CLARENCE N<sup>o</sup> 2

Scale: 2 miles to an Inch.

This is a Cattle Station containing 76.640 acres, of which 7.769 acres have been secured by the proprietor, in the best positions. A considerable proportion of the purchased land, and the Head Station are situated within that part of the 1<sup>st</sup> Class Settled District which borders the Clarence River (on both sides,) and is not open to the usual squatting leases. This strip contains about 20.000 acres, and is not as a whole under any form of lease whatever; the Pre-leases, held by the proprietor of the station, are for the most part situated within it and amount to 4.073 acres.

Bona fide Selections to the amount of 2,137 ac. with their corresponding pre-leases, to the extent of 1,823 ac are also situated on the same strip of country.

## SKETCH MAP

Shewing 3 stations in the Murrumbidgee District, partially surrounding the Town of Deniliquin, and the remnant of a fourth, which is now freehold land belonging to different proprietors.

For convenience of description these areas are distinguished by the letters A.B.C.D.

Scale 2 miles to one inch

Station A is a valuable property of 105,600 ac with a frontage to Tuppal Creek of about 9 miles.

66406 acres have been alienated to the Lessee, chiefly by improvement purchases and auction sales.

The freehold has been largely increased owing to the reckless policy pursued in alienating the Reserves.

25183 acres are in the hands of Selectors. No land is available for preleases.

Station B, through which the Railway line to Moama passes, comprises 76,800 acres.

59,581 acres have been alienated to the Lessee by auction sales, improvement purchases, and Volunteer Land Orders.

As will be seen from the map the Run was thickly spotted with Volunteer Land Orders (92 in number) while the intermediate spaces were secured by purchases at auction.

8,502 acres are held by bona fide selectors, but no land is available for preleases.

Station C comprises about 89,900 acres with a frontage to the Edward and Wakool Rivers

62,837 acres of this property is freehold, purchased chiefly at auction, and by virtue of improvements. The Reserves have been to a great extent secured by the latter mode of purchase as in the case of Station A. Volunteer Land Orders have also been used and Mineral leases (purchased at auction after forfeiture) have been resorted to, apparently for the purpose of filling up intermediate spaces.

22,157 acres are held by bona fide selectors. No land is available for pre-leases.

Area D originally embraced about 44670 ac. as a leasehold including the Reserves around the Town of Deniliquin. The lease became extinct, having been forfeited for non payment of rent, some 12 years ago. All the available land has since been alienated.

4,572 acres have been purchased by the Lessee of the adjoining station (C) and 14,213 acres by bona fide Conditional selection.

WELLINGTON N° 2

Photo-lithographed at the Government Printing Office.  
Transferred to stone and printed at the Surveyor General's Office, Sydney, N.S.W.  
August 1883

This station comprises about 600,000 acres, and stretches along the northern bank of the Lachlan River for a distance of 32 miles in a direct line.

90,624 acres have been secured in the interests of the station by extensive purchases at auction, besides Improvement, and Conditional Purchases, and Land Orders. The latter have been freely used to hem in would-be selectors.

The Lessee has further protected his tenure by pre-leases to the extent of 48,674 acres.

13,251 acres of bona fide selections are represented with their accompanying pre-leases amounting to 22,080 acres.

This map also shows how selectors have attempted and succeeded in seizing upon the land benefited by the Lessee's conservation of water.

# Map of **NEW SOUTH WALES**

To accompany the Report of Inquiry into the operation of the Land Laws,  
shewing Firstly, The Territorial Divisions N<sup>o</sup>s 1,2,& 3, and Secondly, The Average  
Rainfall throughout the Colony from information supplied by the Gov<sup>t</sup> Astronomer.

1883

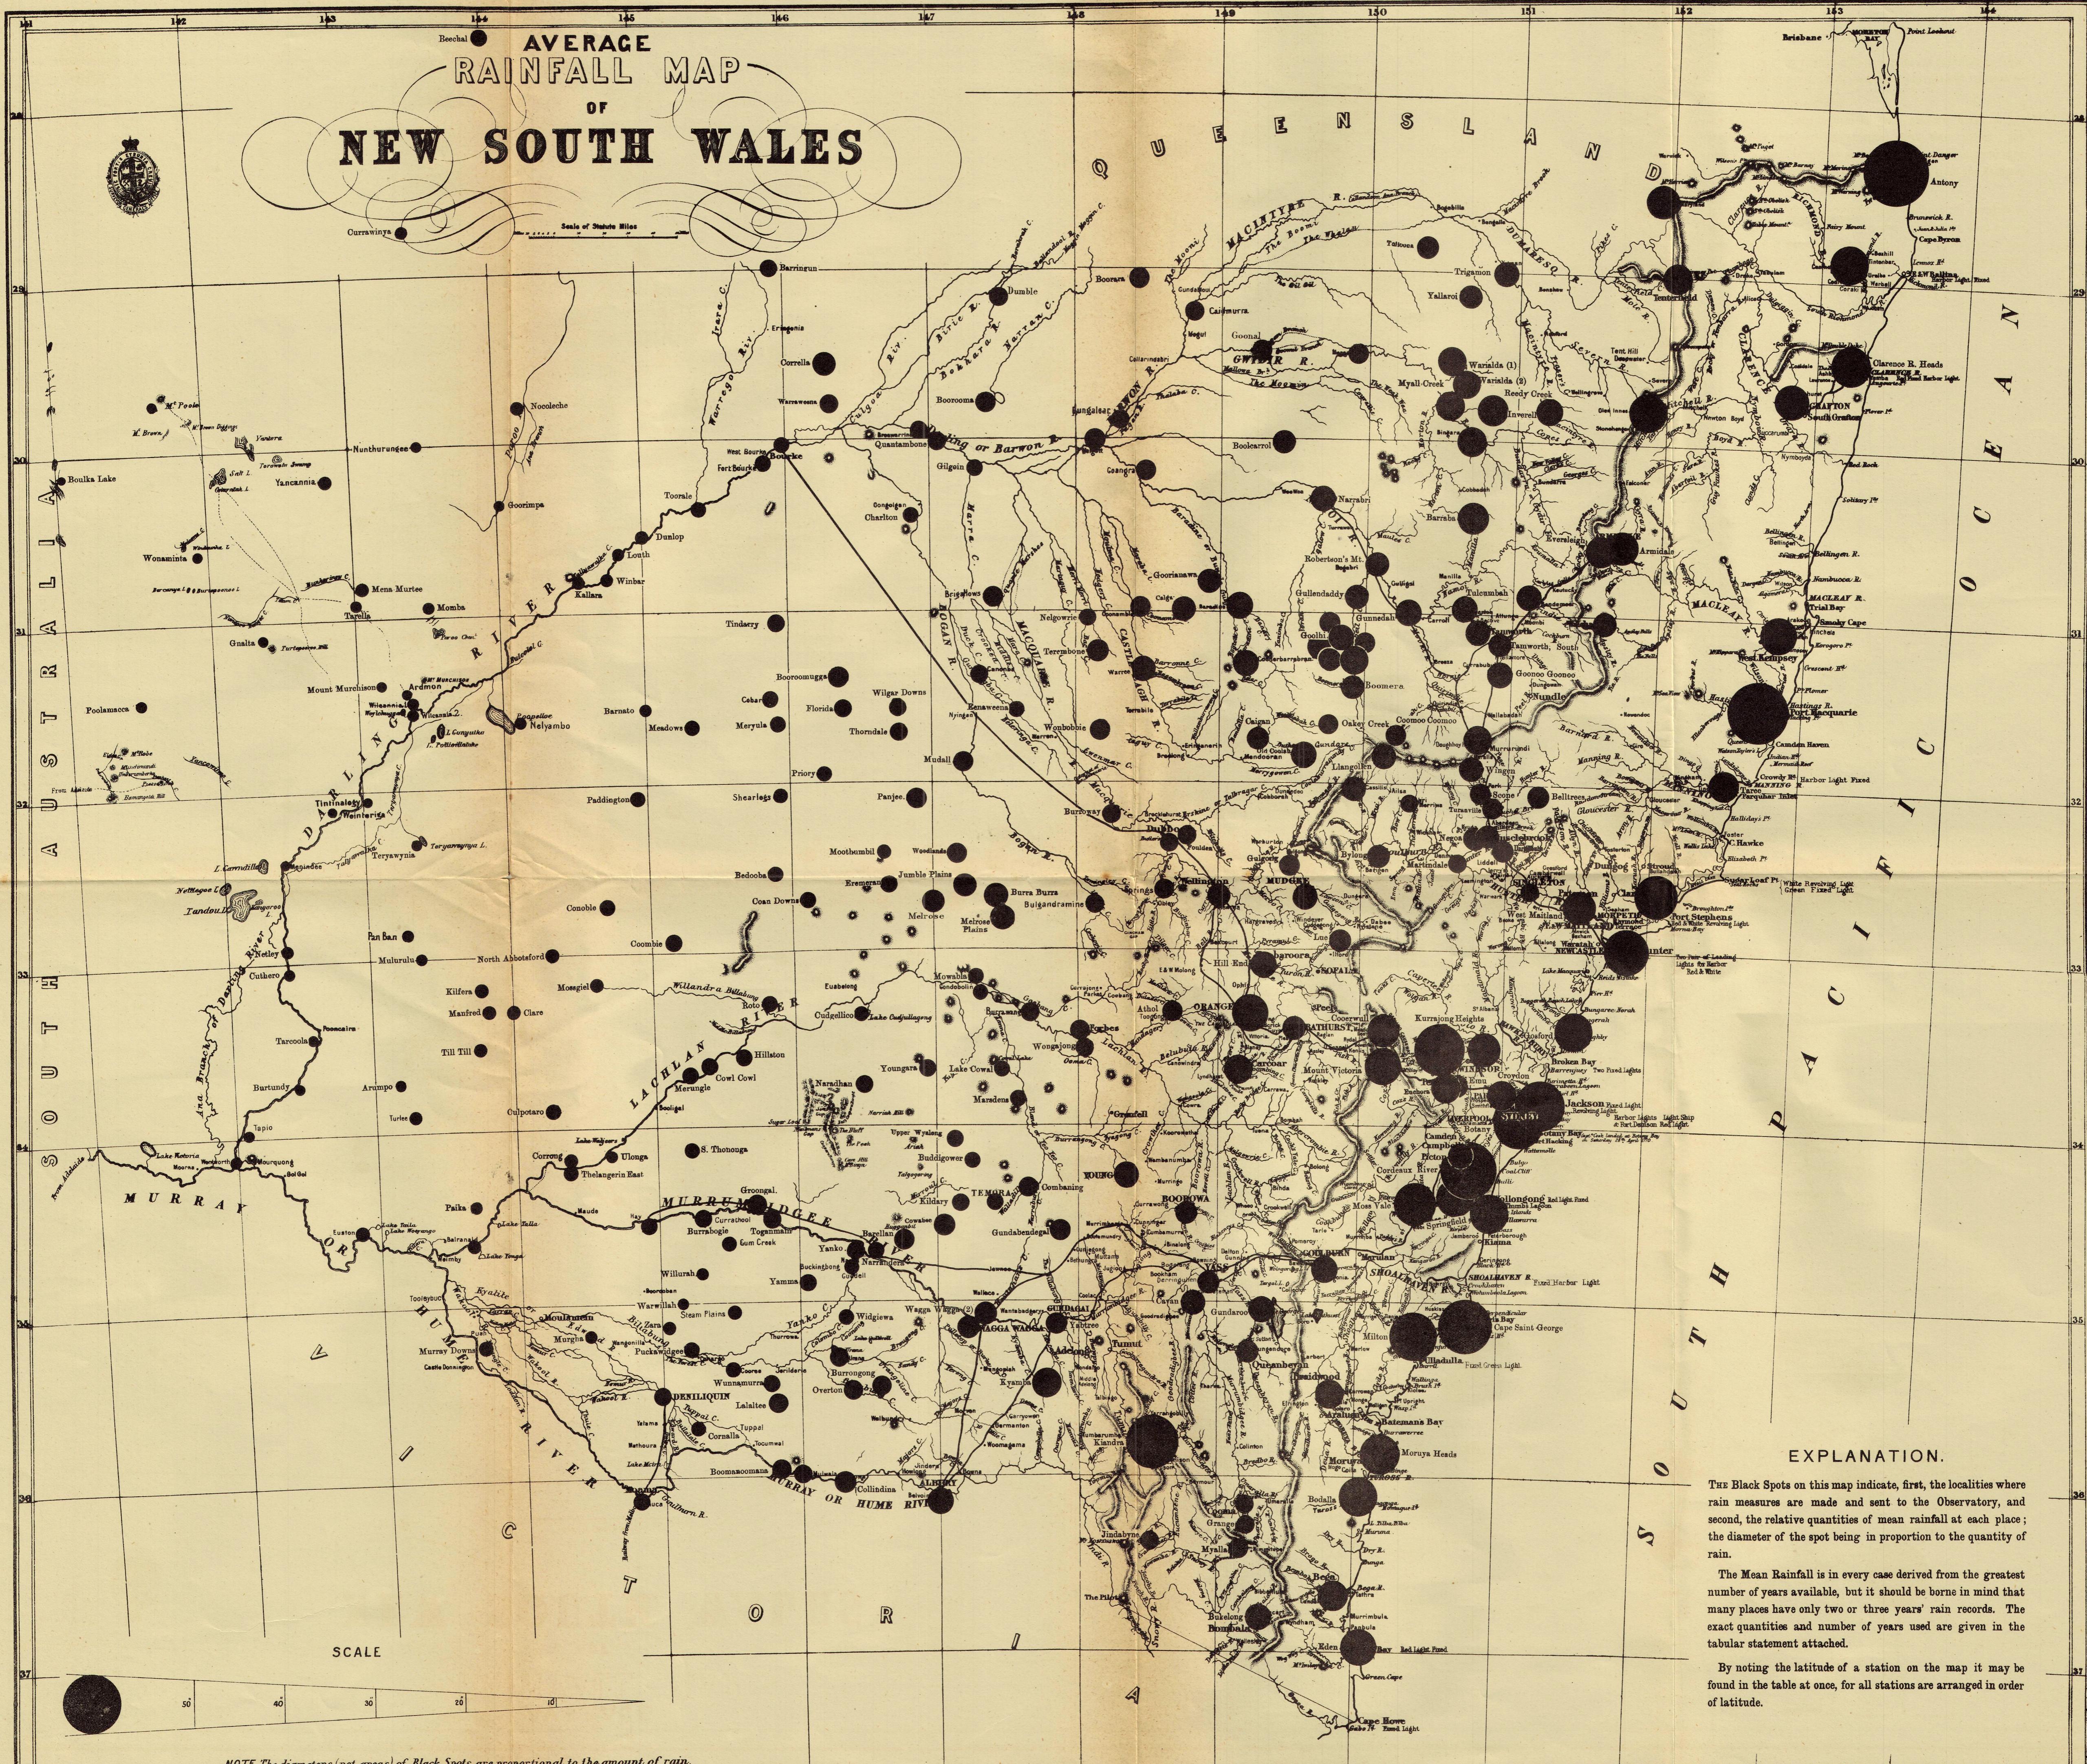

Beechal • **AVERAGE  
RAINFALL MAP  
OF  
NEW SOUTH WALES**

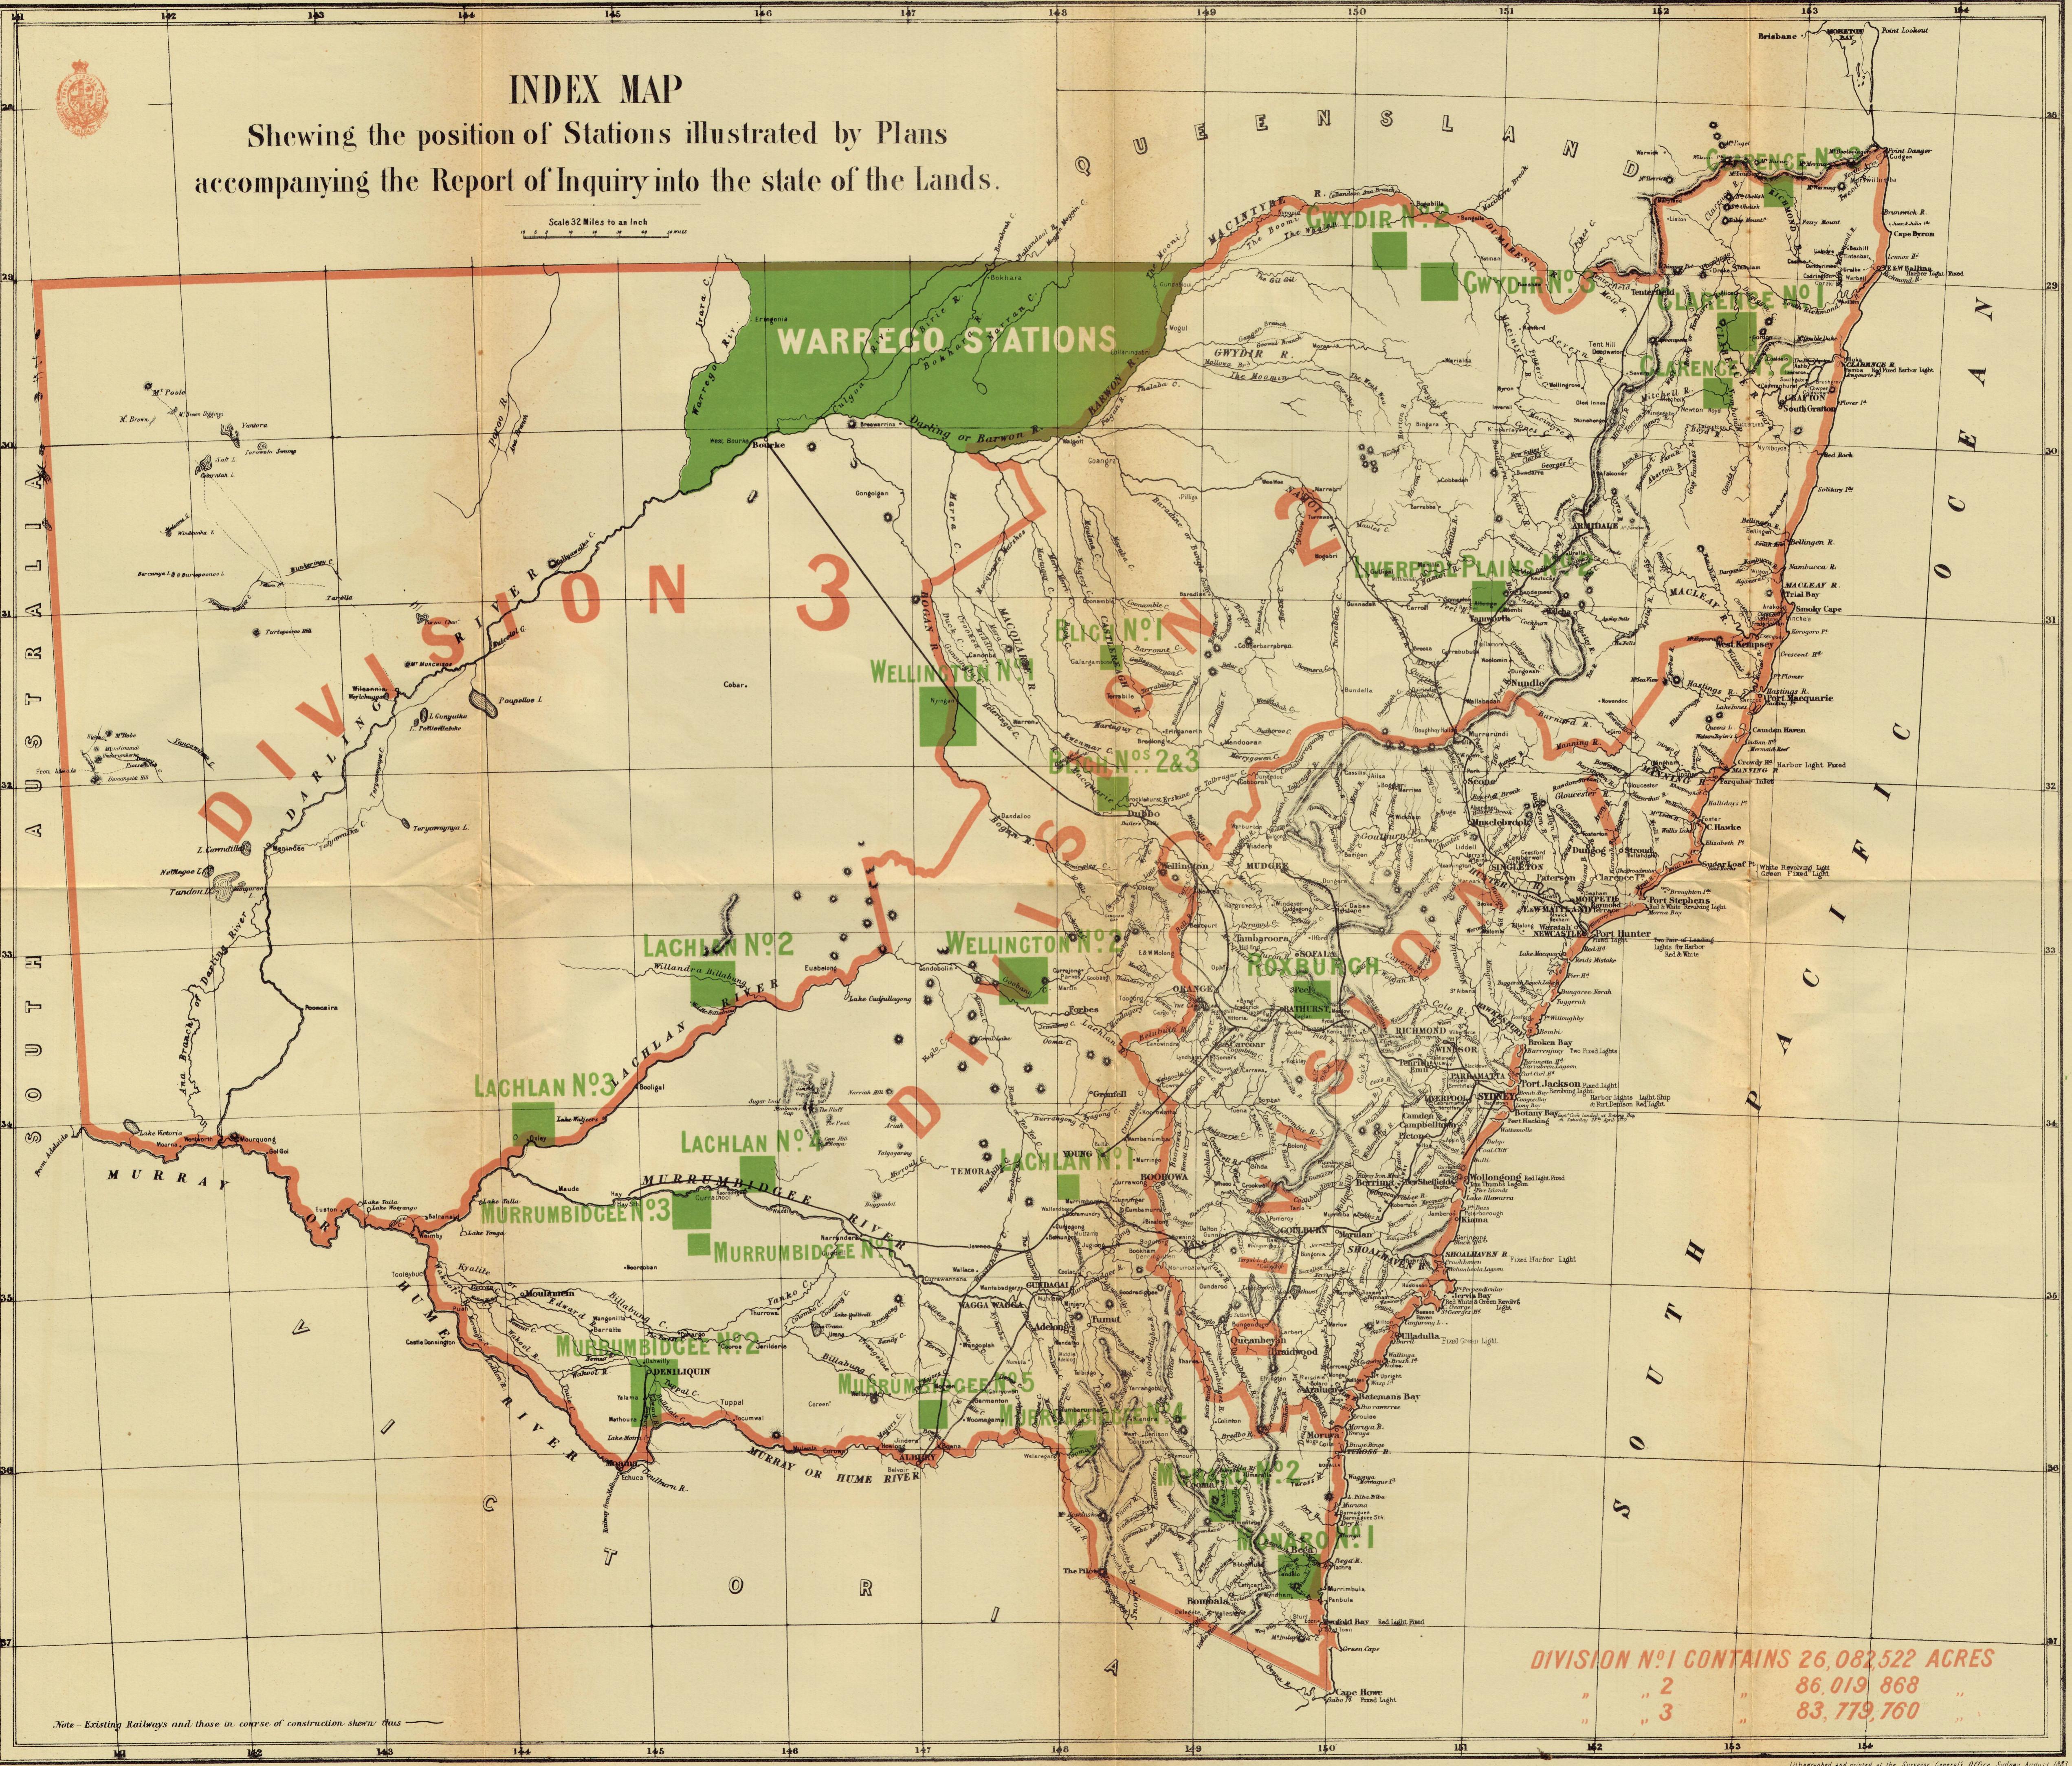

Currawinya

Scale of Statute Miles

*NOTE The diameters (not areas) of Black Spots are proportional to the amount of rain.*

Photo-lithographed at the Government Printing Office.  
Transferred to stone and printed at the Surveyor Generals Office, Sydney N.S.W. August 1883

# THE SOUTHERN PORTION OF THE COUNTY OF ROXBURGH

## SKETCH MAP

Scale 2 miles to 1 inch.

Sketch map shewing the character of settlement in the southern portion of the County of Roxburgh, exclusively of the Environs of Kelso and the Villages of Raglan and Peel.

This tract contains an area of about 340,000 acres.

The properties are old grants, and selections under the Acts of 1861 and 1875.

The homesteads shewn on the grants represent the residences of proprietors or tenant farmers.

The homesteads of resident selectors are also represented.

### NOTES

Properties as at present held shewn by blue edging thus
