

New South Wales

Plantations and Reafforestation Bill 1999

Explanatory note

This explanatory note relates to this Bill as introduced into Parliament.

Overview of Bill

The objects of this Bill are:

- (a) to facilitate the reafforestation of land, and
- (b) to promote and facilitate development for timber plantations on essentially cleared land, and
- (c) to codify environmental standards, and provide a streamlined and integrated scheme, for the establishment, management and harvesting of timber and other forest plantations, and
- (d) to make provision relating to regional transport infrastructure expenditure in connection with timber plantations,

consistently with the principles of ecologically sustainable development.

The principal features of this Bill are as follows:

- (a) The Bill applies to all plantations except those established principally for the purpose of the production of food or any other farm produce other than timber. Accordingly, the Bill extends to plantations established for the purposes of timber production, reducing the salinity of land, biodiversity conservation or acquiring or trading in carbon sequestration rights.
- (b) The Bill applies to private plantation operations as well as plantation operations of the Forestry Commission in State forests and other areas.
- (c) The Bill does not apply to certain urban areas and environmentally sensitive areas.
- (d) Plantation operations (except those designated as exempt farm forestry) will be subject to an integrated system of authorisation by the Minister, with provision for that form of development to be excluded from the application of the *Environmental Planning and Assessment Act 1979* and other legislative provisions that are to be integrated into the system of authorisation. At present, only harvesting operations on timber plantations are subject to a separate regulatory system under the *Timber Plantations (Harvest Guarantee) Act 1995*.
- (e) The Bill exempts farm forestry from the requirement for authorisation under the Bill and from the application of the *Environmental Planning and Assessment Act 1979*. Plantation operations on a single farm that do not exceed 30 hectares will qualify for exemption so long as any clearing involved is exempt from the requirement for consent under the *Native Vegetation Conservation Act 1997*.
- (f) A Code is to be made by regulation for the purposes of the proposed integrated system of authorisation. The Code will codify environmental standards that would otherwise apply under the legislative provisions being replaced by the Bill. In particular, the Code is to prescribe standards for complying plantations that can be authorised without further assessment.
- (g) The Bill preserves existing requirements for the preparation and consideration of a species impact statement for authorisation of a plantation (particularly in connection with any clearing required to establish the plantation).
- (h) The Bill repeals the *Timber Plantations (Harvest Guarantee) Act 1995* and incorporates the timber harvesting guarantee provisions of that Act (in particular, the exclusion of legislative provisions that might prevent or interfere with the ultimate harvesting of timber and the payment of compensation for action taken to protect any special or unique wildlife values that might be found in a timber plantation after it is established).

- (i) The Bill provides, in connection with regional transport infrastructure expenditure for timber plantations, a system of contributions to be levied on the owners of timber plantations at the time the plantations are authorised and for payment to be delayed until the expenditure is required in connection with harvesting operations. Regional committees (that include local government representatives) are to be established to prepare contribution plans for that purpose and exercise related functions. Contributions are to be paid to the relevant local authorities in the region.

Outline of provisions

Part 1 Preliminary

Clause 1 sets out the name (also called the short title) of the proposed Act.

Clause 2 provides for the commencement of the proposed Act on a day or days to be appointed by proclamation.

Clause 3 sets out the objects of the proposed Act.

Clause 4 defines expressions used in the proposed Act. In particular, the clause defines *plantation operations* to include the clearing of land for planting and other establishment operations for a proposed plantation, maintenance or other management operations (which may include a limited amount of harvesting permitted by the proposed Code) and timber harvesting operations.

Clause 5 defines *plantation* for the purposes of the proposed Act.

Clause 6 defines *exempt farm forestry* for the purposes of the proposed Act.

Clause 7 excludes certain urban areas (described in Schedule 1) and certain environmentally sensitive areas (described in that clause and in Schedule 1) from the operation of the proposed Act.

Part 2 Authorisation of plantations

This Part (**clauses 8–24**) deals with the integrated system for the authorisation of plantations.

The Part provides that plantations are required to be authorised. Exempt farm forestry, plantation operations on existing plantations and ancillary plantation operations are not required to be authorised unless the owner chooses to seek authorisation. Plantations may be authorised as timber plantations (on which harvesting is permitted) or as non-timber plantations.

The Minister is the authority authorised to grant authorisations of plantations or proposed plantations. The Code will provide environmental and other standards applicable for expedited authorisation of complying plantations, so long as a species impact statement is not required to be prepared in connection with an application for authorisation.

The Part includes related and ancillary provisions, such as conditions of authorisation, cancellation of authorisation and appeals to the Land and Environment Court.

Part 3 Plantations and Reafforestation Code

Part 3 (**clauses 25–31**) provides for the making, by regulation, of a Code for the purposes of the proposed Act. The Code is to contain provisions that codify environmental standards that would otherwise apply under the legislative provisions being replaced by the proposed Act. In particular, the Code is to prescribe standards for complying plantations that can be authorised without further assessment. Clause 27 sets out the matters to be covered by the Code.

Part 4 Protection of unique or special wildlife values of authorised plantations

Part 4 (**clauses 32–38**) transfers to the proposed Act provisions contained in the Code made under the *Timber Plantations (Harvest Guarantee) Act 1995* to protect any special or unique wildlife values of land that is part of an authorised plantation. In the event of a likely adverse impact on such values by plantation operations, the Minister is required to arrange for an evaluation and report. Plantation operations may be delayed, restricted or precluded altogether by the Minister in order to protect any such wildlife values. However, the owner of a timber plantation is entitled to compensation for any direct financial loss suffered by the owner as a result of any such action of the Minister.

Part 5 Financial contribution for transport infrastructure expenditure for timber plantations

Part 5 (**clauses 39–46**) makes provision on a regional basis for contributions by the owners of authorised timber plantations to meet the costs of regional transport infrastructure expenditure associated with timber plantation operations. The obligation to make the contribution will be imposed at the time a plantation is authorised but payment will be delayed until the expenditure is required in connection with harvesting operations. Regional committees (that include local government representatives) are to be established to prepare contribution plans for that purpose and exercise related functions. Contributions are to be paid to the relevant local authorities in the region.

Part 6 Application of other legislation

Part 6 (**clauses 47–56**) deals with the application of other legislation in connection with plantation operations. The Part excludes the application of the *Environmental Planning and Assessment Act 1979* in respect of authorised plantations and exempt farm forestry. In addition, the Part ensures that other relevant legislation that is to be integrated into the authorisation system cannot prevent or interfere with plantation operations on authorised plantations (eg threatened species conservation legislation, heritage legislation and soil conservation legislation).

The requirement for certain authorities that may only be applicable in the case of some plantations are not excluded (eg licences under the *Water Act 1912*, environment protection licences under the *Protection of the Environment Operations Act 1997*, excavation permits under section 141 of the *Heritage Act 1977* and authorities in connection with Aboriginal relics or places under the *National Parks and Wildlife Act 1974*).

Part 7 Enforcement

Part 7 (**clauses 57–64**) contains enforcement provisions with respect to the requirements of the proposed Act, the conditions of authorisations of plantations and the requirements of the Code. In particular, the Minister may bring civil enforcement proceedings in the Land and Environment Court, issue stop work orders and issue directions for remedial work. Provision is made under the Part for the appointment of officers to investigate compliance and to issue penalty notices for alleged offences, and for the bringing of criminal proceedings.

Part 8 Miscellaneous

Part 8 (**clauses 65–74**) contains miscellaneous provisions, including provisions to enable the Minister to delegate his or her functions under the proposed Act, provisions for the issue of certificates relating to authorisations and financial contributions due under the proposed Act and provisions for the repeal of the *Timber Plantations (Harvest Guarantee) Act 1995* and the Code under that Act.

Schedule 1 Areas excluded from Act

The Schedule describes urban areas and certain areas under the *Environmental Planning and Assessment Act 1979* that are excluded from the Act.

Schedule 2 Amendment of other Acts

The Schedule contains consequential amendments to other Acts.

Schedule 3 Savings, transitional and other provisions

The Schedule contains savings and transitional provisions, including provisions to continue existing accredited timber plantations under the *Timber Plantations (Harvest Guarantee) Act 1995* as authorised plantations under the proposed Act.

19
20

4 Definitions 21

(1) In this Act: 22

authorised plantation means a plantation or proposed plantation authorised for the time being under this Act. 23
24

authorised timber plantation means an authorised plantation that is authorised under this Act as a timber plantation. 25
26

Code means the Plantations and Reafforestation Code made under Part 3 and in force for the time being. 27
28

complying plantation—see section 13. 29

Crown-timber lands has the same meaning as in the *Forestry Act 1916*. 30
31

<i>establishment operations</i> means (subject to subsection (2)) activities carried out for the purpose of establishing a plantation, for example, the clearing of land, the use of pesticides, herbicides and fertilisers and the provision of access roads in establishing a plantation, and the planting of trees or shrubs.	1 2 3 4 5
<i>exempt farm forestry</i> —see section 6.	6
<i>harvesting operations</i> means (subject to subsection (2)) the cutting and removal of timber from a plantation for the purpose of timber production, including the provision of access roads after establishment of a plantation to enable or assist the cutting and removal of timber or the carrying out of such other activities as are necessary for the efficient cutting and removal of timber.	7 8 9 10 11 12
<i>management operations</i> means (subject to subsection (2)) the carrying out of activities relating to the on-going management of a plantation (for example, silvicultural thinning, weed control, grazing, the maintenance of access roads and similar maintenance operations). Management operations includes any harvesting of timber that does not exceed the maximum amount of harvesting permitted by the Code for management operations.	13 14 15 16 17 18 19
<i>manager</i> of a plantation or proposed plantation means the person in charge of plantation operations on the plantation or proposed plantation.	20 21 22
<i>owner</i> of a plantation or proposed plantation includes:	23
(a) an owner or lessee of the land comprising the plantation or proposed plantation, or	24 25
(b) in the case of a plantation or proposed plantation that is a State forest or other Crown-timber lands under the management of the Forestry Commission—the Forestry Commission, or	26 27 28
(c) a person who has a forestry right (within the meaning of section 87A of the <i>Conveyancing Act 1919</i>) in relation to the plantation or proposed plantation.	29 30 31
<i>plantation</i> —see section 5.	32
<i>plantation operations</i> means any or all of the following:	33
(a) establishment operations,	34
(b) management operations,	35
(c) harvesting operations.	36

planted means planted in the ground, and does not include planted in a pot or other container. 1
2

tree includes a sapling, but does not include a shrub. 3

unique or special wildlife values—see section 32. 4

(2) For the purposes of this Act: 5

(a) the Code may declare that particular operations relating to plantations are or are not establishment, management or harvesting operations, and 6
7
8

(b) except as provided by paragraph (a)—plantation operations do not include the demolition or erection of buildings (within the meaning of the *Environmental Planning and Assessment Act 1979*), or the building of dams, weirs or reservoirs. 9
10
11
12

5 Definition of plantation 13

(1) In this Act, *plantation* means an area of land on which the predominant number of trees or shrubs forming, or expected to form, the canopy are trees or shrubs that have been planted (whether by sowing seed or otherwise): 14
15
16
17

(a) for the purpose of timber production, or 18

(b) for the protection of the environment (including for the purpose of reducing the salinity of the land or otherwise repairing or improving the land, for the purpose of biodiversity conservation or for the purpose of acquiring or trading in carbon sequestration rights), or 19
20
21
22
23

(c) for any other purpose, 24

but not principally for the purpose of the production of food or any other farm produce other than timber. 25
26

(2) To avoid doubt, a natural forest is not a plantation for the purposes of this Act. However, an area is not a natural forest merely because it contains some native trees or shrubs that have not been planted. 27
28
29

(3) The Code may specify the distance between planted trees or shrubs that constitute a single canopy and plantation for the purposes of this Act. 30
31
32

(4) A plantation can be a privately owned area of land, or it can be a State forest or other Crown-timber lands, or any other land. 33
34

-
- (5) A plantation can comprise more than one area of land if those areas are under the same ownership or management and the Minister determines that those areas may comprise a single plantation for the purposes of this Act. 1
2
3
4
- 6 Exempt farm forestry** 5
- (1) For the purposes of this Act, *exempt farm forestry* is the carrying out of plantation operations on a farm that complies with each of the following: 6
7
8
- (a) the total area of the farm in which plantation operations of any kind are carried out does not exceed 30 hectares at any one time, 9
10
11
- (b) any clearing of native vegetation or of protected land (within the meaning of the *Native Vegetation Conservation Act 1997*) is exempt from any requirement under Part 2 of that Act for development consent, 12
13
14
15
- (c) any harvesting of timber does not exceed the maximum amount of harvesting permitted by the Code for exempt farm forestry. 16
17
- (2) A *farm* is an area of land (or contiguous areas of land) owned by the same person or persons. However, the Code may make provision as to areas of land that are or are not to be regarded as contiguous or that are or are not to be regarded as owned by the same person or persons. 18
19
20
21
- Note.** Section 9 (2) provides that exempt farm forestry may be authorised, but is not required to be authorised, under this Act. Part 6 provides that exempt farm forestry is not subject to the *Environmental Planning and Assessment Act 1979*. 22
23
24
- 7 Land excluded from operation of Act** 25
- (1) This Act does not apply to the following land: 26
- (a) land that is within a local government area (or part of a local government area) specified in Part 1 of Schedule 1, 27
28
- (b) land described in Part 2 of Schedule 1 that is subject to an environmental planning instrument (within the meaning of the *Environmental Planning and Assessment Act 1979*), 29

33
34
- (d) land that is declared as wilderness area under the *Wilderness Act 1987* or the *National Parks and Wildlife Act 1974*, 35

Part 2 Authorisation of plantations	1
8 Purposes of authorisation	2
The purposes of the authorisation of plantations under this Act are:	3
(a) to provide a streamlined and integrated process for obtaining approval to establish timber and other forest plantations, and	4
(b) to guarantee harvesting operations on timber plantations, and	5
(c) to apply codified environmental standards to establishment, management and harvesting operations on plantations.	6
Note. See Part 6 which provides that authorised plantations are not subject to the <i>Environmental Planning and Assessment Act 1979</i> and certain other Acts.	7
	8
9 Offence with respect to unauthorised plantations	9
(1) A plantation or proposed plantation is required to be authorised under this Act if plantation operations are carried out on it after the commencement of this section, except if the plantation operations are:	10
(a) exempt farm forestry, or	11
(b) plantation operations on an existing plantation, or	12
(c) ancillary plantation operations.	13
(2) Nothing in this Act prevents a plantation or proposed plantation that is not required to be authorised from being authorised under this Act.	14
(3) A person who carries out, or causes or permits the carrying out of, plantation operations on a plantation or proposed plantation required to be authorised under this Act is guilty of an offence if:	15
(a) the plantation or proposed plantation is not authorised under this Act at the time the operations are carried out, or	16
(b) the plantation or proposed plantation is so authorised but the plantation operations carried out are not of a kind authorised under section 10 by the class of the authorisation.	17
Maximum penalty: 1,000 penalty units and, in addition, 100 penalty units for each day the offence continues.	18
	19

(4) In this section:	1
<i>ancillary plantation operations</i> means plantation operations that are ancillary to the carrying out of development in accordance with development consent under Part 4, or in accordance with the requirements of Part 5, of the <i>Environmental Planning and Assessment Act 1979</i> (not being development that comprises mainly plantation operations).	2 3 4 5 6 7
<i>existing plantation</i> means a plantation established before the commencement of this section in accordance with the requirements of the <i>Environmental Planning and Assessment Act 1979</i> , any law dealing with native vegetation conservation and any other relevant law:	8 9 10 11
(a) including a proposed plantation that was cleared for planting before that commencement in accordance with those requirements, but	12 13 14
(b) not including a plantation that is replanted after the commencement of this section (being a replanting that would, under the Code, require further authorisation if the plantation had been authorised under this Act).	15 16 17 18
10 Classes of authorised plantations	19
(1) The following 2 classes of plantations may be authorised under this Act:	20 21
(a) Timber plantations,	22
(b) Plantations (other than timber plantations).	23
(2) The Code may divide those classes of plantations into separate classes of plantations and prescribe the kind of plantation operations authorised under each such class of plantation.	24 25 26
(3) Harvesting operations (other than any such operations permitted by this Act as part of management operations) are not authorised under this Act on an authorised plantation unless it is an authorised timber plantation.	27 28 29 30
11 Application for authorisation of plantation or proposed plantation	31
(1) An application for the authorisation of the plantation or proposed plantation under this Act may be made to the Minister:	32 33
(a) by an owner of the plantation or proposed plantation, or	34

(b)	by any other person with the consent in writing of an owner of the plantation or proposed plantation.	1 2
(2)	An application for authorisation must:	3
(a)	be in such form as the Minister may determine, and	4
(b)	be accompanied by such reasonable administrative fee to cover the costs of dealing with the application as the Minister may determine, and	5 6 7
(c)	identify the area or areas of land comprising the plantation or proposed plantation by way of a map or other suitable means, and	8 9 10
(d)	state the class of plantation for which authorisation is sought, and	11 12
(e)	be accompanied by such information relating to the plantation or proposed plantation as is required by this Part or by the Minister.	13 14 15
(3)	The Minister may require the applicant to provide further information in order to determine the application.	16 17
(4)	Any such information or further information may relate to evidence of compliance with the requirements of any other law (including a law of the Commonwealth) or evidence that any lease or other tenure of the land concerned permits plantation operations of the kind to which the application relates.	18 19 20 21 22
(5)	An applicant may, with the approval of the Minister, amend the application before it is determined.	23 24
(6)	An application for authorisation may be made for the purpose of changing the class of an authorised plantation.	25 26
12	Determination of applications for authorisation	27
(1)	The Minister is (subject to this Part) to determine an application for authorisation under this Act:	28 29
(a)	by granting the application and authorising the plantation or proposed plantation concerned, or	30 31
(b)	by refusing the application.	32
	Note. See section 20 for the imposition of conditions of authorisations.	33
(2)	Written notice of the Minister's decision is to be given to the applicant as soon as practicable after the decision is made.	34 35

(3) The regulations may make provision for or with respect to the review by the Minister of any determination of an application for authorisation under this Act.	1 2 3
13 Provisions relating to complying plantations	4
(1) For the purposes of this Act, a <i>complying plantation</i> is a plantation:	5
(a) whose establishment complies with the relevant complying development standards of the Code, and	6 7
(b) that is not a plantation in respect of which a species impact statement is required to be provided by this Part.	8 9
(2) The applicant for authorisation of a complying plantation is required to provide the Minister with a statement that demonstrates compliance or proposed compliance with all the relevant complying development standards of the Code.	10 11 12 13
(3) The Minister is required to grant the application if the Minister determines that it is a complying plantation. The authorisation is to be identified as an authorisation for a complying plantation.	14 15 16
(4) It is a condition of any such authorisation that establishment operations comply with the relevant development standards of the Code.	17 18
(5) However, the Minister may decide to deal with an application for authorisation of a complying plantation under section 14 because of any special circumstance that requires consideration under that section.	19 20 21
(6) An authorised plantation does not require further authorisation under this Act merely because it ceases to be a complying plantation as a result of any change to the complying development standards of the Code.	22 23 24 25
14 Provisions relating to non-complying plantations	26
(1) This section applies to an application for authorisation under this Act that is not dealt with under section 13.	27 28
(2) The applicant for authorisation is required to provide the Minister with:	29
(a) a statement that demonstrates the extent of any compliance or proposed compliance with the relevant complying development standards of the Code, and	30 31 32
(b) a statement of the environmental effects of those plantation operations that do not or will not comply with those standards,	33 34

15	Provisions relating to threatened species conservation	1
(1)	This section applies if the Minister makes a determination that a species impact statement is required for the purposes of an application for authorisation under this Act. This section applies even if the plantation or proposed plantation the subject of the application is (but for that requirement) a complying plantation.	2 3 4 5 6
(2)	The Minister is to make such a determination if the Minister is of the opinion that a species impact statement would be required to accompany the application if it were a development application under Part 4 of the <i>Environmental Planning and Assessment Act 1979</i> for the plantation or proposed plantation.	7 8 9 10 11
(3)	The applicant for authorisation is required to provide the Minister with a relevant species impact statement.	12 13
(4)	The Minister may not authorise the plantation or proposed plantation without the concurrence of:	14 15
(a)	the Director-General of National Parks and Wildlife, except in respect to a matter referred to in paragraph (b), or	16 17
(b)	if the matter concerns critical habitat of fish or marine vegetation, or threatened species, populations or ecological communities of fish or marine vegetation, or their habitats—the Director of NSW Fisheries.	18 19 20 21
(5)	Despite subsection (4):	22
(a)	the Minister administering the <i>National Parks and Wildlife Act 1974</i> may elect to act in the place of the Director-General of National Parks and Wildlife for the purposes of that subsection, and	23 24 25 26
(b)	the Minister administering the <i>Fisheries Management Act 1994</i> may elect to act in the place of the Director of NSW Fisheries for the purposes of that subsection.	27 28 29
	If any such Minister so elects, that Minister must supply the Minister to whom the application for authorisation was made with any recommendations made by the Director-General of National Parks and Wildlife or the Director of NSW Fisheries with respect to the matter and with his or her reasons for not accepting any of those recommendations.	30 31 32 33 34 35
(6)	In determining whether or not concurrence should be granted under subsection (4), the following matters must be taken into consideration:	36 37

-
- | | | |
|-----|---|----------------------------------|
| (a) | any species impact statement provided by the applicant for authorisation, | 1
2 |
| (b) | any assessment report prepared on behalf of the Minister, | 3 |
| (c) | any submissions or objections received concerning the application for authorisation, | 4
5 |
| (d) | any relevant recovery plan or threat abatement plan, | 6 |
| (e) | whether the plantation operations proposed are likely to reduce the long-term viability of the species, population or ecological community in the region, | 7
8
9 |
| (f) | whether the plantation operations proposed are likely to accelerate the extinction of the species, population or ecological community or place it at risk of extinction, | 10
11
12 |
| (g) | the principles of ecologically sustainable development (as described in section 6 (2) of the <i>Protection of the Environment Administration Act 1991</i>), | 13
14
15 |
| (h) | the likely social and economic consequences of granting or refusing concurrence. | 16
17 |
| (7) | Concurrence under subsection (4) may be granted subject to conditions of the kind to which the authorisation of the plantation may be made subject under this Act. Any authorisation of the plantation under this Act must be made subject those conditions. | 18
19
20
21 |
| (8) | A species impact statement and any decision with respect to the application for authorisation need not take account of any relevant listing of a species, population or ecological community after the application was made (other than a provisional listing). | 22
23
24
25 |
| (9) | A species impact statement is not required to be provided (despite anything to the contrary in this section) if authorisation for a timber plantation is sought for an existing plantation (within the meaning of section 9). However, if a species impact statement would be required (but for this subsection), the plantation cannot be a complying plantation and the Minister may: | 26
27
28
29
30
31 |
| (a) | refuse the application if the plantation operations sought to be authorised might harm any unique or special wildlife values of the land concerned, or | 32
33
34 |
| (b) | impose conditions on the grant of any authorisation for the purpose of protecting those values in connection with any harvesting or other plantation operations. | 35

or within such longer period as is agreed to by the applicant. 4
- (2) If an application is not determined within that period, the Minister is taken, for the purpose only of any appeal under section 24, to have refused the application. This subsection does not prevent the Minister from subsequently granting the application. 5

(2)	An authorisation under this Act for a timber plantation may also be granted subject to a condition under section 42 with respect to financial contributions to transport infrastructure expenditure. To avoid doubt, any such condition may be imposed if the authorisation is granted as a result of a change in the class of an authorised plantation.	1 2 3 4 5
(3)	If establishment operations on a proposed plantation were subject (under this Act or any other law) to any area of habitat being reserved for the protection of native plants, animals or fish, the authorisation of the plantation is subject to the condition that any such habitat must not be damaged by any harvesting or other plantation operations.	6 7 8 9 10

	24
	25
	26
	27
34 Evaluation of impact on unique or special wildlife values	28
(1) As soon as the Minister is notified under this Part, or otherwise becomes aware, of the impact or likely impact of plantation operations on unique or special wildlife values of any land within an authorised plantation, the Minister is to arrange:	29
	30

(5)	Compensation is to be paid out of money available to the Minister and may be paid as a lump sum or in periodic amounts.	21 22
(6)	Compensation is not payable unless the direction giving rise to the compensation is complied with. Compensation is repayable if the direction is not complied with after compensation has been paid (and may be recovered as a debt).	23 24 25 26
37	Procedure if parties fail to agree on compensation	27
(1)	If the Minister and the owner or manager of an authorised timber plantation fail to agree on an amount of compensation payable under this Part, the determination of the amount of compensation is to be made by:	28 29 30 31
(a)	an independent arbitrator appointed by the parties, or	32
(b)	if they cannot agree, an independent arbitrator appointed in accordance with the Code.	33 34

Clause 41 Plantations and Reafforestation Bill 1999

Part 5 Financial contribution for transport infrastructure expenditure for timber plantations

	Note. Section 20 provides that such a condition cannot be varied after it is imposed except at the request of the owner of the authorised plantation concerned.	16 17
(2)	The rate or amount of the financial contribution and the time or times at which the contribution is to be made is to be determined by the Minister in accordance with the relevant contribution plan in force at the time the timber plantation is authorised under this Act.	18 19 20 21
(3)	The Minister is not to impose a requirement for a financial contribution if the Minister is satisfied that the contribution plan exempts the plantation concerned.	22 23 24
(4)	In the case of an existing plantation (within the meaning of section 9), the Minister may not impose a financial contribution in respect of the harvesting of timber from trees planted before the commencement of that section.	25 26 27 28

(1) A financial contribution that is required to be made by a condition imposed under this Part is payable by the owner of the authorised timber plantation at the time the contribution becomes payable or at any later time (whether or not the person was the owner of the plantation at the time the condition was imposed).	6 7 8 9 10
(2) In the case of land owned by the Crown (other than the Forestry Commission), the Crown is not liable to pay the financial contribution if a lessee or other person is also an owner of the authorised timber plantation for the purposes of this Act.	11 12 13 14
(3) If there are 2 or more owners of an authorised timber plantation liable to pay a financial contribution, they are jointly and severally liable to pay the financial contribution.	15 16 17
44 Payment of financial contributions	18
(1) Payments of financial contributions are to be made to a relevant local authority or other body designated by the Minister.	19 20
(2) The amount of any financial contribution that is not paid by the due date may be recovered as a debt by the local authority or other body to which it is required to be paid from the person liable to pay it (together with interest on that amount since the due date at the rate at which interest accrues on unpaid judgements of the Supreme Court).	21 22 23 24 25
(3) The Minister may, as a condition of the granting of an application for authorisation under this Act, require the applicant to secure the payment of a financial contribution (by bank guarantee or otherwise) when it becomes due.	26 27 28 29

(2)	The Minister may, at the request of the local authority to whom the financial contribution is payable, apply to the Registrar-General for registration of the notice in relation to any land owned by a person that comprises all or any of the authorised timber plantation to which the notice relates.	19 20 21 22 23
(3)	An application under this section must define, in the form and manner required by the Registrar-General, the land to which it relates.	24 25
(4)	The Registrar-General must, on application under this section and lodgment of the notice, register the notice in relation to the land in such manner as the Registrar-General thinks fit.	26 27 28

(6)	There is created by force of this section, on the registration of the notice, a charge on the land in relation to which the notice is registered to secure the payment of the financial contribution set out in the notice.	31 32 33
