RULES OF:
That a motion for the adjournment of the House under the 49th Standing Order, to consider the action of the Chief Secretary in prohibiting the Hypatia Club hearing a lecture and discussing Traffic in Armaments, was out of order on the ground that discussion of the motion would anticipate the Debate upon the Financial Statement, which would be resumed within a reasonable time, 47.
That it was not for the Speaker of this House to give a decision upon a legal question as to whether it was competent for the House to proceed with the Wheat and Wheat Products Bill because it might be in contravention of the Federal Constitution. Whether a Bill before the House was or was not sub judice, because of a possibility of argument now submitted in this House upon this matter having an effect upon that Court, 103.
That he could not uphold a Point of Order that the Wheat and Wheat Products Bill was sub judice, because there was an appeal pending before the Privy Council in the case of James v. The Commonwealthe, and that it was therefore out of order because of a possibility of argument now submitted in this House upon this matter having an effect upon that Court, 103.
That he could not sustain the contention that the subject-matter with which the Wheat and Wheat Products Bill dealt was at present the subject of an appeal to the Privy Council, and that the Bill should therefore be regarded as being sub judice. He pointed out that this House was not prevented from passing legislation on a matter which was before the courts, even if the matter were the subject of a decision by the courts, and that if the decision were appealed from, and the appeal were pending, there would be nothing to prevent this House passing a Bill to determine the law after the law on that particular point. Not only could this House do that, but it had done it on more than one occasion, and, therefore, he could not see any reason to rule the Bill out of order on the ground stated, 104.
SPEAKER (continued):—

ROULINGS OR (continued):—

That, after careful consideration of the motion before the House respecting the re-employment by the Australian Iron & Steel Company Limited of a dismissed man, and the abolition of the practice of continually working excessive overtime, he was bound to take the view that the question of the dismissed man was substantially before the Industrial Commission. The question as to whether part of the motion relating to the working of excessive overtime would be debatable under existing circumstances did not arise. He would not bisect the motion, and was bound, therefore, to regard the motion as a whole. It was a well-established rule that this Parliament should not discuss a matter which was the subject of proceedings before a Court, and he therefore ruled the motion out of order, 154.

On a Point of Order referred to House from Committee of Ways and Means, ex.— That the Chairman was wrong in allowing the Honorable the Premier to discuss the propriety of Honorable Members of this House making statements and speeches in the House under privilege relating to the operations of the Milk Board and the possibility of subsequent abuse of such Parliamentary privilege by the publication of such speeches whilst a certain civil action was pending before the Supreme Court of New South Wales—such case being set down for hearing the next day, and in which the issue largely concerned statements made by an Honorable Member in this House, under cover of privilege. Mr. Speaker said that, notwithstanding what had transpired in Committee, he was only called upon to decide the Point of Order as referred to the House from the House, and that was whether the Chairman was right in permitting the Premier to make the comments referred to in the foregoing statement of the Government of the Order of the Day. He had not the slightest hesitation in expressing the opinion that the decision of the Chairman was quite correct, 117.

DEPUTY:

Adjourns House to Speaker’s extended absence abroad, 223.

Adjourns House during unavoidable absence of Speaker, 63, 189, 213, 217, 219.

Commission to administer Oath or Affirmation of Allegiance to Members, 180.

Directs Speaker to read Order of Day for; declares Ballot open; directs that doors be locked, and later, unlocked; inquiries at the appointed hour, whether any Member present desires to vote and declares Ballot closed, 335.

Directs Clerk to read Order of Day for; declares Ballot open; directs that doors be locked, and later, unlocked; inquiries at the appointed hour, whether any Member present desires to vote and declares Ballot closed, 335.

That, according to precedent, a Sessional Order took effect immediately it was agreed to, and in view of the provision of the Sessional Order passed at the then Sitting, "that Government Business only shall be dealt with at the Sittings of the House on Tuesday, Wednesday and Thursday of this week," a notice, under the 49th Standing Order, which he had received from the Honorable Member for Wollongong, Mr. William Davies, that he desired to move the adjournment of the House under privilege relating to the operations of the Milk Board and the possibility of subsequent abuse of such Parliamentary privilege by the publication of such speeches whilst a certain civil action was pending before the Supreme Court of New South Wales—such case being set down for hearing the next day, and in which the issue largely concerned statements made by an Honorable Member in this House, under cover of privilege. Mr. Speaker said that, notwithstanding what had transpired in Committee, he was only called upon to decide the Point of Order as referred to the House from the House, and that was whether the Chairman was right in permitting the Premier to make the comments referred to in the foregoing statement of the Government of the Order of the Day. SPEAKER (continued):—

DEPUTY (continued):—

BUILDING (continued):—

That an amendment to a motion for leave to bring in the Milk (Investigation) Bill, was out of order inasmuch as the amendment sought to dissolve the Metropolitan Milk Board and appoint a Commissioner, and was therefore subversive of the principle of the motion, which sought leave to bring in a Bill for an investigation into the administration of the Milk Act, 244.

That a motion for the adjournment of the House under Standing Order No. 49, to discuss the dismissal of a number of men from the Metal Quarries at Kiama, consequent upon the sale of the Quarries to a private company, was out of order on the ground that the matter dealt with by the motion was not specific or of recent occurrence, 257.

That although the estimated cost of constructing the railway sought to be authorised by the Sutherland to Cronulla Railway Bill exceeded £20,000, the Bill did not include the usual clause exempting the proposed work from the operation of sections 34 to 37 of the Public Works Act, he could not, having regard to previous rulings, accept the Public Works Act as governing the proceedings or limiting the power of the House. Clause 2 of the Bill before the House superseded the Commissioner for Railways to carry out the work, and although he regarded such a provision as sufficient authority and justification for the House to proceed with the Bill, and accordingly ruled the Bill in order, he pointed out that it had been usual to insert in Bills of this character a saving clause exempting the work from the provisions of sections 34, 35, 36 and 37 of the Public Works Act, and he thought it desirable that the practice should be continued, 390.
