

New South Wales

Consumer Credit (New South Wales) Amendment (Maximum Annual Percentage Rate) Bill 2005

Explanatory note

This explanatory note relates to this Bill as introduced into Parliament.

Overview of Bill

Section 11 of the *Consumer Credit (New South Wales) Act 1995* (the **Principal Act**) enables a maximum annual percentage rate to be prescribed for credit contracts covered by the *Consumer Credit (New South Wales) Code* (the **Code**). The Principal Act together with the *Consumer Credit (New South Wales) Special Provisions Regulation 2002* (the **Principal Regulation**) currently set that maximum rate at 48% and provide that the calculation for determining the maximum annual percentage rate is to include interest charges and all credit fees and charges in the case of credit contracts that do not exceed 62 days. Section 10B of the Principal Act also provides that in disclosing the annual percentage rate for contracts of that duration all charges in the nature of interest charges are to be included whether or not they are described as interest charges.

The objects of this Bill are:

- (a) to amend the Principal Act to enable the making of regulations that require the calculation for determining the maximum annual percentage rate to include interest charges and all credit fees and charges for all credit contracts covered by the Code, and

- (b) to amend the Principal Act to extend the disclosure requirements in section 10B of the Act to all credit contracts covered by the Code (these disclosure requirements currently apply only to a contract for the provision of credit limited to a total period that does not exceed 62 days), and
- (c) to amend the Principal Regulation to provide that interest charges and all credit fees and charges are to be included for the purposes of calculating the maximum annual percentage rate for all credit contracts covered by the Code (with the exception of certain temporary credit facilities provided by authorised deposit-taking institutions), and
- (d) to amend the Principal Regulation to provide for additional assumptions that are to apply when calculating the maximum annual percentage rate for continuing credit contracts.

11 Maximum annual percentage rate

(1) The regulations may prescribe a maximum annual percentage rate for a credit contract or class of credit contracts to which the *Consumer Credit (New South Wales) Code* applies.

(2) The regulations may require interest charges and all credit fees and charges under a credit contract or class of credit contracts to be included for the purpose of calculating the maximum annual percentage rate under the credit contract for the purposes of subsection (1).

(3) Division 2 of Part 2 of the *Consumer Credit (New South Wales) Code* applies in relation to such a maximum annual percentage rate as if that rate had been prescribed by that Code.

Note. The effect of subsection (3) is that a contract is void to the extent it imposes a monetary liability prohibited under subsection (1) and that any amount paid under the contract may be recovered. In addition the credit provider is guilty of an offence for entering into such a contract.

(4) Nothing in this section affects the powers of the Court under Division 3 of Part 4 of the *Consumer Credit (New South Wales) Code* in relation to a contract that is not, by reason of this section, void.

Note. Division 3 of Part 4 of the Code allows (among other things) the Court to re-open unjust transactions.
