

BENNELONG POINT (PARKING STATION) BILL 1985

EXPLANATORY NOTE

(This Explanatory Note relates to this Bill as introduced into Parliament)

The following Bills are cognate with this Bill:

Sydney Opera House (Amendment) Bill 1985;

Sydney Opera House Trust (Amendment) Bill 1985.

The object of this Bill is to provide for the construction and operation of an underground parking station at Bennelong Point, subject to an environmental assessment being made under Part V of the Environmental Planning and Assessment Act 1979 before the Minister for Public Works approves of the works being carried out. The Bill enables the Minister to enter into an agreement with any person for the construction of the parking station, at that person's cost, and for a lease to be granted to the person to operate the parking station on its completion.

Clause 1 specifies the short title of the proposed Act.

Clause 2 is an interpretation provision. Provision is made to ensure that the proposed Act applies to the future use, as well as to the construction, of the parking station.

Clause 3 authorises the Minister to approve of the carrying out of the works subject to—

- (a) substantial compliance with Part V of the Environmental Planning and Assessment Act 1979 (which includes the requirement for an environmental impact statement);
- (b) the works being carried out without a substantial detrimental effect on the surface of, or vegetation on, the land concerned; and
- (c) consultation with the Minister for Planning and Environment.

The Minister's decision is, by clause 3 (4), not open to challenge in any court unless a person's rights have been infringed.

Clause 4 sanctions the carrying out of the works upon the Minister's approval and authorises the Minister to construct the works under the Public Works Act 1912. Provision is also made for the closure of part of Macquarie Street for the purposes of the works.

Clause 5 authorises the Minister to enter into an agreement with a person for the construction of the parking station, at the person's cost, and for a lease to be granted to the person to operate the parking station on its completion.

Clause 6 provides for the acquisition by the Minister of the land actually occupied by the parking station upon its completion and for the grant of a lease referred to in clause 5.

Clause 7 enables the Governor, by regulation, to amend Schedule 2 which describes the land under which the parking station is to be constructed.

Clause 8 excludes the application of the Environmental Planning and Assessment Act 1979 (except as provided by clause 3) and Parts IX (public roads) and XI (building regulation) of the Local Government Act 1919. The clause also removes any restriction that may apply under the Royal Botanic Gardens and Domain Trust Act 1980 and certain other Acts.

Clause 9 authorises the Governor to make regulations for the purposes of the proposed Act.

Schedule 1 describes the works to be carried out. The parking station is to be constructed underground with vehicular access to Macquarie Street and pedestrian access to that street and Sydney Cove.

Schedule 2 describes the land under which the parking station is to be constructed. The land includes part of Macquarie Street, part of the Tarpeian Way, part of the Domain, part of the Royal Botanic Gardens and a small part of the grounds of Government House.
