INDEX.

POINTS OF ORDER:

That motion to amend the Crown Lands Consolidation Act, 1913, — an Act which was not yet in existence — sufficiently indicated the Bill proposed to be brought in, and was in order, 41. That the amendment to motion for adjournment to discuss the action of the Minister for Lands in not making available sufficient area of Crown lands for Additional Holdings would not anticipate debate on Motion of Motion for leave to bring in a Bill to amend the law relating to agricultural holdings, 46. That debate on motion for adjournment to discuss the necessity for the Premier to give this House the opportunity to deal with Motion No. 6, standing in his name, anticipates discussion on a motion already on the Business Paper, 50. That the motion to amend the Crown Lands Consolidation Act, 1913, — an Act which was not yet in existence — sufficiently described the Bill to be brought in, and was in order, 41. That motion for the establishment of a State Lottery being referred to the electors by we. That the name of the Honorable Member for Darlinghurst, having been struck out in connection with Griffiths & Co., Limited, for the financing and construction of certain public works, went too far, and could not be accepted, 64. That motion for adjournment to discuss the necessity for immediate steps being taken by the Government to stamp out the epidemic of smallpox would not anticipate discussion on motion for 2nd September, for the appointment of a Select Committee, 72. That the Closer Settlement (Amendment) Bill was in order, although it proposed that purchasers or resumptions of land should be paid for by cash, Inscribed Stock, or Treasury Bills, 74. That the action of the leader of the Opposition in agreeing to waive Parliamentary Privilege in connection with the election of the representative of the Legislative Assembly on the Senate of the University of Sydney, it was competent to move, as an amendment, that the Honorable Member be again nominated for the position, 83. That motion for adjournment to discuss the recent taking away of the power to give certificates of successful vaccination from the local authorities at Newcastle was essentially different from the motion moved to discuss the necessity for immediate steps being taken by the Government to stamp out the epidemic of smallpox, 84. That motion for adjournment to discuss the recent taking away of the power to give certificates of successful vaccination from the local authorities at Newcastle was practically a protest against certain action which had deprived the local authorities of power to issue certificates, and could be referred by this House, 84. That it was competent for this House to discuss the recent taking away of the power to give certificates of successful vaccination from the local authorities at Newcastle, although the question of quarantine was amongst the powers handed over to the Federal Government, 84. That the Crown Lands Consolidation Bill was within the Order of Leave and in conformance with the Title, and any objection should have been taken before the second reading stage, 85-6. That Nurses Registration Bill, which originated in the Legislative Council, did not involve any expenditure of public money and was in order, 97. That motion for adjournment dealing with imprisonment of seamen for refusing to be vaccinated had not been discussed on previous motions, 100. That amendment to motion for adjournment dealing with imprisonment of seamen for refusing to be vaccinated did not anticipate discussion on Vaccination Bill, notice of which had been given, 100. That the action of the leader of the Opposition in agreeing to waive Parliamentary Privilege, in respect to anticipated legal proceedings by the Minister for Works for statements made in this House, had not suddenly arisen and could not be considered as a matter of privilege — ruled against by Mr. Speaker, 111. That the action of the leader of the Opposition in agreeing to waive Parliamentary Privilege in respect to anticipated legal proceedings by the Minister for Works for statements made in this House would constitute a breach of privilege and could be discussed by the House, 111. That the House having received the proposal to Bill the blank for the reconsideration of a certain clause in the Bill, it was competent to move to reconsider the reconsideration of another clause, 112. That it was not necessary to fix the third reading of a Bill for a future day at the close of the Session, 132. That motion approving of agreement between the Minister for Public Works and Griffiths & Co., Contractors, Australia (Ltd.), was an abstract motion, and did not involve expenditure of public money, 136. That amendment to motion approving of agreement between the Minister for Public Works and Griffiths & Co., Contractors, Australia (Ltd.), which omitted the words "be approved and inserted the words "be approved and inserted in the form of a Bill" was not a direct negative of motion under consideration, 138. That he could not accept the Public Works Act as governing the proceedings or limiting the powers of this House, 137. That the proposal to construct the City Railway was covered by the Message about to be read, 137. That the Motion from the Governor could intercept any business, 137.

RELIEF OF DEPUTY-SPEAKER:

That motion for adjournment to discuss the neglect of the Government to extend sewerage to the proposed suburbs of the city was of a sufficiently definite character, 96. That discrepancy in resolution indicating that Early Closing and Saturday Half-Holiday Bill instead of Early Closing Bill, had been forwarded to the Legislative Council during a previous Session, was technical and could be remedied by amendment, 98. That amendment to omit words from resolution requesting Legislative Council to proceed with Early Closing Bill was in order, 91. That every resolution of the Legislative Assembly declaring that it is expedient to omit or expedient to carry out any proposed work as recommended by the Parliamentary Standing Committee for Public Works should be notified in the Senate before the Bill is introduced. — ruled against by Mr. Deputy-Speaker, 124. That the House could not pass the City Railway Bill out of order on the ground that the law had been amended in consideration with the proposed City Railway, and no provision made in the Bill to amend the Public Works Act in relation to the acquisition of the land, 143. That the measures covered by a motion for the suspension of the Standing Orders need not be similar in character, 144.

#### S

**Speaker (continued):**

<table>
<thead>
<tr>
<th>Resolution of government</th>
</tr>
</thead>
<tbody>
<tr>
<td>That the motion to amend the Crown Lands Consolidation Act, 1913,—an Act which was not yet in existence—strongly described the Bill to be brought in, and was in order.</td>
</tr>
<tr>
<td>That motion for the establishment of a State Lottery being referred to the electors by way of referendum did not come within the operations of Standing Order No. 159, and did not originate any appropriation of public money.</td>
</tr>
<tr>
<td>That amendment to motion of censure condemning the Government for entering into agreements with Griffith &amp; Co., Ltd., for the financing and construction of certain public works, was too far and could not be accepted.</td>
</tr>
<tr>
<td>That debate on motion for adjournment to discuss the necessity for immediate steps being taken by the Government to stamp out the epidemic of smallpox would not anticipate discussion on the motion for 2nd September for the appointment of a Select Committee.</td>
</tr>
<tr>
<td>That the Crown Lands Consolidation Bill was in order although it proposed that purchases or resumptions of land should be paid for by cash, Treasury Bills, or Inscribed Stock.</td>
</tr>
</tbody>
</table>
| That the name of the Honorable Member for Darlinghurst, having been struck out in connection with the measures covered by a motion for the suspension of the Standing Orders need not be resumed in connection with the reconsideration of the Standing Orders, 157.
| That it was competent for this House to discuss the recent taking away of the power to give certificates of successful vaccination from the local authorities at Newcastle, was essentially different from the motion moved to discuss the necessity for immediate steps being taken by the Government to stamp out the epidemic of smallpox. | 84 |
| That motion for adjournment to discuss the recent taking away of the power to give certificates of successful vaccination from the local authorities at Newcastle, was practically a protest against certain action which had deprived the local authorities of power to issue certificates, and could be redressed by this House. | 84 |
| That it was competent for this House to discuss the recent taking away of the power to give certificates of successful vaccination from the local authorities at Newcastle, although the question of quarantine was amongst the powers handed over to the Federal Government, 84. | 84 |
| That the Crown Lands Consolidation Bill was within the Order of Leave and in conformance with the Title, and that any objection should have been taken before the second reading stage, 82-6. | 84 |
| That Nurses Registration Bill, which originated in the Legislative Council, did not involve expenditure of public money and was in order, 87. | 87 |
| That Motion for adjournment dealing with imprisonment of seamen for refusing to be vaccinated had not been discussed on previous motions, 100. | 100 |
| That motion for adjournment dealing with imprisonment of seamen for refusing to be vaccinated did not anticipate discussion on Vaccination Bill, notice of which had been given, 100. | 100 |
| That the action of the leader of the Opposition in agreeing to waive Parliamentary Privilege in respect to anticipated legal proceedings by the Minister for Works for statements made in this House had not suddenly arisen, and could not be considered as a matter of privilege—ruled against by Mr. Speaker, 111. | 111 |
| That the action of the leader of the Opposition in agreeing to waive Parliamentary Privilege in respect to anticipated legal proceedings by the Minister for Works for statements made in this House would constitute a breach of privilege and could be discussed by this House, 111. | 111 |
| That the House having negatived the proposal to fill the blank for the reconsideration of a certain clause on recommittal it was competent to move to reconsider for the reconsideration of another clause, 102. | 102 |
| That it was not necessary to fix the third reading of a Bill for a future day at the close of the Session, 152. | 152 |
| That motion approving of agreement between the Minister for Public Works and Griffith & Co., Contractors, Australia (Ltd.), was an abstract motion and did not involve expenditure of public money, 156. | 156 |
| That amendment to motion approving of agreement between the Minister for Public Works and Griffith & Co., Contractors, Australia (Ltd.), which omitted the words "be approved," and inserted the words "be submitted in the form of a Bill," was not a direct negative of motion under consideration, 156. | 156 |
| That he could not accept the Public Works Act as governing the proceedings or limiting the powers of this House, 157. | 157 |
| That the proposal to construct the City Railway was covered by the Message about to be received, 157. | 157 |
| That Messages from the Governor could intercept any business, 157. | 157 |

#### Resolution of Inquiry:

<table>
<thead>
<tr>
<th>Resolution of Inquiry</th>
</tr>
</thead>
<tbody>
<tr>
<td>That motions for adjournment to discuss the neglect of the Government to extend sewerage to the crowded suburbs of the city was of a sufficiently definite character, 35.</td>
</tr>
<tr>
<td>That discrepancies in resolution indicating that Early Closing and Saturday Half Holiday Bill, instead of Early Closing Bill, had been forwarded to the Legislative Council during the previous Session, was technical, and could be remedied by amendment, 91.</td>
</tr>
<tr>
<td>That amendment to omit words from resolution requesting Legislative Council to proceed with Early Closing Bill was in order, 91.</td>
</tr>
<tr>
<td>That every resolution of the Legislative Assembly declaring that it is expedient or not expedient to carry out any proposed work as recommended by the Parliamentary Standing Committee on Public Works should be notified in the Gazette before the Bill is introduced, ruled against by Mr. Deputy-Speaker, 126.</td>
</tr>
<tr>
<td>That he would not rule the City Railway Bill out of order on the ground that land had been acquired in connection with the proposed City Railway and no provision made in the Bill to amend the Public Works Act in relation to the acquisition of the land, 143.</td>
</tr>
</tbody>
</table>
