LEGISLATIVE COUNCIL

Electricity Supply Amendment (Advanced Meters) Bill 2016

First print

Proposed amendments

No. 1 **Customers with non-market generators not to be billed based on interval metering data**

Page 3, Schedule 1. Insert before line 2:

[1] Section 15B

Insert after section 15A:

15B Customers with non-market generators to have net billing

Despite anything to the contrary in the *National Energy Retail Law (NSW)*, a customer who is a non-market generator (within the meaning of the *National Electricity Rules*) is, whether or not the customer has a type 4 metering installation (referred to in Chapter 7 of the *National Electricity Rules*), to be billed for electricity usage on the basis of the difference between electricity consumed and electricity generated by the customer during the relevant billing period.

No. 2 **Contestable network services**

Page 3, Schedule 1 [4], proposed section 31A (2), lines 17–20. Omit all words on those lines.

No. 3 **Contestable network services**

Page 3, Schedule 1 [4], proposed section 31A (5). Insert after line 31:

(b) the installation, maintenance or replacement of an electricity meter, and

No. 4 **Sealing of electrical installations**

Page 3, Schedule 1 [5], lines 34 and 35. Omit all words on those lines.

No. 5 **Fees for electricity meters**

Page 8, Schedule 2. Insert after line 18:

[5] Section 32A

Insert after section 32:

32A Persons installing electricity meters

Despite anything to the contrary in the *National Energy Retail Law (NSW)*, a person who carries out an electrical installation that includes

the installation or replacement of a electricity meter that is a type 4 metering installation (referred to in Chapter 7 of the *National Electricity Rules*) must not charge any fee for or in relation to the installation or replacement of the electricity meter.
