- (2) In proceedings for the child abuse material offence concerned, evidence adduced by the prosecutor of any findings of the authorised analyst as to the nature and content of the random sample is admissible as evidence of the nature and content of the whole of the material from which the random sample was taken.

- 
- (3) Accordingly, it is open to a court to find that any type of child abuse material found by an authorised analyst to be present in a particular proportion in the random sample is present in the same proportion in the material from which the random sample was taken.
  - (4) A certificate of an authorised analyst, that certifies any of the following matters, is admissible in proceedings for a child abuse material offence as evidence of the matters certified:

- (3) Accordingly, a reference in this Division to a complainant includes a reference to a sexual offence witness.

- 
- (4) In addition, the court may make an order directing that the identity of a sexual offence witness is not to be publicly disclosed.
- (5) If the court makes such an order, the sexual offence witness is taken to be a complainant for the purposes of section 578A of the *Crimes Act 1900* and that section applies accordingly.
- Note.** Section 578A of the *Crimes Act 1900* prohibits the publication of any matter which identifies the complainant in prescribed sexual offence proceedings or any matter which is likely to lead to the identification of the complainant.
- (6) A witness is to be treated as a sexual offence witness, even if the witness has not yet given evidence in the proceedings, if the court is satisfied that the prosecutor has given notice to the accused person that the prosecutor intends to adduce evidence that the accused person committed a prescribed sexual offence against the witness.
