(h) by inserting after section 14 the following  
Division :—

DIVISION 2.—*Automatic adjustment of  
superannuation allowances.*

Interpre-  
tation:  
Div. 2 of  
Part IV.

14A. (1) In this Division, except in so far as the  
context or subject-matter otherwise indicates or  
requires—

“adjustment date”, in relation to a year, means  
the first day of the superannuation allow-  
ance pay period that ends on the first super-  
annuation allowance pay day in the October  
that next follows that year;

“adjustment percentage”, in relation to a year,  
means (subject to section 14B (2)) the  
percentage for that year, calculated in  
accordance with section 14B;

“Index number”, in relation to a June quarter,  
means the number for that June quarter  
appearing in the Consumer Price Index (All  
Groups Index) for Sydney published by the  
Commonwealth Statistician under the  
Census and Statistics Act 1905–1966 of the  
Parliament of the Commonwealth or that  
Act as amended from time to time or any  
Act of that Parliament passed in substitution  
therefor;

“June quarter”, in relation to a year, means the  
period commencing on and including 1st  
April in that year and ending on and  
including 30th June in that year;

“quarter”, in relation to a year, means—

(a) the period commencing on and  
including 1st July in that year and

(2) Where a superannuation allowance is to be adjusted under this Division by reference to the adjustment percentage for a year, a reference (however expressed) in this Division to adjusting the allowance is a reference to—

- (a) where the adjustment percentage is calculated in accordance with the formula set out in section 14B (1) (a)— increasing the allowance; or

(b)

---

*Police Regulation (Superannuation) Further Amendment.*

---

- (b) where the adjustment percentage is calculated in accordance with the formula set out in section 14B (1) (b)—reducing the allowance.

Calculation  
of adjust-  
ment per-  
centage.

14B. (1) For the purposes of the definition of “adjustment percentage” in section 14A (1), the percentage for a year shall be calculated—

- (a) if the Index number for the June quarter in that year is greater than the Index number for the immediately preceding June quarter—in accordance with the following formula :—

$$P = \frac{100 (C - L)}{L}$$

- (b) if the Index number for the June quarter in that year is less than the Index number for the immediately preceding June quarter—in accordance with the following formula :—

- (b) the Index number for the June quarter in that year is the same as the Index number for the immediately preceding June quarter, there shall be deemed to be no adjustment percentage for that year.

(3) Where there is deemed to be no adjustment percentage for a year, then, for the purposes of calculating the percentage for the next year—

- (a) the Index number for the June quarter in the firstmentioned year shall be deemed not to have been published; and
- (b) the Index number for that quarter shall be deemed to be the same as the Index number for the June quarter in the last year for which there was an adjustment percentage.

(4) If at any time, whether before or after commencement of this Division, the Commonwealth Statistician has published in respect of a particular June quarter an Index number in substitution for an Index number previously published by him in respect of that quarter—

- (a) except as provided in paragraph (b)—the publication of the later Index number shall be disregarded; or

(b)

---

*Police Regulation (Superannuation) Further Amendment.*

---

(b) if the Minister so directs—regard shall, after the direction is given, be had to the later and not to the earlier Index number, for the purposes of this Division.

(5) Notwithstanding subsection (4), if at any time after the commencement of this Division the Commonwealth Statistician changes the reference base for the Consumer Price Index (All Groups Index) for Sydney, then, for the purposes of the application of this Division after the change takes place, regard shall be had only to Index numbers published in terms of the new reference base.
