

New South Wales

Building Amendment (Mechanical Services and Medical Gas Work) Bill 2020

Explanatory note

This explanatory note relates to this Bill as introduced into Parliament.

Overview of Bill

The object of this Bill is to provide for the licensing of contractors, and the certifying of supervisors and tradespersons, who carry out mechanical services work including medical gas systems work.

Outline of provisions

Clause 1 sets out the name (also called the short title) of the proposed Act.

Clause 2 provides for the commencement of the proposed Act on the day that is 6 months after the date of assent to the proposed Act (other than Schedule 1[2] which is to commence 2 years after that date of assent).

Schedule 1 gives effect to the object set out in the Overview. Specifically, **Schedule 1[4]** amends a definition to provide that mechanical services work is **specialist work** for the purposes of the *Home Building Act 1989* (the **HB Act**). Part 2 of the HB Act, amongst other things, provides that individuals, partnerships and corporations who contract to do specialist work must be licensed under that Act. Section 3D of the HB Act provides that, in its application to specialist work, the HB Act is not limited to specialist work that is residential building work and extends to other specialist work (for example, commercial and industrial specialist work).

Schedule 1[3] inserts a definition of *mechanical services work* into the HB Act. It includes work that is the construction, installation, replacement, repair, alteration, maintenance, testing or commissioning of any fixed component used in a reticulation system for the supply or removal of medical gases from the gas source to the wall outlet. The term *medical gases* is also defined.

Schedule 1[1] makes it an offence for an individual to do any mechanical services work, except—

- (a) as a qualified supervisor (meaning the holder of an endorsed contractor licence, or a supervisor certificate, authorising its holder to do mechanical services work), or
- (b) as the holder of a tradesperson certificate authorising its holder to do mechanical services work under supervision, but only if the work is done under the supervision and in accordance with the directions, if any, of a qualified supervisor.

Certain exceptions for other supervised work is also provided for.

The offence will carry a maximum penalty of 1,000 penalty units in the case of a corporation and 200 penalty units in any other case.

Schedule 1[2] inserts proposed section 33E into the HB Act to provide that, subject to certain exceptions, a supervisor or tradesperson certificate must not be issued, and a contractor licence must not be endorsed to show that it is equivalent to a supervisor or tradesperson certificate, that authorises its holder to do mechanical services work under that Act unless the applicant—

- (a) has successfully completed the Certificate III in Plumbing (Mechanical Services) course, being part of the Construction, Plumbing and Services Training Package, which includes the unit of competency known as "Install medical gas pipeline systems", or any course with a unit of competency that replaces that course and unit, and
- (b) has—
 - (i) successfully completed an apprenticeship under the supervision of the holder of an endorsed contractor licence, or a supervisor certificate, authorising its holder to do mechanical services work, or
 - (ii) had at least 4 years' experience in mechanical services work that has included work relating to medical gas of a kind and nature that the Secretary considers would enable the applicant to do, or to supervise, the work for which the certificate or licence is required.

New South Wales

Building Amendment (Mechanical Services and Medical Gas Work) Bill 2020

No , 2020

A Bill for

An Act to amend the *Home Building Act 1989* to provide for the licensing of contractors, and the certifying of supervisors and tradespersons, who carry out mechanical services work including medical gas systems work; and for related purposes.

The	Legisl	ature of New South Wales enacts—	1		
1	Name of Act				
		This Act is the Building Amendment (Mechanical Services and Medical Gas Work) Act 2020.	3 4		
2	Commencement				
	(1)	This Act commences on the day that is 6 months after the date of assent to this Act.	6		
	(2)	Despite subsection (1), Schedule 1[2] commences on the day that is 2 years after the date of assent to this Act.	7		

Schedule 1		le 1	Amendment of Home Building Act 1989 No 147	1				
[1]	Section 15A							
	Inser	rt after	section 15—	3				
	15A	Unqualified mechanical services work						
		(1)	An individual must not do any mechanical services work (whether or not it is also residential building work), except—	5 6				
			(a) as a qualified supervisor in respect of that work, or	7				
			(b) as the holder of a tradesperson certificate authorising its holder to do that work under supervision, but only if the work is done under the supervision and in accordance with the directions, if any, of a qualified supervisor.	8 9 10 11				
			Maximum penalty—1,000 penalty units in the case of a corporation and 200 penalty units in any other case.	12 13				
		(2)	Despite subsection (1), an apprentice or trainee may do mechanical services work even though the apprentice or trainee is not a qualified supervisor or holder, but only if a qualified supervisor—	14 15 16				
			(a) is present at all times where the work is being done by the apprentice or trainee, and	17 18				
			(b) is available to be consulted by, and to give directions relating to how the work is to be done to, the apprentice or trainee.	19 20				
		(3)	A qualified supervisor who is supervising any mechanical services work being done by an individual as referred to in subsection (1)(b) must—	21 22				
			(a) give directions that are adequate to enable the work to be done correctly by the individual performing it, and	23 24				
			(b) personally ensure that the work is correctly done. Maximum penalty—1,000 penalty units in the case of a corporation and 200	25 26				
			penalty units in any other case.	27				
		(4)	A qualified supervisor who is supervising any mechanical services work being done by an apprentice or trainee as referred to in subsection (2) must—	28 29				
			(a) give directions that are adequate to enable the work to be done correctly by the apprentice or trainee performing it (which, unless the qualified supervisor considers it unnecessary, must include directions requiring the apprentice or trainee to advise in detail on progress with the work), and	30 31 32 33 34				
			(b) be present when the work is being done and be available to be consulted by, and to give directions relating to how the work is to be done to, the apprentice or trainee, and	35 36 37				
			(c) personally ensure that the work is correctly done.	38				
			Maximum penalty—1,000 penalty units in the case of a corporation and 200 penalty units in any other case.	39 40				
		(5)	This section applies to an individual acting in the course of his or her employment by the Crown.	41 42				
		(6)	In this section—	43				
			<i>apprentice</i> has the same meaning as in the <i>Apprenticeship and Traineeship Act</i> 2001.	44 45				

			of an	endo	<i>upervisor</i> , in respect of mechanical services work, means the holder rsed contractor licence, or a supervisor certificate, authorising its o that work.	1 2 3		
			train 2001		the same meaning as in the Apprenticeship and Traineeship Act	4 5		
[2]	Sect	ion 33	E			6		
	Insert after section 33D—							
	:	Addi supe	Additional requirements for obtaining endorsed contractor licences and supervisor and tradesperson certificates relating to mechanical services work					
		(1)	licen trade	ce mu sperso	or or tradesperson certificate must not be issued, and a contractor st not be endorsed to show that it is equivalent to a supervisor or on certificate, that authorises its holder to do mechanical services s the Secretary is satisfied that the applicant—	10 11 12 13		
			(a)	Serv Train "Inst	successfully completed the Certificate III in Plumbing (Mechanical ices) course, being part of the Construction, Plumbing and Services ning Package, which includes the unit of competency known as call medical gas pipeline systems", or any course with a unit of petency that replaces that course and unit, and	14 15 16 17 18		
			(b)	has-	- -	19		
				(i)	successfully completed an apprenticeship (within the meaning of the <i>Apprenticeship and Traineeship Act 2001</i>) under the supervision of the holder of an endorsed contractor licence, or a supervisor certificate, authorising its holder to do mechanical services work, or	20 21 22 23 24		
				(ii)	had at least 4 years' experience in mechanical services work that has included work relating to medical gas of a kind and nature that the Secretary considers would enable the applicant to do, or to supervise, the work for which the certificate or endorsed contractor licence is required.	25 26 27 28 29		
		(2)	certif super	ficate, rvisor	osection (1), the Secretary may issue a supervisor or tradesperson or endorse a contractor licence to show that it is equivalent to a or tradesperson certificate, that authorises its holder to do services work, if the Secretary is satisfied that the applicant—	30 31 32 33		
			(a)	in m gas o appli	the day that this section commenced, had at least 4 years' experience echanical services work that has included work relating to medical of a kind and nature that the Secretary considers would enable the icant to do, or to supervise, the work for which the certificate or irrsed contractor licence is required, and	34 35 36 37 38		
			(b)	knov Plun	within the preceding 2 years, completed the unit of competency vn as "Install medical gas pipeline systems" in the Construction, abing and Services Training Package, or any unit of competency replaces that unit, and	39 40 41 42		
			(c)	tests	any other qualifications or has passed the examinations or practical, or both, that the Secretary determines to be necessary to enable the icant to do, or to supervise, mechanical services work.	43 44 45		
[3]	Sche	edule 1	Defin	nitions	and other interpretative provisions	46		
	Inser	t in alp	habeti	ical or	der in clause 1(1)—	47		
			mech	nanica	d services work means—	48		

(a)	the construction, installation, replacement, repair, alteration, maintenance, testing or commissioning of a mechanical heating, cooling or ventilation system in a building, which is associated with the heating, cooling or ventilation of that building, and includes the following—	1 2 3 4 5
	(i) any valve, regulator, register, pipe, duct, flue, tank, heating or cooling pipe or surface, boiler, burner, solid fuel heater, coil or other item that is used in the system,	6 7 8
	(ii) in the case of a cooling tower, any water pipe, valve, pump, automated dosing device or automated bleeding device or any other mechanical component that affects the cooling tower's cooling water flow rate or wastewater disposal,	9 10 11 12
	(iii) roof sheeting and roof flashing that is necessary for the purpose of any work described in this paragraph or paragraphs (b)–(d), and	13 14 15
(b)	the construction, installation, replacement, repair, alteration, maintenance, testing or commissioning of any fixed component used in a reticulation system for the supply or removal of medical gases from the gas source to the wall outlet, and	16 17 18 19
(c)	the installation, commissioning and any incidental design work that is associated with the installation and commissioning of—	20 21
	(i) any part of a single head split system, or	22
	(ii) a ceiling cassette system, or	23
	(iii) an add-on condenser unit for a ducted system,	24
	that is associated with the heating and cooling of a building, and	25
(d)	any design work that is incidental to, or associated with, any work described in paragraphs (a) and (b),	26 27
but d	loes not include the following—	28
(e)	gasfitting work,	29
(f)	any work on a cooling tower drift eliminator,	30
(g)	any treatment of cooling or heating water,	31
(h)	any cleaning of a cooling tower,	32
(i)	disassembly or reassembly of a flue terminal for the purposes of cleaning a solid fuel heater,	33 34
(j)	the connection or disconnection of a system referred to in paragraphs (a)–(d) from a water supply other than disconnection of the system from a water supply at an isolating valve adjacent to a mechanical component of that system.	35 36 37 38
for n	ical gases means any gas or mixture of gases or other substance or process nedical use that is supplied to, removed from or conducted at a hospital (or other place where medical procedures are carried out), by way of a line reticulation system and includes the following—	39 40 41 42
(a)	oxygen,	43
(b)	helium,	44
(c)	nitrous oxide,	45
(d)	nitrogen,	46
(e)	medical air,	47

48

(f)

surgical tool gas,

	(g)	carbon dioxide,	1
	(h)	common mixtures of the gases in paragraphs (a)-(g),	2
	(i)	anaesthesia waste.	3
[4]	Schedule 1, clause 1(1), definition of "specialist work"		
	Insert after paragraph (a) of the definition—		
	(a1)	mechanical services work,	6
