CONDITIONAL PURCHASE OF THOMAS ROSE.

No. 1.

Application by Thomas Rose, minor, for the Conditional Purchase, without competition, of 320 acres unimproved Crown Land, under section 13 of the Lands Alienation Act of 1861.

RECEIVED by me, with a deposit of £80, this 21st day of August, 1873, at 11:35 o'clock.

J. A. BROUGHTON,
Agent for the Sale of Crown Lands at Deniliquin.

Sir,

21 August, 1873.

I am desirous of purchasing without competition, under the 13th section of the "Crown Lands Alienation Act of 1861," the portion of unimproved Crown land hereunder described, containing 320 acres; and I herewith tender the sum of £80, being a deposit at the rate of five shillings (5s.) per acre on the area for which I apply, and on which it is my intention to reside.

I am, &c.,
THOMAS ROSE, a Minor,
Deniliquin.

To the Agent for the
Sale of Crown Lands at Deniliquin.

DESCRIPTION.

County of Townsend, parish of Boonoke, 320 acres, north of the Union Dam, and about 3 miles north-west of the Conargo Road, starting on the south by a peg to be pointed out and running west, north, and then easterly, and then to the point of commencement. Numbered 18.

Minutes on above.

The land herein referred to is advertised for sale on the 26th September, and comes partly within reserve No. 768, Union Dam Reserve, which was revoked on the 26th August, 1873, the revocation to take effect at the expiration of thirty clear days from that date. The land sale being held on a Friday, 26th instant, prevents the land from being open to C.P. until the following land office day. The conditional purchase, I suppose, must be cancelled, but shall the land be withdrawn from sale?—T.H.L., 15 Sept., /73.

The dates of sale are fixed in the Lands Department, and I cannot interfere with them. The conditional purchase must be cancelled.—R.D.F.G., 15 Sept., /73. Urgent.

The C.P. must be cancelled. The sale should go on for auction as advertised.—W.W.S., 18 Sept., /73. Approved.—J.S.F., 18/9/73.

It has been explained to me that the day fixed for the sale was purely accidental, and attributable to the fact that one officer fixes the day of sale while other officers deal with the cancellation of reserves. Under these circumstances, and as the day of sale is near at hand, I do not think it would be prudent to stop the sale. The sale is in agreement with the 67th Regulation, therefore lawful; still, more time should I think have been allowed between the expiration of the thirty days and the day fixed for the sale. In future, in like cases, a reasonable time should intervene between the expiration of the thirty days and the day fixed for the sale by auction.—J.S.F. *Thirty-one days in this case.*

In transmitting the schedule of lands for sale from the Survey Office to the Auction Branch of this department, care should be taken in future to draw attention to all cases where the lands to be sold fall within recently revoked reserves, in order that the above decision may be carried out.

Surveyor General.—W.W.S., B.C., 7 Oct., /73.

[Alienation Act.]

Declaration of Conditional Purchaser under the 18th section of the "Crown Lands Alienation Act of 1861."

I, THOMAS ROSE, of Rosedale, do solemnly and sincerely declare that I am the lawful owner, by conditional purchase, under the 18th section of the "Crown Lands Alienation Act of 1861," of the land hereunder described, and that improvements consisting of house, woolshed, yards, fencing, and tank, and to the value of £350, have been made on such land; and I declare further, that the said land has been the *bonâ fide* residence, continuously, of myself from the period of selection and first occupation to the present date (and that no alienation of the land has been made by the abovenamed holder, until after the residence thereon of such holder for a period of one whole year, each alienation having been notified to the Land Agent of the district within one month of its having been made). And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of her present Majesty, intituled "*An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales and to substitute declarations in lieu thereof and for the suppression of voluntary and extra-judicial oaths and affidavits.*"

THOMAS ROSE.

Taken and declared at Deniliquin, this 27th day of September, 1876, before me,—

JAS. WATSON, J.P.

DESCRIPTION.

County of Townsend, parish of Boonoke, 320 acres, at Deniliquin, being conditional purchase No. 165, of 1873, in the district of Deniliquin, made on the 21st August, 1873.

Mr. A. Armstrong to The Secretary for Lands.

Sir,

Land Agency Office, 26, Bridge-street, Sydney, 2 November, 1876.

Referring to the selection of Thomas Rose, Deniliquin, 320 acres, August 21, 1873, I have the honor to hand herewith certificate from selector's solicitor, to effect that the Supreme Court upheld my client's title to the land, and am informed by Messrs. McCarthy and Robertson that they acted for the Crown lessee, and that it was ascertained that the conditional purchase in question was erroneously declared void, and that it did not in any way encroach upon a reserve. Enclosed.

I have therefore the honor to request that the voidance of the conditional purchase in question be reversed, and the interest paid to Suspense Account, Treasury, to be placed to credit of the selection now in dispute, and that ratification of selection be made, as per application herewith.

I have, &c.,

A. ARMSTRONG.

Question and answer in the Legislative Assembly.

Friday, 2 March, 1877.

Question :—Selection made by Thomas Rose, Deniliquin.—*Mr. Driver*, on behalf of Mr. McElhone, asked the Secretary for Lands, pursuant to Notice,—

- (1.) Is it a fact that a selection made by Thomas Rose, at Deniliquin, in 1873, was declared void in error?
- (2.) Is it a fact that such error was proved in an action of ejectment brought by Messrs. Landale against Rose?
- (3.) Is it a fact that balance of purchase money tendered upon such selection has been passed to Suspense Account at the Treasury?
- (4.) Is it a fact that papers referring to the case have been lost in the Department of Lands?
- (5.) Is it his intention to effect early inquiry into the case, and issue deeds of grant to the selector, in accordance with application?

Answer :—*Mr. Baker* answered,—

- (1.) The selection referred to was declared void on the 21st August, 1873, under a report from the Survey Department, that it came partly within a reserve at the date of application.
- (2.) It appears that an action of ejectment was brought against the selector; and it is alleged that in the course of such action it was proved that the land did not encroach upon the reserve as supposed.
- (3.) The balance of purchase money has not been tended, but £12, on account of interest thereupon, has been received, and passed to the Suspense Account at the Treasury.
- (4.) The papers have not been lost in the Department of Lands, but the application, with reports, was impounded in the Supreme Court for some time, having been produced in evidence at the trial. They had been applied for, but have only recently been received.
- (5.) The case will now be further examined, and dealt with on its merits.

Register, 9/3/77. The Chief Commissioner, 14/3/79. This matter has, I think, been separately dealt with.—A.O.M., 26/5/77. The correct position of reserve 768 (Union Dam) as in existence at date of C.P. should be defined hereon, in order that the necessary steps may be taken upon these papers to bring this matter to a settlement.—F.W.R., 28 June, 1877. The supposed position of the reserve is shown on plan T 282, but as the description in Gazette does not define any particular well as the starting point, a well shown on plan T 352 is supposed to be the one intended.—J.W.E., 18 July, 1877.

Notification of Alienation of Conditional Purchase.

Notification of Alienation of Conditional Purchase by Frederick Rose, in the district of Deniliquin.

I HEREBY notify to you, as the Agent for the Sale of Crown Lands for the district of Deniliquin, that I have (after a residence thereon of at least twelve months) this day alienated to the Bank of New South Wales, of Sydney, the three hundred and twenty acres of land, situated in the county of Townsend, parish of Boonoke, which I selected at Deniliquin, as a conditional purchase, under the 13th section of the "Crown Lands Alienation Act of 1861," on the 21st August, 1873 (*as also the following additional purchases, to be inserted with particulars thereof if necessary*):—Thomas Rose's conditional purchase, alienation on to Frederick Rose (myself).

FREDERICK ROSE,
Deniliquin.

Dated at Deniliquin, this 23rd Oct., 1877.

I HAVE duly registered the above notification of alienation in the records of this office.—

The Crown Lands Agent, Deniliquin, is requested to inform the parties interested in this transfer that it is disallowed, the selection therein referred to having been cancelled, as being within a reserve (No. 768), and refund voucher furnished to applicant, and agent informed of cancellation on 19th Sept., 1873.—W.B. (for the Chief Commissioner), B.C., 12th July, 1878. To be returned. The Crown Lands Agent, Deniliquin.

Parties interested in within transfer informed as required.—J. A. BROUGHTON, Deniliquin, 22/7/78.

Mr. T. Rose to Mr. W. Blackman.

Sir,

I have the honor to request you to have the cancellation of my selection, No. 18, parish of Boonoke, county of Townsend, withdrawn, and to notify the same to Mr. Broughton, land officer, Deniliquin. It is some two years since this case was settled, and the land officer at Deniliquin will not receive the interest, as the cancellation has not been withdrawn from his books, and this necessitates my paying it at Sydney. The only cause I am told of this delay is that the Crown lessee, Mr. Landale, keeps the cancellation on account of compensation from the department not being made to him. I therefore beg to request that you will have this matter settled at your earliest convenience, as I am very anxious, and it will save me the expense and trouble of coming to Sydney about it, and I can ill afford the expense.

I have, &c.,
THOMAS ROSE.

Referring to the case of Thomas Rose, who selected at Deniliquin during 1873 (the particulars of which selection are noted in the margin), I have the honor to draw your attention to the delay in effecting reversal of voidance since the delivery of verdict of the Supreme Court, to the effect that my client's selection does not interfere with a reserve; and in order to assist the Survey Department in establishing this fact, to hand herewith *tracing given to my client by Mr. Licensed-surveyor Orr, now acting as District Surveyor at Deniliquin, with certificate at foot thereof that the plans do not show any reserve which should interfere with the selection referred to.

REPORT of an inquiry held at Deniliquin, on the 10th and 11th December, 1878, by A. C. S. Rose, Commissioner for the South-western Division, respecting the conditional purchase of Thomas Rose, made at Deniliquin on the 21st August, 1873.

Sir,

Enclosed.

See No. 14.

I have the honor to transmit herewith, for the consideration of the Honorable the Minister for Lands, minutes of evidence taken at an inquiry under the "Lands Acts Amendment Act of 1875," held by me in pursuance of the reference notified in the Gazette of the 15th November, 1878, in the matter of the above-described conditional purchase.

The claimant having been duly served with notice of the time and place of holding the inquiry, was present thereat.

The following facts bearing upon the fulfilment by the selector of the conditions of purchase were elicited in evidence, viz. :—

The conditional purchaser himself and a witness named John Clarke depose that the condition of residence was fulfilled by the former. It appears to me that this is corroborated by the evidence of Mr. Carne, Inspector of Conditional Purchases.

Mr. Carne, on the 30th November last, found on this land improvements which he valued at £330. It is sworn by the conditional purchaser that these improvements were effected before the expiration of three years from time of purchase.

I have therefore to report that I find such conditions to have been fulfilled, and to recommend that this conditional purchase be upheld.

I have, &c.,

A. C. S. ROSE,

Commissioner.

MEMO.—The conditional purchaser has applied to me for expenses in this case, to enable him to pay his advocate and his witnesses. The case seems to me one of such peculiar hardship that I venture to recommend his application to the favourable consideration of the Honorable the Minister for Lands.—A.C.S.R.

[Enclosure to No. 15.]

Evidence alluded to.

Thomas Broughton Carne, being duly sworn, saith :—I am an Inspector of Conditional Purchases for the South-western District; in pursuance of special instructions from the Lands Department I visited, on the 30th of November last, an area of 320 acres, situated in the county of Townsend, and parish of Boonoke, conditionally purchased on the 21st of August, 1873, by Thomas Rose, under the provisions of the 13th section of the "Crown Lands Alienation Act of 1861"; this land is portion number 18, in the parish of Boonoke; I had a tracing of this land as a guide; it was supplied to me by the Department of Lands; I began to run the lines at the northern boundary at a peg with the No. 18 on it; I followed this line down to the southern boundary, a distance of 40 chains; at the south-west corner I found another peg with the number 18 on it; I started from this point and ran the southern boundary 80 chains to the east, where I found a peg marked with the number 18 on one side and 11 on the other; the number 11 indicated James Rose's selection, which adjoins Thomas Rose's; starting from the south-east peg, I ran the eastern line north 40 chains, and found another peg with the number 18 on it; thence I ran the north line 80 chains west to the starting point; I found on this selection a small hut built of round pine saplings; it had been covered with iron in all probability, as some pieces of iron were lying about, but the roof had disappeared at the time of my visit; there was no chimney to this hut; the place appeared to have been used as a residence at some time; there was a large heap of ashes outside the hut; there was an old bunk inside the hut; I value this hut in its original state at £10; there was a wool-shed built of pine slabs, dressed with an adze, 24 feet by 24 feet, floored, and divided into sheep-pens, which were battened and covered with bark; the roof of the building was covered with bark; I value this building at £90; there were three sheep-yards, with four pens of five rails to receive the sheep when shorn; I value this at £45; I found 120 chains of five-wire fence, with the posts included, for six wires; I value this at £105; there was a tank of about 1,200 yards, which at the time of my visit was full of water; I value this at £80; the length of the tank was 25 yards, the breadth 17 yards, and the depth 9 feet, the slope 1 in 2; the conditional purchaser was staying at the wool-shed when I was there; he is now of age, and told me that he was married.

T. B. CARNE.

Taken and sworn before me, at Deniliquin, this }

10th day of December, 1878,—

A. C. S. ROSE, Commissioner.

Thomas Rose, being duly sworn, saith :—On the 21st August, 1873, I conditionally purchased 320 acres in the parish of Boonoke; the day after I selected I went to reside on this land; I have resided continuously on this land ever since, up to the present time; I am now married, and my wife resides there with me; shortly after I took up this selection I put up a hut, where I lived for about two years, and then I moved to the wool-shed, which I built close by on the selection, and I lived there, and still live there; I have had no other home or place of residence than my selection ever since I took it up; I have heard Mr. Carne's evidence as to improvements, and it is quite correct, with some trifling exceptions; those improvements were made within three years of date of selection; there is a reserve at the south of my selection, and divided from it by a road; I have understood that this land is a reserve, but I know this only from what I have heard; this land in no way interferes with my

my selection, and my selection does not encroach on it; the peg at which I start at the south is at the south-east corner, and was there when I selected; it was numbered 18; the south boundary runs to a peg, with 18 on it, towards the west, and then the lines run north, and then east, and then south, to point of commencement, as in description at foot of application; this land at time of selection was measured as portion 18.

THOMAS ROSE.

Taken and sworn before me, at Deniliquin, this }
11th day of December, 1878,— }
A. C. S. ROSE, Commissioner.

John Clarke, being duly sworn, saith:—I am a labourer, and am now in the employment of Mr. Frederick Rose, whose son's selection is now being inquired into; I have known Thomas Rose's selection of 320 acres at Boonoke, portion 18, since September, 1873; I slept there in the same hut with Thomas Rose for such a thing as eight months at a stretch; I know that Thomas Rose slept there habitually; we used to take our meals at his father's place generally; Thomas Rose used to work regularly on his selection week after week for three years; sometimes he lent his father a hand; I worked with Thomas Rose for a long time on his selection.

JOHN CLARKE.

Taken and sworn before me, at Deniliquin, this }
11th day of December, 1878,— }
A. C. S. ROSE, Commissioner.

William Orr, being duly sworn, saith:—I am a staff surveyor, and am in charge of the Deniliquin District; I produce a tracing of portions in the parishes of Boonoke and Wandook, in the county of Townsend, which was exhibited at sale at Deniliquin on the 26th September, 1873; I find that portion 18, in the parish of Boonoke, was conditionally purchased by Thomas Rose; it must have been selected prior to sale, as Rose made his conditional purchase on the 21st August, 1873, and the sale was 26th September, 1873; the description at foot of Rose's application has nothing in it inconsistent with the features of portion 18, as delineated in the map; the map shows no reserve anywhere near Thomas Rose's selection; an old map, a very inaccurate one, now in the Land Office at Deniliquin shows a reserve which overlaps portion 18, parish of Boonoke; this reserve was notified in a Government Gazette in the year 1870, but I cannot find this Gazette in the files in the Court House at Deniliquin; there are several more recent maps, as well as the map now produced, and including the county map supplied by the Lands Department for the guidance of the Crown Lands Agent, which do not show this reserve.

C. A. GOODCHAP'S CONDITIONAL PURCHASE AT SPRINGWOOD.

No. 1.

Application by C. A. Goodchap, Esq., for conditional purchase.

C.P. No. 76, 24 L.A. No.

Applicant, Charles Augustus Goodchap; police district, Penrith; date, 16 November, 1876; time, 11:30 o'clock; area, 40 acres 2 roods; section, 13th.

Description:—

40 acres 2 roods, county of Cook, parish of Coomassie, on the north side of the Bathurst Road, being surveyed by Mr. Surveyor Pitt, and numbered 69 on plan, adjoining Fletcher's 25-acre block.

No. 2.

Notification of Alienation.

K.

[Alienation Act, section 13.]

Notification of Alienation of Conditional Purchase under the "Crown Lands Alienation Act of 1861."

Notification of alienation of conditional purchase by Charles A. Goodchap, in the district of Penrith.

I HEREBY notify to you, as the Agent for the Sale of Crown Lands for the district of Penrith, that I have (after a residence thereon of at least twelve months) this day alienated to Frederick Somers, of Sydney, the 40½ acres of land, situated in the county of Cook, parish of Coomassie, which I selected at Penrith as a conditional purchase, under the 13th section of the Crown Lands Alienation Act of 1861, on the 16th November, 1876.

Dated at Sydney, this 5th June, 1878.

To the Agent for the Sale of Crown Lands at Penrith.

CHS. A. GOODCHAP,
Sydney.

I have duly registered the above notification of alienation in the records of this office,—

District of Penrith,
Land Office, Penrith, 6 June, 1878.

J. K. CLEEVE,
Agent for the Sale of Crown Lands.

No. 3.

C. A. Goodchap, Esq., to The Secretary for Lands.

Sir,

Sydney, 28 June, 1878.

I have the honor to inform you that about two years ago I selected under the provisions of the conditional purchase section of the Lands Act some 40 acres of land, situated at Springwood, intending at that time to erect a residence thereon. I shortly afterwards abandoned the intention, and concluded that the land would be forfeited by reason of my non-compliance with the conditions of purchase.

A few days since, inquiry was made of me, at my office, in respect of this land, by Mr. Somers, and I then ascertained that it had not been forfeited.

Mr. Somers desired me to part with my interest in the land, whatever it might be, as he stated he was desirous of taking up some back land in connection therewith. I informed him that I had not complied with the conditions, and scarcely knew what interest I had, but that I had no objection to part with any interest I might be held to possess if I could legally do so. I was assured by him and Mr. Cunneen (land agent), who accompanied him, that there was no difficulty in this respect—that I had a disposable interest; and Mr. Somers gave me £100 on my signing a paper stating that I had alienated my interest in the land to him.

Being very busy at the time, I did not read the document closely, and I have since found that it is so worded that I am made to state that I have resided on the land for at least twelve months. Now, I have not resided on this land at all, and need not state that I should not have signed the document had I known it contained a clause of the kind.

Mr. Somers was perfectly aware that I had not resided on the land, as I not only so informed him, but he stated to me that he had been on the land and ascertained that fact for himself.

I have made this communication to you immediately upon becoming aware of my oversight; and as I cannot of course benefit in a transaction of the kind, I have written to Mr. Somers, calling his attention to the circumstances of the case, and stating that I will return at once the money he paid me.

I beg to apologise for troubling you on a matter which I freely admit is the result of a great inadvertence on my part.

I have, &c.,

CHS. A. GOODCHAP.

Minutes on above.

Refer to Commissioner for inquiry as usual. Inform Mr. Goodchap that this course is necessary under the Act, before the notice of abandonment can have effect by the forfeiture of the selection.

Inform the present holders that Mr. Goodchap has represented that he had not complied with the condition of residence, and that the inquiry will take place after due notice.—A.O.M., 28/6/78.

Included in schedule. Commissioner Johnson.—W.H.C., B.C., 24 July, 1878.

No. 4.

C. A. Goodchap, Esq., to F. Somers, Esq.

Sir,

Lady Young Terrace, 28 June, 1878.

I find that the document which you gave me to sign as a transfer of my interest in the free selection at Springwood contains a statement that I had resided on the land for twelve months. I regret much that after informing you and Mr. Cunneen that I had never resided on the land, you did not call my attention (hurried as I was at the time) to this clause.

On discovering my oversight, I considered it to be my duty to write at once to the Secretary for Lands, explaining the circumstances of the case.

I learn upon inquiry that, owing to my non-residence on the land, I had no disposable interest therein, notwithstanding the statement to the contrary made by yourself and Mr. Cunneen.

As I could not of course benefit by the transaction, arising as it has done from a misapprehension on the part of yourself and Mr. Cunneen, I am prepared to return to you, on your calling at the above address, the amount you paid me for my supposed interest in the selection.

I am, &c.,

C. A. GOODCHAP.

No. 5.

F. Somers, Esq., to C. A. Goodchap, Esq.

Sir,

183, Pitt-street, Sydney, 5 July, 1878.

I am in receipt of your communication of the 27th (?) ultimo, respecting the free selection at Springwood which I purchased from you.

In reply I have to state that the circumstances connected therewith are in accordance with the facts as stated therein, and have no hesitation in complying with your request to annul the purchase.

Yours, &c.,

F. SOMERS.

[Enclosure to No. 5.]

Sydney, 10 July, 1878.

RECEIVED from Mr. Chas. A. Goodchap the sum of £100, being amount paid by me to him for his disposable interest, which I informed him he possessed in land at Springwood free selected by him, and upon which, he stated to me, he had not resided.

I acknowledge that I purchased the land from Mr. Goodchap with all risks, and with the distinct understanding that he was to make no statement of having resided thereon; and I further acknowledge that when the transfer paper was submitted for his signature he put the question whether it contained any declaration of residence, and I informed him that it did not.

The present refund is made not upon claim thereto by me, but upon Mr. Goodchap's voluntary offer upon his being advised that he had, in fact, no interest in the land to sell.

F. SOMERS.

No. 6.

Inspector Smith to The Under Secretary for Lands.

Sir,

Manly, 13 July, 1878.

I have the honor to report that I visited and inspected the above-described conditional purchase on the 11th July instant, and that I found the selector then not resident upon his selection.

The land, which consists of scrub and rocks, and comprises (40) forty acres 2 roods, is not occupied and used by the selector as his residence; and the selector, who follows the avocation of Commissioner for Railways, had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz. :—

Improvements, nil.

From the appearance of the land and the circumstances stated in the following remarks, I am of opinion that the selector has not been continuously resident upon the selection.

I cannot find any sign of residence upon this land, and there are no improvements.

I find that some one has recently been cutting down some of the saplings.

I have frequently seen this selection when inspecting others near it, and never saw the selector or anyone either living or working on it.

Inspector of Conditional Purchases.

NOTICE to conditional purchaser to appear at Court of Inquiry held under sections 44-47 of regulations under 39 Vic. No. 13.

I HEREBY notify to you that a Court of Inquiry, under the provisions of the "Lands Acts Amendment Act of 1875," will be held on Monday, the (29) twenty-ninth day of July, 1878, at the Lands Department at Sydney, at 11 o'clock in the forenoon, when the matter or question as stated at foot hereof will be inquired into.

On proof of the service of this notice within the terms of the 45th section of the said regulations, the inquiry will proceed whether you appear at the court or not.

Given under my hand at Sydney, this twenty-fourth day of July, 1878.

WHITTINGDALE JOHNSON,

Commissioner.

MATTER FOR INQUIRY.

The fulfilment of the conditions as to residence upon the conditional purchase of 40 acres 2 roods, made by Charles Augustus Goodchap, at Penrith, parish of Coomassie, county of Cook, on the 16th November, 1876, and transferred by him to Frederick Somers on the 5th June, 1878, has not been fulfilled.

No. 12.

Commissioner Johnson to The Chief Commissioner.

REPORT of an inquiry held at Sydney on the 29th July, 1878, by the Commissioner for the Metropolitan Division, respecting the conditional purchase of Charles A. Goodchap, made at Penrith on the 16th November, 1876.

Sir,

I have the honor to transmit herewith, for the consideration of the Honorable the Minister for Lands, minutes of evidence taken at an inquiry under the "Lands Acts Amendment Act of 1875," held by me in pursuance of the reference notified in the Gazette of the 23rd July, 1878, in the matter of the above-described conditional purchase.

The claimant having been duly served with notice of the time and place of holding the inquiry, was present thereat.

The

See No. 9.

The following facts bearing upon the fulfilment by the selector of the conditions of purchase were elicited in evidence, viz:—The claimant admits that he never resided on the land in question, and satisfactorily explains in his evidence, and by documents handed in and attached to the proceedings, that he signed the transfer paper alienating his selection to Frederick Somers without being aware that it contained any statement as to his fulfilment of the residence condition, of the failure of which on his part the transferee was made fully aware by him at the time of sale.

The transferee, although duly noticed, did not attend the inquiry.

I have therefore to report that I find such conditions not to have been fulfilled, and to recommend that this conditional purchase be forfeited.

I have, &c.,
WHITTINGDALE JOHNSON,
Commissioner.

Before Whittingdale Johnson, Esq., Commissioner.

INQUIRY, under the provisions of the "Lands Act Amendment Act of 1875," into the matter of the alleged failure of Charles Augustus Goodchap to fulfil the condition of residence on his conditional purchase of 40 acres 2 roods, situated in the county of Cook, parish of Coomassie, selected at Penrith on the 16th November, 1876, and by him transferred to Frederick Somers on the 5th June, 1878.

Charles Augustus Goodchap, on oath, states:—On the 16th of November, 1876, I selected 40 acres 2 roods at Penrith, situated in the county of Cook, parish of Coomassie; I never resided upon it; on the 15th June last, I transferred it to Frederick Somers under the circumstances mentioned in my letter of the 28th June last; at the time I signed the document, which I inadvertently omitted to read (having informed the transferee that I had never resided on the land), I was not aware that it contained any statement as to residence; I hand in copies (*marked B & C) of letters which subsequently passed between Mr. Somers and myself on the subject.

C. A. Goodchap, Esq., to The Chief Commissioner.

Sir,

Sydney, 7 August, 1878.

Referring to my letter of the 28th June last, and to the subsequent inquiry held by the local commissioner, with respect to the circumstances connected with the land at Springwood which I free selected, I have the honor to inquire whether there is any further explanation required of me in connection with this matter.

I shall be glad to afford any information in my power.

I have, &c.,
CHS. A. GOODCHAP.

Minutes on above.

May be informed that under the commissioner's report and pursuant to his notice of abandonment and evidence, the selection has been brought forward for forfeiture. No further explanation or information is necessary. Mr. Goodchap appears to have taken the proper course in calling attention to the unobservance of his conditions.—A.O.M., 8/8/78. Approved.—J.S.F., 13/8/78. Forfeited, 2nd September, 1878. I believe this land has been taken up since forfeiture—if so, note forfeiture.—J.W., 16/9/78.

No. 18.

Charting Branch Memo.

V.L.O. No. 78/273, 3 September, 1878, of Penrith District.

Applicant, Edward Squires; area of portion, 40ac. 2r.; parish, Coomassie; county, Cook.

Description:—

As measured by Mr. Surveyor Pitt, and numbered 69, on the north side of Bathurst Road, being conditional purchase by Charles Augustus Goodchap, 16 February [*gy.* 16 November], 1876, alienated to Frederick Somers, 5 June, 1878, and now forfeited.

Surveyor General's Office, 28 September.

Mr. Licensed-Surveyor Pitt will be good enough to furnish immediately, the date of transmission, and No. of his plan. In the event of the lands not having been measured by you, you will be good enough to send this at once to the District Surveyor, in order that the information required may be obtained, and thus save the land applied for from being sent in for auction sale.

August 26, 1876/26.—G. M. Pitt, Oct. 7th, 1878.

No. 19.

J. A. Cunneen, Esq., to The Chief Commissioner.

Sir,

183, Pitt-street, Sydney, 6 September, 1878.

As agent for F. Somers, I respectfully bring under your notice for consideration, the following case:—At Penrith, on 16th November, 1876, Mr. C. A. Goodchap conditionally purchased 40 acres 2 roods of land, county of Cook, parish of Coomassie, under the 13th section of the "Land Act of 1861."

On

On the 5th June, 1878, he sold his interest in it to F. K. Somers, who, on the 6th June made an additional conditional purchase of 60 acres, on the 13th June one of 50 acres, and on the 20th June another of 50 acres, making 160 acres on account of it, upon which he paid deposits amounting to £40.

Shortly after this, Mr. Goodchap informed the Lands Department he had not performed residence on the land transferred, and the result has been that the original, as well as the three additional selections, were declared forfeited on the 2nd instant.

Mr. Somers made the additional selection in the belief that the requirements of the law had been performed on the original, otherwise he would not have made them, and also with the determination to complete the requirements of the law *bonâ fidedly*.

Under these circumstances, I respectfully ask that a refund of the £40 paid by my client on the additional conditional purchases referred to, may be made to him.

I have, &c.,
J. A. CUNNEEN.

Minutes on above.

It is submitted that the three additional purchases made by Mr. Somers in right of the original purchase be declared void, as requested.—C.N., 28/10/78.

It appears from the evidence at the inquiry that Mr. Somers was duly made aware, at the date of purchase of the original conditional purchase from Mr. Goodchap, that the condition as to residence thereon had not been observed. I do not think in the circumstances, that the deposit upon the additional conditional purchases should be refunded as desired.—A.O.M., 5/11/78.

Approved.—J.S.F., 6/11/78.

No. 20.

J. A. Cunneen, Esq., to The Under Secretary for Lands.

Sir, 183, Pitt-street, Sydney, 6 September, 1878.

I respectfully bring under your notice, for consideration, the following facts.

On the 2nd instant the conditional purchase of 40 acres 2 roods, made by C. A. Goodchap, at Penrith, on the 16th November, 1876, was declared forfeited by Gazette notice.

At the Lands Office, Penrith, on Tuesday, the 3rd instant, as agent for Frederick Somers, I tendered an application to purchase the said land with Volunteer land order, and Thomas Smith (as land agent for E. Squires) also applied to purchase it with land order.

The Land Agent not being officially informed of the forfeiture of the land, would not give a receipt, nor complete the sale, until he obtained what he deemed official or authoratative information of the forfeiture. Under those circumstances, Mr. Smith and I left the office.

Some time after, I returned and found Mr. Smith at the office, and the Land Agent preparing him a receipt for his land order and application; he having, in the meantime, received notification of the forfeiture. This was an hour and a half after I tendered the application before referred to.

As I tendered the application so long before Mr. Smith's was accepted and receipt given, I now respectfully urge and claim that the applications be decided by lot.

I am, &c.,
J. A. CUNNEEN.

Minutes on above.

Mr. E., register and return.—W.W.S., 16 Sept. If the circumstances are as herein stated, the land was legally open to Volunteer land order selection at the time Mr. Cunneen applied for it; and if he is not entitled to the land as the prior applicant, the matter should, I think, be decided by lot.—W.W.S., 17 Sept. Approved.—J.S.F., 19/9/78. The Land Agent, Penrith, if the facts are as stated, will proceed to settle the matter by lot, giving due notice to the parties.—W.W.S., B.C., 20 Sept.

No. 21.

The Land Agent, Penrith, to The Under Secretary for Lands.

Sir, Land Office, Penrith, 23 September, 1878.

I have the honor to acknowledge the receipt of the application of Mr. J. A. Cunneen, of the 6th instant, to your office, with two notations thereon, and before acting further in the matter, desire to state that on the 3rd instant, at 10 o'clock, Mr. Thomas Smith, as agent for E. Squires, tendered to me a Volunteer land certificate with application for the 40 acres 2 roods, taken as a conditional purchase by C. A. Goodchap, on the 16th November, '76, at the same time saying that the said land was forfeited, and did appear in the Government Gazette of the 2nd instant. I asked him to show me the Gazette, but he did not have one with him; he again assured me of this fact when I decided to accept his application, pending the receipt of the Gazette showing the date of issue and forfeiture of land; at this time, ten minutes past 10 o'clock, Mr. Cunneen tendered another Volunteer land certificate with application on behalf of Mr. Somers for the said land. I told him what I had done with Smith when he withdrew his application, saying that as soon as he knew that the Government Gazette was issued that he would tender it again. About 11 o'clock Mr. Smith returned, and produced the Gazette, dated 2nd instant, and showing the forfeiture of this land; but the court being busy with small debts cases, I could not give him the receipt till after the court closed. Afterwards, while writing out the receipt for Mr. Smith, Mr. Cunneen returned to renew his application, but, upon my showing him the Gazette, dated 2nd instant, he seemed surprised, and did not complete his application.

Would you inform me if I am to settle this matter between the two parties by lot, or how I am to act after the above statement.

J. K. CLEEVE, JUNR.,
Land Agent.

Sir, 183, Pitt-street, Sydney, 9 October, 1878.
I have the honor to acknowledge your letter of the 7th instant, addressed to Mr. Cunneen, No. 23. who as agent in the case, tendered an application from me, on the 3rd ultimo, at the Land Office, Penrith, to purchase C. A. Goodchap's forfeited conditional purchase.

In reference to the invitation to offer any further evidence I may desire in the case, I herewith enclose a declaration from Mr. Cunneen that he tendered his application at 10 o'clock, before which no application could be properly or legally received.

Under the circumstances, I respectfully urge that the claim to the land may be decided by lot, as was first determined by your letter of the 27th ultimo. Enclosed. See No. 23.

Mr. Cunneen has sent in a declaration, but it does not affect the case, except inferentially. I think the best way to settle the matter is for Mr. Oliver to hold an inquiry, where and when all parties can be heard. Mr. Oliver can fix a day. Apprise Mr. Cunneen and the Land Agent. Enclosure to No. 27.

Statutory Declaration.

I, James Augustine Cunneen, of Sydney, do hereby solemnly and sincerely declare as follows:—That on the 3rd September, 1878, I attended the Crown Lands Office at Penrith, and tendered an application from Frederick Somers to purchase with a Volunteer land order the forfeited conditional purchase of C. A. Goodchap. That on entering I noticed the clock of the establishment was not going. That by the time-piece on me and another I had compared it with immediately before going in, it was then only 10 o'clock, which I believe, and feel positive, was the correct time; and I make this solemn declaration, conscientiously believing the same to be true, and in virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "An Act for the more effectual abolition of oaths and Affirmations taken and made in various Departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of Voluntary and extra-judicial Oaths and affidavits."

Declared at Sydney this 9th day of October, 1878, before me.—

Sir,

Department of Lands, Sydney, 16 October, 1878.

In reference to the correspondence which has taken place respecting the claim to C. A. Goodchap's forfeited conditional purchase, applied for in virtue of Volunteer land order, on the 3rd ultimo, by Mr. J. A. Cunneen, as agent for Mr. F. Somers, and by Mr. Ths. Smith, as agent for Mr. E. No. 32.

J. A. Cunneen, Esq., to The Under Secretary for Lands.

Sir,

183, Pitt-street, Sydney, 17 October, 1878.

As agent for F. Somers, I respectfully acknowledge your letter of the 16th instant respecting No. 30. the applications of Mr. Squires and my client, made at Penrith on the 3rd ultimo, to purchase the forfeited conditional purchase of C. A. Goodchap, I now on a distinct ground protest against Mr. Squires' application being allowed at all, viz.:—Because the Volunteer certificate he tendered with his application was not then registered as required by No. 1 Regulation under the "Volunteer Force Regulation Act of 1867," which states that the holders of such certificates "will be required to register the same in this office, and thereafter they shall be at liberty to present such certificates at any land office," &c., &c.

The certificate referred to was not so registered, and was used unregistered, contrary to and in violation of the law. My client's certificate was registered when tendered.

Under the circumstances I urge that Mr. Squires' application is void, and should at once be disallowed.

I am, &c.,

J. A. CUNNEEN.

Submitted.—W.W.S.

To go on to Mr. Oliver for inquiry, with other papers.—J.S.F.

No. 33.

J. A. Cunneen, Esq., to the Secretary for Lands.

Sir,

183, Pitt-street, Sydney, 19 October, 1878.

I this morning received a communication from Mr. C. Oliver, informing me that an inquiry into the application made by Thomas Smith, as agent for Edward Squires, of a Volunteer land order selection, made or applied for by him at Penrith, on the 3rd ultimo, will be held at Penrith on the 21st instant, at 11 o'clock, a.m.

In reply, I respectfully represent that I have already made a declaration of the facts of the case, and I have nothing to add nor retract respecting it. Neither have I been informed since I made it that it has been contradicted in any respect.

Since making it I have, on a distinct ground on behalf of my client (Mr. Somers), protested against Mr. Squires' application being allowed because the Volunteer land order tendered with his application was not registered as required by No. 1 Regulation under the "Volunteer Regulation Act, 1867," which distinctly enacts it should be registered *before tendered at any land office*.

The land order tendered by me with Mr. Somers' application was registered as required by law. Under these circumstances, I submit that unquestionably Mr. Squires' application cannot be allowed.

I have, &c.,

J. A. CUNNEEN.

No. 34.

The Inspector of Lands Offices to The Under Secretary for Lands.

Sir,

Sydney, 22 October, 1878.

I have the honor to report that, in accordance with the instruction of the Minister for Lands, dated the 14th instant, I yesterday, at Penrith, held an inquiry into the circumstances of the lodgment with the Lands Agent at Penrith of an application for a Volunteer order selection of 40 acres 2 roods, in the county of Cook, parish of Coomassie, by Mr. Thomas Smith, on behalf of Mr. E. Squires, and a subsequent tender of one by Mr. Cunneen, on behalf of Mr. F. Somers, for the same land. See minute on No. 27.

Immediately upon my commencing the inquiry, Mr. Somers lodged a protest (see letter marked A) against the application by Mr. Squires, on the ground that the certificate accompanying it had not been registered in this department before being tendered to the Land Agent, as set out in the Regulations under the "Volunteer Act of 1867." See enclosure A.

Having informed Mr. Somers that the protest would be duly laid before the Minister for Lands I proceeded to take evidence, which is enclosed. Enclosed.

It appears from Mr. Cleeve's statement that Mr. Smith was extremely anxious to lodge the application on behalf of Mr. Squires before office hours, even at 8 o'clock in the morning, at Mr. Cleeve's private residence, but was eventually made to understand that it could not be received until 10 o'clock. At that hour Mr. Cleeve accepted it subject to a conditional purchase, which embraced the land sought to be selected, having been gazetted as forfeited.

Mr. Cunneen then arrived at the office and tendered a similar application on behalf of Mr. Somers for the same land, and he was informed by the Land Agent of the prior application by Mr. Smith, and of the question as to whether the conditional purchase had been forfeited. Mr. Cleeve states that it was ten minutes past 10 o'clock when Mr. Cunneen entered the office, and that he (Mr. Cleeve) keeps the railway time. Mr. Cunneen appears to have been surprised at not reaching the office at 10 o'clock, as his time-piece

time-piece showed that to be the hour, as did another (the clock at "Beatson's Hotel") he had compared it with. As regards this point, I have no doubt that Mr. Cleeve's time was correct, and certainly the time always kept by him for official purposes. It is more than probable that Mr. Cunneen's time was incorrect; the mere comparison of his time-piece with the public-house clock being no proof that Mr. Cleeve's watch, which he regulates by the railway clock, was wrong.

However, Mr. Cunneen did not, as a matter of fact, lodge the application on behalf of Mr. Somers, or if his action amounted to a lodgment, he distinctly states that he withdrew it to await advice as to the notification of the forfeiture of the conditional purchase in question; he also says that he believed the application he desired to make, and that made by Mr. Smith, to be in suspense, pending the receipt of the information relative to the conditional purchase, yet nothing the Land Agent said led him to believe so.

Mr. Smith's application on behalf of Mr. Squires was received at 10 o'clock, and before Mr. Cunneen reached the office, subject to the proof of the forfeiture of the conditional purchase, which was given to Mr. Cleeve in the shape of the Gazette herewith marked B, at about 11 o'clock the same morning.

In the meantime Mr. Cunneen received a telegram, in cypher, apprising him of the notification of the forfeiture of the conditional purchase, and he then returned to the office to lodge the application on behalf of Mr. Somers, but found Mr. Smith there, and Mr. Cleeve, in the act of preparing a receipt for the application tendered on behalf of Mr. Squires.

It will therefore be perceived that on both occasions Mr. Smith was first, that there was no real lodgment of the application by Mr. Cunneen, and that the forfeiture of the conditional purchase before referred to having been notified the preceding day, the land was open to selection, and consequently the application tendered by Mr. Smith should have been accepted without condition, in the first instance.

There is not in my opinion the slightest doubt as to the priority of application, or on that occasion, the correctness of Mr. Cleeve's watch; and the only question now remaining to be decided is that in connection with Mr. Somers' protest as to the non-registration of Mr. Squires' certificate in this department before it was lodged with the Land Agent.

I have, &c.,

CHARLES OLIVER,
Inspector.

Minutes on No. 34.

Mr. Oliver's report is very explicit. The only point appears to be as to whether Smith's application (for Squires) is invalidated through the non-registration of the Volunteer land order certificate, in this department as required by the Regulations.—W.W.S., 24 Oct.

The evidence and Mr. Oliver's report clearly prove that Squires' application was prior to Mr. Somers' application, therefore he is on that ground entitled to the land.

As to the objection to the validity of the application on the ground that the certificate was not registered at the Lands Office, Sydney, in accordance with Regulation No. 1, and which is to the effect that "Volunteers will be required to register their certificates in this office," in my opinion the non-registration of the certificate does not *per se* invalidate the application. The registration is merely departmental routine, and does not affect the validity of the certificate if tendered with the application prior to registration.—J.S.F., 25/10/78.

Inform all parties concerned as to the decision of the Minister, and carry out all necessary action as to cancellation, &c.—W.C.E., 30/10/78.

Enclosure A to No. 34.

F. Somers, Esq., to The Inspector of Lands Offices.

Sir,

I hereby protest against the application made by Mr. Thomas Smith, as agent for Mr. E. Squires, at Penrith, on the 3rd ultimo, to select with Volunteer land order C. A. Goodchap's forfeited conditional purchase, being allowed, because the land order presented with the application was not registered at the time, as required under the law.

My protest is grounded on No. 1 Regulation, made pursuant to "Volunteer Force Regulation Act of 1867," which enacts that a Volunteer land order should be registered before any person is at liberty to present it at any land office and select land in virtue of it. It is distinctly required to be registered before its presentation for such purpose.

The land order tendered with Mr. Squire's application on the day mentioned was not so registered, and for that reason it cannot be allowed. The Volunteer land order tendered with my application was registered as required by Act.

Yours, &c.,
F. SOMERS.

Gazette Notice.

Department of Lands, Conditional Sales Division, Sydney, 2 September, 1878.

FORFEITED CONDITIONAL PURCHASES.

His Excellency the Governor, with the advice of the Executive Council, directs it to be notified, that the undermentioned portion of Crown lands, conditionally purchased under the "Crown Lands Alienation Act of 1861," having, by the non-residence of the purchasers on their original selections or the conditions of which have not been fulfilled, been abandoned within the meaning of the said Act, the same are hereby declared forfeited, and such of the said lands as shall not in the meantime be conditionally purchased will be sold accordingly by auction, on a day or days to be hereafter notified.

Evidence alluded to.

John Kingdom Cleeve, jun., states that:—I am Land Agent at Penrith; I recollect distinctly the 3rd September last; Mr. Thos. Smith came to my house at about 8 o'clock in the morning of that day, and placed a paper in my hands; on examining it, I found it to be an application for a Volunteer order selection, with a certificate attached, on behalf of Edward Squires; I told him I could not accept it until office hours; a few minutes after 9 o'clock I came to the office and Mr. Smith was there; he again tendered the application, which I again refused, and showed him the Regulation which prevented its receipt until 10 o'clock; at 10 o'clock by my watch I permitted Mr. Smith, on behalf of E. Squires, to lodge the application; no other person being present at the time.

After

After reading the applications, and finding that it referred to a selection in the name of C. A. Goodchap, I told him the piece of ground was not, so far as I was then aware, open to selection, being the property of the said C. A. Goodchap. He told me that Mr. Goodchap's selection had been forfeited, and that he had it upon the best authority. I then said the forfeiture was not complete until it appeared in the Government Gazette, and that I would not get my usual Gazette until Wednesday, the following day.

Mr. Smith said he would produce me a Gazette showing the forfeiture in a short space of time, and he again repeated that he was perfectly certain of the land being declared forfeited. I then said, "I'll receive this application upon the condition that the Gazette showing the forfeiture is produced in a short time." I understood that the Gazette showing the forfeiture was coming up in the train. He agreed to the condition; of course I gave him no receipt at this time; nothing more was done in the matter there.

We, Mr. Smith and I, sitting talking together for a time, Mr. Cunneen then came in; the three of us spoke for a moment or two, and I then asked Mr. Smith to withdraw from the office, and I then noted by my watch that it was ten minutes past 10 o'clock; Mr. Cunneen then tendered an application, on behalf of Mr. Frederick Somers, for a Volunteer order selection of the same piece of ground; I told him what had passed between Mr. Smith and myself relative to having accepted from Mr. Smith an application for the same land on behalf of E. Squires, and stated that I did not see how I could receive the one he tendered.

Mr. Cunneen then stated that no land could be forfeited until the forfeiture was notified in the Gazette, and that he had a person waiting in Sydney to telegram to him when the Gazette was out—I mean issued to the public, and that he would call upon me again and make a fresh tender of the application.

While engaged in business in connection with the Small Debts Court, I noticed Mr. Smith return to the lands office, and as soon as my duties would permit me, I attended Mr. Smith in the land office.

I asked him if he could produce the Gazette showing the forfeiture, and he handed me the supplement to the Gazette of Monday, the 2nd September, 1878, showing, amongst others, in page 3,516, the forfeiture of Charles A. Goodchap's conditional purchase, transferred to Frederick K. Somers, of 40 acres 2 roods, situated in county of Cook, parish of Coomassie, in the district of Penrith. Seeing that the Gazette was dated Monday, the 2nd September, and as Squires' application was lodged at 10 o'clock on Tuesday, the 3rd September, which would be after the publication of the Gazette, I told Mr. Smith that I should confirm his application on behalf of Squires, as made at 10 o'clock; but that I could not give him a receipt just then, being busy with Court work; I would give it him later in the day, as I had merely rushed away from the Bench.

Some short time after this, upon the conclusion of the Court business, as I was preparing a receipt for Mr. Smith, Mr. Cunneen returned and said he had got a telegram to the effect that the Gazette was then out, and made a second tender of the application on behalf of Mr. Somers. Mr. Cunneen explained the telegram to me as meaning that the Gazette had been published at 11 o'clock on that day. It was not intelligible to me, as it ran thus—"my brother dead come down by first train"; that was Mr. Somers' cypher. I then showed Mr. Cunneen the Gazette handed to me by Mr. Smith, and pointed out the forfeiture of this particular piece of ground.

He looked through the Gazette for two or three minutes, and made a remark something to the effect that it was strange that a Supplementary Gazette showing the forfeiture of land should be published on the evening of the 2nd September, when the regular Gazette would appear the next day; that he had been at the Government Printing Office late the evening before, Monday, the 2nd, and that he could not find out that the information had been sent from the lands office for publication.

Mr. Cunneen then, upon my objecting (my objection only amounted to a statement that the land had been previously taken up by Mr. Smith) to take the application, withdrew it, saying he supposed it was no use putting it in now.

Mr. Cunneen then left, and I completed receipt for application made by Mr. Smith, on behalf of E. Squires.

I had previously shown Mr. Cunneen the incomplete receipt.

By Mr. Somers:—The order lodged on the 3rd September, on behalf of Mr. Squires, was not, so far as I am aware, registered in the lands office at the time of its receipt by me.

By the entry in my book I should say almost positively that it was not so registered.

By Mr. Cunneen:—I remember you having a written protest against the application on behalf of Mr. Squires, which you stated you would have lodged in the event of the forfeiture of Mr. Goodchap's conditional purchase appearing in the ordinary Gazette on Tuesday.

By Mr. Oliver:—Mr. Cunneen was not in the office until fully ten minutes after the lodgment of the application by Mr. Smith.

There is no official time in the office, and I always regulate the business of the land office by my watch. I regulate my watch by the railway time.

Mr. Cunneen objected to my time, but did not appear to attach any importance to the difference of his time and mine; his objection was more in the form of an expression of surprise at not being in the office at 10 o'clock, as he stated he left his hotel in time to reach the office by that time. There was no comparison of watches when I told Mr. Cunneen that I did not see how I could take his application after receiving that tendered by Mr. Smith; he withdrew it, stating he would tender it again at a later time in the day, when he had advice from Sydney as to the publication of the Gazette.

On the second occasion of my telling Mr. Cunneen that I had confirmed the application made on behalf of Squires, he did not insist upon my receiving the application he desired to make.

The protest referred to was to meet the case of the forfeiture being published in the Gazette proper of Tuesday, the 3rd September.

The Gazette referred to was a Gazette to be received by Mr. Smith; it is the one marked B, and was produced to me by Mr. Smith at about 11 o'clock on the morning of the 3rd September.

J. K. CLEEVE, JUN.

Taken before me, at Penrith, on the 21st October, 1878,—

CHARLES OLIVER.

Thomas Smith, of Penrith, hotelkeeper, states:—I have heard the statement made by Mr. Cleeve read, and fully concur in it, excepting that part referring to my being asked by Mr. Cleeve to withdraw from the office; it was not on the occasion of Mr. Cunneen's first coming that Mr. Cleeve asked me to withdraw; I was leaving then for the purpose of going to the train for the Gazette; by my watch it was a quarter-past 10 o'clock when Mr. Cunneen came in.

By Mr. Oliver:—I mean it was a quarter-past 10 when I left Mr. Cunneen; we had been talking in the office a few minutes; Mr. Cunneen had not previous to that tendered any application to the Land Agent; I knew the Gazette came up in the train; I don't know who brought it; I refer to the train arriving at Penrith at 10:48 o'clock a.m., on Tuesday, the 3rd September last.

THOMAS SMITH.

Taken before me, at Penrith, this 21st October, 1878,—

CHARLES OLIVER.

James Augustine Cunneen, of Sydney, Land Agent, states:—On Tuesday, the 3rd of September last, I was in Penrith for the purpose of taking up the forfeited selection of C. A. Goodchap, as agent for Mr. F. Somers; I waited until by my time and another time-piece, Mr. Beatson's, which I compared it with, it was five minutes to 10 o'clock; I then walked down to the land office, and after standing opposite the gate for a short time, and found by my time at the gate that it was within a few seconds of 10 o'clock, then went at once into the office, observed the clock was not going; I then tendered an application on behalf of Mr. Somers, accompanied by a registered Volunteer order certificate for the land before mentioned; the Land Agent, after examining the application, stated he was not officially aware that the land applied for had been forfeited, and until he received such information he did not think he was in a position to accept or complete any application for it; he asked me if I had the Gazette or had seen it; I stated I had not, but I felt certain, as far as I could form any idea, that it was forfeited by that morning's Gazette, and that I would get certain information by telegram as soon as possible, and then come again, with a view of selecting the land; after tendering my application, he informed me that Mr. Smith had also made an application; he had not given a receipt for it because he could not give him the information about the forfeiture; I then left the office, considering that my tender of application and Mr. Smith's were in suspense until it could be shown that the land was actually forfeited, and in the Gazette; after receiving a telegram from Sydney to the effect that the forfeiture

forfeiture had been gazetted, I returned at once to the office, and again tendered the application as before; Mr. Cleeve then produced to me a Gazette which he stated he had received from Mr. Smith, dated the day before (the 2nd September); upon this I made some general observations as to this Gazette coming out late on the 2nd with nothing but notice of forfeitures when the usual Gazette would have been published the next morning; and a further observation to the effect that it was remarkable that Mr. Squire's agent should receive the Gazette before either Mr. Cleeve or any other that I was aware of in Penrith; with regard to the other statements by Mr. Cleeve, I coincide with them generally; I must particularly confirm him in the statement as to showing me an incomplete receipt for the application lodged by Mr. Smith; with regard to the time, I have full confidence and believe that I made the tender for Mr. Somers of the application at 10 o'clock according to correct time; I was under that impression then, which I expressed, and I firmly believe it still.

To Mr. Cleeve:—Your time may have been as correct as mine; you told me that you had already received an application for the same land from Mr. Smith, and that you would not complete it until he, Mr. Smith, produced the Gazette; I hold they were under suspense—nothing you said led me to believe so; I withdrew my application, to wait advice as to the forfeiture of the land, fearing it was not gazetted, and knowing if that proved the case, the tender of the application would be illegal; I said I had on the first occasion of my coming to the office, a second Volunteer order to lodge, in case the first was lodged before the gazetted of the forfeiture; you did not say you would not accept my application on either of the occasions of my tendering them; I believe you have acted impartially in this matter.

J. A. CUNNEEN.

Taken by me, at Penrith, this 21st October, 1878,—

F. Somers, Esq., to The Secretary for Lands.

Sir,

183, Pitt-street, 1 November, 1878.

In reference to our interview of Thursday last as to the dispute between myself and Mr. Squires respecting a conditional purchase of 40 acres 2 roods, county of Cook, parish of Coomassie. I have the honor to request that as you have signified your intention of reconsidering your decision and submitting the matter for the opinion of the Honorable Attorney General, you will stay any further proceedings until that opinion has been obtained.

Case stated sent herewith.

I do myself the honor to enclose for your information a copy of the case stated by my solicitor for counsel's opinion, and upon which counsel has already advised me. The case as then stated will be of use inasmuch as it sets out succinctly the points upon which I rely.

I have, &c.,

FREDK. SOMERS.

Enclosure to No. 38.

Validity of unregistered Volunteer Land Orders.

Case for counsel's opinion.

On the 3rd September, 1878, Frederick Somers applied at the land office, Penrith, for 40 acres 2 roods of Crown land, and tendered in payment a registered Volunteer land certificate.

On

On the same day Edward Squires, at the same office, for the same land, tendered in payment therefor an unregistered Volunteer land certificate.

The 44th section of the Act 31 Victoria, No. 5, provides that certain Volunteers shall be entitled to free grants of "fifty acres of such land as may be open to conditional purchase under the 13th section of the 'Crown Lands Alienation Act of 1861,' subject to such regulations and conditions as may from time to time be approved of by the Governor, and laid before both houses of Parliament, and the certificate of the officer commanding the Volunteer Force shall be sufficient evidence that any officer," &c., has served sufficiently to entitle him to the grant.

Attached to the "Land Act of 1861" (tenth edition), and published in the Gazette of the 4th November, 1870, is the following regulation under "Volunteer Force Regulation Act of 1867."

- (1.) "Volunteers who may obtain certificates from the officer in command of the Volunteer Force, that they have served as efficient Volunteers for the period requisite to entitle them to free grants will be required to register the same in this office, and thereafter they shall be at liberty to present such certificates personally or by an agent at the land office of any district, on any other than a land-office day, accompanied by an application in the form hereto appended, provided nevertheless that certificates already issued will not require to be registered here."

Council will notice that—

1. The Volunteer land certificate is to be given by the "officer commanding the Volunteer Force" (31 Vic. No. 5, section 44), that is to say, the officer, no matter who he may be, who for the time being commands the Force. Any officer, therefore, who may be temporarily placed in command of the Volunteers (owing to ill-health, absence, or other disability of his superior officer) may grant certificates of efficiency.
2. These certificates, under the 31 Victoria, No. 5, section 44, entitle the persons to whom they are issued to free grants of land "subject to such regulations and conditions as may be made from time to time," &c.
3. Regulations made in 1870, and appended to the "Land Act of 1861," prescribe the conditions to be attached to Volunteer land certificates.

The questions upon which the opinion of counsel is desired are—

1. Is not the Regulation of 1870, as quoted above, necessary, in order to prevent the improper issue of land certificates to unentitled persons?
2. Is a Volunteer land certificate issued under the 44th section of the 31 Vic. No. 5, subject to the Regulation of 1870, available before its registration for use as entitling its holder to 50 acres of land; and can such an unregistered land certificate be received in payment for Crown lands?
3. Was Frederick Somers' tender of a registered land order in payment of 40 acres 2 roods of Crown land valid or invalid.
4. Was Edward Squires' tender of an unregistered land order in payment for the same 40 acres 2 roods valid or invalid; and would mere priority of application on his part entitle him to the land under all those circumstances?
5. What is F. Somers' position with regard to the Government under these circumstances, and what steps should he take to enforce his rights, if any?

Counsel will please advise generally on the whole case.

GEORGE MERRIMAN, Solicitor.
Pitt-street, Sydney.

No. 39.

S. C. Brown, Esq., M.P., to E. Squires, Esq.

Dear Sir,

71, Pitt-street, Sydney, 28 November, 1878.

I have perused the papers relating to your selection of C. A. Goodchap's forfeited conditional purchase left with me by T. R. Smith, Esq., M.P., and assuming that the land was open to conditional selection under the "Crown Lands Alienation Act of 1861," and that the certificate presented to the Land Agent was a valid one, under the provisions of the 44th section of the "Volunteer Act," I am of opinion that you are entitled to a free grant of the land so selected.

There can be no doubt that your agent applied to select the land before application was made by any other person, that the Volunteer certificate presented by him was accepted by the Land Agent, and forwarded by him to the proper officer of the Government, by whom it was registered and entered in the usual way, and it appears to me that the mere fact of the certificate not having been registered in the Lands Office before application to select was made, does not invalidate or make void such application, for it would be necessary to hold this in order to deprive you of the land.

It may be that the Land Agent might have refused to accept the order without its first having been registered, but having done so and having acted upon it, and the Government having adopted his acts, I think they must be held to have waived the prior registration, which they were at perfect liberty to do for the only object of the regulation requiring such registration could be to ascertain the validity of the certificate before it was presented to the Land Agent; the regulation could not affect the validity of the certificate or the rights under it, and if the certificate was in fact a valid one, and the Land Agent or the Government were satisfied thereof and chose to act on it, they were at liberty to do so, and their acceptance or acting cannot be made void. Again, at the time of the acceptance of the certificate by the Land Agent, there was no conflicting interest, the only parties interested were you as the applicant and the Government as the owners of the land—the latter were the only persons who could object to the non-registration, and as they did not so object, the application was in my opinion a valid one.

I am also inclined to think that the Government would have had no power to issue any regulation which would abridge the rights, under the Act, of the holders of certificates, and that if the fact of non-registration is held to have that effect, the regulation would be void; the holder of a certificate is by virtue of the Act entitled to the grant of land, the Government may regulate how that land is to be obtained or how the certificate is to be used, but they cannot make any regulations limiting the powers or rights under the certificate, or preventing the holder from exercising such rights.

Yours truly,
S. C. BROWN.

No. 41.

Minute by the Secretary for Lands.

Volunteer Land Order Selection on Blue Mountains.

THE facts of this case are briefly as follows:—

Mr. Squires, by his agent, lodged with the Land Agent at Penrith an application and Volunteer certificate (the certificate being in the name of Squires, who had served as an efficient Volunteer), on the 3rd September, 1878. This certificate reached this office, and was registered on the 6th September; Mr. Cunneen, as agent for Mr. Somers, wrote to the department, stating that he had made an application for the same land at the same time. A memo. was made on the letter that if the facts be as stated there should be a ballot. The Land Agent was informed that a ballot would take place. Subsequently the Land Agent was requested to report on the facts of the case; he reported the fact that Squires' application was made ten minutes prior to Mr. Cunneen tendering his application. On the receipt of this report, I, by memo. of 4/10/78, decided that as Squires was prior applicant he was entitled to the land. Mr. Cunneen demurred to the Land Agent's statements, and requested an opportunity of rebutting them; he also lodged a declaration.

By my memo., 14/10/78, I directed an inquiry to be held by Mr. Oliver. The inquiry was held, and the result was that Squires was proved to have a prior claim, and that Mr. Cunneen did not lodge his application at that period, therefore there was no conflicting application as between Squires and Somers.

Mr. Cunneen, for Somers, raised a question that the certificate of Squires' was not registered at the date of application. By my memo., 25/10/78, I decided that notwithstanding the non-registration at the date of application (the fact being that the certificate was registered in this office on Thursday after) that Squires was entitled to the land. Mr. Somers, while the decision on the question was pending, lodged an application for the first time on the 15th October. Now this application has no standing, because an application cannot be made or dealt with pending a prior decision, that is to say, a waiting application cannot be entertained pending the determination of a disputed case. Had I decided against Squires, the land would after that decision have been open for purchase, and not until then.

Since my previous decisions, Mr. Somers has sent in a letter containing several points submitted by him to counsel, and Squires has also sent in a letter from his attorney in reference to the matter. I have considered these letters in connection with the facts of the case, and I am of opinion that Squires is entitled to the land, because there was not in reality any conflicting claim at the date of his application, the fact being that Somers had not lodged an application.

Then as to the non-registration of the certificate prior to application. The application was made on the 3rd September, and it was registered on the 6th September, and at that time there was no conflicting claim, consequently the matter was one between the Government and Squires as to non-registration (who in this case was the Volunteer who had acquired the certificate for efficient service), no objection was taken by the department to the non-registration of the certificate on the ground of its not being registered prior to application; on the contrary, when the application and certificate were received at the department from the Land Agent, the certificate was registered in the usual way, and as was done in not less than forty-six (46) other cases where the certificates were lodged with the application prior to registration.

Had I decided that Squires' application was not admissible on account of non-registration, that fact would not have entitled Somers to the land, because Somers had not made application for it, and as before stated, his application of the 15th October was not admissible because the case was not then decided on the point raised by him as to non-registration.

The objection to the non-registration appears to me to be of a technical character and not substantial. Therefore, taking in consideration all the facts and circumstances of the case, I think that Squires, on the grounds of equity and justice, is entitled to the land.—J.S.F., 4/12/78.

Let all necessary action be taken in accordance with Minister's decision.—P.F.R., 12/12/78. The necessary action in connection with Volunteer land order *78-273, may be taken in Charting Branch.—P.F.R., 16/12/74.

No. 45.

F. Somers, Esq., to The Secretary for Lands.

Sir,

183, Pitt-street, Sydney, 27 December, 1878.

I have the honor to acknowledge the receipt of your letter of the 13th instant, notifying to me that you had decided to issue a grant of the land situated at Springwood, and described as C. A. Goodchap's forfeited conditional purchase to Mr. Squires. No. 43.

As I do not recognize the right of the Minister for Lands to set aside the law and to make grants otherwise than in compliance with statutory provisions, I have determined to resist Mr. Squire's occupation of the land in question.

I have, therefore, taken possession of the said 40 acres, and have put up notices warning trespassers from going upon or interfering with the land, and I claim from the Government the issue of the grant, in pursuance of the terms of the Volunteer Act, and under the conditions prescribed in the Regulations appended to the "Land Act of 1861."

Herewith I return to you the land order which was given by me in payment for the said 40 acres 2 roods.

That land order was properly tendered to you, and has been most improperly returned, and I am advised that you, as Minister for Lands, have no right to deal with Crown lands which you have regularly alienated, or to prevent any person who has perfected his statutory title from entering into possession of, and enjoying the advantages of his property. The land in question is, as I am advised, mine under the existing law, and I am also advised that no Minister can set aside the existing law, and that any grant issued to any other person in defiance of law will be utterly void.

I have, &c.,
FREDERICK SOMERS.

Submitted in connection with the recent decision of the late Secretary for Lands.—P.F.R.,
2/1/79. The Under Secretary.

No. 46.

F. Somers, Esq., to The Secretary for Lands.

Sir,

Pitt-street, Sydney, 14 January, 1879.

I do myself the honor to remind you of my letter of the — December, 1878, in reference to the dispute now pending as to my right to a grant of 40 acres of land known as C. A. Goodchap's forfeited conditional purchase. In that letter I informed the Minister for Lands (Mr. Farnell) that, acting under legal advice, I had taken possession of the land in question, and I requested that a grant might be issued to me; I have not yet received any acknowledgment of the receipt by your department of that letter, and I have therefore the honor very respectfully to request that the matter may receive your early attention. See No. 45.

I have recently had an opportunity of perusing certain papers now in the Lands Office which have reference to the dispute between Mr. Squires and myself as to the right to possess Goodchap's forfeited conditional purchase, and among these papers there is a letter written by Mr. S. C. Brown, M.P., under date 28th November, 1878, and a memo. of the Minister for Lands dated 4th December, 1878, in reference to which I desire to make one or two observations. See No. 39.
See No. 41.

I may state that with Mr. Farnell's consent I had a case prepared for counsel's opinion, that Mr. Farnell promised that no decision would be given by him until that case had been submitted to the Attorney General, that the case never was, as appears by the papers, submitted to the Attorney General at all, and that the promise above referred to has therefore been entirely disregarded.

Mr. S. C. Brown, acting as the legal adviser of Mr. Squires, and, as he himself states, at the instance of Mr. T. R. Smith, M.P., has written to Mr. Squires the letter to which I refer. In it he sets forth his opinion that Mr. Squires is legally entitled to a grant of the land which I claim, and of which I have taken possession; and he proceeds to argue that, notwithstanding the express provisions of the law with regard to the issue and use of Volunteer land certificates, the non-registered certificate put in as payment for the land by Mr. Squires was a perfectly valid document.

Mr. Brown further treats the case as one concerning merely the Government and Mr. Squires. "There was," he says, "no conflicting interest; the only parties interested were you (Mr. Squires) as the applicant, and the Government as the owners of the land."

The late Minister for Lands (Mr. Farnell), in his memo. of the 4th December last, wholly adopts Mr. Brown's view, and follows out that gentleman's reasoning with remarkable adherence, not merely to the substantial arguments, but the actual verbiage in which they are expressed. He says that Squires' "application was made on the 3rd September, and the certificate was registered on the 6th September, and at that time there was no conflicting claim, consequently the matter was one between the Government and Squires as to the non-registration"; and he decides "that the objection to the non-registration appears to be of a technical character and not substantial, therefore, taking in consideration all the facts and circumstances of the case, Squires, on the grounds of equity and justice, is entitled to the land."

767—C

Confining

Confining for the present my attention to those portions of the letter and memo. which I have quoted, I beg most respectfully to submit that both Mr. Brown and Mr. Farnell have wholly mistaken the true features of the case. In the first place they both treat registration of a Volunteer land certificate as a matter of no importance whatever; say that the Government must be held to have waived the prior registration in Squires' case, and that the certificate having been registered three days subsequently to the applications made by Squires and by myself, there was no force in my objection. But the law is express upon the point. The certificate must by law be registered before it can be used, and the Government have no right whatever to dispense with any condition which the law imposes as a necessary safeguard against malpractices.

The regulation as to registration is clearly necessary; without it serious frauds might be perpetrated. Any person possessing himself of blank certificate forms might fill them up, sign them, and issue them; and unless they were passed through the proper routine, and were registered before being used in the purchase of land, it would be extremely difficult to distinguish the genuine instruments from the fraudulent; and it should be noted that any officer commanding the Volunteer Force, however temporarily, is entitled, under the law, to issue these certificates, so that the necessity of the regulation respecting registration must be abundantly obvious. That being the case, the Government must administer the law, and have no discretionary power of "waiving" registration of a document which cannot be a valid payment for land until after it has been registered. Both Mr. Brown and Mr. Farnell are strangely mistaken in their assertions that there were no "conflicting interests," that the matter was between Squires "the applicant and the Government as the owners of the land." In the first place the Government are not the owners of the land at all—they are simply trustees for the public, and the Legislature has taken care to define and limit their powers,—so that compliance with the conditions of purchase prescribed by the Legislature gives any selector a title not to be damaged, or impugned, or straitened by any Government. The matter was therefore one in which the general public had a strong interest "conflicting" against the applicant who attempted to make an illegal use of an invalid document, and who has induced the Government to attempt to override the plain provisions of the law.

The public is virtually interested in preventing Ministers from "waiving" in favour of any individual any conditions which are enacted for the defence of the public from spoliation and injustice.

But apart from this broad sense in which there was a "conflicting interest," there is the literal fact that my interest conflicted with that of Squires'. My application was coincident with his (a little prior as I contend) in point of time.

I put in a properly registered Volunteer land certificate; he, at the same time, or a few moments earlier or later, put in an unregistered certificate, and I raised the objection which has been discussed.

Mr. Farnell, in one part of his very singular memo., treats the case as though my claim to the land were based on an application made by me on the 15th of October, while in almost the same breath he relates that my application was reported as made on the same day as that of Squires, but ten minutes late; that I asserted that mine was the prior application, that an inquiry was held into the matter, and that the result of the inquiry was adverse to my priority.

It cannot be disputed that my application, accompanied by a valid certificate, was lodged (although refused by the Land Agent who was not aware the land had been forfeited) within a few minutes of the lodging of Squires' application and invalid certificate, and that Squires' certificate was not registered for several days afterwards. This being so, the Minister's decision, as expressed in his memo., that "Squires is entitled to the land, because there was not in reality any conflicting claim at the date of his application, the fact being that Somers had not lodged an application," is wholly baseless, as also is his subsequent assertion,—“Had I decided that Squires' application was not admissible, the fact would not have entitled Somers to the land, because Somers had not made application for it.”

According to the Minister's own memo., "Somers' application" was made only ten minutes after Squires'.

In conclusion, I have the honor to submit that a grant of the land should be issued to me as I have secured the statutory title, have taken possession of the land in dispute, and cannot (if my view of the law be correct) be legally dispossessed by either the Government or their grantee.

I have, &c.,

The Under Secretary for Lands to T. R. Smith, Esq., M.P.

Sir,

Department of Lands, Sydney, 17 February, 1879.

In reference to the correspondence which has taken place relative to the disputed claim between Mr. Somers and Mr. Squires to 40½ acres of land in the parish of Coomassie, county of Cook, being the forfeited conditional purchase of C. A. Goodchap, I am directed to inform you that on the advice of the Attorney General, the Minister for Lands is unwilling to disturb the decision of his predecessor, Mr. Farnell.

2. I am to add that transmitted herewith is a copy of Mr. Windeyer's advising in the case.

I have, &c.,

W. C. EDWARDS,

(For Under Secretary).

The Under Secretary for Lands to F. Somers, Esq.

Sir,

Department of Lands, Sydney, 17 February, 1879.

In reference to your letter of the 14th ultimo, and to previous correspondence relative to the disputed claim between Mr. Squires and you to 40½ acres of land, parish of Coomassie, county of Cook, being the forfeited conditional purchase of C. A. Goodchap, I am directed to inform you that on the advice of the Attorney General the Minister for Lands is unable to disturb the decision of his predecessor, Mr. Farnell. No. 48.

2. I am to add that transmitted herewith is a copy of Mr. Windeyer's advising in the case.

I have, &c.,

W. C. EDWARDS,

(For Under Secretary).

Volunteer land order certificate returned herewith.

No. 50.

F. Somers, Esq., to The Secretary for Lands.

Sir,

183, Pitt Street, Sydney, 19 February, 1879.

Referring to your letter of the 17th Febrary instant, returning the Volunteer land order handed into your department by me in payment of 40½ acres of land at Springwood (C. A. Goodchap's forfeited selection), I have the honor to inform you that I am in possession of the land in question, and shall continue to hold it. No. 49.

I therefore again return you the Volunteer land order, as I intend to insist upon my right in this matter.

I have, &c.,

FREDERICK SOMERS.

Minutes on above.

Under Secretary. I wish to see Mr. Stephen respecting this matter.—J.H., 19/2/79.

Papers in connection with this case herewith.—W.C.E., 20.

The decision arrived at under the advice of the Attorney General must of course be considered final. The Volunteer land order should be returned again to Mr. Somers with an intimation to that effect; and, if he persists in again returning it here, it will be at his own risk. As to Mr. Somers' statement that he will not give up the land, that is a matter with which the Government cannot I presume interfere. Mr. Squires must defend his own rights. To enable him to do this, the deed of grant should I think be issued without unnecessary delay.—W.W.S., 21 February, 1879.

Approved.—J.H., 21/2/79.

Inform Mr. Somers at once, and return the Volunteer land order certificate at the same time.—W.C.E., 24/2/79.

No. 51.

The Under Secretary for Lands to F. Somers, Esq.

Sir,

Department of Lands, Sydney, 26 February, 1879.

In reference to your letter of the 19th instant, relative to the (40½) forty and a half acres of land, in the parish of Coomassie, county of Cook, for which you tendered to the Land Agent at Penrith an application under Volunteer land order certificate, I am directed to inform you that under the advice of the Attorney-General (a copy of whose advising was forwarded to you, with my letter on the subject, on the 17th instant), the Secretary for Lands considers that the decision arrived at in the matter must be considered final. No. 50.

2. I am to add that should the Volunteer land order certificate in question (which is enclosed), be again returned to this department, it will be at your own risk. See No. 48.

I have, &c.,

No. 52.

F. Somers, Esq., to The Secretary for Lands.

Sir,

183, Pitt-street, Sydney, 6 March, 1879.

I have the honor to acknowledge receipt of your letter of the 26th ultimo, enclosing Volunteer land order, and stating that the decision officially given as to the legality of my purchase of Goodchap's forfeited selection could not be interfered with.

I herewith return the Volunteer land order, and am willing to accept whatever risk may be incurred by that proceeding.

I have the honor to remind you that no opinion on the point submitted by me *re* the validity of a non-registered Volunteer land order, appears as yet to have been given by the Attorney General.

I have, &c.,

FREDK. SOMERS.

Minutes on No. 52.

Urgent.—Under Secretary.—Was not an opinion given by the Attorney General that the non-registration of the transfer of a Volunteer order did not invalidate its use?—J.H., 6/3/79.

Yes—and Mr. Somers so apprised. This is the second time he has returned his Volunteer land order, as he declines to give up the land. This letter should perhaps be registered and put with the other papers.—W.W.S., 7 March.

Approved, but I think the Volunteer land order must be returned to Mr. Somers.—J.H., 7/3/79.

Return the Volunteer land order certificate.—R.H.D., *pro* W.C.E., 11/3/79.

The Under Secretary for Lands to F. Somers, Esq.

Sir,

Department of Lands, Sydney, 12 March, 1879.

In reference to your letter of the 6th instant, relative to the claim between yourself and Mr. Squires to C. A. Goodchap's forfeited conditional purchase, I am directed to return herewith the Volunteer land order noted in the margin which accompanied your letter above referred to.

I have, &c.,

W. C. EDWARDS,

(For the Under Secretary).

No. 54.

T. R. Smith, Esq., M.P., to The Secretary for Lands.

Dear Sir,

675, George-street, Sydney, 17 March, 1879.

Will you kindly hurry on the deed of the land selected at Springwood, known as Goodchap's selection of 40 acres 2 roods, and now taken up by Squires.

Also, deed for the 100 acres selected at Lapstone Hill, and purchased by Thomas Smith, senr. An early reply will oblige.

I may mention that these matters have been delayed for some time, and the parties concerned are anxious to have the deeds as soon as possible.

Yours, &c.,

T. R. SMITH, M.P.

Minutes on No. 54.

Under Secretary.—Urgent.—The preparation of these deeds of grant should be hurried forward, and Mr. Smith, M.P., informed.—J.H., 19/3/79.

Mr. Neate.—The Minister has in a previous paper decided that the deed is to be prepared without delay. Attend to this quickly. These papers are required back for Parliamentary return.—W.W.S., 24th March. Inform.—24/3/79. Deeds Branch, 24/3/79. The Volunteer land certificate for Mr. Squires' purchase is not enclosed.—C.N., 27/3/79. Certificate now herewith.—C.O., 27/3/79.

Deed prepared.—21/4/79.

No. 57.

F. Somers, Esq., to The Secretary for Lands.

Sir,

183 Pitt-street, Sydney, 7 May, 1879.

I have the honor to again most respectfully protest against the issue of deeds of grant of the following portions of land to any person or persons other than myself, viz. :—

1. 40 acres 2 roods at Springwood, being C. A. Goodchap's forfeited selection.
2. Two 50-acre portions at Woodford taken up by me, and to which Mr. W. Taylor has laid claim.

I am advised that my title to those selections is valid, notwithstanding the opinion of the Hon. Attorney General as to the power of the Government to waive the observance of the regulation which enjoins the registration of Volunteer certificates. Though a power of waiver does within certain limits exist, yet the Government has no power to waive observance of any regulation *when such waiver operates to the prejudice of a person who fulfils the law, and in favour of a person who ignores the law.* I have accurately performed the conditions necessary to entitle me to the several portions of land above-mentioned. I have complied with the regulations. The persons who claim in opposition to me have not complied with the regulation which prescribes the registration of their land orders or certificates, and the Government have no power whatever to waive a regulation which secures my title and ousts my opponents.

I have respectfully to point out that if such a doctrine were admitted and acted upon, a door would be opened for almost illimitable frauds, as every selector or occupier of Crown lands would be quite at the mercy of the Minister for Lands, who according to his caprice might "waive" any regulation in favour or against him.

I beg also to remind you once more I have taken possession of all those portions of land.

I have, &c.,

F. SOMERS.

Minute on above.

Application for the conditional purchase, without competition, of unimproved Crown land.

C.P. No. 73-12,592. Land Agent's No. 148 of 1873. Alienation Act, section 13.

Application by John Daly for the conditional purchase, without competition, of 50 acres unimproved Crown land, under section 13 of the "Lands Alienation Act of 1861."

RECEIVED by me, with a deposit of £12 10s., this 27th day of November, 1873, at 12 o'clock.

H. E. STRATFORD,

Agent for the Sale of Crown Lands at Casino.

Sir,

27 November, 1873.

I am desirous of purchasing, without competition, under the 13th section of the "Crown Lands Alienation Act of 1861," the portion of unimproved Crown land hereunder described, containing 50 acres; and I herewith tender the sum of £12 10s., being a deposit at the rate of five shillings (5s.) per acre on the area for which I apply, and on which it is my intention to reside.

Mr. Licensed-surveyor R. Barling to The Surveyor General.

Sir,

Casino, 10 July, 1874.

I have the honor to forward to you a plan* of three portions of land in the parish of North Lismore, county of Rous, No. 84, of 50 acres, applied for under the 13th clause of the "Crown Lands Alienation Act of 1861" by John Daly, on the 27th November, 1873. Instructions B.C. 7 Jan., /74, No. 1. Date of survey, 1st July, 1874.

John Daly was not residing at the time of survey; he has felled a little brush; value, £2.

No. 85 of 41 acres and No. 86 of 36 acres I measured for sale at same time, to fill up the design. The bearings of these portions do not all agree, but I have shown them the best way I could, as it is almost impossible to determine on the ground the correct bearing, as it is covered with such dense brush, and there being at the same time strong local attraction, one has to depend upon the chaining, which is also very rough.

Declaration of Messrs. D. Currie and J. M'Kenzie.

C.P. No. 73-12,592.

Declaration of conditional purchaser under the 18th section of the "Crown Lands Alienation Act of 1861."

WE, Duncan Currie and John M'Kenzie, of Lismore, do solemnly and sincerely declare that we are the lawful owners, by conditional purchase under the 13th section of the "Crown Lands Alienation Act of 1861," of the land hereunder described, and that improvements consisting of building, falling, and clearing, and to the value of £50, have been made on such land, and we declare further, that the said land has been the *bonâ fide* residence, continuously, of John Daly, Edward Howell, and ourselves from the period of selection and first occupation to the present date (and that no alienation of the land has been made by any of the above-named holders, until after the residence thereon of such holder for a period of one whole year, each alienation having been notified to the Land Agent of the district within one month of its having been made). And we make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "*An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales and to substitute declarations in lieu thereof and for the suppression of voluntary and extra-judicial oaths and affidavits.*"

No. 6.

Mr. Inspector Trollope to The Chief Commissioner.

REPORT by F. Trollope, Inspector of Conditional Purchases, respecting the selection of John Daly, now Currie and M'Kenzie, made at Casino on 27th November, 1873.

Sir,

Grafton, 28 August, 1877.

I have the honor to report that I visited and inspected the above described conditional purchase on the 19th July, and that I found the selectors then resident upon their selection. The land, which consists of brush, and comprises 50 acres, is occupied and used by Currie and M'Kenzie, and the selectors had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz. :—

*Hut, 12 x 10	£	s.	d.
About 5 acres brush fallen at £4...	20	0	0
								£35	0	0

* Measurement of this hut should be 9 x 15.
—F. TROLLOPE.

I had from M'Kenzie information of an old hut said to have been worth £5. I have since learnt that a portion of the timber out of which the new hut is built came from the old one.

From the appearance of the land and the circumstances stated in the following remarks, I am of opinion that the selector has been continuously resident on this section. Somebody was using the hut at the period of my visit—I believe M'Kenzie. I should say the residence conditions had been properly complied with.

There are on this selection several "drawing roads," for the purpose of taking away timber. These have been made at probable cost of £10. As these are mere tracks cut through the scrub for the purpose of taking away valuable timber, they are questionable improvements.

I have, &c.,

FRED. TROLLOPE,

Inspector of Conditional Purchases.

Minutes on above.

In what sense can such be considered improvements? (Written by Mr. Moriarty).

Residence satisfactory; but the improvements are estimated by the Inspector at £15 less than the required value. Submitted.—J.S.H., 30 October, 1877. For Commissioner.—A.O.M., 30/11/77. The Chief Commissioner to Messrs. J. M'Kenzie and J. Currie.

Gentlemen, Conditional Sales Division, Department of Lands, Sydney, 20 February, 1878.^o

I am directed to invite your attention to the notice in the Government Gazette of the 15th instant, by which you will perceive that your claim to the conditional purchase made by John Daly, at Casino, on the 27th November, 1873, has been referred by the Minister for Lands to Commissioner Bolding for inquiry, in accordance with the 25th clause of the "Lands Acts Amendment Act of 1875," and the regulations relating thereto, as to the fulfilment by you of the conditions thereof. See No. 8.

2. I am to inform you that due notice of the time and place appointed for the purpose will be given you by the Commissioner referred to.

Commissioner Bolding to The Chief Commissioner

REPORT of an inquiry held at Lismore on the 16th April, 1878, by H. J. Bolding, Commissioner for the Northern Coast Division, respecting the conditional purchase of John Daly made at Casino, on the 27th November, 1873—50 acres. Claimants—J. M'Kenzie and D. Currie, and additional selection, 21 sec., 17th August, 1876—100 acres.

Sir,

I have the honor to transmit herewith, for the consideration of the Honorable the Minister for Lands, minutes of evidence taken at an inquiry under the "Lands Acts Amendment Act of 1875," held by me in pursuance of the reference notified in the Gazette of the 15th February, 1878, in the matter of the above described conditional purchase. Enclosed. See No. 8.

The claimants having been duly served with notice of the time and place of holding the inquiry, were present thereat.

The following facts bearing on the fulfilment by the selectors of the conditions of purchase were elicited in evidence, viz.:—Inspector Trollope valued improvements on the 50 acres (13 sec.) as worth only £35, viz., hut £15, and brush fallen, £20.

Much time was occupied by the claimants disputing this valuation and estimating "drawing roads," &c., but no evidence of residence in support of their declaration of 18th December, 1876, was offered, excepting that they had themselves lived thereon, i.e., on the land, since the preceding August. Further evidence being necessary, the inquiry was adjourned. Subsequently the original selector, J. Daly, appeared, and gave evidence, showing that he lived with his mother a mile distant from the land from selection, in November, 1873, until his sale of it to Howell in August, 1875, but he went to it generally about every three months, and stayed a night only; once he stayed two nights; was usually away from it for two months at a time. See No.

I have therefore to report that I find such conditions not to have been fulfilled, and to recommend that these conditional purchases be forfeited, viz.:—50 acres, 27th November, 1873, 13 sec.; and 100 acres, 17th August, 1876, 21 sec.

I have, &c.,

H. J. BOLDING,

Commissioner.

Minutes on above.

Improvements on 13 sec., £35; on 21 sec., not ascertained. I see no reason to dissent from the conclusions arrived at by the Commissioner in this instance, or his recommendations.—W.J., A.O.M., 13/7/78. Approved.—J.S.F., 16/7/78.

Evidence referred to in M'Kenzie and Currie's C.P.

Frederick Trollope, sworn, states:—I am Inspector of Conditional Purchases; on 19th July last I inspected the selection of John Daly, of 27th November, 1873, 50 acres, county Rous, parish *South Lismore, subsequently alienated to Edward *North. Howell, and by him to John M'Kenzie and Duncan Currie; the three years for residence had expired, but the hut was occupied; it was worth £15; the other improvements were about 5 acres of brush fallen at £4 per acre, £20; and I was told there had been a hut then burnt; the total value of what I saw, excluding the hut said to be burnt, was £35; there were also several dray roads on the land cut for drawing off timber which I did not put among improvements; I saw the site of the burnt hut, and thought there had been one, but could not determine its value from appearances, but Currie stated its value to be £5, and M'Kenzie £10. Hut, £15.
Brush, £20.
Impts. £35.
And further, burned hut.

By J. M'Kenzie:—You may probably have asked me if the improvements were sufficient; we had a good deal of conversation about them; the conversation was about the roads cut through; I said if these roads were allowed as improvements they would be sufficient, but in my opinion they were not improvements; I do not remember seeing any bridge on the selection, and I have no note of any.

By Duncan Currie:—I went through the drawing roads with M'Kenzie; I reported that the drawing roads probably cost £10, but I considered them questionable improvements; I thought if this £10 were allowed, and the value of the burnt hut proved they would make the improvements worth £50; but I did not tell M'Kenzie I thought the £10 would be allowed or ought to be allowed; I consider cutting big trees and clearing them away is improvement; there had been corn on the land, and were pumpkins and other garden stuff; I left my horse and walked through the clearing; I rode my horse up to the boundary or near to the boundary of Howell's selection, and then I left it; Howell's is the adjoining selection, No. 70 of the tracing; I first inspected the land on the 19th July, and I went again the next day at the request of M'Kenzie or Currie to see the remains of the burnt hut, and these roads through which the timber had been drawn off. Drawing roads, £10. (?)

Hut, £20.
Drawing roads.
Impts., £55.

*By M'Kenzie, Arthur William Short, sworn, states:—*I have seen the selection of John Daly, subsequently belonging to M'Kenzie and Currie; I saw the improvements on it; I think the hut worth about £20; I saw fallen scrub, between 6 or 7 acres as I estimated; I did not measure it; I consider the drawing roads improvements; they lessen the amount of scrub to be felled, and are ways of access to the house; putting the roads all together they would be clearing a considerable quantity of ground.

*By Currie:—*I consider the whole value of the improvements to be about £55; nearly half the scrub felled has been cleared off, and has been under cultivation; the hut is built of pine slabs and sawn cedar, squared posts, and sleepers; I saw the ruins of another hut, which had been consumed by fire.

*By Inspector:—*I was there this morning, and never was on the ground before to my knowledge; sawn cedar is used for bunks, and there were sawn cedar boards, but I cannot say what they were used for; the cedar was used for bunks and wall-plates and other things—I believe more than 100 feet in all; it is 18 feet by 10 feet, or near about it; I was shown the side line of Howell's land; the longest measure of the clearing is, I think, over 300 yards; the clearing is something triangular in shape, without the sharp point; the base may be about 200 yards; where cleared for cultivation and burnt off it would be worth £6 or £7 per acre, and falling scrub is worth 30s. per acre; I consider half the clearing worth £6 or £7 per acre, and the other half worth 30s. per acre; I cannot say if there is a road to the house or not; it is all grown up; when I was there this morning it was hardly light enough to measure; I had ample time to value the improvements before I left; there are a good many roads through the scrub; I should say the main road was for taking the produce to market, as the land was under cultivation; I think it enters the land from the south.

*By the Commissioner:—*What I call the main road goes on through the land; I cannot say what length, or whether it goes to the hut, or whether it crosses the section or ends in it; it goes as far as the falling; the other roads come on to the main road; John M'Kenzie told me it had been cultivated, having had pumpkins on it; I saw a hoe on the land, but I don't know how it had been cultivated; the ground was pretty clear round the hut; the fire-place was an extension of the hut; and I am certain the hut was more than 12 feet long.

ARTHUR W. SHORT.

H. J. BOLDING, Commissioner.

*Joseph Greenhalgh, sworn, states:—*I know the selection of John Daly, and subsequently belonging to M'Kenzie and Currie.

*By D. Currie:—*I saw a road cut up to the hut wide enough for a dray, and have had bullock teams on it myself; they went beyond the hut; a month or more before Christmas, 1876, I first saw the clearing; it was then newly felled, and I think some about the hut had been burnt off; I was there this morning, and I thought the clearing was about 6 or 7 acres; part of it had been burnt off almost clean; I cannot say what is the value of all the improvements.

*By the Commissioner:—*When I have been to the selection it has been to draw the timber from it in logs; I did so for about a fortnight.

JOSEPH GREENHALGH.

*By D. Currie, Roman de B. Lopez, sworn, states:—*I consider road-cutting improvements; I consider so because after they are made, the cost of clearing the rest of the selection is considerably lessened; the removal of the heavy timber is all improvement.

*By the Commissioner:—*I consider the value of the timber taken off the land by the usual drawing roads to be less in value than the improvements actually made to the land by the roads so cleared; I would give more for the land after making the roads and removing the timber than for it in its untouched state.

*John M'Kenzie, sworn, states:—*I am a claimant for this selection jointly with John Currie; I see my declaration of 18th December, 1876, jointly made with Duncan Currie, then joint owner of it; it states that improvements to the value of £50 were then made on it, and that it had been the *bona fide* residence continuously of John Daly, Edward Howell, and ourselves, from the period of selection; to the best of my belief this is true; I believe the improvements were then actually worth £50; when I bought the land all I knew of John Daly's residence was, that there was no complaint against him for non-residence at the Land Office at Casino—I enquired there and was told so; by the notice of alienation by John Daly to Edward Howell, I see Daly was the owner from November, 1873, to August, 1875, when he sold it to Howell; I do not know myself whether Daly lived on the land before he sold it to Howell; Edward Howell sold the land to Currie and me in August, 1876; he told me he had lived on it, but I do not know myself that he had lived there from the time he bought it of Daly; but from the time Currie and I bought it from Howell we both lived on it—Currie continually and I occasionally, but I had a house elsewhere, a freehold, where my wife and family lived; I lived mostly on the selection, but sometimes with my family; I was more than two-thirds of the time on the selection, but on Saturday night I went to my family, and mostly returned on Monday, but on one occasion I was ill and stayed with my family for two or three weeks; I never stayed a whole week with my family, excepting on that occasion; I valued the burnt hut at £10.

[Resumed, 17th April, 1878.]

*John M'Kenzie, already sworn, states:—*I gave evidence in this case, and now further state I went with Mr. Inspector Trollope when he visited the land on the second day; he then appeared satisfied with the improvements, and to the best of my belief they were then worth (£50) fifty pounds; while I had the selection, and until I made my declaration, the only work I did was on the selection; I did not work on my freehold in that time, but usually went to it on the Saturday and returned on the following Monday, and never stayed there a whole week, excepting on the occasion when I was ill, as stated yesterday; we put in some corn and potatoes and pumpkins, and had a crop; we cultivated thus three or four acres; we put in corn with a hoe, and had a little patch for vegetables dug with a spade—not a quarter of an acre.

John Daly, sworn, states:—I selected 50 acres of land, 27th November, 1873, now belonging to M'Kenzie and Currie; I had it until August, 1875, when I sold it to Edward Howell; during all that time I worked at my mother's place, about a mile from my selection, and mostly slept at her place, but I slept occasionally on my selection; I went to my selection about every three months and generally stayed there one night, but once I stayed there two nights, and then went back to my mother's and slept there; I did this all the time I held the selection; I put up a small hut on it and slept in that, and fell about 1 acre of timber; I was usually away from my selection without seeing it for two months at a time.

At his mother's mostly, but occasionally slept on selection.

No. 11.

Mr. J. Currie to The Secretary for Lands.

Sir,

Lismore, Richmond River, 6 June, 1878.

I beg to take the liberty of bringing under your notice the following case tried at the Lands Court of Inquiry held here last month, before Mr. Commissioner Bolding, a peculiar case as far as I am individually concerned, and one which I believe is an exceptional one:—J. Daly selects in 1873; some time after transfers his conditional purchase to E. Howell, after making the usual declaration as to residence; some time after Howell transfers to D. Currie and J. M'Kenzie, making a declaration as to residence; Currie and M'Kenzie, as the time for valuation was nearly up, worked hard to have the full value of improvements on the land. On this part I will not trouble the honorable Minister, as no doubt you will have the evidence before you—enough, that Currie and M'Kenzie proved as to residence and valuation, there being only some £10 between them and the Inspector, other outside parties proving valuation in excess of Currie and M'Kenzie. The latter, at the end of the three years, made the usual affidavit at Casino, as to all conditions being fulfilled, and selected an adjoining selection. Some time after Currie wanted to leave the district, and sold his interest to me. Before I purchased I inquired of your own officer at Casino if there was any objections lodged against the selection, and was I safe in purchasing; I was told none, and such a time elapsing that if any they were sure to be lodged; on the strength of that I bought Currie's interest. The result of all this transferring from one party to the other, and finally my purchase of Currie's interest, the honorable Minister will have before him in Mr. Commissioner Bolding's report. I leave my case in the hands of the honorable Minister, feeling satisfied that in such a case he will not see the innocent suffer for the guilty.

I am, &c.,

JOHN CURRIE.

Dear Currie,

Casino, 4 December, 1877.

In reply to your letter of the 1st instant, asking as to the way in which a selection held by two persons can be transferred, and if the selections of Currie and M'Kenzie are all right, I have to say that both holders must sign, and I send you form herewith. There is nothing recorded in the register here against Currie and M'Kenzie's selection, and as the declaration on the original was made 18th December, 1876, I think they are all right, as it is usual to notify me anything to the contrary, so that the alienee may be informed.

Yours faithfully,

District of Richmond River.*

Application by James Geraghty, for the conditional purchase, without competition, of 40 acres unimproved Crown lands, under section No. 13.

RECEIVED by me, with a deposit of £10, this 28th day of December, 1876, at 10 o'clock.

M. M. CAMPBELL,
Agent for the Sale of Crown Lands at Casino.

Sir,

Casino, 28 December, 1876.

I am desirous of purchasing, without competition, under the "Crown Lands Alienation Act of 1861," the portion of unimproved Crown lands hereunder described, containing 40 acres, and I herewith tender the sum of £10, being a deposit at the rate of 5s. per acre on the area for which I apply.

I am, &c.,

To the Agent for the Sale of Crown Lands at Casino.

JAMES GERAGHTY,
Lismore.

Description:—

County of Rous, parish of North Lismore, 40 acres, measured portion No. 72.

Minutes on No. 5.

In portion herein applied for is noted as C.P. 72-4,322.—J. W. GERAGHTY.

How does said C.P. stand?—23 January, 1877. C.P. 72-4,322, lapsed on 31 October, 1876.

No. 6.

Mr. Inspector Trollope to The Chief Commissioner.

[C.P. 76-266.]

REPORT by F. Trollope, Inspector of Conditional Purchases, respecting the selection of James Geraghty, made at Casino, on 28th December, 1876.

Sir,

Grafton, 29 August, 1877.

I have the honor to report that I visited and inspected the above described conditional purchase, on the 19th July, and that I found the selector then not resident upon his selection.

The land, which consists of brush, and comprises 40 acres, is occupied and used by—as—and the selector, who follows the avocation of timber-getter, had, at the time of my visit, made the improvements hereunder particularly described; the value of which I estimate at the sums respectively stated, viz. :—

House, 24 x 12	£40
Hut building	1
Scrub cleared about house	6
						£47

These improvements were erected before the 28th December, 1876.

From the appearance of the land, and the circumstance stated in the following remarks, I am of opinion that the selector has not been continuously resident upon the selection.

I entered the hut on this selection, and found it quite unoccupied; I afterwards saw James Geraghty, and he says that he does not occupy this.

There seems to be some confusion in the mind of Mr. J. Geraghty concerning this selection, portion 72 and portion 71.

They appear to have been originally taken by a son of his, J. W. Geraghty, and one of the portions properly improved (and I should say properly resided on), and the other one allowed to lapse and reselected in 1876. But James Geraghty, acting on behalf of his son, appears to have made the declaration on portion 71, on which his son did not live, and on which there are no improvements, and to have allowed 72 to lapse—on which, I dare say, his son did live, and on which there are the above stated improvements.

I believe this arises from some misconception on the part of James Geraghty, and from no desire to evade the Act.

I am, &c.,

FRED. TROLLOPE,
Inspector of Conditional Purchases.

Minutes

Minutes on No. 6.

The declaration in this case, according to Inspector's report, has, owing to a mistake of the selector, been made on the wrong C.P.,—that is, on one that had been forfeited adjoining the C.P. which he had resided on and improved. As the conditions appear to have been fulfilled on the latter, the selector, perhaps, should be requested to make another declaration applying to the right piece of land.—J.J.H., Nov. 6, /77.

Append the papers relating to the other selection.—A.O.M., 14/12/77. Send these papers also to the Commissioner, for his information, and to be dealt with in connection with those already in his hands.—A.O.M. B.C.—Commissioner Bolding.

[C.P. 72-3,964.]

Report by F. Trollope, Inspector of Conditional Purchases, respecting the selection of James William Geraghty, made at Casino, on 4th July, 1872.

Sir,

Grafton, 29 August, 1877.

I have the honor to report that I visited and inspected the above described conditional purchase on the 19th July, and that I found the selector then not resident upon his selection.

The land consists of brush, and comprises 40 acres, is occupied and used by —as— and the selector, who follows the avocation of—had, at the time of my visit, made the improvements hereunder particularly described; the value of which I estimate at the sums respectively stated, viz., nil.

From the appearance of the land, and the circumstances stated in the following remarks, I am of opinion that the selector has not been continuously resident upon the selection. James William Geraghty showed me this selection. He says that no kind of dwelling has ever been erected on it.

See my *report upon C.P. 76-266—I would point out that if this is the portion intended by James Geraghty to be included in his application of 28 December, 1876, he is not fulfilling the conditions of the Act with regard to residence. * See No. 6.

I have, &c.,

FRED. TROLLOPE,
Inspector of Conditional Purchases.

Minutes on above.

This is a strange case. James Geraghty, on behalf of his son, swears to continuous residence, and to making improvements of the value of £40; while James William Geraghty, the son, tells the Inspector that there has been neither, nor improvements.—(For the Commissioner) J.J.H., Nov. 16, /77.

Sir,

Conditional Sales Division, Department of Lands, Sydney, 20 February, 1878.

I am directed to invite your attention to the notice in the Government Gazette of the 15th instant, by which you will perceive that your claim to the conditional purchase made by you at Casino on the 4th July, 1872, has been referred by the Minister for Lands to Commissioner Bolding for inquiry, in accordance with the 25th clause of the "Lands Acts Amendment Act of 1875," and the Regulations relating thereto, as to the fulfilment by you of the conditions thereof. See No. 8.

Mr. Commissioner Bolding to The Chief Commissioner.

REPORT of an Inquiry held at Lismore on the 16th April, 1878, by H. J. Bolding, Commissioner for the Northern Coast Division, respecting the conditional purchases of James William Geraghty (minor), made at Casino, on the 4th and 18th July, 1872.

Sir,

Enclosed;
See No. 8

I have the honor to transmit herewith, for the consideration of the Honorable the Minister for Lands, minutes of evidence taken at an inquiry under the "Lands Acts Amendment Act of 1875," held by me in pursuance of the reference notified in the Gazette of the 15th February, 1878, in the matter of the above-described conditional purchase.

The claimant having been duly served with notice of the time and place of holding the inquiry, he and his father were present thereat. The following facts bearing upon the fulfilment by the selector of the conditions of purchase were elicited in evidence, viz. :—

Inspector Trollope, on 19th July last, found portion No. 71 of the tracing unimproved, said to be 40 acres selected 4th July, 1872, 13th section, but there were hut and clearing on portion 72 of tracing worth £47. The father (James Geraghty) of the selector (present at the hearing) said he considered No. 72 to be the land, 13th section, for which he made declaration in 1875. James Geraghty states that he claims No. 72 portion as selected for his son James William Geraghty under 13th section, and made declaration for it, intending No. 71 to lapse.

But the difficulty is now immaterial, for the father (James Geraghty) further stated that his son lived sometimes on the land and sometimes at his (the father's) house on land adjoining, and he will not say at which he slept most; yet he usually had his meals with his father. James Geraghty also states he applied subsequently for portion No. 71 under 13th section, but has not resided on it.

I have therefore to report that I find such conditions not to have been fulfilled, and to recommend these conditional purchases be forfeited, as also the further selection made by James Geraghty under the 13th section subsequently (apparently No. 71 of the tracing), on which he admits he has not resided (see Inspector Trollope's report, *passim*).

I have, &c.,

Commissioner.

Frederick Trollope, sworn, states :—I am Inspector of Conditional Purchases; on 19th July last, I inspected the conditional purchase of James William Geraghty, of 4th July, 1872, 40 acres, county of Rous, parish North Lismore; I found no person living there; the three years for residence had expired; I found no improvements on it, nor any signs of occupation or improvements having been on it previously; by the tracing I now see and which I went on to the ground with, I recognize the portion numbered 71 as the land referred to; I found the north-west corner marked H by the surveyor; I had some conversation with James Geraghty, the selector's father, and now present, and was told by him he considered the application under 13th section and on which the declaration was made was No. 72 as shown in the tracing; I inspected also No. 72 on the same day and found a hut and clearing on it worth £47, but no person living there; there was nothing in the hut, and no other improvements on the land excepting a shed for cooking included in the £47; I inspected No. 72 portion because I was directed to inspect a conditional purchase "No. 266, Casino," of 1876, and it proved to be the same No. 72; I did not consider the hut had been recently occupied by Jas. Geraghty.

Selector sometimes on his selection and sometimes at his father's. Will not say where he slept most.

James Geraghty, sworn, states :—I am father of the conditional purchaser, James William Geraghty, on whose behalf I claim the portion No. 72 on the tracing I now see, as the original selection made on the 4th July, 1872, under the 13th section; the selector is now present; I gave instructions to William Gibbons, as agent, to take up the land for my son, two selections, but the two as described in the applications signed by Gibbons, do not agree with my instructions to him; I intended the second to adjoin on the north my first one, and I intended the first to adjoin my land of 50 acres marked XVI, so that the portion marked 72 on the surveyor's tracing would correspond in part only with what I intended to take under 13th section; I wanted the land between my 50 acres and W. P. Geraghty's 50 acres to be divided into the two selections by a line east and west, the south half to be for the 13th section land and the north half to be under the 21st section, and when I made my declaration on the 20th September, 1875, under the 13th section, I believed this was for the selection on which I had put up the hut, and is shown as No. 72 on the surveyor's tracing not as intended to be applied for, and I allowed the other half to go without making declaration for it; subsequently I applied for the portion No. 71 as on the tracing for myself under the 13th section, but I have not resided thereupon; I consider the hut worth fully £47, and as such sufficient to justify my declaration for improvements on 20th September, 1875; my son went to live on the land immediately after selection, and William Gibbons lived with him—my son was then four or five years old; I was then living with my wife and family on my adjoining 50 acres, and my house is about $\frac{1}{4}$ mile from the hut on the selection; my son was never away from school; he lived on his selection sometimes and sometimes with me, but he usually got his meals at my house though sometimes with his uncle on his (my son's) own land; Gibbons, his uncle, lived on the land for two years and more after selecting, and then went to the Tweed; I will not say whether my son slept most at my house or on his land in the three years, but he had his meals mostly at my place; my son was four or five years old when the land was selected; he was ten years old last February.

Mr. Inspector Trollope to The Under Secretary for Lands.

REPORT by F. Trollope, Inspector of Conditional Purchases, respecting the selection of C. P. 73/9,206, F. West, now T. Armstrong, made at Casino on *11 September, 1873.

Sir,

I have the honor to report that I visited and inspected the above-described conditional purchase on the 9th of July, 1877, and that I found the selector then not resident upon his selection.

The land, which consists of trap rock ridge and black soil flat, and comprises 80 acres, is occupied and used by Armstrong Bros. as pasture, and the selector, who follows the avocation of grazier, had at the time of my visit made the improvements hereunder particularly described, the value of which I estimate at the sums respectively stated, viz:—

	£	s.	d.
2 huts, now moved or burnt—said by Armstrong to have been worth ...	15	0	0
14½ chains of fencing, at 5s. per rod ...	14	10	0
20 chains fencing stuff laid on ground, but not erected—say 50 acres timber cut and left upon ground, valued by Armstrong at £1 per acre, by me at 10s. ...	25	0	0
	£54	10	0

From the appearance of the land and the circumstances stated in the following remarks, I am of opinion that the selector has been continuously resident upon the selection. I can form no opinion as to how the residence here may have been carried out. The huts have either been moved or burnt, and a few charred posts are the only remnants left.

Armstrong says that he carried out his portion of the residence in a proper manner, and I have no information that he did not do so.

I may point out that the cutting down of trees, and having them lying upon the ground without gathering together the fallen timber, is a very questionable improvement to open forest country.

I have, &c.,

FRED. TROLLOPE,

Inspector of Conditional Purchases.

The Chief Commissioner to Mr. T. Armstrong.

Sir,

Conditional Sales Division, Department of Lands, Sydney, 20 February, 1878.

I am directed to invite your attention to the notice in the Government Gazette of the 15th instant, by which you will perceive that your claim to the conditional purchase made by Frederick West at Casino, on the 4th September, 1873, has been referred by the Minister for Lands to Commissioner Bolding for inquiry, in accordance with the 25th clause of the "Lands Acts Amendment Act of 1875," and the Regulations relating thereto, as to the fulfilment by you of the conditions thereof. See No. 6.

I have, &c.,

WM. BLACKMAN,

(For the Chief Commissioner of Conditional Sales.)

No. 8.

Mr. Commissioner Bolding to The Chief Commissioner.

REPORT of an inquiry held at Lismore on the 16th April, 1878, by H. J. Bolding, Commissioner for the Northern Coast Division, respecting the conditional purchase of Frederick West, made at Casino on the 4th September, 1873, alienated to Thomas Armstrong.

Sir,

I have the honor to transmit herewith, for the consideration of the Hon. the Minister Lands, minutes of evidence taken at an inquiry under the "Lands Acts Amendment Act of 1875" held by me in pursuance of the reference notified in the Gazette of the 15th February, 1878, in the matter of the above-described conditional purchase. Enclosed. See No. 6.

The claimant, having been duly served with notice of the time and place of holding the inquiry, was present thereat.

The following facts, bearing upon the fulfilment by the selector of the conditions of the purchase, were elicited in evidence, viz.:—Inspector Trollope valued improvements as worth £54 10s., besides rails, &c., for fencing worth £20 if erected.

The owner now values them as worth £101, including further improvements, £20 10s., and greater cost of falling timber, £25 (20s. instead of 10s.) F. West, the selector, states that his offer of 30s. was refused.

They may be considered sufficient for this selection of 80 acres. The selector sold this land to Thomas Armstrong, the present owner, in December, 1875, and states that it was his *bonâ fide* continuous residence until that date; but, being by trade a shipwright, and working as such at Gundurimba, 10 miles distant, he was necessarily frequently away from his selection, but usually went to it on Saturdays, and sometimes worked there on Mondays, returning subsequently to his weekly work at Gundurimba. But his wife and family lived on his township allotment there, and he lived with them while at his work as shipwright; but on three occasions they visited him on his selection, staying a few days each time; but he slept more at his selection than at Gundurimba, and had mostly a man working there and living there in his absence.

The present owner appears to have complied with the provisions of the Act, since his purchase in December, 1875; and, after making declaration in November, 1876, he selected 300 acres adjoining, on which he has subsequently lived, intending to make the whole 380 acres his permanent home.

The original selector has not very satisfactorily proved continuous residence while responsible for it, although great latitude may be conceded to a labouring man supporting his family by daily work, and as such necessarily much away from his land, unless altogether disqualified from selecting. In this instance some indulgence may, I submit, be allowed to the present owner, who appears to be an industrious deserving settler whose loss by forfeiture of these two selections would be very serious if not actually ruinous to him. I have therefore to report that I find such conditions may be taken as fulfilled, and to recommend that this conditional purchase be confirmed, thereby permitting him to retain the additional selection which has been his home since 1876.

I have, &c.,

H. J. BOLDING,

Commissioner.

Minutes on No. 8.

Although the *bonâ fide* nature of the original selectors' residence is more than doubtful, I agree with the Commissioner that as the transferee has complied with the conditions of residence and improvements, in the latter I take the mean of the estimate made by the inspector and claimant respectively; taking into consideration the length of time that has elapsed since the selection was taken up, the probable failure of the original selector should not be allowed to neutralize the subsequent compliance with the conditions by the transferee.—W.J. I concur.—A.O.M., 10/7/78.

fencing stuff.

Frederick Trollope, sworn, states: I am Inspector of Conditional Purchases for this district; on 9th July last I inspected the conditional purchase of Frederick West, of 4th September, 1873, 80 acres, county Rous, parish Bungabee, now transferred to Thos. Armstrong; there was no person living there; the three years of residence had then expired; I found improvements on it—the remains of two huts which had been destroyed by fire—a few charred posts only were left standing; I estimated the original cost of both at £15; 14½ chains fencing, at 5s. per rod, £14 10s.; 20 chains split rail fencing stuff lying on the ground not erected, which I did not value; if erected it would be worth 5s. per rod; 50 acres of timber had been cut, which was lying on the ground, which I valued at 10s. per acre; but while the timber laid on the ground it was no real improvement; I estimated the quantity of falling by the tracing I now see, and it did not exceed 50 acres; a fire appeared to have been on the land about the ruins of the huts, and I have no other evidence of residence excepting from Thomas Armstrong himself, who said he had properly fulfilled the conditions of residence so far as he was concerned.

The total value of the improvements on the 80 acres I estimated at £54 10s., not including the 20 chains of fencing-stuff.

By Thomas Armstrong: The falling was on an apple-tree flat, but there was other timber on it, and it partly went over a ridge not all apple-tree; there was some bush scrub fallen, but I have taken that in my valuation; some of the trees on the 50 acres were left standing; I did not see any broken-up ground; you accompanied me in my inspection.

Thomas Armstrong, sworn, states: I am owner of the selection (formerly Frederick West's), of whom I bought it on 30th December, 1875; he was then living on it with part of his family; I knew him all the time he had the selection.

I lived on the land from the purchase until I made my declaration in November, 1876; that West and I had been living on the land as required by law, and that the improvements were then worth £80; I valued the two huts as worth £15, 16 chains of split fencing then up, £16, 49½ acres fallen timber, at 20s., £49 10s., some clearing by the house, £2, ½ acre broken-up for garden, about 500 yards from the huts, £3, being a total of £85 10s. for the 80 acres.

By the Inspector: F. West's son was living with him, and two men also, when I bought the selection; I think some of the fencing at the creek crossing had been removed before you came; I did good part of the falling, and my brother helped me; I have fallen timber for the last thirteen years, and have had experience; sometimes one of us and sometimes both of us, off and on, were about eight or nine months at it, and I do not think 20s. per acre excessive.

By the Commissioner: Since the inspector's visit I have been improving the land; the further 30 acres have been ring-barked; I consider this worth 5s. per acre; I have also erected a yard worth about £8; I now live on adjoining land; I have not cultivated the half acre broken-up; the huts were standing at the time of the declaration; I purpose making the selection I now live on my permanent home, jointly with the 80 acres now inquired into; my further selection of 300 acres was made after the declaration for this 80 acres, of 2nd November, 1876; I have split and used for fencing some of the timber fallen on the 49½ acres, but the rest remains as fallen.

Frederick West sworn, states: I live at Gundurimba, and was the owner of 80 acres selected by me, 4th September, 1873, which I sold to Thomas Armstrong, as notice of alienation, 30th December, 1875; I went to live on the land two days after selecting, and was living there as my *bona fide* residence continuously until I sold it to Thomas Armstrong; my wife and family did not always live with me, they came to me sometimes; but they lived about 11 miles distant; they lived on my own land, which was freehold; I sometimes went to see them, and stayed with them three or four days, and then returned to my selection; I went to them once a week sometimes, but not always; I am and then was a shipwright, at Gundurimba, about 10 miles from my selection, and I went to my selection as my home usually every Saturday afternoon; when I went there on Saturday I usually stayed until Monday, and sometimes worked on the selection on the Monday, and then went to my work at Gundurimba; while I held the selection my wife and family visited me on it three times—twice they remained about four days, and once nine days; when working at Gundurimba I slept there on my freehold where my wife and family live; I think I more frequently slept on my selection than on my freehold.

My freehold is two township lots at Gundurimba, not more than 4 acres in all; I swear that I slept more nights on the selection than at Gundurimba, notwithstanding my sleeping so frequently with my family at Gundurimba; I consider I fulfilled the requirements of the Act, and that my selection was my *bona fide* residence continuously; I was mostly employing a man working and falling timber on the selection, and he lived there when I was away at my business at Gundurimba.

I offered Patrick Mace 30s. an acre to fall all the timber on the farm, and he would not do it; it was falling only, not including burning and clearing.

By Inspector: I fell some of the timber on the ridge, and made a garden, and built a house, and lived there, and prepared stuff for another house. I offered 30s. per acre for all the 80 acres of the selection.

No. 1.

Memorandum of The Chief Commissioner of Conditional Sales.

Inquiries before Commissioners.

THE various measures for bringing into operation some of the provisions of the "Lands Acts Amendment Act of 1875" having necessarily been hurried to completion, and their urgency not having admitted of an official record being made of the considerations which led to some of the arrangements, or of the objects which they are designed ultimately to subserve,—it may be convenient now to advert to one or two matters that still seem to require definite instructions, or as to which it is undesirable that room should be left for future misunderstanding.

The Commissioners appointed under the 25th clause of the Act have now been instructed with reference to those cases "of dispute or question" which were pending in the department; and, from the number of such cases that have been referred, it is probable that the inquiries will extend into the first quarter of 1876, and later in some instances. Beyond this, it is not probable that the cases of dispute or question—(understanding thereby those in which the Government is in possession of evidence of default on the part of conditional purchasers, sufficient *prima facie* to call for formal inquiry before a Court)—will be so numerous as to employ fully the existing machinery of the Courts, more especially as a large portion of the time of the Inspectors, upon whose activity the department must depend for information of attempted evasions of the law, will be occupied in attendance at the Commissioners' inquiries.

But the Act seems to me obviously to have contemplated a very much more comprehensive field of duty for the Commissioners than that of inquiring into allegations or complaints of default. Such cases must, under the clause quoted, and clause 17, be referred for inquiry; but the Government is also thereby empowered to refer the claims to grants of conditional purchases "*in every case*"; while the provision of the Act of 1861 which required the conditions of residence and improvement to be certified to by the Land Agent of the district or other proper officer, is included in the schedule to the repealing clause.

Unless, therefore, it can be supposed, that while providing machinery for the investigation and verification of the conditions, the Legislature contemplated that such verification, as a system, or in ordinary cases, should be discontinued, the conclusion seems inevitable that the new mode of verification must have been intended to replace the former.

The divisions of the Colony made for the purpose of these inquiries are based not merely upon the number of cases which happen at the present time to be pending owing to complaints or reports of default, but upon the numbers of conditional purchases made during the past four years, as representing the probable aggregate of present unsettled claims. On this basis each Commissioner has had allotted to him as nearly an equivalent sphere of duty as the nature of the country and facilities of communication have admitted.

So far, therefore, the arrangements that have been made are in harmony with the course now proposed.

The duty imposed upon myself, while limited as to inquiries to the metropolitan districts, embraces the preliminary examination of cases and the official arrangements connected with all such inquiries throughout the Colony; but should it be found that such a position would be inconsistent with more extended duties, I should of course be prepared for any modification that may seem advisable of that which as it concerns myself is understood to be a temporary measure.

Having during my connection with this department lost no opportunity of urging the propriety of systematic *local* supervision and verification of the conditions of selections; and the law being now in accord (except as to the construction of the Courts) with the principle of the draft clauses which I had the honor of submitting having that object in view, I trust to be excused in now representing that it will be a measure only just to those selectors who are carrying out their conditions in good faith to require proof of like compliance with the law from all. It will be a hardship only upon those who are endeavouring to evade the law, and who have hitherto but too often been enabled to do so with comparative impunity; and it can hardly be disputed that an open, formal, and searching scrutiny by a public tribunal would be the most appropriate mode of determining for the Minister's guidance the fulfilment or non-fulfilment by claimants of the conditions of their purchases of public lands.

Where no objection is lodged or doubt raised, the process of passing the claims before a Commissioner's Court would be nearly a formal one, not necessarily attended with more delay than the present system, under which the declarations accumulate in great numbers in this office, and are under great difficulties and disadvantages subjected to a scrutiny that after all affords but little security against fraud and abuse.

On the other hand, the mere adoption of the system recommended would tend to discourage such abuses, by rendering almost certain their ultimate detection, when the facts have to be deposed to openly and possibly in the presence of others as familiar with them as the deponents—in place of in the comparative secrecy of a declaration for the perusal of officials.

I would therefore respectfully recommend, that in future all declarations of conditional purchasers should, before being countersigned by the Minister, and before interest or balance of purchase money are carried to account at the Treasury, be referred to Commissioners for inquiry, pursuant to the "Lands Acts Amendment Act, 1875."—A.O.M., 6 Decr., 1875.

Submitted for the consideration of the Minister for Lands.—W.W.S., 15 Decr.

I do not think it would be advisable to have every case submitted to the Commissioner before final approval. But it should be the duty of the C.P. Inspectors to examine every C.P. immediately on receipt of declarations, which should be forwarded to Inspectors as speedily thereafter as practicable, and to report upon the value of the improvements made up to that time; and if the report should be to the effect that the improvements were not up to the legal amount, then the C.P. should be placed before the Commissioner.—T.G., 20/12/75.

No. 2.

Memorandum of The Chief Commissioner of Conditional Sales.

Conditional Sales: Verification of conditions.

In the enclosed paper, submitted to Mr. Garrett shortly after the passing of the Lands Acts Amendment Act of 1875, I urged the advisability of taking advantage of the Courts of Inquiry established under its provisions for the verification in all cases in open Court of the completion of the conditions of conditional purchases on the receipt of the final declarations of residence and improvement. It will be seen that Mr. Garrett did not see fit to adopt this suggestion, but directed that all such declarations should be remitted for report to the Inspectors,—which course has accordingly been taken; and by Mr. Garrett's desire all the declarations received during the year 1875 were included in the arrangement.

The experience of the working of this measure up to the present time has gone far to demonstrate that the expectation must be abandoned of having the conditions verified by the present staff of Inspectors (or even by a largely augmented staff) within anything like a reasonable time of the expiration of the three years from date of purchase. In addition to other cases referred to them for report, there have been remitted to the Inspectors for verification in all about 8,074 final declarations of the years 1875 and 1876, and the number reported upon up to the present is 726 only. The balance represents cases in which the selectors claim to have fulfilled all the conditions of their selections but the fact has not yet been verified to the satisfaction of the Minister for Lands. It is needless to point out to what an extent this state of things is likely to embarrass the parties in their transactions, and on the other hand how small a proportion of possible abuses are likely to meet with detection.

In addition to the verification of the conditions when finally declared to, the system of inspection was designed to ensure the prevention and detection of cases of abuse of the law during the currency of the term of three years; and with this view the cases referred to the Inspectors (including those mentioned in the last paragraph) up to a recent date amounted to 13,545, of which 3,440 cases have been reported on, leaving still in their hands 10,105. In the great bulk of these cases the attention of the department had been officially drawn by reports of surveyors or otherwise to the alleged non-compliance of the selectors with the conditions of the law.

I am sensible that (with some worthy exceptions) the existing staff may not possibly be all fully up to the requirements of the situation. The novelty of the duty and some difficulties inseparable from its performance would alone account for this. It is possible that with a fuller experience and more systematic and energetic directions, a much larger amount of duty may be accomplished; but I feel bound to state, that after making every allowance, especially considering the large increase in the number of conditional selectors during the last two years, it is apparent to me that the present arrangements must fall far short of the requirements.

In the consideration of an alternative, two courses alone appear to be open, viz.:—1st, to increase largely the number of Inspectors; or, 2nd, to reconsider my proposition that the cases should be passed through the machinery of the Courts. (I assume that even had the law not been altered so as to affirm the necessity of verification of these contracts, few reasonable persons would now be found to recommend a return to the former system of practically dispensing with verification—under which so many abuses were found to exist.)

It is plain to my mind that the latter of the above-mentioned courses would be in every way preferable to an increase in the staff. The views already submitted I am confirmed in by further experience, except that I must admit that the extent of business performed by the Courts in dealing with cases of default has been far beyond my expectation—the result probably of the institution of a system of examination which has disclosed the widely-spread operation of what is known as the “dummy” system. I am still however satisfied, that by the action of these Courts of Inquiry, all claims that are not open to question can be passed without delay or difficulty or dissatisfaction to the claimants, while the Inspectors will be enabled more effectually to trace out and deal with cases of abuse or non-compliance with the conditions of the law.

A.O.M., 22/5/77.

Commissioners and Inspectors.

ENCLOSED are Schedules showing,—

1. The names and districts of the various Commissioners.
2. The number of cases referred to them and inquired into during the past year.
3. Circular of instructions showing their duties.
- 4, 5, and 6. The like returns as to Inspectors.

The time of the several Commissioners is not fully occupied under present arrangements. But if the work of the Inspectors could be got up within a reasonable time, there would be ample work for the Commissioners Courts for a long time to come; and if the Commissioners were employed, as the late Act seems to have contemplated and I have recommended, in passing completed selections, their positions would be permanently useful, and a great saving of time and convenience would be effected for selectors who have complied with the law but are now exposed to delays in obtaining recognition of such compliance.

There is now an immense arrear of cases of declarations referred to and awaiting reports from the Inspectors. They cannot possibly overtake this arrear even were the number of Inspectors largely increased. But it takes up all their time and prevents their bringing to light for reference to the Commissioners and inquiry the numerous cases of evasion of the law which are known to exist.

The staff can hardly yet be said to be fully organized—pending the passing of the arrangements as shown in the Estimates; but all the Inspectors are actively employed, and, as far as it has been practicable heretofore to supervise them, fully.

It is not, in my humble opinion, advisable to make any reduction of the staff either of Commissioners or Inspectors, except as a feature of a reorganization of the department. Whenever the whole department, including the Occupation Branch, shall be consolidated and properly organized, there will be room for reductions in the staff; but pending such a measure a reduction would be but an invitation for return of the system of abuse which recent legislation and departmental action have aimed at repressing.

A.O.M., 5/6/77.

N.B.—I would respectfully refer to the memoranda already submitted as to employment of Commissioners and Inspectors.

No. 4.

Memorandum of Mr. Blackman.

WITH reference to the personal directions of the Secretary for Lands a short time ago, that prompt and comprehensive arrangements would have to be made in order that the reports due on all outstanding conditional purchases in the hands of Inspectors should be obtained within the shortest time—as temporary Inspectors would have to be appointed where the permanent staff was obviously insufficient—and the occasional services (where nothing else was obtainable) of the most competent Forest Rangers might be utilized, when groups of selections had to be inspected not too far from their head quarters and out of the line of the regular staff,—I now beg to draw attention to the state of Inspector Street's District (the Central South Western Division, consisting of Burrowa, Gundagai, Tumut, Young, Wagga Wagga, Narrandera, Cootamundry), and that he has now in hand 3,734 cases to report on; so that, after allowing for the help which Mr. Rawlinson (who has very recently been sent to him) can give, he must have at the very least six years' work ahead of him, even though he should not be sent another case, although this cannot happen as we are sending them on to him as fast as we can get them ready.

I also beg to call attention to Mr. MacPhillamy's (lately Mr. Smith's) district, consisting of part of the Central South Western, and a part of the South Western Divisions, and comprising Albury, Corowa, and Urana. This Inspector, who has only just left for Albury, will have 1,500 cases to commence with, that is about three years work for a first-class man, even if no others are sent, which of course cannot happen as we are sending them every week.

I now propose that four more temporary Inspectors should be sent into Mr. Street's District. One can take up the county of Monteagle and 340 cases; a second the county of Harden and 868 cases; a third the county of Clarendon and 415; and a fourth the county of Wynyard and 431 cases.

I have lately had a telegram from Inspector Street, to the effect that he has not as yet been able to touch any of the above-mentioned cases.

I further propose that another Inspector should be sent to help Mr. MacPhillamy. This would leave each a good stock to begin with—at least 700 each; and it is necessary that an Inspector should have a large number to make a profitable tour.

It is perfectly clear that whatever course is taken, the expense will be all the same; but an enormous saving of time might be (and ought to be) effected. It is the only way by which the great public inconvenience referred to by the Minister for Lands can be obviated; and I may add, that there are at least several thousand transfers in abeyance in this department, and that they cannot be acted on unless the purchases they refer to are first reported on.

I shall defer reference to any other districts until the return of the Chief Commissioner, Mr. Moriarty, who has had the whole of this matter under his consideration.

W. BLACKMAN,
24 September, 1877.

The Secretary for Lands.

Minutes on the foregoing.

In view of the facts stated in this minute, and also of the absolute necessity of making an immediate effort to overcome the arrears and deal with the current work of the inspection of conditional purchases, I approve of the appointment of five temporary C.P. Inspectors to effect above purposes in the districts named, to be remunerated at the rate of 10s. 6d. per case dealt with, but to have a travelling allowance of 25s. per day. Having regard, however, to the circumstances at present surrounding my position as the political head of this department, I refrain for the present from nominating the persons who should perform the duty; but were I in the position to do so without question on constitutional grounds, I would have no hesitation in placing the duty and work in the hands of Messrs. Spring, Noake, O'Hara, R. J. Mackenzie, and T. B. Carne.—T.G., 24/9/77.

Messrs. Spring, Noake, Mackenzie, and O'Hara have accepted the appointments on the terms stated. The necessary letters of instruction should be issued at once.—W.W.S., 8 October.

Approved.—T.G.

No. 5.

Memorandum of The Chief Commissioner of Conditional Sales.

Soon after the passing of the Lands Acts Amendment Act of 1875, I invited the attention of Mr. Garrett, then Minister for Lands, to the procedure in passing as correct the final declarations of selectors who had resided for three years upon their selections and improved them as required by law. The words of the original Act requiring a certificate from the Land Agent in every case had been repealed, and the provision which seemed to me to have been obviously designed to replace them is to be found in the 25th clause of the Amending Act, as follows:—

"The Governor in Council may appoint a Commissioner to whom shall in case of dispute or question and may in every case be referred by the Minister the claim of any conditional purchaser or his alienee to a grant under the provisions of the 18th section, &c., as also every information or complaint, &c."

Mr. Garrett did not see fit to concur in my recommendation (which was to refer every case accordingly), but directed every declaration to be referred to an Inspector for verification. The action of the Courts of Inquiry (which seemed to me to have been designed by Parliament as Courts of Claims) has consequently

consequently been limited to the cases of dispute or question and the informations or complaints. It is a natural result that their action should have been unpopular. On the other hand, a mass of duty has been thrown upon the inspecting staff which (although the number of Inspectors has been from time to time increased) they are wholly unable to overtake, and which is consequently going increasingly into arrear. I see no prospect of its being redeemed, and one of the worst results is that the hands of these officers are so full that they have little time for pursuing cases of evasion of the law with adequate energy or success.

I took an opportunity of bringing the question again under notice early in the present year, but a change of Administration prevented its receiving attention; further than that, shortly before his recent retirement, Mr. Garrett perceived the emergency to be so grave that he appointed temporarily eight additional Inspectors, although no parliamentary vote was directly available for their remuneration; and I do not hesitate to state that this measure, even if it had been fully carried out, would have been still wholly inadequate to meet the case, as may be seen from the enclosed memo. submitted to Mr. Garrett by Mr. Blackman during my recent absence on the Yanko, and from the accompanying returns of cases referred to the Inspectors, which will be largely supplemented by great numbers of cases now in course of reference, amounting to some 6,000 declarations more.

It is my deliberate belief, that if the Commissioners' Courts were used as I propose, in passing the claims in open Court, the intentions of the Legislature as expressed in the Act would be more directly followed out, and the rights of parties and of the public more effectually and expeditiously dealt with and protected, than is under present arrangements at all to be even hoped for. I believe also the measure would be found acceptable to the great body of claimants.

A.O.M., 26/11/77.

Let the recommendation herein contained be carried out.—J.S.F., 16/9/78.

[Circular.]

From

to

Sir,

Department of Lands, Conditional Sales Division, Sydney,

1879.

I have the honor to enclose the original documents relating to the claims referred to you for inquiry, pursuant to the Lands Acts Amendment Act of 1875, by notice in the *Gazette* of the 19th March last.

As the present reference contemplates a very much more extended utilization of the machinery provided for the investigation of claims than has heretofore been customary, it may be well to invite your attention to the altered position of claimants before the Court under the new arrangement, and to the modified course of action which it will be proper for yourself to pursue in dealing with their claims.

The operation of the Courts of Inquiry has, as you are aware, heretofore been in the main confined to the prosecution of inquiries into complaints of default in the fulfilment of conditions or other evasions of the law—the initiative having been with this department, and the object of the inquiry the forfeiture of the selection should the investigation substantiate the facts appearing to call for such a measure.

It is now proposed to give claimants an opportunity of appearing before the Courts, and substantiating by such evidence as may be thought sufficient the fulfilment by themselves or their predecessors of the respective conditions of purchase.

This will transfer the initiative to the claimants; and an important result of this change will be in the action to be taken on default of appearance, at any rate at the first Courts at which the claimants may have notice to appear, and which is not to be regarded, as would be proper in the case of a notice to attend an inquiry into an information of default, as an abandonment of the claim.

It is thought also that the same formality need not on the first appointment for inquiry into a claim be observed as to the service of notice, and that notice forwarded by post by registered letter will in the majority of cases prove sufficient to ensure the attendance of the claimants.

If it should appear that the prosecution of the claim by the claimant is deferred so long as to suggest a doubt of its *bona fides*, it may be proper to give more formal notice and proceed if necessary in the claimant's absence. The case would then fall into the category of those which have heretofore been more commonly dealt with.

On the appearance of the claimant and his witnesses, if any, you will proceed as usual to take such evidence as may be brought before you, and if satisfied thereby, or in the absence of any ground for questioning the claim, report your conclusions therefrom. You will have the assistance of the Inspector, and it will be his duty to bring before you any facts adverse to the claim which may come within his knowledge or observation. He should also have the opportunity of examining the claimants' witnesses, and of course it is expected that you will not recommend for approval any claim which is not supported by credible and sufficient evidence.

Should the evidence tendered in any case be insufficient, or of a character to raise doubt of the validity or *bona fides* of the claim, it will be open to you to postpone the inquiry, and to require the Inspector to examine the case prior to its resumption, or even, should it plainly appear that the conditions have not been fulfilled, to recommend the forfeiture of the selections.

It is thought that the existing arrangements for holding Courts in the most convenient localities in each Commissioner's division will be sufficient; but I am to point out that the present measure contemplates affording every possible facility to claimants and the reduction to a minimum of the expense, and that if the places already appointed for Courts are not sufficiently numerous or convenient other places should be recommended for notification under the Minister's approval.

I need not point out to you the importance of the measure thus placed in your hands, or how greatly the results must depend upon the discretion, acumen, and patience which the Commissioners bring to bear upon it.

The Minister confidently relies upon your sparing no effort to ensure its success, which is believed to be of great moment to the interests of large sections of the community.

I have, &c.,

With reference to my separate notice of this date, I am desired by the Minister to explain to you that this reference is made, not in consequence of any complaint or allegation of default in the fulfilment of conditions, but to afford you this opportunity without further unnecessary delay of establishing to his satisfaction, as required by the Crown Lands Alienation Act of 1861, that the conditions of selection have been duly fulfilled.

I have, &c.,

CROWN LANDS.

No. 1.

General Manager, Australian Joint Stock Bank, to The Under Secretary for Lands.

Sir,

The Australian Joint Stock Bank, Sydney, 20 November, 1877.

Enclosed.

I have the honor to enclose herein a copy of a receipt of the Land Agent, at Wagga Wagga, in name of James Joseph Flood, for £40 2s. 6d., amount of deposit on 160 acres 2 roods land, lot E, situated Berrembed, county Bourke, purchased by him at auction on the 12th July, 1876. For some reasons as yet unexplained to us, the balance of the purchase money was not paid within three months from date of sale, but this was discovered in December last, and our Wagga Wagga Branch Manager, on the 12th December, 1876, acting under Mr. Flood's instructions, sent to Mr. Harry Freeman, land agent, Sydney, a draft for one hundred and twenty-one pounds seven shillings and sixpence (£121 7s. 6d.), the amount of balance of the purchase money.

Mr. Flood has it appears since been under the impression that his purchase was completed, and we now learn upon inquiry at the Lands Office, that the land is forfeited and that the amount sent Mr. Freeman has not been paid in. Mr. Flood having greatly improved the land is very anxious to complete his purchase, and I now therefore on his behalf ask, that under the special circumstances of the case, he may now be permitted to pay the balance of the purchase money into the Treasury, in order that the deed of the land may issue to him.

Mr. Freeman not having been at his office for several days past, we are unable to obtain from him any information in regard to his proceedings in the matter.

I have, &c.,

VINCENT W. GIBLIN.

Minutes on No. 1.

The sale of the land referred to has been long since forfeited and the final report gone on to Deeds Branch. It is submitted whether the balance of purchase should be received, or whether applicant should be informed that he can take up the lot as an after-auction selection.—P.F.R.

Mr. Flood having decided to take the land in question up as an after-auction selection, this paper may be put away.—P.F.R.

[Enclosure to No. 1.]

No. 40,540. Deed Fee. Police District of Wagga Wagga, 12 July, 1876.
RECEIVED from James Joseph Flood, of Wagga Wagga, the sum of forty pounds two shillings and sixpence, being the deposit money for 160 acres 2 roods of land situated at Berrembed, in the county of Bourke, which were offered for sale on the twelfth day of July, 1876, as lot E, and sold to him.

Application by Alexander Couper to Select Crown Lands.

Received this 5th day of December, 1877, at 4 o'clock, by me,

F. KORFF,

Acting Agent for the Sale of Crown Lands.

Sir,

3 December, 1877.

I hereby tender the sum of one hundred and twenty-one pounds seven shillings and sixpence, as the price by selection (and deed fee) of the Crown lands hereunder described:—Place of sale, Wagga Wagga; date on which last advertised, 27 May, 1876; date on which last offered for sale, 12 July, 1876; lot at last sale, E; county, Bourke; parish or place, Berrembed; extent of the lot, 160 acres 2 roods; price of the lot £160 10s., less forfeiture; fee on the deed, £1.

I am, &c.,

ALEXANDER COUPER,

The Agent for the Sale of Crown Lands at Wagga Wagga.

Sydney.

Police District of Wagga Wagga, 5 December, 1877.

RECEIVED by me, this day, from the abovenamed Alexander Couper, the sum of £121 7s. 6d., being the price by selection (and deed fee) of the Crown lands above described.

F. KORFF,

Acting Agent for the Sale of Crown Lands at Wagga Wagga.

No. 3.

General Manager, Australian Joint Stock Bank, to The Under Secretary for Lands.

Sir,

The Australian Joint Stock Bank, Sydney, 20 December, 1877.

See No. 1.

Referring to my letter of the 20th November last, on the subject of Mr. J. J. Flood's purchase, on the 12th July, 1876, of lot E, 160 acres 2 roods, land situated at Berrembed, county Bourke, which had become forfeited through non payment of balance of the purchase money, I have now the honor to state, that acting upon a suggestion from yourself that it would be best to take up the land under the 25th clause as a selection after auction, instead of endeavouring to obtain the sanction of the Minister for Lands to the receipt of the balance of the purchase money, I instructed the Wagga Wagga Branch Manager accordingly, and am now advised by him that, on putting in an application for the land, he was informed it had been taken up by a publican named Alexander Couper, of "Albert Lodge Hotel," Yurong-street, Woolloomooloo (on the 5th instant, at 4 o'clock.) Without at all entering upon the manner in which Mr. Couper obtained his information regarding the land being open for selection, the natural inference concerning which

which is that he gained it from a source not accessible to the general public, I would point out that Mr. Flood's actions show he had every desire to complete his purchase, and that had it not been for the malpractice of his agent in Sydney the matter would not now be open. He has improved the land, I am informed, by a good tank, one six-wire fence at one end, and a two-rail fence with three wires at the other.

I trust that upon looking into the case you will see such special circumstances in connection with it as will enable you to authorize the receipt now of the balance of the purchase money from Flood and the cancellation of Couper's selection. Inquiries from the Bank at the Lands Office were commenced as early as the 15th of November, and you will see that it was not until about three weeks after, and while we were still prosecuting them, that Mr. Couper obtained his information and selected the land. The case is one of peculiar hardship to Mr. Flood, and, though the circumstances mentioned do not in any way connect themselves with your Department, it is hoped they will have such weight as will permit of your granting the request made herein.

I am, &c.,

VINCENT W. GIBLIN.

Minutes on No. 3.

The facts of the case are as stated herein. It is now submitted whether the Government have the power to cancel Couper's auction selection.—W.C.E., 20/12/77.

I am afraid that the Government will not be able to help Mr. Flood in this matter, either as regards the supposed misappropriation of the money by Freeman, or the auction selection made of the land by Couper. Freeman is not an agent of the Government, but a private land agent; and whether or not he connived with Couper, the selection of the lot by the latter at the upset price (minus Flood's forfeited deposit) was in itself perfectly legal.—W.W.S., 3/1/78.

I have the honor to make application for the early issue of deed of grant of auction selection of the lot noted in the margin, selected by Mr. Alexander Couper at Wagga Wagga as a forfeited auction purchase.

No. 5.

Minute of The Secretary for Lands.

In this case it appears that Mr. Flood purchased at auction, on the 12th July, 1876, 160 acres 2 roods, and paid a deposit of £40 2s. 6d., that the balance of purchase money was not paid within three months, as provided in section 26, "Crown Lands Alienation Act of 1861," but that the balance aforesaid was entrusted to an agent, who did not tender it, but retained it to his own use. Now, in dealing with this case, I cannot take into consideration the defalcation of Mr. Flood's agent, as that is a matter between them. Section 26 provides, *inter alia*, "that unless the remainder of the purchase money be paid within three months thereafter, the sale and contract shall be void, and the deposit shall be forfeited." Doubtless the Government has a discretion that may be exercised according to circumstances of each particular case. In my opinion, the circumstances in this case are such that the sale and contract should be declared void, and the deposit declared forfeited. Hitherto the department has dealt with these kind of cases on the supposition that the section of the Act, *ipso facto*, voided the sale and contract, and forfeited the deposit, but such is not the case. The section does not, *ipso facto*, void the sale and contract, and forfeit the deposit—there must be some action taken by the Government before there can be a voidance and forfeiture. The Supreme Court has decided on several occasions, and more recently, that some action must be taken by the Crown before a forfeiture is complete. Where there was no declaration of forfeiture, the right the party originally had remained intact until the Crown interposes. In this case there has been no declaration of forfeiture or voidance; therefore whatever right Mr. Flood originally had remains intact until the Government interposes. The Court held "that if the Government, as the landlord of the Crown lands, does not declare a forfeiture, the land is not forfeited or the deposit is not forfeited. There must be an express declaration by the Government, that until the Government declares its will, the forfeiture does not arise; and that until the Government declares a forfeiture, there is no forfeiture." Now, what ought to be done in these cases? In my opinion, the legal mode of dealing with them is, that the sale and contract and the forfeiture of the deposit should be declared by the Executive Council.

When I consider the ambiguity of the 25th section, when it appears to provide that the Crown shall only get the upset price of the land, and shall not avail itself of the forfeiture for non-payment of the balance of the purchase money, I think it right in the public interests, in this and all similar cases, to exercise my power, under the last proviso of the 25th section, by withdrawing any such lands from auction selection simultaneously with the confirmation of the voiding of the sale and contract and the forfeiture of the deposit, and again submit them to auction.

I have now to consider the after auction selection of the land by Alexander Couper, made on the 3rd December, 1877. The question is: Could Couper legally select this land on the 3rd December, 1877? In my opinion he could not, because the sale to Flood had not, prior to the 3rd December, been legally declared void, and the deposit declared forfeited, and it was therefore not open to selection.

It appears that Couper usurps the functions of the Government by assuming that the sale and contract is void, without the Government having an opportunity of exercising any discretion. I am of opinion, therefore, that Couper's selection is void, and that the purchase money (15s. per acre) should be refunded to him. In this case, and all similar cases, a minute should be prepared for the Executive Council, declaring the sale and contract void, and the deposit forfeited; and simultaneously with the confirmation by the Executive Council, and the approval of His Excellency, the land should, under the last proviso of the 25th section, be withdrawn from after auction selection. In this case, after voidance and forfeiture, the land should be again offered at auction at the upset price.

No. 6.

Minute of The Executive Council.

Subject:—Declaration of voidance and forfeiture of deposit money on Crown lands purchased by James Joseph Flood, at Wagga Wagga, on the 12th July, 1876.

Department of Lands, Sydney, 11 February, 1878.

In reference to the sale by auction to James Joseph Flood, at Wagga Wagga, on the 12th July, 1876, of lot E, portion 101, containing one hundred and sixty acres two roods, in the parish of Berrembed, county of Bourke, it is recommended to His Excellency the Governor and the Executive Council, that in accordance with the provisions of the 26th section of the "Crown Lands Alienation Act of 1861," such sale and contract be declared void, and the deposit money forfeited—the balance not having been paid within the time prescribed by law.

JAMES S. FARNELL.

Approved.—H.R., 11/2/78.

The Executive Council advise, in consequence of the non-payment of Mr. James Joseph Flood of the balance of the purchase money of certain land sold to him in Wagga Wagga, on the 12th July, 1876, within the prescribed time, that the sale of the said land be declared void and the deposit-money forfeited, in terms of the provisions of the 26th section of the "Crown Lands Alienation Act of 1861."

Clerk of the Council.

Mr. A. Couper to The Secretary for Lands.

Sir,

Sydney, 12 February, 1878.

I have the honor to enter the strongest protest against cancellation of the auction selection noted in the margin, and to urge that my selection is binding upon the Crown and made in accordance with many hundreds of precedents.

I have, &c.,

ALEXANDER COUPER.

No. 8.

Mr. A. Couper to The Secretary for Lands.

Sir,

"Albert Lodge Hotel," Yurong-street, Sydney, 13 February, 1878.

I have the honor to bring under your notice the following circumstances connected with my selection referred to in the margin. I observe in the report of the proceedings of the Assembly last evening that you are reported to have said that the application of Alexander Couper for selection has been refused.

I beg respectfully to point out that the so-called applications were absolute purchases from the Crown, the purchaser being in a position to legally transfer upon the receipts for their purchase money in as full and complete a manner as they could upon grants from the Crown if issued.

I have further the honor to draw your attention to the fact that the Privy Council has very recently decided that the Government is bound by the receipt supplied by its agents, and cannot afterwards repudiate the sales which are already complete on the purchaser's part.

In view of the above circumstances of my case, I have the honor to request that the question may be submitted to the Attorney General, whether the Government has power to cancel a sale made in the manner that that referred to in the margin of this letter has been made to me.

I have, &c.

ALEXANDER COUPER.

Minute on above.

The so-called sale in this case was not cancelled, because the land was not legally open for sale. When the application was made, the Crown had not declared a forfeiture; therefore the land was not open to sale. See my decision on the case.—J.S.F., 21/2/78.

The Under Secretary for Lands to The Manager, Australian Joint Stock Bank.

Sir,

Department of Lands, Sydney, 16 March, 1878.

In reference to your letters of the 20th of November and 20th of December last, requesting consideration of the case of John James Flood for non-payment of the balance of purchase money for lot E, portion 101, parish of Berrembed, county of Bourke, purchased by him at a sale of Crown lands held at Wagga Wagga on the 12th July, 1876, I am directed to inform you, that in accordance with the provisions of the 26th section of the "Crown Lands Alienation Act of 1861," the sale and contract of the land referred to has been declared void, and the deposit money thereon forfeited—the balance not having been paid within the time prescribed by law. See Nos. 1 & 2.

2. I am to add that the portion in question has been withdrawn from auction selection with a view to its being submitted to sale at auction, and that the application of Mr. Alexander Couper of the 5th of December last for the land has been declared void.

I have, &c.,

W. W. STEPHEN.

No. 13.

Mr. A. A. Armstrong (Agent for Mr. A. Couper) to The Secretary for Lands.

Sir,

Land Agency Office, 26 Bridge Street, Sydney, 1 February, 1879.

I have the honor to draw your attention to the case of Mr. Alexander Couper, who selected at Wagga Wagga the lot noted in the margin, during January, 1878, which lot was shown by plan in the Survey Office to be a forfeited auction purchase, and consequently, in accordance with many precedents, open to purchase at the price of the amount of balance of purchase money, viz., 15s. per acre. Mr. Couper received clear receipt for the amount paid from the Land Agent at Wagga Wagga. Lot E. Sale at Wagga Wagga, 12 July, 1876.

Objections were lodged to the purchase, on the grounds that the Crown lessee believed that his Sydney agent had paid balance, and that he had effected considerable improvements thereon; and Mr. Couper's purchase was refused, which refusal I respectfully submit is not in accordance with the meaning and terms of the 25th and 26th clauses of Land Act of 1861.

The land has since been embraced within the conditional purchase noted in the margin, and it is now alleged that sufficient improvements have not been effected to bar the selection of the land. C. P. 78/188, J. E. Robe, Wagga Wagga, 1 August, 1878.

On behalf of Mr. Couper, I beg to protest against allowance of conditional purchase referred to, and to request that the purchase of this gentleman may be allowed and deed of grant issued.

I have, &c.,

A. A. ARMSTRONG.

Minutes on No. 13.

In submitting this case, it is only necessary for me to refer to the enclosed decision of the late Minister for Lands, in which he sets out at length his views of this matter and his reason for rejecting both Mr. Flood's original auction purchase and Couper's auction selection. For decision, see No. 5.

The principle laid down by Mr. Farnell is in part that applied in the case of Lachlan M'Bean now under reference to the Attorney General, although in a different point from that which arises in this case.—W.W.S., 12/3/79.

I observe from the long minute written by Mr. Farnell that he has given this case his careful consideration, and I fail to see anything in Mr. Armstrong's letter which would lead me to reverse the decision of my predecessor.—J.H., 15/3/1879.

Inform Mr. Armstrong.—17/3/79.

No. 14.

The Under Secretary for Lands to Mr. A. A. Armstrong (Agent for Mr. A. Couper),

Sir,

Department of Lands, Sydney, 31 March, 1879.

In reference to your letter of 1st ultimo, protesting, on behalf of Mr. Alexander Couper, against the allowance of J. E. Robe's conditional purchase of the land noted in the margin, taken up at Wagga Wagga, on the 1st August, 1878, and requesting that your client's application of the 5th December, 1877, to select after auction the land referred to, may be allowed to stand. I am directed to inform you that Mr. Hoskins is of opinion that no reason has been advanced which would warrant him in disturbing the decision of his predecessor, Mr. Farnell, and is unable to comply with your request. See No. 13. C.P. 78/188, J. E. Robe, Wagga Wagga, 1st August, 1878.

Sir,

Land Agency Office, 26, Bridge-street, Sydney, 3 April, 1879.

See No. 14.

I have the honor to acknowledge receipt of your communication of date 31 ultimo, refusing to disturb the decision of Mr. Secretary Farnell, in effect, that the land selected after auction by Alexander Couper was not open to auction selection, previous purchase of same by auction unfulfilled, not having become forfeited at the date of Couper's purchase by executive action.

I beg most respectfully to submit, that under the terms and meaning of the 26 section of the Act of 1861, and under which section Flood's purchase was made, that forfeiture does not arise, or become liable through non-completion of conditions, and that the sale and contract become actually void immediately upon balance of purchase becoming due and not paid.

I beg therefore respectfully to request that the question of the validity of Alexander Couper's purchase may be referred to the Honorable the Attorney General.

A. A. ARMSTRONG.

Minutes on No. 15.

The Minister has already confirmed Mr. Farnell's decision, and Mr. Armstrong now asks for a reference to the Attorney General.

The opinion in Mr. M'Bean's case does not affect this.—C.O., 8/4/79.

Submitted.—W.W.S., 16 April, /79.

I fail to see any necessity for remitting Couper's case for the opinion of the Attorney General, as I concur in the views upon the subject laid down by Mr. Farnell in his minute.—J.H., 18/4/79.

I have the honor to acknowledge the receipt of your letter of the 3rd proximo, referring to my letter of the 31st ultimo, wherein you were informed that the decision of Mr. Secretary Farnell—"That the after-auction selection made by Alexander Couper at Wagga Wagga, on 3rd December, 1877, was invalid"—would not be disturbed; and in reply to your request that the case may be submitted to the Attorney General for his opinion thereon,—I am directed to inform you that the Minister for Lands fails to see any necessity for that course, as he concurs in the views entertained by Mr. Secretary Farnell on the subject.

being of our said territory and one by the then owner or owners of the said land or of such part thereof as may be thereby affected which two arbitrators (before they proceed to the said arbitration) shall elect an umpire who shall determine any disagreement between the two said arbitrators but if the said owner or owners shall refuse or neglect to choose an arbitrator on his her or their part within one calendar month after being required so to do by public advertisement in the Government Gazette or otherwise or if such arbitrator being chosen shall refuse or neglect to act and within one calendar month determine the matter to him referred then both arbitrators shall be chosen by the Governor for the time being of our said territory which said last-mentioned arbitrators shall also elect an umpire in the manner and for the purpose above mentioned And if any umpire shall refuse or neglect to act and within one calendar month determine the matter to him referred the arbitrators for the time being whether chosen one by each party or both by the Governor of our said territory shall in every such case forthwith elect another umpire in the same manner for the same purpose and subject to the same condition as the umpire first elected as aforesaid Provided always that if the aforesaid quit rent shall be at any time unpaid for the space of twenty days after the same shall become due (although no formal demand shall have been made thereof) it shall be lawful for us our heirs and successors by our Governor for the time being of our said territory or some person by him authorized in that behalf to re-enter upon the said land or any part thereof with its appurtenances and thence to remove the said grantee his heirs and assigns and to hold the same and the rents issues and profits thereof to have receive and take to and for the use of us our heirs and successors until we or they shall therewith and thereby be fully paid and satisfied the quit-rent due thereon and every part thereof and all arrears of the same due at the time of our said entry or which shall accrue due during the time of our possession by virtue thereof together with all costs and charges attending the non-payment of the said quit-rent and our entry upon the said land Provided also that if the conditions reservations and provisos herein contained or any part thereof be not duly observed and performed by the said grantee his heirs and assigns then the said land shall be forfeited and revert unto us our heirs and successors And these presents and every matter and thing herein contained shall cease and determine and become absolutely void to all intents and purposes And it shall be lawful for us our heirs and successors by our Governor for the time being of our said territory or some person by him authorized in that behalf to re-enter upon the said land or any part thereof and the said grantee his heirs and assigns and all occupiers thereof therefrom wholly to remove In testimony whereof we have caused this our grant to be sealed with the seal of our said territory.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

GRANTS OF LAND CONTAINING SPECIAL RESERVATIONS.

(PAPERS, &c.)

Ordered by the Legislative Assembly to be printed, 1 July, 1879.

The Surveyor General to The Under Secretary for Lands.

Old Grants containing Special Reservation.

IN compliance with the directions contained in the minute of the 3rd April, 1879, it is reported for the information of the Minister for Lands that search into the conditions under which many of the old grants in the vicinity of Sydney are held, has resulted so far in ascertaining the fact that the four grants noted in margin, particulars of which are set forth in the accompanying schedule, contain each, amongst other conditions, one reserving any quantity of water and any quantity of land *not exceeding 10 acres* in any part of the said grant as may be required for public purposes: Provided such water or land so required shall not interfere with or in way injure or prevent the due working of the water mills erected or to be erected on the land and water-course hereby granted.

ROBERT FITZGERALD,

For Sur. Genl.—B.C., 1 July, '79.

Remarks.—Conditioned—Not to sell, alienate, assign, or set over, within the term of five years from the date hereof, reserving to Government the right of making public roads through the same, and also reserving for the use of the Crown all such timber as may be deemed fit for Naval purposes; and further, any quantity of water and any quantity of land, *not exceeding 10 acres*, in any part of the said grant as may be required for public purposes: Provided such water or land so required shall not interfere with or in any way injure or prevent the due working of the water mills erected or to be erected on the lands and water-courses hereby granted. The grantee, his heirs, and assigns, shall use their best endeavours to procure to be assigned to them convicts who are to be clothed and victualled until the expiration or remission of their respective sentences, the said convicts to be employed exclusively on the grant agreeably to the Government Regulations for the time being, and that if required the grantee shall execute a bond for the fulfilment of the above conditions, the whole being subject to the approval of His Majesty.

Memo. for The Deputy Surveyor General.

2 April, 1879.

WITH reference to the old grants that have other conditions and reservations than are usually made, I think that three persons should be employed in searching through the books, as there the lands are now becoming very valuable and the public require the reservations in many cases. One of the three should have a perfect knowledge of the old maps and the other two clerks to copy out the names of the grantees, dates of grants, situation, and conditions. It may take some months or perhaps longer. The books at the Registrar General's are the ones that should be looked through; in fact, the interests of the public require looking after as regards these reservations in case of compensation.

If you desire it, I could look through one book at the Registrar General's Office, and give you an idea or the Minister what I consider desirable.

THOMAS H. LEWIS.

Looking at the *Sydney Morning Herald* last night I saw that something similar to this was being mooted.—T.H.L., 3 April, /79.

Submitted for the consideration of the Secretary for Lands.—ROBT. FITZGERALD, for Sur. Genl., 3 April, /79. Approved, but the researches in the first instance should be made respecting grants in the neighbourhood of Sydney.—J.H., 3/4/79.

Mr. Lewis,—Report progress as regards grants out of which reservations have been made in the neighbourhood of Sydney, giving descriptions of the reservations and terms of resumption.—R.D.F., 12 May, /79.

The enclosed list shows four grants that have reservations of 10 acres each within them, as explained under the column of remarks. The other grants that I have looked at besides the usual conditions, have building conditions (chiefly those at Randwick, Lachlan Swamp) respecting erection of one residence with the necessary out-houses.—T.H.L., 12 May, 1879.

Date of Grant, 27 May, 1823. William Hutchinson, 1,400 acres.

Usual reservations, &c. Any quantity of land not exceeding 10 acres in any part of the said grant as may be required for public purposes: Provided such water or land so required shall not interfere with or in any manner injure or prevent the due working of the water mills erected or to be erected on the lands and water-course hereby granted. It is now proposed to resume the 10 acres; and Mr. Woolrych was instructed on the 23rd January, 1879, to report on the most suitable site within the 1,400 acres, Waterloo Estate, to resume 10 acres.

27 May, 1823. Samuel Terry, 570 acres.

“Usual conditions including all the other conditions in the forgoing grant.” This may or may not intend a similar reservation of 10 acres.

PATRICK CAVANAGH'S PRE-EMPTIVE LEASE, GININDERRA.

No. 1.

Application of Mr. P. Cavanagh.

(M.)

["Occupation Act, 1861," and "Lands Acts Amendment Act, 1875."]

To be used in claiming to lease adjoining lands under pre-emptive right.

RECEIVED this 31st day of May, 1876, at 1:20 o'clock, together with the sum of £3.

District of Queanbeyan.

O. WILLANS,
Land Agent.

Sir,

Exchange, Sydney.

In pursuance of the provisions of the "Crown Lands Occupation Act of 1861," and the "Lands Acts Amendment Act, 1875," and Regulations thereunder, I, Patrick Cavanagh, by his agent, J. Sutton, do hereby apply to be allowed to lease the sections or portion of Crown lands hereunder described, at the fixed rent of £2 per section, which I hereby tender.

320 acres C.P.
62/1,254.

The land in virtue of which I claim to exercise a right of pre-emption, is situated as follows, and is now in my possession, viz. :—

County of Murray, parish of Gininderra, situated at One-tree Hill, containing 320 acres.

Conditional purchase, on the 11th day of February, 1862, by Thomas Cavanagh, at Queanbeyan.

Balance paid and deed issued.

I am, &c.,

JOSEPH SUTTON,
Agent for PATRICK CAVANAGH.

Description of the sections or portion applied for:—

960 acres to the north of the above conditional purchase.

Minutes on No. 1.

960 acres. Gazetted 31 Aug., 1876. Has D. Johnstone renewed his pre-lease; 1 and 2 of 45 of 49 renewed, and 5/17/69 not renewed.—A.S., 31/1/77. W.H.H. (for J.S.), 31 Jan., 1877. Charted 960 acres, Queanbeyan. This is granted to the west of appt's. C.P., as the land applied for is already under lease to D. Johnstone.—J.S., 26 June, '77.

No. 2.

The Under Secretary for Lands to Mr. P. Cavanagh.

Sir,

Department of Lands, Sydney, 27 October, 1876.

I am directed to inform you that your claim to a pre-emptive lease has been approved by notice in the Government Gazette of 31 August, 1876, subject to the provisions of the "Crown Lands Occupation Act of 1861," and the "Lands Acts Amendment Act, 1875," and Regulations thereunder.

2. The rent specified in the notice referred to, namely, £1 10s., will be for the period from 1st July to 31st December, 1876.

3. The lease will be renewable by payment of the rent for the ensuing year, between 1st and 30th September.

4. In communicating with this Department, or the Treasury, on the subject of your lease, you are requested to give the following particulars in your letter, which are supplied to you for that purpose, namely :—

Pre-emptive lease No. 76/46, 960 acres, district of Queanbeyan, notified in the Government Gazette of 31st August, 1876.

I have, &c.,

CHAS. A. BROWN,
(For the Under Secretary).

No. 3.

The Under Secretary for Lands to The Land Agent, Queanbeyan.

Sir,

Department of Lands, Sydney, 27 October, 1876.

I am directed to draw your attention to the notice of approved claims to pre-emptive leases, published in the Government Gazette of 31st August, 1876.

2. The rent specified in the notice referred to will be for the period from 1st June to 31st December, 1876, and must be paid in full before the lease will have effect. Credit will be allowed for the amounts already paid, on deposit of the applications.

I have, &c.,

CHAS. A. BROWN,
(For the Under Secretary.)

No. 4.

The Under Secretary for Lands to The Land Agent, Queanbeyan.

Sir,

Department of Lands, Sydney, 14 July, 1877.

With reference to the pre-emptive lease particularized in the margin, which was notified on the 31st August, 1876, I am directed to transmit to you herewith a tracing of the lease in question for public inspection.

I have, &c.,

CHAS. A. BROWN,

(For the Under Secretary).

No. 5.

The Under Secretary for Lands to Mr. P. Cavanagh.

Sir,

Department of Lands, Sydney, 14 July, 1877.

With reference to the pre-emptive lease particularized in the margin, which was approved in your favour by notice in the Government Gazette of 31st August, 1876, I am directed to inform you that a tracing of the lease in question has been forwarded to the local land office for public inspection.

I have, &c.,

CHAS. A. BROWN,

(For the Under Secretary).

No. 6.

Mr. H. Freeman to The Secretary for Lands.

Sir,

16, Bridge-street, Sydney, 18 September, 1877.

On behalf of Mr. Henry Hall, the Crown tenant of the pre-lease noted in the margin, I have the honor to beg that you will cause necessary action to be taken with a view to speedy cancellation of a pre-lease held by P. Cavanagh (as per margin) which intrudes upon the lease held by Mr. Hall.

I have, &c.,

H. FREEMAN,

per C.H.B.

Minutes on No. 6.

Mr. Brown,—Have the leases mentioned above been renewed?—W.H.H., for J.S., 8 Oct., /77.

Renewed.—C.A.B., 8/10/77.

After careful examination, it is found that P. Cavanagh's prelease 460/76, 960 acres, gazetted 31st August, 1876, should be cancelled, as the land is already under prelease to H. Hall, and there is no other available land to satisfy Cavanagh's claim. The error arose through Hall's pre-leases not being charted on the lease map of the county of Murray.—J.S., 10 Oct., /77.

No. 7.

The Under Secretary for Lands to Mr. P. Cavanagh.

Sir,

Department of Lands, Sydney, 20 November, 1877.

I am directed to inform you, that the Colonial Treasurer has been authorized to refund to you the sum of £4 10s., being the rent paid on the pre-emptive lease particularised in the margin, as the land applied for is already under pre-emptive lease to H. Hall.

2. I am to add that when the money is ready for payment notice to that effect will be forwarded to you from the Treasury.

I have, &c.,

CHAS. A. BROWN,

Received on the day of March, 1878, the above sum of £3 on behalf of Patrick Cavanagh.

No. 12.

The Under Secretary for Lands to J. B. Thompson, Esq., M.P.

Sir,

Department of Lands, Sydney, 7 March, 1878.

With reference to your letter of the 14th ultimo, applying on behalf of Mr. Patrick Cavanagh for a refund of the rent paid on his cancelled pre-emptive lease, 76-46, 960 acres, district of Queanbeyan, notified on the 31st August, 1876, I am directed to apprise you that the Colonial Treasurer was authorised to refund to Mr. Cavanagh the sum of £4 10s. on the 20th November last, and authority has now been given to refund the balance to him, namely, £3.

I have, &c.,

W. W. STEPHEN.

No. 13.

Mr. J. Sutton to The Secretary for Lands.

Sir,

Exchange, Sydney, 23 April, 1878.

Referring to your letter of November 20, 1877, and subsequent dates, on the subject of Patrick Cavanagh's pre-emptive lease, as specified in the margin, wherein is stated the land applied for is under pre-emptive lease, and there is no other available land to satisfy his claim,—

La. 76-46, 960 acres, district of Queanbeyan. Notified Aug. 31, 1876. D. Johnstone's original lease 1, 2, and 3-45-49 not paid for 1877.

I have to inform you that the rent for the land formerly leased by Mr. David Johnstone, as particularized in the margin, is not paid for 1877.

I also wish to add that it does not either appear at this date that the rent for the lease transferred from Mr. Henry Hall to Mr. W. R. M'Carthy is paid.

I have the honor, therefore, to request that you may be pleased to restore the pre-emptive lease to Mr. Patrick Cavanagh as originally gazetted.

I have, &c.,

JOSEPH SUTTON.

W. R. M'Carthy's
lease 1 and 2 9-72
does not appear
to be paid.

Minutes on No. 13.

Leases 1 and 2, 45-49, and 2 of 9 of 72, have been renewed; lease lot 1 of 9 of 72, 3 of 45 of 49, have not been renewed.—T.W., 23 May, /78.

Upon further examination it is found that D. Johnston's pre-lease 3 45-49, 640 acres, has not been renewed, and therefore there is sufficient available land to satisfy P. Cavanagh's claim for pre-lease in virtue of his C.P. of 320 acres.

Charted 960 acres, Queanbeyan.

See action on Ls. 78-2,673, annulling the above—A.J., 14 Oct., /78.

No. 14.

Mr. F. Fitzpatrick to The Secretary for Lands.

Sir,

251, George-street, Sydney, 24 June, 1878.

I have the honor to draw your attention to the following rather curious case:—

Mr. David Johnstone, of Nanima, held for the year 1877 some pre-emptive leases; some of these he wished to renew for 1878, but through some mistake, either of the local Land Agent or of the Department in Sydney, the money was credited to leases, which were alienated, and which Mr. Johnstone did not require, while the leases which he actually paid for he is now in danger of losing.

The leases which he paid for were 2, 45, 49, and 3, 45, 49; the money has been credited for 1, 45, 49, instead of for 3, 45, 49.

May I further request that this matter may receive early attention.

I have, &c.,

F. FITZPATRICK.

Minutes on No. 14.

The Land Agent should perhaps be asked to report as to the leases for which the rent was tendered.—C.A.B., 10/7/78. The Crown Lands Agent, Queanbeyan, B.C., 18 July, 1878.—W.W.S.

The Land Agent, Queanbeyan, does not know anything of this. Mr. David Johnston never paid here the leases mentioned. 2, 45, 49, and 3, 45, 49, form a part of nine sections. The last report that I had from the department as to a payment is dated 16th October, 1873, and reported to me on the 30th May, 1874. Since then no report of payment.—O. WILLIAMS, C.L.A., B.C., Queanbeyan, 20/8/78. The Under Secretary for Lands, &c.

The Crown Lands Agent at Yass will be good enough to report as to whether any payments on account of the leases in question were made to him.—CHAS. A. BROWN (for the Under Secy.), B.C., 24 July, 1878.

On the 29th September last rent for current year was paid for the following leases, viz., No. 2, 45, 49, and No. 3, 45, 49; the rent for No. 1, 45, 49, was not renewed.—LEOPOLD YATES, C.L.A., B.C., Yass, 25/7/78. The Under Secretary, for Lands, Sydney.

The necessary alteration has been made in the lease register, and this paper should be forwarded to the Auditor General for his information.—W.W.S., B.C., 19 September, 1878.

Credited at the Treasury on 4th October, 1877.

No. 16.

The Under Secretary for Lands to Mr. F. Fitzpatrick.

Sir,

Department of Lands, Sydney, 4 September, 1878.

With reference to your letter of the 24th June last, respecting an alleged error in regard to the credit of the rent paid by Mr. David Johnston, on account of certain leases held by him, I am directed to apprise you that as it appears after reference to the Land Agent, Yass, that the amount tendered by Mr. Johnston was intended for rent of his leases 2, 45, 49, and 3, 45, 49, for the current year, the rent of 1, 45, 49 being omitted, the error has been rectified in the books.

No. 17.

Mr. F. Fitzpatrick to The Secretary for Lands.

Sir,

251, George-street, Sydney, 11 September, 1878.

I have the honor to draw your attention to the following case:—An error was made by your department in some leases of David Johnstone, of Nanima, Yass. The department cancelled leases (as per margin) which should not have been cancelled, and upon representation has now rectified the error; but in the meantime the same leases had been granted to other persons, viz., Samson, Southwell, Cavanagh, and others.

I have now the honor to request that you will cause Mr. Johnstone to be fully re-instated in the said leases, and in the meantime have Southwell, Cavanagh, &c., warned from interfering with the land, pending inquiry.

I have, &c.,

FRANCIS FITZPATRICK.

Minutes on No. 17.

The above paper was sent to the Auditor General on 19th ultimo. He should be asked to return it.—C.A.B., 8/10/78. Paper now herewith.—C.A.B., 9/10/78.

In consequence of the action taken on Ls. 78/1,811 herewith, it is found necessary to cancel P. Cavanagh's pre-lease 46 of 76, 960 acres, gazetted 31 Augt., 1876; Sampson Southwell's pre-lease 59 of 76, and Saml. Southwell's pre-lease 54 of 76, 960 acres, should not be cancelled, as they do not in any way encroach upon land already held under pre-lease by Mr. Johnston.—A.G., 14 Oct., 78.

No. 18.

The Under Secretary for Lands to Mr. J. Sutton.

Sir,

Department of Lands, Sydney, 31 October, 1878.

With reference to your letter of the 23rd April last, requesting that Mr. Patrick Cavanagh's pre-emptive lease of 960 acres may be restored to him, as you allege there is available land to satisfy his claim, on account of the non-renewal of certain leases, I am directed to apprise you that there is no land available for Mr. Cavanagh's lease. The local Land Agent reported in the first instance that Mr. D. Johnson had not renewed his pre-emptive lease 3 of 45 of 49, 640 acres, but as it had been ascertained on subsequent investigation that the amount had been duly paid.

I have, &c.,

W. W. STEPHEN.

No. 19.

The Under Secretary for Lands to Mr. F. Fitzpatrick.

Sir,

Department of Lands, Sydney, 31 October, 1878.

With reference to your letter of the 11th ultimo, requesting, on behalf of Mr. David Johnson, that certain pre-emptive leases claimed by Messrs. Southwell and Cavanagh may be disallowed, as they include his leased land, I am directed to apprise you that Mr. P. Cavanagh's pre-emptive lease 46 of 76, 960 acres, approved on 31st August, 1876, has been cancelled, on account of its interference with the pre-emptive lease held by Mr. Johnston, and he has been apprised to that effect.

2. I am to state that there are no grounds for the cancellation of Sampson Southwell's pre-emptive lease 59 of 76 and Samuel Southwell's pre-emptive lease 54 of 76, as they do not in any way encroach upon the land already held under pre-emptive lease by Mr. Johnston.

LAND SOLD AT NARRANDERA TO MESSRS. CLARK AND MACLEAY.

No. 1.

Mr. J. M'Calman to The Under Secretary for Lands.

Sir, Darlington Point and Murrumbidgee Selectors' Association, 10 July, 1878.

I am directed to bring under your notice that the land between Uri Creek and the Murrumbidgee River, parish of Uri and Waddi, in the county of Boyd, for sale at Narrandera on the 31st instant, is a dense forest of magnificent red gum timber, suitable for railway sleepers, and therefore in the interests of the public it is absolutely necessary that the land in question be withdrawn from sale, and be reserved from sale for timber purposes.

I am, &c.,

JOHN M'CALMAN, Hon. Sec.

No. 2.

Mr. A. Armstrong to The Secretary for Lands.

Sir, Land Agency Office, 26 Bridge-street, Sydney, 26 July, 1878.

I have the honor, on behalf of the Darlington Free Selectors' Association, to draw your attention to the fact that the following portions,—109–110, parish of Waddi, county Boyd, also portions 74 to 76, and 79 to 94, parish of Uri, county Boyd, advertised as lots D and E, and G to V, for sale at Narrandera on the 31st instant, consist of a dense forest of red gum, useful as a source of supply for railway sleepers, which in the interest of the growing population, and contemplated railway extension, should be preserved. I have therefore to request that the same may be withdrawn from sale.

I have, &c.,

A. ARMSTRONG,

Agent for Darlington Free Selectors' Association.

Minutes on No. 2.

For decision.—W.W.S., 27th.

Under these representations the land should be withdrawn from sale, pending inquiry as the timber, and as to whether the timber, if it exists, should be reserved.—J.S.F., 26/7/78.

Withdrawal revoked. Sale of the land to be postponed for one week.—W.C.E., 31/7/78.

No. 3.

Mr. A. Armstrong to The Under Secretary for Lands.

Sir, Land Agency Office, 26 Bridge-street, Sydney, 31 July, 1878.

Referring to my letter of date 26th July, respecting the auction lots noted in the margin, I have the honor to hand herewith letter from the Secretary of Free Selectors' Association at Darlington, describing such lots as a dense "red gum forest," and have to request that full inquiry be effected respecting the truth of this assertion before such lands be again offered for sale, with a view to the reservation of such timbered lands as are necessary to be preserved in the interest of the selectors and general public.

I have, &c.,

A. ARMSTRONG,

Agent for F. S. Association, Darlington.

Minutes on No. 3.

This letter is dated on the day of the date of the sale, and was sent to me unregistered on the same evening, therefore too late for any action for the withdrawal of the land from sale, even supposing that there was sufficient reason for the withdrawal. The sale has been postponed.—J.S.F., 1/8/78.

May be informed,—P.F.R., 5/8/78.

[Enclosure to No. 3.]

Mr. J. M'Calman to Mr. A. Armstrong,

Dear sir,

Darlington Point and Murrumbidgee Selectors' Association, 20 July, 1878.

I am directed to communicate with you, and to request that you interview the Minister for Lands, and urge the necessity of withdrawing the following lots of land which are to be sold at Narrandera, on the 31st instant, from sale, viz.:—Portions 109, 110, in the parish of Waddi, and portions 74, 75, 76, 79, 80, 81, 82, 83, 84, 86, 87, 88, 89, 90, 93, and 94, in the parish of Uri, all in the county of Boyd.

The land referred to is a dense forest of red gum—timber suitable for railway sleepers and other purposes. Therefore, in the interest of the public, it is absolutely necessary that the land in question be withdrawn from sale and reserved from sale for timber purposes.

I am, &c.,

JOHN M'CALMAN,

Hon. Sec.

No. 4.

Mr. A. Armstrong to The Secretary for Lands.

Sir, Land Agency Office, 26 Bridge-street, Sydney, 6 August, 1878.

I have the honor to draw your attention to my letter of date 26th ult., a copy of which I enclose herewith, upon the original of which a minute was made by you upon date of same in the presence of Mr. McElhone, M.L.A., and myself, approving of the lands referred to being withdrawn from auction sale at Narrandera on the 31st July, 1878. Upon inquiring at the Auction Branch of your department, I was informed that no instructions were transmitted to Narrandera until the morning of the sale, and that the

Crown Lands Agent there has replied by wire stating that such instructions were received by him too late, and that the lots referred to were sold previous to the receipt by him of any notice of withdrawal. I have therefore to request that the delay in attention to your minute may form the subject of a strict investigation at your hands, with a view to the prevention of similar cases of gross abuse of the public interest in the future.

In support of my letter previously mentioned, I have further the honor to hand herewith statutory declaration of five residents in the vicinity declaring such lands to be well-timbered, and in proof of the desirability of the same being reserved.

I have, &c.,

A. ARMSTRONG,

Agent for Darlington Free Selectors' Association.

Statutory Declaration.

Darlington Point and Murrumbidgee Selectors' Association.
We, John M'Calman, Robert H. Firth, John F. Woodlock, John Lander, and Duncan M'Calman, of Darlington Point, do seriously and solemnly declare that portions No. 109 and 110, parish of Waddi, and portions No. 74, 75, 76, 79, 80, 81, 82, 83, 84, 86, 87, 88, 89, 90, 93, and 94, parish of Uri, all in county of Boyd, which lots were advertised for sale by auction at Narrandera, on July 31st, 1878, are densely covered with red gum and other timber suitable for railway purposes, and the sale of land referred to would be a public calamity, as the nature of the country generally in this neighbourhood is open plains. We make this solemn declaration conscientiously believing the same to be true, and by virtue of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled, "*An Act for the more effectual abolition of Oaths and Affirmations taken and made in various Departments of the Government of New South Wales and for the substitution of Declarations in lieu thereof.*"

No. 5.

J. McElhone, Esq., M.P., to The Secretary for Lands.

Sir,

Sydney, 6 August, 1878.

I have the honor to forward you letter from Mr. Armstrong in reference to an application he made you to withdraw certain lands from sale, which were to be sold at Narrandera on 31st July, 1878. Mr. Armstrong made this application on the 26th July, and you, in my presence, made a minute on the application to stop the sale and withdraw the land. Mr. A. states that the telegram was not sent until the 31st, and too late to stop the sale. It was stated to you there was no timber on this land. I enclose a solemn declaration made by several persons that the land is covered by red gum forest, and the timber is wanted by selectors, as most of the country is open plains. In my opinion a gross dereliction of duty has been committed by some of the officers of your department, and I have the honor to request that a strict inquiry may be held in the case, as I think the party who neglected to obey your instructions should be dismissed the Public Service, I care not who he may be, as I think there is something in this case even worse than neglect of duty—as some rich squatters were interested in having this land sold, and I believe used some undue influence to stop the telegram from being sent, to let the persons who wanted this land get it. See No. 4.
See Enclosure to No. 4.

Unless something is done to punish the persons who neglect their duty, there is no safety for the public or fair play to be had in the Lands, and I shall feel bound to bring this matter before Parliament when it meets.

I have, &c.,

J. McELHONE.

Minutes on No. 5.

For explanation, in reference to the non-withdrawal of the land from auction.—J.S.F., 9/8/78.

The sale of the land in question was postponed by telegram. The telegram was taken to the Telegraph Office by myself, marked "very urgent," and left there in ample time to reach the Narrandera land office before the sale took place.—W.C.E., 12/8/78.

No. 6.

Mr. J. M'Calman to The Minister of Justice.

Sir,

Darlington Point, 13 August, 1878.

I would respectfully beg to draw your attention, on behalf of the Darlington Point and Murrumbidgee Free Selectors' Association, to the sale of land on the 31st ultimo, at Narrandera, consisting of a valuable tract of country in the county of Boyd, parish of Waddi and Uri. Upon this land being advertised for sale a meeting of the above-named Association was called, and it was decided that, as this land consisted of magnificent red gum timber, suitable for railway sleepers and other public purposes, and would have been of absolute necessity in the matter of railway extension here, to urge the necessity of its being withdrawn from sale and reserved for timber purposes. According to instructions, I wrote to the Minister for Lands, through Mr. Armstrong, land agent, urging its withdrawal. He received the Minister for Lands' approval to that effect five days previous to the date on which the land was to be sold, and was given to understand that a telegram was forwarded to the Land Officer at Narrandera, stopping the sale. I have since received a communication from Mr. Armstrong, in which he informs me that the Land Officer at Narrandera had telegraphed to the Under Secretary for Lands, that owing to his message arriving too late the land had been sold. This telegram was supposed to have been sent at 10:40 a.m. on the 26th ultimo,

ultimo, five days before the land sale. Taking these circumstances as they stand, a certain amount of suspicion has been created; and I have been requested to call your attention, as Member for this District, to the matter, and to respectfully ask you to endeavour to thoroughly investigate it.

I would wish it to be clearly understood that this is not a subject actuated by party feelings, and to the selectors in this district the reservation of these lands would have been of very little pecuniary service; but the question is wholly one of public interest, and is viewed by the inhabitants in that light. And these valuable lands, containing products which should be reserved for use by the Government when occasion should require for public purposes, being sold wholesale in this manner occasions great concern in the minds of those who have the public interest at heart.

I am, &c.,
JOHN M'CALMAN,
Hon. Sec.

My honorable colleague will kindly favour me with a reply that I may send to the writer of this letter.—J.L., 23/8/78. Acknowledged.—28 Aug., '78. The Under Secretary for Lands, B.C., 28 Aug., '78.—W.E.P.

Memo. by Mr. W. C. Edwards.

Auction Sale at Narrandera, 31st July, 1878.—Lots J to T inclusive.

THE sale of these lots was directed by the Minister to be postponed for one week (see memo. in Catalogue 78,5690) in order to allow of a report being received as to whether there were sufficient grounds to warrant their being withdrawn.

The telegram authorizing such postponement was personally lodged at the Telegraph Office, marked "very urgent," in ample time to reach the Land Agent before the sale took place, but it would seem did not do so.

Lots referred to having been sold, the report intended to have been obtained as to the alleged quantity and value of the timber on the land is not now perhaps necessary.

Minute by the Under Secretary for Lands.

Auction Sale, Narrandera.—78-6,765 Al.

As this matter was dealt with by me (in the absence of the Minister), I think it right that, in submitting Mr. Edwards's explanation, I should explain to Mr. Farnell the action which I took in reference to it. On the day the Minister decided that the lands should be withdrawn from sale, Mr. Clark (of Clark & Macleay, the applicants to purchase) called and represented that, as some months had elapsed since the land was applied for, and the lots had been for some time under advertisement, and no official information had ever been furnished to the department as to the existence of any valuable timber (as alleged in Mr. Armstrong's letter), he thought that the sale ought to be allowed to proceed.

I of course informed Mr. Clark that I could not authorize this in the face of the Minister's instructions. I arranged, however, as there was plenty of time to withdraw the land by telegram (the way in which, in the majority of cases, lands are withdrawn from sale), that I would see Mr. Leary, who was acting for the Minister for Lands, and represent the circumstances to him.

I accordingly waited upon Mr. Leary at his office, and I suggested that Mr. Farnell's instructions would be met, and all parties satisfied, by a postponement of the sale for a short period, as this would admit of inquiry being made, and obviate the delay which must ensue under the Regulations by a formal withdrawal of the lands from sale before they could be offered for auction.

Mr. Leary stated that he believed that Mr. Farnell would be back the next morning, but that if he was not, and I would bring him the papers, he would deal with the case. Mr. Farnell arrived at the office the next day, and shortly before 11 a.m. Mr. Clark and Mr. Raymond had an interview with him, during which, for the most part of the time, I was present, when Mr. Clark stated that if the land was to be reserved in the public interest he should not urge his objections to the withdrawal.

Eventually the Minister decided to postpone the sale for a week, to admit of inquiry being made as to whether the land contained valuable timber, as represented. A telegram was immediately prepared, communicating this decision to the Land Agent, and was sent specially to the Telegraph Office, marked "Very urgent," and the enclosed copy of the telegram as furnished by the Telegraph Office shows that it was lodged there at 11h. 5m. a.m., in ample time to reach the Land Agent before the hour of sale, viz., 12 o'clock. The delay therefore which led to the non-receipt of the telegram until after the sale was over clearly does not rest with this department.

I do not purpose to make any comment on the charges levelled against the officers of this department in the enclosed letters. I have only to say that, as far as my own individual action is concerned, I followed the course which I believed to be just and right, as also in accordance with that which the Minister would himself approve of, viz., to give both sides interested the opportunity of being heard before carrying out a decision, based upon what was, on the face of it, imperfect information. And with this belief I should deem it my duty, under similar circumstances, to take the same course again, taking care of course, if the necessity had arisen (as I should have done in this instance), to see that the original instruction was acted upon, if it was found there was no time to consult the Minister beforehand.

No. 9.

Mr. A. Armstrong to The Under Secretary for Lands.

Sir,

Land Agency Office, 26, Bridge-street, Sydney, 7 September, 1878.

I have the honor to draw your attention to the auction lots, noted in the margin, sold contrary to the express desire of the Hon. Minister for Lands, and to submit that sale under such circumstances has not been legally effected, and to request that cancellation of Messrs. Clark and Macleay's purchase may be effected, in order to enable the ministerial minute upon my letter of date July 26th last to be carried into effect.

I have, &c.,

A. ARMSTRONG,
Agent for Darlington F.S. Association.

Minute on No. 9.

The facts of this case are stated upon previous papers enclosed. Is it the intention of the Minister to annul the sale as requested by Mr. Armstrong?—W.W.S., 10 Sept. Decision of the Minister on separate paper.

Decision of the Minister.

IN the absence of the necessary information relative to the character and quality of the timber on the lots sold I cannot at present decide as to the propriety of annulling the sale, even supposing I have the power. In my memo. of the 26th July last I directed an inquiry as to the timber growing on the lots, in order that I might be able to judge of the desirability of reserving the land. These papers do not disclose that anything has been done in the matter.

If no inquiry has been had there should be an immediate inquiry, for many reasons. Now, as to the land not being withdrawn from sale in accordance with my minute of the 26/7/78, no explanation has been given for not carrying out that memo., except that Mr. Clark and Mr. Raymond called upon the Under Secretary, and urged certain reasons against the withdrawal of the land from sale by auction.

The officers of the department who dealt with this matter have not performed their duty, in neglecting to carry out my instructions of the 26th July. The delaying of the withdrawal of the land for the purpose of resubmitting the matter to me on the 31st July is inexcusable.

If I remember rightly the case was again submitted on the morning of the 31st July, when I again decided that the sale should be postponed, and an inquiry made relative to the timber said to be growing on the land. On account of gross negligence this decision was not carried out, and the land was sold at auction. No good or substantial reason has been given for delaying and disregarding my decisions in this case.

It appears to me that the officers whose duty it was to act on my decision have been guilty of neglect of duty.

In future should any officer of this department so far neglect his duty as has been done in this matter, I will feel it my duty to mete out such punishment as the nature of the offence deserves.—J.S.F., 29/10/78.

No. 10.

Memo. by Mr. W. C. Edwards, for the Under Secretary.

THE enclosed case was delayed, as it was not thought necessary to make the inquiry as to the valuable timber on the land, the land being sold before the telegram to postpone the sale reached Narrandera. The Minister desires now that an immediate report be obtained as to whether the land in question is timbered or not.

W. C. EDWARDS,
(For the Under Secretary).

Minutes on above.

MR. District Surveyor Bolton will be good enough to report immediately upon the character of the timber upon lots J to T, as per list enclosed.—ROBT. D. FITZGERALD, for Surveyor General.

Urgent.—District Surveyor Bolton, 1 November, 1878.

Report by Mr. District Surveyor Bolton.

THE land between Uri Creek and the Murrumbidgee is timbered with gum and box, and, as far as my memory serves me, the gum timber is of good quality. The sale herein referred to was postponed for one week, from 31st July, and papers sent to me 5th November, 1878. I believe the sale took place in the meantime.

C. T. BOLTON, D.-S.,

Mr. G. Lewis.

Memo. by the Under Secretary.

THE surveyor (Mr. Bolton) states that "as far as my memory serves me the gum timber is of good quality." I wish to observe that this report was submitted by me to the Minister, who stated that the information was hardly sufficient to admit of his deciding whether there were any grounds for reserving the land as requested.

Memo. by Mr. W. C. Edwards.

I THOUGHT I had already explained my action in this matter; however, if such is not the case, which I infer, as the papers have been returned to me by the Under Secretary, I will endeavour to make myself more clearly understood.

Mr. Armstrong handed me his letter, upon which the minute of the Minister was written authorizing the withdrawal of the land from sale. Before withdrawing the land, I sent the paper to records, to be registered in the usual course, as it is the practice of this branch to enter the registration number of any withdrawal papers in the butt of the telegram book before despatching the message. Before the paper was returned to me from records, I received instruction from the Under Secretary not to withdraw the lands for the present, as certain statements had been made to him which necessitated an inquiry into the matter, and subsequently was told by him that the case was before the Minister for Justice, as the Minister for Lands had left town. No further communication was received by me until the morning the Minister returned to his office, when I received instructions to postpone the sale for a week.

A telegram was written immediately, marked very urgent, and left by myself at the Telegraph Office, at five minutes past 11 o'clock on the day of sale, and in ample time to reach Narrandera before the sale took place; but from the records in the Telegraph Office, the telegram was not despatched from there until ten minutes past 12 o'clock, too late to stop the sale.

W. C. EDWARDS,
31/10/78.

Minute by the Under Secretary on No. 11.

IN submitting this further explanation from Mr. Edwards, I can only express my regret at the censure conveyed by the minute of the Secretary for Lands. I had hoped that the explanation and memoranda already submitted had shown that (whatever error in judgment I may be deemed to have committed) no negligence was at any rate attributable to the officers of this department whose duty it was to carry out the decision, more especially as the Minister had not in any way expressed his dissatisfaction at the course taken when he decided to postpone the sale, instead of to withdraw the lands, on which occasion the facts, and also all the papers, were before him.—W.W.S., 12/12/78.

No. 12.

Memorandum by the Under Secretary for Lands.

As this case has assumed a shape certainly never thought of or anticipated by me, and has, I am aware, been alluded to in other places besides the Assembly, I would ask permission, in justice to the department, if not to myself, to add one or two observations on points to which I did not, in my previous memoranda, think it necessary to make any reference.

In the first place, with reference to Mr. Armstrong's applications to withdraw the lands from sale, with a view to their being reserved in the public interest, on account of the valuable timber alleged to exist thereon, I wish to point out that, whilst the Minister can by his own act withdraw lands from sale by auction, land can only be reserved from conditional sale by a formal reservation under the authority of the Executive Council, and by notification thereafter in the Government Gazette.

This action would have taken some days at any rate to carry out; the sale by auction, therefore, having been fixed for the 31st July, which was a Wednesday, there would have been nothing to prevent the whole of the lands from being conditionally purchased on the very next day, that being a land office day. Any such conditional purchases would be before the notification of the reserve, and would be perfectly legal, so that the Government would have been obliged to sustain them.

I did not make any written representation to the above effect at the time, but after the charges which have been made against the department in this matter, I feel no hesitation in pointing out how the land might have all been taken up by conditional purchase, with an unquestionable legal right to do so, the very day after it had been withdrawn from sale by auction on the plea of the land being required for a reserve for the public benefit, and that, in that event, no such reserve as was asked for could have been made.

In the second place, I would explain, as another reason which influenced my action (but which I should not otherwise have mentioned), that at about this very same time Mr. Armstrong (the writer of the letter of the 6th August last) had, in two distinct cases, on the eve almost of an approaching land sale, applied for lots to be withdrawn, on grounds which were proved, on reference to the Survey Office, to have no existence, and it was only by very prompt action that the withdrawal from sale was prevented. It was then that Mr. Farnell expressly told me to be very careful in future in dealing with applications for withdrawing lands from auction (as was becoming a frequent practice) at the last moment, without full and sufficient information as to the alleged reasons for withdrawal.

I cannot, therefore, as far as my action was concerned, attach any blame to myself, in the absence of any official information in confirmation of the statements made in the present case, and in view of the strong protest made by the applicants for the land, against its withdrawal, for taking the course I did, with the sole desire of both sides of the question being fairly represented, and of doing justice to all parties. In fact Mr. Farnell's decision to postpone the sale for a week, after hearing the other side, instead of withdrawing the lands, seems to me a justification of my action, and his own minute of the 1st August (on Mr. Armstrong's letter of 31 July) indicates that he had himself a doubt as to the validity of the reasons before given him for the withdrawal. It will be seen that, in referring to Mr. Armstrong's letter as being too late to act upon, he (Mr. Farnell) says, "Even supposing that there was sufficient reason for withdrawal," &c., &c.

I could not possibly anticipate that out of the hundreds of cases in which sales have, without mistake, been withdrawn or postponed, in exactly the same way, *i.e.*, by telegram (often later than the time at which the telegram in this instance was left at the Telegraph Office), there should have been a failure in this particular case, through the delay at the Telegraph Office, to carry out the Minister's instructions.

I submit, with deference, that it is this latter circumstance, and that only (and not any neglect on the part of any one in the department), which was the cause of the sale not having been postponed, as directed by Mr. Farnell.

The fact of my waiting upon Mr. Leary is a proof, I think, of my endeavour to obtain the advice or decision of the Minister representing Mr. Farnell, and the fact of Mr. Farnell having been consulted immediately on his arrival at the office, after his return to town, shows that there was no delay in getting the matter settled.

If however it be held, after perusal of these papers and my explanation of the case, that I acted erroneously, or am in any way amenable to censure (and I can draw no other inference from the terms of Mr. Farnell's minute), I must of course bow to that decision, merely repeating that I was simply actuated all through the proceedings, and in the somewhat responsible position I was placed during the absence of the Minister, by the desire to do what I conscientiously believed to be proper.

NEW SOUTH WALES.

PURCHASES ON MUTTAMA RUN.

(UNDER SECTION 7 OF CROWN LANDS ALIENATION ACT OF 1861.)

Ordered by the Legislative Assembly to be printed, 21 February, 1879.

MUTTAMA RUN—Purchases under sec. 7, C. L. A. Act of 1861.

Memo.

MUTTAMA Run, as held under "Orders in Council" (up to 31 December, 1865) contained an area of 131,000 acres (8 blocks of 25 square miles), entitling the lessee to apply for and purchase eight portions of (not exceeding) 640 acres each, under the provisions of the 7th clause of the Crown Lands Alienation Act of 1861.

The following purchases have been made, are being carried out, or have been forfeited on account of non-payment of the purchase money, viz. :—

1. 640 acres, forfeited	640 acres.
2. 320	}	purchase complete	1,012 "
3. 372					
4. 320					
5. 160	}	purchase being carried out	1,120 "
6. 640					
7. 320					
Total				...	<u>2,772 acres.</u>

It may, therefore, be seen that the lessee has purchased, or still has the opportunity of purchasing, 2,132 acres under clause 7 of the Alienation Act of 1861, whereas he was entitled to apply for and purchase 5,120 acres.

In addition to the cases referred to above, the lessee applied for other portions, but his applications, for various reasons, were refused.

MR. CHARLES OLIVER, INSPECTOR OF LAND OFFICES.

No. 1.

Memo. by The Secretary for Lands.

[Urgent.]

IN consequence of certain statements made in the Legislative Assembly last night by Mr. Day, M.P., impugning the truthfulness and accuracy of the explanation made by Mr. C. Oliver, Inspector of Land Offices, to the effect that that gentleman was required to leave Sydney on October 25th, 1878, for Albury, to inspect the local Land Agents' books, &c., in consequence of grave irregularities having been discovered therein, Mr. Day having represented that such allegations were not well founded—indeed Mr. Day stated that the Land Agent at Albury is one of the most efficient officers in the Public Service,—I require to be furnished by Monday next, the 3rd instant, with a report from Mr. Oliver, stating in specific terms what were the nature of the irregularities in the Albury Land Office which he was required to investigate.

I also wish to be furnished with a copy of the report he sent into the department, of the results of his investigations, and any recommendations Mr. Oliver may have made upon the subject; *also the reason why Mr. Oliver left Sydney on October 25th to perform this duty.*

I further wish to be furnished with a written statement to show, for the information of the Legislative Assembly, whether Mr. Oliver's application for leave of absence in Melbourne was made in writing, and if so I wish to be furnished with a copy of the said application, and the Under Secretary's approval of the same.

It was further stated in the Assembly, by Mr. Barbour, M.P., that the journey which Mr. Oliver made ought to have been finished in fourteen days instead of twenty-one days which it occupied, and as Mr. Barbour is familiar with the locality I shall require to be furnished in detail with a statement of the manner in which the twenty-one days were taken up in the trip of the Inspector.

The report or statement made in writing will have to be verified in all its substantial features by the Under Secretary. J.H.

Department of Lands, Sydney, 1 March, 1879.

No. 2.

Report of Inspector of Land Offices.

IN accordance with your direction of the 1st instant, I beg to state that I reported Mr. Brown, the Land Agent at Albury, on the 10th June last, for permitting his work to drift into an unwarranted state of arrear, and for *intemperance*, chiefly the latter, which fact is indisputable (see copy of report marked A). So serious did the late Minister consider the nature of the report that he directed Mr. Brown's suspension from office, as will be seen from the decision upon the Under Secretary's minute of the 11th June, marked B. Desiring to afford Mr. Brown every opportunity of reformation, and having been privately informed that he had since the date of my inspection become a total abstainer, I begged the Under Secretary to urge Mr. Farnell to withdraw his direction of suspension for a time and call upon Mr. Brown only to explain; this was eventually done, and so the alteration shown in the Ministerial direction of 12th June is accounted for.

Mr. Brown's reply having been received, the Under Secretary wrote the minute (Copy marked C) of 5th July, and therein alluded to my report having been confirmed by the Treasury Inspector, and of which Mr. Farnell approved. The matter was then placed before the Executive Council for confirmation (see copy of minute marked D), and here I beg to draw special attention to the wording of the concluding portion of that minute, viz.:—"And the continuance in office of Mr. Brown be conditional upon a future investigation and report by the Inspector of Land Offices or other officer appointed for the purpose." It is obvious why the direction "or other officer appointed for the purpose" was given, in so far as I might have been at the time such further report was required in some distant part of the Colony, and therefore unable to proceed to Albury.

Upon the 24th October the Under Secretary wrote the following memorandum: "Three months having expired since the date of Mr. Brown's appointment as Land Agent at Albury (apart from the office of C.P.S.), Mr. Oliver may be instructed to report as to Mr. Brown's general conduct during the above period, and the state of his work, as approved by the Executive Council minute of 8th July last," and this memo. Mr. Farnell approved of upon the following day. (See copy E.)

The papers were in due course sent to me, and I left for Albury on the morning of the 31st October, being the earliest date by which I could complete business in hand at Head Quarters. The result of my inspection was satisfactory, but having to return by Albury, and deeming it inadvisable to report at once, considering it absolutely necessary to make perfectly sure, as far as possible, of Mr. Brown's temperate habits, I deferred reporting until I had another opportunity of seeing him. On my return I was glad to find that to all appearances the opinion I had formed at first was correct. Upon reaching Sydney, and after a consultation with the Under Secretary, I made my report (see copy marked F), and he thereupon wrote the recommendation of the 23rd November, which was approved of by Mr. Farnell on the 26th (see copy marked G), and Mr. Brown was placed upon full pay.

As previously stated, I left Sydney upon the morning of the 31st October, and not on the 25th preceding, proof of which I have already supplied in the shape of a certified copy of a railway pass; also one showing that I returned on the 20th November, making in all an absence of 21 days, and not, as I have been led to believe, has been most positively asserted 27 days.

With regard to the leave of absence, I beg to state that it was applied for and granted verbally. Upon leaving the Under Secretary on the afternoon of the 30th October, I stated that I should pass through Melbourne, *en route* to Moama and Deniliquin, and inquired whether he would have any objection, should official duties permit, to my remaining in Melbourne a day or two, to which he replied that he saw no objection, or words to that effect. So much have my statements recently been impugned, that I deem it advisable to place this one beyond the pale of doubt, and do so by attaching a letter and declaration received, *unsolicited*, from Mr. J. K. Duguid when notice of the first questions were given and publicly discussed in a manner most unjust and damaging to me. See No. 16.

With reference to Mr. Barbour's assertion that my journey ought to have been finished in fourteen days, I have to state that the time occupied by me in actual travelling was one day, a night, and a half-a-day to Albury, a day to Melbourne, another to Deniliquin, two hours to Moama, a day to Melbourne, the following day and a greater part of the night to Corowa, a day to Albury, and two nights and a day to Sydney; making in all, say seven days and four nights. Seven days engaged in inspecting—add to this three Sundays, a general holiday, two Saturdays (half-days); in all five days; bringing the total to nineteen days and four nights. My charge was for twenty-one days.

In my previous statement I estimated the actual time not occupied on public business at three days, being the very utmost; but from the foregoing it will be seen that I could have very fairly stated it to be two.

Report of The Inspector of Land Offices.

A.

Sir,

Sydney, 10 June, 1878.

In view of the proposed establishment of the Albury Land Office upon a distinct footing, I took the opportunity when returning from Corowa of examining the state of the business. The work particularly connected with this department I found it to be in arrear, especially that relating to the examination and recording of notifications of alienations of conditional purchases. There were other arrears I was informed in connection with the account books. Considering it essential that the land work should be up to date at the time of the office being established as above mentioned, I, as reported by telegram, deemed it desirable to make every effort to place it in that position, and I succeeded in doing so before leaving Albury.

There is no doubt that a very considerable rush of business takes place in the month of March which demands that additional efforts should be made to cope with it, yet I cannot state that the arrears mentioned, notwithstanding the temporary absence since the 16th May of the Assistant Land Agent at Corowa, are warranted in the month of June.

The arrears of work I attribute wholly to the intemperate and irregular habits of the Land Agent, and I feel compelled to report most distinctly that if Mr. Brown continues them he will render himself unfit for his position. I quite realize the responsibility of reporting in such terms an old and hitherto valued officer, but I should deem myself wanting in my duty were I not to represent irregularities which so recently came prominently under my notice.

Before leaving Albury I desired the Police Magistrate, Captain Brownrigg, to report to you immediately he considered that Mr. Brown's habits were again prejudicially affecting the business of the office, but I venture to state I consider that nothing short of a distinct assurance from the latter of his intention to abstain from intemperance, and to strictly attend to his duties, to be confirmed by future inquiry and report, would warrant forbearance from extreme steps in the present instance.

I have, &c.,

CHARLES OLIVER,

I VERY much regret having to submit a report of this character against one who has hitherto been looked upon as an efficient and valued public officer, especially at a time when the question of relieving him of a portion of his duties (which he has long represented to be beyond his powers) at a mere nominal reduction of salary is under the consideration of the Government. I conclude that he must be called upon for an explanation. W.W.S., 11 June, 1878.

Sir,

Department of Lands, Sydney, 13 June, 1878.

The Inspector of Land Offices having reported that there were large arrears of work in your office which had been caused principally by your intemperate and irregular habits, I am directed to inform you that the Minister for Lands desires that you will at once furnish an explanation of your own personal conduct thus complained of, and of the causes which have led to the arrears in question being allowed to accumulate.

I am to add that Mr. Secretary Farnell had directed that you should be suspended, but in view of your former services such an extreme step has been waived for the present, pending the receipt of your explanation.

Referring to your letter of the 13th instant, calling upon me to furnish an explanation in regard to Mr. Inspector Oliver's report that there were large arrears of work in my office, &c. (with a view to my explaining), I do myself the honor, as a matter of common justice where the charges are of so general a nature to ask the favour of a perusal of the Inspector's report, or to be furnished with a copy of it, if the request is one that can be granted.

In reply to your letter of the 17th instant, I am directed to forward you an extract from Mr. Inspector Oliver's report as to the arrears of work in your office having been caused by your intemperate and irregular habits, and I have to request that you will be good enough to furnish without delay, for the information of the Minister for Lands, the explanation called for in my letter of the 13th instant with reference thereto.

No. 8.

The Crown Lands Agent, Albury, to The Under Secretary for Lands.

Sir,

Crown Lands Office, Albury, 29 June, 1878.

Referring to your letters of the 13th and 25th instant, respecting arrears of work, &c., reported by Mr. Inspector Oliver, and requesting my explanation, I do myself the honor to point out that the Inspector not having mentioned what the alleged arrears consist of, I find it difficult to answer the charge, as the only arrears, so far as I am aware of, affecting your department, were a number of alienation notices, some only partially dealt with, which have been lodged I believe during the months of April and May, or might rather be said to be current work on hand received in a short period, the extent and nature of which not only compelled delayed action, but could not be immediately attended to owing to distress caused by overwork during the excess of business which took place in the fierce summer months of January, February, March, and part of April. Towards the end of May, when Mr. Oliver arrived, every arrear was being rapidly disposed of, and would at that time have been wholly cleared off if I had not been deprived of the services of my assistant at an awkward juncture, and left alone to attend to the public and perform so many duties. As proof of this, although Mr. Oliver was here but a few days (with his aid) all these matters were all cleared off.

Having accounted during the time Mr. Oliver was here to the Inspector of Accounts from the Treasury for the whole of the moneys received by me in every capacity from the time of last inspection, and worked the books of account up to enable the last-mentioned officer to complete his investigation, it may perhaps be unnecessary further to allude to these books being behind-hand previously; however my subsequent remarks will apply to this subject also.

As to irregular and intemperate habits, I would state that (having for weeks previously nearly every night worked from a quarter to 8 until 11, 12 p.m., and half-past 1 a.m., after a hard and long day's work) towards the close of the examination of my matters here, I was suffering great pain from temporary illness. This, coupled with the anxieties of my position and the severity of two Inspectors dealing with different office matters, and the responsibility appertaining to the large sums I had to account for, composed of a great number of small items, deprived me of rest and sleep for nearly three nights, and possibly my nervousness and a state of exhaustion caused a wrong conclusion to be formed.

Now being relieved of the anxiety and pressure of inspection and with restored health, the public wants at this office have been punctually attended to, and by again working late hours at night and upon Sundays (my assistant still being absent) the work of the various offices has been kept well up, the moneys regularly banked and remitted, and upon the 1st prox. I will be enabled to furnish vouchers and remit collections to the Treasury under the several heads for this month. I trust it will not be thought out of place for me to mention that up to the time of Mr. Inspector Oliver's arrival there were received over 200 letters from 1st January all answered and attended to.

No arrears in regard to correspondence.

All forfeitures noted—the same with all notices of selections declared void.

Copies of all descriptions of leases entered in lease application register.

All leases Gazetted entered in general lease register; all sums paid by leaseholders registered.

Auction sales entered up in sales book.

Separate account of every selector in the district credited with the amount of interest, instalments, or balance paid by him; final reports to Department of Lands; eleven auction sales conducted and deposits and vouchers to Treasury.

Sale lists filled in, completed, and forwarded.

Every blank cover and communication from your department dealt with and answered.

Returns of every nature furnished to the different departments.

Copies of all applications entered in the conditional purchase register.

Indexes kept up.

Attested accounts to Auditor General.

Abstract of auction sales (D), moneys banked, drafts obtained and remitted.

Dates

Dates of all previous purchases searched for and noted upon C.P.'s., 21st section.

Notations in regard to non-residents on conditional purchases and alienees informed.

A great number of alienations noted and despatched.

Receipts to conditional purchasers for selections, interest, lease rent, and every variety of work in my several capacities attended to.

I trust I may also be excused under the circumstances in forwarding copies of my vouchers for interest received during the month of March and one out of eleven of the butts of receipt book used during that month for the purpose of giving an idea of what *this portion* of my duty was *alone*, and it must be borne in mind searches had to be made for dates and all changes of names discovered and money received, and change given to selectors, and all the items had to pass through the cash book with other collections. I had also to attend the Police Court in heavy criminal cases—the cases altogether amounting to several hundred.

My assistant being sick, had leave during January (the whole month). Upon my arrival in Albury sixteen years since, having been transferred from Tumut, I found 685½ acres of land sold under conditional purchase. Since then I have disposed of 951,038 acres under conditional purchase alone. My accounts have been inspected five times, and up to the late investigation I have faithfully accounted for a quarter of a million to £400,000 (approximately) sterling, and attended up to the present time to the (almost inconceivable) constant and burdensome business, and inquiries of the public caused by the extensive transactions, and I trust the Honorable the Minister for Lands, taking all the circumstances into consideration, will be pleased to consider my explanation (supported by the documents forwarded, and the fact of there being now no arrears) satisfactory, and that every exertion was made to keep pace with the work.

Case of Land Agent at Albury, 78/3181, ML.

THE Land Agent's explanation is directed chiefly to the matter of *arrears*, and he encloses voluminous documents, and copies of vouchers, &c., showing the amount of work done.

No question has ever been raised as to the immense quantity of work in the Lands Office at Albury; in fact it has been universally admitted. At the same time the very documents transmitted are in themselves evidence that the whole of the work represented by them has actually been performed by his *assistant*. This may, no doubt, be accounted for by the pressure of his business as C.P.S., Registrar, &c., and in view of which the separation of the offices of C.P.S. and Land Agent was lately authorized by the Cabinet.

The main charge, however, against the Land Agent, was that of intemperance, and the irregularity of his attendance at office caused thereby.

His explanation on this head is that he was suffering from temporary illness, in addition to a nervous state of exhaustion caused by over-work.

I feel bound, however, in justice to Mr. Oliver, the Inspector of Land Offices (who I am sure has had a most painful duty to perform in making the report he has done against an old public officer), to state that the same charge has been preferred, in more indirect terms by the Treasury Inspector of Accounts, Mr. Pinhey, who reports as follows:—

"There should be some guarantee that an important office collecting a large revenue, is controlled by an officer not subject to sudden loss of powers, from removable causes."

I think, however, that Mr. Brown's explanation, and assurance as to the future, may be accepted, this being the first charge *officially* made against him during his long period of service.

Should the Minister for Lands think it necessary to visit him with any special mark of disapproval, in addition to a severe reprimand, and a warning as to the future, I would submit that a reduction of the salary recently fixed upon for his offices as Land Agent for a period of three months, from £500 to £400, would meet the case, its restoration to the higher amount and Mr. B's. consequent continuance in office being made conditional upon a future investigation and report by the Inspector of Land Offices, or other officers appointed for the purpose.

Subject:—Respecting the Lands Office at Albury.

Department of Lands, Sydney, 8 July, 1878.

IN accordance with the decision of the Cabinet of the 12th ultimo, noted in the enclosed papers (78/2,798), it is recommended to His Excellency the Governor and the Executive Council that the office of Crown Lands Agent at Albury be established on a distinct footing from that of Clerk of Petty Sessions and other minor offices with which it is at present held by Mr. Edward Brown, and that he be appointed Land Agent.

It is further recommended, owing to Mr. Brown having recently been reported for certain irregularities, that the salary be for the first three months at the rate of £400 per annum, and that its restoration to the amount approved of by the Cabinet on the papers before quoted (*viz.*, £500), and the continuance in office of Mr. Brown be conditional upon a future investigation and report by the Inspector of Land Offices, or other officer appointed for the purpose.

JAMES S. FARNELL.

The Executive Council advise for the reasons set forth in the accompanying papers that authority be granted for the separation of the office of Crown Lands Agent in Albury from the office of Court of Petty Sessions, &c., there, and that Mr. Edward Brown be appointed to the said office of Land Agent, with the salary, and upon the conditions specified.—ALEX. Referring to your blank cover communication of the 20th ultimo, transmitting the papers in connection with the recent inspection of the accounts of the Land Agent at Albury, and drawing attention to his irregular and unsteady habits, I am directed to inform you that your Inspector's report, and that of the Inspector of Land Offices, together with Mr. Brown's explanation on the charges made, have been submitted to the Minister for Lands, and all the circumstances of the case having been carefully considered, it has been determined that instead of the salary of £500 per annum, which amount had been decided to be paid to Mr. Brown as Land Agent at Albury upon the separation of the office from that of Clerk of Petty Sessions, he shall only be entitled to receive salary at the rate of £400 per annum for the first three months after such alteration has been made, and that his salary shall be raised to the full sum of £500 at the end of that period, provided it be deemed advisable after a future report by the Inspector of Land Offices, or other officer appointed for that purpose, to continue him in his office.

I am to add that the separation of the offices in question will be carried into effect as soon as the Minister for Justice and Public Instruction has appointed a successor to Mr. Brown as Clerk of Petty Sessions, when a further communication will be addressed to you.

Report on the Albury accounts by Mr. Pinhey.

The Treasury, 8 June, 1878.

ALTHOUGH it is satisfactory to note that the collections for the period embraced in this inspection have been duly accounted for, it is very evident from this report that the habits of Mr. Brown for some time past have been very irregular and unsteady, and his neglect in keeping the books of account posted to date, failing to deposit the collections regularly, and his inattention and irregular attendance at the office, are deserving of severe censure. It is also painful to note these irregularities in an officer who, until lately, performed his duties in a very efficient manner, giving but little trouble to the Treasury, and who has been in the service since August, 1857.

As this is the first occasion that I am aware of that Mr. Brown has been reported for neglect of duty, I would recommend a severe reprimand being administered, and informed that severer punishment will follow a repetition of similar negligence.

Sir,

Treasury, Sydney, 13 June, 1878.

In forwarding a report on the accounts of the Clerk of Petty Sessions at Albury, I feel it incumbent on me to state that there has been an evident want of consistent effort on the part of Mr. Brown to keep pace with the work.

The considerable arrears at the time of my visit were explained as having been caused by the great pressure of payments of interest in March. There could be no question as to the quantity of work during that month, but it is undeniable that personally Mr. Brown had done little towards either drawing receipts, keeping the cash-book, noting payments in the conditional purchase register, or preparing the revenue vouchers.

His irregular attendance at the office is the cause of considerable inconvenience to the public, as is the difficulty they often experience in having their business promptly attended to.

If the office of Land Agent were made distinct, and Mr. Brown appointed without an assistant, there would, in my opinion, unless more energy and regularity in the prosecution of his duties were shown, be danger of the work becoming much involved and considerably more in arrear than the efforts of the assistant have permitted it to fall.

In former years Mr. Brown has proved himself an able and efficient officer, but when under exciting or depressing influences he becomes practically useless.

There should be some guarantee that an important office, collecting a large revenue, is controlled by an officer not subject to sudden loss of powers from removable causes.

Ordered by the Legislative Assembly to be printed, 2 May, 1879.

RETURN to an *Order* made by the Honorable the Legislative Assembly of New South Wales, dated 14th February, 1879, That there be laid upon the Table of this House,—

- “(1.) The names and districts allotted to each of the Commissioners of Inquiry under the Lands Acts Amendment Act of 1875.
- “(2.) The date of each Court of Inquiry held during 1878, number of days sitting, name of place, and presiding Commissioner.
- “(3.) The number of cases investigated during the year 1878 by each Commissioner, particularizing the Court where investigation was held.
- “(4.) The number of cases in which forfeiture was recommended, by which Commissioner, and the number of cases in which each recommendation was carried into effect by the Minister for Lands.
- “(5.) Amount of salary and allowance for travelling expenses paid to each Commissioner.”

(Mr. Thompson.)

I HAVE the honor to enclose a Return embodying the information called for by the Legislative Assembly, on the motion of Mr. Thompson.

I desire respectfully to state that no record has been kept to distinguish the cases in which forfeiture has been recommended from those in which it has taken place by the decision of the Minister; the information could only therefore be given by an examination in detail of all the various reports, which would hardly, I presume, be considered necessary; but I may state that in one or two cases only have the facts as disclosed in the evidence been held to require forfeiture where not recommended by the Commissioner, and that the number of cases in which a forfeiture has been recommended but not carried out has also been inconsiderable.

AFTER AUCTION SELECTIONS.

(OPINION OF ATTORNEY GENERAL)

Ordered by the Legislative Assembly to be printed, 10 June, 1879.

COPY of the Opinion of the Honorable the Attorney General on a protest by Hew Blackwood Patterson against the present practice in dealing with applications to select land under the 25th section of the Crown Lands Alienation Act of 1861.

ALTHOUGH this matter is not free from doubt, I cannot advise that the practice pursued in the Department, founded upon the decision of the late Minister for Lands, should be departed from.

CROWN LANDS BILL.

(MESSAGE No. 7.)

Ordered by the Legislative Assembly to be printed, 23 October, 1878.

HERCULES ROBINSON,

Governor,

Message No. 7.

In accordance with the 54th section of the Constitution Act the Governor recommends for the consideration of the Legislative Assembly the expediency of making provision to meet the requisite expenses in connection with the Bill to regulate the Alienation, Occupation, and Administration of Crown Lands in New South Wales.

LANDS ACTS FURTHER AMENDMENT BILL.

(MESSAGE No. 15.)

Ordered by the Legislative Assembly to be printed, 6 May, 1879.

ALFRED STEPHEN,

Lieutenant-Governor.

Message No. 15.

In accordance with the provision contained in the 54th clause of the Constitution Act, the Lieutenant-Governor recommends to the Legislative Assembly, to make provision for the expenses in connection with the Bill further to amend the Land Acts of 1861 and the Act of 1875.

Government House,

NEW SOUTH WALES.

CROWN LANDS BILL.

(PETITION FROM RICHARD SADLEIR, R.N.)

Received by the Legislative Assembly, 6 November, 1878.

To the Honorable the Legislative Assembly of New South Wales.

The Petition of Richard Sadleir, R.N.,—

HUMBLY SHOWETH :—

That your Petitioner was a member of your honorable House in 1861 in passing the Land Act of that period.

That he upheld the opinion that the pastoral and agricultural interest should be kept distinct by a system of agricultural areas, and that the experience of the past confirms the same.

That without this distinction and the facility of selection and certainty of tenure no mere modification of our land policy will effect a radical and special change in the system.

That reserves for agricultural and pastoral pursuits may now be made on the report of the surveyors of districts, and be so defined on the maps as to secure the obvious distinction, and to provide for the advance of population similar reserves should be made as leaseholds expire.

That the present system of surveying, owing to the random style of settlement, must be both expensive, tedious, and questionable.

That, therefore, the system adopted in the United States and Canada of blazed lines from one fixed point to another fixed point, with off-sets and mileage marks, would secure facility of choice and security of boundaries.

That the administration of the land to be placed in Local Boards, and a Control Board in Sydney; the latter to provide for national reserves, and to be a Board of appeal in cases of disputed decisions.

That the minimum price of lands for auction be regulated according to locality, timber, and quantity.

That improvements should not be of less value than £500, and the compensation in land allowed be taken adjoining to the freehold, if there be any such, and not be disconnected from the leasehold, and not allowable after ten years construction.

That declarations as to residence, &c., be discontinued, and certificates of the local land Board be substituted.

That improving leases may be granted as in Canada and Queensland, with power to purchase within a term of years.

That grants of free selection may be extended to 1,280 acres, so as to enable persons in this uncertain climate to combine pastoral pursuits with agricultural, and to encourage the settlement of persons qualified for the offices of Magistrates, Mayors, and other official positions.

That the tenure of squatters may be extended so as to encourage improvements and to protect them against intrusions, but subject on expiration of lease to reserve being made as aforesaid.

Your Petitioner therefore humbly prayeth that your honorable House will take the foregoing premises into your most favourable consideration when the new Land Bill, about to be introduced by the Government, is under your consideration.

And your Petitioner, as in duty bound, will ever pray.

THE LAND LAW.

(PETITION FROM FREE SELECTORS AND OTHER RESIDENTS OF THE DISTRICT OF YOUNG.)

Received by the Legislative Assembly, 27 November, 1878.

To the Honorable the Speaker and the Members of the Legislative Assembly of New South Wales, in
Parliament assembled.

The humble Petition of the undersigned Free Selectors and other residents of the District of
Young,—

SHOWETH :—

That in the opinion of your Petitioners the present Land Law of New South Wales may be rendered just and equitable, provided the following alterations be made therein, in reference to improved conditional purchases, namely :—

- 1st. That the minimum value of improvements shall be ten shillings per acre instead of one pound per acre, as now required on all lands conditionally purchased under the 13th, 14th, 21st and 22nd sections of the Crown Lands Alienation Act of 1861.
- 2nd. That all improvements upon conditional purchases which shall lapse or be forfeited, shall be deemed to be the property of the original selector or his or her transferee, and shall be paid for to him or her by any person to whom the land may revert; the value of such improvements to be determined by arbitration.

Your Petitioners therefore humbly pray that a Bill may be introduced into your Honorable House, as early as possible, to remedy the said defects in the Land Law, or give such relief to your Petitioners as to your Honorable House shall seem expedient.

And your Petitioners will ever pray, &c.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

LANDS ACTS FURTHER AMENDMENT BILL.

(PETITION—CROWN TENANTS OF THE UPPER DARLING.)

Received by the Legislative Assembly, 26 March, 1879.

To the Honorable the Legislative Assembly of New South Wales, in Parliament assembled.

The humble Petition of the undersigned,—

RESPECTFULLY SHOWETH:—

That your Petitioners, being Crown Tenants in the Upper Darling Districts, view with alarm especially the 14th and 15th Clauses of the Amending Land Bill now before the House.

With regard to the appraisalment, it is manifestly unfair that no appeal should be allowed from a decision by an appraiser appointed by the Minister alone; thus, no matter how great the grievance of the Crown tenant in this respect may be, he must abide by the decision or relinquish his country and improvements thereon however valuable.

Then, with regard to the rent being fixed at a minimum rate of one pound per section of 640 acres, this your Petitioners know is too high a rate and must lead to the abandonment of much country, which in many cases has been held from year to year, no chance having occurred to improve it except at ruinous expense; in some cases the difficulties have been insurmountable, however anxious the Crown tenant may have been to turn the country to profitable account.

Your Petitioners would point out that, supposing the country in which they are interested to have been fully improved, its average capability does not amount to more than (say) 10,000 sheep per block of 64,000 acres, this being country which in its natural state is absolutely useless, and which is only brought into bearing by the expenditure of large sums of money—not less than £5,000 for each block of the size referred to. The interest on this amount reaches a large sum, and, as the public estate is benefited to no small extent by the permanent occupation of the country, this large outlay unnecessary in more favoured localities should be considered.

The extreme dryness of many seasons has necessitated a much increased outlay for working expenses; as, for instance, no later than a few months ago many of your petitioners had to pay £50 and £60 per ton for flour, all the necessaries of life being high in proportion; in many cases also, the produce, wool, &c., having been carried in, has lain on the bank of the river for two seasons, thus no returns were secured, while expenses actually increased.

Your Petitioners therefore think that the proposed large increase of rent for country which includes the back blocks should not be arbitrary, but that circumstances and position should determine the value, which in many instances is only nominal.

Your Petitioners, therefore, humbly pray that your Honorable House will give its favourable consideration to the subject matter of this Petition.

And your Petitioners, as in duty bound, will ever pray.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

LANDS ACTS FURTHER AMENDMENT BILL.

(PETITION AGAINST—CITIZENS OF SYDNEY.)

Ordered by the Legislative Assembly to be received, 21 May, 1879.

To the Honorable the Speaker and Members of the Legislative Assembly.

The humble Petition of the Citizens of Sydney, from a meeting held at the Haymarket, on the 17th May, 1879,—

RESPECTFULLY SHOWETH :—

That your Petitioners—alive to the calamitous results of the Lands Act of 1861 and the Lands Act of 1875, which have led to the accumulation of enormously large estates into the hands of a few rich individuals, and the almost total extinction of *bond fide* free selectors—view with alarm the present Lands Amending Bill, which if allowed to become law, would not only aggravate the evil a hundred-fold, but cause the Country to lose many millions pounds sterling.

That for these and other reasons, your Petitioners particularly object to clauses 2, 3, 4, 6, and 12 of the said Bill.

Your Petitioners therefore pray your Hon. House to throw out the said Lands Amending Bill on its third reading, and grant the Country enlarged representation before the great question of the lands is taken into consideration.

And your Petitioners, as in duty bound, will ever pray.

Chairman.

1878.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

MESSRS. HACKET AND ARMSTRONG.

(PETITION OF.)

Ordered by the Legislative Assembly to be printed, 29 October, 1878.

To the Honorable the Speaker and Members of the Legislative Assembly of New South Wales, in Parliament assembled.

The Petition of T. R. Hacket, of Queensland, and Andrew Armstrong, of 26, Bridge-street, Sydney,—

HUMBLY SHOWETH:—

That one Francis Horace Stubley, of Darlinghurst, near Sydney, in the Colony of New South Wales, applied for, early in the month of January, 1878, to purchase portions 18 and 19, consisting of 640 acres respectively, in the parish of Merran, county of Wakool, which lots had been offered at auction at Deniliquin, as lots A and B, on September 26th, 1877, and purchased by the then applicants, Messrs. Hunt and Brown, who paid deposit thereon under the 23rd clause of "Crown Lands Act of 1861," but who failed to complete the purchase by not paying the balance due thereon at its proper date.

That, in accordance with the meaning of the 25th and 26th clauses of said Act, such failures rendered the lots in question available for auction selection, at sold price, less the amount of deposit paid.

That such price of £960 with deed fee of £2 was duly paid by the said Francis Horace Stubley to the Crown Lands Agent at Deniliquin, and clear receipt for such money and land sold was given to the said Francis Horace Stubley.

That, subsequent to acceptance of the purchase money for the portions named, Francis Horace Stubley applied for a pre-emptive lease of 3,840 acres, and paid one year's rent, amounting to £12, thereon, and that in due course and after departmental inquiry, respecting the nature of the holding in virtue of which such pre-lease was applied for, notification duly appeared in the *Government Gazette* granting such pre-emptive lease.

That your Petitioners have purchased the right, title, and interest in and to such land, and that since having done so the Department of Lands have declared such purchase void, on the grounds that, at the time of the purchase by the said Francis Horace Stubley, the Executive Council had not declared the deposit paid by Messrs. Hunt and Brown forfeited to the Crown, as also the pre-emptive lease has been cancelled, and your Petitioners officially informed of such cancellation.

That since the passing of the Alienation Act of 1861, a considerable number of alienations similar in every respect to those tendered by the said Francis Horace Stubley, have been applied for and such applications allowed.

That, believing the purchase for Francis Horace Stubley to be strictly in accordance with the terms and meaning of the Act of 1861, and that the holding thereunder by your Petitioners is perfectly legal, your Petitioners had entered into arrangements which were almost completed with reference to the disposal of such lands, which arrangements cannot now through the action complained of be carried into effect, thereby entailing a loss to your Petitioners which they estimate at sixteen hundred pounds.

Your Petitioners therefore humbly pray that your Honorable House will take this case into your earnest consideration, and in its justice decide that their title to such lands shall stand, or that they shall be compensated for the loss sustained in the cancellation of such purchase.

And your Petitioners, as in duty bound, will ever pray, &c., &c., &c.

T. R. HACKET.

LEGISLATIVE ASSEMBLY.
NEW SOUTH WALES.

MESSRS. LAKEMAN AND ARMSTRONG.

(PETITION OF.)

Ordered by the Legislative Assembly to be printed, 29 October, 1878.

To the Honorable the Speaker and Members of the Legislative Assembly of New South Wales, in Parliament assembled.

The Petition of Allen Lakeman, of Hay, and Andrew Armstrong, of 26, Bridge-street, Sydney,—

HUMBLY SHOWETH:—

That on June 20th, in the year 1878, seven thousand one hundred and twenty-one acres in the parish of Windowan, county Wakool, were offered at auction as Lots S to W and CC to WW, and sold to one Lachlan M'Bean, at £1 per acre.

That the said Lachlan M'Bean paid deposit of 25 per cent. thereon, and that balance of purchase money was not paid upon its proper date.

That previous to its being paid and while such lots were still available for purchase under the 25th clause of the Crown Lands Act of 1861, your Petitioners tendered applications with the sum of fifteen shillings per acre, being the price of such land, in accordance with the terms of the said 25th clause (as well as with previous departmental precedents), together with deed fees at £1 each.

That the right of your Petitioners to purchase the land under the circumstances has been denied, and their applications after consideration have been refused by the Department of Lands.

That such lands were not withdrawn from operation of the 25th clause until after your Petitioners were informed that such lands were not open to auction selection at the date of their application.

That your Petitioners, through such action of the Lands Department, suffer a loss which they estimate at nine thousand pounds, in the belief that their applications have been legally and properly tendered.

Your Petitioners therefore humbly pray that your Honorable House will take this case into your earnest consideration, and in its justice decide that their title to such land stand, or that they shall be compensated for the loss sustained in the cancellation of such purchase.

And your Petitioners, as in duty bound, will ever pray, &c., &c.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

ALEXANDER COUPER.

(PETITION OF.)

Received by the Legislative Assembly, 12 November, 1878.

To the Honorable the Speaker and Members of the Legislative Assembly of New South Wales, in Parliament assembled.

The Petition of Alexander Couper, of Woolloomooloo, Sydney,—

HUMBLY SHOWETH :—

That your Petitioner applied for (early in the month of December, 1877) the purchase of portion 101, area 160 acres 2 roods, in the county Bourke, parish Berembed, which lot had been offered at auction at Wagga Wagga as lot E, on July 12, 1876, and purchased by one James Hood, who failed to pay the balance of purchase money thereon, and that at the date of your Petitioner's applications the plan of such portion B, No. 256, 1,803, was distinctly marked—sale void, deposit forfeited.

That in accordance with the meaning of the 25th and 26th clauses of said Act, such failure rendered the lot in question available for auction selection at sold price, less the amount of deposit paid.

That such price with deed fee was paid by your Petitioner to the Crown Lands Agent at Wagga Wagga, and clear receipt for such money and land sold was given therefor.

That issue of deed of grant is refused to him by the Crown.

That your Petitioner believes that his purchase of such land is in accordance with existing land laws.

That your Petitioner therefore humbly prays that your Honorable House will take his case into serious consideration, and decide such purchase be allowed or award to him such decision as in its wisdom may seem fit.

And your Petitioner, as in duty bound, will ever pray.

(Signed)

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

MR. ANDREW M'DOUGALL.

(PETITION OF.)

Received by the Legislative Assembly, 9 July, 1879.

Unto the Honorable the Members of the Legislative Assembly, in Parliament assembled, the Memorial of Andrew M'Dougall, of Kelso Place, Singleton,—

MOST RESPECTFULLY SHOWETH:—

That on the 23rd day of May, 1823, your Memorialist was promised by His Excellency Sir Thomas Brisbane a grant of two thousand acres of land, on condition that he should take therewith certain convict servants and cattle, and on this condition only.

That your Memorialist on taking certain convict servants and cattle, and on doing this only, did actually receive one thousand acres of the above grant.

That His Excellency promised that the remaining thousand acres should be available whenever your Memorialist was in a position to comply with the same condition in respect of them.

That your Memorialist, shortly after His Excellency had left the Colony, applied for convict servants and cattle, that he might be able to take up the thousand acres in question.

That your Memorialist received notice from the Honorable the Colonial Secretary that the thousand acres in question would be available upon payment of five shillings per acre.

That your Memorialist waited upon the Honorable the Colonial Secretary and stated that the only condition attached to the grant of the two thousand acres (of which the thousand acres presently in question were a part) was that your Memorialist should take certain convict servants and cattle, for which your Memorialist had applied but which he had been unable to obtain.

That the Honorable the Colonial Secretary informed your Memorialist that the case should be inquired into.

That so far as your Memorialist is aware no inquiry was made. Your Memorialist never got the thousand acres of land, the balance of the grant of two thousand.

That it is evident from the record that your Memorialist was granted not one thousand but two thousand acres of land in one grant, and at the same time.

That it is evident from the record that the whole grant was promised on only one condition.

That it is a fact that your Memorialist received one thousand acres, a part of the whole two thousand, on condition simply of your Memorialist's having taken certain convict servants and cattle.

That therefore the balance of the two thousand acres must have been granted on the same condition and on no other.

That the inability of the Government to supply the convict servants and cattle ought not to prejudice my right.

That although the name of your Memorialist appears in a "List of the names of individuals indebted to the Government for price of land sold under the Regulations of Sir Thomas Brisbane dated 5th November, 1823, but on which no deposit has been paid" (and for failing to pay which the balance of my grant was subsequently declared forfeited), yet these Regulations cannot possibly apply to the case of your Memorialist, since as is evident from fact no price was attached to my grant of two thousand acres and that therefore by these Regulations your Memorialist's right cannot possibly have been forfeited or affected.

That your Memorialist therefore humbly prays that your Honorable House may be pleased to take these premises into your favourable consideration, and to grant such relief as to your Honorable House may seem meet.

And your Memorialist, as in duty bound, will ever pray.

ANDW. M'DOUGALL.

No. 1.

Mr. J. T. Ryan to The Land Agent, Penrith.

Application for the conditional purchase of unimproved land, without competition, by
James Tobias Ryan, of Emu Plains.

RECEIVED with deposit, this 11th day of February, 1864, at 3 o'clock, by James Tobias Ryan.

RICHARD BROOKS,
Land Agent for Penrith District.

Sir,

Penrith, 6 February, 1864.

I desire to purchase, under the Crown Lands Alienation Act of 1861, without competition, the portion of unimproved Crown land hereunder described; and I tender herewith a deposit at the rate of five shillings per acre on the area for which I apply.

I am, &c.,
JAMES T. RYAN.

DESCRIPTION.

County of Cook, parish unnamed, 40 acres, near Weatherboard, on the Bathurst Road, at the northern side thereof: Commencing at the north-east corner of John Mills's (now William Boyle's) 100 acres, along that line northerly 40 chains; thence on the north by a line easterly 20 chains; thence on the east by the western boundary of 640 acres put up for lease at Penrith on the 20th January, 1864, to the Great Western Road; thence on the south by that road to the point of commencement.

Should there not be a sufficient frontage on the said road, I am willing to have the difference to make the quantity at the rear.

No. 2.

Mr. Licensed-Surveyor Pitt to The Surveyor General.

Sir,

North Richmond, 19 July, 1865.

In compliance with your instructions by letter dated 17th June, 1864, I have the honor to state that I have surveyed and marked out 40 acres of land situate on the Bathurst Road, county of Cook, selected by James Tobias Ryan, under the 13th clause of the Crown Lands Alienation Act, and herewith forward *plan.

*Not necessary.

A tenant of Mr. Ryan's was residing on the land at the date of survey, but I was informed that Mr. Ryan's sons lived on the selection from the date of inspection to June, 1865. I have enclosed the application.

I have, &c.,

GEORGE M. PITT, Junior.

No. 3.

Mr. Licensed-Surveyor Pitt to The Surveyor General.

Sir,

North Richmond, 4 January, 1866.

* Not required.

In compliance with your instructions (which I have somewhere unfortunately mislaid), I have the honor to state I have enclosed *plan of amended survey of 40 acres of land conditionally purchased by James Tobias Ryan, under the 13th clause of the Crown Lands Alienation Act, and situate at the Weatherboard, Bathurst Road, county of Cook.

I have, &c.,

GEORGE M. PITT, Junior

Recommended to be reserved for railway by Honorable Minister for Works.—J.W.E, 21 August, /67.

No. 4.

Memorandum of instructions from the Surveyor General.

MEMORANDUM of subject requiring explanation or completion in connection with the survey and plan of 40 acres at the Weatherboard, county Cook, transmitted by Mr. Licensed-Surveyor Pitt's letter of 19th July, 1865, and on which Mr. Pitt's report in explanation is requested.

Subject.

Report.

Mr. Pitt was requested (in the former memo., which he mislaid) to state whether this portion was numbered of the year or of a proposed parish, and no mention has been made about the numbering in his letter answering the memo.

Of the year only. It should be numbered XIX as of a parish. I will introduce the number on the trees on my next trip up the road.

Sir,

Department of Lands, Sydney, 17 November, 1868.

I am directed to transmit herewith for your information a description with a tracing* showing a portion of land at Darling Causeway, county of Cook, which, by notice in the Government Gazette of the 10th instant, has been reserved from sale until surveyed, under the 4th section of the Crown Lands Alienation Act, for the approach to railway.

For description see No. 18.

No. 20.

Mr. Surveyor Deering to The Surveyor General.

Sir,

21 October, 1875.

The Surveyor General lately deputed me to report on the reserve at Govett's Leap, and therefore he may not consider it out of place in me now to formally propose that the whole of the Grose Valley to the eastward of Govett's Leap be permanently reserved. A selection has been made, or is about to be made, in the valley. As I have already been spoken to on the subject, I hope not to exceed my duty in expressing a conviction that no such selection or alienation in any form should be permitted. The Grose Valley is a national spectacle. A house of accommodation for excursionists at the bottom of the valley can be managed without alienation.

I think it will be found that portions of the Yosemite Valley were once alienated, and resumed with compensation by the United States Government.

It is probable that the Grose Valley will now be frequently visited, for a track has been found near the waterfall, and ascent actually made from the junction of the Govett's Leap with the Grose, a point at present about three hours' walk from the fall, within the last few days, thus avoiding the long detour of many miles.

JOHN W. DEERING.

Minutes on above.

Surveyor General.—Shall this be carried out?—J.W.E., 2 November, 1875.

I should like the opinion of Mr. Du Faur, who has paid great attention to this place. I am also disposed to recommend the reserve for future water supply to Sydney.—P.F.A., 2 November, 1875.

I would fully endorse the enclosed recommendation of Mr. Surveyor Deering; but would further define the proposed reservation as follows, viz.: All the watersheds of the Govett's Leap Creek, extending from the perpendicular cliffs bounding it on the north, west, and south to its confluence with the Grose River; also the valley of that river, bounded by similar cliffs, for a distance of 2 miles above and 2 miles below the confluence of Govett's Leap Creek. With reference to the selection mentioned by Mr. Deering, I believe it to be 40 acres selected by Carver, an old settler, near the junction of the Grose with the Nepean. Carver appears to have been well acquainted with the Grose Valley for many years previous to the time of the survey made by the sappers and miners. At that time he turned some cattle into the flats at junction of Govett's Leap Creek, 30 miles above the Nepean, and 12 miles below the Darling Causeway, and at the present time there are many of their progeny running wild there which he has never succeeded in mustering. Carver joined our recent camp, with his two sons, and for several days endeavoured to muster or shoot some of the wild cattle, without success. He informed me that he had selected 40 acres "at the foot of Mount King George, at the confluence of Govett's Leap Creek with the Grose." This spot can be made easily accessible within an hour's walk from the end of the 4 mile 60 chain road recently cleared from Blackheath along the range on north side of the Govett's Leap Gorge, if a small amount were spent on a track, by which some of our party climbed out of the gorge without any difficulty. As Carver proposed erecting a substantial hut on his selection, I am inclined to think that his settling there would do much towards opening up these gorges for tourists and artists, and that his selection might be measured so as to in no way interfere with the public interests, unless at some future time, as shadowed forth in the Surveyor General's minute, the Grose Valley might be converted into a series of reservoirs for water supply of Sydney. A small homestead, where potatoes, corn, and dairy produce could be raised, and the necessity for transporting rations avoided, would do more than anything else towards the early development of the locality, in which there are many other falls and spots of almost equal interest with the one generally known as Govett's Leap, which would soon be opened up by tourists but for the difficulty of obtaining supplies.—E. DU FAUR, 2 November, 1875.

The Surveyor General.

The Commissioner for Roads has promised to take an early opportunity of obtaining a report on the track by which we climbed out from the junction, and as to the feasibility of making it more generally accessible.

For reasons stated in the letter of Mr. Surveyor Deering, in view of possible future requirements of Sydney in water supply, I think it would be desirable to reserve the valleys of Govett's Leap Creek and the Grose, from its source to a point 2 miles in a direct line below the junction of Govett's Leap Creek, from conditional purchase.

No. 1.

Minute by the Deputy Surveyor General.

ATTENTION has been called to the existence of certain natural features, such as waterfalls, fine views, &c. upon or near the line of Railway passing the Weatherboard and Blackheath, and to the necessity of reserving certain spots in their neighbourhood for public recreation, &c., also for subdivision for sale into portions of suitable area for residences.

In order that an examination and the necessary surveys may take place, the accompanying description of a temporary reserve from conditional purchase is submitted, with a view to its proclamation. The area is necessarily large, 44 square miles, extending 1 mile or 1 and 2 miles on the other side of the road. The land embraced is unsuited to conditional purchase for agricultural purposes.

Mr. Licensed-Surveyor Wyndham to The Surveyor General.

Sir,

158, Burton-street, Darlinghurst, Sydney, 24 December, 1867.

I have to report that in compliance with your instructions I have examined the land in the neighbourhood of the waterfalls at the Weatherboard and at Blackheath, with reference to the sale of portions as sites for summer residences, &c.; and that I have made a feature survey of the land available for that purpose at the former place, which I herewith transmit to you. Nearly the whole of the unalienated land shown on the plan is well suited for the proposed purpose.

There is a portion of alienated land of which one corner only is shown on the plan, as owing to an error in the reference of the County Map (as it appears to me) I have no copy of the original plan of the portion, and could not therefore show it without making a fresh survey of it.

With regard to the land at Blackheath, I do not consider it so well adapted to the intended purpose as that at the Weatherboard, as the land from whence a view of the valley can be obtained only extends a short distance from the edge of the cliffs, near which some few portions might be laid out with advantage.

I have, &c.,

EDWARD S. WYNDHAM,

Licensed Surveyor.

The instructions did not convey the scale upon which Mr. Wyndham was required to plot this work. He is therefore requested to replot it upon a scale of 8 chains to the inch, and furnish a design for subdivision into portions of suitable area for the purpose, say from 5 to 15 acres, also a reserve for public recreation.—P.F.A., 31st December.

Report.

It should have been stated on the plan that corners marked G and H were found*. Traverse line 106 is entered in the traverse table as bearing south $24^{\circ} 5'$ east; it plots S. $14^{\circ} 5'$ east.

Frost's 40-acre portion, as fixed by Charlton, (licensed surveyor) is shown on the attached tracing in black lines.

The red lines show its position according to present survey.

The corners G and H were found. I will attend to this in future.

*This is a clerical error in the plan. The bearing in field-book is S. $14^{\circ} 5'$ E.

I found the S.E. corner of this portion and the S. boundary marked on tracing. The ground as shown in my plan.

I am directed to transmit herewith for your information a description with a tracing* showing the portion of the reserve for recreation in the parish of Megalong, county of Cook, which has been revoked by notice in the Government Gazette of the 24th ultimo.

The reserve has been subdivided for sale, and is now open to conditional purchase.

No. 1.

Mr. District-Surveyor Dewhurst to The Surveyor General.

Sir,

Tamworth, 30 December, 1876.

In compliance with your memorandum, I have the honor to recommend the adoption of the boundaries shown in the enclosed *tracing, which will include a large forest of valuable timber.

The area proposed to be reserved is of great extent. This becomes necessary, as it is impossible to define with any degree of exactness where the timber is good or where it is worthless, and I have to be entirely guided by the result of my observations when engaged some years ago in a two months' feature-survey, traversing the various creeks and tracks which intersect the country.

I beg especially to call your attention to the large plan I had the honor to transmit to you with my letter referred to in the margin, dated March 26th, 1872. You will there observe that the lines shown here cut through or come near certain known points in the scrub; also, that they include certain country known by observation to be well timbered, while they exclude much that is known to be worthless.

Petition from Residents of Narrabri and Namoi River.

1876-7.—Legislative Assembly, New South Wales.

Timber Reserve near Narrabri.—(Petition respecting—Residents of Narrabri and Namoi River.)

Ordered by the Legislative Assembly to be printed, 16 May, 1877.

To the Honorable the Members of the Legislative Assembly of New South Wales, in Parliament assembled.

The humble Petition of the undersigned Residents of Narrabri and that portion of the Gwydir District known as the Namoi,—

Showeth:—

1. That with surprise and alarm your Petitioners have been made aware, by notification bearing date the 20th day of March, in the year of our Lord 1877, and published in the New South Wales Government Gazette, dated 23rd day of the same month, and in the same year, that a reserve, numbered 1,088, of an area of some five hundred and twenty square miles, extending from Turrawan to four miles below Pilliga Hut, fronting close on to the Namoi River, and at or opposite the town of Narrabri, stretching backwards some sixteen miles, has been proclaimed by the Government for the preservation and growth of timber, and is moreover reserved from sale under the "Crown Lands Alienation Act of 1864," and exempted from the operation of licenses issued under the Crown Lands Regulations.

2. That, with the exception of a small supply remaining on the right bank of the river, far removed from the town, and which is calculated to last three months at the very outside, your Petitioners are cut off from all timber for fencing or building purposes by the aforesaid reserve having been proclaimed.

3. That the result of the aforesaid reserve having been made has been that many of your Petitioners have been deprived of the means of earning an honest livelihood by splitting and sawing; that the building and other trades depending upon an adequate supply of timber are either already brought, or will shortly be brought, to a standstill; that a sudden and decided stop has been put to the progress of the township; that the Crown lessees will have to discontinue fencing and other improvements; and the conditional purchasers will be debarred from fulfilling the conditions of improvement imposed upon them by the "Crown Lands Alienation Act of 1864."

4. That a more careful survey of the country lying between the Namoi and Castlereagh Rivers will show that the very best ironbark timber lies from fifteen to twenty-five or thirty miles back from the former river; that in the reserve aforesaid the ironbark timber is scarce and of inferior quality, unfit for Government purposes, but fit for the requirements of your Petitioners; and that the aforesaid reserve contains large quantities of oak, box, pine, and belar, such as (of no use to the Government or the Government's contractors) are of the greatest value to your Petitioners.

5. That the contractor for the bridges over the Narrabri Creek and Namoi River has had to pass right through and beyond the aforesaid reserve before he could find ironbark timber suited to his purposes.

6. That the action of the aforesaid reserve is proving and must prove most injurious to the welfare and detrimental to the prosperity of your Petitioners.

7. That the condition attaching to the so-called permit, prohibiting the cutting of any tree of a less diameter than twenty-four inches, precludes the utilizing of box, oak, pine, belar, and other useful timbers, which only in very rare instances attain to such dimensions.

Your Petitioners, under the aforesaid circumstances, respectfully pray that your Honorable House will cause inquiry to be made by disinterested experts into the truth of the aforesaid allegations, and extend to your Petitioners such measure of relief, either by revocation of or throwing back the aforesaid reserve some twelve or fifteen miles, as may seem meet to your Honorable House.

And your Petitioners, as in duty bound, will ever pray.

Report on the *Petition of the residents of Narrabri and Namoi.

Narrabri, 8 June, 1877.

1st. The several statements set forth in this clause are correct.

2nd. The timber fit for building purposes is far removed from Narrabri, some 16 miles, except on reserve 1,088, and is scant in quantity.

3rd. It is incorrect that any of the petitioners or any other person has been deprived of the means of support by splitting or sawing, or that building or other trades depending on an adequate supply of timber are either brought or will be brought to a standstill; nor has the progress of the township been interfered with. The Crown lessees are fencing as quickly as the scarcity of labour will permit; and the conditional purchasers are not only fencing and building, but making fresh selections.

4th. Quantities of good timber can be found beyond the reserve. Oak, pine, &c., can be found on the reserve fit for fencing, &c., but of no use for large works.

5th. The contractor for bridges at Narrabri had to go beyond the reserve for hardwood, as the species on that part of the reserve ripen before attaining maturity.

6th. In no way has the reserve interfered with the welfare of the petitioners, or the prosperity of Narrabri.

During the last three months several buildings have been put up, and others (some of large dimensions) are in course of erection. Special permits have been applied for and issued, and every facility given to applications to prevent inconvenience.

7th. The conditions attaching to permits as regards pine have been reduced from 24 to 12 inches. The hardwood can be found the size required by the permits in quantities on the reserve.

The prayer of the petitioners could be attended to by severing that portion of the reserve from Tarawan to Brigalow Creek, about 17 miles frontage to Namoi River. Brigalow Creek will be a well-defined boundary; the best timbers on that portion of the reserve are found on Sandy, Jack's, and Bohena Creeks. The reserve would then have a frontage of 90 miles to the river.

Forest Ranger.

No. 4.

District-Surveyor Dewhurst to The Surveyor General.

Sir,

Tamworth, 23 June, 1877.

I have the honor to inform you that I have read the petition respecting the timber reserve near Narrabri, and as you desire me to report further on the subject, or to reconsider my previous recommendations, I beg to state that, on a careful review of the plans in my possession and the former report, together with the various clauses of the petition, I can arrive at no other conclusion but that the boundaries of the reserve as proclaimed, embrace a vast amount of excellent, soft, and hardwood timber. It is satisfactory to observe that the petitioners, while they endeavour for present necessities to frustrate the value of the reserve, completely indorse my report, showing that even in the vicinity of the river extensive splitting and fencing operations are carried on.

So far as protecting the valuable timber from wanton destruction or careless use is concerned, the end appears to have been well obtained by the proclamation of the present boundaries; but I am very far from being prepared to advance as my opinion, that any town should be shut out from the privilege of availing itself of the careful use of fine timber that may grow in its precincts, for the benefit of a town that may in that respect stand in a less-favoured situation. I may well call your attention to my letter, in

in which I showed the pitiable state Tamworth was reduced to a few years ago, by an arbitrary lock up of a vast area of Crown lands containing all the available timber. The ultimate result of my letter was, that the reserve was at length thrown open to the public under certain rules and regulations, and the best sawn timber can now be delivered in Tamworth, a distance of 40 miles, for £1 2s. per 100 feet.

This statement of figures and facts goes far to prove that the present rules and regulations and the price of permits cannot be so crushing as the 210 Narrabri consumers and petitioners seem to imagine; but I may suggest that they be carefully reconsidered and revised, with some regard to the different species of timber, and that if it be considered expedient, the reserve should be set back from the river 2 miles along its course.

Surveyor M^cMaster to The Surveyor General.

Sir,

12 November, 1877.

In connection with circular, dated October 17th, 1877, I have the honor to report, viz. :—

Paragraph 1.—There are no reserves in my district that would come under this class.

Paragraph 2.—With the exception of the modification I have proposed on annexed* tracing, I consider that for the present the whole of reserve No. 1,088, in the counties of White and Baradine, should be classified under this paragraph. * Appendix B.

The country upon reserve No. 1,088 is of such a very poor nature that even were it not reserved it would not be required for alienation by the public for many years to come, and therefore no injustice would be done by bringing this reserve under the provisions of the 39th section of the Crown Lands Act 1875, until some future date, when the railway and other causes shall more fully determine the value of the at present comparatively unknown forest of ironbark and pine upon this reserve.

I may also mention that it would require a week or ten days at the very least to inspect and classify each particular part of this large reserve.

Reserve No. 987, I would class under the second paragraph without any alteration.

The two reserves mentioned above are the only timber reserves I know in my district.

Paragraph 3.—Probably a large portion of reserve No. 1,088 will hereafter be classed under the third paragraph.

Paragraph 4.—I have forwarded herewith a tracing showing a portion of reserve No. 1,088; that I propose should be cancelled, as it does not contain timber of sufficient value to warrant its being retained as a reserve for the preservation of timber.

Paragraph 5.—I do not know of any places in my district that require reserves for the preservation of firewood.

I have, &c.,

Sir,

Tamworth District Office, 6 May, 1878.

In compliance with the instructions contained in your circular letter, dated 17th October, 1877, I have the honor to enumerate the various timber reserves in my district, classifying the same as nearly as possible in accordance with its terms.

To facilitate reference, and for future comparison, I will take the districts by the counties; and as far as possible by the parishes they include. Plan—

It appears therefore that out of ten counties of which my district is made up, six have no timber reserves whatever.

2nd. That the four remaining counties contain six reserves, one of which is recommended for cancellation, and another to be reduced to half its present area.

3rd. That the excessive reservations have not been made in the Liverpool Plains district.

It is evident also, looking upon the timber supply of a great country from an economic point of view, that the forest reserves in this district are not nearly equal to its future requirements.

Quoting a well-known work, page 1,305 of the "Dictionary of Commerce," on the importance of a cheap supply of timber, the writer states: "If there be one article more than another with which it is of pecuniary importance that a great commercial and manufacturing nation should be abundantly supplied on the lowest terms, that article is timber."

The Conservator of State Forests, New Zealand, reports: "In comparatively young colonies like New Zealand, we must not forget to provide for the requirements of a future dense population, bearing in mind that in the case of forests, perhaps more than in any other, it is much easier to keep and improve what we have got than to create it anew when required."

And again, from the very able report of the Secretary for Agriculture (Mr. A. R. Wallis), of Victoria: "In a new country it is not easy to err on the side of proclaiming *too large* an area of forest land, as it is always more difficult as settlement proceeds to extend than it is to diminish a reserve for any purpose."

The extent of the demand, present and future, can be, as far as the future is concerned, only speculated upon, though estimates of the growth of population, the effects of cost of carriage of timber from remote parts of the forest, upon the demand for export or for other purposes, of possible competition with other forests, or with timber brought beyond the seas, may be made with some show of usefulness in guiding the judgment in making the required reservations.

The grave importance of conserving for future demand, and managing for present supply, the most valuable tracts of land bearing timber of commercial value, has evidently not been overlooked in the neighbouring colonies; and the report before quoted will show that most energetic steps are being taken to increase the areas already reserved, to proclaim additional reserves wherever practicable, and to place (what I may term from their system of classification) the woods and forests under the most careful and systematic management.

It would, perhaps, be well to take a cursory review of what has already been done in Victoria, and of the steps proposed to be taken with regard to forest reservations and management, before submitting a course of action which might be followed in this district—a course that differs considerably from that followed elsewhere.

In

In Victoria the reserves are classed—

1. State Forests.
2. Permanent Timber Reserves.
3. Temporary Timber Reserves.

To commence with the reservation for timber of the first class, which answer to the "forest reserves" in this Colony.

The number of State forests in Victoria appears to be twenty-eight, embracing an area of 889,951 acres. The definition of such is, "that they should comprise large areas of good soil, heavily timbered, which would, under proper management, yield sufficient timber to supply, without impoverishment, all demands upon them"; but it is admitted that only nine of the number can ever be made to meet these requirements on all points.

Foresters have been appointed, after examination by a Board of Officers of the Department of Agriculture, to take charge of nine State forests, and substantial quarters have been erected for them within the forest boundaries.

Their duties will be to enforce the regulations for cutting and removing timber (regulations which deserve careful study); but they will devote as much time as possible to surveys that will show the position and extent of timber of different kinds and ages, and they will furnish reports at stated times as to the extent of the cutting and other matters of interest.

No. 2.—Permanent Timber Reserves.

These comprise those reserves which are in a condition to supply both the kind and quantity of timber for the furnishing of which they are set apart, and which are so situated as to render their permanent retention expedient.

No. 3.—Temporary Timber Reserves

Are reserves made from time to time, generally in newly-settled districts, for the purpose of supplying timber for fencing and fuel. They are of small extent, and only local value.

No system of management has, I believe, yet been adopted for reserves of the 2nd and 3rd class; but suggestions have been made as to the desirability of placing them under the control of shire or municipal councils—bodies that do not unfortunately exist in this Colony.

This is the merest outline of the course that has been taken with respect to the preservation of timber in the younger Colony. I may, however, observe that it is based on principles that are working so successfully in India, which were derived from a careful study of forestry in the leading countries in Europe.

With respect to the proportion of the public estate that it is desirable to reserve for forest purposes, great difference of opinion appears to exist. In Germany 25 per cent. of the total area is forest, while 12½ per cent. is State forest.

In Bavaria the proportion of forest is 34 per cent. Sir Julius Vogel recommends reservations to the extent only of 3 per cent. in New Zealand, which the Conservator of Forests considers should be the minimum for State purposes.

In Victoria the reserves amount to over 2 per cent. of the area; but large extensions are being made wherever possible.

In South Australia I am unable to state with precision the proportion that timber reserves have to the acreage of the Colony;* but I find that inducements have been held out to private enterprise to plant and preserve small blocks of land with eucalypti and other trees.

In Queensland, 292,689 acres have been reserved specially for timber, or about 1½ per cent. of the area, but I understand that active steps are being taken to increase the area very considerably.

In New South Wales, 2,799,061 acres have been set apart temporarily for the supply, but not for the preservation of indigenous timber, or nearly 1½ per cent. of the area, and the issue of the circular herewith seems to indicate a disposition to decrease these reserves.

In the district of Liverpool Plains, the forest and timber reserves that have been already proclaimed, equal about 2½ per cent. of the area, but this comparatively large percentage has been reached by the notification of reserve 1,104, which in itself contains 294,400, or over 2 per cent. of the acreage of the district. I may add, that the boundaries of this forest embrace a large area of land which could profitably be excised, and should the recommendation I have submitted in this report be carried into effect, its area will be reduced to about 100,000 acres.

As I look upon the excessive reservation as only temporary (but under present circumstances absolutely necessary), the actual figures that will represent the proportion, should be equal to about 1½ per cent.—a proportion not equal to future requirements.

In making the following suggestions, I cannot but feel that I may be considered overstepping the limits of a simple reply to your circular, and to a certain extent acting in antagonism to its spirit, which seems to point only to modifications and curtailments, and not to judicious extension of timber reserve either by increase of area to those already notified or the recommendation of others; but if you will be pleased to bear in mind that in six counties out of the ten that comprise my district, no reservations whatever have been made, and that the issue of the circular seems to display the intention of placing them on some definite footing, you will I trust acquit me of such intention.

Before proceeding, I deem it necessary to lay before you what, from my point of view, would be a complete design for the wise preservation of indigenous timber.

Looking forward to a time, probably not far distant, when the central Government will so far consult the interest of the country as to divide the interior into shire or county municipalities with a certain amount of subordinate local government (a principle highly approved of by the present Agent-General of this Colony, and universally adopted with success in other countries), I am of opinion that each shire or county which in New South Wales contains about 973,000 acres should be made as complete as possible in itself, and therefore that each county should be able to claim among other advantages, a State forest reserve—such reserves should be however controlled by the central Government, for obvious reasons, one of which would be, that they should be under uniform rules and regulations.

I recommend that the definition applied to State forests in Victoria be that adopted for forest reserves, and that in such, where much timber-cutting is going on, foresters be appointed on the same terms

* I have since ascertained that the area reserved up to date is 127,768 acres.

terms as those in that Colony, with the express stipulation of residence within the boundaries, provision being duly made for the same.

Each county is divided into parishes containing on an average 30,000 acres, and as in each parish there are numerous reserves for water supply or some other public benefit, a careful revision should be made like that of the county of Buckland, transmitted to you with my letter, and those recommended to be reserved from lease should be placed under the control of trustees, freeholders of the parish, who would in the common interest make the necessary rules with respect to agistment, watering, and the supply of timber for building, fencing, or firewood, subject, however, to the superior control of the more important shire government, when such may be established.

Such reserves comply with the conditions of class No. 2 in Victoria, and meet those under head 5 of your circular.

The county State forest directly under Government control, and the parish reserves for timber and other purposes, actually meet every case that can be suggested for the future good of the district or colony and the present requirements of the people.

The "temporary" or third class reserves of Victoria, are in my opinion unnecessary, inasmuch as in "newly settled districts" the larger scope of vacant Crown lands is an open field for the supply of all sorts of timber.

Neither of the two classes of reserves that I recommend would meet the terms of head one of your circular, nor would it be desirable that they should; as, when timber has arrived at maturity, it should at once be felled for use, whether a demand existed for it for public works or otherwise. If allowed to stand awaiting such demand, its decay would be injurious to other growing timber.

Neither of these two classes of reserves should be divided into two, four, or five mile blocks for indiscriminate, and, in many cases, wanton destruction, having in view their revocation for sale. It is known from experience that reserves denuded of timber, but covered with lumber, and thick set with heavy stumps and crooked growing sprouts and saplings, would not, except favoured by position, command a price at all equal to that readily obtained for other land not so hampered; but, on the contrary, the greatest care should be exercised by the forester to see that only mature trees are cut down; that even of these a limited number should be preserved for seed and shelter over the entire area, and thus keep up to its highest point the productive value of the reserve.

To recapitulate: The reserves that appear to meet all the requirements, present and future, for the preservation of timber, may be limited to two classes—those from lease, distributed through each parish, which would be managed by local Boards, and the forest reserves proper, which would be under the direct control of the central Government.

I claim perfect originality for this scheme, whether it may be approved or condemned; but I have ascertained that Captain Walker (before quoted) recommends forest reserves to be divided into "State" and "Commercial," that is to say, reserves for the use of communities, municipalities, endowments, &c., which recommendation is in perfect agreement with my hypothesis.

On this basis I will now give a list of the former, so far as the compilation of my district will allow me to be explicit, and a description of the latter, which can scarcely be open to serious objection.

See forms at end
of report.—A.D.

I present them on printed forms, devoting a separate sheet to each class, and I purpose to give a detached account of each forest reserve, which will embrace all the information I have been able to collect.

The Nundle Forest Reserve

Is situated in the county of Parry. It however slightly encroaches on the county of Hawes. This forest was notified on the 29th of April, 1872, on the recommendation of Mr. Licensed-Surveyor Dowe. It was exempted from the operation of licenses till the year 1875-6, when, on the application of Mr W. C. Browne, M.P., it was thrown open to the public, on payment of an annual special license.

From the time of its proclamation to this date, illegal timber-cutting has been carried on, with little or no obstruction from the Government.

In the year 1876 a forest ranger was appointed to enforce the holding of special licenses, but up to the present time all attempts at the prosecution of offenders by the rangers have failed, owing to his inability to swear positively to the boundaries of the reserve.

On the 19th November, 1877, instructions issued from the Surveyor General's Office to survey and mark the south-west boundary, and towards the end of January, 1878, I commenced the survey.

As the work proceeded, and I became acquainted with the nature of the country, it became apparent that other boundaries required marking, in order to enable the ranger to carry out his duties effectively. I therefore extended my survey to the south-eastern and part of the north-western boundaries, a tracing of which I had the honor to transmit to you on the 2nd March, 1878.

This survey is, I believe, the first that has been made in this Colony with a view to the preservation of its timber, and on the plan, which is embraced in the parish map of Nundle, all matters of detail or interest that I could afford time to define are shown as clearly as possible.

I will now report on the soil, vegetation, varieties of timber within the reserve, the climate, and means of access.

The soil is exceedingly rich; it is of a deep chocolate black colour, overlying trap-rock, with veins of green-stone and quartz, and running up without change to the top of the hills. From my recollection it is remarkably like that found at Mount Macedon State Forest, Victoria.

It is covered with a thick mat of the grasses generally growing on high New England country, fairly nourishing during summer, but, except in very sheltered situations, only barely capable of sustaining stock during winter.

Ferns of great beauty and size grow in various parts of the forest, and can be found in rich variety in the various gullies and in the low-lying land.

Cleared and cultivated, the soil would produce from twenty-five to thirty bushels of wheat to the acre for some years without manure, and off the stubble the same year it has produced from six to seven tons of potatoes, twelve tons of mangel-wursel, and twenty-five tons of Swede turnips per acre have been frequently gathered.

Aided by climate, it is favourable to all the fruits that can be grown in England or even in the north of France without shelter or protection.

The

The indigenous timber is made up of the following varieties:—

Stringy-bark, woolly-butt, black-butt—used for house-building purposes.
Blue-gum—not Tasmanian, but used in the construction of drays and waggons.
Peppermint—a soft wood, not at present used in trade.
Cherry—an ornamental tree.
Sassafras—a hard and dense wood used in medicine, and for cabinet-work.
Myrtle—an ornamental tree.

Wattle—used in the production of tannin.

The various descriptions of stringy-bark, so valuable for building purposes, which are growing so closely together, and to such a prodigious size, together with the wattle for its bark, mark this reserve as one of the finest hard-wood forests in New South Wales.

Taking the mean of several counts to the north-east and south-west of the reserve, I should estimate the number of such trees as sixty to the acre, cutting on an average 600 feet surface, but of this number twenty have passed their prime and are now in process of decay, and twenty are ready for the axe, pointing to the desirability of not placing too many restrictions on, but rather to the encouragement of, the timber trade.

I wish it to be clearly understood that I am in this case selecting particular parts of the forest, and that I do not wish to convey the impression that this would be the average "out-turn" of the whole area.

It may be interesting to know that the average out-turn of the forests of New Zealand has been calculated at 15,000 feet surface, and that in that country localities could be selected that would give 30,000 feet to the acre.

The number of saplings growing among the large timber is scarcely to be calculated. Thinning out to promote rapid growth would be desirable.

The climate.

Situated at an altitude of about 3,500 feet above the ocean, and within the influence of the sea breezes, the climate is temperate in the English acceptation of the term, but scarcely so in that generally implied in Colonial parlance.

In the shade at midsummer the mean temperature at 2 p.m. is 70°; in winter, 50°.

The seasons, unlike those in the low lands, are distinctly defined as spring, summer, autumn, and winter.

Wheat is sown in May and housed in December. Swedes (turnips) are planted in January, and taken off in July and August. Mangel-wurzel planted in October come off in June; and potatoes sown in November are gathered in May.

Frosts set in during May and generally end in September.

The rainfall is regular and ample for agricultural purposes, and it is supplemented by mists from the sea, which keep up the even moisture of the soil.

Snow storms frequently occur during the winter, and snow lies on the ground to a depth of 2 feet.

Essentially, from its soil, position, and climate, the country is adapted for agriculture. Partially with the aid of artificial protection and stall-feeding, it may be made available for the raising and fattening of stock.

Access to the reserve and table-land generally has been provided by means of a new road constructed from Nundle up to the Hanging Rock, which is to be continued to Tamworth.

The cost of the former work has been about £3,000. It has been carried out under the able superintendence of the officers of the Road Department; but, in my opinion, other and more convenient access should be still provided.

An excellent road could be constructed at small comparative cost up Duncan's Creek. The only cuttings of any magnitude would be confined to a distance of about half-a-mile, up the side of what is known as the "Sand Hill." This road would shorten the distance to Tamworth by (8) eight miles, and would relieve the loaded teams from the most difficult and trying part of the journey. The expense of the necessary work would not exceed £1,000.

I have now the honor to recommend the extension of the forest reserve along the road leading to Callaghan's Swamps and Walcha to the one marked broad-arrow over A over 73 by Mr. L.-S. Dowe.

The width of this extension should be half-a-mile, or 20 chains on each side of the creek. It will include magnificent timber, which should certainly come under the same rules and regulations that may be applied to the present reserve.

With a statistical table showing the extent of the timber trade at this forest, I will close my report on this reserve.

Forest

Forest Reserve, 1,104.

This reserve was notified August 22nd, 1877, on my recommendation.

I would suggest that, as no local name would be applicable to this forest, from its extent, that it should be called the "Robertson Forest." Sir John, then Mr. Robertson, spent many years in this neighbourhood when engaged in squatting pursuits. He was one of the first settlers who explored this forest. He, as a Minister of the Crown, years afterwards, recommended an extensive reservation, pointing out its stores of magnificent timber, and it would be a tribute of respect to one of the first leading politicians under Responsible Government.

This reserve is situated in the counties of White and Baradine, and meets the definition of "State Forest" in all particulars but that of soil.

In so large an area as that under consideration, the soil must necessarily vary considerably in character; but taken generally, it is of a light and sandy character in the high lands, running into deep heavy clay in the depressions of the country.

Many thousand acres are fairly but thinly grassed; taken as a whole the forest in its natural state would be classed as fourth class country for stock.

At least one half the reserve is covered with low bushy scrub, consisting of wattle and other varieties of no value.

Owing, however, to the prevalence of bush fires, the forest is now more open than formerly.

In various localities small circular open plains occur. These are generally covered with carbonate of soda, in an efflorescent state, to a depth varying from $\frac{1}{2}$ of an inch to 1 inch, and have the appearance of land on which a snow-storm has fallen.

On these plains, and in their vicinity, the very extraordinary "mud wells" are found, a description of which I sent to London and Philadelphia, and which I referred to in my report to your office.

Efflorescent soda is found in different parts of Europe and Asia, but I am not aware of any country in which these peculiar circular quicksands are met with.

Water is abundant throughout the forest, and a considerable portion of the area is fairly adapted for agricultural purposes, and would be favourable to the production of wheat, only it is opposed by climatic influences.

The timber consists of—

Iron-bark—for railway sleepers, building, posts, rails, &c. (of magnificent quality).

Pine—building (of large growth and excellent quality).

Wattle—for bark and tannin.

Oak—for fencing, hurdles, and cabinet-work.

Red gum—inferior.

Apple—inferior.

Brigalow—not used (ornamental).

Box—inferior quality.

Scrub.

Wattle, Yarren Coocoraba—may be utilized in commerce hereafter for axe-handles, &c., &c.

Under-growth of brown prickly bush and porcupine grass.

Of all the descriptions and varieties of timber named in the foregoing list, the iron-bark and pine are the most valuable, and are seen in this forest, perhaps, to the greatest perfection. Their value for commercial purposes is scarcely to be excelled. They are almost proof against changes of temperature, and the effects of moisture or age.

I am unable to give an estimate of the number of these trees to the acre with any degree of accuracy, but I may state that many ironbarks I saw would turn out 2,000 feet super. to the tree.

The young timber is not showing much promise for future supply, healthy straight saplings being comparatively few in number. This I attribute to the devastating fires of late years, which have been purposely ignited by settlers to clear the scrub, and to increase the quantity and improve the quality of the grass for their stock—a practice which should be put a stop to by the Government.

The Climate.

Situated so far inland (200 miles, with a high coast range intervening), on the low level of the Colony, surrounded by vast, open, dry plains, this great peninsula of scrub and forest country is subject to intense heat, and is deprived of all the benefits attending country which is fanned and moistened by sea breezes.

The seasons are divided into summer and winter, the duration of the former comprising eight months, and the latter four months of the year.

The average heat (Fahr.) in summer is 96° at 3 p.m., and ranges from 86° to 110° .

In the winter the reading is occasionally as low as 32° at 5 a.m., but frost is a rare occurrence, and by no means usual in winter.

Access.

The level nature of the country makes access to the interior of the forest exceedingly easy, but if extensive cuttings for railway or other great works were proposed, a tramway from Narrabri to Bolivia would be of great advantage, owing to the soft and yielding nature of the soil, which would prove a drawback to heavy traffic.

Although I am aware that the boundaries of the forest (even amended as I have suggested) will include a considerable area of country, not even of a present or prospective value for timber, I am not in a position at present to recommend any further curtailments; but when it is considered necessary or desirable to appoint a forester and staff for its preservation and management, the earliest opportunity should be taken to gain the information referred to on page 7 of this report, and by actual survey the positions of the most valuable timber will be defined, pointing to modification it will be expedient to make.

With a statistical table, showing the extent of the timber trade at this forest, I will close my report on reserve 1,104.

Statistics

Logs for public and private works and buildings at Boggabri have been drawn from Mount Lindsay. It is the only stringy-bark forest that exists on the borders of the great Liverpool Plains, and the wattle thrives in great luxuriance—so valuable for its bark.

I consider this one of the most valuable timber reserves in the district, and I hope that regulations may issue to prevent the Crown lessees destroying the timber by "ringing." Access to this forest is comparatively easy from some points; but if extensive cutting was projected, it would be desirable to form a road up the hill, which would, however, not involve any great expense. No ranger has been appointed for this forest, and whatever cutting may be going on is probably illegal.

The Buckland Forest Reserve, County of Buckland.

This forest is situated partly in the county of Parry. It is the only area which contains a good supply of stringy-bark and other hardwoods. The soil is red loam, running into lighter soil up the range, where it is rocky and steep. The water may be reported as permanent; it may be found during all seasons of the year in the Splitters' and Quirindi Creeks.

Access can be got to the top of the range in many places—up easy spurs. The timber consists of stringy-bark, gum, and iron—the former of excellent quality. Logs were got from here for the construction of the Quirindi railway bridge, 40 feet long, squared to over 1 foot. Regulations should issue, as recommended in other cases, to prevent the destruction of the timber by ring-barking.

Any cutting that may be going on is probably illegal.

The Eckford Forest Reserve, County of Jamison.

This is the forest that I have recommended for reservation in the county of Jamison.

The country included by the boundaries of this forest stand at a slight elevation with respect to the great surrounding plains. It is made up of low sand ridges, and depressions of red clayey soil. Owing to the density of the scrub and undergrowth, it can produce little grass or herbage, and these are of a sour and inferior quality. Cleared and cultivated, it would produce wheat and cereals, were it not for its position—so far inland—and the long seasons of drought and intense heat that this country is liable to.

There is no permanent water in the forest, but facilities exist for the construction of tanks and dams.

The timber consists of belar or forest oak, pine, and other small trees which are ornamental but of no value at present commercially. The pine has been thinned out to a great extent by the Crown lessees, for the creation of houses, yards, and fences.

I observe that now they are compelled to make use of the belar for the posts of wire fences. Belar is inferior timber for works of any kind, but as this is the most extensive and the best forest in the country, it is desirable to preserve it from wanton destruction, or from being rung or girdled by the run owners for the sole object of improving the grasses.

No timber-cutting is being carried on by the general public, nor is a ranger required for this forest at present.

The Moonbi Forest Reserve, County of Inglis.

I have recommended that this forest be reserved, in the county of Inglis.

This reserve is situated between the towns of Moonbi and Bendemeer, and extends from the Great North Road westerly to Moor Creek.

It is particularly well defined, and requires but a short length of survey to complete the marking of its boundaries.

The soil is generally sandy and light, but considerable areas exist of rich alluvial, and also red clay.

The timber consists of stringy-bark, gum, box, apple, and peppermint.

The first-named, and most valuable timber, has been greatly thinned out, much of it having been wantonly destroyed for the purpose of obtaining a single sheet of bark; but numerous young trees are coming on, and there is a very extensive growth of saplings, which require immediate protection, and will then be of great value to the large towns in the vicinity.

Abundance of water can be procured in this forest.

There is no regular cutting going on at present, and as no supervision is exercised over the Crown lands in this neighbourhood, licenses are not considered necessary.

The Darling Timber Reserve, County of Darling.

This forest has been recommended on the report of Mr. Licensed-Surveyor Dowe.

It is situated in the parishes of Hobden and Quipolly, and includes part of the reserve No. 203.

The soil is varied from black alluvial to sandy and light, with gravelly ridges.

It is watered by Quipolly Creek and Black Mountain Gully.

The timber consists of stringy-bark, box, gum, apple, and currajong.

Some of the first named is of good quality, and the reserve is heavily timbered in parts.

The only timber-cutting going on at present is that for local demand in the immediate vicinity.

The boundaries of this reserve should be marked, and steps taken at once to prevent the lessees of the run from "ringing" the timber.

Durham Forest Reserve, County of Durham.

I have not been able at present to decide on boundaries for a forest reserve in this county. Mr. Licensed-Surveyor Christie reports that the timbered areas are very limited in extent, which affords one the best possible reasons, in my opinion, for endeavouring to protect them.

Looking at the management of forests or state reserves from a financial point of view, it is evident from the statistics drawn from Nundle Forest that a certain yearly pecuniary loss must be entailed by the present system, and a greater loss if the new system herein suggested be adopted, but when it is borne in mind that the object of such reservation is the protection of indigenous timber for the future benefit of the Colony, and that the permission to cut for present use is to be granted with a view of enhancing the value of the timber year by year, by clearing off that which reaches, or has passed maturity, the deficit, whatever it may be, takes the form of an investment in a property of yearly increasing value, which will in after years return a good interest.

Quoting

Quoting the remarks of Captain Campbell Walker, F.R.G.S., of the Indian Forest Department—he says: “The question of direct financial gain, or extracting a revenue from the forest by the State, should ever be subordinate to their conservancy for climatic considerations and improvements to meet the demands for the future. So long as this is borne in mind, and we are not tempted to overdraw and trench on the capital as well as the income of our forests, in the shape of timber and minor produce, there is no reason why they should not be dealt with like any other property, nor why the State, as proprietor in trust for the public, should not derive from them the maximum amount of revenue compatible with the general welfare of the people.” And the report to the Governor of India, 1876:—“It has been the policy of this Government (Madras), a policy which has been approved by the Secretary of State, that the production of a surplus is neither the present nor ultimate primary object of forest operations; and while seeking to increase the productive powers and revenues of the forest, the Government has had mainly in view the utilization of increasing revenues in extending plantations, and in conserving indigenous forests, and by this means supplying the people and railways with cheap fuel, and preserving or restoring those climatic conditions which appear to be more or less dependent on the existence of woodlands.”

Statement of Accounts, Nundle Forest:—Fifteen men employed in the forest, supposed to hold special permits, £90; ranger's salary, £150.

The management of forests having been so ably treated in the Victorian report before alluded to, I need only commend it to your consideration, but I shall take the present opportunity of pointing out apparent anomalies that exist in the present licensing system, that I believe it would be expedient to consider and correct, and of suggesting such amendments as appear suitable to the existing timber trade carried on in this Colony.

I have ascertained that the cost of a license for the cutting of cedar over areas not specially reserved in the Colony is 15s. per quarter.

And that the ordinary license for cutting hardwood over similar areas is 5s. per quarter.

So far the difference in respect to the cost of license seems judicious.

I find on inquiry that 15s. per quarter is the licensee fee for cutting cedar anywhere, and that 30s. is that for cutting hardwood over special reserves.

The expense, therefore, of a license for cutting cedar where it can only be got, and cutting hardwood where only it can be got of value for sawing, is 15s. per quarter for cedar, and 30s. for hardwood.

It is well known that cedar is the most valuable wood produced in our forests; and, also, that the forests in which this timber can be found are extremely limited in extent, being found only on the eastern slopes and valleys of the sea range; that these forests are already stripped of their best timber wherever means of access is at all practicable, and that in consequence of the absence of proper regulations and supervision its waste and destruction has been enormous.

It requires little foresight to see that in a few years the supply of cedar will be worked out, and that timber capable of fulfilling its uses must be imported to this country by sea from abroad, yet eighty cedars are sold by the Government for 15s., or 2½d. per tree.

The Eucalypti or hardwood trees are to be met with all over the Colony. With a little care, even at this late date, provisions can be made for its inexhaustible supply. Practically there need be no anxiety about its exhaustion; yet eighty trees are sold by the Government for 30s., or 4½d. per tree.

It may be advanced that a single license will not be the proper gauge from which to estimate the value of a tree, inasmuch as separate licenses must be taken out for felling, cutting, sawing, splitting, and removing timber; but a little consideration will show that one man, holding one license, can fell, cut, or split a tree on Crown lands, and remove the same, either as logs or rails, to private lands, where it may be dealt with by persons who hold no license whatever.

I look therefore on the multiplication of licenses as not necessarily adding revenue to the Crown, but as prejudicial to the interests of the community in increasing the cost of worked timber.

While treating the question of licenses for cutting timber, I must take the opportunity of referring back to Forest Reserve No. 1,104, near Narrabri. I find that a ranger has been appointed to this forest, at a salary of £200 per annum, and 10s. per night, when out on duty.

That last year sixty special licenses were taken for the forest, but that in February a fee for special license was returned, with a memorandum “That the Crown Law officers had decided that the issue of such licenses was illegal, and likely to bring the Government into collision with its Crown tenants.”

The issue of licenses has therefore been suspended, and persons are availing themselves of the opportunity of cutting timber without expense or hindrance of any kind.

How such a decision could have been arrived at, in the face of clause No. 62 of the Crown Lands Amendment Act, I am at a loss to understand. It will scarcely be held that the difference in the rate of fees, amounting to 25s. per quarter, that distinguishes a “special” permit from an ordinary one, raises the difficulty, but rather I presume that all timber licenses of every description are against law.

In either case the decision, however it may have been arrived at, points clearly to immediate action, or the discontinuance of the salary of Mr. Forest-Ranger Ward.

So far as the Crown tenants stand in the way of forest management, it appears to me that they should be placed in the same position as other persons. A case lately occurred in the vicinity of Gunnedah which was reported to me officially, with the request that some steps should be taken at least to prevent its recurrence.

The applicant, the owner of a steam saw-mill in the town, took up a selection of 40 acres outside the population boundary, to enable him to work a very excellent pine forest in its neighbourhood. Immediately, the superintendent of the run, acting on behalf of the Crown lessee, despatched a number of men to the forest and levelled every valuable tree. The number thus cut down, split to pieces, and rendered utterly worthless, was stated at from 3,000 to 4,000, and the consequence was that Swagor's conditional purchase was rendered valueless, as the timber he proposed to saw was destroyed.

A case of this sort, it is to be hoped, stands alone, as one of extreme vandalism.

It is painful to consider that such a deed could have been done in an English community. I can only hope that if an investigation were to be made, it would be found to have been stated with great exaggeration; but there is, I am aware, sufficient truth in the report to hasten the preparation of such rules and regulations as may prevent a repetition of similar atrocity.

It appears, therefore, that legislation might be profitably directed towards the amendment of the law in respect to licenses.

In anticipation of revenue from the erection of saw-mills on Crown lands, regulations have been made to permit the occupation of areas of land, but they are of no value because indefinite; inasmuch as they point to no limitation of area, and to no fixed rate of fees—these most important national considerations being left to be decided by Crown Lands commissioners or land agents,—persons eminently unfitted for such duties.

The occupation of areas should be of the most limited extent, embracing (say) 5 acres, for the erection of a mill and the necessary out-buildings and cottages. That for cutting timber should never exceed half-a-mile square or 160 acres in some other form, which would be under the regulations made by the Government for the protection of young and growing timber, and open to the continual supervision of the forester.

In Victoria the license for occupying a site for a saw-mill (3 acres) in a State forest is not less than £10 per annum; while the fees for felling for the supply of the mill are £5 per annum for each person so engaged, and £12 per annum each for jinkers for drawing the logs to the mill.

The fees for cutting and splitting hardwood timber are £1 over ordinary Crown lands, while for State forests higher fees are determined by the district surveyor, as chairman of the local Board appointed by the Government to deal with such matters; and an excellent regulation has been made, however defective in its clauses, which provides for the exclusive right to cut and transport timber from defined areas in State forests by or under one license only, the fees to be determined by the local Board above referred to.

The fees for cutting timber in Queensland are—for softwood £5, and for hardwood £3 per annum, over unreserved Crown lands; but special licenses are granted (on the recommendation of the Commissioner) by the Minister for Lands for the exclusive right of cutting over a defined area, at the rate of £15 for each square mile, the cost of survey being paid by the applicant.

In South Australia, by a recent regulation, 15th May, 1876, the old system of licenses has been discontinued, and by clause 22 the timber is to be classified by an officer of the Board, and marked either for protection or consumption; if for the latter purpose, it is to be sold in lots at public auction, conditions to be published prior to sale.

This is imitating the course pursued in parts of England and on the Continent, a course that appears reasonable and even desirable there, but totally inapplicable to any of the Australian Colonies. The framer of such regulations is perhaps to be congratulated on having provided rules suitable for a time some hundred years hence.

The right of cutting over defined areas under a single license appears to me to be the best method for advantageously working the forest reserves in this Colony. The area should be limited, however, to 160 acres, and defined by the forester; and the fees, instead of depending on the judgment or partiality of the district surveyor and his local Board, should be determined by a general rule drawn from the number of horse-power of the engine. This system of letting off the forest in small areas at a fixed sum would render the duty of issuing licenses exceedingly light and simple, and would give the forester in charge every possible opportunity of seeing the regulations were complied with.

The number of men, waggons, or timber trucks employed would be no item in the account; the effective work that could be done by an engine of a certain horse-power would be the only point of reference.

Among other minor details it would be necessary that each person employed should hold a ticket from the mill-owner or lessee, and that each waggon leaving the reserve should have the name of the lessee and that of the mill, fixed to it while loaded.

As infinitely more damage and destruction is effected by splitters than by sawyers, the former cutting the straightest timber and leaving trees to rot on the ground which are at all difficult to "run out," I should certainly advocate an increase in the fees for splitting, with a heavy fine for cutting down trees and not using them to their full extent; such a fine to be enforced by suspension of license.

I must now bring this report to a close. It has already exceeded the usual space devoted to matters of ordinary interest; but I feel that as a report it is not exhaustive, therefore defective.

It will probably be remarked that I have treated forest reservations from only one point of view—that of the supply of timber for present and future requirements, and that I have failed or not attempted to display their value for purposes more important; for instance, as they affect climate, rainfall, and the storing of moisture; but I may observe that in that direction the subject has been fully treated by the ablest men in Europe,—that their opinions have been practically tested and indorsed, and that they are published for the information of those who may be desirous to learn.

I have no desire to parade their scientific theories, but have contented myself by touching the question where it is most likely to be taken up, and making suggestions that appear suitable and requisite.

It is quite possible that I may have failed to make good the positions I have taken, although I have endeavoured to back them by the conclusions of very eminent men; if so, I may be allowed to hope that some other surveyor in charge of a large district may present a better theory, and deal with the subject in such a way as may lead ultimately to wise legislation.

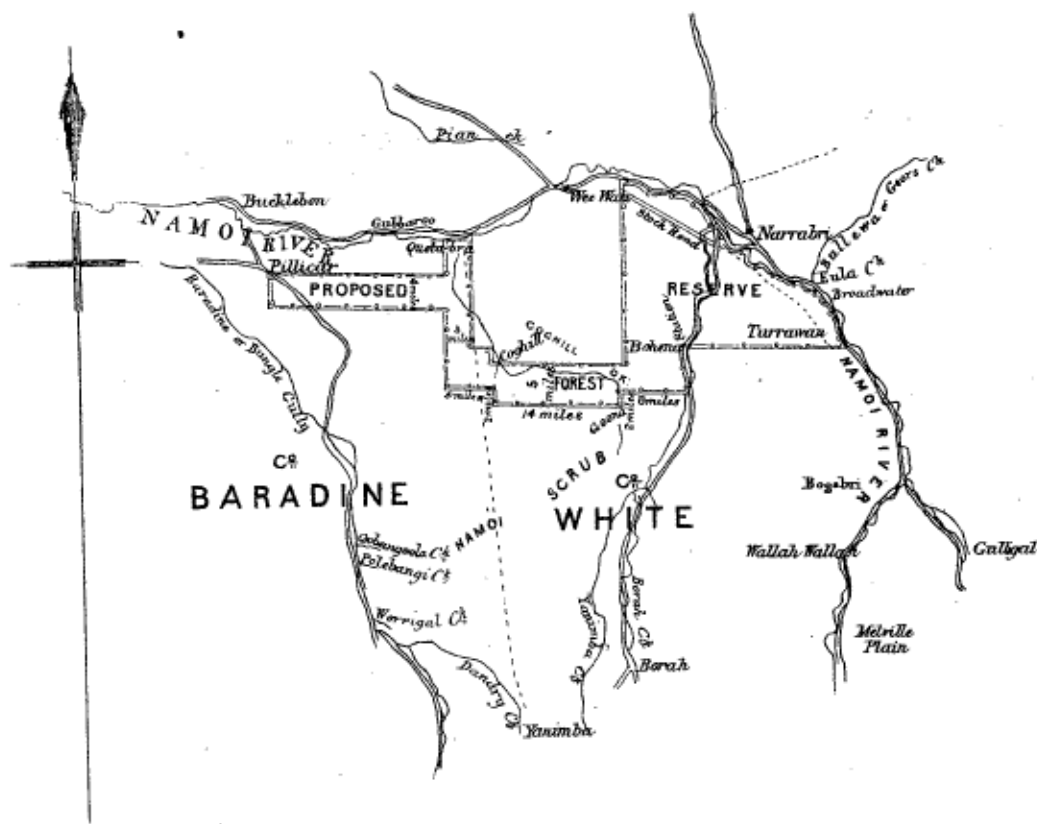

I have, &c.,

1878-9.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

RESERVES ON RUNS.

(CONDITIONS OF MAKING.)

Ordered by the Legislative Assembly to be printed, 12 June, 1879.

MEMORANDUM prepared by the Surveyor General on the 29th August, 1865, explaining the conditions under which Reserves on Runs would be made. Copies of such memorandum having been issued to lessees of runs upon application therefor.

APPLICATIONS for reserves from sale for water supply to squatting runs should, if possible, be accompanied by a plan, otherwise by a distinct and separate description of each proposed reserve, in which should be stated the width of the frontage, if less than 1 mile, which is the maximum allowed for reserves of this class;—the approximate bearings of its side lines, and the distance which it is proposed to extend the reserve back from the water, as it may, if necessary, be carried to the boundary of the run. The position of the starting point should also be definitely fixed, by reference to some known and permanent object, such as a station hut, yard, crossing-place of a creek, the extremity or centre of a well-known water-hole, &c.

If a suitable object does not exist in a convenient position from which to start one of the boundary lines of the proposed reserve, a tree may be marked, by removing a portion of the bark, and cutting the letter or number (to be referred to in the description) deeply and permanently in the wood; and in this case, the approximate bearing of the tree, and its distance from some known object as above mentioned, should be given.

For example, a description might run as follows, viz.:—Commencing on Creek, at a box-tree marked E 9, distant about 1 mile and a half in a south-westerly direction, from the station hut, and bounded on the north by a line extending westerly (here state the distance approximately in miles the reserve is to extend back, or if to the boundary of the run); on the south by a line 1 mile from and parallel to the north boundary line.

When the proposed reserve is not upon the frontage of the run, and the object is to secure access to a permanent water-hole, the description may, for example, run thus:—Commencing at a point 10 chains west from a tree marked A.C., at the south-western extremity of the water-hole, and bounded on the west by a line extending in a southerly direction to the southern boundary of the run, and northerly $2\frac{1}{2}$ miles; on the east by a line parallel to and 1 mile from the west boundary aforesaid.

In cases where permanent or comparatively permanent water exists only on the frontage, or upon a creek or watercourse flowing through the block, reservations to the extent of one-fourth of the frontage to such river, creek, or watercourse may be allowed, and the reserved frontage reckoned on the general course of the river, from one side of the run to the other, and not following the meanderings of the stream. Where reserves are to be proposed both on frontage and on back water, only a fifth of the general frontage can be reserved on the river. In determining the most suitable reserves for water supply, &c., the inclusion (in cases where water is only obtainable at times) of the most valuable cattle camps, for the beneficial occupation of the run, should also be aimed at; but where they cannot be so included, reservations of 640 acres each in a square, to embrace the camp and temporary water, and to be described from a marked tree in the centre of each, may be allowed, provided that they do not amount to more than one portion of 640 acres for every 4,000 acres that the run may contain.

Reserves of the character above described will not necessarily be made for the inclusion of water artificially preserved, as, for instance, dams or dug water-holes, as the right to purchase the same in virtue of improvements is secured to the lessee in the Alienation Act of 1861.

In cases where the general practice herein provided will not meet the requirements of any run, applications should show the nature of the peculiarity requiring different treatment, and the mode of treatment proposed; this memorandum having been printed merely to facilitate intending applicants.

The Surveyors of each district will send in recommendations for water reserves, in any cases which may arise, where the leaseholder may desire to purchase an undue proportion of the water on a run, to the injury of the public estate.

Applications should be addressed to the Chief Commissioner of Crown Lands in Sydney, enclosing descriptions of the reservations, on separate sheets, in order that delay in dealing with them may be obviated, should any of the number be so imperfect as to necessitate its return for amendment.

WAGGA WAGGA COMMON.

No. 1.

Mr. G. Forsyth to The Colonial Secretary.

Sir,

Council Chambers, Wagga Wagga, 2 February, 1874.

I do myself the honor of reporting that the meeting called for the 29th January ultimo, in pursuance of the Act 36 Victoria No. 23, lapsed, and trustees were not appointed.

With the concurrence of the Aldermen of the Borough, in their position of commoners, I beg respectfully to request that, by virtue of the power conferred upon him by the Act, His Excellency the Governor will be pleased to nominate and appoint Messrs. George Forsyth, George Mair, Charles Wall, Robert Nixon, and Thomas Henry Cummins trustees for each of the commonages (temporary and permanent) of this district for the ensuing three years.

I have, &c.,

GEO. FORSYTH,

Late Senior Trustee and Mayor.

George Forsyth, commission agent, Kincald-st.
George Mair, commission agent, Best-st.
Charles Wall, storekeeper, Fitzmaurice-st.
Robert Nixon, miller, Fitzmaurice-st.
Thomas Henry Cummins, butcher, Bridge Road.

No. 2.

Minute Paper for the Executive Council.

Colonial Secretary's Office, Sydney, 18 February, 1874.

No trustees having been elected at the meeting held in the month of January last for the election of trustees of the Wagga Wagga Commons, I recommend that, in accordance with section 3 of the "Commons Regulation Act of 1873," Messrs. George Forsyth, George Mair, Charles Wall, Robert Nixon, and Thomas Henry Cummins be nominated trustees of such commons for the three years ending in the month of January, 1877.

HENRY PARKES.

The Executive Council advise that the gentlemen herein named be appointed trustees of the Wagga Wagga Commons, in terms of the 3rd clause of the "Commons Regulation Act of 1873."—ALEX. C. BUDGE, Clerk of the Council. Min.—74/10, 23rd February, 1874. Confirmed.—2nd March, /74.

Approved.—H.R., 23/2/74.

His Excellency the Governor and the Executive Council notified 6 March, 1874.

No. 3.

Petition from Inhabitants of Gumly Gumly to The Secretary for Lands.

To the Honorable the Minister for Lands, Sydney.

The humble and earnest petition of the undersigned landowners and others in the parish of Gumly Gumly, county of Wynyard, in the Murrumbidgee District,—

Respectfully Showeth:—

That on the 12th of March, 1863, a portion of land (reserve No. 134) on the Gumly-Gumly Qy. 1869. Run was gazetted, as your petitioners understand, a permanent public reserve; and that on the 14th of November, 1864, a larger portion (reserve No. 142), adjoining the abovementioned on the west, and extending further south (*as per accompanying description, which appears to include both), was "reserved from sale until surveyed for the preservation of water supply, or other public purposes," and that the latter reserve has been and is held by the lessee of Gumly Gumly Run as a portion of such run.

*See Enclosure to No. 4.

2. That reserve No. 142, lying between your petitioners' land and the first gazetted reserve (No. 134), the stock of sundry of your petitioners and that of others have to cross the former (No. 142) to reach the latter (No. 134) for water, and have been and are impounded by the lessee of the before-mentioned run, such impounding being a source of great inconvenience and loss to the owners of stock so impounded.

3. That upon a portion of reserve (No. 142) there is a waterhole or lagoon which would, if not controlled by the lessee aforesaid, who has fenced it in, be of considerable value to your petitioners and the public at large, being as it is situate near the Tarcutta highway, and the only available water nearer than the Murrumbidgee River, which is distant about 1 mile from said lagoon.

4. That your petitioners have reason to believe that the lessee of Gumly Gumly Run is about to build a dwelling upon the portion of the reserve containing the aforesaid lagoon, with a view ultimately to claim pre-emptive right to purchase said portion with lagoon in virtue of improvements.

5. That if your petitioners and the public generally should be shut out from said lagoon, and thereby entirely deprived of its use, they sincerely believe such deprivation would be not only a great hardship but an act of injustice. For the foregoing reasons your petitioners most respectfully pray that you may see fit to cause reserve No. 142 to be permanently reserved for water supply for public use.

And your petitioners, as in duty bound, will ever pray, &c.

Gumly Gumly, 23 July, 1875.

[Here follow 30 signatures.]

Minutes on No. 3.

The reserve No. 142 of the notice 14 November, 1864, includes 1,500 acres, and was never intended to be permanently dedicated, but to be subdivided for sale at a future date. But on the report of Mr. District-Surveyor Wood a portion of the same reserve (125 acres) was reserved from lease, 18 September,

September, 1868, and has since been dedicated for public watering-place, extending from the Murrumbidgee River southerly to the Tarcutta Road, by a width of 10 chains. The 1,500 acres referred to, minus the portion dedicated above, 125 acres, still forms part of the Gumly Gumly Run, and is not open to the petitioners to run their stock. Referred to Mr. District-Surveyor Bolton.—ROBT. D. FITZGERALD (for Surveyor General), B.C., 16 August, 1875.

Transferred to Mr. District-Surveyor Wood, as being within his district.—C. F. BOLTON, D.S., 23 August, 1875.

No. 4.

Mr. J. Bentley to The Secretary for Lands.

Sir,

Wagga Wagga, 4 August, 1875.

I have the honor to state for your information that the enclosed extract from the Gazette is intended to be portion of a petition forwarded to you this day by certain landowners and others on Gumly Gumly, and which was by an oversight omitted from the envelope containing the petition.

I have, &c.,

JOHN BENTLEY,
(Pro ROBERT IRVING & OTHERS.)

[Enclosure to No. 4.]

Extract from Gazette.

Department of Lands, Sydney, 14 November, 1864.

Reserve from Conditional Purchase.

His Excellency the Governor, with the advice of the Executive Council, directs it to be notified that, in pursuance of the provisions of the "Crown Lands Alienation Act of 1861," the land specified in the Schedule appended hereto shall be reserved from sale until surveyed for the preservation of water supply or other public purposes.

J. BOWIE WILSON.

Pastoral District of Murrumbidgee.

No. 142. County of Wynyard, parish of Gumly Gumly, containing about 1,500 acres. The Crown Lands within the following boundaries: Commencing on the Murrumbidgee River, at the north-western corner of J. Peters's 165 acres; and bounded thence on the east by the west boundary line of that land, bearing south to its south-western corner; on the north by the south boundary of that land, bearing east 20 chains; again on the east by part of the western boundary of portion 52; and (crossing a road 1 chain wide) by the western boundaries of portions 57 and 58, bearing south to the south-western corner of the latter portion; on the south by a line bearing west 44 chains; on the west by a line bearing north 70 chains and 61 links; again on the south by a line bearing west to the eastern boundary of portion 27; again on the west by the eastern boundaries of that portion, and portions Nos. 23, 19, and 7, northerly to the Murrumbidgee River; and on the north by that river upwards, to the point of commencement.

No. 5.

Mr. District-Surveyor Wood to The Surveyor General.

Sir,

District Survey Office, Albury, 25 August, 1875.

In compliance with your B.C. instructions of the 16th of August to Mr. District-Surveyor Bolton, transferred to me, requesting a report on a petition from the inhabitants of Gumly Gumly to have reserve No. 142 dedicated as a public reserve, I have the honor to inform you that the position of the waterhole referred to is shown on the lithograph map of portions in the parish of Gumly Gumly, and is situated within (designed) portion No. 18. This waterhole is not permanent, but it contains water for many months of the year, and in a more convenient position than going down to the river.

2. I would beg to suggest that reserve No. 134 be extended westerly, to include portions designed Nos. 17 and 18. As it is stated that the lessee of the run contemplates erecting improvements near the waterhole, it would be desirable to withdraw the area from lease at an early date.

I have, &c.,

JAMES H. WOOD, D.S.

Minutes on No. 5.

On this report it is submitted for the consideration of the Honorable the Minister for Lands that the defined 173 acres, county of Wynyard, parish of Gumly Gumly, be reserved from lease for public camping-place and water supply; it forms part of reserve for water supply 142, notified 14th November, 1864.—ROBT. D. FITZGERALD (pro Surveyor General), B.C., 28th October, 1875. Under Secretary for Lands, for minute, 3rd Nov., /75.—T.G. Executive Council minute, 8th Nov., /75.

No. 6.

Minute for the Executive Council.

Department of Lands, Sydney, 8 November, 1875.

It is recommended to His Excellency the Governor and the Executive Council that the portion of land particularized in enclosed description be reserved from lease under the 5th section of the "Crown Lands Occupation Act of 1861," for a public watering and camping-place.

T. GARRETT.

The Executive Council advise that the portion of land specified in Schedule be reserved from lease, in terms of the 5th clause of the "Crown Lands Occupation Act of 1861," for the purpose specified.—ALEX. C. BUDGE, Clerk of the Council.

No. 7.**Mr. District-Surveyor Bolton to The Surveyor General.**

Sir,

District Surveyor's Office, Wagga Wagga, 15 November, 1875.

I do myself the honor to inform you that the Police Magistrate, Mr. Henry Bayliss, waited on me at my office to-day, in reference to certain buildings, &c., being erected by Mr. John Donnelly on reserve 142, parish of Gumly Gumly, county of Wynyard, in consequence of the numerous appeals made to him by persons interested in preserving a right of access to a certain waterhole in the reserve in question, it being alleged that these improvements are being erected in order to secure a right to purchase the reserve on which the waterhole stands; further, that the improvements are in no way necessary for the beneficial occupation of the small portion that is left of the Gumly Gumly Run; also, that if any new buildings, &c., were required, Mr. Donnelly, owning as he does nearly all the land from the west boundary of the parish of South Wagga Wagga to Tarcutta, could find more suitable sites on the numerous eligible building sites that abound on his very extensive estate.

From my own personal knowledge of the locality, and from the statements made by the numerous persons who have called also on me respecting this matter, I am bound to believe that the buildings now in course of erection for Mr. Donnelly are being put there for the sole purpose of securing a right to purchase the land by virtue of improvements.

The waterhole in question is not quite permanent, but being near the main road (which is a long way off the river at this place) is of great value as a watering-place for farmers' cattle, as well as to travelling stock.

For these reasons I would recommend that Mr. Donnelly be cautioned against proceeding with his improvements, which, although of a substantial character, "are not for a legitimate purpose, beyond the securing of the land in supposed right thereof," as suggested in your circular of 2nd October, 1874; and I would further recommend that the land lying between the old Tarcutta road and the new, and bounded on the west by portion 19, and on the east by reserve 134, be withdrawn from lease.

Not required.

I have, &c.,

C. F. BOLTON,

District Surveyor.

Forwarded through Mr. District-Surveyor Wood, in whose district it is.

Minutes on No. 7.

The land has been reserved from lease for public watering-place and camping, under notice 10th December, 1875. Mr. Bolton should be so informed, and steps taken to inform Mr. Donnelly, referred to by Mr. Bolton.—J.W.E., 28th July, 1876. See No. 10.

Contents noted and papers returned to head-quarters. B.C., 9 Feby., 1877.—C. F. BOLTON, District Surveyor.

No. 8.**Messrs. Fitzhardinge & Sons to The Secretary for Lands.**

Sir,

Wagga Wagga, 15 November, 1875.

We have the honor again to request, on behalf of the settlers and residents about Gumly Gumly, that you may be pleased to cause a reserve for watering for public use to be proclaimed on that portion of Gumly Gumly reserved from sale in November, 1864. As we have already on several occasions pointed out, it is a matter of very pressing and urgent necessity to the settlers to have access to water before the heat of summer fully sets in, because the present lessee has shut out access to the River Murrumbidgee almost the whole distance from Tarcutta to Wagga Wagga, and is erecting improvements on the Crown lands available for access to water with the evident intention of purchasing the land.

Unless steps are shortly taken to comply with the request of the settlers, numbers of them will, in the midst of the summer, be put to heavy loss and expense, and will almost be compelled to abandon their settlements, on which they have expended much time, labour, and money.

We have the honor urgently to press upon you the necessity of speedy action in this matter, and sincerely trust that as we are acting for the benefit of a number of persons not over wealthy, who are trying to make a living, that you may be pleased to cause something to be done without delay.

Yours, &c.,

FITZHARDINGE & SONS.

Minute on above.

The land referred to has been withdrawn from lease, under notice 10 December, 1875, for public watering-place and camping, under report and recommendation attached.—ROBERT D. FITZGERALD (for Surveyor General), B.C., 30 December, 1875.

No. 9.**Petition from Inhabitants of Wagga Wagga to The Secretary for Lands.**

To the Honorable the Minister for Lands, Sydney.

The humble petition of the undersigned residents in the town of Wagga Wagga and its vicinity,—
Respectfully Showeth:—

1. That to most thinking men here it is moderately clear that Wagga Wagga is destined to become one of the most important towns in the Southern Districts. Its commercial connections and influence are at the present considerable, and its contributions to the Public Treasury will compare favourably with those of any provincial town (of perhaps far greater pretensions) in the Colony. 2.

2. That experience has shown the folly, if not the blindness, of those past, whose duty it was to look to the future, in not providing young towns with lands for their own use, such as reserves for public recreation, gardens, squares, commons, &c., &c. Part of this experience your petitioners have found in Wagga Wagga, where the only land that can be said to be of any particular benefit to the townspeople is the racecourse, a reserve of 161 acres, dedicated in 1865 for a racecourse and public recreation.

The only other land dedicated or reserved is included in a permanent and a temporary common, situate to south-west of the town, also a piece of land on the hills to the south.

3. Your petitioners therefore believe that they are not only consulting their own but the interests of those who may live after them in praying that you will be pleased to cause to be dedicated as a permanent common the portion of land lying to the east of Wagga Wagga, as shown in the accompanying plan.

Your petitioners could advance many good reasons in support of this their earnest prayer, but they deem them tedious and unnecessary. Trusting that this, their humble request, will be complied with,

Your petitioners, as in duty bound, will ever pray, &c.

Reserve from lease for public watering-place and camping.

It is hereby notified for general information that His Excellency the Governor, with the advice of the Executive Council, has been pleased to withdraw, for public watering-place and camping, the portion of land hereinafter described from the Gumly Gumly Run, of which it hitherto formed part.

THOMAS GARRETT.

Murrumbidgee District.

No. 205. County of Wynyard, parish of Gumly Gumly, 173 acres: Commencing on the Tarcutta and Wagga Wagga Road, at its intersection with the west boundary of reserve from lease No. 134, notified 18th September, 1868, and dedicated for public watering-place 12th March, 1869, at a point 10 chains west from the west boundary of J. Peters's 165 acres; and bounded thence on the east by part of the west boundary of that reserve, bearing south about 46 chains to a point 10 chains west from the south-west corner of the aforesaid 165 acres; on the south by a line west 43 chains to the south-west corner of J. Gormly's portion 19 of 48½ acres; on the west by the east boundary of that portion, bearing north 34 chains 62 links to the aforesaid road; on the north by that road easterly, to the point of commencement.

No. 11.

Mr. District-Surveyor Bolton to The Surveyor General.

Sir,

District Surveyor's Office, Wagga Wagga, 22 December, 1875.

I beg to acknowledge the receipt of you B.C. of the 27th ultimo, forwarding a plan* showing land applied for as a common in the parish of Gumly Gumly, county of Wynyard, being situated near the town of Wagga Wagga, for my report, and in reply, I do myself the honor to inform you that the land applied for is the only remaining land on east side of the town of Wagga Wagga now available for a common for the use of residents in the eastern suburbs of the town. Also, that it is the only vacant land in that direction from which a supply of firewood may be obtained. Again, it would be of great use in affording sustenance for travelling stock.

So that, notwithstanding the fact that commons are usually so monopolized by some adjacent resident as to be rarely of much public benefit, I would, under the circumstance, recommend that the petition to have the land in question dedicated as a permanent common be granted.

I have, &c.,

C. F. BOLTON.

Forwarded through Mr. Dist.-Surveyor Wood, as being in his district.—C.F.B. I can recommend the adoption of Mr. Dist.-Surveyor Bolton's report.—J. H. WOOD, D.S.

Minutes on No. 11.

Tracing wanted.

The land applied for for commonage is shown by red edging on tracing attached. It includes an area of 1,770 acres. Mr. District-Surveyor Wood, on margin of Mr. Bolton's report, recommends its permanent dedication. It includes reserve from lease 205 for public camping and water, under notice 17 June, 1873. The area tinted pink, westerly of the town of Wagga Wagga, 720 acres, was permanently dedicated for commonage, and under notice dated 10th January, 1873, 360 acres and 1,000 acres adjoining that 720 acres were declared temporary commonage, with 4,273 acres at North Wagga Wagga, county of Clarendon. The census gives the population of Wagga Wagga to be 1,858 souls.—J.W.E.

Submitted for approval. Recommended.—P.F.A.

Under the reports of Mr. District-Surveyors Wood and Bolton it is submitted for the consideration of the Honorable the Minister for Lands that the area (1,770 acres) shown by red edging be permanently dedicated for commonage for Wagga Wagga, in addition to the 720 acres dedicated under notice 17 June, 1873. The necessary description is enclosed, defining the commonage and from reservation from lease.—ROBT. D. FITZGERALD (pro Surveyor General).

Department of Lands, Sydney, 10 January, 1873.

Temporary Commonage, Wagga Wagga.

His Excellency the Governor, with the advice of the Executive Council, directs it to be notified, that in pursuance of the provisions contained in the Regulations under the "Crown Lands Occupation Act of 1861," the land described hereunder shall be devoted to temporary commonage for Wagga Wagga.

JAMES S. FARNELL.

360 acres, county of Mitchell, parish of Uranquinty. The unalienated Crown Lands within the following boundaries: Commencing at the south-east corner of portion 233, parish of Wagga Wagga South, county of Wynyard; and bounded thence on the east by a line south about 86 chains to the Wagga Wagga and Deniliquin Road; on the south-west by that road north-westerly to the eastern boundary of portion 54, parish of Uranquinty; on the west by that boundary northerly to the south boundary of portion 49 of that parish; and on the north by part of the south boundary of that portion easterly, and by the south-western boundaries of portions 232 and aforesaid 233 south-easterly, to the point of commencement.

1,000 acres, counties of Mitchell and Wynyard, parishes of Wagga Wagga South and Uranquinty. The unalienated Crown Lands within the following boundaries: Commencing at the north-west corner of portion 122, parish of Wagga Wagga South; and bounded thence on the east by the west boundaries of that portion and portions 123 and 176 bearing south in all about 127 chains to the south-west corner of the latter portion; on the south by a line west about 59 chains to the east boundary of portion 46, parish of Uranquinty; thence by part of that boundary bearing north about 15 chains to its north-east corner; and thence by the north boundary of that portion bearing west 30 chains to its north-west corner, and by a line west 1 chain to the east boundary of portion 41; on the west by the east boundary of that portion and portions 40, 39, 38, and 37, bearing north in all about 98 chains to the Wagga Wagga and Deniliquin Road; and on the north by that road easterly, to the point of commencement.

4,273 acres, county of Clarendon, parishes of North Wagga Wagga and Gobbagumbalin. The unalienated and unappropriated Crown Lands within the following boundaries: Commencing at the north-east corner of portion 267, parish of North Wagga Wagga; and bounded thence on the north by the north boundary of the reserve on account of population of Wagga Wagga, as by census of 1871, being a line west about 3 miles 64 chains to the east boundary of portion 57, on Houlaghan's Creek, parish of Gobbagumbalin; thence by 4 chains of that boundary southerly to the south-east corner of that portion; and thence by the south boundary of that portion westerly to Houlaghan's Creek; on the west by that creek downwards to the north boundary of portion 61, parish of Gobbagumbalin; on the south by the north boundary of that portion easterly to the west boundary of portion 54; thence by the west and north boundaries of that portion northerly and easterly, and a line east, to the west boundary of portion 55; thence by the west, the north, and the east boundaries of that portion northerly, easterly, and southerly, the north and part of the east boundary of portion 30 easterly and southerly, and the north boundaries of portions 10, 11, 12, easterly, to the north-east corner of the latter portion; thence by a line northerly 1 chain, and by the west boundary of portion 45, parish of North Wagga Wagga, northerly to the north-west corner of that portion; and thence by the north boundaries of portions 45, 46, 47, 64, 65, 66, 67, 70, 71, and 74 easterly to the north-east corner of the latter portion; thence by a line north-easterly to the south-west corner of portion 255; and thence on the east by a line forming partly the west boundaries of portions 255, 258, northerly 52 chains 56 links, and the southern and the eastern boundaries of portion 267 easterly 40 chains 12 links, and northerly 65 chains 27 links, to the point of commencement.

And portions 74, and 175 to 180 inclusive, parish of North Wagga Wagga, containing in all 154 acres.

No. 12.

Mr. T. Hodson to The Secretary for Lands.

Sir,

Wagga Wagga, 5 January, 1876.

I do myself the honor to inform you that the lessee of Gumly Gumly Run, Mr. John Donnelly, is erecting a dwelling upon a piece of land which was notified on 10th of December ultimo as a reserve from lease for public watering-place and camping.

This land is included and fully described in a petition forwarded to you on the 22nd November last from residents in Wagga Wagga and its neighbourhood, praying that the whole of the land described in said petition be dedicated as a common.

Were there a Crown Land Bailiff in the district I should have laid this information before that officer.

I have, &c.,

THOMAS HODSON.

Messrs. H. J. Withers & Co. to The Under Secretary for Lands.

Sir,

18 Bridge-street, Sydney, 8 January, 1876.

On behalf of Mr. J. S. Donnelly, lessee of Gumly Gumly Run, we must protest against reserve 142 being proclaimed a public watering-place, there being already sufficient accommodation for the public. The application was got up by a man who had not very friendly feelings towards the squatter, and he employed some one to canvass for names upon this application. Mr. District-Surveyor Wood reported that as there was a waterhole which during a part of the year contained water it would be more convenient to the public having it than the river.

Notified 14th
Nov., 1864.
Murrumbidgee.

This would have been all very well if our client had not some £500 or £600 worth of improvements. The very house he is residing in is here situated, and if the reserve is allowed, the public can even enter the place.

We request that you will see fit to revoke a portion of this reserve, if not altogether, than allow it, or a portion of it, to remain as before, under lease.

We have, &c.,

HENRY J. WITHERS & Co.

Minute on No. 13.

A petition was received from the inhabitants of Gumly Gumly, praying that the site should be declared a public reserve. The report from Mr. District-Surveyor Wood was obtained, who recommended the immediate withdrawal from lease, as the lessee contemplated making improvements near the waterhole. The reserve was withdrawn from lease on the 10th December, 1875.—ROBERT D. FITZGERALD (for Surveyor General), 18th February, 1876.

With reference to your letter of the 15th November last, further respecting the withdrawal from lease for a public watering and camping place, of certain land on the Gumly Gumly Reserve, I am directed to invite your attention to a notice published in the Government Gazette of the 10th ultimo, from which you will perceive that the land in question has been withdrawn from lease for the purposes mentioned.

Mr. H. Freeman to The Secretary for Lands.

Sir,

18, Bridge-street, Sydney, 14 March, 1876.

At the instance of Mr. John Donnelly, of Gumly Gumly Run, near Wagga Wagga, I have already had the honor to beg your approval of his claim to hold certain improved lands on that run at a site covered by reserve No. 142. I am now in a position most positively to state that my client erected the valuable improvements in question and had accepted tenders for the construction of his homestead on this spot (the only site for miles around suitable for his dwelling-house) at a time long prior to the Government notice withdrawing the reserve from his pastoral lease. His improvements have been fully placed on the ground at a cash cost of £1,155, as per plans and specifications submitted herewith, as an evidence of Mr. Donnelly's *bond-fides* in the matter. It is quite impossible for my client to remove his homestead, &c., as ordered by the Department. His loss would scarcely be increased by the application of a firebrand to the structure, were the determination to eject him pressed.

This locality has already been specially favoured by the reservation of four different areas for water supply within a distance of 2 miles; and my client very respectfully urges that there is no true necessity for this reserve, which is flanked and adjoined by another reserve 10 chains wide leading to the river from the main road Wagga to Tarcutta, thus preserving every requisite means of access for stock. When I have explained that my client's application, if complied with, could scarcely secure him one-third of the area he could hope to acquire elsewhere in virtue of such valuable and extensive improvements, I hope I have adduced fair evidence that Mr. Donnelly would gain little but his due in the matter.

The reserve having originally been made in the interest of the run, and my client's improvements laid out and formally contracted for before any change took place in the nature of the reserve, are facts freeing Mr. Donnelly from any imputation of trifling with the power of the Minister to place the reserve beyond his reach by further proclamation.

I have, &c.,
HENRY FREEMAN.

Minutes on No. 15.

There has been no dedication of the land here in question; it is ordinary Crown land, which has been withdrawn from lease, on the enclosed report of the district surveyor, having previously been a reserve from sale.—A.O.M., 15/3/76.

I am disposed to treat this as an exceptional case, and on satisfactory proof being given that the improvements were actually commenced before and were being proceeded with at time of proclamation of reserve from lease, I approve of the revocation of so much of the reserve as will protect his improvements so as to render them of use, care being taken that means of access to the water, to provide which the reserve was made, is still retained.—T.G., 15/3/76.

Referring to your letter of the 14th instant, requesting that Mr. John Donnelly's application to purchase certain improved land on the site of reserve No. 142 at Gumly Gumly, I am directed to inform you that the Minister for Lands is disposed to treat the case as an exceptional one, and that on satisfactory proof being given that the improvements were actually commenced before and were being proceeded with at the time of the proclamation of the reserve from lease, he will approve of the revocation of so much of it as will protect your client's improvements and render them of use.

I am to add that means of access to water, to provide which the reserve was proclaimed, will be maintained.

Acting upon the notice conveyed by your letter of the 17th instant, that Mr. John Donnelly's improvements on Gumly Gumly Reserve would be secured to him under certain conditions, by revocation of the reserve from sale, &c., I now beg to submit for your full and proper assurance two separate declarations by the builder of the works and by the applicant respectively, vouching for the actual erection of improvements on the spot to the value of £490 at date of the withdrawal of the reserve from lease.

I have now the honor to ask the acceptance of these proofs, and to beg that you will kindly issue the necessary instructions for revocation of the reserve, and for early appraisement of the value of the land my client seeks to purchase in virtue of his improvements.

I have, &c.,

DECLARATION.

M. 33.

I, CHARLES HARDY, of Wagga Wagga, in the Colony of New South Wales, contractor and builder, do solemnly and sincerely declare that by articles of agreement, dated the thirtieth day of April, one thousand eight hundred and seventy-five, I agreed with John Donnelly, of Gumly Gumly Run, near Wagga Wagga, licensed grazier, to build a dwelling-house at Gumly Gumly Run aforesaid, for the sum of one thousand one hundred and fifty-five pounds, within eight months from the date of said agreement. Work was done by me in pursuance of said agreement before the tenth day of December, one thousand eight hundred and seventy-five, to the value of four hundred and fifty pounds at least.

I have lately been informed, and believe that the said dwelling-house now nearly finished is built on land reserved from lease, or otherwise, by proclamation, gazetted tenth December, one thousand eight hundred and seventy-five: And I make this solemn declaration conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "*An Act for the more effectual abolition of Oaths and Affirmations taken and made in various Departments of the Government of New South Wales and to substitute Declarations in lieu thereof and for the suppression of voluntary and extra-judicial Oaths and Affidavits.*"

M. 33.

I, JOHN DONNELLY, of Gumly Gumly Run, near Wagga Wagga, in the Colony of New South Wales, licensed grazier, do solemnly and sincerely declare that I am the lessee of the Gumly Gumly Run aforesaid. That on the thirtieth day of April, one thousand eight hundred and seventy-five, I entered into an agreement with Charles Hardy, of Wagga Wagga, contractor and builder, to build a dwelling-house on Gumly Gumly Run aforesaid, for the sum of one thousand one hundred and fifty-five pounds, within eight months from the date of said agreement.

In pursuance of said agreement, work and improvements to the value of four hundred and fifty pounds was made and done by the said Charles Hardy before the tenth day of December, one thousand eight hundred and seventy-five.

Before the said tenth day of December, one thousand eight hundred and seventy-five, I improved the said land to the value of forty pounds in addition to said sum of four hundred and fifty pounds, making on the whole improvements to the value of four hundred and ninety pounds thereon before said tenth day of December last, on which day I am informed and believe the land on which said improvements were made was reserved from lease: And I make this solemn declaration conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "*An Act for the more effectual abolition of Oaths and Affirmations taken and made in various Departments of the Government of New South Wales, and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial Oaths and Affidavits.*"

Sir,

Department of Lands, Sydney, 1 April, 1876.

Referring to your letter of the 24th ultimo, with regard to Mr. John Donnelly's application No. 17 to purchase in virtue of improvements a portion of the reserve at Gumly Gumly, I am directed to inform you that the Minister for Lands considers the evidence adduced in support of the application to be satisfactory, and has approved of its being complied with.

The necessary steps will now be taken with a view to the sale of the land in question to Mr. Donnelly.

Mr. H. Freeman to The Secretary for Lands.

Sir,

18, Bridge-street, Sydney, 20 July, 1876.

Referring to the instructions issued in April last to Mr. District-Surveyor Bolton, for the survey of Gumly Gumly reserve, near Wagga Wagga, with the object of securing the withdrawal from the contemplated sale to Mr. Donnelly of portion of that reserve for access to water, I now have the honor, on behalf of Mr. John Donnelly, to beg that as he is anxious to fence the limits of the area assured to him by the Crown, for protection of his valuable improvements, those instructions may speedily be carried into effect.

Mr. Donnelly explains that on application to Mr. Bolton, that surveyor expresses his inability to deal with the instructions, the locality not being properly within his district, but rather in the limits of the district of Mr. Macpherson.

Sir,

District Surveyor's Office, Wagga Wagga, 29 August, 1876.

I do myself the honor to return herewith your instructions to me, dated 24th April, B.C., 76, to survey land to embrace Mr. J. Donnelly's improvements on the Gumly Gumly Reserve, county of Wynyard, the county of Wynyard not being included in the district assigned to my supervision. In returning these documents I would respectfully point out that the area of the portion to be measured is not specified; also, that the sale of this land to Mr. Donnelly on account of improvements (which were undoubtedly made to secure the ground) would not be in accordance with the terms of the Honorable the Minister for Lands' circular 76-5,815.

1. That Mr. George Forsyth is still a trustee within the meaning of the Act.
2. That the statement that the trustees have done nothing, &c., is untrue.
3. That the assertion that the South Wagga Wagga Common has been permanently injured is simple exaggeration.

Under these circumstances the trustees are of opinion that Mr. Bolton has shown sufficient cause why the concluding portion of his letter should be termed impertinence.

Peters's 165 acres, and by the south boundary of that portion bearing west 20 chains; thence by part of the east boundary of reserve 134, dedicated for public watering-place 12th March, 1869, bearing south to the Tarcutta and Wagga Wagga Road; thence by the south-west boundary of that dedication north-westerly to a point 10 chains west from the south-west corner of J. Peters's 165 acres aforesaid; thence by the west boundary of that dedication for public watering-place, bearing north to the Murrumbidgee River; and thence on the north and again on the west by that river downwards, to the point of commencement.

NOTE.—The above includes reserve from lease 205, notified 10th December, 1875.

No. 34.

Mr. J. Bentley to Mr. L. Thompson.

Sir,

Wagga Wagga, 5 January, 1877.

Referring to your letter of the 6th of November last (noted in the margin), wherein it is stated that a full description of 1,770 acres of land in the parish of Gumly Gumly, county of Wynyard, dedicated as a permanent common, should be gazetted for public information as soon as His Excellency the Governor returned to Sydney, I beg to inform you that such having not yet been done, the trustees of the Wagga Wagga Commons are unable to exercise any control over the common in question, in consequence of which a great deal of squabbling and dissatisfaction exists amongst the settlers and others in its immediate neighbourhood.

Trusting this matter may meet with your early attention.

I have, &c.,

JOHN BENTLEY.

Mr. J. Bentley to The Principal Under Secretary.

Sir,

Trustees' Office, Wagga Wagga, 15 February, 1877.

I have the honor, by direction of the trustees of the Wagga Wagga Commons, to request that you will kindly answer the query hereunder stated. The trustees, in the performance of their duty, are anxious to avoid litigation, except in self-defence, hence this request.

Some years ago a certain portion of land here, on Gumly Gumly Run, was reserved from sale for preservation of water supply and other public purposes. The lessee of the run subdivided a portion of this land by fences, and built a dwelling upon it, with a view to purchase the land in virtue of improvements. This reserve from sale was asked for as a permanent common by the people of Wagga Wagga, and was unconditionally dedicated as such by His Excellency, with the advice of the Executive Council, on the 15th August, 1876.

Under these circumstances, have the trustees control over the said fences and dwelling?

I have, &c.,

JOHN BENTLEY,
Secretary.

Minute thereon.

The Under Secretary for Lands will, it appears, properly deal with the question raised.—H.H., 19/2/77.

Instructions.	Applicant.	Act.	Clause.	Area.	Parish.
20 September, 76/161	John Donnelly	L.A.A., 1875	2	320	Gumly Gumly.

Sir,

Sir,

Wagga Wagga, 28 March, 1877.

Herewith is forwarded a sketch showing the position of the improvements referred to in the application above quoted.

2. I believe that Mr. District-Surveyor Bolton has already fully reported on the question referred to me in your present instruction. This report is therefore confined to a statement of the value of the improvements, their position, and the area claimed by Mr. Donnelly.

3. The chief improvements are comprised within a very small space, and comprise a brick house of ten rooms and verandah, shingled, spouted, and unusually well finished within and without; a brick out-house containing kitchen, store, two servants' rooms and cellar; a well, with pump, and a paling fence surrounding the whole. These improvements are worth about £1,500, and are all of a permanent character. There is also a tank worth about £15.

4. The tank just mentioned is situated in the middle of a waterhole or lagoon, at present quite dry. This waterhole has obviously been dry for two months or more, and as there are other swamps on the reserve which hold out very nearly as long, I do not attach any great importance to this waterhole. Mr. District-Surveyor Bolton is, however, of a contrary opinion.

5. Mr. Donnelly seeks to purchase in right of his improvements an area of 320 acres, as shown by shading on the accompanying sketch. As I understand that it was only contemplated to allow him 200 acres, and to confine that area within the two roads from Wagga Wagga to Tarcutta, it was impossible for me to proceed with the survey.

6. There is a good deal of old fencing in addition to the improvements enumerated by me, but its value is not great, and it cannot substantially affect the question at issue.

7. The trustees of the Wagga Wagga Town Common are about to fence in the land under their control, and it is submitted that in order to prevent further complications this case should be treated as an urgent one.

I have, &c.,

ALEXANDER MACPHERSON, L.S.

No. 38.

Mr. H. Freeman to The Under Secretary for Lands.

Sir,

18, Bridge-street, Sydney, April, 1877.

With reference to my representations on behalf of Mr. John Donnelly, of Gumly Gumly Run, near Wagga Wagga, and in explanation of that gentleman's application to purchase certain land improved by him in terms of the 2nd clause of the Act of 1875, I have now the honor again to pray a special consideration of my client's position, and to ask that the permission given Mr. Donnelly by the Department, in terms of your predecessor's, Mr. Garrett's, decision, may be applied as to enable Mr. Donnelly to acquire the full area he seeks in the position marked on the accompanying copy of Mr. Surveyor Macpherson's plan.

Mr. Licensed-Surveyor Macpherson has I believe taken some pains to report on this case, and has shown conclusively in that report that Mr. Donnelly's improvements, consisting of a handsome villa residence, outhouses, tanks, fencing, &c., have been erected in a manner involving great cost, in view of their value and their permanency.

Were the original proposition adhered to, to resume simply 200 acres in the interest of my client, then I am to explain that valuable improvements must be left outside the area, and Mr. Donnelly's frontage, a *sine qua non*, in this locality would be restricted.

The lower portion of the land shown on Mr. Macpherson's plan is liable to constant inundation, and a fence erected at right angles to the river must always be swept away on the recurrence of floods. Thus I am led to beg your special approval of the measurement being made as edged on the plan by me "in red," in order that fences erected to separate the tenure from the area reserved may not be subject to the risk of destruction.

Mr. Donnelly has had the honor of seeking an interview with you on several occasions, the importance of his interests having rendered his presence in town necessary; and he respectfully assures you that unless the area promised him be somewhat extended in the manner prayed for, his labours and great outlay will have gone for nought, inasmuch as the 200 acres proposed, I believe by the District Surveyor, are not habitable in all seasons.

I have, &c.,

HENRY FREEMAN.

Surveyor General's Office, Sydney, 3 May, 1877.

RETURN papers (76/7426 Misl.) in John Donnelly's Gumly Gumly case, with your report thereon, without delay; and reply at once by telegram, and give, if possible, purport of such report.—R.D.F., 3 May, 1877 (for Surveyor General).

Minutes on No. 39.

Deputy Surveyor General,—

Mr. Wood has replied (to telegram) that he referred the matter to Mr. Macpherson, and that he (Mr. Macpherson) has reported by letter, in March, so that as far as this report of the surveyor is concerned, the case is complete for the consideration of the Minister.

But the improvements stand on a reserve from lease, notified 10th December, 1875, so that Mr. Donnelly has no legal claim to purchase. But as the amended Act of 1875 provides that land taken out of lease by conditional purchase shall return to and again become a part of the former lease in case where the conditional purchase is forfeited or cancelled, so also it may be presumed that this same principle may be allowed to govern such other cases where lands have been taken out of a lease by any other temporary legal process, and as the case in question, viz., by notification of a reserve from lease, provided the Minister sees fit to admit that such reserve shall be revoked.—G.L. 5 May, 1877.

320 acres I.P.,
2nd clause,
parish Gumly
Gumly.

Improvements,
value about
£2,000.

15

I do not think the return of land conditionally purchased to a run on the forfeiture of such conditional purchase has any reference to the present question. A statement of the objection on account of the reservation of the 10th December, 1875, should be brought before the Minister.—ROBERT D. FITZGERALD (for Surveyor General), 5 May, 1877.

Mr. Licensed-Surveyor Macpherson to The Surveyor General.

Sir,

On the 7th instant I received a telegram instructing me to return the enclosed papers, which were originally sent to Mr. District-Surveyor Wood, under B.C. of 29th September, and by him transferred to me.
Umbango, 29 May, 1877.

In reply to your telegram, and also to a memo. received from Mr. Wood, I reported that I had not received these papers; but in the course of a search for some old papers to-day I found that I had inadvertently put these away with acted-on instructions at the time of receipt, and that consequently they had not been entered in my register. I regret exceedingly that such an untoward circumstance should have (for the first time during my connection with your Department) occurred in connection with such important papers, and would explain that the date on which they must have been received I was preparing for proceeding to Sydney on account of the dangerous illness of my wife. Mr. Wood will be informed of the recovery of the papers.
I am, &c.,

ALEXANDER MACPHERSON,
Licensed Surveyor.

P.S.—A report on the improvements, &c., mentioned in the papers was made in my letter of 28th March.—A. M'P.

Minute on above.

Deputy Surveyor General. Submitted. The papers required by the Minister are now herewith. It appears the Gumly Gumly Permanent Common was notified in August, 1876. Also the improvements of Mr. Donnelly are on a reserve from lease notified December, 1875. The late Minister for Lands (Mr. Garrett), memo. dated 25th March, 1876, clearly shows the intention to allow Mr. Donnelly to purchase the land containing his improvements, but under the above circumstances what can now be done.—(Written by Mr. Long.)

Mr. H. Freeman to The Secretary for Lands.

Dear Sir,

In the matter of Mr. John Donnelly's claim to purchase part of Gumly Gumly Reserve, near Wagga Wagga, in virtue of improvements.
Monday, 18th June, 1877.

Will you kindly consent to receive Messrs. Leary and Day, Mr. Donnelly, and self to-morrow, the case being one of great importance to Mr. Donnelly, who anxiously awaits decision.

No. 46.

Mr. H. Freeman to The Secretary for Lands.

Sir,

16, Bridge-street, Sydney, 19 June, 1877.

See previous papers.

I have the honor respectfully to ask that you will, in terms of the assurance conveyed by the enclosed copies of letters addressed by the Department (during the administration of Mr. Secretary Garrett) to Mr. John Donnelly, cause the necessary steps to be taken for the sale to my client, in virtue of his improvements, of portion (490 acres) of the reserve No. 142 at Gumly Gumly, and for the revocation of that reserve.

As I have already had the honor to explain to you, Mr. Donnelly has since March, 1876, been patiently awaiting the promised survey and alienation to him of this area, and as, owing to the protracted delays in completing the sale, other interests from time to time are constantly arising.

I have, &c.,

HENRY FREEMAN.

[Urgent.]

Minutes on No. 46.

The Minister has stated his intention of carrying out the decision given by Mr. Garrett on this case, in favour of Mr. Donnelly. He desires, however, in the first instance to know whether the area of 490 acres mentioned in this letter can be granted, as the printed application does not appear to specify any particular area.—W.W.S., 19 June.

There are upwards of 490 acres available, but the fact of the land having been taken out of the lease prior to the application does not appear by these papers to have been yet dealt with.—ROBT. D. FITZGERALD (for Surveyor General), 20 June, /77.

Under the very hard and peculiar circumstances of this case I think the 490 acres should be made available for Mr. Donnelly, and if this cannot be done without first putting the land back into the lease, then this course should be adopted.—R.D., 21/6/77.

Mr. Long, should not the boundaries of the 490 acres be defined by measurement.—G.L., 22 June, /77. Memo. of instructions sent to Mr. District-Surveyor Wood.—G.L., 22 June, /77.

*Subject.**Reply.*

MR. District-Surveyor Wood is requested at his early convenience to measure an area of 490 acres of reserve 205, at Gumly Gumly, to embrace Mr. John Donnelly's improvements, the Minister for Lands having decided to allow Mr. Donnelly to become the purchaser of that area to secure his improvements.

MR. District-Surveyor Wood.

Transferred to Mr. L.-S. Macpherson, to make the necessary survey.

ROBERT D. FITZGERALD,
(For Surveyor General.)

22nd June, 1877.

No. 47.

Mr. John Donnelly's Case.

The case of Mr. John Donnelly, lessee of Gumly Gumly Run, near Wagga Wagga.

On the 29th October, 1874, Mr. Donnelly acquired the run by transfer from the then lessee, John Peters, and although it was understood at the time that numerous areas had been reserved from time to time within the boundaries of the run, yet the positions of such reserves were not clearly defined.

See enclosure to No. 4.

Certain of these reservations however were made in the interest of the Crown tenant for the proper working of the run. In particular, a water reserve, No. 142, proclaimed on 14 November, 1864, was specially made for the convenience of the runholder.

On this reserve, the area of which was then included in Mr. Donnelly's pastoral lease (and consequently within his lawful occupation, as contemplated by the 8th clause of the Act of 1861 and the 2nd clause of the present Act), Mr. Donnelly erected valuable improvements at a cost of upwards of £2,000.

The improvements consist of a handsome villa residence (cost, £1,154), store (£300), stables, garden, stockyard, wells, pump, &c.

The works were well in progress, and advancing towards completion, when certain parties in the neighbourhood urged upon the District Surveyor, Mr. Wood, the desirability of withdrawing the land from Mr. Donnelly's pastoral tenure, with a view to the proclamation of the area as a reserve from lease.

Mr. Donnelly saw with alarm that if the right of improving the land and ultimate purchase in virtue of such improvements were denied him his occupation of the run would be simply profitless, inasmuch as the position of the improvements was the only site available for miles around suited for the erection of this dwelling. Before any protest, however, could be filed by him the Department, acting upon the advice of the District Surveyor, without careful inquiry, issued a formal notice of reservation from lease.

A

A petition was filed by Mr. Donnelly for revocation of this last reserve, and for the issue in his favour of the usual permission under the 8th and 2nd clause of the Act to purchase in virtue of such improvements as were erected prior to the withdrawal of the land from his pastoral tenure.

Mr. Secretary Garrett, who dealt with the case, felt indisposed at first to admit the claim, but when it was explained to him that Mr. Donnelly had in all *bonâ fides* actually erected about £500 worth of improvements prior to the reserve from lease, that the reserve from sale on which the buildings had been erected was really the station reserve, and that, as a matter of fact, whatever interests the public might have had were fully provided for by four different reserves in the same locality within a distance of 2 miles, Mr. Garrett recorded his decision in favour of the claim to purchase, provided it could be shown that the works were really commenced prior to the proclamation of the reserve from lease.

Thereupon statutory declarations were executed by Mr. Donnelly and by Charles Hardy, the contractor and builder, and on the 24th March, 1876, were forwarded to the Lands Minister by Mr. Donnelly's agent by letter (copy herewith).

After mature deliberation Mr. Secretary Garrett formally recorded his approval of Mr. Donnelly being allowed to purchase the area covered by improvements, notwithstanding the reserve, and he formally ordered the revocation of the reserve, with the condition however that a lane of access to the river* should be preserved to the public.

The official number of papers on which this sanction is endorsed is 76-7,426 miscellaneous.

In due course an official letter (copy herewith) was sent by the Department to Mr. Donnelly, expressing this approval.

On 2nd October, 1876, the papers were, it appears, sent to Mr. District-Surveyor Wood (instructions No. 522), with instructions for survey of the area improved, in order that the necessary revocation of reserve might be effected.

The necessary claim, supported by schedule of improvements, was then filed on behalf of Mr. Donnelly, in form prescribed by the 2nd clause of the Act, and Mr. Donnelly fairly concluded that no further difficulty could arise to prevent completion of his purchase.

Of course the most perfect reliance was placed in the official assurance of the Crown, and Mr. Donnelly proceeded to complete his buildings, which have been already alluded to, the total expense being upwards of £2,000.

To his surprise and alarm, however, he has noted the attempt made by local persons inimical to his interests to agitate the public mind in favour of the cancellation of the right conferred by the Government on him, and he has on more than one occasion urged the Department to hasten survey and speedily to complete the alienation promised. Mr. Macpherson, the Licensed Surveyor to whom the work of measurement was delegated by the District Surveyor, accordingly proceeded to measure the land, but found himself impeded in the survey by some stipulation (by whom imposed is not known) to restrict the allowance of land in virtue of these valuable improvements to about 200 acres.

Being in a dilemma, and finding that such an area would not meet the requirements nor the fair expectations of Mr. Donnelly, Macpherson prepared a sketch of the locality, and sent same with a report to Head-quarters for specific instructions.

The original documents on which the Minister's decision was recorded having been dispatched to the District Surveyor, a delay occurred in dealing with the report; but in the mean time it was suddenly discovered in the Survey Department that, acting on a memorial of certain Wagga folks, received through the Colonial Secretary's Office, the identical area covered by Mr. Donnelly's residence, store, and other improvements had become included in a public common reserve, proclaimed in January, 1877.

Here a great miscarriage of justice and official business has evidently occurred.

At the date of the proclamation of January, 1877, for commonage purposes, the same area stood already twice reserved, viz., on 14th November, 1864, from sale, and on 1875, from lease.

Thus three reserves were actually in existence at the one site at the same moment, but it was not apparently known in the Department that a reserve for public purposes also existed in direct contiguity. This reserve still exists, and preserves to the public that access to the river which was made the cause of the opposition to Mr. Donnelly's tenure.

Again, within 10 chains of Mr. Donnelly's residence, there exists an extensive reservation for commonage, proclaimed as far back as 1852.

Were the public interests really jeopardized by the alienation of this land to Mr. Donnelly the claim might be one of an improper nature; yet when the fact is clearly demonstrated that the principal frontages of the river, the most valuable sites, and the best areas on the run have already been reserved for public convenience, it certainly is a hardship that any delay should be permitted to prevent concession of the rights already assured to Mr. Donnelly.

Ministerial authority is now required,—

- 1st. For the revocation of the commonage reserve of January, 1877.
- 2nd. For the cancellation, as promised by Mr. Garrett, of the lease reserve of _____, as also the reserve from sale, and finally for the survey and alienation to Mr. Donnelly, of the 490 acres covered by his improvements.

No. 49.

Mr. G. Mair to The Under Secretary for Lands.

Sir,

Wagga Wagga, 16 July, 1877.

See minute on No. 48.

Referring to the Gumly Gumly Common, I have the honor to acknowledge receipt of your telegram of the 10th instant, in reply to mine of the 9th. Your telegram states that "Mr. Licensed-Surveyor Macpherson's instructions do not in any way interfere with the permanent common." I have since the receipt of this telegram personally inspected the land in question, and found traces (tree-marks and pegs) of Mr. Macpherson's recent work upon the most important portion of the permanent common, viz., that with river frontage and other water; just that portion, in fact, which is most necessary to the public. There is not, and never was, a temporary common at Gumly, nor within miles of it.

Having a thorough knowledge of the locality, and being in possession of all the facts and circumstances which led to the dedication of this land as a permanent common, I write the truth when I say that the surveyor has been at work upon land which has been permanently dedicated to the public, and which is held for the public by trustees legally elected and duly acknowledged. My co-trustees and myself therefore intend to do our best to faithfully perform our duty to our trust, and expect the Crown to protect and assist us in so doing.

I have, &c.,

GEORGE MAIR,

Chairman Trustees.

Upon further examination, upon receipt of this letter, the land is found to have been dedicated as a permanent common. It is therefore submitted that Mr. Donnelly must be informed that his application to purchase in virtue of improvements cannot be allowed, and that Mr. Mair be also informed.—R. D. FITZGERALD (for the Survr. General).

It appears to me that the only fair course to pursue, both as regards Mr. Donnelly's claim (which has been recognized by my predecessor and myself) and also as to the rights of the public in the common, would be to have a small quantity of the common resumed as would protect Mr. D.'s improvements and also leave the commoners free access to the water frontage. Let this course be adopted.—T.G., 20/8/77.

The application by John Donnelly was made prior to the dedication, the former having been made on the 28th July, 1876, and the latter on the 15th August, 1876.—J. W. ELLIS (for Sur. Genl).

The Under Secretary for Lands, B.C., 4 Sept., /77,—Inform trustees of the common and Mr. McElhone to this effect; but that, notwithstanding, Mr. Donnelly will only be allowed to purchase as much land as will protect the improvements he has effected, and that ample means of access will be preserved for the public to water.—T.G.

16th July, 1877.

Under separate cover is forwarded a plan,* as above.

2. The improvements on this land consist of house, kitchen, hut, stable, and fencing, and are worth £1,600 at least. They are all of a substantial and permanent character, and are the property of the applicant.

3. Between this portion and portion 7 there is a line of new two-railed fence 42·43 chains long, erected by the trustees of the Wagga Wagga Commons. I was informed by the Chairman of the trustees that this fence cost about £50. It is submitted that before Mr. Donnelly's application is finally approved he should be required to reimburse the trustees the cost of the fence. He has informed me that he is willing to do so.

4. A road was not reserved along portion 7, as there is access to the Murrumbidgee by other routes very nearly as short, and as it would end at a high bank, where the water is inaccessible to stock.

5. I have treated this as an urgent case, as I understood the trustees of the common were likely to put up more fencing.

6. Enclosed is a protest addressed to me by the Chairman of the commons trustees.

I have, &c.,

ALEXANDER MACPHERSON,

Licensed Surveyor.

The whole of the portion appears to be within the boundary of the permanent common.—J. H. Wood, District Surveyor.

Sir,

Wagga Wagga, 2 August, 1877.

I have the honor to inform you that a portion of land containing 1,770 acres, situated in the parish of Gumly Gumly, county of Wynyard, was by notification in the Government Gazette of 15th of August, 1876, dedicated as a permanent common.

2. That said common is under the management and control of trustees legally elected and duly acknowledged.

3. That one John Donnelly, lessee of the Gumly Gumly Run, had built a dwelling upon a portion of said land, which was formerly a reserve for public purposes.

4. That on the 10th of July just passed a licensed surveyor, in accordance with instructions (as he informed me), measured some 400 acres of said permanent common for John Donnelly.

5. That I, on behalf of my fellow trustees, informed the Minister for Lands of this fact, and protested against any interference with said permanent common.

7. That I replied that the surveyor had measured off the most important part of said permanent common, and that his work did interfere with it.

8. The Under Secretary replied that the matter would be dealt with as soon as practicable. Knowing this matter to be of very great importance to the residents of this town and neighbourhood, and considering the action therein of the Lands Department at least vague and unsatisfactory, I, on behalf of my co-trustees, and in the interests of the public, appeal to you, sir, and respectfully request that the aforesaid permanent common be not interfered with to the prejudice of public rights.

Referring to your letter of the 16th July last, and previous correspondence respecting the proposed alienation to Mr. John Donnelly of 490 acres on the Gumly Gumly Common, I am directed to inform you that as Mr. Donnelly has gone to very considerable expense in the erection of improvements upon the land in question, under the belief (for which there was some justification) that he would be permitted

permitted to effect the purchase thereof, the Secretary for Lands has decided that as small a portion of the common shall be resumed as will suffice to protect Mr. Donnelly's improvements without preventing the commoners from having free access to the water frontage, and that steps will therefore now be taken for the survey and resumption of the same.

Adverting to my letter of the 1st April, 1876, apprising you that the necessary steps would be taken with the view to the sale to Mr. Donnelly of land at Gumly Gumly, applied for by him in virtue of improvements, I am directed to inform you that it appears from a further report from the Survey Office that the whole of the land applied for is within the permanent common.

I am further to say that the trustees of the common most strongly object, in the public interest, to the alienation of any part of it.

It appears, however, to Mr. Garrett, under the very peculiar circumstances of the case, that the only fair course to pursue, both as regards the rights of the public in the common and Mr. Donnelly's claim (which has been recognized both by him and his predecessor), would be to resume as small an area of the common as would protect Mr. Donnelly's improvements and to provide the commoners with free access to water frontage. Mr. Garrett has decided that this course must be adopted.

I have the honor to beg you will accept my thanks for your letter of the 23rd instant, accompanied by sketch of land at Gumly Gumly, purporting to show the permanent common and land proposed to be alienated to Mr. Donnelly. I deem it my duty to reply, and in doing so respectfully state that the matter still stands in the same position it did when I first had the honor of addressing you. I observe by the sketch that the Lands Department has mixed matters in such a manner as would confound any person not fully acquainted with the history and surrounding circumstances of the land in question from some years back to the present day. The land in question was dedicated as a permanent common, and the portion proposed to be alienated to Mr. Donnelly joins part of said dedication (see Gazette of 15th August, and supplement of 29th December, 1876, and sketch which accompanied a petition from the townspeople and settlers here praying for this common, forwarded to the Minister for Lands, 22nd November, 1875). Under these circumstances, I have considered it my duty again to forward a protest to the Minister for Lands against interfering with the common.

J. McElhone, Esq., M.P., to The Secretary for Lands.

Sir,

Sydney, 29 August, 1877.

Enclosed I have the honor to forward you letter and correspondence sent to me to-day by Mr. George Mair, Chairman of the trustees of Wagga Wagga Common, in reference to the most valuable portion of common or reserve being surveyed for sale at the instance of a Mr. Donnelly. I beg to call your particular attention to this matter, and to request that you will give immediate instructions in the

the interests of the public to withdraw the same from sale, and not allow Mr. Donnelly or any other person to purchase any portion of it in virtue of improvements, or for any other reason.

If the portion fronting the river is sold it will render the rest useless.

I have therefore the honor to request that you will at once withdraw the land referred to by Mr. Mair from sale.

I have, &c.,
J. McELHONE.

I would suggest that the whole of this reserve be dedicated as a common.—J. McE.

Inform Mr. McElhone that specific instructions have been given to have as small an area of the common resumed as will protect the area upon which Mr. Donnelly's improvements stand, and that full access to the water will be preserved for the commoners.—T.G., 30/8/77.

Mr. Long.—The Minister directs the minimum area, 40 acres, to be measured for Mr. Donnelly.—L.G.T., 30/8/77. Memo. to Mr. Licensed-Surveyor Macpherson to measure 40 acres.—G.L., 30/8/77.

[Enclosure to No. 59.]

Mr. G. Mair to J. McElhone, Esq., M.P.

Sir,

Some twelve months ago you placed the people of this town and its neighbourhood under a considerable obligation to you by preventing a piece of jobbing in the Lands Department in reference to a reserve upon Gumly Gumly, near Wagga Wagga, which one John Donnelly, with the assistance of some in authority, tried very hard to grasp and shut up against the public. On behalf of the same people, I now earnestly beg your assistance to expose and oppose a most unjust attempt on the part of the same Department to rob them of their rights in relation to the same reserve. The land in question, 1,770 acres, owing to the power you brought to bear upon the Minister, Mr. Garrett, in the House of Assembly, was duly and legally dedicated to the public as a permanent common on the 15th of August, 1876. Donnelly has built a house upon a portion of it, and being a wealthy man, possessing some 60 miles frontage to the Murrumbidgee, you may rest assured has employed every means money could procure to enable him to gain his end, namely, possession of this little gap in his immense estate; and it is pretty generally believed that the influence of his money has extended to quarters beyond the range of mere legitimate action. In fact, it has been boasted here by some of his "retainers" that money in this (reserve) case would in the end prove that might was right. Some short time after its dedication the trustees of the Wagga Wagga Commons took this land under their management and control, and have expended some £50 in improvements upon it. On the 9th of July last a licensed surveyor informed me he had instructions to measure some 400 acres upon the temporary common at Gumly Gumly for John Donnelly. Now, sir, there never being a "temporary common" at the place named, nor within miles of it, my co-trustees and myself looked upon the term "temporary" as one of the juggling tricks of a very mysteriously managed department, and immediately forwarded a telegram to the Minister, Mr. Driver, protesting against any interference with the common. I also served the surveyor with a notice and protest. The latter, however, went on with his work and measured off the most valuable portion of this permanent common, namely, that with the river frontage, taking in the piece upon which Donnelly's house stands; and please to mark, this said piece has been twice dedicated to the public—in the first instance as 173 acres for camping and watering place, and subsequently included in the permanent common dedication. In reply to my telegram, Mr. Under Secretary Stephen sent me the following mystification by wire:—"Mr. Licensed-Surveyor Macpherson's instructions do not in any way interfere with the permanent common." I then replied by letter, as follows:—

"Sir,

"Referring to the Gumly Gumly Common, I have the honor to acknowledge receipt of your telegram of the 10th instant, in reply to mine of the 9th. Your telegram states that 'Mr. Licensed-Surveyor Macpherson's instructions do not in any way interfere with the permanent common.' I have since the receipt of this telegram personally inspected the land in question, and found traces (tree-marks and pegs) of Mr. Macpherson's recent work upon the most important portion of the permanent common, that with river frontage and other water; just that portion in fact which is most necessary to the public. There is not, and never was, a temporary common at Gumly, nor within miles of it.

"Having a thorough knowledge of the locality, and being in possession of all the facts and circumstances which led to the dedication of this land as a permanent common, I write the truth when I say that the surveyor has been at work upon land which has been permanently dedicated to the public, and which is held for the public by trustees legally elected and duly acknowledged. My co-trustees and myself therefore intend to do our best to faithfully perform our duty to our trust, and expect the Crown to protect and assist us in so doing.

"I have, &c.,
"GEORGE MAIR,
"Chairman."

In due course I received the following reply, and taking it as a sort of shelving of the matter for the time being, I at once addressed the Colonial Secretary, a copy of which letter here follows one from Mr. Stephen:—

"Sir,

"Department of Lands, Sydney, 21 July, 1877.
"I have the honor to acknowledge the receipt of your letter of the 16th instant, upon the subject noted in the margin (referring to the Gumly Common), and to say that the matter will be dealt with and finally disposed of as early as practicable.

"I have, &c.,
"W. W. STEPHEN,
"Under Secretary."

"George Mair, Esq.,
"Chairman, Trustees, Wagga Wagga Commons."

"Sir,

"Wagga Wagga, 2 August, 1877.
"I have the honor to inform you that a portion of land containing 1,770 acres, situated in the parish of Gumly Gumly, county of Wynyard, was, by notification in Government Gazette of 15th August, 1876, dedicated as a permanent common.

"2nd. That said common is under management and control of trustees legally elected and duly acknowledged.

"3rd. That one John Donnelly, lessee of the Gumly Run, has built a house upon said land, which was formerly a reserve for public purposes.

"4th. That on the 10th of July just passed a licensed surveyor, in accordance with instructions (as he informed me), measured some 400 acres of said permanent common for John Donnelly.

"5th. That I, on behalf of my fellow-trustees, informed the Minister for Lands of this fact, and protested against any interference with said permanent common.

"6th. That Mr. Under Secretary Stephen replied that the surveyor's instructions did in no way interfere with the permanent common.

"7th. That I replied that the surveyor had measured off the most important part of said permanent common, and that his work did interfere with it.

"8th. That the Under Secretary replied that the matter would be dealt with as soon as practicable.

"Knowing the matter to be of very great importance to the residents of this town and neighbourhood, and considering the action therein of the Lands Department at least vague and unsatisfactory, I, on behalf of my co-trustees, and in the interests of the public, appeal to you, sir, and respectfully request that the aforesaid permanent common be not interfered with to the prejudice of public rights.

"I have, &c.,
"GEORGE MAIR,
"Chairman."
And

And here the matter rested until I received to-day the following communication from Mr. Under Secretary Stephen :—

"Sir,

"Department of Lands, Sydney, 22 August, 1877.

"Referring to your letter of 16th July last, and previous correspondence, respecting the proposed alienation to Mr. John Donnelly of 490 acres on the Gumly Gumly Common, I am directed to inform you that as Mr. Donnelly has gone to very considerable expense in the erection of improvements upon the land in question, under the belief (for which there was some justification) that he would be permitted to effect the purchase thereof, the Secretary for Lands has decided that as small a portion of the common shall be resumed as will suffice to protect Mr. Donnelly's improvements without preventing the commoners from having free access to the water frontage, and that steps will therefore now be taken for the survey and resumption of the same.

"I have, &c.,

"W. W. STEPHEN.

"George Mair, Esq., Chairman of the Trustees of the Gumly Gumly Common."

Now, sir, this John Donnelly is the owner of a run named Berambula, which commences on the Murrumbidgee, in or near the eastern boundary of the proposed amended electorate of that name. It is joined on the west by another run named Cunninghamroo, recently purchased; this is again joined on the west by still another run named Gumly Gumly, extending westwards close to the town of Wagga Wagga. This line will represent something like 35 or 36 miles by road, and at an approximate estimate would give some 60 or 70 miles frontage to the second great river in Australia in possession of John Donnelly; and it is for this unfortunate individual the Government intend (which justice forbid), according to the Under Secretary's letter, and in face of the law, to take, if they can, from the people the only bit of river frontage left, because (I quote Stephen) "Mr. Donnelly has gone to very considerable expense in the erection of improvements, under the belief (for which there was some justification) that he would be permitted to effect the purchase thereof."

Mr. Donnelly knew well what he was about, and placed his house in one of the most undesirable spots for a dwelling for the sole purpose of grasping the land; and before he placed a brick upon it the Lands Department was petitioned against his being allowed to purchase it to the great prejudice of the interests of the townspeople and public generally. And he has been opposed by the public in seeking and defending their own up to this day; and with your assistance, sir, in bringing this matter before the Minister, in the House, we hope eventually to succeed. Although experience has proved that almost anything is possible with the Lands Department, I cannot conceive how any portion of this land, having been once properly dedicated, can be resumed by Government without permission of Parliament. If wrong to Donnelly has been done by frustrating his avaricious and (according to Mr. Garrett's own ruling) illegal design, it would be better that he be compensated out of the public funds than that the people should be deprived of even a portion of their future park. Twelve months ago it was felt, and the same feeling exists to-day, that it would not be safe to trust this matter in the hands of our representative, Mr. Leary. Under the circumstances, sir, I sincerely hope you will endeavour to protect our interests in this case, which are the interests of the public at the mercy of maladministration.

I append the second portion of the 6th clause of the "Crown Lands Alienation Act of 1861," which I think it will be difficult to get over :—"And all lands which have hitherto been or shall hereafter be permanently reserved for any of the purposes aforesaid shall be set apart attached and dedicated accordingly and every conveyance or alienation thereof except for the purpose for which reservation shall have been made shall be absolutely void as well against Her Majesty as all other persons whomsoever."

Monday, 27 August.

I left my letter unfinished on Saturday, intending to post it to-day, and am much pleased at having done so, as I received this morning the following letter and tracing from the Colonial Secretary's Office, in reply to mine of the 2nd instant :—

"Sir,

"Colonial Secretary's Office, Sydney, 23 August, 1877.

"In reply to your letter of the 2nd instant, in which, with reference to the measuring off a portion of Gumly Gumly Run for Mr. John Donnelly, you, on behalf of the trustees of the local common, request that the permanent common may not be interfered with, I am directed by the Colonial Secretary to forward herewith a tracing which has been obtained from the Department of the Secretary for Lands, showing the permanent common and the position of the land applied for by Mr. Donnelly in virtue of improvements, by which it will be seen that the proposed revocation in his favour will not interfere with the common.

"I have, &c.,

"HENRY HALLOMAN.

"Mr. George Mair, Chairman of the Trustees of the Permanent and Temporary Common, Wagga Wagga."

This letter and tracing constitute an illustration of the unfortunate facility by which an error, or perhaps something infinitely worse, started in one department may be carried through the others. Here everything is cut and dry to suit Mr. Donnelly, totally ignoring, with unaccountable stubbornness, the fact that the land coloured red is part of the permanent common. The sketch also shows at a glance the magnitude of the injustice sought to be done the public by official wriggling, for, you must observe, they would sweep away the river frontage to give it to this man, the owner of 60 miles of water, and that after dedicating it to the people, leaving the back portion dry as a sand-hill, and rendering it worthless. I state positively the whole of the land bordered green was (with the exception of the narrow strip marked R 134, dedicated 12th November, 1869) dedicated as a permanent common, in Gazette of 15th August, and fully described in notification of 29th December, 1876. To this notification the following note is appended. Note.—The above includes reserve from lease No. 205, notified 10th September, 1875. You will observe this 205 forms portion of the land they now wish to give Donnelly, and it out of his lease on the 10th December, 1875. They have it in the tracing, 1876. Is this another mistake? The Gazette of 15th August, (or supplement) and supplement of 26th December, 1876, should enlighten the Lands Department.

I forwarded this morning the following telegram to the Minister for Lands, and replied to Colonial Secretary's letter :—

Telegram to Minister.

"Your letter of 22nd instant to hand, also letter from Colonial Secretary, with tracing *re* Gumly Gumly Common. The portion of land shown in that tracing as proposed to be alienated to Mr. Donnelly is, I say positively and respectfully, part of the permanent common, as described in notification of 29th of December, 1876, and as such cannot be alienated without breach of the 6th clause of "Crown Lands Alienation Act of 1861." On behalf of the commoners, I protest against the proposed alienation.

GEORGE MAIR,
Chairman Trustees."

Please preserve sketch herewith forwarded, as it may serve some future occasion in evidence. I register this communication to you, to make sure you get it. I would take a line from you as a favour.

Donnelly, so as to protect his improvements, and that full access to the water shall be preserved for the commoners. I am to add that the application by Mr. Donnelly was made prior to the dedication, the former having been made on the 28th July, 1876, and the latter on the 15th August, 1876, and that specific instructions have been issued to Mr. Licensed-Surveyor Macpherson to measure the area referred to.

See No. 49.

2nd. After stating the Secretary for Lands has decided that the minimum area of 40 acres will be measured for Mr. Donnelly, you add that the application by Mr. Donnelly was made prior to the dedication, the former having been made on the 28th July, 1876, and the latter on the 15th August, 1876. To this I beg respectfully to reply that it is true that the dedication of the common was made on the date quoted from your letter, but it is also true that the land Mr. Donnelly applied for, or that at least upon which he built his house, was taken out of his run, by notification in Supplement to Gazette of 10th December, 1875, as a reserve from lease for public watering-place and camping. So that his application to purchase, according to your letter, was made seven months and eighteen days after his pre-emptive power had ceased to exist.

3. The portion of land where the house stands being part of the people's common, properly dedicated, with the sanction of Parliament, and out of lease before applied for, as stated above, the trustees protest against, and will withstand to the utmost of their power, any interference with it.

Run, county of
Wynyard, taken
up about five
years ago.

The following are the facts:—About five years ago our client applied to purchase 40 acres in the county of Wynyard, on Berambula Run, by virtue of improvements.

The land was described as follows:—40 acres on the left bank of the Murrumbidgee River, bounded on the north by Patrick Hore's C.P., and on the south by James Mulvey's C.P.

As our client has heard nothing of the matter since the date of application, we beg to request that we may be informed as to its present state without delay.

Sir,

Gumly Gumly, Wagga Wagga, 15 April, 1878.

No. 65.

In reply to your favour of date the 18th March last, I have the honor to lay before you for your consideration the following circumstances connected with the improvements erected by me on the Gumly Gumly Reserve:—

I bought the run in the year 1875, and at that time it was held under lease, and the reserve in question was then in existence for the benefit of the run.

There was at this time no family residence at all on the run, and wishing to build and reside on the run, I selected a site on the reserve as being the only available land on the run, near Wagga Wagga, and close to the river, on which I could build above flood-mark, and although this land was the highest about, I had at great expense to raise that part on which the building is erected about 2 feet above the natural surface.

On reference to the plan of the run you will kindly observe that there is a very large area along the river frontage reserved for public purposes.

At the request of the Honorable the Minister for Lands, about two years ago, I sent down a declaration made by myself and the builder of the house as to the value of improvements on the land erected by me, the house alone having cost over £2,000.

Taking into consideration the peculiarities of this case, and the great expense I have incurred for the permanent benefit of the run, I crave that you will be good enough to accept my application to purchase, and procure a cancellation *pro tanto* of the reserve.

I have, &c.,

JOHN DONNELLY.

No. 69.

Mr. G. Mair to The Under Secretary for Lands.

Sir,

Wagga Wagga, 16 April, 1878.

No. 67.

I have the honor to acknowledge receipt of your letter of the 5th instant (noted in the margin), intimating the decision of the Honorable the Minister for Lands in reference to an application made by Mr. John Donnelly for the purchase of 490 acres of land upon the permanent common at Gumly Gumly.

As the dispute in this matter is now settled, I respectfully request you will be so kind as to recommend that a deed of grant shall issue to the trustees of the Wagga Wagga Commons for the permanent common at Gumly Gumly and for the permanent common at Uranquinty.

I have, &c.,

GEORGE MAIR,

Chairman.

Minute on above.

A further consideration of the matter is to take place, and the trustees to be warned than no further action, pending such consideration, is to be taken by them with regard to Mr. Donnelly's improvements.—(Written by Mr. J. Edwards.)

No. 70.

The Under Secretary for Lands to Mr. G. Mair.

Sir,

Department of Lands, Sydney, 26 April, 1878.

Adverting to my letter of the 5th instant, on the subject of Mr. John Donnelly's application No. 67. to purchase certain land on the Gumly Gumly Common, and stating that it could not be entertained for the reasons stated therein, I am directed to inform you that, in consideration of certain further representations made on behalf of Mr. Donnelly, the Minister for Lands has decided to reconsider the matter; and I am to request that the trustees of the said common will be good enough to take no further action with regard to Mr. Donnelly's improvements, pending a final decision in the case by the Government.

I have, &c.,

LINDSAY THOMPSON,
(Pro Under Secretary.)

No. 71.

Mr. F. Fitzpatrick to The Secretary for Lands.

Sir,

251, George-street, Sydney, 26 April, 1878.

I am instructed by John Donnelly, Esq., of Gumly Gumly, to address you on the following subject:—

Some time back Mr. Donnelly erected a very valuable residence on his station (or rather, the residence was in course of erection); the site was then under lease to him as pastoral tenant, being water reserve No. 142.

While the improvements were in course of erection the land was withdrawn from lease, I make bold to say, without mature deliberation. Mr. Secretary Garrett was then in office, and held that if Mr. Donnelly could prove that the improvements were commenced prior to withdrawal of the land from lease the reserve from lease should be revoked. This my client did, by statutory declarations, forwarded to your Department on the 24th November,* 1876. Mr. Secretary Garrett then, notwithstanding the reserve, decided that Mr. Donnelly should be allowed to purchase the lands covered by his improvements, and Mr. Donnelly was officially informed to this effect. The land Mr. Donnelly seeks to purchase has been (in spite of the then Minister's decision) dedicated as a common for Wagga Wagga. In point of fact, the alienation of this land to Mr. Donnelly would not prejudice the public interest. There are reserves in the locality quite sufficient for all requirements. * 24. March.

This reserve 142 is now made into something like an agistment paddock for the Municipality of Wagga Wagga. It is fully 5 miles away from the township, and only approachable by a very narrow road. The fairest solution of the matter is to do away with the reserves from lease and common, sell the land covered by Mr. Donnelly's improvements, some £500, I think, prior to reserve from lease being notified, and make the remainder a camping reserve. By doing this the public might then have the benefit of the land without having to pay for it as at present. I may here add, that in faith of the Crown's decision, conveyed to my client on 17th March, 1876, he increased the outlay on the land in question to some £2,000. Is it reasonable that he should be led into this, and then be refused the right to buy? See No. 16.

I have the honor to request that you will cause this matter to be looked into at once.

With a full conviction of your clear decisions on all land matters, I leave this matter in your hands, in hope of a favourable reply.

I have, &c.,

FRANCIS FITZPATRICK.

Mr. G. Mair to The Under Secretary for Lands.

Sir,

Wagga Wagga, 29 April, 1878.

I have the honor to acknowledge receipt of your letter of the 26th instant, noted in margin No. 70 hereof, in reference to Mr. John Donnelly and the trustees of the Gumly Gumly Permanent Common, wherein you inform me that, "in consideration of certain further representations made on behalf of Mr. John Donnelly, the Minister for Lands has decided to reconsider the matter," and requesting that the trustees will take no further action with regard to Mr. Donnelly's improvements, pending a final decision in the case by the Government.

In reply, I respectfully request that you will, in the meantime, kindly furnish me, for the information of the trustees, with the substance of the said further representations made on behalf of Mr. Donnelly.

Mr. John Donnelly—Gumly Gumly Reserve.

Sir,

Pitt-street North, Sydney, 19 August, 1878.

Enclosure A.

We beg to enclose a petition from certain inhabitants of Wagga Wagga in favour of Mr. Donnelly being allowed to purchase certain improved lands on the Gumly Gumly Reserves.

Enclosure B.

We also beg to enclose, for your perusal and consideration, a copy of the opinion of Mr. Butler, Q.C., on Mr. Donnelly's case, and we respectfully beg to draw your attention to that portion of the opinion which we have underscored.

We have, &c.,

WE, the undersigned, having an actual knowledge of the place called by the trustees of the Wagga Wagga Common a permanent waterhole, which is opposite and in close proximity to the residence of Mr. John Donnelly, at Gumly Gumly, beg to certify that such place is not properly entitled to the designation, as it never, except after heavy rain, holds any water, and then only for a short time, as the soil thereabout is of a sandy nature.

The place at present, and since last December, being quite dry, and we know that there are ample supplies of water accessible for public use within half-a-mile at each side of such place, namely, on the River Murrumbidgee and on the roadside.

Ex parte Donnelly.

17 August, 1878.

I CAN discover in this case only one question of law which gives rise to any difficulty, upon the assumption that the lands in question are Crown lands. It is the question whether the Government were bound to withdraw, by proclamation in the Gazette, the land referred to from lease prior to dedicating it permanently as a common. It does appear reasonable that it should be so withdrawn in the first place, and it is not easy to understand the object of the 5th section in the "Crown Lands Occupation Act" unless this effect is to be given to it, seeing that otherwise the same thing is provided for, and more amply provided for under the 4th and 5th sections of the Alienation Act. It would seem not unreasonable that these 4th and 5th sections should apply to Crown lands not under lease, and the 5th section of the Occupation Act should apply to the case of lands held under lease. It is not at all entirely clear from doubt that this may not be held to be the right construction, and if so the dedication in this case would be illegal, on the ground that the two conflicting rights—that of commonage and that of the tenant of the Crown—could not co-exist. But in my opinion it is not the right construction. We find embarrassing repetitions of sections having similar effects, not only in different Acts but in the same Act, so frequently as hardly to make it a matter of reasonable construction that each should be applied to a distinct object, or made to serve a distinct purpose. Moreover, the very case of a permanent dedication, which has taken place here, is not specifically mentioned at all in the 5th section of the Occupation Act, as it is only temporary commonages for the use of cities or towns or villages which are therein expressly mentioned.

But more especially does it become necessary to adopt a different construction under the definition of the words "Crown lands," which is common to both the Occupation and the Alienation Act. It is "all lands vested in Her Majesty which have not been dedicated or granted or contracted to be granted," &c.

The lands held under lease are consequently within the term "any Crown lands" in the 5th section of the Alienation Act, and may be thereby dedicated.

Then the mode of dedication provided is by notice in the Government Gazette; and upon any such notice being published in the Gazette, such lands shall become and be reserved or dedicated accordingly. So the act of dedication takes place by one and the same act of publication.

If I am right in this view, the preliminary of laying the abstract before Parliament for a month before publication having taken place, it follows that the Crown has no longer power to give a title to Mr. Donnelly to the land upon which his improvements stand, and he can get a title only by an Act of Parliament, upon the assumption still that these lands so dedicated were Crown lands.

But I have had also to consider whether a portion of the 1,770 acres dedicated had not ceased to be Crown lands so as to be incapable of dedication. Had any definite area been promised to Mr. Donnelly by Mr. Garrett I would be strongly inclined to think that that area had ceased to be Crown land when Mr. Garrett promised to sell it to Mr. Donnelly—that it had become land lawfully contracted to be granted in fee-simple, "so as to be taken out of the category of Crown lands," according to the interpretation clause. It was not merely a promise on Mr. Garrett's part without a consideration, for the price would have to be paid for the land according to the 8th section of the Act. But it seems to me impossible to make a legal contract out of the vague promise in this case, which affords no certainty as to area or quantity, unless indeed it be the very land upon which the improvements stand, and no more. Of course this was not the intention of the promise, and it does seem a hard and an unjust thing that the contract should fail altogether because of a legal point, which, when the promise was made, was not in the contemplation of either the Minister or Mr. Donnelly.

There would, however, have existed a difficulty under the 6th section, in the way of sale or contract, as to so much of the land as had been temporarily reserved from sale until such reservation was revoked, which, as I understand, was the land upon which the improvements stood. But this difficulty could have been surmounted by a revocation, and then a renewal of the contract of sale. But as, in my opinion, the contract was of no avail, on account of its uncertainty, further discussion of this difficulty, under the 6th section, becomes useless.

E. BUTLER.

No. 75.

Précis of the case, with Minister's decision thereon.

John Donnelly's application to purchase land in virtue of improvements, and the Gumly Gumly Common. In the commencement of August, 1875, a petition was received in the Lands Department from a number of farmers and landholders in the parish of Gumly Gumly, county of Wynyrd, praying that a reserve from sale in that neighbourhood of about 1,500 acres should be permanently reserved for water supply for public use. They further stated their reason to believe that the lessee of Gumly Gumly Run was about to build a dwelling upon a portion of the reserve, between two roads of importance—the said land containing a lagoon—with a view to purchase the same in virtue of improvements. See No. 3.

This petition was reported on by District Surveyor Wood, who recommended that the aforesaid reserve should be further enlarged, and the area withdrawn from lease at an early date, as it was stated the lessee of the run contemplated erecting improvements near the waterhole, which contained water for many months of the year, and in a more convenient position than going down to the river. See No. 5.

On this report a portion of the recommended area, amounting to 173 acres only, situated between the two roads leading from Tarcutta to Wagga Wagga, and containing the before-mentioned waterhole, was notified in the Gazette of the 10th December, 1875, as reserved from lease for a public watering and camping place. See No. 10.

On the 15th November, 1875, Mr. District-Surveyor Bolton had addressed the Surveyor General, informing him that Mr. Henry Bayliss, the local Police Magistrate, had waited upon him at his office that day in reference to certain buildings being erected by Mr. Donnelly; and in consequence of numerous appeals being made to him by parties interested thereby, Mr. Bolton strongly recommended that the land should be reserved from lease, and "that Mr. Donnelly be cautioned against proceeding with his improvements, which, although of a substantial character, are not for a legitimate purpose, beyond the securing of the land in supposed right thereof." See No. 7.

Messrs Fitzhardinge and Sons, of Wagga Wagga, also strongly urged the above action in the public interests. See No. 8.

In November, 1875, a numerous and influentially signed petition was received, praying that a certain defined area (1,770 acres) should be granted as a permanent common. This area included the contested reserve, as well as much more.

The petition was referred to Mr. District-Surveyor Bolton, who strongly recommended the granting of the same; it was also, on the same report, recommended by Mr. District-Surveyor Wood, within whose district it fell. Upon recommendation of the Surveyor General the whole area (1,770 acres) was withdrawn from lease, and dedicated as permanent common, 15th August, 1876. See No. 11.

Returning to Mr. Donnelly, on the 8th January, 1876, Messrs. H. J. Withers & Co. protested on his behalf against the withdrawal from lease. See No. 23.
See No. 13.

On the 14th March, 1876, Mr. Henry Freeman, on behalf of Mr. John Donnelly, made certain statements, on the strength of which Mr. Secretary Garrett minuted, "I am disposed to treat this as an exceptional case, and on satisfactory proof being given that the improvements were actually commenced before, and were being proceeded with at time of proclamation of reserve from lease, I approve of the revocation of so much of the reserve as will protect his improvements so as to render them of use, care being taken that means of access to the water, to provide which the reserve was made, is still retained." See No. 15.

Immediately upon communication of the above decision, Mr. Freeman forwarded declarations from Mr. Donnelly and from his builder, Mr. Hardy, to the effect that £450 had been expended on the building up to the date of the notification of the reserve from lease, 10th December, 1875; and Mr. Donnelly further declared that he had improved the land to the extent of £40 in addition, making a total of £490 expended before the Gazette notification.

On this letter Mr. Secretary Garrett wrote, "I think the evidence satisfactory. The revocation of the reserve and other necessary steps for the sale of the land to Donnelly may go on." See No. 17.

At this time the action for the dedication of the land in question, with much more surrounding it, for a permanent common was being carried out on papers not placed with these until long after.

There also does not appear to be any evidence that Mr. Garrett saw Mr. District-Surveyor Bolton's letter, addressed to the Surveyor General, nor Messrs. Fitzhardinge's letter, before referred to.

On the 28th July, 1876, Mr. H. Freeman lodged an application to purchase in virtue of improvements, estimated at £1,454, the land upon which they stood. Mr. Licensed-Surveyor Macpherson, to whom this application was referred, returned it, stating his impossibility to measure the land in view of the conflicting areas sought and directed. See No. 21.

On the 19th June, 1877, Mr. H. Freeman again urged his client's case, and waited upon the then Minister, together with Mr. Donnelly, and Messrs. Leary and Day, M.P.'s. See No. 46.

Mr. Secretary Driver decided, under the very hard and peculiar circumstances of this case, "I think the 490 acres should be made available for Mr. Donnelly; and if this cannot be done without first putting the land back into the lease, then this course should be adopted."

The fact of this land being included in the permanent common and dedicated does not appear to have been known to Mr. Driver.

Acting on the above decision, 490 acres were accordingly surveyed, 16th July, 1877. On the same day as survey Mr. George Mair, the Chairman of the Wagga Wagga Common Trustees, emphatically protested against the alienation of any portion of the common. On this letter Mr. Secretary Garrett decided, "It appears to me that the only fair course to pursue, both as regards Mr. Donnelly's claim (which has been recognized by my predecessor and myself), and also as to the rights of the public in the common, would be to have as small a quantity of the common resumed as would protect Mr. Donnelly's improvements, and also leave the commoners free access to the water frontage. Let this course be adopted." See No. 50.

Mr. Mair afterwards sent a statement of the case to Mr. McElhone, M.P., who forwarded it to Mr. Secretary Garrett, who gave directions that Mr. McElhone should be informed of above decision. See No. 59.

Mr. Garrett afterwards gave verbal directions to measure the minimum area, 40 acres, for Mr. Donnelly.

On a subsequent letter of Mr. Mair's, 14th September, 1877, it was submitted that the application of Mr. Donnelly could not be entertained, having been made after the land was withdrawn from his lease. See No. 62.

This

This was approved by Mr. Secretary Farnell on the 19th of February, 1878, and Mr. Donnelly and Mr. Mair accordingly informed.

See No. 71.

See No. 73.

Mr. F. Fitzpatrick addressed the Department, 26th April, 1878, on behalf of Mr. Donnelly. Action has since been stayed, pending further consideration; but Mr. Mair, on behalf of the commons trustees, has, 22nd May, 1878, requested copies of correspondence.

See No. 59.

See No. 17.
See No. 45.
See No. 49.

The question that was submitted to me on the 19th February, 1878, was simply whether an application could be entertained to purchase land in virtue of improvements when such land had been withdrawn from lease prior to date of application. My approval decided that an application could not be entertained unless during the currency of the lease, and such decision is legally correct. No other question or circumstance in connection with the case was then submitted to me. Upon reading the *précis* of the case, I find that there are facts and circumstances that ought to be considered in connection with the whole case, in order to deal with it equitably. My predecessors, Mr. Garrett and Mr. Driver, both decided that Mr. Donnelly should be allowed to purchase certain areas in virtue of improvements. Mr. Garrett's minute of the 30th August, 1877, appears to me to be a correct solution of the case. I do not think that I ought to recede from the decisions above referred to, because, as it appears to me, the decision of the Minister was a contract to sell to Mr. Donnelly. The papers show that improvements were made on the land prior to its withdrawal from lease of the value of £490. Considering the facts and circumstances of the case, I am of opinion that the recommendations contained in Mr. Garrett's minutes of the 25/3/76, Mr. Driver's minute of the 21/6/77, and Mr. Garrett's minute of the 20/8/77, should be now acted upon. As the land has been dedicated for a permanent common, it will be necessary to resume by Bill the area proposed to sell to Mr. Donnelly.—J.S.F., 31/10/78.

Mr. Garrett's memos. fix no area, but in effect they mean that Donnelly should be allowed to purchase up to the extent of improvements legally made, namely, £490. Mr. Driver's decision is that he should be allowed to purchase to the value of £490, or 490 acres. The question now is, what area should Mr. Donnelly be permitted to purchase? Well, in accordance with the previous decisions, which amount to contracts or promises to sell, I think I shall be acting equitably by confirming my previous decisions, *i.e.*, by permitting Mr. Donnelly to purchase 490 acres in virtue of improvements. Of course the restriction as to measurement to afford access to water is to be maintained.—J.S.F.

Inform parties and take other steps necessary to give effect to Mr. Farnell's decision.—L.G.T., 16/11/78. Survey Branch. Mr. G. Lewis.—As you have dealt with this case up to the present stage, perhaps you would have no objection to take what action may be necessary.—S.P., 24 Dec. 1878.

Sir,

Parliament, New South Wales, Sydney, 8 January, 1879.

I received to-day letter, dated 3rd January, 1878, *re* Mr. John Donnelly being allowed to buy 490 acres of a reserve for improvements on it, the said reserve being part of a common at Wagga Wagga. I imagine the date of letter should be January 3rd, 1879. On behalf of the people of Wagga, I beg to protest against Mr. Donnelly being allowed to buy this 490 acres. If the sale is allowed it will be a gross robbery of the people's interests.

No letter of date herein stated. Probably letter dated 21 Dec., 1878, is the one referred to. See No. 77.

When Donnelly erected his house, &c., he knew it was on a reserve, and could have no claim to buy for improvements on it.

I have the honor to request you will at once put a stop to this robbery of the public, and stop the sale, and if any quantity of land is to be allowed to Donnelly, that 40 acres are enough, as he already owns some 15 miles of river frontage.

Mr. G. Mair to The Under Secretary for Lands.

Sir,

Wagga Wagga, 8 January, 1879.

I have the honor to acknowledge receipt of your letter, dated 21st December last (but not dispatched from the Lands Office till 3rd January instant), referring to the Wagga Wagga Permanent Common and Mr. Donnelly's claim to purchase a certain portion of such permanent common in virtue of improvements.

Since the receipt of your letter I have called the trustees of the common together, and they have requested me on their behalf, and on behalf of the commoners, respectfully to protest against a resumption of any portion of the common.

As has been repeatedly pointed out by the trustees, the portion of the land dedicated as a permanent common, which is now claimed by Mr. Donnelly, did not at the date of Mr. Donnelly's application, nor at the date of his commencing the improvements, form any portion of his run, the land having been reserved from lease on 10th December, 1875, and consequently Mr. Donnelly had no more right than any other member of the community to erect improvements on the land, or to claim any of the land in virtue of improvements.

The commoners have expended a large amount of money in fencing and otherwise on the common, and we feel bound in their interests to do all we can to protect their rights.

We respectfully submit that the common cannot be resumed without the sanction of Parliament; and to Parliament we shall feel bound to appeal in the event of the decision of the Honorable the Minister for Lands, as conveyed by your letter, being carried out.

I am requested by the trustees to ask that this letter may be laid before the Minister for Lands without delay.

Memo. by the Secretary for Lands.

I wish Mr. Lewis to furnish me with information upon the following subject, having reference to the application of Mr. John Donnelly to purchase land in virtue of improvements on the permanent common at Wagga Wagga:—

Was the land applied for by Mr. Donnelly embraced in reserve 142, gazetted in 1864? Was such reserve withdrawn from lease to Mr. Donnelly by the proclamation of such reserve? When was such reserve withdrawn from lease? Was it customary prior to such land being reserved for public purposes to allow squatters to purchase land in virtue of improvements which had not been withdrawn from lease, even although reserved?

Memo. by Mr. G. Lewis.

As directed by the Secretary for Lands, I have the honor to report, in reference to the application of Mr. John Donnelly to purchase land in virtue of improvements on permanent common at Wagga Wagga, that reserve from sale only, No. 142, was gazetted on the 14th November, 1864, and was embraced in the Gumly Gumly Run, held under lease by the abovementioned applicant.

By the enclosed statutory declaration by Mr. John Donnelly, it is stated that on the 30th April, 1875, Charles Hardy, of Wagga Wagga, had contracted with Mr. Donnelly to build a dwelling-house on Gumly Gumly Run for the sum of £1,155; and further, that in pursuance of said agreement work to the value of £490 was done by the said Charles Hardy before the 10th December, 1875, on which date reserve No. 205 was withdrawn from the run. A protest against the reserve from lease is dated January 8th, 1876, which may be regarded as an application to purchase; but a more formal application is dated 14th March, 1876.

Previous to the year 1876, applications for the purchase of land in virtue of improvements within reserve from sale were generally allowed.

The P.W.C.R. (Public Watering & Camping Reserve) edged thus —•—•— is the land sought by M^r Donelly in virtue of his improvements but it in no way affects the Permanent Common which is shown adjoining.

The person who wrote the above appears to know little or nothing about the matter in hand. The land edged thus —•—•— was withdrawn from lease with the rest for Permanent Commonage 29th Dec. 1876 and the Lands Department knows it.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

WAGGA WAGGA COMMON.

(PETITION OF JOHN DONNELLY.)

Ordered by the Legislative Assembly to be received, 27 May, 1879.

To the Honorable the Legislative Assembly of New South Wales, in Parliament assembled.

The humble Petition of John Donnelly, lessee of the Gumly Gumly Run,—

SHOWETH :—

That a Select Committee has been appointed by your Honorable House on "The Wagga Wagga Common," and that your Petitioner has given evidence before the said Committee, but your Petitioner is unable to attend the said Committee personally for the purpose of examining witnesses in support of his case.

Your Petitioner therefore humbly prays, that your Honorable House will be pleased to allow him to be represented at the meetings of the said Committee by his attorney or counsel, and that his attorney or counsel may be allowed to address the said Committee on his behalf.

And your Petitioner, as in duty bound, will ever pray.

JOHN DONNELLY.

GUMLY GUMLY COMMON.

(PETITION—HOUSEHOLDERS AND OTHERS.)

Ordered by the Legislative Assembly to be printed, 5 March, 1879.

Gumly Gumly, in the Colony of New South Wales, 24 February, 1879.

The Honorable the Legislative Assembly, in Parliament assembled.

The Petition of the land and householders situate near the portion of land known as the Gumly Gumly Common,—

RESPECTFULLY SUBMIT:—

That by the said Common being made a public reserve, that stock travelling, also teams and the public in general, would benefit, as the land now fenced in would be opened, and the water then could be got to without difficulty.

Your Petitioners further submit that they believe the Common is outside the population boundary, and that when settling in this locality they were in hopes that the above land would be public reserve.

Praying for your kind consideration of the above, your Petitioners, as in duty bound, will ever pray, &c., &c.

TEMPORARY COMMON NEAR SINGLETON.

No. 1.

Memorial of Residents of Singleton to The Secretary for Lands.

(Received 5 January, 1865.)

To the Honorable the Minister for Lands, Sydney,—

The memorial of the undersigned freeholders, householders, and residents of the Town of Singleton, in the District of Patrick's Plains,

RESPECTFULLY SHOWETH:—

1. That the inhabitants of Singleton, according to the last census, numbered over 1,000, and since then have greatly increased.

2. That the want of a Common for the depasturage of the town cattle is urgently felt.

3. That travelling stock for market have no pasturage on which to feed, unless in private paddocks, the charges for which entail considerable expense.

4. That there are four sections of Crown lands contiguous to the town of Singleton, in the county of Durham, and adjoining the lands granted to the late James M'Dougall, Esquire, admirably adapted for the purposes of a Common.

5. Your memorialists therefore pray that the same may be granted for the purposes named, and that the same may be conveyed to the following gentlemen in trust, who have kindly consented to act for the public:—John Brown, Esq., J.P.; James Moore, Esq.; and William Copeland Lesley, Esq.

[Here follow 52 signatures.]

Minutes on No. 1.

Refer to Surveyor General for report.—J.B.W., 5 Jan., /65. Surveyor General, 6 Jan.—M.F.

The land referred to herein as adapted for Commonage is a village reserve containing about 4 square miles, on the northern side of the Hunter, north-easterly of the town of Singleton. As it is not likely to be required for the purpose for which it was originally intended, I would recommend that 1,000 acres should be granted for a permanent Common, and that the remainder of the reserve (1,560 acres) should be set apart as a temporary Common until required for sale or other public purpose, and placed in the hands of trustees for the townspeople. I enclose descriptions,* with a tracing* showing the position of the land with regard to Singleton, which is a private town.—W.R.D., B.C., 24 Jan., 1865.

Approved.—J.B.W., 30 Jan. A portion of the land proposed to be set apart for a temporary Common is required for cemeteries.—J.B.W., 30 Jan. Surveyor General for further report, B.C., 31 Jan., 1865.—M.F.

Singleton Town Common.

THE necessary description for Commonages at Singleton herewith. The land approved for Commonages being the village reserve on the bank of the Hunter, bounded by alienated lands and a measured section, there is apparently no necessity for measurement.

The matter may now be entered in abstract for Parliament, and parties should be called upon to recommend trustees, if not already informed by Lands.

Minutes on above.

Mr. Maitland verbally intimating that some irregularity exists on the ground, in respect of old boundaries which may alter the areas and description of the Commonages. Probably before entering in abstract for Parliament, Mr. Maitland may be requested to survey the Commonages as asked for, 5,396/65.—J.E., 15/5/65.

Common for Singleton.

HAVING received a letter from the Surveyor General, intimating that a Common had been set apart for the use of the inhabitants of Singleton, I hereby convene a meeting for the purpose of electing trustees for the management of the same, to be held at the Court-house on Wednesday evening next, the 5th April, at 7 o'clock p.m.

No. 5.

Mr. W. C. Lesley to The Surveyor General.

Sir,

Singleton, 7 April, 1865.

I am instructed by the trustees of the Singleton Common to request, before handing over the same, that you will give directions to your surveyor for the district, to have the lines and boundaries run and marked so that the trustees may know exactly the limits of the trust and prevent misunderstandings with the adjoining proprietors.

I have, &c.,

WM. C. LESLEY.

Minute on No. 5.

Singleton Commonage.

The enclosed application for measurement of the appropriations referred to may probably be complied with, and instructions issue to Mr. L.-S. Maitland. A tracing for that gentleman's guidance herewith.

How far it may be necessary to run all the lines of the temporary Commonage must be left to your discretion, as that depends on whether the old marked lines of alienated lands are in existence.—J.E., 15/5/65.

No. 6.

Mr. Licensed-Surveyor Maitland to The Surveyor General.

Sir,

Maitland, 20 June, 1865.

Referring to instructions conveyed to me in your favour of the 20th May, 1865,* I do myself the honor to report that I have surveyed the V. R. of Darlington with a view to its subdivision as per plan† enclosed.

*Not in letter book.

†Appendix A.

2. Being unable to find a western boundary thereto, I procured the descriptions of J. T. M'Dougall's 672 acres, and of A. M'Dougall's 700 acres, and knowing the north-west corner of the first-named portion, I proceeded as shown on plan to find the uncertain boundaries.

3. By this it is quite clear that A. M'Dougall has for many years fenced in and rented off a portion of the said reserve.

4. You will also observe that Johnstone has enclosed a portion of the said reserve adjoining his westerly 300 acres—and that Gardner (Stark's 640) has enclosed also—not only a portion adjoining his 640 acres, but the very best waterholes I have seen in the county.

5. All these lines are marked and I have no doubt that the reason the west boundary-line of the V. R. does not meet the section line on the right bank of the river is that the 672 acres of J. T. M'Dougall ought to have been 400 narrower from the east, that is, 80 and not 84 chains.

I am, &c.,

D. M. MAITLAND,
Licensed Surveyor.

No. 7.

Minute by The Surveyor General to The Under Secretary for Lands.

A DESCRIPTION of the permanent Common at Singleton is enclosed, in order that the appropriation may be approved of by His Excellency in Council, as required by the 5th section of the Alienation Act. Enclosure.

A description of the temporary Common is also enclosed, with a description defining the limits the freeholders and landholders within which will be at liberty to use the Commonage. These limits are identical with the boundaries of the Municipal Town of Singleton as proclaimed on the 30th ultimo, and shown by a red edging on the accompanying lithograph.* See No. 16.

Minutes on above.

Approved.—J.B.W., 20 Feb., /66. For the approval of His Excellency the Governor and the Executive Council, 6th March, 1866.

[Enclosure]

[Enclosure A to No. 7.]

DESCRIPTION of permanent Common for the town of Singleton: County of Durham, parish of Darlington, on the Hunter River, containing 1,000 acres: Commencing on the left bank of the Hunter River, at the south-eastern corner of J. M'Dougall's 900 acres; and bounded thence on the west by the eastern boundary of that land and its northerly prolongation, being in all a line bearing north 111 chains; on the north by a line bearing east 83 chains and 50 links; on the east by a line bearing south 125 chains; on the south by a line bearing west 37 chains and 50 links to a small creek, by that creek downwards to the Hunter River; and thence by that river, upwards, to the point of commencement.

Minute Paper for the Executive Council.

Department of Lands, Sydney, 7 March, 1866.

See enclosure A to No. 7. It is recommended to His Excellency the Governor and the Executive Council that the portion of land within described, near Singleton, containing 1,000 acres, be dedicated for a permanent Common under the 5th clause of the "Crown Lands Alienation Act of 1861."

See No. 16. It is also recommended to His Excellency and the Council that the within described portion of 1,400 acres, in the parish of Darlington, be set apart for Commonage purposes, under clause 29 of the "Crown Lands Occupation Act of 1861."

See No. 17. It is further recommended to His Excellency and the Council that the boundaries, of which a description is enclosed, shall be those within which freeholders and householders shall have use of the permanent and temporary Commonages of Singleton, subject to the reservations provided by clause 52 of the regulations under the Lands Alienation Act, and clause 87 of the regulations under the Occupation Act before quoted.

J. BOWIE WILSON.

Minutes on No. 8.

Clerk of the Executive Council, B.C., 7 March, 1866.—M.F.

Under the report of the Surveyor General, and upon the recommendation of the Honorable the Secretary for Lands, the Executive Council approve of the permanent and temporary Commonages for the town of Singleton described in the accompanying papers, and advise that they be dedicated and set apart accordingly, in terms of the Crown Lands Alienation and Occupation Acts of 1861. The Council further advise that the land included within the boundaries herein set forth be that within which freeholders and householders shall have use of the said Commonages, subject to the reservations herein set forth.—ALEX. C. BUDGE, Clerk of the Council.

No. 9.

The Mayor, Singleton, to The Secretary for Lands.

Sir,

Town Clerk's Office, Singleton, 15 March, 1866.

I have the honor, by direction of the Municipal Council of Singleton, to inquire whether trustees for the management of the Town Commonage of Singleton have ever been gazetted; and, if not, whether there would be any objection on the part of the Government to hand the same over to the Municipal Council, in trust for the benefit of the public.

I have, &c.,
ALEX. MUNRO,
Mayor.

Minutes on above.

Surveyor General, 19 March.—M.F. Urgent.

Trustees have not apparently been gazetted. As the town of Singleton has been incorporated under the Municipalities Act the Commonage will, it is presumed, be handed over to the Municipal Council, in accordance with the 54th clause of the regulations. B.C., 12 April, 1866.—W.R.D. Approval.—J.B.W., 26 April. Mayor informed, 30 April, 1866. Mayor reminded, 18 Sept., 1866.

Sir,

Department of Lands, Sydney, 30 April, 1866.

See No. 9. In reply to the inquiry contained in your letter of the 15th ultimo, respecting the town Common at Singleton, I am directed by the Secretary for Lands to inform you that no trustees have yet been gazetted for the same; and that it will therefore, in accordance with the regulations under the Crown Lands Alienation Act, be handed over to the charge of the Municipal Council at Singleton.

I have, &c.,
M. FITZPATRICK.

No. 11.

The Town Clerk, Singleton, to The Secretary for Lands.

Sir,

Singleton Municipality, Town Clerk's Office, 7 July, 1866.

I am directed by the Singleton Municipal Council to request that you would kindly adopt the necessary measures to cause to be granted to the Municipal Council of Singleton such possession of the Town Common as can be accorded by Government, and in accordance with your communication, numbered as per margin, and dated 30th April, 1866, wherein, in reply to an inquiry on the part of this Council,

it

it is stated that "no trustees have been yet gazetted for the Town Council at Singleton, and that it will, therefore, in accordance with the Regulations under the 'Crown Lands Alienation Act,' be handed over to the charge of the Municipal Council at Singleton."

Until such regulation be carried out the Council are deprived of their interest in the Common, which has been usurped by other parties, who hold possession and demand rent for portions thereof, and even prevent ratepayers from depasturing their cattle thereon.

I have, &c.,
EDWD. GEOGHEGAN,
Town Clerk.

Minutes on above.

Surveyor-General.—M.F., 11 July. The Municipal Council of Singleton having been named for the trusteeship of the land dedicated for Commonage purposes in that town, the nomination is hereby forwarded for the approval of His Excellency the Governor and the Executive Council.—W.R.D., B.C., 17th July, 1866.

Minutes on No. 12.

Mr. W., 10. The Municipal Council may be so informed. The appropriation for a permanent Common at Singleton was included in abstract No. 6 of 1866, laid before Parliament on the 26th ultimo, and will be gazetted with the temporary Commonage and Commoners' boundaries. Abstract with me, and will be gazetted at the expiration of one month after presentation to Parliament. For the Surveyor General, B.C., 25 October, 1866.—M.F.

Noted on Maps.—J.E., 8 Nov., /66. The notice of dedication of the permanent Common at Singleton appeared in the Government Gazette of the 2nd October, 1866, folio 2,334. The Municipal Council has been approved of as trustees, but this was done in error, as the land I have ascertained is not within the boundaries of the municipality. Trustees should be elected in accordance with the 54th clause of the Regulations.—11th Octr. End of year.

The Town Clerk, Singleton, to The Secretary for Lands.

Sir,

Municipality of Singleton, Town Clerk's Office, 5 November, 1867.

I am directed by the Municipal Council of Singleton most respectfully to call your attention to the fact that the permanent Common allotted for the use of the ratepayers of this municipality is by no means adequate to the requirements of the population for the depasturing of their cattle and horses, &c., and particularly during the ordinary protracted drought of the long summer season.

Under these circumstances they venture to bring the matter under your notice, praying that you would kindly place it before your honorable colleagues in the Executive, and solicit that the portion of land

land now placed at the disposal of the inhabitants of Singleton as the temporary Commonage, may be included and incorporated with the originally appropriated land as one permanent Common, and placed as such under the control of the Corporation of Singleton as trustees for the time being.

I have, &c.,

EDW. GEOGHEGAN,

Town Clerk.

Deputy Surveyor General.—J.B.W., 6 Nov., /67.

The Surveyor General.—M.F., 7 Nov., /67.

As the temporary Common has been withdrawn from sale and lease I do not think there is any necessity or advantage in taking the step asked.—J.B.W., 15 Nov., 67. End of year.

No. 19.

Mr. J. Johnston to The Secretary for Lands.

Clydesdale, Singleton, 30 December, 1867.

In the year 1825 I received a grant of land in the county of Durham, which I fenced in according to the enclosed survey made by Mr. G. B. White. This survey, however, includes a portion of the village reserve, so that my fence encloses a small area belonging to the reserve, which is now the temporary Common of the Singleton Municipality. The area in question is triangular, about thirteen acres in extent, useful only for grazing purposes, and was occupied by me for about forty years. The Singleton Municipal Council have now taken possession of it, and caused me a great deal of trouble and inconvenience by impounding stock, &c. I wish to know, therefore, if I may be allowed to purchase it, and would feel obliged by any information you can afford me on the subject.

I have, &c.,

JOHN JOHNSTON.

Minutes on above.

Mr. Adam, 2/1/68.

The area in question now forms part of the Singleton temporary Common. Mr. Maitland's plan of the Common shows Mr. Johnston's encroachment. The only way by which Mr. Johnston could purchase the land would be at auction sale; and if Mr. Johnston were desirous that it should thus be subjected to competition, perhaps his lengthened undisturbed occupation of it might be a reason for complying with his request.—J. S. ADAM, for S.G., January 7, /68. B.C., Under Secretary for Lands.

The correspondence indicated on the face of the accompanying papers shows, however, that it is not intended to alienate any part of the temporary Common. The land could only be alienated by auction sale; and after the promise to the Singleton Municipal Council that the land should be kept for a temporary Commonage, this application could not be recommended, excepting by consent of that body, which might be given in consequence of the long and undisturbed possession, and the inconsiderable area involved.—For the S.G., P. F. ADAMS, 31 Jan.

Ask Singleton Municipal Council if there be any objection to this alienation.—J.B.W., 13 Feb.

On referring to the map I find that Mr. Johnston may have been misled by the section lines, but not by Mr. White's survey.—24th.

No. 20.

The Town Clerk, Singleton, to The Secretary for Lands.

Sir,

Borough of Singleton, Town Clerk's Office, 20 March, 1868.

Referring to your communication, dated 29th February ultimo, in which you mention a proposal of Mr. J. Johnston to purchase 13 acres of land, forming a portion of the Singleton Temporary Commonage, and which he alleges he has had in occupation for many years, "having, under a misapprehension, included same when fencing his own land," and inquiring whether the Municipal Council of this Borough have any objection to offer why the land in question should not be alienated,—

I am instructed by the Borough Council to state that the land in question has not been in the occupation of Mr. Johnston for nearly two years; that he tendered for it as a tenant in December, 1866, but was outbid, and the land has since been leased for a term of three years to the present occupants.

The Commonage reserve, of which the land in question forms a portion, has, together with the town Common, been recently fenced in by the Council at an expense of £300, upon the especial understanding that the whole of the temporary Common was reserved from sale; and as it possesses many advantages to those depasturing stock upon the Common, the alienation of any portion thereof would be extremely prejudicial to the interests of the inhabitants of this Borough.

I have, &c.,

EDWD. GEOGHEGAN,

Town Clerk.

Minutes on above.

Surveyor General, 24 March.—M.F.

Sir,

Department of Lands, Sydney, 30 April, 1868.

His Excellency the Governor, with the advice of the Executive Council, having approved of the appropriation of certain land for Commonage at Singleton, I am directed to request that you will convene a meeting of the inhabitants for the purpose of electing five trustees for the Common, in accordance with the 65th clause of the regulations under "the Crown Lands Alienation Act of 1861."

The Mayor of Singleton to The Under Secretary for Lands.

Sir, Borough of Singleton, Town Clerk's Office, 5 May, 1868.
In reference to a communication from the Department of Lands to the Clerk of Petty Sessions, Singleton, dated 30th April, 1868, and suggesting the convening of a public meeting of rate-payers within the municipality for the purpose of electing trustees for the lands near Singleton, dedicated for Commonage purposes, I beg leave most respectfully to call your attention to the fact that the appointment of trustees to the said lands had already been the subject of correspondence between the Municipal Council of Singleton and the Department of Lands, resulting in a final communication, of which I beg to subjoin a copy:—

Sir, Department of Lands, Sydney, 21 August, 1866.
Referring to your letter of the 7th instant, respecting Singleton Common, I am directed by Mr. Secretary Wilson to inform you that His Excellency the Governor, with the advice of the Executive Council, has been pleased to approve of the Municipal Council of Singleton being the trustees of the lands near Singleton, dedicated for Commonage purposes, the appropriation of which having been included in an abstract of lands proposed to be dedicated for public purposes, recently laid before Parliament, will be gazetted in due course.
The Town Clerk, Singleton. I have, &c.,
M. FITZPATRICK.

Acting on the assurance of the above communication, the Municipal Council of this Borough expended a large sum of money in fencing in the lands so dedicated, and under the impression that there must have been some error or oversight originating the communication to the Clerk of Petty Sessions, I have been instructed by his Worship the Mayor to submit the above copy of the document alluded to to your consideration.
I have, &c.,

"The power of the Corporation to hold land is restricted by the 7th section of the 'Municipalities Act' (section 25 of the Act of 1867) to the limits of the Municipality." The above opinion has been obtained from the Crown Law Officers since the date of the letter quoted herein, on an application made by the Grafton Municipal Council that the Common might be handed over to them. The Singleton Common not being within the boundaries of the municipality, or borough as it is now designated, was improperly placed in charge of the Council, and on the 30th ultimo the Clerk of Petty Sessions was instructed to call a meeting for the election of trustees. From the letter from the Town Clerk, dated the 20th March, it would appear that the Council have incurred considerable expense in fencing, and have, moreover, leased a portion of the Common for three years.—5th May.

The best way to get out of this difficulty will be to explain the law, and ask the Corporation to name trustees.—J.B.W. Write also to the C.P.S., and request him to abstain from acting on the instructions sent to him 30th ultimo.—8 May, 1868. Has the Municipality of Singleton been gazetted as trustees of Common; if not, let it be done at once.—J.B.W., 22 July. Gazetted 24 July, 1868.

Sir, Department of Lands, Sydney, 13 May, 1868.
In reference to your letter of 5th instant, respecting the appointment of trustees for the Common at Singleton, and stating that the land had already been vested in the Municipal Council, I am directed to inform you that since the date of the letter of 21st August, 1866, an opinion has been obtained from the Crown Law Officers, from which it appears that by the 7th section of the Municipalities Act (section 25 of the Act of 1867) the power of the Corporation to hold land is restricted to the limits of the municipality, and as the Singleton Common is not within the boundaries of the municipality or Borough, it was improperly placed in charge of the Council. But as it would appear that the Council have incurred considerable expense in fencing, and have moreover leased a portion of the Common, the Minister for Lands has been pleased to decide that the Borough Council may be permitted to nominate trustees, and the instructions to the Clerk of Petty Sessions at Singleton to convene a meeting for the election of trustees have therefore been rescinded.

No. 25.

The Town Clerk, Singleton, to The Secretary for Lands.

Sir, Borough of Singleton, Town Clerk's Office, 3 June, 1868.
I am instructed by the Commonage Committee of the Borough Council of Singleton to call your attention to the accompanying copy of a report, prepared by them for presentation to the Council in reference to certain documents recently emanating from the Department of Lands.

Confident

Confident in the position of the Corporation as assured they believed by your communication of 21st August, 1866, announcing that "His Excellency the Governor had, with the advice of the Executive Council, approved of the appointment of the Municipal Council of Singleton, trustees for the lands dedicated to Commonage purposes," they considered themselves justified in recommending to the Council the surrounding of the said reserved lands by a substantial fence, which was accordingly effected at an expense of £270, and the Singleton permanent temporary Commonage reserves have since that period been held by the Municipal Council as trustees thereof, and managed under certain rules and regulations, of which a copy is herewith enclosed. See No. 13.

It is not to be wondered at if, after an uninterrupted continuance of trusteeship for nearly two years (assumed in reliance upon the assurance of Government), the Council should have felt hurt, alarmed, and surprised at learning, that without even the courtesy of an intimation to them, an order should arrive from the Department of Lands to the C.P.S., Singleton, requiring him to convene a meeting of ratepayers for the purpose of appointing trustees to the Common, thereby ignoring what the Council had been led to regard, from your own communication, as vested rights of the Corporation. It is true that upon the remonstrance of his Worship the Mayor, contained in his letter of 5th May, that order was rescinded, but the alarm of the Commonage committee was increased rather than diminished when your letter of 13th May came under their consideration, affording information (that although with the Governor's approbation and by advice of the Executive Council) the Commonage had been for nearly two years "improperly placed in charge of the Singleton Council"; in other words, that for such period they had been in blind reliance upon the assurances of Government acting illegally, and rendering themselves liable to vexatious actions at law for unwarrantably receiving agistment fees, and impounding cattle for trespassing on said Common. See enclosure A.

The steps next taken by the Commonage committee are detailed in the accompanying report, which, however, they have abstained from bringing before the Council until it should be first submitted to your perusal. See No. 22.

The Commonage, as your letter states, does not lie within the municipality, neither does it lie adjacent thereto, being separated therefrom by the river, and also by portions of land, the property of Mr. W. Lamb and Mr. J. K. Howe, occupying nearly the entire frontage, and consequently could not be included therein. See No. 24.

The committee anxiously await a further communication from you upon this subject. The only course they can perceive left to them is to bring forward the report with a recommendation that the Council should forthwith adopt measures to assert their claim against the Government for compensation for expenses already incurred in fencing the land in question, and to require a guarantee of indemnification for the consequences which may result from any (unwittingly) illegal acts on the part of the Council while exercising the office of trustees in reliance upon the good faith and assurances of the Government.

I have, &c.,

EDW. GEOGHEGAN,
Town Clerk.

Honorable Attorney General,—I should like you to advise me which course I ought to take in this case.—J.B.W., 8 June, /68.

The Secretary to the Law Department.—M.F., B.C., 10 June, /68.

[Enclosure A to No. 25.]

RULES and Regulations for the management of the Singleton Common and Commonage Reserve.

1st. All cattle and horses authorized to depasture on the Singleton Common shall be branded with the owner's initials or usual brand, and shall be reported to the Town Clerk of the Municipality of Singleton, and by him to the Common ranger, which cattle or horses shall be entered in a book kept for that purpose, and all stock not so marked, and reported to be found upon the Common, will be impounded and treated as trespassing, and dealt with accordingly.

2nd. Every ratepayer within the Municipality of Singleton shall be entitled to depasture on the Common, horse or cattle stock according to the accompanying scale:—

Ratepayers.		Privilege.	Stock.		Ratepayers.		Privilege.	Stock.	
From.	To.		Horses or Cattle.		From.	To.		Horses or Cattle.

And for every head of horse stock above the authorized number will be charged a fee of 1s. 8d.; and for every head of horned cattle in excess, in a similar manner, the sum of 1s. 3d. per month.

3rd. Any ratepayer desirous of sending stock to depasture upon the said Common shall notify such desire to the Town Clerk of the Municipality in writing, according to the following effect:—

"To the Town Clerk Singleton,—

"Sir,

"Please to register for depasture upon the Town Common, Singleton, the following stock (here specify nature and number of stock) branded (here particularize brands) my *bona fide* property.

"Dated this day of 186 ."

"Signed (Name.)
(Address.)

And the above notice countersigned by the Town Clerk shall be sufficient warrant to the Common ranger for the reception of said stock to depasture.

4th. Persons not ratepayers may become entitled to Commonage privileges by application for license to the Town Clerk, and paying for stock depasturing on the Singleton Common at the abovementioned scale of charges, viz.:—For horse stock, 1s. 8d., and for horned cattle 1s. 3d. per month.

5th. All stock above the authorized number found on the said Common or Commonage reserve, will be impounded according to law, unless the same be entered on the Town Clerk's books, and paid for at the rate above-named.

6th. All fees for agistment of stock shall be paid monthly in advance to the Town Clerk, for which printed receipts shall be given.

7th. Any person who shall be proved to have taken other persons stock in charge for payment, or otherwise to depasture in his own name or otherwise on the said Common, and such stock being found thereon will, for so doing, be fined the sum of £2 for the first offence, and £5 for every subsequent offence, and such stock will be forthwith impounded according to law, as trespassing upon the same Common.

8th. The occupant of every house in the Municipality of Singleton shall be privileged to take as much dead wood for fire as may be necessary for his domestic use, having first received license for same from the Town Clerk; and any non-ratepayer desirous of a similar privilege may obtain same on application to the Town Clerk, and paying the annual sum of 10s. in advance; but neither shall be allowed to fall any green or growing tree without the previous consent, in writing, of the Mayor and Aldermen of the Borough of Singleton. And any occupant or licensee as aforesaid who shall sell firewood, having previously taken same under pretence of being for domestic use, or who may cut or fall any green or growing trees, without due permission therefor being first obtained, as aforesaid, shall be fined the sum of £1 for the first offence, and £2 for every subsequent offence.

9th. Every person having Common right, as ratepayer, will be allowed to take any quantity of dead wood from the said Common for sale, by first taking out a license for that purpose from the Town Clerk, for which he shall pay the sum of 10s. per annum; and for any person not possessing such Common right a fee of £1 per annum. And any person found, or proved guilty of taking such dead wood, without such license as aforesaid, or of cutting or falling any green or growing tree, without permission as aforesaid, shall be fined for the first offence a sum of £1, and for every subsequent offence a sum of £2.

10th. Any person, whether commoner, licensed person, or otherwise proved guilty of stripping bark from any growing tree or trees on the said Common, without the consent of the Mayor and Aldermen of the said Borough of Singleton having been previously obtained, will be fined £1 for the first, and £2 for every subsequent offence.

11th. Every splitter, sawyer, or fencer, having Common right as ratepayer, will be required to take out a license from the Town Clerk, for which will be charged a fee of £1 10s. per annum, payable quarterly in advance, and will be allowed to cut, split, saw, or take away any timber or otherwise from the said Common, said timber to be used only for building purposes or other improvements within the municipality, and any person so cutting, splitting, sawing, or taking away any timber as aforesaid will be fined in the sum of £1 for the first, and £2 for every subsequent offence. And any person removing, or causing to be removed, or proved guilty of having removed such timber beyond the boundary of the municipality, without permission therefor having been previously obtained from the Mayor and Aldermen of the said Borough of Singleton, shall be fined in the sum of £1 for the first, and £2 for every subsequent offence; and all or any material prepared, or wood cut by such unlicensed person or persons so removing, or causing to be removed, such timber beyond the bounds of the municipality, will be seized by such person or persons as may be authorized by the Mayor and Aldermen of the said Borough of Singleton so to do, and sold on the spot or elsewhere by auction, and the nett proceeds thereof shall be applied in aid of the Common fund.

12th. Any person making bricks of or from the said Common shall previously take out a license for that purpose from the said Town Clerk, for which he shall pay a license fee of £5, payable in equal parts of £2 10s. each, half-yearly in advance, and any person found or proved guilty of making bricks of or from said Common without such license shall be liable to be fined in the sum of £1 for the first, and £2 for every subsequent offence.

13th. Any person found (or proved guilty of) destroying waterholes, watercourses, drains, or reservoirs, or polluting the waters upon any part of the said Common by throwing filth, dead carcasses, soil, or washing or soaking hides, or putting any deleterious matter therein, shall be fined in the sum of £2 for the first offence, and £5 for every subsequent offence.

14th. All fines, proceeds of sales, forfeitures, and other sums of money recovered or received by the Mayor and Aldermen of the Borough of Singleton, under these rules, shall be appropriated by them in and towards the payment thereof of any costs, charges, and expenses to which the said Mayor and Aldermen of the said Borough shall or may be put or exposed in or about maintaining or improving the said Common, or protection of the rights of the said Common, or otherwise in relation thereto.

Singleton, 25th day of March, A.D. 1868.

[Enclosure B to No. 25.]

Borough of Singleton, Wednesday, 3 June, 1868.

Commonage Committee.

Present: His Worship the Mayor (Chairman); Aldermen Williams, Mure, Kingston.

Report.

It is with deep regret that your Committee feel compelled to bring under the notice of the Council the following statement in connection with the permanent and temporary Commonage reserve dedicated to the use of the ratepayers of this municipality, and, in order that the matter may be fully understood in all its branches, it will be necessary to take a brief retrospective glance at the principal occurrences in connection with the assumption of the charge of the said Common by the Municipal Council.

On the 15th March, 1866, pursuant to resolution of the Council, a letter to the following effect was addressed to the Minister for Lands:—

"To the Honorable the Minister for Lands,—

"Sir,

"I have the honor, by the instruction of the Municipal Council of Singleton, to inquire whether trustees for the management of the Town Commonage of Singleton have ever been gazetted, and, if not, whether there would be any objection on the part of the Government to hand the same over to this Municipal Council in trust for the benefit of the public.

"I have, &c.,

"ALEX. MUNRO,
"Mayor."

To this application a reply was received, of which the following is a copy:—

"Sir,

"In reply to the inquiry contained in your letter of 15th ultimo, respecting the Town Common of Singleton, I am directed by the Secretary for Lands to inform you that no trustees have as yet been gazetted for the same, and that it will therefore, in accordance with the regulations under the Crown Lands Alienation Act, be handed over to the charge of the Municipal Council of Singleton.

"To the Mayor of Singleton.

"I have, &c.,

"M. FITZPATRICK."

Upwards of two months having elapsed without any further notice being taken by the Government of the application, a letter to the following effect was, by instruction of the Council, addressed to the Minister for Lands:—

"Sir,

"I am directed by the Singleton Municipal Council to request that you would kindly adopt the necessary measures to cause to be granted to the Municipal Council of Singleton such possession of the Town Common as can be granted by Government, and in accordance with your communication, dated 30th April, 1866, wherein, in reply to an inquiry on the part of the Council, it is stated that no trustees have yet been gazetted for the Town Common at Singleton, and it will, therefore, in accordance with the regulations under the Crown Lands Alienation Act, be handed over to the charge of the Municipal Council of Singleton.

"Until such regulation be carried out, the Council are deprived of their interest in the Common, which has been usurped by the parties who hold possession, and demand rent for portions thereof, and even prevent ratepayers from depasturing their cattle thereon.

"I have, &c.,

"EDWD. GEOGHEGAN,

"Hon. J. B. Wilson, M.L.A., Minister for Lands."

"Town Clerk.

To

To this letter* was received, on 13th July, 1866, the usual printed official circular in reply, stating that "the subject would receive due attention," and in the course of the month following the subjoined communication was received:—

* Not entered in Letter-book.

"Sir,

"Department of Lands, Sydney, 21 August, 1866.

"Referring to your letter of the 7th instant, respecting Singleton Common, I am directed by Mr. Secretary Wilson to inform you that His Excellency the Governor, with the advice of the Executive Council, has been pleased to approve of the Municipal Council of Singleton being the trustees of the lands near Singleton dedicated for Commonage purposes, the appropriation of which, having been included in an abstract of lands proposed to be dedicated for public purposes recently laid before the Parliament, will be gazetted in due course.

"I have, &c.,

"M. FITZPATRICK."

In the month of October ensuing, the Commonage, permanent and temporary, was, in accordance with the concluding paragraph of the above quoted letter, duly gazetted; and the Municipal Council, accepting the official communication of the hon. the Minister for Lands as a document legally investing them with full power and authority as trustees, took, as such, possession of the said Commonage on behalf of the ratepayers, let to various tenants certain dwellings erected thereon and portions of land thereof under cultivation, made regulations for its proper management, and appointed, on salary, a Common ranger to see these regulations duly observed, and eventually, at an expense of upwards of £270, caused the said commonage of 2,600 acres to be surrounded by a firm and substantial fence.

The Council having thus for nearly two years exercised, undisturbed and unopposed, such trusteeship, fully confiding in the legality of their position, as guaranteed by the intimation contained in the above referred-to communication from the Hon. the Minister for Lands that their appointment as trustees had been duly sanctioned and "approved by His Excellency the Governor, with the advice of the Executive Council."

Your Committee were overwhelmed with astonishment when they casually and indirectly, without even the common courtesy of a previous warning from any Government office, learned that a communication to the following effect had been received by the Clerk of Petty Sessions from the Department of Lands, dated 30th April, 1868, precisely (as will be seen on reference to letter previously quoted) two years from the date of the communication from the same department containing the assurances that the Commonage "should be handed over to the charge of the Municipal Council of Singleton":—

"Sir,

"Department of Lands, Sydney, 30 April, 1868.

"His Excellency the Governor, with the advice of the Executive Council, having approved of the appropriation of certain lands for Commonage at Singleton, I am directed to request that you will convene a meeting of the inhabitants for the purpose of electing trustees for the Common, in accordance with the 65th clause of the Regulations under the Crown Lands Alienation Act of 1861.

"I have, &c.,

"G. J. ARMITAGE,

"(For the Under Secretary.)"

"The Clerk of Petty Sessions, Singleton."

Amazed at this extraordinary and somewhat unceremonious ignoring of the very existence of this Council as trustees of the Common, duly (according to the official intimation of the Minister for Lands) "approved by His Excellency the Governor, with the advice of the Executive Council," your Committee could only imagine that the above emanation from the Department of Lands was the result of some untoward oversight or mistake, and immediately despatched the following telegram:—

"From his Worship the Mayor of Singleton to the Under Secretary for Lands,—

"5 May, 1868.

"Clerk of Petty Sessions showed letter from your department respecting trustees, Singleton Common. Please refer to your letter dated 21 August, 1866. Must be some mistake. Reply promptly."

And caused a letter to the following purport to be also forwarded:—

"Borough of Singleton, Town Clerk's Office, 5 May, 1868.

"The Mayor of the Municipal Borough of Singleton to the Under Secretary for Lands, respecting a letter received by the C.P.S. of Singleton in reference to the trusteeship of land dedicated for Commonage purposes,—

"Sir,

"In reference to a communication from the Department of Lands to the C.P.S., Singleton, dated 30 April, 1868, suggesting the convening of a public meeting of ratepayers within this Municipality for the purpose of electing trustees for the lands near Singleton dedicated to Commonage purposes, I beg leave most respectfully to call your attention to the fact that the appointment of trustees to the said lands has already been made subject of a correspondence between the Municipal Council of Singleton and the Department of Lands, resulting in a final communication, of which I subjoin a copy."

[Here follows copy of letter from Department of Lands, dated 21 August, 1866, elsewhere quoted in this report.]

"Acting under the assurance of the above communication, the Municipal Council of this Borough expended a large sum of money in fencing in the lands so dedicated, and, under the impression that there must have been some error or oversight originating the communication to the C.P.S., I have been instructed by his Worship the Mayor to submit the above copy of the document alluded to for your consideration.

"I have, &c.,

"EDWD. GEOGHEGAN,

"Town Clerk."

"To the Under Secretary for Lands."

On the 14th May the following letter in reply was received:—

"Sir,

"Department of Lands, Sydney, 13 May, 1868.

"In reference to your letter of 5th instant, respecting the appointment of trustees for the Common at Singleton, and stating that the land had already been vested in the Municipal Council, I am directed to inform you that since the date of the letter of the 21st August, 1866, an opinion has been obtained from the Crown Law Officers, from which it appears that by the 7th section of the Municipalities Act (section 25 of the Act of 1867) the power of the Corporation to hold land is restricted to the limits of the Municipality, and as the Singleton Common is not within the boundaries of the Municipality or Borough it was improperly placed in charge of the Council; but as it would appear that the Council have incurred considerable expense in fencing, and have moreover leased a portion of the Common, the Minister for Lands has been pleased to decide that the Borough Council may be permitted to nominate trustees, and the instructions to the Clerk of Petty Sessions at Singleton to convene a meeting for the election of trustees, have therefore been rescinded.

"I have, &c.,

"M. FITZPATRICK."

"The Town Clerk, Singleton."

Your Committee feeling that, even according to the above communication the Council had, by a too confident reliance upon the assurance of an official document, been already led into the "improper" acceptance of a trusteeship, did not consider themselves justified in recommending an adoption of the suggestion contained in the letter of the Under Secretary that the Council should nominate trustees under permission from the Minister for Lands until at least they should have obtained a competent legal opinion upon the subject, which was therefore submitted to the consideration of two eminent legal practitioners, from whom the following opinion was elicited:—

"We have considered the subject of the Singleton Common and temporary Commonage, and the power of the Borough Council of Singleton to have the control over such Commonage, and are of opinion as follows:—

"The Common lands lying outside the boundaries of the Borough, although for the benefit exclusively of the ratepayers of the Borough, cannot, under the 'Municipalities Act of 1867,' be held by the Borough of Singleton as a corporation, inasmuch as upon the constitution of a municipality the 10th section of that Act provides for the setting out of the boundaries of each municipality, the limits and boundaries of which are to be subsequently proclaimed, and under the 26th section, when so proclaimed, the electors become a corporate body, capable, amongst other powers, of holding land; but such corporation can only hold lands commensurate with its creation, and that being confined to certain limits it is clear that the Corporation cannot hold lands outside the boundaries. This is more clearly shown by the 126th section, where it is by express enactment only that the Council can have the control of a bridge or ferry placed at the boundary of a Municipality, 'in or over any river or creek whereof the whole breadth and both banks shall not at the site of such bridge or ferry lie or be within such Municipality.'

"Nor can the Borough Council assume control over these Commons under the Regulations of the 'Crown Lands Alienation Act of 1861,' because they are not included in the limits of the Municipality, and the 53rd regulation is in the words following:—'Where at the time a grant of a Common is made a Municipality includes the lands notified as above, the Municipal Council shall be the trustees of the Common.'

"We

"We have also considered the concluding paragraph of the letter of the 13th May from the Department of Lands, and are of opinion that the Minister for Lands has no power to permit the Borough Council to nominate trustees. Assuming our opinion to be correct that the lands cannot be held by the Borough Council, either under the Municipalities Act or the Crown Lands Alienation Act, for the reason stated, the position is just this: How are the trustees to be appointed for the proclaimed temporary and permanent common of Singleton?"

"Under the Act 11th Victoria No. 31, for the regulation of Commons, no provision is made for the election of trustees in the first instance, and, were it not for the 54th regulation of the Crown Lands Alienation Act, the permission of the Minister for Lands to the Borough Council to nominate trustees might be available; but the 54th regulation, under the 'Crown Lands Alienation Act of 1861,' purports to supply this defect by pointing out that where no municipality exists (that is, a municipality within which the lands are situated), 'The trustees shall be five in number, and shall, in the first instance, be elected in manner provided for the election of trustees for Commons, under the Act 11th Victoria, No. 31, save that the meeting shall be convened and presided over, and the election reported by the Police Magistrate of the town for which the Common may be granted, or of the nearest place of Petty Sessions; and should there be no Police Magistrate of such place, then by the Clerk of the Bench.'

"Under the 11th Victoria No. 31, these trustees are also a body corporate.

"Should you, however, choose to adopt the suggestion of the Minister for Lands, and nominate the trustees, we think it doubtful whether, after the names being proclaimed in the Government Gazette, and deed of grant executed by the Government, any one would choose to inquire into the strict legality of the proceeding.

Such being the legal opinion obtained upon this subject, your committee submit the same to your consideration. They cannot take upon themselves to recommend the adoption of the course suggested in the letter of 13th May, from the Department of Lands, inasmuch as it states that it had been discovered by the law officers of the Crown, that "His Excellency the Governor, with the advice of the Executive Council," had "improperly placed" the Common in charge of the Municipal Council. So, in like manner, the Law Officers of the Crown of some future Government might discern that if in the present instance the suggestion alluded to were carried into effect, that the nomination of trustees by permission of the Minister for Lands might equally "improperly place" the Common in charge of the Council, even if such nomination could be effected (which your committee very much doubt), without exciting inquiries into the legality of the proceeding.

BOROUGH OF SINGLETON.

Rules and regulations for the management of the Singleton Common and Commonage Reserve.

Preamble.

WHEREAS by proclamation in the *Government Gazette*, dated the 24th July, 1868, the Borough Council of Singleton were appointed trustees of the land at Singleton set apart for permanent and temporary Commonage: And whereas it is expedient that provision should be made for generally controlling and managing the said permanent and temporary Commonage, and in accordance with a resolution adopted by the Council of said Borough on the 6th day of July, 1870, and in virtue of the power and authority vested in them in that behalf, that the following rules and regulations do now take effect, and that they are hereby established for the purposes aforesaid:—

Stock.

1. All horses and cattle authorized to depasture on the Singleton Common and Commonage Reserve shall be branded, and such brands and other description of any such animals shall be reported by the owner thereof to the Council Clerk, and by him to the Common ranger, and shall be entered in a book kept for that purpose, and all stock not so reported, and found upon the Common and Commonage reserve will be impounded, and treated as trespassing, and dealt with accordingly.

2.

2. Every ratepayer within the Borough of Singleton shall be entitled to depasture on the Common and Commonage reserve horse and cattle stock according to the accompanying scale :—

Ratepayers.		Privilege—Entitled to depasture.	Stock—Horses or cattle.
From	To		
...	£1	Entitled to depasture	1 head.

And for every head of horse stock above the authorized number will be charged a fee of 1s. 8d., and for every head of horned cattle above the authorized number will be charged a fee of 1s. 3d. per month.

3. Any ratepayer desirous of sending stock to depasture upon the said Common and Commonage reserve shall notify the same to the Council Clerk in writing in the following form :—

" To the Council Clerk, Singleton,—

" Sir,

" Please to register for depasturage upon the Singleton Common and Commonage Reserve the following stock (here specify nature and number of stock) branded (here particularize brand) my *bond fide* property.

(Signed) (Name) (Address)

" Dated this day of 18 And the above notice, countersigned by the Council Clerk, shall be sufficient warrant to the Common ranger for the reception of said stock for depasturage.

4. All persons not ratepayers may be entitled to depasture stock on the Common and Commonage reserve by paying a license fee to the Council Clerk according to the following scale, namely:—For horse stock 1s. 8d., and for horned cattle 1s. 3d. per head per month.

5. All stock above the authorized number found on the said Common or Commonage reserve will be impounded according to law, unless the same be entered on the Council Clerk's books, and paid for at the rate abovenamed.

6. All fees for agistment of stock shall be paid monthly in advance to the Council Clerk, for which printed receipts shall be given.

7. Any person who shall depasture in his own name on the said Common and Commonage reserve any other person's stock will, for so doing, be fined in the sum of £2 for the first offence, and £5 for every subsequent offence; and such stock will be forthwith impounded according to law as trespassing upon the said Common and Commonage reserve.

8. Notice of removal of all cattle and horses depasturing on the said Common and Commonage reserve must be given to the Common ranger, who must accompany the person sent for the same, and take his receipt of delivery, and no person will be allowed to drive away any stock from the said Common or Commonage reserve in the absence of the Common ranger, under a penalty of £1 for each offence.

Timber.

9. The occupant of every house in the Borough of Singleton shall be privileged to take as much dead wood for fire as may be necessary for his domestic use, having first received permission for same from the Council Clerk in writing; and any non-ratepayer desirous of similar privilege may obtain a license on application to the Council Clerk, by paying the annual sum of 10s. in advance; but neither shall be allowed to fall any green or growing tree without the previous consent in writing of the Borough Council of Singleton. And any occupant or licensee as aforesaid who shall sell firewood, having previously taken same under pretence of being for domestic use, or who may cut or fall any green or growing trees, without due permission therefor being first obtained as aforesaid, shall be fined in the sum of £1 for the first offence, and £2 for every subsequent offence.

10. Every person having Commonage right as ratepayer will be allowed to take any quantity of dead wood from the said Common and Commonage reserve for sale, by first taking out a license for that purpose from the Council Clerk, for which he shall pay the sum of 10s. per annum, and for any person not possessing such Common right a fee of £1 per annum; and any person found taking such dead wood without such license as aforesaid, or of cutting or falling any green or growing tree without permission as aforesaid, shall be fined for the first offence a sum of £1, and for every subsequent offence the sum of £2.

11. Any person, whether ratepayer, licensee, or other person, found stripping bark from any growing tree on the said Common or Commonage reserve, without the consent in writing of the said Borough Council having been previously obtained, will be fined £1 for the first and £2 for every subsequent offence.

12. Every splitter, sawyer, or fencer, having Commonage right as ratepayer, will be required to take out a license from the Council Clerk, for which will be charged a fee of £1 10s. per annum, payable quarterly in advance, before any such splitter, sawyer, or fencer will be allowed to cut, split, saw, or take away any timber from the said Common or Commonage reserve, said timber to be used only for building purposes or other improvements within the said Borough; and any person so cutting, splitting, sawing, or taking away any timber as aforesaid, will be fined in the sum of £1 for the first and £2 for every subsequent offence. And any person removing or causing to be removed such timber beyond the boundary of the said Borough, without permission in writing therefor having been previously obtained from the said Borough Council, shall be fined in the sum of £1 for the first and £2 for every subsequent offence.

Brick-making and quarrying.

13. Any person making bricks on the said Common and Commonage reserve shall previously take out a license for that purpose from the Council Clerk, for which he shall pay a license fee of £5 per annum, payable quarterly in advance; and any person found making bricks on the said Common or Commonage reserve without such license shall be fined in the sum of £1 for the first and £2 for every subsequent offence.

14. Any person will be permitted to quarry stone on the said Common and Commonage reserve on payment to the Council Clerk of a license fee of £3 per annum, payable quarterly in advance; and any person quarrying stone on the said Common or Commonage reserve without such license fee having been paid shall be fined £1 for the first and £2 for every subsequent offence.

Miscellaneous.

15. Any person found destroying waterholes, watercourses, drains, or reservoirs, or polluting the waters upon any part of the said Common and Commonage reserve, by throwing filth, dead carcasses, soil, or washing or soaking hides therein, shall be fined in the sum of £2 for the first and £5 for every subsequent offence.

16. If any person shall enter into or upon the said Common or Commonage reserve, and shall wilfully or negligently leave open or down any gate or slip-panel, or shall unlawfully and maliciously cut, break, throw down, or in anywise destroy any fence of any description whatsoever, or any wall, stile, or gate, on any part thereof respectively, such person, on conviction, shall forfeit and pay any sum not exceeding £5.

17. Any person found committing any offence against these rules and regulations, on being required to give his name and place of abode, shall give any false or fictitious name or place of abode, such person shall, on conviction, forfeit and pay any sum not exceeding £5.

Recovery

Recovery of fines, penalties, and forfeitures.

18. All fines, penalties, and forfeitures incurred under these Rules and Regulations may be recovered in a summary manner before any two Justices in Petty Sessions, according to the provisions of the Act 31 Victoria, No. 12, sections 193 and 194.

Mayor.

No. 29.

The Crown Solicitor to The Under Secretary for Lands.

Sir,

Crown Solicitor's Office, Sydney, 26 July, 1870.

I have the honor to return to you herewith the code of proposed Rules and Regulations for the management of the Singleton Common and Commonage Reserve, and the various papers relating to such Common and Reserve, all of which I received lately from your department, and to state that Mr. Solicitor General Salomons, before whom I have laid the papers, "sees no reason for recommending the disallowance of these rules."

I have, &c.,

JOHN WILLIAMS,
Crown Solicitor.

papers.

Minutes on No. 29.

The Solicitor General sees no reason for recommending the disallowance of these rules; but I perceive they are not signed by the Borough Council. In a similar case (Wellington, 69-877 mis.) the Crown Solicitor recommended that the rules, &c., signed by four of the trustees, should be returned for the signature of the fifth if possible.—30 July.

No. 30.

The Under Secretary for Lands to The Trustees, Singleton Commons.

(Circular.)

Gentlemen,

Department of Lands, Sydney, 31 December, 1873.

I am directed by the Minister for Lands to invite your attention to the 3rd section of the Commons Regulation Act, 36 Vic. No. 23, which provides for the election of five new trustees for each of the Commons in this Colony, in January next, at a general meeting of commoners to be convened by the trustees, or one of them, by notification in the Government Gazette, and by a written or printed notice to be affixed in the office of the nearest Court of Petty Sessions, and also in two or more conspicuous places in the Commons, at which meeting the senior trustee shall preside; and in the absence of all the trustees a chairman to be elected by the commoners present from among themselves. And I am to request that in January next you will have the goodness to convene a meeting of the persons entitled to the use of the Common at Singleton, and forward the names of the newly elected trustees to the Colonial Secretary, in accordance with the 3rd section of the Act referred to.

I have, &c.,

T. H. JOHNSON,
(Pro Under Secretary.)

No. 31.

The Town Clerk, Singleton, to The Under Secretary for Lands.

Sir,

Municipal Council Chambers, Singleton, 9 January, 1874.

I have the honor to acknowledge the receipt of your circular, dated the 31st December, 1873, addressed to the "Trustees of the Commons at Singleton," wherein you direct attention to the 3rd section of the Commons Regulation Act, 36 Victoria No. 23, requiring five trustees to be elected for each Common in this Colony, in the month of January.

In reply, I have the honor, by direction of the Singleton Borough Council, to inform you that this Council were appointed trustees of the Commons at Singleton by proclamation in the Government Gazette, dated the 24th July, 1868; and being therefore appointed trustees, in accordance with the 2nd section of the Act referred to, no election will be necessary under the 3rd section of the same Act.

By direction of the Council I also beg to enclose a copy of the rules and regulations for the management of the Singleton Common and Commonage Reserve.

I have, &c.,

C. POPPENHAGEN,
Town Clerk.

Minutes on No. 31.

Submitted, 13th. Was a circular addressed to Municipalities being trustees of Commons? 14/1/74. A circular was addressed to the trustees of the various Commons without reference as to whether the Municipal Council were the trustees or not, 14th.

The Municipality does not hold the Common as trustees to whom the Act of last session would apply; but in virtue of the Municipalities Act of 1857, and the proclamation placing the Common in their charge thereunder, I do not think the Act, 36 Victoria No. 23, applies to such cases, and the error of writing to them had better perhaps be recalled by an explanatory letter.—A.O.M., 15/1/74.

Approved. I may add that I do not see that we have any right to interfere with the trustees of Commons; the better way is to allow them to take their own course, although in this case I think that they ought

ought to elect trustees under the recent Commons Act, but they must be left to take their own course and no doubt the thing will right itself in time.—J.S.F., 30/1/74.

The Principal Under Secretary, B.C., 4 Feb., /74.—W.W.S.

The recent Act (36 Vic. No. 23), appears express on the point that there should have been an election of trustees for the Singleton as well as all other Commons, failing which the duty of nominating five trustees devolves upon the Executive Government under the 3rd section. Shall the opinion of the Attorney General be however first had on the point? 24 Feby.

The Colonial Secretary to The Mayor of Singleton.

Sir, Colonial Secretary's Office, Sydney, 17 March, 1874.

With reference to your Council Clerk's letter of the 9th January last, addressed to the Under Secretary for Lands on the question of the election of trustees of the Singleton Common, of which your Borough Council were appointed trustees in 1868, I am directed by the Colonial Secretary to inform you that the Attorney General, who has been consulted on the subject, is of opinion that the Municipal Council's holding Commons under the Municipalities Act are not affected by the recent Commons Regulations Act 36 Vict., No. 23.

I am, &c.,
WM. GOODMAN.

No. 34.

The Council Clerk, Singleton, to The Secretary for Lands.

Sir, Municipal Council Chambers, Singleton, 8 December, 1876.

With reference to a notice in the Government Gazette, No. 207, dated 23rd October, 1866, See No. 16. granting a temporary Commonage of 1,400 acres, in the county of Durham, parish of Darlington, to the inhabitants of Singleton, I have the honor, by direction of the Singleton Borough Council, to request that you will be good enough to grant the said piece of land as a permanent Common to the Singleton Borough Council as trustees for the same.

I beg to state that the land in question adjoins a permanent Common of 1,000 acres, of which the Council are trustees. The Council have at considerable expense fenced the whole block of 2,400 acres with a substantial two-rail fence, and have further improved the permanent Common of 1,000 acres by ring-barking a portion of it. The Council contemplate making further improvements by ring-barking, &c., as the land is very poor, consisting principally of barren, stony ridges and deep gullies, rendering it almost useless in its present state for grazing purposes; but the Council do not feel themselves justified to incur any further outlay on the block of 1,400 acres owing to their present insecure tenure. I may also state that the block of 1,000 acres granted as a permanent Common is wholly insufficient for that purpose, owing to the growing population of this borough, and that the Council have been influenced by a general feeling of the ratepayers in favour of the extension of the permanent Common from 1,000 acres to 2,400 acres in making this application to you.

Hoping that you will be good enough to take this application into your most favourable consideration,

I have, &c.,
C. POPPENHAGEN,
Council Clerk.

Minutes on above.

Presented by W. C. Browne, M.P., 9 Dec., /76. Is there any objection to this request being complied with?—T.G., 9/12/76. Will the Principal Under Secretary kindly return the papers in this case.—W.W.S., B.C., 5 Jan., 1877. Returned as requested, B.C., 5/1/77.—H.H. Mr. Ellis—Urgent, 5/1/77. No. 35.

Mr. J. B. Rubie to The Colonial Secretary.

Sir,

George-street, Singleton, 2 January, 1877.

An application is in course of being made to Government for a free grant of 1,400 acres of land, abutting on the land vested in the Municipal Council of Singleton, and used as a Town Common. The land coveted by the Council has a frontage of $1\frac{1}{2}$ mile to the Hunter, and is at that boundary, from the northern boundary of Singleton, only one-third of a mile. The new bridge, when the approaches shall have

have been made, will give the townspeople ready access at all times to this land. In fact already it is on Sunday evenings quite a fair, the people choosing this, the only free outlet, for a promenade, in preference to the Maitland Road or the road to Abbey Green.

Singleton is showing signs of resuscitation, and will, I have no doubt, continue to progress socially and commercially. If her career is to be a prosperous one, how are her wealthy shopkeepers and merchants to provide themselves with suburban residences? Owners of Abbey Green, Neotsfield, Baroona, Clydesdale, Greenwood, Glenridding, and the Howes, occupy all the surrounding country for miles, and refuse to part, at any price, with a single acre. Why then should the Government give away the only piece of land there is available for building purposes, and for what? The Common has been shamefully neglected, and all its most valuable timber (ironbark) given away without remuneration. It is covered with dead timber to the extent of 40 per cent. of its area. It grazes seventy miserable horses which are put there by their owners because they are next to worthless. Nobody will put a good horse there.

I beg to remind you that at the late sale of the Burdekin property not one half intending purchasers could obtain allotments, and those who had been fortunate enough to obtain a few are disposing of them at a premium of 50 per cent. Four acres were given by the Burdekins for a market or park, which, when the allotments which have been purchased shall have been utilised, will be the only air space for a population of 1,500 people. If the Government would only survey and subdivide these 1,400 acres into pieces of 5, 10, and 20 acres for suburban villas, they would not only obtain something near the value of this town property, but would be conferring an invaluable boon on a community whose sanitary interests are not only not cared for but not understood.

Yours, &c.,

JNO. B. RUBIE.

It is wanted to illustrate a report on the application of the Borough Council to have the 1,400 acres of temporary Commonage granted to them as a permanent Commonage. Their application is opposed by parties who wish the land put up to auction.

A very rough tracing on linen would be sufficient. There is nothing in the district office but a plan showing the Common to scale of $\frac{1}{2}$ inch to the mile. F. B. W. WOOLRYCH,

Sir,

Sydney, 1 September, 1877.

I understand that the application of the Municipal Council of Singleton to have the temporary Common at Singleton, consisting of 1,500 acres, made a permanent Common, and handed over to them by the Government for the use of the inhabitants of Singleton, is opposed by certain persons who want the temporary Common to be surveyed in blocks for auction sale.

As this is the only available Crown land contiguous to the town, I desire, on behalf of the inhabitants, to record my protest against any such action being taken, as it is entirely opposed to their wishes, and would be highly detrimental to their interests.

The town of Singleton is yearly making great progress, and the population steadily increasing; and it would be a highly injudicious course to deprive the inhabitants of this Common, and one which I trust in their interests you will never accede to.

[Enclosure to No. 40.]

[Extract from the *Singleton Argus*, Wednesday, September 19, 1877.]

A POLITICAL DODGE.

A MATTER which greatly affects the welfare of Singleton, or is supposed to do so by those who have the safe keeping of Singleton's interests, was brought prominently before the Council on Wednesday night last. A letter had been received from Mr. W. C. Browne, M.L.A., respecting the temporary Common, which the Borough Council wish to have made a permanent reserve for the benefit of Singleton. This temporary Common is situated on that side of the river opposite to the Redbournberry Estate, and adjoining the present Common. The former consists of upwards of 800 acres, and the latter of 640. The two combined thus make an area of over 1,440 acres. An application had been made by the Council, through Mr. Browne, for these 800 acres to be added to the square mile of Common land already possessed, but, according to the letter, this application has been "opposed by certain persons who are desirous of having it surveyed in lots and submitted to auction sale." The writer stated further that he had already strongly protested against such a course being adopted as detrimental to the interests of the inhabitants of Singleton. In the discussion which followed doubts were thrown on the truthfulness of the statements made in the letter, as quoted above, and the Mayor affirmed, on the authority of the Minister for Lands, that no such application had been made, thereby implying that the conversion of the temporary Common into a permanent one was not opposed by any person so far as the officials knew; and, on the strength of this assertion, he held that Mr. Browne's letter was "nothing but a political dodge." We do not profess to know more of Mr. Browne's opinions or intentions than we do of Mr. Bowman's, or than the public does of either. Both are public men as viewed from a Singleton stand-point, and as such each has severally and at various times given the public so much insight into those hidden recesses where such possessions as opinions and intentions are formed and stored as seems good to them individually. Their respective positions—the one as representative of the district, and the other as Mayor of the borough—entitle their opinions to some weight, and justify criticisms of their conduct. They are further linked together by that curious tie which a successful and unsuccessful candidature for public favours is apt to form. Mr. Bowman offered his services to the electors of Patrick's Plains, and those services were declined—not, perhaps, because the electors liked Mr. Bowman less, but that they liked Mr. Browne more. We are not supposed to know that Mr. Bowman took much notice of the preference, or that he ever disputed the right of the electors to choose whomsoever they pleased, for Mr. Browne was a tried man, and Mr. Bowman was not. The electors seemed displeased to let what they considered well alone, and Mr. Bowman's defeat was the result of that disposition exhibited at the ballot-box. In

In the performance of a portion of those duties which, in common with Mr. Bowman, Mr. Browne pledged his willingness to undertake and faithfully fulfil, he has written a letter to the Borough Council, and Mr. Bowman, as the head of that Council, declares it to be "a political dodge." We are always willing to learn, and to those who occupy high, honorable, and responsible positions we lend an attentive ear, believing generally that the utterances of responsible persons will be given with due regard to truth, and founded on reason, common sense, and justice; but having reserved the right to seek for further enlightenment on matters that are occult, or beyond ordinary comprehension, we find it necessary to exercise this right in the present instance. Mr. Bowman is an alderman; he has eight colleagues who, with himself, have been chosen by the ratepayers as suitable and trusty servants of the community. Mr. Bowman's colleagues have elected him as the fittest and best qualified person amongst their number to guide their councils, and represent in his individual presence the whole corporation of Singleton.

Taking the aldermen at their word, and recognising the present Mayor as the suitable embodiment of the combined intelligence of the Borough of Singleton, because the aldermen have said so, we hold ourselves excusable if we expect from the Mayor that guardedness of speech, that consistency, and recognition of responsibility which is implied in the choice and acceptance of the position; and as we do not understand—and cannot, unaided, find out—how Mr. Browne's letter becomes "a political dodge," we shall feel obliged if Mr. Bowman will kindly explain, for our enlightenment and that of the persons represented by Mr. Browne, in what way he sees that hon. gentleman is trying to "dodge" them. The Mayor's disclaimer that "he did not care about politics himself, and was satisfied only to look after the interests of the municipality," will prove the disinterestedness of his motives in exposing Mr. Browne's "dodgery," for it is impossible to suppose, with this disclaimer before us, that Mr. Bowman has any desire now, whatever he may at one time have had, to take upon himself his former rival's honours and responsibilities; and even if such a motive could be supposed to exist are we not bound to believe that a gentleman fitted to hold the high and honorable position of Mayor of such a town as Singleton would scorn to say anything prejudicial to a former rival's character in this public way unless he could fully substantiate it? We therefore wait for a reply, confident that the Mayor will not hesitate to at once inform the ratepayers and others what sinister purpose Mr. Browne is trying to effect by this simple letter, which Mr. Bowman holds to be "nothing but a political dodge."

Extract from the "*Singleton Argus*."

THE PROPOSED ADDITION TO THE TOWN COMMON.

To the Editor of the *Singleton Argus*.

Sir,

17 September, 1877.

In your issue of Wednesday last appears a notice respecting "the proposed addition to the Town Common" of 1,200 acres of unsold land, applied for at the instance of one or two aldermen of the municipality, on account of the barren nature of the Commonage and its inadequate size. You also notice that some parties have sent in applications praying that it may be surveyed, in order to be thrown open for public auction.

I am one of those parties, and the member for Patrick's Plains is aware that I am one of them.

Some twelve months ago or so, when Mr. Quinn was busily preparing for his august inauguration, around which the nimbus of disappointment was already gathering, as Lord Mayor, he, doubtless, under the stimulation of high hope and intense gratitude for favours looming in the distance, proposed "that an application be made to Government for this 1,200 acres of land, and that our representative in Parliament be instructed to take charge of it." That honorable gentleman, ever willing without the semblance of constraint (and I am happy to be afforded the opportunity of testifying thereto) to serve the cause of the poor man, evinced no unwillingness in respect of this municipal request, although unsustained by the approval of the ratepayers to support its prayer. Now the question will suggest itself to any thinking man—How have these municipal people managed the Common already in their possession? Eight years ago they got it and fenced it at an outlay of £500. It is 1 mile from the township, and situated on the northern bank of the river. £32 a year is paid to a ranger for receiving a beast now and then, and entering its brands in a book. When the beast is wanted, which is rarely, as no beast worth 30s. is ever put in there, you may find it if you can; but if not, the ranger has a little boy who will get it for you at a charge of 2s. 6d. This is often mortifying, as the beast, when brought in, is so poor that it has to be returned again.

It had, when taken possession of by the Council, a forest of gums—red, blue, spotted, and white—second to none in the Colony, but which has disappeared without the ratepayers profiting one sixpence. Some of those trees have been known to yield 100 posts and rails, worth at the stump 70s. Where are they? Who has taken them? Has a register been kept of the pecuniary profits arising from their sale? Has there been no jobbery, no working of the oracle, in the process of denudation.

In a report, furnished by Baron Von Mueller to the Victorian Government some three years ago, on the condition and value of forests in Victoria, he computed the value of the timber reserves, if untouched for twenty-five years, at £45 per acre. A sound blue gum (*Eucalyptus globulus*) or iron-bark (*E. paniculata*) he estimates, when 3 feet in diameter, as being worth, unfelled, 10s. The red gum (*E. teriticornis*), which grows to 150 feet, and of which our Common had contained a very large number, is, in the estimation of the Baron, the most valuable for sleepers, fences, and piles of all the eucalypts.

This is the property capable of yielding, if under skilful management, £1,000 since the Municipal Council got hold of it, and would continue to yield annually by preserving the saplings and thinning out the humpbacks, the gnarls, and the non-uprights, which absorb the nutriment that would grow straight and healthy trees. I say this is the property which the Council has ruined, and which it will take them or some future Council a quarter of a century to recuperate.

And yet, in the face of facts so apparent, they want to cajole the Government out of another 1,200 acres, to be utilized in the same profitable manner.

As a pasturage it has been condemned by the unanimous condemnation of the respectable portion of the tax-paying community. No man who values a horse would put it there. Those who do put them there are apprentices and embryo jockeys, who now and then buy a horse for 5s. or 10s., and get some taxpayer's permission to put it in the Common in his name. So that we actually offer a premium for the propagation of a breed of mongrel animals whose extinction was sought by Government to be accomplished by a tax of a certain sum per head upon all horses. The Bill for this purpose, some six years ago, was lost by a small majority.

If

If our representative will take the trouble of going with me into figures he will arrive at something like the following results:—

	£	s.	d.
Fencing Common (I believe)	400	0	0
Eight years interest at 10 per cent.	320	0	0
„ wages for ranger, at £35	280	0	0
„ rent, at £50 per annum, offered by a neighbouring squatter, and refused, for Town Common	400	0	0
	£1,400	0	0

Although not inspected and therefore not appraised, I am unable approximately to determine the value of the timber eight years ago; but I conscientiously affirm that the money value of the trees cut down in the Common for the last eight years cannot be stated at a lower sum than £500. You will have to bear in mind that railway sleepers were fetching 5s. each, and many trees have given six of them. It must be a miserable tree that would not turn out two.

All this money—nearly £2,000—has been recklessly flung away. Will any one of the aldermen take the trouble of showing that it has not? A few paltry horses, half-fed, and many starved to death, are the only outcome of all this sacrifice. I lost two horses, one valued at £15 and the other at £12, by foolishly placing them in the Common; others, having sustained similar privations, refuse to place anything in the Common.

I am one of those who wrote to Government deprecating the alienation of this land for a Commonage on the grounds I have stated. The ground was not sought from any liberal or high-minded motive. If the area were 10,000 acres instead of one, I don't think twenty ratepayers could be found who would give a button for it. It has no pastoral value, no agricultural value, and no timber reserves. For what then would the ratepayers "God bless his worship"? They have already lost by the original boon, and they have no wish to increase their liabilities. If the people wanted such a thing they have the means of making themselves heard. But it stole into the public ear like other symphonies from the Municipal harmonium, a sort of joy-bell sounded on the eve of a great demonstration with the following accompaniment—"Singleton for ever"; "Advance Australia"; "The purtiest town in the Colony will be denied nothing by a paternal Government"; "Hurrah for our Member"; "God bless ourselves." Luscious interjections these, Mr. editor—full of odour and sweetness.

'Twas in the speech on election day, of the sanguine and ambitious alderman, the first intimation was given of this promised boon to Singleton; but the people regarded it as a joke—one of those poetic favours which are the outcome of exuberant frolic just before the advent of a glorious triumph. But alas, for all human speculation, and municipal speculation in particular, the worthy and popular alderman counted his eggs before they were hatched. The naughty ratepayers of Singleton declined his services, and elected a man in his place that was never inside the walls of a Council Chamber. The promised town Common was weighed in the balance and found wanting. Something was said about a portion of land being wanted as a recreation ground. I shall at once give my adhesion to any movement that has for its object the apportionment of half a section of this thousand acres for that purpose. But this ground being barren and covered with dead timber, the Government had better stipulate before parting with it for the *bonâ fide* conversion of its area into an ornamental botanical plantation, with plants, walks, and an arcade or two—sylvan fashion. If the ground is not worth the expenditure of improvements upon it, it is worth nothing. Good air, so vital to healthy existence, cannot be purchased at too costly a rate. The medicine man and his drugs will be found much dearer, not to reckon up the injury inflicted by repeated attacks of avoidable sickness.

I, Mr. Editor, have submitted to the Government what I have taken the liberty to regard as the better, and certainly the more lucrative disposal of this land. Singleton proper is but a small area; it has barely room within the next twenty-five years to develop into a commercial and manufacturing centre, and will have no reserves for private residences. Wealthy merchants and tradesmen, and professionals, will seek for suburban sites for villas, and where are they to get them? They can't go to Neotsfield, to Barcona, or to Abbey Green for them. There is no outlet so convenient and none more healthy than this embryo Common.

It has water frontage—it is out of reach of flood—and it has an iron-stone soil—the next best, I believe, to limestone—as a foundation for buildings.

If parcelled out into allotments of 5, 10, and 20 acres respectively, and placed at £5 per acre, the entire land would gradually pass into the hands of buyers within five years. Of our Member I shall be permitted to say that he has many qualifications which would endear him to an electorate, and especially to a constituency which depends so much on others to do things which they ought to do for themselves—a constituency whose wants are as multiform as they are multitudinous, and whose persistence in hunting up their quarry is quite a marvel to me. The constituency of Patrick's Plains is distinguished among other things, for its wealth, its education, its general respectability. If it has the poor man here and there he has not been slow to make himself felt. But has the poor man no other capacity than that which assists him in procuring political or eleemosynary aid? Has he no capacity for intrigue, for profiting by the nepotism or undue accessibility of his superiors? Has his Tom or Jimmy any little talent which might fit him for one of those thousand and one niches so liberally provided in the architecture of our political temple? Why not he as well as his neighbour's son who has passed a successful Civil Service examination? 'Tis all moonshine, this high-falutin talk about qualification, moral character, and so forth! So the poor man thinks; and if he can but get himself or his son into the snugger of officialdom he cares little by which door he enters—the back or the front.

I have already trespassed so largely upon your space that I can hardly frame an apology for continuing the raid into the territory of the *Argus* yet a little further. But I shall make it *multum in parvo*—it will be a feat of condensation.

I have said so much upon the theory of the political relations subsisting between a Member of Parliament and his constituents that I feel under an obligation to quote an author or two on the subject. Geo. Canning and Henry Brougham were candidates for the representation of Liverpool in the British Parliament. They were rivals in the same field, and were regarded by the whole nation as "crackmen" in legal and political handicraft. Each was the mouth-piece of his party, and its declared representative.

Upon

Upon the escutcheon of either was no tarnish, no blot, no stain—nothing that could hide its emblazoned and time-honored armorial. And what did these men say to the electors of Liverpool? "Liverpool should be remembered by them as an integral portion of the British Empire, as a link in a great chain, as an artery in a great living organism. It cannot be affected and the empire not affected; it cannot be dislocated without dislocating the vast machine of which it forms a part. England is a temple—Liverpool one of the pillars which form its substructure. The temple will stand if the substructure in none of its parts gives way. In representing Liverpool to the best of our abilities, and with all the concern which honor, truth, and loyalty demand, we feel that we are representing the majesty, the glory, the vital interests of Great Britain." These (I speak from memory) were the words addressed by these great men on the subject of "the relation between Member and constituent." They were in perfect accord on that point.

No. 42.

Mr. Acting District-Surveyor Woolrych to The Surveyor General.

Sir, Singleton Temporary Common, Camp, Merriwa, 27 September, 1877.

In reference to the application of the Municipal Council of Singleton for the conversion of the present temporary Common of 1,400 acres into a permanent Common, in accordance with your B.C. instructions of the 9th January, 1877, to Mr. D.-S. Evans, I have the honor to report that this Common was granted on the representation made by the inhabitants of Singleton in 1835, in a *memorial wherein they state "that travelling stock for market have no pasturage on which to feed unless in private paddocks, the charges for which entail considerable expense." Upon this it was recommended that a temporary Common should be set apart until required for sale or other public purposes. At the same time 1,000 acres of the Government V.R. of Darlington was set apart for the exclusive use of the inhabitants of Singleton as a permanent Common under clause 29 of "Crown Lands Occupation Act of 1861."

The expense referred to as having been incurred by the Municipality is as follows:—

	£
Fencing the two Commons. (See Town Clerk's letter of †3rd June, 1868) ...	270
Ring-barking 359 acres of the permanent Common, at 1s. per acre ...	18
Stock-yard on the permanent Common ...	25

The average number of horses and cattle running on the Commons (for they are not divided by a fence), taking one year with another, is about seventy, the greatest number in the best season being 110 on the 2,400 acres. The land for the most part is in fact very inferior for pasturage.

I do not recommend the conversion of the temporary Common into a permanent one, because—

1st. Nothing has been brought forward by the applicants to show that the representations made by the Singleton memorialist in 1865 were incorrect.

2nd. The Commoners will not be deprived of this land until it is required for sale or other public purpose, in which case it would be at the demand of and for the public generally.

3rd. The temporary Common contains on the barren spurs from the main ridge a few good villa sites which will be of easy access from Singleton on the completion of the new low-level bridge. Their sale would be desirable should a sufficient demand arise, but this application if granted would not only relieve private landowners of any fear they may now entertain of this temporary Common being brought into the market, but it would also deprive the public of the option of having it put up for sale.

I enclose a sketch of the Commons, and a letter that I received from the Mayor of Singleton, also the report of the discussion of the Municipal Council on this matter.

I have, &c.,

FRANCIS B. W. WOOLRYCH.

Common Ranger's Report.—The report of the Common ranger showed sixty-five head of horses and cattle running on the Common belonging to ratepayers, and five to non-ratepayers: total, 70 head. There had been none lost or strayed during the month to the best of his knowledge, but one horse, branded FG, the property of Mr. Molster, had died. (The ranger's books were tabled for inspection.) The report was received on the motion of Alderman Samuel Wilson, seconded by Alderman Munro.

[Enclosure B to No. 42.]

The Mayor of Singleton to Mr. Acting District-Surveyor Woolrych.

Sir, Municipal Council Chambers, Singleton, 21 September, 1877.

With reference to our issue of the 17th instant respecting the application made by the Singleton Borough Council for a permanent grant of the present temporary Common, in trust for the inhabitants of Singleton, I beg to refer you to the letter from this Council to the Minister for Lands, dated 8th December last, and in addition thereto beg to state that serious injury would be inflicted on the inhabitants of Singleton if deprived of their present temporary Common for several reasons.

In the first place it appears that the only permanent waterhole, at the back of the Common, is on the temporary Common, and that the loss of this waterhole would seriously affect the stock grazing on the Common, as the only other available supply in dry seasons would be from the river, a distance of not less than one and a half miles from the further extremity of the Common.*

It would also deprive the residents of the town of the best portion of the grazing land† included in the total block of 2,400 acres, and as the population of the town is rapidly increasing, in a few years hence even the whole extent of the present permanent and temporary Commonages will be too limited for grazing the stock of the inhabitants.‡

As a further reason in favour of not depriving the inhabitants of Singleton of the use of the temporary Common, I beg to submit for your consideration the fact that with the exception of the Common all the Crown lands surrounding the town have been alienated.§ and the inhabitants themselves depend solely on the Common for their supplies of firewood, &c.,|| and easy access to obtain which will shortly be afforded by the new low-level bridge.

As

* This does not appear to be too far.—F.B.W.W.

† There is a small extent of good pasturage at the rifle huts, near the new bridge, to which this refers, &c. See sketch.

‡ At present it benefits only about seventy out of a population of about 2,000. The land might be turned to better use at some future time.

§ Singleton was originally laid out as a private township, and of course, surrounded by land already alienated from the Crown.

|| I was informed that most of the firewood came from Mix's Creek and other places, although it is probable when the bridge is completed the firewood on the Common will be available.—F.B.W.W.

*See No. 1

Tracing. Appendix D. 7 Mar., 1866. Ex. Co. minute paper.

†See No. 25.

See Common ranger's report at foot of this letter.

See enclosures A, B, and C.

As the Borough Council have paid a large sum of money for fencing,* &c., of both the permanent and temporary Commons, out of the ordinary revenue of the Council, and therefore contributed in a great measure to the rates paid by the inhabitants of Singleton, you will admit that this will also be worthy of your consideration.

If the residents of Singleton are deprived of the use of the temporary Common, not alone would a great portion of this fence be lost to them but a further large outlay would be necessary in fencing in two sides of the permanent Common.†

Believing that a petition was sent in to the Government by many of the inhabitants of Singleton (most of whom are, I am sorry to say, now deceased), in the year 1865, applying for the present permanent and temporary Commons as a reserve for fat stock going to market, I beg to state that no reserve is, in my opinion, necessary for that purpose, but should the Government be desirous of making such a reserve, I beg to call your attention to the Crown lands available on the north side and adjoining the present permanent Common, consisting of two or three sections within the population boundary of Singleton, which in my opinion is more adapted for a stock reserve than the present temporary Common, as all the roads from the neighbouring localities in that direction pass through or by it to Singleton.‡

I am also of opinion that the present temporary Common, asked to be offered for sale for villa residences, will not be required for that purpose for many years to come, if ever.§

I may also remark that the apparent small number of stock generally depastured on the Common by the inhabitants of Singleton has been due in a great measure to the want of easy access, but which will now be removed by the new low-level bridge which connects the town with the temporary Common.¶

Finally, I beg to submit for your consideration the fact that as Singleton is a private town, it has not had the privileges extended to it which are usually conferred on Government towns, by the granting of reserves for recreation and other purposes, and that the use of the Commons hitherto has been the only favour conferred upon the inhabitants of Singleton by the Government.**

I have, &c.,

ALEX. BOWMAN,
Mayor.

Received at Merriwa, 26th Sept., 1877. Transmitted to the Surveyor General with my report of 27th Sept., 1877.—FRANCIS B. W. WOOLRYCH, Acting District Surveyor.

[Enclosure C to No. 42.]

SINGLETON BOROUGH COUNCIL.

A MEETING of the Borough Council took place at the Municipal Council Chambers, Hunter-street, on Wednesday evening last. Present: The Mayor, Aldermen Jarman, S. Wilson, Adams, J. Wilson, junr., Maguire, Campbell, Gates, and Munro. The minutes of the previous meeting were read and confirmed.

Correspondence.—The following outward correspondence was read: Letter to Committee's report on the subject. The following letter from Mr. W. C. Browne, M.L.A., addressed to the Clerk of the Council, was also read:—

"Sir,

"Singleton, 3 September, 1877.

"I desire to state for your information that the application which I presented to the Minister for Lands from the Borough Council of Singleton, for the conversion of the temporary Common to a permanent one, and the vesting of it in their trust for the inhabitants of Singleton, is *opposed* by certain persons who are desirous of having it surveyed in lots and submitted to auction sale. I have already strongly protested to the Minister for Lands against such a course being adopted, which would be highly detrimental to the interests of the inhabitants of Singleton; and I would respectfully suggest the advisability of immediate action being taken by the Borough Council to prevent this land being wrested from them.

"I have, &c.,

"W. C. BROWNE."

The correspondence was received on the motion of Alderman Jarman, seconded by Alderman S. Wilson.

Consideration of Correspondence.—The inward correspondence was next considered. A motion in Alderman Munro's name, of which notice had been given, was laid upon the table, to the effect that a public meeting be called to consider the subject of Mr. Browne's letter. The Mayor desired, before the consideration of the motion took place, to state what steps he had taken since having been communicated with by the Council Clerk. He had, as the Council's deputy, been requested to call upon the Hon. Minister for Lands with reference to certain ideas that had rushed into print, and an opinion which had gone abroad to the effect that certain parties were desirous of becoming possessed of the Singleton temporary Common. As requested, he had waited on that Minister, and found that nothing had ever been mooted of such a thing. After a lot of trouble he got the Minister to read a letter received from Mr. Browne, which merely stated that he "had heard" that such things were likely to be brought forward. He (the Mayor) desired distinctly to know whether any such application had been made, and the reply was in the negative, Mr. Garrett adding, that until Mr. District-Surveyor Evans had furnished his report on the ground nothing should be done, and in the event of Mr. Evans through a continuation of illness not making his report within a certain time, the matter would be put into another surveyor's hands, when it would be decided whether the Government were going to make it a permanent Common, or use it for some other purpose. The whole matter he (the Mayor) thought, so far as the reports were concerned, had merely been tried on as some dodge that none of the Council knew anything about. He assured the Council that the Minister for Lands had promised in his presence that nothing should be done until the Council's application had been seen to. On these grounds he thought all action should be stayed pending the report alluded to. There had been several Ministers in office, each of whom had been of opinion that this piece of land should be devoted to the town. He had been perfectly surprised on receiving Mr. Poppenhagen's letter. They might rest assured that they were not going to be trampled upon, therefore Alderman Munro might, perhaps, see fit to withdraw his motion until some more definite action were taken by the public, or until it was found who were trying to get the land sold. He thought the letter written by their worthy member was more a political letter than anything else. He (the Mayor) did not care much about politics himself, and was satisfied only to look after the interests of the municipality. Alderman Munro explained the motives which had led himself and Alderman Maguire to ask the Council Clerk to communicate with the Mayor upon the subject, as he was in Sydney at the time. They had done so in the interests of the public, and his notice of motion had been made with an idea of facilitating a settlement of the matter; but after the Mayor's explanation he would be quite prepared, with the Council's consent, to withdraw it. If there had been no application made to the Minister for Lands he did not see why the trouble of calling a public meeting should be gone to.—The Mayor repeated that none had been made; if it had, it was made in such a way that none of the officials in the Lands Office knew anything at all about it. If the surveyor reported favourably the matter would be dealt with; but if not, let them call a public meeting. He held that Mr. Browne's letter was nothing but a political dodge.—Alderman Jarman said that, like Alderman Munro, he had had some conversation with Mr. Browne on the subject, and that gentleman had assured him that such was the case; and further, that it was his intention, on the House resuming its sittings, to call for papers which would show the names of those making the application. As far as the Mayor's statement went, the Minister for Lands' tenure of office was uncertain; and it seemed to him (Alderman Jarman) that the whole hinge of the thing was this, viz., that if Mr. Surveyor Evans should report favourably on the condition of the land as suitable for auction, it would be put up for sale; if otherwise, it would be appropriated to the town as sought for. What was to hinder the Council from taking action in the meantime, in order to try and secure the ground? If the report was unfavourable,

* Cost of fence for 2,400 acres, £270; in return for which 9 years' use of the pasture, timber, &c., and fees (see Regulations) have been had.

† It is not to be assumed that the Commoners would be deprived of the use of the Singleton temporary Common unless it was required by the majority of the inhabitants of Singleton and of the district, numbering 7,000 or 8,000, who have also an interest in this land, which should not be ignored. In any case it would not be absolutely necessary to fence as long as the present fences stand.

‡ It was on the statement that such a reserve was required that the temporary Common was granted. I have no map showing what vacant Crown land there is at present in the vicinity mentioned.—F.B.W.W.

§ In the event referred there would be no necessity to take any action, as the temporary would become in point of fact a permanent Commonage. ¶ I was informed that the Common was not capable, in the best of seasons, of carrying more than about 110 head. It might carry more by ring-barking the trees. As yet, however, only 359 acres of the permanent Common have been ring-barked at a cost of £18—equal to an expenditure of £2 per annum for nine years.

** It may be said that Singleton originated in a private speculation in land. When the Government V.R. was given up as a permanent Common, 1,000 acres of land were withdrawn from the market, and should the remaining 1,400 be withdrawn in like manner, the people of Singleton and adjacent district who have no Commonage right would find themselves entirely in the hands of private landholders.—F.B.W.W.

unfavourable, then they could call a public meeting; but a stitch in time saved nine, and a step taken now, though it might do no good, could do no harm that he was aware of.—Alderman Campbell said the Council had already taken steps in the matter, and what more did they want to do at present? It was hardly likely that the surveyor would report upon it as being a favourable piece of land to make farms of (laughter).—Some argumentative discussion having taken place, Aldermen Campbell and Jarman were called to order by the chair, as it was not competent for the matter to be privately discussed at the board.—Alderman Jarman repeated his opinions. He was open to conviction, and if any alderman could show him what harm could be done by taking action, well and good, but he could not for the life of him see how it could be. Perhaps next week they might have a new Minister for Lands, who could go ahead just as he liked.—The Mayor said he could not very well upset the arrangements of other Ministers. The facts were briefly these: The Council had applied for the temporary Common to be converted into a permanent one, and Government were now awaiting the surveyor's report upon it, so that they had no right to interfere unless some underhand work was going on, which he again assured them was not the case. He was assured by the Minister for Lands that not even had an application been made to revoke the temporary Common.—Alderman Campbell had not believed at first, and did not believe now that any unfavourable application had been sent in.—Alderman S. Wilson agreed that they ought to wait a reasonable time, but at the same time the Council might write and hurry the officials up.—Alderman Jarman objected to their having such a thin skin in having anything to do with a Government. With Governments like the one at present in power, unless they tried to move them, hurried them up, wrote to them, and hunted them up, they would get nothing at all done.—Alderman Campbell suggested that the Council should take the advice of the old song, and "wait till they get it; and if they didn't, wait till they do." After much more discussion to a similar effect, Alderman Munro withdrew his motion.

Debentures.—The Council Clerk drew attention to the fact that a debenture of £500 had to be met by the 1st proximo, and suggested that steps should be taken to arrange for an overdraft to meet the same. There were about £320 in hand, and £50 odd (Government endowment) yet to be received. The Mayor volunteered to guarantee privately that the debentures should be seen to, and the necessary steps taken. The proposition was acceded to with thanks by the Council.

No. 43.

Memo. by The Deputy Surveyor General to The Under Secretary for Lands.

UPON the application of the Borough of Singleton that the permanent Common of 1,000 acres should be increased to include the temporary Common of 1,400 acres, making a total area of 2,400 acres, the enclosed report was obtained from Mr. Acting District-Surveyor Woolrych.

The area already devoted to Commonage is sufficient for the purpose, the average number of stock depasturing upon the Commons, both permanent and temporary, being about seventy head.

It is submitted for the consideration of the Secretary for Lands that the application for an increase to the area of the permanent Common be declined.

ROBT. D. FITZGERALD,
(For Surveyor General.)

B.C., 17 October, 1877.

Mr. Secretary Baker directed that 1,000 acres be added to the permanent Common, and that the portion suitable for building sites within the remainder be still embraced within the temporary Commonage. Mr. Acting D.-S. Woolrych will be good enough to prepare an amended description.—P. F. ADAMS, 17.

Mr. Landers,—Please to return papers to the Reserve Branch.—G.L., 17 Dec., /77.

Mr. Davidson, 19. Instructions issued to Acting District-Surveyor Woolrych, 20 December, 1877.

Mr. Blaxland,—These should await report from the District Surveyor.—G.L., 30 Jan., /78.

Sir,

Municipal Council Chambers, Singleton, 29 November, 1877.

I beg to call your attention to the application made by the Singleton Borough Council to convert the present temporary Common at Singleton into a permanent Common, to be vested in the Council as trustees for the inhabitants of Singleton. Your early attention to the above will much oblige

Yours, &c.,

ALEX. BOWMAN,
Mayor.

Minutes on above.

The papers in this case are noted to Mr. Thompson, and from Mr. Thompson to the Under Secretary.—R.D.F., 7 Dec., /77. Mr. T.—Have the papers obtained quickly.—W.W.S., 7 Dec.

No. 46.

Mr. Acting District-Surveyor Woolrych to The Surveyor General.

Sir,

Camp at Tighe's Hill, 22 February, 1878.

I have the honor of transmitting herewith, in accordance with your instructions of the 20th See No. 43. December, an amended description of the Singleton permanent Common, which will yet leave the most Enclosed. suitable building sites within the temporary Commonage available for the public.

I have, &c.,

FRANCIS B. W. WOOLRYCH,
Acting D.S.

[Enclosure.]

Amended description of proposed permanent Common at Singleton.

County of Durham, parish of Darlington, on the Hunter River, containing 2,000 acres: Commencing on the left bank of the Hunter River, at the south-eastern corner of J. M'Dougall's 900 acres; and bounded on the west by the eastern boundary of that land and its northerly prolongation, being in all a line bearing north 111 chains; on the north by a line bearing east 80 chains and 50 links to the south-west corner of R. Stark's 640 acres; thence by the southern boundary of that land easterly to the western boundary of the church and school 2,429 acres; on the east by the western boundary of the church and school 2,429 acres southerly 125 chains; and on the south by a line bearing west 117 chains and 50 links to a small creek; by that creek downwards to the Hunter River; and thence by that river upwards, to the point of commencement.

Transmitted to the Surveyor General with my letter of the 22nd February, 1878.—F. B. W. WOOLRYCH, Acting D.S.

No. 47.

Memo. of Mr. J. G. Neale.

Re Application for the Proclamation of the Temporary Common at Singleton as a permanent Common.

11 March, 1879.

MEMO:—In December, 1876, the Municipal Council of Singleton applied for the proclamation of the temporary Common at that place as a permanent Common, and Mr. Baker, the then Minister for Lands, as stated by the Surveyor General on 77/11,482 Ms., directed that 1,000 acres should be added to the permanent Common. Mr. Woolrych, the surveyor, was instructed to furnish a description of the land proposed to be so appropriated, and on the 22nd February, 1878, did so. The only thing now remaining to be done is for the Survey Department to furnish a description of the additional area, in order that it might be included in an abstract of dedication.

J. G. NEALE,

11 Mar., 1879.

Minutes on No. 47.

The further description required should be obtained from the Survey Department, and the dedication can then be at once proceeded with.—W.W.S., 12 March. Surveyor General, 12/3/79. Description herewith.—G.L., 31 March, 1879. List laid before Parliament, 16 April, 1879.

LEGISLATIVE ASSEMBLY.

NEW SOUTH WALES.

TEMPORARY COMMON AT ADELONG.

(PETITION—GOLD MINERS AND OTHERS.)

Received by the Legislative Assembly, 1 April, 1879.

The Honorable the Members of the Legislative Assembly of New South Wales.

The Petition of the undersigned Gold Miners and others, resident at Adelong,—

HUMBLY SHOWETH:—

1. That your Petitioners believe it has been held by the Government that Temporary Commons are not Crown Lands.

2. That the Temporary Common at Adelong comprises over 13,000 acres, and by reason of such a large area being reserved miners and others wishing to take up land for gold mining purposes or to settle in the district are unable to do so.

3. That it has been the belief for many years, that each person may obtain an area of two acres by virtue of improvements, and many under such an impression have erected extensive improvements valued from £40 to over £100 on two-acre blocks, and are now threatened with expulsion by reason of such areas being within the Temporary Common, and several have already been fined at the Local Police Court and removed from their two-acre holdings.

4. That some of such persons so threatened have had their improvements on their lands for years.

5. That a large portion of the Adelong Creek Gold Fields, where the principal mining in the district has been carried on, and which has been proved to be highly auriferous, is within the Temporary Common, and persons wishing to lease such land or otherwise take it up for gold mining purposes cannot do so by reason of the land within such Common not being Crown Lands.

6. That these restrictions prevent any influx of population, and tend to cause the removal from the district of many valuable residents, especially miners, who were they able to obtain holdings for working and fixed residences, would remain settled in the district.

7. That as such Commons are not Crown Lands, miners cannot even under their Miners' Rights obtain their $\frac{1}{4}$ -acre for residence, and even were they able such an area is not sufficient for their necessary requirements.

8. That it is desirable for such portion of the Temporary Common as is included within the boundaries of the Adelong Gold Field as originally proclaimed, and nearly all of which is within the population boundary at Adelong, should be revoked, so that any persons desirous of taking up such land for gold mining purposes, or to obtain one two-acre block for residence upon which he can fixedly settle in the district, may do so without fear of being dispossessed.

Your Petitioners therefore humbly pray, that you may be pleased to cause such portion of the Temporary Common at Adelong as above described to be revoked, and that provision may thereupon be made to enable any miner to take up the same for gold mining purposes and for residence.

And your Petitioners will ever pray.

BARRINGTON GOLD FIELD.

No. 1.

Telegram from Under Secretary for Mines to Land Agent, Dungog.

SEND a telegram to the Land Agent at Dungog, requesting him to be good enough to ascertain and report to this office the fullest particulars respecting the discovery of gold in the vicinity of Back Creek, Barrington River, and at Monkerai.—H.W., 7/6/76.

Telegram—7th June, 1876.

(Telegram from Under Secretary for Mines to Land Agent, Dungog.)

Sydney, 7 June, 1876.

WOULD you be good enough to ascertain and report to this office the fullest particulars respecting the discovery of gold in the vicinity of Back Creek, Barrington River, and at Monkerai.

No. 2.

Telegram from C. G. Smith, Dungog, to The Under Secretary for Mines.

Sydney, 8 June, 1876.

No gold found at Monkerai, but some Monkerai men at work at Back Creek, Barrington River. About thirty men at work; making wages, although all inexperienced and without proper appliances. Water to contend with; deep ravine; no alluvial ground spoken of. Shall be able to report more fully to-morrow or on Saturday.

No. 3.

The Land Agent, Stroud, to The Under Secretary for Mines.

Sir,

Port Stephens Crown Lands Office, Stroud, 7 June, 1876.

I have the honor and beg to apprise you for the information of the hon. the Minister for Mines that a number of persons are prospecting for gold on the upper parts of Barrington River, about 40 miles to the north-west of Stroud, in this district. It is said that payable gold has been found in that locality, but of this I have little more than rumour to guide me; but as persons have been inquiring that in the event of the ground proving payable, will miners' rights be issued at this office, and I have answered yes. I beg to suggest that a limited supply of forms be forwarded to enable me to issue miners' rights and business licenses should these be applied for. I beg further to state that a small supply of the other necessary forms of return in connection with the issue of these be also forwarded. I beg to add that I shall deem it my duty to report progress as soon as reliable information can be obtained.

I have, &c.,

THOMAS LAMAN,

Crown Lands Agent.

Inform that there will be no objection to appoint him to issue miners' rights and business licenses if he desire, or to appoint him mining registrar if he think there will be any mining within his district, and in that case he will be supplied with all necessary forms, but no salary attaches to the office, the payment being by fees and commission on the sale of miners' rights, &c.—H.W., 10/6/76.

Informed.—12 June, 1876.

No. 4.

The Land Agent, Dungog, to The Under Secretary for Mines.

Sir,

Dungog, 10 June, 1876.

With reference to my telegram of the 8th instant respecting the gold workings at the Barrington River, I have the honor to report that two or three persons returned to-day, and from one of them, who, although inexperienced as a miner, is very intelligent and reliable, I glean the following:—

In the ravine where the workings are, a party of four, indifferently provided with tools, &c., obtained, in one week, 5 ounces of gold. They consider that they have between three and four month's work in their claim.

One man, in three weeks, obtained 3 ounces, working with a bucket and tin dish.

The gold is of a rough character, indicating close proximity to the matrix. The ravine is not of great extent, but there is a flat into which it opens of about 100 yards in width that would give employment to a large body of men if payable gold were struck there. An attempt has been made to prospect on this flat, several shafts having been run down for a few feet (the deepest 7 feet), but further progress interrupted by an influx of water.

There are between thirty and forty men on the spot, and I understand that they think favourably of the place, and look to some profitable work being done in the summer season.

Should I obtain any further information, I shall not fail to report to you; but, if I may venture an opinion, I think that an official inspection of the locality and surrounding country would be advisable.

I have, &c.,

Sir,

Nowendoc, 19 June, 1876.

I beg to acknowledge receipt of yours of the 14th, and, in reply, beg to state that gold has been found on a tributary of the Barrington River, about 9 miles west from Gloucester. Up to date it is only found in bed of a small creek, and in small quantities, although said to be payable. Seventy men on the ground. The gold of a coarse or nuggetty description.

I also beg to acknowledge receipt one book of miners' rights. Miners nearly all gone from this to Barrington rush.

I have, &c.,

Messrs. W. Williams and Party to Mr. Warden Buchanan.

Dear Sir,

30 June, 1876.

We the undersigned hereby give notice, that we did on the 30th day of June, 1876, take possession and marked out 400 yards by 400 yards for a prospecting area on a new quartz reef on the head of Back Creek new diggings, Barrington.

FRANCIS PURCELL.

Ask Mr. Warden Buchanan to proceed there at once and report upon the condition of the field, recommend the bounds of a gold field reserve, and if he can find a suitable person there as mining registrar.—17/7/76.—J.L.

By telegram add—Tracing of the locality will be forwarded at once to post office, Gloucester.—17/7/76. Telegram.—17/7/76.

Will Mr. Campbell be kind enough to have a tracing prepared for Mr. Warden Buchanan, at his earliest convenience.—17/7/76.

Tracing herewith.—W.S.C., 17 July, /76. Forwarded to-day.—17/7/76.

No. 9.

The Land Agent, Stroud, to The Under Secretary for Mines.

Sir,

Crown Lands Office, Stroud, 3 July, 1876.

Having reference to my communication dated the 7th ultimo, and your reply thereto of the 12th, I have the honor and beg to report that from persons who have visited the Barrington, I learn that the prospects there are considered to be favourable, that most of the diggers on the ground are making good wages, and that in all probability it will turn out to be a good and payable gold field. Already there are some 200 persons on the spot, and during the last week a considerable number of diggers have passed through Stroud on their way thither, some of whom have applied to me for miners' rights.

Under these circumstances I beg to suggest that it will be necessary to authorize some person in the district to issue miners' rights and business licenses, and perhaps ultimately to appoint a mining registrar for the district; in any case, I beg to say, I shall deem it my duty to do all in my power to assist the department in carrying out any arrangement it may be thought desirable to make in connection with mining operations carried on in the district.

I have, &c.,

Mr. W. Williams to Mr. Warden Buchanan.

Dear sir,

N.M.D. 76-465, 12/7/76.

It may not be out of place to explain a few lines about this new gold field.

There are about 200 persons on the ground. There is nothing very rich struck as yet. Everyone is getting a little, making about £2 per week.

The creek is about 5 miles long, and the diggers are working about 3 miles along the creek. The diggers are flocking in very thick this last few days from Sydney. A registrar's office is very much wanted. I have found some very good gold in the quartz reef. I am prospecting now.

I remain, &c.,

WM. WILLIAMS

Please let me know how much ground we can hold when we mark out our prospecting claim. Direct—WM. WILLIAMS, New Gold Field, Barrington.

For the information of the hon. the Minister, B.C., 13/7/79.—J. BUCHANAN, Warden. If it is desired, I am prepared to visit this gold field.—J.B. May the papers have this if they desire? Yes.—H.W., 19/7/76.

Inform that under Regulation No. 55 of the Mining Board, any miner is entitled, after reporting the discovery of payable gold, to 240 feet in length along the reef, if the claim is less than 1 mile from the nearest claim yielding gold; if more than 1 mile and less than 3, 360 feet along the reef; if more than 3 miles from the nearest claim yielding gold, 480 feet along the reef. The width of a prospecting claim should in no case exceed 400 feet.—H.W., 20/7/76. Informed, 25 July, /76.

The Under Secretary for Mines to Mr. W. Williams.

Sir,

Department of Mines, Sydney, 25 July, 1876.

In reference to the inquiry contained in your letter of the 30th ultimo, I am directed to inform you that, under the 55th clause of the Mining Board Regulations, any miner is entitled, after reporting the discovery of payable gold to the following extent of ground along the reef, namely, to 240 feet if the claim is less than 1 mile from the nearest claim producing gold; if more than 1 mile and less than 3, to 360 feet; if more than 3 miles, to 480 feet.

2. I am to add that the width of a prospecting claim should in no case exceed 400 feet.

The Mining Registrar, Nowendoc, to The Under Secretary for Mines.

Sir,

Nowendoc, 13 July, 1876.

I beg to acknowledge receipt of yours dated 29th June, and in reply beg to state that I have just paid a visit to the Barrington Gold Field on the 9th and 10th instant, and beg herewith to enclose a few remarks on the same. In the first place there is between 200 and 300 men on the ground, mostly town

Co.'s tin mines.

town people from Sydney, Newcastle, Maitland, &c., and not at all adapted for diggers nor a digger's life. However, they are going away just as fast as they came, which is mostly the case at all new rushes. However, I may mention that there is a few of the Barrington farmers that are working well; also, a few of the Nowendoc diggers who seem well satisfied with their earnings, the average being about £3 per week, which will improve as they get the place opened up. In the next place, as I stated before, the present diggings is about 9 miles west from Gloucester. The creek, or rather mountain gorge, taking its rise in high mountains west of the Barrington River, and flowing easterly through the Church and School lands, and known as Back Creek, the present diggers' camp, and where the creek enters the Church and School lands; the said Church and School lands, I think, will be found to contain good deposits of gold. Being the first flats where all the drift, what is known amongst diggers as the wash, has been deposited altogether, the present diggings will turn out to be more extensive than the parties on the ground give credit for.

In the next place I may be permitted to mention that a reef, of about 18 inches in width, has been found on the main tops above the diggings, showing fair gold in the stone, and a few claims have been pegged out; in fact nearly all the good quartz stone found on the creek shows gold to the naked eye. I may also state that I issued a few miners' rights. I had no form of business license. It is only one good day's ride from this place.

I have, &c.,

THOMAS LAURIE.

P. S.—It would be well to make it public whether a miner has a right to work on Church or School lands or not.

Seen.—Inform that the miners' right does not entitle the holder to mine for gold on Church and School lands, but it can be mined under gold lease.—J.L., 26/7/76. Informed, 1st August, 1876.

Messrs. H. Saxby & Party to The Minister for Mines.

Sir,

Dungog, 8 August, 1876.

I do myself the honor to submit for your consideration the following facts in connection with the Barrington Gold Field.

1st. In the month of March, 1876, I and my party, consisting of my three brothers, commenced to work on this field in hope of finding payable gold. By the beginning of April we brought into Dungog, and lodged in the Commercial Bank, about 11 ounces, the product of the said field.

2nd. Since that time we have continued to work always on payable gold.

3rd.

3rd. There are now from 300 to 400 men on the field, over 200 of whom have been at work there for nearly three months.

4th. In view of these facts we beg that as we consider ourselves the discoverers of said gold field, the reward of £500, offered by the Government for such a discovery, may be paid to us at your earliest convenience.

We have, &c.,

HENRY SAXBY.

Gentlemen,

Department of Mines, Sydney, 14 August, 1876.

In reference to your letter of the 8th instant, bringing forward a claim as discoverers of the Barrington Gold Field to the reward of £500 offered by the Government, I am directed by the Secretary for Mines to point out that you did not fulfil the conditions under which such reward was offered, making the discovery known to the Minister for Mines.

I have, &c.,

HARRIE WOOD,

Under Secretary for Mines.

No. 21.

Messrs. H. Saxby & Party to The Under Secretary for Mines.

Sir,

Dungog, 18 August, 1876.

We have the honor to acknowledge receipt of your communication of the 14th instant, notifying that in consequence of our not having made known our discovery earlier, we are not entitled to the reward of £500 as the openers of the Barrington Gold Field, and in reply to which we beg to say:—

1st. That we were in ignorance as to the precise conditions under which discoverers of new fields were entitled to the reward offered; we just knew that a certain sum had been voted for such, and we naturally thought that applying in the way we did, after having *proved* the field to be payable, was the proper course. We are not men of much education, and living far in the bush, it is out of our way to become acquainted with all of the Government notices.

2nd. Although we may have been late in communicating with the department, yet the fact still remains, that we are the discoverers of the field, and it was through us that it became known. We hope that you will take these circumstances into consideration, and that they may have weight with you, as it cannot surely have been the meaning of Parliament when it voted the amount of the rewards, to debar men, who, through ignorance, failed in complying with a condition, from participating in them as honest discoverers.

We have, &c.,

HENRY SAXBY.

(For self and party.)

The reward is for making known as well as discovering, and the mode of making known is presented. Unless these terms be strictly adhered to, discoverers may keep secret their discoveries as long as they can for their own benefit, and then when the discovery comes to be known, perhaps against their inclinations, they may put in a claim for reward.—J.L., 24/8/76. Gentlemen,

Department of Mines, Sydney, 31 August, 1876.

I am directed by the Secretary for Mines to acknowledge the receipt of your letter of the 18th instant, setting forth certain reasons why the reward for the discovery of the Barrington Gold Field should be awarded to you.

2. In reference thereto, I am to point out that the reward was offered for making known as well as discovering, and that the mode of making known is clearly prescribed. Unless these terms are strictly adhered to, discoverers may keep secret the result of their search as long as they can for their own special benefit, and then when it comes to be generally known (perhaps in opposition to their wish), put in their application for the reward.

3. As therefore you have neglected to comply with the terms upon which the reward could be claimed, your application cannot be entertained.

Mr. W. Fergusson to The Minister for Mines.

Sir,

Glen Innes, 15 January, 1879.

I have the honor to apply, on behalf of Mr. W. Williams, to the reward offered in 1876 for the discovery of a payable gold field.

Mr. Williams being the first miner to discover payable gold on the Back Creek, Barrington. Mr. Williams was out by himself some nine months prospecting, he reported his find to Mr. Warden Buchanan, of Armidale.

Mr. Williams, through ill-health having to leave the Barrington, is now in reduced circumstances and he thinks he is entitled to some reward for being the discoverer of the above-named gold field.

I have, &c.,

WM. J. FERGUSSON.

Mr. Warden Buchanan for report as to date on which the discovery was made known to him, and by whom, with any remarks he may think fit to offer.—H.W., 20/1/79., B.C.

Mr. Williams' report on the Barrington Gold Field was received by me on the 12th July, 1876.

I forwarded the same to the Mining Department on the 13th July, 1876, and was instructed to visit the field.—J. BUCHANAN, Warden, B.C., 27/1/79. Mines, 29/1/79.

Minute of The Under Secretary for Mines.

(Claims for Reward for Discovery of the Back Creek Gold Field.)

THE claimants are :—

Wm. Williams and three others, dated 30th June, 1876.

Wm. Johnson, dated 8th July, 1876.

Henry Saxby and party, dated 8th August, 1876.

Messrs. Williams and party reported to Mr. Warden Buchanan that they had taken up a quartz claim on the 30th June, 1876.

Mr. Johnson says that he reported orally through the hon. J. F. Burns, the hon. J. Docker, on the 27th June, 1876, the discovery.

Messrs. Henry Saxby and party reported on the 8th August, 1876, that they had brought gold into Dungog early in April, 1876.

THE discovery was known in the department on the 7th June, 1876, and a report had been obtained from an officer, and was sent to the Press for publication by the 13th June, 1876.

I am inclined to think that persons engaged chiefly in cutting timber had been in the habit of occasionally searching for and obtaining gold about the beds of creeks and gullies in the vicinity for a long time, and that they had not made the discovery known partly because they had no idea of the value of the field, and partly because they desired to keep the discovery secret, to prevent others from participating in it.

Had it not been for the information published in the newspapers, I doubt whether any of the applicants or the discoverers would have made the discovery known. Under these circumstances it appears to me doubtful whether the discoverers are entitled to the reward.—H.W., 30/1/79.

App., 6/2/79.—E.A.B. Mr. Fergusson, *pro* Williams and party, informed, 10th February, 1879.I find on looking up the other cases (two) referred to that Mr. Johnston and Saxby and others were informed in August /76 to the effect that their applications were not made in terms of the "notice" *re* discovery of new gold fields, and must therefore be refused, and the Under Secretary has decided that there is no necessity to communicate further with them on the subject.—C.O.H., 10/2/79.

Back Creek Gold Fields, 26 February, 1879.

We the undersigned beg to forward statement of our finding gold at Back Creek, Barrington, which paper we vouch for correctness.

We were the first who found gold on this gold field, which we first discovered in loose rock about 200 yards below the present township. At the time we scarcely knew what gold was, and quite ignorant of its value. We obtained 15 ounces in about three months between four of us, and was told by an experienced miner it was payable. We sent to the Mint, and, on receipt of returns, immediately reported to the Minister for Mines its payability, and applied for reward. This was about the 8th of August, 1876. This was the time a rush began to set in.

We also sent another application about six weeks later.

We claim, although not knowing anything about gold-mining till we were shown, and although through ignorance we may not have sent in application just as form required, to be the authors of it, and hope the matter will be favourably considered. The present important and extensive gold field at Barrington owes its existence to us in our humble capacity of trying and at last making known the existence of gold.

I see no reason to reverse the decision arrived at by my predecessor.—E.A.B., 10/3/79. Inform the applicants, care of H. Copeland, Esq., M.P.—H.W., 10/3/79. Informed, 12 March, 1879.

Gentlemen,

Department of Mines, Sydney, 12 March, 1879.

Referring to your letter of the 26th ultimo further respecting your claim to be regarded as the discoverers of the Barrington Gold-field, I have the honor to inform you that the Secretary for Mines sees no reason to reverse the decision arrived at by a former Minister, as conveyed to you in my letters of 14th and 31st of August, 1876, respectively.

I have, &c.,

HARRIE WOOD,

Under Secretary for Mines.

PROSPECTING FOR GOLD.

(REGULATIONS RELATING TO VOTE IN AID OF.)

Ordered by the Legislative Assembly to be printed, 10th September, 1878.

REGULATIONS relating to the vote in aid of Prospecting, approved by His Excellency the Governor and the Executive Council, 17th June, 1878.

(Submitted to Parliament, in terms of the Appropriation Act of 1878.)

Department of Mines, 25th June, 1878.

THE following Regulations relating to the vote for the purpose of assisting prospecting for Gold, made by His Excellency the Governor, with the advice of the Executive Council, in pursuance of a resolution of the Legislative Assembly, are published for general information.

W. H. SUTTOR,
Minister for Mines.

1. From out the sum of £5,000, voted by Parliament for the encouragement of prospecting, such sums may be granted by the Minister for Mines to any Association or Company applying for the same, as shall be recommended by the Prospecting Board, as hereinafter provided, not exceeding one pound for every pound contributed by such Association or Company.

2. Before recommending the grant of any money to any Association or Company, the Prospecting Board shall be satisfied by inquiry and examination that the tract of country proposed to be prospected, and the mode of prospecting proposed, are suitable; and shall then estimate the cost of the proposed work, and of the materials and implements necessary therefor.

3. The Prospecting Board shall in no case recommend the granting of a sum exceeding 50 per cent. of the estimated cost of the proposed works and necessary materials and implements.

4. In the event of any money being granted to any Association or Company as aforesaid, such Association or Company may, from time to time, claim such instalment thereof as the Warden or other officer authorized thereto by the Minister shall certify as due under these Regulations. But before giving any such certificate, the Warden or other officer shall inspect the work, materials, and implements in respect of which the instalment is claimed, and shall see that the work has been done within the site, and in the manner approved of by the Board, and that the sum claimed does not exceed 50 per cent. of the value (according to the estimate made by the Prospecting Board) of the work done, and of the cost of materials and implements necessary therefor.

5. The Prospecting Board may, in any case in which it shall appear expedient so to do, recommend that, as a condition precedent to the granting of money, the Association or Company to whom it is proposed to make the grant, shall enter into a contract to perform the work in the place and manner recommended by such Board, and the Association or Company shall, if required, enter into a bond for the satisfactory completion of such work. And every such agreement shall set out in what manner, at what times, and subject to what conditions the money granted, or any instalment thereof, may be claimed.

6. Upon the recommendation of the Prospecting Board, any portion of territory selected as a site for prospecting may be reserved from sale, selection, or leasing, and from occupation under miners' rights or mineral licenses.

7. At any time after the discovery of gold within any such reserve, so much thereof as in the opinion of the Minister for Mines shall not be necessary to recompense the Association or Company for having made such discovery, shall be thrown open to the holders of miners' rights, and to leasing under the Mining Act, 1874.

8. No Association or Company to whom aid shall be granted under these Regulations shall be entitled to claim any money reward which has been, or shall be, offered by the Government for the discovery of new Gold Fields.

9. The Prospecting Board aforesaid shall consist of the Under Secretary for Mines, the Geological Surveyor, and the Warden of the District in which the land to be prospected is situate, or the Warden nearest thereto. Provided that the Minister for Mines may at any time appoint any other person a member of such Board, in addition to or in substitution for any of the officers aforesaid.

EXPORT DUTY ON GOLD.

(PETITION AGAINST—GOLD-MINERS ON BARRINGTON GOLD FIELD.)

Received by the Legislative Assembly, 17 June, 1879.

Petition for the Abolition of the Export Duty on Gold.

To the Honorable the Legislative Assembly of New South Wales, in Parliament assembled.

The humble Petition of the undersigned Gold-miners resident on the Barrington Gold Field,—

RESPECTFULLY SHOWETH:—

1. That the retention of an export duty is contrary to the fiscal policy of this Colony, and the abolition of said duty has on several occasions received the assent of the Legislative Assembly by large majorities.

2. Your Petitioners are of opinion that no good reason can be adduced for imposing an export duty on gold that would not apply with equal force to an export duty on coal, kerosene, shale, silver, copper, or tin, none of which are however subject to such duty, notwithstanding such last-mentioned mining lands can be either leased at five shillings per acre or purchased in fee simple at £2 per acre.

3. Your Petitioners must each be the holder of a miner's right, at a cost of ten shillings per annum, which under the Mining Board Regulations only entitles the holders to occupy half an acre of land, being equivalent to a rent of £1 per acre, and many of your Petitioners, in addition to the above payment, hold their claim under lease from the Crown, for which they pay an additional £1 per acre as annual lease rent.

4. That each of the above titles, viz., the "Miner's Right" and the "Lease" convey by Statute law (Mining Act, 1874) absolute property in all gold found in such claim. Your Petitioners therefore feel aggrieved at being further subjected by an export duty on their produce, which they respectfully submit (taking the above premises into consideration) can only be viewed in the light of a tax on their individual labour.

5. Your Petitioners are of opinion that gold-mining, although highly beneficial to the State in attracting population to our shores, and especially to the interior of the country, and in many other ways greatly enhancing the value of adjacent Crown Lands, is nevertheless not a specially remunerative avocation to the miner, as the Annual Report of the Department of Mines for 1877 will sufficiently show; as during that year 6,974 miners produced gold to the value of £456,973, being an average of only £65 10s. 6d. for each miner engaged thereat for the year, and from this amount must be deducted the cost of mining material and the use of machinery of the value (as set down in said Report) of £227,540.

6. Your Petitioners further submit that many miners, although producing comparatively large quantities of gold upon which such export duty has to be paid, do not give back to the shareholders the amount of money invested therein, many of them not even paying interest on the capital expended in their development.

7. Your Petitioners therefore humbly pray that your Honorable House will be pleased to take the above premises into your favourable consideration, and that you will further be pleased to grant the relief herein sought. And your Petitioners, as in duty bound, will ever pray.

APPLICATIONS FOR LAND AT GULF CREEK.

No. 1.

The Under Secretary for Lands to Mr. R. Craig.

Sir,

Department of Lands, Sydney, 2 September, 1872.

In compliance with the request contained in your application of this date, I am instructed by the Secretary for Lands to convey to you authority to select, within 12 months from this date, three blocks of 20 acres each, from any available Crown lands, for the purpose of working minerals other than gold, subject, of course, to all prior claims and to all the conditions of the Crown Lands Occupation Act of 1861, and the regulations founded thereon. Selection reported at 10-22, 2/9/72.

2. If no unobjectionable selection be reported to this department within 12 months from this date, the present authority will be considered obsolete, and the first year's rent already paid by you will be forfeited.

I have, &c.,

LINDSAY G. THOMPSON,
(For the Under Secretary.)

Mr. J. Gaffney to The District Surveyor, Armidale.

Sir,

Armidale, 22 January, 1873.

On the 16th September, 1872, we selected 200 acres of land in ten blocks of 20 acres each, adjoining and situated on the waterfall of the Beardy Creek, Wellington Vale, along a reef running north and south from a tree marked J. From the date of application to the present time we have been in possession, residing and working for tin, and have had undisturbed possession. On 8th instant, Mr. Chard, surveyor, came on to our ground and asked me to show him our reef, and remarked that we were the only people who had taken up any reef in that locality; he said he was at the time surveying for Mr. Blair. I at first refused to show him our reef, as Mr. Blair had frequently asked me to show him our reef, and had frequently told different people if he could find out where our reef was situated he would move some of his ground there. Being ordered by Mr. Chard to show our starting point, Mr. Blair said, "You are before me for this, but I will take it to-morrow with three 20-acre blocks" which he could shift, and thus be before me. Mr. Chard desisted surveying at my request, and said we were the only applicants for land there. The following day seeing Mr. Chard again on the ground I went up to him, and saw him commence to survey from another direction (and not from the place I saw him surveying the day before); he surveyed three blocks which embraced our starting point which I had pointed out the day before, and which he had said we were the first applicants for. On my objecting to the survey he again desisted, but told me he had surveyed for other parties and not for me. I then asked him to show me the papers, and he refused; he afterwards said if I would go to his camp in the evening he would give me the information. I did go to Mr. Chard's camp, but he again refused to give me the information or show me the papers I desired, but said he had surveyed for Potts three blocks; Mr. Blair is agent for Potts. I believe Mr. Chard is interested with Mr. Blair in all the land he (Mr. Blair) represents, and it is the general impression in the neighbourhood; and I feel sure justice will not be done to us by him, and respectfully request you will at once visit the ground, and inquire into the truth of this my statement and claim. I may add, that on Mr. Chard refusing to give me information I told him I was going to you for it; and I have had considerable loss of time by floods and otherwise in being put to this long and expensive journey, after losing four months previously waiting on the ground for it to be surveyed.

No. 46.

Mr. C. J. Griffiths to The District Surveyor, Armidale.

Sir,

Armidale, 22 January, 1873.

With reference to the dispute now pending between Griffiths and Gaffney on the one part, and Mr. Blair, regarding land surveyed to Mr. Blair on Beardy Creek Waters, and as an interested person in the above dispute, I beg to make the following statements:—That in the beginning of last December when present with Mr. Blair in his house on Gulf Creek, Mr. Blair showed me a Government permission for land taken up on mineral lease in that locality for 130 blocks, telling me at the same time that he had only in fact taken up 30 blocks, but that he had placed the 1 before the 30 in order to deceive people to whom he showed the permission, and to prevent them from taking up land near him; and it is my belief that owing to this many people prospecting in that locality left, imagining all mineral land for miles around had been taken up by Mr. Blair; he also added that some men he called the "overlanders" (meaning my partners) had found the lode, and that he would give any money to know where it was; also if he heard of any good ground being found near him he would shift his blocks on to it; at the time he said this he did not know I was a partner in the reef found by the "overlanders."

No. 48.

Mr. Licensed-Surveyor Chard to The Surveyor General.

Sir,

Camp, near Deepwater, 13 February, 1873.

In accordance with instructions from Mr. District-Surveyor Greaves, dated 27th January, 1873, to report on letter by John Gaffney, on behalf of Messrs. Griffiths and Gaffney, claiming certain land in the vicinity of Gulf Creek, I have now the honor to submit—

1. Before proceeding I wish to point out certain mis-statements and inaccuracies in the above-mentioned letter.

In the application by Messrs. Griffiths and Gaffney the starting point of the ten blocks of 20 acres each is given from a tree marked x and not y.

On the 8th January, 1873, that I remarked that Messrs. Griffiths and Gaffney were the only people who had taken up any reef in that locality is not true.

When measuring portions in which Mr. Blair is interested, I was accompanied by him at the time Mr. Gaffney came to see me about his 200 acres, and I do not recollect hearing Mr. Blair say that Messrs. Griffiths and Gaffney were before him for the land in dispute.

The survey was not stopped at the request of Mr. Gaffney, neither did I say they were the only applicants for land there. I am not interested in any of the land in question, and the belief entertained by Mr. Gaffney is without the slightest foundation; that he has expressed his "belief" only is perhaps wise, else the justice for which he pleads might be doled forth in a different and disagreeable manner. Considering that Mr. Gaffney left the place for Armidale the day after the survey of portions 21 to 23, it is astonishing how quickly he found out the impressions entertained by the residents in the neighbourhood. Having spoken to many of them since, they informed me that they never had any such idea.

2. From the enclosed letter I understand that portions Nos. 21 to 23 are claimed by Messrs. Griffiths and Gaffney, and the only remaining argument advanced by them in support of this claim is that of undisturbed possession, which they have not had, the land measured having been claimed by Mr. Blair since the beginning of August, 1872. They have not worked this ground for tin, and as far as I have been able to find out, have not resided thereon.

From inquiries that I have made, it appears that Mr. Gaffney and others who are interested in the 320 acres have lived in a gully running into the Gulf Creek, which they have lately been working (for position see sketch*), and also on another gully running into the same creek, on the opposite bank. Mr. Griffiths does not reside in the locality, but occasionally visits there.

3. Herewith is the application by Charles J. Griffiths and John Gaffney, made on the 16th September, 1872, for 320 acres, of which 200 acres are taken up to embrace a reef.

The starting point, showed to me by Mr. Gaffney on or about the 8th January, 1873, is a gum sapling, on which is the letter x, about 2 inches in length, freshly cut, and only into the bark. I believe it was marked the day it was shown to me, and from its appearance I am certain it was not a week old.

Mr. Gaffney said he wished to have three blocks of 20 acres along the reef in a southerly direction, and seven in a northerly direction, pointing out some as the supposed line of reef, a bearing of about x. 30 minutes E.

For the 200 acres to be measured in accordance with the description, its position would be as shown on sketch, and on that ground alone portions 21 to 23, parish of Muir, could not be claimed by Messrs. Griffiths and Gaffney.

I may here point out the very vague manner in which this land has been applied for. The tree x not having been marked at the time of application, the position of the 200 acres was not defined, except that it was on the waterfall of the Beardy Creek, Wellington Vale Run, an area of over 200 square miles.

The portions claimed are on the boundary between Maidenhead and Wellington Vale Runs. It therefore remains for the applicants to advance some proof that the land they now claim is what they originally applied for. The only claim advanced by them is that of undisturbed possession, which is incorrect.

4. I shall now make a few remarks with reference to the prior application by Robert Craig. As the land taken up in this locality by R. and J. Craig, Paul, Potts, and others, now belong to the Gulf Stream Tin Mining Company (private company), and as Mr. Blair is interested therein, and has been acting on their behalf, I shall use his name only, to explain more clearly.

From my plan 73/4, of 29th January, and from annexed sketch, it will be seen that these blocks are southerly from Holliman and Smith's, and north-westerly from Blair's Camp, in which manner they are described.

On a recent visit to the Gulf Creek, when inquiring into the question of possession, I was informed by Mr. Alfred Tyass, who is now one of Holliman and Smith's party, that he, together with T. Holliman, prospected for a lode on the range (along which the three blocks have since been measured) for Mr. Blair in the beginning of August, 1872, who stated that he had sent to Sydney to have the land taken up.

The shafts that were sunk are shown on sketch; also see sketch for position of notice. The 100 acres meant are two 20 acres for alluvial tin (portions 19 and 20) and three 20 acres for a lode (portions 21 to 23), parish of Muir.

The statement of Mr. Tyass may be relied upon; and from the fact that Mr. Blair has claimed the land since August, and noticed it, together with the description defining its position as measured, and his application being prior, these portions 21 to 23 are undoubtedly his.

5.

5. I would therefore recommend that Messrs. Griffiths and Gaffney's claim be not entertained.

6. With reference to statement by Mr. C. J. Griffiths concerning conversation which took place when at Mr. Blair's camp on Gulf Creek, being of a private nature, it is not my duty to inquire into it.

7. Having had to visit the locality with reference to the question of possession, I forward the enclosed account.

Mr. Licensed-Surveyor Chard to measure.—M. O. C. BLAKE, for D.S., 18 Nov., /72. Mr. L. S. Wener, 1873.

No. 49.

Report of Mr. District-Surveyor Greaves.

THIS is a complaint by Captain Griffiths and his partner, Gaffney, against the survey by Mr. Licensed-surveyor Chard of certain mineral land at the Gulf Tin Mines.

2. The complaint is set forth in the enclosed letters of Captain Griffiths and Gaffney, and have been reported upon by Mr. Licensed-surveyor Chard, whose letter is also enclosed.

3. The applications of R. Craig, R. Craig and Paul, and C. Potts, are the applications of one company of which Mr. Blair is the representative on the ground, as is also that of J. M. Banks, Lester, and Farquhar.

4. The applications of this company have been made as follows:—2nd September, R. Craig, three portions, 8, 9, 10. (See margin.) 2nd September, J. Paul, two portions, 6 and 7. (See margin.) 10th September, R. Craig and Paul, two portions, 4 and 5. (See margin.) These portions are represented by two tracings accompanying applications of 10th September, a copy of which (see margin).

Now Hollyman and Smith's being determined portions, 8, 9, and 10 (shown in margin) and described as southward of Hollyman's and Smith's 40 acres, cannot be east of Craig and Paul's 4 and 5, else they would have been shown so and described so also. Looking carefully over the applications and the tracings accompanying, I am of opinion that Mr. Chard has surveyed without sufficient caution. That Mr. Blair pointed out the land to him I have no doubt, but that portions 21, 22, and 23, surveyed and shown on Mr. Chard's tracing accompanying his letter, were not applied for in right of application of 2nd September, but was applied for on 14th December in the joint names of Banks, Lester, and Captain Farquhar, and that Messrs. Griffiths and Gaffney by a prior application of 16th September took up the land.

5. I think no better evidence is required to show that Mr. Blair did not apply for Griffiths' land than the tracing given on 10th September, and by the wording of the application of the 14th December, viz., five portions described as "on a ridge for a lode near Hollyman and Smith's 40 acres to be shown to surveyor by Mr. Blair." Mr. Chard has measured two of these portions, and has reported that there is not room for the other three. Now, had he not surveyed three portions east of Craig and Paul's 4 and 5, which are really southwards of Hollyman's and Smith's, there would have been just room enough for the whole five portions, and it is not to be supposed that Mr. Blair has applied for the same land twice over, which would be the case if the application of 2nd September (8, 9, 10) was really east of 4 and 5.

6. A small tracing marked A (enclosed) I have compiled from Mr. Chard's surveys. It shows the positions of portions approximately as placed on Mr. Blair's sketch (see figures 6, 7, 4, 5, 8, 9, 10.) It also shows

shows the position of the land applied for by Messrs. Griffiths and Gaffney, and the tree marked by Gaffney and described, "along a reef running north and south on the waterfall of Beardy Creek, Wellington Vale Run." Ten portions, or 200 acres, no exception can be taken to the description; the reef is there, and also the marked tree which I am credibly informed was marked when the ground was discovered, and the fall of water is Beardy Creek and on Wellington Vale Run. Griffiths' claim is shown by red lines and the letters *a, b, c, d*. From the date of application until now Griffiths and his other partners have resided close by at the nearest water, and state they have been on the ground and have never left it, and I have more than once been urged by Captain Griffiths to measure the land, as a lode had been found and that others were seeking for it.

7. Mr. Chard shows the position of a tree with a notice dated 20th July, to the effect that 100 acres had been applied for. This is simply dishonest in the applicants. He also shows prospecting holes made about 8th August, and now claimed in right of an application of 2nd September. This is worth nothing, and only goes to show how *tentative* and *illusory* the descriptions have proved to be, for no applications were made for the land in dispute until 16th September by Griffiths and Gaffney, and 12th December by Mr. Blair, all prior applications being clearly for land marked 6, 7, 4, 5, 8, 9, and 10.

8. Gaffney denied to me that he did more than point out the direction of the reef, and that Mr. Chard insisted upon surveying his claim outside what he considered Mr. Blair's. Mr. Chard has shown this upon his tracing. I think Mr. Chard has been greatly misled, not only by the wording of the descriptions, but by acting upon dates that have no reference to the cases. He admitted to me that he had seen Mr. Blair's authority to select which Captain Griffiths complains of being altered to deceive him and others, and Mr. Blair admitted the alteration to me. And as regards the other complaints there have been rumours reached my office of the discovery of a lode by some overlanders with cattle, and Mr. Blair's name in connection with a reward for the discovery of it. A thousand pounds, it is said, was offered, and men paid to search, and on burning the grass a lode was discovered on the ground now in dispute. This is subsequent to Griffiths and Gaffney's application.

In justice to Mr. Blair I think Captain Griffiths should be confined to the direction of the reef, and only be allowed the strip edged pink for leases 13,917 to 26.

No. 50.

Messrs. Craig & party to The Secretary for Lands.

Sir,

Lime-street, Sydney, 19 March, 1873.

Being informed by telegram from our Mining Manager that Gaffney and party are extracting tin from our selection on Gulf Creek, near Landsend, county of Gough, we most respectfully beg to request that you will grant us an injunction, or take such other steps as will prevent the above parties taking the tin off the ground.

We are suffering great loss from our not yet being in possession of our leases, as it prevents us taking personal action, and compels us thus to appeal to you for the protection which we trust you will be able to inform us has been afforded, &c.

We are, &c.,

(Pro CRAIG & PARTY),

EDWARD DEAN.

The lease has been prepared and is awaiting the diagram, when it will be sent on to the Executive Council. As the case has proceeded so far perhaps the writers may be furnished with an authority to prosecute.—21/3/73. For approval, 27. Approved.—J.S.F., 4/4/73. Craig & party, 9th April, 1873.

This action was suggested on the assumption that the letter referred to mineral selections 6,063-6,092, of which leases have, as stated, been prepared and are awaiting diagram. It now appears that the writers refer to mineral selections 12,862-64, to which, therefore, the authority to prosecute will not apply. The question of the right to the latter selections is now under investigation in the Survey Office; pending the result of it it will not be desirable to furnish the parties with the authority to prosecute. Craig & party should be so informed, and Griffiths, Gaffney, and party apprised of what has been done, in case Craig may prosecute under the authority which has issued to him.—16/4/73. Adverting to my letter of the 9th instant, authorising you to prosecute Messrs. District Survey Office, Armidale, 23 March, 1873.

THERE cannot be a doubt that an injustice has been done by the way Messrs. Griffiths and Gaffney's claim has been treated. They are undoubtedly the first applicants for the portion coloured pink on the enclosed tracing, having first discovered tin in what is known as the track gully, which flows through portion 59, where they are now working. Their hut, where they have continuously resided, is also shown. The land coloured pink has been surveyed by Mr. Chard, for Banks, Lester and Farquhar, for whom Mr. Blair is representative, although, if Gaffney is to be believed, Mr. Chard promised to desist surveying, and when discovered at work by Gaffney's partner said he did not know whom he was surveying for until he had seen Capt. Griffiths, and notwithstanding I receive the plan for other parties whose application is three months subsequent to Griffiths and Gaffney.

see enclosures.

2nd. Griffiths and Gaffney have complied with every requirement of the Act in taking up their land and holding possession of it, and are, I think, entitled against all comers.

Sir,

Gulf Creek, Wellington Vale, 10 March, 1873.

Since forwarding to you my complaint that Mr. Chard has surveyed a portion of our mineral claim to Mr. Blair, for Craig & Company, and during my visit to Armidale to lay my complaint before you, Mr. Chard has surveyed two additional portions for Mr. Blair, although he promised me before I left he would desist until I returned, and has, I am informed, sent in a plan of the same to your office. This land is taken up in the names of Banks, Lester, and Farquhar, and their application is dated 12th December, while our application is dated 16th September for the same land. My partner Hobin saw Mr. Chard while surveying, and he assured him that he could not tell who was entitled to the land he was measuring until he had seen my partner, Captain Griffiths. Mr. Chard, although he has sent in his plan, has not seen Captain Griffiths. I think my application being first, and the fact that we are camped within 10 chains of the land taken from me by Mr. Chard, and as we have applied for six portions, have been working and are now working the land he has surveyed for Banks & Co., and were it not from information I have received I should still believe Mr. Chard had been surveying for us, and was only waiting to see Captain Griffiths to hand over the land to us.

Recd., 23 March.
—W.A.B.G.

In support of what I have before written, I beg to inform you that Mr. Blair has offered my partner Brown a sum of money to show him the reef we found before taking up the land, saying at the same time now that it was surveyed to him (Blair) he (my partner) might as well show him the lode.

I told you it was the general impression here that Mr. Chard is a partner with Mr. Blair, and I think when you see how unfairly Mr. Chard has acted by surveying on applications subsequent to ours, and ignoring ours, and by taking our land from us, I shall be obliged to you to let us know whether surveyors have the power to do as they like. The sketch I enclose will I think clearly show what land we claim and are fighting for.

I have just received your letter requesting me to discontinue working our tin land at the Gulf, particularly portion 59, which Mr. Chard has had the audacity to measure for Mr. Blair on his application, which is three months subsequent to mine. You cannot be aware sir, that my partners Gaffney, Brown, and Co., have been living on the land and working the same now over six months without any dispute, until your surveyor, Chard, took it from us, and at the same time told my partner that he had surveyed it for us.

Sir,

Sydney, 3 April, 1873.

With reference to the disputed mineral lands claimed by Griffiths, Gaffney, and party, I have the honor to submit for your information the following statement of facts:—

1st. That I selected the land in the month of September, 1872, and did what is necessary according to law for the lease to be granted to me.

2nd. That at that date I was living on the land, the boundaries and notices were duly marked and issued according to the Act, and men were employed sinking shafts, &c.

3rd. That since that date I have up to the present time been living on the land and working it when not prevented by want of powder and tools.

4th. That Gaffney's party were not in the district until some considerable time subsequent to my residing on the disputed land, and doubting my claim applied for the lease on the chance that by some informality or mistake on my part it would probably be issued to them.

5th. That Gaffneys have never lived on or worked the land claimed, and it is generally known and accepted in the district as my lease.

6th. That the foregoing facts will I am quite sure be confirmed by any person in the vicinity who know the nature of the case.

I therefore beg you will cause the surveyor to report upon the case, and that you will be good enough to give this communication your consideration.

No. 61.

Mr. R. Craig to The Secretary for Lands.

Sir,

Lime-street, Sydney, 4 April, 1873.

On the 19th ultimo we took the liberty of addressing you in reference to a telegram stating that Gaffney and party were extracting tin off our selections, and we again beg to bring this matter under your notice, with the following explanations:—

1st. Gaffney and party assert that they have a right to the land in virtue of a prior application, which we deny, and furnish the enclosed No. 12,862-4 to prove that our application was at least ten (10) or twelve (12) days before theirs.

2nd. Gaffney and party assert that they have lived on the ground. This we deny, and affirm that our manager, Mr. Blair, has resided on the ground since July last, and that Gaffney and party were not within 2 miles of the ground in question; and further, that in September our Mr. Blair worked the ground for a lode until stopped for the want of tools, and this before Gaffney and party applied for it.

3rd. That the trees were marked, and notices posted thereon according to the Act at date of above ground selection, and that the land has since been known as belonging to Blair's party.

4th. Praying that you will have the goodness to have this matter investigated as soon as possible,

I have, &c.,

No. 63.

Mr. J. Blair to The Secretary for Lands.

Sir,

Sydney, 9 April, 1873.

With reference to the dispute pending your decision between Gaffney, Griffiths, and party, and myself, I have the honor to make the following statements:—

1st. That from July last I resided and never left the mine, until up to the present date, and that on the 2nd September I posted written notices and marked trees according to the Act, and was working the land, and only desisted on account of tools.

2nd. That Gaffney, Griffiths, and party claimed a gully to the north-east of block 59, and after finding the ground unproductive they, in the month of February, shifted their workings to a gully on our ground, block 59, at that time selected and surveyed for Craig and party in the names of Cap. Farquhar, Lester, and Banks; and that I resided on Craig and party's selection as manager until the 10th February last, and that until the said month of February (when the ground was surveyed) Gaffney and party laid no claim to block 59, either by residence thereon, working, or otherwise.

3rd. That hearing Mr. Greaves, District Surveyor, has sent down a report stating that Gaffney and Griffiths and party are the first applicants, and therefore rightly entitled to the land.

I beg to state that Mr. Greaves has never been on the land in dispute, and consequently cannot arrive at a just decision, as a proof of which our applications for blocks 21, 22, and 23 are ten days before Gaffney and Griffiths'.

Decision of The Secretary for Lands.

I AM of opinion that Craig's selections of the 2nd September, 1872, have been measured by Mr. Chard in their correct positions (as shown on his tracing) and are so placed in conformity with the descriptions thereof.

Under the circumstances of this case of the fact of these selections being fourteen days prior to Griffiths & Co.'s should ensure their being satisfied before the subsequent selections of Griffiths of September 16th, and whose descriptions are very indefinite.

I am also of opinion that the several selections have been measured in their correct positions by Mr. Chard, as shown on his tracing. Mr. Greaves is in error in placing Craig's selections s.s.e., s., and s.s.w. of Holliman and Smith's selections, because they (Craig's selections) are described as southwards of Holliman's, and north-west of Blair's Camp, the position of which is obvious upon an inspection of Mr. Chard's tracing.

J.S.F., 7/5/73.

Mr. Blair, 17th May, /73. — Griffiths, Esq., 19th May, /73.

The instructions for Griffiths and Gaffney should now be returned to Mr. Greaves to measure for them north-westerly along ridge, from Mr. Chard's survey for Craig and Paul.—ROBT. D. FITZGERALD (for the Sur. Genl.), 20 June, /73.

Department of Lands, Sydney, 17 May, 1873.

In reference to your letter of the 9th ultimo, further respecting certain mineral land on Gulf Creek, county Gough, in dispute between Messrs. Griffiths, Gaffney, & Co., and Craig and party, I am directed to inform you, that under a report which has been received from the Surveyor General, the Minister for Lands is of opinion that Craig and party's selections of 2nd September last have been measured for them correctly by Mr. Licensed-Surveyor Chard, and that they are so placed in conformity with their descriptions.

From the fact that Craig and party's selections were reported fourteen days prior to those of Griffiths & Co., Mr. Secretary Farnell has decided that Craig & Co.'s claim shall be satisfied before that of Griffiths & Co.

No. 68.

Declaration by Mr. J. Gaffney.

I, JOHN GAFFNEY, of Wellington Vale, in the Colony of New South Wales, miner, do solemnly and sincerely declare: That on the 10th day of September now last past I prospected and tree-marked ten 20-acre blocks of reef and six 20-acre blocks of stream tin land on the Gulf Creek, Wellington Vale, and Maidenhead Runs boundary, which said several blocks of land were, on the 16th day of September last, applied for as mineral leases (other than gold), in pursuance of the "Crown Lands Occupation Act of 1861," by Charles John Griffiths and myself, in the names of "Griffiths and Gaffney."

2. That from the said 10th day of September last until the present time the said blocks of land have been *bonâ fide* occupied by me, and worked for myself and on behalf of the said Charles John Griffiths, and have not in any way been occupied or worked by any other person.

And I make this solemn declaration, conscientiously believing the same to be true, and by virtue of the provisions of an Act made and passed in the ninth year of the reign of Her present Majesty, intituled "*An Act for the more effectual abolition of oaths and affirmations taken and made in various departments of the Government of New South Wales and to substitute declarations in lieu thereof, and for the suppression of voluntary and extra-judicial oaths and affidavits.*"

Made and subscribed by the declarant, this twenty-seventh day of }
May, in the year one thousand eight hundred and seventy- }

Hon. gentleman,

Gulf Creek, May 29, 1872.

I, John Brown, hereby certify that I have been in possession of the land taken up by Messrs. Griffiths and Gaffney since date of application, and I declare that I, John Brown, am the prospector of the said Company, also is Gaffney; Gaffney marked the land, which I can show, up to the day. The manager of the Gulf Stream Tin Mining Company told me to-day that you, sir, sent him a letter last week that the land belonged to the Gulf Stream Tin Mining Company and Gaffney last,—Gaffney, Griffiths, and Company have improved the land, and cost the Company over £300. The Gulf Stream Tin Mining Company have not marked the ground nor improved the land; and the manager of the Gulf Stream Tin Mining Company told me not to work the ground, or he would send for the police. Therefore, hon. gentleman, I beg for a speedy settlement of the land.

Sir,

Vegetable Creek, Strathbogie, Wellingrove, 16 July, 1873.

When I called on you at the Lands Office, at Sydney, during the months of April and May last, I asked you for a decision respecting mineral land (three blocks, 20 acres each) on Gulf Creek, county Gough, in dispute between us and Craig and Co. I have since received a letter from your office, informing us that your decision in this case had been adverse to us, from the fact of Craig and Co.'s selections having been reported fourteen days prior to ours.

There

There is still one block of 20 acres on Gulf Creek, county Gough, in dispute between us and Banks, Lester, and Farquhar, said ground having been taken up by us, resided on, and worked since 16th September, 1872, while Banks and Co.'s application for same land is dated 12 December, 1872. I also mentioned these last facts to you when I had the honor of calling on you at your office, but in the press of business no doubt they have been forgotten. I appeal to you, sir, to be good enough to inquire into this matter, and see justice done. Mr. Fitzpatrick, my agent, is conversant with this case, and has the letters connected with it.

I have been unfortunate in losing mineral lands through most unforeseen circumstances, both that of Craig and Co., and rich land on Vegetable Creek, putting me to vast expense, and I beg, in conclusion, you will be good enough to hasten your decision in this case, remembering that our application for the ground dates nearly three months prior to Banks, Lester, and Farquhar.

Mr. J. Gaffney to The Secretary for Lands.

Camp, Gulf Creek, 22 July, 1873.

THE 2nd September, 1872, the undersigned and party were prospecting near the Gulf Creek, Wellington Vale Run, and marked several pieces of ground, which were applied for the 16th September same year.

In the beginning of December Mr. L.-S. Chard arrived at the Gulf, and had mine and other applications for land. Amongst the applicants was the Gulf Stream Tin Company, that is, Messrs. Blair, J. Craigh, R. Craigh, Banks, Lester, Farquharson, Buckel, Paul, and Potts. Mr. Blair, who was always together with the surveyor, made him first survey their land, and in the meantime that our application was earlier as many of the named parties he (the surveyor) left the district without surveying our ground.

As

As we saw that the survey took in land applied for by us we made objection, but without result. As the blocks Nos. 21, 22, 23, 59, and 60 are surveyed to that Company, and only having our hut in the

A and A my marked trees.

gully of block No. 131, saved that from also being taken from us. The land in question was marked by me, as shown on sketch at the same time it was taken up, and the marked trees are still unaltered.

After Mr. Chard, contrary to our objection, surveyed Nos. 21, 22, and 23 to the Gulf Stream Tin Company, then I went to Armidale to see the district surveyor to ascertain if there were prior applicants to the land, and I was informed that Mr. R. Craigh was 10 days earlier than me for the ground south of Holliman and Smith's selection; in the meantime that the disputed blocks are to the east of their land.

During my absence Mr. Chard further surveyed Nos. 59 and 60 for the same Company; nevertheless, that my partner made objections, and he told him he would not decide the ownership before he had seen Captain Griffiths, also a partner of ours. Mr. Chard sent the plans away immediately without seeing Captain Griffiths. I was, prior to the survey, camped on the ground, and had worked it. Neither Mr. Blair nor any of his partners have ever been camping on or prospecting any of the disputed blocks until this date.

In June last I got a decision from your office that the blocks 21, 22, and 23 were rightly surveyed to the Gulf Stream Tin Company, but I still believe unfairly, and would ask as a favor to get the question reconsidered.

As we are very anxious to start work on Nos. 59 and 60, where already a great amount of money is spent on work done, we would feel very grateful to get your decision which we are sure only can be in our favor.

All the ground disputed is the best of our selection, and it was Nos. 21, 59, and 60 which induced us to take up 320 acres to be certain not to be surveyed out of any ground prospected by and applied for by us.

I want further to mention that the application, according to which Nos. 59 and 60 are surveyed to the Gulf Stream Tin Company, is of the 12th December, 1872, or 3 months later than ours; and we are still working block No. 131 next to No. 59.

Mr. B. Hart to The Under Secretary for Mines.

Dear sir,

Sydney, 31 May, 1877.

Will you be good enough to have cancelled leases of blocks Nos. 59 and 60, mineral lease Nos. 17,279 and 17,280, county of Gough, parish of Landsend; also blocks Nos. 22 and 23, mineral lease Nos. 12,862 and 12,863, same county and parish as above. Reason for cancelling—non-expenditure of £5 per acres as prescribed by law.

Mr. M. Partridge to Mr. Buchanan.

Sir,

Inverell, 21 June, 1877.

I would feel greatly obliged if you would give me your opinion on the following case:—I am a digger, and gain my living by it. I went out prospecting and found a lode. I telegraphed to Government and paid the money for two blocks of land and received receipt; I gave their description correctly.

Another party, M.N., came after I had opened up the lode and proved it, and claimed the ground on priority of lease, but it was satisfactorily proved in the local Court that they did not take the ground up under correct description, giving one county as the place where the land was situated while it was situated in another. They received no lease from Government, and also they say they took the land up under the "Primitive Mineral Act," and they never so much as spent a shilling on the ground.

I have been ejected by legal force three times, but I have gone back and taken possession. I would like to know what is the best course for me to pursue; I am sick of the local lawyers? I know in my own mind I am entitled to the ground, and I do not like to be stopped working it through the greed of Sydney capitalists.

I have, &c.,

MARK PARTRIDGE.

P.S.—If you should require a fee send word and I will send it. You must excuse my knowledge on the subject of fees as I am only a digger (one of your old Gulgong supporters). Address—"Mark Partridge, Vegetable Creek."

Sir,

Glen Innes, 23 June.

Knowing your uprightness and important conduct as a Member of the Legislative Assembly of this Colony, I take the liberty of drawing your attention to the gross treatment miners are receiving in this part of Colony at the hands of the Mining Department and its officials. To more clearly inform you on the subject I extract from the *Glen Innes Guardian* reports of proceedings at the Wardens and Police Courts. From these you will notice a party of miners are sorely treated by the authorities here for no other offence than endeavouring to hold what they deem to be their lawful property, the claimants to which abandoned the ground for three years, and failed to pay up the rent until these miners (now being persecuted) had discovered a rich lode of tin; the former then claimed it, and although the Act states "3s. per acre shall be paid annually," has been declared by the warden here as the lawful owners.

As things are here miners are afraid to prospect land, lest when they discover anything good it will be taken from them by intruders, who in every case is backed up by the officials of the Mining Department.

For instance, the Registrar on Vegetable Creek, the principal tin field here, is the hired servant of a large mining company, and of course is not in a position to gainsay the will of the proprietary of mine upon which he is employed; at his hands miners receive all manner of injustice. In the cases I direct your attention to he distinctly told the men the ground was forfeited and allow them to take it up, but as soon as the find was made denied the statement, and appeared as a witness against them, because it is suspected the owner of the claim where he is employed has an interest in Carr and party being successful.

If you would kindly bring before the House the grossness of the treatment miners are receiving here you would certainly do the mining community a deal of good, and they would never cease to thank you.

Yours, &c.,

THOMAS HARROLD.

No. 112.
Application for Mineral Leases.
(Mineral Lease Regulations—Schedule 2.)

To the Honorable the Secretary for Mines, Sydney,—
Sir,

Vegetable Creek, 5 June, 1877.

We hereby make application for a mineral lease of that piece or parcel of land situated parish of Landsend, county of Gough, sections No. 59 and 60, containing 40 acres, of which we took possession on the 1st day of June, at the hour of 5 o'clock in the afternoon, for the purpose of mining thereon and therein for tin ore, by posts and trenches at each angle thereof. The datum point is s.w. corner of block 60.

Notice of our intention to make their application has been given in accordance with the regulations in that behalf, and we hand herewith a list of the persons who occupy or claim a right to the land aforesaid, or any part thereof, together with such contents as we have obtained. We also hand herewith the sum of £10, being the first year's rent in advance of the said land, and the sum of _____ to cover the cost of survey.

We hereby acknowledge that this application is made upon the distinct understanding and condition that if we shall abandon or fail to proceed with it, or if it is refused, the Secretary of Mines for the time being may deduct the sum of £10 deposited as aforesaid, any cost to which in his opinion the Crown may have been put in or about or in respect of this application; and this application shall thereupon become and be void, and the possession aforesaid shall cease and determine. And if the lease shall be granted, we shall and will commence mining operations upon or in connection with the demised land within six months from and after the granting thereof, and shall and will employ upon such land not less than six men during the first year of the term thereby created, and not less than eight men during the remainder of such term. And shall and will at any time when called upon in terms of the regulations relating to mineral leases, to do so, execute and take delivery of such lease, or failing therein for a period of fourteen days, after being so called upon, we shall and will forfeit the said sum of £10, and all right, title, or interest in and to the said land and the possession thereof, and the said lease shall be forthwith cancelled.

We have, &c.,

BENJAMIN HART.

E. J. SWYNY.

(both of Vegetable Creek.)

We are willing to accept the above mineral lease at our own risk, without inspection or survey.

BENJAMIN HART.

E. J. SWYNY.

This application was received by me this 5th day of June, 1877, at the hour of 11 o'clock in the forenoon, and is numbered 121.

GEO. H. GOWER,

Warden's Clerk, Vegetable Creek.

No. 113.
Depositions.

Warden's Court, Vegetable Creek, 28 June, 1877.

BEFORE J. B. Graham, Esq., Warden.

Messrs. Banks, Lyster, & Co., *versus* Benjamin Hart and Edward John Swyny.—Objection to mineral leases application No. 121, Vegetable Creek.

James Mathew Banks, being sworn, deposed: I am a marine surveyor, of Sydney; I am one of the principals in the company known as Messrs. Banks, Lyster, and Co., as mentioned in the objections lodged by Mr. Mark William Carr, our agent, dated 12th June last; the objection now produced is the one; I object to application made by Benjamin Hart and E. J. Swyny on the 5th June, 1877, being for 40 acres, blocks Nos. 59 and 60, parish of Landsend, county of Gough; I object on the grounds that I am one of the leaseholders of the blocks under mineral portion No. 59, mineral lease No. 17,279, dated the 30th day of July, 1873; and I object to block No. 60 on the same grounds, viz., that I am a holder of mineral lease No. 17,280, dated at Sydney, 30th July, 1873, signed by His Excellency the Governor, Sir Hercules Robinson; the leases held by me before referred to are for portions of land Nos. 59 and 60, parish of Landsend, county of Gough, being the same land as described in the application to which I object; the leases are still in force; the leases are at present in the custody of the Court as exhibits in several criminal cases.

Cross-examined by E. J. Swyny: I am aware the rent has been paid for the blocks, and have the receipts for it; I do not know the dates of the receipts; the receipt now produced is the last receipt I got for the rent from the Treasury on mineral leases No. 17,279 and 17,280—bears date 30th April, 1877—shows rent paid to 31st December, 1877; the receipt on No. 17,279 was from 1st January, 1875, to 31st December, 1877, and on mineral lease 17,280 was from 1st January, 1876, to 31st December, 1877; I do not know from my own knowledge whether the rents have been paid annually; from my own knowledge I am not aware whether the expenditure conditions in the mineral leases have been complied with; I believe the land has been worked by my manager, but I cannot speak of my own knowledge; I believe we have been continuously in occupation of the land by a representative and tributers, but I am not certain since the issue of the leases; to the best of my belief we have had two managers on the land—the first one was Mr. Blair, and the second and present one Mr. Carr; to the best of my belief £5 an acre has been spent on the land during the first three years of occupation; there are proper records kept of the expenditure, and they are kept in Sydney; I presume they keep a correct account of all the expenditure; the manager, Mr. Carr, let the land on tribute to a man named Clifford, from whom he received a receipt for tools and other appliances, and agreeing to pay a certain amount of tribute to the partners; this document was signed by Clifford, and witnessed by Swyny.

By the Warden: After this document was signed our manager left the ground; a few months ago our manager took possession of the land again.

By E. J. Swyny: I do not know the date of the document referred to, or how long it was in force.

JAMES M. BANKS.

And

And this deponent being sworn, deposed: My name is *Joseph Clifford*, and am a storekeeper, residing at the Gulf Creek; I know blocks 59 and 60, parish of Landsend, at the Gulf; since 30th July, 1873, and three years subsequently, I know of Gaffney working on block 59, but no work was done on block 60; I did not know Mr. Carr or any manager of the Gulf Stream Company to work on blocks 59 and 60; I held the Gulf Stream Company's land from March to 31st December, I believe in 1875, on royalty.

JOSEPH CLIFFORD.

And this deponent, being sworn, deposed: My name is *Roland Oliver Wheeler*; am a miner, residing on Vegetable Creek; I was on the blocks Nos. 59 and 60 on Gulf Creek yesterday, 27th June instant; I cannot swear positively that the sum of five pounds (£5) stg. per acre has not been spent on the blocks; I have not seen £5 per acre for work done expended on the land; I have been backwards and forwards on the Gulf for about three months—that was March, April, and May, 1873.

By the Warden: I never saw the tributers, Clifford, working on the land.

R. O. WHEELER.

And this deponent, being sworn, deposed: My name is *Frank M'Sorley*; am a miner, residing at Y. Waterholes; I have seen blocks 59 and 60 on the Gulf Creek; to the best of my knowledge, and from what work I have seen on the land, I do not think £5 per acre has been spent on the land.

By the Warden: From what work I have been shown on the land I do not think that sum per acre has been spent; I was taken as a valuator, on the 24th June instant, on the land by Mr. Swyny.

F. M'SORLEY.

And this deponent, being sworn, deposed: My name is *John Gaffney*; am a miner, residing at the Gulf Creek; I know blocks 59 and 60 on the Gulf; I know them since February, 1873; prior to the 16th June this year I can swear that the Gulf Stream Company did no work on that land.

By the Warden: Clifford or his men, not to my knowledge, did any work on that land; I know of no work done on that land but by me; I commenced working on block 59 in 1872, and worked there till December, 1873, for my own benefit.

By E. J. Swyny: I returned to the land in the beginning of June this year; I did not work there between December, 1873, and June, 1877.

By the Warden: I worked on the land for fifteen months, with an average of five men; I did not work continuously; I cannot swear that the average would be five men.

JOHN GAFFNEY.

And this deponent, being sworn, deposed: My name is *Donald Murray*; am a miner, residing on Vegetable Creek; I know blocks 59 and 60 on the Gulf Creek; I saw them yesterday, 27th June instant; from the work I saw done yesterday I do not think that the sum of £5 per acre had been spent on the land; I went round the survey marks of the blocks, but do not know the acreage of the blocks; to the best of my belief the work that I saw done on blocks 59 and 60 could have been done for £50.

DONALD MURRAY.

Joseph Clifford, recalled by the Warden: I held some of the Gulf Stream Company's land on tribute, but did not recognise Nos. 59 and 60, as they were always in dispute; I never worked on blocks 59 and 60.

JOSEPH CLIFFORD.

No. 114.

Messrs. Farquhar and Craig to The Secretary for Mines.

Sir,

Sydney, 29 June, 1877.

We have the honor to bring under your notice the following facts in reference to the case brought before the Legislative Assembly last night by Mr. Buchanan and Mr. McElhone.

The Gulf Stream Tin Mining Company was formed 1st August, 1872, and the leases for the ground were obtained about twelve months afterwards.

The Company worked the ground, and expended about £5,000 in working the mine.

They then let it out to tributers (the men who are now committed to trial for stealing tin), and these tributers worked till the whole of the company's plant was destroyed. They never paid a farthing of tribute money to the company, and when the company sent their manager up to take possession they refused to let him work the mine. The manager then applied to the Warden for an injunction, who granted him one. The case was tried at Vegetable Creek, and the Warden gave possession to the manager, who went up to take possession, but was resisted by the men, who defied him; and when the police were on the ground to protect the manager, the gang planted the constables' horses, so that they could not proceed with their duty.

Captain Banks is in possession of facts which prove that there is a gang of unprincipled men who rule the neighbourhood, and intimidate every one who is not in league with them.

When Captain Banks went to the mine he read the lease to the tin stealers, and warned them of the consequences of working the mine in opposition to his wish, but their leaders told the men to proceed with their work, and Captain Banks then gave them in charge.

These men have been several times before the Court, brought there in the endeavour to prevent them stealing the tin, and they have persistently resisted and set at defiance the Warden, his Court, the Magistrates, and police.

We have, &c.,

ALEX. B. FARQUHAR.
ROBERT CRAIG.

No. 115.

Mr. E. Swyny to The Secretary for Mines.

Sir,

Vegetable Creek, 3 July, 1877.

I have the honor to address you in reference to application No. 121, Vegetable Creek, made by myself and Mr. Benjamin Hart.

And as the case is one in which a considerable amount of public interest is centred, being a proceeding taken to obtain the forfeiture of this land on the grounds that although the leases were granted in July, 1873, the sum of (£5) five pounds per acre required by the Mineral Lands Act has not been expended thereon.

And also that the rent has not been paid annually, as required by section (5) five of that Act, which states that, "in default of such payment the lease shall be forfeited."

I have the honor to call your attention to the evidence taken on the 28th June, before the Warden, J. B. Graham, Esq., on the subject, and humbly request that if sufficient case has not been already made out to justify its immediate forfeiture, you will see fit to appoint some competent person to inspect the land and take evidence as to the value of work and by whom done.

As the present holders of the lease have since my application taken re-possession and are working the land, I have the honor to request that in view of the evidence given before the Warden, and in view of the fact that any work now done would tend to mislead any person appointed to inspect the land, you would see fit to issue an injunction for the cessation of work thereon until such time as your decision shall have been given in the matter.

I have further the honor to state that I am in a position to prove that neither the leaseholders or any person in their behalf have expended on this land one-fourth the amount required by the provisions of the Act.

I have, &c.,

E. J. SWYNY.

Inform of action taken in respect of application No. 121, and that the matter of complaint as to non-compliance with conditions of the leases of blocks 59 and 60 has been referred to Mr. Warden Graham for report. The clause in the Act under which the Minister has power to grant an injunction does not apply to such a case as this.—G.A.L., 13/7/77. Mr. Cohen, M.P., informed, 18 July, /77.

No. 116.

The Under Secretary for Mines to H. E. Cohen, Esq., M.P.

Sir,

Department of Mines, Sydney, 18 July, 1877.

Referring to the letter presented by you, on behalf of Messrs. E. J. Swyny and B. Hart, respecting their application (No. 121), for a mineral lease of portions 59 and 60, in the parish of Landsend, county of Gough, I have the honor to inform you that such application must be refused as the land is already held under lease.

2. With regard to the complaint made on the letter above-named, that the conditions of the leases of portions 59 and 60 aforesaid have not been complied with so far as the amount to be expended on the land and the payment of rent are concerned, I may state that the matter has been referred to Mr. Warden Graham for report.

3. Respecting the request made for an injunction to prevent any more work being done upon the land at present, permit me to point out that the clause in the Mining Act, under which the Minister has power to grant an injunction, does not apply to such a case as the one under notice.

I have, &c.,

No. 117.

Mr. J. Banks to The Secretary for Mines.

Sir,

Sydney, 9 July, 1877.

With reference to your two letters, bearing date respectively the 7th day of June last, one on the subject of mineral leases 12,862 and 12,863, addressed to Mr. Robert Craig, and the other with reference to leases 17,279 and 17,280, addressed to Messrs. Banks, Lester, & Co., I do myself the honor, on behalf of the Gulf Stream Tin Company, to inform you that soon after obtaining a right to the land described in leases abovementioned, the lessees formed themselves into a Company under the above title. There was at that time no law under which they could either amalgamate or transfer the leases, and being of opinion that the works of the Company, on any part of the land, would apply equally to the whole, in compliance with clause 79 of Regulations under Crown Lands Occupation Act, they commenced to mine for tin ore, and in the erection of works and mining expended within three years large sums of money, very far in excess of the requirements of the law under which the land is held. The question of forfeiture for non-performance of conditions has been raised by men, the greater number of whom have since been committed to take their trial for stealing tin-ore from the land.

On a recent examination of the land by one of the Company it was found that the greater part of the money, amounting to about £5,000, laid out on the four lots, has been expended on lots 59 and 60 (leases 17,279 and 17,280), those lots having been first worked, and lots 22 and 23 (leases 12,862 and 12,863) having been left until approached in the regular working of the land. There is, however, now employed on the last-mentioned lots a large number of men engaged in building stores, stables, and workmen's cottages, and erecting machinery for smelting tin ore.

And, in conclusion, I beg to say that the Company hope that what has been substantially more than a compliance with the law, so far as all the blocks are concerned, will not be treated as insufficient on account of anyone, and that it will not be considered right that they should be damned by reason of defective laws under which they acted.

I have, &c.,

J. M. BANKS.

Ask the Warden to inquire whether the lessees have expended £5 per acre, in terms of the Act, upon the blocks named herein.—G.A.L., 13/7/77. Mr. Warden Graham.—H.W., B.C., 14 July, 1877.

No. 118.

Mr. Warden Graham to The Under Secretary for Mines.

Sir,

Warden's Office, Tenterfield, 3 August, 1877.

In reply to your memo. of the 14th ultimo, requesting me to inquire whether the lessees have expended £5 per acre on blocks 59 and 60, parish of Landsend, and blocks 22 and 23, parish of Muir, held under mineral leases Nos. 17,279, 17,280, 12,862, and 12,863, I do myself the honor to report that on the 27th ultimo I visited the land referred to, and from the information I could obtain I estimate the following expenditure has been made:—

On block 59, parish of Landsend, a gully called Track Gully has been worked for tin during the first three years of the tenure under the existing leases; the extent of the work is about 8 chains of the gully, from which I was informed by the manager on the ground was obtained twenty (20) tons of tin ore. The land was worked under tribute for the lessees, and the tin ore obtained was delivered to them at a cost averaging about £27 10s. per ton. From the want of water, steepness of gully, and other want of facilities, I consider the expenditure or tribute of £27 10s. per ton about a fair estimate for the work done. I have no hesitation in saying that on this block the necessary expenditure during the first three years of tenure has been considerably exceeded.

On block 60, parish of Landsend, I could find no satisfactory evidence on the land of the necessary expenditure being made during the first three years of the lease. There was a cutting, which would, I estimate, cost about £60, and a shaft sunk to the depth of 25 feet, at a cost of about £3 per foot. This work was done by Messrs. Lamont and Anderson during the latter part of last year, from which I am informed 26 tons of tin ore was obtained. Lamont and Anderson were, at the time this work was done, applicants for the land, in the belief it was open to lease. Considerable expenditure has since been made on this block. I cannot report, from the information that I have been able to obtain, that the necessary expenditure was made during the first three years of the lease.

On block No. 22, parish of Muir, the work done during the first three years of tenure, I should estimate, would entail an expenditure of about £20 only. During the present year a large excavation for water, dam, road, huts, and other improvements have been made, which I should estimate at over £100 expenditure.

The necessary expenditure during the first three years of tenure does not appear to me to have been made.

On block 23, parish of Muir, I could find no evidence of expenditure; no work appears to have been done on it.

I was informed by the manager on the ground, Mr. M. W. Carr, that the lessees had a manager on the blocks before-mentioned and other adjoining property held by them during the first two years and six months of tenure, at a salary of £5 per week.

The lessees have at present forty men engaged, and the expenditure now is about £200 per week. I am also informed that the lessees have applied for the land under mineral conditional purchases.

I have, &c.,

J. B. GRAHAM,

Warden.

Inform Mr. Warden Graham that inquiries into complaints of non-observance by lessees of the conditions of their leases should be conducted similarly to inquiries into objections to applications to lease, and the Warden's report should be based upon evidence. Request that he will take evidence herein, and report thereon, at his earliest convenience.—G.A.L., 13/8/77.

No. 120.

Mr. Warden Graham to The Under Secretary for Mines.

Sir,

Warden's Office, Tenterfield, 5 July, 1877.

In reply to your B.C. of the 29th June ultimo, calling for my report in the case therein referred to, I do myself the honor to submit the following report:—

On the 29th September, 1876, Wm. Anderson and another made application for a mineral lease of 20 acres of land on Gulf Creek. (They, I believe, were the discoverers of the rich lode on blocks 59 and 60.) The surveyor reported that the land applied for embraced portions of blocks 59 and 60, parish of Landsend, held under mineral leases No. 17,279 and 17,280. Subsequently, on the 7th March last, Agnew and party, the present defendants, lodged an application for 40 acres, and described it as blocks 59 and 60, parish of Landsend, county of Clive. On lodging this application the applicants were distinctly informed by Mr. Warden's Clerk Gower that the original leases were not forfeited. (See his evidence in case before the Warden's Court on 31st May, herewith.) They insisted upon lodging the applications.

The previous applicants, Anderson and party, lodged an objection. The objection case was heard by me, at Vegetable Creek, on the 27th March last; it was then proved by the Warden's clerk, and by the production of a telegram from your department to him, dated 9th March, that the land in dispute between the contending parties was still held under unexpired mineral leases Nos. 17,279 and 17,280 by Messrs. Banks, Lester, and Farquhar. After all the evidence was taken I pointed out to the then litigants that it was evident that neither of them had any right to the land, and advised them not to again work or take possession of it until the original leases had been cancelled.

I

I beg to refer you to the evidence forwarded to you with my report on the above case, dated 25th April last. Agnew and party, disregarding my advice and the clear evidence before them that the land was not available, again took possession, and continued to work and take out the tin ore.

On the 2nd May last I received a telegram from R. P. Abbott, Esq., of Sydney, solicitor for Messrs. Banks, Lester, and Farquhar, requesting me to issue injunction to prevent Clifford, Agnew, and others from working and mining tin from mineral lands held by his clients under mineral leases Nos. 17,279 and 17,280, and informing me that Mark William Carr was then agent on the land. On the following day Mark William Carr came to me, produced the leases of the ground and receipts for rent to December, 1877, and on his representation I issued a special injunction for seven days. Mr. Carr at the same time took out summonses against Nevin Agnew, J. Agnew, and Thomas Richardson, seeking, as agent for Messrs. Banks, Lester, and Farquhar, to be put into possession of certain portions of land situated on Gulf Creek, Nos. 59 and 60, and held under unexpired mineral leases Nos. 17,279 and 17,280, and also to claim certain quantities of tin ore won from such lands. The case was heard by me at a Warden's Court held at Vegetable Creek on the 31st May last. The plaintiffs appeared by their agent and Mr. Solicitor Ferguson. The defendants appeared, and were defended by Mr. Solicitor Kearney. The plaintiffs then produced leases Nos. 17,279 and 17,280; proved that the conditions of the leases had been fulfilled, and that rents had been paid. The evidence of Senior-constable Travers and the Warden's clerk was also taken for the plaintiffs.

From the Warden's clerk's evidence it will be seen that the defendants were distinctly told by him that the land was not forfeited when they lodged their application. The defendants called no evidence, and, with the exception of their solicitor's speech, made no defence. I gave a verdict for plaintiffs, and ordered immediate possession "of blocks 59 and 60, held under mineral leases Nos. 17,279 and 17,280, to be given to Messrs. Banks and Company; the removal of the defendants from the ground; and that all tin ore raised and now on the ground should be delivered to plaintiffs." This verdict was entered by me in the register of complaints, and given in open Court in the presence and hearing of defendants. On that verdict the Warden's clerk drew out the order on the form laid down by the 11th Schedule of the Mining Act. In this order it is stated that the disputed lands are blocks 59 and 60, parish of Muir. As far as the parish is concerned this is an error, the land being in the parish of Landsend; but the error is that of Mr. M. W. Carr (and not of the Warden or Warden's clerk), as in his evidence he distinctly swears that the blocks he claims are situated in the parish of Muir, and on this evidence the order is drawn.

This error did not in any way deceive or mislead the defendants, as the land disputed was well known to them, and the mere error in the name of the parish could not mislead them. I may here state, in explanation of this error of Mr. M. W. Carr's, that the boundary between the two parishes—Muir and Landsend—forms one of the boundaries of the blocks in question, and divides these blocks from others held by Banks & Co., which are situated in the parish of Muir. The verdict given in open Court, before referred to, did not mention the parish, nor did the summonses, but stated them as blocks 59 and 60, Gulf Creek, held under mineral leases 17,279 and 17,280. Carr's evidence alone stated them to be in the parish of Muir. As a matter of fact it subsequently appeared that the land held under the leases named was in the parish of Landsend.

By the Government Gazette of the 29th May last the applications of Wm. Anderson and another, and of Nevin Agnew and others (Nos. 49 and 96), dated respectively 29th September, 1876, and 7th March, 1877, were refused. These are the applications before referred to, as reported on by me in the objection case. Notice of these refusals were sent by the Warden's clerk to the applicants on the 5th June. (See Mr. Gower's telegram of the 5th July attached.)

On the 6th June I received a telegram from Mr. Warden's Clerk Gower, informing me that my decision in case Banks and party v. Agnew and party was treated with contempt; that over a dozen men were at work on the lode, and refused possession to Carr. (Telegram attached.) I, at the same time, received a telegram from Mr. Carr, requesting enforcement of order. I immediately issued an order to Senior-constable Travers to assist in giving Mr. Carr possession. The police went on to the land pointed out to them by Mr. Carr, and gave Mr. Carr possession, at the same time arresting three persons—Conway, Gaffney, and Partridge—for resisting them in the execution of the order. The case was brought on before the Bench of Magistrates at Vegetable Creek, on the 16th June, at which I attended. I did not, under the circumstances, consider it my duty to sit on the Bench, but stayed in the Court to watch the proceedings. I did not prosecute as alleged; the police prosecuted; nor did I take any action in the matter excepting with the consent of the Bench asking constable Travers two questions, and afterwards pointing out to the Bench the discrepancy between Carr's previous evidence with reference to the parish (on which the order was granted) and that then given by him, in which he stated the land to be in the parish of Landsend. I have not a copy of the evidence taken in this case; but that given in the *Glen Innes Guardian* herewith is approximately correct. The Bench considering the discrepancy fatal dismissed the case.

This was the first time the error appeared, and it was fully made apparent to the defendants by the production of the leases and evidence given. That the land claimed and owned by Banks and Co. was blocks 59 and 60, parish of Landsend, and the particular land on which they were trespassing. Through this technical error of Carr's the defendants, instead of being wronged, escaped well merited punishment.

I have gone fully into an explanation of the error, as a great deal of sympathy for the defendants is wrongly based on that error, and in consequence of that being the only grounds for the remarks by the editor of the *Guardian* newspaper as to my "incompetency" and my "egregious and unpardonable blunders." These remarks I have as yet treated with contempt, as a one-sided and untruthful comment, and in no way borne out by the evidence reported. To further show the vindictiveness and bias of this publication I forward you the full issue of date 23rd June, and beg to draw your attention to the leading article.

On the same day the above case was heard, viz., 16th June, Joseph Clifford and several others were brought before the Bench on summons, charged with stealing tin ore from blocks 59 and 60, Gulf Creek, the property of Messrs. Banks and others. After the evidence was taken in Clifford's case, the Bench considered there was not a *prima facie* case made out by the prosecution, and dismissed it. The prosecutors then stated they had no further evidence against the others charged, and requested to be allowed not to go on with the prosecution; the defendants were discharged, and instead of taking it as a warning these men appear to have immediately gone out again on the ground, and to have forcibly taken possession of the mine from Carr and his men—they continued to get the tin ore out and cart it away.

Captain Banks, one of the owners, went on the land and read his leases to the defendants; plainly pointing out to them it was his land, and warned them to desist working; they defied him and persisted. The next day he obtained the assistance of the police, and eight men were arrested on the ground under warrant for tin ore stealing. The men were brought before the local Bench. The sitting magistrates considering the case of great importance telegraphed for my assistance, remanding the prisoners from Saturday the 21st June until the following Tuesday, to enable me to be there. I am informed the Bench refused bail during the remand, on good and sufficient reasons. On Tuesday, the 24th, the men were again brought up before myself, Alfred Cadell, and Hamilton Gordon, Esqs., J.P.'s; the prosecution was conducted by Mr. Solicitor Ferguson, and the accused were defended by Mr. Solicitor Kearney; the prisoners reserved their defence, and after very careful investigation the Bench committed seven of the prisoners to take their trial. They were immediately allowed bail, and released on bail.

This is the whole history of the case, as far as it has come under my notice.

The defendants are a lawless lot of men, who, on the flimsy excuse that they were applicants, take forcible possession of land held under lease by other parties, notwithstanding their knowledge of the existence of the leases and their application being refused; and in spite of continual warnings continue by force, in defiance of all law and order, to mine and take away tin ore, the property of other persons. If such proceedings were allowed there would be an end of all order. It must be remembered that these men were not the discoverers of the mine working. Anderson and party discovered it, and applied for it, believing it to be open to lease, and were hunted out by these men who have now held forcible possession for some time.

I am informed by reliable authority that during the illegal occupation of the mine by the defendants, they have obtained considerably over 50 tons of tin ore from it.

J. B. GRAHAM,
Warden.

In re Gulf Stream Company *versus* Agnew and party, your decision, favour of complainants, delivered in open Court, is treated with contempt. Over dozen men, so Carr informs me, are now at work on lode, and refuse to allow him to pitch his tent on the blocks 59 and 60. Please give me instructions at once, as this matter requires your most immediate attention, being such a very wilful case of contempt. Hart has also applied to-day for some blocks, and will take possession to-morrow, on his own account. Agnew's themselves not working, but on the ground. Minute by The Under Secretary for Mines.

It appears from the records in this office that the Messrs. Agnew and Mr. Partridge must have known that the blocks of land 59 and 60 were held under leases by Messrs. Banks and Co. In the first place they were so informed at the inquiry held by the Warden into their application to lease the said blocks, and they were subsequently informed, by notice in the Gazette and by letter from this office, that the land was not available to lease, and that therefore their application to lease was refused; and there does not appear to be any justification of their conduct in retaining possession after the Gazette of the 29th May last reached them. The Warden's clerk denies having informed Messrs. Agnew and party that the land was available; indeed he states in his evidence (Warden's Court, 1st June) that by his map the land appeared to be under lease.

It is quite possible he did not at that time speak very positively, because he had not then received the information from this office, and the surveyor had not then reported upon Messrs. Anderson and party's application. The error complained of as having been made by the warden appears to have been due to the evidence given by the agent for the lessees, in which the land in dispute was described as in the parish of Muir, instead of in the parish of Landsend. But inasmuch as the land was properly described in the summons, the defendants could not have been misled by the error complained of. Moreover, they secured a dismissal in consequence of this error, but for which they might perhaps have been punished for disobedience of the warden's order.

There is nothing to show Mr. Gower's conduct has been improper, or that it has been influenced by his occupying the position of an employé of a tin mining company.

The Under Secretary for Mines to J. McElhone, Esq., M.P.

Sir,

Department of Mines, Sydney, 16 July, 1877.

Referring to the letter presented by you on behalf of Mr. Thomas Harrold, in which he complains of the action taken by this department in the matter of Messrs. Agnew and party's mineral lease applications at Vegetable Creek, I have the honor to inform you that it appears from the records of this office that the Messrs. Agnew and Mr. Partridge must have known that the blocks of land Nos. 59 and 60 were held under lease by Messrs. Banks and company. In the first place they were so informed at the inquiry held by the Warden into the matter of their application to lease the said land, and they were subsequently apprised by notice in the Gazette, and by letter from this office, that the land was not available for leasing, and that therefore their application was refused. Nor does there appear to be any justification of their conduct in retaining possession of the land after the Gazette of the 29th May reached them.

2nd. The Warden's clerk denies having informed Agnew and party that the land was available. In his evidence, given at the Wardens Court on the 1st June last, he states that by his map the land appeared to be held under lease. It may be that he did not at that time speak very positively, because he had not then received the information from this office, and the surveyor had not then reported upon Messrs. Anderson and party's application.

The error complained of as having been made by the Warden seems to have been due to the evidence given by Mr. Carr, agent for the lessees, in which the land in dispute was described as in the parish of Muir instead of in the parish of Landsend; but, inasmuch as the land was properly described in the summons, the defendants could not have been misled by the mistake complained of. Besides which they secured a dismissal in consequence of this mistake, but for which they might have been punished for disobeying the Warden's order.

3rd. In conclusion, permit me to state that there is nothing to show that the conduct of the Warden's clerk has been improper, or that, as suggested by Mr. Harrold, it has been influenced by his occupying the position of an employé of a tin mining company.

I have the honor to represent to you that arising out of the disputes between Messrs. Banks and others and Messrs. Griffiths and Gaffney, respecting mineral leases, 17,279 and 17,280, the former gentlemen have obtained my permission to place their manager in charge of my mineral leases, 9,763 and 9,764, in consequence of Griffiths and Gaffney having placed a quantity of tin ore there, which ore is said to have been taken from the ground in dispute.

I am now informed, by a person interested in my ground, that such change is detrimental to my interest, inasmuch as the ore is mixed with a quantity belonging to me, and therefore that neither of the disputants should have possession.

I am desirous of pursuing such a course as will not compromise me with either party, and therefore solicit your authority to see the papers now in the Mines Department, and affecting the case, that I may form my own opinion and decide as to my future action.

I have had an interview with the Under Secretary for Mines, who can more fully explain the matter if necessary.

J. Leary, Esq., M.P., to The Under Secretary for Mines.

Re Gaffney and others.

Dear Sir,

108, King-street, Sydney, 13 August, 1877.

I have received information from Gaffney by telegram, informing me that the Warden, Mr. Graham, had refused an injunction to prevent Banks & Co. from removing the tin land, &c., and as this refusal may be a great injustice to Gaffney I should feel favoured by your obtaining from the Warden the grounds of his refusal, and that you will do what may be considered just in this matter.

Yours, &c.,

JOSEPH LEARY.

Ask Mr. Warden Graham by telegram whether he has refused an application made by Gaffney for an injunction; and, if so, why? Address to Armidale, and if he has left there to repeat to Tenterfield.—H.W., 13/8/77. Telegram, 13/8/77.

 District—Inverell.
 Area—40 acres.
 Selected—14 June, 1877.
 Balance—£60.
 Deed fee—£1.
 Total—£61.

Sir,
 The Treasury, New South Wales, 16 August, 1877.
 I have the honor to inform you, that the balance of purchase money due on the selection mentioned in the margin, was credited to revenue on 16th instant. I may add that the amount has been carried to the Consolidated Revenue Fund subject to the declaration herewith being countersigned by the Minister for Lands on the conditions of the Crown Lands Alienation Act of 1861 having been complied with.

I have, &c.,

Telegram from Mr. Warden Graham to The Under Secretary for Mines.

Sydney, 16 August, 1877.

Mr. Gaffney applied to me for injunction against Banks and party in the street at Armidale; he produced nothing to support his application. I refused to grant special injunction and told him to make proper application, and give proper notice. I cannot ascertain what his claim is to the land, nor was anything produced by him in defending a criminal action for stealing tin ore off the land in question. One of his party has just been sentenced to eighteen months imprisonment for the offence. Gaffney was acquitted, but not in the evidence of any claim of right to the land. Before I issue injunction I must be satisfied that *bona fide* dispute exist, as Banks and party are leaseholders of the land.

J. B. GRAHAM,
 Warden.

Inform Mr. Leary that the reason assigned by the Warden for refusing to grant an injunction to Gaffney was, that Gaffney applied to him in the street. The Warden says he told Gaffney to make application in proper form.—G.A.L., 16/8/77.

No. 150.

The Clerk of Petty Sessions, Vegetable Creek, to The Commissioner of Conditional Purchases.

Sir,

Vegetable Creek, 18 August, 1877.

Referring to your request contained in letter of 2nd August instant, C.S. 77/26,403, C.P. 77/107 and '108, I do myself the honor to inform you that I personally visited the selections of Messrs. R. Craig and Messrs. Banks and others, and that the improvements on C.P. No. 77,107, measured portions Nos. 22 and 23, parish of Muir, county of Gough, consists of a large excavation for a dam or reservoir for water for mining purposes, and also a building substantially built for tables, both of which are fully worth over £100 sterling.

The improvements or expenditure on C.P. No. 77,108, measured portions Nos. 59 and 60, parish of Landsend, county of Gough, are very extensive mining operations, viz.:—workmen's huts, blacksmith's shop, all substantially erected. Mining shaft sunk to a depth of 33 feet through granite, and a tunnel along the course of the tin lode a distance of about 70 feet. Every foot of driving and sinking had to be blasted by powder, and I should not be exaggerating the expenditure at saying the sum of £600 sterling, had been *bonâ fide* spent in improvements and in mining operations on the abovementioned sections Nos. 59 and 60.

R. P. Abbott Esq., M.P., to The Secretary for Mines.

Sir,

115, King-street, Sydney, 21 August, 1877.

I do myself the honor to request that you postpone hearing of cases to be held by Warden at Vegetable Creek on the 13th instant, with reference to improvements on leases 17,279, 17,280, 12,862, and 12,863, from that day until the first convenient day after the 15th of next month.

My clients, the Gulf Stream Tin Company, owners of leases above-mentioned, only heard this morning by telegram that the 30th instant had been fixed for hearing, and as the course of post to Vegetable Creek will occupy nine or ten days it would be quite impossible for them to ascertain the nature of the proceedings taken, and to instruct their agent by letter as to proceedings on their behalf, and to forward proofs necessary in their interest for production at the hearing.

I have, &c.,

R. P. ABBOTT.

Ask Mr. Warden Graham if he can conveniently postpone the inquiry into the matter of M.L. 17,279 and '80 and 12,862 and '3 to some day after the 15th proximo, without serious injury or inconvenience to the persons who lodged the complaint.—H.W., 21/8/77.

Mr. J. Butchart to The Secretary for Mines.

Sir,

Mort's Chambers, Pitt-street, Sydney, 23 August, 1877.

I am in receipt of your communication 77/5,478, by which I find you have misapprehended my letter to you of the 16th instant.

I have not purchased any interest in mineral leases 17,279-80, but I have purchased an interest in the land which they at present represent.

The validity of these leases as you are aware is disputed by Messrs. Griffiths & Gaffney, who assert a prior right to the ground over Messrs. Banks and party.

It is the half of Griffiths & Gaffney's interest which I have purchased, and which purchase I desire to be registered or noted in any way you may direct in your department.

I have, &c.,

J. HAWKINS BUTCHART.

Inform that his letters, stating that he claims an interest in Griffiths & Gaffney's interest in the land at present held under leases 17,279 and 17,280 by Messrs. Banks and others, are registered, as are all other letters, but no formal registration of an assignment of an interest can be made.—H.W., 24/8/77. Informed, 28 August, /77.

Re expenditure of £5 per acre on blocks 59 and 60, parish of Landsend, and blocks 22 and 23, parish of Muir, county of Gough, for the first three years of issue of lease, 30th July, 1873.

Exhibit marked A.

Mark William Carr, on oath, says: I am manager for the Gulf Stream Company; I hand in a statement of the expenditure made by the company over the land held by them at the Gulf; the blocks 59 and 60, and 22 and 23, form a portion of the land on which the money has been expended of my own knowledge; I know of a large amount of money having been spent on these particulars now named; in mining I estimate there has been 20 tons of tin got from block 59 during the first three years of tenure; I know this of my own experience and knowledge; the average cost of obtaining per ton of tin was £25; I swear positively that the sum of £100 sterling has been spent on block 59; from my own knowledge I have not spent any money on block 60; I now hand in an explanatory letter from the Secretary of the Company, marked exhibit B, to accompany exhibit A; on block 22 a sum of £50 from my own knowledge has been spent; I do not know if any money has been spent on block 23; they are included in the general expense of the management of the Company; the total area of the land was 800 acres; I do not know anything about the Company; men were employed on block 59 when the water lasted, which was sometimes a period of five weeks; I had four or five men employed on block 22; one man was named George Hyndes; I don't remember the others; this was during the first three years of tenure; I prospected for stream tin; the dirt was not carted, but washed in boxes; I had possession of the ground during the first three years; I have no definite idea of the number of men employed on the ground.

Mr. W. Minchall to Mr. Carr.

Dear sir,

Sydney, 6 September, 1877.

I forward with this letter the statement of the expenditure of the Gulf Stream Mining Company, as information for you on the 14th instant.

As Mr. Blair was appointed manager of the mine at the formation of the company, you are aware that a large expenditure was incurred upon the mine before your arrival there; you will find the statement of the same in the accompanying sheet. In 1872, the present shareholders formed themselves into a company for the purpose of taking up tin land, and Mr. Blair was sent up for that purpose as manager. On his arrival at the Gulf the land was taken up and paid for by the company. Some time after the leases were granted when the land was taken up, the company started operations, and horses, carts, tools, and other necessary appliances were sent up from Sydney. Men were engaged and mining operations were commenced on the lower part of the company's ground, and heavy expenses were incurred without any remunerative return. Mr. Buckle, one of the partners went up and stopped at the mine for about four weeks when the Blind Gully was worked on block 59. Mr. Paul, in company with the manager, Mr. Blair, sunk several shafts on blocks 59 and 60, and they felt confident that a lode would be found on one of those blocks. Mr. Paul thinks that they also expended money on blocks 22 and 23; he is quite sure that money was expended on some other blocks, but he cannot state positively what blocks they were without examining the ground. I find that the company has expended the necessary amount of the whole of the blocks taken up by them, but it is impossible for any company to work the whole of the land at one time without incurring needless expense. Every mine must be started at some given point and although the company's land was taken up in the names of the different partners, still it was always understood that each particular selection was the common property of the company. Although the land was taken up by different partners, still the company's money was paid for each selection.

The share list in the company's book will show that all the land was taken up on behalf of the company, and not for each individual shareholder's sole benefit.

The Bank books of the Sydney and Glen Innes Banks will show that the company's cheques were used as payment for the land.

The amount expended on the whole of the blocks for the first three years shows that £5 per acre has been paid, and we are sure that on block 59 has been expended a sum sufficient to cover the blocks now in dispute.

You are aware that all, or the greater part of those men who are making the disturbance about our right to the land were working for us on weekly wages, and some of them worked the mine on tribute under an agreement with us.

We are not aware for certainty what amount they expended on block 59, but we feel assured they must have spent a considerable sum.

I am, &c.,

WILLIAM MINCHALL,

Secretary pro tem.

Sir,

Department of Mines, Sydney, 15 October, 1877.

I have the honor to acknowledge receipt of your letter of the 20th ultimo, transmitting the evidence taken in the matter of Messrs. E. J. Swyny and B. Hart, against the Gulf Stream Tin Mining Company as to the expenditure of money upon the land demised under mineral leases Nos. 17,279, 17,280, and Nos. 12,862/3, and in reference thereto I am directed to inform you that the Secretary for Mines is of opinion that as the purchase of the land has been completed and the Crown grant issued, no action that this department can take in respect of the aforesaid leases can affect the present title of the parties against whom the complaint was made.

Memo. from Mr. Warden Graham to The Under Secretary for Mines.

Warden's Office, Tenterfield, 20 September, 1877.

THE attached documents were handed to Mr. Warden Graham by Mr. Thomas Reynolds, of Vegetable Creek, with a request that they might be forwarded to the Mining Department.

Mr.

Mr. Reynolds states that the sale note made by Gaffney in his favour of 2,000 acres of land at the Gulf includes all land then claimed by him in that locality, and any right that he may have had to blocks 59 and 60.

Vegetable Creek, July 1, 1873.

I HAVE this day sold to Thomas Reynolds the whole of my interest in 2,000 acres of mineral land, situated in county Gough and on the Gulf, Maidenhead and Wellington Vale Run, and have received the sum of £140 sterling from the said Thomas Reynolds in payment for my said interest in the above ground.

JOHN GAFFNEY.

Witness—JAMES HAMILTON.

THIS Indenture, made the tenth day of February, in the year of our Lord one thousand eight hundred and seventy-four, between Conrad Hobein, of the Gulf Tin Mines, in the Colony of New South Wales, tin-miner, of the one part, and James Jackson Rae Gibson, of Reedy Creek, in the Colony aforesaid, Esquire, and Thomas Reynolds, of Vegetable Creek, Esquire, of the other part: Whereas the said Conrad Hobein is interested in and entitled to a share and interest in the mineral lands hereinafter described, with the several persons respectively hereinafter named by virtue of permits to select lands for mineral purposes, issued under the authority of the Crown Lands Occupation Act, and hereinafter more particularly mentioned: And whereas the said Conrad Hobein has agreed to sell all his estate, right, title, and interest in the said lands to the said James Jackson Rae Gibson and Thomas Reynolds, for the sum of eighty pounds: Now, this indenture witnesseth, that in consideration of the sum of eighty pounds, paid by the said James Jackson Rae Gibson and Thomas Reynolds to the said Conrad Hobein, the receipt of which sum is hereby acknowledged, he, the said Conrad Hobein, doth hereby assign, transfer, and set over unto the said James Jackson Rae Gibson and Thomas Reynolds all the estate, right, title, and interest of him, the said Conrad Hobein, in and to all those pieces or parcels of mineral lands containing respectively twenty acres each, being numbers fifty-nine, one hundred and thirty-one, one hundred and thirty-two, situate on Gulf Creek, in the parish of Landsend, county of _____, and also number eighty-nine, situate on Gulf Creek aforesaid, parish of _____, and containing in all eighty acres, more or less, selected by Charles Griffiths, John Brown, John Gaffney, and the said Conrad Hobein, on the seventeenth day of September, one thousand eight hundred and seventy-two; also all the estate, right, title, and interest of him the said Conrad Hobein in and to all those pieces or parcels of mineral lands containing respectively twenty acres each, being numbers eighty-two, eighty-three, eighty-four, eighty-five, eighty-six, eighty-seven, eighty-eight, eighty-nine, ninety, ninety-one, containing in all two hundred acres, more or less, situate on Landsend Creek, in the parish of Landsend aforesaid, selected by the said James Jackson Rae Gibson, John Brown, John Gaffney, and the said Conrad Hobein, on the fourteenth day of October, one thousand eight hundred and seventy-two; also all the estate, right, title, and interest of him the said Conrad Hobein in and to all those pieces or parcels of mineral lands containing respectively twenty acres each, being numbers one hundred and twenty-five, one hundred and twenty-six, one hundred and twenty-seven, one hundred and twenty-eight, one hundred and twenty-nine, one hundred and thirty, one hundred and thirty-one, one hundred and thirty-two, one hundred and thirty-three, one hundred and thirty-four, containing in all two hundred acres more or less, situate on Landsend Creek, parish of Landsend aforesaid, and adjoining the above-mentioned two hundred acres selected by John Brown, John Gaffney, and the said Conrad Hobein, on the eighteenth day of October, one thousand eight hundred and seventy-two: And also all the estate, right, title, and interest of him the said Conrad Hobein in and to all those pieces or parcels of mineral lands containing respectively twenty acres each, being numbers ninety-one, one hundred and ten, situate on Gulf Creek aforesaid, and numbers one hundred and eleven, one hundred and twelve, one hundred and thirteen, one hundred and fourteen, one hundred and fifteen, one hundred and sixteen, one hundred and seventeen, one hundred and eighteen, situate on Landsend Creek, in the parish of Landsend aforesaid, and containing in all two hundred acres more or less, selected by Matthew McCabe, John Brown, John Gaffney, and the said Conrad Hobein, on the twenty-fourth day of October, one thousand eight hundred and seventy-two, to have and to hold unto the said James Jackson Rae Gibson and Thomas Reynolds, their and each of their executors, administrators, and assigns all the estate, right, title, interest, claim, and demand whatsoever of the said Conrad Hobein in, to, and upon the said several pieces or parcels of land and premises, and every part or parts thereof, for all the term and interest of the said Conrad Hobein therein and thereto at or under the rent reserved by and subject to the conditions in the said hereinbefore recited Act contained, and which henceforth, on the part of the said lessees, their and each of their executors, administrators, and assigns, ought to be observed and performed: And the said Conrad Hobein doth for himself, his heirs, executors, and administrators, covenant with the said James Jackson Rae Gibson and Thomas Reynolds, their and each of their executors, administrators, and assigns, that he the said Conrad Hobein now hath good right to assign and transfer all his estate, right, title, and interest aforesaid in and to the said pieces or parcels of mineral land and premises unto the said James Jackson Rae Gibson and Thomas Reynolds, their and each of their executors, administrators, and assigns in manner aforesaid: And that the said James Jackson Rae Gibson and Thomas Reynolds, their and each of their executors, administrators, and assigns shall and may at all times hereafter during the term and interest hereby assigned and transferred, peaceably and quietly possess and enjoy the said estate, right, title, and interest of the said Conrad Hobein in and to the said lands and premises, and receive the profits thereof without any lawful eviction, claim, or demand whatsoever from or by the said Conrad Hobein, his executors, or administrators, or any person or persons lawfully or equitably claiming from under or in trust for him, them, or any of them: And that free and clear from all encumbrances save and except the rent reserved and conditions referred to in the hereinbefore recited Act: And, further, that the said Conrad Hobein, his executors and administrators shall and will from time to time, and at all times hereafter during the term hereby assigned and transferred, at the request and costs of the said James Jackson Rae Gibson and Thomas Reynolds, their or either of their executors, administrators, and assigns, do and execute

execute, or cause to be done and executed, all such acts, deeds, and things whatsoever for further and more perfectly assuring his estate, right, title, and interest in and to the said land and premises unto the said James Jackson Rae Gibson and Thomas Reynolds, their and each of their executors, administrators, or assigns in manner aforesaid as shall or may be reasonably required.

No. 182.

Mr. B. Hart to The Secretary for Mines.

Sir,

Vegetable Creek, 20 September, 1877.

I have the honor to address you in reference to the special Court of Enquiry held by the Warden, J. B. Graham, Esq., at Vegetable Creek, on the 14th instant, the subject matter of inquiry being as to whether the "labour conditions" had been complied with in respect to certain mineral leases, for the forfeiture of which I made application in my last.

I desire to call your attention to the unsatisfactory nature of the inquiry, inasmuch as that while the inquiry was as between the Mines Department and the holders of lease, the whole labour and expense of bringing witnesses to the Court was thrown on myself as a private individual, thus placing me in the position of a prosecutor in a Court in which I had no standing.

The inquiry was upon the complaint of Messrs. Hart and Swyny.

I have to point out that certain papers were received as exhibits in the case, while no evidence was taken to show in what way, or how far they related to the case under inquiry.

Exhibits were admitted for what they are worth.

And also that by a memorandum attached to the depositions by the Warden it will be seen that a number of other witnesses were prepared to give evidence as to the value of work done on the land. The warden, however, ruled that such evidence would be of no value, and that not only should the value of work on the land be considered, but that it would be necessary to take into consideration the cost of cleaning, drying, and bagging the tin, this being a matter known only to those who worked the land, entirely precluded any evidence as to the value of work, and is, I beg to suggest, beyond the intention of the clause referring to labour done on the land, as such interpretation would leave the Department entirely at the mercy of the leaseholders in any enquiry on this subject.

The Act says "Lessees shall expend at the rate of £6 sterling per acre on their lots within the first three years of the lease," but it does not say how he is to spend it.

I have therefore to refer you to my letter of the 3rd July last, and to repeat the request therein contained "that a competent person may be appointed to value the work done, and that evidence be taken if possible on the land as to by whom it was done, and its value."

The land having been purchased, and the Crown grants issued, further inquiry will not give the power to interfere with the title under which the land is now held.

I have further to suggest that it is unfair that the expense of the inquiry held on the 14th instant should be borne by a private individual, and have the honor to request that you will be good enough under the circumstances to order that the expenses of fourteen witnesses be allowed, two days for each witness during the adjournment of the case.

The Government would not have ordered the inquiry but that Messrs. Hart and Swyny asked for it.

I have, &c.,

B. HART,

(Per E. J. SWINY.)

The inquiry was held in consequence of a complaint and request made by the writer, and therefore he is not entitled to payment of expenses. The reception of exhibits would not prejudice the complainants unless they were supported by evidence connecting the statements contained in them with the subject of the inquiry. The Act simply requires that a certain sum per acre shall be expended, but does not specify in what way. The land in question having been converted into a freehold, the Crown grants having issued, it would be of no avail now to consider whether the conditions of the leases have been complied with.—E.A.B., 11/10/77.

Inform.—H.W., 11/10/77.

The Under Secretary for Mines to H. E. Cohen, Esq., M.P.

Sir,

Department of Mines, Sydney, 17 October, 1877.

Referring to the letter presented by you on behalf of Mr. Benjamin Hart, in which he invites attention to the unsatisfactory nature of the inquiry recently held by Mr. Warden Graham as to the fulfilment of the labour conditions of certain mineral leases, I have the honor to point out that such inquiry was held in consequence of a complaint and request made by Mr. Hart, and he is consequently not entitled to payment of expenses, and that as regards the reception of certain exhibits without showing their connection with the case such reception would not prejudice the complainants, unless they were supported by evidence connecting the statements contained in them with the subject of the inquiry, and further, that the Act simply requires that a certain sum per acre shall be expended by lessees, but does not specify in what way it shall be spent.

2. In conclusion I may state that the land in question having been converted into a freehold, and the Crown grants having issued, it would be of no avail now to consider whether the conditions of the leases have been complied with.

Mr. J. Butchart to The Secretary for Mines.

Sir,

Mineral Auction Rooms, Pitt-street, Sydney, 4 February, 1878.

Will you be good enough to inform me whether it is your intention to proceed farther in the investigation of matters in dispute between Griffiths and Gaffney and Banks, Lester, and others, respecting mineral selections 59 and 60?

I have, &c.,

J. HAWKINS BUTCHART.

Inform of decision on 77-6,334, and that there does not appear to be any reason to disturb it.—

The Under Secretary for Mines to Mr. J. Butchart.

Sir,

Department of Mines, Sydney, 13 February, 1878.

Referring to your letter of the 4th instant, inquiring whether it is the intention of this department to proceed further in the investigation of matters in dispute between Messrs. Griffiths and Gaffney, and Messrs. Banks, Lester, and others, respecting portions numbered 59 and 60, in the parish of Landsend, county of Gough, I have the honor to inform you that Mr. Secretary Baker decided that as the purchase of the land has been completed, and the Crown grant issued, no action that this department can take in respect of the leases of the land abovementioned can affect the present title of the parties against whom the complaint was made, and the Minister considers that no reason exists for disturbing that decision.

I have, &c.,

HARRIE WOOD,

Under Secretary for Mines.

No. 191.

Mr. J. Butchart to The Secretary for Lands.

Sir,

Mort's Chambers, Pitt-street, Sydney, 8 March, 1878.

I beg to call your attention to the following case, the circumstances of which show that a grant of certain mineral land at the Waterfall of the Beardy Creek, Gulf District, has been obtained from the Crown in an illegal manner.

On the 16th September, 1872, my clients, Messrs. Griffiths and Gaffney, by mineral selections Nos. 13,917 to 13,932 took possession of 200 acres of land, in ten blocks of 20 acres each, adjoining and situated on the fall of the Beardy Creek, Wellington Vale, and on that day proceeded to erect the huts, &c., necessary for the accommodation of miners, under similar circumstances. These and the general camp were situated upon what is now known as block 59-17,279, and the work of mining for tin ore was at once commenced and carried on until January of the following year, when the local surveyor (Mr. Chard) went upon the ground, and, although warned by my clients that they held the ground under mineral selection, he surveyed it for Messrs. Craig and party, who, it appears, represented to him that their application had been lodged fourteen days prior to that of my clients.

I am prepared to show that every possible step was taken by my clients to maintain their right to the land represented by all their permits. They warned the local surveyor that they were the only occupants. They appealed to the surveyor in charge of the district (Mr. Greaves), against the action of his subordinate and they also represented their position to the Lands Department.

It will be seen on reference to the papers in the case that Mr. Greaves reported favorably to my clients, but that owing to the action of Craig and party, who averred that their selection was for vacant land and made on the 2nd of September, 1872, the Minister decided that "their claim shall be satisfied before that of Griffiths & Co." (*Vide* your letter to Captain Griffiths of 19th May, 1873, 73/3,003.)

I desire to bring forcibly under your notice the fact that the dispute with Craig and party was decided upon the representation that they were the first applicants. That they acquired prior right to three sections, viz., surveyed portions 21, 22, and 23; therefore so far as they were concerned their claim was satisfied by that decision, but it will be seen that after the lapse of years they again reproduce that decision and succeed in transferring it to other land now known as surveyed portions 59 and 60, representing them to be the land originally in dispute.

Such

Such representations is utterly at variance with the facts of the case, which may be briefly stated, thus—

On the 2nd September, 1872, Mr. Robert Craig obtained permits to select three sections each of 20 acres; these permits represent portions—

	21	22	23
Mineral leases—	12,862	12,863	12,864

On the 2nd September, 1872, Mr. John Paul obtained permits to select two sections each of 20 acres, these permits represent portions—

	25	26
Mineral leases—	12,865	12,866

These figures show that Messrs. Craig, Paul, and others (their partners) in the selections have had the whole of the selections of 2nd September, 1872, satisfied, but on the 14th of December of that year their partners Messrs. Banks, Lester, and others obtained permits to select two sections each of 20 acres. These permits represent portions—

59	60
----	----

and are a part of the land claimed by my clients

Mineral leases—	17,279	17,280
-----------------	--------	--------

under their permits, Nos. 13,917, 13,918, 13,919, 13,920, of date 16th September, 1872, and which are still unsatisfied.

For the present it is not intended to question the position of Messrs. Craig and others in relation to sections 21, 22, and 23, as that will form subject for a separate inquiry, but it is necessary to refer to them here, inasmuch as the decision of the Minister for Lands respecting these numbers has been transferred from them and applied to the sections 59 and 60 claimed by my clients.

I beg to refer you to Mr. Surveyor Greaves' report 73/70, and also to the plan accompanying it, showing the land to which, in his opinion my clients were and still are entitled.

The illegality to which I have referred consists in the misrepresentations made respecting the date of selection of sections 59 and 60 by Banks and others, and the application of the circumstances arising out of portions 21, 22, and 23 to portions 59 and 60.

My clients claim the right to portions 59 and 60, of which they have been in possession since September, 1872, until recently. They have expended much money and labor upon the ground; therefore they trust you will investigate the matter as now represented and afford them such relief as you may consider them entitled to.

Griffiths and Gaffney v. Banks and party.

Mines, 23 March, 1878.

MR. Secretary Farnell's minute on 73-6,935 would appear to refer to a previous decision of his respecting portions 59 and 60. I have looked through the papers, but can discover no other decision than that on 73-3,003, in which these particular portions are not mentioned.

On reference to the Register of Leases prepared, I find that five leases were engrossed for Banks and party, portions 59 and 60 (mineral leases 17,279-80) being among the number, and the authority quoted is 73-3,003, which refers to the other three leases, but does not, I think, include 59 and 60.

The Executive minute (73-9,583) approving of the leases is now with the papers, as also 73-6,626, on the back of which is a memorandum by Mr. Lindsay Thompson, dated 15th August, 1873, stating that the leases may be delivered on production of Treasury receipt for fees.

My letter referred to is a very long one to the Minister, respecting a dispute between Griffiths and Gaffney and Banks and others as to two mineral selections at the Gulf.

Sir,

Mort's Chambers, Sydney, 28 March, 1878.

Arising out of the matter contained in my letter to you of the 8th instant, soliciting, on behalf of Messrs. Griffiths and Gaffney, an inquiry into the circumstances connected with the survey of certain mineral selections to Messrs. Banks, Paul, and others, instead of to my clients, I have now the honor to lay before you the facts respecting the survey to Messrs. Craig, Paul, and others of sections—

Surveyed portion...	21	22	23
Mineral selection...	12,864	12,863	12,862

from which it will at once be seen that the description given by these gentlemen in their applications to be allowed to select in no way corresponds with the surveyed portions, which are due east instead of south of Holliman and Smith's 40 acres.

I submit therefore that the grants issued to these gentlemen have been obtained from the Crown in an illegal manner.

The sketch* herewith shows the relative positions of the selections in the vicinity, and the coloured portions are those to which reference is made in the applications of Messrs. Craig and others. *Appendix H.

At the time of survey my clients were in possession of the ground, holding under their selections Nos. 13,917 to 13,932, of the 16th September, 1872. They protested to Surveyor Chard against his surveying to Craig and others, and finding such protest to be useless, they represented their case to the surveyor in charge of the Northern District, Mr. W. A. B. Greaves, to whose report on the subject (73/70) I beg leave to refer you.

The red lines on the sketch indicate the position of the ground to which Griffiths and Gaffney were entitled, according to Mr. Greaves' report, and I now most respectfully submit that the facts show clearly that my clients were entitled to be placed in possession in the first instance. I trust therefore that upon investigation of all the circumstances you will take the necessary measures to place my clients in possession of their several properties.

I hope to have the honor of hearing from you on the subject at your earliest convenience.

Mort's Chambers, Sydney, 10 April, 1878.

I beg to refer you to my letters of the 8th, 20th, and 28th ultimo, and also to the interview with which you honored me on the 5th instant.

I need not urge upon you the importance of having the cases in question dealt with as speedily as possible, as delay might be attended with most serious results to my constituents.

Acting upon your suggestion, I have seen the Under Secretary for Mines and other officers in that department, and have been informed by them that all action there is impeded in consequence of their inability to obtain some necessary papers from the Lands Department. I am also informed that repeated application for these papers has been made by the proper officer in the Mines Department, to enable him to complete the case, before submitting it to the Minister, but that up to this date such papers, or any of them, are not forthcoming.

I complain with very great reluctance, but in this instance am compelled to solicit an inquiry into the cause of the delay which has arisen.

Referring to my letters to you of the 8th, 26th, and 28th ultimo, as well as the 10th instant, respecting the claims of Messrs. Griffiths and Gaffney to certain mineral lands situated in the Gulf district, I desire to add to the statements now before you, that on the 16th of September, 1872, Messrs. Griffiths and Gaffney were the only applicants for mineral selections within the area described by Mr. Surveyor Greaves in his letter to you, 73/70, as being within the red lines attached to that report.

The applications for selections 21, 22, and 23 were for land south of Holliman and Smith's. These sections are east of Craig and Paul's.

The portions 59 and 60 were applied for in December, 1872, while my clients were in possession of the ground, and after Gaffney had shown the richness of the claim.

Decision of The Secretary for Mines.

Department of Mines, Sydney.

I AM requested by the agent (Mr. Butchart) of Messrs. Griffiths and Gaffney to give an opinion upon the merits of the case between Messrs. Griffiths and Gaffney and Messrs. Craig and party, as applicants for mineral leases. It is asserted that Craig and party are in possession of land which should have been granted to Messrs. Griffiths and Gaffney.

Upon a perusal of the papers I find that a previous Ministerial decision has been given. That decision is most clear, and showing upon one principal point in dispute, viz., the survey of the land.

Mr. Farnell, in his decision, says:—"I am of opinion that Craig's selections of September 2nd, 1872, have been measured by Mr. Chard in their correct positions, as shown in his tracing, and are so placed in conformity with the description thereof. Under the circumstances in this case of the fact of these selections being fourteen days prior to Griffiths & Co., should assure their being satisfied before the subsequent selections of Griffiths and Gaffney." I can see no reason for arriving at a decision adverse in any way to that given by the Minister on the 7th May, 1873.

In further reference to the matter of the conflicting claims of Messrs. Craig and party and Messrs. Griffiths and Gaffney respectively to the mineral leases of portions Nos. 59 and 60, at Gulf Creek, I have the honor to inform you that, after careful consideration of the case as set forth in the papers relating thereto, the Secretary for Mines sees no reason for arriving at a decision adverse to that given on the 7th of May, 1873, by Mr. Farnell, when Minister for Lands, which was as follows:—

"I am of opinion that Craig's selections of the 2nd September, 1872, have been measured by Mr. Chard in their correct positions as shown on his tracing, and are so placed in conformity with the descriptions thereof."

I have the honor to acknowledge receipt of your letter of the 8th instant (78/3,178); having reference to sections 59 and 60, at Gulf Creek, and informing me that, after careful consideration, you see no reason for arriving at a decision adverse to that given by Mr. Farnell in 1873, viz., "that Craig's selections of 2nd September, 1872, were measured correctly by Mr. Surveyor Chard."

There is, I submit, a grave error in importing Messrs. Craig and party's names and the survey of their selections into the disputed title by my clients, Messrs. Griffiths and Gaffney, against Banks and party, who hold sections 59 and 60.

My clients claim a prior right to Banks and party—not Craig and party, who are totally unknown to your department so far as sections 59 and 60 are concerned.

I have, &c.,

Respecting the matter in dispute between Messrs. Griffiths and Gaffney and Messrs. Banks, Craig, Paul, and others as to leases, &c., of portions 21, 22, and 23, also 59 and 60, at Gulf Creek, I am in receipt of a communication from the Minister for Mines informing me that he cannot decide respecting 59 and 60, as the papers in the case are not before him. It appears these papers have been mislaid in your department, causing the loss of much valuable time and jeopardizing the interests of my clients, Messrs. Griffiths and Gaffney, who are prevented from moving in the matter outside the Departments of Lands and Mines until the decisions of the Ministers have been obtained. I have therefore the honor to request that you will cause such steps to be taken as will enable me to have the whole cases re-opened in your department.

This is a disputed mineral conditional purchase case between Messrs. Griffiths and Gaffney and Messrs. Craig, Banks, Paul, and others, which should be dealt with in Conditional Sales Branch.—29. The Chief Commissioner.—1.

Mr. Butchart, as Griffiths and Gaffney, claim to be entitled to portions 59 and 60, parish of Landsend, county of Gough, in virtue of a selection thereof by mineral lease prior to that of Banks & Co., the present possessors. Whatever may have been the original merits of this claim it is for purposes of present inquiry sufficient to state that a lease was granted to Messrs. Banks & Co. in 1873, that the land was thereafter conditionally purchased by them in June, 1877, and the balance paid and a grant of the land issued in September, 1877. It is therefore obvious that no action that the Government can take can now affect the title to the land.—A.O.M., 5/8/78.

Mr. J. Butchart to The Secretary for Lands.

Sir,

Sydney, 20 August, 1878.

I have the honor to transmit herewith for your information, copy of a letter received from the Minister for Mines, dated the 14th instant, by which it will be seen that the papers referring to portions 59 and 60 at Gulf Creek are wanting, and that he was therefore "unable to give a decision respecting such portions."

It

It appears that while the case was under consideration by the Minister for Mines application was repeatedly made to your department for the missing documents necessary to the proper investigation of the conflicting claims of Messrs. Griffiths and Gaffney, and Banks and others, but that up to the date when the case was transferred to your department, these missing papers could not be found.

I most respectfully submit that upon production of the various official documents, beginning with the permit to select, and ending with the grant to Messrs. Banks and others, it will at once be seen that the decision in favor of these gentlemen (*vide* your letter 73/3,003 of 19th May, 1873) did not refer to portions 59 and 60, but had special reference to portions 21, 22, and 23.

My clients, Griffiths and Gaffney, selected portions 59 and 60 on the 16th September, 1872.

Banks and party obtained the Crown grant to portions 59 and 60, by virtue of their selection of 14th December, 1872; consequently no decision based upon prior selections to that of my clients could have reference to the case.

My clients claim portions 59 and 60, and aver that on the 16th of September, 1872, they were the only applicants for these blocks.

For full particulars of the position I beg to refer you to my letters to you of the 8th, 20th, and 28th March, and the 10th and 30th April last.

I trust you will cause an immediate search to be made, as my client's interest is seriously affected by the continued delay in having their interest properly represented to you.

The Under Secretary for Mines to Mr. J. Butchart.

Sir,

Department of Mines, Sydney, 14 June, 1878.

I have the honor to acknowledge receipt of your letter of the 10th instant, to the effect that your clients Messrs. Griffiths and Gaffney claim to be entitled to the leases of portions 59 and 60 at Gulf Creek as against Messrs. Banks and party, and in reference thereto I am directed by the Secretary for Mines to inform you that he is unable to give a decision respecting such portions of land, as the papers in the case are not before him.

I have, &c.,

HARRIE WOOD,

Under Secretary for Mines.

The parties herein had an interview with the Minister, and have been requested to indicate officially what steps they propose that the Government should take in the case as at present stands.—A.O.M., 29.

The only papers not with the accompanying are certain applications of Blair's dated 14th December, 1872. The case is complete without them—even if it be assumed that they were the applications for 59 and 60 under which the leases of these portions were adjudged and issued to Banks and party.

As to the merits it is certain that the decision of Mr. Farnell, dated 7th April, 1873, was written upon a letter from Mr. Jasper Blair (leases 3,003), in which he specially claims portions 59 and 60, and alleges that these portions were neither claimed nor occupied by Griffiths and Gaffney until after Mr. Chard's survey. Whatever the allegation may have been worth, it shows that this part of the claim was then prominently under notice, and the decision, though not naming 59 and 60 in the earlier part, directly expresses approval of Mr. Chard's survey, which showed 59 and 60 as measured for Craig & Co. To make the matter clearer, in the enclosed memo., written by the Minister while the case was fresh in his mind, viz., on the 29th August, 1873, he states that the decision was against Griffiths and Gaffney for portions 59 and 60. If therefore a re-consideration of the case could now lead to any practical result, sufficient has been stated to show that that re-consideration must be of the merits of a question decided by the Minister on its merits five years ago. But it has been already pointed out that the leases having been granted pursuant to that decision, and the land having subsequently been conditionally purchased and the grant issued, whatever might be the result of an appeal to the Supreme Court or its Equity Jurisdiction as between the parties, the present application to the Government for reconsideration of the case is an idle one which can have no practical result.

At the interview which the Minister had with Mr. Butchart upon the case it was suggested that it should be indicated what action the Government was asked now to take in the case. This has not been done, and I can only repeat the suggestion with the view of bringing the matter to its practical bearings.—A.O.M., 27/8/78. Mr. Butchart, 5th September, 1878.

The Chief Commissioner of Conditional Purchases to Mr. J. Butchart.

Sir,

Department of Lands, Conditional Sales Branch, 5 September, 1878.

Referring to your letter of the 20th ultimo, respecting the conflicting claims of Griffiths and Gaffney, and Banks and party, to portions 59 and 60, parish of Landsend, county of Gough, I am to point out that at your recent interview with the Secretary for Lands it was suggested that as the land in dispute had been leased to Banks and party in 1873, and subsequently converted by them into a mineral conditional purchase, the conditions of which have been fulfilled and the deed of grant thereof issued, you should indicate the particular action the Government is asked to take, or that is open to be taken in the case, even assuming that the merits could now be reconsidered; and I am to request that you will be good enough to comply with this suggestion.

Mr. J. Butchart to The Secretary for Lands.

Sir,

Mort's Chambers, Pitt-street, Sydney, 12 September, 1878.

In reply to your letter 78/4,249 of the 5th instant, I have to state that being fully impressed with the conviction that an injustice has been done Messrs. Griffiths and Gaffney in regard to sections 59 and 60, parish of Landsend, county of Gough, I am desirous that the merits of the case should be reconsidered by the Secretary for Lands (all the papers in any way relating to the matter being before him), and on my being informed of his decision after such reconsideration, I will then be in a position to indicate the particular action, if any, I wish the Government to take in the case.

I have, &c.,

J. HAWKINS BUTCHART.

It has been already pointed out that the case has long passed beyond the stage at which its reconsideration could lead to any practical result, and as the applicant is not prepared to indicate, as he was invited to do, what action, if any, he considers to be open, I can only submit that the matter should not be re-opened.—A.O.M., 11/10/78. Mr. R. Craig's Mineral Lease.

(No. 12,862.)

LEASE FOR MINING PURPOSES.

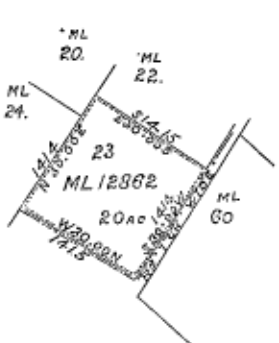

Victoria, by the Grace of God, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith, and so forth.

To all to whom these presents shall come, greeting :

WHEREAS Robert Craig, in our Colony of New South Wales, hereinafter called the lessee, became under and by virtue of the "Crown Lands Occupation Act of 1871," and the Regulations made thereunder, entitled on the second day of September, in the year of our Lord one thousand eight hundred and seventy-two, to a lease of the lands hereinafter described, at the yearly rent hereinafter reserved, and subject to the terms, conditions, exceptions, and provisos hereinafter mentioned, for the term of thirteen years and one hundred and twenty-one days from that date; for the purpose of mining thereon for any metal or mineral excepting gold, and hath duly paid into the office of the Colonial Treasury in the said Colony, all rent due in respect of the said lands to the thirty-first day of December next, and the Governor of our said Colony, with the advice of the Executive Council thereof, hath therefore consented to grant to the lessee a lease of the said lands for the residue yet to come of the said term: Now know ye, that in consideration of the premises, of the rent so paid as aforesaid, and of the yearly rent, covenants, provisos, and agreements hereinafter reserved and contained on the part of the lessee, his executors, administrators, and assigns to be paid, observed, and performed, we do hereby for us, our heirs, and successors, demise and lease unto the lessee, his executors, administrators, and assigns, all that parcel of land containing by admeasurement twenty acres, be the same more or less, which is particularly described in the Schedule hereinafter written, with free liberty for the lessee, his executors, administrators, and assigns, to dig, sink, drive, make, and use all such pits, shafts, levels, watercourses, and other works which may be necessary for obtaining all ores and minerals therein contained, except gold, and to use the said land or any part thereof either under ground or on the surface in such manner as may be proper and requisite for making search for and obtaining the said ores and minerals: Saving and reserving always unto us, our heirs and successors, and unto the Governor or Officer for the time being administering the Government of our said Colony, the right and power of taking without compensation to the lessee, his executors, administrators, or assigns, such parts of the said land hereby demised as may be required for the sites of churches, schools, parsonages, or any public buildings, or for the establishment and construction of high roads, railways or railway stations, and tramways, and all necessary approaches thereto: And also saving and reserving unto us, our heirs and successors, and to the Minister for Lands for the time being of our said Colony, and any person or persons authorized by him, the right to enter upon the said land or any part thereof without compensation to the lessee, his executors, administrators, or assigns, and to cut, dig, and remove all timber, stone, gravel, earth, or other material in or upon the said land which shall be required for any public purpose; and also reserving unto us, our heirs, and successors, and unto the Secretary for Lands of our said Colony, and to any and every person or persons hereafter appointed by him in that behalf, free liberty at all times during the continuance of this demise to enter into and upon the land hereby demised, and all mines and works therein or thereon, in order to view and examine the condition thereof: To have and to hold the said lands and mines, and all and singular other the premises hereinbefore mentioned and hereby demised, with the appurtenances, unto the lessee, his executors, administrators, and assigns, from the date hereof for and during the full term of twelve years and one hundred and fifty-five days from thence next ensuing, and fully to be complete and ended, subject to the reservations, conditions, exceptions, and provisos herein mentioned: yielding and paying therefor unto us, our heirs, and successors, yearly and every year hereafter, during the continuance of this lease, the clear rent or sum of five pounds sterling, by yearly payments thereof in advance, during the month of September in each and every year, into the hands of our Colonial Treasurer for the time being, at the Treasury in Sydney, in our said Colony; the first of such payments, after the issue of these presents, to be made on or before the thirtieth day of September now next ensuing, being the payment in advance of the rent for the year ending the thirty-first day of December, in the year of our Lord one thousand eight hundred and seventy-four: Provided always, and these presents are upon the conditions following (that is to say):—Upon condition that the lessee, his executors, administrators, or assigns, shall well and truly pay or cause to be paid unto us, our heirs, and successors, the rent hereby reserved when the same shall become payable in the manner hereafter appointed for that purpose, and do and shall within three years from the said second day

day of September, in the year of our Lord one thousand eight hundred and seventy-two, expend upon the said land hereby demised in and about mining thereon, a sum or sums of money amounting on the whole to not less than five pounds sterling money per acre of the lands hereby demised: And that the lessee, his executors, administrators, or assigns shall not remove, dig, sink for gold in or upon, or otherwise endeavour to obtain gold, from the lands hereby demised, or any part thereof: And that if default shall be made by the lessee, his executors, administrators, or assigns, in payment of the rent hereby reserved, or of any part thereof, and the same shall be in arrear and unpaid after the thirtieth day of September in any year during the continuance of this demise, or if the lessee, his executors, administrators, or assigns shall at any time or times make, do, cause, permit, or suffer any breach of the conditions, provisoes, or agreements herein contained, and on the part of the lessee, his executors, administrators, or assigns, to be observed or performed, it shall be lawful for us, our heirs, and successors, or for the Governor or Officer for the time being administering the Government of our said Colony, or any person authorized by him or them in that behalf, to enter upon the lands hereby demised, or any part thereof, and therefrom to remove the lessee, his executors, administrators, or assigns, and all occupiers thereof, and the demise hereby made and all rights of the lessee, his executors, administrators, or assigns, hereunder, shall upon such entry cease and be void: Provided also, and it is hereby declared and agreed, that it shall be lawful for the lessee, his executors, administrators, or assigns, at any time to determine this present demise by giving to the Minister for Lands for the time being of our said Colony three months' notice in writing of his intention so to do, but that in case this demise shall be so terminated by the lessee, his executors, administrators, or assigns, no portion of the rent which shall have been paid in advance in respect of the said lands shall be repaid to the lessee, his executors, administrators, or assigns: Provided also, and it is hereby further declared, that upon application in writing to the Minister for Lands for the time being of our said Colony, by the lessee, his executors, administrators, or assigns, during the thirteenth year of the term mentioned in this lease, the lessee, his executors, administrators, or assigns, shall be entitled to a renewal of the same for a further period not exceeding fourteen years, upon payment of a fine or premium for or in respect of such renewal, of not less than two pounds ten shillings per acre of the lands hereby demised, and that the amount to be paid for such fine or premium for renewal shall be determined by appraisalment as provided in and by the said Act, upon which appraisalment full and particular information in every respect of the working of, and return obtained from, the mine or mines upon the said lands hereby demised, shall be afforded to the appraisers by the lessee, his executors, administrators, or assigns, under the penalty of forfeiting all right or claim to renewal; it being hereby expressly declared that if the lessee, his executors, administrators, or assigns, shall fail to give such information to the appraisers upon the said appraisalment, or shall give untrue or inaccurate information with respect to the matters aforesaid, no renewal of the lease of the said lands or of any part thereof shall be granted to the lessee, his executors, administrators, or assigns: Provided also, and it is hereby further declared and agreed, that if the demise hereby made shall be terminated by forfeiture, or shall not be renewed after the expiration of the term hereby granted, the lessee, his executors, administrators, or assigns, shall be at liberty, within six months from the termination of this lease, to remove or otherwise dispose of all machinery and movable improvements upon the lands hereby demised, and also all the minerals brought to the surface during the term of this lease.

Mr. R. Craig's Mineral Lease.

(No. 12,863.)

LEASE FOR MINING PURPOSES.

Victoria, by the Grace of God, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith, and so forth.

To all to whom these presents shall come, greeting:

WHEREAS Robert Craig, in our Colony of New South Wales, hereinafter called the lessee, became under and by virtue of the "Crown Lands Occupation Act of 1861," and the Regulations made thereunder, entitled on the second day of September, in the year of our Lord one thousand eight hundred and seventy-two, to a lease of the lands hereinafter described, at the yearly rent hereinafter reserved, and subject to the terms, conditions, exceptions, and provisoes hereinafter mentioned, for the term of thirteen years and one hundred and twenty-one days from that date, for the purpose of mining thereon for any metal or mineral excepting gold, and hath duly paid into the office of the Colonial Treasury in the said Colony, all rent due in respect of the said lands to the thirty-first day of December next. And the Governor of our said Colony, with the advice of the Executive Council thereof, hath therefore consented to grant to the lessee a lease of the said lands for the residue yet to come of the said term: Now know ye, that in consideration of the premises, of the rent so paid as aforesaid, and of the yearly rent, covenants, provisoes, and agreements hereinafter reserved and contained on the part of the lessee, his executors, administrators, and assigns, to be paid, observed, and performed, we do hereby for us, our heirs and successors, demise and lease unto the lessee, his executors, administrators, and assigns: All that parcel of land containing by admeasurement twenty acres, be the same more or less, which is particularly described in the schedule hereinafter written, with free liberty for the lessee, his executors, administrators, and assigns, to dig, sink, drive, make, and use all such pits, shafts, levels, watercourses, and other works which may be necessary for obtaining all ores and minerals therein contained, except gold, and to use the said land or any part thereof either underground or on the surface in such manner as may be proper and requisite for making search for and obtaining the said ores and minerals: Saving and reserving always unto us, our heirs and successors, and unto the Governor or officer for the time being administering the Government of our said Colony, the right and power of taking, without compensation to the lessee, his executors, administrators, or assigns, such parts of the said land hereby demised as may be required for the sites of Churches, schools, parsonages, or any public buildings, or for the establishment and construction of highroads, railways, or railway stations, and tramways, and all necessary approaches thereto: And also saving and reserving unto us, our heirs and successors, and to the Minister for Lands for the time being of our said Colony, and any person or persons authorized by him, the right to enter upon the said land or any part thereof without compensation to the lessee, his executors, administrators, or assigns, and to cut, dig, and remove all timber, stone, gravel, earth, or other material in or upon the said land which shall be required for any public purpose; and also reserving unto us, our heirs, and successors, and unto the Secretary for Lands of our said Colony, and to any and every person or persons hereafter appointed by him in that behalf, free liberty at all times during the continuance of this demise to enter into and upon the land hereby demised, and all mines and works therein or thereon, in order to view and examine the condition thereof: To have and to hold the said lands and mines, and all and singular other the premises hereinbefore mentioned and hereby demised, with the appurtenances, unto the lessee, his executors, administrators, and assigns, from the date hereof, for and during the full term of twelve years and one hundred and fifty-five days from thence next ensuing, and fully to be complete and ended, subject to the reservations, conditions, exceptions, and provisoes herein mentioned: Yielding and paying therefor unto us, our heirs, and successors, yearly and every year hereafter, during the continuance of this lease, the clear rent or sum of five pounds sterling, by yearly payments thereof in advance, during the month of September in each and every year, into the hands of our Colonial Treasurer for the time being, at the Treasury in Sydney, in our said Colony; the first of such payments, after the issue of these presents, to be made on or before the thirtieth day of September now next ensuing, being the payment in advance of the rent for the year ending the thirty-first day of December, in the year of our Lord one thousand eight hundred and seventy-four: Provided always, and these presents are upon the conditions following (that is to say), upon condition that the lessee, his executors, administrators, or assigns, shall well and truly pay or cause to be paid unto us, our heirs and successors, the rent hereby reserved when the same shall become payable in the manner hereafter appointed for that purpose, and do and shall within three years from the said second day of September, in the year of our Lord one thousand eight hundred and seventy-two, expend upon the said land hereby demised, in and about mining thereon, a sum or sums of money amounting on the whole to not less than five pounds sterling money per acre of the lands hereby demised: And that the lessee, his executors, administrators, or assigns, shall not remove, dig, sink for gold in or upon, or otherwise endeavour to obtain gold, from the lands hereby demised, or any part thereof: And that if default shall be made by the lessee, his executors, administrators, or assigns, in payment of the rent hereby reserved, or of any part thereof, and the same shall be in arrear and unpaid after the thirtieth day of September in any year during the continuance of this demise, or if the lessee, his executors, administrators, or assigns, shall at any time or times make, do, cause, permit, or suffer any breach of the conditions, provisoes, or agreements, herein contained, and on the part of the lessee, his executors, administrators, or assigns, to be observed or performed, it shall be lawful for us, our heirs and successors, or for the Governor or officer for the time being administering the Government of our said Colony, or any person authorized by him or them in that behalf, to enter upon the lands hereby demised, or any part thereof, and therefrom to remove the lessee, his executors, administrators, or assigns, and all occupiers thereof, and the demise hereby made, and all rights of the lessee, his executors, administrators, or assigns, hereunder shall, upon such entry, cease and be void: Provided also, and it is hereby declared and agreed, that it shall be lawful for the lessee, his executors, administrators, or assigns, at any time to determine this present demise by giving to the Minister for Lands for the time being of our said Colony, three months notice in writing of his intention so to do, but in that case this demise shall be so terminated by the lessee, his executors, administrators, or assigns, no portion of the rent which shall have been paid in advance in respect of the said lands shall be repaid to the lessee, his executors, administrators, or assigns: Provided also, and it is hereby further declared, that upon application in writing to the Minister for Lands for

for the time being of our said Colony, by the lessee, his executors, administrators, or assigns, during the thirteenth year of the term mentioned in this lease, the lessee, his executors, administrators, or assigns, shall be entitled to a renewal of the same for a further period not exceeding fourteen years, upon payment of a fine or premium for or in respect of such renewal, of not less than two pounds ten shillings per acre of the lands hereby demised, and that the amount to be paid for such fine or premium for renewal shall be determined by appraisal, as provided in and by the said Act, upon which appraisal full and particular information in every respect of the working of, and return obtained from, the mine or mines upon the said lands hereby demised, shall be afforded to the appraisers by the lessee, his executors, administrators, or assigns, under the penalty of forfeiting all right or claim to renewal; it being hereby expressly declared that if the lessee, his executors, administrators, or assigns, shall fail to give such information to the appraisers upon the said appraisal, or shall give untrue or inaccurate information with respect to the matters aforesaid, no renewal of the lease of the said lands or of any part thereof shall be granted to the lessee, his executors, administrators, or assigns: Provided also, and it is hereby further declared and agreed, that if the demise hereby made shall be terminated by forfeiture, or shall not be renewed after the expiration of the term hereby granted, the lessee, his executors, administrators, or assigns, shall be at liberty, within six months from the termination of this lease, to remove or otherwise dispose of all machinery and movable improvements upon the lands hereby demised, and also all the minerals brought to the surface during the term of this lease.
