WEIGHTS AND MEASURES (AMENDMENT) BILL, 1965.

EXPLANATORY NOTE.

THE objects of this Bill are—

- (a) to enable various classes of standards of weights and measures to be provided in consequence of the anticipated introduction throughout the Commonwealth of uniform weights and measures ;
- (b) to empower the superintendent of weights and measures with the approval of the Minister—
 - (i) to verify and reverify standards of measurement on being authorised so to do by the National Standards Commission ;
 - (ii) to approve, on behalf of the National Standards Commission, of patterns of weights and measures and weighing and measuring instruments to be used for trade ;
- (c) to restrict, with certain exceptions, the use for trade of weights and measures and weighing and measuring instruments to those in respect of which a pattern has been approved by or on behalf of the National Standards Commission ;
- (d) to make provisions incidental to and consequential upon the foregoing.

A BILL

To provide for standards of weights and measures and for the approval of patterns of weighing and measuring instruments; for these and other purposes to amend the Weights and Measures Act, 1915-1964; and for purposes connected therewith.

[Mr. WILLIS;—30 November, 1965.]

BE it enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the Legislative Council and Legislative Assembly of New South Wales in Parliament assembled, and by the authority of the same, as follows:—

1. (1) This Act may be cited as the "Weights and Measures (Amendment) Act, 1965".

PART II.

STANDARDS.

10 12. (1) The Minister shall arrange for the provision and maintenance of such working standards of measurement and subsidiary standards of measurement as are necessary to provide means by which—

15 (a) for the purposes of this Act and the regulations, measurements may be made in terms of Commonwealth legal units of measurement; and

(b) standards may be verified or reverified pursuant to the Commonwealth Act and the Commonwealth regulations.

20 (2) A working standard of measurement provided and maintained pursuant to subsection one of this section shall, for the purposes of this Act and the regulations, be a primary State standard.

25 (3) A subsidiary standard of measurement of a denomination or description specified in the first column of Schedule B to this Act that has been provided and maintained pursuant to subsection one of this section shall, for the purposes of this Act and the regulations, be a secondary State standard if—

30 (a) it is stamped or otherwise identified in the manner prescribed for a secondary State standard; and

(b)

Weights and Measures (Amendment).

5 (b) the degree of accuracy with which it was last verified or reverified, as stated in the certificate issued on the authorisation of the Commission on such verification or reverification, is not outside the degree of accuracy ascertained in accordance with the Commonwealth regulations and specified in the second column of that Schedule opposite that denomination or description.

10 (4) A subsidiary standard of measurement of a denomination or description specified in the first column of Schedule B to this Act that has been provided and maintained pursuant to subsection one of this section shall, for the purposes of this Act and the regulations, be a tertiary State standard if—

15 (a) it is stamped or otherwise identified in the manner prescribed for a tertiary State standard; and

20 (b) the degree of accuracy with which it was last verified or reverified, as stated in the certificate issued on the authorisation of the Commission on such verification or reverification, is not outside the degree of accuracy ascertained in accordance with the Commonwealth regulations and specified in the third column of that Schedule opposite that denomination or description.

25 (5) Where a subsidiary standard of measurement provided and maintained pursuant to subsection one of this section is, by virtue of the Commonwealth regulations, deemed to be of a value equal to its denomination, that standard shall, for the purposes of this Act and the regulations, be an inspector's standard.

30 35 13. (1) Unless its size or nature renders stamping impracticable or it is exempted by the regulations, every inspector's standard shall be stamped as prescribed. ^{Inspector's standards to be stamped.}

(2)

Weights and Measures (Amendment).

(2) The impression of the stamp prescribed under subsection one of this section on a weight or measure shall be evidence that such weight or measure is an inspector's standard.

5 14. A standard of measurement provided and maintained pursuant to subsection one of section twelve of this Act shall not be used for the purposes of this Act and the regulations— Unverified and damaged standards not to be used.

10 (a) unless it has been verified or reverified in accordance with the Commonwealth Act and the Commonwealth regulations; or

15 (b) if it has become defective through use or accident or if it has been broken or repaired, until it has been reverified in accordance with the Commonwealth Act and the Commonwealth regulations.

20 15. (1) The Governor may, by proclamation published in the Gazette, amend Schedule B to this Act by inserting any matter therein or by omitting any matter therefrom and the Schedule, as so amended, shall be Schedule B to this Act. Amendment of Schedule B.

(2) The Governor may in like manner revoke or amend any proclamation made under subsection one of this section.

25 16. Any person who falsifies or wilfully or maliciously damages or destroys any standard provided and maintained under subsection one of section twelve of this Act shall be guilty of an offence against this Act and liable to a penalty of one hundred pounds. Falsification, etc., of standards.

- (h) by omitting section twenty-three and by inserting Subst. sec. 23.
in lieu thereof the following section :—

5 23. An article sold by weight or measure shall Sales to be by Commonwealth legal units.
be sold only by reference to a Commonwealth legal unit of measurement the use of which in respect of that article is permitted by the regulations.

- (i) by omitting subsection two of section thirty and by Sec. 30. (Verification and stamping.)
inserting in lieu thereof the following sub-
sections :—

10 (2) Subject to subsection three of this section
a weight or measure or a weighing or measuring
instrument used for trade shall not be verified or
reverified and stamped in pursuance of this Act
unless—

15 (a) it is of a pattern approved by or on behalf
of the Commission under the Common-
wealth regulations; or

20 (b) it is of a type and design in respect of
which there is in force an approval given
by the superintendent—

(i) before the commencement of the
Commonwealth regulations; or

25 (ii) after that commencement as a result
of an application for approval that
was pending at the date of that
commencement.

30 (3) An instrument that has been verified and
stamped pursuant to this section may be reverified
and stamped notwithstanding that approval to its
pattern pursuant to paragraph (a) of subsection
two of this section has been withdrawn or cancelled.

- (j) (i) by omitting paragraph (c) of subsection one Sec. 57. (Regulations.)
of section fifty-seven and by inserting in lieu
thereof the following paragraphs :—

35 (c) The provision, maintenance, custody
and care of standards of measurement
and

- (f) by omitting Part II and by inserting in lieu thereof the following Part :—

PART II.

STANDARDS.

Standards.

12. (1) The Minister shall arrange for the provision and maintenance of such working standards of measurement and subsidiary standards of measurement as are necessary to provide means by which—

- (a) for the purposes of this Act and the regulations, measurements may be made in terms of Commonwealth legal units of measurement; and
- (b) standards may be verified or reverified pursuant to the Commonwealth Act and the Commonwealth regulations.

(2) A working standard of measurement provided and maintained pursuant to subsection one of this section shall, for the purposes of this Act and the regulations, be a primary State standard.

(3) A subsidiary standard of measurement of a denomination or description specified in the first column of Schedule B to this Act that has been provided and maintained pursuant to subsection one of this section shall, for the purposes of this Act and the regulations, be a secondary State standard if—

- (a) it is stamped or otherwise identified in the manner prescribed for a secondary State standard; and

(b)

Weights and Measures (Amendment).

(b) the degree of accuracy with which it was last verified or reverified, as stated in the certificate issued on the authorisation of the Commission on such verification or reverification, is not outside the degree of accuracy ascertained in accordance with the Commonwealth regulations and specified in the second column of that Schedule opposite that denomination or description.

(4) A subsidiary standard of measurement of a denomination or description specified in the first column of Schedule B to this Act that has been provided and maintained pursuant to subsection one of this section shall, for the purposes of this Act and the regulations, be a tertiary State standard if—

- (a) it is stamped or otherwise identified in the manner prescribed for a tertiary State standard; and
- (b) the degree of accuracy with which it was last verified or reverified, as stated in the certificate issued on the authorisation of the Commission on such verification or reverification, is not outside the degree of accuracy ascertained in accordance with the Commonwealth regulations and specified in the third column of that Schedule opposite that denomination or description.

(5) Where a subsidiary standard of measurement provided and maintained pursuant to subsection one of this section is, by virtue of the Commonwealth regulations, deemed to be of a value equal to its denomination, that standard shall, for the purposes of this Act and the regulations, be an inspector's standard.

13. (1) Unless its size or nature renders stamping impracticable or it is exempted by the regulations, every inspector's standard shall be stamped as prescribed.

Inspector's standards to be stamped.
