POINTS OF ORDER :— Reported from Committee of the Whole, 213, 249.		
RULINGS OF SPEAKER :— That an Honorable Member having been adjudged guilty of contempt, the House could order what punishment it thought fit, 23. That judgment having been pronounced on a question, following upon the House having adjudged an Honorable Member guilty of contempt, by motion, which was open to amendment, and none having been proposed, no second motion could be moved, 23. That motion for adjournment to discuss the decision of a Judge was not irregular, but the language must not be disrespectful to that Judge, 53. That an Honorary Minister was not a Minister of the Crown within the meaning of subsection 7 of section 16 of the Audit Act, 61. That motion for adjournment which anticipated a motion of which notice had been given was out of order, 74, 119. That name of Member for appointment on Public Accounts Committee must be submitted without debate, 75. That amendment to add words, incurring additional expenditure, to motion to refer work to Parliamentary Standing Committee on Public Works, could not be accepted as there was no provision in the plan submitted by the Minister in accordance with the Public Works Act, 92. That motion for adjournment to discuss Hare System of voting at Elections was out of order, as the question could be discussed on the motion to bring in Temporary Supply Bill that day, 109. That motion for Address to Governor respecting Preferential Trade was the same in substance as resolution already discussed this Session, and the further consideration of which stood on the Business Paper, and, therefore, out of order, 152. That Dentists Act Amendment Bill did not impose an impost under section 5 of the Constitution Act, and was in order, 208. That a proposed new clause to enable the holder of a settlement lease to convert such lease into a conditional purchase was beyond the scope of the Crown Lands Act Amendment Bill as committed, as it would materially interfere with the system of leasing Crown lands established by the Act of 1895, which the Bill did not seek to alter, 213.

POINTS OF ORDER (continued) :—		
RULINGS OF SPEAKER (continued) :—		
That an Honorary Minister was entitled to move the second reading of a Bill on behalf of the Secretary for Mines, 219.		
That the Forestry Bill proposed to amend some and repeal other provisions of the Crown Lands Acts, without any mention of such amendment or repeal in the Title, and was, therefore, out of order, 222.		
That the State Children's Bill necessitated public expenditure, and infringed the privileges of the Assembly, and should have been introduced in the Assembly and preceded by a Message from the Crown, 225.		
The provision for issue of mining licenses in clause 16 of the Forestry Bill (No. 2) was fully covered by the Title ; it was not clear that the Bill proposed to amend the Crown Lands Act of 1895, nor did it conflict sufficiently with the Crown Lands Act Amendment Bill, passed this Session, to be ruled out of order on that ground ; the Bill was, therefore, in order, 249.		
That an amendment, proposed in Committee, to the resolution to introduce the Reduction of Members Referendum Bill, which would practically reverse the leading principle of the resolution, would not be relevant, 249.		
That motion for adjournment to discuss the conduct of the Captain of the s.s. "Elginshire" in leaving sailors penniless in our State was in order, as a free opportunity for discussion would not be afforded in Supply, 257.		
That clause 7 of the Defamation Bill proposed to amend an Act not indicated in the order of leave, and the Bill was therefore out of order, 297.		
That motion in reference to the Liquor Traffic did not anticipate debate on the 2 ^d of the Liquor Bill, 312.		
That suspension of Standing Orders to discuss motion as a matter of urgency only cleared the way for the motion to be moved in advance of its regular order, 312.		
That the terms of the motion suspending Standing and Sessional Orders to discuss motion respecting the Liquor Traffic as a matter of urgency, precluded the moving of such motion, 313.		
That Bills of Sale (Amendment) Bill (<i>Council Bill</i>) did not involve expenditure or impose taxation, the practice, which was in accord with rulings given in the House of Commons, was, that Bills involving expenditure or imposing taxation should be introduced in the Assembly and through Committee of the whole, but Bills other than these might be introduced in the Upper House, 329.		
That although a précis could not be given nor a personal explanation be made, at the time of laying papers on the Table, a member was not precluded from moving the adjournment under the 49th Standing Order to discuss the subject matter of such papers, 341.		
That Public Places Advertisements Bill did not absolutely prohibit advertisements and was in order, 353.		
That a motion to pass Bill through all its remaining stages in one day as a matter of urgency was in order, although the Orders of the Day had been entered upon, 360.		
That amendment to add words "revenue derived from the alienation of the Public Estate" to motion in favour of placing moneys accruing to the State under the "Braddon" clause in a sinking fund was irrelevant and beyond the scope of the original motion, 377.		
That it would be wiser to follow the usual course and declare it to be <i>urgent</i> that the Standing Orders be suspended to pass Bills through all their stages at one sitting, than to add them as an amendment to a motion for the Suspension of Standing Orders having reference to another Bill, 378.		
That motion for adjournment to discuss delay in constructing a tramway to Kurri Kurri, anticipated Debate on motion of which notice had been given during the same sitting, 387.		
That Government Savings Bank (Amendment) Bill did not exceed the order of leave, 388.		
That form of motion to be moved as a matter of urgency was in accordance with the requirements of Standing Order No. 395, 398.		
That Master in Equity (Deputy) Bill, originated in the Council, did not infringe the privileges of the Assembly, and was in order, 399.		
That although not <i>then</i> prepared to rule, he was of opinion that an Honourable Member was not out of order in moving for the consideration of a subject as a matter of urgency because he had admitted having placed a notice of motion for the adjournment in the Box, which motion had not been drawn, and the House had decided that a second motion for adjournment should not be entertained, 387.		
RULINGS OF DEPUTY-SPEAKER :—		
That motions suggesting provisions for New Land Bill anticipated debate on 2 ^o of Crown Lands Act Amendment Bill, and was therefore out of order, 152.		
That the Forestry Bill (No. 2) did not propose to amend the Mining Laws, but only the Crown Lands Act of 1884, to which it referred, and was in order, 253.		
POLICE :—

J. L. Fegan, and the nomination of John Thomson, Esquire, to fill vacancy, 62 ; Order of the Day read and question proposed ; <i>Point of Order</i> .—"That on the occasion of the election of the first Committee, Mr. Speaker had decided that the names should be submitted without debate."—Mr. Speaker upheld his previous decision, Motion agreed to, 75.

RULINGS OF:—		
That an Hon. Member having been adjudged guilty of contempt, the House could order what punishment it thought fit, 23.		
That judgment having been pronounced on a question following upon the House having adjudged an Hon. Member guilty of contempt, by motion, which was open to amendment, and none having been proposed, no second motion could be moved, 23.		
That motion for adjournment to discuss the decision of a Judge was not irregular, but the language must not be disrespectful to that Judge, 53.		
That an Honorary Minister was not a Minister of the Crown within the meaning of subsection 7 of section 16 of the Audit Act, 61.		
That motion for adjournment which anticipated a motion of which notice had been given was out of order, 74, 119.		
That name of Member for appointment on Public Accounts Committee must be submitted without debate, 75.		
That amendment to add words incurring additional expenditure, to motion to refer work to Parliamentary Standing Committee on Public Works could not be accepted, as there was no provision in the plan and estimate submitted by the Minister in accordance with the Public Works Act, 92.		
That motion for adjournment to discuss "Hare System" of voting at elections was out of order, as the question could be discussed on the motion for a temporary Supply Bill at a later hour of the day, 109.		
That House having decided that a Member "be not further heard" no right of reply could be allowed, 147.		
That motion for Address to Governor respecting Preferential Trade, was the same in substance as resolution already discussed this session, and the further consideration of which stood on the Business Paper, and therefore out of order, 152.		
That Dentists Act Amendment Bill did not impose an impost under section 5 of the Constitution Act, and was in order, 203.

SPEAKER (continued) :—		
RULINGS OF (continued) :—		
That a proposed new clause to enable the holder of a settlement lease to convert such lease into a conditional purchase was beyond the scope of the Crown Lands Act Amendment Bill as committed, as it would materially interfere with the system of leasing Crown lands, established by the Act of 1895, which the Bill did not seek to alter, 213.		
That an Honorary Minister was entitled to move the second reading of a Bill on behalf of the Secretary for Mines, 219.		
That the Forestry Bill proposed to amend some and repeal other provisions of the Crown Lands Acts, without any mention of such amendment or repeal in the Title, and was therefore out of order, 222.		
That the State Children's Bill necessitated public expenditure, and infringed the privileges of the Assembly, and should have been introduced in the Assembly and preceded by a Message from the Crown, 225.		
That provision for issue of mining licenses in clause 16 of the Forestry Bill (No. 2) was fully covered by the Title; it was not clear that the Bill proposed to amend the Crown Lands Act of 1895, nor did it conflict sufficiently with the Crown Lands Act Amendment Bill, passed this Session, to be ruled out of order on that ground; the Bill was therefore in order, 249.		
That an amendment, proposed in Committee, to the resolution to introduce the Reduction of Members Referendum Bill, which would practically reverse the leading principle of the resolution, and would not be relevant, 249.		
That motion for adjournment to discuss the conduct of the Captain of the s.s. "Elginshire" in leaving sailors penniless in our State was in order, as a free opportunity for discussion would not be afforded in Supply, 257.		
That motion for adjournment to discuss the necessity for completing the Central Railway Station as soon as possible could not be entertained, as it was clearly a matter which could be discussed in the debate on the Financial Statement, 264.		
That clause 7 of the Defamation Bill proposed to amend an Act not indicated in the order of leave, and the Bill was, therefore, out of order, 297.		
That motion in reference to the Liquor Traffic did not anticipate debate on the 2 ^o of the Liquor Bill, 312.		
That suspension of Standing Orders to discuss motion as a matter of urgency only cleared the way for the motion to be moved in advance of its regular order, 312.		
That the terms of the motion suspending Standing and Sessional Orders to discuss motion respecting the Liquor Traffic as a matter of urgency, precluded the moving of such motion, 313. <i>and was properly before House</i>		
That Bills of Sale (Amendment) Bill (Council Bill) did not involve expenditure or impose taxation, the practice, which was in accord with rulings given in the House of Commons, was, that Bills involving expenditure or imposing taxation should be introduced in the Assembly and through Committee of the Whole, but Bills other than these might be introduced in the Upper House, 329.		
That although a précis could not be given nor a personal explanation be made at the time of laying papers on the Table, a Member was not precluded from moving the adjournment under the 49th Standing Order to discuss the subject matter of such papers, 341.		
That Public Places Advertisements Bill did not absolutely prohibit advertisements, and was in order, 353.		
That a motion to pass Bill through all its remaining stages in one day, as a matter of urgency was in order, although the Orders of the Day had been entered upon, 360.		
That amendment to add words "Revenue Derived from the Alienation of the Public Estate," to motion in favour of placing moneys accruing to the State under the "Braddon" Clause in a sinking fund, was irrelevant and beyond the scope of the original motion, 377.		
That it would be wiser to follow the usual course and declare it be <i>urgent</i> that the Standing Orders be suspended to pass Bills through all their stages at one sitting, than to add them as amendment to a motion for the suspension of the Standing Orders having reference to another Bill, 378.		
That motion for adjournment to discuss delay in constructing a tramway to Kurri Kurri anticipated debate on motion of which notice had been given during the same sitting, 387.		
That Government Savings Bank (Amendment) Bill did not exceed the order of leave, 388.		
That form of motion to be moved as a matter of urgency was in accordance with the requirement of Standing Order No. 395, 398.		
That Master in Equity (Deputy) Bill, originated in the Council, did not infringe the privileges of the Assembly, and was in order, 399.		
That although not <i>then</i> prepared to rule, he was of opinion that an honourable member was not out of order in moving for the consideration of a subject as a matter of urgency, because he had admitted having placed a notice of motion for the adjournment in the Box, which motion had not been drawn, and the House had decided that a second motion for adjournment should not be entertained, 387.		
RULINGS OF DEPUTY :—		
That motion suggesting provisions for new Land Bill, anticipated discussion on Crown Lands Act Amendment Bill, and was therefore out of order, 152.		
That the Forestry Bill (No. 2) did not propose to amend the Mining Laws, but only the Crown Lands Act of 1884, to which it referred, and was in order, 253.		
DISSENT FROM RULING :—		
Motion made (<i>Mr. Eden George</i>) in reference to ruling respecting motion for adjournment to discuss the necessity for adopting "Hare" system of voting, motion "That question be now put" negatived, original question negatived, 124.		
That Member could not move motion on behalf of another Member, 114.
