Emission Free Modes of Public Transport

That the Legislative Assembly Committee on Transport and Infrastructure inquire into and report on the feasibility of emission free modes of public transport in the long term, with particular reference to:

- a) the capacity and capability for industry to provide emission free modes of public transport,
- b) benefits and costs to taxpayers,
- c) the opportunities for, and impact to, local manufacturing operations,
- d) other jurisdictions that have emission free modes of public transport, and
- e) any other related matters.
