1 Name of Act

2 Commencement

- (1) This Act commences on the date of assent to this Act, except as provided by subsection (2).
- (2) Schedule 1 [6]–[11], [13] and [17]–[24] and Schedule 3 [1]–[8] and [11]–[15] commence on a day or days to be appointed by proclamation.

Schedule 1 Amendment of Home Building Act 1989 No 147

[1] Section 3 Definitions

Insert in alphabetical order in section 3 (1):

developer—see section 3A.

[2] Section 3A Application of provisions to developers

Omit “is a developer who does the work” from section 3A (1).

Insert instead “is a developer in relation to that residential building work”.

[3] Section 3A (1A)

Insert after section 3A (1):

- (1A) Residential building work done on land in the circumstances set out in subsection (2) is, for the purpose of determining who is a developer in relation to the work, deemed to have been done on behalf of the owner of the land (in addition to any person on whose behalf the work was actually done).

Note. This makes the owner of the land a developer even if the work is actually done on behalf of another person (for example, on behalf of a party to a joint venture agreement with the owner for the development of the land). The other person on whose behalf the work is actually done is also a developer in relation to the work.

[4] Section 3B

Insert after section 3A:

3B Date of completion of residential building work

- (1) The completion of residential building work occurs on the date that the work is complete within the meaning of the contract under which the work was done.
- (2) If the contract does not provide for when work is complete (or there is no contract), the completion of residential building work occurs on *practical completion* of the work, which is when the work is completed except for any omissions or defects that do not prevent the work from being reasonably capable of being used for its intended purpose.
- (3) It is to be presumed (unless an earlier date for practical completion can be established) that practical completion of residential building work occurred on the earliest of whichever of the following dates can be established for the work:

- (a) the date on which the contractor handed over possession of the work to the owner,
 - (b) the date on which the contractor last attended the site to carry out work (other than work to remedy any defect that does not affect practical completion),
 - (c) the date of issue of an occupation certificate under the *Environmental Planning and Assessment Act 1979* that authorises commencement of the use or occupation of the work,
 - (d) (in the case of owner-builder work) the date that is 18 months after the issue of the owner-builder permit for the work.
- (4) If residential building work comprises the construction of 2 or more buildings each of which is reasonably capable of being used and occupied separately, practical completion of the individual buildings can occur at different times (so that practical completion of any one building does not require practical completion of all the buildings).
- (5) This section applies for the purposes of determining when completion of residential building work occurs for the purposes of any provision of this Act, the regulations or a contract of home warranty insurance.

[5] Section 4 Unlicensed contracting

Omit section 4 (4). Insert instead:

- (4) A developer in relation to residential building work must not contract with another person for the other person to do that residential building work on behalf of the developer unless the other person is the holder of a contractor licence authorising the other person to do work of that kind.

Maximum penalty: 1,000 penalty units in the case of a corporation and 200 penalty units in any other case.

[6] Section 6 Application of requirements for contracts

The *prescribed amount* is the amount prescribed by the regulations for the purposes of this section and is inclusive of GST.
- (2) A contract must be in writing and be dated and signed by or on behalf of each of the parties to it.
- (3) A contract must contain:
 - (a) the names of the parties, including the name of the holder of the contractor licence shown on the contractor licence, and
 - (b) the number of the contractor licence, and
 - (c) a description of the work to which the contract relates, and
 - (d) any plans and specifications for the work, and
 - (e) the contract price if known.
- (4) The contract must comply with any requirements prescribed by the regulations for the purposes of a contract to which this section applies.

 - (b) the warranty period is 6 years for a breach that results in a structural defect (as defined in the regulations) or 2 years in any other case,
 - (c) the warranty period starts on completion of the work to which it relates (but this does not prevent proceedings from being commenced before completion of the work),
 - (d) if the work is not completed, the warranty period starts on:
 - (i) the date the contract is terminated, or
 - (ii) if the contract is not terminated—the date on which work under the contract ceased, or
 - (iii) if the contract is not terminated and work under the contract was not commenced—the date of the contract,
 - (e) if the breach of warranty becomes apparent within the last 6 months of the warranty period, proceedings may be commenced within a further 6 months after the end of the warranty period,
