## **Explanatory note**

This explanatory note relates to this Bill as introduced into Parliament.

## **Overview of Bill**

The objects of this Bill are:

- (a) to reserve forested land in the Brigalow and Nandewar area to create a Community Conservation Area that provides for permanent conservation of land, protection of areas of natural and cultural heritage significance to Aboriginal people and sustainable forestry, mining and other appropriate uses, and
- (b) to give local communities a strong involvement in the management of that land.

For that purpose, the Bill:

- (a) transfers certain lands to the national park estate in the Brigalow and Nandewar area, and
- (b) establishes a Community Conservation Area in respect of certain of those transferred lands and certain State forests in the area, and
- (c) establishes a Community Conservation Council and Community Conservation Advisory Committees in respect of those lands, and

- (d) provides for the preparation by the Community Conservation Council of a Community Conservation Agreement in respect of the Community Conservation Area, containing principles for the management of land in the Area, and
- (e) enables payments to be made to the Consolidated Fund from the Environmental Trust Fund, established under the *Environmental Trust Act 1998*, to offset payments from the Consolidated Fund for the purpose of implementing forestry restructure and assistance programs and schemes in the Brigalow and Nandewar and adjacent regions, and
- (f) expands the range of matters for which funds can be provided, on a State wide basis, by the Environmental Trust from the Environmental Trust Fund, and
- (g) abolishes the Waste Fund established under the *Waste Avoidance and Resource Recovery Act 2001* and requires the money from that fund to be transferred to the Environmental Trust Fund.

**Clause 21** revokes timber reserves in Crown land that is reserved as national park, state conservation area or nature reserve.

**Clause 22** enables the Director-General of the Department of Environment and Conservation to adjust the descriptions of land in Schedule 1, 2 or 3, or 5–8, in order to alter the boundaries of the land for the purposes of the more effective management of national park estate land and State forest land and to adjust boundaries to public roads (so long as the adjustment will not result in any significant reduction in the size or value of any such land). Adjustments are also authorised in connection with easements and to provide a more detailed description of land.

**Clause 23** gives effect to Schedule 9, which contains ancillary and special provisions with respect to the land transfers under this Part.
