From Committee of the Whole.—Reported, 40, 219, 220, 371-7.

15-C.
S

SPEAKER (continued):

ROLLINGS—

That the Accountants Bill was improperly before the House, as it interfered with trade, and

and was not brought in through Committee of the Whole House, 387.

That the proposed amendment of Clause 6 of the Forestry Bill, not only obliterated Clause 6,

but also practically Clause 7—no amendment could deal with two Clauses at the same

and in the respect it could not be relevant (Referred from Committee of the Whole), 66.

That, on a motion to continue the work of the Chairman of Committees, the rulings of the

Chairman could not be discussed; they should have been dealt with in Committee at the

time they were given, 149.

That it was within the function of this House to discuss any matter and make a recommendation

to the Federal Parliament, and motion recommending a bonus to parents of

children born in the State was in order, 173.

That the motion to grant a subsidy to the parents of every child born in the State was only

abortive, and did not propose to appropriate or vote any expenditure, and therefore did

not require to originate in Committee of the Whole, 173.

That new clause proposed to be inserted in the Adoption (Amendment) Bill was outside the

scope of the Bill, and was therefore out of order, 305.

That the notice of motion on the Business-paper for the suspension of Standing Orders to admit

of the Industrial Disputes (Amendment) Bill being passed through all its stages in one day

was in order, as it had been altered in time to be correctly on the Business Paper used in

the House, 407.

ON MOTIONS FOR ADJOURNMENT—

That the wording of the Notice in reference to the State Children Relief Act was such that

the whole of the Act could be discussed, it was not definite, and was therefore out of

order, 104.

That as it was desired to bring a specific case with reference to the State Children Relief Act,

under notice, the debate would be restricted to that case, 106.

That a motion under 49th Standing Order, must be restricted to a single specific matter of

recent occurrence (action of Fishes Board re Oyster Leases), 116, 117.

That motion respecting the administration of State Children Relief Department would raise

practically the same debate as that which took place on 17th August, and was therefore

out of order, 163.

That the motion for adjournment of the House to discuss the charging of the brewers of this

State a license fee in addition to the license fee charged by the Commonwealth was out of

order, it would anticipate a discussion which might take place on the consideration of the

Estimates of the Treasurer, 293.

DISSENT FROM RULING—

Motion made (Mr. Arthur Griffith) in reference to ruling to the effect that it is not competent

for a Member to move the adjournment of the House to call attention to the

fact that certain definite statements made in the House by a Minister of the Crown Were  

inaccurate and misleading, and negatived, 190.

STIFLED, TO MANLY ELECTRIC TRAMWAY BILL—

Assent to (Second Session, 1908) reported, 2.
