 98-6,945, £6 10s.; my attendance at Land Board meeting, on 29th November, 1898, £2; Mr. Maitland's attendance at same meeting, £7 14s.; Mr. Maitland's further report (L.B. 99-2,371), £5 5s.; District Survey Office, including my own time, £2 2s.; making a total of £23 11s.

ARTHUR SHARP,
District Surveyor.

No. 19.

11

No. 19.

Mr. Inspector Postlethwaite to The Chairman, Local Land Board, Forbes.

Tendered by Mr. Sharp, and admitted by consent.—R. McD., 8 June, 1899.

Sir,

Grenfell, 4 June, 1899.

In reply to your memorandum of the 25th May last *re* the application for a scrub lease on Moonbi or Bogandillon pastoral holding, No. 542, parish of Nerang Cowal, county of Gipps, I have the honor to state that I do not see any objection to the granting of such lease in the interests of forestry.

A portion of this reserve, shown on the sketch herewith returned by blue hatching, was applied for by J. E. Ridley as an additional conditional lease, and is destitute of useful timber, besides being subject to inundation; the north-east corner of the reserve is also flooded at times.

I venture to suggest that the applicant be permitted to ringbark the timber on forest reserve No. 6 under the following conditions:—

1. Only crooked and useless box and gum trees to be destroyed; also, all scrub except edible scrub.
2. Pine above 6 inches in diameter to be left intact; pine from 2 to 6 inches in diameter to be thinned out to distances of 10 feet apart, leaving the best and straightest saplings; pine below 2 inches in diameter to be destroyed.

Girth measurement to be taken at 3 feet from the ground; thinnings and clearings to be stacked and burnt when dry. If deemed advisable by the Land Board, also an overseer be appointed to superintend the work, or the Forester be instructed to visit the locality while the work is in progress, the applicant giving three weeks' notice to the Department before operations commence.

I have, &c.,
JOHN G. POSTLETHWAITE,
Conditional Purchase Inspector.

Condobolin, 8 June, 1899.

HOPE's scrub lease mostly in Forbes district. Board here no jurisdiction. Case to be set down at Forbes, nineteenth instant. District Surveyor attending to change of venue.

ROBERT McDONALD,
Chairman, Local Land Board.

No. 22.

Decision of Local Land Board, Condobolin.

Crown Lands Act of 1884—(Part II, Section 14, Sub-section 4).

Decision of Local Land Board.

New South Wales, }
to wit. } Arthur Bobart Hope.

WHEREAS on the 8th day of June, 1899, it became a matter for investigation before us as to an application, No. 98-25, by Arthur Bobart Hope for a scrub lease of about 12,000 acres on Moonbi or Bogandillon pastoral holding; and having taken evidence and inquired into the said matter, we find that this Board has not jurisdiction in respect of the larger portion of the subject land, five-sixths of the area in question being within the Land District of Forbes, and we have not been authorised by the Minister to deal with the matter, as required by the 5th section of the Crown Lands Act of 1889.

Given under our hands, at the Court-house, at Condobolin, this 8th day of June, 1899,—

ROBERT McDONALD, Chairman.
THOMAS F. MOONEY, } Members.
D. H. TASKER, }

Special authority asked for for the Forbes Board to deal with the question by memo. of this date to U.S. for Lands.—A.S., 8/6/99.

[Enclosure.]

THIS deponent, on oath, states:—*To Mr. Sharp.* My name is Richard Montgomery Galloway; I am Crown Lands Agent at Condobolin; a plan of "Bogandillon" scrub lease was exhibited at my office since 18th January last till to-day; I have not heard of any objections to granting the lease.

Sworn before us, at Condobolin, this 8th June, 1899,—

Chairman,
Members.

R. M. GALLOWAY.

No. 23.

No. 23.

The District Surveyor, Forbes, to The Under Secretary for Lands.

Office Memorandum.—Application by A. B. Hope for Scrub Lease 98-25 on Moonbi or Bogandillon Pastoral Holding, County of Gipps.

Condobolin, 8 June, 1899.

THE above application covers land which is partly in Condobolin District, but chiefly in Forbes, and it is recommended that the Land Board at Forbes be directed to deal with the whole matter.

The applicant concurs in this recommendation.

As the case is set down for hearing on 19th instant, it is requested that the matter receive early attention.

ARTHUR SHARP,
District Surveyor.

Submitted, that the Land Board at Forbes be authorised to deal with the case under the provisions of section 5 of the Crown Lands Act of 1889.—E. C. LANDERS, 14/6/99. For approval.—F. H. WILSON, Chief Clerk, 14/6/99. Approved.—J. C., 15/6/99. Forwarded to the Chairman at Forbes to be noted by the District Surveyor.—E. L. (for U.S.), B. C. 15/6/99. The Chairman, Forbes. Forbes Court, 19/6/99. Adjourned till Wednesday, 21st instant.—ROBERT McDONALD, Chairman; WM. BROOKE, J. G. M. SHARPE, Members, Forbes, 19/6/99.

No. 24.

Caption to Deposition of Witnesses.

Crown Lands Act of 1884—(Part II, Section 14, Sub-section 1).

Caption to Deposition of Witnesses.

New South Wales, }
to wit. }

THE examination of Adam Maitland, of Condobolin, in the Colony of New South Wales, Licensed Surveyor; Arthur Sharp, of Forbes, District Surveyor; Hugh McDougall, of Warroo; Thomas McCormack, of Lake Cowal; Thomas Edward Ridley, of Lake Cowal; Phillip Jones, of Warroo; and Arthur Bobart Hope, of Lake Cowal, in the said Colony.

WHEREAS it hath come before the Board, whether the application for a scrub lease of Crown lands on Moonbi or Bogandillon pastoral holding (No. 98-6) by Arthur Bobart Hope should be recommended or otherwise; and it hath been found necessary to investigate the said matter on oath, the depositions of the several witnesses are appended hereto.

Mr. A. Sharp (District Surveyor), for the Crown.

Mr. Cheeseman (Agent), for Applicant.

Mr. Chas. St. Baker (Agent), for Thomas McCormack, an objector to the granting of the lease.

[Enclosures.]

THIS deponent on oath states:—*To Mr. Sharp:* My name is Adam Maitland; I am a Licensed Surveyor in the Land District of Condobolin; I inspected the area applied for as scrub lease by Arthur Bobart Hope on Bogandillon pastoral holding, and prepared a report (*Exhibit "A"*), and plan (*Exhibit "E"*). [*Report here read over.*]

To Board: The previous report read over before the Board on 29th November last deals with details affecting travelling stock reserve 17,085; I know of no adjoining holders who would be affected by the scheme; Ridley has his full area; one of the Fitzgeralds has a full area; the other could increase his holding on Lake Cowal; I have considered the settlers on Warroo, and all other settlers, when preparing my report; I have heard of no objections to the lease; I have lived in the district twenty years; I report from my experience and what I have observed from inspection; the country is obviously deteriorating; I think if the area applied for were divided into 6,000 acres of settlement lease, I would not recommend a settlement lessee to take it; I do not think the land would be selected unless a person could get a considerable area of dry land.

To Mr. Cheeseman: The part with the thinnest timber is the part of the land that remains longer under water and would not be suitable for residential occupation; I consider the whole area should be granted as a scrub lease, as the thinly timbered land would be useless except for grazing; I do not actually know the dates when the lake was flooded; the land when improved by ringing and scrubbing would be more valuable than at present.

To Board: To drain the lake would entail an enormous expense; I have taken the levels; I think the lake will be drained eventually, but in a great many years; I do not think the draining of any of the lakes is a matter for consideration at present; I do not think the draining of the lakes will come within nine years—the period I recommend for the lease; the lake fills mainly from the river; this overflow would have to be stopped if the lake was drained.

To Board: I furnish supplementary report, marked "AA" [*Report here read over*]; when I said at Condobolin I knew of no adjoining holders who would be affected by the scheme, I was under the impression McCormack could not increase his holding; Nerang Cowal covers the only outlet to the lake, and in view of the probable draining of the lake I think it not desirable to sell any land commanding the outlet from the lake; I know of a great many selectors who spent more than 8d. an acre in putting land in order in the first place; McCormack is in a position to increase his holding southerly.

A. MAITLAND.

THIS deponent on oath states:—*To Board:* My name is Arthur Sharp; I am District Surveyor for the Land Board District of Forbes; I have considered the application in question, and prepared a report on same which I now produce, (*Exhibit "B"*) [*Report here read over*]; I also tender a report by Mr. Forester J. G. Postlethwaite dealing with the forest reserves included within the proposed scrub lease; I know the country personally; I was over it six weeks ago; I have inquired from Messrs. Stewart and Donkin, of Lake Cowal, and they consider to drain the lake would not pay; I think a condition with reference to resumption, if a drainage scheme is proposed, should be inserted with the same compensation; the whole of land, excepting lands to the east of lines "A," "B," "C," which are in Warroo occupation license, is held under preferential occupation license of Moonbi or Bogandillon; none of the land is held under lease, and is all reserved from sale; I concur in forester's reports, except the limitation as regards pine; I think 3 inches would be sufficient; I produce report by Mr. Forester J. G. Postlethwaite on forest reserve 21,907; the other report refers to forest reserve 6; I agree with report by forester on forest reserve 21,907; there is an exchange suggested on the north, but it would not be beneficial to the Crown to carry it out; I know of no other exchange which would tend to dispose of the land under settlement conditions; I think there would be no objection to altering the distance; pine is to be left apart from 8 feet to 10 feet, providing the Forestry Department agree to it.

To Board: I think the gum timber can be killed effectively by ringing, if properly attended to; I have seen similar country killed on Lake Cowal.

To Mr. Cheeseman: It suckers very freely and wants thorough attention; taking into consideration that timber and travelling stock reserve on the land, I see no objection to a lease being granted for fifteen years if the Crown have the same power of resumption as suggested in my report.

To Board: I have submitted a proposal to cut out 1,560 acres from the proposed lease to allow Thomas McCormack an opportunity of increasing his holding if permitted to do so; the 1,560 acres is shown by black hatching on plan (*Exhibit "E"*); the cutting out of this area will not make any practical difference in the rental; the land applied for as a scrub lease is very difficult to dispose of; it could not be judiciously subdivided for settlement lease purposes, for the reasons given in my report.

Mr. Cheeseman: As regards fifteen years term, I mean there would be no objection provided there is no extension granted in case of resumption of part of the lease.

ARTHUR SHARP.

ROBERT McDONALD, Chairman.
WM. BROOKE, } Members.
J. G. M. SHARPE, }

This deponent on oath states:—*To Mr. Cheeseman*: My name is Hugh McDougall; I am manager, "Warroo" pastoral holding for past fourteen years; I know the subject land, and have known it nineteen years; I recently inspected it; about half of the whole area is covered with sapling scrub and lignum; the saplings vary from 1 inch upwards; the gum saplings require to be grubbed; the large timber is thick in places; the timber towards the centre of the lake is the most open; this part of the land could not be worked by itself, and could not be worked in wet seasons to advantage, excepting by the adjoining holders; from 1890 to 1895 stock would have to be kept off the lake part, owing to flood-waters; the lake can remain under water for a number of years; I consider there is a risk in leasing the subject area; if the lake were drained it would fill from the big lake, which is filled from the river; no drain could take it out without allowing the water to spread over the lake; to improve the land in the first place would cost 2½d. an acre; there would be an after expense of about 3d. an acre after two years; I have had a little experience in gum scrub, and find it the worst timber to get rid of; this gum is softer than the river gum, and will not last; it suckers badly, and requires to be very carefully rung to kill it; with water, in an ordinary season, in its present condition, when the lake is dry, 4 acres would carry one sheep—that is, over whole area—and if fully improved 2 acres would carry a sheep; to make it carry this number it would require to be subdivided, and require three tanks of about 3,000 to 4,000 yards; it would be necessary to rabbit-net the boundaries; since I have known the gum country the saplings have greatly increased; if not attended to they will continue to increase; I consider the land should, in the public interest, be let as a scrub lease; after the lake dries it takes grass probably twelve months to grow on it; taking into consideration the expenditure required, I think twenty-one years a fair term of lease, and not less than fifteen years; in giving this estimate, I take into consideration that the lake might be full of water for four or five years; in the centre of the lake there is a considerable area with very little timber on it; I would not say there was 1,000 acres; that is the part most subject to inundation.

Sworn before us, at Forbes, this }
19th June, 1899,—

ROBERT McDONALD, Chairman.

J. G. M. SHARPE, }

HUGH McDOUGALL.

This deponent on oath states:—*To Board*: My name is Thomas McCormack; I am a selector, residing on bank of Lake Cowal since 1871; I want to obtain my full area; after hearing the proposal of District Surveyor, and the consent of Mr. Hope to cut out the area (1,560 acres) as shown on plan by black hatching, I withdraw all my objection to the granting of the lease.

To Mr. Sharpe: There has been an increase of scrub since I came to the lake; it is deteriorating; I do not think the land could be judiciously cut up for settlement; a person would want the high land entirely to himself to do any good.

To Board: I think Mr. Maitland's report a fair description of the area.

THOMAS McCORMACK.

Sworn before us, at Forbes, this }
19th June, 1899,—

ROBERT McDONALD, Chairman.
WM. BROOKE, } Members.
J. G. M. SHARPE, }

This deponent on oath states:—*To Board*: My name is John Edward Ridley; I am a selector in parishes of Nerang Cowal and Manna; I hold 2,560 acres—a full area; the only personal objection I have is that, my block being of bad shape, I might exchange some of my land for land in question; there is very little scrub on the lake; the lake itself is good grazing land; there is a portion of land on north-east of the lake with dense timber and saplings on it; it may be 10 chains wide; there is also a belt towards the road, pretty dense; there are 1,000 acres with hardly a tree on it; I am talking of Nerang Cowal on Manna only; I think the land would make two very good settlement leases; I have been in the locality fourteen years, and have known the land to be under water about eighteen months during that period; if the high ground could not be improved, but used only to live on, the land would make two good settlement leases; in flood-time the seasons would be good, and land could be rented to put stock on; Hedley Woods told me he would select the land as settlement lease; I have seen more fat sheep go off this run than any other I have seen; the last four years were the only dry ones since I have been in the locality.

To Mr. Cheeseman: I remember asking you when the case would be taken at Condobolin Board; I purchased a map, showing the land in question; I did not buy it with a view to opposing this application; I bought it because I was going to apply for an exchange; I had an idea of opposing the application before I bought the map; I could not appear at Condobolin, owing to other business; I spoke to Mr. Mooney at Condobolin, and used the map, and showed him the position of the proposed lease; I was about ten minutes in conversation with Mr. Mooney over the scrub lease; I asked him what was the best thing to do with the lake; he asked me if it was flooded; he said he thought it would make two good settlement leases; I never asked him whether I should remain in and oppose the application; I do not remember whether he did or not; I cannot say; I have not seen him or heard from him in any way since, nor have any of my friends that I know of; before I spoke to Mr. Mooney I intended to oppose the lease being granted; he never made any remark that I know of that it would not be necessary for me to remain in town to oppose the lease; Dunn, who is here to oppose the lease, is my brother-in-law; Barns, another objector, works for me; Woods is a contractor, working with Mr. Johnson, near Condobolin; I suggested to Dunn to come and oppose the application; I asked Barns was he coming to oppose the application; he said, "Yes"; Mr. McCormack came to see me about the opposition; I was away; I saw him after I said the lake should not be granted as a scrub lease; I have seen fat sheep go off Cadow; I get notice of fat sheep going off, as I adjoin Cadow; I will not swear there are more fat sheep go off Lake Cowal than Warroo; a forest reserve adjoins my land; if I gave up my high land, the Government might carry on the exchange, as the high land I would give up might induce settlers to select the lake; I have suggested the exchange at Survey Office, Forbes, and was informed that I would have to wait for the Surveyor's report to see whether it would be favourably considered; there are about 1,000 acres available on the north of my holding; there is, as far as I could judge, about half of the lake open country; this would not be of any use for settlement without the high land; a new settler would require some of the high land if he selected; I do not think he would select without some of it.

Sworn before us, at Forbes, this }

ROBERT McDONALD, Chairman.
WM. BROOKE, } Members.
J. G. M. SHARPE, }

JOHN EDWARD RIDLEY.

This

This deponent on oath states:—*To Mr. Cheeseman*: My name is Phillip Jones; I am assistant manager, Cadow Station, and have been for fifteen years; I know the subject land and have known it over twenty years; the land in parts is very thickly timbered; portions are not so thick; at one time the southern part was very open country; the timber has grown and is increasing; the timber is thickest on the north and round fringe of the lake; this would be available for use first after the lake is drying up; the fringe of the lake is the most capable of improvement; about 3,000 acres of the area is covered with scrub—that is, the area in the lake; about half of the area applied for is scrubby; I have not had experience in this class of country with the gum, but if the gum is similar to the gum on hilly country (and it seems similar) it would be very difficult to get rid of; I would class the area applied for as scrub lands; the lignum is not killed by the water, but remains and increases; to ringbark, clear the scrub and lignum, would cost, in first place, not less than 1s. 3d., and there would be an after cost; water supply of two tanks of not less than 4,000 to 5,000 yards would be required on the land; the land would derive a benefit from ringing, about eighteen months or two years after the ringing; after flooding, if the water remains on the land, it takes some months for the grass to grow; the whole area in an ordinary season would carry one sheep to 5 acres; fully improved, 2 acres would carry a sheep; I consider a person would require a lease of fifteen years to recoup his outlay—that is, to thoroughly improve the lease; it could be more profitably worked by an adjoining holder than any outsider; in wet seasons, in flood-time, stock would have to be removed from the lease.

To Board: I have seen considerable periods elapse with no water on the lease; I have seen about 5 feet of water on the land; I have seen the whole area flooded; in 1870, I think, the water remained on it for two or three years; it takes a long time for the grass to grow if water remains any length of time on the land.

To Mr. Cheeseman: The only part of the land not scrubby is in the centre of the lake, and on the extreme south; this could not be settled on profitably without the land around it. PHILIP JONES.

this 21st June, 1899,—

ROBERT McDONALD, Chairman.
WM. BROOKE, }
J. G. M. SHARPE, } Members.

This deponent on oath states:—*To Mr. Cheeseman*: My name is Arthur Bobart Hope; I am applicant for land in question; I have heard Mr. Maitland's evidence and seen his plan, which I consider it thoroughly describes the country; I have known the lake since 1879; I was away six years since that date; since 1890 the lake had water in it for about three and a half years; It filled in June, 1891, and was first dry in January, 1893; it filled again in August, 1893, and was dry again at beginning of 1895; I know these dates are correct; the principal growth, when the lake dries, is a weed in summer months; there is no grass; sheep do well on the weed, but it makes the mutton taste; they would have to go into another paddock before selling them as fats; after drying up it takes over two years for the lake to thoroughly seed; the sheep would have to be put in other paddocks to allow it to do so; there was no weed on it this summer, but some the summer before; the weed when growing tall burrs the belly wool of the sheep; it reduces the weight of a 7 lb. fleece fully 1½ lb.; nothing less than a fifteen years' lease would allow me to thoroughly improve the land and recoup my outlay; it will require to be subdivided into three paddocks and tanks put down; I will accept the lease with a condition that the Minister shall have power to resume the land for drainage purposes without compensation, except for the actual cost of improvements; I do not hold any leasehold area. A. B. HOPE.

New South Wales, }
to wit. } Arthur Bobart Hope.

WHEREAS on the 19th and 21st days of June, 1899, it became a matter for investigation before us to consider an application, No. 98-25, by Arthur Bobart Hope, for a scrub lease of about 12,000 acres, on Moonbi or Bogandillon pastoral holding; and having taken evidence and inquired into the said matter, we are disposed to consider this application favourably, excepting as regards the portion of land shown by black hatching; but before giving our decision, we wish to be furnished with a report by the Department of Public Works as to whether there would be any objection to granting a lease of the subject land for a period of from ten to fifteen years under conditions relating to the growth of scrub (which is increasing under the present form of tenure), also subject to the special condition that the lease may be wholly or partly cancelled if the land should be required in connection with any scheme for the drainage of Lake Cowal, or any other public scheme in connection with irrigation, drainage, or water conservation. We also wish to be informed whether there is any objection, from the same points of view, to the alienation of the area within the limits of the flooded land (known as Nerang Cowal), or to the leasing of the land for a period of twenty-eight years (but without a condition of resumption) as settlement leases.

Given under our hands, at the Court-house at Forbes, this 21st day of June, 1899,—

ROBERT McDONALD, Chairman.
WM. BROOKE,
J. G. M. SHARPE, } Members.

Scrub lease application 98-25, Condobolin and Forbes, Arthur Bobart Hope.—Forwarded for reference to the Department of Public Works, as mentioned in the Board's finding.—ROBERT McDONALD, Chairman, Local Land Board (*per* T. W. WARD), 27/6/99. The Under-Secretary for Lands. May be referred to the Department of Public Works for report, as recommended by the Board.—E. C. LANDERS, 1/7/99. R.H.D. (for U.S.), 3/7/99. Approved.—J.H.Y., 4/7/99. The Under-Secretary, Department of Public Works.—F. H. WILSON (for U.S.), B.C., 5/7/99. Mr. McKinney for report.—J.P., 11/7/99. Report herewith.—H.G.McK., 17/7/99. Engineer-in-Chief for Public Works.

No. 29.

The Principal Assistant Engineer, Water Conservation Branch, to The Engineer-in-Chief for Public Works.

Proposed Leasing of Land in Nerang Lake.

Department of Public Works, Sydney, 15 July, 1899.

WITH reference to the accompanying papers, I beg to state that early in 1895 I was called on to report on the question of draining Nerang Lake and Lake Cowal. It is necessary to explain that the part of the lake north and north-west of the neck, near the centre of which reserve 1,325 is situated, was termed Nerang Lake, while the much larger area to the south and south east of this neck was termed Lake Cowal. These names are here retained for convenience.

In the report which I submitted at the time mentioned, it was stated that Nerang Lake, which comprises all the low-lying part of the land applied for and now under consideration, could be drained at an outlay equivalent to about 4s. 8d. per acre; but it was explained that the effect of the drains, if made, would not prevent the inundation of the land in a flood like that of 1891. The draining would carry off the flood-water much more quickly than it would disappear under existing conditions, and the land would, therefore, be increased in value for grazing purposes; but, as the risk of inundation would remain, it is unlikely that agriculture would be attempted, even if facilities for carriage were considerably improved.

By the construction of extensive embankments it would be possible to prevent inundation; but the cost of this, added to the cost of drainage works, would entail more expense than present conditions warrant.

While

While the question of drainage of Nerang Lake and the greater part of Lake Cowal is a matter of no great difficulty, I do not think it would be remunerative at present, and I do not think there is any objection to granting a lease of the land in question for fifteen years.

H. G. McKINNEY,
Principal Assistant Engineer, Water Conservation Branch.

I concur.—C.D., Engineer-in-chief for Public Works, 25/7/99. Under Secretary Public Works. Submitted for approval; to so inform Department of Lands.—R.R.P.H., Under Secretary Public Works and Commissioner for Roads. Approved.—C.A.L., 25/7/99. The Under Secretary for Lands.—J.P. (for U.S.) 25/7/99. These papers may now be returned to the Board to deal with the application for scrub lease.—E. C. LANDERS, 31/7/99. Yes.—F. H. WILSON, Chief Clerk, 2/8/99. The Chairman, Forbes.—E.L. (for U.S.) B.C., 2/8/99. For next Board at Forbes; the papers of scrub lease 98-6 are also enclosed.

No. 30.

W. A. Ewars, Esq., to W. A. Holman, Esq., M.P.

(Presented by W. A. Holman, Esq., M.P.)

Dear Holman,

"Belle Forcst," Condobolin, 26 July, 1899.

Your very welcome letter I found awaiting me on my return from Temora (last Monday), where I had been to see mother off on a three month's visit to Adelaide. The roads by the way were indescribably bad, but I daresay you know what they are from recent painful experience on the same track. I am writing now on a matter that will very shortly be (if it has not already been) brought under your notice: I refer to the application by Messrs. Hope (of Manna) for a "scrub lease" of a part of their leasehold area. Like most applications for scrub leases (and exchanges) it has been kept very quiet, and until the last few weeks the people in this district were quite unaware of it, and so were unprepared to effectively oppose it at the recent sitting of the Forbes Land Board.

The position now, is this: the Board has reported favourably on the proposal, but before finally deciding have asked for reports from the Works Department *re* the possibility of the land in question being at any future time required for either irrigation or drainage in connection with Lake Cowal. This, too, in face of the fact that three witnesses (who, being in Forbes at the time, casually heard of the application) declared their intention of selecting on the land if thrown open for settlement lease, or otherwise. Now, as to the land referred to—I can speak from experience, as I have on several occasions been over it—a considerable part of it is occupied by what is known as "The Little Lake" (Cowal), which, except in very good seasons, is dry and unsurpassed grazing country. I have never seen water on it yet, but understand from surrounding settlers that, when full, the maximum depth is under 3 feet—the greater part being much shallower. The question of flooding, however is deemed not worth consideration by people who have long been settled in the locality. Around the edge of the "lake" is a narrow fringe of small timber, and as far as I can make out this seems to be the sole ground whereon the applicants base their claim to a "scrub lease." The surrounding (or rather adjoining) higher country, included in the application, is mainly open plains—simply magnificent pastoral country—and there is absolutely no apparent reason why the lease should be granted. The country in question is, on the whole, superior to that on Cadow (a few miles further down the creek) thrown open on 13th instant, and for which there were over thirty applications.

There cannot be even a shadow of a doubt that if this land were thrown open it would be eagerly rushed by applicants. There would, I have reason to believe, be at least five times more applicants than there would be blocks available.

Some capital has been made by the applicant (for the scrub lease) out of the fact that much of the country is low-lying and subject to inundation; but this might easily be altogether overcome by throwing in a portion of the half-mile stock route with each block, as was done with the blocks on Cadow above referred to.

The feeling locally is very strong in regard to the matter, and a petition has been prepared and I think now sent in.

If this scrub lease is granted, the lands administration will "stink in the nostrils" of the people locally, as indeed, through local "exchanges" it is already beginning to do. The mere fact that a pastoral lessee has the "front" to apply for a "scrub lease" of such country shows what a farce the administration has become. It is greatly to our advantage (as a district) to have the country taken up by *bona fide* settlers; and the district has already suffered irreparable damage by the permanent alienation of a large tract of first class country (on Euglo) by exchange. We hope, therefore, that the present application for a scrub lease on Manna will be ultimately refused, or otherwise the land in question will be locked up for perhaps twenty-eight years, and that would I consider be (*prima facie*) a scandalous violation of the rights of the people. I may add that I am writing by request, but should have done so in any case, in the hope that it may serve to strengthen your hands.

I have, &c.,

W. A. EWARS.

This protest against the granting of a scrub lease to Mr. A. B. Hope for land situated within Moonbi or Bogandillon pastoral holding No. 542, Central Division, may be referred to the Board for consideration when dealing with the case referred to, and writer informed.—E. C. LANDERS, 8/8/99.

Forward; to be placed with papers.—H. CURRY, 9/8/99. Mr. W. A. Ewars (care of W. A. Holman, Esq., M.P., Parliament House, Sydney) informed, 10/8/99. The Chairman, Forbes.—E.L. (for U.S.) B.C., 10/8/99. For Board at Forbes, 22/9/99. Notice to A. B. Hope, and to petitioners, 5/9/99. To W. A. Ewars. Letter to W. A. Holman, Esq., M.P., 5/9/99. Letter to A. B. Hope, Manna, Wamboyne, *re* petition, 13/9/99. Letter to A. B. Hope, care of Mr. F. T. Cheeseman, 13/9/99. We reserve our decision, but intend to announce it on Monday next, the 25th instant, at noon.—ROBERT McDONALD, Chairman; WM. BROOKE, J. G. M. SHARPE, Members. Court-house, Forbes, 22nd September, 1899.

No. 31.

Mr. J. E. Ridley to W. A. Holman, Esq., M.P.

Dear Sir,

Bena, Wamboyne, via Warroo.

Enclosed please find petition against granting scrub lease to Arthur Bobart Hope. As you will see, it is numerously signed, and by residents of the locality, and should have much weight with the Minister.

Trusting that you will do the best you can in our interests.

I have, &c.,

J. E. RIDLEY.

P.S.—That the land is first-class carrying land, and will carry one sheep to the acre. There is a break of 5 miles of metal, and the chances are that the lake will never be under water again.—J.E.R.

This is a petition signed by the residents of the parishes of Nerang Cowal and Bena, county of Gipps, against the granting of a scrub lease on Moonbi or Bogandillon pastoral holding No. 542, Central Division. This petition may be forwarded to the Board for consideration when dealing with the case, and the writers informed.—E. C. LANDERS, 31/7/99.

For approval.—F. H. WILSON, Chief Clerk, 2/8/99. Approved.—J.H.Y., 3/8/99. W. A. Holman, Esq., M.P., informed, 4/8/99. The Chairman, Forbes.—E.L. (for U.S.), B.C., 4/8/99. For the information of the District Surveyor.—T. W. WARD, (pro Chairman), 9/9/99.

[Enclosure.]

Sir,

Presented by W. A. Holman, Esq., M.P.

We, the undersigned residents, and others who reside in the parishes of Nerang Cowal and Bena, county of Gipps, object to the granting of the scrub lease applied for by Arthur Bobart Hope, being No. 98-25, 29/11/98, pastoral holdings Moonbi and Bogandillon, area about 12,000 acres, for the following reasons, viz. :—

1. That if the above land was thrown open for settlement lease there would be numerous applicants for it.
2. That the land is thoroughly suitable for settlement, and it would be a distinct benefit to the district and Colony if it was thrown open, instead of being locked up in a scrub lease; and the land under settlement leases would be thoroughly improved, instead of being only partially improved under a scrub lease.
3. That the area in the lake proper would, at the outside, not cost more than eight pence per acre to ring and scrub, and the balance would not cost more than fifteen pence per acre, if allowed to be rung and scrubbed.
4. That the land is first-class fattening country; and it is generally known that, for some years past, very many fat sheep have been raised upon it and sent away to market.
5. That for the last fourteen years the land in question has been a resumed area, but under reserve, or it would have been taken up long ago.

Caption to Deposition of Witnesses.

New South Wales, }
to wit. }

THE examination of George Haunsom Ridley, of Bena, in the Colony of New South Wales, farmer and grazier; Hedley Reeves Woods, of Manna; George Dunn, of Warroo; Henry George Barnes, of Wamboyne; William Ridley, junior, of Warroo; William Alfred Ewers, of Bena; John Edward Ridley, of Nerang Cowal; Arthur Sharp, of Forbes.

WHEREAS it hath come before the Board whether the application for a scrub lease of Crown lands on Moonbi or Bogandillon pastoral holding in the Land Districts of Forbes and Condobolin (No. 98-6) by Arthur Bopart Hope, should be recommended or otherwise; also a petition by Joseph Bishop and others in opposition to the said application, hath been referred to us; and it hath been found necessary to investigate the said matter on oath, the depositions of the several witnesses are appended hereto.

Mr. Sharp (District Surveyor) for Crown.

Mr. Cheeseman (Agent) for applicant.

Mr. Halloran (Agent) for objectors.

[Enclosure.]

This deponent, on oath, states:—To Mr. Halloran: My name is George Haunsom Ridley; I am a farmer and grazier at Bena; I know the subject land, and have known it about fourteen years; I consider the lake proper is not scrub land; there is no scrub on it.

To Board: I know the country shown on plan (Exhibit "E").

To Mr. Halloran: I know the area of the scrub lease—12,000 acres; in the lake proper there is 8,000 acres which is not scrub lands; there are about 400 acres plain also; the whole area could be suitably subdivided into three or four settlement

settlement lease blocks; I hold, at present, about 2,700 acres; I selected 618 acres, and purchased balance privately; I am married, and have a family of four; I have not sufficient area to maintain my home; the seasons have been bad during the last four or five years; I have had a great loss; I require more land to make a profit; the land in question has been locked up for about fourteen years to my knowledge; if any of it had been thrown open I would have selected it, if qualified; the reason I did not urge the District Surveyor to throw open the land was because I did not think any notice would be taken of my application; I was present at a ballot for land at Condobolin; I believe there were forty-four persons balloted for six settlement lease blocks; I do not know how many balloted for certain; I balloted, and saw a great many persons balloting; I knew five of the blocks balloted for on that occasion; some of the land in lake proper is as good as the land balloted, and some not as good; to ring the lake proper would cost 7d. or 8d. an acre; I have seen that part flooded a couple of times during the last fourteen years; there was a large flood about eight or nine years ago; the other flood dribbled out a little, but soon went back; I do not think there is a good catch in the lake proper except in flood time; a good catch could be got on the adjoining higher lands; a part of the road from Forbes to Condobolin is metalled, and it prevents high floods from flowing to the land in question; it prevents the main body; not a quarter as much water reaches the land as before the road was there; when the road is completed flood water will never reach the land, except through small culverts; I think about 2½d. or 2¾d. a fair rental for the land, provided the scrub was allowed to be cut out on forest reserve and travelling stock reserve; this rental refers to the land as a settlement lease; I considered the lessee having tenant-right in estimating the rental; I came here in my own and public interest; I am very anxious to secure more land; the land in question has a good carrying capacity; it will carry about two sheep to 3 acres in its natural state; this refers to the lake portion itself; if improved, one sheep to an acre; I would select some of the land as it stands now, when it is available, at a rental of 2½d. or 2¾d. an acre; I have no unfriendly feeling towards applicant for the lease; I have come 65 miles here at expense and personal inconvenience; I think if the land is locked for a number of years it will be against the public interest; I think if the land is thrown open for closer settlement it will be more in public interest than if granted as a scrub lease.

To Mr. Cheeseman: I bought the land; I did not select from a P. Cain about six years ago; I did not give a big price; it has been dear in the long run; I remember giving evidence in Euglo exchange case at Condobolin; if a man gets 2,000 acres of good open country on Euglo Creek it is enough to make a living off; the land I bought from Cain is about 1½ to 2 miles from the creek; the 618 acres I selected is on the creek; if thrown open, the land in question should be in three or four blocks; the lake country is very good; if I got a settlement lease of 3,000 acres of the land in question I would have 5,700 acres altogether; I often thought the lake should be thrown open; I never made the slightest inquiry about the throwing open of the lake before, as I thought no notice would be taken of me; I could not say who first asked me to sign the petition, nor where I was when I signed it; I do not think anyone asked me to sign it; I cannot say if my brother asked me; Kennedy's block is not as good as the land in question; there may be some dead myall on Kennedy's block; about 1,200 acres is very good country, the rest is very scrubby; the flood I saw on the lake was there about eighteen months; I cannot say if the lake has been flooded for four years during the last ten years; I held 2,500 acres good country, which I sold at a profit; I would still hold my present holding if I got a settlement lease of the subject land; I would want it for my family; some of the road referred to has stopped flood waters; I cannot say if there has been a flood since 1894; I cannot say how high Gatenby's embankments are; I do not know they stop the flood waters; there has been no flood during the last fourteen years that would go over the road referred to, in my opinion; about 1,000 acres in forest reserve is nearly useless for carrying sheep in its natural state; the other part of the area would carry one sheep to 3 acres.

To Board: Under the present condition of tenure the lake part of the land is deteriorating; I think it desirable something should be done with it; I have heard Mr. Maitland's description of lake part of the land; I think he has given too much for area of scrubby country; on the outside of the lake part the country is deteriorating; there is a large area of open country in the lake; a person could not take the land except as a settlement lease; I do not consider the lands scrub lands; if it cannot be disposed of as settlement leases, I think the land should be put up for tender.

To Mr. Halloran: I would suggest subdivision of the land into 3,000 acres, and put up for tender; one person may get the four blocks.

To Board: I did not consider that if put up in one block I would tender for it; I would sooner see it put up in three blocks.

To Mr. Cheeseman: My eldest child is about 8 years of age.

G. H. RIDLEY.

ROBERT McDONALD, Chairman.
WM. BROOKE, }
J. G. M. SHARPE, } Members.

This deponent, on oath, states:—*To Mr. Halloran:* My name is Hedley Reeves Woods; I am a contractor at Manna; I know subject lands; I am desirous of getting a settlement lease in the locality; I have means to work a settlement lease; I have balloted for land on more than one occasion in Central Division; I do not hold any land whatever; I would like about 3,000 acres; the land in question is well suited for settlement, and I would apply for some of it, if open; I have been eleven years in the locality, and wish a farm in that locality; I have balloted twice for land (at Condobolin); some of the land I balloted for on Cadow is better than the subject land.

To Mr. Cheeseman: I am not married; I first balloted for land in Condobolin in 1897 or 1896—for land on Bogan-dillon or Moonbi.

HEDLEY REEVES WOODS.

ROBERT McDONALD, Chairman.
WM. BROOKE, }
J. G. M. SHARPE, } Members.

This deponent, on oath, states:—*To Mr. Halloran:* My name is George Dunn; I am a farmer, at Warroo; I know the subject land, and am desirous of getting a settlement lease within that area; I have not sufficient land; I hold 2,560 acres at present; I have not recently made a profit; I am married, and have a family of two sons of 22 and 20 years of age; they also require land; I recently balloted for land at Condobolin, also my son; we were unsuccessful; I came here on my own and public interest to give evidence; I have no unfriendly feeling towards present applicant.

To Mr. Cheeseman: A person would want 3,000 or 4,000 acres of the land in question to make a living off; the 2,560 acres I hold at present is very good land, but not sufficient; it is not such good carrying country as the land in question; that refers to lake portion of the latter; part of the forest reserve on the latter, as it stands, is useless for carrying sheep; the whole of the land in question is, on the average, better carrying country than my 2,560 acres.
Sworn before us, at Forbes, this }
22nd September, 1899,— }

GEORGE DUNN.

ROBERT McDONALD, Chairman.
WM. BROOKE, }
J. G. M. SHARPE, } Members.

This deponent, on oath, states:—*To Mr. Halloran:* My name is Henry George Barns; I am a labourer at Wamboyn; I know the subject land, which I consider is well suited for general settlement; I am desirous of getting a block of it; if available, I would apply for it; I have the means to work a farm; I am not married; I came to give evidence in my own and public interest; I do not hold any land whatever at present.

To Mr. Cheeseman: I have been working about three years in the locality, and about five or six years about there, for Mr. Ridley most of the time; at shearing time is the only time I have not worked for him; I have balloted for land on three different times; I recently balloted at Condobolin.

This

This deponent, on oath, states:—*To Mr. Halloran*: My name is William Ridley, junior; I am a grazier and farmer at Warroo; I know the subject land, which is well suited for general settlement; I hold 2,560 acres at present, which I selected; I have seven children; the eldest is 20 years old; I have not sufficient area; I have lost lately over my holding; I have had to work outside lately to keep things going; I have been tank-sinking; to make a profit I would require about 3,000 acres more land; I balloted recently for land at Condobolin; the land I hold is more liable to flood than the land in question; the water runs through my land into the big lake; owing to the road made, a flood on the land in question, I think, is a thing of the past; I came to give evidence in my own and public interest; I have no unfriendly feeling towards the applicant.

To Board: In a very high flood I have had only 100 acres out of water, and in a medium one 500 acres out of water.

To Mr. Cheeseman: It is about five years since the road was started; the more that is metalled the less flood I will get; the part where the biggest break-over occurs has been done about three years; there has not been a flood to test it yet; Gatenby's embankment stopped most of the big flood in 1891; I do not think my present holding will ever be flooded when the road referred to is completed.

W. RIDLEY, JUNIOR.

This deponent, on oath, states:—*To Mr. Halloran*: My name is William Alfred Ewars; I am a farmer at Bena; I know the subject land; I am President, Bena and Wamboyne Selectors' Association; had I known of the present application I would have taken action before in the matter; I consider the land well suited for settlement; my object in giving evidence is entirely in public interest; I know the land is required for settlement; I have come 70 miles; the land is at present well suited for closer settlement; I have no animosity against applicant; I have thoroughly examined the land, and consider the granting of the lease would be against the public interest.

To Board: I hold a settlement lease of 3,840 acres; I think if the land in question cannot be thrown open as settlement leases, it should be put up to tender as improvement leases.

To Mr. Cheeseman: I was not deputed officially by Committee to represent them to-day; they were not aware, as a body, in time of the application; that is why they did not take official action, and the petition was sufficient to show that the Committee as a body were against the application.

W. A. EWARS.

This deponent, on oath, states:—*To Mr. Halloran*: My name is John Edward Ridley; I am a farmer near Nerang Cowal; I know the subject land, which is well suited for settlement; I do not hold sufficient land to keep myself and family; I hold 2,560 acres; during the last few years I have made no profit; if competent, I will apply for the land in question, if thrown open; I am giving evidence in my own and the public interest, as I consider the land should be thrown open for settlement; I had to leave my shearing to give evidence to-day.

To Board: I am certain the land would be eagerly applied for.

To Mr. Halloran: The applicant and I are the best of friends.

To Mr. Cheeseman: I see petition produced, drawn up by Mr. St. Baker for myself, Dunn, William Ridley, and, I believe, George Ridley was there; I cannot say if Mr. Baker was spoken to about petition at last hearing; when I spoke to him about it, George Ridley, William Ridley, and, I think, Dunn, were there; I asked all petitioners to sign; about half of the signers balloted for land at Condobolin a few weeks ago; I have not made any profit at all of my present holding; I have a family of five, the eldest is ten years old; one year I lost 1,500 sheep during the drought; most people on the land have lost during the last four years; Cadow has not lost; they have had good grass.

JOHN EDWARD RIDLEY.

This deponent on oath states:—*To Board*: My name is Arthur Sharp; I am District Surveyor for the Land District of Forbes; I have heard the objections given to-day; the difficulty that appears to exist may be got over by allowing Mr. Hope to take half the area applied for as a scrub lease and allow the other half to be put up for improvement lease in about two blocks; if the land were made available for settlement it would be selected; I understand the Works Department oppose throwing the land open for settlement leases which cannot be granted for less than twenty-eight years; the land on the south has not been applied for as a scrub lease; I think it is a leasehold.

To Mr. Halloran: I think Mr. Hope is entitled to consideration as he has moved first in the matter; it will cost Mr. Hope a good deal, also the Department; I have not considered which half should be given to Mr. Hope; I think he should be allowed the southern half.

to wit. }

Arthur Bobart Hope.

WHEREAS on the 22nd and 25th days of September, 1899, it became a matter for investigation before us to further consider an application (98-25) by Arthur Bobart Hope for a scrub lease of about 12,000 acres on Moonbi or Bogandillon pastoral holding, Land Districts of Forbes and Condobolin; also a petition by Joseph Bishop, Alexander Kennedy and others in opposition to the application; and having taken evidence and inquired into the said matter, we find that when the case was before us on the last occasion it was understood that it was closed so far as the taking of further evidence; and we stated that we were disposed to favourably consider the application for the scrub lease, as it was clear from the evidence that it would not be expedient, owing to the very large proportion of flooded land, to recommend any form of settlement which would necessitate residence and continuous occupancy such as are required in connection with settlement leases or holdings composed of original conditional purchases with their associated conditional leases.

leases. Homestead leases were considered to be out of the question, owing to the area being limited to 1,280 acres. Moreover, we recognised that it would prove dangerous to dispose of the large portion of Lake Cowal in question, under any form of tenure excepting one in which the term could be limited to fifteen years at the utmost, and with a condition giving the Crown the right of resumption in connection with any public scheme for drainage, water conservation, or irrigation. Under the settlement lease provisions, the term would not be less than twenty-eight years; and under the conditional purchase and associated conditional lease provisions the land would be practically alienated from the Crown; and apparently it would not be legal to introduce a condition of resumption as indicated to attach to holdings of these classes. Holding these views we desired the opinion of the Department of Public Works on the question of leasing the lake portion. That opinion is now before us, and is to the effect that there would be no objection to granting a lease of the land in question for a period of fifteen years (L.B. 99-5,405).

Since the case was last before the Board, a petition (L.B. 99-5,474), signed by a large number of persons, protesting against the granting of the scrub lease has been presented, and this petition has been forwarded to us by the Secretary for Lands for consideration when dealing with the case. Mr. Cheeseman, agent for the applicant, objected to the Board reopening the case, on the grounds that the inquiry had been duly advertised, that the time for receiving objections had long since passed, and that the applicant could not be expected at that late stage to meet objectors who had come forward after the case had virtually closed. We fully recognise the very unsatisfactory position in which the applicant is placed; but believing that we are acting Ministerially in this matter we consider that we are bound to take into consideration even now the petition which the Minister has forwarded specifically for our consideration. Had the petition come before us in any other way at this stage we would not have noticed it. Reviewing the whole case, however, in the light of the evidence offered at the inquiry on the 19th and 21st of June last, and at the present further inquiry; we report that our opinion has not been altered in the slightest as regards the advisableness of offering the land under some other form of tenure, or as regards the inexpediency of disposing of the land as settlement leases or original conditional purchases and their associated conditional leases; although we are bound to state our conviction that if the land were offered as settlement leases in areas of about 3,000 acres each it would be eagerly applied for. The question then presented is, whether the application for a scrub lease by Arthur B. Hope should be granted? Mr. Hope's application is the only one which has been received; the necessary inspection and inquiry have been made at his expense; he has shown the unwisdom of the present form of tenure, and the possibilities of improvement under a secure tenure for a fair term of years; but it is now obvious that (although in our opinion a very large number of the petitioners are not specially interested in the question) there are other persons who are willing to take up the land under similar conditions to those proposed by Mr. Hope, and we cannot satisfy ourselves, in view of the evidence given at the later inquiry, that Mr. Hope should, in virtue of the priority of his application, receive a monopoly of this large extent of country; and we therefore recommend that the application for the scrub lease be refused, and that the land be subdivided in blocks of from 3,000 to 4,000 acres, with one block of 1,560 acres as shown by black hatching on plan (*Exhibit "E"*), with a view to being offered as improvement leases by public auction or tender, under the conditions proposed by the District Surveyor in his report (*Exhibit "B"*), in so far as they will apply, with the further condition of resumption in connection with any public scheme for irrigation, drainage, or conservation of water. The term of the leases to be fifteen years; the upset rental to be determined after subdivision.

We strongly recommend that the whole of the deposit lodged by Mr. Hope be refunded to him.

Given under our hands, at the Court-house at Forbes, this 25th day of September, 1899,—

ROBERT McDONALD, Chairman.
WM. BROOKE,
J. G. M. SHARPE, } Members.

No. 34.

Notice of Appeal to Land Appeal Court from Decision of Local Land Board.

Form 3, Crown Lands Acts.

Notice of Appeal to Land Appeal Court from Decision of Local Land Board.

New South Wales, }
to wit. } Land Court No. 5,619.

WHEREAS on the 25th day of September, 1899, a certain matter, wherein an application by Arthur Bobart Hope for a scrub lease of certain land within the parishes of Nerang Cowal and Bena, Central Division, Land Districts of Condobolin and Forbes, scrub lease No. 98-6, came before the Local Land Board at Forbes, in New South Wales, for decision; and whereas the said Board decided that—

[*A copy of the Board's Decision is printed as No. 33.*]

And whereas I am aggrieved by such decision, and desire to appeal therefrom to the Land Appeal Court; these are, therefore, to give you notice that I appeal as aforesaid, and that I deposit the sum of £5 as security for the costs of such appeal. The grounds of such appeal are set out on the back hereof. I desire that this appeal shall be heard in Sydney.

Signed this 25th day of September, 1899.

A. B. HOPE,

Care of F. T. Cheeseman, Land Agent, Forbes.

To the Chairman, Local Land Board, Forbes.

RECEIVED the sum of £5 referred to above.

ROBERT McDONALD,
Chairman, Local Board.
(*per* T. W. WARD).

Forbes, 4th October, 1899.

GROUND'S OF APPEAL.

1. That the decision of the Board is against the evidence, and the weight of evidence.
2. That the Board was in error in admitting further evidence after the evidence for the applicant, the Crown, and the objectors had closed at the first hearing, and after they had reserved their decision on the understanding that the evidence had closed.

3. That I was not prepared with further evidence which I might have produced had I been aware that such would be admitted after the case had closed on the final date of hearing.

4. That the Board was in error in overruling the objections of my agent to the reopening of the case after they had openly announced that it had closed.

5. That the Board was in error in believing they were acting Ministerially in the matter, as they cannot do so, and must sit and determine cases set before them as laid down by section 14 of the Crown Lands Act of 1884, and in accordance with the provisions of the Crown Lands Acts.

6. That if matters of this kind could be dealt with Ministerially there would be no necessity of sending them to the Land Board for hearing, as the Minister for Lands might deal with them in person in Sydney.

7. That the Board was in error in taking into consideration a petition prepared and signed after the case had virtually closed, and only awaited a reply from the Department of Public Works as to the length of tenure to be granted.

8. That the Board was in error in making any recommendation as to the form of tenure this land should be leased in, as that question was not before them, and as they they were dealing with a matter between the Crown and myself, and should simply have granted or refused my application.

9. That the decision of the Board is erroneous in point of law and in fact.

No. 35.

The Chairman, Local Land Board, Forbes, to The Registrar, Land Appeal Court.

Department of Lands, Local Land Board Office,
Forbes, 5 October, 1899.

Sir,

I have the honor to forward you herewith notice of appeal against the Board's finding of 25th ultimo in respect of A. B. Hope's scrub lease application 98-25, Forbes and Condobolin.

The papers of the case are also enclosed.

See previous

I have, &c,
ROBERT McDONALD,
Chairman
(per T. W. WARD).

No. 36.

The Registrar, Land Appeal Court, to The Inspector General of Police.

Sir,

Land Appeal Court, Darlinghurst, 6 October, 1899.

I have the honor to forward herewith one notice, in duplicate, of intention to hold a sitting of the Land Appeal Court, at Sydney, on the 24th October, and to ask that you will be good enough to cause speedy service of the same, in the manner prescribed by Rule 28 of Rules of Land Appeal Court, a copy of which is printed overleaf for your information.

I have, &c.,
J. T. KEATING,
Registrar.

RULE 28 OF THE LAND APPEAL COURT.

THE Registrar shall give not less than fourteen days' notice to all parties concerned of the sittings of the Land Appeal Court at which any appeal or reference will be heard. Such notice shall be in the form or to the effect of Form 3, and be prepared by the Registrar in duplicate, and the service thereof upon any party other than the Minister shall be effected in the following manner:—One copy of such notice shall be served by delivering the same to the person intended to be served, or by delivering the same to some person apparently of the age of fourteen years or upwards, at the usual or last known place of abode or business of the person intended to be served. The person serving such notice shall indorse on the duplicate copy of the same a statement of the manner in which the service has been effected, or, if service has not been effected, of the attempts made to effect service, and such statements shall be verified by statutory declaration, to be also indorsed on the said duplicate copy of the said notice, and the said copy so indorsed as aforesaid shall be forthwith transmitted to the Registrar for production before the Land Appeal Court.

No. 37.

W. A. Ewars, Esq., to W. A. Holman, Esq., M.P.

[Presented by W. A. Holman, Esq., M.P.]

Dear Sir,

Bena, 3 November, 1899.

You will see by attached report of Land Appeal Court proceedings, that the appeal of Mr. A. B. Hope against the recommendation of the Forbes Land Board is sustained. It was intended by our local Farmers and Settlers Association to take further action if this possibility eventuated; but unfortunately, owing to yesterday's extreme heat and the prevalence of influenza, there was not a quorum present at the meeting, consequently I am not able to write officially in this instance. However, those of us present yesterday talked over the matter informally, and as there was danger in delay, I was advised to write at once and acquaint you with the position.

I think I need not go into detail, as the correspondence that has already passed between our Association and yourself relative to this matter must have given you a fair idea of how things stand.

In brief, the Forbes Land Board, on 21st June last, recommended that Mr. Hope's application for a scrub lease be granted, subject to the receipt of a report from the Works Department. The attention of local residents, and others in want of land, being thus drawn to the fact that such land might be made available for selection, and was in danger of again becoming locked up for a considerable term, a largely-signed petition was sent to the Minister for Lands, protesting against the Board's recommendation being given effect to. As a result, the Minister directed the Board to further consider the matter, and petitioners were notified. Despite the fact that it was the busiest season of the year (shearing), seven witnesses attended, at very great personal inconvenience, and gave evidence in support of their contention that the land in question was urgently required for settlement, and would be taken up immediately on being made available. Of these witnesses, six testified as to their willingness to take up the land as settlement leases, at 3d. per acre (the other witness already had a lease), and stated their intention of doing so if offered the opportunity; and also that there were several other intending selectors, at present without land, and hitherto unsuccessful at previous ballots. The Board expressed itself as satisfied, from the evidence, that the land would be immediately taken up by selectors, the reference in the published decision (25th September) to this aspect of the matter being as follows:—"We are bound to state our conviction that if the land were offered as settlement leases in areas of about 3,000 acres each, it would be eagerly applied for." Again: "It is now obvious that there are other persons who are willing to take up the land under similar conditions to those proposed by Mr. Hope; and we cannot satisfy ourselves, in view of the evidence given at the later inquiry, that Mr. Hope should, in virtue of the priority of his application, receive a monopoly of this large extent of country." The Board, therefore, recommended (25th September) "That the application for the scrub lease be refused, and that the land be subdivided in blocks of from 3,000 to 4,000 acres, with a view of being offered as improvement leases by public auction or tender, the term of the lease to be fifteen years." From this decision Mr. Hope successfully appealed to the Land Appeal Court (as per report attached), the Court recommending that the Minister grant him a scrub lease of the area for fifteen years, at 1½d. per acre. Thus we see, on the one hand—(a) the interests of practically the entire population of this district, represented by the local branch of the "Farmers and Settlers Association" (of some thirty selectors), (b) the interests and rights of many hitherto unsuccessful applicants (who have testified their willingness to give exactly double the rent that Mr. Hope is asked), and (c) obviously the best interests of the State,—subordinated to, on the other hand, the interests of one man—already a large landholder; and this not in the Transvaal (as one might suppose), but in a British Colony, where justice is supposed to be supreme. Although the Land Appeal Court has given this decision, we notice that it is in the form of a recommendation to the Minister. This would imply that the Minister still has the power to refuse the application for scrub lease; indeed, as you will notice, the possibility of a refusal is clearly recognised. We, therefore, in the interests of common justice and fair play, ask you to lay the whole facts (which have already been communicated to you by the Association) before the Minister, and use your influence to have the land made available for *bona-fide* settlement, and on such terms as will be mutually advantageous to the intending settlers and to the State.

In the improbable event of the Minister declining to accede to our reasonable wishes, we ask that you will move the adjournment of the House on the matter, so that the whole details of the transaction may be made public. We are aware that such a request should not lightly be made, but we feel convinced that, if ever there was justification for such action, there is such in connection with this case.

I have, &c.,

W. A. EWARS.

[Enclosure.]

[Enclosure.]

Reserved Decisions.

ARTHUR B. HOPE appealed against the recommendation of the Local Land Board in respect of his scrub lease application No. 98-25, Forbes and Condobolin. The Court recommended the Minister to grant to the appellant applicant, A. B. Hope, a scrub lease of the area, containing approximately 11,240 acres, an area of 1,560 acres being excluded from the area originally applied for, the term of lease to be for fifteen years, and the annual rental to be 1½d. per acre. The other conditions on such lease to be as set forth in the report of Mr. District-Surveyor Sharp, dated May 29. The appeal was sustained, but the deposit survey fee should be retained, unless the Minister refused to grant the lease. The grounds of appeal having raised for decision the question whether the Board were entitled to reopen the subject inquiry after it had been closed, they being under the impression that their function in connection with the application was Ministerial only, the Court was of opinion that the Board were not entitled to reopen such inquiry, and that their functions under the provisions of the Crown Lands Acts dealing with scrub leases being, as to procedure, judicial.

No. 38.

The Registrar, Land Appeal Court, to The Under Secretary for Lands.

Scrub Lease No. 98-25, Forbes and Condobolin.

In the Land Appeal Court of New South Wales.

5 December, 1899.

APPEAL to be heard at sitting to be held at Sydney, commencing on the 24th day of October, 1899. Appeal by Arthur B. Hope. Nature of Appeal: Against recommendation of the Local Land Board in respect of his scrub lease application No. 98-25, Forbes and Condobolin.

Notice of intention to hold Court gazetted, 30/9/99.

Notice issued to undermentioned parties, and date of issue: A. B. Hope, by letter, 6/10/99.

Objectors, 6/10/99. Service effected, 9th October, 1899.

Names and addresses of any other parties interested: Arthur B. Hope, care of F. T. Cheeseman, Forbes; objectors, care of W. A. Ewars, Condobolin.

Now forwarded to the Minister for Lands, the case having been brought before the Land Appeal Court, sitting as above, on the 25th day of October, 1899.

Decision given at Sydney, 23rd November, 1899.

A copy of the order of the Court will be found below.

J. T. KEATING,
Registrar.

COPY OF ORDER OF COURT.

THE Court recommends the Minister to grant the applicant, Arthur B. Hope, a scrub lease of the area, containing approximately 11,240 acres, as shown by red etching on plan marked Exhibit "E" with papers; the area of 1,560 acres shown by black hatching being excluded from the area originally applied for.

Judgment.—The term of lease to be fifteen (15) years, and the annual rent to be 1½d. per acre. All other conditions to be as set forth in the report of Mr. District-Surveyor Sharp, dated 29th May, 1899. Appeal sustained. Deposit to be refunded. Copy of full text of judgment enclosed.

[Enclosure.]

Reserved Decision, given Sydney, 23rd November, 1899, No. 5,619, re Hope.

THE Court recommends the Minister to grant to the applicant, Arthur Bobart Hope, a scrub lease of the area containing approximately 11,240 acres, as shown by red etching on plan (Exhibit "E") with papers, the area of 1,560 acres shown by black hatching being excluded from the area originally applied for.

The term of lease to be for fifteen years. The annual rental to be 1½d. per acre.

The other conditions in such lease to be as set forth in the report of Mr. District-Surveyor Sharp, dated 29th May, 1899.

The appeal is therefore sustained, but the deposit and survey fee should be retained unless the Minister refuses to grant the lease.

The grounds of appeal having raised for decision the question whether the Board were entitled to reopen the subject inquiry after it had been closed, they being under the impression that their function in connection with the application was Ministerial only, the Court is of opinion that the Board were not entitled to reopen such inquiry, their functions under the provisions of the Crown Lands Acts dealing with scrub leases being, as to procedure, judicial. Deposit to be refunded.

No. 39.

Office Memorandum.

Application by A. B. Hope, for Scrub Lease, of about 12,000 acres on Moonbi or Bogandillon Holding; chiefly within Lake Cowal.

20 December, 1899.

ON 5th May, 1898, A. B. Hope, lodged an application for a scrub lease of 2,300 acres, included in travelling stock reserve 17,085 (not including Lake Cowal). On 29th November, 1898, the Board proceeded to consider the application, but after taking certain evidence, adjourned the case to permit the applicant to lodge an amended application.

On 12th December, 1898, A. B. Hope lodged the amended application for about 12,000 acres, including a large part of Lake Cowal. This is the application at present under consideration. The District Surveyor, Forbes, then referred the matter to Mr. Licensed-Surveyor Maitland for report.

The following extracts contain the more important features of his report of 8th April, 1899:—"I have indicated upon the accompanying heliograph the limits of the different classes of country as nearly as the necessary information can be gathered from an inspection. The open forest and thickly timbered country within the lake area generally, merge almost imperceptibly together, and, therefore it would be extremely difficult to portray with great accuracy the varying density of the timber. The land in question is situated about 45 miles and 35 miles from the towns of Forbes and Condobolin, respectively, and comprise about 12,500 acres, covered by the following reserves from sale, viz.:—Timber reserve, and reserve for refuge from flood No. 6, reserve 14,941, water reserve 2,566, travelling stock reserve 17,085, and forest reserve 21,907.

* * * * *

"The

"The part covered by the lake, about 8,300 acres, consists of level, low-lying swampy land, subject to inundation, but available for grazing occupation about five years out of six. The land has been flooded three times within the last eighteen years, and, after flooding, the water takes about a year to drain off and dry up. The land gradually becomes available for stock as the water recedes, but for a considerable time after flooding the greater part of the land produces nothing but weeds.

"About sixteen years ago this part of Lake Cowal was all very open country, scattered gum-trees here and there, and light fringe of box timber around the lake edge. At the present time, the 8,300 acres are made up approximately as follows:—2,600 acres very open forest, 3,400 acres fairly open forest with patches of thickly timbered land, and 2,300 acres of dense timber, mostly small trees and saplings. The timber is chiefly stunted gum, of no value; patches of box seedlings and saplings and occasional belar occur near to the banks of the lake.

"It is obvious that the land is gradually becoming thickly covered with worthless timber and that the pastoral value—i.e., the carrying capacity—is steadily decreasing. I am of opinion that an unchecked timber growth would render the lake area comparatively valueless in about ten years' time. The labour and cost of improving the land will increase with delay.

"The first operation of ringbarking would cost about 8d. per acre. Subsequent expenditure necessary to keep down suckers and seedlings depends upon the after-growth, and I am unable to furnish any information based upon treatment of similar country. I observed that recently ringbarked gum timber, within Lake Cowal, on Warroo holding, was thickly overgrown with suckers.

"I estimate present carrying capability of the land, where available, at 3 acres per sheep, and the improved capacity at 1½ acre per sheep. Assuming 1s. as a fair yearly agistment rate per sheep, and deducting a sixth for probable flooded period, the annual rental value of the land would be 3d. and one-third of a penny per acre.

"The area embraced by timber reserve, and refuge reserve in time of flood No. 6, bounded on the east by portions 48 and 59, parish of Moora Moora (the western boundary lines of these portions, and of conditional lease 281, are substantially fenced and form part of the recognised eastern boundary of Manna holding) contains about 1,700 acres, made up as follows:—About 1,300 acres low ridges, sloping and level land, red loamy sandy soil, thickly timbered with box, pine, yarran, and bull oak, with patchy scrub of pine, wattle, and buddah; about 50 acres thickly timbered with belar; and about 250 acres open dead boree and plain country. Estimated natural grazing capacity, 4 acres to a sheep.

"The pine timber upon this reserve should not be interfered with, save to cull out worthless trees. All other timber, save straight-sound box-trees, might be destroyed, and the scrub and undergrowth cleared away.

"Reserve 14,941 consists of plain and open dead boree country, stiff clayey crabholey soil, and covers about 200 acres. Estimated carrying capacity, 1½ acre per sheep.

"It is obvious that, under present conditions of tenure, the value of the lake area as a State asset is steadily decreasing, and also that the whole area applied for as a scrub lease is being worked and used under great disadvantages, owing to absence of subdivision fences and sufficient water improvements. In view of these circumstances it appears advisable and necessary to take such action as will at least prevent the gradual depreciation of part of the public estate, and I would suggest two courses, viz., that the application for a scrub lease over the whole area be granted, or that the land be divided into about equal portions by a line from north to south and offered under settlement lease conditions.

"Viewing the character of the country, and in consideration of the fact that the greater portion of the high dry land adjoining the lake is reserved for preservation of timber, and therefore cannot be thoroughly improved for grazing use, and is infested with rabbits, and that travelling stock have the right to depasture over the whole of travelling stock reserve 17,085, I am in favour of the former proposition, and have to recommend that a scrub lease over the whole area be granted for a term of nine years at an annual rental of 3d. per acre."

The District Surveyor then reported as follows:—

Exhibit "B"—Report dated 29th May, 1899.

"Since receipt of Mr. Licensed-Surveyor Maitland's report of 8th ultimo, I have personally inspected a large proportion of the area applied for, and I am of opinion that the best use to which the land can be put, for the next ten years at any rate, would be to lease it under improvement conditions.

"Although I recognise that there may be a difficulty in declaring the greater part of the lake country to be scrub lands, still I think the wording of the 35th section of the Act of 1889 is sufficiently elastic to admit of it being so declared; and I therefore recommend that the area shown by red etching on plan marked 'E,' containing about 12,800 acres, be granted as a scrub lease to the applicant for a term of ten years at an annual rental of 1½d. per acre (£4 per section), and subject to the conditions hereafter mentioned.

"I do not think it would be desirable to encourage settlement lessees to take up this land, for the reasons that a person having no other country near would probably have to sacrifice his stock every time the lake filled, as the small amount of high ground on each holding would be wholly insufficient to carry the stock for long, especially as in one case travelling stock would have the right to run all over it, and in the other case the land, being a timber reserve, could only be very partially improved.

"I quite concur in Mr. Maitland's recommendation as regards including in the proposed scrub lease the small portions of Warroo resumed area. The conditions which I would recommend to be attached to the scrub lease are as follows:—

"1st. That the following trees shall not be interfered with: straight-box and gum-trees, 8 inches or over in diameter, and pine trees, 6 inches or over in diameter, at 3 feet from the ground—except on forest reserves 6 and 21,907. Pine trees between 3 and 6 inches in diameter, unless growing within 20 feet of each other, in which case the best or most promising saplings are to be selected for preservation. On forest reserves 6 and 21,907 the distance to be left between the saplings to be 8 feet instead of 20 feet; also all boree, currajong, wilga and berrigan, or rosewood, except to whip or lop the branches for stock-feeding purposes.

"2nd. That firebelts, 2 chains wide, be left on each side of the main track from Marsden to Condobolin; round each boundary of forest reserve No. 6, and east and west, and north and south, at intervals of about 1½ mile through the lease; also at the lessee's option, 1 chain wide round each boundary of the lease, also small clumps for shade purposes at intervals of about a mile apart.

"3rd.

- "3rd. That all trees and saplings, not exempted in the foregoing paragraphs, shall be destroyed by ringbarking or otherwise, and all non-edible scrubs thoroughly eradicated ; that quandong, cherry, emu, currant, currawong and warriah bushes shall not be destroyed ; except for stock-feeding purposes.
- "4th. That the lessee shall commence to operate on the land as previously prescribed, and shall within one year from that date treat not less than one fourth of the area, and shall, during each succeeding year, treat not less than an additional one-fourth, until the whole area shall have been ringbarked and scrubbed in accordance with conditions 1 to 3. Land once operated upon to be afterwards kept clear of suckers, seedlings, and undergrowth during the remainder of the term.
- "5th. That within three months from the granting of the scrub lease, steps be taken towards destroying the rabbits, wallabies, and other noxious animals on the land, and that all reasonable means be subsequently adopted for eradicating these animals.
- "6th. That any land required for mining or other public purposes may be withdrawn at any time without compensation other than for the lessee's interest in the improvements for the unexpired portion of the lease.
- "7th. That should the land be required for settlement purposes, the Minister shall have power to resume up to one-half the area of the scrub lease, but such power shall not be exercised during the first six years of the lease ; and as compensation for a withdrawal under this condition the lease of the remaining half shall be proportionately extended, but such extended term shall not exceed four years from the termination of the first term of ten years.
- "8th. Except as provided in Condition No. 6, the lessee shall not have tenant-right in ringbarking or scrubbing improvements, but shall have tenant-right in improvements which may be effected with the permission of the Minister or Chairman of the Board."

Mr. Forester Postlethwaite also furnished a report on forest reserve No. 6, in which he states that he does not see any objection to granting a lease.

The Local Land Board then held an inquiry on 21st June, 1899, and came to the following decision :—

"We are disposed to consider this application favourably excepting as regards the portion of land shown by black hatching ; but, before giving our decision, we wish to be furnished with a report by the Department of Public Works as to whether there would be any objection to granting a lease of the subject land for a period of from ten to fifteen years, under conditions relating to the growth of scrub (which is increasing under the present form of tenure) ; also subject to the special condition that the lease may be wholly or partly cancelled if the land should be required in connection with any scheme for the drainage of Lake Cowal, or any other public scheme in connection with irrigation, drainage, or water conservation. We also wish to be informed whether there is any objection, from the same points of view, to the alienation of the area within the limits of the flooded land (known as Nerang Cowal), or to the leasing of the land for a period of twenty-eight years (but without a condition of resumption) as settlement leases."

A report was accordingly obtained from the Water Conservation Branch, in which Mr. McKinney states that "while the question of the drainage of Nerang Lake, and the greater part of Lake Cowal, is a matter of no great difficulty, I do not think it would be remunerative at present, and I do not think there is any objection to granting a lease of the land in question for fifteen years."

A petition was then lodged against the granting of the scrub lease, which was referred to the Board in connection with their inquiry.

The Board, on 22nd and 25th September, further considered the matter, and the following is their recommendation :— "That when the case was before us on the last occasion, it was understood that it was closed so far as the taking of further evidence ; and we stated that we were disposed to favourably consider the application for the scrub lease, as it was clear from the evidence that it would not be expedient, owing to the very large proportion of flooded land, to recommend any form of settlement which would necessitate residence and continuous occupancy, such as are required in connection with settlement leases or holdings composed of original conditional purchases with their associated conditional leases. Homestead selections were considered to be out of the question, owing to the area being limited to 1,280 acres. Moreover, we recognised that it would prove dangerous to dispose of the large portion of Lake Cowal in question, under any form of tenure excepting one in which the term could be limited to fifteen years at the utmost, and with a condition giving the Crown the right of resumption in connection with any public scheme for drainage, water conservation, or irrigation. Under the settlement lease provisions, the term could not be less than twenty-eight years, and under the conditional purchase and associated conditional lease provisions the land would be practically alienated from the Crown, and, apparently, it would not be legal to introduce a condition of resumption as indicated to attach to holdings of these classes. Holding these views, we desired the opinion of the Department of Public Works on the question of leasing the lake portion. That opinion is now before us, and is to the effect that there would be no objection to granting a lease of the land in question for a period of fifteen years.

"Since the case was last before the Board, a petition, signed by a large number of persons, protesting against the granting of the scrub lease, has been presented ; and this petition has been forwarded to us by the Secretary for Lands for consideration when dealing with the case. Mr. Cheeseman, agent for applicant, objected to the Board reopening the case, on the grounds that the inquiry had been duly administered, and that the time for receiving objections had long since passed, and that the applicant could not be expected, at that late stage, to meet objectors who had come forward after the case had virtually closed. We fully recognise the very unsatisfactory position in which the applicant is placed ; but believing that we are acting Ministerially in this matter, we consider that we are bound to take into consideration, even now, the petition which the Minister has forwarded specifically for our consideration. Had the petition come before us in any other way at this stage, we would not have noticed it. Reviewing the whole case, however, in the light of the evidence offered at the inquiry on the 19th and 21st of June last, and at the present further inquiry, we report that our opinion has not been altered in the slightest as regards the advisableness of offering the land under some other form of tenure, or as regards the inexpediency of disposing of the lands as settlement leases or original conditional purchases and their associated conditional leases ; although we are bound to state our conviction that if the land were offered as settlement leases, in areas of about 3,000 acres each, it would be eagerly applied for. The question then

presented is—whether the application for a scrub lease by Arthur B. Hope should be granted? Mr. Hope's application is the only one which has been received; the necessary inspection and inquiry have been made at his expense; he has shown the unwisdom of the present form of tenure, and the possibilities of improvement under a secure tenure for a fair term of years; but it is now obvious that (although, in our opinion, a very large number of the petitioners are not specially interested in the question) there are other persons who are willing to take up the land under similar conditions to those proposed by Mr. Hope, and we cannot satisfy ourselves, in view of the evidence given at the later inquiry, that Mr. Hope should, in virtue of the priority of his application, receive a monopoly of this large extent of country, and we therefore recommend that the application for the scrub lease be refused, and that the land be subdivided in blocks of from 3,000 to 4,000 acres, with one block of 1,560 acres, as shown by black hatching on plan (*Exhibit E*), with a view to being offered as improvement leases by public auction or tender, under the conditions proposed by the District Surveyor in his report (*Exhibit B*), in so far as they will apply, with the further condition of resumption in connection with any public scheme for irrigation, drainage, or conservation of water; the term of the leases to be fifteen (15) years; the upset rental to be determined after subdivision.

"We strongly recommend that the whole of the deposit lodged by Mr. Hope be refunded to him."

The applicant then appealed to the Land Appeal Court, whose decision is as follows:—"The Court recommends the Minister to grant to the applicant, Arthur Bobart Hope, a scrub lease of the area containing, approximately, 11,240 acres, as shown by red etching on plan (*Exhibit E*) with papers, the area of 1,560 acres, shown by black hatching, being excluded from the area originally applied for.

"The term of the lease to be for fifteen years. The annual rental to be 1½d. per acre.

"The other conditions in such lease to be as set forth in the report of Mr. District-Surveyor Sharp, dated 29th May, 1899.

"The appeal is therefore sustained, but the deposit and survey fee should be retained unless the Minister refuses to grant the lease.

"The grounds of appeal having raised for decision the question whether the Board were entitled to reopen the subject inquiry after it had been closed, they being under the impression that their function in connection with the application was Ministerial only, the Court is of opinion that the Board were not entitled to reopen such inquiry, their functions under the provisions of the Crown Lands Acts dealing with scrub leases being, as to procedure, judicial.

"Deposit to be refunded."

It is now suggested in Mr. De Low's memorandum of the 14th instant that "it would perhaps be best to adopt the Board's report to refuse the application for a scrub lease, and thus leave the way open for future consideration of the question of the best means of disposal of the land. As the Board has not recommended the land be declared scrub land, it seems at present there is no other course open."

In all the circumstances of the case, the recommendation of the Land Board is submitted for approval.

H. CURRY,
Acting Under Secretary.

Approved.—T.H.H., 21/12/99.

No. 40.

H. G. Freeman, Esq., to The Secretary for Lands.

A. B. Hope—Scrub Lease.

Sir,

7, Grosvenor-street, Sydney, 5 January, 1900.

I beg you will favourably consider the decision of the Land Appeal Court in this case.

The facts are, briefly, that A. B. Hope made application for a scrub lease of the travelling stock reserve, and was opposed by the District Surveyor, for the reason all the high land was being secured; and he suggested an amended application, which was made for the whole 12,000 acres, which has been personally inspected by the District Surveyor and the Staff Surveyor, and nothing could be stronger than their reports. The matter was twice heard by the Board, and the case closed, and a favourable decision announced, subject to no objection being raised by the Water Conservation Branch. There was no objection from that quarter.

The trouble, then, only arises from a petition lodged; and the Land Court, in giving their decision, said: "The Board had no right to reopen the case after closing it; that their function in respect to scrub leases as to procedure is judicial."

The Board in their decision said they would not have reopened the case only the Minister told them to do so. I am sure, in sending on the petition, the Minister did not intend it to be a direction; and it is important to note that J. E. Ridley, in giving evidence, says a S. W. St. Baker drew up the petition for myself, Dunn (Ridley's brother-in-law), Barnes (who was working for Ridley), W. Ridley, and G. Ridley, so that the petition is a family affair. And even Ridley says: "The only objection I have is, my block is an irregular shape, and I might exchange it." Mr. Sharp, District Surveyor, objects to the exchange.

The whole circumstances are in favour of Mr. Hope succeeding. He has borne all the expense, proved his case, shown the petition to be in the interest of one man, and to have been illegally heard. The Department has decided they will not grant it in any form of lease but a short improving one, so that Mr. Hope is as good a tenant as any one else. He has his sheep there, and if put up to auction it will only bring him into competition with others, who have not even been petitioners, and there will be every opportunity for blackmail. The selectors will not be able to secure it, and they have not sufficient capital to work their own country at present.

Surely the Ministerial Department will not depart from strong reports by their surveyors and the decision of the Land Appeal Court!

I have, &c.,
H. G. FREEMAN.

Evidence, 19 June.—Mr. District Surveyor Sharp says: "If the area was subdivided into 6,000-acre blocks, I would not recommend selectors to take it."

No. 41.

W. A. Holman, Esq., M.P., to The Secretary for Lands.

Sir,

5 January, 1900.

Some time ago I had a personal interview with you *re* an application for a scrub lease by A. B. Hope, Beña. As far as I can remember, the facts of the case are these: A. B. Hope applied for some land adjoining his lease to be granted to him as a scrub lease. His application was granted. It was protested against at the sitting of the local court; but the application was upheld in spite of the fact that several selectors in the room offered to take up the land as conditional purchase lease. You promised to give this matter your personal attention at the time. May I hope that you will do so now.

I am, &c.,

W. A. HOLMAN,
(*per* C.H.)

No. 42.

H. G. Freeman, Esq., to The Under Secretary for Lands.

A. B. Hope's Scrub Lease.

Sir,

7, Gresham-street, Sydney, 11 January, 1900.

Referring again to this matter, and the fact that the Local Land Board in dealing with this case took a course which had been declared by the Land Appeal Court to be illegal, after they virtually announced their decision, I think that it would be a fair and reasonable course to follow to refer the case back to the Board to announce the decision they had arrived at prior to the illegal act committed by them in reopening the case.

I have, &c.,

H. G. FREEMAN.

No. 43.

Office Memorandum.

Mr. Hope's Application for Scrub Lease.

16 January, 1900.

THE decision of the Land Appeal Court is not, as pointed out, binding on the Minister; but in view of that decision, and the recent correspondence that has been received, it is submitted that the case be referred to the Land Board for further report.

H. CURRY,

Acting Under-Secretary.

This may be done.—T.H.H., 17/1/1900. W. A. Holman, Esq., M.P., and H. G. Freeman, Esq. informed, 23/1/1900. The Chairman, Local Land Board, Forbes.—E.L. (for A.U.S.), B.C., 23/1/1900.

Herewith are forwarded reports from each member of the Board and myself. I consider that this is the most satisfactory way of presenting the views of the members of the Board; and, further, that it was not intended by the Acting Under-Secretary that the matter should be reopened and dealt with by the Board sitting in open court.—ROBERT McDONALD, Chairman, Local Land Board, Forbes, 8/2/1900. The Under-Secretary for Lands.

[Enclosures.]

A. B. Hope's Application for Scrub Lease.

7 February, 1900.

The Board, according to the Land Appeal Court, was wrong in the view that Mr. Hope's application had not priority of claim. If the Court, instead of making a recommendation to the Minister, had returned the case to the Land Board, that body would have been bound to make a favourable recommendation, in view of the finding previously recorded (*see* 99-6,417 herewith).

The Board were quite unanimous in the view that as the lease could only be granted for a limited term (not exceeding fifteen years), and as the Crown should be quite unhampered if it should be found desirable to resume the land in connection with any public scheme of irrigation, drainage, or conservation of water, there would be much greater difficulty in resuming from four or five holders than from one.

I observe that in the minute dated 14/12/99 (Occupation 99-14,240, enclosure) submitting the case, weight is given to the fact that the Board did not recommend that the land be declared scrub land (but the Board's first finding clearly involves that recommendation); but I may state here that, in view of the recent decision of the Land Appeal Court in the Palisthon and Kiacatoo scrub lease cases, the Board could have had no hesitation in recommending the lands to be declared scrub lands.

ROBERT McDONALD,
Chairman Local Land Board.Forbes Land Board District—*Re* A. B. Hope's application for Scrub Lease.

THE opinion I arrived at, after hearing the first evidence given in this case, was that Hope had a strong moral as well as a legal claim that his application should be allowed. It was during the first hearing that there were rumours that the granting of the lease would be objected to. It was also said that some of the objectors were in Court at that time. The Chairman made it very plain that the application for a scrub lease had been duly notified in the regular way, and that persons intending to object should have lodged their written intentions at his office. No such objections had, however, been sent in. The Chairman then stated in open Court that if any person or persons in Court were still opposed to the granting of the lease, they should then and there declare themselves as objectors, and in such case they were asked to remain in Court. Immediately, all the supposed objectors retired in a body.

When the matter again, at a later date, came before the Board, a petition against the granting of the lease had been addressed to the Board and was amongst the papers. That petition bore strong presumptive evidence of having been prepared and signed by members of a well-known family of selectors who already own large areas of land, and one of whom admitted in evidence that he had on a former occasion sold out his selection at a considerable advance on what it had cost him; in fact, the evidence of the objectors throughout was to my mind the reverse of satisfactory.

My opinion is now, and has been all through, that the area (some 12,000 acres) would be a much better Crown asset at the end of fourteen (14) years' lease if in the hands of the applicant Hope than it would be if disposed of as improvement leases to a few of the objectors.

The land, from its position and configuration, can never be settled upon in the manner contemplated by the Act. I state this from a knowledge of the locality, which extends over thirty years.

In conclusion, I may state, that I do not know Mr. Hope personally, and have never spoken to him in my life.

WM. BROOKE,
Member, Forbes Land Board.
Concerning

Concerning Scrub Lease applied for by A. B. Hope, Lake Cowal.

WHEN this application came before the Land Board in the first instance, they recommended that the lease should be granted, as, although ample notice had been given to the general public through the local newspapers, and as required by the Land Act, no objection of sufficient consequence was taken to justify the Board in not doing so. Since then the case was referred to them on account of a petition signed by a number of settlers in the locality stating that they would willingly take up the land if allowed to do so.

As a petition signed by such a number could not well be ignored, the recommendation was altered, and the land recommended to be divided into certain blocks as mentioned in report. I was under the impression that we had not the power to act judicially in this matter or I should not have altered my opinion, as I thought at the time that Hope should have the land, and am still of the same opinion. He was the first to make application, and from all I can learn is both able and willing to carry out the improvements required by the Act to make the land of much more value than it is at the present time.

I do not think much attention should be paid to petitions, as many people sign them thoughtlessly, and without intention of applying for land themselves.

J. G. M. SHARPE,
Member, Local Land Board.

No. 44.

The Acting Under Secretary for Lands to H. G. Freeman, Esq.

Sir,

Department of Lands, Sydney, 23 January, 1900.

Referring to your letter of the 11th instant, on the subject of Mr. A. B. Hope's application (No. 98-25, Condobolin) for a scrub lease on Moonbi or Bogandillon holding, I have the honor to inform you that, having in view all the circumstances, it has been decided to refer the case back to the Local Land Board for further report.

I have, &c.,

H. CURRY,

Acting Under Secretary.

No. 46.

Office Memorandum.

15 February, 1900.

HAVING regard to the expression of the views of the Chairman and Members of the Land Board, it is submitted, on a review of the case, that Mr. Hope's application for a scrub lease be proceeded with.

The Land Appeal Court's determination of rent may be accepted.

The conditions of the lease should be as proposed by the District Surveyor and the Board, after revision by the Forest Branch.

H. CURRY,

Acting Under Secretary.

Approved.—T.H.H., 16/2/1900. Mr. Hay (Forest Branch) for report as to whether there are any objections to the conditions proposed by the District Surveyor, and for any suggestions he may desire to make.—E.L., 12/3/1900. Mr. Cheesbrough for review.—R. D. HAY, B.C., 14/3/1900.

Suggested conditions for the improvement of forest reserves Nos. 21,907 and 6, county of Gipps.—The first-mentioned reserve is also a travelling stock reserve, so that I think the stacking and burning-off of the thinnings and fallen timber should be insisted on. The conditions suggested by the District Surveyor are otherwise satisfactory.—JOHN S. CHEESBROUGH, Inspecting Foresters' Office, 15/3/1900.

Returned to Occupation Branch. I concur in the above.—R. D. HAY, 15/3/1900. Mr. Landers.

Mr. McMinn,—Please furnish description.—J.G., 16/3/1900. Description herewith.—A.B.M., 24/3/1900. Mr. Landers.

No. 47.

Office Memorandum.

Department of Lands, 31 March, 1900.

WILL the District Surveyor at Forbes be good enough to furnish the names of the plants which should be declared "scrub" on proposed scrub lease applied for by A. B. Hope, situated within the resumed areas of Warroo, No. 181, and Moonbi or Bogandillon, No. 542, Central Division. Scrub lease application 98-25, Condobolin.

E.L.

The District Surveyor, Forbes.

(For the Under Secretary.)

The noxious scrubs indigenous to this land are box and gum seedlings, lignum, pine, buddha, dogwood, wattle, camomile, sifting-bush and hop-bush.—ARTHUR SHARP, District Surveyor, 3rd April, 1900. The Under Secretary for Lands.

No. 48.

No. 48.

Minute Paper for the Executive Council.

Department of Lands, Sydney, 9 April, 1900.

It is recommended to His Excellency the Governor and the Executive Council that the undermentioned plants on proposed scrub lease No. 100, of about 11,240 acres, within the boundaries of the resumed area of Warroo pastoral holding No. 181, and resumed area of Moonbi or Bogandillon pastoral holding No. 542, Central Division, be declared "scrub" within the meaning of the 4th section, Crown Lands Act of 1889, so far as the land referred to is concerned:—Box and gum seedlings, lignum, pine, buddha, dogwood, wattle, camomile, sifting-bush, and hop-bush.

T. H. HASSALL

The Executive Council approve of the recommendation herein specified.—ALEX. C. BUDGE, Clerk of the Council. Min. 00-16, 12/4/1900. Approved.—B., 12/4/1900. Confirmed, 17/4/1900. Proclamation of scrub, declaration of scrub land, scrub lease granted, gazetted 2/5/1900. Lessee informed and *Gazette* slip sent, 7/5/1900.

No. 49.

Proclamation.

New South Wales, } By His Excellency The Right Honorable WILLIAM, EARL BEAUCHAMP, Knight
to wit. } Commander of the Most Distinguished Order of Saint Michael and Saint George,
(L.S.) BEAUCHAMP, Governor and Commander-in-Chief of the Colony of New South Wales and its
Governor. Dependencies.

IN pursuance of the provisions of the Crown Lands Act of 1889, I, WILLIAM, EARL BEAUCHAMP, Governor of the Colony of the New South Wales aforesaid, with the advice of the Executive Council, do hereby declare all box and gum seedlings, lignum, pine, buddha, dogwood, wattle, camomile, sifting-bush, and hopbush to be "scrub," within the meaning of the 4th section of the said Act, on proposed scrub lease, containing about 11,240 acres, in the parishes of Manna, Bena, and Nerang Cowal, county of Gipps, declared to be "scrub lands" in the *Government Gazette* of this date, and being part of the resumed areas of Warroo pastoral holding, No. 181, and Moonbi or Bogandillon pastoral holding, No. 542, Central Division.

[Occ. 1900-606]

Given under my Hand and Seal, at Government House, Sydney, this eighteenth day of April, in the year of our Lord one thousand nine hundred, and in the sixty-third year of Her Majesty's Reign.

By His Excellency's Command,

T. H. HASSALL.

GOD SAVE THE QUEEN !

Department of Lands, Sydney, 2 May, 1900.

DECLARATION OF SCRUB LANDS.

NOTICE is hereby given that, in pursuance of the provisions of the 35th section of the Crown Lands Act of 1889, the land hereunder described is hereby declared to be scrub lands.

T. H. HASSALL,

Secretary for Lands.

CENTRAL DIVISION, LAND DISTRICTS OF FORBES AND CONDOBOLIN.

Within the resumed areas of Warroo Pastoral Holding, No. 181, and Moonbi or Bogandillon Pastoral Holding, No. 542, notified 11th July, 1885, and 31st July, 1885, respectively.

County of Gipps, parishes of Manna, Bena, and Nerang Cowal, containing an area of about 11,240 acres. The Crown lands within the following boundaries: Commencing at the north-west corner of forest reserve 21,907, notified 22nd December, 1894; and bounded thence by the north boundary of that reserve bearing east to its north-east corner; thence by part of its eastern boundary bearing southerly to the south-west corner of portion 3, parish of Nerang Cowal; thence by the south and part of the east boundaries of that portion bearing east and north to the westernmost south-west corner of portion 9; thence by the south-western and south-eastern boundaries of that portion bearing south-easterly and north-easterly to the west boundary of forest reserve and reserve for refuge from flood No. 6, notified 3rd April, 1886; thence by part of the west, the north, and the east boundaries of that reserve bearing north, east, and south to the south-west corner of portion 59, parish of Moora Moora; thence by a line bearing west 105 chains; thence by a line bearing south about 160 chains; thence by a line bearing east to the south-west corner of converted pre-lease 3,602; thence by parts of the east and south boundaries of Moonbi or Bogandillon resumed area, No. 542, bearing south and west to the south-east corner of portion 1, parish of Bena; thence by the eastern boundaries of portions 1 and 2, and a line bearing northerly to the south-east corner of portion 16, parish Nerang Cowal; and thence by the eastern boundaries of portions 16 and 15, a line, portions 14 and 13, bearing northerly, to the point of commencement.

[Occ. 1900-606]

No. 50.

Notice of Granting of Scrub Lease

Department of Lands, Sydney, 2 May, 1900.

SCRUB LEASE—NOTICE OF GRANTING OF.

It is hereby notified, for public information, that, in accordance with the provisions of the Crown Lands Act and Regulations thereunder, a scrub lease of the land set out in the annexed Schedule has been granted for the term and under the conditions, provisions, covenants, restrictions, and reservations herein-after mentioned:—

1. The term of the lease shall be from the 2nd May, 1900, to the 1st May, 1915. The lease is granted subject to all of the provisions of the Crown Lands Acts and Regulations applicable thereto.
2. The lessee shall destroy all scrub (except edible scrub, which shall include quandong, cherry, emu, currant, currawong, and warriah bushes).
3. The lessee shall preserve all straight box and gum trees 8 inches or over in diameter at 3 feet from the ground, and all pine-trees 6 inches or over in diameter at 3 feet from the ground; also all boree, currajong, wilga, and berrigan or rosewood, except to whip or lop the branches for stock-feeding purposes; and shall not cut or destroy any timber useful for fencing or building purposes, or cut or remove any timber for sale, or otherwise than for lessee's own use. Lachlan or white pine-trees between 3 and 6 inches in diameter, measured at 3 feet from the ground, shall be thinned out by the lessee to distances of 20 feet apart wherever growing, leaving the straightest and best saplings.
4. The lessee shall, on forest reserves 6 and 21,907, thin out all Lachlan and white pine-trees between 3 and 6 inches in diameter, measured at 3 feet from the ground, to distances of 8 feet apart wherever growing, leaving the straightest and best saplings.
5. The lessee shall destroy all other trees and saplings not exempted in previous conditions, by ringbarking or otherwise, except that fire-belts 2 chains wide be left on each side of the main track from Marsden to Condoulin; also around each boundary of forest reserve 6, and east and west and north and south at intervals of about 1½ mile through the lease; also, at the lessee's option, 1 chain around each boundary of the lease; also small clumps for shade purposes at intervals of about a mile apart.
6. The lessee shall begin to clear the land within three months from the commencement of the lease. During the first year he shall clear not less than one-fourth of the total area of the land under lease, and during each of the succeeding three years one-fourth of the total area, so that the whole area shall be cleared during the first four years. After any part of the land has been cleared, such part to be kept cleared during the term of the lease.
7. The lessee shall, during the whole term of the lease, keep the land free from suckers, seedlings, and undergrowth.
8. The lessee shall, on forest reserves 6 and 21,907, collect and stack all thinnings and debris in neat heaps at intervals of not less than 1 chain apart, and shall totally burn them off during the winter months, and in so doing shall prevent the spread of fire therefrom extending to and injuring the standing timber.
9. All persons duly authorised shall have full right to enter upon the land leased embraced in forest reserves 6 and 21,907 at any time during the currency of the lease, for the purpose of cutting and removing timber without interference by the lessee.
10. The lessee shall give the Chairman of the Local Land Board not less than three weeks' nor more than six weeks' notice in writing of his (the lessee's) intention to commence the work of clearing, scrubbing, and burning off on that part of the land leased embraced in forest reserves 6 and 21,907, and shall, from time to time, on a stoppage or cessation of the work for a longer period than seven days, give the Chairman not less than seven days' notice in writing of his (the lessee's) intention to renew and continue the operations of clearing, scrubbing, and burning off.
11. The lessee shall, within three months from the commencement of the lease, take effective steps to destroy rabbits, wallabies, and other noxious animals, and shall continue to do so during the whole term of the lease, and of any extension thereof.
12. The right is reserved to the Governor to resume by notice in the *Gazette* for settlement any part of the area leased up to one-half, after the first six years of the lease, by giving not less than four months' notice to that effect in the *Government Gazette*, and no compensation will be paid for the exercise of the right of resumption for such purpose; provided that, upon the resumption of any land as aforesaid, a reduction of the annual rental will be made, proportionate to the area taken.
13. The lease is granted subject to the condition that the Governor may withdraw any land required for mining purposes or for any public purpose without compensation, except for improvements effected under special permission; provided that, upon the withdrawal of any land as aforesaid, a reduction of the annual rental will be made, proportionate to the area taken.
14. The lease is granted conditionally on all rights of road, of camping, and of travelling stock being retained.
15. The lease shall be deemed to be a lease for pastoral purposes, and as such to be subject to the operations of the Mining Act of 1874, and all Acts amending or extending the same.
16. The lessee shall maintain all improvements in good order and condition during the term of the lease, and of any extension thereof.
17. Upon such resumption as aforesaid, or upon expiration of the lease by effluxion of time, the lessee shall have tenant right, as defined in the Crown Lands Act of 1895, in such improvements as may be effected with the consent of the Chairman of the Land Board or the Minister; but shall not have tenant right in scrubbing, clearing, ringbarking, or suckering.
18. As part of the land included in this lease is within reserves from sale, and as Regulation No. 71 of the Crown Lands Acts provides that no application for a homestead selection shall be confirmed for the land included in any reserve from sale, the lessee, if desirous of ultimately obtaining a homestead selection under the provisions of section 27 of the Crown Lands Act of 1895, is advised not to erect his dwelling-house, and not to effect the improvements referred to in that section on any land reserved from sale.
19. The annual rent shall be paid yearly in advance, and if not so paid, and in the event of any condition not being fulfilled, the lease will be liable to forfeiture.

31

20. In the event of forfeiture of the lease for non-compliance with any of the conditions, all improvements effected by the lessee shall become the property of the Crown without compensation.

21. The rent for the first year of the lease must be paid within one month from this date.

SCHEDULE.

Land Districts of Forbes and Condobolin.

Within the resumed areas of Warroo Pastoral Holding, No. 181, and Moonbi or Bogandillon Pastoral Holding, No. 542, Central Division.

* As described by notification of scrub lands in *Gazette* of this date.

The cost of survey and report will be adjusted after survey has been effected.

Scrubs :—Box and gum seedlings, lignum, pine, buddha, dogwood, wattle, camomile, sifting-bush, and hophbush.

T. H. HASSALL,
Secretary for Lands.

[Occ. 1900-606.]

No. 51.

The Acting Under Secretary for Lands to A. B. Hope, Esq.

Sir,

Department of Lands, Sydney, 7 May, 1900.

I have the honor to invite your attention to a notification in the *Government Gazette* of the 2nd instant, notifying the granting to you of a scrub lease of about 11,240 acres within the resumed areas of Warroo pastoral holding, No. 181, and Moonbi or Bogandillon pastoral holding, No. 542, Central Division, for the term 2nd May, 1900, to the 1st May, 1915, at a rental of £70 5s. per annum.

Rent for the first year should be paid into the Colonial Treasury, Sydney, on or before the 2nd June next, and for succeeding years on or before the 1st May in each year in advance.

The deposit and survey fee lodged will be adjusted when survey of the land has been effected.

Box and gum seedlings, lignum, pine, buddha, dogwood wattle, camomile, sifting-bush and hop-bush have been declared "scrub" in connection with the lease, and special attention is directed to the conditions as to clearing in respect thereof.

I have, &c.,

H. CURRY,
Acting Under Secretary,
(per F.H.W.).

Scrub lease, No. 100, Parishes Manna, Bena, and Nerang Cowal. Land Districts of Forbes and Condobolin.

Gazette slip herewith.

No. 52.

The District Surveyor, Forbes, to The Under Secretary for Lands.

8 May, 1900.

THE following description is forwarded to supersede one published in the *Government Gazette* of 2nd May, 1900, folio 3416—which includes part of portion 25, set apart for additional conditional purchase or conditional lease, and excludes a strip to the west thereof.

ARTHUR SHARP,

District Surveyor.

Declaration of scrub lands :—County of Gipps, parishes of Manna, Bena, and Nerang Cowal, containing about 11,240 acres. The Crown lands within the following boundaries :—Commencing at the north-west corner of forest reserve 21,907, notified 22nd December, 1894, and bounded thence by the north boundary of that reserve bearing west to its north-east corner ; thence by part of its eastern boundary bearing southerly to the south-west corner of portion 3, parish of Nerang Cowal ; thence by the south and part of the east boundaries of that portion bearing east and north to a point west of the westernmost south-east corner of portion 9 ; thence by a line east to that point ; thence by the south-western and south-eastern boundaries of that portion bearing south easterly and north-easterly to the west boundary of forest reserve and reserve for refuge from flood No 6, notified 3rd April, 1886 ; thence by part of the west, the north, and the east boundaries of that reserve bearing north, east, and south to the south-west corner of portion 59, parish of Moora Moora ; thence by part of a north boundary of portion 26, bearing west to a north-east boundary of portion 25, parish of Nerang Cowal ; thence by a north-eastern, a north, a west, and a south boundary of that portion bearing north-westerly, west, south, and east to the south-west corner of portion 74, parish of Moora Moora ; thence by parts of the east and south boundaries of Moonbi, or Bogandillon, resumed area No. 542, bearing south and westerly to the south-east corner of portion 1, parish of Bena ; thence by the eastern boundaries of portions 1 and 2, and a line bearing northerly to the south-east corner of portion 16, parish of Nerang Cowal ; and thence by the eastern boundaries of portions 16 and 15, a line, portions 14 and 13, bearing northerly to the point of commencement.

Occ. 1900-606. Mr. McMinn.—E.L., 14/5/1900.

The land set apart for McCormack having been measured as portion 25, the description, as slightly amended by the District Surveyor, may be notified in lieu of that published in the *Gazette* of the 2nd May.—A.B.M., 18/5/1900. Mr. Landers.

The description of the scrub lands may be renotified to supersede that published in *Gazette* of 2nd instant.—E. C. LANDERS, 18/5/1900. For approval.—F. H. WILSON, Chief Clerk, 21/5/1900. H. Curry, 22/5/1900. Approved.—T.H.H., 25/5/1900.

No. 53.

No. 53.

W. A. Ewars, Esq., to W. A. Holman, Esq., M.P.

Presented by Mr. Holman, M.P.

Bena and Wamboyne Selectors' Association,

Dear Sir,

"Belle Forest," Bena, 21 May, 1900.

It is impossible to express to you the astonishment and indignation that has been evoked in this district by a report in the local papers to the effect that a scrub lease of 11,000 odd acres had been granted on Moonbi or Bogandillon pastoral holding. This can only refer to the land applied for by Mr. A. B. Hope, which my Association has confidently expected would be made available for selection (either as "improvement" or settlement lease), in accordance with the report of the Forbes Land Board, 25th September, and for which several residents of these districts—some of them without land—have been long waiting.

To show you what abundant grounds there are for the feeling referred to, I may briefly recall to your recollection the facts connected with this matter:—

Firstly as to the land.—This cannot fairly be said to come within the scrub lease provisions of the Act, inasmuch as not less than nine-tenths of the whole area is open box timber country, free from scrub, so sparsely timbered that even under present conditions there is a considerable growth of grass and herbage. The greater part of the area is known as "Little Lake Cowal," in contradistinction to the main "lake" further south, within Lake Cowal pastoral holding. The name, however, is a misnomer, as it has been dry for years, and, as shown in the evidence, is likely to remain so.

The fact that the land was applied for as a scrub lease was not known to local residents at the date of the first hearing (viz., 18th June, 1899), and, failing any opposition, the Board recommended that the application be granted. A large petition was then sent to the Minister by local residents and some others in want of land, and as a result the case was referred back to the Board for rehearing. Several members of my Association, at great inconvenience and expense, went to Forbes to oppose the application, and no fewer than six witnesses deposed as to their desire to take up blocks of the land in question (either as improvement or settlement lease), and at a rental double that suggested for the scrub lease. In view of this evidence, the District Surveyor suggested (on the invitation of the Chairman) that Mr. Hope be given half the area as a scrub lease, in recognition of the fact that he had been involved in considerable expense, and that, had it not been for his action, the residents of that district would not have been aware that the land in question was available. The Board in its decision justly overruled this suggestion, and refused the application.

The published decision states, *inter alia*: "We are bound to state our conviction that if the land were offered as settlement leases, in areas of about 3,000 acres each, it would be eagerly applied for." Again: "It is now obvious that there are other persons who are willing to take up the land under similar conditions to those proposed by Mr. Hope, and we cannot satisfy ourselves, in view of the evidence given at the later inquiry, that Mr. Hope should, in virtue of the priority of his application, receive a monopoly of this large extent of country; and we therefore recommend that the application for the scrub lease be refused, and that the land be subdivided in blocks of from 3,000 to 4,000 acres, with a view to being offered as improvement leases by public auction or tender."

Mr. Hope then carried the matter before the Land Appeal Court, and the appeal was (on a technicality) successful.

This left the matter altogether in the hands of the Minister, who, instead of disposing of the case on its merits, after some considerable time referred it back to the Local Land Board for a further report, and now, to our astonishment and indignation, has, after all, granted the scrub-lease.

Such action on the part of a Minister, in any other than a British community, would bear only one interpretation; as matters are, it is simply incomprehensible.

The facts have in no wise altered since last September, except that one only of the protesting witnesses has since been successful at a ballot for land; the others are still waiting. Thus any subsequent report by the Board could not differ in its tenor from what I have quoted above.

Under these circumstances, I am directed to ask you to inquire (at your earliest convenience) the reasons given for the Minister's action, and to communicate them to my Association. If these are refused, or the explanation is unsatisfactory, it is our intention to give the matter full publicity, in order that settlers throughout the Colony may know the sort of Government they have to deal with.

I am, &c.,

W. A. EWARS,

Secretary, Bena and Wamboyne Selectors' Association.

Further protest by Secretary of Bena and Wamboyne Selectors' Association against the granting of Scrub Lease on Moonbi or Bogandillon Holding to A. B. Hope.—On the 12th December, 1898, A. B. Hope lodged an application for a scrub lease of about 12,000 acres, including a large part of Lake Cowal. The local surveyor, in reporting on the application, stated the land was situated about 45 and 35 miles from Forbes and Condobolin respectively, and comprised about 12,500 acres, covered by reserve, and suggested that a scrub lease of the whole area be granted, or that the land be divided into two equal portions and offered under settlement lease conditions. The District Surveyor, in reporting, stated that he had personally inspected a greater part of the area applied for, and was of opinion that the best use to which the land could be put for the next ten years would be to lease it under improvement conditions. The Board, on the 25th September, 1899, recommended the refusal of the application for a scrub lease, and that the land be subdivided into blocks of from 3,000 to 4,000 acres, with one block of 1,560 acres, with a view to being offered as improvement leases by auction. Against this decision of the Board the applicant, A. B. Hope, appealed to the Land Appeal Court. The case came before the Land Appeal Court on the 25th October, 1899, and 23rd November, 1899, when the Court recommended the Minister to grant to A. B. Hope a scrub lease of the area containing, approximately, 11,240 acres for a term of fifteen years at a rental of 1½d. per acre, with the conditions as set forth in Mr. District Surveyor Sharp's report of 29th May, 1899. On the matter coming before the Department, it was approved to accept the Board's recommendation (99-14,240, Occupation). On the 5th January last, Mr. Holman wrote respecting the matter, and drawing attention to the protest by persons in the locality against the granting of the lease.

On

On the 16th January the matter was revised and referred to the Land Board for further report. The members of the Board each furnished a report, and in view of the Land Appeal Court's decision that Hope had a priority of claim, and further, that had the case been returned to them, they would have been bound to make a favourable recommendation. In view of the expression of the views of the chairman and members of the Board, it was approved that a scrub lease be granted to A. B. Hope, under the conditions as proposed by the District Surveyor and the Board, after revision of the Forest Branch. The lease was gazetted on the 2nd May last. Mr. Holman, M.P., now presents a protest from the Secretary of the Bena and Wamboyne Selectors' Association, and to obtain the reasons given by the Minister for his action in granting the lease.—E. C. LANDERS, 25/5/1900. Submitted.

The history of the case may be explained to Mr. Holman.—H. CURRY, 25/5/1900. W. A. Holman, Esq., M.P., informed, 25/5/1900. Approved.—T.H.H., 26/5/1900.

No. 54.

The Under Secretary for Lands to W. A. Holman, Esq., M.P.

Sir,

Department of Lands, Sydney, 25 May, 1900.

Referring to the letter presented by you from Mr. W. A. Ewars, Secretary of the Bena and Wamboyne Selectors Association, relative to the scrub lease granted to Mr. A. B. Hope, I have the honor to inform you that the Local Land Board held an inquiry into the matter on the 21st June, 1899, and came to the following decision:—

"We are disposed to consider this application favourably, excepting as regards the portion of land shown by black hatching; but, before giving our decision, we wish to be furnished with a report by the Department of Public Works as to whether there would be any objection to granting a lease of the subject land for a period of from ten to fifteen years under conditions relating to the growth of scrub (which is increasing under the present form of tenure), also subject to the special condition that the lease may be wholly or partly cancelled if the land should be required in connection with any scheme for the drainage of Lake Cowal, or any other public scheme in connection with irrigation, drainage, or water conservation. We also wish to be informed whether there is any objection, from the same point of view, to the alienation of the area within the limits of the flooded land (known as Nerang Cowal), or to the leasing for a period of twenty-eight years (but without a condition of resumption) as settlement leases."

A report was accordingly obtained from the Water Conservation Branch, in which Mr. M'Kinney states that "while the question of the drainage of Nerang Lake, and the greater part of Lake Cowal, is a matter of no great difficulty, I do not think it would be remunerative at present, and I do not think there is any objection to granting a lease of the land in question for fifteen years." A petition was then lodged against the granting of the scrub lease, which was referred to the Board in connection with their inquiry. The Board, on 22nd and 25th September, further considered the matter, and the following is their recommendation:—"That when the case was before us on the last occasion it was understood that it was closed so far as the taking of further evidence, and we stated that we were disposed to favourably consider the application for the scrub lease, as it was clear from the evidence that it would not be expedient, owing to the very large proportion of flooded land, to recommend any form of settlement which would necessitate residence and continuous occupancy such as are required in connection with settlement leases on holdings composed of original conditional purchases with their associated conditional leases; homestead selectors were considered to be out of the question, owing to the area being limited to 1,280 acres. Moreover, we recognise that it would prove dangerous to dispose of the large portion of Lake Cowal in question under any form of tenure excepting one in which the term could be limited to fifteen years at the utmost, and with a condition giving the Crown the right of resumption in connection with any public scheme for drainage, water conservation, or irrigation. Under the settlement lease provisions the term could not be less than twenty-eight years, and under the conditional purchase and associated conditional lease provisions the land would be practically alienated from the Crown, and, apparently, it would not be legal to introduce a condition of resumption as indicated to attach to holdings of these classes. Holding these views, we desired the opinion of the Department of Public Works on the question of leasing the lake portion. That opinion is now before us, and is to the effect that there would be no objection to granting a lease of the land in question for a period of fifteen years.

"Since the case was last before the Board, a petition, signed by a large number of persons, protesting against the granting of the scrub lease has been presented, and this petition has been forwarded to us by the Secretary for Lands for consideration when dealing with the case. Mr. Cheeseman, agent for applicant, objected to the Board reopening the case, on the grounds that the inquiry had been duly administered; that the time for receiving objections had long since passed; and that the applicant could not be expected, at that late stage, to meet objectors who had come forward after the case had virtually closed. We fully recognise the very unsatisfactory position in which the applicant is placed, and, believing that we are acting Ministerially in this matter, we consider that we are bound to take into consideration, even now, the petition which the Minister has forwarded specifically for our consideration. Had the petition come before us in any other way at this stage, we would not have noticed it. Reviewing the whole case, however, in the light of the evidence offered at the inquiry on the 19th and 21st of June last and at the present further inquiry, we report that our opinion has not been altered in the slightest as regards the advisableness of offering the land under some other form of tenure, or as regards the expediency of disposing of the lands as settlement leases or original conditional purchases and their associated conditional leases, although we are bound to state our conviction that if the land were offered as settlement leases, in areas of about 3,000 acres each, it would be eagerly applied for. The question then presented is—whether the application for a scrub lease by Arthur B. Hope should be granted? Mr. Hope's application is the only one which has been received; the necessary inspection and inquiry have been made at his expense; he has shown the unwisdom of the present form of tenure, and the possibilities of improvement under a secure tenure for a fair term of years; but it is now obvious that (although, in our opinion, a very large number of the petitioners are not specially interested in the question) there are other persons who are willing to take up the land under similar conditions to those proposed by Mr. Hope, and we cannot satisfy ourselves, in view of the evidence given at the later inquiry, that Mr. Hope should, in virtue of the priority of his application, receive a monopoly of this large extent of country; and we therefore recommend that the

application for the scrub lease be refused, and that the land be subdivided in blocks of from 3,000 to 4,000 acres, with one block of 1,560 acres, as shown by black hatching on plan (*Exhibit E*), with a view to being offered as improvement leases by public auction or tender, under the conditions proposed by the District Surveyor in his report (*Exhibit B*) in so far as they will apply, with the further condition of resumption in connection with any public scheme for irrigation, drainage, or conservation of water. The term of the leases to be fifteen (15) years; the upset rental to be determined after subdivision."

The matter was, in view of correspondence received on Mr. Hope's behalf, referred in January last to the Land Board for further report, with the result that each of the members of the Board expressed views favourable to the case being dealt with in the way the Land Appeal Court itself had recommended. In view of the Land Appeal Court's decision and the opinion of the Land Board, the Minister, on a review of the case, decided to grant a scrub lease in satisfaction of Mr. Hope's application. I may mention that on 23rd January last a letter was forwarded to you, intimating that the case had been referred to the Board for report.

It may be pointed out that the case was referred to the Board in January last, after the Appeal Court had dealt with it, and the Board apparently felt that they could hardly deal with the case in open Court in review of the Appeal Court's decision.

I have, &c.,
H. CURRY,
Under Secretary.

No. 55.

Office Memorandum.

Mr. Hope's Scrub Lease.

29 May, 1900.

Mr. HOLMAN, M.P., called and complained that, in his opinion, the action of the Land Board had been inconsistent in this case. I gather that the matter has occasioned some local comment. I explained to Mr. Holman that the Land Appeal Court had dealt with the case; and when the papers were afterwards referred to the Land Board, the chairman and members evidently felt a difficulty in reviewing the Appeal Court's decision in open Court, and thus came to express their individual views, which, taken with the Appeal Court's decision, justified the granting of the lease. I think the papers may be again brought under the notice of the chairman and members of the Board, so that they may understand Mr. Holman's views, and have an opportunity of offering such observations, if any, as they may desire to make.

H. CURRY,
Under Secretary.

I concur.—T.H.H., 31/5/1900. The Acting Chairman, Bourke.—E.L. (for U.S.), B.C., 1/6/1900. I have no further observation to make; may be referred to Mr. Brooke, and then to Mr. Sharpe.—ROBERT McDONALD, Chairman, 8/6/1900. The Clerk in-Charge (Wilcannia), Forbes.

In forwarding these papers in connection with the Chairman's minute on L.B. 1900-8,704, and reply from members of the Board, L.B. 1900-3,792 and 3,793, and at the same time point out that action does not appear to have been taken on Occ. 1900-4,848.—A. J. VILES, Clerk-in-Charge (for Chairman), Forbes, 18/6/1900. The Under Secretary.

[Enclosure.]

Forbes, 18 June, 1900.

With regard to the land in question, every consideration was given to the evidence adduced by the different witnesses as to the nature of the country, and the only conclusion I could come to, as one of the members of the Board, was that, on account of the dense scrub, which is simply a haunt for noxious animals, the fact of its liability to floods, also that it will probably be required at some future time for water conservation in connection with Lake Cowal, of which it forms a part, that the best thing to be done with it was to grant it as a scrub lease. I should certainly recommend that the said lease be granted to Hope for the term of years mentioned in report.

J. G. M. SHARPE,
Member, Local Land Board.

Re A. B. Hope's Scrub Lease.

Forbes, 18 June, 1900.

With regard to the statement that the case when before the Board occasioned a good deal of public comment, I can confidently state that such is not the case. I never heard it spoken of except as coming from the parties interested, and certainly there was no exhibition of public feeling in the matter. Applicant and objectors were all unknown to me. The Board gave the case the most careful consideration, and, on retiring to consider their finding, each member read the evidence over again for himself.

I have known the subject land for between thirty and forty years, have seen it in times of flood and drought, and am satisfied that it is not land suitable for closer settlement, nor, indeed, ever will be. In the public interest, I am of opinion that the finding of the Board was the only correct and possible one.

WM. BROOKE,
Member of Forbes Land Board.

Private and Confidential.—N.B. The principal objectors have the reputation of being fault-finders in anything where they cannot have their own way.

LEGISLATIVE ASSEMBLY.
NEW SOUTH WALES.

APPLICATIONS FOR EXCHANGES OF LANDS.
(RETURN RESPECTING.)

Printed under No. 6 Report from Printing Committee, 26 July, 1900.

RETURN to an *Order* made by the Honorable the Legislative Assembly of New South Wales, dated 12th July, 1900, That there be laid upon the Table of this House a Return showing,—

- “(1.) The number of applications for exchanges of land received by the Lands Department during the year 1895, and the number of such applications not yet finally disposed of.
“(2.) The like information regarding applications received during the year 1896.
“(3.) The like information regarding applications received during the year 1897.
“(4.) The like information regarding applications received during the year 1898.
“(5.) The like information regarding applications received during the year 1899.”

(Mr. Moore.)

RETURN showing the number of applications for exchanges of land received by the Lands Department during the years 1895, 1896, 1897, 1898, and 1899, and the number of such applications not yet finally disposed of.

Year.	Number of applications for exchange of land received by Lands Department.	Number of applications for exchange of land not yet finally disposed of, 17th July, 1900.
1895	131	22
1896	177	59
1897	181	74
1898	127	72
1899	156	110
Totals	772	337

NOTE.—“Final disposal” in the above return is interpreted as “registration of the surrender document in the Lands Titles Office, by which the lands are vested in the Crown,” and also includes applications “refused or withdrawn.”

EUROKA-KEEPIT LAND EXCHANGE.

No. 1.

D. P. Dickson, Esq., to The Under Secretary for Lands.

Sir,

Sydney, 13 July, 1897.

I have been instructed by Dalgety and Company to draw your attention to Keepit Holding, and to offer to exchange the whole of the freehold, conditional purchases, and conditional leases, amounting to about 28,000 acres, for an equal area on Euroka Holding, 631, Central Division, near Walgett.

I would point out the Keepit lands are far more suitable for closer settlement than the Euroka land, and in every way more valuable for subdivision.

I would point out exchanges for the purpose of consolidation have been made in each case, so that the character of the country can be easily ascertained.

I beg to suggest that preliminary reports be obtained from the District Surveyors, and then, if agreeable, application for exchange will be made. Meantime, we are prepared to pay costs of such preliminary reports.

I have, &c.,

D. P. DICKSON.

No. 2.

D. P. Dickson, Esq., to District Surveyor, Tamworth.

Dear Sir,

91, Pitt-street, Sydney, 13 July, 1897.

I have made application to exchange the whole of Keepit freehold, conditional purchases, and conditional leases, about 28,000 acres, and put it in Euroka 631.

I give you this information so that you may be in a position, when subdividing the present exchange, to consider the possibility of a larger area being available.

I have, &c.,

D. P. DICKSON.

Please acknowledge receipt, with thanks, for the information supplied.—R.S. (for District Surveyor). The Chairman. Done.—T. W. WARD (*pro* Chairman), 16/7/97.

The surveys in connection with the Keepit exchange proposal are finished, and action will, I assume, proceed to the final stages. If the proposal referred to by Mr. Dickson is approved, a large area of wheat-land in proximity to Manilla will become available for closer settlement under the homestead selection provisions of the Crown Lands Act of 1895. I understand that proposals are about to be made by which the Crown will acquire about 18,000 acres on Klori and Menedebri—adjoining holdings—suitable also for closer settlement. Should the above proposals eventuate, a homestead selection area of about 55,000 acres, including available Crown lands and land in the process of surrender, can be made with Manilla as its commercial centre. This would make Manilla into an important town, and materially add to the contemplated traffic on the proposed Tamworth-Manilla railway, as at least 100 families, whose main avocation would be the growing of wheat, would be provided with sufficient land to enable them to maintain comfortable homes thereon.—FRED. POATE, District Surveyor, 24/7/97.

No. 3.

Office Memorandum.

Keepit and Euroka Exchange proposal.

23 July, 1897.

ENCLOSED is a proposal to surrender the whole of the station property on Keepit Holding in exchange for a like area on Euroka Holding, No. 631, in the Walgett Land District, and the District Surveyor at Tamworth is requested to report whether, in his opinion, the Crown would reap such advantages from the entertainment of such a proposal as would warrant favourable consideration.

The district surveyor has the Keepit exchange papers now in his hands for effecting survey of the exchange being carried out on that holding, and it is believed that he has a fairly intimate knowledge of the character of the station lands thereon.

The Euroka Holding is outside Mr. Poate's district, but it is presumed that the country, though nearer the Barwon, possesses characteristics somewhat similar to the north-western portion of the Tamworth Board District.

An exchange on Euroka is being effected, and the papers, together with the Euroka appraisalment papers, are forwarded, as they may possibly be of some assistance in arriving at a conclusion. It will be noticed that the Euroka leasehold area fronts the Barwon River, and touches the Walgett population area.

The Euroka exchange papers should be returned as soon as possible, as the deeds of surrender and exchange have been sent to the lessees for signature.

It may be remarked that the fact of the respective holdings being situated so far apart would not be considered an objection to the exchange, provided that, by carrying out the proposals, a positive gain would be assured to the Crown in the direction of securing lands decidedly more advantageous for settlement.

A

A preliminary notice of intention to withdraw land from Euroka leasehold area under section 3 of the Act of 1895 has been gazetted (*vide* copy of notice enclosed, and the papers were sent to the District Surveyor at Moree on 14th April last), for the preparation of a design for settlement subdivision. If the District Surveyor thinks a perusal of these papers would be of value he might write to Moree for them, or for a copy of such matter as would be likely to help him.

C.J.S.

(For the Under Secretary).

Before replying I thought it advisable to see the Euroka papers with the District Surveyor at Moree, for preparation of a design for subdivision. They are, however, with Mr. Surveyor Laing, and, although a month has elapsed since he was asked for them, they are not yet forthcoming. It does not appear advisable to wait any longer for them. The lands proposed to be surrendered on Keepit are, generally speaking, suited for agricultural settlement; they are within the Manilla wheat district, and within the radius of country which will be served by the Manilla railway, and, if acquired by the Department, will be readily taken up by way of homestead selection. I have a personal knowledge of Euroka, though it is many years since I was on the holding, and am satisfied that it is in the interests of settlement, and, therefore, the public interest, that the proposed exchange should be proceeded with. Four families at least can be settled on the Keepit lands for one on the Euroka lands, and the four will be better off, and able to make better homes than the one. I am, therefore, of the opinion that the Crown will reap such advantage from the entertainment of this proposal as warrants its favourable consideration.—FRED. POATE, District Surveyor, 28th August, 1897. The Under Secretary for Lands.

No. 4.

Telegram from District Surveyor, Moree, to District Surveyor, Tamworth.

Moree, 28 July, 1897.

THE Euroka papers are with Surveyor Laing, who is now out on the Barwon; will wire again as soon as I can get them.

W. H. O. M. WOOD,
District Surveyor.

No. 5.

Office Memorandum.

1 October, 1897.

AN exchange, now out for survey, is being effected on Keepit Holding, under which the owners are surrendering the lands edged red, for the areas edged blue on heliograph "A." Messrs. Dalgety & Co. now propose to surrender the whole of the Keepit lands, about 28,000 acres, tinted red on heliograph "A," in exchange for an equal area on Euroka Holding, near Walgett, *vide* lithograph "B."

The northern part of Euroka, adjoining the Walgett population area, is being withdrawn under section 3 of the Act of 1895, for settlement purposes, and the District Surveyor, Moree, proposes to subdivide it into thirteen settlement lease farms, ranging from 1,500 to 2,900 acres.

The matter of the exchange has been referred to the District Surveyor at Tamworth, who is of opinion that the proposals, if carried out, would be of manifest advantage to the Crown. He has a fair knowledge of both holdings, and thinks that four families could be settled on the Keepit lands for one on the Euroka lands, and that the four would make better homes than the one.

It is the southern part of Euroka that Messrs. Dalgety wish to acquire.

The Keepit lands are only about 20 miles from Gunnedah, and from their quality and nearness to market, would apparently be of greater value for settlement purposes than the Euroka lands; it is therefore submitted that applicants be informed that if they will lodge an application on the proper form, with fees to effect the exchange, together with their acquiescence in the usual condition of relinquishing to the Crown improvements on the surrender portions, the matter will be referred to the Land Board for report.

C. J. SAUNDERS.

Under Occupation 97-10,491, the withdrawal from Euroka for settlement purposes of the half nearest Walgett has been recommended.

The proposal is no doubt an advantageous one, looked at from a broad standpoint, but the residents of Walgett may object, on the ground of so large an area being absorbed by practically one person, notwithstanding the resumption of about 30,000 acres from the northern portion of the Euroka leasehold.—W. HOUSRON, Under Secretary, 1/10/97.

Approved to let matter proceed for the present.—J.H.C., 4/10/97. D. P. Dickson informed, 8/10/97.

No. 6.

The Under Secretary for Lands to D. P. Dickson, Esq.

Sir,

Department of Lands, Sydney, 8 October, 1897.

Referring to your letter of the 13th July last, submitting a proposal for the surrender of the whole of the station freeholds, conditional purchases, and conditional leases, on Keepit Holding, in exchange for an equal area on Euroka Holding, I have the honor to inform you that if you will lodge an application on the proper form with the necessary fees to effect the exchange, together with consent to relinquish the improvements on the surrender portions, the same will be referred to the Local Land Board for inquiry and report.

I have, &c.,

WM. HOUSTON,
Under Secretary
(Per W.H.C.).

No. 7.

No. 7.

D. P. Dickson, Esq., to The Under Secretary for Lands.

Sir,

Sydney, 13 October, 1897.

I have been instructed by the lessees of Keepit and Euroka to enclose applications for exchange of some 28,396 acres, more or less, on Keepit Holding, for an equal area on Euroka, No. 631, Central Division. In this case I would ask that one District Surveyor, or someone appointed, may inspect both places so as to give evidence before both courts, otherwise it would be difficult for the Boards to report and recommend what should be done.

In this application I would point out we have not given all portions separately, but the area is approximately 28,396 acres, and includes the whole land on Keepit owned by Dalgety and Company, and is shown on a plan which we lodged.

I have, &c.,

D. P. DICKSON.

Application has now been lodged for the exchange, but no consent to relinquish improvements given. Ask applicant to forward his consent to surrender the improvements.—E.A.B. (for Under Secretary), 18/10/97. D. P. Dickson asked, 19/10/97.

[Enclosure.]

Form 77.—Crown Lands Acts.

Application by the Owner to Surrender Land in Exchange for Crown Land.

RECEIVED a deposit of £10 and a provisional survey fee of £54.

The Treasury, Sydney, 13 October, 1897.

J. WALFORD

(Pro Treasurer).

Exhibit A 52.—
Chairman,
C. MacF.,
20/2/00.

IN accordance with provisions of section 47 of the Crown Lands Act of 1895, we, Dalgety and Company (Limited), being the holders of grants of the lands specified on the back hereof, and the holders of lands specified on the back hereof, in respect of which the only unfulfilled condition is that of payment of balance of purchase money, within Keepit Holding, No. 492, in the Eastern Division, hereby apply to surrender the same in exchange for the Crown lands described on the back hereof; particulars of the improvements on the respective areas are set forth in the schedules appended.

Signed this 13th day of October, 1897.

DALGETY AND COMPANY (LIMITED),

WM. KILGOUR, Manager.

The Under Secretary for Lands.

[Particulars of Lands to be surrendered and of the improvements thereon.

Land Districts of Tamworth and Gunnedah, counties of Darling and Nandewar.

Area, 6,206½ acres freehold; 14,944 acres conditional purchase; 7,245½ acres conditional lease. Total, 28,396 acres, being the whole of the land held by Dalgety and Company (Limited) on Keepit Holding.

Particulars of Crown lands applied for in exchange, and of the improvements thereon.

Land District of Walgett, county of Leichhardt.

28,396 acres within the leasehold area of Euroka Holding, No. 631, Central Division, in parishes of Gunna, Tooloora, and Colimia.

No. 8.

The Under Secretary for Lands to D. P. Dickson, Esq.

Sir,

Department of Lands, Sydney, 19 October, 1897.

Referring to your letter of the 13th instant, lodging application for exchange of land within Keepit and Euroka Holdings, I have the honor to request that you will be good enough to forward the lessees' consent to relinquish the improvements on the surrender portions.

I have, &c.,

WM. HOUSTON,

Under Secretary

(Per W.H.C.).

No. 9.

D. P. Dickson, Esq., to The Under Secretary for Lands.

Sir,

Sydney, 26 October, 1897.

I have been instructed by Messrs. Dalgety and Company to reply to your favour of 19th instant, noted in the margin, and to state, in the Keepit and Euroka proposed exchange, they are willing to surrender in event of exchange being carried out, to relinquish all improvements on the surrendered portions, which cannot be removed.

I have, &c.,

D. P. DICKSON.

Exhibit B. 52.—
Chairman,
E. MacF.,
20/2/1900

The Chairman, Local Land Board, Tamworth. For inquiry in the first instance, in accordance with approval on Alienation 97-12,031.—E.A.B., per J.B. (for Under Secretary), B.C., 30/10/97. The District Surveyor.—WILLIAM FREEMAN, Chairman, 3/11/97. Mr. Crocker,—To note maps in first instance.—R.S. District Surveyor at Moree informed of proposal, and asked for tracing or lithographs of Euroka lands.—R.S., 16/11/97. Mr. Surveyor Sendall for necessary inspection and report.—FRED. POATE, District Surveyor, 22/2/98. The Draftsman in Charge for preparation of schedule of the whole of the lands offered for surrender, and tracings of original plans.—W. NEVILLE SENDALL, Acting District Surveyor, 5/3/98. Returned to the District Surveyor with my report of the 26th August, No. 99-8,—W. NEVILLE SENDALL, Surveyor, 30/8/99.

No. 10.

No. 10.
Office Memorandum.

Tamworth, 16 November, 1897.

THE District Surveyor at Moree is informed that the Minister has referred for consideration and report, by the Local Land Board at Tamworth, a proposal by Dalgety and Company (Limited), for the surrender of the whole of their Keepit estate in the county of Darling, a total of 28,396 acres (by the application), in exchange for an equal area of Crown land on the southern part of their Euroka leasehold area, No. 631, Central Division.

To enable me to report fully on the application it is requested that you will have me supplied with a tracing or charted up parish lithographs showing the whole of the Crown and alienated lands within that part of Euroka not embraced by the withdrawal, which is, I understand, being made from the holding under section 3 of Crown Lands Act, 1895; and also showing the design or measurements (if effected) of any subdivisions which abut on the limits of the leasehold area and adjacent alienated lands.

FRED. POATE,
District Surveyor.

The District Surveyor, Moree.

2 December, 1897.

Mounted lithographs showing the whole of the leasehold area of Euroka Pastoral Holding, No. 631, herewith.

The area to the north of the subdividing line, under section 3 of the Crown Lands Act of 1895, shown by red broken band, has been withdrawn under that section. Portion 7 is contracted to be granted by way of exchange for the isolated blocks about the holding. The papers in connection with the exchange (in its final stages) are at head office.

All measurements abutting on the leasehold area have been shown.

J. T. SMALL,
Pro District Surveyor.

The District Surveyor, Tamworth.

No. 11.

S. W. Moore, Esq., M.P., to The Chairman, Local Land Board, Tamworth.

Sir,

Parliament House, Sydney, 17 November, 1897.

Referring to the proposed exchange of Keepit land, the papers in connection with which (No. 97-8,626 alienation) are, I understand, under reference to you.

I have the honor to request that your Board's inquiry may be held at Manilla, it being the nearest town to the land, and most convenient to persons in the district who may wish to give evidence in regard to the proposal.

I have, &c.,

S. W. MOORE.

For report on Mr. Moore's request.—WILLIAM FREEMAN, Chairman, 19/11/97. The District Surveyor.

The matter has not yet reached the stage when the place of hearing by the Board can be determined, which will naturally be place most convenient to the majority of the parties interested.—FRED. POATE, District Surveyor, 19/11/97.

Mr. Moore informed by memorandum to-day.—W.F., 19/11/97.

No. 12.

Office Memorandum.

Moree, 4 December, 1897.

WITH reference to the map showing the leasehold area of Euroka, No. 631, recently furnished to you by this office for the purpose of reporting on an application for exchange by the lessees of the holding, I beg to inform you that portions 5 and 8, parish of Tooloora, country of Leichhardt, Catherine Kenna's conditional purchase 91-91 and conditional lease 91-85 are vacant, the conditional purchase and conditional lease being forfeited on the 20th October, 1897.

The land has been reserved, *vide Gazette* of the 24th November, 1897, from all forms of application.

M. ROGERSON,
Pro District Surveyor.

The District Surveyor, Tamworth.

Mr. Crocker. Amend map accordingly, and connect this with papers.—R.S., 14/12/97. Map amended.—T.H.C., 17/12/97.

No. 13.

D. P. Dickson, Esq., to The Chairman, Local Land Board, Tamworth.

Dear Sir,

Sydney, 16 March, 1898.

Could you inform me when and where the proposal for exchange of Keepit on to Euroka will be heard. I understand Manilla was to be the court; is this so?

I have, &c.,

D. P. DICKSON.

Inform that I cannot state, even approximately, when the proposal will be referred to a Local Land Board, as the necessary field inspections have not, so, I understand, been made. Add that I find that the instructions to inspect are with Mr. Surveyor William Sendall (at present Acting District Surveyor) now down the Namoi River on an inspection tour. His present address is, care of Edgeroi Station, Narrabri (his

(his ordinary address is Gunnedah). The place of hearing will depend upon circumstances after advertising for objections, and may possibly be Manilla, or possibly Pilliga.—WILLIAM FREEMAN, Chairman, 19th March, 1898.

Done.—A.M.D., 19/3/98. Memorandum to Mr. Acting District Surveyor Sendall, care of Edgeroi Station, Narrabri, to-day, urging early inspection, &c.—W.F., 21/3/98.

No. 14.

The Chairman, Local Land Board, Tamworth, to Acting District Surveyor.

Tamworth, 21 March, 1898.

I HAVE before me a letter of 16th instant from D. P. Dickson, of Pitt-street, Sydney, agent for the applicants in the matter of Euroka-Keepit Exchange proposal, asking when and where the matter is likely to come on for hearing before a Local Land Board.

I find that the main papers in the matter are with you for the purposes of inspection and investigation, and Mr. Dickson has been so informed, and that the hearing may possibly be at Manilla, or possibly at Pilliga.

The place for hearing will depend upon circumstances, and quite possibly the hearing may be ultimately fixed for Narrabri.

In view of the probable special importance of the proposal, it seems to me especially desirable that there should be early inspection and report, this, notwithstanding the numerous other instructions in your hands, requiring attention.

WILLIAM FREEMAN,
Chairman.

I cannot say when this case will be ready for hearing, but it is counted as one among those of importance, and will be dealt with as soon as possible.—W. NEVILLE SENDALL, Acting District Surveyor, Narrabri, 25/3/98. The Chairman, Land Board, Tamworth.

No. 15.

D. P. Dickson, Esq., to The Chairman, Local Land Board, Tamworth.

Dear Sir,

Sydney, 29 April, 1898.

Referring to your favour noted in the margin, dated 19th March, I would ask that this exchange may be set down for hearing as soon as possible.

I have, &c.,

D. P. DICKSON.

98-1891, L.B.
Keepit to
Euroka.

Referred to the District Surveyor.—E. G. MARKHAM, 2/5/98. Mr. Surveyor Sendall, in connection with previous papers.—F.P., 14/4/99.

No. 16.

Report on Euroka-Keepit Exchange Proposal.

Mr. Surveyor Sendall to The District Surveyor, Tamworth.

Sir,

Gunnedah, 26 August, 1899.

In compliance with instructions of the 22nd February, No. 98-5, papers Alienation 97-12,863, Land Board, 97-8,603, I have the honor to submit the following report on a proposal made by Dalgety & Co. (Limited), under the 47th section of the Crown Lands Act of 1895, to surrender lands amounting to 25,758 acres 3 roods 28 perches, in the parishes of Baldwin, Dowe, Keepit, and Namoi, county of Darling, Land District of Tamworth, Eastern Division; and lands amounting to 2,470 acres 2 roods, in the parishes of Tulcumba and Willuri, county of Nandewar, Land District of Gunnedah, Central Division, being the whole of the freehold, conditionally-purchased and conditionally-leased lands, comprised in their holding known as Keepit, for an equal total, and of 28,229 acres 1 rood 28 perches, in the parishes of Gunna, Taloor, and Euroka, county of Leichhardt, Land District of Walgett, Central Division, leasehold area of Euroka Pastoral Holding, No. 558, Central.

Inspection of the land applied for on Euroka was made on the 5th and 6th July, 1898, and of the lands offered for surrender on Keepit between the 9th and the 23rd May, 1899.

The lands offered for surrender are shown on heliograph herewith marked A by red tint (excluding the lands edged red, which have been surrendered under a previous exchange) and by blue edging. (Exhibit II 52.)

The lands applied for in exchange are shown on a lithograph herewith marked B by blue hatching. (Exhibit JJ 52.)

Detail descriptions of the lands offered for surrender are given on tracings herewith marked C, D, and E, and of the lands applied for in exchange on tracing marked F, all of which are my original field notes made at the time of inspection. (Exhibit HH 52.)

Of the lands offered for surrender, about 16,500 acres are suitable for agriculture or grazing, and range in value from 25s. to 57s. 6d. per acre, and the balance of about 11,730 acres is suitable for grazing only, ranging in value from 17s. 6d. to 30s. per acre.

The formation is basaltic and slaty.

The area classed as agricultural gently undulating, timbered with box and ironbark (silver-leaved).

That classed as grazing only, stony ridges, in places steep and rough; timbered with box, ironbark, and pine, and some of it thickly covered with young pine. There is a fair amount of currajong all over it.

A small area—40 acres—of nice flat, on portion 2, parish of Keepit, is suitable for lucerne-growing, 9 acres are under lucerne, established about fifteen years, and still producing good crops, and 3 acres have been recently sown with lucerne.

It

and F, see items
96 to 101
inclusive.

It is probable that about 50 acres on the frontage of portion 16, parish of Namoi, which is under cultivation, would grow lucerne, and also about 100 acres on the frontage of portions 46 and 17, in the same parish; but these places have not been proved.

The soil varies from a rich red and chocolate pliable loam to a stiffer, reddish loam, with clay sub-soil, and on the river frontages, and some of the small flats bordering creeks, from a dark chocolate to black soil.

Water can be readily obtained and conserved, which is a great consideration for the purpose of close settlement. There are about 9 miles of frontage to the Namoi River on surrender lands, of which about 4 miles are to both sides of the river. There are a few springs—Spring Gully, on portion 95, parish of Namoi; Bills' Plains Gully, portions 65 to 68, parish of Keepit; Halla Linga Creek, portions 60, 61, and 111, parish of Namoi; Drafting-yard Creek, portion 23, parish of Dowe; and in the gully through portion 37, parish of Dowe. Good sites for tanks and dams are numerous, and water has been obtained in wells from 18 to 25 feet deep. There are other wells, now out of repair, at greater depths—about 50 feet—which, judging by remains of troughing attached, have been at one time used.

The country generally presents the same characteristics as that in the parishes of Manilla, Dinawarindi, Veness, and Cuirindi, which is becoming noted as specially adapted for the production of good wheat crops.

A considerable proportion of the holdings, surrounded by and adjoining the lands offered for surrender, has been, and is, successfully cultivated.

Crops of from 15 to as high as 40 bushels of wheat to the acre may be expected, according to the seasons, and I consider 20 bushels to the acre a very moderate estimate of the average yield probable over the whole area classed as agricultural.

As a grazing area the whole, if fully improved, would probably carry a sheep to 2 acres on an average of good and bad seasons for wool-growing, and in favourable seasons the country, classed as agricultural, would grow herbage and fatten stock.

In its natural condition it is, more or less, grass—seedy and sour—and the stock in it require to be provided with salt.

I estimate that the lands offered for surrender are capable of supporting about forty-five families on the same number of separate holdings, varying in area from 480 to 1,280 acres.

This country is situated from about 11 to 20 miles from the railway at Manilla, and part of it from about 15 to 21 miles from the railway at Gunnedah, both of which places are reached by good roads.

The rainfall is about 28 inches per annum.

The lands asked for in exchange are suitable for grazing only, and consist partly of open plains, with a few myall, whitewood, beefwood, redwood, dogwood, and crewy trees, rich red and chocolate soils, partly open and moderate coolbar timber on black soil, with, in places, a growth of polygonum, and open plains with heavy polygonum, more or less liable to inundation, and partly open to moderate myall timber, few whitewood, dogwood, crewy, &c., on black soil, with a few patches of scalded red country through it; all fattening country, with a carrying capacity of one sheep to 2 acres when fully improved, grass and herbage land which I value at from 25s. to 30s. per acre.

There is no natural permanent water supply, but water can be conserved in tanks and dams. Artesian water can be obtained. There is a successful private bore on portion No. 7, parish of Gunna, the water from which had flowed about 3 miles to date of inspection, about 2¼ miles being through the land sought in exchange.

There is also a successful Government bore on travelling stock and camping reserve 25,087, parish of Toloora.

The Euroka Homestead, which is on portion No. 7, parish of Gunna, and about the centre of the holding, is about 15 miles from Walgett, about 145 miles from Narrabri railway, *via* Walgett, and about 120 miles, *via* Goangara, and about 165 miles from Dubbo railway, *via* Coonamble.

The country is only suitable for pastoral occupation, and I consider that about 2,560 acres would be necessary for the maintenance of a family—say twelve families on the 23,229 acres.

The rainfall is about 20 inches per annum.

For convenience of reference these lands have been marked on tracing F with the letters A to G.

In view of the large proportion of agricultural land offered for surrender, its proximity to railways, abundant rainfall, facilities for obtaining water in addition to natural supply, and general suitability for close settlement, as against the purely pastoral capabilities of the land asked for in exchange, its distance from market, and limited capricious rainfall, I have no hesitation in recommending the proposed exchange for favourable consideration as one which is very much to the advantage of the Crown for settlement purposes, while at the same time the lands offered to the Crown have a larger market value than those asked for in exchange.

The reserves included in the lands asked to be granted are no longer required in the public interest, and there is no objection to their cancellation, with a view to the land being disposed of by way of exchange.

The railway line trial survey from Walgett to Coonamble (railway reserve 1,656) passes through the lands asked to be granted, and it is advisable that the Crown should reserve the right to resume any land required for railway purposes without compensation for severance.

Schedules are enclosed giving particulars of the character, areas, and values of lands offered for surrender, and of those proposed to be granted in exchange, and approximate values of the improvements thereon; making a total area of 28,229 acres 1 rood 28 perches, valued at £43,735 6s. 2d., offered for surrender, and a total area of 28,229 acres 1 rood 28 perches, valued at £37,074 5s. 8d. proposed to be granted in exchange, a difference in favour of the Crown of £6,661 0s. 6d.

The improvements on the lands offered for surrender are valued at £3,815 14s. 6d., and those on the lands proposed to be granted in exchange at £1,490 10s., a difference in favour of the Crown of £2,325 4s. 6d.

I have, &c.,

W. NEVILLE SENDALL,

Surveyor.

Time occupied in service—Field, 7½ days; office, 11½ days.

[Enclosure.]

[Enclosure.]

SCHEDULE of Lands accepted of the surrender of which is recommended under section 47 of the Crown Lands Act of 1895, on Keepit Holding No. 492, Eastern Division, Land Board District of Tamworth.

EUROKA KEEPIT EXCHANGE PROPOSAL.

 Exhibit GG. 52.—Chairman, E. MacF., 20/2/1900.

W. NEVILLE SENDALL.

No. 17.

Office Memorandum.

District Surveyor's Office, Tamworth, 15 September, 1899.

Exhibit LL 52.—
Chairman,
E. MacF.,
21/12/1900.

AN application having been lodged by Dalgety and Company for an exchange of lands under the 47th section of the Crown Lands Act of 1895, in the parishes of Dowe, Baldwin, Keepit, and Namoi, county of Darling, Land District of Tamworth, Eastern Division, and in the parishes of Willuri and Tulumba, county of Nandewar, Land District of Gunnedah, Central Division, for an equal area in the parishes of Gunna, Toloora, and Euroka, county of Leichhardt, Land District of Walgett, Central Division, leasehold area of Euroka Pastoral Holding, No. 558, Central Division.

An inspection was made by Mr. Surveyor Sendall, who has submitted the enclosed report.

The lands proposed for surrender are shown on heliograph, marked "A," by blue edging and red tint (excluding the lands edged red, which have been surrendered under a previous exchange, and the lands proposed to be granted in exchange are shown on heliograph marked "B" by blue hatching.

The lessee agrees, in the event of the exchange being carried out, to relinquish all improvements on the surrendered lands which are irremovable, *vide* Land Board, 97-8,603.

The aggregate area to be surrendered under this proposal is 28,229 acres 1 rood 28 perches, valued at £43,735 6s. 2d., and improved to the value of £3,815 14s. 6d.

Of these lands it is estimated that 16,500 acres are arable, and 11,730 acres are suitable for grazing.

The equal area proposed to be granted to the lessee is worth £37,074 5s. 8d., and improved to the value of £1,490 10s., showing a difference in the values of the land in favour of the Crown of £6,661 0s. 6d.

The reserves included can be revoked without detriment to public interests.

This exchange will tend to consolidate applicant's estate in the Walgett district, and will place at the disposal of the Crown a large area of land suitable for close settlement, with a good rainfall, within easy distance of a railway, of superior market value, and in a district proved to be a successful one for agricultural pursuits.

It is, therefore, recommended for favourable consideration.

Costs to date, including surveyor's inspection and report, £43 10s. 7d.

CHAS. THURBURN,
Acting District Surveyor.

The Chairman.

Notices and sketches (two) sent to Crown Land Agents, Tamworth, Walgett, Narrabri, and Gunnedah, and postmaster, Manilla, for posting, and notice to Local Land Board, Moree, for posting, and notice posted outside this office, and advertisements sent to *Government Gazette, Tamworth News, Walgett News, Narrabri Herald, and Namoi Independent*, 12th October, 1899. Objections to be lodged by the 18th November, 1899.—A. M. DUNN.

Will the District Surveyor please supply letters in connection with this exchange for exhibition at the Local Land Board Office, Moree?—E. G. MARKHAM, *pro* Chairman, 13/10/99. Notice and sketches (two) sent to Local Land Board Office, Moree, for posting, 16th October, 1899.—A.M.D. Advertisements sent to *Moree Examiner* and *Moree News*, 21st October, 1899.—A.M.D.

No. 18.

Euroka (Walgett Land District); Keepit (Tamworth Land District); Moree Land Board District; Tamworth Land Board District—Proposed exchanges.

THIS matter is, or was when I left Tamworth, on the 5th instant, with the Acting District Surveyor there.

It was my intention to ask direction, under section 5, Crown Lands Act of 1889, for the Narrabri Local Land Board to conduct the inquiry, and I am still of opinion that the Narrabri Board should be so directed, after asking the Acting Chairman at Moree if he concurs in the proposed course.

WILLIAM FREEMAN,
Chairman, Local Land Board, Tamworth

(Now in the Metropolis, about to take up duty as Acting Chairman, Bourke),
Sydney, 13 October, 1899.

Edward MacFarlane, J.P., Chairman, Bourke
(About to take up duty as Acting Chairman, Tamworth).

Will the Acting Chairman at Moree favour me with an expression of his opinion at his early convenience, addressed to Tamworth?—EDWARD MACFARLANE, 13 October, 1899. The Acting Chairman, Moree.

The land offered in surrender is near Manilla; that asked for in exchange is near Walgett, and it seems to me the case should be dealt with either at Manilla or Walgett, so as to afford local residents an opportunity of objecting or otherwise, if they so desire. If the proposed exchange is effected Manilla benefits and Walgett suffers. Narrabri is about 150 miles from Manilla, by rail, and about 130 miles from Walgett, by coach; if the case is heard there it practically shuts out local criticism, etc. As no objection need be anticipated from Manilla, I think the hearing should be at Walgett; at the same time, I am aware that Mr. Freeman's opinion is entitled to the greatest respect, and shall, personally, be pleased if it prevails.—FRED POATE, Acting Chairman, 21st October, 1899. The Chairman, Tamworth.

Acknowledge. Say I will communicate further on 19th or 20th November, after last day for receipt of objections.—E. MACF., 27th October, 1899. Informed.—E.G.M., 27/10/99.

The Honorary Secretary, Walgett Branch, Farmers and Settlers' Association, to
The Secretary for Lands.

Sir, Walgett, 24 October, 1899.

I have been directed by the committee of the Walgett Branch of the Farmers and Settlers' Association of New South Wales to inform you that the following resolutions have been carried by that committee:—

Exhibit N 52.—
Chairman,
E. MacF.,
20/2/1900.

* * * * *
"That this committee strongly protests against the exchange of land between the holdings of Euroka and Keepit; also against any further exchanges contemplated in the Central Division."

I am directed to point out that, owing to the great demand for land by *bona-fide* applicants in this district, the proposed exchange would be most undesirable in the public interest, and my committee, therefore, respectfully solicits your interference.

I have, &c.,

THOMAS CLARKE,
Honorary Secretary.

Extract from the Supplement to the Government Gazette, 25th October, 1899.

Revocation of Special Area No. 19,832.

Proclamation.

New South Wales, } By His Excellency the Right Honorable William, Earl Beauchamp, Knight Com-
to wit. * } mander of the Most Distinguished Order of Saint Michael and Saint George,
(L.S.) } Governor and Commander-in-Chief of the Colony of New South Wales and its
Beauchamp, } Dependencies.
Governor. } Exhibit E. 52.—
E. MacF.,
20/2/1900.

WHEREAS a certain portion of Crown land was set apart as a special area by a Proclamation of the 31st March, 1894: And whereas it is deemed expedient to revoke such special area: Now, therefore, I, William, Earl Beauchamp, the Governor aforesaid, with the advice of the Executive Council, do hereby proclaim that so much of the said Proclamation as relates to the land hereunder described shall be revoked and absolutely cease and determine from and after the publication hereof in the *Government Gazette*:—

Eastern Division.—Land District of Tamworth.

Special area 19,832, proclaimed 31st March, 1894; county of Darling, parish of Baldwin, containing an area of 41½ acres. The Crown lands within the boundaries of measured portion 217 of 41½ acres,—as shown on plan catalogued D. 2,559—1,808.

NOTE.—Reserve 30,121 from sale pending completion of exchange, notified this day, embraces the above.

Given under my Hand and Seal, at Government House, Sydney, this twenty-fourth day of October, in the year of our Lord one thousand eight hundred and ninety-nine, and in the sixty-third year of Her Majesty's Reign.

By His Excellency's Command,
T. H. HASSALL.

NOTE.—The above embraces special area No. 19,832, revoked this day.

No. 40.

The Chairman, Local Land Board, Tamworth, to The Chairman, Local Land Board, Moree.

27 October, 1899.

I BEG to acknowledge receipt of your B.C. memorandum of 21st instant, in connection with the Keepit-Euroka exchange.

I will communicate further on the 20th November—after last day for receiving objections—in connection with this matter.

EDWARD MACFARLANE,
Chairman, Land Board, Acting at Tamworth
(per E.G.M.).

Please inform me, at your early convenience, whether you contemplate any action towards having the case dealt with at Walgett, as the Board meets there from 15th to 19th January next.—FRED. POATE, Acting Chairman, Local Land Board, Moree, 30/10/99. The Under Secretary for Lands.

As it is the Walgett District which would lose land by absorption under the exchange, the case should obviously be also heard by the Board at that place, to give the residents in the locality an opportunity of expressing their views. The Chairman is requested to state whether any decision bearing upon the point has yet been given on the papers.—C. E. RENNIE (for the Under Secretary), 8/11/99. The Chairman, Tamworth.

I have the honor to state—Land Board 97-8,603, Tamworth, enclosure—Alienation 97-12,031. Submission by Mr. C. J. Saunders, endorsed by Under Secretary. Minister has written, "Approved to let matter proceed for the present.—J.H.C., 4/10/97." Application in due form, 13/10/97. Consent to surrender improvements, Land Board, 97-8,603; alienation, 97-12,863. Thereon reference to Chairman, Local Land Board, Tamworth, 30/10/97. Referred to District Surveyor, 3/11/97. Mr. Sendall's report, 30/8/99. I communicated with Mr. Acting-Chairman Poate as to locality of hearing, and promised to communicate with him further on 20th November—that is, after last day for objections. I propose on that date to make a definite recommendation as to place of hearing.—EDWARD MACFARLANE, Chairman of Land Board, Acting for Tamworth Land Board District, Gunnedah, 14/11/99. The Under Secretary for Lands.

Walgett Farmers and Settlers' Association.

Walgett, Monday.

At a public meeting convened by the Farmers and Settlers' Association on Saturday, the following resolutions were passed:— Exhibit BB 52.—
Chairman,
E. MacF.,
20/2/1900.

1. That this meeting most strongly protests against the proposed exchange of an area of land on Dalgety and Company's Euroka Holding for an equal area at or near Keepit, the land on Euroka being far more valuable than that offered in exchange.

2. That such exchange would be inequitable, and an injury to the best interests of Walgett and district; and, in view of the extreme differences in value and situation, would be unjust to the people and State.

3. That the proposed exchange of a portion of selection area on Euroka Holding for an equal portion on Bell's holding, is unjust to intending selectors, and is only sought for individual benefit.

4. That this meeting emphatically protests against the proposal of the delegates of the Orange Conference of the Farmers and Settlers' Association of New South Wales, that when a selector had once had land confirmed, the Board should be instructed not to inquire into his *bona fides* when an additional application was made, as likely, if granted, to perpetuate dummyism, and lead to the fraudulent acquirement of large holdings.

5. That these resolutions be forwarded to the Minister for Lands.

6. That this meeting should use every legitimate effort to have the Walgett railway speedily constructed, the route to be fixed by the Government.

7. That these resolutions be forwarded to the Minister for Works.

No. 44.

Extract from *Daily Telegraph*, 7th November, 1899.

Walgett Farmers' Association.

Walgett, Monday.

At a public meeting convened by the Farmers and Settlers' Association of Walgett and district, held in the School of Arts, on Saturday, the following resolutions were passed unanimously:— Exhibit CC 52.—
Chairman,
E. MacF.,
20/2/1900.

1. That this meeting most strongly protests against the proposed exchange of an area of land on Dalgety and Company's Euroka Holding, Walgett, for an equal area at or near Keepit, the land on Euroka being far more valuable than that offered in exchange.

2. That such an exchange would be inequitable, and an injury to the best interests of Walgett and district; and, in view of the extreme differences in value and situation, would be unjust to the people and State.

3. That the proposed exchange of a portion of a selection area on Euroka Holding for an equal portion on Bell's Holding is unjust to intending selectors, and is only sought for individual benefit.

4. That this meeting emphatically protests against the proposal of the delegates of the Orange Conference of Farmers and Settlers' Association of New South Wales, that when a selector had once had his land confirmed, the Board should be instructed not to inquire into his *bona fides* when an additional application was made, as likely, if granted, to perpetuate dummyism, and lead to the fraudulent acquirement of large holdings.

5. That this meeting should use every legitimate effort to have the Walgett railway speedily constructed, the route to be fixed by the Government.

The Honorary Secretary, Walgett Branch Farmers and Settlers' Association,
Walgett, to The Chairman, Local Land Board, Tamworth.

Sir,

Walgett, 7 November, 1899.

Exhibit V 52.—
Chairman,
E. MacF.,
20/2/1900.

I beg to acknowledge receipt of yours of 27th ultimo, Land Board, 99-7,824, *re* Euroka and
Keepit exchange.

In reply, I beg to inform you that my Association will meet on the 16th instant, when some one
will be appointed to give evidence either at Narrabri or Pilliga.

I have, &c.,

THOMAS CLARKE,
Honorary Secretary, Walgett Branch, Farmers and Settlers'
Association of New South Wales.

No. 46.

The Secretary, Farmers and Settlers' Association, Walgett, to The Secretary for
Lands.

Sir,

Walgett, 9 November, 1899.

Exhibit W 52.—
Chairman,
E. MacF.,
20/1/1900.

I have the honor, by instructions from the Farmers and Settlers' Association of Walgett and
district, to forward you resolutions adopted unanimously at a public meeting held here on the 4th instant.

I have, &c.,

JOHN E. CULLEN,
Secretary.

That this meeting most strongly protests against the proposed exchange of an area of land on Dalgety
and Company's Euroka Holding, Walgett, for an equal area at or near Keepit, the land on Euroka
being far more valuable than that offered in exchange.

That such exchange would be inequitable, and an injury, to the best interest of Walgett and district;
and, in view of the extreme differences in value and situation, would be unjust to the people and
the State.

That the proposed exchange of a portion of the selection area in the Euroka Holding for an equal
portion of Bell's Holding is unjust to intending selectors, as it is only sought for individual
benefit.

Ask the Chairman at Moree if the case is set down for hearing, and where the Board meeting will
be held.—E.A.B. (for Under Secretary), 16/11/99. Chairman, Moree, 16/11/99.

No. 47.

Questions and Answers, Legislative Assembly.

THURSDAY, 16 NOVEMBER, 1899.

Question No. 12.

(12.) Application for exchange of land by Messrs. Dalgety and Company:—Mr. Willis asked the
Secretary for Lands:—

- (1.) Is it a fact that Messrs. Dalgety and Company are applying for an exchange of certain lands near
Walgett for certain other lands not situated in the district of Walgett?
- (2.) Is it a fact that those persons in and about Walgett who might reasonably be expected in the public
interest to object to such exchange are invited by the Land officials to put in an appearance at their
own expense at a court to be held at Moree, some 250 miles away?
- (3.) Is it usual to ask the public to help the investigators of such exchange at their own expense to such
an extent?
- (4.) If not, will he cause the investigation by the Court to be extended to Walgett, or allow expenses to
such persons as may desire to go to Moree to object?

Mr. Hassall answered,—

- (1.) An application to surrender land on the Keepit Pastoral Holding, in exchange for land, Euroka
Holding, has been made by Messrs. Dalgety and Company. This case is now in the hands of the
Local Land Board at Tamworth, with a view to inquiry so far as the Keepit lands are concerned,
after which an inquiry will be held by the Walgett Land Board with regard to the Euroka lands. At
these inquiries any objections will be heard.
- (2.) No.
- (3.) No.
- (4.) See answer to No. 1.

MESSRS. William A. Bell, Thomas Clarke, give evidence Pilliga *re* Euroka-Keepit exchange.

THOMAS CLARKE,

Honorary Secretary, Farmers and Settlers' Association.

Acknowledge receipt, and thank him for communication.—E. MacF., 21/11/99. Done.—
A.M.D., 21/11/99.

No. 50.

The Honorary Secretary, Farmers and Settlers' Association, Walgett, to The
Chairman, Local Land Board, Tamworth.

Sir,

Walgett, 20 November, 1899.

On Saturday last I wired you as follows:—"Messrs. W. A. Bell and T. Clarke will give
evidence at Pilliga *re* Euroka-Keepit exchange," and I now beg to confirm that wire.

I notice by the paper that the Minister for Lands, in reply to a question, stated that inquiry *re*
Euroka would be held in Walgett. If this is so, I presume there will be no necessity for Walgett
witnesses attending Pilliga.

I will be greatly obliged if you will be good enough to answer the following:—Can the evidence
of Messrs. Bell and Clarke be taken in Walgett?

If in the negative, on what date will the witnesses be required at Pilliga?

Awaiting the honor of an early reply.

I have, &c.,

THOMAS CLARKE,

Honorary Secretary,

Walgett Branch of Farmers and Settlers' Association of New South Wales.

Acknowledge, and inform that papers are at present in Sydney, and when they are returned he
will be further communicated with as to where case will be heard.—E.G.M., 23/11/99. Acknowledged
and informed.—E.G.M., 23/11/99.

No. 51.

The Crown Lands Agent, Gunnedah, to The Chairman, Local Land Board,
Tamworth.

Sir,

Crown Lands Office, Gunnedah, 20 November, 1899.

I have the honor to forward, under separate cover, plans and notice in connection with
proposed Euroka-Keepit exchange, No. 99-7,474, Local Land Board, which have been posted up outside
my office since 14th October last to 18th November, 1899.

I have, &c.,

W. P. B. BROWN,

Crown Lands Agent,

Exhibit O. 52.—
Chairman,
E. MacF.,
20/2/1900.

[Enclosure.]

Euroka-Keepit Exchange Proposal.

Local Land Board Office, Tamworth, 12 October, 1899.

APPLICATION by Dalgety and Company (Limited) for an exchange of lands under the 47th section of the Crown Lands Act
of 1895, in the parishes of Dowe, Baldwin, Keepit, and Namoi, county of Darling, Land District of Tamworth, Eastern
Division; and in the parishes of Willuri and Tulumba, county of Nandiar, Land District of Gunnedah, Central Division,
for an equal area in the parishes of Gunna, Toloora, and Euroka, county of Leichhardt, Central Division, Land District of
Walgett, leasehold area of Euroka Pastoral Holding, No. 558, Central Division.

Exhibit O. 52.—
Chairman,
E. MacF.,
20/2/1900.

Notice is hereby given that sketches illustrating the above proposal are posted outside the post office at Manilla,
and the offices of the Crown Land Agents at Walgett, Tamworth, Gunnedah, and Narrabri.

Objections thereto, if any, must be lodged at this office on or before the 18th November, 1899.

WILLIAM FREEMAN

Chairman (*per* E.G.M.).

No. 52.

The Acting Chairman, Local Land Board, Tamworth, to The Under Secretary for
Lands.

Keepit-Euroka Exchange, Land Districts, Tamworth, Gunnedah, Walgett.

21 November, 1899.

AREA of exchange.—Offered, 28,229 acres 1 rood 28 perches; same area sought.

I have the honor to report, following my memorandum of 14th November, 1899:—

The application is dated 13th October, 1897.

The reference to Chairman is 30th October, 1897.

Surveyor Sendall's report is 26th August, 1899.

Notices to *Gazette* and newspapers were issued 12th October, 1899, and ample publicity has been
given to the case following on the District Surveyor's report received 12th October, 1899.

This important case, affecting three Land Districts—Tamworth, Gunnedah, and Walgett—appears
to be exciting much public interest; but only one objection has been received—that is, from the Walgett
Branch of the Farmers and Settlers' Association of New South Wales.

The applicants wish the case heard in the Tamworth Land District.

I

I have the honor to recommend that the case be referred to the Local Land Board for the Narrabri Land District, to be listed for and called at Narrabri, Wee Waa, and Pilliga, between the 19th and the end of January, 1900.

The people of the Narrabri Land District have not any interest in the matter, while the suggested localities of hearing are sufficiently near to the sites of exchange for the interested persons to secure and submit ample evidence.

By telegram the objectors offer to tender evidence at Pilliga; also by letter.

Mr. Surveyor Sendall reports that the area offered for surrender will support sixty families by agriculture, near rail communication, and that the area sought in exchange will support twelve families by grazing.

The case is very fully set out in the Departmental Minutes, in Mr. Sendall's lucid report and schedules, and in the District Surveyor's summary.

I have the honor to forward all the papers.

Mr. Chairman Freeman and Mr. Acting District Surveyor Thurburn concur in this recommendation.

EDWARD MACFARLANE,
Chairman of Land Board, acting at Tamworth.

No. 53.

Office Memorandum.

Keepit-Euroka Exchange.

29 November, 1899.

ENCLOSED is an application by Messrs. Dalgety and Company to surrender the whole of their property on Keepit Holding, over 28,000 acres, near Tamworth, in exchange for an equal area on Euroka Holding, close to Walgett. Mr. MacFarlane, Chairman, acting at Tamworth, reports that the case is exciting much interest; but, in response to advertisements and exhibition of maps, only one objection has been received, which is from the Walgett Branch of the Farmers and Settlers' Association.

The position of the Keepit land is shown on the within section of the Colony map by deep red tint, and the position of the Euroka land by blue tint.

Mr. MacFarlane, with the concurrence of Mr. Chairman Freeman, and of the Acting District-Surveyor, Mr. Thurburn, recommends that the case be referred to the Land Board for the Narrabri Land District to be listed and called at Narrabri, Wee Waa, and Pilliga between the 19th and the end of January. Mr. MacFarlane points out that the people in the Narrabri Land District have no interest in the matter, which the suggested localities of hearing are sufficiently near to the sites of exchange for the interested persons to secure and submit ample evidence. The objectors, the Farmers' Association, have intimated that they will be represented at the hearing at Pilliga.

From the map it will be noticed that the land applied for is situated only 8 miles from Walgett, and 40 miles from Pilliga; and that the surrender land and the land for exchange are 140 miles apart.

In reply to questions asked in the Legislative Assembly on the 16th instant as to whether persons in and about Walgett would be expected to attend a Court many miles away to give their evidence, &c., the Minister answered (*vide* Alienation 99-16,191 enclosed): "This case is now in the hands of the Local Land Board at Tamworth with a view to inquiry, so far as the Keepit lands are concerned, after which an inquiry will be held by the Walgett Land Board with regard to the Euroka lands. At these inquiries any objections will be heard."

In cases like this it may be recognised that the opposition is likely to come from the district losing land, and not from the district which gains land for new settlement; it therefore seems obvious that Walgett has claims as a place of hearing.

In view of the circumstances, and of the Minister's replies to the questions asked in the Assembly, it is submitted that instead of following the recommendation of the Chairman Acting at Tamworth, suggesting Narrabri, Wee Waa, and Pilliga, the case should be heard at both Tamworth and Walgett.

The Tamworth Board meets on the 11th December, and the Walgett Board from the 15th to the 19th January. Seeing that it is too late for the Tamworth Court, as there is not time to give the interested parties the fourteen days' notice required by the law, it is suggested that the papers might at once be sent to the Chairman at Moree for listing for the Walgett meeting. After such hearing the papers should be immediately despatched to Tamworth.

Mr. MacFarlane might be informed of the suggested course of action if approved of, and be requested to list the case for the first Tamworth Board meeting which he may fix for the new year.

Sending the case to Walgett and then to Tamworth will invert the order of hearing from that given in the Minister's reply in the Legislature; but, as considerable delay will be saved, perhaps the inversion may be regarded as a matter of no moment.

The Under Secretary for Lands.

C. E. RENNIE,
Chief Draftsman.

No. 54.

Office Memorandum.

Keepit-Euroka Exchange.

11 December, 1899.

Exhibit EF 52*— THE proposal is that lands near Tamworth should be exchanged for lands near Walgett. The lands to be acquired by the applicants are in the latter district, and it is in that district that any local feeling would probably be aroused.

The opinion is ventured that the Walgett Land Board should be directed to deal with the matter in accordance with the provisions of section 5 of the Act of 1889, and that the Land Board at Tamworth should first report on the proposals, leaving the Walgett Board the final recommendation in the case. It

25

is not overlooked that the parties may consider that this may expose the proposals open to the risk of refusal, and they may think that an independent Board—that is, a Board of some district other than either Walgett or Tamworth—could deal with the case free from local associations.

Be this as it may, I think the Walgett Board is entitled to deal with the matter, and there ought to be very strong reasons brought before the Department before it is withheld from its jurisdiction.

H. CURRY,

Acting Under Secretary.

Approved.—T.H.H., 12/12/1899. The Chairman, Local Land Board, Tamworth.—E.A.B. (for Acting Under Secretary),—B.C., 18/12/1899.

No. 55.

Office Memorandum.

Keepit-Euroka Exchange.

18 December, 1899.

To be heard first in Tamworth.—Papers to be posted to Tamworth to-day.

PLEASE inform Head Office that Court gazetted for 8th January, 1900, is fully anticipated by listed cases, and that I propose to list this case for Tamworth as early as possible in February.

Inform Walgett Branch of Farmers and Settlers' Association that case is to be heard in Tamworth and in Walgett, and that they might arrange to send a representative to Tamworth at the hearing there, for which notice will be given them.

Inform District Surveyor by sending him this and the papers at once, on receipt.

EDWARD MACFARLANE,

Clerk-in-charge.

The Under Secretary for Lands informed by memorandum.—E.G.M., 19/12/99. Informed Walgett Branch Farmers and Settlers' Association.—E.G.M., 19/12/99. The District Surveyor.—E. G. MARKHAM, *pro* Chairman, 19/12/99. Noted.—C. THURBURN, Acting District Surveyor, 20/12/99. The Chairman.

Court at Tamworth, 31st January, 1900. Notice, 15th January, 1900, to Dalgety and Company, and Secretary Farmers and Settlers' Association of Walgett district, and to Secretary Walgett Branch of Farmers and Settlers' Association of New South Wales.

No. 56.

The Chairman, Local Land Board, Tamworth, to The Under Secretary for Lands.

Re Keepit-Euroka Exchange.

Tamworth, 19 December, 1899.

In accordance with the above exchange, I am directed by the chairman to inform you that as the Court for 8th January, 1900, is fully anticipated by listed cases, it is proposed to list the above case for Tamworth as early in February next as possible.

E. G. MARKHAM,

Pro Chairman, Local Land Board, Tamworth.

No. 57.

D. P. Dickson, Esq., to The Under Secretary for Lands.

Sir,

91, Pitt-street, Sydney, 21 December, 1899.

With reference to the Keepit and Euroka exchange, which is to be heard by two Land Boards on account of being in two districts, I beg to request you will be pleased to direct that one chairman may be appointed to hear the evidence given before the different courts; he would thus be in a better position to judge of the merits of each case, and to give a more conclusive decision.

I would point out that if two separate Land Courts hear the evidence it will be more difficult to decide than if the one chairman presided at both, for he would have an opportunity of seeing the witnesses, and how their evidence was given.

I, therefore, beg you will be pleased to consider the application, and appoint one chairman to preside at both courts.

I have, &c.,

D. P. DICKSON.

No. 58.

Office Memorandum.

Keepit-Euroka Exchange.

9 January, 1900.

1. The lessees of Keepit Holding have applied to surrender the whole of their purchased lands on that holding in exchange for an equal area on Euroka Holding.

Keepit Holding is situated comparatively near to Tamworth, and Euroka is close to Walgett. The exchange is an extensive one, and the Minister, in reply to questions asked in the Legislative Assembly, promised that the matter should be heard by the Tamworth Board, and subsequently by the Walgett Board.

Applicant's agent now request that one chairman may be appointed to preside at both courts, on the grounds that if one chairman heard all the evidence, and saw all the witnesses, he would be in a better position to judge of the merits of the case.

569—D

It

It is not apparent that anything would be gained by acceding to this request, as the chairman at Walgett will have before him all the evidence to be taken before the chairman at Tamworth, and it is, moreover, submitted that for obvious reasons the request is one that should not be entertained.

C. E. RENNIE,
Chief Draftsman.

There is always a difficulty in exchanges such as this, but it has already been decided that the two Land Boards within whose districts the land is situated should deal with the case, and, on the whole, this appears the best course. Indeed, the proposal now made could not, I think, be legally given effect to so long as both chairmen were in their positions.—H. CURRY, Acting Under Secretary, 10/1/1900.

It does not appear to me desirable that the one chairman should preside at each separate inquiry.—T.H.H., 12/1/1900. D. P. Dickson informed.—22/1/1900.

No. 59.

Telegram from Chairman, Local Land Board, Coonabarabran, to Clerk-in-Charge,
Land Board Office, Tamworth.

15 January, 1900.

KEEPIT-EUROKA case can be listed for 31st January, current.

EDWARD MACFARLANE,
Coonabarabran.

No. 60.

Messrs. Creagh and Kennedy to The Chairman, Local Land Board, Tamworth.

Re Keepit-Euroka Exchange.

Sir,

Central Chambers, Tamworth, 17 January, 1900.

We understand that it is intended to set down this case for hearing at Tamworth on the 31st instant; but would be glad if it can be dealt with at a later Board meeting if by doing so present arrangements will not be greatly interfered with. We are aware that the Acting District Surveyor contemplates making a personal inspection of the Keepit lands, and are desirous that he should carry out his intention; but owing to his present engagements it may be impossible to arrange for his visit before the end of the month.

Another reason for desiring the hearing to take place at a later date is that for the remainder of this month we shall be very much pressed with work, including Quarter Sessions at Tamworth and Land Board at Gunnedah, and will not be able to give such attention to the preparation of the case as we desire; so that when it comes before the Board it may be dealt with as expeditiously as possible.

We are, &c.,

CREAGH AND KENNEDY.

The District Surveyor.—Is there any objection in the public interest to a postponement?—E. MACF., Wee Waa, 19/1/1900. None, as far as I know; so that in my opinion there will be no objection to granting the postponement asked for.—CHAS. THURBURN, Acting District Surveyor, 27/1/1900. The Chairman.—Yes; delay in replying to this memorandum is due to the fact that I communicated with the District Surveyor, Moree, and it was some time before I received a reply from him.—C.T.

The Under Secretary for Lands to D. P. Dickson, Esq.

[Aln. 1900-668.]

Sir,

Department of Lands, Sydney, 22 January, 1900.

Referring to your request of the 21st ultimo, that one chairman be instructed to hear the evidence at both the Local Land Board inquiries in connection with the Keepit-Euroka exchange, I have the honor to inform you that the Secretary for Lands declines to grant the request, as he considers such a course to be undesirable.

I have, &c.,

H. CURRY,

Acting Under Secretary

(per W.H.C.).

No. 64.

W. N. Willis, Esq., M.P., to The Secretary for Lands.

Dear Sir,

Parliament House, Sydney, 22 January, 1900.

I enclose a letter, of which I am in receipt from Walgett, which shows the opinion of my constituents with regard to the Euroka-Keepit exchange, and I forward same for your information.

Yours faithfully,

W. N. WILLIS.

Keepit-Euroka exchange, alienation 99-17,471, forwarded to the Chairman, Local Land Board, Tamworth, for consideration in connection with the above.—J.B. (for Acting Under Secretary), 30/1/1900. W. N. Willis, M.P., informed, 30/1/1900. Mr. Donnelly,—Send out notices on Monday, please, in this case.—E.G.M., 3/2/1900. Done.—J.H.D. Court at Tamworth, 20/2/1900. Notice, 5/2/1900, to Dalgety and Company, care of D. P. Dickson; Dalgety and Company, care of Creagh and Kennedy; Secretary, Walgett Branch of Farmers and Settlers' Association of New South Wales; and to Secretary of Farmers and Settlers' Association of Walgett and District.

Exhibit Y 52.—
Chairman,
E. MacF.,
20/2/1900.

[Enclosure.]

Sir,

Walgett, 20 January, 1900.

In pursuance of a motion carried at a meeting of the Farmers and Settlers' Association of Walgett and District, held on the 18th instant, I, on behalf of that organisation, beg respectfully to ask your opposition to the granting of the application of Messrs. Dalgety and Company, and known as the "Euroka-Keepit Exchange."

That there is no comparison in the relative value of the lands proposed to be exchanged, goes without need of argument, and it would be an incalculable loss to the district, and to your constituency generally if it were effected. The Association, therefore, confidently seek your assistance in obtaining the defeat of the proposal.

There were other resolutions passed at the meeting, to the report of which I would draw your attention.

Trusting to your good offices in this and all matters connected with the Society.

W. N. Willis, Esq., M.L.A., Sydney.

I have, &c.,

JOHN E. CULLEN,

Secretary.

Exhibit Z 52.—
Chairman,
E. MacF.,
20/2/1900.

No. 65.

The Honorary Secretary, Walgett Branch, Farmers and Settlers' Association, to
The Secretary for Lands.

Sir,

Walgett, 23 January, 1900.

I have been directed by the Committee of the Walgett Branch of the Farmers and Settlers' Association of New South Wales, to protest against the investigation into the matter of the "application made by Messrs. Dalgety and Company to surrender certain lands on Keepit Holding" and to be granted in exchange certain other lands on Euroka Holding being confined to Tamworth.

Exhibit XX52.—
Evidence of
General in case,
E. MacF.,
20/2/1900.

I am directed to point out that my committee were requested to forward the names of witnesses to be heard either at Narrabri or Pilliga, and that in accordance with that request, two names were submitted to the Chairman of Tamworth Land Board, and arrangements made to give evidence at either of the places named, and that any alterations in those arrangements is now impossible.

I am also directed to point out that the town of Walgett is alone concerned, as it would lose what other towns would gain by this exchange. My committee, therefore, is of opinion that it is most unfair to confine this inquiry to Tamworth, and thus exclude a large amount of valuable evidence, and trusts that you will so favourably consider this protest, as will lead you to order that evidence shall be taken in Walgett.

I have, &c.,

THOMAS CLARKE,

Hon. Secretary,

Walgett Branch, Farmers and Settlers' Association of New South Wales.

The

The Honorable T. H. Hassall, Minister for Lands. Presented by W. N. Willis, 5/2/1900.

Inform that after the Keepit-Euroka exchange has been considered by the Tamworth Land Board, the case will be referred to the Walgett Land Board for inquiry and report.—E.A.B. (for Acting Under Secretary), 9/2/1900.

W. N. Willis, M.P., informed, 12/2/1900. Forwarded to the Chairman, Local Land Board, Tamworth, to place with the Keepit-Euroka exchange papers.—E.A.B. (for Acting Under Secretary), B.C., 12/2/1900.

JOHN DALY,
For Acting District Surveyor.

No. 67.

The Honorary Secretary, Farmers and Settlers' Association to The Chairman, Local Land Board, Tamworth.

Walgett, 8 February, 1900.

Sir, The Walgett Branch of the Farmers and Settlers' Association of New South Wales again strongly protests against the hearing of the Euroka-Keepit exchange being confined to Tamworth, as per your notice.

My committee instructs me to invite your attention to your letters of 27th October, and 21st and 27th November, *re* taking evidence at Pilliga, also to point out that in these disastrous times a person might be able to afford a journey to Pilliga, but to go to Tamworth quite out of the question.

Walgett is the town mainly interested in the proposed exchange, and if the case cannot be heard in Walgett then it does not matter to us where it is heard.

I have, &c.,
THOMAS CLARKE,
Honorary Secretary.

Inform to-day the hearing will not be confined to Tamworth. A decision has been given that the case is to be heard at Tamworth and at Walgett.—E. MacF., 10/2/1900. Informed.—E.G.M., 10/2/1900.

Acting at Tamworth, 21st February, 1900.
Decision to be given, 23rd February, 1900.

The deponent, *William Neville Sendall*, duly sworn, on oath administered by William Henry Smith, Senior-constable of Police, says:—My name is Walter Neville Sendall; I am a Staff Surveyor, Department of Lands; I reside at Gunnedah; I produce my report (Exhibit FF 52), my schedules of valuations and descriptions in eleven sheets (Exhibit GG 52; my actual field-notes in four tracings (Exhibit HH 52); one heliograph (Exhibit II 52), one lithograph (Exhibit JJ 52). [All these have reference to a proposed Keepit-Euroka exchange; Mr. A. J. Creagh for the proposals; Mr. Charles Thurburn for the Crown; Mr. Sendall reads his own report (eight pages); Mr. Sendall reads his own schedule (eleven sheets) four sheets, and to portion 116 on sheet 5, before luncheon adjournment.]

Sworn before the Land Board at its Court-room, at Tamworth, }
this 20th day of February, 1900,—

W. NEVILLE SENDALL.

EDWARD MACFARLANE, Chairman.

MR. HUTCHINGS, not sitting, } Members,
M. G. CUNNINGHAM, } Local Land Board.

Walter Neville Sendall, recalled, resworn, by William Henry Smith, aforesaid:—[Continues to read his schedule from portion 116; appearances as before; and completes reading of eleven sheets.]

To Mr. Thurburn: I have been in the Tamworth District since August, 1891; and have been over a very considerable part of it, and have been able to judge from my experience of the values of lands, and of the requirements of settlement; I have heard of the Manilla wheat-growing district, it is, I believe, celebrated for heavy yields of wheat; all the agricultural lands mentioned in my report, and in schedules, GG 52, sheets 1 to 10, are in, or are similar to the lands in the Manilla wheat-growing district; I know Mr. Baldwin offered at public auction part of his estate near Manilla; I know it met sale; I was aware of that sale, and the prices realised, it confirmed me in my opinion as to values; I have not made a close inspection of the lands sold by Mr. Baldwin, but I say in a general way the Keepit lands, and Mr. Baldwin's lands are similar; I used for the Euroka grazing lands the same basis of value as for the Keepit grazing lands; Keepit is well situated as regards main roads; the main Manilla-Gunnedah road, and the Manilla-Boggabri road, and the Manilla-Carroll Gap, pass through it; the Carroll Gap road is kept in order by the Works Department as is the Somerton road; there is good access from Keepit to Somerton, Manilla, Carroll, Gunnedah by road, and the Boggabri road is being opened; the larger part of the lands in the parishes of Keepit and Baldwin are agricultural, about 16,000 acres of arable land; if half

were

were cultivated at 20 bushels to the acre, about 4,500 tons of wheat would be taken to the railway, annually, and there would be more people on the country and more supplies carried to them, the carriage of wheat would bring in about £3,500 a year; there is very little Crown land available for occupation in the neighbourhood, except lands already surrendered by Keepit; if the lands proposed to be surrendered are accepted by the Crown, and made available in areas as suggested in my report they will, I think, meet immediate competition; I have in my estimate of value considered and given full effect to the cost of clearing for the plough; I value land with dead timber much higher than land with green timber.

To Board: The length of time between date of inspection and date of report makes no difference to my report, as I had very full notes; these I consulted carefully before making my report; I do not consider a man can make a good living by grazing only from 1,280 sheep, he might by dealing; I consider, 2,560 acres is sufficient area of Euroka lands for a man to maintain a home, judging from what has been done on similar country in Tamworth district at Narrabri end; I do not think £3,815 14s. 6d. will be realised from the improvements offered for the surrender if to be gained as their value to the incoming tenant; the value given by me is their value to the present holder; I think these improvements would be worth £2,300 to incoming tenants; I have seen the heliographs and tracing with Exhibits N52, O52, P52, Q52, R52, S52, DD52, and I have compared them with the Exhibits in my evidence, II52 and JJ52 they show the same country; a correct representation of the proposals has been placed before the public.

Sworn before the Land Board at its Court-room, Tamworth, }
this 20th day of February, 1900,—

W. NEVILLE SENDALL

EDWARD MACFARLANE, CHAIRMAN.
M. G. CUNNINGHAM, } Members,
MR. HUTCHINGS, not sitting, } Local Land Board.

THIS deponent, *Charles Thurburn*, of Tamworth, Acting District Surveyor, being duly sworn, maketh oath, and saith as follows. [Oath administered by Senior-constable William Henry Smith]:—I produce my report, LL52, which I have just read in open Court; on the 9th and 10th instants, I made a personal inspection of the lands on Keepit shown on Exhibit II52; the part on the eastern side of the Namoi River is, with a few exceptions, suited for agriculture, it is generally rich land, and I estimate that it could be subdivided in blocks of about 480 acres for agriculture and settlement; the timber on a considerable part of it has been ringbarked and is well dead, so that the cost of clearing to an incoming tenant will probably range from 5s. to 10s. per acre, while the cost of clearing green timber would run from 20s. to 30s. per acre; this part of the holding is intersected by the main road, Carroll Gap to Manilla, with a branch road to Somerton, thus affording easy access to Manilla, Gunnedah, or Tamworth, all railway stations, and Breeza another railway station; water has been obtained in wells in several localities, and there are facilities for conserving it by means of dams, the soil being retentive for the purpose; it adjoins a homestead selection area on the east, which is occupied by resident selectors, and also adjoins Crown lands obtained by surrender, and not yet alienated; the same remarks will apply to a great extent to the lands in the parish Dowe, and access to Manilla is supplied by the Boggabri-Manilla Road, part of which has been cleared by the Works Department; the lands in the parish of Namoi are of a rougher description, and a considerable area is only suited for grazing, but with judicious subdivision I believe a portion of grazing, and a portion of agricultural land could be included in each block, so that on 1,280 acres a man could maintain a home by mixed farming; the main road from Gunnedah to Manilla, *via* Carroll, passes along the west side of the Namoi through part of this land, and it would be possible to lay out practicable roads of access to it from each holding; this block of land also adjoins Crown lands, which can be subdivided in conjunction; water has been obtained in several parts of this area, and being bounded by the Namoi River, a number of holdings will be laid out having permanent water by frontage and springs; even if the lands on Euroka were of equal or greater value than those on Keepit, I would still consider this exchange a desirable one in the interests of the district and the Colony generally, because it will be the means of settling together with the adjacent Crown lands about fifty families, in a good climate on a country suited for residential agricultural settlement, thereby greatly increasing local trade and traffic on the Government Railways; accepting Mr. Sendall's report, that the Euroka lands are only suited for grazing, only a small number of residential farms could be established, and the increased traffic to the railways from them would be little, if any, more than it is at the present time; I am prepared to inspect the Euroka lands, and give evidence at Walgett.

Sworn before the Land Board, at its Court-room, Tamworth, }
this 21st day of February, 1900,—

CHAS. THURBURN.

EDWARD MACFARLANE, Chairman.
M. G. CUNNINGHAM, } Members,
MR. HUTCHINGS, not sitting, } Local Land Board.

THIS deponent, *George Loder Dowe*, of Keepit, grazier, and licensed surveyor in private practice, being duly sworn, maketh oath and saith as follows.—[Oath administered by Senior-constable William Henry Smith]:—

By Mr. Creagh: For the last twenty-five years I have resided on portion 2, parish of Dowe, part of Keepit, and have carried on grazing and farming in connection with that portion and, subsequently, in addition with portions 18, 3, 127, 84, 64, 63, 89, 126, 103, 54, 53, conditional lease 559, in the same parish, and other lands in the parish of Dinawarindi next adjoining; I have an intimate knowledge of the Keepit lands for twenty-five years; I was the only surveyor measuring lands there, and for the last ten years I have been residing there continuously, and have been constantly over them; I know all the land in the county of Darling; my work has been in that county; as a surveyor it was part of my duties to make myself acquainted with relative values of land and capabilities of land; I have read the report and schedules of Mr. Surveyor Sendall (Exhibits FF52, and GG52); I agree with his estimate of the relative areas of agriculture and grazing lands; I value the holding, as now improved, at 35s. per acre.

By the Chairman: I see that Mr. Sendall's improved value is 33s. 8d.

By Mr. Creagh: I am sure that the Keepit holding could be cut up into forty-five holdings of areas of 320 acres on the good agricultural land, and 1,600 acres on the rougher land, in the parish of Namoi, the latter for mixed farming; most of those blocks could be provided with water, either by wells or tanks, and the rest would have a natural supply; water can be obtained at from 18 to 20 feet; most of the country is pretty good for storing water, except the rough land in the parish of Namoi; if cut into blocks, such as I have described, the agricultural land would be readily taken up as conditional purchases at £2 per acre; I agree in the main with Mr. Sendall's estimate of the improvements; I know 360 acres, owned by Mr. Roberts, in the parish of Keepit, being portions 20, 25, 35, 96, 140, and 139; that land is not as good as the Keepit agricultural land, but it has frontage to permanent water; Roberts was offered, within the last six months, £2 10s. per acre (including improvements worth £100) for it, but it was leased and the tenant would not give possession; I know portions 30, 31, 127, and 128, parish of Namoi, being conditional purchase of 320 acres, and conditional lease of 960 acres; there are 100 acres suited for agriculture, the rest is similar to the rough land on Keepit, from what I have been told; it was sold for about £1 19s. per acre (including improvements, worth about £300) on a freehold basis; the producing capabilities of the Keepit lands would compare favourably with the lower Manilla and the Attunga lands; it is only the last five years that there has been cultivation to any extent in the district, and now there is an eager demand for cultivation land in the district; the average yield has been about 16 bushels to the acre the last five years; 4s. 10d. a bushel three years ago to about 2s. 3d. a bushel now, local price; I know portions 168 and 169, parish of Baldwin; they are held as homestead selections, being part of the homestead selections area referred to in the District Surveyor's evidence as adjoining Keepit; I also know portion 149 in same parish, also adjoining Keepit; of those portions 240 acres were cultivated last season, about half of that area for the first time; it is a fair sample of the Keepit cultivation lands; the yield was 23 bushels per acre, of wheat or barley, on the 240 acres; after going into figures I find the difference between my values and Mr. Sendall's is £1,950 9s. 2d. Means of access: On railway to Manilla from Tamworth; platform at Somerton road and railway station at Manilla; by roads: two good roads to Gunnedah—one on each side of the river, and for trucking purposes, Breeza can be reached, *via* Carroll, the road travelling to Breeza would be only 6 miles longer than to Gunnedah, and the saving would be 7s. 6d. per truck for stock; there is also a good road from each parish to the Tamworth railway station, and there is good access by road to Manilla, a rising town, with an established flour mill.

To the District Surveyor: The land growing the ironbark is good for agriculture; it is not the narrow-leaved ironbark; I have seen it proved for agriculture; generally, the land in the parish of Keepit is not seedy enough to ruin the sheep, and the same remarks apply to the parish of Dowe; there is more grass-seed on the rougher country in the parish of

of Namoi; the existing grasses are of a fairly good character for sheep; I have kept stock ten years on my holding and they have not been damaged by grass-seed; on my holding 5 acres has kept four sheep for the last ten years, cross-breeds chiefly; the improvements are not of such a nature as to handicap the incoming tenant, not even the homestead.

By the Chairman: I have valued the land on the consideration of the ringbarking as affecting the after possibilities of clearing the land.

By Mr. Cunningham: I know the farms recently sold by Mr. Baldwin; I measured them twice—once for the Crown, and then for subdivision for Mr. Baldwin; from a grazing point of view they are about 25 per cent. better than the Keepit land, but from an agricultural point of view they are not so good as the Keepit agricultural land, having more sticky black soil; the highest price realised was £4 per acre for a block, improved by hut and a paddock; the next highest was £3 15s., nearly all light timber, with perhaps a little of it ringbarked; those lands of Baldwin's were passed at auction, but all taken up immediately, chiefly by people of the district.

By Mr. Creagh: I was not present when Baldwin's land was offered at auction, but I believe the terms were afterwards altered, and the land was then taken readily; I know F. H. Roach's farm of 207½ acres; it is about the same as the land in the parishes of Keepit and Baldwin for agriculture, but not for grazing; on that farm there are a mud-house (valueless), boundary fencing, a well, and 50 or 60 acres cleared and cultivated; I would put those improvements down at £100; I have no knowledge of a recent sale of that land; when I say my land has run four sheep to 5 acres I include and allow for my cattle and horses, allowing one head of large stock to ten sheep; I heard Mr. Sendall say that his basis of the value of the land is "allowing for ringbarking as an improvement at cost, adding to the unimproved value of the land the value accrued to it as the result of ringbarking, and valuing all other improvements as to the present owner"; that is my basis of valuation; on that basis my total exceeds Mr. Sendall's total by £1,950 9s. 2d.

Sworn before the Land Board, at its Court-room, at Tamworth, }
this 21st day of February, 1900,—

GEORGE L. DOWE.

EDWARD MACFARLANE, Chairman.
M. G. CUNNINGHAM, Members,
MR. HUTCHINGS, not sitting, } Local Land Board.

This deponent, *William Australia Watts*, of Keepit, station manager, being duly sworn, maketh oath, and saith as follows. [Oath administered by Senior-constable William Henry Smith]:—

By Mr. Creagh: I have been managing Keepit about seven and a half years; I have heard Mr. Surveyor Sendall read his report and schedules, and I followed them on the tracing marked HH52; I agree with his estimate of the relative area of grazing and agricultural lands, and I agree with him as to the present value of improvements on the basis of cost; my basis of valuation of the land is, allowing for ringbarking as an improvement at its cost, adding to the unimproved value of the land the value accrued to it as the result of ringbarking, and in valuing all other improvements as to the present owner; I have heard Mr. Sendall's evidence, also Mr. Dowe's; I value the Keepit lands as freehold at 35s. per acre, inclusive of the value of the improvements; Messrs. Capel Brothers offered £1 15s. per acre for the Keepit lands about the first week in last month; if cut into forty-five holdings I would value the agricultural farms at £2 per acre, and the mixed farms at from £1 10s. to £1 15s.; off 200 acres on portions 9, 60, 3, 9, and 50, parish of Dowe, a man named Gardiner last season got five bags to the acre of wheat; it is similar land to the land in the parish of Dowe; on Wongo Creek the station wells are from 18 to 23 feet deep; there are several of them; on portion 59, parish of Dowe, there is a well about a mile from the creek, about 18 feet deep, with a depth of 6 feet of water; there are wells in the parish of Keepit, one on portion 3, about 18 feet deep; it is used by the boundary rider for his stock—four horses and four milch cows; another on portion 69, 23 feet deep; there were wells on Bell's Gully, used in the drought of 1877, but not since; they have fallen in, and tanks have been made; the country is good holding ground, with good catchments, and there are numerous depressions for making dams.

By the Acting District Surveyor: The country is fairly free from grass-seed in the parish of Keepit; the fringe along the river is seedy; the country in the parish of Dowe is similar to that in Keepit and Baldwin, but is less seedy; the country in the parish of Namoi is fairly seedy; I think seed can be got rid of by ringbarking, and heavy stocking for a while; I should say about quarter of the area has not been ringbarked; the lands acquired by exchange have not been ringbarked; we have been able to carry safely about 25,000 sheep on about 33,000 acres, about 6,000 acres of which consists of annual leases; besides the sheep, about 750 cattle and fifty horses; I estimate it takes 10 to 15 acres to graze one head of large stock; the stock do well; I send fat stock away; the numbers I have given constitute a fair stocking; I think it possible to obtain water on each of the forty-five holdings, judging from the numberless places water has already been obtained by sinking; I would estimate the cost at £30 per block, on blocks not sufficiently naturally watered; in all probability portions 17 and 46, parish of Namoi, are suitable for lucerne-growing; I grow lucerne on portion 2, parish of Keepit, and obtain good crops.

There is no doubt there would be a lot of fencing timber required, if the land were cut into small holdings; is this timber available? Yes; the best pine in the district; there is sufficient box and ironbark for fencing, and pine for building.

Selectors would not be put to great expense in fencing, for the want of timber; portions 35 and 149, parish of Dowe, have so much timber that it reduces their value for grazing or agriculture; the timber is worth more than the land; those portions would make a splendid timber reserve for adjoining selectors; a suitable road of access to the Carroll-Manilla road could be made from each holding, if the land were subdivided.

Sworn before the Land Board, at its Court-room, at Tamworth, }
this 21st day of February, 1900,—

W. A. WATTS.

EDWARD MACFARLANE, Chairman.
M. G. CUNNINGHAM, Members,
MR. HUTCHINGS, not sitting, } Local Land Board.

This deponent, *Leonard James Bailey*, of Manilla, farmer and produce dealer, being duly sworn, maketh oath, and saith as follows. [Oath administered by Senior-constable William Henry Smith]:—

By Mr. Creagh: I am a member of the Manilla Progress Committee; at a meeting of that committee, on the 18th December, 1899, I was appointed with three others as a sub-committee to draw up a report in favour of the exchange proposal now under consideration; the sub-committee recommended that I should be deputed to appear and represent the committee before this Board, and give evidence in favour of the exchange, and that recommendation was approved of by the Progress Committee on the 31st January, 1900, and in pursuance of that I have been in attendance throughout the hearing of the case; I have lived in the Manilla district, close to Keepit, twenty-one years; I have been farming on my own account, off and on, for about nine years; I am farming at present on New Mexico, and I am also the proprietor of a produce store in Manilla; New Mexico is the name applied to the subdivision of Durham Court, sold by Mr. Baldwin, and referred to by previous witnesses in their evidence; I own two blocks, one of 486 acres, for which I paid £2 15s. per acre, and the other 276 acres, £3 10s. per acre; in that subdivision the smallest area was 210 acres, and the largest 720 acres; there were seventeen blocks, nine of which did not exceed 320 acres each; I bought according to the plan of subdivision now produced, and marked Exhibit MM52; I believe it to be correct in every particular; block 16 was sold for £4 per acre—the highest price—it was not cleared; it has a small frontage to a creek; the building was a small slab place, not of much value, a boundary rider's hut; the lowest price I know of given for agricultural land on New Mexico was £2 10s. per acre, but I cannot speak as to the lowest price of the whole land; I cannot say what Mr. Winter gave for block 15; it is broken land, and only fit for grazing; it was only partly ringbarked; an outlay for ringbarking the green timber would be necessary; I know the Keepit lands very well, and have been over them a great many times; I have been over them quite recently, to give evidence; the agricultural land on Keepit is better wheat land than the New Mexico land, as it is not so strong and more adapted for wheat-growing; apart from the natural water supply, the facilities for water are quite as good on Keepit as on New Mexico, which is watered by wells principally.

What would be the difference in distance from Manilla of the Keepit lands with regard to New Mexico? Three miles to nearest point; I do not think the extra distance would make any difference in the demand for the Keepit lands; if cut into blocks, I think there would be a good demand at £2 per acre for the agricultural land; I think there would be more

more demand for the mixed farming areas than for the wholly agricultural areas ; I know of several young practical men that would take up land if they got opportunity ; this exchange proposal has been well known about Manilla for some time, and I have heard it discussed ; there are some exceptionally rich patches on Keepit, but not in very large areas.

By Acting District Surveyor : I know portions 163 to 167, parish of Baldwin, owned by Messrs. Bowman, McKie, and Tunningley ; they are about the same as the lands in the parishes of Keepit and Baldwin ; the subdivision of settlement on the Keepit lands would increase trade in Manilla to a very large extent, and would also increase the railway traffic.

Supposing 16,000 acres of Keepit agricultural lands were thrown open, what proportion would be put under wheat ; would half of it ? Yes.

What would be about the yield ? I estimate it at about 16 bushels to the acre, which I estimate would give about £2,666 per year to the railways by way of increased traffic ; I think it would increase the number of business people n Manilla.

By Mr. Cunningham : Most of the wells on New Mexico are under 30 feet ; 8,000 acres of Keepit land surrendered would not be put under wheat in one year ; several years would pass.

Sworn before the Land Board, at its Court-room, Tamworth, } L. J. BAILEY.
this 21st day of February, 1900,—

EDWARD MACFARLANE, Chairman
M. G. CUNNINGHAM, Members,
MR. HUTCHINGS, not sitting, } Local Land Board.

THIS deponent, *Albert Jasper Creagh*, of Tamworth, solicitor, Supreme Court, being duly sworn, maketh oath and saith as follows. [Oath administered by Senior-constable William Henry Smith] :—I was present this morning and heard Mr. Dove give evidence in this case ; F. H. Roach's farm, referred to by him, is portion 154, parish of Baldwin, conditional purchase 93-97, Tamworth ; that farm was sold a few days ago, and I am acting as solicitor for the vendor ; the price at which it was sold is a matter of public knowledge, was £2 3s. 6d. per acre, with improvements, and as conditional purchase ; I have made inquiries at the Local Lands Office, and obtained a certificate from the Crown Lands Agent, which I now produce, marked Exhibit NN 52, that the balance due to the Crown is £166 14s. 4d. ; the signature to the certificate is that of the Crown Land Agent of Tamworth ; after allowing for the improvements at the value stated by Mr. Dove (£100), the price of the land as freehold unimproved is £2 10s. per acre ; I was present at the auction sale of the land, and I heard several persons bidding for it ; in over seven years' experience in Tamworth as a solicitor dealing with land matters, I have found considerable demand for farming land, and the land in the Manilla district has always had a good reputation for growing wheat and barley.

ALBERT J. CREAGH.

Sworn before the Land Board, at its Court-room, at Tamworth, }
this 21st day of February, 1900,—

EDWARD MACFARLANE, Chairman.
M. G. CUNNINGHAM, Members,
MR. HUTCHINGS, not sitting, } Local Land Board.

THIS deponent, *Charles Thurburn*, of Tamworth, Acting District Surveyor, being duly sworn, maketh oath and saith as follows. Recalled and resworn. [Oath administered by Senior-Constable William Henry Smith] : The road from Carroll Gap to Manilla twice crosses the Namoi River, and as there are no bridges, great inconvenience may occur in flood time, a road is now being surveyed with a view to opening along the southern side of the river, meeting the Carroll Gap Road probably near portion 97, parish of Keepit ; this will provide a shorter and better road into Manilla for the whole of the Keepit Estate, on the east side of the river ; I have heard Mr. Bailey state that portions 163, 164, 165, 166, and 167, parish of Baldwin, are fairly similar to the adjoining lands on Keepit ; these portions are homestead selection area No. 16, portions 163 and 164, were taken by William Tunningly as homestead selection 95-1, at £2 per acre unimproved ; this land was balloted for by two applicants ; portion 165 was applied for by Trevor McKie, at £3 per acre ; portion 166 was applied for by W. M. McKie, as homestead selection 95-5, at £2 per acre ; portion 167 and portions 127 and 128 adjoining it to the east were applied for by W. Bowman as homestead selection 97-2, at £2 per acre ; portion 168 was applied for by R. N. Bice as homestead selection 95-3, at £3 per acre ; portion 169 was applied for by W. N. Russell as homestead selection 95-2, at £3 per acre.

These facts are from office records.

CHAS. THURBURN.

Papers Land Board District, 21/2/1900.

No. 71.

Decision of Local Land Board.

New South Wales, Tamworth, }
to wit. } Keepit-Euroka Exchange.

WHEREAS on the twentieth, twenty-first, and twenty-third days of February, 1900, it became a matter for investigation before us whether a surrender and exchange of lands, parts of the Keepit and Euroka estates, on the Keepit Holding 492, Eastern Division, and Euroka Holding 558, Central Division, Land Districts of Tamworth, Gunnedah, and Walgett, should be recommended, and to appraise the subject lands in pursuance of sections 6 and 46, Crown Lands Act of 1889, and 47, Crown Lands Act of 1895, and having taken evidence and inquired into the said matter, we find :—

1. The matter is duly before the Land Board at Tamworth on regular reference.
2. The lands affected are in the Land Districts of Tamworth, Gunnedah, and Walgett.
3. The proposals have been duly and sufficiently notified in the *Government Gazette*, and in the *Narrabri Herald*, *Moree News*, *Moree Examiner*, *Walgett News*, *Tamworth News*, and *Namoi Independent*, local newspapers. Necessary exhibits have been made.

4.

4. Objections have been received; but there has not been any appearance on the part of the objectors.
5. The surrenderer has consented in writing to the surrender of the irremovable improvements on the lands offered for surrender.
6. The title to the lands proposed to be surrendered is in the surrenderer subject to payment of balances, and to conversion of conditionally leased lands.

We find further:—

That the lands offered for surrender, 28,229 acres 1 rood 28 perches, are fit for the support of forty-five families, if suitably subdivided; that they are worth, on a freehold basis, exclusive of the value of improvements, based on cost but inclusive of the accrued benefit to the land from ringbarking, £45,484 14s. 5d., being Mr. Sendall's valuation with 4 per cent. added; that the improvements thereon, as they stand, but exclusive of their benefit to the land, are worth £3,916 15s. 6d. to the present holder, and are worth to incoming tenants in the aggregate a sum not exceeding £2,300—that is, not more than £52 a farm on the average; and that the acquirement by the Crown of these lands, with all improvements thereon, is to be desired in the public interest, in view of the legitimate demand for settlement.

Expenses to date, if application granted, £62 4s. 9d.; if refused, £49 12s. 9d., by consent.

The lands for surrender are described in detail in Schedule, Exhibit GG 52, Sheets 1 to 10.

Given under our hands, at the Board's Court-room, at Tamworth, in the Colony of New South Wales, this 23rd day of February, 1900,—

EDWARD MACFARLANE, Chairman.
M. G. CUNNINGHAM, Member of the Board.
T. R. HUTCHINGS, Member not sitting.

The District Surveyor to note.—E. G. MARKHAM (*pro* Chairman), 28/2/1900.

Noted and returned.—R.S. (for Acting District Surveyor), 1/3/1900. The Chairman.

Forwarded.—E. G. MARKHAM (*pro* Chairman), 2/3/1900. The Under Secretary for Lands, Sydney.

Now forwarded to the Chairman, Local Land Board, Moree, for inquiry, in accordance with approval on Alienation 99-17,471.—E.A.B. (for Acting Under Secretary), B.C., 5/3/1900.

No. 72.

The Chairman, Local Land Board, Moree, to The Acting District Surveyor, Moree.
Euroka-Keepit Exchange.

Moree, 7 March, 1900.

FORWARDED for any report which may be necessary.

Kindly state what witnesses for the Crown it is desired should be notified.

W. G. ACOCKS
(*pro* Acting Chairman).

No further report seems necessary prior to hearing to the Land Board at Walgett. The following witnesses on behalf of the Crown should be summoned to attend, viz.:—Mr. W. N. Sendall, Surveyor, Gunnedah; the Acting District Surveyor, Moree.—EDWARD M. BRIERLY (for Acting District Surveyor), 12/3/1900. The Chairman.

Court at Walgett, 23rd April, 1900. Notices, 23rd April, 1900, to Dalgety and Company, Sydney; Dalgety and Company, c/o D. P. Dickson, Esq., 91, Pitt-street, Sydney; Dalgety and Company, c/o Manager, Euroka Station, Walgett; the Secretary, Farmers and Settlers' Association of Walgett and District, Walgett; the Secretary, Walgett Branch, Farmers and Settlers' Association of New South Wales, Walgett; W. N. Sendall, Surveyor, Gunnedah; the Acting District Surveyor, Moree.

Exhibit 1.
Evidence of
J. Y. Bell,
Acting
Chairman,
F. Poate.

20 April, 1900.

I, BEING the officer in whose custody the records of the Stock Returns made under the Pastures and Stock Protection Act and Diseases in Sheep Act are kept, hereby certify that the above returns for Euroka and Keepit stations for the years 1892 to 1900, inclusive, are true and correct.

ALEX. BRUCE.

Caption to Deposition of Witnesses.

New South Wales, }
to wit. }

THE examination of W. N. Sendall, of Gunnedah, in the Colony of New South Wales, staff surveyor; C. W. Lang, of Moree; C. Thurburn, of Tamworth; J. Y. Bell, of near Walgett; R. Wilson, of Walgett; G. Matthews, of Forest Lodge; J. Staunton, of Walgett; Wm. Dodd, of Walgett; and Louis Leake, of near Walgett, in the said Colony.

Whereas it had been proposed exchange of lands on Euroka-Keepit Holdings, and it had been found necessary to investigate the said matter on oath, the depositions of the several witnesses are appended hereto.

[Enclosure.]

THIS deponent, *Walter Neville Sendall*, of Gunnedah, staff surveyor, being duly sworn, maketh oath, and saith as follows:— I produce a report marked Land Board, 99-6,345, on the Euroka-Keepit Exchange proposal; this report I have now read in open Court (Exhibit FF 52); I also produce the schedules accompanying that report, accepted as read by consent (Exhibit GG 52); I have been in the Tamworth Land Board District since 1891; in that district there is country fairly similar to Euroka; I have not dealt with country of that description for the purpose of alienation; designs of country of fairly similar country to Euroka were submitted to me when I was Acting District Surveyor at Tamworth; it was in the county of Jamieson; the blocks would have averaged about 3,000 acres; they ranged from 2,560 to something over 3,000 acres; I considered that such an area was necessary to enable a man to obtain a home on such country; I have seen a circular directing that the basis of subdivision should be a certain number of sheep; from 2,000 to 3,000 was the number; the lands mentioned in county Jamieson were all nearer the railway than Walgett; the sketch produced shows my field notes of Euroka; with the exception of a small area on block A, the whole of A, B, C, and a large part of D, is more or less liable to inundation; those letters refer to areas shown on tracing F accompanying my report; there is a good site for a tank on area A; I do not know of any site on B, C, or D suitable for tanks; in my opinion, no area of the blocks referred to could be suitably divided into blocks of smaller area than those mentioned; I cannot mention any part that could be profitably cultivated; on the remainder of the country E, F, and G, there are good tank sites; I think a 5,000-yard tank would be the least that would be required on a 3,000-acre block; the average cost of constructing such a tank would be at the least £125 on each settlement lease; tanks in the locality are very liable to silt; judging from the soil portions of E, F, and G are suitable for cultivation approximately at the very outside half; from what I know of the rainfall, it is not likely that cultivation could be depended upon every year; I could not say how many years' crops might be expected out of ten; this country is very difficult to work, on account of the uncertainty of the seasons; I have seen cultivation carried on near a bore; from what I have seen, I do not think that any large extent of country could be irrigated from any of the bores I have seen; there is no building timber on the lands asked for in exchange; from personal knowledge, I do not know where timber could be got in the vicinity; I think enough fencing could be got off the whole area for settlement leases of 3,000 acres, but I do not know if sufficient could be obtained from each block; the relative cost of building and fencing would be very much greater on Euroka than on Keepit to an incoming selector; I cannot give the percentage; a good six-wire fence could be put up on Keepit for not more than £30 per mile, No. 8 wire; I do not suppose the average cost of providing water on the Keepit land would cost more than £50 per block—that is, by wells; I think the supply would be permanent if once obtained; the cost of carriage from Keepit to the nearest railway station, I should say, would be about 8s. per ton; the cost of carriage by direct road from Euroka to Narrabri I should put down as £3.

By Mr. Wetton: The designs of country similar to Euroka were Bucklebone, Drildool, and Oreel, situated about 80 miles from Narrabri, approximately; they were dealt with as pastoral lands, owing to the distance from a railway; in estimating the area of those settlement leases the fact of the soil being suitable for agriculture was not taken into consideration; I have been to the north-west end of the Tamworth District, which adjoins the Walgett District, at Come-by-Chance and Bucklebone, about 30 miles from Walgett; if railway communication had been closer to the settlement leases, 2,560 acres to 3,000 acres in some instances, they might have been made smaller; the circular referred to, I take it to refer only to lands to be used for pastoral purposes; this is my first visit to Walgett; I formed the opinion that the Euroka lands were subject to inundation from the appearance of the country; the land has no frontage to a river; it is liable to inundation, I should say, by the backwaters from the Barwon; it is, I should say, not closer than 10 miles; it would not necessarily require a very heavy flood to inundate the land; I do not know how long it is since the land was inundated; in the event of railway communication, I would not advise that blocks E, F, G be cut up into smaller areas suitable for agricultural purposes, as I do not think the climatic conditions were favourable; 21 inches of rain is sufficient; if these areas were cut up into areas of from 600 to 1,280 acres, a 5,000-yard tank, I think, would be required to supply a permanent supply of water; some of the soil at Woolabra is good for cultivation; the caretaker, so far as I know, is the cultivator; I do not know that a flow of 2,000,000 gallons is equal to a fall of rain of 1 inch on an area of 480 acres on alternate days; I should say that a fence could be erected at Keepit equally as cheap as at Euroka; I have made inquiries as to fencing in adjoining district to Walgett, and in Euroka from the manager; he told me it would cost £36 per mile; I did not make any inquiries as to cost of building; I estimated that the cost of building at Euroka would be heavier than that at Keepit, from the fact that timber could not be obtained so close; I formed the opinion without going into details; I saw four wells on Keepit in working order, from 18 to 25 feet deep; the water, so far as I know, was good and permanent; it was being used; the value of the Keepit land I fixed as the land now stands; the last land sold there was on Durham Court; some brought £4 per acre, one isolated block brought £1 2s. 6d. per acre, the others from 30s. to £4 per acre on a freehold basis; the land, so far as I know, had been used for grazing; it was all cleared; there were several purchasers; it was cut into small areas for agricultural purposes; the distance to Manilla was from 6 to 10 miles; it was a narrow strip, running from 6 to 10 miles; I do not know the rent of the conditional lease lands to be surrendered; I should not say that the whole of Keepit Holding is seedy; generally speaking, the lands which I have classed as agricultural are not particularly grass seedy; I saw some of the grass with grass seeds on; there is the three-pronged variety; the grass seed would be worse in a good season than in a bad one; the holders have a small area of Crown lands on Keepit, in addition to the conditional purchases and conditional leases; I heard that the surrounding country was infested with wild dogs; an area close to Keepit has been subdivided for the purpose of settlement; some of them are surrounded by the lands proposed to be surrendered; it is not better country than Keepit; they are within Keepit, and some adjoining Keepit, which were acquired in a previous exchange with Keepit; at a very rough estimate I should say that exchange would be about 3,000 acres; it had the effect of consolidating Keepit; the lands were set apart for settlement from 320 to 640 acres; they were all taken up; I do not know if the whole of them were offered; I do not know how many were offered; it would cost from 5s. to 10s. per acre to clear the lands on Keepit where the timber has been ringbarked, and where the timber is green from 20s. to 30s. per acre, to clear fit for the plough; I think the capital value put on the lands thrown open by the Crown was up to £3 per acre; I am only speaking from memory, not having dealt with the land myself; the river frontage block was, I think, lower than any of the others; it is some few years since the blocks were taken up on Keepit; I do not know if any application has been made for reappraisalment.

By Mr. Pike: I was employed from August, 1891, in the Tamworth District as Staff Surveyor, and also as Acting District Surveyor part of the time; from the boundary of the Tamworth District to the Euroka land, I should say would not be more than 10 miles; going from Walgett east the rainfall increases towards Narrabri; the 21 inches of rain is ample if it falls at the proper time; from my experience of the western edge of the Tamworth District, rain does not fall at the proper time for agricultural purposes; taking the carrying capacity of Euroka as 2 acres to one sheep in accordance with the circular, it would require 4,000 acres for a holding that would give a total of seven holding; in my capacity as Acting District Surveyor, it has come under my notice that people have stated publicly that an area of 2,560 acres on the western edge of the Tamworth District was not sufficient to support a family; I have not been asked myself directly; I consider that an area of 2,560 acres on Euroka is sufficient; I think if blocks B, C, D were subdivided they would be taken up,
but,

Exhibit FF 52.
Exhibit GG 52.

but, I am not prepared to say that a living could be made off them; Bucklebone and Drilool, as a whole, consists of better country for settlement than Euroka; at Keepit there are some selections in the centre of the land offered in surrender under cultivation; I do not know if the land taken up by Meagher is under cultivation; the lands shown on the map taken up by James and Pierce Cullanan are two of the blocks cultivated, also part of that taken up by Albert and Mark Porter; I cannot say that land held by William Bowman and R. M. Bryce is cultivated; I cannot say that timber is being cut on Keepit to supply the saw-mills in the district; all through that district there is a big demand for land; I think that the land proposed to be surrendered if cut up into forty-five blocks would not only be applied for, but would be competed for.

By Mr. Thurburn: Eighty miles would be the outside limit of all the lands I mentioned from the railway; the nearest point of Drilool would be about 50 miles to the railway; if Euroka were subdivided into from 750 to 1,230 acres; I do not think it would be possible to get a supply of water by tanks on portions A, B, C, D, on the other portions it may be possible, but it is very likely that sites for tanks would be obtained with difficulty.

By Board: The land sold near Manilla was not Crown land, but part of Durham Court Estate; the land was offered at public auction; I should say that Manilla is closer to Newcastle than Narrabri; I think there is about 30 miles difference, but cannot say positively without seeing the mileage; I heard that the hilly country round about Keepit and Tulcumbah, was troubled with dogs at times; this country is westerly and south-westerly from the land offered in surrender.

A. S. BARTON, }

This deponent, *Charles Walter Laing*, of Moree, Acting District Surveyor, being duly sworn, maketh oath, and saith as follows:—I know the country under consideration at Euroka, as shown upon tracing "F"; I have been employed in the Moree Land Board District about fifteen years; during that time I have been frequently in the neighbourhood of Walgett; from my experience of the district generally, I consider that the lands at Euroka are of a grazing character; I do not think agriculture could be carried on profitably on small areas; I have seen agriculture on small areas for cultivation of hay for home use; if I were designing the country for settlement leases, I would cut it up into areas of 4,000 to 5,000 acres; I think a man might do with a less area, but the Minister has decided that the land should carry between 2,000 and 3,000 sheep; if that direction were disregarded, I would not think of measuring anything under 2,560 acres; I think the country is liable to inundation; through blocks A, B, C, and D, I have driven through 8 miles of water from old Euroka to the woolshed; a large swamp goes through portions A, B, C, and D, the overflow from the Namoi River; I cannot say if blocks E, F, and G are flooded.

By Mr. Wetton: The distance from Euroka to the woolshed is about 12 miles; I have not seen any water about the woolshed; a warrambool runs between Euroka and the woolshed; I think the largest area of settlement leases on Euroka was about 2,560 acres; I do not know the area of the smallest lease; I do not know, but I believe all those lands were balloted for; they were all taken up; if it were not for the Minister's minute, I should cut up the land into 2,560-acre blocks.

By Mr. Pike: I have designed the whole of the subdivisions in the Walgett District since the 1895 Act came in; for some years I had sole charge of the Walgett end of Moree District; that part of Euroka thrown open to settlement lease is between the land now under consideration and the town of Walgett; some of it is between 2 and 3 miles of Walgett; Youendah Holding adjoining Euroka has been cut up into settlement leases; I cannot say what the largest area was; so far as I recollect, somewhere about 3,000 acres; I do not think there was any area under 2,560 acres.

CHARLES W. LAING.

this 23rd of April, 1900,—

FRED. POATE, Acting Chairman.
W. G. FERRIS, } Members.
A. S. BARTON, }

This deponent, *Charles Thurburn*, of Tamworth, Acting District Surveyor, being duly sworn, maketh oath, and saith as follows:—I was present at the Land Board inquiry at Tamworth, on 20th, 21st, and 23rd February last, in connection with the Euroka-Keepit exchange, and I herewith tender the finding of that Board.

Mr. Wetton here objected to the finding of the Tamworth Board being put in, on the grounds that section 5 of the 1889 Act only gives the Minister power to refer any question as a whole to any Land Board, and that this Board has no right to take into consideration, in arriving at a determination, any evidence or decision arrived at by any other Board.

Objection over-ruled.

Decision of the Tamworth Board of 23rd February, 1900, registered Alienation 3,144 of 1900, admitted.

CHARLES THURBURN.

Sworn by Charles Thurburn, at Walgett, }
this 23rd of April, 1900,—

FRED. POATE, Acting Chairman.
W. G. FERRIS, } Members.
A. S. BARTON, }

This deponent, *John Young Bell*, of near Walgett, grazier, being duly sworn, maketh oath, and saith as follows:—I know the land on Euroka proposed to be exchanged; the nearest point of land I own is about 7 miles from the leasehold area; I did not select on Euroka; a small portion of land taken up by my brother, in which I am interested, is on Euroka; I have been a resident of the district a little over ten years, on the land I at present hold; I have not gone in for any agriculture on my own land, but on my brother's I have done some farming on the share system; his land is nearer Euroka than mine; we have been farming about nine years, and have had eight successful crops and one failure; we have gone in for hay principally; we have had about 2½ tons per acre; on one occasion we had none at all; another time we had ¾ of a ton; the largest area we have had under cultivation is about 65 acres; we grew both for ourselves and to sell; we sold a good deal, and have had as high as £11 per ton for chaff, and as low as £6 per ton; I consider the leasehold area of Euroka is as good for agricultural purposes as the land I have been cultivating; the flow on the Euroka bore, on the travelling stock reserve, was estimated by Mr. Boulton at 6,000,000 gallons per day; I think the bore supplies four selectors with water; I believe other selectors are making application to be supplied from the same bore; I intend putting about 300 acres under cultivation this year; it is possible to grow wheat on this country; I produce a sample of wheat grown on my place; it was not grown for wheat, but was knocked out of the hay when carted in; it had not matured when the hay was cut; I produce a fair sample of 89 bushels of wheat I bought from Pedley and Haigh; the bore water runs through the paddock I am cultivating; the trench from the bore to the cultivation paddock was cut about eighteen months ago; I have had only one crop with irrigation; I have also grown lucerne with irrigation; it has been cut once when it was very young, and I got 2 tons from 5 acres; it is still growing; my brother and I hold four conditional leases; the lowest rent is 3d. per acre, one at 3½d., one at 5½d., and one at 5¾d.; I produce a certified copy of the stock returns from Euroka and Keepit stations from 1892 to 1900, marked Exhibit I; the leasehold area of Euroka would require very little clearing to make it fit for cultivation; about 3s. 6d. per acre would fit the land for the plough; with the full flow from the bore of the water running through my channel, I could irrigate 2,000 acres; I do not know if it is flowing with full force through the pipe; a bore has been put down on Euroka Station, and I know that they have artesian water there; the bore on Euroka is about 5 miles north-east of the bore on the Coonamble-Dubbo road; it is surrounded by the lands proposed to be exchanged; I do not know the flow or depth of the bore; I think the depth of the Talura bore is 1,540 feet; with artesian water, it would be possible for a selector to make a living off less than 2,560 acres on the leasehold area of Euroka; judging from my experience of the last nine years; the country was last inundated, I think, in 1894; a warrambool runs on the land from the Namoi; the water only lies on the land a few weeks; the river requires to be very high for the land

to

to be inundated; the distance between old Euroka and the woolshed, I think, is about 6 miles; the timber for building in this district is obtained from Come-by-Chance, a distance of about 12 miles; the average cost of fencing, with No. 8 wire, would be £30 per mile; coolibar posts, I think, would have a longer life than pine; if artesian water were obtained it would not be necessary to put down tanks.

JOHN Y. BELL.

Court adjourned at 5.15 p.m.

Resumed 9 a.m. on 24th April, 1900.

By Mr. Thurburn: Myself and brother hold 10,240 acres in this district; I have none elsewhere; I use the land principally for grazing; I principally breed, and carry on an average one sheep to 1½ acre; that has been the average for nine years; the average for the last five years has been a little under; I lost a few sheep last year owing to the drought; I lost about 1,000, I think; I sold some, I think, last July; I think somewhere about 2,000 were delivered; after the loss, and what were sold, I shored 4,300 sheep; I had no forage stored for the sheep; I cannot give the average area farmed for each year; the first year, I think, was about 8 acres, as near as I can recollect; we estimated it roughly at a little over 1 ton per acre; I cannot say what we got the second year; the yield last year, only estimated by measurement, was, I think, 64 tons; not quite a ton to the acre; I estimated one paddock at less than 50 acres, but a man named Butler estimated it at the 50; last year I irrigated a small portion; we have had some years better without irrigation and some worse; last year was our first experience with irrigation; we have had £6, £7, £8, £9, £10, and £11 per ton for chaff, and I have refused as high as £14; I am starting to increase the cultivation now; I have been gaining experience as I went along, and I was not too flush of money; it takes a good deal of money; there are agricultural farms in the district besides my own; I cannot say what is the largest area; I know of several of about 12 or 15 acres, which have only started lately; I think these areas have been cultivated as a trial, to see if it would do better than sheep; I could mention a row round Euroka, but they have not sold any yet; I daresay they are growing for home consumption; I have not grown wheat for grain; I intend to; I do not know that anyone, except a man named Murray, upon the Namoi, grows wheat for grain in this district; I could not say if he grows it regularly each year; from the experience I got from the wheat, from my own hay, this year, I consider this the finest wheat-growing country in New South Wales; I have had a great deal of experience in wheat-growing in Riverina; this district I consider has grown the best wheat for the time it has been allowed to mature, taking into consideration what I received from my own hay, of any in New South Wales; no wheat has been cut for grain on my place; I had about thirty bags of wheat, and what I have produced is a fair sample; it dropped from the hay as I was carting it in; there was an enormous yield; I have not obtained a similar return each year; I never saved the wheat before, but put it into the stack; the land on my own and brother's conditional purchase is similar to Euroka; the land on Euroka I call black-soil plains, with portions of reddish, chocolate, and small scalded patches here and there, lightly timbered with myall, coolibar, patches of whitewood; there are a few other trees I do not rightly know the names of; there are patches of lignum country; a good deal of it is covered with small lignum, on which the stock principally live on in dry time; it is an indication of water; the high lignum is an indication of flooded country; I consider the lignum country the very best for cultivation; portion of the country I cultivate is lignum; it does not suit to follow the lignum although it is the best country; the whole of Euroka right through could be cleared for an average of 3s. 6d. per acre; if a contract were given right through that would be the average; I could get the coolibar cleared there for 3s. 6d. per acre; most of Euroka is covered with coolibar and myall mixed; patches of the coolibar might cost a little more than 3s. 6d. per acre; I have seen 20,000 or 30,000 acres heavier timbered than Euroka cleared at 3s. 6d. per acre; to clear the timbered country on Euroka, I should say the average would go to about 5s. per acre; I have had experience with irrigation with bores extending over one year; I have not seen irrigation carried on at any other bore; I do not know that bore water has a deleterious effect on country after a series of years of irrigation; I could not say that it might have; I estimated that 2,000 acres could be irrigated from the Talura bore, from the fact that I had one-third of the flow from that bore; I irrigated 20 acres in two days; I did not flood it at all; I ran small channels, about 8 feet apart, through the paddock; after filling the channels twice, which took a day each time, thoroughly soaked the ground between the furrows; I do not know, of my own knowledge, what is the flow from that bore; I do not know the area on which the stock run in connection with the returns I produced; as the notice was short I had not an opportunity of getting them; I believe Euroka station holds some freehold lands; they may lease other Crown lands than those they are asking for in exchange; I have not, at any time, advocated fairly large areas for settlement leases; it would take me, roughly, about ten weeks to irrigate 2,000 acres with the full flow from the bore; we irrigated—not flooded—twice last year; 2,000 acres could be irrigated so that the land could be used the whole year.

By Mr. P.ks: I belong to the Walgett branch of the Farmers and Settlers' Association of New South Wales; I have held office in the branch as president; I do not know that the Association advocated increase of areas of settlement leases; I will not swear that they have not; I could not say if the matter were discussed while I held the office of president; I have not had access to the minute-book; I could have had; I was president for three or four months; I have not received a notice from the secretary that an increase of areas was to be discussed at a certain meeting; I consider that the proposed will be a great injustice to the Colony of New South Wales, more particularly this district; I mean the Colony of New South Wales and the public, particularly the district of Walgett; the settlement of this district will be greatly affected, and I believe that more people could be settled on the Euroka land than on the land they are offering; I have never seen the land which is being offered; Narrabri or Gunnedah is the nearest I have been to it; it was passing through Gunnedah in the train; I consider this country better, from what I heard in evidence here yesterday; I had my experience of similar country above and below Albury, on the Murray; I know the whole of the Albury District and Germanton, from there to Wagga, Cootamundra, and Temora, Narrandera, and Hay right on to Narramine; I have not been right to Deniliquin; I do not know the district; I cannot say that I have been in the Manilla District; I do not know that Deniliquin District is the largest producer in the whole Colony; my brother and I use practically the whole of the 10,240 acres for grazing; I put in 4 acres of crop on that land and got nothing; that was the year we had the failure; I have not tried again on my own property; it was the year before last I put the crop in on my property; I think it is possible to grow crops on my country without irrigation; I think we could get eight crops out of nine; I think the whole of Euroka is suitable for irrigation; the lignum country is suitable for irrigation; portions of Euroka are practically cleared; I am sure there are not 20,000 acres cleared; at a rough guess I think there are 4,000 or 5,000 acres of cleared country; I have sufficient experience to know that the clearing could be done for 3s. 6d. per acre; the 3s. 6d. per acre for clearing was practically a guess; for the purpose of grazing on Euroka; I think about 2,500 acres would be required for each block; I know men who, with a capital of £200, have done very well on an area of 2,560 acres as grazing country; I consider that in ordinary seasons a man by farming could make a living off 400 acres if he farmed it all; he could make a living on the 400 acres without irrigation if he had ten years similar to the last ten years; I had a crop in on my brother's place in 1893; I think that was the year of the failure; in two paddocks there were failures; that year the paddocks were 7 miles apart; I had no irrigation that year; if all the people in the district put in wheat, I suppose they would grind it and sell the flour in this district and Queensland; wheat grown in this district could not compete in any market except Walgett, and west of Walgett, with that grown in Manilla; I have had to pay 9s. 6d. per bushel for wheat in Walgett; I have not sold any; I have sold 150 tons of produce in nine years; I think we had 4 tons for which we got £11 per ton for; it was a very bad time, but there has been one time worse since, when I was offered £14 per ton; when we got a good crop from natural rainfall, we also get good grass; we have had no difficulty in selling our fodder; in fairly good seasons we have got £6 per ton for fodder, chiefly from Walgett people; at the time we got £11 per ton for fodder, I know of two others who grew fodder; they only had small patches of 12 or 15 acres; they did not sell any; I think the cost of carriage from Narrabri at that time was £5 or £6 per ton; in fairly good seasons it is about £3 10s. per ton; the lignum country on Euroka would first be ploughed, and then harrowed; I could carry water from the bore—30 miles—for the purpose of irrigation; it would require fourteen bores like Talura to irrigate the 23,000 acres of Euroka; I had an offer to put one down for 17s. 6d. per foot—that is, inclusive of the cost of drains.

By Mr. Welton: The seasons for the last five years have been very bad—the worst since I have been here; Mr. McCulloch, Kennedy Brothers, McQuillan, Rowe, Ramsden have agricultural farms, I think, from 5 to 10 miles from the leasehold area of Euroka; hay is generally cut green; the land I farm is about ¾ or 1 mile from the land sought in exchange, separated by the travelling stock reserve; it was never mentioned to me that my Association was advocating increased areas; 1893 was a very bad season; I do not know the rainfall for that year; chaff in Walgett, I think, is now £12 per ton; the roads between here and Narrabri are in good travelling condition.

By

By Board: I have 5 acres of land under lucerne; I sowed it in May last year, and cut it in November; it is about 2 feet 6 inches high now, and in flower; my opinion is that in the lucerne districts it is cut every six weeks, after it is established for three years; if I had been cutting the wheat for grain from which I got the thirty bags, I would have cut it later; if I had kept the crop for wheat, I would not have lost as much grain as I did by cutting it for loose hay; I am not aware that if a number of artesian bores are put down close together that the flow decreases; last year I rented some country for 1,300 sheep; I rented one paddock for a month, another for six months, in 1897; with those exceptions the 7,000 sheep run on the 10,240 acres.

This deponent, *Robert Wilson*, of Walgett, retired, being duly sworn, maketh oath, and saith as follows:—

By Mr. Wetton: I have been resident of the Walgett District nearly sixteen years; I know some parts of Euroka and Keepit Holdings; I was in the neighbourhood of Keepit for six years; I was employed by William Cobcroft on the property adjoining; I was also employed on Mr. Palmer's station on the Namoi, adjoining Keepit, in one corner; the general character of the Keepit land is ridgy, stony, and carries a heavy crop of grass-seed; it is pretty heavily-timbered with box; small quantity of coolibar; it is forty-two years since I left there; I left in 1859, and went there in 1852; the grass-seed is corkscrew and three-pronged, which works into the sheep, causing them to fester; I do not consider it good country for sheep-breeding or fattening, unless the sheep have a great quantity of salt; my opinion is that Keepit is not to be compared with Euroka; my family have some land on the river, and I am sure we would not exchange; I do not think that acre for acre they are of equal value; at the time I was on Keepit, there were any amount of wild dogs; I have no interest in the exchange; I am not a member of any association.

By Mr. Thurburn: I have not been on Manadabri since I left there forty-two years ago; there was no cultivation there then, as it was prior to the 1861 Land Act; I should judge from going over the land, that about 60 to 100 acres out of 1,000 were good for cultivation; I should think Euroka would be taken up at 25s. per acre; it is good country.

By Mr. Pike: I have not owned or bred sheep myself.

This deponent, *George Matthews*, of Forest Lodge, close to Walgett, grazier, being duly sworn, maketh oath, and saith as follows:—

By Mr. Wetton: I think I know the leasehold area of Euroka Holding; I know Keepit Holding in Tamworth district; I have not been on it the last nineteen or twenty years; I have known Euroka since the year 1860; I have some knowledge of agriculture; I would take Euroka rather than Keepit for agricultural purposes; the back part of Keepit is timbered; from what I recollect, the front was nice open country; the back was timbered; I have seen crops grown in this district, on the Barwon, on John Holt's place, about 3 miles from Walgett; it was wheat grown for hay; I do not know what the extent of country was; it was a splendid crop; there were about 4 acres; I have seen three or four crops there; last year was not a good crop; I have seen as good crops as I ever saw on the same ground; the last few years have been dry; I know Mr. Weate's place, about 3½ miles away; he has two paddocks under cultivation; last year he had no crop; but the two previous years he had good crops; the soil is good enough if properly managed; I have seen heavy crops on Gingie; the crops mentioned are on the Barwon; the soil in the back country is good enough, if properly managed.

By Mr. Thurburn: When I was on Keepit, it was not improved by ringbarking; I could not say if farming was being carried on at that time in the neighbourhood of Manilla; from personal observation, I am not able to say as to what crops can be produced on Keepit.

By Mr. Pike: I have nearly 13,000 acres of land; I have not farmed any of it; I would call Euroka fit for both pastoral and agricultural purposes; I could farm it in proper seasons; farming would not pay down here; grazing and farming together with a market, I could make a living off 2,560 acres on Euroka; I have had experience, in the old country and this, ever since I was a boy, of farming.

By Board: I do not consider it would be any use cutting up Euroka into less than 2,560 acres for grazing; I think a man could get a living off that; in an average season, I think about 5 acres to a sheep; we have either good or bad seasons here.

By Mr. Wetton: The 13,000 acres I own is on Gingie on Walgett North; I base the carrying capacity of 5 acres to a sheep from the country I own.

This deponent, *John Staunton*, of Walgett, hotel-keeper, being duly sworn, maketh oath, and saith as follows:— I have been nearly thirty years in the Walgett district; I know Euroka Holding; I think it would be suitable for agriculture in fair seasons; I know of agriculture in this district; I do not know of any on this side of the river except those on the river; I know Mr. Bell's, Mr. Rowe's, McQuillan's, Kennedy's, and other places where small quantities are grown; I have seen some of the crops, and have a sample of wheat grown on Euroka; I grew some crops years ago, but not lately; I only had a couple of acres; I got good crops; I know of a crop close to Walgett put in last year, and only harrowed, by a man named Ramsden; there is not sufficient fodder grown in the district to supply Walgett; chaff is now from £10 to £12 per ton, cost of carriage from Narrabri is £6 per ton, it averages about £4; I have seen it as low as £2 10s. per ton; I think it is possible for a man to get a living from farming here in average seasons; by cultivating properly a very good crop can be obtained; I think Euroka should be divided for settlement into about 3,000 acres for agriculture and grazing combined; I know people who are doing very well by grazing alone, off an area of 2,560 acres; Ramsden holds 1,280 acres on Ulumbie Holding; it is 4 miles from Walgett to his place; he is making a good living; it was he who put in the crop without ploughing.

By Mr. Thurburn: I would not like to chance living by agriculture alone; I have known years when it would pay, but it would not pay during seasons like we have had the last few seasons; Ramsden does not make his living from farming only, but principally dairying; he does not do any dealing, only buys milking cattle.

By Mr. Pike: I am a member of the Walgett Farmers and Settlers' Association, and the Progress Association; the objection I have to the exchange is that the district would benefit more by the land being held by settlers than by the station alone.

This deponent, *William Dodd*, of Walgett, hotelkeeper, being duly sworn, maketh oath, and saith as follows:— I know Euroka Holding, and have been on Keepit Holding; it is a few months since I was over Keepit; I have a fairly good knowledge of grazing country, but none of agriculture; for pastoral purposes I do not think Keepit is to be compared with Euroka; I saw the corkscrew and spear grasses chiefly on Keepit, they are not good grasses; I do not consider that acre for acre Keepit is equal to Euroka; I am nearly 60 years of age; my experience has been nearly all on the Barwon; I have had over thirty years' experience; I was manager of Yarrandah, adjoining Euroka; I saw some sheep on Keepit, they looked in fair condition; I did not like the look of them, but I am not a sheep man.

By

By Mr. Thurburn : I did not go to Keepit with the intention of inspecting the property ; I did not inspect it ; I was only taking sheep from Euroka to Keepit ; I only know that part where I went on travelling with the sheep ; we have had two or three droughts since I have been on the Barwon ; I cannot say the number, it is always subject to drought.

By Mr. Pike : The sheep I was taking from Euroka to Keepit were starved out of Euroka ; I had to cut scrub for them ; I am not prepared to say how many acres would be required to make a living on Euroka ; I was about a mile or 1½ mile from Keepit head station.

By Mr. Wetton : At the time I took the sheep from Euroka there was a large area selected from Euroka.

WILLIAM x DODD.
 his
 mark.
 Witness :—T. S. HULME, Deposition Clerk.

This deponent, *Louis Leake*, of near Walgett, station-manager, being duly sworn, maketh oath, and saith as follows :—I am manager of Euroka and Keepit Stations, supervising manager of Keepit ; I am acquainted with the lands of Euroka and Keepit Holdings ; portions marked A, B, C, D on tracing F are subject to floods ; I have been at Euroka between nine and ten years ; during that time the blocks mentioned have been impassable three times in as many years ; two portions of them were dry, but the greater portion was covered with water from 6 inches to 4 feet ; there is timber fit for milling on Keepit, and it is being cut for the local saw-mills on the land proposed to be surrendered ; the saw-mill is at Carroll, 10 miles away ; Euroka timber is very poor for fencing purposes ; the timber on Keepit is splendid for fencing ; I consider there is enough timber on Keepit to fence the forty-five blocks suggested ; I cannot say how long the fences on Keepit or Euroka would last ; there is very good building timber on Keepit ; I saw the stock returns produced by Mr. Bell ; there has been about 20,000 head of sheep and 1,000 head of cattle on Keepit since I have been supervising, about five years, running on about 35,000 acres of country ; I reckon 1,000 cattle equal 6,000 sheep for grazing ; we have turned off both fat sheep and cattle, I think, each year ; we have been stocked on Euroka for the last ten years, an average of 2½ acres per sheep ; we lost 36,000 sheep from flood, and about 30,000 from drought ; the dogs on Keepit are not bad ; we have dogs on Euroka lately ; we have not suffered very much at either place ; it would be impossible for a settler to hold his sheep on blocks B and C and the greater portion of A and D, as shown on sketch F, in times of flood ; I have tried cultivation on Euroka, and irrigated from the private bore ; I found the bore water had a deleterious effect on the soil ; the bore water cakes the soil, and after being irrigated a few times it is very difficult to work ; a crop that can be cultivated between the rows can be worked to advantage, but a crop such as lucerne, that has to be irrigated for a succession of years without being able to cultivate the soil, becomes hard, causing the crop to deteriorate ; I consider that Euroka is grazing land, and I think ought to be cut up into blocks of 5,000 or 6,000 acres, in order that a man may obtain a living ; Keepit is both agricultural and pastoral land ; there is cultivated land in the centre of that proposed to be surrendered ; it is heavily cultivated ; I think Keepit could be cut into blocks of 320 acres, so that a man could make a living ; there would be a market for all the stuff grown.

By Mr. Thurburn : I keep a rain-gauge at Euroka ; for eighteen years' record kept by the station, the rainfall has on average been 18 inches 54 points ; in 1890 there was 35 inches 87 points ; during that year the country was flooded ; in 1888 there was 9 inches 88 points ; a light fall of a few points does no good after a dry time ; the last four years has been practically drought ; although we have had good falls, they have not been followed up by other rains to be of much benefit ; the light falls of rain would not be much use to an agriculturist ; a succession of light falls would benefit the crops grown in winter-time, but it is not the character to get falls in succession ; I tried to cultivate without the bore-water, but it was not a success.

By Mr. Wetton : I deny that the stock returns put in are correct ; we have lost sheep occasionally on Keepit by the dogs ; the cattle and sheep run all over the property ; the sheep have not travelled from Keepit on agistment ; we have had stock on agistment ; the 20,000 sheep and 1,000 head of cattle are there all the year round ; we generally send about 100 head of fat bullocks away per annum ; we have 2,000 fat sheep there now ; about 2,000 went down last year ; I cannot give the exact numbers sent away the past five years ; 10,000 have not been sent, but 5,000 have ; Dalgety and Company do not rent country adjoining Keepit ; the stock mentioned have been on Keepit only ; I came on to Euroka after the 1890 flood ; I saw the bones of the sheep lost—the exact number I got from the books ; I can swear that there were 36,000 lost ; I have not seen or killed any wild dogs on Euroka ; I have seen the blocks A, B, C, and D flooded twice in 1893 and 1894 ; I think September or October, 1893, and April and May in 1894 ; the water remained on the blocks from five to eight weeks ; the bore has been done between two and three years ; I started to cultivate immediately we obtained the water, in 1898 ; I put in wheat, lucerne, maize, and potatoes ; the area put under cultivation in 1898 was 7 acres ; I put in 4½ to 5 acres of wheat ; only a few rows of maize, about ½ an acre of potatoes, and 1½ to 2 acres of lucerne ; I irrigated some of it by flooding, but most of it by confining the water to channels ; I have had agricultural experience in Victoria and New South Wales ; I put in a crop in 1899, and got a good crop of about 14 acres ; lucerne can sometimes be grown between the drains ; the whole of the available land has been selected on Euroka, from, I think, 1,900 acres to 2,900 acres ; the land in the centre of Keepit has been cultivated ever since I went there ; the farm at Euroka is close to the station ; the temperature of the water is 108 degrees ; I put it direct on the land in use, except in hot weather ; the 36,000 sheep were mostly drowned on portions alienated from the station ; I think there were not 1,000 drowned on the blocks A, B, C, and D on sketch F ; there were about seventy sheep lost on one of those blocks in 1893 ; some of the remainder of the sheep were put on the higher country—part of that proposed to be surrendered ; I do not know how many sheep were running in the angle paddock last year ; the travelling stock reserve in that paddock belongs to the station ; I was not running 5,000 sheep there last year.

By Mr. Pike : The dogs referred to on Euroka are town dogs ; it is very hard to get at them.

No. 75.

Decision of the Local Land Board.

New South Wales, } Walgett, Tamworth, and Gunnedah—Heard at Walgett.
 to wit. }

WHEREAS on the 23rd and 24th days of April, 1900, it became a matter for investigation before us whether the proposed surrender and exchange of lands on Keepit Holding, 492, Eastern Division, and Euroka Holding, 558, Central Division, Land Districts of Tamworth, Gunnedah, and Walgett, should be recommended, and having taken evidence and inquired into the said matter, we report that the land offered in surrender is in an agricultural district, and is to a large extent suitable for agriculture ; also that it has convenient access to market ; and that the Tamworth Land Board, on the 23rd day of February, 1900, found that this land is fit for the support of forty-five families if suitably subdivided.

We also report that the land asked for in exchange, viz., 28,229 acres 1 rood 28 perches, as set forth in schedules marked Exhibit GG 52, is in a pastoral district, remote from market, and, under existing conditions, would be subdivided into six or seven holdings ; or, if the areas are reduced to a minimum, into not more than eleven holdings.

We

We appraise the value of the land asked for in exchange at £37,074 5s. 8d., as set forth in schedules marked G G 52, and report that the Tamworth Board, on the 23rd February, 1900, valued the land offered in surrender at £45,484 14s. 5d.

We are of the opinion that the exchange is desirable in the public interest, and recommend it be effected.

Costs of this hearing amount to £25 4s. See Mr Thurburn's memorandum of even date.

Mr. Acting District-Surveyor Thurburn appeared for the Crown.

Mr. Pike for applicants.

Mr. Wetton for objectors, viz.:—Farmers and Settlers' Association of New South Wales, Farmers and Settlers' Association of Walgett, and the Progress Committee of Walgett.

This case was initiated before the Tamworth Board, and, at the opening of the proceedings before us, Mr. Wetton objected to the Crown continuing their case, contending that the applicant should open the case, and that the objections need not be formulated or gone into until applicant had closed his case.

Board ruled:—Crown to complete their case in chief; objectors then to formulate their objections, and support same by evidence.

Given under our hands, at the Court-house, Walgett, in the Colony of New South Wales, this 24th day of April, 1900.

18 May, 1900.

THE attached notice of appeal by John Young Bell against the decision of the Walgett Land Board, in the matter of the proposed surrender and exchange of lands on Keepit and Euroka Holdings, is forwarded to the Under Secretary for Lands with a request that the former papers in the Exchange Case, Land Board 00/2,530, forwarded to head office on the 3rd instant, may be attached and transmitted to the Registrar of the Land Appeal Court as soon as practicable and convenient.

ARTHUR BADCOCK

(pro Acting Chairman, Local Land Board, Moree).

The Under Secretary for Lands, Sydney.

[Enclosure.]

New South Wales, }
to wit. }

Notice of appeal to the Land Appeal Court from decision of Local Land Board.

WHEREAS on the twenty-third and twenty-fourth days of April, 1900, a certain matter wherein Dalgety and Company were the applicants for surrender of lands on Keepit Holding, Gunnedah and Tamworth Land Districts, in exchange for lands on Euroka Holding, Walgett Land District, came before the Local Land Board at Walgett, in New South Wales, for recommendation.

And whereas the said Board recommended that the exchange was desirable in the public interest, and that it be effected.

And whereas I am aggrieved by such decision, and desire to appeal therefrom to the Land Appeal Court. These are, therefore, to give you notice that I appeal as aforesaid, and that I deposit the sum of £5 as security for the costs of such appeal. The grounds of such appeal are set out on the back hereof. I desire that this appeal shall be heard in Sydney.

Signed this 14th day of May, 1900.

JOHN YOUNG BELL,
C/o Wetton & Co., Coonamble.

To the Chairman, Local Land Board, Moree.

RECEIVED the sum of £5, referred to above, by registered post.—ARTHUR BADCOCK, Acting Clerk in charge, pro Acting Chairman, Local Land Board, Moree, 18th May, 1900.

Grounds of Appeal.

1. That the Board were wrong in forcing me to proceed with objections until the applicants closed their case.
2. That the Board were wrong in admitting the finding of the Local Land Board at Tamworth, as they ruled that the evidence upon which this finding was based was inadmissible.
3. That the Board were in error in taking into consideration the finding of the Local Land Board, at Tamworth, in arriving at their decision.
4. That the reference, under section 5 of the Act of 1899, should be directed to one Board to wholly hear the case, and all evidence must be given before that Board.
5. That the Walgett Land Board is not an Appeal Court, and has no power to review or take into consideration any decision, finding, or award made by any other Board with equal powers.
6. That no evidence was taken as to the ownership of the surrender or exchange lands.
7. That no application was put in evidence by the alleged applicants, and, therefore, the whole of the proceedings were bad.
8. That, owing to shortness of notice, I was unable to get evidence to rebut the statements made by witnesses for the applicants, but if the case was sent back for rehearing I could produce evidence which would show that the proposed exchange was against the public interest.

No. 78.

Telegram from Acting Chairman, Local Land Board, Moree, to The Under Secretary for Lands.

18 May, 1900.

APPEAL lodged, Euroka-Keepit exchange. Letter following.

ARTHUR BADCOCK

(pro Acting Chairman, Local Land Board).

No. 79.

The Registrar, Land Appeal Court, to Mr. J. Y. Bell.

In the Land Appeal Court }
of New South Wales. }

In the matter of application of Dalgety and Company (Limited) for surrender of lands in the Keepit Holding, No. 492, Eastern Division, in exchange for lands in the Euroka Holding, No. 558, Central Division, Land Districts of Tamworth, Gunnedah, and Walgett.

THE above-mentioned matter having come under the cognisance of the Land Appeal Court, upon the appeal by John Young Bell, against the recommendation of the Local Land Board in favour of the granting of said application made in respect thereof upon the 18th day of May, 1900, you are hereby notified that, at the sittings of the Land Appeal Court, to be holden at Sydney on the 25th day of June next, and following days, the said matter will be brought before the Court for hearing or otherwise as may be ordered in that behalf.

Signed this 28th day of May, 1900.

J. T. KEATING,
Registrar.

New South Wales, to wit, Coonamble. Constable M. N. Brennan maketh oath, and saith that he did, on the 1st day of June, 1900, at Coonamble, serve a true copy of this Land Notice on A. T. Wetton, who is agent for John Young Bell, and who accepted service on his behalf.—M. N. BRENNAN.

I, M. N. Brennan, Police Constable, do hereby solemnly declare and affirm that the above statement is true, and I make this solemn declaration as to the matters aforesaid according to the law in this behalf made, and subject to punishment by law provided for any wilfully false statement in any such declaration.—M. N. BRENNAN. Made before me, at Coonamble, this 1st day of June, 1900.—G. A. COBB, J.P.

of New South Wales. }

In the matter of application of Dalgety and Company (Limited), for surrender of lands in the Keepit-Holding, No. 492, Eastern Division, in exchange for lands in the Euroka Holding, No. 558, Central Division, Land Districts of Tamworth, Gunnedah, and Walgett.

THE above-mentioned matter having come under the cognisance of the Land Appeal Court, upon the appeal by John Young Bell, against the recommendation of the Local Land Board in favour of the granting of said application made in respect thereof upon the 18th day of May, 1900, you are hereby notified that, at the sittings of the Land Appeal Court, to be holden at Sydney on the 25th day of June next, and following days, the said matter will be brought before the Court for hearing or otherwise as may be ordered in that behalf.

Signed this 28th day of May, 1900.

J. T. KEATING,
Registrar.

Patrick Scannell, Police Constable, of Moree, do hereby state that he did, at Moree, on the 1st day of June, 1900, personally serve a true copy of the within Notice on H. M. L. Pike, Esquire, agent for the manager of Dalgety and Company (Limited).—P. SCANNELL.

I, Patrick Scannell, do hereby solemnly declare and affirm that the above statement is true, and I make this solemn declaration as to the matters aforesaid according to the law in this behalf made, and subject to punishment by law provided for any wilfully false statement in any such declaration.—P. SCANNELL. Made before me, at Moree, this 1st day of June, 1900.—C. H. GALE, J.P.

The Registrar, Land Appeal Court.—J. H. COFF (for I.G.P.), B.C., 5/6/1900.

No. 81.

The Manager, Dalgety and Company (Limited), to The Under Secretary for Lands.

Keepit-Euroka Exchange.

Sir,

Sydney, 29 May, 1900.

Referring to the proposed exchange of areas from our Keepit Station, Tamworth, to our Euroka Station, Walgett, we beg to say that an appeal has been lodged by one Bell against the strong recommendation of the Walgett Board in favour of the exchange; and if the appeal in question is allowed to hold good, this important matter will not only be suspended for the time being, but we shall have to go to the trouble and expense of appearing before the Land Court to explain away a series of frivolous objections. We understand Bell is not personally affected, and is probably merely voicing the views of a few selectors on this question, while the objections in his notice of appeal have little to do with the merits of the case, but turn upon a dozen technical points of a frivolous character. At least so we are advised by a barrister skilled in land matters. We protest against any such Land Court hearing, and we appeal to your good sense to protect us in the matter.

As you are aware, this exchange has been for a year or two before the public, and we have spent no end of time and trouble in bringing it along to the present stage; and as you are further aware, we hold strong recommendations in favour of the proposal, not only from the Board at the end where the surrenders are to be made, but also from the Board at the end where we propose to ask for the new areas in substitution.

In view of the foregoing, it seems to us both unjust and absurd that the matter should now be indefinitely postponed at the instance of a party in the position occupied by the appellant.

We shall deem it a favour if you will kindly look into the matter, and we feel sure if you do so you will not let the exchange proceedings be delayed by any such appeal. Awaiting your early advices.

We have, &c.,

DALGETY AND COMPANY (LIMITED).

WM. KILGOUR,
Manager.

Mr. Bell does not appear to have lodged an objection; but one was lodged by the Walgett Branch of the Farmers and Settlers' Association. Mr. Bell states in his evidence that he is a member of that Association, and has been president of the branch; and it would, therefore, appear that he gave evidence on its behalf, although such is not specifically stated. He has lodged a formal appeal against the Board's decision, and such appeal is now before the Land Appeal Court, and is set down for hearing on 25th instant, at Sydney. Dalgety and Company protest against this appeal on the ground that it is frivolous, and will delay the exchange proceedings, and they ask the Minister to protect them. The appeal must, of course, come before the Appeal Court and be dealt with on its merits, and Dalgety and Company may perhaps be so informed.—E.A.B., 7/6/1900.

The case is in the hands of the Land Appeal Court, and any attempt on the part of the Department to intervene would be futile, and would perhaps draw forth adverse comment on the part of the Appeal Court.—H. CURRY, Under Secretary, 7/6/1900.

I concur. Mr. Kilgour may be informed.—T.H.H., 9/6/1900. Dalgety and Company (Limited) informed.—11/6/1900.

No. 82.

The Under Secretary for Lands to Manager, Dalgety and Company (Limited).

[Aln. 00-8,243.]

Sir,

Department of Lands, Sydney, 11 June, 1900.

Referring to your letter of the 29th ultimo, respecting the Euroka-Keepit exchange of land, and the appeal by Mr. Bell against the Board's recommendation, I have the honor to inform you that the case is in the hands of the Land Appeal Court, and must be dealt with on its merits.

The Minister has no power to intervene in a matter of this kind.

I have, &c.,

H. CURRY,

Under Secretary

(per W.H.C.).

No. 83.

The Registrar, Land Appeal Court, to The Under Secretary for Lands.

In the Land Appeal Court of New South Wales.

Land Appeal Court, No. 5,761.

APPEAL to be heard at sitting to be held at Sydney, commencing on the 25th day of June, 1900.

Appeal by John Young Bell.

Nature of appeal.—Against the recommendation of the Local Land Board in favour of the granting of the application of Dalgety and Company (Limited) for surrender of lands in the Keepit Holding, No. 492, Eastern Division, in exchange for lands in the Euroka Holding, No. 558, Central Division, Land Districts of Tamworth, Gunnedah, and Walgett.

Names and addresses of any other parties interested.—John Young Bell, care of Wetton & Co., Coonamble; Dalgety & Co. (Limited), care of H. Pike, Moree.

Now forwarded to the Minister for Lands, the case having been brought before the Land Appeal Court sitting as above on the 26th day of June, 1900.

Decision given at Sydney, 20th July, 1900.

A copy of the order of the Court will be found on third page hereof.

J. T. KEATING,

Registrar.

24th July, 1900.

Copy of Order of Court.

Appeal dismissed, with costs to the amount of £5 to be paid by the appellant to the respondent, for which the deposit lodged with appeal is to be made available.

The Court affirms the recommendation of the Local Land Board. Copy of full text of judgment enclosed.

[Enclosure.]

Reserved decision given at Sydney, 20th July, 1900.

Case 5,761.—Bell v. Dalgety and Company (Limited).

APPEAL of John Young Bell against the recommendation of the Local Land Board in the matter of the application of Dalgety and Company (Limited) for surrender of lands on the Keepit Holding, No. 492, Eastern Division, in exchange for lands on the Euroka Holding, No. 558, Central Division, Land Districts of Tamworth, Gunnedah, and Walgett.

The Board found that the lands offered for surrender 28,229 acres 1 rood 28 perches, are fit for the support of forty-five families, if suitably subdivided, and are worth £45,484 14s. 5d., and that the improvements thereon are worth to the incoming tenant about £2,300, but £3,916 15s. 6d. to the present holder, or about £52 per farm on an average; and that the acquisition by the Crown of these lands, with the improvements thereon, is desirable in the public interest, in view of the legitimate demand for settlement.

The evidence before the Court shows that the value of the lands sought for by way of exchange is £37,074 5s. 8d., and that the improvements thereon have a value of £1,490 10s., and that the area of such lands equals that of the lands offered in surrender, and that evidence also goes to show that the difference between the value of the surrendered and the exchange lands is £8,410 8s. 9d. in favour of the Crown if the exchange is carried out, and of the improvements on the respective areas, £2,325 4s. 6d., also in favour of the Crown. These last valuations are those of the inspecting surveyor, and they do not appear to have been shaken by any evidence adduced on the part of the objectors (the Selectors' Association). Taking the Board's figures, the difference in the respective values of the two assets seems to be such as to commend the proposed exchange as a very good business transaction in the public interest, not only in regard to intrinsic values, but in consideration of the greater facilities for close settlement offered by the surrendered lands.

These, on the Keepit Holding, are estimated to be capable of supporting forty-five families, while the lands asked for in exchange on the Euroka Holding could not support more than twelve.

Notwithstanding the superior advantages of settlement possessed by the lands that would be acquired by the Crown if the exchange be accomplished, it is right to point out that the applicant for the proposed exchange is not so much consolidating his holding on Euroka as transposing his estate from Keepit to Euroka. But this circumstance does not appear to the Court to outweigh the largely countervailing advantages which will be secured to the Crown in the way of settlement.

The Court affirms the recommendation of the Board, and dismisses the appeal, with costs to the amount of £5, to be paid by the appellant to the respondent, for which the deposit on appeal will be made available.

No. 84.

H. G. Freeman, Esq., to The Under Secretary for Lands.

7, Gresham-street, Sydney, 27 July, 1900.

Sir,

Euroka-Keepit Exchange.

This matter was recently the subject of an appeal to the Land Appeal Court, case number 5,761, and the Registrar has fixed the 22nd August next to settle the final certificate in connection with the order of the Court on the appeal.

As agent for the appellants in this matter, I beg to give you notice not to take any action in connection with this case till the final certificate issues.

I do so for the reason that I understand the papers have been forwarded to your office from the Land Appeal Court.

Yours, &c.,

H. G. FREEMAN.

No. 85.

No. 55.

Mr. J. Y. Bell to W. N. Willis, Esq., M.P.

Dear Sir,

Marshmead, 27 July, 1900.

As the Appeal Court has decided against me in the appeal against the Euroka-Keepit Exchange, I have prepared a petition to the Minister, signed by sixty-five residents of Walgett and district. I have another copy of this petition out, being signed by others in this neighbourhood, which I will send on to you at an early date. I am sending this on to you hurriedly, so that you might put it before the Minister before he does anything in the matter.

You will see by the petition how we have been treated in this matter, and what a poor chance we had to get evidence together at such short notice. If this case is referred back to Walgett I am quite satisfied I can get evidence to convince the Local Land Board that it is against the interest of the country to grant this exchange. Although the Land Board are prejudiced against the body of objectors, and in sympathy with the applicants, I am satisfied, with reasonable notice, I can fetch evidence to compel them to reverse their decision.

You might write me as early as possible, and let me know what effect the petition is likely to take with the Minister for Lands, and, if it is necessary, the Walgett branch of the Farmers and Settlers' Association will ask for a Royal Commission.

The people of this district are determined that they will have a fair hearing of this case. If we get a fair chance, and then fail, we will be satisfied.

I trust you will put this matter strongly before the Minister, and as early as possible, that the result may be a satisfactory one.

Yours, &c.,

JOHN Y. BELL.

[Enclosure.]

The Honorable the Minister for Lands, —

We the undersigned residents, and selectors in the Walgett District beg to approach you with reference to the proposals for the surrender of certain lands near Gunnedah, known as Keepit, in exchange for certain lands near Walgett on Euroka Station.

We complain that an attempt is being made to hasten through an exchange proposal, which is against the interest of the Walgett District and the residents in it, without every opportunity and facility being given to unravel the proposal, and place before you the views of the residents in the Walgett District.

We would point out that this exchange proposal was first heard at Tamworth some hundreds of miles away from Walgett, and we were precluded, owing to distance, from attending such meeting; and that only after vigorous representation was the case set down for hearing at Walgett.

We complain that the date for the hearing at Walgett was hastily and hurriedly fixed, and we received but short notice of the hearing. That owing to the continuous drought in our district it has been difficult for residents to get about hurriedly and attend meetings on scant notice; moreover, the mails are irregular and intermittent, and at short notice it is not possible for residents to act in concert; and, as we were not certain whether any inquiry was to be heard at Walgett, we were not prepared with full evidence to put our case clearly and strongly before the Board.

Had we received definite notice of a reasonable date we could have gained the necessary witnesses to inspect the lands and give evidence.

We were compelled to do the best we could under such short notice.

We complain that the Walgett Land Board only partially heard the case, taking only into consideration the decision of the Tamworth Board without hearing or permitting the evidence taken at Tamworth to be referred to, or discussed, and the Walgett Board refused and disallowed a postponement of the case so that we might bring the necessary evidence, and amplify the case.

We complain that we have failed to receive from the Land Appeal Court, the redress asked for on the grounds that we had not lodged a notice of motion in the Court.

We complain that an area of 28,229 acres, within a short distance of the town of Walgett is proposed to be alienated, that in view of the prospects of railway communications, and, the proposal of the Government for a closer settlement, and the increasing demand for land immediately on the outskirts of a town in the centre of the Colony, that it will be unfair, unjust, and against the interests of the Walgett District to alienate such lands.

We complain that such a proposal would disinherit us of land; which, by long residence in the district we have endeavoured to maintain till the period arrived for closer settlement, expansion, and other features enjoyed by towns nearer market.

The owners of the surrender lands have tendered evidence to the Department to show how much superior in value the surrender lands are, than those sought in exchange, and how much more the lands offered for surrender could be sold for at auction than the Walgett lands, that difference is shown to be about £10,000, and we would suggest that this evidence be received with suspicion by the Department, for these reasons:

The surrender lands are at present in almost a solid block, at all events, capable of being worked without difficulty or inconvenience.

They are in a district nearer market with a better rainfall, where the holders are capable of dealing in stock, and generally working a superior property to the greatest advantage, and yet there is an expressed anxiety to surrender. Moreover, if there is a genuine difference in the value, financial institutions are very slow to give away so enormous a margin as expressed here, and certainly they are not prone to make presents to the Crown of sums equalling £10,000, and while a surrender of a compact area in a good district is offered, it is only to attach it to a very small area near Walgett, and is not a consolidation in the proper acceptance of the word. The consolidation would take place by the surrender of the small area at Walgett for lands adjoining Keepit.

We pray that you will refer the case back to the Walgett Board with instructions that we are to receive ample notice that we may gather our evidence properly, and tender it to the Department in proper form.

No. 86.

Office Memorandum.

Keepit-Euroka Exchange.

7 August, 1900.

THE owners of the Keepit property (tinted red on heliograph, marked A) are surrendering the lands shown by red edging in exchange for the equal area shown by blue edging thereon. That exchange is approaching completion, and the owners have applied for a further exchange—to surrender all the lands possessed by them on Keepit for an equal area on Euroka holding, as shown by the blue hatching on lithograph B.

The Keepit lands, intersected by the Namoi River, are situated in the land districts of Gunnedah and Tamworth, and the Euroka land is situated near Walgett.

The case was heard by the Tamworth Land Board on the 20th, 21st, and 23rd February, 1900, and afterwards by the Walgett Land Board, on the 23rd and 24th April, 1900.

The value of the surrender area—28,229 acres—is appraised at £45,484, and the equal area for exchange is appraised at £37,074, a difference in favour of the Crown of £8,410.

The improvements on the surrender lands are valued at £3,916, and those on the lands for exchange at £1,490, and as applicants are willing to relinquish all claim to the irremovable portion on the surrender lands, perhaps the Minister will feel disposed to make no charge for those on the exchange area, if the proposals be carried out.

There are several conditional leases amongst the lands for surrender, and if the exchange is to proceed, applicants should immediately convert them into conditional purchases, and obtain certificates of conformity as soon as possible, to put them on a footing that will allow of their being exchanged.

Part of the surrender area is held under freehold title, and the balance, after conversion of the conditional leases, will be held under conditional purchase title, and applicants might be informed—if the exchange receive approval—that a design will, before measurement, be sent to them for their approval for the allotment, as each conditional purchase will have to be defined by survey on the exchange area, unless they elect to convert all the conditional purchase lands into freeholds, which would considerably reduce the cost of survey. They might also be informed that they will be called upon to pay a further sum, before survey, for costs; but the amount likely to be required—possibly £500 or £600—cannot be stated until the district surveyor has projected the design for subdivision for the allotment.

The Board's reports are very favourable to the exchange being carried out, and the same have been endorsed by the Land Appeal Court when dealing with Mr. J. Y. Bell's appeal, lodged against the proposals. The Court, however, points out that the application is not so much for consolidating the holding on Euroka as transposing the estate from Keepit to Euroka; but the Court does not consider that that circumstance outweighs the largely countervailing advantages which will be secured to the Crown in the way of settlement.

The finding of the Board is that, the Keepit lands being largely of the agricultural class, within easy reach of market, *via* the railway, either at Manilla or Gunnedah, will establish forty-five new settlers, while the Euroka land, part of which is liable to inundation, is about 60 miles from the railway, is mostly of the grazing class, and would have to be divided for settlement purposes into farms of about 4,000 acres each, and would not establish more than six or seven families, or by reducing the farms to minimum, not more than eleven at the outside.

The Tamworth district will benefit considerably by the exchange and as anticipated there was no opposition in that quarter; but at Walgett, on the contrary, opposition was raised by the Farmers and Settlers' Association of New South Wales, the Farmers and Settlers' Association of Walgett, and by the Walgett Progress Committee. These objections were based chiefly on the grounds of detriment to the district by absorption of such a large area, so close to the town of Walgett, by the station lessees.

The Walgett Board has, however, viewed the exchange from the public interest point of vantage, and not from the purely local one, and, therefore, recommends that the proposals be carried out.

Mr. J. Y. Bell, who it appears represented the Farmers and Settlers' Association, appealed against the exchange; but as before mentioned the Court dismissed the appeal. The Court (*vide* alienation 00-10,933 enclosed) has notified the Department that it will issue its certificate dismissing the appeal, with costs to the amount of £5 deposited to be paid by the appellant to the respondent, on the 22nd instant, if this Department does not attend on that date to take exception.

A petition is now presented by Mr. W. N. Willis, M.L.A., protesting against the granting of land by way of exchange on the outskirts of the town of Walgett, alleging that future close settlement and expansion will be thereby prevented; complaining also that sufficient notice was not given to enable them to collect evidence, and inspect the lands, and praying that instructions may be issued to the Walgett Board to rehear the case.

It may be pointed out that the objectors had ample time to gather evidence relative to the exchange, as the Associations had been aware of the proposals for some time (*vide* alienation 99-15,255 and 15,004, &c.) meetings having been held since October, 1899, and resolutions passed against the exchange.

Sketches

Sketches were exhibited at Walgett, in October, 1899, showing the proposals; notices were issued prior to the hearing at Tamworth, in February, 1900, and the objectors were informed on the 23rd March, 1900, of the intention to hear the case at Walgett, on the 23rd April, *i.e.*, a full month's notice was given.

The case having come regularly before the Land Boards and Appeal Court, it is not apparent that a second reference to the Walgett Board could be legally made, as requested by the petitioners.

Notwithstanding the lands are in different districts, the weight of evidence is strongly in favour of the exchange seeing, *inter alia*, that its completion would enable forty-five families to be established as against a possible eleven under present conditions. It is, therefore, submitted that the exchange should perhaps be allowed to proceed.

I have, &c.,

C. E. RENNIE,

Chief Draftsman.

7th August, 1900.

No. 87.

Office Memorandum.

Keepit-Euroka Exchange.

9 August, 1900.

THE recent debate in the House brought forth expressions of opinion that exchanges of land in different districts were to be avoided, and I take it that exchanges of this character will not be encouraged in future.

There are, however, certain cases which were initiated before the debate took place, and I venture to suppose that the House did not mean that these were to be refused absolutely as a mere matter of course, and without reference to their merits.

This case was dealt with by the Land Boards at Tamworth and Walgett, and the objectors were represented before the Walgett Board by Mr. Bell.

A petition has now been presented against the exchange, and a desire is expressed to have the case brought before the Land Board again.

It would appear that the Department would—putting aside the question of different districts—be warranted in regarding the exchange as a satisfactory one, particularly as it has been dealt with not only by the Land Boards mentioned, but by the Land Appeal Court.

The special question seems to be how far the debate in the House affects cases which have arrived at the stage the present one has.

A. CURRY.

No. 88.

Office Memorandum.

Keepit-Euroka Exchange.

9 August, 1900.

I AM myself opposed to exchanges of lands situate in different districts, and future applications containing that objectionable feature cannot be entertained. When, however, applications were made prior to the debate in the Assembly on this subject, and action taken by the Department calculated to lead parties concerned to expect a settlement based on the merits of the case, I do not think the House expected or would desire the Department to repudiate what might fairly be classed as its responsibilities to this class of landholders. I could, perhaps, shelter myself behind the understanding arrived at in the House, and refuse to complete the exchange, which might possibly be the easier and more convenient course for me to take personally.

I do not, however, feel justified in taking such a course in this particular case in face of the favourable complexion which this exchange bears.

The case has been dealt with by the Tamworth and Walgett Land Boards, and also by the Land Appeal Court, and their respective recommendations are deserving of serious consideration.

I think, therefore, the exchange should be approved, subject, however, to the parties surrendering their deeds and responding to any requirements of the Department, within, say, three months of those requirements being put forward.

With regard to the petition, I cannot see how the case can well be got back to the Board, supposing such a course appeared expedient, as the Land Appeal Court dealt with the case, and any such action would savour of an attempt to go behind the back of the Court.

T. H. HASSALL.

Dalgety and Company (Limited), c/o D. P. Dickson, and W. N. Willis, M.P., informed.—

No. 89.

The Under Secretary for Lands to W. N. Willis, Esq., M.P.

Sir,

Department of Lands, Sydney, 10 August, 1900.

Referring to the letter from Mr. J. Y. Bell, of Marshmead, and petition from residents and selectors of Walgett District, presented by you, against the completion of the Keepit-Euroka exchange, and urging that the case be referred back to the Local Land Board for rehearing, I am directed by the Secretary for Lands to point out that the case has been before the two Land Boards and the Land Appeal Court, and, in view of the favourable recommendations made by them, and as the action already taken by the Department was calculated to lead the parties concerned to expect a settlement of the case on its merits, he has decided to proceed with the exchange, provided the applicants take all action required of them, with a view to completion without any unnecessary delay.

Ncw

New proposals for exchange of land within different districts are not now approved by the Department, but the present case being one which passed through all its stages before objection on this point came to be raised, the Minister does not consider that any objection on this head can be urged now.

I am further to inform you that the Minister is of opinion that the case having been dealt with by the Land Appeal Court, cannot be referred back to the Board, even if such a course were thought to be desirable; but I am to mention that Mr. Bell was afforded an opportunity of presenting objections before the Land Board, and that the objections, and the request now put forward are, therefore, late.

I have, &c.,

H. CURRY,

Under Secretary

(per W.H.C.).

No. 90.

The Under Secretary for Lands to The Manager, Dalgety and Company (Limited).

Sir,

Department of Lands, Sydney, 10 August, 1900.

Referring to the Keepit-Euroka exchange of land, I have the honor to inform you that the Secretary for Lands has approved of the proposal recommended by the Local Land Board and Land Appeal Court being proceeded with, provided you surrender your deeds and respond to any requirements of the Department within three months of those requirements being put forward. I am, therefore, to ask for an immediate reply.

The Minister has also approved that, in view of the improvements relinquished by you, no charge will be made for those on the lands granted.

I have now to request that you will at once convert the conditional leases affected into conditional purchases, and obtain certificates of conformity therefor, and state whether you intend converting the conditional purchase lands into freeholds.

In the event of you desiring to exchange, on a conditional purchase basis, a design for the allotment of such conditional purchases on the exchange area (as each conditional purchase will have to be defined by survey) will be sent for your approval before measurement.

You will also be called upon, prior to survey, to pay a further sum for costs, but the amount likely to be required (£500 or £600) cannot be stated until the District Surveyor has projected the design for conditional purchase allotment.

I would, however, point out that if you make the conditional purchases into freeholds the cost of survey will be considerably reduced.

I have, &c.,

H. CURRY,

Under Secretary

(per W.H.C.).

No. 91.

The Manager, Dalgety and Company (Limited), to The Under Secretary for Lands.

Sir,

Keepit-Euroka
Exchange.

We have the honor to acknowledge receipt of your letter of the 10th instant, notifying that the Secretary for Lands has approved of the proposal recommended by the Local Land Board and Land Appeal Court being proceeded with, provide we surrender deeds and respond to any requirements of the Department within three months of those requirements being put forward; and we may say we duly accept your conditions.

Replying to your query we may say we do not wish to convert the conditional purchases into freeholds, but desire to exchange on conditional purchase basis.

We may add we have to-day paid to the Treasury the sum of £500 sterling against prospective costs of survey, &c.

We have, &c.,

DALGETY AND COMPANY (Limited).

T. F. KNOX, Managing Director.

Charting Branch.—E.A.B. (per G.H.), 13/8/00. The District Surveyor at Tamworth is requested to furnish a correct list of the freeholds, conditional purchases and conditional leases, for surrender on Keepit, and then forward same and these papers to the District Surveyor at Moree, for preparation of a design and estimate of costs for allotment on the exchange area, with a view to this office obtaining applicants' concurrence. Relative to conditional leases it may be necessary to see that no series exceeds the limit that may be converted, &c.—C. E. RENNIE (for the Under Secretary), 17 August, 1900. Telegram from The Secretary, Farmers and Settlers' Association, Walgett, to
J. Haynes, Esq., M.P.

20 August, 1900.

Re Euroka-Keepit exchange. Considered breach faith Government passing this after distinct promise contrary. Calling special meeting protest.

W. W. WRIGHT,
Secretary, Farmers and Settlers' Association.

Presented by J. Haynes, M.P. The Chief Draftsman.—E.A.B. (*per* G.A.), 23/8/1900.

Submitted. I do not think the decision in this case could be reversed, as the applicants have been informed, and forwarded a letter of acceptance. Mr. Haynes may be informed that the decision in the case cannot now be affected.—H. CURRY, 24/8/1900.

No distinct promise was ever made as stated, and my decision in the case will be adhered to. Mr. Haynes, M.P., may be informed.—T.H.H., 25/8/1900. Mr. Haynes, M.P., informed, 27/8/1900. The District Surveyor at Tamworth. See instruction on Aln. 1900-11,748.—E.A.B. (for Under Secretary), B.C., 27/8/1900. Dalgety and Company informed, 27/8/1900.

No. 94.

The Registrar, Land Appeal Court, to The Under Secretary for Lands.

Land Appeal Court, No. 5,761.

Sir, Office of Land Appeal Court, Darlinghurst, 23 August, 1900.

I have the honor to forward herewith certificate of the final order of the Land Appeal Court in the matter of the, as per margin, and to request that you will be good enough to acknowledge receipt of same. Appeal *re*
Keepit-Euroka
exchange.

I have, &c.,
J. T. KEATING,
Registrar.

[Enclosure.]

In the Land Appeal Court } Certificate of the Order of the Land Appeal Court.
of New South Wales. }

WHEREAS on the 26th day of June, 1900, a certain matter, wherein John Young Bell and Dalgety and Company (Limited), and the Minister for Lands were concerned in connection with application of Dalgety and Company (Limited), for surrender of land in the Keepit Holding, No. 492, Eastern Division in exchange for lands in the Euroka Holding, No. 553, Central Division, Land Districts of Tamworth, Gunnedah, and Walgett, was brought under the cognisance of the Land Appeal Court of New South Wales, upon the appeal by John Young Bell, against the recommendation of the Local Land Board in favour of the granting of the said application.

And whereas the Land Appeal Court duly heard and determined the said matter, and on the 20th day of July, 1900, made a final order in respect thereof. These are, therefore, to certify that the final order of the Land Appeal Court in the premises was as follows:—

Appeal dismissed, with costs to the amount of five pounds (£5) to be paid by the appellant to the respondents, Dalgety & Co., for which the deposit lodged with appeal is to be made available.

The Court affirms the recommendation of the Local Land Board.

The seal of the Land Appeal Court was hereunto affixed by me this 23rd day of August, 1900.

J. T. KEATING,
Registrar.

No. 95.

The Under Secretary for Lands to J. Haynes, Esq., M.P.

Sir, Department of Lands, Sydney, 27 August, 1900.

Referring to the telegram from the Secretary of the Walgett Farmers and Settlers' Association, presented by you, against the approval of the Keepit-Euroka exchange of lands, I am directed by the Secretary for Lands to inform you that he made no distinct promise to refuse this exchange, as stated in the telegram referred to, and the decision given will be adhered to.

I have, &c.,
H. CURRY,
Under Secretary
(*per* W.H.C.).

No. 1.

J. M. Chanter, Esq., M.P., to The Under Secretary for Lands.

Sir,

Moama, 28 June, 1892.

Enclosed please find an application from Mr. Simon Fraser, of Nyang Station, Land District Deniliquin, to surrender land in exchange for Crown lands, as per application and plan attached.

This exchange will be beneficial, as the land proposed to be surrendered is of better quality than that sought for in exchange, has a large water frontage to the Niemur River, is considerably nearer to a market and railway, and altogether entirely in the interest of the Crown to sanction the exchange.

The areas are a little dissimilar, but that can be rectified in the surveys.

I may add that from inquiries I have personally made from settlers in the immediate district I am assured that this exchange would give public satisfaction. Kindly have the matter dealt with as speedily as possible, and oblige.

Yours, &c.,

J. M. CHANTER, M.P.

Any communication to Mr. Fraser may be sent to my care.

[Enclosure.]

Form 57.—Crown Lands Acts: Regulation No. 233.

Application by a pastoral lessee to surrender land situate within a resumed or leasehold area in exchange for other land within the leasehold area.

RECEIVED a deposit of £10, and a provisional survey fee of twenty-two pounds three shillings.

The Treasury, Sydney,

30th June, 1892.

W. NEWCOMBE

(pro Treasurer).

In accordance with the provisions of the Crown Lands Act of 1889, I, Simon Fraser, being the holder of a grant of the lands hereunder described, within resumed area No. 108, in the Central Division, hereby apply to surrender the same in exchange for the lands within my leasehold area, No. 108, which are hereunder described; a list of the improvements on the said land is set forth in the Schedule on the back hereof; and I agree to pay the value of such of them as are not my property.

Signed this 17th day of June, 1892,—

SIMON FRASER,

Nyang, Moulamein.

To the Under Secretary for Lands.

Description of Land to be Surrendered.

		3,231 0 0		

The accompanying lithograph "A" shows by distinctive hatchings the lands affected by this proposal, the surrender portions being indicated by red hatchings, and the areas desired in exchange by blue hatching.

The surrender of the river-frontage portions would probably save public interests; but it is questionable whether the portions in parish Nyang should be accepted in the form proposed.

Perhaps a modified proposal, having for its object the relinquishment of the frontage portions referred to, and also of the block of station alienations on the boundary dividing the parishes of Balpool and Barrabu, and the granting in exchange of an equal area in parishes Nyang and Barrabu, as indicated by pencil hatching, would be favourably viewed, and is consequently submitted for consideration in preference to that proposed by the lessee.

This proposal to be subject to the usual condition of relinquishment of claim to the improvements on the surrender portions, and to the payment for such as are forfeited or forfeitable on the lands proposed to be granted in exchange.

C.J.S.

Submitted.—

Submitted.—W.H., 15/2/93. Approved.—H.C., 10/3/93. The modified proposal is now indicated by red and blue edgings on Sketch "A."—O.W.B., 11/3/93. Sketch enclosed for applicant. The Minister wishes the letter to be sent, care of Mr. R. Barbour, M.L.A.—R.M., 14/3/93. Mr. S. Fraser, care of J. M. Chanter, Esq., M.L.A., and R. Barbour, Esq., M.L.A., with sketch.—17/3/93. A reminder may be sent.—E.L., 1/5/93. Yes.—R.H.D., 2/5/93. Mr. Fraser reminded, 4/5/93.

No. 4.

The Under Secretary for Lands to The Honorable S. Fraser, Esq.

Sir,

Department of Lands, Sydney, 17 March, 1893.

Exchange
Nyang, No. 108,
Central Division.
Sketch.

Referring to your application, dated 17th June, 1892, for the surrender and exchange of land situated within the holding noted in the margin, I have the honor to inform you that, in lieu of the proposal included in your application, the Secretary for Lands would submit for your consideration a modified proposal, as set forth on the accompanying sketch, as one that he would consider, subject to your relinquishing all claim to the improvements on the surrender portions, and paying for such as are forfeited or forfeitable on the lands proposed to be granted in exchange; and I have to request that you will be good enough to intimate your concurrence with this modification and conditions.

I have, &c.,

WM. HOUSTON,

Under Secretary

(per R.H.D.)

No. 5.

Office Memorandum.

17 May, 1893.

At a personal interview with the Minister, Mr. Fraser intimated his unwillingness to relinquish the land lying between reserves 1,164 and 746, representing that it contains certain valuable drafting yards. He further stated that he is prepared to surrender portions 12 to 26, Nyang, which form a solid block of country surrounded by selected land, and being in the resumed area would be available for immediate settlement, in addition to portions 8 to 12, 41, 67, and 68, Boyd. The Minister expressed his willingness to accept the portions offered in Boyd and Nyang, subject to the favourable report of the District Surveyor, and relinquishment of non-removable improvements contained, but did not decide whether the surrender of portions between reserves 1,164 and 746 should be insisted upon. It is now submitted whether the area to be granted in exchange should be bounded on the east by a line extending from the Edward River south to forest reserve 2,125, on the Niemur River, near the eastern boundary of reserve 1,164, or whether the southern boundary of the consolidated estate in this locality should follow approximately the south boundaries of portions 8 and 7, Balpool, and 16, Barrabu, and a line west to portion 15, and thence along the south boundaries of portions 15, 14, 13, 23, Barrabu, and by a line west to the road from Moulamein to Moama.

C.J.S.

Submitted.—W.H., 18/5/93. The lessee may be offered either the north and south pencil line on east of water reserve 1,164, down to forest reserve on Niemur River, or the alternative referred to in my decision of 10/3/93.—H.C., 18/5/93. Mr. S. Fraser, care of R. Barbour, Esq., M.L.A., informed, 19/5/93.

No. 6.

The Under Secretary for Lands to The Hon. S. Fraser, Esq.

Sir,

Department of Lands, Sydney, 19 May, 1893.

Exchange
Nyang, No. 108,
Central Division.

Referring to your interview with the Minister for Lands, respecting the proposed surrender and exchange of land situated within the holding mentioned in the margin, I am directed by the Secretary for Lands to inform you that he is prepared to consider a proposal granting you an area situated westerly to the dividing line from a north and south line near the eastern boundary of water reserve 1,164 down to forest reserve 2,125, in exchange for the station alienations referred to at the interview, in the parish of Boyd, fronting Niemur River, and parish of Nyang (portions 12 to 26 inclusive), and in parishes of Balpool and Barrabu, lying between reserves 746 and extension and 1,164, or the alternative proposal as communicated in my letter of 17th March last.

I have, &c.,

WM. HOUSTON,

Under Secretary

(per R.H.D.)

No. 7.

R. Barbour, Esq., M.P., to The Secretary for Lands.

Re Exchange of Land on Nyang Holding.

Dear Sir,

Sydney, 2 June, 1893.

Since Mr. Fraser's return to Melbourne he has communicated with his overseer, and he finds that he gave you a wrong impression with regard to the frontage to the Niemur. He says he only meant to say that a particular part to the east was flooded country, and that generally speaking the land adjoining the Niemur frontage is high, dry, and rich agricultural country.

In order that all doubts may be removed, I have to request that you will get a report on the matter from your District Surveyor, which can be more relied upon than the answers from a person imperfectly acquainted with the country as Mr. Fraser evidently is.

Truly, &c.,

ROBERT BARBOUR.

Attach to other papers and forward to District Surveyor for report as to the two proposals; also as to quality of country fronting the Niemur River—whether flooded or otherwise; also quality as to agriculture compared with Edwards frontage.—H.C., 2/6/93. The

The District Surveyor, Hay, for immediate report.—E.L. (for U.S.), B.C., 6th June, 1893.

Transferred to Mr. Surveyor Broughton, who will be good enough to report on the within proposals. Special reference should be made to the relative qualities of the lands fronting the Niemur and Edward River, as directed in the Secretary for Lands' minute hereon. In the alternative proposals for lands which might be granted in exchange, shown by pencil hatchings on lithograph "A," enclosed and described in the Chief Draftman's minute of the 17th ultimo, certain reserves are affected, and it will be necessary for Mr. Broughton to report whether such may be cancelled without prejudicially affecting the public estate. The reserves referred to are—

No. 2,423 from sale.....	} Parish of Nyang.
No. 508 from lease	
Part of forest reserve 1,790 from sale	
Water reserve 747 from sale	
Water reserve 7,476 from sale	} Parish of Barrabu.
Part of forest reserve 1,790 from sale.....	
Part of water reserve 1,164 from sale	
Part of water reserve 749 from sale.....	

J. L. TRITTON, District Surveyor, 14th June, 1893.

No. 8.

Mr. Surveyor Broughton, to The District Surveyor at Hay.

Surveyor Broughton to the District Surveyor at Hay, reporting on land proposed to be exchanged.—
Nyang Pastoral Holding, Deniliquin Land District.

Sir, Deniliquin, 26 October, 1893.

In compliance with your instructions, No. 49 of 14th June, 1893, I have the honor to furnish the following report on a proposal by Mr. Simon Fraser to exchange land (under the 46th section of the Crown Lands Act) situated within the Nyang pastoral holding, No. 108, Central Division.

I inspected the lands under consideration on the 30th September and 1st and 2nd October, 1893.

The enclosed tracing B is illustrative of this report.

The character of the country proposed to be surrendered by the lessee is as follows:—Portions Nos. 8, 9, 10, 11, and 12, parish of Boyd, is principally box forest, interspersed with open plains. There is a shallow gum watercourse running through the land, and within portion No. 8 there is an area of about 100 acres, embracing a sandhill; the last-mentioned land is the only part of these portions worth mentioning that is suitable for agriculture; the rest of the country is first-class grazing land, and is partly liable to inundation. The soils are grey and black clays. These portions have frontage as one block to the Niemur River, which contains a permanent water supply. Portions Nos. 41, 68, 76, and 77, parish of Boyd, is principally box forest, more or less subject to annual inundation. The only country suitable for agriculture is about 60 acres of low sandhills within portions 76 and 41; the rest of the land is grey and black clays, which would afford good pasturage if the timber was ringbarked. These portions have, as one block, frontage to the Niemur River, which affords a permanent water supply. Portions 12 to 26 inclusive, parish of Nyang, comprise about two-thirds of forest country, timber, box, dogwood, pine, and ti-tree. The rest of the land is open plain. The soil is principally red and grey clays, but there is a large proportion of sandy land, which is principally situated within portions 21, 22, 25, and 26. This land is of a first-class grazing order, but the only part that I consider is suitable for agriculture is the sandy country, which represents an area of about 800 acres. There is a fair water supply in the Murrain Yarrein Creek, which runs through portions Nos. 18, 23, and 24.

The character of the country proposed by the Minister for Lands to be surrendered in addition to that offered by the lessee is as follows:—Portions Nos. 1, 2, 3, 4, parish of Balpool, and portion 7, parish of Barrabu, have frontage to the Edward River, which affords a permanent water supply; the land is principally open plain with scattered clumps of box and a fringe of poor gum timber along the river; the soils are red and grey clays, except a strip of grey sandy loam country, from 10 to 20 chains wide, along and near the river, which is the only land suitable for agriculture; the country generally is very good grazing land.

Portions 16, 18, 22, parish of Barrabu, portions 5, 7, 17, and 18, parish of Balpool, comprise open box and plain country, red, grey, and black soils; it is purely grazing land of a good class; not any natural water supply.

Portions 9, 10, and 12, parish of Balpool, is principally open plains, the residue being open box forests (ringbarked) and scattered pine trees; the country along the Jawbone Creek is land of a sandy nature, and is suitable for agriculture; the rest is red and grey clay soils; this country is grazing land of a good class; there is a fair supply of water in the Jawbone Creek, which runs through portions Nos. 10 and 12.

Lands proposed to be exchanged.

Portions Nos. 8 and 27, parish of Nyang, portions 8, 25, 26, parish of Barrabu, and the Edward River frontages of water reserves Nos. 747 and 1,164 for a depth of one (1) mile embrace country that is practically of the same character and value as the blocks fronting the Edward River that are proposed to be surrendered; the other measured Crown lands, viz., portions 9, 10, 11, 12, 13, and 17, parish of Barrabu, consist of about equal parts of rung box forest and plain; there are also parts of a sandy rise within portions 10 and 17, lightly timbered with scattered pine and box; the only land suitable for agriculture is about 100 acres of the last-mentioned country; the land is all of a good grazing class.

The part of water reserve No. 747B adjoining the west boundary of portions 12, 13, and 23, parish of Barrabu, together with the Crown lands lying to the west of this part of the reserve, consist of open box forest (ringbarked) interspersed with plains; soils, red and grey clays. This land is only suitable for grazing, and is of a good class; it has not any natural permanent water supply, though in early summer some of the watercourses are usually flooded by the back water from the Niemur River, and contain water for some time.

The Crown land (including parts of reserves 747B and 1,164) on south of six-wire fence that runs partly on south boundaries of portions No. 13, 14, 15, and 23, parish of Barrabu, is box forest (ringbarked) with small plains interspersed throughout; soil, grey and black clays. The forest country on this part

part is generally heavier than usual, but it affords an abundance of pasturage, though it is not suitable for agriculture; it is generally colder country and more liable to inundation than any of the lands under review, and is, therefore, not so well adapted to the fattening of sheep as the higher and more open land which is situated nearer the Edwards River. This part is intersected with watercourses that are flooded annually, and afford a fair water supply.

That part of reserve No 1,164 adjoining portion 10 and 15 on the east, and Nos 9, 22, 17, 16, and 18 on the west, comprises about two thirds of open plain country, and the residue is timbered chiefly with box, there is also an area of about 150 acres of low sandhill country, with a few scattered pines about it, that is suitable for agriculture. The whole of this portion is of a good grazing class, but it has not any natural water supply.

I am of opinion that all the reserves affected by the proposals to exchange can be revoked without prejudicial effect to the public estate, the timber on the Crown lands under consideration is not of any commercial value. There is little or no public traffic through the leasehold area of Nyang pastoral holding, nor is it likely to ever increase sufficiently to warrant the retention of any land beyond that required for access roads, and these reserves do not embrace any natural advantage of sufficient importance to justify the retention of any part of them.

The manager of the station, and Mr. Barbour, M L A, as agent for the lessee, have intimated to me that Mr. Fraser would not accept the proposals of the Minister, as he considered that they were too unfavourable for him, in respect of inclusion of inferior country and severance of necessary improvements. I am of the opinion that a more equitable exchange would be by the adoption of a line (as outside boundaries of consolidated area) in the position shown by yellow colour on enclosed tracing, and that the applicant should surrender all freehold held by him on the south and east of it, thus a fair proportion of land lying between six-wire fence on south boundaries of portions 13, 14, 15, and 23 would be included, and the exchange of frontages would be about equal.

I consider that the carrying capacity (viz, about $1\frac{1}{2}$ acre to a sheep) of the land to be surrendered and that now proposed to be exchanged is about equal, but the area of agricultural country is much greater in the former case, and is more suitable for settlement.

The area of land proposed to be surrendered by me is $10,049\frac{3}{4}$ acres, and I recommend the exchange of an equal area.

I consider the value of the land proposed to be exchanged at £1 17s 6d per acre, and that to be surrendered at £2 per acre.

I am of the opinion that, in the event of this exchange being effected, the land surrendered in the resumed area should be made available for settlement as special areas, maximum limit of area, price, to be fixed at a future date.

Improvements are shown on enclosed schedules. I consider those on the land offered to surrender are not of the magnitude that would interfere with settlement.

The cost of this report is £18 18s.

I have, &c,

J BROUGHTON

Submitted for the consideration of the Under Secretary for Lands. In view of the circumstances set forth, I concur in Mr Broughton's recommendations. The costs amount to £20 18s 6d, being £18 18s. cost of surveyor's inspection and report and £2 0s 6d. district office expenses—J. L TRITTON, District Surveyor, 8/11/93. The Under Secretary for Lands

No. 9.

Office Memorandum.

9 December, 1893.

In connection with the Nyang exchange, the papers of which (L.B. 93-6,282) are now, I think, at the Land Board Office, it is pointed out that additional conditional purchase 92-80 of 580 acres, covering portions 68, 76, and 77, parish of Boyd, county of Wakool, which were offered in surrender, has been withdrawn. The area of the land, therefore, proposed to be granted in lieu of surrendered land should be reduced by that amount (580 acres).

J. P. A. GARVIN.

No. 10.

R. Barbour, Esq., M.P., to The Under Secretary for Lands.

Exchange of Land, Nyang Pastoral Holding, No. 108, Central.

Sir,

Sydney, 11 December, 1893.

In accordance with instructions from the Honorable Simon Fraser, of Nyang pastoral holding, No. 108, Central, I have the honor to request that you will substitute the within Schedule for the one furnished with the original application for surrender and exchange of land.

As the suggestions of the Minister have, as nearly as possible, been met in this amended application, and as the deposit and survey fees were lodged with the original application, I have to request that you will forward the papers to the Local Land Board, in order that they may deal with the application as early as possible.

The consolidation required by the Honorable S. Fraser is marked with red ink on the accompanying plan, thus—

Yours, &c.,
ROBERT BARBOUR.

No. 11.

Office Memorandum.

Nyang Exchange.

25 January, 1894.

In furtherance of Ministerial direction on Occ. 93-4,064, the District Surveyor has now furnished a report on the merits of the alternative proposals referred to herein.

From this it will be noted that, generally, the areas affected are first-class grazing lands, with only occasional patches of country suitable for agriculture, and that the lands fronting the Niemur River are more liable to inundation than those abutting on the Edward River.

After interview with the station manager and the pastoral lessee's agent, the District Surveyor recommends a further modification, involving the surrender of the portions edged purple on tracing "B" in exchange for the available lands north and west of the yellow edging. This scheme is acceptable to the pastoral lessee (*vide* Occ 93-10,326) except with regard to the disposition of the land at the north-east corner of the consolidated area, applicant desiring the substitution of the blue-hatched edging in the place of the irregular yellow lines.

The assessment of the areas involved favours the Crown, inasmuch as the surrender portions embrace more land suitable for agriculture.

Submitted whether the District Surveyor's proposal, modified by the elimination therefrom of portions 1 and 2, parish of Balpool, the inclusion of the residue of 6. same parish, the elimination of portions 68, 76, and 77, parish of Boyd (which are not now available for surrender), and the curtailment of the area proposed to be granted in the parish of Barrabu, necessary to maintain the equilibrium of the proposal, be referred to the Local Land Board for inquiry and report in terms of section 46;—the pastoral lessee in the first instance, however, to state his willingness to forego claim to the improvements on the surrender portions, attention being invited to the Minister's decision of 18/5/93 on Occ. 93-1,889.—C.J.S.

The papers may be returned to the District Surveyor for a definite report on the two proposals adverted to in the Minister's decision of the 18th May last. The circumstances alluded to by Mr. Surveyor Broughton in connection with a statement by the manager of the station and the agent in the case (Mr. R. Barbour, M.P.) should not be permitted to influence the report in the remotest degree.—W.H. 1/2/94.

Forwarded to the District Surveyor for report accordingly. The north and south pencil-line referred to by the Minister, in decision of 18/5/93, on Occ. 93-1,889, has since been marked in blue, thus, on lithograph "A." The area proposed to be granted in decision of 10 3/93 is shown by blue edging.—C.J.S. (for the U.S.), 1/2/94. The District Surveyor, Hay.

No. 12.

The District Surveyor at Hay to The Under Secretary for Lands.

Nyang Exchange

Sir,

4 April, 1894.

From Mr. Surveyor Broughton's detailed report, enclosed, on the lands embraced within the proposals mutually agreed upon between the applicant, Simon Fraser, and the Secretary for Lands, it appears that the value of the land offered in surrender is slightly higher than that of the land sought in exchange.

The two proposals are reviewed hereunder.

1st. Lands embraced within the proposal approved by Mr Secretary Copeland on 10th March, 1893, (Occ. 93, 1889), shown by red bands on lithograph.

Lands offered in surrender.

No	Parish	Area	Improvements	Value	Character of Country
		acres		£ s d	
8	Boyd	160	Fencing	19 0 0	First class grazing land, partly liable to inundation; it has frontage in one block to Niemur River. About 100 acres covered by sandhill on portion 8 suitable for agriculture.

27	Nyang	acres. 122	Nil.....	£ s. d.	} Similar to the Edwards River frontage blocks offered in surrender.
8	do	196	Fencing	4 0 0	
Water reserve 747	do	About 750	Ringbarking, fencing...		
Part of water reserve 747B.	do	About 2,050	do do ...		} Open ringbarked forest, interspersed with plains; only suitable for grazing, and is of good class.
Land west of water reserve 747B.	do	About 1,435	Ringbarking		
Land south of portions 23, 13, 14, and 15.	do	About 1,362	Ringbarking, fencing...		
10	Barrabu	407 $\frac{3}{4}$	Nil.....	} About equal parts ringbarked; box forest and plain, also part of sand-rise within 10 and 17; about 100 acres suitable for agriculture. All good grazing land.
11	do	381 $\frac{1}{2}$	Nil.....	
12	do	351 $\frac{1}{2}$	Ringbarking	9 0 0	
13	do	354	do	8 0 0	
		7,409 $\frac{3}{4}$			

The second proposal approved by Minister, 18th May, 1893, *vide* Occ. 93-1,889, enclosed, before mentioned, embraces all the surrender portions included within the first proposal, with the addition of the block of portions in the parish of Nyang, Nos. 12 to 26 inclusive, embracing an area of 4,777 $\frac{1}{2}$ acres, and portion 41, parish of Boyd, of 60 acres, making in all 12,307 $\frac{1}{2}$ acres. These additional lands are described as follows:—12 to 26, parish of Nyang, about two-thirds of forest country, one-third open plain, soil principally red and grey clays, but there is a large proportion of sandy land, which is principally situated within portions 21, 22, 25, and 26. This land is of a first-class grazing order, but the only part that is considered suitable for agriculture is the sandy country, about 800 acres. There is a fair water supply in the Murrain Yarrein Creek, which runs through portions 18, 23, and 24.

These lands are improved to the extent of £194 9s. 5d.—by ringbarking, £75; fencing, £84; and tank, £35 9s. 5d.

Portion 41 embraces part of a low sandhill, and in view of the fact that additional conditional purchase 92-80, applied for in virtue thereof, has been withdrawn, it is highly desirable that this portion become again Crown land. It is improved by—fences, £24; hut, £15; well, £20; total, £59.

The additional lands to be granted in exchange, embraced within the alternative design, which lie to the west of the fence, passing through water reserve 1,164, extending from the Edwards River southerly toward the Niemur River, and the land to the north of forest reserve No. 2,125, include about 60 chains of frontage to the Edwards River (part of water reserve 1,164), similar in quality to the frontage lands to that river offered in surrender. That part lying to the east of portions 10 and 15, parish of Barrabu, consists of about two-thirds open plain, the residue partly timbered with box, and about 120 acres covered by a sandhill; suitable for agriculture.

The remainder of the lands sought comprises ringbarked box forest, more liable to inundation than the more northern lands, and therefore not so well suited to agriculture or for fattening purposes, but is, nevertheless, good grazing country.

Of the two proposals, I am inclined to favour the second and more comprehensive one, as it tends more to consolidation and will leave a compacter area of surrendered and Crown lands available for settlement.

These lands are of such a quality as are suitable for special areas in blocks of about 640 acres each, and it is recommended that they be so disposed of.

The lands fronting the Edward River are of about similar character and value to those fronting the Niemur River.

It will be observed that Mr. Broughton has not reported on the improvements on portions 7, 16, 22, and 18, parish of Barrabu, and portions 7, 9, and 17, parish of Balpool, they not forming part of the surrender lands in the scheme suggested by him; nor is the exact quantity of ringbarking or fencing shown on that part of the land sought within water reserve 747, part of water reserve 747B, west of the latter, and south of portions 23, 13, 14, and 15, parish of Barrabu, *vide* Schedule hereon; on tracing "B," however, a tank is shown on portion 7, drafting-yards on portion 22, and ringbarking on portion 18. On portion 9 ringbarking, and on 17 drafting-yards.

Mr. Broughton has been fully occupied reporting, &c., in connection with the proposed extension of pastoral leases in the Deniliquin District, and it was considered inadvisable in the circumstances to instruct him to visit the ground and report. Perhaps, therefore, the information already furnished may be considered sufficient for the purpose at this stage; a more complete report could be furnished when carrying out the necessary survey.

It appears very probable that a good proportion of the improvements on water reserve 747 and water reserve 747B will become the property of the Crown under the provisions of the 102nd section of the Crown Lands Act of 1884.

I have, &c.,

W. G. WALKER,
Acting District Surveyor.

The District Surveyor's further report on the alternative proposals—referred to in Ministerial decision of 15th May, 1893 (Occ. 93-1,889), which are indicated on lithograph "A" by red edging in exchange for the land edged blue, and by red edging and hatched edging in exchange for the available lands lying between the dividing line and the line marked by blue hatched edging—favours the latter proposal, "as it tends more to consolidation, and will leave a compacter area of surrendered and Crown lands available for settlement." Submitted that, subject to the pastoral lessee's acquiescence to the latter proposal being obtained, and also to his signifying his willingness to forego claim to the improvements on the surrender portions, that the papers be forwarded to the Local Land Board for inquiry and report on that scheme.—C.J.S., 24/4/94. The Under Secretary.

For approval.—W.H., 24/4/94. Approved.—H.C., 11/5/94. S. Fraser (with sketch), care of R. Barbour, Esq., M.P., informed, 31 May, 1894. S. Fraser, care of R. Barbour, Esq., M.P., reminded, 5th July, 1894.

No. 13.

The Under Secretary for Lands to The Honorable S. Fraser, Esq.

Sir,

Department of Lands, Sydney, 5 July, 1894.

Surrender and
exchange,
Nyang, No. 108,
Central Division.

I am directed to invite your attention to my letter of the 31st of May last, submitting for your consideration a further modified proposal for exchange of land within the holding noted in the margin suggested by the Secretary for Lands, subject to your relinquishing all claim to any improvements on the portions surrendered, and requesting you to intimate your concurrence or otherwise therewith, and I am to request you to be good enough to furnish a reply thereto at your earliest convenience.

I have, &c.,

WM. HOUSTON,

Under Secretary (per E.L).

No. 14.

Office Memorandum.

MEMO. as to present condition of Nyang Exchange.

MR. COPELAND, on the 18th May, 1893, Occ. 93-1889, offered, as an alternative to the applicant, either that the eastern boundary of his consolidated estate should be approximately in the position indicated by the blue hatched line near the east boundary of water reserve 1,164, or that the area to be granted in exchange should be as shown by blue edging.

At Mr. Barbour's instigation he subsequently, on the 2nd June, 1893, referred the matter to the District Surveyor for report on these two proposals, and also as to the relative character of the land on the Edwards and Niemur Rivers frontages.

Mr. Surveyor Broughton supplied the necessary report as to the character of the land, on the 26th October, 1893; but, instead of reporting on the merits of the alternatives referred to by the Minister, suggested a compromise in the shape of the yellow-edged line on the large tracing "B," illustrating his report, which he considered would form the basis of an equitable exchange. This course was apparently taken by him in consequence of certain representations to him by Mr. Barbour and the station manager, that neither of the Minister's alternatives would be accepted by Mr. Fraser.

The papers were then referred back to the District Surveyor for a definite report on the two proposals made by the Minister, and Mr. Acting District Surveyor Walker reported, 4/3/94, decidedly in favour of the blue hatched line running north and south.

That line was therefore approved by the Minister, 11/5/94, subject to the lessee's concurrence, which is necessary before referring it to the Land Board under section 46.

The case now awaits applicant's concurrence.

C.J.S.

Mr. Barbour wished this matter to be reconsidered on the basis of Surveyor Broughton's proposal. I cannot see, however, that any concession can or should be made, as the matter has already received much attention at the hands of the Minister.—W.H., 2/8/94.

Approved.—H.C., 2/8/94. R. Barbour, Esq., M.P., informed, 27th August, 1894.

No. 15.

Office Memorandum.

13 August, 1894.

MR. BARBOUR, M.P., may be informed the matter has already been definitely dealt with by my predecessor, and I will not reopen.

J.H.C.

No. 16.

R. Barbour, Esq., M.P., to The Secretary for Lands.

Amended proposal for Surrender and Exchange of Land, Nyang Pastoral Holding, No. 108, Central Division.—Deposit lodged with the original application, No. 92-7,639.

Sir,

Montagu Chambers, 8, Elizabeth-street, Sydney, 20 August, 1894.

On behalf of the Honorable Simon Fraser, of Nyang pastoral holding, No. 108, Central Division, I beg leave to submit a proposal for the surrender and exchange of land thereon for the purpose of consolidating the holding.

This is an amended application, which I hope will meet with your approval, and I have to request that you will forward instructions to the Land Board at Deniliquin in order that they may deal with it as soon as possible.

I send attached hereto a Schedule of the lands proposed to be surrendered, and those asked for in exchange, and Mr. Fraser desires that the deposit lodged with the original application, No. 92-7,639, may be treated as the deposit hereon.

Truly, &c.,

ROBERT BARBOUR,

(Agent for S. Fraser, Nyang).

[Enclosure.]

[Enclosure.]

NYANG Pastoral Holding, No. 108—Proposed Exchange.

<i>To be Surrendered.</i>			<i>Wanted in Exchange.</i>		
	a.	r. p.		a.	r. p.
Parish Boyd, county Wakool, frontage to the Niemur, portions 12, 10, 9, 8, and 11.....	1,285	0 0	County Wakool, parish Barrabu, portions 12, 13, 11, 10.....	1,497	1 0
Parish of Nyang, portions 12 to 26.....	4,807	2 0	Water reserve 1,164, estimated	1,920	0 0
Parish of Balpool, portions 12, 10, 18, 5, 3, 4, containing	2,707	1 0	Portions 17, 9, 6, 8, 2, 5, and 26	1,303	2 0
			Parish Nyang, portions 8 and 27	318	0 0
			Unmeasured, west of No. 1	100	0 0
			Reserve 747B, and west of reserve, estimated	3,661	0 0
	8,799	3 0		8,799	3 0

This proposal is identical with that submitted by Mr. Barbour on Occ. 93-10,326, and which has been refused by Mr. Secretary Copeland on 94-6,058, and decision upheld by the Minister on 94-6,365. Mr. Barbour was, however, not informed of these decisions until after this letter was written.—R.M., 10/9/94.

Submitted.—E.L., 11/9/94. Inform.—R.H.D., 14/9/94. R. Barbour, Esq., M.P. (Montagu Chambers, Elizabeth-street), informed, 19 September, 1894.

At a personal interview with the Minister on the 25th instant, Mr. Carruthers desired that these papers should be resubmitted for his consideration. The present state of the case is fully explained in Occ. 94-6,058.—C.J.S., 27/9/94. The Under Secretary.

Inform Mr. Barbour there is so little advantage to the Crown by the proposed consolidations that it is hardly worth while entertaining them; but that, in view of the amending Land Bill now before Parliament, I should like proposals dealing with the resumed and leasehold areas, so as to clear the run and consolidate the Crown and pastoral holdings, making due allowance for legitimate extensions to existing holdings adverse to station.—J.H.C., 4/10/94.

R. Barbour, Esq., M.P., informed 8 October, 1894. The application may now be formally refused, and the deposit, with survey fee, refunded, less costs incurred.—E.L., 5/11/94. R.H.D. (for U.S.) Approved—J.H.C., 7/11/94. Survey and sketch, £1 1s.; Surveyor Broughton, £18 18s.; District Surveyor's report, &c., £4 2s. 6d.; sketch for applicant, 10s; total, £24 11s. 6d.—R.M., 21/11/94. Deposit, £10; survey fee, £22 3s.; total, £32 3s.; less costs, £24 11s. 6d.; refund, £7 11s. 6d. Simon Fraser, care of R. Barbour, Esq., M.P., Montagu Chambers, Elizabeth-street, and Treasury informed, 27 November, 1894.

No. 16½.

The Under Secretary for Lands to R. Barbour, Esq., M.P.

Sir,

Department of Lands, Sydney, 27 August, 1894.

Referring to your personal representation on or about the end of last month, in connection with the proposed surrender and exchange of land within the holding noted in the margin, I have the honor to inform you that Mr. Secretary Copeland decided that your request for the matter to be reconsidered on the basis of Surveyor Broughton's proposal cannot be complied with, as the matter has already received much attention at the hands of the Minister.

Exchange,
Nyang, No. 108,
Central Division.

I am to add that the proposal submitted by your letter of the 20th instant will be dealt with on its merits.

J. M. Chanter, Esq., M.P., to The Secretary for Lands.

Sir,

Legislative Assembly, New South Wales, Sydney, 6 June, 1895.

The Honorable Simon Fraser, of Nyang Station, will arrive in Sydney on Thursday, the 13th, and wait upon you the following day in reference to his proposal for surrender and exchange of land on Nyang pastoral holding.

Yours, &c.,
J. M. CHANTER, M.P.

No. 23.

Office Memorandum.

In re "Nyang" Exchange.

19 June, 1895.

THE pastoral lessee, accompanied by Mr. Chanter, M.L.A., recently interviewed the Minister in support of applicant's refused exchange proposal.

The whole case was discussed at some length, but the applicant refused to agree to any consolidation other than that shown by blue circles on the enclosed tracing. This proposal the Minister promised to send to the Board for consideration.

Submitted, that upon Mr. Fraser depositing the sum of £20 towards costs, the Board be instructed to hold an inquiry, and to report whether the granting of an application in the form shown by red and blue circles would be in the public interest, and whether it would prejudice the subsequent disposal of the lands, which would then remain in the hands of the Crown.

Sketch for applicant enclosed.

C. J. SAUNDERS.

Submitted.—W. HOUSTON, Under Secretary, 20/6/95. A memo. from Mr. Chanter was sent by me to Mr. Saunders to-day.—J.H.C., 21/6/95. For memo., see item No. 24 of Schedule.

Submitted, as no objections are manifest, that the pastoral lessees' request to include portion 65, parish of Worobyan, in the exchange proposal, be referred to the Board, in conjunction with recommendation of, 19/6/95.—C. J. SAUNDERS, 21/6/95. The Under Secretary.

There is no objection to the inclusion of the portion mentioned in the proposal to be discussed. I understand the reference embodied in memo. of the 19th instant has been concurred in by the Minister.—W.M. HOUSTON, Under Secretary, 22/6/95.

Approved.—J.H.C., 24/6/95. Honorable Simon Fraser, care of J. M. Chanter, Esq., M.P., informed 25th June, 1895. Payment made, vide Treasury 95-5,935; now forwarded to the Chairman for inquiry and report, as directed by the Minister.—C.J.S. (for the U.S.) 3/7/95. The Chairman, Hay, inform Mr. Chanter of reference to the Board. J. M. Chanter, Esq., M.P., informed 4th July, 1895.

No. 27.

Mr. W. J. Davies to The District Surveyor, Hay.

Dear Sir,

Deniliquin, 5 July, 1895.

The Honorable Simon Fraser has made application for an exchange of lands on Nyang run, and I have been informed that all the papers in connection with same have been forwarded to you, I would therefore respectfully ask you to deal promptly with this matter, as the local surveyor, Mr. Broughton, informs me that unless he is in possession of the papers referred to early next week the flood-waters will be over the land in question, and probably prevent him from inspecting the land for some months. Trusting you will be pleased to deal with this at once.

I have, &c.,

W. J. DAVIES.

The writer may be informed that the papers in connection with the Nyang exchange application have not yet been received in this office, but that as soon as they are the matter will be at once put in hand.—W. G. WALKER, District Surveyor, 10/7/95. The Chairman.

Since writing the above the papers have come to hand, and action will be at once taken thereon.—W. G. WALKER, 11/7/95. Mr. W. J. Davies informed in terms of District Surveyor's report, 11/7/95.

No. 28.

Mr. W. J. Davies to The District Surveyor, Hay.

Sir,

Deniliquin, 29 July, 1895.

Re the application for exchange of lands on Nyang holding, will you kindly advise me if such action has been taken as will admit of the application being dealt with at the next sitting of the Land Board at Deniliquin; also, if it is necessary for the papers to be sent to Mr. Broughton, the Local Surveyor, before the case is set down for hearing, as I waited on Mr. Broughton, who informed me that he had not yet received the papers. I would again respectfully ask you to urge this matter on to enable the application to be dealt with at the next sitting of the Land Board at Deniliquin.

I have, &c.,

W. J. DAVIES.

The writer may be informed that instructions in connection with this matter were issued to Mr. Surveyor Broughton on 29th instant, and that it is anticipated that the case will be able to be dealt with at the next Deniliquin Court.—W. G. WALKER, District Surveyor, 31/7/95. The Chairman.

Mr. W. J. Davies informed, 2/8/95.

No. 32.

Mr. Surveyor Broughton to The District Surveyor, Hay.

Surveyor Broughton to the District Surveyor at Hay, reporting on an application for exchange of land within the Nyang Pastoral Holding, Deniliquin Land District.

Sir,

Deniliquin, 19 August, 1895.

In compliance with your instructions, No. 62, of the 29th ultimo, I have the honor to submit the following report on an application by the lessee of the Nyang pastoral holding to exchange land under the 47th section of the Crown Lands Act of 1895.

The land offered in surrender consists of portions Nos. 12, 11, 10, 8, 9, 41, parish of Boyd, 12 to 26 inclusive, parish of Nyang, part of No. 12, 10, 18, 5, 4, 3, conditional lease 2,908, 13, 14, conditional lease 3,107, 15, 16, parish of Balpool, Nos. 1 and 16, parish of Yadabal, county of Wakool, comprising an area of about 1,212 acres.

The land proposed to be granted in exchange consists of portions No. 65, parish of Boyd, Nos. 27 and 8, parish of Nyang, Nos. 12, 11, 10, 13, 26, 25, 8, 9, 17, parish of Barrabu, No. 6, parish of Balpool, and parts of reserves 747, 747B, 1,164, and vacant Crown lands in the parishes of Nyang and Barrabu, the aggregate area being about 12,120 acres.

The tracing accompanying my former report (No. 93-98) is used to show position of improvements and land to be exchanged, also to illustrate character of country, and I enclose two (2) schedules setting forth value of improvements, &c., on the respective lands.

I visited the land on the 13th and 14th instant, and did not deem it necessary to make another special inspection of the lands dealt with in my former report (No. 93-98).

The character of the land offered in surrender is described in detail in my former report and on enclosed Schedule A. It is chiefly of a grazing order of a good class, and comprises about 1,200 acres suitable for the cultivation of cereals; it is well watered by the Edwards and Niemur Rivers and several creeks that are fed by the Edwards and Niemur Rivers; it is more or less subject to annual inundation, particularly the land comprising the additional area to be surrendered, viz., Holmes and McCullough's (now S. Fraser) selections in the parishes of Balpool and Yadabal.

The character of the land proposed to be exchanged is also described by tracing and schedule. It is almost similar to that offered in surrender, except that the area of agricultural land is less. The water supply is good, and derived from the same source as the surrender land.

I estimate the grazing capacity of these lands to be the same, viz., about one sheep to one and a half ($1\frac{1}{2}$) acre.

I consider the value of the lands to be exchanged at £1 13s. 6d. per acre, and that offered in surrender at £1 14s. 6d. per acre.

I am of the opinion that the granting of this exchange will tend considerably to the consolidation of Crown lands and to the estate of the applicant, but in view of the fact that the country lying between the Neimur River and the proposed exchange is more or less subject to annual inundation, I consider that, in the interests of settlement, it is desirable that a proportion of high land should be excluded from this exchange, and that it should be measured with frontage to the Neimur River, and I would suggest that a form of area somewhat similar to that shown by red edging on enclosed lithograph X be adopted; this course would necessitate a further surrender (about 1,000 acres), inclusive of the residue of portion 12, parish of Balpool, and would also embrace part of forest reserve No. 2,125, which would not affect the public estate, as the timber is nearly all flooded box of stunted growth and of no commercial value; moreover, I intend, when dealing with disposal of Crown land within Nyang leasehold, to recommend the revocation of further area of this reserve.

I am of opinion that all the reserves affected by this exchange can be revoked without prejudicial effect to the public estate.

Disposal of surrender land: I am of the opinion that the land within the resumed area should be made available as homestead selections, limit of area and price to be fixed after final action of Land Board; the land within the leasehold to be dealt with in conjunction with adjoining Crown lands, and after expiration of lease to be made available either for homestead selection or settlement lease.

Improvements: I am unable to learn when the improvements on Crown lands were effected, except the ringbarking on the leasehold area, which was done about 1889; owing to the situation of the tank on portion No. 51, parish of South Moulamein (it being near the Murrain Yarrein Creek), with regard to a natural water supply, I consider it is questionable whether it is of practical value; and for the same reason

reason I am of opinion that tanks (2) on the surrender lands (portions 3 and 4, parish of Balpool) are valueless, as in the latter case there is not any question about the Edwards River affording a permanent and natural water supply.

Time occupied: One and a half days travelling, two days in field, and two and a half in office; total, six days.

I have, &c.,

J. BROUGHTON.

[Enclosure.]

SCHEDULE "A."—Nyang Exchange.

Lands within Nyang Holding proposed to be surrendered under the 47th section of the Crown Lands Act of 1895.

Portion.	Parish.	Area.	Improvements.	Value.	Character of Country.
		acres.		£ s. d.	
12	Boyd	320	Fencing	8 0 0	Box forest, interspersed with open plains intersected by shallow gum watercourses. About 100 acres are suitable for agriculture; it is all good grazing land. Permanent water supply.
11	"	160	Fencing	6 0 0	
10	"	320	Fencing	10 0 0	
8	"	160	Fencing	19 0 0	
9	"	325	Nil	
41	" ..	60	Fencing, £24; hut, £15; well, £20.	59 0 0	Box and gum forest; low sandhill (30 acres) suitable for agriculture.
26	Nyang	320	Fence, £11; ringbarking, £12.	23 0 0	About two-thirds forest country; timber—box, dogwood, pine, and t-tree; the rest of the land is open plain. Soils—sandy loam, red and grey clays. About 800 acres (within portions 21, 22, 25, and 26) are suitable for agriculture. It is all first-class grazing-land. There is a fair water supply in the Murrain Yarrein Creek, which intersects portions 18, 23, 24, and 25.
25	" ..	320	Fence, £14; ringbarking, £14	28 0 0	
24	" ..	297½	Fence, £26 10s.; ringbarking, £12	38 10 0	
21	" ..	320	Fence, £4; ringbarking, £10 ..	14 0 0	
22	" ..	320	Ringbarking	10 0 0	
23	" ..	320	Fence, £1 10s.; ringbarking, £4	5 10 0

15	" ..	320	Fence, £6; ringbarking, £5 ..	11 0 0	
16	" ..	320	Nil	
17	" ..	320	Nil	
14	" ..	320	Fence	6 0 0	
13	" ..	320	Nil	
12	" ..	320	Ringbarking	5 0 0	
Part of 12	Balpool	290½	Ringbarking, 290 acres at 8d. per acre.	9 13 4	Plain and timber country, intersected by Jawbone Creek. Fair water supply; good grazing; partly suitable for agriculture.
10	" ..	640	Fence	26 0 0	Plains and open box country, scattered pine in vicinity of Jawbone Creek; good water supply; partly suitable for agriculture; all fair grazing land.
18	" ..	206	Tank, 2,419 yards, at 6d. per yard.	60 9 6	
5	" ..	640	Ringbarking	10 0 0	
4	" ..	320	Ringbarking	5 0 0	Frontage to Edward River (permanent water); chiefly open plain with scattered clumps of box, fringe of gum along river; partly (about 120 acres) suitable for agriculture; all good grazing land.
3	" ..	320	Ringbarking	4 0 0	
13	" ..	640	Fence, £5 6s. 5d.; ringbarking, 440 acres at 8d., £14 13s. 4d.; tank, 890 yards, at 4d. per yard, £14 16s. 8d.	34 16 5	Plain, with scattered pine and box; partly flooded; partly suitable for agriculture; all good grazing land.
14	" ..	335 exclusive of road	Fence, £33 12s.; ringbarking, £11 3s. 4d.	44 15 4	Flooded box country; grey clay soil.
15	" ..	320	Hut, £20; tank, £3 6s. 8d.; fencing, £27; tank, £15 3s. 4d.; ringbarking, £9 6s. 8d.	74 16 8	Box and open gum forest, subject more or less to annual inundation; grey clay soil.
16	" ..	80	Fence, £4; ringbarking, £2 13s. 4d.	6 13 4	
Conditional lease, 2,908.	" ..	376 inclusive of road.	Fence, £80; ringbarking, £7 6s. 8d.	87 6 8	Flooded box country; grey clay soil.
Part of conditional lease 3,107.	" ..	248	Tank, £3 6s. 8d.; fencing, £22 16s.; part of bridge, £1; hut, £10; ringbarking, £8 5s. 4d.	45 8 0	Same as portions 15 and 16.
" ..	" ..	302	Bridge (part), £1; fencing, £26 14s.; ringbarking, £10 1s. 4d.	37 15 4	Same as portions 15 and 16.
1	Yadabal .	640	Fencing, £50 10s.; dam, £10; ringbarking, £21 6s. 8d.; bridge, £20.	101 16 8	Open gum forest, and small proportion of plain and box timber; subject to inundation.
16	" ..	640	Fencing, £55 14s.; ringbarking, £20.	75 14 0	

To accompany my letter No. 95-72, of 19th August, to the District Surveyor at Hay.—J. BROUGHTON, Surveyor.

SCHEDULE "B."—Nyang Exchange.

Lands within Nyang Holding proposed to be exchanged under the 47th Section of the Crown Lands Act of 1895.

Portion.	Parish.	Area.	Improvements.	Value.	Character of Country.
65	Worobyan..	acres. 320½	Nil.....	£ s. d.	Open sand-hill and box forest; embraces part of open lagoon; good water supply; partly suitable for agriculture.
51	Moulamein South.	170	Tank, 1,230 yards, at 5d. per yard	25 12 6	Open box forest, good grazing land, grey clay soil, fair water supply.
31	Boyd.....	310	Nil.....	Box forest, interspersed with small plains; soil, red and grey loam.
27	Nyang	122	Nil.....	Open country and box forest; grey clay and loamy soils, partly suitable for agriculture; good grazing land; frontage to Edward River; permanent water supply.
8	„	196	Fencing, 20 chains, at £16 per mile; ringbarking, 100 acres, at 8d. per acre.	7 6 8	
12	Barrabu ...	351½	Ringbarking, 270 acres, at 8d. ...	9 0 0	Open box forest and plain, with sandy rise; lightly timbered with pine and box. Soil, sandy loam and grey and red clay, partly suitable for agriculture; good grazing country.
11	„	381½	Nil.....	
10	„	407¾	Nil.....	
13	„	354	Ringbarking, 240 acres, at 8d. per acre.	8 0 0	
26	„	57	Nil.....	Frontage to Edward River (permanent water supply); loamy soil and grey clay; plain country, with scattered box and stunted gum in vicinity of river; partly suitable for agriculture; good grazing country.
25	„	70	Nil.....	
8	„	191	Old yards.....	5 0 0	
9	„	364½	Nil.....	Same as portions 12, 11, 10, and 13.
17	„	160	Yards and hut (valueless)	
6	Balpool.....	461½	Nil.....	
Un-measured.	Nyang and Barrabu.	8,203	Amount of fencing, at from £12 to £24 per mile, and of ringbarking at 8d. per acre, can be ascertained when surveyed.	
					Open plains, with scattered clumps of box; box forest, interspersed with open plains, intersected with watercourses; sandy loam; black, red, and grey clay soils. About 800 acres suitable for agriculture; all good grazing land; permanent water supply in Edward River, and fair supply in Jawbone Creek.

To accompany my letter No. 95-72 of 19th August to the District Surveyor at Hay.—J. BROUGHTON, Surveyor.

No. 33.

The District Surveyor, Hay, to The Chairman, Local Land Board, Hay.

THE attached report on Nyang exchange has this morning been received, and the papers are forwarded for issue of notices and registration, after which it is requested they may be returned to this office for preparation of report. The report can probably be forwarded in two or three days' time.

W. G. WALKER,
District Surveyor,
(per J.P.A.G.)

Mr. O'Hanlon to prepare notices.—A.J.V., 20/8/95. Honorable Simon Fraser, 123, Queen-street, Melbourne; John Broughton, Surveyor (per District Surveyor), Hay; and W. J. Davies, Deniliquin,—notified case will be dealt with at Deniliquin, 9/9/95.—W.O'H., 20/8/95. The Clerk in Charge.

No. 34.

The District Surveyor, Hay, to The Chairman, Local Land Board, Hay.

[Application No. 92-5 (46th Section Crown Lands Act of 1889) by Simon Fraser for surrender and exchange of land on Nyang Holding.]

District Surveyor's Office, Hay, 30 August, 1895.

IN compliance with your directions on papers L.B. 95-2,929, enclosed, the following report on the above-mentioned exchange is submitted for the Board's consideration:—

The original proposals under this application were reported on by Mr. Surveyor Broughton, to whom the work of inspection was entrusted, as far back as October, 1893. (Vide papers L.B. 93-6,282 enclosed.)

Such proposals (alternatives) are indicated on enclosed lithograph "A" by red edging in exchange for the lands edged blue, and by red edging and hatched edging in exchange for the available lands lying between the dividing line and the line marked by blue hatched edging.

Mr. Broughton, on visiting the ground, had interviews with the station manager and applicant's agent, and, as a result, he suggested a further modification, involving the surrender of portions edged purple on tracing "B" in exchange for the available lands north and west of the yellow edging.

In this proposed modification the late Mr. District Surveyor Tritton concurred. It was, however, decided by the Under Secretary for Lands to adhere to the original proposals, and the case was referred back to this office for report. Accordingly such report was prepared by me, Occ. 94-1,989, from the data furnished by Mr. Surveyor Broughton in his previous report.

The Secretary for Lands, in view of this report, approved of the second of the alternative schemes—i.e., the one in which the line shown by blue hatched edging forms the eastern boundary of the land to be granted in exchange—being forwarded to the Land Board for inquiry, subject to the pastoral lessee's acquiescence to such proposal being obtained, and also to his signifying his willingness to forego claim to the improvements on the surrender portions. (Vide papers, Occ. 94-1,989.)

Applicant's agent wished the case to be reconsidered on the basis of Mr. Broughton's proposal referred to, but such request was refused. (Vide Occ. 94-6,058.)

After

After an interview with Mr. Chanter, M.L.A., and the applicant, the Secretary for Lands agreed to send the proposal indicated by blue circles on tracing "B" (exhibited at Crown Lands Office, Deniliquin, identical with red and blue hatchings on lithograph "X") to the Land Board for inquiry and report; subsequently, portion 65, parish Worobyan was added to the proposal.

Mr. Broughton's latest report, L.B. 95-3,617, deals in general terms with this application, and he estimates the value of the lands offered in surrender at £1 14s. 6d. per acre, and of the lands sought in exchange at £1 13s. 6d. per acre, as it contains less agricultural land; thus showing a difference of 1s. per acre in favour of the Crown. Details of each separate block of land, character of soil, water supply, timber, and improvements are set forth in Schedules A and B.

The improvements on the lands offered in surrender amount to £920 14s. 8d., which will be probably relinquished to the Crown. Two tanks are reported by Mr. Broughton as existing on portions 3 and 4, parish Balpool; but owing to their proximity to a permanent natural water supply (Murrain Yarrein Creek) are not of any practical value. The improvements on the land sought in exchange, in which the Crown will have a claim, in this case consist of fencing and ringbarking on the unmeasured land in the parishes Nyang and Barrabu; the amounts, however, cannot be ascertained until after survey. A tank exists on portion 51, parish Moulamein South (reserve 20,805), which will be the property of the Crown on revocation of the reserve; but Mr. Broughton, although he places the value of the excavation (1,230 yards) in schedule at £25 12s. 6d., considers it questionable whether it is of practical value for watering purposes, owing to its proximity to Murrain Yarrein Creek.

In view of the comparative values of the land involved in this exchange, and of the advantages to the Crown as well as the pastoral lessee by the consolidation of the Crown lands, and consequently of the freehold lands, the subject proposal which has been mutually agreed upon, subject to valuation, &c., between applicant and the Secretary for Lands, is recommended for favourable consideration. Attention, however, is invited to Mr. Broughton's suggestion, in which he proposes to modify the form of the land to be granted in exchange as shown by red band on lithograph X, thus giving the applicant frontage to the Niemur River and retaining a larger proportion of high land for future settlement.

For the reasons stated by Mr. Broughton, I consider such form an improvement on the one provisionally approved. If agreed to, however, it will be necessary to obtain full particulars of the parts of portions 2, 7, 9, and 12, parish Balpool, and the unmeasured lands not already reported on which are affected by this proposed further modification.

Mr. Broughton reports that the part of forest reserve 2,125 embraced in this proposed modification does not contain timber of any commercial value, and that all the reserves covered by the lands sought may be cancelled without prejudicially affecting the public estate.

The costs incurred to date in this case, as far only as this office is concerned, amount to £40 7s., made up as follows:—

W. G. WALKER,
District Surveyor.

No. 35.

Mr. T. Robertson to The Secretary for Lands.

Dear Sir,

Moulamein, New South Wales, 10 September, 1895.

I was informed that the Nyang Station was applying to the Lands Department, or to the Land Board at Deniliquin, for an exchange of land. The land that they say they want to exchange is almost all flooded in winter for land that is high and dry and nearer to Moulamein than that they will give. I am a young native of New South Wales, and am looking for land to settle on and to earn an honest living. If the exchange is allowed to the station, all the land that is out of the flood will be gone, and the poor will be put in the wet country to be flooded out every year. I ask you, as a gentleman, which I believe you are, not to allow the exchange to annoy one of them.

I have, &c.,
T. ROBERTSON.

No. 36.

Caption to Deposition of Witnesses.

New South Wales }
to wit. }

THE examination of Simon Fraser, of Melbourne, grazier; George Lewis Singleton, (Nyang) station manager, in the Colony of New South Wales; and John Broughton, of Deniliquin (surveyor), in the said Colony.

WHEREAS it hath come before the Board whether the application for surrender and exchange of lands within Nyang pastoral holding by Simon Fraser should be recommended or otherwise, and it hath been found necessary to investigate the said matter on oath, the depositions of the several witnesses are appended hereto.

Mr. Lakeman (agent) appeared for applicant.

[Enclosure.]

Simon Fraser, on oath, states:—I am the owner of Nyang pastoral holding, and the applicant for an exchange; the greater part of the present application is not my original application; the proposal submitted to the Board is suggested by this Department to me and agreed upon; included in the proposal was the northern part of reserve 747, and I wish this land now added to consolidate the holding; the suggested proposal by the Department was very reluctantly accepted

accepted by me ; in this proposition I am giving up about 3 miles of frontage to the Niemur River, parish of Boyd ; I am also giving up about 6 miles fronting a forest reserve on the Niemur, parishes of Balpool and Yadabal ; I consider this practically a water frontage for the purpose of watering stock ; I am giving up about a mile and a third frontage to the Edward River ; if the proposal, as agreed upon by the Minister and myself, is granted, it will consolidate the holding, and this is the only reason why I would consent to the application, as I consider the land offered more valuable than that sought in exchange ; I consider the portions from 12 to 26 in the parish of Nyang, with the exception of portions 12, 13, 14, and 15, to be the best agricultural land in the district ; the agricultural land in these portions, 1 acre is worth 2 acres of the plain—of the lands I am getting in exchange ; I am giving mostly timbered country for mostly plain country ; the timbered country I am giving up is most valuable ; if not for the purpose of consolidation, the exchange would be of a disadvantage to me ; the principal reason for consolidation is to make smaller paddocks and pump water into them from the Edward River ; I am emphatic in my view that the northern portion of water reserve 747 was included in the proposal ; the lands to south of portions 13, 14 and 15, parish of Barrabu, is inferior to the lands that front the forest reserve on the Niemur.

Mr. Broughton : I paid 33s. 6d. or 33s. 9d. for the group of selections known as Holme's and McCullagh's ; this is equal as Crown grant.

SIMON FRASER.

Sworn before us, at the Board Room, Deniliquin, this 9th day of September, 1895,—

FRED. TROLLOPE, Chairman.
D. TENNANT,
CHARLES OPITZ, } Members.

George Lewis Singleton, on oath, states :—I am manager of Nyang pastoral holding ; I know the land of the proposed exchange, as shown on tracing "B" ; the lands that we are offering are more suitable for settlement, and will carry more stock than those lands we are acquiring ; if not for the purpose of consolidation, it would be a disadvantage to Mr. Fraser if the proposal were granted, as the land offered will carry more stock ; I know the northern part of reserve 747, eliminated from the Ministerial proposal ; there is no traffic to this reserve nor any road to it ; it is not used by the travelling public, nor not wanted by the travelling public.

G. L. SINGLETON.

Sworn before us, at the Board Room, Deniliquin, this 9th day of September, 1895,—

FRED. TROLLOPE, Chairman.
D. TENNANT,
CHARLES OPITZ, } Members.

G. L. Singleton, recalled, states :—As to improvements on lands offered, I value the improvements on the lands offered :—

Water improvements	£ 430
Fencing	654
Ringbarking	260
Bridges	31
3 huts	50
1 well	30
Grand Total	£1,455

G. L. SINGLETON.

Sworn before us, at the Board Room, Deniliquin, this 9th day of September, 1895,—

FRED. TROLLOPE, Chairman.
D. TENNANT,
CHARLES OPITZ, } Members.

John Broughton on oath states :—I am a Staff Surveyor in the Hay Land Board District stationed at Deniliquin ; I know the lands forming the subject of this exchange ; I hand in tracing "B" as an illustration of my evidence ; the country proposed to be surrendered is shown by red circles on tracing produced, and set forth in Schedule "A" ; its character is as follows : portions 8, 9, 10, 11, and 12, parish Boyd, is principally box forest interspersed with open plains ; there is a small gum watercourse running through the land, and within portion 8 there is an area of about 100 acres embraces a sand-hill ; this sand-hill is the only part of these lands that is adapted for agriculture ; the rest of the land is first-class grazing land and partly liable to inundation, and the soils are of grey and black clay ; as one block, this land has frontage to the Niemur River, which contains a permanent water supply ; portion 41, parish of Boyd, consists of box and gum forest and low sand-hills ; about 30 acres is suitable for agriculture ; the rest is good grazing land, not suitable for agriculture ; portions 12 to 26, parish of Nyang, comprises about two-thirds of forest country ; timber—box, pine, and ti-tree ; the rest is open plain ; the soil is chiefly red and grey clay ; the only lands suitable for agriculture is about 800 acres of sandy country situated within portions 21, 22, 25, and 26, but it is all of a first-class grazing order ; there is a fair water supply in the Murrain Yarrein Creek, which intersects portions 18, 23, 24 and 25 ; portions 3 and 4, parish of Balpool, have frontage to the Edward River—permanent water ; chiefly open plain and scattered clumps of box and a fringe of gum timber along the river ; soil is principally grey and black clay ; about 120 acres on the frontage suitable for agriculture ; the whole of the land known as Holmes and M'Cullagh's selections is liable to annual inundation, except about half of portion 13, about 320 acres, parish Balpool, which is suitable for agriculture ; with this exception the land is all grey soil and fair grazing country ; portions 5 and 18 comprise open box and plain country, red clay and black soil ; it is purely first-class grazing country ; no natural water supply ; portions 10 and 12, parish of Balpool, is principally open plain, the residue being open box and scattered pine trees ; the soil is nearly all of a sandy nature, and about 700 acres well suited for agriculture ; there is a limited water supply in Jawbone Creek, which intersects the lands ; the lands proposed to be given in exchange are shown by blue circles in tracing "B," and described in Schedule "B" ; portions 8 and 27, Nyang, consists of open country and box forests, grey clay and loamy soil ; about 16 acres suitable for agriculture ; good grazing land ; has frontage to Edward River—permanent water ; portion 65, parish Worobyan, is open sand-hill and box forest, embraces part of an open lagoon ; has good water supply, and 60 acres suitable for agriculture ; portion 51, Moulamein South, open box forest and good grazing land, not suitable for agriculture ; grey clay soil, fair natural water supply ; portion 31, parish of Boyd, box forests interspersed with small plains ; red and grey loam, partly suitable for agriculture, good grazing land ; portions 10, 11, 12, 13, parish of Barrabu, open box forest and plain ; a plain with a sandy rise lightly timbered with pine and box ; soil, sandy loam, red and grey clay ; about 40 acres suitable for agriculture, good grazing land ; portions 8, 25, and 26, parish of Barrabu, have frontage to the Edward River ; soil is loamy and grey clay ; it is plain country with scattered box ; there is stunted box in the vicinity of the river ; about 100 acres suitable for agriculture ; it is good grazing country ; portions 6, Balpool, 9 and 17, Barrabu, is same character of country as portions 10, 11, 12 and 13, parish of Barrabu ; the unmeasured land, which comprises parts of water reserves 1,164, 747 B, and the open Crown lands lying to the south of portions 23, 14, and 15, parish of Barrabu, also that south of portion 18, Barrabu, also that west of reserve 747 B, and portion 11, parish of Nyang, comprising an area of about 8,203 acres ; it consists of open plains and scattered clumps of box and box forests interspersed with plains and intersected with watercourses ; the soil is sandy loam, black, grey, and red clay ; about 800 acres are suitable for agriculture ; it is all of a good grazing order ; that part on the south of portions 23, 13, 14, and 15, is more or less subject to annual flood, caused by the overflow of the Niemur River ; there is a permanent water supply in the Niemur River, and a fair supply in the Jawbone Creek ; the frontage part of reserve 747 is chiefly open country, there is a narrow fringe of gum timber along the river, and there is about 200 acres in the south-east corner, comprising box forest and scattered pine ; the soil is chiefly of a sandy nature, and red clay, and about 200 acres suitable for agriculture ; I estimate the value of the land offered in surrender at £1 14s. 3d., and that sought in exchange at £1 13s. 3d. per acre ; the value of the improvements on the lands offered is approximately £920, and on the part of the measured lands sought in exchange £54 19s. 2d., and on the unmeasured lands, fencing from £12 to £14 per mile and ringbarking at 8d. per acre ; I cannot now give the quantity.

Mr.

Mr. Lakeman :—The improvements on the lands sought in exchange are considerably less than those offered in surrender; these improvements—viz., fencing and ringbarking—are partly on lands reserved from sale, but under lease, and partly on land under lease and unreserved; the ringbarking has been done under authority; I know no public want to keep reserve 747; the application if granted will tend to consolidate the holding; I think the advantages to the public would override the only objection I have; my objection is that there is not enough high land left between the Niemur River and the land sought in exchange.

By the Board :—If this application is granted, the distance from the eastern boundary of portion 2, Balpool, to the boundary of the Moulamein township would be about 13½ miles; if the application is granted, the only Crown lands within that distance having frontage to the Edward River is a reserve about half-way, containing about 200 acres; there is also a reserve, about 3 miles from Moulamein, about 80 to 100 acres; there is a road on that side of the Edward River, but not much traffic on it.

J. BROUGHTON.

Sworn at the Board Room at Deniliquin, this 9th day of September, 1895, before us—

FRED. TROLLOPE, Chairman,
D. TENNANT, }
CHARLES OPITZ, } Members.

No. 37.

Decision of Local Land Board at Deniliquin.

Crown Lands Act of 1884—(Part II, Section 14, Sub-section 4).

Decision of Local Land Board.

New South Wales }
to wit. }

Land District
of Deniliquin.

WHEREAS, on the 9th and 11th days of September, 1895, it became a matter for investigation before us whether the application for surrender and exchange of lands within Nyang pastoral holding by Simon Fraser, should be recommended or otherwise; and having taken evidence and inquired into the said matter, we find and report to the Honorable the Minister for Lands:—

That the granting of the application would tend to consolidate the freehold lands of the applicant; but that the exchange would be prejudicial in the public interest, chiefly for the reasons that the applicant would acquire too great a proportion of the Edward River frontage lands, and the Crown would be left with lands disadvantageously situated for settlement on the Niemur River. We therefore recommend the refusal of the application.

Expenses in dealing with the case by the Board, £4 4s., to be added to the expenses formerly incurred.

Given under our hands, at the Board Room, at Deniliquin, in the Colony of New South Wales, this eleventh day of September, 1895.

FRED. TROLLOPE, Chairman.
D. TENNANT, }
CHARLES OPITZ, } Members.

Nyang pastoral holding exchange of lands.—The case is now forwarded to Head Office in connection with the Board's recommendation of 11th September, 1895.—FRED. TROLLOPE, Chairman, Hay, 27/9/95 (*per A.J.V.*). The Under Secretary.

Charting Branch.—E.L., 30/9/95. The pastoral lessee interviewed the Minister in connection with this matter, when the merits of this exchange and a further modification were discussed. Eventually it was decided that Mr. Fraser should be supplied with a sketch showing Mr. Broughton's scheme, and that referred to above. Sketch supplied, and the District Surveyor asked to report as to the character and value of the lands proposed to be granted under the latter proposal, and also as to whether the reserves affected may be alienated without injury to public interests.—O.W.B., 11/10/95.

No. 38.

Office Memorandum.

Department of Lands, 11 October, 1895.

THE pastoral lessee of Nyang holding recently interviewed the Minister in reference to the Nyang exchange, and various further proposals were discussed; but before anything is decided upon, information is sought as to the character and value of the several areas referred to hereunder, also as to whether the reserves thus involved may be alienated without injury to public interests.

Water reserve, 789, parish Moulamein South.

" " 1,480, " Burbagadah.

" " 1,481, " "

Portion 11 and vacant land south thereof, parish Balpool.

The whole of reserve 746 and 746B south extension.

Part of forest reserve 3,262, lying west of a north and south line, situated about 20 chains east of the north-west corner of portion 15, parish Balpool, said to contain no timber of value.

A special inspection of the locality is not necessary at this stage, but the information asked for should be supplied at the earliest date possible.

C.J.S.,
For the Under-Secretary.

To Mr. Broughton for early report, in accordance with the terms of the above minute. Reserves 1,480 and 1,481 being now alienated, land need not be considered.—W. G. WALKER, District Surveyor, 15 October, 1895. Mr. Surveyor Broughton.

Reported on by my letter, No. 95-130, of the 16th of October, 1895, to District Surveyor.—J. BROUGHTON, Surveyor.

No. 39.

Mr. Surveyor Broughton to The District Surveyor, Hay.

Surveyor Broughton to the District Surveyor at Hay, reporting on certain reserves on the Nyang Pastoral Holding, Deniliquin Land District.

Sir,

Deniliquin, 16 October, 1895.

In compliance with your instruction No. 91, of 15th instant, I have the honor to submit the following report on certain lands within the Nyang pastoral holding.

Water reserve, No. 789, parish of South Moulamein, is chiefly open country, there being a small proportion of box timber near western boundary and scattered about it. This reserve embraces a shallow basin, known as Lake Agnes, which is filled at time of flood by a channel from the Niemur River. As far as I can judge from my local knowledge, the land has a few sandy rises about it which are suitable for agriculture, but generally it is grazing country of a good order. I estimate its value at about thirty-five shillings (35s.) per acre. The only natural advantage this reserve has is the lake, which is useful for conservation of water, but not of sufficient importance to warrant the retention of the land, and I am of the opinion that it can be revoked without prejudice to the public estate. It is pointed out that there are two settlers, with limited holdings, adjoining this reserve.

Portion 11, and vacant land adjoining parish of Balpool: The measured land has pine and box timber, and to a great extent is suitable for agriculture. The Jawbone Creek, which intersects the portion, affords a fair water supply. This land is of a good grazing order. I estimate its value at about thirty-five shillings (35s.) per acre; the vacant land is nearly all box forest, only suitable for grazing, and worth about thirty shillings (30s.) per acre.

Reserve No. 746 is chiefly open country, with scattered clumps of box and willow, and on frontage there is a narrow fringe of gum of poor quality. It is of good grazing order and partly suitable for agriculture. There is a naturally permanent water supply in the Edward River (which fronts this land). I estimate the value at forty-five shillings (45s.) per acre.

Reserve 746B south extension consists of open plains, with scattered clumps of box and pine forests; it is all good grazing land and partly suitable for agriculture. At the south end there is a small proportion of it liable to inundation. I estimate the value of this land from 32s. 6d. to 35s. per acre.

Reserve 746 and extension can be revoked without prejudicial effect to the public estate.

That part of forest reserve No. 3,262 lying west of a line north and south, situated about 20 chains east of the north-west corner of portion No. 15, parish of Balpool, does not contain any timber of sufficient commercial value to warrant the retention of any of the land, as it is chiefly open plain, with scattered clumps of box and willow, and in vicinity of river there is a fringe of gum of little or no value; and towards southern extremity of the land the timber is stunted box. Liable to inundation at high flood. This land is all of a first-class grazing order, and in locality of Edward River, and towards portion 13, it is suitable for cultivation of cereals. I estimate the value of that part (about 1,100 acres) fronting the Edward River at forty-five shillings (45s.) per acre, and the rest at about thirty-two shillings and sixpence (32s. 6d.) per acre.

This report is made from a good knowledge of the locality, and it is probable that after inspection the values may be modified to a slight extent.

I may state that nearly the whole of land under consideration is high country and well suited for settlement as homestead selections.

I have, &c.,

J. BROUGHTON,

Surveyor.

Maps of District Survey Office noted.—R.M.G., 22/10/95.

The foregoing report has been obtained, as directed by the Under-Secretary for Lands on the 11th instant—*vide* papers L.L.B. 95-4,708 enclosed. Mr. Surveyor Broughton did not make a special inspection of the subject land, but reported from his local knowledge; and as his acquaintance with the district is a very intimate one, probably such report will be found to be sufficiently minute for the purpose. Reserves 1,480 and 1,481, parish of Burbagadah, referred to in the papers quoted, comprise portions 20 and 33 and 22 and 49, all of which have been alienated to Simon Fraser. Attention is invited to the last paragraph of Mr. Broughton's report, wherein he states that nearly the whole of the lands under consideration are well suited for homestead selections.—W. G. WALKER, District Surveyor, 22/10/95. The Under-Secretary for Lands.

No. 40.

The Honorable S: Fraser, Esq., to The Secretary for Lands.

Nyang Exchange.—Improvements on Freehold.

Sir,

10 December, 1895.

Herewith please find the proposed schedule of my freehold, 14,073 acres 1 rood, to be given in exchange for an equal acreage of Crown lands, schedule of which is enclosed.

There are nine large tanks, one well; the timbered country has been ringbarked.

There is a good deal of fencing, sheep yards, and hut, which I presume I would be allowed to remove.

I am not aware that there is any improvements on the Crown lands, with the exception of some fencing and ringbarking.

I have, &c.,

SIMON FRASER.

[Enclosure.]

No. 42.

The Honorable S. Fraser, Esq., to The Under Secretary for Lands.

Exchange.—Nyang, No. 108, Central Division.

Sir, 454, Collins-street, Melbourne, 23 December, 1895.

Your letter of 19th instant came duly to hand, and, in reply, beg to state that I am quite willing to defray the cost of inquiry, survey, &c., in the event of such exceeding the amount already deposited; and I am also willing to relinquish the irremovable and remove the movable improvements on any portions eventually surrendered.

I have, &c.,

SIMON FRASER.

The lessee having agreed to the terms of approval of 18th instant, the papers are now forwarded to the Local Land Board for inquiry and report, in accordance with that decision.—E.A.B., B.C., 21/12/95. The Chairman, Local Land Board, Hay. Honorable Simon Fraser informed, 31/12/95. The District Surveyor for report.—A.J.V. (for Chairman), 3/1/96.

Forwarded to Mr. Surveyor Broughton, who is requested to furnish the required report in the usual manner for such cases. The proposal has now taken the form indicated by red and blue hatched edging on lithograph "X." The greater part of the lands involved have already been reported on by Mr. Broughton, and it may not be, perhaps, necessary to again inspect some of these lands. The values set down for such may, however, require slight alteration, in view of any possible fall in land values; also for depreciation of improvements. It is desirable that this instruction be carried out at as early a date as practicable.—W. G. WALKER, District Surveyor (*per* J.G.), 2/3/96. Mr. Surveyor Broughton.

To the District Surveyor, with my letter No. 96-27 of 1st September.—J. BROUGHTON, Surveyor.

No. 43.

A. Lakeman, Esq., to The Under Secretary for Lands.

Sir, Hay, 24 August, 1896.

I have the honor to ask that the District Surveyor may be instructed to make a report as to the best means of effecting the consolidation of the "Nyang" freehold lands. At present you have only asked him to report on certain propositions agreed upon between the Minister and Mr. Fraser, which I feel certain, on more minute inquiry, will not be acceptable either to the Crown or Mr. Fraser.

I therefore ask that the District Surveyor may be asked to submit a proposal for the Minister's approval outside the scope of anything yet put forward.

Yours, &c.,

ALLEN LAKEMAN,

Agent for Simon Fraser, Nyang.

No. 44.

Mr. Surveyor Broughton to The District Surveyor, Hay.

Surveyor Broughton to the District Surveyor at Hay, reporting on an application for exchange of land within the Nyang Pastoral Holding, Deniliquin Land District.

Sir, Deniliquin, 1st September, 1896.

In compliance with your instructions No. 17, of the 2nd of March, 1896, I have the honor to submit the following report on a further proposal by the lessee of Nyang pastoral holding to exchange land within that holding, under the 47th section of the Crown Lands Act of 1895.

The land offered in surrender consists of portions No. 12 to 26 inclusive, 32, 33, and 1, parish of Nyang; No. 8 to 12 inclusive, and 41 parish Boyd; No. 1 to 6 inclusive, 14, 15, 19, 20, 21 and 23, parish Barrabu; and No. 16, parish Yabadal,—comprising an area of 13,433 $\frac{1}{4}$ acres.

The land proposed to be granted in exchange consists of portions No. 65, parish of Worobyan; No. 51 and reserve 789, parish South Moulamein; No. 31, parish Boyd; 27, 28, part of reserve 747, and the vacant land (about 240 acres) south of portions 1 and 2, parish of Nyang; portions Nos. 26, 25, 8, 9, and 17, parish of Barrabu; portions 6, 8, 11, area (about 300 acres) south of portion 11; reserves 746 and 746B, parish of Balpool and part (about 5,400 acres) of reserve No. 3,262, parishes of Yabadal and Balpool;—to embrace, in the aggregate, an area of 13,433 $\frac{1}{4}$ acres.

The tracing accompanying my former report (No. 93-98) is again used to show the position of improvements, to illustrate the situation of subject lands, and character of country comprising them; and I also enclose two schedules, setting forth nature and value of improvements on the respective lands, also a detailed description of the country.

I inspected the areas that were not included in the former proposals on the 3rd and 4th July last, and also availed myself of the opportunity of a further inspection (of a cursory nature) of the lands previously reported upon.

The land offered in surrender is of a good grazing order, and embraces about 1,750 acres suitable for the cultivation of cereals. It is well watered by the Edward and Niemur Rivers, and by several creeks, viz., Murrain Yarrein, Jawbone, Gum, &c., that are fed by these streams, with the exception of a small area of flooded box within portions 2 and 19, parish Barrabu. The country in vicinity of the Edward River, and to the Jawbone Creek, is generally high and level and above flood. Portion 32, part of 33, part of 14, parish Nyang, portions 8 to 12 inclusive, parish Boyd, and portion 16, parish Yabadal, are more or less subject to inundation at an ordinary annual flood.

The land proposed to be exchanged is chiefly open country, with belts of box timber, and scattered pine, willow and ti-tree, is occasionally met with. There is a fair area of flood box and gum within the part comprised by reserve 3,262. Part of portion 11, and the area south of it, parish Balpool, is subject to inundation, but generally there is less flood country than embraced by the "surrender lands"; but there is also less agricultural land (by about 150 acres). This country is generally well watered by natural streams, viz., Edward River, Murrain Yarrein, Jawbone Creeks, &c.

I estimate the value of these lands to be equal, viz., one pound fourteen shillings (£1 14s.) per acre. I am of the opinion that the reserves affected by this proposal can be revoked without prejudice to the public estate.

I am of the opinion that the granting of this exchange will tend to the consolidation of Crown lands and freehold; but I consider it very objectionable to accept the surrender of portion No. 1, parish of Nyang, as it would create an isolated block of Crown lands, and I therefore recommend that it should be struck out of the proposal. I also consider that it is not desirable to at present alienate the part applied for in reserve No. 747, as the whole of this frontage should only be alienated in conjunction with the Crown lands at the back. I would also point out that the granting of this exchange will create the severance of about 1,000 acres of land suitable for settlement, which has frontage to the Edward River and in locality of water reserve 745, as, except this area, the Crown lands that would be left in this vicinity are composed of flooded gum-forests and are unfit for settlement in small holdings. I may add that though this proposal tends to consolidation, chiefly in the applicant's interests, I consider it desirable that one of a more favourable nature should endeavour to be arranged.

Improvements.—With reference to those on the "surrender lands," the tanks on portions 1, 2, 4, 5, 6, and 23, parish Barrabu, are valueless; the first five-mentioned ones, on account of their close proximity to naturally permanent water, and the tank on portion No. 23 is also on a bad site, and is in vicinity of a fairly permanent water-hole in the Deep Creek. With regard to those on the Crown lands, I beg to draw attention to my remarks in my letter, No. 95-72, referring to tank on portion 51, parish South Moulamein; and the same circumstances with regard to tank on portion 11, parish Balpool, also apply, owing to the existence of the Jawbone Creek in its neighbourhood. My remarks *re* date of improvements, in letter No. 95-72, also apply to this case. I find it a difficult matter to estimate area of ringbarking on unmeasured Crown lands, and consider a more reliable estimate can be formed when survey of the land is made.

Disposal of land.—Where practicable, I am inclined to favour the system of settlement leases for disposal of surrender land and adjoining Crown lands; but, no doubt, this question can be better dealt with at a later stage.

Time occupied in dealing with this report, five and a half days—viz.,—one day travelling, two days in field, two and a half days in office.

I have, &c.,

J. BROUGHTON,
Surveyor.

See covering report of even date.—W. G. WALKER, District Surveyor (*per* J.G.F.), 16 October, 1896.

[Enclosure.]

SCHEDULE "C."—Nyang Exchange.

LANDS within Nyang Holding proposed to be surrendered under the 47th section of the Crown Lands Act of 1895.

Portion.	Parish.	Area.	Improvements.	Value.	Character of Country.	
12	Nyang	320	Ringbarking	£ 5 0 0	About two-thirds forest country. Timber: box, dogwood, pine, and ti-tree; the rest of the land is open plain. Soils: sandy loam, red and grey clays. About 800 acres (within portions 21, 22, 25 and 26) are suitable for agriculture. It is all first-class grazing land; there is a fair water supply in the Murrain Yarrein Creek, which intersects portions 18, 23, 24 and 25.

With my letter No. 96-27, of the 1st September, to the District Surveyor at Hay.—J. BROUGHTON, Surveyor.

SCHEDULE "D."—Nyang Exchange.

LANDS within Nyang holding proposed to be exchanged under the 47th section of the Crown Lands Act of 1895.

Portion.	Parish.	Area.	Improvements.	Value.	Character of Country.
65	Worobyan..	acres. 320½	Nil.....	£ s. d.	Open sand hill and box forest; embraces part of an open lagoon; good water supply; partly suit- able for agriculture.
51	Moulamein South.	170	Tank, 1,230 yards, at 5d. per yard (doubtful serviceable)	25 12 6 (Crown)	Open box forest; good grazing land; grey clay soil; fair water supply.
31	Boyd.....	310	Nil.....	Box forest, interspersed with small plains; soil, red and grey loam.
Reserve 789	Moulamein South.	About 640	Fencing, 1 mile, at £8	8 0 0 (Crown)	Chiefly open, high, sandy and red- soil rise, gently undulating, and there is a small proportion of box forest at north-west corner. Embraces Lake Agnes.
27	Nyang	122	Nil.....	Open country and box forest; grey clay and loamy soils; partly suitable for agriculture; good grazing land; frontage to Edward River. Permanent water supply.
8	„	196	Fencing, 20 chains, at £16 per mile. Ringbarking, 100 acres, at 8d. per acre.	4 0 0 3 6 8	
Part of reserve 747	„	About 320	Fence, 1 mile, at £12 per mile. Ringbarking, 200 acres, at 9d. per acre, £7 10s. 19 10 0 (Crown)	Open forest and plain; good sandy loam and clay soil; partly suitable for agriculture.
Part of south of 1 and 2.	„	About 160	Fencing and ringbarking (can be better ascertained after survey).	Open box forest and plain; loamy and clay soils.
26	Barrabu ...	57	Nil.....	Frontage to Edward River (per- manent water supply); loamy soil and grey clay. Plain coun- try, with scattered box and stunted gum in vicinity of river; partly suitable for agriculture.
25	„	70	Nil.....	
8	„	191	Old yards	5 0 0	
9	„	364½	Nil.....	Open box forest and plain, with sandy rise, lightly timbered with pine and box; soils, sandy loam and grey and red clay; partly suitable for agriculture; good grazing country.
17	„	160	Yards and hut (valueless).....	
6	Balpool..	461½	Nil.....	
8	„	434	Nil.....	
11	„	640	Ringbarking, 200 acres, at 6d. per acre, £5. Tank, 2,000 yards, at 3d. £25.	30 0 0	Box forest, subject to flood, and high loamy plain, partly suit- able for agriculture.
Area south of 11.	„	About 300	Fence, 115 chains, at £16 per mile (half value), £11 10s. Ringbarking, 240 acres, at 6d. per acre, £6. 17 10 0*	Chiefly flooded box forest; grey clay soil.
Reserve 746, and part of forest re- serve 3,262.	„	8,562	Fence, about 2 miles, at £10, £20. About 3 miles at £16 (half value), £24, and about 3½ miles at £16 (half value), £28. Ringbarking approxi- mately about 3,000 acres, worth about 6d. per acre, £75.	147 0 0 (of which the ringbarking £75, is the Crown's).	Chiefly open country, with belts of box, pine, willow, oak, and ti-tree, and a small proportion of flooded box and gum; soils, sandy and grey loam, red, grey and black clays. Permanent water supply in Edward River.
		13,433¼		259 19 2	To which is to be added the value of ringbarking on about 160 acres lying to south of portions 1 and 2, parish Nyang.

* As to value of fencing, see reply to memo. with papers.

With my letter, No. 9,627, of 1st September, to the District Surveyor at Hay.—J. BROUGHTON, Surveyor.

No. 45.

The District Surveyor, Hay, to The Chairman, Local Land Board, Hay.

REPORT, Nyang Exchange.

16 October, 1896.

THE above proposal is for the surrender of about 13,500 acres of land on Nyang holding in exchange for an equal area of Crown lands on that holding, and has been approved by the Secretary for Lands, subject to the report of the Land Board—*vide* papers Alienation 95-10,569 enclosed.

The several parcels of land embraced within the proposal are indicated by red and blue hatched edgings on lithograph "X" (exhibited at Crown Land Agent's Office, Deniliquin), and by large red and blue crosses on tracing "B" enclosed, upon which tracing is indicated the position of improvements and the character of the country.

Schedules "C" and "D" are also enclosed, which give full particulars of each portion of land, its area, nature, and value of improvements and character of country.

Mr. Broughton states that the lands offered in surrender and those sought in exchange are of about equal value, viz., £1 14s. per acre; the lands offered in surrender, however, contain a larger proportion of flooded land. The improvements on the surrender lands are valued at £856 5s. 1d., viz.:—Hut, £15; yards, £42; fencing, £436 4s.; tanks, £139 12s. 9d.; ringbarking, £203 8s. 4d.; well, £20. Of these the hut, yards, and fencing, valued at £493 4s., may be classed as removable, thus leaving only improvements, valued at £363 1s. 1d., to be relinquished to the Crown in accordance with the terms of the Ministerial decision on papers, Alienation 95-10,569 enclosed, before referred to, and agreed to by the applicant on papers, Alienation 95-11,244, also enclosed.

The improvements on the land sought amount to £259 19s. 2d. (plus value of ringbarking on 160 acres—see Schedule D), of which those on portion 51 and reserve 789, parish Moulamein South, reserve 747, parish Nyang, and the ringbarking on forest reserve 3,262, parish Balpool, in all amounting to £158 2s. 6d., are either the property of the Crown or will become so on the revocation of the covering reserves.

Although the proposal tends to the consolidation of the freehold lands, and the lands sought and those offered in surrender are of equal value, apparently the advantages are mostly in favour of the applicant.

The present proposal will leave about 5,000 acres of Crown lands comprised within forest reserve No. 3,262 at the eastern extremity of the holding. Of these 5,000 acres, only about 1,000 acres are suitable for settlement by small holders, the balance being flooded gum forest country, which could only be worked advantageously in conjunction with high and dry ground; evidently the best part of forest reserve 3,262 within this holding is embraced within the land sought to be acquired under this exchange.

I concur with Mr. Broughton that it is undesirable to accept the surrender of portion 1, parish Nyang 320 acres, although, if the circumstances warranted it, it could be added to travelling stock reserve 17,581 adjoining, and would perhaps be useful in connection with a crossing from the main road on Woorooma holding, on the north side of the Edward River.

No part of water reserve 747 should be exchanged, but should be retained, as suggested by Mr. Broughton, for settlement in connection with the vacant Crown lands to the south of it.

It is pointed out that an exchange on this holding was previously considered by the Board, viz., on the 11th September, 1895—*vide* papers L.B. 95-4,217 enclosed; and the subject application is the outcome of an interview between the Secretary for Lands and the pastoral lessee, in which a modification suggested by Mr. Surveyor Broughton in his report, L.B. 95-3,617, was considered.

In view of all the circumstances, the Crown has little to gain by the exchange as provisionally approved by the Minister, and it is considered that a more favourable scheme in the interests of the Crown might be arranged.

The additional costs amount to £18 12s. 6d., viz.:—Issue of instructions, 5s.; Surveyor's inspection and report, £17 6s. 6d.; this report, £1 1s.

W. G. WALKER,
District Surveyor
(*per* J.G.F.).

No. 46.

Decision of Local Land Board.

Crown Lands Act of 1884—(Part II., Section 14, Sub-section 4).

Decision of Local Land Board.

New South Wales }
to wit.

WHEREAS on the 25th and 26th days of November 1896, it became a matter for investigation before us whether the application for a surrender and exchange of lands by Simon Fraser within "Nyang" pastoral holding should be recommended or otherwise; and having taken evidence and inquired before us into the said matter, we find and report to the Honorable the Minister for Lands, that the present proposal does not sufficiently tend to consolidate the freehold lands of the applicant; and, further, that an undue proportion of Edward River frontage lands are applied for by the applicant.

We find that the cost incurred in dealing with the case is £21 15s. 6d.

Given under our hands, at the Board-room, at Deniliquin, in the Colony of New South Wales, this 26th day of November, 1896.

FRED. TROLLOPE, Chairman.
D. TENNANT, }
CHARLES OPITZ, } Members.
[Enclosure.]

[Enclosure.]

John Broughton, on oath, states: I am a Staff Surveyor, residing at Deniliquin; I know the lands in the proposal for surrender and exchange of lands within Nyang pastoral holding, as shown on tracing "B"; the lands proposed to be surrendered are shown on tracing "B" by red crossed lines, and those sought in exchange by blue crossed lines on tracing; the land offered in surrender is of good grazing order and embraces about 1,750 acres of land suitable for cultivation of cereals; it is well watered by the Edward and Niemur Rivers also by several creeks that are fed by these streams; with the exception of a small area flooded box, portions 2 and 19, parish of Barrabu, the country in the vicinity of the Edward River, and to the Jawbone Creek is generally high and above flood; portions 32, part of 33, part of 14, parish of Nyang, portions 8 to 12, Boyd, portion 16, parish of Yacabal, are more or less subject to inundation at an ordinary annual flood; the country sought in exchange is chiefly open belts of box timber and scattered pine, willow and ti-tree being occasionally met with; there is a fair area of flooded box and gum within reserve 3,262; part of portion 11 and the area south of it in the parish of Balpool is subject to inundation, but, generally, there is less flooded land than in the surrendered land; there is also 150 acres of less agricultural country; this country is generally well watered by natural water in the Edward River, Murrain Yarrein Creek, and Jawbone Creek; I estimate the value of the respective lands as equal, viz., £1 14s. per acre; it is objectionable to accept the surrender of portion No. 1, parish of Nyang, as it will create an isolated portion of Crown lands, and it is not desirable to at present alienate the part applied for within reserve 747, as this frontage should only be alienated in conjunction with the Crown lands at the back; the granting of the application in its present form will also create the severance of about 1,000 acres of land suitable for settlement which has frontage to the Edward River in vicinity of reserve 745; but this difficulty will be got over by the further surrender of portions 58, 59, 60, and 61, parish of Worobyan and the exclusion of reserves 789 and 1,906 from the lands sought in exchange.

Mr. Lakeman: There is a creek at the back of reserve 747, and to the best of my belief only one permanent water-hole; there is a creek running through portions 13, 14, and 15, parish of Balpool; this does not sufficiently water the land; the portions are also too remote from other Crown lands.

J. BROUGHTON.

Sworn before the Land Board, at the Board-room at }
Deniliquin, this 25th day of November, 1896,— }

FRED. TROLLOPE, Chairman.
D. TENNANT, }
CHARLES OPITZ, } Members.

Simon Fraser, on oath, states:—I am the owner of Nyang pastoral holding and the applicant for the proposed surrender and exchange of land; I am willing to have water reserves 789 and 1,906 excised from the present proposal, and I am also willing to surrender portions 58, 59, 60, and 61, parish of Worobyan, and to take that area east of the dotted line shown on tracing; I am also willing to retain portion 1, parish of Nyang.

CHARLES OPITZ, } Members.

Thomas Shaw Armstrong, on oath, states:—I am Manager of Nyang pastoral holding; I know the portion of reserve 747 sought in exchange; the reason I ask that this be given, it is a stud paddock at present, and securely fenced; the Crown lands on reserve 747 and portions 10 and 11 are watered by a creek with permanent waterholes in it; there is a chain of waterholes in the creek at present time at the south-west of the reserve named.

T. S. ARMSTRONG.

Sworn before the Land Board, at the Board-room at }
Deniliquin, this 25th day of November, 1896,— }

FRED. TROLLOPE, Chairman.
D. TENNANT, }
CHARLES OPITZ, } Members.

John Broughton, recalled, states:—*By Mr. Lakeman*: If the proposal is carried out it will tend to consolidate the holding; there is not sufficient land on either side to consolidate in one block.

By the Board: If the proposal is carried out minus portion 1, parish of Nyang, and without considering the land in reserve 747, the holder would receive about 6 miles of Edward River frontage and the Crown 3 miles; the Crown would also receive about 1½ mile of frontage to Niemur River; of the 6 miles of frontage to the Edward River, about 1½ mile not of good quality, on account of its flooded nature, being timbered with box and flooded gum.

J. BROUGHTON.

No. 47.

The Honorable S. Fraser, Esq., to The Secretary for Lands.

Re Nyang Exchange.

Sir,

454, Collins-street, Melbourne.

I am willing to modify my application of 10th December, 1895, in the following manner, viz.:—

1. To waive my right of application for half frontage of reserve 747 ... 40 chains
2. To give up portion 9, parish Nyang 25 "
3. To give up portion 10, parish of Nyang.
4. To waive my right of application for portion 8, parish Nyang ... 35 "

Memo.—As I am the owner of adjoining freehold of this small block, I consider that it is almost equal to a frontage.

I am also willing to give up portions 58, 59, 60, and 61, parish of Worobyan—these at the desire of Mr. Broughton (as I am told).

The above portions, being near to township of Moulamein, and a navigable river, are especially valuable to selectors. Their produce can be sent to Echuca or Hay by river at low rates of freight, whereas the bulk of the lands I am getting from the Crown are not on a navigable river, and distant from railway communication.

Roughly speaking, I am applying for 5 miles Edward River frontage, which is not navigable, for exchange of about 5 miles and 40 chains, which, with the exception of Niemur frontage (1 mile 60 chains), is navigable frontage; and on that account, and proximity to railway, the whole of the lands I am yielding are more valuable to settlers than lands I am receiving. The advantage to me is the consolidation.

The

The Crown is also receiving valuable improvements, which, I am satisfied, incoming selectors will be quite willing to pay for. I forgot to mention that I would expect the western portion of reserve 2,880 on the road from Moulamein to Moama, which will give me a connection to my Nyang homestead freehold of 15 acres. I believe there is no departmental objection to this. It is very awkward for me to work my property without this connection.

I have, &c.,

SIMON FRASER.

P.S.—Were I to give up my freehold in Nyang, I would be obliged to build another woolshed, and to abandon my stud paddocks, drafting-yards, and first-class cultivation paddock, which, in a dry season, I intend to irrigate. My sheep would have to travel 14 miles through lanes to be shorn.—S.F.

Forwarded to the District Surveyor for early report as to the merits of the modifications lately suggested by the pastoral lessee. It should be ascertained from Mr. Broughton whether the acquisition of portions 58 to 61, and the retention of 65, parish Worobyan, would serve public interests to any extent, as it is observed that all the surrounding lands are already alienated. The District Surveyor should also report whether any objections exist to the alienation of reserve 2,880, which includes part of the Moulamein South suburban lands. As the Minister wishes this matter to be dealt with as soon as possible, the report should be furnished at the earliest date possible.—C.J.S. (for the Under Secretary), 21/12/96. The District Surveyor, Hay.

Forwarded to Mr. Broughton for immediate report.—W. G. WALKER, District Surveyor, 24/12/96. Mr. Surveyor Broughton. To the District Surveyor at Hay with my letter No. 71 of 28/12/96.—J. BROUGHTON, Surveyor.

[Enclosure.]

Re Nyang Exchange.

Dear Mr. Saunders,
I stated at Land Board, Deniliquin, that I waived my claim for water reserve 789 (Lake Agnes), and also the lake on portion parish Worobyan, of 408 acres. Will you be good enough to convey this information to your Minister for Lands, as I omitted to state it in my letter of yesterday to the Honorable J. H. Carruthers, modifying my proposal.

Yours truly,

SIMON FRASER.

No. 48.

Mr. Surveyor Broughton to The District Surveyor, Hay.

Surveyor Broughton to the District Surveyor at Hay, reporting on Nyang Exchange, Deniliquin and Balranald South Land Districts.

Sir,

Deniliquin, 28 December, 1896.

In accordance with your instructions No. 140 of the 24th instant, I have the honor to submit the following report on the proposed modification by the pastoral lessee of the Nyang exchange, as dealt with by the Local Land Board on the 26th ultimo, viz., the further surrender of portions 58 to 61 parish of Worobyan, and portions Nos. 9 and 10, parish of Nyang, and the excision of the frontage part of reserve No. 747, portion No. 8, parish of Nyang, reserve No. 789, parish of Moulamein, and portion No. 65, parish of Worobyan, from the land sought in exchange; also to include that part of reserve No. 2,880, parish Moulamein, on the west side of Moulamein-Moama Road, in the exchange. This course will have the effect of increasing the area of surrender lands by about 2,600 acres, which I presume is to be compensated for by the inclusion, in the exchange of the area of available land in the parish of Yadaba, which is referred to in the 10th paragraph of my report, No. 9,627, as being severed by the proposal; and my further adjustment I now recommend be made by the addition of that part of forest reserve 2,125. Forest reserve 2,125 and water reserve No. 748, and extension lying between portion No. 12 and conditional lease 2,908, parish Balpool. However, in view of the proximity of reserve No. 2,880 to the town of Moulamein, which at present has comparatively a limited area of Crown land about it, it appears to me to be impolitic to alienate, in one interest, such an extensive area—viz., about 600 acres—as though at present it is not required for any extension or convenience of the town, the fact of Moulamein being one of the remote centres of settlement and a port of shipment during the annual rise in the Edward River, there is not any doubt but that in the near future it will be required for urban settlement, and I may add that the character of this land, together with the advantage of a frontage to a permanent watercourse, affords facilities for irrigation. Furthermore, I may state that the town of Moulamein has made fair progress during the last few years.

Portions Nos. 59 to 61, together with portion No. 65, parish Worobyan, aggregate an area of 1,724½ acres, which partly lies into a group of selectors. It embraces about 220 acres of agricultural country (in scattered patches), and is generally of a good grazing order. Its situation, with regard to Moulamein, gives it a better advantage for settlement than the land at the east of the holding, and I consider that, chiefly in view of this advantage, it would be readily selected in two blocks of equal area.

Water reserve No. 789 would be taken up by either of the adjoining selectors—Broad or McCannon—whose holdings at present are somewhat limited.

As the exchange now stands, viz., with the modifications proposed by lessee and amendment and adjustments recommended by me, I am of opinion that there is not any difference in the value of the respective lands, but there is still the want of consolidation by the exclusion of the freehold—viz., portions 1 to 6 and 11, parish Nyang—from the exchange, as taken exception to by the Board; and I may point out that, with regard to Mr. Fraser's remarks, and also noting in red on tracing "B" re homestead and woolshed on these lands, that the only improvements that now exist are fencing, ringbarking, small yards, and boundary-rider's hut; and I am aware that the homestead, shown as being on portion No. 1, parish Nyang (and also, I think, the woolshed, on portion 2), was destroyed by fire about six years ago; and I have reasonable grounds for believing that all the sheep on Nyang are shorn at the woolshed which is situated on portion 15, parish Moulamein South, and I am not aware of any strong reason why this land should not be included in the exchange.

With

With regard to the remarks of Mr. Fraser, *re* navigation of Edward River, it is pointed out that this watercourse was recently surveyed for a considerable distance, and it can now be, and is, navigated by steamers and wool-barges up to the vicinity of portion 4, parish Balpool, during the usual annual flood.

My report on lands not formerly dealt with is made from my local knowledge, which is a good one, as at this stage I did not deem another inspection necessary.

I have, &c.,

J. BROUGHTON.

"Exchange," Nyang.—Upon this report I am of the opinion that the modification submitted by Mr. Fraser is more advantageous to the Crown than the previous proposal, with the exception that no part of reserve 2,880 should be alienated except for small settlement. With respect to the acquisition by the Crown of portions 58 to 61, and the retention of portion 65, parish of Worobyan, public interests would not be served to any great extent, as the area is capable of supporting only two settlers, and there is the risk of adjoining settlers spoiling the area for independent settlement by making additions to their conditional purchases. By the modified proposal, but excluding reserve 2,880, about 2,600 acres will require to be added to the lands sought in exchange, and this addition should be made at the eastern end of the holding, in the vicinity of water reserve 745, in the locality marked "A" on tracing "B." It would be greatly to the advantage of the Crown to secure the surrender of portions 1 to 6 and 11, parish of Nyang. The woolshed and homestead have been removed from these portions, and the sheep are shorn on portion 15, parish of Moulamein South, so that there is no force in the reasons advanced in the postscript to Mr. Fraser's letter.—W. G. WALKER, District Surveyor, 29/12/96. The Under Secretary for Lands.

No. 49.

Office Memorandum.

[Honorable Simon Fraser's exchange proposals. Asked for by the Minister.]

3 February, 1897.

MR. FRASER'S modification of the Departmental suggestion, made 21/12/96, does not meet with the approval of the local officers.

The principal point of difference is the question of the lessee surrendering the balance of his Nyang frontage lands.

The papers will be submitted to-morrow.

C. J. SAUNDERS.

Submitted.—W. HOUSTON, 4/2/97.

No. 50.

Office Memorandum.

[Nyang Exchange.]

Department of Lands, 4 February, 1897.

SEVERAL proposals have been made, both by the Department and the pastoral lessee, but a mutually satisfactory scheme could not be arrived at. Eventually applicant interviewed the Minister, and a proposition, affecting the areas indicated on tracing "B" by large red and blue crosses, was made and referred to the Local Land Board for inquiry and report.

The Board having investigated this matter, report that the present proposal does not sufficiently tend to consolidate the freehold lands of the applicant; and, further, that an undue proportion of Edward River frontage lands are applied for.

A careful inspection of the affected lands has been made by Mr. Surveyor Broughton, who reports their value to be equal, *viz.*, 34s. per acre. Generally there is less flood country on the land sought in exchange, but the surrender portions contain more land suitable for agriculture.

The surrender land is of a good grazing order, and embraces about 1,750 acres, suitable for the cultivation of cereals; it is naturally well watered, and with the exception of a small area within portions 2 and 19, parish Barrabu, the country in the vicinity of the Edward River and to the Jawbone Creek is generally high and level. Portions 32, and a part of 33, parish Nyang, 8 to 12, parish Boyd, and 16, parish Yadabal, are more or less subject to inundation at an ordinary annual flood.

The exchange area is chiefly open country with belts of timber, &c., and is generally well watered.

Mr. Broughton regards it as objectionable to accept the surrender of portion 1, parish Nyang, and also to grant any part of reserve 747; also, that the granting of the land in parish Yadabal, in the vicinity of reserve 745, would leave the rest of the Crown lands in that locality unfit for small settlement, the bulk of the land remaining being composed of flooded gum forests, which could only be worked advantageously in conjunction with high and dry ground.

Subsequently, at the Board's inquiry, Mr. Broughton states that this last objection might be overcome by the surrender of portions 58 to 61, parish Worobyan, and the elimination from the scheme of reserves 789 and 1,906, the intention no doubt being that the flood country in parish of Yadabal should be absorbed by the station in exchange for these additional areas.

The station-holder has already intimated his willingness to agree with these modifications.

Since the receipt of the Board's report, the pastoral lessee has, in answer to a verbal offer made to him by the Department, confirmed the arrangement referred to in the preceding paragraphs, and has also agreed to surrender portions 9 and 10, parish of Nyang, and to the elimination of reserve 747 and portion 8, same parish, but he wishes the western part of reserve 2,880 to be granted to him. In a postscript he also states that should he agree to give up all his freeholds in parish Nyang, it would be necessary to build another woolshed, and to abandon his stud paddocks, drafting-yards, and cultivation paddock.

A further report has been obtained from the District Surveyor, who is of opinion that the modification submitted by Mr. Fraser is more advantageous to the Crown than the previous proposal, with the exception that no part of reserve 2,880 should be alienated except for small settlement in connection with village of Moulamein adjoining. No special advantage would, however, be obtained by the acquisition and retention respectively of the lands in parish Worobyan, as only two settlers could be accommodated, and there is a risk of the adjoining selectors spoiling the area for independent settlement.

Regarding

Regarding the station portions in parish Nyang, the District Surveyor reports that it would be greatly to the advantage of the Crown to secure portions 1 to 6 and 11, and that owing to the removal of the woolshed and homestead from these lands no strong reason exists why this small isolated block of station property should not be included in the exchange.

As the inclusion of this block would to a great extent remove the Board's objections to the scheme, it is submitted applicant be informed that in view of the Board's adverse recommendation, and of the District Surveyor's report, that the improvements on this isolated block are not of any importance, their relinquishment must be insisted on; also, that no part of reserve 2,880 can be included in the exchange.
C. J. SAUNDERS.

The above recommendation is submitted for adoption. The report of Mr. Surveyor Broughton is comprehensive, and throws considerable light on that feature of the exchange having reference to the surrender of portions in the parish of Nyang.—WM. HOUSTON, Under Secretary, 6/2/97.

The Minister desires that Mr. Broughton's objection to Mr. Fraser's scheme be intimated to the latter, who is at the same time to be asked whether he is willing to surrender portion 11, Nyang, in addition to the other portions specified in his letter of the — December last.—W.H., 8/2/97.

Mr. Fraser may be informed of the substance of the report, and requested to give up portion 11, in which case the proposals will be finally dealt with.—J.H.C., 8/2/97. Honorable Simon Fraser informed, 10/2/97.

No. 51.

Mr. G. McCannon to The Under Secretary for Lands.

Sir,

South Moulamein, 22 February, 1897.

When it was published in the *Gazette* that the owner of Nyang holding, near Moulamein, was endeavouring to exchange some lands with the Government, I inquired at Balranald if the water reserve known as Lake Agnes, near Moulamein, was included in the exchange, and I was informed as far as they knew it was not; and as the land was situated in that district I felt at ease about it, though I have been informed since—though whether rightly or wrongly, I do not know—that it was, and I feel very anxious in consequence; for if the exchange is effected, and the reserve pass from the Crown to the station, it will crush me out altogether, and it will likewise affect others.

It is the only place to water our stock in the summer months, and in time of flood it is the only outlet we have along the margin of the lake.

Trusting you will excuse me for trespassing on your time.

The case is so serious with me that I feel very uneasy; and if you would let me know by return of post, I will be very thankful to you.

Yours, &c.,

GEORGE McCANNON.

Pending receipt of Mr. Fraser's reply, the Department is scarcely in a position to give the information asked for. Applicant might, however, be informed that the matter of effecting an exchange on Nyang holding is still under consideration, and that it is unlikely reserve 789, which includes Lake Agnes, will be affected.—R.M., 2/3/97. Mr. Bronsdon.

Inform writer, and remind Mr. Fraser as to letter, 10/2/97.—E.A.B. (for U.S.), 8/3/97. Mr. George McCannon informed, 8/3/97. Honorable Simon Fraser reminded, 8/3/97.

No. 52.

The Under Secretary for Lands to Mr. G. McCannon.

Sir,

Department of Lands, 8 March, 1897.

In reply to your letter of 22nd ultimo, I have the honor to inform you that the matter of effecting an exchange on Nyang holding is still under consideration; but it is unlikely reserve 789, which includes Lake Agnes, will be affected.

I have, &c.,

WM. HOUSTON,

Under Secretary.

No. 53.

The Honorable S. Fraser, Esq., to The Under Secretary for Lands.

Sir,

454, Collins-street, West, Melbourne, 15 March, 1897.

In reply to yours of the 10th February (Alienation 97-1,553) and March 8th (Alienation 97-2,305), I beg to say that I wish to amend my proposal as follows (schedule herewith), from which you will see that I agree to surrender portion 11, Nyang, and do not insist on the Department taking portions 58, 59, 60, and 51, parish Worobyan.

I cannot possibly surrender portions, 1, 2, 3, 4, 5, 6, parish Nyang, as I must have a depôt for my sheep coming from the east end of my run to shed for shearing. They will have to travel 15 miles, 13 of which will be through selections (as no doubt the surrendered land will be selected). A camping place half-way is therefore absolutely necessary, as otherwise I would have to build another shed at east end of my run, which would be expensive, and the property which is now managed as one would require to be managed separately.

You will kindly note that I agree to a north and south adjusting line somewhere between water reserves 744 and 745, parish Yadabal, which means that I will have to accept some lands that are subject to annual inundation, and are therefore not of much value; also, that I do not ask the Department to take portions 1 and 16, parish Yadabal, which are also subject to annual inundation.

Very pressing business prevented me from giving this matter the attention I would have liked.

I have, &c.,

SIMON FRASER.

[Enclosure,]

No. 55.

Office Memorandum.

Nyang Exchange.

Department of Lands, 27 March, 1897.

MR. FRASER'S letter is submitted in connection with report, Alienation 97-1,539, and decision of 6/2/97 on Alienation 97-1,553.

Mr. Fraser has now intimated his willingness to surrender portion 11, parish Nyang, but has also suggested a few further modifications of the scheme previously made by him, the chief being that he does not now wish to surrender portions 58 to 61, parish Worobyan, 1 and 16, parish of Yadabal, but seeks to acquire portion 65, parish of Worobyan, and reserve 789, parish Moulamein South. He also offers to surrender the parts of portion 26, 36, and 38, parish Boyd, situated south-westerly of the Moulamein-Moama Road.

Regarding these further alterations, there would apparently not be any objection to their adoption, except with regard to the alienation of reserve 789 (which includes Lake Agnes), as, on Alienation 97-2,305, it has been pointed out by George McCannon that the granting of this land to the station would prejudice the interests of the adjoining selectors.

Provided this area be omitted, the exchange as suggested by Mr. Fraser would then take the form indicated by broken hatchings on tracing "B."

Should the matter be entertained in this form, it will be necessary to reverse the previous refusals, inform applicant of the decision, and that such approval is subject to the usual relinquishment of improvements on the portions for surrender, and to obtain payment of £257 6s. 6d., being the amount estimated to cover all the costs already and still to be incurred in dealing with the case.

C. E. RENNIE,

Chief Draftsman.

The effect of the latest proposal is effectively shown upon the tracing herewith. A letter has recently been received from G. McCannon, asking that reserve No. 789 be not alienated to the pastoral lessee. It is now submitted whether the exchange is to be proceeded with on the lines above indicated, which will involve the formal action in respect of previous decisions referred to above.—W. Housron, 1/4/97.

May proceed on the lines indicated.—J.H.C., 5/4/97.

Department of Lands, Office Memorandum.—A sketch is enclosed for applicant's information, showing the proposal as now finally approved by the Minister, subject to the adjustment of areas in survey. The deeds for the following portions might now be called for:—8 to 12, 26, 34, 36, 38, 39, and 41, parish Boyd; 9 to 26, parish Nyang; 1 to 6, 14, 15, 19 to 21, 23, parish Barrabu; and applicant should also be asked whether he intends converting portions 32 and 33, parish Nyang, into freeholds.—R.M., 8/4/97. Mr. Bronsdon.

Honorable Simon Fraser and Treasury informed, 9/4/97.

No. 56.

The Honorable S. Fraser, Esq., to The Under Secretary for Lands.

Re Nyang Exchange.

Sir,

21 April, 1897.

In reply to yours of 9th April, I beg to say that I agree to the exclusion of reserve 789, and also to the adjustment of areas in survey.

I am willing to relinquish all claim to the irremovable improvements, *i.e.*, that I am allowed to remove fencing and huts and cattle and sheep yards.

On my return to Melbourne, I will forward bank draft for £257 6s. 6d. to your Treasury.

I have, &c.,

SIMON FRASER.

Await payment of fees.—G.H., 27/4/97.

No. 57.

The Honorable S. Fraser, Esq., to The Under Secretary for Lands.

Sir,

454, Collins-street West, Melbourne, 29 April, 1897.

I now enclose my cheque on the London Bank for £257 6s. 6d., with exchange for 6s. 6d. added, making full amount of cheque, £257 13s.

It is not my intention to convert portions 32 and 33, parish Nyang, into freehold.

I hope to be in Sydney on Thursday, 6th of May, when I will deliver my deeds for portions to be surrendered.

Yours, &c.,

SIMON FRASER.

Memo.—The sum of £257 6s. 6d. was credited this day for further costs in connection with exchange of land on "Nyang."—S.R.C. (for U.S.), the Treasury, B.C., 1/5/97. The Under Secretary for Lands.

No. 58.

Messrs. Johnson, Minter, Simpson, & Co. to The Under Secretary for Lands.

Exchange, Nyang No. 108, Central.

Sir,

Norwich Chambers, Hunter-street, Sydney, 6 May, 1897.

Referring to your letter of the 9th April to the Honorable Simon Fraser, we have the honor to enclose herewith certificates of title, volume 1,069, folio 99, and volume 1,193, folio 161, which comprise all the portions mentioned in your letter, except portions 26 and 34, parish of Boyd, the deeds of which will be forwarded shortly.

We have, &c.,

JOHNSON, MINTER, SIMPSON, & CO.

The

The certificates of title referred to are with me. The Honorable Simon Fraser is the registered proprietor of the lands comprised therein.—F. McK., 8/5/97.

Forwarded to the District Surveyor for the measurement of areas equal to the areas of the conditional purchase and freehold lands for surrender, respectively; for statement of costs incurred, including the cost of Mr. Surveyor Broughton's attendance at the Board meetings—Occupation 95—11,645 and Alienation 96—1,301; and the District Surveyor and Mr. Broughton's reports—Alienation 95—8,995 and 96—14,354; also of survey (adjoining lands, whether previously measured or unmeasured, being for this purpose treated as one portion); and for the usual final report covering disposal of the portions for surrender.—C.J.S. (for the Under Secretary), 20/5/97. The District Surveyor, Hay.

The Honorable Simon Fraser informed, 21/5/97.

Nyang Land Exchange.

Sir,

454, Collins-street West, Melbourne, 18 May, 1897.

I have the honor to refer to the proposed exchange on Nyang, and to inform you that my solicitors in Sydney, Messrs. Johnson, Minter, Simpson, and Company, have forwarded to your Department two consolidated certificates for the greater part of the lands to be surrendered, and are unencumbered.

The only other lands affected by the contemplated dealing are small parts from the corner of two portions, 26 and 34, parish of Boyd, which are included in a consolidated certificate of title, comprising 12,104 acres, at present subject to a mortgage to Mrs. Jane Rutherford and others. There is no difficulty in obtaining the release of the two portions from the mortgage, except that some of the mortgagees are resident in England, and the powers of attorney are not sufficient to enable the attorneys to release without payment of the mortgage moneys. Hence that part of the lands to be surrendered cannot be released from the security until the discharge has been sent to England and returned. The Crown Solicitor can, of course, see the consolidated certificate at the Registrar-General's. There will be no delay in obtaining the discharge.

I have, &c.,

SIMON FRASER.

P.S.—The deeds for two portions, 26 and 34, will be sent immediately the discharge is received from Home.—S.F.

No. 60.

The District Surveyor, Hay, to Mr. Surveyor Broughton.

Re Nyang Exchange Report.

17 July, 1897.

FORWARDED to Mr. Surveyor Broughton for the necessary survey. The freeholds to be surrendered embrace the following portions, viz.:—8, 9, 10, 11, 12, 41 Boyd; 1, 2, 3, 4, 5, 6, 19, 20, 21, 23, 14 and 15 Barabu; 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 32 and 33, parish of Nyang, or an area of 13,233 acres 3 roods, plus about 1,077 acres included within parts of portions 26, 34, 39, 36 and 38, parish of Boyd, on the south-west side of the reserved road 5 chains wide, or an area of about 14,310 acres 3 roods in all. It will, therefore, be necessary to determine the exact area, in the first instance, of the block supposed to contain 1,077 acres. As it is very safe to infer that this exchange will now be completed, this area should be measured as one portion; but I am of the opinion that the road between part of portions 38 and 39 should be included in the area. No. "82" should be adopted as the parish number, and old marking should be obliterated.

The lands to be given in exchange comprise portions 9, 8, 25, 26 and 17, parish of Barrabu; 6, 8, 11, Balpool; 51, South Moulamein; 31, Boyd; 65, Worobyan; and 27, Nyang, or an area of 3,300½ acres, together with unmeasured lands about 255 acres, parish of Balpool, on part of the south boundary of portion 11, and parish No. 19 may be adopted in this measurement. The balance of the unmeasured lands are in the parish of Balpool and Yadabal, and comprise all the land east of portions 4, 5, 18, 8, 10 and 11, north of conditional lease 2,908, west of portions 14 and 13, and north of 13, 15 and 16, in the parish of Balpool, and north of 1 and 16 Yadabal, the easternmost boundary of the "exchange" land being very near to a line north and south in the continuation of the east boundary of reserve 745. In order to preserve a regular design of the parishes of Balpool and Yadabal, it will be necessary to divide the large area in these two parishes by a line situated near the present boundary of the parish, and No. 20 may be adopted in the parish of Balpool, and 2 in the parish of Yadabal. As the lessee has included in this exchange portions 32 and 33, Nyang, an area of 2,560 acres conditionally-purchased land, it will be necessary for Mr. Broughton to survey an area of 2,560 acres separately out of the exchange lands, which area must be equivalent in value to those portions. If in the parish of Balpool, No. "21" may be adopted, or if in Yadabal, "3" may be adopted for this measurement.

Mr. Broughton is also requested, before carrying out these surveys, to submit a design for the disposal of the surrender land.

W. G. WALKER,

District Surveyor.

No. 61.

Mr. Surveyor Broughton to The District Surveyor, Hay.

Proposed modification of Nyang Exchange,—Surveyor Broughton to the District Surveyor at Hay, submitting a proposal for modification of Nyang Exchange, Deniliquin Land District.

Sir,

Deniliquin, 11 March, 1898.

Adverting to your instructions, No. 69 of 17th July, 1897, I have the honor to report that in the course of measurement of the land to be granted by the Crown in satisfaction of the Nyang exchange, I find that the area required is not obtained in the position set forth in Ministerial design on papers

Alienation 97, 3,935; and that there is a deficiency of about 700 acres; and it is pointed out that, in view of the valuable character of the gum timber to the east of the exchange land, it is not desirable to encroach further in that direction on forest reserve No. 1,309; moreover, the south-eastern part of the portion of the exchange land in the parish of Yadabal encroaches upon a gum forest that embraces valuable timber which, in my opinion, should be retained, and under the circumstances I now submit the matter for reconsideration, and recommend that the land comprising the valuable gum timber (position of which is described on tracing V herewith) be excised out of the exchange, and that the limit of the exchange land be in the position shown on tracing by broken blue edging; and in order to adjust the area of the exchange, I submit that portion 11, parish Nyang, be retained by the applicant, that the area west of this portion and south of portions 1 and 2, together with the area edged blue on tracing, south and west of conditional lease 2,908, parish of Balpool, be added to the land to be granted in exchange. The latter country is chiefly of a flooded character and mostly of indifferent quality, and the advantage of the Niemur River frontage is greatly reduced by the last-mentioned drawback, and under the circumstances I consider that there will be practically no difference in land within this exchange, caused by the modification; moreover, the part of the Crown lands south of conditional lease 2,908, parish Balpool, is awkwardly situated for settlement and can be more advantageously disposed of in the manner recommended.

I beg to request that early action be taken in this matter as I anticipate being in the locality shortly, and if the surveys are not carried out before the annual rise in the rivers it will be impossible to complete them before the end of the year; moreover, the question of submitting design for disposal of surrender land, which I propose be made available in conjunction with Crown lands on leasehold (now expired), is dependent on this matter.

I have, &c.,

J. BROUGHTON.

Modification Nyang Exchange.—The modification suggested by Mr. Broughton is one of those matters of detail which it is almost impossible to foresee when the main question is being dealt with. I do not anticipate any objection from the lessee to the modification which offers advantages to both parties. I have, therefore, instructed Mr. Broughton to proceed with the surveys in accordance with the modifications, and in the meantime submit the matter for approval.—W. G. WALKER, District Surveyor, 15/3/98. The Under Secretary for Lands.

No. 62.

Office Memorandum.

Department of Lands, 28 March, 1898.

At a recent interview with the pastoral lessee, further modifications were suggested in connection with the adjustment of areas in the Nyang exchange case, as follows:—

Applicant asked to obtain the eastern part (about half) of water reserve 789, parish Moulamein South, with frontage to Lake Agnes.

Also travelling stock reserve 17,581, parish Nyang.

He stated his willingness to retain portion 26, parish Boyd, and 11, parish Nyang, and to secure land west of the latter portion.

He was not anxious to acquire the land lying between McCullagh's converted pre-emptive lease and the Niemur River, but would take the northern part of reserve 748, parish Balpool, with frontage to a "supposed waterhole in Jawbone Creek."

He would also take land lying between J. C. Holme's converted pre-emptive lease and the Niemur.

The granting of any part of reserve 748 seems, however, objectionable, in view of the future disposition of the adjoining Crown lands; and the District Surveyor is therefore requested to obtain Mr. Broughton's views on the other items, it being thought that should a further adjustment of areas be necessary after allowance has been made in connection with the first three items, such should be made out of the lands immediately south of McCullagh's converted pre-emptive lease.

C.J.S.

(for the Under Secretary).

Mr. Surveyor Broughton accordingly.—W. G. WALKER, District Surveyor, 30/3/98.

I am of the opinion that the amendments submitted in my letter, No. 30, of the 11th instant, are the most desirable in the public interests, for I consider that the whole of reserve No. 789 should be set apart for the purpose of allowing the settlers adjoining it an opportunity of extending their holdings, as at present their areas are limited. Travelling stock reserve 17,581 is required for public use, particularly in view of the prospective settlement on the Nyang leasehold; the granting of the north part of reserve No. 748, which is a choice piece of land, will have the effect of leaving the Crown nothing but flooded country between it and the Niemur River, which will be detrimental to the subdivisions and occupation of adjoining Crown lands. In conclusion, I may say that the granting of the applicant's request will have the effect of alienating land that is nearly all well adapted for settlement, and leaving the Crown country that can only be occupied in conjunction with high land. I beg to request that early action be taken in this matter, as my camp is about to proceed to the locality.—J. BROUGHTON, Surveyor, Deniliquin, 31/3/98.

No. 63.

Telegram from The Honorable Simon Fraser, Esq., to The Secretary for Lands.

Nyang, Moulamein, 7 April, 1898.

UNDERSTAND my proposal re exchange is objected to; be good enough defer dealing with same until receipt of letter.

SIMON FRASER.

No. 64.

35

No. 64.

The Honorable Simon Fraser, Esq., to The Secretary for Lands.

Re Nyang Exchange.

Dear Sir,

Nyang, Moulamein.

I have just sent you the following wire, viz.:—"Understand my proposal *re* exchange is objected to; be good enough to defer dealing with same until receipt of letter";—which I now confirm. If it be the case that my proposal of the 24th March last is not approved of by the Department, I beg to submit the following (which, in my opinion, will simplify the matter), viz.:—I to retain parts of portions 26, 34, 36, 38, and 39, parish of Boyd, all of which are situated west of the Moulamein and Moama stock route, area about 1,100 acres, which is about the deficiency of Crown lands required to adjust the exchange.

I may mention that these portions were only submitted, as I was led to understand there was not sufficient freehold to balance the Crown lands offered.

I have, &c.

SIMON FRASER.

Referred to the District Surveyor for consideration in connection with the previous proposal.—C.J.S. (for the Under Secretary), 15/4/98.

No. 65.

Office Memorandum.

Re adjustment of area, Nyang Exchange.

25 April, 1898.

SINCE Mr. Broughton's report was received, the Honorable Simon Fraser has asked, in lieu of the proposal mooted at his recent interview with the Department, that part of portions 26, 36, 38, and 39, containing about 1,100 acres, should be retained by him.

I see no objection to his request being granted, but there will, apparently, be still a deficiency of about 270 acres of "exchange lands."

This can be made up preferably out of the area to the south of conditional lease 2,908.

W. G. WALKER,

District Surveyor.

On measuring the area approved to be granted to the Honorable Simon Fraser, M.L.C., under the Nyang exchange, it was found that some land containing "good gum timber" had been included in the proposal, thus necessitating a further adjustment of areas. To effect this the applicant handed in a list of suggested amendments which the inspecting surveyor has strongly reported against. Mr. Fraser then interviewed the District Surveyor, and intimated to him his willingness to retain portions 26, 36, 38, and 39, parish Boyd, and to withdraw his suggestions of March last. This arrangement has since been confirmed by letter, Alienation 98-4,861. Submitted, therefore, that in accordance with this understanding the exchange proposal be amended by the elimination of the portions named, and that should any further Crown lands be required to balance the areas—about 200 acres seem necessary—land south of conditional lease 2,908 be measured as recommended by the District Surveyor.—C. J. SAUNDERS, 17/5/98.

Submitted for approval of the course proposed.—W. HOUSTON, Under Secretary, 19/5/98. Approved.—J.H.C., 20/5/98. The District Surveyor at Hay.—E.A.B. (for U.S.) B.C., 27/5/98. The Honorable Simon Fraser informed, 27/5/98.

No. 66.

The Under Secretary for Lands to The Honorable Simon Fraser, Esq.

Sir,

Department of Lands, Sydney, 27 May, 1898.

Referring to the exchange of lands on Nyang holding, I have the honor to inform you that the Secretary for Lands has approved of the proposal being amended by the elimination of portions 26, 36, 38, and 39, parish of Boyd; and should any further Crown lands be required to balance the respective areas, such land will be measured south of conditional lease 2,908.

I have, &c.,

WM. HOUSTON,

Under Secretary

(per W.H.C.)

No. 67.

Mr. Surveyor Broughton to The District Surveyor, Hay.

Nyang Exchange.—Surveyor Broughton to the District Surveyor at Hay, transmitting plan of three (3) portions of land measured for exchange.

Sir,

Deniliquin Land District, Deniliquin, 12 July, 1898.

I have the honor to transmit herewith the plan of survey of three portions of land containing an aggregate area of 9,613½ acres, numbered 20-21, parish of Balpool, and 2, parish of Yadabal, county of Wakool, applied for under the 47th section of the Crown Lands Act of 1895 by Simon Fraser; survey completed by me on the 4th instant, in accordance with your instructions No. 74 of the 8th ultimo.

The

The improvements on these lands are as follows :—			£	s.	d.
Portion No. 20.—	8,181 links fence, half value £7 per mile	...	7	3	0
	19,300 „ „ full value £14 „	...	33	15	6
	800 acres ringbarking, at 6d....	...	20	0	0
Portion No. 21.—	64 chains fence, half value £7 per mile	...	5	11	0
	193 „ „ full „ £14 „	...	33	15	6
	1,600 acres ringbarking, at 6d....	...	40	0	0
Portion No. 2.—	190 chains fence, at £14 per mile	...	33	5	0
	1,000 acres ringbarking, at 6d.	...	25	0	0
Total value of improvements			£198	10	0

Time occupied 11½ days in field, 5¾ days in office, total, 17¼ days; distance measured, 40½ miles.

Mr. Fraser interviewed me yesterday, and objects to the inclusion in the exchange of that part of the flooded country at the southern extremity of portion No. 2, parish of Yadabal, the nature of which is chiefly open gum forest, and does not embrace timber of sufficient value to warrant its reservation, and he urges that portion No. 11, parish of Nyang, be retained by him; also, that the triangular-shaped area of Crown lands adjoining the western boundary of that portion be added to the exchange. I consider that this request should not be granted, as the land he desires to acquire is good high country mostly, and is well suited for settlement, while that he wishes to exclude is of a flooded character, and unsuited for occupation as an independent holding, and of no value as a reserve, and should certainly be included in the exchange.

With reference to that part of your instruction, No. 97-69, directing the measurement of an area of 2,560 acres to be of equal value to the land embraced by portions 32 and 33, parish of Nyang, I beg to state that the country comprising portions Nos. 11, 19, and 20—aggregate area, 2,560 acres—parish of Balpool, is as nearly as possible of the value desired.

I have, &c.,
J. BROUGHTON.

No. 68.

Mr. Surveyor Broughton to The District Surveyor, Hay.

Nyang Exchange.—Surveyor Broughton to the District Surveyor at Hay, transmitting plan of a portion of land measured for exchange.

Sir, Deniliquin Land District, Deniliquin, 12 July, 1898.

I have the honor to transmit herewith a plan of a portion of land containing an area of 260 acres, numbered 19, in the parish of Balpool, county of Wakool, applied for by Simon Fraser, under the 47th section of the Crown Lands Act of 1895, measured by me on the 8th March last, in accordance with your instructions of 17th July, 1897.

The only improvements on this land is 260 acres ringbarking at 6d., £6 10s.; 30 chains fence, at £14 per mile, £5 5s.; the fence on the south boundary is dilapidated, and of no value. The country is box forest chiefly, liable to inundation; soil, red and grey loam and clay; no natural water supply.

Time occupied—half-day in office, half-day in field; total, one day; distance measured, 233¼ chains.

I have, &c.,
J. BROUGHTON,
Surveyor.

Nyang Exchange.—The necessary measurements in connection with this exchange have been effected, and the papers are now forwarded for completion of action. The plans will be forwarded this day under separate cover. The area of the conditional purchase surrender lands is 2,560 acres, and the area in exchange therefor is comprised within portions 11, 19 and 20, parish of Balpool, which portions, according to Mr. Broughton's report, are as nearly as possible of equal value to the surrender lands. Descriptions are enclosed for the revocation of all reserves covering the exchange area, viz.:—508 and 261 from lease, 1,811, 2,423, forest reserve 1,790, water reserve 746, water reserve 745, water reserve 746B, forest reserves 3,262, 1,032, 20,766, 20,805, and the Nyang classification area. The additional costs incurred in this office since my report on 96-5,629, are as follows:—Mr. Broughton's attendance at Land Court, £2 2s.; survey fees, £153, District Survey Office, £5; total, £160 2s.—W. G. WALKER, District Surveyor, 28/3/99.

Memorandum to Department of Mines in *re* Mining on Private Property Leases.—O.W.B., 5/6/99.

No. 69.

The Honorable Simon Fraser, Esq., to The Under Secretary for Lands.

Re Nyang Exchange.

Sir, 454, Collins-street West, Melbourne, 16 August, 1898.

Under the arrangement concluded by my letter of 21st April, 1897, in reply to the Departmental letter of the 9th April, 1897, copies of which are enclosed, I have the right, as I conceive, to all the fences on my freehold; and to avoid any misunderstanding with the Department, I am asking for a recognition of my right to either remove my portion of the fences dividing my exchange freeholds from selectors or to deal with the selectors in regard to these fences.

I have, &c.,
SIMON FRASER.

In

In *re* Nyang Exchange.—The Honorable Simon Fraser, M.L.C., of Victoria, asks for information respecting certain fences situated on the portions he is surrendering under the Nyang exchange. He wishes to know whether he has the right, under the agreement entered into, to all the fencing on his freehold, and asks recognition of his right to either remove his portion of the fencing dividing his surrender portions from adjoining selections or to deal with the selectors in regard to these fences. On examination of applicant's letter of 21/4/97, which covers the subject in question, it will be observed that he intimated therein his willingness to "relinquish all claim to the irremovable improvements," *i.e.*, that he be "allowed to remove fencing, huts," &c. It is therefore submitted Mr. Fraser be informed, *per* Mr. Chanter, M.P., that under this agreement the Department is prepared at the proper time to authorise the removal of the fencing situated on the surrender portions of which he holds absolute ownership; but that in regard to the fencing in which the adjoining holders have an interest, the improvement must be regarded as irremovable, and applicant's share therein must be given up; also that any fencing not removed within three months after the date of signature of the surrender document, will revert to the Crown.—C. J. SAUNDERS, 20/8/98. The Under Secretary.

May be informed as proposed.—W. HOUSTON, Under Secretary, 22/8/98. Approved.—J.H.C., 23/8/98. The Honorable Simon Fraser, M.L.C., c/o J. M. Chanter, Esq., M.P., informed 26/8/98.

No. 69½.

The Under Secretary for Lands to The Honorable Simon Fraser, Esq.

Sir,

Department of Lands, Sydney, 26 August, 1898.

Referring to your letter of the 16th instant respecting improvements on lands to be surrendered under the Nyang exchange, I have the honor to inform you that, under the agreement arrived at in above matter, the Department is prepared at the proper time to authorise the removal of the fencing situated on the surrender portions of which you hold absolute ownership; but in regard to the fencing in which the adjoining owners have an interest, the improvement must be regarded as irremovable, and your share therein must be given up. Any fencing not removed within three months after the date of signature of the surrender document will revert to the Crown.

I have, &c.,

WM. HOUSTON,
Under Secretary.

No. 70.

Office Memorandum.

Surrender Portions and Leases under the Mining on Private Property Act.

Department of Lands, June, 1899.

A SCHEDULE is appended, and sketch enclosed, showing the portions proposed to be surrendered to the Crown under the Nyang exchange application; and, in accordance with the general arrangement entered into in these cases, reference is now made to the Department of Mines as to whether these lands are affected by any form of lease or application under the Mining on Private Property Act.

It is requested that this reference be treated as specially urgent.

F.M.T.
(for R.M.)

No. 71.
Office Memorandum.
Nyang, Exchange.

Department of Lands, 22 July, 1899.

THE necessary measurements having been made, it is submitted that the within exchange, under which the Crown is to accept the surrender of the freehold and conditionally-purchased lands indicated on tracing "B" by broken red lines, together with certain of their contained improvements, and to grant or allot in exchange equal areas respectively, as shown by broken blue lines, be now finally approved; and that Executive authority be then obtained for the completion of the exchange, the allotment in their new positions of the conditional purchases for surrender, and for the revocation of the affected reserves—all of which are reported to be no longer required in the public interest.

Particulars of the lands for surrender:—

19.	" " " 260 "	} Additional conditional purchase 91-47, 1,920 acres.
20.	" " " 1,660 "	
		2,560 acres.

It is further recommended that on the surrender of the station lands affected being complete they be declared Crown lands, and be added to the Nyang occupation or preferential occupation licenses respectively. Under separate papers these portions, together with the available adjoining Crown lands, have been designed and measured principally for settlement lease, and partly for addition to adjoining selections of insufficient area.

As the value of the improvements agreed to be relinquished by the station-holder exceeds that of those on the Crown lands affected, payment in respect of the latter should perhaps be waived by the Crown in this instance.

The usual statement of costs, &c., is appended.

C. E. RENNIE,
Chief Draftsman.

Submitted for final approval of exchange, and of the incidental action as set out above.—
W. HOUSTON, Under Secretary, 24/7/99. Approved.—J.H.Y., 25/7/99. The Honorable Simon Fraser informed—28/7/99.

No. 72.

The Under Secretary for Lands to The Honorable S. Fraser, Esq.

Sir,

Department of Lands, Sydney, 28 July, 1899.

I have the honor to inform you that the Secretary for Lands has approved of the exchange of lands on Nyang holding, No. 108, Central Division, being completed ; and, in consideration of the improvements on the surrender lands relinquished by you, the Crown will waive claim to those on the lands to be granted.

I have now to request that you will be good enough to signify what improvements you desire to remove from the surrender lands. Schedule overleaf.

I have, &c.,
WM. HOUSTON,
Under Secretary.

[Enclosure.]

No. 73.

The Honorable Simon Fraser, Esq., to The Under Secretary for Lands.

Sir,

454, Collins-street, Melbourne, 11 August, 1899.

In reply to yours of 28th July, I beg to state that the fencing and yards have been removed from all my surrender freeholds as per schedule enclosed ; the remaining fencing and hut will be removed within the time allowed in such cases, which I understand to be three months from date of transfer of the surrendered lands.

The give-and-take boundary fence between Nyang and Nooroug, on portions 9, 10, and 12, parish Boyd, has not yet been removed.

The

The whole of the fencing on portion 41, parish Boyd, belongs to me. Selectors have not contributed to any portion of cost. This will also be removed. I have, &c.,

SIMON FRASER.

P.S.—Would have replied sooner, but that I had to send to my manager to be examined.—S.F.

There is apparently no objection to the removal of the improvements referred to and now marked.* in schedule to submission.—Alienation 99-10,218. Lessee should not remove the fencing from portion 41 unless his sole property.—R.M., 22/8/99. Alienation Branch.

No. 74.

Minute for the Executive Council.

Subject :—Surrender and exchange of lands.—Proclamation of Crown lands.—Revocation of Reserves.—Nyang Holding, No. 108, Central Division.

Department of Lands, Sydney, 19 September, 1899.

It is recommended to His Excellency the Governor and the Executive Council, that, under the provisions of the Crown Lands Acts, the surrender of the freehold lands specified in the within Schedule A, together with their contained improvements, be accepted, and that the lands mentioned in Schedule B be granted in lieu thereof; also, that the surrender of the lands specified in the within Schedule C, at present held under conditional purchase, together with their contained improvements, be accepted, and the lands mentioned in Schedule D allotted in lieu thereof.

It is also recommended that the lands so surrendered be proclaimed Crown lands and added to the adjacent occupation and preferential occupation licenses of Nyang holding, No. 108, Central Division.

It is further recommended that the reserves specified in Schedule E be revoked.

T. H. HASSALL,

Minister for Lands.

The Executive Council approved the recommendation in each case therein set forth.—ALEX. C. BUDGE, Clerk of the Council. Minute 99-41, 19/9/99. Approved.—BEAUCHAMP, 19/9/99. Confirmed, 25/9/99.

No. 1.

Application by the Owner to Surrender Land in Exchange for Crown Land.

Form 77.—Crown Lands Acts.

The Treasury, Sydney, 22 January, 1897.

RECEIVED a deposit of £10 and a provisional survey fee of £8.

J. ROBSON

(pro Treasurer).

In accordance with provisions of section 47 of the Crown Lands Act of 1895, I, James Lee, being the holder of a grant of the lands specified on the back hereof, hereby apply to surrender the same in exchange for the Crown lands described on the back hereof; particulars of the improvements on the respective areas are set forth in the Schedules appended.

Signed this twenty-first day of January, 1897,—

JAMES LEE,

Larras Lake, Molong.

Particulars of Lands to be surrendered and of the improvements thereon.

Land District of Molong, County of Ashburnham.

Parish, Bell; portion No., part of portion 3 (as shown in sketch, marked "A," attached); area, 250 acres; nature of alienation, freehold; nature and value of improvements, fencing £120, ringbarking £10, total £130.

Particulars of Crown Lands applied for in exchange and of the improvements thereon.

Land District of Wellington, County of Wellington.

Parish, Three Rivers; portion No., not measured, as shown in sketch attached, marked "B"; area, about 250 acres; nature and value of improvements, fencing, &c., £60, drafting-yards £40, clearing £3, total £103.

This land is held under annual lease No. 10,110 by me, and the improvements thereon have been effected by me.

No. 2.

Office Memorandum.

MEMO.—The sum of £18 was credited 22nd instant, being £10 deposit and £8 provisional survey fee on application to surrender and exchange land as under:—

James Lee, 250 acres, Land District Molong, county Ashburnham, Land District Wellington, county Wellington. (Form 77 herewith.)

Treasury.—S.H.C. (for U.S.), B.C., 23/1/97. The Under Secretary for Lands.

Receipt ackd.—

JAS. LEE, 28/1/97. G.W.

No. 3.

Office Memorandum.

Proposal for Exchange.—Eastern Division.

26 February, 1897.

FROM information obtainable in Head Office, it is not clear that it would be in the public interest to entertain the enclosed proposal for exchange of lands.

The applicant offers to surrender 250 acres of portion 3, parish of Bell, county of Ashburnham, fronting Molong Creek, retaining, however, the frontage, and about 40 acres adjoining the west boundary, in exchange for an equal area in the parish of Three Rivers.

The latter area was notified under General Notice of 1861 as a village reserve, but as there was no prospect of its being required for village purposes, was cancelled and renotified as a camping and water reserve. It is situated on the main road from Molong to Wellington, has a large frontage to the Bell River, and would appear to be a valuable site.

The District Surveyor is requested to report from his local knowledge whether there are any circumstances in the case that would warrant the Department proceeding with the exchange.

C.J.S.

(for the Under Secretary).

Replied to by my memo of the 26th May, 91-122.—H. A. CROUCH, District Surveyor.

No. 4.

3.

No. 4.

The District Surveyor, Orange, to The Under Secretary for Lands.

Proposal by Mr. James Lee, under the 47th section of Crown Lands Act of 1895, to exchange part of portion 3, parish of Bell, county of Ashburnham, for water reserve 24,054, parish of Three Rivers, county of Wellington.

Memorandum.

26 May, 1897.

(1.) After careful consideration, I would beg to recommend that the application be proceeded with in the usual way.

(2.) Water reserve 24,054 occupies an important position, and its revocation alone would be strongly opposed; but the site proposed to be given in lieu would be advantageous to team and stock traffic on the Cumnock-road as well as to that along the Wellington-road, whilst water reserve 24,054 is only useful to the latter. The former traffic is about twice as heavy as the latter.

(3.) The water in Molong Creek is almost permanent.

(4.) The matter will entail survey to show existing positions of fences, and so that a comprehensive report can be furnished.

(5.) If this proposal be proceeded with, modification will be proposed to include part of portion 39, and an increased frontage near the bridge, in the surrender—to include the western end of water reserve 702 in the exchange, and to excise part of water reserve 24,054 so as to provide convenient access of water.

H. A. CROUCH,
District Surveyor.

No. 5.

Office Memorandum.

Proposed Exchange by Mr. James Lee.

10 June, 1897.

THE District Surveyor recommends that the application for exchange in this case be proceeded with.

He points out that the land proposed for surrender would be serviceable to teams and stock on two roads, while the reserve sought to be acquired is only available for public use on one.

Mr. Crouch also suggests certain modifications by increasing the surrender area so as to secure greater frontage to Molong Creek, absorbing the western part of water reserve 702, and retaining part of water reserve 24,054, which would undoubtedly make the exchange advantageous to the Crown.

It is recommended that Mr. Lee be communicated with and informed that if he is willing to modify his proposal in the direction indicated by the District Surveyor, and agrees to relinquish any claim to improvements on the surrender lands, the case will be referred to the Local Land Board for inquiry and report under section 46 of the Crown Lands Act, 1889.

C. J. SAUNDERS.

The Under Secretary for Lands.

For approval.—W. HOUSTON, Under Secretary, 11/6/97. Appd.—J.H.C., 16/6/97. Jas. Lee, Larras Lake, Molong, infd. 18/6/97.

No. 6.

The Under Secretary for Lands to J. Lee, Esq.

Sir,

Department of Lands, 18 June, 1897.

Referring to your application of the 21st January last for surrender of part of portion 3, parish Bell, county Ashburnham, in exchange for water reserve 24,054, parish Three Rivers, county Wellington, I have the honor to inform you that if you are willing to include part of portion 39 and an increased frontage near the bridge in the surrender area, and to include the western end of water reserve 702 in the exchange, and to excise part of water reserve 24,054, so as to provide convenient access to water, the case will be forwarded to the Local Land Board for inquiry and report.

I have, &c.,

WM. HOUSTON,
Under Secretary
(per W.H.C.).

No. 7.

J. Lee, Esq., to The Under Secretary for Lands.

Sir,

Larras Lake, Molong, 1 July, 1897.

In reply to your letter of 18th instant, No. 6,884, I beg to inform you that I am quite willing to make the exchange in the way set forth in your letter.

I have, &c.,

JAMES LEE
(per B.J.L.).

Now forwarded to the Local Land Board at Orange, in accordance with approval on Aln. 97-6,884.—E.A.B. (for U.S.), B.C., 5/7/97. Jas. Lee infd. 5/7/97. Any further report required prior to Board meeting.—CHAS. E. FINCH, Chairman, Orange, 6/7/97.

No. 8.

No. 8.

The District Surveyor, Orange, to Mr. Surveyor Chapman.

L.B. 97-5,636.

District Surveyor's Office, Orange, 14 July, 1897.

Subject :—

MR. SURVEYOR CHAPMAN is requested, at his early convenience, to effect survey of water reserve 24,054, marking it as portion No. 38, parish of Three Rivers, county of Wellington, excising besides the road a sufficient area to afford convenient access to water near the bridge over the Bell River. To report as to character of improvements, date of erection and value, character and value of land.

H. A. CROUCH,
District Surveyor.

Mr. Chapman will probably have some difficulty in locating boundaries. Reference should be made to me if he is in doubt, after preliminary survey has been made.

Reply :—

Replied to by my letter dated 7th December, No. 97-129.

A. W. CHAPMAN,
Surveyor.

No. 9.

The District Surveyor, Orange, to Mr. Surveyor Chapman.

L.B. 97-5,636.

District Surveyor's Office, Orange, 14 July, 1897.

Subject :—

MR. SURVEYOR CHAPMAN is requested, at his early convenience, to report on the desirability or otherwise of the proposed exchange being completed, having regard to the public interests.

He will please make a sufficient traverse to show positions of all improvements on portions 3 and 39 which would be affected by the proposed exchange.

It will be well to provide for including (1) part of portion 3 east of the main road in the exchange, say about 450 links along that road from northern boundary, so as to afford an increase of frontage (to the Molong Creek) for the reserve; also (2) part of portion 39 south of Cumnock-road.

The western part of water reserve 702, exclusive of a necessary reserved road, may be proposed to be given as part of the exchange.

Mr. Chapman will then be good enough to prepare a tracing on scale of 8 chains to an inch, showing clearly the land proposed to be surrendered, with improvements, &c., and furnish a complete report as to improvements, date of erection, value, &c., character and value of land. The tracing need only be prepared to show the part about portion 3, 39, and water reserve 702, in the parish of Bell.

Report and plan of portion 38 (water reserve 24,054), parish of Three Rivers, county of Wellington, will furnish all particulars of that, so that details need not be repeated, but totals and general facts only.

Papers L.B. 97-5,636 are herewith for Mr. Chapman's information.

H. A. CROUCH,
District Surveyor.

Reply :—

Replied to by my letter dated 7th December, No. 97-130, 97-10,951 L.B.

A. W. CHAPMAN,
Surveyor.

No. 10.

Mr. Surveyor A. W. Chapman to The District Surveyor at Orange.

No. 97-129.

Transmitting plan of one portion of land.

Land District of Molong.

Sir,

Orange, 7 December, 1897.

I have the honor to transmit herewith the plan of one portion of land, containing 177 acres, numbered 38, in the parish of Three Rivers, county of Wellington, survey of which was completed by me on the 15th October, in accordance with your instructions, dated 14th July, No. 97-58.

1. This portion includes camping and water reserve 24,054, notified 9th May, 1896.

2. The country consists of gentle undulations, moderately timbered with ringbarked box, running into a rough rocky ridge, thickly timbered with box and gum. The surface is too stony for cultivation; about two-thirds of the area may be considered good grazing land, the remainder being indifferent grazing land. Its carrying capacity is about one sheep to 1½ acres. Water is considered permanent in the Bell River. The formation is basalt and limestone.

3. I estimate the capital value of the land, as unimproved freeholds, at 25s. per acre.

4. The improvements consist of :—

	£	s.	d.
Old sheep yard and shed	20	0	0
Sheep dip and yards (new); erected twelve months	80	0	0
1½ miles 6-wire fence, at £20 per mile; erected six years	30	0	0
100 acres, ringbarked (old), at 1s. per acre	5	0	0

Total value of improvements effected by James Lee ... £135 0 0

5. About 10 chains of frontage to the Bell River was included in reservation for road, with a view of giving convenient access to water at the bridge over the river, which will be ample for that purpose.

6. Regarding location of the reserve.—Some difficulty was experienced in tracing the boundaries of adjoining portions owing to the absence of marks; the old timber has now almost disappeared, through ringbarking and decay. Search was made for the corners of adjoining portions, and a number of trees near the boundaries were opened. I learnt from Mr. James Lee, the present owner of the adjoining lands, that a few panels of the old fence at corner "C" were pointed out to him by his father, the original owner, as being on the western boundary of portion 17. The only marks which could be found were distinct blazes on two dead trees on the northern boundary of portion 16. With this data the boundaries of the reserve were fixed, allowing full deed lengths for the boundaries of adjoining portions.

7. The azimuth of survey was taken from the survey of road through the reserve which, by plan of that survey, is shown to be $8^{\circ} 43'$ east of true north. This azimuth differs $2^{\circ} 42'$ from the original needle bearing of the adjoining portions, but I think the difference may be due to local attraction, caused by the ironstone formation which extends through the reserve in a northerly direction. Considerable difference was observed in different parts of the survey from the ironstone in my own needle.

8. Mr. Lee expressed himself satisfied with the position of the reserve as now surveyed, and has given his written consent on attached tracing to accept boundaries of adjoining portions as thus located. I might also mention that the boundaries appear to accord with their positions relative to the Bell River, as shown by original plans of adjoining portions.

9. A proposal for exchange of other land for this reserve has been made by Mr. Lee (L.B. 97-5,636); and, in reply to instructions No. 97-58, a report (No. 97-130) is furnished in connection with that proposal.

10. The time occupied in investigation and survey is three days field, one day office—£11 4s.

I have, &c.,

A. W. CHAPMAN.

Plan approved.—H. A. CROUCH, District Surveyor, 31/1/98.

This survey has been based on very meagre data; but plan has been approved to save further delay, and specially having regard to the fact that Mr. James Lee is the owner of surrounding land, and his written consent enclosed to the boundaries as now defined.—H.C.

No. 11.

Surveyor A. W. Chapman to The District Surveyor at Orange.

Reporting on proposed exchange of land, Larras Lake Holding, parishes of Bell and Three Rivers, counties of Ashburnham and Wellington, Land District of Wellington.

No. 97-130.

Sir,

Orange, 7 December, 1897.

In reply to your instructions dated 14th July (No. 97-59), I completed inspection and inquiry on the 15th October regarding the above-mentioned exchange, and have the honor to report:

1. The part sought to be acquired includes camping and water reserve 24,054, notified 9th May, 1896, in the parish of Three Rivers.

2. The land offered for surrender is an equal area of that part of Finch Brothers' (now James Lee's) 320 acres, portion No. 3, in the parish of Bell,—as shown by red hatched lines on enclosed lithograph.

3. Mr. Lee is, however, agreeable to a modification of his proposal to accord with suggestions made by the District Surveyor in his letter No. 97-122, viz., including part of portion 39 and an increased frontage near the bridge in the surrender, to include the western part of water reserve 702 in the exchange and excise part of water reserve 24,054, so as to provide convenient access to water,—the proposed modification as shown by pink edging on attached tracing.

4. Water reserve 24,054 has recently been measured by me as portion No. 38, plan of which was transmitted with my letter, No. 97-129.

5. In that survey provision was made for convenient access to water at the bridge over the Bell River, by including a frontage of about 10 chains to the river within the road reserved through that portion.

6. The area of reserve 24,054, exclusive of road, is 177 acres, and its capital value as unimproved freehold at 25s. per acre is £221 5s. The value of improvements enumerated on plan is £135—effected by Mr. James Lee.

7. The area of land proposed for exchange within water reserve 702 is about 12 acres, and its unimproved value at 25s. per acre is £15. The improvements consist of old ringbarking at 1s. per acre—12s. It is similar in description to land offered for surrender. The total area thus proposed for exchange is 189 acres.

8. The area of land offered for surrender is also 189 acres, comprising a gentle slope moderately timbered with ringbarked box; it may be considered good grazing land, but is not adapted for cultivation owing to the surface being generally stony. The formation is basaltic. Water is almost permanent in Molong Creek. I estimate its capital value as unimproved freehold at 25s. per acre, £236 5s.

The improvements consist of—

	£	s.	d.
97 chains, top-rail, and 5-wire fence in good order, @ £20 per mile	24	5	0
52 chains, top-rail, and 5-wire, @ £20 per mile, half cost	6	10	0
1 acre, cleared, @ 30s.	1	10	0
170 acres, ringbarked, @ 1s. per acre	8	10	0

Effected by James Lee. Total £40 15 0

10. As regards the advantages to the Crown by the proposed exchange, I may mention that the land offered for surrender would be advantageous to team and stock traffic on the Cumnock-road as well as on the Wellington-road, whereas the reserve sought to be acquired is only advantageous to traffic on the latter road; the former traffic is also about twice as heavy as the latter.

11. Water reserve 24,054 is situated close to Larras Lake homestead and woolshed ; it includes a sheep-dip and sheep-yards used in connection with the working of Larras Lake holding, and is also subdivided for the beneficial working of that holding. Its acquisition would, therefore, be a matter of some moment to applicant.

12. I am of opinion the exchange is a desirable one in the interests of the public, and consider that as the land in each case is of equal value, and that the whole of the improvements have been effected by the applicant, an exchange on a basis of equal area would be a fair and equitable one.

13. The value of improvements on the reserves is £135 12s., compared with £40 15s. on land offered for surrender. As a set-off against the improvements, it is suggested that Mr. Lee be required to complete fencing of boundaries of his land adjoining the land offered for surrender, so as to avoid trespass, as I think the nature and extent of traffic will be sufficient to warrant reservation from lease in the event of the surrendered land becoming a camping and water reserve.

14. Provision is made for continuation of road between portions 95 and 96 through water reserve 702 ; it is not used, but serves as a means of access to incomplete conditional purchase land.

The cost of this service is £5 12s.

I have, &c.,

A. W. CHAPMAN.

See protest by Dr. Ross under L.B., 98-2,032 herewith.—W.A., 21/3/98.

No. 12.

The District Surveyor, Orange, to Mr. Surveyor Chapman, Orange.

Memorandum.

22 December, 1897.

IN connection with his survey of portion 38, parish Three Rivers, county of Wellington (plan transmitted with his letter No. 129, of 7th December, 1897) Mr. Chapman is requested to state whether any steps were taken to determine the north-east corner or the north boundary of portion 17.

H. A. CROUCH,

District Surveyor.

Search was not made for the north-east corner of portion 17. The north-west corner of portion 17 was searched for, but no trace could be found.—A. W. CHAPMAN, Surveyor, 24/12/97.

No. 13.

Dr. Ross, M.P., to The Under Secretary for Lands.

Dear Sir,

Molong, 4 March, 1898.

I am informed that an effort is now being made to exchange a land reserve at Larras Lake, near Molong, for other land belonging to the Larras Lake or Eurimbla Run. If so, I consider it would be an injustice to the general and travelling public, as the reserve applied for by way of exchange is bounded by the Bell River and Molong Creek, and, therefore, is a most valuable reserve for the general public.

I hope no such thing will ever be contemplated, as it would be a gross wrong and injustice to the public to have this reserve exchanged for inferior land. In the interest of the public, I beg to offer my protest against any such exchange of the land in question ; the application being made, I am informed, on behalf of Dalgety & Co., and the Surveyor, I am also informed, is now in Molong making a survey of the said land, with the view to the exchange being made. If so, I hope no such thing will ever take place, as it will only lead to an aggravated public annoyance.

Hoping the matter will receive immediate attention.

Yours, &c.,

A. ROSS, M.D.

Acknowledged, 7/3/98.

Referred to the chairman for consideration in connection with James Lee's application for the exchange of camping and water reserve 24,054, to which matter the letter appears to refer. Papers. Aln. 97-7,603 were forwarded to Orange, 5th July, 1897.—C. J. S. (for the Under Secretary), 15/3/98. The Chairman, L.L.B., Orange.

No. 14.

Office Memorandum.

Exchange of Lands—Larras Lake Holding.

Proposal by James Lee, of Larras Lake, for exchange of lands in the parishes of Bell and Three Rivers, counties of Ashburnham and Wellington, Land Districts of Molong and Wellington, Eastern Division.

1. In this case the applicant, Jas. Lee, offers to surrender that part of freehold portion 3, parish of Bell, county of Ashburnham, shown by red hatching, in exchange for Crown lands in the parish of Three Rivers, county of Wellington, shown by blue hatching on diagram "X" herewith.

2. The latter portion was notified as reserve 24,054 from sale for camping and water supply on the 9th May, 1896, in lieu of a village reserve notified by general notice of the 24th December, 1861, which covered the same land. It is held by James Lee as annual lease 10,110, and contains by recent measurement 177 acres, exclusive of road.

3. Water reserve 24,054 occupies an important position, and its revocation alone would be strongly opposed, but the site proposed to be given in lieu would be advantageous to teams and stock traffic on the Cumnock-road, as well as to that along the Wellington-road, whilst water reserve 24,054 is only useful to the latter. The traffic on the former road is about twice as heavy as the latter.

4. The area proposed to be surrendered adjoins water reserve 702, notified 10th May, 1876. That reserve is distant about 7 miles from Molong, and has a frontage to Molong Creek, the water in which is almost permanent. An increase of about 450 links in the frontage of that reserve would enhance its value to the public, and provide more convenient access to water.

5. In view of this, and having regard to Mr. Surveyor Chapman's report (L.B. 97-10,951) herewith, it is suggested that water reserve 24,054, measured as portion 38, of 177 acres, in the parish of Three Rivers, and about 12 acres of water reserve 702, parish of Bell, in all about 189 acres, as shown by blue tint on the diagram "X" herewith, be granted in exchange for a similar area to be surrendered out of portions 3 and 39, parish of Bell, as shown by pink tint on the said diagram. By letter of 1st July, 1897, L.B. 97-5,636, Mr. Lee has stated his willingness to accept this modification of the original proposal.

6. For character and value of the land, nature, value, &c., of improvements on each portion in modified proposal, please see enclosed Schedules "A" and "B", and Mr. Surveyor Chapman's reports, L.B. 97-10,950 and 10,951, herewith.

7. Under applicant's letter, L.B. 97-5,636, of 1st of July, in furtherance of Ministerial decision, all claim to compensation for improvements on the surrendered lands is relinquished.

8. Having regard to the provisions of section 102 of the Crown Lands Act of 1884, it would appear that the greater part, and probably the whole, of the improvements on water reserves 24,054 and 702 are now the property of the Crown.

9. Two helios for exhibition are herewith.

10. The costs of District Survey Office action to date may be estimated at £1 ls., in addition to that of Mr. Surveyor Chapman's report, L.B. 97-10,851, £5 12s. W.B. A.G., 25/3/98.

Having regard to the objection lodged by Dr. Ross, Aln. 98-3,035, perhaps his attention should be specially drawn to the helio when exhibited.

The Chairman, L.L.B., Orange.

H. A. CROUCH, D.S.

30 March, 1898.

Send notice and helio to L.A., Molong, and post at front door of this office.—W.A. (*pro* Chairman), 2/4/98. Dr. Ross, *Gazette, Molong Express*, Government Printer, C. L. Agent, with sketch and passage. Objections to be lodged by 15/5/98. Now for Board.—18/4/98.

Proposed surrender and exchange, counties of Ashburnham and Wellington, parishes of Bell and Three Rivers. Applicant, James Lee. Plans of the above-mentioned proposal may be seen at the office of the Crown Lands Agent, at Molong, and at the Local Land Board Office, at Orange. Any objections thereto must be lodged in writing with the Chairman of the Local Land Board at Orange, on or before the 15th May, 1898.—CHAS. E. FINCH, Chairman, Land Board Office, Orange, 18/4/98.

No. 15.

Dr. Ross, M.P., to The Acting Under Secretary for Lands.

[Very important and urgent.]

Dear Sir,

Parliament House, Sydney, 19 April, 1898.

Some few weeks back I sent a letter to your Department *re* application for exchange of land on the Larras Lake estate, near Molong, parish of Three Rivers, and to that letter I received a reply to the effect that no application had been made for exchange. My attention was drawn to the matter by my constituents, and the public injustice it would inflict if such exchange was carried out. On the 18th April I received the following letter from the Chairman, Land Board, at Orange, 98-2,563 L.B., as follows:—
“Having regard to your objection to the proposed exchange of lands on Larras Lake estate, I have to inform you that by even post a tracing showing the proposal has been despatched to the Crown Lands Agent at Molong, for public information.”

Since the receipt of the above letter I have seen the tracing above referred to, and the proposed exchange is one of the most audacious and scandalous that I have ever heard of, and on behalf of the public I have to enter my emphatic protest against so ridiculous a proposal. The land proposed to be exchanged is of inferior quality and waterless, and cut off from the Molong Creek by the road to Wellington and to Cumnock, to Obley, and the station paddock, whereas the water reserve and camping ground, which to my knowledge has been used by the public for upwards of thirty years, is surrounded for a long distance a frontage to the Bell River, and, therefore, the camping ground and reserve for water supply is invaluable to the travelling and general public, and ought not to be exchanged as proposed.

It is a piece of the most audacious impudence ever to apply for such an exchange, and I hope in the interest of the general public that the application will, without hesitation, be disallowed. The water reserve and camping ground is about 7 miles from Molong on Wellington-road, and is, therefore, valuable as a camping reserve for the public and travelling stock on account of the water supply which adjoins the Bell River (marked blue), as the rough tracing enclosed clearly enough discloses.

Under these circumstances I hope the exchange will not be allowed under any circumstances, as it will be the means of inflicting a serious loss and injury to the public by being cut off from the water and the use of the camping reserve, which has been in use for upwards of thirty years.

Awaiting an early answer as to the final decision in this most important matter, so as to save me the necessity of bringing the matter before Parliament.

Yours, &c.,

A. ROSS, M.D.

Jas. Lee's Exchange, Larras Lake. Protest by Dr. Ross, M.P. May be referred to the Chairman in connection with the case referred to.—C. J. SAUNDERS, 21/4/98. Referred to the District Surveyor, with a view to the matter being brought before the Chairman.—H. CURRY, Acting Under Secretary, 22/4/98. The District Surveyor, Orange.

Dr. Ross, M.P., ackd. and infd., 22/4/98. Received, D.S.O., Orange, 25/4/98. Mr. Day, 25/4/98. Forwarded for the consideration of the Local Land Board, in connection with my report of 30th ultimo, on Larras Lake Exchange Case, L.B., 98-2,563.—H. A. CROUCH, District Surveyor, 26/4/98. The Chairman, L.L.B., Orange.

Board meeting at Molong.—Molong, 17/5/98. Jas. Lee, Dr. Ross, District Surveyor, notified 29/4/98.

No. 16.

The Acting Under Secretary for Lands to Dr. Ross, M.P.

Sir,

Department of Lands, Sydney, 22 April, 1898.

I have the honor to acknowledge receipt of your letter of the 19th instant, with respect to the proposed exchange of lands at Larras Lake, near Molong, with Mr. Jas. Lee, and protesting against the same, and to inform you that your protest has been referred to the District Surveyor at Orange, with a view to the matter being brought before the Chairman.

I am to add, that a further communication will be made to you when a decision in this case has been given.

I have, &c.,

H. CURRY,

Acting Under Secretary

(per E. B.).

No. 17.

Decision of Local Land Board, Molong.

Exchange of Lands on Larras Lake Estate, Land Districts of Molong and Wellington.

WHEREAS, on the 17th day of May, 1898, it became a matter for investigation before us of an application by James Lee for an exchange of lands situate in the parishes of Bell and Three Rivers respectively, counties of Ashburnham and Wellington. When, having taken the evidence of Mr. Surveyor Chapman (who attended for the Department of Lands), E. G. Finch (Stock Branch), Bertram J. Lee, and Joseph White, all Crown witnesses, we reserve our report, &c., to Cumnock on the 20th instant, and now, having personally inspected the lands in question, we have to report:—

The land proposed to be surrendered adjoins water reserve 702 on Molong Creek, at (“Bridgewater”) the junction of the roads from Cumnock and Wellington respectively to Molong. The land proposed to be acquired comprises reserve 24,054 “for water supply and camping,” fronting the northern side of the Bell River and distant from Bridgewater about 60 chains along the Wellington-road, which passes through it. There is evidence that teamsters and other travellers camp on reserve 702, on the small area marked “A” (tracing X), and at the Bell River on the road at point “B” on reserve 24,054. The traffic towards Molong is much greater, from the direction of Cumnock, than it is from

from the direction of Wellington (more than three to one), and therefore if the exchange be effected, and the land surrendered be made a camping reserve, a much larger number of the travelling public would be accommodated, as a reserve at Bridgewater could be used by travellers on both roads, whereas the present reserve is only used by a few. The land comprising reserve 24,054 is somewhat better than that proposed to be surrendered; but in view of what we have already stated, we have no hesitation in recommending the exchange, but on the understanding that the land surrendered be reserved as a travelling stock and camping reserve. With the exception of the small area at "B," reserve 22,054 (at present under annual lease) is enclosed with applicant's freeholds—fences having been placed on both sides of the road; gates, however, have been left in the fences, but the enclosed parts appear to have been very little used by the public. For the purpose of this exchange the lands may be considered to be of equal value per acre, and the exchange should be on the basis of acre for acre, as suggested by the District Surveyor, except that an area of about 5 acres (red hatching of helio "Y") should be retained as a reserve—which will give the public a large camping place, and more extended access to water at the Bell River than appears to have been used of late. Although water in Molong Creek on the frontage of water reserve 702 is not permanent, it is nearly so, and the acquisition of the strip of land proposed to be surrendered, extending from the road to the creek at Bridgewater, will give access to a permanent waterhole. The improvements on the land proposed to be surrendered, consisting of ringbarking and fencing, are valued at £45 15s., and those on the land to be acquired—fencing, yards, dip, &c.—at £133 2s.; the latter are the property of the Crown. Of the fencing on the land to be surrendered, that along the eastern boundary would, to some extent, be useful in preventing travellers' stock from straying; but the fencing running easterly and westerly through the land would be of no use to the public, applicant might be permitted to remove it on condition that he re-erect it on the lines "a" and "b" and "c" and "d". The improvements on the land to be acquired should be paid for by applicant, unless it be considered that the value may be remitted on the grounds that they were effected under a misapprehension.

Given under our hands at the Court-house, at Cumnock, in the Colony of New South Wales, this 20th day of May, 1898,—

CHAS. E. FINCH, Chairman.
THOMAS S. PEARSE, Member.
H. S. M. BETTS, Member.

The cost of Board action in this case, including the attendance of Mr. Surveyor Chapman, is estimated at £5 15s. 6d.—C.E.F., Chairman, 20/5/98.

Inform Mr. Lee and Crown Land Agent of purport of recommendation.—C.E.F., Chairman. J. Lee and Crown Land Agent informed 25/5/98.

[Enclosure.]

Larras Lake Exchange.

This deponent, *Archibald Wellesley Chapman*, of Orange, Salaried Surveyor, being duly sworn, maketh oath and saith as follows:—Acting under instructions from the District Surveyor, I, on the 15th day of October last, inspected the lands proposed to be surrendered and acquired in the matter under consideration, and from my investigations I furnished a report, which bears date 7th December, 1897, and registered as 97-10,921 L.B., that report having been read, I can vouch for its accuracy, so far as my knowledge extends; reserve 24,024 is fenced, but access is provided by gates, yet 10 chains of the frontage is open for watering purposes; I did not observe that any notices were posted to designate that the land within the enclosure was a reserve; the fencing on the road had been up some five or six years; the camping reserve notification is dated 9th May, 1896, previous to which the land formed a village reserve; the junction of the Wellington and Cumnock roads is at Bridgewater; the Cumnock-road is the most used both by travelling stock and ordinary traffic; on the part proposed to be surrendered (on part of portion 3) there is a good waterhole of a permanent character and easy of access to stock; there is a very good camping place at Bridgewater, and that would be rendered better by the acquisition of the land to be given up by applicant; taking the grazing capacity of each area, they are about equal, or I believe the land to be surrendered is the better grassed, and I consider, taking the lands area for area, apart from improvements, that the exchange is fair and equitable, and that public interests would be benefited by adopting the proposal; I know that the banks on the creek near the bridge over it at the south-eastern part of portion 3 would require to be cut down to permit stock watering there, beside which water is not permanent there; if the exchange be approved, I would suggest that applicant be required to fence the western boundary of the block he proposes to surrender, and for that purpose he might be allowed to use the material in the fence at present on the land; there is permanent water in Jews' Creek, about 2 miles further towards Cumnock, which, should the Molong Creek fail, teamsters could take advantage of, and use the land to be given up as a resting place.

Sworn by deponent at Molong, this }
17th of May, 1898,—

A. W. CHAPMAN.

CHAS. E. FINCH, Chairman.
THOMAS S. PEARSE, Member.
H. S. M. BETTS, Member.

This deponent, *Edward George Finch*, of Molong, Inspector of Stock, being duly sworn, maketh oath and saith as follows:—I know the areas now under consideration; that proposed to be surrendered is at the junction of the Wellington and Cumnock roads; taking the numbers of stock using the respective roads, I think they are about equal, but the team traffic on the Cumnock-road is three times as heavy as that on the Wellington-road; the Cumnock-road is mostly used by travelling stock, but they often divert and come in by the Norah Creek road; travelling stock and teamsters' requirements would be met by the acquisition of the land to be surrendered, moreover, it would prove a benefit to those travelling by the Cumnock-road; if the exchange be adopted on the lines suggested by Mr. Chapman, water of a permanent character would be available at both places; I regard the areas about equal for grazing.

To Mr. Chapman: I know the reserve at Jews' Creek; it is very small, but the frontage affords permanent water; I think stock travelling from Cumnock would prefer to come in by the Norah Creek road in fair seasons, as being shorter, and so to avoid the metal; I view the proposal as one that will be of public benefit if adopted to both roads.

Sworn by deponent, at Molong, this }
17th of May, 1898,—

E. G. FINCH.

CHAS. E. FINCH, Chairman.
THOMAS S. PEARSE, Member.
H. S. M. BETTS, Member.

This deponent, *Bertram John Lee*, of Larras Lake, being duly sworn, maketh oath and saith as follows:—I appear here on behalf of my father, the applicant in the matter under investigation; the desire to acquire the reserve on the river is on account of its proximity to the woolshed which is on portion 17, parish of Three Rivers, and with a view of consolidating the lands of the estate; the capabilities of the two areas for grazing are about equal—if anything, the land to be given up is the better; undoubtedly the acquisition of the land at the junction of the roads will prove more advantageous to the public than the retention of the reserve on the river; I know the modifications proposed by Mr. Chapman; my father is agreeable to those, and he is willing to fence the western boundary of the land he desires to surrender; the creek banks at the north-eastern corner of portion 3 are very steep; the fence on the road through the reserve on the river was put up about five or six years ago; the sheep-yards and dip were constructed about three years ago; in putting on those improvements we supposed them to be on the freeholds of the estate; that is, as regards the dip and yards.

To Mr. Chapman: I should say the movements of travelling stock along the Wellington and Cumnock roads respectively are about equal, but the team traffic on the Cumnock-road is fully six times as heavy as that on the other road; teamsters much use the reserve at Bridgewater, and request permission to use the land proposed to be given up; on account of the scarcity of natural feed from there into Molong, we suffer some annoyance by teamsters putting their horses in on our lands without permission; on the part proposed to be given up there is a good waterhole in the creek, which is permanent; it carries water at present, although this is an exceptionally dry season; water was not available at the bridge at Bridgewater for about three months last summer, and for a like period of the previous summer; I have never known the creek to give out there before.

Sworn by deponent at Molong, this }
17th of May, 1898,—

B. J. LEE.

CHAS. E. FINCH, Chairman.
THOMAS S. PEARSE, Member.
H. M. S. BETTS, Member.

This deponent, *Joseph White*, of Molong, carrier, being duly sworn, maketh oath and saith as follows:—I carry on both the Wellington and Cumnock roads from Molong fairly constantly; I know the camping reserve on the Bell River, and I know the paddock owned by the applicant proposed to be surrendered; now thoroughly understanding the proposal, I am certain that if adopted teamsters would derive an advantage; stock can water in the creek at Bridgewater; I consider the respective areas as about equal for grazing—the land proposed to be surrendered is the better if anything; I cannot say whether the general run of the carriers about here know of the proposal.

To Mr. Chapman: I generally turn out at Jews' Creek; feed there is very scarce; I have camped at Bridgewater, and then, with Mr. Lee's permission, have turned my horses into the paddock he proposes to give up; I have known other carriers do the same thing; the creek near the bridge at Bridgewater does not carry water at the present, but on the creek in the land to be surrendered there is a good waterhole of permanent character; I have in camping had to take my team from Bridgewater on to the reserve on the Bell River, but that was a great inconvenience; if the proposal before the Board be favoured that will obviate that being done; the team traffic on the Cumnock-road is considerably heavier than on the Wellington-road.

To the Board: I have been carrying out of Molong for many years; am attending here this day to give evidence in my own interest.

Sworn by deponent at Molong, this }
17th of May, 1898,—

JOSEPH WHITE.

No. 18.

Dr. Ross, M.P., to The Under Secretary for Lands.

Dear Sir,

Parliament House, Sydney, 30 May, 1898.

I regret to hear (after my written protest on behalf of the public) that it is the intention of the Lands Department to effect an exchange of land at Larras Lake, near Molong, and to say that as soon as Parliament meets it is my intention to have the matter fully ventilated, as I look upon such case as simply a disgrace to the public, and downright injustice to the people, who, in hundreds, are looking for homes on the land.

Another case will demand my attention in the exchange of reserve 2,069, on Buckinbah Holding, county of Gordon, in Molong District, and which I understand steps are now completed to carry out this exchange—in fact, I am informed on good authority that the above reserve, 2,069, has been exchanged on the 22nd April last, 98–5,411. I asked for information in the matter, but which apparently has been refused, otherwise why is the answer being withheld? I beg to draw your attention to a reply one J. Cavanagh, of Yeoval, received, in which you informed him that an exchange of land was being proceeded with, and at present in the hands of the District Surveyor. I am informed the survey has been completed about ten days ago, and that Mr. McCulloch has let a contract for fencing on the land. Conduct like this is deserving of the highest censure, and warrants public exposure in the interest of the public. Other persons besides Cavanagh protested against this exchange.

I look upon exchanges under such circumstances, and in the face of the fact of so many *bona fide* persons seeking for land and homes, as a crying shame and disgrace.

I want also to know why action is being delayed with "Collins'" case at Molong, and when an inquiry is to be held as to his *bona-fides*.

When the "Nanima" cases are to be further dealt with—that several years past I brought before Parliament, and the Conditional Purchase Inspector dealt with for having received a bribe as proved at the Commission.

What, if any, action is to be taken in the "Angledool" cases, so frequently referred to me in Parliament, and when these cases will be inquired into, and why they are being delayed?

It is my intention to do everything in my power to have these cases fully investigated in the interest of the public.

Yours, &c.,
A. ROSS, M.D.

No. 19.

Question and Answer.

Wednesday, 31 August, 1898.

Question.

- (10.) Exchange of Land at Larras Lake, near Molong :—Dr. Ross asked the Secretary for Lands,—
- (1.) Is it his intention to proceed with the exchange of land at Larras Lake, near Molong, after the written protest made by Dr. Ross on behalf of the public?
 - (2.) Is he aware that the Crown land proposed to be exchanged is the best in the district, being bounded by the Bell River and Molong Creek, and contains a never-failing supply of water for teamsters and the travelling public, it being a valuable water reserve?
 - (3.) Will he see that steps are taken to have the application of the runholder for the exchange disallowed in the interest of the public?

Answer.

Mr. Brunker answered,—My honorable colleague understands that the Land Board have made a personal inspection of the lands proposed to be exchanged, and furnished a report thereon, which has not as yet been before him; but in dealing therewith every care will be taken by him to protect the interests of the public. He will be glad, too, to receive the benefit of the Honorable Member's experience of the land to help him to decide the case when it is ripe for decision.

No. 20.

Office Memorandum.

Larras Lake Exchange.—Mr. James Lee.

4 October, 1898.

THIS case has awaited an opportunity being afforded Dr. Ross, M.L.A., to present his objections to the proposal. He has, however, not written further.

The report of the Local Land Board at Molong goes to show that said proposal, while serving the applicant, is really most advantageous to the public, as affording a camping-place in a better situation than the present reserve. The Board personally visited the lands, and their recommendations have the support of the Stock Inspector, the District Surveyor, and Mr. Surveyor Chapman, who inspected the lands. Small modifications have been proposed, and are agreed to by the applicant's representative, viz., as indicated by coloured edgings on lithograph map.

It is not exactly clear whether it was intended by the Board that applicant should receive from the Crown an area equal to that he surrendered, or 5 acres less. The Board report the Crown lands to be somewhat the better, but appraise both as of equal value, acre per acre, adding, however, the exception that there be excluded from the exchange 5 acres of the reserve at the river crossing. If the proposal be proceeded with, and applicant be required to pay for improvements on Crown lands, it would appear reasonable to carry out the exchange on a basis of equal areas.

Improvements on the surrender lands are valued at £45 15s. (consisting chiefly of fencing), and on the exchange area at £133 2s. (principally sheep-dip and fencing).

Whereas, however, reserve 24,054, forming the subject of the exchange application, is situated in the Wellington district, and the inquiry was held by the Molong Board alone, without special authority, and seeing there is opposition raised by Dr. Ross, M.L.A., against the proposal, perhaps it would be well to remit the case for a report further of the Wellington Board; and it is recommended that it be forwarded accordingly.

C. E. RENNIE.

Mr. Saunders, in first instance. Is this the case respecting which Dr. Ross asked a question in Parliament?—W.H., 4/10/98. This is a case referred to by Dr. Ross in Parliament, *vide* question of 31/8/98. The further inquiry proposed will afford the objectors an opportunity of presenting their view of the proposed exchange to the Department.—C. J. SAUNDERS, 6/10/98. The case may be remitted to the Land Board at Wellington for inquiry and report, and Dr. Ross informed of the reference.—W. HOUSTON, Under Secretary, 6/10/98. Approved—J.H.C., 7/10/98. Dr. Ross, M.P., and Jas. Lee, Larras Lake, Molong, informed 12/10/98. See covering paper.—C.E.F., Chairman, 24/10/98. The Chairman, L.L.B., Orange.—E.A.B. (for U.S.), B.C., 12/10/98.

No. 21.

The Under Secretary for Lands to Dr. Ross, M.P.

Sir,

Department of Lands, Sydney, 12 October, 1898.

I have the honor to inform you that the papers respecting the application by James Lee, for exchange of land at Larras Lake, have been referred to the Local Land Board at Wellington for inquiry and report, part of the lands affected being within the Wellington Land District.

I have, &c.,

W. HOUSTON,

Under Secretary

(per W.H.C.).

No. 22.

Dr. Ross, M.P., to The Under Secretary for Lands.

Dear Sir,

Parliament House, Sydney, 13 October, 1898.

In reply to yours, No. 98-13,197, of 12th October, 1898, *re* exchange of land at Molong to James Lee, informing me that the case has been referred to the Local Land Board at Wellington, I have to state that, in the interest of the general public, the land being so near Molong, it would be far more satisfactory for the Local Land Board to hear and decide the case at Molong, where the public may be afforded the opportunity of attending at the hearing, in place of forcing them to travel to Wellington, a distance of 40 miles. I hope, therefore, that when the Local Land Board is dealing with the case that it will, for these reasons, be heard at Molong.

Yours, &c.,

A. ROSS, M.D.

Larras Lake Exchange.—Jas. Lee. Acknowledge receipt and informed that this exchange proposal has already been dealt with by the Molong Local Land Board, and the case has been forwarded to the Wellington Board for report, as part of the land is situated within that land district.—E.A.B. (*for* U.S.), 19/10/98.

Dr. Ross, M.P., informed 19/10/98.

No. 23.

The Under Secretary for Lands to Dr. Ross, M.P.

Sir,

Department of Lands, Sydney, 19 October, 1898.

I have the honor to acknowledge receipt of your letter of the 13th instant with respect to the application for exchange of land by James Lee at Larras Lake, and suggesting that the case be heard by the Molong Land Board instead of by the Wellington Board, and to inform you that this exchange proposal has already been dealt with by the Molong Local Land Board, and the case has been forwarded to the Wellington Board for report, as part of the land affected is situated within that land district.

I have, &c.,

W. HOUSTON,

Under Secretary

(*per* E.A.B.).

No. 24.

Office Memorandum.

Larras Lake Exchange.—James Lee. Land Districts Molong and Wellington.

24 October, 1898.

(1.) Bring this case on at the next meeting at Wellington, after that of the 27th instant, and in the mean time—

(2.) Let the proposed exchange be notified in the *Gazette*

(3.) And local newspapers (Wellington and Molong).

(4.) Have copies of the plan showing the proposed exchange exhibited at the Crown Lands Offices at (a) Wellington and (b) Molong, and at the (c) Police Station at Cumnook.

(5.) When sending notices to parties advise (a) James Lee, (b) Dr. Ross, (c) Mines, and (d) any objectors who may have come forward.

(6.) (a) James Lee, (b) Dr. Ross, and (c) Mines should have their attention drawn to the notices so soon as they appear.

(7.) The helio. should have shown on it the 5 acres reserve proposed by the Molong Land Board.

CHAS. E. FINCH,

Chairman.

The Clerk-in-charge, L.B.O., Orange.

Will D.S. please supply the required number of helios., &c., for exhibition as above, and indicate the position of the 5 acres proposed reserve.—W.A. (*pro* Chmn.), 24/10/98. Received, D.S.O., Orange. Mr. Day, 26/10/98. Three helios. herewith noted as requested.—A. R. GALL (*pro* Dis. Surv.), 31/10/98. The Chairman.

Notice to *Gazette* (Government), Wellington *Gazette*, Crown Lands Agent, Wellington; Crown Lands Agent, Molong; Dr. Ross, Board Office, 5/12/98.

Proposed Surrender and Exchange, counties of Ashburnham and Wellington, parishes of Bell and Three Rivers. Applicant, James Lee. Plans of the above-mentioned proposal may be seen at the Office of the Crown Lands Agent at Wellington, and at the Local Land Board Office at Orange. Any objections thereto must be lodged in writing with the Chairman of the Local Land Board at Orange on or before the 10th day of January, 1899.—CHAS. E. FINCH, Chairman. Land Board Office, Orange, 5/12/98.

No. 25.

Question and Answer.

Tuesday, 6 December, 1898.

Question.

- (7.) Exchange of Land on Larras Lake, near Molong :—Dr. Ross asked the Secretary for Lands,—
- (1.) Has anything yet been done respecting an application made by one James Lee, of Larras Lake, near Molong, in regard to an exchange of a valuable water reserve in the neighbourhood of Larras Lake for land of a most inferior and waterless character?
- (2.) Will he state if the Local Land Board has yet dealt with the case, or if they have recommended that the exchange should take place; if so, when, and on what public grounds?

Answer.

Mr. Bruncker answered,—

- (1.) The application by James Lee for exchange of land at Larras Lake has been referred to the Wellington Land Board for inquiry and report.
- (2.) The case has not yet been dealt with by the Board.

No. 27.

Office Memorandum.

Proposed Surrender and Exchange, counties of Ashburnham and Wellington, parishes of Bell and Three Rivers.—Applicant, James Lee.

PLANS of the abovementioned proposal may be inspected at the Office of the Crown Lands Agent at Wellington, and at the Local Land Board Office at Orange.

Any objections thereto must be lodged in writing with the Chairman of the Local Land Board at Orange, on or before the 10th January, 1899.

Land Board Office, Orange, 10th December, 1898.

CHAS. E. FINCH,
Chairman
(per W.A.).

The Crown L. A. at Wellington for exhibition, please, till the 10th proximo.—CHAS. E. FINCH, Chairman, per W.A. Exhibited as directed.—A. G. CHIPLIN, C.L.A., Wellington, 10/1/99.

No. 28.

Dr. Ross, M.P., to The Chairman, Land Board, Orange.

Dear Sir

Parliament House, Sydney, 12 December, 1898.

I am in receipt of your L.B. 98-8,292, of 5th December instant, *re* exchange of land at Larras Lake, near Molong, of Mr. Jas. Lee, and I will feel obliged by your favouring me with two litho. copies or sketches, showing the area and position of the land, to enable me to reply to the same.

Kindly forward the same to my address at Molong without delay.

Yours, &c.,
A. ROSS, M.D.

Reply, 17/12/98. See action on, 98/9,860, L.B.

No. 29.

Dr. Ross, M.P., to The Under Secretary for Lands.

Dear Sir,

Parliament House, Sydney, 13 December, 1898.

May I ask you to kindly favour me with two copies, lithos. or sketches, showing the area and position of the land now proposed to be exchanged at Larras Lake, near Molong, parish of Bell, to Jas. Lee, to enable me to take steps to protest against the exchange which is to be dealt with by the Local Land Board on the 10th January, 1899.

Awaiting early answer.

Yours, &c.,
A. ROSS, M.D.

Aln. 98, 13,197.—Chairman, Orange, 12/10/98. Will the District Surveyor be good enough to supply Dr. Ross with the sketches desired? The exchange is now before the Board for inquiry.—E.A.B. (for U.S.), 13/12/98. Dr. Ross infd. 13/12/98. Would the Chairman please cause the attached helios. (two) to be forwarded to Dr. Ross to-day.—A. N. GALL (*pro.* District Surveyor), 15/12/98. A. Ross, M.P., infd. 14/12/98.

No. 30.

Dr. Ross, M.P., to The Under Secretary for Lands.

A most urgent and important Land Case.

Dear Sir,

Parliament House, Sydney, 2 January, 1899.

Re proposed exchange of land at Larras Lake, near Molong (98-2,563, portion 38, Bell, reserve 38-24,054 for water supply and camping ground, notified 5th May, 1896), 177,320 acres, and which I understand is to be dealt with by the Local Land Board on 15th January instant.

In the interest of the general public, and also stock and teamster travellers, I have again to offer my emphatic protest against this exchange of land as one that will prove a serious injustice to the public. The reserve proposed to be exchanged consists of nearly a mile frontage to the Bell River of land honestly worth from £4 to £6 per acre for land some little distance away, adjoining the Molong Creek, in county of

of Ashburnham, and which is land of a very inferior quality, being cut off from the Molong Creek and the water supply. The proposed change, if carried, will be a most scandalous one, and a gross injustice to the public and public estate, because the land offered for exchange is not only cut off (the part of it on the flat) from the creek, but of a barren, inferior quality, and not worth £1 per acre.

I do sincerely hope that no such exchange as proposed will ever be allowed, as the "reserve" consists of most valuable land on the main road from Molong to Wellington, and consists of a never-failing supply of water in all seasons.

I do again, in the interest of the public, wish to impress upon the attention of the Minister for Lands not for one minute to entertain this proposal for exchange, and which, if allowed or tolerated, would be a most crying wrong and injustice to the public.

As the recognised representative of the district, I deem it my imperative duty to offer my most emphatic protest against this proposed exchange, and which I do most solemnly and sincerely hope will never be carried into effect. I have personally known the two portions of land for upwards of forty years, and know the full facts of the case to be correct and such as I have described, and for this reason, and this only, the interest and rights of the public, I offer my unhesitating protest.

Yours, &c.,
A. ROSS, M.D.

Diagram enclosed. Blue shows water reserve, with mile fronting Bell River; red shows land proposed to be exchanged and cut off from the Molong Creek by road marked XXX, leaving the upper red portion a barren, waterless hill, not worth £1 per acre.

Dr. Ross, M.P., protesting against exchange of land at Larras Lake.—Submitted that this letter be forwarded to the Local Land Board for consideration, and that Dr. Ross be informed accordingly, and that his protest will be considered by the Minister upon receipt of the Land Board's report.—E. A. BRONSDON, Clerk-in-charge, Alienation Branch, 5/1/99.

Yes.—W. H. CAPPER (*pro*. Under Sec.), 6/1/99. Dr. Ross, M.P., informed 1/99. The Chairman, Local Land Board, Orange.—E.A.B. (for the U.S.), 9/1/99. B.C., Lands, Sydney.

Advise Dr. Ross that the date stated in his letter for Board meeting is incorrect, and when case has been set down he will be advised *re* date, which will be about end of February next. Add that the tracing accompanying his letter does not show the modification proposed. Suggest that as no objections have been lodged at this office, it would be well for some party or parties to attend at the Board meeting to place before the Board his views in the matter.—CHAS. E. FINCH, Chairman (*per* W.A.).

Dr. Ross, M.P., informed 12/1/99. Board, Wellington. Board meeting at Wellington, 2nd March, 1899. Notified, 9/2/99.

No. 31.

J. Lee, Esq., to The Chairman, Land Board, Orange.

Sir,

Larras Lake, Molong, 14 February, 1899.

I have your notice *re* consideration of my proposed exchange by the Wellington Land Board, on the 2nd March next. I am perfectly willing to allow the matter to proceed without my attendance, but, in order to meet any objections that may have been lodged, I would thank you to advise me as to the grounds of opposition to the matter being favourably dealt with. I unhesitatingly state that to give effect to the recommendation of the Molong Land Board will prove a lasting public benefit, as the site of my surrender will (when added to the already inadequate reserve) confer to travellers what they have been short of for years, which statement is strongly supported by Departmental officers.

Your early reply will oblige.

Yours, &c.,
JAMES LEE
(*per* B. J. LEE).

The only objection received is from Dr. Ross, M.L.A., who makes a general objection. Inform Mr. Lee, and supply him with copy of, or extracts from, Dr. Ross's letter.—C.E.F., Chairman, 22/2/99. Mr. Ardill. Urgent. James Lee, with extracts from protest by Dr. Ross, 24/2/99.

No. 32.

Question and Answer.

Thursday, 23 February, 1899.

Question.

- (2.) Exchange of Land at Larras Lake, near Molong:—Dr. Ross asked the Secretary for Lands,—In reference to Dr. Ross's Question during last Session concerning an application made by the owners of Larras Lake, near Molong, the hearing of which is to take place at Wellington on or about the 2nd March, for an exchange of barren, inferior, waterless land for a "water reserve" on the Bell River, and consisting of rich agricultural land, and a never-failing supply of water, will he, in the interest of settlers, teamsters, and general public, instruct the Local Land Board to hear the application at Molong (where the land is situated), in place of removing the case to Wellington, which is 40 miles distant from Molong, and which precludes witnesses from attending to give evidence against the exchange?

Answer.

Mr. Carruthers answered,—The application by James Lee for exchange at Larras Lake affects land in the Land Districts of Molong and Wellington. The case has already been heard at Molong by the Molong Board, and is now before the Wellington Board to be heard at Wellington by that Board. When the reports of the Board and evidence are before me I will carefully analyse the same before giving my decision.

No. 33.

Decision of Local Land Board.

Crown Lands Act of 1884—(Part II., Section 14, Sub-section 4.)

New South Wales, }
To wit. } Exchange of Lands, Larras Lake Estate, Land Districts of Molong and Wellington.

WHEREAS on the 2nd day of March, 1899, it became a matter for investigation before us, by direction of the Secretary for Lands, for a report upon an application by James Lee for an exchange of lands, situate in the parishes of Bell and Three Rivers respectively, counties of Ashburnham and Wellington, the matter having previously been reported on by the Molong Land Board, and having taken the evidence of Surveyor Chapman and inquired into the said matter, we have to report that we fully endorse the opinion of the Molong Land Board, as set out in their report of 20th May, 1898. Unquestionably the public will be better served by the acquisition of the additional area at Bridgewater than by the retention of the reserve at the Bell River crossing—at which place the small reservation suggested by the Molong Land Board will meet public requirements, while an enlargement of the reserve at Bridgewater will afford accommodation to travellers and others approaching Molong from the direction of Cumnock, as well as those from Wellington.

Given under our hands, at the Court-house, at Wellington, in the Colony of New South Wales, this 2nd day of March, 1899,—

CHAS. E. FINCH, Chairman.
R. T. B. GADEN, }
E. J. MATTHEWS, } Members.

[Enclosure.]

This deponent, *Archibald Wellesley Chapman*, of Orange, Government Surveyor, being duly sworn, maketh oath and saith as follows :—Under instructions from the District Surveyor, I inspected the lands within the proposed exchange, and from my observations and notes made on the ground I furnished a report; that report is correct and true to the best of my knowledge and ability; I measured the land sought to be acquired by the applicant; the Molong-Wellington road passes through the portion for about 10 chains; taking the two areas as a whole, I consider their value to be about equal; I believe the water on the frontage to be surrendered is permanent; I have often been on the reserve and found water there; the reserve at Bridgewater is much used by teams; I see on helio marked "Y" an area hatched in red; the reservation of that will tend to afford to the public extra accommodation for camping, but really the reservation is not needed; the facilities towards public benefit will be much better served by the acquisition of the land to be surrendered.

Sworn by deponent at Wellington, }
this 2nd of March, 1899,— }

CHAS. E. FINCH, Chairman.
R. T. B. GADEN, Member.
E. J. MATTHEWS, Member.

A. W. CHAPMAN.

No. 34.

Office Memorandum.

Larras Lake Exchange.—Mr. James Lee.

EXCHANGE of lands, as indicated by red and blue edgings on within lithograph map, is recommended by the Local Land Board both at Molong and Wellington, being a modification of small extent of the proposal contained in the application. Applicant's consent has been given.

The proposal has been protested against by Dr. Ross, M.L.A., and has been made the subject of questions by him in the House on three occasions; but no opposition has been met with from any other quarter, although every opportunity has been given to the public to state objections.

It is recommended that the report be approved, and that, subject to applicant depositing a further sum of £20 towards cost of survey and final expenses, and agreeing to pay the difference in the value of improvements, amounting to an excess on the Crown lands of £87 7s., measurement be made on an equal area basis. The principal improvements are a new sheep-dip and yard constructed in the south-eastern corner of the reserve, "about three years ago," on the supposition, it is stated in evidence, that they were being put on the freehold. This statement, however, is hardly borne out by the report of the surveyor, that a few panels of the old fence at the corner (viz., of William Lee's 640 acres) had been pointed out as marking the original boundary.

C. E. RENNIE, Chief Draftsman, 26/3/99.

The Under Secretary.

For approval of the proposed action—Dr. Ross, M.P., might, perhaps, be informed of the Minister's decision, and if it be favourable to proceeding with the exchange, invited to inspect the official papers.—W. HOUSTON, Under Secretary, 27/3/99. Ask Dr. Ross to inspect the papers.—J.H.C., 27/3/99.

Dr. Ross, M.P., 30/3/99.

No. 35.

The Under Secretary for Lands to Dr. Ross, M.P.

Sir,

Department of Lands, 30 March, 1899.

Referring to your objections relative to Mr. James Lee's application for exchange of land at Larras Lake, I have the honor to inform you that the Wellington Local Land Board has now reported favourably on the proposal, and the Secretary for Lands invites you to peruse the papers at this Department before finally giving his decision thereon.

I have, &c.,

W. HOUSTON,

Under Secretary

(per W.H.C.).

No. 36.

No. 36.

Dr. Ross, M.P., to The Secretary for Lands.

Dear Sir,

Parliament House, Sydney, 24 April, 1899.

I am anxiously waiting to receive a copy of the report of the Molong Local Land Board in the case *re* "Exchange of land applied for by Jas. Lee, of Larras Lake, near Molong," and which was dealt with by the Land Board at Wellington some time back.

I have called several times at the Department of Lands, and at your request, to see the papers, but I have been met with the petty excuse that either yourself or the Under Secretary was busy or could not be seen, so much so that it appears to me that the Department is under the control of the messengers, and I decline, therefore, to be fooled about any longer.

I have again to request that a copy of the report of the Local Land Board in the above case be forwarded to me, as the case is one of "far too serious a nature in the interest of the general public" for me to discontinue to protest against the exchange of this valuable piece of land, and one that has a never-failing supply of water.

Yours, &c.,

A. ROSS, M.D.

I invited Dr. Ross to call here to inspect the papers, and now that he has been so met at this office I direct that a clerk ascertain the Doctor's convenience and wait upon him with the papers for his perusal.—J.H.C., 25/4/99.

Dr. Ross, M.P., asked. Copies of Molong and Wellington Bd. reports furnished, 26/4/99.

No. 37.

The Under Secretary for Lands to Dr. Ross, M.P.

Sir,

Department of Lands, Sydney, 26 April, 1899.

Referring to your letter of the 21st instant respecting the exchange of lands at Larras Lake with James Lee, I have the honor to forward herewith copies of the reports of the Molong and Wellington Land Boards on the proposal as desired, and to inform you that if you will intimate a convenient time, an officer from this Department will wait upon you at the Legislative Assembly with the papers in order that you may peruse them.

I have, &c.,

W. HOUSTON,

Under Secretary

(per W.H.C.).

No. 38.

Dr. Ross, M.P., to The Secretary for Lands.

Dear Sir,

Parliament House, Sydney, 15 May, 1899.

I have to thank you for copies of the report of the Land Board respecting the proposed exchange of land belonging to Mr. James Lee, of Larras Lake, near Molong, for a valuable "water reserve" of never-failing supply of water in all seasons for an absolute barren, waterless piece of land.

I have known the water reserve as a resident of Molong for nearly forty years, and therefore can without contradiction vouch for the value of the water reserve. For this reason I beg and pray of you under no consideration, in your capacity of Minister for Lands and guardian of the public interest, ever to think of condescending to grant one single inch, far less this valuable piece of land and water reserve, by way of exchange. I have already repeatedly warned you against carrying out this exchange of land, as it would be an everlasting injustice and injury to the public, owing to being deprived not only of the land, but this never-failing supply of water. You lose sight of the fact that the Larras Lake Estate consists of something like 40,000 or 50,000 acres of land; and no rational-minded man can say that land monopoly is in the interest of the future welfare of the Colony.

I again enter my determined protest against the exchange of this water reserve. I would sooner resign my seat in Parliament than stand by in idleness to see such a gross injustice ever being attempted to be inflicted upon the public without offering my most emphatic protest.

Yours, &c.,

A. ROSS, M.D.

Better submit in usual way.—

No. 39.

Office Memorandum.

Larras Lake Exchange.—Dr. Ross' Protest.

7 July, 1899.

THE area shown by blue hatching, left in the original subdivision of the adjacent land for a village, not being required for that purpose, was on 9th May, 1896, formally reserved as for water supply and camping.

Mr. Lee, the owner of the land surrounding the reserve, has held it under annual lease for several years and effected improvements consisting, at date of inspection, of sheep-dip, yards, fencing, and ring-barking, of a total value of £135.

The application of Mr. Lee to be permitted to acquire the freehold of this reserve in exchange for the area shown by red hatching from the first met with emphatic objection from Dr. Ross.

But all the officers who have dealt with the case, including the members of the Local Land Boards of Molong and Wellington, the local Inspector of Stock, the District Surveyor, and the inspecting Surveyor, are unanimous in stating that the exchange in the modified form shown by red tint on tracing "X" will be decidedly to the public advantage. The lands are reported to be of approximately equal value; the surrender area commands permanent water, and as a camping and water reserve will afford advantage and convenience

convenience to a much larger section of the travelling public than reserve 24,054, as the traffic on the Molong-Cumnock road is fully three times as great as that on the Molong-Wellington road. The members of the Molong Board personally inspected the sites.

Questions, relative to this proposal, have been asked by Dr. Ross in the House. But neither at the meeting of the Local Land Board at Cumnock nor at the subsequent meeting at Wellington was Dr. Ross present or represented.

Particular care was taken that Dr. Ross should receive due notice of the Board's meetings; and he has been supplied with copies of illustrative sketches. He was also invited by Mr. Secretary Carruthers to call at Head Office and inspect the papers, *vide* minute 25/4/99, on Aln. 99-5,501, and was then supplied with copies of the Board's reports.

Nevertheless, in a later communication from Dr. Ross, he reiterates most emphatically his objections (Aln. 99-6,625), which are, briefly, that the reserve in much better land than that offered in exchange for it, and commands a never-failing supply of water.

No one else has objected either by letter or appearance before the Local Land Boards.

As the preponderance of evidence is in favour of the exchange, the proposal should, perhaps, be proceeded with.

The Under Secretary.

C. E. RENNIE,
Chief Draftsman.

There is no reason why the recommendations of the Local Land Boards should not be acted on. It is difficult to understand the opposition of Dr. Ross to the proposed exchange, which the sworn evidence given at the Land Board inquiries shows is in the public interest,—W. HOUSTON, Under Secretary, 10/7/99.

Approved.—J.H.Y., 11/7/99. Dr. Ross, M.P., informed 15/7/99. Before survey instructions are issued, applicant should be communicated with as indicated in minute registered, Aln. 99-4,257.—R.H., 21/7/99. Alienation Branch, £20, Jas. Lee, Larras Lake, Molong, and Treasury, 26/7/99.

No. 40.

Dr. Ross, M.P., to The Secretary for Lands.

Protest against Exchange of Land.

Dear Sir,

Parliament House, Sydney, 27 July, 1899.

I beg to draw your attention to my speech last night in the House *re* the Exchange of Land at Larras Lake, near Molong, to Mr. James Lee, and to again offer my emphatic protest (in the interest of the general public) to the exchange taking place, and which will be most prejudicial to the public interest.

Yours, &c.,

A. ROSS, M.D.

No. 41.

J. Lee, Esq., to The Under Secretary for Lands.

Sir,

Larras Lake, Molong, 2 August, 1899.

Having reference to your letter of the 26th ultimo, asking for the payments of £87 7s. for the value of improvements on the land to be acquired, under the Larras Lake Exchange, and the sum of £20 towards further costs in connection therewith, I have the honor to represent that the matter was first before the Molong Land Board on the 17th May, 1898, who, after personally inspecting the lands involved, recommended that the proposal to exchange be given effect to (20/5/98), then valued the improvements on the area to be secured by me at £133 2s. I then made application for a remission of the value of these improvements, and on the 2nd August, 1898, the Land Board upon the evidence then before it recommended that as the fencing along the road had been put up by me to protect the lands I held under annual lease, and the sheep-dip and new yards effected by me under misapprehension as to my boundaries, the values of those be remitted to me—that would be over £100.

I apprehended that the exchange, &c., would then be approved, but it appears from the documents I heard of at the last inquiry that Dr. Ross, the Parliamentary representative for Molong, urged the Minister to again re-open the matter, as he had objections to lodge. The matter was then referred to the Land Board at Wellington, who, on March 2nd last, after hearing the Crown officer in evidence, endorsed the recommendation of the Molong Board. Now, Sir, am I to be mulct in costs owing to the action of Dr. Ross, who failed on both occasions to offer any objection or attend—in fact, all the testimony was in favour of the proposal? I lodged a reasonable sum to cover costs, and have yielded to a curtailment of the area I applied for; thus, taking the whole of the circumstances into consideration, I submit in justice that the exchange be proceeded with, without further call on me; and, as there is some error in the amount to be remitted to me for the improvements, I urge that it be adjusted.

I have, &c.,

JAMES LEE.

Larras Lake Exchange—Mr. James Lee. The writer may be informed that the inquiry at Wellington was unavoidable, from the fact that the Crown land proposed to be dealt with was situated in that Land District, and that no authority had been given to the Board at Molong (as provided by law) to wholly deal with the matter under inquiry. Also, as to the Departmental claim to payment of £87 7s. on account of improvements on the lands proposed to be surrendered and of those on the exchange area, to all of which the Crown is entitled to assert a claim. The latter were erected upon the reserve without permission, and the Department is only following an invariable rule in claiming them to be Crown property, of which rule the Land Board is cognisant. Further, the Board did not recommend that this practice be departed from. The circumstances of the case do not support the claim that the improvements were effected on Crown land under a misapprehension.—C. E. RENNIE, Chief Draftsman, 12/8/99. The Under Secretary.

May be explained to the writer.—W. HOUSTON, Under Secretary, 12/8/99. Approved.—J.H.Y., 15/8/99. Jas. Lee, Larras Lake, Molong, 21/8/99.

No. 42.

The Under Secretary for Lands to J. Lee, Esq.

Sir,

Department of Lands, Sydney, 21 August, 1899.

In reply to your letter of the 2nd instant, in connection with payment of costs and excess value of improvements on the lands to be granted under the Larras Lake Exchange, I am directed by the Secretary for Lands to inform you that the lands to be dealt with being situated in the Land Districts of Molong and Wellington, it was necessary, under the Crown Lands Acts, that an inquiry should be held in each district.

As regards the Departmental claim for payment of £87 7s. for excess value of improvements, I have to state that the improvements on the exchange area were erected upon the reserve without permission, and the Department is following an invariable rule in claiming them as Crown property. The Local Land Board did not recommend that this practice be departed from, and the circumstances of the case do not support the claim that the improvements were effected on Crown land under a misapprehension.

I have, &c.,

W. HOUSTON,
Under Secretary
(per W.H.C.).

No. 43.

Dr. Ross, M.P., to The Under Secretary for Lands.

"Public matters of urgency and importance."

Dear Sir,

Parliament House, Sydney, 29 August, 1899.

In my speech on the 26th July, 1899, on the Address in Reply to the Governor's opening speech (see *Hansard*), I took the trouble to bring under the notice of the Minister for Lands several most important public matters, and to which I am anxiously waiting for some satisfactory and definite reply or answers.

The questions at issue are as follows, viz. :—

1. Will you inform me what decision, if any, the Minister for Lands has arrived at in regard to an application made by Mr. James Lee, of Larras Lake, Molong District, county of Gordon, for exchange of land, and which was referred to by me in the House on the 26th July last?
2. What steps, if any, he intends to take in dealing with the New Angledool cases, &c., and also referred to by me?
3. What steps, if any, he intends to take in the Nanima cases, district of Molong, county of Ashburnham, and in which one (a conditional purchase inspector) Battye was implicated, and reported on by the Royal Commission that was appointed to inquire into the matter?

These matters are of too serious a public character for me to allow them to pass without the fullest consideration and investigation in the interest of the general public.

Hoping to be favoured with a reply without delay.

Yours, &c.,

A. ROSS, M.D.

Submitted for the Minister's consideration, together with the papers in two cases referred to by Dr. Ross; *vide* statement as to the stages at which the cases stand at present.—W.H., 30/8/99.

Dr. Ross, M.P., informed of state of each matter, 2/9/99.

No. 44.

The Under Secretary for Lands to Dr. Ross, M.P.

Sir,

2 September, 1899.

In reply to your letter of the 29th ultimo, inquiring as to the Larras Lake Exchange, the Angledool cases, and the Nanima cases, referred to in your speech in the Legislative Assembly on the 26th idem, on the Address in Reply, I have the honor to invite your attention to my communication of the 15th July last, intimating that it had been decided to proceed with the Larras Lake Exchange, and 20th June last, informing you that, in view of the advising of the Crown Law Office, it has been decided not to proceed any further in the Nanima cases.

With regard to the Angledool cases, I have also to refer you to my letter of the 2nd July, 1898, inviting your attention to the replies of your Parliamentary questions, and inquiring whether you are prepared with any evidence against the homestead lessees, and to the reply to the question asked by you in the Legislative Assembly on the 30th August, 1898, to the effect that until reliable evidence is forthcoming the Government are powerless to deal with the alleged wholesale system of dummying.

I have, &c.,

W. HOUSTON,
Under Secretary
(per W.H.C.).

No. 45.

J. Lee, Esq., to The Secretary for Lands.

Sir,

Larras Lake, Molong, 5 September, 1899.

I have your communication before me of the 21st ultimo, *re* the necessity of two inquiries and two reports by different Land Boards, *re* my proposal to exchange lands on Larras Lake, and stating that it was necessary under the Crown Lands Acts that an inquiry should be held by the Boards in each district. I am quite content with the law, if that be so, but I cannot conceive why a trifling matter like mine should need so much consideration, and an endorsement by a second Land Board, while huge exchanges are dealt with by one Board, embracing lands in two or more Land Board Districts—the nearest one to this I know of is by the Union Bank—surrendering lands on Nanima (Molong District) for lands in the Grenfell District (not even same divisions of the Colony), their proposal was dealt with by the Grenfell Board only, and I believe the exchange has been approved. I am quite at a loss to understand the

the concluding paragraph of your letter, where you state "the Land Board did not recommend that the practice be departed from." A copy of the recommendation was read over at the conclusion of the case, when the Board certainly recommended that the value of the fencing along the road, sheep-dip, and yard be remitted to me—the Crown taking the value of the other improvements. If there be any mistake in the purport of the Board's recommendation, as sent you as against that come to in Court, I pray that you will send the case back to the Board, as I am convinced that they concluded the circumstances of the case warranted the Crown acting on their recommendation. In conclusion, I beg that you will treat my proposal as others have been treated, and adopt the recommendation of the Land Board, who thoroughly investigated my application before arriving at a decision.

I have, &c.,
JAMES LEE.

No. 46.
Office Memorandum.

Larras Lake Exchange.—Mr. James Lee.

26 September, 1899.

THE applicant for the exchange further objects to the amount of costs incurred by the double inquiry, and to his being called upon to pay for certain improvements erected by him on Crown lands, stating that he understood the Board to recommend the Crown to waive claim; and he asks that reference on this point be again made to the Board.

As to costs, a sum of about £27 6s. has already been expended (partly for survey of reserve 24,054, £11 4s.), whereas the deposit and survey fee paid amount to but £18.

Perhaps applicant may be informed that the expenses of the hearings by the two Boards, which may be defined as not exceeding £8 8s., are not regarded as out of proportion to the importance of the question considered; that the costs of investigation and office action preceding the hearing amounted to £7 8s.; and that the balance of the deposit and survey fee lodged is required, together with the £20 asked for, to cover the expenses mainly of survey, but also of final action. Further, as to payment for the improvements, that the circumstances of the case do not appear to warrant departure from the established practice in similar cases.

C. E. RENNIE.

The Under Secretary.

May be informed accordingly.—W. HOUSTON, Under Secretary, 27/9/99. Approved.—T.H.H., 29/9/99. James Lee, Larras Lake, Molong, infd. 6/10/99.

No. 47.
Dr. Ross, M.P., to The Secretary for Lands.

Most Important Letter.

Dear Sir,

Parliament House, Sydney, 4 October, 1899.

To-day I called at your office to see you, but unfortunately you happened to be out, and I was compelled to leave for the country in the evening.

Let me beg of you to deal with the Land Exchange case without delay, viz. :—

James Lee's application, Larras Lake, near Molong.—I am determined to fight this shameful case to the bitter end in the interest of public right and justice. Over and over I have protested against this land exchange taking place, and the application is one that ought never to have been entertained. The Lee Estate consists of some 40, or 50,000 acres of land, and yet the owner of this little empire has the audacity to take away this valuable water reserve from the public. The land sought to be obtained by exchange is a most valuable reserve of permanent water supply in all seasons, with nearly a mile frontage to the Molong Creek and Bell River. See to the case at once, and put a stop, at all hazard, to the proposed exchange being allowed or carried out.

I have known the land for upwards of forty years. Put your foot down and deal with the case like a man, in the interest of right and justice. Come what may, I am determined to fight the case to the bitter end.

Yours, &c.,

A. ROSS, M.D.

Dr. Ross protests against Larras Lake Exchange.—This protest contains nothing which the writer has not previously asserted, while his attitude is opposed to the evidence of every one else who has been heard and to the recommendation of every local officer who has reported on the proposal. The case received every publicity, abundant opportunity having been afforded by two Land Board inquiries for the merits of the proposal to be tested; and the conclusion to permit the exchange to proceed was, therefore, not arrived at without due consideration. The whole facts are brought forward on Aln. 99-9,459, and in view of the decision given thereon, further action is merely awaiting payment by Mr. Lee of the additional sum asked for towards costs of inquiry, survey, &c.—C. E. RENNIE, 11/10/99. The Under Secretary.

No. 48.
The Under Secretary for Lands to J. Lee, Esq.

Sir,

Department of Lands, Sydney, 6 October, 1899.

Referring to your letter of the 5th instant regarding payment of costs and value of improvements in connection with the Larras Lake exchange of lands, I have the honor to inform you that the expenses of the hearings by the two Land Boards, which do not exceed £8 8s., are not regarded as out of proportion to the importance of the question considered. With regard to the improvements, payment for which is required, I have further to inform you that the circumstances of the case do not appear to warrant departure from the established practice in similar cases.

I have, &c.,

W. HOUSTON,
Under Secretary
(per W.H.C.).

No. 49.

No. 49.

Office Memorandum.

Larras Lake Exchange.

THIS case has been very fully discussed. The land to be acquired by the Crown is in the Land District of Molong, and that to be acquired by Mr. Lee is in the Land District of Wellington. The blocks are about 1 mile apart.

The Land Boards of each district dealt with the matter, and, although both Boards were presided over by the same Chairman, the Members of the Boards were not identical, and, therefore, looked at the matter independently.

The following are the Board's findings:—

Molong Board.

“The land proposed to be surrendered adjoins water-reserve 702 on Molong Creek, at (Bridgewater) the junction of the roads from Cumnock and Wellington respectively to Molong. The land proposed to be acquired comprises reserve 24,054 ‘for water supply and camping’ fronting the northern side of the Bell River, and distant from Bridgewater about 60 chains, along the Wellington-road, which passes through it. There is evidence that teamsters and other travellers camp on reserve 702, on the small area marked ‘A’ (tracing ‘X’), and at the Bell River, on the road at point ‘B’ on reserve 24,054. The traffic towards Molong is much greater from the direction of Cumnock than it is from the direction of Wellington (more than three to one); and, therefore, if the exchange be effected, and the land surrendered be made a camping reserve, a much larger number of the travelling public would be accommodated, as a reserve at Bridgewater could be used by travellers on both roads, whereas the present reserve is only used by a few. The land comprising reserve 24,054 is somewhat better than that proposed to be surrendered, but, in view of what we have already stated, we have no hesitation in recommending the exchange, but on the understanding that the land surrendered be reserved as a travelling stock and camping reserve. With the exception of the small area at ‘B,’ reserve 24,054 (at present under annual lease) is enclosed with applicant's freeholds; fences having been placed on both sides of the road—gates, however, have been left in the fences—but the enclosed parts appear to have been very little used by the public. For the purpose of this exchange the lands may be considered to be of equal value per acre—and the exchange should be on the basis of acre for acre, as suggested by the District Surveyor—except that an area of about 5 acres (red hatching of helio. ‘Y’) should be retained as a reserve, which will give the public a larger camping place, and more extended access to water at the Bell River, than appears to have been used of late. Although water in Molong Creek on the frontage of water reserve 702 is not permanent, it is nearly so, and the acquisition of the strip of land, proposed to be surrendered, extending from the road to the creek at Bridgewater, will give access to a permanent waterhole.

“The improvements on the land proposed to be surrendered, consisting of ringbarking and fencing, are valued at £45 15s., and those on the land to be acquired—fencing, yards, dip, &c.—at £133 2s.; the latter are the property of the Crown. Of the fencing on the land to be surrendered, that along the eastern boundary would, to some extent, be useful in preventing travellers' stock from straying; but the fencing running easterly and westerly through the land would be of no use to the public, applicant might be permitted to remove it—on condition that he re-erect it on the lines ‘a’ and ‘b’ and ‘c’ and ‘d.’ The improvements on the lines to be acquired should be paid for by applicant, unless it be considered that the value may be remitted, on the grounds that they were effected under a misapprehension.”

Wellington Board.

“We have to report that we fully endorse the opinion of the Molong Land Board, as set out in their report of 20th May, 1898. Unquestionably the public will be better served by the acquisition of the additional area at Bridgewater than by the retention of the reserve at the Bell River crossing, at which place the small reservation suggested by the Molong Land Board will meet public requirements, while an enlargement of the reserve at Bridgewater will afford accommodation to travellers and others approaching Molong from the direction of Cumnock as well as those from Wellington.”

The original proposal has been slightly modified, and the exchange is supported not only by the two Land Boards but by the District Surveyor, Surveyor Chapman, and the Inspector of Stock. The evidence before the Department is emphatically in favour of the exchange, and the conclusion to be drawn is that the public will benefit by it.

It is much to be regretted that Dr. Ross did not present his objections to the Land Boards; and it is difficult to deal with them now, seeing that Ministerial approval has been given to the exchange, and the Crown has probably entered into a contract from which it might not be able to recede, even if it desired to do so, unless Mr. Lee should refuse to pay the expenses which have been called for. (See enclosed copy of letter of 26th July last to Mr. Lee.)

H. CURRY,
14/10/99.

In view of the stage this case has reached, it is not apparent that the decision already given can be reversed; but as Dr. Ross, M.P., has written so frequently and so emphatically in opposition to the proposed exchange, I think his letters might be forwarded to the Chairman for his own perusal and that of the members of the Molong and Wellington Boards, who might favour me with any comments thereon they may deem necessary.—T.H.H., 16/10/99.

Forwarded to the Chairman at Orange in accordance with the Minister's direction.—J.B. (for U.S.), B.C., 17/10/99.

Will Messrs. Gaden and Matthews look into this case and make such comments as they may think desirable, for the information of the Secretary for Lands (see his minute, 16 October, 1899)?—CHAS. E. FINCH, Chairman, L.B.O., Orange, 27/10/99. Messrs. Gaden and Matthews, Wellington, care of Crown Land Agent. Joint reports herewith, 31/10/99.

Does Mr. Pearse (Molong Board) desire to make any remarks?—CHAS. E. FINCH, Chairman, L.B.O., Orange, 13/11/99. Reply herewith, 27/11/99.

Larras

Larras Lake Exchange.—In compliance with the Minister's minute of the 16th October last, I forwarded the enclosed papers to the members of the Land Boards which dealt with the matter, and now submit a joint report from Messrs. Gaden and Matthews (Wellington), and a report from Mr. Pearse (Molong), *vide* papers 99-9,918 and 99-9,919 L.B. For my own part, I may state I see no reason for in any way altering the opinion I arrived at in this matter, both from the evidence submitted and from personal observation. Every publicity was given to the matter before the investigations were made, but with the exception of the protest by Dr. Ross, who failed to submit evidence, no objections were lodged, nor was any evidence against the exchange submitted to the Boards. In dealing with exchanges—and I have had experience in large exchanges in the Forbes Land Board District—I have always acted on the principle that the Crown (who is the person approached by the applicant for an exchange) should, by the exchange, secure a decided benefit in the interest of the public; and this appears to have been the view of the officers who have conducted the cases for the Crown in all cases that have come under my notice. No doubt the exchange under consideration will benefit Mr. Lee by consolidating his holding; but I am convinced the public will be much better accommodated than they are at present, provided the land to be surrendered at Bridgewater be made available as a camping and travelling stock reserve. The comparative values of the two portions of land are set out in the evidence, and as to "permanent water," it will be seen that access to permanent water will be retained at the Bell River and acquired at Bridgewater, while the reserve at the latter place will benefit a far larger number of the travelling public than at present use the reserve at the Bell River. Mr. Betts, one of the members of the Molong Board who dealt with this case, is now deceased, but he was fully in accord with myself and Mr. Pearse in the recommendation we made. I need scarcely point out that if these cases are to be dealt with in open Court, it must be in the usual manner and on such evidence as may be submitted to the Board.—CHAS. E. FINCH, Chairman, L.B.O., Orange, 28/11/99. The Under Secretary for Lands.

The remarks of the members of the Board upon Dr. Ross' opposition to the proposed Larras Lake Exchange are submitted for consideration. The benefits to be derived by the public are shown by the Chairman to have had due weight in influencing the Boards to make their recommendations in its favour, and those advantages are again, and more fully, presented in Mr. Pearse's minute. It is submitted that Dr. Ross be informed that after further inquiry the Department is satisfied to proceed with the proposed exchange upon applicant complying with the usual terms; also, that Mr. Lee be advised that further action now awaits his reply to departmental letter of 6th October.—C. J. SAUNDERS, 14/12/99. The Under Secretary.

Submitted for approval.—H. CURRY, Acting Under Secretary, 14/12/99. Approved.—T.H.H., 15/12/99. Dr. Ross, M.P., and Jas. Lee reminded, 20/12/99.

[Enclosures.]

Larras Lake Exchange.—Comments by Members of Wellington Land Board.

Having carefully gone through papers and evidence in the Larras Lake land exchange, we see no reason to alter our former recommendation to the exchange being carried out. We still think the public are getting the best of the exchange.

R. T. B. GADEN,
E. J. MATTHEWS,

Members of Local Land Board, Wellington.

Wellington, 30th October, 1899.

Exchange of Land, Larras Lake Estate.—Comments by Mr. Pearse, Member, Molong Land Board.

Having carefully looked through the papers and the voluminous correspondence by Dr. Ross in this case, I cannot see any reason to change my opinion with regard to the report submitted by the Board respecting this exchange.

The excellent minute, covering Aln. 99-9,459, to the Under Secretary so clearly and accurately states the case, that it seems almost unnecessary for me to offer any further comment. But as it may be desirable that I should add some remarks from my view of the case, I may say that the reasons for favouring the exchange, from evidence before the Board, and also from personal observation by the Chairman and members, are so apparent and conclusive, that I am surprised any person is found to cavil at the recommendation.

By the exchange a larger area for camping purposes than is at present available, with access to permanent water, will be secured at Bridgewater, where, at present, the area is restricted, and this will accommodate not only the traffic on the Wellington-road, but also the much greater traffic from the direction of Cumnock and Obley. Thus a much greater number of the travelling public will be benefited, while bearing in mind that at the Bell River a sufficient area will be retained to meet requirements at that spot. I may point out that, notwithstanding the publicity given to this case, no one, with the exception of Dr. Ross, has questioned the desirability of the exchange, nor has any one appeared before the Land Board in opposition.

As one of the members of the Board dealing with this case, and claiming an equal sense of "right" and "justice" with Dr. Ross, and influenced by no motive other than that of the public interest, I have no hesitation in stating that in my opinion the exchange is unquestionably desirable for the convenience and accommodation of the travelling public, and by whom I am satisfied it will be appreciated.

THOMAS S. PEARSE,
Member, Molong Board.

Orange, 21/11/99.

No. 50.

Question and Answer.

Wednesday, 18 October, 1899.

Question.

- (7.) Exchange of Land at Larras Lake, near Molong:—Dr. Ross asked the Secretary for Lands,—
(1.) Has any further action been taken to grant to Mr. Jas. Lee, of Larras Lake, Molong District, an exchange of a barren, waterless piece of land, about 200 acres, for a more valuable water reserve of never-failing supply of water, with about a mile frontage to the Molong Creek and Bell River; if so, has any decision yet been arrived at in the matter?
(2.) In the interest of *bona fide* settlement, will he, in the above case, see that the interest of the general public is not sacrificed in order to conciliate a spirit of land monopoly, seeing that the Larras Lake Estate already consists of something like 40,000 to 50,000 acres of freehold?

Answer.

Mr. Hassall answered,—The exchange has received Ministerial approval; but before sending the papers on to the Executive Council I am giving the matter my careful consideration; but I am doubtful whether the decision already given can be reversed, even if expedient.

No. 51.

The Acting Under Secretary for Lands to Dr. Ross, M.P.

Sir,

Department of Lands, Sydney, 20 December, 1899.

Referring to your letter of the 4th October last, respecting the exchange of land at Larras Lake, I have the honor to inform you that, after further inquiry, the Secretary for Lands is satisfied to proceed with the proposed exchange upon the applicant complying with the usual terms.

I have, &c.,

H. CURRY,

Acting Under Secretary

(per E.B.).

No. 52.

Question and Answer.

Wednesday, 20 December, 1899.

Question.

- (9.) Land Exchange, Larras Lake, Molong District:—Dr. Ross asked the Secretary for Lands,—Is it his intention to carry out the proposed “land exchange” belonging to Larras Lake, in the district of Molong, or does he intend to reserve the land, and make it available as a special area for *bona fide* settlement, the land being of a rich and superior quality, and surrounded by a never-failing supply of water, viz., the Molong Creek and Bell River?

Answer.

Mr. Hassall answered,—The exchange proposals were approved by my predecessor in office. In view, however, of the Honorable Member's strong representations, I thought it expedient to make further inquiry into the case, and accordingly referred the matter to the chairman and members of both the Molong and Wellington Land Boards, from whose reports I am assured that the exchange would be desirable in the public interest, and should be proceeded with.

No. 53.

Dr. Ross, M.P., to The Secretary for Lands.

Dear Sir,

Parliament House, Sydney, 21 December, 1899.

I am in receipt of yours—99—16,792—of yesterday's date, 20th December, informing me that, after further inquiry, the Secretary for Lands is “satisfied to proceed with the proposed exchange of land at Larras Lake, district of Molong, upon the applicant complying with the usual terms.”

In reply, I have, in the interest of the public, to again offer my most emphatic protest against the exchange being carried out, for reasons that I have already explained.

It is one of the most shameful cases that ever occurred in the administration of our land laws, and I feel compelled, under the circumstances, in the interest of the public, to inform you that I will avail myself of the earliest opportunity of having the matter fully discussed on the reassembling of Parliament.

I have personally known the land and valuable never-failing water supply that is about to be surrendered under this proposed exchange for a barren piece of waterless land for upwards of forty years, and I unhesitatingly challenge contradiction.

Yours, &c.,

ANDREW ROSS, M.D.

No. 54.

Dr. Ross, M.P., to The Secretary for Lands.

Re proposed Land Exchange, Larras Lake, Molong District.

Dear Sir,

Parliament House, Sydney, 27 December, 1899.

In answer to my question in the House of the 20th instant in the above case, you informed me that “the exchange proposed was approved by your predecessor in office. In view, however, of the strong representations made by Dr. Ross, I thought it expedient to make further inquiry into the case, and accordingly referred the matter to the chairman and members of both Molong and Wellington Land Boards, from whose reports I am assured that the exchange would be desirable in the public interest, and should be proceeded with.”

In view of the above very unsatisfactory answer, I cannot, in the interest of teamsters, carriers, settlers, stock travellers, and the general public, refrain from drawing your attention to this shameful case, and to again offer my protest against the exchange being carried out. It appears to me worse than a farce and mockery for you to refer the case back to the same tribunal that dealt with the matter previously, but more especially without taking fresh evidence. Is it likely or reasonable to suppose that they would alter their former opinion when no fresh evidence was called?

I ask at your hands no special favour whatever, only justice in the interest of the public; and while I have the honor of holding a seat in Parliament I shall use every legitimate means at my command to obtain and protect the public rights of my constituents. It is not the first time I have had the occasion to encounter the opposition of a Land Minister or a Minister of the Crown, and however unpleasant the task may be, it is a sacred public duty that I have no alternative but to perform. Rather than betray the public trust that has been placed in my hand, and remain under the stigma of being regarded as a coward, I'd sooner resign my seat and retire from Parliament than allow myself to be degraded in the eyes of my fellow-citizens. I challenge you and the officials in your Department, aye, and both the Molong and Wellington Land Boards, to point out to me at the present time where the water is to be found on the land that is proposed to be exchanged for the old water reserve and Crown lands that now and always contained a never-failing supply of water, to my personal knowledge, for the last forty to fifty years.

For

For weeks, nay, for months, past not a single drop of water is to be found by teamsters, carriers, settlers, &c., on the land proposed to be exchanged, and yet you and your officials have the audacity to tell me that the exchange is made in the interests of the public. Was it the public or the owner of the run that made application for the exchange? The thing is simply a disgrace and insult to the public interest. I challenge you to send a competent and unbiassed man to inspect and report on where and what quantity of water is available for the use of the public as has been alleged.

I have personally known the land and water reserve proposed to be exchanged for upwards of forty years, and, therefore, can vouch for the fact of the land being invaluable, and contains a never-failing supply of water in all seasons. Not so with the land proposed to be exchanged—for six months out of twelve the land is waterless.

The Larras Lake Estate contains something like 50,000 acres of land, and includes both sides of the Bell River and Molong Creek for miles, and yet, forsooth, the Department of Lands has the audacity to take away from the public the only available and permanent water supply in the locality.

What makes the case worse is the fact that the water reserve proposed to be exchanged is on the main road, Molong to Wellington, a distance of 40 miles.

Talk about our land laws settling an industrious, peaceful class of yeomanry on the soil; but if stubborn facts like these are to be tolerated, then they are more likely to bring them to ruin and destruction. Of late years, owing to the protracted droughts, water for domestic purposes is of far more value to public health than that of gold, but in this case public health, right, and justice are of little or no consequence, so long as the rich become richer and the poor poorer.

Yours, &c.,
ANDREW ROSS, M.D.

No. 55.

J. Lee, Esq., to The Secretary for Lands.

Sir,

Larras Lake, Molong, 30 December, 1899.

I have the honor to acknowledge receipt from your Department of a letter dated 6th October last, and a circular reminder anent the same subject bearing date 20th instant, respecting payment for certain improvements effected by me on land, I understand, that has been approved as an acquisition to the Larras Lake Estate, in lieu of an area to be surrendered.

Permit me to respectfully invite your attention to the facts of the case in support of an application by me for a remission of the value of most of the improvements, which was the subject of an inquiry by the Molong Land Board, who recommended (or intended to do so) that the value of the sheep-dip, &c., recently effected, be remitted to me. In explanation of my action in effecting those improvements on what turned out to be Crown lands was the total absence of any marked line or boundary separating my portion 17 from the part of the subject exchange to be acquired—that the improvements were effected under misapprehension as to the true position of the boundary, and on land really understood to be part of my freehold portion 17, the measurement of which took place many years ago, consequently the lines have been obliterated. Mr. Surveyor Chapman, when measuring the reserve (after the dip was made), had the greatest difficulty in picking up a marked point, and seeing that the dip, &c., are within 1 chain of the boundary line established by that gentleman, I venture to submit that is evidence of the correctness of my statement, and sufficiently weighty enough to influence you to exercise your rights by approving of the Land Board's recommendation. I am convinced that the Board intended to report in my favour. If they have not done so, presumably some error has occurred; and if their expressed minute is not conclusive enough to warrant your complying with my request, then I would beg of you to return the case to the Board for a further report as to the facts attending the construction of the improvements, which I assure you were effected with a view to the better and more profitable use of my freehold lands, and on land I held under annual lease, but on what I considered to be my portion 17. As regards the amount (£20) demanded for additional cost in dealing with the exchange matters, I already hold the Treasury receipt for £18, which does not appear to be exhausted as yet; and as the only other expense that can be involved is the exclusion of the small area to be set apart for camping on the Bell River (about 4 acres), the amount called for seems to me to be quite out of proportion to the service. Anyway, I respectfully urge that the whole question be reconsidered without prejudice to any right to the exchange going through, and then I shall be prepared to pay a sum commensurate for the survey, and thus bring the question to a speedy conclusion, as I understand your Department desires.

Soliciting your favourable consideration hereto.

I have, &c.,
JAMES LEE.

No. 56.

Dr. Ross, M.P., to The Secretary for Lands.

Re Land Exchange, Larras Lake, near Molong.

Dear Sir,

Parliament House, Sydney, 9 January, 1900.

At the close of last year I took the trouble to write asking you to send a competent officer to Molong to report on the quantity of water that is alleged to exist on the land offered for exchange by Larras Lake, but to the present time I have received no reply. Now is the time that the proposed exchange should be made the subject of a thorough inspection (in regard to the water supply), when not a drop of water at the present time, and for weeks past, to be found on the land offered to be exchanged.

Yours, &c.,
A. ROSS, M.D.

Larras Lake Exchange.—In Mr. Surveyor Chapman's evidence given before the Land Board at Molong on the 17th May, 1898, it is stated that upon that part of portion 3 which it is proposed the Crown shall acquire by surrender from Mr. Lee "there is a good waterhole, of a permanent character, and easy of access to stock." The District Surveyor is requested to report if the experiences of the two succeeding seasons has tended to substantiate the opinion thus expressed of the permanence of the water supply.—C. E. RENNIE (for the Under Secretary), 10/2/1900. The District Surveyor, Orange.

No. 57.

No. 57.

Dr. Ross, M.P., to The Secretary for Lands.

Dear Sir,

Parliament House, Sydney, 10 February, 1900.

I enclose for your information enclosed clipping from *Truth*, of 11th February, 1900, re proposed land exchange in Molong District.

You will find when Parliament meets that I have the "land fish" to fry besides this.

Take the "Windus" alone, and the worry and annoyance I have had for years over this case, and which is still unsettled, awaiting, I presume, some other red tape process ere it sees the light of day or justice.

Yours, &c.,

ANDREW ROSS, M.D.

[Enclosure.]

A SHAMEFUL LAND EXCHANGE PROPOSAL.

[To the Editor of *Truth*.]

Sir,

Knowing your readiness to at all times assist in redressing a public grievance, may I ask the necessary space to place before the public the following correspondence in reference to a most interesting and remarkable case? For some considerable time past an application has been pending in regard to an exchange of a rich and valuable water reserve on Larras Lake, near Molong, on the main road from Molong to Wellington, for an inferior, waterless portion of land on the road Molong to Cumnock and Obley; and which I have, not only in Parliament, but in writing, frequently brought under the notice of the Minister for Lands, and protested against the exchange being carried out as inimical and prejudicial to the best interests of the public. The reserve being so situated embraces the water frontage to the Bell River and Molong Creek for some considerable distance, and which, if the exchange is carried out, will deprive the public of the use of this water frontage for all time to come. It will be observed by the following correspondence how far my labour in the interest of the general public has been successful, when the rights of the public are being ignored or trampled on by those in office and authority. To this day no reply has been received, therefore I am not in a position to say whether the Minister for Lands is likely to reconsider the case after his previous deliverance:—

Re Proposed Land Exchange, Larras Lake, Molong District.

Hon. T. HASSALL, Esq., Minister for Lands, Sydney,—

Parliament House, Sydney, 27 January, 1899.

Dear Sir,

In answer to my question in the House on the 20th instant in the above case, you informed me that the "Exchange proposed was approved of by your predecessor in office. In view, however, of the strong representation made by me (Dr. Ross) I thought it expedient to make further inquiry into the case, and accordingly referred the matter to the chairman and members of both the Molong and Wellington Land Boards, from whose report I am assured that the exchange would be desirable in the public interest, and shall be proceeded with."

In view of the above very unsatisfactory answer, I cannot, in the interest of teamsters, carriers, settlers, stock, travellers, and the general public, refrain from drawing your attention to this shameful case, and to again offer my protest against the exchange being carried out. It appears to me worse than a farce or mockery for you to refer the case back to the same tribunal that dealt with it previously, but more especially without taking fresh evidence. Is it likely or reasonable to suppose that the respective Boards would alter their former decision when no fresh evidence is called or adduced? I ask at your hands no special favour, only justice in the interests of the public; and while I have the honor of holding a seat in Parliament I shall use every legitimate means at my command in endeavouring to obtain and protect the general interests and public rights of my constituents. It is not the first time I have had occasion to encounter the opposition of officials and Minister of the Crown, and however unpleasant the task may be it is one of a sacred public duty that I have no alternative but to faithfully perform. Rather than betray the public trust placed in my hands, and remain silent and under the stigma of being regarded or branded as a coward, I'd sooner resign my seat and retire from Parliament than allow myself to become degraded in the eyes of my fellow-citizens. I challenge you and the officials in your Department and the respective Land Boards to point out to me at the present time where the alleged water supply is to be found for travellers, teamsters, stock, &c., on the land proposed to be exchanged for the old water reserve of Crown lands that now and always did contain a never-failing water supply, to my personal knowledge, for the last forty-three years, and during the most protracted and severe droughts. For weeks, nay, months, past not a single drop of water is to be found for travellers, teamsters, stock, &c., on the land proposed to be exchanged, and yet, forsooth, you and your officials have the audacity to tell me that the exchange is made in the interests of the general public, and shall be proceeded with. Was it the public or the owner of the run or estate that made the application for the exchange? The thing is simply ridiculous and misleading, and against the public interests. I challenge you to send a competent and unbiassed officer to inspect and report on the matter, and where and what quantity of water is now available on the land offered for exchange for the use of the public, as has been alleged. I have personally known the land and water reserve proposed to be exchanged for upwards of forty years, and can, therefore, vouch for the fact that the land, as a reserve, is invaluable, and contains a never-failing supply of water in all seasons; not so with the land proposed to be exchanged, for six months out of twelve the land is waterless. The Larras Lake Estate contains something like 50,000 acres, and includes both sides of the Bell River and Molong Creek for miles; and yet, forsooth, the Department of Lands has the audacity, not only to sanction, but to take away from the public the only permanent water supply in the locality. What makes the case worse is the fact that the water reserves (that have been in existence for upwards of forty years) proposed to be exchanged are on the main road, Molong to Wellington, and about 7 miles from Molong and 33 from Wellington. Talk about our land laws settling an industrious, peaceful class of yeomanry on the soil! But if stubborn facts like these are to be allowed, it is more likely to have the opposite effect—of bringing them to ruin and destruction. Of late years, owing to severe and protracted droughts, water to settlers and stock is a great desideratum, and for domestic purposes of more intrinsic value to public health than land or gold. In this case, public health, right, and justice are evidently things of little or no consideration. "Let the rich become rich and the poor poorer" is the motto that I cannot silently subscribe to.

Yours, &c.,

A. ROSS, M.D.

Parliament having gone into recess, and not likely to meet again for months, precludes me from bringing this important case before the notice of the House, and thus my reason, on the present occasion, and in the absence of any subsequent answer, for seeking to lay the particulars of the case before the notice of the public through the columns of the Press.

Yours, &c.,

ANDREW ROSS, M.D.

Legislative Assembly, 7th February, 1900.

No. 58.

The District Surveyor, Orange, to The Under Secretary for Lands.

Larras Lake Exchange—As to water on area to be surrendered.

Sir,

Orange, 26 February, 1900.

In reply to instructions of the 10th instant, directing report on the permanency of water supply on the land in the parish of Bell, county Ashburnham, to be surrendered in the Larras Lake Exchange, in connection with statement of the 9th ultimo, by Dr. Ross, M.P., that "not a drop of water at the (then) present time, nor for weeks past was to be found on the land offered for exchange," I have the honor to report that on the 17th instant I visited the land and found good water in the creek, measuring from 3 to 20 feet wide, 150 feet long, and 4 ft. 6 in. deep in the deepest part sounded, within the area to be surrendered, in a hole, position of which is shown approximately by blue mark on lithograph marked "A" enclosed.

2. It is stated that this hole has never been dry, and that evidence can be brought to support the statements; but it can safely be accepted that any hole in the creek which now contains water after the exceptionally dry seasons experienced, is permanent.

3. On water reserve 702, between the bridge and portion No. 3, there is a small hole containing water, which, though not nearly so good, has apparently sufficed for the use of persons camping. The traces of about a dozen recent camp-fires were seen.

4. In a personal interview with Dr. Ross on the same day, he stated that he had been mistaken, as he was not aware that any of the frontage within portion 3 was to be surrendered.

I have, &c.

H. A. CROUCH, D.S.

P.S.—Although beyond the instruction, it may perhaps be mentioned that I had an interview the same day with Mr. W. F. Wynne, the Mayor of Molong, who is a very old resident of the district and well acquainted with the land. Referring to the exchange, he stated that in his opinion it was a fair and reasonable proposal, in which the public obtained rather the best of the deal, and that he saw no objection whatever to it.—H.A.C.

No. 59.

Office Memorandum.

Larras Lake Proposed Exchange.

19 March, 1900.

MR. LEE, the applicant for the exchange, protests further against the amount of the costs, and presses his request that the Crown shall not insist upon his paying for improvements put upon the land under, as he asserts, a misapprehension.

Mr. Surveyor Chapman, in reporting survey of the reserve, states that some difficulty was experienced in tracing the boundaries owing to disappearance of marks, but that, having identified the northern boundary of portion 16 by two old blazed trees, he fixed the western boundary of portion 17 by means of an old fence, a few panels of which Mr. James Lee indicated as having been pointed out by the latter's father, a former owner of the land, as being on the boundary. Mr. Lee accepted Mr. Chapman's marking of the boundaries, expressing himself in writing as satisfied therewith, and subsequent examination in office, and comparison with former plans of survey and deed lengths, tended to verify the accuracy of the remarking. Although the charting of Mr. Chapman's survey upon the published map of the parish discloses discrepancies, this appears to arise from defective drawing, due to insufficient data. Illustrative litho. of the parish of Three Rivers is herewith.

At date of survey, 15th October, 1897, the following improvements existed:—

(1.) Sheep-dip and yards, new, value	£80
Sheep-yard and shed, old	20
Fencing both sides road, erected six years, value	30
Ringbarking, old	5
Total	£135

Mr. Lee writes that he understood that the Molong Board intended to recommend that the value of the sheep-dip, &c., recently effected, be remitted to him; that these improvements are within 1 chain of the boundary as established by Mr. Chapman, and on land really understood to have been part of the freehold portion 17, the position of the line dividing that portion from the reserve being unknown.

The Board, however, did not recommend that the Crown waive claim to the value of any of the improvements, but submitted that they "should be paid for by applicant, unless it be considered that the value may be remitted on the grounds that they were effected under a misapprehension."

The sheep-dip and yards in question are in the south-eastern corner of the reserve; and being, therefore, close to the old fence pointed out as marking the original boundary, the view has been taken that Mr. Lee should have known that said improvements would extend beyond his land, consequently that he deserved no more consideration than if he had placed them in the middle of the reserve.

It is not thought that a case of misapprehension has been made out, so it is submitted that the Department should insist upon the Crown's right to payment for such improvements as provided in Section 102 of the Act of 1884.

As to the amount of costs objected to by the applicant for the exchange, he should be informed that he must be charged the cost of survey of each area, both surrender and exchange, together with all other expenses involved in effecting exchange; that the estimate of expenditure is £38, and that the further deposit of £20 is required before the necessary further survey is undertaken.

Respecting Dr. Ross' letters enclosed, dated 9th January and 10th February, Mr. District Surveyor Crouch's report of the 26th February made almost immediately after inspecting the surrender land, disposes of the contention regarding the reputed absence of water; and it also appears that the protests have arisen through Dr. Ross misunderstanding the proposals.

C. E. RENNIE.

For approval.—Dr. Ross may be informed of what is understood, *i.e.*, that he recognises he was misinformed.—H. CURRY, Under Secretary, 20/3/00. Approved.—T.H.H., 21/3/00. James Lee, Larras Lake, Molong, and Dr. Ross, M.P., informed 26/3/00.

No. 60.

The Under Secretary for Lands to J. Lee, Esq.

Sir,

Department of Lands, Sydney, 26 March, 1900.

Referring to your letter of the 30th December last, in connection with the Larras Lake Exchange, and the question of payment for improvements on the lands to be granted, I have the honour to inform you that Mr. Surveyor Chapinan, when surveying the land, fixed the western boundary of portion 17 by means of an old fence, which was indicated by you as being on the old boundary line, and Mr. Chapman's marking was accepted by you. The Local Land Board did not recommend that the Crown waive claim to the value of any of the improvements, but submitted that they should be paid for by applicant, unless it be considered that the value may be remitted on the grounds that they were effected under a misapprehension.

The improvements in question are in the south-eastern corner of the reserve, and therefore close to the old fence pointed out by you as marking the original boundary, and the Secretary for Lands has therefore decided that payment for the same must be insisted on, as provided in section 102 of the Crown Lands Act of 1884.

With regard to the costs objected to by you, I have to state that you must be charged the cost of survey of such area, both surrender and exchange, together with all other expenses involved in effecting the exchange. The estimated expenditure is £38, and the further deposit of £20 called for is required before the necessary further survey is undertaken.

I have, &c.,

H. CURRY,

Under Secretary

(*per* W.H.C.).

No. 61.

The Under Secretary for Lands to Dr. Ross, M.P.

Sir,

Department of Lands, 28 March, 1900.

Referring to your letter respecting the Larras Lake Exchange, and the question of the permanency of water on the surrender land, I have the honour to inform you that from the report of the District Surveyor it is understood that you had an interview with that officer, and stated that you had been mistaken, as you were not aware any of the frontage within portion 3 was to be surrendered.

I have, &c.,

H. CURRY,

Under Secretary

No. 62.

Dr. Ross, M.P., to The Under Secretary for Lands.

Dear Sir,

Parliament House, Sydney, 29 March, 1900.

In reply to your letter of date 28th instant, 00-4,051, respecting Larras Lake land exchange case, Molong District, and the question of permanency of water on the surrendered land, I have to state that lately Mr. Crouch, District Surveyor of Orange, did call upon me, and that I had expressed myself to him that I had been mistaken.

I have to state that since the interview with Mr. Crouch I have examined the land and find my original statement fully confirmed. At the time of my interview with Mr. Crouch, and from his statement to me, I thought I had made a mistake, but since my late inspection of the land I feel more convinced than ever that to surrender or exchange the land would simply be a public scandal and disgrace, and therefore I still persist in entering my emphatic protest against the land being exchanged or carried out.

Yours, &c.,

A. ROSS, M.D.

No. 63.

J. Lee, Esq., to The Under Secretary for Lands.

Sir,

Larras Lake, Molong, 30 March, 1900.

Your letter 26th instant to hand, and in accordance with same I am paying into the Treasury the sum of £20 as deposit to cover further expenses in connection with Larras Lake Exchange.

I have, &c.,

JAMES LEE

(*per* B.J.L.).

No. 64.

27

No. 64.

The Under Secretary for Finance and Trade to The Under Secretary for Lands.

The Treasury (Revenue Branch), Sydney, 12 May, 1900.

Subject:—Exchange of Land, Districts Molong and Wellington, Counties Ashburnham and Wellington—James Lee.

Memorandum.

THE sum of £20 was credited on 31st March, 1900, being further costs in connection with the above noted exchange.

S. R. CORKHILL,
For the Under Secretary for Finance and Trade.

Larras Lake Exchange, Mr. James Lee.—Dr. Ross may, perhaps, be advised that instructions have been given for measurement of the area proposed for surrender, and amendment of survey of the land applied for in exchange, to accord with the finding of the Local Land Board; also that it is hoped, when the areas have been defined on the ground, it will be seen there is no longer occasion for opposing the proposal. The necessary authority might then be forwarded to the District Surveyor at Orange, as already approved.—C. E. RENNIE, 8th June, 1900. The Under Secretary.

For approval. This matter has been very fully considered, and it is not apparent that any reversal of action is called for.—H. CURRY, Under Secretary, 9/6/00. Approved.—T.H.H., 11/6/00. Dr. Ross informed 16/6/00. Forwarded to the District Surveyor to effect the necessary survey.—E.A.B. (for U.S.), B.C., 16/6/00. The District Surveyor, Orange. J. Lee informed 16/6/00. Received, L.B.O., Orange, 21/6/00. Mr. Roper, 22/6/00.

No. 65.

The Under Secretary for Lands to Dr. Ross, M.P.

Sir,

Department of Lands, 16 June, 1900.

Referring to your letter of the 29th March respecting the Larras Lake Exchange, I have the honor to inform you that instructions have been given for measurement of the area proposed for surrender, and amendment of survey of the land applied for in exchange, to accord with finding of the Local Land Board; also that it is hoped, where the areas have been defined on the ground, it will be seen there is no longer occasion for opposing the proposal.

I have, &c.,

H. CURRY,

Under Secretary

(per W.H.C.).

No. 66.

The District Surveyor at Orange to Mr. Surveyor Chapman.

Larras Lake Exchange.

Memorandum.

26 June, 1900.

Exchange proposal by Mr. James Lee, of Larras Lake, to surrender parts of portions 3 and 39, parish Bell, county Ashburnham, and acquire in lieu part of camping and water reserve 24,054, parish Three Rivers, county Wellington, and part water reserve 702, parish Bell, county Ashburnham.

MR. SURVEYOR CHAPMAN is requested to excise an area of 5 acres from portion 38, parish Three Rivers, county of Wellington, in the position indicated by red hatching upon helio. "Y" herewith, the northern corner of the 5 acres to be fixed as shown in diagram.

A corner of portion 38 should be marked at "E."

The portions A, B, C, upon tracing "B," parish Bell, are to be measured and marked. The areas of A and B to be equalised by location of line b c, and area of block "C" to be measured 172 acres by adjustment on line d e.

Parish No. 41 to be used for the 5 acres, parish Three Rivers, and Nos. 154, 155 for areas "A" and "B," parish Bell. The surrender land block "C" will not be marked with parish number until surrender has been formally completed, and the land gazetted as Crown lands.

Two permanent marks to be placed in most suitable positions in survey of block "C."

Separate plan of each portion required.

H. A. CROUCH,

District Surveyor.

In surveying block "C," allowance should be made for the area of roads reserved in original measurement or since proclaimed, and the area of the block should, therefore, be 176 acres, inclusive of roads.

Mr. Surveyor Chapman,—With respect to the marking of block "C," shown on tracing "B," with the papers of Larras Lake Exchange, forwarded under instructions of 26th June, although contrary to the circulars bearing generally on the subject, Mr. Chapman is requested to mark the block with parish No. 156, in order to save delay and another visit to the ground, but the number should not be referred to in papers or shown on plan, the portion being shown as marked with \uparrow only.—H. A. CROUCH, District Surveyor, 26/6/00.

1900.

LEGISLATIVE ASSEMBLY.
NEW SOUTH WALES.

FISHERIES OF THE COLONY.

(REPORT OF COMMISSIONERS OF FISHERIES FOR YEAR 1899.)

Presented to Parliament, pursuant to Act 44 Vic. No. 26, sec. 69.

Printed under No. 2 Report from Printing Committee, 28 June, 1900.

The Honorable the Chief Secretary,—
Sir,

Department of Fisheries,
Sydney, 26 May, 1900.

In submitting our Report for the year 1899, we desire to invite special attention to the very satisfactory state of the finances of the Department.

In our Report for 1898 it was shown that the revenue for that year exceeded the expenditure by an amount of £1,188 9s. 11d., and it is our pleasing duty to be able to state that the receipts for this year are in excess over the expenditure by an amount of £1,022 15s. 10d.

This is all the more satisfactory when it is considered that the amount of money expended in the administration of this important industry has not in either of the last two years exceeded £2,983—an amount which we consider grossly inadequate for the proper administration of the fisheries of the Colony.

Eighty-one fishermen's licenses and 35 fishing-boat licenses were taken out in excess of those issued in the previous year, and the receipts for oyster leases, fines, and forfeitures was greater by the amounts of £291 11s. 10d. and £15 1s. 6d. respectively.

It is mainly due to the close supervision of the Inspectors that so many licenses have been taken out, and considerable vigilance has been observed to secure due compliance with the fisheries laws; and there can be no doubt that, with an increased expenditure for more Inspectors, the revenue will very largely increase.

During the year prosecutions were instituted against 86 offenders. In 75 cases convictions were obtained, and in 27 cases the nets were confiscated. The total amount of fines imposed, not including costs of Court, was £161.

The following list will show the revenue and expenditure during the last ten years:—

	Revenue.			Expenditure.		
	£	s.	d.	£	s.	d.
1890	2,696	6	8	6,048	6	4
1891	2,586	12	2	5,024	6	11
1892	2,216	4	10	4,830	8	0
1893	2,812	9	4	3,697	15	8
1894	2,609	1	4	2,692	14	2
1895	2,458	1	5	2,910	0	0
1896	2,803	5	0	3,347	10	9
1897	2,980	14	4	2,532	16	1
1898	3,713	10	1	2,525	0	2
1899	4,005	18	5	2,983	2	7

Official Staff.

The Clerical Staff consists of three officers, and the Inspectorial of twelve, and their time is more than fully occupied in dealing with the work of the Department, while some of the best fishing rivers and harbours are left without Inspectors or supervision for want of funds.

Two additional salaried Inspectors have been appointed—Mr. H. Laman, at Port Stephens, and Mr. W. A. Newton, at Port Hacking; and provision has been made for the appointment of an Inspector to supervise the waters of the Clyde River and the adjacent districts.

With the concurrence of the Inspector-General of Police, Senior Constable J. M. Scott was appointed without salary as an Inspector at Eden, *vice* Sergeant Thompson, transferred.

Mr. J. Jones having resigned his position as Caretaker at the Prospect Hatchery, Mrs. A. Richardson was appointed to fill the vacancy.

For the last three years the work in connection with the fisheries and oyster fisheries has been increasing and the revenue expanding, each year showing an increase of revenue over expenditure; and in view of the extension of the fisheries it is absolutely necessary that the staff should be increased to cope with the extension of business.

Ten years ago a staff of thirty-six officers was employed in the administration of this Department, and the number now engaged is not half that number. In 1893, owing to the call for retrenchment throughout the Service, twenty officers were dispensed with, and the Department has been undermanned ever since. The following statement will show the number of officers for the last ten years:—

Year.					Number of Officers.	Year.					Number of Officers.
1890	36	1895	13
1891	34	1896	13
1892	33	1897	13
1893	33	1898	14
1894	13	1899	15

Fisheries.

The supply of fish to the Metropolitan Markets has exceeded that for the preceding year by 12,307 baskets.

Lake Illawarra, Cape Hawke, Shoalhaven River, Ulladulla, Clyde River, and Richmond River showed an increase on the previous year, and the supplies from Clarence River, Lake Macquarie, Hawkesbury, Tuggerah, Port Jackson, Manning River, Hastings River, and Camden Haven were below the 1898 returns.

It will be seen from the appended list that the total quantity of fish consigned to the Sydney Markets was 87,525 baskets:—

				Baskets.					Baskets.
Richmond River	5,202	Tathra	47
Clarence River	12,083	Nambucca	265
Macleay River	2,482	Port Macquarie	740
Cape Hawke	3,968	Camden Haven	317
Port Stephens	3,018	Port Jackson	4,623
Hunter River	496	St. George's Basin	349
Lake Macquarie	7,792	Jervis Bay	144
Tuggerah Lakes	4,200	Manning River	2,430
Hawkesbury	7,375	Terrigal	417
Botany and George's River	9,224	Bermagui	558
Lake Illawarra	9,804	Moruya	425
Shoalhaven	5,586					
Ulladulla	3,559	Total	87,525
Bateman's Bay	2,421					

A great proportion of fish from the waters of Port Stephens, Hunter River, and Lake Macquarie do not find their way to Sydney, but are forwarded direct to Newcastle, and are consigned from that city to the various towns on the Northern Railway.

The

The import of fish from outside sources is very considerable, and greatly exceeds the quantity exported. The value of fresh fish imported was £2,204; chilled, £4,888; preserved, £167,412; and those exported were valued at—fresh fish, £2,067; chilled, £117; and preserved, £35,016.

The majority of chilled fish came from New Zealand for the Fresh Food and Ice Company in this city.

Fish of the schnapper species, one of the most valuable of our fish food, has been steadily decreasing year by year, but it is satisfactory to state that during the latter part of the year the young of this species from 4 to 6 inches in length have been observed in large numbers along the coast from Wollongong to Kiama, and in the waters of Lake Illawarra.

In view of their value later on, special efforts were made by the local Inspector to preserve them, and with satisfactory results, as the professional fishermen invariably returned the young fish to the waters rather than kill them in their immature state.

It is several years since fish of this species have been seen in the Lake waters in such numbers, and it is hoped that the public will receive the benefit when they arrive at a state of maturity.

The catch for the year in Lake Illawarra was 4,515 baskets in excess of the output of the previous year, and this is all the more remarkable, as the sand-bar at the entrance was closed to the ocean waters and to travelling fish for the first seven months of the year.

In August the local fishermen undertook the work of cutting a channel to admit the sea waters, and after four days' work managed to effect a junction of the Lake and the ocean, which has since continued. The waters were very low, and fell 3 feet below their normal level, leaving the bars at the entrance to the tributaries dry, as well as a large portion of the channel entrance,—a condition of things that has not occurred for over forty years. At the mouth of Mullet Creek—which was quite closed—a channel was constructed by the Government, at considerable expense, to allow of full access to the waters of the Lake, and to provide for the passage of launches into the creek.

The oyster deposits in the channel have entirely disappeared; they were destroyed during the dry weather, owing to the receding waters.

The lakes and nursery inlets of the Home Division of Fisheries—such as Lake Macquarie, Tuggerah, Hunter River, and Port Stephens—have, ever since these grounds have been brought under railway communication with the metropolis, been gradually receding in the quantity of fish supplied to market. This is no doubt due to over-fishing, and the use of that destructive net known as the garfish net.

This net was legalised for the purpose of catching garfish only, and as long as it is legitimately used, no danger arises; but some fishermen make a practice of using it for ground fish when they can do so without detection, and quantities of immature fish of all species are killed by this net when so worked.

As it was reported that fishermen were using these nets for ground fish, a proceeding that is contrary to the Act and Regulations, a circular was addressed to each licensed fisherman, pointing out the manner in which the nets should be used to comply with the law; and, as a consequence, a deputation of fishermen waited on the Chief Secretary and represented the hardships they would suffer under if compelled to catch garfish only and to return other fish to the water when accidentally taken in the garfish net.

Discretion has, however, been exercised in administering the law in connection with this class of net.

The lakes and lower portions of our coastal rivers and inlets, or arms of the sea, represent the sources of supply, and are, for many varieties of fish, both the breeding and fattening grounds, while for others, and principally the deep swimming kinds, they are the appointed nurseries.

With a view to conserving the young fish in these nurseries, closures have been made from time to time with very satisfactory results, and immense quantities of small fish may at any time be seen in these protected waters.

The following waters have been closed during the year against the use of nets for a period of two years:—

Paterson River, from its junction with the Hunter River to the town of Paterson.

Williams River, from its junction with the Hunter River to the town of Clarence Town.

Portion of Port Jackson lying to the north-east and east of a line drawn from Grotto Point to Middle Head and thence to Shark Point.

The waters of Killick Creek.

The channel entrance to Lake Illawarra and the whole of Mullet Creek.

And

And the following closures, which expired during the year, were extended for a period of twelve months :—

Manly, Curl Curl, Deewhy, and Narrabeen Lagoons.

The channel entrance to Tuggerah Lake, and parts of Budgewoi and Munmorah Lakes.

The tributaries of the Hawkesbury River, Tuggerah Lakes, Lake Illawarra, and Lake Macquarie; and portion of Parramatta River and Lane Cove.

Representations having been made that fishermen could not obtain satisfactory freights of fish in the shallow waters of Womboyn River and Wallis Lake by the use of the ordinary hauling net of 150 fathoms, without harassing the fish by continuous netting, the provisions of the Fisheries Act Amendment Act of 1894 were extended to these waters for periods of three years and one year respectively, to enable nets of 300 fathoms in length being used.

The provisions of the Sunk Net Act of 1892 were extended to the following waters, with a view to preventing sunk nets being used therein :—Manly, Curl Curl, Deewhy, Narrabeen and Tom Thumb Lagoons, Brisbane Water, Tuggerah, Budgewoi and Munmorah Lakes, Hunter, Shoalhaven and Crookhaven Rivers, and Port Stephens.

For the last ten years the catch in the waters adjacent to Sydney has been as follows :—

Waters.	1890.	1891.	1892.	1893.	1894.	1895.	1896.	1897.	1898.	1899.

* Incomplete.

On Lake Macquarie, Tuggerah, the Hawkesbury, and Port Stephens the extent of fishable water is enormous, and quite out of the power of a single Inspector to supervise effectually.

These waters should all be governed by two Inspectors, to properly enforce the provisions of the Act and Regulations.

Representations were made that sawdust and other refuse were deposited in tidal waters by the sawmill proprietors on the Hastings River, to the injury and detriment of fish and oyster life, and after bringing before the parties concerned their liability under the Regulations the practice was discontinued.

In order that fishermen who attend the fish market might be made aware of the closure of waters, large notice boards were provided and erected in each fish market, and one at the railway station, Brooklyn. In this manner the various proclamations affecting the local waters are posted for general observation.

The importance of introducing other methods of catching fish than those at present obtaining in New South Wales induced us to make a series of experiments with an electric light apparatus, which was invented by Mr. J. Shekleton. The fish-trap may be briefly described as follows :—

Circular in shape, about 28 feet in circumference, and 6 feet deep. The frame consisted of iron covered with stout woven wire-netting, the lower half being saucer-shaped. It contains six entrances at even distances, extending 2 feet into the trap, 10 inches in diameter at the outside, and 6 inches at the inside. In the centre of the trap mirrors were placed facing each quarter, which reflected the light from the glass globes, which were attached to the mirrors.

The electricity was supplied by a dynamo gratuitously supplied by the Union Gas-engine Co., Hunter-street, Sydney, from the surface, and conveyed through copper-wire with gutta-percha insulation.

In order to give the method a fair trial, the Government steamer "Thetis" was obtained, and some experiments were carried out in the presence of Mr. J. H. Want and Mr. W. R. Campbell, Fisheries Commissioners, off the John Young Banks and in Jervis Bay.

The first trial was made in 26 fathoms of water, and when the cage was lowered it was found that the pressure of water at that depth was too great for the electric light globes, which collapsed. Subsequent trials were made at a depth of 6 fathoms, but in no case were fish caught, although the water was brilliantly illuminated all round the trap and for some distance on the surface.

Great quantities of garfish and small fish of other species were attracted by the light and could be seen swimming about. It is probable that the lights used were too strong and generated too many rays. The experiment would have been more successful if double glass for the lights had been used and the rays concentrated on the reflectors to confine the illumination to the immediate vicinity of the trap.

The

The fishing-nets in vogue in this Colony are known as the ordinary mesh-net, hauling-net, garfish-net, and prawn-net, and in order to bring before the licensed fishermen a class of net that might be used with advantage off the coast, directions were given to Inspectors W. H. and F. Newton to make a trammel net, and experiments were made in some of the waters off the coast.

The net is made up of three nets or distinct sets of meshes, as is shown by its name, which in modern French is "tramaill," a corruption of "trois mailles," *i.e.*, three meshes. The trammel is therefore a combination of three nets placed side by side and fastened together at the back, foot, and ends.

Each of the outer nets or wallings is 30 fathoms long, and has meshes 12 inches square. These two wallings are mounted so that the meshes of both exactly correspond in position, and a fish might pass through them as if they were a single net.

The third net however is placed between the other two, and has 4-inch meshes of fine pliable material, but it is twice as long and as deep as the outer ones, the excess being gathered in at short intervals along the edges where the three nets are united. The result is a very large quantity of slack netting between the two outer nets.

Thus prepared the trammel is set at the bottom, with its length in the direction of the tide. It is anchored and buoyed at each end, the back or upper edge being well corked and the foot weighted to keep the whole length in proper position. The leads are of the required weight to sink the corks which will raise the net like a wall from the bottom to the height the large meshes will allow, *viz.*, 8 feet.

The action of the trammel is peculiar and is more like that of a trap than is apparently the case in other nets. As the outer nets or wallings stand with their meshes fully open and exactly opposite each other, and the small meshed net hangs loosely between them, a fish, in trying to pass through the first one, meets the second and carries a portion of it through the third, thus producing a bag or pocket beyond it.

The more the fish struggles within its self-made prison, the more it becomes "trammelled," and, in its efforts to free itself, sometimes carries the pocket back through the adjoining large mesh and makes its chance of escape still more hopeless.

There is a double advantage in having a walling on each side, for a fish is thus obliged to strike the net just where the middle slack portion can be pushed through the outer large mesh, and the net is equally effective on whichever side the fish approaches it.

The first trial was made off Cronulla Beach in about 7 fathoms of water, and the trial was fairly successful though made in the daylight and only left down for a short time. Other trials were made after dusk, and the result was a marvellous success.

In half an hour's trial a fish basket full of magnificent red carp, schnapper, teraglin, groper, and bream, were netted and there can be no possible doubt that it would be successful all along the coast, and would naturally increase our fish supply if adopted by the fishermen and worked on outside grounds.

These trials were carried out in the current and in the rough sea, and on rocky and foul grounds, and it was found that the net worked exceedingly well.

The total cost of the material for the nets did not exceed £1 13s. 3d.

The absence of literature regarding the fishes of this Colony is seriously felt, and with a view to the compilation of a popular and scientific illustrated catalogue of the fishes and crustacea of these waters, the Government of the day was approached and asked to provide funds for the publication of such a work; but it is to be regretted that the necessary authority could not be obtained.

Such a work, embodying in a concise form a description of the principal forms of fish, their habitats, classification, and habits, as well as their popular names, would be of great value, serving as a book of reference to the general public, and would afford much necessary information that cannot be obtained in any existing publication.

At the request of the Aborigines Board a fishing net was presented for the use of the Aborigines at Wallaga Lake Station.

As great difficulty was experienced in obtaining a boat for inspectorial services when visiting Lake Illawarra, a boatshed has been erected on the shores of the lake on a site leased from Mr. G. Fuller, at Albion Park, in which a spare boat is kept for use of the Inspectors visiting these waters.

An inexpensive shed has also been erected by the local Inspector, on a site obtained from the Department of Lands, at the Recreation Reserve, Kelly's Creek, Lake Illawarra, for the custody of the local Inspector's boat.

Steps have been taken to establish a marine hatchery for salt-water fish and crustacea, and for the cultivation of oysters, at Cabbage-tree Creek and Basin, Port Hacking, and as an experimental farm and fish preserve the works are now complete. The hatching and propagation of fish, as carried out in England, Canada, and America, will now be only a question of funds.

The locality selected at the heads of the Port Hacking estuary is an ideal one for the purpose, and consists of large flats of shallow depth of water, which eventually join a miniature harbour of great depth, with rocky borders, covered with fish and oyster food, and into which a small creek empties at the far end, where there is a large mud flat covered with mangrove trees and reeds.

It is proposed to construct paddocks for the various kinds of fish to breed in, and to lay down oysters on the shallow flats, with a view to studying their habits and life history.

Fish farms and breeding establishments have been carried out successfully in Switzerland, Italy, America, Norway, Canada, Scotland, and Newfoundland, and with the natural advantages existing at Port Hacking it is expected that the experiment will be equally successful.

A lease for ten years, at a nominal rental, has been obtained from the Australian Joint Stock Bank of the salt-water basin and gut known as Black Ned's Bay, at the entrance to Lake Macquarie.

The waters of this bay are connected with the channel by a small inlet, and as they were included in one of the early land grants issued to Mr. J. H. Broughton, in 1834, this Department had no jurisdiction over them under the Fisheries Act. Under this lease the same protection may be afforded to the fish in this bay as is given to the closed waters at the channel entrance adjoining.

Our thanks are due to the Bank for their generous assistance in placing these waters unreservedly at our disposal.

In November last a new set of By-laws was adopted by the Municipal Council of Sydney, regulating the Eastern Fish Market, Woolloomooloo.

In one of the By-laws, which has been in existence for some time, provision is made that the Eastern Market shall be the place for the inspection and wholesale disposal of all fish (not being preserved or salted), and that no such fish shall be exposed for sale in any other part of Sydney, unless approved of by the Market Inspector.

This By-law is not enforced in connection with the two fish markets at Redfern, which are not under municipal control.

There is no Market Inspector appointed to control the business at these markets, and the consequence is that fish may be, and are, sold that would not be passed if a responsible officer was appointed to control these matters.

In the interests of the public health and the fishermen, it is desirable that the same supervision should be exercised as at the Eastern Market.

A new By-law has been framed authorising fishermen to sell their fish privately from the hour of opening the market till 6 o'clock a.m., after which hour all sales must be conducted by public auction.

This alteration in the disposal of fish has given great satisfaction to fishermen who convey their catches to the markets, as they are thus enabled to save the expense of an auctioneer, when fortunate enough to dispose of their wares privately.

Officers of this Department attend all the markets daily, when not engaged on all-night duty, for the purpose of preventing the sale of immature fish, and several prosecutions have been taken during the year against persons for consigning under-sized fish to market.

The fish seized have in all cases been presented to the Sydney hospitals, where they are gratefully received.

Oyster Culture.

A steady increase is being shown yearly in the quantity of oysters shipped to market from the oyster-bearing grounds in this Colony.

The total output in 1898 was 16,334 bags, which was an increase on the previous year; and 20,182 bags were consigned to market in 1899, which is an increase of nearly 4,000 bags for the twelve months.

This increase, no doubt, is due to the systematic cultivation that is being carried out by several of the principal lessees, and the watchfulness of our Inspectors.

The production in excess over the previous year was :—From the Hastings River, 427 bags; Manning River, 405; Port Stephens, 897; Hawkesbury River, 947; George's River and Botany, 487; Shoalhaven and Crookhaven Rivers, 497; and Clyde River, 611.

On the Hastings, Manning, Camden Haven, and Clyde Rivers, and at Cape Hawke, oak logs and stakes, ballast, stones, old shells, and other materials have been judiciously laid down as a catchment for the spat, which adheres to these objects in great numbers.

The export of oysters exceeded the imports very considerably, the number of bags exported being 6,318, valued at £9,525, as against 1,299 bags imported, valued at £1,758.

The demand for oyster leases was very considerable; 224 applications were lodged for areas aggregating 59,661 yards of foreshore, and 134 oyster leases were issued during the twelve months.

The total area of foreshore under lease at the end of 1899 was 264,756 yards.

Great losses are still being experienced by the ravages caused by the disease known as *Polydora ciliata*, and it is the exception to find an estuary along the coast free from the disease. No practical steps have been taken to eradicate it, and it has now made its appearance in the Manning and Hastings Rivers. It is still very prevalent in the Hunter River, notwithstanding the strenuous efforts made by the lessees to clean the badly infected areas by dredging the oysters and removing them to dry land. This means the destruction of both the oyster and the worm, but the shells after being thoroughly cleansed are relaid in clean waters.

For many years preserved oysters have been imported into this Colony from America, and have realised a ready sale; and it is surprising that our oyster cultivators have not exhibited sufficient enterprise to place on the market preserved oysters to compete with the imported article.

Mr. F. J. Gibbons, one of our largest and most successful growers, made a move in this direction by tinning a few oysters from the Hunter River; but after the first experiment no further steps were taken, as it was considered that the cost of production was too excessive to admit of them being sold at a price suitable to the public and the producer.

Some of these tinned oysters were submitted to us for inspection, and they were found to be of very good quality, and much more natural in their preserved state than the American article.

With such extensive grounds as this Colony possesses for producing this bivalve, there ought to be no difficulty in obtaining a sufficient supply for ordinary demands, as well as a surplus that should be preserved in tins for consumption in the interior of the Colony, where it is not practicable to obtain the shell-fish in its natural state.

A few years ago some of the best of our oysters were obtained from the Tweed River and Terranora Creek, but that is very far from the case now. The oysters in these waters are now very much affected with the disease already mentioned as *Polydora ciliata* and it is the exception to find any absolutely clean. No oysters are now marketable from this locality, and the majority of leases have been surrendered on account of the unhealthy condition of things.

Experiments have been carried out by the local Inspector at Cape Hawke to determine the vexed question as to the length of time it takes an oyster to grow to a marketable size in these waters. In February, 1898, some oyster spat (mere specks) was laid down in Wallis Lake, and after a period of two years they were taken up and forwarded to Sydney for inspection. The specimens were healthy and free from disease, in fine clusters attached to stone and hardwood, and above the regulation size for market purposes, the shells measuring 3 by 2 inches, but from the delicate margins of the shells by recent growth it was apparent that they had not reached their limits of maturity.

A detailed account of their various stages of growth is given in the report of Inspector Massingham, which is appended.

The Harbours and Rivers Department, in carrying out reclamations and improvements in the coastal rivers, are liable to injure oyster leases in the immediate locality of the works by dredging operations, and the lessees naturally look for compensation for any damage that may be done to their areas or to the oysters on them.

Prior to the year 1898 all leases were issued without any provision for resuming such areas without compensation; but since that date the interests of the Government have been safeguarded by the insertion of a clause which empowers the Crown to resume areas under the Lands for Public Purposes Acquisition Act and the Crown Lands Acts.

In localities where it is contemplated by the Harbours and Rivers Department to carry out public works in the near future, leases are now only issued on condition that the Government is not liable to pay, nor the lessee entitled to claim, any compensation for any damage or injury that may be done to any leased area or to the oysters growing thereon.

Oyster stealing off Crown lands has been carried on to a great extent owing to the lack of supervision for want of funds in far distant waters.

A general impression prevailed that oysters could not be the subject of larceny, and in a case at Central Tilba the local Bench of Magistrates dismissed an information against a person who was charged with stealing a bucket of oysters the property of Her Majesty. The oysters were proved to have been taken during the daytime from Crown lands not under lease, and the Bench held that there could not be larceny of oysters growing on Crown lands; and that since the taking took place in the daytime, no punishable offence under section 10 of the Oyster Fisheries Act of 1884 had been proved.

As this was considered to be a wrong decision a special case under the Justices Appeal Act was stated, and after argument Mr. Justice Cohen decided that the defendant ought clearly to have been convicted of larceny. Upon this ruling fresh proceedings were instituted and the defendant fined accordingly.

This decision has had a very beneficial effect upon persons who had been in the habit of illegally taking oysters for the purposes of sale; and posters have been circulated in every Coastal District warning them of their liability for illegally removing oysters off Crown lands.

An appeal was made in the case of one Hair to set aside a conviction for having taken oysters from the public oyster reserve at Port Hacking. It was contended that the defendant took the oysters for his own consumption, and not for sale, and that the public oyster reserve upon which the oysters were alleged to have been taken had not been legally proclaimed.

After argument, Mr. Justice O'Connor ruled that the defendant failed to prove that the oysters were taken for his own consumption only, and that the reserve was legally proclaimed.

This decision has strengthened the hands of this Department considerably, and has been the means of preventing the wholesale removal of oysters from this popular recreation reserve and also from other public oyster reserves in the Colony.

The reports of the Inspectors, and returns of the Fisheries and Oyster Fisheries, will be found in the Appendices.

Inland Waters.

Endeavours were made to obtain live codfish during the spawning season, with a view to taking the spawn and hatching the ova, so that this species of fish might be introduced into some of the rivers of the coast.

Mr. H. K. Bloxham and Mr. W. P. Banks, of Bourke, very kindly offered their services in endeavouring to obtain some mature fish, and upon receipt of fishing nets, which were supplied by this Department, they made several attempts to secure the cod, but on account of the low state of the river, they were unable to obtain any that were suitable.

In the Darling River, near Bourke, codfish have decreased of late years on account of the very dry seasons, and it is difficult to obtain fish in any numbers.

Lake George in past years has been famous for the growth of codfish, but the drought has had a disastrous effect on fish life in these waters. Some years ago this lake was a magnificent sheet of water, 22 miles in length, with an average width of 9 miles and a mean depth of 8 feet, and at the present time it is about 10 miles in length, with an average width of 3 miles and a mean depth of 3 feet. The water is quite brackish and unfit for drinking purposes, and all the codfish are reported to be dead.

As there is nothing absolutely known as to the spawning time of codfish in the Murray River, information was sought from practical fishermen on various parts of the river, extending from Euston to Albury, and it was ascertained that the consensus of opinion tended to show that the spawning period extended from October to January; and as it was necessary to offer all the protection possible to prevent the extermination of this valuable fish, the whole of the Murray, Murrumbidgee, Lachlan, Darling, and Barwon Rivers, and their tributaries, were closed to net fishing from the 1st September, 1899, to 28th February, 1900.

The Edwards River, for 12 miles on each side of Deniliquin, the Nepean River from its junction with the Warragamba to its junction with the Grose, and the River Darling on each side of Bourke, were also closed for periods of two and three years.

Large quantities of codfish have been sent to Melbourne from the South Australian border between Melbourne and Adelaide which were caught by nets and lines in the Murray River.

Very little benefit is derived by this Colony from the fisheries in the Murray River on account of the inaccessibility to the Sydney markets. A few New South Wales fishermen follow their occupation in these waters, but the bulk of fishermen reside in the sister Colony.

From

From the towns of Swan Hill, Mulwala, Koondrook, and Moama, 97,586 lb. of codfish were exported to Victoria.

During the winter months codfish have a ready sale in Sydney, and are forwarded in good numbers by rail. 12 tons 14 cwt. 0 qrs. 20 lb. were consigned to the metropolitan market last year, three-fourths of which came from Bourke and the remainder from other towns on the railway lines.

Trout Acclimatisation.

After fourteen years experience in importing several species of fresh water *Salmonidæ* and their ova, such as brown trout (*Salmo fario*), the Loch Leven trout (*Salmo levenensis*), the American Brook Char (*Salvelinus fontinalis*), and the rainbow trout (*Salmo irideus*), we have arrived at the conclusion that the latter is most suitable for importation into New South Wales.

A native of the Pacific slopes of North America, of brilliant colour, rapid in growth, active in its habits, of excellent flavour, and capable of enduring the warmth of a sub-tropical climate, it is a fish that is admirably adapted for acclimatisation in this Colony, and is certain to prove both a valuable food supply and a source of pleasure to sportsmen.

It has been introduced into New Zealand waters—especially into the waters of the northern island—with most satisfactory results, and it was from the hatchery of the Auckland Acclimatisation Society that 100,000 rainbow trout ova were obtained this year for the purpose of hatching at Prospect.

As an instance of the rapid growth of this species of fish, it may be mentioned that a rainbow trout, taken from the ponds at the entrance to the Prospect Reservoir in October last, though only one year and ten days old, measured $13\frac{3}{4}$ inches in length, $7\frac{3}{8}$ inches in girth, and weighed 1 lb.

To realise the efforts we are making to stock our rivers with trout, it should be borne in mind that many of the waters in which they are being liberated are devoid of edible fish life. On the eastern slopes of our northern tablelands the only edible inhabitants of the streams are eels, and on the western slopes there are no fish except where cod have been introduced from the rivers of the plain country.

Very much the same may be said of the streams of the western and southern highlands. A food supply of great commercial value is thus being introduced into the waters of these districts where no food supply previously existed.

Young trout have many natural enemies to contend with, and it is, therefore, very discouraging to hear of mature fish being ruthlessly destroyed by some of the residents of the districts through which trout-bearing streams flow, after they have escaped the dangers which beset them in early life, and before they are sufficiently numerous to warrant their being killed in large numbers.

We desire to impress upon all who take an interest in the acclimatisation of this valuable fish the necessity of using every means in their power to protect them until they are thoroughly well established.

The spawning season for trout in the Monaro District commences about the end of March and continues till the month of July. Trout containing roe in an advanced state have been caught towards the end of March and in the month of April, and during the months of June and July a great number have been captured with the roe in ripe condition.

Over 26,000 trout fry were liberated in the following waters during the year, and in nearly every case they arrived at their destination in excellent condition, owing to the distribution being carried out before the hot weather set in:—Abercrombie River, Guinecor Creek, Kerraway Creek, Twelve-mile Creek, Cobrabald Creek, Wallagambie River, Yarrowitch River, Jerriwa Creek, Isis River, Jews' Creek, Broughton Mill Creek, Belabula River, Fish River, Duckmaloi Creek, Paterson River, Allyn River, Beardy River, Yarrow Creek, Cordeaux River, Warragamba River, Nepean River, Kangaroo River, Cudgegong River, Dunn's Plains Creek, Cambelong Creek, Little Plain River, Woronora River, Macdonald River, Wyong Creek, Cox River, Cox's Creek, Turon River, Kruhi River, Waterloo Creek, Williams River, Chichester River, Barrington River, Gloucester River, Macquarie River, Saumarez Creek, Burrowa River, Jenolan River, Winburndale Creek, Cataract River, Bobundarah Creek, Megalong Creek, Cotter River, Goodrabadgee River, Molonglo River, Queanbeyan River, Gudgenby River, Jellamatong Creek, Shoalhaven River, Colombo Creek, Campbell's River, Kingdom Ponds Creek, Stewart Brook, Murrumbidgee River, Paddy's River, Kialla Creek, Orara River, Enrich River, Bellinger River, Page's Creek, Moonan Brook, Picton Lakes, Stonequarry Creek, Windellama Creek, Popham Creek, Bow Creek, Spring Grove Creek, Brushy Hill Creek, and Jerrabagully Creek.

After the distribution of the trout fry had taken place, 16,400 young fish still remained at the hatchery; 13,200 of these were placed in the chain of ponds at the entrance to the Prospect Reservoir, and 3,200 were retained in the hatchery ponds.

These trout are being fed and taken care of, and will be distributed during the season of 1900, at which date they will be yearlings.

Although thousands of trout have been liberated in the Prospect Reservoir during the last few years, no trace of their existence has yet shown.

With a view to ascertaining whether any existed, a personal visit was made in June last, and hauls were made with deep nets in different parts of the reservoir, without result. A plentiful supply of natural food, in the shape of fresh-water crustacea, is probably the reason they are not seen to rise out of the water for insect life, as in the old country; but we have every reason to believe that they are in the deep waters of the reservoir.

We are anxious of taking this opportunity of thanking the many residents of the interior who have been kind enough to furnish us with valuable information respecting the growth and increase of the trout which have been liberated in the streams of their respective districts, and for the interest they have shown in the work.

The following particulars, which have been taken from these reports, will tend to show that trout are developing well in many parts of the Colony:—

South.

Yarrangobilly River.—Many trout have been seen, and they are doing well.

Eucumbene River.—Large trout are frequently seen. One weighing 5 lb. and another weighing 1½ lb. were caught near Adaminaby, and a trout weighing 2¾ lb. was found stranded in the Mill Hole at Kiandra. This fish was forwarded to us.

Moonbah River.—Numbers of trout have been caught from 1 lb. and upwards, and they are constantly seen rising in the stream, some of them apparently about 8 or 10 lb. in weight.

Bobundarah Creek.—They are thriving and increasing in size.

Bibbenluke River.—Many of the pools are full of fish, some of them as much as 8 or 10 lb. in weight, and they are frequently seen rising and jumping.

Delegate River.—They are now becoming well established.

Bombala River.—A trout weighing 2 oz. less than 6 lb., and measuring 24 inches in length, was found floating dead in a pool about quarter mile below the town bridge.

Upper Queanbeyan River.—They can be seen in shallow places and also jumping from the water. They appear to be thriving. One rainbow trout, weighing 4 lb., was caught in this river, the head of which was sent to us for inspection.

Umeralla River.—They are very numerous and increasing rapidly in size and numbers.

Kybean River.—They are doing splendidly in these waters. One very large trout, weighing 12½ lb., was caught at the junction of the Umeralla and Kybean Rivers, the head of which was forwarded to the Department. The jaws and tongue of this fish are studded with long, strong, sharp teeth.

Nerriga District.—The trout liberated in the streams of this district are growing vigorously. Only one has as yet been caught.

Belabula River.—They are apparently doing well, but none have been caught.

Wollondilly River.—Some dead trout were found on the bank of the river after a flood.

Teralga River.—Some have been caught from 1 to 2 lb. in weight.

Kerraway Creek.—They are increasing in size and doing well.

West.

Fish River.—Many trout have been seen. A considerable number of large fish have been caught with the net, and several weighing from 6 to 8 lb. have been speared.

Campbell River.—One trout has been caught this season. The river has been too low for successful fishing.

Winburndale Creek.—The young trout are doing well, numbers of them having been seen. None have been caught.

Lewis Creek, Larras Lake.—Several have been seen, and they are apparently thriving. None have been caught.

North

11

North.

Ourimbah Creek.—Several have been seen upwards of 1 lb. in weight.

Paterson and Allyn Rivers.—One trout has been caught weighing $1\frac{3}{4}$ lb., and others have been seen which were judged to weigh $\frac{1}{2}$ lb. and upwards.

Upper Hunter District.—The young trout which have been liberated in the streams in this district are doing well.

Kingdom Ponds Creek.—They are increasing in size.

Moonan Brook.—A young rainbow trout, $7\frac{1}{2}$ in. long and 3 oz. in weight, which could not have been more than 7 months old, caught in this stream, was forwarded to the Department for identification. Hundreds of similar fish have since been seen in these waters and in Stewart's Brook.

Macdonald River.—Trout are plentiful and are seen in many parts of the river. Cormorants and other fishing birds are frequently seen rising from the water with fish in their bills, apparently from 1 to 2 lb. in weight. They are said to grow rapidly in the Macdonald, and they attain a great size there. One weighing 5 lb. was shot by a man, who mistook the fish when it rose to the surface for a platypus, and nine were found dead in a waterhole near Woolbrook after a heavy storm, weighing from 3 to 12 lb.

Armidale Waters.—Trout are thriving and increasing rapidly in the waters of this district, some weighing as much as 2 lb. having been caught.

Beardy River.—The skeleton of a trout about 14 inches long, which had been stranded in a shallow pool in this stream, was forwarded to us. They are sometimes seen, but none have been caught.

Waterloo Creek.—Several trout have been seen in pools, varying from 4 to 8 inches long.

There is sufficient evidence to show that our endeavours to establish trout in various streams of the Colony as far north as the Queensland border, as well as to the west and south of Sydney, have been attended with success; and it affords us the greatest gratification to feel that we are in a position to report that very many of our rivers and creeks are well adapted for the reception and growth of this valuable species of fish. But it is in the Monaro district that our efforts have succeeded almost beyond our expectations. The Snowy River and its tributaries are full of splendid trout. In the main river they are increasing rapidly both in size and numbers, and reports have frequently been forwarded regarding large fish which have been seen or caught in its tributaries. The streams in the Bombala district are also well stocked.

Trout have been seen lying in the pools of the Bibbenluke which would probably weigh from 8 to 10 lb. if brought to scale; and on a favourable morning or evening it is not uncommon to see as many as fifteen or twenty trout rising and jumping at once in many parts of this river. As many as fourteen trout, weighing from 2 to 4 lb., were caught here in one day. They are becoming well established in the Bombala and Delegate Rivers. In the Moonbah, trout of all sizes up to 8 or 10 lb. may be seen; and favourable reports have been received regarding their growth and increase in the Eucumbene, Thredbo, and other tributaries of the Snowy River.

It is the extraordinary success which has attended the introduction of some of the fresh-water varieties of the *Salmonidæ* into these waters that induced us to recommend in our last Annual Report the erection of hatcheries on the banks of trout-streams with the view of producing fry from ova stripped from the trout which inhabit our own waters.

Hatcheries established in favourable localities would be attended with many advantages, and would ultimately prove a source of economy.

The great expense incurred annually in purchasing and importing ova from New Zealand would be saved, and the loss which is yearly sustained through the ova having to be brought a long over-sea journey—a considerable percentage of them sometimes being dead on reaching Sydney—would be done away with.

The fry produced from the ova taken from acclimatised fish would be stronger, healthier, and more fit for distribution than young fish raised from imported ova, and the retaining of fish in suitable ponds constructed for the purpose in the vicinity of the hatchery until they become yearlings or two-year-old fish before distributing them would be attended with good results.

At our request, Mr. C. R. Burnside made an inspection of the country through which the Naas and Cotter Rivers—tributaries of the Murrumbidgee—flow, with the view of ascertaining whether a suitable site could be obtained in the vicinity of these streams for the erection of a hatchery.

In the excellent report on the result of his investigations, which is published in the Appendices, he states that both these rivers are suitable for the purpose, but of the two he is of opinion that the Cotter is best for a trout nursery.

It has been found that at the Prospect hatchery it would be necessary to have some repairs executed before the hatching season commenced. The ponds were, accordingly, re-cemented, the drain-pipes relaid, and the floor, which had sunk, was raised 3 inches with concrete, and cemented.

Some bird-nest ferns and stag-horns were obtained from Tuggerah and placed on trees and round the chain of ponds situated at the entrance to the Prospect Reservoir, and have added considerably to the appearance of the grounds.

We consider that it is our duty, in the interests of the fishing industry, to again urge upon the Government the necessity of introducing more stringent laws than those at present in force for the protection of fish and oysters, and for the better administration of the fisheries.

The statutes governing the fisheries of the Colony are bristling with defects, and new legislation is urgently required to place matters upon a satisfactory basis.

Several attempts have been made within the last few years to improve the Fisheries Laws, but without success.

In submitting our reports for 1883 and 1890 we forwarded Draft Bills, and in 1895 a Bill was prepared by the Royal Commission on Fisheries, but the amended legislation therein proposed was not carried out.

Last year an amended Bill which was framed by Mr. J. H. Want, and approved of by the Government, passed through the Upper House, but was left at that stage by reason of prorogation the of Parliament.

Provision was made in this Bill—

To protect all kinds of fish and crustacea against the use of fishing-nets, scop-nets, and lines in close fisheries.

To close any waters that might be considered necessary against fishing-nets and scoop-nets, without waiting till the supply had become exhausted.

To refuse licenses to undesirable characters.

To enable the Commissioners to establish private fisheries.

To make it illegal to use any kind of sunken net.

To prevent the removal of oysters from Crown lands or private lands.

To provide for imprisonment instead of fine for a second offence, and to remedy a number of existing defects in the present Acts.

Such a measure is absolutely necessary, pending the passing of a more comprehensive Bill, and it is earnestly hoped that this Bill will be proceeded with during the early part of the coming Session.

We have the honor to be,

Sir,

Your most obedient servants,

JAMES C. COX, M.D.

W. R. CAMPBELL.

J. H. WANT.

S. H. HYAM.

FRANK FARNELL.

APPENDICES.

The President, Fisheries Commission,—
Sir,

Sydney, 21 November, 1899.

I have the honor to report that I visited the Hastings River on the 16th instant, and inspected the oyster leases.

A number of the leased areas were not marked on the outer boundaries as directed by the Regulations, and I informed the lessees that the leases would all have to be marked properly.

The oysters growing in the deep waters are in excellent condition and open well, and there is a good supply of marketable oysters on the deep-water beds.

Messrs. Dick and Marshall and Duncan have laid down a considerable quantity of ballast stones and oak poles, and have secured a good growth of young stuff, which gives every promise of growing into fine marketable oysters.

There is no sign of disease in the river, but the lessees have a good deal of work in coping with the shifting sandbanks, caused by the freshes and strong tides.

The oysters from this river realise at the present time 35s. per three-bushel bag.

There are plenty of suitable grounds for oyster culture not yet leased, and from inquiries made by several local people I anticipate that more leases will shortly be applied for.

The supply of fish in the river during the last few months has been very limited, and the three fishing-boat crews find it very difficult to obtain more than two or three baskets in a haul.

There are two sawmills, one at the mouth (Hayward's) and the other about 4 miles up the river, and complaints are made that sawdust and green timber are deposited in the waters to such an extent as to discolour them, and possibly to affect the fish and oyster life.

The proprietors of these sawmills should be called upon to dispose of the green timber, bark, and sawdust in some other manner, and their attention drawn to Regulation 33 of the Oyster Fisheries Act, which provides a penalty of £50 for committing such offence.

Inquiry was made into the objections raised by the Municipal Council against the issue of an oyster lease to Messrs. Marshall and Duncan on the north shore, and I was informed by some of the aldermen, in the absence of the mayor, that no objection would be made if the applicants would agree to provision being made in the lease for the public to be allowed to land for fishing and picnicing purposes, and that a communication would be made by the Council to this effect to the Department.

I have, &c.,

J. A. BRODIE,
Chief Inspector.

The President, Fisheries Commission,—
Sir,

Sydney, 20 March, 1899.

When visiting the Richmond and Tweed Rivers I inspected the whole of the leases on these waters, and found matters in Terranora Creek, Tweed River, in a very bad condition on account of the prevalence of the worm disease.

No. 1,295; Lessee, J. H. Hunt.—This is an area of 100 yards on the southern bank, and is a spatting lease from which a number of oysters have been taken yearly to stock the leases used for fattening purposes. The Harbours and Rivers Department have taken possession of the greater portion of this lease, on which they are erecting a dock and wharf. This will completely spoil the lease as an oyster-growing area.

No. 1,297; Lessee, J. H. Hunt.—An area of 100 yards on the east bank, on which are bankers and deep-water oysters. It is mostly used for cultivating purposes, very few being sent to market from this area. It is slightly touched with the disease.

No. 1,299; Lessee, J. H. Hunt.—An area of 100 yards, with a sandy bottom; there are no oysters on this lease, and it is not at all suitable for growing them.

No. 1,298; Lessee, J. H. Hunt.—This 100-yard lease is on the same bank as No. 1,297, and the remarks made in connection with that lease apply to this area.

No. 1,300; Lessee, J. H. Hunt.—One hundred yards. This is a deep-water dredge-bed, which is well supplied with oysters, which are badly affected with the worm disease.

No.

No. 1,302 ; Lessee, J. H. Hunt.—A deep-water lease of 100 yards, nearly adjoining No. 1,300. The oysters on this lease are full of disease.

No. 1,652 ; Lessee, George Wells.—A lease of 100 yards, with a mangrove foreshore. A great quantity of oysters have been laid down on this bed ; dead shells are in profusion, but very few live oysters, probably due to the worm disease. Those oysters that are alive on this bed are badly affected with the disease.

No. 2,038 ; Lessee, A. Langley.—A 300-yard lease with a mangrove foreshore. The water is shallow over this area, and the most of the oysters are dead ; those alive are badly diseased. There are no oysters on the mangrove roots or the cobbler pegs.

No. 2,141 ; Lessee, A. Langley.—This is a deep-water lease of 200 yards on the north bank of the creek, on which there are very few oysters. There is a road running round the foreshore, and complaints have been made that the gravel from same has affected the oysters, but I am not inclined to think it has any injurious effect.

Mr. Wells complains that the dredging a narrow channel interferes with this lease, but if it does the injury is very slight. An incorrect number was posted on one of the boards, which the agent was instructed to change.

No. 2,219 ; Lessee, G. Wells.—An area of 100 yards, on which there is a great quantity of dead shells. Any oysters that are alive are badly affected with disease. The foreshore is of mangrove, and the bottom composed of sand and mud, and should be suitable to the oyster growth. The lessee informed me that he laid down 2,000 bags on this area.

No. 2,227 ; Lessee, A. Langley.—A 5-acre lease, with a depth of water about 2 feet. It is covered with dead shells and diseased oysters. The boundary stakes were incorrectly placed, and their removal to the proper places was arranged.

No. 2,293 ; Lessee, H. Wells.—A lease of 500 yards, having a rocky foreshore, on which there was a fair show of oysters, most of which were diseased.

No. 2,709 ; Lessee, J. Vassalo.—This lease, of 300 yards, is the only one on the Tweed River, and is free from disease. It has a rocky foreshore, and grows very palatable oysters, but they are rather small.

The worm is very generally distributed over the Terranora Creek, and is mostly to be found below low-water mark, although evidences of it were found above this mark.

There is a good deal of mud to be found in most of these beds, and where this abounds it is the exception to find an oyster free from disease.

Healthy oysters have been taken from spatting areas and laid down on the beds up the creek in large quantities, and quantities of dead shells can be easily picked up, the worm having killed the mollusc.

The natural beds are not so bad as the artificial ones, and this is no doubt due to the absence of mud in quantity in the former, and the plentiful supply of it in the latter.

I pointed out to the lessee and agent for the other lessees that the most effective way to eradicate the disease would be to dredge and collect all the infected oysters, and wash the mud off them and place them under a cover on land to protect them from the sun's rays, and after turning them over occasionally to ensure a thorough drying, to place them in the water after an absence of about seven days.

This method would, in all probability, destroy the worm, and not seriously affect the oyster, but the lessees are so disheartened that they are not inclined to adopt this rather laborious manner of cleaning the beds of the disease.

This disease is becoming so prevalent in the oyster fisheries of the Colony that it may be necessary for the Government to take some steps to endeavour to clean the disease out, otherwise the oyster industry will be very seriously affected.

I have, &c.,

J. A. BRODIE,
Chief Inspector.

The President, Fisheries Commission,—
Sir,

Department of Fisheries,
Sydney, 30 April, 1900.

I have the honor to submit, for the information of the Commissioners, a report as to the state of the Fisheries for 1899:—

Port Jackson.

In the early part of the year the supply of fish in the harbour became exhausted, owing to the excessive netting and the continuous work that has for years been carried out in these waters.

A portion of the waters to the east, and north-east of a line drawn from Grotto Point, Middle Harbour, to Middle Head, and from thence to Shark Point, were in consequence closed in July, for a period of two years.

Since the closure it is satisfactory to record that great quantities of fish have made their appearance in the harbour, and have, to a great extent, stocked the upper parts of the harbour, such as Iron Cove, Parramatta River, and Lane Cove River.

Owing to the protection afforded, schools of fish are frequently observed making an entrance on the southern shore, and no doubt great quantities of spawn are deposited in the upper reaches. Garfish and prawn nets have been freely worked by many fishermen, and had a very injurious effect on the immature fish.

In the closed waters of Parramatta River scoop nets have been used at night-time. Their use should be stopped in closed waters, but as they are not classed as fishing nets under the Act, there is no power to prevent their use.

Ninety-six men were engaged in this fishery, and 4,623 baskets of fish and 1,178 baskets of prawns were the total catch for the year.

Hawkesbury River.

In the main river fish were not as plentiful as formerly, but in the tributaries there were great quantities.

In June the closure of the tributaries expired, and was extended for a further twelve months.

During the thirty days' grace allowed by the Act large hauls were made by the local fishermen.

The garfish net is the cause of destruction of immense numbers of small fish in these waters.

This

This fishery provided a livelihood for eighty-eight fishermen, and the output for the year was 8,582 baskets.

Forty-three leases for oyster culture, aggregating 18,500 yards of foreshore, were taken up, and 1,927 bags of oysters were consigned to market.

Several people obtain a living by the retail of bottled oysters at the railway station.

Oyster stealing off Crown lands is still carried on, and owing to the rough and precipitous land abutting on the waters, the local inspector has very great difficulty in dealing with the offenders.

The disease known as *polydora ciliata* exists among some of the oysters below low-water mark.

Brisbane Water.

These waters were closed during the whole of the year, and are recovering their supply.

There are plenty of fish there, but of a very small run in size.

Line men to the number of some thousands visited these waters during the summer season, and caught great quantities, the greater portion of which were of a very small size.

While these waters are protected against the use of nets, a great many people obtain a living by letting out fishing boats and providing accommodation for visitors, and the railway derives a good revenue for the conveyance of persons visiting the waters. There is more money circulated in this manner, and more benefit is derived than is the case where the waters are thrown open to net fishing, and it would probably be a good thing if waters of this character could be permanently closed against nets.

Tuggerah Lakes.

These waters were very prolific in former years for the various kinds of fish, and were considered as amongst the very best grounds; but during the last two years the supply of fish has been steadily decreasing.

This is no doubt due in a great measure to the heavy and continuous netting that is carried on.

The output for the year did not exceed 4,494 baskets, a marked contrast to the 10,372 baskets in 1897.

There is one oyster lease in the channel entrance, where the oysters attach themselves principally to whelks, and grow to a very large size.

Lake Macquarie.

Although 11,609 baskets of fish were taken from these waters last year the catch was less than the previous years.

Formerly, fish were more plentiful during the winter months, but last year greater quantities were netted in the warm weather.

The tributaries are well stocked with fish, large and small, and these act as feeders to the lake.

The proclamation closing the channel entrance expired on the 20th November, after a three years closure.

The number of men fishing in these waters was estimated at sixty-five, and twenty-five boats were engaged in the fishery.

Port Stephens.

Fish have been scarce, with the exception of mullet, trumpeter whiting, and salmon; and prawns are very plentiful, but no efforts are made to take them on account of the distance of the waters from the Sydney markets.

Crayfish have been gradually becoming fewer in numbers, and there are fewer in the adjacent waters than on any former occasion.

It is essential that legislation should be introduced to protect them during their spawning season to prevent their extermination.

The method of catching them is so complete, and the traps so numerous, that it is only a question of time when this valuable food fish will be completely extinct in these waters unless protected.

The oysters in these waters are not equal to those grown on some of the rivers further north, and they are affected more or less with the disease *polydora ciliata*.

Very little effort is made at proper cultivation, and when a fall of spat occurs a great deal of it is lost for the want of proper material for it to attach to.

Cape Hawke.

A good supply of fish has been maintained in Wallis Lake, and satisfactory hauls have been made, but the means of transit is far from satisfactory. Freights of fish are often put on the steamer in fresh condition, and, owing to delays in crossing out over the bar, they are unfit for sale when the boat arrives in Sydney, and the fishermen suffer the total loss.

Crayfish have, in times past, been caught in good quantities here, but they are now diminishing as quickly as at Port Stephens.

The output of oysters has not been so great as formerly, and the future prospect is not so bright, on account of the excessive growth of weeds and the absence of any fall of spat.

It was expected that the freshes during the year would reduce the growth of weeds, but this has not happened.

The oysters in these waters are perfectly healthy, and no disease exists.

At the Manning River, which is about 30 miles north, the mud disease, *polydora ciliata*, has increased considerably during the last twelve months, and is bad in the upper leases.

There is very little fishing carried on in the warm weather, but some of the Sydney fishermen visit this river in the winter time, when they can get their catches to the Sydney market in good order.

Lake Illawarra.

Immense quantities of young fish are to be found in the tributaries and on the shallow flats of the lake, notably bream, mullet, blackfish, flathead, and garfish, and promise to provide a large supply when they mature.

Large quantities of young schnapper (red-bream), from 4 to 6 inches in length, were observed in the lake and along the coast from Wollongong to Kiama in the latter part of the year.

This

This species of young fish has not been seen in such large numbers for many years, and special efforts were made by the local fishermen to prevent their destruction when hauling their nets.

The total catch for the year was 10,451 baskets, which was an increase on the catch for 1898 by 4,515 baskets.

George's River and Botany.

Portion of George's River and the whole of Woronora River were closed for part of the year, and were very well supplied with fish.

The blubber was in great quantity during the summer months and prevented the fishermen from obtaining large hauls. Many young fish were killed by coming in contact with the blubber in the nets. There were seventy-five men obtaining a living by fishing and forty by catching prawns on Cook's River and at Lady Robinson's Beach.

The oyster leases are well stocked with oysters, but the disease exists in parts of the river, mostly at Wooloware Bay, where the soil is very muddy and soft.

Thirteen hundred and twenty-seven bags of oysters were shipped to market, and 16,700 yards of foreshore are under lease.

I have, &c.,

J. A. BRODIE,

Chief Inspector.

Sir,

Sydney, 1 March, 1900.

The Parramatta River has been closed against the use of fishing nets up to October, and reclosed again. About the time of reopening, the mullet were very plentiful, and the fishermen anticipated large hauls, but their hopes were not realised, as bad weather set in and the fish shifted, and when fine weather did appear the blubber came in very thick, so materially interfered with the landing of their nets.

The mullet have shown better during the year, more particularly the latter part, than I have observed them for some time past, and during the last two months of the year the fish could be seen in boatloads during the daytime, almost disappeared after sunset, and showing again at daylight.

I cannot report a large increase in the quantity of bream and whiting. I attribute this to the constant use of the prawns and garfish nets immediately outside the closed waters. Flathead became very plentiful towards the close of the year.

Large quantities of mullet have been caught by means of scoop nets within the closed waters. I have counted over a dozen boats out at it all night. I can but draw attention to the scoopers at work, as they constantly chase each school of mullet with their bright light affixed to the bow of the boat, and with the constant splash of the scoop the fish are being chased from place to place.

I cannot account for the diminished supply of river garfish; the weeds have grown well in most of the bays, and there is no more pollution, nor do the steamers run more frequently than hitherto.

The nets used about the open waters are chiefly the prawn, garfish, hauling, and meshing, and when the river above Abbotsford was opened, hauling and garfish nets were used.

The line fishermen made some very fair catches of flathead and bream throughout the year.

The prawn-fishers were more fortunate during the past year than the previous year. Large school prawns were plentifully caught, but the catchers found it difficult to keep the run of the prawns for more than two days at the time, so frequently did they move about.

The oysters are appearing well, but unfortunately the public will not let them mature.

The law has been fairly well kept in the closed waters. I have taken seven nets in the waters referred to.

I have, &c.,

FRED. W. SMITHERS,

Inspector of Fisheries.

The Chief Inspector of Fisheries.

Sir,

Sydney, 15 January, 1900.

In compliance with your request I beg to submit my report on the Fisheries of Sydney Harbour for the year 1899.

During the first quarter there were large shoals of mullet in all parts of the harbour (and a few fair hauls of bream were caught at the same time in the lower part of the harbour); these mullet were not from outside, but all came down from the river; there were but very few sea-mullet came in the harbour during the season. I consider it the worst season for sea-mullet for a great many years past.

In April hardgut mullet were still plentiful in the upper harbour, and a few small shoals of sea-mullet in Manly Bight, since then all kinds of fish have been very scarce.

Prawns have also been very scarce in the market, but that is through the blubber being so very thick all over the harbour that it greatly interferes with both prawners and other netters in their work.

Unlike the previous year there have been no shoals of cowan-young or pilchards come in the harbour, and only small lots of kingfish and salmon. The only fish I have seen in any quantity are mullet, and in greatest quantity, January to April; and I am of opinion that these fish spawn whenever they are ready, independently of whether they are inside or outside on the coast.

Mackerel have been fairly plentiful during November and December, but fishermen do not care about catching them now on account of the low prices they fetch.

Shoals of small kingfish were travelling along the coast during December, but very few of them came into the harbour.

The quantity of fish from the harbour brought to Woolloomooloo Market for 1899 was 4,096 baskets, and 823 baskets of prawns, 17 dozen crayfish, and about 50 dozen salmon; the average number of men employed—96, and 46 boats.

I have not seen any undersized fish left on the beaches during the year. The destructive garfish and prawn nets are the nets that are mostly used in the harbour with the exception of the four months the harbour is closed against prawning, when the Italians as a rule use short $2\frac{1}{4}$ in. and 3 in. mesh-nets.

There are no oyster leases or artificial cultivation, nor do I see any improvement in the oysters on the foreshores; in fact, there is scarcely a marketable sized oyster to be seen in the harbour. There used to be a good few fair sized oysters about Vaucluse, but that is now almost as bad as the rest of the foreshores. I know of no disease existing, nor have I noticed any fall of spat.

The Closures.—Narrabeen, Deewhy, Curl Curl, and Manly Lagoons closed on the 8th May, 1897 for two years, and on the 8th May, 1899, the closure was extended for one year. Parramatta River and Lane Cove extended from 14th October, 1899, for one year. Middle Harbour—Pearl Bay Wharf to Spit Point, and the flats in Main Arm from a point below Orange Grove to the opposite shore, closed 6th April, 1899, for two years. Port Jackson—Grotto Point to Shark Point, closed 12th July, 1899, for two years. The whole of Port Jackson is closed against prawning from 1st June to 30th September in each year. The whole of the foreshore of Port Jackson and tributaries, closed against the unlawful taking of oysters on the 14th October, 1897, for three years.

Approximately, number of baskets brought to Woolloomooloo Market, 44,585; 1,113 baskets prawns; and 1,819 dozen crayfish.

I have, &c.,

RICHARD HELLINGS,
Inspector of Fisheries.

The Chief Inspector of Fisheries.

Sir,

Sydney, 28 February, 1900.

I have the honor to report on the working of the trout hatchery at Prospect during the year 1899.

On the 2nd July two cases of ova arrived from Auckland. These were placed in the hatching-boxes and hatched out at a temperature of 48 to 50 degrees.

On the 15th July I received two more cases of ova. These were hatched out at a temperature of 48 to 50 degrees.

On the 21st of July I received two cases of ova. These were hatched out at a temperature of 50 degrees.

On the 29th July I received one box of ova. These were hatched out at a temperature of 51 and 52 degrees.

On the 19th August I received one box of ova. These were hatched out at a temperature of 51 and 52 degrees.

On the 10th September the distribution of trout fry commenced. Consignments of fry were sent to Glen Innes, Walcha, Macdonald River, Maitland, Fish River, Bell, Carcoar, Jew's Creek, Bathurst, Taralga, Wollondilly River, Delegate, Bredbo, Singleton, Wyong, Blandford, Murrurundi, Collaroy, Albury, Kangaroo Valley, Sofala, Oberon, Rylstone, Armidale, Dungog, Gloucester, Copeland, Berry, Mount Kembla, Burrowa, Queanbeyan, Cooma, Jenolan, Tuggeranong, Hazelbrook, Hazelgrove, Katoomba, Lithgow, Glanmire, Mount Victoria, Bellinger River, Penrith, Paterson River, Scone, Wingen, Coff's Harbour, Eucumbene, Braidwood, Heathcote, Tarago, Capertee, Picton, Campbelltown, Murwillumbah, Tarana, Nerriga, and the Cataract River.

In the Bloxsome Ponds 13,200 fry were liberated, and 3,200 were kept in the hatching-house ponds, and will be distributed when the cool weather returns.

I beg to inform you that the hatching-house requires painting outside. The hatching-boxes and fish-cans require a coat of asphaltum paint. This is all that is required to put the hatching-house in good order for the coming season.

I have, &c.,

GEORGE GLADING,
Inspector of Fisheries.

The Secretary, Fisheries Commission.

Sir,

Forster, 5 February, 1900.

I have the honor to submit report of the oyster fisheries of the Manning River for the year 1899.

During the year I have paid ten visits to this district for the purpose of measuring and reporting on oyster leases, the number of applications dealt with being nineteen, representing 4,900 yards of foreshore, or a total of 25,550 yards under lease and applied for.

A considerable portion of these were taken up for spat collection. Others are old oyster deposits which have not been worked for years, and have gradually improved, with the result that fairly good returns have been obtained.

These latter areas are mostly in the main river, and have hitherto been free from disease.

Of the quantity of oysters removed for market I have no reliable information; but, as far as I can judge from the present condition of the beds, the output for the ensuing year will be moderate.

Considerable quantities of foreshore oysters have been laid down on suitable areas, notably on Nos. 424, 202, 2,290 in the main river, and Nos. 489 and 29 in south passage.

There has been no perceptible increase of spat since last report.

The number of men employed in the industry is about twenty-five, the majority of whom work their own areas.

As a result of my recent examination I regret to report that disease in oysters has increased considerably during the last twelve months, the result from dredging operations being as follows, commencing the upper area in the South Passage, thence down:—

No. 2,162.—Hard bottom; depth, 30 feet; poorly stocked; badly diseased.

No. 67.—Hard bottom; depth, 20 feet; poorly stocked; badly diseased.

No. 2,432.—Muddy bottom; depth, 30 feet; no oysters.

No. 2,164.—Good bottom; depth, 4 feet; badly diseased; foreshore well supplied with laid-down oysters.

No. 2,431.—Fairly good bottom; depth, 15 feet; poorly stocked; badly diseased.

No. 2,183.—Patches of hard and soft bottom; depth, 15 feet; poorly stocked; badly diseased.

No. 17.—Hard bottom; depth, 17 feet; poorly stocked; badly diseased.

No. 29.—Hard bottom, depth from 5 to 15 feet, well stocked, badly diseased on middle and upper portions; on the lower end it does not appear so bad.

No. 489.—No disease in deep water; oysters in good condition. On the foreshore where oysters have been laid down there is evidence of disease.

No.

No. 2,186.—Moderately good bottom; depth 5 feet; fairly well stocked; no disease.

No. 2,259.—Good bottom; depth 8 feet; moderately stocked; no disease.

From this lease to the lower end of the oyster-bearing areas very few oysters are to be found. The disease appears to be worse on the upper leases in this channel.

At Luthrie Bay disease has not abated; Scott's Creek is also in a similar condition, but fairly well stocked with oysters.

Of the main river leases, results are a trifle more satisfactory. I find disease in evidence in a milder form on Nos. 202, 424, and 2,692. The oysters on these areas have been hitherto free from disease, and of good size and quality. Mr. J. Southwell informs me that disease has set in on No. 2,290 lease.

This being the lowest lease on the river, and No. 2,162 the highest, it would appear that disease is in evidence more or less throughout the whole of these waters.

Samples of diseased oysters were forwarded to you to-day from the following areas:—Nos. 548, 2,162, 2,164, 489, 2,431, 17, and 29.

I have, &c.,

J. MASSINGHAM,

Inspector of Fisheries.

The Secretary, Fisheries Commission.

Sir,

Forster, 22 January, 1900.

I have the honor to submit report of the fisheries of Wallis Lake for the year 1899.

Net-fishing.

This industry has been highly satisfactory, the supply of fish throughout the year being very good. During the schooling seasons of the different varieties exceptionally good hauls were made, which in connection with the more regular running of the steamer to Sydney, the output has increased considerably.

The number of baskets of mixed fish sent to the metropolis being 4,496, or an increase on the output of the preceding year of 1,249 baskets. There were also 328 baskets sent to Newcastle, making the total output 4,824.

As the port was without steamer communication for three months during the early part of the year, the record may be regarded as highly satisfactory; much higher figures would have been reached had the steam traffic been continuous.

The number of fishermen employed (exclusive of half-castes, of whom numbers are irregularly employed) was 27, and boats, 10.

Large schools of tailer and whiting were in during the early part of January, the latter being in roe.

Early in December I secured specimens of live whiting, with a view of testing the possibilities of forwarding live fish to Sydney. The experiment was a failure, the fish, though the water was frequently aerated and replenished, did not live three hours.

Of the movements of fish along the coast, little reliable information can be obtained, as they usually keep wide out, with the exception of sharks, which at times during the summer months are too numerous.

Referring to the fishing-nets and method of using them, I consider the garfish-net, without doubt, the most destructive implement for fishing which could possibly be used.

It is very satisfactory to know that there are in this district men who will not use small mesh nets, nor take undersized fish. These men complain of the unjust use of the garfish-nets, as it operates against them in their endeavours to keep within the law in the use of the hauling net, which is strictly limited to length and mesh, whilst the garfish-net, so long as the size of mesh and length of buntis legal, the wings may be any length. Every fisherman who considers his own interest will be glad to see an amendment in the Fisheries Act, in this direction, in the near future.

In order to minimise the abuse of the garfish-net, I would recommend the increase to 8 ounces as the legal weight of whiting and sand-mullet. Fishermen would then have no object in using small mesh nets, except for their legitimate purposes—that is, for the capture of garfish and prawns.

It is not the usual custom in these waters to absolutely draw any nets ashore, but it makes very little difference, the landing being in such shallow water that very few fish survive after being hauled in.

Some good might possibly be done in this direction if the depth of water for landing were specified.

The amended Fisheries Act, allowing nets of 300 fathoms to be used, has been further extended for a period of one year.

Prawn-fishing has been tried latterly, but with poor results, consequently it has been abandoned.

Cray-fishing, which is usually carried on by the Italian fisherman, has not proved remunerative this season, owing to the very small catches taken, the total being 394 fish, for which four men and one boat were employed.

There have been no prosecutions under the Fisheries Act.

Oyster Fisheries.

In the output of oysters there has been a slight decrease; 2,069 bags being shipped to the metropolis, and twelve locally consumed, the total for the year being 2,081, or forty-five bags less than the previous year.

The prospects for the ensuing year are by no means encouraging; the excessive growth of weeds on the oyster-bearing areas has necessitated the removal of all oysters to more suitable situations, and unfortunately, in several instances, the weeds, or the seeds, have been transplanted with them, and have been the means of increasing the pest. It being impossible for spat to catch on shores so surrounded by weeds, the stock for future use must necessarily be on the decline.

Hopes were entertained that the weeds would disappear with the freshes, but the constant freshes which occur during July and August dispelled that idea. Attention was also turned to the effects likely to be produced by dry weather and low tides, but since both have alternately occurred, disappointment has followed this expectation also.

The areas from whence the greatest supply is obtained, viz., those situated on the Wollamba River, Twin and Kangaroo Islands, are fairly well stocked, but are chiefly immature oysters, and being constantly worked, have not the chance to make that growth which they would if left absolutely alone for certain periods, say, twelve months alternately.

Good

Good work has been done in laying out cobbler peg oysters from the spat-catching areas, all of which are now fairly well cleaned up. This work has always to be carried out, in order to keep up the supply, but the bulk of the spat settles on the pegs or other obstacles between high and low water mark, or, in other words, all the spawn floats, the salinity of the water being too great to allow it to sink. Herein, then, lies the necessity for oyster cultivation in these waters: the spawn is deposited so high that it requires, as soon as it has grown sufficiently large, to be removed to situations where it will be just covered at low tides. The quantity thus laid down requires to be at least one-third of that removed for market annually. This being done, a regular supply will be obtainable.

Up to the present no sign of a recent fall of spat is noticeable, which is to be regretted, seeing that the catchment areas are denuded. The next fall, which may be expected any day now, will require to remain at least one year before removing, then another year or eighteen months to mature for market, so that the present crop will have to suffice until that time, about two and a half years.

The fall of spat last year was very limited, but the year previous a heavy fall occurred, and this I think it safe to assume is the bulk of the present crop on the ground.

The working of the oyster deposits in these waters differs materially from that followed out in deep water, or what are termed dredge-beds. In the former case the whole area can be seen and the oysters picked up by hand. This being so, it is only natural to infer that the same oysters are picked up, day after day, culled and thrown down again, so that they really get no rest, and without which oysters will not flourish, absolute rest being the one thing needful. If the lessees would adopt a plan of reserving certain areas for periods of twelve months, or even more, and allow no person on them, except for the purpose of laying down young stock, and strictly adhere to it, I feel confident it would give every satisfaction.

In the case of dredge-beds, oysters are not, and cannot be disturbed in the same way, for dredging may be done on the same area, day after day for weeks, and still there are places where the dredge did not touch.

The limit for working these areas at a profit for the lessee can be, and doubtless is, exceeded in many instances.

The general condition of oysters is good, and no disease exists.

The leased areas are in the hands of nine persons, the average number employed in the industry being twelve.

The oysters laid down for experimental purposes are in a healthy condition. I purpose forwarding them to you as soon as they attain the age of two years. A detailed report will accompany them.

During the year nine applications for oyster leases have been received, and reported on, comprising 1,300 yards of foreshore, one area of 300 yards surrendered, making a total of 25,250 yards under lease and applied for.

Police Court proceedings were taken against one person for the illegal removal of oysters from the public oyster reserve at Forster.

The following figures will show the quantity of oysters taken from this district during the period of my supervision :—

From July to December, 1896	960 bags
For the year 1897	2,241 "
" 1898	2,126 "
" 1899	2,081 "
Total	7,408 bags

Valued at rough calculation, £8,000.

Appended herewith is a table showing the quantity of oysters taken from the different leases during the year. But the fact must not be lost sight of, "the areas enumerated did not directly produce that quantity, the major portion being laid down from other areas."

No. of Lease.	No. of Bags.	No. of Lease.	No. of Bags.
2,767	2	1,431	156
2,462	127	417	95
2,055	207	181	279
908	217	2,408	22
2,057	5	1,971	136
2,592	1	2,401	24
2,395	7	2,067	70
2,394	6½	2,411	44
907	51	2,413	68
1,432	393	2,340	15
2,406	58	2,672	30
711	59	2,398	8½

I have, &c.,

J. MASSINGHAM,
Inspector of Fisheries.

The Secretary, Fisheries Commission.

Sir,

Nelson's Bay, Port Stephens, 9 January, 1900.

In compliance with the instructions contained in your circular letter of the 3rd instant, I have the honor to submit the following report on the fisheries of Port Stephens for the year 1899, or more correctly, for that portion of the year—the last three months—during which I exercised inspectorial supervision over the waters. For the period covering the first nine months of the year I have no data to guide me.

With the exception of trumpeter-whiting and salmon, large quantities of which were captured during November, the usual varieties of fish have been exceedingly scarce until within the last few weeks.

Of

Of course, salmon are not much sought after by the fishermen for market purposes, the fish being too coarse and tasteless, but a good deal has been captured and utilised as crayfish bait along the coast, the fishermen receiving about 3s. a basket for them.

Trumpeter-whiting might still be caught in quantity, but the restriction placed upon the use of the garfish-net when garfish are not in season acts as a preventive, any net of larger mesh being unsuitable, as the whiting escape through the meshes.

At the present time prawns are abundant in the upper waters, and to this fact may be attributed the increase of black bream in those waters—they feed upon the prawn.

Some good hauls of bream have been made in Telligerry Creek, and also at North Head.

Mullet are beginning to appear in shoals in the upper waters.

Blackfish, flathead, trevally, tailer, jewfish, kingfish, garfish, and sand-whiting (some splendid samples of the latter have recently been captured) are all on the increase. Of the species enumerated, tailer are generally the least sought after, as they play havoc with the fishing-nets.

May, June, July, and August are the months during which the majority of fish are in shoals, and it is during those months that they cast their spawn.

Crayfish cast their spawn during the months of July and August, and for this purpose they frequent the shelves and crevices of the rocks, and may frequently be caught by hand in shallow places when the tides are low. During the spawning period the crayfish "take off"—to use a term employed by the fishermen, and can never be caught in quantity by the ordinary methods employed, so that the fishermen resort to the practice of using scoop-nets, *i.e.*, a hoop with net attached, and fastened to the end of a long pole, for the purpose of scooping the fish from under the shelves of the rocks. This practice was probably first introduced by the Chinamen, numbers of whom (some ninety odd) made Port Stephens their headquarters. The Chinamen built large underground tanks or pits on the foreshore in Nelson's Bay, wherein they salted and cured sea-mullet, garfish, mutton-fish, &c., and consigned them by sailing vessels to Chinese merchants in Sydney. Crayfish were found to be less in evidence this season on the old well-known grounds off Port Stephens than has ever been known to have been the case before, so that some of the more enterprising of the fishermen sought and found new fishing-grounds off Newcastle. The supply of fish from these new grounds has, from all accounts, proved almost equal to what the old Port Stephens grounds produced years ago.

In former years hoop-nets were employed in capturing the crayfish. The hoops had a long line (regulated by the depth of the water) attached, with one end fastened to the boat. From six to a dozen such would be used by each boat. The operation needed all the fisherman's celerity and attention, otherwise the fish would escape. This method of capture compelled the fishermen to remain all night at sea, but now a new and improved method has been introduced, which has quite revolutionised the means of capture.

It consists of a circular trap constructed of stout wire and cane, flat on bottom, with a hole on top, so that, when once the fish enter, they cannot escape. Schnapper and other fish are frequently caught in these traps.

Some of the fishermen, I have been informed, have over one hundred of these traps in use. The fishermen sail on to these grounds with a boatload of these traps, drop one overboard, and drag it along the bottom until it catches in a ledge of rock, and then drop the line with buoy attached, repeating the operation until every trap is cast in the haunts of the crayfish. They then go ashore, and on the morrow, or when weather permits, lift the various traps and take out the crayfish. Hundreds of these traps are in use; indeed, now it is the only means employed to capture the crayfish, excepting scoops during the spawning season. It will thus be seen that unless legislation is brought to bear in the direction of regulating the number of traps to be used by each person, and to otherwise deal with this important branch of the fishing industry, it is only a matter of time when this valuable addition to our food supplies will only be found upon the tables of the wealthy classes. I pointed out in my report for November that the output for each season is eclipsed by that of the previous season's take, and that something in the nature of a prohibition is necessary to allow time for the fish to recuperate. By the methods employed in the capture of the fish, one more season's fishing will have worked out the new grounds off Newcastle.

Now, in regard to the prawns, which I have stated are abundant at the present time in the upper tributaries, no attempt has yet been made to capture them, and I do think the fishermen were unaware of their presence until I made the fact known to them.

As I am living some 6 miles from the Heads, I have had no opportunity of observing the movements of shoals of fish travelling along the coast, but that they do travel along the outside beaches and enter out-harbours in the "schooling" season there can be no manner of doubt. During the months of April and May the fishermen can always depend upon securing large hauls of mullet and other fish, but principally mullet, along the North Beach, which come down from the Myall Lake on the approach of the first of the westerly winds, making seawards. These fish then travel in a northerly direction, entering other harbours and rivers *en route*, having meanwhile (*i.e.*, whilst at sea) developed large roes; but whether the fish deposit their spawn at sea, or in our harbours and rivers, I am unable to state definitely, but I am inclined to the belief that the former is the case, and that the young fry drift in with the tides, and as they gradually develop, make for the upper waters of our harbours.

The output of fish during the three months ended the 31st December has been 823 baskets. The average number of men and boats employed during that period being fifteen men and seven boats. Some few months previous to this period a large number of men and boats were employed, and if I had data to guide me, it would be seen that the output of fish for the whole of the year would be very considerable, and that the average of men and boats employed would be far in excess of that given for the last three months of the year.

Taken all through, the average net-fisherman has no care for the future of the fishing industry. He looks only at the present conditions of things. If he makes a haul, and gets a couple of bream, three or four blackfish, and half a basket of mullet, together with dozens of small bream and sand-whiting from 2 to 5 inches long, in nine cases out of ten he will leave the small fish on the beach to die; he is in a hurry to get his net on, and to haul again further along the beach before another fishing-boat arrives. Unless an inspector is near fishermen will always land the bunt of their net high and dry. They rarely take thought for the welfare of the small fish left stranded on the beach.

With

With regard to the general condition of the oyster leases, I have to report that, with few exceptions, they are as nature made them. As a rule, the majority of the lessees, particularly those who hold small areas, make no attempt to improve their holdings by artificial cultivation, or by cleaning off weeds or mussels, their main object being to stock their areas with as many oysters as they can get off Crown land. Of course there are exceptions, but even in these exceptional cases the lessees have not done all they might have done in the way of introducing material for catching the spawn; draining their areas where drains are needed to make the flats firm and hard, and as a means of ridding the areas of the worms, commonly known as the "worm disease."

Mr. W. Eagleton, lessee of lease 2,797 at Telligerry Creek, has fixed a large quantity of black mangrove roots and limbs over the area with the object of catching spawn, and with very satisfactory results; and Mr. H. Holbert has improved his area No. 2,354 by digging shallow drains on either end of the lease to carry off the water which the tides left. These drains not only served the purpose for which they were intended; they had the immediate effect of hardening the flat whereon the oysters lay, and thus prevented them burying; and further, by the percolation of the moisture towards and into the drains when the tide had left the flats, they had a tendency to cause the worms (if any in the immediate neighbourhood) to follow in its course.

Mr. Henry Thompson has spent some weeks in partially cleaning his lease 449 of bubble weeds; but, with the exception of the three cases I have cited, no instances have come under my notice where lessees have done anything by way of improving their areas.

The worm disease is present, more or less, on all the leases in Port Stephens; but is less in evidence in Salamander Bay than in any other part of the harbour. This fact is due to the quantity of fresh water that finds an outlet by filtration and otherwise from the large area of swampy country at the back.

The oysters have been in a good fat condition throughout the year, the majority of lessees shipping to market all the time.

The fall of spat has been abundant throughout Port Stephens, and although the lessees have made no provision for catching it, nature to a certain extent has stepped into the breach by producing on most of the areas large quantities of whelks, upon which the spat catches, and the oysters found upon the whelks are generally known as "whelkers" or "whelk-oysters." Up to a certain stage of their growth the whelk-oysters are always free of the worm disease, as the whelks keep moving about the flats carrying their load with them; but when the oyster grows so large that the whelk can no longer carry the heavy burden it generally sinks into the flat. The worm takes advantage of the opportunity, and makes a home inside the shell of the oyster. The friction thus engendered and the hard fight entailed by the oyster to protect itself by depositing a thin film of shell over the worm causes the oyster to lose its condition; and the subsequent invasion by more worms so cramps the oyster that in the course of time it dies. The total output of oysters from Port Stephens for the three months ended 31st December has been 844 bags.

There are 41,541 yards of foreshore under lease, and some hundreds of yards applied for, but not yet granted.

I estimate that the oyster industry gives direct employment to about fifty men throughout the year. More employment could be given and greater would be the output were lessees to practise cultivation on their areas instead of leaving to nature the task of replenishing the, in many cases, overworked areas.

I have, &c.,

H. LAMAN,

Inspector of Fisheries.

The Secretary, Fisheries Commission.

Sir,

Swansea, 10 January, 1900.

I have the honor to submit my Annual Report on the Fisheries at Lake Macquarie for the year 1899.

In the first place, I have to inform you that there is a falling-off in the fish supply as compared with previous years—in fact, each year the supply is becoming smaller, and the total number of baskets taken is the smallest since I have been stationed here, there only being 11,609½ baskets sent to market. The greatest numbers taken were in the months of March, October, and November, during which months the weather is warm, and until the last two or three years the fish were always more plentiful during the winter months, when fishermen would rely upon some good hauls of bream to make up for the slack and warm season. During the year the channel entrance and portion of the lake were closed to net-fishing, and a great many bream, whiting, and tailers were caught by line-fishermen. This closure expired on the 20th November, when fishermen made some good hauls, which accounts mostly for the good supply of the last two months of the year. In Belmont Bay, which was included in the closure, weeds had grown up to such an extent during its rest that fishermen found it impossible to haul at some places with any hope of success.

The most fish were caught in the arms of the south end of the lake. I expected a better result at the end of the year than I am forced to report, as during the months of May, June, and July enormous shoals of bream, whiting, and jewfish were travelling up-channel to the lake, and it is strange that more of these have not been caught, although they must be somewhere in the waters, and perhaps, by not being caught, the lake will derive a benefit from their spawn.

During the months of October and November some good catches of schnapper were made by amateur line-fishermen along the coast south from the lake entrance. I notice fish travelling in the greatest numbers during the following months:—Tailers, February and March; bream, whiting, jewfish, and schnapper, May, June, and July; garfish, also winter months; and mullet between December and April.

Fishermen at Lake Macquarie are careful with undersized fish, and do not destroy them by leaving them on beaches to die. I have seen undersized fish killed by coming in contact with blubber in the bunt of a net or through being meshed. The average number of fishermen employed during the year is sixty-five and the number of boats twenty-five.

I have, &c.,

F. C. ALDRICH,

Inspector of Fisheries.

The Secretary, Fisheries Commission

Wyong,

Sir,

Wyong, 7 February, 1900.

I have the honor to submit to you my annual report for 1899.

There has been a great decrease in the take of fish this year compared with the last and previous years. The take for this year has been 4,494 baskets, for 1898 it was 6,259 baskets, and for 1897 it was 10,372 baskets, thus showing a large decrease every year.

I can only account for the decrease by the use of the diver nets which are shot with a great length of line at either end of net, which, coming along the bottom, disturbs the feed and kills it.

I also consider the weight at which the men are allowed to catch the fish at is too small, as they are not near in a spawning condition.

If the weight was increased the men would get a better price per basket, and the number of fish to fill a basket would be less, thereby gaining both ways.

I have observed large quantities of bream, whiting, and flathead in the lake entrance from December to March, and a large percentage of those varieties were in roe. The mullet travel in March and April, and I think most fish drop their spawn while travelling in sheltered bays and estuaries.

The average number of men has been thirty-six with twenty-three boats. Some of the men having left here for the Richmond River, others for Lake Illawarra.

There is no destruction of small fish in the landing of nets in these lakes, as the men land their fish against another piece of net, called a landing-net. This is stretched in the middle of the haul sometimes $\frac{1}{4}$ mile from the shore, and in from 18 inches to 2 feet of water.

I think the length of the meshing net might be increased to the same length as the hauling-net. It is the least destructive net used. Most of the men here use 600 yards of 4-inch mesh for what they call bullringing—that is, they shoot the net round a shoal of fish in the middle of the lake, then haul the net into the boat again, the fish being mostly meshed. I consider this is only another name for meshing.

There has been two casualties amongst the men here—one R. McHale capsized, and was fourteen hours before being taken off the bottom of the boat in a very exhausted condition. The other terminated more fatally. George Hutton, while going home from Tuggerah races, fell overboard and was drowned.

There is only one oyster lease here; it is in fair condition, there being a good many marketable oysters as well as a great many unmarketable.

The lessee has laid some oak logs and branches on his area to catch the spat, but the cobra has eaten them all away. There are a few oysters to be seen on pieces of the bark which has not been eaten with cobra. The oysters are in fair condition. There are occasional oysters to be found with the disease traceable in them, but I think they are recovering.

The affected part is about the middle of the area, and is close in shore.

I noticed the first spat settling on the rocks here on the 28th October, it was then scarcely $\frac{1}{8}$ of an inch in diameter, and spat of that size I have noticed at different times up till the end of the year.

There is only one man engaged on this area; he has sent $15\frac{1}{2}$ bags away during the year.

I have, &c.,

CHARLES GORDON,
Inspector of Fisheries.

The Chief Inspector of Fisheries.

Sir,

Brisbane Water, 13 January, 1900.

I have the honor to again submit a brief report on the Fisheries of Brisbane Water for the year 1899.

It is with the greatest amount of satisfaction I can state that the fish have increased materially in all parts, from the mouth upwards, the fine kinds of fish especially showing a more prominent increase. The mullet have also been more than plentiful. The great increase for the year referred to over that of the previous year must be attributed to the closure of these waters, thus excluding the use of fishing-nets. The value of the closure must be patent to anyone, as even a casual observer could see the fish in all parts, especially on the flats. Whereas during the time and for some lengthened period after the previous proclamation expired, the supply of fish appeared very poor, so great was the havoc caused through the indiscriminate use of all kinds of nets during the time it was open, three months, namely, April to June, 1898. Although my previous report showed that fish were working on the ground again, I can safely assert that it was not till well into the year 1899 before the supply was really good again. The immature fish have been plentiful, thus denoting splendid prospects of an increase for the year 1900.

Whilst expressing pleasure at the result of the closure, I must say I look forward with fear to the expiration of the same in August, as all the good done will and must be undone unless something intervenes to stop the use of the small mesh-net which the fishermen use, blind to their own interests. There are no licensed persons in this district.

The line-fishermen from the metroplis and other parts have had, taken all through, a good year; but it is impossible to even attempt to estimate the total catch of all boats, as there are no less than 200 boats used for this purpose. It is estimated that considerably over 5,000 persons visited Woy Woy, Cockle Creek, and Point Clair, and most of whom did an amount of line-fishing. With regard to the line-fishermen, I noticed that amongst the catches the run of fish was not as large as hitherto.

Oyster Report.

I have not seen or heard of diseases here amongst the oysters, and taken all through they have kept up their condition during the year. The Crown lands are still bare of oysters, and must necessarily be so when taking into consideration the number of persons who visit these waters.

The leases show a marked difference to the lands alluded to, as they are in some instances well stocked and cared for, and the lessees take a lively interest in their respective holdings.

Prawns.

Prawns, although there are a few here, are not sought after, the boat-owners preferring to purchase from the Hawkesbury River.

The

The law has been fairly well respected; I only detected one person hauling a net, and found another set in prohibited waters.

Four hundred and fifty-nine baskets of fish have been sent from Gosford, which were caught at Terrigal, the different catches consisting chiefly of bream, whiting, and garfish.

Oysters sent for the year ending 1899, 122 bags.

I have, &c.,

J. CAIN,

The Chief Inspector of Fisheries.

Inspector of Fisheries.

Sir,

Hawkesbury River, 6 January, 1900.

I have the honor to report on the condition of the net, line, and oyster fisheries of the Hawkesbury River and tributaries for the year 1899.

The net and line fisheries have given employment to eighty-eight licensed fisherman, using forty-four licensed fishing-boats, and the quantity of fish sent to market during the past year was 8,582 baskets of fish and prawns.

The kinds of fishing-nets used on this river is the garfish-net—a most destructive net among small fish—the common hauling-net, the prawn-net, and the meshing-net.

I beg to state that there is a considerable area of waters closed against net-fishing, including the following:—Cowan Creek, Mullet Creek, Mooney Creek, Berowra Creek, Marra Marra Creek, and Mangrove Creek. In some of these closed waters, fish are fairly plentiful, and in other closed waters fish are scarce—notably in Cowan Creek and Berowra Creek.

Fish of all kinds have now been for some time very scarce—it is generally believed that the garfish-nets are responsible—for years past these nets have destroyed thousands of small fish, and the day of reckoning has come. This is acknowledged to be the fact by a number of fishermen, and admits of no argument.

I beg further to state that during the past year several convictions have taken place under the Fisheries Act.

Of the different kinds of fish which go in shoals, the mullet and bream are on this river the most prominent.

For your information I may state that the different varieties of mullet gather in large shoals, coming down the river in large shoals towards the ocean in March and April, which is also their spawning time, when they are in full roe.

Bream will travel near the bottom in shoals, whereas mullet, garfish, and whiting will travel on the surface.

I may also state that in years past, shoals of schnapper have also been observed in the summer months; it is generally believed that they come there for the purpose of spawning. I may here state that schnapper when in shoals will not bite, and are confined to Cowan Creek, where the water is much saltier than the main river.

I have also observed that after spawning, and during May, mullet, bream, and jewfish will go up the river and stay there during the winter months, unless driven down by floods; they will stay in the deep holes of the upper Hawkesbury River.

Of prawns, I may state that of the many different species, their habits, &c., little is known. It is known that on the approach of winter, the prawns will go to the upper Hawkesbury River, and burrow in the ground during winter months, where they may be dug out to satisfy the unbelievers.

Some species of prawns—the brown prawn, will keep alive much longer than others. Some prawns will shed their coat, when they are known as soft prawns, and are then unsaleable. Prawns will also eat one another.

Of the observation of the shoals of fish on the coast, and their habits, I may say that I have no opportunity, as I am stationed up river, some miles from the coast.

I may further state that young fish are often destroyed in great quantities, particularly with the garfish-net, and also when a net has a lot of rubbish in it, such as weeds, blubber, kelp, &c., the little fish, which cannot get through will be all dead long before the net reaches the shore, hence the necessity of using nets of more liberal dimensions, so that little fish could go through, and escape at any time. The banishment of these destructive garfish-nets out of these waters I have recommended for a number of years, but no notice has ever been taken of my recommendation.

I have, &c.,

P. SMITH,

The Chief Inspector of Fisheries.

Inspector of Fisheries.

Sir,

George's River, 15 January, 1900.

I have the honor to submit the following report of the fisheries under my supervision during the year ending 31st December, 1899:—

Woronora River.

This river was well stocked with fish, especially whiting and mullet, up to the end of May, when the heavy rains caused a fresh which drove all the fish out. However, as soon as the fresh abated they returned and have been fairly good since.

The river was closed against net-fishing up to the 29th September, and in that night ten net-boats and crews commenced fishing, but owing to the big spring tides and the blubber only a few were caught, certainly not more than five baskets per boat. It is a most unusual thing for blubber to be in this river.

George's River.

From the 1st January to end of May many thousands of trumpeter-whiting were caught by line, a remarkable thing being that many were caught by line as far up as Johnson's Hall, over 20 miles up.

This is remarkable because fishermen have never caught them above Saltpan Creek. During the time of the fresh line-fishermen were getting plenty of whiting and black bream, and the net-men were getting great hauls of mullet, whiting, and other fish in the lower parts of river and bay. Like the Woronora this river is fairly alive with blubber; in fact, it is so bad about Como that the net-boats work it very little. Their principal work is about and below Dover Point.

From

From September, in every change of weather, lots of mullet, sand-whiting, and black bream leave and travel down the river to the bay and along the coast.

There were great quantities of sea-mullet in the bay, but they kept too wide from the shores for the nets to reach them. Not more than twenty boat-loads were caught.

A fair supply of large prawns all the year, more especially for the last three months. The principal parts where they are caught are in Kogarah, Oyster, and Oatley Bays, and other inlets in George's River. Cook's River had a fair supply, but they are much smaller. They have been scarce at Lady Robinson's Beach, not more than 100 baskets caught during the year.

Sand-whiting are to be found in large lots in June and July, on or about the flats in the upper parts of this river (except in a fresh). They leave in numbers about the end of November and have roes in them. They are very often caught travelling with black bream, blackfish, and hardgut-mullet along the shores of the bay.

Generally trumpeter-whiting come into the bay and mouth of river in large schools in April. This year they have never left it except in the fresh. Sea-garfish come into the bay in large lots in March; this fish is never found much above Dover Point.

Sea-mullet travel in large shoals from January to May, but it depends a great deal on the weather. In the time of any floods in the early part of the year it drives them out of the lakes and rivers, but if dry weather they do not travel till March.

In June and July jewfish were to be seen in thousands under and about Como Bridge, more especially on full-moon tides.

Large shoals of trevally come into the bay in November. The fishermen get good hauls of them at Towra Point.

Salmon, herring, maray, and pilchard travel along the coast and to the bay in September. Fishermen do not care to catch them, as they do not fetch enough money at the market to pay freight.

604 baskets of fish were sent to Sydney markets by train from Como.

There is on an average about twenty-five net-fish boats and seventy-five fishermen, and twenty boats and about forty men are prawn-fishing.

The only time small fish are left on the beaches to die is when the net is full of blubber. Blubber will kill small fish whether the net is landed or not.

At the present time there is an area of 16,700 yards under lease, besides 2,400 yards applied for, showing an increased leased of 2,000 yards.

1,327½ bags have been sent to market during the year, being an increase of 476 bags over the previous year. All oysters artificially laid down take the disease, especially those put down in Wooloware Bay. The disease is also very bad about low water in the upper parts of river.

The leases are fairly well stocked with marketable oysters, and small oysters are plentiful.

About twenty practical oystermen are at present employed in connection with the leases.

I have, &c.,

J. D. GRANT,

Inspector of Fisheries.

The Chief Inspector of Fisheries.

Sir,

Port Hacking, 8 January, 1900.

I have the honor to furnish the following report on the fisheries under my supervision for the year ending 31st December, 1899:—

During the year, particularly in the early and latter parts, I observed large shoals of sea-garfish, blackfish, black bream, salmon, kingfish, tailer, pilchards, tarwhine, tallegalane, hardgut-mullet, and sea-mullet coming in and going out with the tides and changes of winds.

The average number of men and boats is one-line fisherman.

The output of fish for the year is about thirty baskets, principally schnapper, teraglin, and crayfish.

The general condition of oyster leases.—No. 2,673 lease is in good condition, and artificial cultivation is carried on, the oysters are in good condition, and no disease existing.

The last fall of spat was in October. The quantity of oysters taken from lease No. 2,673 was six bags for the year.

The oysters round the foreshores are very small but in good condition.

Whiting and all other kinds of line-fish are very scarce in this river owing to the line-fishers destroying so many small fish daily.

I have, &c.,

W. H. NEWTON,

Inspector of Fisheries.

The Chief Inspector of Fisheries.

Sir,

Police Station, Bungendore, 8 January, 1900.

I beg to report, for the information of the Fisheries Inspector, that there has been no fishing in Lake George during the past two years, nor are there any fish in the lake, as they have all been destroyed during the drought, owing to the great fall in the lake waters. I would propose that as soon as the lake rises again to its usual level, that a fresh supply of fish be sent up from the Department, but not at present, as the lake is very low, in fact almost extinct.

I have, &c.,

M. O. MAUDE,

Inspector of Fisheries.

The Secretary, Fisheries Commission.

Sir,

Police Station, Eden, 20 January, 1900.

I have the honor to report—

- 1st. The species of fish here are schnapper, tarwhine, and trevally.
- 2nd. The output of fish about 2 tons; one man and one boat working. No undersized fish are left on beaches.
- 3rd. The condition of oysters is good. The owners of leases place stones in water for increase of oysters.
- 4th. I have no record of the quantity of oysters taken from the leases, neither have I any record of the quantity of foreshore under lease.

I have, &c.,

J. M. SCOTT,

Senior-constable.

The Secretary, Fisheries Commission.

Sir,

Wollongong, 20 January, 1900.

I have the honor to submit the following report on the Fisheries of Lake Illawarra for the year 1899.

The principal varieties noticed during the year have been bream, mullet, blackfish, garfish, whiting, flathead, and tarwhine.

During January, February, March, April, May, June, July, and August, mullet were the principal fish caught, with a fair quantity of bream, whiting, flathead, garfish, flounder, and sole.

Bream, blackfish, tarwhine, whiting, flathead, and garfish were netted in large quantities during September, October, November, and December.

The supply of young fry during, and especially towards the latter end of, the year has been remarkable. The tributaries of the lake, and the numerous shallow flats in which this lake abounds, with the channel entrance, were literally swarming with young bream, mullet, blackfish, flathead, garfish, and other varieties.

During September and October I noticed large numbers of young schnapper, from 4 to 6 inches in length, in the lake waters, and along the coast from Wollongong to Kiama. During these two months large numbers of these small fish were enclosed in the hauling-nets used in the lake. On every occasion I noticed these fish in a net I requested the fishermen to allow them to escape at the earliest opportunity, to prevent as much as possible, if not altogether, their destruction, which they invariably did, and as many as five baskets have been turned alive from the bunt or centre of nets.

Those young fish were being freely caught by amateur line fishermen along the coast between Wollongong and Kiama.

It is several years since this species have been noticed in such large numbers on this portion of the coast, and also in the waters of Lake Illawarra, and there is no doubt that their presence in the water is owing to the deep and wide channel through sand bar at the sea entrance, combined with the closure of this water from netting, thus allowing of free ingress and egress.

During the months of January, February, and March, large shoals of mullet, bream, yellow-tail, and mackerel were observed along the coast travelling north; also an immense shoal of some miles in extent of small fish, presumably maray or pilchard, were reported to me on the 14th February as having been seen off Bulli.

Several shoals of whales were reported off the coast during February.

No shoal fish were noticed or reported during April, May, June, and July.

During August, blackfish in large numbers worked into the lake through the sea entrance.

In October, a large shoal of sea-garfish, also several shoals of mackerel, were reported off the coast, travelling north.

On the 16th November, a large shoal of bream was reported off the Wollongong harbour, working in a northerly direction.

During December, large shoals of salmon made their appearance along the coast, working along the sea beaches, in a northerly direction.

10,451 baskets of mixed fish represents the total catch of Lake Illawarra for the year 1899, showing an increase of 4,515 baskets on the output of the previous year. There were forwarded to the metropolis 8,941 baskets, the balance, 1,510, being consumed locally.

The average number working on the lake during the year has been forty men and twenty-two boats.

Under the conditions that hauling operations are carried on in this fishery, no nets are hauled to a strand, in consequence of the shallow flats which surround this lake. Nets are worked to a back net in depths of water ranging from 1 foot to 2 ft. 6 in. Very few small or undersized fish are killed, because the centre or bunt of net is never out of the water.

The bunt is first emptied of its marketable fish, and then turned inside out to allow the young fry to escape.

During December, 1898, the channel through Sandbar, closed up owing to dry weather, and continued closed until the 9th August, 1899.

The local fishermen started to cut through Sandbar on the 4th August, but were not successful in opening it until the date mentioned—the 9th August, 1899.

During the dry weather experienced in the early part of the year, the lake fell some few feet below its normal level, leaving a dry bar at the mouth of all the tributaries of this water.

The mouth of Mullet Creek was completely sanded up. The Government, at a considerable expense, cut a channel some 150 yards in length, 20 feet wide, and 3 feet deep, to allow of free access to the waters of the lake. Some old residents state that it is sixty years since the lake has been so low.

Amateur line-fishermen have good sport during the year at Mullet Creek and the lake entrance, bream, whiting, tarwhine, and flathead being caught freely.

Oysters.

Oysters.

The oyster deposits in the lake entrance were destroyed during the dry weather, owing to the waters receding from the shallow flats.

Tom Thumb Lagoon.

This water is well stocked with young mullet, bream, whiting, and flathead, and is also well stocked with matured fish. The oysters in this water are in good condition; no disease exists, but the supply has been worked low by the general public.

I have, &c.,

D. W. BENSON,

Inspector of Fisheries.

The Secretary, Fisheries Commission.

Sir,

Forster, 15 February, 1900.

In reference to the sample of oysters noticed as mere specks on the 4th February, 1898, and which I now forward to you, I have the honor to submit the following report concerning them and oyster-life generally.

The experiment, as far as this district is concerned, has proved satisfactory. They were laid down in the latter end of February, 1898, on fairly good fattening ground.

On the 4th April they had increased in size to $\frac{1}{4}$ inch diameter.

The next month, May, a rapid growth was shown, some having reached the diameter of 1 inch, whilst others had not advanced beyond their former size, viz., $\frac{1}{4}$ inch.

During the next month (June) little or no progress in growth was made. Heavy rain occurred, causing a strong fresh, and, fearing their destruction, I removed them further down the river.

The record for July was an increase in the larger ones to $1\frac{1}{8}$ inch, the smaller ones still remaining at $\frac{1}{4}$ inch, though all appeared healthy. This shows how little the size denotes the age of the oyster.

September showed a substantial increase in appearance, the size being $1\frac{1}{4}$ inch, rounder and more uniform, the smaller ones rapidly catching up to the larger.

From September to December no increase in diameter was made, but a deeper and better shape was apparent. A few of the smaller ones died—I think from the depredations of small crabs.

From December to February, 1899, they showed a still deeper shell, but no increase in diameter. Being now one year old, and considering the number of freshes during that period, I think they did remarkably well, because I do not think the size of the oyster increases so much during excessive wet periods, although they improve in condition.

From February to July the largest oysters measured $1\frac{3}{4}$ inch. Though this is considered marketable size, no lessee having due regard for the oyster fisheries, or his own interests, would think of sending such oysters to market. What may be considered as the body of the oyster, the diameter of the shell, only measures $\frac{7}{8}$ inch, the rest being thin shell.

As was anticipated, a much more rapid growth was made during the first eight months. From that time the increase appeared to be in depth and general appearance.

My chief object in conducting this experiment was to arrive at some definite conclusion as to the age at which oysters are considered marketable; but I confess that that object has not been attained, only in so far as it affects these waters. To lay down any hard-and-fast rule is out of the question, because the whole subject depends upon certain and several conditions,—such as whether they be shallow or deep beds, the salinity of the water, soft or hard bottom, or in the vicinity of sand or mud.

I have, however, endeavoured to do my best, and believe to have succeeded in proving beyond a doubt that oysters do not mature in less time than two or three years in these waters; and from past experience I believe in the Richmond, Clarence, Evans, and Manning Rivers the growth is similar.

I was, until my visit to the Clyde River, very doubtful that oysters would mature in any of our inlets under that time, but from what I saw, and was informed by Mr. J. Barclay, my opinion is somewhat shaken. This lessee showed me some stones which he had quarried in December, and placed on end on a muddy foreshore, and on these stones were attached oysters as large as those now before you, which are two years old. My visit to the Clyde extended from the 13th to the 26th April, so that those oysters at farthest could not have been more than five months old. This extraordinary growth seems almost incredible.

That oysters do grow much more rapidly there than here, I have no doubt, on account of the very different conditions. A much greater quantity of fresh water finds its way into the river, from the hilly nature of the country surrounding, bringing down a constant abundance of sediment to mingle with the saltwater upon which the oyster feeds.

The whole of the oyster grounds, both on the foreshores and in deep water, are situated on mud and rocks, the water being of that consistency to allow of the spawn sinking, and in this way the deep beds are replenished.

The same conditions as to spawn applies to all rivers where there is sufficient fresh water.

The conditions of oyster-life at Wallis Lake are entirely different. There is a very limited watershed. What little fresh water comes down is not sufficient to mingle with the salt but floats on top. This accounts for the growth of oysters being in shallow water. The deep water is too salt to allow the spawn to sink; consequently all the spawn is deposited between high and low water mark. There is plenty of good bottom in deep water, where a few scattered oysters may sometimes be found, but they do not mature. They appear similar to oysters growing at the entrances, where the water is salt and clear and does not carry sufficient sediment.

I am inclined to think that oysters can be grown to profit in any inlet on the eastern coast of Australia. That they do not grow on the opposite coast is owing to the insufficient rainfall.

In most other countries, oysters are found to grow in the open bays, simply because the rainfall is heavy, and the rivers too fresh for them to grow inside. For instance, in the sister colony of New Zealand, and all European and American fisheries, the same conditions exist. In short, the oyster flourishes where the conditions are favourable, be it in the inlets or outside.

The season at which oysters are in their best condition in Australia is exactly opposite to that of all other countries (that I know of). In New Zealand, for instance, the season is in winter, and similarly north of the equator. Why this is so has always appeared to me as unaccountable, but I think it is owing to a certain

certain amount of rainfall at that particular season, which renders the water in which they are situated just suitable for their growth. I have frequently noticed that during moderately wet winters in our own deep beds that oysters are in good condition during that period. I do not think the climate can have any effect on their condition; else why are they in their best condition in winter in other countries, and quite the reverse here? I notice at Wallis Lake, where the water often barely covers the oyster, and is consequently quite hot from the effects of the sun, they are in splendid condition, and in dredge beds, where the sun can have little or no effect, their condition is the same. Trusting the sample will reach you intact,

I have, &c.,

J. MASSINGHAM,

Inspector of Fisheries.

The Secretary, Department of Fisheries.

Sir,

Sydney, 26 May, 1899.

In accordance with the request of the Fisheries Commission, I proceeded to Tuggeranong, and thence to inspect the Murrumbidgee and two of its tributaries, with a view to the establishment of a hatchery in that district.

I first visited the Naas River at a distance of 16 miles from Tuggeranong Siding. The road thereto is by no means bad, and there is, I am informed, 50 acres of Government land available, with an old shearers' hut situated thereon, and a building lately a station house within 300 yards of same, and now occupied by one of the overseers of the property. The river at this part has a rocky bed, with pools and ripples and sandy stretches, most appropriate for the purpose of trout acclimatisation. It is not subject to excessive floods, and the banks at this point are sufficiently high to enable buildings to be placed well above flood level, and in such a position that a flow of water could be maintained from the hatchery to the ponds, which could be built in terraces below, and protected from floods by a very small embankment, which might be raised on the bank of the river, to make the ponds absolutely secure from any flood. Some hundred yards or so above the old shearers' hut there is an excellent site for a small dam, which could be made at very small expense, and the water could either be pumped into it from the river or it could be fed by pipes from a second dam to be made some distance up in the hills; but my time was too limited to enable me to even roughly estimate the necessary levels. This dam, close to the old hut, could also have a small catchment area for surface water, but not sufficient to at any time subject it to overflow from heavy rains; and, further, a by-wash could be easily arranged for back into the river, clear of the hatchery and ponds. The river below this point is very sandy and shallow, and, as far as I could ascertain, has no deep pools. It is joined by another small stream some mile or so further down, and enters the Murrumbidgee about a quarter of a mile above Cuppacumbalong head station. The lower part of this stream does not afford suitable protection for fish—at least not in its present condition; but I am informed that it usually has from 12 to 18 inches of water flowing, even in its shallowest portion.

The climate is certainly most suitable, and exactly similar to that of Monaro, where trout are to be found doing well and of large size,

I next proceeded to inspect the Cotter, which falls into the Murrumbidgee some miles further down its course. This stream is, in my opinion, far better suited as a trout nursery than the Naas, owing to its deep holes and rocky bed with runs and pools alternating. It also has a greater fall and more water in it, thus affording greater protection to the young fish. It is distant from Queanbeyan about 22 miles, the road being very good, with the exception of the last mile or two, which, however, could easily be improved. The buildings, &c., would, however, have to be on the far side of the Murrumbidgee, and as there is no bridge, they would be difficult of access in flood time. This river rises, I am informed, in a swamp near Kiandra, and is only liable to floods after very heavy storms, and which are of very short duration, the water clearing very quickly. From the cursory examination I was able to make, I am of opinion that the necessary water supply could easily be obtained, as there is a good fall in the bed of the stream, and little or no damming would be required.

I am informed that some trout fry were liberated here some years ago, but they do not appear to have lived, as there are no signs whatever of them, and no reliable information of any ever having been seen since can be obtained.

The climate, of course, is similar to the Monaro, and the water of a cold temperature throughout the year, owing to its rising in the mountains near Kiandra.

I was unable to procure samples of the water, but as I saw small fish alive in it, I cannot imagine it would be unsuitable for trout, and, as far as I could learn, there are no mines in the district from whence mineralised water would enter the stream.

This stream, even in this exceptionally dry season, flows into the Murrumbidgee in a strong stream, and fish would have an easy ingress and egress to and from it. The Murrumbidgee at this point is in itself a magnificent stream, and capable of holding and sustaining trout of a large size should they be once fairly started therein.

In conclusion, I consider that both streams are suitable for the acclimatisation of trout; but am of opinion that the Cotter is the more suitable, owing to the greater protection it offers. Besides its deep pools, runs, and falls, its banks are well timbered, and it is sheltered between high hills; whereas the Naas runs through open country for the greater part of its lower portion at least.

Yours, &c.,

C. R. BURNSIDE.

The Secretary, Fisheries Commission, Sydney.

1900.

LEGISLATIVE ASSEMBLY.
NEW SOUTH WALES.

OYSTER FISHERIES (AMENDMENT) BILL.
PETITION FROM CERTAIN OYSTER LESSEES IN FAVOUR OF.)

Received by the Legislative Assembly, 27 November, 1900.

To the Honorable the Speaker and Honorable Members of the Legislative Assembly of New South Wales
in Parliament assembled.

The humble Petition of the undersigned Oyster Lessees,—

RESPECTFULLY SHOWETH:—

1. That your Petitioners are lessees from the Crown of oyster-beds in various rivers and estuaries of the Colony, and have expended considerable money and labour in stocking and improving their leases.

2. That a Bill is now before Parliament providing a right of resumption by the Crown of such oyster leases for certain public purposes, and such Bill, by its second clause, provides that the compensation on such resumption shall be a sum equal to five times the annual rent reserved to the Crown on such lease.

3. That your Petitioners deem such a provision to be most unjust and inequitable, as it means that a lessee who has spent hundreds of pounds in improving a lease will only receive as compensation a paltry few pounds, making him an actual loser, in hard cash, of the greater portion of his expenditure.

4. Your Petitioners also are of opinion that this provision will render the lessee's title so subject to invasion with serious loss that no improvements dare be undertaken in future by oyster lessees, and the consequence will be a permanent injury to a large industry which gives much employment directly and indirectly, and at the same time provides a cheap supply of a wholesome food to the people.

Your Petitioners therefore humbly pray that your Honorable House will so amend the said Bill as to provide that fair and reasonable compensation according to value will be given to lessees on the resumption of their leases.

And your Petitioners, as in duty bound, will ever pray.

Dated this 23rd day of November, 1900.

H. WOODWARD & Co.
JOHN COMINO.

A similar Petition was received on 27th November, 1900, from Fredk. J. Gibbins and G. Marshall.

1900.

LEGISLATIVE ASSEMBLY.
NEW SOUTH WALES.

FISHERIES ACT.

(PETITION FROM RESIDENTS AND FISHERMEN OF WOY WOY AND BRISBANE WATER, AGAINST
THE PASSING OF A BILL WHICH WOULD CLOSE THE SAID WATERS AGAINST NET-FISHING.)

Received by the Legislative Assembly, 22 November, 1900.

To the Honorable the Speaker of the Legislative Assembly and the Members of the Legislative Assembly
of New South Wales.

WE, the undersigned, being residents and fishermen of Woy Woy, Brisbane Water, in the Colony
of New South Wales, present our humble Petition praying that the waters in and around Woy Woy be
kept open for net-fishing, and we hereby respectfully protest against the passing of a Bill through
Parliament closing the said waters against net-fishing, as there are abundance of fish in the said waters,
and the closing thereof would mean ruin to many of your Petitioners.

[*Here follow 46 signatures.*]

1900.

LEGISLATIVE ASSEMBLY.
NEW SOUTH WALES.

FISHERIES ACT.

(PETITION FROM CERTAIN LICENSED FISHERMEN AND OYSTERMEN IN FAVOUR OF AN AMENDMENT.)

Received by the Legislative Assembly, 11 July, 1900.

To the Honorable the Speaker and Members of the Legislative Assembly of New South Wales in Parliament assembled.

The Petition of the undersigned,—

HUMBLY SHOWETH :—

1. That we are licensed fishermen and oystermen.
 2. That your Honorable House will take into consideration the difficulties and uncertainties your Petitioners labour under in following their arduous and poorly-paid calling, and the high license fees your Petitioners have to pay in prosecuting the industry, and the general unsatisfactory condition of the law under which at present your Petitioners pursue their calling as fishermen and oystermen.
 3. That your Honorable House will, at the earliest opportunity, introduce and pass into law an amended Fisheries Bill on the same lines as a Bill which has already been read a second time and known as the Hon. J. N. Bruncker's Fisheries Bill.
 4. That the present Fisheries Act is obsolete, also contradictory and inequitable, especially in regard to the forfeiture of the fishermen's implements of trade, tools, and means of livelihood in cases where breaches of the law have occurred. The Act is also most unsatisfactory regarding both oyster leases and culture.
 5. That the present Commissioners of Fisheries are unqualified and irresponsible, and are, besides, unable to afford the time to devote to this important industry, consequently this Department is more or less neglected.
 6. That the present Secretary and Chief Inspector does not possess the necessary qualifications for the important duties of those positions, he being without practical or scientific knowledge before he was recently appointed to overlook this industry, which provides employment for a large number of men. Besides the positions named, this officer is also the Magistrate of Lord Howe Island, consequently it will be apparent to your Honorable House that he has more work to attend to than he can satisfactorily perform in connection with the large interests involved. Furthermore, a trio of offices vested in one person is opposed to the spirit of the Civil Service Act and militates against the effective discharge of the duties of the officer concerned.
 7. That your Petitioners pray your Honorable House to make provision for a fishermen's representative on the Fisheries Board.
- And your Petitioners, as in duty bound, will ever pray.

[Here follow 22 signatures.]

Similar Petitions were received—

LEGISLATIVE ASSEMBLY.
NEW SOUTH WALES.

FISHERIES ACT.

(PETITION FROM CERTAIN LICENSED FISHERMEN AND OYSTERMEN OF NORTH SYDNEY,
IN FAVOUR OF AN AMENDMENT OF.)

Received by the Legislative Assembly, 17 July, 1900.

To the Honorable the Speaker and Members of the Legislative Assembly of New South Wales in
Parliament assembled.

The Petition of the undersigned,—

HUMBLY SHOWETH:—

1. That we are licensed fishermen and oystermen.
2. That your Honorable House will take into consideration the difficulties and uncertainties your Petitioners labour under in following their arduous and poorly-paid calling, and the high license fees your Petitioners have to pay in prosecuting the industry, and the general unsatisfactory condition of the law under which at present your Petitioners pursue their calling as fishermen and oystermen.
3. That your Honorable House will, at the earliest opportunity, introduce and pass into law an amended Fisheries Bill on the same lines as a Bill which has already been read a second time and known as the Hon. J. N. Bruncker's Fisheries Bill.
4. That the present Fisheries Act is obsolete, also contradictory and inequitable, especially in regard to the forfeiture of the fishermen's implements of trade, tools, and means of livelihood in cases where breaches of the law have occurred. The Act is also most unsatisfactory regarding both oyster leases and culture.
5. That the present Commissioners of Fisheries are unqualified and irresponsible, and are, besides, unable to afford the time to devote to this important industry, consequently this Department is more or less neglected.
6. That the present Secretary and Chief Inspector does not possess the necessary qualifications for the important duties of those positions, he being without practical or scientific knowledge before he was recently appointed to overlook this industry, which provides employment for a large number of men. Besides the positions named, this officer is also the Magistrate of Lord Howe Island; consequently it will be apparent to your Honorable House that he has more work to attend to than he can satisfactorily perform in connection with the large interests involved. Furthermore, a trio of offices vested in one person is opposed to the spirit of the Civil Service Act, and militates against the effective discharge of the duties of the offices concerned.
7. That your Petitioners pray your Honorable House to make provision for a fishermen's representative on the Fisheries Board.

Your Petitioners, as in duty bound, will ever pray.

[Here follow 11 signatures.]

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

FISHERIES ACT,

PETITION FROM WALTER ROTTON, OF BALRANALD, IN FAVOUR OF AN AMENDMENT OF.)

Received by the Legislative Assembly, 28 August, 1900.

To the Honorable the Speaker and Members of the Legislative Assembly of New South Wales in
Parliament assembled.

The Petition of the undersigned,—

HUMBLY SHOWETH:—

1. That I am a licensed fisherman and oysterman.
 2. That your Honorable House will take into consideration the difficulties and uncertainties your Petitioner labours under in following his arduous and poorly-paid calling, and the high license fees your Petitioner has to pay in prosecuting the industry, and the general unsatisfactory condition of the law under which at present your Petitioner pursues his calling as fisherman and oysterman.
 3. That your Honorable House will, at the earliest opportunity, introduce and pass into law an amended Fisheries Bill on the same lines as a Bill which has already been read a second time, and known as the Hon. J. N. Brunker's Fisheries Bill.
 4. That the present Fisheries Act is obsolete, also contradictory and inequitable, especially in regard to the forfeiture of the fishermen's implements of trade, tools, and means of livelihood in cases where breaches of the law have occurred. The Act is also most unsatisfactory regarding both oyster leases and culture.
 5. That the present Commissioners of Fisheries are unqualified and irresponsible, and are, besides, unable to afford the time to devote to this important industry, consequently this Department is more or less neglected.
 6. That the present Secretary and Chief Inspector does not possess the necessary qualifications for the important duties of those positions, he being without practical or scientific knowledge before he was recently appointed to overlook this industry, which provides employment for a large number of men. Besides the positions named, this officer is also the Magistrate of Lord Howe Island; consequently it will be apparent to your Honorable House that he has more work to attend to than he can satisfactorily perform in connection with the large interests involved. Furthermore, a trio of offices vested in one person is opposed to the spirit of the Civil Service Act, and militates against the effective discharge of the duties of the offices concerned.
 7. That your Petitioner prays your Honorable House to make provision for a fishermen's representative on the Fisheries Board.
- And your Petitioner, as in duty bound, will ever pray.

WALTER ROTTON.
