10. THE GOVERNOR’S OPENING SPEECH:—Mr. Speaker reported that the House had this day attended the Governor in the Legislative Council Chamber where His Excellency the Governor was pleased to deliver an Opening Speech to both Houses of Parliament. For greater accuracy he had obtained a copy, which he laid upon the Table of the House, and ordered to be recorded in the Votes and Proceedings, as follows:—

HONOURABLE MEMBERS OF THE LEGISLATIVE COUNCIL AND MEMBERS OF THE LEGISLATIVE ASSEMBLY,—

In calling you together for the Second Session of the present Parliament I am deeply conscious of the heavy responsibility which rests upon you in these critical times for the right fulfilment of your important duty to legislate for the present and future benefit of the citizens of New South Wales.

Your task is twofold: to ensure that the war effort in this State rises to the utmost of which we are capable, and, at the same time, to enact such measures as may, without weakening the war effort, improve the present lot of the people of New South Wales and contribute to the building of a better social order when this tragic struggle shall be over. You will have to show that a real and virile democracy can fight victoriously against the retrograde social theories, and the brutally destructive practice of Nazism, and still continue its march along the road of social progress.

Australia—and New South Wales as part of Australia—has shown emphatically that she realises intensely the vital issues involved. As in 1914, so in 1939 the call to arms brought an immediate response. The New South Wales Anzacs have already earned battle honours which will be forever part of the National heritage. And just as in 1914-18 common suffering and loss led to a larger sympathy with the people of Great Britain and the other Dominions, so now the sadness that has already fallen on so many Australian homes will bring us closer to the heroic people of the Mother country who are facing ghastly perils with that indomitable spirit which is of the very essence of the whole Empire’s tradition.

In the factories and on the land, Australian men and women are fighting as strongly for the right of the peoples of the world to live according to their own lights as are their fellow-countrymen overseas. It is the responsibility of each one of us to support these efforts to the utmost extent of which we are capable.

HONOURABLE MEMBERS OF THE LEGISLATIVE COUNCIL AND MEMBERS OF THE LEGISLATIVE ASSEMBLY.—

While the Commonwealth Government is charged with the responsibility for the defence of Australia, my advisers feel strongly that New South Wales should not only collaborate, but should play an active and a prominent role in furthering the war effort to the fullest possible extent.

In pursuance of this policy, one of the earliest steps taken by my Ministers, after assuming office, was the constitution of the State War Effort Co-ordination Committee. Although it has been in existence only a short time, this body has achieved valuable results in many fields. It has organised the full resources of the State Government so that they may be available to the Commonwealth for the prosecution of the war; it has concerned itself with the provision of homes for munition workers, and has undertaken negotiations with the Commonwealth as a result of which my Ministers have agreed that New South Wales shall build and assume full financial responsibility for between 400 and 500 homes for munition workers in this State; it has undertaken services for the Federal authorities too numerous to mention at this moment; it has taken far-reaching steps to organise the production and distribution of charcoal so as to conserve petrol stocks and help maintain essential transport services; it is, in collaboration with the Shipbuilding Board, formulating the necessary plans to re-establish the Shipbuilding industry in New South Wales; and, finally, it is in constant touch, through its executive officers, with the Commonwealth, exploring possibilities of increasing the New South Wales war effort. Suggestions made by the Committee, at present under Commonwealth consideration, will, if adopted, augment still further, and to a very great degree, the production of munitions of war in New South Wales.

Having in mind their responsibility adequately to protect the people of this State against the dangers of possible enemy air-raids, my Ministers have acted promptly and vigorously to promote a complete and efficient organisation to safeguard the civilian population in the event of attack. An officer of the New South Wales Government has been recalled from London to give expert advice and assistance in A.R.P. organisation. His services will be made available to the Commonwealth Government.

So far as the war effort is concerned, much has been done in a little time; much more remains to do. You will not fail to bring to the great task with which you are confronted all the determination and all the ability of which you are capable, plus an inextinguishable faith in final victory.
VOTES AND PROCEEDINGS OF THE LEGISLATIVE ASSEMBLY.
23rd July, 1941.

Nor will you approach in any lesser spirit the duty of bringing to the people of New South Wales such measures of domestic reform as may be possible at such an abnormal time as the present.

MEMBERS OF THE LEGISLATIVE ASSEMBLY.—

You will be asked early in the Session to consider the Budget for the present financial year and financial and taxation measures associated with the Budget.

HONOURABLE MEMBERS OF THE LEGISLATIVE COUNCIL, AND MEMBERS OF THE LEGISLATIVE ASSEMBLY.—

During this Session, my Ministers propose to introduce various important measures designed to give effect to their policy as put to the people of New South Wales and approved by a majority of them at the General Elections.

A Housing Bill to authorise the setting up of a Housing Commission to co-ordinate and supervise all housing activities throughout the State will be placed before you. The need, in New South Wales, for vigorous action to overcome our housing shortage and to provide all our people with adequate and healthy homes has long been evident. The proposed Housing Commission, in addition to giving its attention to the housing of munitions workers, already referred to, will be responsible for completing a survey of housing requirements throughout the State, for preparing a long-term programme of slum clearance and housing, and for carrying out such other housing activities for which loan funds may be made available.

You will be asked to consider a Bill to provide a pensions scheme, on the lines suggested by the Royal Commission, for workers engaged in coal and shale mines.

Other industrial measures to be submitted to you will include a Workers' Compensation Bill, to revise entirely the basis of the present Act and to bring it into line with modern requirements, and a Bill to provide for the establishment of a Factory Welfare Board charged with the responsibility of promoting the wellbeing, health and safety of workers engaged in industry.

Measures designed to protect the people against exploitation by unscrupulous individuals or bodies will be submitted to you. They will include a Bill to amend the Moneylenders and Infants Loans Act, to provide for the licensing of moneylenders, to give the Court wider powers to deal with harsh transactions and to afford greater protection to the borrower, and a Bill to protect persons entering into Hire Purchase Agreements.

My Ministers are desirous of giving full powers to the Government Insurance Office, and a Bill to give effect to this policy will be submitted to you.

Other general measures you will be asked to consider in the first part of the present Session will include a Bill to provide for compulsory third party insurance of motor vehicles; a Bill to extend the Local Government and City Council Electoral Franchise; an amendment of the Co-operation Act to increase the limit under the Indemnity Provisions of the Act from £900 to £1,000; a Bill to amend the Supreme Court and Circuit Courts Act; a Bill to amend the Liquor Act; a Technical Education Bill; and a Bill to fix the maximum trading hours for petrol-filling stations and garages.

My advisers feel that urgent attention must be paid to the State's rural problems, and, with this in mind, will place before you, early in the Session, several Bills designed to carry out sections of their rural policy. Bills relating to settlers' debts which you will be asked to consider will include a Farmers' Relief Amendment Bill to reconstitute the Rural Reconstruction Board so as to provide equal representation to farmers and creditors, to omit the provisions of the Act relating to disclaimers, and to provide for a measure of compulsory debts adjustment. An amendment of the Crown Lands Act will also be submitted to you to provide for the waiving of postponed and funded debts and arrears of Crown dues and to provide for the conversion of Settlement and Group Purchases into Leasehold Tenure.

A Western Lands Amendment Bill, designed to provide for the immediate withdrawal of the whole of the areas noted for withdrawal in 1943 and 1948 from large leases in the Western Division, and to provide for the resumption of the best of the large holdings in the Western Division which have only a short time to run, will be introduced. My Ministers have in mind that sections of this land will provide for the settlement of men at present in the armed forces.

A War Service Land Settlement Bill, the purpose of which will be to reserve further suitable areas for men now serving overseas, will also be submitted to you.

You will be asked also to repeal the provisions of the Crown Lands Act which permit of the holding of irrigation lands substantially in excess of home maintenance standards and to consider proposals designed to assist in the administration of the irrigation areas.
An Agricultural Holdings Bill, to improve the conditions of tenant farmers throughout the State, will be put before you.

For the early part of the Session, my Ministers have concentrated on preparing those measures required to correct conditions demanding immediate rectification and which are capable of being placed before you without delay.

Other Bills of importance, in the preparation of which more time is necessary, will come before you later in the Session. These will include measures concerning food and marketing, which will cover reforms in the distribution and prices of such essential commodities as meat, milk, fish and fruit; a Greater Sydney Bill; an Industrial Arbitration (Amendment) Bill; a Monopolies Bill; and Bills relating further to rural problems.

The Bills mentioned are those my Ministers are desirous of introducing in this Session of Parliament. Such are the times that it may be necessary that others to meet unforeseen emergencies may have to be submitted to you.

Whatever you may be called upon to consider, whatever the circumstances under which you may meet, you will, I know, maintain the highest traditions of British democratic Parliaments.

To-day, as never before, everything for which our Parliamentary system stands is being challenged. Here in New South Wales we must play our part in demonstrating that, whatever may be demanded, however black the outlook, Democratic Government is capable of matching might against aggressive might, while at the same time protecting and assisting the unfortunate, the underprivileged, and the helpless, who look to it for amelioration of their condition in the present and for concrete evidences of a wider social justice in the future.

I now leave you to the discharge of your important duties with the earnest prayer that under Divine guidance your labours may conduce to the welfare and happiness of all sections of the community.

Mr. Weir moved and Mr. Renshaw seconded the motion, That the following Address-in-Reply to the Speech which His Excellency the Governor has addressed to both Houses of Parliament on opening this Session of the Parliament of New South Wales be now adopted by this House:—

To His Excellency the Right Honourable John de Vere, Baron Wakerhurst,
Knight Commander of the Most Distinguished Order of Saint Michael and Saint George, Captain in the Reserve of Officers of the Territorial Army, Governor of the State of New South Wales and its Dependencies, in the Commonwealth of Australia.

MAY IT PLEASE YOUR EXCELLENCY,—

We, His Majesty's loyal and dutiful subjects, the Members of the Legislative Assembly of New South Wales, in Parliament assembled, desire to express our thanks for Your Excellency's Speech, and to assure you of our unfeigned attachment to His Most Gracious Majesty's Throne and Person.

2. We beg to assure Your Excellency that our earnest consideration will be given to the measures to be submitted to us, and that the necessary provision for the Public Service will be made in due course.

3. We join Your Excellency in the hope that, under the guidance of Divine Providence, our labours may be so directed as to advance the best interests of all sections of the community.

Mr. Moir moved, That this Debate be now adjourned.

Question put and passed.

Ordered, That the Debate be adjourned until To-morrow and take precedence of other business.

REPORTING OF EVIDENCE TAKEN BEFORE SELECT COMMITTEES:—Mr. Speaker informed the House that he had considered the method of recording evidence given before Select Committees of this House and that, after careful deliberation and inquiry, he had decided that in future all such evidence would be recorded by the Parliamentary Reporting Staff in narrative form. He stated that the question had arisen directly as a result of the need for the observance of the utmost economy in printing costs, and because of the paper shortage brought about by wartime conditions. At the same time, he was strongly of opinion that the system offered a very definite advantage over the question and answer method, hitherto prevailing, and would result in a condensation of the printed evidence to essential facts. In turn, this would effect a saving of at least 33 per cent. in the amount of printing and paper which would otherwise be necessary, and would lead to simplicity and accuracy.

Mr. Speaker also mentioned, incidentally, that the narrative method of recording evidence was adopted by the Commonwealth Parliamentary Standing Committee on Public Works more than twenty years ago, and because of the need for economy had lately been adopted by Joint Committees appointed by the Federal Parliament.

2. LOCAL GOVERNMENT (ELECTORAL PROVISIONS) BILL:—The Order of the Day having been read, on motion of Mr. James McGirr, Mr. Speaker left the Chair, and the House resolved itself into a Committee of the Whole for the consideration of the amendments made by the Legislative Council in this Bill.

1. QUESTIONS WITHOUT NOTICE.—Mr. Speaker directed the attention of the House to certain features associated with the asking of Questions without Notice and reminded Honorable Members that the subject-matter of such questions should be of an urgent character, and that all questions may be read to the House from a previously prepared manuscript or notes.

Mr. Speaker said, that the importance of Questions without Notice to both Honorable Members and the public generally was obvious, and it was therefore necessary that they should always be accurately recorded.

Unfortunately, since the commencement of the Session there had been instances when the Parliamentary Reporting Staff had experienced considerable difficulty in correctly recording both the questions asked and the replies to those questions. He would therefore ask that all Honorable Members would remember in future that it is most desirable that all questions and replies should be asked and given sufficiently loudly and clearly to enable the Reporters to make accurate records of both question and reply.

As there were so many new Members in the House, he would suggest that it was desirable that in order to assist the Staff in the expeditious handling of their transcription work, all Members, as far as may be possible, might forward the manuscript of those questions to the Reporters seated at the Table of the House.

2. WORKERS' COMPENSATION ACT AND WORKMEN'S COMPENSATION (BROKEN HILL) ACT (AMENDMENT) BILL:—The Order of the Day having been read, Mr. Speaker left the Chair, and the House resolved itself into a Committee of the Whole for the further consideration of the amendments made by the Legislative Council in this Bill.

Mr. Speaker resumed the Chair, and the Chairman reported that the Committee had not agreed to some, had amended another, and had agreed to the remainder of the Council's amendments.

On motion of Mr. Knight, the Report was adopted.

The following Message sent to the Legislative Council:—

Mr. President,—

The Legislative Assembly having had under consideration the Legislative Council's Message, dated 27th May, 1942, requesting its concurrence in certain amendments made by the Council in the Workers' Compensation Act and Workmen's Compensation (Broken Hill) Act (Amendment) Bill,—

Amendments Nos. 1 and 2. Does not agree to the amendments, because it is necessary to have the two conditions as separate conditions in order to cover all classes of cases, so that injuries that arise out of the employment,
although not in the course of the employment, and injuries suffered in the course of the employment, although they do not arise out of the employment, are both compensatable.

Amendment No. 5. Does not agree to the amendment, because the effect of the amendment will be to deny the worker compensation for injuries sustained in circumstances directly incidental to his contract of service with the employer.

Amendment No. 8. Does not agree to the amendment, because the amendment restricts the ordinary civil rights of injured workers and their dependants.

Amendment No. 10. Agrees to the amendment, but proposes to amend it by inserting at the end thereof the following words:—

"(c) by inserting at the end of subsection three of the same section the following words, 'At any meeting of the medical authority at which all members are present the decision of the majority on any question shall be the decision of the medical authority.'"

Agrees to the remainder of the amendments made by the Council in the Bill.

And the Assembly requests the concurrence of the Legislative Council in its disagreements from and amendment upon the Council's amendments in the Bill.

Legislative Assembly Chamber,
Sydney, 10th June, 1942.

S. WORKERS' COMPENSATION (Silicosis) BILL.—The Order of the Day having been read, on motion of Mr. Knight, Mr. Speaker left the Chair, and the House resolved itself into a Committee of the Whole for the consideration of the amendments made by the Legislative Council in this Bill.

Mr. Speaker resumed the Chair, and the Chairman reported that the Committee had amended some, and agreed to the remainder of the Council's amendments, and had made certain consequential amendments in the Bill.

On motion of Mr. Knight, the Report was adopted.

The following Message sent to the Legislative Council:—

Mr. President,—

The Legislative Assembly having had under consideration the Legislative Council's Message, dated 27th May, 1942, requesting its concurrence in certain amendments made by the Council in the Workers' Compensation (Silicosis) Bill,—

Amendment No. 4. Agrees to the amendment, but proposes to amend it as follows:—

(i) by omitting from the proposed new subclause (3) the words "industries or processes, employment in which exposes the worker to the possibility of contracting the disease" and by inserting in lieu thereof the words "class or classes of employment (in this section hereinafter referred to as 'determined class or classes of employment') in any industry or process, which employment is of such a nature as to expose the worker to the risk of contracting a disease caused by silica dust"; and

(ii) by omitting all words after the word "determine" in proposed new subclause (5) and by inserting in lieu thereof the following words:—

"In determining such proportions the committee shall have regard as far as practicable—

(a) in the case of an insurer other than a self insurer, to so much of the premiums received by or due to the insurer in respect of policies of insurance as is appropriate to the number of workers employed in any determined class or classes of employment and to the wages paid to the workers so employed; and for the purposes of this paragraph 'policy of insurance' means a policy of insurance or indemnity to an employer against liability under the Principal Act; and

(b) in the case of a self insurer, to the number of workers employed by such self insurer in any determined class or classes of employment, and to the wages paid to workers so employed, and to the premium which such self insurer would have paid had he insured his liability under the Principal Act respecting workers so employed with the Government Insurance Office of New South Wales."
Amendment No. 6. Agrees to the amendment, but proposes to amend it as follows:—

(i) by omitting from proposed new subclause (1) the words “The nomination” and by inserting in lieu thereof the words—

“The Minister may appoint a deputy of each member of the medical authority. Each such deputy shall have the like qualification and shall be appointed on the like nomination (if any) as is required for the appointment of the member for whom he is to act as deputy.

In the event of the absence of any member from a meeting of the medical authority the deputy of such member shall be entitled to act in his place at such meeting, and, while so acting, shall, for all purposes, be deemed to be a member of the medical authority. Every nomination under this subsection”.

(ii) by adding at the end of proposed new subclause (2) the following words:

“At any meeting of the medical authority at which all members are present the decision of the majority on any question shall be the decision of the medical authority.”

As consequential upon the passage of the Bill before the Workers’ Compensation Act and Workmen’s Compensation (Broken Hill) Act (Amendment) Bill, 1942, proposes to further amend the Bill as follows:—

(i) by omitting from clause 1, page 1, line 8, the figures “1942” and by inserting in lieu thereof the words “as amended by subsequent Acts whether passed before or after the commencement of this Act.”

(ii) by omitting from clause 3, page 3, line 37, the figures “1942” and by inserting in lieu thereof the words “as amended by subsequent Acts whether passed before or after the commencement of this Act.”

Agrees to the other amendments made by the Council in the Bill.

And the Assembly requests the concurrence of the Legislative Council in its amendments upon the Council’s amendments and in its consequential amendments in the Bill.

Legislative Assembly Chamber,
Sydney, 10th June, 1942.

4. MOTOR VEHICLES (THIRD PARTY INSURANCE) BILL:—The Order of the Day having been read, on motion of Mr. O’Sullivan, Mr. Speaker left the Chair, and the House resolved itself into a Committee of the Whole for the consideration of the amendments made by the Legislative Council in this Bill.

Mr. Speaker resumed the Chair, and the Chairman reported that the Committee had not agreed to some and had agreed to the remainder of the Council’s amendments.

On motion of Mr. O’Sullivan, the Report was adopted.

The following Message sent to the Legislative Council:—

Mr. PRESIDENT,—

The Legislative Assembly having had under consideration the Legislative Council’s Message, dated 20th May, 1942, requesting its concurrence in certain amendments made by the Council in the Motor Vehicles (Third Party Insurance) Amendments Nos. 1 to 6. Does not agree to the amendments because it is not the policy of the Government to permit officers of the Transport Department to act as agents for private insurance companies.

Amendments Nos. 8 and 9. Does not agree to the amendments because,—

(i) pastoral protection boards and public ambulance organisations are subsidised by the Government and are therefore in substantially the same position as other Government and semi-Governmental bodies;

(ii) no logical distinction can be drawn between public ambulance organisations and public hospitals, the latter being required under the Bill to place their insurance business with the Government Insurance Office;

(iii) it is deemed reasonable that in view of the fact that the Government Insurance Office will be required to grant third party insurance in respect of motor vehicles owned by the Board of Fire Commissioners, which are a particularly bad risk under present emergency conditions, that office should be given the third party insurance business of other semi-Governmental bodies;
local governing bodies are subsidised by the Government to the extent of over two million pounds per annum for expenditure on roads, water supply, sewerage and drainage and other public works, and are also rendered valuable engineering and technical advice by Government officers. The Government is of opinion that such bodies should therefore be placed on the same footing as the Main Roads Department, the various water boards, the Public Works Department, and other Governmental and semi-Governmental bodies;

(v) it is deemed desirable that all councils should support the special insurance scheme which the previous Government established under the Government Insurance Office for council vehicles.

Amendment No. 13. Does not agree to the amendment because the Government is of opinion that this amendment will result in a number of deserving claimants being left without redress merely by reason of the fact that, through inadvertence or ignorance, they have failed to give notice of claim within thirty days after the accident.

Amendments Nos. 30 to 35. Does not agree to the amendments for the same reason given for its disagreement with amendments Nos. 1 to 6.

Amendment No. 37. Does not agree to the amendment for the same reason given for its disagreement with amendment No. 13.

Amendment No. 41. Does not agree to the amendment because, in view of its disagreement with amendments Nos. 1 to 6 and Nos. 30 to 35, this amendment is not now necessary.

Agrees to the other amendments made by the Council in the Bill.

And the Assembly requests the concurrence of the Legislative Council in its disagreements from the Council's amendments in the Bill.

Legislative Assembly Chamber, Sydney, 10th June, 1942.

5. COAL AND OIL SHALE MINE WORKERS (PENSIONS) AMENDMENT BILL:—The Order of the Day having been read, on motion of Mr. Baddeley, Mr. Speaker left the Chair, and the House resolved itself into a Committee of the Whole for the consideration of the amendments made by the Legislative Council in this Bill.

(2) Motor Vehicles (Third Party Insurance) Bill—

Mr. SPEAKER,—

The Legislative Council, having had under consideration the Legislative Assembly's Message, dated 10th June, 1942, in reference to the Motor Vehicles (Third Party Insurance) Bill,—

Insists upon its amendment No. 8 disagreed to by the Legislative Assembly because pastures protection boards are financed in all cases by local rates levied for the purpose, and are not, except in certain cases and to a small extent, subsidised by the Government.

Does not insist upon that portion of its amendment No. 9 which omits all words on lines 1 to 3 inclusive on page 14, but insists upon that portion of the amendment which omits all words on lines 4 to 16 inclusive on page 14, because it is contrary to basic principles of democratic government that the general community or any substantial portion thereof should be subject to the risk of being compelled by regulations to surrender the right to freedom of contract, and because the amendment preserves to the councils of cities, municipalities and shires and the County Council the freedom of choice as to the parties with whom their contract shall be made.

Insists upon its amendment No. 13, but amends same by omitting the words "thirty days" previously inserted and by inserting in lieu thereof the words "three months".

“(f) by inserting at the end of the same paragraph the following words:

“Any person who is dissatisfied with the decision of the judge on any such application may appeal to the Supreme Court and that court may on the appeal make any order which ought to have been made in the first instance. Every such appeal shall be made in accordance with rules of court.”

“(g) (i) by inserting at the end of paragraph (a) of subsection three of section 63A the following words:

“The solicitor, agent, clerk of petty sessions or officer—

“(i) shall read over and explain the notice of election or cause the same to be read over and explained in his presence to the applicant; and
"(ii) shall examine the applicant touching his knowledge of the election and the effect of the notice of election; and

"(iii) if he thinks fit may so examine him separately and apart from any other person; and

"(iv) if he is satisfied that the applicant understands the true purport and effect of the notice of election and freely and voluntarily signs the same, shall certify in writing upon the notice of election that the notice of election has been read over and explained, and that he has examined the applicant and is satisfied as hereinbefore required, and that the applicant has executed the notice of election in his presence.

WAKEHURST, Governor.

By His Excellency the Right Honourable JOHN DE VERE, BARON WAKEHURST, Knight Commander of the Most Distinguished Order of Saint Michael and Saint George, Captain in the Reserve of Officers of the Territorial Army, Governor of the State of New South Wales and its Dependencies, in the Commonwealth of Australia.

WHEREAS the Legislative Council of the State of New South Wales now stands adjourned to Tuesday, the twenty-first day of July, 1942, and the Legislative Assembly of the said State now stands adjourned to Tuesday, the fourteenth day of July, 1942, Now I, Captain the Right Honourable LORD WAKEHURST, in pursuance of the power and authority in me vested as Governor of the said State, do hereby prorogue the said Legislative Council and Legislative Assembly to Tuesday, the eleventh day of August, 1942.

Given under my Hand and Seal, at Sydney, this eighth day of July, one thousand nine hundred and forty-two, and in the sixth year of His Majesty's Reign.

By His Excellency's Command,

W. J. McKELL.

GOD SAVE THE KING:

QUESTIONS:

1. Inspector-General of Insane:—Mr. Sheehan asked the Minister for Health:—
   (1.) Is it a fact that Dr. Emmanuel Sydney Morris has recently been appointed Inspector-General of Insane in succession to the former occupant of that position, Dr. Wallace?
   (2.) Is it further a fact that Dr. Morris already occupies the following positions:—(a) Director-General of Public Health; (b) President of the Board of Health; (c) Chairman of the Nurses' Registration Board; (d) Chairman of the Puro Foods Advisory Committee; (e) Member of the Hospitals' Commission; (f) Member of the Aborigines' Protection Board?
   (3.) Is it also a fact that the positions held by Dr. Wallace and Dr. Morris were formerly regarded as full-time positions?
   (4.) Is it a fact that the only experience that Dr. Morris has had in psychiatry was obtained over twenty years ago while in charge of a mental asylum in Tasmania for a period of three years.
   (5.) Is it also a fact that senior doctors of over twenty years departmental and psychiatric experience refuse the position of Deputy Inspector-General of Insane?
   (6.) Will he inform the House whether the Deputy Inspector-General will carry out the duties formerly performed by the Inspector-General under this new arrangement?
   (7.) Will he also inform the House if any advice has been obtained from the Crown Law Department whether such deputy can only perform the said duties in emergent circumstances?
   (8.) Will he also inform the House if it is a fact that this appointment has caused grave unrest and concern and may be inimical to the best interests of the patients and the efficient administration of the lunacy laws of this State?

2. Appointment of Public Service Board's Officers:—Mr. Weir asked the Premier and Colonial Treasurer:—
   (1.) Is it a fact that during recent years the following officers have been appointed from the staff of the Public Service Board to senior key positions in other Departments:—Mr. A. L. H. Scott as Administrative Officer, Technical Education Branch, Education Department; Mr. C. H. J. McKinnon as Assistant-Accountant, Education Department; Mr. R. H. Hicks as Chief Clerk, Chief Secretary's Department; Mr. P. G. Johnston as Senior Officer, Budget Branch, Treasury; Mr. D. H. Ford as Assistant Under Secretary, Works Department?
   (2.) Is it a fact that every one of these officers was a member of what is euphemistically called the Inspectorial Staff of the Public Service Board, and that their appointments have blocked the normal line of promotion of the officers in these Departments?
   (3.) Is it also a fact that the major qualification for senior positions in the Public Service during recent years has become close personal association with the Chairman and members of the Public Service Board and the continuation of this principle is creating an administrative cadre as a close preserve for those trained in the technique, and with the social outlook, of the past decade?
   (4.) If these are facts will he take steps to ensure that key positions in the future are filled in accordance with seniority and fitness as set out in section 49 of the Public Service Act?
3. N.R.M.A.—Mr. Landa asked the Premier and Colonial Treasurer:—

(1.) Has his attention been drawn to the reply made by Mr. Johnson, Secretary of the N.R.M.A., to his answer to the question asked by the Honourable Member for Bondi on Tuesday the 26th August?

(2.) Will he inform the House,—(a) Whether Mr. Johnson made a reply to the question as to whether he has consulted the members of the N.R.M.A. before attacking the State Government for the misdeeds of the Menzies Federal Government; (b) whether the N.R.M.A. has reduced its fees to members since petrol rationing has restricted the use of motor-cars; (c) whether the N.R.M.A. has interests in the production of charcoal burners?

(3.) Will he cause an inquiry to be made as to whether the following companies are part of the N.R.M.A. organisation:—(a) Car Adjusters Pty. Ltd., 3 Spring-street, Sydney; (b) Car Credits Pty. Ltd., of the same address; (c) Car Repairers Pty. Ltd., 15 Pyrmont Bridge road, Pyrmont; (d) N.R.M.A. Insurance Ltd., 3 Spring-street, Sydney?

(4.) If the abovementioned companies are in fact owned and controlled by the N.R.M.A. or its directors, will he cause an inquiry to be made for the purpose of ascertaining whether the profits from these companies are shown on the N.R.M.A. balance-sheet and used for the benefit of the members of the N.R.M.A., or whether these profits are used for private individuals connected with the N.R.M.A.?

4. Commonwealth Government Control of State Financial Affairs:—Mr. Weir asked the Premier and Colonial Treasurer:—

(1.) Is it a fact that certain proposals designed to effect a major alteration, not only to the financial affairs of the States forming part of the Australian Commonwealth, but also effect further economic domination of the States by the Commonwealth have emanated from a Commonwealth Government committee presided over by one, Professor R. C. Mills?

(2.) Is it also a fact that the report which has emerged from labours of this committee has been a verbatim rehash of an article published by the same Professor R. C. Mills in the Economic Record of April, 1928?

(3.) Is it also a fact that these proposals were considered and rejected by the Peden Royal Commission over thirteen years ago?

(4.) Is it also a fact that the technique of duress to be used to force the scheme upon the States was also prescribed by the same Professor Mills to the same Royal Commission?

(5.) Is it also a fact that this coercion technique sought to be adopted towards the States regarding the present proposals is a similar technique to that adopted in 1927 to enforce acceptance of the Financial Agreement?

(6.) Is it also a fact that this technique was described in this House by the present Federal Attorney-General, Dr. Evatt, as “pointing a revolver at the heads of the States”?

(7.) If these are facts, will he state whether this method of achieving constitutional amendments of such far reaching significance is in conformity with the Federal Constitution and the spirit of federation, and does he consider that it is a proper time or method to enforce the preconceived theories of Professor Mills upon the people of the federating States in defiance of the Federal Constitution?

5. Boards Operating Under State Acts:—Mr. Jackett asked the Premier and Colonial Treasurer:—

Will he inform the House,—

(1.) How many boards are operating under State Acts?

(2.) What is allowed in each case as salary to the president or chairman?

(3.) How many members are there on each board together with the amount of salaries, fees or allowances paid to them?

(4.) What is the number of officials employed by each board?

(5.) What is the amount of salaries paid annually to such officials?

(6.) What is the total yearly administrative cost of each board?
6. Regulations under Rural Workers' Accommodation Act.—Lieut.-Colonel Bruxner asked the Premier and Colonial Treasurer:—

(1.) Is it a fact that the State Government has received a communication from the Federal Government on the matter of regulations under the Rural Workers' Accommodation Act requiring the gauzing of doors and windows of dining-rooms, kitchens and storerooms of shearsers' huts?

(2.) If so, will he inform the House, (a) how many communications has the State Government received; (b) has the State Government responded to the communications otherwise than by bare acknowledgment?

(3.) Will he lay the correspondence on the Table of the House?

7. Shortage of Seasonal Workers in the Sugar-cane Industry:—Mr. Reid asked the Minister for Agriculture:—

(1.) Is it a fact that there is an acute shortage of seasonal workers to cut sugar-cane?

(2.) Is it also a fact that on the Richmond River there is a reported shortage of over 200 men for this work, and that there is also a shortage of hands in other branches of the industry?

(3.) If these are facts, and in view of the great importance of the sugar industry and its by-products to the Commonwealth, will he, as a member of the Federal Agricultural Council, request the Commonwealth man-power authorities to release sufficient men from the military and munitions works to handle the cane crop during the harvesting season?

GENERAL BUSINESS—ORDERS OF THE DAY:—

1. Air Raid Precautions—"Brown-out" Restrictions; resumption of the adjourned Debate (Mr. Gorman) on the motion of Mr. Macdonald,—

Upon which Mr. Drummond had moved, That the Question be amended by leaving out all the words after the word "Commonwealth" and inserting the words "Government be asked to appoint a Committee representative of all political parties in the Commonwealth and the States for the purpose of reviewing the necessity for the enlargement of the existing educational facilities, to meet the requirements of post-war reconstruction and employment, and the respective responsibilities of the Commonwealth and States thereto; and

(3.) Pending the report of the Committee the Commonwealth Government be asked to make available a substantial sum to enable the States more effectively to provide for technical education and training," instead thereof.
3. Petrol Rationing; resumption of the adjourned Debate (Mr. Baddeley) on the motion of Mr. Beale,—

“(1) That, in the opinion of this House, the present system and scale of rationing of motor spirit to consumers—

“(a) is causing undue hardship to country people of this State, and

“(b) has brought about a critical and perilous state of affairs, and is liable to bring about a state of bankruptcy in hundreds of country towns and tourist resorts, and cause farmers to suffer severe privations and possibly ruine.

“(2) That the necessary steps should be taken by the Government for the calling of a special session of the Premiers’ Conference to consider methods for an increase of the present scale of rationing of motor spirit in order to relieve the present critical situation.”—

Upon which Mr. Geraghty had moved, That the Question be amended by leaving out all the words after the word “House” and inserting the words “the Commonwealth Government should be asked to revise the present system and scale of rationing to consumers with a view to—

“(a) the elimination of non-essential usage until such time as the minimum requirements of essential defence and civilian business purposes can be met in full; and

“(b) a fixed policy being determined in regard to the use of substitute fuels such as producer-gas and the taking of such steps as are necessary to force all large scale operators to equip at least portion of their fleet of vehicles for the use of such substitute fuel.”

4. Allocation of Loan Moneys for Water Conservation Works; resumption of the adjourned Debate on the motion of Mr. Chaffey, “That, in the opinion of this House, the Government, in its allocation of loan moneys, should make provision for the expenditure of not less than one million pounds per annum on water conservation works already commenced or at present in hand throughout the State,”—

Upon which Mr. Hamilton had moved, That the question be amended by leaving out all the words after the word “House” and inserting the words “in view of the national character of works of water conservation and the danger of damage by a cessation of work on projects already commenced, representations be made to the Commonwealth Government to immediately make available the sum of £1,500,000 for water conservation works in the State of New South Wales,” instead thereof.

5. Keepit Dam; resumption of the adjourned Debate (Mr. Trebil) on the motion of Mr. Chaffey, “That, in the opinion of this House,—

“(1) The Government should forthwith reconsider its decision to discontinue the constructional work on the Keepit Dam.

“(2) In view of the national importance of the project, the work should be continued without interruption and completed with the greatest possible speed.”

Upon which (the words “the work should” having been left out) Mr. Renshaw had moved, That the following words be inserted in place of the words left out:— the Commonwealth Government should make available the sum of £500,000 in order that the construction of the dam may
