2. The Principal Act is amended by omitting section seventeen and by inserting in lieu thereof the following new section:—

Withdrawal
for the pur-
pose of pro-
viding for
settlement.

17. (1) The Governor, after report by the Commissioners, may withdraw any lands held under lease, other than a lease extended to a lease in perpetuity, whenever it may be deemed expedient so to do for the purpose of providing for settlement, and every such withdrawal shall be notified in the Government Gazette and a local newspaper.

(2) All lands withdrawn from lease under this section shall be disposed of under the provisions of this Act.

(3) The lands which may be withdrawn under this section shall not exceed one-eighth of the area of the lease, and any withdrawal made under the provisions of the section which this section replaces, shall be deemed for the purposes of this section to be a withdrawal under this section.

(4) Where two or more leases whether adjoining or not are held in the same interest and are, in the opinion of the Commissioners, reasonably capable of being worked as one holding, the total area of such leases or of any two or more of such leases may be regarded as the area from which withdrawal may be made under this section, and subject to this section withdrawal may be made from any one or more of such leases. In calculating the total area of such leases, the area of any lease from which withdrawal has been made or deemed to have been made shall not be taken into consideration.

Where the carrying capacity of the leases within the holding or of the two or more of such leases from which the withdrawal is to be made, is not uniform, the land which may be withdrawn under this section shall not exceed in carrying capacity one-eighth of the aggregate carrying capacity of all the leases within the holding, or of the two or more leases from which the withdrawal is to be made.

Where

Western Lands (Amendment).

Where the right of withdrawal has been exercised in full in respect of the leases within such a holding the withdrawal shall be deemed to be a withdrawal from each and every lease within the holding.

Where the right of withdrawal has been exercised only in respect of some of the leases within such a holding the withdrawal so made shall be deemed to be a withdrawal from each and every such lease.

(5) As compensation for withdrawal under this section the Governor shall, after report by the Commissioners, extend the term of any lease from which withdrawal has been made or deemed to have been made, but in no case shall the term be extended by more than six years.

(6) Where the whole of the land within any lease is withdrawn in pursuance of this section, the liability of the lessee for payment of rent shall cease as from the date of such withdrawal.

Where part of the land held under a lease is so withdrawn the rent for the succeeding years of the lease shall be reduced in proportion to the area withdrawn, and the conditions of the lease during any extended term shall otherwise be the same as immediately prior to the commencement of such extension.

(7) After the exercise of such power the land so withdrawn shall remain under preferential occupation license to the lessee at the same rent per acre as the lease from which the land was withdrawn.

(8) Upon the disposal of any land so withdrawn the lessee shall be entitled to tenant-right as hereinafter provided in all improvements effected or paid for by him on such land.

(9) Any land surrendered prior to the commencement of the Western Lands (Amendment) Act, 1932, in pursuance of any agreement made between the Minister and the holder of any lease of land in the Western Division whereby any lease under the provisions of this Act was, in consideration of the surrender by the lessee of the whole or part of a
lease

Western Lands (Amendment).

Lands held under annual lease, preferential occupation license, occupation license or permissive occupancy (where such permissive occupancy at the date of the granting of the application under this section has not more than one year to run) shall not be taken into account for the purpose of ascertaining a home maintenance area;

(c)

Western Lands (Amendment).

(c) an application shall not be granted in respect of such part of the land comprised in the lease as is—

(4) Where an application under subsection one of this section has been granted as to part only of the land comprised in the lease—

term

Western Lands (Amendment).

In

Western Lands (Amendment).

In arriving at the area which would be sufficient for this purpose due regard shall be paid to the situation of the land and the average carrying capacity thereof.

(8) Where the applicant is the holder of lands elsewhere than in the Western Division the average capacity for the purpose of determination of a home maintenance area in such case shall be the average carrying capacity of all the lands held.

(9) Where the lands of the applicant are entirely within the Western Division and are in the opinion of The Western Land Board of New South Wales best adapted for grazing—

(a) a home maintenance area where the holding consists of one parcel only and some part thereof is distant not more than forty miles from a railway trucking yards, shall be an area (in this subsection called the "standard area") which when reasonably improved will carry—

- (b) a home maintenance area, where the holding consists of one parcel only, and the distance from the nearest railway trucking yards to the nearest part of such holding is more than forty miles, shall be the standard area, together with an additional area of land for each twenty miles or part thereof by which such distance exceeds forty miles, sufficient to carry one-twentieth of the number of sheep specified in subparagraph (i) to subparagraph (xi) of paragraph (a) of this subsection;
- (c) a home maintenance area, where the holding consists of more than one parcel, shall be determined according to the following provisions:—
