- 163. Remapping of old-growth and high-conservation-value public forests:** resumption of the adjourned debate (8 August 2019) of the question on the motion of Mr Field:

(1) That this House notes that:

- (a) the Government is planning to allow logging in thousands of hectares of old-growth and high-conservation-value public forests on the North Coast that have been off limits for decades,
- (b) these forests are rare and important ecosystems which provide irreplaceable habitat for many threatened species, such as koalas, gliders, quolls, frogs and owls,

- (c) they have been protected as part of the nationally agreed reserve system for decades and have been granted state significant heritage protection for their historical significance, including to Aboriginal people, aesthetic significance, research potential, rarity and valuable habitat,
 - (d) this process is being driven by a desire to access more timber, based on a Forestry Corporation calculation that new rules under the Coastal Integrated Forestry Operations Approvals (CIFOA) to protect koala habitat and threatened ecological communities could result in a small timber supply shortfall of up to 8,600 cubic metres per year,
 - (e) despite advice from the Natural Resources Commission (NRC) that this wood supply shortfall “represent[s] the worst case scenario and may never be realised”, the Premier requested the NRC consider remapping old growth forests and rainforests to meet this shortfall,
 - (f) a pilot study of 13 areas of state forest found that remapping could open up 78 per cent of protected old growth forest to logging, despite all sites having vitally important habitat,
 - (g) the Government has committed over \$2 million to this remapping process, despite this cost far outweighing the \$1.5 million value of buying back the contracts for the maximum claimed timber shortfall,
 - (h) the funding is being provided by the Government despite the NRC recommending that any remapping and rezoning should be paid for by Forestry Corporation as the beneficiary, and
 - (i) remapping on private land has already opened up over 29,000 hectares of previously protected old growth forests to logging in recent years.
- (2) That this House agrees that remapping old growth forests:
- (a) breaks the Government’s commitment to no erosion of environmental values under the new CIFOA,
 - (b) is based on timber supply impacts that are not verified and probably do not exist, and
 - (c) is a subsidy to logging which exceeds the value of the extra wood supply.
- (3) That this House call on the Government to:
- (a) end the remapping and rezoning of old-growth and rainforest on public and private land,
 - (b) ensure no areas of forest currently protected will be opened up to logging, and
 - (c) conserve native forests to protect biodiversity, store carbon and provide new tourism and recreational opportunities—Mrs Maclaren-Jones. (15 minutes)

Upon which Mr Searle has moved: That the question be amended by inserting after paragraph (c):

- "(2) That this House notes that the House and its committees have consistently maintained that so-called statutory secrecy provisions, that is, provisions in statutes which prohibit in general terms the disclosure of certain categories of information, have no effect on the law of privilege, including the common law power of this House to order the production of State papers, unless they do so expressly or by necessary implication.

- (3) That this House further notes that this position has recently been expressly accepted by the Solicitor-General and the Crown Solicitor in a legal opinion provided to the Auditor General concerning the powers of parliamentary committees, in which the Crown Solicitor observed:

The Solicitor General expressed the general view that a statutory prohibition on disclosure of information will only be held to apply to disclosure to a Parliamentary committee if that is done expressly or by necessary implication.

I defer to the views of the Solicitor General. ... I would only add that the principle applied by the Solicitor General - that legislation will be presumed not to diminish the "privileges" of Parliament or its committees, unless it does so expressly or by necessary implication - has been accepted in several Australian cases.

- (4) That notwithstanding the power of the House to order the production of State papers subject to statutory privacy or secrecy provisions, the documents returned to the House under this order of the House be redacted to remove information subject to the privacy and secrecy provisions of the Taxation Administration Act 1996."—Mr Buttigieg speaking. Debate: 1 hour and 23 minutes remaining.

1792. Ms Hurst to move—

- (1) That this House notes that:
 - (a) 24 April 2022 was World Day for Laboratory Animals,
 - (b) according to the latest data, over 1.5 million animals were used for experimental purposes in New South Wales in 2020,
 - (c) despite the use of public funds, the NSW Government does not keep records on how much money is given to animal experimentation, and there is no transparency about the types of experiments taxpayers are funding,
 - (d) animals used in experiments routinely have cigarette smoke forced into their nostrils, are put in buckets of water in forced drowning experiments, and primates have their organs transplanted with those of pigs, and
 - (e) research animals are not required to be rehomed in New South Wales, and in the last two years, only 30 dogs and 75 cats out of the thousands used in medical experimentation were given homes.
- (2) That this House calls on the NSW and Federal Governments to:
 - (a) cease using taxpayer money to fund animal experimentation,
 - (b) fund humane alternatives to animal experimentation, and
 - (c) give animals the right to be released from experimentation.

(Notice given 10 May 2022—expires Notice Paper No. 140)

1793. Ms Hurst to move—

- (1) This House notes that:
 - (a) Brachycephalic Obstructive Airway Syndrome, or BOAS, affects dogs bred to have short or flat faces, such as bulldogs, boxers, Boston terriers, Shih Tzus and bull mastiffs,
 - (b) BOAS causes exhaustion, severe heart conditions, difficulty breathing and walking, and may increase the chance of an early death, and
 - (c) a 2013 study found that dogs affected by BOAS could not walk for more than ten minutes on a 19 degrees celsius day.
- (2) That this House further notes that:

- (a) there are currently no laws in New South Wales to prevent breeding companion animals for exaggerated features that seriously impact their health and quality of life, such as the intentional breeding of BOAS features, and
 - (b) this is despite recommendations by the Australian Veterinary Association, the RSPCA, Sentient, and Veterinary Institute for Animal Ethics that the intentional breeding of aesthetic traits that cause serious health issues, including BOAS, should be outlawed.
- (3) That this House recognises the serious harm caused to dogs bred for exaggerated aesthetic features, including BOAS, and calls for this practice to be banned.

(Notice given 10 May 2022—expires Notice Paper No. 140)

1795. Mr Fang to move—

- (1) That this House note that:
- (a) 2022 marks the centenary of the Country Women's Association (CWA) of NSW,
 - (b) the CWA of NSW was formed at the Bushwomen's Conference held in conjunction with the Royal Agricultural Show in Sydney in April 1922, and
 - (c) the CWA is the largest women's organisation in Australia and aims to improve conditions for country women and children.
- (2) That this House acknowledges the amazing work of the CWA of NSW in providing women in regional, rural and remote New South Wales with a platform for advocacy, a network of support and place for women to meet.
- (3) That this House notes that the NSW Government will continue to work with the CWA of NSW to support women in regional, rural and remote New South Wales.

(Notice given 10 May 2022—expires Notice Paper No. 140)

 - (b) commends the outstanding contributions of each and every nurse towards safeguarding the health of everyone in New South Wales.
- (2) That this House acknowledges that:
- (a) on 5 May 2022, midwives across New South Wales were celebrated as part of "International Day of the Midwife" for their dedication to mothers, babies and families, and their valuable contribution to their profession, and
 - (b) this year, in 2022, we celebrate the 100th anniversary of the International Confederation of Midwives.

- (3) That this House recognises and congratulates the nurses and midwives across all areas of the health system for the invaluable service they provide to the community every single day of every single year.

(Notice given 10 May 2022—expires Notice Paper No. 140)

1801. Mr Latham to move—

That this House calls on the President to convene a meeting of party leaders to address the dysfunctional way in which the Parliament House building is managed, specifically:

- (a) the creation of a permanent construction zone at noise levels making it impossible for members and staff to work productively in many offices,
- (b) the extraordinary waste of public money on:
- (i) frosted doors,
 - (ii) Macquarie St bollards,
 - (iii) the Speaker’s courtyard,
 - (iv) the Broderick review,
 - (v) committee room audio access,
 - (vi) the re-renovation of the Macquarie Room,
 - (vii) the re-replacement of TVs,
 - (viii) over-staffing of Presiding Officers,
 - (ix) over-staffing of identity politics roles,
 - (x) an inflated budget generally without proper accountability and financial controls,
- (c) partisan political bias in the management of the building, including access restrictions for members’ guests, and
- (d) the high level of complaints from members about this incompetence, financial waste and the general difficulty in having to work in the building trying to adequately serve the people of New South Wales.

(Notice given 10 May 2022—expires Notice Paper No. 140)

1802. Mr Buttigieg to move—

- (1) That this House notes that:
- (a) our health workers across New South Wales have risked their lives throughout the pandemic and are continuing to work tirelessly in extremely difficult conditions,
 - (b) the work undertaken by health workers is critical for our communities and Premier Perrottet refuses to provide health workers with fair wages and conditions, and
 - (c) on 21 April 2022, it was revealed that Premier Perrottet has awarded all but one of his Liberal and National Members of Parliament a pay rise.
- (2) That this House condemns Premier Dominic Perrottet for prioritising the awarding of a pay rise for his Liberal and National Members of Parliament whilst refusing to pay our New South Wales essential health workers a fair wage.
- (3) That this House calls on the NSW Government to recognise the outstanding work of health workers and to provide them with fair wages and conditions.

(Notice given 10 May 2022—expires Notice Paper No. 140)

***1803. Dingo Cultural Heritage and Protection Bill 2022:** resumption of the adjourned debate of the question on the motion of Mr Pearson: That this bill be now read a second time (5 calendar days from 11 May 2022)—Mr Farlow. (20 minutes)

1805. Ms Faehrmann to move—

- (1) That this House notes that:
 - (a) New South Wales legislation currently allows for the release of 19 helium balloons at a time,
 - (b) balloons are considered single-use plastic as they do not biodegrade and cannot be recycled,
 - (c) balloon releases are prohibited in Victoria and Queensland but still often occur due to the availability of helium and the difficulty of enforcing restrictions on releases,
 - (d) released helium balloons return to the earth, often hundreds of kilometres from their release point and are found in fragile ecosystems including beaches and oceans, and
 - (e) during 2,985 clean-up events on selected New South Wales beaches between 2017 and 2021, 17,708 balloons and balloon-related items were collected.
- (2) That this House acknowledges that balloon litter results in the death of wildlife and farm animals by:
 - (a) blocking digestive tracks causing animals to starve or choke resulting in long, painful deaths, including entangling birds such as shearwaters and albatross so that they cannot fly or feed, and causing float syndrome in turtles, where their gut becomes paralysed, preventing them from being able to digest food,
 - (b) the Australian Competition and Consumer Commission has applied to the Therapeutic Goods Administration for the sale of helium to be restricted on advice from the Victorian Coroner due to the use of helium in suicides, and
 - (c) helium is a scarce gas, which is difficult to process and is critical for certain medical and scientific uses, and for the space industry.
- (3) That this House calls on the NSW Government to prohibit the release of helium balloons and the use of helium in balloons.

(Notice given 10 May 2022—expires Notice Paper No. 140)

1806. Mr Field to move—

- (1) That this House notes that:
 - (a) on 12 April 2022, the NSW Government renewed three coal seam gas petroleum exploration licences (PEL's) held by energy giant Santos on the Liverpool Plains,
 - (b) the renewal of the three licences means that approximately half of the 1.2 million hectares of the Liverpool Plains is now covered in renewed PELs, and
 - (c) the renewed PELs will now remain valid until 2028.
- (2) That this House expresses concern that:

- (a) the NSW Government has left the door open to coal seam gas mining on the highly valuable agricultural land of the Liverpool Plains, creating continued uncertainty for landholders, farmers and local communities, who overwhelmingly oppose gas field developments on the Liverpool Plains,
 - (b) the NSW Government continues to support coal seam gas exploration despite the known risks the industry poses to precious groundwater resources, with a recent Queensland Government report showing the coal seam gas industry takes approximately 54 billion litres of water per year in the Western Downs farming district, and
 - (c) the renewed PELs extend Santos' reach over the ecologically and culturally significant Pillaga forest, which is already under threat from Santos' Narrabri Gas Project.
- (3) That this House calls on the NSW Government to give certainty and peace of mind to the landholders, farmers and communities of the Liverpool Plains and protect water resources and the Pillaga forest by extinguishing all PELs on the Liverpool Plains.

(Notice given 10 May 2022—expires Notice Paper No. 140)

1811. Ms Boyd to move —

- (1) That this House notes the report by Youth Action and the Australia Institute entitled "Bearing the Brunt: Youth employment and the pandemic in NSW", published in April 2022, which highlights the complex ways in which the COVID-19 pandemic has had disproportionate impacts on young people with regard to employment, and calls on the NSW Government to address this crisis through several recommendations.
- (2) That this House notes that, according to the "Bearing the Brunt" report by Youth Action and the Australia Institute:
 - (a) over 80,000 youth jobs were lost in the 2020 lockdown, and 96,000 were lost in the 2021 lockdown,
 - (b) New South Wales has the highest rate of youth unemployment and job losses in Australia,
 - (c) young people in New South Wales are facing an unemployment crisis with not enough jobs, or supports in place, for young people seeking employment,
 - (d) this crisis has most prominently affected young people in regional and rural areas and Western Sydney, with:
 - (i) unemployment rates and numbers highest in areas such as the Illawarra, Southern Highlands, Shoalhaven, Newcastle and the Hunter Valley,
 - (ii) job losses during the 2020 lockdowns highest in Western Sydney, with 35 per cent of New South Wales youth jobs lost in the Outer West, 33 per cent in the South West, and 29 per cent in Bankstown,
 - (e) between 2008 and 2021, young residents of Western Sydney consistently experienced higher levels of unemployment compared to young people living in the Northern and Eastern regions of Sydney, and
 - (f) First Nations, disabled, LGBTIQ+, and/or culturally diverse young people are impacted in systemic and complex ways, and further collection of data should be done by the NSW Government to implement more successful policies that address the crisis of unemployment in New South Wales.
- (3) That this House calls on the NSW Government to:

- (a) commit to directly address the crisis of youth unemployment through targeted policy which pays specific attention to low socio-economic areas, regional and rural areas, and areas with higher rates of First Nations residents,
- (b) increase funding for the NSW Government Graduate Program, the Disability and Aboriginal Internship Program, the fee-free TAFE initiative, youth-specific services, career advisor programs in public schools, and reinstate funding for employment support services such as the Smart, Skilled and Hired programs, and
- (c) work to improve transport affordability for young workers and job seekers, particularly for those living in areas with less public transport.

(Notice given 11 May 2022—expires Notice Paper No. 141)

1813. Mr Primrose to move—

- (1) That this House affirms that the State Government has a critical role in ensuring the integrity of the nomination system for those seeking election to local government.
- (2) That this House notes that:
 - (a) in 2021, when Councillor Sarah Richards successfully ran for re-election as a Hawkesbury Councillor, on her Candidate Information Sheet, Councillor Richards declared to the NSW Electoral Commission that she was not closely linked to a property developer despite her partner, Mr Matthew Bennett, co-owning a company that advertised itself as providing an "end to end" role in the property industry,
 - (b) Councillor Richards subsequently gave a lengthy explanation when confronted by the media with evidence of Mr Bennett's involvement in property development activities but key parts of the explanation are contradicted by publicly available documentation, and
 - (c) while Mr Bennett is not listed in New South Wales records as the legal owner of any land:
 - (i) in November 2020 he boasted on Facebook that BCM Property Group had purchased the heritage listed Richmond Post Office stating: "We bought the Post Office! Matthew Bennett is back in Hawkesbury and he's bringing his BCM Property team with him! After dreaming of buying the State Heritage Listed Richmond Post Office for over 25 years, Matthew officially took the keys today!",
 - (ii) a development application was subsequently approved for the property, in the name of the BCM Property Group and the email address on the application is matthew@bcmproperty.com.au,
 - (iii) the Heritage Impact Statement for the extensive work to be done on the site on page 1 states: "The Heritage Impact Statement has been prepared at the request of Mr Matthew Bennett".
- (3) That this House further notes that:
 - (a) BCM Property Group put numerous posts on Facebook showing Mr Bennett and the extensive work associated with the renovation and, although Ventures 101 Pty Ltd is listed as the owner, BCM Property paid the application fee to Hawkesbury Council, and the Heritage Impact Statement states that: "This Heritage Impact Statement has been prepared at the request of Mr Matthew Bennett",
 - (b) Councillor Richards also claimed that Mr Bennett was incorrectly listed as an applicant in a development application made to Blacktown Council on behalf of Elite International Developments as just a consultant, however he not only represented them at government conferences, but was hosted on a trip to China by Elite International, describing himself as the "Australian Development Manager" for Elite,

- (c) Councillor Richards stated that Mr Bennett "is not the applicant for any developments", but in 2021 he was listed as "the proponent" providing development consultancy for residential properties in a planning application to Penrith Council to relax planning restrictions at 61-79 Henry Street, Penrith,
 - (d) Councillor Richards also claimed that Mr Bennett was only listed as the point of contact for another development as inter alia "he helped his elderly parents and no money changed hands" and to protect a private cemetery, however:
 - (i) this application submitted to Hawkesbury Council in February 2021 was for an \$11 million subdivision for seniors' living on land owned by his parents,
 - (ii) the Council refused the application and the Bennett Family is appealing,
 - (iii) the court file reveals that Mr Matthew Bennett's involvement is much greater than simply a "point of contact",
 - (iv) the file includes advice from lawyers Mills Oakley - it lists "Matthew Bennett of BCM Property Group" as the client, provides 15 pages of advice about the substantive planning issue, and refers to Mr Matthew Bennett as having submitted the application himself, stating: "our client, in submitting the Proposed Development Application ...",
 - (e) the legal advice from Mills Oakley is just one of a number of documents that list Mr Matthew Bennett of BCM as a client, including:
 - (i) an access report by Vista Access Architects,
 - (ii) multiple items by Martens and Associates including waste water management assessment; civil works plan; and concept stormwater management report,
 - (iii) NatHERS and BASIX assessment by Efficient Living,
 - (iv) tree impact assessment report by Mark Bury Consulting, and
 - (f) these reports would have cost tens of thousands of dollars to produce, yet Councillor Richards claimed that "no money changed hands" and Mr Matthew Bennett listed as the client.
- (4) That this House calls on the NSW Government, as a matter of high priority, to investigate whether Councillor Richards made a false declaration on her Candidate Information Sheet when she declared that she was not closely linked to a property developer, and if so, to initiate action to ensure the integrity of the nomination system for those seeking election to local government has not been compromised.

(Notice given 12 May 2022—expires Notice Paper No. 142)

1814. Mr Field to move—

- (1) That this House notes that:
 - (a) 85 per cent of the South Coast subregion and 80 per cent of the Eden region were impacted by fire in the 2019/20 bushfires,
 - (b) leaked advice from the Natural Resources Commission (NRC) on post-fire native forest logging identifies all of the management zones along the South Coast as at extreme or high risk of serious environmental harm from continued harvesting, and for Nowra and Narooma forest management zones, identified as at extreme risk, the NRC recommended total suspension of harvesting,
 - (c) despite NRC advice Forestry Corporation continues to log in multiple state forests across the South Coast including in Shallow Crossing, Currowan and Mogo state forests,
 - (d) since Forestry Corporation resumed logging on the South Coast in March 2020, hundreds of breaches of their operating conditions have been recorded, including felling trees inside an

exclusion zone in Currowan State Forest as recently as December 2021, and that no fines or prosecutions have been finalised regarding these breaches,

- (e) a sustainable yield review completed by Forestry Corporation in December 2020 identified an anticipated reduction in short-term wood supply on the South Coast as a result of the fires of 30 per cent, and the NRC report assessed this reduction in supply would continue out until the 2070s, and
 - (f) in November 2021, a report was published by Frontier Economics and Professor Andrew Macintosh from the Australian National University entitled "Comparing the value of alternative uses of native forests in Southern NSW", with the report presenting the findings of a cost benefit analysis comparing two scenarios, one being the status quo where logging continued, and the second, ceasing harvesting and capturing the values associated with the standing forest, and that this analysis found that:
 - (i) there is an economic benefit from stopping native forest harvesting and obtaining higher value environmental and recreational benefits from the forest, including the value of carbon credits and the economic benefits of creating mountain bike recreation areas,
 - (ii) when considered over a 30 year timeframe from 2021-2051, the benefits of ceasing native forest harvesting are higher than the costs of ceasing native forest harvesting by \$61.96 million,
 - (iii) ceasing native forest harvesting in the southern forests would generate significant greenhouse gas abatement, concluding "there are unlikely to be many larger single, low-cost abatement opportunities in NSW or across Australia",
 - (iv) employment in harvesting and processing native forests has decreased significantly in recent decades, that there are now around 110-120 harvest and haulage jobs and 180-200 processing jobs in the southern forests, and that the decline in the forestry workforce means that by 2019-20 the proportion of forestry employees ranges between only 0.1 per cent and 1.6 per cent of the total workforce in the relevant local government areas.
- (2) That this House calls on the Government to:
- (a) listen to expert advice from the NRC and appropriately regulate native forest harvesting after the destructive 2019/20 bushfire season, including:
 - (i) ceasing logging operations in the Nowra and Narooma forest management zones,
 - (ii) expediting compliance actions from reported breaches of harvesting rules,
 - (b) acknowledge the poor economic outlook for the native hardwood harvesting industry due to dwindling wood supply and high operational costs, and
 - (c) plan for a positive future for timber industry workers and our southern forests based on the ecological and economic benefits of ceasing harvesting, drawing on the analysis in the recent Frontier Economics report, and that this should include:
 - (i) providing certainty and support to industry and communities through a transition package,
 - (ii) seizing economic opportunities for nature based recreation and tourism in state forests, including mountain biking,
 - (iii) securing the significant carbon sequestration benefits of ceasing harvesting and allowing forests to mature, helping New South Wales reach its net zero by 2050 target.

(Notice given 12 May 2022—expires Notice Paper No. 142)

1815. Ms Boyd to move—

- (1) That this House notes that 17 June 2022 is World Day to Combat Desertification and Drought, an international day that raises awareness on the importance of limiting land degradation and which calls on all levels of government to promote and enforce sustainable land development strategies.
- (2) That this House notes that, according to the report entitled "State of Nature", published in 2021 by the Nature Conservation Council:
 - (a) climate crises and extreme weather events are primary causes for the rapidly deteriorating health of land and soil, as well as the availability of water resources across New South Wales,
 - (b) deforestation due to logging and land clearing has seen approximately 54,500 hectares of native forest, vegetation, woodland, and grassland destroyed in 2019, and
 - (c) climate crises are severely impacting the health of water resources, including increased evaporation rates, reduced run-off times, and changing patterns of rainfall and peak river flows.
- (3) That this House calls on the NSW Government to act urgently to mitigate the effects of the climate crisis and extreme weather events on land degradation, desertification and drought.

(Notice given 12 May 2022—expires Notice Paper No. 142)

1816. Ms Boyd to move—

- (1) That this House notes that Wednesday 15 June 2022 is World Elder Abuse Awareness Day, a day that promotes education on the signs of elder abuse and how to take action to prevent it.
- (2) That this House notes that, according to the Older Women's Network (OWN):
 - (a) women are at greater risk of elder abuse compared to men, with data from elder abuse helplines in Australia indicating that approximately 70 per cent of elder abuse victims are women,
 - (b) gender-based violence and abuse of older people remain separated in research and practice, making the problem of violence against women invisible on the policy front with few specific interventions, and
 - (c) greater direct action is needed from all governments in Australia to reduce the prevalence of abuse of older people.
- (3) That this House calls on the NSW Government to take action to address elder abuse in the community by increasing funding for the aged care industry with specific regards to staff pay, training and ratios, and greater supports for older women such as mental health care and health education strategies that promote healthy assertiveness, the right to safety and autonomy, and the importance of respectful relationships.

(Notice given 12 May 2022—expires Notice Paper No. 142)

1817. Ms Sharpe to move—

- (1) That this House notes that on Saturday 6 November 2021, the Nature Conservation Council of New South Wales passed a motion calling for the NSW Government to protect the iconic platypus.
- (2) That this House further notes that:

- (a) the platypus is currently being considered for listing as a threatened species,
 - (b) in New South Wales, the number of platypus observations has declined by around 32 per cent in the last 30 years, and
 - (c) platypus populations face ongoing threats from land clearing, unsustainable water extraction, river regulation, extreme droughts, entanglement in fishing equipment, discarded waste, and industry production, which continue to place pressure on freshwater ecosystems, reduce water quality and destroy riparian vegetation.
- (3) That this House calls on the NSW Government to:
- (a) take action towards conducting field research on Western Sydney’s river systems to prevent pollution from factories and building sites entering the river system and killing the platypus and its fragile food chain,
 - (b) allocate additional funding to environmental DNA sampling to identify and monitor platypus populations in the river system, and
 - (c) ensure that greater monitoring and conservation efforts are taken to manage platypus habitats and stabilise further loss of biodiversity in New South Wales.

(Notice given 17 May 2022—expires Notice Paper No. 143)

1818. Ms Sharpe to move—

- (1) That this House notes that:
- (a) Tuesday 17 May 2022 is the International Day Against Homophobia, Biphobia, Interphobia and Transphobia, also known by its acronym IDAHOBIT,
 - (b) IDAHOBIT commemorates the day the World Health Organisation removed homosexuality from the Classification of Diseases and Related Health Problems, and
 - (c) it is a day to celebrate the progress that has been made for the LGBTIQ+ community, as well as acknowledge the work we still need to do in order to end discrimination.
- (2) That this House further notes that:
- (a) 77 per cent of trans and gender diverse people in Australia report being discriminated against in the past 12 months,
 - (b) 39 per cent of Australian LGBTIQ+ people have experienced depression in the past 12 months, and
 - (c) in 2021, over half of LGBTQA+ young people aged 14 to 21 had seriously considered attempting suicide in the past 12 months.
- (3) That this House calls on the NSW Government to work towards a society in which the LGBTIQ+ community enjoys equal opportunities, safety and inclusion.

(Notice given 17 May 2022—expires Notice Paper No. 143)

1822. Ms Boyd to move—

- (1) That this House notes that May 17th is the International Day Against Homophobia, Biphobia and Transphobia, also known as IDAHOBIT, and further notes that:
 - (a) IDAHOBIT celebrates the lives, achievements, identities, rights, and integrities of LGBTIQ+ people and raises awareness for the continuing discrimination, abuse, and disadvantages they continue to face in everyday life, and
 - (b) the theme for this year’s IDAHOBIT is “Our Bodies, Our Lives, Our Right”, which aims to inspire many forms of LGBTIQ+ advocacy, including the right to freely express gender identity and be protected from violence and discrimination.
- (2) That this House further notes that according to the report titled “Snapshot of Mental Health and Suicide Prevention Statistics for LGBTIQ+ People” published by LGBTIQ+ Health Australia in October 2021:
 - (a) LGBTIQ people are approximately 6 times more likely to experience and be diagnosed with depression and 3 times more likely to experience and be diagnosed with an anxiety-related condition,
 - (b) 5.2 percent of LGBTIQ people aged 18 and over reported attempting suicide in the past 12 months, compared with the reported 1.1 percent of the general population, and
 - (c) 53.2 percent of transgender and gender diverse people aged 16 and over reported having experienced sexual violence or coercion, compared with the reported 13.3 percent of the general population.
- (3) That this House affirms that:
 - (a) homophobia, transphobia, lesbophobia, biphobia, intersexphobia and all forms of violence, discrimination and abuse against people with marginalised sexualities and gender identities continue to cause great harm and damage to the lives of so many individuals every day,
 - (b) LGBTIQ+ people deserve to live with equal dignity and be treated with equal respect in society, and
 - (c) LGBTIQ+ rights are non-negotiable and must not be up for discussion.

- (1) That this House notes that most fines issued as a result of infringement notices during COVID lockdowns have now entered the enforcement stage:
 - (a) thousands of COVID-19 fines issued were to the State's most vulnerable, many are invalid, unfair and have caused the disadvantaged to amass debt they are unable to pay,
 - (b) western Sydney suburbs that are home to the most socioeconomically disadvantaged residents in the city bore the brunt of COVID-19 fines during the ramp-up in enforcement during last year's Delta outbreak, and
 - (c) small towns with high First Nations populations including Walgett, Brewarrina and Wilcannia had the most fines per capita over the entire outbreak.
- (2) That this House notes that:
 - (a) on 15 September 2021 the Australian Capital Territory/New South Wales Aboriginal Legal Service, Redfern Legal Centre, Community Legal Centres New South Wales and the Public Interest Advocacy Centre wrote to the then Premier and Police Minister expressing concern about the impact of COVID-19 fines on vulnerable people and communities in New South Wales, and
 - (b) in April this year the President of the Law Society of New South Wales wrote to the Premier warning him that thousands of fines issued for minor breaches of the COVID-19 health orders were having "a disproportionate and unjust impact on certain vulnerable groups of people, and in particular children and Aboriginal people".
- (3) That this House calls on the Government to act in the public interest and withdraw all fines, infringements, enforcements and court election actions related to the issuing of alleged infringements of COVID -19 public health orders particularly for people under the age of 21 and all Aboriginal and Torres Strait Islander people.

 - (c) the new campaign encourages young people to check consent before engaging in sexual activity and helps protect people from sexual violence through greater community education about consent, and
 - (d) no law can ever erase the trauma of sexual assault, but the new consent laws and campaign form a key element of the Government's commitment to preventing and responding to sexual assault.
- (2) That this House acknowledges the advocacy of:

- (1) That this House notes that:
- (a) the IRIS Hotel Group has applied to the Liverpool City Council for development approval to construct a hotel in a residential area of Casula which would introduce 30 poker machines into the local area, and
 - (b) the proposed hotel will replace the existing Ibis Hotel which has been used by Housing New South Wales to provide temporary housing and emergency and crisis accommodation to the community, refugees, ex-prisoners leaving detention and people experiencing domestic violence.
- (2) That this House recognises this development is inappropriate because:
- (a) the area already has a high incidence of gambling with \$92,342 of gaming machine profit collected in the Liverpool LGA between June to December 2020, an 8.3 per cent increase on the same period and the Casula Crossroads Hotel ranked 6 of 1269 for highest gaming net profit between 1 January 2021 to 30 June 2021,
 - (b) the Casula and Liverpool LGAs are home to the bottom 46 per cent of New South Wales households in terms of household income and residents in skilled occupations and experience high levels of unemployment,
 - (c) the hotel will be built in a primarily residential area in close proximity to public housing, women's refuges, aged care villages, emergency public accommodation and a large public primary school,
 - (d) the New South Wales Bureau of Crime Statistics and Research has identified the area surrounding the site as a hotspot area for domestic-related assault in Casula, and
 - (e) the Casula community is strongly opposed to the construction of the hotel and was previously successful in their campaign against a similar development in 2016 which was rejected by Liverpool City Council and the Land and Environment Court.

- (3) That this House calls on the Liverpool City Council to reject the application of the IRIS Hotel Group to construct a hotel at 437 Hume Highway Casula because of the profoundly negative impact it would have on the community.

(Notice given 7 June 2022—expires Notice Paper No. 146)

 - (e) metropolitan Sydney has Mother and Baby Units at the Royal Prince Alfred Hospital, the St John of God Hospital in Burwood and Westmead Hospital.
- (2) That this House acknowledges that:
- (a) mothers and primary caregivers in rural and regional New South Wales have no local access to Mother and Baby Units or any other inpatient care that allows them to remain with their babies and co-parents, and
 - (b) in order to access treatment at a Mother and Baby Unit, rural and regional primary caregivers are currently forced to travel with their babies to Sydney, often a distance of hundreds of kilometres.
- (3) That this House calls on the Government to commit to the development of Mother and Baby Units in regional New South Wales including a unit in the Northern Rivers region.

(Notice given 7 June 2022—expires Notice Paper No. 146)

- (d) seats that experienced extreme weather events, such as Brisbane, Ryan, Griffith, Richmond, Eden Monaro and Macquarie, registered some of the strongest swings against the coalition government,
 - (e) the climate-denying United Australia Party gained just a 0.7 per cent swing and failed to significantly impact preference flows after spending an estimated \$70 to \$100 million on advertising,
 - (f) even seats in communities with higher numbers of workers employed in the fossil fuel industry, such as the seat of Hunter, saw swings against the coalition, and
 - (g) despite winning a majority government the Labor Party recorded its lowest primary vote since the 1930s.
- (2) That this House acknowledges that:
- (a) the 2022 federal election has fundamentally changed politics in Australia after voters rejected the coalition, the two-party system and right-wing climate culture wars,
 - (b) the most successful candidates were those who embraced bold action on climate and despite climate change ranking as one of the top issues for voters it was almost entirely absent from the coalition and Labor campaigns, and
 - (c) the results of the election demonstrate that the climate wars are over, and the Australian people want genuine and urgent action on climate change.
- (3) That this House extends its heartfelt gratitude to the countless organisations and individuals who have campaigned tirelessly for climate action over the past three decades.

(Notice given 7 June 2022—expires Notice Paper No. 146)

1856. Ms Higginson to move—

- (1) That this House notes that:
- (a) old trees are the primary storehouses of carbon in forests, provide essential hollows for animals to nest and den in, and provide the most abundant nectar and seed,
 - (b) it is only once trees are over 120-180 years old that they begin to develop hollows, and not until they are over 220 years old that they develop the large hollows required by many species, and
 - (c) since European settlement most of our oldest trees have been lost, with only scattered old trees left across agricultural lands and within logged forests.
- (2) That this House notes that:
- (a) the Natural Resources Commission's (NRC) report 'Final report Coastal IFOA operations post 2019/20 wildfires, June 2021' was provided to the government in June 2021,

 - (i) to retain a minimum of eight hollow-bearing trees per hectare where they exist (as per the requirement in the standard Coastal IFOA prescriptions),
 - (ii) that if hollow-bearing trees are not available, then retain suitable substitutes, in priority order being, potential future hollow-bearing trees, the largest mature tree in the stand or a regrowth tree that is not suppressed,

- (iii) to retain two recruitment trees per retained hollow-bearing tree, and
 - (c) that the report has been kept Cabinet in Confidence and that no action has been undertaken to implement the recommendations from the NRC.

- (2) That this House notes that in fact, Vishva Hindu Parishad Australia is a well-regarded community body undertaking valuable work in schools, welfare, ethics and the spiritual enrichment of the New South Wales Hindu population.

 - (i) Yadboro State Forest - Compartments 436, 441 and 463,
 - (ii) South Brooman State Forest - Compartment 66,
 - (b) logging in these compartments will follow the current harvesting in nearby Shallow Crossing and Currowan state forests,
 - (c) more than 50 per cent of the expected yield from these forests will be low quality salvage wood, used for export pulp or firewood,
 - (d) all of the state forests named above are located in the Batemans Bay Forest Management Zone that was identified as "high risk" by the Natural Resources Commission (NRC) in their June 2021 cabinet-in-confidence report titled "Coastal Integrated Forestry Operations Approval (IFOA) operations post 2019/20 wildfires",
 - (e) the NRC recommended significant additional protections be imposed on any harvesting operations in "high risk" areas to meet the requirements of ecologically sustainable forest management,
 - (f) additional protections recommended by the NRC included:
 - (i) maintaining temporary refuges based on a fixed retention requirement of 75 per cent in the local landscape,
 - (ii) for a period of 10 years, for each of the eight hollow bearing trees per hectare that are required to be retained under the CIFOA, an additional two recruitment trees - which are future hollow bearing trees - be maintained, significantly increasing tree retention requirements,

- (g) Forestry Corporation continues to harvest under the pre-fire Coastal IFOA, which is recognised by the Environmental Protection Authority, as well as the NRC, as being inadequate after the unprecedented extent and severity of the black summer bushfires, particularly on the New South Wales South Coast,
 - (h) since the fires, the Environment Protection Agency has investigations of Forestry Corporation operations in seven compartments in the Batemans Bay Forest Management Zone including at Currowan, South Brooman, and Mogo State Forests resulting in three penalty notices being issued, two investigations still underway and one completed without a resolution yet determined,
 - (i) there is widespread community opposition to logging in the affected region, including from the Brooman State Forest Conservation Group, who last year included the following statements in their submission to the parliamentary inquiry into the long term sustainability and future of the timber and forest products industry:
 - (i) "We are a diverse group, from ages 17 to 67, including farmers, tradespeople, nurses and teachers.",
 - (ii) "The residents of this region want to make clear to Forestry New South Wales and New South Wales policy makers that a 'business as usual' approach is no longer acceptable after the summer of 2019-2020.",
 - (iii) "The mental health of the community is suffering. We lived through the fires and subsequent flood. We see the impact of the fires every day and now live with hearing and seeing the additional destruction of logging. That is made worse by the economic stress of fires, floods and COVID-19, and frustration that despite demonstrated breaches of the rules the logging is continuing.", and
 - (j) in the midst of an extinction crisis, the continued degradation of forest ecosystems and destruction of threatened species habitat on public land by a publicly owned organisation is a disgrace.
- (2) That this House calls on the Government to acknowledge the serious impacts of the 2019/20 fires on South Coast forest and respond to the urgent recommendations of the Natural Resources Commission by establishing a plan to transition out of public native forest logging on the New South Wales South Coast.

1866. Mr Buttigieg to move—

That, under standing order 52, there be laid upon the table of the House within 21 days of the date of passing of this resolution the following documents, created since 1 November 2020, in electronic format if possible, in the possession, custody or control of the Minister for Western Sydney, Minister for Transport, Minister for Education and Early Learning, Minister for Health, Treasurer, Minister for Finance, Minister for Skills and Training, Minister for Infrastructure, Minister for Cities and Minister for Active Transport, Minister for Planning and Minister for Homes, Minister for Metropolitan Roads, Minister for Aboriginal Affairs, Minister for Environment and Heritage, Minister for Emergency Services and Resilience, Minister for Police, Department of Premier and Cabinet, Department of Planning and Environment, Treasury, Transport for NSW, Sydney Trains, Sydney Metro, State Transit, Infrastructure NSW, Western Parkland City Authority, Department of Education, Ministry of Health or Resilience NSW relating to the Western Sydney Aerotropolis Precinct Plan:

- (a) all documents relating to the final Western Sydney Aerotropolis Precinct Plan,
- (b) all documents relating to the draft Western Sydney Aerotropolis Precinct Plan, and
- (c) any legal or other advice regarding the scope or validity of this order of the House created as a result of this order of the House.

(Notice given 7 June 2022—expires Notice Paper No. 146)

1869. Ms Sharpe to move—

- (1) That this House notes that:
 - (a) 31 May was World Parrot Day, which is a day to celebrate and raise awareness of the world's parrot population and the dangers they face,
 - (b) there are around 350 species of parrots around the world, with over 50 species living in Australia, and
 - (c) New South Wales alone has almost as many parrots as the continents of Africa and Asia combined.
- (2) That this House further notes that:
 - (a) the swift parrot is listed as endangered by the New South Wales Government and critically endangered by the Commonwealth, and
 - (b) the New South Wales Saving Our Species strategy identifies loss of habitat as a key threat the swift parrot currently faces.
- (3) That this House further notes that:
 - (a) in spite of the commitment to the protection of threatened species, a swift parrot identified couple of the spotted gum forest within the Mogo State Forest has been logged, and
 - (b) this unnecessary destruction has led to the loss of crucial winter habitat for the swift parrot, as well as further loss of their food supply.
- (4) That this House calls on the Government to:
 - (a) listen to the community of scientists and environmental advocates who are desperately fighting for the biodiversity of New South Wales, and
 - (b) honour the commitment it made to protect the threatened species within state forests.

(Notice given 8 June 2022—expires Notice Paper No. 147)

1873. Mr Primrose to move—

- (1) That this House notes that on Wednesday 8 June 2022 public servants across the state engaged in industrial action as the NSW Liberal-National Government failed to provide a real wage increase, with its mandated salary caps.
- (2) That this House thanks hard working public sector employees across our state for the important work they do whilst serving the people of New South Wales.
- (3) That this House thanks the staff across the Department of Parliamentary Services for the support they provide in the smooth functioning of the Parliament of New South Wales, and understands their reasons for taking strike action.
- (4) That this House calls on the NSW Liberal-National Government to come to the negotiating table, and deliver wages and conditions that reflect the crucial work that they do.

(Notice given 8 June 2022—expires Notice Paper No. 147)

1875. Mr Field to move—

- (1) That this House notes:
 - (a) recent media quoting from a NSW Government report into a six week data analysis and surveillance operation in October and November 2021 between the Liquor and Gaming NSW, the NSW Crime Commission and the Australian Criminal Intelligence Commission,
 - (b) the operation found suspected money laundering activities at 178 venues involving about \$5.5 million in cash with 40 per cent of activity identified in just 10 venues,
 - (c) Canterbury Bankstown and Fairfield Local Government Areas had the most identified suspicious transactions accounting for the majority of potentially laundered money,
 - (d) one case study detailed in the report was of a man at the Mount Lewis Bowling Club in Greenacre who likely laundered \$60,400 through six poker machines in under two hours,
 - (e) the report stated that in some cases professional facilitators linked to organised crime groups were involved, including lawyers, real estate agents and accountants, and
 - (f) the report concludes that there is “little doubt that electronic gaming machines are being used for large scale money laundering by organised criminal groups in NSW.”
- (2) That this House further notes:
 - (a) NSW Liquor and Gaming Authority chair Phillip Crawford wrote to Premier Perrottet on 30 November 2021 stating that a “special commission of inquiry into money laundering in hotels and registered clubs” was needed because authorities had recently uncovered “clear evidence that money laundering appears to be just as prevalent in hotels and clubs as ... in the casino industry, if not more so”,
 - (b) Premier Perrottet failed to establish a special commission of inquiry, prompting the NSW Crime Commission to establish their own inquiry on 17 December 2021 which has not conducted any public sittings and the status of which is unknown, and
 - (c) the response to evidence of large-scale money laundering through poker machines in New South Wales clubs and pubs stands in stark contrast to the public inquiries established into Crown and the Star casino which have promoted significant public and media scrutiny, including significant recommendations and proposed reforms through the Bergin Inquiry.
- (3) That this House:
 - (a) expresses its concern that the lack of a special commission of inquiry into money laundering by organised crime through poker machines in New South Wales pubs and clubs will lead to an insufficient policy response to the recognised facts that electronic gaming machines are being used for large scale money laundering by organised criminal groups in New South Wales, and
 - (b) calls on Premier Perrottet to establish such an inquiry.

(Notice given 8 June 2022—expires Notice Paper No. 147)

 - (b) served as Mayor of Leichhardt from 1996 to 1999,
 - (c) was the former Chief of Staff and local campaign manager to the Hon Anthony Albanese MP, current Prime Minister of Australia,
 - (d) served as President of Grayndler FEC for many years, and
 - (e) worked to defend the pay and conditions of public sector workers as Industrial Manager of the Public Service Association of New South Wales.
- (3) That this House honours the countless contributions made by Kristine Cruden to the Australian labor movement and her community in the Inner West of Sydney.
- (4) That this House sends its sincere condolences to Kristine Cruden's family, friends, colleagues, and community.
- (5) That this resolution be communicated by the President to the family of Kristine Cruden.

(Notice given 21 June 2022—expires Notice Paper No. 149)

1882. Ms Sharpe to move—

- (1) That this House notes that:
 - (a) Sunday 3 July 2022 is International Plastic Bag Free Day,
 - (b) lightweight plastic bags can take up to 1,000 years to degrade completely, and
 - (c) prior to degrading fully, plastic bags break apart and introduce damaging microplastics into the natural environment.
- (2) That this House further notes that:
 - (a) Labor introduced two bills to ban single use plastic bags in New South Wales during 2016 and 2019, both were opposed by the Government,
 - (b) 2022 will see the first Plastic Bag Free Day following the Government finally legislating to ban lightweight single use plastic bags in New South Wales,
 - (c) the New South Wales ban on lightweight single use plastic bags is a crucial first step in removing plastic waste from our natural environment, and

- (d) the Environmental Protection Authority is the regulator of the ban on single-use plastic items in New South Wales.
- (3) That this House calls on the Government to adequately resource the Environment Protection Authority to work with businesses and communities to remove plastic waste from our environment.

(Notice given 21 June 2022—expires Notice Paper No. 149)

1883. Ms Sharpe to move—

- (1) That this House notes that 22 June of 2022 is World Rainforest Day, a global movement to protect and restore rainforests which only cover 6 per cent of the earth, but house 50 per cent of the world's biodiversity.
- (2) That this House further notes that:
 - (a) former Labor Premier Neville Wran created 20 national parks for New South Wales and introduced unprecedented environmental protections for New South Wales rainforests,
 - (b) during the Black Summer bushfires, a third of New South Wales rainforests were burnt, with some rainforests burning for the first time in recorded history,
 - (c) new studies show that as a result of these fires there has been a drop in the number of fruit-eating birds, which play a key role in forest rejuvenation, and
 - (d) the recovery of rainforest ecosystems impacted by fire is likely to be extremely slow, with rainforest ecosystems being vulnerable to future fires and extreme weather patterns.
- (3) That this House calls on the Government to:
 - (a) invest in active preventative plans to protect our fire-sensitive rainforests from future fires, and
 - (b) ensure that greater conservation efforts are taken to protect and preserve what little undamaged rainforest we have left.

(Notice given 21 June 2022—expires Notice Paper No. 149)

1884. Ms Sharpe to move—

- (1) That this House notes that:
 - (a) thanks to work of dedicated citizen scientists we have tracked and identified 80 new koalas living in and around the Heathcote area, and
 - (b) these koalas will be essential in the effort to boost the number of koalas who are on track to be extinct by 2050.
- (2) That this House further notes that:
 - (a) the Government has an opportunity to preserve a very important wildlife corridor at Woronora heights that supports this population of these koalas,
 - (b) a large portion of this wildlife corridor is about to be sold off to developers by Water NSW, and

- (c) if this land is sold, it would diminish the corridor to 340 metres wide which is well under the minimum 500 metres the chief scientist has recommended for maintaining koala connectivity.
- (3) That this House calls on the Government to:
- (a) immediately withdraw its development application on 22 Bundanoon Rd Woronora heights, and
 - (b) enter into negotiations with other agencies to purchase or transfer the land so that it can become part of a reserve and be protected for koalas to use forever.

(Notice given 21 June 2022—expires Notice Paper No. 149)

1889. Mr D'Adam to move—

 - (i) the Office of the Premier,
 - (ii) the offices of all responsible government ministers,
 - (iii) the Chief Executive and Board of Infrastructure NSW,
 - (iv) the Chief Executive and Board of the Barangaroo Delivery Authority,
 - (v) any other person engaged in the negotiations on behalf of the NSW Government,
 - (b) the probity of negotiations between the NSW Government, Lendlease, and Crown concerning the Barangaroo Sight Lines,
 - (c) the integrity, efficacy and value for money of 'unsolicited proposals', including the 'unsolicited proposal' initiated by Crown Resorts Limited in relation to the Barangaroo development project,
 - (d) any potential biases resulting in the preferential treatment of the commercial interests of one party over the other,
 - (e) measures necessary to ensure the integrity of the Barangaroo Redevelopment project and similar projects in the future, and
 - (f) any other related matter.
- (3) That the committee report by 11 November 2022.
- (4) That, notwithstanding anything to the contrary in the standing orders, the committee consist of seven members comprising:
 - (a) three government members,
 - (b) two opposition members, including Mr D'Adam, and
 - (c) two crossbench members, including Mr Latham.
- (5) That the Chair of the committee be Mr Latham and the Deputy Chair be Mr D'Adam.
- (6) That, unless the committee decides otherwise:

- (a) submissions to inquiries are to be published, subject to the Committee Clerk checking for confidentiality and adverse mention and, where those issues arise, bringing them to the attention of the committee for consideration,
- (b) the Chair's proposed witness list is to be circulated to provide members with an opportunity to amend the list, with the witness list agreed to by email, unless a member requests the Chair to convene a meeting to resolve any disagreement,

(Notice given 21 June 2022—expires Notice Paper No. 149)

1890. Ms Hurst to move—

- (1) That this House notes that:
 - (a) on 21 June 2022, I had a special guest in my office: Buddy the beagle, who is also a medical experimentation survivor,
 - (b) Buddy was rescued and rehomed in 2019, on the night of my inaugural speech in this place, after eight years in a medical experimentation facility in New South Wales,
 - (c) no one except the staff at the facility can say what experiments were done to Buddy against his will, during the eight years he was held,
 - (d) while Buddy has found a loving forever home, most other dogs used in experimentation are not so lucky, and
 - (e) the latest 2020 data tells us that almost 1000 dogs were held and used in experimentation facilities in New South Wales, but none of them were rehomed – because rehoming cats and dogs used in experimentation is not mandatory in New South Wales.
- (2) That this House recognises the need to give animals the right to be released from experimentation.

(Notice given 21 June 2022—expires Notice Paper No. 149)

1891. Ms Hurst to move—

- (1) That this House notes that:
 - (a) the third week in June marked Animal Rights Awareness Week 2022,
 - (b) the community cares deeply about animals and wants to see them protected from harm,

- (c) unfortunately, in New South Wales, our animal protection laws are incredibly outdated and ineffective, and expose animals to serious risk of harm, and
 - (d) by way of example, animals are classified as mere ‘property’ under a legal fiction, so our laws do not recognise the sentience or intrinsic value of animals, and there are huge exemptions and defences that allow the mistreatment of millions of farmed animals and other animals used for profit.
- (2) That, in recognition of Animal Rights Awareness Week 2022, this House calls on the Government to take swift action to reform animal protection laws to reflect modern community expectations and science.

(Notice given 21 June 2022—expires Notice Paper No. 149)

1898. Ms Faehrmann to move—

- (1) That this House notes that there are multiple waste to energy projects in the New South Wales planning system including:
- (a) the Next Generation project at Eastern Creek,
 - (b) the Cleanaway Project at Eastern Creek,
 - (c) the Suez Waste project at Matraville,
 - (d) the Veolia project at Tarago, and
 - (e) the Energy Australia project at Mt Piper.
- (2) That this House also notes that:
- (a) communities across the State are strongly opposed to waste to energy incinerators being built in their backyard,
 - (b) the Western Sydney community has campaigned extensively against the construction of waste to energy incinerators in Eastern Creek since they were first proposed in 2013,
 - (c) in November 2020, the Government and Opposition voted against the Greens' Environmental Planning and Assessment Amendment (Prohibition of Waste to Energy Incinerators) Bill which would have banned the construction of waste to energy incinerators in New South Wales,
 - (d) in September 2021, the Environment Protection Authority (EPA) released its Energy from Waste Infrastructure Plan establishing four regional zones for the development of waste to energy incinerators and a prohibition on waste to energy incinerators in the Greater Sydney Basin with certain exemptions,
 - (e) in a media release dated 10 September 2021, then Deputy Premier, the Hon John Barilaro MP, stated the plan gave certainty to communities and made clear where new thermal waste to energy facilities can and cannot proceed, and then Minister for Energy and Environment the Hon Matt Kean MP stated the plan respected the concerns of local communities,
 - (f) in a media release dated 10 September 2021 the Member for Mulgoa Tanya Davies MP stated the Government's Energy from Waste Infrastructure Plan "ensures that large-scale Energy from Waste projects cannot be developed in Western Sydney and ensures they are banned in the Sydney basin",
 - (g) in the transcript of a "waste to energy Q & A" meeting between the EPA and regional councils dated 5 November 2021, the EPA Executive Director of Regulatory Policy, Initiatives and Advice, stated that "under the Infrastructure Plan, Energy from Waste within the Greater Sydney Basin can happen under the exemption pathway", and
 - (h) it is unclear if the three waste-to-energy incinerator proposals in Sydney will be eligible to be built under the draft Energy from Waste regulation or if that regulation will be introduced in time to have an impact on those proposals.

- (3) That this House:
- (a) acknowledges that the Government's Energy from Waste Infrastructure Plan and draft regulation fails to protect communities from toxic waste incinerators both in the Greater Sydney region and across New South Wales, and
 - (b) calls on the Government to ban waste to energy incinerators in New South Wales.

(Notice given 21 June 2022—expires Notice Paper No. 149)

1899. Ms Faehrmann to move—

- (1) That this House notes that:
- (a) there are no standard guidelines in place across New South Wales for the protection of native fauna under development application approval provisions, leading to the inconsistent application of wildlife protection standards in approvals across the State,
 - (b) Fauna Management Plans, which are voluntary for developers, often apply a range of inconsistent animal care standards and fail to include protocols that wildlife carers, researchers and vets consider essential to mitigate animal suffering,
 - (c) developers are not required to ensure someone who is licensed to euthanise wildlife is present when clearing bushland containing threatened species and other wildlife, leaving wildlife vulnerable to inhumane euthanasiation,
 - (d) wildlife injuries have already been recorded during the ongoing demolition works at the Mirvac IBM development at 55 Coonara Avenue, West Pennant Hills adjacent to Cumberland State Forest which has been approved for a 600-home medium- and high-density residential complex,
 - (e) the development will see the removal of 1,200 trees on a site which contains critically endangered ecological communities and provides habitat for threatened species including the Powerful Owl, Eastern Pygmy Possum, Large-eared Pied Bat, Southern Myotis and Dural Land Snails, as well as other native fauna and birdlife such as large monitor lizards, echidnas, microbats, brushtail possums and numerous reptile species, and
 - (f) the site's Fauna Management Plan allows animal injuries and euthanasiation to be managed by an ecologist who is not licensed to administer the lethal drugs used by vets to ensure animals are given a humane death.
- (2) That this House:
- (a) acknowledges that the current legal framework is facilitating the unethical and inhumane euthanasiation of threatened species and other wildlife by developers, and
 - (b) calls on the Government to urgently amend the laws to ensure Fauna Management Plans are compulsory for all developments involving vegetation clearing in New South Wales, and are consistent with animal welfare laws.

(Notice given 21 June 2022—expires Notice Paper No. 149)

1900. Mr Roberts to move—

(Notice given 21 June 2022—expires Notice Paper No. 149)

1901. Ms Boyd to move—

- (1) That this House notes that the announcement from the Minister for Hospitality and Racing on 16 June 2022 that "a world first whole of life e-tracking system to monitor the location and welfare of all greyhounds registered in NSW is now underway", and further notes that:
 - (a) eTrac, the e-tracking system operated by the Greyhound Welfare and Integrity Commission (GWIC), will cease to track greyhounds once transferred from the ownership of registered industry participants,
 - (b) on the day that the Government backflipped on the greyhound racing ban in October 2016, they committed to introducing ‘whole-of-life dog cycle management’,
 - (c) in his second reading speech for the Greyhound Racing Bill 2017, in response to concerns about missing greyhounds unable to be accounted for by the industry, the then-Minister for Racing Paul Toole stated that the Bill would "enable the commission to implement whole-of-lifecycle tracking for every greyhound that enters and exits the industry" despite the Bill not explicitly allowing for whole-of-life tracking,
 - (d) in January 2020 the then-CEO of the Greyhound Welfare and Integrity Commission, Judy Lind, admitted in a letter published by Crikey that "when greyhounds are sold, retired, or given away to members of the public who are not industry participants, the Commission has no lawful right to intervene in any way in relation to those dogs", and

- (e) no change to the Greyhound Racing Act 2017 has occurred that would allow the tracking of a greyhound for the remainder of its life once its ownership is transferred away from a registered industry participant.
- (2) That this House notes with concern that:
- (a) the McHugh Special Commission of Inquiry into Greyhound Racing in New South Wales found that around 5,500 healthy greyhounds were being killed every single year in the twelve years prior to the Inquiry in New South Wales alone, and that 80,000 greyhounds were simply missing, presumably dead,
 - (b) according to the GWIC 2020-2021 Annual Report, 229 greyhounds, comprising 16 per cent of greyhounds retired in the 2020-2021 financial year, were transferred out of the racing industry by the owner or trainer directly and into the hands of people not directly involved in the industry, with the transfer not taking place through the Greyhound As Pets program, companion animal rehoming services (for example, RSPCA or pounds), or private or community greyhound rehoming programs,
 - (c) according to the GWIC 2019-2020 Annual Report, 239 greyhounds, comprising 17 per cent of greyhounds retired in the 2019-2020 financial year, were transferred out of the racing industry by the owner or trainer directly and into the hands of people not directly involved in the industry,
 - (d) analysis by the Coalition for the Protection of Greyhounds shows that up to 2,149 greyhounds disappeared in the 2019-2020 financial year, not including those 239 dogs privately transferred to industry non-participants, and GWIC has admitted 190 greyhounds are ‘potentially unaccounted for’ in 2019-2020, and
 - (e) in 2018, two years after the greyhound racing ban, a mass grave of nine greyhounds was uncovered by the RSPCA on the property of a registered greyhound trainer in Sydney’s west.
- (3) That this House affirms that:
- (a) the phrase ‘whole of life’ means the whole of one’s life, and
 - (b) the use of the phrase ‘whole of life’ to describe eTrac is misleading and disingenuous as GWIC is only empowered to track greyhounds up until they’re transferred out of the ownership of industry participants.
- (4) That this House condemns the Government for:
- (a) failing to meet their 2017 commitment to introduce whole of life tracking, and
 - (b) claiming that the eTrac system is a whole of life tracking system.
- (5) That this House calls on the Government to amend the Greyhound Racing Act 2017 to allow GWIC to track greyhounds for their whole life, including after they are transferred out of the ownership of industry participants, in line with the Greens’ Greyhound Racing Amendment (Whole-of-life Tracking) Bill 2021.

- (1) That this House notes that:

 - (b) papers were returned on 22 June 2022,

- (c) the return includes correspondence and documents relating to discussions between environment and water officials in regards to proposed downstream targets for inclusion in water sharing plans currently being proposed for amendment,
 - (d) the documents make clear the Water Minister is pushing to gain concurrence on water sharing plans amendment by 30 June 2022, despite no regulations currently being in place to support the measurement and licensing of floodplain harvesting and despite public consultation still underway on the proposed targets,
 - (e) the documents show that Environment and Heritage Group officials consider the “floodplain harvesting triggers and in-catchment flow targets do not adequately protect environmental assets” and raise concerns the proposed targets “do not support the water management principles of the WM Act.”, and
 - (f) the documents further show EHG officials consider the inclusion of the proposed floodplain harvesting rules in water sharing plans before the commencement of regulations to be “a risk to environmental assets in these valleys”.
- (2) That this House expresses its concern that:
- (a) Water Minister Kevin Anderson is pushing for changes to water sharing plans to include floodplain harvesting rules ahead of the commencement of new regulations and the opportunity for the Legislative Council to consider those regulations, and

- (1) That this House notes that:
 - (a) the pesticide, 1080, is a cruel and dangerous poison that poses serious health risks to both animals and humans,
 - (b) any animal who is unfortunate enough to ingest 1080 will suffer a slow, agonising death that can last for up to 48 hours, and involves prolonged vomiting, screaming fits and seizures before the animal eventually dies,
 - (c) it has been 15 years since that last review of 1080 by the Australian Pesticides and Veterinary Medicines Authority (APVMA), which did not even consider the potential risks to human health,
 - (d) since that review, new harmful poisons such as Para-aminopropiophenone (PAPP) have been introduced onto the market, which causes a prolonged, painful death by oxygen starvation,
 - (e) in the past 15 years, there has been further scientific evidence exposing the devastating impacts of poisoning programs, including the detrimental impact upon Australian native animals such as the Dingo, and the negative impact on biodiversity, and
 - (f) the use of cruel and inhumane poisons can never be justified, and there are humane non-lethal alternatives available.
- (2) That this House calls for:

 - (b) the Government to immediately ban the use of PAPP and 1080.

1930. Ms Faehrmann to move—

- (1) That this House notes that according to research just released by the Wesley Mission covering the last 30 years:
 - (a) the people of New South Wales have lost \$135 billion to pokie machines, which is twice as much as Victoria which lost \$66 billion over the same period,
 - (b) Sydney's two lowest-income council areas, Canterbury Bankstown and Fairfield, saw losses of \$562 million and \$527 million respectively in 2021, and
 - (c) Canterbury Bankstown Local Government Area has almost 5,000 poker machines while Fairfield has 3,800.
- (2) That this House acknowledges that the Government has failed to implement simple yet effective gambling harm reduction measures that would significantly reduce the harms caused by gambling to low socio-economic communities in pubs and clubs including:
 - (a) giving councils the right to cap gambling machine numbers in their area,
 - (b) implementing one dollar maximum bet per spin limits,

- (c) implementing pre-commitment spending limits,
 - (d) banning club loyalty programs, and
 - (e) removing features designed for addiction, including losses disguised as wins, linked jackpots and free spins.

- (1) That this House recognises the cultural heritage and ecological significance of Gaanha-bula/Mount Canobolas to Wiradjuri People and the communities of Orange and the Central West and that Gaanha-bula is a sacred site.
- (2) That this House notes that:
- (a) this sacred site is presently under threat by plans for a 100-kilometre mountain bike trail network that may cause irreversible destruction and desecration of significant Aboriginal cultural heritage, sacred Aboriginal sites and fragile ecosystems,
 - (b) Gaanha-bula is a State Conservation Area due to the ecological values and cultural significance of the landscape,
 - (c) mountain biking is a high-impact sport that degrades landscape and requires significant clearing of vegetation and earth works in the preparation and maintenance of the trails, and
 - (d) Wiradjuri Elders and local community groups such as the Canobolas Conservation Alliance must be adequately consulted and listened to in the development of this proposal.
- (3) That this House calls on the Government to:

- (a) ensure that a broad range of community stakeholders are consulted with and listened to, including Wiradjuri Elders and Canobolas Conservation Alliance, when considering the proposal of a mountain bike trail on Gaanha-bula/Mount Canobolas, and
- (b) protect the cultural heritage and the ecological values of Gaanha-bula/Mount Canobolas.

1942. Ms Boyd to move—

- (1) That this House notes that the month of June was Pride Month, which celebrates the diversity and history of the lesbian, gay, bisexual, transgender, gender diverse, non-binary, intersex, queer, asexual and aromantic community, and marks the ongoing fight for rights, equality, liberation and justice that extends past today and well into the future.
- (2) That this House notes that according to the Equality Project Australia:
 - (a) 60 per cent of young LGBTIQ+ people aged between 14 and 21 years feel unsafe at school,
 - (b) 47 per cent of people who are gay or lesbian have experienced workplace sexual harassment in the past five years,
 - (c) 63 per cent of transgender, gender diverse and non-binary people experience homelessness compared to cisgender people,
 - (d) LGBTIQ+ people are two and a half times more likely to have been diagnosed or treated for a mental health condition in the past 12 months,
 - (e) LGBTIQ+ employees are twice as likely to be victims of workplace discrimination as their non-LGBTIQ+ colleagues, and
 - (f) greater work is needed on behalf of all levels of society including local, state and federal governments, political parties, government departments and commissions, businesses, policy professionals and community members, to break systemic barriers to inclusion and participation and create a truly inclusive society where LGBTIQ+ people are valued, respected and have equitable access to necessary supports.
- (3) That this House affirms that people identifying as part of the LGBTIQ+ community are impacted by a plethora of issues and problems at a disproportionate rate and face a variety of barriers to participation in all facets of society including bullying and discrimination, lack of access to services such as healthcare and education, higher rates of unemployment and homelessness, and higher rates of depression and anxiety.
- (4) That this House calls on every member in this Parliament to work toward creating an inclusive society that not only welcomes but celebrates all members of the LGBTIQ+ community.

(Notice given 9 August 2022—expires Notice Paper No.152)

1943. Ms Boyd to move—

- (1) That this House notes that the overturning of the landmark *Roe v Wade* ruling by the United States Supreme Court, which will enable individual states to make their own abortion laws, has and will continue to dramatically impact reproductive rights and bodily autonomy for millions of women and people with uteruses in the United States, and will likely have significant consequences and reverberations globally on the nature of choice, freedom and autonomy.
- (2) That this House notes that, as has been argued by Marie Stopes Australia, the peak nationally accredited sexual and reproductive provider:
 - (a) it is important to stand in solidarity with all women and people with uteruses across the world and support their right to reproductive freedom,
 - (b) while abortion has been partly decriminalised across Australia, there are disparate regulations and barriers that produce significantly different levels of access to safe, affordable and legal abortions,
 - (c) there is urgent need for universal abortion access, and to embed abortion care in the healthcare system,
 - (d) in New South Wales, despite abortion being decriminalised in 2019, abortion regulations currently do not allow for nurses, midwives and Aboriginal and Torres Strait Islander Health workers to provide medical abortions without criminalisation, nor do they permit complete access to abortion care without needing to provide justification of choice, and
 - (e) only nine percent of general practitioners across Australia offer abortion healthcare, despite one in four women requiring an abortion at some stage in their lives.
- (3) That this House calls on the Government to take direct action to support universal access to abortion, greater investment in the National Women's Health Strategy and comprehensive and robust sexual health education in all schools, and to address the gaps caused by inconsistency in abortion regulations across state and territory borders.

- (1) That this House notes the significant, unique and essential role of volunteer based community organisations in the animal welfare sector, who do invaluable work in animal welfare advocacy, rescue and rehoming, foster care, regular medical care and emergency care, and further notes that:
 - (a) the New South Wales Budget 2022-23 delivered on 21 June 2022 included very little allocation of funding for community animal welfare organisations, including no additional

funding for those in the Northern Rivers which have faced significant difficulties in providing emergency care to animals affected by the recent catastrophic floods, and

- (b) community animal welfare organisations have for many years operated in New South Wales without government funding or support, instead relying on generous donations from members of the public, the work of volunteers and through bequests to provide essential services to the community.
- (2) That this House commends the vital role of community organisations such as Animal Rights and Rescue Group (ARRG), which have provided essential emergency care and services in animal rescuing, rehoming, fostering and medical care during and following the Northern Rivers floods, operating solely on community resilience, volunteerism, and the generosity of community members with no financial assistance from the Government, and further commends Upper Cooper’s Creek Primary School for their dedicated fundraising and donation to ARRG to help support animals affected by the floods.
 - (3) That this House calls on the Government to commit to supporting the vital work of volunteer-based community animal welfare organisations across the state by providing funding for these organisations to continue their work and advocacy.

- (1) That this House notes the Queensland Government’s announcement on 18 June 2022 committing to implement universal extended care up to age 21 across the State for all young people in care including foster, kinship or residential care, which is in line with calls from stakeholders and Government commitments in South Australia, Western Australia and Victoria.
- (2) That this House notes that:
 - (a) New South Wales is currently the only state and/or territory in Australia that has not committed to the funding and policies of universal extended care to 21 years,
 - (b) peak stakeholders and advocates in the youth care sector, including The Home Stretch and Uniting New South Wales, have been calling on, and continue to call on, the New South Wales Government to join the rest of Australia in extending care to 21 years including: The Home Stretch and Uniting New South Wales,
 - (c) many countries across the world have extended the leaving care age to 21 years, including the United Kingdom, the United States, Canada, parts of Europe and New Zealand,
 - (d) according to Uniting New South Wales, young Australians who leave care at 18 years or younger without support are far more likely to experience significant issues including unemployment, homelessness, unwanted pregnancy during adolescence and jail within the first year of leaving care,
 - (e) according to an evaluation by The Home Stretch, in jurisdictions where care has been extended to 21 years the jurisdiction has halved the homelessness rates of this cohort and doubled their education and employment engagement, and
 - (f) Uniting New South Wales' Extended Care Pilot Program launched in 2019 found that the Government currently spends approximately \$270,000 in the 20 years after an individual leaves care at the age of 18, whereas it would only have to spend \$33,000 to support this individual living in foster, kinship or residential care until the age of 21.

- (3) That this House calls on the Government to commit to a universal policy for care leavers to be supported by the State until the age of 21, in line with design and funding recommendations from across Australia.
