The Usher of the Black Rod being admitted, delivered a Message, “ That the Commissioners request the attendance of this Honorable House in the Legislative Council Chamber, to hear read the Commission for opening and holding this Parliament.”

 “ Colonial Secretary.”

After which, the President acquainted both Houses that he had it in command from His Excellency the Governor General to let them know that they would, to-morrow, at noon, be informed by His Excellency in person of the cause of this Parliament being called together: And, addressing the Assembly, added:—“ It being necessary that a Speaker of the Legislative Assembly should first be chosen, the Commissioners request that you now retire to the place prepared for your meeting, and there be pleased to choose your Speaker.”

2. Members and Officers sworn:—The House being returned, The Honorable Stuart Alexander Donaldson, Esquire, informed the Assembly that His Excellency the Governor General had been pleased to issue a Commission under the Great Seal of the Colony, empowering him and two other Members of the House, therein named, to administer to each other, and to all or any other Member or Members of the House, the Oath or Affirmation of Allegiance required by Law to be taken or made and subscribed before any Member can sit or vote therein,—which Commission was read by the Clerk as follows:—

“ By His Excellency Sir William Thomas Denison, Knight, Governor General in and
 “ over all Her Majesty's Colonies of New South Wales, Tasmania, Victoria,
 “ South Australia, and Western Australia, and Captain General and Governor-
 “ in-Chief of the Territory of New South Wales and its Dependencies, and
 “ Vice-Admiral of the same, &c., &c., &c.

“ To all to whom these presents shall come,

“ Greeting:

“ In pursuance of the authority in me vested in that behalf, I, Sir William Thomas Denison, as Governor of the Colony of New South Wales, do hereby authorize the Honorable Stuart Alexander Donaldson, the Honorable William Montagu Manning, and the Honorable James Macarthur, Esquires, or any one or more of them, to administer to all or any Members or Member of the Legislative Assembly of the said Colony the Oath or Affirmation of Allegiance to Her Majesty the Queen, required by law to be taken or made and subscribed by every such Member before he shall be permitted to sit or vote in the said Legislative Assembly.

“ Given under my Hand and the Seal of the Territory, at Government House,

 “ thousand eight hundred and fifty-six, and in the nineteenth year of
 “ the reign of Her Majesty Queen Victoria.

“ W. DENISON.

“ By His Excellency's Command.

“ E. DEAS THOMSON.”

Whereupon Mr. Donaldson took and subscribed the oath himself, and administered the same to the two other Commissioners, the Honorable William Montagu Manning, Esquire, and the Honorable James Macarthur, Esquire, and then the Commissioners administered the Oath to all the other Members present, the Clerk producing the several Writs returning them, and the Members subscribing the Roll of the House, as they were severally called to the Table;—John Hubert Plunkett, Esquire, claiming to be, and being, sworn as Member for Argyle and also as Member for Bathurst, and twice subscribing the Roll.

The Commissioners then administered the Oath of Allegiance and of Office, respectively, to Richard O'Connor, Esquire, as Clerk of the House; and to Henry John Tudor Shadforth, Esquire, as Serjeant-at-Arms.

3. Election of Speaker:—Mr. Cowper (addressing the Clerk) moved, and Mr. Jones seconded the motion, "That Daniel Cooper, Esquire, do take the Chair of this House, as Speaker."

Mr. George Macleay (addressing the Clerk) moved, and Mr. Holroyd seconded the motion, "That Henry Watson Parker, Esquire, do take the Chair of this House, as Speaker."

Mr. Cooper and Mr. Parker then severally addressed themselves to the House—Whereupon Debate ensued,

And the Question being put by the Clerk—"That Daniel Cooper, Esquire, do take the Chair of this House, as Speaker"—

The House divided,—And the Tellers not agreeing, in consequence of Mr Plunkett, at his own request, being told twice with the Noes, as Member for Argyle and as Member for Bathurst—the Clerk declined to receive their Report until they should agree,—

And Mr. Plunkett having ultimately waived, for this occasion, the claim he preferred to have his Vote twice recorded, the Tellers agreed, and reported the Division as follows:—

And the Clerk having thereupon declared the Question to have passed in the affirmative,—

Mr. Cowper and Mr. Jones conducted Mr. Cooper to the Chair.

Mr. Donaldson acquainted the House that he had previously ascertained from the Governor General that His Excellency would receive their Speaker at Government House, to-morrow, at Eleven o'clock, A.M.

VOTES AND PROCEEDINGS

OF THE

LEGISLATIVE ASSEMBLY.

FRIDAY, 23 MAY, 1856.

1. The House met pursuant to adjournment; the Speaker took the Chair.
 Presentation of Speaker:—On motion of Mr. Donaldson, the House proceeded to Government House to present their Speaker to His Excellency the Governor General,—
 And the House having returned, the Speaker reported that the Assembly had been to Government House, and that he had there acquainted the Governor General that the House had proceeded, in the exercise of their undoubted right, to elect a Speaker, and that he then presented himself to His Excellency as the Speaker duly chosen by the Assembly, whereupon His Excellency was pleased to offer to him his congratulations on the high honor and dignity conferred on him by the House, after which he had, on their behalf, laid claim to all the undoubted rights and privileges of the Assembly, and had requested that the most favorable construction should, on all occasions, be put upon their words and acts, and that His Excellency had been pleased fully to acknowledge the same.
 The Speaker then repeated his most respectful acknowledgements for the honor the House had conferred on him.
2. Message from the Governor General:—The Usher of the Black Rod, being admitted, delivered a Message, "That it is the pleasure of the Governor General that this "Honorable House do attend His Excellency forthwith in the Legislative Council "Chamber."
 The House went, and being returned, adjourned till Three o'clock.
3. Speaker's Commission to Administer the Oath:—The House having resumed, the Speaker reported that His Excellency the Governor General had been pleased to issue a Commission, under the Great Seal of the Colony, empowering him to administer the Oath or Affirmation of Allegiance to such Members as may hereafter present themselves to be sworn—which Commission was read at length by the Clerk as follows:—
 "By His Excellency SIR WILLIAM THOMAS DENISON, Knight, Governor General
 "in and over all Her Majesty's Colonies of New South Wales, Tasmania,
 "Victoria, South Australia, and Captain General and Governor-in-Chief in
 "the Territory of New South Wales and its Dependencies, and Vice-Admiral
 "of the same, &c., &c., &c.,

 "GREETING:

 "THOMAS DENISON, as Governor of the Colony of New South Wales, do hereby
 "authorize the Honorable Daniel Cooper, Esquire, Speaker of the Legislative
 "Assembly of the said Colony, to administer from time to time, as occasion may
 "require, to any Members of the said Assembly to whom the same shall not have

 "the Queen, required by Law to be taken or made and subscribed by every such
 "Member before he shall be permitted to Sit or Vote in the said Legislative
 "Assembly.
 "Given under my Hand and the Seal of the Territory, at Govern-
 "ment House, Sydney, this twenty-third day of May, in the
 "year of Our Lord One thousand eight hundred and fifty-six,
 "and in the nineteenth year of the Reign of Her Majesty
 "Queen Victoria.
 "W. DENISON.
 "By His Excellency's Command,
 "and with the advice of the
 "Executive Council,
 "E. DEAS THOMSON."
4. Infants' Marriage Settlements Bill:—Mr. Manning having presented this Bill, Bill intituled, "A Bill to enable Infants, with the approbation of the Supreme Court in
 "its Equitable Jurisdiction, to make binding Settlements of their Real and Personal
 "Estate on Marriage," read a first time (*pro forma*); ordered to be printed, and read a second time on Monday next.

5. The Governor General's Opening Speech :—The Speaker reported that the House had this day attended His Excellency the Governor General in the Legislative Council Chamber, where His Excellency delivered an Opening Speech to both Houses of Parliament, of which, for greater accuracy, he had obtained a copy, which he then read to the House at length, as follows :—

GENTLEMEN OF THE LEGISLATIVE COUNCIL, AND

GENTLEMEN OF THE LEGISLATIVE ASSEMBLY.

It is with no ordinary feelings of satisfaction that I address you, for the first time, as the Legislature constituted under the provisions of an enactment framed for the purpose of adopting, as far as circumstances will permit, the principles characteristic of the British Constitution; and I trust that this form of Government will be found congenial with the habits and feelings, and conducive to the happiness and prosperity, of the people of New South Wales.

2. By this enactment, a change has been made in my relation towards the Legislature to which it is necessary that I should briefly allude.

3. Under the former Constitution of the Colony, the Governor only was responsible for the policy of the Government, and for the measures submitted to the Legislature by which that policy was intended to be carried into effect. Under the present Constitution, the Governor is relieved from that responsibility, which now, most properly, falls upon those gentlemen whom he may select as his advisers, and in whose ability, integrity, and political principles, the Legislature place confidence. As in my former relation to you, I was always most anxious to press upon your notice whatever could, in my opinion, be conducive to the interests of the Colony, so now I shall be ever ready to carry into effect, as Head of the Executive, such measures as the Legislature may consider best calculated to enhance the general prosperity.

4. Before I allude to the measures which will be submitted for your consideration, I am desirous to explain the reasons which have induced me to avail myself of the services of the gentlemen at present composing the Executive Council.

5. Under the New Constitution, and by the Royal Instructions, it became the duty of the Governor, prior to the meeting of the Legislature, to summon to the Legislative Council, such persons as the Governor and the Executive Council should think fit. In my opinion it was requisite that the Executive Council, under whose advice this duty was to be performed, should be composed of gentlemen, most of whom had been returned as Members of the Legislative Assembly, and who had thus (regard being had to the peculiar circumstances under which Responsible Government is now first organized) given the best constitutional guarantee that they possessed the confidence of the community.

6. I have not, however, yet placed these gentlemen in charge of any of the Departments of the Government, because their seats in the Assembly would thereby have become vacant; and as there was no power to issue new Writs for their respective Districts, until after the meeting of the Parliament, I should thus have been deprived of the opportunity of explaining to you, at the commencement of the Session, the principles upon which the Government is prepared to act with reference to many important questions which must necessarily be submitted for your consideration.

7. I am glad to have it in my power to congratulate you on the propitious season, with which we have, under Divine Providence, been favored, and on the general prosperity of the Colony.

Gentlemen of the Legislative Assembly.

8. The failure in the cereal crops in 1854, followed by considerable commercial depression, arising from this and other causes, exercised an unfavorable influence upon the Customs' Revenue for 1855, and for the first four months of this year. The amount of Revenue collected during the above period has fallen considerably short of the estimate.

9. There are, however, already, indications of such increased activity in trade and commerce, as may justify me in looking forward with confidence to a steadily improving Revenue.

10. The Estimates for 1857 shall be laid before you at the earliest possible period.

11. It will be my anxious desire, so to regulate the Public Expenditure, as to combine with a wise and judicious economy, the increased efficiency of the Government Departments, and the advancement of the Colony.

12. Should the exigencies of the Country demand increased taxation, care will be taken that such proposed additional burthen shall be so distributed as not to bear with undue pressure upon any particular class of the community.

Gentlemen of the Legislative Council, and of the Legislative Assembly.

13. Availing myself of the provisions contained in the 4th section of the Act of Parliament enabling Her Majesty to assent to the Constitution Act, I shall lay before you a Bill to repeal those clauses which require a majority of two-thirds of the Legislature to effect changes in the system of Representation, or the principles of the Constitution.

14. Material changes in the Administrative Departments will be required for the more efficient conduct of the Public Service; and to this the attention of the Executive Government has been already directed. The expense and numerical strength of various Public Offices may be diminished, without impairing their efficiency, by a better distribution of departmental responsibility, and by simplifying official forms.

15. It will be necessary to make arrangements by which the occupants of offices (some perhaps yet to be created;) will be placed in a position of direct responsibility to the Legislature. In connexion with this subject a plan will be submitted to you for the formation of a "Board of Works."

16. The final Report of the Commissioners appointed, in accordance with an Address of the late Legislative Council, to inquire into the state of Public Schools throughout the Colony, will be laid before you. This Report places in a strong point of view the urgent necessity which exists for devising a comprehensive system of Public Education. This subject must claim the early attention of the Executive Government and the Legislature.

17. The Management of the Public Lands, and the Control of the Revenues derived from that source, having been surrendered to the local Government, and the Imperial Acts for the disposal of these lands having been repealed, it will be your duty to give your immediate attention to this most important subject. I confide in the wisdom of the Legislature to aid the Government in the enactment of measures by which, without violating the public faith, or sacrificing existing interests, greatly increased facilities may be afforded for the acquisition of land, by persons of all classes, and the settlement of the Country promoted. Arrangements are in progress for surveying and preparing for sale a very large extent of available land, and for the improvement and more prompt issue of Deeds of Grant.

18. The Internal Communications of the Country will require much consideration, with a view to the adoption of such a system of Railway Extension, and other means of transit, as shall enhance the value of property, and develop the resources of the country.

19. The important subject of Immigration will demand your early and earnest attention, and it will be desirable to consider how far it may be expedient to enable those persons who require laborers, and who, by purchase of land or otherwise, provide the means for their introduction, to exercise a direct influence in their selection—in order that the funds appropriated to that purpose may be employed in introducing the most suitable description of labor.

20. Measures will be laid before you for the establishment of Municipal Institutions throughout the Colony—for the purpose of relieving the Central Government of duties which it cannot adequately fulfil, and of vesting the control of local affairs in those directly interested in their successful management.

21. The Gold Fields Management Acts will expire at the end of the present year. The serious attention of the Government will be given to the development of the Gold Fields, and to all the details of their management.

22. The great and growing importance of the Northern Districts of the Colony, and their remoteness from Sydney, call for the early establishment of a branch of the Supreme Court, with a Resident Judge, at Brisbane. I trust also that it may be found compatible with a due regard for the Public Finances, to establish in other Districts, Local Courts with extensive Jurisdiction, Civil and Criminal. Bills for these purposes will be laid before you.

23. Measures designed to simplify and improve the Law, and to relieve the Administration of Justice from sources of delay and costliness, will be proposed. I particularly invite your attention to the importance of uniting the Common Law and Equity Jurisdictions of the Courts in all cases in which practical evils are entailed upon suitors by the maintenance of the present system.

24. You will, I am sure, give your earnest attention to a measure which will be proposed to you for the amendment of the Insolvent Law; and will especially desire to mark more broadly the distinction between the honest but unfortunate and the fraudulent or reckless Insolvent, so essential to the maintenance of a high tone of commercial honor.

25. In order to secure the skilful preparation and proper structure of Bills, it will, I think, be necessary to appoint an officer specially charged with the duty of preparing them, and of watching their progress, and aiding in their amendment whilst passing through their various stages. It should also be the duty of that officer to devote his attention to the subject of the progressive amendment of the Law.

26. Despatches on the subject of Steam Communication with Great Britain, and other important matters, will be laid before you.

27. By the terms of the Act of the Imperial Parliament enabling Her Majesty to assent to the Constitution Act, it became my imperative duty to call you together on or before this day; but it is obviously necessary that sufficient time should be afforded, by adjournment, for the preparation of the measures to be submitted to you in reference to the foregoing and other important subjects. Under the peculiar circumstances of the great change now taking place in the whole system of our Government, I trust that you will not hesitate to assent to the adoption of such a course.

28. I entertain a firm reliance in the moderation and sound judgment of the Parliament, satisfied that the measures which may ultimately be determined upon will be such as to confirm the high character justly attained by the preceding Legislature of the Colony, and under the blessing of Almighty God to ensure the public welfare.

W. DENISON.
Mr.

Mr. Garland then moved, and Mr. Faucett seconded, the motion, That a Select Committee, consisting of Mr. Nichols, Mr. Barker, Mr. Holt, Mr. Murray, Mr. Donaldson, Mr. George Macleay, Mr. Parker, Mr. Faucett, and Mr. Jones, be appointed to prepare an Address, in reply to the Speech delivered by His Excellency the Governor General, on opening this first Session of the first Parliament of New South Wales.

Question put and passed.

Mr. Garland having brought up the Address prepared by the Committee, the same was read by the Clerk, on motion of Mr. Garland, as follows:—

"To His Excellency SIR WILLIAM THOMAS DENISON, Knight, Governor General of all Her Majesty's Colonies of New South Wales, Tasmania, Victoria, South Australia, and Western Australia, and Captain-General and Governor-in-Chief of New South Wales and its Dependencies, and Vice-Admiral of the same, &c., &c., &c."

"MAY IT PLEASE YOUR EXCELLENCY:—

"We, Her Majesty's loyal and dutiful Subjects, the Members of the Legislative Assembly of New South Wales, in Parliament assembled, desire to express to Your Excellency our affection and loyalty to the Person and Government of our Most Gracious Sovereign; and to offer our respectful thanks for Your Excellency's Speech to this Assembly.

"2. We fully reciprocate the feelings of satisfaction expressed by your Excellency at meeting, for the first time, the Legislature as at present constituted. We cannot doubt, that the adoption in this Colony, so far as circumstances will permit, of the principles which characterise the British Constitution, will be congenial with the feelings, and conducive to the happiness of the people.

"3. We have every confidence that in the altered relation which subsists between Your Excellency and the Legislature of the Colony, Your Excellency will be ever ready to carry into effect, as Head of the Executive, such measures as may be considered best calculated to enhance the general prosperity.

"4. We accept as our earnest of Your Excellency's desire to ensure the harmonious working of the different branches of the Legislature, that, in a political act of so much moment as the creation of the Legislative Council, Your Excellency sought the advice of gentlemen who had been returned as Members of the Legislative Assembly, and who had thus given the best Constitutional guarantee that they possessed the confidence of the community. And it is satisfactory to us to find that, by the course which Your Excellency has adopted, under the peculiar circumstances attending the first introduction of Responsible Government, Your Excellency is afforded an opportunity of explaining at the commencement of the Session, the principles on which your Excellency's Government is prepared to act with respect to many important questions that will be submitted for our consideration.

"5. We cordially reciprocate your Excellency's congratulations on the propitious season with which, under Divine Providence, the Colony has been favored; and on the general prosperity of the people.

"6. We are persuaded that the causes which exercised an unfavorable influence on the Customs Revenue of last year, have, for the most part, ceased to operate; and there are already such indications of increased activity in trade and commerce, as justify your Excellency's confidence in a steadily increasing Revenue.

"7. Your Excellency's desire so to regulate the Public Expenditure as to combine, with a wise and judicious economy, increased efficiency in the Public Departments, demands our full concurrence, and we receive with much satisfaction the assurance that the expense and numerical strength of various public offices may be diminished, without impairing their efficiency, by a better distribution of Departmental responsibility, and by simplifying official forms. Should the exigencies of the Colony require increased taxation, we will endeavour so to distribute the additional burden, that it shall not bear with undue pressure upon any particular class of the community.

"8. The Bill which your Excellency has expressed an intention of introducing, to repeal those clauses in the Constitution Act of the Colony which require a majority of two-thirds of the Legislature to effect changes in the system of Representation, or in the principles of the Constitution, shall, when laid before us, receive that earnest attention which the importance of the subject demands.

"9. We shall be prepared not less readily to consider any proposal which may be submitted to us for placing, in a position of direct responsibility to the Legislature, the occupants of offices other than those declared by the Constitution Act to be political.

"10. Any effort which may be made to place the Public Schools on a satisfactory footing will receive our warmest support; and it is not without regret that we acknowledge the urgent necessity which exists for greatly improving the present system of Education.

"11. We will cordially co-operate with your Excellency's Government in the enactment of any measures by which, without violating the public faith, or sacrificing existing interests, increased facilities may be afforded for the acquisition of land by persons of all classes, and the settlement of the Country promoted; and we learn with satisfaction that arrangements are in progress for surveying and preparing for sale a large extent of available land, and for the more prompt issue of Deeds of Grant.

"12.

" 12. We shall be prepared to bestow our best attention on any system which may be devised for the improvement of the Internal Communication of the Colony, with a view to the development of its resources.

" 13. We shall enter upon the consideration of the important subject of Immigration with the earnest desire, to devise a scheme by which the funds appropriated for this purpose may be employed in introducing the most suitable description of labor.

" 14. The establishment of Municipal Institutions throughout the Colony is a matter of great moment, both in a social and political point of view; and we will readily lend our assistance in maturing a system of Municipalities, suited to the peculiar circumstances of the Colony.

" 15. We feel assured that the establishment of Local Courts in different parts of the Colony, with extensive civil and criminal jurisdiction, (should the state of the Public Finances permit the adoption of such a measure,) will be hailed with satisfaction by all classes of the community.

" 16. The various other matters alluded to in your Excellency's Address will receive every attention at our hands.

" 17. Finally, we desire gratefully to acknowledge the confidence expressed by Your Excellency in the moderation and judgment of the present Parliament; and to express our earnest hope that the measures ultimately determined upon will be such as to entitle it to a participation in the high character justly attained by the preceding Legislature; and, under the blessing of Almighty God, to ensure the public welfare."

Mr. Garland then moved,—That the Address in reply to the Governor General's opening Speech, as read by the Clerk, be now adopted by this House.

Debate ensued.

Mr. Donaldson moved,—That this Debate be now adjourned until Monday next, at Three o'clock.

Question—on the motion for adjournment of the Debate until Monday next, at three o'clock—put and passed.

6. Committee of Elections and Qualifications:—The Speaker, pursuant to the requirement of the Electoral Act of 1851, laid upon the Table his Warrant appointing the Committee of Elections and Qualifications for the present Session, of which the following is a copy:—

" By the Honorable the Speaker of the Legislative Assembly of New South Wales.

" Pursuant to the power in that behalf vested in me, as Speaker of the Legislative Assembly of New South Wales, by the Electoral Act of 1851, I do hereby appoint

" John Norton Oxley, Esquire,
 " Terence Aubrey Murray, Esquire,
 " Alexander Walker Scott, Esquire,
 " Henry Watson Parker, Esquire,
 " Richard Jones, Esquire,
 " Peter Faucott, Esquire, and
 " Arthur Todd Holroyd, Esquire,

" being Members of the said Assembly, to be Members of the Committee of Elections and Qualifications in the said Act referred to, during the present Session of the Assembly aforesaid.

" Given under my Hand, at the Legislative Assembly Chamber,
 " Macquarie-street, Sydney, this twenty-third day of May, in
 " the year of our Lord one thousand eight hundred and fifty-six.

" DANIEL COOPER,

" Speaker."

7. Election Petitions:—Mr. Donaldson, by *Command*, laid upon the Table the following Election Petitions which had been addressed to His Excellency the Governor General:—

(1.) A Petition from William Christie, of Maitland, Gentleman, complaining of the election and return of Bourne Russell, Esquire, as a Member for the Electoral District of the Northumberland Boroughs, and praying that the same may be declared to be wholly null and void, and that Elias Carpenter Weekes, Esquire, was elected, and ought to have been returned.

(2.) A Petition from William Brady, Timothy Maher, and J. Canty, who had a right to vote at the late election of Members to represent the Electoral District of the City of Sydney, complaining of the Election and return of Charles Cowper, Henry Parkes, Robert Campbell, and James Robert Wilshire, Esquires, and praying that one or more of them may be adjudged and declared not duly elected, and that John Hubert Plunkett, Esquire, may be declared duly elected in the place of some one of them.

Whereupon the Speaker reported that he had this day received notice from William Brady, Timothy Maher, and J. ‘ 2. We fully reciprocate the feelings of satisfaction expressed by your Excellency, in meeting for the first time the Legislature assembled in pursuance of an Act by which increased powers of self-government have been conferred upon the Colony; and we shall be happy to join in the introduction of such amendments of the Constitution as may from time to time be considered desirable’;—
“ And in the place of paragraph 4, of the paragraph following:—
‘ 4. With reference to the recent appointment, by your Excellency, of gentlemen who have been returned to the Legislative Assembly, as Members of the Executive Government, without the charge of any Department, we desire to convey to your Excellency the expression of our opinion that the Officers of Government, for whom Pensions or retiring Allowances have been provided by the Constitution Act, 18 & 19 Vict., c 54, on their release or retirement from Office on political grounds, are
‘ not

' not entitled to claim, under that Act, such Pensions or Allowances, unless such
' release or retirement takes place after some direct Parliamentary manifestation of
' their inability to carry on the Government,—which manifestation has not yet been
' made; and that the assumption of Office, as responsible Ministers, under existing
' circumstances, by any persons, in the place of those for whom such pensions have
' been provided, before such manifestation shall have taken place, is highly irregular
' and unconstitutional. The existence of an entire Ministry, no member of which
' is the holder of any office under the Crown, is also, in our opinion, incompatible
' with that responsibility to which every Administration ought to be subject.'—

Question put—That paragraph 2,—“ We fully reciprocate the feelings of satisfaction
“ expressed by your Excellency at meeting, for the first time, the Legislature as at
“ present constituted. We cannot doubt, that the adoption in this Colony, so far
“ as circumstances will permit, of the principles which characterise the British Con-
“ stitution, will be congenial with the feelings, and conducive to the happiness of
“ the people.”—stand part of the Address.

(1.) That it is highly improper for any of Her Majesty's Ministers in this Colony to be connected, directly or indirectly, with the management of any private Banking, Insurance, Loan, or Mercantile Establishment whatsoever.

(2.) That it is highly improper for any of Her Majesty's Ministers in this Colony, charged with the management of the Public Finances, to be a Member of, or in any way connected with any private Banking, Insurance, Loan, or Mercantile Establishment whatsoever.

(3.) That the foregoing Resolutions be embodied in an Address, and presented to His Excellency the Governor General.

Debate ensued.

Mr. Flood moved the Previous Question.

Debate continued.

Previous Question—" Shall this Question be now put ?"—put and negatived.

8. Vacant Seat:—The Speaker, addressing Mr. Weekes, said, " The Honorable Member, Mr. Weekes, having been returned at the late General Election, " to serve as one of the Members for the South Riding of the County of " Cumberland, and having also, by the Report from the Committee of Elections and " Qualifications just laid upon the Table, been declared to have been duly elected " to serve as one of the Members for the Northumberland Boroughs, I now call upon " that Honorable Member to make his election for which of those two places he will " serve, by transmitting to me in writing, within one week from and after this day, " the resignation of his seat for the other."

And

And Mr. Weekes having requested the opinion of the Speaker, or of the House, as to whether he could legally and safely make an election under the circumstances, the Speaker gave it as his opinion, that the right of choice was undoubtedly in the Honorable Member himself," and added—"Before the Report from the Committee of Elections and Qualifications was laid upon the Table, the Honorable Member had no choice to make. That Report, however, declares that the Honorable Member was duly elected at the late General Election, as one of the Members for the Northumberland Boroughs. The effect of that declaration is, by the Electoral Act of 1851, more than equivalent to the return of the Honorable Member by the Returning Officer, inasmuch as it cannot be questioned. The Practice of Parliament extends the right, and enforces the duty, alike upon Members returned for two or more places in the first instance, and Members returned for one place and subsequently declared by a controverted Elections Committee, or otherwise by the House, to have been duly elected for another, to choose for which place they will serve, notwithstanding their having already served for the places for which there was no question of the Return. I am decidedly of opinion, therefore, that the Honorable Member, Mr. Weekes, has now the right, and is in duty bound, to elect for which place he will serve, notwithstanding his having already served for the South Riding of the County of Cumberland; and I would fortify this opinion by citing the cases of Fox, in 1784-5-6, and O'Connell, in 1842. Fox served for Kirkwall during two Sessions, but, upon having a choice presented to him, upon the decision in his favor of the celebrated Westminster case, elected, in the third Session, to serve for Westminster. O'Connell served for Cork; and upon having a choice presented to him, upon the Report of a controverted Elections Committee, elected to continue his service for Cork; although if we believe, as we must, that the choice given to him was *bona fide*, it is clear he might, if he had thought proper, have elected to serve for Meath instead."

Mr. Weekes then handed to the Speaker a letter, resigning his seat as a Member for the Electoral District of the South Riding of the County of Cumberland;—

And the Speaker having read the same to the House;—

The Honorable the Colonial Secretary moved, That this House now resolves that the Seat of Elias Carpenter Weekes, Esquire, as a Member for the Electoral District of the South Riding of the County of Cumberland, hath become and is now vacant, by reason of the resignation thereof by the said Elias Carpenter Weekes, Esquire.

Question put and passed.

FRIDAY, OCTOBER 17.

NOTICE OF MOTION:—

1. Mr. HOLT to move,—
- (1.) That the negotiation by the Government of Loans by the issue of Debentures, in sums of not less than £100 each, and making the principal and interest payable in Sydney, or London, at the option of the holder, without reference to the rates of exchange ruling between this Colony and England, is a bad financial measure, and ought not to be adopted by the Government.
 - (2.) Because it is manifestly unjust to a very large number of the Colonists, who would be glad to invest £5, and the multiples of that sum, in Government Securities, but who are unable to make any investment therein, in consequence of the Government not issuing their Debentures in less amounts than that of £100 each, and who are thus deprived of the opportunity of investing their savings, at interest, in Government securities, to their loss, and that of the country, and to the benefit alone of the English capitalists.

(3.)

(3.) Because, by allowing the small as well as the large capitalists, to compete for Government Securities, the number of competitors would probably be increased more than one hundred fold, and the Public would thus reap considerable benefit by the Government Securities, (so soon as they become generally known) being negotiated on much more favorable terms than at present.

(4.) Because of the serious loss to which the Public is subjected, in having to buy Bills on England, to provide for the principal and interest of the Debentures, which at the present rate of exchange, of 2 per cent. premium, amounts, with interest on the usance till the bills become due, to about $3\frac{3}{4}$ per cent., exclusive of the London banker's commission of 10s. per £100.

(5.) And it is the opinion of this House, that in order to meet the convenience of the holders, and to effect a gradual reduction of the debt of the Colony, it is expedient for the future to receive, as cash, with the accrued interest thereto added, any Debentures that may hereafter be negotiated in payment for the purchase of public lands.

(6.) Further, that in order to give an increased currency to the Government Debentures, and to induce all persons throughout the Colony to receive them as Cash, so that they may, to a certain extent, supply the place of money, and obviate the necessity of negotiating any loans out of the Colony, it is desirable that the Government should make arrangements with one or more of the Banks, to purchase and sell the Debentures which may hereafter be negotiated, at fixed rates, (making a small margin between the buying and selling rates), and to fix the prices for the same, from time to time, according to the supply and demand.

(7.) That the above Resolutions be embodied in an Address, and presented, by the Honorable the Speaker, to His Excellency the Governor General.

 - (2.) A nominal Return of all new Trials granted by the Supreme Court of this Colony, in its several Jurisdictions, since the beginning of the year 1855, specifying the name or names of the Judge or Judges who tried the original case, the reasons why, in each case, the new Trial was granted, and the number of days occupied in each of such adjudications or decisions.
 - (3.) A nominal Return of all Judgments reserved by the Supreme Court of this Colony, in its several Jurisdictions, since the beginning of the year 1855, specifying the name or names of the officiating Judge or Judges, the reasons why Judgment, in each case, was reserved, and the number of days occupied in each of such adjudications or decisions.

 TUESDAY, NOVEMBER 11.

NOTICES OF MOTION:—

1. Mr. HOLT to move,—

(1.) That the negotiation by the Government of Loans by the issue of Debentures, in sums of not less than £100 each, and making the principal and interest payable in Sydney, or London, at the option of the holder, without reference to the rates of exchange ruling between this Colony and England, is a bad financial measure, and ought not to be adopted by the Government.

(2.) Because it is manifestly unjust to a very large number of the Colonists, who would be glad to invest £5, and the multiples of that sum, in Government Securities, but who are unable to make any investment therein, in consequence of the Government not issuing their Debentures in less amounts than that of £100 each, and who are thus deprived of the opportunity of investing their savings, at interest, in Government securities, to their loss, and that of the country, and to the benefit alone of the English capitalists.

(3.) Because, by allowing the small as well as the large capitalists, to compete for Government Securities, the number of competitors would probably be increased more than one hundred fold, and the Public would thus reap considerable benefit by the Government Securities, (so soon as they become generally known) being negotiated on much more favorable terms than at present.

(4.) Because of the serious loss to which the Public is subjected, in having to buy Bills on England, to provide for the principal and interest of the Debentures, which at the present rate of exchange, of 2 per cent. premium, amounts, with interest on the usance till the bills become due, to about 3¼ per cent., exclusive of the London banker's commission of 10s. per £100.

(5.)

(5.) And it is the opinion of this House, that in order to meet the convenience of the holders, and to effect a gradual reduction of the debt of the Colony, it is expedient for the future to receive, as cash, with the accrued interest thereto added, any Debentures that may hereafter be negotiated in payment for the purchase of public lands.

(6.) Further, that in order to give an increased currency to the Government Debentures, and to induce all persons throughout the Colony to receive them as Cash, so that they may, to a certain extent, supply the place of money, and obviate the necessity of negotiating any loans out of the Colony, it is desirable that the Government should make arrangements with one or more of the Banks, to purchase and sell the Debentures which may hereafter be negotiated, at fixed rates, (making a small margin between the buying and selling rates), and to fix the prices for the same, from time to time, according to the supply and demand.

(7.) That the above Resolutions be embodied in an Address, and presented, by the Honorable the Speaker, to His Excellency the Governor General.

2. MR. FLOOD to move,—

(1.) That a Select Committee be appointed to inquire into the best means of creating a Superannuation Fund for such Officers of the Civil Service of New South Wales as may be compelled to retire from their duties, through bodily or mental infirmity; and also, a Pension Fund, or other provision, for the Widows and Orphans of such Officers.

(2.) That such Committee consist of the following Members, viz.:—Mr. Jones, Mr. Plunkett, Mr. Parker, Mr. Marks, Mr. Weekes, Mr. Hay, Mr. Richardson, and Mr. Flood.

TUESDAY, NOVEMBER 18.

NOTICE OF MOTION:—

1. MR. HOLT to move,—

(1.) That it is, in the opinion of this House, the duty of the Legislature to use its utmost efforts to ensure (so far as it may be practicable) the Education of every Child in the Colony.

(2.) That the system hitherto pursued, of maintaining two separate Educational Establishments, known as the National and Denominational, and paying the Teachers by fixed Annual Salaries, is unsatisfactory, and is altogether inadequate to the requirements of the Colony, and ought to be abolished.

(3.) That in order to secure the services of respectable, energetic, and talented persons to educate the children of the Colony, it is necessary for the Government to remunerate them liberally (according to the nature and extent of their services), without imposing any conditions at all humiliating; so that the vocation of a Teacher in this Colony may be considered a highly honorable profession.

(4.) That the Schoolmasters or Schoolmistresses of every recognized Religious Denomination in the Colony shall be equally entitled to participate equitably in the monies appropriated by the Parliament for educational purposes; provided that such persons have been duly authorized as Schoolmasters or Schoolmistresses by the respective Denominations to which they belong. In the event of any religious Denomination withdrawing its Certificate from any of its Teachers, the Government, on receiving notice of the same, will forthwith cause all further remuneration to such Teacher to be discontinued.

(5.) That the general management of the monies appropriated by the Parliament for educational purposes, and the inspection of the Schools be vested in an Inspector General of Schools, with an ample staff of Inspectors and Assistant Inspectors, to enable him to cause every School in the Colony to be visited periodically and frequently.

(6.) That the duty of the Inspectors and Assistant Inspectors should be chiefly to visit all the Schools in the Colony, to make the most searching inquiries into their general management, and to ascertain what religious training the scholars receive, and also to examine the scholars periodically in secular learning. They will be required to make full reports on the state of the Schools and of their examinations of the scholars, (naming each scholar by name) and to state the progress each scholar may have made since the previous examination, and, if a new scholar, what his acquirements (if any) may be. This will, undoubtedly, prove a great stimulus to the scholars to strive to merit a favorable mention of them in the Inspector's Report. That Copies of the Inspector's Reports of the Schools, and of the scholars, be forwarded by the Inspector General of Schools, to the Head of that Denomination of Religionists to which the Reports may respectively refer, and the original deposited in the School archives of the Colony. That each Inspector's Report of the Schools, but not the name of the Scholars, shall be considered as a privileged communication, and printed, if it be thought advisable.

(7.) That the religious training of the scholars, and the general management of the Schools be confined exclusively to the Denominations to which they respectively belong; and the duty of the Government Inspectors will be restricted to inspecting, investigating, and inquiring into, every thing connected with the Schools, as well as examining the scholars in secular learning, and reporting thereon; but in the event of two reports being received as to the bad management of any School, the Head of the religious body to which such School may belong, and also the Schoolmaster or Schoolmistress, will be warned that all further remuneration to him or her will be discontinued by the Government on the receipt of another unfavorable report from an Inspector.

8.) That if any Schoolmaster or Schoolmistress decline to answer any questions that may

may be put to him or her by the Inspector General of Schools, or any of the Inspectors or Assistant Inspectors, with respect to his or her School, or refuse to allow any examination of the Scholars, or otherwise obstruct any of the Inspectors in the execution of his duty, or be guilty of gross neglect or immorality, the Government remuneration to such Schoolmaster or Schoolmistress shall forthwith absolutely cease. That if any Schoolmaster or Schoolmistress defraud or attempt to defraud the Government by false representations either as regards the number or attendance of the Scholars, he or she shall be deemed guilty of a misdemeanour, and punished.

(9.) That in order to stimulate a friendly rivalry amongst the Teachers of the different Denominations, both as regards the number of the Scholars and the proficiency in learning in their respective Schools, and to induce them to hunt up every neglected child, and to prevail upon the parents to send it to School, it is expedient to remunerate the Schoolmasters and Schoolmistresses according to the following scale, viz. :—

For each Boy or Girl in the 3rd Class, at the rate of 10s. per Quarter	} For a full attendance.	
For each Boy or Girl in the 2nd Class, at the rate of 15s. per Quarter		} Ditto.
For each Boy or Girl in the 1st Class, at the rate of 20s. per Quarter		} Ditto.

Scholars of the 3rd Class are to be deemed those who are learning to read.

Scholars of the 2nd Class are to be deemed those who can read easy books, and who are learning to write.

Scholars of the 1st Class are to be deemed those who are able to read freely, and to write a fair hand. If boys, they must also be learning grammar, arithmetic, geography and history; if girls, grammar, arithmetic, and needlework.

The respective Classes of the scholars to be decided by the Inspector, after examination.

(10.) That no limit should be placed by the Government on the number of Schoolmasters or Schoolmistresses licensed by the respective Denominations, or the localities where they may be placed, as each Teacher will have to depend entirely upon his or her own exertions, and as it will be perfectly free to the people to seek education where they may please, the best Teachers will undoubtedly, in every place, get the largest number of Scholars, and this will give a universal stimulus to every religious Denomination to procure the very best Teachers, and also to the Teachers to exert themselves to the very utmost.

(11.) That the Parliamentary Draftsmen be instructed to prepare a Bill to carry out the intent and meaning of the above Resolutions, and that the same be submitted for the consideration of this House.

DANIEL COOPER,

Speaker.

 - (3.) A nominal Return of all Judgments reserved by the Supreme Court of this Colony, in its several Jurisdictions, since the beginning of the year 1855, specifying the name or names of the officiating Judge or Judges, the reasons why Judgment, in each case, was reserved, and the number of days occupied in each of such adjudications or decisions.

 TUESDAY, NOVEMBER 11.

NOTICES OF MOTION:—

1. Mr. HOLT to move,—
 - (1.) That the negotiation by the Government of Loans by the issue of Debentures, in sums of not less than £100 each, and making the principal and interest payable in Sydney, or London, at the option of the holder, without reference to the rates of exchange ruling between this Colony and England, is a bad financial measure, and ought not to be adopted by the Government.

(2.)

- (2.) Because it is manifestly unjust to a very large number of the Colonists, who would be glad to invest £5, and the multiples of that sum, in Government Securities, but who are unable to make any investment therein, in consequence of the Government not issuing their Debentures in less amounts than that of £100 each, and who are thus deprived of the opportunity of investing their savings, at interest, in Government securities, to their loss, and that of the country, and to the benefit alone of the English capitalists.
- (3.) Because, by allowing the small as well as the large capitalists, to compete for Government Securities, the number of competitors would probably be increased more than one hundred fold, and the Public would thus reap considerable benefit by the Government Securities, (so soon as they become generally known) being negotiated on much more favorable terms than at present.
- (4.) Because of the serious loss to which the Public is subjected, in having to buy Bills on England, to provide for the principal and interest of the Debentures, which at the present rate of exchange, of 2 per cent. premium, amounts, with interest on the usance till the bills become due, to about 3 $\frac{1}{4}$ per cent., exclusive of the London banker's commission of 10s. per £100.
- (5.) And it is the opinion of this House, that in order to meet the convenience of the holders, and to effect a gradual reduction of the debt of the Colony, it is expedient for the future to receive, as cash, with the accrued interest thereto added, any Debentures that may hereafter be negotiated in payment for the purchase of public lands,
- (6.) Further, that in order to give an increased currency to the Government Debentures, and to induce all persons throughout the Colony to receive them as Cash, so that they may, to a certain extent, supply the place of money, and obviate the necessity of negotiating any loans out of the Colony, it is desirable that the Government should make arrangements with one or more of the Banks, to purchase and sell the Debentures which may hereafter be negotiated, at fixed rates, (making a small margin between the buying and selling rates), and to fix the prices for the same, from time to time, according to the supply and demand.
- (7.) That the above Resolutions be embodied in an Address, and presented, by the Honorable the Speaker, to His Excellency the Governor General.
2. Mr. FLOOD to move,—
- (1.) That a Select Committee be appointed to inquire into the best means of creating a Superannuation Fund for such Officers of the Civil Service of New South Wales as may be compelled to retire from their duties, through bodily or mental infirmity; and also, a Pension Fund, or other provision, for the Widows and Orphans of such Officers.
- (2.) That such Committee consist of the following Members, viz.:—Mr. Jones, Mr. Plunkett, Mr. Parker, Mr. Marks, Mr. Weekes, Mr. Hay, Mr. Richardson, and Mr. Flood.
3. Mr. WEEKES to move,—That in the opinion of this House, the construction of a Causeway across the Falls at West Maitland, which may answer the double purpose of a Dam for retaining the Water for the Town of West Maitland, and of a Roadway across the River, is a work of great necessity for the Inhabitants of that district;—and that Plans and Estimates for the undertaking should be prepared without delay.

TUESDAY, NOVEMBER 18.

NOTICE OF MOTION :—

1. Mr. HOLT to move,—
- (1.) That, it is, in the opinion of this House, the duty of the Legislature to use its utmost efforts to ensure (so far as it may be practicable) the Education of every Child in the Colony.
- (2.) That the system hitherto pursued, of maintaining two separate Educational Establishments, known as the National and Denominational, and paying the Teachers by fixed Annual Salaries, is unsatisfactory, and is altogether inadequate to the requirements of the Colony, and ought to be abolished.
- (3.) That in order to secure the services of respectable, energetic, and talented persons to educate the children of the Colony, it is necessary for the Government to remunerate them liberally (according to the nature and extent of their services), without imposing any conditions at all humiliating; so that the vocation of a Teacher in this Colony may be considered a highly honorable profession.
- (4.) That the Schoolmasters or Schoolmistresses of every recognized Religious Denomination in the Colony shall be equally entitled to participate equitably in the monies appropriated by the Parliament for educational purposes; provided that such persons have been duly authorized as Schoolmasters or Schoolmistresses by the respective Denominations to which they belong. In the event of any religious Denomination withdrawing its Certificate from any of its Teachers, the Government, on receiving notice of the same, will forthwith cause all further remuneration to such Teacher to be discontinued.
- (5.) That the general management of the monies appropriated by the Parliament for educational purposes, and the inspection of the Schools be vested in an Inspector General of Schools, with an ample staff of Inspectors and Assistant Inspectors, to enable him to cause every School in the Colony to be visited periodically and frequently.
- (6.) That the duty of the Inspectors and Assistant Inspectors should be chiefly to visit all the Schools in the Colony, to make the most searching inquiries into their

their general management, and to ascertain what religious training the scholars receive, and also to examine the scholars periodically in secular learning. They will be required to make full reports on the state of the Schools and of their examinations of the scholars, (naming each scholar by name) and to state the progress each scholar may have made since the previous examination, and, if a new scholar, what his acquirements (if any) may be. This will, undoubtedly, prove a great stimulus to the scholars to strive to merit a favorable mention of them in the Inspector's Report. That Copies of the Inspector's Reports of the Schools, and of the scholars, be forwarded by the Inspector General of Schools, to the Head of that Denomination of Religionists to which the Reports may respectively refer, and the original deposited in the School archives of the Colony. That each Inspector's Report of the Schools, but not the name of the Scholars, shall be considered as a privileged communication, and printed, if it be thought advisable.

(7.) That the religious training of the scholars, and the general management of the Schools be confined exclusively to the Denominations to which they respectively belong; and the duty of the Government Inspectors will be restricted to inspecting, investigating, and inquiring into, every thing connected with the Schools, as well as examining the scholars in secular learning, and reporting thereon; but in the event of two reports being received as to the bad management of any School, the Head of the religious body to which such School may belong, and also the Schoolmaster or Schoolmistress, will be warned that all further remuneration to him or her will be discontinued by the Government on the receipt of another unfavorable report from an Inspector.

(8.) That if any Schoolmaster or Schoolmistress decline to answer any questions that may be put to him or her by the Inspector General of Schools, or any of the Inspectors or Assistant Inspectors, with respect to his or her School, or refuse to allow any examination of the Scholars, or otherwise obstruct any of the Inspectors in the execution of his duty, or be guilty of gross neglect or immorality, the Government remuneration to such Schoolmaster or Schoolmistress shall forthwith absolutely cease. That if any Schoolmaster or Schoolmistress defraud or attempt to defraud the Government by false representations either as regards the number or attendance of the Scholars, he or she shall be deemed guilty of a misdemeanour, and punished.

(9.) That in order to stimulate a friendly rivalry amongst the Teachers of the different Denominations, both as regards the number of the Scholars and the proficiency in learning in their respective Schools, and to induce them to hunt up every neglected child, and to prevail upon the parents to send it to School, it is expedient to remunerate the Schoolmasters and Schoolmistresses according to the following scale, viz. :—

For each Boy or Girl in the 3rd Class, at the rate of 10s. per Quarter	} For a full attendance.	
For each Boy or Girl in the 2nd Class, at the rate of 15s. per Quarter		} Ditto.
For each Boy or Girl in the 1st Class, at the rate of 20s. per Quarter		

Scholars of the 3rd Class are to be deemed those who are learning to read.

Scholars of the 2nd Class are to be deemed those who can read easy books, and who are learning to write.

Scholars of the 1st Class are to be deemed those who are able to read freely, and to write a fair hand. If boys, they must also be learning grammar, arithmetic, geography and history; if girls, grammar, arithmetic, and needlework. The respective Classes of the scholars to be decided by the Inspector, after examination.

(10.) That no limit should be placed by the Government on the number of Schoolmasters or Schoolmistresses licensed by the respective Denominations, or the localities where they may be placed, as each Teacher will have to depend entirely upon his or her own exertions, and as it will be perfectly free to the people to seek education where they may please, the best Teachers will undoubtedly, in every place, get the largest number of Scholars, and this will give a universal stimulus to every religious Denomination to procure the very best Teachers, and also to the Teachers to exert themselves to the very utmost.

(11.) That the Parliamentary Draftsmen be instructed to prepare a Bill to carry out the intent and meaning of the above Resolutions, and that the same be submitted for the consideration of this House.

DANIEL COOPER,

Speaker.

5. MR. HOLT to move,—
 - (1.) That it is, in the opinion of this House, desirable, on account of its vast importance, to encourage by every legitimate means, the cultivation of the Cotton Plant in the Colony of New South Wales (for which it is believed that the Northern Districts of the Colony are peculiarly adapted);—and this House therefore resolves, that the Government be authorized to offer remission orders to the extent of £5,000, as premiums to the growers of the first 1,000 bales of not less than 240 lbs. each, of clean merchantable cotton wool.
 - (2.) That every grower of one bale of not less than 240 lbs., shall be entitled to a remission order to the extent of £5; and for every additional bale of not less than 240 lbs. a remission order for a further sum of £5; and that prizes in the same proportion continue to be awarded to as many competitors as may be entitled thereto until the whole of the said sum of £5,000 be exhausted.
 - (3.) That the said remission orders be receivable as cash in payment for country lands at the Government land sales in those districts where the cotton wool was grown for which the prizes were awarded.
 - (4.) That no premium will be awarded for any cotton wool which is not clean and in good merchantable condition.
 - (5.) That the said premiums will be open for competition from the date of the passing of these resolutions, until the said amount appropriated for prizes has been awarded.
 - (6.) That the Government be requested to take such measures as they may consider expedient, to carry these resolutions into effect, and to make them generally known for the information of all parties who may wish to compete for the said prizes.
6. MR. SCOTT to move,—
 - (1.) That a Select Committee be appointed to inquire into the present plan proposed, and recently commenced, for deepening the River Hunter, at those parts commonly known as the Flats;—and into all matters connected therewith;—with power to send for persons and papers.

7. MR. SCOTT to move,—

(1.) That a Select Committee be appointed to inquire into the propriety of any alteration in the originally proposed Terminus of the Railroad at Newcastle;—into the expense consequent thereon;—and into the amounts of the claims now made or likely to be made by the Australian Agricultural Company, and others, for compensation— with power to send for persons and papers.

(2.) That such Committee consist of Mr. Buckley, Mr. Flood, Mr. Gordon, Mr. Jones, Mr. Hay, Mr. Piddington, Mr. F. T. Rusden, Mr. Weckes, Mr. Arnold, and the Mover.

8. MR. HARGRAVE to move,—

(1.) That this House has learnt with regret, that it is the intention of the Imperial Government to fix the southern boundary of the proposed new Colony of Moreton Bay at a line "south of the 30th parallel of south latitude."

(2.) That as the interests of the various Districts proposed to be included in the new Colony are not identical, this House is of opinion that, in defining the future boundary line of the Colony of Moreton Bay, it is the duty of the Imperial Government to consult the wishes of the several Districts proposed to be included in that Colony.

(3.) That while this House fully recognizes the propriety of the Imperial Government, in accordance with the presumed wish of the majority of the inhabitants of Moreton Bay and Darling Downs, erecting those Districts into a separate Colony, it submits that, on the same principle, it will be unjust to the inhabitants of New England and the Clarence River to include those Districts in such Colony, if they are averse to being so included.

(4.) That in the opinion of this House the interests and commercial connexion of New England and the Clarence River are now, and will continue to be, so completely identified with the Colony of New South Wales, and distinct from those of the Districts of Moreton Bay and Darling Downs, that, if the question whether the first-mentioned Districts shall be included in the new Colony be referred to the inhabitants of those Districts, a very large majority will be found to be opposed to their being so included; and, in support of such opinion, this House refers to the Petition, signed by 1551 Inhabitants of New England and Clarence River, praying for the establishment of an Assize Court at Armidale, in which Petition they assert that "they do not desire to be included in any section of the Northern Districts which may be separated from the present Colony of New South Wales."

(5.) That this House requests that the Imperial Government will defer the final settlement of the southern boundary line of the new Colony, until the opinion of the Inhabitants of the Districts of New England and the Clarence River, is ascertained upon the subject.

(6.) That the foregoing Resolutions be forwarded to the Governor General, with a request that His Excellency will be pleased to transmit them to Her Majesty's Secretary of State for the Colonies at the earliest opportunity.

9. MR. PARKES to move, That an Address be presented to the Governor General, praying that His Excellency will be pleased to cause to be laid upon the Table of this House, Copies of all Correspondence between the Honorable the Attorney General and Mr. Donald Macpherson, with reference to a case of alleged Bigamy on the part of John Gerrie.

10. MR. T. G. RUSDEN to move, That there be laid upon the Table of this House in amendment of the Return to the Address from the Legislative Council, dated 5th December, 1855, relative to Crown Lands, the following Returns:—

(1.) A Return, shewing the quantity of Lands, formerly belonging to Runs or Squattages, that have been advertised in the *Government Gazette* at any time, and in any manner, as Reserves or otherwise.

(2.) A Return of Lands, belonging formerly to any Squattages, that have been sold to any other parties as well as to the owners of these Runs; together with the names of the Runs, and of the lessees or holders of the Runs from which the land has been taken.

11. MR. SANDEMAN to move, That an Address be presented to the Governor General, praying that His Excellency will be pleased to cause to be laid upon the Table of this House,—

(1.) A Return of all Correspondence between the Executive Government, in Sydney, and the Government Resident of Moreton Bay, relative to building a Gaol for the District of Moreton Bay.

(2.) A Return of all Correspondence between the Executive Government and their Honors the Judges of the Supreme Court, relative to the most suitable site for the erection of a Gaol for the District of Moreton Bay.

 - (1.) A Nominal Return of all Causes tried, and of all Motions or Applications made before the Supreme Court of this Colony, in its several Jurisdictions, since the beginning of the year 1855,—specifying the name or names of the officiating Judge or Judges in each case, and the number of days occupied in such adjudications or decisions.
 - (2.) A Nominal Return of all new Trials granted by the Supreme Court of this Colony, in its several Jurisdictions, since the beginning of the year 1855,—specifying the name or names of the Judge or Judges who tried the original case, the reasons—if on record—succinctly stated, why, in each case, the new Trial was granted,—and the number of days occupied in each of such adjudications or decisions.
 - (3.) A Nominal Return of all Judgments reserved by the Supreme Court of this Colony, in its several Jurisdictions, since the beginning of the year 1855,—specifying the name or names of the officiating Judge or Judges, the reasons—if on record—succinctly stated, why, in each case, Judgment was reserved—and the number of days occupied in each of such adjudications or decisions.

Questions:—MR. FORSTER to ask THE SECRETARY FOR LANDS AND PUBLIC WORKS,—

- (1.) Whether the Government propose continuing upon their present footing for any length of time, and if so, how long, the appointments and staff of Commissioners of Crown Lands beyond the boundaries?
- (2.) What are the actual duties intended to be performed by the aforesaid Commissioners' Orderlies, and whether it is in accordance with Government regulations that such Orderlies should, as is frequently the case beyond the boundaries, be employed by the Commissioners in the capacity of domestic or of farm servants?
- (3.) Whether in cases of an allowance for forage having been granted to Commissioners of Crown Lands beyond the boundaries, it has been intended that such forage should be actually provided, or that such allowance should be a perquisite of the Commissioners, at their own option to expend or to appropriate.

TUESDAY, NOVEMBER 11.

NOTICES OF MOTION:—

1. Mr. HOLT to move,—
 - (1.) That the negotiation by the Government of Loans by the issue of Debentures, in sums of not less than £100 each, and making the principal and interest payable in Sydney, or London, at the option of the holder, without reference to the rates of exchange ruling between this Colony and England, is a bad financial measure, and ought not to be adopted by the Government.
 - (2.) Because it is manifestly unjust to a very large number of the Colonists, who would be glad to invest £5, and the multiples of that sum, in Government Securities, but who are unable to make any investment therein, in consequence of the Government not issuing their Debentures in less amounts than that of £100 each, and who are thus deprived of the opportunity of investing their savings, at interest, in Government securities, to their loss, and that of the country, and to the benefit alone of the English capitalists.

(3.)

- (3.) Because, by allowing the small as well as the large capitalists, to compete for Government Securities, the number of competitors would probably be increased more than one hundred fold, and the Public would thus reap considerable benefit by the Government Securities, (so soon as they become generally known) being negotiated on much more favorable terms than at present.
- (4.) Because of the serious loss to which the Public is subjected, in having to buy Bills on England, to provide for the principal and interest of the Debentures, which at the present rate of exchange, of 2 per cent. premium, amounts, with interest on the usance till the bills become due, to about $3\frac{1}{2}$ per cent., exclusive of the London banker's commission of 10s. per £100.
- (5.) And it is the opinion of this House, that in order to meet the convenience of the holders, and to effect a gradual reduction of the debt of the Colony, it is expedient for the future to receive, as cash, with the accrued interest thereto added, any Debentures that may hereafter be negotiated in payment for the purchase of public lands.
- (6.) Further, that in order to give an increased currency to the Government Debentures, and to induce all persons throughout the Colony to receive them as Cash, so that they may, to a certain extent, supply the place of money, and obviate the necessity of negotiating any loans out of the Colony, it is desirable that the Government should make arrangements with one or more of the Banks, to purchase and sell the Debentures which may hereafter be negotiated, at fixed rates, (making a small margin between the buying and selling rates), and to fix the prices for the same, from time to time, according to the supply and demand.
- (7.) That the above Resolutions be embodied in an Address, and presented, by the Honorable the Speaker, to His Excellency the Governor General.
2. MR. FLOOD to move,—
- (1.) That a Select Committee be appointed to inquire into the best means of creating a Superannuation Fund for such Officers of the Civil Service of New South Wales as may be compelled to retire from their duties, through bodily or mental infirmity; and also, a Pension Fund, or other provision, for the Widows and Orphans of such Officers.
- (2.) That such Committee consist of the following Members, viz.:—Mr. Jones, Mr. Plunkett, Mr. Parker, Mr. Marks, Mr. Weekes, Mr. Hay, Mr. Richardson, and Mr. Flood.
3. MR. WEEKES to move,—That in the opinion of this House, the construction of a Causeway across the Falls at West Maitland, which may answer the double purpose of a Dam for retaining the Water for the Town of West Maitland, and of a Roadway across the River, is a work of great necessity for the Inhabitants of that district;—and that Plans and Estimates for the undertaking should be prepared without delay.

TUESDAY, NOVEMBER 18.

NOTICE OF MOTION:—

1. MR. HOLT to move,—
- (1.) That, it is, in the opinion of this House, the duty of the Legislature to use its utmost efforts to ensure (so far as it may be practicable) the Education of every Child in the Colony.
- (2.) That the system hitherto pursued, of maintaining two separate Educational Establishments, known as the National and Denominational, and paying the Teachers by fixed Annual Salaries, is unsatisfactory, and is altogether inadequate to the requirements of the Colony, and ought to be abolished.
- (3.) That in order to secure the services of respectable, energetic, and talented persons to educate the children of the Colony, it is necessary for the Government to remunerate them liberally (according to the nature and extent of their services), without imposing any conditions at all humiliating; so that the vocation of a Teacher in this Colony may be considered a highly honorable profession.
- (4.) That the Schoolmasters or Schoolmistresses of every recognized Religious Denomination in the Colony shall be equally entitled to participate equitably in the monies appropriated by the Parliament for educational purposes; provided that such persons have been duly authorized as Schoolmasters or Schoolmistresses by the respective Denominations to which they belong. In the event of any religious Denomination withdrawing its Certificate from any of its Teachers, the Government, on receiving notice of the same, will forthwith cause all further remuneration to such Teacher to be discontinued.
- (5.) That the general management of the monies appropriated by the Parliament for educational purposes, and the inspection of the Schools be vested in an Inspector General of Schools, with an ample staff of Inspectors and Assistant Inspectors, to enable him to cause every School in the Colony to be visited periodically and frequently.
- (6.) That the duty of the Inspectors and Assistant Inspectors should be chiefly to visit all the Schools in the Colony, to make the most searching inquiries into their general management, and to ascertain what religious training the scholars receive, and also to examine the scholars periodically in secular learning. They will be required to make full reports on the state of the Schools and of their examinations of the scholars, (naming each scholar by name) and to state the progress each scholar may have made since the previous examination, and, if a new scholar, what his acquirements (if any) may be. This will, undoubtedly, prove a great stimulus to the scholars to strive to merit a favorable mention of them in the Inspector's Report. That Copies of the Inspector's Reports of the Schools, and of the

the scholars, be forwarded by the Inspector General of Schools, to the Head of that Denomination of Religionists to which the Reports may respectively refer, and the original deposited in the School archives of the Colony. That each Inspector's Report of the Schools, but not the name of the Scholars, shall be considered as a privileged communication, and printed, if it be thought advisable.

(7.) That the religious training of the scholars, and the general management of the Schools be confined exclusively to the Denominations to which they respectively belong; and the duty of the Government Inspectors will be restricted to inspecting, investigating, and inquiring into, every thing connected with the Schools, as well as examining the scholars in secular learning, and reporting thereon; but in the event of two reports being received as to the bad management of any School, the Head of the religious body to which such School may belong, and also the Schoolmaster or Schoolmistress, will be warned that all further remuneration to him or her will be discontinued by the Government on the receipt of another unfavorable report from an Inspector.

(8.) That if any Schoolmaster or Schoolmistress decline to answer any questions that may be put to him or her by the Inspector General of Schools, or any of the Inspectors or Assistant Inspectors, with respect to his or her School, or refuse to allow any examination of the Scholars, or otherwise obstruct any of the Inspectors in the execution of his duty, or be guilty of gross neglect or immorality, the Government remuneration to such Schoolmaster or Schoolmistress shall forthwith absolutely cease. That if any Schoolmaster or Schoolmistress defraud or attempt to defraud the Government by false representations either as regards the number or attendance of the Scholars, he or she shall be deemed guilty of a misdemeanour, and punished.

(9.) That in order to stimulate a friendly rivalry amongst the Teachers of the different Denominations, both as regards the number of the Scholars and the proficiency in learning in their respective Schools, and to induce them to hunt up every neglected child, and to prevail upon the parents to send it to School, it is expedient to remunerate the Schoolmasters and Schoolmistresses according to the following scale, viz. :—

For each Boy or Girl in the 3rd Class, at the rate of 10s. per Quarter	} For a full attendance.	
For each Boy or Girl in the 2nd Class, at the rate of 15s. per Quarter		} Ditto.
For each Boy or Girl in the 1st Class, at the rate of 20s. per Quarter		

Scholars of the 3rd Class are to be deemed those who are learning to read.

Scholars of the 2nd Class are to be deemed those who can read easy books, and who are learning to write.

Scholars of the 1st Class are to be deemed those who are able to read freely, and to write a fair hand. If boys, they must also be learning grammar, arithmetic, geography and history; if girls, grammar, arithmetic, and needlework.

The respective Classes of the scholars to be decided by the Inspector, after examination.

(10.) That no limit should be placed by the Government on the number of Schoolmasters or Schoolmistresses licensed by the respective Denominations, or the localities where they may be placed, as each Teacher will have to depend entirely upon his or her own exertions, and as it will be perfectly free to the people to seek education where they may please, the best Teachers will undoubtedly, in every place, get the largest number of Scholars, and this will give a universal stimulus to every religious Denomination to procure the very best Teachers, and also to the Teachers to exert themselves to the very utmost.

(11.) That the Parliamentary Draftsmen be instructed to prepare a Bill to carry out the intent and meaning of the above Resolutions, and that the same be submitted for the consideration of this House.

DANIEL COOPER,

Speaker.

5. MR. HOLT to move,—
 - (1.) That it is, in the opinion of this House, desirable, on account of its vast importance, to encourage by every legitimate means, the cultivation of the Cotton Plant in the Colony of New South Wales (for which it is believed that the Northern Districts of the Colony are peculiarly adapted);—and this House therefore resolves, that the Government be authorized to offer remission orders to the extent of £5,000, as premiums to the growers of the first 1,000 bales of not less than 240 lbs. each, of clean merchantable cotton wool.
 - (2.) That every grower of one bale of not less than 240 lbs., shall be entitled to a remission order to the extent of £5; and for every additional bale of not less than 240 lbs. a remission order for a further sum of £5; and that prizes in the same proportion continue to be awarded to as many competitors as may be entitled thereto until the whole of the said sum of £5,000 be exhausted.
 - (3.) That the said remission orders be receivable as cash in payment for country lands at the Government land sales in those districts where the cotton wool was grown for which the prizes were awarded.
 - (4.) That no premium will be awarded for any cotton wool which is not clean and in good merchantable condition.
 - (5.) That the said premiums will be open for competition from the date of the passing of these resolutions, until the said amount appropriated for prizes has been awarded.
 - (6.) That the Government be requested to take such measures as they may consider expedient, to carry these resolutions into effect, and to make them generally known for the information of all parties who may wish to compete for the said prizes.

 - (1.) That this House has learnt with regret, that it is the intention of the Imperial Government to fix the southern boundary of the proposed new Colony of Moreton Bay at a line "south of the 30th parallel of south latitude."
 - (2.) That as the interests of the various Districts proposed to be included in the new Colony are not identical, this House is of opinion that, in defining the future boundary line of the Colony of Moreton Bay, it is the duty of the Imperial Government to consult the wishes of the several Districts proposed to be included in that Colony.

(3.)

(3.) That while this House fully recognizes the propriety of the Imperial Government, in accordance with the presumed wish of the majority of the inhabitants of Moreton Bay and Darling Downs, erecting those Districts into a separate Colony, it submits that, on the same principle, it will be unjust to the inhabitants of New England and the Clarence River to include those Districts in such Colony, if they are averse to being so included.

(4.) That in the opinion of this House the interests and commercial connexion of New England and the Clarence River are now, and will continue to be, so completely identified with the Colony of New South Wales, and distinct from those of the Districts of Moreton Bay and Darling Downs, that, if the question whether the first-mentioned Districts shall be included in the new Colony be referred to the inhabitants of those Districts, a very large majority will be found to be opposed to their being so included; and, in support of such opinion, this House refers to the Petition, signed by 1551 Inhabitants of New England and Clarence River, praying for the establishment of an Assize Court at Armidale, in which Petition they assert that "they do not desire to be included in any section of the Northern Districts which may be separated from the present Colony of New South Wales."

(5.) That this House requests that the Imperial Government will defer the final settlement of the southern boundary line of the new Colony, until the opinion of the Inhabitants of the Districts of New England and the Clarence River, is ascertained upon the subject.

(6.) That the foregoing Resolutions be forwarded to the Governor General, with a request that His Excellency will be pleased to transmit them to Her Majesty's Secretary of State for the Colonies at the earliest opportunity.

9. MR. PARKES to move, That an Address be presented to the Governor General, praying that His Excellency will be pleased to cause to be laid upon the Table of this House, Copies of all Correspondence between the Honorable the Attorney General and Mr. Donald Macpherson, with reference to a case of alleged Bigamy on the part of John Gerrie.

TUESDAY, NOVEMBER 11.

NOTICES OF MOTION :—

1. MR. HOLT to move,—
 - (1.) That the negotiation by the Government of Loans by the issue of Debentures, in sums of not less than £100 each, and making the principal and interest payable in Sydney, or London, at the option of the holder, without reference to the rates of exchange ruling between this Colony and England, is a bad financial measure, and ought not to be adopted by the Government.

(2.)

- (2.) Because it is manifestly unjust to a very large number of the Colonists, who would be glad to invest £5, and the multiples of that sum, in Government Securities, but who are unable to make any investment therein, in consequence of the Government not issuing their Debentures in less amounts than that of £100 each, and who are thus deprived of the opportunity of investing their savings, at interest, in Government securities, to their loss, and that of the country, and to the benefit alone of the English capitalists.
- (3.) Because, by allowing the small as well as the large capitalists, to compete for Government Securities, the number of competitors would probably be increased more than one hundred fold, and the Public would thus reap considerable benefit by the Government Securities, (so soon as they become generally known) being negotiated on much more favorable terms than at present.
- (4.) Because of the serious loss to which the Public is subjected, in having to buy Bills on England, to provide for the principal and interest of the Debentures, which at the present rate of exchange, of 2 per cent. premium, amounts, with interest on the usance till the bills become due, to about $3\frac{1}{4}$ per cent., exclusive of the London banker's commission of 10s. per £100.
- (5.) And it is the opinion of this House, that in order to meet the convenience of the holders, and to effect a gradual reduction of the debt of the Colony, it is expedient for the future to receive, as cash, with the accrued interest thereto added, any Debentures that may hereafter be negotiated in payment for the purchase of public lands.
- (6.) Further, that in order to give an increased currency to the Government Debentures, and to induce all persons throughout the Colony to receive them as Cash, so that they may, to a certain extent, supply the place of money, and obviate the necessity of negotiating any loans out of the Colony, it is desirable that the Government should make arrangements with one or more of the Banks, to purchase and sell the Debentures which may hereafter be negotiated, at fixed rates, (making a small margin between the buying and selling rates), and to fix the prices for the same, from time to time, according to the supply and demand.
- (7.) That the above Resolutions be embodied in an Address, and presented, by the Honorable the Speaker, to His Excellency the Governor General.
2. MR. FLOOD to move,—
- (1.) That a Select Committee be appointed to inquire into the best means of creating a Superannuation Fund for such Officers of the Civil Service of New South Wales as may be compelled to retire from their duties, through bodily or mental infirmity; and also, a Pension Fund, or other provision, for the Widows and Orphans of such Officers.
- (2.) That such Committee consist of the following Members, viz.:—Mr. Jones, Mr. Plunkett, Mr. Parker, Mr. Marks, Mr. Weekes, Mr. Hay, Mr. Richardson, and Mr. Flood.
3. MR. WEEKES to move,—That in the opinion of this House, the construction of a Causeway across the Falls at West Maitland, which may answer the double purpose of a Dam for retaining the Water for the Town of West Maitland, and of a Roadway across the River, is a work of great necessity for the Inhabitants of that district;—and that Plans and Estimates for the undertaking should be prepared without delay.

TUESDAY, NOVEMBER 18.

NOTICE OF MOTION:—

1. MR. HOLT to move,—
- (1.) That, it is, in the opinion of this House, the duty of the Legislature to use its utmost efforts to ensure (so far as it may be practicable) the Education of every Child in the Colony.
- (2.) That the system hitherto pursued, of maintaining two separate Educational Establishments, known as the National and Denominational, and paying the Teachers by fixed Annual Salaries, is unsatisfactory, and is altogether inadequate to the requirements of the Colony, and ought to be abolished.
- (3.) That in order to secure the services of respectable, energetic, and talented persons to educate the children of the Colony, it is necessary for the Government to remunerate them liberally (according to the nature and extent of their services), without imposing any conditions at all humiliating; so that the vocation of a Teacher in this Colony may be considered a highly honorable profession.
- (4.) That the Schoolmasters or Schoolmistresses of every recognized Religious Denomination in the Colony shall be equally entitled to participate equitably in the monies appropriated by the Parliament for educational purposes; provided that such persons have been duly authorized as Schoolmasters or Schoolmistresses by the respective Denominations to which they belong. In the event of any religious Denomination withdrawing its Certificate from any of its Teachers, the Government, on receiving notice of the same, will forthwith cause all further remuneration to such Teacher to be discontinued.
- (5.) That the general management of the monies appropriated by the Parliament for educational purposes, and the inspection of the Schools be vested in an Inspector General of Schools, with an ample staff of Inspectors and Assistant Inspectors, to enable him to cause every School in the Colony to be visited periodically and frequently.
- (6.) That the duty of the Inspectors and Assistant Inspectors should be chiefly to visit all the Schools in the Colony, to make the most searching inquiries into their

their general management, and to ascertain what religious training the scholars receive, and also to examine the scholars periodically in secular learning. They will be required to make full reports on the state of the Schools and of their examinations of the scholars, (naming each scholar by name) and to state the progress each scholar may have made since the previous examination, and, if a new scholar, what his acquirements (if any) may be. This will, undoubtedly, prove a great stimulus to the scholars to strive to merit a favorable mention of them in the Inspector's Report. That Copies of the Inspector's Reports of the Schools, and of the scholars, be forwarded by the Inspector General of Schools, to the Head of that Denomination of Religionists to which the Reports may respectively refer, and the original deposited in the School Archives of the Colony. That each Inspector's Report of the Schools, but not the name of the Scholars, shall be considered as a privileged communication, and printed, if it be thought advisable.

(7.) That the religious training of the scholars, and the general management of the Schools be confined exclusively to the Denominations to which they respectively belong; and the duty of the Government Inspectors will be restricted to inspecting, investigating, and inquiring into, every thing connected with the Schools, as well as examining the scholars in secular learning, and reporting thereon; but in the event of two reports being received as to the bad management of any School, the Head of the religious body to which such School may belong, and also the Schoolmaster or Schoolmistress, will be warned that all further remuneration to him or her will be discontinued by the Government on the receipt of another unfavorable report from an Inspector.

(8.) That if any Schoolmaster or Schoolmistress decline to answer any questions that may be put to him or her by the Inspector General of Schools, or any of the Inspectors or Assistant Inspectors, with respect to his or her School, or refuse to allow any examination of the Scholars, or otherwise obstruct any of the Inspectors in the execution of his duty, or be guilty of gross neglect or immorality, the Government remuneration to such Schoolmaster or Schoolmistress shall forthwith absolutely cease. That if any Schoolmaster or Schoolmistress defraud or attempt to defraud the Government by false representations either as regards the number or attendance of the Scholars, he or she shall be deemed guilty of a misdemeanour, and punished.

(9.) That in order to stimulate a friendly rivalry amongst the Teachers of the different Denominations, both as regards the number of the Scholars and the proficiency in learning in their respective Schools, and to induce them to hunt up every neglected child, and to prevail upon the parents to send it to School, it is expedient to remunerate the Schoolmasters and Schoolmistresses according to the following scale, viz. :—

For each Boy or Girl in the 3rd Class, at the rate of 10s. per Quarter	} For a full attendance.	
For each Boy or Girl in the 2nd Class, at the rate of 15s. per Quarter		} Ditto.
For each Boy or Girl in the 1st Class, at the rate of 20s. per Quarter		} Ditto.

Scholars of the 3rd Class are to be deemed those who are learning to read.

Scholars of the 2nd Class are to be deemed those who can read easy books, and who are learning to write.

Scholars of the 1st Class are to be deemed those who are able to read freely, and to write a fair hand. If boys, they must also be learning grammar, arithmetic, geography and history; if girls, grammar, arithmetic, and needlework. The respective Classes of the scholars to be decided by the Inspector, after examination.

(10.) That no limit should be placed by the Government on the number of Schoolmasters or Schoolmistresses licensed by the respective Denominations, or the localities where they may be placed, as each Teacher will have to depend entirely upon his or her own exertions, and as it will be perfectly free to the people to seek education where they may please, the best Teachers will undoubtedly, in every place, get the largest number of Scholars, and this will give a universal stimulus to every religious Denomination to procure the very best Teachers, and also to the Teachers to exert themselves to the very utmost.

(11.) That the Parliamentary Draftsmen be instructed to prepare a Bill to carry out the intent and meaning of the above Resolutions, and that the same be submitted for the consideration of this House.

DANIEL COOPER,

Speaker.

2. **MR. BARKER** to move, That the Petition of Mr. James Ralfe, presented by him yesterday, be printed.
3. **MR. HARGRAVE** to move,—
 - (1.) That this House has learnt with regret, that it is the intention of the Imperial Government to fix the southern boundary of the proposed new Colony of Moreton Bay at a line "south of the 30th parallel of south latitude."
 - (2.) That as the interests of the various Districts proposed to be included in the new Colony are not identical, this House is of opinion that, in defining the future boundary

line

line of the Colony of Moreton Bay, it is the duty of the Imperial Government to consult the wishes of the several Districts proposed to be included in that Colony.

(3.) That while this House fully recognizes the propriety of the Imperial Government, in accordance with the presumed wish of the majority of the inhabitants of Moreton Bay and Darling Downs, erecting those Districts into a separate Colony, it submits that, on the same principle, it will be unjust to the inhabitants of New England and the Clarence River to include those Districts in such Colony, if they are averse to being so included.

(4.) That in the opinion of this House the interests and commercial connexion of New England and the Clarence River are now, and will continue to be, so completely identified with the Colony of New South Wales, and distinct from those of the Districts of Moreton Bay and Darling Downs, that, if the question whether the first-mentioned Districts shall be included in the new Colony be referred to the inhabitants of those Districts, a very large majority will be found to be opposed to their being so included; and, in support of such opinion, this House refers to the Petition, signed by 1551 Inhabitants of New England and Clarence River, praying for the establishment of an Assize Court at Armidale, in which Petition they assert that "they do not desire to be included in any section of the Northern Districts which may be separated from the present Colony of New South Wales"

(5.) That this House requests that the Imperial Government will defer the final settlement of the southern boundary line of the new Colony, until the opinion of the Inhabitants of the Districts of New England and the Clarence River, is ascertained upon the subject.

(6.) That the foregoing Resolutions be forwarded to the Governor General, with a request that His Excellency will be pleased to transmit them to Her Majesty's Secretary of State for the Colonies at the earliest opportunity.

1. MR. HOLT to move,—
 - (1.) That the negotiation by the Government of Loans by the issue of Debentures, in sums of not less than £100 each, and making the principal and interest payable in Sydney, or London, at the option of the holder, without reference to the rates of exchange ruling between this Colony and England, is a bad financial measure, and ought not to be adopted by the Government.
 - (2.) Because it is manifestly unjust to a very large number of the Colonists, who would be glad to invest £5, and the multiples of that sum, in Government Securities, but who are unable to make any investment therein, in consequence of the Government not issuing their Debentures in less amounts than that of £100 each, and who are thus deprived of the opportunity of investing their savings, at interest, in Government securities, to their loss, and that of the country, and to the benefit alone of the English capitalists.
 - (3.) Because, by allowing the small as well as the large capitalists, to compete for Government Securities, the number of competitors would probably be increased more than one hundred fold, and the Public would thus reap considerable benefit by the Government Securities, (so soon as they become generally known) being negotiated on much more favorable terms than at present.
 - (4.) Because of the serious loss to which the Public is subjected, in having to buy Bills on England, to provide for the principal and interest of the Debentures, which at the present rate of exchange, of 2 per cent. premium, amounts, with interest on the usance till the bills become due, to about 3½ per cent., exclusive of the London banker's commission of 10s. per £100.
 - (5.) And it is the opinion of this House, that in order to meet the convenience of the holders, and to effect a gradual reduction of the debt of the Colony, it is expedient for the future to receive, as cash, with the accrued interest thereto added, any Debentures that may hereafter be negotiated in payment for the purchase of public lands.
 - (6.) Further, that in order to give an increased currency to the Government Debentures, and to induce all persons throughout the Colony to receive them as Cash, so that they may, to a certain extent, supply the place of money, and obviate the necessity of negotiating any loans out of the Colony, it is desirable that the Government should make arrangements with one or more of the Banks, to purchase and sell the Debentures which may hereafter be negotiated, at fixed rates, (making a small margin between the buying and selling rates), and to fix the prices for the same, from time to time, according to the supply and demand.
 - (7.) That the above Resolutions be embodied in an Address, and presented, by the Honorable the Speaker, to His Excellency the Governor General.
2. MR. FLOOD to move,—
 - (1.) That a Select Committee be appointed to inquire into the best means of creating a Superannuation Fund for such Officers of the Civil Service of New South Wales as may be compelled to retire from their duties, through bodily or mental infirmity; and also, a Pension Fund, or other provision, for the Widows and Orphans of such Officers.
 - (2.) That such Committee consist of the following Members, viz.:—Mr. Jones, Mr. Plunkett, Mr. Parker, Mr. Marks, Mr. Weekes, Mr. Hay, Mr. Richardson, and Mr. Flood.
3. MR. WEEKES to move,—That in the opinion of this House, the construction of a Causeway across the Falls at West Maitland, which may answer the double purpose of a Dam for retaining the Water for the Town of West Maitland, and of a Roadway across the River, is a work of great necessity for the Inhabitants of that district;—and that Plans and Estimates for the undertaking should be prepared without delay.

4. MR. SCOTT to move:—
- (1.) That a Select Committee be appointed to inquire into the propriety of any alteration in the originally proposed Terminus of the Railroad at Newcastle; into the expense consequent thereon; and whether, in connexion with the Railway Terminus at Honeysuckle Point, and since the abandonment of the Jetty, any steps have been taken towards ascertaining the eligibility of Bullock Island as a site for the construction of Wharves, and whether any estimate has been made of the probable cost of such operations, in comparison with the contemplated outlay to be incurred by the present plan of the Commissioners.
 - (2.) That such Committee consist of Mr. Buckley, Mr. Flood, Mr. Gordon, Mr. Jones, Mr. Hay, Mr. Piddington, Mr. F. T. Rusden, Mr. Weekes, Mr. Arnold, and the Mover.

TUESDAY, NOVEMBER 18.

NOTICE OF MOTION:—

1. MR. HOLT to move,—
- (1.) That, it is, in the opinion of this House, the duty of the Legislature to use its utmost efforts to ensure (so far as it may be practicable) the Education of every Child in the Colony.
 - (2.) That the system hitherto pursued, of maintaining two separate Educational Establishments, known as the National and Denominational, and paying the Teachers by fixed Annual Salaries, is unsatisfactory, and is altogether inadequate to the requirements of the Colony, and ought to be abolished.
 - (3.) That in order to secure the services of respectable, energetic, and talented persons to educate the children of the Colony, it is necessary for the Government to remunerate them liberally (according to the nature and extent of their services), without imposing any conditions at all humiliating; so that the vocation of a Teacher in this Colony may be considered a highly honorable profession.
 - (4.) That the Schoolmasters or Schoolmistresses of every recognized Religious Denomination in the Colony shall be equally entitled to participate equitably in the monies appropriated by the Parliament for educational purposes; provided that such persons have been duly authorized as Schoolmasters or Schoolmistresses by the respective Denominations to which they belong. In the event of any religious Denomination withdrawing its Certificate from any of its Teachers, the Government, on receiving notice of the same, will forthwith cause all further remuneration to such Teacher to be discontinued.
 - (5.) That the general management of the monies appropriated by the Parliament for educational purposes, and the inspection of the Schools be vested in an Inspector General of Schools, with an ample staff of Inspectors and Assistant Inspectors, to enable him to cause every School in the Colony to be visited periodically and frequently.
 - (6.) That the duty of the Inspectors and Assistant Inspectors should be chiefly to visit all the Schools in the Colony, to make the most searching inquiries into their general management, and to ascertain what religious training the scholars receive, and also to examine the scholars periodically in secular learning. They will be required to make full reports on the state of the Schools and of their examinations of the scholars, (naming each scholar by name) and to state the progress each scholar may have made since the previous examination, and, if a new scholar, what his acquirements (if any) may be. This will, undoubtedly, prove a great stimulus to the scholars to strive to merit a favorable mention of them in the Inspector's Report. That Copies of the Inspector's Reports of the Schools, and of the scholars, be forwarded by the Inspector General of Schools, to the Head of that Denomination of Religionists to which the Reports may respectively refer, and the original deposited in the School Archives of the Colony. That each Inspector's Report of the Schools, but not the name of the Scholars, shall be considered as a privileged communication, and printed, if it be thought advisable.
 - 7.) That the religious training of the scholars, and the general management of the Schools be confined exclusively to the Denominations to which they respectively belong; and the duty of the Government Inspectors will be restricted to inspecting, investigating, and inquiring into, every thing connected with the Schools, as well as examining the scholars in secular learning, and reporting thereon; but in the event of two reports being received as to the bad management of any School, the Head of the religious body to which such School may belong, and also the Schoolmaster or Schoolmistress, will be warned that all further remuneration to him or her will be discontinued by the Government on the receipt of another unfavorable report from an Inspector.
 - (8.) That if any Schoolmaster or Schoolmistress decline to answer any questions that may be put to him or her by the Inspector General of Schools, or any of the Inspectors or Assistant Inspectors, with respect to his or her School, or refuse to allow any examination of the Scholars, or otherwise obstruct any of the Inspectors in the execution of his duty, or be guilty of gross neglect or immorality, the Government remuneration to such Schoolmaster or Schoolmistress shall forthwith absolutely cease. That if any Schoolmaster or Schoolmistress defraud or attempt to defraud the Government by false representations either as regards the number or attendance of the Scholars, he or she shall be deemed guilty of a misdemeanour, and punished.

(9.)

(9.) That in order to stimulate a friendly rivalry amongst the Teachers of the different Denominations, both as regards the number of the Scholars and the proficiency in learning in their respective Schools, and to induce them to hunt up every neglected child, and to prevail upon the parents to send it to School, it is expedient to remunerate the Schoolmasters and Schoolmistresses according to the following scale, viz. :—

For each Boy or Girl in the 3rd Class, at the rate of 10s. per Quarter	} For a full attendance.	
For each Boy or Girl in the 2nd Class, at the rate of 15s. per Quarter		} Ditto.
For each Boy or Girl in the 1st Class, at the rate of 20s. per Quarter		} Ditto.

Scholars of the 3rd Class are to be deemed those who are learning to read.

Scholars of the 2nd Class are to be deemed those who can read easy books, and who are learning to write.

Scholars of the 1st Class are to be deemed those who are able to read freely, and to write a fair hand. If boys, they must also be learning grammar, arithmetic, geography and history ; if girls, grammar, arithmetic, and needlework. The respective Classes of the scholars to be decided by the Inspector, after examination.

(10.) That no limit should be placed by the Government on the number of Schoolmasters or Schoolmistresses licensed by the respective Denominations, or the localities where they may be placed, as each Teacher will have to depend entirely upon his or her own exertions, and as it will be perfectly free to the people to seek education where they may please, the best Teachers will undoubtedly, in every place, get the largest number of Scholars, and this will give a universal stimulus to every religious Denomination to procure the very best Teachers, and also to the Teachers to exert themselves to the very utmost.

(11.) That the Parliamentary Draftsmen be instructed to prepare a Bill to carry out the intent and meaning of the above Resolutions, and that the same be submitted for the consideration of this House.

DANIEL COOPER,

Speaker.

14. Separation of the Northern Districts:—Mr. Hargrave moved, pursuant to *amended* notice,—
(1.) That this House has learnt with regret, that it is the intention of the Imperial Government to fix the southern boundary of the proposed new Colony of Moreton Bay at a line "south of the 30th parallel of south latitude."
(2.) That as the interests of the various Districts proposed to be included in the new Colony are not identical, this House is of opinion that, in defining the future boundary line of the Colony of Moreton Bay, it is the duty of the Imperial Government to consult the wishes of the several Districts proposed to be included in that Colony.
(3.) That while this House fully recognizes the propriety of the Imperial Government, in accordance with the presumed wish of the majority of the inhabitants of Moreton Bay and Darling Downs, erecting those Districts into a separate Colony, it submits that, on the same principle, it will be unjust to the inhabitants of New England and the Clarence River to include those Districts in such Colony, if they are averse to being so included.
(4.) That in the opinion of this House the interests and commercial connexion of New England and the Clarence River are now, and will continue to be, so completely identified with the Colony of New South Wales, and distinct from those of the Districts of Moreton Bay and Darling Downs, that, if the question whether the first-mentioned Districts shall be included in the new Colony be referred to the inhabitants of those Districts, a very large majority will be found to be opposed to their being so included; and, in support of such opinion, this House refers to the Petition, signed by 1551 Inhabitants of New England and Clarence River, praying for the establishment of an Assize Court at Armidale, in which Petition they assert that "they do not desire to be included in any section of the Northern Districts which may be separated from the present Colony of New South Wales"
(5.) That this House requests that the Imperial Government will defer the final settlement of the southern boundary line of the new Colony, until the opinion of the Inhabitants of the Districts of New England and the Clarence River, is ascertained upon the subject.
(6.) That the foregoing Resolutions be embodied in an Address to the Governor General, with a request that His Excellency will be pleased to transmit them to Her Majesty's Secretary of State for the Colonies at the earliest opportunity.
Debate ensued.

And the House having continued to sit till after midnight,—

THURSDAY, 6 NOVEMBER, 1856.

Debate continued.

And the Question being, *by consent*, amended in the third section,—

Question, as so amended, put,—

(1.) That this House has learnt with regret, that it is the intention of the Imperial Government to fix the southern boundary of the proposed new Colony of Moreton Bay at a line "south of the 30th parallel of south latitude."

(2.) That as the interests of the various Districts proposed to be included in the new Colony are not identical, this House is of opinion that, in defining the future boundary line of the Colony of Moreton Bay, it is the duty of the Imperial Government to consult the wishes of the several Districts proposed to be included in that Colony.

(3.) That while this House does not feel called upon to dispute the propriety of the Imperial Government erecting the Districts of Moreton Bay and Darling Downs into a separate Colony,—if in accordance with the expressed wish of the majority of the Inhabitants

Inhabitants thereof,—it submits that, on the same principle, it will be unjust to the Inhabitants of New England and the Clarence River to include those Districts in such Colony, if averse to their being so included.

(4.) That in the opinion of this House the interests and commercial connexion of New England and the Clarence River are now, and will continue to be, so completely identified with the Colony of New South Wales, and distinct from those of the Districts of Moreton Bay and Darling Downs, that, if the question whether the first-mentioned Districts shall be included in the new Colony be referred to the Inhabitants of those Districts, a very large majority will be found to be opposed to their being so included; and, in support of such opinion, this House refers to the Petition, signed by 1551 Inhabitants of New England and Clarence River, praying for the establishment of an Assize Court at Armidale, in which Petition they assert that “they do not desire to be included in any section of the Northern Districts which “may be separated from the present Colony of New South Wales.”

(5.) That this House requests that the Imperial Government will defer the final settlement of the southern boundary line of the new Colony, until the opinion of the Inhabitants of the Districts of New England and the Clarence River is ascertained upon the subject.

(6.) That the foregoing Resolutions be embodied in an Address to the Governor General, with a request that His Excellency will be pleased to transmit them to Her Majesty's Secretary of State for the Colonies at the earliest opportunity.

TUESDAY, NOVEMBER 11.

NOTICES OF MOTION :—

1. MR. HOLT to move,—
 - (1.) That the negotiation by the Government of Loans by the issue of Debentures, in sums of not less than £100 each, and making the principal and interest payable in Sydney, or London, at the option of the holder, without reference to the rates of exchange ruling between this Colony and England, is a bad financial measure, and ought not to be adopted by the Government.

(2.)

(2.) Because it is manifestly unjust to a very large number of the Colonists, who would be glad to invest £5, and the multiples of that sum, in Government Securities, but who are unable to make any investment therein, in consequence of the Government not issuing their Debentures in less amounts than that of £100 each, and who are thus deprived of the opportunity of investing their savings, at interest, in Government securities, to their loss, and that of the country, and to the benefit alone of the English capitalists.

(3.) Because, by allowing the small as well as the large capitalists, to compete for Government Securities, the number of competitors would probably be increased more than one hundred fold, and the Public would thus reap considerable benefit by the Government Securities, (so soon as they become generally known) being negotiated on much more favorable terms than at present.

(4.) Because of the serious loss to which the Public is subjected, in having to buy Bills on England, to provide for the principal and interest of the Debentures, which at the present rate of exchange, of 2 per cent. premium, amounts, with interest on the usance till the bills become due, to about $3\frac{3}{4}$ per cent., exclusive of the London banker's commission of 10s. per £100.

(5.) And it is the opinion of this House, that in order to meet the convenience of the holders, and to effect a gradual reduction of the debt of the Colony, it is expedient for the future to receive, as cash, with the accrued interest thereto added, any Debentures that may hereafter be negotiated in payment for the purchase of public lands.

(6.) Further, that in order to give an increased currency to the Government Debentures, and to induce all persons throughout the Colony to receive them as Cash, so that they may, to a certain extent, supply the place of money, and obviate the necessity of negotiating any loans out of the Colony, it is desirable that the Government should make arrangements with one or more of the Banks, to purchase and sell the Debentures which may hereafter be negotiated, at fixed rates, (making a small margin between the buying and selling rates), and to fix the prices for the same, from time to time, according to the supply and demand.

(7.) That the above Resolutions be embodied in an Address, and presented, by the Honorable the Speaker, to His Excellency the Governor General.

2. MR. FLOOD to move,—

(1.) That a Select Committee be appointed to inquire into the best means of creating a Superannuation Fund for such Officers of the Civil Service of New South Wales as may be compelled to retire from their duties, through bodily or mental infirmity; and also, a Pension Fund, or other provision, for the Widows and Orphans of such Officers.

3. MR. WEEKES to move.—That in the opinion of this House, the construction of a Causeway across the Falls at West Maitland, which may answer the double purpose of a Dam for retaining the Water for the Town of West Maitland, and of a Roadway across the River, is a work of great necessity for the Inhabitants of that district;—and that Plans and Estimates for the undertaking should be prepared without delay.

4. MR. SCOTT to move:—

(1.) That a Select Committee be appointed to inquire into the propriety of any alteration in the originally proposed Terminus of the Railroad at Newcastle; into the expense consequent thereon; and whether, in connexion with the Railway Terminus at Honeysuckle Point, and since the abandonment of the Jetty, any steps have been taken towards ascertaining the eligibility of Bullock Island as a site for the construction of Wharves, and whether any estimate has been made of the probable cost of such operations, in comparison with the contemplated outlay to be incurred by the present plan of the Commissioners.

(2.) That such Committee consist of Mr. Buckley, Mr. Flood, Mr. Gordon, Mr. Jones, Mr. Hay, Mr. Piddington, Mr. F. T. Rusden, Mr. Weekes, Mr. Arnold, and the Mover.

GOVERNMENT BUSINESS—ORDER OF THE DAY:—

1. Sydney Municipal Council Bill; second reading.

TUESDAY, NOVEMBER 18.

NOTICE OF MOTION:—

1. MR. HOLT to move,—
 - (1.) That, it is, in the opinion of this House, the duty of the Legislature to use its utmost efforts to ensure (so far as it may be practicable) the Education of every Child in the Colony.
 - (2.) That the system hitherto pursued, of maintaining two separate Educational Establishments, known as the National and Denominational, and paying the Teachers by fixed Annual Salaries, is unsatisfactory, and is altogether inadequate to the requirements of the Colony, and ought to be abolished.
 - (3.) That in order to secure the services of respectable, energetic, and talented persons to educate the children of the Colony, it is necessary for the Government to remunerate them liberally (according to the nature and extent of their services), without imposing any conditions at all humiliating; so that the vocation of a Teacher in this Colony may be considered a highly honorable profession.
 - (4.) That the Schoolmasters or Schoolmistresses of every recognized Religious Denomination in the Colony shall be equally entitled to participate equitably in the monies appropriated by the Parliament for educational purposes; provided that such persons have been duly authorized as Schoolmasters or Schoolmistresses by the respective Denominations to which they belong. In the event of any religious Denomination withdrawing its Certificate from any of its Teachers, the Government, on receiving notice of the same, will forthwith cause all further remuneration to such Teacher to be discontinued.
 - (5.) That the general management of the monies appropriated by the Parliament for educational purposes, and the inspection of the Schools be vested in an Inspector General of Schools, with an ample staff of Inspectors and Assistant Inspectors, to enable him to cause every School in the Colony to be visited periodically and frequently.
 - (6.) That the duty of the Inspectors and Assistant Inspectors should be chiefly to visit all the Schools in the Colony, to make the most searching inquiries into their general management, and to ascertain what religious training the scholars receive, and also to examine the scholars periodically in secular learning. They will be required to make full reports on the state of the Schools and of their examinations of the scholars, (naming each scholar by name) and to state the progress each scholar may have made since the previous examination, and, if a new scholar, what his acquirements (if any) may be. This will, undoubtedly, prove a great stimulus to the scholars to strive to merit a favorable mention of them in the Inspector's Report. That Copies of the Inspector's Reports of the Schools, and of the scholars, be forwarded by the Inspector General of Schools, to the Head of that Denomination of Religionists to which the Reports may respectively refer, and the original deposited in the School Archives of the Colony. That each Inspector's Report of the Schools, but not the name of the Scholars, shall be considered as a privileged communication, and printed, if it be thought advisable.
 - 7.) That the religious training of the scholars, and the general management of the Schools be confined exclusively to the Denominations to which they respectively belong; and the duty of the Government Inspectors will be restricted to inspecting, investigating, and inquiring into, every thing connected with the Schools, as well as examining the scholars in secular learning, and reporting thereon; but in the event of two reports being received as to the bad management of any School, the Head of the religious body to which such School may belong, and also the Schoolmaster or Schoolmistress, will be warned that all further remuneration to him or her will be discontinued by the Government on the receipt of another unfavorable report from an Inspector.
 - (8.) That if any Schoolmaster or Schoolmistress decline to answer any questions that may be put to him or her by the Inspector General of Schools, or any of the Inspectors or Assistant Inspectors, with respect to his or her School, or refuse to allow any examination of the Scholars, or otherwise obstruct any of the Inspectors in the execution of his duty, or be guilty of gross neglect or immorality, the Government remuneration to such Schoolmaster or Schoolmistress shall forthwith absolutely cease. That if any Schoolmaster or Schoolmistress defraud or attempt to defraud the Government by false representations either as regards the number or attendance of the Scholars, he or she shall be deemed guilty of a misdemeanour, and punished.
 - (9.) That in order to stimulate a friendly rivalry amongst the Teachers of the different Denominations, both as regards the number of the Scholars and the proficiency in learning in their respective Schools, and to induce them to hunt up every neglected child,

child, and to prevail upon the parents to send it to School, it is expedient to remunerate the Schoolmasters and Schoolmistresses according to the following scale, viz. :—

For each Boy or Girl in the 3rd Class, at the rate of 10s. per Quarter	} For a full attendance.	
For each Boy or Girl in the 2nd Class, at the rate of 15s. per Quarter		} Ditto.
For each Boy or Girl in the 1st Class, at the rate of 20s. per Quarter		

Scholars of the 3rd Class are to be deemed those who are learning to read.

Scholars of the 2nd Class are to be deemed those who can read easy books, and who are learning to write.

Scholars of the 1st Class are to be deemed those who are able to read freely, and to write a fair hand. If boys, they must also be learning grammar, arithmetic, geography and history; if girls, grammar, arithmetic, and needlework. The respective Classes of the scholars to be decided by the Inspector, after examination.

(10.) That no limit should be placed by the Government on the number of Schoolmasters or Schoolmistresses licensed by the respective Denominations, or the localities where they may be placed, as each Teacher will have to depend entirely upon his or her own exertions, and as it will be perfectly free to the people to seek education where they may please, the best Teachers will undoubtedly, in every place, get the largest number of Scholars, and this will give a universal stimulus to every religious Denomination to procure the very best Teachers, and also to the Teachers to exert themselves to the very utmost.

(11.) That the Parliamentary Draftsmen be instructed to prepare a Bill to carry out the intent and meaning of the above Resolutions, and that the same be submitted for the consideration of this House.

DANIEL COOPER,

Speaker.

TUESDAY, NOVEMBER 11.

NOTICES OF MOTION :—

1. Mr. HOLT to move,—

(1.) That the negotiation by the Government of Loans by the issue of Debentures, in sums of not less than £100 each, and making the principal and interest payable in Sydney, or London, at the option of the holder, without reference to the rates of exchange ruling between this Colony and England, is a bad financial measure, and ought not to be adopted by the Government.

(2.) Because it is manifestly unjust to a very large number of the Colonists, who would be glad to invest £5, and the multiples of that sum, in Government Securities, but who are unable to make any investment therein, in consequence of the Government not issuing their Debentures in less amounts than that of £100 each, and who are thus deprived of the opportunity of investing their savings, at interest, in Government securities, to their loss, and that of the country, and to the benefit alone of the English capitalists.

(3.) Because, by allowing the small as well as the large capitalists, to compete for Government Securities, the number of competitors would probably be increased more than one hundred fold, and the Public would thus reap considerable benefit by the Government Securities, (so soon as they become generally known) being negotiated on much more favorable terms than at present.

(4.) Because of the serious loss to which the Public is subjected, in having to buy Bills on England, to provide for the principal and interest of the Debentures, which at the present rate of exchange, of 2 per cent. premium, amounts, with interest on the usance till the bills become due, to about $3\frac{3}{4}$ per cent., exclusive of the London banker's commission of 10s. per £100.

(5.) And it is the opinion of this House, that in order to meet the convenience of the holders, and to effect a gradual reduction of the debt of the Colony, it is expedient for the future to receive, as cash, with the accrued interest thereto added, any Debentures that may hereafter be negotiated in payment for the purchase of public lands.

(6.) Further, that in order to give an increased currency to the Government Debentures, and to induce all persons throughout the Colony to receive them as Cash, so that they may, to a certain extent, supply the place of money, and obviate the necessity of negotiating any loans out of the Colony, it is desirable that the Government should make arrangements with one or more of the Banks, to purchase and sell the Debentures which may hereafter be negotiated, at fixed rates, (making a small margin between the buying and selling rates), and to fix the prices for the same, from time to time, according to the supply and demand.

(7.) That the above Resolutions be embodied in an Address, and presented, by the Honorable the Speaker, to His Excellency the Governor General.

2. Mr. FLOOD to move,—

(1.) That a Select Committee be appointed to inquire into the best means of creating a Superannuation Fund for such Officers of the Civil Service of New South Wales as may be compelled to retire from their duties, through bodily or mental infirmity; and also, a Pension Fund, or other provision, for the Widows and Orphans of such Officers.

(2.) That such Committee consist of the following Members, viz.:—Mr. Jones, Mr. Plunkett, Mr. Parker, Mr. Marks, Mr. Weekes, Mr. Hay, Mr. Richardson, and Mr. Flood.

3. Mr. WEEKES to move.—That in the opinion of this House, the construction of a Causeway across the Falls at West Maitland, which may answer the double purpose of a Dam for retaining the Water for the Town of West Maitland, and of a Roadway across the River, is a work of great necessity for the Inhabitants of that district;—and that Plans and Estimates for the undertaking should be prepared without delay.

(2.) That such Committee consist of Mr. Buckley, Mr. Flood, Mr. Gordon, Mr. Jones, Mr. Hay, Mr. Piddington, Mr. F. T. Rusden, Mr. Weekes, Mr. Arnold, and the Mover.

The respective Classes of the scholars to be decided by the Inspector, after examination.

(10.) That no limit should be placed by the Government on the number of Schoolmasters or Schoolmistresses licensed by the respective Denominations, or the localities where they may be placed, as each Teacher will have to depend entirely upon his or her own exertions, and as it will be perfectly free to the people to seek education where they may please, the best Teachers will undoubtedly, in every place, get the largest number of Scholars, and this will give a universal stimulus to every religious Denomination to procure the very best Teachers, and also to the Teachers to exert them selves to the very utmost.

(11.) That the Parliamentary Draftsmen be instructed to prepare a Bill to carry out the intent and meaning of the above Resolutions, and that the same be submitted for the consideration of this House.

NOTICES OF MOTION AND ORDERS OF THE DAY.

TUESDAY, NOVEMBER 11.

NOTICES OF MOTION :—

1. Mr. HOLT to move,—
- (1.) That the negotiation by the Government of Loans by the issue of Debentures, in sums of not less than £100 each, and making the principal and interest payable in Sydney, or London, at the option of the holder, without reference to the rates of exchange ruling between this Colony and England, is a bad financial measure, and ought not to be adopted by the Government.
- (2.) Because it is manifestly unjust to a very large number of the Colonists, who would be glad to invest £5, and the multiples of that sum, in Government Securities, but who are unable to make any investment therein, in consequence of the Government not issuing their Debentures in less amounts than that of £100 each, and who are thus deprived of the opportunity of investing their savings, at interest, in Government securities, to their loss, and that of the country, and to the benefit alone of the English capitalists.

(3.)

- (3.) Because, by allowing the small as well as the large capitalists, to compete for Government Securities, the number of competitors would probably be increased more than one hundred fold, and the Public would thus reap considerable benefit by the Government Securities, (so soon as they become generally known) being negotiated on much more favorable terms than at present.
- (4.) Because of the serious loss to which the Public is subjected, in having to buy Bills on England, to provide for the principal and interest of the Debentures, which at the present rate of exchange, of 2 per cent. premium, amounts, with interest on the usance till the bills become due, to about $3\frac{3}{4}$ per cent., exclusive of the London banker's commission of 10s. per £100.
- (5.) And it is the opinion of this House, that in order to meet the convenience of the holders, and to effect a gradual reduction of the debt of the Colony, it is expedient for the future to receive, as cash, with the accrued interest thereto added, any Debentures that may hereafter be negotiated in payment for the purchase of public lands.
- (6.) Further, that in order to give an increased currency to the Government Debentures, and to induce all persons throughout the Colony to receive them as Cash, so that they may, to a certain extent, supply the place of money, and obviate the necessity of negotiating any loans out of the Colony, it is desirable that the Government should make arrangements with one or more of the Banks, to purchase and sell the Debentures which may hereafter be negotiated, at fixed rates, (making a small margin between the buying and selling rates), and to fix the prices for the same, from time to time, according to the supply and demand.
- (7.) That the above Resolutions be embodied in an Address, and presented, by the Honorable the Speaker, to His Excellency the Governor General.
2. MR. FLOOD to move,—
- (1.) That a Select Committee be appointed to inquire into the best means of creating a Superannuation Fund for such Officers of the Civil Service of New South Wales as may be compelled to retire from their duties, through bodily or mental infirmity; and also, a Pension Fund, or other provision, for the Widows and Orphans of such Officers.
- (2.) That such Committee consist of the following Members, viz.:—Mr. Jones, Mr. Plunkett, Mr. Parker, Mr. Marks, Mr. Weekes, Mr. Hay, Mr. Richardson, and Mr. Flood.
3. MR. WEEKES to move, That in the opinion of this House, the construction of a Causeway across the Falls at West Maitland, which may answer the double purpose of a Dam for retaining the Water for the Town of West Maitland, and of a Roadway across the River, is a work of great necessity for the Inhabitants of that district;—and that Plans and Estimates for the undertaking should be prepared without delay.
4. MR. SCOTT to move:—
- (1.) That a Select Committee be appointed to inquire into the propriety of any alteration in the originally proposed Terminus of the Railroad at Newcastle; into the expense consequent thereon; and whether, in connexion with the Railway Terminus at Honeysuckle Point, and since the abandonment of the Jetty, any steps have been taken towards ascertaining the eligibility of Bullock Island as a site for the construction of Wharves, and whether any estimate has been made of the probable cost of such operations, in comparison with the contemplated outlay to be incurred by the present plan of the Commissioners.
- (2.) That such Committee consist of Mr. Buckley, Mr. Flood, Mr. Gordon, Mr. Jones, Mr. Hay, Mr. Piddington, Mr. F. T. Rusden, Mr. Weekes, Mr. Arnold, and the Mover.
5. MR. HELY to move, That the Petition of Mr. David Cross, presented by him on the 7th instant, be printed.
6. MR. T. G. RUSDEN to move,—
- (1.) That a Select Committee be appointed to examine the 67th, 72nd, and 73rd sections, and also the 59th and 61st sections of the Electoral Act of 1851, with a view to ascertain—first, whether these sections would enable any Committee of Elections and Qualifications to award costs to be paid by any Petitioner against the return of any writ of election; and, secondly, whether these sections would enable such Committee to award costs to be paid to any such Petitioner in any such case.
- (2.) That such Committee consist of Mr. Nichols, Mr. Plunkett, Mr. Manning, Mr. Hay, Mr. Macarthur, Mr. Marks, Mr. G. Maeleay, Mr. Forster, and the Mover.
7. MR. GARLAND to move, That the Petition from the Owners and Occupiers of Land in the District of Appin and East Bargo, presented by him on the 7th instant, be printed.

11. MR. ROBERTSON to move,—
- (1.) That a Select Committee be appointed to inquire into the arrangements for the purposes of Police, and the Administration of Justice in Courts of Petty Sessions in the Country Districts; and that it be an Instruction to such Committee to consider and report upon the best and most economical means of carrying on the general official business of such Districts.
- (2.) That such Committee consist of Mr. Nichols, Mr. Forster, Mr. Hay, Mr. Jones, Mr. Hely, Mr. Weekes, Mr. Manning, Mr. Piddington, Mr. Lang, and the Mover.
12. MR. T. G. RUSDEN to move, That an Address be presented to the Governor General, praying that His Excellency will be pleased to cause to be laid upon the Table of this House,

House, a Return shewing the different District Registrars that have been appointed in the various Districts, with the several removals and re-appointments that have taken place in those Districts, shewing, as nearly as possible, the station in life to which the parties so appointed belong.

FRIDAY, NOVEMBER 14.

NOTICE OF MOTION :—

1. MR. PARKES to move,—
(1.) That this House, with feelings of sincere and unmingled gratitude, recognises in the act of Her Most Gracious Majesty by which the transportation of British criminals to these Australian Colonies was made to cease and determine, the concession of a great and complete measure of justice which was sought by the unanimous prayers of the Colonists, and has been productive of general and permanent satisfaction.
(2.) That, in the opinion of this House, the compliance of Her Most Gracious Majesty with the prayers of the Colonists in the settlement of a question so long agitated, has greatly strengthened the feelings of loyalty and attachment to the Mother Country which happily exist in these communities, while the more material benefits which have resulted are visible in their vastly improved social condition, and in their rapid progress in political character and commercial prosperity.
(3.) That, in the opinion of this House, any steps on the part of Her Majesty's Government to revive the transportation of convicts to the northern portion of New South Wales, now about to be erected into a separate Colony, or to any of the Australian Colonies,

Colonies, would create universal discontent, and lead to consequences greatly to be deplored.

(4.) That the foregoing Resolutions be embodied in an Address to the Governor General, with a request that His Excellency will be pleased to transmit them to the Principal Secretary of State for the Colonies.

ORDER OF THE DAY:—

1. Claims against Government Bill ; second reading.

TUESDAY, NOVEMBER 18.

NOTICE OF MOTION:—

1. MR. HOLT to move,—

(1.) That, it is, in the opinion of this House, the duty of the Legislature to use its utmost efforts to ensure (so far as it may be practicable) the Education of every Child in the Colony.

(2.) That the system hitherto pursued, of maintaining two separate Educational Establishments, known as the National and Denominational, and paying the Teachers by fixed Annual Salaries, is unsatisfactory, and is altogether inadequate to the requirements of the Colony, and ought to be abolished.

(3.) That in order to secure the services of respectable, energetic, and talented persons to educate the children of the Colony, it is necessary for the Government to remunerate them liberally (according to the nature and extent of their services), without imposing any conditions at all humiliating ; so that the vocation of a Teacher in this Colony may be considered a highly honorable profession.

(4.) That the Schoolmasters or Schoolmistresses of every recognized Religious Denomination in the Colony shall be equally entitled to participate equitably in the monies appropriated by the Parliament for educational purposes ; provided that such persons have been duly authorized as Schoolmasters or Schoolmistresses by the respective Denominations to which they belong. In the event of any religious Denomination withdrawing its Certificate from any of its Teachers, the Government, on receiving notice of the same, will forthwith cause all further remuneration to such Teacher to be discontinued.

(5.) That the general management of the monies appropriated by the Parliament for educational purposes, and the inspection of the Schools be vested in an Inspector General of Schools, with an ample staff of Inspectors and Assistant Inspectors, to enable him to cause every School in the Colony to be visited periodically and frequently.

(6.) That the duty of the Inspectors and Assistant Inspectors should be chiefly to visit all the Schools in the Colony, to make the most searching inquiries into their general management, and to ascertain what religious training the scholars receive, and also to examine the scholars periodically in secular learning. They will be required to make full reports on the state of the Schools and of their examinations of the scholars, (naming each scholar by name) and to state the progress each scholar may have made since the previous examination, and, if a new scholar, what his acquirements (if any) may be. This will, undoubtedly, prove a great stimulus to the scholars to strive to merit a favorable mention of them in the Inspector's Report. That Copies of the Inspector's Reports of the Schools, and of the scholars, be forwarded by the Inspector General of Schools, to the Head of that Denomination of Religionists to which the Reports may respectively refer, and the original deposited in the School Archives of the Colony. That each Inspector's Report of the Schools, but not the name of the Scholars, shall be considered as a privileged communication, and printed, if it be thought advisable.

(7.) That the religious training of the scholars, and the general management of the Schools be confined exclusively to the Denominations to which they respectively belong ; and the duty of the Government Inspectors will be restricted to inspecting, investigating, and inquiring into, every thing connected with the Schools, as well as examining the scholars in secular learning, and reporting thereon ; but in the event of two reports being received as to the bad management of any School, the Head of the religious body to which such School may belong, and also the Schoolmaster or Schoolmistress, will be warned that all further remuneration to him or her will be discontinued by the Government on the receipt of another unfavorable report from an Inspector.

(8.) That if any Schoolmaster or Schoolmistress decline to answer any questions that may be put to him or her by the Inspector General of Schools, or any of the Inspectors or Assistant Inspectors, with respect to his or her School, or refuse to allow any examination of the Scholars, or otherwise obstruct any of the Inspectors in the execution of his duty, or be guilty of gross neglect or immorality, the Government remuneration to such Schoolmaster or Schoolmistress shall forthwith absolutely cease. That if any Schoolmaster or Schoolmistress defraud or attempt to defraud the Government by false representations either as regards the number or attendance of the Scholars, he or she shall be deemed guilty of a misdemeanour, and punished.

(9.) That in order to stimulate a friendly rivalry amongst the Teachers of the different Denominations, both as regards the number of the Scholars and the proficiency in learning in their respective Schools, and to induce them to hunt up every neglected child,

child, and to prevail upon the parents to send it to School, it is expedient to remunerate the Schoolmasters and Schoolmistresses according to the following scale, viz. :—

For each Boy or Girl in the 3rd Class, at the rate of 10s. per Quarter	} For a full attendance.	
For each Boy or Girl in the 2nd Class, at the rate of 15s. per Quarter		} Ditto.
For each Boy or Girl in the 1st Class, at the rate of 20s. per Quarter		

Scholars of the 3rd Class are to be deemed those who are learning to read.

Scholars of the 2nd Class are to be deemed those who can read easy books, and who are learning to write.

Scholars of the 1st Class are to be deemed those who are able to read freely, and to write a fair hand. If boys, they must also be learning grammar, arithmetic, geography and history; if girls, grammar, arithmetic, and needlework. The respective Classes of the scholars to be decided by the Inspector, after examination.

(10.) That no limit should be placed by the Government on the number of Schoolmasters or Schoolmistresses licensed by the respective Denominations, or the localities where they may be placed, as each Teacher will have to depend entirely upon his or her own exertions, and as it will be perfectly free to the people to seek education where they may please, the best Teachers will undoubtedly, in every place, get the largest number of Scholars, and this will give a universal stimulus to every religious Denomination to procure the very best Teachers, and also to the Teachers to exert themselves to the very utmost.

(11.) That the Parliamentary Draftsmen be instructed to prepare a Bill to carry out the intent and meaning of the above Resolutions, and that the same be submitted for the consideration of this House.

FRIDAY, NOVEMBER 21.

ORDER OF THE DAY :—

1. Scab and Catarrh in Sheep Bill; second reading.

The Governor General will, in accordance with the request contained in the Address of the Legislative Assembly of the 6th instant, transmit by the earliest opportunity to the Secretary of State, the Resolutions expressive of the opinion of the Assembly with relation to the Boundary Line separating New South Wales from a Colony which it is proposed to form out of the Districts surrounding Moreton Bay, and to the principle by which Her Majesty's Government should be guided in establishing this line of separation.
Government House, W. DENISON,
Sydney, 7 November, 1856. *Governor General.*
2. Committee of Elections and Qualifications:—The Speaker, pursuant to the requirement of the Electoral Act of 1851, laid upon the Table his Warrant appointing Terence Aubrey Murray, Esquire, a Member of the Committee of Elections and Qualifications for the present Session, of which the following is a copy:—
*“ By the Honorable the Speaker of the Legislative Assembly of
“ New South Wales*
*“ Pursuant to the power in that behalf vested in me, as Speaker of the Legislative
“ Assembly of New South Wales, by the Electoral Act of 1851, I do hereby appoint
“ Terence Aubrey Murray, Esquire, being a Member of the said Assembly, to be a
“ Member of the Committee of Elections and Qualifications in the said Act referred
“ to, during the present Session of the Assembly aforesaid.*
*“ Given under my Hand, at the Legislative Assembly Chamber,
“ Macquarie-street, Sydney, this eleventh day of November, in
“ the year of our Lord one thousand eight hundred and fifty-six.*
“ DANIEL COOPER,
Speaker.”

4. Dam across Wallis' Creek at East Maitland:—Mr. Piddington presented a Petition from certain Inhabitants of East Maitland, praying the construction of a Dam across Wallis' Creek, at East Maitland. Petition received.
5. Encroachments on Back Runs:—Mr. Lord presented a Petition from certain Tenants of the Crown, complaining of certain encroachments upon the back boundaries of their Runs, and praying the passing of some Law for the redress of this grievance. Petition received.
6. Denis Guerin:—Mr. Plunkett presented a Petition from Denis Guerin, complaining of a Return to an Address passed by the late Legislative Council in reference to persons dismissed from the employment of the late Corporation, and praying redress. Petition received.
7. Government Debentures:—Mr. Holt moved, pursuant to notice,—
(1.) That the negotiation by the Government of Loans by the issue of Debentures, in sums of not less than £100 each, and making the principal and interest payable in Sydney, or London, at the option of the holder, without reference to the rates of exchange ruling between this Colony and England, is a bad financial measure, and ought not to be adopted by the Government.
(2.) Because it is manifestly unjust to a very large number of the Colonists, who would be glad to invest £5, and the multiples of that sum, in Government Securities, but who are unable to make any investment therein, in consequence of the Government not issuing

issuing their Debentures in less amounts than that of £100 each, and who are thus deprived of the opportunity of investing their savings, at interest, in Government securities, to their loss, and that of the country, and to the benefit alone of the English capitalists.

(3.) Because, by allowing the small as well as the large capitalists, to compete for Government Securities, the number of competitors would probably be increased more than one hundred fold, and the Public would thus reap considerable benefit by the Government Securities, (so soon as they become generally known) being negotiated on much more favorable terms than at present.

(4.) Because of the serious loss to which the Public is subjected, in having to buy Bills on England, to provide for the principal and interest of the Debentures, which at the present rate of exchange, of 2 per cent. premium, amounts, with interest on the usance till the bills become due, to about $3\frac{1}{2}$ per cent., exclusive of the London banker's commission of 10s. per £100.

(5.) And it is the opinion of this House, that in order to meet the convenience of the holders, and to effect a gradual reduction of the debt of the Colony, it is expedient for the future to receive, as cash, with the accrued interest thereto added, any Debentures that may hereafter be negotiated, in payment for the purchase of public lands.

(6.) Further, that in order to give an increased currency to the Government Debentures, and to induce all persons throughout the Colony to receive them as Cash, so that they may, to a certain extent, supply the place of money, and obviate the necessity of negotiating any loans out of the Colony, it is desirable that the Government should make arrangements with one or more of the Banks, to purchase and sell the Debentures which may hereafter be negotiated, at fixed rates, (making a small margin between the buying and selling rates), and to fix the prices for the same, from time to time, according to the supply and demand.

(7.) That the above Resolutions be embodied in an Address, and presented, by the Honorable the Speaker, to His Excellency the Governor General.

FRIDAY, NOVEMBER 14.

NOTICES OF MOTION:—

1. Mr. PARKES to move,—

(1.) That this House, with feelings of sincere and unmingled gratitude, recognises in the act of Her Most Gracious Majesty by which the transportation of British criminals to these Australian Colonies was made to cease and determine, the concession of a great and complete measure of justice which was sought by the unanimous prayers of the Colonists, and has been productive of general and permanent satisfaction.

(2.) That, in the opinion of this House, the compliance of Her Most Gracious Majesty with the prayers of the Colonists in the settlement of a question so long agitated, has greatly strengthened the feelings of loyalty and attachment to the Mother Country which happily exist in these communities, while the more material benefits which have resulted are visible in their vastly improved social condition, and in their rapid progress in political character and commercial prosperity.

(3.) That, in the opinion of this House, any steps on the part of Her Majesty's Government to revive the transportation of convicts to the northern portion of New South Wales, now about to be erected into a separate Colony, or to any of the Australian Colonies, would create universal discontent, and lead to consequences greatly to be deplored.

(4.) That the foregoing Resolutions be embodied in an Address to the Governor General, with a request that His Excellency will be pleased to transmit them to the Principal Secretary of State for the Colonies.

2. Mr. WEEKES to move, That the Petition of the Inhabitants of Maitland, praying the immediate commencement of a Causeway over the Falls at West Maitland, presented by him on the 11th instant, be printed.

(1.) That a Select Committee be appointed to examine the 67th, 72nd, and 73rd sections, and also the 59th and 61st sections of the Electoral Act of 1851, with a view to ascertain—first, whether these sections would enable any Committee of Elections and Qualifications to award costs to be paid to any Petitioner against the return of any writ of election; and, secondly, whether these sections would enable such Committee to award costs to be paid to any such Petitioner in any such case.

(2.) That such Committee consist of Mr. Nichols, Mr. Plunkett, Mr. Manning, Mr. Hay, Mr. Macarthur, Mr. Marks, Mr. G. Macleay, Mr. Forster, and the Mover.

TUESDAY, NOVEMBER 18.

NOTICES OF MOTION:—

1. Mr. HOLT to move:—

(1.) That, it is, in the opinion of this House, the duty of the Legislature to use its utmost efforts to ensure (so far as it may be practicable) the Education of every Child in the Colony.

(2.) That the system hitherto pursued, of maintaining two separate Educational Establishments, known as the National and Denominational, and paying the Teachers by fixed Annual Salaries, is unsatisfactory, and is altogether inadequate to the requirements of the Colony, and ought to be abolished.

(3.) That in order to secure the services of respectable, energetic, and talented persons to educate the children of the Colony, it is necessary for the Government to remunerate them liberally (according to the nature and extent of their services), without imposing any conditions at all humiliating; so that the vocation of a Teacher in this Colony may be considered a highly honorable profession.

(4.) That the Schoolmasters or Schoolmistresses of every recognized Religious Denomination in the Colony shall be equally entitled to participate equitably in the monies appropriated by the Parliament for educational purposes; provided that such persons have been duly authorized as Schoolmasters or Schoolmistresses by the respective Denominations to which they belong. In the event of any religious Denomination withdrawing its Certificate from any of its Teachers, the Government, on receiving notice of the same, will forthwith cause all further remuneration to such Teacher to be discontinued.

(5.) That the general management of the monies appropriated by the Parliament for educational purposes, and the inspection of the Schools be vested in an Inspector General of Schools, with an ample staff of Inspectors and Assistant Inspectors, to enable him to cause every School in the Colony to be visited periodically and frequently.

(6.) That the duty of the Inspectors and Assistant Inspectors should be chiefly to visit all the Schools in the Colony, to make the most searching inquiries into their general management, and to ascertain what religious training the scholars receive, and also to examine the scholars periodically in secular learning. They will be required to make full reports on the state of the Schools and of their examinations of the scholars, (naming each scholar by name) and to state the progress each scholar may have made since the previous examination, and, if a new scholar, what his acquirements (if any) may be. This will, undoubtedly, prove a great stimulus to the scholars to strive to merit a favorable mention of them in the Inspector's Report. That Copies of the Inspector's Reports of the Schools, and of the scholars, be forwarded by the Inspector General of Schools, to the Head of that Denomination of Religionists to which the Reports may respectively refer, and the original deposited in the School Archives of the Colony. That each Inspector's Report of the Schools, but not the name of the Scholars, shall be considered as a privileged communication, and printed, if it be thought advisable.

(7.) That the religious training of the scholars, and the general management of the Schools be confined exclusively to the Denominations to which they respectively belong; and the duty of the Government Inspectors will be restricted to inspecting, investigating,

and

and inquiring into, every thing connected with the Schools, as well as examining the scholars in secular learning, and reporting thereon: but in the event of two reports being received as to the bad management of any School, the Head of the religious body to which such School may belong, and also the Schoolmaster or Schoolmistress, will be warned that all further remuneration to him or her will be discontinued by the Government on the receipt of another unfavorable report from an Inspector.

(8.) That if any Schoolmaster or Schoolmistress decline to answer any questions that may be put to him or her by the Inspector General of Schools, or any of the Inspectors or Assistant Inspectors, with respect to his or her School, or refuse to allow any examination of the Scholars, or otherwise obstruct any of the Inspectors in the execution of his duty, or be guilty of gross neglect or immorality, the Government remuneration to such Schoolmaster or Schoolmistress shall forthwith absolutely cease. That if any Schoolmaster or Schoolmistress defraud or attempt to defraud the Government by false representations either as regards the number or attendance of the Scholars, he or she shall be deemed guilty of a misdemeanour, and punished.

(9.) That in order to stimulate a friendly rivalry amongst the Teachers of the different Denominations, both as regards the number of the Scholars and the proficiency in learning in their respective Schools, and to induce them to hunt up every neglected child, and to prevail upon the parents to send it to School, it is expedient to remunerate the Schoolmasters and Schoolmistresses according to the following scale, viz. :—

For each Boy or Girl in the 3rd Class, at the rate of 10s. per Quarter	} For a full attendance.	
For each Boy or Girl in the 2nd Class, at the rate of 15s. per Quarter		} Ditto.
For each Boy or Girl in the 1st Class, at the rate of 20s. per Quarter		

Scholars of the 3rd Class are to be deemed those who are learning to read.

Scholars of the 2nd Class are to be deemed those who can read easy books, and who are learning to write.

Scholars of the 1st Class are to be deemed those who are able to read freely, and to write a fair hand. If boys, they must also be learning grammar, arithmetic, geography and history; if girls, grammar, arithmetic, and needlework. The respective Classes of the scholars to be decided by the Inspector, after examination.

(10.) That no limit should be placed by the Government on the number of Schoolmasters or Schoolmistresses licensed by the respective Denominations, or the localities where they may be placed, as each Teacher will have to depend entirely upon his or her own exertions, and as it will be perfectly free to the people to seek education where they may please, the best Teachers will undoubtedly, in every place, get the largest number of Scholars, and this will give a universal stimulus to every religious Denomination to procure the very best Teachers, and also to the Teachers to exert themselves to the very utmost.

(11.) That the Parliamentary Draftsmen be instructed to prepare a Bill to carry out the intent and meaning of the above Resolutions, and that the same be submitted for the consideration of this House.

2. MR. WEEKES to move, That in the opinion of this House, the construction of a Causeway across the Falls at West Maitland, which may answer the double purpose of providing a supply of fresh Water for that Town, and of a Roadway across the River, and the erection of a Dam across the mouth of Wallis' Creek, for the purpose of securing a supply of fresh Water to East Maitland, are works of indispensable necessity to the health and comfort of the Inhabitants of those Towns; and that plans and estimates of these undertakings should be prepared without delay.

OTHER BUSINESS—NOTICES OF MOTION:—

1. MR. PARKES to move,—
(1.) That this House, with feelings of sincere and unmingled gratitude, recognises in the act of Her Most Gracious Majesty by which the transportation of British criminals to these Australian Colonies was made to cease and determine, the concession of a great and complete measure of justice which was sought by the unanimous prayers of the Colonists, and has been productive of general and permanent satisfaction.
(2.) That, in the opinion of this House, the compliance of Her Most Gracious Majesty with the prayers of the Colonists in the settlement of a question so long agitated, has greatly strengthened the feelings of loyalty and attachment to the Mother Country which happily exist in these communities, while the more material benefits which have resulted are visible in their vastly improved social condition, and in their rapid progress in political character and commercial prosperity.
(3.) That, in the opinion of this House, any steps on the part of Her Majesty's Government to revive the transportation of convicts to the northern portion of New South Wales, now about to be erected into a separate Colony, or to any of the Australian Colonies, would create universal discontent, and lead to consequences greatly to be deplored.
(4.) That the foregoing Resolutions be embodied in an Address to the Governor General, with a request that His Excellency will be pleased to transmit them to the Principal Secretary of State for the Colonies.

 - (1.) TUESDAY, NOVEMBER 18.

Contingent Notice of Motion:—

1. MR. COWPER to move, (*upon Mr. Holt moving his Resolutions regarding Education*) as an Amendment,—for leave to bring in a Bill to promote Public Education.

NOTICES OF MOTION:—

1. MR. HOLT to move,—
 - (1.) That, it is, in the opinion of this House, the duty of the Legislature to use its utmost efforts to ensure (so far as it may be practicable) the Education of every Child in the Colony.
 - (2.) That the system hitherto pursued, of maintaining two separate Educational Establishments, known as the National and Denominational, and paying the Teachers by fixed Annual Salaries, is unsatisfactory, and is altogether inadequate to the requirements of the Colony, and ought to be abolished.
 - (3.) That in order to secure the services of respectable, energetic, and talented persons to educate the children of the Colony, it is necessary for the Government to remunerate them liberally (according to the nature and extent of their services), without imposing any conditions at all humiliating; so that the vocation of a Teacher in this Colony may be considered a highly honorable profession.
 - (4.) That the Schoolmasters or Schoolmistresses of every recognized Religious Denomination in the Colony shall be equally entitled to participate equitably in the monies appropriated by the Parliament for educational purposes; provided that such persons have been duly authorized as Schoolmasters or Schoolmistresses by the respective Denominations to which they belong. In the event of any religious Denomination withdrawing its Certificate from any of its Teachers, the Government, on receiving notice of the same, will forthwith cause all further remuneration to such Teacher to be discontinued.
 - (5.) That the general management of the monies appropriated by the Parliament for educational purposes, and the inspection of the Schools be vested in an Inspector General of Schools, with an ample staff of Inspectors and Assistant Inspectors, to enable

enable him to cause every School in the Colony to be visited periodically and frequently.

(6.) That the duty of the Inspectors and Assistant Inspectors should be chiefly to visit all the Schools in the Colony, to make the most searching inquiries into their general management, and to ascertain what religious training the scholars receive, and also to examine the scholars periodically in secular learning. They will be required to make full reports on the state of the Schools and of their examinations of the scholars, (naming each scholar by name) and to state the progress each scholar may have made since the previous examination, and, if a new scholar, what his acquirements (if any) may be. This will, undoubtedly, prove a great stimulus to the scholars to strive to merit a favorable mention of them in the Inspector's Report. That Copies of the Inspector's Reports of the Schools, and of the scholars, be forwarded by the Inspector General of Schools, to the Head of that Denomination of Religionists to which the Reports may respectively refer, and the original deposited in the School Archives of the Colony. That each Inspector's Report of the Schools, but not the name of the Scholars, shall be considered as a privileged communication, and printed, if it be thought advisable.

(7.) That the religious training of the scholars, and the general management of the Schools be confined exclusively to the Denominations to which they respectively belong; and the duty of the Government Inspectors will be restricted to inspecting, investigating, and inquiring into, every thing connected with the Schools, as well as examining the scholars in secular learning, and reporting thereon; but in the event of two reports being received as to the bad management of any School, the Head of the religious body to which such School may belong, and also the Schoolmaster or Schoolmistress, will be warned that all further remuneration to him or her will be discontinued by the Government on the receipt of another unfavorable report from an Inspector.

(8.) That if any Schoolmaster or Schoolmistress decline to answer any questions that may be put to him or her by the Inspector General of Schools, or any of the Inspectors or Assistant Inspectors, with respect to his or her School, or refuse to allow any examination of the Scholars, or otherwise obstruct any of the Inspectors in the execution of his duty, or be guilty of gross neglect or immorality, the Government remuneration to such Schoolmaster or Schoolmistress shall forthwith absolutely cease. That if any Schoolmaster or Schoolmistress defraud or attempt to defraud the Government by false representations either as regards the number or attendance of the Scholars, he or she shall be deemed guilty of a misdemeanour, and punished.

(9.) That in order to stimulate a friendly rivalry amongst the Teachers of the different Denominations, both as regards the number of the Scholars and the proficiency in learning in their respective Schools, and to induce them to hunt up every neglected child, and to prevail upon the parents to send it to School, it is expedient to remunerate the Schoolmasters and Schoolmistresses according to the following scale, viz. :—

For each Boy or Girl in the 3rd Class, at the rate of 10s. per Quarter	} For a full attendance.	
For each Boy or Girl in the 2nd Class, at the rate of 15s. per Quarter		} Ditto.
For each Boy or Girl in the 1st Class, at the rate of 20s. per Quarter		

Scholars of the 3rd Class are to be deemed those who are learning to read.

Scholars of the 2nd Class are to be deemed those who can read easy books, and who are learning to write.

Scholars of the 1st Class are to be deemed those who are able to read freely, and to write a fair hand. If boys, they must also be learning grammar, arithmetic, geography and history; if girls, grammar, arithmetic, and needlework. The respective Classes of the scholars to be decided by the Inspector, after examination.

(10.) That no limit should be placed by the Government on the number of Schoolmasters or Schoolmistresses licensed by the respective Denominations, or the localities where they may be placed, as each Teacher will have to depend entirely upon his or her own exertions, and as it will be perfectly free to the people to seek education where they may please, the best Teachers will undoubtedly, in every place, get the largest number of Scholars, and this will give a universal stimulus to every religious Denomination to procure the very best Teachers, and also to the Teachers to exert themselves to the very utmost.

(11.) That the Parliamentary Draftsmen be instructed to prepare a Bill to carry out the intent and meaning of the above Resolutions, and that the same be submitted for the consideration of this House.

2. MR. WEEKES to move, That in the opinion of this House, the construction of a Causeway across the Falls at West Maitland, which may answer the double purpose of providing a supply of fresh Water for that Town, and of a Roadway across the River, and the erection of a Dam across the mouth of Wallis' Creek, for the purpose of securing a supply of fresh Water to East Maitland, are works of indispensable necessity to the health and comfort of the Inhabitants of those Towns; and that plans and estimates of these undertakings should be prepared without delay.
3. MR. HELY to move, That an Address be presented to the Governor General, praying that His Excellency will be pleased to place upon the Estimates for the ensuing year, a sum of money as a pension to Lady Mitchell, widow of the late Sir T. L. Mitchell, Surveyor General of New South Wales.

4. MR. HOLT to move:—

(1.) That it is, in the opinion of this House, desirable, on account of its vast importance, to encourage by every legitimate means the cultivation of the Cotton plant in New South Wales.

(2.) That this House considers that a desirable and effectual mode of giving such encouragement would be the offer of Land Remission Orders of £5 each for the first 1000 bales of 240lbs. each of clean merchantable cotton,—such Remission Orders to be respectively receivable for Lands in the Districts in which the cotton shall have been grown, for which the prizes are awarded.

(3.) That the above Resolutions be embodied in an Address to be presented to His Excellency the Governor General by the Honorable the Speaker.

The Clerk Summoned:—The Speaker having informed the House that the Clerk had been summoned to attend the Police Office, at Parramatta, at ten o'clock, on Monday, the 17th instant, there and then to produce certain Voting Papers duly transmitted to him, under the 46th section of the Electoral Act of 1851, in a case of personation, and in two cases of false answer; and having reminded the House that the Clerk could not comply with such Summons without leave of this House; and having added that it would impede the business of the House if the Clerk were to attend personally, in compliance with this Summons,—

4. Transportation:—Mr. Parkes moved, pursuant to *amended* notice,—
(1.) That this House, with feelings of sincere and unmingled gratitude, recognises in the act of Her Most Gracious Majesty, by which the transportation of British criminals to these Australian Colonies was made to cease and determine, the concession of a great and complete measure of justice which was sought by the unanimous prayers of the Colonists, and has been productive of general and permanent satisfaction.
(2.) That, in the opinion of this House, the compliance of Her Most Gracious Majesty with the prayers of the Colonists, in the settlement of a question so long agitated, while it has confirmed the feelings of loyalty and attachment to the Mother Country which happily exist in these communities, has led to the most beneficial results, in their vastly improved social condition, and their rapid progress in political character and commercial prosperity.
(3.) That, in the opinion of this House, any steps on the part of Her Majesty's Government to revive the transportation of convicts to the northern portion of New South Wales, or to any part of Eastern Australia or the islands adjacent, would be regarded as a breach of faith by the Colonists,—would create universal discontent,—and lead to consequences greatly to be deplored.

NOTICES OF MOTION AND ORDERS OF THE DAY.

TUESDAY, NOVEMBER 18.

Contingent Notice of Motion:—

1. MR. COWPER to move, (*upon Mr. Holt moving his Resolutions regarding Education*) as an Amendment,—for leave to bring in a Bill to promote Public Education.

OTHER BUSINESS—NOTICES OF MOTION:—

1. MR. HOLT to move,—
- (1.) That, it is, in the opinion of this House, the duty of the Legislature to use its utmost efforts to ensure (so far as it may be practicable) the Education of every Child in the Colony.
 - (2.) That the system hitherto pursued, of maintaining two separate Educational Establishments, known as the National and Denominational, and paying the Teachers by fixed Annual Salaries, is unsatisfactory, and is altogether inadequate to the requirements of the Colony, and ought to be abolished.
 - (3.) That in order to secure the services of respectable, energetic, and talented persons to educate the children of the Colony, it is necessary for the Government to remunerate them liberally (according to the nature and extent of their services), without imposing any conditions at all humiliating; so that the vocation of a Teacher in this Colony may be considered a highly honorable profession.
 - (4.) That the Schoolmasters or Schoolmistresses of every recognized Religious Denomination in the Colony shall be equally entitled to participate equitably in the monies appropriated by the Parliament for educational purposes; provided that such persons have been duly authorized as Schoolmasters or Schoolmistresses by the respective Denominations to which they belong. In the event of any religious Denomination withdrawing its Certificate from any of its Teachers, the Government, on receiving notice of the same, will forthwith cause all further remuneration to such Teacher to be discontinued.
 - (5.) That the general management of the monies appropriated by the Parliament for educational purposes, and the inspection of the Schools be vested in an Inspector General of Schools, with an ample staff of Inspectors and Assistant Inspectors, to enable him to cause every School in the Colony to be visited periodically and frequently.
 - (6.) That the duty of the Inspectors and Assistant Inspectors should be chiefly to visit all the Schools in the Colony, to make the most searching inquiries into their general management, and to ascertain what religious training the scholars receive, and also to examine the scholars periodically in secular learning. They will be required to make full reports on the state of the Schools and of their examinations of the scholars, (naming each scholar by name) and to state the progress each scholar may have made since the previous examination, and, if a new scholar, what his acquirements (if any) may be. This will, undoubtedly, prove

prove a great stimulus to the scholars to strive to merit a favorable mention of them in the Inspector's Report. That Copies of the Inspector's Reports of the Schools, and of the scholars, be forwarded by the Inspector General of Schools, to the Head of that Denomination of Religionists to which the Reports may respectively refer, and the original deposited in the School Archives of the Colony. That each Inspector's Report of the Schools, but not the name of the Scholars, shall be considered as a privileged communication, and printed, if it be thought advisable.

(7.) That the religious training of the scholars, and the general management of the Schools be confined exclusively to the Denominations to which they respectively belong; and the duty of the Government Inspectors will be restricted to inspecting, investigating, and inquiring into, every thing connected with the Schools, as well as examining the scholars in secular learning, and reporting thereon; but in the event of two reports being received as to the bad management of any School, the Head of the religious body to which such School may belong, and also the Schoolmaster or Schoolmistress, will be warned that all further remuneration to him or her will be discontinued by the Government on the receipt of another unfavorable report from an Inspector.

(8.) That if any Schoolmaster or Schoolmistress decline to answer any questions that may be put to him or her by the Inspector General of Schools, or any of the Inspectors or Assistant Inspectors, with respect to his or her School, or refuse to allow any examination of the Scholars, or otherwise obstruct any of the Inspectors in the execution of his duty, or be guilty of gross neglect or immorality, the Government remuneration to such Schoolmaster or Schoolmistress shall forthwith absolutely cease. That if any Schoolmaster or Schoolmistress defraud or attempt to defraud the Government by false representations either as regards the number or attendance of the Scholars, he or she shall be deemed guilty of a misdemeanour, and punished.

(9.) That in order to stimulate a friendly rivalry amongst the Teachers of the different Denominations, both as regards the number of the Scholars and the proficiency in learning in their respective Schools, and to induce them to hunt up every neglected child, and to prevail upon the parents to send it to School, it is expedient to remunerate the Schoolmasters and Schoolmistresses according to the following scale, viz. :—

For each Boy or Girl in the 3rd Class, at the rate of 10s. per Quarter	} For a full attendance.	
For each Boy or Girl in the 2nd Class, at the rate of 15s. per Quarter		} Ditto
For each Boy or Girl in the 1st Class, at the rate of 20s. per Quarter		

Scholars of the 3rd Class are to be deemed those who are learning to read.

Scholars of the 2nd Class are to be deemed those who can read easy books, and who are learning to write.

Scholars of the 1st Class are to be deemed those who are able to read freely, and to write a fair hand. If boys, they must also be learning grammar, arithmetic, geography and history; if girls, grammar, arithmetic, and needlework. The respective Classes of the scholars to be decided by the Inspector, after examination.

(10.) That no limit should be placed by the Government on the number of Schoolmasters or Schoolmistresses licensed by the respective Denominations, or the localities where they may be placed, as each Teacher will have to depend entirely upon his or her own exertions, and as it will be perfectly free to the people to seek education where they may please, the best Teachers will undoubtedly, in every place, get the largest number of Scholars, and this will give a universal stimulus to every religious Denomination to procure the very best Teachers, and also to the Teachers to exert themselves to the very utmost.

(11.) That the Parliamentary Draftsmen be instructed to prepare a Bill to carry out the intent and meaning of the above Resolutions, and that the same be submitted for the consideration of this House.

2. MR. WEEKES to move, That in the opinion of this House, the construction of a Causeway across the Falls at West Maitland, which may answer the double purpose of providing a supply of fresh Water for that Town, and of a Roadway across the River, and the erection of a Dam across the mouth of Wallis' Creek, for the purpose of securing a supply of fresh Water to East Maitland, are works of indispensable necessity to the health and comfort of the Inhabitants of those Towns; and that plans and estimates of these undertakings should be prepared without delay.
3. MR. HELY to move, That an Address be presented to the Governor General, praying that His Excellency will be pleased to place upon the Estimates for the ensuing year, a sum of money as a pension to Lady Mitchell, widow of the late Sir T. L. Mitchell, Surveyor General of New South Wales.
4. MR. HOLT to move:—

(1.) That it is, in the opinion of this House, desirable, on account of its vast importance, to encourage by every legitimate means the cultivation of the Cotton plant in New South Wales.

(2.) That this House considers that a desirable and effectual mode of giving such encouragement would be the offer of Land Remission Orders of £5 each for the first 1000 bales of 240lbs. each of clean merchantable cotton,—such Remission Orders to be respectively receivable for Lands in the Districts in which the cotton shall have been grown, for which the prizes are awarded.

(3.) That the above Resolutions be embodied in an Address to be presented to His Excellency the Governor General by the Honorable the Speaker.

5. MR. FORSTER to move, That a Petition, signed by 205 Inhabitants of the District of Queanbeyan, praying for the appointment of a Police Magistrate for that Town, be referred for consideration to the Select Committee appointed to inquire into the Police, and Administration of Justice in the Country Districts.

1. MR. COWPER to move, (*upon Mr. Holt moving his Resolutions regarding Education*) as an Amendment,—for leave to bring in a Bill to promote Public Education.

NOTICES OF MOTION :—

1. MR. FORSTER to move for leave to bring in a Bill to declare in what cases Bills may be reserved by the Governor, for the signification of Her Majesty's pleasure thereon, and to define the period within which Bills may be disallowed by Her Majesty, after having been assented to by the Governor, in Her Majesty's name.

2.

2. MR. HOLT to move,—

(1.) That, it is, in the opinion of this House, the duty of the Legislature to use its utmost efforts to ensure (so far as it may be practicable) the Education of every Child in the Colony.

(2.) That the system hitherto pursued, of maintaining two separate Educational Establishments, known as the National and Denominational, and paying the Teachers by fixed Annual Salaries, is unsatisfactory, and is altogether inadequate to the requirements of the Colony, and ought to be abolished.

(3.) That in order to secure the services of respectable, energetic, and talented persons to educate the children of the Colony, it is necessary for the Government to remunerate them liberally (according to the nature and extent of their services), without imposing any conditions at all humiliating; so that the vocation of a Teacher in this Colony may be considered a highly honorable profession.

(4.) That the Schoolmasters or Schoolmistresses of every recognized Religious Denomination in the Colony shall be equally entitled to participate equitably in the monies appropriated by the Parliament for educational purposes; provided that such persons have been duly authorized as Schoolmasters or Schoolmistresses by the respective Denominations to which they belong. In the event of any religious Denomination withdrawing its Certificate from any of its Teachers, the Government, on receiving notice of the same, will forthwith cause all further remuneration to such Teacher to be discontinued.

(5.) That the general management of the monies appropriated by the Parliament for educational purposes, and the inspection of the Schools be vested in an Inspector General of Schools, with an ample staff of Inspectors and Assistant Inspectors, to enable him to cause every School in the Colony to be visited periodically and frequently.

(6.) That the duty of the Inspectors and Assistant Inspectors should be chiefly to visit all the Schools in the Colony, to make the most searching inquiries into their general management, and to ascertain what religious training the scholars receive, and also to examine the scholars periodically in secular learning. They will be required to make full reports on the state of the Schools and of their examinations of the scholars, (naming each scholar by name) and to state the progress each scholar may have made since the previous examination, and, if a new scholar, what his acquirements (if any) may be. This will, undoubtedly, prove a great stimulus to the scholars to strive to merit a favorable mention of them in the Inspector's Report. That Copies of the Inspector's Reports of the Schools, and of the scholars, be forwarded by the Inspector General of Schools, to the Head of that Denomination of Religionists to which the Reports may respectively refer, and the original deposited in the School Archives of the Colony. That each Inspector's Report of the Schools, but not the name of the Scholars, shall be considered as a privileged communication, and printed, if it be thought advisable.

(7.) That the religious training of the scholars, and the general management of the Schools be confined exclusively to the Denominations to which they respectively belong; and the duty of the Government Inspectors will be restricted to inspecting, investigating, and inquiring into, every thing connected with the Schools, as well as examining the scholars in secular learning, and reporting thereon; but in the event of two reports being received as to the bad management of any School, the Head of the religious body to which such School may belong, and also the Schoolmaster or Schoolmistress, will be warned that all further remuneration to him or her will be discontinued by the Government on the receipt of another unfavorable report from an Inspector.

(8.) That if any Schoolmaster or Schoolmistress decline to answer any questions that may be put to him or her by the Inspector General of Schools,* or any of the Inspectors or Assistant Inspectors, with respect to his or her School, or refuse to allow any examination of the Scholars, or otherwise obstruct any of the Inspectors in the execution of his duty, or be guilty of gross neglect or immorality, the Government remuneration to such Schoolmaster or Schoolmistress shall forthwith absolutely cease. That if any Schoolmaster or Schoolmistress defraud or attempt to defraud the Government by false representations either as regards the number or attendance of the Scholars, he or she shall be deemed guilty of a misdemeanour, and punished.

(9.) That in order to stimulate a friendly rivalry amongst the Teachers of the different Denominations, both as regards the number of the Scholars and the proficiency in learning in their respective Schools, and to induce them to hunt up every neglected child, and to prevail upon the parents to send it to School, it is desirable to remunerate the Schoolmasters and Schoolmistresses according to the following scale, viz. :—

For each Boy or Girl in the 3rd Class, at the rate of 10s. per Quarter	} For a full attendance.	
For each Boy or Girl in the 2nd Class, at the rate of 15s. per Quarter		} Ditto
For each Boy or Girl in the 1st Class, at the rate of 20s. per Quarter		} Ditto.

Scholars of the 3rd Class are to be deemed those who are learning to read.

Scholars of the 2nd Class are to be deemed those who can read easy books, and who are learning to write.

Scholars of the 1st Class are to be deemed those who are able to read freely, and to write a fair hand. If boys, they must also be learning grammar, arithmetic, geography and history; if girls, grammar, arithmetic, and needlework. The respective Classes of the scholars to be decided by the Inspector, after examination.

(10.) That no limit should be placed by the Government on the number of Schoolmasters or Schoolmistresses licensed by the respective Denominations, or the localities where they may be placed, as each Teacher will have to depend entirely upon his or her own exertions, and as it will be perfectly free to the people to seek education where they may please, the best Teachers will undoubtedly, in every place, get the largest number of Scholars, and this will give a universal stimulus to every religious Denomination to procure the very best Teachers, and also to the Teachers to exert themselves to the very utmost.

(11.) That the Parliamentary Draftsmen be instructed to prepare a Bill embodying the above Resolutions.

ORDER OF THE DAY :—

1. Australian Trust Company's Bill : second reading.

TUESDAY, NOVEMBER 25.

Contingent Notice of Motion:—

1. MR. COWPER to move, (upon Mr. Holt moving his Resolutions regarding Education) as an Amendment,—for leave to bring in a Bill to promote Public Education.

OTHER BUSINESS—NOTICES OF MOTION:—

1. MR. FORSTER to move for leave to bring in a Bill to declare in what cases Bills may be reserved by the Governor, for the signification of Her Majesty's pleasure thereon, and to define the period within which Bills may be disallowed by Her Majesty, after having been assented to by the Governor, in Her Majesty's name.
2. MR. HOLT to move,—
 - (1.) That, it is, in the opinion of this House, the duty of the Legislature to use its utmost efforts to ensure (so far as it may be practicable) the Education of every Child in the Colony.
 - (2.) That the system hitherto pursued, of maintaining two separate Educational Establishments, known as the National and Denominational, and paying the Teachers by fixed Annual Salaries, is unsatisfactory, and is altogether inadequate to the requirements of the Colony, and ought to be abolished.
 - (3.) That in order to secure the services of respectable, energetic, and talented persons to educate the children of the Colony, it is necessary for the Government to remunerate them liberally (according to the nature and extent of their services), without imposing any conditions at all humiliating; so that the vocation of a Teacher in this Colony may be considered a highly honorable profession.
 - (4.) That the Schoolmasters or Schoolmistresses of every recognized Religious Denomination in the Colony shall be equally entitled to participate equitably in the monies appropriated by the Parliament for educational purposes; provided that such persons have been duly authorized as Schoolmasters or Schoolmistresses by the respective Denominations to which they belong. In the event of any religious Denomination withdrawing its Certificate from any of its Teachers, the Government, on receiving notice of the same, will forthwith cause all further remuneration to such Teacher to be discontinued.

(5.)

(5.) That the general management of the monies appropriated by the Parliament for educational purposes, and the inspection of the Schools be vested in an Inspector General of Schools, with an ample staff of Inspectors and Assistant Inspectors, to enable him to cause every School in the Colony to be visited periodically and frequently.

(6.) That the duty of the Inspectors and Assistant Inspectors should be chiefly to visit all the Schools in the Colony, to make the most searching inquiries into their general management, and to ascertain what religious training the scholars receive, and also to examine the scholars periodically in secular learning. They will be required to make full reports on the state of the Schools and of their examinations of the scholars, (naming each scholar by name) and to state the progress each scholar may have made since the previous examination, and, if a new scholar, what his acquirements (if any) may be. This will, undoubtedly, prove a great stimulus to the scholars to strive to merit a favorable mention of them in the Inspector's Report. That Copies of the Inspector's Reports of the Schools, and of the scholars, be forwarded by the Inspector General of Schools, to the Head of that Denomination of Religionists to which the Reports may respectively refer, and the original deposited in the School Archives of the Colony. That each Inspector's Report of the Schools, but not the name of the Scholars, shall be considered as a privileged communication, and printed, if it be thought advisable.

(7.) That the religious training of the scholars, and the general management of the Schools be confined exclusively to the Denominations to which they respectively belong; and the duty of the Government Inspectors will be restricted to inspecting, investigating, and inquiring into, every thing connected with the Schools, as well as examining the scholars in secular learning, and reporting thereon; but in the event of two reports being received as to the bad management of any School, the Head of the religious body to which such School may belong, and also the Schoolmaster or Schoolmistress, will be warned that all further remuneration to him or her will be discontinued by the Government on the receipt of another unfavorable report from an Inspector.

(8.) That if any Schoolmaster or Schoolmistress decline to answer any questions that may be put to him or her by the Inspector General of Schools, or any of the Inspectors' or Assistant Inspectors, with respect to his or her School, or refuse to allow any examination of the Scholars, or otherwise obstruct any of the Inspectors in the execution of his duty, or be guilty of gross neglect or immorality, the Government remuneration to such Schoolmaster or Schoolmistress shall forthwith absolutely cease. That if any Schoolmaster or Schoolmistress defraud or attempt to defraud the Government by false representations either as regards the number or attendance of the Scholars, he or she shall be deemed guilty of a misdemeanour, and punished.

(9.) That in order to stimulate a friendly rivalry amongst the Teachers of the different Denominations, both as regards the number of the Scholars and the proficiency in learning in their respective Schools, and to induce them to hunt up every neglected child, and to prevail upon the parents to send it to School, it is desirable to remunerate the Schoolmasters and Schoolmistresses according to the following scale, viz. :—

For each Boy or Girl in the 3rd Class, at the rate of 10s. per Quarter	} For a full attendance.	
For each Boy or Girl in the 2nd Class, at the rate of 15s. per Quarter		} Ditto
For each Boy or Girl in the 1st Class, at the rate of 20s. per Quarter		

Scholars of the 3rd Class are to be deemed those who are learning to read.

Scholars of the 2nd Class are to be deemed those who can read easy books, and who are learning to write.

Scholars of the 1st Class are to be deemed those who are able to read freely, and to write a fair hand. If boys, they must also be learning grammar, arithmetic, geography and history; if girls, grammar, arithmetic, and needlework. The respective Classes of the scholars to be decided by the Inspector, after examination.

(10.) That no limit should be placed by the Government on the number of Schoolmasters or Schoolmistresses licensed by the respective Denominations, or the localities where they may be placed, as each Teacher will have to depend entirely upon his or her own exertions, and as it will be perfectly free to the people to seek education where they may please, the best Teachers will undoubtedly, in every place, get the largest number of Scholars, and this will give a universal stimulus to every religious Denomination to procure the very best Teachers, and also to the Teachers to exert themselves to the very utmost.

(11.) That the Parliamentary Draftsmen be instructed to prepare a Bill embodying the above Resolutions.

3. Mr. GEORGE MACLEAY to move, That an Address be presented to the Governor General, praying that His Excellency will cause to be laid upon the Table of this House Copies of all Correspondence that has passed between the Government and the Commissioner of Crown Lands for the Murrumbidgee District, and between that Officer and Mr. Abraham Watson, on the subject of a Road cut by the latter gentleman over the Windmoe Range to the Adelong Diggings.

Contingent Notice of Motion :—

1. MR. COWPER to move, (upon Mr. Holt moving his Resolutions regarding Education) as an Amendment,—for leave to bring in a Bill to promote Public Education.

OTHER BUSINESS—NOTICES OF MOTION :—

1. MR. FORSTER to move for leave to bring in a Bill to declare in what cases Bills may be reserved by the Governor, for the signification of Her Majesty's pleasure thereon, and to define the period within which Bills may be disallowed by Her Majesty, after having been assented to by the Governor, in Her Majesty's name.
2. MR. HOLT to move,—
 - (1.) That, it is, in the opinion of this House, the duty of the Legislature to use its utmost efforts to ensure (so far as it may be practicable) the Education of every Child in the Colony.

(2.)

(2.) That the system hitherto pursued, of maintaining two separate Educational Establishments, know as the National and Denominational, and paying the Teachers by fixed Annual Salaries, is unsatisfactory, and is altogether inadequate to the requirements of the Colony, and ought to be abolished.

(3.) That in order to secure the services of respectable, energetic, and talented persons to educate the children of the Colony, it is necessary for the Government to remunerate them liberally (according to the nature and extent of their services), without imposing any conditions at all humiliating; so that the vocation of a Teacher in this Colony may be considered a highly honorable profession.

(4.) That the Schoolmasters or Schoolmistresses of every recognized Religious Denomination in the Colony shall be equally entitled to participate equitably in the monies appropriated by the Parliament for educational purposes; provided that such persons have been duly authorised as Schoolmasters or Schoolmistresses by the respective Denominations to which they belong. In the event of any religious Denomination withdrawing its Certificate from any of its Teachers, the Government, on receiving notice of the same, will forthwith cause all further remuneration to such Teacher to be discontinued.

(5.) That the general management of the monies appropriated by the Parliament for educational purposes, and the inspection of the Schools be vested in an Inspector General of Schools, with an ample staff of Inspectors and Assistant Inspectors, to enable him to cause every School in the Colony to be visited periodically and frequently.

(6.) That the duty of the Inspectors and Assistant Inspectors should be chiefly to visit all the Schools in the Colony, to make the most searching inquiries into their general management, and to ascertain what religious training the Scholars receive, and also to examine the Scholars periodically in secular learning. They will be required to make full reports on the state of the Schools and of their examinations of the Scholars, (naming each scholar by name) and to state the progress each scholar may have made since the previous examination, and, if a new scholar, what his acquirements (if any) may be. This will, undoubtedly, prove a great stimulus to the Scholars to strive to merit a favourable mention of them in the Inspector's Report. That Copies of the Inspector's Reports of the Schools, and of the Scholars, be forwarded by the Inspector General of Schools, to the Head of that Denomination of Religionists to which the Reports may respectively refer, and the original deposited in the School Archives of the Colony. That each Inspector's Report of the Schools, but not the name of the Scholars, shall be considered as a privileged communication, and printed, if it be thought advisable.

(7.) That the religious training of the Scholars, and the general management of the Schools be confined exclusively to the Denominations to which they respectively belong; and the duty of the Government Inspectors will be restricted to inspecting, investigating, and enquiring into, every thing connected with the Schools, as well as examining the Scholars in secular learning, and reporting thereon; but in the event of two reports being received as to the bad management of any School, the Head of the religious body to which such Schools may belong, and also the Schoolmaster or Schoolmistress, will be warned that all further remunerations to him or her will be discontinued by the Government on the receipt of another unfavourable report from an Inspector.

(8.) That if any Schoolmaster or Schoolmistress decline to answer any question that may be put to him or her by the Inspector General of Schools, or any of the Inspectors or Assistant Inspectors, with respect to his or her School, or refuse to allow any examination of the Scholars, or otherwise obstruct any of the Inspectors in the execution of his duty, or be guilty of gross neglect or immorality, the Government remuneration to such Schoolmaster or Schoolmistress shall forthwith absolutely cease. That if any Schoolmaster or Schoolmistress defraud or attempt to defraud the Government by false representations, either as regards the number or attendance of the Scholars, he or she shall be deemed guilty of a misdemeanour, and punished.

(9.) That in order to stimulate a friendly rivalry amongst the Teachers of the different Denominations, both as regards the number of the Scholars and the proficiency in learning in their respective Schools, and to induce them to hunt up every neglected child, and to prevail upon the parents to send it to School, it is desirable to remunerate the Schoolmasters and Schoolmistresses according to the following scale, viz. :—

For each Boy or Girl in the 3rd Class, at the rate of 10s. per Quarter	} For a full attendance.	
For each Boy or Girl in the 2nd Class, at the rate of 15s. per Quarter		} Ditto.
For each Boy or Girl in the 1st Class, at the rate of 20s. per Quarter		} Ditto.

Scholars of the 3rd Class are to be deemed those who are learning to read.
Scholars of the 2nd Class are to be deemed those who can read easy books, and who are learning to write.

Scholars of the 1st Class are to be deemed those who are able to read freely, and to write a fair hand. If boys, they must also be learning grammar, arithmetic, geography and history; if girls, grammar, arithmetic, and needlework. The respective Classes of the Scholars to be decided by the Inspector, after examination.

(10.) That no limit should be placed by the Government on the number of Schoolmasters or Schoolmistresses licensed by the respective Denominations, or the localities where they may be placed, as each Teacher will have to depend entirely upon his or her own exertions, and as it will be perfectly free to the people to seek education where they may please, the best Teachers will undoubtedly, in every place, get the largest number of

of Scholars, and this will give a universal stimulus to every Religious Denomination to procure the very best Teachers, and also to the Teachers to exert themselves to the very utmost.

(11.) That the Parliamentary Draftsmen be instructed to prepare a Bill embodying the above Resolutions.

ORDERS OF THE DAY :—

1. Resumption of the Adjourned Debate on Mr. Barker's motion, "That the Australian "Trust Company's Bill be now read a second time."

GOVERNMENT BUSINESS—ORDER OF THE DAY :—

1. Law of Evidence Bill ; second reading.

FRIDAY, DECEMBER 5.

No. 49.

VOTES AND PROCEEDINGS
OF THE
LEGISLATIVE ASSEMBLY.

WEDNESDAY, 26 NOVEMBER, 1856.

1. The House met pursuant to adjournment; the Speaker took the Chair.
Papers:—Mr. Parker laid upon the Table the undermentioned Papers:—
(1.) The Return to the Address, adopted on the 18th instant, on motion of Mr. Robertson, for Papers connected with the Commission of Inquiry into Police Matters, appointed in June last.
(2.) The Return to the Address, adopted on the 8th instant, on motion of Mr. Flood, in reference to the circumstances under which the late Assistant City Engineer ceased to fill that office.
Ordered to be printed.
2. Defences of Port Jackson:—The following Message from His Excellency the Governor General received and read:—

W. DENISON,
Governor General.

Message No. 7.

The accompanying Papers bearing upon the question of the Defences of the Harbour and City of Sydney, are submitted for the consideration of the Legislative Assembly. They consist—

- 1st. Of the correspondence with Her Majesty's Government upon the subject of the constitution of a force which would be required for the defence of the Works in progress.
- 2nd. Of an Estimate for the completion of these works, by the addition of Guns to the Battery on Pinchgut Island, to that on the point of the Domain, and to that at Fort Macquarie, which amount altogether to £12,113 8s. 10d.
- 3rd. Of a Memorandum submitted for the consideration of the Executive Council, in which the constitution of the force required for the defence of the City, and the mode in which the cost of the maintenance of this force should be apportioned between the Colony and the Mother Country, was discussed.
- 4th. The Minute of the Proceedings of the Executive Council with reference to the matters alluded to in the Memorandum.
- 5th. Copy of a Despatch addressed to the Secretary of State, forwarding the Minute of the Executive Council above alluded to.

In bringing the subject of the defence of the City of Sydney under the notice of the Legislature, the Governor General wishes to refer to the papers laid upon the Table during the last Session, as expressing views which further consideration has not in any way modified or altered, and which, when taken in connection with those now submitted, will put the Assembly in possession of all the facts and opinions bearing upon a subject of no ordinary importance to the Colony.

In recommending the appropriation of the further sum of £12,113 8s. 10d. to cover the construction of some additions to the present Works, the Governor General is guided by a conviction that the outlay of this sum will add very much to the efficiency of the Works, by enabling the defenders to concentrate a much heavier fire upon the approaches to the Harbour, thereby rendering it very improbable that a vessel could make its way to a point near enough to the Town to allow its fire to do any injury of importance.

The Governor General wishes to call the particular attention of the Assembly to the principle upon which it is proposed to divide the expense of maintaining the Force, both Naval and Military, which will be required for the efficient defence of the Works, between the Colony and the Mother Country.

Contingent Notice of Motion :—

1. MR. COWPER to move, (upon Mr. Holt moving his Resolutions regarding Education) as an Amendment,—for leave to bring in a Bill to promote Public Education.

OTHER BUSINESS—NOTICES OF MOTION :—

1. MR. FORSTER to move for leave to bring in a Bill to declare in what cases Bills may be reserved by the Governor, for the signification of Her Majesty's pleasure thereon, and to define the period within which Bills may be disallowed by Her Majesty, after having been assented to by the Governor, in Her Majesty's name.

2. Mr. HOLT to move,—

(1.) That, it is, in the opinion of this House, the duty of the Legislature to use its utmost efforts to ensure (so far as it may be practicable) the Education of every Child in the Colony.

(2.) That the system hitherto pursued, of maintaining two separate Educational Establishments, known as the National and Denominational, and paying the Teachers by fixed Annual Salaries, is unsatisfactory, and is altogether inadequate to the requirements of the Colony, and ought to be abolished.

(3.) That in order to secure the services of respectable, energetic, and talented persons to educate the children of the Colony, it is necessary for the Government to remunerate them liberally (according to the nature and extent of their services), without imposing any conditions at all humiliating; so that the vocation of a Teacher in this Colony may be considered a highly honorable profession.

(4.) That the Schoolmasters or Schoolmistresses of every recognized Religious Denomination in the Colony shall be equally entitled to participate equitably in the monies appropriated by the Parliament for educational purposes; provided that such persons have been duly authorized as Schoolmasters or Schoolmistresses by the respective Denominations to which they belong. In the event of any religious Denomination withdrawing its Certificate from any of its Teachers, the Government, on receiving notice of the same, will forthwith cause all further remuneration to such Teacher to be discontinued.

(5.) That the general management of the monies appropriated by the Parliament for educational purposes, and the inspection of the Schools be vested in an Inspector General of Schools, with an ample staff of Inspectors and Assistant Inspectors, to enable him to cause every School in the Colony to be visited periodically and frequently.

(6.) That the duty of the Inspectors and Assistant Inspectors should be chiefly to visit all the Schools in the Colony, to make the most searching inquiries into their general management, and to ascertain what religious training the scholars receive, and also to examine the scholars periodically in secular learning. They will be required to make full reports on the state of the Schools and of their examinations of the scholars, (naming each scholar by name) and to state the progress each scholar may have made since the previous examination, and, if a new scholar, what his acquirements (if any) may be. This will, undoubtedly, prove a great stimulus to the scholars to strive to merit a favorable mention of them in the Inspector's Report. That Copies of the Inspector's Reports of the Schools, and of the scholars, be forwarded by the Inspector General of Schools, to the Head of that Denomination of Religionists to which the Reports may respectively refer, and the original deposited in the School Archives of the Colony. That each Inspector's Report of the Schools, but not the name of the Scholars, shall be considered as a privileged communication, and printed, if it be thought advisable.

(7.) That the religious training of the scholars, and the general management of the Schools be confined exclusively to the Denominations to which they respectively belong; and the duty of the Government Inspectors will be restricted to inspecting, investigating, and inquiring into, every thing connected with the Schools, as well as examining the scholars in secular learning, and reporting thereon; but in the event of two reports being received as to the bad management of any School, the Head of the religious body to which such School may belong, and also the Schoolmaster or Schoolmistress, will be warned that all further remuneration to him or her will be discontinued by the Government on the receipt of another unfavorable report from an Inspector.

(8.) That if any Schoolmaster or Schoolmistress decline to answer any questions that may be put to him or her by the Inspector General of Schools, or any of the Inspectors or Assistant Inspectors, with respect to his or her School, or refuse to allow any examination of the Scholars, or otherwise obstruct any of the Inspectors in the execution of his duty, or be guilty of gross neglect or immorality, the Government remuneration to such Schoolmaster or Schoolmistress shall forthwith absolutely cease. That if any Schoolmaster or Schoolmistress defraud or attempt to defraud the Government by false representations either as regards the number or attendance of the Scholars, he or she shall be deemed guilty of a misdemeanour, and punished.

(9.) That in order to stimulate a friendly rivalry amongst the Teachers of the different Denominations, both as regards the number of the Scholars and the proficiency in learning in their respective Schools, and to induce them to hunt up every neglected child, and to prevail upon the parents to send it to School, it is desirable to remunerate the Schoolmasters and Schoolmistresses according to the following scale, viz. :—

For each Boy or Girl in the 3rd Class, at the rate of 10s. per Quarter	} For a full attendance.	
For each Boy or Girl in the 2nd Class, at the rate of 15s. per Quarter		} Ditto
For each Boy or Girl in the 1st Class, at the rate of 20s. per Quarter		} Ditto.

• Scholars of the 3rd Class are to be deemed those who are learning to read.

• Scholars of the 2nd Class are to be deemed those who can read easy books, and who are learning to write.

• Scholars of the 1st Class are to be deemed those who are able to read freely, and to write a fair hand. If boys, they must also be learning grammar, arithmetic, geography and history; if girls, grammar, arithmetic, and needlework. The respective Classes of the scholars to be decided by the Inspector, after examination.

(10.) That no limit should be placed by the Government on the number of School-masters or Schoolmistresses licensed by the respective Denominations, or the localities where they may be placed, as each Teacher will have to depend entirely upon his or her own exertions, and as it will be perfectly free to the people to seek education where they may please, the best Teachers will undoubtedly, in every place, get the largest number of Scholars, and this will give a universal stimulus to every religious Denomination to procure the very best Teachers, and also to the Teachers to exert themselves to the very utmost.

(11.) That the Parliamentary Draftsmen be instructed to prepare a Bill embodying the above Resolutions.

ORDER OF THE DAY:—

1. Resumption of the Adjourned Debate on Mr. Barker's motion, "That the Australian "Trust Company's Bill be now read a second time."

TUESDAY, DECEMBER 2.

Contingent Notice of Motion :—

1. MR. COWPER to move, (upon Mr. Holt moving his Resolutions regarding Education) as an Amendment,—for leave to bring in a Bill to promote Public Education.

OTHER BUSINESS—NOTICES OF MOTION :—

1. MR. FORSTER to move for leave to bring in a Bill to declare in what cases Bills may be reserved by the Governor, for the signification of Her Majesty's pleasure thereon, and to define the period within which Bills may be disallowed by Her Majesty, after having been assented to by the Governor, in Her Majesty's name.
2. MR. HOLT to move,—
 - (1.) That, it is, in the opinion of this House, the duty of the Legislature to use its utmost efforts to ensure (so far as it may be practicable) the Education of every Child in the Colony.
 - (2.) That the system hitherto pursued, of maintaining two separate Educational Establishments, known as the National and Denominational, and paying the Teachers by fixed Annual Salaries, is unsatisfactory, and is altogether inadequate to the requirements of the Colony, and ought to be abolished.

(3.)

(3.) That in order to secure the services of respectable, energetic, and talented persons to educate the children of the Colony, it is necessary for the Government to remunerate them liberally (according to the nature and extent of their services), without imposing any conditions at all humiliating; so that the vocation of a Teacher in this Colony may be considered a highly honorable profession.

(4.) That the Schoolmasters or Schoolmistresses of every recognized Religious Denomination in the Colony shall be equally entitled to participate equitably in the monies appropriated by the Parliament for educational purposes; provided that such persons have been duly authorized as Schoolmasters or Schoolmistresses by the respective Denominations to which they belong. In the event of any religious Denomination withdrawing its Certificate from any of its Teachers, the Government, on receiving notice of the same, will forthwith cause all further remuneration to such Teacher to be discontinued.

(5.) That the general management of the monies appropriated by the Parliament for educational purposes, and the inspection of the Schools be vested in an Inspector General of Schools, with an ample staff of Inspectors and Assistant Inspectors, to enable him to cause every School in the Colony to be visited periodically and frequently.

(6.) That the duty of the Inspectors and Assistant Inspectors should be chiefly to visit all the Schools in the Colony, to make the most searching inquiries into their general management, and to ascertain what religious training the scholars receive, and also to examine the scholars periodically in secular learning. They will be required to make full reports on the state of the Schools and of their examinations of the scholars, (naming each scholar by name) and to state the progress each scholar may have made since the previous examination, and, if a new scholar, what his acquirements (if any) may be. This will, undoubtedly, prove a great stimulus to the scholars to strive to merit a favorable mention of them in the Inspector's Report. That Copies of the Inspector's Reports of the Schools, and of the scholars, be forwarded by the Inspector General of Schools, to the Head of that Denomination of Religionists to which the Reports may respectively refer, and the original deposited in the School Archives of the Colony. That each Inspector's Report of the Schools, but not the name of the Scholars, shall be considered as a privileged communication, and printed, if it be thought advisable.

(7.) That the religious training of the scholars, and the general management of the Schools be confined exclusively to the Denominations to which they respectively belong; and the duty of the Government Inspectors will be restricted to inspecting, investigating, and inquiring into, every thing connected with the Schools, as well as examining the scholars in secular learning, and reporting thereon; but in the event of two reports being received as to the bad management of any School, the Head of the religious body to which such School may belong, and also the Schoolmaster or Schoolmistress, will be warned that all further remuneration to him or her will be discontinued by the Government on the receipt of another unfavorable report from an Inspector.

(8.) That if any Schoolmaster or Schoolmistress decline to answer any questions that may be put to him or her by the Inspector General of Schools, or any of the Inspectors or Assistant Inspectors, with respect to his or her School, or refuse to allow any examination of the Scholars, or otherwise obstruct any of the Inspectors in the execution of his duty, or be guilty of gross neglect or immorality, the Government remuneration to such Schoolmaster or Schoolmistress shall forthwith absolutely cease. That if any Schoolmaster or Schoolmistress defraud or attempt to defraud the Government by false representations either as regards the number or attendance of the Scholars, he or she shall be deemed guilty of a misdemeanour, and punished:

(9.) That in order to stimulate a friendly rivalry amongst the Teachers of the different Denominations, both as regards the number of the Scholars and the proficiency in learning in their respective Schools, and to induce them to hunt up every neglected child, and to prevail upon the parents to send it to School, it is desirable to remunerate the Schoolmasters and Schoolmistresses according to the following scale, viz. :—

For each Boy or Girl in the 3rd Class, at the rate of 10s. per Quarter	} For a full attendance.	
For each Boy or Girl in the 2nd Class, at the rate of 15s. per Quarter		} Ditto
For each Boy or Girl in the 1st Class, at the rate of 20s. per Quarter		} Ditto.

Scholars of the 3rd Class are to be deemed those who are learning to read.

Scholars of the 2nd Class are to be deemed those who can read easy books, and who are learning to write.

Scholars of the 1st Class are to be deemed those who are able to read freely, and to write a fair hand. If boys, they must also be learning grammar, arithmetic, geography and history; if girls, grammar, arithmetic, and needlework. The respective Classes of the scholars to be decided by the Inspector, after examination.

(10.) That no limit should be placed by the Government on the number of Schoolmasters or Schoolmistresses licensed by the respective Denominations, or the localities where they may be placed, as each Teacher will have to depend entirely upon his or her own exertions, and as it will be perfectly free to the people to seek education where they may please, the best Teachers will undoubtedly, in every place, get the largest number of Scholars, and this will give a universal stimulus to every religious Denomination to procure the very best Teachers, and also to the Teachers to exert themselves to the very utmost.

(11.) That the Parliamentary Draftsmen be instructed to prepare a Bill embodying the above Resolutions.

FRIDAY, DECEMBER 5.

Contingent Notice of Motion:—

1. MR. COWPER to move, (upon Mr. Holt moving his Resolutions regarding Education) as an Amendment,—for leave to bring in a Bill to promote Public Education.

OTHER BUSINESS—NOTICES OF MOTION:—

1. MR. GORDON to move,—
(1.) That, in the opinion of this House, it is neither expedient nor desirable to create any system of Political Pensions in this Colony.
(2.) That the Pensions claimed on Political grounds, under Schedule B of the Constitution Act, were sanctioned by a Legislative Authority incompetent to deal with a matter of such high-Constitutional concernment, and, in the opinion of this House, ought to be reconsidered.
2. MR. GEORGE MACLEAY to move, That the Petition from Mr. Stephen Hale Marsh, presented by him on the 25th of September, be referred to the Select Committee now sitting on the Bill for incorporating the Sole Commissioner of Railways.
3. MR. PARKES to move, That the Petition of Mr. Henry Harvey Read, presented by him on the 8th of August, be referred for consideration to the Select Committee now sitting on the Sole Commissioner of Railways Incorporation Bill.
4. MR. HOLT to move,—
(1.) That, it is, in the opinion of this House, the duty of the Legislature to use its utmost efforts to ensure (so far as it may be practicable) the Education of every Child in the Colony.
(2.) That the system hitherto pursued, of maintaining two separate Educational Establishments, known as the National and Denominational, and paying the Teachers by fixed Annual Salaries, is unsatisfactory, and is altogether inadequate to the requirements of the Colony, and ought to be abolished.
(3.) That in order to secure the services of respectable, energetic, and talented persons to educate the children of the Colony, it is necessary for the Government to remunerate them liberally (according to the nature and extent of their services), without imposing any conditions at all humiliating; so that the vocation of a Teacher in this Colony may be considered a highly honorable profession.
(4.) That the Schoolmasters or Schoolmistresses of every recognized Religious Denomination in the Colony shall be equally entitled to participate equitably in the monies appropriated by the Parliament for educational purposes; provided that such persons have been duly authorized as Schoolmasters or Schoolmistresses by the respective Denominations to which they belong. In the event of any religious Denomination withdrawing its Certificate from any of its Teachers, the Government, on receiving notice of the same, will forthwith cause all further remuneration to such Teacher to be discontinued.
(5.) That the general management of the monies appropriated by the Parliament for educational purposes, and the inspection of the Schools be vested in an Inspector General of Schools, with an ample staff of Inspectors and Assistant Inspectors, to enable him to cause every School in the Colony to be visited periodically and frequently.

(6.) That the duty of the Inspectors and Assistant Inspectors should be chiefly to visit all the Schools in the Colony, to make the most searching inquiries into their general management, and to ascertain what religious training the scholars receive, and also to examine the scholars periodically in secular learning. They will be required to make full reports on the state of the Schools and of their examinations of the scholars, (naming each scholar by name) and to state the progress each scholar may have made since the previous examination, and, if a new scholar, what his acquirements (if any) may be. This will, undoubtedly, prove a great stimulus to the scholars to strive to merit a favorable mention of them in the Inspector's Report. That Copies of the Inspector's Reports of the Schools, and of the scholars, be forwarded by the Inspector General of Schools, to the Head of that Denomination of Religionists to which the Reports may respectively refer, and the original deposited in the School Archives of the Colony. That each Inspector's Report of the Schools, but not the name of the Scholars, shall be considered as a privileged communication, and printed, if it be thought advisable.

(7.) That the religious training of the scholars, and the general management of the Schools be confined exclusively to the Denominations to which they respectively belong; and the duty of the Government Inspectors will be restricted to inspecting, investigating, and inquiring into, every thing connected with the Schools, as well as examining the scholars in secular learning, and reporting thereon; but in the event of two reports being received as to the bad management of any School, the Head of the religious body to which such School may belong, and also the Schoolmaster or Schoolmistress, will be warned that all further remuneration to him or her will be discontinued by the Government on the receipt of another unfavorable report from an Inspector.

(8.) That if any Schoolmaster or Schoolmistress decline to answer any questions that may be put to him or her by the Inspector General of Schools, or any of the Inspectors, or Assistant Inspectors, with respect to his or her School, or refuse to allow any examination of the Scholars, or otherwise obstruct any of the Inspectors in the execution of his duty, or be guilty of gross neglect or immorality, the Government remuneration to such Schoolmaster or Schoolmistress shall forthwith absolutely cease. That if any Schoolmaster or Schoolmistress defraud or attempt to defraud the Government by false representations either as regards the number or attendance of the Scholars, he or she shall be deemed guilty of a misdemeanour, and punished.

(9.) That in order to stimulate a friendly rivalry amongst the Teachers of the different Denominations, both as regards the number of the Scholars and the proficiency in learning in their respective Schools, and to induce them to hunt up every neglected child, and to prevail upon the parents to send it to School, it is desirable to remunerate the Schoolmasters and Schoolmistresses according to the following scale, viz. :—

For each Boy or Girl in the 3rd Class, at the rate	} For a full attendance.
of 10s. per Quarter	
For each Boy or Girl in the 2nd Class, at the rate	} Ditto
of 15s. per Quarter	
For each Boy or Girl in the 1st Class, at the rate	} Ditto.
of 20s. per Quarter	

Scholars of the 3rd Class are to be deemed those who are learning to read.
 Scholars of the 2nd Class are to be deemed those who can read easy books, and who are learning to write.

Scholars of the 1st Class are to be deemed those who are able to read freely, and to write a fair hand. If boys, they must also be learning grammar, arithmetic, geography and history; if girls, grammar, arithmetic, and needlework. The respective Classes of the scholars to be decided by the Inspector, after examination.

(10.) That no limit should be placed by the Government on the number of Schoolmasters or Schoolmistresses licensed by the respective Denominations, or the localities where they may be placed, as each Teacher will have to depend entirely upon his or her own exertions, and as it will be perfectly free to the people to seek education where they may please, the best Teachers will undoubtedly, in every place, get the largest number of Scholars, and this will give a universal stimulus to every religious Denomination to procure the very best Teachers, and also to the Teachers to exert themselves to the very utmost.

(11.) That the Parliamentary Draftsmen be instructed to prepare a Bill embodying the above Resolutions.

5. Mr. GARLAND to move, That an Address be presented to the Governor General, praying that His Excellency will be pleased to cause to be laid upon the Table of this House, Copies of all Correspondence, Reports, and other Papers (including Plans and Sketches), between the Government and the late Sir T. L. Mitchell, and between Sir T. L. Mitchell and Mr. William Shone, with reference to the continuation of the line of Railway, surveyed by Mr. Shone, through Appin and East Bargo to Mittagong.

 - (2.) That such Committee consist of Mr. Buckley, Mr. Hely, Mr. Gordon, Mr. Jones, Mr. Hay, Mr. Piddington, Mr. F. T. Rusden, Mr. Weekes, Mr. Arnold, and the Mover.

(10.) That no limit should be placed by the Government on the number of Schoolmasters or Schoolmistresses licensed by the respective Denominations, or the localities where they may be placed, as each Teacher will have to depend entirely upon his or her own exertions, and as it will be perfectly free to the people to seek education where they may please, the best Teachers will undoubtedly, in every place, get the largest number of Scholars, and this will give a universal stimulus to every religious Denomination to procure the very best Teachers, and also to the Teachers to exert themselves to the very utmost.

OTHER

OTHER BUSINESS.—NOTICES OF MOTION :—

1. Mr. GORDON to move,—
 - (1.) That, in the opinion of this House, it is neither expedient nor desirable to create any system of Political Pensions in this Colony.
 - (2.) That the Pensions claimed on Political grounds, under Schedule B of the Constitution Act, were sanctioned by a Legislative Authority incompetent to deal with a matter of such high Constitutional concernment, and, in the opinion of this House, ought to be reconsidered.
2. Mr. GEORGE MACLEAY to move, That the Petition from Mr. Stephen Hale Marsh, presented by him on the 25th of September, be referred to the Select Committee now sitting on the Bill for incorporating the Sole Commissioner of Railways.
3. Mr. PARKES to move, That the Petition of Mr. Henry Harvey Read, presented by him on the 8th of August, be referred for consideration to the Select Committee now sitting on the Sole Commissioner of Railways Incorporation Bill.
4. Mr. HOLT to move,—
 - (1.) That, it is, in the opinion of this House, the duty of the Legislature to use its utmost efforts to ensure (so far as it may be practicable) the Education of every Child in the Colony.
 - (2.) That the system hitherto pursued, of maintaining two separate Educational Establishments, known as the National and Denominational, and paying the Teachers by fixed Annual Salaries, is unsatisfactory, and is altogether inadequate to the requirements of the Colony, and ought to be abolished.
 - (3.) That in order to secure the services of respectable, energetic, and talented persons to educate the children of the Colony, it is necessary for the Government to remunerate them liberally (according to the nature and extent of their services), without imposing any conditions at all humiliating; so that the vocation of a Teacher in this Colony may be considered a highly honorable profession.
 - (4.) That the Schoolmasters or Schoolmistresses of every recognized Religious Denomination in the Colony shall be equally entitled to participate equitably in the monies appropriated by the Parliament for educational purposes; provided that such persons have been duly authorized as Schoolmasters or Schoolmistresses by the respective Denominations to which they belong. In the event of any religious Denomination withdrawing its Certificate from any of its Teachers, the Government, on receiving notice of the same, will forthwith cause all further remuneration to such Teacher to be discontinued.
 - (5.) That the general management of the monies appropriated by the Parliament for educational purposes, and the inspection of the Schools be vested in an Inspector General of Schools, with an ample staff of Inspectors and Assistant Inspectors, to enable him to cause every School in the Colony to be visited periodically and frequently.
 - (6.) That the duty of the Inspectors and Assistant Inspectors should be chiefly to visit all the Schools in the Colony, to make the most searching inquiries into their general management, and to ascertain what religious training the scholars receive, and also to examine the scholars periodically in secular learning. They will be required to make full reports on the state of the Schools and of their examinations of the scholars, (naming each scholar by name) and to state the progress each scholar may have made since the previous examination, and, if a new scholar, what his acquirements (if any) may be. This will, undoubtedly, prove a great stimulus to the scholars to strive to merit a favorable mention of them in the Inspector's Report. That Copies of the Inspector's Reports of the Schools, and of the scholars, be forwarded by the Inspector General of Schools, to the Head of that Denomination of Religionists to which the Reports may respectively refer, and the original deposited in the School Archives of the Colony. That each Inspector's Report of the Schools, but not the name of the Scholars, shall be considered as a privileged communication, and printed, if it be thought advisable.
 - (7.) That the religious training of the scholars, and the general management of the Schools be confined exclusively to the Denominations to which they respectively belong; and the duty of the Government Inspectors will be restricted to inspecting, investigating, and inquiring into, every thing connected with the Schools, as well as examining the scholars in secular learning, and reporting thereon; but in the event of two reports being received as to the bad management of any School, the Head of the religious body to which such School may belong, and also the Schoolmaster or Schoolmistress, will be warned that all further remuneration to him or her will be discontinued by the Government on the receipt of another unfavorable report from an Inspector.
 - (8.) That if any Schoolmaster or Schoolmistress decline to answer any questions that may be put to him or her by the Inspector General of Schools, or any of the Inspectors, or Assistant Inspectors, with respect to his or her School, or refuse to allow any examination of the Scholars, or otherwise obstruct any of the Inspectors in the execution of his duty, or be guilty of gross neglect or immorality, the Government remuneration to such Schoolmaster or Schoolmistress shall forthwith absolutely cease. That if any Schoolmaster or Schoolmistress defraud or attempt to defraud the Government by false representations either as regards the number or attendance of the Scholars, he or she shall be deemed guilty of a misdemeanour, and punished.
 - (9.) That in order to stimulate a friendly rivalry amongst the Teachers of the different Denominations, both as regards the number of the Scholars and the proficiency in learning in their respective Schools, and to induce them to hunt up every neglected child,

child, and to prevail upon the parents to send it to School, it is desirable to remunerate the Schoolmasters and Schoolmistresses according to the following scale, viz. :—

For each Boy or Girl in the 3rd Class, at the rate of 10s. per Quarter	} For a full attendance.
For each Boy or Girl in the 2nd Class, at the rate of 15s. per Quarter	
For each Boy or Girl in the 1st Class, at the rate of 20s. per Quarter	

Scholars of the 3rd Class are to be deemed those who are learning to read.

Scholars of the 2nd Class are to be deemed those who can read easy books, and who are learning to write.

Scholars of the 1st Class are to be deemed those who are able to read freely, and to write a fair hand. If boys, they must also be learning grammar, arithmetic, geography and history; if girls, grammar, arithmetic, and needlework. The respective Classes of the scholars to be decided by the Inspector, after examination.

(10.) That no limit should be placed by the Government on the number of Schoolmasters or Schoolmistresses licensed by the respective Denominations, or the localities where they may be placed, as each Teacher will have to depend entirely upon his or her own exertions, and as it will be perfectly free to the people to seek education where they may please, the best Teachers will undoubtedly, in every place, get the largest number of Scholars, and this will give a universal stimulus to every religious Denomination to procure the very best Teachers, and also to the Teachers to exert themselves to the very utmost.

(11.) That the Parliamentary Draftsmen be instructed to prepare a Bill embodying the above Resolutions.

5. MR. GARLAND to move, That an Address be presented to the Governor General, praying that His Excellency will be pleased to cause to be laid upon the Table of this House, Copies of all Correspondence, Reports, and other Papers (including Plans and Sketches), between the Government and the late Sir T. Contingent Notice of Motion:—

1. MR. COWPER to move, (*upon Mr. Holt moving his Resolutions regarding Education*) as an Amendment,—for leave to bring in a Bill to promote Public Education.

OTHER BUSINESS—NOTICES OF MOTION:—

1. MR. JONES to move,—
 - (1.) That this House is of opinion that it is not expedient to vote any Increase to the sum reserved for Public Worship by Schedule C of the Constitution Act.
 - (2.) That this House is further of opinion that the Government should forthwith provide for the gradual extinction of the Grant so reserved for Public Worship, by intimating to the four Denominations whose Ministers receive support therefrom, that, as the Livings to which Stipends are secured under this Grant become vacant, either by the decease or removal of the present Incumbents, such Stipends shall cease.
 - (3.) That, to carry into effect the first Resolution, it be an Instruction to the Committee of Supply not to vote any sum for Public Worship, as a supplement to, or in excess of, the amount reserved by Schedule C of the Constitution Act.
2. MR. PARKES to move,—
 - (1.) That this House has considered the proposed provision for Police, as detailed in the Estimates of Expenditure for 1857, amounting to a total number of 1069 persons, and a total sum of £171,349 1s. 3d.; and is of opinion that it is excessive, unwarranted by the state of society, and calculated to lower the character of the Colony in the eyes of other countries.
 - (2.) That in the opinion of this House, there have been no sufficient grounds for this enormous increase of Police Expenditure, as compared with the Estimates for the same Service five years ago, which, for the year 1852, did not exceed £56,976 3s. 6d.
 - (3.) That this House is of opinion—
 1. That the employment of so large a proportion of the adult population in Police Services is morally wrong, independently of economical and political considerations.
 2. That the Estimates for this Service for 1857, ought to be reduced by, at least, the sum of £70,000, such reduction to be applied with due consideration for the wants of the respective districts, so as not to cause the withdrawal of any necessary protection.
 - (4.) That it be an instruction to the Committee of Supply to deal with the Estimates for Police, in accordance with the opinions embodied in the foregoing Resolutions.
3. MR. NICHOLS to move, That the Masters and Servants' Bill brought up by the Select Committee appointed to frame the same, be now read a second time.
4. MR. NICHOLS to move the following Resolution,—
Resolved, That in the opinion of this House, the rents or proceeds, whatever they may be, derived from the letting of the Government House at Parramatta, and the Domain thereto attached, are and do form part of the Consolidated Revenues of the Colony, and ought to be paid to the Colonial Treasurer for the public uses of the Colony, and in support of the Government thereof.
5. MR. FORSTER to move, That an Address be presented to the Governor General, praying that His Excellency will please to cause to be laid upon the Table of this House,—
 - (1.) A Return of the number of visits paid during the present year by the Medical Superintendent at Parramatta to the Tarban Creek Lunatic Asylum, specifying the number of times when the patients therein confined were actually inspected.
 - (2.) Copies of all Reports made by the Medical Adviser to the Government, during the present year, upon cases of applications made by the friends of Lunatics confined in the Tarban Creek Lunatic Asylum, for the temporary discharge of the latter upon trial, and referred by the Government to the Medical Adviser aforesaid.

6. Mr. GORDON to move,—
- (1.) That, in the opinion of this House, it is neither expedient nor desirable to create any system of Political Pensions in this Colony.
 - (2.) That the Pensions claimed on Political grounds, under Schedule B of the Constitution Act, were sanctioned by a Legislative Authority incompetent to deal with a matter of such high Constitutional concernment, and, in the opinion of this House, ought to be reconsidered.
7. Mr. GEORGE MACLEAY to move, That the Petition from Mr. Stephen Hale Marsh, presented by him on the 25th of September, be referred to the Select Committee now sitting on the Bill for incorporating the Sole Commissioner of Railways.
8. Mr. PARKES to move, That the Petition of Mr. Henry Harvey Read, presented by him on the 8th of August, be referred for consideration to the Select Committee now sitting on the Sole Commissioner of Railways Incorporation Bill.
9. Mr. HOLT to move,—
- (1.) That, in the opinion of this House, the duty of the Legislature to use its utmost efforts to ensure (so far as it may be practicable) the Education of every Child in the Colony.
 - (2.) That the system hitherto pursued, of maintaining two separate Educational Establishments, known as the National and Denominational, and paying the Teachers by fixed Annual Salaries, is unsatisfactory, and is altogether inadequate to the requirements of the Colony, and ought to be abolished.
 - (3.) That in order to secure the services of respectable, energetic, and talented persons to educate the children of the Colony, it is necessary for the Government to remunerate them liberally (according to the nature and extent of their services), without imposing any conditions at all humiliating; so that the vocation of a Teacher in this Colony may be considered a highly honorable profession.
 - (4.) That the Schoolmasters or Schoolmistresses of every recognized Religious Denomination in the Colony shall be equally entitled to participate equitably in the monies appropriated by the Parliament for educational purposes; provided that such persons have been duly authorized as Schoolmasters or Schoolmistresses by the respective Denominations to which they belong. In the event of any religious Denomination withdrawing its Certificate from any of its Teachers, the Government, on receiving notice of the same, will forthwith cause all further remuneration to such Teacher to be discontinued.
 - (5.) That the general management of the monies appropriated by the Parliament for educational purposes, and the inspection of the Schools be vested in an Inspector General of Schools, with an ample staff of Inspectors and Assistant Inspectors, to enable him to cause every School in the Colony to be visited periodically and frequently.
 - (6.) That the duty of the Inspectors and Assistant Inspectors should be chiefly to visit all the Schools in the Colony, to make the most searching inquiries into their general management, and to ascertain what religious training the scholars receive, and also to examine the scholars periodically in secular learning. They will be required to make full reports on the state of the Schools and of their examinations of the scholars, (naming each scholar by name) and to state the progress each scholar may have made since the previous examination, and, if a new scholar, what his acquirements (if any) may be. This will, undoubtedly, prove a great stimulus to the scholars to strive to merit a favorable mention of them in the Inspector's Report. That Copies of the Inspector's Reports of the Schools, and of the scholars, be forwarded by the Inspector General of Schools, to the Head of that Denomination of Religionists to which the Reports may respectively refer, and the original deposited in the School Archives of the Colony. That each Inspector's Report of the Schools, but not the name of the Scholars, shall be considered as a privileged communication, and printed, if it be thought advisable.
 - (7.) That the religious training of the scholars, and the general management of the Schools be confined exclusively to the Denominations to which they respectively belong; and the duty of the Government Inspectors will be restricted to inspecting, investigating, and inquiring into, every thing connected with the Schools, as well as examining the scholars in secular learning, and reporting thereon; but in the event of two reports being received as to the bad management of any School, the Head of the religious body to which such School may belong, and also the Schoolmaster or Schoolmistress, will be warned that all further remuneration to him or her will be discontinued by the Government on the receipt of another unfavorable report from an Inspector.
 - (8.) That if any Schoolmaster or Schoolmistress decline to answer any questions that may be put to him or her by the Inspector General of Schools, or any of the Inspectors, or Assistant Inspectors, with respect to his or her School, or refuse to allow any examination of the Scholars, or otherwise obstruct any of the Inspectors in the execution of his duty, or be guilty of gross neglect or immorality, the Government remuneration to such Schoolmaster or Schoolmistress shall forthwith absolutely cease. That if any Schoolmaster or Schoolmistress defraud or attempt to defraud the Government by false representations either as regards the number or attendance of the Scholars, he or she shall be deemed guilty of a misdemeanour, and punished.
 - (9.) That in order to stimulate a friendly rivalry amongst the Teachers of the different Denominations, both as regards the number of the Scholars and the proficiency in learning in their respective Schools, and to induce them to hunt up every neglected child,

child, and to prevail upon the parents to send it to School, it is desirable to remunerate the Schoolmasters and Schoolmistresses according to the following scale, viz. :—

For each Boy or Girl in the 3rd Class, at the rate of 10s. per Quarter	} For a full attendance.
For each Boy or Girl in the 2nd Class, at the rate of 15s. per Quarter	
For each Boy or Girl in the 1st Class, at the rate of 20s. per Quarter	} Ditto.

Scholars of the 3rd Class are to be deemed those who are learning to read.

Scholars of the 2nd Class are to be deemed those who can read easy books, and who are learning to write.

Scholars of the 1st Class are to be deemed those who are able to read freely, and to write a fair hand. If boys, they must also be learning grammar, arithmetic, geography and history; if girls, grammar, arithmetic, and needlework. The respective Classes of the scholars to be decided by the Inspector, after examination.

- (10.) That no limit should be placed by the Government on the number of Schoolmasters or Schoolmistresses licensed by the respective Denominations, or the localities where they may be placed, as each Teacher will have to depend entirely upon his or her own exertions, and as it will be perfectly free to the people to seek education where they may please, the best Teachers will undoubtedly, in every place, get the largest number of Scholars, and this will give a universal stimulus to every religious Denomination to procure the very best Teachers, and also to the Teachers to exert themselves to the very utmost.
- (11.) That the Parliamentary Draftsmen be instructed to prepare a Bill embodying the above Resolutions.
10. MR. GARLAND to move, That an Address be presented to the Governor General, praying that His Excellency will be pleased to cause to be laid upon the Table of this House, Copies of all Correspondence, Reports, and other Papers (including Plans and Sketches), between the Government and the late Sir T. 3. MR. GORDON to move,—
 - (1.) That an Address be presented to the Governor General, praying that His Excellency will please to cause to be laid upon the Table of this House, a Return showing all the Moneys paid from the Public Treasury of New South Wales, (under whatever Act, Authority, or Warrant,) during the years 1855 and 1856, respectively, for the support of the Ordinances of Religion within the Colony.
 - (2.) That such Return comprise the following particulars, namely, the names of each and every Clergyman, Priest, Deacon, or other Minister of Religion, by whatsoever appellation or title the same has been usually known, or distinguished; the particular Locality, or Place, or District, in which such Clergyman, Priest, or Minister of Religion, has been usually officiating: and the specific and aggregate sums, or amounts of Public Money paid to each and every such Clergyman, Priest, or Minister: also, the particular branch, or branches of the Public Revenue from which each and every such payment, or payments, have been made.

6. MR. FORSTER to move, That an Address be presented to the Governor General, praying that His Excellency will please to cause to be laid upon the Table of this House,—
 - (1.) A Return of the number of visits paid during the present year by the Medical Superintendent at Parramatta to the Tarban Creek Lunatic Asylum, specifying the number of times when the patients therein confined were actually inspected.
 - (2.) Copies of all Reports made by the Medical Adviser to the Government, during the present year, upon cases of applications made by the friends of Lunatics confined in the Tarban Creek Lunatic Asylum, for the temporary discharge of the latter upon trial, and referred by the Government to the Medical Adviser aforesaid.
7. MR. HOLT to move,—
 - (1.) That, it is, in the opinion of this House, the duty of the Legislature to use its utmost efforts to ensure (so far as it may be practicable) the Education of every Child in the Colony.
 - (2.) That the system hitherto pursued, of maintaining two separate Educational Establishments, known as the National and Denominational, and paying the Teachers by fixed Annual Salaries, is unsatisfactory, and is altogether inadequate to the requirements of the Colony, and ought to be abolished.
 - (3.) That in order to secure the services of respectable, energetic, and talented persons to educate the children of the Colony, it is necessary for the Government to remunerate them liberally (according to the nature and extent of their services), without imposing any conditions at all humiliating; so that the vocation of a Teacher in this Colony may be considered a highly honorable profession.
 - (4.) That the Schoolmasters or Schoolmistresses of every recognized Religious Denomination in the Colony shall be equally entitled to participate equitably in the monies appropriated by the Parliament for educational purposes; provided that such persons have been duly authorized as Schoolmasters or Schoolmistresses by the respective Denominations to which they belong. In the event of any religious Denomination withdrawing its Certificate from any of its Teachers, the Government, on receiving notice of the same, will forthwith cause all further remuneration to such Teacher to be discontinued.
 - (5.) That the general management of the monies appropriated by the Parliament for educational purposes, and the inspection of the Schools be vested in an Inspector General of Schools, with an ample staff of Inspectors and Assistant Inspectors, to enable him to cause every School in the Colony to be visited periodically and frequently.
 - (6.) That the duty of the Inspectors and Assistant Inspectors should be chiefly to visit all the Schools in the Colony, to make the most searching inquiries into their general management, and to ascertain what religious training the scholars receive, and also to examine the scholars periodically in secular learning. They will be required to make full reports on the state of the Schools and of their examinations of the scholars, (naming each scholar by name) and to state the progress each scholar may have made since the previous examination, and, if

if a new scholar, what his acquirements (if any) may be. This will, undoubtedly, prove a great stimulus to the scholars to strive to merit a favorable mention of them in the Inspector's Report. That Copies of the Inspector's Reports of the Schools, and of the scholars, be forwarded by the Inspector General of Schools, to the Head of that Denomination of Religionists to which the Reports may respectively refer, and the original deposited in the School Archives of the Colony. That each Inspector's Report of the Schools, but not the name of the Scholars, shall be considered as a privileged communication, and printed, if it be thought advisable.

(7.) That the religious training of the scholars, and the general management of the Schools be confined exclusively to the Denominations to which they respectively belong; and the duty of the Government Inspectors will be restricted to inspecting, investigating, and inquiring into, every thing connected with the Schools, as well as examining the scholars in secular learning, and reporting thereon; but in the event of two reports being received as to the bad management of any School, the Head of the religious body to which such School may belong, and also the Schoolmaster or Schoolmistress, will be warned that all further remuneration to him or her will be discontinued by the Government on the receipt of another unfavorable report from an Inspector.

(8.) That if any Schoolmaster or Schoolmistress decline to answer any questions that may be put to him or her by the Inspector General of Schools, or any of the Inspectors, or Assistant Inspectors, with respect to his or her School, or refuse to allow any examination of the Scholars, or otherwise obstruct any of the Inspectors in the execution of his duty, or be guilty of gross neglect or immorality, the Government remuneration to such Schoolmaster or Schoolmistress shall forthwith absolutely cease. That if any Schoolmaster or Schoolmistress defraud or attempt to defraud the Government by false representations either as regards the number or attendance of the Scholars, he or she shall be deemed guilty of a misdemeanour, and punished.

(9.) That in order to stimulate a friendly rivalry amongst the Teachers of the different Denominations, both as regards the number of the Scholars and the proficiency in learning in their respective Schools, and to induce them to hunt up every neglected child, and to prevail upon the parents to send it to School, it is desirable to remunerate the Schoolmasters and Schoolmistresses according to the following scale, viz. :—

For each Boy or Girl in the 3rd Class, at the rate of 10s. per Quarter	} For a full attendance.	
For each Boy or Girl in the 2nd Class, at the rate of 15s. per Quarter		} Ditto
For each Boy or Girl in the 1st Class, at the rate of 20s. per Quarter		

Scholars of the 3rd Class are to be deemed those who are learning to read.

Scholars of the 2nd Class are to be deemed those who can read easy books, and who are learning to write.

Scholars of the 1st Class are to be deemed those who are able to read freely, and to write a fair hand. If boys, they must also be learning grammar, arithmetic, geography and history; if girls, grammar, arithmetic, and needlework. The respective Classes of the scholars to be decided by the Inspector, after examination.

(10.) That no limit should be placed by the Government on the number of Schoolmasters or Schoolmistresses licensed by the respective Denominations, or the localities where they may be placed, as each Teacher will have to depend entirely upon his or her own exertions, and as it will be perfectly free to the people to seek education where they may please, the best Teachers will undoubtedly, in every place, get the largest number of Scholars, and this will give a universal stimulus to every religious Denomination to procure the very best Teachers, and also to the Teachers to exert themselves to the very utmost.

(11.) That the Parliamentary Draftsmen be instructed to prepare a Bill embodying the above Resolutions.

8. MR. T. G. RUSDEN to move that the Petition of Mrs. Lucy Howell, presented by him on the 10th instant, be printed.

 - (2.) That such Return comprise the following particulars, namely, the names of each and every Clergyman, Priest, Deacon, or other Minister of Religion, by whatsoever appellation or title the same has been usually known, or distinguished; the particular Locality, or Place, or District, in which such Clergyman, Priest, or Minister of Religion,

GOVERNMENT BUSINESS—ORDER OF THE DAY:—

1. Sydney Municipal Council Bill; to be further considered in Committee.

OTHER BUSINESS—NOTICES OF MOTION:—

1. MR. HOLT to move,—
(1.) That, it is, in the opinion of this House, the duty of the Legislature to use its utmost efforts to ensure (so far as it may be practicable) the Education of every Child in the Colony.
(2.) That the system hitherto pursued, of maintaining two separate Educational Establishments, known as the National and Denominational, and paying the Teachers by fixed Annual Salaries, is unsatisfactory, and is altogether inadequate to the requirements of the Colony, and ought to be abolished.
(3.) That in order to secure the services of respectable, energetic, and talented persons to educate the children of the Colony, it is necessary for the Government to remunerate them liberally (according to the nature and extent of their services), without imposing any conditions at all humiliating; so that the vocation of a Teacher in this Colony may be considered a highly honorable profession.
(4.) That the Schoolmasters or Schoolmistresses of every recognized Religious Denomination in the Colony shall be equally entitled to participate equitably in the monies appropriated by the Parliament for educational purposes; provided that such persons have been duly authorized as Schoolmasters or Schoolmistresses by the respective Denominations to which they belong. In the event of any religious Denomination withdrawing its Certificate from any of its Teachers, the Government, on receiving notice of the same, will forthwith cause all further remuneration to such Teacher to be discontinued.
(5.) That the general management of the monies appropriated by the Parliament for educational purposes, and the inspection of the Schools be vested in an Inspector General of Schools, with an ample staff of Inspectors and Assistant Inspectors, to enable him to cause every School in the Colony to be visited periodically and frequently.
(6.) That the duty of the Inspectors and Assistant Inspectors should be chiefly to visit all the Schools in the Colony; to make the most searching inquiries into their general management, and to ascertain what religious training the scholars receive, and also to examine the scholars periodically in secular learning. They will be required to make full reports on the state of the Schools and of their examinations of the scholars, (naming each scholar by name) and to state the progress each scholar may have made since the previous examination, and, if a new scholar, what his acquirements (if any) may be. This will, undoubtedly, prove a great stimulus to the scholars to strive to merit a favorable mention of them in the Inspector's Report. That Copies of the Inspector's Reports of the Schools, and of the scholars, be forwarded by the Inspector General of Schools, to the Head of that Denomination of Religionists to which the Reports may respectively refer, and the original deposited in the School Archives of the Colony. That each Inspector's Report of the Schools, but not the name of the Scholars, shall be considered as a privileged communication, and printed, if it be thought advisable.
(7.) That the religious training of the scholars, and the general management of the Schools be confined exclusively to the Denominations to which they respectively belong; and the duty of the Government Inspectors will be restricted to inspecting, investigating, and inquiring into, every thing connected with the Schools, as well as examining the scholars in secular learning, and reporting thereon; but in the event of two reports being received as to the bad management of any School, the Head of the religious body to which such School may belong, and also the Schoolmaster or Schoolmistress, will be warned that all further remuneration to him or her will be discontinued by the Government on the receipt of another unfavorable report from an Inspector.
(8.) That if any Schoolmaster or Schoolmistress decline to answer any questions that may be put to him or her by the Inspector General of Schools, or any of the Inspectors,

or

or Assistant Inspectors, with respect to his or her School, or refuse to allow any examination of the Scholars, or otherwise obstruct any of the Inspectors in the execution of his duty, or be guilty of gross neglect or immorality, the Government remuneration to such Schoolmaster or Schoolmistress shall forthwith absolutely cease. That if any Schoolmaster or Schoolmistress defraud or attempt to defraud the Government by false representations either as regards the number or attendance of the Scholars, he or she shall be deemed guilty of a misdemeanour, and punished.

(9.) That in order to stimulate a friendly rivalry amongst the Teachers of the different Denominations, both as regards the number of the Scholars and the proficiency in learning in their respective Schools, and to induce them to hunt up every neglected child, and to prevail upon the parents to send it to School, it is desirable to remunerate the Schoolmasters and Schoolmistresses according to the following scale, viz. :—

For each Boy or Girl in the 3rd Class, at the rate of 10s. per Quarter	} For a full attendance.	
For each Boy or Girl in the 2nd Class, at the rate of 15s. per Quarter		} Ditto
For each Boy or Girl in the 1st Class, at the rate of 20s. per Quarter		

Scholars of the 3rd Class are to be deemed those who are learning to read.

Scholars of the 2nd Class are to be deemed those who can read easy books, and who are learning to write.

Scholars of the 1st Class are to be deemed those who are able to read freely, and to write a fair hand. If boys, they must also be learning grammar, arithmetic, geography and history; if girls, grammar, arithmetic, and needlework. The respective Classes of the scholars to be decided by the Inspector, after examination.

(10.) That no limit should be placed by the Government on the number of Schoolmasters or Schoolmistresses licensed by the respective Denominations, or the localities where they may be placed, as each Teacher will have to depend entirely upon his or her own exertions, and as it will be perfectly free to the people to seek education where they may please, the best Teachers will undoubtedly, in every place, get the largest number of Scholars, and this will give a universal stimulus to every religious Denomination to procure the very best Teachers, and also to the Teachers to exert themselves to the very utmost.

(11.) That the Parliamentary Draftsmen be instructed to prepare a Bill embodying the above Resolutions.

2. Mr. T. G. RUSDEN to move that the Petition of Mrs. Lucy Howell, presented by him on the 10th instant, be printed.
3. Mr. COWPER to move for leave to bring in a Bill to amend the law relating to the South Head Road Trust.
4. Mr. NICHOLS to move, That there be laid upon the Table of this House, Copies of all Correspondence between this Government and the English Authorities relative to the disposal of the Commissariat Stores, in George-street, Sydney, near the Circular Quay.

6. Mr. FORSTER to move, That the Petition of Mrs. Anne Sadlier, presented by him yesterday, be printed.
7. Mr. BARKER to move, That the Petition of the Rev. James Milne, Moderator of the Synod of Australia, presented by him yesterday, be printed.

TUESDAY, DECEMBER 16.

Contingent Notice of Motion :—

1. Mr. PARKES to move,—(on motion being made for going into Committee of Supply) That the Question be amended by adding at the end the words—
 - (1.) That this House has considered the proposed provision for Police, as detailed in the Estimates of Expenditure for 1857, amounting to a total number of 1069 persons, and a total sum of £171,349 1s. 3d.; and is of opinion that it is excessive, unwarranted by the state of society, and calculated to lower the character of the Colony in the eyes of other countries.
 - (2.) That in the opinion of this House, there have been no sufficient grounds for this enormous increase of Police Expenditure, as compared with the Estimates for the same Service five years ago, which, for the year 1852, did not exceed £56,976 3s. 6d.
 - (3.) That this House is of opinion—
 1. That the employment of so large a proportion of the adult population in Police Services is morally wrong, independently of economical and political considerations.
 2. That the Estimates for this Service for 1857, ought to be reduced by, at least, the sum of £70,000, such reduction to be applied with due consideration for the wants of the respective districts, so as not to cause the withdrawal of any necessary protection.

(4.)

(4.) That it be an Instruction to the Committee of Supply to deal with the Estimates for Police, in accordance with the opinions embodied in the foregoing Resolutions.

NOTICES OF MOTION :—

1. MR. PIDDINGTON to move, That the Petition from Singleton, presented by him on the 9th instant, representing the obligation of observing the Sabbath, be printed.
2. MR. GORDON to move,—
 - (1.) That, in the opinion of this House, it is neither expedient nor desirable to create any system of Political Pensions in this Colony.
 - (2.) That the Pensions claimed on Political grounds, under Schedule B of the Constitution Act, were sanctioned by a Legislative Authority incompetent to deal with a matter of such high Constitutional concernment, and, in the opinion of this House, ought to be reconsidered.
3. MR. HELY to move, That an Address be presented to the Governor General, praying that His Excellency will cause to be placed on the Estimates for the ensuing year, a sum of money not exceeding two hundred pounds, as a pension for Lady Mitchell, widow of the late Sir Thomas Mitchell, Surveyor General of New South Wales, in consideration of the eminent services rendered by him to this Colony in his official capacity.

(2.) Copies of all Reports made by the Medical Adviser to the Government, during the same period, upon cases of applications made by the friends of Lunatics confined in the Tarban Creek Lunatic Asylum, for the discharge of the latter, and referred by the Government to the Medical Adviser aforesaid.
Question put and passed.
15. Sydney Municipal Council Bill:—On the Order of the Day being read for the further consideration of this Bill in Committee, the Speaker left the Chair, and the House resolved itself into a Committee of the whole accordingly.
The Chairman reported progress, and obtained leave to sit again on Tuesday,—taking precedence next after the Committee of Supply.
16. Education:—Mr. Holt moved, pursuant to Notice,—
(1.) That, it is, in the opinion of this House, the duty of the Legislature to use its utmost efforts to ensure (so far as it may be practicable) the Education of every Child in the Colony.
(2.) That the system hitherto pursued, of maintaining two separate Educational Establishments, known as the National and Denominational, and paying the Teachers by fixed Annual Salaries, is unsatisfactory, and is altogether inadequate to the requirements of the Colony, and ought to be abolished.
(3.) That in order to secure the services of respectable, energetic, and talented persons to educate the children of the Colony, it is necessary for the Government to remunerate them liberally (according to the nature and extent of their services), without imposing any conditions at all humiliating; so that the vocation of a Teacher in this Colony may be considered a highly honorable profession.

(4.) That the Schoolmasters or Schoolmistresses of every recognized Religious Denomination in the Colony shall be equally entitled to participate equitably in the moneys appropriated by the Parliament for educational purposes; provided that such persons have been duly authorized as Schoolmasters or Schoolmistresses by the respective Denominations to which they belong. In the event of any religious Denomination withdrawing its Certificate from any of its Teachers, the Government, on receiving notice of the same, will forthwith cause all further remuneration to such Teacher to be discontinued.

(5.) That the general management of the moneys appropriated by the Parliament for educational purposes, and the inspection of the Schools be vested in an Inspector General of Schools, with an ample staff of Inspectors and Assistant Inspectors, to enable him to cause every School in the Colony to be visited periodically and frequently.

(6.) That the duty of the Inspectors and Assistant Inspectors should be chiefly to visit all the Schools in the Colony, to make the most searching inquiries into their general management, and to ascertain what religious training the scholars receive, and also to examine the scholars periodically in secular learning. They will be required to make full reports on the state of the Schools and of their examinations of the scholars, (naming each scholar by name) and to state the progress each scholar may have made since the previous examination, and, if a new scholar, what his acquirements (if any) may be. This will, undoubtedly, prove a great stimulus to the scholars to strive to merit a favorable mention of them in the Inspector's Report. That Copies of the Inspector's Reports of the Schools, and of the scholars, be forwarded by the Inspector General of Schools, to the Head of that Denomination of Religionists to which the Reports may respectively refer, and the original deposited in the School Archives of the Colony. That each Inspector's Report of the Schools, but not the name of the Scholars, shall be considered as a privileged communication, and printed, if it be thought advisable.

(7.) That the religious training of the scholars, and the general management of the Schools be confined exclusively to the Denominations to which they respectively belong; and the duty of the Government Inspectors will be restricted to inspecting, investigating, and inquiring into, every thing connected with the Schools, as well as examining the scholars in secular learning, and reporting thereon; but in the event of two reports being received as to the bad management of any School, the Head of the religious body to which such School may belong, and also the Schoolmaster or Schoolmistress, will be warned that all further remuneration to him or her will be discontinued by the Government on the receipt of another unfavorable report from an Inspector.

(8.) That if any Schoolmaster or Schoolmistress decline to answer any questions that may be put to him or her by the Inspector General of Schools, or any of the Inspectors, or Assistant Inspectors, with respect to his or her School, or refuse to allow any examination of the Scholars, or otherwise obstruct any of the Inspectors in the execution of his duty, or be guilty of gross neglect or immorality, the Government remuneration to such Schoolmaster or Schoolmistress shall forthwith absolutely cease. That if any Schoolmaster or Schoolmistress defraud or attempt to defraud the Government by false representations either as regards the number or attendance of the Scholars, he or she shall be deemed guilty of a misdemeanour, and punished.

(9.) That in order to stimulate a friendly rivalry amongst the Teachers of the different Denominations, both as regards the number of the Scholars and the proficiency in learning in their respective Schools, and to induce them to hunt up every neglected child, and to prevail upon the parents to send it to School, it is desirable to remunerate the Schoolmasters and Schoolmistresses according to the following scale, viz. :—

For each Boy or Girl in the 3rd Class, at the rate of 10s. per Quarter	} For a full attendance.	
For each Boy or Girl in the 2nd Class, at the rate of 15s. per Quarter		} Ditto
For each Boy or Girl in the 1st Class, at the rate of 20s. per Quarter		} Ditto.

Scholars of the 3rd Class are to be deemed those who are learning to read.

Scholars of the 2nd Class are to be deemed those who can read easy books, and who are learning to write.

Scholars of the 1st Class are to be deemed those who are able to read freely, and to write a fair hand. If boys, they must also be learning grammar, arithmetic, geography and history; if girls, grammar, arithmetic, and needlework. The respective Classes of the scholars to be decided by the Inspector, after examination.

(10.) That no limit should be placed by the Government on the number of Schoolmasters or Schoolmistresses licensed by the respective Denominations, or the localities where they may be placed, as each Teacher will have to depend entirely upon his or her own exertions, and as it will be perfectly free to the people to seek education where they may please, the best Teachers will undoubtedly, in every place, get the largest number of Scholars, and this will give a universal stimulus to every religious Denomination to procure the very best Teachers, and also to the Teachers to exert themselves to the very utmost.

(11.) That the Parliamentary Draftsmen be instructed to prepare a Bill embodying the above Resolutions.

And the House having continued to sit till after mid-night,—

 - (1.) That this House has considered the proposed provision for Police, as detailed in the Estimates of Expenditure for 1857, amounting to a total number of 1069 persons, and a total sum of £171,349 1s. 3d.; and is of opinion that it is excessive, unwarranted by the state of society, and calculated to lower the character of the Colony in the eyes of other countries.
 - (2.) That in the opinion of this House, there have been no sufficient grounds for this enormous increase of Police Expenditure, as compared with the Estimates for the same Service five years ago, which, for the year 1852, did not exceed £56,976 3s. 6d.
 - (3.) That this House is of opinion—
 1. That the employment of so large a proportion of the adult population in Police Services is morally wrong, independently of economical and political considerations.
 2. That the Estimates for this Service for 1857, ought to be reduced by, at least, the sum of £70,000, such reduction to be applied with due consideration for the wants of the respective districts, so as not to cause the withdrawal of any necessary protection.

NOTICES OF MOTION AND ORDERS OF THE DAY.

FRIDAY, DECEMBER 19.

Contingent Notice of Motion:—

MR. T. G. RUSDEN to move, (*on Mr. Parker's motion for adjournment,*)—

That this House ought not to adjourn, without taking some steps to prevent the levying of the unjust and oppressive tax of £2 per 1000 Sheep, imposed under 21 Sec. of 19 Vict., No. 27, and payable by the 30th April next.

That this House is imperatively called on to take some action in the matter immediately, or at all events to inquire into the truth of the following allegations:—

That the Returns compiled by the Government relative to this matter are incorrect, founded on false data, and are liable to bring about an improper expenditure of public money, and to support corruption; because,—

1. Inspectors have been appointed in Districts where no impost has been received, and where no compensation has been given.
2. Taxes have been levied, and compensation paid in Districts where no Inspectors have been appointed.
3. Undue favoritism has been shewn to *particular Districts*, and to *particular Individuals*, in the levying and expending of large sums of money.
4. Large sums of money have been fraudulently obtained, or paid away, in particular Districts, as proved by the Official Returns, *if the same are correct.*

1. The House met pursuant to adjournment; the Speaker took the Chair.
Election Petition:—The Speaker reported that there had been placed in his hands, by Mr. Plunkett, a Petition from certain Electors of the City of Sydney, praying that the Election lately had of a Member to serve in the Legislative Assembly, for the Electoral District of the City of Sydney, in room of Henry Parkes, Esquire, resigned, may be set aside, and that William Bede Dalley, Esquire, may be declared not to have been duly elected, and that a New Writ may be issued, and a New Election may take place for the Election of a Member to serve in the said Assembly, for the said Electoral District, in room of Henry Parkes, Esquire, resigned, as aforesaid, and that justice may be done in the premises:
Mr. Plunkett then moved, That the said Petition be forthwith referred to the Committee of Elections and Qualifications—
And the Speaker, on the request of Mr. Martin, directing the Clerk to read the said Petition, the same was accordingly read at length by the Clerk,—

And it being referred to the Speaker to determine the Point of Order which had arisen,—
The Speaker ruled, That, as this House could not refer the Petition to the Committee of Elections and Qualifications in any other way than upon a Motion made and a Question put, it was clear that that Question might be debated as any other Question, and added that there were no words in the 65th section of the Electoral Act of 1851 which went to arrest or restrict a Debate upon any such Question.

The Speaker, adverting to the point of order which had been referred to him, gave it as his opinion that it was not competent to any Honorable Member to go into any argument which would trench upon the functions of the Committee of Elections and Qualifications, but added, that as it was extremely difficult to determine the exact point at which he ought to interrupt the argument of the Honorable Member in possession of the House, he must leave it to that Honorable Member to avoid extending his argument to any point properly determinable only by the Committee of Elections and Qualifications,—

Whereupon Debate continued.

That, as the circumstances which led to two Companies of Military being stationed here at the expense of the Colonists no longer exist, this House is of opinion that the Home Government ought to be forthwith apprized that the services of these two Companies will not be required by the Colony after the expiration of the year 1857.
(2.) That this House is also of opinion, that the present circumstances of the Colony do not call for the continuance of the Colonial Allowance now paid to the whole of the Military, beyond the year 1857.
(3.) That the foregoing Resolutions be embodied in an Address to the Governor General, in order that His Excellency may take such steps in reference thereto, as may be deemed necessary.
8. Government House and Domain at Parramatta:—The following Message from His Excellency the Governor General received and read;—

W. DENISON,

Governor General.

Message No. 18.

It is a source of unfeigned regret to the Governor General that any difference of opinion should exist between himself and the Legislative Assembly; and this regret is enhanced on the present occasion by the circumstance that this difference of opinion has occurred with reference to a matter in which His Excellency may be said to have a direct personal interest. Such, however, being the case, the Governor General feels that it is due to his own character, that the circumstances under which the Domain at Parramatta was leased should be clearly stated; and as, by the mode of procedure in the Legislative Assembly, His Excellency has been precluded from making this statement previous to the adoption of the Resolution which has been submitted with the Address of the Assembly, he avails himself of the present opportunity to do so.

The

The Domain at Parramatta has for many years been an appanage of the Governors of New South Wales:—to the circumstances under which this appropriation of the Land was made it is unnecessary now to allude, as the principal part, if not the whole, of the correspondence between former Governors and the Secretary of State has been printed, and forms part of the Records of the Legislature. It is sufficient for the Governor General to state, that the Domain and the Buildings within it were reserved by the Secretary of State for the use of the Governor, on the sole condition that the Colony should not be put to any expense in maintaining the Establishment.

The Governor General does not wish to comment upon the meaning which has been held to attach to this condition. It is sufficient for him to remark that, on his arrival in the Colony, the Buildings in the Domain were in such a state of dilapidation as to render it impossible for him to occupy them.

As, therefore, residence on the spot was impracticable, it soon became evident to the Governor General that the advantages which his predecessors had derived from the occupation of the Domain, and for which it had been specially reserved to their and his use, would, in his case, owing to his enforced absence, become altogether illusory.

Under these circumstances His Excellency decided to let the Domain; and in so doing he acted, as he believed, in strict accordance with the spirit of the Despatch by which the use of the Domain was reserved to his predecessors and himself,—and this opinion he has not seen any reason to alter.

It is, however, for Her Majesty only to decide whether, in acting as he has done, the Governor General has exceeded his powers.

In the mean time, however, His Excellency has no wish to press his own individual convictions in opposition to those of the Assembly; and he is not only willing but desirous to waive all considerations of personal interest. He will therefore, at the expiration of the Lease in March next, resume the occupation of the Domain at Parramatta; and has caused to be paid into the Colonial Treasury the amount which has been received as rent for the same.

As, however, the proceeds of a property set apart by the Queen for a specific purpose cannot, until a change in such appropriation be made by competent authority, be carried to the credit of the General Revenue, the Governor General recommends that the amount thus paid into the Colonial Treasury should be expended upon the property itself, in carrying out such repairs to the Fences and Buildings as may be most urgently required; and he has accordingly directed the insertion in the Supplementary Estimate of a sum to be applied to this purpose.

*Government House,
Sydney, 6 January, 1857.*

 - (2.) That this House is further of opinion, that the granting of any such places, either for the purposes of grazing cattle, for holding flower shows, exhibiting fire-works, or any other object whatever, involving the payment of money as a condition of admission to such places, ought to be immediately discontinued.

TUESDAY, JANUARY 20.

OTHER BUSINESS—NOTICE OF MOTION :—

1. MR. NICHOLS to move, That this House having taken into consideration the Correspondence between the Secretaries of State and the Governors of this Colony, on the subject of the Government House and Domain in Parramatta, together with his Excellency's Message No. 18, 6 January, 1857, Resolves :—

(1.)

(1.) That, in the opinion of this House, the Government Domain at Parramatta, and the Buildings within it, have not for many years past been an *appanage* of the Governor of New South Wales, nor have the same been reserved by any Secretary of State for the use of the present Governor, on the conditions stated in the Message of His Excellency.

(2.) That the occupation of the Domain at Parramatta, was only conceded to His Excellency's immediate predecessors, by the Despatch of the Right Honorable Lord Stanley, then Secretary of State for the Colonies (of the 9th November, 1845) to Sir George Gipps, and by that of the Right Honorable W. E. Gladstone, (then Secretary of State for the Colonies) to His Excellency Sir Charles Fitz Roy, of the 14th June, 1846, (and to them only,) upon the express condition that the same should be used as a Country Residence, and that the Colony should not be put to any expense on account thereof.

(3.) That from the documents now before this House, it does not appear that His Excellency the present Governor, has any authority either to occupy, or to appropriate the Domain for any private purpose whatever.

(4.) That as, in the opinion of this House, there has been no such setting apart, to the use of the Governor of this Colony, of the Parramatta Domain, by Her Majesty the Queen, as is stated in His Excellency's Message, and the management of the waste Lands of the Crown having been ceded to the Colonial Legislature, by the Constitution Act, it does not rest with Her Majesty to decide whether His Excellency the Governor-General has exceeded his powers or not.

(5.) That this House therefore adheres to the opinion expressed in its resolution of the 19th day of December, 1856, and, is further of opinion, that the Domain ought to be disposed of for the public advantage, in terms of His Excellency's Message, No. 26, of the 4th of July, 1855.

(6.) That a copy of the foregoing Resolutions be transmitted to the Governor General, with a request that His Excellency will be pleased to forward them to Her Most Gracious Majesty.

ORDER OF THE DAY :—

1. Electoral and Representative Systems Amendment Bill ; second reading.

FRIDAY, JANUARY 23.

NOTICE OF MOTION :—

1. MR. SCOTT to move,—

(1.) That it is the opinion of this House that, in any Contract made by the Government for the Conveyance of Mails during the year 1858, between this Colony and Great Britain, it ought to be expressly stipulated that Sydney should be the first place of arrival in these Seas, and the last of departure.

(2.) That the foregoing Resolution be embodied in an Address, and presented to His Excellency the Governor General, with a request that he will cause it to be carried into effect.

FRIDAY, JANUARY 30.

Committee of Elections and Qualifications:—James Garland, Richard Hargrave, and Terence Aubrey Murray, Esquires, sworn at the Table, by the Clerk, as Members of the Committee of Elections and Qualifications for the present Session, pursuant to the requirement of the 59th section of the Electoral Act of 1851.
2. Mr. William Bowman:—Mr. Nichols presented a Petition from Mr. William Bowman, representing that in 1855 he destroyed, under the provisions of the Scab Act, 3,400 sheep, then depasturing in the County of Bligh; but that, although he complied with the requirements of the Act, the Justices refused to grant a certificate enabling him to receive compensation;—and praying relief.
Petition received.
3. Paper:—Mr. Hay laid upon the Table, the Return to the Address, adopted on motion of Mr. John Campbell, on the 31st October last, in reference to Land in Compensation granted to Mr. Francis O'Brien.
Ordered to be printed.
4. Government House and Domain at Parramatta:—Mr. Nichols, on being called upon by the Speaker to move the motion standing in his name first on the Notice Paper for to-day, moved that the Resolution passed by this House on the 19th ultimo in reference to this subject be read by the Clerk.
Resolution read, accordingly, by direction of the Speaker, as follows:—
“That, in the opinion of this House, the rents or proceeds, whatever they may be, derived from the letting of the Government House at Parramatta, and the Domain thereto attached, are and do form part of the Consolidated Revenues of the Colony, and ought to be paid to the Colonial Treasurer for the public uses of the Colony, and in support of the Government thereof.”
Mr. Nichols then moved, pursuant to notice, That this House having taken into consideration the Correspondence between the Secretaries of State and the Governors of this Colony, on the subject of the Government House and Domain in Parramatta, together with his Excellency's Message No. 18, 6 January, 1857, Resolves:—
(1.) That, in the opinion of this House, the Government Domain at Parramatta, and the Buildings within it, “have not for many years past been” an *appanage* of the Governor of “New South Wales,” nor have the same been reserved by any Secretary of State for the use of the present Governor, on the conditions stated in the Message of His Excellency.
“ (2.) That the occupation of the Domain at Parramatta, was only conceded to His Excellency's immediate predecessors, by the Despatch of the Right Honorable Lord Stanley, then Secretary of State for the Colonies (of the 9th November, 1845) to Sir George Gipps, and by that of the Right Honorable W. E. Gladstone, (then Secretary of State for the Colonies) to His Excellency Sir Charles Fitz Roy, of the 14th June, 1846, (and to them only,) upon the express condition that the same should be used “as a Country Residence, and that the Colony should not be put to any expense on account thereof.
“ (3.) That from the documents now before this House, it does not appear that His Excellency, the present Governor, has any authority either to occupy, or to appropriate the Domain for any private purpose whatever.
“ (4.) That as, in the opinion of this House, there has been no such setting apart, to the use of the Governor of this Colony, of the Parramatta Domain, by Her Majesty the Queen, as is stated in His Excellency's Message, and the management of the waste Lands of the Crown having been ceded to the Colonial Legislature, by the Constitution Act, it does not rest with Her Majesty to decide whether His Excellency the Governor General has exceeded his powers or not.”
“ (5.) That this House therefore adheres to the opinion expressed in its resolution of the 19th day of December, “1856,” and, “is further of opinion,” that the “Domain” ought to be disposed of for the public advantage, in terms of His Excellency's Message, No 26, of the 4th of July, 1855.
“ (6.) That a copy of the foregoing “Resolutions” be transmitted to the “Governor General,” with a request that His Excellency will be pleased to forward them to Her Most Gracious Majesty.

Debate ensued.

Mr. Plunkett moved the following amendment:—That in section (1) the words “have not, for many years past, been” be omitted, with a view to the insertion in their place of the words “ought to be no longer,” and that all the words following the words, “New South Wales,” be omitted. That all the words of sections

(2),

(2), (3), and (4), be omitted. That in section (5), all the words down to and inclusive of "1856," and the words, "is further of opinion," be omitted, and that the word "domain," be omitted with a view to the insertion in its place, of the word "same;" and that in section (6,) the word, "Resolutions," be converted into "Resolution," and the whole of the words following the words "Governor General," be omitted. (So that the motion may read thus:—"That this House having taken into consideration the Correspondence between the Secretaries of State and the Governors of this Colony, on the subject of the Government House and Domain in Parramatta, together with His Excellency's Message, No. 18, 6 January, 1857," Resolves:—

(1.) That, in the opinion of this House, the Government Domain at Parramatta, and the Buildings within it ought to be no longer an appanage of the Governor of New South Wales, and that the same ought to be disposed of for the public advantage, in terms of His Excellency's Message, No. 26, of the 4th of July, 1855.

(2.) That a copy of the foregoing Resolution be transmitted to the Governor General.)

6. Sydney Municipal Council Bill :—The Speaker reported, that during the Debate on the motion for the second reading of the Assessment on Stock Act Continuation Bill, the following Message was received from the Legislative Council :—

Mr. SPEAKER,

The Legislative Council having referred to their Standing Orders Committee the Message from the Legislative Assembly (dated the 24th, and received the 25th ultimo), with further amendments upon the amendments made by the Council on the "Sydney Municipal Council Bill;" with instructions to consider and report the proper course to be now pursued with respect to the Bill; having reference to the Standing Rules and Orders of Proceedings of this House, and to the practice of the Imperial Parliament in analogous cases,—have received from the Committee the following Report, viz. :—

"This Committee having taken into consideration the questions submitted to them, and having referred both to May's Practice of Parliament and to various precedents in the Journals of the House of Commons, have the honor to report as follows.

"For greater convenience of reference, they have numbered the Amendments proposed by the Assembly on the Council's amendments from 1 to 14 inclusive.

"With respect to amendments 5, 6, and 7, they see no objection, in point of form, to their being entertained by the Council.

"With respect to amendments 1, 3, 8, and 9, although they find that in analogous cases reasons have been assigned by the Commons in returning Bills to the Lords, they are of opinion that it may be possible, by some latitude of construction, to regard them as falling under the head of amendments consequent upon amendments made by this House; and, considered in this point of view, might be entertained.

"With respect to the amendments, 2, 4, 10, 11, 12, 13, and 14, which are clear and unmistakable disagreements to amendments proposed by the Council, the Committee consider that the Council is imperatively precluded by the rules and usage of Parliament, and their own Standing Orders, founded thereon, from entertaining them, unless the Council be furnished, by Message, or, in conference, with the reasons of the Assembly for their disagreement."

The Council having adopted that Report, begs, for the reasons embodied therein, to signify its inability to entertain such portion of the Assembly's amendments as involves a disagreement with the amendments made by the Council, unless the Council be furnished, by Message, or, in conference, with the reasons of the Assembly for their disagreement.

J. H. PLUNKETT,
President.

*Legislative Council Chamber,
Sydney, 5 March, 1857.*

Mr. Parker then moved, That this Message be referred to the Standing Orders Committee, with an Instruction to that Committee to report whether, in their opinion, reasons ought to be given by this House for its disagreement to the amendments made by the Legislative Council in the Sydney Municipal Council Bill;—and, if it should be their opinion that reasons ought to be given, to prepare and report the reasons they would recommend this House to give.

Question put and passed.

7. Assessment on Stock Act Continuation Bill :—On motion of Mr. Donaldson, the Speaker left the Chair, and the House resolved itself into a Committee of the whole for consideration of this Bill.

The Chairman reported that a Point of Order had arisen in the Committee, which it was desired to have decided with the Speaker in the Chair, and obtained leave to sit again so soon as the Point of Order shall have been so decided.

The Chairman then stated the Point of Order as follows :—It was proposed in the Committee to add a Proviso to the reviving part of the Bill, which proviso contained a provision for an appropriation of the moneys to be raised under the Act to be revived, which was inconsistent with the Appropriation Clause in that Act;—and he had declined to put the Question on that proviso, on the ground that it was inconsistent with the 10th-section of the Act 19 Vict., No. 26, which had been revived by a previous vote in the Committee and could not therefore be entertained by the Committee unless that Section were first repealed.

The Speaker ruled that the proposed proviso was not inconsistent with the object of the Bill, and might therefore be received and put to the Question;—

Whereupon the Speaker left the Chair, and the Committee resumed.

The Chairman having reported the Bill with Amendments, the House adopted the same, and ordered the Bill, as so reported, to be read a third time to-morrow.

Mr. Manning moved, That the Question be amended, by the omission of all the words following the word "That," at the commencement, in order to the insertion in their place of the words "this Bill be now re-committed, with a view to the further consideration of Clause I."

VOTES AND PROCEEDINGS
OF THE
LEGISLATIVE ASSEMBLY.

TUESDAY, 10 MARCH, 1857.

1. The House met pursuant to adjournment; the Speaker took the Chair.
Appropriation Bill, on motion of Mr. Donaldson, read a third time, and *passed*.
Mr. Donaldson then moved, That the Title of this Bill be, "*An Act to appropriate and apply out of the Consolidated Revenue Fund of New South Wales, certain Sums to make good the Supplies granted for the Service of the Year 1856-7.*"

Question put and passed;—

Whereupon Mr. Donaldson moved, That this Bill be carried to the Legislative Council, with the following Message desiring its concurrence therein:—

The Legislative Assembly having this day passed a Bill, intituled, "*An Act to appropriate and apply out of the Consolidated Revenue Fund of New South Wales certain Sums to make good the Supplies granted for the Service of the year 1856-7,*" begs now to present the same to the Legislative Council for its concurrence.

*Legislative Assembly Chamber,
Sydney, 10 March, 1857.*

Speaker.

Question put and passed.

2. Sydney Sewerage and Water Appropriation Bill:—Mr. Donaldson having *presented* this Bill, Bill intituled, "*A Bill for applying certain sums raised or to be raised under the Sydney Sewerage Act of 1853, and the Sydney Water Act of 1853, for the Service of the Year 1857,*" read a first time; ordered to be printed, and read a second time to-morrow.
3. Sydney Municipal Council Bill:—Mr. Parker, on behalf of the Chairman, brought up the Report of the Standing Orders Committee on the Legislative Council's Message of the 5th instant, respecting the disagreement of this House to certain Amendments made in this Bill by the Legislative Council, which was referred to that Committee on the same day,—
And it being required that the Report be read, the Clerk read the same at length by order of the Speaker;—
Whereupon Report ordered to be printed;—
Mr. Parker then moved, That this House do now adopt the Report as read.
Question put and passed;—
Whereupon Mr. Parker moved, That the following Message be carried to the Legislative Council:—

In answer to the Message of the Legislative Council, dated 5th March, instant, the Legislative Assembly begs to assign the following reasons for its disagreement to the Amendments made by the Legislative Council in the Sydney Municipal Council Bill which are numbered, in the said Message, 2, 4, 10, 11, 12, 13, and 14, viz:—

2. The Legislative Assembly disagrees to so much of the Clause proposed by the Legislative Council to stand Clause * * 13 of the Bill as includes the words "or a Minister of any Religious Denomination," because, to retain those words would be an unnecessary restraint upon the choice of the body of Citizens.

4. The Legislative Assembly disagrees to the Amendment made by the Legislative Council which proposes the omission of Clause 16 and the substitution of proposed Clause * * 17, because, the provision in Clause 16 for determining the mode in which Aldermen shall annually retire from Office is capable of uniform application to all cases, whether the election of the retiring Aldermen may have been contested or not, whilst the corresponding provision in the proposed Clause would be inapplicable to cases where the retiring Aldermen had been returned without a contest.

10. The Legislative Assembly proposes to add after the two first words, "Provided that," in the Clause proposed by the Legislative Council to stand Clause * * 47 of the Bill, the words, "no Minister of any Religious Denomination and," because, whilst it would not disable Ministers of Religion to serve, it would nevertheless protect them from penalty for declining to serve these Offices.

The Legislative Assembly disagrees to so much of the said proposed Clause as contains the words, "or paid the fine for not accepting such Office," before the words, "within five years," and proposes to add, after the word "elected," the words, "or shall have paid the fine for not accepting such Office within the same period," because, these words, there placed, carry out more clearly the intention of both Houses.

11. The Legislative Assembly disagrees to the Amendment made by the Legislative Council in Clause 49, page 8, line 26, by adding the words "an Officer of Health and such" after "Treasurer," because, the Corporate Body has power under the Clause to appoint such an Officer at any time it shall in its discretion see fit, and it was not thought expedient to fetter that discretion.

12. The Legislative Assembly disagrees to the other Amendment made by the Legislative Council in Clause 49, page 8, line 31, by adding after the word "whatever" at the end, the words "excepting such portions of penalties or fines as may be awarded to any such Officer or he may be otherwise entitled to by law," because, these words involve an interference with the money part of the Clause, and because they are unnecessary, inasmuch as they would give to the Officers and servants of the Corporation no more than they would by law be entitled to without them.

13. The Legislative Assembly disagrees to the Amendment made by the Legislative Council, by the addition of the proposed Clause, * * 53, because, having disagreed to the Amendment by which it was sought to make it compulsory on the Corporation to appoint a Health Officer, this proposed Clause, which relates exclusively to that appointment, is unnecessary.

14. The Legislative Assembly disagrees to the Amendment made by the Legislative Council in clause 52, page 8, line 55, by the omission of the word "Aldermen" because the Assembly had agreed that the office of Alderman ought to be a paid office.

*Legislative Assembly Chamber,
Sydney, 10 March, 1857.*

Speaker.

Question put and passed.

4. County Courts Bill:—Upon the Order of the Day being read, for the further consideration of this Bill in Committee, the Speaker left the Chair, and the House resolved itself into a Committee of the whole accordingly.

The Chairman reported progress, and obtained leave to sit again to-morrow,—taking precedence of all Other Business on that day.

5. Elective Legislature:—Mr. Robertson moved, pursuant to notice, That, in the opinion of this House, the reply of the Honorable the Colonial Secretary, on Friday, the 27th February, to the Question, "Whether it is the intention of the Government to take any, and if any, what steps, during the ensuing Parliamentary recess, to carry out the expression of opinion by this House, on Tuesday last, in favor of applying the principle of direct election by the people to all deliberative bodies entrusted with Legislative functions in this Colony?" is most unsatisfactory.

(3). Sydney Municipal Council Bill:—

Mr. Speaker,

The Legislative Council having taken into consideration the Messages from the Legislative Assembly dated respectively the 24th February and 10th March proposing certain amendments upon the amendments made by the Council in the Sydney Municipal Council Bill, and assigning their reasons for their disagreeing to certain of those amendments insist upon the following amendments to which the Legislative Assembly has disagreed, namely:—

In clause 49 page 8, line 26, by adding the words, "an Officer of Health and "such" after "Treasurer—" and by the addition of the proposed clause * *53 for the following reasons,—

Because the sanitary condition of the City is such as to render it imperatively necessary that a Health Officer should be immediately appointed, and because it admits of doubt whether the Municipal Body would have the power, without express authority to appoint such an Officer.

Because

Because any delay in making such appointment would be calculated to occasion a serious sacrifice of human life

Because such an appointment under direct Legislative enactment is in conformity with the example of English Legislation in analogous cases during the last ten years and upwards.

With the preceding exceptions, the Legislative Council do not insist upon the other amendments, made by the Council and disagreed to by the Assembly, and agree to such other amendments of the Assembly as are proposed in their Message of 24th February.

J. H. PLUNKETT,
President.

2. Question of Privilege:—Mr. Cowper moved, without previous notice, That the Ministry, in having omitted to announce to this House the intention of His Excellency the Governor General to prorogue the Parliament this day—such communication having been made to the Legislative Council—have not treated the Assembly with that courtesy to which it is entitled as a co-ordinate branch of the Legislature.
Debate ensued.
3. Assent to Appropriation Bill:—The Usher of the Black Rod being admitted, delivered a Message,—“That it is the pleasure of the Governor General that this Honorable House do attend His Excellency forthwith in the Legislative Council Chamber.” The House attended accordingly, and the Speaker presented to the Governor General the Bill, intituled, "*An Act to appropriate and apply out of the Consolidated Revenue 'Fund of New South Wales, certain sums to make good the supplies granted for the 'service of the year 1856-7,'*" to which His Excellency was pleased to subscribe and declare His assent in the name and on the behalf of Her Majesty.
4. Prorogation Speech:—After which His Excellency was pleased to make to both Houses of Parliament the following Speech;—

HONORABLE GENTLEMEN OF THE LEGISLATIVE COUNCIL AND
GENTLEMEN OF THE LEGISLATIVE ASSEMBLY,—

1. After an unusually protracted and laborious Session, I am happy to be enabled to release you from further attendance.

2. It was not to be expected that the inauguration of the New Constitution would be accomplished without some delays and difficulties.—I trust that the zealous and disinterested devotion of so much of your time and attention to the public service has not been productive of serious inconvenience to yourselves; and that in some measure it will be compensated by the consideration that your energies have been wisely and usefully exerted to promote the happiness and prosperity of the Colony.

3. Unavoidable delays, consequent upon the Ministerial changes which have taken place in the Government of the Country, have partially interfered with the fulfilment of the intentions expressed in the Speech, with which I opened the present Session; but it affords me great satisfaction to be able to congratulate you upon the perfecting of various useful and highly important measures.

4. Amongst the earliest questions which engaged the attention of the Government was a change in the Departmental Arrangements for the conduct of official business, and I believe that by the distribution of responsibility, which has already been introduced, the efficiency and convenience of the Public Service has been considerably promoted.

5.

5. An Act to repeal so much of the Constitution Act as renders necessary, for certain Constitutional changes, the consent of unusual majorities in both Houses of Parliament, has received your concurrence; and this Act, which, in compliance with the Royal Instructions, has been reserved for the signification thereon of Her Majesty's pleasure, has been recommended by me for Her Majesty's gracious allowance.

6. I have had much satisfaction in giving my assent to the Act for the re-establishment in Sydney of a Municipal Council, and I earnestly hope that this recurrence to the ordinary form of Municipal Institutions will be justified by the success which I trust may attend the alteration of the system of local government of the City.

7. The several Acts which have been passed for the better management of the Gold Fields, and the raising of a Revenue to defray the attendant expense, upon a more equitable principle than that hitherto in force, will tend, I feel assured, to promote the further development of the important interests involved.

8. Until a period of sufficient leisure to admit of careful deliberation is afforded, it has been considered necessary to postpone any general measures relating to the administration of the Waste Lands of the Crown. It must be acknowledged, I think, that this is a question which will require to be approached with the greatest caution and deliberation, in order that it may be settled upon a sound and satisfactory basis.

9. The numerous and important Acts affecting the Administration of Justice, which have been passed during this your first Session, cannot fail to be productive of very great benefit to the Public.

10. The reasonable demands of the Northern Districts of the Colony have been amply met by the establishment at Moreton Bay of a Court, possessing the most comprehensive Jurisdiction both Civil and Criminal.

11. I regret that it has been found impossible to complete the measure which had for its object the establishment of District Courts. I cannot, however, prolong the Session for the further consideration of that measure, without imposing unreasonable inconvenience on the Members of both branches of the Legislature. But the short delay which will thus be interposed, will not, I trust, be productive of any serious practical injury to the public interests; inasmuch as the preliminary arrangements for bringing such an Act into operation, may, to a considerable extent, be proceeded with during the recess, in anticipation of the passing of this important measure in the early part of next Session.

12. Amongst the many measures of Law Reform which you have passed, that for the improvement of Common Law Procedure is one of the most important.

13. I regret that it has been found impossible in this Session to introduce a Bill for the general amendment of the Insolvent Acts. Some prominent defects have been remedied, and I hope another Session may not pass without a comprehensive revision of a branch of law so seriously affecting the trade and commercial honor of the country.

14. To the numerous other subjects of legislation which have occupied your attention, and amongst which are many of great practical utility, it is unnecessary for me to make particular allusion.

15. I regret that in consequence of the delays to which I have already adverted, some subjects of great importance must remain for future consideration.

16. Bills have been laid upon the Table for the regulation of Railways, and for the establishment in the Country Towns, and Rural Districts of a system of Municipalities. These measures will, during the recess, be open for deliberation and the expression of public opinion, which may be ultimately of great advantage in bringing them to maturity.

17. A liberal amount has been granted for the promotion of Immigration; and, as this question is one of very vital interest to the Colony, it will, during the recess, engage the most anxious consideration of the Government.—I feel justified in anticipating that such a system may be devised as will tend to the further encouragement of assisted Immigration, and lead to the introduction of a steady and continuous supply of useful labour—especially by affording greater facilities than at present exist to the employers of labour in this Colony, in the selection, in the United Kingdom, of such Immigrants as they may desire to engage in their own service.

18. Another subject which deeply concerns the welfare of the Colony, and demands the cordial co-operation of every member of the community, is the establishment of an enlightened and comprehensive system of Education. It will be the earnest endeavour of the Government to overcome the great difficulties which beset this important question.

GENTLEMEN OF THE LEGISLATIVE ASSEMBLY,—

19. I thank you for the liberality with which you have voted the Supplies. It will be my duty to administer them with a due regard to economy, and the efficiency of the Public Service.

20. The credit of the Colony is in a highly satisfactory position, and it is a matter of congratulation that the state of the Revenue is such as to have rendered it unnecessary to resort, in the present Session, to any extraordinary increase of taxation.

21. I have every confidence, from the indications of commercial prosperity, that the Revenue of Customs will fully realize the Estimate which has been laid before you.

HONORABLE

HONORABLE GENTLEMEN OF THE LEGISLATIVE COUNCIL, AND
GENTLEMEN OF THE LEGISLATIVE ASSEMBLY,—

22. No time will be lost in issuing the necessary instructions to the proper Departments, for carrying out the recommendations of the Commission of Delegates from the Australian Colonies and Tasmania, for the erection of additional Light Houses on the Coast, so far as the duty devolves on this Government.

23. Arrangements for the construction of a line of Electric Telegraph between Sydney and Melbourne, in co-operation with the Government of Victoria, are in a state of active progress. This rapid inter-communication between the Cities of Sydney and Melbourne, in connexion with the recent establishment of the regular and speedy Steam Postal arrangement with the Parent State, may be regarded as subjects of more than ordinary congratulation, and will, doubtless, be productive of great public advantage.

24. Under Divine Providence, the Country has been blessed with a season of abundance and prosperity; and I earnestly hope that a profound sense of gratitude to Almighty God for the many blessings he has bestowed upon all classes, may lead to increased exertion on their part to contribute according to the ability of each to the well-being and happiness of the whole Community.

25. I now declare this Parliament to stand prorogued to Tuesday, the 28th day of April next.
