While revenue varies from year to year based on seasonal conditions and related bee activity, the increase seen between 2016/17 and 2017/18 is largely due to the implementation of a standardised pricing system across all apiary sites on public land.

Answer—

I am advised:

As part of the More Trains More Services program, Sydney Trains is extending the canopy on Platform 1 at Gordon Station, to protect customers in all weather conditions.

The canopy will encourage customers to spread evenly along the platform and use the full capacity of the train when boarding and alighting. This will reduce train dwell times at Gordon Station, particularly in the AM peak, and support the integration of Sydney Metro North West services and T1 North Shore services at Chatswood Station.

The canopy has been designed to respect the station's heritage importance.

Answer—
