17 Definition

In this Part, the *amending Act* means the *Building and Construction Industry Long Service Payments Amendment Act 1998*.

18 Calculation of award rates

The definition of *award* inserted in section 3 (1) by the amending Act is to be used for the purposes of calculations made under the Act in respect of all payments made after the new definition takes effect.

19 Building and construction work

The repeal and substitution by the amending Act of the definition of *building and construction work* in section 3 (1) does not afford any person a right to be credited, in respect of service on any date before the repeal and substitution of that definition took effect, that the person would not have had if the repeal and substitution had not been effected.

20 Registration as a worker

- (1) Section 16 (2), as inserted by the amending Act, applies in respect of a worker who, immediately before its commencement, was performing building and construction work in New South Wales under a contract of employment, but so applies as if the reference in that subsection to a period of 7 days after commencing to be so employed were a reference to the period of 90 days after the commencement of section 16, as inserted by the amending Act.
- (2) An amendment made by the amending Act to section 18 does not apply in respect of an application for registration that was lodged but not determined before the date on which the amendment took effect.
- (3) Section 19 (1), as amended by the amending Act, extends to apply to workers who were registered before the commencement of that subsection.
- (4) Section 19 (1A) and (1B) extend to apply to workers who were registered before the commencement of those subsections.

-
- (5) Section 19 (2A) extends to apply in respect of a payment of the kind referred to in paragraph (a) of that subsection that was made before the commencement of that subsection.
 - (6) Except to the extent required by any agreement in force under section 55, the provisions of section 19 (6) and (7) do not apply in respect of a registration that was cancelled before the commencement of those subsections.

21 Part-time and other work

The repeal and substitution by the amending Act of section 22 does not afford any person a right to be credited, in respect of service on any date before the repeal and substitution of that section took effect, that the person would not have had if the repeal and substitution had not been effected.

22 Service credits for activities and circumstances other than building and construction work

- (1) Section 23, as inserted by the amending Act, does not apply in respect of any activity undertaken or circumstance existing before its commencement.
- (2) The provisions of section 23, as in force before its repeal by the amending Act, continue to apply to the extent that they conferred any right with respect to any activity or circumstance referred to in subclause (1).

23 Service as an adult

A person is entitled, in accordance with section 28 (1), as amended by the amending Act, to be credited with service rendered by the person as a minor to the same extent as if paragraph (c) of that subsection, as so amended, had been in force when the service was rendered.

24 Entitlement to long service payment on incapacity

The amendments made by the amending Act to sections 28 (1) (e) and 30 do not apply in respect of an application made under either of those provisions before the amendments took effect.

25 Payments to employers

- (1) This clause applies in respect of the provision of a benefit referred to in section 31 as an *alternative benefit* (whether the benefit was provided before or after the repeal and replacement of that section by the amending Act).
- (2) On application made within 12 months after the provision of the alternative benefit or within such longer period (not exceeding 2 years) as the Corporation may allow, the Corporation must pay to the employer who provided those benefits an amount calculated in accordance with the formula given in section 32 (1) (as modified by subclause (3)).
- (3) For the purposes of calculating an amount payable under subclause (2), the pronumeral *S* in the formula referred to in that subclause is taken to represent the number of days in the period during which, as evidenced by certificates of service furnished by the employer concerned under section 20, the worker performed building and construction work in the service of the employer under a contract of employment before the alternative benefit accrued due (increased by 275 where that period commenced on the appointed day within the meaning of the former Act).
- (4) The period referred to in subclause (3) does not include any day that is later than 90 days after the commencement of section 16 (2) unless the worker was registered on that day.

- (5) Subject to subclause (4), the period during which, as referred to in subclause (3), a worker performed building and construction work in the service of an employer is taken to include any day in respect of which the worker was, by virtue of illness or otherwise, entitled to a service credit (or would have been, if the worker had been registered on that day) while employed by that employer.
- (6) A payment made before the commencement of this clause to an employer that was not lawfully made, but that could lawfully have been made if this clause had been in force at the time of the payment, is validated.

26 Refunds

A refund of the whole or part of a levy, given before the amendments made by the amending Act to section 42 took effect, that was not lawfully given but that could lawfully have been given if those amendments had been in force at the time of the refund is validated.

27 Appeals

The amendment made by the amending Act to section 49 does not apply to a right of appeal existing before the amendment took effect.

28 Proceedings for offences

The amendment made by the amending Act to section 64 does not apply so as to allow proceedings to be instituted for an offence allegedly constituted by an act or omission that was more than one year old at the time the amendment took effect.
