No. 1.

INDUSTRIAL DISPUTES (AMENDMENT) BILL.

Resolution.

Motion made (Mr. Wade),—That the Committee agree to the following Resolution:

Resolved,—That it is expedient to bring in a Bill to amend the Industrial Disputes Act, 1908, the Industrial Disputes Amendment Act, 1908, and the Industrial Disputes (Amendment) Act, "1909"; and for other purposes.

Motion made (Mr. Arthur Griffith) to insert after "1909" the words "by the repeal of sections 3 and 4 thereof."

Question proposed,—That the words proposed to be inserted be so inserted.

Colonel Onslow moved,—That the question be now put.

Question put,—"That the question be now put." Committee divided.

Ayes, 40. Noes, 33.

Mr. Moore, Mr. McFarlane, Mr. Grahame, Mr. Edden.
Mr. Perry, Mr. Fallick, Mr. Dooley, Mr. Carmichael.
Mr. Hogge, Mr. Downes, Mr. Nixen, Mr. Minahan.

Mr. Cane, TELLERS, Mr. Thomas, Mr. McCredie.
Mr. McGOWEN, Mr. Arthur Griffith, Mr. E. M. Clark, Mr. J. C. L. Fitzpatrick.

Insertion of proposed words negatived.

73845 1—

No. 3.
Question again proposed.—That the Committee agree to the Resolution.

Motion made (Mr. Carmichael), to insert after "1909" the words "and by the amendment of the Schedule to include clerks and other occupations not already included."

Point of Order: Mr. Wade submitted that the amendment suggested an amendment of the Schedule to the Act of 1909, and there was no Schedule to that Act, the order of leave was sufficiently wide to cover any amendment either of the Act itself or the schedule. The amendment was entirely out of order, and not at all required.

The Chairman ruled the amendment out of order.

Mr. Carmichael moved, That the Chairman leave the Chair to report a Point of Order, and the Chairman ruled the amendment out of order.

Question put.

Ayes, 32.

Mr. Macarthy, Mr. Pagé, Mr. Kearsley, Mr. Dooley, Mr. Dooley, Mr. Moore, Mr. Levy.

No. 2.

WEEKLY REPORT OF DIVISIONS

COMMITTEE OF THE WHOLE

(Extracted from the Minutes.)

THURSDAY, 7 JULY, 1910.

No. 1.

CLOSER SETTLEMENT PROMOTION BILL. (Further considered.)

Clause 2 having been agreed to,—

Approval of applicant and valuation of land.

Clause 3. Any five or more persons who are qualified to make and hold settlement agreements, and who desire to purchase under this Act from the same owner any private lands, not being land within a city or town, may, upon entering into agreements for that purpose with such owner, apply to the Minister to bring the said lands under this Act, and the Minister shall thereupon notify the Commissioners that such application has been made.

Such agreements, applications, and notices shall be in the prescribed form, and such applications shall be accompanied by the prescribed fee. [Read.]

Motion made (Mr. W. Millard) to leave out from line 1 the word "five," and insert the word "three,"—instead thereof.

And the word "five," having been left out,—

Question put,—That the word proposed to be inserted, be so inserted.

Committee divided.

Ayes, 46.

Mr. Fell, Mr. Brown, Mr. Price,
Mr. Wood, Mr. W. Millard, Mr. Dooley,
Mr. Wade, Mr. Graham, Mr. McCoY,
Mr. Moore, Mr. Oakes, Mr. Gillett,
Mr. Waddell, Mr. Lynch, Mr. Herce,
Mr. Tedd, Mr. Brinsley Hall, Mr. Donaldson,
Mr. Sobin, Mr. McNull, Mr. Briner,
Mr. Nielsen, Mr. Nobbs, Mr. Estell,
Mr. Lounsdale, Mr. McFarlane, Mr. Maagher,
Mr. Eden, Mr. Collins, Mr. Gus. Miller,
Mr. Carmichael, Mr. David Storey, Mr. Gillies,
Mr. Lee, Mr. Minahan, Mr. Moxham.

Noes, 5.

Mr. G. A. Jones, Mr. Burton,
Mr. John Stiller, Mr. SME.

Tellers,

Mr. Burgess, Mr. Ashford.

Word inserted.

And the clause having been further amended as indicated,—

Clause, as amended, agreed to.

No. 2.

SAME BILL.

Clause 4. The Minister on being satisfied—

(a) that the lands the subject of such application are suitable for settlement;

(b) that the applicants are qualified as aforesaid; and

(c) that such lands do not exceed a home maintenance area for each applicant,

may cause a valuation of such lands to be made "jointly" by an Advisory Board and the Commissioners.

If such Board and the Commissioners do not agree in the valuation, they may make separate valuations, in which case the lower of such valuations shall be deemed to be the joint valuation for the purposes of this Act. [Read.]

Motion (Mr. Nielsen) to leave out from line 5 the word "jointly," and insert the word "severally,"—instead thereof.

Question

74383 89—
Where valuation is less than price.

Question put,—That the word proposed to be left out stand part of the clause.

Committee divided.

Ayes, 28.
Mr. Briner, Mr. Brinsley Hall, Mr. Moore, Mr. Lonsdale, Mr. J. C. L. Fitzpatrick, Mr. Wood, Mr. Thomas, Mr. Hindmarsh, Mr. Lee, Mr. Fell, Mr. Waddell, Mr. McCoy, Mr. Nobbs, Mr. Brown, Mr. Gus. Miller, Mr. Estell, Mr. Carmichael, Mr. McFarlane, Mr. Oakes, Mr. Hunt, Mr. Morton, Mr. Donaldson, Mr. Price, Mr. Soobie, Tellers, Mr. G. A. Jones.

Noes, 19.
Mr. Mercier, Mr. Grahame, Mr. Edden, Mr. Estell, Mr. McFarlane, Mr. Trefly, Mr. Burgess, Mr. Nielsen, Mr. McNeill, Mr. Stuart-Robertson, Mr. McGowen, Mr. Minahan, Mr. Nicholson, Mr. Dooley, Mr. Lyned, Mr. Ashford.

Word stands.

Clause, as read, agreed to.

No. 3.

SAME BILL.

Clause 5. If the amount at which the land has been so valued is less than the price fixed in the agreement, the agreement shall, after the prescribed period, stand rescinded as to such land, unless in the meantime the vendor agrees to reduce the price to the amount of the "valuation," or the parties, with the consent of the Minister, given on the recommendation of the Advisory Board, confirm the agreement with or without any alteration. [Read.]

Motion made (Mr. Trefly) after the word "valuation," line 3, to leave out remainder of clause.

Question put,—That the words proposed to be left out stand part of the clause.

Committee divided.

Ayes, 31.
Mr. Moore, Mr. Wood, Mr. Lonsdale, Mr. Waddell, Mr. Oakes, Mr. Perry, Mr. Hogue, Mr. Lee, Mr. Nobbs, Mr. Brown, Mr. W. Millard, Mr. McFarlane, Mr. McCoy, Mr. Donaldson, Mr. J. C. L. Addition of proposed words negatived.

Clause, as read, agreed to.

And the remaining clauses having been dealt with.—On motion of Mr. Moore, the Chairman left the Chair to report the Bill, with amendments, to the House.

W. S. MOWLE, Clerk Assistant.
No. 1.

**Loan (Railways) Bill (Resolution):**—

Motion made (Mr. Waddell), That the Committee agree to the following Resolution:—

Resolved,—That it is expedient to bring in a Bill to authorise the raising of a Loan for railway purposes; to provide for a Railway Loan Account in the Treasury, and to amend the Audit Act, 1902; and for purposes consequent thereon and incidental thereto.

The Honorable Member for Alexandria, Mr. Dacey, referring in his speech to the construction of a railway through the Pilliga Scrub,—

The Chairman ruled that the Honorable Member could discuss railway construction in connection with the duplication of main trunk lines, but not railway construction generally.

Whereupon Mr. Dacey moved, That the Chairman leave the Chair to report a Point of Order, and ask leave to sit again so soon as the Point of Order has been decided by the House:—

The Point of Order is,—That the Chairman ruled that the Honorable Member for Alexandria, Mr. Dacey, could not speak on railway construction generally on the Resolution before the Committee.

Question put.

Committee divided.

**Ayes, 25.**

Mr. Carmichael, Mr. Kelly, Mr. Scobie, Mr. Estell, Mr. Treffe, Mr. Dacey, Mr. Beeby, Mr. Cosack, Mr. Lynch, Mr. Nicholson, Mr. Meenan, Mr. Stuart-Robertson, Mr. Mercer, Mr. Horne, Mr. Kearney, Mr. McGowan, Mr. Ashford, Mr. Holins, Mr. John Storey,

Agreed to.

On motion of Colonel Onslow, Mr. Scobie, Temporary Chairman, left the Chair to report accordingly.

No. 2.

AUSTRALIAN MUTUAL PROVIDENT SOCIETY’S BILL. (Further considered.)

Clauses 1 to 12 having been agreed to,—

Clause 13. The board may (subject to the provisions of the by-laws and of this Act) invest such

Investment of funds and property of the Society as to them shall seem fit in any one or more of the following modes:

(a) Upon mortgages of freehold or leasehold property anywhere within the “British Dominions,” and whether belonging to persons, corporations, or companies.

(b) In the purchase of or advances on public or Government securities of the United Kingdom, the Commonwealth of Australia, or of any State thereof, the Dominion of New Zealand, or of any State, Colony, or possession of the British Empire, or any stocks, funds, or securities guaranteed by the British Government.

(c) In advances on the security of policies of assurance, whether of the said Society or any other society, corporation, or company.

(d) In the purchase of premises or of land on which to build premises in whole or in part for offices for the use of the Society in or out of the State of New South Wales, and in building such premises.

(e) In the purchase of or at interest upon reversionary interests or life interests in funds or estates.

(f) In purchasing, or otherwise acquiring equities of redemption, reversions of leaseholds, or any other outstanding interests in respect of any property the subject of a security held by the Society under which default has been made.
(g) On deposit or current account with the ordinary bankers of the Society or any joint stock bank or banks.
(h) In repairing, adding to, building upon or otherwise improving the properties, the
equities of redemption in which have been or hereafter may be acquired by fore-
closure or in any other manner.
(i) In advances upon the security of city, municipal, shire, borough, or other rates,
tolls, or dues, payable or made chargeable by or under the authority of any Act of
the Parliament of the United Kingdom, or of the Commonwealth of Australia, or
of any State thereof, or of the Dominion of New Zealand, or of any State, Colony,
or possession of the British Empire.
(j) In the purchase of or advances upon bonds, debentures, mortgages, or other
securities of any city, municipality, shire, borough, public commissioners or trust,
public body, corporation or company, secured upon any undertakings or works, or
upon the rates, tolls, dues, or revenues payable, leviable, or obtainable therefrom;
Provided that the power to carry on or construct such undertakings or works and
to issue or give bonds, debentures, mortgages, or other securities in connection
therewith has been duly conferred under or by virtue of any Act of the Parlia-
ment of the United Kingdom, or of the Commonwealth of Australia, or of any
State thereof, or of the Dominion of New Zealand, or of any State, Colony,
or possession of the British Empire: Provided further that in the case of a company
registered under the Companies Act, such undertaking or works as aforesaid
shall have been authorised by some express enactment extending to the company.

Motion made (Mr. Arthur Griffith) to leave out from lines 4 and 5 the words "British Dominions," and insert the words "Commonwealth of Australia and Dominion of New Zealand,"—instead thereof.

Question put,—That the words proposed to be left out stand part of the clause.

Committee divided.

Ayes, 33.
Sir James Graham, Mr. Levy, Mr. Levy, Mr. Minahan,
Mr. Jansen, Mr. Gillies, Mr. Buxton,

No. 6.

WEEKLY REPORT OF DIVISIONS

IN

COMMITTEE OF THE WHOLE

(Extracted from the Minutes.)

---

WEDNESDAY, 3 AUGUST, 1910.

No. 1.

Workmen's Compensation Bill. (Further considered.)

Clause 1 having been postponed,—

Clause 2. (1) In this Act, if not inconsistent with the context,—

"Building work" includes the erection or demolition of any building or repairing of the same by means of scaffolding.

"Court" means a court or magistrate having jurisdiction to hear proceedings or applications for or in relation to any claim for compensation under this Act.

"Dependants" means such members of a workman's family, specified in the First Schedule hereto, as at the time of his death were wholly or in part dependent on his earnings, and then resident in New South Wales.

"Employer" means a person who habitually employs at least four persons in his trade or business, and includes persons, firms, companies, and corporations employing workmen, and the legal representatives of a deceased employer.

"Engineering work" includes any work of construction, alteration, or repair of a railway, tramway, harbour, dock, sewer, or waterwork.

"Factory" means factory as defined by the Factories and Shops Act of 1896 or any Act amending the same.

"Medical referee" means a legally qualified medical practitioner appointed by the Governor for the purposes of this Act.

"Mine" includes every shaft sunk or in the course of being sunk, and every adit, level, inclined plane in the course of being driven, and any shaft, adit, drive, level, or other excavation in and adjacent to and belonging to any such mine, but "mine" or "quarry" does not include a mine to which the Miners Accident Relief Act, 1900, or any Act amending the same, applies.

"Workman" does not include any person whose employment is of a casual nature, or who is employed otherwise than for the purpose of the employer's trade or business, but save as aforesaid, means any railway or tramway servant and any other person of any age and of either sex who, under contract with an employer, whether made before or after the commencement of this Act, and whether oral or in writing, express or implied, is engaged, "by way of manual labour," in any employment to which this Act applies.

(2) Any reference in this Act to a workman who has been injured shall, where he is dead, include a reference to his legal personal representatives, or to his dependents. [Read.]

And the clause having been amended as indicated,—

Motion made (Mr. Arthur Griffith) to leave out from the last line but one in the definition of "Workman" the words "by way of manual labour."
Question put.—That the words proposed to be left out stand part of the clause.

Committee divided.

Noes, 30.

Mr. John Storey, Tellers.
Mr. Keenley, Mr. Lynne.
Mr. Petrie, Mr. Cochrane.
Mr. Cockburn, Mr. Ashford.

Clause, as amended, agreed to.

Clause 3. This Act shall "apply" to employment by the employer on, in, or about—

(a) "any" railway, tramway, factory, workshop, mine, quarry, wharf, vessel, "engineering," or building work, any building used for dumping or storing wool, carried on by or on behalf of the employer as part of his trade or business; or

(b) any other employment carried on by or on behalf of an employer, as part of his trade or business which is declared by proclamation to be dangerous; provided that no such proclamation shall be made except pursuant to resolution of both Houses of Parliament.

Motion made (Mr. Kearsley) to insert in line 1, after the word "apply," the words "to any case of permanent disablement which shall have been caused by the conditions under which the incapacitated person shall have necessarily laboured in his trade or calling, and."—The Chairman ruled the amendment outside the scope of the Bill.

Whereupon Mr. Arthur Griffith moved,—That the Chairman leave the Chair to report a Point of Order, and ask leave to sit again so soon as the Point of Order has been decided by the House.

The Point of Order is,—That the Honorable Member for Northumberland, Mr. Kearsley, moved, in line 1, to insert after the word "apply" the words "to any case of permanent disablement which shall have been caused by the conditions under which the incapacitated person shall have necessarily laboured in his trade or calling, and."—The Chairman ruled the amendment outside the scope of the Bill.

Mr. Home,  Mr. Perry,  Colonel Onslow,
Mr. Holman,  Mr. Taylor,  Mr. Perry,
Mr. Brown,  Mr. Hogue,  Mr. Oakes,
Mr. McFarlane.

Agreed to.

And certain other new clauses having been dealt with,—

On motion of Mr. Wood, the Chairman left the chair to report the Bill, with amendments, to the House.

Tuesday, 16 August, 1910.

No. 4.

PUBLIC SERVICE (AMENDMENT) BILL:—

Clauses 1 to 7 having been agreed to.

Clause 8. The following sections are inserted next after section fourteen of the Principal Act:—

14A. In each department of the Public Service there shall be constituted boards, herinafter referred to as "departmental boards," who shall determine the grade, and the salaries, fees, and allowances of officers in such department, exclusive of the Under Secretary and of heads of branches.

14B. Each such board shall consist of the Under Secretary of the Department, a member of the Public Service Board, and the head of the branch to which the officer whose grading or salary is in question, belongs.

14C. If the determination of a departmental board is not unanimous, the member of the Public Service Board may refer the matter to the other two members of the Public Service Board.

The officer whose grading or salary is in question may, in any case, appeal from the departmental board to the Public Service Board.

On any such reference or appeal the Public Service Board may vary, rescind, or confirm the determination of the departmental board.

If the decision of the Public Service Board, on any such reference or appeal is "not unanimous," the matter shall be reheard before "two members and a District Court Judge." They may make such order as they think fit, and their decision shall be final.

14N. The grade and the salaries, fees, and allowances of the Under Secretaries and of the heads of branches shall be determined by the Public Service Board.

Motion made (Mr. John Miller) to leave out from paragraph 14D. the words "of the Public Service Board" and insert the words "who shall be elected by the officers of that Department," instead thereof.

Question put,—That the words proposed to be left out stand part of the clause.

Committee divided.

No. 9.
PARLIAMENTARY ELECTIONS (SECOND BALLOT) BILL. (Further considered.)

Second Ballot.

Clause 2. (1) Notwithstanding anything in the Principal Act, no candidate shall at any election be deemed to be elected for any electoral district as the result of the ballot taken at the poll under the Principal Act (hereinafter called the first ballot) unless he has received an absolute majority of votes.

(2) The expression "absolute majority of votes" means a number of valid votes greater than one-half of the number of all the valid votes recorded at the election, including the casting-vote of the returning officer when given in accordance with section ninety-eight of the Principal Act. [Read.]

Question put,—That the clause, as read, stand part of the Bill. Committee divided.

RAILWAY SERVICE SUPERAFFINITY BILL. (Consideration of Legislative Council's amendments, referred to in Message of 17th August, 1910.)

Motion made (Mr. Wade), That the Committee agree to the Legislative Council's amendments in the Bill.

Motion made (Mr. Wade), That the Committee continue to sit after Mid-day,—

FRIDAY, 19 AUGUST, 1910.

The Committee requiring that the amendments be put seriatim,—

Clause 2. In this Act, unless the context requires another meaning,—

"Chief Commissioner" means Chief Commissioner for Railways and Tramways.
"Emoluments" does not include forage, equipment, or travelling allowances.
"Officer" means officer, clerk, servant, or other person employed permanently by the Chief Commissioner to assist in the execution of the Government Railways Act, 1901.
"Salary" includes wages.
"Superannuation allowances" and "gratuities" means superannuation allowances and gratuities payable under this Act.
"Service" means service, whether permanent or temporary, under the railway or tramway service of New South Wales.
"The Board" means the board constituted under the provisions of this Act.

This Act shall not apply to any officer who, at the commencement of the Act, is a contributor to the superannuation account under the Civil Service Act of 1884. [Considered.]

Question put,—That the Committee agree to the Legislative Council's amendment, adding words to the clause.

Committee
Committee divided.

Ayes, 34.
Mr. Lee, Mr. Waddell, Mr. Fallick, Mr. Perry, Mr. Wade, Mr. James, Mr. Robinson, Mr. Taylor, Mr. Davidson, Mr. Nobles, Mr. Moore, Mr. Latimer, Mr. McCoy, Mr. Brown, Mr. Brinsley Hall, Mr. Londsdale, Mr. Thomas, Mr. Wood, Mr. Downes, Mr. E. M. Clark, Mr. Gillies, Mr. Briner, Mr. John Miller, Mr. Barton, Mr. Hindmarsh, Mr. Corthley, Mr. Edden, Mr. McLaurin, Mr. Ball, Mr. Donaldson.

Tellers,
Mr. Ball, Mr. Donaldson.

Noes, 21.
Mr. Meehan, Mr. Beehy, Mr. Dacey, Mr. Trefle, Mr. Hollis, Mr. Cann, Mr. Betell, Mr. McNeill, Mr. Cassak, Mr. Kearsley, Mr. Gies, Mr. Miller, Mr. Ashford, Mr. Macdonell, Mr. Carmichael, Mr. Codran, Mr. Hogue, Mr. Nicholas, Mr. Morris.

Mr. Mehran, Mr. Dobey, Mr. Trefle, Mr. Minahan, Mr. Peter.

Legislative Council’s amendment agreed to.

And the remaining amendments made by the Council in the Bill having been agreed to,—

On motion of Mr. Wade, Mr. J. C. L. Fitzpatrick, Temporary Chairman, left the Chair to report that the Committee had agreed to the Legislative Council’s amendments in the Bill.

No. 14.
FISHERIES (AMENDMENT) BILL.—(Consideration of Legislative Council’s Amendment referred to in Message of 18th August, 1910.)

The Committee requiring that the amandment be considered seriatim.

And the amendments down to and including that in Clause 20 having been agreed to.

Clause 22. Any person in a enter and use the bed and the b water of any inland waters for the bona fide purpose o In any procee dings which may result from this s bona fides of such pu rpose shall lie on the person so .

[Considered.]

Right of entry for purpose of fishing.

Question put,—That the Committee agree to the Legislative Council’s amendment omitting clause 22.

Committee divided.

Ayes, 36.

Assembly Reading Room, Legislative Assembly, Sydney, 19th August, 1910.

F. J. THOMAS, Chairman.
RETURN (in part) to an Order of the Legislative Assembly of New South Wales, dated 17th March, 1892, That, in place of the Returns ordered by this House on the 15th February, 1884, and the 12th June, 1888, there be annually laid upon the Table of this House, Returns giving the following particulars for each Police Court of the Colony, classed in Electorates:—

(a) The number of convictions for drunkenness only.
(b) Other convictions in which drunkenness formed part of the charge (drunkenness with disorderly conduct).
(c) Women convicted of foregoing offences.
(d) Foregoing offences committed between 8 a.m. on Saturday and 8 a.m. on Sunday.
(e) Foregoing offences committed between 8 a.m. on Sunday and 8 a.m. on Monday.
(f) Convictions for selling on Sundays.
(g) Convictions for selling during prohibited hours other than on Sundays.
(h) Convictions for selling liquor without a license.
(i) Convictions for selling adulterated liquor.
(j) Publicans', Colonial Wine, Brewers', Spirit and Distillers' licenses, respectively in each Electorate.

The total numbers to be shown in each case for the whole Colony, such Returns in future to be laid upon the Table of this House and printed, as soon after the close of the year as possible.
RETURN of Convictions for Drunkenness and Offences under the Liquor Acts at Petty Session Courts throughout the State of New South Wales during the twelve months ended 31st December, 1909.

1910.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

CLOSER SETTLEMENT.

(PARTICULARS RESPECTING THE PROPOSED ACQUISITION BY THE GOVERNMENT OF PART OF THE BIBBENLUKE ESTATE, NEAR BOMBALA.)

Ordered by the Legislative Assembly to be printed, 30 July, 1910.

COOMA TO BOMBALE APPROVED RAILWAY.

The total area of Bibbenlake is about 56,400 acres, and the part recommended for acquisition embraces an area of 16,210 acres, more or less, and is situated from 10½ to 22½ miles from Bombala, and from 31½ to 43½ miles from Cooma Railway Station, which is 266 miles from Sydney.

The area, being entirely within 4½ miles of the approved line of railway, the construction of which has been approved by Parliament, may be acquired at its value exclusive of any enhancement due to the approved railway construction.

About 5,500 acres (or 34 per cent.) of the area proposed for acquisition are agricultural lands, and the balance (66 per cent.) is good grazing country.

The best of the agricultural land is suitable for the production of lucerne, maize for ensilage or fodder, rape, root crops, wheat, and other cereals. Orchards do well, and, on the construction of the railway, cold-climate fruits can be cultivated profitably.

The estimated average carrying capacity of the 16,210 acres is one sheep and the natural increase per acre, and the country is suitable for breeding or fattening; but, unless grass is plentiful, large stock fall away during the winters, which are long and severe. There is a creamery and also a butter factory in the neighborhood, and dairying can be carried on profitably.

The most profitable use to which the land can be put is mixed farming, and the area can be subdivided into 30 or more farms, with an average area of 540 acres.

The average annual rainfall, extending over twenty-five years, is 23 inches.

The water supply in the Undowah River, Pickering, Native Dog, Cooper, and Cowbell Creeks is permanent. There are eleven useful springs and three dams; the facilities for conservation are good, and water can also be obtained by sinking. Irrigation is not practicable except on a very limited scale.

The structural improvements are valued at £2,284 18s., comprising two cottages, yards, fencing, and three small dams.

The Advisory Board values the land inclusive of improvements, but exclusive of the railway enhancement, at £3 15s. per acre—in all £60,787 10s., and the trustees of the estate have agreed to sell the property at that price.

APPENDIX.
APPENDIX A.

Office of the Southern District, Closer Settlement Advisory Board,

SIR,

WAGGA WAGGA, 1ST JUNE, 1910.

BIBBENTUR.

Further inquiry.

Having recently made further inquiries in the South Coast and Bombala districts, particularly in respect to the possible demand for land in the Monaro district, the Southern Advisory Board have now the honor to report:

Area 50,410

Owners, Shilton.

Carriage to rail and sea.

2. The main road from Cooma, to Nimitybelle, to Bombala runs through the south-east part of the estate, and a back road passes north-west-ward through the property which, after leaving the northern boundary of Bibbentur, junctions with the Nimitybelle-Dalgety road.

3. The soil is mostly volcanic, and in many cases roads of intercommunication in any subdivision that may be effected will require very careful consideration.

4. From the northern boundary of Bibbentur, the town of Nimitybelle is distant about 12 miles, and Cooma about 27 miles.

5. The authorised railway line from Cooma to Nimitybelle to Bombala, as delineated on the map of Bibbentur Estate supplied to the Board by Head Office, passes through the south-eastern part of the property. By road the northern part of the estate is distant, from 11 to 15 miles. To the central portion from 4 to 16 miles. No part of the property is further than 16 miles from the nearest point of the authorised line of railway, and in the position shown the whole of the property will be distant more than 44 miles, and the bulk of it not more than 10 miles.

6. The Board are of opinion that the northern area of Bibbentur Estate is not well suited for Closer Settlement purposes, partly because of the fact that it contains a small proportion of arable land, and is looked upon as mainly a grazing proposition, and partly because it lies rather remote from the authorised line of railway, access to which would, from the character of the soil and generally hilly nature of the country, be difficult to provide.

7. In respect to the possible demand for land in the Monaro district, the Southern Advisory Board have now, the honor to report:

8. After frequent and prolonged interviews with the trustees of "Bibbentur," who first asked £4 10s. per acre for that area of about 23,000 acres of the southern part, which is tinted pink on the attached holograph, and on which are the homestead, woolshed, and other buildings, of a value of £6,300, and claimed 8 per cent. of that as compensation for deterioration of the northern part by reason of cutting water supply, inconveniencing them in the matter of buildings—as good a site for which would be taken at an agreed upon price of three pounds fifteen shillings (£3 15s.) per acre.

9. Messrs. Norton, Smith, and Company's letter of 27th ultimo, intimating that the trustees are prepared to accept £3 15s. per acre, is attached, and it is recommended that steps be at once taken at Head Office to secure the agreed to in the last paragraph, if such be necessary.

10. As far as the Crown is concerned, the effect of this agreement will be to free the Department from the difficulty, which generally arises, of disposing of the homestead block, on which are building improvements above the value of £6,300, and which, in the Board's opinion, would have required an area of about 3,500 acres to secure a possible applicant. The Crown secures the pick of the estate, at a reasonable figure, from which the effect of the deterioration is almost eliminated, in the best position as regards water supply; having the greater proportion of arable land, and well situated with regard to the main road (Cooma to Bombala) and the authorised railway line, from which so part of the 16,210 acres will be distant more than 44 miles, and the bulk of it not more than 5 miles.

11. The estimated market value of the area which it is now proposed to acquire, with all structural improvements thereon, is £3 15s. per acre, the structural improvements being valued at £2,254 18s.

12. The acquisition of the area of about 16,210 acres is recommended at a price of £3 15s. per acre, which value is principally based on sales in the vicinity, and having regard to rainfall, water supply, agricultural and dairying possibilities, character of the soil, and carrying capacity.

13. Having recommended the acquisition of part only of this estate, the Board now report that the residue, an area of about 40,190 acres, has an unimproved value of over £20,000, and that it is depreciated in value very slightly by the remuneration of the part recommended.

14. The most profitable use to which the land can be put is mixed farming. The average carrying capacity is one sheep and natural increase per acre, having regard to the usual proportion of breeding ewes that are carried. The country is both breeding and fattening, and with the establishment of railway communication the fat lamb industry should prove successful. The country is not thoroughly sound, being prevalent, but experience has shown that on small areas, with proper management, losses therefrom are nominal.

15. Large stock do well, especially in the summer months, but the winters are long and severe, and, unless grass is plentiful, cattle fail away.

16. There is a creamery established in the adjoining village of Bibbentur, with a butter factory at Cathcart, some 7 miles away. Dairying can be successfully carried on if some provision is made for the storage or growth of fodder for the winter, and cows should be tagged or housed to achieve the best results.

17.
17. On the best of the agricultural areas, lucerne, maize for ensilage or fodder, rape, wheat, and kindred cereals, and root crops will do well.

18. Orchards would succeed, and the cultivation of cold climate fruits and berries prove a good source of revenue when railway communication is established.

19. The possibilities of irrigation are nominal, and confined to small areas fronting the running irrigation creeks.

20. The area to be acquired can be judiciously subdivided into 30 or more farms. Some difficulty of farms is experienced in the matter of the design, as the final railway survey is not yet completed. Until such is finished, and the position of the railway stations or sidings determined, it is not possible to design to the best advantage.

21. A detailed inspection has been recently made of the area of about 16,210 acres recommended for acquisition, and it is found that about 5,500 acres are arable.

22. The average annual rainfall, extending over twenty-five years ended 1909, is 23.04 inches.

23. Permanent running water is found in the Undowah River, Pickering Creek, Native Dog Creek, Cooper Creek, and Cowbell Creek, and there are eleven useful springs. There are only two dams on the whole of Bibbenluke. Catchments are frequent, and it is thought the few farms that will not front permanent water or be served by springs will have no difficulty in conserving same in tanks or dams.

24. Timber is scarce over the greater part of the area recommended for acquisition, and most of it will be required for shade and shelter. Good timber for all purposes can be obtained on the Costal Range, some 12 miles away, and some provision can be made for firewood and fencing timber out of T.S. and C.R. 3,468, in part of Wellesmore, and Crown land at present set apart for C.P. at 10s. per acre, fronting Undowah River and joining the boundary of Bibbenluke.

25. The railway enhancement should amount to about 6s. 8d. per acre, being at the rate of 10s. per acre on the arable and 5s. per acre on the grazing lands. This does not seem large under the circumstances, but the Board, recognising the fact that market values in this district are, and have been for years past, higher than seems warranted, are doubtful whether even this amount should be added.

26. If the area recommended is acquired at the agreed upon price of £3 15s. per acre, and made available at £1 per acre, including say 'Is. 6d. per acre for railway enhancement, and 2s. 6d. per acre to cover the necessary expenses of administration, etc., the Board are of opinion that, with the railway constructed to Bombala, the productive value will not be exceeded.

27. As the result of exhaustive inquiries recently made, the Board are of opinion there is a good demand for land in this district, and they recommend the acquisition of the area of about 16,210 acres of Bibbenluke Estate, which is suitable for Closer Settlement purposes.

APPENDIX B.

BIBBENLUKE ESTATE.—Addendum to the Board's report of 1st June, 1910.

June 16, 1910,

The total estimated value of the improvements on that part of Bibbenluke Estate proposed to be acquired for Closer Settlement purposes, viz., £2,284 18s., as stated in paragraph 11, is made up as follows:

1. Weatherboard cottage, etc...
2. A second cottage and yard...
3. Three small dams at springs...
4. Fencing and yards...

Total...

£2,284 18 0

The Under Secretary, Department of Lands.

Enoch J. Cobcroft, Chairman, Southern Advisory Board.
1910.

LEGISLATIVE ASSEMBLY.
NEW SOUTH WALES.

CLOSER SETTLEMENT.
(PARTICULARS RESPECTING THE PROPOSED ACQUISITION BY THE GOVERNMENT OF THE COLE PARK AND MALTON ESTATES, NEAR GOULBURN.)

Ordered by the Legislative Assembly to be printed, 11 August, 1910.

The Cole Park and Malton Estates, embracing an area of about 3,185 acres, are situated from 2½ to 6 miles from the Goulburn Post Office, and from ½ mile to 4 miles from Yarra Platform (142 miles from Sydney) on the Great Southern Railway line.

The Southern Advisory Board furnished a report on these properties on 2nd August, 1910 (vide Appendix.)

About 822 acres (or 25 per cent.) of the lands are adapted for agriculture, inclusive of 150 acres of alluvial flats. Suitable crops are hay, rape, maize, oats, and root crops—especially potatoes. There are many ideal orchard sites, and cold climate fruits do well. Small areas on the river frontage can be irrigated.

The grazing capacity of the land is estimated to be three sheep to 4 acres.

The land is suitable for mixed farming, and dairying should prove successful all the year round if the cows be fed and rugged during the winter months. There is a butter factory in Goulburn.

The Advisory Board, has advised, since its report of 2nd August, 1910, that the area can be suitably subdivided into 19 farms, viz: 8 ranging from 22 to 50 acres, and 11 ranging from 90 to 650 acres, the latter averaging 267 acres per farm.

The average annual rainfall for 52 years is 25-48 inches.

The land is well watered by the Wollondilly River, creeks, springs, and two dams. The facilities for conservation are good, and it is said that water can be obtained on the low-lying land at a depth of from 20 to 30 feet by sinking.

The structural improvements are valued at £1,478 5s., comprising the Cole Park and Malton Homesteads, two dams, and fencing.

The Advisory Board recommends the acquisition of the two properties at £4 10s. per acre (in all £14,332 10s.), and the owners agree to sell at that price.

The Board has no doubt that the whole area will be readily applied for if acquired and made available under Closer Settlement conditions.
APPENDIX.

Office of the Southern District Closer Settlement Advisory Board,

Sir,

Wagga Wagga, 2 August, 1910.

COLE PARK AND MALTON ESTATES.

Inspection—Areas—Owners.

The Southern Advisory Board, having inspected Cole Park and Malton Estates, of approximately 2,235 and 950 acres, owned respectively by the Trustees of the Cole Estate (J. T. Cole and others) and Mr. J. T. Cole, have the honour to report:

Situation—River—Plan.

These properties are situated in the Parish of Goulburn, County Argyle, and adjoin the Municipality of Goulburn, being distant from the City itself (Post Office) from 2½ to 5 miles. The Wollondilly River fronts the estates on part of the northern boundary, and the Goulburn via Baw Baw to Pomeroy Road bounds the balance of the area on that side. A heliograph showing the lands referred to is forwarded herewith.

Railway.

The Main Southern Railway at Yarra Station is distant but ¾ mile from the nearest part of the estates at the south-western corner, and no part of the area is further than about 3 miles from the line.

Roads.

The estates are served by the Pomeroy Road on the north; the Main Southern Road, which touches the boundary on the south-east, and which runs between the railway and the southern boundary, on the south; and by a trafficable unmade track on the western boundary. For purposes of subdivision, roads of intercommunication can be easily provided.

General description.

The country, generally, is boldy undulating to hilly open forest, intersected by surface drainage and storawater creeks. Clumps of green timber have been left for purposes of sheltering stock, and some of the ridges are covered with box and gum timber that will be valuable for firewood on account of proximity to the City of Goulburn of between 10,000 and 11,000 inhabitants. The formation over the greater part is slate, and there are large tracts of limestone; there is, also, a limited area of basaltic country.

Arable lands.

Of the total area of 3,185 acres there are, as shown in hatching on the map, approximately 672 acres cultivable; but in addition it is estimated that in smaller areas of from 1 to 5 acres scattered over the estates 150 acres suitable for agriculture will be found, or a total of 822 acres. Of this area about 150 acres are alluvial flat fronting the Wollondilly River on the north and the Run of Waters Creek on the south.

Suitable crops.

On the cultivable land good hay crops can be produced, and rape should succeed. Root-crops—especially potatoes—do well in the district, and cold-climate fruits would prove remunerative, there being many ideal sites for orchards on the estates. Maize, rape, oats, and potatoes will do well on the flats.

Water supply.

The estates are well watered by the Wollondilly River on the north (three miles rectangular frontage), the Run of Waters Creek (permanent) on the south, creeks, springs, and two dams. Well water is said to be obtainable on the lower-lying lands from 20 to 30 feet. Catchments are numerous, and the holding good.

Rainfall.

The average annual rainfall at Goulburn for the fifty-two years ended 1909, is 25.48 inches (Commonwealth Records).

Timber.

With the exception of the green timber, of which it is estimated there are about 600 acres on the two properties, the timber has been dead many years. There is none suitable for building purposes, and it is only of second-class quality for fencing, but, owing to proximity to Goulburn, any timber is valuable for firewood. The prevailing timbers are gum, peppermint, and box.

Pests.

Rabbits are numerous and apparently neglected by the owners. Some star-thistles were noticed, and are spreading.

Grazing.—Fat Lambs.

The estates comprise fair to good grazing country, and are fairly well improved for that purpose. They are sound and healthy for all stock, and in average seasons will fatten in the summer months. With the aid of cultivation of rape the fat lamb industry should be profitable, Goulburn being a first-class stock market, and the railway being so handy. The carrying capacity is estimated at three sheep to 4 acres.

Dairying.

The country is suitable for dairying, and is similar to other lands in the district being used for that purpose. Small holders in the vicinity, on areas of from 100 to 300 acres, who depend principally on dairying for a living, are reported to be doing fairly well, and there is a butter factory in Goulburn. Dairying should prove remunerative all the year round, especially if the cows are fed and rugged in the winter.
Demand.

The Board could not ascertain that there is a keen demand for land in the Goulburn district, but they have no doubt from inquiries made, and names submitted of likely applicants, that Cole Park and Malton Estates will be readily absorbed if acquired and made available under the Closer Settlement conditions. Some small homestead blocks will be suggested in the subdivision of the estates, and there is no reason why such should not be successful as in the case of the small areas on Peel River, near Tamworth.

Number of Farms.

The area comprised in the two estates can be suitably subdivided into about sixteen separate holdings.

Suitable for Closer Settlement.

Cole Park and Malton Estates are suitable to be acquired for Closer Settlement. They are fairly well adapted for mixed farming and fruit growing, and although not all that can be desired, the land is about the average of the Goulburn District lands inspected, and the Board recommend acquisition, more especially as the properties practically adjoin the important city of Goulburn.

Estimated Value.

The estimated value of the Cole Park and Malton Estates is £14,332 10s., being at the rate of £4 10s. per acre, as agreed upon with the owners, inclusive of improvements. The structural improvements are valued at £2,478 5s., and comprise:

<table>
<thead>
<tr>
<th>Structural Improvements</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cole Park Homestead and surroundings</td>
<td>£704 0 0</td>
</tr>
<tr>
<td>Malton Homestead and surroundings</td>
<td>£521 0 0</td>
</tr>
<tr>
<td>Fencing</td>
<td>253 5 0</td>
</tr>
</tbody>
</table>

Map.

These homesteads are not costly, and are such that the Board have no doubt that the blocks on which they are situated will be taken. The positions of the principal features, the buildings, and the fencing are shown on the heliograph; also the arable lands are shown thereon in hatching.

Price—Agreement.

The Board recommends acquisition of the two estates of about 3,185 acres, at a price of £4 10s. per acre, inclusive of improvements. The price is based upon position with regard to the railway and the City of Goulburn, character, and capabilities of the country, rainfall, &c.; and the owners' offer to accept that price within a period of two months ending 24th instant is attached.

Irrigation.

The possibilities of irrigation are confined to the small areas fronting the river.

Crown Lands.

On the north of Cole Park is an area of about 676½ acres, known as "Rosiville," which is the property of the Crown, and which could be suitably subdivided in connection with the two estates under review in the event of their acquisition for Closer Settlement purposes. This area will be reported upon at a later date.

Your Board have, &c.,

Enoch J. Cobcroft, Chairman.
F. C. Pigg1n, Members.
J. D. Norman,

The Under Secretary, Lands Department.

The total area of Gunningbland is about 18,095 acres, and the part proposed for acquisition embraces an area of 12,401 acres, more or less, situated from 3 to 10½ miles from Gunningbland Railway Station, and from 5 to 16 miles from Bogan Gate Railway Station, both on the Parkes to Condobolin line, and 288 and, 296 miles from Sydney respectively.

The Central Western Advisory Board made a detailed inspection of the part of the property in question, and on 25th July, 1910, furnished a report giving full particulars of the land, and recommending acquisition (vide Appendix).

About 11,214 acres, or 90½ per cent., are good agricultural lands, and the balance of 1,190 acres, or 9½ per cent., consists of low stony hills, fit for grazing only.

It is estimated that the cultivable land when cleared will yield an average of 10 or 11 bushels of wheat to the acre. The timber has been fairly well killed, and the land can be cheaply cleared.

The grazing capacity is about 1 sheep to 1½ acres.

The area can be suitably subdivided into about 20 farms ranging from 500 to 800 acres, averaging about 620 acres, and with an average capital value, inclusive of cost of subdivision, etc., of about £1,940.

The average annual rainfall is about 21 inches.

The land is watered by a number of tanks and dams, and the facilities for further conservation by the same means are fairly good.

The improvements (exclusive of ringbarking and clearing, which are regarded as being inseparable from the land) are valued at £1,500 11s. 4d., comprising fencing, tanks, dams, buildings, and yards, which will all be useful to incoming settlers.

The Board values the land, inclusive of improvements, at £3 per acre—in all £37,212; and the owner has agreed to sell the same at that price. The area comprises freehold, incomplete conditional purchases, and conditional leases, but the purchase price of £3 per acre is on a freehold basis.
CENTRAL WESTERN CLOSER SETTLEMENT ADVISORY BOARD,

APPENDIX.

Final Report.—Gunningbland Estate—Laurence Purcell (owner).

Sir,

In obedience to your instructions of the 23rd June last on Papers C.S. 10-2662 enclosed, we have the honour to inform you that we have recently completed an inspection of that portion of the Gunningbland estate as offered by Mr. Laurence Purcell.

This area is shown upon accompanying Heliograph “A” by red border and red colour, and includes about 12,404 acres.

The nearest railway station is Gunningbland, which is situated about 3 miles from the nearest point of the subject land, and 10½ miles from the most distant part. The town and railway station of Bogan Gate is from 5 to 16 miles distant.

We report the value of the land as offered exceeds £10,000, exclusive of improvements, that the land is suitable for growing wheat and other cereals, and adapted for sheep farming.

About 90½ per cent. or 11,214 acres of this area is good agricultural land, the balance 1,190 acres being grazing country and embracing low stony hills.

The carrying capacity over the whole area is about 1 sheep to 1½ acres.

The average annual wheat yield for the surrounding district is, according to the Government Statistician, about 2½ bushels to the acre, and we think it reasonable to assume that with the improved methods of farming now being carried out, this average could be increased to 10 or 11 bushels per acre.

Rabbits are fairly numerous upon the subject land.

The average annual rainfall of the adjoining station, “Nelungaloo,” is about 21 inches.

There are a number of tanks and dams on the subject area, and there are fair facilities for the further conservation of water by the same means on different parts of the Estate if required.

Irrigation schemes are impracticable.

There are a number of green pine trees scattered throughout the subject land which will prove of much use to incoming settlers for building and fencing purposes; otherwise the timber has been fairly well killed, and is in such a condition as to make the clearing of the land fairly easy and cheap.

The area is capable of being subdivided into about twenty farms, ranging in area from about 500 acres to 800 acres, according to quality of land and distance from railway, and averaging in area about 620 acres, the average price per farm being about £1,860.

We estimate the value of improvements, exclusive of ringbarking and clearing, which we consider inseparable from the land, at £1,500 1 ls. 4d., being wire-netting and wire fences £952 13s., tanks and dams £522 18s. 4d., buildings and yards £25.

The stony—or grazing—land is indicated by blue tint on Heliograph “A” herewith, and that adapted for agricultural purposes by red tint.

There are no share farmers or tenants necessitating consideration.

On completing our inspection, we had two interviews with the owner, Mr. Purcell, in regard to his original offer of £3 15s. per acre, and, after considerable negotiation, he agreed to place under offer to the Honorable the Secretary for Lands that portion of the Gunningbland Estate as shown by red edging on the accompanying heliograph, marked “A,” and embracing an area of 12,404 acres, for the sum of £3 per acre, such value being based on the productive capabilities of the land for grazing and agricultural pursuits, and on sales of similar land in the locality.

We now recommend that this offer be accepted, and that the land be acquired at the price as offered, viz., £3 per acre.

We have, &c.,

R. BAYLIS MACKENZIE, Chairman.
S. WHYMEE, Member.
J. E. HOARE, Member.

CLOSER SETTLEMENT.
(PARTICULARS RESPECTING THE PROPOSED ACQUISITION BY THE GOVERNMENT OF THE HARDWICKE ESTATE, NEAR YASS.)

Ordered by the Legislative Assembly to be printed, 21 July, 1910.

The Hardwicke Estate embraces an area of about 6,154 acres situated from 1½ to 7½ miles from the town of Yass, which is 3 miles from Yass Junction Railway Station (189 miles from Sydney). There is a tramway between Yass town and Yass Railway Station, on which produce is carried.

The Southern Closer Settlement Advisory Board furnished a report on this estate on 27th June, 1910 (Appendix A), and a notice of intended acquisition was gazetted on 6th July, 1910.

About 3,354 acres (about 54 per cent.), in scattered areas, are suitable for agriculture, while the whole estate is a good grazing property. It is sound, good breeding, fair fattening, splendid wool-growing, country, and suitable for the fat lamb industry. Large stock do well, and dairying should prove successful. The most profitable use to which the land could be put is mixed farming. Over a large area orchards should prove very remunerative. Wheat, oats, hay, and rape can be grown, also lucerne on the river flats, and on a considerable area which cannot be called true lucerne land. Potatoes and root crops will do well.

It is estimated the agricultural land will produce 14 bushels of wheat, oats 50 bushels of grain, and hay 30 cwt., per acre, with good farming.

The grazing capacity is equal to 1½ sheep to an acre.

The estate can be suitably subdivided into thirty-one farms—one of 1,300 acres to embrace the homestead, eight ranging from 320 to 600 acres, and twenty-two small farms of from 50 to 150 acres.

The average rainfall is 24-28 inches for a period of twenty-five years.

The estate is well watered as a whole by the Yass River and Manton Creek, both permanent streams. Catchments are good and frequent.

The structural improvements are valued at £4,733, consisting of main homestead, cottage homestead, “Cardness House,” woolshed, hut, tank, and fencing.

The Advisory Board recommend the acquisition of the estate (about 6,154 acres) at £4 5s. per acre (in all, £26,154 10s.), and the owner agrees to sell at that price.

About 4,040 acres, situated in the Yass Municipality, are valued, for Local Government purposes, as £3 7s. 10d. per acre (unimproved). No valuation has been made of the improved value by the Municipality. The balance (about 2,114 acres) is in the Goodradigbee Shire, and is valued at £1 4s. (unimproved), and £3 2s. 6d. (improved) per acre.

APPENDIX J
APPENDIX A.
Office of the Southern District Closer Settlement Advisory Board,
Wagga Wagga, 27th June, 1910.

HARDWICK ESTATE.

Sir,

1. The Southern Advisory Board, having inspected Hardwicke Estate, have the honor to report:

2. "Hardwicke," the property of M. C. Langtree, containing 6,154 acres, as shown on map attached, is situated mainly in the Parishes of Yass and Manton, county of King. An area of about 139 acres is in the Parish of Hume, county Murray. This is known as "Comur Cottage," and was originally the home of Hamilton Hume, the explorer.

3. There are, approximately, 4,040 acres within the Municipality of Yass, subject to a rate of 3½d. in the £ on the unimproved capital value, and about 2,114 acres in the Goodjudgah Shire, on which the tax is 1½d. in the £ on the unimproved value.

4. The Municipal unimproved value is fixed at £2 7s. 10d. per acre approximately, and the Shire unimproved valuation at £1 4s. per acre, so that the firstnamed rate works out at about 8½d. per acre, and the Shire rate at about 1½d. per acre. The improved capital value was not taken by the Municipality; that of the Shire works out at £3 2s. 6d. per acre.

5. In valuing the estate, the question of the Municipal taxation of approximately 8d. per acre was given full consideration, and the Board are of opinion that settlers within the Municipal area will not be materially affected by such taxation. All the buildings and the best of the land are situated within the Municipal boundaries, and, as advised herein, twenty-two blocks, ranging from 20 to 150 acres, can be provided in the area, to be in blocks of about 10 acres each. The balance of the farms within the Municipality can be so valued as to leave little room for an invidious comparison with the farms in the Shire area.

6. By the main road from Yass to Queanbeyan (a part of the old Sydney road) the nearest point of the estate is 2½ miles from Yass; from the Yass Post Office, via a road left in the Devere Subdivision, which crosses the Yass River by a good ford, and enters Hardwicke Estate near the south-west corner of No. 17, Parish of Yass, it is about 1½ miles; by the road from Yass, via Coolalie Railway Station to Dalton, which fronts the northern part of the estate, the nearest point from Yass is 2½ miles. The Coolalie Station is distant about 2½ miles by road from the nearest point of the estate. The farthest point from Yass is by an air-line 4½ miles, and, by the nearest practicable road, 7½ miles.

7. From Yass Town to Yass Junction Railway Station (189 miles from Sydney) is 3 miles, but from the northern part of Hardwicke Estate, if a road were resumed through portion No. 16, Parish of Yass, it would be 1½ miles to Yass Junction.

8. There is tramway connection between Yass Town and Yass Junction, and produce is carried thereon.

9. The estate is served by good made roads—the Coolalie road on the north-west, and the Old Sydney road on the south, and sufficient practicable roads of intercommunication can be obtained through the property.

10. Of the present holding "Hardwicke" proper comprises portions 2 and 3, Parish Manton, and 16, Parish Yass, purchased by Mr. Langtree in the year 1902; subsequently "Comur Cottage" block was added to the estate, and about two years ago portions 17, 18, 22, and part of 19, Parish Yass, were purchased from the estate.

11. The formation generally is granitic, and there is a range of high hills running north and south, which, culminating in Mount Manton (Trig Station), forms the watershed of Manton Creek and that part of the Yass River fronting the estate. The western part of the property, with "Comur Cottage," has frontage to the Yass River, which contains good permanent water. The eastern portion of the estate fronts Manton Creek, which is also permanent, and this stream runs through the southern part of the property, cutting off that part known as "Cardness" from the bulk of the holding. Just after the Yass Bridge, Sydney road on the north-west, the river on the "Comur Cottage" area.

12. With the exception of the "Comur Cottage" area, which is practically plain, the area under review is all timbered country, the timber comprising principally yellow and white gum, with a few oak and an occasional currajong on the hills. The timber is of no commercial value except for firewood, but sufficient can be obtained for fencing purposes. Building timber is, as a rule, brought by rail to Yass, but it is understood rough shed material can be secured on Crown lands within 2 or 3 miles of the estate.

13. On the western side of the range of hills there are about 2,900 acres of good agricultural land in areas of from 40 to 500 acres, the principal portion being in the north-west. Facing the Yass River and on that part of Manton Creek near the river are small areas of land suitable for lucerne, in areas ranging from 1 to 4 acres, and totaling probably 30 acres. In addition, there are about 25 acres suitable for lucerne fronting the river on the "Comur Cottage" area.

14. On the eastern side of the estate, fronting Manton Creek, the soil is lighter and shallower, but there are about 250 acres of agricultural land in areas of 50 and 200 acres, and smaller areas are obtainable.

15. In addition to the cultivable lands mentioned above, there are probably 250 acres suitable for agriculture in areas of from 2 acres upwards. The only flats are those already referred to, the hills generally coming into the river.

16. The total area of agricultural land is estimated at 2,500 acres, but that is admittedly a conservative estimate, which will, without doubt, be exceeded, probably by 200 or 300 acres, when detail survey is made. It is not possible at this stage to show the agricultural as distinct from the purely grazing areas, but it can be said that they are well distributed, and that, when subdivided, it will be found that each farm will contain a fair area suitable for cultivation.

17. 

* 5,554 acres, vide Appendix B.
By the gauge kept at the Hardwicke homestead during the last eighteen years the average is 21.52 inches per annum, the monthly averages being:

These records show a fairly even rainfall, which should ensure successful crops.

20. Hardwicke is a good grazing property, equal to 11 sheep per acre. It is sound, good breeding, large stock do well, and dairying, which is carried on profitably on an adjoining farm, should prove successful. There is, however, little dairying clone in the district, probably due to small men not being able to secure land within a reasonable distance of the town of Yass—one of the most landlocked places in the southern district.

21. The estate is well watered as a whole by Yass River and Manton Creek, though it cannot be called true lucerne land, such can be grown profitably.

22. The boundaries of the estate are wire-netted. The fences along the Yass River and Manton Creek are, however, "give-and-take" by mutual verbal agreement between the owners concerned, and, if the property be acquired, settlers thereon could continue the arrangement. The position of the boundaries is such that the fences could hardly be improved upon.

23. Habits are in evidence. Briars, though of no great moment at present, are spreading, and a few star thistles were seen.

24. The greater part of the timber has been ringed, suckered, and cleared up, and the country is as a rule, well grassed. There is also fair herbage.

25. The building improvements are situated somewhat close together, as shown on the plan, and the total value of these improvements is £4,733.

26. In addition to the building improvements, the fencing on the estate is roughly estimated to be worth £753.

27. The estimated market value of Hardwicke Estate, with all structural improvements thereon, is £4,980.

28. Acquisition of the whole estate is recommended at a price of £4 5s. per acre, which value is based upon sales in the vicinity, and having regard to position, rainfall, water supply, agricultural and grazing qualities.

29. The most profitable use to which the land can be put is mixed farming. Over a large area most profitable orchards should prove very remunerative, and in skilled hands a comfortable living could be made on areas of 30 acres.

30. Wheat should yield 14 bushels per acre, oats, 50 bushels of grain, and hay 30 cwt. per acre, given with good farming.

31. Lucerne can be successfully grown on the flats, and there is a considerable area on which, though it cannot be called true lucerne land, such can be grown profitably.

32. Rape should prove exceptionally profitable in connection with fattening sheep for Sydney markets, and the fat lamb industry.

33. Potatoes and root crops will do well.

34. The possibilities of irrigation are nominal and confined to small areas fronting the Yass River irrigations.

35. The area to be acquired can be judiciously subdivided in thirty-one farms, of which twenty-two farms are of about 20 to 25 acres and three of from 50 to 150 acres. The remainder (eight farms) ranging from 320 to 600 acres.

36. Of the Aboriginal lands, ten of from 90 to 150 acres and three of from 50 to 150 acres, all of which can be provided on that area of about 300 acres on the north-west of the estate, fronting the road from Coolalie Railway Station to Dalton, where the land is eminently adapted for small areas.

37. It is proposed that that area of about 60 acres on the north-west corner of portion No. 16, Parish of Yass, which is cleared and fenced, be subdivided into three areas of 20 acres each.

38. An area of about 12 acres east of "Cardness," and fronting the road from Yass to Goulburn, could be suitably divided into two farms of about 30 acres each.

39.
With "Cardness" an area of about 60 acres is proposed, and the "Comur Cottage" block of about 140 acres can be suitably cut up into three areas, two of 21 acres each, and the homestead farm of about 100 acres, including 30 acres of lucerne land.

The Board have already been approached with regard to the Hardwicke homestead block and "Cardness," for both of which applicants are waiting. The present occupant of "Cardness House" has resided there fourteen years, and previously at "Comur Cottage" for ten years, and he is anxious to take up the block.

From evidence obtained the Board are of opinion that "Comur Cottage" will also be applied for immediately it is made available, and that there is sufficient demand to absorb the small blocks proposed.

The Board are satisfied there is a good demand for land in the locality, having had applications and inquiries from over fifty bond fide applicants.

Hardwicke Estate is suitable for closer settlement, the price of £1 5s. per acre, agreed to by the owner, is very reasonable, and the Board strongly recommend acquisition of the estate.

Your Board have, &c.,

ENOCH J. COBCROFT, Chairman.
F. C. PIGGIN, J. D. NORMAN, Members.

The Under Secretary, Department of Lands.

APPENDIX B.

Closer Settlement Advisory Board, Southern Division,
Wagga Wagga, 19th July, 1910.

MEMO to the Under Secretary, Department of Lands.

I have now to forward herewith plan of Hardwicke Estate, showing in pink tint the arable lands, and in blue that areas which are purely grazing country.

In the Board's report on Hardwicke it was estimated, as the result of the preliminary inspection, that there were the following arable lands:—2,000 acres on the west side, 250 acres on the east side, 250 acres in smaller scattered areas, and 57 acres of lucerne land—a total of about 2,557 acres.

As the result of a more detailed inspection I am now able to advise that the total area of agricultural land, as shown on the map attached, is approximately 3,354 acres—about 84 per cent.—and of the grazing land about 2,800 acres—about 16 per cent.

It will thus be seen that there are about 500 acres more agricultural land than originally estimated by the Board, the various areas having been more definitely located and measured, but of this additional area it is possible that some small patches of stone may be found on turning up the ground.

The dotted line across the estate and passing through the gap shown is that of a possible subdivision road to give the settlers on the eastern side of the estate more direct access to Yass.

ENOCH J. COBCROFT,
Chairman.

CLOSER SETTLEMENT.

(PARTICULARS RESPECTING THE PROPOSED ACQUISITION BY THE GOVERNMENT OF THE MAHARATTA ESTATE, NEAR BOMBALA.)

Ordered by the Legislative Assembly to be printed, 20 July, 1910.

COOMA TO BOMBALA APPROVED RAILWAY.

The Maharatta Estate, embracing an area of 20,130 acres 3 roods 2 perches, more or less, is situated 55½ to 67½ miles from Cooma Railway Station, 60 miles from the seaport of Merimbula, and from 1½ to 13½ miles from the town of Bombala, the terminus of the proposed railway line from Cooma to Bombala, the construction of which has been authorised by Parliament. Cooma is 266 miles from Sydney.

The whole area being entirely within 13½ miles of the approved line of railway, the land may be acquired at its value exclusive of any enhancement due to the approved railway construction.

Access to the estate is provided by the main road from Bombala to Delegate, by other roads in a southerly direction towards the Victorian border, and south-easterly by branch roads.

About 7,333 acres (36 per cent.) of the area is agricultural lands, and the balance (64 per cent.) ranges from good to inferior grazing country.

The best agricultural land is suitable for the production of maize for ensilage or fodder, lucerne, rape, wheat, and root crops, and the poorer arable land is capable of yielding large crops of oats either for grain or hay. Orchards do well, and, on the advent of the railway, cold climate fruits and berries can be profitably cultivated.

The estimated average carrying capacity of the estate is one sheep to the acre, and the country is suitable for breeding and fattening, but, unless grass is plentiful, cattle fall away during the winters, which are long and severe. Dairying can be successfully carried on by the new settlers if the cows be properly fed, rugged, and housed during the winter months.

The land is best adapted for mixed farming, and the bulk of the estate can be subdivided into 33 farms, 32 ranging from 186 to 774 acres, with an average area of 515 acres.

The average annual rainfall for the last twenty-two years is 25½ inches.

Irrigation can only be carried on to a very limited extent.
APPENDIX.

The Board recommend that the whole of Maharatta Estate be acquired for Closer Settlement.  

The acquisition of the estate is recommended at a price of £2 10s. per acre, which the Board consider the fair market value, based principally on sales in the vicinity, on its position in regard to the town of Bombala, and having regard to the rainfall of 25.5 inches per annum, the water supply, carrying capacity, and the character of the soil.  

The most profitable use to which the land can be put is that of mixed farming. The average carrying capacity is one sheep per acre. The country is both breeding and fattening, and with the construction of the railway to Bombala the fat lamb industry should prove successful.

Large stock do well, especially in the summer months, but the winters are long and severe, and, unless grass is plentiful, cattle fall away during the latter period.

Dairying can be successfully carried on if some attention be paid to the storage or growth of feed for the cows in the winter and they be reared or housed during that season.

On the best of the agricultural areas lucerne and maize (for ensilage or fodder), rape, wheat, and root-crops will do well. On the poorer arable lands oats would yield handsome, both for grazing and hay. Orchards would do well almost anywhere, and the cultivation of cold-climate fruits and berries prove a good source of revenue when railway communication is established.

With the possibility of irrigation are nominal, and will be confined to small areas fronting the main creeks.

The bulk of the estate can be judiciously subdivided into thirty-three farms. Excluding the homestead block, for which it is proposed to allot about 1,854 acres, the remaining thirty-two farms will average about 515 acres, ranging from 186 acres near Bombala to 774 acres of the poorer land.  

272  

The structural improvements are valued at £8,096 10s. 9d., comprising homestead, woolshed, fencing, old cheese factory, buildings, sheds, four wells, underground tank, &c.

The Board values the estate, including the improvements, but excluding the railway enhancement, at £3 10s. per acre—in all, £70,457 13s. 4d. The trustees of the estate demand £4 10s. per acre for the property, and, as there is no prospect of a mutual agreement being arrived at, the price will have to be determined on appeal.

The proposed exchanges referred to in the Board's report will not be necessary, as the various scattered portions referred to can be disposed of to adjoining landholders under the provisions of the Closer Settlement (Amendment) Act, 1909.
In addition to the farms above-mentioned, there are about 2,081½ acres of more or less isolated blocks, which could not be well included in farm areas. On inquiry from the gentlemen concerned the Board learned that, of these blocks:

J. Tons, who holds about 400 acres, is willing to take portions 5, 93, and 121, parish Maharatta, aggregating 136½ acres.

C. Sherrin, who now holds about 510 acres, is prepared to take portion 27, parish Maharatta, of 40 acres, which is practically surrounded by his area.

F. Rapmund, owner of about 1,855 acres, is willing to take the 82½ acres comprised in portion 58, parish Maharatta.

H. Ingram, an old employee of Maharatta, and now a pensioner of the estate, occupies portion 8, parish of Mila, comprising 40 acres, and the manager advised the Board that he was to have been allowed to live on the 40 acres during his lifetime. Doubtless some satisfactory arrangement can be made, either as to the exclusion of this block from the resumption, or perhaps Ingram would elect to take some under the Closer Settlement conditions.

C. T. Cotterill, who owns 142½ acres in the parish of Geear, is prepared to increase his holding to 500 or 600 acres from the blocks adjoining and near his land. There are some 1,603 acres in awk-ward blocks covered by portions 5 to 10, 12 to 22, 38, 48, 66, 62, 63, 78, 79, 93, and 92, parish Geear.

J. Garnock, of South Bukalong Estate, and the Trustees of the Gallagher's Plains Estate own a number of isolated blocks adjoining parts of the Maharatta Estate in the parish of Geear, and it seems that they might be disposed of at a reduced price. It is understood that there will be no difficulty, and, if the necessary arrangements can be subsequently made, more farms can probably be made available. The Board are at present awaiting a reply from Mr. Garnock, who is interested in the two estates above-mentioned, as to his views in the matter.

R. Campbell, of Cambalong Estate, is agreeable to exchange his portion 11, parish Geear, for Maharatta portion 8 in the same parish, provided he incurs no expense by so doing, and that he is paid for the excess area at the rate to be paid for Maharatta Estate. Portion 11 is inside the Maharatta fence, and portion 8 is included in the Cambalong area.

These proposed exchanges will form the subject of a separate report at a later date. Failing to arrive at a satisfactory basis of exchange, the blocks under review could be disposed of by sale or lease, after first leaving them open for a time to allow of possible applications for small workmen's blocks.

The best-of all, outbuildings, and watercourses are situated quite close together on portion 1, parish Maharatta, and their value is estimated at £250. In subdivision, however, it is proposed to write this amount down to £220. The area proposed to be allotted for the homestead farm is about 1,854 acres.

of one or two holes Warburton Creek is not permanent, but Rock Creek may be classed as permanent, and there are a few good permanent springs. The major part of the estate comprises good holding ground, but, if acquisition be proceeded with, this may be subject to modification, as one of the beneficiaries, a Mr. ac

Ingram, would elect to take same under the Closer Settlement conditions.

With the exception of about 40 acres, which is practically surrounded by his area, there is a fair demand for Monaro lands, and they recommend the acquisition of the Maharatta Estate, which is suitable for Closer Settlement purposes.

Until some little time back the Board were not aware that the Managing Trustee resided in England, and that the local Trustees had not the power to deal. Communications were addressed to the latter, and the report was delayed in the hope that an agreement might have been arrived at. However, on the 7th instant the Board met the local Trustees at the office of Messrs. Ashley, Old, and Jones in Sydney, when it was learned that a cable had been received from the Managing Trustee fixing the price at £24 10s. per acre. As the local Trustees have no discretion, the Board understand that this price is final, and that there is no hope of agreement.

Your Board have, etc.,

ENOCH J. COBCROFT, Chairman.

CLOSER SETTLEMENT.
(PARTICULARS RESPECTING PROPOSED ACQUISITION BY THE GOVERNMENT OF PART OF THE
NANGUS ESTATE, IN THE GUNDAGAI DISTRICT.)

Ordered by the Legislative Assembly to be printed, 15 August, 1910.

The Nangus Estate comprises about 13,770 acres, the property of Joseph and William McKinney, situated on the Murrumbidgee River, from 12 to 21 miles from the town of Gundagai, 16 to 28 miles from Junee Junction, and 14 to 22 miles from Illabo railway station, which are distant by rail from Sydney 291, 292, and 282 miles respectively.

The Advisory Board recommends the acquisition of that part of the Estate lying north of the Wagga Wagga-Gundagai road, exclusive of the woolshed paddock, and comprising about 7,417 acres, at £4 per acre, inclusive of the improvements.

About 6,036 acres (81 per cent.) are arable lands, and the balance grazing country. The bulk of the former is good wheat lands, whilst oats and rape for rotation purposes should do well. On limited areas lucerne should do well.

It is estimated that with reasonably good farming an average of 14 bushels of wheat should be maintained. The grazing capacity is a sheep to the acre.

The area can be suitably subdivided into 14 farms, averaging about 530 acres.

The average rainfall is about 22.92 inches at Gundagai, and 20.34 inches at Junee.

Water supply is afforded by Billabong Creek on the west, which, though not always running, is permanent in holes. Cooba and Dry Creeks on the north give a partial supply. There is one well, and well-water can be obtained on the low-lying land at from 20 to 60 feet. There are 9 dams, catchments are numerous, and the ground holds well.

The structural improvements are cottage, valued at £60; dams and wells, £250; and fencing, £1,100; total, £1,410.
APPENDIX.

[Report by Southern Advisory Board recommending acquisition of Northern Area of about 7,417 acres, as agreed upon price £4.]

Office of the Southern District Closer Settlement Advisory Board,
Wagga Wagga, 4th August, 1910.

**NANGUS ESTATE.**

The Southern Advisory Board, having just inspected the Nangus Estate, have the honour to report:

Nangus Estate, containing about 13,770 acres, the property of Messrs. Joseph and William James McKinney (c/o Dewhurst and Halloran, 8 O'Connell-street, Sydney), is situated in the parishes of Nangus, Coola, Temandra, Kimo, and Eurocogily, county Clarendon, and is within the Adjungubilly and Illabo Shires.

The property is well served by good roads, the main road from Gundagai to Wagga Wagga passing westerly through the estate, and branches therefrom diverge northerly to Illabo and north-westerly to Junee Junction. The river road, which is also used for traffic, passes through the southern portion of the estate.

Necessary roads of intercommunication can be readily obtained.

The road from Gundagai to Nangus is distant 12 to 21 miles from the town of Gundagai, 16 to 28 miles from Junee Junction, and 14 to 22 miles from Illabo railway station.

**Railway.**

During the last three or four years the owners have been selling privately, and in this way have disposed of the areas shown by blia hatching on plan herein, aggregating over 8,000 acres, in areas of from 400 to 1,500 acres, and at prices which average £4 9s. per acre, the terms being cash.

The owners now offer the whole of the remaining part of the estate to the Crown, or failing agreement as to price, offer that part tinted pink and edged red on the map, lying on the north of the Wagga-Wagga-Gundagai-road, and totalling about 7,417 acres. The lowest price the Messrs. McKinney will accept for the whole estate is £4 per acre. For that area of about 7,417 acres already referred to on the north of the main road, which excludes the woolshed paddock (portions 57, 58, and 59, parish Nangus), of 395 acres on which are improvements, consisting of woolshed, cottage, shearsers' quarters, dip, and sheep-yards, valued for insurance purposes at about £2,500, £4 per acre will be accepted. The price placed upon that area of 6,352 acres, 1 r. 34 p., comprising 5,595 ac. 1 r. 34 p. south of the Wagga Wagga—Gundagai-road and 395 acres in the woolshed paddock, is £4 per acre. On this last mentioned area of about 6,532 acres are heavy building improvements, consisting of homestead and outbuildings, butter factory, four well-equipped dairies, cottages, woolshed, etc., buildings which, with machinery, etc., aggregate over £10,000 in insurance values; and although this southern area, with its fine river flats, is well suited for Closer Settlement purposes, the Board are of opinion there would be a risk in acquiring such, on account of the heavy nature of the improvements, coupled with the high price of the land. The Board therefore propose to confine their recommendation to that area of about 7,417 acres north of the Wagga Wagga—Gundagai-road, edged red on the map, and excluding the woolshed paddock, in connection with which an agreement as to price—£4 per acre—has been arrived at.

This northern area comprises about 6,036 acres of arable land, and about 1,381 acres of grazing country, 300 acres of which, on the extreme north, are unimproved, except for the boundary, fencing and a dam. The area is somewhat scattered, but can be suitably subdivided into fourteen farms, averaging 430 acres each.

The formation generally is granite, but about 1,000 acres, principally grazing land, are of slate formation, and somewhat hilly and broken in parts.

The bulk of the farming areas, some 5,718 acres, consists of good wheat land, the soil being a friable red or chocolate loam, with a good strong subsoil. The balance of the cultivable land is contained in smaller areas in the grazing country on the north.

There is a considerable settlement of comparatively small farmers in the locality, and wheat and other cereals, including hay, are grown successfully, yields as high as 35 bushels of wheat having been obtained. Part of the area has been farmed by previous owners of Nangus, but the Messrs. McKinney have confined their attention to grazing and dairying. The Board estimate that, with reasonably good farming, an average of 14 bushels of wheat should be maintained, whilst oats, and rape, for rotation purposes, should do well, and on limited areas lucerne should succeed.

**Timbers.**

The country generally comprises open forest, the timbers being yellow and white box, and some gum; and, with the exception of two or three blocks, enough would be available for fencing purposes and for firewood. Timber for fencing and rough sheds is available on reserves adjoining, but building timber would have to be obtained elsewhere.

**Water.**

The area under review is watered by the Billabong Creek on the west, and though this creek is not always running, water is permanent in holes. In the driest times water can be obtained by sinking a few feet. Cooba and Dry Creeks on the north afford a partial supply, but are not permanent. There is a well on portion 65, Parish Eurocogilly, and well water can be obtained on the low-lying lands at from 20 to 60 feet. There are nine dams averaging about 800 cubic yards; catchments are numerous and the ground holds water.

**Rainfall.**

The average annual rainfall at Gundagai for the period of nineteen years ended 1909, is 22-92 inches, and the record at Junee for twenty-six years ended 1909 is 20-34 inches.

**Rabbits.**

Rabbits are troublesome and foxes are said to be numerous in the district. The land is fairly free from noxious weeds.

**Farming.**

The exception of about 300 acres of unimproved country on the north, the country is fair to good grazing land, understood to be thoroughly sound for all kinds of stock, except in very wet seasons when a little fluke and footrot appear. It is fattening in the spring and summer months, but is better adapted for breeding and carrying purposes—especially for cross-bred sheep. The fattening qualities of this country are very much improved after cultivation, and in connection with agriculture the fat lamb industry would be practicable and profitable. The carrying capacity is estimated at one sheep per acre.

**Dairying.**

Dairying could be carried on profitably as an adjunct to any system of mixed farming.

*NOTE.—In the event of acquisition of this area, and submission of the matter to the House, it is especially desired by the owners that their prices—other than for the area taken—be not divulged.—ExOfficio. J. Coroboff.*
The area is fairly well improved for grazing, with the exception of the area of about 300 acres of unimproved country, the timber has all been sapped for many years, there is very little dead timber on the ground, and only about 400 acres have been allowed to sucker. About 1,700 acres were yankie-grubbed seven years ago, and a few green trees have been left on the area so dealt with, and about 390 acres have been cleared for the plough. The land is securely fenced and subdivided into 10 paddocks, and the fences are in fair condition. There is a fair mileage of netted fencing, but in the absence of a detailed survey it is difficult to state whether it is on the boundary of Nangus or the adjoining properties in many places; the estimated value of fencing can therefore only be given roughly.

There are no unnecessary improvements on this area, and the only building is a cottage on portion 65, Eurogilly, valued at about £60.

The Board are of opinion that there is sufficient demand to absorb this area of about 7,417 acres, if the Crown acquire same for Closer Settlement purposes. There are practically no possibilities of irrigation. The Shire values cannot be furnished, as those in the possession of the Board cover an area of about 80,000 acres, much of which has been sold, and it includes the southern area not recommended. The values the Board have are, approximately, £3 per acre unimproved, £5 17s. improved, and the area covering such valuation about 18,375 acres.

Within the general limits of the estate are two public schools, and at and near the Nangus Creek crossing on the main road from Gundagai to Wagga Wagga is a small settlement containing church, stores, P.O., store, etc. post and telegraph office, recreation ground and general cemetery. A public school has also been recently built near the E. boundary of T.S.B. 3,011.

The reserves shown on the plan are at present required in the public interest. The northern area of Nangus, containing about 7,417 acres, is suitable for Closer Settlement. The distance from railway is the principal drawback, but in fixing the value of the land this has been fully taken into consideration. There is over 80 per cent. of arable land and the country is suitable for mixed farming. The grazing lands are shown on the plan in red hatching. The estimated value of the area recommended is £4 per acre, or a total of about £29,668, inclusive of improvements. The structural improvements are valued at Cottage, £60; dams and well, £250; structural fencing, £100—£1,410, approximately.

The Board recommend acquisition of the area of about 7,417 acres at a price of £4 per acre, or a total of about £29,668, inclusive of the improvements. Such valuation is based upon character of the soil and agricultural possibilities, the carrying capacity, rainfall, position of the estate, improvements, etc., etc. The owners have verbally agreed to accept £4 per acre for the area recommended, and they have intimated their willingness to accept Government Debentures in payment of the purchase money. Your Board have, etc.,

ENoch J. COBCROFT, Chairman
F. C. PIGGIN, 1 Members.
J. D. NORMAN, 1 Members.

The Under Secretary, Department of Lands.

CLOSER SETTLEMENT.
(PARTICULARS RESPECTING THE PROPOSED ACQUISITION BY THE GOVERNMENT OF TIBBEREENAH ESTATE, NARRABRI DISTRICT.)

Ordered by the Legislative Assembly to be printed, 13 July, 1910.

THE Tibbereenah Estate, embracing an area of 12,296½ acres (more or less) is situated close to the town of Narrabri. No part of the estate is more than 2 miles from the railway line, or more than 4 miles from a railway station. The railway stations in close proximity to the estate are Narrabri West, Tibberena, and Turrawan, which are 351, 349, and 340 miles respectively from Sydney.

A notice of intended acquisition was gazetted on 21st July, 1909, and the Advisory Board's final report (Appendix A) was furnished on 7th December, 1909.

About 9,700 acres (79 per cent.) are cultivable land. The balance is poor country of a sandy nature, suitable for grazing only, which can, however, be absorbed with the arable lands under suitable design for subdivision.

The estate is adapted for mixed farming, wheat and barley growing, lamb raising, pig and poultry farming, dairying, raising and fattening stock. The deep soil on the river bank should grow perennial lucerne.

The estimated grazing capacity of the estate is a sheep to an acre, or a head of large stock to 4 or 5 acres.

The area can be suitably subdivided into about thirty farms, ranging from 150 to 700 acres, and averaging about 415 acres. About twenty-seven small farms will also be provided to embrace the part of the estate nearest the town of Narrabri.

The average annual rainfall at Narrabri for a period of thirty-two years is 26.03 inches.

The Namoi River, to which the estate has 12 miles of frontage, affords a permanent water supply. The facilities for conservation in tanks and dams are good, and water can probably be obtained at very shallow depths all over the estate.

Irrigation could be carried on to a limited extent on the banks of the Namoi River.

The improvements (exclusive of ringbarking, yankee grubbing, and clearing, which are inseparable from the land) are valued at £1,094, comprising homestead, huts, tanks, yards, fencing, &c.

The Advisory Board recommended the acquisition of the whole estate, inclusive of improvements, at £4 1s. 6d. per acre, and the owners agreed to sell the property at that price. It was afterwards arranged that the part of the estate (222 acres, 0 rd. 24 per.) within the Narrabri West Municipality, valued at £10 per acre, should be excluded from the area to be acquired, leaving a balance for acquisition of about 12,074 acres. Since the Board's inspection was made some damage resulted from floods, and £300 is to be deducted for same (Appendix B). The total price to be paid for the 12,074 acres is about £47,586 or £3 13s. 9d. per acre.

The Namoi Shire valuation of the freehold and conditional purchase land in the estate is £3 4s. per acre unimproved; £3 10s. per acre improved.
APPENDIX A.

Closer Settlement Advisory Board, Northern Division,
Narrabri, 7th December, 1909.

TIIBEREENAH ESTATE.

Report.

We have the honor to furnish you with a report under the terms of Section 3 of the Closer Settlement (Amendment) Act, 1907, on the Tibbereenah Estate, near Narrabri, Counties of Nandowar and White.

Ownership.
The land forms part of the deceased estate of the late John Charters. The executors are A. R. Stafford, Narrabri, and Ada Mary Greigh, caretaker of A. R. Stafford, Narrabri.

Area.
The area of the estate is about 12,270 acres in three areas. Some 9,140 acres are situated in the parishes of Narrabri, Milner, and Turrawan, and 3,130 acres are in the parish of Turrawan. The remaining area, about 210 acres, is suburban land at Narrabri West, in the parish of Coona.

General description of country.
This area consists of large alluvial flats, liable to periodical water inundation, and sandy loam, and some sandy ridges. The soils on the river bank show considerable depth, and should produce perennial lucerne. The 3,098 acres in the parish of Turrawan consist of light sandy to good red soil, partly suitable for wheat-growing.

The whole of the estate is more or less improved by ring-barking, yarney grubbing, burning, and clearing-off. The buildings and fencing on the land would not be a bar in any way to a system of Closer Settlement, and they would be absorbed by, and recoverable from, applicants for farms.

The total value of the improvements on the estate (apart from the ring-barking, yarney grubbing, and clearing, which are inseparable from the value of the land) is £2,694, or about 2s. 6d. per acre.

The estate is used by the executors for grazing purposes only.

The timber on the estate consists of white and white box, apple tree, red gum, ironbark, pine, and oak river.

Water supply.
There are about 2,695 acres of dense pine scrub, interspersed with many of the natural scrub and trees peculiar to the sand ridges in the western districts of the State. The eastern boundary is about 12 miles to the Namoi River, a stream of considerable magnitude. There are sites for dams and tanks, with good catchment areas. Water would probably be obtained at very shallow depths all over the estate. In the immediate town of Narrabri a large number of wells have been sunk and windmills erected, and water is obtainable at a depth of 15 ft. or less.

Irrigation.
Irrigation to a limited extent could be carried on along the banks of the Namoi River, and this, in conjunction with the quality of the land, should produce remunerative crops.

Rainfall.
The rainfall at Narrabri, according to the Government Astronomer's records for a period of thirty-two years, is 26.03 inches.

Climate.
The climate is dry and healthy, warm in summer.

Situation.
The estate extends from the town and railway station of Narrabri West some 12 miles south- easterly along the North-western railway, and for 8 miles the estate abuts on the railway line. The Narrabri and West Narrabri Railway Stations are within three-quarters of a mile of the estate, and Turrawan Railway Station is within half a mile of the southern portion of the estate. Tibbereenah platform is on the estate, 2 miles from Narrabri West. No portion of the property is more than 2 miles from the railway line or 4 miles from a railway station. Narrabri is 253 miles from Newcastle.

The estate will divide into about 30 farms, having an average area of about 415 acres, ranging from 150 acres up to 700 acres. In addition to the farms, there is provision for 30 workmen's blocks.

The area of the estate is about 12,270 acres in three areas. Some 9,140 acres are situated in the parishes of Narrabri, Milner, and Turrawan, and 3,130 acres are in the parish of Turrawan. The remaining area, about 210 acres, is suburban land at Narrabri West, in the parish of Coona.

Farms.
The estate is one of the most suitable in that part of the Northern Advisory Board's district for Closer Settlement. Every farm in the 9,000 acre subdivision will have a frontage to a permanent river, and water is readily obtainable on the remainder of the area.

The country is adapted for mixed farming, wheat and barley growing, fruit trees, lamb raising, pig and poultry farming, dairying, and the raising and fattening of stock. It may be pointed out that there is a freezing works establishment at Tibbereenah platform, and the manager informs us that the Company is going in for lamb-freezing next year. Rabbits are now being trapped and frozen at these works. There is also a butter factory and a flour mill in Narrabri.

The estate is infested with rabbits, but there would be no difficulty in eradicating them with effective fencing, and a systematic method of destruction. Rabbits soon disappear from Closer Settlement areas after the farms are taken up.

Surveyor's plan and report.
Mr. Licensed Surveyor J. F. Campbell's plan and report, marked "A," are forwarded herewith.

We now report specifically as follows under the various subsections of Section 3 of the Closer Settlement (Amendment) Act, 1907:

(a) The area, about 12,270 acres, shown on the accompanying plan, marked "A," is suitable to be acquired for Closer Settlement.

(b) We estimate the value of the land at the sum of £3 17s. 6d. per acre, and the value of the improvements at the sum of £1,994 15s. 3d., equal to 2s. 5d. per acre, or a total value of £4 6s. 2d. per acre.

(c)
(c) We recommend the acquirement of the estate at the sum of £4 1s. 6d. per acre on a freehold basis, which includes the improvements.

We arrive at this by agreement with the owners. The offer made by the owners was £5 per acre.

(d) There is no residue.

(e) The report shows in a previous paragraph the use to which the land may be put.

We have, &c.,

F. G. FINLEY, Chairman.
W. NEVILLE SENDALL, } Members.
WILL J. CLONAN,

The Under Secretary for Lands.

APPENDIX B.

Sir,

Close Settlement Advisory Board, Northern Division,
Tamworth, 3rd May, 1910.

TIBBEREENAH ESTATE.

We have the honour to report that, in accordance with your instructions of the 8th March, 1910 (Cl. Sett., 10/007), we, on the 31st March and 1st April, 1910, inspected Tibbereenah Estate, near Narrabri, to ascertain what effect the late flood in January had on the land and improvements.

We find that the flood waters covered the greater part of the Namoi frontage land to a depth, in some places, of 14 feet. All the fences on this portion of the estate were either levelled to the ground or washed away. Some have been re-erected, but we estimate there is still damage resulting from the flood to fences and wire netting to the amount of two hundred and fifty (£250) pounds.

A small area of land (about 20 acres) on the Narrabri Creek frontage, near the town, has suffered a little by erosion, which has had the effect of depreciating it for building sites, but does not permanently damage it for grazing purposes. We estimate this depreciation at fifty (£50) pounds.

On the 11th April, 1910, we met Mr. A. R. Stafford, local trustee for the estate, and, after considerable argument and discussion, he agreed to deduct £300 from the price of Tibbereenah as compensation for flood damage.

We accordingly recommend the reduction of the price of Tibbereenah by £300.

We have, &c.,

W. NEVILLE SENDALL, } Members, Northern
WILL J. CLONAN, } Advisory Board.

The Under Secretary for Lands.
1910.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

CLOSER SETTLEMENT.

(PARTICULARS RESPECTING THE PROPOSED ACQUISITION BY THE GOVERNMENT OF PART OF THE TUPPAL ESTATE, FINLEY DISTRICT.)

Ordered by the Legislative Assembly to be printed, 13 July, 1910.

The Tuppal Estate embraces an area about 178,227 acres, in the vicinity of the village and railway station of Finley, the terminus of the Berrigan to Finley railway. About 60,000 acres of the estate, practically adjoining Finley, Corragumbar, and Leniston Railway Stations (454, 460, and 447 miles respectively from Sydney) were placed under offer to the Government by the owners. No part of this area is more than 5 miles from a railway platform.

The Southern Closer Settlement Advisory Board furnished a report on this area on 25th November, 1909 (Appendix A), and a notice of intended acquisition was gazetted on 15th June, 1910.

With the exception of about 200 acres of swamp and sandhill, the whole area is cultivable land.

The area proposed to be acquired is adapted for the growth of wheat. Rape has been successfully cultivated, and grape-vines do well. Dairying may also be carried on in a small way as a useful副业. The country is suitable for both breeding and fattening sheep, and the fat lamb industry has proved successful. Large stock do particularly well.

About 19,820 acres have been cleared, or partly cleared, for the plough. Most of these lands have been cultivated at one time or another, there are at present four sharefarmers cultivating about 2,247 acres.

It is estimated that the land will produce about 12 bushels of wheat per acre.

The grazing capacity is a sheep (with natural increase) to an acre.

The area can be suitably subdivided into 115 farms—95 would range from 400 to 600 acres, with an average of about 500 acres, also 20 small farms of about 100 acres each, immediately adjoining the village of Finley.

The average rainfall is 18-29 inches for thirty-four years.

There is no natural permanent surface water supply, but the facilities for storage in tanks are excellent, and a plentiful supply can be obtained by wells or bores at a depth of about 118 feet.

The improvements are valued at £19,026, and would be all useful to incoming tenants. (Appendix B).

The Advisory Board recommend the acquisition of the 50,000 acres at £4 10s. per acre (£225,000).

The Berrigan Shire valuation of 39,000 acres of the area proposed to be acquired is £2 19s. 6d. (unimproved), and £4 2s. 6d. (improved), per acre. The balance, about 11,000 acres, is within the Conargo Shire, and is valued at £2 5s. per acre (unimproved); the improved value has never been made by the Shire valuer.

73843 102—A

APPENDIX.
APPENDIX A.

Office of the Southern Advisory Board,

TUPPAL ESTATE.

Sir,—

The Southern Advisory Board, having recently inspected the Tuppal Estate, have the honor to report:

Tuppal Estate, containing about 178,327 acres, the property of F. S. Falkiner and Sons, Ltd., is situated in the Parishes of Birragenbigh, Thurgon, Narrans, Warrawo, Blackwood, Pungulgi, Tarrow, Narrational, Wonme, Wollomi, and Yalgadoori, county of Townsend, and Parishes Ulpana, Finley, Langany, and Warringabogg, county of Denison.

The Tuppal bores are usually so placed that each water is in going order, costs £111. The owners of Tuppal Estate have usually provided galvanised iron receiving tanks of a capacity of from 5,000 to 7,000 gallons, with stop-cocks and necessary troughing; at a further cost of £13 per tank.

The Tuppal bores are usually so placed that each water can be designed almost anywhere with safety. There is no natural permanent water, but tanks, of which there are forty on the 50,000 acres, and which can be designed almost anywhere with safety.

Sir, —The Southern Advisory Board, having recently inspected the Tuppal Estate, have the honor to report:

Tuppal Estate, containing about 178,327 acres, the property of F. S. Falkiner and Sons, Ltd., is situated in the Parishes of Birragenbigh, Thurgon, Narrans, Warrawo, Blackwood, Pungulgi, Tarrow, Narrational, Wonme, Wollomi, and Yalgadoori, county of Townsend, and Parishes Ulpana, Finley, Langany, and Warringabogg, county of Denison.

The Tuppal bores are usually so placed that each water is in going order, costs £111. The owners of Tuppal Estate have usually provided galvanised iron receiving tanks of a capacity of from 5,000 to 7,000 gallons, with stop-cocks and necessary troughing; at a further cost of £13 per tank.
The average rainfall of Deniliquin, 36 miles west of Finley, is 16.35 inches for a period of forty-eight years.

There is no doubt that the rainfall at Finley is equal to that at Berrigan, and partakes of the same even incidence, and, although the rainfall up to the end of October ultimo was only about 15-13 inches, the wheat crops around Finley are equal to the best of the crops in any part of the Board's district.

From the Government Wheat Map, District No. 157, in which Berrigan is situated, showed an average for thirteen years from 1895 to 1907 of 9.03 bushels from an average acreage of 54,943 acres. District No. 159, in which Berrigan is situated, has an average for the same term of 9.82 bushels from an average acreage of 87,560 acres.

The above results were principally from share-farming and following, which is absolutely necessary in the Riverina districts, but, except in rare cases, only been tried by a few farmers during the last two years.

A number of farmers (twelve) who gave information to the Board at Finley, and who have farmed continuously in an around Finley for periods of from eleven to thirty years, gave their average wheat yield as 121 bushels per acre; and it is reasonable to suppose, with the character of the Toppal soil and the even average incidence of the rainfall, that good farming should result in an average yield of at least 12 bushels per acre. "Manure has not yet been tried in the locality, the growers around Finley maintaining that the soil is too rich for its use.

It might not be out of place to compare the wheat returns for the same period, 1895 to 1907, as given on the Wheat Map, for the Wagga Wagga district, which is in the centre of wheat districts Nos. 156, 167, and 168.

**Comparison of Wheat Yields, Wagga, Finley, and Berrigan.**

</table>

The three districts, of which Wagga Wagga is the centre, with a rainfall averaging 21.87 for thirty-six years, cover some of the best wheat lands in the State, yet, according to the Government Wheat Map, Finley compares favorably therewith. It is also interesting to note the rise and fall of yields and acreages in the five districts quoted, an agreement which is only once broken by District No. 156, which shows the greatest acreage under cultivation, 8,000 acres thereof being badly infested with wild oats. The country is gently undulating to level, and, with the exception of two small swamps and a low sandhill—both, in all, about 200 acres—all the 50,000 acres recommended for acquisition is cultivable, the soil running from light to dark red, with chocolate in parts, and the whole has a good subsoil.

The soil is very rich for its use. Agreement in results between these three districts and those of Berrigan is not complete, but is sufficiently close for any practical purpose, and it is reasonable to suppose that the same result will be obtained by average farmers. The average yield of farmers in Berrigan is 9.82 bushels.

There are at present four share-farmers cultivating, in all, 2,694 acres, with leases running from two to five years, all of whom are eligible and would become applicants for Settlement purchase farms if Toppal is acquired.

About 15,000 acres of Toppal (part of the 50,000 acres under review) were leased, in acres of from 285 to 2,500 acres, as a rental of 5s per acre. Some of these farms were successful, but some did not succeed mainly because at that time the nearest railway station was at Jerilderie, 25 miles away, and the price of wheat was very low. At the end of the leases Talinder and Sons cleared them all out, as the firm's stock and other interests so engrossed their attentions that they could not properly supervise the farming area.

Evidences of neglect and bad farming in the past were noticeable on the land that was under cultivation, 8,000 acres thereof being badly infested with wild oats. These 8,000 acres are almost all on the east of Finley and adjacent to the railway stations, and whilst the wild oats do not militate against the value of this area for growing hay, and are valuable for grazing purposes, they depreciate the value of the land for grain to the extent of 10s per acre.

Experienced farmers stated that the wild oats could be exterminated in two years, and that with good farming they should prove no trouble.

Rape has been tried with success. Grape-vines do well, but it is not thought that orchards on a commercial scale would prove a success.
A little dairying is carried on, the cream being sent by rail to the butter factory at Jerilderie. It is claimed that dairying can be successfully carried on throughout the winter, but, though this industry may prove a useful help, the Board are of opinion that it will not be carried on largely.

The carrying capacity is estimated at one sheep with the natural increase per acre. This belt of country is probably one of the soundest in New South Wales, and diseases of any kind are unknown. The country is both breeding and fattening, and the fat lamb industry has proved successful. Sheep have only been shifted three times in the last thirty years on account of lack of pasture. In ordinary dry seasons sheep do well on the clover barn, of which there is generally a very heavy growth.

The majority of the Board, however, have no doubts on the matter, and recommend acquisition of the 50,000 acres accordingly.

Your Board have, etc.,

ENOCH J. COBCROFT, Chairman.

*F. C. PIGGIN,  
J. D. NORMAN,  
Members.

Under Secretary, Department of Lands.

* F. C. Piggin with regard to climatic conditions doubtful.

APPENDIX
APPENDIX B.

Wagga Wagga, 5 July, 1910:

A detailed inspection of the area proposed for acquisition has been made, and in the light of the more exact information now acquired the Board invite attention to the following matters:

1. It is found there are actually 76 tanks ranging from 50 cubic yards to 9,500 cubic yards, and aggregating 116,400 cubic yards. Of these, 36 range in capacity from 1,000 cubic yards to 9,500 cubic yards; average about 3,000 cubic yards; and total 78,400 cubic yards. The remaining 50 tanks range from 50 cubic yards to 900 cubic yards; average 760 cubic yards; and aggregate, 38,000 cubic yards. The Board do not consider these last-mentioned tanks effective, but most of them can be made so at varying additional cost.

2. There are about 149 miles of fencing of varying classes and quality, and the Board must confess that the previous estimate of valuation of this was excessive, and must have been due to an error in calculation, or readings from field-notes.

3. With respect to the general improvements, the Board are of opinion their original valuations should be amended by excising cost of sapping, suckering, etc., £3,750; trimming and thinning pine, £500; and picking up and burning off fall-off timber, £2,400, as such improvements are inseparable from the land, and the added value caused by their incidence is included in the market value of the land.

4. The clearing for cultivation was first estimated at 18,000 acres, and its value was put down at 15s. per acre. The actual area which has been cultivated is, however, about 19,820 acres, of which about 2,247 acres are now being worked. All this land has not been thoroughly cleared, and taking also into consideration that much is not virgin land, though having been so long out of cultivation it is but little inferior thereto, the Board now consider 12s. 6d. per acre sufficient to allow therefor.

5. The amended valuations of improvements are as follows:

<table>
<thead>
<tr>
<th>Description</th>
<th>£</th>
<th>s.</th>
<th>d.</th>
</tr>
</thead>
<tbody>
<tr>
<td>3 cottages</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>149 miles fencing, at £18</td>
<td></td>
<td>400</td>
<td>0</td>
</tr>
<tr>
<td>26 tanks, averaging about 3,000 cubic</td>
<td></td>
<td>2,682</td>
<td>0</td>
</tr>
<tr>
<td>50 tanks, averaging about 750 cubic</td>
<td></td>
<td>1,213</td>
<td>6</td>
</tr>
<tr>
<td>12 wells, 2 windmills, tanks, troughing, etc.</td>
<td></td>
<td>800</td>
<td>0</td>
</tr>
<tr>
<td>Clearing, about 19,290 acres, at 12s. 6d. per acre</td>
<td></td>
<td>12,387</td>
<td>10</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td>£19,026</td>
<td>3</td>
<td>4</td>
</tr>
</tbody>
</table>

So that paragraph 4 of the main body of report will require amendment by substituting the value of £19,026 3s. 4d. for improvements, in lieu of £28,830 as there given.

6. So far as the possibilities of irrigation are concerned, the Board have to point out that it is understood the whole question of the irrigation of this part of the State has been dealt with by the Public Works Department in connection with the proposed Bungowanah scheme.

7. About 39,000 acres of the area proposed for acquisition are situated in the Berrigan Shire, and the Shire valuations for that area are: Unimproved, £2 19s. 6d. per acre, and improved, £4 2s. 6d. per acre. The balance of about 11,000 acres forms part of the 128,108 acres, situated in the Conargo Shire, and as the greater part of this Conargo Shire area comprises plain country, the Board cannot arrive at the fair Shire valuation of the portion under review. That land (11,000 acres) is, however, similar in character to that in the Berrigan Shire.

8. Plan of Tuppal, showing the area proposed to be acquired, is forwarded under separate cover. All structural improvements are shown distinctly, the agricultural lands are tinted pink, the areas under cultivation are hatched purple, the lands that have been under crop are hatched red, and grazing areas are tinted blue.

ENoch J. Cobcroft, Chairman.

F. C. Piggin, Member, Southern
J. D. Norman, Advisory Board.

The Under Secretary, Department of Lands.

[Ed. 102—B]
1910.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

CLOSER SETTLEMENT.

(PARTICULARS RESPECTING THE PROPOSED ACQUISITION BY THE GOVERNMENT OF PART OF THE WANDARY ESTATE, NEAR FORBES.)

Ordered by the Legislative Assembly to be printed, 10 August, 1910.

The Wandary Estate embraces a total area of about 18,785 acres, and the part recommended for acquisition contains an area of 9,000 acres, more or less, situated from 8 to 15 miles from the Forbes Railway Station and town, which is 292 miles from Sydney.

About 7,500 acres, or 83 per cent., consisting of red and black soil timbered country, is first-class wheat land, and the balance is dark soil plain country, not so good for wheat but excellent for grazing. The timber has been well killed, and the cost of clearing would not be heavy. There are very few rabbits.

Practically the whole area is regarded as suitable for growing wheat, oats, and other cereals, and the estimated average wheat yield is 12 bushels per acre.

The present grazing capacity is about a sheep to the acre.

The area can be suitably subdivided into about eighteen farms, ranging from 400 to 600 acres, with an average area of about 500 acres.

The average annual rainfall is 21 inches.

A fair supply of water is secured by dams, tanks, and wells. The facilities for conservation are good. Permanent water of good quality can be obtained by sinking at a depth of from 60 to 100 feet, and Ooma or Boyd Creek furnishes a temporary supply.

Irrigation is not practicable.

The improvements (exclusive of ringbarking and clearing, which are regarded as inseparable from the land) are valued at £1,366 11s. 2d., comprising fencing, buildings, dams, tanks, wells, and sheep yards.

There is a resident boundary rider and a share farmer on the land who may have claims for preferential treatment.

The Advisory Board values the area proposed for acquisition at £4 per acre. The owner offers to sell it at £4 2s. 6d. per acre, and, in view of the advantages of arriving at a mutual understanding, the Board recommends acceptance of the offer.

The remaining part of the estate embraces the valuable homestead and woolshed improvements and some high land which it is deemed essential that the owner shall retain, as the frontage lands are liable to inundation from the river in times of flood.
Having reference to our communication to you of the 16th instant, recommending proclamation of a portion of Wandary Estate, we have the honor to report that we have now completed an inspection of this property, containing, in all, about 18,805 acres, which is shown upon the accompanying heliograph "A" by red border and blue border.

Previous to our inspection we met the owner (Mr. Stitt) by appointment in Forbes, who signified his willingness to sell a portion of the estate and put under offer about 10,000 acres for the sum of £5 10s. per acre, vide his communication hereof the 22nd July last.

This offer included the land as shown upon the accompanying lithograph "A" by pink colour, together with the balance of portions 69, 68, 75, 43, 25, and 29 northerly to the road following the northern boundaries of these portions and intersecting portion 29 westerly, as per black pencil hatching.

Negotiations proceeded for some considerable time, but it was not found possible to come to any amicable arrangement with the owner on the question of price.

Later on the owner, having secured private professional advice, ultimately expressed his desire to again confer with the Board, and after very lengthy negotiations he agreed to accept £4 2s. 6d. per acre for the 9,000 acres as shown upon accompanying lithograph "A" by red colour, vide his communication attached and dated the 3rd August, 1910.

Our value for this portion is £4 per acre, but, having regard to the advantages secured in a mutual arrangement being arrived at for a straight-out purchase, we recommend the land be acquired at the price of £4 2s. 6d. per acre as now offered, and which is not above its productive value.

There is a good demand for land in the district in which this property is situated.

The nearest railway station and township is Forbes, distant from about 8 miles to 15 miles.

We report that the value of the land as offered exceeds £10,000, exclusive of improvements.

Practically the whole of the area under consideration is suitable for the growth of wheat, oats, and other cereals, and is capable of producing, under present improved methods of farming, about 12 bushels of wheat per acre per annum.

There is a good demand for land in the district in which this property is situated.

The nearest railway station and township is Forbes, distant from about 8 miles to 15 miles.

We report that the value of the land as offered exceeds £10,000, exclusive of improvements.

1910.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

CLOSER SETTLEMENT.

(PARTICULARS RESPECTING THE PROPOSED RESUMPTION BY THE GOVERNMENT OF PART OF THE WARRAH ESTATE, NEAR QUIRINDI.)

Ordered by the Legislative Assembly to be printed, 15 August, 1910.

On a report by the Advisory Board it was decided to cover, by a proclamation of intended acquisition, an area of 61,000 acres of the Warrah Estate, the property of the Australian Agricultural Company, which is situated on the Northern Railway line between Murrurundi and Quirindi.

The Advisory Board, after detailed inspection of the 61,000 acres, subsequently recommended the resumption of 45,000 acres thereof, situated from 3½ to 19 miles from Ardglen, and from 4½ to 18 miles from Willowtree railway stations, which are 121 and 129 miles from Newcastle (the nearest port), and 226 and 233 miles from Sydney, respectively.

The balance of the 61,000 acres is comprised in two areas, one on the north and the other on the south east of the 45,000 acres recommended to be resumed. The south-eastern area is grazing, mountainous country, while the northern area includes the Stud paddocks, with necessary buildings, and the small paddocks nearest the Warrah homestead.

The area proposed for resumption is suitable for mixed farming. About 22,000 acres of it are cultivable, the balance being good grazing land of volcanic formation. The principal uses to which it can be put are dairying, wheat-growing, fodder crops, stock-raising, fruit-growing, and pig and poultry farming.

Ninety (90) farms can be provided, with an average area of about 500 acres.

The average rainfall is about 30 inches. Water supply is provided in eight (8) creeks, and may be obtained at shallow depths on creek flats. There are good facilities for storage in tanks and dams.

The Advisory Board failed to come to terms with the General Superintendent of the Company as to price. The Board estimates the value of the land comprised in the 45,000 acres at £3 18s. 6d. per acre, and the improvements thereon at 1s. 6d. per acre. Total value, £150,000 (£4 per acre).

An additional sum of £800 is allowed for cost of necessary fencing to divide the resumed area from the residue of the estate.

APPENDIX A:
WARRAH ESTATE, LAND DISTRICT OF MURRIJUNDI, WARRAH SHIRE.

APPENDIX A.

The Honorable the Minister for Lands.

Sir,

Northern Advisory Board, Sydney, 6th August, 1910.

In compliance with your instructions of 25th June, 1910, we have made an inspection of the above estate, and now have the honour to submit the following report, in terms of Section 3 (1) of the Closer Settlement (Amendment) Act, 1907 —

The estate is owned by the Australian Agricultural Company, of which Mr. F. Livingstone Learmonth, of Newcastle, is General Superintendent.

The estate originally consisted of a Crown grant of 549,600 acres, to which has been added about 3,000 acres of adjoining land, acquired by the company, in the parish of Towarri, making a total of about 292,600 acres. Of this total area an area of about 7,700 acres was subdivided and sold by auction in November, 1908, leaving the present area of the estate at about 244,900 acres.

About 61,000 acres at the south-east corner of the estate (shown by red edge on plan marked "A") hereworth has been covered by a notice of intended acquisition, and, at the request of the owners, the Minister, on the advice of the Advisory Board, has consented to the excision of Mountain Paddock and the land in Parish Towarri, comprising about 8,000 acres of grazing, mountainous country, thus reducing the area proposed to be acquired to about 53,000 acres, shown by red tint on plan "A".

On the 3rd August, 1910, we met Mr. Learmonth at his office in Newcastle, and discussed the question of acquiring a part of the Warrah Estate. He objected to any area north of the rabbit-proof fence forming the north boundaries of Borambil, Gresnham and Murray paddocks being taken, but after discussion agreed to a line through Yellow Plain and Windsor paddocks approximately, as shown by broken blue line on plan "A"; also by the excision of the southern half of Warrah Creek paddock, which is a rabbit-proof fence, including Mountain paddock and Towarri land. This reduction leaves the area for acquisition to about 43,000 acres, and Mr. Learmonth informed us the Company's price for the same would be £5 7s. 6d. per acre, but that if the area of 53,000 acres is taken the price would be £5 6s. 6d. per acre.

After consideration we have decided to recommend the excision from the 57,000 acres of the southern half of Warrah Creek paddock; also the excision of the area north of a line shown by broken red line on plan "A"; also by the excision of the southern half of Warrah Creek paddock, which is a rabbit-proof fence, including Mountain paddock and Towarri land.

The 45,000 acres consist of creek flats, rising to undulating and cultivable lands, stony ridges, and hills; also a small portion of open black soil plain.

The 45,000 acres are suitable to be acquired for Closer Settlement. We estimate the area proposed to be acquired will provide farms for about 50 families, in areas ranging from about 600 to 1,200 acres; the average area thereof being about 600 acres.

We estimate the average value of the land on a freehold basis at three pounds, eighteen shillings and sixpence (£3 18s. 6d.) per acre, and the improvements thereon consisting of fencing, wells, tanks, dams and boundary riders' cottages, at one shilling and sixpence (1s. 6d.) per acre, making a total of four pounds (£4) per acre. We recommend regarding fencing, clearing, and their effect, as inseparable from the land, and have including them in our valuation of the land.

It is grazing country connecting their Mountain paddock- and Towarri land. This alteration would reduce the area proposed to about 43,000 acres, shown by red tint on plan "A." We recommend that the acquisition price be four pounds (£4) per acre on a freehold basis. Our valuation is based on the estimated capabilities of the land and on sales of land in the district.

The land which consists of both agricultural and grazing areas can be used for mixed farming; dairying, wheat growing, fodder crops, stock raising, fruit-growing and pig and poultry farming.

The timber consists of box, apple and yellow jacket, with a little cajurajong, and along the banks of the creeks, oak. The area has been ringbarked for grazing purposes. The running timber has no commercial value but is suitable for fencing and rough buildings.

The average annual rainfall is said by the company to be about 20 inches in the locality, and this is probably correct, as the average annual rainfalls at Muruwumbi (about 5 miles east) and at Quindili (about 10 miles north) are 31·71 and 27·41 inches respectively for a period of forty years ending 31 December, 1906, according to the records of the Commonwealth Meteorologist.

The 45,000 acres are watered by Miller's, Big Jack's, Warrah, Borambil, Little Jack's, Dry, Four Miles and Daley Creeks. Well water has been obtained in places, by sinking at shallow depths on the creek flats. Water can be conserved in tanks and dams on farms that would not have creek frontages.

Irrigation is not practicable. The improvements are not of such a nature or value as to be a bar to closer settlement, but will to a large extent be of service to incoming settlers.

There are some limes, and paddymelons are numerous. The country is practically free from rabbits, and also from noxious weeds.

Artiglen, a Government township and railway station, is about 31 miles by road from the nearest port, and about 19 miles from the furthest point of the area proposed to be acquired. The road constituting the former distance (31 miles) will require special grading and forming. This 31-mile road from the nearest point of the 45,000 acres, and about 18 miles from the furthest point thereof. In the event of sub-division all roads will require more or less formation. The railway stations are 121 and 129 miles from Newcastle (the nearest port) and 225 and 233 miles from Sydney, respectively.

Criminell, a Government township and railway station, is about 39 miles by road from the nearest port, and about 25 miles from the furthest point of the area proposed to be acquired. The road constituting the former distance (39 miles) will require special grading and forming. This road from the nearest point of the 45,000 acres, and about 25 miles from the furthest point thereof. In the event of sub-division all roads will require more or less formation. The railway stations are 121 and 129 miles from Newcastle (the nearest port) and 225 and 233 miles from Sydney, respectively.

We have, etc.,

FRED. POATE, Deputy Chairman.

W. NEVILLE SENDALL, WILL. J. CLONAN, Members.

The Honorable the Minister for Lands.

[Sydney,] 292

APPENDIX A. Government Printer.—1910.
1910.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

---

PARLIAMENTARY ELECTORATES AND ELECTIONS ACT, 1902,
AND PARLIAMENTARY ELECTIONS ACT, 1906.
(REGULATIONS UNDER.)

Presented to Parliament pursuant to the provisions of Act No. 33, 1902, Section 137 (1).

Printed under No. 1 Report from Printing Committee, 30 June, 1910.

Chief Secretary’s Office,
Sydney, 17th June, 1910.

His Excellency the Governor, with the advice of the Executive Council, has been pleased to make the subjoined Regulations, in accordance with the provisions of the “Parliamentary Electorates and Elections Act, 1902,” and the “Parliamentary Elections Act, 1906.”

W. H. WOOD.

1. All previous Regulations under the “Parliamentary Electorates and Elections Act, 1902,” and the “Parliamentary Elections Act, 1906,” are hereby repealed.

Act 1906, s. 8.

2. All appointments made in pursuance of section 8 of the “Parliamentary Elections Act, 1906,” may be notified in the Government Gazette.

Act 1906, s. 9 (1).

3. Electoral lists may be in the following form, and shall contain the particulars indicated therein:

<table>
<thead>
<tr>
<th>Form A.</th>
<th>19..</th>
</tr>
</thead>
<tbody>
<tr>
<td>District of [here insert name of electoral district].</td>
<td></td>
</tr>
<tr>
<td>Name of each Elector who vote at [here insert name of polling-place]. polling-place.</td>
<td></td>
</tr>
</tbody>
</table>

The sex may be indicated by letters, namely, “M” for male and “F” for female.

Act 1906, s. 9 (1).

4. The declaration to be made in pursuance of section 9 (1) of the “Parliamentary Elections Act, 1906,” shall be in the following terms:

J., do solemnly and sincerely declare that I will to the best of my knowledge and ability, and in accordance with the provisions of the “Parliamentary Electorates and Elections Act, 1906,” the “Women’s Franchise Act, 1902,” and the “Parliamentary Elections Act, 1906,” collect the list for the electoral district of [here insert name of electoral district], and that I will not omit from such list the name of any person resident within such district whom I know or believe to be qualified and entitled to vote under the said Acts; nor will I insert in such list the name of any person whom I know or believe to be disqualified to vote by the said Acts.

Signed and declared before me, this [day of month, year].

[Signed] Collector.

Act 1906, s. 10.

5. The particulars to be given under section 10 of the “Parliamentary Elections Act, 1906,” by the person in charge or appearing to be in charge of any dwelling-house, shall be the surname, Christian name at full length, sex, occupation, and period of continuous residence (immediately prior to the date on which the said particulars are set out on the form supplied) in the State and in the electoral district, of each person of or above the age of twenty-one years living in such dwelling-house, whether each such person is a natural-born or naturalised subject of the King (if the latter, the date of naturalisation), and the name of the polling-place at which such person, respectively,
respectively, desires to vote. The form to be supplied for the abovementioned purpose shall be as follows:

FORM A.

STATE ELECTORAL DISTRICT OF [here insert name of electoral district].

List of persons of or above the age of twenty-one years residing at [here insert street and number or name of polling-house].

<table>
<thead>
<tr>
<th>Christian Name</th>
<th>Surname</th>
<th>Sex</th>
<th>Residence</th>
<th>Occupation</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Dated this [Signature] day of [Date].

Act 1906, s. 29 (1).

9. An application by an elector to change his polling-place to another within the same electoral district may be in the following form:

FORM E.

STATE ELECTORAL DISTRICT OF [here insert name of electoral district].

Application to change from one polling-place to another within the same Electoral District.

Surname [Signature] Christian name at full length.

Sex Present place of residence Occupation.

The sex may be indicated by letters, namely, "M" for male and "F" for female.

The prices of electoral lists and rolls shall be as follow:

List or roll for any one polling-place:

(a) Containing one to four pages... [Signed]
(b) Containing five to eight pages... [Signed]
(c) Containing nine to twelve pages... [Signed]
(d) Containing thirteen to sixteen pages... [Signed]
(e) Containing more than sixteen pages, for every additional twelve pages or less... [Signed]

Complete list or roll for a district... [Signed]

Complete supplemental roll for a district... [Signed]

Act 1906, s. 1. (2).

6. The roll may be in the following form, and shall contain the particulars indicated therein. Such form is in substitution for Schedule 4 to the Act of 1906.

FORM C.

STATE ELECTORAL ROLL. For the Electoral District of [here insert name of electoral district].

Roll of electors who vote at [here insert name of polling-place].

For Male

For Female

Act 1906, s. 33.
Act 1906, s. 28 and 35.

12. The preparation of lists of names and the scrutiny of the rolls, by direction of the Inspector-General of Police, may be done concurrently.

Act 1906, s. 35.

13. Such members of the police force as are directed by the Inspector-General to make the scrutiny of the rolls, under section 35 of the "Parliamentary Elections Act, 1906," shall in each case ascertain the address, if possible, of the persons who are absent from their places of living as stated on the rolls, and whether such absence is of a temporary or permanent nature. In cases where such information cannot be reliably or definitely obtained, the names of the electors shall be submitted to the officer in charge of police within the district, who shall ascertain whether the said names have been collected for enrolment for another portion of the same electoral district. In no such case may the enrolment of any elector be objected to under section 35 until it has been decided by each inquiry that he has ceased to reside in the district for which he is enrolled.

Act 1906, s. 39.

14. The notice to be forwarded by the Registrar to a person whose name has been objected to may be in the following form:

Form I.

NOTICE OF OBJECTION TO PERSON OBJECTED TO.

Notice is hereby given that an objection has been lodged by [insert name and description of objector], objecting to your name being retained on the roll for the electoral district of [here insert name of electoral district], on the ground that [here insert grounds of objection]. You are entitled at any time within twenty days from the date hereof to answer the objection either orally or in writing.

If you intend to answer the objection orally, you should attend at my office the following day to answer the objection.

If you intend to answer the objection in writing, you should, before the expiration of twenty days from the date hereof, send to me by post, or deliver at my office, a statement in writing to show that the objection is not good. Notice of the decision on the objection will be sent to you.

Dated at .................................................. this ........................................ day of .................................................. 19........................................

[Signed ............................................................]

Registrar for the Electoral District of ..................................................
20. The Returning Officer for any electoral district, after the day of polling at any election where a poll has been taken, and before finally sealing up the certified copies of rolls received from the various Deputy Returning Officers, shall transfer from the said rolls on to a fair copy of the electoral roll of the district, the distinguishing mark to indicate every voter who has voted at such poll, and forward such roll and his report on the result of such scrutiny to the Chief Electoral Officer.

Act 1906, s. 7.

21. (1) When any directions are issued by the Minister, in accordance with section 7 of the “Parliamentary Elections Act, 1902,” for the change of electors from one roll to another, effect shall be given to those directions by removing the names of the electors from the roll from which they are changed, and by inserting the names so removed on the roll to which they are changed.

(2) Where—

(a) A polling-place is abolished, and the Minister directs that all electors whose names were on the roll for that polling-place shall be changed to one other polling-place roll;

(b) the boundaries of an electoral district are altered, and any polling-place becomes changed from a polling-place for one electoral district to another electoral district, and all electors whose names are on the roll for the polling-place become changed from the roll for one electoral district to one polling-place roll for the other electoral district;

public notice of the change may be given in the Gazette, copies of which shall be exhibited at every post office, police station, and Court-house in the locality affected.

Act 1906, s. 50.

22. Immediately upon delivering a ballot-paper to a voter, the Returning Officer shall draw a horizontal line against the voter’s name upon the certified copy of the roll.

Act 1902, s. 102 (3).

23. When the poll at any polling-place is adjourned under section 102 (3) of the “Parliamentary Elections and Elections Act, 1892,” notice thereof shall be affixed in a conspicuous position at the post office nearest to such polling-place.

Act 1902, s. 87; Act 1906, s. 3 (2).

24. The declaration under section 87 of the “Parliamentary Elections and Elections Act, 1892,” as amended by the “Parliamentary Elections Act, 1906,” may be made orally or in writing to the Returning Officer immediately after the delivery of the ballot or voting paper, and shall be in the following form:

FORM N.

DECLARATION.

Declaration of persons of the Jewish Persuasion claiming to vote on a Saturday or Day of Jewish Fast or Festival.

I, the undersigned, am of the Jewish persuasion, and have not professed any other religious tenets and the manner prescribed by the “Parliamentary Elections and Elections Act, 1892,” as amended by the “Parliamentary Elections Act, 1906.”

Note.—This declaration may be made orally or in writing to the Returning Officer.

25. The forms of Schedules Five and Six to the “Parliamentary Elections Act, 1906,” are altered to the following:

SCHEDULE FIVE.

Electoral Claim.

District [here insert name of electoral district].

Surname

Christian names at full length

Sex

Place of residence

Occupation

I certify that I have my name placed on the electoral roll for the above district to vote at [here insert name of polling place].

1. I am [here insert "natural-born" or "naturalised", as the case may be] subject of the King.

2. I am under the age of twenty-one years.

3. I am an inhabitant of New South Wales, and have resided [or "had my principal place of abode"] therein for a continuous period of one year, and [or "had my principal place of abode"] in the above district for a continuous period of three months immediately prior to the date of this claim.

4. My name is not, to the best of my knowledge, on the electoral roll for any district.

Dated the …………… day of ………., 19…….

[Usual signature] ……….

Registrar (or Deputy Registrar).

SCHEDULE SIX.

Application to Transfer.

Surname

Christian names at full length

Sex

Present place of residence

Occupation

Note.—Any person who witnesses the signature of the applicant, without satisfying himself by inquiry from the claimant that the statements contained in the claim are true, is liable to a penalty not exceeding five pounds.

Received the ……… day of ………., 19…….

[Usual Signature] ……….

Registrar (or Deputy Registrar).

26. The officer presiding at each polling-place shall, as each ballot-paper is issued, indicate the sex of the elector, and record the number of votes polled, by striking out the corresponding number on the tally sheet. Such sheet shall be transmitted, with his account of ballot-papers and list of votes, to the Returning Officer.

FORM I.

SEX TALLY SHEET.

Electoral district of ……….

POLLING PLACE ……….

[To be used at every polling-place and transmitted after close of poll to the Returning Officer.]

Males.

Females.

Preceding Officer.
27. The declaration to be made by the Registrar or Deputy Registrar at any polling-place designated by the Returning Officer or Deputy, before entering the polling-room, shall be in the following form:

DECLARATION.

By Registrar, Deputy Registrar, or Member of Police Force.

I, do solemnly promise and declare that I will not attempt to assist in, or in any way encourage, or aid or assist in, or in any way direct or induce, any person to vote or have voted at such election, and that I have not voted, nor shall I vote at such election.

And every such declaration shall be transmitted to the Colonial Secretary by the Returning Officer or his substitute.

28. If any Registrar, Deputy Registrar, or member of the Police Force, allowed to enter a polling-booth under section 3 of the Act, 1906, in the discharge of his duties as such elector is duly enrolled on such Roll.

The inquiry, and the reply thereto, shall be in the following form:

FORM N.

Inquiry to be made before registering transfer, and reply thereto.

The Registrar, Deputy Electoral Registrar, or member of the Police Force, who wilfully makes or divulges or discloses the same, or aids in divulging or disclosing the same, or aids in divulging or disclosing the same, save in answer to some question which I am legally bound to answer.

29. Every Deputy Registrar shall, in the months of January, April, July, and October, in each year, prepare and forward to the Registrar for the district a return of all names added to and removed from the polling-place roll, with the maintenance of which he is charged, during the preceding quarter of the year; and such Registrar shall transmit such lists, together with others prepared by him for the polling-place or polling-places for which he acts, to the Chief Electoral Officer. Such return may be in the following form:

31.
RETURNING OFFICERS.

24. To provide for advances to Returning Officers in the conduct of elections, to regulate expenditure, payment of accounts for services rendered in connection therewith, and for the adjustment of advances made.

1. Every Returning Officer appointed pursuant to the provisions of section 58, of Act, 1902, shall conform to the following:

2. The Returning Officer for an electorate in which an election is about to be held shall make application to the Minister as soon as possible for an advance for the purpose of defraying the expenses to be incurred in connection with such election.

3. Every Returning Officer making application for an advance under the next preceding regulation shall furnish therewith in detail an estimate of the probable cost of the election. Such estimate shall contain the particulars in Form P hereto, and such other information as the Minister may desire.

4. The electorates of the State shall, for the purpose of determining the amount of the honorarium to be paid to Returning Officers, be divided into Classes ONE and TWO, as set forth in the Schedule hereto, and the Minister may, from time to time, alter such classification.

5. The Returning Officer for each district shall be paid the honorarium herein prescribed for elections for the purpose of determining the number of booths (as the convenient conduct of any election may require) on a basis of 720 electors per booth, according to the names on the printed roll and supplemental roll to the date of the issue of the writ of election, viz.:

| Class ONE | £12 |
| Class TWO | £22 |

6. For the purpose of these regulations, the carrying out of elections shall include the taking of the Local Option vote under the "Liquor (Amendment) Act, 1905," whenever required by law.

7. The returning Officer shall, as nearly as practicable, and when not inconsistent with the provisions of the Act of 1902, determine the number of booths (as the convenient conduct of any election may require) on a basis of 720 electors per booth, according to the names on the printed roll and supplemental roll to the date of the issue of the writ of election, viz.:

- From 1 to 750: £10
- From 751 to 1,500: £11
- From 1,501 to 2,250: £12
- From 2,251 to 3,000: £13

8. The Returning Officer, before causing booths to be erected or halls or rooms to be subdivided into separate polling-rooms pursuant to section 67 (1) of Act of 1902, shall, if the cost will exceed the sum of £10, invite tenders, by advertisement in one or more newspapers circulating in the district for such erection or subdivision, and all tenders received shall be, before any contract is entered into, submitted, with a recommendation by the Returning Officer, to the Minister, or to some person appointed by him in that behalf, for approval.

9. For the purpose of Adjustment of Advances a receipt on the official receipt form shall be obtained for every amount paid, and full details of expenditure must be furnished as soon as possible for an advance for the purpose of elections for the purpose of determining the number of booths (as the convenient conduct of any election may require) on a basis of 720 electors per booth, according to the names on the printed roll and supplemental roll to the date of the issue of the writ of election, viz.:

- From 1 to 750: £10
- From 751 to 1,500: £11
- From 1,501 to 2,250: £12
- From 2,251 to 3,000: £13

10. Every Returning Officer shall adjust his advance and forward to the Minister, within thirty days for Elections for Electorates of Class ONE, and sixty days for Electorates of Class TWO, all paid vouchers and a summary of the cost of the election, together with a cheque for the unexpended balance of the advance. Such summary shall contain the particulars in Form Q hereto.

Returning Officer.

THE
INSTRUCTIONS TO RETURNING OFFICERS RELATIVE TO FURNISHING AND PAYMENT OF ACCOUNTS

1. Local Residents should be employed wherever possible.

2. Government Officials are not to be employed unless specially authorised.

3. Only adult males are eligible for employment as Substitute Returning Officers, Deputy Returning Officers, or Poll Clerks, and the employment of women is prohibited.

4. Fees Payable—
   - Returning Officer (See Regulations).
   - Substitute Returning Officer—£ s. d.
     - For every day employed from the date of receipt of writ to the day of nomination, both days inclusive...per day...0 12 6
     - For every day employed after day of nomination...per day...0 10 0
   - Deputy Returning Officers—£ 2 0
   - Poll Clerk, Grade A.—Employed on Polling Day only...per day...0 15 0
   - Grade B.—
   - Clinical Assistance—
     - Class One Electorates—Not to exceed seven days...per day...0 10 0
     - Class Two Electorates—Not to exceed fourteen days...per day...0 10 0

5. Travelling Expenses—
   - In all cases, date of employment, place travelled to, and distances travelled, must be given on voucher.
   - Government officials should travel together, whenever possible, to avoid unnecessary expense.

6. Refreshments—
   - An allowance of 2s. 6d. may be drawn by Returning Officers, Deputy Returning Officers, Poll Clerks, and Police for Polling Day only.
   - The Returning Officer has discretionary power to provide refreshment at a rate not exceeding 2s. 6d. per head, in lieu of paying the allowance aforementioned.

7. Advertising—
   - These accounts are not to be paid until the Government Printer has certified that they are correct, when he will return them to the Returning Officer for payment.

8. Stationery—
   - The Chief Electoral Officer will supply separate parcels, containing the necessary stationery for each booth, for distribution by the Returning Officer.
   - The Returning Officer will purchase stationery for his own use.

9. Erection of Polling-places—
   - Where polling-places, booths, or partitions must be erected, the Returning Officer must call for tenders by advertisement in the local newspapers.
   - All tenders shall be submitted, together with the Returning Officer’s recommendations, to the Chief Secretary, whose approval to the expenditure must be obtained.

10. Renting Premises—
    - The Returning officer must make definite arrangements as to rent before hiring halls, rooms, offices, &c., and he is expected to pay only the usual current rate prevailing in the district.

11. General—
    - (a) Dates should be filled in on all vouchers and receipts.
    - (b) For every payment made, no matter how trifling, a receipt must be furnished by the person who actually performed the service for which payment is made.
    - (c) The Returning Officer must retain full accounts, duly receipted, for all payments made by him.
    - (d) Adjustment of the advance made to Returning Officer must be made within thirty days of the election for Class One Electorates, and sixty days for Class Two Electorates.
    - (e) No claims are to be paid until after Polling Day.

FORESTRY ACT, 1909.

(REGULATIONS UNDER.)

Printed under No. 1 Report from Printing Committee, 30 June, 1910.

[4182]

Department of Forestry,
Sydney, 5th January, 1910.

REGULATIONS, FORESTRY ACT, 1909.

The following Regulations, approved by the Governor in Council, shall take effect under the Forestry Act, 1909, from the 1st day of January, 1910, and are in lieu of the previously existing Timber and Quarry Regulations under the Crown Lands Acts, which in so far as they relate to Timber shall be, and are hereby repealed from that date, but without prejudice to any existing licences.

JOHN PERRY,
Minister for Agriculture.

Licensing of Sawmills.

1. Every application for a sawmill licence shall contain the particulars set forth in the following form, viz.—

- Name of applicant.
- Address.
- Description of mill to be erected.
- Principal market for the timber when sawn.
- Kind and quantity of timber principally obtained from.
- Area or site of mill (if on private property).
- Horse-power of plant.
- Other information as required.

2. The books to be kept by every person conducting a sawmill shall contain the particulars specified hereunder, and be in the following form, viz.:

<table>
<thead>
<tr>
<th>Sawmill in operation</th>
<th>Return for month of</th>
</tr>
</thead>
<tbody>
<tr>
<td>No. of log timber treated</td>
<td>Gross input of log timber treated</td>
</tr>
<tr>
<td>Gross input of log timber treated</td>
<td>Quantity in sup. ft.</td>
</tr>
<tr>
<td>Quantity in sup. ft.</td>
<td>Gross output of sawn timber</td>
</tr>
<tr>
<td>Gross output of sawn timber</td>
<td>Total sup. ft.</td>
</tr>
</tbody>
</table>

3. The returns to be made by every person conducting a sawmill under licence shall contain the particulars specified hereunder, and be in the following form, viz.:

<table>
<thead>
<tr>
<th>Sawmill in operation</th>
<th>Return for month of</th>
</tr>
</thead>
<tbody>
<tr>
<td>No. of sawmill licences</td>
<td>Gross input of log timber treated</td>
</tr>
<tr>
<td>Gross input of log timber treated</td>
<td>Quantity in sup. ft.</td>
</tr>
<tr>
<td>Quantity in sup. ft.</td>
<td>Gross output of sawn timber</td>
</tr>
<tr>
<td>Gross output of sawn timber</td>
<td>Total sup. ft.</td>
</tr>
</tbody>
</table>

4. The license held by any person getting, felling, cutting, or removing timber, or obtaining products, on or from Crown lands, shall be produced upon the demand of any Forest Officer, Crown Lands Bailiff, Police Officer, or other authorized person.

Lands exempted from Licence.

5. A license to cut or remove timber or to obtain products shall not apply to any of the following Crown Lands, unless specially authorised, viz.:

- Land within half a mile of a head station or homestead.
- Land within 14 chain of any navigable river, lake, or watercourse, or within the basins of any lake.
- Land within 1 mile of any navigable river, lake, or watercourse, or within the basins of any lake.
- Land within a half of a mile of a head station or homestead in the Western Division of the State.

6. The returns to be made by every person conducting a sawmill under licence shall contain the particulars specified hereunder, and be in the following form, viz.:

<table>
<thead>
<tr>

Lands over which special licenses or occupation permits have been issued are regulated in terms of the Forestry Act and Regulations. Land measured for sale or settlement purposes. Land measured under regulations for the purchase lease, or special, or settlement, or residential, or improvement, or scrub, or 5th section leases under the Crown Lands Acts. Church and school lands under lease. Lands not inalienable or subdivided roads or roads under control of a Shire or Municipal Council. Lands within 10 chains of any bank, dam, or excavation of water. Lands reserved or set apart for agricultural stations, rifle ranges, or cemeteries, or as sites for Public Schools. Lands held under brickmaking or quarrying permits. Islands on any rivers or lakes of the eastern watershed of the State.

Timber exempt from License.

6. The following trees or species of trees shall be excepted from the operation of licenses, and the cutting them down or interference with them, or the defacement, or destruction of any prescribed brands placed thereon, without the special permission of the Minister, is prohibited, viz.—

Reserved trees in any State forest marked with a double saw and branded trees:

The red cedar, the kauri, the quandong, all species of mangrove, the bangalow palm, the cabbage palm, the cabbage gum, the Casuarina. The myall, the wilga, the gum or snail apple, the applejack, the whitebutt, the eucalyptus, the blackbutt, the box, and the oak and oaks of the Central and Western district of the State.

All timber and scrub preserved by direction of the Minister, or in any license for firebreaks, or whale or other purposes.

Provided that in time of drought the Forest Officer may grant permission to dig or stop the lighter branches under 4 inches in diameter of any exempted edible trees if the leaves are required as feed for stock.

Kinds of Licenses, Fees, Periods, &c.

7. Fuel License.—A fuel license, which shall authorise the holder without payment of royalty to cut and remove for fuel only unalienated Crown Lands specified in the license by parish, county, and description, any kind of dead timber except cork or beech, or felled timber worked to marketable shape or size, may be obtained by application to a Forest Officer or an authorized issuer of licenses. The fee for such license shall be 5s. per month, 10s. per quarter, or 40s. per annum, payable in advance.

8. Timber Licenses.—A timber license, which shall authorise the holder subject to payment of prescribed royalty to cut and remove from unexempted Crown Lands specified in the license by parish, county, and description, any kind of dead timber except cork or beech, or felled timber worked to marketable shape or size, may be obtained by application to a Forest Officer or an authorized issuer of licenses. Such license shall be renewed for periods of not less than three or more than five years.

9. Products License.—A products license, which shall authorise the holder, subject to payment of royalty as may be prescribed, to cut and remove such products as may be specified in the license, and to sell the same, may be obtained by application to a Forest Officer or an authorized issuer of such license, the Department of Forestry of the State, or the Minister of Forestry.

10. Special License.—On approval of the Minister special licenses may be granted, and any thereof, on application, be renewed for periods of not less than three or more than twenty years. Without which shall authorise any person employed by him under license, to cut, remove, and sell the products of State forests or other Crown Lands specifically described in the license, such timber or products as may be named in the license, on payment of prescribed royalty. Application for a special license may be lodged with a Forest Officer, and shall be accompanied by a fee at the rate of 7s. 6d. per quarter, and a plan of the portion of the area for which the license is sought.

11. The holder of a special license shall be responsible for the protection of the woodland or the area respecting which the license applies, and shall, immediately on issue of same, cause the boundaries of the forest contained therein to be sufficiently marked or the location of such marks to be sufficiently marked or distinguished by blazes or otherwise, as may be directed by the Forest Officer, and he shall affix wherever a road or track is obstructed by trees where otherwise the forest may be obstructed by trees, or other route by the holder of such special license, to mark the forest by the direction of the Forest Officer.

12. The holder of a special license or an exclusive right may obtain on application to a Forest Officer, licenses for employment, which shall authorise the holder of such special license to cut and remove for such license such timber or products as may be specified in the said special license or exclusive right, on the land and during the period to which the special license or such exclusive right applies. An employe or such license may be issued for one or more months, and the fee for same shall be at the rate of 2s. 6d. per month, payable in advance.

Provisions relating to Licenses.

13. Licenses under these Regulations shall be issued in the prescribed form, and shall take effect from the dates specified therein, and shall be subject to the provisions and conditions contained in the license and the Regulations which apply to same.

14. No tree shall under license be felled so as to obstruct any road, track, or stream; and, if any tree be felled in a manner contrary to this Regulation, the Forest Officer may cause the obstruction to be removed at the cost of the license, and the holder of such license shall perform the work within such time after being so directed.

15. The holder of a license shall not sell or destroy spellings, spellings, or trees or cause such to be done for the purpose of making or clearing timber roads or tracks, without the consent of the Forest Officer.

16. Any person felling timber under a license shall mark, with the brand described on the license, so that it may be readily recognised, the stump of each tree immediately it is cut, and all logs cut from the tree, and shall mark by conspicuous numbers, to the satisfaction of the Forest Officer, the whole quantity of wood cut during the currency of his license or any renewal of same.

17. The letters PP, used in the license timber from private property, may be adapted as the brand under any license, and any person who under cover of a license applies or causes such letters to be applied to timber obtained from Crown Lands, shall be liable to a penalty not exceeding 25s, for contravening the provisions of this Regulation.

18. The holder of a license (not being a products license), which authorises the stripping of bark shall not by virtue thereof strip the bark from any standing tree, nor fell any tree for the sole purpose of obtaining its bark, nor shall the holder of a license fell any trees and utilize only portion thereof, without being liable for the payment of prescribed royalty on all marketable timber contained in the tree.

19. All timber felled or products obtained under the authority of a license shall be removed from Crown Lands during the period to which the license or, during any subsequent license, if such subsequent license takes effect immediately after the date of expiration of the preceding license, shall be removed. Any timber or products more than three months without special permission obtained by the license, the holder of which has been cut or obtained may have a longer currency than three months.

Any person desiring an extended term for remuneration may apply for a special license to the Forest Officer of the district, or, in the case of there being no Forest Officer, to the nearest Crown Lands Board, or in the case of梆 any particular forest, to any particular of the license, and shall be subject to the provisions and conditions contained in the license.

20. No person shall hold more than 20,000 superficial feet of timber, or 20 cords of 125 cubic feet each of fuel, on any Crown Lands held under the license or for the period to which the license or any subsequent license, if such subsequent license takes effect immediately after the date of expiration of the preceding license, shall be held. Any timber or products obtained by the license, the holder of which has been cut or obtained may have a longer currency than three months.

Any person desiring such an extended term for remuneration may apply for a special license to the Forest Officer of the district, or, in the case of there being no Forest Officer, to the nearest Crown Lands Board, or in the case of any particular forest, to any particular of the license, and shall be subject to the provisions and conditions contained in the license.

21. The holder of a special license or an exclusive right to hold such license may, on the land to which such license applies, and shall,
Minister or of some person authorised by him in that behalf, and, except in the case of a special license, it shall not confer any privileges of exclusive possession, save as to the timber, and, except in the case of a special license, it shall not confer any of them may be attached to licenses or exclusive rights.

(c) No tree shall be felled unless first marked for felling by a Forest Officer.

(d) Where so directed by an authorised officer, the holder of a license or an exclusive right shall ringbark, in the interests of reafforestation, any trees marked for that purpose within the area to which the license or right applies.

(c) Holes of trees shall be properly staked as soon as felled in next woods, not exceeding dimensions of 30 feet in length by 30 feet in breadth and 8 feet high, all limbs being chopped off and turned back on to the trunk of the tree.

Minimum Girth of Trees.

28. No tree of less girth than that prescribed hereunder shall be felled on any Crown Lands available for timber leases, and no such tree may be felled after felling shall be removed therefrom, unless permitted by special conditions of the license, or by written authority of an authorised Forest Officer.

Green Timber for Fuel Purposes.

 Inferior green timber may be obtained for fuel purposes
under the provisions of the Act, for use on Crown lands
obtainable from an authorised Forest Officer, such
licences shall apply only to timber and areas specified in
the license, or to areas notified in the Gazette as applicable
for that purpose.

Timbers below the prescribed minimum girth.

For the purpose of piles and girders, poles, &c., an
authorised Forest Officer may permit the holder of a timber
license to fell and obtain, east of the Great Dividing Range,
ironbark timber at the minimum girth of 3 feet, and other
hardwoods at 4 feet 6 inches, measured in each case at 5
feet from the ground, or may issue a license for that purpose.

Rounded timber for mining purposes may be obtained
under timber licences, which may be issued by authorised
Forest Officers only. Such licences shall apply only to
timber and areas specified in the license, or to areas notified
in the Gazette as available for that purpose. Notwithstanding
anything in the previous Regulation, such timber may be cut
down to the minimum girth specified in the license or in the
Gazette notice, on payment of royalty at the rate per 100
linear feet set forth therein. Provided that all timber cut or
obtained on such areas shall be felled at ground level, or
within 4 inches from same.

Green Timber for Fuel Purposes.

For the purpose of piles and girders, poles, &c., an
authorised Forest Officer may permit the holder of a timber
license to fell and obtain, east of the Great Dividing Range,
ironbark timber at the minimum girth of 3 feet, and other
hardwoods at 4 feet 6 inches, measured in each case at 5
feet from the ground, or may issue a license for that purpose.

Gazette notice, on payment of royalty at the rate per 100
linear feet set forth therein. Provided that all timber cut or
obtained on such areas shall be felled at ground level, or
within 4 inches from same.

Green Timber for Fuel Purposes.

For the purpose of piles and girders, poles, &c., an
authorised Forest Officer may permit the holder of a timber
license to fell and obtain, east of the Great Dividing Range,
ironbark timber at the minimum girth of 3 feet, and other
hardwoods at 4 feet 6 inches, measured in each case at 5
feet from the ground, or may issue a license for that purpose.

Timbers below the prescribed minimum girth.

For the purpose of piles and girders, poles, &c., an
authorised Forest Officer may permit the holder of a timber
license to fell and obtain, east of the Great Dividing Range,
ironbark timber at the minimum girth of 3 feet, and other
hardwoods at 4 feet 6 inches, measured in each case at 5
feet from the ground, or may issue a license for that purpose.

Rounded timber for mining purposes may be obtained
under timber licences, which may be issued by authorised
Forest Officers only. Such licences shall apply only to
timber and areas specified in the license, or to areas notified
in the Gazette as available for that purpose. Notwithstanding
anything in the previous Regulation, such timber may be cut
down to the minimum girth specified in the license or in the
Gazette notice, on payment of royalty at the rate per 100
linear feet set forth therein. Provided that all timber cut or
obtained on such areas shall be felled at ground level, or
within 4 inches from same.
Royalty on Timber.

34. Except in cases where a license is issued with an exemption from payment of royalty, the rates of royalty for timber shall be the following, viz.:—

*Minimum rate.*

35. Returns of royalty due shall be presented by the Forest Officer, and all issuers of licenses shall furnish to the Forest Officer, the amount, due within four days after the expiration of each month, and in addition a return of all outstanding accounts shall be furnished within seven days from the close of each quarterly.

Payment of Royalty.

36. Upon approval of the Forest Officer, the person responsible for payment of royalty, and the Forest Officer, shall pay the same, as nearly as practicable, after the expiration of each month, and the license, or responsible person, shall pay to the Forest Officer the amount due within five days after the date of the return, or within such extended time as may be allowed, and no alliged inaccuracy shall be held an excuse for delaying such payment beyond the prescribed period. Timber shall not be removed from where it is felled without the consent of the Forest Officer, and no person shall be allowed to remove it from such depot, unless it be removed to a depot approved by the Forest Officer, or to a sawmill licensed to pay royalty on the gross output, and any timber not liable to payment of royalty, unless it be removed, or to detain it, should have reason to suspect that there is danger of the spread of which causes injury to or destruction of seedlings, saplings, trees, timber, or products, shall be liable to a penalty for contravening the provisions of this Regulation.

Storage of Timber.

37. No person shall store or depose in any depot approved and gazetted under the Forest Act, 1909, or these Regulations, any timber not liable to payment of royalty, unless with the consent and subject to the direction of an authorised Forest Officer.

Returns or Statements.

38. The holder of an exclusive right or license under the Forest Act, 1909, or these Regulations, and every unlicensed contractor or person taking delivery of timber, shall so demand by an authorised officer, furnish a return or statement showing the quantity and description of timber or products taken delivery of, or obtained, removed, given away, or otherwise treated, or transported or consigned by road, rail, or water during any stated period, and disclosing the particular land, Crown or private, from which such timber or products were or have been obtained, and shall, if so required, support such statement or return by a statutory declaration as to its correctness, and any person who fails to so comply with the demand of an authorised officer within seven days, or who makes a return, declaration, or statement which is incorrect, shall be deemed guilty of an offence against these Regulations.

Returns of Fees and Revenue.

39. All fees for licences or permits and rents for exclusive rights, and all royalties or proceeds of sale of any timber or other products which may be sold and sold, are to be paid over and accounted for by the officers receiving the same in the same manner as other public moneys passing through their hands, and a return of all fees and revenue received by such officers shall be made to the Forest Department, Sydney, on the forms provided, within seven days from the close of each calendar month, and in addition a return of all outstanding accounts shall be furnished within seven days from the close of each quarter.

Returns and Statements.

40. (a) Issuers of licences, forest officers, of timber, fuel, and products licenses shall, on the day of issue of any such license, send the duplicate of the license to the local Forest Officer, and all licensees of licenses shall furnish to the Forest Department, Sydney, within three days from the end of each quarter, a return on the form provided of all licenses issued during the quarter.

41. Licences shall not be ante-dated without special authority of the Minister and issued to persons who are not timber or fire officers, and all licenses of licenses shall be furnished to the Forest Officer, Sydney, within three days from the end of each quarter, a return on the form provided of all licenses issued during the quarter.

Regulations for Evidence of License Issued.

42. (a) Issuers, other than Forest Officers, of timber, fuel, and products licenses shall, on the day of issue of any such license, send the duplicate of the license to the local Forest Officer, and all licensees of licenses shall furnish to the Forest Department, Sydney, within three days from the end of each quarter, a return on the form provided of all licenses issued during the quarter.

43. The forms to be used for the issue of licenses and permits under these Regulations shall be those specified in these Regulations and in the Schedule hereto.

Authorised Officers.

44. In addition to any other officers of the Forest Department who may be specially authorised by the Minister, the Director of Forests, and officers holding grants as Inspectors or District Forest Officers shall be authorised officers for the purpose of these Regulations.

REGULATIONS
REGULATIONS GOVERNING INSPECTION OF TIMBER.

45. The inspection and classification of timber shall be subject to these Regulations.

46. Applications for such inspection shall be made in the following form:—

To the Director of Forests, Sydney.

Sir, [You may address him as "SIR"]

[Apply for the inspection of, and the issue of Government certificates for, the undermentioned quantities of timber, which is to be branded with the cutter's brand.]

When it is required to inspect the timber for the purpose of identifying the owner or the person being the owner or agent for timber who fails to comply with any such demand or direction by an Inspecting Officer, such demand or direction shall be in writing.

47. The applicant shall, from time to time inform the Director of Forests in what districts the timber specified in the application for inspection is being obtained, and the names of the local agents or sub-contractors obtaining it.

48. As far as possible inspections shall be made at the usual times of timber and shipping depots, and the officer inspecting the timber shall issue a provisional certificate on completion of any inspection, which certificate shall be countersigned by the local agent or sub-contractor. When it is desired to inspect the timber for the purpose of identifying the owner or the person being the owner or agent for timber who fails to comply with any such demand or direction by an Inspecting Officer, such demand or direction shall be in writing.

49. Inspection fees will be charged on all timber inspected and passed, notwithstanding that the quantity of timber pissed exceeds that stated in the application for inspection.

50. No timber, except sawn timber, will be inspected at any public wharf, road, place, or depot, and to define the space which shall be maintained for ways of access, and to direct the separation of timber which may be liable to royalty, and the removal of rejected or condemned timber from the place of inspection.

51. Unless the specification agreed upon between the owner or agent for timber and the officer inspecting the timber will issue a provisional certificate on completion of any inspection.

52. Subject to reinspection before shipment and the right to reject any timber not then found to conform to the requirements of the specification, the following forms of Government brands, which shall be used in all cases, and impressed by duly authorised Inspector only on one end or side of passed timber, is as under:—

54. The charges that shall be made for inspection, and for which accounts will be rendered monthly are:

(e) Pole cross-arms, or timber of sectional dimensions, including and below 12 square inches, 6d. per 100 superficial feet.

(f) All other timber, 3d. per 100 superficial feet.

55. The inspecting officer shall have full power to direct the manner and places for storing and stacking timber which is subjected to inspection, on any public wharf, road, place, or depot, and to define the space which shall be maintained for ways of access, and to direct the separation of timber which may be liable to royalty, and the removal of rejected or condemned timber from the place of inspection.

56. Should any fraud or attempted fraud be committed in connection with a certificate issued, or timber inspected, either by alteration of the forms, tampering with brands, subdivision of timber, furnishing incorrect statements, or otherwise, the person so offending shall be guilty of a contravention of this Regulation.

57. The following form of Provisional Certificate shall be issued to the applicant or his agent by the Inspecting Officer on completing an inspection:

Provisional Certificate of Timber Inspection.

This is to certify that the timber described below, having been passed and branded by me as [Name of Inspector], has been found on inspection to meet the requirements of the specification, and has been passed and branded by me as [Name of Inspector].

59. Pole cross-arms shall be cut and stacked for air seasoning at least 3 months before being presented for inspection.
STATE OF NEW SOUTH WALES.

CERTIFICATE OF GOVERNMENT INSPECTION.

Department of Forestry,
Sydney, 19.

This is to certify that the timber described below, shipped by Messrs. , per S.S. , having been found on inspection to meet the requirements of the specification furnished with the application for inspection, has been passed and branded by authorized officers of the Government.

(AMENDED REGULATIONS Nos. 2, 3, 5, 17, 22, 23, 24, 25, 26, 28, 30, 32, 34, 35, 36, 37, 38, AND 54 UNDER, AND AMENDMENT OF SCHEDULE TO SUCH REGULATIONS)

Printed under No. 1 Report from Printing Committee, 30 June, 1910.

[4505]

Forestry Department,
Sydney, 30th March, 1910.

His Excellency the Governor, with the advice of the Executive Council, has been pleased to approve of the following Amended Regulations Nos. 2, 3, 5, 17, 22, 23, 24, 25, 26, 28, 30, 32, 34, 35, 36, 37, 38, and 54 under the "Forestry Act, 1909," in substitution for those as now in force bearing the same numbers, and the amendment of the Schedule to such Regulations by the addition of the forms of Exclusive Right and Ringlogging Permits.

JOHN PERRY,
Minister for Agriculture.

1. The books to be kept by every person conducting a saw-mill under licence shall be as follows, and shall correctly contain the particulars hereunder specified:

(a) A log book recording all log timber received at the saw-mill during each calendar month, in which shall be furnished the following details:

- Name of owner.
- Number of logs.
- Size of logs.
- Number of feet.
- Quantity of timber.
- Gross input of timber treated.
- Gross output of timber treated.
- Quantity in super.
- Quantity in log.
- Length.
- Girth.
- Rep.
- Certification.
- Total quantity of timber treated during each calendar month, and on demand the same to be furnished, to the local Forest Officer within Seven days from the close of each calendar month, and on demand by an authorised officer shall verify the correctness of the same by the prescribed books, timber stock, manifests, invoices, receipts, or other necessary records.

(b) A mill journal, in which shall be shown the sizes and total quantity of sawn timber converted during each calendar month from log timber treated at the saw-mill or removed from the licensed saw-mill premises.

2. The books to be kept by every person conducting a licensed saw-mill which pays royalty on the output shall, and shall correctly contain the particulars hereunder specified:

(a) A log book recording all log timber received at the saw-mill during each calendar month, in which shall be furnished the following details:

- Size of logs.
- Number of logs.
- Number of feet.
- Quantity of timber.
- Gross input of timber treated.
- Gross output of timber treated.

(Signed)

The person making such return shall furnish, or cause the same to be furnished, to the local Forest Officer within seven days from the close of such calendar month, and on demand by an authorised officer shall verify the correctness of the same by the prescribed books, timber stock, manifests, invoices, receipts, or other necessary records.

1. Lands exempted from Licence.

5. A license to cut or remove timber or to obtain products shall not apply to any of the following Crown Lands, unless specially authorised by the Minister or by an authorised officer under these Regulations, viz.:

- Lands held under any gold-mining, mineral, or dredging licenses, issued under authority of any Act relating to mining.
- Lands permanently dedicated to any public purposes.
- Lands notified in the Gazette as exempt from the operation of licences.
- State forests proclaimed under the "Forestry Act, 1909." Reserves for public recreation.
- Reserves for camping.
- Reserves for plantation purposes.
- Reserves for the preservation of timber in the Western Division of the State.
- Reserves for the protection of native flora or timber for scenic purposes.
- Public watering places.
- Sites for towns or villages, or lands within the town and suburban boundaries of any city, town, or village.
- Lands included in a temporary common, unless within the limits of a timber reserve.
- Land within 15 chain of any navigable river, lake, or watercourse, or within the limits of any lake.
- Land within half a mile of a head station or homestead in the Western Division of the State.
- Lands over which special licences or occupation permits have been granted in terms of the Forestry Act and Regulations.
- Lands measured for sale or settlement purposes.
- Lands held under conditional or conditional purchase lease, or special, or settlement, or residential, or improvement, or scrub, or 18th section licenses under the Crown Lands Acts.
- Church and school lands under lease.
- Lands within proclaimed or scheduled roads or roads under control of a Shire or Municipal Council, or within 2 chains of any formation thereon.
- Lands within 10 chains of any tank, dam, or excavation.
- Islands on any rivers or lakes of the eastern Watershed.
- Islands on any rivers or lakes of the eastern Watershed of the State.
- Lands reserved or set apart for aboriginal stations, rifle ranges, or cemeteries, or as sites for Public Schools.
- Lands held under brickmaking or quarrying permits.
- Lands held under mining, mineral, or dredging leases.
- Lands within 2 chains of any formation thereon.
- Lands held under conditional or conditional purchase leases, or special, or settlement, or residential, or improvement, or scrub, or 18th section licenses under the Crown Lands Acts.
- Lands held under conditional or conditional purchase lease, or special, or settlement, or residential, or improvement, or scrub, or 18th section licenses under the Crown Lands Acts.
- Lands reserved or set apart for aboriginal stations, rifle ranges, or cemeteries, or as sites for Public Schools.
- Lands held under brickmaking or quarrying permits.
- Lands held under mining, mineral, or dredging leases.
- Lands within 2 chains of any formation thereon.
- Lands held under conditional or conditional purchase leases, or special, or settlement, or residential, or improvement, or scrub, or 18th section licenses under the Crown Lands Acts.
2. Where so directed by the Minister, the following special conditions or any of them may be attached to licences or rights:

(a) No tree shall be felled unless first marked for felling by a Forest Officer.

(b) Where so directed by an authorised officer, the holder of a licence or an exclusive right shall ringbark or otherwise mark in a manner acceptable to the Forest Officer for that purpose within the area to which the licence or right applies.

(c) Heads of trees shall be properly stacked as soon as felled, measured at a height of 5 feet from the ground. No tree, although of a species specified by an authorised Forest Officer, may be felled in neat heaps, not exceeding dimensions of 50 feet in length by 25 feet in breadth and 8 feet high, all limbs being chopped off and stacked back on the trunk of the tree.

(d) Conditions as to the thinning of seedlings and saplings by felling, grubbing, or otherwise.

(e) Conditions considered necessary to safeguard any public or vested interest during the exercise of a license or right.

Minimum Girth of Trees.

Timbers available only to areas described therein or notified in the Gazette as available for that purpose.

Prop Timber.—A license to obtain prop timber shall apply only to areas described therein or notified in the Gazette as available for that purpose.

Prop timber may be cut down to the minimum girth specified in the license, or in the notice, and shall be felled at ground level or within 4 inches of mature age. The license may at the discretion of the Forest Officer be issued subject to the provisions of Regulation 22 (a) or (d).

Prop timber obtained under the license shall be subject to payment of royalty at the rate per 100 lineal feet specified in the license or the notice.

Green Timber for Fuel Purposes.

25. Inferior green timber may be obtained for fuel purposes under timber licenses, which may be issued by an authorized Forest Officer, or by some other person duly authorized in that behalf, which shall include the holder to fell and obtain, east of the Great Dividing Range, ironbark timber at the minimum girth of 5 feet, and other hardwoods at a minimum girth of 4 feet 6 inches, measured in each case at 5 feet from the ground. Such licenses may at the discretion of the Forest Officer be issued subject to the provisions of Regulation 22 (a), and shall be subject to payment of royalty at the rates prescribed.

26. Inferior green timber may be obtained for fuel purposes under the license obtained under Regulation 22 (a), or where not so specified as prescribed by the notice: for such permits may be made to the Secretary of the Western Land Board, Sydney. All costs in dealing with and disposing of such applications shall be paid by the applicant.

Royalty on Timber.

24. Except in cases where a license is issued with an exemption from payment of royalty, the rates of royalty for timber shall be the following, viz.:

<table>
<thead>
<tr>
<th>Timber</th>
<th>Super. rate at per 100 lineal feet.</th>

*Minimum rate.

(1) Superficial rate shall be applied to log timber for saw-mill purposes.

(2) Superficial rate shall be applied to sleepers hewn.

(3) Cubic rate shall be applied to the following classes of beam timber, viz.:

(a) 'Grown square, of equal end dimensions, or with end dimensions not exceeding 3 inches from true square, in sizes 10 x 10, 12 x 12 inches and upwards.

(4) At 50 % increase, girders rectangular, including all sizes of and above 12 inches by 10 inches in sectional area, with end dimensions exceeding 3 inches from true square.

(c) At 50 % increase, all girders under 100 square inches in sectional area.
314

(4) Final rate shall be applied to the following timber, viz.—
(a) Planks and round (spliced) girders of and exceeding 17 inches buff diameter in lengths up to 80 ft.
(b) At 2½% increase all planks exceeding 50 ft in length, and all timbers exceeding 100 ft in length.
(5) Piece rate shall be applied, at the discretion of an authorized Forest Officer, to timber for such purposes as splicing, fencing material, split mining timber, crooks, &c., at a proportionate rate per 100 pieces of such timber which shall not be less than one-half the superficial rate.
(6) Provided that—
(a) In all coastal saw-mills paying royalty on the output, stock sizes of 18 square inches and under in sectional area, sawn from timbers and tallowwood, less than the quantity of such timber in the log, may be sold at the output rate for other hardwoods.
(b) Where timber is in quality or owing to unsatisfactory distance and from market not of sufficient value to warrant logging may be issued on approval of the Minister, by an authorized Forest Officer, or some other person duly authorized, in which case no payment from time and expense shall be allowed.
(c) On approval of the Minister a rebate of royalty shall be allowed, in the case of any timber sold from licensed areas to licensed persons sold for any purpose, and the rate prescribed, may be allowed on timber sold from licensed areas to licensed persons to the Forest Officer.
(d) Where any timber below the girths prescribed by Regulation 25 is felled or removed without authority, royalty thereon shall be charged at double the foregoing rates.

Payment of Royalty.

55. Returns of royalty due shall be presented by the Forest Officer to the licensee, or the person responsible for payment of same, as soon as practicable after the determination of stock, and the licensee, or responsible person, shall pay to the Forest Officer the amount due within four days after the date of the return, or within such shorter time as may be allowed, and no alleged inaccuracy shall be held an excuse for delaying such payment beyond the prescribed period. Any timber removed from any place other than the licensed area without the consent of the Forest Officer, or other duly authorized person, shall be liable to a penalty for contravening the payment of royalty.

Return of Royalty due shall be presented by the Forest Officer to the licensee, or the person responsible for payment of same, as soon as practicable after the determination of stock, and the licensee, or responsible person, shall pay to the Forest Officer the amount due within four days after the date of the return, or within such shorter time as may be allowed. Any alleged inaccuracy shall be held an excuse for delaying such payment beyond the prescribed period. Where timber in pursuance of this Regulation, is moved to an approved depot, it shall not be taken therefrom before the payment of royalty unless with the consent of the Forest Officer, and any person removing such timber shall be so removed shall be liable to a penalty for contravening the provisions of this Regulation.

Up to the approval of the Minister, timber subject to royalty may be removed to and stored for a specified time in an authorized person, until the royalty be paid, unless it be removed to a depot approved by the Forest Officer, or to a saw-mill licensed to pay royalty on the gross output, and such removal shall be subject to such conditions as may be determined by the licensee for the purpose of payment of royalty as the Forest Officer may think fit to impose. Where timber, in pursuance of this Regulation, is moved to an approved depot, it shall not be taken therefrom before the payment of royalty unless with the consent of the Forest Officer, and any person removing such timber shall be so removed shall be liable to a penalty for contravening the provisions of this Regulation.

Royalty due shall be presented by the Forest Officer to the licensee, or the person responsible for payment of same, as soon as practicable after the determination of stock, and the licensee, or responsible person, shall pay to the Forest Officer the amount due within four days after the date of the return, or within such shorter time as may be allowed. Any alleged inaccuracy shall be held an excuse for delaying such payment beyond the prescribed period. Where timber in pursuance of this Regulation, is moved to an approved depot, it shall not be taken therefrom before the payment of royalty unless with the consent of the Forest Officer, and any person removing such timber shall be so removed shall be liable to a penalty for contravening the provisions of this Regulation.

38. No person shall light or kindle a fire within any State forest without obtaining all surrounding inflammable material and debris beyond reach of the same, or otherwise taking reasonable precaution to prevent the spread of fire, and any person who lights, kindles, or leaves fire, the spread of which causes injury to or destruction of seedlings, saplings, trees, timber, or products, shall be liable to a penalty for contravening the provisions of the Forest Act and any Regulations thereunder.

54. The charges that shall be made for inspection, and for which a licence may be rendered monthly or annually.

(a) Pole across any, or timber of sectional dimensions, including and below 12 square inches, 6d. per 100 superficial feet.
(b) Other timber, 3d. per 100 superficial feet.

16. Permit to ringbark.

Subject to the conditions hereunder specified, and the provisions of the Forestry Act and any Regulations thereunder which apply to ringbarking, permit is hereby granted to the person named in this permit to ringbark the trees hereinafter specified, situated upon the land herein described and illustrated on the plan hereto annexed, and as shown on attached plan or sketch.

The location of town permitted to be ringbarked, and any special conditions imposed—

CONDITIONS.—(1) This permit shall remain in force for a period of three months from the date hereof, but may be withdrawn for any breach of the conditions. (2) Every person engaged in ringbarking shall hold an authority in writing from the holder of this permit, who shall be solely responsible for fulfilment of its conditions. (3) Not less than 14 days notice in writing of intention to commence ringbarking shall be furnished to the Department of Forestry or the local Forest Officer.

Note.—In addition to the rentals quoted above, full wharfage rates are paid in respect of all timber landed on the leased areas, and tonnage rates and berthing charges in respect of the vessels berthed thereon.
LEGISLATIVE ASSEMBLY.
NEW SOUTH WALES.

MINING ACT, 1906.
(AMENDED REGULATIONS UNDER.)

Printed under No. 1 Report from Printing Committee, 30 June, 1910.

Department of Mines,
Sydney, 16th February, 1910.

AMENDED REGULATIONS UNDER THE MINING ACT, 1906

His Excellency the Governor, with the advice of the Executive Council, has been pleased to approve of the repeal of Regulations 85, 86, and 105, and Schedules 21A, 21B, 21C, 21D, 22, and 22A, made under the provisions of the Mining Act, 1906, and published in the Government Gazette No. 85 of the 22nd July, 1908, and to make the Regulations and Schedules hereunder in lieu thereof,—to take effect on and after the 1st day of April, 1910.

W. H. Wood.

Service of notice.

85. Forthwith, after possession has been taken, the intending applicant or his agent shall serve upon every person in occupation, under the authority of any Act relating to mining, of any part of the land to be applied for, or who, within his knowledge, has, or claims to have, any right to or interest in such land, a notice in the form of Schedule 22; and may, as soon as practicable thereafter, endeavour to obtain from every such person a consent in writing, and witnessed, to the granting of a lease of such land to the intending applicant.

Mode of making application.

86. Forthwith, after service of notice as required by the last preceding Regulation, application shall be made by lodging the same, in the form prescribed by Regulation 83, with the Warden's Clerk of the division in which the land applied for is situated. Every such application shall contain as full and accurate a description as can be given of the extent and position of the land applied for, and of the position of the datum post in relation to some measured portion, fixed point, or well-defined marked tree. The name of the parish and, if the land applied for is a measured portion, the number of the portion should, if possible, be given. The area of surface required should be stated, and the position indicated on a sketch attached to the application, or the area marked out on the land.

Every application shall bear date of the day on which it is lodged, and immediately upon receipt thereof the Warden's Clerk shall furnish to the applicant a notice in the form of Schedule 22a, stating that objections to the granting of such application will be received up to a day named in such notice, not being less than seven days from the date of such application.

The applicant shall fill in and sign such notice in the place provided for his signature, and shall forthwith post or cause to be posted such notice in some conspicuous place on the outside of the Warden's Clerk's office.

Application for Lease.

105. Application for a dredging lease, in the form of Schedule 39, shall be lodged at the Warden's office nearest by a practicable route to the datum post of the area applied for, within three days after possession of the land has been taken, and no notice in the form of Schedule 40, shall at the same time be posted by the Warden's Clerk outside the Warden's office, and sent by the applicant to the Under Secretary for Mines, Sydney. With such application the applicant shall lodge the amount of the first year's rent of the Crown Lands included therein, the fee for survey (Schedule 1b), and a fee of two pounds (£2), to be applied in payment of the advertising required by Regulation 106.
Application for a Mining Lease of Crown Lands.

To the Honourable
The Secretary for Mines,
Sydney.
Sir,

(Date)

[Names to be given in full.] (Signature of Applicant, or of each Applicant.)

[If, or we] hereby make application for a mining lease of that piece or parcel of land situated in the parish of , county of , containing [area described], for the purpose of inserting and to the hour of o'clock in the day of noon, in accordance with Regulation 6, for the purpose of [specify what is to be done], by [state how angles are marked] at each angle thereof. The posts were feet above the surface of the ground. Each arm of each trench was inches in diameter and projected feet in length and inches in depth. The datum post is at the angle of the land, and is distant feet in a direction from [specify some conspicuous point or survey mark], and the notice prescribed in Regulation 6 was affixed to such datum post.

[If, or we] hereby acknowledge that this application is made upon the distinct understanding and condition that if [we, or we.], shall abandon or fail to proceed with it, or if it is refused, the Secretary for Mines for the time being may direct from the rent deposited as aforesaid any cost to which in his opinion the Crown may have been put in or about, or in advance of the said land, and the notice prescribed in Regulation 6 was affixed to such datum post. The datum post is at the angle of the land, and is distant feet in a direction from [specify some conspicuous point or survey mark], and the notice prescribed in Regulation 6 was affixed to such datum post.

The laud applied for is, or is not, exempted from leasing under Section 23 (2) of the Milling Act, 1906.

Objections have been lodged by

The land applied for [we, or is not] exempted from leasing under Section 23 (2) of the Milling Act, 1906.

The Secretary for Mines, Sydney.

Your most obedient servant,

(Address)

[Names to be given in full.] (Signature of Applicant, or of each Applicant.)

Application for Lease of Crown Lands for Mining Purposes.

To the Honourable
The Secretary for Mines, Sydney.

Sir,

(Date)

[Names to be given in full.] (Signature of Applicant, or of each Applicant.)

[If, or we] hereby make application for a lease for mining purposes of that piece or parcel of land situated in the parish of , county of , containing [area described], for the purpose of [insert purpose], by [state how angles are marked]. The posts were feet in length and inches in diameter, and projected feet above the surface of the ground. Each arm of each trench was defined by [specify some conspicuous point or survey mark], and the notice prescribed in Regulation 6 was affixed to such datum post. The datum post is at the angle of the land, and is distant feet in a direction from [specify some conspicuous point or survey mark], and the notice prescribed in Regulation 6 was affixed to such datum post.

[If, or we] hereby declare that the statements contained in the foregoing application are true in every particular.

Witness to Signature:

This application was received by me this day of , at the hour of o'clock in the noon, in accordance with Regulation 6, for the purpose of [insert purpose], by [state how angles are marked] at each angle thereof. The posts were feet above the surface of the ground. Each arm of each trench was defined by [specify some conspicuous point or survey mark], and the notice prescribed in Regulation 6 was affixed to such datum post. The datum post is at the angle of the land, and is distant feet in a direction from [specify some conspicuous point or survey mark], and the notice prescribed in Regulation 6 was affixed to such datum post.

Objections have been lodged by

The Secretary for Mines, Sydney.

Your most obedient servant,

Objections have been lodged by .

Warden.

REGULATIONS—MINING ACT, 1906.

Division III.

SCHEDULE 21d.

(See Regulations 83, 85, 86, 87, and 88.)

Application for Conversion of a Claim into a Lease.

To the Honourable the Secretary for Mines, Sydney.

Sir,

If, or we), being the registered holder of claim, number , Mining District, portion No. , county of , containing [here insert area], hereby make application for conversion of this claim into a mining lease to mine for [insert gold or mineral, specifying name], at the rate of , be the first year's rent in advance of the lease dignity. If, or we), require the lease for a period of twenty years [if for any less period, state period].

If, or we), hand herewith a list of the persons, who, under the provisions of any Act relating to mining, occupy, or within [knowledge, claim a right to or interest in the land], or any part thereof, and upon whom [If, or we), have served copy of notice, Schedule 22, on the dates therein stated.

If, or we), also hand herewith such consents as [If, or we), have obtained.

If, or we), deposit herewith [the sum of, or a receipt for the sum of] £ , being the first year's rent in advance of the said land.

If, or we), hereby acknowledge that this application is made upon the distinct understanding and condition that if, or we), shall abandon or fail to proceed with it, or if it is refused, the Secretary for Mines for the time being may deduct from the sums deposited as aforesaid any cost to which in his opinion the Crown may have been put in or about or in respect of this application.

have the honor to be, Sir,

[Names to be given in full.] (Signature of Applicant, or of each Applicant.)

[Address.]

This application was received by me this day of , at the hour of o'clock in the noon, and is numbered . Rent, £ , has been duly paid.

Notice of application, Schedule 22a, was posted outside this office on the day of .

Objections have been lodged by .

Warden.

REGULATIONS—
NOTICE is hereby given that [I, or we] intend to apply for a lease of acres of land, situated , for the purpose of Possession of the said land was taken in accordance with Regulation 6 by [state how angles are marked] at each angle thereof, on the day of , 19 , at the hour of o'clock in the noon, and the datum post is distant in a direction from Application for the said lease will be lodged forthwith.

Dated at , this day of , 19.

(Signature of Applicant, or of each Applicant.)
(Address.)

REGULATIONS—MINING ACT, 1906.
Division III.
SCHEDULE 22A.
(See Regulation 86.)

NOTICE is hereby given that [I, or we] have applied for a lease of acres of land, situated , for the purpose of [mining for gold or minerals, or for mining purposes, specifying same]. Possession of the said land was taken in accordance with Regulation 6 by [state how angles are marked] at each angle thereof, on the day of , 19 , at the hour of o'clock in the noon, and the datum post is distant in a direction from Application for the said lease was lodged with , at , on the day of , 19.

Dated at , this day of , 19.

(Signature of Applicant, or each Applicant.)
(Address.)

Any person who desires to object to the granting of this application must, on or before the day of 19 , lodge with or forward to the Warden or Warden's Clerk at , and also serve upon the above applicant, a notice in writing under his hand, and containing his address, setting forth clearly the grounds of objection. Every such notice lodged with the Warden or Warden's Clerk must be accompanied by the sum of five pounds.

Warden's Clerk.

PRESENTED TO PARLIAMENT PURSUANT TO THE PROVISIONS OF ACT NO. 51, 1908, SECTION 55 (2).

Printed under No. 1 Report from Printing Committee, 30 June, 1910.

[Published as Supplement to the Government Gazette No. 74 of 11th May, 1910.]

Chief Secretary's Office, Sydney, 11th May, 1910.

His Excellency the Governor, with the advice of the Executive Council, has been pleased to approve of the following Regulations under the "Pure Food Act, 1908," which have been made by the Board of Health, on the recommendation of the Advisory Committee, under the powers conferred by that Act.

W. H. WOOD.

"PURE FOOD ACT, 1908."

All previous Regulations are hereby repealed, and the following substituted therefor:

GENERAL REGULATIONS.

REGULATION I.—FORM OF GUARANTEE.

(1) A general guarantee given by an individual shall be in the following form:

I, being a resident in New South Wales, carrying on business at under the name of do hereby guarantee that the goods or classes of goods hereunder described, as sold by me, and marked with the serial number allotted and with the words of guarantee prescribed in paragraph (d) of subsection three of section 47 of the "Pure Food Act, 1908," not adulterated, falsely described, mixed, coloured, composed or constituted in contravention of any provision of the said Act.

Goods and Classes of Goods guaranteed:

Guarantor.

Witness.

Filed in the Treasury

Serial No. allotted

(2) A general guarantee given by a company shall be in the following form:

The Company, having a registered office in New South Wales, and carrying on business at under the name of do hereby guarantee that the goods or classes of goods hereunder described, as sold by the Company and marked with the serial number allotted, and with the words of guarantee prescribed in paragraph (d) of subsection three of section 47 of the "Pure Food Act, 1908," not adulterated, falsely described, mixed, coloured, composed or constituted in contravention of any provision of the said Act.

Goods and Classes of Goods guaranteed:

Seal of Company.

Witness.

Filed in the Treasury

Serial No. allotted

(3) A specific guarantee given by an individual shall be in the following form:

I, being a resident in New South Wales, carrying on business at under the name of do hereby guarantee that the goods or classes of goods hereunder specified and contained in the bill of sale, invoice, bill of lading, or other document describing the goods and their weight, measure and number of the same, referred to herein or attached hereto, are not adulterated, falsely described, mixed, coloured, composed or constituted in contravention of any provision of the said Act.

Goods guaranteed:

[Description of bill of sale, invoice, bill of lading, & other document.]

Guarantor.

Witness.

day of

(4) A specific guarantee given by a company shall be in the following form:

The Company, having a registered office in New South Wales, and carrying on business at under the name of do hereby guarantee that the goods hereunder specified and contained in the bill of sale, invoice, bill of lading, or other document describing the goods and their weight, measure,
2

measure, and number of the same, referred to herein or attached hereto, are not adulterated, falsely described, mixed, coloured, composed or compounded, in contravention of any provision of the "Pure Food Act, 1906."

Goods guaranteed:

[Description of bill of sale, invoice, bill of lading, or other document.]

[Here insert the name of the registered guarantor and repeat the allocated number.]

5 The serial number allotted to each general guarantor shall be placed by the guarantor on each package of the goods or classes of goods named in the guarantee, in the following form:

[Here insert the allocated number] guaranteed under the "Pure Food Act, 1906." [Here insert the name of the registered guarantor and repeat the allocated number.]

6 No person shall sell any food or drug contained in a package on or attached to which is a statement or label containing the word "guaranteed" or "guarantee," or containing any expression which implies that the contents of the package have been guaranteed, unless a guarantee has been given under section 47 of the Act, applicable to the food or drug contained in the package.

7 If any person sells a food or drug contained in a package in respect of which any of the provisions contained in clauses (5) and (6) of this Regulation is contravened, he shall be liable to a penalty not exceeding £20.

REGULATION 2.—LABEL.

The term "statement or label" shall mean any written, pictorial, or other matter, written on or attached to any package containing a food or drug for sale.

REGULATION 3.—DESCRIPTIVE MATTER ON LABELS.

(1) The trade name or description, and descriptive matter, written on the statement or label attached to any package which contains a food or drug, or any substance intended to be used or which may be used as an addition to a food or drug, shall not contain any statement, claim, design, device, fancy name, or abbreviation which is false or misleading in any particular concerning the nature, the composition, the ingredients of substances, or the quality or the place of origin of the said ingredients or substances.

(2) Descriptive matter written on or attached to a package, in which any food or drug shall not include any comment on, reference to, or explanation of, any statement or label required by the Act or by the Regulations and cause to be written on or attached to any package containing a food or drug, which, directly or by inference, contradicts, qualifies, modifies or alters the statement or the contents of such label.

(3) No person shall sell any food or drug contained in a package in respect of which any of the provisions contained in clauses (5) and (6) of this Regulation is contravened.

REGULATION 4.—STATEMENT OF MEASURE OR VOLUME.

The statement of the true measure or volume of the contents required by the Act to be written on or attached to every package of food packed or enclosed for sale shall be expressed in the customary way, namely:

(1) In the case of every package of solid food which contains a less quantity than fourteen pounds, weight, in pounds, ounces, &c.

(2) In the case of every package of liquid food which contains a less quantity than one gallon, in quarts or pints, ounces, &c.

REGULATION 5.—PERMITTED VARIATION FROM STATED MEASURE OR VOLUME.

A variation from the stated measure or volume which shall not exceed five per cent shall be permitted if the weight or measure of six packages of the same description and brand of food when weighed or measured together is found to be of or above the stated, measure or volume.

REGULATION 6.—USE OF THE WORD "FURN.

No person shall sell any food contained in a package on which the word "pure," or expressions which include the said word, are written unless the food is of the same description, strength, purity, or quality prescribed in the Act and by the Regulations, or which contains any foreign substance save as specifically permitted by the Regulations.

REGULATION 7.—PERMITTED SIZES OF TYPES.

Notwithstanding anything to the contrary in those Regulations contained, prescribed words or figures to be written in types of size of not less than six points face measurement may be written in types of proportionately smaller size when the package containing a food or drug for sale is so small as to prevent the use of types of the prescribed size.

REGULATION 8.—PRESERVATIVES.

(1) The addition of a preservative substance or preparation of a preservative substance to any food, and any preparation words ordered to be written in types of size of not less than six points face measurement may be written in types of proportionately smaller size when the package containing a food or drug for sale is so small as to prevent the use of types of the prescribed size.

(2) In the ease of every package of solid food the contents of such label or other descriptive matter on the label shall be written in bold-faced sans-serif capital types of not less size than six points face measurement.

(3) In the case of every package of liquid food the contents of such label or other descriptive matter on the label shall be written in bold-faced sans-serif capital types of not less size than six points face measurement.

(4) Provided that this Regulation shall not apply to the following foods:

Whole-milk cheese.

Cordials and syrups labelled as prescribed by the Act or by the Regulations.

(5) Provided that this Regulation shall not apply to the following foods:

Whole-milk cheese.

Cordials and syrups labelled as prescribed by the Act or by the Regulations.

REGULATION 9.—COLOURINGS AND FLAVOURINGS.

Where artificial colouring or artificial flavouring is permitted by the Regulations, the manufacturer or packer shall cause to be written on or attached to every package containing any food which is admixed with any foreign colouring substance or with any foreign flavouring substance, a statement or label in that one of the three forms following which indicates the fact of admixed colouring or of admixed flavouring or of both, as the case may require.

ARTIFICIALLY COLOURED

or

ARTIFICIALLY FLAVOURED

ARTIFICIALLY COLOURED AND FLAVOURED.

And the words "Artificially coloured," or "Artificially flavoured," or "Artificially coloured and flavoured" shall be written in bold-faced sans-serif capital types of not less than six points face measurement in black ink on a white ground, and no other words than the words prescribed by this Regulation shall be written on it.

(1) No person shall sell any package containing food mixed with a preservative substance, or with a preparation of a preservative substance, a separate label, in the following form:

This food contains not more than [here insert the quantity of preservative added] of [here insert the chemical name of the preservative] to the [here insert the word "pound" to the case of solid food, and the word "pint" in the ease of liquid food.]

This label shall be written in bold-faced sans-serif capital types of not less than six points face measurement in black ink on a white ground, and no other words than the words prescribed by this Regulation shall be written on it.

(2) No person shall sell any package containing food mixed with a preservative substance in contravention of the provisions of this Regulation.

(3) This Regulation shall not apply to common salt, sugar, spices, wood-smoke, vinegar, and acetic acid added to food.
No person shall sell any article of food to which any colouring matter containing any of the following substances or compounds of them:—Arsenic, antimony, barium, chromium, cobalt, nickel, copper, iron, lead, manganese, mercury, tin, zinc, gamboge, and picric acid.

REGULATION 11.—BOILER PRESERVATIVES.
(1) No person shall use, or cause or suffer to be used, in any boiler for producing steam which is brought into contact with food for sale, any boiler preservative containing any of the following substances or compounds of them:—Arsenic, antimony, barium, chromium, cobalt, nickel, copper, iron, lead, manganese, mercury, tin, zinc, gamboge, and picric acid.

(2) No person shall cause, suffer, or permit the water of any boiler which, by priming or otherwise, may come to contact with food for sale, to contain any zinc or other harmful substance in any larger proportion than that in which it is allowed by the Regulations to be present in the food.

REGULATION 12.—INSECTICIDES.
No person shall keep, spread, or use, or suffer to be kept, spread, or used, any preparation containing any of the following substances or compounds of them:—Arsenic, antimony, barium, chromium, cobalt, nickel, copper, iron, lead, manganese, mercury, tin, zinc, gamboge, and picric acid.

REGULATION 13.—ARTIFICIAL SWEETENING SUBSTANCES.
No person shall sell any food containing saccharin, sacrin, dextrin, or any synthetic sweetening substance, except as specifically allowed by the Regulations.

REGULATION 14.—PROTECTION OF FOOD FROM CONTAMINATION.
(1) Every person who is engaged in the manufacture, preparation, storage, packing, carriage, or delivery of food for sale shall when so engaged maintain his clothing and his body clean.

(2) No person who is suffering from any infectious or contagious disease shall engage in the manufacture, preparation, storage, packing, carriage, or delivery for sale of any food or drug, or of any article used or intended to be used as a food or drug.

(3) Every receptacle, article, and place used for or in connection with the manufacture, preparation, storage, or packing of any food for sale shall at all times be kept clean and free from foul odours, and, as far as practicable, from flies and dust.

(4) Every place used for or in connection with the sale, manufacture, preparation, storage, or packing of any food for sale shall, so far as practicable, be used for that purpose only; and no place shall be so used which is at any time used as a sleeping apartment, or in which any thing is kept, or any animal is allowed to be, or in which any work is carried on, which would be likely to contaminate such food or injuriously to affect its wholesomeness or cleanliness.

(5) Vehicles and receptacles which are used in the carriage or delivery of any food shall be kept at all times clean; no such vehicle or receptacle shall at any time be used for the carriage of any matter whereby the wholesomeness, cleanliness, and freedom from contamination of any food carried or usually carried therein would or might be endangered.

(6) Every person who sells any food which is ordinarily consumed in the state in which it is sold shall protect such food, until it is delivered to a purchaser, from dust and flies by storage in covered receptacles, by covering with gauze, or by other effectual means; and no vendor shall carry such food through the streets unless it be protected as aforesaid.

(7) No person shall sell any food so packed that it can come into contact with paper or other material which is not clean or with any writing on any paper or material.

(8) A copy of this Regulations, as supplied on demand by the Department of Public Health, shall be conspicuously displayed in every place where food is prepared, sold, or deposited for sale, and shall be there constantly maintained clean, visible, and legible, by the proprietor, manager, and person in charge thereof.

(9) If any person contravenes any of the provisions of this Regulation he shall be liable to a penalty not exceeding £20.
SPECIFIC REGULATIONS.

REGULATION 18.—Flour and Baked.

Flour.

(1) Flour shall be the fine, clean, and sound product obtained by milling wheat-meal; it shall contain no more than fourteen parts per centum of moisture, not less than one and six-tenths parts per centum of nitrogen, not more than one-half of one part per centum of fibre, and shall yield not more than one part per centum of ash. It shall not contain any added foreign matter.

Bread.

(2) Bread shall be the porous substance obtained by moistening and kneading flour which conforms with the standard for flour, with provision for the mechanical separation of the dough by air or carbonic acid gas, properly baked; it shall not contain more than forty-five parts per centum of water in any part of the loaf, and it shall not yield more than two parts per centum of total ash, nor more than one-tenth of one part per centum of ash insoluble in acid. It shall not contain any added foreign substance; and ten grams of the crumb, taken from leaven, baked, and which may be used in the preparation of which evolves carbon dioxide on being moistened or boiled, and which may be used in the preparation of which evolves carbon dioxide on being moistened or boiled, and which may be used in the preparation of which evolves carbon dioxide on being moistened or boiled.

REGULATION 19.—Oatsmeal.

Oatmeal.

(1) Oatmeal shall be the meal produced by grinding oats (Avena sativa) after removal of the husk; it shall contain not less than five parts per centum of fat of or from oatmeal, and it shall not contain more than two and one-half parts per centum of meal derived from other than oat grain.

Mixed Meals.

(2) There shall be written on or attached to every package containing mixed meals a statement or label, on which the words "Mixed Meals" are written in large letters, followed by the other letter on the statement or label, immediately followed by a statement uniformly written in sans-serif capital letters of not less than six points face measurement, the name or names of the meat or meats contained in it; and no person shall sell any such package in contravention of the provisions of clause 2 of this Regulation.

(3) No person shall sell any package containing mixed meats, in contravention of the provisions of clause 2 of this Regulation.

REGULATION 20.—CREAM OR TARTAR.

Cream of tartar (potassium bitartrate K2HCO3.H2O, sold for other than medicinal use shall be the purified product obtained by recrystallization of crude of goods or wine-less; it shall contain not less than ninety-five parts per centum of acid tartrates calculated as potassium acid tartrate K2HCO3.H2O, not more than one and five-tenths parts per centum of sulphates calculated as calcium sulphate (CaSO4), not more than one-hundredth of one grain of arsenic calculated as arsenious oxide to the pound, and not more than one-seventh of a grain of lead to the pound.

REGULATION 21.—BAKING POWDER.

Baking powder shall be a salt or mixture of salts, with or without a farinaceous diffusant substance, which evolves carbon dioxide when moistened or heated, and which may be used in the preparation of articles of food as a chemical leaven; it shall contain not more than one and five-tenths parts per centum of sulphates calculated as calcium sulphate, it shall yield not less than ten parts per centum by weight of carbon dioxide, and it shall not contain any clay.
Lard.

(6) Lard shall be the fat rendered from the meat of the hog; it shall be free from rancidity. It shall not contain more than one part per centum of substance other than fat rendered in the course of rendering, and not more than one part per centum of water. It shall not contain any foreign substance.

REGULATION 25.—MINCED OR SAUSAGE MEAT.

General Standard for Minced or Sausage Meat.

(1) Minced meat or manage-meat or savoy sage-meat shall be chopped or comminuted meat, with or without salt, sugar, spices, herbs, saltpetre (potassium or sodium nitrate), wholesome farinaceous substances, or Armenian bole; it shall contain not less than seventy-five parts per centum of meat of the kind or kinds designated on a label or statement attached to the outside of the package in which it is contained, not more than eight grains of Armenian bole, nor more than two grains of saltpetre (potassium or sodium nitrate) to the pound:

Provided that if sausage-meat, minced-meat, or savoy sage-sausage-meat be sold encased in a skin of animal origin, the said skin shall be deemed to be an integral portion of the said meat:

Provided further that the said skins may be dyed with Bismarck brown or with roselein.

Preservative.

(2) The addition to minced-meat, or sausage-meat, or savoy sage-sausage-meat of a preparation of the preservative substance, sulphur dioxide, in proportion not exceeding three and one-half grains of sulphur dioxide to the pound, is hereby permitted.

REGULATION 26.—MEAT EXTRACT.

Meat Extract.

Meat extract shall not contain any added substance, save salt (sodium chloride) and condiments.

REGULATION 27.—FOR SECURING THE CLEANLINESS AND FREEDOM FROM CONTAMINATION OR POLLUTION OF ROOMS OR PLACES FOR THE BONING, CURING, CANNING, SALTING, MINCING, OR OTHER SIMILAR PROCESS OF PREPARATION OF THE MEAT OR FAT OF ANIMALS FOR HUMAN FOOD.

(1) No person shall use, or suffer to be used, any room or place for the boning, curing, canning, salting, mincing, or other similar process of preparation of the meat or fat of animals for sale for human food, except it be provided with a floor of tiles, cement, mineral asphalt, or some other material impervious to water, having a smooth surface, and graded and drained so that all liquids spilt on it may flow off without stagnation. If any such floor be constructed of tiles, the joints between the tiles shall be of a material which is impervious to water. Such floors shall at all times be kept in good repair, smooth, and free from cracks and inequalities.

(2) No person shall use, or suffer to be used, any such floor as referred to in the last preceding paragraph, unless it be free from accumulations of fat, dirt, grease, or debris of meat. Such floors shall be thoroughly cleansed at least once daily with the aid of hot water, and shall at all times be kept in a state of reasonable cleanliness.

(3) No person shall keep, or suffer to remain, any bones, waste matters of any kind for longer than eight hours in any room, or on any floor, in or on which any process of preparation of meat or of fat for sale for human food is, or usually is, carried on.

(4) No person shall use, or suffer to be used, any room or place for the boning, curing, canning, salting, mincing, or other similar process of preparation of meat or fat of animals for human food, unless its internal walls are constructed of bricks, tiles, stone, cement, or other material impervious to water, which shall at all times be kept constantly clean, either by washing with water or by lime-washing from time to time:

Provided that such walls may be constructed of wood, if the internal surfaces be covered with smooth iron, painted white, to a height of 6 feet from the floor, and if the portion of the walls above the iron be kept constantly clean, either by washing with water or by lime-washing from time to time, or by time-washing from time to time.

(5) No person shall use any room or place for the boning, curing, canning, salting, mincing, or other similar process of the manipulation of meat or fat of animals for sale for human food, which is in direct communication with a stable, urinal, privy, or water-closet, unless it has in it an opening into any drain or sewer.

(6) A copy of this Regulation, as supplied on demand by the Department of Public Health, shall be conspicuously displayed in every place where the boning, curing, canning, salting, mincing, or other similar process of preparation of the meat or fat of animals for sale for human food is carried on, and shall be there constantly maintained clean, visible, and legible by the proprietor, manager, and person in charge thereof.

(7) If any person contravene any of the provisions of this Regulation he shall be liable to a penalty not exceeding $200.

REGULATION 28.—LABELLING FOR CONSUMPTION BY MAN.

(1) Gelatine sold for consumption by man shall be the clean, wholesome product obtained from skin, membranes, bones, and other collagenous bodies. It shall yield not more than three parts per centum of ash.

A five per cent. aqueous solution shall form a stiff jelly. A five per cent. aqueous solution shall not become alkaline, or emit any unpleasant odour, after standing for two days exposed to the air at a temperature of 80° F.

Preservative.

(2) The preservative substance, or a preparation of the preservative substance, sulphur dioxide, may be mixed with gelatine in proportions not exceeding three and one-half grains of sulphur dioxide to the pound of dry, marketable gelatine sold for consumption by man.

Labelling.

(3) There shall be written on or attached to every package which contains gelatine sold for consumption by man a statement or label on which is written in bold-faced sans-scriff capital letters of not less size than six points face measurement, the words "For food."

REGULATION 29.—EDIBLE OILS AND FATS.

General Standard for Edible Oils and Fats.

(1) Edible oils and fats shall be the oils and fats commonly recognized as wholesome food substances; they shall be free from rancidity and decomposition, and from offensive odour and taste. They shall not contain any mineral oil.

Labelling.

(2) There shall be written on or attached to every package which contains a mixture of edible oils or fats of diverse origin a statement or label, on which is written in sans-scriff capital letters of not less size than six points face measurement, a statement of the kinds of oils and fats which the mixture contains.

Olive Oil.

(3) Olive oil shall be the oil obtained by cold expression from the sound, mature fruit of the cultivated olive tree (Olea europaeus, L.); it shall have a specific gravity of from 0.914 to 0.919, at a temperature of 60° F., and an iodine value between 120 and 135, and an saponification value of 192 to 206.

It shall conform with the general standard for edible oils and fats.

Labelling.

(5) No person shall sell any package containing any oil which does not conform to the standard for olive oil and to the general standard for edible oils and fats, on or to which is written or attached the word "Olive" or the word "Olive" or any expression which includes the said words or either of them:

Provided that this paragraph shall not apply to a statement of the kinds of oil contained in a mixture of oils and fats, as required by paragraph (2) of this regulation.

REGULATION 30.—MARGARINE.

(1) The term "margarine" shall include every preparation of animal or vegetable fat or oil churned in direct communication with milk or separated milk, which is intended to be, or which may be, in direct communication with a stable, urinal, privy, or water-closet, and which is in an open drain or sewer.

(2) No person shall sell margarine unless (a) it is mixed with not less than five parts per centum of weight of some oil (eacarnum indicae or secanum orientalis); (b) it conforms with the general standard for edible oils and fats; (c) it does not contain more than sixteen parts per centum of water; (d) it does not contain any added substance; (e) it is labelled, with the name and address of the manufacturer of the same, in not less than six points face measurement.

(6) A copy of this Regulation, as supplied on demand by the Department of Public Health, shall be conspicuously displayed in every place where the preparation, packing, and sale of margarine is carried on.
not contain any added colouring matter, nor any other substance, save salt (sodium chloride) and preservative.

Provided that an additional proportion of sesame oil, or of some other edible vegetable oil, may be added to margarine if desired.

(2) The preservative substance, or a preparation of the preservative substance, boric acid may be added in proportion not exceeding one half of one part of boric acid per centum.

Labelling.

(3) There shall be written on or attached to every package which contains margarine a statement or label, on which is written in black sans-serif capital letters of not less size than eighteen points face measurement, the word "Margarine."

(4) There shall be conspicuously attached to every vessel used to hold margarine for consumption on the premises by customers in any place where food is sold, the word "Margarine," written in black sans-serif capital letters of not less size than eighteen points face measurement.

(5) The words "Butter" and "Butterino," and expressions which include the said words, may not be written on the statement or label written on, or attached to, any package which contains margarine, nor on any vessel used as aforoaid.

REGULATION 31.—Milk, Cream, and Skim- or Separated-Milk.

(1) Milk shall be the normal, clean, and sweet secretion obtained from the udder of the healthy cow properly fed and kept, excluding that got during the ten days immediately following on parturition. It shall contain not less than eight and five-tenths parts per centum of milk-solids not fat, and three and two-tenths parts per centum of milk fat. It shall not contain any added water nor any foreign substance.

(2) It shall contain not less than twenty-six and four-tenths parts per centum of milk-solids not fat. It shall not contain any added water nor any foreign substance.

(3) There shall be written on or attached to every package containing condensed skim- or separated-milk in the following form, directions for making, with its contents, milk or cream:—

**REGULATION 32.—Condensed Milks.**

 Unsweetened Condensed Milk.

(1) Unsweetened condensed milk shall contain not less than twenty-four and five-tenths parts per centum of milk-solids not fat, and seven and seven-tenths parts per centum of milk-fat. It shall not contain any foreign substance.

(2) Sweetened condensed milk shall contain not less than twenty and four-tenths parts per centum of milk-solids not fat, and not less than eight and five-tenths parts per centum of milk-fat. It shall not contain any foreign substance save sugar.

Labelling.

(3) There shall be written on or attached to every package containing condensed milk a statement or label, on which shall be written, in sans-serif capital types of not less size than six points face measurement, directions for making, with its contents, milk of composition at least equal to that of fresh milk, as standardised by Regulation 31, in the following form:—

To make milk not below the composition of fresh milk with the contents of this package add [here insert the number of parts] parts of water.

Provided that the presence of sugar in the contents of any such package, when diluted in accordance with such statement, shall not be deemed to constitute a contravention of the Regulations.

Condensed Skim or Separated Milk.

(4) Condensed skim- or separated-milk shall be skim- or separated-milk, i.e., milk from which a considerable proportion of water has been evaporated. Its fat-free liquid shall contain not less than twenty-six and four-tenths parts per centum of milk-solids not fat. It shall not contain any foreign substance.

REGULATION 33.—Perserving the Method of Labelling Vessels Containing Skimmed or Separated Milk.

No person shall carry for sale in any can or other vessel any skim-milk or separated-milk unless the said can or vessel is durably marked with the following words:—

"SKIMMED MILK."

or (alternatively) "SEPARATED MILK."

The said words shall be written on the side, shoulder, or neck of the can or other vessel in bold-faced sans-serif capital letters of not less size than two points face measurement, in black ink on a white ground.

REGULATION 34.—For Securing Cleanliness and Freedom from Contamination of Milk.

(1) No person shall allow his hands or any part of his body to come into contact with any milk for sale.

(2) No person shall apply to his mouth any vessel or utensil which contains, or which comes into contact with, any milk for sale.

(3) No person shall keep, store, carry, or place, or suffer to be kept, stored, carried, or placed, any milk for sale or in course of delivery to any customer, so as to be exposed to flies or dust, or so as to be accessible to any animal.

(4) No person shall keep, measure, carry, or deliver any milk for sale, or cause or suffer any such milk to be kept, measured, carried, or delivered, in any vessel which is not clean.

(5) No person shall use any vessel with rough or torn edges or surface for containing, measuring, or carrying any milk for sale or for delivery to any customer.

(7) No person shall store, keep, or sell milk in any place in which is stored, kept, or sold any pork, hogs, vegetables, fish, meat (except meat in hermetically sealed tins), or any other substance by which milk for sale is, or is liable to be, contaminated; nor in any room used as a sleeping-room, whether continuously or occasionally.

(8) No person shall milk any cow, or cause or suffer any cow under his control to be milked, for the purpose of obtaining milk for sale—

(a) unless at the time of milking the udder and teats of the cow are clean;

(b) unless the hands of the person milking such cow are clean and free from all contamination or infection.

(9) No person shall use, or suffer or cause to be used, for cleaning or for helping to close, any churn, tin, or other vessel containing milk for sale, any cotton, canvas, paper, wood, or other absorbent material.

(10) In every place where milk is sold, and in every place where milk is gathered, milk shall be kept, measured, carried, or delivered in a can or vessel which is durably marked with the following words:—

"S E R E A T E D M IL K."

(11) If any person contravene any of the provisions of this Regulation, he shall be liable to a penalty not exceeding £20.
REGULATION 35—Butter.

General Standard for Butter.

(1) Butter shall be the fatty substance obtained by churning milk or cream. It shall conform with the general standard for edible oils and fats. It shall contain not less than eighty-two parts per centum of milk-fat in its water-free substance. It shall not contain more than sixteen parts per centum of water. It shall not be mixed with any foreign fat, and it shall not contain any added colouring matter or other added substance, save salt (sodium chloride) and preservative.

Preservatives.

(2) The preservative substance, or a preparation of the preservative substance, boracic acid, may be mixed with butter in proportion not exceeding one-half of one part per centum of water. It shall conform with the general standard for edible oils and fats, and it shall not contain any foreign fat.

(3) Renovated or process butter shall be the product obtained by reworking butter without the addition of any substance except milk, cream, water, and salt. It shall contain not less than eighty-two parts per centum of milk-fat, and not more than sixteen parts per centum of water. It shall conform with the general standard for edible oils and fats, and it shall not contain any foreign fat.

Renovated or Process Butter.

(4) There shall be attached to every package which contains renovated or process butter a statement or label, on which shall be written in bold-faced sans-serif capital letters, not less than thirty points face measurement, in black ink on a white ground, the words "Renovated butter."[1]

REGULATION 36—Cheese.

General Standard for Cheese.

(1) Cheese shall be the solid or semi-solid product obtained by coagulating milk with rennet or acid, with or without the addition of ripening ferments, seasonings, common salt, and harmless vegetable colouring matter. It shall contain not less than fifty parts per centum of milk-fat, and not more than one-half of one part per centum of water. It shall contain not less than eighty-two parts per centum of milk-fat in its water-free substance, and it shall not contain any foreign fat.

Skim-milk Cheese.

(2) Skim-milk cheese shall be cheese made from milk from which part of its fat has been removed; it shall contain not less than ten parts per centum of milk-fat in its water-free substance.

Labelling.

(3) There shall be attached to every package which contains skim-milk cheese a statement or label, which shall be written in bold-faced sans-serif capital letters of not less size than thirty points face measurement, in black ink on a white ground, the words "Skim-milk cheese."[2]

REGULATION 37—Tea.

General standard for Tea.

(1) Tea shall be the leaves and leaf-buds of species of Thea, prepared by fermenting, drying, and firing: it shall not contain any exhausted or partly exhausted leaves, nor any foreign matter, and it shall not be inferior in composition, nor in quality, to the standard fixed by the Minister for Trade and Customs under the provisions of the Commonwealth Customs Act, and for the time being in force.

Tea Dust.

(2) Tea dust, and tea siftings or fannings, shall be respectively the dust and the siftings or fannings in which the ingredients of the mixture are present, uniformly written, in bold-faced sans-serif capitals of not less size than six points face measurement, in the following form:

"Tea dust, containing not more than (here insert the number of parts per centum of tea) parts of tea dust, and not less than one-half of one part per centum of tea naturally present in the tea."

REGULATION 38—Coffee.

General Standard for Cocoa.

(1) Cocoa-beans shall be the seed of Theobroma cacao L.; cocoa-nibs, or cracked cocoa, shall be roasted, broken, cocoa-nibs or cocoa and any other wholesome food-stuff into its shell or in whole, or by any means or mixture in which the ingredients of the mixture are present uniformly written, in bold-faced sans-serif capitals of not less size than six points face measurement, two and two-thirds parts per centum of coffee extract mixed with any other food-stuff, a statement or label on which the words "coffee-and-chicory-mixture" are written in larger letters than any other letter on the statement or label, immediately followed by a statement of the percentage proportions in which the ingredients of the mixture are present, uniformly written, in bold-faced sans-serif capitals of not less size than six points face measurement, and in the following form:

"This mixture contains (here insert the number of parts per centum of coffee) parts of coffee and (here insert the number of parts per centum of chicory) parts of chicory."

Coffee and Chicory Mixture.

(2) Ground coffee shall contain not less than ten parts per centum of fat, more than one part per centum of saccharine matter, and not more than six parts per centum of ash (of which the proportion soluble in water shall be not less than seventy-five parts per centum); it shall not contain any added substance.

Chicory.

(3) Chicory shall be the dried and roasted root of Cichorium intybus.

Coffee Essence.

(4) Coffee-and-chicory mixture shall be a mixture of ground coffee and ground chicory; it shall not contain any added substance.

Labelling.

(5) There shall be written on or attached to every package which contains coffee mixed with chicory a statement or label on which the words "coffee-and-chicory-mixture" are written in larger letters than any other letter on the statement or label, immediately followed by a statement of the percentage proportions in which the ingredients of the mixture are present, uniformly written, in bold-faced sans-serif capitals of not less size than six points face measurement, and in the following form:

"This mixture contains (here insert the number of parts per centum of coffee) parts of coffee and (here insert the number of parts per centum of chicory) parts of chicory."

Coffee Essence.

(6) Coffee essence or coffee extract shall be an extract of coffee; it shall contain not less than one-half of one part per centum of cafeine naturally present in the coffee.

Labelling.

(7) There shall be written on or attached to every package which contains coffee extract mixed with any other wholesome food-stuff a statement or label, on which shall be uniformly written in sans-serif capitals of not less size than six points face measurement, the percentage proportion of coffee essence contained in it, in the following form:

"This mixture contains (here insert the number of parts per centum of coffee) parts of coffee essence."

Provided, that no such mixture shall contain less than fifty parts per centum of coffee essence or extract.

REGULATION 39—Cocoa.

General Standard for Cocoa.

(1) Cocoa-nibs shall be the solid or semi-solid mass produced by grinding cocoa-paste deprived or not deprived of one part per centum of its fat with alkali or alkaline salts; it shall contain not more than three parts per centum of total ash; not more than five and one-half parts per centum of crude fibre; not more than eight parts per centum of total ash; not more than five and one-half parts per centum of ash insoluble in water, and not more than two-halves of one part per centum of ferric oxide.

Cocoa Powder.

(2) Cocoa, or powdered cocoa, shall be powdered cocoa-paste, deprived or not of a portion of its fat; its fat-free residue shall conform with the general standard for cocoa.

Soluble Cocoa.

(4) Soluble cocoa or cocoa-essence shall be the product obtained by treating cocoa-paste deprived or not of a portion of its fat with alkaline or alkali salts; it shall contain not more than three parts per centum of added alkali or alkali salts, estimated as potash, and its fat- and alkali-free residue shall conform with the general standard for cocoa.

Prepared Cocoa.

(5) Prepared, compound, homoeopathic, or sweetened cocoa shall be cocoa-powder mixed with other wholesome food-stuffs; it shall contain not less than forty parts per centum of cocoa-powder, and its fat- and alkali-free cocoa content shall conform with the general standard for cocoa.

Labelling.
(6) There shall be written on or attached to every package which contains prepared, compounded, homœopathic, or sweetened cocoa, a statement or label on which is uniformly written in sans-serif capitals of not less size than six points face measurement, a statement in the following form:

Prepared cocoa, compounded cocoa, homœopathic cocoa, or sweetened cocoa. (as the case may be) containing not less than (here insert the number of parts per cent.) of cocoa.

(7) Chocolate-paste, confectoners' chocolate, chocolate coating, and chocolate powder shall be cocoa-paste mixed with sugar, with or without addition or subtraction of cocoa-fats, and of spices or harmless flavourings. They shall respectively contain not less than thirty-two parts per centum of cocoa-paste, and their sugar-, fat-, and spice-free residue shall conform with the general standard for cocoa.

(8) The addition of cocoa-lucks, any worthy substance, paraffin, or foreign fat, to cocoa or to any preparation of cocoa is hereby prohibited.

**Regulation 40—Spices and Condiments.**

**Cinnamon.**

(1) Cinnamon shall be the dried bark of Ointumomum zeylanicum, from which the outer layers may or may not have been removed.

(2) Cassia and Cassia-buds shall be respectively the bush and the dried immature fruit of Ointumomum cassia.

(3) Powdered cinnamon shall not contain any cassin or other foreign vegetable or mineral substance.

**Cloves.**

(4) Cloves shall be the dried flower-buds of Eugenia caryophyllata. They shall not contain any exhausted or partly exhausted cloves, or any foreign vegetable or mineral substance, nor more than five parts in one hundred parts by weight of clove stems.

(5) Ginger shall be the washed and dried, or the decocted and dried, rhizome of Zingiber officinale; it shall not contain any exhausted or partly exhausted ginger, or any foreign vegetable or mineral substance.

(6) Ground ginger shall not contain any exhausted or partly exhausted ginger, or any foreign vegetable or mineral substance.

**Mace and Nutmeg.**

(7) Mace shall be the dried arillies of Myristica fragrans; it shall not contain the arillus of any other variety of Myristica, including M. malabirica or "Wild Mace".

(8) Nutmeg shall be dried seed of M. Nutmeg, deprived of its testa.

(9) Ground mace shall not contain any foreign substance.

**Black Pepper.**

(10) Black pepper shall be the dried immature berry of Piper nigrum L.; it shall contain not less than six parts per centum of extract soluble in ether, nor more than seven parts per centum of total ash, and not less than eight parts per centum of extractive matter soluble in ethyl alcohol.

**White Pepper.**

(11) White pepper shall be the dried mature berry of Piper nigrum L. from which the outer coating has been removed; it shall contain not less than six parts per centum of extract soluble in ether, nor more than three and one-half parts per centum of ash, and not less than seven parts per centum of extractive matter soluble in ethyl alcohol.

** Cayenne Pepper.**

(12) Cayenne pepper, or cayenne, shall be the dried fruit of various species of Capsicum; it shall contain not less than fifteen parts per centum of other extractives, and not more than six parts per centum of total ash; it shall not contain any added substance.

**Ground Pepper.**

(13) Ground pepper shall be ground white or black pepper; it shall not contain any added substance.

(14) Ground pepper may be mixed with flour of any wholesome origin, provided that the proportion of added flour shall in no case be greater than fifty parts of flour to fifty parts of ground pepper.

**Labeling.**

(15) There shall be written on or attached to every package which contains ground pepper mixed with flour a statement or label, on which the words "Pepper-Mixture" are written in larger letters than any other letter on the statement or label, immediately followed by a statement of the percentage proportions in which the ingredients of the mixture are present, written in sans-serif capital letters of not less size than six points face measurement, and in the following form:

**PEPPER MIXTURE.**

Containing not more than (here insert the number of parts per cent of flour) parts of (here insert the name of the kind of flour) to (here insert the number of parts per cent of pepper) parts of ground pepper.

**Mustard Flour.**

(16) Mustard flour shall be the ground seed of Sinapis alba, Brassica juncea, and Brassica napus; one hundred parts shall not yield more than eight parts of oil; it shall not contain any added substance, except wheaten flour; Provided that the proportion of wheaten flour shall not be more than two and a half parts per centum.

**Mustard Pastes.**

(17) Mustard pastes shall be mustard flour mixed with water, salt (sodium chloride), verjuice, white wine, vinegar, tartaric or citric acid, sugar, turmeric, and added sugar singly or in combination. Mustard pastes shall not contain the flour of any foreign seed, dextrose, or added mineral matter save salt (sodium chloride).

**Regulation 41—Sauces.**

**General Standard for Sauces.**

(1) Sauces shall be liquid or semi-liquid mixtures of wholesome food-stuffs with spices and condiments, with or without harmless colouring and flavouring substances.

**Tomato Sauce.**

(2) Tomato sauce shall be prepared from the pulp of sound and ripe tomatoes; it shall conform with the general standard for sauces, and it shall not contain any foreign vegetable substance, save spices and condiments.

**Regulation 42—Vinegar.**

**General Standard for Vinegar.**

(1) Vinegar shall be the liquid derived from alcoholic and acetic fermentations; it shall contain not less than four parts of acetic acid in one hundred parts, and it shall not contain any sulphuric or other mineral acid, lead, or copper, nor shall it contain any added substance, except caramel.

**Varieties.**

(2) Malt vinegar, wine vinegar, apple or cider vinegar, and fruit vinegar shall be prepared from an infusion of malt or of cereals whose starch has been converted by malt, from wine, from apples, and from other fruits, respectively, and shall conform with the general standard for vinegar.

Sugar vinegar shall be vinegar prepared from a solution of sugar; malt-and-sugar vinegar shall be vinegar prepared from malt and sugar; honey vinegar shall be vinegar prepared from honey; glucose vinegar shall be vinegar prepared from a liquid containing glucose; spirit or alcohol vinegar shall be vinegar prepared from distilled and diluted alcohol; malt-and-alcohol or malt-and-spirit vinegar shall be vinegar prepared from malt and distilled and diluted alcohol.

Sparrow vinegar, honey vinegar, malt-and-sugar vinegar, malt-and-alcohol vinegar, spirit or alcohol vinegar, and malt-and-alcohol or malt-and-spirit vinegar, shall conform with the general standard for vinegar.

Distilled vinegar shall be the distillate of a vinegar which conforms with the general standard for vinegars; it shall contain not less than four parts of acetic acid in one hundred parts, and it shall not contain any added substance.

**Labeling.**
(3) There shall be written on or attached to every package which contains vinegar a statement or label, on which shall be written, in bold-faced sans-serif capitals of not less than twenty-four points face measurement, the word "vinegar," (or alternatively the words "brewed vinegar," or "acetic mixture") accompanied with a statement of the material or materials from which the vinegar was brewed, written in bold-faced sans-serif capitals of not less than twenty-four points face measurement, and in the following form:

"Brewed from [here insert the names of the materials from which the contents were brewed]."

Vinegar Substitutes.

(4) Acetic mixtures sold for the purpose of being used, or which may be used, as vinegar shall be dilutions of pure acetic acid in water, containing not less than four parts of acetic acid in one hundred parts; they shall not contain any sulphuric or other mineral acid, lead, or copper, nor any added substance, except caramel.

Labeling.

(6) There shall be written on or attached to every package which contains an acetic mixture sold for the purpose of being used, or which may be used, as vinegar, whether or which may be sold for the purpose of being used, or which may be used, as vinegar, unless it be conjoined with the word "substitute." The word "vinegar" (or alternatively the words "brewed vinegar") accompanied with a statement of the material or materials from which the vinegar was brewed, is uniformly written in bold-faced sans-serif capitals of not less size than twenty-four points face measurement.

Prohibition.

(6) The word "vinegar," and expressions which include the word "vinegar," shall not be written on any label or label or label or description on or attached to a package which contains an acetic mixture sold for the purpose of being used, or which may be used, as vinegar, unless it be conjoined with the word "substitute."
(No person shall sell any ice-cream or ices of which the nature or flavouring is indicated or declared by the name of any fruit or fruits, flavoured wholly or in part with any substance save the fruit or fruits named, unless the said name is combined with the word "flavour" or "flavouring.

REGULATION 49—PROVIDING FOR THE CLEANLINESS AND AVOIDANCE FROM CONTAMINATION OF ICE-CREAM AND ICES.

(1) No person shall for sale manufacture, store, or deposit any ice-cream or ices, or suffer them to be manufactured, stored, or deposited in any room or building—

(a) Unless such room or building is provided with tight, close-jointed walls and floors.

(b) Unless the internal walls are covered with tiles, smooth iron, or smooth plaster, cement, or wood, painted or colour-washed or frequently limewashed.

(c) Unless the floors are constructed of cement, concrete, tiles, or well-smoothed wood.

(d) Unless it is well lighted and ventilated.

(e) Unless all interior surfaces of the walls and floor thereof are kept constantly clean.

(2) No person shall manufacture, store, or deposit any ice-cream or ices for sale, or suffer them to be manufactured, stored, or deposited in any open shed or unenclosed space.

(3) No person shall manufacture, store, or deposit ice-cream or ices, or suffer them to be manufactured, stored, or deposited in any dwelling-room or in any room communicating directly with a privy- or water-stored, or deposited in any dwelling-room or in any room or building—

(a) Unless the name or names of the fruit or fruits contained in the package are written in types of not less size than eighteen points face measurement.

(b) Unless the internal walls are covered with tiles, smooth iron, or smooth plaster, cement, or wood, painted or colour-washed or frequently limewashed.

(c) Unless the floors are constructed of cement, concrete, tiles, or well-smoothed wood.

(d) Unless it is well lighted and ventilated.

(e) Unless all interior surfaces of the walls and floor thereof are kept constantly clean.

(4) No person engaged in the manufacture or sale of ice-cream or ices shall suffer his hands or any part of his person to come in contact with any ice-cream or ices.

(5) No person shall manufacture, store, or deposit any ice-cream or ices in any vessel which is not clean; and every person engaged in the manufacture or sale of ice-cream or ices shall at all times maintain all vessels and utensils used for containing or coming in contact with ice-cream or ices in a condition of cleanliness.

(6) No person shall sell any ice-cream or ices which, after having been once frozen, have run down or melted and which have been again frozen.

(7) A copy of this Regulation shall be conspicuously displayed in every place where ice-cream or ice is sold, and where ice-cream or ices are made for sale, and shall be there constantly maintained clean, visible, and legible, by the proprietor, manager, and person in charge thereof.

(8) If any person contravenes any of the provisions of this Regulation he shall be liable to a penalty not exceeding £20.

REGULATION 50—FRUIT AND FRUIT PRODUCTS.

Preserved Fruit.

(1) Preserved fruit shall be any sound fruit or fruit substance preserved either by drying or by immersion in fruit-juice or in water. It shall not contain any added substance save sugar.

Labelling.

(2) There shall be written on or attached to every package of preserved fruit a statement or label, on which the name or names of the fruit or fruits contained in the package are written in types of not less size than eighteen points face measurement.

REGULATION 51—JAM, AND CONSERVE, AND MARMALADE.

Jam and Conserve.

(1) Jam and conserve shall be products obtained by boiling sound citrus fruits with sugar; it shall not contain any added substance.

Labelling.

(2) Marmalade shall be the product obtained by boiling sound citrus fruits with sugar; it shall not contain any added substance.

Labelling.

(3) There shall be written on or attached to every package which contains jam, conserve, or marmalade a statement or label, on which shall be written, in types of not less size than eighteen points face measurement, the word "jam," "conserve," or "marmalade," as the case may require. In the case of jam or conserve, there shall also be uniformly written on the said statement or label, in bold-faced capital types of not less size than eighteen points face measurement, the name of the fruit from which the contents of the package have been prepared.

Marmalade.

REGULATION 52—JELLY CRYSTALS.

Fruit-jelly Crystals.

(1) Fruit-jelly crystals shall be a confection of gelatine, sugar, and citric or tartaric acid, flavoured with wholesome substances wholly derived from fruits or from other sound vegetable substances.

Labelling.

(2) There shall be written on or attached to every package which contains fruit-jelly crystals a statement or label on which the words "fruit-jelly crystals" are uniformly written in bold-faced types of not less size than eight points face measurement, which words may be accompanied by any word descriptive of the character of the flavouring.

Jelly Crystals.

(3) Jelly crystals shall be a confection of gelatine, sugar, and citric or tartaric acid, coloured and flavoured with harmless colouring matters and with harmless flavouring substances.

Labelling.

(4) There shall be written on or attached to every package which contains jelly crystals a statement or label on which the words "jelly crystals" are uniformly written in bold-faced types of not less size than eight points face measurement, which words may be accompanied by any word descriptive of the character of the flavouring.

REGULATION
REGULATION 53—DIETETIC ESSENCES.

General Standard for Essences.

(1) Essences shall be solutions of wholesome flavouring substances in ethylic alcohol or in water, with or without harmless colouring matter.

(2) Essences shall be free from foreign substances, and shall conform with the general standard for essences.

Oil of Lemon.

(3) Oil of lemon shall be the volatile oil obtained by expression or alcoholic solution from the fresh peel of the lemon (Citrus limonem, L.); it shall have an optical rotation of not less than plus 59° in a 100 m.m tube, and it shall contain not less than four parts per centum by weight of citral.

Terpeneless Essence of Lemon.

(4) Terpeneless essence of lemon shall be the flavouring extract, prepared by dissolving terpeneless oil of lemon in dilute alcohol or water; it shall contain not less than two-tenths of one part per centum by weight of citral derived from oil of lemon, and shall conform with the general standard for essences.

Terpeneless Oil of Lemon.

(5) Terpeneless oil of lemon shall be oil of lemon from which all, or nearly all, the terpene have been removed.

Vanilla Bean.

(6) Vanilla bean shall be the dried fruit of Vanilla planifolia (specios), containing the odoriferous principle, or skadhye, known as vanilla.

Vanilla Essence.

(7) Vanilla essence shall be an alcoholic extract of vanilla bean, and shall contain not less than two-tenths of one part per centum of natural vanilla; it shall conform with the general standard for essences.

Vanilla Substitutes—Labelling.

(8) There shall be written on or attached to every package containing a substance which consists wholly or in part of a substitute for vanilla, a statement or label on which shall be uniformly written in sans-serif capitals of not less size than six points face measurement the words "Vanilla-substitute."

Prohibition.

(9) The word "vanilla" shall not be written on the statement or label attached to a package containing a substance which consists wholly or in part of a substitute for vanilla unless accompanied with the word "substitute," in the following form:—"Vanilla-substitute."

REGULATION 54—CITRIC AND TARTRIC ACID.

Citrin and tartric acids shall not contain more than one one-hundredth of a grain of arsenic (calculated as arsenious oxide) nor more than one-seven-hundredth of a grain of lead to the pound.

REGULATION 55—POTABLE WATER.

For the purposes of the Regulations, potable water shall be water which has been distilled, or which has been filtered through a Denlon's porcelain, Berkfeld, Fastour Chamberland, Abbott, or Finsaco candle, or a Delphin candle made in one piece, and which has been so kept between distillation or filtration (as the case may be) and bottling for sale, as to preserve it from contamination.

REGULATION 56—ARERATED WATERS.

General Standard for Aerated Waters.

(1) Aerated waters shall be potable water impregnated with carbon dioxide, or with oxygen, or with both, under pressure, with or without admixture of soda, potash, lithia, or any like salts; it shall not contain any lead or other poisonous metals, nor any added foreign substance.

Soda Water.

(2) Soda water shall be an aerated water, with or without admixture of sodium carbonate or sodium bicarbonate.
(3) Expressions which indicate that the contents of any package which contains an artificial cordial or syrup consist wholly or in part of natural fruit juices shall not be written on the statement or label attached to any such package.

Preservative.

(4) The preservative substance, or a preparation of the preservative substance, sulphur dioxide, may be added to artificial cordials or syrups in proportions not exceeding two grains of sulphur dioxide to the pint.

REGULATION 60—LIME JUICE.

(1) Lime juice shall be the expressed juice of the fruit of Citrus medica, variety acida; it shall contain not less than six parts per centum of citric acid, naturally present in the fruit from which it has been produced. It shall not contain any added citric acid.

(2) Lime juice cordial or syrup shall be composed of lime juice, sugar, and potable water, it shall not contain any added substance.

Preservative.

(3) The preservative substance or a preparation of the preservative substance, sulphur dioxide, may be added to lime juice and to lime-juice cordial or syrup, in proportion not exceeding two grains of sulphur dioxide to the pint.

REGULATION 61—NON-EXCISABLE FERMENTED DRINKS.

(1) Non-excisable fermented drinks shall be composed of boiled water, vegetable extracts or infusions, and sugar, with or without the addition of harmless distoict essences, citric or tartaric acid, and harmless colouring matter. They shall contain not more than two parts per centum of proof spirit, and not more than traces of sulphur dioxide unavoidably derived from the processes of fining and of cleaning casks.

Preservative.

(2) The addition of saccharin to non-excisable fermented drinks in proportion not exceeding three grains to the gallon, is hereby permitted.

REGULATION 62—SUMMER OR TEMPERANCE DRINKS.

General Standard for Summer or Temperance Drinks.

(1) Summer or temperance drinks shall be composed of potable water, sugar, and harmless distoict essences, infusions, and spirits, or proportioned to spirit and water, with or without citric or tartaric acid, and with or without harmless colouring matter.

Preservative.

(2) The preservative substance, or a preparation of the preservative substance, sulphur dioxide, may be added to summer drinks, in proportion not exceeding one grain of sulphur dioxide to the pint.

REGULATION 63—QUININE TONIC WATERS.

There shall be written on or attached to every package which contains a drink the name or trade description of which includes the word "quinine," a statement or label, on which shall be written in non-serif capital types, of not less size than six points face measurement, the proportion of quinine therein contained.

The proportion of quinine contained in a drink sold under the said name or trade description shall be not less than one-third of one grain to the pint.

REGULATION 64—STANDARD OF STRENGTH FOR SPIRITS.

The standard of strength for spirits shall be as follows:

Brandy, not more than 25 degrees underproof.
Whisky, not more than 25 degrees underproof.
Rum, not more than 35 degrees underproof.
Gin, not more than 35 degrees underproof.

REGULATION 65—DRUGS.

(1) Drugs which are not included in the latest edition with amendments of the British Pharmacopoeia and British formulary are included in the latest edition of the British Pharmaceutical Codex shall conform to the descriptions and tests respectively prescribed for them in the said Codex, unless otherwise standardised in these Regulations, or in any Act in force in New South Wales, or in Regulations made thereunder:

Provided that the drugs described in the said Codex below mentioned shall not be adulterated in so far as they are compounded with an Australian wine containing not more than sixteen parts per centum of ethyl alcohol:

Unguentum Acidii Carbolicii Compositum.
Unguentum Adipsi Latrei.
Unguentum Diocclii.
Unguentum Calamine.
Unguentum Mentholis.
Unguentum Succinii Compositum.

Provided further that the drugs described in the said Codex below mentioned shall not be adulterated in so far as they are compounded with an Australian wine containing not more than sixteen parts per centum of ethyl alcohol:

Vinum.
Vinum Condurangii.
Vinum Ergotis.
Vinaue Ferris citrisis.
Vinum Ferris et quininae.
Vinum Pepsini.
Vinum Hum.
Vinum Opis.

(2) A drug bearing a name recognised in the British Pharmaceutical Codex, which does not conform to the description and tests prescribed in the said Codex, and which is not standardised in the Act or in the Regulations shall not be deemed to be adulterated if it be labelled so as to indicate a different standard of strength, quality, or purity, and if conformity to its labelled standard:

Provided that no such drug shall be sold unless it is specifically demanded by the purchaser.

(3) Every pharmacist who supplies any drug on a prescription or order signed by a legally qualified medical practitioner containing a direction that the drug prescribed may be supplied a stated number of times, shall each time he supplies the drug write in durable and legible letters on the prescription or order a statement that he has supplied it in the following form:

to a statement of the quantity of each branded and which is not standardised in the Act, 1908, section 5, subsection (k), which requires that every packet containing chloroform shall on a label attached thereto bear a statement of the quantity of any chloroform contained therein, namely:

Every mixture which contains chloroform in proportion not exceeding one-fourth of one part per centum of chloroform.

REGULATION 66—DECLARATION OF CERTAIN DRUGS.

(1) There shall be written on or attached to every package which contains any of the substances, or preparations, derivatives, or alkaloids of any of the substances named in this Regulation, a statement or label, on which shall be written in non-serif capital types, of not less size than six points face measurement, a statement of the name of the substance or substances, or of the preparation, derivative, or alkaloid of the substance or substances, contained in it in the following form:

This mixture (or alternatively the contents of this package) includes [here insert the name of the drug or drugs required to be declared], and the quantity or proportion of each enstained in the mixture or package.

Acetanilide.
Adrenalinu extracts and preparations of.
Arsenic.
Barium.
Barbital.
Beta cyanine.
Bromide.

This mixture includes [here insert the name of the drug or drugs required to be declared], and the quantity or proportion of each enstained in the mixture or package.
REGULATION 67—EUCALYPTUS OIL.

(1) Eucalyptus oil prepared for internal use by man shall be the colourless or pale yellow oil distilled from the leaves of various species of eucalyptus, subsequently rectified, and possessing a characteristic aromatic odour and pungent cooling taste. Its specific gravity, at a temperature of 60°F., shall be from 0.910 to 0.930. It shall contain not less than five parts per centum by weight of fatty acids; and its refractive index at 60°F. shall be below 1.4950.

Labelling.

(2) There shall be written on or attached to every package containing eucalyptus oil which is sold for internal use by man a statement or label, on which shall be written in sans-serif capital types of not less size than twelve points face measurement, the words "For internal use only," in cases where the package contains eucalyptus oil in respect of which the provisions of this Regulation have not been complied with.

REGULATION 68—CASTER OIL.

Labelling.

There shall be written on or attached to every package containing castor oil which is sold for internal use by man a statement or label, on which shall be written in sans-serif capital letters of not less size than six points face measurement, the words "For internal use only." No person shall sell any package containing castor oil in respect of which the provisions of this Regulation have not been complied with.

REGULATION 69—SOAP.

General Standard for Soap.

(1) Soap shall be a product derived from the action of a solution of alkali on fats, oils, or resin; it shall contain not less than fifty-one parts per centum of fatty acids, not more than one-tenth of one part per centum of free or soluble fatty acids, and not more than three parts per centum of carbonate of soda. It shall not contain any other substance, save water, perfume, and harmless colouring matter.

Provided, that resin acids shall be reckoned as fatty acids.

Soap Mixture.

(2) Soap mixture shall be soap which conforms with the general standard for soap mixed with mineral or vegetable substances, drugs and disinfectants except the total amount of mineral or vegetable substance, or of both together, that is to say, including the proportion of mineral matter permitted by clause (1) of this Regulation, shall not exceed ten parts per centum by weight of any soap mixture.

Provided, that soap mixtures which sold for abrasive purposes, and which cannot be used for personal soialion or for laundry work, may contain any proportion of an abrasive mineral substance.

Labelling.

(3) There shall be written on or attached to every package which contains a soap mixture a statement or label, on which shall be uniformly written in sans-serif capital types of not less size than thirty-six points face measurement, the words "soap mixture" followed by the name of the admixed substance or substances, in the following form:

SOAP MIXED WITH [here insert the name of the admixed substance, or of both together, that is to say, in-]

Medicated Soap.

(4) Medicated soap shall be soap comply conformance with the general standard for soap mixed with a drug or with a disinfectant.

Labelling.

(5) There shall be written on or attached to every package which contains a medicated soap a statement or label, on which shall be written in bold faced sans-serif capital types of not less size than twelve points face measurement, the word "medicated"; the said word may be followed by the word "soap."
(which is sufficient to procure complete solution when hot). The mixture is boiled gently under a reflux condenser for half an hour, and then allowed to cool. The condenser is washed down, and the contents of the flask diluted with about 250 cubic centimeters of water, and neutralised to phenolphthalein. The liquid is then titrated with $\frac{1}{3}$ sulphuric acid until a drop taken from the liquid, and brought into contact, on a white plate with a very dilute aqueous solution of potassium permanganate, shows that neutralisation is complete. The number of cubic centimeters of acid required is subtracted from the number used in a blank experiment, and the result carried out in exactly the same manner, but without any oil of lemon. The figure so obtained, when multiplied by 0.076, gives the weight of citral in 20 grams of oil of lemon.

(b) Fifty grams of essence of lemon are mixed with 20 cubic centimeters of $\frac{3}{4}$ solution of hydroxylamine hydrochloride in 80 per cent alcohol, and to the mixture is added 15 cubic centimeters of boric acid, and if necessary, enough strong alcohol to procure complete solution when hot. The mixture is boiled gently under a reflux condenser for half an hour and then allowed to cool. The condenser is washed down, and the flask diluted with about 250 cubic centimeters of water and neutralised to phenolphthalein. The liquid is titrated with $\frac{1}{3}$ sulphuric acid in the manner described under (a). The number of cubic centimeters of acid required is subtracted from the number used in a blank experiment (carried out in exactly the same manner, but without any essence of lemon). The figure so obtained, when multiplied by 0.0152, gives the weight of citral in 50 grams of essence.

REGULATION—ARTICLES OTHER THAN MILK AND CONDENSED MILK: FORM OF ANALYST’S CERTIFICATE.

Every certificate given by an Analyst of the result of his analysis of condensed milk shall be in the following form:

Form No.  
Analyst No.  
"PURE FOOD ACT, 1908."  

I HEREBY certify that I, , an Analyst duly appointed under the provisions of the “Pure Food Act, 1908,” section 24, have analysed a sample of condensed milk delivered to me by on the day of , 19 , marked , and properly sealed and fastened, that I found the seal intact and unbroken, and that the said sample had undergone no change which would have interfered with the analysis. I further certify the result of such analysis to be as follows:

Signed this day of , 19. 
Analyst’s signature  
Address  

REGULATION 73—CONDENSED MILK: FORM OF ANALYST’S CERTIFICATE.

Every certificate given by an Analyst of the result of his analysis of condensed milk shall be in the following form:

Form No.  
Analyst No.  
"PURE FOOD ACT, 1908."  

I HEREBY certify that I, , an Analyst duly appointed under the provisions of the “Pure Food Act, 1908,” section 24, have analysed a sample of condensed milk delivered to me by on the day of , 19 , marked , and properly sealed and fastened, that I found the seal intact and unbroken, and that the said sample had undergone no change which would have interfered with the analysis. I further certify the result of such analysis to be as follows:

Signed this day of , 19. 
Analyst’s signature  
Address  

REGULATION 74—ARTICLES OTHER THAN MILK AND CONDENSED MILK: FORM OF ANALYST’S CERTIFICATE.

Every certificate given by an Analyst of the result of his analysis of any article other than Fresh and Condensed Milk shall be in the following form:

Form No.  
Analyst No.  
"PURE FOOD ACT, 1908."  

I HEREBY certify that I, , an Analyst duly appointed under the provisions of the “Pure Food Act, 1908,” section 24, have analysed a sample of , which was delivered to me by on the day of , 19 , marked , and properly sealed and fastened, that I found the seal intact and unbroken, and that the said sample had undergone no change which would have interfered with the analysis. I further certify the result of such analysis to be as follows:

Signed this day of , 19. 
Analyst’s signature  
Address  

REGULATION 75—FRESH MILK: FORM OF ANALYST’S CERTIFICATE.

Every certificate given by an Analyst of the result of his analysis of fresh milk shall be in the following form:

Form No.  
Analyst No.  
"PURE FOOD ACT, 1908."  

I HEREBY certify that I, , an Analyst duly appointed under the provisions of the “Pure Food Act, 1908,” section 24, have analysed a sample of , which was delivered to me by on the day of , 19 , marked , and properly sealed and fastened, that I found the seal intact and unbroken, and that the said sample had undergone no change which would have interfered with the analysis. I further certify the result of such analysis to be as follows:

Signed this day of , 19. 
Analyst’s signature  
Address  

REGULATION 76—FERMENT TO BE PREPARED FOR ANALYSIS.

The fee to be prepaid by a person who requires any officer to purchase a sample of any food or drug, and submit the same to analysis, shall be twenty shillings.
The fee to be paid for a copy of the result of any analysis of a food, drug, or article, by the person from whom the food, drug, or article was obtained, or by the manufacturer or his agent in New South Wales, shall be five shillings.

REGULATION 77—Penalties for Breaches.

Except where a penalty is otherwise provided in the Act or in these Regulations, any person who contravenes or fails to comply with any provision of these Regulations shall forthwith, on conviction, a penalty of not more than twenty pounds, and for a continuing offence, not more than two pounds for every day during which the offence shall be continued.

"PURE FOOD ACT, 1908."

I HEREBY authorise the following exceptions from so much of the provisions of the "Pure Food Act, 1908," section 12, subsection 4, as requires that they shall be compounded with alcohol, in accordance with the British Pharmacopoeia, and the said drugs shall not be deemed to be adulterated in so far as they are compounded with an equivalent proportion of methylated spirit:

- Linimentum Acetis.
- Linimentum Belladonnis.
- Linimentum Comparris Ammonium.
- Linimentum Saponis.

(2) The following drugs are hereby excepted from so much of the provisions of the "Pure Food Act, 1908," section 12 (4), as requires that they shall be compounded with olive oil or with a part of its (Arachis hypogaea) oil, in accordance with the British Pharmacopoeia, and the said drugs shall not be deemed to be adulterated in so far as they are compounded with olive oil or with a part of its (Arachis hypogaea) oil in accordance with the latest edition with amendments of the British Pharmacopoeia:

- Linimentum Camphor.
- Linimentum Calcis.
- Linimentum Calcisammonium.
- Linimentum Antimoniale.
- Linimentum Aconiti.
- Linimentum Ipecacuanhas.
- Linimentum Terri.
- Linimentum Quinimae.

(3) The following drugs are hereby excepted from so much of the provisions of the "Pure Food Act, 1908," section 12 (4), as requires that they shall be compounded with vinum xencum in accordance with the British Pharmacopoeia, and the said drugs shall not be deemed to be adulterated in so far as they are compounded with an Australian wine containing not more than sixteen parts per centum by weight of ethyl alcohol:

- Vinnum Antimoniale.
- Vinnum Colchici.
- Vinnum Ipecacuanhas.
- Vinnum Terri.
- Vinnum Quinime.

(4) The following drug is hereby excepted from so much of the provisions of the "Pure Food Act, 1908," section 12 (4), as requires that it shall comply with the description given of and tests prescribed for it in the latest edition with amendments of the British Pharmacopoeia:

- Oleum Eucalypti.

Given under my Hand at the Chief Secretary's Office, Sydney, the eleventh day of May, 1910.

W. H. WOOD,
Chief Secretary.
...three parts per cent of solids wholly derived from malt; it shall conform to the characteristics and tests given in the British Pharmaceutical Codex, 1907. Commercialマル抽出物.(2)　Malt-extract shall be the substance obtained by evaporating an aqueous extract of malt; it shall contain not less than seventy parts per centum of solids wholly derived from malt when evaporated at a temperature of 55°C., and it shall conform to the characteristics and tests given in the British Pharmaceutical Codex, 1907.

(2) Liquidマル抽出物.Liquidマル抽出物 shall contain not less than ninety-five parts per centum of solids wholly derived from malt.

(5)マル抽出物 and cod-liver oil shall be an emulsion composed ofマル抽出物 and cod-liver oil; it shall contain not less than fifteen parts per centum by weight of cod-liver oil.

REGULATION 27—MEAT AND MEAT PRODUCTS.

General Standard for Meat.

(1) Meat shall be the edible part of any mammal, fish, fowl, crustacean, mollusc, or other animal generally used as food, properly dressed.

Fresh or Chilled Meat.

(2) Fresh or chilled meat shall be meat which has been kept at any temperature above 33°F.

Frozen Meat.

(3) Frozen meat shall be meat which has been exposed to any temperature at or below 36°F.

Pickled and Smoked Meat.

(4) Salted, pickled or corned, and smoked meat, shall be meat preserved with salt, sulphate (potassium or sodium nitrate), sugar, vinegar, spices, and smoke, singly or in combination.

Manufactured Meat.

(5) Manufactured meat shall be meats other than those prescribed under clauses 2, 3, and 4 of this Regulation, simple or mixed, whole or comminuted, cooked or uncooked, in bulk or in package, with or without addition of salt, salted (potassium or sodium nitrate), sugar, vinegar, spices, herbs, smoke, oils, or rendered meat fat, singly or in combination.

Prohibition.

(6) Salted (potassium or sodium nitrate) shall not be mixed with salted, pickled or corned, smoked, or manufactured meat in any larger proportion than one-fourth of one part per centum.

Labeling.

(7) To every package which contains manufactured meat there shall be attached a label or statement on which shall be written the names of the meat or meats contained in it, and no person shall sell any package containing manufactured meat in contravention of this clause 7 of this Regulation.

Canned Manufactured Meat—Prohibition.

(8) Manufactured meat enclosed in hermetically sealed vessels shall not contain any preservative substance (as defined in Regulation 3), or any preparation thereof.

Dripping.

(9) Dripping shall be fat rendered from meat; it shall contain no added substance, save salt (sodium chloride).

Lard.

(10) Lard shall be the fat rendered from the fat of the hog; it shall be free from rancidity, and it shall not contain not more than one part per centum of any substance other than hog fat.

Regulations Nos. 36 (a), 38, and 51, published in Supplementary Government Gazette of the 3rd November, 1909. No. 142, are hereby repealed, and the following substituted therefor. These Regulations shall come into force on the 27th January, 1910.
REGULATION 88—DECLARATION OF CERTAIN DRUGS.

(1) There shall be attached to every package containing any of the substances, or preparations, derivatives, or alkaloids of any of the substances named in this Regulation, a statement or label, on which shall be uniformly written in sans-serif capitals of not less size than six-point face measurement, the percentage proportion present in it of the preparation, derivative, or alkaloid of the substance or substances, contained in it, and of the percentage proportion present in it in the following form:

This mixture or (alternatively) the contents of this package includes (or includes here insert the percentage proportion per centum of here insert the name of the drug or drugs required to be declared and repeat the statement of percentage proportion before the name of each drug when presence of more than one is declared).

Oil of rue, Oil of savin. Oil of tansy, Oil of parsley, Oil of opium, Opium.

Quinoline. Quinine. Quinin.

Sulphonal. Tricholine. Veronal. Vin{"\text{\textcopyright}}.

[alternatively]

and any other reputed emmenagogues or abortifacient substances.

Provided that this Regulation shall not apply to drugs supplied in accordance with the provisions of the "Pure Food Act, 1908," section 13 (1), (b), and (d).

(2) Proprietary medicines sold for internal or external use by man shall not contain any methyl alcohol.

(3) There shall be written on or attached to every package containing a proprietary medicine sold for internal use by man which is compounded with ethyl alcohol in greater proportion than two and one-half parts per centum by volume, a statement or label on which shall be written in combination Gothic sans-serif capitals of not less size than six-point face measurement, the percentage proportion of alcohol contained in it, expressed in terms of proof spirit, in the following form:

This mixture contains (here insert the number of parts per centum) per centum of proof spirit.

(4) When a mixture contains both alcohol and some drug, or drugs required to be declared, then to the declaration concerning alcohol made in the form prescribed in clause (3) of this Regulation may be added the words "and includes" followed by the declaration of a drug or drugs in the form prescribed in clause (1) of this Regulation.

(5) No person shall sell any package containing a drug, or drugs, any proportion of alcohol required to be declared, in contravention of the provisions of clauses 1 and 3 of this Regulation.

REGULATION 91—GELATINE FOR HUMAN CONSUMPTION.

(1) Gelatine sold for human consumption shall be the clean, wholesome product obtained by digesting skin, membranes, bones, and other colloginous bodies, with high-pressure steam, with subsequent purification, separation, and drying. It shall yield not more than two parts per centum of ash. A five per cent. aqueous solution shall be transparent, and shall not become alkaline, or emit any unpleasant odour, after standing for two days exposed to the air at a temperature of 80° F.

Preservative.

(2) The preservative substance, or a preparation of the preservative substance, sulphur dioxide may be mixed with gelatine in proportions not exceeding three and one-half grams of sulphur dioxide to the pound of dry, marketable, gelatine sold for consumption by man.

Labeling.

(3) There shall be written on or attached to every package which contains gelatine sold for human consumption a statement or label, on which shall be written in bold-faced sans-serif capital letters of not less than six-point face measurement, the words, "for food," and no person shall sell any package containing gelatine for human consumption in contravention of provisions of this class 3 of this Regulation.

[Published in Government Gazette No. 169 of 29th December, 1909.]

Chief Secretary's Office,
Sydney, 29th December, 1909.

HIS Excellency the Governor, with the advice of the Executive Council, has been pleased to approve of the following Regulations under the "Pure Food Act, 1908," which have been made by the Board of Health, on the recommendation of the Advisory Committee under the powers conferred by that Act.

W. H. WOOD.

"PURE FOOD ACT, 1908."

The following Regulations shall come into force on the 1st January, 1909.

REGULATION No. 93.—FOR SECURING THE CLEARNESS AND FREEDOM FROM CONTAMINATION OF MEAT PRODUCTS.

(1) No person shall use, or suffer to be used, any room or place for the boning, curing, causting, salting, mincing, or other similar process of preparation of the meat or fat of animals for sale for human food, except it be provided with a floor of tiles, cement, mineral asphalt, or some other material impervious to water, having a smooth surface, and graded and drained so as to make all liquids drain off it without impediment. If any such floor be constructed of tiles, the joints between the tiles shall be of a material which is impervious to water. Such floors shall at all times be kept in good repair, smooth, and free from cracks and inequalities.

No person shall use, or suffer to be used, any such floor as referred to in the last preceding paragraph, unless it be free from accumulations of fat, dirt, grime, or debris of meat. Such floors shall be thoroughly cleansed at least once daily with the aid of hot water, and they shall at all times be kept in a state of reasonable cleanliness.

No person shall keep, or suffer to remain, any bones or waste hitches of any kind for longer than eight hours in any room, or "on" any floor, or on which any process of preparation of meat or of fat for sale for human food is, or usually is, carried on.

No person shall use, or suffer to be used, any room or place for the boning, curing, causting, salting, mincing, or other similar process of preparation of meat or fat of animals for human food, unless its internal walls are constructed of bricks, tile, stone, cement, or other material impervious to water, which shall at all times be kept constantly clean, either by washing with clean water, or by line-washing from time to time. Provided that such walls may be constructed of wood, if the internal surfaces be covered with smooth iron, painted white, to a height of two feet from the floor, and if the roof over the said walls above the iron be kept constantly clean, either by pointing white and washing from time to time, or by line-washing from time to time.

No person shall use any room or place for the boning, curing, causting, salting, mincing, or other similar process of the preparation of meat or fat of animals for human food, unless its internal walls are constructed of bricks, tile, stone, cement, or other material impervious to water, which shall at all times be kept constantly clean, either by washing with clean water, or by line-washing from time to time.
human food, which is in direct communication with a stable, urinal, privy, or water-closet, or which has in it an opening into any drain or sewer.

§(6) A copy of this Regulation, as supplied on demand by the Department of Public Health, shall be conspicuously displayed in every place where the boning, curing, canning, salting, mincing, or other similar process of preparation of the meat or fat of animals for sale for human food is carried on, and shall be there constantly maintained clean, visible, and legible by the proprietor, manager, and person in charge thereof.

REGULATION 70.—ICE-CREAM.

(1) Ice-cream shall be a food-stuff composed of milk and cream which conform to the standards for fresh, drawn, or market milk and for cream, with sugar, with or without fresh eggs, and with or without not more than one part per centum of gelatine conformable with the standard for gelatine, flavoured with fruit or with the julep or pulp of fruit, or with nuts, or with harmless dietary essences, coloured or not with harmless colouring substances, and with or without candied fruits, liqueurs, or spirits, sterilised by boiling, or pasteurised by being kept at a temperature of not less than 166°F. for twenty minutes, or of not less than 165°F. for ten minutes, subsequently frozen, and thereafter so kept as to be protected from contamination. Ice-cream shall contain not less than ten parts per centum of milk-fat present in the form of cream.

[ices]

(2) Ices shall be any preparation of wholesome food-stuffs, with or without addition of harmless flavourings and of harmless colouring matter, sterilised by boiling, or pasteurised by being kept as a temperature of not less than 106°F. for twenty minutes, or of not less than 166°F. for ten minutes, subsequently frozen, and thereafter so kept as to be protected from contamination. No person shall sell any ice cream or ices which, after having run down or melted, has been refrozen.

(3) No person shall sell any ice-cream or ices of which the nature or flavouring is indicated or declared by the name of any fruit or fruits, flavoured with any substance save the fruit or fruits named, unless the said name is conjoined with the word “flavour” or “flavouring.”

[Published in Government Gazette No. 166 of 29th December, 1909.]

Chief Secretary’s Office, Sydney, 29th December, 1909.

W. H. WOOD.

“PURE FOOD ACT, 1908.”

Regulations Nos. 40, 42, and 43, published in Supplementary Government Gazette of the 3rd November, 1909, No. 149, are hereby repealed, and the following substituted therefor. These Regulations shall come into force on the 1st January, 1910.

REGULATION 42.—MARGARINE.

(1) The term “margarine” shall include every substance prepared in imitation of butter; it shall consist of the fat of animals slaughtered for the food of man, or of part thereof, churned with milk or with separated milk, and mixed with not less than five parts per centum by weight of sesame oil (Sesamum Indicum or Sesamum Orientale); it shall conform with the general standard for edible oils and fats. It shall not contain more than sixteen parts per centum of water, nor any other substance, save salt (sodium chloride) and preservative.

Provided that an additional proportion of sesame oil, or of some other edible vegetable oil, may be added to margarine if desired.

Preservative.

(2) Boric acid may be added to margarine in proportion not exceeding one-half of one part per centum.

Labelling.

(3) There shall be written on or attached to every package which contains margarine a statement or label, on which is written in black sans-serif capital letters of not less size than thirty-point face measurement, the word “margarine.”

(4) There shall be conspicuously attached to every vessel used to hold margarine for consumption on the premises by customers in any place where food is sold, the word “margarine” written in black sans-serif capital letters of not less size than eighteen-point face measurement.

(5) The words “butter” and “butterine” and expressions which include the said words, may not be written on the statement or label, written on or attached to any package which contains margarine, nor on any vessel used aforesaid.

REGULATION 43.—EXEMPTIONS FROM LABELLING.

Packages of food named or indicated hereunder shall be exempt from all the provisions of section 14 of the “Pure Food Act, 1908,” relating to labelling:

1. Food weighed, counted, or measured, and packed in the presence of the purchaser.

2. Bread.

3. Unsealed packages of articles of food packed on retail premises for early sale thereon, except teas and coffees.
### RAILWAYS.

*RETURN RESPECTING LOCOMOTIVES PURCHASED FROM THE CLYDE ENGINEERING COMPANY, LIMITED, AND ELSEWHERE.*

---

**Printed under No. 5 Report from Printing Committee, 28 July, 1910.**

[Laid upon the Table of the House in accordance with a promise made by the Honorable the Minister for Railways, in connection with Question No. 5 of 26th July, 1910.]

---

**LOCOMOTIVES PURCHASED FROM THE CLYDE ENGINEERING COMPANY, LIMITED, AND ELSEWHERE.**

<table>
<thead>
<tr>
<th>Question</th>
<th>Answer</th>
</tr>
</thead>
<tbody>
<tr>
<td>(1.) How many locomotives have been purchased from the Clyde Engineering Company, in pursuance of the arrangement made by the Honorable Sir Joseph Carruthers after the inquiry by the Royal Commission?</td>
<td>Contracts have been entered into for:</td>
</tr>
<tr>
<td>30 “P” Class Engines</td>
<td>5 delivered to date.</td>
</tr>
<tr>
<td>15 “P”</td>
<td>14</td>
</tr>
<tr>
<td>30 “T”</td>
<td>29</td>
</tr>
<tr>
<td>Total</td>
<td>75</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Question</th>
<th>Answer</th>
</tr>
</thead>
<tbody>
<tr>
<td>(2.) What was the price per ton of such locomotives?</td>
<td>£71 13s. 11d. The extra duty imposed by the 1907 tariff has been allowed to the Contractors, in addition to this rate per ton. The duty has not all been paid yet (up to the present it averages 9s. 6d. per ton), and will probably bring the price up to £72 5s. per ton.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Question</th>
<th>Answer</th>
</tr>
</thead>
<tbody>
<tr>
<td>(3.) What has been the total sum paid to the Clyde Engineering Company?</td>
<td>£299,470 11s. 6d.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Question</th>
<th>Answer</th>
</tr>
</thead>
<tbody>
<tr>
<td>(4.) Since that inquiry have any locomotives been obtained in any other quarters?</td>
<td>Yes.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Question</th>
<th>Answer</th>
</tr>
</thead>
<tbody>
<tr>
<td>(5.) If so, how many; at what price per ton, and at what total cost?</td>
<td>Per ton</td>
</tr>
<tr>
<td>1908. 10 “S” Class, Eveleigh Shops</td>
<td>£49,411</td>
</tr>
<tr>
<td>1910. 50 “T”</td>
<td>72,091</td>
</tr>
<tr>
<td>1908. 15 “P” Beyer, Peacock</td>
<td>83,058</td>
</tr>
<tr>
<td>1909. 15 “P” Beyer, Peacock</td>
<td>79,707</td>
</tr>
<tr>
<td>1908. 20 “T”</td>
<td>178,891</td>
</tr>
<tr>
<td>1909. 50 “T”</td>
<td>286,436</td>
</tr>
<tr>
<td>Average “P” and “T” Class (Tender Engine)</td>
<td>73 9 5</td>
</tr>
<tr>
<td>June, 1908. 10 “S” Class (Tank), Beyer, Peacock</td>
<td>46,446</td>
</tr>
<tr>
<td>Dec., 1909. 10 “S” Class (Tank)</td>
<td>44,689</td>
</tr>
<tr>
<td>Average “S” Class (Tank Engines)</td>
<td>44,689</td>
</tr>
</tbody>
</table>

The above figures in each and every case include duty; that paid on account of the imported engines being much heavier than the duty on the imported material used in the construction of those locally built.

---

*This includes a charge against five engines for drawings, £1,275 16s. 6d., equal to per ton, £2 3s. 6d. In the case of the “P” Class engines built in the Eveleigh Shops, there was no similar charge, drawings used being those prepared for “P” Class engines previously built.*

NAVIGATION ACT, 1901.

(REGULATIONS PRESCRIBING QUALIFICATIONS REQUIRED OF APPLICANTS FOR CERTIFICATES AS MASTERS, FIRST MATES, AND SECOND MATES OF COAST TRADE SHIPS, LIMITED TO BETWEEN MELBOURNE AND ROCKHAMPTON.)

Printed under No. 1 Report from Printing Committee, 30 June, 1910.

[Published in Government Gazette, No. 163, of 22nd December, 1909.]

The following Regulations prescribing the qualifications required of applicants for Certificates of Competency as Masters, First Mates, and Second Mates of Coast Trade Ships, limited to between Melbourne and Rockhampton, have been made by His Excellency the Governor, with the advice of the Executive Council, under the provisions of section 74, subsection (3) of the "Navigation Act, 1901," are published in accordance with the requirements of that Act.

T. WADDELL,
Colonial Treasurer.

REGULATIONS PRESCRIBING THE QUALIFICATIONS REQUIRED OF APPLICANTS FOR CERTIFICATES OF COMPETENCY AS MASTERS, FIRST MATES, AND SECOND MATES OF COAST TRADE SHIPS, LIMITED TO BETWEEN MELBOURNE AND ROCKHAMPTON.

1. A Second Mate must be 18 years of age, and must have served three years at sea, either on the coast or foreign.

2. Examination in Navigation.—A candidate for a Second Mate's Coast Trade Certificate will be required to:
   (a) To write a legible hand and spell correctly. This will be tested by not less than a quarter of an hour's dictation.
   (b) He must understand the use and management of the rocket apparatus in the event of a vessel being stranded.
   (c) To show a competent knowledge of the first five rules of arithmetic, both simple and compound.
   (d) He must understand the management of a ship's boat in heavy weather, the beaching of a boat through surf, and running out anchors by means of boats, &c.
   (e) He must understand how to work a vessel's anchor and windlass, moor and unmoor ships, and how to attend to the cables whilst ships are moored.
   (f) He must understand the use and management at sea and in harbour of both steamers and sailing vessels.
   (g) He must be able to answer any like question put to him by the examiner, appertaining to the duties of a Second Mate in the coast trade.

3. Examination in Seamanship.—In addition to what is required for a Second Mate, he must:
   (a) To answer all the questions required for Second Mate coast trade.
   (b) To show that he has a knowledge of the use of logarithms.
   (c) To work a day's work complete, correcting the course for leeway, deviation, and variation.
   (d) To find the latitude by meridian altitude of the sun.
   (e) To find the true amplitude of the sun, and the error of the compass therefrom; also the deviation, the variation being given.
   (f) To find the time of high water at any given port.
   (g) To answer viva voce questions on the use of the sextant, also the adjustments thereof, and the mode of finding the index error.
   (h) The construction, use, and principles of the barometer, thermometer, hydrometer.

4. A First Mate coast trade must be 19 years of age, and must have served four years at sea, either on the coast or foreign.

5. Examination in Navigation.—A candidate for a First Mate's certificate in the coast trade will be required to:
   (a) To write a legible hand and spell correctly.
   (b) To show that he is able to take a bearing by compass, be conversant with the use of Mercator's Chart, and be able to find on either a true or magnetic chart, the course to steer, and the distance from one given position to another; to find the ship's position on a chart from cross bearings of two objects; and from two bearings of the same object, the course and the distance run between taking the bearings being given; also the distance from the object at the time of taking the second bearing.
   (c) He must know the lights and dangers of the coast within the limits in which he has to navigate.
   (d) He must give satisfactory answers as to the rigging and gear of both steamers and sailing vessels employed in the coast trade, their management at sea and in harbour of both steamers and sailing vessels.
   (e) He must have a knowledge of the damage stowing of cargoes.
   (f) He must be able to mark and use the log and lead lines.
   (g) He must be able to answer any like question put to him by the examiner, appertaining to the duties of a Second Mate in the coast trade.

6. Examination in Seamanship.—In addition to what is required for a Second Mate, he must:
   (a) To write a legible hand and spell correctly.
   (b) To work a day's work complete, correcting the course for leeway, deviation, and variation.
   (c) To find the true amplitude of the sun, and the error of the compass therefrom; also the deviation, the variation being given.
   (d) To find the time of high water at any given port.
   (e) To answer viva voce questions on the use of the sextant, also the adjustments thereof, and the mode of finding the index error.
   (f) The construction, use, and principles of the barometer, thermometer, hydrometer.

74059 30—
Understand the construction, use, and action of the bulkhead sluices, the engine-room telegraph, &c., and to answer any other questions of a like nature appertaining to the duties of a First Mate in the coast trade.

7. Master, Coast Trade.—A candidate for a Master Coast Trade Certificate must not be less than 21 years of age, and must have served five years at sea, of which

(a) One year must have been in the capacity of First Mate of a coast trade vessel, whilst holding a First Mate’s Coast Trade Certificate, or a Second Mate’s certificate for foreign-going vessels;
(b) or, two years and a half must have been in a capacity not lower than Second Mate of a coast trade vessel, in charge of a watch, whilst holding a First Mate’s Coast Trade Certificate, or a Second Mate’s certificate for foreign-going vessels.

8. Examination in Navigation.—A candidate will be required:

(a) To work any five problems prescribed for the grades of Second and First Mate coast trade.
(b) To work any practical problem in parallel sailing.
(c) To find the true course and distance from one given position to another by Mercator’s method : also the compass course, the variation and deviation being given.
(d) To find the true azimuth of the sun by the Time Azimuth tables, the error of the compass, also the deviation, the variation being given.
(e) To find on a chart the course to steer by compass in order to counteract the effect of a given current, and find the distance the ship will make good towards a given point in a given time; and to work out practically the correction to apply to soundings taken at a given time and place, to compare with the depth marked on the chart.

(f) To give written answers to certain practical questions on the subject of the deviation of the compass, also of the chart.

9. Examination in Seamanship.—A candidate for Master Coast Trade Certificate must show that he understands:

(a) How to rig a sea-anchor, and what means to apply to keep a vessel (disabled) out of the trough of the sea.
(b) What precaution to take in case of shipwreck for the preservation of passengers and crew; and what should be done if his vessel is disabled and drifting towards a lee shore.
(c) He must be able to answer any other questions put to him by the examiner, appertaining to the duties and business of a Master in the coast trade.

10. A Second Mate will be required to work all his problems and written answers in three hours; a First Mate will be allowed six hours; a Master will be allowed nine hours.

11. The rules for the conduct of these examinations, and the degree of precision required in the solution of the problems to be the same as those for foreign-going certificates.

12. All candidates for certificates of competency must pass the examination in colours.

13. If a candidate fails in seamanship in his examination for a coast-trade certificate, he may, if qualified as to service, without further formal application or further payment of fees, proceed with the examination for a certificate of competency for coast-trade steamships only.

14. All candidates for certificates of competency as Master or Mate, will be required to show that they possess a knowledge of First Aid to the Injured.

15. The rules of the late Marine Board relating to the qualifications of candidates for certificates of competency in the coast trade, are hereby repealed.
NAVIGATION ACT, 1901.

(REGULATIONS PRESCRIBING QUALIFICATIONS REQUIRED FOR A THIRD-CLASS ENGINEER'S CERTIFICATE.)

Printed under No. 1 Report from Printing Committee, 30 June, 1910.

[Published in Government Gazette No. 54, of 20th April, 1910.]

The Treasury, New South Wales,
Sydney, 20th April, 1910.

"NAVIGATION ACT, 1901."

The following Regulations prescribing the qualifications required of applicants for a Third-class Engineer's Certificate of Competency have been made by His Excellency the Governor, with the advice of the Executive Council, under the provisions of section 78 of the "Navigation Act, 1901."

T. WADDELL,
Colonial Treasurer.

QUALIFICATIONS FOR A THIRD-CLASS ENGINEER'S CERTIFICATE.

1. All Regulations hitherto in force in New South Wales and made by the late Marine Board laying down the qualifications for a Third-class Engineer's Certificate of Competency, are hereby repealed as from the 1st day of May, 1910.

2. On and after the 2nd day of May, 1910, every candidate for a Third-class Engineer's Certificate of Competency must possess the following qualifications, viz.:—

(a) He must be not less than 21 years of age; should any doubt exist as to the age of the applicant, he will be required to produce a certificate of birth or baptism.

(b) He must have served at least two years afloat as a fireman, or have served not less than one year afloat as a fireman, and not less than one year in a workshop in the making or repairing of engines or boilers.

(c) He must be able to explain the use and position of the principal parts of condensing and non-condensing, simple, compound, and triple expansion engines, as used in harbour and river steamers; also the different kinds and arrangements of boilers, and their mountings, so used; including all valves, cocks, gauges, and connections in general use.

(d) He must understand the use of the salinometer, know how low-pressure boilers can be worked with sea-water, and how far the use of it is permissible in high-pressure boilers; must know the cause and effect of incrustation, and greasy deposits on boiler-heating surfaces, and how to prevent the same; must understand the water gauge, steam gauge, slide valve, link motion, and loose eccentric, the principle and construction of feed pumps and the common pumps about an engine; must know what defects may appear in any part of the machinery, and how such defects are prevented and remedied. He must be able to give a practical explanation of what ought to be done in the event of anything going wrong, and in ordinary circumstances must be able to do it.

(e) He must be able to write legibly, and understand the first four rules (simple and compound) of arithmetic.

(f) He must understand the rule of the road, and must produce satisfactory testimonials as to his sobriety and general good conduct, and also furnish proof (to the satisfaction of the Superintendent) of his services.

N.B.—The word "fireman" used herein includes greaser, donkeyman, engine-driver, and engineer (refrigerating engineer, for instance).
STATEMENT for submission to Parliament, in accordance with the provisions of section 48 of the Old-age Pensions (Principal) Act No. 74, 1900.

*For half-year ended 31st December, 1909, of which £290 was in respect of Invalidity and Accidents Pension payments. †Not yet claimed.

**Note.**—During the half-year ended 31st December, 1909, part of the old-age pension expenditure was undertaken by the State, pending arrangements for refund by the Commonwealth Government. It is difficult, therefore, to separate the Old-age and Invalidity and Accidents Pensions expenditure for the half-year ended 31st December, 1909, but the actual expenditure of Invalidity and Accidents Pensions for the succeeding half-year (ended 30th June, 1910), shown in column B, will afford a close estimate of the whole year's cost.

Total number of pensions current under Invalidity and Accidents Pensions Act 22, 1907... 4,252
1910.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

THEATRES AND PUBLIC HALLS ACT, 1908.

(Printed under No. 1 Report from Printing Committee, 30 June, 1910.)

[Published in Government Gazette No. 166 of 29th December, 1909.]

Chief Secretary's Office,
Sydney, 21st December, 1909.

His Excellency the Governor, with the advice of the Executive Council, has been pleased, in pursuance of the provisions of the "Theatres and Public Halls Act, 1908," to repeal Regulation No. 22, as published in Supplementary Government Gazette of 27th July, 1909; and to make the following Regulation in lieu thereof:—

W. H. WOOD.

"THEATRES AND PUBLIC HALLS ACT, 1908."

Regulation 22—Seating Accommodation, &c.

The area assigned to each person, including gangways and passages, within the auditorium, shall not be less than 4.25 superficial feet. In all cases, however, there shall be a space of at least 1 foot between the front of one seat and the back of the next, measured between perpendiculars. Passages or gangways in the auditorium, not less than 3 feet 6 inches wide, shall be formed leading direct to the exit doors, and gangways 3 feet 6 inches wide shall be provided, intersecting the rows of seating in such a manner that no seat shall be more than 10 feet from a gangway measured in line of the seating.
Chief Secretary's Office,
Sydney, 22nd June, 1910.

His Excellency the Governor, with the advice of the Executive Council, has been pleased to make the following Regulations under the "Theatres and Public Halls Act, 1908."

W. H. WOOD.

"THEATRES AND PUBLIC HALLS ACT, 1908."

TEMPORARY STRUCTURES.

53. The words "other than those made of canvas" are omitted in Regulation 53.

53a. A temporary structure so constructed as to be roofed in shall not be used for public entertainments unless it has been first approved by a person appointed in that behalf by the Chief Secretary. Such approval shall be in writing, and shall have effect and be in force for the period therein mentioned and no longer.

Any person so using, after the 31st day of July, 1910, any temporary structure so constructed, unless such approval has been given and is in force, shall be liable to a penalty not exceeding £20.

AMENDMENT OF REGULATION 56, PART 5.

Cinematograph.

56. (c) The words "Ether and other inflammable liquids shall not be employed under any circumstances for producing light" are omitted in subsection (c), Regulation 56.
ABORIGINES PROTECTION ACT, 1909.
(Regulations Under.)

Printed under No. 1 Report from Printing Committee, 30 June, 1910.

[7416]

Chief Secretary's Office,
Sydney, 8th June, 1910.

His Excellency the Governor, with the advice of the Executive Council, has been pleased to make the subjoined Regulations, in accordance with the provisions of the Aborigines Protection Act, 1909.

W. H. WOOD.

Conduct of Business.

1. The Board shall meet for the despatch of business at such times and places as they shall appoint, and shall deal with all matters brought before them relating to Aborigines. Three members of the Board shall form a quorum.

2. Every question shall be decided by a majority of votes of the members voting on that question. In the event of an equality of votes, the Chairman for the time being shall have a second or casting vote.

Election of Vice-Chairman.

3. A Vice-Chairman shall be elected by the Board as early as practicable after the first day of January each year. Due notice of the meeting for such election shall be given to each member of the Board.

Special Meetings.

4. The Chairman, or any three members, may, in writing, direct the Secretary to convene a special meeting of the Board on any day and hour to deal with special business. Notice of such business shall be given to each member of the Board.

Resignation on Board.

5. Any member of the Board who wishes to resign his office shall, by letter, notify the Chairman of his intention to resign.

Duties of Officers.

Secretary.

6. It shall be the duty of the Secretary to prepare the business paper for each meeting of the Board; to take and record the minutes of proceedings of same; to conduct all correspondence, and to keep all such books of account, vouchers, reports, documents, plans, and charts as the Board shall direct or require; to give instructions to officers and persons appointed under the Aborigines Protection Act as the Board shall direct, or as the Regulations shall prescribe; and, generally, to fulfil zealously, and to the best of his ability, all duties, and obey all directions imposed on or given to him by the Board.
Local Committees.

7. The local committees shall meet monthly at the stations, or reserves, or other appointed places for the transaction of all business in connection with the stations or reserves under their supervision. They shall inspect the stations or reserves at least quarterly, and shall inquire into all complaints made concerning the stations or reserves for which they have been appointed; deal with all correspondence and reports, and make such recommendations for the consideration of the Board as shall be considered necessary, and report quarterly the result of such inspection.

8. Local committees, through the managers, shall have power to maintain discipline and good order on the stations or reserves under their supervision, and to sanction the entering and residing on a reserve of any aborigine.

9. Local committees shall have power to direct the managers as to entry on the stations or reserves under their supervision by specified persons, and the period of their stay on same, and to direct the manager to expel undesirable persons from the reserve.

10. The allotment of ground and houses, on any station or reserve under their supervision, for occupation by individuals or families, shall be dealt with in the first instance by the local committees, who shall forward their recommendation to the Board for approval.

11. Local committees may appoint the manager, or any of their members, to institute proceedings for offences under the Act or Regulations. The Board shall be forthwith notified of the institution of such proceedings, and the results thereof shall be reported to the Board immediately after the conclusion of the case.

Guardians.

12. The duties of guardians shall be similar to those of local committees.

Management of Stations.

13. All stations shall be under the control of managers appointed by the Board.

14. The duties of managers shall be:

(a) To have the general management and control of all persons on the stations under their charge, buildings, stock, and other property; to deal with all manner of things affecting the good order and conduct of all persons residing on the stations; and to devote all their energies to the moral and social welfare of the Aborigines resident on such stations.

(b) To report, in a prescribed form, at the end of each month, to the local committees or guardian, for the information of the Board, as to the general condition of the stations—i.e., the number of Aborigines located thereon, and the daily average for the month, distinguishing in all cases the number of full-bloods from the half-castes; the number of children attending the school; the number of births and deaths during the month; information as to the general health of the Aborigines; and any other matters of interest.

(c) To report, in a prescribed form, at the end of each month, to the local committees or guardian, for the information of the Board, as to the general condition of the stations—i.e., the number of Aborigines located thereon, and the daily average for the month, distinguishing in all cases the number of full-bloods from the half-castes; the number of children attending the school; the number of births and deaths during the month; information as to the general health of the Aborigines; and any other matters of interest.

(d) To keep a diary of all occurrences at the stations under their charge, together with the usual statistics, and submit the same when required to the local committees for inspection, and to members of the Board on visit.

(e) To report, in a prescribed form, at the end of each month, to the local committees or guardian, for the information of the Board, as to the general condition of the stations—i.e., the number of Aborigines located thereon, and the daily average for the month, distinguishing in all cases the number of full-bloods from the half-castes; the number of children attending the school; the number of births and deaths during the month; information as to the general health of the Aborigines; and any other matters of interest.

(f) To keep daily accounts of all moneys received and disposed of, and to furnish to the Board weekly a statement of the same.

(g) To forward all moneys received from the sale of wool or produce, &c., to the Board immediately after the receipt of the same.

(h) To consult the local committees as to the supply of stores and materials, and on any matters affecting discipline at the stations, and to seek their advice on matters generally.

(i) To submit requisitions for supplies of rations, clothing, &c., monthly, through the local committees.

(j) To submit to the Board, with the endorsement of the local committee, applications by Aborigines at the stations who desire to occupy blocks of land on the Aboriginal stations, to be cultivated by them to earn a livelihood thereon for themselves and their families, and to report fully as to the locality and suitability of the land applied for, and the character of the applicant.

(k) To assist in and supervise the erection of and repairs to buildings, fencing, &c., and the cultivation of the land, and do their best to make the Aborigines as comfortable and contented as practicable; also to take an interest in their work and recreations.

(l) As it is impossible to form rules to meet every contingency that may arise, the manager may use his own judgment in any case of emergency not herein provided for, and not involving the expenditure of money, but the management must be firm and systematic, regularity of hours being observed. The local committee must be consulted when practicable.

15. (a) Managers shall be personally liable for any expenditure incurred without authority of the Board. They shall take stock of all Government property on the station on the 30th June and 31st December of each year respectively, and furnish a return thereof for the Board's information. They shall also take stock, monthly, of rations and other stores on hand, and at the end of each quarter furnish a return showing clearly the quantities received and used during the quarter, and the quantities on hand.

(b) Application for leave by managers or other officers must be submitted to the Board, through the local committees.

(c) All correspondence must be promptly attended to, and recorded for inspection.

16.
16. The matron shall have an oversight of all the women, with special charge of girls and young children; shall daily visit the dwellings of the married and unmarried women, and give instructions in cooking, washing, sewing, and other domestic duties, and shall be responsible to the manager for the cleanliness of the women and children, together with the buildings they occupy.

Dormitory Matron.

17. The dormitory matron shall have control over the children in the dormitory, shall see that they are clean and tidy; that those of school age attend school regularly, and that before and after school hours (having due regard to the need for recreation), they shall receive instruction in sewing, cooking, and general housework. She shall furnish a report at the end of each month, through the manager, giving particulars of the inmates of the dormitory, the work accomplished during the month, and making any suggestions she may think fit for the improvement of the children.

OFFICERS' RATIONS.

18. Rations according to the undermentioned scale will be issued to managers and other officers on the Board's stations, viz.:

<table>
<thead>
<tr>
<th>Item</th>
<th>Quantity</th>
</tr>
</thead>
<tbody>
<tr>
<td>Flour</td>
<td>8 lb. per week</td>
</tr>
<tr>
<td>Tea</td>
<td>1 lb.</td>
</tr>
<tr>
<td>Sugar (white)</td>
<td>2 lb.</td>
</tr>
<tr>
<td>Meat</td>
<td>7 lb.</td>
</tr>
<tr>
<td>Potatoes</td>
<td>7 lb.</td>
</tr>
<tr>
<td>Soap</td>
<td>1 lb.</td>
</tr>
<tr>
<td>Butter or</td>
<td>1 lb.</td>
</tr>
<tr>
<td>Jam</td>
<td>2 lb.</td>
</tr>
</tbody>
</table>

Where butter can be made or potatoes grown on the stations, they must be taken from the station supply.

FREE ISSUE OF RATIONS.

19. (a) Rations consisting of 8 lb. of flour, 2 lb. sugar, and 1 lb. tea per week will be allowed to all aged, infirm, or sick Aborigines. Children attending school may, at the discretion of the local committee or guardian, be allowed half-rations, and the issue of such rations will be withheld in any case where children do not attend regularly. On the Board's stations, and at reserves where specially authorised, meat up to 7 lb. per week, 1 lb. tobacco, and salt and soap, are to be issued as required.

(b) Rations are not under any circumstances to be issued to the able-bodied without special reference to the Board. The men must go out and obtain employment, and be made to understand that they must support themselves and their families.

(c) In cases of special urgency, rations not exceeding a week's supply may be issued in cases not authorised, but the particulars must be at once reported to the Board.

(d) A quarterly return of all rations issued shall be furnished to the Board, giving particulars of the names, ages, sex, and caste of the recipients, and the reason for the issue.

(e) A supply of medicines and such medical comforts as rice, sago, arrowroot, oatmeal and maize, shall be kept in stock at the Board's stations, and issued to any Aborigines who may be sick or otherwise in need of the same, but the circumstances of such issue must appear on the quarterly returns of rations issued.

SUPPLY OF CLOTHING.

20. The following clothing will be supplied annually to Aborigines throughout the State, in such cases as may be considered necessary, viz.:

- Men and Youths.—One coat, two pairs trousers, two Harvard and two flannel shirts—the coat and trousers to be of diagonal tweed.
- Boys.—Two knicker suits (serge), two Harvard, and one flannel shirt.
- Women and girls.—One winsey and two print dresses, one winsey and one flannel petticoat, two pairs calico drawers, and two calico chemises.
- Infants (boys to three and girls to four years)—Two diagonal tweed frocks, five petticoats with bodices, and two Harvard shirts.

REQUISITIONS FOR SUPPLIES.

21. All supplies must be obtained upon requisition under contracts taken by the Board, or the Stores Supply Department. The Regulations under the "Public Service Act, 1902," relating to the "Mode of obtaining Supplies," "Receipt, Custody and Issue of Stores," &c., shall be strictly observed.

In all cases where articles are not obtainable under contract, local offers in writing should accompany requisitions.

On the first day of July of each year, managers of stations shall submit an estimate of the quantities of ration tea, and soap required for a period of twelve months, showing the stock on hand at that date, and (in the case of soap) the quantity required for each quarterly delivery in the months of November, February, May, and August respectively.

MEDICAL ATTENDANCE.

22. Before issuing orders to Aborigines on the Government Medical Officer, the Board's managers and the Police shall satisfy themselves that the cases require the attendance of a doctor. Where necessary the patients are to be sent to hospitals subsidised by the Government.
ACCOUNTS.

23. All accounts shall be neatly written or typed, and shall, as far as practicable, be rendered at the end of each quarter, or, in the case of single services, immediately after the supply of goods or completion of the work authorised.

At the top of each account, in red ink, should be stated the Contract under which the articles were purchased, or the date and record No. of the Board's authority. Then should follow in black ink, the date and detailed particulars of the various items, with the rate and amount in the proper columns, after which (again in red ink) should follow the purpose for which the articles were purchased or services rendered, viz.:—

"Free Issue," "Sale Stores Good," "Medical Comforts," "Manager's (or officer's) Rations," Erection of (or repairs to) Huts, &c., &c., and the name of the station or camp concerned. Managers will be held personally responsible for the correctness of the rates, quantities, and extensions, and should see that accounts are properly completed for payment; the instructions at the back of voucher are to be properly attended to.

Under no circumstances will accounts be passed for unauthorised expenditure, and the papers should, in every instance, be attached to accounts when rendered.

SALE STORE.

24. Where approved by the Board, articles in general use by the residents may be kept for sale at the Board's stations, for cash only. Duplicate books shall be kept for the purpose of recording all sales, and a proper record shall be kept in the "Sale Store Account Book" of all goods received and disposed of. A quarterly statement shall be furnished showing the quantity and selling value of the goods on hand at the beginning of each quarter, the quantity and value of goods sold during the quarter, and balance on hand.

GENERAL.

25. Any person found entering, trespassing, or remaining upon any station or reserve without lawful authority or excuse shall be liable to a penalty not exceeding ten pounds.

26. Any person wilfully interfering with or destroying any house, building, fence, or other property of the Board, shall be liable to a penalty not exceeding ten pounds.

27. Any Aborigine, or other person guilty of drunkenness, or indecent or insulting behaviour, or disorderly conduct, or who may make use of obscene language on any station or reserve, shall be liable to a penalty not exceeding five pounds.

28. Every able-bodied Aborigine, half-caste, or other person resident on one of the Board's stations, shall do a reasonable amount of work; any one persistently refusing to do so when required, shall have all supplies for himself or his family withdrawn until he resumes work, and shall be liable to be removed from the station.

CUSTODY AND EDUCATION OF CHILDREN.

29. Every Aborigine under the age of 14 years shall, when so required by any local committee, guardian, officer of the Board, or member of the Police Force attend at the nearest school to which Aborigines will be admitted.

30. A report shall be furnished at the end of each quarter by the teacher in charge of every school for Aborigines in the form set out in the following Schedule:—

SCHEDULE.

ABORIGINES PROTECTION BOARD OF NEW SOUTH WALES.

School Report.

Name of child—
Age—
Sex—
Race—
Does the child attend school regularly?—
State average attendance during quarter ended
Does child come to school clean?—
Does child come to school with clothes in decent order and well-mended?—
Does child appear well fed and cared for?—
State if child can read and progress as compared with last report—

(Signed)

The Secretary, Aborigines Protection Board, Sydney.

31. Every Aboriginal male under the age of 14 years, and every unmarried Aboriginal female under the age of 18 years, shall, when so required by the manager, reside and take his or her meals and sleep in any building set apart for such purposes.

32. Any Aborigine who is engaged singly in working any reserve, or portion thereof, shall be entitled to retain the proceeds of the sale of his crop, and where, in the opinion of the Board, there is sufficient return, he must support himself and his family.

33. In cases where Aborigines collectively work any reserve, or portion thereof, the local committee or guardian or officer of Police shall report to the Board the full circumstances, and make a recommendation as to the distribution of the proceeds of the labour of such Aborigines.

34. No stock whatever belonging to any resident shall be allowed to remain on any station or reserve without the authority of the Board. If not forthwith removed, when so directed, such stock may be turned off the station or reserve.
RAILWAY PASSES.

35. Railway passes will only be granted on the authority of the Board, in needful and urgent cases, such as illness, or to allow Aborigines to reach employment which is awaiting them. In the latter case, where reasonable, the Aborigine to whom the pass is issued shall give an undertaking to repay the cost of the fare from his earnings.

36. Any Aborigine who is desirous of entering one of the Board’s stations must apply to the manager, who shall satisfy himself that the case is a proper one for admission. Where the applicant has previously resided on a station, he must produce a certificate from the manager of such station to the effect that he is of good character, is a fit subject for admission, and has not been guilty of any misconduct.

37. Any Aborigine who has been removed from any station or reserve for misconduct or other cause shall not be admitted to any other station or reserve without the authority of the Board. Managers are required to report all cases of removal to the Board, and to managers of other stations.

38. Quadroons, octoroons, and others with a lesser degree of Aboriginal blood will not be allowed to reside on any station or reserve, except by special permission of the Board. Local committees, guardians, managers, and members of the Police Force shall report all such cases coming under their notice.

39. When any able-bodied Aborigine has obtained employment outside the station or reserve he shall, during his absence, pay such weekly sum towards the support of his wife and family, who are in receipt of assistance, as is considered equitable by the local committee or guardian.

YEARLY CENSUS.

40. On the first day of September of each year, the Board shall cause a census of the Aboriginal population of the State to be taken, giving full particulars respecting the number of Aborigines throughout the State.

Accompanying such census shall be furnished, in duplicate, lists of Aborigines recommended for clothing at each reserve or camp (but not station), giving the locality, names of Aborigines, age, sex, caste of the Aborigines, the Police-station to which the clothing should be sent and the route by which it should be forwarded.

A list of places where blankets are required should also accompany the blanket returns, showing locality, number of blankets, the Police-station to which they should be sent, and the route.

APPRENTICES.

41. The following are the conditions under which children may be apprenticed:—

(a) No child shall be apprenticed to a hotel or boarding-house keeper.

(b) All apprentices shall be provided with sleeping accommodation to be approved by the Board’s officers or representatives, and such accommodation shall be liable to inspection by any person authorised by the Board at all reasonable times.

(c) All apprentices shall be fed, clothed, and lodged in a proper manner, and provided with medical attendance where necessary.

(d) All apprentices shall, in the absence of an agreement to the contrary, be paid wages at the following rates, viz.:

For the first year—1s. 6d. per week, of which 3d. shall be paid weekly to the apprentice as pocket-money.

For the second year—2s. 6d. per week, of which 6d. shall be paid weekly to the apprentice as pocket-money.

For the third year—3s. 6d. per week, of which 6d. shall be paid weekly to the apprentice as pocket-money.

For the fourth year—5s. per week, of which 1s. shall be paid weekly to the apprentice as pocket-money.

The portion not paid as pocket-money shall be remitted by the employer, quarterly, to the Board on the 1st January, April, July, and October respectively, and shall be placed to the credit of the Trust Account in a Savings Bank, and paid to the apprentice at the end of his or her apprenticeship, or at such other time as may be approved by the Board.

(e) Apprentices shall be allowed, when practicable, to attend Divine Service and Sunday-school, and their moral training shall be duly cared for by their employer.

(f) In the event of any change of residence by any employer, written notice thereof shall be at once given by him or her to the Board.

(g) In the event of any child becoming seriously ill, dying, absconding, leaving, or meeting with an accident, information shall at once be given by the employer to the Board, and also to the local Police, who shall take immediate action and report to the Board.

42. The Board shall provide a printed form of application for the use of those who desire to obtain apprentices, and such forms shall be completed, with the following particulars, viz.:

(a) Name in full of applicant.

(b) Occupation.

(c) Address in full.

(d) Religion.

(e) Number, ages, and sexes of applicant’s own children.

(f) Sex required.

(g) About what age.

(h) Description of work to be performed by apprentice or servant.

(i) Particulars of sleeping accommodation.

(j) Has applicant had apprentices from any other Institution? State particulars.

(k) How far does applicant reside from nearest public school and church.

(i) Names of two references. (Written references to be attached.)
1910.

LEGISLATIVE ASSEMBLY.
NEW SOUTH WALES.

FACTORIES AND SHOPS ACT, 1896, AND FACTORIES AND SHOPS (AMENDMENT) ACT, 1909.
(REGULATIONS UNDER.)

Printed under No. 1 Report from Printing Committee, 30 June, 1910.

[7882]

Department of Labour and Industry,
48 Young-street,
Sydney, 24th June, 1910.

FACTORIES AND SHOPS ACT, No. 37, 1896, AND FACTORIES AND SHOPS (AMENDMENT) ACT, No. 28, 1909.

His Excellency the Governor, with the advice of the Executive Council, has been pleased to make the following Regulations under the Factories and Shops Act, No. 37, 1896, and the Factories and Shops Act, No. 28, 1909, repealing all Regulations made prior thereto, prescribing the forms of notices to be given and returns and records to be made, and the particulars to be set forth therein, and generally for carrying into effect the provisions of the aforesaid Acts:

REGULATIONS.

FACTORIES AND SHOPS.

1. All regulations heretofore made under the Factories and Shops Act of 1896 are hereby repealed.

2. In these regulations the terms used shall, unless the context otherwise requires, have the same meanings as are respectively assigned to them by the Factories and Shops Act of 1896, and the Factories and Shops Amendment Act, 1909, hereinafter referred to as "the Act."

Air Space and Ventilation.

3. (1) Every factory or shop, and every room therein, shall contain not less than four hundred (400) cubic feet of space for each person employed therein.

In the calculation of cubic space the maximum height taken shall be 14 feet.

When the ceiling of any workroom is not more than 8 feet in height, such workroom shall not, unless expressly authorised by the Minister, be registered as a factory or included in a registered factory.

The Minister may exempt any factory or shop in whole or in part from the above provisions.

(2) Where any employees are, when at work, grouped together in a room in a factory or shop, and, in the opinion of an Inspector, such grouping is so close as to be dangerous to their health, he may require the occupier to make a rearrangement of such grouping so as, in his opinion, to remove such danger.

4. Every factory or shop, and every room therein, shall, when required by the Inspector, be provided with means of ventilation by openings for the inlet and outlet of air in the proportion of not less than 12 square inches of inlet openings and 12 square inches of outlet openings, irrespective of door or window openings, for each person employed in such factory, shop, or room, such space to be calculated exclusive of all bars, ornamentation, or other obstruction thereto.

The provisions of this regulation shall not, unless considered necessary by an Inspector, apply to a factory, shop, or room in which there is a fireplace with chimney and a window made to open, and in which not more than four persons are employed.

5. Except in cases where carbonic acid gas is generated in a pure state for manufacturing purposes, when special permission to vary to a named extent must be obtained, the air anywhere within a factory must not contain more than eight parts of carbonic acid gas (CO₂) per 10,000 in excess of the air outside in the district during daylight. During darkness when artificial light, other than electric light, is required, this proportion may be increased up to 16 volumes in 10,000 in excess of the air outside.

6.
6. In every factory the means of ventilation, warming, and cooling, to be provided and maintained, shall be such as to keep the humidity and temperature of the air during working hours within the following proportions of temperature in relation to moisture, viz.:

<table>
<thead>
<tr>
<th>Dry bulb thermometer showing air temperature in degrees Fahrenheit.</th>
<th>Corresponding wet bulb thermometer showing humidity in air.</th>

The relative maximum temperatures of the wet bulb thermometer must never be exceeded within the factory or shop except when the humidity in the fresh open air surrounding the factory or shop is so excessive that it shows an increase in these relative temperatures. On such occasions the wet bulb temperatures within the factory may be increased in the same proportion as that shown by the open air. If for any special manufacturing process or storage purpose any occupier desires the air in his factory workshop or shop to be saturated with moisture beyond the proportions shown by the relative temperatures above, he must make written application to the Minister for special leave to do so, specifying the conditions as to temperature and moisture he desires. Provided that the Chief Government Medical Officer certifies that such conditions are not absolutely dangerous to health, the Minister may grant permission to vary the temperatures of the wet bulb in such special case to the extent to which the said Medical Officer certifies it is safe to do so. If an Inspector has reason to believe that the provisions of this regulation are not being complied with, he may direct the occupier to provide dry and wet bulb thermometers, and to place and keep them in good working order in such position as he may indicate.

7. Every heating appliance in any factory, whether used for warming for the persons there engaged, or used in a manufacturing process, shall be provided with a flue sufficient to carry off to the open air all the products of combustion. If the cross-section of the flue is circular, its internal diameter shall be not less than 4 inches, if the cross-section is of any other shape, the flue shall be equally efficient for the purpose of carrying off the products of combustion. These flues must be provided with hoods sufficiently large, and so placed as to collect all products of combustion into the flues, and be of material design and in position as approved or directed by the Inspector.

Where gas burners are used for heating purposes they must be maintained in good order, and be of such nature and so used that the poisonous gas (carbonic oxide) arising from imperfect combustion shall not be produced.

Where it appears to an Inspector that such appliance is in such position as to overheat any room in which persons are employed, he may order a partition or screen to be erected, or such other means to be adopted as he considers necessary to reduce such overheating, or to effectually separate such appliance from any part of the factory in which persons are employed.

8. Where a producer gas or a water gas apparatus is in use, in connection with a factory or shop, either in the form of a suction gas engine plant or for the purpose of generating gas for any power or heating purposes, such apparatus must be so situated and the place where it stands so isolated and ventilated that leakages of gas from such apparatus cannot find access into any portion of the factory or shop, where any person is employed. Such apparatus should be, if possible, in a detached building, but if that is impossible special sanction for its use must be obtained by the occupier from the Minister, and such sanction will not be given till it is shown to the satisfaction of the Inspector that the place where such apparatus is situated has had its walls, ceiling, and floor made as nearly as possible gas-tight, and is provided with sufficient openings to the outer air to thoroughly ventilate the place at all times by percolation, or by equivalent mechanical means.

Temperatures.

9. An Inspector may require that means be taken by the occupier of any factory or shop to prevent the temperature (as shown by the dry bulb thermometer) within any portion of such factory or shop rising above 77° Fah. when the shade temperature outside does not exceed 72° Fah., and when the shade temperature outside exceeds 72° Fah., to prevent the temperature within the factory or shop exceeding the outside shade temperature by more than 6° Fah.

10. In any factory or shop, heating appliances shall, when so required by an Inspector, be provided sufficient to warm the room in which any persons are employed to a temperature of not less than 65° Fah. in places where manual labour is being carried on, and of not less than 72° Fah. where sedentary work is being done.
For the purposes of keeping down the temperature, the Inspector may require:

(a) That the walls, or portion thereof, shall be lined with a non-conducting coating. Such lining, if done in wood, shall be not less than 3\frac{1}{2} inch in thickness, and, in the case of ceilings under a roof, shall be so arranged as to permit a current of air circulating freely from the room, and between such ceilings and the roof covering, out to the open air. The same arrangement may be required for wall lining where the external covering is of iron or other good conductor of heat. If lining material other than wood is used, it must be of equal non-conducting efficiency to wood, as above described.

(b) That the walls or roof of any factory or shop, or portions thereof, shall be externally coated; such external coating shall consist of not less than two coats of refrigerating paint, or of other coating having similar heat-resisting action, or, if the Inspector so requires by notice in writing in that behalf, three coats thereof.

Where in any factory or shop or in any portion thereof in which any person is employed, any process is carried on which involves the giving off of steam, or dust, or metal, or mineral particles from polishing or grinding, or noxious gases or fumes, fans with efficient hoods and ducts or other proper construction shall be provided, maintained and used for efficiently carrying off to the satisfaction of the Inspector the steam or other matters to the external air from the point at which they are given off, except in the case of steam used for warming or humidifying the air in cases where special permission has been given under Regulation 5.

Cleaning.

11. (a) The floors and windows of every factory shall, when so ordered by an Inspector, be washed with hot water and soap once at least every four weeks, provided that the occupier of any factory may appeal from such order to the Minister, whose decision shall be final.

(b) The seats and floor of every closet, lavatory, and dressing room used by the employees in any factory or shop shall be thoroughly scrubbed with water and soap once at least every week.

(c) Each urinal and the floor adjacent to such urinal, and all sinks and washbasins in any factory or shop, shall be thoroughly cleansed with water every day.

In all the above washings and cleanings the water used must have a disinfectant equal in qualities and efficiency to "Kerol" (Quibell Brothers' disinfectant), or "Cyllin" (Jeyes's disinfectant), mixed with it in proportion of one tablespoonful per gallon of water; or, if preferred, "Kerol" or "Cyllin" soap, or an equally efficient disinfectant soap may be used where washing is required.

Adequate Lighting.

12. Every part of a factory in which persons are employed, or any passages or portions of a factory which may at any time be used by an employee, must have light equal to 10 candle metres, that is, light equal to that given out by an ordinary stearine or paraffin candle of 6 to the lb at a distance of 12 inches from the flame. When such lighting is found by test to be below that standard, the Inspector may require the occupier to make such provision (preferably by window openings or otherwise) to provide the natural or artificial lighting necessary to bring the lighting up to the standard named above.

Dressing Rooms

13. In any factory where, in accordance with the provisions of section 24a of the Act, the occupier has been requested to provide a suitable dressing room, such dressing room shall have a floor area of not less than 64 square feet; but in any factory where the number of female employees exceeds twenty, the dimensions of such dressing room shall be determined by the Inspector. Such dressing rooms shall be provided with hot and cold locks, and, if required by the Inspector, a locker or pigeon hole of at least 1 cubic foot, for each employee.

Closest Accommodation.

14. Every factory or shop shall be provided with proper closest accommodation, and in respect thereof the following rules shall be observed:

Where the closets are not connected with the Metropolitan or other approved system of sewerage, approved double pail or earth closets may be fitted, and shall in all cases be situated outside the main building, and shall not communicate with the main building except through the open air or an intervening ventilated space.

Urinals, when required by an Inspector, be provided in such proportion as it may by notice in writing require; but, in general, 6 ft. length for every twenty-five male persons employed will be sufficient.

Every closet shall, if outside the main building, be constructed with weather-proof walls and roof, and all closets shall have a door capable of being fastened on the inside. The walls shall not be less than 7 ft. high, and the closet shall be not less that 3 ft. 6 in. wide and 4 ft. 6 in. long internal measurement.

The floor of any sanitary convenience shall, if so directed by an Inspector, be of concrete or other impervious material approved by the Inspector.

If erected within the main building, the roof of the closet shall, if required by an Inspector, be closed separately from the ceiling of any room or roof of the building.

Every closet and urinal shall be so arranged and maintained as to be conveniently accessible to the persons employed at all times during their employment, and shall be in such position as may be approved by the Inspector.

Where persons of both sexes who are not all members of the same family are employed, separate closest accommodation shall be provided for members of each sex.

The conveniences of each sex shall be so placed or so screened off that the interior shall not be visible, even when the door of any convenience is open, from any place where persons of the other sex have to work or pass.
If the conveniences of one sex adjoin those of the other sex, the partitions, if not constructed of brick, stone, or similar material, shall be lined on both sides; the approaches shall be separate, and such approaches shall be screened or partitioned off at the approval of the Inspector.

Every closet shall have its walls and ceilings either hot-lime-washed every three months or kept cleanly painted with cannon paint, and shall be in such position that one at least of its external walls shall be capable of being lighted and ventilated direct to the outer air and shall be efficiently lighted when in use at night. Such means of ventilation shall consist of—a louvred opening or a window placed towards the upper part of the wall, and capable of being opened, of dimensions of not less than 2 feet by 1 foot, exclusive of frame. There shall also be provided not less than one air brick, or grating, or other opening, of at least 24 square inches, free of all bars, ornamentation, or other obstruction, and placed near the floor. Provided that in factories in which the majority of those employed are of one sex, and not more than two are of the other sex, separate and distinctly privy accommodation for the persons of different sexes shall not be required, if in the opinion of the Inspector the same is suitably provided in adjoining or adjacent premises.

Lavatory Accommodation.

15. A supply of lavatory or wash basins shall be provided in every factory or shop in the proportion of one basin to every twenty persons of each sex. Where the total number of persons of either sex exceeds one hundred, the proportion shall be one basin to every twenty-five. Where possible water is to be laid on to those basins, and in such cases properly fitted waste, drains, &c., to carry off the slop water must be fitted with proper outfall. Where water cannot be laid on, it must be provided at a convenient distance from the basins, and sufficient means to carry it, and also a suitable place must be provided where the slop-water can be emptied without causing nuisance, all to the satisfaction of the Inspector.

Drinking-water.

16. In every factory or shop a sufficient supply of wholesome cold drinking-water shall be provided for the persons employed therein. Such supply shall be in such positions as are easily accessible to all the persons employed in the factory or shop. A drinking vessel shall be attached to each such supply. Where the operations are such as may lead to contamination of the water, or where the quality of the water available requires it, the Inspector may require filters to be provided by the occupier, and regularly cleaned and used; such filters to be of the " Pasteur" or " Abbot" type, or others which have been proved to be of equal efficiency.

Mode of Conducting Arbitrations.

17. Any occupier who has been served with notice in the form of the Schedule hereto to make structural alterations in his factory or to fence machinery, and who has, within the time prescribed in Section 29, served on the Minister or Inspector a requisition to refer to arbitration the question whether or not it is necessary or practicable to make the structural alterations or to fence the machinery, referred to in the notice, shall, under his hand appoint an arbitrator, and give notice in writing to the Minister or Inspector as the case may be of such appointment not later than within six days after he shall have served such requisition to refer upon the Minister or Inspector.

SCHEDULE.

NOTICES UNDER SECTIONS 24 (1) AND 29 OF THE FACTORIES AND SHOPS ACT OF 1896.

I hereby give you notice that you are required to [here describe in general terms the structural alterations to be made, or the machinery required to be fenced, and the mode in which the same should be altered or fenced], in your factory, street, [district, as provided by Section 24 (or 29 as the case may be) of the Factories and Shops Act, 1896.]

To M.

Minister for Labour and Industry (or Inspector).

19.

Note.—If you desire to refer this matter to arbitration, you must within seven days of the receipt of this notice serve upon me a written requisition to refer the matter to arbitration and must proceed in such arbitration in accordance with the regulations in that behalf. In default of your so doing, you will be liable to the penalties provided in the said Act unless you make the required structural alterations (or fence the machinery or machinery alleged in the notice to be altered or fenced).
26. The following forms may be used in arbitration:—

Appointment of Arbitrator.

I., A.B., or we, A.B.C.D., &c., occupier of a factory or work-room situate at, &c. [here describe site of factory], do hereby appoint Y.Z. to act as arbitrator in the matter of the notice of the Minister to make structural alterations (or of the Inspector to fence machinery).

I., E.F., Minister for Labour and Industry, do hereby appoint W.X. to act as arbitrator in the matter of the notice of the Minister to make structural alterations (or of the Inspector to fence machinery), served upon A.B., &c., occupier, carrying on a factory or work-room at [here describe site of factory, &c.]

Appointment of Umpire.

We, W.X. and Y.Z., the arbitrators appointed in the matter of the notice of the Minister to make structural alterations (or of the Inspector to fence machinery) at the factory or work-room of [here insert name of occupier] at [here insert site of factory or work-room], hereby duly appoint E.F. to act as umpire in the said arbitration.

Award.

Arbitration in the matter of the notice of the Minister to make structural alterations (or of the Inspector to fence machinery) at the factory of [here insert name of occupier] at [here insert site of factory in the district, under Section 34 (1) or 29 as the case may be] of the Factories and Shops Act of 1896.

We, W.X. and Y.Z., arbitrators (or I., E.F., the umpire) appointed in the above arbitration, having duly proceeded to the final determination of the matter referred, hereby decide by this award, made under the Factories and Shops Act, 1896, that [here state according to the finding of the arbitrators or umpire either that it is necessary and practicable to make the structural alterations, or fence the machinery as required, or state some modification of the notice by which the structural alterations or fencing of machinery would, if the modification were adopted, be practicable].

Risk of Accident.

26. For the better prevention of accidents the following rules shall be observed:—

1. In every factory where mechanical power is used the occupier shall when so required by an Inspector provide a loose pulley or pulleys to any machine or shafting driven by such power. Such loose pulley or pulleys will not be considered necessary—

(a) For the starting of any engine, if such engine is equipped with a self-starting apparatus, or is directly coupled or is so constructed as to be in the opinion of the Inspector reasonably safe for the purpose of starting.

(b) Where the load is connected with the driving pulley by a clutch.

2. In every factory where mechanical power is used the occupier when so directed by an Inspector shall provide a belt shifter or other safe mechanical contrivance approved by the Inspector for the purpose of throwing belts or pulleys on or off.

3. Every occupier of a factory when so directed by an Inspector shall provide for the service of any shafting moved by mechanical power, and situated more than 8 feet above the floor level—

(a) Stagings or platforms, or gangways of such design and construction, and in such position as may be approved by an Inspector.

(b) Ladders of such design and construction as may be approved by an Inspector.

(c) Belt-hangers for the purpose of holding any belt when not in use clear of contact with any running machinery or mill-gearing. Any employee throwing off a belt from any machine or mill-gearing shall, if a belt-hanger is provided, put such belt on such belt-hanger.

4. An occupier of a factory or any person in control of any boy under 16 years of age or of any female shall, when such mill-gearing is in motion by mechanical power, not permit or allow such person to—

(a) Oil or grease any portion of the mill-gearing.

(b) Put on or put off or adjust or tighten or lace any belt or belting, or attempt so to do.

(c) Go on or remain on any overhead staging erected for the purpose of serving any mill-gearing.

No boy under 16 years of age, and no female, shall be permitted to—

(a) Be in charge of any engine or boiler.

(b) Attend to any engine or boiler, unless the Inspector is satisfied that such act done by such person is under the direct supervision of a competent person.

5. In all breweries and related water factories the occupier shall—

(a) Provide all bottlers, corkers, wirers, sighters, and labellers with such masks or veils, or face-guards, and such gauntlets, or hand or arm guards, as may be approved by the Inspector.

(b) Cause all machines for bottling to be so constructed and so placed or fenced as to prevent as far as possible, during the operation of filling or corking, a fragment of bursting bottle from striking any employee.

And all employees while engaged upon bottling or other operations (upon which explosions or breakages are likely to happen) shall continually wear such face or hand or arm guards as are provided.

6. In any factory where machinery is moved by mechanical power, no female shall be employed at or near, or about, such machinery, or in any room where she may have occasion to pass such machinery, whilst her hair is not covered or closely fastened to her head, or whilst she is wearing flowing hair, or neck ribbons or lace, or such loose articles of dress.
368

(7) All emery wheels shall be fenced or guarded in such manner as, taking into consideration the circumstances of each case, may be approved by an Inspector.

(12) In every factory in which mechanical power is used, all set screws, pins, keys, coupling bolts, and ends of spindles, if moved by such power, shall, when so directed by the Inspector, be fenced or guarded, or countersunk, or cut off flush with the adjoining parts of the machinery or mill-gearing, or protected in such manner as may be approved by the Inspector.

(28) There shall be a passage way in front of every switchboard of not less than 3 feet in width. The passage way, if any, behind the switchboard, shall not be of less width than 3 feet clear of any electrical apparatus. No such passage way shall be used as a store-room or lumber-room.

No cable or resistance frame shall cross any passage way at the back of the switchboard, except at a height of not less than 6 feet 6 inches above the floor.

The passage way at the back of the switchboard shall be smoothly floored, accessible from each end, and shall be provided with open wire-worked or other approved doors.

Commutators, rings, and fly-wheels when attached to generator shafts shall be securely guarded as directed by the Inspector.

When an electric motor is fixed to a wall or erected overhead on bracket or fitting, such bracket or fitting shall be of such construction as will ensure it carrying the motor safely at all loads.

Every conductor connected to a light or power circuit, and every portion thereof, shall be thoroughly insulated. All old circuits and dead wires shall be removed.

Floors and Ceilings of Factories.

Where directed by the Inspector the materials of the ceilings of the factories shall be of cement concrete, bricks or tiles laid in cement, asphalt, or other impervious materials, or wood, or such materials as may be approved by the Inspector as suitable for the requirements of the trade carried on in such factory.

Where directed by the Inspector the material of the ceilings of factories shall be of wood, plaster, bagasse, steel, or such other materials as may be approved by the Inspector.

Doors opening outwards and construction of same.

(30) The provisions of Section 84 of the Act shall apply to—

(a) Shops used for the sale of drapery, millinery, and fancy goods in which the area of floor space on any floor exceeds 600 square feet.

(b) Shops other than those used for the sale of drapery, millinery, and fancy goods in which the area of floor space on any floor exceeds 1,000 square feet.

(2) No door of exit shall be hung so as to open immediately on to a flight of stairs, or steps, or to obstruct when open any exit of a shop.

No such door shall be fastened in any way except as to allow it to be readily opened from each side without a key during the whole time the shop is occupied by any person, except the caretaker or watchman.

Means of Extinguishing Fire.

31. Every factory and shop, when so required by the Inspector, shall be fitted with a 3-inch hydrant, hose, branch, and nozzle, inside the main entrance and at the top of each staircase, and be supplied with such number of buckets as the Inspector may determine and of such pattern as he may approve, to be kept (filled with water) at all times on each floor of such factory or shop; or, in lieu of fire buckets, effective chemical fire-extinguishers approved by the Chief Officer of the Fire Brigade.

FORMS.
32. The written notice to register to be served on the Clerk-in-charge or Inspector by the occupier or intending occupier of a factory, in accordance with Sections 5 and 6 of the Principal Act, may be in the following form, and may be left at his office or sent to him through the post:—

To the Clerk-in-charge, Department of Labour and Industry, Sydney.

[In the case of the Metropolitan District, or to the "Inspector of Factories for the District of address in the case of country districts].

I (or We) hereby give you notice that I am (or we are) in occupation of (or I or we intend to occupy premises) as a factory within the meaning of the Factories and Shops Acts, particulars of which are furnished herewith, and request that a Certificate of Registration be issued to me (or us).

The particulars are as follows:—

Remarks

I recommend that

Owner to be regarded as Occupier.

34. The notice by the Minister regarding for special purposes the owner as the occupier of the premises, in accordance with Section 2 of the Act, definition of "occupier" may be in the following form:—

Take notice that for the purpose of certain structural alterations or building additions, as specified in the attached notice, you are hereby regarded as the occupier of the premises situated at

Minister for Labour and Industry.

Permit to use Premises as a Factory.

35. The permit authorising the use of premises as a factory pending the carrying out of alterations or repairs, in accordance with the provisions of section 6 of the Act, may be in the following form:—

This is to certify that permission is hereby given to street as a factory till the day of . to use premises situated at , 10 .

Clerk-in-Charge.

Note. This permit is issued to allow the premises to be used as a factory pending the carrying out of alterations or repairs as required by the Inspector.
36. The notice of requirements of an Inspector to be served on an occupier or applicant, in accordance with the provisions of Section 56 of the Act, may be in the following form—

**FACTORIES AND SHOPS ACTS.**

**Notice of Requirements.**

Take notice that, in order to render the premises situate at street, fit for occupation as a factory, you are required to comply with certain requirements for occupation, and whereas the said Inspector has, in accordance with the provisions of Section 66 of the Factories and Shops Act, appealed to me to make amendment in such requirements; now, I, Minister for Labour and Industry, having considered such report, hereby order

**FACTORIES AND SHOPS ACTS.**

**Order by the Minister.**

Date

37. The appeal to the Minister against the requirements of the Inspector in accordance with the requirements of section 6B of the Act and the consequent orders may be in the following forms—

**FACTORIES AND SHOPS ACTS.**

**Appeal to the Minister.**

Date

38. Whereas Inspector has requested to comply with certain requirements for occupation as a factory, and whereas the said Inspector has, in accordance with the provisions of Section 66 of the Factories and Shops Act, appealed to me to make amendment in such requirements; now, I, Minister for Labour and Industry, being the Minister for the time being administering the said Act, hereby order

**FACTORIES AND SHOPS ACTS.**

**Order by the Minister.**

Date

39. Whereas Inspector has reported to me that, in his opinion, no requirements that may be specified will, by reason of structural difficulties, sanitary defects, or otherwise, fit premises situate at street for use as a factory: now, I, Minister for Labour and Industry, being Minister for the time being administering the said Act, having considered such report, hereby order

**FACTORIES AND SHOPS ACTS.**

**Order by the Minister.**

Date

40. The certificate of registration to be issued, in accordance with the provisions of Sections 5 and 6 of the Act, may be in the following form—

**FACTORIES AND SHOPS ACTS.**

**Certificate of Registration.**

This is to certify that the premises occupied by person at street, in which persons are employed, have this day been registered under the Factories and Shops Act as a factory.

Clerk-in-Charge

**Certificate of Appointment of Inspector.**

41. The Certificate of Appointment of an Inspector to be produced on applying for admission to a factory or shop if required by the occupier, in accordance with the provisions of Section 10 of the Act, may be in the following form—

**FACTORIES AND SHOPS ACTS.**

**Certificate of Appointment of Inspector. Section 10.**

This is to certify that the said Inspector has been appointed an Inspector under the Factories and Shops Act, and is duly authorized to execute all the powers of an Inspector under the said Act.

**Notice to be Affixed.**

42. The notice to be affixed and maintained in some conspicuous place at or near the entrance of every factory, in accordance with section 12 of the Act, may be in the following form—

**FACTORIES AND SHOPS ACTS.**

**Time Sheet.**

By His Excellency's Command,

J. A. HOGUE,

Minister for Labour and Industry,
CINEMATOGRAPH FILMS OF PRIZE FIGHT,
JEFFRIES V. JOHNSON.
(PETITION FROM CERTAIN MEMBERS AND ADHERENTS OF THE PRESBYTERIAN CHURCH, MOSS VALE, AGAINST INTRODUCTION AND EXHIBITION OF.)

Received by the Legislative Assembly, 14 July, 1910.

To the Honorable the Speaker and other Members of the Legislative Assembly of New South Wales.

The Petition of the undersigned members and adherents of the Presbyterian Church, Moss Vale,—

HUMBLY SHOWETH:—

That whereas cinematograph films of the recent prize fight in America are to be introduced into and shown at various places of amusement in New South Wales.

And whereas the exhibition of the said picture films will tend to the demoralisation of the spectators, and especially of the young.

Your Petitioners respectfully pray your Honorable House to take such steps as may seem best to prevent the introduction and exhibition of the said films.

And your Petitioners, as in duty bound, will ever pray.

[Here follow 30 signatures.]

A similar Petition was received, on 14th July,—From members and adherents of the Methodist Church
Bowral
1910.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

CINEMATOGRAPH FILMS OF PRIZE FIGHT,
JEFFRIES v. JOHNSON.

(PETITION FROM CERTAIN MEMBERS AND ADHERENTS OF THE METHODIST CHURCH, MITTAGOONG, AGAINST INTRODUCTION AND EXHIBITION OF.)

Received by the Legislative Assembly, 20 July, 1910.

To the Honorable the Speaker and the other Members of the Legislative Assembly of New South Wales.

The Petition of the undersigned members and adherents of the Methodist Church, Mittagong,—

HUMBLY SHOWETH:—

That whereas cinematograph films of the recent prize fight in America are to be introduced into and shown in various places of amusement in New South Wales.

And whereas the exhibition of the said picture films will tend to the demoralisation of the spectators, and especially of the young.

Your Petitioners respectfully pray your Honorable House to take such steps as shall seem best to prevent the introduction and exhibition of the said films.

And your Petitioners, as in duty bound, will ever pray.

[Here follow 16 signatures.]

A similar Petition was received, on 20th July,—From members and adherents of the Methodist Church, Moss Vale.
To the Honourable The Speaker and Members of the Legislative Assembly of the State of New South Wales, in Parliament assembled.

SHOWNETH,—

That on the 17th October, in the year 1907, Petitioning Corporation presented a Petition setting forth statements to your Honourable House, which invited full enquiry into such statements with the ultimate object of leading to a disposal of a sum of £10,000 lodged by Petitioning Corporation under statutory conditions which your Petitioning Corporation allege and believe gave no Executive power of forfeiture.

Your Petitioning Corporation have in no way asked for more than full enquiry into the statements see forth in their Petition, and they again pray your Honourable House to consider the Petition referred to.

And your Petitioning Corporation, as in duty bound, will ever pray,

(Sgd.) WILLIAM DOUGLAS, J. S. MAILLER,

Directors.

The Corporate Seal of the Illawarra Harbour and Land Corporation (Limited) was hereunto affixed by a Resolution of the Board of Directors, in the presence of—

A. E. Packer, Secretary,
