  - (a) Will Transport for NSW continue to maintain the grounds?

Answer—

LEGISLATIVE ASSEMBLY QUESTIONS AND ANSWERS  
Wednesday 9 June 2021

(2) Yes.

\* 5689 TUGGERAH STATION—Mr David Mehan to ask the Minister for Transport and Roads—

Considering your response to LA Q4814, what is the current status of upgrades to Tuggerah Station including provision of lifts and additional parking?

Answer—

I am advised:

Planning is currently underway to improve accessibility at Tuggerah Station.

As part of the program, the Tuggerah Station upgrade would aim to provide a station precinct that is accessible to those with a disability, limited mobility, parents/carers with prams and customers with luggage.

Transport for NSW is also investigating longer term improvements to car parking, bus and vehicle movements and pedestrian access in the area.

\* 5690 THE ENTRANCE CENOTAPH—Mr David Mehan to ask the Minister for Water, Property and Housing—

(1) In relation to The Entrance Cenotaph, what funding has been extended to the trustees over the last ten years to maintain the Cenotaph?

(a) What is the current status of the trustees?

(b) What maintenance of the Cenotaph is planned?

Answer—

I am advised:

(1) The former trustees made two (2) applications to the Crown Reserves Improvement Fund (formerly Public Reserves Management Fund) over the last 10 years. The applications were unsuccessful.

(2) The appointment of the former trustees expired on 30 January 2021. Central Coast Council was appointed the Crown Land Manager of the reserve commencing 31 January 2021.

(3) Council undertook an asset condition audit prior to being appointed the Crown Land Manager of the reserve. Council is best placed to advise on planned maintenance activity.

\* 5691 ASSESSMENT CRITERIA FOR SCHOOL BUS ROUTE APPLICATIONS—Mrs Helen Dalton to ask the Minister for Regional Transport and Roads—

Given applications for school bus routes are assessed primarily on their financial merits, and thus often exclude small rural and remote communities, will you consider extending the criteria to ensure equitable access to education for all students?

Answer—

I am advised:

The Government is investing \$473 million for bus and on demand services in regional New South Wales including more than 3,400 dedicated school bus services.

Transport for NSW considers all applications on a case-by-case basis for the introduction of a new rural and regional bus service. When reviewing requests for the introduction of new services, Transport considers among other things:

- Whether the proposed bus service will travel by the most practical route to school.
- The number of children that will use the bus each morning, afternoon and week.

- Expected future patronage numbers over the following five years.
- The nature of the roadways travelled.
- The safety of bus stops.

Where it is not feasible to provide public transport, the School Drive Subsidy is offered to parents of eligible School Student Transport Scheme students. This subsidy is intended to partly offset the cost of using a private vehicle to drive children directly or partially to school (or the nearest bus pick-up location).

\* 5692 TANTANGARA RESERVOIR RISK OF CONTAMINATION—Mrs Helen Dalton to ask the Minister for Agriculture and Western New South Wales—

- (1) Given the high risk of contaminating Tantangara Reservoir with pest fish and diseases if it is connected to Talbingo Reservoir by Snowy 2.0, and the threat this poses to native fish and the recreational fishing industry, will you use your Ministerial powers under the Biosecurity Act 2015 to refuse any exemption to Snowy Hydro, now and in the future, from the general biosecurity duty in Section 22 of that Act?
- (2) What conditions will be attached to any approval of Snowy 2.0 to ensure there is no transmission of pest fish or aquatic disease from Talbingo to Tantangara?
- (3) What penalties will be applied and actions taken if it is confirmed that such transmission has occurred?

Answer—

- (1) The Snowy Hydro 2.0 project has not received an exemption from the NSW Biosecurity Act 2015 or the Fisheries Management Act 1994.
  - The Infrastructure Approval, signed by the Minister for Planning and Public Spaces, provides approval subject to Snowy Hydro Ltd fulfilling a suite of biosecurity and fisheries conditions to mitigate any related impacts of Snowy 2.0 Main Works.
  - Department of Primary Industries (DPI) will issue appropriate permission instruments under the Biosecurity Act 2015 and Fisheries Management Act 1994 only when Snowy Hydro Ltd has fulfilled all the Infrastructure Approval Consent Conditions.
- (2) DPI is continuing to work closely with Snowy Hydro Limited to ensure the requirements of the Infrastructure Approval in relation to biosecurity risks and fisheries can be met.

Once Snowy Hydro Ltd has fulfilled the fisheries and biosecurity conditions of that Approval, appropriate permissions under the Biosecurity Act 2015 and the Fisheries Management Act 1994 will be issued.

The conditions within the Infrastructure Approval require Snowy Hydro Ltd to take reasonable and practicable measures to mitigate biosecurity risks and fisheries impacts.

These conditions include but aren't limited to:

- Installing a fish barrier on Tantangara Creek and fish screens at the southern end of the Tantangara Reservoir, to prevent as is reasonably practicable, the movement of pest fish
  - Developing and implementing a Biosecurity Risk Management Plan
  - Developing and implementing a Threatened Fish Management Plan
  - Developing and implementing a Recreational Fishing Management Plan.
- (3) Penalties would only be considered depending upon confirmation that any contravention of appropriate instruments had occurred.

(1) Will the Government match the \$2.5 million of Commonwealth Government funding provided to Edward River Council to extend and improve the runway at Deniliquin Airport?

(a) If so, when will the Government provide this funding to Edward River Council?

Answer—

I am advised:

Funding for aviation in Australia is primarily shared between federal and local governments.

The Commonwealth Government's Regional Airports Program is funding the \$2.5 million runway upgrade of Deniliquin Airport, at the request of Edward River Council.

The Government is investing \$2 billion in infrastructure to support regional communities through the Regional Growth Fund.

- (1) Does the approval of the Queensland-Hunter Gas Pipeline (MP06\_0286) provide the ability for Authority to Survey to be granted over properties whose owners have not signed an access agreement?

LEGISLATIVE ASSEMBLY QUESTIONS AND ANSWERS  
Wednesday 9 June 2021

---

- (2) Does the approval provide the ability for Authority to Survey to be granted over properties whose owners have not signed an access agreement in the event that a certain percentage of landholders along the corridor do sign access agreements?

(a) If so, what percentage of landholders are required to sign before this may occur?

Answer—

I am advised:

- (1) This matter should be referred to the Minister for Energy and Environment
- (2) Authority to Surveys are issued under the Pipelines Act 1967. (i) What were the findings of any investigation?

Answer—

I am advised:

Hunter Gas has not yet physically commenced its development consent for the Queensland-Hunter Gas Pipeline (MP06\_0286). Therefore, there has been no breach of the consent. Hunter Gas is undertaking consultation and preparing required documentation, including a range of management plans and studies required under the consent. (a) Does this process include consultation with neighbouring property owners?

(b) Within this process, what considerations are made regarding impacts on neighbouring property values?

Answer—

I am advised:

- (1) Selection of a heavy vehicle rest stop site is informed by many factors. Transport for NSW has established a project team to review opportunities to improve the heavy vehicle rest stop experience. The team is in the process of reviewing the 2010 Strategy, based on the latest Austroads Guidance 'Guidelines for the Provision of Heavy Rest Area Facilities' published in July 2019. Once this review is complete, it will replace the 2010 Strategy.

Opportunities under review include: ensuring rest stops are appropriately located and have appropriate amenities; positioning rest stops to support driver fatigue management guidelines; ensuring there is an appropriate number of parking spots to meet demand and that the parking spots

are appropriately sized; ensuring access and egress are appropriate for heavy vehicles; and identifying opportunities for commercial partnerships at rest areas.

(a) and (b) Transport for NSW seeks community and stakeholder (including neighbouring properties) feedback in the planning and delivery of all transport policies, services and infrastructures projects including rest stops. Should industry or the community wish to provide feedback to Transport for NSW regarding rest stops, they are encouraged to visit [www.rms.nsw.gov.au](http://www.rms.nsw.gov.au), go to the NSW Rest Areas page, and click "provide feedback".
