FORESTRY (AMENDMENT) BILL 1992

NEW SOUTH WALES

EXPLANATORY NOTE

(This Explanatory Note relates to this Bill as introduced into Parliament)

The object of this Bill is to amend the Forestry Act 1916 to specify clear objects for that Act and to establish a State Forests Board as the board of management of the Forestry Commission. The Board will be responsible for directing the Commission's operations but is also charged with wider duties in implementing the objects of the Act, with particular emphasis on preserving forests of high conservation value and restricting timber-getting operations in forests to operations that are ecologically sustainable.

The Board is to be required to formulate management plans and pricing policies as public documents.

The Bill provides for the application of a modified version of Part 5 of the Environmental Planning and Assessment Act to logging operations, and provides an avenue for legal action by members of the community to remedy breaches of the Forestry Act.

The Bill also makes a consequential amendment to the Land and Environment Court Act 1979.

Clause 1 specifies the short title of the proposed Act.

Clause 2 provides for the commencement of the proposed Act on 1 November 1992, except for section 5, which commences on the date of assent.

Clause 3 gives effect to the amendments to the Forestry Act 1916 set out in Schedule 1.

Clause 4 gives effect to the amendment to the Land and Environment Court Act 1979 set out in Schedule 2.

Clause 5 allows the first members of the State Forests Board to be appointed by the Minister, and ancillary matters to be attended to, during the interval between the date of assent to the proposed Act and 1 November 1992.

Forestry (Amendment) 1992

SCHEDULE 1—AMENDMENT OF FORESTRY ACT 1916**Objects of the Forestry Act**

Schedule 1 (1) inserts a new section 3A, stating the objects of the Forestry Act 1916. The main priority is to achieve ecologically sustainable forest management.

Establishment of State Forests Board

Schedule 1 (7) inserts a new Part 7A, which establishes the State Forests Board. The Board is an unincorporated body to which the Forestry Commission is to be responsible in the exercise by the Commission of its powers and functions. It is the Board's task to see that the Commission complies with the objects of the Act. Its annual budget (including the costs of its staff and consultants) is to be funded by 10 per cent of the income derived each year by the Commission. The Board's first task is to examine and assess current policies and practices of the Commission.

A new Fourth Schedule to the Forestry Act (inserted by Schedule 1 (12)) makes further provision with respect to the constitution, membership and procedure of the Board.

Plans and policies affecting forestry

The State Forests Board is to formulate and publish forestry management plans and timber pricing policies in accordance with the new Part 1A inserted by Schedule 1 (7). These plans and policies are to be put out to public scrutiny and must be periodically reviewed.

Scientific committee

Division 3 of the proposed new Part 1A provides for the establishment of a committee of environmental science experts to oversee forest-based research and assist the board with its work. Public authorities proposing to undertake research relating to forests must submit the terms of reference of any proposed research project to the board for assessment by its scientific committee, which will monitor research undertaken by them.

A new Fifth Schedule to the Forestry Act (inserted by Schedule 1 (12)) makes further provision with respect to the membership and procedure of the committee.

Environmental impact statements

A new Part 3A, to be inserted by Schedule 1 (10), provides that proposed logging operations identified by order of the Board must be dealt with according to the procedure set out in Part 5 of the Environmental Planning and Assessment Act 1979, with certain modifications. The modified procedure requires the environmental impact statement relating to the logging proposals to be assessed by the Director of Planning with the assistance of a committee consisting of representatives of scientific groups.

The constitution of the committee is set out in proposed section 30R and a new Sixth Schedule to the Forestry Act (inserted by Schedule 1 (12)) makes further provision with respect to its membership and procedure.

The proposed new Part cannot be applied to logging on private land before 1 August 1993.

Forestry (Amendment) 1992

Logging on private land

A new Part 3B, to be inserted by Schedule 1 (7), requires the Commission's consent to carry out commercial timber-getting on private land. The Commission is to refer applications for its consent to the National Parks and Wildlife Service and the Soil Conservation Service, and may if it so chooses advertise the application and invite public comment.

The new Part takes effect from 1 August 1993.

Action to stop breaches of the Act

Schedule 1 (11) inserts new sections 39 and 40, which allow action to be taken in the Land and Environment Court by citizens to remedy contraventions of the Forestry Act. The provisions are similar to provisions of the Environmental Planning and Assessment Act 1979 in relation to planning laws.

**SCHEDULE 2—AMENDMENT OF LAND AND ENVIRONMENT COURT
ACT 1979**

This Schedule contains an amendment consequential on the amendment made by Schedule 1 (11).

25

(3) Each such plan must endeavour to:

(a) prohibit logging in the forest and provide instead, where necessary, for obtaining a timber harvest by logging in a plantation (or, if it is not practicable to obtain it from a plantation, then by logging in a forest which does not have a high conservation value) or for a reduction in quotas; and

30

(b) minimise any adverse effects of the prohibition of logging (for example, by creating opportunities for alternative employment of any timber workers affected by it).

35

(4) Any arrangements made by a plan for a plantation or alternative forest to be available for logging must be capable of operating as soon as the prohibition comes into effect.

Operation of this Part

30 30N. (1) This Part applies to logging operations proposed to be conducted anywhere in the State, subject to the limitations provided by this section.

35 (2) This Part does not apply to logging operations to which, by virtue of their insignificant effect on the environment, Part 5 of the Environmental Planning and Assessment Act 1979 would not apply. For the purposes of

this subsection, no regard is to be had to any suspension of the provisions of Part 5 of the Environmental Planning and Assessment Act 1979 by the Timber Industry (Interim Protection) Act 1992. 5

(3) This Part does not apply to logging operations to be conducted in any area affected by the Timber Industry (Interim Protection) Act 1992 except to the extent that the board, by order published in the Gazette, declares that it does. 10

(4) An order of the board under subsection (3) takes effect on the date of its publication in the Gazette or on a later date specified in the order.

(5) An order under subsection (3) cannot be made so as to affect any private land (that is, land that is not Crown-timber land) before 1 August 1993. 15

(6) When an order under subsection (3) takes effect, the Timber Industry (Interim Protection) Act 1992 (except in so far as it requires the commission to obtain any environmental impact statement) ceases to apply to proposed logging operations affected by the order. 20

Logging activities to be subject to Part 5 of the Environmental Planning and Assessment Act 1979

300. Part 5 of the Environmental Planning and Assessment Act 1979 applies to logging operations to which this Part applies and that are proposed to be carried out or authorised by the commission (or by the commission jointly with some other person or body). The provisions of that Part have effect, however, subject to this Part, and as though: 25 30

determines that it may do so. The Minister's determination, and any decision to revoke or vary a condition of the determination, are to be made public.

5

(2) The Minister for Planning may make such a determination unconditionally or subject to conditions and may revoke or vary any such condition, except as provided by subsection (3).

10

(3) It is to be a condition of every determination in favour of logging operations to which this Part applies that the operations be subject to a system of periodic review of their environmental impact and public reporting of the outcome of each review. The review procedures are to be established by the Director of Planning as a condition of the determination.

15

(4) The Minister of Planning is not to make such a determination until the commission has complied with the provisions of Part 5 of the Environmental Planning and Assessment Act 1979 relating to the public exhibition of the environmental impact statement.

20

(5) Before making such a determination, the Minister is to obtain a report from the Director of Planning, who is to refer the environmental impact statement to the Forest Environmental Impact Statement Assessment Committee established under this Part for assessment.

25

Report of the Director of Planning

30Q. (1) When preparing the required report for the Minister for Planning, the Director of Planning is to take into account the representations of:

30

(a) members of the public, in response to the public exhibition of the statement; and

- (c) a nominee of the National Herbarium;
- (d) a resource economist and a soil conservation expert nominated by a tertiary institution. 15

(3) Nominations may be made from time to time as occasion requires for the purposes of this section.

(4) No member of the committee is to be an officer or employee of the commission. 20
