20 the State of South Australia.

25 (7) The States of New South Wales and Victoria shall each have the full use during a declared period of restriction of all tributaries of the River Murray within their respective territories below Albury, and shall have the right to divert, store and use the flows thereof and the right below the confluence with the River Murray of any such tributary to use each month in a declared period of restriction from the River Murray, in addition to the share of the available water to which each of the said States is respectively entitled under sub-clause (6) of this clause

River Murray Waters (Amendment).

(12) During any month in a declared period of restriction, if the Commission decides that the flow or prospective flow of the River Murray downstream of its junction with the Great Ana Branch of the Darling River is, or will be, in excess of the sum of—

(a) the quantities which are necessary to supply the allocation to the State of South Australia under sub-clause (6) of this clause; and

(b) any quantities which, in the opinion of the Commission, ought to be impounded in any storage below the said junction controlled by the Commission with the object of filling all such storages at some time before the end of the ensuing June,

the State of South Australia may use that excess in addition to the quantity of water to which it is entitled under sub-clause (6) of this clause.

(13) The provisions of this Part other than this clause shall not, except as in this sub-clause provided, operate during a declared period of restriction.

(a) the quantities which are necessary to supply the allocation to the State of South Australia under sub-clause (6) of this clause; and

10 (b) any quantities which, in the opinion of the Commission, ought to be impounded in any storage below the said junction controlled by the Commission with the object of filling all such storages at some time before the end of the ensuing June,

- 10 (b) after the Chowilla Reservoir has been declared to have become effective for the purposes of this Agreement, unless the Commission is satisfied that the quantities of water held in the Hume Reservoir and in the Chowilla Reservoir will not fall below the respective amounts set out in sub-clause (2) of clause 50 of this Agreement by

- (i) for losses by evaporation, percolation and lockages, other than losses under sub-paragraph (ii) of this paragraph;
- 35 (ii) for losses by evaporation, percolation and lockages in the River Murray from Lake Victoria or the Chowilla Reservoir as the case may be, to the mouth of the River Murray but not including Lakes Alexandrina and Albert; and

River Murray Waters (Amendment).

5 (6) (a) (i) During a declared period of restriction prior to the Chowilla Reservoir having been declared to have become effective for the purposes of this Agreement, the available water shall be divided between the State Contracting Governments in the following proportions—

- South Australia—six hundred and three thousand.

10 (ii) During a declared period of restriction after the Chowilla Reservoir has been declared to have become effective for the purposes of this Agreement, the available water shall be divided between the State Contracting Governments in equal proportions.

15 (b) Each of the State Contracting Governments shall be entitled to use each month from the River Murray (exclusive of its tributaries below Albury) its monthly share as ascertained under this clause of the available water, but the quantities used by the States of New South Wales and Victoria may be varied in any month by agreement between the Commissioners representing those States if the variation does not affect the share of
20 the State of South Australia.

(7) The States of New South Wales and Victoria shall each have the full use during a declared period of restriction of all tributaries of the River Murray within their respective territories below Albury, and shall have the right to divert, store and use
25 the flows thereof and the right below the confluence with the River Murray of any such tributary to use each month in a declared period of restriction from the River Murray, in addition to the share of the available water to which each of the said States is respectively entitled under sub-clause (6) of this clause
30 volumes equivalent to those arriving at the place of diversion during that month as a result of contribution by each such tributary.

(8) The States of New South Wales and Victoria shall be
35 entitled, during any month in a declared period of restriction, to use from any portion of the River Murray below Albury water in excess of the quantity to which they are entitled under sub-clauses (6) and (7) of this clause provided that a quantity equal to the excess so used is contributed by the State concerned from a tributary or tributaries of the River Murray below Albury.

10 (9) (a) The total quantity of water to which the State of South Australia is entitled shall be measured at a point in the River Murray below the confluence of the Rufus River or, at a time to be decided by the Commission after the commencement of the construction of the Chowilla Dam, at a point
15 immediately downstream of that dam.

(b) In addition to its share of the available water, the State of South Australia shall be entitled to the quantity determined by the Commission pursuant to sub-paragraphs (ii) and (iii) of paragraph (b) of sub-clause (4) of this clause.

25 equivalent to those that that State by its works so diverts, stores or uses from time to time during the period of restriction.

(b) Either the State of New South Wales or the State of Victoria may allow to flow into the River Murray from any convenient source a quantity of water as replacement in whole
30 or in part of the quantity of water diverted by it pursuant to this sub-clause, and the amount of the deduction to be made pursuant to the last preceding paragraph shall be reduced by the quantity so replaced.

40 declaration for a period not exceeding six months at any one time the proportions set out in paragraphs (a) and (b) of sub-clause (6) of this clause.

(12)

River Murray Waters (Amendment).

(12) During any month in a declared period of restriction, if the Commission decides that the flow or prospective flow of the River Murray downstream of its junction with the Great Ana Branch of the Darling River is, or will be, in excess of the sum of—

(a) the quantities which are necessary to supply the allocation to the State of South Australia under sub-clause (6) of this clause; and

(b) any quantities which, in the opinion of the Commission, ought to be impounded in any storage below the said junction controlled by the Commission with the object of filling all such storages at some time before the end of the ensuing June,

the State of South Australia may use that excess in addition to the quantity of water to which it is entitled under sub-clause (6) of this clause.

(13) The provisions of this Part other than this clause shall not, except as in this sub-clause provided, operate during a declared period of restriction.

(b) Each of the State Contracting Governments shall be entitled to use each month from the River Murray (exclusive of its tributaries below Albury) its monthly share as ascertained under this clause of the available water, but the quantities used by the States of New South Wales and Victoria may be varied in any month by agreement between the Commissioners representing those States if the variation does not affect the share of the State of South Australia.

(7) The States of New South Wales and Victoria shall each have the full use during a declared period of restriction of all tributaries of the River Murray within their respective territories below Albury, and shall have the right to divert, store and use the flows thereof and the right below the confluence with the River Murray of any such tributary to use each month in a declared period of restriction from the River Murray, in addition to the share of the available water to which each of the said States is respectively entitled under sub-clause (6) of this clause volumes equivalent to those arriving at the place of diversion during that month as a result of contribution by each such tributary.

(b) Either the State of New South Wales or the State of Victoria may allow to flow into the River Murray from any convenient source a quantity of water as replacement in whole or in part of the quantity of water diverted by it pursuant to this sub-clause, and the amount of the deduction to be made pursuant to the last preceding paragraph shall be reduced by the quantity so replaced.

(11) The Commission may from time to time, having regard to the volumes of water in the Hume Reservoir and the Lake Victoria Storage or the Chowilla Reservoir, as the case may be, the time of the year, the requirements for irrigation in each of the States and any other relevant circumstances, vary by declaration for a period not exceeding six months at any one time the proportions set out in paragraphs (a) and (b) of sub-clause (6) of this clause.

(12)

River Murray Waters (Amendment).

(12) During any month in a declared period of restriction, if the Commission decides that the flow or prospective flow of the River Murray downstream of its junction with the Great Ana Branch of the Darling River is, or will be, in excess of the sum of—

- (a) the quantities which are necessary to supply the allocation to the State of South Australia under sub-clause (6) of this clause; and
- (b) any quantities which, in the opinion of the Commission, ought to be impounded in any storage below the said junction controlled by the Commission with the object of filling all such storages at some time before the end of the ensuing June,

the State of South Australia may use that excess in addition to the quantity of water to which it is entitled under sub-clause (6) of this clause.

(13) The provisions of this Part other than this clause shall not, except as in this sub-clause provided, operate during a declared period of restriction.

The provisions of clause 50 of this Agreement shall continue in force during a declared period of restriction but may be modified as provided in this clause.
