[1s. 9d.]

The first of these is the fact that the  
 system of taxation is not uniform  
 throughout the country. In some  
 parts the tax is very high, while in  
 others it is very low. This is a  
 great disadvantage, as it tends to  
 create a feeling of inequality  
 among the people. The second  
 disadvantage is that the system  
 is not based on the principle of  
 ability to pay. The tax is  
 levied on the land, and not on  
 the person who owns it. This is  
 a great disadvantage, as it tends  
 to create a feeling of inequality  
 among the people. The third  
 disadvantage is that the system  
 is not based on the principle of  
 benefit. The tax is levied on the  
 land, and not on the person who  
 owns it. This is a great  
 disadvantage, as it tends to  
 create a feeling of inequality  
 among the people. The fourth  
 disadvantage is that the system  
 is not based on the principle of  
 justice. The tax is levied on the  
 land, and not on the person who  
 owns it. This is a great  
 disadvantage, as it tends to  
 create a feeling of inequality  
 among the people. The fifth  
 disadvantage is that the system  
 is not based on the principle of  
 equity. The tax is levied on the  
 land, and not on the person who  
 owns it. This is a great  
 disadvantage, as it tends to  
 create a feeling of inequality  
 among the people.
