(2) Section 41 of the Interpretation Act, 1897, applies  
in respect of a regulation made under this Act as if this  
Act had been passed after the commencement of the  
Interpretation (Amendment) Act, 1969.

*In the name and on behalf of Her Majesty I assent to this Act.*

A. R. CUTLER,  
*Governor.*

*Government House,  
Sydney, 10th December, 1979.*

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

In the second section, the author details the various methods used to collect and analyze the data. This includes both manual and automated processes. The goal is to ensure that the information is both reliable and up-to-date.

The third part of the document focuses on the results of the analysis. It shows a clear upward trend in the data over the period covered. This indicates that the current strategy is effective and should be continued.

Finally, the document concludes with a series of recommendations for future actions. These include increasing the frequency of data collection and exploring new markets. The author believes that these steps will lead to even greater success in the future.

*This PUBLIC BILL originated in the LEGISLATIVE ASSEMBLY, and, having this day passed, is now ready for presentation to the LEGISLATIVE COUNCIL for its concurrence.*
