**ENVIRONMENTAL PLANNING AND ASSESSMENT
(CONTRIBUTIONS PLANS) AMENDMENT BILL 1991**

NEW SOUTH WALES

EXPLANATORY NOTE

(This Explanatory Note relates to this Bill as introduced into Parliament)

The object of this Bill is to regulate further the imposition of conditions on the granting of development consent that require a dedication of land or a contribution of money as referred to in section 94 of the Environmental Planning and Assessment Act 1979.

As a consequence of the amendments, a local government council will not be able to impose such a condition unless it is of a kind allowed by, and is imposed in accordance with, a public document (to be known as a contributions plan) adopted by the council.

The amendments also define the powers of the Minister and the Director of Planning in imposing section 94 conditions and make it clear that, when imposing such conditions, they will be required to have regard to (but will not be bound by) any relevant contributions plans.

Clause 1 specifies the short title of the proposed Act.

Clause 2 provides for the commencement of provisions of the proposed Act.

Clause 3 is a formal provision that gives effect to the amendments to the Principal Act.

SCHEDULE 1—AMENDMENTS

Use of monetary contributions

Schedule 1 (1) (a) amends section 94 (3) which, when amended, will provide that any monetary contribution received for the purpose of providing, extending or augmenting a particular public amenity or public service, together with any additional amount earned by its investment, is to be held by the consent authority and applied for that purpose within a reasonable time.

Environmental Planning and Assessment (Contributions Plans) Amendment 1991

The amendments will remove the current requirement for each contribution to be held in trust (so that councils may keep all those contributions in a common reserve until they are used) and expressly require any interest earned from the investment of each contribution to be used for the same purpose as the contribution.

Application of contributions plans

Schedule 1 (1) (b) amends section 94 to provide that, when granting consent to a development application made on or after the day proclaimed in that regard, a council may impose a section 94 condition only if it is of a kind allowed by, and is in accordance with, a contributions plan approved by the council.

A condition of a kind allowed by a contributions plan remains appealable as unreasonable.

Section 94 conditions imposed by the Minister or Director

Schedule 1 (2) inserts new section 94AA. The proposed section states how section 94 will apply if the Minister for Planning or the Director of Planning wants to impose a section 94 condition when granting consent to the carrying out of development:

- on land that is within a growth centre (defined as including a "designated area" under the Albury-Wodonga Development Act 1974); or
- on other land that is within a single local government area.

In the case of land within a growth centre, such a condition will be able to require a contribution towards the provision of public amenities or public services for the whole of the growth centre (regardless of local government boundaries).

When imposing a section 94 condition in any case, the Minister or Director must have regard to (but is not bound by) any relevant contributions plan. Any money received as a consequence of any such condition must be transferred to the development corporation for the centre or the council of the area concerned and must be used within a reasonable time for the purpose for which it was levied.

Making and effect of contributions plans

Schedule 1 (2) also inserts new sections 94AB and 94AC. Of the proposed sections:

Section 94AB provides for the making and approval of contributions plans.

It requires that such a plan be consistent with any relevant Ministerial directions made under section 94A. It leaves most of the subject-matter (together with requirements for the drafting, exhibition and approval procedures) to be determined by regulations and provides a presumption that those procedures have been complied with.

Section 94AC provides for judicial notice to be taken of a contributions plan and of the date it came into effect. It also prohibits a challenge to the validity of the procedures followed in making a contributions plan unless it is commenced in the Land and Environment Court within 3 months after the plan came into effect. The effect of anything duly done under a plan before it is amended or repealed is preserved.
