Injury	UNKNOWN	NLDAL	21/10/2022	Fractured stifle (tibia)
Injury	UNKNOWN	NKGXT	23/10/2022	Broken hock and tibia, amputation option only treatment. Euth on humane grounds
Injury	UNKNOWN	NKEOU	26/10/2022	Comminuted fracture proximal radius/ulna
Injury	UNKNOWN	NLDQU	27/10/2022	Greyhound had a total H leg fracture femur and tibia. Greyhound was euth on 27.10.22
Injury	UNKNOWN	NKGVV	31/10/2022	No Information available
Injury	UNKNOWN	NLDAA	5/11/2022	No Information available
Injury	Westside Bull	n/a	25/10/2022	Greyhound sustained an open fracture of the RHS limb, euth on welfare grounds.
Injury	Ziping Iris	n/a	16/08/2022	Greyhound sustained an open fracture of the RHS limb, euth on welfare grounds.
Injury	Adele Amour	n/a	10/12/2022	Compound fracture of the near side radius and ulna
Injury	Alinta Fire	n/a	15/12/2022	Euthanased. Greyhound was leading race, was checked slightly and stumbled in the front end on the turn off the back straight, fracturing her forelimb as she stumbled, pulling up and failing to finish. Non-weight bearing LF leg. Golf buggy deployed. Compound left radius ulna fracture bleeding moderately. 1.5mL Methadone IV + 0.5mL Medetomidine IV on track prior to moving

OFFICIAL

				greyhound. Vetwrap bandage applied to fracture site to try to stem bleeding. Radius/ulna protruding / exposed approx. 5cm from fracture site. Greyhound transported to vet room. Blood supply to distal limb compromised.
Injury	Andante	n/a	29/04/2023	euthanased on track at Tamworth following catastrophic injury. See Race Day summary on p4 of Stewards Report as well as attached Mortality Form.
Injury	Barb's Jess	n/a	25/11/2022	Off side hock Fracture. Comminuted fracture to the calcaneus. Central tarsal bone collapse. Medial slab fracture/dislocation. Possible II and III metatarsal fractures.
Injury	Chicago Reign	n/a	7/02/2023	Unstable fracture of left femur with instability palpable just proximal /at the stifle and the proximal 1/3. Massive swelling all around the femur indicating gross haemorrhage and soft tissue damage.
Injury	Dana Leo	n/a	22/08/2022	Greyhound was checked on the first turn and began immediately vocalising and was carried off the track by staff. Attended the greyhound on track and discovered a left fractured radius ulnar. Greyhound was treated on track with 1.2mls of methadone IV and 0.2mls Medatomadine IV. Greyhound stopped vocalising soon after and was transported back on the GRNSW emergency recovery vehicle. Examination in the vet room revealed compound fracture of the ulnar. Discussed treatment option with the trainer and due to the grave prognosis of a forelimb compound fracture euthanasia was elected.
Injury	First Defence	n/a	16/09/2022	Fracture to the offside hock. Compound Calcaneus fracture, central tarsal/metatarsal fracture, 3rd tarsal fracture/dislocation.
Injury	Mojave Ghost	n/a	7/09/2022	Open compound complete radioulnar fracture Temvet 3ml IV Lethabarb 20ml IV
Injury	On Par	n/a	31/12/2022	The Gardens 31/12/2022 Race 7 - Multiple fractures to the off side hock Multiple displaced fractures of Calcaneus and Tibiotarsal bones
Injury	Our Boy Rocky	n/a	3/01/2023	Comminuted and compound fracture of mid and distal tibia and fibula. Possible hock fracture as well. Fractured bone penetrating skin in two places
Injury	Strictly Palaver	n/a	7/10/2022	Complete displaced fracture of L Radius and Ulna Methadone IV on-track, transported back to vet room and euthanised
Injury	Dana Annie	n/a	19/08/2022	Something happened in the catching pen, not sure, but dog presented to me as a comminuted open, radius and ulna fracture that was very distal. May involve the actual joint.  Gave 1 ml domitor 1mg/ml and 1 ml of methadone 10mg/ml prior to euthanasia with owners permission 20 ml lethabarb.
Injury	Tiggerlong Fab	n/a	5/08/2022	fractured left foreleg- open radius and ulna
Injury	Where's The Riot	n/a	20/07/2022	Euthanased. Greyhound was trialing at Taree in a public trial after the last race 20/7/2022. She broke down on the turn into home and failed to finish. I'm not sure if she fell, as I did not observe

OFFICIAL

				the trail. Trainer was also unsure. The greyhound was transported to the vet room with the golf buggy and immediately provided with IV methadone + IV medetomidine. Exam: compound fracture of the distal left radius and ulna.
Injury	Wild Wheels	n/a	29/12/2022	Compound fracture offside radius Fell after interference; didnt finish race ,compound fracture of RF radius/ulna-bone exposed,pain relief given on track
Injury	Ziping Moscow	n/a	5/05/2023	Came together in the first turn and fell. Underwent a post-race vet examination which revealed a compound fracture, nearside radius and ulna, euthanasia
Injury	Zoe's Charm	n/a	29/03/2023	Compound fracture offside hock including calcaneus and distal bones -Humanely euthanised
Injury	All Heart	n/a	8/10/2022	Fell after collided with other runner and hit barrier heavily. Post race exam revealed catastrophic and comminuted fracture to distal femur of OH leg. Decision was to euthanase dog as in severe pain despite opiates.
Injury	Almost Blue	n/a	28/04/2023	Came together with another runner entering the first turn, racing wide. Underwent a post race vet exam revealing a nearside radius and ulna compound fracture.
Injury	Blended Scotch	n/a	16/09/2022	Greyhound was checked on the turn into the home straight and fell heavily and began vocalizing immediately. Greyhound was attended on track by myself, staff and participants. Visual examination revealed bilateral radius and ulnar fractures with significant haemorrhage with non-stop vocalizing. Greyhound was treated with 1.5mls of methadone and 0.4mls medatomadine IV placed in the left cephalic vein. Greyhound showed no decrease in pain score and continued to vocalize. Decided due to inability to control pain, euthanasia was to performed on humane grounds immediately. Approximately 15-20mls of lethabarb was administered IV in the right saphenous vein. Greyhound continued to vocalize until it expired. Greyhound was transported to the vet room in the boot of my GWIC vehicle and further examination prior to bagging at the vehicle revealed compound comminuted fractures of both radius and ulnars. Greyhound was placed in a body bag and transported to the track freezer.
Injury	Burn Out Bronte	n/a	14/05/2023	Offside fore comminuted fracture of the humerus and elbow
Injury	Cheryald	n/a	12/11/2022	compound fracture offside tibia with profound blood loss euthanasia
Injury	Crackerjack Joel	n/a	6/08/2022	Vet exam by Dr David Hunter. Greyhound came together with another runner on the back turn. As a result, the greyhound fell. Fractured offside (right) hock. The greyhound was humanely euthanased.

OFFICIAL

Injury	Cupidity	n/a	3/02/2023	Compound fracture of left Radius & Ulna at Richmond track 3/2/23 Fell turn out of back straight. Pulled up screaming and then lay motionless on ground. Retrieved by staff and transported to vet room via buggy. Noted copious haemorrhage and disrupted left fore. Given 1.5 mls methadone IV ASAP Owner, Mr Robert Harrison present. Examination revealed compound fracture of distal left radius and ulna. Owner and I discussed options and elected euthanasia. Form signed. Witnessed by Steward Ms Emma MacKenzie. Euthanasia performed Mr Harisson requested disposal of remains by Club.
Injury	Daniela Walsh	n/a	5/12/2022	Off side hock and tibia fracture.Calcaneous fracture with medial slab fracture/dislocation. Spiral Tibial fracture to the distal end of the tibial body.
Injury	Dark Sky	n/a	10/12/2022	Near-side radius & ulna comminuted fracture & fractured humerus. Checked and fell first turn. Loud yelp as fell. Failed to finish as remained immobile on grass after fall. Lateral recumbency . Obvious fracture LFL. Picked up off track by myself and a nearby trainer and carried to kennels. Owner/trainer John Mason, met us at kennels. Transferred to vet room.
Injury	Devil's Diamonds	n/a	3/08/2022	Multiple fractures and dislocations of the hock. Fractured calcaneous and fractures to II and III metatarsals.
Injury	Don't Stay	n/a	5/10/2022	Complete open compound radioulnar fracture LHS
Injury	Entrancing	n/a	18/07/2022	mid shaft R/U fracture hind leg paresis, poor anal tone, poor proprioception and hind leg knuckling Poor pain management despite heavy sedation Grave prognosis. Euthanasia
Injury	Far From Shy	n/a	12/02/2023	On Track Euthanasia at Bulli 12/2/23. Comminuted open fracture of the right tibia. This dog when rounding the turn was galloped on by another runner - stopped completely. Picked up by the rescue vehicle and brought immediately to the vet room.  (1) Obvious fracture of right hind leg - mid-shaft tibia was hanging together by skin only. (2) On inspection in the vet room multiple pieces of shattered bone - some shards protruding through the skin (3) wound on medial side of tibia was bleeding profusely

OFFICIAL

				(4) fractured bone pieces extended from hock to stifle (5) dog was in shock  Inability to stabilise fracture Significant haemorrhage Cardiovascular compromise
Injury	Full Of It	n/a	25/04/2023	Had heels galloped on by another runner in the 1st turn falling heavily & failed to finish. Compound fracture of the nearside hock and was humanely euthanised.
Injury	Gort The Gift	n/a	29/07/2022	Fracture of the Acromion and caudal scapular. Extensive trauma to multiple muscle groups of the shoulder, marked swelling and subcutaneous haemorrhage.  Methadone given IV
Injury	Handsome Alert	n/a	14/01/2023	On track = Compound fracture offside radius and ulnar, fractured offside wrist This dog was involved in a collision with other dogs in the catching pen. Fracture of the radius and ulna with both bones protruding through the skin with significant haemorrhage Fracture of the wrist
Injury	Hartley Man	n/a	12/09/2022	collided with other runner just after finish and fell. Catastrophic multiple fractures of radius and ulna RFL Given Methadone immediately after injury, then euthanased in vet room.
Injury	Hazel Intention	n/a	31/03/2023	Multiple fractures to the offside hock. Race 1 The Gardens
Injury	Impatient Devil	n/a	28/09/2022	Knocked off balance first turn then ran wide and pulled up. Retrieved by staff member and carried to hose bay with me. Hosed and examined. Needs attention to bleeding wound right hock. Carried to vet room. Given methadone inj 1.5 mls IV. Injury is a compound fracture at base of right calcaneus. This serious injury qualifies for possible euthanasia.
Injury	Keep It Short	n/a	2/03/2023	Crowded on corner and twisted while LH leg on ground. Compounded spiral fracture of distal LH tibia. Given pain relief and sedation. Fracture then examined closely. Fracture unable to be immobilised. Dog was euthanased on humane grounds, following discussion with trainer.
Injury	Kingsbrae Bee	n/a	15/11/2022	Compound right radius / ulna fracture. Euthanased. Catching pen incident. Greyhound was collided with in the catching pen and fell, vocalising. Golf buggy deployed. Compound distal right radius and ulna fracture. Approx. 5cm of bone protruding through skin wound. 1.0mL Methadone IV + 0.4mL

OFFICIAL

				Medetomidine IV given in catching pen area prior to moving greyhound. Greyhound transported back to vet room.
Injury	Kingsbrae Flow	n/a	1/03/2023	Compound fracture of the offside wrist. Compound distal radio-ulnar carpal fracture resulting in dislocation from the radiocarpal joint laterally. Significant muscle and tendon detachment to the lower 2 inches of the radius and ulnar. Not able to stabilise effectively with splinting or replace to control pain. Splint location and transport would increase the level of pain being experienced in order for further medical/surgical attention.
Injury	La Mirador	n/a	22/02/2023	Fracture to both fore legs Checked near 600 boxes and fell. Lay on ground. Picked up by staff and returned to vet room via buggy with trainer, Justin King, carrying in his arms. Noted compound fractures mid shaft of both radii and ulnas of each foreleg. Haemorrhaging freely both legs. Given methadone inj 1.6mls IV to saphenous vein straight away. Trainer requests euthanasia and I agree this is in best interest of the greyhound. Owner not present, but trainer assumes responsibility and states owner will understand. I offered option to call owner by trainer or myself but declined. Steward Sean Welsford present in room for discussions and subsequent completion of euthanasia consent form.
Injury	Lieutenant Dan	n/a	18/02/2023	On track injury - Dubbo 18/2/23 - Came together with another greyhound, compound fract N/S radius & ulna. compound fracture severe haemorrhage
Injury	Lightnin' Ethics	n/a	10/12/2022	Left-fore compound fracture of the distal radius and ulna FELL heavily on first corner. Compounded fracture of LF distal radius and ulna, approximately 5cm above carpus. Given some pain relief and sedation. Discussed options with Trainer (Peter Rodgers) and Owner (David Smith, also a trainer), being immediate transfer to a surgical facility for amputation of the LF, or euthanasia. In spite of the residual value of the bitch for breeding, the trainer and owner opted for euthanasia over what they considered a difficult life for the bitch. Euthanasia, on welfare considerations, was performed at around 8:10pm. The CVO was alerted later in the evening.
Injury	Lord Ability	n/a	25/09/2022	EUTHANASED. Greyhound was checked on the turn off the back straight / first turn and fell, vocalising, did not get up again. FTF. Golf buggy deployed. Greyhound in R lateral recumbency. Greyhound is alert and responsive. Pain perception and movement in L forelimb and both hindlimbs, greyhound is able to lift his head. Supported into standing position. Obvious fracture evident upper R forelimb (the side the greyhound was laying on). 1.0mL Methadone IV + 0.5mL Acepromazine IV given on-track. Greyhound transported to vet room. Comminuted distal R humerus fracture involving the R elbow joint (articular fracture), crepitus and significant instability.
Injury	Madam Whiskey	n/a	17/10/2022	Came together with another runner and fell rounding the turn into the back straight. A post-race veterinary examination revealed a compound fracture of the off foreleg. Subsequently the

OFFICIAL

				greyhound was humanely euthanised. Compound fx of RF radius/ulna;multiple fragments;bone exposed
Injury	Meeka's Charm	n/a	4/07/2022	10/10 lame R hind, Knuckling R and L hinds, proprioceptive deficit No deep pain x 2 hind No tail sensation Shiff Sherrington forelegs PLR normal.Conscious and responsive No pain hind limbs Spinal damage. Euthanasia
Injury	Mighty Sting	n/a	12/04/2023	Racing incident compound fractures nearside radius and ulna
Injury	Mobile Doll May	n/a	10/03/2023	Compound fracture to the near-side radius and complete dislocation of the near-side wrist.
Injury	Peter Pan	n/a	21/01/2023	Compound fracture off side fore leg Dog no. 9 jumped ok, received a couple of minor checks before the back straight, ran the last turn nicely on the rails to finish towards the back of the field. It was bumped amongst the other dogs in the catching pen. Comminuted and compound fracture of the right radius and ulna. Both of the proximal fractured ends were exposed and sandy, the proximal end of a distal fragment of the radius was also punctured through the skin closer to the carpus.
Injury	Privacy Policy	n/a	30/07/2022	Vet exam by Dr Renea Chapman. Greyhound was severely inconvenienced by other runners when entering the first turn and fell. Multiple fractures to the left (nearside) radius and ulna; open (compound) fracture. The greyhound was humanely euthanased.
Injury	Refreshment	n/a	11/01/2023	Nearside distal compound radius fracture and nearside ulnar fracture FELL. FTF. Fell coming out of first turn after turning in and colliding with trailing dog. T-boned and fell heavily, and tumbling. LF distal radius and ulna fracture with compounding of distal afferent radius. Badly contaminated wound. Dog euthanased on welfare grounds following consultation with managing part-owner (trainer D. Roach).
Injury	Restriction	n/a	3/11/2022	Checked and fell on turn out of back straight. Pulled up near 600 boxes and retrieved by staff. Returned to kennels via buggy. Taken straight to vet room. Fractured humerus. Given 1.6mls methadone 10mg/ml injection IV as first priority. Assessed as comminuted fracture of distal right humerus with dislocated elbow. "Marble bag" feel. Owner/trainer Caitlyn Brewer present and she elected option of euthanasia. She declined option of work-up. She and I spoke to her husband Ricky on phone of our decision. He concurred.
Injury	Slingshot Lucy	n/a	29/12/2022	Checked in the run into the first turn, causing it to collide with CODE BLUE TOM (6) fall and fail to finish. SLINGSHOT LUCY (3) was recovered from the track by staff immediately after the incident. Post race veterinary examination by the OTV revealed a c Greyhound was checked on the first

OFFICIAL

				turn and fell awkwardly. Greyhound collapsed and was unable to rise and was retrieved by staff. Greyhound was presented to the vet room soon after and was immediately treated with pain relief. Physical examination revealed a comminuted compound fracture of the left radius and ulnar. Discussion regarding treatment options were discussed with the trainer. Due to ongoing pain concerns and a poor prognosis greyhound was euthanized on humane grounds with 15ml of lethabarb. Body was disposed of with the on track facilities.
Injury	Swift Jerry	n/a	18/09/2022	Compound fracture of distal humerus, multiple fragments palpated. Moderate/severe haemorrhage from wound and filling shoulder - possible cephalic vein rupture.
Injury	Swift Kade	n/a	28/06/2023	Wentworth Park Race 3 - Nearside humeral fracture with articular involvement.
Injury	Tahlee Girl	n/a	20/05/2023	sustained a compound fracture to its off-fore wrist as well as a fracture to its near fore wrist
Injury	Unchanged Pace	n/a	6/06/2023	On Track Injury - Multiple fractures offside foreleg
Injury	Veracruz	n/a	5/08/2022	Spinal fracture. tried to avoid the fallen 6 and went over the fence and hit the stirring pen
Injury	Joyous Treasure	n/a	26/05/2023	Fractured neck, open head wound, nearside leg wound. Possible sudden death but euthansia drug administered as precaution and recorded as euthansia in steward's report.
Injury	Mighty Boomer	n/a	1/04/2023	Dubbo - Trial Post Race
Injury	Mr. Bennington	n/a	6/12/2022	Compound fracture to the near-side radius and complete dislocation of the near-side wrist. Greyhound was checked on the back straight and fell underneath the rail colliding with the rail upright. Greyhound was attended on track and treated with opiod pain relief and sedation. Transported back to the vet room for further treatment. Physical examination revealed humeral fracture with joint involvement, large amount of swelling noted. Greyhound restless despite pain management. Discussed ongoing pain management with the trainer and concerns with arterial laceration. Euthanasia was elected on humane grounds due to pain management concerns and stability for transport.
