POINTS OF ORDER:

RULINGS OF SPEAKERS:

That it was not in order to discuss the Lands Commission Report or take action on it so far as it related to the Honorable Member for Blayney and others, while the Honorable Member, and others are defending themselves in the Criminal Courts on charges founded on that Report, 40.

That the Order of the day raised on motion for additional Standing Order providing for suspension of Member against whom a criminal charge was pending, raised a legal question. It was in the power of the House to pass any Standing Order it chose, and the motion was in order, 62.

That the motion in reference to the Office of State Governor did not anticipate discussion on the Balance, and was in order, 174.

That the Gaming and Betting Bill (No. 2) was not beyond the Order of Leave, and was in order, 143.

That the Speaker's Family Maintenance Bill was out of order as containing provisions that were not included in the Order of Leave, 144.

That section 29 subsection 3 of the Public Works Act had been complied with by the Minister laying on the Table the Report and Evidence of the Parliamentary Standing Committee on Public Works, even though the printed copies were not in the hands of Honorable Members, 255.

That Medical Practitioners Act Further Amendment Bill was not one of the class of Bills contemplated by Standing Order No. 246, and did not require to be initiated in Committee of the Whole, and that it did not entail any expenditure not already provided for, and therefore a Message was not required, 258.

On Motions for Adjournment:

That楹our's statement on 4th August, 1906, in respect to the State System of Education, and the author of the Education Act, was not in order, not being of a definite character, 137.

Police Superannuation Fund would anticipate motion on the same subject of which notice had been given, and was out of order, 138.

Oaths of families, and in many instances the only bread-winner, being sent to gaol, was out of order as it anticipated the debate for the adoption of the Report from the Select Committee on the Landlord and Tenant (Amendment) Bill; and further, that the motion was not definite, 164.

The alteration of the Tranway System at the Railway, and the danger to the Public, was in order, as the subject of motion was definite, 164.

The Smoke Nuisance in the City of Sydney and Suburbs, having already this Session been submitted for discussion on a Motion for Adjournment, when it failed to obtain the requisite support, it could not again be brought forward this Session, 178.

The following subjects could be discussed in the debate on the Financial Statement or in Committee of Supply, and were therefore, out of order—

- Establishing Temporary Hospitals for Inurable Consumptive, 197.
- Opening of the Jenolan Caves on Saturday, 299.
- Publication of Odds on Races, 243.
- Alarming spread of Rabbits in the Central Division, in order, as it could not be discussed on second reading of the Crown Lands Administration Bill, 143.
- Method of dealing with applicants under Section 29 of the Crown Lands Act of 1905, in allotting Crown Lands by the Local Land Boards was in order, as it could not be debated when discussing the Lobbies Bill, 145.

DISSENT FROM RULINGS:

- Motion made (Mr. Wood) that this House disowns from Mr. Speaker's ruling, that it is not in order to discuss the Lands Commission Report, or take action on it, so far as it relates to the Honorable Member for Blayney and others, while the Honorable Member and others are defending themselves in the Criminal Courts on charges founded on that Report, and negatived, 35.

REASONS OF—

That it was not in Order to discuss the Lands Commission Report, or to take motion on it, so far as it relates to the Honorable Member for Blayney and others, while the Honorable Member and others are defending themselves in the Criminal Courts on charges founded on that Report, 45.

That the Point of Order, raised on motion for an Additional Standing Order providing for suspension of Members' right when a criminal charge was pending, raised a legal question, it was in the power of the House to pass any Standing Order it chose, and the motion was in Order, 62.

That the Gunning and Betting Bill (No. 2) was not beyond the Order of Leave, and was in order, 143.

That the motion in reference to the office of State Governor did not anticipate discussion on the Estimates and was in order, 174.

That motion 28, subsection (c) of the Public Works Act had been complied with by the Minister laying on the Table the Report and Evidence of the Parliamentary Standing Committee on Public Works, even though the printed copies were not in the hands of Honorable Members, 201.

That medical practitioners Act Further Amendment Bill was (a) not one of the class of Bills contemplated by Standing Order No. 246, and did not require to be initiated in Committee of the Whole, and (b) did not entail any expenditure not already provided for; and therefore a Message was not required, 236.

On Motions for Adjournment—

Cardinal Moran's statement on 4th August, 1906, in respect to the State System of Education, and the author of the Education Act, was not in order, not being of definite character, 123.

Police Superannuation Fund would anticipate motion on the same subject of which notice had been given, and was out of order, 125.

Heads of families, and in many instances the only bread-winner, being sent to gaol, was out of order, as it anticipated the debate for the adoption of the Report from the Select Committee on the Landlord and Tenant (Amendment) Bill, and further, that the motion was not definite, 126.

The alteration of the Tramway Section at the Railway, and the danger to the Public, was in order, as the subject of motion was definite, 164.

The Smoke Nuisance in the City of Sydney and Suburbs having already this Session, been submitted for discussion on a motion for adjournment, when it had failed to obtain the requisite support, it could not again be brought forward this Session, 178.

The following subjects could be discussed in the debate on the Financial Statement or in Committee of Supply, and were therefore out of order—

Establishing Temporary Hospitals for Insane Patients, 107.

Opening of the Jacob's Caves on Sunday, 239.

Publication of Odds on Races, 243.

Alarming spread of Rabbits in the Central Division, was in order, as it could not be discussed on second reading of the Crown Lands Administration Bill, 148.

Method of dealing with applicants under section 23 of the Crown Lands Act of 1905, in allotting property in the City, but not being supported by five other Honorable Members, could not be proceeded with, 123.

Urgency resolution prior to suspension of, affirmed, 102.

Dissent from Ruling—

Motion made (Mr. Wood) that this House disents from Mr. Speaker's ruling, that it is not in order to discuss the Lands Commission Report, or take action on it, so far as it relates to the Honorable Member for Blayney and others, while the Honorable Member and others are defending themselves in the Criminal Courts on charges founded on that Report, and negatived, 55.
