

In relation to the Hon. Scott Farlow's question (on notice) I respond as follows:

The RYDA program was first offered to Tasmanian schools in 2007.

From 2010, RYDA has received government support to facilitate attendance by year 10 students.

The annual number of deaths in the 17-25 year age group are as follows:

2016	7
2015	10
2014	3
2013	6
2012	3
2011	4
2010	6
2009	14
2008	10
2007	13
