HONOURABLE MEMBERS OF THE LEGISLATIVE COUNCIL, AND
MEMBERS OF THE LEGISLATIVE ASSEMBLY,—

It is my privilege today to meet with you to open the Third Session of the Fortieth Parliament of New South Wales.

You have been called together to consider the legislative and financial proposals of the Government and other matters of importance to the citizens of this State.

Since the beginning of the previous Session, the deaths have occurred of the Honourable Leicester Birkenhead Saddington, the Honourable Samuel Connell Williams and the Honourable Richard Thompson, Members of the Legislative Council, and Mr. Edward Greaves and Mr. Stanislaus Wyatt, Members of the Legislative Assembly.

During their participation in public life, some over a long period of years, these Members rendered devoted and unselfish service. Their passing is a loss to this Parliament and to the community as a whole.

Honourable Members will be aware of the visit to be made to this State within the next few weeks by Her Royal Highness, Princess Marina, Duchess of Kent. The visit of Her Royal Highness will, I am sure, give widespread pleasure.

My Ministers are pleased that, after a period of some hesitation and uncertainty, steady improvement has been evidenced over the last twelve months in the general level of economic activity.

All the indications point to continued progress and it will be the Government's policy to endeavour by all means within its power to foster the sound expansion and development of the economy of the State.

The Government's efforts aimed at the promotion of the industrial growth of this State by the development of local industries and attraction of overseas companies have continued.

As part of this programme, major industries have over the past two years been assisted in the acquisition of sites valued at almost £2,000,000 required for their development projects. Negotiations are currently proceeding with other major interests whose requirements for the expansion they have in view aggregate 900 acres.

With the object of intensifying the interest of industrialists in the United Kingdom and European countries in this State as a field for investment and in supplementation of the efforts of the Agent-General in London, an experienced consultant, whose company possesses wide overseas affiliations, has been commissioned to visit the United Kingdom and Europe on a promotional campaign to attract industries to New South Wales.
As the result of attractive incentives offered to industries prepared to decentralise, expenditure and commitments against the Decentralisation Fund exceeded £1,000,000 in the financial year just concluded, representing an increase of £650,000 on the previous financial year.

The Government is at present examining proposals for increasing further incentives designed to develop the interest of manufacturing industries in country centres in order to achieve the joint objectives of creating additional employment opportunities and a more balanced distribution of population.

It is the view of Ministers that the Commonwealth Government should take a more active part in the decentralisation of industry. At the recent Premiers' Conference, the Commonwealth was asked to give consideration to assisting in several directions which would remove present disabilities and encourage the establishment and expansion of industry in country locations.

The peak demand for electricity so far experienced on the New South Wales system, namely, 2,630,000 kilowatts, occurred on the 7th July, 1964. This load exceeded last year's peak figure by 210,000 kilowatts, an increase of 8.7 per cent.

In the expectation that the growth in the demand for electricity will continue over the next five years at the present high rate, the Electricity Commission is arranging for the necessary augmentation of the generating and distribution system.

During the last twelve months two 200,000 kilowatt generating units have been placed in service at the Vales Point Power Station.

Construction of generating plant is proceeding so that further 200,000 and 275,000 kilowatt units will be ready for commissioning at this Power Station prior to the winters of 1965 and 1966 respectively.

Work is proceeding on the construction of Munmorah Power Station where it is proposed to install four generating units each having a capacity of 350,000 kilowatts. These units are planned to come into service before the winters of 1967, 1968, 1969 and 1970.

Concurrently with the planning and installation of additional generating plant, work has continued on the augmentation of the electrical transmission system involving the bringing into service of about 320 route miles of 330 kV transmission line and about 380 route miles of 132 kV transmission line. The total route mileage of these lines now in service is 838 and 1,817 respectively.

The progress made with rural electrification in New South Wales, which is nearing completion, has been remarkable, and compares favourably with that in Great Britain and the United States of America.

Over 90 per cent of all farming and station properties which can be economically supplied have been connected to supply mains, involving the construction of almost 49,000 miles of distribution lines at a cost of £33,500,000. Subsidies totalling £14,500,000 have been approved for payment to Shire, Municipal and County Councils and franchise holders who are responsible for electricity distribution.

The completion earlier this year at a cost of over £5,000,000 of the Coal Loader at Port Kembla fulfilled the Government's undertaking to provide world standard coal handling facilities at this port to stimulate the coal export trade, particularly to Japan.

With the completion during 1962-63 of the coal loading installation at Balmain, modern coal loading facilities have now been provided at two of the State's three major ports to cope with the expanding export trade.

The development of the Port Kembla Inner Harbour for shipping, coupled with the construction of the Coal Loader, has cost a total of £10,000,000. The new loader, one of the most modern in the world, has a capacity which will allow for the quick turn around of the largest of the bulk carriers likely to be used by overseas coal interests.

Work is currently proceeding on the new coal loading facilities at Newcastle and considerable progress has been made on the deepening of the entrance to the Harbour, the latter being estimated to cost £2,000,000. Deepening of the entrance by 10 feet to give a depth of 36 feet will allow much larger vessels to use the Port of Newcastle. It is anticipated that this project will be completed early in 1965.

In conformity with an undertaking given by the Government, 400 acres of land have been released for new industrial development at Newcastle. This is the first completed phase of the Government's Island Reclamation Scheme,
which is expected to cost £5,000,000 in its first stage. Negotiations are proceeding with interested industrialists on the actual establishment of industry on the land. It is expected that vital industries will be attracted to Newcastle by this scheme, thereby providing new opportunities for commercial development and for employment. Reclamation is continuing with a view to making additional land available to industry as soon as practicable.

Work has continued throughout the past year, and will continue in the forthcoming year, on the construction of the £4,500,000 port development project at Iluka, at the mouth of the Clarence River.

Continued progress is being made on flood mitigation works along the various coastal rivers. In recent years the Department of Public Works has commenced flood mitigation works estimated to cost £9,200,000 and has completed work of a value in excess of £2,000,000. In the financial year just concluded, a record sum of £1,000,000 was expended on the extension of the flood mitigation programme.

The Metropolitan Water, Sewerage and Drainage Board and the Hunter District Water Board are continuing to spend substantial amounts on the development and augmentation of their water supply and sewerage systems.

Last financial year, with the greater emphasis now being placed on sewerage construction, the Metropolitan Board laid an all-time record of 311 miles of sewer mains and the current rate of laying is almost a mile a day.

1963-64 saw the completion of the major part of the Grahamstown Water Supply Scheme in the Hunter District Water Board area at a cost of over £10,000,000 and water from this scheme is now available to augment the Board's supply in the Newcastle area.

In accordance with the Government's policy, mining activities in the State have been vigorously encouraged and developed.

Geological and geophysical surveys, drilling investigations, technical and scientific advice and information and prospecting assistance to individuals, syndicates and companies, have all been directed towards fuller exploitation of the State's mineral wealth.

The total value of the New South Wales mineral industry output last year reached a record £91,000,000, compared with £80,000,000 in the previous year.

The recent discovery of oil and natural gases in neighbouring States has further stimulated the search for oil in New South Wales in the main sedimentary basins and every encouragement and assistance is being given to companies engaged in this type of exploration. Approximately £1,500,000 were spent on oil search in New South Wales during the last year.

In the southern and south-west coalfields a coal drilling programme, to determine the quality and quantity of our coking coal reserves, is well advanced. This programme, costing about £100,000 annually, should be complete in two years.

New South Wales is still the major coal producing State, and exports of coal from State owned and privately owned collieries continue to earn export income in excess of £10,000,000 a year.

Metalliferous mining in the State is still being actively encouraged and stimulated. As a result, copper deposits at Cobar are now again being developed, and the recent opening of a £1,000,000 tin mine at Ardlethan should help bridge the gap between Australia's domestic production and consumption of tin.

Beach sands mining for rutile, zircon and other minerals is being developed along east coast areas and there is a steady export market in these concentrates, particularly to the United States of America. Lead and zinc production has also increased this year.

Metropolitan rail services are being improved by the introduction of new double deck carriages which have a seating capacity of 132 passengers or 62 more than the existing type of carriage. One hundred and twenty of these new carriages have been ordered. The first was placed in service early this year and it is expected that 70 of the new cars will be operating by the end of the current financial year.

With the delivery of additional diesel electric locomotives and various bogie type goods and livestock vehicles from contractors, faster journey times have been made possible on both passenger and freight country train services.
Efforts to speed up the movement of buses in peak traffic periods in order to maintain the time tabled running of services have engaged particular attention. Priority of movement for buses has been introduced to advantage at a number of locations where heavy concentrations of traffic regularly delay services.

I am informed by my advisers that within the next few years it will be necessary to replace buses purchased in the years immediately following the last war. With this in view, the Department of Government Transport is engaged in the development of prototype buses which will incorporate recent technological advances and will embody features proved by past experience to be desirable for operating conditions in Sydney and Newcastle, including mechanical ventilation equipment.

Improvement of the main roads system continues at a steady rate.

During the last financial year a further 708 miles of main roads were provided with bitumen surfacing, bringing the total length of roadway so treated to 10,733 miles.

More than 110 new bridges and bridge size culverts are being constructed each year on classified roads throughout the State.

Six large bridges are at present under construction in country locations and three in the Metropolitan area. The bridge being erected over the Clarence River at Harwood on the Pacific Highway will eliminate the last ferry service on the State Highway system.

The construction of four tunnels to carry public utilities under the route of the first section of the Warringah Expressway is now under way, preparatory to the calling of tenders in the near future for the construction of the expressway.

Considerable progress has been made in the Government's programme of water conservation and irrigation works. Efforts have been concentrated principally on the completion as early as possible of the Burrendong Dam on the Macquarie River. The main wall was completed in October, 1963, and the huge reinforced concrete spillway is now more than two-thirds complete. The dam will be ready to store water, as soon as river conditions permit, after the work on the spillway becomes safe against overflows early this Spring. The dam is expected to be in full operation before the end of next year.

The strengthening of the concrete wall of the existing Wyangala Dam is well advanced and a great deal of the preliminary work required for the construction of the new main wall has been carried out. Discharges from the dam will be diverted away from the river bed by about the middle of next year and this will permit construction of the new main wall to be accelerated. Concreting of the new spillway will be started about the same time.

The agreement reached with the Commonwealth Government will enable the construction of the Blowering Dam to be carried out within six years. The first stage of work on this project has now started.

The Government will proceed with soil and topographical surveys, farm design and the construction of necessary additional works in the Coleambally Irrigation Area in ample time for the use of the water which will become available from Blowering Dam.

Additional farms have been provided recently in the Coleambally Irrigation Area bringing the total development of this Area to date to 183 mixed farms and fifteen horticultural blocks. Another twelve mixed farms can be supplied with the water available prior to the construction of Blowering Dam.

The development of the State's forest resources has been given emphasis in recent years.

Selected areas of natural forest are now being treated at the rate of more than 50,000 acres per year to increase the yield of timber in the future.

The establishment of softwood plantations also has been accelerated. A record area of 8,200 acres has been planted this year. More than 100,000 acres of softwood plantations have now been established.

Timber production has been maintained at a high level and, when final figures are available, it is likely that production during 1963-64 will prove to have achieved an all-time record. The proportion of timber drawn from Crown areas has been increasing in recent years, offsetting the decline in production from privately-owned timbered lands.

The research, advisory and extension services of the Department of Agriculture have continued to expand in keeping with the Government's objective of providing all practicable assistance to the man on the land.
Advantage is being taken increasingly of television as an extension medium in rural areas.

The significant increase in the cultivation of cotton in this State from 500 acres in 1960-61 to 9,000 acres during the current season is due in no small measure to the Department's research work in cotton over the last five years.

The 1963-64 wheat crop in New South Wales set a fresh record.

Deliveries by growers amounted to over 110,000,000 bushels, of which more than 101,000,000 bushels were received into the Grain Elevator System. This was an increase of almost 12,000,000 bushels on the previous record quantity of 89,500,000 bushels received into the System in 1962-63.

To meet the continuing heavy demand for more bulk storage facilities arising out of the substantial increase in wheat production, the Grain Elevators Board has revised its construction programme so that, together with outstanding works already in hand, the capacity of the Elevator System will be increased to over 100,000,000 bushels by the end of 1965.

Considerable progress has been made in the establishment of abattoirs by county councils in keeping with the Government's policy of encouraging country killing for the metropolitan and export markets.

The abattoirs at Forbes and Moree are now in operation. That at Guyra will commence in the near future and the Mudgee abattoir is expected to be in service early next year.

Good progress has been made in implementing the Government's policy of intensive rural land settlement under the General Closer Settlement Scheme.

Since the inception of the scheme in 1960, 234,411 acres of land have been acquired and subdivided into 172 farms.

During the past twelve months three new National Parks have been proclaimed, one at Gibraltar Range north of Grafton, another at Burrendong Dam near Wellington and a third on the Cudgegong River in the Mudgee district.

In the year ending on the 30th June, 1964, new dwellings erected by the Housing Commission totalled 4,364. At that date a near record number of 5,552 dwellings were under construction or the subject of contract or tender.

The Commission has now completed some 70,000 dwellings throughout the State.

Particular emphasis has been placed by the Commission on its programme for the construction of accommodation for aged persons. Four hundred and eighteen units were completed in the financial year, with 1,037 units under construction or the subject of contract or tender as at the 30th June, 1964.

The development of the Commission's major housing estate at Green Valley has proceeded apace, the total number of dwellings completed by the end of the financial year being 2,276, with a further 1,317 under contract.

Plans for the development of a substantial area at Mount Druitt are well in hand. This project when fully developed will embrace a total of 8,000 dwelling units with schools, shops and all services.

Slum clearance activities have been accelerated. A major project comprising 284 flat units was recently completed at Redfern and a commencement has been made on the first two of three sixteen-storey tower blocks, each containing 192 flats, in a former slum area at Redfern. The third and final block will be the subject of tender during the current financial year.

In the last financial year an amount of approximately £16,000,000 was made available to co-operative building societies, either by way of funds provided directly by the Government under the Housing Agreement or under guarantee. The Government's guarantee of loans to terminating building societies now exceeds £178,000,000.

During the year the building societies made loans available for the construction of approximately 5,000 new dwellings.

To meet the continuing strong demand for homesites, high priority continues to be given to the subdivision of Crown land for building blocks. During the past year 751 homesites were made available, either under the Suburban Holding perpetual lease tenure or by way of auction sale.

In the same period fifty-four homes were erected for aborigines by the Aborigines Welfare Board. In addition, advances amounting to £48,825 were made to aborigines for the purchase of homes.
Under the programme for the current financial year the erection of a further seventy-nine homes is planned.

Substantial additions have been made to the Darlinghurst, Kogarah and Manly Court Houses and a contract has been let for the erection of a new Court House at Blacktown.

In the current financial year it is planned to commence the erection of new Court Houses at Hillston, Port Kembla, Fairfield and Waverley, as well as additions to existing Court Houses at Newcastle, Orange, Grafton and Campbelltown.

In accordance with the Government’s policy of decentralising administration, a Branch Office of the Public Trust Office has been established at Lismore and arrangements are in hand for setting up Branch Offices of the Public Solicitor at Newcastle and Wollongong.

New motor registry buildings costing approximately £125,000 were provided in six country towns during the year ended 30th June, 1964, and this policy of providing facilities for the public will be continued.

School enrolments this year were approximately 652,500 as compared to 638,580 in the previous year and 624,000 in 1962.

At the 30th June, 1964, there were approximately 26,400 teachers employed in departmental schools, including casual teachers.

A record number of 3,260 teachers’ college scholarships was awarded this year. In the first term of 1964 there were 7,302 students training in teachers’ colleges, 759 more than at the end of 1963.

With the commencement of the present school year, the Government introduced a new scheme for the payment of allowances of £21 per annum to parents of secondary school pupils in third and subsequent years at non-departmental schools and pupils who live away from home to attend departmental schools. My Ministers are at present reviewing the operation of this scheme and any changes decided upon will be announced when the budget for the present financial year is introduced.

Further concessions have been granted this year in the conveyance subsidy for the transport of children to school and as from June, 1964, the capital subsidy provided by the Department towards the cost of establishment by local committees of school hostels has been increased from £1 for £1 up to a maximum of £25,000 to the basis of £2 for £1 up to a maximum of £50,000.

Eleven new High Schools now under construction are expected to be completed in time for the beginning of the 1965 school year.

The Government has continued to provide substantial grants towards the capital and recurrent costs of the State’s universities to assist them in meeting the ever increasing demands for university education.

Legislation was recently enacted to establish the Macquarie University which will be located at Ryde as the State’s fourth autonomous university. The first Council of the university has been appointed and action is now proceeding towards the acquisition of the site and the planning of the first stage of the new university’s development.

Extension and expansion of activities in the field of education are continually being made. With the continued increase in enrolments and improvements in educational facilities and staffing, the expenditure on the educational services from revenue and loan funds has reached the record total of over £103,000,000.

In the field of public health, continued progress has been made in the psychiatric services and particular attention has been paid to the needs of aged persons and the intellectually handicapped.

A Director of Geriatrics has been appointed. Geriatric Units are being established in General Hospitals and Geriatric Villas are being constructed to house aged persons who otherwise would need to be placed in psychiatric hospitals.

Building projects costing over £6,000,000 were completed at various public hospitals during the financial year 1963-64 and other work costing another £6,000,000 is at present in progress.

New hospitals were completed at Auburn and Mona Vale, while others are at present under construction at Blacktown and Port Kembla. Major improvements are being carried out at Lismore Hospital whilst a new hospital at Belmont and major additions to the Goulburn Hospital are planned to commence during this year.
The welfare of mothers and babies is a matter which has continued to receive special attention. The number of baby health centres has been increased and the services ancillary to such centres have also been expanded.

The Obstetric Consultant Service, which is available to general practitioners, has been extended to provide for an anaesthetist to accompany an obstetric consultant where necessary.

Action has also been taken to establish a new Paediatric Consultant Panel, to provide a Specialist Service to children under one year of age residing outside of the metropolitan area whose parents are unable to afford the cost of obtaining such a service privately.

With a view to further assisting residents in country areas and as part of the Government's programme of decentralisation, Health Districts in country areas have been rearranged and new health districts have been created.

The efforts being made by the Government to reduce and control air pollution have been taken a step further by the introduction of regulations under the Clean Air Act, which lay down maximum standards in relation to the concentration and emission of air impurities.

Despite the more favourable economic conditions, greater demands are being placed on services provided by the Department of Child Welfare and Social Welfare as the State's population increases. The number of children who are wards under the Minister's legal guardianship has shown a further increase to 5,932.

Although the proportion of young people involved in delinquency has remained at a steady level, it has become necessary to improve treatment facilities and a commencement will be made this year on a new children's shelter at Lidcombe and a major new training school for boys at Kurri Kurri.

An important policy decision has recently been taken to implement a broad programme to provide for the care, treatment and training of intellectually handicapped persons in this State.

The Government acknowledges the pioneering work of the many voluntary organisations that are attempting to promote the welfare of intellectually handicapped persons in the community and has decided to provide capital grants to assist these organisations to expand their activities.

   Mr. Speaker referred to the question raised the previous day by the Honourable Member for Tamworth as to when is the appropriate time to move a Motion of Urgency.
   Mr. Speaker directed attention to two of his previous rulings, viz., (1) a Notice of Motion may be given at any stage prior to the Speaker going through the Business Paper with a view to taking Formal Business, and (2) a Motion of Urgency may be moved only during Question Time.
   Mr. Speaker stated that the recent amendment to Standing Order No. 395 referred to by the Honourable Member for Tamworth, laid down that a Motion sought to be moved by way of Urgency should not contain argument or unbecoming expressions, and did not affect his previous ruling that a Motion of Urgency may be moved only during Question Time.

   (2.) Recognising that international communism represents the only major threat to peace, especially in our quarter of the globe, pledges every possible support to the Commonwealth Government in its efforts to strengthen Australia’s defences by both diplomatic and military means;
   (3.) Re-affirms its decision of 25th October, 1961, when it denounced some “peace movements” as instruments of communist propaganda and anti-Australian; and
   (4.) Does not regard the expressed motives of the sponsors of the “Australian Congress for International Co-operation and Disarmament” to be held in Sydney from 25th to 30th October next as bona fide.
Disorder:—Mr. Speaker named the Honourable Member for Earlwood, Mr. Willis, as guilty of persistently and wilfully disregarding the authority of the Chair.

Mr. President,—

The Legislative Assembly having had under consideration the Legislative Council's Message dated 29th October, 1963, requesting its concurrence in certain amendments made by the Council in the Pharmacy Bill, acquaints the Legislative Council as follows:—

Amendments Nos. 1 and 2: Disagrees to these amendments,—because they do not conform with the intention to reconstitute the Pharmacy Board so as to provide for wider and more balanced representation therein.

Amendments Nos. 3, 5, 7, 9 and 11: Disagrees to these amendments,—because the approvals referred to are an extension of the normal provisions of the Bill, and as such it is considered that the approval of the Minister is more appropriate than approval of the Board.

Amendments Nos. 4, 6, 8 and 10: Disagrees to these amendments,—because movement of a pharmacy is at present restricted to five miles from the original shop. The Bill proposes to extend this limitation to ten miles which is considered to be in the interests of pharmacists generally, as opposed to the amendment which does not place any restriction on the distance within which a shop may be moved.

Amendments Nos. 12 and 13: Disagrees to these amendments,—because the deletion of provisions to permit Friendly Societies and Co-operative Societies to open pharmacies, subject to the Minister's approval, would preclude an opportunity to provide pharmaceutical services by such societies in areas where these services may be required.

Amendments Nos. 14 and 15: Disagrees to these amendments,—because they are consequential to Amendments Nos. 1 to 13 which are disagreed to.

And the Assembly requests the concurrence of the Legislative Council in its disagreements from the Council's amendments in the Bill.

Mr. Speaker resumed the Chair, and the Chairman reported that the Committee had come to a Resolution, which was read, as follows:—

(15.) **Resolved,—**

That towards raising the supply to be granted to Her Majesty, there shall be charged, levied, collected and paid, subject to the provisions of Part IIIA of the Gaming and Betting Act, 1912-1964, for the use of Her Majesty and for credit of the Gaming and Betting (Poker Machines) Account in the Special Deposits Account established at the Treasury—

(A) license tax upon each poker machine kept, used or operated during the period of twelve months ending the thirtieth day of June, one thousand nine hundred and sixty-five, and each subsequent year;

(B) supplementary license tax upon the net revenue from poker machines kept, used or operated by a club in respect of the taxing period ending the thirtieth day of November, one thousand nine hundred and sixty-five, and each subsequent taxing period; and

(C) additional supplementary license tax upon the total of the net revenues from poker machines kept, used or operated by a club in respect of the taxing periods within each period of twelve months ending the thirty-first day of May, one thousand nine hundred and sixty-six, and each subsequent year—under and in accordance with the provisions of the Gaming and Betting (Poker Machines) Taxation Act, 1956-1962, as amended in the following manner, that is to say:—

(a) (i) by omitting from section two the figures and symbols “1912-1962,” and by inserting in lieu thereof the words, figures and symbols “1912, as amended by subsequent Acts,”;

(ii) by inserting at the end of the same section the following new subsection:

(2) (a) If during the period of twelve months ending on the thirtieth day of June in any year a club discontinues the keeping, use or operation of a poker machine kept, used or operated pursuant to a license or renewal of a license issued under Part IIIA of the Gaming and Betting Act, 1912, as amended by subsequent Acts, and replaces such poker machine with a poker machine (herein referred to as a replacement machine) the use or operation of which depends upon the insertion therein of an Australian coin of lesser value than the coin upon the insertion of which the use or operation of the first-mentioned poker machine depends, no license tax in respect of the said period shall be payable for the replacement machine.

(b) If during the period of twelve months ending on the thirtieth day of June in any year a club discontinues the keeping, use or operation of a poker machine kept, used or operated pursuant to a license or renewal of a license issued under the said Part IIIA and replaces such poker machine with a poker machine (herein referred to as a replacement machine) the use or operation of which depends upon the insertion therein of an Australian coin of greater value than the coin upon the insertion of which the use or operation of the first-mentioned poker machine depends, the license tax which but for the provisions of this paragraph would be payable upon the replacement machine in respect of the replacement period shall be reduced by the license tax which would be payable upon a poker machine of the same class as the first-mentioned poker machine in respect of the replacement period if it was kept, used or operated by the club during the replacement period.

In this paragraph "replacement period" means that portion of the period of twelve months hereinbefore referred to which commences on the date such replacement machine is first kept, used or operated by the club and ends on the thirtieth day of June next following.

(b) by omitting from subsection one of section three the figures and symbols “1912-1962,” and by inserting in lieu thereof the words, figures and symbols “1912, as amended by subsequent Acts,”;
(c) by omitting from section four the figures and symbols "1912-1962," and by inserting in lieu thereof the words, figures and symbols "1912, as amended by subsequent Acts;";

(d) by inserting next after section five the following new section:—

5A. (1) In this section—

"gross revenue from poker machines" and "taxing period" have the meanings ascribed thereto in section six of this Act;

"net takings from poker machines" in relation to any period of twelve months ending the thirty-first day of May means the sum of the gross revenue from poker machines in respect of the taxing periods ending the thirtieth day of November and the thirty-first day of May in such period of twelve months less the amounts referred to in paragraph (a) of the definition of "net revenue from poker machines" in section six of this Act in respect of such taxing periods.

(2) Where in respect of any period of twelve months ending the thirty-first day of May in any year the net takings from poker machines derived by a club during such period from the keeping, use or operation of poker machines by the club pursuant to any license or renewal of license issued under Part IIIA of the Gaming and Betting Act, 1912, as amended by subsequent Acts, do not exceed fifteen thousand pounds the license tax which would but for the provisions of this subsection be payable shall, in respect of the period of twelve months ending the thirtieth day of June next following the said thirty-first day of May, be reduced by one-half:

(3) Where in respect of any period of twelve months ending the thirty-first day of May in any year the net takings from poker machines derived by a club during such period from the keeping, use or operation of poker machines by the club pursuant to any license or renewal of license issued under the said Part IIIA exceed fifteen thousand pounds the license tax which would but for the provisions of this subsection be payable shall, in respect of the period of twelve months ending the thirtieth day of June next following the said thirty-first day of May, be reduced by one-half less one pound for every one pound by which such net takings exceed fifteen thousand pounds.

Where a club is entitled to a reduction under this subsection as well as to a reduction under section three of this Act the reduction under this subsection shall be first applied to determine the amount of license tax upon which the reduction under the said section three shall operate.

(4) (a) Any refund to which a club becomes entitled pursuant to the provisions of this section shall be credited to the club in respect of the license tax payable by such club in respect of the next ensuing period of twelve months.

(b) Where the amount of any such refund exceeds the amount of such license tax the excess shall be refunded to the club.

Any amount refunded under this paragraph shall be paid out of the Gaming and Betting (Poker Machines) Account in the Special Deposits Account established at the Treasury.

(e) (i) by omitting from subsection one of section six the figures and symbols "1912-1962," and by inserting in lieu thereof the words, figures and symbols "1912, as amended by subsequent Acts;";

(ii) by inserting at the end of subsection one of the same section the following proviso:—

Provided that, in respect of the period of twelve months ending the thirty-first day of May, one thousand nine hundred and sixty-six, or any subsequent period of twelve months ending the thirty-first day of May, there shall be so charged, levied, collected and paid an additional supplementary license tax at the rate of sixpence in the pound on the amount by which the total of the net revenues from poker machines so kept, used or operated by any such club during the taxing periods ending the thirtieth day of November and the thirty-first day of May in such period of twelve months exceeds fifty thousand pounds.

BUSINESS UNDISPOSED OF AT THE CLOSE OF THE SESSION

(PROROGUED, 10 FEBRUARY, 1965)
(DISSOLVED, 31 MARCH, 1965)

QUESTIONS:

(Notice given, 26 August, 1964.)

1. Payment for Resumed Properties:—Mr. Chaffey to ask the Premier, Treasurer and Minister for Industrial Development and Decentralisation,—

(1.) Have a number of State departments and statutory authorities acquired property by resumption for which payment is not made until years after the resumption?

(2.) Does this disclose that there is a Crown obligation to find finance to compensate owners in future years?

(3.) Will he table a statement setting out the Crown's obligations in this field including commitments entered into by statutory authorities subject to State Loan or other allocations?

(Notice given, 24 November, 1964.)

2. Disposal of Derelict Vehicles:—Mr. Darby to ask the Minister for Transport,—

(1.) Are details available of the number of vehicles which are not re-registered each year?

(2.) Is the number of such vehicles increasing in greater proportion than the increase of new vehicles registered?

(3.) As more and more new vehicles are registered to replace those no longer roadworthy, has the problem of the disposal of such vehicles received appropriate attention?

(4.) Is it a fact that although many such vehicles are dismantled in wreckers' yards and eventually sold as scrap metal, many of them are abandoned by their owners in public places particularly in the bushland and gullies of Crown land?

(5.) Have reports been received of increasing numbers of derelict vehicles littering our national parks, and other reserves?

(6.) Would he give consideration to making it obligatory to continue the registration of an unroadworthy vehicle at a nominal sum of £1 per year until such time as a certificate is given that the vehicle concerned has been properly dismantled and properly destroyed?

(Notice given, 1 December, 1964.)

3. Sydney Opera House Parking Station:—Mr. Punch to ask the Minister for Public Works,—

(1.) Do the estimates of cost of the Sydney Opera House include the provision for a parking station?

(2.) If the answer is in the negative, will the provision of this parking station add greatly to the over-all cost of the Sydney Opera House and will this addition be included in current estimates now being prepared?

(3.) Will he inform the House,—

(i) When plans for this parking station are to be released?

(ii) Where will the parking station be situated?

(iii) How much will it cost?
212

(Notice given, 1 December, 1964.)

4. New Suburban Railways:—Mr. Darby to ask the Minister for Transport,—

(1.) Apart from the Circular Quay link has no suburban railway line been built in the metropolitan area for thirty years and thus none since this Government came into office?

(2.) Is this because it is the policy of the Government to provide for roads rather than railways?

(3.) Is he able to give details of the post-war extensions to suburban railways of other cities of comparable size to Sydney?

(4.) In view of present road congestion, the high cost of expressways, the rapid growth of our population and the expansion of our built-up areas, will the present policy be changed and plans made for the extension of our suburban railways?

(Notice given, 1 December, 1964.)

5. Sydney Harbour Bridge Toll:—Mr. Darby to ask the Deputy Premier, Minister for Local Government and Minister for Highways,—

(I.) Does the Sydney Harbour Bridge account show an ever-increasing and buoyant revenue?

(2.) For the three months ending 30th June, 1964, did tolls collected exceed collection costs, repairs and interest charges by over £1,000,000?

(3.) Does this represent a contribution of £1 per year for every man, woman and child in New South Wales?

(4.) If net toll receipts had not been used for building expressways, would the cost of the Harbour Bridge and all interest on loans by now have been fully met?

(5.) If the answer to question (4.) is in the affirmative, are users of the Harbour Bridge now paying a toll to have expressways constructed?

(6.) If so, why have the users of the Harbour Bridge been singled out for such treatment whilst those who only use other expressways have no toll imposed upon them?

(7.) Is congestion increased by imposing an extra toll on utilities, station waggons and commercial vehicles generally?

(8.) Is a toll collector unable to readily determine whether an approaching vehicle is rated at Is. or a higher charge?

(9.) Will he grant a flat rate of Is. toll for all vehicles?

1. District Courts (Amendment) Bill; second reading. [Mr. Mannix.]

2. Supply; resumption of the Committee.

3. Ways and Means; resumption of the Committee.

GENERAL BUSINESS—ORDERS OF THE DAY:—

1. Education Needs; resumption of the adjourned debate on the motion of Mr. Earl,—

That in the opinion of this House, having regard to the fact that the provision of educational services of the highest standard is essential for the development of Australia, its industries and its relations overseas and to the fact that this State, with others, is already devoting a major proportion of its revenue to education the Commonwealth Government should arrange for an expert inquiry into the needs of primary, secondary and technical education, and in the meantime, make specific grants to the States for general education purposes.

2. Pensions and Hospitals Benefits for Mental Patients; resumption of the adjourned debate on the motion of Mr. Crabtree,—

That in the opinion of this House, the Commonwealth Government, in recognition of the role of the national government in matters related to pensions and hospital benefits, should take action immediately to extend the provisions of the relevant Commonwealth legislation to cover patients in mental hospitals in respect to both pensions and hospital benefit payments.
NOTICES OF MOTIONS:—

1. Mr. Darby to move,—
   That in the opinion of this House,—
   (1.) The growing practice of the conduct of organised sporting activities on
   Sundays is to be deplored, and that those parts of the Sunday Observance Act
   of 1781 still in force in this State which prohibit the commercialisation of our
   Sundays should be forthwith vigorously policed and offenders prosecuted.
   (2.) Further, that the fifteen conditions laid down by the Chief Secretary's
   Department regarding Sunday sport be rigidly observed and that sporting activi-
   ties do not take place unless the organisers hold a permit complying with these
   conditions.

2. Mr. Darby to move,—
   (1.) That a Select Committee be appointed to inquire into and report upon the
   advisability of continuing the present policy associated with the fluoridation of
   our public water supplies.
   (2.) That such Committee consist of Mr. Sheahan, Mr. Brown, Mr. Crabtree,
   Mr. Ferguson, Mr. Morris, Mr. Southey and the Mover.
   (3.) That the Committee have leave to sit during the sittings or any adjourn-
   ment of the House and to make visits of inspection within the State of
   New South Wales and to other States of the Commonwealth.

3. Mr. Bannon to move,—
   (1.) That, in the opinion of this House it is the responsibility of the Com-
   monwealth Government to use its Social Service revenue to make provisions
   for all social service payments to women with children whose husbands have
   deserted or are in gaol.
   (2.) This House considers the Commonwealth Government has failed in its
   responsibilities in not reducing from six months to three months the waiting
   time for eligibility of these persons to receive a Commonwealth pension, and
   calls upon the Commonwealth Government to take appropriate steps to rectify
   this anomaly.

4. Mr. Darby to move,—
   (1.) That, in the opinion of this House, a subsidy should be granted to old
   people's welfare clubs, and that such subsidy should be comparable to those
   now paid by the State governments in Victoria, Western Australia and South
   Australia.
   (2.) That the subsidy determined should be at least up to £5,000 for the capital
   cost of any individual club on a £1 for £1 basis and in addition a maintenance
   subsidy of from £300 to £800 per year dependent upon the size of the club.

5. Mr. Darby to move,—
   That, in the opinion of this House, legislation should be introduced to provide
   that, for certain offences, magistrates shall have power to direct a person found
   guilty to report every week-end, for a stated period of time, to a gaol, a work
   centre, or a training centre.

6. Mr. Darby to move,—
   (1.) That, in the opinion of this House, a reappraisal of the problem of housing
   should take place in view of the following:—
   (a) The long established policy of assistance to those who have an established
   housing need offers no help to a young couple getting married and
   wanting to set up a home of their own.
   (b) The recently proclaimed policy by the Federal Government of assistance
   to young married couples.
   (2.) That in such an appraisal a scheme of chartered flats for the accommo-
   dation of young married couples until they have built up sufficient equity to
   purchase their own homes should be carefully considered.

7. Mr. Darby to move,—
   That leave be given to bring in a Bill to provide for the notification of certain
   disabilities which affect physical or mental well-being and which are recognis-
   able at birth or subsequently; to provide for the registration of notifiable
   disabilities; and for purposes connected therewith.
8. Mr. Darby to move,—
That leave be given to bring in a Bill to prohibit the licensing of any additional poker machines after a proclaimed date, to prohibit the use of poker machines of 2s. 6d. or the approximate equivalent, after a proclaimed date in February, 1966, to prohibit the use of poker machines to take coins larger than 5 cents after a subsequent proclaimed date, and to prohibit the use of poker machines entirely after a more subsequent proclaimed date; to amend the Gaming and Betting (Poker Machines) Act, 1956; and for purposes connected therewith.

C 9. Mr. Punch to move,—
(1.) That a Select Committee be appointed to inquire into and report upon local-government finance in New South Wales in relation to the State and Federal governments and in comparison with other States with special reference to,—
(a) the main source of local-government revenue, the property tax, as an equitable means of providing funds for services to the community generally;
(b) whether fees and charges being imposed by local-government industrial undertakings are economic;
(c) whether grants made by the State and Federal governments are adequate to enable local government to provide the amenities required by an increasing population in an expanding economy; and
(d) loan funds allocated to finance necessary capital expenditure by local government.

11. Mr. Willis to move,—
That this House,—
(1.) Supports our constant desire to promote genuine peace and understanding between all nations but emphasises that this aim cannot be achieved by the disarmament of Australia;
(2.) Recognising that international communism represents the only major threat to peace, especially in our quarter of the globe, pledges every possible support to the Commonwealth Government in its efforts to strengthen Australia's defences by both diplomatic and military means;
(3.) Re-affirms its decision of 25th October, 1961, when it denounced some "peace movements" as instruments of communist propaganda and anti-Australian; and
(4.) Does not regard the expressed motives of the sponsors of the "Australian Congress for International Co-operation and Disarmament" to be held in Sydney from 25th to 30th October as bona fide.

12. Mr. Askin to move,—
That the Government should take positive steps to relieve the heavy burden on home owners and small property owners who are suffering hardship as a result of skyrocketing Valuer-General's valuations and consequential steep increases in municipal and water board rates.
