   (2.) Harbour and Tonnage Rates Bill:
   
   W. P. CULLEN, Lieutenant-Governor.

   In accordance with the provisions contained in the 46th section of the Constitution Act, 1902, the Lieutenant-Governor recommends for the consideration of the Legislative Assembly the expediency of making provision to meet the requisite expenses in connection with a Bill to make provision for levying and collecting harbour and tonnage rates, and berthing and buoyage charges, and for the management and control of every public wharf, and the lands, buildings, or property connected therewith, in certain ports; for regulating the berthing and removal of vessels in any of such ports, and the discharging, loading, storing, stacking, and removing of goods on or from any such wharf; to repeal the Wharfage and Tonnage Rates Act, 1901, and the Port Kembla Wharfage and Tonnage Rates Amendment Act, 1916; to amend the Port Kembla Wharfage and Tonnage Rates Act, 1916; and for purposes consequent thereon or incidental thereto.

   Mr. Fuller (by consent) moved, without Notice, That this House desires to place on record its sense of the loss it has sustained by the death of Thomas Henry Thrower, Esquire, Member for Macquarie.

   And the motion, having been seconded by Mr. John Storey, was put and carried unanimously, the Members and Officers of the House standing.

11. **Committee of Elections and Qualifications:**—Mr. Speaker, pursuant to the requirements of the Parliamentary Electorates and Elections Act, 1912, had appointed the Committee of Elections and Qualifications for the present Session, of which the following is a copy:

   "By the Honourable the Speaker of the Legislative Assembly of the State of New South Wales, in the Commonwealth of Australia.

   "Pursuant to the power in that behalf vested in me, as Speaker of the Legislative Assembly of the State of New South Wales, in the Commonwealth of Australia, by the Parliamentary Electorates and Elections Act, 1912, I do hereby appoint—

   "Macartney Abbott, Esquire, William Roy Clifford Begning, Esquire, Percy Bruton Calleyoun, Esquire, Arthur Hetherington Grimm, Esquire, William Kearney, Esquire, being Members of the said Assembly, to be Members of the Committee of Elections and Qualifications in the said Act referred to, during the present Session of the Assembly aforesaid.

   "Given under my hand, at the Legislative Assembly Chamber, Macquarie-street, Sydney, this seventeenth day of July, in the year of our Lord one thousand nine hundred and seventeen."

   "JOHN J. COHEN, Speaker."
And intimated that if not disapproved by the Assembly upon motion in the course of the three next following days on which the Assembly shall meet for the despatch of business, it shall take effect as an appointment of such Committee.

12. TEMPORARY CHAIRMEN OF COMMITTEES — Mr. Speaker, pursuant to Standing Order No. 28, nominated, —

Percy Brodron Colquhoun, Esquire,
Simon Tuckey, Esquire,
George Roy Williams McDonald, Esquire,
John Percy Osborne, Esquire, and
Follett Johns Thomas, Esquire,
to act as Temporary Chairmen of Committees during the present Session.

13. PARLIAMENTARY STANDING COMMITTEE ON PUBLIC WORKS — Mr. Speaker drew the attention of the House to the provisions of the Public Works Act of 1912 in reference to the steps required to be taken for the election of the Parliamentary Standing Committee on Public Works. Under section 9, paragraph (1), the Speaker has, within fourteen days after the commencement of the first Session of each Parliament, to appoint a date up to and including which he would receive nominations of Members of the Assembly for election and appointment as Members of the Committee—subsequent proceedings are also provided for under the Act. On the 17th April he had appointed Tuesday, the 24th April, 1917, as the date up to which nominations would be received—and subsequent nominations were received—be the prorogation intervened before that date, of course, quashed all proceedings taken. There seemed to be no provision for an election of the Committee in any other than the first Session of each Parliament.

14. PRIVILEGE—NEWSPAPER ARTICLE — Mr. Price drew the attention of the House to statements made by Mr. Trethowan, M.L.C., in the Sun newspaper of 15th July, 1917, and moved, That the paragraph marked appearing in the Sun newspaper of 15th July, 1917, be read by the Clerk.

Question put and passed.

Whereupon the Clerk, by direction of Mr. Speaker, read the paragraph, as follows:

"I say most definitely that a large area of land has been purchased for soldier settlement that is not suitable for the purpose. I am prepared to bring evidence before any properly-constituted committee that the money paid for this land is far in excess of its market value." — Mr. Trethowan at the Farmers' Conference.

The following motion was carried:

"The Chairman, Mr. Trethowan, M.L.C., replied that letters between Mr. Ashford, Minister for Lands, and himself had appeared in the Press regarding this question. He (Mr. Trethowan) had been interested in the matter wholly and solely from the seriousness of the position regarding our returned men. If we were going to do a fair thing by our soldiers in the way of repatriation it would be absolutely essential that the land we put them on should be suitable for the purpose and that purpose was to enable the soldier to make a decent and comfortable living. I say myself, the speaker declared, 'and I say most definitely, that a large number of the estates that have been purchased are not suitable for the purpose for which they have been acquired. The Minister says that all precautions have been taken, and that it is absolutely impossible, under the system in vogue, for land to be purchased that would not be suitable for closer settlement and soldier settlement. I say most definitely that a large area of land has been purchased that is not suitable for that purpose. I should like this conference to pass a resolution through which we can get the information asked for by Mr. McLenan. We have not got that information. We do know that a great deal more money has been paid for these estates than they are worth in the open market. I make this direct charge to whomsoever is responsible that a very large, area has been purchased for returned soldiers and if they are placed on it they are going to have a harder battle for the rest of their lives than they have had in France."

"I am prepared," Mr. Trethowan went on, amid applause, "to bring evidence before any properly-constituted committee that the money paid for this land is far in excess of its market value, and that it is not suitable for the purpose for which it has been purchased. Now, that is a direct challenge to the Government, and I do not want to say any more." — Mr. A. E. Hunt, M.L.C. (Treasurer of the Association), said he felt strongly on this matter.

"If we were going to make a success of the returned men, the land would have to be suitable—the best land we had. Could returned soldiers be expected to settle away from civilization in the back blocks? There was plenty of suitable land within reach of civilization. 'Let us see,' he exclaimed, 'what we put these men not where they are going to be buried alive, but where they can help and co-operate with each other. It is absolutely absurd to talk of putting them in the back country, for they will never go; or, if they go, they will never stay.'"

The following motion was carried:

"That all areas made available to returned soldiers be the recognised living area in each particular land district; that, in regard to areas already allotted, such be made up to the living area from Crown lands in the vicinity, or by the resumption of land from adjoining holdings; and that, in arriving at the living area, the Minister make use of the knowledge of practical farmers living on or near the lands being made available." — Mr. A. E. Hunt, M.L.C. (Treasurer of the Association), said he felt strongly on this matter.

"Replying to Mr. Trethowan, the Minister for Lands, Mr. Ashford, said last night: 'This Mr. Trethowan who made a statement a little time ago impugning the honor of every Member of the State Parliament by saying that the State Parliament was the places where 'bodding went on, and who, when asked to substantiate the charge, shuffled.' "

Mr.
15. Pro Forma Bill—LAW OF EVIDENCE BILL.—Mr. Fuller presented a Bill, intituled "A Bill to amend the Law of Evidence," and moved pro forma, that this Bill be now read a first time.

16. The Lieutenant-Governor’s Opening Speech.—Mr. Speaker reported that the House had this day attended the Lieutenant-Governor in the Legislative Council Chamber, when His Excellency was pleased to deliver an Opening Speech to both Houses of Parliament, of which for greater accuracy, he had obtained a copy, which he read to the House as follows:

HONORABLE GENTLEMEN OF THE LEGISLATIVE COUNCIL, AND

GENTLEMEN OF THE LEGISLATIVE ASSEMBLY,—

1. It is with pleasure that I call you together for the opening of this the second Session of the twenty-fourth Parliament of New South Wales.

2. Since the last meeting of Parliament, Sir Gerald Strickland has applied for and received leave of absence prior to remission from his office as Governor of the State. His Excellency, during his tenure of office, was distinguished for the zeal with which he threw himself whole heartedly into every movement that had for its object the strengthening of this State’s work in the Empire’s case, and, assisted by his previously married wife, Lady Edeline Strickland, helped in every patriotic effort on behalf of our soldiers at the front, and of those who returned wounded from the fighting line.

3. While rejoicing at the providential escape from death of the Premier, Mr. Holman, on his visit to the Australian troops in France, my advisers deeply deplore the untimely end of that gallant Australian officer, Major-General Holmes.

4. Satisfactory progress continues to be made by the troops of the Allies in the world’s war, and Australia’s soldiers still sustain in every field of operation the high reputation previously gained. The entry of the United States of America as an active participant with the Allies in the struggle gives cause for special congratulation, and must tend towards an earlier termination of hostilities. The deposition of the Greek King Constantine, and the elevation to the Premiership of A. K. Trehowan, M.L.C., implicating the Honorable Mr. Ashford, Minister for Lands, and any Member of Parliament in any corrupt or improper action in regard to the resumption of lands for returned soldiers, and that the Honorable Member should forthwith remit and substantiate the charges made by him in the matter.

Mr. Speaker said it was clearly laid down that the presiding officer of Parliament decided when a Question of Privilege was involved. He had no hesitation in saying that the matter referred to by the Honorable Member did not involve Privilege. Putting it at its worst, the article was merely a criticism on the action of a Member of Parliament. Honorable Members would have ample opportunity of expressing their views on that criticism, and, if any Honorable Member wished to move a motion insisting that an inquiry should be held, he would have thus opportunity, and no harm would be done. This was not a Question of Privilege, and he ruled the motion out of order.

15. Pro Forma Bill.—LAW OF EVIDENCE BILL.—Mr. Fuller presented a Bill, intituled "A Bill to amend the Law of Evidence," and moved pro forma, that this Bill be now read a first time.
10. The industrial position has caused concern, but my advisers are confident that, by careful consideration of grievances, and by a continued sympathetic administration of industrial laws, a true co-operation between all classes of the community during the Empire's hour of supreme crisis can be established.

11. Notwithstanding the difficulties arising from the shortage of doctors and nurses caused by the requirements of the war, the interests of public health have been closely safeguarded.

GENTLEMEN OF THE LEGISLATIVE ASSEMBLY,—

12. Estimates of revenue and expenditure for the current financial year will be laid before you at an early date. These have been framed with the utmost regard for economy.

13. Financial difficulties owing to war conditions have necessitated the curtailment of expenditure on public works, and in some direction, so far as the construction of new works is concerned, employment of operatives, until the necessary financial help can be obtained on more advantageous terms. It is sincerely hoped, however, that this condition of affairs will be of brief duration. As far as the finances will permit, essential works will be proceeded with. Meanwhile it is satisfactory to note that regular employment for workmen generally is obtainable through the State.

Mr. Ley then moved, and Mr. Bavin seconded, the motion, that a Select Committee be appointed to prepare an Address in Reply to the Speech which His Excellency the Lieutenant-Governor has addressed to both Houses of Parliament on opening this Session of the Parliament of the State of New South Wales.

Mr. John Storey moved, That this Debate be now adjourned.

Question put and passed.

Ordered, That the Debate be adjourned until To-morrow, and (with the unanimous concurrence of the House) take precedence of other business.
17. ADJOURNMENT.—Mr. Fuller moved, That this House do now adjourn until To-morrow, at Four o'clock.

Question put and passed.

The House adjourned accordingly, at twenty minutes before Eight o'clock, until To-morrow, at Four o'clock.

W. S. MOWLE,

VOTES AND PROCEEDINGS
OF THE

LEGISLATIVE ASSEMBLY.

SECOND SESSION OF THE TWENTY-FOURTH PARLIAMENT.

WEDNESDAY, 8 AUGUST, 1917.

1. The House met pursuant to adjournment. Mr. Speaker took the Chair.

PAPER.—Mr. Speaker laid upon the Table.—A letter from the Auditor-General, transmitting for presentation to the Legislative Assembly, under the directions contained in the 34th Section of the Audit Act, 1902, copies of Minutes of His Excellency the Lieutenant-Governor and the Executive Council, authorising transfers of amounts from one head of Service to supplement a Vote for another Service, viz.:—

£16,574 9s. 6d. from Vote, "Item No. 246," to Votes, "Items Nos. 247 to 258 (inclusive),"—Department of Public Works.

Referred by Sessional Order to the Printing Committee.

2. QUESTIONS.—Mr. Speaker said: During the Session I have had on several occasions to call attention to a tendency on the part of Members to introduce into Questions with and without Notice matters which do not properly fall within the scope of Questions. For the information and guidance of Members I desire to direct attention to the Standing Orders and the practice in regard to this subject:—

"76. Questions may be put to Ministers of the Crown relating to public affairs, and the answers laid upon the Table; and to other Members, relating to any Bill, motion, or other public matter connected with the business of the House, in which such Members may be concerned. A copy of such answers shall be forthwith delivered to each Member."

"77. In putting any such Question no argument or opinion shall be offered, nor any facts stated, except so far as may be necessary to explain such Question."

"78. In answering any such Question a Member shall not debate the matter to which the same refers." 79. Hereafter referred to.

"May," 12th edition, page 221, says: "Questions addressed to Ministers should relate to the public affairs with which they are officially connected, to proceedings pending in Parliament, or to any matter of administration for which the Minister is responsible. Within these lines an explanation can be sought regarding the intentions of the Government, but not an expression of their opinion upon matters of policy."

Again on page 223 it says:—"The purpose of a Question is to obtain information, and not supply it to the House. A Question may not contain statements of facts, unless they be necessary to make the Question intelligible, and can be authenticated; nor should a Question contain argument, expressions of opinion, inferences, or imputations. Quotations are not permitted in Questions, or syllogisms, or controversial or ironical expressions. Nor may a Question refer to debates, or answers to Questions in the current Session. Discussion in anticipation upon an Order of the Day or other matter by means of a Question is not permitted; nor can a Question be asked regarding proceedings in a Committee which have not been placed before the House by a Report from the Committee. A Question which publishes the names of persons or statements not strictly necessary to render the Question intelligible will be refused a place on the Notice Paper. The expression of an opinion or the solution of an abstract legal case or of a hypothetical proposition, cannot be sought for by a Question. Nor is it in order to ask merely whether certain things, such as statements made in a newspaper, are true, but attention may be drawn to such statements, if the Member who puts the Question, makes himself responsible for their accuracy. No Question can be asked which reflects on the character or conduct of those persons whose conduct, as stated on page 248, can only be dealt with on a substantive motion; for the same reason, a Question is not permitted which makes or implies charges of a personal character. Nor can any Questions be asked regarding character or conduct except of persons in their official or public capacity. A Question also which might prejudice a pending trial should not be asked."
The method of dealing with irregular Notices is dealt with on page 217 where it is laid down as follows:—

"As the Notice Paper is published by authority of the House, a Notice of a Motion or of a "Question to be put to a Member, containing unbecoming expressions infringing its rules, or "otherwise irregular, may, under the Speaker's authority, be corrected by the Clerks at the Table. "The Clerks may subdivide, if it is necessary, a Notice submitted to the Speaker, or to a Member, who gave the "Notice. A Notice wholly out of order, as, for instance, containing a reflection on a vote of the "House may be withheld from publication on the Notice Paper, or, if the irregularity be not "extreme, the Notice is printed, and reserved for future consideration; though in such cases it is "not the duty of the Clerks at the Table to inform the Member who gave the Notice of an "informality that it may contain. When a Notice, publicly given, is obviously irregular or "unbecoming, the Speaker has interposed and the Notice has not been received in that form. He "has also directed that a Notice of Motion should not be printed, as being obviously designed "merely to give annoyance. If an objection be raised to a Notice of Motion upon the Notice "Paper the Speaker decides as to its regularity; and, if the objection be sustained, the Notice is "amended or withdrawn. The House has also, by order, directed that a Notice of Motion be taken "off the Notice Paper."

I have had a search made in the Journals of other State Parliaments for an application of these rules and find that in the Legislative Assembly of Queensland the Deputy-Speaker on the 8th November, 1910 (see "Votes and Proceedings" No. 56) laid down the practice in somewhat similar terms to those which I am making use of to-day. In the instance referred to the Deputy-Speaker expunged the Question from the Paper.

Again, on the 14th September, 1916, I find in the Queensland "Parliamentary Debates" that the Speaker drew attention to the form of a Question which he ruled out of order, and suggested that it should be asked in an amended form. The Honorable Member declining to accept the revised edition of the Question it was struck out.

As recently as 26th July last, in the Queensland Legislative Assembly, Mr. Speaker said: "If the Honorable Member will only take the trouble to look up the ruling given by myself last "Session on the matter of Questions—appearing in Hansard. Vol. cxvii, page 560, and also the "ruling given by Mr. Speaker Armstrong on the same subject—see Votes and Proceedings' of "1910, page 253, he will see that his Question is not within the scope allowed by the Standing "Orders. The Question asks for an expression of opinion, or expression of view, and I do not "intend to allow it to be asked. And in future, unless Questions are framed within the limits of "our Standing Orders, I shall use the power vested in me, and strike such Questions off the "Business Paper."

Standing Order 79. "Questions put without Notice are subject to the same rules as "Questions upon Notice, but neither the Question nor reply shall be recorded in the 'Votes and "Proceedings'."

I find that my predecessor, Mr. Speaker Meagher, made the following observations in regard to the asking of Questions without Notice:—

"In view of the statement made by the Premier, I shall not allow a series of categorical "Questions to be put by Honorable Members with the object of their being replied to by one "answer. If the Honorable Member desires to put a Question in order to elicit further information, "I shall permit him to ask that Question. It will be within the discretion of the Minister to say "whether it is an urgent Question, or whether, as my judgment goes, 90 per cent. of the Questions "should go on the Business Paper. But if a Question is sought to be put which practically "transverses an answer previously given, I shall refuse to allow it to be put. . . . It is "impossible for the Speaker in the massing of Questions asked in an irresponsible way to "make it should be asked, because there is no record of them in the 'Votes and Proceedings'. I "again ask Honorable Members not to abuse the Standing Orders. It is very clear that Questions "without Notice should be confined within the ambit of matters of urgency which admit of no "delay. I say again that 90 per cent. of the Questions could be placed on the Business Paper "without prejudice either to the Questioner or to the answerer."—N.S.W. "Parliamentary Debates," "Vol. cxxiii, pages 123 and 124. 23 June, 1916.

He also laid it down as a practice that only two Questions should be allowed upon any one subject. That practice I intend to adhere to.

Having drawn attention to this matter I believe Honorable Members will observe these very salutary rules which are laid down for their guidance.

Referred by Sessional Order to the Printing Committee.
3. **Public Service Board**:—Mr. Gardiner proceeding to move, pursuant to Notice, That, in the opinion of this House, the Public Service Board should be forthwith abolished,—

**Point of Order**:—Mr. J. C. L. Fitzpatrick submitted that the motion was out of order on two grounds: (1) That ample opportunity would be afforded of discussing this matter in the Financial Statement Debate, and on consideration of the Estimates; (2) that a Royal Commission had been appointed to inquire into the Public Service, and amongst other subjects to be dealt with by that Commission was the question whether the Board should be retained or abolished. In relation to matters of this kind Parliament had always adopted the course, when a matter was likely to be considered by some well-established tribunal, of allowing that tribunal to do its duty, and not be prejudiced by any discussion which might take place in Parliament.

Debate ensued.

Mr. Speaker said he was of opinion that the second Point taken was fatal to the motion. Accepting the Minister's statement that the whole question of the Public Service Board was now the subject of inquiry by a Royal Commission, he was of opinion that any discussion on the matter might be prejudicial to that inquiry. For that reason he ruled the motion out of order; and having ruled it out of order on that ground, there was no necessity for him to give his ruling on the first Point raised.

4. **Case of Mr. James Fleming**—Mr. Kearsley moved, pursuant to (amended) Notice:

(1.) That a Select Committee be appointed to inquire into and report upon the case of Mr. James Fleming, the registration of whose first-class coal-mines manager's certificate of competency, obtained in New Zealand, has been refused in this State.

If any definite statement was made, either by that gentleman or any other person, in the direction to which Mr. Storey had referred, he would see that the honor and integrity of Parliament was upheld; but in view of Mr. Trethowan's denial that he made those statements, he did not see that he could proceed any further.

(2.) Loan Bill:—
W. P. CULLEN, 
Lieutenant-Governor.
A Bill, intituled "An Act to authorise the raising of a Loan for Public Works and Services, and for other purposes,"—as finally passed by the Legislative Council and Assembly, having been presented to the Lieutenant-Governor for the Royal Assent, His Excellency has, in the name of His Majesty, assented to the said Bill, and has this day transmitted it to the Legislative Council, to be numbered and forwarded to the proper Officer for enrolment, in the manner required by law.

Ordered to be printed.

5. Adjournment:—
(1.) Mr. Speaker stated that he had received from the Honorable Member for Parramatta, Mr. Bruntnell, a Notice, under the 49th Standing Order, that he desired to move the adjournment of the House, to discuss a definite matter of urgent public importance, viz.:—"The need for making provision in the Amending Land Bill for the right of holders of certain leases to convert." And the motion for the adjournment of the House being supported by five other Honorable Members,—Mr. Bruntnell moved, That this House do now adjourn.

Point of Order:—Mr. R. Hall submitted that it was a well-known principle that it is out of order on a motion for adjournment to discuss a subject which will anticipate the discussion of a Notice on the Business Paper. He referred to the Order of the Day No. 7 for the second reading of the Crown Lands (Amendment) Bill, which provided for conversion of certain tenures, and which was specifically the same matter as that on which the Honorable Member desired to move the adjournment of the House. It was perfectly clear that discussion could not be allowed which would anticipate debate which was bound to take place on a matter already on the Business Paper.

Debate ensued.
Mr. Speaker said the Point taken was fatal; he ruled the motion out of order.

(2.) Mr. Cochran moved, That a second motion for the adjournment of the House be now entertained. Question put.
The House divided.

VOTES AND PROCEEDINGS OF THE LEGISLATIVE ASSEMBLY. 
26th September, 1917.
1. The House met pursuant to adjournment. Mr. Speaker took the Chair.

PAPERS:—Mr. Grahame laid upon the Table the following Papers:—
(1.) Amended Regulation under the Hay Irrigation Act, 1902.
(2.) Amended Regulation under the Wentworth Irrigation Act, 1890.
Referred by Sessional Order to the Printing Committee.

2. CITY AND SUBURBAN RAILWAYS (RESUMPTION RESCission) BILL:—The following Message from His Excellency the Lieutenant-Governor was delivered by Mr. Ball, and read by Mr. Speaker:—

W. P. CULLEN,
Lieutenant-Governor,

In accordance with the provisions contained in the 46th section of the Constitution Act, 1902, the Lieutenant-Governor recommends for the consideration of the Legislative Assembly the expediency of making provision to meet the requisite expenses in connection with a Bill to provide for the rescission of certain resumptions under the City and Suburban Electric Railways Act, 1915, and the Sydenham to Botany Railway Act, 1913; and for purposes consequent thereon or incidental thereto.

State Government House, Sydney, 26th September, 1917.

Ordered to be referred to the Committee of the Whole on the Bill.

3. ADJOURNMENT:—Mr. Speaker stated that he had received from the Honorable Member for Upper Hunter, Mr. M. Abbott, a Notice, under the 49th Standing Order, that he desired to move the adjournment of the House, to discuss a definite matter of urgent public importance, viz.:—"That special provision should be made at earliest for an amendment of the Act which relates to the protection of aborigines so that the number of settlements may be materially increased." And the motion for the adjournment of the House being supported by five other Honorable Members,—

Mr. Abbott moved, That this House do now adjourn.

Point of Order:—Mr. J. C. L. Fitzpatrick drew attention to the Aborigines Protection Amendment Bill which was set down for second reading. He could not point out the clause which said that certain provision would be made for increasing the number of camps provided for aborigines, but the Bill was one which dealt generally with aborigines protection, and, presumably, provision would be made to meet the aspect of the question indicated by the Honorable Member for Upper Hunter. He asked that the motion be ruled out of order.

Mr. Speaker said he had not had time to read the Bill, and unless the Minister could point out the clause which contained the provision to which he referred he could not rule the motion out of order. If the Honorable Member could point out the clause which contained the provision to which he referred he could not rule the motion out of order. If the Honorable Member could point out where the provision was contained in the Bill, he would reconsider his decision.

Further Point of Order:—Mr. J. C. L. Fitzpatrick drew attention that the Orders of the Day for the resumption of the Committees of Supply and of Ways and Means were still on the Paper. It might be contended that because the Estimates and the Appropriation Bill had been passed the period had gone by when a Point of Order of this kind could reasonably be taken, and that a previous Speaker had ruled in that direction, and that the way was cleared for motions for the adjournment of the House for the purposes of discussing matters of urgent public importance.
VOTES AND PROCEEDINGS OF THE LEGISLATIVE ASSEMBLY.

27th September, 1917.

Mr. Speaker said he could not uphold the Point taken by the Acting Treasurer. The mere fact of Supply being on the Business Paper would not preclude Honorable Members from moving the adjournment of the House. The very first Orders of the Day placed upon the Business Paper were Supply and Ways and Means. That did not prevent the adjournment being moved until the Estimates were tabled. Once the Estimates were tabled the adjournment could not be moved on any matter dealt with in those Estimates before they had been disposed of. Once Supplementary Estimates were tabled the adjournment could not be moved on any matter which could be discussed on those Estimates. There was a ruling by his predecessor which was very clear: "The Committee of Ways and Means had performed its function, and the Appropriation Bill had been passed, and so far as he could see the way was cleared for discussion of the matter referred to in the Motion. He, therefore, ruled the Motion in order."

Further Point of Order—Mr. Ball pointed out that Order of the Day No. 2 on the Business Paper—Aborigines Protection (Amendment) Bill—was an opportunity for discussion on the question referred to in the Motion for adjournment. He drew attention to the definition of reserves in the Bill which was to be taken into consideration. The definition of reserves must of necessity deal with the question of the area of land which would be under consideration in connection with the Motion for adjournment. The question upon which the adjournment was moved was that of the increasing of the area of reserves, and in discussing the question of reserves the question of area must come into consideration. He submitted that the subject could be dealt with on consideration of the Bill now on the Table.

Mr. Speaker said that when the Minister for Mines took the first Point of Order he had not before him the Bill nor the original Act, and the Minister was not able to inform him of the exact amendments proposed. Since then he had had an opportunity of seeing both the Act and the Bill, and found that it was proposed to eliminate from the definition of "reserve" the words "by the Governor," and to insert instead "under any Act dealing with Crown lands." He did not know whether that was going to increase or limit the number of reserves, but he would be going too far if he were to say now that on the second reading of the Bill Honorable Members could not discuss the question of increasing the number of settlements for aborigines. A section in the original Act provided that all reserves should be vested in the Board. Therefore, following the ruling which he had previously given, as he thought this matter could be discussed on the second reading of the Bill, he upheld the Point taken by the Secretary for Public Works, and ruled the Motion out of order.

4. CITY AND SUBURBAN RAILWAYS (RESUMPTION RESCISSION) BILL.—Mr. Ball moved, pursuant to Notice, That this House will, on its next sitting day, resolve itself into a Committee of the Whole to consider the expediency of bringing in a Bill to provide for the rescission of certain resumptions under the City and Suburban Electric Railways Act, 1915, and the Sydenham to Botany Railway Act, 1913; and for purposes consequent thereon or incidental thereto.

And the Honorable Member for Gloucester, Mr. Price, being present in his place,—

Mr. Fuller moved, That this House do now proceed to consider the Report of the Royal Commissioner appointed to inquire into the charges made by Mr. Price against the Honorable Ashford, Minister for Lands and Forests, as set forth in Hansard report on 5th September, 1917; and also to inquire into the charges made by the said Mr. Price against the Honorable William George Ashford, relating to a certain deviation on the Dubbo-Werris Creek Railway, as reported in Hansard of 13th December, 1916,—and that the Report be read by the Clerk.

A written report is presented by the Clerk, by direction of Mr. Speaker, as follows:—

REPORT.

To His Excellency Sir William Postle Cullen, Knight Commander of the Most Distinguished Order of Saint Michael and Saint George, Lieutenant-Governor of the State of New South Wales and its Dependencies, in the Commonwealth of Australia.

May it please Your Excellency,—

I have the honor to present my Report respecting the matters into which I was appointed by Royal Commission under the Great Seal, on the 21st September last, to inquire.

By the terms of the Commission, I was directed to inquire into the charges made by Mr. Price, M.L.A., against the Honorable Ashford, Minister for Lands and Forests, as set forth in Hansard reports of the proceedings of the Legislative Assembly of the 13th December, 1916, and the 5th September, 1917.

Mr. Price appeared in person, and Mr. Ashford was represented by Mr. Blacket, K.C., instructed by Messrs. Coghlan and Company. The charges made on the first occasion were in respect of two alleged deviations of the Dubbo to Werris Creek Railway line as passed by the Public Works Committee, and are—I quote Mr. Price's own words—as to No. 1:—

"Now I come to the Dubbo to Werris Creek line, the construction of which was recommended by the Public Works Committee after an exhaustive inquiry, the railway to be taken along a specified route. At the request of the Minister for Lands and two German constituents of his—two members of the local Labour League and the other the president of the Progress Association—the line was diverted 3½ miles to Mungooma against the report of the officers, and in this way £6,000 of public money was wasted.""

and as to No. 2:—

"After that the line passed on to Merrygoen, and when it reached that Norton Griffiths and Co., who had some plant at Flamboura a little further on, said that they would like the line to go on to that point. Mr. Cann, the Minister in charge, wrote a minute in which he said that the report of his officer was to the effect that the expense of that deviation..."
"deviation was not warranted, and that the deviation would entail an extension of the line of 164 miles, and the construction of a bridge over a river instead of a line going straight across country, and that this would necessitate the traffic being hauled over 165 additional miles unnecessarily for all time. When the Commissioners were asked what they suggested all they could suggest was the carrying out of a triangulation scheme to avoid the 'back shunt.' They said, 'We want the most direct line we can get,' and then Mr. Cann made the following minute:—'There is no justification for this deviation, because it entails 164 miles more haulage and the crossing of a bridge over Westalibah Creek. 'There is no justification whatever for it, and therefore it cannot be granted.' But the following morning, on the 6th July, a telegram comes to the Minister for Lands, Mr. Ashford, from this gentleman, and another telegram comes from his brother. One is the secretary to the Labour League, and the other is president of the Progress Association. This little coterie get together, and a marvellous thing occurs. Although Mr. Fraser condemned the proposal, and although there are no papers in the Department to justify it, yet this country is put to the expense of £80,000 for a deviation which is contrary to the law. A detector of 165 miles is made, and an increase of £80,000 put on the Estimates.

That is done at the suggestion of those German gentlemen. It is a public scandal, and I am not going to be a party to allowing £80,000 to be spent unnecessarily. These are constituents of the Minister; one is Oscar Carl and the other is Carl Oscar. The papers disclose that Mr. Cann one day said, 'This cannot be granted because it is wrong.' Mr. Fraser said the same thing, but the next day, after these telegrams have gone through, the plans are amended and the request granted. When I went down to the Department, Mr. Cann gave me a chance to see the papers. I made a note of their official numbers, and it took me four solid hours to go through them and make copies of the plans, until I got the hang of the whole thing."

The charges made on the second occasion were—(1) in respect of the alleged omission from the Estimates of certain items with reference to the purchase of certain saw-mills, and the payment of certain salaries; and (2) in respect of the purchase of land for soldiers, and were as follows. Again I quote Mr. Price's own words:—

As to 1:—

"The position is very clear. Contrary to the provisions of the Public Works Act, and contrary to the operations of the ordinary system of Government, the expenditure of £20,000 is involved, and it is not shown on these Estimates. A banking account has been transferred from the City Bank at Gloucester and opened on behalf of the Government with the Commercial Bank in the same town. The Minister for Lands, in answer to a question put by me, deliberately said that the transaction had not been completed, yet it was a matter of open knowledge, and the Minister must either have been misinformed, he must have been misleading this House, or lie must have made an untruthful statement... this expenditure was incurred contrary to the law, and is not shown on these Estimates. I want to know what Schedule this expense has been inserted under... an account was transferred from the City Bank at Gloucester, and the Government opened an account in the Commercial Bank in the same town, cheques being drawn and paid by a private individual... and to get behind the law laid down by statute the Government entered into a transaction involving the expenditure of a sum of £20,000, which, according to the Public Works Act, must be submitted to this House. The fact is, that the law has been broken by the Government. I want to point out that we are getting into a very dangerous system, when items are jockeyed from one Department to another. In answer to a specific question asked by me, the Minister distinctly stated that this transaction had not been completed. Now we are told that it has been completed. I complain of the way in which the accounts are belatedly put and falsified. These accounts are supposed to be no absolutely misleading, and contrary to the operations of the ordinary system of Government, the expenditure of £20,000 is involved, and it is not shown on these Estimates..."

As to 2:—

"Further, the Minister for Lands advised me that no property had been resumed at £56 per acre, the original purchase cost of which was £4 per acre. That is absolutely misleading... What I do say is that it is a case of misadministration. The administration of this Department is of such a character that men who want to get on the land, and those who want land, those who want additional conditional purchases and additional holdings are starving... the patron and dishonest administration that has been adopted... I have made no changes with regard to the Minister that I cannot substantiate. The charges made by me are deliberately made."
Alleged Deviations on the Dubbo-Werris Creek Railway.

As to No. 1, I find that the Public Works Committee, in reporting on the proposed line from Dubbo to Werris Creek, described the route recommended as passing 5 miles east of Mundooran. This did not satisfy the wishes of the inhabitants of that town, and Mr. Makinson, a bank manager there, and secretary of the local Progress Association, from October, 1913, onwards, sent through Mr. Ashford, as Member for the district, several letters and a petition against the proposed line. Mr. Griffith, then Minister for Public Works, urged that the line should be brought nearer to Mundooran, and, later on, Mr. O'Brien, secretary of the local Labour League, wrote twice to the same effect.

An exploration survey of the suggested deviation was then ordered to be made, and Mr. Surveyor Jamieson went over the ground, and Mr. Makinson and others, on reporting on two alternative deviations which would bring the line within 2 miles of Mundooran, and suggested that trial surveys should be made.

No German constituent of Mr. Ashford had anything to do with the matter, and so far from the line being diverted against the report of the officers—though Mr. Kennedy at one time was obviously open and aboveboard, and is fully disclosed in the official papers.

Then the Secretary of the Chief Railway Commissioner, on the 22nd June, 1915, pointed out to the Director-General of Public Works that it was said that the proposed line would reverse the correct direction at Binnaway, that is, curve southerly instead of continuing from a point north of Binnaway, and proceeding in a direct line towards Werris Creek, and stated that it was of the utmost importance that the trains should run from Dubbo to Werris Creek without any reversing at Binnaway, and that the Deputy Chief Commissioner would be glad if the Director-General would give a direction that would produce this result, either by constructing the line coming northwards from the northern side of Binnaway, or, if this should be too costly, by making the junction in the correct direction at a point south of Binnaway.

Thereupon, Mr. Hutchinson, Chief Engineer for Railway and Tramway Construction, insisted that the proper connection would be not at Binnaway, but at Piambra, and suggested that a fresh survey be made from a point just north of Piambra. This survey was made carried out by Mr. Edwardes, who reported that the route he had selected would save 2 miles 55 chains in construction, and in haulage one way 7 miles 25 chains.
Next in order of date it appears that Mr. Ashford forwarded on the 12th July, 1915, to the
Minister of Public Works and the Bank of Commerce, a memorandum of Mr. G. S. Sobemitek and Mr. C. J. Hamilton, secretary of the Progress Association; one from Mr. W. Schenck and Mr. R. Schenck, president and secretary of the local Labour League; and one from Mr. Calcraft, manager of the Bank of Commerces, on behalf of the townspeople; and a letter from another gentleman, Mr. Leithold, protesting against the proposed removal of the junction from Binnaway. These were apparently considered by Mr. Cann, who was then Minister for Public Works, and on the 14th July his secretary, Mr. Cooper, made a memorandum that the Minister “directed that a reply be sent to
Mr. Ashford that he is unable to alter the proposed arrangement for the junction at Pambula”. Mr. Cann stated in evidence, and his statement is borne out by a further memo. of Mr. Cooper’s of the same date, that he had not intended the decision to be final, and was waiting a reply from the Railway Department as to their wishes in the matter. Mr. Cooper’s memo. reads, “No further action as above at present.” Mr. Ashford, apparently, then had an interview with the Minister and also with the Director-General of Public Works.

In the meantime, Mr. Hutchinson, as he stated in his evidence, had had two interviews with the Chief Commissioner, at the first of which he recommended that Pambula be selected as the take-off, being then under the impression that very little of the proposed work at Binnaway had been carried out. Before the second conference he had found out that he was in error as to this, and he then recommended the Chief Commissioner to adhere to Binnaway, pointing out that though the cost of constructing the line from there would be more than that of a line from Pambula the "deviations," namely, £6,500 at Mundooran and £80,000 at Binnaway, would be more than covered by the cost of erecting at the latter place the works that had already been carried out at Binnaway, and he arranged that a triangle should be put in at Binnaway to obviate the back shunt. The Chief Commissioner was satisfied with this, and the Secretary to the Chief Commissioner so informed the Director-General of Public Works on the 9th August, and finally, on the 25th August, Mr. Cann approved of Binnaway as the junction.

Mr. Hutchinson was most anxious that the decision to adhere to Binnaway was that of the Chief Commissioner, and that neither he nor the Chief Commissioner knew anything of Mr. Ashford in the matter at all. If Mr. Price went through the papers with any care he must have seen that whatever action Mr. Ashford took (and I cannot see anything at all improper in what he did, which was no more than would have been done by the Member for the district, whoever he might be) it was obviously not to obtain an alteration, but to prevent an alteration from the plan originally proposed. He had nothing to do with the original departure from the take-off shown in the map attached to the report of the Public Works Committee, and his actions had no effect on the ultimate decision which was due to Mr. Hutchinson’s recommendation being adopted by the Chief Commissioner and approved by Mr. Cann.

It is difficult to imagine a statement more full of inaccuracies and even distortions of fact than this part of Mr. Price’s speech.

No minute either of Mr. Cann’s or of Mr. Fraser’s, such as Mr. Price mentioned in his speech, was among the papers. As to the former, though Mr. Price asserted he had seen in it, it is highly probable that the name, by Mr. Cooper, to which reference has been made, was all that ever existed, and that was not in the terms which Mr. Price purported to quote in his speech. It is to be noted, too, that the précis which Mr. Campbell typed from Mr. Price’s notes contains no reference to any such minute.

As to the supposed minute of Mr. Fraser, I can find nothing to account in any way for Mr. Price’s statement with regard to it.

Again, Mr. Price’s dates and names are all wrong. I have mentioned the names of the persons who sent the telegrams, and it appears that none of them bear the names of Oscar Carl or Carl Oscar. Mr. Price said that he had been informed these were the names they are commonly known by. He gave no proof of this, and it is difficult to understand why, having the real names before him, he did not give them.

Again, as to his statement that “the country was put to an expense of £80,000 for a deviation contrary to law,” and “a detour of 16½ miles and an increase of £80,000 put on the Estimates,” and that it was “a public scandal and he was not going to be a party to allowing £80,000 to be spent unnecessarily,” Mr. Price asserted that he had not meant that the deviation, as he called it, had cost £80,000, but that that sum would be the ultimate loss entailed by its having been made. It seems to me that Mr. Price—having seen in the Loan Act, 1916, under the heading “Railway Construction, Dubbo to Warren Creecy,” a further sum of £90,000—wanted to make it appear in his speech that that sum represented the expenditure involved by these “deviations,” namely, £6,500 at Mundooran and £80,000 at Binnaway, but as the actual cost of the two was not more than £16,000 at the outside, he then attempted to explain away the position in which he found himself by saying that he had meant “ultimate loss” and not “cost” a construction which I am sure no one who heard or reads his speech could possibly put upon his words.

Mr. Price urged that no departure could lawfully be made from the line of route set out in the report and map of the Public Works Committee, and that the mere fact that such a departure had been made in itself raised a strong presumption of improper departures, and that the inference was inevitable in it. I cannot agree with Mr. Price in regard to this. The Act authorising the construction of the line empowers the constructing authority to make such deviations and modifications as he may consider desirable, and in any event, as I have pointed out, Mr. Ashford had nothing to do with the selection of Binnaway, even if it could be said that this was a departure from the route selected by the Public Works Committee, which I do not consider it to have been.

Some comment might have been made on the methods of the Construction Branch of the Public Works Department as to the original selection of Binnaway as the junction, and as to the expenditure of so much money there when it is now admitted that the junction should have been at Pambula; also as to important steps taken without authority and as to the want of co-ordination between...
between the officers of the branch, but even that was unnecessary, as Mr. Cann had put his finger on the weak spot, and had made a minute to secure the more efficient working of the branch. This minute of Mr. Cann's was put forward by Mr. Price as if it were evidence against Mr. Ashford, but, in fact, it had no reference whatever to Mr. Ashford, and nothing contained in it or connected with the procedure of the Department in the slightest degree justified charges being made against Mr. Ashford.

Purchase of Saw-mills, &c.

All imputations against the Minister with regard to this matter were withdrawn by Mr. Price when the inquiry into them was about to be proceeded with, and Mr. Price stated that he had no evidence to support his charges.

Mr. Price admitted that his statement that the Government Account had been transferred from one Bank in Gloucester to another, and put in the name of a private person, was not in accordance with the fact, which was simply that an account had been opened in the name of a private person. This person was, I understand, the person appointed by the Government as manager of the mill, and the admission showed that the action was not taken, as the speech intimated, for the purpose of concealing the purchase of the mill, but was taken to provide for the ordinary mill accounts, and thus it disposed at once of one of the most serious of Mr. Price's allegations in regard to this matter.

Mr. Price stated that he had never intended to make any imputation against Mr. Ashford personally, or as a Minister. In view of the language that he used throughout his speech on this matter, and especially in view of his statement that the charges made by him were deliberately made, and that he had made no charges with regard to the Minister that he could not substantiate, it is impossible for me to accept his disclaimer. However, Mr. Blacket, on behalf of Mr. Ashford, having accepted Mr. Price’s withdrawal, it seemed to me that no good purpose would be served by going further into the matter.

Purchase of Land for Soldiers.

As to this, Mr. Price asserted he had not attacked Mr. Ashford, but the Government as a whole, and though his language in his speech certainly contained aspersions on Mr. Ashford, as, for instance, in the passages hereinafore set out, it is correct that most of what he said was directed at the Government. Mr. Blacket, for Mr. Ashford, accepted Mr. Price’s disclaimer of any imputations against Mr. Ashford in connection with this matter, and I, therefore, did not think it necessary to inquire into it.

CONCLUSION.

I find that the official papers and the evidence relating to the “deviations” of the Dublo to Werris Creek line, and the terms of Mr. Price’s withdrawal of the charges in respect of the saw-mills matter, clearly establish that the charges made by Mr. Price against Mr. Ashford were made wantonly and recklessly, and without any foundation whatsoever.

I desire to express my appreciation of the valuable services rendered to me by Mr. Page, who acted as my Secretary.

Mr. Speaker inquired whether Mr. Price desired to have any passages read from the evidence, the whole of the Report having been read.

Mr. Price replied in the negative, and, having been heard in his place, withdrew.

Mr. Fuller moved, “That” Richard Atkinson Price, Esquire, a Member of this House, for the Electoral District of Gloucester, having made charges against the Government, M.L.A., Secretary for Lands and Minister of Forests, which charges are characterised in the Report of the Royal Commissioner as made wantonly and recklessly, and without any foundation whatsoever, is guilty of conduct unworthy of a Member of Parliament, "and seriously reflecting upon the honor and dignity of this House.”

Mr. Edden moved, That the Question be amended by leaving out all the words after the word “That” and inserting the words “a Call of the House be made for Thursday, 1st November, to further consider the conduct of Richard Atkinson Price, Esquire, a Member of this House, for the Electoral District of Gloucester,”—instead thereof.

Question proposed,—That the words proposed to be left out stand part of the Question.

Debate continued.

Mr. Speaker said he would not take the action he was taking now on an ordinary occasion and unless a Point of Order had been taken. He regarded this as a novel point of procedure, and he thought it his duty to mention it to the House. He had at first thought the amendment was in order, having no precedents before him, and he knew of no similar case, nor even now could he find any similar case. He had since looked up the precedents, and so far as he could ascertain, there were only two cases in which a Call of the House has been proposed as an amendment. The first was on the 19th May, 1887, when Mr. Speaker Young was in the Chair. Sir Henry Parkes had moved for the adoption of new Standing Orders reported upon by the Standing Orders Committee, and an amendment had been moved for a Call of the House to consider the Report of that Committee. A Point of Order was submitted that the proposed amendment was not in order in the grounds that it was really a substantive motion, and therefore could not be moved without Notice; that it was not relevant to the question before the House; and that a Call of the House could only be made after Notice duly given. Mr. Speaker Young said it had been urged by the Honorable Member for Camden that inasmuch as Notice had always been given of a motion of this character in the House of Commons, and also in this House, it was absolutely necessary that Notice should be given of this amendment. It seemed to him that he would be exceeding the strict lines of his duty if he limited the power of the House in matters of this kind in the absence of any express Standing Order or rule; and while he could not find a precedent for such an amendment, there was no record of a similar motion having been ruled out of order; indeed, he could
could not discover that such a question had been submitted to any previous Speaker, and, therefore, he thought it to be his duty to rule so as to leave the power of decision in the hands of the House rather than to decide the matter himself. As to the question of relevancy, he said that amendment had been moved and carried opposite in meaning to the original motion, and, therefore, he could not sustain the objections taken by the Honorable Member. The question again came before the House in July, 1900, when Mr. William McCourt was Speaker. A motion had been made for a new Standing Order, and an amendment moved in favour of a Call of the House upon due notice given. A Point of Order was submitted that the proposed amendment was out of order, as being irrelevant, but Mr. Speaker decided that the amendment could be admitted. In the present case he thought that the Honorable Member had lost his opportunity because the House had already decided by motion that the Report of the Royal Commissioner appointed to inquire into the charges made by Mr. Richard Atkinson Price should now be taken into consideration. If the amendment for the Call of the House had been moved on that motion it would have been in order, but it was too late now. Therefore, under the circumstances, he could not accept the amendment of the Honorable Member. 

Debate—on original Question—continued.

Mr. Wright moved, That the Question be amended by leaving out the words “and seriously reflecting upon the honor and dignity of this House.” 

Question proposed, That the words proposed to be left out stand part of the Question.

The House divided.

And so it was resolved in the affirmative.

Original Question,—That Richard Atkinson Price, Esquire, a Member of this House for the Electoral District of Gloucester, having made charges against the Honorable William George Ashford, M.L.A., Secretary for Lands and Minister of Forests, which charges are characterised in the Report of the Royal Commissioner as made wantonly and recklessly, and without any foundition whatsoever, is guilty of conduct unworthy of a Member of Parliament, and seriously reflecting upon the honor and dignity of this House,—put.

The House divided.

And so it was resolved in the affirmative.

Mr. Fuller moved, That Richard Atkinson Price, Esquire, now sitting in this House as Member for the Electoral District of Gloucester, be, for the said offence, “expelled this House.”

Mr. Gregory McGirr moved, That the Question be amended by leaving out the words “expelled this House,” and inserting the words “suspended for the remainder of the present Session”—instead thereof.
Question proposed,—That the words proposed to be left out stand part of the Question.

Mr. Oakes moved, That this House do now adjourn.

Point of Order:—Mr. G. R. W. McDonald submitted that the matter could be fully discussed under Order of the Day No. 22 upon Today’s Notice Paper for the second reading of the State Salaries (Commonwealth Taxation) Bill.

Mr. Speaker said that there was no doubt the matter could be discussed under the Order of the Day referred to, and he therefore ruled the motion out of order.

Mr. Speaker said he felt bound to follow the ruling of his predecessor as being the ruling of the House. The case referred to by the Honorable Member for Bingara was not a definite matter, but the motion of the Honorable Member for Hartley dealt with the victimisation of the workers consequent upon the recent industrial upheaval. Mr. Dooley moved; That this House do now adjourn.

Point of Order:—Mr. G. R. W. McDonald, referring to the terms of Standing Order No. 49, submitted that this motion was neither urgent nor definite. He referred to a ruling given by Mr. Speaker McCourt, on 29th June, 1905, on a motion to discuss "The cry of the workless," and submitted that the present motion came within that decision, and was not definite.

Mr. Speaker said the urgency had been decided by the five Members rising in their places in support of the motion. It did not rest with the Speaker to decide a question of urgency. The case referred to by the Honorable Member for Bingara was not a definite matter, but the motion of the Honorable Member for Hartley dealt with the victimisation of the workers consequent upon the recent industrial upheaval. VOTES AND PROCEEDINGS OF THE LEGISLATIVE ASSEMBLY.

25th October, 1917.

4. DISSENT FROM MR. SPEAKER'S RULING.—Mr. Gregory McGirr moved, pursuant to Notice, That this House dissents from the ruling of Mr. Speaker, wherein he ruled that Government Business should now be proceeded with at 9 o'clock on Tuesday last, to the exclusion of a motion for the adjournment under the 49th Standing Order, as he felt bound to follow the ruling of his predecessor unless a distinction could be drawn between the present case and that in connection with which the decision was given. Debate ensued.

Mr. Speaker, referring to the ruling of 28th September, 1915, said it was erroneous to say that Mr. Speaker Meagher notified the Honorable Member who had moved the motion for adjournment that he would be permitted to continue the debate on another date. Before the adjournment for tea, the Deputy-Speaker, who was in the Chair, had said, in reply to a question, that the debate would be continued because it was on a motion for adjournment which must be decided by the House. On the resumption of the House, Mr. Speaker Meagher, upon being appealed to, gave his ruling that Government Business should be proceeded with, and, upon being asked whether this Debate would be continued on Tuesday next, replied, “No,” and the motion then lapsed. He had never dissented from the ruling of Mr. Speaker Meagher that a motion for adjournment was a dilatory motion, as he had always so regarded it. He had asked the Honorable Member for Yass to quote a decision in support of his argument, and he referred him to a decision given by Mr. Speaker McCourt in 1909, but he did not see any record of exception having been taken or of any question having been raised addressed to the Speaker. In 1893 there was a Sessional Order that after 7 o'clock, p.m., Government Business only should be dealt with. On the 22nd March, when Sir Joseph Abbott was speaking on a motion of adjournment was moved, and Mr. Speaker, upon being asked to decide whether this debate, which was on a motion for the adjournment of the House and, therefore, not Government or General Business, should be interrupted under the Sessional Order which required that Government Business only should be proceeded with after 7 o'clock, p.m., decided it was imperative on him to interrupt any unfinished Business at 7 o'clock, p.m., and that he was sustained in this decision by the decision of Mr. Speaker Allen, in Session 1879-80, when a less stringent Sessional Order was in force, viz.:—“That during the remainder of the present Session, unless otherwise ordered, Government Business shall take precedence of General Business after 7 o'clock on Tuesday.” On turning to the “Votes and Proceedings,” he found that on no fewer than three occasions, viz., 8th April, 15th May, and 27th May, 1879, under that Sessional Order, Mr. Speaker Allen ordered that Government Business should be proceeded with after 7 o'clock, to the exclusion of a motion for adjournment. When Mr. Speaker Meagher gave his ruling in 1915 he held that the Sessional Order at the time was practically the Sessional Order of 1906. On further consideration of the whole matter he had come to the conclusion that he quite agreed with the decision which Mr. Speaker Meagher had given on that occasion. If he had had the decisions just quoted before him in 1915, he would not have made the remarks which he did on that occasion. The Standing Orders Committee of last year gave consideration to the interpretation that should be put upon this Sessional Order, and unanimously came to the conclusion that it should be the interpretation under such a Sessional Order that General Business should be interrupted so that Government Business might be proceeded with. This Standing Order, however, had not yet been adopted by the House. He merely wished to add that he had now to give a ruling for the first time, having those precedents which he had quoted of Sir Joseph Abbott and Sir Wigram Allen before him, he would give the same ruling as he had given on Tuesday last.

Motion, by leave, withdrawn.

Examined,—

N. J. BUZACOTT,
Temporary Chairman of Committees.

Ordered by Mr. Speaker, That the amendments made by the Legislative Council in this Bill be taken into consideration to-morrow.
3. "HANSARD" REPORTS.—Mr. Speaker, referring to a Question asked him on Wednesday, 6th February by the Honorable Member for Waverley, whether his attention had been drawn to the statement made by the Speaker of the Federal Parliament in regard to the reporting of Member’s speeches in Hansard, and whether he was prepared to make a statement in regard to the practice as to how far members are allowed to correct their speeches in Hansard, and whether the Hansard staff keeps a record of the original proofs, together with corrections made by Honorable Members, for the perusal of other Members, said: With regard to the first part of the question, he had carefully perused in the Federal Hansard the report of Mr. B. Harry Friend, Principal Parliamentary Reporter, and the statement made by the Honorable Speaker. He did not think it would be fit and proper for him to make any comment whatever on that, and he would abstain from doing so. With regard to the second portion of the Question, he had a report from the Principal Shorthand writer, and he would read it to the House:—

"In reporting, by direction of Mr. Speaker, upon the Question asked by the Honorable Member for Waverley, Mr. Oakes, on the 6th instant, I desire to say:—

"No rule has been laid down with regard to the correction by Honorable Members of proofs of their speeches, but it is left to the Principal Shorthand-writer to determine what shall or shall not be admitted as corrections.

"The practice is to accept as a matter of course corrections which are properly so called; that is, the correction of errors on the part of the reporter or on the part of the Member. Care is taken not to admit as a correction anything which would alter the import of a speech, and to see that new matter is not introduced; but verbal amendments intended to express more clearly the meaning of the speaker are, within reasonable limits, not objected to.

"Other occasions sometimes arise when emendations in the report are admissible, as for example, when the reporter has failed to hear certain remarks, which often happens in the case of speeches delivered on the Opposition side of the House. In such a case no objection is offered to the omission being supplied; also, if an Honorable Member wishes to omit some unimportant or irrelevant remark (perhaps made in reply to an interjection) which interrupts the continuity of the speech, such omission is usually allowed.

"It is impracticable to follow any fixed rule on the subject, but in every case the guiding consideration enumerated above—namely, no alteration of sense, and no addition of new matter—is kept in view by the staff and myself when dealing with the emendations suggested by Honorable Members.

"The original proofs, and also the proofs returned by Honorable Members, are kept as long as the storage accommodation available will permit, which is long enough to cover any probability of reference being made to them.

"(Signed) JOHN B. LAING, 
Principal Shorthand-writer.

"The Honorable the Speaker of the Legislative Assembly, 12th February, 1918."

Mr. Speaker also said that since then Mr. Laing had seen him, and wished to add that the occasions when the limits prescribed had been exceeded were extremely rare, and that he gladly acknowledged the assistance rendered by Honorable Members in making the reports a faithful reproduction of their utterances. His own experience of the reporting of the Debates of this House was that they were excellently and accurately done. There was no attempt to alter the speeches made by Members of this House. His experience since he had been in the Chair was that there has been no desire on the part of Honorable Members to do so.

4. SITTING OF PRINTING COMMITTEE.—Mr. Speaker said that on Thursday last, at the termination of the sitting at a few minutes past 6 o’clock, the Honorable Member for Cowanask asked him for a ruling upon the point whether the Printing Committee, in connection with which he had received a notice for 6.45 p.m. that day, could sit while the House was not sitting. He replied that he was not prepared to give a ruling at that stage, but if the Honorable Member had correctly stated the case, and the House adjourned, the Committee would not be able to sit. Standing Order No. 388 said: "Except by leave of the House, no Select Committee may sit after the hour appointed for the sitting of the House, nor on those days over which the House is adjourned." By the terms of its appointment by Sessional Order on 1st August last, the Printing Committee has leave to sit during the sittings of the House. The House having adjourned at nine minutes after 6 o’clock, and the time appointed for the sitting of the Committee having been 6.45 o’clock, it was clear that as the Committee was not authorised to sit during the adjournment of the House the summons calling it together was superseded, and the sitting could not properly be held. He would refer Honorable Members who might wish to pursue their inquiries further to "May’s" Parliamentary Practice, tenth edition, page 399.

5. KNIGHTS’ APPLICATIONS FOR MINERAL RIGHTS OF CERTAIN CONDITIONAL PURCHASES.—The Order of the Day having been read for the resumption of the adjourned Debate, on the motion of Mr. Coghlan,—

"(1.) That a Select Committee be appointed to inquire into and report upon the circumstances relating to the applications of John Knight, Thomas Knight, Franklin Knight, Felix Knight, Edwin Knight, David Knight, Harriett Knight, and Mary Jane Knight, for a grant of the mineral rights of Conditional Purchases Nos. 65-385 and 66-3603, of portions 150 and 157, parish of Southend, county of Cumberland, and the issue of leases in respect thereof, and to the damage (if any) which they have sustained in consequence of the resumption of the surface of such Conditional Purchases by the Crown, and to inquire into and report what compensation (if any) they are entitled to."

"(2.)"
VOTES AND PROCEEDINGS OF THE LEGISLATIVE ASSEMBLY.
19th February, 1918.

"(2.) That such Committee consist of Mr. Ashford, Mr. D. R. Hall, Mr. Simon Hickey, Mr. Ley, 
Mr. Mark F. Morton, Mr. Oakes, Mr. Osborne, and the Mover."

And the Question being again proposed,

The House divided.

The House resumed the said adjourned Debate.

And so it was resolved in the affirmative.

And the House continuing to sit after Midnight,—

2. **PAPER:**—Mr. Grahame laid upon the Table the following Paper:—Regulations under the Dairy Industry Act, 1915. Referred by Sessional Order to the Printing Committee.

3. **STRANGERS:**—Mr. Speaker said: Sonic time ago attention was drawn by the then Speaker, to the practice of strangers being admitted to parts of the House occupied by Honorable Members. Only last year he had had to call attention to the same practice, and he then expressed the hope that Honorable Members would assist him and the staff in carrying out the Standing Orders and the practice of the House. He had received a further complaint, he was sorry to say, that strangers were admitted to rooms set apart for Members for their private correspondence, and he hoped this practice would now be discontinued. He had given instructions to the Serjeant-at-Arms to see that no strangers at all were admitted to portions of the House set apart for the use of Members for the conduct of their business. When the House was not sitting Members might bring strangers in, but they could not bring strangers into rooms that were set apart for private Members and allow them to occupy those rooms during portions of the day, thus preventing private Members from attending to their correspondence.

Mr. Beeby moved, That the Question be amended by leaving out the words “preferential voting” and inserting the words “proportional representation.”—instead thereof.

Question proposed,—That the words proposed to be left out stand part of the Question.

Mr. Speaker having expressed the opinion that the proposed amendment was out of order,—Debate ensued.

Mr. Speaker said he saw no reason to alter the conclusion which he had already suggested. It was laid down in "May," 10th Edition, page 278, that every amendment must be relevant to the question on which the amendment is proposed. The motion was to provide for preferential voting, and an amendment favouring a different kind of voting would be subversive of the motion. He referred to a ruling by Mr. Speaker McCourt, on 24th September, 1903, a.m., when, in upholding the opinion of the Temporary Chairman (Mr. Meagher), he ruled that, on a motion to submit the question of the reduction of Members to a referendum, an amendment to omit the words “to submit the question of” and insert the word “for” was subversive of the motion. The leading principle of the motion in this case was for preferential voting, and, as the amendment would be subversive of that principle, he must hold it was not in order.

Debate continued.

Ordered, That the Debate be adjourned until Tuesday next,

And it being after half past Six o'clock, Government Business proceeded with under Sessional Order adopted on Thursday, 4th October, 1917.

VOTES AND PROCEEDINGS

OF THE

LEGISLATIVE ASSEMBLY.

SECOND SESSION OF THE TWENTY-FOURTH PARLIAMENT.

THURSDAY, 28 FEBRUARY, 1918.

1. The House met pursuant to adjournment. Mr. Speaker took the Chair.

ANNOUNCEMENT:—Mr. Speaker stated that he had received from the Honorable Member for Cessnock, Mr. Kearsley, a Notice, under the 49th Standing Order, that he desired to move the adjournment of the House, to discuss a definite matter of urgent public importance, viz.:—"The bringing of men from Victoria to work in the Pelaw Main and Richmond Main Coal-mines, and the general working of mines." And the motion for the adjournment of the House being supported by five other Honorable Members,—

Mr. Kearsley moved, That this House do now adjourn.

Point of Order:—Mr. J. C. L. Fitzpatrick submitted that this motion was not definite as it disclosed two matters, viz.: The bringing of men from Victoria and the general working of mines.

Debate ensued.

Mr. Speaker said it had been laid down on several occasions that a motion for adjournment must definitely state the subject to be discussed, and be restricted to a single specific matter. This motion involved two matters; the bringing of men from Victoria to work in the Pelaw Main and Richmond Main mines and the general working of mines. The motion really involved more than one specific matter, and as it was worded it was open to Honorable Members to discuss the general working conditions of coal and other mines throughout the State. The motion was not restricted to a single specific matter, as required by the Standing Orders; therefore he must uphold the Point of Order.

2. INDUSTRIAL ARBITRATION (AMENDMENT) BILL:—The Order of the Day having been read, Mr. Speaker left the Chair, and the House resolved itself into a Committee of the Whole for the further consideration of the Bill.

And the Committee continuing to sit after Midnight,—

FRIDAY, 1 MARCH, 1918, A.M.

3. PUBLIC ACCOUNTS COMMITTEE ELECTION ENABLING BILL:—The following Message from His Excellency the Governor was delivered by Mr. Holman, and read by Mr. Speaker:—

W. E. DAVIDSON,

A Bill, intituled "An Act to provide for the nomination, election, and appointment of the Public Accounts Committee for the present Parliament; to amend the Audit Act, 1902; and for purposes consequent thereon or incidental thereto,"—as finally passed by the Legislative Council and Assembly, having been presented to the Governor for the Royal Assent, His Excellency has, in the name of His Majesty, assented to the said Bill, and has this day transmitted it to the Legislative Council, to be numbered and forwarded to the proper Officer for enrolment, in the manner required by law.

Government House.
Sydney, 27th February, 1918.
4. **Public Accounts Committee**:—Mr. Speaker informed the House that, according to Section 16 of the Audit Act, 1902, he had received from the Secretary for Mines and Assistant Colonial Treasurer the nominations of,—

- Mr. Fellet Johnn Thomas, and
- Mr. John Percy Osborne,

for election and appointment as Members of the Public Accounts Committee, constituted under that Act, and stated that it would be his duty to submit these names, one by one, in alphabetical order, to the House for decision by open voting, which he would do after formal business had been disposed of on Monday next.

5. **Paper**:—Mr. J. C. L. Fitzpatrick laid upon the Table the following Paper:—Amended By-laws of the University of Sydney.

Refused by Seasonal Order to the Printing Committee.

6. **Printing Committee**:—Mr. Graff, on behalf of the Chairman, brought up the Seventeenth Report from the Printing Committee.

7. **Gas (Amendment) Bill**:—The Order of the Day having been read,—on motion of Mr. Beeby, Mr. Speaker took the Chair, and the House resolved into a Committee of the Whole for the consideration of the amendments made by the Legislative Council in this Bill. Mr. Speaker resumed the Chair; and the Chairman reported that the Committee had agreed to the Council's amendments.

Legislative Assembly Chamber,
Sydney, 1st March, 1918.

Question put.
The House divided.

The House adjourned, at one minute after Eleven o'clock until Monday next, at Four o'clock.
1. The House met pursuant to adjournment. Mr. Speaker took the Chair.

GAS (Amendment) Bill:—Mr. Speaker said that on Friday last, on a motion for Committee of the Whole to consider the Legislative Council's amendments in the Gas (Amendment) Bill, the Honorable the Leader of the Opposition, Mr. John Storey, had drawn attention to the following new clause inserted by the Council—"Section three of the Principal Act is amended by substituting " for the word 'twenty' the words 'twenty-one'"—and pointed out that this House had had nothing to do with this section when the Bill was under discussion in this Chamber. The Honorable Member desired to know whether it was competent for the Council to include in its amendments a new clause amending a section of the Act which was not before this House, and with which it had nothing to do. He replied that at that time he did not think the amendment of the Council was out of order. He had since looked carefully into this matter, and saw no reason to change the opinion he then expressed. Whilst he desired to safeguard the rights and jurisdiction of the Chairman of Committees in giving an opinion on a matter of Committee procedure, he thought he might state that this was an amendment which certainly came within the scope of the Bill upon which a decision had been obtained upon a second reading, and which had been referred to a Committee of the Whole House to consider in detail.

2. PAPERS:—Mr. Grahame laid upon the Table the following Papers:—
(1.) Correspondence regarding the return to work of men at the Pelaw Main and Richmond Main Collieries.
(2.) Notice of intention to declare that Crown Lease No. 1616, Land District of Windsor, portion 91, Parish of St. Albans, County of Northumberland, applied for by John Henry Hough, shall cease to be voidable.
Referred by Sessional Order to the Printing Committee.

3. ADJOURNMENT:—
(1.) Mr. Speaker stated that he had received from the Honorable Member for St. George, Mr. Bagnall, a Notice, under the 49th Standing Order, that he desired to move the adjournment of the House, to discuss a definite matter of urgent public importance, viz.:—"The urgency of taking some steps to secure the registration of securities given by limited liability companies." And the motion for the adjournment of the House being supported by five other Honorable Members—
Mr. Bagnall moved, That this House do now adjourn.

Point of Order:—Mr. Osborne drew attention to Order of the Day No. 11 for the second reading of the Companies (Registration of Securities) Bill, and submitted that this Debate could take place on that Order of the Day.
Mr. Speaker said that, as the Debate would undoubtedly anticipate discussion on the Order of the Day referred to, he must uphold the objection.

(2.) Whereupon Mr. Osborne moved, That, in accordance with the authority given in subsection (d) of the 49th Standing Order, a second motion for the adjournment of the House be now entertained. Question put.

In accordance with the provisions contained in the 46th section of the Constitution Act, 1902, the Governor recommends for the consideration of the Legislative Assembly the expediency of making provision to meet the requisite expenses in connection with a Bill to sanction the construction of a system of Sewerage with ocean outfall for the Northern Suburbs of Sydney; and for purposes consequent thereon or incidental thereto.

State Government House,
Sydney, 6th March, 1918.

Ordered to be referred to the Committee of the Whole on the Bill.

By
VOTES AND PROCEEDINGS OF THE LEGISLATIVE ASSEMBLY.
7th March, 1918.

By Mr. Holman,—

(2.) University (Senate) Amendment Bill:—
W. E. DAVIDSON,
Governor.

A Bill, intitled "An Act to provide that the members of the present Senate of the University of Sydney shall continue in office until a day to be proclaimed by the Governor, and for that purpose to amend the Acts relating to the said University,"—as finally passed by the Legislative Council and Assembly, having been presented to the Governor for the Royal Assent, His Excellency has in the name of His Majesty, assented to the said Bill, and has this day transmitted it to the Legislative Council, to be numbered and forwarded to the proper Officer for enrolment, in the manner required by law.

Government House,
Sydney, 7th March, 1918.

4. URGENT COMMANDERING OF SHIPS FOR CARRIAGE OF FOODSTUFFS:—

(1.) Dr. Arthur moved, without Notice, That it is a matter of urgent necessity that this House should forthwith consider Notice of Motion No. 18 of General Business on the Notice Paper for To-day.

Question put.
The House divided.

In Division—Point of Order:—Mr. Perry asked whether this motion was, in order, the Honorable Member for Middle Harbour having moved a similar motion this Session.
Mr. Speaker said he could not uphold the Point of Order. It was merely a matter of taking this business out of its proper position, and although a similar motion might have been debated on a previous occasion this Session, that did not prevent this motion being moved now.

Mr. Arthur, Mr. Davis, Mr. H. M. Burke, Mr. Burland, Mr. Backsfield, Mr. Ewen, Mr. Verrier, Mr. Kearsley, Mr. O'Brien, Mr. Lang, Mr. Keegan.

Mr. Ashford, Mr. Bell, Mr. Butternash, Mr. Cox, Mr. F. J. L. Fitzpatrick, Mr. Grull, Mr. Graham, Mr. Hoskins, Mr. Hunt, Mr. Latimer, Mr. Levy, Mr. McFarrey.

(2.) Dr. Arthur moved, without Notice, That so much of the Standing and Sessional Orders be suspended as would preclude the consideration forthwith of Notice of Motion No. 18 of General Business on the Notice Paper for To-day.

Question put.
The House divided.

Ayes, 22. Noes, 23.

Mr. Bun, Mr. Backsfield, Mr. Tom Smith, Mr. F. M. Burke, Mr. Bushell, Mr. Cochran, Mr. William Davies, Mr. Doyle, Mr. Gardiner, Mr. Keegan, Mr. Lang, Mr. Lazzarini.

Mr. Ashford, Mr. Regan, Mr. Bell, Mr. McLearry, Mr. Bennett, Mr. Colquhoun, Mr. Dave, Mr. Elton, Mr. Fairley, Mr. J. C. L. Fitzpatrick, Mr. Graff, Mr. Graham, Mr. Hoskins, Mr. Hunter, Mr. Manning, Mr. Latimer.

And so it passed in the negative.

5. ADJOURNMENT:—Mr. Speaker stated that he had received from the Honorable Member for Surry Hills, Mr. Buckley, a Notice, under the 49th Standing Order, that he desired to move the adjournment of the House, to discuss a definite matter of urgent public importance, viz.:—"The comments of Judge Docker in the execution of his judiciary functions."

And the motion for the adjournment of the House being supported by five other Honorable Members,—

Mr. Buckley moved, That this House do now adjourn.

Point of Order:—Mr. Levy, referring to Standing Order 49, and to the practice of the House of Commons, as laid down in "May," 10th edition, page 241, submitted that the matter of this motion was not a "single specific matter of recent occurrence," and contended that if this motion could be moved it would be open to Members to discuss the whole of the comments which Judge Docker had ever made in the course of his judicial career.

Debate ensued.

Further Point of Order:—Mr. Bavin submitted that following the rule as laid down in "May," 10th edition, pages 583-4, the conduct of a Judge could not be discussed upon a motion for adjournment, but only upon a substantive motion which could be dealt with by amendment, or by the distinct vote of the House.

Debate suspended as would preclude the consideration forthwith of Notice of Motion No. 18 of General Business on the Notice Paper for To-day.

Mr. Arthur, Mr. Davis, Mr. H. M. Burke, Mr. Burland, Mr. Backsfield, Mr. Ewen, Mr. Verrier, Mr. Kearsley, Mr. O'Brien, Mr. Lang, Mr. Keegan.

Mr. Ashford, Mr. Bell, Mr. Butterhank, Mr. Cox, Mr. F. J. L. Fitzpatrick, Mr. Grull, Mr. Graham, Mr. Hoskins, Mr. Hunt, Mr. Latimer, Mr. Levy, Mr. McFarrey.
Debate continued. 
Mr. Speaker said it was laid down in "May," 10th edition, page 241, that the motion must refer to a specific matter of recent occurrence. It had been urged that that rule applied to the Imperial Parliament, but not to this Parliament, but he found there was a series of decisions given in this House to the effect that the motion must be restricted to a single specific matter of recent occurrence. The motion could have been worded in such a way as to refer to the comments of Judge Docker on a specific matter of recent occurrence. In this motion the mover commented on the conduct of Judge Docker ever since that official had been on the Bench. That could be done on a substantive motion, but not on a motion of adjournment. The motion moved on 8th July, 1903, in regard to a statement made by Mr. Justice Pring in the case W. P. Crick v. Daniel O'Connor was specific. He had to follow rulings which had been given. The matter referred to by the Honorable Member for Sarry Hills was not a single specific matter, and for that reason he ruled it out of order. Having ruled the motion out of order on that ground there was no necessity for him now to deal with the Point taken by the Honorable Member for Gordon.

6. Judges Retirement Bill.—Mr. Speaker reported the following Message from the Legislative Council:

Mr. Speaker,—
The Legislative Council has this day agreed to the Bill, returned herewith, intituled "An Act to provide for the retirement of certain judges, and to provide for their pensions on such retirement; to amend the Supreme Court and Circuit Courts Act, 1900, the District Courts Act, 1912, the Judges Pensions Amendment Act, 1908, and certain other Acts; and for purposes consequent thereon and incidental thereto," with the amendments indicated by the accompanying Schedule, in which amendments the Council requests the concurrence of the Legislative Assembly.
