14. THE GOVERNOR'S OPENING SPEECH.— Mr Speaker reported that the House had this day attended the Governor in the Legislative Council Chamber, when His Excellency had been pleased to deliver an Opening Speech to both Houses of Parliament. For greater accuracy, he had obtained a copy, which he laid upon the Table of the House, and ordered that it be recorded in the *Voices and Proceedings*, as follows:

HONOURABLE MEMBERS OF PARLIAMENT HERE ASSEMBLED,

You have been called together to consider legislation and financial measures to advance the programme approved by the people of New South Wales at the elections on 24th March, 1984.

The creation of jobs, the reduction of unemployment, the restoration of growth to the New South Wales economy and the welfare of the underprivileged remain the central tasks of my Government's programme.

As a result of fruitful co-operation between Federal and State Governments the task is now being carried out in conditions more favourable and with prospects of greater success than have existed at any time in the past decade.

Last year witnessed a massive capital works spending of over \$4,000 million which was the largest Capital Works Programme ever undertaken by a Government in Australia.

The Government will continue the attack on unemployment in the coming year through its Capital Works Programme. The Treasurer, when presenting the Budget, will provide details of the Capital Works Programme which will provide for a still further increase in Capital Works expenditure which of course is so vital to the employment and infrastructure of this State.

The rate of unemployment in New South Wales now stands at 8.4 per cent compared with a figure of 10.4 per cent at this time last year.

The number of jobs created in New South Wales in the past twelve months was 77,500 which represents more than 30 per cent of the total number of new jobs created throughout Australia during that period.

The cost of living index in New South Wales for the twelve months to June 1984 increased by 3.0 per cent and was the lowest of all States and well below the national average of 5.9 per cent.

14 August, 1984

I am again gratified to report to Honourable Members that the Budget for the 1983-84 financial year came in better than target and that the finances of New South Wales are in a sound and strong position.

My Government will continue to co-operate with the Federal Government in the exercise of budgetary restraint and fiscal responsibility to ensure the success of the simultaneous fight against unemployment and inflation.

The key to this success remains national co-operation between governments, business and unions in wage and price restraint, within the framework of the Prices and Income Accord.

HONOURABLE MEMBERS

There will be no let up in efforts being made to create jobs and to reduce unemployment.

Side by side with the co-operative measures at the national level, the Government has taken its own significant steps including the creation of a separate Ministry of Employment to fight unemployment.

Programmes such as the Youth Employment Scheme, the State Youth Corps and the State Government Youth Training Programme have provided opportunities for young people to work, many of them for the first time. The Youth Employment Scheme will be expanded to include young people up to age 25.

During 1983-84 more than 17 500 unemployed people have gained jobs on projects funded under the Community Employment Programme.

Under the Wage Pause Programme, a \$69 million allocation during 1983-84 of funded projects sponsored by State and Local Government authorities and community groups, created some 7 500 jobs.

Whilst meeting job creation expenditure and employment targets, the Government has been equally successful in helping the most disadvantaged. More than two-thirds of the jobs created were filled by people who had been unemployed for more than nine months.

My Government will establish a Women's Directorate in the Department of Industrial Relations to advise on issues relating to women's employment.

A youth employment payroll tax incentives scheme for the private sector is underway. In its first year of operation it is expected that this will provide jobs for up to 6 000 young people.

My Government will continue to work with business, industry and the union movement on future planning to extend the fight against unemployment.

The Government is developing a wide range of programmes to mark the 1988 Bicentenary.

The emphasis will be given to projects that will have lasting value to the people of New South Wales and will make a contribution to the architectural heritage of the State.

Projects and activities will cost in excess of \$410 million.

VOTES AND PROCEEDINGS OF THE LEGISLATIVE ASSEMBLY

14 August, 1984

The most important project for the State is the \$200 million redevelopment of Darling Harbour. This major project, which will include a Convention Exhibition Centre and a Space Theatre, will revitalise this historic section of the city and open up more of Sydney's magnificent harbour foreshores for public enjoyment.

Other major Bicentennial projects will be the Powerhouse Museum at Ultimo, extensions to the State Library, Art Gallery and Australian Museum. The Government has adopted imaginative designs to improve the physical appearance of Macquarie Street and the Circular Quay environs.

My Government will provide \$70 million for a State Bicentennial programme of commemorative, educational, community, arts and entertainment projects throughout New South Wales. Each local government area will receive a financial grant to assist in local programmes.

My Government has an ongoing power station construction programme to expand and ensure reliability of electricity supply.

Expenditure on this programme will exceed \$950 million this year.

The completion of Eraring power station, the largest and most modern in Australia, will provide a further 2 640 megawatts to the State's power system.

Construction work is proceeding on four 660 megawatt units at Bayswater power station, thus providing significant employment opportunities at the site and in supporting industries.

Broken Hill is to be given a new lease of life. The city and its mining operations will be linked to the State's electricity grid system at a cost of \$69 million to be funded jointly by the Electricity Commission and the mining companies. The companies will benefit from a revised mineral royalties scheme designed to encourage the mining of lower grade ores in existing mines and the encouragement of new mines.

The Government will give strong encouragement to industry for further exploration of oil and gas within the State.

Coal production in New South Wales during 1983-84 achieved a record level, with strongest growth being in the Hunter Region.

The export tonnage reached a record high of 33.5 million tonnes.

The completion of the Kooragang Coal Loader has increased the capacity of the Port of Newcastle from 25 million tonnes to 40 million tonnes per annum.

The Government has restructured the Maritime Services Board to make it more efficient and effective.

At Botany Bay, planning is proceeding for a new crude oil discharge facility to operate under more satisfactory environmental conditions.

Major port developments for the fishing and tourist industries are proceeding at Eden, and within the port of Sydney at Blackwattle Bay.

At Port Botany 28 hectares of parkland at a cost of \$4 million will shortly be open to the public for both active and passive recreation.

Some \$162 million was spent last year and created more than 3 000 jobs in country areas on country water supply and sewerage works. This programme will be continued.

A major new dam is planned on the Blue Mountains to service the Fish River Water Supply Scheme.

Work on Split Rock Dam near Manilla and enlargement of Glenbawn Dam near Scone is underway at a total estimated cost of \$96 million.

Wendamere Dam near Mudgee will be officially opened in October at an estimated cost of \$58 million.

My Government is formulating a State Water Plan so as to meet the water supply, flood mitigation and salinity control needs of the future. Good progress has been made on a salinity control works in the Murray Valley.

Construction of wastewater treatment works and an ocean outfall to dispose of sewage from Newcastle will begin next year.

The construction of three deepwater ocean outfalls at Malabar, Bondi and North Head at an estimated cost of \$270 million, will proceed. This will have an enormous effect on alleviating sewage pollution on Sydney's beaches.

The past year has marked a significant improvement in industrial relations. The number of working days lost due to industrial disputes has fallen by 40 per cent.

My Government fully supports the Prices and Incomes Accord.

The Occupational Health and Safety Council has been established and regulations to protect the health, safety and welfare of persons at work are being progressively introduced.

Legislation will be introduced to establish an Industry Training Council to ensure a comprehensive approach to developing the skills of the workforce.

On the advice of the Manufacturing Advisory Council the Government has established two tripartite committees— the New South Wales Committees on Industry Revitalisation and Defence Industry Support.

These Committees will have the task of recommending to the Government measures designed to ensure as far as practicable the maintenance and growth of the manufacturing industry and defence related industries.

My Government will establish an Investment Corporation to mobilise new capital for the private sector development by fostering new enterprises and expanding existing businesses.

This corporation will provide a vehicle for State equity participation in private sector development.

Since the Government's off-set programme was introduced two years ago to assist in creating new employment opportunities in industry, local industries have gained over \$21 million of additional work from overseas suppliers.

Regional industries are continuing to benefit from the incentives provided by my Government. During the last year some \$23 million was made available from the Country Industries Assistance Fund.

The Industry Development Boards in the State's nine regions are actively promoting economic development in their regions.

14 August, 1984

The importance of small business development as the basis of economic growth and diversity is recognized.

A new \$5 million Development fund has been established to assist small businesses, and legislation will be introduced to establish a Small Business Development Corporation, representing trade associations and independent small business proprietors.

The Government will also establish an Industry Management Assistance Fund to help companies meet the costs of professional services to assist in their development.

A vital component of the Government's industry revitalisation strategy is to promote advanced technology.

Major new initiatives have been successful in encouraging new advanced technology enterprises, and in introducing new methods and equipment into the State's traditional industries. Some \$3 million in assistance has been provided from the Advanced Technology Development Assistance Fund.

Mr Speaker said "Mr Wheeler joined the Legislative Assembly staff on 17th March, 1947, and served in most positions on that staff. VOTES AND PROCEEDINGS
OF THE
LEGISLATIVE ASSEMBLY

SECOND SESSION OF THE FORTY-EIGHTH PARLIAMENT

THURSDAY, 25 OCTOBER, 1984

The House met pursuant to adjournment. Mr Speaker took the Chair.

Mr Speaker offered the Prayer.

1. MESSAGE FROM THE LEGISLATIVE COUNCIL.—Mr Speaker reported a Message from the Legislative Council, dated 25 October, 1984, A.M. returning the Appropriation Bill, without amendment.

2. STATEMENTS BY LEADER OF THE NATIONAL PARTY.—Mr Speaker made reference to the proceedings in this House on the motion for Dissent from the ruling of the Chair given on 17 October, 1984, moved pursuant to Notice by the Honourable Leader of the National Party on 23 October, 1984. Mr Speaker informed honourable members that he felt bound to draw the attention of the House to certain paragraphs which appeared in the *Sydney Morning Herald* and the *Daily Telegraph* on Wednesday, 24 October, 1984 and extracts from certain radio and television broadcasts of Tuesday, 23 October, 1984 and Wednesday, 24 October, 1984, in which the actions of the Speaker were maliciously criticised by statements emanating from the Honourable Leader of the National Party.

Mr Speaker read to the House parts of the newspaper reports and transcripts of the radio and television interviews wherein the Honourable Leader of the National Party was directly quoted as making reflections upon the Chair.

Because of the gravity of the attack by the Honourable Leader of the National Party on the Chair and his unbecoming conduct as a member of this House Mr Speaker asked him to apologise for his statements and make an unreserved withdrawal of them.

In light of the refusal of the Honourable Leader of the National Party to apologise, Mr Speaker deplored his action in resorting to the media as a means of attacking the Chair, and strongly deprecated such conduct as a violation of the traditions of parliamentary procedure. Mr Speaker said that honourable members are aware that all the rights and privileges of this House have not been enacted by Parliament. It is incumbent upon honourable members themselves, therefore, to preserve not only these rights and privileges, but above all, the dignity of this Parliament.

This House looks particularly to those of its members who hold high positions to uphold the treasured traditions of the Westminster system. Mr Speaker said he was sorry that the Honourable Leader of the National Party has forgotten his responsibility in this respect. All honourable members will appreciate that the Chair is debarred from engaging in controversy in the media. The Standing Orders and the practice of the House provide sufficient means for honourable members to express dissatisfaction with actions of the Chair.

Mr Speaker added that he was distressed that the Honourable Leader of the National Party, a parliamentarian of 25 years standing, who has held the high offices of Acting Speaker and Chairman of Committees, and who is currently entrusted with the leadership of the National Party, should behave in such an improper and demeaning way as to undermine the confidence of the public in our Parliament.

3. CONDUCT OF THE LEADER OF THE NATIONAL PARTY

(1) URGENCY. — Mr Sheahan moved, That it is a matter of urgent necessity that this House should forthwith consider the following motion, viz.: That this House records its condemnation of the conduct of the Leader of the National Party and holds him in contempt of the House in:

- (1) Repeatedly and maliciously making imputations and allegations of bias and partiality against the Speaker;
- (2) Constantly reflecting on the integrity and competence of the Speaker; and
- (3) Sustaining a campaign of vilification against the Chair.

Question put and passed.

(2) SUSPENSION OF STANDING ORDERS.—Mr Sheahan moved, That so much of the Standing Orders be suspended as would preclude the consideration forthwith of the following motion viz.: That this House records its condemnation of the conduct of the Leader of the National Party and holds him in contempt of the House in:

- (1) Repeatedly and maliciously making imputations and allegations of bias and partiality against the Speaker;
- (2) Constantly reflecting on the integrity and competence of the Speaker; and
- (3) Sustaining a campaign of vilification against the Chair.

Question put and passed.

(3) Mr Sheahan moved, That this House records its condemnation of the conduct of the Leader of the National Party and holds him in contempt of the House in:

- (1) Repeatedly and maliciously making imputations and allegations of bias and partiality against the Speaker;

VOTES AND PROCEEDINGS OF THE LEGISLATIVE ASSEMBLY

Debate continued.

Mr Speaker having called the attention of the House to continued irrelevance on the part of Mr Greiner, the Honourable Member for Ku-ring-gai, directed him to discontinue his speech.
