ST. VICTOR

THE HISTORY OF THE VICTORIAN AGE

CHAPTER I

THE REIGN OF GEORGE III

1760-1801

George III, the first of the Hanoverian dynasty, was crowned in 1760. He was a man of strong character and a devoted ruler. His reign was marked by the American Revolution and the French Revolution. He was also a patron of the arts and sciences.

1763-1764

The Seven Years' War ended in 1763 with the Treaty of Paris. This treaty gave Britain control of Canada and the western half of North America. In 1764, the British Parliament passed the Sugar Act, which imposed a tax on sugar and molasses imported into the colonies.

1765-1766

The Stamp Act of 1765 was a tax on all printed materials in the colonies. It was met with widespread opposition. In 1766, the British Parliament passed the Declaratory Act, which stated that Parliament had the right to legislate for the colonies in all matters.

1767-1768

The Townshend Acts of 1767 imposed taxes on various goods imported into the colonies. In 1768, the British sent a fleet of ships to enforce the Acts. The colonies responded with the Boston Tea Party in 1773.

1770-1771

The Boston Massacre of 1770 was a pivotal event in the American Revolution. Five British soldiers were killed in the attack on a group of colonists in Boston. This event led to the Boston Tea Party and the Intolerable Acts.

1772-1773
