

A BILL

To enable Municipal Councils to authorise and regulate public bathing at any time of the day or night.

[MR. C. G. HEYDON ;—1 *March*, 1894.]

BE it enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the Legislative Council and Legislative Assembly of New South Wales in Parliament assembled, and by the authority of the same, as follows :—

- 5 1. (I) It shall be lawful for the Council of any Municipality to make by-laws under and subject to the provisions of the Municipalities Act of 1867 authorising and regulating bathing at any time of the day or night to be named in those by-laws, at any place near to or within view of any dwelling-house, public wharf, quay, bridge, street, road, 10 or other place of public resort within the limits of the Municipality.
- 15 Provided that in all by-laws made under the authority of this Act one place or time shall be set apart for the bathing of females, and male children under an age to be therein mentioned, and another place or time for the bathing of other males ; and it shall be required 15 that every person bathing shall be clothed from the neck to the knee in a suitable bathing dress ; and a sufficient penalty shall be imposed for the contravention of those by-laws.
- 20 (II) On the publication in the *Gazette* of any by-laws made under the authority of this Act, and during the continuance in force of those by-laws, but no longer, the provisions of the Acts second 20 Victoria number two and seventeenth Victoria number twenty-five, so far as they may be inconsistent with those by-laws, shall have no effect.
- 25 2. This Act may be cited as the "Bathing Regulation Act, Short title. 1894."

Municipal Councils may make by-laws regulating bathing, notwithstanding 2 Vic. No. 2, and 17 Vic. No. 25.

The first part of the paper is devoted to a general
 introduction of the subject. It is then divided into
 three main sections. The first section deals with
 the general principles of the theory. The second
 section is devoted to the application of these
 principles to the case of a particular system.
 The third section discusses the results obtained
 and compares them with the experimental data.
 The paper concludes with a summary of the
 main findings and a few remarks on the
 future work to be done in this field.
