PATRIOTIC FUNDS (See also "ADJOURNMENT") :—				
Adjourment moved (<i>Mr. Carmichael</i>) under the 49th Standing Order to discuss the advisability of Government taking action to guarantee that moneys subscribed by the public to relief funds should be expended on the purposes for which they were subscribed.— <i>Point of Order</i> —That this motion anticipated a Debate already set down for discussion on the Business Paper—overruled by Mr. Speaker, 215-6.

SPEAKER (continued):—				
Informs the House that efforts had been made to obtain conclusive evidence of death in action at the Dardanelles of Lieutenant-Colonel G. F. Braund and Sergeant E. R. Larkin, 82.				
Informs the House of proposed Lecture by Mr. C. C. Reade, Lecturer of the Garden Cities and Town-planning Association, and tests House as to whether he should leave the Chair from 6 o'clock until 8 o'clock, 128-9.				
Calls attention to Legislative Council's amendments in Bills, as infringing the privileges of the Legislative Assembly, 223, 430.				
Calls attention to the fact that the front Ministerial Bench was entirely for Cabinet Ministers—during Question time Members should be unimpeded as far as possible by interviews, 251.				
Authorised to place within the Chamber a fitting Memorial to memory of Lieutenant-Colonel G. F. Braund and Sergeant Edward Rennix Larkin, 83.				
Unveils Permanent Memorial to memory of Lieutenant-Colonel G. F. Braund and Sergeant E. R. Larkin, 257.				
Directs Acting Clerk to read Report from Committee of Elections and Qualifications, 167.				
Refers to presence of Honorable Member for Darling Harbour, Mr. Cochran, in the Chamber, and reads extract from Votes and Proceedings relative to his suspension, 433; again refers to Mr. Cochran's presence and asks for an apology; Honorable Member refused; adjudged guilty of contempt and suspended for remainder of session, 434.				
RULINGS OF:—				
✓ That it was a matter of custom for notice of motion to be given by any Member having relation to the introduction of Bills, before the House had disposed of the Address in Reply, 8.				
✓ That it was questionable whether the Parliamentary Standing Committee on Public Works had power to dictate the policy by which any work should be carried out, whether by butty gang system, day labour, or contract, 39.				
✓ That it was quite competent for the Chairman of Committees, appointed in a previous Session, to act as Chairman without any formality as he was Chairman until a motion dealing with the Office for the Session had been dealt with, 51.				
✓ That an amendment to add words "and the House of Representatives" to a motion to amend the Constitution of the Commonwealth of Australia to provide for representation of the States in the Senate, according to a population basis, was irrelevant, and was therefore out of order, 59.				
✓ That Statutes had been passed by this House in which the Crown had been held amenable to the law—there was power under the Constitution Act to bind the Crown; therefore the provisions of clause 3 of the Fair Rents Bill were in order, 114.				
That as the result of an amendment, in the Military and Naval Hospital Home Bill, leaving out the words "wounded during the present war," the scope of the Bill was perhaps slightly widened, though the object was not changed, and there had been no great infraction of the 46th section of the Constitution Act, 103.				
✓ That a motion respecting the expunging of any matter from the Records of the House could be put directly to the House, without notice by concurrence, 120.				
✓ That the House, having decided that the word "nine" should stand in an amendment to a motion to fix the hours for the closing of hotels, it was competent to test the House on another hour—notice of which amendment had been indicated, 131.				
✓ That the Valuation of Land Bill (No. 2) did not exceed the Order of Leave, which was very wide and definite,—clause 64 was well within the Order of Leave which definitely set forth an amendment of the Stamp Duties Act, 134.				
✓ That the question as to the Position of Business interrupted by Sessional Order giving precedence of Government Business after 6.30 o'clock having arisen, he would, in future, when the moment of interruption arrived, take the Debate as adjourned by the Sessional Order, and the Member in charge of the Business would be required to name the date for the resumption of the Debate, 157, 158.				
✓ That the motion for adjournment under the 49th Standing Order respecting the moneys subscribed by the public to the various Relief Funds was all-embracing, the matter already set down on the Business Paper, to which reference had been made was specific,—the motion was in order, 216.				
✓ That the motion for adjournment under the 49th Standing Order, respecting the critical state of the North Sydney and the St. Leonard's-Hornsby Railway Suburbs Water Supply and Sewerage System, would anticipate discussion, which could take place in Committee of Supply or of Ways and Means, in view of the fact that the Estimates of Expenditure for 1915-16 had already been Tabled, 221.				
✓ That motion for adjournment under the 49th Standing Order, respecting the proposal for transporting this season's Wheat, &c., would not anticipate Debate on Notice of Motion already on the Notice Paper, 227.				
✓ That the motion for the adjournment under the 49th Standing Order, respecting certain alleged utterances by Mrs. Gordon Wesche, an executive member of the Red Cross Society, with regard to the execution of Nurse Cavell, was of definite urgent public importance and of recent occurrence, the Society had charge of a large sum of money subscribed by the public and the administration of the fund became a matter of public criticism—and was therefore in order, 230.				
✓ That the Public Accountants Bill was not out of order and did not affect trade. This Bill was on all fours with the Medical Practitioners Bill, which was sought to be ruled out of order in 1902, on that occasion Mr. Speaker McCourt held that the word "trade" applied to the interchange of commodities in the way of business and not to the admission of persons to practice the medical profession, 238.				
✓ That the Notice of Motion respecting alleged guarding of premises of Herr Sabiel would be permitted to appear on Notice Paper if the motion was in accord with the Standing Order. The Honorable Member giving Notice would be responsible for the veracity of the statements that might appear therein, 251.				
✓ Referring to a previous Notice of Motion respecting Police Protection of a shop in Hunter-street (Herr Sabiels') (which formed the subject of a ruling on 24th November) Mr. Speaker further stated reasons for giving his previous ruling by allowing the Notice to appear on the Business Paper, 253-4.				
✓ That the Notice of Motion for adjournment under the 49th Standing Order respecting excessive charge to be debited against wheat-growers for receiving, handling, and placing their wheat for shipment, f.o.b., could be discussed under the Estimates—Department of Agriculture, and was therefore out of order, 252.

S				
SPEAKER (continued) :—				
RULINGS OF (continued) :—				
✓ He did not feel disposed to rule the Commonwealth Powers (War) Bill out of order. If it had the constitutional blemishes that were represented there was a power much more highly qualified than he was to rectify any error that may have been committed, 293.				
✓ That the item "Housing Board—For the purchase or resumption of land, £50,000," in the Loan Bill was in order, as this amount was portion of a scheme which was submitted on two items, 300.				
✓ That the item "Agriculture—For the promotion of Agriculture, Agricultural Colleges, and Experiment and Demonstration Farms, £50,000" was in order, as the amount which consisted of sums which did not in any instance exceed £30,000, the provisions of the Public Works Act were not infringed, 300.				
✓ That the item "Agriculture—Purchase of Site for Horse-breeding Farm and Improvements, £60,000," was in order, as this was not a work within the meaning of the Public Works Act, 300.				
✓ That the Naturalised Subjects Franchise Bill was not <i>ultra vires</i> —this State was entirely within its rights in making the discrimination proposed in the Bill—the Bill was in order, 355.				
✓ That the Grain Elevator Bill was before the House in consequence of a resolution rescinding the motion referring the subject to the Public Works Committee; two precedents were available, showing that a Minister could take away from a statutory body a work already entrusted to it, 369-70.				
✓ Referring to the Point of Order regarding a second Urgency Motion under Standing Order 395 for the introduction of the Totalizator Bill that the question had already been decided, Mr. Speaker said the word "question" was one which required to be defined. All questions in "May," where the words "the same in substance" were used were questions of some concrete character—not a matter of urgency, but specific questions; an Honorable Member speaking on the question of urgency is specifically under the Standing Orders precluded from referring to the essence of the question which he wished at a later stage to debate,—the motion was in order, 402.				
✓ The matter of Privilege raised by an Honorable Member in regard to a certain judgment of the High Court having reference to the Honorable Member for Paddington, Mr. Osborne, had already been discussed this session, and was out of order, 406-7.				
✓ That it was in order to discuss a motion for adjournment under the 49th Standing Order, in reference to deviations on the Dubbo-Werris Creek Railway line between Merrygoen and Binnaway, as certain facts which might be submitted now were perhaps not available when the Estimates were under discussion, 416.				
MOTION OF CENSURE ON :—				
That the notice of motion in the name of the Honorable Member for Albury (<i>Mr. Cusack</i>) was of a multiplex character, and had brought in foreign matter in regard to some alleged observance of neutrality by the Government in connection with the Willoughby by-election, and was therefore out of order, 175.				
DEPUTY SPEAKER :—				
Gives casting vote, 63 (?), 393.				
Orders removal of Member from Chamber by Serjeant-at-Arms, 213, 430.				
Directs Member to discontinue his speech, 349, 416.				
Member "named" by, 430.				
✓ That the insertion of the words "close all houses for the sale of intoxicating liquor after 6 o'clock p.m." was irrelevant to the question for a Referendum to be taken as to the advisability of curtailing hours for sale of intoxicating liquor after 6 o'clock p.m., and was therefore out of order, 68.				
✓ That no question or motion could be submitted which would raise the same debate as one which had already taken place in the current Session; the motion under review asked for an expression of opinion as to the earlier closing of hotels, a previous motion sought for the taking of a Referendum. The motion was in order, 129.				
✓ That the Trustees Delegation of Powers Bill gave additional powers to Trustees; did not restrict the powers in any way, and was in order, 172.				
✓ An Honorable Member proceeding to raise a question of Privilege in regard to the Honorable Member for Paddington, Mr. Osborne, during the motion for suspension of the Standing Orders, in regard to the introduction of the Totalizator Bill, could intervene at that stage and proceed, but the Point of Order submitting that the privilege motion had not suddenly arisen, as was contemplated in Standing Order No. 158, and further, this question had already been discussed some time ago, were facts which were fatal to the privilege motion, 403.
