Clause 15 requires the owner of a declared dam to report to Dams Safety NSW on such matters in relation to the dam as Dams Safety NSW may require by notice in writing to the owner. Schedule 1 Provisions relating to members and procedure of Dams Safety NSW

Schedule 1 contains standard provisions relating to the members and procedure of Dams Safety NSW (including terms of office for appointed members and the requirement to disclose pecuniary interests at meetings).

Schedule 2 Savings, transitional and other provisions

Schedule 2 provides for the making of savings and transitional regulations consequent on the enactment of the proposed Act and any Act that amends it. It also makes provisions consequent on the enactment of the proposed Act, including continuing the Dams Safety Committee as Dams Safety NSW and establishing an interim advisory committee until such time as the provision constituting Dams Safety NSW is commenced.

Schedule 3 Amendment of other legislation

Amendment of Environmental Planning and Assessment Act 1979 No 203

Schedule 3.1 amends the *Environmental Planning and Assessment Act 1979* to insert a note referring to section 48 of the proposed Act which will require a consent authority, before granting development consent for carrying out mining operations in a notification area declared under that section, to refer the application to Dams Safety NSW.

Amendment of Land and Environment Court Act 1979 No 204

Schedule 3.2 amends the *Land and Environment Court Act 1979* to include appeals against compliance notices or directions to ensure the safety and other aspects of declared dams, or against “stop work” directions, under the proposed Act in Class 1 of the jurisdiction of the Land and Environment Court.

Amendment of Law Enforcement (Powers and Responsibilities) Act 2002 No 103

Schedule 3.3 amends the *Law Enforcement (Powers and Responsibilities) Act 2002* to provide that the provisions of that Act applying to search warrants will extend to search warrants issued under the proposed Act.

Amendment of Local Government Act 1993 No 30

Schedule 3.4 [1] amends the *Local Government Act 1993* to remove the requirement that a local council must have the approval of the Minister for Primary Industries to construct or extend a dam for the impounding or diversion of water for public use or any associated works or to construct or extend flood retarding basins. The construction or use by a local council of water supply works or flood works requires approval under the *Water Management Act 2000* and **Schedule 3.4 [2]** inserts a note referring to that requirement.

Schedule 3.4 [3] removes the power of the Minister for Primary Industries to direct a local council to take measures to ensure the proper safety, maintenance and working of dams for the impounding or diversion of water for public use or any associated works. Dams Safety NSW will, under the proposed Act, be able to give such a direction to a local council (as the owner of a declared dam) and **Schedule 3.4 [4]** inserts a note referring to that power.

Schedule 3.4 [5] provides that the Minister for Primary Industries cannot give a direction to a local council to take measures with respect to a dam during an emergency. Dams Safety NSW will, under the proposed Act, be able to give such a direction to a local council (as the owner of a declared dam) to take measures with respect to the dam during the period that an emergency order is in force and the amendment also inserts a note referring to that power.

Amendment of Local Government (General) Regulation 2005

Schedule 3.5 amends the *Local Government (General) Regulation 2005* as a consequence of the amendment made by Schedule 3.4 [1].

Amendment of Mining Act 1992 No 29

The amendments made by **Schedule 3.6** remove existing notification and consultation requirements relating to mining operations and the granting of mining leases in notification areas declared by the Dams Safety Committee under the *Mining Act 1992*. These requirements will be replaced by the provision to be inserted into the proposed Act that will require a consent authority, before granting development consent for carrying out mining operations in a notification area declared under that provision, to refer the application to Dams Safety NSW and to take into consideration matters raised by Dams Safety NSW.

Amendment of Mining Regulation 2010

Schedule 3.7 replaces a reference to the Dams Safety Committee in a provision relating to the use of certain information and protected documents under the *Mining Act 1992* so that the provision refers instead to Dams Safety NSW.

Amendment of Public Finance and Audit Act 1983 No 152

Schedule 3.8 amends the *Public Finance and Audit Act 1983* to provide for financial auditing and annual reporting in relation to Dams Safety NSW.

Amendment of Water Management Act 2000 No 92

Schedule 3.9 [1] inserts an object of ensuring that matters relating to safety are taken into consideration in granting approvals under the *Water Management Act 2000* for the construction and use of dams and other similar works.

Schedule 3.9 [2] requires Dams Safety NSW to be consulted before a water supply work approval is granted for the construction or use of a dam or other similar work. The Minister administering the *Water Management Act 2000* is required to take any submission by Dams Safety NSW into consideration before granting such a water supply work approval.

Schedule 3.9 [3] is a savings provision that preserves existing approvals under section 60 of the *Local Government Act 1993* in relation to dams constructed by local councils.

Amendment of Water Management (General) Regulation 2011

Schedule 3.10 ensures that Ministerial approval will be required under the *Water Management Act 2000* for declared dams.
