SPEAKER—continued :—		
RULINGS OF :—		
Motion made (<i>Mr. Thompson</i>) that House dissent from, and negativod, 309.		
That the House ought not to adopt a Report of a Select Committee of a previous Parliament, 51.		
That Resolution—That Ballot-papers, Young, be examined by Clerk, at the Table, and result reported by Speaker to the House—cannot be put, 94.		
That a motion referring to Ministerial advice to the Governor to dissolve Parliament, submitted by Sir Henry Parkes, was not entitled to be regarded as <i>Privilege</i> , 110.		
That an amendment cannot be proposed in Committee of Ways and Means which would increase the burdens of the people without the direct or indirect sanction of the Crown, 249.		
That one Member cannot move the second reading of a Bill for another, with the only exception of one responsible Minister for another Minister, 257.		
That the Title of the Barristers Bill did not correspond with the Order of Leave, and the Clauses of the Bill were not covered by the Title, 257.		
That an amendment submitted in Committee on Payment of Members, and rejected as out of order, was not identical with any proposition already disposed of by the Committee, 265.		
That it should be left for the decision of the House whether a motion in reference to Ballot Papers, Electoral District of Young, be put, 278.		
That an honorable member is not in order in quoting from a speech made in a previous debate of the present session,—motion made (<i>Mr. Thompson</i>) to dissent from the ruling of the Chair, and negativod, 309.		
That the Committee of the Whole (Customs Duties Bill) was properly sitting,—The House, through that Committee being in continuous sitting, and that it was not proper nor incumbent on him to interrupt the still existent sitting by taking the Chair at 4 o'clock p.m., 380.		
That, a clause of the Customs Duties Bill referring to Schedule A being under consideration, the items of that Schedule could not be discussed in anticipation, nor until the Schedule itself was under consideration, 380.		
Upholds opinion of Chairman, that words proposed to be inserted in clause 4 of the Stamp Duties Act Amendment Bill (No. 3) were properly before the Committee, as not imposing a tax or duty but being rather of the nature of a penalty, 457.		
That the Regulation of Factories and Workshops Bill having been brought in by an unofficial Member, and proceeded with by such Member as a Responsible Minister without being accepted as a Government measure, was rather a matter of constitutional propriety than of Order, 502.		
Upholds the opinion of the Chairman as to the inadmissibility, on the ground of inconsistency, of a proposed amendment to clause 6 of the Income Tax Bill, 511(?).		
That the 1st and 3rd Sessional Orders do not come into operation in cases where the House is already sitting at 4 o'clock p.m., and engaged in the despatch of Business, but have reference only to fresh meetings of the House, and not to sittings extending over twenty-four hours, and that it was therefore not right for him to call on the business for the new day, and thus begin a fresh sitting, 533.		
Upholds the opinion of the Chairman that a question (Centennial Exhibition) already decided by the House, during the present Session, cannot be submitted as an amendment upon a resolution before the Committee of the Whole, 567.		
That the Chairman had taken the usual and proper course in proposing the question in Committee of Supply without the Minister in charge moving the resolution, 583.		
That it is incompetent for an Honorable Member, who had already spoken to the main question, to propose an amendment, 593.		
SPECIAL ADJOURNMENT :—
